Enrollment

Students will receive academic credit only for courses in which they are officially enrolled. Student-initiated enrollment is mandatory. Students are not permitted to attend courses in which they are not enrolled. Enrollment deadlines are published in the Academic Calendar (https://www.apu.edu/calendar/academic/). Students are expected to enroll online or submit an Enrollment Activity Form (https://www.apu.edu/graduateprofessionalcenter/registrar/forms/) by the returning students' registration due date.

Students seeking to enroll in graduate courses while enrolled as either an undergraduate or professional student should follow the Graduate Courses Taken by Undergraduate Students enrollment policy listed in the catalog's undergraduate (http://catalog.apu.edu/policies-procedures/undergraduate/graduate-courses-taken-undergraduate-students/) and professional (http://catalog.apu.edu/policies-procedures/professional/enrollment/graduate-courses-taken-undergraduate-students/) sections, respectively. Failure to follow these policies, and enrolling in graduate courses through any other method, will result in an administrative withdrawal of graduate courses.
