Supplemental Instruction (SI)

Supplemental Instruction (SI) helps students in difficult courses master course content while they develop and integrate effective learning and study strategies. SI leaders attend course lectures, prepare for sessions, meet with faculty, and conduct two to three out-of-class study sessions per week. Courses designated for SI support are announced in class at the beginning of each semester. Additional information about SI sessions can be obtained by contacting the Learning Enrichment Center (http://www.apu.edu/lec) at (626) 815-3849. SI session times for specific courses can be found on the LEC’s Supplemental Instruction page (http://www.apu.edu/lec/instruction).
