Minor in Computer Science

Program Learning Outcomes Program Learning Outcomes

Students who successfully complete this program shall be able to:

- 1. Analyze a complex computing problem and to apply principles of computing and other relevant disciplines to identify solutions.
- 2. Design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program's discipline.
- 3. Apply computer science theory and software development fundamentals to produce computing-based solutions.
