BS in Psychology

48 units

The BS in Psychology (https://www.apu.edu/bas/programs/psychology-majors/) program helps students understand psychological science and the various statistical and research methodologies used to study human thought and behavior, equipping them with strong foundational knowledge in areas of applied psychological science, as well as a strong skill set in research. Students who complete the program are well equipped to pursue graduate education and/or careers in psychology and allied health fields (e.g., physician's assistant, physical therapy, occupational therapy, speech therapy, nutrition), as well as a variety of research-related careers.

Requirements

PSYC 301

PSYC 302

The Bachelor of Science in Psychology is ideal for students interested in psychological research and related careers. The core requirements (Domain 1) give students grounding in the discipline and an understanding of the basics of human behavior. The career-focus electives (Domain 2) provide students with applications of psychology, clustered by common themes and areas of employment. And the applied-learning electives (Domain 3) provide students with internship and/or research experience.

- Meets the General Education Quantitative Literacy requirement.
- Meets the General Education Natural Sciences requirement.
- An AP Psychology score of 3, 4, or 5 will be accepted for PSYC 110.
- Meets the General Education Social Sciences requirement.
- Meets the General Education Writing 2 requirement.
- Meets the General Education Writing 3 requirement.
- Meets the General Education Intercultural Competence requirement.
- Meets the General Education Civic Knowledge and Engagement requirement.
- 9 Requires senior standing and departmental permission.
- Meets the General Education Integrative and Applied Learning requirement.
- Students may petition to take PSYC 455 instead of PSYC 475.

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

- 1. DISCIPLINARY KNOWLEDGE- Demonstrate a working knowledge of psychology's content domains, key theories, concepts, principles, themes, and applications of psychology in society.
- 2. CRITICAL THINKING, SCIENTIFIC INQUIRY AND EFFECTIVE COMMUNICATION- Demonstrate effective expression of critical thought and scientific inquiry in their engagement with (a) psychology literature, (b) conduct of psychological research, and (c) written, (d) oral, and interpersonal communication.
- 3. VALUES AND ETHICS- Students (a) demonstrate knowledge of the APA ethical (a.1) and multicultural ethical (a.2) standards for the practice of psychology and are able to utilize those standards in decision making and actions in scientific inquiry (a.3), sociocultural (a.4), and interpersonal contexts (a.5). Students (b) articulate and behaviorally express values that build and enhance interpersonal relationships and community engagement at local, multicultural, and cross cultural levels.
- 4. APPLICATION TO VOCATION- Demonstrate the ability to utilize and apply psychological knowledge and professional skills to: (a) develop vocational post-baccalaureate goals, (b) work collaboratively with diverse others, (c) serve others needs, (d) self-regulate and manage projects successfully, and (e) solve increasingly complex problems.
- 5. FAITH INTEGRATION- Demonstrate skill in the integration of Christian faith and theology with the science of psychology as it relates to the nature and content of: humanity (F1), knowledge (F2), values and ethics (F3), and vocational and spiritual formation (F4).
