

MA in Physical Education and Single Subject Teaching Credential

For more information: (626) 815-5473

The Master of Arts in Physical Education and Single Subject Teaching Credential program (<https://www.apu.edu/bas/programs/masters-in-physical-education-single-subject/>) equips students with the skills and knowledge needed to teach physical education and coach at the K-12, junior college, and four-year university levels. The Single Subject Teaching Credential may be completed in the subject area of physical education. It includes comprehensive foundations courses emphasizing methods alongside specialization courses providing content required for the California Single Subject Preliminary Teaching Credential, as well as practical classroom and fieldwork experiences and advanced coursework in the emphasis area of physical education. The mode of delivery includes campus-based classes, field experiences, and online courses, but predominantly includes face-to-face courses.

The Master of Arts in Physical Education and Single Subject Teaching Credential is approved by the California Commission on Teacher Credentialing (CTC) (<https://www.ctc.ca.gov/>) and the Council for the Accreditation of Educator Preparation (CAEP) (<https://caepnet.org/>). All single-subject teachers receive certification to teach in a specific content area through their subject-matter competence, which is achieved either through completion of a CTC-approved subject-matter program in physical education or passage of appropriate California Subject Examination for Teachers (CSET) physical education subtests. Upon completion, the credential candidate will have earned a California Single Subject Preliminary Teaching Credential in Physical Education and a Master of Arts in Physical Education.

Requirements

Graduate physical education students must maintain a cumulative GPA of 3.0 (B) or better, and may not earn lower than a 2.7 (B-). Students who earn below a 2.7 (B-) in a course must retake the course and achieve the minimum GPA requirement.
