

# BA in Interdisciplinary Studies

54 units

## Mission

The interdisciplinary studies major (<https://www.apu.edu/theology/programs/interdisciplinary-studies-major/>) is an individualized academic program that crosses diverse fields of study. This degree allows students whose vocational or intellectual goals do not lead them to an existing degree program the opportunity to explore many different disciplines, glean important perspectives, knowledge, and skills while working toward a singular degree. As part of the degree program, students benefit from guidance in exploring and discerning vocational calling for themselves and others. Ultimately, the program allows students to design a major around multiple interests and with a core of vocational exploration and development that helps them identify their vocational calling and prepare for vocations that cross disciplinary boundaries.
