

Master of Public Health (MPH)

Program Learning Outcomes

Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Articulate a Christian worldview, demonstrating respect for the dignity and uniqueness of others, valuing diversity and integrity, and applying spiritual concepts.
2. Engage in evidence-based methods to understand and address public health issues, using critical reasoning, scholarly inquiry, knowledge of peer-reviewed scientific literature, bioinformatics, and data analysis.
3. Design population-based policies and programs that promote health, prevent disease, and address social equity issues.
4. Apply principles of leadership to promote interprofessional collaboration and decision-making among diverse stakeholders.
5. Utilize systems-level thinking and communication in response to public health issues - analyzing and synthesizing policies and programs that address efficiency, cost-effectiveness, and health equity.
