## EDUC 538, Current Issues in Education, 3 Units

In this course, master's degree candidates investigate, analyze, discuss, and propose solutions for the most significant problems, concerns, and challenges in education today. The course includes four areas of concentration: curriculum, with a focus on instructional design; teaching practice; school organization; and the politics of education. Candidates study current research relevant to course topics, analyze varying perspectives, and evaluate them in terms of teaching and learning effectiveness as well as the quality of life in the school community. Through compilation and synthesis of empirical work on a specific topic area, candidates craft a literature review to demonstrate expertise in current trends and future directions of research.
**Prerequisite:** EDUC 560

## EDUC 546, Digital Communications, 3 Units

This course engages students in collaborative, investigative, and reflective learning opportunities through the exploration of relevant digital communication tools. Attention is given to current modes of communication that utilize a digital platform, and effective strategies for implementation within teaching/learning environments.
**Prerequisite:** EDUC 560

## EDUC 547, Special Topics in Educational Technology, 3 Units

Students in this course explore the current technologies, trends, and a variety of special topics in educational technology. Course material covers practical and theoretical aspects, effectiveness, and problems related to the implementation of the topic into relevant teaching/learning environments. Different topics are offered at different times, so the course may be repeated for credit.
**Prerequisite:** EDUC 560

## EDUC 548, Emerging Trends in Technology, 3 Units

This course covers the historical development of educational technology and the social issues influencing its growth and implementation. Attention is also given to a synthesis of research related to the field, professional organizations serving the discipline, and emerging innovative uses of educational technology.
**Prerequisite:** EDUC 560

## EDUC 560, Action Research in Education, 1 Unit

This course introduces students to basic qualitative and quantitative research methods, designs, and reporting strategies. Master's degree candidates are enabled to develop an understanding of the research process by introducing the basic principles of research and academic writing. Through activities integrating theory with practice, candidates learn how to identify problems to study, develop research questions, specify data collection methods and design their action research projects which are continued in a subsequent course.

## EDUC 569, Capstone Seminar, 2 Units

Culminating the MA emphasis courses, the capstone seminar helps students build on the coursework representing their repertoire of academic preparation from the credential and master's programs. Master's candidates complete their action research projects, and create an ePorfolio for compiling assignments that profile their professional identities (personal philosophy, identity and dispositions narrative), their scholarly work (ethnography, curriculum assessment, literature review), and their practical applications (lesson and unit plans, classroom management) in the classroom. In this way, students refine and contribute further to a body of work representing their accomplishments and professional identity. Finally, through this course, candidates enhance their understanding and experience of a community's connection to the school environment.
**Prerequisite:** EDUC 536, EDUC 537, and EDUC 538; or EDUC 546, EDUC 547, and EDUC 548; or EDUC 556, EDUC 557, and EDUC 558

## TEP 511, Art of Teaching II: Pedagogy and Instructional Design, 3 Units

This course explores pedagogy as the combination of teachers' professional knowledge, skills, and abilities, which are directed to create effective learning opportunities and outcomes for all students in a range of contexts. Building on broad themes from TESP 501 The Art of Teaching I, teacher candidates explore pedagogical methods and specific models for meeting individual student needs, utilizing universal and individualized strategies. Attention is given to culturally responsive teaching practices for learners with diverse cultural and ethnic identities, as well as differentiation practices for students with various learning needs. Candidates further analyze the relationship between curriculum, pedagogy, and assessment, and examine and reflect on the Christian worldview in relation to student diversity and developing a climate of equity and collaboration within classrooms. This course includes 15 hours of required field experience in a k-12 school.
**Prerequisite:** TESP 501

## TEP 512, Science of Teaching II: Effective Assessment Strategies for All Learners, 3 Units

Students in this course explore strategies for designing standards and data-driven curricular plans and units to serve diverse (e.g., culturally, linguistically, and/or ability-diverse) student populations. Teacher candidates engage in the administration and analysis of formative, summative, and diagnostic assessment to inform the ongoing development of differentiated instruction that serves the unique academic needs of students from diverse, intersecting backgrounds and identities. In view of the academic achievement gap that exists in California k-12 schools, candidates utilize assessment results, alongside state frameworks and current standards specific to their specialization, in development of further curriculum/planning, instruction, and assessment cycles that demonstrate the use of instructional strategies, materials, technologies, and other resources to make content connected, contextualized, and accessible to all students. Candidates consider how a Christian worldview catalyzes their commitment to engage fully in the work of creating classrooms that meet the needs of all their students. This course includes 15 hours of required field experience in a k-12 school.
**Prerequisite:** TESP 502

## TEP 521, Methods of Teaching Reading and Writing (K-8), 3 Units

This course prepares teacher candidates to implement a comprehensive literacy program of systematic instruction in reading, writing, listening, speaking, and language aligned with the California Common Core State Standards for English Language Arts and the English Language Arts/English Language Development Framework. Through application of research-based instructional practices, candidates learn specific ways to address the diverse needs of all students.

## TEP 522, Methods of Teaching Mathematics (K-8), 3 Units

This course introduces teacher candidates to the California Common Core State Standards for Mathematics and the Standards for Mathematical Practice. In addition to relevant theory, the course focuses on pedagogical methods and strategies for teaching math to all students in K-8 classrooms. This course prepares teacher candidates to develop curriculum designed to ensure the success of diverse student populations. Moreover, issues addressed in the course include, but are not limited to technology integration; differentiated instruction and culturally appropriate pedagogical practices; and subject-specific strategies for teaching and assessing.

## TEP 523, Methods of Teaching Science (K-8), 2 Units

This course introduces credential candidates to state-adopted K-8 Next Generation Science Standards and the 2016 Science Framework for California Public Schools: Kindergarten Through Grade Twelve, as well as science concepts and principles, scientific investigation, experimentation, and student assessment. Emphasis is on balanced instruction between Disciplinary Core Ideas, Crosscutting Concepts, and Scientific and Engineering Practices as described in the Next Generation Science Standards. This course also focuses on facilitating K-8 students' ability to independently read and comprehend instructional materials and graphic/media representations, integrate mathematical concepts and practices in scientific investigations, develop academic language, engage in disciplinary discourse practices, and understand the connections between science, society, technology, and the environment. The teaching of physical education and health education in grades K-8 is also covered.
**Corequisite:** TEP 551

## TEP 524, Methods of Integrating the Humanities (K-8), 2 Units

This course, intended for students in clinical practice (student teaching or intern placements), introduces methods of connecting moral and civic education with the social sciences and the arts through thematic teaching, in ways that comply with state frameworks and academic content standards, specifically focusing on the California Common Core State Standards. Course material utilizes a wide range of high-quality children's literature and performing and visual arts strategies. Emphasis is on a meaning-centered, diverse humanities curriculum designed to promote critical thinking skills and meet the needs of all students, including those with special needs and those from culturally and linguistically diverse backgrounds.
**Corequisite:** TEP 552

## TEP 531, Methods of Teaching Reading and Writing (7-12), 3 Units

This course includes intensive instruction in reading and language arts methods grounded in methodically sound research, to be incorporated in all subject areas. The study of secondary reading and language arts methods includes effective strategies and methods for guiding and developing the content-based reading and writing abilities of all students, including students with varied reading levels and language backgrounds. Teacher candidates examine well-designed systematic instructional programs, and the implementation of California Common Core State Standards (CCSS) for reading and writing in an integrated fashion with the standards for their subject area.

## TEP 532, Secondary Pedagogy I: Teaching in Secondary Schools (7-12), 2 Units

This course is designed for individuals who are teaching in middle or high school subject areas, such as math, ELA, social studies, science, art, physical education, music, etc. Teacher candidates in this course explore the teacher's and the students' roles in middle and high school classrooms. This course focuses on the history, development, and reform measures of middle and high schools to create positive environments that foster inquiry and promote a meaningful learning setting, including trends addressing cultural diversity. Aspects of middle and high school covered in this course include student-centered learning; critical teaching skills for making lessons relevant to students (including culturally relevant practices); cognitive and behavioral development as it affects curriculum design; lesson planning; differentiated instruction; use of technology; assessment; and intentional, reflective teaching practices. All assignments are completed in the subject area for which the individual is seeking the Single Subject Teaching Credential.
**Corequisite:** TEP 561

## TEP 533, The Differentiated Classroom: Maximizing Capacity of Each Learner (7-12), 3 Units

This course explores the philosophical and practical aspects of differentiation as defined by the entirety of classroom practice by the interdependence of the key aspects of curriculum, instruction, assessment, the learner, and the learning environment. Teacher candidates engage in activities that support the development of a teaching philosophy and practice that cultivates the K-12 learner as an active participant with a shared understanding of an investment in a differentiated classroom. Teacher candidates develop competence in analyzing and applying knowledge of K-12 students' achievement, instructional needs, social-emotional needs, cultural and language factors, and other relevant data necessary to improve teaching and learning for all students. Candidates also begin the development of an Individualized Learning Plan to gain competence as a reflective practitioner and further develop the professional knowledge, skills, and dispositions necessary to meet the expectations for beginning teachers as outlined in the California Teaching Performance Expectations.

## TEP 534, Secondary Pedagogy II: Content-Specific Strategies, Teaching, and Assessment (7-12), 2 Units

This course engages candidates who are in clinical practice (student teaching or intern placements) in discussion of common challenges faced by teacher candidates in secondary classrooms, and also focuses on content-specific pedagogical strategies by subject matter. Issues addressed in the course include, but are not limited to, teacher beliefs and their effect on student performance; classroom management; effective curriculum and lesson development; culturally appropriate pedagogical practices; the "plan, teach, assess, reflect, and apply" cycle; content-specific strategies for teaching and assessing; and preparation for the workforce. Individual concerns and issues raised during student teaching or the internship are addressed.
**Prerequisite:** TEP 532;
**Corequisite:** TEP 562

## TEP 551, Clinical Practice I: Multiple Subject Credential, 2 Units

Clinical practice gives teacher candidates a culminating preparatory experience toward which the teacher candidate's entire teacher education program has been planned. The purpose is to develop and verify beginning-level teaching competency in candidates by the end of the clinical practice semester, according to standards set by the California Commission on Teacher Credentialing (CTC) and the Council for the Accreditation of Educator Preparation (CAEP). Clinical practice provides a full-time, experience-based program in which teacher candidates (contracted and noncontracted) have opportunities to participate as classroom teachers in schools while supervised by a university mentor. Focus is given to many areas of background learning and to coordinating those areas into a meaningful set of experiences. These experiences include, but are not limited to, designing and implementing instruction for their multiple subject grade level and learners, promoting and supporting rigorous and appropriate content in their lessons, creating a positive environment for students with diverse needs, and reflecting in order to monitor student learning and adjust instruction. Clinical practice also provides teaching experiences with English learners and ethnically diverse students. *Meets the General Education Requirement: Integ Applied Learning (TEP 551 + TEP 552).*
**Corequisite:** TEP 523

## TEP 552, Clinical Practice II: Multiple Subject Credential, 2 Units

Clinical practice gives teacher candidates a culminating preparatory experience toward which the teacher candidate's entire teacher education program has been planned. The purpose is to develop and verify beginning-level teaching competency in candidates by the end of the clinical practice semester, according to standards set by the California Commission on Teacher Credentialing (CTC) and the Council for the Accreditation of Educator Preparation (CAEP). Clinical practice provides a full-time, experience-based program in which teacher candidates (contracted and noncontracted) have opportunities to participate as classroom teachers in schools while supervised by a university mentor. Focus is given to many areas of background learning and to coordinating those areas into a meaningful set of experiences. These experiences include, but are not limited to, designing and implementing instruction for their multiple subject grade level and learners, promoting and supporting rigorous and appropriate content in their lessons, creating a positive environment for students with diverse needs, and reflecting in order to monitor student learning and adjust instruction. Clinical practice also provides teaching experiences with English learners and ethnically diverse students. *Meets the General Education Requirement: Integ Applied Learning (TEP 551 + TEP 552).*
**Prerequisite:** TEP 551;
**Corequisite:** TEP 524

## TEP 561, Clinical Practice I: Single Subject Credential, 2 Units

Clinical practice gives teacher candidates a culminating preparatory experience toward which the teacher candidate's entire teacher education program has been planned. The purpose is to develop and verify beginning-level teaching competency in candidates by the end of the clinical practice semester, according to standards set by the California Commission on Teacher Credentialing (CTC) and the Council for the Accreditation of Educator Preparation (CAEP). Clinical practice provides a full-time, experience-based program in which teacher candidates (contracted and noncontracted) have opportunities to participate as classroom teachers in schools while supervised by a university mentor. Focus is given to many areas of background learning and to coordinating those areas into a meaningful set of experiences. These experiences include, but are not limited to, designing and implementing instruction for their single subject content area and learners, promoting and supporting rigorous and appropriate content in their lessons, creating a positive environment for students with diverse needs, and reflecting in order to monitor student learning and adjust instruction. Clinical practice also provides teaching experiences with English learners and ethnically diverse students. *Meets the General Education Requirement: Integ Applied Learning (TEP 561 + TEP 562).*
**Corequisite:** TEP 532

### TEP 562, Clinical Practice II: Single Subject Credential, 2 Units

Clinical practice gives teacher candidates a culminating preparatory experience toward which the teacher candidate's entire teacher education program has been planned. The purpose is to develop and verify beginning-level teaching competency in candidates by the end of the clinical practice semester, according to standards set by the California Commission on Teacher Credentialing (CTC) and the Council for the Accreditation of Educator Preparation (CAEP). Clinical practice provides a full-time, experience-based program in which teacher candidates (contracted and noncontracted) have opportunities to participate as classroom teachers in schools while supervised by a university mentor. Focus is given to many areas of background learning and to coordinating those areas into a meaningful set of experiences. These experiences include, but are not limited to, designing and implementing instruction for their single subject content area and learners, promoting and supporting rigorous and appropriate content in their lessons, creating a positive environment for students with diverse needs, and reflecting in order to monitor student learning and adjust instruction. Clinical practice also provides teaching experiences with English learners and ethnically diverse students. *Meets the General Education Requirement: Integ Applied Learning (TEP 561 + TEP 562).*
**Prerequisite:** TEP 561;
**Corequisite:** TEP 534

### TEP 590, Candidate Support and Supervision, 1-3 Units

Teacher candidates explore current educational practices and a variety of special topics in the field of education, and course material covers practical and theoretical aspects relevant to the teaching/learning environment. Interns may be required to take this course during their program in an effort to meet program requirements while receiving mandated supervision and support. This course may be repeated four (4) times for credit for a total of 4-12 units.

### TESP 501, Art of Teaching I: Foundations of Teaching, 3 Units

This course provides an introduction to basic pedagogy, including classroom management, lesson planning and teaching, standards-based instruction, teaching strategies for students with diverse identities and needs, and the application of technology to support teaching and learning. Teacher candidates consider strategies, models, and processes for meeting the needs of a broad range of K-12 students, including special needs students, gifted students, English language learners, speakers of nondominant varieties of English, and students of all cultural or ethnic identities. This course is designed for direct application of classroom learning by candidates in a collaborative context that implements inclusion. Candidates examine Christian character and develop an understanding of grace in the Christian worldview as applied in classroom contexts, in consideration of meeting the needs of students and building community within the classroom. This course includes 15 hours of required field experience in a K-12 school.

### TESP 502, Science of Teaching I: How Students Learn, 3 Units

This course comprises a basic overview of human growth and development for all students in the K-12 environment. Teacher candidates identify how research on the neuroscience of learning, theories of learning, and student motivation affect current understanding of student development through the K-12 education experience. They then creatively and collaboratively investigate how this knowledge can enable them to meet the needs of all students, including underserved populations, English language learners, and individuals with diverse learning needs (from gifted learners to individuals with mild to severe disabilities). Candidates also examine their own cultural beliefs, attitudes toward diversity, and related assumptions, identifying how these might affect student learning and achievement in their classrooms. Candidates demonstrate applied knowledge of communication styles and strategies for fostering positive cross-cultural interactions among students who are diverse in terms of culture, language, and ability. Finally, candidates reflect on the need to support the development of all students from a Christian worldview. This course includes 15 hours of required field experience in a K-12 school. *Meets the General Education Requirement: Social Science.*

### TESP 503, The Soul of Teaching: Tapestry of American Education, 3 Units

This course introduces teacher candidates to the history of American education and a sampling of modern philosophies of education, examined through the lens of a Christian worldview. Specific consideration is given to the ways in which historical trends have contributed to today's education system, including how social and philosophical movements, as well as policy changes, have shaped the growth and inclusiveness of education in the U.S. Candidates reflect on the continued need for education equity for all students in U.S. schools, and explore inclusive practices for diverse populations, professional dispositions, teacher resiliency, and their role in perpetuating social justice in education. They engage culturally appropriate response strategies that enhance learning opportunities in a cross-cultural context, and identify how a Christian worldview enables and directs a commitment to principles of equity and justice in their practice. *Meets the General Education Requirement: Intercultural Competence.*

### TESP 504, Schools and Educational Systems, 3 Units

This course explores the legal, ethical, and organizational systems (federal, state, district, and school) within which teachers conduct their work. Teacher candidates engage in an examination of school and community cultures and their impact on learning, by focusing on the ways teachers communicate and collaborate with external and internal stakeholders to provide equitable access to all students. Additionally, contractual responsibilities and professional expectations are addressed. Candidates also consider the ways in which educators, from a Christian worldview, can advocate to transform social problems impacting school culture. *Meets the General Education Requirement: Civic Knowledge and Engagement.*

# BA in Liberal Studies/Undergraduate Education K-8 Program

84 units

# Mission

The liberal studies major (https://www.apu.edu/education/programs/liberal-studies-major/) equips future teachers and other professionals by integrating coursework and service-learning experiences with the application of a Christian worldview as it relates to life vocation. It promotes awareness of cultural diversity issues and studies multiple curricula with an emphasis in specific subject areas aligned with Common Core standards for subject matter while fostering a holistic understanding of knowledge.

# Program Overview

The Liberal Studies/Undergraduate Education K-8 program offers a Bachelor of Arts in Liberal Studies aligned with California Common Core subject matter standards in order to prepare undergraduate students seeking careers as elementary school teachers with the breadth of content knowledge needed to teach in a K-8 setting.

The liberal studies degree provides future elementary school teachers with opportunities to teach in a self-contained classroom environment. Opportunities are available to take additional units toward a Supplementary/Subject Matter Authorization, if the student desires to teach content up to a ninth-grade level. Consult the Liberal Studies/Undergraduate Education K-8 program in the Division of Teacher Education for complete information.

During the first two years of college, it is suggested that undergraduate liberal studies majors complete university General Education requirements and prerequisites to upper-division coursework, which is embedded in the program's four-year plan. Students may want to explore the teaching field by taking EDLS 200 or EDLS 202 as sophomores, juniors, or seniors, along with EDLS 405, EDLS 495, and EDLS 496. Students in this program participate in a minimum of 75 hours of teacher-oriented, service-learning field experience and observation through several core liberal studies/undergraduate education K-8 courses.

APU liberal students students prepare to work in schools as teachers, and they must know and demonstrate the content, pedagogical, and professional knowledge, skills, and dispositions necessary to help all K-8 students learn. Completion of the liberal studies major meets the California Commission on Teacher Credentialing (CTC) (https://www.ctc.ca.gov) subject matter requirement for the Preliminary Multiple Subject Credential or Education Specialist Credential. The liberal studies major is not a CTC-approved educator preparation program. Liberal studies students seeking to complete a CTC-approved educator preparation program need to complete the BA in Liberal Studies with Integrated Credential (p. 549) program or one of the master's or credential (p. 505) programs offered by the Division of Teacher Education

# Career Opportunities

Though most liberal studies graduates enter teaching credential programs and find teaching positions in public and private schools locally, nationally, and abroad, demand exists in the business and communication fields as well because of the increasing need for college graduates with broad and diverse academic backgrounds. Potential teaching careers exist in multiple subject, single subject, and special education.

# Requirements

| Code | Title | Units |
|---|---|---|
| **Education and Human Development** | | |
| Select one of the following: | | 4 |
| EDLS 200 | Introduction to Teaching as a Profession K-12 [1,2] | |
| EDLS 202 | Introduction to Teaching as a Profession (7-12) [1,2] | |
| PSYC 290 | Human Growth and Development [1,3] | 3 |
| EDLS 405 | Diversity in the Classroom [1,4] | 3 |
| EDLS 495 | Foundations of Education Capstone [1,5] | 3 |
| EDLS 496 | Writing 3: Education and Professional Ethics [1,6] | 3 |
| **English/Language Arts** | | |
| COMM 111 | Public Communication [7] | 3 |
| ENGL 111 | Studies in Literature [8] | 3 |
| THTR 115 | Introduction to Theater [9] | 3 |
| ENGL 402 | Principles of Language | 3 |
| ENGL 434 | Children's Literature [1] | 3 |
| **Mathematics** | | |
| Select one of the following: | | 3 |
| MATH 110 | College Algebra [10] | |
| MATH 130 | Introduction to Statistics [10] | |
| MATH 201 | Mathematics Concepts for Elementary Teachers [1] | 3 |
| **Science** | | |
| Select one of the following: | | 4 |

| | | |
|---|---|---|
| BIOL 101 | Biology and Society [11] | |
| BIOL 151 | General Biology I [11] | |
| PHYC 115 | Physical Science for Teachers | 3 |
| PHYC 125 | Earth Science Concepts and Applications | 3 |
| BIOL 400 | Science and Children [1] | 4 |
| **Social Science** | | |
| HIST 121 | World Civilizations Since 1648 [12] | 3 |
| HIST 201 | World Civilizations and Geography to 1648 | 3 |
| HIST 202 | United States History to 1930 [1, 13] | 3 |
| HIST 338 | History of California | 3 |
| **Physical Education** | | |
| PE 450 | Physical Education in Elementary Schools, K-6 [1] | 3 |
| **Visual and Performing Arts** | | |
| ART 310 | Fundamental Art Experiences [1, 9] | 3 |
| MUS 432 | Music in the Elementary Schools [1] | 3 |
| **Concentrations** | | |
| Select one concentration from the list below. | | 12 |
| **Total Units** | | **84** |

[1]    This is a core liberal studies course. The 38 units of core liberal studies coursework must be completed with a grade of *C* or higher and an overall GPA of 3.0 or higher.
[2]    Meets the General Education Civic Knowledge and Engagement requirement.
[3]    Meets the General Education Social Sciences requirement.
[4]    Meets the General Education Intercultural Competence requirement.
[5]    Meets the General Education Integrative and Applied Learning requirement.
[6]    Meets the General Education Writing 3 requirement.
[7]    Meets the General Education Oral Communication requirement.
[8]    Meets the General Education Humanities: Literature requirement.
[9]    Meets the General Education Humanities: Fine Arts requirement.
[10]   Meets the General Education Quantitative Literacy requirement.
[11]   Meets the General Education Natural Sciences requirement.
[12]   Meets the General Education Humanities: History requirement.
[13]   California Education Code Section 44335 requires all candidates for a teaching credential to demonstrate knowledge of the United States Constitution by completing a college-level course or a college-level examination in the subject; successful completion of either with a grade of *C* or higher meets this California Education Code requirement.

**Students in the liberal studies major are limited to completing only one concentration from those listed below. A concentration course cannot double-count to meet a concentration requirement and a major requirement listed above.**

## Art Concentration

| Code | Title | Units |
|---|---|---|
| **Required Courses** | | |
| ART 145 | Drawing I [1] | 3 |
| ART 146 | Painting I | 3 |
| Select one of the following art history courses: | | 3 |
| ART 354 | History of Ancient Art and Architecture [1] | |
| ART 356 | Writing 3: History of Modern Art and Architecture [2] | |
| ART 357 | History of Contemporary Art and Architecture [1] | |
| ART 361 | History of Early Christian and Medieval Art and Architecture [1] | |
| ART 362 | History of Renaissance to Rococo Art and Architecture [1] | |
| Select one of the following crafts courses: | | 3 |
| ART 105 | Ceramics I [1] | |
| ART 111 | Printmaking: Serigraph | |
| ART 170 | Sculpture I | |

| Code | Title | |
|------|-------|---|
| ART 403 | Multicultural Art [1] | |
| **Total Units** | | **12** |

[1] Meets the General Education Humanities: Fine Arts requirement.
[2] Meets the General Education Writing 3 requirement.

## English Concentration

| Code | Title | Units |
|------|-------|-------|
| **Required Courses** | | |
| ENGL 404 | Approaches to Grammar | 3 |
| ENGL 406 | Writing 3: Advanced Composition [1] | 3 |
| Select one of the following English or world literature courses: | | 3 |
| ENGL 222 | English Literature to 1789 [2] | |
| ENGL 224 | World Literature to the Renaissance [2] | |
| ENGL 232 | English Literature Since 1789 [2] | |
| ENGL 234 | World Literature Since the Renaissance [2] | |
| ENGL 377 | Shakespeare | |
| ENGL 386 | Contemporary Global Writers | |
| ENGL 466 | British Novel | |
| Select one of the following American literature courses: | | 3 |
| ENGL 244 | American Literature to 1865 (Select one of the following American literature courses:) [2] | |
| ENGL 254 | American Literature Since 1865 [2] | |
| ENGL 364 | American Ethnic Literature [3] | |
| ENGL 374 | African American Literature | |
| ENGL 410 | American Novel | |
| **Total Units** | | **12** |

[1] Meets the General Education Writing 3 requirement.
[2] Meets the General Education Humanities: Literature requirement.
[3] Meets the General Education Intercultural Competence requirement.

## Human Development: School Psychology Concentration

PSYC 290 and MATH 130 are prerequisite courses for the upper-division courses in this concentration.

| Code | Title | Units |
|------|-------|-------|
| **Required Courses** | | |
| MATH 130 | Introduction to Statistics [1] | 3 |
| PSYC 345 | Psychology of Child and Adolescent Development [2] | 3 |
| PSYC 360 | Abnormal Psychology | 3 |
| Select one of the following: | | 3 |
| PSYC 292 | Introduction to Brain and Behavior | |
| PSYC 305 | Educational Psychology | |
| PSYC 390 | Cognition | |
| PSYC 405 | Psychology of Learning | |
| PSYC 410 | Psychology of Exceptional Children | |
| PSYC 472 | Neurological and Behavioral Disorders | |
| **Total Units** | | **12** |

[1] Meets the General Education Quantitative Literacy requirement.
[2] Meets the General Education Social Sciences requirement.

## Human Development: Special Education Concentration

| Code | Title | Units |
|------|-------|-------|
| **Required Courses** | | |
| EDLS 303 | Introduction to Special Populations | 3 |
| EDLS 304 | Introduction to Teaching Special Populations | 3 |
| PSYC 410 | Psychology of Exceptional Children | 3 |
| PSYC 430 | Intervention Strategies with Children | 3 |
| **Total Units** | | **12** |

## Math Concentration

See the Department of Computer Science, Engineering, Mathematics, Physics, and Statistics (p. 70) for updated schedules.

Note: Students must begin their mathematics coursework at the level for which they qualify as determined by their SAT/ACT score, previous university coursework, or the APU mathematics placement assessment. Some students require one or more courses prior to calculus.

| Code | Title | Units |
|------|-------|-------|
| **Required Courses** | | |
| MATH 165 | Calculus I | 3 |
| MATH 280 | Discrete Mathematics and Proof | 3 |
| MATH 340 | Geometry | 3 |
| Select one of the following: | | 3 |
| MATH 130 | Introduction to Statistics [1] | |
| MATH 361 | Introduction to Modeling with Probability | |
| **Total Units** | | **12** |

[1]     Meets the General Education Quantitative Literacy requirement.

## Music Concentration

| Code | Title | Units |
|------|-------|-------|
| **Required Courses** | | |
| MUS 101 | Beginning Voice Class | 1 |
| MUS 103 | Beginning Piano Class [1] | 1 |
| MUS 121 | Music Theory I [2] | 3 |
| MUS 133 | Practical Musicianship I | 1 |
| MUS 201 | Introduction to World Music [3] | 3 |
| Select one of the following: | | 3 |
| MUS 350 | History and Literature of Commercial Music | |
| MUS 351 | Ancient, Renaissance, and World Music Literature | |
| MUS 352 | Writing 3: Baroque, Classical, and Early Romantic Music Literature [4] | |
| MUS 455 | Late Romantic and 20th-Century Music Literature [5] | |
| **Total Units** | | **12** |

[1]     Or 1 unit for each Applied Piano (permission by audition only).
[2]     Meets the General Education Humanities: Fine Arts requirement.
[3]     Meets the General Education Intercultural Competence requirement.
[4]     Meets the General Education Writing 3 requirement.
[5]     Meets the General Education Humanities: History requirement.

## Science Concentration

| Code | Title | Units |
|------|-------|-------|
| **Required Courses** | | |
| BIOL 151 | General Biology I [1] | 4 |
| BIOL 152 | General Biology II | 4 |

| Code | Title | Units |
|---|---|---|
| CHEM 123 | General, Organic, and Biological Chemistry for the Health Sciences [1] | 4 |
| **Optional Elective** | | |
| PHYC 155 | Physics for Life Sciences I [1] | |
| **Total Units** | | **12** |

[1] Meets the General Education Natural Sciences requirement.

## Social Science Concentration

| Code | Title | Units |
|---|---|---|
| **Required Courses** | | |
| POLI 150 | American Government [1,2] | 3 |
| HIST 210 | World Geography | 3 |
| Select one of the following non-Western courses: | | 3 |
| HIST 320 | Modern Africa | |
| HIST 360 | History of the Middle East I: Early and Medieval Islam | |
| HIST 361 | History of the Middle East II: Modern Middle East | |
| HIST 392 | Colonial Latin America | |
| HIST 393 | Ritual and Re-enactment in Modern Latin America | |
| POLI 390 | History and Politics of the Non-Western World | |
| Select one of the following social science courses: | | 3 |
| ECON 250 | Principles of Macroeconomics [3] | |
| ECON 251 | Principles of Microeconomics | |
| POLI 220 | State and Local Government | |
| POLI 320 | Comparative Politics | |
| SOC 225 | Contemporary Social Problems | |
| SOC 361 | Education and Society | |
| **Total Units** | | **12** |

[1] Meets the General Education Civic Knowledge and Engagement requirement.

[2] California Education Code Section 44335 requires all candidates for a Teaching Credential to demonstrate knowledge of the United States Constitution by completing a college-level course or a college-level examination in the subject; successful completion of either with a grade of *C* or higher meets this California Education Code requirement.

[3] Meets the General Education Social Sciences requirement.

## Spanish Concentration

| Code | Title | Units |
|---|---|---|
| **Required Courses** | | |
| SPAN 201 | Intermediate Spanish I | 3 |
| SPAN 202 | Intermediate Spanish II | 3 |
| SPAN 301 | Spanish Conversation and Community [1,2] | 3 |
| Select one of the following: | | 3 |
| SPAN 332 | Literary Masters [3] | |
| SPAN 421 | Survey of Spanish Literature | |
| SPAN 422 | Survey of Latin American Literature | |
| SPAN 431 | Spanish Language Poetry and Short Story | |
| SPAN 460 | Writing 3: Survey of the Literature of the Spanish-Speaking World [4] | |
| **Total Units** | | **12** |

[1] SPAN 101, SPAN 102, SPAN 201, and SPAN 202 are prerequisites for 300-level SPAN courses.

[2] Meets the General Education Intercultural Competence requirement.

[3] Meets the General Education Humanities: Literature requirement.

[4] Meets the General Education Writing 3 requirement.

## Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Analyze and demonstrate proficiency in subject matter required of K--8 teachers by the State of California.
2. Integrate K--8 curriculum concepts and disciplines.
3. Define teaching methods of instruction using best practices with a Christian perspective.
4. Understand aspects of cultural diversity within the context of the classroom.
5. Identify a distinctive Christian perspective compared to a secular perspective as it pertains to current education issues.

# MA in Education: Learning and Technology and Multiple Subject Teaching Credential

Azusa Pacific University's Master of Arts in Education: Learning and Technology and Multiple Subject Teaching Credential program (https://www.apu.edu/education/programs/masters-in-learning-technology-multiple-subject/) prepares candidates to earn a Master of Arts in Education: Learning and Technology degree along with an embedded California Multiple Subject Preliminary Teaching Credential. This program includes comprehensive foundation courses emphasizing teaching and educational methods, as well as specialization courses providing content required for the multiple subject credential. Practical classroom and fieldwork experiences provide application to theory, preparing candidates to teach in diverse settings. Advanced coursework in the emphasis area of learning and technology provides candidates with the knowledge to effectively design and infuse technology-embedded curriculum into TK-8 teaching and learning environments. The mode of delivery includes face-to-face instruction, campus-based classes, distance learning, online courses, and clinical experiences.

Azusa Pacific University's Multiple Subject Teaching Credential program is approved by the California Commission on Teacher Credentialing (CTC) (https://www.ctc.ca.gov) and the Council for the Accreditation of Educator Preparation (CAEP) (https://caepnet.org), and includes specific methods courses that are accompanied by practical classroom applications and field experiences in public school assignments.

Upon completion of the requirements listed below and all of the requirements detailed in the Steps to a Credential (p. 555), the candidate will have earned a Preliminary Multiple Subject Teaching Credential and a Master of Arts in Education: Learning and Technology degree.

## Computer and Software Requirements

Each student must have a Mac or PC laptop or notebook running the latest operating system with a word processing program and a stable internet connection.

## Course Requirements

| Code | Title | Units |
|---|---|---|
| **Foundation Courses** | | |
| TESP 501 | Art of Teaching I: Foundations of Teaching [1] | 3 |
| TESP 502 | Science of Teaching I: How Students Learn [1] | 3 |
| TESP 503 | The Soul of Teaching: Tapestry of American Education | 3 |
| TESP 504 | Schools and Educational Systems | 3 |
| **Specialization Courses** | | |
| TEP 511 | Art of Teaching II: Pedagogy and Instructional Design | 3 |
| TEP 512 | Science of Teaching II: Effective Assessment Strategies for All Learners | 3 |
| TEP 521 | Methods of Teaching Reading and Writing (K-8) | 3 |
| TEP 522 | Methods of Teaching Mathematics (K-8) | 3 |
| TEP 523 | Methods of Teaching Science (K-8) | 2 |
| TEP 524 | Methods of Integrating the Humanities (K-8) | 2 |
| TEP 551 | Clinical Practice I: Multiple Subject Credential | 2 |
| TEP 552 | Clinical Practice II: Multiple Subject Credential | 2 |
| **Emphasis Courses** | | |
| EDUC 560 | Action Research in Education | 1 |
| EDUC 546 | Digital Communications | 3 |
| EDUC 547 | Special Topics in Educational Technology [2] | 3 |

| EDUC 548 | Emerging Trends in Technology | 3 |
| EDUC 569 | Capstone Seminar | 2 |
| **Elective Courses** [3] | | |
| EDUC 538 | Current Issues in Education | 3 |
| **Total Units** [4] | | **44-47** |

[1]   These courses must be completed prior to beginning clinical practice.

[2]   May be taken for credit up to three times as an additional elective as long as topics are not repeated.

[3]   Elective courses can be used toward the master's degree only for individuals needing additional units to complete the degree. Elective courses cannot be used to replace foundation, specialization, or emphasis course requirements.

[4]   This program is designed to be completed with 44 units; the use of elective units to complete the degree may increase the unit total.

**NOTE:** A maximum of 8 units may be taken per 8-week session. Teacher candidates in master's degree programs who have opted to waive some coursework must take additional units to fulfill the unit requirement. Completion of all credential requirements—including all examinations, coursework, and other requirements—must be met before the master's degree will be posted. A G (http://www.apu.edu/graduateprofessionalcenter/registrar/forms/)raduation Application (https://www.apu.edu/student-services/registration/#gradproforms) must be completed and fees paid by the deadlines set by the registrar.

**NOTE:** Candidates who hold an intern credential must enroll in a candidate support and supervision course (TEP 590) during each 8-week session (fall or spring) in which they are not enrolled in a clinical practice course.

It is the candidate's responsibility to submit a credential application through the Office of Credentials (https://www.apu.edu/education/resources/credentials/) upon completion of a credential program to receive his/her California educator credential.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Engage and support all students in learning.
2. Create and maintain effective environments for student learning.
3. Understand and organize subject matter for student learning.
4. Plan instruction and design learning experiences for all students.
5. Assess student learning.
6. Develop as a professional educator.

# MA in Education: Learning and Technology and Single Subject Teaching Credential

Azusa Pacific University's Master of Arts in Education: Learning and Technology and Single Subject Teaching Credential program (https://www.apu.edu/education/programs/masters-in-learning-technology-single-subject/) prepares candidates to earn a Master of Arts in Education: Learning and Technology degree along with an embedded California Single Subject Preliminary Teaching Credential. This program includes comprehensive foundation courses emphasizing teaching and educational methods, as well as specialization courses providing content required for the single subject credential. Practical classroom and fieldwork experiences provide application to theory, preparing candidates to teach in diverse settings. Advanced coursework in the emphasis area of learning and technology provides candidates with the knowledge to effectively design and infuse technology-embedded curriculum into 7-12 grade teaching and learning environments. The mode of delivery includes face-to-face instruction, campus-based classes, distance learning, blended and online courses, and clinical experiences.

Azusa Pacific University's Single Subject Teaching Credential program is approved by the California Commission on Teacher Credentialing (CTC) (https://www.ctc.ca.gov) and the Council for the Accreditation of Educator Preparation (CAEP) (https://caepnet.org), and includes specific methods courses that are accompanied by practical classroom applications and field experiences in public school assignments.

Upon completion of the requirements listed below and all of the requirements detailed in the Steps to a Credential (p. 555), the candidate will have earned a Preliminary Single Subject Teaching Credential and a Master of Arts in Education: Learning and Technology degree.

Note: The preparation for a Preliminary Single Subject Teaching Credential is available in the following subject areas: art, business, English language arts, mathematics, music, physical education, science, social science, and world languages.

## Computer and Software Requirements

Each student must have a Mac or PC laptop or notebook running the latest operating system with a word processing program and a stable internet connection.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Engage and support all students in learning.
2. Create and maintain effective environments for student learning.
3. Understand and organize subject matter for student learning.
4. Plan instruction and design learning experiences for all students.
5. Assess student learning.
6. Develop as a professional educator.

# Minor in Liberal Studies

22-23 units

The liberal studies minor is a multidisciplinary program that adds foundational elements of K-8 subject matter preparation and practical field experience to any student's major course of study. The program provides students with the opportunity to develop a teaching philosophy and acquire basic subject-matter knowledge in five to seven content areas with an understanding of diversity and culture in a classroom setting; this may provide some preparation for substitute teaching and lesson planning. Students work closely with an advisor in major and minor fields in order to create an organized on-campus study.

*NOTE: The minor does not fulfill the* California Subject Matter Requirement *(*https://www.ctc.ca.gov/educator-prep/subject-matter-requirements/*). Liberal studies minors must maintain a **C** or higher in all courses credited toward the minor.*

## Requirements

| Code | Title | Units |
|---|---|---|
| **Core Courses** | | |
| EDLS 200 | Introduction to Teaching as a Profession K-12 [1] | 4 |
| or EDLS 202 | Introduction to Teaching as a Profession (7-12) | |
| EDLS 405 | Diversity in the Classroom [2] | 3 |
| **Subject-matter Electives** | | |
| Select five of the following: | | 15-16 |
| ART 310 | Fundamental Art Experiences [3] | |
| BIOL 400 | Science and Children | |
| ENGL 434 | Children's Literature | |
| MATH 201 | Mathematics Concepts for Elementary Teachers | |
| or MATH 301 | Mathematics for Secondary Teachers | |
| MUS 432 | Music in the Elementary Schools | |
| PE 450 | Physical Education in Elementary Schools, K-6 | |
| EDLS 303 | Introduction to Special Populations | |
| or EDLS 304 | Introduction to Teaching Special Populations | |

| EDLS 495 | Foundations of Education Capstone [4] | |
|---|---|---|
| **Total Units** | | **22-23** |

[1] Meets the General Education Civic Knowledge and Engagement requirement.
[2] Meets the General Education Intercultural Competence requirement.
[3] Meets the General Education Humanities: Fine Arts requirement.
[4] Meets the General Education Integrative and Applied Learning requirement.

## Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Analyze and demonstrate proficiency in subject matter required of K6 teachers by the State of California

2. Integrate K8 curriculum concepts and disciplines through the application of lesson plans, papers, and projects in Children's Literature, Mathematical Concepts for Elementary Teachers, Science and Children, Fundamental Art Experiences, Music in the Elementary Schools, Physical Education in the Elementary Schools

3. Define teaching methods of instruction using best practices with a Christian perspective while integrating K8 curriculum concepts and disciplines through the application of lesson plans, papers, and projects

4. Understand cultural diversity issues within the context of the classroom through service-learning experiences and in class discussion

5. Identify a distinctive Christian perspective compared to a secular perspective as it pertains to different education issues

# Multiple Subject Teaching Credential

Azusa Pacific University's Multiple Subject Teaching Credential (https://www.apu.edu/education/programs/multiple-subject-teaching-credential/) program prepares candidates to earn a California Multiple Subject Preliminary Teaching Credential. This rigorous program includes comprehensive foundation courses emphasizing teaching and educational methods, as well as specialization courses providing content required for the multiple subject credential. Practical classroom and fieldwork experiences provide application to theory, preparing candidates to teach in diverse settings. Available modes of delivery include face-to-face instruction, campus-based classes, distance learning, and clinical experiences.

Approved by the California Commission on Teacher Credentialing (CTC) (https://www.ctc.ca.gov/) and Council for the Accreditation of Educator Preparation (CAEP) (https://caepnet.org/), Azusa Pacific University's Multiple Subject Teaching Credential program includes specific methods courses that are accompanied by practical classroom applications and field experiences in public school assignments.

Upon completion of the requirements listed below and all of the requirements detailed in the Steps to a Credential (p. 555), the credential candidate will have earned a California Multiple Subject Preliminary Teaching Credential.

## Computer and Software Requirements

Each student must have a Mac or PC laptop or notebook running the latest operating system with a word processing program and a stable internet connection.

## Course Requirements

| Code | Title | Units |
|---|---|---|
| **Foundation Courses** | | |
| TESP 501 | Art of Teaching I: Foundations of Teaching [1] | 3 |
| TESP 502 | Science of Teaching I: How Students Learn [1] | 3 |
| TESP 503 | The Soul of Teaching: Tapestry of American Education | 3 |

| TEP 512 | Science of Teaching II: Effective Assessment Strategies for All Learners | 3 |
| TEP 521 | Methods of Teaching Reading and Writing (K-8) | 3 |
| TEP 522 | Methods of Teaching Mathematics (K-8) | 3 |
| TEP 523 | Methods of Teaching Science (K-8) | 2 |
| TEP 524 | Methods of Integrating the Humanities (K-8) | 2 |
| TEP 551 | Clinical Practice I: Multiple Subject Credential | 2 |

| TEP 552 | Clinical Practice II: Multiple Subject Credential | 2 |
| --- | --- | --- |
| **Total Units** | | **32** |

1 Must be completed prior to beginning clinical practice.

**NOTE:** A maximum of 9 units may be taken per 8-week session. Completion of all credential requirements—including all examinations, coursework, and other requirements—must be met before the candidate will be recommended for a teaching credential. Candidates should meet with their credential analyst (https://www.apu.edu/education/resources/credentials/) for information regarding the credential application process.

**NOTE:** Candidates who hold an intern credential must enroll in a candidate support and supervision course (TEP 590) during each 8-week session (fall or spring) in which they are not enrolled in a clinical practice course.

It is the candidate's responsibility to submit a credential application through the Office of Credentials (https://www.apu.edu/education/resources/credentials/) upon completion of a credential program to receive their California educator credential.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Engage and support all students in learning.
2. Create and maintain effective environments for student learning.
3. Understand and organize subject matter for student learning.
4. Plan instruction and design learning experiences for all students.
5. Assess student learning.
6. Develop as a professional educator.

# Single Subject Teaching Credential

Azusa Pacific University's Single Subject Teaching Credential (https://www.apu.edu/education/programs/single-subject-teaching-credential/) program prepares candidates to earn a California Single Subject Preliminary Teaching Credential. This rigorous program includes comprehensive foundation courses emphasizing teaching and educational methods, as well as specialization courses providing content required for the single subject credential. Practical classroom and fieldwork experiences provide application to theory, preparing candidates to teach in diverse settings. Available modes of delivery include face-to-face instruction, campus-based classes, distance learning, blended learning, and clinical experiences.

Approved by the California Commission on Teacher Credentialing (CTC) (https://www.ctc.ca.gov/) and Council for the Accreditation of Educator Preparation (CAEP) (https://caepnet.org/), Azusa Pacific University's Single Subject Teaching Credential program includes specific methods courses that are accompanied by practical classroom applications and field experiences in public school assignments.

Upon completion of the requirements listed below and all of the requirements detailed in the Steps to a Credential (p. 555), the credential candidate will have earned a California Single Subject Preliminary Teaching Credential.

Note: The preparation for a Single Subject Preliminary Credential is available in the following subject areas: art, business, English language arts, mathematics, music, physical education, science, social science, and world languages.

## Computer and Software Requirements

Each student must have a Mac or PC laptop or notebook running the latest operating system with a word processing program and a stable internet connection.

## Course Requirements

| Code | Title | Units |
|------|-------|-------|
| **Foundation Courses** | | |
| TESP 501 | Art of Teaching I: Foundations of Teaching [1] | 3 |
| TESP 502 | Science of Teaching I: How Students Learn [1] | 3 |
| TESP 503 | The Soul of Teaching: Tapestry of American Education | 3 |
| TESP 504 | Schools and Educational Systems | 3 |
| **Specialization Courses** | | |
| TEP 511 | Art of Teaching II: Pedagogy and Instructional Design | 3 |
| TEP 512 | Science of Teaching II: Effective Assessment Strategies for All Learners | 3 |
| TEP 531 | Methods of Teaching Reading and Writing (7-12) | 3 |
| TEP 532 | Secondary Pedagogy I: Teaching in Secondary Schools (7-12) | 2 |
| TEP 533 | The Differentiated Classroom: Maximizing Capacity of Each Learner (7-12) | 3 |
| TEP 534 | Secondary Pedagogy II: Content-Specific Strategies, Teaching, and Assessment (7-12) | 2 |
| TEP 561 | Clinical Practice I: Single Subject Credential | 2 |
| TEP 562 | Clinical Practice II: Single Subject Credential | 2 |
| **Total Units** | | **32** |

[1] Must be completed prior to beginning clinical practice.

**NOTE:** A maximum of 9 units may be taken per 8-week session. Completion of all credential requirements—including all examinations, coursework, and other requirements—must be met before the candidate will be recommended for a teaching credential. Candidates should meet with their credential analyst (https://www.apu.edu/education/resources/credentials/) for information regarding the credential application process.

**NOTE:** Candidates who hold an intern credential must enroll in a candidate support and supervision course (TEP 590) each 8-week session (fall or spring) in which they are not enrolled in a clinical practice course.

It is the candidate's responsibility to submit a credential application through the Office of Credentials (https://www.apu.edu/education/resources/credentials/) upon completion of a credential program to receive his/her California educator credential.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

## Program Learning Outcomes
## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Engage and support all students in learning.
2. Create and maintain effective environments for student learning.
3. Understand and organize subject matter for student learning.
4. Plan instruction and design learning experiences for all students.
5. Assess student learning.
6. Develop as a professional educator.

# Special Education

The Special Education area of the Division of Teacher Education offers master's degree and credential programs for candidates seeking a California Preliminary Education Specialist Credential with either a mild to moderate support needs or extensive support needs specialization authorizing them to teach in the public TK-12 environment. All Preliminary Education Specialist Credential programs are approved by the California Commission on Teacher Credentialing (CTC) (https://www.ctc.ca.gov/).

APU candidates are prepared to work in schools as education specialists. Candidates must demonstrate the content knowledge, pedagogical and professional knowledge, writing skills, and dispositions necessary to help all children learn. APU candidates are highly regarded in fulfilling these high professional standards. The department assesses all candidates from admission, throughout their program, and up to the recommendation of credentials. Assessments are used to evaluate and inform candidate learning and include the following assessment areas: CTC teacher performance expectations, APU program learning outcomes, and teacher candidate dispositions.

# Programs

## Master's

## Credentials

# Courses

## EDUC 546, Digital Communications, 3 Units

This course engages students in collaborative, investigative, and reflective learning opportunities through the exploration of relevant digital communication tools. Attention is given to current modes of communication that utilize a digital platform, and effective strategies for implementation within teaching/learning environments.
**Prerequisite:** EDUC 560

## EDUC 547, Special Topics in Educational Technology, 3 Units

Students in this course explore the current technologies, trends, and a variety of special topics in educational technology. Course material covers practical and theoretical aspects, effectiveness, and problems related to the implementation of the topic into relevant teaching/learning environments. Different topics are offered at different times, so the course may be repeated for credit.
**Prerequisite:** EDUC 560

## EDUC 548, Emerging Trends in Technology, 3 Units

This course covers the historical development of educational technology and the social issues influencing its growth and implementation. Attention is also given to a synthesis of research related to the field, professional organizations serving the discipline, and emerging innovative uses of educational technology.
**Prerequisite:** EDUC 560

## EDUC 556, Historical and Philosophical Perspectives of Disability Studies, 3 Units

This course explores and analyzes the historically key definitions of disability in light of the major theories, methodological approaches, and proposed public policy uses that have shaped them. It also considers how civil rights, human rights, self-determination, social policy, and participative action research have influenced disability studies. A diverse set of current and historical research articles on disability studies is analyzed to model the ways in which different research topics have been addressed and introduce how current research can stimulate future studies. Emphasis is given to the formulation of important research questions and the development of testable hypotheses based on previous theory, literature, and experience, as master's candidates begin to develop initial sections of their capstone research project.
**Prerequisite:** EDUC 560

## EDUC 557, Current Trends in Curriculum and Disability Studies, 3 Units

This course equips candidates with practical and theoretical understanding of curriculum in schooling, with an emphasis on the role performed by the special education teacher or differentiation expert. Course material covers the various approaches to curriculum construction and organization in schools by examining the principles of curriculum improvement, change, and evaluation. Focus is on the theories, research, and best practices related to planning and developing curriculum and its implementation in schools and classrooms in order to address the needs of students in diverse communities.
**Prerequisite:** EDUC 560

## EDUC 558, Research and Collaboration for Special Education, 3 Units

This course provides educational specialists the communication and problem-solving skills to successfully collaborate with families, other educators, related service providers, and individuals with exceptionalities within the K-12 education environment. Additionally, this advanced course enables master's degree candidates in special education to build upon earlier courses and examine educational research within the special education framework, with an emphasis on data collection for action research.
**Prerequisite:** EDUC 560

## EDUC 560, Action Research in Education, 1 Unit

This course introduces students to basic qualitative and quantitative research methods, designs, and reporting strategies. Master's degree candidates are enabled to develop an understanding of the research process by introducing the basic principles of research and academic writing. Through activities integrating theory with practice, candidates learn how to identify problems to study, develop research questions, specify data collection methods and design their action research projects which are continued in a subsequent course.

## EDUC 569, Capstone Seminar, 2 Units

Culminating the MA emphasis courses, the capstone seminar helps students build on the coursework representing their repertoire of academic preparation from the credential and master's programs. Master's candidates complete their action research projects, and create an ePorfolio for compiling assignments that profile their professional identities (personal philosophy, identity and dispositions narrative), their scholarly work (ethnography, curriculum assessment, literature review), and their practical applications (lesson and unit plans, classroom management) in the classroom. In this way, students refine and contribute further to a body of work representing their accomplishments and professional identity. Finally, through this course, candidates enhance their understanding and experience of a community's connection to the school environment.
**Prerequisite:** EDUC 536, EDUC 537, and EDUC 538; or EDUC 546, EDUC 547, and EDUC 548; or EDUC 556, EDUC 557, and EDUC 558

## SPED 500, Candidate Support and Supervision, 1-3 Units

Teacher candidates explore current educational practices and a variety of special topics in the field of education, and course material covers practical and theoretical aspects relevant to the teaching/learning environment. Interns may be required to take this course during their program in an effort to meet program requirements while receiving mandated supervision and support. This course may be repeated four (4) times for credit for a total of 4-12 units.

## SPED 517, Art of Teaching II: Pedagogy and Instructional Design for Education Specialists, 3 Units

This course explores pedagogy as the combination of teachers' professional knowledge, skills, and abilities, which are directed to create effective learning opportunities and outcomes for all students in a range of contexts. Building on broad themes in Art of Teaching I, teacher candidates explore pedagogical methods and specific models for meeting individual student needs, utilizing universal and individualized strategies. Attention is given to culturally responsive teaching practices for learners with diverse cultural and ethnic identities, as well as differentiation practices for students with various learning needs. Candidates further analyze the relationship between curriculum, pedagogy, and assessment, and, finally, examine and reflect on the Christian worldview in relation to student diversity and developing a climate of equity and collaboration within classrooms. Course includes embedded field experience requirements for a total of 15 hours.
**Prerequisite:** TESP 501

## SPED 518, Science of Teaching II: Effective Assessment Strategies for Learners with Special Needs, 3 Units

This course explores strategies for designing standards and data-driven curricular plans and units to serve diverse student populations (e.g., culturally, linguistically, and/or ability-diverse learners). Teacher candidates engage in the administration and analysis of formative, summative, diagnostic assessment to inform the ongoing development of differentiated instruction that serves the unique academic needs of students from diverse, intersecting backgrounds and identities. In view of the academic achievement gap that exists in California K-12 schools, candidates utilize assessment results, alongside state frameworks and current standards specific to their specialization, in development of further curriculum/planning, instruction, and assessment cycles, which demonstrate the use of instructional strategies, materials, technologies, and other resources to make content connected, contextualized, and accessible to all students. Candidates consider how a Christian worldview catalyzes their commitment to engage fully in the work of creating classrooms that meet the needs of all their students. This course includes 15 hours of required field experience in a K-12 school.
**Prerequisite:** TESP 502

## SPED 525, Methods of Teaching Reading and Writing, 3 Units

This course prepares teacher candidates to implement a comprehensive literacy program of systematic instruction in reading, writing, listening, speaking, and language aligned with the California Common Core State Standards for English Language Arts and the English Language Arts/English Language Development Framework. Through application of research-based instructional practices, candidates learn specific ways to address the diverse needs of all students.

## SPED 526, Specialized Academic Instruction: Reading, Writing, and Math, 3 Units

This course introduces candidates to multifaceted and multitiered methodologies and strategies necessary for teaching and engaging diverse students with disabilities in mathematics and language arts. Candidates become proficient in making explicit connections between ongoing assessment, student characteristics and strengths, instruction, and curriculum. They learn to analyze data to plan effective and differentiated instruction and interventions, and also how to collaboratively design effective IEP goals while considering the role of technology in those goals.

## SPED 527, Teaching Students with Extensive Support Needs, 3 Units

This course provides teacher candidates with a systems perspective for understanding and supporting individuals with extensive support needs and their families who come from culturally and linguistically diverse backgrounds. Using a person-centered planning approach, candidates examine effective collaborative strategies for team building, Individual Education Program (IEP) development, joint problem solving, and transition planning. Course material covers evidence-based strategies, adaptations, modifications, and technologies that provide access to Common Core standards, functional academics, and life skills. Various models are reviewed, including co-teaching, inclusion, community-based instruction, and vocational training.

## SPED 528, Assessment and IEP Development: Mild to Extensive Support Needs, 3 Units

Teacher candidates in this course examine current assessment mandates for students with mild to extensive support needs, studying test development and learning to evaluate assessment tools based on current research-based policies and mandates. Candidates also learn to administer and interpret norm-criterion reference assessment instruments as well as informal surveys or assessment instruments, and gain an understanding of the influence of cultural and linguistic factors in the development of Individual Education Program (IEP) goals and Individual Transition Plans (ITPs).
**Corequisite:** SPED 550 or SPED 551 or SPED 570 or SPED 571

## SPED 529, Positive Behavior Supports for Students with Exceptional Needs, 3 Units

This course equips teacher candidates with the skills and legal framework essential to the development of positive behavior supports and self-management outcomes for students with disabilities. Candidates examine foundations of behavior disorders, appropriate communication, and behavioral support strategies that align with best practices. The foundations of functional analysis of behavior that leads to the development of positive behavior intervention plans are examined. Models of collaborative practices that lead to positive relationships and critical partnerships with students, families, educators, and agencies are investigated through skill development and self-analysis.
**Corequisite:** SPED 552 or SPED 553 or SPED 572 or SPED 573

## SPED 550, Clinical Practice I: Mild to Moderate Support Needs, 2 Units

Students with mild to moderate support needs require specialized support to address unique learning needs resulting from a range of specific learning disabilities, intellectual disabilities, autism, other health impairments, emotional disturbance, multiple disabilities, traumatic brain injury, orthopedic impairment, or other identified disabilities for which placement in a classroom for students with mild to moderate support needs is deemed appropriate. Teacher candidates, as part of their clinical practice, get on-site experience providing the support described in students' Individualized Education Programs (IEPs). These experiences include, but are not limited to, creating an appropriate physical classroom environment for students with mild/moderate disabilities, conducting formal and informal assessments in order to determine students' current levels of performance, planning for students' grade and instructional levels, and capturing data to support progress on annual goals and short-term objectives that are aligned with California Content Standards. Candidates also monitor students' progress toward instructional goals and state-adopted standards, and, if necessary, identify behaviors impeding learning, and remediate by implementing positive behavior supports. Candidates complete a semester of full-time, supervised student teaching in appropriate public school classrooms, with assignments in classroom grade levels K-12. Each placement provides teaching experiences with English learners and ethnically diverse students. *Meets the General Education Requirement: Integrative and Applied Learning.*
**Corequisite:** SPED 528

## SPED 553, Clinical Practice II: Mild to Moderate Support Needs, 2 Units

Students with mild to moderate support needs require specialized support to address unique learning needs resulting from a range of specific learning disabilities, intellectual disabilities, autism, other health impairments, emotional disturbance, multiple disabilities, traumatic brain injury, orthopedic impairment, or other identified disabilities for which placement in a classroom for students with mild to moderate support needs was deemed appropriate. During their clinical practice experience, teacher candidates are provided with on-site experiences that provide the support described in the students' Individualized Education Programs (IEPs). These experiences include, but are not limited to, creating an appropriate classroom physical environment for students with mild to moderate support needs, conducting formal and informal assessments in order to determine the students' current levels of performance, planning for their grade and instructional level, and capturing data to support progress on annual goals and short-term objectives aligned with California Content Standards. Candidates also monitor students' progress toward instructional goals and state-adopted standards and, if necessary, identify behaviors impeding learning, and remediate by implementing positive behavior supports. Candidates complete a semester of full-time, supervised student teaching in appropriate public school classrooms, with assignments in classroom grade levels K-12. Each placement provides teaching experiences with English learners and ethnically diverse students.
**Prerequisite:** SPED 550;
**Corequisite:** SPED 529

## SPED 570, Clinical Practice I: Extensive Support Needs, 2 Units

Students with extensive support needs require specialized support to address unique learning needs resulting from a range of intellectual, behavioral, emotional, communication, sensory, autism spectrum disorder, and/or motor impairments. Teacher candidates, as part of their clinical practice, get on-site experience providing the support described in the students' Individualized Education Programs (IEPs). These experiences include, but are not limited to, creating an appropriate classroom physical environment for students with extensive support needs, conducting formal and informal assessments in order to determine students' current levels of performance, planning instructional-level annual goals and short-term objectives that are aligned with California Content Standards, monitoring students' progress toward instructional goals and short-term objectives, and identifying behaviors impeding learning and then remediating by implementing positive behavior supports. Candidates complete a semester of full-time, supervised student teaching in appropriate public school classrooms, with assignments in classroom grade levels K-12. Each placement provides teaching experiences with English learners and ethnically diverse students.
**Corequisite:** SPED 528

## SPED 573, Clinical Practice II: Extensive Support Needs, 2 Units

Students with extensive support needs require specialized support to address unique learning needs resulting from a range of intellectual, behavioral, emotional, communication, sensory, autism spectrum disorder, and/or motor impairments. Teacher candidates, as part of their clinical practice, get on-site experience providing the support described in the students' Individualized Education Programs (IEPs). These experiences include, but are not limited to, creating an appropriate classroom physical environment for students with extensive support needs, conducting formal and informal assessments in order to determine students' current levels of performance, planning instructional-level annual goals and short-term objectives aligned with California Content Standards, monitoring students' progress toward instructional goals and short-term objectives, and identifying behaviors impeding learning and then remediating by implementing positive behavior supports. Candidates complete a semester of full-time, supervised student teaching in appropriate public school classrooms, with assignments in classroom grade levels K-12. Each placement provides teaching experiences with English learners and ethnically diverse students.
**Prerequisite:** SPED 570;
**Corequisite:** SPED 529

## TESP 501, Art of Teaching I: Foundations of Teaching, 3 Units

This course provides an introduction to basic pedagogy, including classroom management, lesson planning and teaching, standards-based instruction, teaching strategies for students with diverse identities and needs, and the application of technology to support teaching and learning. Teacher candidates consider strategies, models, and processes for meeting the needs of a broad range of K-12 students, including special needs students, gifted students, English language learners, speakers of nondominant varieties of English, and students of all cultural or ethnic identities. This course is designed for direct application of classroom learning by candidates in a collaborative context that implements inclusion. Candidates examine Christian character and develop an understanding of grace in the Christian worldview as applied in classroom contexts, in consideration of meeting the needs of students and building community within the classroom. This course includes 15 hours of required field experience in a K-12 school.

## TESP 502, Science of Teaching I: How Students Learn, 3 Units

This course comprises a basic overview of human growth and development for all students in the K-12 environment. Teacher candidates identify how research on the neuroscience of learning, theories of learning, and student motivation affect current understanding of student development through the K-12 education experience. They then creatively and collaboratively investigate how this knowledge can enable them to meet the needs of all students, including underserved populations, English language learners, and individuals with diverse learning needs (from gifted learners to individuals with mild to severe disabilities). Candidates also examine their own cultural beliefs, attitudes toward diversity, and related assumptions, identifying how these might affect student learning and achievement in their classrooms. Candidates demonstrate applied knowledge of communication styles and strategies for fostering positive cross-cultural interactions among students who are diverse in terms of culture, language, and ability. Finally, candidates reflect on the need to support the development of all students from a Christian worldview. This course includes 15 hours of required field experience in a K-12 school. *Meets the General Education Requirement: Social Science.*

## TESP 503, The Soul of Teaching: Tapestry of American Education, 3 Units

This course introduces teacher candidates to the history of American education and a sampling of modern philosophies of education, examined through the lens of a Christian worldview. Specific consideration is given to the ways in which historical trends have contributed to today's education system, including how social and philosophical movements, as well as policy changes, have shaped the growth and inclusiveness of education in the U.S. Candidates reflect on the continued need for education equity for all students in U.S. schools, and explore inclusive practices for diverse populations, professional dispositions, teacher resiliency, and their role in perpetuating social justice in education. They engage culturally appropriate response strategies that enhance learning opportunities in a cross-cultural context, and identify how a Christian worldview enables and directs a commitment to principles of equity and justice in their practice. *Meets the General Education Requirement: Intercultural Competence.*

## TESP 504, Schools and Educational Systems, 3 Units

This course explores the legal, ethical, and organizational systems (federal, state, district, and school) within which teachers conduct their work. Teacher candidates engage in an examination of school and community cultures and their impact on learning, by focusing on the ways teachers communicate and collaborate with external and internal stakeholders to provide equitable access to all students. Additionally, contractual responsibilities and professional expectations are addressed. Candidates also consider the ways in which educators, from a Christian worldview, can advocate to transform social problems impacting school culture. *Meets the General Education Requirement: Civic Knowledge and Engagement.*

# Extensive Support Needs Education Specialist Credential

Azusa Pacific University's Extensive Support Needs Education Specialist Credential (https://www.apu.edu/education/programs/special-education-moderate-severe-credential/) program prepares candidates to earn a California Extensive Support Needs Education Specialist Preliminary Credential. This rigorous program includes comprehensive foundation courses emphasizing teaching and educational methods, as well as specialization courses that provide content required for the education specialist credential. Practical classroom and fieldwork experiences provide application to theory, preparing candidates to teach in diverse settings. The mode of delivery includes face-to-face instruction, campus-based classes, distance learning, and clinical experiences.

Azusa Pacific University's Extensive Support Needs Education Specialist Credential program is approved by the California Commission on Teacher Credentialing (CTC) (https://www.ctc.ca.gov) and the Council for the Accreditation of Educator Preparation (CAEP) (https://caepnet.org), and includes specific methods courses that are accompanied by practical classroom applications and clinical experiences in public school assignments.

Upon completion of the requirements listed below and all of the requirements detailed in the Steps to a Credential (p. 555), the candidate will have earned an Extensive Support Needs Education Specialist Preliminary Credential.

## Computer and Software Requirements

Each student must have a Mac or PC laptop or notebook running the latest operating system with a word processing program and a stable internet connection.

## Course Requirements

| Code | Title | Units |

[1]     These courses must be completed prior to beginning clinical practice.

**NOTE:** A maximum of 9 units may be taken per 8-week session. Completion of all credential requirements—including all examinations, coursework, and other requirements—must be met before the candidate will be recommended for a credential. Candidates should meet with their credential analyst (https://www.apu.edu/education/resources/credentials/) for information regarding the credential application process.

**NOTE:** Candidates who hold an intern credential must enroll in a candidate support and supervision course (SPED 500) during each 8-week session (fall or spring) in which they are not enrolled in a clinical practice course.

It is the candidate's responsibility to submit a credential application through the Office of Credentials (https://www.apu.edu/education/resources/credentials/) upon completion of a credential program to receive his/her California educator credential.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

## Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Engage and support all students in learning.
2. Create and maintain effective environments for student learning.
3. Understand and organize subject matter for student learning.
4. Plan instruction and design learning experiences for all students.

5. Assess student learning.
6. Develop as a professional educator.

# MA in Education: Learning and Technology and Extensive Support Needs Education Specialist Credential

Azusa Pacific University's Master of Arts in Education: Learning and Technology and Extensive Support Needs Education Specialist Credential program (https://www.apu.edu/education/programs/masters-in-learning-technology-moderate-severe/) prepares candidates to earn a Master of Arts in Education: Learning and Technology degree along with an embedded Extensive Support Needs Education Specialist Preliminary Credential. This program includes comprehensive foundation courses emphasizing teaching and educational methods, as well as specialization courses providing content required for the education specialist credential. Practical classroom and fieldwork experiences provide application to theory, preparing candidates to teach in diverse settings. Advanced coursework in the emphasis area of learning and technology provides candidates with the knowledge to effectively design and infuse technology-embedded curriculum into TK-12 teaching and learning environments. The mode of delivery includes face-to-face instruction, campus-based classes, distance learning, online courses, and field experiences.

Azusa Pacific University's Extensive Support Needs Education Specialist Credential program is approved by the California Commission on Teacher Credentialing (CTC) (https://www.ctc.ca.gov) and the Council for the Accreditation of Educator Preparation (CAEP) (https://caepnet.org), and includes specific methods courses that are accompanied by practical classroom applications and clinical experiences in public school assignments.

Upon completion of the requirements listed below and all of the requirements detailed in the Steps to a Credential (p. 555), the candidate will have earned an Extensive Support Needs Education Specialist Preliminary Credential and a Master of Arts in Education: Learning and Technology degree.

## Computer and Software Requirements

Each student must have a Mac or PC laptop or notebook running the latest operating system with a word processing program and a stable internet connection.

1     These courses must be completed prior to beginning clinical practice.
2     May be taken for credit up to three times as an additional elective as long as topics are not repeated.
3     Elective courses can be used toward the master's degree only for the individual needing additional units to complete the degree. Elective courses cannot be used to replace foundation, specialization, or emphasis course requirements.
4     The program is designed to be completed with 46 units; the use of elective units to complete the degree may increase the unit total.

**NOTE:** A maximum of 8 units may be taken per 8-week session. Teacher candidates in master's degree programs who have opted to waive some coursework must take additional units to fulfill the unit requirement. Completion of all credential requirements—including all examinations, coursework, and other requirements—must be met before the master's degree will be posted. A Graduation Application (https://www.apu.edu/student-services/registration/#gradproforms) must be completed and fees paid by the deadlines set by the registrar.

**NOTE:** Candidates who hold an intern credential must enroll in a candidate support and supervision course (SPED 500) during each 8-week session (fall or spring) in which they are not enrolled in a clinical practice course.

It is the candidate's responsibility to submit a credential application through the Office of Credentials (https://www.apu.edu/education/resources/credentials/) upon completion of a credential program to receive his/her California educator credential.

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Engage and support all students in learning.
2. Create and maintain effective environments for student learning.
3. Understand and organize subject matter for student learning.
4. Plan instruction and design learning experiences for all students.
5. Assess student learning.
6. Develop as a professional educator.

# MA in Education: Learning and Technology and Mild to Moderate Support Needs Education Specialist Credential

Azusa Pacific University's Master of Arts in Education: Learning and Technology and Mild to Moderate Support Needs Education Specialist Credential program (https://www.apu.edu/education/programs/masters-in-learning-technology-mild-moderate/) prepares candidates to earn a Master of Arts in Education: Learning and Technology degree along with an embedded Mild to Moderate Support Needs Education Specialist Preliminary Credential. This program includes comprehensive foundation courses emphasizing teaching and educational methods, as well as specialization courses providing content required for the education specialist credential. Practical classroom and fieldwork experiences provide application to theory, preparing candidates to teach in diverse settings. Advanced coursework in the emphasis area of learning and technology provides candidates with the knowledge to effectively design and infuse technology-embedded curriculum into TK-12 teaching and learning environments. The mode of delivery includes face-to-face instruction, campus-based classes, distance learning, online courses, and clinical experiences.

Azusa Pacific University's Mild to Moderate Support Needs Education Specialist Credential program is approved by the California Commission on Teacher Credentialing (CTC) (https://www.ctc.ca.gov) and the Council for the Accreditation of Educator Preparation (CAEP) (https://caepnet.org), and comprises specific methods courses that are accompanied by practical classroom applications and field experiences in public school assignments.

Upon completion of the requirements listed below and all of the requirements detailed in the Steps to a Credential (p. 555), the candidate will have earned a Mild to Moderate Support Needs Education Specialist Preliminary Credential and a Master of Arts in Education: Learning and Technology degree.

# Computer and Software Requirements

Each student must have a Mac or PC laptop or notebook running the latest operating system with a word processing program and a stable internet connection.

# Course Requirements

| Code | Title | Units |
|------|-------|-------|
| **Foundation Courses** | | |
| TESP 501 | Art of Teaching I: Foundations of Teaching [1] | 3 |
| TESP 502 | Science of Teaching I: How Students Learn [1] | 3 |
| TESP 503 | The Soul of Teaching: Tapestry of American Education | 3 |
| TESP 504 | Schools and Educational Systems | 3 |
| **Specialization Courses** | | |
| SPED 517 | Art of Teaching II: Pedagogy and Instructional Design for Education Specialists | 3 |
| SPED 518 | Science of Teaching II: Effective Assessment Strategies for Learners with Special Needs | 3 |
| SPED 525 | Methods of Teaching Reading and Writing | 3 |
| SPED 526 | Specialized Academic Instruction: Reading, Writing, and Math | 3 |
| SPED 528 | Assessment and IEP Development: Mild to Extensive Support Needs | 3 |
| SPED 529 | Positive Behavior Supports for Students with Exceptional Needs | 3 |
| SPED 550 | Clinical Practice I: Mild to Moderate Support Needs | 2 |
| SPED 553 | Clinical Practice II: Mild to Moderate Support Needs | 2 |
| **Emphasis Courses** | | |
| EDUC 560 | Action Research in Education | 1 |
| EDUC 546 | Digital Communications | 3 |
| EDUC 547 | Special Topics in Educational Technology [2] | 3 |
| EDUC 548 | Emerging Trends in Technology | 3 |
| EDUC 569 | Capstone Seminar | 2 |
| **Elective Courses [3]** | | |
| EDUC 538 | Current Issues in Education | 3 |
| **Total Units [4]** | | **46-49** |

[1]   These courses must be completed prior to beginning clinical practice.

[2]   May be taken for credit up to three times as an additional elective as long as topics are not repeated.

[3]   Elective courses can be used toward the master's degree only for the individual needing additional units to complete the degree. Elective courses cannot be used to replace foundation, specialization, or emphasis course requirements.

[4]   The program is designed to be completed with 46 units; the use of elective units to complete the degree may increase the unit total.

**NOTE:** A maximum of 8 units may be taken per 8-week session. Teacher candidates in master's degree programs who have opted to waive some coursework must take additional units to fulfill the unit requirement. Completion of all credential requirements—including all examinations, coursework, and other requirements—must be met before the master's degree will be posted. A Graduation Application (https://www.apu.edu/student-services/registration/#gradproforms) must be completed and fees paid by the deadlines set by the registrar.

**NOTE:** Candidates who hold an intern credential must enroll in a candidate support and supervision course (SPED 500) during each 8-week session (fall or spring) in which they are not enrolled in a clinical practice course.

It is the candidate's responsibility to submit a credential application through the Office of Credentials (https://www.apu.edu/education/resources/credentials/) upon completion of a credential program to receive his/her California educator credential.

# Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

**Program Learning Outcomes**

**Program Learning Outcomes**

Students who successfully complete this program shall be able to:

1. Engage and support all students in learning.
2. Create and maintain effective environments for student learning.
3. Understand and organize subject matter for student learning.
4. Plan instruction and design learning experiences for all students.
5. Assess student learning.
6. Develop as a professional educator.

# MA in Education: Special Education and Extensive Support Needs Education Specialist Credential

Azusa Pacific University's Master of Arts in Education: Special Education and Extensive Support Needs Education Specialist Credential program (https://www.apu.edu/education/programs/masters-in-special-education-moderate-severe/) prepares candidates to earn a Master of Arts in Education: Special Education degree along with an embedded Extensive Support Needs Education Specialist Preliminary Credential. This program includes comprehensive foundation courses emphasizing teaching and educational methods, as well as specialization courses providing content required for the education specialist credential. Practical classroom and fieldwork experiences provide application to theory, preparing candidates to teach in diverse settings. Advanced coursework in the emphasis area of special education provides candidates with knowledge needed to serve students with disabilities in TK-12 public schools. The mode of delivery includes face-to-face instruction, campus-based classes, distance learning, online courses, and clinical experiences.

Azusa Pacific University's Extensive Support Needs Education Specialist Credential program is approved by the California Commission on Teacher Credentialing (CTC) (https://www.ctc.ca.gov) and the Council for the Accreditation of Educator Preparation (CAEP) (https://caepnet.org), and includes specific methods courses that are accompanied by practical classroom applications and clinical experiences in public school assignments.

Upon completion of the requirements listed below and all of the requirements detailed in the Steps to a Credential (p. 555), the candidate will have earned an Extensive Support Needs Education Specialist Preliminary Credential and a Master of Arts in Education: Special Education degree.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Engage and support all students in learning.
2. Create and maintain effective environments for student learning.
3. Understand and organize subject matter for student learning.
4. Plan instruction and design learning experiences for all students.
5. Assess student learning.
6. Develop as a professional educator.

# Integrated Bachelor's/Credential Program

The Integrated Bachelor's/Credential (APU IBC) program provides an accelerated, rigorous education leading to a bachelor's degree and a preliminary California teaching credential. As part of this unique 3+1 model, students complete credential courses as undergraduates and work in the field alongside mentor-teachers throughout the credential portion of the program. The credential portion of the program is approved by the California Commission on Teacher Credentialing (CTC) (https://www.ctc.ca.gov/) and accredited by the Council for the Accreditation of Educator Preparation (CAEP) (https://caepnet.org/).

The programs available are:

1. Bachelor of Science in Allied Health with Single Subject (Science) Teaching Credential (p. 55)
2. Bachelor of Arts in Liberal Studies with Mild to Moderate Support Needs Education Specialist Credential (p. 549)
3. Bachelor of Arts in Liberal Studies with Extensive Support Needs Education Specialist Credential (p. 549)
4. Bachelor of Arts in Mathematics with Single Subject (Math) Teaching Credential (p. 90)

## Program Details

During the first three years, students complete most of the requirements for their major and participate in undergraduate field experiences in public school classrooms. Students formally apply for admission to the School of Education prior to or during their junior year. In the summer between their junior and senior years, students begin taking graduate-level courses offered through the School of Education. Throughout the program, students participate in service-learning projects, field experiences, and clinical practice (student teaching) in area TK-12 public schools. The clinical practice

component requires 16 weeks of full-time student teaching. All field experiences and clinical practice experiences must take place in a TK-12 public school located within 50 miles of Azusa or an APU regional campus. Students must have access to reliable transportation.

# Application to the Integrated Bachelor's/Credential Program

Admission to the School of Education is required for all students before they begin credential courses offered through the School of Education. Applications are available in the Office of Credentials (https://www.apu.edu/education/resources/credentials/) in Building One on West Campus. Students may apply to the APU IBC program once they have completed at least 32 semester hours of undergraduate credit and before they complete at 96 hours of undergraduate credit. Students who wish to enroll in the APU IBC program and want to begin School of Education credential courses in the summer must submit the application and accompanying requirements (see list below) to the Office of Credentials by April 1; students who wish to begin credential courses in the fall must submit the application and accompanying requirements by July 1; students who wish to begin credential courses in the spring must submit the application and accompanying requirements by November 1.

In addition to completing the application form for admission to the School of Education, a student must submit the following items to the School of Education:

- A one- to two-page personal statement addressing the following topics: experiences from the applicant's background that enhance the teaching experience; the most rewarding and challenging aspects of working with youth; why the applicant wants to teach; preferred grade level and content areas and why; and how the applicant envisions supporting the success of all students and contributing to the profession.
- Proof of Certificate of Clearance (COC) (review instructions on Obtaining a Certificate of Clearance (https://apu.edu/apply/pdfs/ed_certificate_clearance.pdf)). Applicants are encouraged to begin this step early in their second year to allow time for processing by the California Commission on Teacher Credentialing.
- Proof that the California Basic Skills Requirement (https://www.ctc.ca.gov/credentials/leaflets/basic-skills-requirement-(cl-667/) has been satisfied.
- Proof that the applicant is on track to satisfy the California Subject Matter Requirement (https://www.ctc.ca.gov/educator-prep/subject-matter-requirements/). For liberal studies majors and math majors, this means being a student in good academic standing within the major and making appropriate progress to degree completion. For allied health majors, this means submitting an official score report reflecting a passing score on an appropriate California Subject Examinations for Teachers (CSET) subtest or submitting proof of paid registration for the next appropriate CSET administration.
- Two letters of recommendation from a supervisor, former professor, or other professional. A third letter of recommendation from a current professor is encouraged.
- Current résumé.
- Current transcript indicating GPA of 3.0 or above*.

All applicants will also be required to interview with the credential program director or a designee from the IBC program.

*Admission to the APU IBC program is selective; among those accepted, the mean undergraduate GPA at time of application is 3.0+ with an SAT score of 993+ (2016 or earlier version) or 1490+ (2017 version), a composite ACT score of 20+, or a CBEST Reading subtest score of 50+ and Math subtest score of 52+.

International students must meet the following additional requirements:

- The admission requirement for international students with English as a second language (ESL) is a minimum TOEFL iBT score of 90 (22 on Reading, 22 on Listening, 22 on Speaking, and 24 on Writing) or IELTS score of 7.

During the first three years of the program, APU undergraduate students planning to participate in the APU IBC program are completing General Education requirements and degree major requirements for liberal studies, allied health, or math. Advising is coordinated by the degree major department. Once undergraduate students are admitted to the APU IBC program, the Office of Credentials and APU IBC program director advise them in regard to the California preliminary teaching credential and credential requirements.

# Credential Tracks

Program graduates earn a Preliminary California Teaching credential in one of the following:

## Special Education Track

This track prepares students to effectively teach individuals with special needs. Preliminary Education Specialist credentials are offered in the areas of:

- Mild to Moderate Support Needs, which includes specific learning disabilities, mild to moderate intellectual disabilities, autism, other health impairment, and emotional disturbance
- Extensive Support Needs, which includes autism, deaf-blindness, moderate to severe intellectual disabilities, multiple disabilities, and emotional disturbance

## Single Subject Track

This track prepares students to teach at the middle/high school level (6-12). Preliminary Single Subject credentials that can currently be completed via the APU IBC program are Math and Science. The School of Education offers the graduate Single Subject Credential program in additional subject areas. Visit the Division of Teacher Education section (p. 503) of the Academic Catalog for more information.

## Clinical Practice Clearance

The following requirements must be met before undergraduate students may progress to clinical practice (student teaching).

Applications for clinical practice must be submitted to the Office of Student Placements by April 10 for the fall semester and September 10 for the spring semester. Students must also submit the following to the Office of Student Placements by April 30 for fall semester and September 30 for spring semester:

- Transcript(s) demonstrating successful completion of at least 110 undergraduate units and an undergraduate GPA of 3.0 or higher.
- Proof that student is on track to graduate at the conclusion of the clinical practice semester, which could include a recommendation letter from the undergraduate major advisor, a current advisement form, or current transcripts.
- Proof that the California Basic Skills Requirement (https://www.ctc.ca.gov/credentials/leaflets/basic-skills-requirement-(cl-667/) has been satisfied.
- Proof that the California Subject Matter Requirement (https://www.ctc.ca.gov/educator-prep/subject-matter-requirements/) has been met. For liberal studies and math majors, this means proof that the student is on track to graduate at the conclusion of the clinical practice semester with a degree major in liberal studies or math.
- Tuberculosis (TB) clearance, which must be valid for a two-year time period that runs through the end date of the assigned clinical practice term.
- Certificate of Clearance or other appropriate CTC-issued document that will be valid throughout the clinical practice semester.
- Proof of U.S. Constitution coursework or exam.

Clinical practice courses are taken as Credit (*CR*)/No Credit (*NC*). Students who earn an *NC* grade are required to meet with their program director to identify knowledge, skills, and/or dispositions that may need strengthening and develop a performance improvement plan. Students will not receive another placement for clinical practice until after they have met with their program director and received their performance improvement plan. Students who earn an *NC* grade will be placed on probation and given one enrollment period to demonstrate satisfactory progress according to the terms of the improvement plan. Students who do not meet the standards for satisfactory progress after a probation period may be dismissed from the credential program.

Students are expected to successfully complete their culminating clinical practice courses at first attempt. On rare occasions, students with unsuccessful first attempts will be eligible to petition the Division of Teacher Education to repeat the course, but a successful petition is required for a student to repeat. A culminating clinical practice course can be repeated only once.

Students who earn an *NC* grade in a culminating clinical practice or during fieldwork as a result of a lapse in professional responsibility, integrity, or ethical conduct may not be eligible to petition to repeat the course for which they received the nonpassing grade.

## Credential Application

To be eligible for a credential, students must demonstrate the following:

- Conferral of a bachelor's degree from APU in allied health, liberal studies, or math.
- Successful completion of credential coursework (i.e., competency on each student learning outcome and a course grade of *B-* or better).
- Evaluation of required assignments in the Division of Teacher Education's assessment tool, Watermark's™ Student Learning & Licensure.
- Proficiency in the Teaching Performance Expectations (TPEs).
- Passage of all state-required examinations:

    - RICA or the CTC-required literacy assessment is required for students who wish to become certified for teaching special education.

    - Passage of CalTPA (Instructional Cycle 1 and Instructional Cycle 2) is required for candidates who wish to become credentialed for teaching a single subject (math or science).

    - Passage of Education Specialist CalTPA (Instructional Cycle 1 and Instructional Cycle 2) for candidates who wish to become credentialed for teaching students with mild to moderate support needs and extensive support needs.

- Successful completion of CPR for infants, children, and adults.
- Successful completion of an Induction Individual Development Plan approved by the program director.
- Completion of all other credential requirements.

It is the student's responsibility to submit a credential application through the Office of Credentials (https://www.apu.edu/education/resources/credentials/) upon completion of a credential program to receive their California preliminary teaching credential.

## Program Expectations

- Students in the APU IBC program prepare to work in schools as educators. They must demonstrate the content, pedagogy, and writing skills and dispositions required for the profession. Therefore, the School of Education assesses students, in academic and dispositional standards, from the time of admission to the program through recommendation of credential.
- Students are expected to maintain a high level of professional and ethical behavior throughout the program; failure to do so may result in discipline up to and including dismissal from the program.
- Students must be covered by professional liability insurance during the semesters in which they are participating in field experience and clinical practice.
- Students participating in field experience and clinical practice who are driving onto TK-12 school sites must have proof of auto insurance.
- Students are required to have and maintain a valid Certificate of Clearance (COC) from their time of admission to the program through recommendation of credential. Students who allow their COC to expire will be prevented from enrolling in future terms until they once again have a valid COC.
- Students are required to ensure successful submission of Watermark™ Student Learning and Licensure items as outlined in syllabi from credential-related coursework for recommendation for a credential to the California Commission on Teacher Credentialing (CTC).
- Students must earn a *B-* or better in all credential coursework. Students who earn a *C+* or below must retake the course for the course to be used toward credential requirements, and must meet with their academic advisor for a revised course sequence plan before progressing in the program.
- All standards and requirements for the credential portion of the program are subject to CTC, CAEP, and federal policy changes, and these supersede catalog descriptions of prior programs and requirements.

An integrated bachelor's/credential is granted based on the completion of all credential and degree requirements. If a student does not complete all credential and degree requirements, as indicated in the Graduation Clearance Pending letter, within two years of filing their graduation application, but has completed degree requirements for the undergraduate degree major without the integrated bachelor's/credential, he or she will be subject to automatically having their stand-alone degree posted. If the remaining requirements for the stand-alone degree are not completed by the deadline, the student will be subject to policies governing reentering students, and a new catalog year will apply.

# BA in Liberal Studies with Integrated Credential

118 units

In this program, students earn a Bachelor of Arts in Liberal Studies and a mild to moderate support needs or extensive support needs education specialist credential in a total of four years. **The only concentration offered with the Liberal Studies Integrated Bachelor's/Credential Program is Special Education**. Full program details and requirements are available on the Integrated Bachelor's/Credential Program (p. 546) page of this catalog.

## Requirements

| **Concentrations** | | |
| Select one concentration from the list below. | | 12 |
| **Total Units** | | **84** |

[1]   This is a core liberal studies course. The 38 units of core liberal studies coursework must be completed with a grade of *C* or higher and an overall GPA of 3.0 or higher.

[2]   Meets the General Education Civic Knowledge and Engagement requirement.

[3]   Meets the General Education Social Sciences requirement.

[4]   Meets the General Education Intercultural Competence requirement.

[5]   Meets the General Education Integrative and Applied Learning requirement.

[6]   Meets the General Education Writing 3 requirement.

[7]   Meets the General Education Oral Communication requirement.

[8]   Meets the General Education Humanities: Literature requirement.

[9]   Meets the General Education Humanities: Fine Arts requirement.

[10]  Meets the General Education Quantitative Literacy requirement.

[11]  Meets the General Education Natural Sciences requirement.

[12]  Meets the General Education Humanities: History requirement.

[13]  California Education Code Section 44335 requires all candidates for a teaching credential to demonstrate knowledge of the United States Constitution by completing a college-level course or a college-level examination in the subject; successful completion of either with a grade of *C* or higher meets this California Education Code requirement.

**Students in the liberal studies major are limited to completing only one concentration from those listed below. A concentration course cannot double-count to meet a concentration requirement and a major requirement listed above.**

## Art Concentration

| Code | Title | Units |
|---|---|---|
| **Required Courses** | | |
| ART 145 | Drawing I [1] | 3 |
| ART 146 | Painting I | 3 |
| Select one of the following art history courses: | | 3 |
| ART 354 | History of Ancient Art and Architecture [1] | |
| ART 356 | Writing 3: History of Modern Art and Architecture [2] | |
| ART 357 | History of Contemporary Art and Architecture [1] | |
| ART 361 | History of Early Christian and Medieval Art and Architecture [1] | |
| ART 362 | History of Renaissance to Rococo Art and Architecture [1] | |
| Select one of the following crafts courses: | | 3 |
| ART 105 | Ceramics I [1] | |

| | | |
|---|---|---|
| ART 111 | Printmaking: Serigraph | |
| ART 170 | Sculpture I | |
| ART 403 | Multicultural Art [1] | |
| **Total Units** | | **12** |

[1]	Meets the General Education Humanities: Fine Arts requirement.
[2]	Meets the General Education Writing 3 requirement.

## English Concentration

| Code | Title | Units |
|---|---|---|
| **Required Courses** | | |
| ENGL 404 | Approaches to Grammar | 3 |
| ENGL 406 | Writing 3: Advanced Composition [1] | 3 |
| Select one of the following English or world literature courses: | | 3 |
| ENGL 222 | English Literature to 1789 [2] | |
| ENGL 224 | World Literature to the Renaissance [2] | |
| ENGL 232 | English Literature Since 1789 [2] | |
| ENGL 234 | World Literature Since the Renaissance [2] | |
| ENGL 377 | Shakespeare | |
| ENGL 386 | Contemporary Global Writers | |
| ENGL 466 | British Novel | |
| Select one of the following American literature courses: | | 3 |
| ENGL 244 | American Literature to 1865 (Select one of the following American literature courses:) [2] | |
| ENGL 254 | American Literature Since 1865 [2] | |
| ENGL 364 | American Ethnic Literature [3] | |
| ENGL 374 | African American Literature | |
| ENGL 410 | American Novel | |
| **Total Units** | | **12** |

[1]	Meets the General Education Writing 3 requirement.
[2]	Meets the General Education Humanities: Literature requirement.
[3]	Meets the General Education Intercultural Competence requirement.

## Human Development: School Psychology Concentration

PSYC 290 and MATH 130 are prerequisite courses for the upper-division courses in this concentration.

| Code | Title | Units |
|---|---|---|
| **Required Courses** | | |
| MATH 130 | Introduction to Statistics [1] | 3 |
| PSYC 345 | Psychology of Child and Adolescent Development [2] | 3 |
| PSYC 360 | Abnormal Psychology | 3 |
| Select one of the following: | | 3 |
| PSYC 292 | Introduction to Brain and Behavior | |
| PSYC 305 | Educational Psychology | |
| PSYC 390 | Cognition | |
| PSYC 405 | Psychology of Learning | |
| PSYC 410 | Psychology of Exceptional Children | |
| PSYC 472 | Neurological and Behavioral Disorders | |
| **Total Units** | | **12** |

[1]	Meets the General Education Quantitative Literacy requirement.
[2]	Meets the General Education Social Sciences requirement.

## Human Development: Special Education Concentration

| Code | Title | Units |
|---|---|---|
| **Required Courses** | | |
| EDLS 303 | Introduction to Special Populations | 3 |
| EDLS 304 | Introduction to Teaching Special Populations | 3 |
| PSYC 410 | Psychology of Exceptional Children | 3 |
| PSYC 430 | Intervention Strategies with Children | 3 |
| **Total Units** | | **12** |

## Math Concentration

See the Department of Computer Science, Engineering, Mathematics, Physics, and Statistics (p. 70) for updated schedules.

Note: Students must begin their mathematics coursework at the level for which they qualify as determined by their SAT/ACT score, previous university coursework, or the APU mathematics placement assessment. Some students require one or more courses prior to calculus.

| Code | Title | Units |
|---|---|---|
| **Required Courses** | | |
| MATH 165 | Calculus I | 3 |
| MATH 280 | Discrete Mathematics and Proof | 3 |
| MATH 340 | Geometry | 3 |
| Select one of the following: | | 3 |
| MATH 130 | Introduction to Statistics [1] | |
| MATH 361 | Introduction to Modeling with Probability | |
| **Total Units** | | **12** |

[1]    Meets the General Education Quantitative Literacy requirement.

## Music Concentration

| Code | Title | Units |
|---|---|---|
| **Required Courses** | | |
| MUS 101 | Beginning Voice Class | 1 |
| MUS 103 | Beginning Piano Class [1] | 1 |
| MUS 121 | Music Theory I [2] | 3 |
| MUS 133 | Practical Musicianship I | 1 |
| MUS 201 | Introduction to World Music [3] | 3 |
| Select one of the following: | | 3 |
| MUS 350 | History and Literature of Commercial Music | |
| MUS 351 | Ancient, Renaissance, and World Music Literature | |
| MUS 352 | Writing 3: Baroque, Classical, and Early Romantic Music Literature [4] | |
| MUS 455 | Late Romantic and 20th-Century Music Literature [5] | |
| **Total Units** | | **12** |

[1]    Or 1 unit for each Applied Piano (permission by audition only).
[2]    Meets the General Education Humanities: Fine Arts requirement.
[3]    Meets the General Education Intercultural Competence requirement.
[4]    Meets the General Education Writing 3 requirement.
[5]    Meets the General Education Humanities: History requirement.

## Science Concentration

| Code | Title | Units |
|---|---|---|
| **Required Courses** | | |
| BIOL 151 | General Biology I [1] | 4 |
| BIOL 152 | General Biology II | 4 |

| CHEM 123 | General, Organic, and Biological Chemistry for the Health Sciences [1] | 4 |
|---|---|---|
| **Optional Elective** | | |
| PHYC 155 | Physics for Life Sciences I [1] | |
| **Total Units** | | **12** |

[1]    Meets the General Education Natural Sciences requirement.

## Social Science Concentration

| Code | Title | Units |
|---|---|---|
| **Required Courses** | | |
| POLI 150 | American Government [1, 2] | 3 |
| HIST 210 | World Geography | 3 |
| Select one of the following non-Western courses: | | 3 |
| HIST 320 | Modern Africa | |
| HIST 360 | History of the Middle East I: Early and Medieval Islam | |
| HIST 361 | History of the Middle East II: Modern Middle East | |
| HIST 392 | Colonial Latin America | |
| HIST 393 | Ritual and Re-enactment in Modern Latin America | |
| POLI 390 | History and Politics of the Non-Western World | |
| Select one of the following social science courses: | | 3 |
| ECON 250 | Principles of Macroeconomics [3] | |
| ECON 251 | Principles of Microeconomics | |
| POLI 220 | State and Local Government | |
| POLI 320 | Comparative Politics | |
| SOC 225 | Contemporary Social Problems | |
| SOC 361 | Education and Society | |
| **Total Units** | | **12** |

[1]    Meets the General Education Civic Knowledge and Engagement requirement.
[2]    California Education Code Section 44335 requires all candidates for a Teaching Credential to demonstrate knowledge of the United States Constitution by completing a college-level course or a college-level examination in the subject; successful completion of either with a grade of *C* or higher meets this California Education Code requirement.
[3]    Meets the General Education Social Sciences requirement.

## Spanish Concentration

| Code | Title | Units |
|---|---|---|
| **Required Courses** | | |
| SPAN 201 | Intermediate Spanish I | 3 |
| SPAN 202 | Intermediate Spanish II | 3 |
| SPAN 301 | Spanish Conversation and Community [1, 2] | 3 |
| Select one of the following: | | 3 |
| SPAN 332 | Literary Masters [3] | |
| SPAN 421 | Survey of Spanish Literature | |
| SPAN 422 | Survey of Latin American Literature | |
| SPAN 431 | Spanish Language Poetry and Short Story | |
| SPAN 460 | Writing 3: Survey of the Literature of the Spanish-Speaking World [4] | |
| **Total Units** | | **12** |

[1]    SPAN 101, SPAN 102, SPAN 201, and SPAN 202 are prerequisites for 300-level SPAN courses.
[2]    Meets the General Education Intercultural Competence requirement.
[3]    Meets the General Education Humanities: Literature requirement.
[4]    Meets the General Education Writing 3 requirement.

## Mild to Moderate Support Needs Education Specialist Credential Requirements

| Code | Title | Units |
|---|---|---|
| **Foundation Courses** | | |
| TESP 501 | Art of Teaching I: Foundations of Teaching [1] | 3 |
| TESP 502 | Science of Teaching I: How Students Learn [1] | 3 |
| TESP 503 | The Soul of Teaching: Tapestry of American Education | 3 |
| TESP 504 | Schools and Educational Systems | 3 |
| **Specialization Courses** | | |
| SPED 517 | Art of Teaching II: Pedagogy and Instructional Design for Education Specialists | 3 |
| SPED 518 | Science of Teaching II: Effective Assessment Strategies for Learners with Special Needs | 3 |
| SPED 525 | Methods of Teaching Reading and Writing | 3 |
| SPED 526 | Specialized Academic Instruction: Reading, Writing, and Math | 3 |
| SPED 528 | Assessment and IEP Development: Mild to Extensive Support Needs | 3 |
| SPED 529 | Positive Behavior Supports for Students with Exceptional Needs | 3 |
| SPED 550 | Clinical Practice I: Mild to Moderate Support Needs | 2 |
| SPED 553 | Clinical Practice II: Mild to Moderate Support Needs | 2 |
| **Total Units** | | **34** |

[1]    These courses must be completed prior to beginning clinical practice.

## Extensive Support Needs Education Specialist Credential Requirements

| Code | Title | Units |
|---|---|---|
| **Foundation Courses** | | |
| TESP 501 | Art of Teaching I: Foundations of Teaching [1] | 3 |
| TESP 502 | Science of Teaching I: How Students Learn [1] | 3 |
| TESP 503 | The Soul of Teaching: Tapestry of American Education | 3 |
| TESP 504 | Schools and Educational Systems | 3 |
| **Specialization Courses** | | |
| SPED 517 | Art of Teaching II: Pedagogy and Instructional Design for Education Specialists | 3 |
| SPED 518 | Science of Teaching II: Effective Assessment Strategies for Learners with Special Needs | 3 |
| SPED 525 | Methods of Teaching Reading and Writing | 3 |
| SPED 527 | Teaching Students with Extensive Support Needs | 3 |
| SPED 528 | Assessment and IEP Development: Mild to Extensive Support Needs | 3 |
| SPED 529 | Positive Behavior Supports for Students with Exceptional Needs | 3 |
| SPED 570 | Clinical Practice I: Extensive Support Needs | 2 |
| SPED 573 | Clinical Practice II: Extensive Support Needs | 2 |
| **Total Units** | | **34** |

[1]    These courses must be completed prior to beginning clinical practice.

## Program Learning Outcomes

## Liberal Studies Major

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Analyze and demonstrate proficiency in subject matter required of K--8 teachers by the State of California.
2. Integrate K--8 curriculum concepts and disciplines.
3. Define teaching methods of instruction using best practices with a Christian perspective.
4. Understand aspects of cultural diversity within the context of the classroom.
5. Identify a distinctive Christian perspective compared to a secular perspective as it pertains to current education issues.

## Integrated Credential

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Engage and support all students in learning.
2. Create and maintain effective environments for student learning.
3. Understand and organize subject matter for student learning.
4. Plan instruction and design learning experiences for all students.
5. Assess student learning.
6. Develop as a professional educator.

# Steps to a Credential

The three major steps to completing a Preliminary Teaching Credential through APU's Division of Teacher Education (DTE) are described as follows. Credential candidates should refer to the DTE Teacher Candidate Handbook for further details.

- Step 1: Admission (p. 556)
- Step 2: Clinical Practice Clearance (p. 556)
- Step 3: Credential Application (p. 557)

## Credential Requirements

All candidates must meet the following requirements to be considered for a Multiple Subject or Single Subject Preliminary Teaching Credential or a Mild to Moderate Support Needs or Extensive Support Needs Education Specialist Preliminary Credential:

1. Successful completion of all coursework (note: all candidates must earn a *B*- or better in all coursework. Candidates who earn below a *B*- must retake the course and meet with their academic advisor for a revised course sequence plan before progressing in the program. All admitted candidates must maintain a cumulative GPA of 3.0. Candidates who do not meet the above requirements will be reviewed for dismissal from the program).
2. Completion of each of the following program requirements:
   - U.S. Constitution requirement (course or exam)
   - Verification of the basic skills requirement
   - Verification of subject matter requirement (note: passing CSET examination or subtest scores must be used for certification purposes within 10 years of the individual test date)
   - Verification of tuberculosis clearance
   - Continuing verification from instructors of positive dispositions characteristic of the teaching profession (emotional stability, strong interpersonal relations, good mental and physical health, and other character standards listed on the application)
   - Receipt of favorable results of Certificate of Clearance **(note: candidates must report any changes in character standings, including unresolved issues with the law and/or the California Commission on Teacher Credentialing (CTC) (https://www.ctc.ca.gov), to their credential analyst; failure to do so may result in expulsion from the program)**
3. Successful completion of fieldwork and clinical practice. Traditionally, clinical practice is met through student teaching with a cooperating teacher, but candidates who hold a contracted teaching position may request approval to complete clinical practice in their own classrooms.
4. Prior to applying for a preliminary credential, candidates must:
   - Verify successful completion of CPR for infants, children, and adults.
   - Verify successful completion of all assessments and forms required in the Division of Teacher Education's assessment system (Watermark's™ Student Learning & Licensure).
   - Multiple Subject and Single Subject Credential candidates must submit and pass Instructional Cycle 1 and Instructional Cycle 2 of the California Teaching Performance Assessment (CalTPA) as required by CTC.
   - Mild to Moderate Support Needs and Extensive Support Needs Credential candidates must submit and pass Instructional Cycle 1 and Instructional Cycle 2 of the Education Specialist California Teaching Performance Assessment (CalTPA) as required by the CTC.
   - Multiple Subject and Special Education Credential candidates must show proof of passage of the Reading Instruction Competence Assessment (RICA) or the CTC-required literacy assessment.
   - All candidates must complete an Individual Development Plan (IDP) that is approved by the program director.

Contact a credential analyst (https://www.apu.edu/education/resources/credentials/) for information on applying for a preliminary credential after the above requirements have been completed. Your credential analyst will provide information needed to complete your credential application. Preliminary

credentials are valid for five years and are nonrenewable. A Clear Credential is obtained through a CTC-approved induction program with either a California local education agency (e.g., public school district, county office of education) or California institution of higher education.

# Step 1: Admission

## General Requirements

All educator preparation programs within the Division of Teacher Education require the following:

- A completed graduate or integrated bachelor's/credential application for admission
- A $45 nonrefundable application fee (not required for students previously admitted to a graduate program at Azusa Pacific University or students applying to the integrated bachelor's/credential program)
- Official transcripts from all institutions leading to, and awarding, the applicant's baccalaureate degree from a regionally accredited college or university and all postbaccalaureate study
- A minimum baccalaureate or master's grade-point average of 3.0 on a 4.0 scale. Provisional admittance may be granted to individuals with a grade-point average between 2.5 and 2.9.
- Two letters of recommendation
- A personal statement or essay
- A valid California Certificate of Clearance (COC) or other appropriate and valid document from CTC
- Proof the California Basic Skills Requirement (https://www.ctc.ca.gov/credentials/leaflets/basic-skills-requirement-(cl-667/) has been satisfied
- Proof the California Subject Matter Requirement (https://www.ctc.ca.gov/educator-prep/subject-matter-requirements/) has been satisfied. Candidates seeking admission to a graduate degree program with a teaching credential embedded may submit proof of paid registration for the next appropriate California Subject Examinations for Teachers (CSET) administration.
- A percentage of candidates will also be required to interview with the program director or his/her designee prior to an admission decision.

Note: University graduate or integrated bachelor's/credential admission and program acceptance requirements must be met before an application is complete (see Admission to the University (p. 958)) (http://catalog.apu.edu/graduateprofessional/admission-policies/graduate-admission-university/). Program-specific application requirements are available online (https://www.apu.edu/programs/?search=&level=Master%27s+Degree&level=Doctoral+Degree&level=Certificates+and+Credentials).

Departments reserve the right to change the admission process and requirements. Students who are in continuous enrollment status are subject to the requirements in effect at the time of their initial enrollment.

Questions about successful completion of the Basic Skills Requirement or Subject Matter Requirement should be directed to the Office of Credentials (https://www.apu.edu/education/resources/credentials/). Candidates are advised by their assigned credential analyst prior to enrollment in the program to support a successful start in the credential program.

## International Students

International students have a separate application procedure. Contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

# Step 2: Clinical Practice Clearance

The following requirements must be met before any clinical practice experiences can take place:

- Applications for clinical practice must be submitted to the Office of Student Placements (https://www.apu.edu/education/teacher/placements/) by April 10 for fall term and September 10 for spring term. A candidate's Academic Plan indicates the term for clinical practice.
- In addition to the application for clinical practice, candidates must submit the following to the Office of Student Placements by April 30 for fall term and September 30 for spring term to clear for clinical practice for the advised term:
  - Candidates in the graduate programs must have a posted bachelor's degree from a regionally accredited college or university. For candidates in the Single Subject program, the degree major must be in an area other than professional education. Candidates in the integrated bachelor's/credential program must submit transcripts demonstrating successful completion of at least 110 undergraduate units and an undergraduate GPA of 3.0 or higher.
  - Verification of successful completion of the Basic Skills Requirement.
  - Successful completion (*B*- or better) of all coursework from Modules 1 through 5 of the Academic Plan, in accordance with program advising.
  - Tuberculosis (TB) clearance, which must be valid for a two-year time period that runs through the end date of the assigned clinical practice term. Negative TB test requirements must be provided to the Office of Student Placements.
  - Valid Certificate of Clearance or other appropriate CTC-issued document throughout clinical practice.

- Proof of successful completion of U.S. Constitution coursework or exam.
- Original, passing scores of CSET exams, official verification of completion of a CTC-approved subject-matter program signed by the credential analyst at the California institution of higher education at which the courses were successfully completed, **or** meet one of the CTC-approved options (https://www.ctc.ca.gov/educator-prep/subject-matter-requirements/). Note: CSET subtest exams must be used for credential purposes within 10 years of the individual passing date of each subtest or they expire. Candidates in the integrated bachelor's/credential program may submit official verification of completion of four-fifths of a CTC-approved subject-matter program confirmed by a credential analyst.
- Graduate candidates seeking to use a contracted teaching position, either intern or nonintern, for clinical practice must submit all required documents by December 15 for spring term and August 15 for fall term, including but not limited to a copy of their teaching contract for the appropriate school year and a principal's letter on school letterhead. Templates with the requirements for the principal letter can be obtained from the Office of Student Placements. **All contracted teaching positions must be approved as part of the clinical practice clearance process prior to placement to ensure they meet all placement requirements.** Candidates should contact the Office of Student Placements prior to accepting a contracted teaching position if they intend to use the position for completion of clinical practice. **All candidates seeking intern positions must work with their credential analyst regarding any proposed teaching position.**

# Step 3: Credential Application

To be eligible for a credential, candidates must demonstrate the following:

- Successful completion of coursework (competency on each student learning outcome, a grade of *B*- or better on each credential course, earned credit in clinical practice coursework).
- Evaluation of required assignments in the division's assessment tool (Watermark's™ Student Learning & Licensure).
- Proficiency in the Teaching Performance Expectations (TPEs).
- Passage of all state-required examinations, as follows:
    - Passage of the RICA examination or the California Commission on Teacher Credentialing (CTC) (https://www.ctc.ca.gov)-required literacy assessment is required for candidates who wish to become credentialed for teaching multiple subjects or special education.
    - Passage of CalTPA (Instructional Cycle 1 and Instructional Cycle 2) is required for candidates who wish to become credentialed for teaching multiple subjects or a single subject.
    - Passage of Education Specialist CalTPA (Instructional Cycle 1 and Instructional Cycle 2) for candidates who wish to become credentialed for teaching students with mild to moderate support needs or extensive support needs.
- Completion of all other credential requirements.
- For integrated bachelor's/credential candidates, the bachelor's degree from Azusa Pacific University must be conferred.

It is the candidate's responsibility to submit a credential application through the Office of Credentials (https://www.apu.edu/education/resources/credentials/) upon completion of a credential program to receive their California educator credential. This request may be submitted to the credentials office up to one month before completion of all credential requirements.

# Program Expectations

- APU School of Education candidates prepare to work in schools as educators, including teachers, school and district leaders, school counselors and psychologists, and other specialty personnel. They must demonstrate the content, pedagogy, and writing skills and dispositions required of the profession. Therefore, the School of Education assesses candidates from admission through recommendation of credentials in both academic and dispositional standards.
- Candidates are expected to maintain a high level of professional and ethical behavior throughout the program. Failure to do so may result in discipline up to and including program dismissal.
- All candidates must have access to technology (i.e., computer and internet connectivity). Additional technology requirements are necessary for some programs. Check the program descriptions in this catalog for more information.
- Candidates who live in, work at, or relocate to a location more than 50 miles from the nearest Azusa campus (including regional campuses) must request approval from the department to participate in fieldwork and/or clinical experience at a distance following the process outlined in the Clinical Experience Locations section below. If the location is approved, the candidate may be assessed charges to cover the costs (e.g., travel, lodging, etc.) for fieldwork and/or clinical experience supervision.
- All credential standards and requirements for educator preparation programs are subject to CTC, CAEP, and federal policy changes, as well as university academic policy, and these supersede catalog descriptions of prior programs and requirements.
- Candidates participating in credential programs or bachelor's, master's or education specialist degree programs with credential embedded must be covered by professional liability insurance in their capacity as credential candidates.
- Candidates participating in fieldwork and/or clinical experience who are driving to school or agency sites must have proof of auto insurance.

## Clinical Experience Locations

Candidates are required to complete fieldwork and/or clinical experience at sites where the School of Education has an executed Memorandum of Understanding (MOU), at sites that engage in ongoing partnership and collaboration with the School of Education, and at sites that are located within 50 miles of the nearest Azusa Pacific University campus where School of Education programs are offered (including regional locations). In rare instances, a candidate may be approved to participate in fieldwork and/or clinical experience at a location more than 50 miles from the nearest Azusa Pacific University campus; for a candidate to request consideration for such a placement, they must submit an Academic General Petition (https://www.apu.edu/student-services/registration/#gradproforms) providing a clear rationale as to why it is not possible to complete fieldwork and/or clinical experience at a site within 50 miles of the nearest Azusa Pacific University campus. If an MOU covering the fieldwork and/or clinical experience is not already in place with the requested site, the Academic General Petition must be submitted at least 4 months prior to the semester in which the fieldwork and/or clinical experience is scheduled to occur. When the Academic General Petition is approved, the School of Education will attempt to secure an executed MOU with the requested site, but there is no guarantee that the School of Education will be able to secure an executed MOU. If an MOU covering the fieldwork and/or clinical experience is in place with the requested site and valid throughout the time frame of the fieldwork and/or clinical experience, the Academic General Petition must be submitted at least 8 weeks prior to the semester in which the fieldwork and/or clinical experience is scheduled to occur. An Academic General Petition approved by the department and the School of Education dean's office, along with an executed MOU, is required before a candidate may begin any fieldwork and/or clinical experience more than 50 miles from the nearest Azusa Pacific University campus.

## Certificate of Clearance

Azusa Pacific University requires candidates who are admitted to any program within the School of Education, or to credential programs housed within other schools in the university, to have and maintain a Certificate of Clearance or a valid and current credential for teaching, administration, counseling, school psychology, or nursing from the California Commission on Teacher Credentialing. Candidates who allow their Certificate of Clearance or other clearance document from the California Commission on Teacher Credentialing to expire will be prevented from enrolling in future terms. For more information, contact the Office of Credentials (https://www.apu.edu/education/resources/credentials/) at soecredentials@apu.edu.

## Assessment System (Watermark's™ Student Learning & Licensure)

The School of Education uses Watermark's™ Student Learning & Licensure assessment system to support the collection and analysis of student outcomes in all degree and credential programs. All School of Education candidates enrolled in a program leading to an educator credential are required to submit particular assignments and other forms in Watermark's™ Student Learning & Licensure (often via Canvas submission) by the deadline specified in the course syllabus. Successful evaluation of necessary submissions is required for degree completion and/or recommendation for a credential to the California Commission on Teacher Credentialing (CTC). It is the responsibility of the candidate to ensure that assignments and forms are submitted as indicated in the assessment system. All assessment-system-related inquiries may be sent to soewatermark@apu.edu.

## Office of Credentials

The Office of Credentials (https://www.apu.edu/education/resources/credentials/) provides a centralized location in which prospective and current School of Education candidates, faculty, staff, and the community can receive accurate, comprehensive, and complete information and advisement regarding the requirements involved in obtaining California credentials and certificates authorizing service in California schools. It is the candidate's responsibility to submit a credential application through the Office of Credentials upon completion of a credential program in order to receive their California educator's credential. The Office of Credentials also provides credential-related services to subject-matter preparation programs and credential programs offered through the School of the Arts (p. 177), School of Behavioral Sciences (p. 340), School of Health Sciences (p. 558), School of Humanities and Sciences (p. 33), and the School of Nursing (p. 598). For more information, email soecredentials@apu.edu.

# College of Nursing and Health Sciences

The College of Nursing and Health Sciences is composed of the following schools:

- School of Nursing (p. 598)
- School of Health Sciences (p. 558)

# School of Health Sciences

The School of Health Sciences comprises a wide range of undergraduate and graduate programs in the fields of child life, kinesiology, physical therapy, and public health. All programs within the school carry a distinctly Christian perspective that challenges students intellectually and spiritually while remaining flexible and student-oriented. For working professionals engaged in evolving careers, APU's creative scheduling offers courses on APU's Azusa campus and at regional locations throughout Southern California.

## Accreditation

All Azusa Pacific programs are accredited by the WASC Senior College and University Commission (https://www.wscuc.org/), and professional programs in the School of Behavioral and Applied Sciences have earned the following specialized accreditations:

- The DPT program is accredited by the Commission on Accreditation in Physical Therapy Education (CAPTE) (https://www.capteonline.org/home.aspx).
- The Master of Arts in Physical Education and Single Subject Teaching Credential is accredited by the Council for the Accreditation of Educator Preparation (CAEP) (https://caepnet.org/).
- The Master of Arts in Physical Education and Single Subject Teaching Credential, Master of Arts in Physical Education and Adapted Physical Education Added Authorization, and Adapted Physical Education Added Authorization programs are accredited by the California Commission on Teacher Credentialing (CTC) (https://www.ctc.ca.gov/)

## Departments

# Department of Child Life

The Department of Child Life consists of the MS in Child Life (p. 561) and the MS in Child Life (Advanced Standing) (p. 562).

## Programs

## Courses

### PCLS 501, Advanced Child Development, 3 Units

This course is an in-depth examination of physical, cognitive, emotional, moral, and social development from infancy through adolescence. Content includes developmental theory and practice of early childhood education, as well as assessment of child development and impairments in developmental functioning.

### PCLS 502, Applied Child Development and Medical Terminology, 3 Units

This course reviews psychosocial and clinical aspects of disease and injury for the hospitalized and medically fragile child. Course content includes medical terminology, charting, complementary medicine, and physiological, cognitive, social, and emotional impacts of disease and injury on the patient and family.

### PCLS 511, Family Systems Theory and Applications, 3 Units

This course explores family systems and therapeutic models with a focus on family psychology. Emphasis is on family-centered care and the effects that terminal illnesses have on the family system. Course content covers parenting medically fragile children, parenting and family relationships with a seriously ill or terminal parent, diversity issues and children with special needs, therapeutic models in family psychology, and integration of Christian faith and theology with family psychology.

### PCLS 512, Theories and Practices of Grief and Loss, 3 Units

Students in this course develop understanding of the family-centered care model and explore therapeutic interventions and techniques aimed at benefitting patients and families affected by death and serious illness. Course content focuses on death, grief, and bereavement and their effects on the family system. Each student learns hands-on interventions to guide patients and families through death, grief, loss, and healing.

### PCLS 512L, From Grief to Healing: Strategies and Application Lab, 1 Unit

In this lab course, students apply understanding of grief theories and explore practical therapeutic interventions and approaches aimed at benefitting children and families effected by death or serious illness. Focus is on historical and current views on death, grief, bereavement, and the effects on family system. Each student learns hands-on interventions to guide children and families from grief to healing process.
**Prerequisite:** PCLS 521;
**Corequisite:** PCLS 512

### PCLS 520, Infants and Toddlers: Development and Interventions, 3 Units

This course offers an in-depth exploration of the growth and development of infants and toddlers. Content includes developmental theories and developmentally appropriate interventions, as well as assessment of development and impairments in developmental functioning.

## PCLS 521, Introduction to Child Life, 3 Units

This course gives students a broad understanding of the field of child life, including the history and trends of the child life profession, as required by the Association of Child Life Professionals (ACLP). Course content includes: 1) scope of practice in child life, 2) child life documents, 3) impact of Illness/injury and health care on patients and families, 4) family-centered care, 5) therapeutic play, and 6) preparation. Additional topics include, but are not limited to, the history of child life, clinical assessment, child life theoretical foundations, development and hospital stressors, and introduction to exceptional and medically challenged children.

## PCLS 522, Therapeutic Interventions and Play-Based Techniques, 3 Units

This course is designed for students to develop an understanding of the history and theories of play and play-based therapies. Students gain knowledge of therapeutic play techniques, and explore research and theories on the importance of psychosocial preparation for medical procedures. Post- and preprocedural coping techniques and therapeutic interventions are taught as well. Students create hands-on interventions to prepare patients of all developmental levels for a variety of procedures.

## PCLS 523, Coping Strategies for Children Experiencing Stress and Trauma, 3 Units

This course is designed for students to explore the best evidence-based practices in play therapy, with an emphasis on psychosocial and therapeutic interventions for children with special needs (cognitive intellectual and/or pervasive developmental disabilities). This course focuses on the effects traumatic situations have on the patient/client and their family. Students explore a variety of play therapy techniques and therapeutic interventions to help patients and families work through trauma and PTSD.

## PCLS 524, Adolescent Development and Interventions, 3 Units

This course is an in-depth examination of the physical, cognitive, emotional, moral, and social development of adolescents. Content includes developmental theory and interventions, as well as assessment of development and impairments in developmental functioning.

## PCLS 525, Assessment, Preparation, and Documentation, 3 Units

This course reviews historical and current perspectives on techniques and outcomes of preparing children for healthcare encounters and life-changing events. The emphasis is on students developing proficiency in setting goals during child life assessments to plan developmentally appropriate preparation interventions and gain competencies with documentation. This course also addresses coping strategies for pain management. Achievement of course objectives is addressed through experiential learning, lectures, readings, discussion, and reflection.

## PCLS 527, Supporting Children with Special Needs in the Healthcare System, 3 Units

In this course, students explore a variety of developmental conditions and diagnoses, including physical, intellectual, and learning disabilities, psychiatric diagnoses, and behavioral conditions. Child life services with intensive care and rehabilitation populations are a particular focus, alongside supporting the educational needs of hospitalized children. Students become familiar with adaptive technologies, tools, toys, and equipment designed for children with special needs, as well as with legal rights, protections, and accommodations for individuals with disabilities, and gain insight into adapting child life services to the needs of unique populations.

## PCLS 531, Ethics, Diversity and Professional Issues, 3 Units

This course covers legal, ethical, moral, cultural, religious and gender issues within a family-centered context. Theories and concepts of culture and cultural diversity are explored. This course also examines issues related to parenting medically fragile children, including legal and ethical considerations. An integration of faith is implemented in the course in regards to professional ethics and multicultural competence.

## PCLS 532, Child Life Administration and Leadership, 3 Units

Students gain understanding of child life program development and acquire the leadership skills to manage a child life program. Course content includes outreach and technology in the field of child life; child life administration, supervision, and mentoring; group facilitation skills; leadership skills; and program evaluation.

## PCLS 541, Pre Practicum in Child Life, 3 Units

This course is designed to further develop the therapeutic tools of students prior to child life practicum placement. Students focus on developing proficiency in the core goals during crisis assessment and interventions, gain competencies in therapeutic dynamics, gain competencies in communication and listening to be applied when working with a diverse population of patients, families, and members of the multidisciplinary team. Additionally, students are encouraged to begin developing a theoretical and conceptual understanding of working with hospitalized and medically fragile children. Students are also encouraged to address issues regarding the integration of their faith with the practice of child life. These goals are addressed through experiential learning, lecture, readings, discussion, and reflection.

## PCLS 542, Practicum in Child Life, 3 Units

This field experience course is taught by a certified child life specialist and is designed and evaluated according to the specific clinical and academic standards set forth by the Association of Child Life Professionals (ACLP). According to the ACLP, "The Child Life Practicum is designed as an introductory experience for individuals interested in pursuing a career in child life. Through experiential learning and observation of Certified Child Life Specialists, child life practicum students begin to increase their knowledge of basic child life skills related to play, developmental assessment, and integration of child life theory into interventions with infants, children, youth and families." All students are required to participate in weekly mentor meetings with the instructor throughout the semester.

## PCLS 543, Internship in Child Life, 6 Units

This course and its clinical experiences are facilitated by a certified child life specialist and are designed and evaluated according to the specific clinical and academic standards set forth by the Association of Child Life Professionals (ACLP). According to the ACLP, "The Certified Child Life Specialist (CCLS) credential is the exclusive certification issued by the Association of Child Life Professionals. The CCLS credentialing program is a rigorous, examination-based professional certification credential to increase the proficiency of child life professionals by identifying a body of knowledge; establishing a level of comprehension and performance necessary for certification; and increasing the value of practitioners to their employers." All students are required to participate in mentor/supervision meetings with the instructor throughout the semester. This course is a blend of didactic and experiential learning, combining coursework and required internship hours to integrate theory and application of child life principles and practices.
**Prerequisite:** Only for those students with a clinical child life internship.

## PCLS 545, Internship in Child Life II, 1 Unit

This course and clinical experiences are facilitated by a certified child life specialist and are designed and evaluated according to the specific clinical and academic standards set forth by the Association of Child Life Professionals (ACLP). According to the ACLP, "The Certified Child Life Specialist (CCLS) credential is the exclusive certification issued by the Association of Child Life Professionals. The CCLS credentialing program is a rigorous, examination-based professional certification credential to increase the proficiency of child life professionals by identifying a body of knowledge; establishing a level of comprehension and performance necessary for certification; and increasing the value of practitioners to their employers." All students are required to participate in biweekly mentor meetings with the instructor throughout the semester.
**Prerequisite:** By permission only and for non-matriculating graduate students of APU's MS Child Life program.

## PCLS 551, Research Methods and Statistical Analysis, 3 Units

This course surveys the major social science research methods, preparing students to read, understand, and evaluate psychological research. This course will provide students with the basic knowledge and experience of developing research proposals. Students will also learn to understand survey methods, data collection, and research analysis. This course is designed for students to identify his or her thesis topic and/or project and prepare students for PCLS 552.

## PCLS 552, Thesis/Project Seminar, 3 Units

This master's thesis seminar is intended to provide students with a theoretical and methodological foundation necessary for completing their MS thesis/project in Child Life Science within the Psychology Department. The main objective of this seminar course is to help students develop and implement the theoretical foundation and methodological procedures needed to complete a MS graduate thesis or clinical project. CR/NC grading.

## PCLS 599, Readings in Child Life Psychology, 1-3 Units

Students may enroll in an independent study for unit credit to investigate subjects and interests that lie beyond regular course offerings, explore topics in greater depth, and/or initiate individual projects. Such requests must be developed in consultation with a sponsoring faculty member and be approved by the graduate program chair and dean. Unit credit varies depending on the scope of the study plan.

# MS in Child Life

The master's degree in child life (https://www.apu.edu/bas/programs/masters-in-child-life/) is designed to prepare graduates to successfully complete credentialing as child life specialists, who are allied health care professionals with expertise in helping children and their families navigate traumatic and challenging experiences, particularly health crises.

In addition to rigorous coursework, this is an applied/clinical program, with students required to complete a 120-hour practicum in child life followed by a 600-hour hospital internship. The program comprises 42 units and can be completed in 18 months, with available start times in spring and fall. Courses take place primarily in the evenings. There is also online synchronous learning for our master's degree in child life and the Advanced Standing (p. 562) option.

## Requirements

| Code | Title | Units |
| --- | --- | --- |
| PCLS 501 | Advanced Child Development | 3 |
| PCLS 502 | Applied Child Development and Medical Terminology | 3 |
| PCLS 511 | Family Systems Theory and Applications | 3 |
| PCLS 512 | Theories and Practices of Grief and Loss | 3 |
| PCLS 521 | Introduction to Child Life | 3 |
| PCLS 522 | Therapeutic Interventions and Play-Based Techniques | 3 |
| PCLS 523 | Coping Strategies for Children Experiencing Stress and Trauma | 3 |
| PCLS 524 | Adolescent Development and Interventions | 3 |
| PCLS 525 | Assessment, Preparation, and Documentation | 3 |
| PCLS 527 | Supporting Children with Special Needs in the Healthcare System | 3 |
| PCLS 531 | Ethics, Diversity and Professional Issues | 3 |

| PCLS 542 | Practicum in Child Life | 3 |
| PCLS 551 | Research Methods and Statistical Analysis | 3 |
| PCLS 552 | Thesis/Project Seminar | 3 |
| **Optional Electives [1]** | | |
| PCLS 520 | Infants and Toddlers: Development and Interventions | |
| PCLS 532 | Child Life Administration and Leadership | |
| PCLS 543 | Internship in Child Life | |
| PCLS 545 | Internship in Child Life II | |
| **Total Units** | | **42** |

[1]    These courses may serve as electives for the MS in Child Life program, or be used as substitutes for required courses by students who enter the program with previous completed coursework that meets the student learning outcomes for required courses. Departmental permission is required for such a substitution.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Disciplinary Knowledge – Demonstrates theoretical and conceptual knowledge to apply Child Life practices.
2. Critical Thinking, Scientific Inquiry, and Effective Communication – Able to examine and engage in scholarly inquiry and critical thinking, including evaluation and application of evidence based research relevant to child life practices and healthcare delivery system, as a basis to develop, implement and communicate effective interventions.
3. Values and Ethics – Apply knowledge of child life operating principles, code of ethical responsibilities, standards of practice, respect and value for diversity, and factors impacting infants, children, youth and families.
4. Application to Vocation – Develop professional identity demonstrating the ability to integrate and apply Child Life competencies learned in professional settings of practicum and internship.
5. Faith integration – Articulate the intersection of Christian traditions with the Child Life profession using a Christian worldview to integrate faith, beliefs, values, ethics, and service in personal and professional life.

# MS in Child Life (Advanced Standing)

The Advanced Standing option for the Master of Science in Child Life (https://www.apu.edu/bas/programs/masters-in-child-life/) program is available for Certified Child Life Specialists who have a BA or BS degree, as well as individuals who have successfully completed the 600 required child life internship hours. To pursue the Advanced Standing option, you must provide proof of a Child Life Certificate from the Child Life Certification Commission (part of the Association of Child Life Professionals), or complete the Child Life Clinical Experience Verification Form (PDF) (https://www.apu.edu/live_data/files/210/clinicalexperienceverificationform.pdf).

## Requirements

| Code | Title | Units |
| --- | --- | --- |
| PCLS 511 | Family Systems Theory and Applications | 3 |
| PCLS 520 | Infants and Toddlers: Development and Interventions | 3 |
| PCLS 512 | Theories and Practices of Grief and Loss | 3 |
| PCLS 523 | Coping Strategies for Children Experiencing Stress and Trauma | 3 |
| PCLS 524 | Adolescent Development and Interventions | 3 |
| PCLS 527 | Supporting Children with Special Needs in the Healthcare System | 3 |
| PCLS 531 | Ethics, Diversity and Professional Issues | 3 |
| PCLS 532 | Child Life Administration and Leadership | 3 |

| | | |

| PCLS 551 | Research Methods and Statistical Analysis | 3 |
| PCLS 552 | Thesis/Project Seminar | 3 |
| **Optional Electives** [1] | | |
| **Total Units** | | **30** |

[1]    These courses may serve as electives for the MS in Child Life program, or be used as substitutes for required courses by students who enter the program with previous completed coursework that meets the student learning outcomes for required courses. Departmental permission is required for such a substitution.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Disciplinary Knowledge – Demonstrate theoretical and conceptual knowledge to apply Child Life practices.
2. Critical thinking, scientific inquiry and effective communication – Able to examine and engage in scholarly inquiry and critical thinking, including evaluation and application of evidence based research relevant to child life practices and healthcare delivery system, as a basis to develop, implement and communicate effective interventions.
3. Values and Ethics – Apply knowledge of child life operating principles, code of ethical responsibilities, standards of practice, respect and value for diversity, and factors impacting infants, children, youth and families.
4. Application to Vocation – Develop professional identity demonstrating the ability to integrate and apply Child Life competencies learned in professional settings of practicum and internship.
5. Faith integration – Articulate the intersection of Christian traditions with the Child Life profession using a Christian worldview to integrate faith, beliefs, values, ethics, and service in personal and professional life.

# Department of Kinesiology

The Department of Kinesiology (https://www.apu.edu/bas/kinesiology/) equips undergraduate and graduate students who are academically engaged, relationally centered, vocationally aware, and wellness oriented, using approaches that are discipline based and grounded in a Christian worldview.

## Accreditation

- All Azusa Pacific University programs are accredited by the WASC Senior College and University Commission (WSCUC). (https://www.wscuc.org/)
- The Master of Arts in Physical Education and Single Subject Teaching Credential program, the Master of Arts in Physical Education with an Added Authorization in Adapted Physical Education program, and the Adapted Physical Education Added Authorization program are accredited by the California Commission on Teacher Credentialing (CTC) (https://www.ctc.ca.gov/). Additionally, the Master of Arts in Physical Education and Single Subject Teaching Credential program is accredited by the Council for the Accreditation of Educator Preparation (CAEP (https://caepnet.org/)).

## Programs

### Major

- Kinesiology (BS) (p. 570)

### Minor

- Adapted Physical Activity (p. 579)

## Master's

- Master of Science in Physical Education (Online) (p. 579)
- Master of Arts in Physical Education and Single Subject Teaching Credential (p. 575)
- Master of Arts in Physical Education with an Added Authorization in Adapted Physical Education (p. 577)

## Authorization

- Adapted Physical Education Added Authorization (p. 570)

## Courses

### FFL 108, Fitness for Life: Walking/Jogging, 1 Unit

This course teaches the "fitness for life" concept through walking and jogging. May be repeated for credit. *Meets the General Education Requirement: Fitness for Life/Varsity Sport.*

### FFL 115, Fitness for Life: Recreational Games, 1 Unit

This course teaches the fitness-for-life concept through recreational games such as cornhole, spikeball, bocce, etc., emphasizing the development of skills specifically for various recreational games. The rules, tactics, and offensive and defensive strategies of the games are also covered. Specific conditioning drills are incorporated into each class to develop muscular endurance and strength, and the recruitment of fast-twitch muscle fibers needed to play recreational games. This course may be repeated for credit. *Meets the General Education Requirement: Fitness for Life/Varsity Sport.*

### FFL 116, Fitness for Life: Weight Training, 1 Unit

This course teaches the "fitness for life" concept through weight training, with different sections offered for athletes and nonathletes. May be repeated for credit. *Meets the General Education Requirement: Fitness for Life/Varsity Sport.*

### FFL 121, Fitness for Life: Dance for the Theater, 2 Units

This course teaches the skill of movement and dance as it relates to actors, including proficiency in various styles of dance that are most common in musical theater; learning dance terminology necessary for a working actor; gaining flexibility and dexterity to enhance stage performance; understanding what is required at a professional theater audition; and moral issues pertaining to presenting theater dance to an audience. It also teaches "fitness for life" concepts through various dance and aerobic conditioning exercises. May be repeated for credit. *Meets the General Education Requirement: Fitness for Life/Varsity Sport.*

### FFL 122, Fitness for Life: Hiking, 1 Unit

This course teaches the "fitness for life" concept through hiking local trails, and includes instruction in trail first aid and emergency preparedness. Students provide their own transportation to local hiking trails. May be repeated for credit. *Meets the General Education Requirement: Fitness for Life/ Varsity Sport.*

### FFL 125, Fitness for Life: Yoga, 1 Unit

This course teaches the "fitness for life" concept through yoga, and includes instruction in mind-body awareness, body-weight-bearing exercises, torso stability, and intermediate balance. Students learn strength, flexibility, and relaxation through a series of postures and breathing techniques. May be repeated for credit. *Meets the General Education Requirement: Fitness for Life/Varsity Sport.*

### FFL 131, Fitness for Life: Kinesiology, 1 Unit

This course gives kinesiology students the opportunity to experience structured exercise programming and develop the tools essential for adopting and maintaining healthy exercise behavior (e.g., goal setting, action planning, self-monitoring). Emphasis is on developing students' confidence in the performance of fundamental exercises that promote physical fitness, including flexibility, muscular endurance/strength/power, and cardiorespiratory endurance. *Meets the General Education Requirement: Fitness for Life/Varsity Sport.*

### ATHL 301, Varsity Baseball: Men, 1-2 Units

Students receive advanced preparation in baseball strategy, fundamentals, and techniques for intercollegiate competition (varsity athletes only). *Meets the General Education Requirement: Fitness for Life/Varsity Sport.*

### ATHL 302, Varsity Basketball: Men, 1-2 Units

Students receive advanced instruction and intensive training in the fundamentals of basketball. Individual and team play, strategy, and offensive and defensive formations are utilized in men's intercollegiate basketball (varsity athletes only). *Meets the General Education Requirement: Fitness for Life/ Varsity Sport.*

### ATHL 303, Varsity Track and Field: Men and Women, 1-2 Units

Students train and work out two hours daily in various track and field events and compete in intercollegiate track and field meets (varsity athletes only). *Meets the General Education Requirement: Fitness for Life/Varsity Sport.*

## ATHL 304, Varsity Cross Country: Men and Women, 1-2 Units

Students receive instruction, practice, and training in distance running for intercollegiate competition (varsity athletes only). *Meets the General Education Requirement: Fitness for Life/Varsity Sport.*

## ATHL 305, Varsity Tennis: Men and Women, 1-2 Units

Students are instructed in the mechanics of the game to suit the individual. Supervised practice, lectures, and intercollegiate competition are included (varsity athletes only). *Meets the General Education Requirement: Fitness for Life/Varsity Sport.*

## ATHL 308, Varsity Basketball: Women, 1-2 Units

Advanced instruction and intensive training in the fundamentals of basketball are offered. Individual and team play, strategy, and offensive and defensive formations are utilized in intercollegiate competition (varsity athletes only). *Meets the General Education Requirement: Fitness for Life/Varsity Sport.*

## ATHL 309, Varsity Volleyball: Women, 1-2 Units

Students participate in intercollegiate competition with intense instruction in fundamentals, theory, and practice of the strategies of offensive and defensive play (varsity athletes only). *Meets the General Education Requirement: Fitness for Life/Varsity Sport.*

## ATHL 310, Varsity Soccer: Men, 1-2 Units

Students receive advanced preparation in strategy, fundamentals, and techniques for intercollegiate competition (varsity athletes only). *Meets the General Education Requirement: Fitness for Life/Varsity Sport.*

## ATHL 311, Varsity Soccer: Women, 1-2 Units

Students receive advanced preparation in strategy, fundamentals, and techniques for intercollegiate competition (varsity athletes only). *Meets the General Education Requirement: Fitness for Life/Varsity Sport.*

## ATHL 312, Varsity Softball: Women, 1-2 Units

Students receive advanced preparation in strategy, fundamentals, and techniques for intercollegiate competition (varsity athletes only). *Meets the General Education Requirement: Fitness for Life/Varsity Sport.*

## ATHL 313, Varsity Swimming and Diving: Women, 1-2 Units

Students receive instruction, practice, and training in swimming and diving for intercollegiate competition (varsity athletes only). *Meets the General Education Requirement: Fitness for Life/Varsity Sport.*

## ATHL 314, Varsity Water Polo: Women, 1-2 Units

Advanced instruction and intensive training in the fundamentals of water polo are offered, including individual and team play, strategy, and offensive and defensive formations in preparation for intercollegiate competition (varsity athletes only). *Meets the General Education Requirement: Fitness for Life/Varsity Sport.*

## ATHL 315, Varsity Acrobatics and Tumbling, 1-2 Units

Students receive advanced instruction and training in tumbling, stunting, and dance, including preparing for intercollegiate competition; may be repeated for credit (varsity athletes only). *Meets the General Education Requirement: Fitness for Life/Varsity Sport.*

## ATHL 316, Varsity Cheer, 1 Unit

Students participate in intercollegiate activities with intense instruction in fundamentals, theory, and practice of the strategies for collegiate cheer. Varsity athletes only. *Meets the General Education Requirement: Fitness for Life/Varsity Sport.*

# KIN 102, Foundations of Kinesiology, 2 Units

This course introduces the student to the professions of kinesiology by reviewing the historical foundations of the profession and defining the roles and responsibilities of the exercise scientist. Students learn about relevant professional associations and career opportunities in the field of kinesiology. A discussion of the Azusa Pacific University kinesiology curriculum is included with the goals, objectives, and requirements of the program as well as the expectations of kinesiology students.

# KIN 242, Fundamental Principles of Fitness, 3 Units

This foundation course will investigate fitness principles for improving cardio-respiratory endurance, strength, flexibility, body composition and overall physical wellness. The course will prepare students with the knowledge, skills and abilities necessary to develop, implement and manage basic fitness programs for physical education students and health fitness clients.
Special Fee Applies
**Corequisite:** BIOL 231 or BIOL 251

# KIN 270, Human Motor Control, Learning, and Development, 3 Units

This course focuses on the physiological and psychological mechanisms underlying the control and learning of human movement throughout the life span. Students apply theoretical concepts of learning to develop age-appropriate movement programs, and measure outcomes through performance examinations.
**Corequisite:** BIOL 230, BIOL 250, or FFL 131. Department consent required for majors outside of the Department of Kinesiology.

## KIN 275, Biomechanics of Human Movement, 3 Units

This course examines biomechanical principles applied to physical activity, sport, and rehabilitative settings. Students utilize quantitative and qualitative techniques using kinematic and kinetic methodologies to apply the physics of motion to the human body.
Special Fee Applies
**Prerequisite:** C- or higher in BIOL 230 or BIOL 250

## KIN 306, Sociological and Psychological Aspects of Physical Activity and Sport, 3 Units

Students explore the sociological and the psychological issues related to physical activity and sport. Special emphasis is on the study of sport in North America and its implications within American society. Topics of study include motivation, goal setting, burnout, anxiety and arousal, aggression and ethics as related to physical activity and sport.
**Prerequisite:** C- or higher in PSYC 110 or PSYC 290

## KIN 360, Nutrition for Exercise and Sport Science, 3 Units

This course focuses on optimal nutrition for exercise and athletics, with an emphasis on the energy, nutrient, mineral, and fluid needs of the physically active. Course material covers promoting health in all types of athletes through whole-food recommendations and eating strategies, and emphasizes practical applications and immediate strategies for coaching (self and others). Students explore clinical signs associated with nutrition deficiencies, as well as issues related to disorders among the physically active, and become proficient at using current nutrition education tools and evaluating intake and physical activity output using a computerized diet analysis program. Special topics include motivational interviewing and assessing client readiness for change, practicality of eating during training and events, strategies for sport-specific body composition, and creating client educational tools.
**Prerequisite:** C- or higher in BIOL 231 or BIOL 251

## KIN 363, Physiology of Exercise, 4 Units

This course focuses on the effects of exercise on human physiology and bioenergetics. The physiological changes and adaptations that exercise causes in the cardiovascular, pulmonary, neuromuscular, and endocrine systems are investigated in detail, as is the relationship between nutrition, body composition, and exercise. The laboratory component explores the assessment of resting metabolic rate, energy expenditure, body composition, cardio-respiratory function, maximum oxygen uptake, lactate threshold, strength and flexibility, and other physiological responses to exercise.
Special Fee Applies
**Prerequisite:** C- or higher in BIOL 231 or BIOL 251; C- or higher in KIN 290 (or KIN 270 and KIN 275). Department consent required for majors outside of the Department of Kinesiology.

## KIN 364, Kinesiology, 4 Units

This course examines the structural and functional mechanics of human movement through an in-depth study of kinesiological principles. Techniques of posture and gait evaluation, as well as fundamentals of body mechanics, are covered, along with how to detect and correct basic musculoskeletal anomalies. A laboratory component is included.
**Prerequisite:** C- or higher in BIOL 231 or BIOL 251; C- or higher in KIN 290 (or KIN 270 and KIN 275). Department consent required for majors outside of the Department of Kinesiology.

## KIN 366, Care and Prevention of Athletic Injuries, 3 Units

This course presents the methods used in the recognition, evaluation, and care of athletic injuries. Techniques in taping, prevention, and rehabilitation of injuries are studied.
**Prerequisite:** C- or higher in BIOL 231 or BIOL 251

## KIN 372, Corrective Exercise Strategies, 3 Units

This course provides corrective exercise strategies to prevent or reduce injury and afford optimal tissue recovery in the physically active. Principles of tissue inhibition, lengthening, activation, and human movement integration are explored. Strategies in advanced kinetic chain assessment, flexibility, neuromuscular retraining, and balance and stability exercises are incorporated. In addition, scientific evidence supporting injury prevention programs are discussed. This course provides information to prepare students for professional certifications through the National Academy of Sports Medicine (NASM).
**Prerequisite:** C- or higher in KIN 363 and KIN 364

## KIN 380, Concepts of Performance Enhancement, 3 Units

This course will examine advanced methods for enhancing human performance. Students will gain a theoretical understanding of the acute and chronic adaptations that occur in response to various anaerobic and aerobic training techniques. Students will also be given the opportunity to gain practical experience developing, implementing, and supervising strength and condition programs for both teams and individual athletes. Areas of emphasis include periodization, movement-based programming, and experience with non-traditional implements. This course is designed to enhance students' current level of knowledge in preparation for the nationally accredited Certified Strength and Conditioning Specialist (CSCS) Exam.
**Prerequisite:** C- or higher in KIN 363 and KIN 364

## KIN 395, Fitness Management, 3 Units

This course addresses the organizational and administrative aspects of fitness instruction to the physically active. Students study issues such as record keeping, facility design and maintenance, public relations and marketing, and legal and ethical issues related to health care.
**Prerequisite:** C- or higher in BIOL 231 or BIOL 251, and KIN 242.

## KIN 424, Disability, Movement, and Inclusive Engagement, 3 Units

Students in this course explore the phenomenon of disability from a Christian perspective for the purposes of civic engagement and church-based ministry. Contrasting models of disability are examined for alignment with Biblical teachings. Inclusive physical activity is studied and applied as a means of social inclusion and civic engagement. A service-learning component is included. *Meets the General Education Requirement: Civic Knowledge and Engagement.*

## KIN 473, Fitness and Exercise Prescription, 4 Units

This course covers the basic knowledge, skills, and abilities that fitness professionals must possess to work with medical and special populations. The course will focus on evaluating health behaviors and risk factors, conducting fitness assessments, constructing appropriate exercise prescriptions, and motivating individuals to modify negative health habits and maintain positive lifestyle behaviors for health promotion.
**Prerequisite:** C- or higher in KIN 363 and KIN 364

## KIN 478, Senior Preparation in Kinesiology, 2 Units

This course is a culminating seminar for graduating seniors in kinesiology. Strategies for professional growth and development are examined, as well as current issues and future trends related to the variety of professional opportunities in the field of kinesiology.
**Corequisites:** KIN 490 and senior standing.

## KIN 490, Writing 3: Research Methods in Kinesiology, 3 Units

The focus of the course is on the critical reading of kinesiology literature, the interpretation of research, and the analysis of research methodology appropriate in the field. This course is designed to enhance students' abilities to be consumers of research information, participants in the research process, and communicators of research results. Students are required to conduct a research project and write a comprehensive research report, including introduction, literature review, methods, results, discussion, and conclusions. Discussions also focus on current knowledge and future trends in kinesiology, as seen in the literature. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*
**Prerequisite:** C- or higher in KIN 363, KIN 364, Writing 2

## KIN 495, Internship in Exercise Science, 1-4 Units

This course helps students to apply their knowledge, skills, and abilities in a practical setting. Students use an integrated approach to the assessment, development, implementation, and management of exercise and fitness programs under the direction of an approved exercise science professional. Each unit requires 50 clock hours of internship experience. This course may be repeated for credit (2 units are required for the major). *Meets the General Education Requirement: Integrative and Applied Learning.*
**Prerequisite:** C- or higher in KIN 363 and KIN 364

## KIN 497, Readings, 1-3 Units

This course is a program of study concentrating on assigned readings, discussions, and writing arranged between, and designed by, a student of upper-division standing and a full-time faculty member. An independent study fee is assessed for each enrollment in this course.
**Prerequisite:** Instructor consent

## KIN 498, Directed Research, 1-4 Units

This course provides instruction in research design and technique, and gives students experience in the research process. Each 1-unit expectation encompasses no fewer than 30 hours of work with accompanying reading, log, writing, and seminar presentation within the department or in a university research symposium. No more than 1 unit may be used to fulfill the preparatory readings requirement. An independent study fee is assessed for each enrollment in this course.
**Prerequisite:** Junior or senior standing and instructor consent.

## KIN 499, Thesis/Project, 1-4 Units

This is a senior-level capstone type of independent study/research experience, involving the student in a unique project with a sophisticated level of research, synthesis, analysis, and communication. Each 1-unit expectation encompasses no fewer than 30 hours of work with accompanying readings, log, instructor discussions, and writing of summary analysis and conclusions. The thesis or project may result in a formal thesis, a published article, or electronic media. No more than 1 unit may be used to fulfill the preparatory readings requirement. An independent study fee is assessed for each enrollment in this course.
**Prerequisite:** Junior or senior standing, Writing 3, and instructor consent.

## PE 450, Physical Education in Elementary Schools, K-6, 3 Units

This course prepares students to teach physical education to children in grades K-6. It uses a development approach and stresses exploratory methods of teaching young children a variety of games, dance, self-testing, movement exploration, lifetime fitness, and health-related fitness activities. The course emphasizes lesson plan development, writing clear objectives, and developing effective classroom management skills.
**Prerequisite:** EDLS 200 or EDLS 202, and JR/SR Standing

## PE 551, Curriculum Theory and Design in Physical Education, 3 Units

This course offers a practical study of physical education and athletic programs in the K-12 and collegiate setting including the following: a) philosophy, principles, policies, and procedures, and; b) design, management, and implementation in relation to the State Frameworks and Standards. Special emphasis of the course is on the application of a variety of research and instructional strategies in designing a physical education/athletic curriculum at a chosen educational level.

## PE 555, Sociological and Ethical Issues in Sport, 3 Units

This course pursues a study of the evolution of sports and its role in American culture. Course topics include sports as a social phenomenon in American culture and ethical issues within the sporting context, including moral reasoning, moral obligation, and fair play in sport. Class topics assist students in evaluating and reinforcing their personal morals, values, and principles as they relate to their professional field.

## PE 556, Facility and Event Management, 3 Units

This course will present students with an overview of the design, operations and management of sports facilities and associated special events (both traditional and non-traditional). This course will also provide students with an understanding of managing sports facilities for the community, high school, collegiate, Olympic, and professional levels. Traditional events, non-traditional events, and extreme sports events will be viewed and analyzed.

## PE 557A, Field Studies/Internships in Sport Management, 2 Units

The sport industry involves hands-on application, and this fieldwork course enables students to apply their knowledge, skills, and abilities in a practical sport management setting, under the direction and supervision of an approved sport management professional. Each unit requires 33.3 clock hours of internship experience, so students taking PE 557A and 557B (3 units total) must complete 100 internship hours in a managed sport setting.

## PE 557B, Field Studies/Internships in Sport Management, 1 Unit

This fieldwork course enables students to apply their knowledge, skills, and abilities in a practical setting. The sport industry is one that is a hands-on, applied industry. As such, one of the most crucial dimensions of any successful sport management degree program is its associated practical/experiential learning opportunities.The goal of the APU Sport Management internship course is to provide students with pre-professional, practical experience within a sport management setting. Students will learn under the direction and supervision of an approved sport management professional. Each units requires 33.3 clock hours of internship experience. This course requires students to complete 100 internship hours in a managed sport setting.

## PE 558, Sport Finance, 3 Units

This course is a survey examination of principles of economics, budgeting, and finance as it applies to the sport industry.

## PE 560, Sports Medicine, 3 Units

This course is designed for physical educators and coaches to examine sports injuries and accidents and become competent in prevention, assessment, treatment, and basic rehabilitation techniques.

## PE 565, Athletics and the Law, 3 Units

This course includes current legal issues confronting the sport industry and enables coaches, athletic directors, fitness experts, and physical educators to develop risk-management strategies that will assist them in setting guidelines, policies, plans, and procedures.

## PE 570, Leadership and Administration of Physical Education and Athletic Programs, 3 Units

This course includes a discussion of management theories, philosophy, program development, operations, budgeting, fundraising, personnel, and staff development for the administration of physical education and athletic programs. Students identify and analyze problems unique to the physical education and athletic professions and implement realistic, objective, and workable action plans.

## PE 572, Foundations of Sport Management, 3 Units

This course is an overview of multiple areas relating to sport management. This includes: 1) careers and professional perspective; 2) history of sport management; 3) concepts of communication, leadership and management; 4) athletic governance in the K-12, Jr College/ College and University setting; 5) community, youth and professional sport management; and, 6) marketing and sport tourism.

## PE 575, Advanced Principles of Physical Conditioning, 3 Units

This course is designed for physical educators, coaches, athletic trainers, and fitness experts to understand and apply the concepts of cardiovascular exercise, muscular strength, flexibility, nutrition, and body weight as it relates to physical education and athletics.

## PE 578, Sport Psychology, 3 Units

This course allows the student to examine psychological theories and research related to sport and exercise behavior. The student is introduced to a broad overview of the major topics in the area with opportunity for research, writing, application, and reflection.

## PE 580, Wellness and Fitness for Life, 3 Units

This course is designed for the candidate to understand, practice, and teach the physical, emotional, intellectual, occupational, environmental, social, and spiritual components of health and wellness.

## PE 582, Seminar in Professional Literature in Physical Education and Sport, 3 Units

This course pursues a study of literature in physical education and sport and includes various topics and current issues related to the changing profession. The student learns to access APU's online library to retrieve reputable sources in physical education and sport and to research and write using APA standards. The student also engages in critical thinking and reflection exercises with application to physical education and sport.

## PE 585, Capstone in Physical Education and Sport, 3 Units

This advanced course enables physical educators and exercise science practitioners to become more informed consumers and analyzers of educational research. Through integrated research activities, educators, coaches, and exercise science professionals locate, value, select, and appropriately apply educational research on a selected topic. Numerous data sources, including academic peer-reviewed literature and other reputable sources of applied information, are analyzed, resulting in an extensive culminating project where a selected topic is thoroughly examined.

## PE 596, Inclusive Physical Education, 3 Units

Students in this course engage in advanced study of physical education, including a thorough examination of state and national standards, standards-based curriculum design, and evidence-based pedagogical practices. Throughout the course, the focus is on designing physical education experiences that are equitable and enjoyable for all students, regardless of abilities, to promote lifelong physical activity and health.

## PE 597, Structural Kinesiology, 3 Units

This course introduces students to structural kinesiology through an explanation of human movement and human anatomy. Fundamentals of body mechanics are coupled with kinesiological principles for the detection and correction of basic neuromusculoskeletal anomalies.

## PE 598, Motor Learning, Development, and Control, 3 Units

This course includes discussion of the relationship between motor development and motor learning and provides a framework for establishing programs that facilitate skill acquisition for learners of all ages. It includes an examination of the development of movement skill in humans from infancy to older adulthood and how differing motor, cognitive, and social abilities affect the learning process of motor skills.

## PE 599, Readings in Physical Education, 1-3 Units

This course is an independent study, arranged with a faculty member of the physical education staff.

## PE 600, Physical Education Teaching Methods for Individuals with Mild to Moderate Disabilities, 3 Units

Students in this course learn techniques for the development and implementation of physical education programs for individuals with mild to moderate disabilities, which include minor to moderate health impairments, intellectual disabilities, and emotional disturbances. Observation of one mild/moderate adapted physical education class is included.

**Prerequisite:** PE 452

## PE 602, Physical Education Teaching Methods for Individuals with Severe to Profound Disabilities, 3 Units

Students in this course learn techniques for the development and implementation of physical education programs for individuals with severe to profound disabilities, which include severe to profound health impairments, intellectual disabilities, and emotional disturbances. Observation of one severe/profound adapted physical education class is included.

**Prerequisite:** PE 452

## PE 604, Motor Assessment for Students Living with Disabilities, 3 Units

Students in this course learn techniques for the evaluation and diagnosis of current motor ability levels of individuals with disabilities. Topics include assessment methods and the development and implementation of Individual Education Plans (IEPs) in accordance with state physical education standards.

**Prerequisite:** PE 600, PE 602, and anatomy and physiology

## PE 605, Management of Adapted Physical Education Programs, 3 Units

This course prepares adapted physical education specialists to manage adapted PE programs. Topics include modifying traditional PE curricula, performing in-services with the use of technology, understanding service delivery models, understanding the Individuals with Disabilities Education Act, and collaborating with other direct service providers.

**Prerequisite:** PE 452

## PE 606A, Field Experience in Adapted Physical Education, 1 Unit

This is the first fieldwork course for adapted physical education authorization candidates, and is for students who hold a current teaching credential. The course includes 35 hours of supervised practice in teaching individuals with disabilities in small to large groups in public or private agencies or schools.

**Prerequisite:** PE 600, PE 602, PE 604, and PE 605

## PE 606B, Field Experience in Adapted Physical Education, 2 Units

This is the second field experience course for adapted physical education authorization candidates, and is for students who hold a current teaching credential. The course includes 35 hours of supervised practice in teaching individuals with disabilities in small to large groups in public or private agencies or schools.

**Prerequisite:** PE 600, PE 602, PE 604, and PE 605

# Adapted Physical Education Added Authorization

**For more information: (626) 815-6176**

The Adapted Physical Education Added Authorization (https://www.apu.edu/bas/programs/adapted-physical-education-authorization/) authorizes teachers to provide adapted physical education services to students ranging in age from 3 through 21 years who have a developmental delay and/or any disability within the 13 eligibility categories named in the Individuals with Disabilities Education Act. The program equips teachers to conduct comprehensive assessments of students, prepare legally defensible assessment reports, write specific and measurable individualized education program (IEP) goals, and propose services, from the wide range of service delivery options, in order to meet the individual needs of students in their least restrictive environment. This 15-unit program includes 12 units of core coursework and 3 units of fieldwork in adapted physical education.

Per the California Commission on Teacher Credentialing, the Adapted Physical Education Added Authorization (APEAA) may be added to a Single Subject Credential in Physical Education, a Multiple Subject Credential, or an Education Specialist Credential. Individuals holding a Multiple Subject Credential or an Education Specialist Credential may meet this physical education subject-matter competence requirement in one of two ways:

- (Acceptable Option) Providing evidence of passing all sections of the CTC-approved California Subject Examinations for Teachers (CSET) in Physical Education *prior to admission to the APEAA program*; or

- (Recommended Option) Completing 12 units of upper-division and/or graduate coursework in motor development, kinesiology, and other relevant physical education topics, as determined and approved by the APEAA program coordinator or director. This coursework must be completed as a prerequisite to admission to the APEAA program. All coursework is subject to approval by the program coordinator or director. Courses must be passed with a grade of *B* or better.

The following courses are available to meet this prerequisite:

| Code | Title | Units |
|---|---|---|
| PE 551 | Curriculum Theory and Design in Physical Education | 3 |
| PE 596 | Inclusive Physical Education | 3 |
| PE 597 | Structural Kinesiology | 3 |
| PE 598 | Motor Learning, Development, and Control | 3 |

## Required Courses for the Adapted Physical Education Added Authorization

Adapted physical education students must maintain a cumulative GPA of 3.0 (*B*) or better, and may not earn lower than a 2.7 (*B-*) in any PE core or content course. Students who earn below a 2.7 (*B-*) in a PE core or content course must retake the course and achieve the minimum GPA requirement.

| Code | Title | Units |
|---|---|---|
| **Core Courses** | | |
| PE 600 | Physical Education Teaching Methods for Individuals with Mild to Moderate Disabilities | 3 |
| PE 602 | Physical Education Teaching Methods for Individuals with Severe to Profound Disabilities | 3 |
| PE 604 | Motor Assessment for Students Living with Disabilities | 3 |
| PE 605 | Management of Adapted Physical Education Programs | 3 |
| **Fieldwork (all courses required)** [1] | | |
| PE 606A | Field Experience in Adapted Physical Education | 1 |
| PE 606B | Field Experience in Adapted Physical Education | 2 |
| **Total Units** | | **15** |

[1]    PE 606A and PE 606B must be completed consecutively after all other adapted physical education coursework is fulfilled.

# BS in Kinesiology

51-77 units

# Mission

In the Department of Kinesiology, we believe that exercise, movement, and sport help people thrive by improving health, fitness, and quality of life across the lifespan.

Our mission in the BS in Kinesiology program (https://www.apu.edu/bas/programs/kinesiology-major/) is to shape difference makers who care for the whole person—body, mind, and spirit—through the promotion of scholarship and professional practice in the disciplines of kinesiology. To achieve our mission, we equip lifelong learners who are academically engaged, relationally focused, vocationally aware, and wellness-oriented using approaches that are discipline-based and grounded within a Christian worldview.

The BS in Kinesiology program provides strong foundational knowledge and skills related to the science and practical applications of human movement. The program provides excellent preparation for a variety of careers related to exercise, sports, rehabilitation, and health care. To help students achieve their academic and professional goals, the program offers three concentrations:

## Health Professions

The health professions concentration is for students interested in pursuing graduate education and/or careers in physical therapy, occupational therapy, athletic training, chiropractic, physician's assistance, exercise physiology, biomechanics, and other specialties related to kinesiology and allied health. This concentration provides students with a strong theoretical foundation in the sciences, which may fulfill graduate school prerequisites. Students gain practical, hands-on training in kinesiology, including 100 hours of supervised internships at one of our 80 preapproved sites.

*Note: Many graduate school programs require the completion of prerequisite science courses for acceptance. While the health professions concentration is designed to help students complete their graduate school prerequisites, not all graduate school prerequisites may be met by the concentration. Students are responsible for researching the requirements of graduate programs and professions in which they are interested.*

See the coursework requirements for the health professions concentration below.

## Applied Exercise Science

The applied exercise science (AES) concentration prepares students for careers in fitness centers, strength and conditioning programs, coaching, corporate wellness centers, and several allied health professions. Compared with the health professions concentration, AES has fewer science requirements and offers more elective opportunities for pursuing courses related to student areas of interest or for pursuing a minor. Through applied, hands-on coursework, students learn to assess, design, and implement evidence-based fitness programs for clients to achieve optimal health, fitness, and sports performance. Students participate in 100 hours of internship experience at one of our 80 preapproved sites. Because this concentration provides more elective options, students planning to pursue graduate school are also able to take prerequisite coursework to meet entrance requirements.

*Note: Many graduate school programs require the completion of prerequisite courses for acceptance. While the AES concentration allows elective coursework, which can be used to complete graduate school prerequisites, not all graduate school prerequisites may be met by the concentration. Students are responsible for researching the requirements of graduate programs and professions in which they are interested.*

See the coursework requirements for the applied exercise science concentration below.

## BS in Kinesiology/Doctor of Physical Therapy Accelerated Concentration

The BS in Kinesiology/DPT accelerated concentration provides an opportunity for students pursuing a career in physical therapy to meet the requirements for entry into APU's Doctor of Physical Therapy (DPT) program after 3.5 years of undergraduate coursework. Undergraduate students accepted into the DPT program begin DPT coursework in the spring semester of the fourth year of the accelerated concentration. During this spring semester, students take 18 units of required DPT courses, which also count toward the BS in Kinesiology and APU undergraduate graduation requirements. Upon completion of the spring-semester DPT courses, students are awarded the BS in Kinesiology degree and continue in the DPT program.

*Note: Participating in this accelerated concentration does not guarantee admission to APU's DPT program. Students must meet the* DPT program's admission requirements *(**) prior to beginning DPT coursework in the spring semester of the fourth year of the accelerated concentration.*

See the course requirements for the BS in Kinesiology/DPT accelerated concentration below.

# Requirements

In addition to meeting the coursework and graduation requirements of the BS in Kinesiology program, all undergraduate students are required to meet Azusa Pacific University's General Education requirements. Students should visit the General Education section of this catalog to become familiar with the requirements.

All students must earn a minimum cumulative grade-point average (GPA) of 2.0 in all university coursework attempted, including all required BS in Kinesiology courses.

For students to progress through the BS in Kinesiology curriculum, they must earn a grade of *C-* or higher in each required course in the major.

Students are allowed two opportunities to repeat a required course in the major. Students who do not earn a *C-* or higher in a required course in the major after three attempts will be removed from the major (this policy includes late withdrawals).

Only two required courses within the major can be repeated. Students who earn below a *C-* in any three required courses in the major will be removed from the major (this policy includes late withdrawals).

## Health Professions Concentration

| Code | Title | Units |
|------|-------|-------|
| **Kinesiology** | | |
| FFL 131 | Fitness for Life: Kinesiology [1] | 1 |
| WRIT 241 | Writing 2: Physical Activity and Health Promotion [2] | 3 |
| KIN 270 | Human Motor Control, Learning, and Development | 3 |
| KIN 275 | Biomechanics of Human Movement | 3 |
| KIN 360 | Nutrition for Exercise and Sport Science | 3 |
| KIN 363 | Physiology of Exercise | 4 |
| KIN 364 | Kinesiology | 4 |
| KIN 473 | Fitness and Exercise Prescription | 4 |
| KIN 478 | Senior Preparation in Kinesiology | 2 |
| KIN 490 | Writing 3: Research Methods in Kinesiology [3] | 3 |
| KIN 495 | Internship in Exercise Science [4] | 2 |
| **Kinesiology Electives** | | |
| Select one of the following: | | 3 |
| KIN 366 | Care and Prevention of Athletic Injuries | |
| KIN 372 | Corrective Exercise Strategies | |
| KIN 380 | Concepts of Performance Enhancement | |
| KIN 424 | Disability, Movement, and Inclusive Engagement [5] | |
| **Anatomy and Physiology** | | |
| Select one of the following: | | 8 |
| BIOL 230 & BIOL 231 | Human Anatomy and Physiology I and Human Anatomy and Physiology II [6, 7] | |
| BIOL 250 & BIOL 251 | Human Anatomy and Human Physiology [7] | |
| **Biology** | | |
| BIOL 151 | General Biology I [6, 8] | 4 |
| **Chemistry** | | |
| CHEM 151 | General Chemistry I [6, 9] | 4 |
| **Elective Sciences** | | |
| Select two of the following: | | 6-8 |
| BIOL 152 | General Biology II | |
| BIOL 220 | General Microbiology | |
| BIOL 240 | Biology of Microorganisms | |
| CHEM 152 | General Chemistry II | |
| CHEM 123 | General, Organic, and Biological Chemistry for the Health Sciences [6] | |
| PHYC 155 & PHYC 145 | Physics for Life Sciences I and Physics Laboratory I [6, 10] | |
| PHYC 156 & PHYC 146 | Physics for Life Sciences II and Physics Laboratory II | |
| **Math** | | |
| MATH 130 | Introduction to Statistics [11] | 3 |
| **Psychology** | | |
| PSYC 110 or PSYC 290 | General Psychology [12] Human Growth and Development | 3 |

| Code | Title | Units |
|------|-------|-------|
| KIN 306 | Sociological and Psychological Aspects of Physical Activity and Sport | 3 |
| or PSYC 320 | Social Psychology | |
| or PSYC 330 | Sports Psychology | |
| or PSYC 360 | Abnormal Psychology | |
| or PSYC 385 | Health Psychology | |
| **Total Units** | | **66-68** |

| | |
|---|---|
| 1 | Meets the General Education Fitness for Life requirement. |
| 2 | Meets the General Education Writing 2 requirement. |
| 3 | Meets the General Education Writing 3 requirement. |
| 4 | Meets the General Education Integrative and Applied Learning requirement. |
| 5 | Meets the General Education Civic Knowledge and Engagement requirement. |
| 6 | BIOL 231, BIOL 151, CHEM 151, CHEM 123, and PHYC 155 meet the General Education Natural Sciences requirement. |
| 7 | Either BIOL 230 and BIOL 231 OR BIOL 250 and BIOL 251 must be taken to complete the major's anatomy and physiology requirement. |
| 8 | MATH 95, ALEKS 45, or equivalent is the math prerequisite for BIOL 151. |
| 9 | MATH 110 (*B-* or higher), ALEKS 65, or equivalent is the math prerequisite for CHEM 151. |
| 10 | MATH 110 or an equivalent score on the APU mathematics placement assessment is the math prerequisite for PHYC 155. |
| 11 | Meets the General Education Quantitative Literacy requirement. |
| 12 | Meets the General Education Social Sciences requirement. |

## Applied Exercise Science Concentration

| Code | Title | Units |
|------|-------|-------|
| FFL 131 | Fitness for Life: Kinesiology [1] | 1 |
| WRIT 241 | Writing 2: Physical Activity and Health Promotion [2] | 3 |
| KIN 242 | Fundamental Principles of Fitness | 3 |
| KIN 270 | Human Motor Control, Learning, and Development | 3 |
| KIN 275 | Biomechanics of Human Movement | 3 |
| KIN 360 | Nutrition for Exercise and Sport Science | 3 |
| KIN 363 | Physiology of Exercise | 4 |
| KIN 364 | Kinesiology | 4 |
| KIN 395 | Fitness Management | 3 |
| KIN 478 | Senior Preparation in Kinesiology | 2 |
| KIN 490 | Writing 3: Research Methods in Kinesiology [3] | 3 |
| KIN 495 | Internship in Exercise Science [4] | 2 |
| **Kinesiology Electives** | | |
| Select one of the following: | | 3-4 |
| KIN 366 | Care and Prevention of Athletic Injuries | |
| KIN 372 | Corrective Exercise Strategies | |
| KIN 380 | Concepts of Performance Enhancement | |
| KIN 424 | Disability, Movement, and Inclusive Engagement | |
| KIN 473 | Fitness and Exercise Prescription | |
| **Anatomy and Physiology** | | |
| Select one of the following: | | 8 |
| BIOL 230 & BIOL 231 | Human Anatomy and Physiology I and Human Anatomy and Physiology II [5,6] | |
| BIOL 250 & BIOL 251 | Human Anatomy and Human Physiology [6] | |
| **Psychology** | | |
| PSYC 110 | General Psychology [7] | 3 |
| or PSYC 290 | Human Growth and Development | |
| KIN 306 | Sociological and Psychological Aspects of Physical Activity and Sport | 3 |
| or PSYC 330 | Sports Psychology | |
| **Total Units** | | **51-52** |

1    Meets the General Education Fitness for Life requirement.
2    Meets the General Education Writing 2 requirement.
3    Meets the General Education Writing 3 requirement.
4    Meets the General Education Integrative and Applied Learning requirement.
5    BIOL 231 meets the General Education Natural Sciences requirement.
6    Either BIOL 230 and BIOL 231 OR BIOL 250 and BIOL 251 must be taken to complete the major's anatomy and physiology requirement.
7    Meets the General Education Social Sciences requirement.

## BS in Kinesiology/Doctor of Physical Therapy Accelerated Concentration

While in the accelerated concentration, students must earn a minimum cumulative grade-point average (GPA) of 3.0 in all university coursework attempted, including all required BS in Kinesiology courses.

For students to progress through the accelerated concentration, they must earn a grade of *B-* or higher in each required course in the concentration.

Students are allowed one opportunity to repeat a required course in the concentration. Students who do not earn a *B-* or higher in a required course after two attempts will be removed from the accelerated concentration (this policy includes late withdrawals).

Only two required courses within the concentration can be repeated. Students who earn below a *B-* in any three required courses in the concentration will be removed from the accelerated concentration (this policy includes late withdrawals).

Once students begin taking 700-level PT courses in the spring semester of the fourth year of the accelerated concentration, they must earn a *B-* or higher in all courses and maintain a minimum GPA of 3.0 in all coursework. Students are allowed to repeat only one 700-level DPT course. Students who earn below a *B-* in two or more courses will be removed from the Doctor of Physical Therapy program and the accelerated concentration.

Students removed from the accelerated concentration will be placed in the Health Professions or Applied Exercise Science concentration to finish out all APU and BS in Kinesiology undergraduate degree requirements (or students can choose another major).

| PT 707 | Professional Relationships | 2 |
| **Total Units** | | **77** |

[1]     Meets the General Education Fitness for Life requirement.
[2]     Meets the General Education Writing 2 requirement.
[3]     Meets the General Education Writing 3 requirement.
[4]     BIOL 231, BIOL 151, CHEM 151, and PHYC 155 meet the General Education Natural Sciences requirement.
[5]     Either BIOL 230 (https://catalog.apu.edu/search/?P=BIOL%20230) and BIOL 231 (https://catalog.apu.edu/search/?P=BIOL%20231) OR BIOL 250 (https://catalog.apu.edu/search/?P=BIOL%20250) and BIOL 251 (https://catalog.apu.edu/search/?P=BIOL%20251) must be taken to complete the major's anatomy and physiology requirement.
[6]     MATH 95 (https://catalog.apu.edu/search/?P=MATH%2095), ALEKS 45, or equivalent is the math prerequisite for BIOL 151.
[7]     MATH 110 (https://catalog.apu.edu/search/?P=MATH%20110) (*B*- or higher), ALEKS 65, or equivalent is the math prerequisite for CHEM 151.
[8]     MATH 110 (https://catalog.apu.edu/search/?P=MATH%20110) or an equivalent score on the APU mathematics placement assessment is the math prerequisite for PHYC 155.
[9]     Meets the General Education Quantitative Literacy requirement.
[10]    Meets the General Education Social Sciences requirement.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Develop an understanding of our Biblical responsibility regarding the care of the human body.
2. Demonstrate proficiency in principles of kinesiology.
3. Design and implement exercise programs for a variety of populations and settings.
4. Evaluate movement patterns and physical fitness using effective assessment techniques.
5. Analyze issues in exercise science using an evidence-based approach.
6. Explain how psycho-social factors influence personal health, wellness, and performance.
7. Interact professionally with a variety of constituents, such as students, clients, patients and colleagues.

# MA in Physical Education and Single Subject Teaching Credential

**For more information: (626) 815-5473**

The Master of Arts in Physical Education and Single Subject Teaching Credential program (https://www.apu.edu/bas/programs/masters-in-physical-education-single-subject/) equips students with the skills and knowledge needed to teach physical education and coach at the K-12, junior college, and four-year university levels. The Single Subject Teaching Credential may be completed in the subject area of physical education. It includes comprehensive foundations courses emphasizing methods alongside specialization courses providing content required for the California Single Subject Preliminary Teaching Credential, as well as practical classroom and fieldwork experiences and advanced coursework in the emphasis area of physical education. The mode of delivery includes campus-based classes, field experiences, and online courses, but predominantly includes face-to-face courses.

The Master of Arts in Physical Education and Single Subject Teaching Credential is approved by the California Commission on Teacher Credentialing (CTC) (https://www.ctc.ca.gov/) and the Council for the Accreditation of Educator Preparation (CAEP) (https://caepnet.org/). All single-subject teachers

receive certification to teach in a specific content area through their subject-matter competence, which is achieved either through completion of a CTC-approved subject-matter program in physical education or passage of appropriate California Subject Examination for Teachers (CSET) physical education subtests. Upon completion, the credential candidate will have earned a California Single Subject Preliminary Teaching Credential in Physical Education and a Master of Arts in Physical Education.

## Requirements

Graduate physical education students must maintain a cumulative GPA of 3.0 (*B*) or better, and may not earn lower than a 2.7 (*B-*). Students who earn below a 2.7 (*B-*) in a course must retake the course and achieve the minimum GPA requirement.

| Code | Title | Units |
|---|---|---|
| **Foundation Courses** | | |
| TESP 501 | Art of Teaching I: Foundations of Teaching | 3 |
| TESP 502 | Science of Teaching I: How Students Learn | 3 |
| TESP 503 | The Soul of Teaching: Tapestry of American Education | 3 |
| TESP 504 | Schools and Educational Systems | 3 |
| **Specialization Courses** | | |
| TEP 511 | Art of Teaching II: Pedagogy and Instructional Design | 3 |
| TEP 512 | Science of Teaching II: Effective Assessment Strategies for All Learners | 3 |
| TEP 531 | Methods of Teaching Reading and Writing (7-12) | 3 |
| TEP 532 | Secondary Pedagogy I: Teaching in Secondary Schools (7-12) | 2 |
| TEP 533 | The Differentiated Classroom: Maximizing Capacity of Each Learner (7-12) | 3 |
| TEP 534 | Secondary Pedagogy II: Content-Specific Strategies, Teaching, and Assessment (7-12) | 2 |
| TEP 561 | Clinical Practice I: Single Subject Credential [1] | 2 |
| TEP 562 | Clinical Practice II: Single Subject Credential [1] | 2 |
| **Emphasis Core Courses** | | |
| PE 551 | Curriculum Theory and Design in Physical Education | 3 |
| PE 582 | Seminar in Professional Literature in Physical Education and Sport | 3 |
| **Emphasis Teaching/Coaching Courses** | | **3** |
| Select one of the following: | | |
| PE 555 | Sociological and Ethical Issues in Sport | |
| PE 565 | Athletics and the Law | |
| PE 570 | Leadership and Administration of Physical Education and Athletic Programs | |
| PE 578 | Sport Psychology | |
| **Emphasis Health Science Courses** | | **3** |
| Select one of the following: | | |
| PE 560 | Sports Medicine | |
| PE 575 | Advanced Principles of Physical Conditioning | |
| PE 580 | Wellness and Fitness for Life | |
| **Final Capstone Course** | | |
| PE 585 | Capstone in Physical Education and Sport [2] | 3 |
| **Total Units** | | **47** |

[1] Please refer to the Clinical Practice Clearance (p. 556) Requirements.
[2] PE 585 is completed in the final terms of the master's program, after credential coursework is fulfilled.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Synthesize the history and philosophy of Physical Education and how it interacts with the current discipline.
2. Integrate Christian perspectives and biblical truths to Physical Education and Sport.
3. Apply the concepts of administration, organization, programming, evaluation, and leadership in Physical Education, Athletic administration, and Sport management.
4. Apply psychology, sociology, and ethical theories and practices in Physical Education, Athletic Administration, and Sport manangement.
5. Demonstrate the ability to critically analyze research, develop a research proposal, and write according to APA standards.
6. Demonstrate proficiency in the development and evaluation of curriculum in physical education and sport.
7. Engage and support all students in learning.
8. Create and maintain effective environments for student learning.
9. Understand and organize subject matter for student learning.
10. Plan instruction and design learning experiences for all students.
11. Assess student learning.
12. Develop as a professional educator.

# MA in Physical Education with an Added Authorization in Adapted Physical Education

**For more information: (626) 815-6176**

The Master of Arts in Physical Education with an Added Authorization in Adapted Physical Education program (https://www.apu.edu/bas/programs/masters-in-physical-education-adapted-pe-authorization/) is designed for teachers who wish to teach adapted physical education at the pre-K-12 and/or community college levels. The program combines the curricula of the adapted physical education added authorization program and the master's degree program to deliver a unique, comprehensive education package. Upon completion, the graduate will earn an Added Authorization in Adapted Physical Education (p. 570) and a Master of Arts in Physical Education.

Per the California Commission on Teacher Credentialing, the Adapted Physical Education Added Authorization (APEAA) may be added to a Single Subject Credential in Physical Education, a Multiple Subject Credential, or an Education Specialist Credential. Individuals holding a Multiple Subject Credential or an Education Specialist Credential may meet this physical education subject-matter competence requirement in one of two ways:

- (Acceptable Option) Providing evidence of passing all sections of the CTC-approved California Subject Examinations for Teachers (CSET) in Physical Education prior to admission to the APEAA program; or

- (Recommended Option) Completing 12 units of upper-division and/or graduate coursework in motor development, kinesiology, and other relevant physical education topics, as determined and approved by the APEAA program coordinator or director. This coursework must be completed as a prerequisite to admission to the APEAA program. All coursework is subject to approval by the program coordinator or director. Courses must be passed with a grade of *B* or better.

The following 3-unit classes are available to meet this prerequisite: PE 551, PE 596, PE 597, and PE 598.

## Requirements

The 15-unit added authorization portion of the program includes 12 units of core coursework and 3 units of fieldwork in adapted physical education. The Master of Arts in Physical Education includes 6 units of core coursework, 6 units of physical education, coaching, administration, and health science coursework, and 3 units of capstone coursework. Students may concurrently complete adapted physical education and MA in physical education coursework. Students may not enroll in more than 7 units per 8-week term. PE 585 is completed after all other adapted physical education and MA in Physical Education coursework is fulfilled.

Graduate physical education students must maintain a cumulative GPA of 3.0 (*B*) or better, and may not earn lower than a 2.7 (*B-*) in any PE core or content course. Students who earn below a 2.7 (*B-*) in a PE core or content course must retake the course and achieve the minimum GPA requirement.

| Code | Title | Units |
|------|-------|-------|
| **Adapted Physical Education Core Courses** | | |
| PE 600 | Physical Education Teaching Methods for Individuals with Mild to Moderate Disabilities | 3 |
| PE 602 | Physical Education Teaching Methods for Individuals with Severe to Profound Disabilities | 3 |
| PE 604 | Motor Assessment for Students Living with Disabilities | 3 |
| PE 605 | Management of Adapted Physical Education Programs | 3 |
| **Fieldwork Courses** [1] | | |
| PE 606A | Field Experience in Adapted Physical Education | 1 |
| PE 606B | Field Experience in Adapted Physical Education | 2 |
| **Master of Arts in Physical Education Core Courses** | | |
| PE 551 | Curriculum Theory and Design in Physical Education | 3 |
| PE 582 | Seminar in Professional Literature in Physical Education and Sport | 3 |
| **Physical Education, Coaching, and Administration Content Courses** | | |
| Select one of the following: | | 3 |
| PE 555 | Sociological and Ethical Issues in Sport | |
| PE 565 | Athletics and the Law | |
| PE 570 | Leadership and Administration of Physical Education and Athletic Programs | |
| PE 578 | Sport Psychology | |
| **Health Science Content Courses** | | |
| Select one of the following: | | 3 |
| PE 560 | Sports Medicine | |
| PE 575 | Advanced Principles of Physical Conditioning | |
| PE 580 | Wellness and Fitness for Life | |
| **Capstone Course** | | |
| PE 585 | Capstone in Physical Education and Sport [2] | 3 |
| **Total Units** | | **30** |

[1]    PE 606A and PE 606B must be completed consecutively after all other adapted physical education coursework is fulfilled. May be completed concurrently with PE 585.

[2]    PE 585 is completed in the final terms of the master's program.

# Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

# Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Identify students with disabilities who may qualify for APE services.
2. Demonstrate knowledge and application of kinesiology and motor development as it pertains to individuals with disabilities.
3. Identify the disability categories, as identified in IDEA or under section 504 plan, and apply these to the characteristics present by the student.
4. Demonstrate the knowledge and application of scientific principles of exercise and movement. This includes an understanding of the impact of disease, medication, and musculoskeletal and neurological conditions on the physiological and biomechanical performance of individuals with disabilities.
5. Demonstrate instructional strategies and adaptations for attaining individualized measurable goals for individuals with disabilities throughout the lifespan, using sage and developmentally appropriate physical education in a variety of settings.
6. Understand and apply Christian perspectives and Biblical truths to Physical Education and Sport.
7. History and Philosophy of Physical Education: Synthesize the history and philosophy of Physical Education and how it interacts with the current discipline.

8. Physical Education Fieldwork/Curriculum Assessment: Demonstrate proficiency in the development and evaluation of curriculum in Physical Education and Sport.
9. Leadership and Administration in Physical Education and Sport: Apply the concepts and theories of administration, organization, programming, evaluation and leadership in Physical Education and Athletic Administration and sport management.
10. Psychology, Sociology, and Ethics in Physical Education, Administration and Sport: Apply psychology, sociology, and ethical theories and practices in Physical Education, Athletic Administration, and Sport management.
11. Demonstrate the ability to critically analyze research, develop a research project, and write following APA standards.

# Minor in Adapted Physical Activity

18 units

The adapted physical activity minor provides undergraduate students with education and experience working with individuals with disabilities. Students learn how to modify and adapt skills and activities to promote a lifetime of physical activity and wellness, and gain valuable experiences while preparing for a career in occupational therapy, physical therapy, physical education, special education, or adapted physical education. This program also serves as excellent preparation for APU's teaching credential and Adapted Physical Education Added Authorization (p. 570) to gain a competitive advantage in the job market.

## Requirements

| Code | Title | Units |
|---|---|---|
| PE 325 | Motor Development and Learning | 3 |
| PE 451 | Methods in Physical Education: 7-12 [1] | 3 |
| PE 452 | Adapted Physical Education | 3 |
| PE 600 | Physical Education Teaching Methods for Individuals with Mild to Moderate Disabilities | 3 |
| PE 602 | Physical Education Teaching Methods for Individuals with Severe to Profound Disabilities | 3 |
| PE 605 | Management of Adapted Physical Education Programs | 3 |
| **Total Units** | | **18** |

[1] Meets the General Education Integrative and Applied Learning requirement.

## Completing Graduate-Level Courses as an Undergraduate Student

Coursework for the minor in adapted physical activity includes three graduate-level courses. In order for undergraduate students to enroll in these courses, the following conditions must be met:

- Must be a senior with a cumulative GPA of 3.0 or higher.
- Must obtain approval from the graduate program director or graduate department chair.
- Must obtain approval from the department chair of his/her undergraduate major.
- Must submit the Graduate/Professional Courses Taken by Undergraduate Students form provided by the Student Services Center (https://www.apu.edu/student-services/registration/#ugforms).
- No more than 9 units earned as an undergraduate may be counted toward an APU graduate degree.
- Must complete a Certificate of Clearance (COC) before enrolling in the graduate courses.

# MS in Physical Education

**For more information: (626) 815-5473**

The Master of Science in Physical Education (https://www.apu.edu/bas/programs/masters-in-physical-education/) program equips candidates with the knowledge and skills needed to instruct physical education, administrate athletic programs, and coach at the K-12, junior college, and four-year university levels. This program develops candidates' awareness of the process involved in effecting change in the lives of people they serve. This is achieved through the mastery of professional skills and knowledge and the integration of teaching, coaching, and administrative techniques and strategies. **This program is offered in a fully online, asynchronous format.**

The Master of Science in Physical Education program with an emphasis in sport management (https://www.apu.edu/bas/kinesiology/programs/sport-management-degrees/) is for those seeking entry or advancement in the growing field of sport administration, including teaching and management roles. The emphasis focuses on a range of topics relevant to the industry, including athletic compliance and finance in sports, marketing and public relations,

ethics and legal aspects in sports, and facility and event management. Additionally, students have the opportunity to gain comprehensive experience through internships in sport management settings. **This program and emphasis are offered in a fully online, asynchronous format.**

## Mission Statement

The Master of Science in Physical Education program at Azusa Pacific University comprises a Christian community of scholarly believers who seek to advance the work of God in schools of all levels by effectively training physical educators, coaches, athletic administrators, and exercise science professionals in knowledge and skills through academic excellence and a Christian perspective of truth and life.

## Requirements for the Master of Science in Physical Education

Graduate physical education students must maintain a cumulative GPA of 3.0 (*B*) or better, and may not earn lower than a 2.7 (*B-*) in any PE core or content course. Students who earn below a 2.7 (*B-*) in a PE core or content course must retake the course and achieve the minimum GPA requirement.

| Code | Title | Units |
|------|-------|-------|
| **Core Courses** | | |
| PE 551 | Curriculum Theory and Design in Physical Education | 3 |
| PE 582 | Seminar in Professional Literature in Physical Education and Sport | 3 |
| PE 585 | Capstone in Physical Education and Sport [1] | 3 |
| **Content Courses** | | |
| PE 555 | Sociological and Ethical Issues in Sport | 3 |
| PE 560 | Sports Medicine | 3 |
| PE 565 | Athletics and the Law | 3 |
| PE 570 | Leadership and Administration of Physical Education and Athletic Programs | 3 |
| PE 575 | Advanced Principles of Physical Conditioning | 3 |
| PE 578 | Sport Psychology | 3 |
| PE 580 | Wellness and Fitness for Life | 3 |
| Approved transfer units | | 3-6 |
| **Total Units** | | **30** |

[1] PE 585 is completed in the final terms of the program.

## Requirements for the Master of Science in Physical Education with an Emphasis in Sport Management

Graduate physical education students must maintain a cumulative GPA of 3.0 (*B*) or better, and may not earn lower than a 2.7 (*B-*) in any PE core or content course. If a student earns below a 2.7 (*B-*) in a PE core or content course must retake the course and achieve the minimum GPA requirement.

| Code | Title | Units |
|------|-------|-------|
| **Core Courses** | | |
| PE 551 | Curriculum Theory and Design in Physical Education | 3 |
| PE 582 | Seminar in Professional Literature in Physical Education and Sport | 3 |
| PE 585 | Capstone in Physical Education and Sport [1] | 3 |
| **Content Courses** | | |
| PE 555 | Sociological and Ethical Issues in Sport | 3 |
| PE 556 | Facility and Event Management | 3 |
| PE 557A | Field Studies/Internships in Sport Management [2] | 2 |
| PE 557B | Field Studies/Internships in Sport Management (Internship requires departmental approval) [2] | 1 |
| PE 558 | Sport Finance | 3 |
| PE 565 | Athletics and the Law | 3 |
| PE 570 | Leadership and Administration of Physical Education and Athletic Programs | 3 |
| PE 572 | Foundations of Sport Management | 3 |
| **Total Units** | | **30** |

[1] PE 585 is completed in the final terms of the program.

[2]    PE 557A and PE 557B must be completed consecutively, after all other sport management content coursework is fulfilled. May be completed concurrently with PE 585.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

## Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. History and Philosophy of Physical Education: Synthesize the history and philosophy of Physical Education and how it interacts with the current discipline.
2. Physical Education Fieldwork/Curriculum Assessment: Demonstrate proficiency in the development and evaluation of curriculum in Physical Education and Sport.
3. Leadership and Administration in Physical Education and Sport: Apply the concepts of administration, organization, programming, evaluation, and leadership in Physical Education, Athletic Administration, and Sport management.
4. Psychology, Sociology, and Ethics in Physical Education, Administration, and Sport: Apply psychology, sociology, and ethical theories and practices in Physical Education, Athletic Administration, and Sport management.
5. Research and Writing: Demonstrate the ability to critically analyze research, develop a research proposal, and write according to APA standards.
6. Integration of Faith: Integrate Christian values and biblical perspectives in Physical Education and Sport.

# Department of Physical Therapy

## Accreditation

- All Azusa Pacific University programs are accredited by the WASC Senior College and University Commission (WSCUC). (https://www.wscuc.org/)
- The Doctor of Physical Therapy program at Azusa Pacific University is accredited by the Commission on Accreditation in Physical Therapy Education (CAPTE) (https://www.capteonline.org/), 3030 Potomac Ave., Suite 100, Alexandria, VA 22305-3085; telephone: (800) 999-2782; email: accreditation@apta.org.

**Learn more about the Department of Physical Therapy. (https://www.apu.edu/bas/physicaltherapy/)**

## Programs

## Doctoral Programs

- Doctor of Physical Therapy (DPT) (p. 586)
- Doctor of Philosophy (PhD) in Rehabilitation and Movement Science (p. 590)

## Courses

## PT 701, Human Anatomy, 8 Units

This intensive course in clinically oriented human anatomy from a regional approach. Microscopic and gross human anatomy are explored utilizing lectures, classroom demonstrations, human cadaver dissections, dissection videos, and hands-on functional demonstrations. Biomechanics are studied from functional and clinical approaches. Emphasis is on histology, head, neck, upper extremity, and thorax during the first half of the term; emphasis in the second half is on the spine, pelvis, lower extremity, spinal cord, and internal organs.
**Corequisite:** PT 702

## PT 702, Clinical Skills I, 6 Units

First in a series of courses designed to examine basic evaluation and clinical skills of the physical therapist, this course focuses on objective techniques of assessment for the upper and lower extremity and spine through measurement of range of motion (ROM), muscle testing (MMT), general neurological screening, and palpation. Kinesiology of all joints is studied from functional and clinical approaches, concluding in the assessment of normal gait mechanics. An introduction to body mechanics and documentation is provided to prepare the student for safe clinical practice. Learning takes place through laboratory activities, homework, online videos, and practical examination using a problem-solving approach.

## PT 703, Clinical Neuroscience, 6 Units

This course covers in depth the anatomy and physiology of the central and peripheral nervous systems and neuromuscular function, serving as a foundation for PT 704. It includes correlation of pathology with neurological symptoms and diagnostic tests.

## PT 704, Neurorehabilitation, 8 Units

This course focuses on developing skills used for differential diagnosis, functional evaluation, treatment theory, and management of neurologically impaired adults. Students examine the neurophysiologic rationale for treatment approaches commonly used in physical therapy for neurologically impaired patients. Emphasis is placed on integration and development of hands-on skills in a laboratory setting. Major areas investigated include spinal cord injury, stroke, traumatic brain injury, Parkinson's disease, polyneuropathies, and common degenerative diseases.

## PT 705, Orthopedics I, 6 Units

This course emphasizes the general principles and methodology of rehabilitation of orthopedic patients. Examination of the spine and lower quarter is emphasized. Mobilization, therapeutic exercise programs, and complete evaluation, treatment, and documentation are addressed specifically per diagnosis.

## PT 706, Seminar I, 2 Units

(30 contact hours) This course introduces the student to the physical therapy profession. Historical and legal issues, as well as practice settings and health care trends are addressed. Emphasis is placed on professional development and responsibility of the physical therapist as a lifelong learner.

## PT 707, Professional Relationships, 2 Units

This course introduces the role of the physical therapist as a professional health educator. Emphasis is on developing interpersonal and communication skills in relation to the interaction between therapist and patient, other health professionals, and within groups.

## PT 711, Wellness, 3 Units

This course focuses on the promotion of optimal health, and disease and injury prevention, in the general adult and pediatric populations. It addresses screening techniques and risk assessment, as well as tests and measures related to aerobic capacity, balance, flexibility, strength and endurance, and posture. Findings are applied to exercise prescription.

## PT 724, PT Clinical Skills II, 3 Units

(60 contact hours) This is the second in a series of clinical skills courses and discusses the visual and electromagnetic spectrum instrumentation for the treatment of dysfunction. The focus is on physical agents in relation to treatment.

## PT 726, PT Clinical Skills III, 1 Unit

This clinical skills laboratory course involves 45 contact hours and introduces students to assistive devices, bed mobility, and transfer training. Students perform measurement, selection, and adaptation of assistive devices, and implement bed mobility and transfer training based on patient diagnosis and need. Emphasis is on patient safety with handling, as well as body mechanics and safety of the therapist. Information is reiterated with laboratory activities, case studies, and a practical and written examination using a problem-solving approach.

## PT 742, Prosthetics and Orthotics, 2 Units

(60 contact hours) This course provides foundational knowledge of the types, uses, and fitting of prosthetic and orthotic devices. Rehabilitation intervention is addressed in regard to functional use, measurements, care, adjustments, precautions, and patient education for the appropriate device. Case studies, literature review, lecture, problem-solving models, videos, and laboratory practice are used.

## PT 744, Professional Ethics, 2 Units

Students in this course examine the major ethical issues issues affecting physical therapists and the healthcare profession. It involves an exploration of ethical decision making through examination of moral development, ethical theories and worldviews with specific instruction in ethical problem solving, application of the physical therapy code of ethics, as well as analysis of ethical dilemmas and case studies. Through class and small group discussions the student will examine his/her own moral values, be able to identify ethical problems and dilemmas and effectively evaluate and determine a moral course of action. It will include the ethical obligation for patient and professional advocacy as well as guidelines in spiritual care.

## PT 748, Orthopedics II, 6 Units

This course emphasizes the general principles and methodology of rehabilitation of orthopedic patients. Examination of the shoulder, elbow, wrist, hand, and temporomandibular joint is emphasized. Mobilization, therapeutic exercise programs, complete evaluation, disease processes, and documentation are addressed specifically per diagnosis.

## PT 750, Comprehensive Exams, 1 Unit

This course gives the student an opportunity to demonstrate their qualifications to enter the clinical section of their physical therapy education.

## PT 752, Cardiopulmonary Patient Management, 3 Units

This course presents basic cardiac and pulmonary pathology and theories leading to decision-making skills in cardiopulmonary rehabilitation. Presentation of case studies reinforces management of patients with cardiopulmonary dysfunction. Practical application of theoretical concepts is emphasized.

## PT 754, General Medicine, 3 Units

This course gives students experience in the management of general medicine patients with acute, chronic, and terminal diseases. The laboratory portion of the course assists in developing clinical skills and reasoning to determine appropriate and safe therapeutic procedures and protocols for this population.

## PT 755, Research Methods in Physical Therapy, 3 Units

This course introduces the student to the concepts of Physical Therapy research. A survey of major research methods is conducted and statistical methods are examined.

## PT 760, Pediatrics, 4 Units

This course provides the background knowledge needed to assess functional status, evaluate, and develop appropriate treatment programs for infants and children from premature birth to adolescence. Lab sessions allow for observation and assessment of typical development and the opportunity to experience a variety of intervention strategies.

## PT 762, Seminar II, 2 Units

(30 contact hours) The clinical performance instrument is reviewed in this course, and written and oral communication skills specific to the clinic are refined. Expectations of clinical professional behavior are also emphasized. The student presents an in-service on a specific evaluation or treatment approach to be used in the clinic, incorporating lecture and lab into instruction. The student's performance is self assessed, peer assessed, and evaluated by the instructor.

## PT 764, Current Concepts in Chronic Pain, 2 Units

In this course students participate in evidence-based discussions incorporating critical appraisal of the evidence, as well as in critical problem solving discussions with case studies. Students also discuss and apply knowledge of abnormal pain mechanisms to common case scenarios incorporating lecture material with current evidence. Further, students evaluate their problem solving strategies through self reflective assignments, peer interaction and evaluation by the course instructor to facilitate self directed learning.

## PT 768, Administration, 3 Units

(75 contact hours) This course presents the basic components of administration, financial and staff management, marketing strategies, and public relations for clinical directors and/or owners. Administrative and contractual legal issues and reimbursement mechanisms are explored.

## PT 769, Pharmacology, 3 Units

This is an introduction to pharmacology which includes pharmacokinetics and pharmacodynamics. Emphasis is on drugs commonly encountered during rehabilitation. Side effects that alter physical performance and drug effects influenced by exercise are studied.

## PT 771, Clinical Experience I, 8 Units

PT 771, PT 773, and PT 775 are three clinical experiences which provide integration of prior didactic work with full-time clinical exposure under the supervision of a licensed physical therapist. Courses may be taken in any order as offered in the curriculum.

## PT 773, Clinical Experience II, 8 Units

PT 771, PT 773, and PT 775 are three clinical experiences which provide integration of prior didactic work with full-time clinical exposure under the supervision of a licensed physical therapist. Courses may be taken in any order as offered in the curriculum.

## PT 774, Capstone I, 3 Units

In the first of the capstone course series, students choose a clinical question of interest and conduct an extensive literature review.

## PT 775, Clinical Experience III, 8 Units

PT 771, PT 773, and PT 775 are three clinical experiences which provide integration of prior didactic work with full-time clinical exposure under the supervision of a licensed physical therapist. Courses may be taken in any order as offered in the curriculum.

## PT 776, Capstone II, 3 Units

In this, the second course in the capstone series, research of the clinical question continues through faculty-supervised collection and synthesis of data.

## PT 778, Diagnostic Imaging, 3 Units

(45 contact hours) This course familiarizes the Doctor of Physical Therapy student with the indications, instrumentation, and clinical interpretation of orthopedic imaging techniques including plane film X-ray, magnetic resonance, computerized tomography, and radioisotope imaging. Selection protocols for each are discussed to acquaint the student with advantages and disadvantages of each method and what type of information each technique best presents. This course focuses on the clinical interpretation and practical integration of imaging data into rehabilitation treatment regimen design and communication with other medical professionals.

## PT 779, Special and Emerging Topics, 2 Units

Students in this course examine specialized topics and techniques of current interest for physical therapists. Lectures and hands-on lab sessions provide opportunities for students to evaluate, develop, and administer a plan of care in each of the topic areas under faculty supervision.

## PT 781, Integrated Clinical Decision-Making, 1 Unit

In this course, students integrate didactic learning with patient cases from their concurrent clinical education experience under the mentorship of a faculty member.

## PT 783, Integrated Community Service and Milestones, 0 Units

In this course, students apply the knowledge and skills gained throughout the program curriculum in a service-learning experience in the local or global community. Students synthesize faith integration learning and reflect upon their motivation and commitment to integrating service in their future practice as therapists. Students are also introduced to next steps for transitioning into practice, such as the licensure process and continuing education, including residency application.

## PT 785, Advanced Patient Management, 2 Units

This is the last in a series of patient management courses. Within a strong clinical reasoning framework, students evaluate and plan intervention strategies for more complex patient problems, as well as for patient impairments complicated by the involvement of multiple other factors/systems. Students integrate analysis skills, manual skills, motor control and motor learning concepts, therapeutic exercise, physical agents, and patient education into the management of the patient's movement. In addition to refining their existing skills, students are introduced to more advanced examination and intervention techniques. Students also employ clinical reasoning to formulate management plans that require prioritization and collaboration with the patient/client in order to accommodate environmental, financial, cultural, psychosocial, and time-restriction factors typical of current clinical practice. The patient problems encountered and analyzed throughout the course, and the clinical reasoning process applied to all components of these clinical problems, facilitate the development of clinical reasoning and clinical pattern recognition.

## PT 790, Physical Diagnosis Screening, 3 Units

This course prepares students to utilize various methods of physical examination to identify pathologies that are and are not amenable to physical therapy intervention. Students gain experience with visceral referral patterns, psychological screening, abdominal palpation, and dermatological examination.

## PT 798, Integumentary and Lymphedema Management, 3 Units

This course covers basic techniques for integumentary and lymphedema evaluation and management of patient populations. Lecture and hands-on lab sessions provide opportunities for students to evaluate and then develop and administer a plan of care in each of the specialty areas, under faculty supervision.

## PT 799, Independent Study, 1-6 Units

Students enroll in this course to pursue independent study investigating subjects and interests that lie beyond regular course offerings. The student explores topics in greater depth than in other courses and/or initiates an individual project. Readings are pursued in accordance with a study plan, which is developed in consultation with a sponsoring faculty member and approved by the department chair.

## RMS 702, Basic Biostatistics I, 3 Units

This course focuses on introductory and advanced analysis of variance (ANOVA) methods and their relation to rehabilitation and movement science research. Advanced ANOVA methods covered in this course include repeated measure, mixed design, ANCOVA, and MANOVA. Specifically, students learn to implement, analyze, and report ANOVA findings for APA-style journal publications. Use of SPSS is emphasized.

## RMS 703, Teaching, Learning, and Assessment Theory and Methods, 3 Units

This course equips future academicians with knowledge and skills in teaching, learning, and assessment, preparing them to fulfill their roles as instructors in a way that promotes high levels of student engagement and growth. Students in this course develop a coherent personal philosophy of teaching and learning, and create a unit of study reflecting that philosophy that includes meaningful assessments of learning.

## RMS 704, Research for the Rehabilitation and Movement Scientist, 3 Units

This course introduces the concepts of research in rehabilitation and movement science: research design and statistical methods, critical evaluation of published research relevant to rehabilitation science, scientific writing, and preparation for conducting clinical research.

## RMS 705, Instrumentation and Measurement in Rehabilitation and Movement Science, 3 Units

This course covers the basic principles of how to design and utilize assessment measures and instrumentation, and how to scrutinize their psychometric properties. In addition, students gain greater insight regarding how to select the assessments and instrumentation they intend to use in their PhD field of study.

## RMS 706, Leadership Theories Applied to Rehabilitation Education and Administration, 3 Units

In this course students explore leadership theories related to organizational leadership and apply them to the context of higher education. In doing so, students discover and define their individual leadership philosophy and competency model.

## RMS 708, Literature Appraisal: Systematic Reviews and Meta-analysis, 3 Units

This course helps students develop important skills in engaging with the literature in the field. Students systematically extract the relevant literature in an area of interest, develop protocols, then critically appraise and succinctly summarize the main findings and relate them to the focus of their doctoral study.

## RMS 709, Grant Proposal and Scientific Writing, 3 Units

Students in this course develop valuable skills in designing research studies for grant applications. The course includes a step-by-step introduction to identifying gaps in research and potential funders in the area of interest, crafting research aims and objectives, developing protocols, and creating collaborative grant proposals worthy of funder consideration.

## RMS 710, Intermediate Biostatistics II, 3 Units

This course focuses on introductory and advanced regression methods, the latter of which includes hierarchal regression, mediation, moderation, and logistic regression. Students learn to implement, analyze, and report regression findings for APA-style journal publications. Use of SPSS is emphasized.
**Prerequisite:** RMS 702

## RMS 711, Concentration Independent Inquiry, 3 Units

This independent inquiry course is designed by the PhD student and approved by the instructor. The course covers an area of inquiry - via research, reading, study, or learning activity - that contributes a dimension of knowledge or understanding to the student's doctoral focus, in addition to that provided in the general program curriculum.

## RMS 712, Mixed Methods, 3 Units

This course provides an in-depth study of how to plan, conduct, and analyze studies that use mixed-methods research designs, including correlational, survey, and qualitative methods. Students identify core areas of mixed-methods research in behavioral and applied sciences research and begin building a strong research concept about those areas. This course also emphasizes scale development methods used in behavioral and applied sciences.

## RMS 714, Neurophysiology of Motor Control, 3 Units

Students in this course examine recent advances in the neurophysiology of motor control and motor learning, including a cellular basis of neural communication, sensorimotor integration, and control of complex movements. Selected motor disorders are also explored. Course emphasis is on integrating current literature on the neurophysiological mechanisms of motor control with normal and abnormal movements.

## RMS 715, Current Concepts in Pain Science, 3 Units

Students in this interactive course learn how to integrate the physiological and biological mechanisms that cause acute and chronic pain, and evaluate the evidence for the various factors-epigenetic, social, psychological, emotional, and environmental-that contribute to normal and abnormal pain. They also learn about the common tools used for measuring pain, as well as intervention techniques. By applying their understanding of pain manifestation, measurement, and intervention, students acquire the skills needed to manage pain effectively.

## RMS 716, Biomechanical Assessment of Movement, 3 Units

This course focuses on the theoretical concepts and methodologies related to the study of biomechanics, and helps students develop a theoretical biomechanical research question informed by scientific evidence and knowledge gained throughout the course. Students review traditional and current biomechanical research methods, with a focus on interpretation of previous research and its application to future research questions, and also examine biomechanical demands on tendons, joints, and muscles, as well as whole-body movement patterns. Students participate in hands-on application using biomechanical assessment tools such as 3D motion capture, force-plates, EMG, dynamometers, and clinically relevant biomechanical tests. They also discuss and analyze a variety of available methods for biomechanical analysis, and design appropriate procedures to assess kinematic and kinetic outcomes.
**Prerequisite:** RMS 705

## RMS 717, Frontiers in Rehabilitation and Movement Science, 3 Units

This course explores new frontiers in research, education, and healthcare in the field of rehabilitation and movement science. Topics may include justice, equity, diversity, and inclusion, social determinants of health, health equity, health literacy, movement biomarkers, technology, COVID-19, mental health, and wellness among diverse populations. Active discussion of new research literature and developing trends in additional areas of interest will provide students with an opportunity to improve their research agenda.

## RMS 719, Dissertation Qualifying Examination and Research Prospectus, 1 Unit

Students in this course prepare for and complete a qualifying exam and write a research prospectus for a future study. The qualifying exam is composed of an oral presentation of the written research prospectus and a comprehensive written exam.
**Prerequisite:** RMS 702, RMS 703, RMS 704, RMS 705, RMS 706, RMS 708, RMS 709, RMS 710, RMS 711, RMS 712, RMS 714, RMS 716, and RMS 724

## RMS 720, Dissertation I: Introduction and Literature Review, 3 Units

This course, the first in a series addressing the dissertation, supports students' development of the dissertation proposal, focusing on the preparation and critique of chapter one (the introduction) and chapter two (the literature review).

## RMS 721, Dissertation II: Methods and Research Proposal, 3 Units

This course, the second in a series addressing the dissertation, assists students with the continuing development of the first three dissertation chapters and with obtaining Institutional Review Board (IRB) approval, culminating in the proposal defense.
**Prerequisite:** RMS 720

## RMS 722, Dissertation III: Data Collection, Results, and Analysis, 3 Units

This course, the third in a series addressing the dissertation, supports students' continued writing of the first four chapters of the dissertation, including data collection, data entry, and analysis.
**Prerequisite:** RMS 720, RMS 721, and successful proposal defense.

## RMS 723, Dissertation IV: Discussion and Research Defense, 3 Units

This course, the fourth in a series addressing the dissertation, supports students' completion of the dissertation process, including discussion of the main findings in comparison to published literature, final conclusions, and preparation for the dissertation defense.
**Prerequisite:** RMS 720, RMS 721 and RMS 722

## RMS 724, Qualitative Analysis, 3 Units

This course focuses on the design and application of qualitative methods and analysis to address research issues in Rehabilitation and Movement Science. Lectures emphasize the knowledge and skills required to apply qualitative analysis to clinical research. Computer applications of statistical software packages for qualitative data analyses are emphasized in an experiential laboratory component.

## RMS 749, Dissertation Continuation, 1 Unit

This course is a self-directed continuation of the student's dissertation work. The course may be repeated until the work is complete.

## RMS 798, Doctoral Study Continuation, 1 Unit

This course is a self-directed continuation of the student's doctoral study work. Course may be repeated until the work is complete.

## RMS 799, Readings in Rehabilitation and Movement Science, 1-3 Units

Students enroll in this course to pursue independent study investigating subjects and interests that lie beyond regular course offerings. The student explores topics in greater depth than in other courses and/or initiates an individual project. Readings are pursued in accordance with a study plan, which is developed in consultation with a sponsoring faculty member and approved by the department chair.

# Doctor of Physical Therapy

**For more information: (626) 815-5020**

The Doctor of Physical Therapy (DPT) program (https://www.apu.edu/bas/programs/dpt/) is a 3-year (including summers), entry-level professional program emphasizing the scientific basis of human structure and human movement, the spiritual basis of human worth, and the integration of these foundational elements into a comprehensive, problem-solving, evidence- and consensus-based approach to artful evaluation and skillful treatment.

## Mission Statement

Grounded in Christian values, the Doctor of Physical Therapy program prepares graduates to integrate an ethical and service-driven perspective into excellence in physical therapy practice.

## Pathways

There are two pathways for entrance into the DPT program:

### A. The traditional 4+3 (7-year) pathway

This option is characterized by a 4-year undergraduate degree and completion of prerequisite requirements for the DPT program, followed by a 3-year professional DPT degree.

### B. The accelerated pathway

In this pathway, qualified students may begin DPT studies following sufficient prerequisite coursework in the fourth year of undergraduate studies. The first term of DPT courses (up to 18 units) may be counted toward the 120 units required to graduate with an undergraduate degree at Azusa Pacific University. Upon completion of all undergraduate requirements and the first term of the DPT program, students will be awarded a bachelor's degree consistent with their chosen major—allied health or kinesiology. Upon subsequent completion of the DPT curriculum, students will be awarded the Doctor of Physical Therapy degree.

Transfer students who have completed coursework at another institution may apply for admission to the allied health major or kinesiology major at Azusa Pacific University and declare their interest in the accelerated pathway.

# Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

## Admission Requirements

University graduate and program admission requirements must be met before an application is complete (see Graduate Admissions (p. 957)):

### A. The traditional 4+3 (7-year) pathway

1. Applicants must have an officially posted bachelor's degree from a regionally accredited college or university by the time they matriculate to APU.
2. Prerequisite courses must be similar in value to courses offered by an accredited four-year college or university. Grades of *C* or better are required. Science courses must have laboratories. No prerequisite work may be taken on a pass/no-pass basis. Hybrid online science courses that combine online lectures and in-person labs may be acceptable. Courses can be taken at any regionally accredited college or university. *All science prerequisite coursework more than seven years old is not accepted.*
3. A cumulative baccalaureate or master's degree GPA of at least 3.0.
4. A cumulative science GPA of at least 3.0 (a science GPA below 3.0 will not be considered for admission).

### B. The accelerated pathway

1. Completion of undergraduate major requirements for the pathway (including a minimum of 12 units of upper-division courses).
2. Fulfillment of benchmarks (GPA level, technical standards, volunteer hours, prerequisite courses) for DPT admission (https://www.apu.edu/bas/programs/dpt/#admissions).
3. Undergraduate students who have completed the prerequisite coursework and satisfied the academic and program requirements will qualify for an admissions interview to the DPT program. If coursework is still in process, an acceptance to the DPT program will be conditional upon completion and maintenance of the required GPA standards. There is no guarantee of admission to the DPT program for students in this pathway.
4. If an undergraduate student begins the DPT program but chooses to withdraw, fails a course, or sustains an academic dismissal, any DPT-level course that was completed with a passing grade will be accepted toward completion of the undergraduate degree program in which they are enrolled. In order to graduate with a bachelor's degree, students must then complete any remaining undergraduate course requirements for the bachelor's degree in allied health or kinesiology. Any academic or course failures that occur while taking DPT courses will be handled in accordance with the DPT student handbook.

# Prerequisites

The following prerequisites must be completed by the end of the fall term before entry:*

| Code | Title | Units |
|---|---|---|
| BIOLOGY: Four courses | | |
| Human Anatomy with lab (required) (No intro courses accepted) | | |
| Human Physiology with lab (required)(No Intro courses accepted) | | |
| Cell Biology or General Biology with lab (required) (No Intro courses accepted) | | |
| Biology—any additional course (lab not required) | | |
| CHEMISTRY: One year with lab (No Intro courses accepted) | | |
| General Chemistry or Organic Chemistry | | |
| PHYSICS: One year with lab (must include electro, hydro, and magnetic physics) | | |
| EXERCISE PHYSIOLOGY: One course | | |
| STATISTICS: One course | | |
| PSYCHOLOGY: One course | | |
| General Psychology | | |
| HUMANITIES AND ARTS: | | |
| English Composition | | |
| ADDITIONAL COURSES (recommended but not required): | | |
| Kinesiology/Biomechanics | | |
| Nutrition | | |

*Advanced Placement scores of 4 or 5 are acceptable for General Psychology, Statistics, English Composition, Chemistry, and Physics; unofficial scores must be submitted to PTCAS with the application; official scores must be submitted to APU for all accepted/matriculated applicants. The credit hours and grade points will not be computed in the GPA.

## Other Admission Criteria

- The Department of Physical Therapy participates in the Physical Therapist Centralized Application Service (PTCAS). To apply to the APU DPT program, visit the PTCAS website (https://www.ptcas.org/) and follow all instructions. Early applications are encouraged. Final deadline is October 1.
- The DPT program reviews applications on a rolling basis, and acceptances are processed year-round. To ensure consideration for the January start date, completed applications should be submitted early in the admissions cycle.
- International students have a different application procedure; to learn more, visit the International Admissions (https://www.apu.edu/international/enrollment/apply/) site.
- Submit to PTCAS all supporting documents, including:
  - Official transcripts from all institutions leading to and awarding the applicant's baccalaureate degree and all postbaccalaureate study. Mail transcripts to APU's Graduate and Professional Center only if admitted into the program. (To be considered official, a transcript must be sent directly from the Office of the Registrar of the school attended to the Graduate and Professional Center: Admissions at Azusa Pacific University. Students' sealed copies will not be considered official.)
  - Three recommendation forms from persons well-suited to evaluate qualifications for graduate study and/or physical therapy: one must be from a registered/licensed physical therapist, and two from faculty members familiar with academic work in areas closely related to the proposed field of study or responsible persons well-informed about relevant work completed by the student.
  - 100 hours of clinical experience in a physical therapy setting.
  - Essay
- Students admitted into the DPT program will be required to provide a $1,200 nonrefundable enrollment deposit to reserve a seat. Deposit is due within 10 days of receipt of the acceptance letter. This will be applied to the first term's tuition fee.

**If applicable, any additional materials should be submitted to:**

Student Services Center: Admissions
Azusa Pacific University
PO Box 7000
Azusa, CA 91702-7000

Located at:
Azusa Pacific University
568 E. Foothill Blvd.
Azusa, CA 91702
(626) 815-4570
Fax: (626) 815-4571
gpadmissions@apu.edu
apu.edu/graduateprofessional/apply/ (https://www.apu.edu/graduateprofessional/apply/)

In addition to meeting the admission requirements, those students whose first language is not English must meet the required English proficiency standard as demonstrated by passing the following minimum international iBT (internet-based TOEFL) scores:

| | |
|---|---|
| Reading: 25 | Speaking: 25 |
| Writing: 25 | Listening: 25 |

## Course Requirements

Graduation requirements include maintaining a minimum 3.0 program and cumulative grade-point average (GPA). The calculation is based upon courses taken in fall, spring, and summer semesters. See Grading (p. 1076) and Academic Probation and Dismissal (p. 1069) in the Academic Policies and Procedures (p. 1063) section of this catalog.

| Code | Title | Units |
|---|---|---|
| **Year 1** | | |
| **Spring** | | |
| PT 701 | Human Anatomy | 8 |
| PT 702 | Clinical Skills I | 6 |
| PT 706 | Seminar I | 2 |
| PT 707 | Professional Relationships | 2 |
| **Summer** | | |

| PT 724 | PT Clinical Skills II | 3 |
|---|---|---|
| PT 754 | General Medicine | 3 |
| PT 726 | PT Clinical Skills III | 1 |

# Program Learning Outcomes
## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Deliver physical therapy as competent generalists in a variety of community settings to patients of diverse age, gender and cultural backgrounds.
2. Pursue lifelong learning through professional growth and specialization.
3. Incorporate knowledge of the Christian worldview into their understanding of current ethical, legal, and social issues in professional physical therapy practice.
4. Analyze research to solve clinical questions, encourage critical thinking, and promote evidence-based practice.
5. Provide for the medical and spiritual needs of the community as service-oriented practitioners who value human worth and seek to advance total patient care and the optimization of health and function.

# PhD in Rehabilitation and Movement Science

## Mission Statement

The Doctor of Philosophy (PhD) in Rehabilitation and Movement Science (https://www.apu.edu/bas/programs/phd-rehabilitation-movement-science/) program at Azusa Pacific University prepares graduates to practice as academic faculty and clinical researchers in the fields of rehabilitation and movement science. These graduates are guided by Christian principles and ethical values, and are critical thinkers and lifelong learners, supporting the global community and the rehabilitation and movement science profession as service-oriented practitioners. They promote excellence in patient care, are guided by a belief in human worth and dignity, and are dedicated to the optimization of human health and function.

## Requirements

| Code | Title | Units |
|------|-------|-------|
| RMS 702 | Basic Biostatistics I | 3 |
| RMS 703 | Teaching, Learning, and Assessment Theory and Methods | 3 |
| RMS 704 | Research for the Rehabilitation and Movement Scientist | 3 |
| RMS 705 | Instrumentation and Measurement in Rehabilitation and Movement Science | 3 |
| RMS 706 | Leadership Theories Applied to Rehabilitation Education and Administration | 3 |
| RMS 708 | Literature Appraisal: Systematic Reviews and Meta-analysis | 3 |
| RMS 709 | Grant Proposal and Scientific Writing | 3 |
| RMS 710 | Intermediate Biostatistics II | 3 |
| RMS 711 | Concentration Independent Inquiry [1] | 3 |
| RMS 712 | Mixed Methods | 3 |
| RMS 714 | Neurophysiology of Motor Control | 3 |
| RMS 715 | Current Concepts in Pain Science | 3 |
| RMS 716 | Biomechanical Assessment of Movement | 3 |
| RMS 717 | Frontiers in Rehabilitation and Movement Science | 3 |
| RMS 719 | Dissertation Qualifying Examination and Research Prospectus [1] | 1 |
| RMS 720 | Dissertation I: Introduction and Literature Review [1] | 3 |
| RMS 721 | Dissertation II: Methods and Research Proposal [1,2] | 3 |
| RMS 722 | Dissertation III: Data Collection, Results, and Analysis [1,2] | 3 |
| RMS 723 | Dissertation IV: Discussion and Research Defense [1,2] | 3 |
| RMS 724 | Qualitative Analysis | 3 |
| RMS 749 | Dissertation Continuation [1,2] | 1 |
| RMS 798 | Doctoral Study Continuation [3] | 1 |
| **Total Units** | | **58** |

[1] For students who have met the prerequisite requirements, RMS 711, RMS 719, RMS 720, RMS 721, RMS 722, RMS 723, and RMS 749 will be available for enrollment each semester.

[2] If a student has not completed any Dissertation Course (RMS 720, RMS 721, RMS 722, or RMS 723) and until their dissertation is approved for ProQuest submission, they must register for RMS 749 Dissertation Continuation for 1 unit every term until the dissertation coursework is successfully completed.

[3] RMS 798 may be taken until a non-dissertation course is completed (e.g., RMS 711 or RMS 719). Non-dissertation RMS courses are expected to be completed in the established course time frame. In the rare occurrence a student does not finish a non-dissertation RMS course, they may take RMS 798.

## Suggested Plan of Study

The following is a suggested sequence of study for students who are interested in part-time study in the rehabilitation and movement science program. This sequence is a suggestion only and can be modified based on student need and course offerings.

| Course | Title | Units |
|--------|-------|-------|
| **Year I** | | |
| **Summer** | | |
| RMS 705 | Instrumentation and Measurement in Rehabilitation and Movement Science | 3 |
| | **Units** | **3** |
| **Fall** | | |
| RMS 702 | Basic Biostatistics I | 3 |
| RMS 716 | Biomechanical Assessment of Movement | 3 |
| | **Units** | **6** |
| **Spring** | | |
| RMS 710 | Intermediate Biostatistics II | 3 |
| RMS 717 | Frontiers in Rehabilitation and Movement Science | 3 |
| | **Units** | **6** |
| **Year II** | | |
| **Summer** | | |
| RMS 709 | Grant Proposal and Scientific Writing | 3 |
| | **Units** | **3** |
| **Fall** | | |
| RMS 703 | Teaching, Learning, and Assessment Theory and Methods | 3 |
| RMS 714 | Neurophysiology of Motor Control | 3 |
| | **Units** | **6** |
| **Spring** | | |
| RMS 704 | Research for the Rehabilitation and Movement Scientist | 3 |
| RMS 715 | Current Concepts in Pain Science | 3 |
| RMS 712 | Mixed Methods | 3 |
| | **Units** | **9** |
| **Year III** | | |
| **Summer** | | |
| RMS 706 | Leadership Theories Applied to Rehabilitation Education and Administration | 3 |
| | **Units** | **3** |
| **Fall** | | |
| RMS 711 | Concentration Independent Inquiry | 3 |
| RMS 708 | Literature Appraisal: Systematic Reviews and Meta-analysis | 3 |
| RMS 724 | Qualitative Analysis | 3 |
| | **Units** | **9** |
| **Spring** | | |
| RMS 719 | Dissertation Qualifying Examination and Research Prospectus | 1 |
| RMS 720 | Dissertation I: Introduction and Literature Review | 3 |
| | **Units** | **4** |
| **Year IV** | | |
| **Summer** | | |
| RMS 721 | Dissertation II: Methods and Research Proposal | 3 |
| | **Units** | **3** |
| **Fall** | | |
| RMS 722 | Dissertation III: Data Collection, Results, and Analysis | 3 |
| | **Units** | **3** |

**Spring**

| RMS 723 | Dissertation IV: Discussion and Research Defense | 3 |
|---|---|---|
| | **Units** | **3** |
| | **Total Units** | **58** |

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Critically evaluate and synthesize literature in rehabilitation and movement science.
2. Disseminate and effectively communicate research findings through conferences, peer-reviewed journals and/or other appropriate recognized professional reports including oral presentations, research proposals, grant writing, dissertation, and publication.
3. Design and implement ethical research which is innovative, methodologically sound, and contributes to the body of knowledge and/or service delivery in their individual discipline.
4. Provide servant leadership which is effective, innovative and collaborative in education, research, service delivery, and/or policy development in their individual fields.
5. Critically examine and apply theories and principles of effective pedagogy to deliver and assess student learning in their discipline.
6. Apply principles of the Christian worldview to the science of education and research in their individual discipline.

# Department of Public Health

The Department of Public Health offers a Master of Public Health (p. 596) program that provides students with competencies required to understand the unique challenges inherent to public health practice and education. All students receive a specialization in health equity. The curriculum reflects the College of Nursing and Health Sciences mission and emphasizes the conceptual, analytical, and experiential skills required to serve in the public health sector. Throughout the program, an emphasis is placed on the five core areas of public health: biostatistics, epidemiology, environmental health sciences, health policy and management, and social and behavioral sciences. There are also seven cross-cutting areas interwoven into the curriculum: communication, diversity and culture, leadership, professionalism and ethics, program planning and assessment, public health biology, and systems thinking.

Students may choose from various electives that cover different public health areas of interest: biostatistics and epidemiology, social and behavioral science, public health policy, healthcare administration, health promotion and education, international health, environmental health, and disaster health and emergency preparedness. Students should check with the department regarding elective availability, then meet with an advisor to develop a course plan that is consistent with their desired electives.

## Transfer of Credits

Following admission, 9 units of approved graduate work completed elsewhere may be applied toward the MPH degree.

## Additional Requirements

At the beginning of clinical coursework, including the field practicum, students are required to provide documentation of TB screening and immunizations appropriate for the clinical or field practicum setting.

A student's health status must permit him/her to safely undertake and complete clinical (field practicum) experience required for the degree. As a fully prepared public health practitioner, the student is expected to take responsibility for self-evaluation of her/his health status, including an assessment of the safety and appropriateness of practice in the clinical context.

The Joint Commission (https://www.jointcommission.org/), contracted facilities, and the College of Nursing and Health Sciences require that all graduate students undergo a background check prior to their placement at clinical and field practicum sites. The cost of the background check is the responsibility of the student. International students have additional fees based on the cost of a background check in their country.

Students may select additional elective courses to support their programs of study as directed by faculty.

# Programs

## Master's

- Master of Public Health (p. 596)

## Courses

### GSPH 504, Bioethics and Healthcare Policy, 3 Units

This course will outline the role of the healthcare leader in ensuring human rights are upheld in healthcare systems. This course focuses on bioethical analysis, decision-making and moral policy analysis, and formulation. Through course discussion, group and individual assignments, and oral and written presentations, students will analyze and apply bioethical principles to decision- and policy- making processes in the workplace and at national levels. Healthcare ethics and policy will be considered from a Christian worldview.

### GSPH 506, Spiritual Concept Analysis in Health Care, 3 Units

This course focuses on scholarly research and analysis of selected concepts in the spiritual care of people from the Judeo-Christian perspective. Students also examine healthcare research/other healthcare literature for adequacy with respect to the concept they select. Various assignments facilitate greater student awareness of their own spiritual journeys and knowledge of faith traditions other than their own. The course is conducted as a tutorial/seminar experience.

### GSPH 508C, Research and Theory in Health Care, 3 Units

This course prepares the healthcare practitioner to apply theory and research evidence in healthcare environments. The relationship between theory and research is examined as students consider questions about the nature, construction, and use of each. Selected theories are explored, and students learn how ideas are developed and used in practice and research. Students also learn the fundamentals of quantitative, qualitative, and mixed-methods research and deepen their understanding through systematic search, critique, and summary of research studies with application to health care. Students work in groups to develop a research plan addressing a healthcare-derived question. Experience in statistical analysis of research data is included.

### GSPH 510, Social Determinants of Health, 3 Units

A central focus of the public health field is understanding the etiology, occurrence, and distribution of health outcomes (morbidity and mortality). One growing area of importance within the field is examining how health and disease are influenced and maintained by social, economic, and political risk factors - called social determinants of health. This course provides a macro-level overview of concepts, research, and theoretical models of social determinants of health. Through interactive lectures, readings, and assignments, students are exposed to major areas of study linked to social determinants of health, with discussions centered on the following key questions: What social factors are the greatest challenge to health outcomes within local communities? What does it mean to use a social determinants lens when studying health outcomes among diverse multicultural populations? What are health disparities and how might they best be addressed? What behavioral lifestyle factors commonly interplay with social determinants of health?

### GSPH 512, Health, Culture, and Diversity, 3 Units

This course covers the issues of health disparities in the United States and the development of culturally competent programs. Students examine what is meant by culture, the ways in which culture and health issues intersect, and how public health efforts can benefit by understanding and working with cultural processes.

### GSPH 514, Research Proposal Writing, 2 Units

This course focuses on the application of the concepts in GSPH 508C Research and Theory in Health Care. The goal is the completion of a research proposal that details the problem, the research purpose, questions or hypotheses to be tested, a critique of the literature, the design and methods of the study including protection of human subjects, the plans for analysis, use of the study, and the budget and personnel.
**Prerequisite:** GSPH 508C

### GSPH 515, Health Care Entrepreneurship, 3 Units

The course provides an opportunity to combine the strengths of public health training with new and existing approaches to social innovation and entrepreneurship from a Christian perspective. Students have opportunities to imagine solutions and mobilize resources to advance the public good and strengthen public health service. Course material introduces entrepreneurial concepts and tools to develop skills for use in various business environments.

### GSPH 518, Population Health Management, 3 Units

This course covers important topics in the effective management of public health departments and agencies. Students develop knowledge and skills to fulfill roles in public health management as leaders, administrators, fundraisers, and internal and external communicators. Course content includes ways to be an effective coach to maximize the team's performance, the essentials of effective partnerships, how to create and sustain public health initiatives using business skills, how to run meetings, ways to manage electronic correspondence, and effective strategies to keep the public health organization running smoothly.

## GSPH 519, Global Health Systems, 3 Units

This course examines international health systems in terms of infrastructure and function. Students examine the benefits and risks of universal healthcare, third party reimbursement systems, and global availability and access to medical services.

## GSPH 520, Public Policy, the Health Care System, and Public Health Policy in the United States, 3 Units

This course is designed to provide students with an overview of public policy, health care systems and public health policy process in the United States. Students will gain an understanding of how the healthcare system works and how United States public health care policy has been developed. Review and analysis of current various proposals for healthcare reform will be conducted.

## GSPH 521, Poverty and Health Policy, 3 Units

This course examines the nature and extent of poverty, health equity, and policy primarily in the United States. It considers possible causes and consequences, and the antipoverty effects of existing and proposed policies. This course will discuss labor markets, culture, and discrimination in shaping poverty. Also, it will explore how health policies seek to ameliorate poverty and other forms of social disadvantage throughout the life course. Finally, we explore the public health implications regarding poverty, inequality, and policy.

## GSPH 522, Cultural Inclusivity in Health Care, 3 Units

In this course, students explore the topics and tools necessary for the application of cultural inclusivity processes in various healthcare settings. Curriculum includes an overview of demographic changes in the United States, cultural inclusivity, diversity related to specific groups, and the paradigm of cultural and linguistic diversity. Attention is also given to the costs, time, and skill sets associated with the process of moving a healthcare organization toward cultural inclusivity.

## GSPH 525, Epidemiology, 3 Units

This course covers the application of epidemiological procedures to the understanding of the occurrence and control of conditions such as infections and chronic diseases, mental disorders, community and environmental health hazards, unintentional injuries, and geriatric problems. Other topics include quantitative aspects of epidemiology, including data sources, measures of morbidity and mortality, evaluation of association and causality, study design, and screening for disease.
**Prerequisite:** Undergraduate statistics and biology courses.

## GSPH 526, Public Health Biology, 3 Units

Human health problems comprise a wide range of infectious, degenerative, neoplastic, and genetically based disease factors. In addition to these factors, human disease results from a wide range of environmental and socially caused pathologies. This course presents the basic scientific and biomedical concepts of modern public health problems and explores the mechanisms and models of the major categories of disease. An integrative approach using knowledge of nutrition, exercise, mind-body, and spiritual practices is explored. The biologic principles presented in this course are foundations to developing and implementing public health disease prevention, control, or management programs in the students' future.

## GSPH 527, Advanced Biostatistics and Epidemiology, 3 Units

This course focuses on the application of statistical approaches in epidemiologic research, covering data management and selection of the appropriate statistical model. Regression analysis including linear regression, logistic regression, Poisson regression, and Cox regression is reviewed. Content also covers basic concepts in survival analysis including censoring, survival function, and hazard function. Epidemiologic methods for assessing causation, including mediation analysis, propensity score matching, and instrumental variable analysis, are also covered. Students learn to apply different analytic approaches using public databases.

## GSPH 532, Infectious Disease Epidemiology, 3 Units

This course covers key methods for practicing infectious disease epidemiology, including study design, interpretation of data, and assessment of validity. Course content covers methods in infectious disease epidemiology, airborne transmission, diarrheal diseases, blood and body fluids as reservoirs of infectious disease, vector-borne/zoonotic diseases, and parasitic diseases. Students learn how to apply content and use problem-solving skills to develop effective prevention strategies.

## GSPH 535, Environmental Health, 3 Units

This course examines essential issues in environmental health, including the scientific and historical foundations, regulatory and policy issues, models and tools for assessing community environmental health, and an overview of select issues and implications of the environment on national and global health. Topics explored include select environmental pollutants in the air, water, soil, and food sources; hazardous waste, risk assessment and communication; and issues of environmental justice and vulnerable populations, nationally and globally.
**Prerequisite:** Undergraduate biology, chemistry, or ecology

## GSPH 537, Occupational Health and Safety, 3 Units

This course examines concepts and issues in occupational health and safety, identifying the significance to workers and public health. Students study social influences, historical events of worker injuries, industrial hygiene, and applicable principles of toxicology, worker quality of life, and safety in the workplace.

## GSPH 540, Global Health, 3 Units

Students in this course examine global health issues, emerging priorities, and worldwide challenges affecting population health and disease. They also address opportunities in and challenges to international health, holistically examine determinants of human health, and plan, implement, and evaluate programs and potential solutions to promote international prevention interventions and optimal human health worldwide, with a focus on global health equity.

## GSPH 543, Public Health Communication, 3 Units

This course provides an overview of the use of communication strategies to inform and influence individual and community health decisions, with a focus on how communication concepts, theories, and methods are used for public health promotion and practice. Health communication theories include models of persuasive communications/mass media effects, social marketing, interpersonal communications, risk perceptions, and diffusion of innovations. Students work in pairs to develop/evaluate a health communication intervention that addresses a current public health issue within a specific target group.

## GSPH 546, Principles and Practices of Toxicology, 3 Units

Students in this course examine the principles of toxicology, including dose-response relationships, toxicokinetics, mechanisms and methods of toxicity, select exposures to toxic substances and accompanying toxidromes, the use of antidotes, and relevance to public health.

## GSPH 550, Assessment, Program Planning, and Evaluation, 3 Units

Assessment, program planning, and evaluation bridges the gap between conceptual definitions, conceptual frameworks, and practice. Students take the lead in translating evidence-based research findings to evaluation of existing and proposed public health programs in order to assess and address population health needs. Students develop a program and evaluation plan that includes evidence-based and best practices, a logic model, and formative and summative evaluation.

## GSPH 551, Theories of Health Behavior, 3 Units

This course helps students develop a knowledge foundation of health behavior theories and skills for developing theoretically based behavior-change programs. Given that a major focus of public health promotion, education, and prevention programs is on "changing health behavior," there is an ongoing quest to understand why people do what they do to (a) improve or maintain their health, and/or (b) worsen their health. Through lectures, readings, and assignments, students critically review and apply a range of health behavior theories that target the intrapersonal, interpersonal, and community levels.

## GSPH 555, Infectious Diseases and Public Health, 3 Units

Students in this course examine the role of infectious diseases in regional, national, and global public health. Students study the historical context and surveillance of communicable diseases, as well as emerging issues in the field. Course content also includes the identification and management of infectious diseases, with students using case studies and proposing threats along with opportunities in prevention, education, and health promotion.

## GSPH 560, Strategic Leadership in Health Care, 3 Units

This course is designed to develop knowledge, skills and attitudes about leadership across the healthcare continuum. The student will consider the professional role of the healthcare administrator both from a leadership and a management perspective. Areas of concentration will include leadership theory, structure of healthcare institutions, systems thinking and decision-making, performance improvement including quality and safety issues, risk management and effective communication skills. Application of business skills will be integrated. Students will consider the theoretical and research background, current issues and trends, leadership and administrative implications of specific topics.

## GSPH 561, Public Health Across the Disaster Cycle, 3 Units

Students in this course evaluate the roles of public health in natural and human-caused disasters, from "simple" to complex humanitarian events. Using case studies, students analyze the functions of public health agencies and practitioners in the context of institutional systems and the disaster cycle (prevention/preparedness, response, recovery, and mitigation). Field trips outside of class hours may be required.

## GSPH 566, Politics and Policies in Disaster Health and Emergency Preparedness, 3 Units

Students in this course evaluate existing governmental and institutional policies related to disaster health and emergency management (DHEM) within political systems. Implementation and evaluation of policy are analyzed and applied.

## GSPH 568, Health Care Finance, 3 Units

This course is an introduction to financial concepts and skills needed for healthcare leaders, managers, and executives. Students develop skills in assessing multiple dimensions of financial performance and learn methods to improve the financial health of an organization in the context of the current patient care system.

## GSPH 571, International Health Care, 2-4 Units

This course provides students with experience in nursing care in other countries. Students prepare with coursework in the United States, then travel abroad, where they have experiences in acute and/or chronic care settings, exploring cultural, economic, systems, philosophical, and other aspects of care that influence the provision of health care in other countries. A debriefing period is provided upon return.

### GSPH 581, Disaster Health and Emergency Management Principles and Practices, 3 Units

Students in this course examine the practice of emergency management and the evolving field of disaster health. Content addresses traditional and current perspectives related to understanding disaster cycles and the relationship between disaster research and practice.

### GSPH 593, Field Practicum, 3 Units

In this integrative learning experience, students complete hours in the field applying coursework and classroom learning in a real-world setting under the guidance and supervision of faculty and community-based preceptors, preparing them for professional careers in public health.

### GSPH 594, Additional Field Practicum Experience, 1-5 Units

This field practicum elective gives students the opportunity to complete additional hours of practicum experience, allowing them to directly apply course content, public health knowledge, and skills acquired from the MPH program, under the guidance and supervision of faculty and community-based preceptors. This experience enriches classroom activity with practical understanding, and give students the chance to demonstrate an integration of coursework into a real-world setting, preparing them for a professional career in public health.
**Prerequisite:** GSPH 593

### GSPH 595, Special Topics in Public Health, 1-6 Units

In this course, a topic of current interest to students is examined in depth. Students analyze and evaluate topics/issues to reach and express a position, enhance personal development and/or to develop a particular project. If students elect this course more than once during their program, each such course must address a different topic.
**Prerequisite:** Graduate standing

### GSPH 597, Capstone, 1 Unit

This guided-study course provides a summative experience for completion of the Master in Public Health program and guides the student through the process of demonstrating an integration of theoretical, clinical, and research knowledge from course work throughout the program to the solution of a major public health problem in this culminating project. Each graduate candidate will identify a unique health problem in an actual healthcare setting to address, perform a thorough review and synthesis of current literature, select an appropriate theoretical framework, and develop a creative and innovative solution to the problem. Candidates will meet regularly throughout the semester with course faculty to prepare for and discuss their progress and will submit their work for publication or comparable external review format at the end of the semester.
**Prerequisite:** Completion of all Academic Core and Specialty courses

### GSPH 598, Thesis, 1 Unit

This course is the second part of a two-course sequence (after GSPH 514 Research Proposal Writing) that supports student development of a thesis in the Master of Public Health program. The thesis has served as an option to the master's capstone project.
**Prerequisite:** GSPH 514

### GSPH 599, Readings in Public Health, 1-3 Units

A student may elect to pursue special interests for credit at any time during the program under the supervision of a faculty member. This course is an independent study, arranged with a faculty member of the Department of Public Health.
**Prerequisite:** Graduate standing

### GSPH 613, Graduate Statistics, 3 Units

This course presents the knowledge of descriptive, correlational, and inferential statistics used in research that serves as the basis for evidence-based practice. Students develop the ability to perform descriptive and inferential data analysis techniques, use software applications to aid in statistical calculations and presentation, and interpret findings.
**Prerequisite:** Undergraduate statistics and biology courses.

### GSPH 615, Grant Writing, 3 Units

This course gives students an opportunity to identify funding needs of nonprofit organizations, research and identify potential grant sources, and learn how to write a competitive grant proposal. Students learn the components of grant proposals, and acquire technical knowledge on designing supporting documents such as project timelines, logic models, work plans, and budgets.

# Master of Public Health (MPH)

APU's Master of Public Health program (https://www.apu.edu/nursing/programs/mph-degree/) is accredited by the WASC Senior College and University Commission (WSCUC) (https://www.wscuc.org/) and is applying for accreditation from the Council on Education for Public Health (CEPH) (https://ceph.org/) as an MPH program with a health equity specialization. As part of the program, students select 9 units of elective coursework, which allows students to group three electives of their choice to fit their public health interests and/or career goals.

# Requirements

| Code | Title | Units |
| --- | --- | --- |
| **Core Courses** | | |
| GSPH 613 | Graduate Statistics | 3 |
| GSPH 504 | Bioethics and Healthcare Policy | 3 |
| GSPH 560 | Strategic Leadership in Health Care | 3 |
| GSPH 510 | Social Determinants of Health | 3 |
| GSPH 525 | Epidemiology | 3 |
| GSPH 535 | Environmental Health | 3 |
| GSPH 540 | Global Health | 3 |
| GSPH 506 | Spiritual Concept Analysis in Health Care | 3 |
| GSPH 526 | Public Health Biology | 3 |
| GSPH 508C | Research and Theory in Health Care | 3 |
| GSPH 593 | Field Practicum | 3 |
| GSPH 594 | Additional Field Practicum Experience (Optional) | 1-5 |
| Choose one of the following: | | 1-3 |
| GSPH 597 | Capstone | |
| - or - | | |
| GSPH 598<br>& GSPH 514 | Thesis<br>and Research Proposal Writing | |
| **Health Equity Specialization** [1] | | **9** |
| Choose three of the following: | | |
| GSPH 512 | Health, Culture, and Diversity | |
| GSPH 515 | Health Care Entrepreneurship | |
| GSPH 518 | Population Health Management | |
| GSPH 519 | Global Health Systems | |
| GSPH 520 | Public Policy, the Health Care System, and Public Health Policy in the United States | |
| GSPH 521 | Poverty and Health Policy | |
| GSPH 522 | Cultural Inclusivity in Health Care | |
| GSPH 527 | Advanced Biostatistics and Epidemiology | |
| GSPH 532 | Infectious Disease Epidemiology | |
| GSPH 537 | Occupational Health and Safety | |
| GSPH 543 | Public Health Communication | |
| GSPH 546 | Principles and Practices of Toxicology | |
| GSPH 550 | Assessment, Program Planning, and Evaluation | |
| GSPH 551 | Theories of Health Behavior | |
| GSPH 555 | Infectious Diseases and Public Health | |
| GSPH 561 | Public Health Across the Disaster Cycle | |
| GSPH 566 | Politics and Policies in Disaster Health and Emergency Preparedness | |
| GSPH 568 | Health Care Finance | |
| GSPH 571 | International Health Care | |
| GSPH 581 | Disaster Health and Emergency Management Principles and Practices | |
| GNRS 596 | Foundations of Healthcare Informatics | |
| MGMT 516 | High-Performance People Management | |
| MGMT 517 | Managing Human Capital | |
| PADM 503 | The Policy Process | |
| PADM 510 | U.S. Healthcare System | |
| PADM 512 | Healthcare Administration | |
| PADM 513 | Community Health and the Built Environment | |
| STAT 551 | Data Visualization | |
| STAT 553 | Data Mining | |

| STAT 571 | Applied Multivariate Analysis | |
| --- | --- | --- |
| **Total Units** | | **43-50** |

[1]    Department has recommended elective groups to aid students based on their career goals.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

## Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Articulate a Christian worldview, demonstrating respect for the dignity and uniqueness of others, valuing diversity and integrity, and applying spiritual concepts.
2. Engage in evidence-based methods to understand and address public health issues, using critical reasoning, scholarly inquiry, knowledge of peer-reviewed scientific literature, bioinformatics, and data analysis.
3. Design population-based policies and programs that promote health, prevent disease, and address social equity issues.
4. Apply principles of leadership to promote interprofessional collaboration and decision-making among diverse stakeholders.
5. Utilize systems-level thinking and communication in response to public health issues - analyzing and synthesizing policies and programs that address efficiency, cost-effectiveness, and health equity.

# School of Nursing

## School of Nursing Mission Statement

To serve God through excellence in professional nursing education, scholarship, and practice.

## Degrees, Certifications, and Credentials Offered

The School of Nursing (https://www.apu.edu/nursing/) offers traditional undergraduate and professional programs, as well as various pathways to the Master of Science in Nursing, post-master's certificates, a Doctor of Philosophy in Nursing, and a Doctor of Nursing Practice.

### Traditional BSN (p. 642)

The Traditional BSN program is a prelicensure program that leads to a Bachelor of Science in Nursing degree. Students completing the BSN are eligible for licensure as a Registered Nurse in California and for certification as a public health nurse.

### RN to BSN (p. 650)

The RN to BSN degree completion program offers the registered nurse an alternative to the traditional method of pursuing a baccalaureate degree in nursing (BSN).

### Upper-Division BSN Transfer Program (p. 647)

The Upper-Division BSN program is designed for transfer students with at least 48 units of transferable prerequisite nursing coursework who are interested in pursuing a BSN.

### LVN to BSN and LVN to RN (http://catalog.apu.edu/academics/college-nursing-health-sciences/school-nursing/upper-division-transfer/)

Two programs are offered for the licensed vocational nurse (LVN)—the LVN to BSN Option (http://catalog.apu.edu/academics/college-nursing-health-sciences/school-nursing/upper-division-transfer/upper-division-bsn-transfer-programs/) and LVN to RN 30-Unit Option (http://catalog.apu.edu/academics/college-nursing-health-sciences/school-nursing/upper-division-transfer/upper-division-bsn-transfer-programs/).

### Entry-Level Master of Science in Nursing (ELM) (p. 711)

*For those who have completed a BA or BS in another field.*

1. Total prelicensure units is 69. Specific courses required.
2. Postlicensure units to complete the MSN depend on the specialty chosen by the student.

## Master of Science in Nursing

The master of science in nursing program is designed for working nurses and can be completed in six to nine semesters, depending on the specialty chosen.  It prepares the nurse for advanced nursing practice as advanced practice registered nurses (APRNs), nurse educators, and healthcare administrators.

## MSN in Nursing Education (p. 714)

The MSN in Nursing Education prepares nurses for teaching roles in a variety of healthcare settings and prepares students to complete the Certified Nurse Educator (CNE) examination.

## MSN in Healthcare Administration and Leadership (p. 720)

The MSN in Healthcare Administration and Leadership is designed for BSN-prepared registered nurses who are looking to advance their careers and move into early- to midlevel management and leadership roles in a variety of healthcare settings.

## Master of Science in Healthcare Administration (p. 719)

The Master of Science in Healthcare Administration is designed for those with bachelor's degrees in nonclinical fields who are working professionals who want to advance and are interested in management and leadership positions in healthcare settings.

## Post-Master's Nursing Certificates (p. 749)

- Adult-Gerontology Clinical Nurse Specialist (CNS)
- Adult-Gerontology Primary Care Nurse Practitioner (AGPCNP)
- Family Nurse Practitioner (FNP)
- Healthcare Administration and Leadership
- Nursing Education
- Oncology Nurse Practitioner
- Pediatric Clinical Nurse Specialist (CNS)
- Pediatric Nurse Practitioner–Primary Care (PNP-PC)
- Psychiatric Mental Health Nurse Practitioner (PMHNP)

## Doctor of Philosophy in Nursing (p. 746)

The PhD in Nursing, with emphasis in either health of the family and the community or international health, is a research-based program designed to prepare graduates for a life of scholarship and teaching. The coursework for the PhD in Nursing consists of 46 units beyond the master's degree, with an additional 9 units for dissertation research.

## Doctor of Nursing Practice (DNP) (p. 743)

Based on a strong scientific foundation, evidence-based practice, leadership, and organizational analysis, the DNP program prepares nurses at the highest level of practice for the current, complex healthcare environment. An evidence-based clinical approach emphasizes the prevention, assessment, and treatment of complex health issues. Students may apply for admission to the BSN to DNP or MSN to DNP. This program is available online.

## Graduate Status

In the School of Nursing, graduate full-time status is considered to be 6 units per semester or 12 units per 12-month academic year. A student has a maximum of eight years to complete a graduate program, beginning from the date of initial enrollment in the specific degree program.

## Accreditation

- All Azusa Pacific University programs are accredited by the WASC Senior College and University Commission (WSCUC). (https://www.wscuc.org/)
- All nursing programs at Azusa Pacific University (APU) are accredited by the Commission on Collegiate Nursing Education (https://www.aacnnursing.org/CCNE/), 655 K Street NW, Suite 750, Washington, DC 20001, (202) 887-6791.
- School of Nursing prelicensure and advanced practice registered nursing (APRN) programs are approved by the California Board of Registered Nursing (BRN) (https://www.rn.ca.gov/). Graduates of prelicensure programs are qualified to apply for registered nursing licensure and public health nursing (PHN) certification. APRN graduates are qualified to apply for nurse practitioner (NP) certification and clinical nurse specialist (CNS) certification depending on the program completed.
- Graduates of the APRN programs are qualified to apply for the appropriate national nurse practitioner (NP) or clinical nurse specialist (CNS) specialization certification.

- APU cannot confirm whether specific programs meet out-of-state requirements for professional licensure or certification. Information about out-of-state requirements and authorizations is provided on the Office of the Provost website (https://www.apu.edu/provost/accreditation/state-authorizations/) and the National Council of State Boards of Nursing (https://www.ncsbn.org/boards.htm) website.

## Departments

- Department of (Traditional) Undergraduate Baccalaureate Program (p. 642)
- Department of RN to BSN (p. 650)
- Department of Upper-Division BSN Transfer (p. 647)
- Department of Advanced Practice Registered Nursing (p. 654)
- Department of Entry-Level Master of Science in Nursing (p. 684)
- Department of Healthcare Administration (p. 715)
- Department of Nursing Education (p. 714)
- Department of Doctoral Studies (p. 722)

## Courses

### GNRS 500, Conceptual Foundations of Professional Nursing, 3 Units

This course focuses on the introductory concepts crucial to the socialization of second career students to professional nursing. The history of nursing, the evolution of nursing in the U.S., the art and science of nursing, the legal and professional basis of nursing, the role of nursing in the health care delivery system, and current issues and trends in nursing education, practice and research are emphasized.

### GNRS 501, Theoretical Thinking in Nursing, 2 Units

This course examines questions about the nature and construction of theory and how theoretical ideas are developed and used in nursing practice and research. Philosophical ideas underlying theory are examined, and selected theoretical models and theories are explored.
**Prerequisite:** Completion of undergraduate research course or instructor's consent; admission to ELM or MSN program.

### GNRS 503, Cultural Competency in Health Care, 3 Units

This course focuses on transforming graduate nursing students, preparing them for nursing leadership in nursing practice, nursing research, education, and public health policy for the improvement of patient healthcare outcomes in our increasingly diverse society. Students move from cultural sensitivity and awareness to critical reflection and action, challenging their assumptions and broadening their perspectives. The Essentials of Master's Education in Nursing (American Association of Colleges of Nursing, 2011) serves as the foundation for the development of core cultural competencies.
**Prerequisite:** Graduate standing in the School of Nursing.

### GNRS 504, Bioethics and Healthcare Policy, 3 Units

This course will outline the role of the healthcare leader in ensuring human rights are upheld in healthcare systems. This course focuses on bioethical analysis, decision-making and moral policy analysis, and formulation. Through course discussion, group and individual assignments, and oral and written presentations, students will analyze and apply bioethical principles to decision- and policy- making processes in the workplace and at national levels. Healthcare ethics and policy will be considered from a Christian worldview.
**Prerequisite:** Graduate standing

### GNRS 505, Christian Formation for Holistic Care, 3 Units

Students engage in the process of discovering the foundational values of Azusa Pacific University that serve as guiding principles for the distinctive education they will receive. They are made aware of the Christian worldview and its implications for personal holistic development and care. With a focus on developing motivating character and integrated caregivers, the course brings heightened self-awareness, the impact of a Christian worldview on vocation, scriptural awareness especially emphasizing healing themes in the life of Christ, and the importance of spiritual growth on the journey toward formation.

### GNRS 506, Spiritual Concept Analysis in Health Care, 3 Units

Scholarly research and analysis of selected concepts in the spiritual care of persons from the Judeo-Christian perspective provide a central focus to the course. Students also examine healthcare research/other healthcare literature for adequacy with respect to the concept they select. Various assignments facilitate greater student awareness of their own spiritual journey and knowledge of faith traditions other than their own. The course is conducted as a tutorial/seminar experience.
**Prerequisite:** Graduate standing

### GNRS 507, Scientific Writing, 3 Units

This course provides opportunities for students to learn how to introduce a topic or issue, articulate a thesis, support and develop a thesis and subordinate claims, work with secondary sources, and organize an argument.

## GNRS 508A, Research and Theory in Advanced Practice Nursing, 4 Units

This course prepares nurses to use theory and research evidence in advanced clinical practice. The relationship between theory and research is examined, exploring questions about the nature, construction, and use of each. Selected theoretical models and theories are explored, and students learn how ideas are developed and used in nursing practice and research. Students deepen their understanding of the research process by engaging in a systematic search, critique, and summary of research studies with direct application to nursing practice. Experience in statistical analysis of research data is included.
**Prerequisite:** Computer literacy, undergraduate research course, undergraduate statistics course, and graduate standing

## GNRS 508B, Research and Theory in Healthcare, 4 Units

This course prepares the healthcare administrator to apply theory and research evidence in healthcare environments. The relationship between theory and research is examined, exploring questions about the nature, construction, and use of each. Selected theories are explored, and students learn how ideas are developed and used in practice and research. Students learn the fundamentals of quantitative, qualitative, and mixed methods research and deepen their understanding through systematic search, critique, and summary of research studies with application to healthcare. Students work in groups to develop a research plan addressing a healthcare-derived question. Experience in statistical analysis of research data is included.
**Prerequisite:** GNRS 613

## GNRS 510, Family Theory in Health Care, 2 Units

The major theoretical perspectives for understanding the family as a core unit of analysis are studied. This course fosters the student's recognition of the family's responsibility for health. Factors such as family patterns and care-giving tasks of families experiencing catastrophic or chronic alteration in health care are examined. This class is offered online.
**Prerequisite:** Graduate standing

## GNRS 511, Advanced Pediatric Health Assessment and Health Promotion, 4 Units

This course develops the graduate nurse's assessment skills and focuses on the promotion of health in the pediatric population from the newborn period through adolescence. Emphasis is on adapting and expanding the medically focused history and physical assessment to incorporate the assessment of traditional health practices and identify culturally relevant and age-appropriate health promotion strategies. Outcomes are examined in light of related theoretical concepts. Strategies for health promotion include a focus on developmental and behavioral assessments, emotional health, nutrition, counseling to modify risk factors, and screening tests/prophylaxis for early detection and prevention of disease.
**Prerequisite:** Undergraduate health assessment and GNRS 610;
**Corequisite:** Practicum

## GNRS 513, Advanced Nursing Practice Role, 2 Units

This course focuses on the concepts of role development and performance competence of the nurse in advanced clinical practice within the context of a reformed health care delivery system. Emphasis is placed on the clinician, educator, clinical program manager, consultant, researcher, and case manager roles of the advanced practice nurse. The leadership aspects of the roles of advanced practice are explored in relation to health care delivery, policy formulation, and legislation. The course explores theories and issues related to the advanced nursing practice role.
**Prerequisite:** Graduate standing

## GNRS 514, Research Proposal Writing, 2 Units

This course focuses on the application of the concepts in GNRS 508A. The goal is the completion of a research proposal that details the problem, the research purpose, questions or hypotheses to be tested, a critique of the literature, the design and methods of the study including protection of human subjects, the plans for analysis, use of the study, and the budget and personnel.
**Prerequisite:** GNRS 508A

## GNRS 516, Integrative Disease and Symptom Management, 3 Units

Using a systems-based approach, this course provides the student with a broad-based, graduate-level overview for understanding disease processes, treatment modalities, assessment and interventional strategies for patients across the life span.

## GNRS 517, Fundamentals in Nursing Practice, 2 Units

This is an experiential learning course designed to teach basic nursing skills in a clinical skills or simulation laboratory setting to prepare students to deliver safe and patient-focused nursing care. Utilizing the nursing process, students perform basic skills in assessment, patient care across the continuum, documentation, patient-family teaching, and infection control.

## GNRS 518, Supervised Practicum in Health Care, 3 Units

This course prepares students to integrate and apply theory, evidence-based practice, and national guidelines and standards in practicum settings. Students select practicum areas in which, with faculty approval, they will participate in experiences led by preceptors. The purpose of the course is to equip students with current, evidence-based knowledge in a selected practice area.

## GNRS 520, Theory and Practice of the Clinical Nurse Specialist in Nursing Care of Adult-Gerontology Patients, 6 Units

Critical concepts in advanced collaborative management of adult-gerontology client populations by Clinical Nurse Specialists are studied. Differential diagnosis, pharmacologic management, cultural sensitivity, adult-gerontology continuum of health and illness (i.e., wellness, health promotion, disease prevention), teaching-learning theory, and evidence-based best practices for clinical decision-making for the Adult and Geriatric population are highlighted. CNS roles, competencies, and professional issues and integrated clinical rotations will be chosen from critical care or medical-surgical adult-gerontology populations. Clinical seminar times allow students to discuss and analyze current professional issues and clinical problems in a collegial atmosphere.
**Prerequisite:** Academic Core and Advanced Practice Core courses, current RN license, CPR certificate, and meets health screening requirements;
**Corequisite:** Practicum

## GNRS 521, Clinical Specialization in the Care of Adult-Gerontology Patients, 6 Units

The course prepares the student to apply concepts introduced in GNRS 520. It focuses on diagnosis and collaborative disease management of acute illness in the adult-gerontology patient by the Clinical Nurse Specialist. The integration of advanced skill development, theory and evidence based practice, disease management, clinical decision making, unit and organization management issues, professional issues and APRN role competencies are the foundation for this course. Practicum and seminars are planned to span the breadth of the students' clinical opportunities.
**Prerequisite:** Academic Core and Advanced Practice Core courses, GNRS 520, current RN license, CPR certificate, and meets health screening requirements;
**Corequisite:** Practicum

## GNRS 522, Disaster Nursing and Emergency Preparedness, 3 Units

This course explores the nature of disasters and prepares nurses to respond to various types of disasters - including natural, environmental, mass casualty, public health emergencies, terrorism, and bioterrorism - by utilizing essential knowledge, skills, values, meanings, and experience in the basic competencies of emergency preparedness and disaster nursing. In accordance with the position of major nursing organizations, emphasis is placed on evidence-based best practices for personal preparedness.
**Prerequisite:** Comparable course, such as UNRS 312 Nursing Management of Adults, a human growth and development course, a lifespan course OR an RN licensure.

## GNRS 530, Theory and Practice of the Clinical Nurse Specialist in the Care of the Pediatric Patient, 6 Units

Critical concepts in the advanced collaborative management of pediatric client populations by the Clinical Nurse Specialists are studied. Differential diagnosis, pharmacologic management, cultural sensitivity, pediatric continuum of health and illness (i.e., wellness, health promotion/disease prevention), teaching-learning theory, and evidence-based/best practices for clinical decision-making for the Pediatric population are highlighted. CNS roles, competencies, and professional issues are integrated. Clinical rotations will be chosen from critical care or medical-surgical pediatric populations. Clinical seminar times allow students to discuss and analyze current professional issues and clinical problems in a collegial atmosphere.
**Prerequisite:** Academic Core and Advanced Practice Core courses, current RN license, CPR certificate, and meets health screening requirements;
**Corequisite:** Practicum

## GNRS 531, Clinical Specialization in the Care of the Pediatric Patient, 6 Units

The course prepares the student to apply concepts introduced in GNRS 530. It focuses on diagnosis and collaborative disease management of acute illness in the pediatric patient by the Clinical Nurse Specialist. The integration of advanced skill development, theory and evidence based practice disease management, clinical decision making, unit and organization management issues, professional issues and APRN role competencies are the foundation for this course. Practicum and seminars are planned to span the breadth of the students' clinical opportunities.
**Prerequisite:** Academic Core and Advanced Practice Core courses, GNRS 530, current RN license, CPR certificate, and meets health screening requirements;
**Corequisite:** Practicum

## GNRS 532, Advanced Nursing Practice in Pediatrics, 6 Units

This course emphasizes physiological and psychological bases for critical and chronic conditions in children, focusing on an advanced science base for the assessment, diagnosis, and management of children and families to promote wellness. Exploration of traditional versus alternate medicine treatment plans, as well as relevant cultural, spiritual, and health promotion strategies, is incorporated.
**Prerequisite:** Graduate status and GNRS 590A;
**Corequisite:** Practicum

## GNRS 533, Psychiatric Theories across the Life Span, 2 Units

This course presents neurobiologic, neuroendocrine, genomic, behavioral, and psychodynamic theories of psychiatric mental illnesses as they manifest among members of diverse cultural groups across the life span. A theoretical foundation for subsequent coursework in primary psychiatric mental health care is provided for the role of the psychiatric mental health nurse practitioner.
**Prerequisite:** Graduate standing, Advanced Practice Core

### GNRS 534, Integrated Psychiatric and Health Assessment across the Life Span, 2 Units

This course teaches the role of the psychiatric mental health nurse practitioner in interviewing, assessing, and utilization of other data collection methods to elicit, analyze, and evaluate bio-psychosocial information regarding psychiatric mental health illness as experienced and understood by the clients, across the lifespan. Assessment and integration of the effects of potential and/or existing co-morbid health problems are focused upon. Diagnostic reasoning that is based on the Diagnostic Statistical Manual is foundational in the course. Development of differential diagnoses and disease management, evidence-based practice, and health promotion that includes client and nurse practitioner collaboration is emphasized.
**Prerequisite:** Advanced Practice Core, GNRS 533 (May be taken concurrently)

### GNRS 535, Psychiatric Interventions and Health Promotion across the Life Span, 6 Units

In this course students learn historical, theoretical, and contemporary evidence-based psychotherapies that promote and support client stabilization, rehabilitation, and recovery. The client as a collaborating decision making consumer and the client-clinician therapeutic alliance are central to this course. Students increase competence in assessment of psychiatric mental health illnesses, differential diagnoses and disease management, implementation of psychotherapy (individual, group, family), medication management, and health promotion interventions, including motivational interviewing. Student competence in developing and facilitating therapeutic groups as a recovery modality are included in the course. The role of the psychiatric mental health nurse practitioner in the integration and coordination of support services that impact mental health and illness is also included. Students practice verbal psychotherapeutic skills that motivate and facilitate client self-management and progression toward recovery.
**Prerequisite:** Advanced Practice Core, GNRS 533 and GNRS 534; GNRS 539 may be taken concurrently;
**Corequisite:** Practicum

### GNRS 536, Psychiatric Mental Health Care with Adults and Older Adults, 6 Units

In this course students increase their knowledge and competence in the assessment of psychiatric mental health illnesses, differential diagnoses and disease management, implementation of psychotherapy (individual, family, group), evidence-based practice, medication management, health promotion and disease prevention interventions, integration and coordination of support services, with adults and older adults.
**Prerequisite:** GNRS 533, GNRS 534, GNRS 535, GNRS 539;
**Corequisite:** Practicum

### GNRS 537, Psychiatric Mental Health Care with Children and Adolescents, 6 Units

In this course, students increase competence in the role of the psychiatric mental health nurse practitioner in the assessment of psychiatric mental health illnesses, differential diagnosis and disease management, implementation of psychotherapy (individual, family, group), evidence-based practice, medication management, health promotion and disease prevention interventions, integration and coordination of support services with children, adolescents, and families.
**Prerequisite:** GNRS 533, GNRS 534, GNRS 535, GNRS 536, GNRS 539;
**Corequisite:** Practicum

### GNRS 538, Psychiatric Mental Health Care with Selected Populations, 5 Units

Students increase knowledge and competence in the assessment of psychiatric and mental health illnesses, differential diagnosis and disease management, implementation of psychotherapy (individual, family, group), medication management, health promotion and disease prevention interventions, and integration and coordination of support services with a selected population. Focus is on integrating and practicing all aspects of the role of the psychiatric mental health nurse practitioner with clients who are experiencing acute and/or chronic mental health problems and psychiatric disorders.
**Prerequisite:** GNRS 533, GNRS 534, GNRS 535, GNRS 536, GNRS 539;
**Corequisite:** Practicum

### GNRS 539, Psychopharmacology, 2 Units

Students in this course build upon knowledge of advanced practice nursing and provides content essential for the psychiatric mental health nurse practitioner to prescribe appropriate pharmacologic treatment in practice. Mechanisms of action, interactions, side effects, and prescribing guidelines for psychopharmaceuticals commonly utilized across the lifespan are addressed.
**Prerequisite:** GNRS 533, GNRS 534; GNRS 535 (May be taken concurrently)

### GNRS 542, Advanced Concepts and Competencies in Pediatric Primary Health Care, 3 Units

This course offers a comprehensive review and synthesis of core concepts and competencies for the pediatric advanced practice nurse in the primary care setting. This culminating experience for pediatric nurse practitioner students incorporates seminar discussions and clinical practicum placement, and also allows for a discussion of developmental/behavioral issues, management of acute and chronic care illnesses seen in primary care settings, and preventative health care.
**Prerequisite:** Graduate standing, GNRS 532 (may be taken concurrently with instructor's permission), and GNRS 590A;
**Corequisite:** Practicum

## GNRS 543, Transitions Across the Care Continuum, 4-6 Units

This course focuses on principles and models of care and their implementation in a multidisciplinary practice environment that emphasizes healthcare delivery through integration of services and transition management. Students are introduced to decision making related to allocation of resources and services, development of protocols, and evaluation of management approaches. Evidence-based approaches to the clinical, administrative, educational, and research dimensions of patient care are emphasized. Evaluation of care management activities with the student's selected clinical population is an integral component of the course.
**Prerequisite:** NP students: completion of Advanced Practice Core; CNS students: completion of Advanced Practice Core and GNRS 520 or GNRS 530; HAL students: completion of MSN Core and GNRS 560.
**Corequisite:** Practicum

## GNRS 544, Clinical Specialization Residency, 2-4 Units

This elective residency program, formed through a partnership between the School of Nursing and selected community healthcare organizations, is an intensive, precepted clinical experience that helps students transition to beginning professional nurses in a specialized setting. It enhances students' skill and practice knowledge in preparation for the RN licensing examination, and increases their ability to perform clinical reasoning with the assigned patient population and evaluate the QSEN competencies of patient-centered care, safety, evidence-based practice, informatics, and teamwork and collaboration.
**Prerequisite:** ELM students must complete GNRS 573 (may be taken concurrently), but GNRS 573 is not required for nurses in community partnerships who are taking GNRS 544 for continuing education credit.

## GNRS 546, Theory and Practice in Health Care Systems in the Community, 6 Units

This specialized course prepares RNs without a bachelor's degree for graduate study in nursing. A multiple theoretical focus that includes concepts from systems, stress, adaptation, developmental, and role theory is emphasized. A beginning practice in the utilization of the nursing process with an emphasis on nursing diagnosis and the nurse's role in assessing, planning, implementing, and evaluating care of clients in a variety of community settings is provided. Collaboration with community-based organizations and services that provide health restoration, maintenance, illness prevention, and client education services to individuals and families at home are essential course components. A review of legal mandates for practice and discussion of ethical dilemmas and issues related to high quality nursing care are included. Specific content varies based on the students' prior education and experience. Clinical placements are arranged to meet the individual student's needs.
**Prerequisite:** Undergraduate research, pathophysiology, and health assessment;
**Corequisite:** Practicum

## GNRS 547, Nursing Leadership in Acute Care Settings, 6 Units

This is one of two clinical courses provided for the RN who seeks both a bachelor's and master's degree in nursing. The course synthesizes selected information from the generic bachelor's and master's programs for presentation in a condensed format, addressing the development and nature of today's health care systems and associated issues in the United States. Further, content familiarizes the student with several roles and responsibilities of the contemporary nurse, such as leader, consultant, teacher, manager, and client advocate. The course focuses on client needs in acute health care settings and emphasizes the relationship between the health care system and the advocate.
**Prerequisite:** Undergraduate research, pathophysiology, and health assessment;
**Corequisite:** Practicum

## GNRS 548, Health Promotion Across the Lifespan, 2 Units

The course focuses on health promotion and disease prevention across the lifespan and around the globe. The course includes exploration of population health issues, environmental implications in health and health policy, impact on health promotion and the development of disease.
**Prerequisite:** Academic Core and Advanced Practice Core courses, current RN license, CPR certificate, and meets health screening requirements

## GNRS 550A, Theory and Practice in School Nursing, 6 Units

This combined didactic and clinical course provides theoretical content and field experiences that emphasize the multifaceted role of the school nurse. Students participate in field experiences and classroom learning activities that focus on the assessment and management of children's healthcare needs in various school settings. This course equips students with the necessary tools and skills to successfully function as professional school nurses. At the conclusion of this course, students are able to successfully function as providers of health education as well as providers, planners, and coordinators of health care in school settings.
**Prerequisite:** GNRS 612 or instructor consent, and admission to School Nurse Services Credential program;
**Corequisite:** Practicum

## GNRS 554, Medical-Surgical Care of the Adult and Geriatric Patient, 5 Units

This course introduces crucial concepts in professional nursing care, such as the nursing process, communication, therapeutic interventions, critical thinking, and critical reasoning. Course material focuses on the application of biological, psychosocial, and spiritual concepts to adult and elderly clients in various healthcare settings with acute and/or chronic illnesses. The nursing process is utilized to provide care to one or two adult clients within the healthcare delivery system. The clinical practicum focuses on the cognitive basics, scientific principles, and manipulative components of psychomotor skills used when providing nursing care.
**Prerequisite:** Admission to the ELM program, completion of all prerequisite courses for the program.
**Corequisite:** GNRS 554P

### GNRS 555, Medical Surgical Care of the Adult and Geriatric Patient, 7 Units

This course introduces crucial concepts to professional nursing care such as nursing process, communication, therapeutic interventions, and critical thinking and clinical reasoning. The course focuses on the application of biological, psychosocial, and spiritual concepts to hospitalized adult and elderly clients with acute and/or chronic illnesses. Students will be guided in critical thinking and clinical reasoning exercises in the management of hospitalized clients. Nursing process is utilized to provide care to one or two adult clients within the health care delivery system of an acute care setting. The clinical practicum focuses on the cognitive basis, scientific principles, and manipulative component of psychomotor skills used when providing nursing care. Students have an opportunity to practice simulated clinical skills.
**Prerequisite:** Admission to the ELM program, completion of all prerequisite courses for the program;
**Corequisite:** Practicum

### GNRS 556, Intermediate Medical Surgical Care of the Adult, 7 Units

This course is designed to build on the base of medical-surgical nursing knowledge from GNRS555. The course focuses on comprehensive nursing care to patients with acute need for continuous cardiac monitoring, pulse oximetry monitoring, or ventilator assistance in telemetry units, in restorative care setting, or long-term care setting.
**Prerequisite:** Admission to the ELM program; successful completion of GNRS 555;
**Corequisite:** Practicum

### GNRS 557, Medical Spanish for Advanced Practice Nurses, 3 Units

This course provides non-Spanish-speaking advanced-practice nursing students with foundational knowledge of Spanish language structure and vocabulary, helping them build appropriate phrasing to facilitate communication in healthcare settings. Cultural issues relevant to health and illness in the Latino community are also addressed.
**Prerequisite:** Graduate nursing student standing, or instructor's permission

### GNRS 558, Intermediate Medical-Surgical Care of the Adult, 6 Units

This course is designed to build on the base of medical-surgical nursing knowledge from prior nursing courses. The course focuses on comprehensive nursing care to patients with acute need for continuous cardiac monitoring, pulse oximetry monitoring, or ventilator assistance in telemetry units, restorative care settings and long-term care settings.
**Corequisite:** GNRS 558P

### GNRS 559, Audiometry for School Nurses, 3 Units

This course provides didactic instruction via eCollege and eight hours of on-site practicum experience that emphasizes the content and clinical expertise necessary to fulfill the requirements of the State of California School Hearing Conservation Program and training for the school audiometrist. The course focuses on the physiologic process of hearing and how to assess for deficits in hearing in children of all ages. At the conclusion of the course, and after having completed successfully all learning objectives, the student is eligible to submit an Application for Registration as a School Audiometrist in the State of California (a $10 registration fee is required with the application).

### GNRS 560, Strategic Leadership in Health Care, 3 Units

This course is designed to develop knowledge, skills and attitudes about leadership across the healthcare continuum. The student will consider the professional role of the healthcare administrator both from a leadership and a management perspective. Areas of concentration will include leadership theory, structure of healthcare institutions, systems thinking and decision-making, performance improvement including quality and safety issues, risk management and effective communication skills. Application of business skills will be integrated. Students will consider the theoretical and research background, current issues and trends, leadership and administrative implications of specific topics.

### GNRS 564, Nutrition and Therapeutics, 2 Units

Students in this course explore the functions of nutrients and the consequences of nutrient deficiencies and excesses in the body. Course material introduces a variety of tools for planning and evaluating diets, including a computer diet analysis, and the application of nutrition concepts is interwoven into health care and fitness conditions. Students also study the prevention of chronic disease as it relates to proper nutrition and adequate exercise.
**Prerequisite:** Admission to the ELM program

### GNRS 567, Healthcare Administration and Leadership Supervised Practicum, 3 Units

This course provides the student with the opportunity to experience the role of healthcare administrator. An individualized administration practicum in a specific area of clinical emphasis is chosen by the student and approved and monitored by the faculty and preceptor. Competencies that govern the role of the healthcare administrator are explored in depth. Students focus on the context for enacting the role of administrator in a healthcare delivery system.
**Prerequisite:** All core and role courses

### GNRS 568, Healthcare Finance, 4 Units

This course is an introduction to financial concepts and skills need for healthcare leaders, managers, and executives. The student will develop skills in assessing multiple dimensions of financial performance and methods to improve the financial health of an organization in the context of current patient care system.

## GNRS 569, Quality and Safety for Health Care Practice, 3 Units

This course is designed to deepen and advance students' knowledge of, and ability to systematically apply the principles of, patient quality and safety in nursing practice. Based on national standards, the focus is on examining and applying quality and safety tools, including informatics, that can be used to improve patient care delivery across the continuum of health care.

## GNRS 570, Parish Nursing/Health Ministries, 2 Units

This course provides an introduction to and overview of health ministry and parish nursing theory and practice. The philosophy of the course is that (a) the parish nursing role is that of a specialist in spiritual aspects of patient care in the congregational context, requiring the integration of graduate level theology/ministry and nursing theory and praxis; and (b) health ministry is an emerging role and trend in pastoral ministry that seeks to bring professional ministry skill to bear upon the integration of health, faith, and spirituality in the parish setting.

## GNRS 571, International Health Care, 2-4 Units

This course provides students with experience in nursing care in other countries. Students prepare with coursework in the United States, then travel abroad, where they have experiences in acute and/or chronic care settings, exploring cultural, economic, systems, philosophical, and other aspects of care that influence the provision of health care in other countries. A debriefing period is provided upon return.

## GNRS 573, Clinical Residency, 4 Units

The clinical residency is an internship clinical experiential program designed as a collaborative partnership between the School of Nursing and selected community in-patient health care organizations. This residency is an intensive preceptored clinical experience planned to ease the role transition from a student nurse to a beginning professional nurse in an acute-care setting. In addition, it enhances the skill and practice knowledge of the student in preparation for the RN licensing examination.
**Prerequisite:** Successful completion of all pre-licensure clinical courses

## GNRS 575, Nursing Care in Maternal, Newborn, and Women's Health, 4 Units

This course focuses on the theoretical and clinical concepts of the childbearing patient, her infant, and her family. The students study both normal and complicated obstetrics. Selected issues of women's health are explored. The student is introduced to birth preparation, prenatal care, normal neonatal, and postpartum care with concurrent clinical experiences.
**Prerequisite:** Admission to the ELM program, successful completion of semesters one and two;
**Corequisite:** Practicum

## GNRS 576, Pharmacology, 2 Units

This course is designed for students who have completed organic chemistry, inorganic chemistry, and biochemistry. The content focuses on principles of pharmacology and specifics of the major drug classifications.
**Prerequisite:** Admission to the ELM program

## GNRS 578, Health Assessment, 3 Units

This course provides the nursing student with skills in physical, spiritual, and psychosocial assessment of adult clients. History-taking and physicalexamination techniques presented in the course help the student develop strong assessment skills upon which further knowledge and practice can be built. Basic concepts related to assessment of geriatric, pediatric, and childbearing patients are included.
**Prerequisite:** Admission to the ELM program;
**Corequisite:** Practicum

## GNRS 580, Gerontology, 2 Units

This course integrates research and writings about the major trends and developments in the field of gerontology as they apply to the field of nursing. The approach is interdisciplinary - course material includes information from the fields of sociology, psychology, anthropology, biological sciences, medicine, nursing, and psychiatry. Development in adulthood is viewed from multiple perspectives including cognitive, behavioral, biological, sociocultural, and spiritual, and the influences these perspectives have on the successful negotiation of age-related issues are considered. Finally, students examine aspects of human aging in contemporary American society and from a cross-cultural and ethnic perspective.
**Prerequisite:** Graduate standing in the School of Nursing.

## GNRS 581, Primary Health Care of the Older Adult, 5 Units

GNRS 581 focuses on the role of the adult-gerontology primary care nurse practitioner in the management of the older adult including health promotion, assessment, treatment, and maintenance of common primary care health problems. The clinical practicum emphasizes the application of theory and evidence-based research for the delivery of culturally competent assessment and treatment of the older adult within the context of their families and in a variety of outpatient settings.
**Prerequisite:** Graduate status in the School of Nursing, completion of Advanced Practice Core courses;
**Corequisite:** Practicum

## GNRS 582A, Pathophysiology, 2 Units

This course presents an introduction to human pathophysiology. Mechanisms causing alterations in cellular activity, maintenance of cellular tissue oxygenation, fluid and electrolyte balance, and neuroendocrine control of the body are included. Common pathophysiologic disorders are emphasized.
**Prerequisite:** Admission to the ELM program

## GNRS 582B, Pathophysiology, 2 Units

This course continues the presentation an introduction to human pathophysiology. Mechanisms causing alterations in cellular activity, maintenance of cellular tissue oxygenation, fluid and electrolyte balance, and neuroendocrine control of the body are included. Common pathophysiologic disorders are emphasized.
**Prerequisite:** Admission to the ELM program, successful completion of GNRS 582A

## GNRS 583, Nursing Care of Children and Young Adults, 4 Units

This theoretical and clinical course focuses on the care of children from birth through adolescence. The effects of acute and chronic illness on growth and development are studied in the acute and community health care setting. Education of the child and family on health promotion, disease prevention, and safety issues are addressed. Ethical issues are discussed regarding the relationship to the child and family, including issues such as child abuse, informed consent, and the impact of diverse cultural and spiritual beliefs on health care decisions in the family.
**Prerequisite:** Admission to the ELM program, successful completion of semesters one and two;
**Corequisite:** Practicum

## GNRS 584, Mental Health Nursing, 4 Units

This theoretical and clinical course focuses on the dynamics of psychosocial stress within the interpersonal and intrapersonal systems of clients with acute and chronic psychiatric disorders.
**Prerequisite:** Admission to the ELM program, successful completion of semesters one and two;
**Corequisite:** Practicum

## GNRS 586, Leadership and Management in Professional Practice, 2 Units

This course emphasizes leadership and management theory including systems theory in a number of applications and settings, equipping students with the ability to adjust to various organizations encountered by professional nurses serving in a variety of roles. Core concepts relevant to clinical settings are presented using a systems approach. Emphasis on nursing case management is included.

## GNRS 587, Community Health Nursing, 5 Units

This course has two areas of focus within the community setting: the study of principles and practices involved in community health nursing, and the development of skills for teaching a group of clients. The emphasis is on the role of the nurse in assessing, planning, implementing, and evaluating care of clients in a variety of community-based settings, with a focus on care of the gerontological client. Collaboration with community-based organizations and services that provide health restoration, maintenance, illness prevention, and client education services to individuals, families, and aggregates are essential components of this course. A review of legal mandates and regulations, as well as discussion of ethical dilemmas and issues related to community-based care is included.
**Prerequisite:** Admission to the ELM program, successful completion of semesters one, two, and three;
**Corequisite:** Practicum

## GNRS 588, Advanced Nursing Care of Adults - Leadership, 6 Units

This course involves the application of pathophysiological, psychosocial, and spiritual concepts to adult and geriatric clients experiencing the stress of illness in acute settings. The primary focus of the course is to care for critically ill clients and their families with complex health care needs in a critical-care setting. A second area of focus is on the utilization of leadership and management concepts/skills in providing comprehensive care to groups of clients and families. Emphasis is placed on preparing the student to practice in a beginning leadership role in managing client care. Legal and ethical issues related to acute care are included.
**Prerequisite:** Admission to the ELM program;
**Corequisite:** Practicum

## GNRS 589, Adolescent Health Care, 2-4 Units

This course focuses on the growth and development of adolescents, including assessment, prevention, and management of common health and psychosocial problems in this population. Emphasis is on age-appropriate and culturally competent provision of primary health care to adolescents in a family system.
**Prerequisite:** Graduate status in the School of Nursing; 2-unit version of this course requires prior completion of GNRS 610, while the 4-unit version requires prior completion of GNRS 610, GNRS 611, and GNRS 511 or GNRS 612.

## GNRS 590A, Primary Health Care of the Young Family, 6 Units

This combined theory and clinical course focuses on management of health care of children (from birth through adolescence) and their families. Theory and clinical experiences emphasize assessment, prevention, and management of physiological, social, emotional, intellectual, spiritual, and educational needs of the child as an individual and as a family member. The effects of culture on development, parenting, and health care practices are emphasized. The course provides theory and clinical experiences in the management of normal and common pathological conditions to prepare students for advanced nursing practice in the role of nurse practitioner.
**Prerequisite:** Advanced Practice Core courses;
**Corequisite:** Practicum

## GNRS 590B, Clinical Practicum in Pediatrics, 4 Units

The student develops expanded skills in the comprehensive assessment and management of common childhood illnesses and problems and continues to gain skill in promoting child wellness. Application of theory and research is emphasized in the care of common illnesses throughout the childhood years.
**Prerequisite:** GNRS 511 or GNRS 612, and GNRS 590A

## GNRS 590C, Primary Health Care of the Young Family for the School Nurse Services Credential, 6 Units

Using a system-based approach, this combined didactic and practical course focuses on assessment, nursing interventions, and follow-up for common illness presentations in children, as well as illness-related impact on social, emotional, and educational functioning. The effects of culture on child development, parenting, and healthcare practices is also emphasized.
**Prerequisite:** GNRS 612;
**Corequisite:** Practicum

## GNRS 590D, Primary Health Care of the Young Family, 3 Units

This theory course focuses on management of health care of children (from birth through adolescence) and their families, with an emphasis on assessment, prevention, and management of physiological, social, emotional, intellectual, spiritual, and educational needs of the child as an individual and as a family member. The effects of culture on development, parenting, and health care practices are emphasized. The course provides theory in the management of normal and common pathological conditions to prepare students for advanced nursing practice in the role of nurse practitioner.
**Prerequisite:** Advanced Practice Core courses

## GNRS 591, Primary Health Care of the Childbearing Family, 4 Units

This course focuses on the assessment and management of the primary health care needs of the reproductive family. Emphasis is placed on health promotion and maintenance, disease prevention, curative, and restorative care. Cross-cultural aspects related to parents, male and female, of the childbearing family are addressed.
**Prerequisite:** Advanced Practice Core courses;
**Corequisite:** Practicum

## GNRS 592A, Primary Health Care of the Adult and Aging Family, 6 Units

This combined theory and clinical course focuses on the role of the nurse practitioner (NP) in caring for mature adults and aging family members, from young adulthood to elderly adulthood. Emphasis is placed on the management of common primary health problems of these age groups. The delivery of culturally competent primary health care interventions of young, middle-aged, and elderly adults is addressed.
**Prerequisite:** Advanced Practice Core courses;
**Corequisite:** Practicum

## GNRS 592B, Primary Health Care Clinical Practicum, 2 Units

This course provides the final comprehensive clinical management experience, allowing FNP and AGNP students to apply knowledge gained throughout their course of study. Clinical conferences provide opportunity for discussion of role development issues and clinical case studies. Students engage in the clinical assessment and management of adults of diverse cultural backgrounds with routine and complex health problems in out-patient settings. Under the supervision of qualified preceptors and School of Nursing faculty, the student must complete his/her clinical hours and demonstrate mastery to perform the role of an entry-level nurse practitioner.
**Prerequisite:** Completion of clinical courses for the FNP or AGNP program track

## GNRS 593, Psychosocial Primary Health Care of the Adult and Aging Family, 4 Units

This combined didactic and clinical course focuses on psychosocial primary health care of the mature and aging family. Didactic content and clinical experiences emphasize the advanced practice nursing role in the medical management of chronic illness with concurrent assessment for psychosocial stressors that impact the experience and management of chronic illness. Students learn to tailor patient-centered therapeutic strategies, including presence, multi-faceted functional assessment, motivational interviewing, stress reduction techniques and spiritual support to individual patients.
**Prerequisite:** Advanced Practice Core courses;
**Corequisite:** Practicum

## GNRS 595, Special Topics in Nursing, 1-6 Units

In this course, a topic of current interest to students is examined in depth. Students analyze and evaluate topics/issues to reach and express a position, enhance personal development and/or to develop a particular project. If students elect this course more than once during their program, each such course must address a different topic.
**Prerequisite:** Graduate standing

## GNRS 596, Foundations of Healthcare Informatics, 3 Units

This course provides an overview of basic concepts for practice in healthcare-oriented informatics. These core concepts include an introduction to clinical and translational informatics; foundational theory and practical application of clinical decision making and computerized decision support; healthcare systems and their organization; the special issues of administration, security, and operations of electronic records in the healthcare setting; human factors issues; information science in the healthcare domain; standards, terminologies, and the uniqueness of biomedical data; and a special focus on emerging technologies.

## GNRS 597, Comprehensive Examination Directed Study, 1 Unit

This course guides the student through the process of demonstrating an integration of theoretical, clinical, and research knowledge. Critical thinking is enhanced through careful consideration of information presented during discussion. The examinations are taken as part of this seminar.
**Prerequisite:** Completion of all Academic Core and degree specialty courses. Final specialty course may be taken concurrently.

## GNRS 598, Thesis, 1 Unit

A student initially enrolls in this option toward the latter part of the program for one unit of credit. The student registers for one unit of thesis credit each semester (two of three semesters per year) until the thesis is completed.
**Prerequisite:** GPA of 3.5 or above, chair's consent for thesis option, and completion of all Academic Core and Advanced Practice Core courses

## GNRS 599, Readings/Independent Study in Nursing, 1-4 Units

A student may elect to pursue special interests for credit at any time during the program under the supervision of a faculty member. University policy states that the student must earn a grade in an independent study course in order to receive credit toward graduation.
**Prerequisite:** Graduate standing

## GNRS 600, Nurse Practitioner Clinical Experience, 2-6 Units

The AGPCNP and NP programs require 765 hours of supervised direct patient care experience. Students in this course function in the role of student nurse practitioners under the direct supervision of approved preceptors, and receive feedback from their preceptors and from their clinical faculty. This course gives students an opportunity to complete the documentation necessary to be awarded clinical units. Students progressively integrate advanced-practice nursing competencies, demonstrate professional nursing behavior, and keep accurate records. Upon completion of 765 hours, students are given access to a clinical portfolio.
**Prerequisite:** GNRS 612 and faculty permission

## GNRS 601, Primary Healthcare I: Adult and Aging, 3 Units

This course integrates knowledge from advanced pathophysiology, advanced pharmacology, and advanced health assessment and apply it to create a diagnostic hypothesis for common acute and chronic primary care health problems in adolescents, adults, and older adults. The course examines a variety of treatment options for each disease presented and for diseases that don't respond to first-line therapy.
**Prerequisite:** GNRS 612
**Corequisite:** GNRS 600

## GNRS 602, Primary Healthcare II: Population-based Health Interventions, 3 Units

Primary Healthcare II recognizes that individuals with healthcare needs belong to a variety of discrete groups. This course introduces population health principles to be integrated with psychosocial assessment, cultural competency, social determinants of health, and the nurse-client relationship to foster the development of competence to motivate patients in a way that respects their diversity and to assist them to find resources to address social vulnerabilities. Students will employ statistical analysis as well as nursing experience to analyze risk to create a patient education plan.
**Prerequisite:** GNRS 601
**Corequisite:** GNRS 600

## GNRS 603, Primary Healthcare III: Restorative and Palliative Interventions, 3 Units

This course is designed to integrate disease management and communication techniques to support the physical, emotional, and spiritual transitions of chronic illness. The course examines developing a prognosis, transitioning care, interprofessional care planning, and care of the caregiver. Grounded in spiritual concepts, this course is designed to provide the student with tools to give patients and families unpleasant information that will likely evoke fear or sadness.
**Prerequisite:** GNRS 602

## GNRS 610, Advanced Pathophysiology, 3 Units

This course builds on basic anatomy and physiology and undergraduate study of pathophysiology. It focuses on the development of an advanced understanding of the pathophysiologic mechanisms of human health disorders including those that are genetic. Diagnostic reasoning that facilitates the clustering of signs and symptoms leading to diagnosis is a key process undergirding the course. This course requires the integration of signs and symptoms, clinical testing (such as laboratory and radiologic studies), and pathophysiologic mechanisms with diagnoses. This course introduces epidemiological principles and methods to be applied to population health models.
**Prerequisite:** Graduate standing and undergraduate pathophysiology

## GNRS 611, Advanced Pharmacology, 3 Units

This course builds upon basic knowledge in pharmacology and provides content essential for the advanced practice nurse to render appropriate pharmacological treatment in practice. Mechanisms of action, interactions, side effects, and prescribing guidelines for drugs commonly utilized across the life cycle are addressed. The course introduces the principles of pharmacogenomics and their application to clinical practice. Variations in pharmacological reactions attributed to cultural factors are emphasized. Strategies for fostering individual/family adherence to pharmacological regimens are examined. This course meets the requirements of the California Board of Registered Nursing in the application of a "furnishing number" by the advanced practice nurse in California.
**Prerequisite:** GNRS 610 (may be taken concurrently)

## GNRS 612, Advanced Health Assessment and Diagnostic Reasoning, 4 Units

This course develops the graduate nurse's assessment skills and focus on the promotion of health in individuals across the age range and within family, community, and cultural contexts. Emphasis is on adapting and expanding the medically focused history and physical assessment to incorporate the assessment of traditional and nontraditional therapies and identify culturally relevant and age-appropriate health promotion strategies for common episodic complaints and chronic health conditions. Outcomes are examined in light of theoretical concepts. Strategies for health promotion include a focus on lifestyle, mental health, nutrition, counseling to modify risk factors, and screening tests/prophylaxis for the early detection and prevention of disease.
**Prerequisite:** Undergraduate health assessment and GNRS 610;
**Corequisite:** lab

## GNRS 613, Graduate Statistics, 3 Units

This course presents the knowledge of descriptive, correlational, and inferential statistics used in research that serves as the basis for evidence-based practice. Students develop the ability to perform descriptive and inferential data analysis techniques, use software applications to aid in statistical calculations and presentation, and interpret findings.

## GNRS 615, APRN Intensive I, 1 Unit

This is the first of four Intensive courses that give NP students an interactive experience through in-class and out-of-classroom work. This course introduces students to the professional role and practice of the nurse practitioner in primary care.
**Prerequisite:** GNRS 612 (may be taken concurrently)

## GNRS 616, APRN Intensive II, 1 Unit

This is the second of four APRN Intensive courses that give NP students an interactive experience through out-of-classroom work. Course activities and games will evaluate the student's ability to perform the clinical role of the NP. Students will understand and develop the skills of virtuous leadership and collaboration from a biblical perspective.
**Prerequisite:** GNRS 615;
**Corequisite:** GNRS 601

## GNRS 617, APRN Intensive III, 1 Unit

This is the third of the APRN intensives that give APRN students an interactive experience with out-of-classroom work that includes team activities, simulation experiences, and problem-solving activities. Topical content includes managing patients with complex co-morbidities, ethical reasoning, and advanced communication skills. Students will be observed performing the professional and clinical skills of the APRN.
**Prerequisite:** GNRS 616;
**Corequisite:** GNRS 602

## GNRS 618, APRN Intensive IV, 1 Unit

This is the fourth of the APRN intensives that give APRN students an interactive experience with out-of-classroom work that includes team activities, simulation experiences, and problem-solving activities. Topical content practice-based quality improvement, office-based procedures, and certification exam preparation. Students will be observed performing the professional and clinical skills to demonstrate readiness to enter NP practice.
**Prerequisite:** GNRS 617; Faculty permission.

## GNRS 620, Genome Science in Healthcare, 3 Units

This course covers basic genomic concepts and technologies intended for personalizing healthcare. The primary goal is to provide the student with clinically relevant knowledge that can be used in practice and for teaching other healthcare professionals, patients and families. Applications of genome science and technology are analyzed in the context of real world examples taken from a variety of clinical specialty areas to better understand the relation between genomics, health, and illness.

## GNRS 622, Genome Science and Ethical Issues, 3 Units

This course examines current applications and implications of genome science and technology to healthcare, public health policy, economics, ethics, federal and state laws and societal issues. The following discussion topics are at the leading edge of healthcare and social debate: DNA biobanking, genetic profiling, and genomic technologies used in genome medicine such as stem cell research, gene therapy, and genetic enhancements. In addition, the course addresses ethics, philosophy, and theology literature to explore thoughtful discussions that cover a wide range of genome applications in healthcare and health science research.
**Prerequisite:** GNRS 620

## GNRS 630A, Oncology Nurse Practitioner Fellowship A, 4 Units

This course is the first in a series of three fellowship courses that enhance students' critical thinking, diagnostic reasoning, and interpretation and management skills for advanced practice nursing in the field of oncology. Students gain a deeper understanding of the sciences necessary for enhanced role development, knowledge, and skills for advanced practice nursing scholarship, and practice in a designated appropriate setting under the direction of a faculty advisor in collaboration with selected clinical experts, with a focus on exploring the development and scientific underpinnings of components of expert clinical oncology practice.
**Prerequisite:** Enrollment in the oncology nurse practitioner fellowship certificate program.

## GNRS 630B, Oncology Nurse Practitioner Fellowship B, 4 Units

This course is the second in a series of three fellowship courses that enhance students' critical thinking, diagnostic reasoning, and interpretation and management skills for advanced practice nursing in the field of oncology. Students gain a deeper understanding of the sciences necessary for enhanced role development, knowledge, and skills for advanced practice nursing scholarship, and practice in a designated appropriate setting under the direction of a faculty advisor in collaboration with selected clinical experts, with a focus on exploring the development and scientific underpinnings of components of expert clinical oncology practice.
**Prerequisite:** Enrollment in the oncology nurse practitioner fellowship certificate program.

## GNRS 630C, Oncology Nurse Practitioner Fellowship C, 4 Units

This course is the third in a series of three fellowship courses that enhance students' critical thinking, diagnostic reasoning, and interpretation and management skills for advanced practice nursing in the field of oncology. Students gain a deeper understanding of the sciences necessary for enhanced role development, knowledge, and skills for advanced practice nursing scholarship, and practice in a designated appropriate setting under the direction of a faculty advisor in collaboration with selected clinical experts, with a focus on exploring the development and scientific underpinnings of components of expert clinical oncology practice.
**Prerequisite:** Enrollment in the oncology nurse practitioner fellowship certificate program.

## GNRS 631, ONP: Cancer Biology and Assessment, 2 Units

This course builds on knowledge of the anatomy and physiology of DNA, RNA, and differentiated and nondifferentiated human cells. Focus is on the pathophysiologic mechanisms of human cancer disorders. Diagnostic reasoning that facilitates the clustering of signs and symptoms is a key process undergirding the course. The course also provides the foundation for the integration of diagnostic testing, physical assessment, and understanding of the predictable pathophysiology of cancer in order to stage tumors and predict metastatic risk in individuals.
**Prerequisite:** Admission to the Oncology Nurse Practitioner Post-Master's Certificate program.

## GNRS 632, ONP: Cancer Therapeutics, 2 Units

This course builds on knowledge of the predicted behavior of human cancer. Technology in cancer treatment is evolving rapidly, and this course provides a pathophysiological foundation for understanding cancer protocols. Current cancer protocols, classes and categories of therapeutics, technologies in development, and tumor resistance are discussed, along with the cost benefit, side effects, and availability of the covered therapeutics.
**Corequisite:** GNRS 631

## GNRS 633, ONP: Symptom and Side Effect Burden, 2 Units

Patients with advanced cancer often suffer significant symptomatic burden and the iatrogenic complications of treatment. This course helps students develop a patient-centered approach to evidence-based management of common symptoms of cancer and side effects of treatment.
**Prerequisite:** GNRS 631 and GNRS 632

## GNRS 634, ONP: Survivorship and the Psychosocial Impact of Cancer, 2 Units

Cancer patients and their caregivers face complicated psychological, financial, and spiritual changes, beginning at diagnosis and extending into the posttreatment phases. This course covers the common problems related to those changes, and best-practice strategies and techniques to help patients and families cope with cancer.

## GNRS 635, ONP: Team-Based Care and the Role of the Oncology Nurse Practitioner, 2 Units

The clinician role of the oncology nurse practitioner requires familiarity with the incidence, prevalence, and risk assessment competencies for all common cancers. In addition, the oncology nurse practitioner must be prepared for a wide variety of leadership roles. Strategies for care coordination, designing and measuring interdisciplinary team outcomes, mentoring, collaborating with primary care providers, and rapid-cycle quality improvement are examined.

## GNRS 636, ONP: Clinical Trials in Oncology Nursing, 2 Units

The advanced-practice oncology nurse practitioner is prepared to provide direct patient care, design a plan for outcome evaluation, and take a leadership role in medical and nursing oncological research.
**Prerequisite:** GNRS 610, GNRS 611, GNRS 612, and GNRS 613

## GNRS 650, History of Professional Nursing: From Origins to Nursing in Transition, 3 Units

Students in this course explore conceptual and methodological issues in historical nursing research, including the use of biographic methods in nursing history and working with primary sources/archival materials/artifacts and material culture. Focus is on the origins of professional nursing up to the period of nursing in transition in the United States. Students examine ethics guidelines and standards for historical research in nursing, and critically analyze the origins of nursing and early nursing contributions to the evolution of modern health systems and interventions. Class discussion and composition facilitate critical thinking about the history of nursing as a scholarly inquiry, focusing on issues and methods of nursing historical research.

## GNRS 651, History of Professional Nursing: From Colonial Times to Present Day, 3 Units

Students in this course explore the foundations of professional nursing in the United States in the context of influential historical, global, societal, and scientific events. Students examine issues faced by nurses from colonial times to today, critically analyzing nurses' contributions to the development of modern health systems and interventions. Class discussion and composition facilitate critical thinking about the history of nursing as a scholarly inquiry, since historical perspectives form the basis for analysis of contemporary healthcare issues and projected development of the nursing profession, its practice, and healthcare policy.

## GNRS 660, Theories of Teaching and Instruction, 3 Units

This course analyzes selected teaching and learning models that are applicable to nursing education. Strategies for classroom and clinical teaching are examined. Research relative to nursing education is reviewed and critiqued. Design of research methods to determine effectiveness of teaching strategies is incorporated. Course development and student evaluation are emphasized. Selected faculty and nursing education issues are also explored.

## GNRS 661, Leadership and Role Development in Nursing Education, 3 Units

This course includes an analysis of educational leadership and the multiple roles of the nurse educator related to teaching, scholarship, service, and practice. Theoretical perspectives and practical approaches supported by research in nursing and higher education literature, as well as the Christian educator's role promoting faith integration, are addressed.

## GNRS 662, Assessment, Curriculum, Development, and Outcomes, 3 Units

This course addresses theoretical approaches to educational assessment, the development and implementation of nursing curriculum, and student and program outcomes. Emphasis is given to the importance of incorporating Christian values in the curriculum. The course also includes critical analyses of related topics based upon current research in nursing and higher education literature.

## GNRS 663, Clinical Practicum in Nursing Education, 3 Units

This practicum course builds on the academic and clinical preparation of previous courses and prepares students to teach in academic and clinical settings. Under the supervision of a preceptor, this practical classroom experience focuses on: a) writing of learning/teaching objectives, b) selecting teaching strategies and learning activities, c) designing and implementing teaching plans for units of instruction, d) evaluating student learning outcomes, and e) obtaining feedback on teaching performance from faculty mentors/preceptors, fellow students, and self-evaluation and reflection. It is recommended that students take GNRS 660, GNRS 661, and GNRS 662 prior to taking this class. GNRS 664 may be taken concurrently.

## GNRS 664, Teaching and Learning Strategies for Nursing Education, 3 Units

This course equips academic nurse educators to develop and evaluate teaching and learning strategies that facilitate learning in different nursing educational settings. Course material includes examining the challenges nursing faculty face in implementing this role, and strategies to successfully navigate those challenges. Also included are two projects to prepare students for the application process of the nurse educator. It is recommended that students take GNRS 660 prior to taking this class.

## GNRS 695, Special Topics, 1-4 Units

A subject of current interest is examined in depth. Students analyze and evaluate controversial issues to reach and express a reflective position. This course may be repeated for credit to a maximum of 6 units applied toward the MSN or PhD degree; each course must address a different topic.

## GNRS 700, Philosophy of Science, 3 Units

This course equips students with the knowledge and critical analytic skills to comparatively evaluate the philosophical foundations of scientific theories and the influence of Western philosophical schools of thought on the development of nursing science. Course content is organized to engage students in discussion and critical analysis of the epistemological and philosophic foundations of scientific theories and the characteristics of scientific knowledge according to the received view, paradigmatic view, perceived postmodern view, and feminist tradition. Special emphasis is given to the critical debate within nursing about the nature of nursing science.

## GNRS 701, Nursing Knowledge Development, 3 Units

Students in this course focus on analyzing and critiquing the theoretical and methodological processes that are utilized in theory building and knowledge development in nursing. Discussion and critique of the different stages of theory development and students' experimentation with conceptualizing and developing their theoretical stance go hand in hand. Patterns of knowing, knowledge development, and criteria for evaluating nursing knowledge are examined in relation to the discipline's domain and the phenomena of concern in nursing.

## GNRS 702, Nursing Theory, 3 Units

This course focuses on strategies for theory development such as concept analysis, conceptual mapping, and theoretical modeling as applied to the student's phenomenon of concern. It also provides critique and analysis of the major models and theories used in a variety of nursing settings in relation to existing interdisciplinary theoretical knowledge.

## GNRS 703, Spirituality and Health, 3 Units

This course provides an introduction to spirituality, including spiritual experience, as it relates to individual health and illness. Communal spirituality is also considered. Differentiation is made between and among generic religious and Christian spiritualities. While the course covers theoretical aspects of spirituality and their interaction with health and illness, concentration is on the movement from theory to praxis. This lecture/seminar course is oriented toward nursing educators who seek to develop a foundation in spirituality for spiritual integration as well as for its development in nursing practice.
**Prerequisite:** Admission to DNP or PhD program

## GNRS 704, Faith Integration and Nursing Scholarship, 3 Units

This course begins with an exploration of the nature, role, problems, and possibilities of faith integration in higher education and in the nursing curriculum at all levels of higher education. The special circumstances of faith integration and its implications for teaching in secular college settings are explored. This course further provides a critical explication of theological method and content in three domains: biblical hermeneutics, constructive theology, and ministry praxis for education. The focus of the course is on the appropriation of theological method and knowledge for the purposes of integration into nursing education and practice especially (but not exclusively) within the context of a Christian or church-affiliated college.

## GNRS 705, Social Ethics and Health Policy, 3 Units

This course seeks to provide a social ethics frame of reference for health care. Medical and biological advances have contributed to a rapidly expanding amount of human control over human and natural processes, including genetic potential and behaviors. This new power raises questions of morality and highlights the need for discussion and legislation regarding the complex issues raised by developments in health care, medical technology, and science. A comprehensive social ethic places decisions about health care within the context of a fuller account of purpose and meaning in life.
**Prerequisite:** Admission to DNP or PhD program

## GNRS 706, Methods of Inquiry, 3 Units

Students in this course explore various methods of inquiry as they focus on the difference between scientific thinking, wisdom, and alternative concepts of knowledge. Existential dilemmas intrinsic to the pursuit of truth, the exploration of the meaning of actions, the process of reason and interpretation, the perception of reality, and empirical generalizations are discussed, and their influence on the definition of research problems and designs is explored. Research designs and methods are introduced as they relate to problem definition and theory, including an overview of the principles of basic and applied experimental research, evaluation research, and the traditions and foundation of qualitative and historical research. Students are required to explore, synthesize, and debate current issues that will affect their research careers.
**Prerequisite:** Admission to DNP or PhD program

## GNRS 707, Quantitative Nursing Research Design I, 3 Units

This course introduces students to fundamental quantitative research design and methodology. Course material covers key concepts in the research process; literature search; experimental, quasiexperimental, and observational designs; internal and external validity issues associated with specific designs; sampling and data collection methods; survey design; mixed methods; measurement quality indices; and the writing of a quantitative research proposal. In addition, topics addressing power analysis for calculating desired sample size and internal consistency reliability in SPSS are covered. Students have the opportunity to administer an instrument of choice and analyze collected survey data. By the end of the course, students develop an original quantitative research proposal that addresses an area of interest.
**Prerequisite:** Admission to DNP or PhD program

## GNRS 708, Qualitative Nursing Research Design I, 3 Units

This course focuses on analyzing the epistemological foundations and the assumptions of qualitative research methodologies. It provides an introduction to the major qualitative research methodologies including grounded theory, phenomenology, and ethnography. Each methodology is analyzed as to its appropriateness for the research question. Experience in carrying out a pilot study in the selected methodology is provided.

## GNRS 709, Advanced Statistical Analysis II, 3 Units

This course presents advanced methods of quantitative inquiry. The emphasis is on the use of factor analysis, confirmatory factor analysis, path analysis, and structural equation modeling. Assumptions of the techniques are addressed. The course provides the student experience in using statistical packages for entering and analyzing data. Reporting results of the analyses is also incorporated. Making appropriate decisions regarding which of the advanced statistical techniques to use is stressed. Critique of the advanced statistical analyses of published health care research is also emphasized.
**Prerequisite:** GNRS 707

## GNRS 710, Advanced Qualitative Research Methods, 3 Units

This course provides advanced knowledge and training in the use of qualitative research methods including phenomenological interpretation, grounded theory interpretation, ethnographic interpretation, focus groups interpretation, and feminist interpretation. Intensive interpretive and structured approaches to analysis and methods of establishing plausibility, credibility, and adequacy of qualitative data are emphasized.
**Prerequisite:** GNRS 708

## GNRS 711, Advanced Research Methods in the Humanities, 3 Units

This seminar and consultation course introduces PhD students to nonscientific research methodologies as used in the arts, letters, humanities and aspects of the social sciences for the (a) conduct of original dissertation research on one of the disciplines of arts, letters, humanities, or nonscientific aspects of one of the social sciences, (b) conduct humanities-based research to widen and deepen a scientific dissertation topic, or (c) to enlarge the student's methodological repertoire, knowledge, and skill. The course is intended for those whose primary research education and experience has been in scientific methods and disciplines. (Enrollment limited to eight.)

**Prerequisite:** (a) successful completion of GNRS 701 and GNRS 706, (b) permission of the instructor

## GNRS 712, Healthcare Quality Improvement, Program Planning, and Evaluation, 3 Units

This core course bridges the gap between the uptake of new health research discoveries and their translation, adaption, and implementation in practice. Course content includes the examination, integration, and application of quality improvement, program planning, and evaluation processes, strategies, and tools. The outcome of the course is a well-designed evaluation plan for an evidence-based quality improvement project.

**Prerequisite:** Admission to DNP or PhD program

## GNRS 713, Advanced Statistical Analysis I, 3 Units

This course presents common nonparametric and parametric statistical techniques used in healthcare research. Assumptions of the techniques are addressed. Specifically, the course emphasizes t-tests, ANOVA, ANCOVA, RANCOVA, correlation, odds ratio, regression, and power analysis, and provides the student experience in using SPSS for entering and analyzing data. Reporting results of the analyses is also incorporated. Making appropriate decisions regarding which statistical techniques to use is stressed. Critique of statistical analyses of published healthcare research is also emphasized.

## GNRS 715, Psychosocial Issues of Older Adults, 3 Units

This course focuses on the biological and psychosocial processes throughout adulthood and the older years. Theories of aging are examined, as well as social role changes, social stratification, and the development of institutions of the aged. The course explores both normal aging and psychopathology, and the systematic intrinsic psychological or personality changes associated with development and adaptation in later life. Other topics include clarification of the causes and prevention of health maladies in the later years, and the nature and treatment of the most common psychopathologies. The psychodynamics of institutionalization and family care of the very old are also examined.

## GNRS 716, Translation of Research to Practice, 3 Units

The goal of this core course is to help prepare Doctor of Nursing Practice (DNP) nursing students to be nurse scholars and to identify strategies within a multidisciplinary model and in intraprofessional relationships that promote the ready translation of research into practice. This course exposes DNP students to evidence-based practice, quality improvement methodologies, concepts and theories, and deepens their knowledge regarding the phenomenon of interest. This prepares them for foundational competencies needed for evidence-based problem identification, PICOT writing, literature search, integrated literature review, evidence appraisal, and synthesis. There are iterative assignments to develop skill and the milestone assignment is a final integrated review and synthesis paper with in-depth knowledge of their phenomenon (vs. topic) of interest.

**Prerequisite:** Admission to DNP or PhD program

## GNRS 717, Health Technology and Informatics, 3 Units

This course presents an overview of the evolution of health care informatics from an interdisciplinary perspective. Students learn health care informatics history, concepts, theories, legal and ethical implications, and applications within the health care industry. This course introduces the student to the information system life cycle, human factor issues in health care informatics, critical issues affecting the development and implementation of information and communication systems and technologies (clinical, administrative, and learning), knowledge management principles, professional practice trends, and emerging ICT (information and communication technology) in health care.

## GNRS 718, Organizational Leadership and Strategic Planning, 3 Units

In this core course, students acquire knowledge and skill to effectively manage systems level change, empower others, and influence political processes. Advanced nursing practice leadership occurs in clinical practice with clients and staff, within healthcare institutions, professional organizations, and in healthcare policy making arenas, using knowledge of nursing and other professions to address healthcare needs and direct interprofessional activities and initiatives. To develop the leadership role, students implement strategies for creating organizational change to provide high-quality services and outcomes at reasonable costs and lead the development of a business plan for quality improvement initiatives. Students advocate for change related to financial policies that impact the relationship between economics and quality care delivery. Focus is on organizational process, including the associated management of conflict, change, promotion of safety for clients and providers, and control of risk within a dynamic healthcare environment.

**Prerequisite:** Admission to DNP or PhD program

## GNRS 720, Wellness Promotion and Health Maintenance, 3 Units

This course focuses on the critical appraisal of theories and models of health promotion and on the evaluation of health initiatives developed for national health promotion and maintenance. Relevant risk prevention, control, and health promotion intervention strategies are emphasized. Communicable diseases; health hazards; high-risk health factors; acute and chronic illness across ethnicities, genders, and the life span; and morbidity and mortality of the nation's leading health problems are analyzed. Students' research questions are generated from a synthesis of knowledge regarding a specific phenomenon relevant to the student's individual area of study.

**Prerequisite:** Admission to DNP or PhD program

### GNRS 721, Health Disparities and Vulnerable Populations, 3 Units

This course offers an analysis and evaluation of various topics and issues on health disparities of underserved ethnic or minority vulnerable populations as well as an analysis of research that describes, explains, and examines variables influencing health disparities and intervention strategies to reduce these disparities.

### GNRS 722, Research in Nursing and Health, 3 Units

This course is team taught and reflects the research expertise and program of study of the nursing doctoral faculty. It focuses on analysis of determinants of health and illness across demographic, biological, psychological, familial/cultural, and societal dimensions. Attention is given to theoretical explanations toward promoting development of students' programs of research.

### GNRS 724, Quantitative Nursing Research Design II: Survey Methodology, 3 Units

This course introduces students to the fundamental and advanced methods and approaches in survey research. Course material covers the theory and practice of survey development and administration, including principles of measurement and measurement error, selection of survey data collection methods, measurement design of a multidimensional concept, and locating and evaluating existing survey instruments. In addition, topics addressing instrument construction, reliability, and validity, with attention to statistical techniques, are covered. Throughout the course, students develop a comprehensive critical review of select instruments that measure a construct of their choice.
**Prerequisite:** GNRS 707

### GNRS 725, Research Practicum, 1 Unit

The practicum further develops, mentors, and socializes students into the roles and activities of research scientists and scholars. Emphasis is on mentoring to facilitate student progression in research methodology, culturally appropriate research strategies, data management, and data analysis. Students can chose either a quantitative or qualitative practicum experience.

### GNRS 726, Advanced Scientific Writing, 3 Units

This course provides opportunities for students to learn how to research and introduce a topic in writing, articulate a thesis statement, support and develop a literature review, work with secondary sources, and organize a written paper that can be developed into a dissertation or translational research paper.

### GNRS 727, Genome Science in Clinical Cases and Disease Management, 3 Units

This course focusing on medical family history taking, constructing and analyzing the pedigree, genetic counseling, clinical decision making and clinical case management for a wide variety of inherited and acquired diseases through the lens of emerging genome science. Clinical cases are discussed from a holistic perspective including: genome science, epidemiology, genomic profiling, genetic technologies, personalized medicine, interprofessional collaboration, ethical and legal issues, and health policy.
**Prerequisite:** GNRS 620

### GNRS 728, Genome Science Research Methods, 3 Units

This course focuses on genome research methods for understanding and translating genome science to practice and to genome related nursing research. Understanding the research methods fosters a deeper understanding of the strength and the weaknesses of the science and an ability to critique the benefits and the limitations of the science for designing nursing research. The course includes a wide range of research methods that explore genetics or genomics in human populations. A key outcome of this course is to develop a research proposal using genome methods to design nursing research aimed at improving quality of health for individuals, families and populations.
**Prerequisite:** GNRS 620, GNRS 622, GNRS 727

### GNRS 729, Population Health and Epidemiology, 3 Units

The concept of population health includes aggregate, community, environmental/occupational, and cultural/socioeconomic definitions of health. The implementation of clinical prevention and population health activities is central to achieving the national goal of improving health status and reducing health disparities among different aggregate groups. This course covers the basic elements and methodological concepts used in the epidemiologic study of factors related to health promotion and disease prevention in human populations. It brings together considerations from several fields of investigation, such as epigenetics, epidemiology, psychology, and public health, to study the effects on health and health-related outcomes.
**Prerequisite:** Admission to DNP or PhD program

### GNRS 730, Comparative Health Care Systems, 3 Units

This course focuses on exploring/analyzing environmental, social, cultural, political and economic determinants of health across the globe. Comparative analysis of international health care systems including governmental, nongovernmental, traditional, and faith-based organizations are emphasized. Epidemiological analysis of morbidity and mortality, analysis of health and illness responses, and health-seeking behavior across the age span and gender/ethnic variables are discussed with the intent to identify areas of research relevant to students' interest. Presented from a Christian perspective, this course investigates research and practice opportunities and responsibilities for advanced practice nurses in global arenas.

## GNRS 732, DNP Clinical Residency, 0 Units

This course provides students enrolled in the Doctor of Nursing Practice (DNP) program with opportunities to develop professional nursing skills at the doctoral level. The focus of the course is to explore the development and scientific underpinnings of components of expert advanced clinical practice. Students select a population of interest for the DNP clinical residency and apply evidence-based practice and research findings in order to develop and improve practice. Over the course of the DNP program, students integrate previous nursing education and practice experiences with the DNP residency and concurrent doctoral coursework to meet the AACN Essentials of Doctoral Education for Advanced Nursing Practice and complete a DNP scholarly project. The course may be repeated to enable the student to obtain a minimum of 1,000 residency hours. Previous hours from graduate clinical courses may apply, so residency hour requirements will vary.
**Prerequisite:** Admission to DNP program

## GNRS 733A, Residency IA, 1 Unit

This is the first in a series of three residency courses designed to enhance students' critical thinking, diagnostic reasoning, interpretation, and management skills for advanced clinical practice. This course broadens and enhances understanding of the sciences necessary for enhanced role development, knowledge, and skills for advanced practice clinical nurse scholarship. Students practice in a designated appropriate setting under the direction of a faculty advisor in collaboration with selected clinical experts. The course focuses on exploring the development and scientific underpinnings of components of expert advanced clinical practice, and attention is given to the development of skills necessary to attain that goal. By the end of this course, students select their population of interest for their clinical residency and apply evidence-based findings to this population to identify potential areas of intervention.
**Prerequisite:** Admission to DNP program

## GNRS 733B, Residency IB, 1 Unit

The second of a three-course sequence, this course may be taken concurrently with GNRS 733A and/or GNRS 733C with approval of the DNP director or designee. Grading: pass/fail

## GNRS 733C, Residency IC, 1 Unit

The third of a three-course sequence, this course may be taken concurrently with GNRS 733A and GNRS 733B with approval of the DNP director or designee. Grading: pass/fail

## GNRS 734A, Residency IIA, 1 Unit

The first of a three-course sequence, this course may be taken concurrently with GNRS 734B and GNRS 734C with approval of the DNP director or designee. Grading: pass/fail

## GNRS 734B, Residency IIB, 1 Unit

The second of a three-course sequence, this course may be taken concurrently with GNRS 734A and/or GNRS 734C with approval of the DNP director or designee. Grading: pass/fail

## GNRS 734C, Residency IIC, 1 Unit

This is the last of a three-course series of clinical residencies with a focus on transformative and collaborative leadership, including completion of the evidence-based practice project, assessment of project outcomes, and planned dissemination of findings. Students apply relevant clinical and research findings to develop and improve practice. Content emphasizes critical appraisal of skills and interventions necessary to ensure meaningful translation of scientific evidence into practice, including a cost-benefit analysis for implementing a change into clinical practice. The course also emphasizes the professional role of the nurse as a collaborator, leader, and provider of care with nursing colleagues and other members of the interprofessional healthcare team within the context of complex healthcare systems, preparing students to implement an advanced nursing practice role that results in practice and/or policy change at the local, state, and/or national levels.
**Prerequisite:** Successful completion of GNRS 733A, GNRS 733B, GNRS 733C, GNRS 734A and GNRS 734B

## GNRS 735, DNP Scholarly Project Seminar, 3 Units

The DNP program requires a rigorous clinical project focused on translating scientific research to health care in a timely manner so that patients experience the best applications of science and practice. The project is a scholarly experience that implements the principles of evidence-based practice and translation under the guidance of a faculty mentor. In line with the AACN Essentials of 2007, the outcome of the DNP scholarly project is a tangible and deliverable academic product that is derived from the practice immersion experience and reviewed and evaluated by an academic committee. The project also serves as a foundation for future scholarly practice.

## GNRS 736, DNP Scholarly Project Seminar: Evaluation and Dissemination, 2 Units

This course focuses on presentation to and approval of a completed DNP Scholarly Project. The DNP program requires a rigorous clinical project focused on translating scientific research to health care to improve the patients experience utilizing the best evidence of science and practice. This scholarly project is a culminating, independent experience which demonstrates the student's synthesis of coursework and lays the foundation for future scholarship.

## GNRS 780, Doctoral Seminar I: Elements of a Proposal and IRB Application, 3 Units

This seminar directs the development of either a PhD dissertation or a DNP Scholarly Project proposal draft that details a problem, the research/project purpose, questions or hypotheses to be examined, a synopsis of the relevant literature, the design and methods of the study including its timeline, protection of human subjects, plans for analysis, and the budget. The seminar also includes preparation of IRB applications, and peer review and critique of student proposals.
**Prerequisite:** Admission to DNP or PhD program

## GNRS 781, Doctoral Seminar II: Developing a Grant Proposal, 3 Units

This doctoral seminar provides students with the opportunity to acquire knowledge, skills, and insights in the writing of a grant proposal. Discussion will focus on the value of writing grant proposals, the basic principles in writing a grant proposal, the components of a grant proposal, identification of funding sources, the difference between a research and a program grant proposal, as well as administrative factors in submitting a grant proposal. Students will craft and a grant proposal in response to a Request for Funding Proposal (RFP) that aligns with the guidelines of the funding agency, and additionally, a budget plan with justification, timelines, and a bio-sketch. In addition, students will conduct a peer review of class completed grant proposals.

## GNRS 782, Doctoral Seminar III: Writing for Publication, 3 Units

This seminar focuses on various aspects of writing for publication and directs the development of a manuscript suitable for publication from a previously written paper (e.g., a course term paper). This course will help the student get started on writing; identify writing styles for various forms of publication including abstracts, journal articles, papers, and books; and determine appropriate journals to consider for article submission. The student will acquire practice in reviewing and critiquing scholarly writing by others. It will also address the editorial and publication process, as well as ethical aspects of writing for publication.

## GNRS 783, Doctoral Seminar IV: Developing Professional Presentations, 3 Units

This seminar course identifies approaches to developing an effective and successful presentation, helping students find their voice and showcase their areas of expertise. Discussions focus on planning as essential to deciding on the content and the order in which the information is presented. Emphasis is on developing a logical sequence, one that flows naturally and is accompanied by audiovisuals that facilitate understanding of the material.

## GNRS 784, Dissertation Seminar V, 2-4 Units

This fifth dissertation seminar provides the student a forum to explore with their peers research findings, theoretical and empirical implications, and potential venues for publication of manuscripts. Format and procedures for progression in the dissertation process are also discussed. Placement of the Course: This seminar is not required if dissertation seminar requirement of 12 units has been met by GNRS 780, GNRS 781, GNRS 782, GNRS 783, and student has defended dissertation. Grading: Pass/Fail.
**Prerequisite:** GNRS 783

## GNRS 791, Doctor of Nursing Practice Intensive I, 1 Unit

This is the first of four intensive courses that give DNP students an interactive experience through out-of-classroom work, introducing them to the role of the DNP nurse in a variety of healthcare settings. Students also acquire advanced practice and academic skills necessary for selecting a population of interest and applying evidence-based practice as part of an evidence-based DNP scholarly project consistent with the DNP role within an organizational healthcare setting. Generally offered in the same semester as GNRS 716.
**Prerequisite:** Admission to the DNP program

## GNRS 792, Doctor of Nursing Practice Intensive II, 1 Unit

This is the third of four intensive courses that give DNP students an interactive experience through out-of-classroom work. This course helps students identify strategies within a multidisciplinary model that promotes evidence-based practice or quality improvement in various clinical, community, and educational settings. Students receive support and direction in collaboration with the sponsoring facility and mentor to develop a comprehensive, site-specific DNP scholarly project proposal. Generally offered in the same semester as GNRS 780.
**Prerequisite:** GNRS 791 and GNRS 793

## GNRS 793, Doctor of Nursing Practice Intensive III, 1 Unit

This is the second of four intensive courses that give DNP students an interactive experience through out-of-classroom work. This course introduces students to the role of the DNP nurse in a variety of healthcare settings. Students also acquire advanced practice and academic skills necessary for selecting a population of interest and applying evidence-based practice as part of an evidence-based DNP scholarly project consistent with the DNP role within an organizational healthcare setting. Generally offered in the same semester as GNRS 712.
**Prerequisite:** Admission to the DNP program and completion of GNRS 791

## GNRS 794, Doctor of Nursing Practice Intensive IV, 1 Unit

This is the last of four intensive courses that give DNP students an interactive experience through out-of-classroom work. As in the other intensive experiences, course content for each student reflects the interests of the student and is designed to meet that student's needs and career goals. This course allows students, with guidance from their mentors and faculty, to complete the DNP scholarly project and finalize the written and oral scholarly reports that disseminate and integrate new knowledge. Each student's final product reflects their ability to employ effective communication and collaboration skills, take a leadership role, integrate core DNP concepts and competencies that influence healthcare quality and safety, and successfully negotiate change in healthcare delivery for individuals, families, populations, or systems across a broad spectrum of health care. Generally offered in the same semester as GNRS 736.
**Prerequisite:** GNRS 791, GNRS 792, and GNRS 793

## GNRS 795, Special Topics, 1-4 Units
In this course, a subject of current interest is examined in depth. Students analyze and evaluate controversial issues to reach and express a reflective position. Students may repeat the course for credit to a maximum of six units applied toward the doctoral program; each course must address a different topic.

## GNRS 798, Continuous Doctoral Study, 0 Units
This course is for doctoral students working on dissertations or translational research projects. Students must re-enroll each semester until the dissertation or translational research project is completed, defended, submitted to the library, and approved.

## GNRS 799, Independent Study, 1-4 Units
Students enroll in this course to pursue independent study investigating subjects and interests that lie beyond regular course offerings. The student explores topics in greater depth than in other courses, and/or initiates an individual project. Readings are pursued in accordance with a study plan, which is developed in consultation with a sponsoring doctoral faculty member and approved by the doctoral department

## GSPH 504, Bioethics and Healthcare Policy, 3 Units
This course will outline the role of the healthcare leader in ensuring human rights are upheld in healthcare systems. This course focuses on bioethical analysis, decision-making and moral policy analysis, and formulation. Through course discussion, group and individual assignments, and oral and written presentations, students will analyze and apply bioethical principles to decision- and policy- making processes in the workplace and at national levels. Healthcare ethics and policy will be considered from a Christian worldview.

## GSPH 506, Spiritual Concept Analysis in Health Care, 3 Units
This course focuses on scholarly research and analysis of selected concepts in the spiritual care of people from the Judeo-Christian perspective. Students also examine healthcare research/other healthcare literature for adequacy with respect to the concept they select. Various assignments facilitate greater student awareness of their own spiritual journeys and knowledge of faith traditions other than their own. The course is conducted as a tutorial/seminar experience.

## GSPH 508C, Research and Theory in Health Care, 3 Units
This course prepares the healthcare practitioner to apply theory and research evidence in healthcare environments. The relationship between theory and research is examined as students consider questions about the nature, construction, and use of each. Selected theories are explored, and students learn how ideas are developed and used in practice and research. Students also learn the fundamentals of quantitative, qualitative, and mixed-methods research and deepen their understanding through systematic search, critique, and summary of research studies with application to health care. Students work in groups to develop a research plan addressing a healthcare-derived question. Experience in statistical analysis of research data is included.

## GSPH 510, Social Determinants of Health, 3 Units
A central focus of the public health field is understanding the etiology, occurrence, and distribution of health outcomes (morbidity and mortality). One growing area of importance within the field is examining how health and disease are influenced and maintained by social, economic, and political risk factors - called social determinants of health. This course provides a macro-level overview of concepts, research, and theoretical models of social determinants of health. Through interactive lectures, readings, and assignments, students are exposed to major areas of study linked to social determinants of health, with discussions centered on the following key questions: What social factors are the greatest challenge to health outcomes within local communities? What does it mean to use a social determinants lens when studying health outcomes among diverse multicultural populations? What are health disparities and how might they best be addressed? What behavioral lifestyle factors commonly interplay with social determinants of health?

## GSPH 512, Health, Culture, and Diversity, 3 Units
This course covers the issues of health disparities in the United States and the development of culturally competent programs. Students examine what is meant by culture, the ways in which culture and health issues intersect, and how public health efforts can benefit by understanding and working with cultural processes.

## GSPH 514, Research Proposal Writing, 2 Units
This course focuses on the application of the concepts in GSPH 508C Research and Theory in Health Care. The goal is the completion of a research proposal that details the problem, the research purpose, questions or hypotheses to be tested, a critique of the literature, the design and methods of the study including protection of human subjects, the plans for analysis, use of the study, and the budget and personnel.
**Prerequisite:** GSPH 508C

## GSPH 515, Health Care Entrepreneurship, 3 Units
The course provides an opportunity to combine the strengths of public health training with new and existing approaches to social innovation and entrepreneurship from a Christian perspective. Students have opportunities to imagine solutions and mobilize resources to advance the public good and strengthen public health service. Course material introduces entrepreneurial concepts and tools to develop skills for use in various business environments.

## GSPH 518, Population Health Management, 3 Units

This course covers important topics in the effective management of public health departments and agencies. Students develop knowledge and skills to fulfill roles in public health management as leaders, administrators, fundraisers, and internal and external communicators. Course content includes ways to be an effective coach to maximize the team's performance, the essentials of effective partnerships, how to create and sustain public health initiatives using business skills, how to run meetings, ways to manage electronic correspondence, and effective strategies to keep the public health organization running smoothly.

## GSPH 519, Global Health Systems, 3 Units

This course examines international health systems in terms of infrastructure and function. Students examine the benefits and risks of universal healthcare, third party reimbursement systems, and global availability and access to medical services.

## GSPH 520, Public Policy, the Health Care System, and Public Health Policy in the United States, 3 Units

This course is designed to provide students with an overview of public policy, health care systems and public health policy process in the United States. Students will gain an understanding of how the healthcare system works and how United States public health care policy has been developed. Review and analysis of current various proposals for healthcare reform will be conducted.

## GSPH 521, Poverty and Health Policy, 3 Units

This course examines the nature and extent of poverty, health equity, and policy primarily in the United States. It considers possible causes and consequences, and the antipoverty effects of existing and proposed policies. This course will discuss labor markets, culture, and discrimination in shaping poverty. Also, it will explore how health policies seek to ameliorate poverty and other forms of social disadvantage throughout the life course. Finally, we explore the public health implications regarding poverty, inequality, and policy.

## GSPH 522, Cultural Inclusivity in Health Care, 3 Units

In this course, students explore the topics and tools necessary for the application of cultural inclusivity processes in various healthcare settings. Curriculum includes an overview of demographic changes in the United States, cultural inclusivity, diversity related to specific groups, and the paradigm of cultural and linguistic diversity. Attention is also given to the costs, time, and skill sets associated with the process of moving a healthcare organization toward cultural inclusivity.

## GSPH 525, Epidemiology, 3 Units

This course covers the application of epidemiological procedures to the understanding of the occurrence and control of conditions such as infections and chronic diseases, mental disorders, community and environmental health hazards, unintentional injuries, and geriatric problems. Other topics include quantitative aspects of epidemiology, including data sources, measures of morbidity and mortality, evaluation of association and causality, study design, and screening for disease.
**Prerequisite:** Undergraduate statistics and biology courses.

## GSPH 526, Public Health Biology, 3 Units

Human health problems comprise a wide range of infectious, degenerative, neoplastic, and genetically based disease factors. In addition to these factors, human disease results from a wide range of environmental and socially caused pathologies. This course presents the basic scientific and biomedical concepts of modern public health problems and explores the mechanisms and models of the major categories of disease. An integrative approach using knowledge of nutrition, exercise, mind-body, and spiritual practices is explored. The biologic principles presented in this course are foundations to developing and implementing public health disease prevention, control, or management programs in the students' future.

## GSPH 527, Advanced Biostatistics and Epidemiology, 3 Units

This course focuses on the application of statistical approaches in epidemiologic research, covering data management and selection of the appropriate statistical model. Regression analysis including linear regression, logistic regression, Poisson regression, and Cox regression is reviewed. Content also covers basic concepts in survival analysis including censoring, survival function, and hazard function. Epidemiologic methods for assessing causation, including mediation analysis, propensity score matching, and instrumental variable analysis, are also covered. Students learn to apply different analytic approaches using public databases.

## GSPH 532, Infectious Disease Epidemiology, 3 Units

This course covers key methods for practicing infectious disease epidemiology, including study design, interpretation of data, and assessment of validity. Course content covers methods in infectious disease epidemiology, airborne transmission, diarrheal diseases, blood and body fluids as reservoirs of infectious disease, vector-borne/zoonotic diseases, and parasitic diseases. Students learn how to apply content and use problem-solving skills to develop effective prevention strategies.

## GSPH 535, Environmental Health, 3 Units

This course examines essential issues in environmental health, including the scientific and historical foundations, regulatory and policy issues, models and tools for assessing community environmental health, and an overview of select issues and implications of the environment on national and global health. Topics explored include select environmental pollutants in the air, water, soil, and food sources; hazardous waste, risk assessment and communication; and issues of environmental justice and vulnerable populations, nationally and globally.
**Prerequisite:** Undergraduate biology, chemistry, or ecology

## GSPH 537, Occupational Health and Safety, 3 Units

This course examines concepts and issues in occupational health and safety, identifying the significance to workers and public health. Students study social influences, historical events of worker injuries, industrial hygiene, and applicable principles of toxicology, worker quality of life, and safety in the workplace.

## GSPH 540, Global Health, 3 Units

Students in this course examine global health issues, emerging priorities, and worldwide challenges affecting population health and disease. They also address opportunities in and challenges to international health, holistically examine determinants of human health, and plan, implement, and evaluate programs and potential solutions to promote international prevention interventions and optimal human health worldwide, with a focus on global health equity.

## GSPH 543, Public Health Communication, 3 Units

This course provides an overview of the use of communication strategies to inform and influence individual and community health decisions, with a focus on how communication concepts, theories, and methods are used for public health promotion and practice. Health communication theories include models of persuasive communications/mass media effects, social marketing, interpersonal communications, risk perceptions, and diffusion of innovations. Students work in pairs to develop/evaluate a health communication intervention that addresses a current public health issue within a specific target group.

## GSPH 546, Principles and Practices of Toxicology, 3 Units

Students in this course examine the principles of toxicology, including dose-response relationships, toxicokinetics, mechanisms and methods of toxicity, select exposures to toxic substances and accompanying toxidromes, the use of antidotes, and relevance to public health.

## GSPH 550, Assessment, Program Planning, and Evaluation, 3 Units

Assessment, program planning, and evaluation bridges the gap between conceptual definitions, conceptual frameworks, and practice. Students take the lead in translating evidence-based research findings to evaluation of existing and proposed public health programs in order to assess and address population health needs. Students develop a program and evaluation plan that includes evidence-based and best practices, a logic model, and formative and summative evaluation.

## GSPH 551, Theories of Health Behavior, 3 Units

This course helps students develop a knowledge foundation of health behavior theories and skills for developing theoretically based behavior-change programs. Given that a major focus of public health promotion, education, and prevention programs is on "changing health behavior," there is an ongoing quest to understand why people do what they do to (a) improve or maintain their health, and/or (b) worsen their health. Through lectures, readings, and assignments, students critically review and apply a range of health behavior theories that target the intrapersonal, interpersonal, and community levels.

## GSPH 555, Infectious Diseases and Public Health, 3 Units

Students in this course examine the role of infectious diseases in regional, national, and global public health. Students study the historical context and surveillance of communicable diseases, as well as emerging issues in the field. Course content also includes the identification and management of infectious diseases, with students using case studies and proposing threats along with opportunities in prevention, education, and health promotion.

## GSPH 560, Strategic Leadership in Health Care, 3 Units

This course is designed to develop knowledge, skills and attitudes about leadership across the healthcare continuum. The student will consider the professional role of the healthcare administrator both from a leadership and a management perspective. Areas of concentration will include leadership theory, structure of healthcare institutions, systems thinking and decision-making, performance improvement including quality and safety issues, risk management and effective communication skills. Application of business skills will be integrated. Students will consider the theoretical and research background, current issues and trends, leadership and administrative implications of specific topics.

## GSPH 561, Public Health Across the Disaster Cycle, 3 Units

Students in this course evaluate the roles of public health in natural and human-caused disasters, from "simple" to complex humanitarian events. Using case studies, students analyze the functions of public health agencies and practitioners in the context of institutional systems and the disaster cycle (prevention/preparedness, response, recovery, and mitigation). Field trips outside of class hours may be required.

## GSPH 566, Politics and Policies in Disaster Health and Emergency Preparedness, 3 Units

Students in this course evaluate existing governmental and institutional policies related to disaster health and emergency management (DHEM) within political systems. Implementation and evaluation of policy are analyzed and applied.

## GSPH 568, Health Care Finance, 3 Units

This course is an introduction to financial concepts and skills needed for healthcare leaders, managers, and executives. Students develop skills in assessing multiple dimensions of financial performance and learn methods to improve the financial health of an organization in the context of the current patient care system.

## GSPH 571, International Health Care, 2-4 Units

This course provides students with experience in nursing care in other countries. Students prepare with coursework in the United States, then travel abroad, where they have experiences in acute and/or chronic care settings, exploring cultural, economic, systems, philosophical, and other aspects of care that influence the provision of health care in other countries. A debriefing period is provided upon return.

## GSPH 581, Disaster Health and Emergency Management Principles and Practices, 3 Units

Students in this course examine the practice of emergency management and the evolving field of disaster health. Content addresses traditional and current perspectives related to understanding disaster cycles and the relationship between disaster research and practice.

## GSPH 593, Field Practicum, 3 Units

In this integrative learning experience, students complete hours in the field applying coursework and classroom learning in a real-world setting under the guidance and supervision of faculty and community-based preceptors, preparing them for professional careers in public health.

## GSPH 594, Additional Field Practicum Experience, 1-5 Units

This field practicum elective gives students the opportunity to complete additional hours of practicum experience, allowing them to directly apply course content, public health knowledge, and skills acquired from the MPH program, under the guidance and supervision of faculty and community-based preceptors. This experience enriches classroom activity with practical understanding, and give students the chance to demonstrate an integration of coursework into a real-world setting, preparing them for a professional career in public health.
**Prerequisite:** GSPH 593

## GSPH 595, Special Topics in Public Health, 1-6 Units

In this course, a topic of current interest to students is examined in depth. Students analyze and evaluate topics/issues to reach and express a position, enhance personal development and/or to develop a particular project. If students elect this course more than once during their program, each such course must address a different topic.
**Prerequisite:** Graduate standing

## GSPH 597, Capstone, 1 Unit

This guided-study course provides a summative experience for completion of the Master in Public Health program and guides the student through the process of demonstrating an integration of theoretical, clinical, and research knowledge from course work throughout the program to the solution of a major public health problem in this culminating project. Each graduate candidate will identify a unique health problem in an actual healthcare setting to address, perform a thorough review and synthesis of current literature, select an appropriate theoretical framework, and develop a creative and innovative solution to the problem. Candidates will meet regularly throughout the semester with course faculty to prepare for and discuss their progress and will submit their work for publication or comparable external review format at the end of the semester.
**Prerequisite:** Completion of all Academic Core and Specialty courses

## GSPH 598, Thesis, 1 Unit

This course is the second part of a two-course sequence (after GSPH 514 Research Proposal Writing) that supports student development of a thesis in the Master of Public Health program. The thesis has served as an option to the master's capstone project.
**Prerequisite:** GSPH 514

## GSPH 599, Readings in Public Health, 1-3 Units

A student may elect to pursue special interests for credit at any time during the program under the supervision of a faculty member. This course is an independent study, arranged with a faculty member of the Department of Public Health.
**Prerequisite:** Graduate standing

## GSPH 613, Graduate Statistics, 3 Units

This course presents the knowledge of descriptive, correlational, and inferential statistics used in research that serves as the basis for evidence-based practice. Students develop the ability to perform descriptive and inferential data analysis techniques, use software applications to aid in statistical calculations and presentation, and interpret findings.
**Prerequisite:** Undergraduate statistics and biology courses.

## GSPH 615, Grant Writing, 3 Units

This course gives students an opportunity to identify funding needs of nonprofit organizations, research and identify potential grant sources, and learn how to write a competitive grant proposal. Students learn the components of grant proposals, and acquire technical knowledge on designing supporting documents such as project timelines, logic models, work plans, and budgets.

## MHA 560, Strategic Leadership in Health Care, 3 Units

Students in this course develop knowledge, skills, and attitudes about leadership across the healthcare continuum as they consider the professional role of the healthcare administrator from leadership and management perspectives. Areas of emphasis include leadership theory, structure of healthcare institutions, systems thinking and decision making, and performance improvement including quality and safety issues, risk management, and effective communication skills. Application of business skills is integrated, and students consider the theoretical and research background, current issues and trends, and leadership and administrative implications of specific topics.
**Prerequisite:** Admission to the M.S. in Healthcare Administration program.

## MHA 570, Quality Management, 3 Units

The course focuses on the conceptual foundation of healthcare quality, systems thinking, and the principles of healthcare quality management that include measurement, assessment, and improvement. Students use improvement models, apply tools and process techniques to communicate organizational, clinical, and safety outcomes. The integration of evidence for organizational decision-making with quality improvement processes serve as the framework for students to create a data-driven, quality management project plan. Students incorporate practical solutions to craft measurable expectations, realistic timelines, and an organized project management approach for direct application.
**Prerequisite:** PADM 512

## MHA 571, Integrative Theories of Innovation in Health Care, 3 Units

This course helps student identify and develop skills in producing lasting innovations in healthcare settings. Course material builds on past theories of change, such as those by Lewin and Kotter, and includes other theories that support and sustain organizational change. It also features content on Rogers' diffusion of innovation theory, disruptive innovation, and strategies to promote the adoption of innovation.

## MHA 574, Global Field Study in Health Care, 3 Units

This course provides a framework for graduate students to engage in field study in various countries around the world. Students participate in organizational assessment visits to healthcare organizations locally and globally to discuss the role of the administrator and how they apply and practice leadership, management, and change principles, concepts, and theories covered in the graduate curriculum. The global competency domains for healthcare leaders - leadership, communication and relationship management, professional and social responsibility, health and the healthcare environment, and business - are explored as part of the healthcare management profession.

## MHA 580, Administrative Practicum, 2 Units

This course gives students the opportunity to experience the role of the healthcare administrator. Each student chooses an individualized administration practicum in a specific area of emphasis, approved and monitored by the faculty member and preceptor. Competencies that govern the role of the healthcare administrator are explored in depth, and students focus on the context for enacting the role of an administrator in a healthcare delivery system.
**Prerequisite:** All Academic Core and Administrative courses; MHA 597 can be taken concurrently.

## MHA 586, Healthcare Analytics, Big Data, and Applied Statistics, 3 Units

This course is an introduction to healthcare data science and analysis that builds knowledge of the technical infrastructure, sources, and storage of electronic data. Statistical analysis, data mining, text analytics, and predictive analytics are explored to frame questions and inform decision making. Students utilize different information retrieval methods to answer clinical and operational questions by performing simple data analysis and visualization of healthcare data. Strategies are discussed for how to optimally use data and glean knowledge from within big data to advance healthcare organizations and demonstrate value. Students also explore Christian worldview principles demonstrating ethical data use in health informatics that respects the dignity and uniqueness of others, and the security and privacy of data.
**Prerequisite:** MHA 596

## MHA 595, Special Topics, 3 Units

In this course, a topic of current interest to students is examined in depth. Students analyze and evaluate topics/issues to reach and express a position, enhance personal development and/or to develop a particular project. If students elect this course more than once during their program, each such course must address a different topic.

## MHA 596, Foundations of Healthcare Informatics, 3 Units

This course provides an overview of basic concepts for practice in healthcare-oriented informatics. These core concepts include an introduction to clinical and translational informatics; foundational theory and practical application of clinical decision-making and computerized decision support; healthcare systems and their organization; the special issues of administration, security, and operations of electronic records in the healthcare setting; human factors issues; information science in the healthcare domain; standards, terminologies, and the uniqueness of biomedical data; and a special focus on emerging technologies.

## MHA 597, Capstone, 1 Unit

Students integrate prior learning through the formulation of a case report providing strategic direction to a healthcare organization. The completed strategic plan demonstrates integration of theoretical, clinical, and research knowledge from coursework throughout the program, and is applied to a healthcare problem in an actual healthcare setting: Students perform a SWOT analysis, a review and synthesis of current literature, select an appropriate theoretical framework, determine solutions to the problem, and develop an implementation plan. Students also create an electronic professional portfolio to highlight competencies gained throughout the program. Course success is dependent upon the candidate's ability to clearly identify a healthcare problem and develop an evidence-based solution. Participation in writing assignments is required for successful completion of this course. The responsibility for deep exploration of the chosen scenario and preparation for writing the case report rests with each candidate.
**Prerequisite:** All Academic Core and Administrative courses must be completed; MHA 580 may be taken concurrently.

## MHA 599, Readings in Healthcare Administration, 1-3 Units

A student may elect to pursue special interests for credit at any time during the program under the supervision of a faculty member. University policy states that the student must earn a grade in an independent study course in order to receive credit toward graduation.

## RNRS 221, Health Assessment, 3 Units

This course provides the nursing student with skills in physical and psychosocial assessment of adult clients. History-taking and physical examination techniques presented in the course help the student develop strong assessment skills upon which further knowledge and practice can be built.

## RNRS 272, Professional Concepts in Nursing, 4 Units

This course is designed to provide an introduction to theories, concepts and roles that help define the profession of nursing. Utilization of the nursing process to provide safe care is analyzed. Concepts of informatics, group dynamics, conflict/management, and techniques to analyze and solve problems are examined. Evidence based nursing practice is introduced through instruction in Library/data base searches.

## RNRS 298, Communication and Teamwork in Patient and Family Centered Care, 3 Units

This elective course is designed to simulate and enhance clinical experiences for the inexperienced graduate licensed RN entering the RN to BSN Accelerated Degree Program. Thirty-six hours of clinical experience will be completed in a healthcare setting with a preceptor. Concepts related to communication and teamwork are emphasized.
**Prerequisite:** Admission requirements for admission into the RN-BSN program apply

## RNRS 299, Transition to Professional Practice, 3 Units

This is a bridge course designed to be taken by inexperienced licensed RNs who are admitted to the RN to BSN program. Completion of the course provides the new RN experience with effective decision making skills related to clinical judgment and performance in the clinical setting as well as ways to incorporate evidence based interventions in the practice setting. This course includes a clinical/simulation component with participation in an online post conference discussion board.
**Prerequisite:** RNRS 298

## RNRS 307, Theoretical Frameworks in Nursing, 3 Units

The focus of this course is exploration and integration of theoretical models in stress, development and health care adaptation as applied to nursing practice. Through writing and experiential activities the students will express a knowledge of family assessment and analysis of the family unit utilizing a variety of theoretical models.

## RNRS 321, Health Assessment, 5 Units

This course develops the nursing student's history taking and assessment skills across the life span. Analysis of health data and identification of risks, including genetics and genomics in specific groups, are emphasized. Culturally sensitive interventions and evidence-based practice are discussed to reduce risk and promote health.

## RNRS 327, Nursing Research and Statistics, 4 Units

This course introduces the steps in the nursing research process, with emphasis on principles and methods. Basic statistical concepts and methods of collecting, summarizing, presenting, and interpreting data for professional nurses are addressed. Current issues impacting nursing research are analyzed. Ethical considerations and rights of human subjects are explored.
**Prerequisite:** The RN-BSN program is designed with a specific course sequence determined by the School of Nursing. A progression schedule is reviewed by the student and advisor after program acceptance. Courses must be taken in the assigned sequence.

## RNRS 358, Writing 3: Evidence-Based Practice in Nursing and Healthcare, 3 Units

The focus of this course is to integrate evidence-based clinical practice into the current healthcare systems. The student will review and evaluate the clinical and research literature for application to practice. The process of an integrative literature review and the development of writing skills specific to the discipline of nursing will be conducted. Select research designs frequently used in practice settings will be explored. Quality improvement strategies, methods and issues will be discussed and applied to practice. Meets the General Studies Writing Three requirement. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*
**Prerequisite:** Writing 2, Current enrollment in the RN to BSN Program is required

## RNRS 368, Pathophysiology, 5 Units

This course presents an introduction to alterations in health status across the life span and their applications to nursing practice. Major pathophysiologic concepts are explored using a body systems approach. Theories relating to etiology, pathogenesis, and clinical manifestations are used to study selected disease processes. Mechanisms causing alterations in cellular function and environment, maintenance of cellular tissue oxygenation, fluid and electrolyte balance, genetics processes, and neuroendocrine control of the body are included. Concepts from anatomy and physiology courses are considered prerequisite and provide the foundation for exploring human dysfunction.

## RNRS 396, Professional Practice: Ethics, Issues, and Spirituality in Health Care, 6 Units

This course focuses on the examination and application of the religious, theological, philosophical, and cultural foundations of ethics in professional nursing practice. Participants develop knowledge and skills in ethical decision making that are theoretically sound, evidence based, holistic, and applicable to current healthcare issues. The course also addresses the expanding roles and responsibilities of professional nurses in meeting the healthcare needs of a dynamic society, with attention to the spiritual formation of nurses. *Meets the General Education Requirement: UP Bible Requirement.*
**Prerequisite:** The RN-BSN program is designed with a specific course sequence determined by the School of Nursing. A progression schedule is reviewed by the student and advisor after program acceptance. Courses must be taken in the assigned sequence.

## RNRS 412, Spiritual Formation and the Profession of Nursing, 3 Units

This course guides students as they examine and articulated the Christian worldview, which can be applied personally and to the broader issues of society. This knowledge allows the students to develop and implement an integrated approach to nursing and the common good, and formulate responses to the worldview aspect of current professional and social issues.

## RNRS 448, Leadership in Health Care Settings, 6 Units

This course presents concepts of organizational and systems leadership and management. Today's health care systems related to patient safety are addressed. The content examines inter-professional teamwork and collaboration, shared decision making, and major nursing roles. The quality improvement process is investigated as to its ability to continuously improve the quality & safety of the health care system. The relationship between the health care system's effectiveness and individual performance in securing patient safety and quality outcomes are identified. Integration of EBP with clinical practice and the role of Informatics to communicate, manage knowledge, mitigate error, and support decision making are developed. Health care policy, finance, and regulatory agency/environments are examined. Ninety hours of practicum are required to establish competency in this course.
**Prerequisite:** Enrollment in the RN to BSN Program

## RNRS 449, Theory and Practice in Community Health Settings, 6 Units

This course has two areas of focus within the community setting: the study of principles and practices involved in community health nursing and the development of skills for teaching a group of clients. The emphasis is on the role of the nurse in assessing, planning, implementing, and evaluating care of clients in a variety of community-based settings. Collaborating with community-based organizations and services that provide health restoration, maintenance, illness prevention, and client education services to individuals, families, and aggregates are essential components of this course. A review of legal mandates and regulations, as well as discussion of ethical dilemmas and issues related to community-based care in included. A multiple theoretical focus that includes concepts from systems, stress, adaptation, development, and role theory is emphasized.

## RNRS 458, Writing 3: Evidence-Based Practice, Theory, and Clinical Pathways, 5 Units

The focus of this course is exploration and integration of the evidence-based practice (EBP) process, including EBP implementation and critique of clinical pathways within individual organizations, and the role of informatics in health care and its importance in evidence-based practice. Theoretical nursing and nonnursing models are reviewed, with a focus on examining how theoretical principles are reflected in professional practice. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*

## RNRS 469, Improving Patient Outcomes: Quality, Safety, and Risk Management, 5 Units

The focus of this course is the implementation of quality and safety mechanisms into clinical practice to improve patient outcomes. Utilizing national standards for quality and safety in health care, students examine initiatives necessary to improve patient outcomes. Concepts of informatics, patient-centered care, leadership, inter- and intraprofessional teamwork, collaboration, and communication are addressed.

## RNRS 479, Population Health and Public Health Nursing, 4 Units

This course focuses on population-based public health nursing practice. The assessment of systematic differences in outcomes across populations, including the complexity of interactions among health determinants (such as social environment, resource allocation, and biological pathways), provides the foundation for public health nursing practice. Exploration of how these determinants exert their influence over time and throughout the life cycle, with variations in their patterns of occurrence (including health inequities and inequalities), is central to the course. The role of the public health nurse in assessing and understanding health systems and the health status of a population is emphasized.
**Corequisite:** RNRS 482P

## RNRS 480, Community Health and Care Transitions, 4 Units

This course builds on the concepts of population health and public health nursing and describes the interaction of the nurse and the client in the home and in the community. Given an assessment of a community's priority health needs, students use course content to identify change-agent functions to promote and preserve health and to prevent disease and disability. All levels of prevention for the individual, family, and community system are addressed as community health nursing interventions. Course topics include the role of community health nursing in supporting care transitions across varied clinical and community settings, legal and regulatory considerations, and ethical issues related to community health.
**Prerequisite:** RNRS 479;
**Corequisite:** RNRS 482P

## RNRS 482P, Clinical Practicum, 2 Units

This course is the clinical component to RNRS 479 Population Health and Public Health Nursing and RNRS 480 Community Health and Care Transitions. The focus of this course is on students implementing the systematic assessment of a community health population and creating an intervention that supports health promotion and disease prevention. Students develop a strategy for change, guided by epidemiological evidence and an understanding of the complex determinants of health, for implementation in collaboration with community resources and other health professionals.
*Meets the General Education Requirement: Integrative and Applied Learning.*
**Corequisites:** RNRS 479 and RNRS 480

## RNRS 495, Special Topics in Nursing, 1-4 Units

In this course, a topic of current interest to students is examined in depth. Students analyze and evaluate topics/issues to reach and express a position, enhance personal development and/or to develop a particular project. This course may be repeated for credit as the topic varies.

## RNRS 497, Ethics and Issues in Health Care, 4 Units

This course focuses on the integration of Christian faith, ethical issues, and professional concerns, which confront nurses in their work life. It also includes consideration of issues and trends in health care and nursing. Integration of such concerns as providers of health care, education of the health care professional, and consumerism with ethical concerns are investigated. This course also contains a comprehensive paper written on a bioethical issue, which meets the senior writing requirement. Each week there is a discussion period around ethical concerns, which correlates to the material presented in class.

## RNRS 499, Readings, 1-4 Units

This is a program of study concentrating on assigned readings, discussions, and writing arranged between and designed by a student of upper-division standing and a full-time professor. An independent study fee is assessed for each enrollment in this class.

## UNRS 105, Foundations in Professional Nursing/Aging, 6 Units

Lecture 3 units; Clinical practicum 3 units (135 hours/semester) This course focuses on the nursing process and introductory concepts crucial to professional nursing care, including interviewing, wellness, health promotion, and illness prevention. The clinical practicum includes application of concepts and acquisition of nursing knowledge and skills needed to provide healthcare to the healthy aging and hospitalized adult and aging client utilizing the nursing process to plan care based on human needs, problems of immobility, and pain.
Special Fee Applies
**Prerequisite:** Acceptance into the Nursing Program.
**Corequisite:** UNRS 105P (Practicum)

## UNRS 105P, Foundations in Professional Nursing - Practicum, 0 Units

UNRS 105 Clinical Practicum
**Corequisite:** UNRS 105; Acceptance into the nursing program

## UNRS 106, Foundations of Professional Nursing/Aging, 6 Units

This course focuses on the nursing process and introductory concepts crucial to professional nursing care, including interviewing, wellness, health promotion, and illness prevention. The clinical practicum includes application of concepts and acquisition of nursing knowledge and skills needed to provide health care to the healthy aging and hospitalized adults and aging, utilizing the nursing process to plan care based on human needs, problems of immobility, and pain.
**Corequisite:** UNRS 106P

## UNRS 106P, Foundations of Professional Nursing/Aging Practicum, 0 Units

UNRS 106 Clinical Practicum
**Corequisite:** UNRS 106

## UNRS 107, Foundations of Professional Nursing, 4 Units

This course focuses on the nursing process and introductory concepts crucial to professional nursing care, including interviewing, wellness, health promotion, and illness prevention. The clinical practicum includes application of concepts and acquisition of nursing knowledge and skills utilizing the nursing process to plan and provide care based on human needs, problems of immobility, and pain.
**Corequisite:** UNRS 107P

## UNRS 107P, Foundations of Professional Nursing Practicum, 0 Units

This is the Practicum component of the Foundations of Professional Nursing course.
**Corequisite:** UNRS 107

## UNRS 108, Fundamentals in Nursing Practice, 2 Units

This is an experiential learning course designed to teach basic nursing skills in a clinical skills or simulation laboratory setting to prepare students to deliver safe and patient-focused nursing care. Utilizing the nursing process, students perform basic skills in assessment, patient care across the admission-discharge continuum, documentation, patient-family teaching, and infection control.

## UNRS 113, Pharmacology, 2 Units

Lecture, 2 units This course is designed for students who have completed organic chemistry, inorganic chemistry, and biochemistry. The content focuses on principles of pharmacology and specifics of the major drug classifications.
**Prerequisite:** Acceptance into the nursing program

## UNRS 120, Fundamentals of Human Nutrition, 3 Units

This lecture course focuses on principles of human nutrition, including nutrient functions, metabolism, and changing needs across the life span. Students also explore nutrient deficiency and toxicity signs and symptoms, along with implications of a poor diet on the development of chronic disease. Various nutrient analysis methods are used.

## UNRS 212, Nursing Care of Adults and the Aging, 6 Units

This course involves application of biological, psychosocial, and spiritual concepts to adult and aging clients experiencing the stress of an acute or chronic alteration in physical health within the medical surgical setting. The nursing process is utilized to provide care to one or two clients within the healthcare delivery system of an acute hospital, skilled nursing facility, or transitional care unit, and extending to the community. Lecture: 3 units; clinical practicum: 3 units (135 hours/semester).
Special Fee Applies
Acceptance into the nursing program; corequisite: UNRS 212P.

## UNRS 212P, Nursing Care Of Adults/Aging Practicum, 0 Units

UNRS 212 Clinical Practicum
**Corequisite:** UNRS 212

## UNRS 220, Health Assessment, 3 Units

Lecture, 2 units; Laboratory, 1 unit (45 hours): This course provides the nursing student with skills in physical, spiritual, and psychosocial assessment of adult clients. History-taking and physical-examination techniques presented in the course help the student develop strong assessment skills upon which further knowledge and practice can be built. Basic concepts related to assessment of geriatric, pediatric, and childbearing patients are included. RNs take this course in the summer.
Special Fee Applies
**Corequisite:** UNRS 220L; Must be accepted into the Nursing Program.

## UNRS 240, Medical Spanish, 2 Units

This medical Spanish class is designed especially for nursing. Practical Spanish communication in real-life medical situations for beginners is emphasized. Pronunciation, intonation, and structure of Spanish within a framework designed to develop basic listening, speaking, reading and writing skills will be taught. Special cultural presentations supplement language study.

## UNRS 260, Nutrition, 2 Units

Students in this lecture course explore the foundations of nutrition in the prevention of chronic disease. Course material covers the pathophysiology of various disease states and appropriate medical nutrition therapy, as well as nursing's role in nutrition assessment with respect to patient weight change, intake adequacy, gastrointestinal symptoms affecting nutrient absorption, and activities of daily living. Students perform dietary recalls, nutrient analyses, and anthropometric assessments, and learn about evidence-based nutrition care for gastrointestinal diseases, cardiovascular diseases, diabetes, metabolic syndrome, energy balance and weight control, bone disease, and renal disease. Through case studies, students learn about alternate feeding methods and issues surrounding drug/nutrient interactions. Students also have opportunities to educate the community through presentations on the prevention of disease through nutrition.
**Prerequisite:** CHEM 123 or PRCH 123 or department approval if a non-nursing major

## UNRS 270, Professional Concepts in Nursing, 3 Units

This course provides an introduction to the theories and concepts of professional nursing. The nursing process is presented and utilized as the basis for planning quality and safe patient care in various healthcare settings. Current issues and trends in nursing are discussed, the role of nursing in the health care delivery system, and concepts of evidence-based practice, informatics, group dynamics, conflict/management, and techniques to analyze and solve problems are examined.
**Prerequisite:** Acceptance into the nursing program

## UNRS 271, Theories and Concepts in Professional Nursing, 2 Units

This course provides an introduction to the theories and concepts of professional nursing. The nursing process is presented and utilized as the basis for planning care as applied to patients. The content also includes discussion of current issues and trends in nursing and compilation of a professional portfolio.
**Prerequisite:** Acceptance into the nursing program

## UNRS 280, Life Cycle Nutrition, 3 Units

This lecture course examines nutrient needs of individuals throughout various life stages: preconception, pregnancy, lactation, infancy, preschool years, middle childhood, pre-adolescence, adolescence, adulthood, and late adulthood. Students learn the changing nutrient requirements through the life cycle and apply this knowledge through special topic presentations and in the development of teaching tools that can be used for public education audiences. This is a service-learning course.
**Prerequisite:** BIOL 101, CHEM 123, PSYC 290, and UNRS 120

## UNRS 281, Introduction to Global Health Care, 1 Unit

This course uses a seminar or online format to introduce students to major aspects of the global healthcare experience, such as developing an understanding of the expectations and responsibilities related to international travel, an appreciation of other cultures, their integration into another culture, their in-country experience, and their re-entry into their home country.

## UNRS 282, Transcultural Health Care: Country Specific, 2-4 Units

Students in this course participate in a short-term study-away nursing experience in order to begin understanding theoretically based transcultural healthcare practices. A seminar format is utilized to stimulate discussion regarding health-related issues specific to the geographical area of study and to assist students in the formulation of personal perspectives and individual cultural values that promote high-quality professional nursing practice worldwide. Students participate as members of a healthcare team in a variety of nursing-specific learning opportunities. Lecture, 1 unit; clinical practicum, 1-3 units (45-135 hours/semester).
Special Fee Applies

## UNRS 282P, Transcultural Health Care: Country Specific- Practicum, 0 Units

UNRS 282 Clinical Practicum
**Prerequisite:** UNRS 105, UNRS 113, UNRS 220; Corequisite UNRS 282
UNRS 105, UNRS 113, UNRS 220; Corequisite UNRS 282

## UNRS 299, Statistics and Data Management for Nursing and Health Care, 3 Units

This course covers basic statistical concepts and methods of collecting, summarizing, presenting, and interpreting data for professional nurses and students pursuing healthcare professions. Among the topics covered are graphing, measures of central tendency and variability, the normal curve, hypothesis testing, correlation and regression, and topics in probability that can be applied in real-world situations. *Meets the General Education Requirement: Quantitative Literacy (Math).*
**Prerequisite:** MATH 95 or an appropriate score on the APU mathematics proficiency exam or SAT Math score of 540 or ACT Math score of 23. Admission to the School of Nursing, or Pre-Admitted Nursing status and admission to the Honors College.

## UNRS 300, Complementary and Alternative Therapies: Herbs, Supplements, and Nutrition, 3 Units

This course provides an introduction to therapies currently used as complements to Western medicine. Emphasis is on naturopathic medicine and biologically based therapies such as foods, special diets, herbal remedies, and dietary supplements. The course reviews potential risks and interactions between conventional and complementary and alternative therapies. The course examines agencies devoted to informing and protecting consumers and health care practitioners.
**Prerequisite:** BIOL 101 or BIOL 151, and CHEM 123. Instructor permission required if non-nursing major.

## UNRS 306, Writing 2: Theoretical Frameworks in Nursing, 3 Units

Students in this course learn to utilize a variety of genres of scientific writing while exploring, integrating, and applying theoretical models of stress, development, and health care adaptation to nursing practice. Students examine writing samples from various methodological perspectives and practice a variety of writing styles and forms of argument considered persuasive in the sciences. They also develop basic proficiency in the use of APA style. *Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*
**Prerequisite:** C- or better in PRWR 110; acceptance into the nursing program.

## UNRS 310, Mental Health Nursing, 4 Units

Lecture 2 units, Clinical practicum 2 units (90 hours); This theoretical and clinical course focuses on the dynamics of psychosocial stress within the interpersonal and intrapersonal systems of patients with acute and chronic psychiatric disorders. Short-term evaluation and treatment experiences are offered utilizing milieu, individual, group, and family therapy.
Special Fee Applies
**Corequisite:** UNRS 310P; Must be accepted into the Nursing Program

### UNRS 310P, Mental Health Nursing Practicum, 0 Units
UNRS 310 Clinical Practicum
**Prerequisite:** Co-Requisite: UNRS 310

### UNRS 312, Nursing Management of Adults, 3 Units
Lecture, 1 unit; Clinical practicum, 2 units (90 hours/semester): This course continues the application of biological, psychosocial, and spiritual concepts to adult and aging clients experiencing the stress of an acute or chronic alteration in physical health within the medical surgical setting. Emphasis is on the application of concepts of pathophysiology and pharmacology to the nursing management of acute and chronically ill patients in the medical-surgical setting.
Special Fee Applies
**Corequisites:** UNRS 312P, UNRS 313 and UNRS 313P; Must be accepted into the Nursing Program.

### UNRS 312P, Nursing Management of Adults Practicum, 0 Units
UNRS 312 Clinical Practicum
**Corequisites:** UNRS 312, UNRS 313 and UNRS 313P

### UNRS 313, Restorative Nursing, 4 Units
Lecture 2 units; Clinical practicum 2 units (90 hours/semester); This course focuses on the care of an adult or geriatric client with a chronic health problem. The mental health and spiritual concepts are emphasized. Students are assigned to a rehabilitation or restorative setting.
Special Fee Applies
**Corequisites:** UNRS 312, UNRS 312P and UNRS 313P; Must be accepted into the Nursing Program

### UNRS 313P, Restorative Nursing Practicum, 0 Units
UNRS 313 Clinical Practicum
**Corequisites:** UNRS 312, UNRS 312P and UNRS 313

### UNRS 314, Nursing Management and Restorative Care of Adults, 6 Units
This course builds on prior knowledge of biological, psychosocial, and spiritual concepts to help adult and aging clients experiencing the stress of an acute or chronic alteration in physical health. Emphasis is on the application of concepts of pathophysiology and pharmacology to the nursing management of acute and chronically ill patients in medical-surgical and rehabilitative or restorative settings.
**Corequisite:** UNRS 314P

### UNRS 314P, Nursing Management and Restorative Care of Adults Practicum, 0 Units
UNRS 314 Clinical Practicum
**Corequisite:** UNRS 314

### UNRS 320, Cultural Aspects of Food and Nutrition, 3 Units
Students in this course examine the foodways of people around the world, exploring the health benefits and practices of various cultures, along with how the industrialization of food influences nutrition content and pricing of food. Course material also covers the effects of famine on life expectancy and how one's environment or living situation limits access to food. A food lab is included, giving students an opportunity to prepare, taste, and realize a country's particular etiquette practices when dining. Course requires field trips. This is a service-learning course.
**Prerequisite:** UNRS 120, SOC 358, GLBL 201; GLBL 260 or COMM 260

### UNRS 367, Pathophysiology, 3 Units
Lecture, 3 hours: This course presents an introduction to human pathophysiology. Mechanisms causing alterations in cellular activity, maintenance of cellular tissue oxygenation, fluid and electrolyte balance, and neuroendocrine control of the body are included. Common pathophysiologic disorders are emphasized.
**Prerequisite:** Acceptance into the nursing program

### UNRS 382, Community Health Nursing, 3 Units
This course focuses on the study of principles and practices involved in community health nursing, with emphasis on the role of the nurse in assessing, planning, implementing, and evaluating care of clients in a variety of community-based settings. Collaboration with community-based organizations and services that provide health promotion, disease prevention, maintenance during chronic illness, and client education services to individuals, families, and aggregates is an essential component of this course. A review of legal mandates and regulations specific to community-based care, analysis of the healthcare needs within a community, and exploration of issues such as liberty, equality, terrorism, crisis, and disasters are included. Lecture, 1 unit (1 hour/week); clinical practicum, 2 units (90 hours/semester). *Meets the General Education Requirement: Civic Knowledge and Engagement.*
Special Fee Applies
**Prerequisite:** Acceptance into the Nursing Program;
**Corequisite:** UNRS 382P

### UNRS 382P, Community Health Nursing Practicum, 0 Units
UNRS 382 Clinical Practicum
**Corequisite:** UNRS 382

## UNRS 383, International Health Nursing, 3-5 Units

This course focuses on clinical observation of and participation in international healthcare settings, using a cross-cultural educational experience to give students a global perspective of healthcare issues. Students develop intercultural competence as they engage with people from diverse cultures with compassion and respect, and foster a commitment to global service, scholarship, and boundary-crossing community. Lecture, 1 unit; clinical practicum, 2-4 units. *Meets the General Education Requirement: Intercultural Competence.*
Special Fee Applies
Acceptance into the nursing program; corequisite: UNRS 383P.

## UNRS 383P, International Health Nursing Practicum, 0 Units

Lecture 1 Unit - Clinical Practicum 2-4 units: This course focuses on clinical observation and participation in international health care settings. The purpose is to broaden the student's worldview through a cross-cultural educational experience and to provide a global perspective of healthcare issues. In addition, it will provide opportunities to develop intercultural competence and foster a commitment to global service, scholarship, and boundary-crossing community.
**Prerequisite:** Acceptance into the nursing program

## UNRS 384, Urban/Rural Health Nursing, 3-5 Units

This course focuses on clinical observation of and participation in urban/rural healthcare settings, using a cross-cultural educational experience to give students a broader perspective of healthcare issues. Students develop intercultural competence as they engage with people from diverse cultures with compassion and respect, and foster a commitment to service, scholarship, and boundary-crossing community in vulnerable urban/rural populations. Lecture, 1 unit; clinical practicum, 2-4 units. *Meets the General Education Requirement: Intercultural Competence.*
Acceptance into the nursing program; corequisite: UNRS 384P.

## UNRS 384P, Urban Health Nursing Practicum, 0 Units

Lecture 1 Unit - Clinical Practicum 2-4 units: This course focuses on clinical observation and participation in urban health care settings. The purpose is to broaden the student's worldview through a cross-cultural educational experience and to provide a global perspective of healthcare issues. In addition, it will provide opportunities to develop intercultural competence and will foster a commitment to service, scholarship, and boundary-crossing community in vulnerable urban populations.
**Prerequisite:** Acceptance into the nursing program

## UNRS 386, Population and Community Health Nursing, 6 Units

This course focuses on population-based public health and community health nursing practice. The purpose is to broaden the student's worldview through a cross-cultural educational experience and gain a more global perspective of complex health care issues through civic engagement and collaboration with various clinical settings, community-based and global health care organizations that provide health promotion, disease prevention, maintenance, and support care transitions during chronic illness. All levels of prevention for the individual, family, and community systems are addressed through population-based public health and community health nursing assessment, evaluation, and interventions including client education services to individuals, families and aggregates from diverse cultures. *Meets the General Education Requirement: Intercultural Competence, Civic Knowledge and Engagement.*
Special Fee Applies
**Corequisites:** UNRS 386P

## UNRS 386P, Population and Community Health Nursing Practicum, 0 Units

This course focuses on population-based public health and community health nursing practice. The purpose is to broaden the student's worldview through a cross-cultural educational experience and gain a more global perspective of complex health care issues through civic engagement and collaboration with various clinical settings, community-based and global health care organizations that provide health promotion, disease prevention, maintenance, and support care transitions during chronic illness. All levels of prevention for the individual, family, and community systems are addressed through population-based public health and community health nursing assessment, evaluation, and interventions including client education services to individuals, families and aggregates from diverse cultures.
**Corequisites:** UNRS 386

## UNRS 402, Nursing Care in Maternal, Newborn, and Women's Health, 4 Units

Lecture, 2 units; Clinical practicum, 2 units (90 hours/semester): This course focuses on the theoretical and clinical concepts of the childbearing patient, her infant, and her family. The students study both normal and complicated obstetrics. Birth preparation, prenatal care, intrapartal, normal neonatal, and postpartum care with concurrent clinical experiences are introduced.
Special Fee Applies
**Corequisite:** UNRS 402P; Must be accepted into the Nursing Program.

## UNRS 402P, Nursing Care in Maternal, Newborn, and Women's Health Practicum, 0 Units

## UNRS 403, Leadership and Management in Professional Practice, 2 Units

Theory, 2 hours. This course emphasizes leadership and management theory in a number of applications and health care settings. It assists the upcoming graduate in adjusting to various organizations encountered by professional nurses serving in a variety of roles. Core concepts relevant to the health care settings are presented with an emphasis on critical thinking, character development and leadership competencies, quality outcomes, and safety goal achievement for optimal patient care.
**Prerequisite:** Acceptance into the Nursing Program. Note: Per the progression schedule for the Traditional BSN program students, UNRS403 is taken in the same semester as UNRS404/404P and UNRS402/402P.

## UNRS 404, Nursing Care of Children and Young Adults, 4 Units

Lecture, 2 units; Clinical practicum, 2 units (90 hours/semester): This theoretical and clinical course focuses on the care of children from birth through adolescence. The effects of acute and chronic illness on growth and development are studied in the acute and community health care setting. Education of the child and family on health promotion, disease prevention, and safety issues are addressed. Ethical issues are discussed regarding the relationship of the child and family, including issues such as child abuse, informed consent, and the impact of diverse cultural and spiritual beliefs on health care decisions in the family.
Special Fee Applies
**Corequisites:** UNRS404P; Must be accepted into the Nursing Program. Note: Per the progression schedule for the Traditional BSN program students, UNRS403 is taken in the same semester as UNRS404/404P and UNRS402/402P.

## UNRS 404P, Nursing Care of Children and Young Adults Practicum, 0 Units

## UNRS 411, Advanced Nursing Care of Adults and the Aging, 5 Units

This course involves the application of pathophysiological, psychosocial, and spiritual concepts to adult and geriatric clients experiencing the stress of illness in acute settings. The area of focus is caring for critically ill clients and their families with complex health needs in a critical-care setting. Legal and ethical issues related to acute care are included. Lecture, 2 units; clinical practicum, 3 units (135 hours/semester).
Special Fee Applies
**Corequisite:** UNRS 411P

## UNRS 411P, Advanced Nursing Care of Adults & Aging - Practicum, 0 Units

## UNRS 412, Clinical Residency Nursing, 2 Units

This clinical residency is an experiential component designed as a collaborative partnership between the School of Nursing and selected healthcare settings. This residency is planned to ease the role transition from a student nurse to a beginning professional nurse. In addition, it enhances the skill and practice knowledge of the student in preparation for the NCLEX-RN examination. Clinical practicum, 90 hours/semester. *Meets the General Education Requirement: Integrative and Applied Learning.*
**Corequisites:** UNRS 411 and UNRS 411P

## UNRS 414, Advanced Nursing Care of Adults, 6 Units

This course involves the application of pathophysiological, psychosocial and spiritual concepts to adult and geriatric clients experiencing the stress of acute illness. The primary focus is on caring for and managing care of critically ill clients and their families with complex health needs in a critical care setting. Throughout the semester, students prepare for transition to practice as they become more independent and proficient in communicating with and leading the healthcare team. *Meets the General Education Requirement: Integrative and Applied Learning.*
**Corequisite:** UNRS 414P

## UNRS 414P, Advanced Nursing Care of Adults Clinical Practicum, 0 Units

This course is the Clinical Practicum component of the Advanced Nursing Care of Adults course.
**Corequisite:** UNRS 414

## UNRS 425, Nursing Research, 3 Units

Lecture, 3 units: This course introduces the steps in the research process. Emphasis is placed on the principles and methods of the research process, including how this process contributes to the development of nursing knowledge and the improvement of nursing practice. This historical evolution of nursing research is examined and current issues impacting nursing research are analyzed. Ethical considerations and rights of human subjects are explored. Students have the opportunity to evaluate selected nursing studies throughout the semester in small groups with faculty input and guidance.
**Prerequisite:** UNRS 299; Must be accepted into the Nursing Program.

## UNRS 436, Fundamentals of Case Management, 3 Units

Theory, 2 units; Practicum, 1 unit: This is an introductory course for senior-level students covering the principles of case management, roles and responsibilities of the case manager, case management tools, plans and methods, issues (including legal ones), and how case management improves patient and hospital outcomes. It is designed to give an overview of what case management is and how a nurse can utilize these tools and skills to advance clinical practices. It is an elective course.
Special Fee Applies
**Prerequisite:** Acceptance into the Nursing Program.
**Corequisite:** UNRS 436P (Practicum)

## UNRS 436P, Fund of Case Mgmt Practicum, 0 Units

## UNRS 444, Clinical Specialization Elective, 1-2 Units

This is a clinical specialty course involving a collaborative partnership with selected community healthcare organizations, an intensive preceptored experience that eases the role transition from student nurse to beginning professional nurse in a specialized setting. This course also enhances the skill and practice knowledge of students in preparation for the RN licensing examination.
**Prerequisite:** One of the following: UNRS 310 (for mental health nursing), UNRS 382 (for community health), UNRS 402 (for obstetrics), or UNRS 404 (for pediatrics). If taken for two units, instructor consent is required.
**Corequisite:** UNRS 411

## UNRS 445, Applied Pharmacology, 2 Units

This course enhances students' ability to apply knowledge acquired in the basic pharmacology course by helping them utilize critical thinking skills at a more advanced level. Emphasis is on the application of pharmacokinetics, pharmacodynamics, and pharmacotherapeutics of major drug categories used to manage common patient disorders across the life span in clinical nursing practice.
**Prerequisite:** Acceptance into the nursing program

## UNRS 495, Special Topics in Nursing, 1-4 Units

In this course, a topic of current interest to students is examined in depth. Students analyze and evaluate topics/issues to reach and express a position, enhance personal development, and/or to develop a particular project. May be repeated for credit as the topic varies.
**Prerequisite:** Acceptance into the nursing program

## UNRS 496, Writing 3: Ethics and Issues in Health Care, 4 Units

This course focuses on the integration of Christian faith, ethical concerns, and issues and trends in health care that nurses encounter in their work life. Students develop their abilities as independent thinkers in order to construct bodies of knowledge, and communicate what they are learning through reading, dialogue, debate, peer critique, presentations, and the development and refinement of written pieces. The capstone project for this course is a comprehensive research paper and formal presentation demonstrating scholarship and readiness to contribute to the nursing profession. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*
Special Fee Applies
**Prerequisite:** Senior standing in the School of Nursing; UNRS 306

## UNRS 497, Readings, 1-4 Units

This is a program of study concentrating on assigned readings, discussions, and writing arranged between and designed by a student of upper-division standing and a full-time professor. An independent study fee is assessed for each enrollment in this class.

## UNRS 498, Directed Research, 1-4 Units

This course provides instruction in research design and technique, and gives students experience in the research process. The 1-unit expectation encompasses no fewer than 30 hours of work with accompanying reading, log, writing, and seminar presentation within the department or in a university research symposium. No more than 1 unit may be used to fulfill preparatory readings requirement. An independent study fee is assessed for each enrollment in this class.
**Prerequisite:** Junior or Senior Standing

## UNRS 499, Thesis/Project, 1-4 Units

This is a senior-level "capstone" type of independent study/research experience, involving the student in a unique project with a sophisticated level of research, synthesis, analysis, and communication. The 1-unit expectation encompasses no fewer than 30 hours of work with accompanying readings, log, instructor discussions, and writing of summary analysis and conclusions. The thesis or project may result in formal thesis, published article, or electronic media. No more than 1 unit may be used to fulfill preparatory readings requirement. An independent study fee is assessed for each enrollment in this class.
**Prerequisite:** Upper-division writing intensive course or instructor consent; and junior or senior standing

# Baccalaureate Nursing Programs

The School of Nursing baccalaureate programs are accredited by the Commission on Collegiate Nursing Education (https://www.aacnnursing.org/CCNE/) and approved by the California Board of Registered Nursing (https://www.rn.ca.gov/). The prelicensure programs enable students to apply to take the California Board of Registered Nursing examination for RN licensure, and graduates are eligible to apply for a California Public Health Nurse

(PHN) certificate. The School of Nursing also offers options for the registered nurse (RN) and the licensed vocational nurse (LVN) leading to a Bachelor of Science in Nursing.

**General Education Note:** Nursing majors are not required to take health education as part of their General Education requirements (p. 911). (p. 919)

## Program Options

The School of Nursing offers:

1. Traditional Bachelor of Science in Nursing (BSN) (p. 642)
2. Bachelor of Science in Nursing (BSN) Upper-Division Transfer Program (p. 648)
3. Licensed Vocational Nurse (LVN) to Bachelor of Science in Nursing (BSN) (p. 648)
4. Licensed Vocational Nurse (LVN) to Registered Nurse (RN) (p. 648)
5. Registered Nurse (RN) to Bachelor of Science in Nursing (BSN) Degree Completion Program (p. 651)

NOTE: Students are encouraged to consult with their advisor if they have questions regarding coursework needed to meet graduation requirements.

## Baccalaureate Nursing Programs at a Glance

| Traditional Bachelor of Science in Nursing (BSN) | BSN Upper-Division Transfer Program |
|---|---|
| Designed primarily for recent high school graduates who will be admitted as first-year university students.[1] | Designed for transfer students interested in pursuing a baccalaureate degree in nursing.[1] |
| Based on a cohort model, students are accepted into the program and progress through the curriculum in sequence with an assigned group of students. | Based on a cohort model, students are accepted into the program and progress through the curriculum in sequence with an assigned group of students. |
| All coursework assigned to a specific semester is prerequisite for progression to the next semester. | All coursework assigned to a specific semester is prerequisite for progression to the next semester. |
| **RN to BSN Degree Completion Program** | **LVN to BSN and LVN to RN** |
| Designed specifically for adult learners who have an RN license or are currently enrolled in an ADN program (Bridge to BSN option) and desire to complete their baccalaureate degree while continuing to work. | Two programs are available to the Licensed Vocational Nurse (LVN): the LVN to BSN and LVN to RN (30-unit option). |
| Based on a field-based modular design, cohort module. | Both programs are available on a space-available basis for clinical and didactic coursework. |
| Each student cohort has a primary advisor who provides guidance, direction, and mentorship to enrolled students. | Licensed Vocational Nurses are evaluated on an individual basis. |

[1]     Once accepted into an option, students must remain in that option for the duration of the program.

## Admission to the Bachelor of Science in Nursing (BSN) Programs

Admission to the university does not guarantee admission into the School of Nursing. Students interested in admission into a School of Nursing BSN program must indicate their desire on their application to the university. Students applying to the traditional BSN program should apply through the Office of Undergraduate and International Admissions (https://www.apu.edu/undergraduate-admissions/); students applying to the BSN Upper-Division Transfer Program (BSN Transfer and LVN options) or the RN to BSN program should apply through the Office of Graduate and Professional Admissions (https://www.apu.edu/graduateprofessionalcenter/admissions/).

Applicants will be reviewed by a School of Nursing Admissions Committee for possible admission into the university as well as one of the BSN programs: the traditional program, the BSN Upper-Division Transfer Program (BSN Transfer and LVN options), or the RN to BSN program.

Determinations will be made and two separate letters will be sent to applicants indicating 1) whether they have been accepted into the university and 2) whether they have been accepted into one of the BSN programs. Once accepted into a program, students must remain in that program for the duration of the nursing program.

Applicants who are not accepted into one of the BSN programs may still be admitted to the university. These applicants may consider coursework in preparation for application to the Entry-Level Master of Science in Nursing (ELM) program (p. 711), designed for students who have completed a baccalaureate degree in another major but are interested in pursuing a career in nursing.

**The School of Nursing reserves the right to change the curriculum and degree requirements as deemed necessary. Refer to the School of Nursing Handbook, which includes program-specific guidelines and detailed descriptions of course and program requirements.**

## Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Utilize a Christian worldview to integrate beliefs, values, ethics, and service in personal and professional life.
2. Provide nursing care utilizing professional knowledge and core competencies (critical thinking, communication, assessment, and technical skills) derived from a foundation of nursing science, General Education, and religious studies.
3. Demonstrate initiative for continual personal and professional growth and development.
4. Act as a patient educator and advocate to promote optimal health and well-being.
5. Function independently and collaboratively, as a leader and/or member of the healthcare team, to manage and coordinate care.

## Courses

### RNRS 221, Health Assessment, 3 Units

This course provides the nursing student with skills in physical and psychosocial assessment of adult clients. History-taking and physical examination techniques presented in the course help the student develop strong assessment skills upon which further knowledge and practice can be built.

### RNRS 272, Professional Concepts in Nursing, 4 Units

This course is designed to provide an introduction to theories, concepts and roles that help define the profession of nursing. Utilization of the nursing process to provide safe care is analyzed. Concepts of informatics, group dynamics, conflict/management, and techniques to analyze and solve problems are examined. Evidence based nursing practice is introduced through instruction in Library/data base searches.

### RNRS 298, Communication and Teamwork in Patient and Family Centered Care, 3 Units

This elective course is designed to simulate and enhance clinical experiences for the inexperienced graduate licensed RN entering the RN to BSN Accelerated Degree Program. Thirty-six hours of clinical experience will be completed in a healthcare setting with a preceptor. Concepts related to communication and teamwork are emphasized.
**Prerequisite:** Admission requirements for admission into the RN-BSN program apply

### RNRS 299, Transition to Professional Practice, 3 Units

This is a bridge course designed to be taken by inexperienced licensed RNs who are admitted to the RN to BSN program. Completion of the course provides the new RN experience with effective decision making skills related to clinical judgment and performance in the clinical setting as well as ways to incorporate evidence based interventions in the practice setting. This course includes a clinical/simulation component with participation in an online post conference discussion board.
**Prerequisite:** RNRS 298

### RNRS 307, Theoretical Frameworks in Nursing, 3 Units

The focus of this course is exploration and integration of theoretical models in stress, development and health care adaptation as applied to nursing practice. Through writing and experiential activities the students will express a knowledge of family assessment and analysis of the family unit utilizing a variety of theoretical models.

### RNRS 321, Health Assessment, 5 Units

This course develops the nursing student's history taking and assessment skills across the life span. Analysis of health data and identification of risks, including genetics and genomics in specific groups, are emphasized. Culturally sensitive interventions and evidence-based practice are discussed to reduce risk and promote health.

### RNRS 327, Nursing Research and Statistics, 4 Units

This course introduces the steps in the nursing research process, with emphasis on principles and methods. Basic statistical concepts and methods of collecting, summarizing, presenting, and interpreting data for professional nurses are addressed. Current issues impacting nursing research are analyzed. Ethical considerations and rights of human subjects are explored.
**Prerequisite:** The RN-BSN program is designed with a specific course sequence determined by the School of Nursing. A progression schedule is reviewed by the student and advisor after program acceptance. Courses must be taken in the assigned sequence.

### RNRS 358, Writing 3: Evidence-Based Practice in Nursing and Healthcare, 3 Units

The focus of this course is to integrate evidence-based clinical practice into the current healthcare systems. The student will review and evaluate the clinical and research literature for application to practice. The process of an integrative literature review and the development of writing skills specific to the discipline of nursing will be conducted. Select research designs frequently used in practice settings will be explored. Quality improvement strategies, methods and issues will be discussed and applied to practice. Meets the General Studies Writing Three requirement. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*
**Prerequisite:** Writing 2, Current enrollment in the RN to BSN Program is required

## RNRS 368, Pathophysiology, 5 Units

This course presents an introduction to alterations in health status across the life span and their applications to nursing practice. Major pathophysiologic concepts are explored using a body systems approach. Theories relating to etiology, pathogenesis, and clinical manifestations are used to study selected disease processes. Mechanisms causing alterations in cellular function and environment, maintenance of cellular tissue oxygenation, fluid and electrolyte balance, genetics processes, and neuroendocrine control of the body are included. Concepts from anatomy and physiology courses are considered prerequisite and provide the foundation for exploring human dysfunction.

## RNRS 396, Professional Practice: Ethics, Issues, and Spirituality in Health Care, 6 Units

This course focuses on the examination and application of the religious, theological, philosophical, and cultural foundations of ethics in professional nursing practice. Participants develop knowledge and skills in ethical decision making that are theoretically sound, evidence based, holistic, and applicable to current healthcare issues. The course also addresses the expanding roles and responsibilities of professional nurses in meeting the healthcare needs of a dynamic society, with attention to the spiritual formation of nurses. *Meets the General Education Requirement: UP Bible Requirement.*
**Prerequisite:** The RN-BSN program is designed with a specific course sequence determined by the School of Nursing. A progression schedule is reviewed by the student and advisor after program acceptance. Courses must be taken in the assigned sequence.

## RNRS 412, Spiritual Formation and the Profession of Nursing, 3 Units

This course guides students as they examine and articulated the Christian worldview, which can be applied personally and to the broader issues of society. This knowledge allows the students to develop and implement an integrated approach to nursing and the common good, and formulate responses to the worldview aspect of current professional and social issues.

## RNRS 448, Leadership in Health Care Settings, 6 Units

This course presents concepts of organizational and systems leadership and management. Today's health care systems related to patient safety are addressed. The content examines inter-professional teamwork and collaboration, shared decision making, and major nursing roles. The quality improvement process is investigated as to its ability to continuously improve the quality & safety of the health care system. The relationship between the health care system's effectiveness and individual performance in securing patient safety and quality outcomes are identified. Integration of EBP with clinical practice and the role of Informatics to communicate, manage knowledge, mitigate error, and support decision making are developed. Health care policy, finance, and regulatory agency/environments are examined. Ninety hours of practicum are required to establish competency in this course.
**Prerequisite:** Enrollment in the RN to BSN Program

## RNRS 449, Theory and Practice in Community Health Settings, 6 Units

This course has two areas of focus within the community setting: the study of principles and practices involved in community health nursing and the development of skills for teaching a group of clients. The emphasis is on the role of the nurse in assessing, planning, implementing, and evaluating care of clients in a variety of community-based settings. Collaborating with community-based organizations and services that provide health restoration, maintenance, illness prevention, and client education services to individuals, families, and aggregates are essential components of this course. A review of legal mandates and regulations, as well as discussion of ethical dilemmas and issues related to community-based care in included. A multiple theoretical focus that includes concepts from systems, stress, adaptation, development, and role theory is emphasized.

## RNRS 458, Writing 3: Evidence-Based Practice, Theory, and Clinical Pathways, 5 Units

The focus of this course is exploration and integration of the evidence-based practice (EBP) process, including EBP implementation and critique of clinical pathways within individual organizations, and the role of informatics in health care and its importance in evidence-based practice. Theoretical nursing and nonnursing models are reviewed, with a focus on examining how theoretical principles are reflected in professional practice. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*

## RNRS 469, Improving Patient Outcomes: Quality, Safety, and Risk Management, 5 Units

The focus of this course is the implementation of quality and safety mechanisms into clinical practice to improve patient outcomes. Utilizing national standards for quality and safety in health care, students examine initiatives necessary to improve patient outcomes. Concepts of informatics, patient-centered care, leadership, inter- and intraprofessional teamwork, collaboration, and communication are addressed.

## RNRS 479, Population Health and Public Health Nursing, 4 Units

This course focuses on population-based public health nursing practice. The assessment of systematic differences in outcomes across populations, including the complexity of interactions among health determinants (such as social environment, resource allocation, and biological pathways), provides the foundation for public health nursing practice. Exploration of how these determinants exert their influence over time and throughout the life cycle, with variations in their patterns of occurrence (including health inequities and inequalities), is central to the course. The role of the public health nurse in assessing and understanding health systems and the health status of a population is emphasized.
**Corequisite:** RNRS 482P

## RNRS 480, Community Health and Care Transitions, 4 Units

This course builds on the concepts of population health and public health nursing and describes the interaction of the nurse and the client in the home and in the community. Given an assessment of a community's priority health needs, students use course content to identify change-agent functions to promote and preserve health and to prevent disease and disability. All levels of prevention for the individual, family, and community system are addressed as community health nursing interventions. Course topics include the role of community health nursing in supporting care transitions across varied clinical and community settings, legal and regulatory considerations, and ethical issues related to community health.
**Prerequisite:** RNRS 479;
**Corequisite:** RNRS 482P

## RNRS 482P, Clinical Practicum, 2 Units

This course is the clinical component to RNRS 479 Population Health and Public Health Nursing and RNRS 480 Community Health and Care Transitions. The focus of this course is on students implementing the systematic assessment of a community health population and creating an intervention that supports health promotion and disease prevention. Students develop a strategy for change, guided by epidemiological evidence and an understanding of the complex determinants of health, for implementation in collaboration with community resources and other health professionals.
*Meets the General Education Requirement: Integrative and Applied Learning.*
**Corequisites:** RNRS 479 and RNRS 480

## RNRS 495, Special Topics in Nursing, 1-4 Units

In this course, a topic of current interest to students is examined in depth. Students analyze and evaluate topics/issues to reach and express a position, enhance personal development and/or to develop a particular project. This course may be repeated for credit as the topic varies.

## RNRS 497, Ethics and Issues in Health Care, 4 Units

This course focuses on the integration of Christian faith, ethical issues, and professional concerns, which confront nurses in their work life. It also includes consideration of issues and trends in health care and nursing. Integration of such concerns as providers of health care, education of the health care professional, and consumerism with ethical concerns are investigated. This course also contains a comprehensive paper written on a bioethical issue, which meets the senior writing requirement. Each week there is a discussion period around ethical concerns, which correlates to the material presented in class.

## RNRS 499, Readings, 1-4 Units

This is a program of study concentrating on assigned readings, discussions, and writing arranged between and designed by a student of upper-division standing and a full-time professor. An independent study fee is assessed for each enrollment in this class.

## UNRS 105, Foundations in Professional Nursing/Aging, 6 Units

Lecture 3 units; Clinical practicum 3 units (135 hours/semester) This course focuses on the nursing process and introductory concepts crucial to professional nursing care, including interviewing, wellness, health promotion, and illness prevention. The clinical practicum includes application of concepts and acquisition of nursing knowledge and skills needed to provide healthcare to the healthy aging and hospitalized adult and aging client utilizing the nursing process to plan care based on human needs, problems of immobility, and pain.
Special Fee Applies
**Prerequisite:** Acceptance into the Nursing Program.
**Corequisite:** UNRS 105P (Practicum)

## UNRS 105P, Foundations in Professional Nursing - Practicum, 0 Units

UNRS 105 Clinical Practicum
**Corequisite:** UNRS 105; Acceptance into the nursing program

## UNRS 106, Foundations of Professional Nursing/Aging, 6 Units

This course focuses on the nursing process and introductory concepts crucial to professional nursing care, including interviewing, wellness, health promotion, and illness prevention. The clinical practicum includes application of concepts and acquisition of nursing knowledge and skills needed to provide health care to the healthy aging and hospitalized adults and aging, utilizing the nursing process to plan care based on human needs, problems of immobility, and pain.
**Corequisite:** UNRS 106P

## UNRS 106P, Foundations of Professional Nursing/Aging Practicum, 0 Units

UNRS 106 Clinical Practicum
**Corequisite:** UNRS 106

## UNRS 107, Foundations of Professional Nursing, 4 Units

This course focuses on the nursing process and introductory concepts crucial to professional nursing care, including interviewing, wellness, health promotion, and illness prevention. The clinical practicum includes application of concepts and acquisition of nursing knowledge and skills utilizing the nursing process to plan and provide care based on human needs, problems of immobility, and pain.
**Corequisite:** UNRS 107P

## UNRS 107P, Foundations of Professional Nursing Practicum, 0 Units

This is the Practicum component of the Foundations of Professional Nursing course.
**Corequisite:** UNRS 107

## UNRS 108, Fundamentals in Nursing Practice, 2 Units

This is an experiential learning course designed to teach basic nursing skills in a clinical skills or simulation laboratory setting to prepare students to deliver safe and patient-focused nursing care. Utilizing the nursing process, students perform basic skills in assessment, patient care across the admission-discharge continuum, documentation, patient-family teaching, and infection control.

## UNRS 113, Pharmacology, 2 Units

Lecture, 2 units This course is designed for students who have completed organic chemistry, inorganic chemistry, and biochemistry. The content focuses on principles of pharmacology and specifics of the major drug classifications.
**Prerequisite:** Acceptance into the nursing program

## UNRS 120, Fundamentals of Human Nutrition, 3 Units

This lecture course focuses on principles of human nutrition, including nutrient functions, metabolism, and changing needs across the life span. Students also explore nutrient deficiency and toxicity signs and symptoms, along with implications of a poor diet on the development of chronic disease. Various nutrient analysis methods are used.

## UNRS 212, Nursing Care of Adults and the Aging, 6 Units

This course involves application of biological, psychosocial, and spiritual concepts to adult and aging clients experiencing the stress of an acute or chronic alteration in physical health within the medical surgical setting. The nursing process is utilized to provide care to one or two clients within the healthcare delivery system of an acute hospital, skilled nursing facility, or transitional care unit, and extending to the community. Lecture: 3 units; clinical practicum: 3 units (135 hours/semester).
Special Fee Applies
Acceptance into the nursing program; corequisite: UNRS 212P.

## UNRS 212P, Nursing Care Of Adults/Aging Practicum, 0 Units

UNRS 212 Clinical Practicum
**Corequisite:** UNRS 212

## UNRS 220, Health Assessment, 3 Units

Lecture, 2 units; Laboratory, 1 unit (45 hours): This course provides the nursing student with skills in physical, spiritual, and psychosocial assessment of adult clients. History-taking and physical-examination techniques presented in the course help the student develop strong assessment skills upon which further knowledge and practice can be built. Basic concepts related to assessment of geriatric, pediatric, and childbearing patients are included. RNs take this course in the summer.
Special Fee Applies
**Corequisite:** UNRS 220L; Must be accepted into the Nursing Program.

## UNRS 240, Medical Spanish, 2 Units

This medical Spanish class is designed especially for nursing. Practical Spanish communication in real-life medical situations for beginners is emphasized. Pronunciation, intonation, and structure of Spanish within a framework designed to develop basic listening, speaking, reading and writing skills will be taught. Special cultural presentations supplement language study.

## UNRS 260, Nutrition, 2 Units

Students in this lecture course explore the foundations of nutrition in the prevention of chronic disease. Course material covers the pathophysiology of various disease states and appropriate medical nutrition therapy, as well as nursing's role in nutrition assessment with respect to patient weight change, intake adequacy, gastrointestinal symptoms affecting nutrient absorption, and activities of daily living. Students perform dietary recalls, nutrient analyses, and anthropometric assessments, and learn about evidence-based nutrition care for gastrointestinal diseases, cardiovascular diseases, diabetes, metabolic syndrome, energy balance and weight control, bone disease, and renal disease. Through case studies, students learn about alternate feeding methods and issues surrounding drug/nutrient interactions. Students also have opportunities to educate the community through presentations on the prevention of disease through nutrition.
**Prerequisite:** CHEM 123 or PRCH 123 or department approval if a non-nursing major

## UNRS 270, Professional Concepts in Nursing, 3 Units

This course provides an introduction to the theories and concepts of professional nursing. The nursing process is presented and utilized as the basis for planning quality and safe patient care in various healthcare settings. Current issues and trends in nursing are discussed, the role of nursing in the health care delivery system, and concepts of evidence-based practice, informatics, group dynamics, conflict/management, and techniques to analyze and solve problems are examined.
**Prerequisite:** Acceptance into the nursing program

## UNRS 271, Theories and Concepts in Professional Nursing, 2 Units

This course provides an introduction to the theories and concepts of professional nursing. The nursing process is presented and utilized as the basis for planning care as applied to patients. The content also includes discussion of current issues and trends in nursing and compilation of a professional portfolio.
**Prerequisite:** Acceptance into the nursing program

## UNRS 280, Life Cycle Nutrition, 3 Units

This lecture course examines nutrient needs of individuals throughout various life stages: preconception, pregnancy, lactation, infancy, preschool years, middle childhood, pre-adolescence, adolescence, adulthood, and late adulthood. Students learn the changing nutrient requirements through the life cycle and apply this knowledge through special topic presentations and in the development of teaching tools that can be used for public education audiences. This is a service-learning course.
**Prerequisite:** BIOL 101, CHEM 123, PSYC 290, and UNRS 120

## UNRS 281, Introduction to Global Health Care, 1 Unit

This course uses a seminar or online format to introduce students to major aspects of the global healthcare experience, such as developing an understanding of the expectations and responsibilities related to international travel, an appreciation of other cultures, their integration into another culture, their in-country experience, and their re-entry into their home country.

## UNRS 282, Transcultural Health Care: Country Specific, 2-4 Units

Students in this course participate in a short-term study-away nursing experience in order to begin understanding theoretically based transcultural healthcare practices. A seminar format is utilized to stimulate discussion regarding health-related issues specific to the geographical area of study and to assist students in the formulation of personal perspectives and individual cultural values that promote high-quality professional nursing practice worldwide. Students participate as members of a healthcare team in a variety of nursing-specific learning opportunities. Lecture, 1 unit; clinical practicum, 1-3 units (45-135 hours/semester).
Special Fee Applies

## UNRS 282P, Transcultural Health Care: Country Specific- Practicum, 0 Units

UNRS 282 Clinical Practicum
**Prerequisite:** UNRS 105, UNRS 113, UNRS 220; Corequisite UNRS 282
UNRS 105, UNRS 113, UNRS 220; Corequisite UNRS 282

## UNRS 299, Statistics and Data Management for Nursing and Health Care, 3 Units

This course covers basic statistical concepts and methods of collecting, summarizing, presenting, and interpreting data for professional nurses and students pursuing healthcare professions. Among the topics covered are graphing, measures of central tendency and variability, the normal curve, hypothesis testing, correlation and regression, and topics in probability that can be applied in real-world situations. *Meets the General Education Requirement: Quantitative Literacy (Math).*
**Prerequisite:** MATH 95 or an appropriate score on the APU mathematics proficiency exam or SAT Math score of 540 or ACT Math score of 23. Admission to the School of Nursing, or Pre-Admitted Nursing status and admission to the Honors College.

## UNRS 300, Complementary and Alternative Therapies: Herbs, Supplements, and Nutrition, 3 Units

This course provides an introduction to therapies currently used as complements to Western medicine. Emphasis is on naturopathic medicine and biologically based therapies such as foods, special diets, herbal remedies, and dietary supplements. The course reviews potential risks and interactions between conventional and complementary and alternative therapies. The course examines agencies devoted to informing and protecting consumers and health care practitioners.
**Prerequisite:** BIOL 101 or BIOL 151, and CHEM 123. Instructor permission required if non-nursing major.

## UNRS 306, Writing 2: Theoretical Frameworks in Nursing, 3 Units

Students in this course learn to utilize a variety of genres of scientific writing while exploring, integrating, and applying theoretical models of stress, development, and health care adaptation to nursing practice. Students examine writing samples from various methodological perspectives and practice a variety of writing styles and forms of argument considered persuasive in the sciences. They also develop basic proficiency in the use of APA style. *Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*
**Prerequisite:** C- or better in PRWR 110; acceptance into the nursing program.

## UNRS 310, Mental Health Nursing, 4 Units

Lecture 2 units, Clinical practicum 2 units (90 hours); This theoretical and clinical course focuses on the dynamics of psychosocial stress within the interpersonal and intrapersonal systems of patients with acute and chronic psychiatric disorders. Short-term evaluation and treatment experiences are offered utilizing milieu, individual, group, and family therapy.
Special Fee Applies
**Corequisite:** UNRS 310P; Must be accepted into the Nursing Program

### UNRS 310P, Mental Health Nursing Practicum, 0 Units

UNRS 310 Clinical Practicum
**Prerequisite:** Co-Requisite: UNRS 310

### UNRS 312, Nursing Management of Adults, 3 Units

Lecture, 1 unit; Clinical practicum, 2 units (90 hours/semester): This course continues the application of biological, psychosocial, and spiritual concepts to adult and aging clients experiencing the stress of an acute or chronic alteration in physical health within the medical surgical setting. Emphasis is on the application of concepts of pathophysiology and pharmacology to the nursing management of acute and chronically ill patients in the medical-surgical setting.
Special Fee Applies
**Corequisites:** UNRS 312P, UNRS 313 and UNRS 313P; Must be accepted into the Nursing Program.

### UNRS 312P, Nursing Management of Adults Practicum, 0 Units

UNRS 312 Clinical Practicum
**Corequisites:** UNRS 312, UNRS 313 and UNRS 313P

### UNRS 313, Restorative Nursing, 4 Units

Lecture 2 units; Clinical practicum 2 units (90 hours/semester); This course focuses on the care of an adult or geriatric client with a chronic health problem. The mental health and spiritual concepts are emphasized. Students are assigned to a rehabilitation or restorative setting.
Special Fee Applies
**Corequisites:** UNRS 312, UNRS 312P and UNRS 313P; Must be accepted into the Nursing Program

### UNRS 313P, Restorative Nursing Practicum, 0 Units

UNRS 313 Clinical Practicum
**Corequisites:** UNRS 312, UNRS 312P and UNRS 313

### UNRS 314, Nursing Management and Restorative Care of Adults, 6 Units

This course builds on prior knowledge of biological, psychosocial, and spiritual concepts to help adult and aging clients experiencing the stress of an acute or chronic alteration in physical health. Emphasis is on the application of concepts of pathophysiology and pharmacology to the nursing management of acute and chronically ill patients in medical-surgical and rehabilitative or restorative settings.
**Corequisite:** UNRS 314P

### UNRS 314P, Nursing Management and Restorative Care of Adults Practicum, 0 Units

UNRS 314 Clinical Practicum
**Corequisite:** UNRS 314

### UNRS 320, Cultural Aspects of Food and Nutrition, 3 Units

Students in this course examine the foodways of people around the world, exploring the health benefits and practices of various cultures, along with how the industrialization of food influences nutrition content and pricing of food. Course material also covers the effects of famine on life expectancy and how one's environment or living situation limits access to food. A food lab is included, giving students an opportunity to prepare, taste, and realize a country's particular etiquette practices when dining. Course requires field trips. This is a service-learning course.
**Prerequisite:** UNRS 120, SOC 358, GLBL 201; GLBL 260 or COMM 260

### UNRS 367, Pathophysiology, 3 Units

Lecture, 3 hours: This course presents an introduction to human pathophysiology. Mechanisms causing alterations in cellular activity, maintenance of cellular tissue oxygenation, fluid and electrolyte balance, and neuroendocrine control of the body are included. Common pathophysiologic disorders are emphasized.
**Prerequisite:** Acceptance into the nursing program

### UNRS 382, Community Health Nursing, 3 Units

This course focuses on the study of principles and practices involved in community health nursing, with emphasis on the role of the nurse in assessing, planning, implementing, and evaluating care of clients in a variety of community-based settings. Collaboration with community-based organizations and services that provide health promotion, disease prevention, maintenance during chronic illness, and client education services to individuals, families, and aggregates is an essential component of this course. A review of legal mandates and regulations specific to community-based care, analysis of the healthcare needs within a community, and exploration of issues such as liberty, equality, terrorism, crisis, and disasters are included. Lecture, 1 unit (1 hour/week); clinical practicum, 2 units (90 hours/semester). *Meets the General Education Requirement: Civic Knowledge and Engagement.*
Special Fee Applies
**Prerequisite:** Acceptance into the Nursing Program;
**Corequisite:** UNRS 382P

### UNRS 382P, Community Health Nursing Practicum, 0 Units

UNRS 382 Clinical Practicum
**Corequisite:** UNRS 382

## UNRS 383, International Health Nursing, 3-5 Units

This course focuses on clinical observation of and participation in international healthcare settings, using a cross-cultural educational experience to give students a global perspective of healthcare issues. Students develop intercultural competence as they engage with people from diverse cultures with compassion and respect, and foster a commitment to global service, scholarship, and boundary-crossing community. Lecture, 1 unit; clinical practicum, 2-4 units. *Meets the General Education Requirement: Intercultural Competence.*
Special Fee Applies
Acceptance into the nursing program; corequisite: UNRS 383P.

## UNRS 383P, International Health Nursing Practicum, 0 Units

Lecture 1 Unit - Clinical Practicum 2-4 units: This course focuses on clinical observation and participation in international health care settings. The purpose is to broaden the student's worldview through a cross-cultural educational experience and to provide a global perspective of healthcare issues. In addition, it will provide opportunities to develop intercultural competence and foster a commitment to global service, scholarship, and boundary-crossing community.
**Prerequisite:** Acceptance into the nursing program

## UNRS 384, Urban/Rural Health Nursing, 3-5 Units

This course focuses on clinical observation of and participation in urban/rural healthcare settings, using a cross-cultural educational experience to give students a broader perspective of healthcare issues. Students develop intercultural competence as they engage with people from diverse cultures with compassion and respect, and foster a commitment to service, scholarship, and boundary-crossing community in vulnerable urban/rural populations. Lecture, 1 unit; clinical practicum, 2-4 units. *Meets the General Education Requirement: Intercultural Competence.*
Acceptance into the nursing program; corequisite: UNRS 384P.

## UNRS 384P, Urban Health Nursing Practicum, 0 Units

Lecture 1 Unit - Clinical Practicum 2-4 units: This course focuses on clinical observation and participation in urban health care settings. The purpose is to broaden the student's worldview through a cross-cultural educational experience and to provide a global perspective of healthcare issues. In addition, it will provide opportunities to develop intercultural competence and will foster a commitment to service, scholarship, and boundary-crossing community in vulnerable urban populations.
**Prerequisite:** Acceptance into the nursing program

## UNRS 386, Population and Community Health Nursing, 6 Units

This course focuses on population-based public health and community health nursing practice. The purpose is to broaden the student's worldview through a cross-cultural educational experience and gain a more global perspective of complex health care issues through civic engagement and collaboration with various clinical settings, community-based and global health care organizations that provide health promotion, disease prevention, maintenance, and support care transitions during chronic illness. All levels of prevention for the individual, family, and community systems are addressed through population-based public health and community health nursing assessment, evaluation, and interventions including client education services to individuals, families and aggregates from diverse cultures. *Meets the General Education Requirement: Intercultural Competence, Civic Knowledge and Engagement.*
Special Fee Applies
**Corequisites:** UNRS 386P

## UNRS 386P, Population and Community Health Nursing Practicum, 0 Units

This course focuses on population-based public health and community health nursing practice. The purpose is to broaden the student's worldview through a cross-cultural educational experience and gain a more global perspective of complex health care issues through civic engagement and collaboration with various clinical settings, community-based and global health care organizations that provide health promotion, disease prevention, maintenance, and support care transitions during chronic illness. All levels of prevention for the individual, family, and community systems are addressed through population-based public health and community health nursing assessment, evaluation, and interventions including client education services to individuals, families and aggregates from diverse cultures.
**Corequisites:** UNRS 386

## UNRS 402, Nursing Care in Maternal, Newborn, and Women's Health, 4 Units

Lecture, 2 units; Clinical practicum, 2 units (90 hours/semester): This course focuses on the theoretical and clinical concepts of the childbearing patient, her infant, and her family. The students study both normal and complicated obstetrics. Birth preparation, prenatal care, intrapartal, normal neonatal, and postpartum care with concurrent clinical experiences are introduced.
Special Fee Applies
**Corequisite:** UNRS 402P; Must be accepted into the Nursing Program.

## UNRS 402P, Nursing Care in Maternal, Newborn, and Women's Health Practicum, 0 Units

## UNRS 403, Leadership and Management in Professional Practice, 2 Units

Theory, 2 hours. This course emphasizes leadership and management theory in a number of applications and health care settings. It assists the upcoming graduate in adjusting to various organizations encountered by professional nurses serving in a variety of roles. Core concepts relevant to the health care settings are presented with an emphasis on critical thinking, character development and leadership competencies, quality outcomes, and safety goal achievement for optimal patient care.
**Prerequisite:** Acceptance into the Nursing Program. Note: Per the progression schedule for the Traditional BSN program students, UNRS403 is taken in the same semester as UNRS404/404P and UNRS402/402P.

## UNRS 404, Nursing Care of Children and Young Adults, 4 Units

Lecture, 2 units; Clinical practicum, 2 units (90 hours/semester): This theoretical and clinical course focuses on the care of children from birth through adolescence. The effects of acute and chronic illness on growth and development are studied in the acute and community health care setting. Education of the child and family on health promotion, disease prevention, and safety issues are addressed. Ethical issues are discussed regarding the relationship of the child and family, including issues such as child abuse, informed consent, and the impact of diverse cultural and spiritual beliefs on health care decisions in the family.
Special Fee Applies
**Corequisites:** UNRS404P; Must be accepted into the Nursing Program. Note: Per the progression schedule for the Traditional BSN program students, UNRS403 is taken in the same semester as UNRS404/404P and UNRS402/402P.

## UNRS 404P, Nursing Care of Children and Young Adults Practicum, 0 Units

## UNRS 411, Advanced Nursing Care of Adults and the Aging, 5 Units

This course involves the application of pathophysiological, psychosocial, and spiritual concepts to adult and geriatric clients experiencing the stress of illness in acute settings. The area of focus is caring for critically ill clients and their families with complex health needs in a critical-care setting. Legal and ethical issues related to acute care are included. Lecture, 2 units; clinical practicum, 3 units (135 hours/semester).
Special Fee Applies
**Corequisite:** UNRS 411P

## UNRS 411P, Advanced Nursing Care of Adults & Aging - Practicum, 0 Units

## UNRS 412, Clinical Residency Nursing, 2 Units

This clinical residency is an experiential component designed as a collaborative partnership between the School of Nursing and selected healthcare settings. This residency is planned to ease the role transition from a student nurse to a beginning professional nurse. In addition, it enhances the skill and practice knowledge of the student in preparation for the NCLEX-RN examination. Clinical practicum, 90 hours/semester. *Meets the General Education Requirement: Integrative and Applied Learning.*
**Corequisites:** UNRS 411 and UNRS 411P

## UNRS 414, Advanced Nursing Care of Adults, 6 Units

This course involves the application of pathophysiological, psychosocial and spiritual concepts to adult and geriatric clients experiencing the stress of acute illness. The primary focus is on caring for and managing care of critically ill clients and their families with complex health needs in a critical care setting. Throughout the semester, students prepare for transition to practice as they become more independent and proficient in communicating with and leading the healthcare team. *Meets the General Education Requirement: Integrative and Applied Learning.*
**Corequisite:** UNRS 414P

## UNRS 414P, Advanced Nursing Care of Adults Clinical Practicum, 0 Units

This course is the Clinical Practicum component of the Advanced Nursing Care of Adults course.
**Corequisite:** UNRS 414

## UNRS 425, Nursing Research, 3 Units

Lecture, 3 units: This course introduces the steps in the research process. Emphasis is placed on the principles and methods of the research process, including how this process contributes to the development of nursing knowledge and the improvement of nursing practice. This historical evolution of nursing research is examined and current issues impacting nursing research are analyzed. Ethical considerations and rights of human subjects are explored. Students have the opportunity to evaluate selected nursing studies throughout the semester in small groups with faculty input and guidance.
**Prerequisite:** UNRS 299; Must be accepted into the Nursing Program.

## UNRS 436, Fundamentals of Case Management, 3 Units

Theory, 2 units; Practicum, 1 unit: This is an introductory course for senior-level students covering the principles of case management, roles and responsibilities of the case manager, case management tools, plans and methods, issues (including legal ones), and how case management improves patient and hospital outcomes. It is designed to give an overview of what case management is and how a nurse can utilize these tools and skills to advance clinical practices. It is an elective course.
Special Fee Applies
**Prerequisite:** Acceptance into the Nursing Program.
**Corequisite:** UNRS 436P (Practicum)

## UNRS 436P, Fund of Case Mgmt Practicum, 0 Units

## UNRS 444, Clinical Specialization Elective, 1-2 Units

This is a clinical specialty course involving a collaborative partnership with selected community healthcare organizations, an intensive preceptored experience that eases the role transition from student nurse to beginning professional nurse in a specialized setting. This course also enhances the skill and practice knowledge of students in preparation for the RN licensing examination.
**Prerequisite:** One of the following: UNRS 310 (for mental health nursing), UNRS 382 (for community health), UNRS 402 (for obstetrics), or UNRS 404 (for pediatrics). If taken for two units, instructor consent is required.
**Corequisite:** UNRS 411

## UNRS 445, Applied Pharmacology, 2 Units

This course enhances students' ability to apply knowledge acquired in the basic pharmacology course by helping them utilize critical thinking skills at a more advanced level. Emphasis is on the application of pharmacokinetics, pharmacodynamics, and pharmacotherapeutics of major drug categories used to manage common patient disorders across the life span in clinical nursing practice.
**Prerequisite:** Acceptance into the nursing program

## UNRS 495, Special Topics in Nursing, 1-4 Units

In this course, a topic of current interest to students is examined in depth. Students analyze and evaluate topics/issues to reach and express a position, enhance personal development, and/or to develop a particular project. May be repeated for credit as the topic varies.
**Prerequisite:** Acceptance into the nursing program

## UNRS 496, Writing 3: Ethics and Issues in Health Care, 4 Units

This course focuses on the integration of Christian faith, ethical concerns, and issues and trends in health care that nurses encounter in their work life. Students develop their abilities as independent thinkers in order to construct bodies of knowledge, and communicate what they are learning through reading, dialogue, debate, peer critique, presentations, and the development and refinement of written pieces. The capstone project for this course is a comprehensive research paper and formal presentation demonstrating scholarship and readiness to contribute to the nursing profession. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*
Special Fee Applies
**Prerequisite:** Senior standing in the School of Nursing; UNRS 306

## UNRS 497, Readings, 1-4 Units

This is a program of study concentrating on assigned readings, discussions, and writing arranged between and designed by a student of upper-division standing and a full-time professor. An independent study fee is assessed for each enrollment in this class.

## UNRS 498, Directed Research, 1-4 Units

This course provides instruction in research design and technique, and gives students experience in the research process. The 1-unit expectation encompasses no fewer than 30 hours of work with accompanying reading, log, writing, and seminar presentation within the department or in a university research symposium. No more than 1 unit may be used to fulfill preparatory readings requirement. An independent study fee is assessed for each enrollment in this class.
**Prerequisite:** Junior or Senior Standing

## UNRS 499, Thesis/Project, 1-4 Units

This is a senior-level "capstone" type of independent study/research experience, involving the student in a unique project with a sophisticated level of research, synthesis, analysis, and communication. The 1-unit expectation encompasses no fewer than 30 hours of work with accompanying readings, log, instructor discussions, and writing of summary analysis and conclusions. The thesis or project may result in formal thesis, published article, or electronic media. No more than 1 unit may be used to fulfill preparatory readings requirement. An independent study fee is assessed for each enrollment in this class.
**Prerequisite:** Upper-division writing intensive course or instructor consent; and junior or senior standing

# Department of (Traditional) Undergraduate Baccalaureate Program

The Department of (Traditional) Undergraduate Baccalaureate Program is highly respected in the Los Angeles and surrounding communities, with graduates sought after and regarded as equipped and ready to serve with competitive healthcare teams in the industry. This Bachelor of Science in Nursing (BSN) program – considered a prominent program in California - prepares you for a meaningful nursing career. Taught by accomplished, committed faculty who genuinely care, you will gain mastery of knowledge, specific skills, and cutting-edge patient care technology that will enable you to provide high quality nursing care confidently, in ways that model Jesus' passion for serving an underserved, underrepresented, and suffering world with unconditional love.

Our program is based on a cohort model in which classes are offered in-person on the Azusa campus. Nursing courses are assigned sequentially and completed in the Fall and Spring semesters over 4 to 4.5 years.

In addition, we offer unique opportunities that position you for professional success:

- Rigorous curriculum addressing physical, mental, psychosocial, and spiritual needs
- Clinical placement in a wide variety of acute and ambulatory Southern California settings
- Clinical experiences occur each semester over the entire program
- State-of-the-art simulation centers
- Competency-validated skills training
- Global health/study away opportunities of varying duration in different countries
- Several academic Minor options
- Interprofessional Education (IPE) activities engaging pre-med, physical therapy, kinesiology, social work, child life, practical theology, and nursing program participation

## Programs

- BS in Nursing (Traditional) Program (p. 642)
- Minor in International Health Nursing (Traditional BSN) (p. 646)
- Minor in Nutrition (Traditional BSN) (p. 647)

# BS in Nursing (Traditional) Program

69-71 units

Applicants interested in the traditional Bachelor of Science in Nursing program must meet the following admission requirements:

1. Submit an application to the Office of Undergraduate and International Admissions (https://www.apu.edu/undergraduate-admissions/) indicating interest in becoming a nursing major and pursuing the BSN. Include in that application the following information:
   a. Copies of all high school and college transcripts;
   b. Letters of recommendation as required by the university and the School of Nursing;
   c. A one-page statement of professional goals in nursing;
   d. A résumé reflecting volunteer and work experience within the past three years, including leadership positions within volunteer organizations, community service and/or employment where applicable.
2. Complete applicable prerequisite courses with a grade of *B* (3.0) or better, including the following:
   a. One year of high school chemistry (or CHEM 101).
   b. One year of high school biology (or BIOL 101).
   c. Two years of high school math (algebra or geometry) **with** an SAT math score of 540+ or ACT math score of 23+[1] *or* an *A-* or higher in precalculus or *B* or higher in calculus *or* a passing score on the Assessment and Learning in Knowledge Spaces (ALEKS).
3. Submit proof of achieving the minimum high school, college, or university cumulative grade-point average of *B* (3.00).
4. Once a student has received a letter of acceptance into the School of Nursing, proof of the following must be provided prior to the beginning of the first nursing course (UNRS 107):
   a. Successful completion of anatomy with lab (4 units) and chemistry with lab (4 units), with a minimum *B-* (2.7 grade-point average) and no grade lower than a *C* (2.0) in each course; (Note: A student is allowed only one opportunity to repeat a single failed science course to try to raise his/her grade prior to beginning nursing (UNRS) courses). A *B-* (2.7) average must be obtained in all subsequent science coursework with no grade lower than a *C* (2.0) in each science course or the student will not be allowed to progress in his/her UNRS coursework. If a student is unable

to meet the requirements of their conditional admission through the minimum science and overall college grade-point average as stated, the student may be placed on academic probation and will have two subsequent semesters to raise their GPA in order to begin nursing coursework and progress in the nursing program.

b. Once admitted into the nursing program, students must: (1) Overall: Maintain a cumulative GPA of 3.0 (84% or *B*) or higher in all course work, and no lower than a 2.0 (73% or *C*) in any course; (2) Science: Maintain a cumulative GPA of 2.7 (80% or *B-*) in all science courses, and no lower than a 2.0 (73% or *C*) in any science course; (3) Nursing (UNRS): Maintain a cumulative GPA of 2.7 (80% or *B-*) or higher in core nursing courses or the student will be placed on academic probation.

c. Receive credit or waiver for college algebra.

d. WRIT 110 Writing 1: The Art and Craft of Writing.

[1]    APU is waiving the SAT/ACT requirements for admission through the 2022-23 academic year.

## Transfer Students with Nursing Credit/Previous Education Credit

1. Transfer applicants who have completed college nursing courses in nationally accredited nursing or other health care programs are evaluated individually and may be given credit for courses that meet the requirements.

2. Up to 70 units of community college credit and additional units from a university (per registrar's approval) may be transferred. Applicants may petition to have nursing units transferred from a nationally accredited university, but must receive administrative approval for inclusion in total credits. Students may be awarded credit for prior coursework and clinical experience, including military education and experience, through a challenge examination and/or competency testing.

## International Students

International students are required to meet the same academic and admission requirements as other students in addition to the following:

1. International students must complete WRIT 110, one of the four required sciences taken at an accredited U.S. university with a minimum grade of *C* (2.0), and achieve a cumulative grade-point average of *B* (3.0) in all college courses completed at Azusa Pacific University after two semesters of full-time enrollment.

2. The admission requirement for international students with English as a second language (ESL) is a minimum TOEFL score of 80 iBT. The School of Nursing specifies that the TOEFL Test of Written English (TWE) and TOEFL Test of Spoken English (TSE) be included in the TOEFL assessment score as these are critical to success in nursing. If the student has taken the IBT (Internet-Based TOEFL), the required score is 85 percent or better.

If there are no TOEFL scores of written and spoken English, the student will be referred to an English training program for successful completion of evaluation and required testing. If deemed necessary, additional ESL courses may be required. (Information about taking the TOEFL examination can be obtained by contacting APU's International Services (https://www.apu.edu/international/).)

NOTE: Please check with the Office of Undergraduate and International Admissions (https://www.apu.edu/undergraduate-admissions/) regarding residency requirements prior to application.

## Requirements and Sequences for the Traditional BSN Program

All undergraduate nursing programs are designed with a specific course sequence that is determined by the School of Nursing. When each student is accepted into a program, a progression schedule is reviewed by the student and the advisor. Courses must be taken in the assigned sequence.

The Traditional BSN program is based on a cohort model. All coursework assigned to a specific semester is prerequisite for progression to the next semester. Students in the Traditional BSN program begin their nursing coursework either in the fall or spring semesters and continue in sequence for two consecutive semesters per school year. Depending on cohort admission and sequencing of the curriculum, the length of the program may be 4 or 4½ years. The coursework is as follows:

| Code | Title | Units |
|---|---|---|
| UNRS 107 & 107P | Foundations of Professional Nursing and Foundations of Professional Nursing Practicum [1] | 4 (3/1) |
| UNRS 108 | Fundamentals in Nursing Practice | 2 |
| UNRS 113 | Pharmacology | 2 |
| UNRS 212 & 212P | Nursing Care of Adults and the Aging and Nursing Care Of Adults/Aging Practicum | 6 (3/3) |
| UNRS 220 | Health Assessment | 3 (2/1) |
| UNRS 260 | Nutrition | 2 |
| UNRS 299 | Statistics and Data Management for Nursing and Health Care [2] | 3 |
| UNRS 306 | Writing 2: Theoretical Frameworks in Nursing [3] | 3 |

| UNRS 310<br>& 310P | Mental Health Nursing<br>and Mental Health Nursing Practicum | 4 (2/2) |
|---|---|---|
| UNRS 314<br>& 314P | Nursing Management and Restorative Care of Adults<br>and Nursing Management and Restorative Care of Adults Practicum | 6 (3/3) |
| UNRS 367 | Pathophysiology | 3 |
| UNRS 382<br>& 382P | Community Health Nursing<br>and Community Health Nursing Practicum [4] | 3 (1/2) |
| Select one of the following: | | 3-5 |
| UNRS 383<br>& 383P | International Health Nursing<br>and International Health Nursing Practicum [5, 6] | |
| UNRS 384<br>& 384P | Urban/Rural Health Nursing<br>and Urban Health Nursing Practicum [5] | |
| UNRS 402<br>& 402P | Nursing Care in Maternal, Newborn, and Women's Health<br>and Nursing Care in Maternal, Newborn, and Women's Health Practicum | 4 (2/2) |
| UNRS 403 | Leadership and Management in Professional Practice | 2 |
| UNRS 404<br>& 404P | Nursing Care of Children and Young Adults<br>and Nursing Care of Children and Young Adults Practicum | 4 (2/2) |
| UNRS 414<br>& 414P | Advanced Nursing Care of Adults<br>and Advanced Nursing Care of Adults Clinical Practicum [7] | 6 (2/4) |
| UNRS 425 | Nursing Research | 3 |
| UNRS 496 | Writing 3: Ethics and Issues in Health Care [8] | 4 |
| UNRS 445 | Applied Pharmacology | 2 |
| **TOTAL UNITS** | | **69-71** |

[1]   Numbers in parentheses are classroom/clinical or lab units.
[2]   Meets the General Education Quantitative Literacy requirement; may be waived by petition with an AP Stats test score of 3 or greater.
[3]   Meets the General Education Writing 2 requirement.
[4]   Meets the General Education Civic Knowledge and Engagement requirement.
[5]   Meets the General Education Intercultural Competence requirement.
[6]   Must apply to and be selected by the School of Nursing Global and Community Health Committee (GCHC).
[7]   Meets the General Education Integrative and Applied Learning requirement.
[8]   Meets the General Education Writing 3 requirement.

## Additional Nursing Requirements

| Code | Title | Units |
|---|---|---|
| BIOL 220 | General Microbiology | 4 |
| BIOL 200 | Human Anatomy for Nursing (BIOL 200 is equivalent to BIOL 250 ) [1] | 4 |
| BIOL 210 | Human Physiology for Nursing (BIOL 210 is equivalent to BIOL 251) [2] | 4 |
| CHEM 123 | General, Organic, and Biological Chemistry for the Health Sciences (Meets GE requirement of Natural Sciences) [3] | 4 |
| PSYC 110 | General Psychology [4] | 3 |
| PSYC 290 | Human Growth and Development [4] | 3 |
| **Additional General Education Requirements** | | |
| GE 100 | First-Year Seminar [5] | 3 |
| COMM 111 | Public Communication [6] | 3 |
| PE 1XX Fitness for Life/Varsity Sport | | 1 |
| MIN 108 | Christian Life, Faith, and Ministry [7] | 3 |
| WRIT 110 | Writing 1: The Art and Craft of Writing [8] | 3 |
| UBBL 100 | Introduction to Biblical Literature: Exodus/Deuteronomy [7] | 3 |
| UBBL 230 | Luke/Acts [7] | 3 |
| PHIL 100 | Introduction to Philosophy [9] | 3 |
| 3XX/4XX | Bible [10] | 3 |
| THEO 3XX Doctrine Requirement | | 3 |
| Humanities: History | | 3 |

| | |
|---|---:|
| Humanities: Literature | 3 |
| Humanities: Fine Arts | 3 |
| Foreign Language Proficiency [11] | |
| **Total Units** | **59** |

[1] BIOL 200 is equivalent to BIOL 250.
[2] BIOL 210 is equivalent to BIOL 251.
[3] Meets the General Education Natural Sciences requirement.
[4] Meets the General Education Social Sciences requirement.
[5] Meets the General Education Intellectual and Practical Skills requirement.
[6] Meets the General Education Oral Communication requirement.
[7] Meets the General Education Biblical, Theological, and Philosophical Formation requirement.
[8] Meets the General Education Writing 1 requirement.
[9] Meets the General Education Philosophy requirement.
[10] May meet the General Education Upper-Division Bible requirement.
[11] Foreign Language Proficiency requirement may be met by APU proficiency test, SAT, AP, CLEP, FLATS, or OPIc test score, or completion of an APU language course numbered 102 or higher.

## Recommended Nursing Electives for the Traditional Program

| Code | Title | Units |
|---|---|---:|
| UNRS 120 | Fundamentals of Human Nutrition | 3 |
| UNRS 280 | Life Cycle Nutrition | 3 |
| UNRS 281 | Introduction to Global Health Care (Prerequisite for UNRS 282 and UNRS 383) [1] | 1 |
| UNRS 282 & 282P | Transcultural Health Care: Country Specific and Transcultural Health Care: Country Specific- Practicum (1/1-3) | 2-4 |
| UNRS 300 | Complementary and Alternative Therapies: Herbs, Supplements, and Nutrition | 3 |
| UNRS 320 | Cultural Aspects of Food and Nutrition | 3 |
| UNRS 444 | Clinical Specialization Elective | 1-2 |
| UNRS 445 | Applied Pharmacology [2] | 2 |
| UNRS 495 | Special Topics in Nursing | 1-4 |
| KIN 360 | Nutrition for Exercise and Sport Science | 3 |
| SPAN 103 | Elementary Spanish I for Healthcare Professionals [3] | 3 |
| SPAN 104 | Elementary Spanish II for Healthcare Professionals [3] | 3 |
| HIST 235 | Cultural History/Travel Study (Country-Specific) [1,4] | 3 |
| GLBL 425 | Integration and Formation Seminar [1] | 1 |
| MODL 101 | Modern Language I (Introduction to Zulu; South Africa Semester only) [3] | 3 |

[1] Required for School of Nursing Study Away Semester.
[2] Elective course prior to fall 2022.
[3] Meets the General Education Foreign Language requirement.
[4] Meets the General Education Intercultural Competence requirement.

# Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Utilize a Christian worldview to integrate beliefs, values, ethics, and service in personal and professional life.
2. Provide nursing care utilizing professional knowledge and core competencies (critical thinking, communication, assessment, and technical skills) derived from a foundation of nursing science, General Education, and religious studies.
3. Demonstrate initiative for continual personal and professional growth and development.
4. Act as a patient educator and advocate to promote optimal health and well-being.
5. Function independently and collaboratively, as a leader and/or member of the healthcare team, to manage and coordinate care.

# Minor in International Health Nursing (Traditional BSN)

19 units

Students interested in expanding their global perspective on health and nursing care may apply to participate in a short-term transcultural health nursing experience, an international health nursing semester, or the international health nursing minor. Accepted students complete additional coursework, and a study plan is developed by the student and advisor. Contact the School of Nursing for the proposed study plan.

## Requirements

| Code | Title | Units |
|------|-------|-------|
| **Required Courses** | | |
| UNRS 220 | Health Assessment | 3 |
| UNRS 281 | Introduction to Global Health Care | 1 |
| UNRS 282 | Transcultural Health Care: Country Specific [1] | 3 |
| UNRS 383 | International Health Nursing (Country Specific) [2,3] | 5 |
| UNRS 383P | International Health Nursing Practicum | 0 |
| HIST 235 | Cultural History/Travel Study [4] | 3 |
| or HIST 335 | Cultural History/Travel Study | |
| GLBL 425 | Integration and Formation Seminar | 1 |
| **Electives** | | **3** |
| Choose one of the following: | | |
| GLBL 201 | Anthropology for Everyday Life (or GLBL 301 if previously taken) [3] | |
| GLBL 260 | Intercultural Communication (or GLBL 310 if previously taken) [3] | |
| SOC 358 | Human Diversity [3] | |
| UNRS 300 | Complementary and Alternative Therapies: Herbs, Supplements, and Nutrition | |
| UNRS 320 | Cultural Aspects of Food and Nutrition | |
| Choose one of the following if one is not selected from elective list above: | | |
| PHIL 452 | Classical Chinese Ethics [3] | |
| or PHIL 252 | Classical Chinese Ethics | |
| RELG 200 | World Religions [3] | |
| RELG 351 | Islam: The Way of Submission [3] | |
| RELG 352 | Hinduism: Karma, Dharma, and Yoga [3] | |
| RELG 353 | East Asian Religions and Mindfulness [3] | |
| **Total Units** | | **19** |

[1]    This is a short-term study-away experience with the School of Nursing.
[2]    This is a semester-long study-away experience with the School of Nursing.
[3]    Meets the General Education Intercultural Competence requirement.
[4]    HIST 235 meets the General Education Intercultural Competence requirement.

## Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Utilize a Christian worldview to integrate beliefs, values, ethics, and service in personal and professional life.
2. Provide nursing care utilizing professional knowledge and core competencies (critical thinking, communication, and technical skills) derived from a foundation of nursing science, general education, and religious studies.
3. Demonstrate initiative for continual personal and professional growth and development.
4. Act as a patient educator and advocate to promote optimal health and well-being.
5. Function independently and collaboratively, both as a leader and/or a member of the health care team, to manage and coordinate care.

# Minor in Nutrition (Traditional BSN)

18 units

The minor in nutrition is available to any APU student interested in expanding his or her skills in this specialized area of preventative health. Emphasis within this minor is on the four pillars of a healthful lifestyle: physical activity, good diet, healthy choices, and preventative screening—all crucial for national health. Contact the School of Nursing for the proposed study plan, verification of course offerings, and program availability.

## Requirements

| Code | Title | Units |

3. Demonstrate initiative for continual personal and professional growth and development.
4. Act as a patient educator and advocate to promote optimal health and well-being.
5. Function independently and collaboratively, both as a leader and/or a member of the health care team, to manage and coordinate care.

# Department of Upper-Division BSN Transfer

The School of Nursing offers several professional programs at the baccalaureate level designed for students who bring previous experience and learning and want to advance their nursing career and complete their degree. The BSN Upper-Division Transfer Program provides options for students with at least 48 units of transferable nursing prerequisite courses or Licensed Vocational Nurses (LVNs) to complete coursework that leads to a Bachelor of Science in Nursing.

## BSN Upper-Division Transfer Program Options

- The BSN Transfer Option (p. 648) is designed for transfer students interested in pursuing a Bachelor of Science in Nursing (BSN). The program enables students with at least 48 units of transferable nursing prerequisite courses to complete the nursing major in six consecutive semesters (two years, including summers) at APU.
- LVN Options: APU's School of Nursing offers two programs for the licensed vocational nurse (LVN)—the LVN to BSN Option (p. 648) and LVN to RN 30-Unit Option (p. 648). The School of Nursing acknowledges that licensed vocational nurses acquire formal nursing training, continuing education units, and on-the-job experiences (including military experiences) that may be assessed for academic credit. The Council for Adult and Experiential Learning (CAEL) (https://www.cael.org/) guidelines and the American Council on Education (ACE) (https://www.acenet.edu/Pages/default.aspx) are used to ensure a responsible evaluation. Students are evaluated individually. Open enrollment is available for the fall, spring, and summer semesters.

# Upper-Division BSN Transfer and LVN Options

## Admission Requirements for the BSN Upper-Division Transfer and LVN-to-BSN Programs

BSN Upper-Division Transfer (https://www.apu.edu/nursing/programs/bsn-transfer/) and LVN to BSN (https://www.apu.edu/nursing/programs/lvn-to-bsn/) applicants must meet the following admission requirements:

1. Submit an application to Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) indicating interest in becoming a nursing major and pursuing the BSN degree. Include in the application the following information:
   a. Official college transcripts for all colleges attended
   b. Two letters of recommendation
   c. A one-page statement of professional goals in nursing
   d. A résumé reflecting volunteer and paid work experience within the past three years. Please include leadership positions held within volunteer organizations, community service experience, and/or employment where applicable
   e. LVN applicants must include a copy of their current LVN license
2. Submit evidence of a minimum of 48 college or university semester units of transferable nursing prerequisite course requirements prior to the semester in which the student is requesting admission. See list of courses below.
3. Submit proof of achieving a minimum cumulative college or university grade-point average of *B* (3.0) or better.
4. Successfully complete Human Anatomy with lab (4 units), Chemistry with lab (4 units), Human Physiology (4 units), and General Microbiology with lab (4 units) with no lower than a *B-* (2.7) grade-point average.
5. Provide a writing sample that demonstrates written communication skills.
6. Candidates are considered for admission into the program once they have completed the prerequisite coursework and progress through the curriculum in a predetermined sequence with an assigned group of students (cohort model). All nursing coursework assigned to a specific semester is prerequisite for progression to the next semester.
7. Eligible candidates may be interviewed by the program director and reviewed by the admissions committee.
8. Candidates accepted into the program will be notified by the admissions representative and assigned to the appropriate semester.
9. An acceptance letter will be mailed to the candidate from the School of Nursing.

## Course Requirements and Sequences

All undergraduate nursing programs are designed with a specific course sequence that is determined by the School of Nursing. When each student is accepted into a program, a progression schedule is reviewed by the student and the advisor. Courses must be taken in the assigned sequence. Admission is based on a cohort model.

The Upper-Division BSN Transfer Program is based on a cohort model. Students complete the required 48 units of prerequisite coursework, then begin nursing coursework in the fall, spring, or summer semester and continue in sequence for three consecutive semesters per year.

### Prerequisite Coursework

| Code | Title | Units |
|---|---|---|
| **Prerequisite Nursing Requirements** | | |
| BIOL 220 | General Microbiology | 4 |
| BIOL 200 | Human Anatomy for Nursing [1] | 4 |
| BIOL 210 | Human Physiology for Nursing [2] | 4 |
| PRCH 123 | General, Organic, and Biological Chemistry for the Health Sciences [3,4] | 4 |
| **Prerequisite General Education Requirements** | | |
| Skills and University Requirements | | |
| PRCO 111 | Public Communication [5] | 3 |
| PRWR 112 | Writing 1A: Writing and Rhetoric for Professional Students [6] | 2 |
| PRWR 113 | Writing 1B: Research and Writing for Professional Students [6] | 2 |
| Humanities: Fine Arts Requirement | | 3 |
| Philosophy Requirement | | 3 |
| Humanities: History Requirement | | 3 |
| Humanities: Literature Requirement | | 3 |

| | | |
|---|---|---|
| PRPS 110 | General Psychology [7] | 3 |
| PRPS 290 | Human Growth and Development [7] | 3 |
| Electives | | 7 |
| Biblical, Theological and Philosophical Formation General Education requirements vary based on number of units transferred | | |
| **Total Units** | | **48-66** |

[1] BIOL 200 is equivalent to BIOL 250.
[2] BIOL 210 is equivalent to BIOL 251.
[3] Meets the General Education Natural Sciences requirement.
[4] PRCH 123 is the transfer equivalent to CHEM 123. Students who choose to meet this prerequisite at APU must enroll in CHEM 123.
[5] Meets the General Education Oral Communication requirement.
[6] Together, these courses meet the General Education Writing 1 requirement.
[7] Meets the General Education Social Sciences requirement.

## BSN Coursework

| Code | Title | Units |
|---|---|---|
| **Nursing Requirements** | | |
| UNRS 107 & 107P | Foundations of Professional Nursing and Foundations of Professional Nursing Practicum [1] | 4 (3/1) |
| UNRS 108 | Fundamentals in Nursing Practice | 2 |
| UNRS 113 | Pharmacology [2] | 2 |
| UNRS 212 & 212P | Nursing Care of Adults and the Aging and Nursing Care Of Adults/Aging Practicum | 6 (3/3) |
| UNRS 220 | Health Assessment | 3 (2/1) |
| UNRS 260 | Nutrition | 2 |
| UNRS 270 | Professional Concepts in Nursing | 3 |
| UNRS 299 | Statistics and Data Management for Nursing and Health Care [3] | 3 |
| UNRS 306 | Writing 2: Theoretical Frameworks in Nursing [4] | 3 |
| UNRS 310 & 310P | Mental Health Nursing and Mental Health Nursing Practicum | 4 (2/2) |
| UNRS 314 & 314P | Nursing Management and Restorative Care of Adults and Nursing Management and Restorative Care of Adults Practicum | 6 (3/3) |
| UNRS 367 | Pathophysiology | 3 |
| UNRS 386 & 386P | Population and Community Health Nursing and Population and Community Health Nursing Practicum [5] | 6 (3/3) |
| UNRS 402 & 402P | Nursing Care in Maternal, Newborn, and Women's Health and Nursing Care in Maternal, Newborn, and Women's Health Practicum | 4 (2/2) |
| UNRS 403 | Leadership and Management in Professional Practice | 2 |
| UNRS 404 & 404P | Nursing Care of Children and Young Adults and Nursing Care of Children and Young Adults Practicum | 4 (2/2) |
| UNRS 414 & 414P | Advanced Nursing Care of Adults and Advanced Nursing Care of Adults Clinical Practicum | 6 (2/4) |
| UNRS 425 | Nursing Research | 3 |
| UNRS 445 | Applied Pharmacology | 2 |
| UNRS 496 | Writing 3: Ethics and Issues in Health Care [6] | 4 |
| **TOTAL UNITS** | | **72** |

[1] Numbers in parentheses indicate classroom/clinical or lab units.
[2] May receive academic credit for this course through competency assessment.
[3] Meets the General Education Quantitative Literacy requirement.
[4] Meets the General Education Writing 2 requirement.
[5] Meets the General Education Requirements for Civic Knowledge and Engagement and Intercultural Competence.
[6] Meets the General Education Writing 3 requirement.

## LVN to RN 30-unit Option

Students choosing this option are admitted as terminal nondegree students. Upon completion of the requirements of the 30-unit option with a 2.0 GPA or better in all courses, students receive a certificate of completion, which establishes eligibility to take the California Board of Registered Nursing (https://www.rn.ca.gov/) examination for RN licensure as a nongraduate. Students should see a School of Nursing academic advisor for requirements. This program operates on a space-available basis for didactic and clinical coursework.

## Previous Education Credit

Students may be awarded credit for prior learning/coursework and clinical experience, including military education and experience, through a challenge examination and/or competency testing.

## Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Utilize a Christian worldview to integrate beliefs, values, ethics, and service in personal and professional life.
2. Provide nursing care utilizing professional knowledge and core competencies (critical thinking, communication, and technical skills) derived from a foundation of nursing science, general education, and religious studies.
3. Demonstrate initiative for continual personal and professional growth and development.
4. Act as a patient educator and advocate to promote optimal health and well-being.
5. Function independently and collaboratively, both as a leader and/or a member of the health care team, to manage and coordinate care.

# Department of RN to BSN

The RN to BSN (p. 651) degree completion program offers an alternative to the traditional method of pursuing a college nursing degree. The program is designed for adult learners who have an RN license or are enrolled in an accredited associate's degree in nursing (ADN) program and desire to complete a Bachelor of Science in Nursing (BSN). The program is a field-based modular design, delivered to cohort groups. Each student has an advisor who provides system guidance, directs special projects, and serves as mentor to individual learners.

Prospective students include registered nurses (RNs) working in hospitals and other areas of health care, as well as students enrolled in accredited ADN programs at community colleges.

The Bridge to BSN (https://www.apu.edu/nursing/programs/bridge-to-bsn/) option is designed for ADN students enrolled at a community college who wish to get an early start on coursework for the Bachelor of Science in Nursing (BSN) degree. BSN coursework is offered during summer sessions. After completion of their ADN program, students will complete remaining coursework to obtain their BSN from Azusa Pacific University. Admission requirements for the RN to BSN program must be met and the RN license obtained prior to taking upper-division clinical courses.

The RN to BSN Integrative Enrollment Pathway (p. 652) option is a BSN completion program offered only with select contracted community college ADN programs. Students who are formally admitted into ADN programs may apply for this BSN completion program in which they will start coursework as an APU student in semester one of their ADN program, taking courses concurrently with APU and the community college ADN program. This accelerated program allows students to complete the ADN from their community college *and* complete the BSN degree within two semesters of graduation from the ADN program.

The accelerated RN to BSN program is based on the same philosophy, purposes, graduate characteristics, and conceptual framework as the traditional undergraduate program. However, in recognition of the special needs and skills of the working adult, the curriculum is packaged to accommodate the adult student. The nursing courses are presented in sequence in a modular arrangement of content. Courses are designed to affirm personal and professional strengths. The teaching/learning process is collaborative—the experiences and insights that student contribute are a vital part of class activities.

Students join cohorts and progress through the courses together. Courses are taught sequentially, and the rich diversity of experiences that students contribute results in lively discussions involving shared experiences. Because students often stay with the same group throughout the program, they develop a strong rapport with other group members who act as a support system through the completion of the degree.

Classes are offered in an asynchronous online program.

Students may complete a BSN degree in approximately 15 months. In this accelerated format, a 40-semester-unit curriculum is concentrated into 60 weeks.

## Admission Requirements for RN to BSN Students

A minimum of 120 semester units of credit are required for the BSN. To be admitted to the 60-week accelerated RN to BSN program, a student must:

1. Provide a copy of RN license in good standing before starting clinical courses.
2. Graduate from an accredited associate degree program or diploma nursing program.
3. Have a minimum of 70 transferable semester units from an accredited college or university with a minimum GPA of 3.0 (2.7 GPA and above considered for provisional admission; 60-69 transferable semester units considered for provisional admission).
4. Submit official transcripts from all schools attended.
5. Provide two letters of recommendation.

## Admission Requirements for Bridge to BSN Students

A minimum of 120 semester units of credit are required for the BSN. To be admitted to the sequential enrollment, a student must:

1. Be currently enrolled in an accredited ADN program.
2. Have a minimum GPA of 3.0 (2.7 GPA and above considered for provisional admission).
3. Submit official transcripts from all schools attended.
4. Provide two letters of recommendation.

The program is not recommended for students who lack proficiency in basic academic skills, especially collegiate-level English communication skills.

International applicants with an F or J visa are not qualified for this program. International applicants with any other type of visa should consult with International Student Compliance (https://www.apu.edu/international/compliance/) first at +1-626-812-3055 or issimmigrationsvcs@apu.edu.

## Admission Requirements for RN to BSN Integrative Enrollment Pathway Students

Students who apply through the integrative enrollment pathway option must be formally accepted into a contracted community college ADN program. For the application, students need to supply unofficial transcripts, verification of acceptance into their ADN program, a personal statement, and student-information-sharing agreement. Once accepted, a progression schedule is reviewed by the student and the advisors, and courses must be taken in the assigned sequence. Students already enrolled in an ADN program do not qualify for integrative enrollment and should apply for the Bridge to BSN program. Students are required to complete 120 semester units of credit for the BSN, and official transcripts are required from all schools attended.

### Programs

- RN to BSN Degree Completion Program (p. 651)
- Bridge to BSN (https://www.apu.edu/nursing/programs/bridge-to-bsn/)
- RN to BSN Integrative Enrollment Pathway (p. 652)

# RN to BSN Degree Completion Program

40 units

## Requirements

The RN to BSN degree completion program (https://www.apu.edu/nursing/programs/rn-to-bsn/) (available only online) comprises the following:

Note: A total of 120 units is required to complete the BSN degree.

| Code | Title | Units |
|---|---|---|
| Prerequisite Courses [1] | | |
| Accelerated RN to BSN Courses | | |
| RNRS 321 | Health Assessment | 5 |
| RNRS 327 | Nursing Research and Statistics | 4 |
| RNRS 368 | Pathophysiology | 5 |
| RNRS 396 | Professional Practice: Ethics, Issues, and Spirituality in Health Care [2] | 6 |
| RNRS 458 | Writing 3: Evidence-Based Practice, Theory, and Clinical Pathways [3] | 5 |
| RNRS 469 | Improving Patient Outcomes: Quality, Safety, and Risk Management | 5 |
| RNRS 479 | Population Health and Public Health Nursing | 4 |
| RNRS 480 | Community Health and Care Transitions | 4 |

| | | |
|---|---|---|
| RNRS 482P | Clinical Practicum [4] | 2 |
| **Total Units** | | **40** |

[1] Students need a minimum of 70 units of transfer credits to complete the RN-BSN degree program.
[2] Meets the General Education Upper-Division Bible requirement.
[3] Meets the General Education Writing 3 requirement
[4] Meets the General Education Integrative and Applied Learning requirement.

## RN to BSN Integrative Enrollment Pathway Option

The 40-unit RN to BSN Integrative Enrollment Pathway (p. 652) option allows students to begin RN to BSN program coursework during their first semester of nursing school in an external Associate's Degree in Nursing (ADN) program; this is in contrast to the RN to BSN bachelor's completion program (for students who have graduated from an ADN program) and the Summer Bridge Option (for students enrolled in an ADN program who begin degree completion courses during the summer). Integrative-enrollment students must be formally accepted into an ADN program in order to apply and must maintain a 3.0 GPA during their combined coursework.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Utilize a Christian worldview to integrate beliefs, values, ethics and service in personal and professional life.
2. Provide nursing care utilizing professional knowledge and core competencies (critical thinking, communication, assessment and technical skills) derived from a foundation of nursing science, general education and religious studies.
3. Demonstrate initiative for continual personal and professional growth and development.
4. Act as a patient and family educator and advocate to promote optimal health and well-being.
5. Function independently and collaboratively, both as a leader and/or member of a health care team to manage and coordinate care.

# RN to BSN Integrative Enrollment Pathway

The 40-unit RN to BSN Integrative Enrollment Pathway option allows students to begin RN-BSN program coursework during their first semester of nursing school at an external Associate's Degree in Nursing (ADN) program; this is in contrast to the RN-BSN bachelor's completion program (for students who have graduated from an ADN program) and the Summer Bridge Option (for students enrolled in an ADN program who begin degree completion courses during the summer). Integrative Enrollment students need to be enrolled in an ADN program and must maintain a 3.0 GPA during their combined coursework.

Students apply for the integrative enrollment pathway after they have applied and are formally accepted into a contracted community college ADN program. Once a student is formally admitted to their ADN program, the student may then apply to the integrative enrollment pathway program at APU. For the application, students will need to supply unofficial transcripts, verification of acceptance into their ADN program, personal statement, and student information sharing agreement. Once accepted, a progression schedule is reviewed by the student and the advisors, and courses must be taken in the assigned sequence. Students already enrolled in an ADN program do not qualify for integrative enrollment and should apply for the Bridge to BSN program. Official transcripts are required from all schools attended.

## Coursework

| Code | Title | Units |
|---|---|---|
| **Prerequisite Courses** [1] | | |
| **RN-BSN Integrative Enrollment Pathway** | | |
| RNRS 368 | Pathophysiology | 5 |
| RNRS 321 | Health Assessment | 5 |
| RNRS 396 | Professional Practice: Ethics, Issues, and Spirituality in Health Care [2] | 6 |
| RNRS 327 | Nursing Research and Statistics | 4 |
| RNRS 458 | Writing 3: Evidence-Based Practice, Theory, and Clinical Pathways [3] | 5 |
| RNRS 469 | Improving Patient Outcomes: Quality, Safety, and Risk Management | 5 |
| RNRS 479 | Population Health and Public Health Nursing | 4 |
| RNRS 480 | Community Health and Care Transitions | 4 |

| RNRS 482P | Clinical Practicum [4] | 2 |
|---|---|---|
| **Total Units** | | **40** |

[1]    Students need a minimum of 70 units of transfer credits to complete the RN-BSN degree program.
[2]    Meets the General Education Upper-Division Bible requirement.
[3]    Meets the General Education Writing 3 requirement.
[4]    Meets the General Education Integrative and Applied Learning requirement.

# Graduate Nursing Programs

The School of Nursing offers post-baccalaureate credentials, the Master of Science in Nursing (MSN), post-masters' certificates, the doctor of nursing practice (DNP) and the doctor of philosophy in nursing (Ph.D.)  Baccalaureate-prepared nurses can advance their careers to become healthcare administrators, clinical nurse specialists, nurse educators, nurse practitioners, or school nurses.  All programs are accredited by the Commission on Collegiate Nursing Education and approved by the California Board of Registered Nursing.  The School Nurse Service Credential Program is accredited by the California Commission on Teacher Credentialing.

The curriculum for these programs combines theory, research, and experiences necessary to develop professional skills.  It reflects the School of Nursing Mission and is aligned with professional standards and guidelines for nursing education.  Graduates of Advanced Practice Nursing tracks are eligible for California state certification and national board certification examinations in the population focus area.

## Master of Science in Nursing

The master of science in nursing program is designed for working nurses and can be completed in six to nine semesters, depending on the specialty chosen.  It prepares the nurse for advanced nursing practice as advanced practice registered nurses (APRNs), nurse educators, and healthcare administrators.  The School Nurse Services Credential and the APRN program is a hybrid program with a combination of on-campus meetings, supervised direct clinical practice, synchronous online classes, and asynchronous classes.  Students applying to the APRN program must have a minimum of one year of nursing experience and must reside in Southern California.  The nurse educator and healthcare administration programs are asynchronous online and available to any applicant.

The core curriculum of the MSN program deepens the ability of nurses to reason, lead, engage in scholarly inquiry, and apply knowledge from nursing and other disciplines to improve the healthcare of patients and populations in a complex health-care system. Core courses include GNRS 504 Bioethics and Healthcare, GNRS 506 Spiritual Concept Analysis in Health Care, and GNRS 508 Research and Theory.  Candidates for the MSN successfully complete GNRS 597 Comprehensive Exam Directed Study by proposing a change project in their area of specialization.

## Post-Master Certificates

All master's level tracks are available to students who possess a masters or doctoral degree in nursing based on seating availability. Previous coursework is reviewed and a tailored program of study is created for each candidate who matriculates into the program.  All requirements for national certification and California BRN licensing as a nurse practitioner or clinical nurse specialist must be met before the credential will be issued.

## Doctoral Studies

The Department of Doctoral Studies offers two doctoral programs, the Doctor of Philosophy (PhD) in Nursing and the Doctor of Nursing Practice (DNP). Scholarship is fundamental to both programs. The PhD is a research-based program that primarily prepares students to conduct independent research and disseminate their findings. The DNP program is clinically focused and provides graduates with the expertise to assess nursing research evidence, evaluate the impact of nursing research on nursing practice (evidence-based practice), and take a leadership role in making changes in the healthcare environment to enhance the quality of care. The department also offers a Bachelor of Science in Nursing (BSN) to DNP pathway that allows RNs with a BSN to enter directly into the DNP program without first earning an MSN degree.

## Nursing Education

The Master of Science in Nursing (MSN) in Nursing Education (p. 714) prepares nurses for teaching roles in a variety of settings, including traditional and nontraditional academic settings, online/distance settings, and clinical and community settings, using cutting-edge technology and teaching-learning methods. The program emphasizes competencies needed for students to complete the Certified Nurse Educator (CNE) certification examination, and is aligned with the American Association of Colleges of Nursing's The Essentials of Master's Education in Nursing (AACN, 2011) and the National League for Nursing's Nurse Educator Competencies (NLN, 2022).

## Healthcare Administration

The Master of Science in Healthcare Administration (p. 719) is for those with bachelor degrees in nonclinical fields who are working professionals that want to advance and are interested in management and leadership positions in healthcare settings. The program provides students with the competencies necessary to develop and implement solutions that address today's unique challenges facing the healthcare industry. Conceptual, analytical, and experiential skills required to manage contemporary healthcare organizations are emphasized with field experience designed to advance preparation for a management role.

**Master of Science in Nursing Program Learning Outcomes**

Graduates of the Master of Science in Nursing program will be able to:

1. Articulate a Christian worldview, demonstrating respect for the dignity and uniqueness of others, valuing diversity, and applying spiritual concepts.

2. Engage in scholarly inquiry and critical thinking, including evaluation and application of evidence-based research.
3. Appraise and apply knowledge to develop, implement, and evaluate interventions that promote health and prevent disease.
4. Demonstrate thoughtful analysis of the legal, political, ethical, and/or financial factors impacting health care.

5. Use information systems and other technology to communicate, manage knowledge, promote quality, mitigate error, and support decision making.

6. Demonstrate the ability to coordinate and collaborate with other healthcare team professionals.
7. Engage in clinical reasoning and effective communication, and act as a change agent to develop professional identity and practice skill.

**Transfer of Credits**

Following admission, 9 units of approved graduate work completed elsewhere may be applied toward the MSN degree. Advanced Health Assessment may be considered for transfer credit if it was taken postlicensure as a registered nurse and the student was enrolled in an advanced practice nursing program. Advanced Pharmacology may be considered for transfer credit toward GNRS 611 (formerly GNRS 594) if it was taken less than 24 months prior to the APU MSN program admit date.

**Additional Requirements**

During the admission process, a review of academic transcripts is performed to assess whether the applicant has completed the prerequisite courses listed below. If not, students must complete the prerequisite courses as part of their MSN program before continuing to advanced practice courses (e.g., take undergraduate health assessment before advanced health assessment; take applied statistics and a nursing research course before the advanced practice research course).

**Code Title Prerequisite Courses for MSN APRN Program**

At the beginning of clinical coursework, including health assessment lab, students are required to provide documentation including RN licensure, CPR certification, TB screening, and immunizations appropriate for the clinical setting.

A student's health status must permit him/her to safely undertake and complete clinical experience required for the degree. As a fully prepared health professional, the student is expected to take responsibility for self-evaluation of her/his health status, including an assessment of the safety and appropriateness of practice in the clinical context, for the student and the patient.

The Joint Commission (https://www.jointcommission.org/), contracted facilities, and the School of Nursing require that all graduate students undergo a background check prior to their placement at clinical sites. The cost of the background check is the responsibility of the student. International students will have additional fees based on the cost of a background check in their country.

The MSN program requires that students have ongoing clinical work experience.
Students may select additional elective courses to support their programs of study as directed by faculty.

# Departments

# Department of Advanced Practice Registered Nursing

## Department of Advanced Practice Registered Nursing

The Department of Advanced Practice Registered Nursing offers the Adult-Gerontology Clinical Nurse Specialist (p. 674), Adult-Gerontology Nurse Practitioner (Primary Care) (p. 675), Family Nurse Practitioner (p. 676), Pediatric Clinical Nurse Specialist (p. 674), Pediatric Nurse Practitioner (Primary Care) (p. 678), and the Psychiatric-Mental Health Nurse Practitioner (p. 678). All of the tracks are available to students seeking the Master of Science in Nursing degree or a Post-Master Certificate. The Adult-Gerontology Primary Care Nurse Practitioner and the Family Nurse Practitioner

programs are also available to students pursuing the BSN to Doctor of Nursing Practice (p. 740) (BSN to DNP) pathway. The Department of Advanced Practice Registered Nursing also offers the School Nurse Services Credential (p. 679) (SNSC). The School Nurse Services Credential can be taken as a stand-alone post-baccalaureate credential, a Master of Science School Nurse Service Credential, or as an integrated Family Nurse Practitioner with SNSC or Pediatric Nurse Practitioner - Primary Care with SNSC.

The curriculum for these programs reflects the School of Nursing mission and is aligned with professional education standards for nursing. The programs are accredited by the Commission on Collegiate Nursing Education (https://www.aacnnursing.org/CCNE/), the California Board of Registered Nursing (https://www.rn.ca.gov/), and the California Commission on Teacher Credentialing (https://www.ctc.ca.gov/). Graduates are eligible to apply for state certification or a credential in their specialty and may take national certification examinations where these are offered through specialty organizations.

## Program Learning Outcomes

Graduates of the Master of Science in Nursing program will be able to:

1. Articulate a Christian worldview, demonstrating respect for the dignity and uniqueness of others, valuing diversity, and applying spiritual concepts.
2. Engage in scholarly inquiry and critical thinking, including evaluation and application of evidence-based research.
3. Appraise and apply knowledge to develop, implement, and evaluate interventions that promote health and prevent disease.
4. Demonstrate thoughtful analysis of the legal, political, ethical, and/or financial factors impacting health care.
5. Use information systems and other technology to communicate, manage knowledge, promote quality, mitigate error, and support decision making.
6. Demonstrate the ability to coordinate and collaborate with other healthcare team professionals.
7. Engage in clinical reasoning and effective communication, and act as a change agent to develop professional identity and practice skill.

## Transfer of Credits

Following admission, 9 units of approved graduate work completed elsewhere may be applied toward the MSN degree. Advanced Health Assessment may be considered for transfer credit if it was taken postlicensure as a registered nurse and the student was enrolled in an advanced practice nursing program. Advanced Pharmacology may be considered for transfer credit toward GNRS 611 (formerly GNRS 594) if it was taken less than 24 months prior to the APU MSN program admit date.

## Additional Requirements

During the admission process, a review of academic transcripts is performed to assess whether the applicant has completed the prerequisite courses listed below. If not, students must complete the prerequisite courses as part of their MSN program before continuing to advanced practice courses (e.g., take undergraduate health assessment before advanced health assessment; take applied statistics and a nursing research course before the advanced practice research course).

| Code | Title | Units |
|---|---|---|
| **Prerequisite Courses for MSN APRN Programs** | | |
| MATH 130 | Introduction to Statistics | 3 |
| or UNRS 299 | Statistics and Data Management for Nursing and Health Care | |
| UNRS 220 | Health Assessment | 3 |
| UNRS 367 | Pathophysiology | 3 |
| UNRS 382 | Community Health Nursing | 3 |
| UNRS 403 | Leadership and Management in Professional Practice | 2 |
| UNRS 425 | Nursing Research | 3 |
| **Total Units** | | **17** |

At the beginning of clinical coursework, including health assessment lab, students are required to provide documentation including RN licensure, CPR certification, TB screening, and immunizations appropriate for the clinical setting.

A student's health status must permit him/her to safely undertake and complete clinical experience required for the degree. As a fully prepared health professional, the student is expected to take responsibility for self-evaluation of her/his health status, including an assessment of the safety and appropriateness of practice in the clinical context, for the student and the patient.

The Joint Commission (https://www.jointcommission.org/), contracted facilities, and the School of Nursing require that all graduate students undergo a background check prior to their placement at clinical sites. The cost of the background check is the responsibility of the student. International students will have additional fees based on the cost of a background check in their country.

The MSN program requires that students have ongoing clinical work experience.

Students may select additional elective courses to support their programs of study as directed by faculty.

## Programs

**MSN with Single Specialties**

## Courses

## GNRS 500, Conceptual Foundations of Professional Nursing, 3 Units

This course focuses on the introductory concepts crucial to the socialization of second career students to professional nursing. The history of nursing, the evolution of nursing in the U.S., the art and science of nursing, the legal and professional basis of nursing, the role of nursing in the health care delivery system, and current issues and trends in nursing education, practice and research are emphasized.

## GNRS 501, Theoretical Thinking in Nursing, 2 Units

This course examines questions about the nature and construction of theory and how theoretical ideas are developed and used in nursing practice and research. Philosophical ideas underlying theory are examined, and selected theoretical models and theories are explored.
**Prerequisite:** Completion of undergraduate research course or instructor's consent; admission to ELM or MSN program.

## GNRS 503, Cultural Competency in Health Care, 3 Units

This course focuses on transforming graduate nursing students, preparing them for nursing leadership in nursing practice, nursing research, education, and public health policy for the improvement of patient healthcare outcomes in our increasingly diverse society. Students move from cultural sensitivity and awareness to critical reflection and action, challenging their assumptions and broadening their perspectives. The Essentials of Master's Education in Nursing (American Association of Colleges of Nursing, 2011) serves as the foundation for the development of core cultural competencies.
**Prerequisite:** Graduate standing in the School of Nursing.

## GNRS 504, Bioethics and Healthcare Policy, 3 Units

This course will outline the role of the healthcare leader in ensuring human rights are upheld in healthcare systems. This course focuses on bioethical analysis, decision-making and moral policy analysis, and formulation. Through course discussion, group and individual assignments, and oral and written presentations, students will analyze and apply bioethical principles to decision- and policy- making processes in the workplace and at national levels. Healthcare ethics and policy will be considered from a Christian worldview.
**Prerequisite:** Graduate standing

## GNRS 505, Christian Formation for Holistic Care, 3 Units

Students engage in the process of discovering the foundational values of Azusa Pacific University that serve as guiding principles for the distinctive education they will receive. They are made aware of the Christian worldview and its implications for personal holistic development and care. With a focus on developing motivating character and integrated caregivers, the course brings heightened self-awareness, the impact of a Christian worldview on vocation, scriptural awareness especially emphasizing healing themes in the life of Christ, and the importance of spiritual growth on the journey toward formation.

## GNRS 506, Spiritual Concept Analysis in Health Care, 3 Units

Scholarly research and analysis of selected concepts in the spiritual care of persons from the Judeo-Christian perspective provide a central focus to the course. Students also examine healthcare research/other healthcare literature for adequacy with respect to the concept they select. Various assignments facilitate greater student awareness of their own spiritual journey and knowledge of faith traditions other than their own. The course is conducted as a tutorial/seminar experience.
**Prerequisite:** Graduate standing

## GNRS 507, Scientific Writing, 3 Units

This course provides opportunities for students to learn how to introduce a topic or issue, articulate a thesis, support and develop a thesis and subordinate claims, work with secondary sources, and organize an argument.

## GNRS 508A, Research and Theory in Advanced Practice Nursing, 4 Units

This course prepares nurses to use theory and research evidence in advanced clinical practice. The relationship between theory and research is examined, exploring questions about the nature, construction, and use of each. Selected theoretical models and theories are explored, and students learn how ideas are developed and used in nursing practice and research. Students deepen their understanding of the research process by engaging in a systematic search, critique, and summary of research studies with direct application to nursing practice. Experience in statistical analysis of research data is included.
**Prerequisite:** Computer literacy, undergraduate research course, undergraduate statistics course, and graduate standing

## GNRS 508B, Research and Theory in Healthcare, 4 Units

This course prepares the healthcare administrator to apply theory and research evidence in healthcare environments. The relationship between theory and research is examined, exploring questions about the nature, construction, and use of each. Selected theories are explored, and students learn how ideas are developed and used in practice and research. Students learn the fundamentals of quantitative, qualitative, and mixed methods research and deepen their understanding through systematic search, critique, and summary of research studies with application to healthcare. Students work in groups to develop a research plan addressing a healthcare-derived question. Experience in statistical analysis of research data is included.
**Prerequisite:** GNRS 613

## GNRS 510, Family Theory in Health Care, 2 Units

The major theoretical perspectives for understanding the family as a core unit of analysis are studied. This course fosters the student's recognition of the family's responsibility for health. Factors such as family patterns and care-giving tasks of families experiencing catastrophic or chronic alteration in health care are examined. This class is offered online.
**Prerequisite:** Graduate standing

## GNRS 511, Advanced Pediatric Health Assessment and Health Promotion, 4 Units

This course develops the graduate nurse's assessment skills and focuses on the promotion of health in the pediatric population from the newborn period through adolescence. Emphasis is on adapting and expanding the medically focused history and physical assessment to incorporate the assessment of traditional health practices and identify culturally relevant and age-appropriate health promotion strategies. Outcomes are examined in light of related theoretical concepts. Strategies for health promotion include a focus on developmental and behavioral assessments, emotional health, nutrition, counseling to modify risk factors, and screening tests/prophylaxis for early detection and prevention of disease.
**Prerequisite:** Undergraduate health assessment and GNRS 610;
**Corequisite:** Practicum

## GNRS 513, Advanced Nursing Practice Role, 2 Units

This course focuses on the concepts of role development and performance competence of the nurse in advanced clinical practice within the context of a reformed health care delivery system. Emphasis is placed on the clinician, educator, clinical program manager, consultant, researcher, and case manager roles of the advanced practice nurse. The leadership aspects of the roles of advanced practice are explored in relation to health care delivery, policy formulation, and legislation. The course explores theories and issues related to the advanced nursing practice role.
**Prerequisite:** Graduate standing

## GNRS 514, Research Proposal Writing, 2 Units

This course focuses on the application of the concepts in GNRS 508A. The goal is the completion of a research proposal that details the problem, the research purpose, questions or hypotheses to be tested, a critique of the literature, the design and methods of the study including protection of human subjects, the plans for analysis, use of the study, and the budget and personnel.
**Prerequisite:** GNRS 508A

## GNRS 516, Integrative Disease and Symptom Management, 3 Units

Using a systems-based approach, this course provides the student with a broad-based, graduate-level overview for understanding disease processes, treatment modalities, assessment and interventional strategies for patients across the life span.

## GNRS 517, Fundamentals in Nursing Practice, 2 Units

This is an experiential learning course designed to teach basic nursing skills in a clinical skills or simulation laboratory setting to prepare students to deliver safe and patient-focused nursing care. Utilizing the nursing process, students perform basic skills in assessment, patient care across the continuum, documentation, patient-family teaching, and infection control.

## GNRS 518, Supervised Practicum in Health Care, 3 Units

This course prepares students to integrate and apply theory, evidence-based practice, and national guidelines and standards in practicum settings. Students select practicum areas in which, with faculty approval, they will participate in experiences led by preceptors. The purpose of the course is to equip students with current, evidence-based knowledge in a selected practice area.

## GNRS 520, Theory and Practice of the Clinical Nurse Specialist in Nursing Care of Adult-Gerontology Patients, 6 Units

Critical concepts in advanced collaborative management of adult-gerontology client populations by Clinical Nurse Specialists are studied. Differential diagnosis, pharmacologic management, cultural sensitivity, adult-gerontology continuum of health and illness (i.e., wellness, health promotion, disease prevention), teaching-learning theory, and evidence-based best practices for clinical decision-making for the Adult and Geriatric population are highlighted. CNS roles, competencies, and professional issues and integrated clinical rotations will be chosen from critical care or medical-surgical adult-gerontology populations. Clinical seminar times allow students to discuss and analyze current professional issues and clinical problems in a collegial atmosphere.

**Prerequisite:** Academic Core and Advanced Practice Core courses, current RN license, CPR certificate, and meets health screening requirements;
**Corequisite:** Practicum

## GNRS 521, Clinical Specialization in the Care of Adult-Gerontology Patients, 6 Units

The course prepares the student to apply concepts introduced in GNRS 520. It focuses on diagnosis and collaborative disease management of acute illness in the adult-gerontology patient by the Clinical Nurse Specialist. The integration of advanced skill development, theory and evidence based practice, disease management, clinical decision making, unit and organization management issues, professional issues and APRN role competencies are the foundation for this course. Practicum and seminars are planned to span the breadth of the students' clinical opportunities.

**Prerequisite:** Academic Core and Advanced Practice Core courses, GNRS 520, current RN license, CPR certificate, and meets health screening requirements;
**Corequisite:** Practicum

## GNRS 522, Disaster Nursing and Emergency Preparedness, 3 Units

This course explores the nature of disasters and prepares nurses to respond to various types of disasters - including natural, environmental, mass casualty, public health emergencies, terrorism, and bioterrorism - by utilizing essential knowledge, skills, values, meanings, and experience in the basic competencies of emergency preparedness and disaster nursing. In accordance with the position of major nursing organizations, emphasis is placed on evidence-based best practices for personal preparedness.

**Prerequisite:** Comparable course, such as UNRS 312 Nursing Management of Adults, a human growth and development course, a lifespan course OR an RN licensure.

## GNRS 530, Theory and Practice of the Clinical Nurse Specialist in the Care of the Pediatric Patient, 6 Units

Critical concepts in the advanced collaborative management of pediatric client populations by the Clinical Nurse Specialists are studied. Differential diagnosis, pharmacologic management, cultural sensitivity, pediatric continuum of health and illness (i.e., wellness, health promotion/disease prevention), teaching-learning theory, and evidence-based/best practices for clinical decision-making for the Pediatric population are highlighted. CNS roles, competencies, and professional issues are integrated. Clinical rotations will be chosen from critical care or medical-surgical pediatric populations. Clinical seminar times allow students to discuss and analyze current professional issues and clinical problems in a collegial atmosphere.

**Prerequisite:** Academic Core and Advanced Practice Core courses, current RN license, CPR certificate, and meets health screening requirements;
**Corequisite:** Practicum

## GNRS 531, Clinical Specialization in the Care of the Pediatric Patient, 6 Units

The course prepares the student to apply concepts introduced in GNRS 530. It focuses on diagnosis and collaborative disease management of acute illness in the pediatric patient by the Clinical Nurse Specialist. The integration of advanced skill development, theory and evidence based practice disease management, clinical decision making, unit and organization management issues, professional issues and APRN role competencies are the foundation for this course. Practicum and seminars are planned to span the breadth of the students' clinical opportunities.

**Prerequisite:** Academic Core and Advanced Practice Core courses, GNRS 530, current RN license, CPR certificate, and meets health screening requirements;
**Corequisite:** Practicum

## GNRS 532, Advanced Nursing Practice in Pediatrics, 6 Units

This course emphasizes physiological and psychological bases for critical and chronic conditions in children, focusing on an advanced science base for the assessment, diagnosis, and management of children and families to promote wellness. Exploration of traditional versus alternate medicine treatment plans, as well as relevant cultural, spiritual, and health promotion strategies, is incorporated.

**Prerequisite:** Graduate status and GNRS 590A;
**Corequisite:** Practicum

## GNRS 533, Psychiatric Theories across the Life Span, 2 Units

This course presents neurobiologic, neuroendocrine, genomic, behavioral, and psychodynamic theories of psychiatric mental illnesses as they manifest among members of diverse cultural groups across the life span. A theoretical foundation for subsequent coursework in primary psychiatric mental health care is provided for the role of the psychiatric mental health nurse practitioner.

**Prerequisite:** Graduate standing, Advanced Practice Core

## GNRS 534, Integrated Psychiatric and Health Assessment across the Life Span, 2 Units

This course teaches the role of the psychiatric mental health nurse practitioner in interviewing, assessing, and utilization of other data collection methods to elicit, analyze, and evaluate bio-psychosocial information regarding psychiatric mental health illness as experienced and understood by the clients, across the lifespan. Assessment and integration of the effects of potential and/or existing co-morbid health problems are focused upon. Diagnostic reasoning that is based on the Diagnostic Statistical Manual is foundational in the course. Development of differential diagnoses and disease management, evidence-based practice, and health promotion that includes client and nurse practitioner collaboration is emphasized.
**Prerequisite:** Advanced Practice Core, GNRS 533 (May be taken concurrently)

## GNRS 535, Psychiatric Interventions and Health Promotion across the Life Span, 6 Units

In this course students learn historical, theoretical, and contemporary evidence-based psychotherapies that promote and support client stabilization, rehabilitation, and recovery. The client as a collaborating decision making consumer and the client-clinician therapeutic alliance are central to this course. Students increase competence in assessment of psychiatric mental health illnesses, differential diagnoses and disease management, implementation of psychotherapy (individual, group, family), medication management, and health promotion interventions, including motivational interviewing. Student competence in developing and facilitating therapeutic groups as a recovery modality are included in the course. The role of the psychiatric mental health nurse practitioner in the integration and coordination of support services that impact mental health and illness is also included. Students practice verbal psychotherapeutic skills that motivate and facilitate client self-management and progression toward recovery.
**Prerequisite:** Advanced Practice Core, GNRS 533 and GNRS 534; GNRS 539 may be taken concurrently;
**Corequisite:** Practicum

## GNRS 536, Psychiatric Mental Health Care with Adults and Older Adults, 6 Units

In this course students increase their knowledge and competence in the assessment of psychiatric mental health illnesses, differential diagnoses and disease management, implementation of psychotherapy (individual, family, group), evidence-based practice, medication management, health promotion and disease prevention interventions, integration and coordination of support services, with adults and older adults.
**Prerequisite:** GNRS 533, GNRS 534, GNRS 535, GNRS 539;
**Corequisite:** Practicum

## GNRS 537, Psychiatric Mental Health Care with Children and Adolescents, 6 Units

In this course, students increase competence in the role of the psychiatric mental health nurse practitioner in the assessment of psychiatric mental health illnesses, differential diagnosis and disease management, implementation of psychotherapy (individual, family, group), evidence-based practice, medication management, health promotion and disease prevention interventions, integration and coordination of support services with children, adolescents, and families.
**Prerequisite:** GNRS 533, GNRS 534, GNRS 535, GNRS 536, GNRS 539;
**Corequisite:** Practicum

## GNRS 538, Psychiatric Mental Health Care with Selected Populations, 5 Units

Students increase knowledge and competence in the assessment of psychiatric and mental health illnesses, differential diagnosis and disease management, implementation of psychotherapy (individual, family, group), medication management, health promotion and disease prevention interventions, and integration and coordination of support services with a selected population. Focus is on integrating and practicing all aspects of the role of the psychiatric mental health nurse practitioner with clients who are experiencing acute and/or chronic mental health problems and psychiatric disorders.
**Prerequisite:** GNRS 533, GNRS 534, GNRS 535, GNRS 536, GNRS 539;
**Corequisite:** Practicum

## GNRS 539, Psychopharmacology, 2 Units

Students in this course build upon knowledge of advanced practice nursing and provides content essential for the psychiatric mental health nurse practitioner to prescribe appropriate pharmacologic treatment in practice. Mechanisms of action, interactions, side effects, and prescribing guidelines for psychopharmaceuticals commonly utilized across the lifespan are addressed.
**Prerequisite:** GNRS 533, GNRS 534; GNRS 535 (May be taken concurrently)

## GNRS 542, Advanced Concepts and Competencies in Pediatric Primary Health Care, 3 Units

This course offers a comprehensive review and synthesis of core concepts and competencies for the pediatric advanced practice nurse in the primary care setting. This culminating experience for pediatric nurse practitioner students incorporates seminar discussions and clinical practicum placement, and also allows for a discussion of developmental/behavioral issues, management of acute and chronic care illnesses seen in primary care settings, and preventative health care.
**Prerequisite:** Graduate standing, GNRS 532 (may be taken concurrently with instructor's permission), and GNRS 590A;
**Corequisite:** Practicum

## GNRS 543, Transitions Across the Care Continuum, 4-6 Units

This course focuses on principles and models of care and their implementation in a multidisciplinary practice environment that emphasizes healthcare delivery through integration of services and transition management. Students are introduced to decision making related to allocation of resources and services, development of protocols, and evaluation of management approaches. Evidence-based approaches to the clinical, administrative, educational, and research dimensions of patient care are emphasized. Evaluation of care management activities with the student's selected clinical population is an integral component of the course.
**Prerequisite:** NP students: completion of Advanced Practice Core; CNS students: completion of Advanced Practice Core and GNRS 520 or GNRS 530; HAL students: completion of MSN Core and GNRS 560.
**Corequisite:** Practicum

## GNRS 544, Clinical Specialization Residency, 2-4 Units

This elective residency program, formed through a partnership between the School of Nursing and selected community healthcare organizations, is an intensive, precepted clinical experience that helps students transition to beginning professional nurses in a specialized setting. It enhances students' skill and practice knowledge in preparation for the RN licensing examination, and increases their ability to perform clinical reasoning with the assigned patient population and evaluate the QSEN competencies of patient-centered care, safety, evidence-based practice, informatics, and teamwork and collaboration.
**Prerequisite:** ELM students must complete GNRS 573 (may be taken concurrently), but GNRS 573 is not required for nurses in community partnerships who are taking GNRS 544 for continuing education credit.

## GNRS 546, Theory and Practice in Health Care Systems in the Community, 6 Units

This specialized course prepares RNs without a bachelor's degree for graduate study in nursing. A multiple theoretical focus that includes concepts from systems, stress, adaptation, developmental, and role theory is emphasized. A beginning practice in the utilization of the nursing process with an emphasis on nursing diagnosis and the nurse's role in assessing, planning, implementing, and evaluating care of clients in a variety of community settings is provided. Collaboration with community-based organizations and services that provide health restoration, maintenance, illness prevention, and client education services to individuals and families at home are essential course components. A review of legal mandates for practice and discussion of ethical dilemmas and issues related to high quality nursing care are included. Specific content varies based on the students' prior education and experience. Clinical placements are arranged to meet the individual student's needs.
**Prerequisite:** Undergraduate research, pathophysiology, and health assessment;
**Corequisite:** Practicum

## GNRS 547, Nursing Leadership in Acute Care Settings, 6 Units

This is one of two clinical courses provided for the RN who seeks both a bachelor's and master's degree in nursing. The course synthesizes selected information from the generic bachelor's and master's programs for presentation in a condensed format, addressing the development and nature of today's health care systems and associated issues in the United States. Further, content familiarizes the student with several roles and responsibilities of the contemporary nurse, such as leader, consultant, teacher, manager, and client advocate. The course focuses on client needs in acute health care settings and emphasizes the relationship between the health care system and the advocate.
**Prerequisite:** Undergraduate research, pathophysiology, and health assessment;
**Corequisite:** Practicum

## GNRS 548, Health Promotion Across the Lifespan, 2 Units

The course focuses on health promotion and disease prevention across the lifespan and around the globe. The course includes exploration of population health issues, environmental implications in health and health policy, impact on health promotion and the development of disease.
**Prerequisite:** Academic Core and Advanced Practice Core courses, current RN license, CPR certificate, and meets health screening requirements

## GNRS 550A, Theory and Practice in School Nursing, 6 Units

This combined didactic and clinical course provides theoretical content and field experiences that emphasize the multifaceted role of the school nurse. Students participate in field experiences and classroom learning activities that focus on the assessment and management of children's healthcare needs in various school settings. This course equips students with the necessary tools and skills to successfully function as professional school nurses. At the conclusion of this course, students are able to successfully function as providers of health education as well as providers, planners, and coordinators of health care in school settings.
**Prerequisite:** GNRS 612 or instructor consent, and admission to School Nurse Services Credential program;
**Corequisite:** Practicum

## GNRS 554, Medical-Surgical Care of the Adult and Geriatric Patient, 5 Units

This course introduces crucial concepts in professional nursing care, such as the nursing process, communication, therapeutic interventions, critical thinking, and critical reasoning. Course material focuses on the application of biological, psychosocial, and spiritual concepts to adult and elderly clients in various healthcare settings with acute and/or chronic illnesses. The nursing process is utilized to provide care to one or two adult clients within the healthcare delivery system. The clinical practicum focuses on the cognitive basics, scientific principles, and manipulative components of psychomotor skills used when providing nursing care.
**Prerequisite:** Admission to the ELM program, completion of all prerequisite courses for the program.
**Corequisite:** GNRS 554P

## GNRS 555, Medical Surgical Care of the Adult and Geriatric Patient, 7 Units

This course introduces crucial concepts to professional nursing care such as nursing process, communication, therapeutic interventions, and critical thinking and clinical reasoning. The course focuses on the application of biological, psychosocial, and spiritual concepts to hospitalized adult and elderly clients with acute and/or chronic illnesses. Students will be guided in critical thinking and clinical reasoning exercises in the management of hospitalized clients. Nursing process is utilized to provide care to one or two adult clients within the health care delivery system of an acute care setting. The clinical practicum focuses on the cognitive basis, scientific principles, and manipulative component of psychomotor skills used when providing nursing care. Students have an opportunity to practice simulated clinical skills.
**Prerequisite:** Admission to the ELM program, completion of all prerequisite courses for the program;
**Corequisite:** Practicum

## GNRS 556, Intermediate Medical Surgical Care of the Adult, 7 Units

This course is designed to build on the base of medical-surgical nursing knowledge from GNRS555. The course focuses on comprehensive nursing care to patients with acute need for continuous cardiac monitoring, pulse oximetry monitoring, or ventilator assistance in telemetry units, in restorative care setting, or long-term care setting.
**Prerequisite:** Admission to the ELM program; successful completion of GNRS 555;
**Corequisite:** Practicum

## GNRS 557, Medical Spanish for Advanced Practice Nurses, 3 Units

This course provides non-Spanish-speaking advanced-practice nursing students with foundational knowledge of Spanish language structure and vocabulary, helping them build appropriate phrasing to facilitate communication in healthcare settings. Cultural issues relevant to health and illness in the Latino community are also addressed.
**Prerequisite:** Graduate nursing student standing, or instructor's permission

## GNRS 558, Intermediate Medical-Surgical Care of the Adult, 6 Units

This course is designed to build on the base of medical-surgical nursing knowledge from prior nursing courses. The course focuses on comprehensive nursing care to patients with acute need for continuous cardiac monitoring, pulse oximetry monitoring, or ventilator assistance in telemetry units, restorative care settings and long-term care settings.
**Corequisite:** GNRS 558P

## GNRS 559, Audiometry for School Nurses, 3 Units

This course provides didactic instruction via eCollege and eight hours of on-site practicum experience that emphasizes the content and clinical expertise necessary to fulfill the requirements of the State of California School Hearing Conservation Program and training for the school audiometrist. The course focuses on the physiologic process of hearing and how to assess for deficits in hearing in children of all ages. At the conclusion of the course, and after having completed successfully all learning objectives, the student is eligible to submit an Application for Registration as a School Audiometrist in the State of California (a $10 registration fee is required with the application).

## GNRS 560, Strategic Leadership in Health Care, 3 Units

This course is designed to develop knowledge, skills and attitudes about leadership across the healthcare continuum. The student will consider the professional role of the healthcare administrator both from a leadership and a management perspective. Areas of concentration will include leadership theory, structure of healthcare institutions, systems thinking and decision-making, performance improvement including quality and safety issues, risk management and effective communication skills. Application of business skills will be integrated. Students will consider the theoretical and research background, current issues and trends, leadership and administrative implications of specific topics.

## GNRS 564, Nutrition and Therapeutics, 2 Units

Students in this course explore the functions of nutrients and the consequences of nutrient deficiencies and excesses in the body. Course material introduces a variety of tools for planning and evaluating diets, including a computer diet analysis, and the application of nutrition concepts is interwoven into health care and fitness conditions. Students also study the prevention of chronic disease as it relates to proper nutrition and adequate exercise.
**Prerequisite:** Admission to the ELM program

## GNRS 567, Healthcare Administration and Leadership Supervised Practicum, 3 Units

This course provides the student with the opportunity to experience the role of healthcare administrator. An individualized administration practicum in a specific area of clinical emphasis is chosen by the student and approved and monitored by the faculty and preceptor. Competencies that govern the role of the healthcare administrator are explored in depth. Students focus on the context for enacting the role of administrator in a healthcare delivery system.
**Prerequisite:** All core and role courses

## GNRS 568, Healthcare Finance, 4 Units

This course is an introduction to financial concepts and skills need for healthcare leaders, managers, and executives. The student will develop skills in assessing multiple dimensions of financial performance and methods to improve the financial health of an organization in the context of current patient care system.

## GNRS 569, Quality and Safety for Health Care Practice, 3 Units

This course is designed to deepen and advance students' knowledge of, and ability to systematically apply the principles of, patient quality and safety in nursing practice. Based on national standards, the focus is on examining and applying quality and safety tools, including informatics, that can be used to improve patient care delivery across the continuum of health care.

## GNRS 570, Parish Nursing/Health Ministries, 2 Units

This course provides an introduction to and overview of health ministry and parish nursing theory and practice. The philosophy of the course is that (a) the parish nursing role is that of a specialist in spiritual aspects of patient care in the congregational context, requiring the integration of graduate level theology/ministry and nursing theory and praxis; and (b) health ministry is an emerging role and trend in pastoral ministry that seeks to bring professional ministry skill to bear upon the integration of health, faith, and spirituality in the parish setting.

## GNRS 571, International Health Care, 2-4 Units

This course provides students with experience in nursing care in other countries. Students prepare with coursework in the United States, then travel abroad, where they have experiences in acute and/or chronic care settings, exploring cultural, economic, systems, philosophical, and other aspects of care that influence the provision of health care in other countries. A debriefing period is provided upon return.

## GNRS 573, Clinical Residency, 4 Units

The clinical residency is an internship clinical experiential program designed as a collaborative partnership between the School of Nursing and selected community in-patient health care organizations. This residency is an intensive preceptored clinical experience planned to ease the role transition from a student nurse to a beginning professional nurse in an acute-care setting. In addition, it enhances the skill and practice knowledge of the student in preparation for the RN licensing examination.
**Prerequisite:** Successful completion of all pre-licensure clinical courses

## GNRS 575, Nursing Care in Maternal, Newborn, and Women's Health, 4 Units

This course focuses on the theoretical and clinical concepts of the childbearing patient, her infant, and her family. The students study both normal and complicated obstetrics. Selected issues of women's health are explored. The student is introduced to birth preparation, prenatal care, normal neonatal, and postpartum care with concurrent clinical experiences.
**Prerequisite:** Admission to the ELM program, successful completion of semesters one and two;
**Corequisite:** Practicum

## GNRS 576, Pharmacology, 2 Units

This course is designed for students who have completed organic chemistry, inorganic chemistry, and biochemistry. The content focuses on principles of pharmacology and specifics of the major drug classifications.
**Prerequisite:** Admission to the ELM program

## GNRS 578, Health Assessment, 3 Units

This course provides the nursing student with skills in physical, spiritual, and psychosocial assessment of adult clients. History-taking and physicalexamination techniques presented in the course help the student develop strong assessment skills upon which further knowledge and practice can be built. Basic concepts related to assessment of geriatric, pediatric, and childbearing patients are included.
**Prerequisite:** Admission to the ELM program;
**Corequisite:** Practicum

## GNRS 580, Gerontology, 2 Units

This course integrates research and writings about the major trends and developments in the field of gerontology as they apply to the field of nursing. The approach is interdisciplinary - course material includes information from the fields of sociology, psychology, anthropology, biological sciences, medicine, nursing, and psychiatry. Development in adulthood is viewed from multiple perspectives including cognitive, behavioral, biological, sociocultural, and spiritual, and the influences these perspectives have on the successful negotiation of age-related issues are considered. Finally, students examine aspects of human aging in contemporary American society and from a cross-cultural and ethnic perspective.
**Prerequisite:** Graduate standing in the School of Nursing.

## GNRS 581, Primary Health Care of the Older Adult, 5 Units

GNRS 581 focuses on the role of the adult-gerontology primary care nurse practitioner in the management of the older adult including health promotion, assessment, treatment, and maintenance of common primary care health problems. The clinical practicum emphasizes the application of theory and evidence-based research for the delivery of culturally competent assessment and treatment of the older adult within the context of their families and in a variety of outpatient settings.
**Prerequisite:** Graduate status in the School of Nursing, completion of Advanced Practice Core courses;
**Corequisite:** Practicum

## GNRS 582A, Pathophysiology, 2 Units

This course presents an introduction to human pathophysiology. Mechanisms causing alterations in cellular activity, maintenance of cellular tissue oxygenation, fluid and electrolyte balance, and neuroendocrine control of the body are included. Common pathophysiologic disorders are emphasized.
**Prerequisite:** Admission to the ELM program

## GNRS 582B, Pathophysiology, 2 Units

This course continues the presentation an introduction to human pathophysiology. Mechanisms causing alterations in cellular activity, maintenance of cellular tissue oxygenation, fluid and electrolyte balance, and neuroendocrine control of the body are included. Common pathophysiologic disorders are emphasized.
**Prerequisite:** Admission to the ELM program, successful completion of GNRS 582A

## GNRS 583, Nursing Care of Children and Young Adults, 4 Units

This theoretical and clinical course focuses on the care of children from birth through adolescence. The effects of acute and chronic illness on growth and development are studied in the acute and community health care setting. Education of the child and family on health promotion, disease prevention, and safety issues are addressed. Ethical issues are discussed regarding the relationship to the child and family, including issues such as child abuse, informed consent, and the impact of diverse cultural and spiritual beliefs on health care decisions in the family.
**Prerequisite:** Admission to the ELM program, successful completion of semesters one and two;
**Corequisite:** Practicum

## GNRS 584, Mental Health Nursing, 4 Units

This theoretical and clinical course focuses on the dynamics of psychosocial stress within the interpersonal and intrapersonal systems of clients with acute and chronic psychiatric disorders.
**Prerequisite:** Admission to the ELM program, successful completion of semesters one and two;
**Corequisite:** Practicum

## GNRS 586, Leadership and Management in Professional Practice, 2 Units

This course emphasizes leadership and management theory including systems theory in a number of applications and settings, equipping students with the ability to adjust to various organizations encountered by professional nurses serving in a variety of roles. Core concepts relevant to clinical settings are presented using a systems approach. Emphasis on nursing case management is included.

## GNRS 587, Community Health Nursing, 5 Units

This course has two areas of focus within the community setting: the study of principles and practices involved in community health nursing, and the development of skills for teaching a group of clients. The emphasis is on the role of the nurse in assessing, planning, implementing, and evaluating care of clients in a variety of community-based settings, with a focus on care of the gerontological client. Collaboration with community-based organizations and services that provide health restoration, maintenance, illness prevention, and client education services to individuals, families, and aggregates are essential components of this course. A review of legal mandates and regulations, as well as discussion of ethical dilemmas and issues related to community-based care is included.
**Prerequisite:** Admission to the ELM program, successful completion of semesters one, two, and three;
**Corequisite:** Practicum

## GNRS 588, Advanced Nursing Care of Adults - Leadership, 6 Units

This course involves the application of pathophysiological, psychosocial, and spiritual concepts to adult and geriatric clients experiencing the stress of illness in acute settings. The primary focus of the course is to care for critically ill clients and their families with complex health care needs in a critical-care setting. A second area of focus is on the utilization of leadership and management concepts/skills in providing comprehensive care to groups of clients and families. Emphasis is placed on preparing the student to practice in a beginning leadership role in managing client care. Legal and ethical issues related to acute care are included.
**Prerequisite:** Admission to the ELM program;
**Corequisite:** Practicum

## GNRS 589, Adolescent Health Care, 2-4 Units

This course focuses on the growth and development of adolescents, including assessment, prevention, and management of common health and psychosocial problems in this population. Emphasis is on age-appropriate and culturally competent provision of primary health care to adolescents in a family system.
**Prerequisite:** Graduate status in the School of Nursing; 2-unit version of this course requires prior completion of GNRS 610, while the 4-unit version requires prior completion of GNRS 610, GNRS 611, and GNRS 511 or GNRS 612.

## GNRS 590A, Primary Health Care of the Young Family, 6 Units

This combined theory and clinical course focuses on management of health care of children (from birth through adolescence) and their families. Theory and clinical experiences emphasize assessment, prevention, and management of physiological, social, emotional, intellectual, spiritual, and educational needs of the child as an individual and as a family member. The effects of culture on development, parenting, and health care practices are emphasized. The course provides theory and clinical experiences in the management of normal and common pathological conditions to prepare students for advanced nursing practice in the role of nurse practitioner.
**Prerequisite:** Advanced Practice Core courses;
**Corequisite:** Practicum

## GNRS 590B, Clinical Practicum in Pediatrics, 4 Units

The student develops expanded skills in the comprehensive assessment and management of common childhood illnesses and problems and continues to gain skill in promoting child wellness. Application of theory and research is emphasized in the care of common illnesses throughout the childhood years.
**Prerequisite:** GNRS 511 or GNRS 612, and GNRS 590A

## GNRS 590C, Primary Health Care of the Young Family for the School Nurse Services Credential, 6 Units

Using a system-based approach, this combined didactic and practical course focuses on assessment, nursing interventions, and follow-up for common illness presentations in children, as well as illness-related impact on social, emotional, and educational functioning. The effects of culture on child development, parenting, and healthcare practices is also emphasized.
**Prerequisite:** GNRS 612;
**Corequisite:** Practicum

## GNRS 590D, Primary Health Care of the Young Family, 3 Units

This theory course focuses on management of health care of children (from birth through adolescence) and their families, with an emphasis on assessment, prevention, and management of physiological, social, emotional, intellectual, spiritual, and educational needs of the child as an individual and as a family member. The effects of culture on development, parenting, and health care practices are emphasized. The course provides theory in the management of normal and common pathological conditions to prepare students for advanced nursing practice in the role of nurse practitioner.
**Prerequisite:** Advanced Practice Core courses

## GNRS 591, Primary Health Care of the Childbearing Family, 4 Units

This course focuses on the assessment and management of the primary health care needs of the reproductive family. Emphasis is placed on health promotion and maintenance, disease prevention, curative, and restorative care. Cross-cultural aspects related to parents, male and female, of the childbearing family are addressed.
**Prerequisite:** Advanced Practice Core courses;
**Corequisite:** Practicum

## GNRS 592A, Primary Health Care of the Adult and Aging Family, 6 Units

This combined theory and clinical course focuses on the role of the nurse practitioner (NP) in caring for mature adults and aging family members, from young adulthood to elderly adulthood. Emphasis is placed on the management of common primary health problems of these age groups. The delivery of culturally competent primary health care interventions of young, middle-aged, and elderly adults is addressed.
**Prerequisite:** Advanced Practice Core courses;
**Corequisite:** Practicum

## GNRS 592B, Primary Health Care Clinical Practicum, 2 Units

This course provides the final comprehensive clinical management experience, allowing FNP and AGNP students to apply knowledge gained throughout their course of study. Clinical conferences provide opportunity for discussion of role development issues and clinical case studies. Students engage in the clinical assessment and management of adults of diverse cultural backgrounds with routine and complex health problems in out-patient settings. Under the supervision of qualified preceptors and School of Nursing faculty, the student must complete his/her clinical hours and demonstrate mastery to perform the role of an entry-level nurse practitioner.
**Prerequisite:** Completion of clinical courses for the FNP or AGNP program track

## GNRS 593, Psychosocial Primary Health Care of the Adult and Aging Family, 4 Units

This combined didactic and clinical course focuses on psychosocial primary health care of the mature and aging family. Didactic content and clinical experiences emphasize the advanced practice nursing role in the medical management of chronic illness with concurrent assessment for psychosocial stressors that impact the experience and management of chronic illness. Students learn to tailor patient-centered therapeutic strategies, including presence, multi-faceted functional assessment, motivational interviewing, stress reduction techniques and spiritual support to individual patients.
**Prerequisite:** Advanced Practice Core courses;
**Corequisite:** Practicum

## GNRS 595, Special Topics in Nursing, 1-6 Units

In this course, a topic of current interest to students is examined in depth. Students analyze and evaluate topics/issues to reach and express a position, enhance personal development and/or to develop a particular project. If students elect this course more than once during their program, each such course must address a different topic.
**Prerequisite:** Graduate standing

## GNRS 596, Foundations of Healthcare Informatics, 3 Units

This course provides an overview of basic concepts for practice in healthcare-oriented informatics. These core concepts include an introduction to clinical and translational informatics; foundational theory and practical application of clinical decision making and computerized decision support; healthcare systems and their organization; the special issues of administration, security, and operations of electronic records in the healthcare setting; human factors issues; information science in the healthcare domain; standards, terminologies, and the uniqueness of biomedical data; and a special focus on emerging technologies.

## GNRS 597, Comprehensive Examination Directed Study, 1 Unit

This course guides the student through the process of demonstrating an integration of theoretical, clinical, and research knowledge. Critical thinking is enhanced through careful consideration of information presented during discussion. The examinations are taken as part of this seminar.
**Prerequisite:** Completion of all Academic Core and degree specialty courses. Final specialty course may be taken concurrently.

## GNRS 598, Thesis, 1 Unit

A student initially enrolls in this option toward the latter part of the program for one unit of credit. The student registers for one unit of thesis credit each semester (two of three semesters per year) until the thesis is completed.
**Prerequisite:** GPA of 3.5 or above, chair's consent for thesis option, and completion of all Academic Core and Advanced Practice Core courses

## GNRS 599, Readings/Independent Study in Nursing, 1-4 Units

A student may elect to pursue special interests for credit at any time during the program under the supervision of a faculty member. University policy states that the student must earn a grade in an independent study course in order to receive credit toward graduation.
**Prerequisite:** Graduate standing

## GNRS 600, Nurse Practitioner Clinical Experience, 2-6 Units

The AGPCNP and NP programs require 765 hours of supervised direct patient care experience. Students in this course function in the role of student nurse practitioners under the direct supervision of approved preceptors, and receive feedback from their preceptors and from their clinical faculty. This course gives students an opportunity to complete the documentation necessary to be awarded clinical units. Students progressively integrate advanced-practice nursing competencies, demonstrate professional nursing behavior, and keep accurate records. Upon completion of 765 hours, students are given access to a clinical portfolio.
**Prerequisite:** GNRS 612 and faculty permission

## GNRS 601, Primary Healthcare I: Adult and Aging, 3 Units

This course integrates knowledge from advanced pathophysiology, advanced pharmacology, and advanced health assessment and apply it to create a diagnostic hypothesis for common acute and chronic primary care health problems in adolescents, adults, and older adults. The course examines a variety of treatment options for each disease presented and for diseases that don't respond to first-line therapy.
**Prerequisite:** GNRS 612
**Corequisite:** GNRS 600

## GNRS 602, Primary Healthcare II: Population-based Health Interventions, 3 Units

Primary Healthcare II recognizes that individuals with healthcare needs belong to a variety of discrete groups. This course introduces population health principles to be integrated with psychosocial assessment, cultural competency, social determinants of health, and the nurse-client relationship to foster the development of competence to motivate patients in a way that respects their diversity and to assist them to find resources to address social vulnerabilities. Students will employ statistical analysis as well as nursing experience to analyze risk to create a patient education plan.
**Prerequisite:** GNRS 601
**Corequisite:** GNRS 600

## GNRS 603, Primary Healthcare III: Restorative and Palliative Interventions, 3 Units

This course is designed to integrate disease management and communication techniques to support the physical, emotional, and spiritual transitions of chronic illness. The course examines developing a prognosis, transitioning care, interprofessional care planning, and care of the caregiver. Grounded in spiritual concepts, this course is designed to provide the student with tools to give patients and families unpleasant information that will likely evoke fear or sadness.
**Prerequisite:** GNRS 602

## GNRS 610, Advanced Pathophysiology, 3 Units

This course builds on basic anatomy and physiology and undergraduate study of pathophysiology. It focuses on the development of an advanced understanding of the pathophysiologic mechanisms of human health disorders including those that are genetic. Diagnostic reasoning that facilitates the clustering of signs and symptoms leading to diagnosis is a key process undergirding the course. This course requires the integration of signs and symptoms, clinical testing (such as laboratory and radiologic studies), and pathophysiologic mechanisms with diagnoses. This course introduces epidemiological principles and methods to be applied to population health models.
**Prerequisite:** Graduate standing and undergraduate pathophysiology

## GNRS 611, Advanced Pharmacology, 3 Units

This course builds upon basic knowledge in pharmacology and provides content essential for the advanced practice nurse to render appropriate pharmacological treatment in practice. Mechanisms of action, interactions, side effects, and prescribing guidelines for drugs commonly utilized across the life cycle are addressed. The course introduces the principles of pharmacogenomics and their application to clinical practice. Variations in pharmacological reactions attributed to cultural factors are emphasized. Strategies for fostering individual/family adherence to pharmacological regimens are examined. This course meets the requirements of the California Board of Registered Nursing in the application of a "furnishing number" by the advanced practice nurse in California.
**Prerequisite:** GNRS 610 (may be taken concurrently)

## GNRS 612, Advanced Health Assessment and Diagnostic Reasoning, 4 Units

This course develops the graduate nurse's assessment skills and focus on the promotion of health in individuals across the age range and within family, community, and cultural contexts. Emphasis is on adapting and expanding the medically focused history and physical assessment to incorporate the assessment of traditional and nontraditional therapies and identify culturally relevant and age-appropriate health promotion strategies for common episodic complaints and chronic health conditions. Outcomes are examined in light of theoretical concepts. Strategies for health promotion include a focus on lifestyle, mental health, nutrition, counseling to modify risk factors, and screening tests/prophylaxis for the early detection and prevention of disease.
**Prerequisite:** Undergraduate health assessment and GNRS 610;
**Corequisite:** lab

## GNRS 613, Graduate Statistics, 3 Units

This course presents the knowledge of descriptive, correlational, and inferential statistics used in research that serves as the basis for evidence-based practice. Students develop the ability to perform descriptive and inferential data analysis techniques, use software applications to aid in statistical calculations and presentation, and interpret findings.

## GNRS 615, APRN Intensive I, 1 Unit

This is the first of four Intensive courses that give NP students an interactive experience through in-class and out-of-classroom work. This course introduces students to the professional role and practice of the nurse practitioner in primary care.
**Prerequisite:** GNRS 612 (may be taken concurrently)

## GNRS 616, APRN Intensive II, 1 Unit

This is the second of four APRN Intensive courses that give NP students an interactive experience through out-of-classroom work. Course activities and games will evaluate the student's ability to perform the clinical role of the NP. Students will understand and develop the skills of virtuous leadership and collaboration from a biblical perspective.
**Prerequisite:** GNRS 615;
**Corequisite:** GNRS 601

## GNRS 617, APRN Intensive III, 1 Unit

This is the third of the APRN intensives that give APRN students an interactive experience with out-of-classroom work that includes team activities, simulation experiences, and problem-solving activities. Topical content includes managing patients with complex co-morbidities, ethical reasoning, and advanced communication skills. Students will be observed performing the professional and clinical skills of the APRN.
**Prerequisite:** GNRS 616;
**Corequisite:** GNRS 602

## GNRS 618, APRN Intensive IV, 1 Unit

This is the fourth of the APRN intensives that give APRN students an interactive experience with out-of-classroom work that includes team activities, simulation experiences, and problem-solving activities. Topical content practice-based quality improvement, office-based procedures, and certification exam preparation. Students will be observed performing the professional and clinical skills to demonstrate readiness to enter NP practice.
**Prerequisite:** GNRS 617; Faculty permission.

## GNRS 620, Genome Science in Healthcare, 3 Units

This course covers basic genomic concepts and technologies intended for personalizing healthcare. The primary goal is to provide the student with clinically relevant knowledge that can be used in practice and for teaching other healthcare professionals, patients and families. Applications of genome science and technology are analyzed in the context of real world examples taken from a variety of clinical specialty areas to better understand the relation between genomics, health, and illness.

## GNRS 622, Genome Science and Ethical Issues, 3 Units

This course examines current applications and implications of genome science and technology to healthcare, public health policy, economics, ethics, federal and state laws and societal issues. The following discussion topics are at the leading edge of healthcare and social debate: DNA biobanking, genetic profiling, and genomic technologies used in genome medicine such as stem cell research, gene therapy, and genetic enhancements. In addition, the course addresses ethics, philosophy, and theology literature to explore thoughtful discussions that cover a wide range of genome applications in healthcare and health science research.
**Prerequisite:** GNRS 620

## GNRS 630A, Oncology Nurse Practitioner Fellowship A, 4 Units

This course is the first in a series of three fellowship courses that enhance students' critical thinking, diagnostic reasoning, and interpretation and management skills for advanced practice nursing in the field of oncology. Students gain a deeper understanding of the sciences necessary for enhanced role development, knowledge, and skills for advanced practice nursing scholarship, and practice in a designated appropriate setting under the direction of a faculty advisor in collaboration with selected clinical experts, with a focus on exploring the development and scientific underpinnings of components of expert clinical oncology practice.
**Prerequisite:** Enrollment in the oncology nurse practitioner fellowship certificate program.

## GNRS 630B, Oncology Nurse Practitioner Fellowship B, 4 Units

This course is the second in a series of three fellowship courses that enhance students' critical thinking, diagnostic reasoning, and interpretation and management skills for advanced practice nursing in the field of oncology. Students gain a deeper understanding of the sciences necessary for enhanced role development, knowledge, and skills for advanced practice nursing scholarship, and practice in a designated appropriate setting under the direction of a faculty advisor in collaboration with selected clinical experts, with a focus on exploring the development and scientific underpinnings of components of expert clinical oncology practice.

**Prerequisite:** Enrollment in the oncology nurse practitioner fellowship certificate program.

## GNRS 630C, Oncology Nurse Practitioner Fellowship C, 4 Units

This course is the third in a series of three fellowship courses that enhance students' critical thinking, diagnostic reasoning, and interpretation and management skills for advanced practice nursing in the field of oncology. Students gain a deeper understanding of the sciences necessary for enhanced role development, knowledge, and skills for advanced practice nursing scholarship, and practice in a designated appropriate setting under the direction of a faculty advisor in collaboration with selected clinical experts, with a focus on exploring the development and scientific underpinnings of components of expert clinical oncology practice.

**Prerequisite:** Enrollment in the oncology nurse practitioner fellowship certificate program.

## GNRS 631, ONP: Cancer Biology and Assessment, 2 Units

This course builds on knowledge of the anatomy and physiology of DNA, RNA, and differentiated and nondifferentiated human cells. Focus is on the pathophysiologic mechanisms of human cancer disorders. Diagnostic reasoning that facilitates the clustering of signs and symptoms is a key process undergirding the course. The course also provides the foundation for the integration of diagnostic testing, physical assessment, and understanding of the predictable pathophysiology of cancer in order to stage tumors and predict metastatic risk in individuals.

**Prerequisite:** Admission to the Oncology Nurse Practitioner Post-Master's Certificate program.

## GNRS 632, ONP: Cancer Therapeutics, 2 Units

This course builds on knowledge of the predicted behavior of human cancer. Technology in cancer treatment is evolving rapidly, and this course provides a pathophysiological foundation for understanding cancer protocols. Current cancer protocols, classes and categories of therapeutics, technologies in development, and tumor resistance are discussed, along with the cost benefit, side effects, and availability of the covered therapeutics.

**Corequisite:** GNRS 631

## GNRS 633, ONP: Symptom and Side Effect Burden, 2 Units

Patients with advanced cancer often suffer significant symptomatic burden and the iatrogenic complications of treatment. This course helps students develop a patient-centered approach to evidence-based management of common symptoms of cancer and side effects of treatment.

**Prerequisite:** GNRS 631 and GNRS 632

## GNRS 634, ONP: Survivorship and the Psychosocial Impact of Cancer, 2 Units

Cancer patients and their caregivers face complicated psychological, financial, and spiritual changes, beginning at diagnosis and extending into the posttreatment phases. This course covers the common problems related to those changes, and best-practice strategies and techniques to help patients and families cope with cancer.

## GNRS 635, ONP: Team-Based Care and the Role of the Oncology Nurse Practitioner, 2 Units

The clinician role of the oncology nurse practitioner requires familiarity with the incidence, prevalence, and risk assessment competencies for all common cancers. In addition, the oncology nurse practitioner must be prepared for a wide variety of leadership roles. Strategies for care coordination, designing and measuring interdisciplinary team outcomes, mentoring, collaborating with primary care providers, and rapid-cycle quality improvement are examined.

## GNRS 636, ONP: Clinical Trials in Oncology Nursing, 2 Units

The advanced-practice oncology nurse practitioner is prepared to provide direct patient care, design a plan for outcome evaluation, and take a leadership role in medical and nursing oncological research.

**Prerequisite:** GNRS 610, GNRS 611, GNRS 612, and GNRS 613

## GNRS 650, History of Professional Nursing: From Origins to Nursing in Transition, 3 Units

Students in this course explore conceptual and methodological issues in historical nursing research, including the use of biographic methods in nursing history and working with primary sources/archival materials/artifacts and material culture. Focus is on the origins of professional nursing up to the period of nursing in transition in the United States. Students examine ethics guidelines and standards for historical research in nursing, and critically analyze the origins of nursing and early nursing contributions to the evolution of modern health systems and interventions. Class discussion and composition facilitate critical thinking about the history of nursing as a scholarly inquiry, focusing on issues and methods of nursing historical research.

## GNRS 651, History of Professional Nursing: From Colonial Times to Present Day, 3 Units

Students in this course explore the foundations of professional nursing in the United States in the context of influential historical, global, societal, and scientific events. Students examine issues faced by nurses from colonial times to today, critically analyzing nurses' contributions to the development of modern health systems and interventions. Class discussion and composition facilitate critical thinking about the history of nursing as a scholarly inquiry, since historical perspectives form the basis for analysis of contemporary healthcare issues and projected development of the nursing profession, its practice, and healthcare policy.

## GNRS 660, Theories of Teaching and Instruction, 3 Units

This course analyzes selected teaching and learning models that are applicable to nursing education. Strategies for classroom and clinical teaching are examined. Research relative to nursing education is reviewed and critiqued. Design of research methods to determine effectiveness of teaching strategies is incorporated. Course development and student evaluation are emphasized. Selected faculty and nursing education issues are also explored.

## GNRS 661, Leadership and Role Development in Nursing Education, 3 Units

This course includes an analysis of educational leadership and the multiple roles of the nurse educator related to teaching, scholarship, service, and practice. Theoretical perspectives and practical approaches supported by research in nursing and higher education literature, as well as the Christian educator's role promoting faith integration, are addressed.

## GNRS 662, Assessment, Curriculum, Development, and Outcomes, 3 Units

This course addresses theoretical approaches to educational assessment, the development and implementation of nursing curriculum, and student and program outcomes. Emphasis is given to the importance of incorporating Christian values in the curriculum. The course also includes critical analyses of related topics based upon current research in nursing and higher education literature.

## GNRS 663, Clinical Practicum in Nursing Education, 3 Units

This practicum course builds on the academic and clinical preparation of previous courses and prepares students to teach in academic and clinical settings. Under the supervision of a preceptor, this practical classroom experience focuses on: a) writing of learning/teaching objectives, b) selecting teaching strategies and learning activities, c) designing and implementing teaching plans for units of instruction, d) evaluating student learning outcomes, and e) obtaining feedback on teaching performance from faculty mentors/preceptors, fellow students, and self-evaluation and reflection. It is recommended that students take GNRS 660, GNRS 661, and GNRS 662 prior to taking this class. GNRS 664 may be taken concurrently.

## GNRS 664, Teaching and Learning Strategies for Nursing Education, 3 Units

This course equips academic nurse educators to develop and evaluate teaching and learning strategies that facilitate learning in different nursing educational settings. Course material includes examining the challenges nursing faculty face in implementing this role, and strategies to successfully navigate those challenges. Also included are two projects to prepare students for the application process of the nurse educator. It is recommended that students take GNRS 660 prior to taking this class.

## GNRS 695, Special Topics, 1-4 Units

A subject of current interest is examined in depth. Students analyze and evaluate controversial issues to reach and express a reflective position. This course may be repeated for credit to a maximum of 6 units applied toward the MSN or PhD degree; each course must address a different topic.

## GNRS 700, Philosophy of Science, 3 Units

This course equips students with the knowledge and critical analytic skills to comparatively evaluate the philosophical foundations of scientific theories and the influence of Western philosophical schools of thought on the development of nursing science. Course content is organized to engage students in discussion and critical analysis of the epistemological and philosophic foundations of scientific theories and the characteristics of scientific knowledge according to the received view, paradigmatic view, perceived postmodern view, and feminist tradition. Special emphasis is given to the critical debate within nursing about the nature of nursing science.

## GNRS 701, Nursing Knowledge Development, 3 Units

Students in this course focus on analyzing and critiquing the theoretical and methodological processes that are utilized in theory building and knowledge development in nursing. Discussion and critique of the different stages of theory development and students' experimentation with conceptualizing and developing their theoretical stance go hand in hand. Patterns of knowing, knowledge development, and criteria for evaluating nursing knowledge are examined in relation to the discipline's domain and the phenomena of concern in nursing.

## GNRS 702, Nursing Theory, 3 Units

This course focuses on strategies for theory development such as concept analysis, conceptual mapping, and theoretical modeling as applied to the student's phenomenon of concern. It also provides critique and analysis of the major models and theories used in a variety of nursing settings in relation to existing interdisciplinary theoretical knowledge.

## GNRS 703, Spirituality and Health, 3 Units

This course provides an introduction to spirituality, including spiritual experience, as it relates to individual health and illness. Communal spirituality is also considered. Differentiation is made between and among generic religious and Christian spiritualities. While the course covers theoretical aspects of spirituality and their interaction with health and illness, concentration is on the movement from theory to praxis. This lecture/seminar course is oriented toward nursing educators who seek to develop a foundation in spirituality for spiritual integration as well as for its development in nursing practice.
**Prerequisite:** Admission to DNP or PhD program

## GNRS 704, Faith Integration and Nursing Scholarship, 3 Units

This course begins with an exploration of the nature, role, problems, and possibilities of faith integration in higher education and in the nursing curriculum at all levels of higher education. The special circumstances of faith integration and its implications for teaching in secular college settings are explored. This course further provides a critical explication of theological method and content in three domains: biblical hermeneutics, constructive theology, and ministry praxis for education. The focus of the course is on the appropriation of theological method and knowledge for the purposes of integration into nursing education and practice especially (but not exclusively) within the context of a Christian or church-affiliated college.

## GNRS 705, Social Ethics and Health Policy, 3 Units

This course seeks to provide a social ethics frame of reference for health care. Medical and biological advances have contributed to a rapidly expanding amount of human control over human and natural processes, including genetic potential and behaviors. This new power raises questions of morality and highlights the need for discussion and legislation regarding the complex issues raised by developments in health care, medical technology, and science. A comprehensive social ethic places decisions about health care within the context of a fuller account of purpose and meaning in life.
**Prerequisite:** Admission to DNP or PhD program

## GNRS 706, Methods of Inquiry, 3 Units

Students in this course explore various methods of inquiry as they focus on the difference between scientific thinking, wisdom, and alternative concepts of knowledge. Existential dilemmas intrinsic to the pursuit of truth, the exploration of the meaning of actions, the process of reason and interpretation, the perception of reality, and empirical generalizations are discussed, and their influence on the definition of research problems and designs is explored. Research designs and methods are introduced as they relate to problem definition and theory, including an overview of the principles of basic and applied experimental research, evaluation research, and the traditions and foundation of qualitative and historical research. Students are required to explore, synthesize, and debate current issues that will affect their research careers.
**Prerequisite:** Admission to DNP or PhD program

## GNRS 707, Quantitative Nursing Research Design I, 3 Units

This course introduces students to fundamental quantitative research design and methodology. Course material covers key concepts in the research process; literature search; experimental, quasiexperimental, and observational designs; internal and external validity issues associated with specific designs; sampling and data collection methods; survey design; mixed methods; measurement quality indices; and the writing of a quantitative research proposal. In addition, topics addressing power analysis for calculating desired sample size and internal consistency reliability in SPSS are covered. Students have the opportunity to administer an instrument of choice and analyze collected survey data. By the end of the course, students develop an original quantitative research proposal that addresses an area of interest.
**Prerequisite:** Admission to DNP or PhD program

## GNRS 708, Qualitative Nursing Research Design I, 3 Units

This course focuses on analyzing the epistemological foundations and the assumptions of qualitative research methodologies. It provides an introduction to the major qualitative research methodologies including grounded theory, phenomenology, and ethnography. Each methodology is analyzed as to its appropriateness for the research question. Experience in carrying out a pilot study in the selected methodology is provided.

## GNRS 709, Advanced Statistical Analysis II, 3 Units

This course presents advanced methods of quantitative inquiry. The emphasis is on the use of factor analysis, confirmatory factor analysis, path analysis, and structural equation modeling. Assumptions of the techniques are addressed. The course provides the student experience in using statistical packages for entering and analyzing data. Reporting results of the analyses is also incorporated. Making appropriate decisions regarding which of the advanced statistical techniques to use is stressed. Critique of the advanced statistical analyses of published health care research is also emphasized.
**Prerequisite:** GNRS 707

## GNRS 710, Advanced Qualitative Research Methods, 3 Units

This course provides advanced knowledge and training in the use of qualitative research methods including phenomenological interpretation, grounded theory interpretation, ethnographic interpretation, focus groups interpretation, and feminist interpretation. Intensive interpretive and structured approaches to analysis and methods of establishing plausibility, credibility, and adequacy of qualitative data are emphasized.
**Prerequisite:** GNRS 708

## GNRS 711, Advanced Research Methods in the Humanities, 3 Units

This seminar and consultation course introduces PhD students to nonscientific research methodologies as used in the arts, letters, humanities and aspects of the social sciences for the (a) conduct of original dissertation research on one of the disciplines of arts, letters, humanities, or nonscientific aspects of one of the social sciences, (b) conduct humanities-based research to widen and deepen a scientific dissertation topic, or (c) to enlarge the student's methodological repertoire, knowledge, and skill. The course is intended for those whose primary research education and experience has been in scientific methods and disciplines. (Enrollment limited to eight.)
**Prerequisite:** (a) successful completion of GNRS 701 and GNRS 706, (b) permission of the instructor

## GNRS 712, Healthcare Quality Improvement, Program Planning, and Evaluation, 3 Units

This core course bridges the gap between the uptake of new health research discoveries and their translation, adaption, and implementation in practice. Course content includes the examination, integration, and application of quality improvement, program planning, and evaluation processes, strategies, and tools. The outcome of the course is a well-designed evaluation plan for an evidence-based quality improvement project.
**Prerequisite:** Admission to DNP or PhD program

## GNRS 713, Advanced Statistical Analysis I, 3 Units

This course presents common nonparametric and parametric statistical techniques used in healthcare research. Assumptions of the techniques are addressed. Specifically, the course emphasizes t-tests, ANOVA, ANCOVA, RANCOVA, correlation, odds ratio, regression, and power analysis, and provides the student experience in using SPSS for entering and analyzing data. Reporting results of the analyses is also incorporated. Making appropriate decisions regarding which statistical techniques to use is stressed. Critique of statistical analyses of published healthcare research is also emphasized.

## GNRS 715, Psychosocial Issues of Older Adults, 3 Units

This course focuses on the biological and psychosocial processes throughout adulthood and the older years. Theories of aging are examined, as well as social role changes, social stratification, and the development of institutions of the aged. The course explores both normal aging and psychopathology, and the systematic intrinsic psychological or personality changes associated with development and adaptation in later life. Other topics include clarification of the causes and prevention of health maladies in the later years, and the nature and treatment of the most common psychopathologies. The psychodynamics of institutionalization and family care of the very old are also examined.

## GNRS 716, Translation of Research to Practice, 3 Units

The goal of this core course is to help prepare Doctor of Nursing Practice (DNP) nursing students to be nurse scholars and to identify strategies within a multidisciplinary model and in intraprofessional relationships that promote the ready translation of research into practice. This course exposes DNP students to evidence-based practice, quality improvement methodologies, concepts and theories, and deepens their knowledge regarding the phenomenon of interest. This prepares them for foundational competencies needed for evidence-based problem identification, PICOT writing, literature search, integrated literature review, evidence appraisal, and synthesis. There are iterative assignments to develop skill and the milestone assignment is a final integrated review and synthesis paper with in-depth knowledge of their phenomenon (vs. topic) of interest.
**Prerequisite:** Admission to DNP or PhD program

## GNRS 717, Health Technology and Informatics, 3 Units

This course presents an overview of the evolution of health care informatics from an interdisciplinary perspective. Students learn health care informatics history, concepts, theories, legal and ethical implications, and applications within the health care industry. This course introduces the student to the information system life cycle, human factor issues in health care informatics, critical issues affecting the development and implementation of information and communication systems and technologies (clinical, administrative, and learning), knowledge management principles, professional practice trends, and emerging ICT (information and communication technology) in health care.

## GNRS 718, Organizational Leadership and Strategic Planning, 3 Units

In this core course, students acquire knowledge and skill to effectively manage systems level change, empower others, and influence political processes. Advanced nursing practice leadership occurs in clinical practice with clients and staff, within healthcare institutions, professional organizations, and in healthcare policy making arenas, using knowledge of nursing and other professions to address healthcare needs and direct interprofessional activities and initiatives. To develop the leadership role, students implement strategies for creating organizational change to provide high-quality services and outcomes at reasonable costs and lead the development of a business plan for quality improvement initiatives. Students advocate for change related to financial policies that impact the relationship between economics and quality care delivery. Focus is on organizational process, including the associated management of conflict, change, promotion of safety for clients and providers, and control of risk within a dynamic healthcare environment.
**Prerequisite:** Admission to DNP or PhD program

## GNRS 720, Wellness Promotion and Health Maintenance, 3 Units

This course focuses on the critical appraisal of theories and models of health promotion and on the evaluation of health initiatives developed for national health promotion and maintenance. Relevant risk prevention, control, and health promotion intervention strategies are emphasized. Communicable diseases; health hazards; high-risk health factors; acute and chronic illness across ethnicities, genders, and the life span; and morbidity and mortality of the nation's leading health problems are analyzed. Students' research questions are generated from a synthesis of knowledge regarding a specific phenomenon relevant to the student's individual area of study.
**Prerequisite:** Admission to DNP or PhD program

### GNRS 721, Health Disparities and Vulnerable Populations, 3 Units

This course offers an analysis and evaluation of various topics and issues on health disparities of underserved ethnic or minority vulnerable populations as well as an analysis of research that describes, explains, and examines variables influencing health disparities and intervention strategies to reduce these disparities.

### GNRS 722, Research in Nursing and Health, 3 Units

This course is team taught and reflects the research expertise and program of study of the nursing doctoral faculty. It focuses on analysis of determinants of health and illness across demographic, biological, psychological, familial/cultural, and societal dimensions. Attention is given to theoretical explanations toward promoting development of students' programs of research.

### GNRS 724, Quantitative Nursing Research Design II: Survey Methodology, 3 Units

This course introduces students to the fundamental and advanced methods and approaches in survey research. Course material covers the theory and practice of survey development and administration, including principles of measurement and measurement error, selection of survey data collection methods, measurement design of a multidimensional concept, and locating and evaluating existing survey instruments. In addition, topics addressing instrument construction, reliability, and validity, with attention to statistical techniques, are covered. Throughout the course, students develop a comprehensive critical review of select instruments that measure a construct of their choice.
**Prerequisite:** GNRS 707

### GNRS 725, Research Practicum, 1 Unit

The practicum further develops, mentors, and socializes students into the roles and activities of research scientists and scholars. Emphasis is on mentoring to facilitate student progression in research methodology, culturally appropriate research strategies, data management, and data analysis. Students can chose either a quantitative or qualitative practicum experience.

### GNRS 726, Advanced Scientific Writing, 3 Units

This course provides opportunities for students to learn how to research and introduce a topic in writing, articulate a thesis statement, support and develop a literature review, work with secondary sources, and organize a written paper that can be developed into a dissertation or translational research paper.

### GNRS 727, Genome Science in Clinical Cases and Disease Management, 3 Units

This course focusing on medical family history taking, constructing and analyzing the pedigree, genetic counseling, clinical decision making and clinical case management for a wide variety of inherited and acquired diseases through the lens of emerging genome science. Clinical cases are discussed from a holistic perspective including: genome science, epidemiology, genomic profiling, genetic technologies, personalized medicine, interprofessional collaboration, ethical and legal issues, and health policy.
**Prerequisite:** GNRS 620

### GNRS 728, Genome Science Research Methods, 3 Units

This course focuses on genome research methods for understanding and translating genome science to practice and to genome related nursing research. Understanding the research methods fosters a deeper understanding of the strength and the weaknesses of the science and an ability to critique the benefits and the limitations of the science for designing nursing research. The course includes a wide range of research methods that explore genetics or genomics in human populations. A key outcome of this course is to develop a research proposal using genome methods to design nursing research aimed at improving quality of health for individuals, families and populations.
**Prerequisite:** GNRS 620, GNRS 622, GNRS 727

### GNRS 729, Population Health and Epidemiology, 3 Units

The concept of population health includes aggregate, community, environmental/occupational, and cultural/socioeconomic definitions of health. The implementation of clinical prevention and population health activities is central to achieving the national goal of improving health status and reducing health disparities among different aggregate groups. This course covers the basic elements and methodological concepts used in the epidemiologic study of factors related to health promotion and disease prevention in human populations. It brings together considerations from several fields of investigation, such as epigenetics, epidemiology, psychology, and public health, to study the effects on health and health-related outcomes.
**Prerequisite:** Admission to DNP or PhD program

### GNRS 730, Comparative Health Care Systems, 3 Units

This course focuses on exploring/analyzing environmental, social, cultural, political and economic determinants of health across the globe. Comparative analysis of international health care systems including governmental, nongovernmental, traditional, and faith-based organizations are emphasized. Epidemiological analysis of morbidity and mortality, analysis of health and illness responses, and health-seeking behavior across the age span and gender/ethnic variables are discussed with the intent to identify areas of research relevant to students' interest. Presented from a Christian perspective, this course investigates research and practice opportunities and responsibilities for advanced practice nurses in global arenas.

## GNRS 732, DNP Clinical Residency, 0 Units

This course provides students enrolled in the Doctor of Nursing Practice (DNP) program with opportunities to develop professional nursing skills at the doctoral level. The focus of the course is to explore the development and scientific underpinnings of components of expert advanced clinical practice. Students select a population of interest for the DNP clinical residency and apply evidence-based practice and research findings in order to develop and improve practice. Over the course of the DNP program, students integrate previous nursing education and practice experiences with the DNP residency and concurrent doctoral coursework to meet the AACN Essentials of Doctoral Education for Advanced Nursing Practice and complete a DNP scholarly project. The course may be repeated to enable the student to obtain a minimum of 1,000 residency hours. Previous hours from graduate clinical courses may apply, so residency hour requirements will vary.
**Prerequisite:** Admission to DNP program

## GNRS 733A, Residency IA, 1 Unit

This is the first in a series of three residency courses designed to enhance students' critical thinking, diagnostic reasoning, interpretation, and management skills for advanced clinical practice. This course broadens and enhances understanding of the sciences necessary for enhanced role development, knowledge, and skills for advanced practice clinical nurse scholarship. Students practice in a designated appropriate setting under the direction of a faculty advisor in collaboration with selected clinical experts. The course focuses on exploring the development and scientific underpinnings of components of expert advanced clinical practice, and attention is given to the development of skills necessary to attain that goal. By the end of this course, students select their population of interest for their clinical residency and apply evidence-based findings to this population to identify potential areas of intervention.
**Prerequisite:** Admission to DNP program

## GNRS 733B, Residency IB, 1 Unit

The second of a three-course sequence, this course may be taken concurrently with GNRS 733A and/or GNRS 733C with approval of the DNP director or designee. Grading: pass/fail

## GNRS 733C, Residency IC, 1 Unit

The third of a three-course sequence, this course may be taken concurrently with GNRS 733A and GNRS 733B with approval of the DNP director or designee. Grading: pass/fail

## GNRS 734A, Residency IIA, 1 Unit

The first of a three-course sequence, this course may be taken concurrently with GNRS 734B and GNRS 734C with approval of the DNP director or designee. Grading: pass/fail

## GNRS 734B, Residency IIB, 1 Unit

The second of a three-course sequence, this course may be taken concurrently with GNRS 734A and/or GNRS 734C with approval of the DNP director or designee. Grading: pass/fail

## GNRS 734C, Residency IIC, 1 Unit

This is the last of a three-course series of clinical residencies with a focus on transformative and collaborative leadership, including completion of the evidence-based practice project, assessment of project outcomes, and planned dissemination of findings. Students apply relevant clinical and research findings to develop and improve practice. Content emphasizes critical appraisal of skills and interventions necessary to ensure meaningful translation of scientific evidence into practice, including a cost-benefit analysis for implementing a change into clinical practice. The course also emphasizes the professional role of the nurse as a collaborator, leader, and provider of care with nursing colleagues and other members of the interprofessional healthcare team within the context of complex healthcare systems, preparing students to implement an advanced nursing practice role that results in practice and/or policy change at the local, state, and/or national levels.
**Prerequisite:** Successful completion of GNRS 733A, GNRS 733B, GNRS 733C, GNRS 734A and GNRS 734B

## GNRS 735, DNP Scholarly Project Seminar, 3 Units

The DNP program requires a rigorous clinical project focused on translating scientific research to health care in a timely manner so that patients experience the best applications of science and practice. The project is a scholarly experience that implements the principles of evidence-based practice and translation under the guidance of a faculty mentor. In line with the AACN Essentials of 2007, the outcome of the DNP scholarly project is a tangible and deliverable academic product that is derived from the practice immersion experience and reviewed and evaluated by an academic committee. The project also serves as a foundation for future scholarly practice.

## GNRS 736, DNP Scholarly Project Seminar: Evaluation and Dissemination, 2 Units

This course focuses on presentation to and approval of a completed DNP Scholarly Project. The DNP program requires a rigorous clinical project focused on translating scientific research to health care to improve the patients experience utilizing the best evidence of science and practice. This scholarly project is a culminating, independent experience which demonstrates the student's synthesis of coursework and lays the foundation for future scholarship.

## GNRS 780, Doctoral Seminar I: Elements of a Proposal and IRB Application, 3 Units

This seminar directs the development of either a PhD dissertation or a DNP Scholarly Project proposal draft that details a problem, the research/project purpose, questions or hypotheses to be examined, a synopsis of the relevant literature, the design and methods of the study including its timeline, protection of human subjects, plans for analysis, and the budget. The seminar also includes preparation of IRB applications, and peer review and critique of student proposals.
**Prerequisite:** Admission to DNP or PhD program

## GNRS 781, Doctoral Seminar II: Developing a Grant Proposal, 3 Units

This doctoral seminar provides students with the opportunity to acquire knowledge, skills, and insights in the writing of a grant proposal. Discussion will focus on the value of writing grant proposals, the basic principles in writing a grant proposal, the components of a grant proposal, identification of funding sources, the difference between a research and a program grant proposal, as well as administrative factors in submitting a grant proposal. Students will craft and a grant proposal in response to a Request for Funding Proposal (RFP) that aligns with the guidelines of the funding agency, and additionally, a budget plan with justification, timelines, and a bio-sketch. In addition, students will conduct a peer review of class completed grant proposals.

## GNRS 782, Doctoral Seminar III: Writing for Publication, 3 Units

This seminar focuses on various aspects of writing for publication and directs the development of a manuscript suitable for publication from a previously written paper (e.g., a course term paper). This course will help the student get started on writing; identify writing styles for various forms of publication including abstracts, journal articles, papers, and books; and determine appropriate journals to consider for article submission. The student will acquire practice in reviewing and critiquing scholarly writing by others. It will also address the editorial and publication process, as well as ethical aspects of writing for publication.

## GNRS 783, Doctoral Seminar IV: Developing Professional Presentations, 3 Units

This seminar course identifies approaches to developing an effective and successful presentation, helping students find their voice and showcase their areas of expertise. Discussions focus on planning as essential to deciding on the content and the order in which the information is presented. Emphasis is on developing a logical sequence, one that flows naturally and is accompanied by audiovisuals that facilitate understanding of the material.

## GNRS 784, Dissertation Seminar V, 2-4 Units

This fifth dissertation seminar provides the student a forum to explore with their peers research findings, theoretical and empirical implications, and potential venues for publication of manuscripts. Format and procedures for progression in the dissertation process are also discussed. Placement of the Course: This seminar is not required if dissertation seminar requirement of 12 units has been met by GNRS 780, GNRS 781, GNRS 782, GNRS 783, and student has defended dissertation. Grading: Pass/Fail.
**Prerequisite:** GNRS 783

## GNRS 791, Doctor of Nursing Practice Intensive I, 1 Unit

This is the first of four intensive courses that give DNP students an interactive experience through out-of-classroom work, introducing them to the role of the DNP nurse in a variety of healthcare settings. Students also acquire advanced practice and academic skills necessary for selecting a population of interest and applying evidence-based practice as part of an evidence-based DNP scholarly project consistent with the DNP role within an organizational healthcare setting. Generally offered in the same semester as GNRS 716.
**Prerequisite:** Admission to the DNP program

## GNRS 792, Doctor of Nursing Practice Intensive II, 1 Unit

This is the third of four intensive courses that give DNP students an interactive experience through out-of-classroom work. This course helps students identify strategies within a multidisciplinary model that promotes evidence-based practice or quality improvement in various clinical, community, and educational settings. Students receive support and direction in collaboration with the sponsoring facility and mentor to develop a comprehensive, site-specific DNP scholarly project proposal. Generally offered in the same semester as GNRS 780.
**Prerequisite:** GNRS 791 and GNRS 793

## GNRS 793, Doctor of Nursing Practice Intensive III, 1 Unit

This is the second of four intensive courses that give DNP students an interactive experience through out-of-classroom work. This course introduces students to the role of the DNP nurse in a variety of healthcare settings. Students also acquire advanced practice and academic skills necessary for selecting a population of interest and applying evidence-based practice as part of an evidence-based DNP scholarly project consistent with the DNP role within an organizational healthcare setting. Generally offered in the same semester as GNRS 712.
**Prerequisite:** Admission to the DNP program and completion of GNRS 791

## GNRS 794, Doctor of Nursing Practice Intensive IV, 1 Unit

This is the last of four intensive courses that give DNP students an interactive experience through out-of-classroom work. As in the other intensive experiences, course content for each student reflects the interests of the student and is designed to meet that student's needs and career goals. This course allows students, with guidance from their mentors and faculty, to complete the DNP scholarly project and finalize the written and oral scholarly reports that disseminate and integrate new knowledge. Each student's final product reflects their ability to employ effective communication and collaboration skills, take a leadership role, integrate core DNP concepts and competencies that influence healthcare quality and safety, and successfully negotiate change in healthcare delivery for individuals, families, populations, or systems across a broad spectrum of health care. Generally offered in the same semester as GNRS 736.
**Prerequisite:** GNRS 791, GNRS 792, and GNRS 793

## GNRS 795, Special Topics, 1-4 Units

In this course, a subject of current interest is examined in depth. Students analyze and evaluate controversial issues to reach and express a reflective position. Students may repeat the course for credit to a maximum of six units applied toward the doctoral program; each course must address a different topic.

## GNRS 798, Continuous Doctoral Study, 0 Units

This course is for doctoral students working on dissertations or translational research projects. Students must re-enroll each semester until the dissertation or translational research project is completed, defended, submitted to the library, and approved.

## GNRS 799, Independent Study, 1-4 Units

Students enroll in this course to pursue independent study investigating subjects and interests that lie beyond regular course offerings. The student explores topics in greater depth than in other courses, and/or initiates an individual project. Readings are pursued in accordance with a study plan, which is developed in consultation with a sponsoring doctoral faculty member and approved by the doctoral department

# Adult-Gerontology or Pediatric Clinical Nurse Specialist (CNS)

The Master of Science in Nursing with Adult-Gerontology or Pediatric Clinical Nurse Specialist (CNS) program (https://www.apu.edu/nursing/programs/msn-cns/) allows students to concentrate on one of these two clinical areas of content and practice. Nurses with advanced practice preparation may work in acute, primary, or long-term care settings. Students learn the process of developing and sustaining evidence-based practice in illness management, advancing the practice of other nurses and nursing personnel, and developing organizational or systems modifications to support and improve nursing practice. The traditional CNS roles of expert clinical practice, consultation, clinical leadership, research, and education are shaped toward producing desirable patient outcomes as the CNS works in several spheres of influence. Graduates are eligible to apply to the state of California for certification as clinical nurse specialists, and may apply for national certification through examination by the American Nurses Credentialing Center (ANCC) (https://www.nursingworld.org/ancc/).

## Adult-Gerontology Clinical Nurse Specialist (CNS) Requirements

| Code | Title | Units |
|---|---|---|
| **Academic Core Courses** | | **13** |
| GNRS 504 | Bioethics and Healthcare Policy | 3 |
| GNRS 506 | Spiritual Concept Analysis in Health Care | 3 |
| GNRS 508A | Research and Theory in Advanced Practice Nursing | 4 |
| GNRS 613 | Graduate Statistics | 3 |
| **Academic and Advanced Practice Core Courses** | | **12** |
| GNRS 513 | Advanced Nursing Practice Role | 2 |
| GNRS 610 | Advanced Pathophysiology | 3 |
| GNRS 611 | Advanced Pharmacology | 3 |
| GNRS 612 | Advanced Health Assessment and Diagnostic Reasoning [1] | 4 (3/1) |
| **Advanced Practice Specialty Courses** | | **22** |
| GNRS 520 | Theory and Practice of the Clinical Nurse Specialist in Nursing Care of Adult-Gerontology Patients | 6 (2/4) |
| GNRS 521 | Clinical Specialization in the Care of Adult-Gerontology Patients | 6 (2/4) |
| GNRS 543 | Transitions Across the Care Continuum | 6 (2/4) |
| GNRS 548 | Health Promotion Across the Lifespan | 2 |
| GNRS 580 | Gerontology | 2 |
| **Concluding Courses** | | **1-3** |
| GNRS 597 | Comprehensive Examination Directed Study | 1 |
| - or - | | |
| GNRS 598 | Thesis | 1 |
| - and - | | |
| GNRS 514 | Research Proposal Writing | 2 |
| **Total Units** | | **48-50** |

[1]    Units in parentheses are classroom/clinical units.

## Pediatric Clinical Nurse Specialist (CNS) Requirements

| Code | Title | Units |
|---|---|---|
| **Academic Core Courses** | | **13** |
| GNRS 504 | Bioethics and Healthcare Policy | 3 |
| GNRS 506 | Spiritual Concept Analysis in Health Care | 3 |
| GNRS 508A | Research and Theory in Advanced Practice Nursing | 4 |
| GNRS 613 | Graduate Statistics | 3 |
| **Academic and Advanced Practice Core Courses** | | **12** |
| GNRS 511 | Advanced Pediatric Health Assessment and Health Promotion [1] | 4 (3/1) |
| or GNRS 612 | Advanced Health Assessment and Diagnostic Reasoning | |
| GNRS 513 | Advanced Nursing Practice Role | 2 |
| GNRS 610 | Advanced Pathophysiology | 3 |
| GNRS 611 | Advanced Pharmacology | 3 |
| **Advanced Practice Specialty Courses** | | **20** |
| GNRS 530 | Theory and Practice of the Clinical Nurse Specialist in the Care of the Pediatric Patient | 6 (2/4) |
| GNRS 531 | Clinical Specialization in the Care of the Pediatric Patient | 6 (2/4) |
| GNRS 543 | Transitions Across the Care Continuum | 6 (2/4) |
| GNRS 548 | Health Promotion Across the Lifespan | 2 |
| **Specialized Option Courses** | | **2** |
| Select from the following: | | |
| GNRS 589 | Adolescent Health Care | 2 |
| or GNRS 510 | Family Theory in Health Care | |
| **Concluding Courses** | | **1-3** |
| GNRS 597 | Comprehensive Examination Directed Study | 1 |
| or | | |
| GNRS 598 | Thesis | 3 |
| & GNRS 514 | and Research Proposal Writing | |
| **Total Units** | | **48-50** |

[1]    Units shown in parentheses are classroom/clinical units.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

# Adult-Gerontology Primary Care Nurse Practitioner (AGPCNP)

The Master of Science in Nursing with Adult-Gerontology Primary Care Nurse Practitioner (AGPCNP) program (https://www.apu.edu/nursing/programs/msn-np/) prepares students to provide primary care to the young adult, adult, and older adult age spectrum across the continuum of care from wellness to illness, in settings that include community health centers and clinics, private medical practices, long-term care facilities, and patient homes. Graduates are eligible to apply to the state of California Board of Registered Nursing (https://www.rn.ca.gov/) for certification as a nurse practitioner and may apply for national AGPCNP certification through examination.

## Requirements

| Code | Title | Units |
|---|---|---|
| **Academic Core Courses** | | **10** |
| GNRS 504 | Bioethics and Healthcare Policy | 3 |
| GNRS 506 | Spiritual Concept Analysis in Health Care | 3 |

| GNRS 508A | Research and Theory in Advanced Practice Nursing | 4 |
|---|---|---|
| **Advanced Practice Core Courses** | | **10** |
| GNRS 610 | Advanced Pathophysiology | 3 |
| GNRS 611 | Advanced Pharmacology | 3 |
| GNRS 612 | Advanced Health Assessment and Diagnostic Reasoning [1] | 4 (3/1) |
| **Advanced Practice Specialty Courses** | | **21 (9/15)** |
| GNRS 600 | Nurse Practitioner Clinical Experience [2] | 12 |
| GNRS 601 | Primary Healthcare I: Adult and Aging | 3 |
| GNRS 602 | Primary Healthcare II: Population-based Health Interventions | 3 |
| GNRS 603 | Primary Healthcare III: Restorative and Palliative Interventions | 3 |
| **Other Specialization Course** | | **2** |
| GNRS 580 | Gerontology | 2 |
| **APRN Intensives** | | **4** |
| GNRS 615 | APRN Intensive I | 1 |
| GNRS 616 | APRN Intensive II | 1 |
| GNRS 617 | APRN Intensive III | 1 |
| GNRS 618 | APRN Intensive IV | 1 |
| **Concluding Course** | | **1** |
| GNRS 597 | Comprehensive Examination Directed Study | 1 |
| **Total Units** | | **48** |

[1]    Units shown in parentheses are classroom/clinical units.
[2]    Students may enroll in 2-6 clinical units per semester with faculty approval.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Articulate a Christian worldview, demonstrating respect for the dignity and uniqueness of others, valuing diversity, and applying spiritual concepts.
2. Engage in scholarly inquiry and critical thinking, including evaluation and application of evidence-based research.
3. Appraise and apply knowledge to develop, implement, and evaluate interventions that promote health and prevent disease.
4. Demonstrate thoughtful analysis of the legal, political, ethical, and/or financial factors impacting healthcare.
5. Use information systems and technology to communicate, manage knowledge, promote quality, mitigate error and support decision-making.
6. Demonstrate the ability to coordinate and collaborate with other health care team professionals.
7. Engage in clinical reasoning, effective communication, and act as change agents to develop professional identity and practice skill.

# Family Nurse Practitioner (FNP)

This specialty program (https://www.apu.edu/nursing/programs/msn-np/) prepares students to be nurse practitioners for patients across the human lifespan in a primary healthcare setting. This advanced clinical practice specialty includes direct patient assessment, diagnosis, management, and treatment; client advocacy; and client/family education. Graduates are eligible to apply to the California Board of Registered Nursing (https://www.rn.ca.gov/) for certification as a nurse practitioner and may apply for national FNP certification through examination.

# Requirements

7. Engage in clinical reasoning, effective communication, and act as change agents to develop professional identity and practice skill.

# Pediatric Nurse Practitioner–Primary Care (PNP-PC)

The Master of Science in Nursing (MSN) with a Pediatric Nurse Practitioner–Primary Care (PNP-PC) specialty (https://www.apu.edu/nursing/programs/msn-np/) prepares students to be nurse practitioners with children and families in primary health care settings. This advanced practice specialty includes direct client assessment, diagnosis, management and treatment, client advocacy, and client/family education. Graduates are eligible to apply to the state of California Board of Registered Nursing (https://www.rn.ca.gov/) for certification as a nurse practitioner, and may apply for national PNP-PC certification through examination.

## Requirements

| Code | Title | Units |

| GNRS 597 | Comprehensive Examination Directed Study | 1 |
| or | | |
| GNRS 598 | Thesis | 3 |
| & GNRS 514 | and Research Proposal Writing | |
| **Total Units** | | **44-50** |

[1]     Units in parentheses are classroom/clinical units.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

# Psychiatric Mental Health Nurse Practitioner (PMHNP)

This specialty master's program (https://www.apu.edu/nursing/programs/msn-np/) prepares students as psychiatric mental health nurse practitioners for clients with psychiatric and mental health problems across the lifespan. Graduates are prepared to work respectfully and collaboratively with clients/

consumers who are experiencing severe or chronic mental illnesses to determine biopsychosocial healthcare needs within a complex and changing environment. Theory and clinical coursework focus on assessment; differential diagnosis and disease management; intervention planning; individual, family, and group psychotherapy; health promotion; and disease prevention.

The inherent equality and worthiness of those who are vulnerable and disenfranchised, the role of spirituality, the value of diversity, and the ability to engender hope, empowerment, self-responsibility, and a meaningful role in life are threaded throughout the program. Graduates are eligible to apply to the California Board of Registered Nursing (https://www.rn.ca.gov/) for certification as a nurse practitioner, and may apply for national PMHNP certification through examination.

[1]    Units shown in parentheses are classroom/clinical units.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

# School Nurse Services Credential Option

The School of Nursing is approved by the Commission on Teacher Credentialing to offer the School Nurse Services Credential (SNSC) program.  The credential can be a stand alone non-degree program for applicants with a baccalaureate degree in nursing or it can be taken as part of the Master of Science in Nursing degree.  School nurses work with K-12 student populations to promote health and oversee the health education curriculum as well as implement student health maintenance plans.

- MSN and Family Nurse Practitioner (FNP) and School Nurse Services Credential (SNSC) (p. 680)
- MSN and Pediatric Nurse Practitioner–Primary Care (PNP-PC) and School Nurse Services Credential (SNSC) (p. 681)

# MSN and Family Nurse Practitioner (FNP) and School Nurse Services Credential (SNSC)

This combined specialty program (https://www.apu.edu/nursing/programs/msn-snsc-fnp/) prepares nurses to be effective practitioners of school health and provide primary care for people of all ages in a variety of settings. Through the program, students develop theoretical and practical expertise in nursing and education applied to basic health services in the public schools (K-12). This enables them to establish, maintain, and coordinate a comprehensive school health program. The advanced practice family nurse practitioner specialty includes direct client assessment, diagnosis, management and treatment, client advocacy, and client/family education. Graduates are eligible to apply to the state of California for the School Nurse Services Credential; they are also eligible to apply to the California Board of Registered Nursing for certification as a nurse practitioner, and may apply for national FNP certification through examination.

Students must also take a California-approved audiometry course to meet SNSC requirements.

## Requirements

| Code | Title | Units |
|---|---|---|
| **Academic Core Courses** | | **10** |
| GNRS 504 | Bioethics and Healthcare Policy | 3 |
| GNRS 506 | Spiritual Concept Analysis in Health Care | 3 |
| GNRS 508A | Research and Theory in Advanced Practice Nursing | 4 |
| **Advanced Practice Core Courses** | | **10** |
| GNRS 610 | Advanced Pathophysiology | 3 |
| GNRS 611 | Advanced Pharmacology | 3 |
| GNRS 612 | Advanced Health Assessment and Diagnostic Reasoning [1] | 4 (3/1) |
| **FNP Specialty Courses** | | **24 (12/12)** |
| GNRS 600 | Nurse Practitioner Clinical Experience [2] | 12 |
| GNRS 601 | Primary Healthcare I: Adult and Aging | 3 |
| GNRS 602 | Primary Healthcare II: Population-based Health Interventions | 3 |
| GNRS 603 | Primary Healthcare III: Restorative and Palliative Interventions | 3 |
| GNRS 590D | Primary Health Care of the Young Family | 3 |
| **APRN Intensives** | | **4** |
| GNRS 615 | APRN Intensive I | 1 |
| GNRS 616 | APRN Intensive II | 1 |
| GNRS 617 | APRN Intensive III | 1 |
| GNRS 618 | APRN Intensive IV | 1 |
| **SNSC Specialization Courses** | | **11** |
| GNRS 510 | Family Theory in Health Care | 2 |
| EDUC 537 | Curriculum Development, Revision, and Evaluation Process | 3 |
| GNRS 550A | Theory and Practice in School Nursing | 6 (3/3) |
| **Concluding Course** | | **1** |
| GNRS 597 | Comprehensive Examination Directed Study | 1 |
| **Total Units for the MSN: FNP and SNSC [3]** | | **60** |

[1]  Numbers in parentheses are classroom/clinical hours.

[2]  Students may enroll in 2-6 clinical units per semester with faculty approval.

[3]  Students must also take a California-approved audiometry course to meet SNSC requirements.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

# MSN and Pediatric Nurse Practitioner–Primary Care (PNP-PC) and School Nurse Services Credential (SNSC)

This combined specialty program (https://www.apu.edu/nursing/programs/msn-snsc-pnp/) prepares nurses to be effective practitioners of school health and provide primary care for children in a variety of other settings. Through the program, students develop theoretical and practical expertise in nursing and education applied to basic health services in the public schools (K-12). This enables them to establish, maintain, and coordinate a comprehensive school health program. The advanced practice pediatric nurse practitioner-primary care specialty includes direct client assessment, diagnosis, management and treatment, client advocacy, and client/family education. Graduates are eligible to apply to California for the School Nurse Services Credential. They are also eligible to apply to the California Board of Registered Nursing (https://www.rn.ca.gov) for certification as a nurse practitioner, and may apply for national PNP certification through examination.

Students must also take a California-approved audiometry course to meet SNSC requirements.

| **Total Units for the MSN with SNSC [2]** | | **39-41** |

[1]    Numbers in parentheses are classroom/clinical units.

[2]    Students must also take a California-approved audiometry course to meet SNSC requirements.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

## Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Articulate a Christian worldview, demonstrating respect for the dignity and uniqueness of others, valuing diversity, and applying spiritual concepts.
2. Engage in scholarly inquiry and critical thinking, including evaluation and application of evidence-based research.
3. Appraise and apply knowledge to develop, implement, and evaluate interventions that promote health and prevent disease.
4. Demonstrate thoughtful analysis of the legal, political, ethical, and/or financial factors impacting health care.
5. Use information systems and technology to communicate, manage knowledge, promote quality, mitigate error and support decision-making.
6. Demonstrate the ability to coordinate and collaborate with other health care team professionals.
7. Engage in clinical reasoning, effective communication, and act as change agents to develop professional identity and practice skill.

# School Nurse Services Credential (SNSC)

This specialty (nondegree) program (https://www.apu.edu/nursing/programs/school-nurse-services-credential/) includes core academic courses and those required for the school nurse services credential, preparing registered nurses who have completed a bachelor's degree to be effective practitioners of school health. Students develop theoretical and practical expertise in nursing and education applied to basic health services in the public schools (K-12), learning to establish, maintain, and coordinate a comprehensive school health program. This includes planning health programs, assessing the health of children, providing health care and health referral, and contributing to the formulation and evaluation of health policy. To maximize children's ability to learn in school, candidates for the credential emphasize child health maintenance, illness prevention, restoration of health, and childhood wellness. This program is approved by the California Commission on Teacher Credentialing (CTC) (https://www.ctc.ca.gov/).

Admission requirements (https://www.apu.edu/nursing/programs/school-nurse-services-credential/#admission) are the same as those for the Master of Science in Nursing program. Students must also take a California-approved audiometry course to meet SNSC requirements.

# Department of Entry-Level Master of Science in Nursing

The Department of Entry-Level Master of Science in Nursing offers the Entry-Level Master of Science in Nursing (ELM), an accelerated graduate nursing program for students who desire to enter the nursing profession and hold a baccalaureate or higher degree in another discipline. This program meets the California Board of Registered Nursing (BRN) (https://www.rn.ca.gov/) requirements for licensure and is available at the San Diego, Inland Empire, and Monrovia campus locations.

Contact the School of Nursing (https://www.apu.edu/nursing/) for more information.

## Programs

- Entry-Level Master of Science in Nursing (ELM) (p. 711)
- ELM-MSN: School Nurse Services Credential (SNSC) and Family Nurse Practitioner (FNP) (p. 709)
- ELM-MSN: School Nurse Services Credential (SNSC) and Pediatric Nurse Practitioner–Primary Care (PNP-PC) (p. 710)
- ELM-MSN: Adult-Gerontology Primary Care Nurse Practitioner (AGPCNP) (p. 703)
- ELM-MSN: Adult-Gerontology or Pediatric Clinical Nurse Specialist (CNS) (p. 702)
- ELM-MSN: Family Nurse Practitioner (FNP) (p. 704)
- ELM-MSN: Pediatric Nurse Practitioner–Primary Care (PNP-PC) (p. 707)
- ELM-MSN: Psychiatric Mental Health Nurse Practitioner (PMHNP) Specialty (p. 708)
- ELM-MSN: Healthcare Administration and Leadership (p. 705)
- ELM-MSN: Nursing Education (p. 706)
- MSN-ELM with School Nurse Services Credential (SNSC) (p. 713)

## Courses

### GNRS 500, Conceptual Foundations of Professional Nursing, 3 Units

This course focuses on the introductory concepts crucial to the socialization of second career students to professional nursing. The history of nursing, the evolution of nursing in the U.S., the art and science of nursing, the legal and professional basis of nursing, the role of nursing in the health care delivery system, and current issues and trends in nursing education, practice and research are emphasized.

### GNRS 501, Theoretical Thinking in Nursing, 2 Units

This course examines questions about the nature and construction of theory and how theoretical ideas are developed and used in nursing practice and research. Philosophical ideas underlying theory are examined, and selected theoretical models and theories are explored.
**Prerequisite:** Completion of undergraduate research course or instructor's consent; admission to ELM or MSN program.

### GNRS 503, Cultural Competency in Health Care, 3 Units

This course focuses on transforming graduate nursing students, preparing them for nursing leadership in nursing practice, nursing research, education, and public health policy for the improvement of patient healthcare outcomes in our increasingly diverse society. Students move from cultural sensitivity and awareness to critical reflection and action, challenging their assumptions and broadening their perspectives. The Essentials of Master's Education in Nursing (American Association of Colleges of Nursing, 2011) serves as the foundation for the development of core cultural competencies.
**Prerequisite:** Graduate standing in the School of Nursing.

### GNRS 504, Bioethics and Healthcare Policy, 3 Units

This course will outline the role of the healthcare leader in ensuring human rights are upheld in healthcare systems. This course focuses on bioethical analysis, decision-making and moral policy analysis, and formulation. Through course discussion, group and individual assignments, and oral and written presentations, students will analyze and apply bioethical principles to decision- and policy- making processes in the workplace and at national levels. Healthcare ethics and policy will be considered from a Christian worldview.
**Prerequisite:** Graduate standing

## GNRS 505, Christian Formation for Holistic Care, 3 Units

Students engage in the process of discovering the foundational values of Azusa Pacific University that serve as guiding principles for the distinctive education they will receive. They are made aware of the Christian worldview and its implications for personal holistic development and care. With a focus on developing motivating character and integrated caregivers, the course brings heightened self-awareness, the impact of a Christian worldview on vocation, scriptural awareness especially emphasizing healing themes in the life of Christ, and the importance of spiritual growth on the journey toward formation.

## GNRS 506, Spiritual Concept Analysis in Health Care, 3 Units

Scholarly research and analysis of selected concepts in the spiritual care of persons from the Judeo-Christian perspective provide a central focus to the course. Students also examine healthcare research/other healthcare literature for adequacy with respect to the concept they select. Various assignments facilitate greater student awareness of their own spiritual journey and knowledge of faith traditions other than their own. The course is conducted as a tutorial/seminar experience.
**Prerequisite:** Graduate standing

## GNRS 507, Scientific Writing, 3 Units

This course provides opportunities for students to learn how to introduce a topic or issue, articulate a thesis, support and develop a thesis and subordinate claims, work with secondary sources, and organize an argument.

## GNRS 508A, Research and Theory in Advanced Practice Nursing, 4 Units

This course prepares nurses to use theory and research evidence in advanced clinical practice. The relationship between theory and research is examined, exploring questions about the nature, construction, and use of each. Selected theoretical models and theories are explored, and students learn how ideas are developed and used in nursing practice and research. Students deepen their understanding of the research process by engaging in a systematic search, critique, and summary of research studies with direct application to nursing practice. Experience in statistical analysis of research data is included.
**Prerequisite:** Computer literacy, undergraduate research course, undergraduate statistics course, and graduate standing

## GNRS 508B, Research and Theory in Healthcare, 4 Units

This course prepares the healthcare administrator to apply theory and research evidence in healthcare environments. The relationship between theory and research is examined, exploring questions about the nature, construction, and use of each. Selected theories are explored, and students learn how ideas are developed and used in practice and research. Students learn the fundamentals of quantitative, qualitative, and mixed methods research and deepen their understanding through systematic search, critique, and summary of research studies with application to healthcare. Students work in groups to develop a research plan addressing a healthcare-derived question. Experience in statistical analysis of research data is included.
**Prerequisite:** GNRS 613

## GNRS 510, Family Theory in Health Care, 2 Units

The major theoretical perspectives for understanding the family as a core unit of analysis are studied. This course fosters the student's recognition of the family's responsibility for health. Factors such as family patterns and care-giving tasks of families experiencing catastrophic or chronic alteration in health care are examined. This class is offered online.
**Prerequisite:** Graduate standing

## GNRS 511, Advanced Pediatric Health Assessment and Health Promotion, 4 Units

This course develops the graduate nurse's assessment skills and focuses on the promotion of health in the pediatric population from the newborn period through adolescence. Emphasis is on adapting and expanding the medically focused history and physical assessment to incorporate the assessment of traditional health practices and identify culturally relevant and age-appropriate health promotion strategies. Outcomes are examined in light of related theoretical concepts. Strategies for health promotion include a focus on developmental and behavioral assessments, emotional health, nutrition, counseling to modify risk factors, and screening tests/prophylaxis for early detection and prevention of disease.
**Prerequisite:** Undergraduate health assessment and GNRS 610;
**Corequisite:** Practicum

## GNRS 513, Advanced Nursing Practice Role, 2 Units

This course focuses on the concepts of role development and performance competence of the nurse in advanced clinical practice within the context of a reformed health care delivery system. Emphasis is placed on the clinician, educator, clinical program manager, consultant, researcher, and case manager roles of the advanced practice nurse. The leadership aspects of the roles of advanced practice are explored in relation to health care delivery, policy formulation, and legislation. The course explores theories and issues related to the advanced nursing practice role.
**Prerequisite:** Graduate standing

## GNRS 514, Research Proposal Writing, 2 Units

This course focuses on the application of the concepts in GNRS 508A. The goal is the completion of a research proposal that details the problem, the research purpose, questions or hypotheses to be tested, a critique of the literature, the design and methods of the study including protection of human subjects, the plans for analysis, use of the study, and the budget and personnel.
**Prerequisite:** GNRS 508A

## GNRS 516, Integrative Disease and Symptom Management, 3 Units
Using a systems-based approach, this course provides the student with a broad-based, graduate-level overview for understanding disease processes, treatment modalities, assessment and interventional strategies for patients across the life span.

## GNRS 517, Fundamentals in Nursing Practice, 2 Units
This is an experiential learning course designed to teach basic nursing skills in a clinical skills or simulation laboratory setting to prepare students to deliver safe and patient-focused nursing care. Utilizing the nursing process, students perform basic skills in assessment, patient care across the continuum, documentation, patient-family teaching, and infection control.

## GNRS 518, Supervised Practicum in Health Care, 3 Units
This course prepares students to integrate and apply theory, evidence-based practice, and national guidelines and standards in practicum settings. Students select practicum areas in which, with faculty approval, they will participate in experiences led by preceptors. The purpose of the course is to equip students with current, evidence-based knowledge in a selected practice area.

## GNRS 520, Theory and Practice of the Clinical Nurse Specialist in Nursing Care of Adult-Gerontology Patients, 6 Units
Critical concepts in advanced collaborative management of adult-gerontology client populations by Clinical Nurse Specialists are studied. Differential diagnosis, pharmacologic management, cultural sensitivity, adult-gerontology continuum of health and illness (i.e., wellness, health promotion, disease prevention), teaching-learning theory, and evidence-based best practices for clinical decision-making for the Adult and Geriatric population are highlighted. CNS roles, competencies, and professional issues and integrated clinical rotations will be chosen from critical care or medical-surgical adult-gerontology populations. Clinical seminar times allow students to discuss and analyze current professional issues and clinical problems in a collegial atmosphere.
**Prerequisite:** Academic Core and Advanced Practice Core courses, current RN license, CPR certificate, and meets health screening requirements;
**Corequisite:** Practicum

## GNRS 521, Clinical Specialization in the Care of Adult-Gerontology Patients, 6 Units
The course prepares the student to apply concepts introduced in GNRS 520. It focuses on diagnosis and collaborative disease management of acute illness in the adult-gerontology patient by the Clinical Nurse Specialist. The integration of advanced skill development, theory and evidence based practice, disease management, clinical decision making, unit and organization management issues, professional issues and APRN role competencies are the foundation for this course. Practicum and seminars are planned to span the breadth of the students' clinical opportunities.
**Prerequisite:** Academic Core and Advanced Practice Core courses, GNRS 520, current RN license, CPR certificate, and meets health screening requirements;
**Corequisite:** Practicum

## GNRS 522, Disaster Nursing and Emergency Preparedness, 3 Units
This course explores the nature of disasters and prepares nurses to respond to various types of disasters - including natural, environmental, mass casualty, public health emergencies, terrorism, and bioterrorism - by utilizing essential knowledge, skills, values, meanings, and experience in the basic competencies of emergency preparedness and disaster nursing. In accordance with the position of major nursing organizations, emphasis is placed on evidence-based best practices for personal preparedness.
**Prerequisite:** Comparable course, such as UNRS 312 Nursing Management of Adults, a human growth and development course, a lifespan course OR an RN licensure.

## GNRS 530, Theory and Practice of the Clinical Nurse Specialist in the Care of the Pediatric Patient, 6 Units
Critical concepts in the advanced collaborative management of pediatric client populations by the Clinical Nurse Specialists are studied. Differential diagnosis, pharmacologic management, cultural sensitivity, pediatric continuum of health and illness (i.e., wellness, health promotion/disease prevention), teaching-learning theory, and evidence-based/best practices for clinical decision-making for the Pediatric population are highlighted. CNS roles, competencies, and professional issues are integrated. Clinical rotations will be chosen from critical care or medical-surgical pediatric populations. Clinical seminar times allow students to discuss and analyze current professional issues and clinical problems in a collegial atmosphere.
**Prerequisite:** Academic Core and Advanced Practice Core courses, current RN license, CPR certificate, and meets health screening requirements;
**Corequisite:** Practicum

## GNRS 531, Clinical Specialization in the Care of the Pediatric Patient, 6 Units
The course prepares the student to apply concepts introduced in GNRS 530. It focuses on diagnosis and collaborative disease management of acute illness in the pediatric patient by the Clinical Nurse Specialist. The integration of advanced skill development, theory and evidence based practice disease management, clinical decision making, unit and organization management issues, professional issues and APRN role competencies are the foundation for this course. Practicum and seminars are planned to span the breadth of the students' clinical opportunities.
**Prerequisite:** Academic Core and Advanced Practice Core courses, GNRS 530, current RN license, CPR certificate, and meets health screening requirements;
**Corequisite:** Practicum

## GNRS 532, Advanced Nursing Practice in Pediatrics, 6 Units

This course emphasizes physiological and psychological bases for critical and chronic conditions in children, focusing on an advanced science base for the assessment, diagnosis, and management of children and families to promote wellness. Exploration of traditional versus alternate medicine treatment plans, as well as relevant cultural, spiritual, and health promotion strategies, is incorporated.
**Prerequisite:** Graduate status and GNRS 590A;
**Corequisite:** Practicum

## GNRS 533, Psychiatric Theories across the Life Span, 2 Units

This course presents neurobiologic, neuroendocrine, genomic, behavioral, and psychodynamic theories of psychiatric mental illnesses as they manifest among members of diverse cultural groups across the life span. A theoretical foundation for subsequent coursework in primary psychiatric mental health care is provided for the role of the psychiatric mental health nurse practitioner.
**Prerequisite:** Graduate standing, Advanced Practice Core

## GNRS 534, Integrated Psychiatric and Health Assessment across the Life Span, 2 Units

This course teaches the role of the psychiatric mental health nurse practitioner in interviewing, assessing, and utilization of other data collection methods to elicit, analyze, and evaluate bio-psychosocial information regarding psychiatric mental health illness as experienced and understood by the clients, across the lifespan. Assessment and integration of the effects of potential and/or existing co-morbid health problems are focused upon. Diagnostic reasoning that is based on the Diagnostic Statistical Manual is foundational in the course. Development of differential diagnoses and disease management, evidence-based practice, and health promotion that includes client and nurse practitioner collaboration is emphasized.
**Prerequisite:** Advanced Practice Core, GNRS 533 (May be taken concurrently)

## GNRS 535, Psychiatric Interventions and Health Promotion across the Life Span, 6 Units

In this course students learn historical, theoretical, and contemporary evidence-based psychotherapies that promote and support client stabilization, rehabilitation, and recovery. The client as a collaborating decision making consumer and the client-clinician therapeutic alliance are central to this course. Students increase competence in assessment of psychiatric mental health illnesses, differential diagnoses and disease management, implementation of psychotherapy (individual, group, family), medication management, and health promotion interventions, including motivational interviewing. Student competence in developing and facilitating therapeutic groups as a recovery modality are included in the course. The role of the psychiatric mental health nurse practitioner in the integration and coordination of support services that impact mental health and illness is also included. Students practice verbal psychotherapeutic skills that motivate and facilitate client self-management and progression toward recovery.
**Prerequisite:** Advanced Practice Core, GNRS 533 and GNRS 534; GNRS 539 may be taken concurrently;
**Corequisite:** Practicum

## GNRS 536, Psychiatric Mental Health Care with Adults and Older Adults, 6 Units

In this course students increase their knowledge and competence in the assessment of psychiatric mental health illnesses, differential diagnoses and disease management, implementation of psychotherapy (individual, family, group), evidence-based practice, medication management, health promotion and disease prevention interventions, integration and coordination of support services, with adults and older adults.
**Prerequisite:** GNRS 533, GNRS 534, GNRS 535, GNRS 539;
**Corequisite:** Practicum

## GNRS 537, Psychiatric Mental Health Care with Children and Adolescents, 6 Units

In this course, students increase competence in the role of the psychiatric mental health nurse practitioner in the assessment of psychiatric mental health illnesses, differential diagnosis and disease management, implementation of psychotherapy (individual, family, group), evidence-based practice, medication management, health promotion and disease prevention interventions, integration and coordination of support services with children, adolescents, and families.
**Prerequisite:** GNRS 533, GNRS 534, GNRS 535, GNRS 536, GNRS 539;
**Corequisite:** Practicum

## GNRS 538, Psychiatric Mental Health Care with Selected Populations, 5 Units

Students increase knowledge and competence in the assessment of psychiatric and mental health illnesses, differential diagnosis and disease management, implementation of psychotherapy (individual, family, group), medication management, health promotion and disease prevention interventions, and integration and coordination of support services with a selected population. Focus is on integrating and practicing all aspects of the role of the psychiatric mental health nurse practitioner with clients who are experiencing acute and/or chronic mental health problems and psychiatric disorders.
**Prerequisite:** GNRS 533, GNRS 534, GNRS 535, GNRS 536, GNRS 539;
**Corequisite:** Practicum

## GNRS 539, Psychopharmacology, 2 Units

Students in this course build upon knowledge of advanced practice nursing and provides content essential for the psychiatric mental health nurse practitioner to prescribe appropriate pharmacologic treatment in practice. Mechanisms of action, interactions, side effects, and prescribing guidelines for psychopharmaceuticals commonly utilized across the lifespan are addressed.
**Prerequisite:** GNRS 533, GNRS 534; GNRS 535 (May be taken concurrently)

## GNRS 542, Advanced Concepts and Competencies in Pediatric Primary Health Care, 3 Units

This course offers a comprehensive review and synthesis of core concepts and competencies for the pediatric advanced practice nurse in the primary care setting. This culminating experience for pediatric nurse practitioner students incorporates seminar discussions and clinical practicum placement, and also allows for a discussion of developmental/behavioral issues, management of acute and chronic care illnesses seen in primary care settings, and preventative health care.
**Prerequisite:** Graduate standing, GNRS 532 (may be taken concurrently with instructor's permission), and GNRS 590A;
**Corequisite:** Practicum

## GNRS 543, Transitions Across the Care Continuum, 4-6 Units

This course focuses on principles and models of care and their implementation in a multidisciplinary practice environment that emphasizes healthcare delivery through integration of services and transition management. Students are introduced to decision making related to allocation of resources and services, development of protocols, and evaluation of management approaches. Evidence-based approaches to the clinical, administrative, educational, and research dimensions of patient care are emphasized. Evaluation of care management activities with the student's selected clinical population is an integral component of the course.
**Prerequisite:** NP students: completion of Advanced Practice Core; CNS students: completion of Advanced Practice Core and GNRS 520 or GNRS 530; HAL students: completion of MSN Core and GNRS 560.
**Corequisite:** Practicum

## GNRS 544, Clinical Specialization Residency, 2-4 Units

This elective residency program, formed through a partnership between the School of Nursing and selected community healthcare organizations, is an intensive, precepted clinical experience that helps students transition to beginning professional nurses in a specialized setting. It enhances students' skill and practice knowledge in preparation for the RN licensing examination, and increases their ability to perform clinical reasoning with the assigned patient population and evaluate the QSEN competencies of patient-centered care, safety, evidence-based practice, informatics, and teamwork and collaboration.
**Prerequisite:** ELM students must complete GNRS 573 (may be taken concurrently), but GNRS 573 is not required for nurses in community partnerships who are taking GNRS 544 for continuing education credit.

## GNRS 546, Theory and Practice in Health Care Systems in the Community, 6 Units

This specialized course prepares RNs without a bachelor's degree for graduate study in nursing. A multiple theoretical focus that includes concepts from systems, stress, adaptation, developmental, and role theory is emphasized. A beginning practice in the utilization of the nursing process with an emphasis on nursing diagnosis and the nurse's role in assessing, planning, implementing, and evaluating care of clients in a variety of community settings is provided. Collaboration with community-based organizations and services that provide health restoration, maintenance, illness prevention, and client education services to individuals and families at home are essential course components. A review of legal mandates for practice and discussion of ethical dilemmas and issues related to high quality nursing care are included. Specific content varies based on the students' prior education and experience. Clinical placements are arranged to meet the individual student's needs.
**Prerequisite:** Undergraduate research, pathophysiology, and health assessment;
**Corequisite:** Practicum

## GNRS 547, Nursing Leadership in Acute Care Settings, 6 Units

This is one of two clinical courses provided for the RN who seeks both a bachelor's and master's degree in nursing. The course synthesizes selected information from the generic bachelor's and master's programs for presentation in a condensed format, addressing the development and nature of today's health care systems and associated issues in the United States. Further, content familiarizes the student with several roles and responsibilities of the contemporary nurse, such as leader, consultant, teacher, manager, and client advocate. The course focuses on client needs in acute health care settings and emphasizes the relationship between the health care system and the advocate.
**Prerequisite:** Undergraduate research, pathophysiology, and health assessment;
**Corequisite:** Practicum

## GNRS 548, Health Promotion Across the Lifespan, 2 Units

The course focuses on health promotion and disease prevention across the lifespan and around the globe. The course includes exploration of population health issues, environmental implications in health and health policy, impact on health promotion and the development of disease.
**Prerequisite:** Academic Core and Advanced Practice Core courses, current RN license, CPR certificate, and meets health screening requirements

## GNRS 550A, Theory and Practice in School Nursing, 6 Units

This combined didactic and clinical course provides theoretical content and field experiences that emphasize the multifaceted role of the school nurse. Students participate in field experiences and classroom learning activities that focus on the assessment and management of children's healthcare needs in various school settings. This course equips students with the necessary tools and skills to successfully function as professional school nurses. At the conclusion of this course, students are able to successfully function as providers of health education as well as providers, planners, and coordinators of health care in school settings.
**Prerequisite:** GNRS 612 or instructor consent, and admission to School Nurse Services Credential program;
**Corequisite:** Practicum

## GNRS 554, Medical-Surgical Care of the Adult and Geriatric Patient, 5 Units

This course introduces crucial concepts in professional nursing care, such as the nursing process, communication, therapeutic interventions, critical thinking, and critical reasoning. Course material focuses on the application of biological, psychosocial, and spiritual concepts to adult and elderly clients in various healthcare settings with acute and/or chronic illnesses. The nursing process is utilized to provide care to one or two adult clients within the healthcare delivery system. The clinical practicum focuses on the cognitive basics, scientific principles, and manipulative components of psychomotor skills used when providing nursing care.

**Prerequisite:** Admission to the ELM program, completion of all prerequisite courses for the program.

**Corequisite:** GNRS 554P

## GNRS 555, Medical Surgical Care of the Adult and Geriatric Patient, 7 Units

This course introduces crucial concepts to professional nursing care such as nursing process, communication, therapeutic interventions, and critical thinking and clinical reasoning. The course focuses on the application of biological, psychosocial, and spiritual concepts to hospitalized adult and elderly clients with acute and/or chronic illnesses. Students will be guided in critical thinking and clinical reasoning exercises in the management of hospitalized clients. Nursing process is utilized to provide care to one or two adult clients within the health care delivery system of an acute care setting. The clinical practicum focuses on the cognitive basis, scientific principles, and manipulative component of psychomotor skills used when providing nursing care. Students have an opportunity to practice simulated clinical skills.

**Prerequisite:** Admission to the ELM program, completion of all prerequisite courses for the program;

**Corequisite:** Practicum

## GNRS 556, Intermediate Medical Surgical Care of the Adult, 7 Units

This course is designed to build on the base of medical-surgical nursing knowledge from GNRS555. The course focuses on comprehensive nursing care to patients with acute need for continuous cardiac monitoring, pulse oximetry monitoring, or ventilator assistance in telemetry units, in restorative care setting, or long-term care setting.

**Prerequisite:** Admission to the ELM program; successful completion of GNRS 555;

**Corequisite:** Practicum

## GNRS 557, Medical Spanish for Advanced Practice Nurses, 3 Units

This course provides non-Spanish-speaking advanced-practice nursing students with foundational knowledge of Spanish language structure and vocabulary, helping them build appropriate phrasing to facilitate communication in healthcare settings. Cultural issues relevant to health and illness in the Latino community are also addressed.

**Prerequisite:** Graduate nursing student standing, or instructor's permission

## GNRS 558, Intermediate Medical-Surgical Care of the Adult, 6 Units

This course is designed to build on the base of medical-surgical nursing knowledge from prior nursing courses. The course focuses on comprehensive nursing care to patients with acute need for continuous cardiac monitoring, pulse oximetry monitoring, or ventilator assistance in telemetry units, restorative care settings and long-term care settings.

**Corequisite:** GNRS 558P

## GNRS 559, Audiometry for School Nurses, 3 Units

This course provides didactic instruction via eCollege and eight hours of on-site practicum experience that emphasizes the content and clinical expertise necessary to fulfill the requirements of the State of California School Hearing Conservation Program and training for the school audiometrist. The course focuses on the physiologic process of hearing and how to assess for deficits in hearing in children of all ages. At the conclusion of the course, and after having completed successfully all learning objectives, the student is eligible to submit an Application for Registration as a School Audiometrist in the State of California (a $10 registration fee is required with the application).

## GNRS 560, Strategic Leadership in Health Care, 3 Units

This course is designed to develop knowledge, skills and attitudes about leadership across the healthcare continuum. The student will consider the professional role of the healthcare administrator both from a leadership and a management perspective. Areas of concentration will include leadership theory, structure of healthcare institutions, systems thinking and decision-making, performance improvement including quality and safety issues, risk management and effective communication skills. Application of business skills will be integrated. Students will consider the theoretical and research background, current issues and trends, leadership and administrative implications of specific topics.

## GNRS 564, Nutrition and Therapeutics, 2 Units

Students in this course explore the functions of nutrients and the consequences of nutrient deficiencies and excesses in the body. Course material introduces a variety of tools for planning and evaluating diets, including a computer diet analysis, and the application of nutrition concepts is interwoven into health care and fitness conditions. Students also study the prevention of chronic disease as it relates to proper nutrition and adequate exercise.

**Prerequisite:** Admission to the ELM program

## GNRS 567, Healthcare Administration and Leadership Supervised Practicum, 3 Units

This course provides the student with the opportunity to experience the role of healthcare administrator. An individualized administration practicum in a specific area of clinical emphasis is chosen by the student and approved and monitored by the faculty and preceptor. Competencies that govern the role of the healthcare administrator are explored in depth. Students focus on the context for enacting the role of administrator in a healthcare delivery system.

**Prerequisite:** All core and role courses

## GNRS 568, Healthcare Finance, 4 Units

This course is an introduction to financial concepts and skills need for healthcare leaders, managers, and executives. The student will develop skills in assessing multiple dimensions of financial performance and methods to improve the financial health of an organization in the context of current patient care system.

## GNRS 569, Quality and Safety for Health Care Practice, 3 Units

This course is designed to deepen and advance students' knowledge of, and ability to systematically apply the principles of, patient quality and safety in nursing practice. Based on national standards, the focus is on examining and applying quality and safety tools, including informatics, that can be used to improve patient care delivery across the continuum of health care.

## GNRS 570, Parish Nursing/Health Ministries, 2 Units

This course provides an introduction to and overview of health ministry and parish nursing theory and practice. The philosophy of the course is that (a) the parish nursing role is that of a specialist in spiritual aspects of patient care in the congregational context, requiring the integration of graduate level theology/ministry and nursing theory and praxis; and (b) health ministry is an emerging role and trend in pastoral ministry that seeks to bring professional ministry skill to bear upon the integration of health, faith, and spirituality in the parish setting.

## GNRS 571, International Health Care, 2-4 Units

This course provides students with experience in nursing care in other countries. Students prepare with coursework in the United States, then travel abroad, where they have experiences in acute and/or chronic care settings, exploring cultural, economic, systems, philosophical, and other aspects of care that influence the provision of health care in other countries. A debriefing period is provided upon return.

## GNRS 573, Clinical Residency, 4 Units

The clinical residency is an internship clinical experiential program designed as a collaborative partnership between the School of Nursing and selected community in-patient health care organizations. This residency is an intensive preceptored clinical experience planned to ease the role transition from a student nurse to a beginning professional nurse in an acute-care setting. In addition, it enhances the skill and practice knowledge of the student in preparation for the RN licensing examination.
**Prerequisite:** Successful completion of all pre-licensure clinical courses

## GNRS 575, Nursing Care in Maternal, Newborn, and Women's Health, 4 Units

This course focuses on the theoretical and clinical concepts of the childbearing patient, her infant, and her family. The students study both normal and complicated obstetrics. Selected issues of women's health are explored. The student is introduced to birth preparation, prenatal care, normal neonatal, and postpartum care with concurrent clinical experiences.
**Prerequisite:** Admission to the ELM program, successful completion of semesters one and two;
**Corequisite:** Practicum

## GNRS 576, Pharmacology, 2 Units

This course is designed for students who have completed organic chemistry, inorganic chemistry, and biochemistry. The content focuses on principles of pharmacology and specifics of the major drug classifications.
**Prerequisite:** Admission to the ELM program

## GNRS 578, Health Assessment, 3 Units

This course provides the nursing student with skills in physical, spiritual, and psychosocial assessment of adult clients. History-taking and physicalexamination techniques presented in the course help the student develop strong assessment skills upon which further knowledge and practice can be built. Basic concepts related to assessment of geriatric, pediatric, and childbearing patients are included.
**Prerequisite:** Admission to the ELM program;
**Corequisite:** Practicum

## GNRS 580, Gerontology, 2 Units

This course integrates research and writings about the major trends and developments in the field of gerontology as they apply to the field of nursing. The approach is interdisciplinary - course material includes information from the fields of sociology, psychology, anthropology, biological sciences, medicine, nursing, and psychiatry. Development in adulthood is viewed from multiple perspectives including cognitive, behavioral, biological, sociocultural, and spiritual, and the influences these perspectives have on the successful negotiation of age-related issues are considered. Finally, students examine aspects of human aging in contemporary American society and from a cross-cultural and ethnic perspective.
**Prerequisite:** Graduate standing in the School of Nursing.

## GNRS 581, Primary Health Care of the Older Adult, 5 Units

GNRS 581 focuses on the role of the adult-gerontology primary care nurse practitioner in the management of the older adult including health promotion, assessment, treatment, and maintenance of common primary care health problems. The clinical practicum emphasizes the application of theory and evidence-based research for the delivery of culturally competent assessment and treatment of the older adult within the context of their families and in a variety of outpatient settings.
**Prerequisite:** Graduate status in the School of Nursing, completion of Advanced Practice Core courses;
**Corequisite:** Practicum

## GNRS 582A, Pathophysiology, 2 Units

This course presents an introduction to human pathophysiology. Mechanisms causing alterations in cellular activity, maintenance of cellular tissue oxygenation, fluid and electrolyte balance, and neuroendocrine control of the body are included. Common pathophysiologic disorders are emphasized.
**Prerequisite:** Admission to the ELM program

## GNRS 582B, Pathophysiology, 2 Units

This course continues the presentation an introduction to human pathophysiology. Mechanisms causing alterations in cellular activity, maintenance of cellular tissue oxygenation, fluid and electrolyte balance, and neuroendocrine control of the body are included. Common pathophysiologic disorders are emphasized.
**Prerequisite:** Admission to the ELM program, successful completion of GNRS 582A

## GNRS 583, Nursing Care of Children and Young Adults, 4 Units

This theoretical and clinical course focuses on the care of children from birth through adolescence. The effects of acute and chronic illness on growth and development are studied in the acute and community health care setting. Education of the child and family on health promotion, disease prevention, and safety issues are addressed. Ethical issues are discussed regarding the relationship to the child and family, including issues such as child abuse, informed consent, and the impact of diverse cultural and spiritual beliefs on health care decisions in the family.
**Prerequisite:** Admission to the ELM program, successful completion of semesters one and two;
**Corequisite:** Practicum

## GNRS 584, Mental Health Nursing, 4 Units

This theoretical and clinical course focuses on the dynamics of psychosocial stress within the interpersonal and intrapersonal systems of clients with acute and chronic psychiatric disorders.
**Prerequisite:** Admission to the ELM program, successful completion of semesters one and two;
**Corequisite:** Practicum

## GNRS 586, Leadership and Management in Professional Practice, 2 Units

This course emphasizes leadership and management theory including systems theory in a number of applications and settings, equipping students with the ability to adjust to various organizations encountered by professional nurses serving in a variety of roles. Core concepts relevant to clinical settings are presented using a systems approach. Emphasis on nursing case management is included.

## GNRS 587, Community Health Nursing, 5 Units

This course has two areas of focus within the community setting: the study of principles and practices involved in community health nursing, and the development of skills for teaching a group of clients. The emphasis is on the role of the nurse in assessing, planning, implementing, and evaluating care of clients in a variety of community-based settings, with a focus on care of the gerontological client. Collaboration with community-based organizations and services that provide health restoration, maintenance, illness prevention, and client education services to individuals, families, and aggregates are essential components of this course. A review of legal mandates and regulations, as well as discussion of ethical dilemmas and issues related to community-based care is included.
**Prerequisite:** Admission to the ELM program, successful completion of semesters one, two, and three;
**Corequisite:** Practicum

## GNRS 588, Advanced Nursing Care of Adults - Leadership, 6 Units

This course involves the application of pathophysiological, psychosocial, and spiritual concepts to adult and geriatric clients experiencing the stress of illness in acute settings. The primary focus of the course is to care for critically ill clients and their families with complex health care needs in a critical-care setting. A second area of focus is on the utilization of leadership and management concepts/skills in providing comprehensive care to groups of clients and families. Emphasis is placed on preparing the student to practice in a beginning leadership role in managing client care. Legal and ethical issues related to acute care are included.
**Prerequisite:** Admission to the ELM program;
**Corequisite:** Practicum

## GNRS 589, Adolescent Health Care, 2-4 Units

This course focuses on the growth and development of adolescents, including assessment, prevention, and management of common health and psychosocial problems in this population. Emphasis is on age-appropriate and culturally competent provision of primary health care to adolescents in a family system.
**Prerequisite:** Graduate status in the School of Nursing; 2-unit version of this course requires prior completion of GNRS 610, while the 4-unit version requires prior completion of GNRS 610, GNRS 611, and GNRS 511 or GNRS 612.

## GNRS 590A, Primary Health Care of the Young Family, 6 Units

This combined theory and clinical course focuses on management of health care of children (from birth through adolescence) and their families. Theory and clinical experiences emphasize assessment, prevention, and management of physiological, social, emotional, intellectual, spiritual, and educational needs of the child as an individual and as a family member. The effects of culture on development, parenting, and health care practices are emphasized. The course provides theory and clinical experiences in the management of normal and common pathological conditions to prepare students for advanced nursing practice in the role of nurse practitioner.
**Prerequisite:** Advanced Practice Core courses;
**Corequisite:** Practicum

## GNRS 590B, Clinical Practicum in Pediatrics, 4 Units

The student develops expanded skills in the comprehensive assessment and management of common childhood illnesses and problems and continues to gain skill in promoting child wellness. Application of theory and research is emphasized in the care of common illnesses throughout the childhood years.
**Prerequisite:** GNRS 511 or GNRS 612, and GNRS 590A

## GNRS 590C, Primary Health Care of the Young Family for the School Nurse Services Credential, 6 Units

Using a system-based approach, this combined didactic and practical course focuses on assessment, nursing interventions, and follow-up for common illness presentations in children, as well as illness-related impact on social, emotional, and educational functioning. The effects of culture on child development, parenting, and healthcare practices is also emphasized.
**Prerequisite:** GNRS 612;
**Corequisite:** Practicum

## GNRS 590D, Primary Health Care of the Young Family, 3 Units

This theory course focuses on management of health care of children (from birth through adolescence) and their families, with an emphasis on assessment, prevention, and management of physiological, social, emotional, intellectual, spiritual, and educational needs of the child as an individual and as a family member. The effects of culture on development, parenting, and health care practices are emphasized. The course provides theory in the management of normal and common pathological conditions to prepare students for advanced nursing practice in the role of nurse practitioner.
**Prerequisite:** Advanced Practice Core courses

## GNRS 591, Primary Health Care of the Childbearing Family, 4 Units

This course focuses on the assessment and management of the primary health care needs of the reproductive family. Emphasis is placed on health promotion and maintenance, disease prevention, curative, and restorative care. Cross-cultural aspects related to parents, male and female, of the childbearing family are addressed.
**Prerequisite:** Advanced Practice Core courses;
**Corequisite:** Practicum

## GNRS 592A, Primary Health Care of the Adult and Aging Family, 6 Units

This combined theory and clinical course focuses on the role of the nurse practitioner (NP) in caring for mature adults and aging family members, from young adulthood to elderly adulthood. Emphasis is placed on the management of common primary health problems of these age groups. The delivery of culturally competent primary health care interventions of young, middle-aged, and elderly adults is addressed.
**Prerequisite:** Advanced Practice Core courses;
**Corequisite:** Practicum

## GNRS 592B, Primary Health Care Clinical Practicum, 2 Units

This course provides the final comprehensive clinical management experience, allowing FNP and AGNP students to apply knowledge gained throughout their course of study. Clinical conferences provide opportunity for discussion of role development issues and clinical case studies. Students engage in the clinical assessment and management of adults of diverse cultural backgrounds with routine and complex health problems in out-patient settings. Under the supervision of qualified preceptors and School of Nursing faculty, the student must complete his/her clinical hours and demonstrate mastery to perform the role of an entry-level nurse practitioner.
**Prerequisite:** Completion of clinical courses for the FNP or AGNP program track

## GNRS 593, Psychosocial Primary Health Care of the Adult and Aging Family, 4 Units

This combined didactic and clinical course focuses on psychosocial primary health care of the mature and aging family. Didactic content and clinical experiences emphasize the advanced practice nursing role in the medical management of chronic illness with concurrent assessment for psychosocial stressors that impact the experience and management of chronic illness. Students learn to tailor patient-centered therapeutic strategies, including presence, multi-faceted functional assessment, motivational interviewing, stress reduction techniques and spiritual support to individual patients.
**Prerequisite:** Advanced Practice Core courses;
**Corequisite:** Practicum

## GNRS 595, Special Topics in Nursing, 1-6 Units

In this course, a topic of current interest to students is examined in depth. Students analyze and evaluate topics/issues to reach and express a position, enhance personal development and/or to develop a particular project. If students elect this course more than once during their program, each such course must address a different topic.
**Prerequisite:** Graduate standing

## GNRS 596, Foundations of Healthcare Informatics, 3 Units

This course provides an overview of basic concepts for practice in healthcare-oriented informatics. These core concepts include an introduction to clinical and translational informatics; foundational theory and practical application of clinical decision making and computerized decision support; healthcare systems and their organization; the special issues of administration, security, and operations of electronic records in the healthcare setting; human factors issues; information science in the healthcare domain; standards, terminologies, and the uniqueness of biomedical data; and a special focus on emerging technologies.

## GNRS 597, Comprehensive Examination Directed Study, 1 Unit

This course guides the student through the process of demonstrating an integration of theoretical, clinical, and research knowledge. Critical thinking is enhanced through careful consideration of information presented during discussion. The examinations are taken as part of this seminar.
**Prerequisite:** Completion of all Academic Core and degree specialty courses. Final specialty course may be taken concurrently.

## GNRS 598, Thesis, 1 Unit

A student initially enrolls in this option toward the latter part of the program for one unit of credit. The student registers for one unit of thesis credit each semester (two of three semesters per year) until the thesis is completed.
**Prerequisite:** GPA of 3.5 or above, chair's consent for thesis option, and completion of all Academic Core and Advanced Practice Core courses

## GNRS 599, Readings/Independent Study in Nursing, 1-4 Units

A student may elect to pursue special interests for credit at any time during the program under the supervision of a faculty member. University policy states that the student must earn a grade in an independent study course in order to receive credit toward graduation.
**Prerequisite:** Graduate standing

## GNRS 600, Nurse Practitioner Clinical Experience, 2-6 Units

The AGPCNP and NP programs require 765 hours of supervised direct patient care experience. Students in this course function in the role of student nurse practitioners under the direct supervision of approved preceptors, and receive feedback from their preceptors and from their clinical faculty. This course gives students an opportunity to complete the documentation necessary to be awarded clinical units. Students progressively integrate advanced-practice nursing competencies, demonstrate professional nursing behavior, and keep accurate records. Upon completion of 765 hours, students are given access to a clinical portfolio.
**Prerequisite:** GNRS 612 and faculty permission

## GNRS 601, Primary Healthcare I: Adult and Aging, 3 Units

This course integrates knowledge from advanced pathophysiology, advanced pharmacology, and advanced health assessment and apply it to create a diagnostic hypothesis for common acute and chronic primary care health problems in adolescents, adults, and older adults. The course examines a variety of treatment options for each disease presented and for diseases that don't respond to first-line therapy.
**Prerequisite:** GNRS 612
**Corequisite:** GNRS 600

## GNRS 602, Primary Healthcare II: Population-based Health Interventions, 3 Units

Primary Healthcare II recognizes that individuals with healthcare needs belong to a variety of discrete groups. This course introduces population health principles to be integrated with psychosocial assessment, cultural competency, social determinants of health, and the nurse-client relationship to foster the development of competence to motivate patients in a way that respects their diversity and to assist them to find resources to address social vulnerabilities. Students will employ statistical analysis as well as nursing experience to analyze risk to create a patient education plan.
**Prerequisite:** GNRS 601
**Corequisite:** GNRS 600

## GNRS 603, Primary Healthcare III: Restorative and Palliative Interventions, 3 Units

This course is designed to integrate disease management and communication techniques to support the physical, emotional, and spiritual transitions of chronic illness. The course examines developing a prognosis, transitioning care, interprofessional care planning, and care of the caregiver. Grounded in spiritual concepts, this course is designed to provide the student with tools to give patients and families unpleasant information that will likely evoke fear or sadness.
**Prerequisite:** GNRS 602

## GNRS 610, Advanced Pathophysiology, 3 Units

This course builds on basic anatomy and physiology and undergraduate study of pathophysiology. It focuses on the development of an advanced understanding of the pathophysiologic mechanisms of human health disorders including those that are genetic. Diagnostic reasoning that facilitates the clustering of signs and symptoms leading to diagnosis is a key process undergirding the course. This course requires the integration of signs and symptoms, clinical testing (such as laboratory and radiologic studies), and pathophysiologic mechanisms with diagnoses. This course introduces epidemiological principles and methods to be applied to population health models.
**Prerequisite:** Graduate standing and undergraduate pathophysiology

## GNRS 611, Advanced Pharmacology, 3 Units

This course builds upon basic knowledge in pharmacology and provides content essential for the advanced practice nurse to render appropriate pharmacological treatment in practice. Mechanisms of action, interactions, side effects, and prescribing guidelines for drugs commonly utilized across the life cycle are addressed. The course introduces the principles of pharmacogenomics and their application to clinical practice. Variations in pharmacological reactions attributed to cultural factors are emphasized. Strategies for fostering individual/family adherence to pharmacological regimens are examined. This course meets the requirements of the California Board of Registered Nursing in the application of a "furnishing number" by the advanced practice nurse in California.
**Prerequisite:** GNRS 610 (may be taken concurrently)

## GNRS 612, Advanced Health Assessment and Diagnostic Reasoning, 4 Units

This course develops the graduate nurse's assessment skills and focus on the promotion of health in individuals across the age range and within family, community, and cultural contexts. Emphasis is on adapting and expanding the medically focused history and physical assessment to incorporate the assessment of traditional and nontraditional therapies and identify culturally relevant and age-appropriate health promotion strategies for common episodic complaints and chronic health conditions. Outcomes are examined in light of theoretical concepts. Strategies for health promotion include a focus on lifestyle, mental health, nutrition, counseling to modify risk factors, and screening tests/prophylaxis for the early detection and prevention of disease.
**Prerequisite:** Undergraduate health assessment and GNRS 610;
**Corequisite:** lab

## GNRS 613, Graduate Statistics, 3 Units

This course presents the knowledge of descriptive, correlational, and inferential statistics used in research that serves as the basis for evidence-based practice. Students develop the ability to perform descriptive and inferential data analysis techniques, use software applications to aid in statistical calculations and presentation, and interpret findings.

## GNRS 615, APRN Intensive I, 1 Unit

This is the first of four Intensive courses that give NP students an interactive experience through in-class and out-of-classroom work. This course introduces students to the professional role and practice of the nurse practitioner in primary care.
**Prerequisite:** GNRS 612 (may be taken concurrently)

## GNRS 616, APRN Intensive II, 1 Unit

This is the second of four APRN Intensive courses that give NP students an interactive experience through out-of-classroom work. Course activities and games will evaluate the student's ability to perform the clinical role of the NP. Students will understand and develop the skills of virtuous leadership and collaboration from a biblical perspective.
**Prerequisite:** GNRS 615;
**Corequisite:** GNRS 601

## GNRS 617, APRN Intensive III, 1 Unit

This is the third of the APRN intensives that give APRN students an interactive experience with out-of-classroom work that includes team activities, simulation experiences, and problem-solving activities. Topical content includes managing patients with complex co-morbidities, ethical reasoning, and advanced communication skills. Students will be observed performing the professional and clinical skills of the APRN.
**Prerequisite:** GNRS 616;
**Corequisite:** GNRS 602

## GNRS 618, APRN Intensive IV, 1 Unit

This is the fourth of the APRN intensives that give APRN students an interactive experience with out-of-classroom work that includes team activities, simulation experiences, and problem-solving activities. Topical content practice-based quality improvement, office-based procedures, and certification exam preparation. Students will be observed performing the professional and clinical skills to demonstrate readiness to enter NP practice.
**Prerequisite:** GNRS 617; Faculty permission.

## GNRS 620, Genome Science in Healthcare, 3 Units

This course covers basic genomic concepts and technologies intended for personalizing healthcare. The primary goal is to provide the student with clinically relevant knowledge that can be used in practice and for teaching other healthcare professionals, patients and families. Applications of genome science and technology are analyzed in the context of real world examples taken from a variety of clinical specialty areas to better understand the relation between genomics, health, and illness.

## GNRS 622, Genome Science and Ethical Issues, 3 Units

This course examines current applications and implications of genome science and technology to healthcare, public health policy, economics, ethics, federal and state laws and societal issues. The following discussion topics are at the leading edge of healthcare and social debate: DNA biobanking, genetic profiling, and genomic technologies used in genome medicine such as stem cell research, gene therapy, and genetic enhancements. In addition, the course addresses ethics, philosophy, and theology literature to explore thoughtful discussions that cover a wide range of genome applications in healthcare and health science research.
**Prerequisite:** GNRS 620

## GNRS 630A, Oncology Nurse Practitioner Fellowship A, 4 Units

This course is the first in a series of three fellowship courses that enhance students' critical thinking, diagnostic reasoning, and interpretation and management skills for advanced practice nursing in the field of oncology. Students gain a deeper understanding of the sciences necessary for enhanced role development, knowledge, and skills for advanced practice nursing scholarship, and practice in a designated appropriate setting under the direction of a faculty advisor in collaboration with selected clinical experts, with a focus on exploring the development and scientific underpinnings of components of expert clinical oncology practice.
**Prerequisite:** Enrollment in the oncology nurse practitioner fellowship certificate program.

## GNRS 630B, Oncology Nurse Practitioner Fellowship B, 4 Units

This course is the second in a series of three fellowship courses that enhance students' critical thinking, diagnostic reasoning, and interpretation and management skills for advanced practice nursing in the field of oncology. Students gain a deeper understanding of the sciences necessary for enhanced role development, knowledge, and skills for advanced practice nursing scholarship, and practice in a designated appropriate setting under the direction of a faculty advisor in collaboration with selected clinical experts, with a focus on exploring the development and scientific underpinnings of components of expert clinical oncology practice.
**Prerequisite:** Enrollment in the oncology nurse practitioner fellowship certificate program.

## GNRS 630C, Oncology Nurse Practitioner Fellowship C, 4 Units

This course is the third in a series of three fellowship courses that enhance students' critical thinking, diagnostic reasoning, and interpretation and management skills for advanced practice nursing in the field of oncology. Students gain a deeper understanding of the sciences necessary for enhanced role development, knowledge, and skills for advanced practice nursing scholarship, and practice in a designated appropriate setting under the direction of a faculty advisor in collaboration with selected clinical experts, with a focus on exploring the development and scientific underpinnings of components of expert clinical oncology practice.
**Prerequisite:** Enrollment in the oncology nurse practitioner fellowship certificate program.

## GNRS 631, ONP: Cancer Biology and Assessment, 2 Units

This course builds on knowledge of the anatomy and physiology of DNA, RNA, and differentiated and nondifferentiated human cells. Focus is on the pathophysiologic mechanisms of human cancer disorders. Diagnostic reasoning that facilitates the clustering of signs and symptoms is a key process undergirding the course. The course also provides the foundation for the integration of diagnostic testing, physical assessment, and understanding of the predictable pathophysiology of cancer in order to stage tumors and predict metastatic risk in individuals.
**Prerequisite:** Admission to the Oncology Nurse Practitioner Post-Master's Certificate program.

## GNRS 632, ONP: Cancer Therapeutics, 2 Units

This course builds on knowledge of the predicted behavior of human cancer. Technology in cancer treatment is evolving rapidly, and this course provides a pathophysiological foundation for understanding cancer protocols. Current cancer protocols, classes and categories of therapeutics, technologies in development, and tumor resistance are discussed, along with the cost benefit, side effects, and availability of the covered therapeutics.
**Corequisite:** GNRS 631

## GNRS 633, ONP: Symptom and Side Effect Burden, 2 Units

Patients with advanced cancer often suffer significant symptomatic burden and the iatrogenic complications of treatment. This course helps students develop a patient-centered approach to evidence-based management of common symptoms of cancer and side effects of treatment.
**Prerequisite:** GNRS 631 and GNRS 632

## GNRS 634, ONP: Survivorship and the Psychosocial Impact of Cancer, 2 Units

Cancer patients and their caregivers face complicated psychological, financial, and spiritual changes, beginning at diagnosis and extending into the posttreatment phases. This course covers the common problems related to those changes, and best-practice strategies and techniques to help patients and families cope with cancer.

## GNRS 635, ONP: Team-Based Care and the Role of the Oncology Nurse Practitioner, 2 Units

The clinician role of the oncology nurse practitioner requires familiarity with the incidence, prevalence, and risk assessment competencies for all common cancers. In addition, the oncology nurse practitioner must be prepared for a wide variety of leadership roles. Strategies for care coordination, designing and measuring interdisciplinary team outcomes, mentoring, collaborating with primary care providers, and rapid-cycle quality improvement are examined.

## GNRS 636, ONP: Clinical Trials in Oncology Nursing, 2 Units

The advanced-practice oncology nurse practitioner is prepared to provide direct patient care, design a plan for outcome evaluation, and take a leadership role in medical and nursing oncological research.
**Prerequisite:** GNRS 610, GNRS 611, GNRS 612, and GNRS 613

## GNRS 650, History of Professional Nursing: From Origins to Nursing in Transition, 3 Units

Students in this course explore conceptual and methodological issues in historical nursing research, including the use of biographic methods in nursing history and working with primary sources/archival materials/artifacts and material culture. Focus is on the origins of professional nursing up to the period of nursing in transition in the United States. Students examine ethics guidelines and standards for historical research in nursing, and critically analyze the origins of nursing and early nursing contributions to the evolution of modern health systems and interventions. Class discussion and composition facilitate critical thinking about the history of nursing as a scholarly inquiry, focusing on issues and methods of nursing historical research.

## GNRS 651, History of Professional Nursing: From Colonial Times to Present Day, 3 Units

Students in this course explore the foundations of professional nursing in the United States in the context of influential historical, global, societal, and scientific events. Students examine issues faced by nurses from colonial times to today, critically analyzing nurses' contributions to the development of modern health systems and interventions. Class discussion and composition facilitate critical thinking about the history of nursing as a scholarly inquiry, since historical perspectives form the basis for analysis of contemporary healthcare issues and projected development of the nursing profession, its practice, and healthcare policy.

## GNRS 660, Theories of Teaching and Instruction, 3 Units

This course analyzes selected teaching and learning models that are applicable to nursing education. Strategies for classroom and clinical teaching are examined. Research relative to nursing education is reviewed and critiqued. Design of research methods to determine effectiveness of teaching strategies is incorporated. Course development and student evaluation are emphasized. Selected faculty and nursing education issues are also explored.

## GNRS 661, Leadership and Role Development in Nursing Education, 3 Units

This course includes an analysis of educational leadership and the multiple roles of the nurse educator related to teaching, scholarship, service, and practice. Theoretical perspectives and practical approaches supported by research in nursing and higher education literature, as well as the Christian educator's role promoting faith integration, are addressed.

## GNRS 662, Assessment, Curriculum, Development, and Outcomes, 3 Units

This course addresses theoretical approaches to educational assessment, the development and implementation of nursing curriculum, and student and program outcomes. Emphasis is given to the importance of incorporating Christian values in the curriculum. The course also includes critical analyses of related topics based upon current research in nursing and higher education literature.

## GNRS 663, Clinical Practicum in Nursing Education, 3 Units

This practicum course builds on the academic and clinical preparation of previous courses and prepares students to teach in academic and clinical settings. Under the supervision of a preceptor, this practical classroom experience focuses on: a) writing of learning/teaching objectives, b) selecting teaching strategies and learning activities, c) designing and implementing teaching plans for units of instruction, d) evaluating student learning outcomes, and e) obtaining feedback on teaching performance from faculty mentors/preceptors, fellow students, and self-evaluation and reflection. It is recommended that students take GNRS 660, GNRS 661, and GNRS 662 prior to taking this class. GNRS 664 may be taken concurrently.

## GNRS 664, Teaching and Learning Strategies for Nursing Education, 3 Units

This course equips academic nurse educators to develop and evaluate teaching and learning strategies that facilitate learning in different nursing educational settings. Course material includes examining the challenges nursing faculty face in implementing this role, and strategies to successfully navigate those challenges. Also included are two projects to prepare students for the application process of the nurse educator. It is recommended that students take GNRS 660 prior to taking this class.

## GNRS 695, Special Topics, 1-4 Units

A subject of current interest is examined in depth. Students analyze and evaluate controversial issues to reach and express a reflective position. This course may be repeated for credit to a maximum of 6 units applied toward the MSN or PhD degree; each course must address a different topic.

## GNRS 700, Philosophy of Science, 3 Units

This course equips students with the knowledge and critical analytic skills to comparatively evaluate the philosophical foundations of scientific theories and the influence of Western philosophical schools of thought on the development of nursing science. Course content is organized to engage students in discussion and critical analysis of the epistemological and philosophic foundations of scientific theories and the characteristics of scientific knowledge according to the received view, paradigmatic view, perceived postmodern view, and feminist tradition. Special emphasis is given to the critical debate within nursing about the nature of nursing science.

## GNRS 701, Nursing Knowledge Development, 3 Units

Students in this course focus on analyzing and critiquing the theoretical and methodological processes that are utilized in theory building and knowledge development in nursing. Discussion and critique of the different stages of theory development and students' experimentation with conceptualizing and developing their theoretical stance go hand in hand. Patterns of knowing, knowledge development, and criteria for evaluating nursing knowledge are examined in relation to the discipline's domain and the phenomena of concern in nursing.

## GNRS 702, Nursing Theory, 3 Units

This course focuses on strategies for theory development such as concept analysis, conceptual mapping, and theoretical modeling as applied to the student's phenomenon of concern. It also provides critique and analysis of the major models and theories used in a variety of nursing settings in relation to existing interdisciplinary theoretical knowledge.

## GNRS 703, Spirituality and Health, 3 Units

This course provides an introduction to spirituality, including spiritual experience, as it relates to individual health and illness. Communal spirituality is also considered. Differentiation is made between and among generic religious and Christian spiritualities. While the course covers theoretical aspects of spirituality and their interaction with health and illness, concentration is on the movement from theory to praxis. This lecture/seminar course is oriented toward nursing educators who seek to develop a foundation in spirituality for spiritual integration as well as for its development in nursing practice.
**Prerequisite:** Admission to DNP or PhD program

## GNRS 704, Faith Integration and Nursing Scholarship, 3 Units

This course begins with an exploration of the nature, role, problems, and possibilities of faith integration in higher education and in the nursing curriculum at all levels of higher education. The special circumstances of faith integration and its implications for teaching in secular college settings are explored. This course further provides a critical explication of theological method and content in three domains: biblical hermeneutics, constructive theology, and ministry praxis for education. The focus of the course is on the appropriation of theological method and knowledge for the purposes of integration into nursing education and practice especially (but not exclusively) within the context of a Christian or church-affiliated college.

## GNRS 705, Social Ethics and Health Policy, 3 Units

This course seeks to provide a social ethics frame of reference for health care. Medical and biological advances have contributed to a rapidly expanding amount of human control over human and natural processes, including genetic potential and behaviors. This new power raises questions of morality and highlights the need for discussion and legislation regarding the complex issues raised by developments in health care, medical technology, and science. A comprehensive social ethic places decisions about health care within the context of a fuller account of purpose and meaning in life.
**Prerequisite:** Admission to DNP or PhD program

## GNRS 706, Methods of Inquiry, 3 Units

Students in this course explore various methods of inquiry as they focus on the difference between scientific thinking, wisdom, and alternative concepts of knowledge. Existential dilemmas intrinsic to the pursuit of truth, the exploration of the meaning of actions, the process of reason and interpretation, the perception of reality, and empirical generalizations are discussed, and their influence on the definition of research problems and designs is explored. Research designs and methods are introduced as they relate to problem definition and theory, including an overview of the principles of basic and applied experimental research, evaluation research, and the traditions and foundation of qualitative and historical research. Students are required to explore, synthesize, and debate current issues that will affect their research careers.
**Prerequisite:** Admission to DNP or PhD program

## GNRS 707, Quantitative Nursing Research Design I, 3 Units

This course introduces students to fundamental quantitative research design and methodology. Course material covers key concepts in the research process; literature search; experimental, quasiexperimental, and observational designs; internal and external validity issues associated with specific designs; sampling and data collection methods; survey design; mixed methods; measurement quality indices; and the writing of a quantitative research proposal. In addition, topics addressing power analysis for calculating desired sample size and internal consistency reliability in SPSS are covered. Students have the opportunity to administer an instrument of choice and analyze collected survey data. By the end of the course, students develop an original quantitative research proposal that addresses an area of interest.
**Prerequisite:** Admission to DNP or PhD program

## GNRS 708, Qualitative Nursing Research Design I, 3 Units

This course focuses on analyzing the epistemological foundations and the assumptions of qualitative research methodologies. It provides an introduction to the major qualitative research methodologies including grounded theory, phenomenology, and ethnography. Each methodology is analyzed as to its appropriateness for the research question. Experience in carrying out a pilot study in the selected methodology is provided.

## GNRS 709, Advanced Statistical Analysis II, 3 Units

This course presents advanced methods of quantitative inquiry. The emphasis is on the use of factor analysis, confirmatory factor analysis, path analysis, and structural equation modeling. Assumptions of the techniques are addressed. The course provides the student experience in using statistical packages for entering and analyzing data. Reporting results of the analyses is also incorporated. Making appropriate decisions regarding which of the advanced statistical techniques to use is stressed. Critique of the advanced statistical analyses of published health care research is also emphasized.
**Prerequisite:** GNRS 707

## GNRS 710, Advanced Qualitative Research Methods, 3 Units

This course provides advanced knowledge and training in the use of qualitative research methods including phenomenological interpretation, grounded theory interpretation, ethnographic interpretation, focus groups interpretation, and feminist interpretation. Intensive interpretive and structured approaches to analysis and methods of establishing plausibility, credibility, and adequacy of qualitative data are emphasized.
**Prerequisite:** GNRS 708

## GNRS 711, Advanced Research Methods in the Humanities, 3 Units

This seminar and consultation course introduces PhD students to nonscientific research methodologies as used in the arts, letters, humanities and aspects of the social sciences for the (a) conduct of original dissertation research on one of the disciplines of arts, letters, humanities, or nonscientific aspects of one of the social sciences, (b) conduct humanities-based research to widen and deepen a scientific dissertation topic, or (c) to enlarge the student's methodological repertoire, knowledge, and skill. The course is intended for those whose primary research education and experience has been in scientific methods and disciplines. (Enrollment limited to eight.)
**Prerequisite:** (a) successful completion of GNRS 701 and GNRS 706, (b) permission of the instructor

## GNRS 712, Healthcare Quality Improvement, Program Planning, and Evaluation, 3 Units

This core course bridges the gap between the uptake of new health research discoveries and their translation, adaption, and implementation in practice. Course content includes the examination, integration, and application of quality improvement, program planning, and evaluation processes, strategies, and tools. The outcome of the course is a well-designed evaluation plan for an evidence-based quality improvement project.
**Prerequisite:** Admission to DNP or PhD program

## GNRS 713, Advanced Statistical Analysis I, 3 Units

This course presents common nonparametric and parametric statistical techniques used in healthcare research. Assumptions of the techniques are addressed. Specifically, the course emphasizes t-tests, ANOVA, ANCOVA, RANCOVA, correlation, odds ratio, regression, and power analysis, and provides the student experience in using SPSS for entering and analyzing data. Reporting results of the analyses is also incorporated. Making appropriate decisions regarding which statistical techniques to use is stressed. Critique of statistical analyses of published healthcare research is also emphasized.

## GNRS 715, Psychosocial Issues of Older Adults, 3 Units

This course focuses on the biological and psychosocial processes throughout adulthood and the older years. Theories of aging are examined, as well as social role changes, social stratification, and the development of institutions of the aged. The course explores both normal aging and psychopathology, and the systematic intrinsic psychological or personality changes associated with development and adaptation in later life. Other topics include clarification of the causes and prevention of health maladies in the later years, and the nature and treatment of the most common psychopathologies. The psychodynamics of institutionalization and family care of the very old are also examined.

## GNRS 716, Translation of Research to Practice, 3 Units

The goal of this core course is to help prepare Doctor of Nursing Practice (DNP) nursing students to be nurse scholars and to identify strategies within a multidisciplinary model and in intraprofessional relationships that promote the ready translation of research into practice. This course exposes DNP students to evidence-based practice, quality improvement methodologies, concepts and theories, and deepens their knowledge regarding the phenomenon of interest. This prepares them for foundational competencies needed for evidence-based problem identification, PICOT writing, literature search, integrated literature review, evidence appraisal, and synthesis. There are iterative assignments to develop skill and the milestone assignment is a final integrated review and synthesis paper with in-depth knowledge of their phenomenon (vs. topic) of interest.
**Prerequisite:** Admission to DNP or PhD program

## GNRS 717, Health Technology and Informatics, 3 Units

This course presents an overview of the evolution of health care informatics from an interdisciplinary perspective. Students learn health care informatics history, concepts, theories, legal and ethical implications, and applications within the health care industry. This course introduces the student to the information system life cycle, human factor issues in health care informatics, critical issues affecting the development and implementation of information and communication systems and technologies (clinical, administrative, and learning), knowledge management principles, professional practice trends, and emerging ICT (information and communication technology) in health care.

## GNRS 718, Organizational Leadership and Strategic Planning, 3 Units

In this core course, students acquire knowledge and skill to effectively manage systems level change, empower others, and influence political processes. Advanced nursing practice leadership occurs in clinical practice with clients and staff, within healthcare institutions, professional organizations, and in healthcare policy making arenas, using knowledge of nursing and other professions to address healthcare needs and direct interprofessional activities and initiatives. To develop the leadership role, students implement strategies for creating organizational change to provide high-quality services and outcomes at reasonable costs and lead the development of a business plan for quality improvement initiatives. Students advocate for change related to financial policies that impact the relationship between economics and quality care delivery. Focus is on organizational process, including the associated management of conflict, change, promotion of safety for clients and providers, and control of risk within a dynamic healthcare environment.
**Prerequisite:** Admission to DNP or PhD program

### GNRS 720, Wellness Promotion and Health Maintenance, 3 Units

This course focuses on the critical appraisal of theories and models of health promotion and on the evaluation of health initiatives developed for national health promotion and maintenance. Relevant risk prevention, control, and health promotion intervention strategies are emphasized. Communicable diseases; health hazards; high-risk health factors; acute and chronic illness across ethnicities, genders, and the life span; and morbidity and mortality of the nation's leading health problems are analyzed. Students' research questions are generated from a synthesis of knowledge regarding a specific phenomenon relevant to the student's individual area of study.
**Prerequisite:** Admission to DNP or PhD program

### GNRS 721, Health Disparities and Vulnerable Populations, 3 Units

This course offers an analysis and evaluation of various topics and issues on health disparities of underserved ethnic or minority vulnerable populations as well as an analysis of research that describes, explains, and examines variables influencing health disparities and intervention strategies to reduce these disparities.

### GNRS 722, Research in Nursing and Health, 3 Units

This course is team taught and reflects the research expertise and program of study of the nursing doctoral faculty. It focuses on analysis of determinants of health and illness across demographic, biological, psychological, familial/cultural, and societal dimensions. Attention is given to theoretical explanations toward promoting development of students' programs of research.

### GNRS 724, Quantitative Nursing Research Design II: Survey Methodology, 3 Units

This course introduces students to the fundamental and advanced methods and approaches in survey research. Course material covers the theory and practice of survey development and administration, including principles of measurement and measurement error, selection of survey data collection methods, measurement design of a multidimensional concept, and locating and evaluating existing survey instruments. In addition, topics addressing instrument construction, reliability, and validity, with attention to statistical techniques, are covered. Throughout the course, students develop a comprehensive critical review of select instruments that measure a construct of their choice.
**Prerequisite:** GNRS 707

### GNRS 725, Research Practicum, 1 Unit

The practicum further develops, mentors, and socializes students into the roles and activities of research scientists and scholars. Emphasis is on mentoring to facilitate student progression in research methodology, culturally appropriate research strategies, data management, and data analysis. Students can chose either a quantitative or qualitative practicum experience.

### GNRS 726, Advanced Scientific Writing, 3 Units

This course provides opportunities for students to learn how to research and introduce a topic in writing, articulate a thesis statement, support and develop a literature review, work with secondary sources, and organize a written paper that can be developed into a dissertation or translational research paper.

### GNRS 727, Genome Science in Clinical Cases and Disease Management, 3 Units

This course focusing on medical family history taking, constructing and analyzing the pedigree, genetic counseling, clinical decision making and clinical case management for a wide variety of inherited and acquired diseases through the lens of emerging genome science. Clinical cases are discussed from a holistic perspective including: genome science, epidemiology, genomic profiling, genetic technologies, personalized medicine, interprofessional collaboration, ethical and legal issues, and health policy.
**Prerequisite:** GNRS 620

### GNRS 728, Genome Science Research Methods, 3 Units

This course focuses on genome research methods for understanding and translating genome science to practice and to genome related nursing research. Understanding the research methods fosters a deeper understanding of the strength and the weaknesses of the science and an ability to critique the benefits and the limitations of the science for designing nursing research. The course includes a wide range of research methods that explore genetics or genomics in human populations. A key outcome of this course is to develop a research proposal using genome methods to design nursing research aimed at improving quality of health for individuals, families and populations.
**Prerequisite:** GNRS 620, GNRS 622, GNRS 727

### GNRS 729, Population Health and Epidemiology, 3 Units

The concept of population health includes aggregate, community, environmental/occupational, and cultural/socioeconomic definitions of health. The implementation of clinical prevention and population health activities is central to achieving the national goal of improving health status and reducing health disparities among different aggregate groups. This course covers the basic elements and methodological concepts used in the epidemiologic study of factors related to health promotion and disease prevention in human populations. It brings together considerations from several fields of investigation, such as epigenetics, epidemiology, psychology, and public health, to study the effects on health and health-related outcomes.
**Prerequisite:** Admission to DNP or PhD program

## GNRS 730, Comparative Health Care Systems, 3 Units

This course focuses on exploring/analyzing environmental, social, cultural, political and economic determinants of health across the globe. Comparative analysis of international health care systems including governmental, nongovernmental, traditional, and faith-based organizations are emphasized. Epidemiological analysis of morbidity and mortality, analysis of health and illness responses, and health-seeking behavior across the age span and gender/ethnic variables are discussed with the intent to identify areas of research relevant to students' interest. Presented from a Christian perspective, this course investigates research and practice opportunities and responsibilities for advanced practice nurses in global arenas.

## GNRS 732, DNP Clinical Residency, 0 Units

This course provides students enrolled in the Doctor of Nursing Practice (DNP) program with opportunities to develop professional nursing skills at the doctoral level. The focus of the course is to explore the development and scientific underpinnings of components of expert advanced clinical practice. Students select a population of interest for the DNP clinical residency and apply evidence-based practice and research findings in order to develop and improve practice. Over the course of the DNP program, students integrate previous nursing education and practice experiences with the DNP residency and concurrent doctoral coursework to meet the AACN Essentials of Doctoral Education for Advanced Nursing Practice and complete a DNP scholarly project. The course may be repeated to enable the student to obtain a minimum of 1,000 residency hours. Previous hours from graduate clinical courses may apply, so residency hour requirements will vary.
**Prerequisite:** Admission to DNP program

## GNRS 733A, Residency IA, 1 Unit

This is the first in a series of three residency courses designed to enhance students' critical thinking, diagnostic reasoning, interpretation, and management skills for advanced clinical practice. This course broadens and enhances understanding of the sciences necessary for enhanced role development, knowledge, and skills for advanced practice clinical nurse scholarship. Students practice in a designated appropriate setting under the direction of a faculty advisor in collaboration with selected clinical experts. The course focuses on exploring the development and scientific underpinnings of components of expert advanced clinical practice, and attention is given to the development of skills necessary to attain that goal. By the end of this course, students select their population of interest for their clinical residency and apply evidence-based findings to this population to identify potential areas of intervention.
**Prerequisite:** Admission to DNP program

## GNRS 733B, Residency IB, 1 Unit

The second of a three-course sequence, this course may be taken concurrently with GNRS 733A and/or GNRS 733C with approval of the DNP director or designee. Grading: pass/fail

## GNRS 733C, Residency IC, 1 Unit

The third of a three-course sequence, this course may be taken concurrently with GNRS 733A and GNRS 733B with approval of the DNP director or designee. Grading: pass/fail

## GNRS 734A, Residency IIA, 1 Unit

The first of a three-course sequence, this course may be taken concurrently with GNRS 734B and GNRS 734C with approval of the DNP director or designee. Grading: pass/fail

## GNRS 734B, Residency IIB, 1 Unit

The second of a three-course sequence, this course may be taken concurrently with GNRS 734A and/or GNRS 734C with approval of the DNP director or designee. Grading: pass/fail

## GNRS 734C, Residency IIC, 1 Unit

This is the last of a three-course series of clinical residencies with a focus on transformative and collaborative leadership, including completion of the evidence-based practice project, assessment of project outcomes, and planned dissemination of findings. Students apply relevant clinical and research findings to develop and improve practice. Content emphasizes critical appraisal of skills and interventions necessary to ensure meaningful translation of scientific evidence into practice, including a cost-benefit analysis for implementing a change into clinical practice. The course also emphasizes the professional role of the nurse as a collaborator, leader, and provider of care with nursing colleagues and other members of the interprofessional healthcare team within the context of complex healthcare systems, preparing students to implement an advanced nursing practice role that results in practice and/or policy change at the local, state, and/or national levels.
**Prerequisite:** Successful completion of GNRS 733A, GNRS 733B, GNRS 733C, GNRS 734A and GNRS 734B

## GNRS 735, DNP Scholarly Project Seminar, 3 Units

The DNP program requires a rigorous clinical project focused on translating scientific research to health care in a timely manner so that patients experience the best applications of science and practice. The project is a scholarly experience that implements the principles of evidence-based practice and translation under the guidance of a faculty mentor. In line with the AACN Essentials of 2007, the outcome of the DNP scholarly project is a tangible and deliverable academic product that is derived from the practice immersion experience and reviewed and evaluated by an academic committee. The project also serves as a foundation for future scholarly practice.

## GNRS 736, DNP Scholarly Project Seminar: Evaluation and Dissemination, 2 Units

This course focuses on presentation to and approval of a completed DNP Scholarly Project. The DNP program requires a rigorous clinical project focused on translating scientific research to health care to improve the patients experience utilizing the best evidence of science and practice. This scholarly project is a culminating, independent experience which demonstrates the student's synthesis of coursework and lays the foundation for future scholarship.

## GNRS 780, Doctoral Seminar I: Elements of a Proposal and IRB Application, 3 Units

This seminar directs the development of either a PhD dissertation or a DNP Scholarly Project proposal draft that details a problem, the research/project purpose, questions or hypotheses to be examined, a synopsis of the relevant literature, the design and methods of the study including its timeline, protection of human subjects, plans for analysis, and the budget. The seminar also includes preparation of IRB applications, and peer review and critique of student proposals.
**Prerequisite:** Admission to DNP or PhD program

## GNRS 781, Doctoral Seminar II: Developing a Grant Proposal, 3 Units

This doctoral seminar provides students with the opportunity to acquire knowledge, skills, and insights in the writing of a grant proposal. Discussion will focus on the value of writing grant proposals, the basic principles in writing a grant proposal, the components of a grant proposal, identification of funding sources, the difference between a research and a program grant proposal, as well as administrative factors in submitting a grant proposal. Students will craft and a grant proposal in response to a Request for Funding Proposal (RFP) that aligns with the guidelines of the funding agency, and additionally, a budget plan with justification, timelines, and a bio-sketch. In addition, students will conduct a peer review of class completed grant proposals.

## GNRS 782, Doctoral Seminar III: Writing for Publication, 3 Units

This seminar focuses on various aspects of writing for publication and directs the development of a manuscript suitable for publication from a previously written paper (e.g., a course term paper). This course will help the student get started on writing; identify writing styles for various forms of publication including abstracts, journal articles, papers, and books; and determine appropriate journals to consider for article submission. The student will acquire practice in reviewing and critiquing scholarly writing by others. It will also address the editorial and publication process, as well as ethical aspects of writing for publication.

## GNRS 783, Doctoral Seminar IV: Developing Professional Presentations, 3 Units

This seminar course identifies approaches to developing an effective and successful presentation, helping students find their voice and showcase their areas of expertise. Discussions focus on planning as essential to deciding on the content and the order in which the information is presented. Emphasis is on developing a logical sequence, one that flows naturally and is accompanied by audiovisuals that facilitate understanding of the material.

## GNRS 784, Dissertation Seminar V, 2-4 Units

This fifth dissertation seminar provides the student a forum to explore with their peers research findings, theoretical and empirical implications, and potential venues for publication of manuscripts. Format and procedures for progression in the dissertation process are also discussed. Placement of the Course: This seminar is not required if dissertation seminar requirement of 12 units has been met by GNRS 780, GNRS 781, GNRS 782, GNRS 783, and student has defended dissertation. Grading: Pass/Fail.
**Prerequisite:** GNRS 783

## GNRS 791, Doctor of Nursing Practice Intensive I, 1 Unit

This is the first of four intensive courses that give DNP students an interactive experience through out-of-classroom work, introducing them to the role of the DNP nurse in a variety of healthcare settings. Students also acquire advanced practice and academic skills necessary for selecting a population of interest and applying evidence-based practice as part of an evidence-based DNP scholarly project consistent with the DNP role within an organizational healthcare setting. Generally offered in the same semester as GNRS 716.
**Prerequisite:** Admission to the DNP program

## GNRS 792, Doctor of Nursing Practice Intensive II, 1 Unit

This is the third of four intensive courses that give DNP students an interactive experience through out-of-classroom work. This course helps students identify strategies within a multidisciplinary model that promotes evidence-based practice or quality improvement in various clinical, community, and educational settings. Students receive support and direction in collaboration with the sponsoring facility and mentor to develop a comprehensive, site-specific DNP scholarly project proposal. Generally offered in the same semester as GNRS 780.
**Prerequisite:** GNRS 791 and GNRS 793

## GNRS 793, Doctor of Nursing Practice Intensive III, 1 Unit

This is the second of four intensive courses that give DNP students an interactive experience through out-of-classroom work. This course introduces students to the role of the DNP nurse in a variety of healthcare settings. Students also acquire advanced practice and academic skills necessary for selecting a population of interest and applying evidence-based practice as part of an evidence-based DNP scholarly project consistent with the DNP role within an organizational healthcare setting. Generally offered in the same semester as GNRS 712.
**Prerequisite:** Admission to the DNP program and completion of GNRS 791

## GNRS 794, Doctor of Nursing Practice Intensive IV, 1 Unit

This is the last of four intensive courses that give DNP students an interactive experience through out-of-classroom work. As in the other intensive experiences, course content for each student reflects the interests of the student and is designed to meet that student's needs and career goals. This course allows students, with guidance from their mentors and faculty, to complete the DNP scholarly project and finalize the written and oral scholarly reports that disseminate and integrate new knowledge. Each student's final product reflects their ability to employ effective communication and collaboration skills, take a leadership role, integrate core DNP concepts and competencies that influence healthcare quality and safety, and successfully negotiate change in healthcare delivery for individuals, families, populations, or systems across a broad spectrum of health care. Generally offered in the same semester as GNRS 736.
**Prerequisite:** GNRS 791, GNRS 792, and GNRS 793

## GNRS 795, Special Topics, 1-4 Units

In this course, a subject of current interest is examined in depth. Students analyze and evaluate controversial issues to reach and express a reflective position. Students may repeat the course for credit to a maximum of six units applied toward the doctoral program; each course must address a different topic.

## GNRS 798, Continuous Doctoral Study, 0 Units

This course is for doctoral students working on dissertations or translational research projects. Students must re-enroll each semester until the dissertation or translational research project is completed, defended, submitted to the library, and approved.

## GNRS 799, Independent Study, 1-4 Units

Students enroll in this course to pursue independent study investigating subjects and interests that lie beyond regular course offerings. The student explores topics in greater depth than in other courses, and/or initiates an individual project. Readings are pursued in accordance with a study plan, which is developed in consultation with a sponsoring doctoral faculty member and approved by the doctoral department

# ELM-MSN: Adult-Gerontology or Pediatric Clinical Nurse Specialist (CNS)

The Master of Science in Nursing with Adult-Gerontology (https://www.apu.edu/nursing/programs/adult-cns-certificate/) or Pediatric Clinical Nurse Specialist (CNS) (https://www.apu.edu/nursing/programs/pediatric-cns-certificate/) program allows students to concentrate on one of these two clinical areas of content and practice. Nurses with advanced practice preparation may work in acute, primary, or long-term care settings. Students learn the process of developing and sustaining evidence-based practice in illness management, advancing the practice of other nurses and nursing personnel, and developing organizational or systems modifications to support and improve nursing practice. The traditional CNS roles of expert clinical practice, consultation, clinical leadership, research, and education are shaped toward producing desirable patient outcomes as the CNS works in several spheres of influence. Graduates are eligible to apply to the state of California for certification as clinical nurse specialists, and may apply for national certification through examination by the American Nurses Credentialing Center (ANCC).

Contact the School of Nursing (https://www.apu.edu/nursing/) for specific program availability and locations. Prelicensure coursework (p. 711) must be completed prior to beginning advanced practice nursing coursework.

## Adult-Gerontology Clinical Nurse Specialist (CNS) Requirements

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

# ELM-MSN: Adult-Gerontology Primary Care Nurse Practitioner (AGPCNP)

This specialty program (https://www.apu.edu/nursing/programs/gerontology-nurse-practitioner/) prepares students to be nurse practitioners for patients across the adult years in a primary healthcare setting. Graduates are eligible to apply to the state of California Board of Registered Nursing for certification as a nurse practitioner and may apply for national AGPCNP certification through examination. This advanced clinical practice specialty

includes direct patient assessment, diagnosis, management and treatment, client advocacy, client/family education, consultation, and program planning, implementation, evaluation, and research.

Contact the School of Nursing (https://www.apu.edu/nursing/) for specific program availability and locations. Prelicensure coursework (p. 711) must be completed prior to beginning advanced practice nursing coursework.

| **Total Units** | | **48** |

[1]    Units in parentheses are classroom/clinical units.

[2]    Students may enroll in 2-6 clinical units per semester with faculty approval.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

# ELM-MSN: Family Nurse Practitioner (FNP)

This specialty program (https://www.apu.edu/nursing/programs/fnp-certificate/) prepares students to be nurse practitioners for patients across the human lifespan in the primary healthcare setting. Graduates are eligible to apply to the California Board of Registered Nursing for certification as a nurse practitioner, and may apply for national FNP certification through examination. This advanced clinical practice specialty includes direct patient assessment, diagnosis, management, and treatment; client advocacy; and client/family education, consultation, and program planning, implementation, evaluation, and research.

Contact the School of Nursing (https://www.apu.edu/nursing/) for specific program availability and locations. Prelicensure coursework (p. 711) must be completed prior to beginning advanced practice nursing coursework.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

# ELM-MSN: Healthcare Administration and Leadership

The entry-level master's option in healthcare administration and leadership (https://www.apu.edu/nursing/programs/masters-in-healthcare-administration/) prepares nurses for early to mid-level management and leadership roles in a variety of healthcare settings. Students acquire the knowledge and skills necessary to lead and manage a team of healthcare providers in organizations, functioning in areas such as operations management, project management, and healthcare consulting. The program emphasizes competencies needed for graduates to apply for the American Nurses Credentialing Center (ANCC) and American Organization for Nursing Leadership (AONL) nursing leadership certification exams.

Contact the School of Nursing (https://www.apu.edu/nursing/) for specific program availability and locations. Prelicensure coursework (p. 711) must be completed prior to beginning Healthcare Administration and Leadership coursework. Students must have the equivalent of one year of RN clinical experience prior to enrollment in GNRS 567 Healthcare Administration and Leadership Supervised Practicum.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Articulate a Christian worldview, demonstrating respect for the dignity and uniqueness of others, valuing diversity, and applying spiritual concepts.
2. Engage in scholarly inquiry and critical thinking, including evaluation and application of evidence-based research.
3. Appraise and apply knowledge to develop, implement, and evaluate interventions that promote health and prevent disease.
4. Demonstrate thoughtful analysis of the legal, political, ethical, and/or financial factors impacting health care.
5. Use information systems and other technology to communicate, manage knowledge, promote quality, mitigate error, and support decision making.
6. Demonstrate the ability to coordinate and collaborate with other healthcare team professionals.
7. Engage in clinical reasoning and effective communication, and act as a change agent to develop professional identity and practice skill.

# ELM-MSN: Nursing Education

The Entry-Level Master of Science in Nursing (ELM) (p. 711) option in nursing education (https://www.apu.edu/nursing/programs/masters-in-nursing-education/) prepares nurses for teaching roles in a variety of settings, including traditional and nontraditional academic settings, online/distance settings, and clinical and community settings, using cutting-edge technology and teaching-learning methods. The program emphasizes competencies needed for students to complete the Certified Nurse Educator (CNE) certification examination, and is aligned with the American Association of Colleges of Nursing's *The Essentials of Master's Education in Nursing* (AACN, 2011) and the National League for Nursing's *Nurse Educator Competencies* (NLN, 2013).

Contact the School of Nursing (https://www.apu.edu/nursing/) for specific program availability and locations. Prelicensure coursework (p. 711) must be completed prior to beginning nursing education coursework. Students must have the equivalent of one year of RN clinical experience prior to enrollment in GNRS 663.

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

# ELM-MSN: Pediatric Nurse Practitioner– Primary Care (PNP-PC)

The Entry-Level Master of Science in Nursing (ELM) (p. 711) with a Pediatric Nurse Practitioner-Primary Care (PNP-PC) (https://www.apu.edu/nursing/programs/pediatric-nurse-practitioner/) specialty prepares registered nurses to be nurse practitioners with children and their families in primary healthcare settings. This advanced practice specialty includes direct client assessment, diagnosis, management and treatment, client advocacy, client/family education, consultation, and program panning, implementation, evaluation, and research. Graduates are eligible to apply to the state of California Board of Registered Nursing for certification as a nurse practitioner and may apply for national PNP-PC certification through examination.

Contact the School of Nursing (https://www.apu.edu/nursing/) for specific program availability and locations. Prelicensure coursework (p. 711) must be completed prior to beginning advanced practice nursing coursework.

# ELM-MSN: Psychiatric Mental Health Nurse Practitioner (PMHNP) Specialty

This specialty master's program (https://www.apu.edu/nursing/programs/psychiatric-nurse-practitioner/) prepares students for roles as psychiatric mental health nurse practitioners for clients with psychiatric and mental health problems across the lifespan. Students learn to work respectfully and collaboratively with clients/consumers who are experiencing severe or chronic mental illnesses to determine biopsychosocial healthcare needs within a complex and changing environment. Theory and clinical coursework focuses on assessment; differential diagnosis and disease management; intervention planning; individual, family, and group psychotherapy; health promotion; and disease prevention. Mental-health-related policy, and the application of research and evidence-based practice, informs the psychiatric mental health nurse practitioner.

The inherent equality and worthiness of those who are vulnerable and disenfranchised; the role of spirituality; the value of diversity; and the ability to engender hope, empowerment, self-responsibility, and a meaningful role in life are threaded throughout the program. Graduates are eligible to apply to the California Board of Registered Nursing for certification as a nurse practitioner, and may apply for national PMHNP certification through examination.

Contact the School of Nursing (https://www.apu.edu/nursing/) for specific program availability and locations. Prelicensure coursework (p. 711) must be completed prior to beginning advanced practice nursing coursework.

# ELM-MSN: School Nurse Services Credential (SNSC) and Family Nurse Practitioner (FNP)

This combined specialty program prepares nurses to be effective practitioners of school health and provide primary care for people of all ages in a variety of other settings. Students develop theoretical and practical expertise in nursing and education applied to basic health services in public schools (K-12). This prepares nurses to establish, maintain, and coordinate a comprehensive school health program. The advanced practice family nurse practitioner specialty includes direct client assessment, diagnosis, management and treatment, client advocacy, client/family education, consultation, program planning, implementation, evaluation, and research.

Graduates are eligible to apply to the state of California for the School Nurse Services Credential, and to apply for certification as a Family Nurse Practitioner. They are also qualified for and may seek national FNP certification by examination through specialty organizations. For details about academic core, advanced practice core, and concluding courses, see the MSN program requirements (p. 654). Students must also take a state-of-California-approved audiometry course to meet the SNSC requirements.

Contact the School of Nursing (https://www.apu.edu/nursing/) for specific program availability and locations. Prelicensure coursework (p. 711) must be completed prior to beginning advanced practice nursing coursework.

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

# Entry-Level Master of Science in Nursing (ELM)

The Entry-Level Master of Science in Nursing (https://www.apu.edu/nursing/programs/entry-level-masters-in-nursing/) is an accelerated graduate nursing program designed for students who desire to enter the nursing profession and hold a baccalaureate or higher degree in other disciplines. During their first four semesters, admitted students complete all prelicensure courses (theoretical and clinical) in an accelerated format, as well as selected graduate nursing courses, followed by a clinical residency, in preparation for the RN licensure examination. Students then continue with courses and preparation leading to a Master of Science in Nursing (MSN).

This program meets the California Board of Registered Nursing (BRN) (https://www.rn.ca.gov/) requirements for licensure and is available at APU's regional locations in Monrovia (https://www.apu.edu/monrovia/), San Diego (https://www.apu.edu/sandiego/), and the Inland Empire (https://www.apu.edu/inland/) (San Bernardino).

The ELM program prepares nurses to enter professional nursing and, subsequently, advanced practice roles. Students are prepared to take the NCLEX for RN licensure, to apply for a California PHN certificate, and to be eligible to apply for state certification, and may also apply for national certification by examination in advanced practice specialties upon successful completion of the required postlicensure courses.

## Additional Requirements

At the beginning of clinical coursework, graduate students are required to provide documentation concerning certifications, results of background checks, screening tests, and immunizations. Refer to the Student Handbook and specific program manuals or course syllabi for details.

## Program Requirements

The four-semesters-plus-clinical-residency prelicensure portion of this program is offered in an intensive cohort model format and **must** be taken in full-time study. Courses are offered primarily in a face-to-face format, on a fixed schedule, with required clinical experiences that may be scheduled Monday through Sunday on any shift.

| Code | Title | Units |
|---|---|---|
| **Semester 1** | | |
| GNRS 500 | Conceptual Foundations of Professional Nursing | 3 |
| GNRS 517 | Fundamentals in Nursing Practice | 2 |
| GNRS 554 | Medical-Surgical Care of the Adult and Geriatric Patient [1] | 5 (3/2) |
| GNRS 578 | Health Assessment | 3 (2/1) |
| GNRS 582A | Pathophysiology | 2 |
| **Semester 2** | | |

| GNRS 558 | Intermediate Medical-Surgical Care of the Adult | 6 (3/3) |
|---|---|---|
| GNRS 564 | Nutrition and Therapeutics (may be taken in semester 1 if spring program start) | 2 |
| GNRS 576 | Pharmacology (may be taken in semester 1 if spring program start) | 2 |
| GNRS 582B | Pathophysiology | 2 |
| GNRS 584 | Mental Health Nursing | 4 (2/2) |
| **Semester 3** | | |
| GNRS 504 | Bioethics and Healthcare Policy | 3 |
| GNRS 505 | Christian Formation for Holistic Care | 3 |
| GNRS 508A | Research and Theory in Advanced Practice Nursing | 4 |
| GNRS 575 | Nursing Care in Maternal, Newborn, and Women's Health | 4 (2/2) |
| GNRS 583 | Nursing Care of Children and Young Adults | 4 (2/2) |
| **Semester 4** | | |
| GNRS 507 | Scientific Writing | 3 |
| GNRS 586 | Leadership and Management in Professional Practice | 2 |
| GNRS 587 | Community Health Nursing | 5 (2/3) |
| GNRS 588 | Advanced Nursing Care of Adults - Leadership | 6 (3/3) |
| **Clinical Residency/Internship [2]** | | |
| GNRS 573 | Clinical Residency [2] | 4 |
| **Total Units** | | **69** |

[1]   Numbers in parentheses are classroom/clinical units.

[2]   This intensive period of clinical education and continuing preparation for practice takes place in a healthcare agency under the direct supervision of a clinical preceptor and supported by clinical faculty in the graduate program. At the same time, students review prelicensure subject matter in preparation for NCLEX examination (RN licensing exam). Successful completion of the clinical residency is required to complete the prelicensure portion of the program. The BSN is awarded at the completion of the prelicensure portion of the program.

**NOTE:** Before taking advanced practice clinical courses for completion of the MSN degree, the student must achieve the passing score required by the California BRN on the NCLEX exam.

# Postlicensure

In addition to coursework and clinical practicums, postlicensure students are expected to have outside clinical work experience.

To ensure that credit will be given, students should request approval prior to taking coursework at outside institutions. A maximum of 6 units may be transferred in with prior approval.

Students **must** take 7 units of electives during this component of the program. Students' programs are planned individually according to course sequencing for their clinical specialty. As an alternative to full-time study, students may elect to complete master's degree requirements in a part-time format while taking courses each semester. Courses are offered in several modalities and will vary depending on the postlicensure specialty track. These include face-to-face, online asynchronous, and online synchronous options.

Students may elect to write a thesis or take a comprehensive exam to complete the degree. Any student who elects to write a thesis must take GNRS 514.

# Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

# Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Articulate a Christian worldview, demonstrating respect for the dignity and uniqueness of others, valuing diversity, and applying spiritual concepts.
2. Engage in scholarly inquiry and critical thinking, including evaluation and application of evidence-based research.

3. Appraise and apply knowledge to develop, implement, and evaluate interventions that promote health and prevent disease.
4. Demonstrate thoughtful analysis of the legal, political, ethical, and/or financial factors impacting healthcare.
5. Use information systems and technology to communicate, manage knowledge, promote quality, mitigate error and support decision-making.
6. Demonstrate the ability to coordinate and collaborate with other health care team professionals.
7. Engage in clinical reasoning, effective communication, and act as change agents to develop professional identity and practice skill.

# MSN-ELM with School Nurse Services Credential (SNSC)

## Requirements

| Code | Title | Units |
| --- | --- | --- |
| **Academic Core Courses** | | |
| GNRS 506 | Spiritual Concept Analysis in Health Care | 3 |
| GNRS and/or GSPH XXX Electives | | 7 |
| **Advanced Practice Core Courses** | | |
| GNRS 510 | Family Theory in Health Care | 2 |
| GNRS 511 | Advanced Pediatric Health Assessment and Health Promotion [1] | 4 (3/1) |
| or GNRS 612 | Advanced Health Assessment and Diagnostic Reasoning | |
| GNRS 513 | Advanced Nursing Practice Role | 2 |
| GNRS 610 | Advanced Pathophysiology | 3 |
| **Advanced Practice Specialty Courses** | | |
| GNRS 550A | Theory and Practice in School Nursing | 6 (3/3) |
| EDUC 537 | Curriculum Development, Revision, and Evaluation Process | 3 |
| GNRS 589 | Adolescent Health Care | 2 (2/0) |
| GNRS 590C | Primary Health Care of the Young Family for the School Nurse Services Credential [2] | 6 |
| **Concluding Courses** | | **1-3** |
| Select from the following: | | |
| GNRS 597 | Comprehensive Examination Directed Study | 1 |
| - or - | | |
| GNRS 598 | Thesis | 1 |
| - and - | | |
| GNRS 514 | Research Proposal Writing (required for thesis) | 2 |
| **Total Units for MSN with SNSC [3]** | | **39-41** |

[1]  Units in parentheses are classroom/clinical units.

[2]  Students contemplating a nurse practitioner certificate may substitute GNRS 590A in place of GNRS 590C if they have completed GNRS 513 and GNRS 611 in addition to GNRS 610 **and** GNRS 511 or GNRS 612.

[3]  Student must also take a California-approved audiometry course to meet the SNSC requirements.

## Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Articulate a Christian worldview, demonstrating respect for the dignity and uniqueness of others, valuing diversity, and applying spiritual concepts.
2. Engage in scholarly inquiry and critical thinking, including evaluation and application of evidence-based research.
3. Appraise and apply knowledge to develop, implement, and evaluate interventions that promote health and prevent disease.
4. Demonstrate thoughtful analysis of the legal, political, ethical, and/or financial factors impacting health care.
5. Use information systems and technology to communicate, manage knowledge, promote quality, mitigate error, and support decision-making.
6. Demonstrate the ability to coordinate and collaborate with other health care team professionals.
7. Engage in clinical reasoning, effective communication, and act as change agents to develop professional identity and practice skill.

# Department of Nursing Education

The Master of Science in Nursing (MSN) in Nursing Education (p. 714) prepares nurses for teaching roles in a variety of settings, including traditional and nontraditional academic settings, online/distance settings, and clinical and community settings, using cutting-edge technology and teaching-learning methods. The program emphasizes competencies needed for students to complete the Certified Nurse Educator (CNE) certification examination, and is aligned with the American Association of Colleges of Nursing's *The Essentials of Master's Education in Nursing* (AACN, 2011) and the National League for Nursing's *Nurse Educator Competencies* (NLN, 2022).

## Programs

- Master of Science in Nursing (MSN) in Nursing Education (p. 714)
- Post-Master's Nursing Education Certificate (p. 715)

# MSN in Nursing Education

The Master of Science in Nursing (MSN) in Nursing Education (https://www.apu.edu/nursing/programs/masters-in-nursing-education/) prepares nurses for teaching roles in a variety of settings, including traditional and nontraditional academic settings, online/distance settings, and clinical and community settings, using cutting-edge technology and teaching-learning methods. International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Articulate a Christian worldview, demonstrating respect for the dignity and uniqueness of others, valuing diversity, and applying spiritual concepts.
2. Engage in scholarly inquiry and critical thinking, including evaluation and application of evidence-based research.
3. Appraise and apply knowledge to develop, implement, and evaluate interventions that promote health and prevent disease.
4. Demonstrate thoughtful analysis of the legal, political, ethical, and/or financial factors impacting health care.
5. Use information systems and technology to communicate, manage knowledge, promote quality, mitigate error, and support decision-making.
6. Demonstrate the ability to coordinate and collaborate with other healthcare team professionals.
7. Engage in clinical reasoning, effective communication, and act as change agents to develop professional identity and practice skill.

# Department of Healthcare Administration

Welcome to the Department of Healthcare Administration.

The Master of Science in Healthcare Administration (p. 719) is for those with bachelor degrees in nonclinical fields who are working professionals that want to advance and are interested in management and leadership positions in healthcare settings. The program provides students with the competencies necessary to develop and implement solutions that address today's unique challenges facing the healthcare industry. Conceptual, analytical, and experiential skills required to manage contemporary healthcare organizations are emphasized with field experience designed to advance preparation for a management role.

Courses are taught by faculty from both the School of Nursing and the School of Business and Management. The program includes topics in contemporary healthcare delivery models, leadership and management, healthcare informatics and technology, healthcare finance and business analysis, decision making and project management, legal and ethical principles in healthcare, and workforce management. Students choose a specialty track in quality and innovation, or financial management in healthcare, or international health. This Christian-value-driven, competency-based Master

of Science in Healthcare Administration program provides students with the capacity to lead and manage healthcare organizations both effectively and ethically. The program is offered as an asynchronous online program.

The Master of Science in Nursing (MSN) in Healthcare Administration and Leadership (p. 720) is for BSN-prepared registered nurses who are looking to advance their careers and move into early- to mid-level management and leadership roles in myriad healthcare settings. The program provides values-based education to develop nursing leaders who are effective collaborators, motivated by a spirit of commitment to the profession, and have a genuine compassion for others. Students acquire the knowledge and skills necessary to lead and manage healthcare teams in organizations, functioning in areas such as operations management, project management, and healthcare consulting.

The program includes graduate nursing core courses focused on a critical analysis of nursing and healthcare research and theory, bioethics, healthcare policy, and the integration of spirituality in health care. Interdisciplinary administration and leadership coursework is offered through the School of Nursing and APU's School of Business and Management. Content includes leadership styles and theories, strategic planning, quality improvement and patient safety, change management, effective communication and conflict resolution skills, staffing challenges and constraints, financial management, and healthcare informatics. Students apply their knowledge and develop competencies in healthcare settings during practicum experiences. Upon completion of this program, students will have had the educational content required to sit for the American Nurses Credentialing Center (https://www.nursingworld.org/ancc/) and American Organization for Nursing Leadership (https://www.aonl.org/) nurse leadership examinations.

# Programs
## Master's

- Master of Science in Healthcare Administration
- Master of Science in Nursing in Healthcare Administration and Leadership (p. 720)

## Certificate

- Post-Master's Certificate in Healthcare Administration and Leadership (p. 721)

# Courses
## MHA 560, Strategic Leadership in Health Care, 3 Units

Students in this course develop knowledge, skills, and attitudes about leadership across the healthcare continuum as they consider the professional role of the healthcare administrator from leadership and management perspectives. Areas of emphasis include leadership theory, structure of healthcare institutions, systems thinking and decision making, and performance improvement including quality and safety issues, risk management, and effective communication skills. Application of business skills is integrated, and students consider the theoretical and research background, current issues and trends, and leadership and administrative implications of specific topics.
**Prerequisite:** Admission to the M.S. in Healthcare Administration program.

## MHA 570, Quality Management, 3 Units

The course focuses on the conceptual foundation of healthcare quality, systems thinking, and the principles of healthcare quality management that include measurement, assessment, and improvement. Students use improvement models, apply tools and process techniques to communicate organizational, clinical, and safety outcomes. The integration of evidence for organizational decision-making with quality improvement processes serve as the framework for students to create a data-driven, quality management project plan. Students incorporate practical solutions to craft measurable expectations, realistic timelines, and an organized project management approach for direct application.
**Prerequisite:** PADM 512

## MHA 571, Integrative Theories of Innovation in Health Care, 3 Units

This course helps student identify and develop skills in producing lasting innovations in healthcare settings. Course material builds on past theories of change, such as those by Lewin and Kotter, and includes other theories that support and sustain organizational change. It also features content on Rogers' diffusion of innovation theory, disruptive innovation, and strategies to promote the adoption of innovation.

## MHA 574, Global Field Study in Health Care, 3 Units

This course provides a framework for graduate students to engage in field study in various countries around the world. Students participate in organizational assessment visits to healthcare organizations locally and globally to discuss the role of the administrator and how they apply and practice leadership, management, and change principles, concepts, and theories covered in the graduate curriculum. The global competency domains for healthcare leaders - leadership, communication and relationship management, professional and social responsibility, health and the healthcare environment, and business - are explored as part of the healthcare management profession.

## MHA 580, Administrative Practicum, 2 Units

This course gives students the opportunity to experience the role of the healthcare administrator. Each student chooses an individualized administration practicum in a specific area of emphasis, approved and monitored by the faculty member and preceptor. Competencies that govern the role of the healthcare administrator are explored in depth, and students focus on the context for enacting the role of an administrator in a healthcare delivery system.
**Prerequisite:** All Academic Core and Administrative courses; MHA 597 can be taken concurrently.

## MHA 586, Healthcare Analytics, Big Data, and Applied Statistics, 3 Units

This course is an introduction to healthcare data science and analysis that builds knowledge of the technical infrastructure, sources, and storage of electronic data. Statistical analysis, data mining, text analytics, and predictive analytics are explored to frame questions and inform decision making. Students utilize different information retrieval methods to answer clinical and operational questions by performing simple data analysis and visualization of healthcare data. Strategies are discussed for how to optimally use data and glean knowledge from within big data to advance healthcare organizations and demonstrate value. Students also explore Christian worldview principles demonstrating ethical data use in health informatics that respects the dignity and uniqueness of others, and the security and privacy of data.
**Prerequisite:** MHA 596

## MHA 595, Special Topics, 3 Units

In this course, a topic of current interest to students is examined in depth. Students analyze and evaluate topics/issues to reach and express a position, enhance personal development and/or to develop a particular project. If students elect this course more than once during their program, each such course must address a different topic.

## MHA 596, Foundations of Healthcare Informatics, 3 Units

This course provides an overview of basic concepts for practice in healthcare-oriented informatics. These core concepts include an introduction to clinical and translational informatics; foundational theory and practical application of clinical decision-making and computerized decision support; healthcare systems and their organization; the special issues of administration, security, and operations of electronic records in the healthcare setting; human factors issues; information science in the healthcare domain; standards, terminologies, and the uniqueness of biomedical data; and a special focus on emerging technologies.

## MHA 597, Capstone, 1 Unit

Students integrate prior learning through the formulation of a case report providing strategic direction to a healthcare organization. The completed strategic plan demonstrates integration of theoretical, clinical, and research knowledge from coursework throughout the program, and is applied to a healthcare problem in an actual healthcare setting: Students perform a SWOT analysis, a review and synthesis of current literature, select an appropriate theoretical framework, determine solutions to the problem, and develop an implementation plan. Students also create an electronic professional portfolio to highlight competencies gained throughout the program. Course success is dependent upon the candidate's ability to clearly identify a healthcare problem and develop an evidence-based solution. Participation in writing assignments is required for successful completion of this course. The responsibility for deep exploration of the chosen scenario and preparation for writing the case report rests with each candidate.
**Prerequisite:** All Academic Core and Administrative courses must be completed; MHA 580 may be taken concurrently.

## MHA 599, Readings in Healthcare Administration, 1-3 Units

A student may elect to pursue special interests for credit at any time during the program under the supervision of a faculty member. University policy states that the student must earn a grade in an independent study course in order to receive credit toward graduation.

## FIN 502, Business Finance for Managers, 3 Units

This course provides an introduction to concepts and tools of business finance for managers. Students study financial statements and their interpretation, business performance measures, the management of cash and the short term financial needs of the organization, and how to make good capital budgeting decisions. Students will analyze company performance and make recommendations by applying class content to financial issues.

## FIN 536, Entrepreneurial Finance, 3 Units

This course examines the financial decisions of entrepreneurs and venture capital investors based on the stages of a venture development. Topics include financial options for entrepreneurs and investors, preparations for and analysis of a new business' financial statements, and the valuation of the venture.

## FIN 567, Advanced Financial Analysis, 3 Units

Students explore the practical applications of financial management based on case studies. Major topics include financial statement analysis, financial forecasting, cost of capital estimation, capital budgeting decisions, capital structure decisions, equity financing, and mergers and acquisitions.
**Prerequisite:** FIN 513 (MBA/Accounting students only), FIN 502 (MSHA students only)

## GNRS 504, Bioethics and Healthcare Policy, 3 Units

This course will outline the role of the healthcare leader in ensuring human rights are upheld in healthcare systems. This course focuses on bioethical analysis, decision-making and moral policy analysis, and formulation. Through course discussion, group and individual assignments, and oral and written presentations, students will analyze and apply bioethical principles to decision- and policy- making processes in the workplace and at national levels. Healthcare ethics and policy will be considered from a Christian worldview.
**Prerequisite:** Graduate standing

## GNRS 506, Spiritual Concept Analysis in Health Care, 3 Units

Scholarly research and analysis of selected concepts in the spiritual care of persons from the Judeo-Christian perspective provide a central focus to the course. Students also examine healthcare research/other healthcare literature for adequacy with respect to the concept they select. Various assignments facilitate greater student awareness of their own spiritual journey and knowledge of faith traditions other than their own. The course is conducted as a tutorial/seminar experience.
**Prerequisite:** Graduate standing

## GNRS 508B, Research and Theory in Healthcare, 4 Units

This course prepares the healthcare administrator to apply theory and research evidence in healthcare environments. The relationship between theory and research is examined, exploring questions about the nature, construction, and use of each. Selected theories are explored, and students learn how ideas are developed and used in practice and research. Students learn the fundamentals of quantitative, qualitative, and mixed methods research and deepen their understanding through systematic search, critique, and summary of research studies with application to healthcare. Students work in groups to develop a research plan addressing a healthcare-derived question. Experience in statistical analysis of research data is included.
**Prerequisite:** GNRS 613

## GNRS 543, Transitions Across the Care Continuum, 4-6 Units

This course focuses on principles and models of care and their implementation in a multidisciplinary practice environment that emphasizes healthcare delivery through integration of services and transition management. Students are introduced to decision making related to allocation of resources and services, development of protocols, and evaluation of management approaches. Evidence-based approaches to the clinical, administrative, educational, and research dimensions of patient care are emphasized. Evaluation of care management activities with the student's selected clinical population is an integral component of the course.
**Prerequisite:** NP students: completion of Advanced Practice Core; CNS students: completion of Advanced Practice Core and GNRS 520 or GNRS 530; HAL students: completion of MSN Core and GNRS 560.
**Corequisite:** Practicum

## GNRS 560, Strategic Leadership in Health Care, 3 Units

This course is designed to develop knowledge, skills and attitudes about leadership across the healthcare continuum. The student will consider the professional role of the healthcare administrator both from a leadership and a management perspective. Areas of concentration will include leadership theory, structure of healthcare institutions, systems thinking and decision-making, performance improvement including quality and safety issues, risk management and effective communication skills. Application of business skills will be integrated. Students will consider the theoretical and research background, current issues and trends, leadership and administrative implications of specific topics.

## MGMT 561, Managing Teams and Conflict, 3 Units

This course helps the student understand small-group behavior. It uses experience-based methods, cases, reading material, and simulation, and examines role behavior, group dynamics, conflict control, leadership, and group development. It also addresses motivation and problem solving as essential elements of organizational behavior.

## GNRS 567, Healthcare Administration and Leadership Supervised Practicum, 3 Units

This course provides the student with the opportunity to experience the role of healthcare administrator. An individualized administration practicum in a specific area of clinical emphasis is chosen by the student and approved and monitored by the faculty and preceptor. Competencies that govern the role of the healthcare administrator are explored in depth. Students focus on the context for enacting the role of administrator in a healthcare delivery system.
**Prerequisite:** All core and role courses

## GNRS 568, Healthcare Finance, 4 Units

This course is an introduction to financial concepts and skills need for healthcare leaders, managers, and executives. The student will develop skills in assessing multiple dimensions of financial performance and methods to improve the financial health of an organization in the context of current patient care system.

## GNRS 597, Comprehensive Examination Directed Study, 1 Unit

This course guides the student through the process of demonstrating an integration of theoretical, clinical, and research knowledge. Critical thinking is enhanced through careful consideration of information presented during discussion. The examinations are taken as part of this seminar.
**Prerequisite:** Completion of all Academic Core and degree specialty courses. Final specialty course may be taken concurrently.

## GNRS 613, Graduate Statistics, 3 Units

This course presents the knowledge of descriptive, correlational, and inferential statistics used in research that serves as the basis for evidence-based practice. Students develop the ability to perform descriptive and inferential data analysis techniques, use software applications to aid in statistical calculations and presentation, and interpret findings.

## MGMT 502, Developing Management Skills, 3 Units

This course provides an introduction to management skills necessary for the twenty-first century characterized by chaotic, transformational, and rapid-fire change. Scientific evidence demonstrates how management skills are associated with personal and organizational successes. Although management skills are applicable in most areas of your life, this course will focus on work setting management skills to help students improve their own competency in a managerial role.

## MGMT 503, Business Strategy: Theory and Practice, 3 Units

This course provides a review of management as an area of theoretical development as well as a field of practice. It comprises classical management theories and modern approaches to organization and business. Main blocks of the course are functions of management, managerial processes and interaction between organizations and their environment. This course includes elements of organizational behavior. Business cases are used as application of theoretical concepts.

## MGMT 516, High-Performance People Management, 3 Units

This course provides students with the social science tools needed to solve organizational problems and influence the actions of individuals, groups, and organizations. It prepares managers to understand how to best organize and motivate the human capital of the firm, manage social networks and alliances, and execute strategic change.

## MGMT 517, Managing Human Capital, 3 Units

Students study the establishment of human resource objectives and requirements in an organization. Emphasis is on executive decision making in dealing with formal employee-employer relationships. Collective bargaining, organization of employees, negotiation, and administration of collective bargaining agreements are covered.
**Prerequisite:** HROD 500 or GNRS 560

## MGMT 541, Global Business Management, 3 Units

This course focuses on the environmental and functional differences between U.S. and international business, including exporting, balance payments, strategic planning, organization of multinational firms, international financial planning and cash management, foreign exchange planning, comparative management philosophies, international marketing strategies, incorporation for international operations and external relations of the multinational corporation.

## PADM 512, Healthcare Administration, 3 Units

This course covers the foundations of healthcare administration in the United States, introducing students to the structure and function of the healthcare system. Topics include theory and models of healthcare administration, public policy impacts and scarcity, partnerships and achieving equality in healthcare governance at the national, state, and local levels, community environments, and critical issues in health services. Students explore Christian faith-based alternatives for alleviating healthcare burdens, and conduct a community health system analysis.
**Prerequisite:** Admitted to MPA or M.S. in Healthcare Administration program, Nursing, MBA/MBM Program or permission of MPA director.

## Program Learning Outcomes
## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Guided by a Christian worldview, demonstrate ethical conduct, integrity, transparency, and accountability for one's actions, valuing diversity, and respecting the dignity and uniqueness of others.
2. Use analytical, quantitative and critical thinking skills to implement actions, foster innovation, and advance healthcare priorities.
3. Apply principles of leadership to promote teamwork and collaborative decision-making among diverse stakeholders.
4. Employ system-level thinking and communication to address healthcare delivery issues, organizational outcomes of quality and safety, efficiency, cost-effectiveness, and health equity.
5. Use information systems, data, and technology to communicate, manage risk, promote quality, and inform decision-making and strategic growth.
6. Exhibit knowledge of financial management, regulatory factors, and ethical principles to meet organizational challenges in healthcare.
7. Exemplify personal and professional accountability, a professional identity and reflective, self-directive learning for ongoing professional development.

# MSN in Healthcare Administration and Leadership

The Master of Science in Nursing (MSN) in Healthcare Administration and Leadership (https://www.apu.edu/nursing/programs/masters-in-healthcare-administration/) is designed for BSN-prepared registered nurses who are looking to advance their careers and move into early- to midlevel management and leadership roles in a variety of healthcare settings. The program provides values-based education to develop nursing leaders who are effective collaborators, motivated by a spirit of commitment to the profession, and have a genuine compassion for others. Students will acquire the knowledge and skills necessary to lead and manage healthcare teams in organizations, functioning in areas such as operations management, project management, and healthcare consulting.

The program focuses on nursing leadership, advancing understanding of core aspects including nursing and healthcare research and theory, healthcare policy, bioethics, and spirituality. Administration and leadership coursework is interdisciplinary and offered through the School of Nursing and the School of Business and Management. Content includes leadership styles and theories, strategic planning, quality improvement and patient safety, change management, effective communication and conflict resolution skills, staffing challenges and constraints, financial management, and healthcare informatics. Students apply their knowledge and develop competencies in healthcare settings during practicum experiences. Upon completion of this program, students will have had the educational content required to sit for the American Nurses Credentialing Center (https://www.nursingworld.org/ancc/) and American Organization for Nursing Leadership (https://www.aonl.org/) nurse leadership examinations.

| **Concluding Course** | | |
| GNRS 597 | Comprehensive Examination Directed Study | 1 |
| **Total Units** | | **37** |

[1]    Units in parentheses are classroom/clinical units.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Articulate a Christian worldview, demonstrating respect for the dignity and uniqueness of others, valuing diversity, and applying spiritual concepts.
2. Engage in scholarly inquiry and critical thinking, including evaluation and application of evidence-based research.
3. Appraise and apply knowledge to develop, implement, and evaluate interventions that promote health and prevent disease.
4. Demonstrate thoughtful analysis of the legal, political, ethical, and/or financial factors impacting health care.
5. Use information systems and other technology to communicate, manage knowledge, promote quality, mitigate error, and support decision making.
6. Demonstrate the ability to coordinate and collaborate with other healthcare team professionals.
7. Engage in clinical reasoning and effective communication, and act as a change agent to develop professional identity and practice skill.

# Post-Master's Certificate in Healthcare Administration and Leadership

The Post-Master's Certificate in Healthcare Administration and Leadership (https://www.apu.edu/nursing/programs/nursing-administration-certificate/) program prepares professionals for administrative positions and leadership opportunities in nursing in a variety of healthcare settings. Coursework focuses on strategic leadership, leading change, managing teams and resources, and the business of healthcare finance and patient care delivery. This program is a way for nurses to advance their career options and builds on skills and knowledge obtained in a Master of Science in Nursing program. **Note: Students must be admitted to the university before registering for this program (see Admission section below).**

## Requirements

| Code | Title | Units |
|---|---|---|
| **Required Courses** | | |
| GNRS 560 | Strategic Leadership in Health Care | 3 |
| GNRS 567 | Healthcare Administration and Leadership Supervised Practicum [1] | 3 (0/3) |
| GNRS 568 | Healthcare Finance | 4 |
| GNRS 596 | Foundations of Healthcare Informatics | 3 |
| MGMT 516 | High-Performance People Management | 3 |
| MGMT 517 | Managing Human Capital | 3 |
| **Total Units** | | **19** |

[1] Units in parentheses are classroom/clinical units.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

# Department of Doctoral Studies

The Department of Doctoral Studies offers two doctoral programs, the Doctor of Philosophy (PhD) in Nursing and the Doctor of Nursing Practice (DNP). Scholarship is fundamental to both programs. The PhD is a research-based program that primarily prepares students to conduct independent research and disseminate their findings. The DNP program is clinically focused and provides graduates with the expertise to assess nursing research evidence, evaluate the impact of nursing research on nursing practice (evidence-based practice), and take a leadership role in making changes in the healthcare environment to enhance the quality of care. The department also offers a Bachelor of Science in Nursing (BSN) to DNP pathway that allows RNs with a BSN to enter directly into the DNP program without first earning an MSN degree.

## Programs

- Doctor of Philosophy (PhD) in Nursing (p. 746)
- Bachelor of Science in Nursing (BSN) to Doctor of Nursing Practice (DNP) Pathway (p. 740)
- Doctor of Nursing Practice (DNP) (p. 743)

## Courses

## GNRS 500, Conceptual Foundations of Professional Nursing, 3 Units

This course focuses on the introductory concepts crucial to the socialization of second career students to professional nursing. The history of nursing, the evolution of nursing in the U.S., the art and science of nursing, the legal and professional basis of nursing, the role of nursing in the health care delivery system, and current issues and trends in nursing education, practice and research are emphasized.

## GNRS 501, Theoretical Thinking in Nursing, 2 Units

This course examines questions about the nature and construction of theory and how theoretical ideas are developed and used in nursing practice and research. Philosophical ideas underlying theory are examined, and selected theoretical models and theories are explored.
**Prerequisite:** Completion of undergraduate research course or instructor's consent; admission to ELM or MSN program.

## GNRS 503, Cultural Competency in Health Care, 3 Units

This course focuses on transforming graduate nursing students, preparing them for nursing leadership in nursing practice, nursing research, education, and public health policy for the improvement of patient healthcare outcomes in our increasingly diverse society. Students move from cultural sensitivity and awareness to critical reflection and action, challenging their assumptions and broadening their perspectives. The Essentials of Master's Education in Nursing (American Association of Colleges of Nursing, 2011) serves as the foundation for the development of core cultural competencies.
**Prerequisite:** Graduate standing in the School of Nursing.

## GNRS 504, Bioethics and Healthcare Policy, 3 Units

This course will outline the role of the healthcare leader in ensuring human rights are upheld in healthcare systems. This course focuses on bioethical analysis, decision-making and moral policy analysis, and formulation. Through course discussion, group and individual assignments, and oral and written presentations, students will analyze and apply bioethical principles to decision- and policy- making processes in the workplace and at national levels. Healthcare ethics and policy will be considered from a Christian worldview.
**Prerequisite:** Graduate standing

## GNRS 505, Christian Formation for Holistic Care, 3 Units

Students engage in the process of discovering the foundational values of Azusa Pacific University that serve as guiding principles for the distinctive education they will receive. They are made aware of the Christian worldview and its implications for personal holistic development and care. With a focus on developing motivating character and integrated caregivers, the course brings heightened self-awareness, the impact of a Christian worldview on vocation, scriptural awareness especially emphasizing healing themes in the life of Christ, and the importance of spiritual growth on the journey toward formation.

## GNRS 506, Spiritual Concept Analysis in Health Care, 3 Units

Scholarly research and analysis of selected concepts in the spiritual care of persons from the Judeo-Christian perspective provide a central focus to the course. Students also examine healthcare research/other healthcare literature for adequacy with respect to the concept they select. Various assignments facilitate greater student awareness of their own spiritual journey and knowledge of faith traditions other than their own. The course is conducted as a tutorial/seminar experience.
**Prerequisite:** Graduate standing

## GNRS 507, Scientific Writing, 3 Units

This course provides opportunities for students to learn how to introduce a topic or issue, articulate a thesis, support and develop a thesis and subordinate claims, work with secondary sources, and organize an argument.

## GNRS 508A, Research and Theory in Advanced Practice Nursing, 4 Units

This course prepares nurses to use theory and research evidence in advanced clinical practice. The relationship between theory and research is examined, exploring questions about the nature, construction, and use of each. Selected theoretical models and theories are explored, and students learn how ideas are developed and used in nursing practice and research. Students deepen their understanding of the research process by engaging in a systematic search, critique, and summary of research studies with direct application to nursing practice. Experience in statistical analysis of research data is included.
**Prerequisite:** Computer literacy, undergraduate research course, undergraduate statistics course, and graduate standing

## GNRS 508B, Research and Theory in Healthcare, 4 Units

This course prepares the healthcare administrator to apply theory and research evidence in healthcare environments. The relationship between theory and research is examined, exploring questions about the nature, construction, and use of each. Selected theories are explored, and students learn how ideas are developed and used in practice and research. Students learn the fundamentals of quantitative, qualitative, and mixed methods research and deepen their understanding through systematic search, critique, and summary of research studies with application to healthcare. Students work in groups to develop a research plan addressing a healthcare-derived question. Experience in statistical analysis of research data is included.
**Prerequisite:** GNRS 613

## GNRS 510, Family Theory in Health Care, 2 Units

The major theoretical perspectives for understanding the family as a core unit of analysis are studied. This course fosters the student's recognition of the family's responsibility for health. Factors such as family patterns and care-giving tasks of families experiencing catastrophic or chronic alteration in health care are examined. This class is offered online.
**Prerequisite:** Graduate standing

## GNRS 511, Advanced Pediatric Health Assessment and Health Promotion, 4 Units

This course develops the graduate nurse's assessment skills and focuses on the promotion of health in the pediatric population from the newborn period through adolescence. Emphasis is on adapting and expanding the medically focused history and physical assessment to incorporate the assessment of traditional health practices and identify culturally relevant and age-appropriate health promotion strategies. Outcomes are examined in light of related theoretical concepts. Strategies for health promotion include a focus on developmental and behavioral assessments, emotional health, nutrition, counseling to modify risk factors, and screening tests/prophylaxis for early detection and prevention of disease.
**Prerequisite:** Undergraduate health assessment and GNRS 610;
**Corequisite:** Practicum

## GNRS 513, Advanced Nursing Practice Role, 2 Units

This course focuses on the concepts of role development and performance competence of the nurse in advanced clinical practice within the context of a reformed health care delivery system. Emphasis is placed on the clinician, educator, clinical program manager, consultant, researcher, and case manager roles of the advanced practice nurse. The leadership aspects of the roles of advanced practice are explored in relation to health care delivery, policy formulation, and legislation. The course explores theories and issues related to the advanced nursing practice role.
**Prerequisite:** Graduate standing

## GNRS 514, Research Proposal Writing, 2 Units

This course focuses on the application of the concepts in GNRS 508A. The goal is the completion of a research proposal that details the problem, the research purpose, questions or hypotheses to be tested, a critique of the literature, the design and methods of the study including protection of human subjects, the plans for analysis, use of the study, and the budget and personnel.
**Prerequisite:** GNRS 508A

## GNRS 516, Integrative Disease and Symptom Management, 3 Units

Using a systems-based approach, this course provides the student with a broad-based, graduate-level overview for understanding disease processes, treatment modalities, assessment and interventional strategies for patients across the life span.

## GNRS 517, Fundamentals in Nursing Practice, 2 Units

This is an experiential learning course designed to teach basic nursing skills in a clinical skills or simulation laboratory setting to prepare students to deliver safe and patient-focused nursing care. Utilizing the nursing process, students perform basic skills in assessment, patient care across the continuum, documentation, patient-family teaching, and infection control.

## GNRS 518, Supervised Practicum in Health Care, 3 Units

This course prepares students to integrate and apply theory, evidence-based practice, and national guidelines and standards in practicum settings. Students select practicum areas in which, with faculty approval, they will participate in experiences led by preceptors. The purpose of the course is to equip students with current, evidence-based knowledge in a selected practice area.

## GNRS 520, Theory and Practice of the Clinical Nurse Specialist in Nursing Care of Adult-Gerontology Patients, 6 Units

Critical concepts in advanced collaborative management of adult-gerontology client populations by Clinical Nurse Specialists are studied. Differential diagnosis, pharmacologic management, cultural sensitivity, adult-gerontology continuum of health and illness (i.e., wellness, health promotion, disease prevention), teaching-learning theory, and evidence-based best practices for clinical decision-making for the Adult and Geriatric population are highlighted. CNS roles, competencies, and professional issues and integrated clinical rotations will be chosen from critical care or medical-surgical adult-gerontology populations. Clinical seminar times allow students to discuss and analyze current professional issues and clinical problems in a collegial atmosphere.
**Prerequisite:** Academic Core and Advanced Practice Core courses, current RN license, CPR certificate, and meets health screening requirements;
**Corequisite:** Practicum

## GNRS 521, Clinical Specialization in the Care of Adult-Gerontology Patients, 6 Units

The course prepares the student to apply concepts introduced in GNRS 520. It focuses on diagnosis and collaborative disease management of acute illness in the adult-gerontology patient by the Clinical Nurse Specialist. The integration of advanced skill development, theory and evidence based practice, disease management, clinical decision making, unit and organization management issues, professional issues and APRN role competencies are the foundation for this course. Practicum and seminars are planned to span the breadth of the students' clinical opportunities.
**Prerequisite:** Academic Core and Advanced Practice Core courses, GNRS 520, current RN license, CPR certificate, and meets health screening requirements;
**Corequisite:** Practicum

## GNRS 522, Disaster Nursing and Emergency Preparedness, 3 Units

This course explores the nature of disasters and prepares nurses to respond to various types of disasters - including natural, environmental, mass casualty, public health emergencies, terrorism, and bioterrorism - by utilizing essential knowledge, skills, values, meanings, and experience in the basic competencies of emergency preparedness and disaster nursing. In accordance with the position of major nursing organizations, emphasis is placed on evidence-based best practices for personal preparedness.
**Prerequisite:** Comparable course, such as UNRS 312 Nursing Management of Adults, a human growth and development course, a lifespan course OR an RN licensure.

## GNRS 530, Theory and Practice of the Clinical Nurse Specialist in the Care of the Pediatric Patient, 6 Units

Critical concepts in the advanced collaborative management of pediatric client populations by the Clinical Nurse Specialists are studied. Differential diagnosis, pharmacologic management, cultural sensitivity, pediatric continuum of health and illness (i.e., wellness, health promotion/disease prevention), teaching-learning theory, and evidence-based/best practices for clinical decision-making for the Pediatric population are highlighted. CNS roles, competencies, and professional issues are integrated. Clinical rotations will be chosen from critical care or medical-surgical pediatric populations. Clinical seminar times allow students to discuss and analyze current professional issues and clinical problems in a collegial atmosphere.
**Prerequisite:** Academic Core and Advanced Practice Core courses, current RN license, CPR certificate, and meets health screening requirements;
**Corequisite:** Practicum

## GNRS 531, Clinical Specialization in the Care of the Pediatric Patient, 6 Units

The course prepares the student to apply concepts introduced in GNRS 530. It focuses on diagnosis and collaborative disease management of acute illness in the pediatric patient by the Clinical Nurse Specialist. The integration of advanced skill development, theory and evidence based practice disease management, clinical decision making, unit and organization management issues, professional issues and APRN role competencies are the foundation for this course. Practicum and seminars are planned to span the breadth of the students' clinical opportunities.
**Prerequisite:** Academic Core and Advanced Practice Core courses, GNRS 530, current RN license, CPR certificate, and meets health screening requirements;
**Corequisite:** Practicum

## GNRS 532, Advanced Nursing Practice in Pediatrics, 6 Units

This course emphasizes physiological and psychological bases for critical and chronic conditions in children, focusing on an advanced science base for the assessment, diagnosis, and management of children and families to promote wellness. Exploration of traditional versus alternate medicine treatment plans, as well as relevant cultural, spiritual, and health promotion strategies, is incorporated.
**Prerequisite:** Graduate status and GNRS 590A;
**Corequisite:** Practicum

## GNRS 533, Psychiatric Theories across the Life Span, 2 Units

This course presents neurobiologic, neuroendocrine, genomic, behavioral, and psychodynamic theories of psychiatric mental illnesses as they manifest among members of diverse cultural groups across the life span. A theoretical foundation for subsequent coursework in primary psychiatric mental health care is provided for the role of the psychiatric mental health nurse practitioner.
**Prerequisite:** Graduate standing, Advanced Practice Core

## GNRS 534, Integrated Psychiatric and Health Assessment across the Life Span, 2 Units

This course teaches the role of the psychiatric mental health nurse practitioner in interviewing, assessing, and utilization of other data collection methods to elicit, analyze, and evaluate bio-psychosocial information regarding psychiatric mental health illness as experienced and understood by the clients, across the lifespan. Assessment and integration of the effects of potential and/or existing co-morbid health problems are focused upon. Diagnostic reasoning that is based on the Diagnostic Statistical Manual is foundational in the course. Development of differential diagnoses and disease management, evidence-based practice, and health promotion that includes client and nurse practitioner collaboration is emphasized.
**Prerequisite:** Advanced Practice Core, GNRS 533 (May be taken concurrently)

## GNRS 535, Psychiatric Interventions and Health Promotion across the Life Span, 6 Units

In this course students learn historical, theoretical, and contemporary evidence-based psychotherapies that promote and support client stabilization, rehabilitation, and recovery. The client as a collaborating decision making consumer and the client-clinician therapeutic alliance are central to this course. Students increase competence in assessment of psychiatric mental health illnesses, differential diagnoses and disease management, implementation of psychotherapy (individual, group, family), medication management, and health promotion interventions, including motivational interviewing. Student competence in developing and facilitating therapeutic groups as a recovery modality are included in the course. The role of the psychiatric mental health nurse practitioner in the integration and coordination of support services that impact mental health and illness is also included. Students practice verbal psychotherapeutic skills that motivate and facilitate client self-management and progression toward recovery.
**Prerequisite:** Advanced Practice Core, GNRS 533 and GNRS 534; GNRS 539 may be taken concurrently;
**Corequisite:** Practicum

## GNRS 536, Psychiatric Mental Health Care with Adults and Older Adults, 6 Units

In this course students increase their knowledge and competence in the assessment of psychiatric mental health illnesses, differential diagnoses and disease management, implementation of psychotherapy (individual, family, group), evidence-based practice, medication management, health promotion and disease prevention interventions, integration and coordination of support services, with adults and older adults.
**Prerequisite:** GNRS 533, GNRS 534, GNRS 535, GNRS 539;
**Corequisite:** Practicum

## GNRS 537, Psychiatric Mental Health Care with Children and Adolescents, 6 Units

In this course, students increase competence in the role of the psychiatric mental health nurse practitioner in the assessment of psychiatric mental health illnesses, differential diagnosis and disease management, implementation of psychotherapy (individual, family, group), evidence-based practice, medication management, health promotion and disease prevention interventions, integration and coordination of support services with children, adolescents, and families.
**Prerequisite:** GNRS 533, GNRS 534, GNRS 535, GNRS 536, GNRS 539;
**Corequisite:** Practicum

## GNRS 538, Psychiatric Mental Health Care with Selected Populations, 5 Units

Students increase knowledge and competence in the assessment of psychiatric and mental health illnesses, differential diagnosis and disease management, implementation of psychotherapy (individual, family, group), medication management, health promotion and disease prevention interventions, and integration and coordination of support services with a selected population. Focus is on integrating and practicing all aspects of the role of the psychiatric mental health nurse practitioner with clients who are experiencing acute and/or chronic mental health problems and psychiatric disorders.

**Prerequisite:** GNRS 533, GNRS 534, GNRS 535, GNRS 536, GNRS 539;
**Corequisite:** Practicum

## GNRS 539, Psychopharmacology, 2 Units

Students in this course build upon knowledge of advanced practice nursing and provides content essential for the psychiatric mental health nurse practitioner to prescribe appropriate pharmacologic treatment in practice. Mechanisms of action, interactions, side effects, and prescribing guidelines for psychopharmaceuticals commonly utilized across the lifespan are addressed.

**Prerequisite:** GNRS 533, GNRS 534; GNRS 535 (May be taken concurrently)

## GNRS 542, Advanced Concepts and Competencies in Pediatric Primary Health Care, 3 Units

This course offers a comprehensive review and synthesis of core concepts and competencies for the pediatric advanced practice nurse in the primary care setting. This culminating experience for pediatric nurse practitioner students incorporates seminar discussions and clinical practicum placement, and also allows for a discussion of developmental/behavioral issues, management of acute and chronic care illnesses seen in primary care settings, and preventative health care.

**Prerequisite:** Graduate standing, GNRS 532 (may be taken concurrently with instructor's permission), and GNRS 590A;
**Corequisite:** Practicum

## GNRS 543, Transitions Across the Care Continuum, 4-6 Units

This course focuses on principles and models of care and their implementation in a multidisciplinary practice environment that emphasizes healthcare delivery through integration of services and transition management. Students are introduced to decision making related to allocation of resources and services, development of protocols, and evaluation of management approaches. Evidence-based approaches to the clinical, administrative, educational, and research dimensions of patient care are emphasized. Evaluation of care management activities with the student's selected clinical population is an integral component of the course.

**Prerequisite:** NP students: completion of Advanced Practice Core; CNS students: completion of Advanced Practice Core and GNRS 520 or GNRS 530; HAL students: completion of MSN Core and GNRS 560.
**Corequisite:** Practicum

## GNRS 544, Clinical Specialization Residency, 2-4 Units

This elective residency program, formed through a partnership between the School of Nursing and selected community healthcare organizations, is an intensive, precepted clinical experience that helps students transition to beginning professional nurses in a specialized setting. It enhances students' skill and practice knowledge in preparation for the RN licensing examination, and increases their ability to perform clinical reasoning with the assigned patient population and evaluate the QSEN competencies of patient-centered care, safety, evidence-based practice, informatics, and teamwork and collaboration.

**Prerequisite:** ELM students must complete GNRS 573 (may be taken concurrently), but GNRS 573 is not required for nurses in community partnerships who are taking GNRS 544 for continuing education credit.

## GNRS 546, Theory and Practice in Health Care Systems in the Community, 6 Units

This specialized course prepares RNs without a bachelor's degree for graduate study in nursing. A multiple theoretical focus that includes concepts from systems, stress, adaptation, developmental, and role theory is emphasized. A beginning practice in the utilization of the nursing process with an emphasis on nursing diagnosis and the nurse's role in assessing, planning, implementing, and evaluating care of clients in a variety of community settings is provided. Collaboration with community-based organizations and services that provide health restoration, maintenance, illness prevention, and client education services to individuals and families at home are essential course components. A review of legal mandates for practice and discussion of ethical dilemmas and issues related to high quality nursing care are included. Specific content varies based on the students' prior education and experience. Clinical placements are arranged to meet the individual student's needs.

**Prerequisite:** Undergraduate research, pathophysiology, and health assessment;
**Corequisite:** Practicum

## GNRS 547, Nursing Leadership in Acute Care Settings, 6 Units

This is one of two clinical courses provided for the RN who seeks both a bachelor's and master's degree in nursing. The course synthesizes selected information from the generic bachelor's and master's programs for presentation in a condensed format, addressing the development and nature of today's health care systems and associated issues in the United States. Further, content familiarizes the student with several roles and responsibilities of the contemporary nurse, such as leader, consultant, teacher, manager, and client advocate. The course focuses on client needs in acute health care settings and emphasizes the relationship between the health care system and the advocate.

**Prerequisite:** Undergraduate research, pathophysiology, and health assessment;
**Corequisite:** Practicum

## GNRS 548, Health Promotion Across the Lifespan, 2 Units

The course focuses on health promotion and disease prevention across the lifespan and around the globe. The course includes exploration of population health issues, environmental implications in health and health policy, impact on health promotion and the development of disease.
**Prerequisite:** Academic Core and Advanced Practice Core courses, current RN license, CPR certificate, and meets health screening requirements

## GNRS 550A, Theory and Practice in School Nursing, 6 Units

This combined didactic and clinical course provides theoretical content and field experiences that emphasize the multifaceted role of the school nurse. Students participate in field experiences and classroom learning activities that focus on the assessment and management of children's healthcare needs in various school settings. This course equips students with the necessary tools and skills to successfully function as professional school nurses. At the conclusion of this course, students are able to successfully function as providers of health education as well as providers, planners, and coordinators of health care in school settings.
**Prerequisite:** GNRS 612 or instructor consent, and admission to School Nurse Services Credential program;
**Corequisite:** Practicum

## GNRS 554, Medical-Surgical Care of the Adult and Geriatric Patient, 5 Units

This course introduces crucial concepts in professional nursing care, such as the nursing process, communication, therapeutic interventions, critical thinking, and critical reasoning. Course material focuses on the application of biological, psychosocial, and spiritual concepts to adult and elderly clients in various healthcare settings with acute and/or chronic illnesses. The nursing process is utilized to provide care to one or two adult clients within the healthcare delivery system. The clinical practicum focuses on the cognitive basics, scientific principles, and manipulative components of psychomotor skills used when providing nursing care.
**Prerequisite:** Admission to the ELM program, completion of all prerequisite courses for the program.
**Corequisite:** GNRS 554P

## GNRS 555, Medical Surgical Care of the Adult and Geriatric Patient, 7 Units

This course introduces crucial concepts to professional nursing care such as nursing process, communication, therapeutic interventions, and critical thinking and clinical reasoning. The course focuses on the application of biological, psychosocial, and spiritual concepts to hospitalized adult and elderly clients with acute and/or chronic illnesses. Students will be guided in critical thinking and clinical reasoning exercises in the management of hospitalized clients. Nursing process is utilized to provide care to one or two adult clients within the health care delivery system of an acute care setting. The clinical practicum focuses on the cognitive basis, scientific principles, and manipulative component of psychomotor skills used when providing nursing care. Students have an opportunity to practice simulated clinical skills.
**Prerequisite:** Admission to the ELM program, completion of all prerequisite courses for the program;
**Corequisite:** Practicum

## GNRS 556, Intermediate Medical Surgical Care of the Adult, 7 Units

This course is designed to build on the base of medical-surgical nursing knowledge from GNRS555. The course focuses on comprehensive nursing care to patients with acute need for continuous cardiac monitoring, pulse oximetry monitoring, or ventilator assistance in telemetry units, in restorative care setting, or long-term care setting.
**Prerequisite:** Admission to the ELM program; successful completion of GNRS 555;
**Corequisite:** Practicum

## GNRS 557, Medical Spanish for Advanced Practice Nurses, 3 Units

This course provides non-Spanish-speaking advanced-practice nursing students with foundational knowledge of Spanish language structure and vocabulary, helping them build appropriate phrasing to facilitate communication in healthcare settings. Cultural issues relevant to health and illness in the Latino community are also addressed.
**Prerequisite:** Graduate nursing student standing, or instructor's permission

## GNRS 558, Intermediate Medical-Surgical Care of the Adult, 6 Units

This course is designed to build on the base of medical-surgical nursing knowledge from prior nursing courses. The course focuses on comprehensive nursing care to patients with acute need for continuous cardiac monitoring, pulse oximetry monitoring, or ventilator assistance in telemetry units, restorative care settings and long-term care settings.
**Corequisite:** GNRS 558P

## GNRS 559, Audiometry for School Nurses, 3 Units

This course provides didactic instruction via eCollege and eight hours of on-site practicum experience that emphasizes the content and clinical expertise necessary to fulfill the requirements of the State of California School Hearing Conservation Program and training for the school audiometrist. The course focuses on the physiologic process of hearing and how to assess for deficits in hearing in children of all ages. At the conclusion of the course, and after having completed successfully all learning objectives, the student is eligible to submit an Application for Registration as a School Audiometrist in the State of California (a $10 registration fee is required with the application).

## GNRS 560, Strategic Leadership in Health Care, 3 Units

This course is designed to develop knowledge, skills and attitudes about leadership across the healthcare continuum. The student will consider the professional role of the healthcare administrator both from a leadership and a management perspective. Areas of concentration will include leadership theory, structure of healthcare institutions, systems thinking and decision-making, performance improvement including quality and safety issues, risk management and effective communication skills. Application of business skills will be integrated. Students will consider the theoretical and research background, current issues and trends, leadership and administrative implications of specific topics.

## GNRS 564, Nutrition and Therapeutics, 2 Units

Students in this course explore the functions of nutrients and the consequences of nutrient deficiencies and excesses in the body. Course material introduces a variety of tools for planning and evaluating diets, including a computer diet analysis, and the application of nutrition concepts is interwoven into health care and fitness conditions. Students also study the prevention of chronic disease as it relates to proper nutrition and adequate exercise.
**Prerequisite:** Admission to the ELM program

## GNRS 567, Healthcare Administration and Leadership Supervised Practicum, 3 Units

This course provides the student with the opportunity to experience the role of healthcare administrator. An individualized administration practicum in a specific area of clinical emphasis is chosen by the student and approved and monitored by the faculty and preceptor. Competencies that govern the role of the healthcare administrator are explored in depth. Students focus on the context for enacting the role of administrator in a healthcare delivery system.
**Prerequisite:** All core and role courses

## GNRS 568, Healthcare Finance, 4 Units

This course is an introduction to financial concepts and skills need for healthcare leaders, managers, and executives. The student will develop skills in assessing multiple dimensions of financial performance and methods to improve the financial health of an organization in the context of current patient care system.

## GNRS 569, Quality and Safety for Health Care Practice, 3 Units

This course is designed to deepen and advance students' knowledge of, and ability to systematically apply the principles of, patient quality and safety in nursing practice. Based on national standards, the focus is on examining and applying quality and safety tools, including informatics, that can be used to improve patient care delivery across the continuum of health care.

## GNRS 570, Parish Nursing/Health Ministries, 2 Units

This course provides an introduction to and overview of health ministry and parish nursing theory and practice. The philosophy of the course is that (a) the parish nursing role is that of a specialist in spiritual aspects of patient care in the congregational context, requiring the integration of graduate level theology/ministry and nursing theory and praxis; and (b) health ministry is an emerging role and trend in pastoral ministry that seeks to bring professional ministry skill to bear upon the integration of health, faith, and spirituality in the parish setting.

## GNRS 571, International Health Care, 2-4 Units

This course provides students with experience in nursing care in other countries. Students prepare with coursework in the United States, then travel abroad, where they have experiences in acute and/or chronic care settings, exploring cultural, economic, systems, philosophical, and other aspects of care that influence the provision of health care in other countries. A debriefing period is provided upon return.

## GNRS 573, Clinical Residency, 4 Units

The clinical residency is an internship clinical experiential program designed as a collaborative partnership between the School of Nursing and selected community in-patient health care organizations. This residency is an intensive preceptored clinical experience planned to ease the role transition from a student nurse to a beginning professional nurse in an acute-care setting. In addition, it enhances the skill and practice knowledge of the student in preparation for the RN licensing examination.
**Prerequisite:** Successful completion of all pre-licensure clinical courses

## GNRS 575, Nursing Care in Maternal, Newborn, and Women's Health, 4 Units

This course focuses on the theoretical and clinical concepts of the childbearing patient, her infant, and her family. The students study both normal and complicated obstetrics. Selected issues of women's health are explored. The student is introduced to birth preparation, prenatal care, normal neonatal, and postpartum care with concurrent clinical experiences.
**Prerequisite:** Admission to the ELM program, successful completion of semesters one and two;
**Corequisite:** Practicum

## GNRS 576, Pharmacology, 2 Units

This course is designed for students who have completed organic chemistry, inorganic chemistry, and biochemistry. The content focuses on principles of pharmacology and specifics of the major drug classifications.
**Prerequisite:** Admission to the ELM program

## GNRS 578, Health Assessment, 3 Units

This course provides the nursing student with skills in physical, spiritual, and psychosocial assessment of adult clients. History-taking and physicalexamination techniques presented in the course help the student develop strong assessment skills upon which further knowledge and practice can be built. Basic concepts related to assessment of geriatric, pediatric, and childbearing patients are included.
**Prerequisite:** Admission to the ELM program;
**Corequisite:** Practicum

## GNRS 580, Gerontology, 2 Units

This course integrates research and writings about the major trends and developments in the field of gerontology as they apply to the field of nursing. The approach is interdisciplinary - course material includes information from the fields of sociology, psychology, anthropology, biological sciences, medicine, nursing, and psychiatry. Development in adulthood is viewed from multiple perspectives including cognitive, behavioral, biological, sociocultural, and spiritual, and the influences these perspectives have on the successful negotiation of age-related issues are considered. Finally, students examine aspects of human aging in contemporary American society and from a cross-cultural and ethnic perspective.
**Prerequisite:** Graduate standing in the School of Nursing.

## GNRS 581, Primary Health Care of the Older Adult, 5 Units

GNRS 581 focuses on the role of the adult-gerontology primary care nurse practitioner in the management of the older adult including health promotion, assessment, treatment, and maintenance of common primary care health problems. The clinical practicum emphasizes the application of theory and evidence-based research for the delivery of culturally competent assessment and treatment of the older adult within the context of their families and in a variety of outpatient settings.
**Prerequisite:** Graduate status in the School of Nursing, completion of Advanced Practice Core courses;
**Corequisite:** Practicum

## GNRS 582A, Pathophysiology, 2 Units

This course presents an introduction to human pathophysiology. Mechanisms causing alterations in cellular activity, maintenance of cellular tissue oxygenation, fluid and electrolyte balance, and neuroendocrine control of the body are included. Common pathophysiologic disorders are emphasized.
**Prerequisite:** Admission to the ELM program

## GNRS 582B, Pathophysiology, 2 Units

This course continues the presentation an introduction to human pathophysiology. Mechanisms causing alterations in cellular activity, maintenance of cellular tissue oxygenation, fluid and electrolyte balance, and neuroendocrine control of the body are included. Common pathophysiologic disorders are emphasized.
**Prerequisite:** Admission to the ELM program, successful completion of GNRS 582A

## GNRS 583, Nursing Care of Children and Young Adults, 4 Units

This theoretical and clinical course focuses on the care of children from birth through adolescence. The effects of acute and chronic illness on growth and development are studied in the acute and community health care setting. Education of the child and family on health promotion, disease prevention, and safety issues are addressed. Ethical issues are discussed regarding the relationship to the child and family, including issues such as child abuse, informed consent, and the impact of diverse cultural and spiritual beliefs on health care decisions in the family.
**Prerequisite:** Admission to the ELM program, successful completion of semesters one and two;
**Corequisite:** Practicum

## GNRS 584, Mental Health Nursing, 4 Units

This theoretical and clinical course focuses on the dynamics of psychosocial stress within the interpersonal and intrapersonal systems of clients with acute and chronic psychiatric disorders.
**Prerequisite:** Admission to the ELM program, successful completion of semesters one and two;
**Corequisite:** Practicum

## GNRS 586, Leadership and Management in Professional Practice, 2 Units

This course emphasizes leadership and management theory including systems theory in a number of applications and settings, equipping students with the ability to adjust to various organizations encountered by professional nurses serving in a variety of roles. Core concepts relevant to clinical settings are presented using a systems approach. Emphasis on nursing case management is included.

## GNRS 587, Community Health Nursing, 5 Units

This course has two areas of focus within the community setting: the study of principles and practices involved in community health nursing, and the development of skills for teaching a group of clients. The emphasis is on the role of the nurse in assessing, planning, implementing, and evaluating care of clients in a variety of community-based settings, with a focus on care of the gerontological client. Collaboration with community-based organizations and services that provide health restoration, maintenance, illness prevention, and client education services to individuals, families, and aggregates are essential components of this course. A review of legal mandates and regulations, as well as discussion of ethical dilemmas and issues related to community-based care is included.
**Prerequisite:** Admission to the ELM program, successful completion of semesters one, two, and three;
**Corequisite:** Practicum

## GNRS 588, Advanced Nursing Care of Adults - Leadership, 6 Units

This course involves the application of pathophysiological, psychosocial, and spiritual concepts to adult and geriatric clients experiencing the stress of illness in acute settings. The primary focus of the course is to care for critically ill clients and their families with complex health care needs in a critical-care setting. A second area of focus is on the utilization of leadership and management concepts/skills in providing comprehensive care to groups of clients and families. Emphasis is placed on preparing the student to practice in a beginning leadership role in managing client care. Legal and ethical issues related to acute care are included.
**Prerequisite:** Admission to the ELM program;
**Corequisite:** Practicum

## GNRS 589, Adolescent Health Care, 2-4 Units

This course focuses on the growth and development of adolescents, including assessment, prevention, and management of common health and psychosocial problems in this population. Emphasis is on age-appropriate and culturally competent provision of primary health care to adolescents in a family system.
**Prerequisite:** Graduate status in the School of Nursing; 2-unit version of this course requires prior completion of GNRS 610, while the 4-unit version requires prior completion of GNRS 610, GNRS 611, and GNRS 511 or GNRS 612.

## GNRS 590A, Primary Health Care of the Young Family, 6 Units

This combined theory and clinical course focuses on management of health care of children (from birth through adolescence) and their families. Theory and clinical experiences emphasize assessment, prevention, and management of physiological, social, emotional, intellectual, spiritual, and educational needs of the child as an individual and as a family member. The effects of culture on development, parenting, and health care practices are emphasized. The course provides theory and clinical experiences in the management of normal and common pathological conditions to prepare students for advanced nursing practice in the role of nurse practitioner.
**Prerequisite:** Advanced Practice Core courses;
**Corequisite:** Practicum

## GNRS 590B, Clinical Practicum in Pediatrics, 4 Units

The student develops expanded skills in the comprehensive assessment and management of common childhood illnesses and problems and continues to gain skill in promoting child wellness. Application of theory and research is emphasized in the care of common illnesses throughout the childhood years.
**Prerequisite:** GNRS 511 or GNRS 612, and GNRS 590A

## GNRS 590C, Primary Health Care of the Young Family for the School Nurse Services Credential, 6 Units

Using a system-based approach, this combined didactic and practical course focuses on assessment, nursing interventions, and follow-up for common illness presentations in children, as well as illness-related impact on social, emotional, and educational functioning. The effects of culture on child development, parenting, and healthcare practices is also emphasized.
**Prerequisite:** GNRS 612;
**Corequisite:** Practicum

## GNRS 590D, Primary Health Care of the Young Family, 3 Units

This theory course focuses on management of health care of children (from birth through adolescence) and their families, with an emphasis on assessment, prevention, and management of physiological, social, emotional, intellectual, spiritual, and educational needs of the child as an individual and as a family member. The effects of culture on development, parenting, and health care practices are emphasized. The course provides theory in the management of normal and common pathological conditions to prepare students for advanced nursing practice in the role of nurse practitioner.
**Prerequisite:** Advanced Practice Core courses

## GNRS 591, Primary Health Care of the Childbearing Family, 4 Units

This course focuses on the assessment and management of the primary health care needs of the reproductive family. Emphasis is placed on health promotion and maintenance, disease prevention, curative, and restorative care. Cross-cultural aspects related to parents, male and female, of the childbearing family are addressed.
**Prerequisite:** Advanced Practice Core courses;
**Corequisite:** Practicum

## GNRS 592A, Primary Health Care of the Adult and Aging Family, 6 Units

This combined theory and clinical course focuses on the role of the nurse practitioner (NP) in caring for mature adults and aging family members, from young adulthood to elderly adulthood. Emphasis is placed on the management of common primary health problems of these age groups. The delivery of culturally competent primary health care interventions of young, middle-aged, and elderly adults is addressed.
**Prerequisite:** Advanced Practice Core courses;
**Corequisite:** Practicum

## GNRS 592B, Primary Health Care Clinical Practicum, 2 Units

This course provides the final comprehensive clinical management experience, allowing FNP and AGNP students to apply knowledge gained throughout their course of study. Clinical conferences provide opportunity for discussion of role development issues and clinical case studies. Students engage in the clinical assessment and management of adults of diverse cultural backgrounds with routine and complex health problems in out-patient settings. Under the supervision of qualified preceptors and School of Nursing faculty, the student must complete his/her clinical hours and demonstrate mastery to perform the role of an entry-level nurse practitioner.

**Prerequisite:** Completion of clinical courses for the FNP or AGNP program track

## GNRS 593, Psychosocial Primary Health Care of the Adult and Aging Family, 4 Units

This combined didactic and clinical course focuses on psychosocial primary health care of the mature and aging family. Didactic content and clinical experiences emphasize the advanced practice nursing role in the medical management of chronic illness with concurrent assessment for psychosocial stressors that impact the experience and management of chronic illness. Students learn to tailor patient-centered therapeutic strategies, including presence, multi-faceted functional assessment, motivational interviewing, stress reduction techniques and spiritual support to individual patients.

**Prerequisite:** Advanced Practice Core courses;

**Corequisite:** Practicum

## GNRS 595, Special Topics in Nursing, 1-6 Units

In this course, a topic of current interest to students is examined in depth. Students analyze and evaluate topics/issues to reach and express a position, enhance personal development and/or to develop a particular project. If students elect this course more than once during their program, each such course must address a different topic.

**Prerequisite:** Graduate standing

## GNRS 596, Foundations of Healthcare Informatics, 3 Units

This course provides an overview of basic concepts for practice in healthcare-oriented informatics. These core concepts include an introduction to clinical and translational informatics; foundational theory and practical application of clinical decision making and computerized decision support; healthcare systems and their organization; the special issues of administration, security, and operations of electronic records in the healthcare setting; human factors issues; information science in the healthcare domain; standards, terminologies, and the uniqueness of biomedical data; and a special focus on emerging technologies.

## GNRS 597, Comprehensive Examination Directed Study, 1 Unit

This course guides the student through the process of demonstrating an integration of theoretical, clinical, and research knowledge. Critical thinking is enhanced through careful consideration of information presented during discussion. The examinations are taken as part of this seminar.

**Prerequisite:** Completion of all Academic Core and degree specialty courses. Final specialty course may be taken concurrently.

## GNRS 598, Thesis, 1 Unit

A student initially enrolls in this option toward the latter part of the program for one unit of credit. The student registers for one unit of thesis credit each semester (two of three semesters per year) until the thesis is completed.

**Prerequisite:** GPA of 3.5 or above, chair's consent for thesis option, and completion of all Academic Core and Advanced Practice Core courses

## GNRS 599, Readings/Independent Study in Nursing, 1-4 Units

A student may elect to pursue special interests for credit at any time during the program under the supervision of a faculty member. University policy states that the student must earn a grade in an independent study course in order to receive credit toward graduation.

**Prerequisite:** Graduate standing

## GNRS 600, Nurse Practitioner Clinical Experience, 2-6 Units

The AGPCNP and NP programs require 765 hours of supervised direct patient care experience. Students in this course function in the role of student nurse practitioners under the direct supervision of approved preceptors, and receive feedback from their preceptors and from their clinical faculty. This course gives students an opportunity to complete the documentation necessary to be awarded clinical units. Students progressively integrate advanced-practice nursing competencies, demonstrate professional nursing behavior, and keep accurate records. Upon completion of 765 hours, students are given access to a clinical portfolio.

**Prerequisite:** GNRS 612 and faculty permission

## GNRS 601, Primary Healthcare I: Adult and Aging, 3 Units

This course integrates knowledge from advanced pathophysiology, advanced pharmacology, and advanced health assessment and apply it to create a diagnostic hypothesis for common acute and chronic primary care health problems in adolescents, adults, and older adults. The course examines a variety of treatment options for each disease presented and for diseases that don't respond to first-line therapy.

**Prerequisite:** GNRS 612

**Corequisite:** GNRS 600

## GNRS 602, Primary Healthcare II: Population-based Health Interventions, 3 Units

Primary Healthcare II recognizes that individuals with healthcare needs belong to a variety of discrete groups. This course introduces population health principles to be integrated with psychosocial assessment, cultural competency, social determinants of health, and the nurse-client relationship to foster the development of competence to motivate patients in a way that respects their diversity and to assist them to find resources to address social vulnerabilities. Students will employ statistical analysis as well as nursing experience to analyze risk to create a patient education plan.
**Prerequisite:** GNRS 601
**Corequisite:** GNRS 600

## GNRS 603, Primary Healthcare III: Restorative and Palliative Interventions, 3 Units

This course is designed to integrate disease management and communication techniques to support the physical, emotional, and spiritual transitions of chronic illness. The course examines developing a prognosis, transitioning care, interprofessional care planning, and care of the caregiver. Grounded in spiritual concepts, this course is designed to provide the student with tools to give patients and families unpleasant information that will likely evoke fear or sadness.
**Prerequisite:** GNRS 602

## GNRS 610, Advanced Pathophysiology, 3 Units

This course builds on basic anatomy and physiology and undergraduate study of pathophysiology. It focuses on the development of an advanced understanding of the pathophysiologic mechanisms of human health disorders including those that are genetic. Diagnostic reasoning that facilitates the clustering of signs and symptoms leading to diagnosis is a key process undergirding the course. This course requires the integration of signs and symptoms, clinical testing (such as laboratory and radiologic studies), and pathophysiologic mechanisms with diagnoses. This course introduces epidemiological principles and methods to be applied to population health models.
**Prerequisite:** Graduate standing and undergraduate pathophysiology

## GNRS 611, Advanced Pharmacology, 3 Units

This course builds upon basic knowledge in pharmacology and provides content essential for the advanced practice nurse to render appropriate pharmacological treatment in practice. Mechanisms of action, interactions, side effects, and prescribing guidelines for drugs commonly utilized across the life cycle are addressed. The course introduces the principles of pharmacogenomics and their application to clinical practice. Variations in pharmacological reactions attributed to cultural factors are emphasized. Strategies for fostering individual/family adherence to pharmacological regimens are examined. This course meets the requirements of the California Board of Registered Nursing in the application of a "furnishing number" by the advanced practice nurse in California.
**Prerequisite:** GNRS 610 (may be taken concurrently)

## GNRS 612, Advanced Health Assessment and Diagnostic Reasoning, 4 Units

This course develops the graduate nurse's assessment skills and focus on the promotion of health in individuals across the age range and within family, community, and cultural contexts. Emphasis is on adapting and expanding the medically focused history and physical assessment to incorporate the assessment of traditional and nontraditional therapies and identify culturally relevant and age-appropriate health promotion strategies for common episodic complaints and chronic health conditions. Outcomes are examined in light of theoretical concepts. Strategies for health promotion include a focus on lifestyle, mental health, nutrition, counseling to modify risk factors, and screening tests/prophylaxis for the early detection and prevention of disease.
**Prerequisite:** Undergraduate health assessment and GNRS 610;
**Corequisite:** lab

## GNRS 613, Graduate Statistics, 3 Units

This course presents the knowledge of descriptive, correlational, and inferential statistics used in research that serves as the basis for evidence-based practice. Students develop the ability to perform descriptive and inferential data analysis techniques, use software applications to aid in statistical calculations and presentation, and interpret findings.

## GNRS 615, APRN Intensive I, 1 Unit

This is the first of four Intensive courses that give NP students an interactive experience through in-class and out-of-classroom work. This course introduces students to the professional role and practice of the nurse practitioner in primary care.
**Prerequisite:** GNRS 612 (may be taken concurrently)

## GNRS 616, APRN Intensive II, 1 Unit

This is the second of four APRN Intensive courses that give NP students an interactive experience through out-of-classroom work. Course activities and games will evaluate the student's ability to perform the clinical role of the NP. Students will understand and develop the skills of virtuous leadership and collaboration from a biblical perspective.
**Prerequisite:** GNRS 615;
**Corequisite:** GNRS 601

## GNRS 617, APRN Intensive III, 1 Unit

This is the third of the APRN intensives that give APRN students an interactive experience with out-of-classroom work that includes team activities, simulation experiences, and problem-solving activities. Topical content includes managing patients with complex co-morbidities, ethical reasoning, and advanced communication skills. Students will be observed performing the professional and clinical skills of the APRN.
**Prerequisite:** GNRS 616;
**Corequisite:** GNRS 602

## GNRS 618, APRN Intensive IV, 1 Unit

This is the fourth of the APRN intensives that give APRN students an interactive experience with out-of-classroom work that includes team activities, simulation experiences, and problem-solving activities. Topical content practice-based quality improvement, office-based procedures, and certification exam preparation. Students will be observed performing the professional and clinical skills to demonstrate readiness to enter NP practice.
**Prerequisite:** GNRS 617; Faculty permission.

## GNRS 620, Genome Science in Healthcare, 3 Units

This course covers basic genomic concepts and technologies intended for personalizing healthcare. The primary goal is to provide the student with clinically relevant knowledge that can be used in practice and for teaching other healthcare professionals, patients and families. Applications of genome science and technology are analyzed in the context of real world examples taken from a variety of clinical specialty areas to better understand the relation between genomics, health, and illness.

## GNRS 622, Genome Science and Ethical Issues, 3 Units

This course examines current applications and implications of genome science and technology to healthcare, public health policy, economics, ethics, federal and state laws and societal issues. The following discussion topics are at the leading edge of healthcare and social debate: DNA biobanking, genetic profiling, and genomic technologies used in genome medicine such as stem cell research, gene therapy, and genetic enhancements. In addition, the course addresses ethics, philosophy, and theology literature to explore thoughtful discussions that cover a wide range of genome applications in healthcare and health science research.
**Prerequisite:** GNRS 620

## GNRS 630A, Oncology Nurse Practitioner Fellowship A, 4 Units

This course is the first in a series of three fellowship courses that enhance students' critical thinking, diagnostic reasoning, and interpretation and management skills for advanced practice nursing in the field of oncology. Students gain a deeper understanding of the sciences necessary for enhanced role development, knowledge, and skills for advanced practice nursing scholarship, and practice in a designated appropriate setting under the direction of a faculty advisor in collaboration with selected clinical experts, with a focus on exploring the development and scientific underpinnings of components of expert clinical oncology practice.
**Prerequisite:** Enrollment in the oncology nurse practitioner fellowship certificate program.

## GNRS 630B, Oncology Nurse Practitioner Fellowship B, 4 Units

This course is the second in a series of three fellowship courses that enhance students' critical thinking, diagnostic reasoning, and interpretation and management skills for advanced practice nursing in the field of oncology. Students gain a deeper understanding of the sciences necessary for enhanced role development, knowledge, and skills for advanced practice nursing scholarship, and practice in a designated appropriate setting under the direction of a faculty advisor in collaboration with selected clinical experts, with a focus on exploring the development and scientific underpinnings of components of expert clinical oncology practice.
**Prerequisite:** Enrollment in the oncology nurse practitioner fellowship certificate program.

## GNRS 630C, Oncology Nurse Practitioner Fellowship C, 4 Units

This course is the third in a series of three fellowship courses that enhance students' critical thinking, diagnostic reasoning, and interpretation and management skills for advanced practice nursing in the field of oncology. Students gain a deeper understanding of the sciences necessary for enhanced role development, knowledge, and skills for advanced practice nursing scholarship, and practice in a designated appropriate setting under the direction of a faculty advisor in collaboration with selected clinical experts, with a focus on exploring the development and scientific underpinnings of components of expert clinical oncology practice.
**Prerequisite:** Enrollment in the oncology nurse practitioner fellowship certificate program.

## GNRS 631, ONP: Cancer Biology and Assessment, 2 Units

This course builds on knowledge of the anatomy and physiology of DNA, RNA, and differentiated and nondifferentiated human cells. Focus is on the pathophysiologic mechanisms of human cancer disorders. Diagnostic reasoning that facilitates the clustering of signs and symptoms is a key process undergirding the course. The course also provides the foundation for the integration of diagnostic testing, physical assessment, and understanding of the predictable pathophysiology of cancer in order to stage tumors and predict metastatic risk in individuals.
**Prerequisite:** Admission to the Oncology Nurse Practitioner Post-Master's Certificate program.

## GNRS 632, ONP: Cancer Therapeutics, 2 Units

This course builds on knowledge of the predicted behavior of human cancer. Technology in cancer treatment is evolving rapidly, and this course provides a pathophysiological foundation for understanding cancer protocols. Current cancer protocols, classes and categories of therapeutics, technologies in development, and tumor resistance are discussed, along with the cost benefit, side effects, and availability of the covered therapeutics.
**Corequisite:** GNRS 631

## GNRS 633, ONP: Symptom and Side Effect Burden, 2 Units

Patients with advanced cancer often suffer significant symptomatic burden and the iatrogenic complications of treatment. This course helps students develop a patient-centered approach to evidence-based management of common symptoms of cancer and side effects of treatment.
**Prerequisite:** GNRS 631 and GNRS 632

## GNRS 634, ONP: Survivorship and the Psychosocial Impact of Cancer, 2 Units

Cancer patients and their caregivers face complicated psychological, financial, and spiritual changes, beginning at diagnosis and extending into the posttreatment phases. This course covers the common problems related to those changes, and best-practice strategies and techniques to help patients and families cope with cancer.

## GNRS 635, ONP: Team-Based Care and the Role of the Oncology Nurse Practitioner, 2 Units

The clinician role of the oncology nurse practitioner requires familiarity with the incidence, prevalence, and risk assessment competencies for all common cancers. In addition, the oncology nurse practitioner must be prepared for a wide variety of leadership roles. Strategies for care coordination, designing and measuring interdisciplinary team outcomes, mentoring, collaborating with primary care providers, and rapid-cycle quality improvement are examined.

## GNRS 636, ONP: Clinical Trials in Oncology Nursing, 2 Units

The advanced-practice oncology nurse practitioner is prepared to provide direct patient care, design a plan for outcome evaluation, and take a leadership role in medical and nursing oncological research.
**Prerequisite:** GNRS 610, GNRS 611, GNRS 612, and GNRS 613

## GNRS 650, History of Professional Nursing: From Origins to Nursing in Transition, 3 Units

Students in this course explore conceptual and methodological issues in historical nursing research, including the use of biographic methods in nursing history and working with primary sources/archival materials/artifacts and material culture. Focus is on the origins of professional nursing up to the period of nursing in transition in the United States. Students examine ethics guidelines and standards for historical research in nursing, and critically analyze the origins of nursing and early nursing contributions to the evolution of modern health systems and interventions. Class discussion and composition facilitate critical thinking about the history of nursing as a scholarly inquiry, focusing on issues and methods of nursing historical research.

## GNRS 651, History of Professional Nursing: From Colonial Times to Present Day, 3 Units

Students in this course explore the foundations of professional nursing in the United States in the context of influential historical, global, societal, and scientific events. Students examine issues faced by nurses from colonial times to today, critically analyzing nurses' contributions to the development of modern health systems and interventions. Class discussion and composition facilitate critical thinking about the history of nursing as a scholarly inquiry, since historical perspectives form the basis for analysis of contemporary healthcare issues and projected development of the nursing profession, its practice, and healthcare policy.

## GNRS 660, Theories of Teaching and Instruction, 3 Units

This course analyzes selected teaching and learning models that are applicable to nursing education. Strategies for classroom and clinical teaching are examined. Research relative to nursing education is reviewed and critiqued. Design of research methods to determine effectiveness of teaching strategies is incorporated. Course development and student evaluation are emphasized. Selected faculty and nursing education issues are also explored.

## GNRS 661, Leadership and Role Development in Nursing Education, 3 Units

This course includes an analysis of educational leadership and the multiple roles of the nurse educator related to teaching, scholarship, service, and practice. Theoretical perspectives and practical approaches supported by research in nursing and higher education literature, as well as the Christian educator's role promoting faith integration, are addressed.

## GNRS 662, Assessment, Curriculum, Development, and Outcomes, 3 Units

This course addresses theoretical approaches to educational assessment, the development and implementation of nursing curriculum, and student and program outcomes. Emphasis is given to the importance of incorporating Christian values in the curriculum. The course also includes critical analyses of related topics based upon current research in nursing and higher education literature.

## GNRS 663, Clinical Practicum in Nursing Education, 3 Units

This practicum course builds on the academic and clinical preparation of previous courses and prepares students to teach in academic and clinical settings. Under the supervision of a preceptor, this practical classroom experience focuses on: a) writing of learning/teaching objectives, b) selecting teaching strategies and learning activities, c) designing and implementing teaching plans for units of instruction, d) evaluating student learning outcomes, and e) obtaining feedback on teaching performance from faculty mentors/preceptors, fellow students, and self-evaluation and reflection. It is recommended that students take GNRS 660, GNRS 661, and GNRS 662 prior to taking this class. GNRS 664 may be taken concurrently.

## GNRS 664, Teaching and Learning Strategies for Nursing Education, 3 Units

This course equips academic nurse educators to develop and evaluate teaching and learning strategies that facilitate learning in different nursing educational settings. Course material includes examining the challenges nursing faculty face in implementing this role, and strategies to successfully navigate those challenges. Also included are two projects to prepare students for the application process of the nurse educator. It is recommended that students take GNRS 660 prior to taking this class.

## GNRS 695, Special Topics, 1-4 Units

A subject of current interest is examined in depth. Students analyze and evaluate controversial issues to reach and express a reflective position. This course may be repeated for credit to a maximum of 6 units applied toward the MSN or PhD degree; each course must address a different topic.

## GNRS 700, Philosophy of Science, 3 Units

This course equips students with the knowledge and critical analytic skills to comparatively evaluate the philosophical foundations of scientific theories and the influence of Western philosophical schools of thought on the development of nursing science. Course content is organized to engage students in discussion and critical analysis of the epistemological and philosophic foundations of scientific theories and the characteristics of scientific knowledge according to the received view, paradigmatic view, perceived postmodern view, and feminist tradition. Special emphasis is given to the critical debate within nursing about the nature of nursing science.

## GNRS 701, Nursing Knowledge Development, 3 Units

Students in this course focus on analyzing and critiquing the theoretical and methodological processes that are utilized in theory building and knowledge development in nursing. Discussion and critique of the different stages of theory development and students' experimentation with conceptualizing and developing their theoretical stance go hand in hand. Patterns of knowing, knowledge development, and criteria for evaluating nursing knowledge are examined in relation to the discipline's domain and the phenomena of concern in nursing.

## GNRS 702, Nursing Theory, 3 Units

This course focuses on strategies for theory development such as concept analysis, conceptual mapping, and theoretical modeling as applied to the student's phenomenon of concern. It also provides critique and analysis of the major models and theories used in a variety of nursing settings in relation to existing interdisciplinary theoretical knowledge.

## GNRS 703, Spirituality and Health, 3 Units

This course provides an introduction to spirituality, including spiritual experience, as it relates to individual health and illness. Communal spirituality is also considered. Differentiation is made between and among generic religious and Christian spiritualities. While the course covers theoretical aspects of spirituality and their interaction with health and illness, concentration is on the movement from theory to praxis. This lecture/seminar course is oriented toward nursing educators who seek to develop a foundation in spirituality for spiritual integration as well as for its development in nursing practice.
**Prerequisite:** Admission to DNP or PhD program

## GNRS 704, Faith Integration and Nursing Scholarship, 3 Units

This course begins with an exploration of the nature, role, problems, and possibilities of faith integration in higher education and in the nursing curriculum at all levels of higher education. The special circumstances of faith integration and its implications for teaching in secular college settings are explored. This course further provides a critical explication of theological method and content in three domains: biblical hermeneutics, constructive theology, and ministry praxis for education. The focus of the course is on the appropriation of theological method and knowledge for the purposes of integration into nursing education and practice especially (but not exclusively) within the context of a Christian or church-affiliated college.

## GNRS 705, Social Ethics and Health Policy, 3 Units

This course seeks to provide a social ethics frame of reference for health care. Medical and biological advances have contributed to a rapidly expanding amount of human control over human and natural processes, including genetic potential and behaviors. This new power raises questions of morality and highlights the need for discussion and legislation regarding the complex issues raised by developments in health care, medical technology, and science. A comprehensive social ethic places decisions about health care within the context of a fuller account of purpose and meaning in life.
**Prerequisite:** Admission to DNP or PhD program

## GNRS 706, Methods of Inquiry, 3 Units

Students in this course explore various methods of inquiry as they focus on the difference between scientific thinking, wisdom, and alternative concepts of knowledge. Existential dilemmas intrinsic to the pursuit of truth, the exploration of the meaning of actions, the process of reason and interpretation, the perception of reality, and empirical generalizations are discussed, and their influence on the definition of research problems and designs is explored. Research designs and methods are introduced as they relate to problem definition and theory, including an overview of the principles of basic and applied experimental research, evaluation research, and the traditions and foundation of qualitative and historical research. Students are required to explore, synthesize, and debate current issues that will affect their research careers.
**Prerequisite:** Admission to DNP or PhD program

## GNRS 707, Quantitative Nursing Research Design I, 3 Units

This course introduces students to fundamental quantitative research design and methodology. Course material covers key concepts in the research process; literature search; experimental, quasiexperimental, and observational designs; internal and external validity issues associated with specific designs; sampling and data collection methods; survey design; mixed methods; measurement quality indices; and the writing of a quantitative research proposal. In addition, topics addressing power analysis for calculating desired sample size and internal consistency reliability in SPSS are covered. Students have the opportunity to administer an instrument of choice and analyze collected survey data. By the end of the course, students develop an original quantitative research proposal that addresses an area of interest.
**Prerequisite:** Admission to DNP or PhD program

## GNRS 708, Qualitative Nursing Research Design I, 3 Units

This course focuses on analyzing the epistemological foundations and the assumptions of qualitative research methodologies. It provides an introduction to the major qualitative research methodologies including grounded theory, phenomenology, and ethnography. Each methodology is analyzed as to its appropriateness for the research question. Experience in carrying out a pilot study in the selected methodology is provided.

## GNRS 709, Advanced Statistical Analysis II, 3 Units

This course presents advanced methods of quantitative inquiry. The emphasis is on the use of factor analysis, confirmatory factor analysis, path analysis, and structural equation modeling. Assumptions of the techniques are addressed. The course provides the student experience in using statistical packages for entering and analyzing data. Reporting results of the analyses is also incorporated. Making appropriate decisions regarding which of the advanced statistical techniques to use is stressed. Critique of the advanced statistical analyses of published health care research is also emphasized.
**Prerequisite:** GNRS 707

## GNRS 710, Advanced Qualitative Research Methods, 3 Units

This course provides advanced knowledge and training in the use of qualitative research methods including phenomenological interpretation, grounded theory interpretation, ethnographic interpretation, focus groups interpretation, and feminist interpretation. Intensive interpretive and structured approaches to analysis and methods of establishing plausibility, credibility, and adequacy of qualitative data are emphasized.
**Prerequisite:** GNRS 708

## GNRS 711, Advanced Research Methods in the Humanities, 3 Units

This seminar and consultation course introduces PhD students to nonscientific research methodologies as used in the arts, letters, humanities and aspects of the social sciences for the (a) conduct of original dissertation research on one of the disciplines of arts, letters, humanities, or nonscientific aspects of one of the social sciences, (b) conduct humanities-based research to widen and deepen a scientific dissertation topic, or (c) to enlarge the student's methodological repertoire, knowledge, and skill. The course is intended for those whose primary research education and experience has been in scientific methods and disciplines. (Enrollment limited to eight.)
**Prerequisite:** (a) successful completion of GNRS 701 and GNRS 706, (b) permission of the instructor

## GNRS 712, Healthcare Quality Improvement, Program Planning, and Evaluation, 3 Units

This core course bridges the gap between the uptake of new health research discoveries and their translation, adaption, and implementation in practice. Course content includes the examination, integration, and application of quality improvement, program planning, and evaluation processes, strategies, and tools. The outcome of the course is a well-designed evaluation plan for an evidence-based quality improvement project.
**Prerequisite:** Admission to DNP or PhD program

## GNRS 713, Advanced Statistical Analysis I, 3 Units

This course presents common nonparametric and parametric statistical techniques used in healthcare research. Assumptions of the techniques are addressed. Specifically, the course emphasizes t-tests, ANOVA, ANCOVA, RANCOVA, correlation, odds ratio, regression, and power analysis, and provides the student experience in using SPSS for entering and analyzing data. Reporting results of the analyses is also incorporated. Making appropriate decisions regarding which statistical techniques to use is stressed. Critique of statistical analyses of published healthcare research is also emphasized.

## GNRS 715, Psychosocial Issues of Older Adults, 3 Units

This course focuses on the biological and psychosocial processes throughout adulthood and the older years. Theories of aging are examined, as well as social role changes, social stratification, and the development of institutions of the aged. The course explores both normal aging and psychopathology, and the systematic intrinsic psychological or personality changes associated with development and adaptation in later life. Other topics include clarification of the causes and prevention of health maladies in the later years, and the nature and treatment of the most common psychopathologies. The psychodynamics of institutionalization and family care of the very old are also examined.

## GNRS 716, Translation of Research to Practice, 3 Units

The goal of this core course is to help prepare Doctor of Nursing Practice (DNP) nursing students to be nurse scholars and to identify strategies within a multidisciplinary model and in intraprofessional relationships that promote the ready translation of research into practice. This course exposes DNP students to evidence-based practice, quality improvement methodologies, concepts and theories, and deepens their knowledge regarding the phenomenon of interest. This prepares them for foundational competencies needed for evidence-based problem identification, PICOT writing, literature search, integrated literature review, evidence appraisal, and synthesis. There are iterative assignments to develop skill and the milestone assignment is a final integrated review and synthesis paper with in-depth knowledge of their phenomenon (vs. topic) of interest.
**Prerequisite:** Admission to DNP or PhD program

## GNRS 717, Health Technology and Informatics, 3 Units

This course presents an overview of the evolution of health care informatics from an interdisciplinary perspective. Students learn health care informatics history, concepts, theories, legal and ethical implications, and applications within the health care industry. This course introduces the student to the information system life cycle, human factor issues in health care informatics, critical issues affecting the development and implementation of information and communication systems and technologies (clinical, administrative, and learning), knowledge management principles, professional practice trends, and emerging ICT (information and communication technology) in health care.

## GNRS 718, Organizational Leadership and Strategic Planning, 3 Units

In this core course, students acquire knowledge and skill to effectively manage systems level change, empower others, and influence political processes. Advanced nursing practice leadership occurs in clinical practice with clients and staff, within healthcare institutions, professional organizations, and in healthcare policy making arenas, using knowledge of nursing and other professions to address healthcare needs and direct interprofessional activities and initiatives. To develop the leadership role, students implement strategies for creating organizational change to provide high-quality services and outcomes at reasonable costs and lead the development of a business plan for quality improvement initiatives. Students advocate for change related to financial policies that impact the relationship between economics and quality care delivery. Focus is on organizational process, including the associated management of conflict, change, promotion of safety for clients and providers, and control of risk within a dynamic healthcare environment.
**Prerequisite:** Admission to DNP or PhD program

## GNRS 720, Wellness Promotion and Health Maintenance, 3 Units

This course focuses on the critical appraisal of theories and models of health promotion and on the evaluation of health initiatives developed for national health promotion and maintenance. Relevant risk prevention, control, and health promotion intervention strategies are emphasized. Communicable diseases; health hazards; high-risk health factors; acute and chronic illness across ethnicities, genders, and the life span; and morbidity and mortality of the nation's leading health problems are analyzed. Students' research questions are generated from a synthesis of knowledge regarding a specific phenomenon relevant to the student's individual area of study.
**Prerequisite:** Admission to DNP or PhD program

## GNRS 721, Health Disparities and Vulnerable Populations, 3 Units

This course offers an analysis and evaluation of various topics and issues on health disparities of underserved ethnic or minority vulnerable populations as well as an analysis of research that describes, explains, and examines variables influencing health disparities and intervention strategies to reduce these disparities.

## GNRS 722, Research in Nursing and Health, 3 Units

This course is team taught and reflects the research expertise and program of study of the nursing doctoral faculty. It focuses on analysis of determinants of health and illness across demographic, biological, psychological, familial/cultural, and societal dimensions. Attention is given to theoretical explanations toward promoting development of students' programs of research.

## GNRS 724, Quantitative Nursing Research Design II: Survey Methodology, 3 Units

This course introduces students to the fundamental and advanced methods and approaches in survey research. Course material covers the theory and practice of survey development and administration, including principles of measurement and measurement error, selection of survey data collection methods, measurement design of a multidimensional concept, and locating and evaluating existing survey instruments. In addition, topics addressing instrument construction, reliability, and validity, with attention to statistical techniques, are covered. Throughout the course, students develop a comprehensive critical review of select instruments that measure a construct of their choice.
**Prerequisite:** GNRS 707

## GNRS 725, Research Practicum, 1 Unit

The practicum further develops, mentors, and socializes students into the roles and activities of research scientists and scholars. Emphasis is on mentoring to facilitate student progression in research methodology, culturally appropriate research strategies, data management, and data analysis. Students can chose either a quantitative or qualitative practicum experience.

## GNRS 726, Advanced Scientific Writing, 3 Units

This course provides opportunities for students to learn how to research and introduce a topic in writing, articulate a thesis statement, support and develop a literature review, work with secondary sources, and organize a written paper that can be developed into a dissertation or translational research paper.

## GNRS 727, Genome Science in Clinical Cases and Disease Management, 3 Units

This course focusing on medical family history taking, constructing and analyzing the pedigree, genetic counseling, clinical decision making and clinical case management for a wide variety of inherited and acquired diseases through the lens of emerging genome science. Clinical cases are discussed from a holistic perspective including: genome science, epidemiology, genomic profiling, genetic technologies, personalized medicine, interprofessional collaboration, ethical and legal issues, and health policy.
**Prerequisite:** GNRS 620

## GNRS 728, Genome Science Research Methods, 3 Units

This course focuses on genome research methods for understanding and translating genome science to practice and to genome related nursing research. Understanding the research methods fosters a deeper understanding of the strength and the weaknesses of the science and an ability to critique the benefits and the limitations of the science for designing nursing research. The course includes a wide range of research methods that explore genetics or genomics in human populations. A key outcome of this course is to develop a research proposal using genome methods to design nursing research aimed at improving quality of health for individuals, families and populations.
**Prerequisite:** GNRS 620, GNRS 622, GNRS 727

## GNRS 729, Population Health and Epidemiology, 3 Units

The concept of population health includes aggregate, community, environmental/occupational, and cultural/socioeconomic definitions of health. The implementation of clinical prevention and population health activities is central to achieving the national goal of improving health status and reducing health disparities among different aggregate groups. This course covers the basic elements and methodological concepts used in the epidemiologic study of factors related to health promotion and disease prevention in human populations. It brings together considerations from several fields of investigation, such as epigenetics, epidemiology, psychology, and public health, to study the effects on health and health-related outcomes.
**Prerequisite:** Admission to DNP or PhD program

## GNRS 730, Comparative Health Care Systems, 3 Units

This course focuses on exploring/analyzing environmental, social, cultural, political and economic determinants of health across the globe. Comparative analysis of international health care systems including governmental, nongovernmental, traditional, and faith-based organizations are emphasized. Epidemiological analysis of morbidity and mortality, analysis of health and illness responses, and health-seeking behavior across the age span and gender/ethnic variables are discussed with the intent to identify areas of research relevant to students' interest. Presented from a Christian perspective, this course investigates research and practice opportunities and responsibilities for advanced practice nurses in global arenas.

## GNRS 732, DNP Clinical Residency, 0 Units

This course provides students enrolled in the Doctor of Nursing Practice (DNP) program with opportunities to develop professional nursing skills at the doctoral level. The focus of the course is to explore the development and scientific underpinnings of components of expert advanced clinical practice. Students select a population of interest for the DNP clinical residency and apply evidence-based practice and research findings in order to develop and improve practice. Over the course of the DNP program, students integrate previous nursing education and practice experiences with the DNP residency and concurrent doctoral coursework to meet the AACN Essentials of Doctoral Education for Advanced Nursing Practice and complete a DNP scholarly project. The course may be repeated to enable the student to obtain a minimum of 1,000 residency hours. Previous hours from graduate clinical courses may apply, so residency hour requirements will vary.
**Prerequisite:** Admission to DNP program

## GNRS 733A, Residency IA, 1 Unit

This is the first in a series of three residency courses designed to enhance students' critical thinking, diagnostic reasoning, interpretation, and management skills for advanced clinical practice. This course broadens and enhances understanding of the sciences necessary for enhanced role development, knowledge, and skills for advanced practice clinical nurse scholarship. Students practice in a designated appropriate setting under the direction of a faculty advisor in collaboration with selected clinical experts. The course focuses on exploring the development and scientific underpinnings of components of expert advanced clinical practice, and attention is given to the development of skills necessary to attain that goal. By the end of this course, students select their population of interest for their clinical residency and apply evidence-based findings to this population to identify potential areas of intervention.
**Prerequisite:** Admission to DNP program

## GNRS 733B, Residency IB, 1 Unit

The second of a three-course sequence, this course may be taken concurrently with GNRS 733A and/or GNRS 733C with approval of the DNP director or designee. Grading: pass/fail

## GNRS 733C, Residency IC, 1 Unit

The third of a three-course sequence, this course may be taken concurrently with GNRS 733A and GNRS 733B with approval of the DNP director or designee. Grading: pass/fail

## GNRS 734A, Residency IIA, 1 Unit

The first of a three-course sequence, this course may be taken concurrently with GNRS 734B and GNRS 734C with approval of the DNP director or designee. Grading: pass/fail

## GNRS 734B, Residency IIB, 1 Unit

The second of a three-course sequence, this course may be taken concurrently with GNRS 734A and/or GNRS 734C with approval of the DNP director or designee. Grading: pass/fail

## GNRS 734C, Residency IIC, 1 Unit

This is the last of a three-course series of clinical residencies with a focus on transformative and collaborative leadership, including completion of the evidence-based practice project, assessment of project outcomes, and planned dissemination of findings. Students apply relevant clinical and research findings to develop and improve practice. Content emphasizes critical appraisal of skills and interventions necessary to ensure meaningful translation of scientific evidence into practice, including a cost-benefit analysis for implementing a change into clinical practice. The course also emphasizes the professional role of the nurse as a collaborator, leader, and provider of care with nursing colleagues and other members of the interprofessional healthcare team within the context of complex healthcare systems, preparing students to implement an advanced nursing practice role that results in practice and/or policy change at the local, state, and/or national levels.

**Prerequisite:** Successful completion of GNRS 733A, GNRS 733B, GNRS 733C, GNRS 734A and GNRS 734B

## GNRS 735, DNP Scholarly Project Seminar, 3 Units

The DNP program requires a rigorous clinical project focused on translating scientific research to health care in a timely manner so that patients experience the best applications of science and practice. The project is a scholarly experience that implements the principles of evidence-based practice and translation under the guidance of a faculty mentor. In line with the AACN Essentials of 2007, the outcome of the DNP scholarly project is a tangible and deliverable academic product that is derived from the practice immersion experience and reviewed and evaluated by an academic committee. The project also serves as a foundation for future scholarly practice.

## GNRS 736, DNP Scholarly Project Seminar: Evaluation and Dissemination, 2 Units

This course focuses on presentation to and approval of a completed DNP Scholarly Project. The DNP program requires a rigorous clinical project focused on translating scientific research to health care to improve the patients experience utilizing the best evidence of science and practice. This scholarly project is a culminating, independent experience which demonstrates the student's synthesis of coursework and lays the foundation for future scholarship.

## GNRS 780, Doctoral Seminar I: Elements of a Proposal and IRB Application, 3 Units

This seminar directs the development of either a PhD dissertation or a DNP Scholarly Project proposal draft that details a problem, the research/project purpose, questions or hypotheses to be examined, a synopsis of the relevant literature, the design and methods of the study including its timeline, protection of human subjects, plans for analysis, and the budget. The seminar also includes preparation of IRB applications, and peer review and critique of student proposals.

**Prerequisite:** Admission to DNP or PhD program

## GNRS 781, Doctoral Seminar II: Developing a Grant Proposal, 3 Units

This doctoral seminar provides students with the opportunity to acquire knowledge, skills, and insights in the writing of a grant proposal. Discussion will focus on the value of writing grant proposals, the basic principles in writing a grant proposal, the components of a grant proposal, identification of funding sources, the difference between a research and a program grant proposal, as well as administrative factors in submitting a grant proposal. Students will craft and a grant proposal in response to a Request for Funding Proposal (RFP) that aligns with the guidelines of the funding agency, and additionally, a budget plan with justification, timelines, and a bio-sketch. In addition, students will conduct a peer review of class completed grant proposals.

## GNRS 782, Doctoral Seminar III: Writing for Publication, 3 Units

This seminar focuses on various aspects of writing for publication and directs the development of a manuscript suitable for publication from a previously written paper (e.g., a course term paper). This course will help the student get started on writing; identify writing styles for various forms of publication including abstracts, journal articles, papers, and books; and determine appropriate journals to consider for article submission. The student will acquire practice in reviewing and critiquing scholarly writing by others. It will also address the editorial and publication process, as well as ethical aspects of writing for publication.

## GNRS 783, Doctoral Seminar IV: Developing Professional Presentations, 3 Units

This seminar course identifies approaches to developing an effective and successful presentation, helping students find their voice and showcase their areas of expertise. Discussions focus on planning as essential to deciding on the content and the order in which the information is presented. Emphasis is on developing a logical sequence, one that flows naturally and is accompanied by audiovisuals that facilitate understanding of the material.

## GNRS 784, Dissertation Seminar V, 2-4 Units

This fifth dissertation seminar provides the student a forum to explore with their peers research findings, theoretical and empirical implications, and potential venues for publication of manuscripts. Format and procedures for progression in the dissertation process are also discussed. Placement of the Course: This seminar is not required if dissertation seminar requirement of 12 units has been met by GNRS 780, GNRS 781, GNRS 782, GNRS 783, and student has defended dissertation. Grading: Pass/Fail.

**Prerequisite:** GNRS 783

### GNRS 791, Doctor of Nursing Practice Intensive I, 1 Unit

This is the first of four intensive courses that give DNP students an interactive experience through out-of-classroom work, introducing them to the role of the DNP nurse in a variety of healthcare settings. Students also acquire advanced practice and academic skills necessary for selecting a population of interest and applying evidence-based practice as part of an evidence-based DNP scholarly project consistent with the DNP role within an organizational healthcare setting. Generally offered in the same semester as GNRS 716.
**Prerequisite:** Admission to the DNP program

### GNRS 792, Doctor of Nursing Practice Intensive II, 1 Unit

This is the third of four intensive courses that give DNP students an interactive experience through out-of-classroom work. This course helps students identify strategies within a multidisciplinary model that promotes evidence-based practice or quality improvement in various clinical, community, and educational settings. Students receive support and direction in collaboration with the sponsoring facility and mentor to develop a comprehensive, site-specific DNP scholarly project proposal. Generally offered in the same semester as GNRS 780.
**Prerequisite:** GNRS 791 and GNRS 793

### GNRS 793, Doctor of Nursing Practice Intensive III, 1 Unit

This is the second of four intensive courses that give DNP students an interactive experience through out-of-classroom work. This course introduces students to the role of the DNP nurse in a variety of healthcare settings. Students also acquire advanced practice and academic skills necessary for selecting a population of interest and applying evidence-based practice as part of an evidence-based DNP scholarly project consistent with the DNP role within an organizational healthcare setting. Generally offered in the same semester as GNRS 712.
**Prerequisite:** Admission to the DNP program and completion of GNRS 791

### GNRS 794, Doctor of Nursing Practice Intensive IV, 1 Unit

This is the last of four intensive courses that give DNP students an interactive experience through out-of-classroom work. As in the other intensive experiences, course content for each student reflects the interests of the student and is designed to meet that student's needs and career goals. This course allows students, with guidance from their mentors and faculty, to complete the DNP scholarly project and finalize the written and oral scholarly reports that disseminate and integrate new knowledge. Each student's final product reflects their ability to employ effective communication and collaboration skills, take a leadership role, integrate core DNP concepts and competencies that influence healthcare quality and safety, and successfully negotiate change in healthcare delivery for individuals, families, populations, or systems across a broad spectrum of health care. Generally offered in the same semester as GNRS 736.
**Prerequisite:** GNRS 791, GNRS 792, and GNRS 793

### GNRS 795, Special Topics, 1-4 Units

In this course, a subject of current interest is examined in depth. Students analyze and evaluate controversial issues to reach and express a reflective position. Students may repeat the course for credit to a maximum of six units applied toward the doctoral program; each course must address a different topic.

### GNRS 798, Continuous Doctoral Study, 0 Units

This course is for doctoral students working on dissertations or translational research projects. Students must re-enroll each semester until the dissertation or translational research project is completed, defended, submitted to the library, and approved.

### GNRS 799, Independent Study, 1-4 Units

Students enroll in this course to pursue independent study investigating subjects and interests that lie beyond regular course offerings. The student explores topics in greater depth than in other courses, and/or initiates an individual project. Readings are pursued in accordance with a study plan, which is developed in consultation with a sponsoring doctoral faculty member and approved by the doctoral department

# BSN to DNP Pathway

The BSN to DNP (https://www.apu.edu/nursing/programs/bsn-to-dnp/) pathway allows RNs with a Bachelor of Science in Nursing to enter directly into the DNP program without first earning an MSN degree. This allows for a seamless progression from the completion of a baccalaureate degree to advanced nursing practice. The BSN to DNP pathway includes two specialty tracks: Advanced Practice Registered Nursing (APRN)–Adult Geronotology Primary Care Nurse Practitioner (AGPCNP) or Family Nurse Practitioner (FNP), and Health Systems Leadership. The pathway meets the program learning outcomes for the DNP degree at APU and is aligned with *The Essentials: Core Competencies for Professional Nursing Education* (AACN, 2021)[1].

[1]     American Association of Colleges of Nursing (2021). *The Essentials: Core Competencies for Professional Education*. AACN.

## APRN-AGPCNP or FNP Options

| Code | Title | Units |
| --- | --- | --- |
| **APRN Core Courses** | | **10** |
| GNRS 610 | Advanced Pathophysiology | 3 |

| GNRS 611 | Advanced Pharmacology | 3 |
|---|---|---|
| GNRS 612 | Advanced Health Assessment and Diagnostic Reasoning [1] | 4 (3/1) |
| **FNP and AGPCNP Common Core** | | **26** |
| GNRS 600 | Nurse Practitioner Clinical Experience [2] | 2-6 |
| GNRS 601 | Primary Healthcare I: Adult and Aging | 3 |
| GNRS 602 | Primary Healthcare II: Population-based Health Interventions | 3 |
| GNRS 603 | Primary Healthcare III: Restorative and Palliative Interventions | 3 |
| **APRN-FNP Specialty Courses [3]** | | **2-3** |
| GNRS 590D | Primary Health Care of the Young Family | 2-3 |
| or GNRS 580 | Gerontology | |
| **APRN Intensives** | | **4** |
| GNRS 615 | APRN Intensive I | 1 |
| GNRS 616 | APRN Intensive II | 1 |
| GNRS 617 | APRN Intensive III | 1 |
| GNRS 618 | APRN Intensive IV | 1 |
| **Role-Specific Total Units** | | **42-43** |
| **Additional DNP Courses** | | **21** |
| GNRS 703 | Spirituality and Health | 3 |
| GNRS 705 | Social Ethics and Health Policy | 3 |
| GNRS 712 | Healthcare Quality Improvement, Program Planning, and Evaluation | 3 |
| GNRS 713 | Advanced Statistical Analysis I | 3 |
| GNRS 716 | Translation of Research to Practice | 3 |
| GNRS 717 | Health Technology and Informatics | 3 |
| GNRS 718 | Organizational Leadership and Strategic Planning | 3 |
| GNRS 732 | DNP Clinical Residency [4] | 0 |
| **Intensives** | | **4** |
| GNRS 791 | Doctor of Nursing Practice Intensive I | 1 |
| GNRS 792 | Doctor of Nursing Practice Intensive II | 1 |
| GNRS 793 | Doctor of Nursing Practice Intensive III | 1 |
| GNRS 794 | Doctor of Nursing Practice Intensive IV | 1 |
| **Doctoral Seminars** | | **5** |
| GNRS 780 | Doctoral Seminar I: Elements of a Proposal and IRB Application | 3 |
| GNRS 736 | DNP Scholarly Project Seminar: Evaluation and Dissemination | 2 |
| **TOTAL BSN to DNP PATHWAY UNITS** | | **72-73** |
| **DNP Clinical Residency Hours [4]** | | |
| **NFLP Options [5]** | | |
| GNRS 660 | Theories of Teaching and Instruction | 3 |
| GNRS 661 | Leadership and Role Development in Nursing Education | 3 |
| GNRS 662 | Assessment, Curriculum, Development, and Outcomes | 3 |
| GNRS 663 | Clinical Practicum in Nursing Education | 3 |
| GNRS 664 | Teaching and Learning Strategies for Nursing Education | 3 |

# Health Systems Leadership Option

| Code | Title | Units |
|---|---|---|
| **Leadership Courses** | | |
| GNRS 613 | Graduate Statistics | 3 |
| LDRS 512 | EQ I: Self-Leadership | 3 |
| MGMT 502 | Developing Management Skills | 3 |
| GNRS 560 | Strategic Leadership in Health Care | 3 |
| GNRS 568 | Healthcare Finance | 4 |
| GNRS XXX Elective Course | | 3 |
| MGMT 516 | High-Performance People Management | 3 |

| MGMT 561 | Managing Teams and Conflict | 3 |
|---|---|---|
| MHA 571 | Integrative Theories of Innovation in Health Care (Total Units) | 3 |
| **Leadership Total Units** | | **28** |
| **DNP Courses** | | |
| GNRS 703 | Spirituality and Health | 3 |
| GNRS 705 | Social Ethics and Health Policy | 3 |
| GNRS 712 | Healthcare Quality Improvement, Program Planning, and Evaluation | 3 |
| GNRS 713 | Advanced Statistical Analysis I | 3 |
| GNRS 716 | Translation of Research to Practice | 3 |
| GNRS 717 | Health Technology and Informatics | 3 |
| GNRS 718 | Organizational Leadership and Strategic Planning | 3 |
| GNRS 720 | Wellness Promotion and Health Maintenance | 3 |
| GNRS 721 | Health Disparities and Vulnerable Populations | 3 |
| GNRS 729 | Population Health and Epidemiology | 3 |
| GNRS 732 | DNP Clinical Residency | 0 |
| **Intensives** | | |
| GNRS 791 | Doctor of Nursing Practice Intensive I | 1 |
| GNRS 792 | Doctor of Nursing Practice Intensive II | 1 |
| GNRS 793 | Doctor of Nursing Practice Intensive III | 1 |
| GNRS 794 | Doctor of Nursing Practice Intensive IV | 1 |
| **Doctoral Seminars** | | |
| GNRS 780 | Doctoral Seminar I: Elements of a Proposal and IRB Application | 3 |
| GNRS 736 | DNP Scholarly Project Seminar: Evaluation and Dissemination | 2 |
| **DNP Total Units** | | **39** |
| **TOTAL BSN to DNP PATHWAY UNITS** | | **67** |
| **DNP Clinical Residency Hours [4]** | | |
| **NFLP Courses [5]** | | |
| GNRS 660 | Theories of Teaching and Instruction | 3 |
| GNRS 661 | Leadership and Role Development in Nursing Education | 3 |
| GNRS 662 | Assessment, Curriculum, Development, and Outcomes | 3 |
| GNRS 663 | Clinical Practicum in Nursing Education | 3 |
| GNRS 664 | Teaching and Learning Strategies for Nursing Education | 3 |
| **Elective Options [6]** | | |
| GNRS 650 | History of Professional Nursing: From Origins to Nursing in Transition | 3 |
| GNRS 651 | History of Professional Nursing: From Colonial Times to Present Day | 3 |
| GNRS 704 | Faith Integration and Nursing Scholarship | 3 |
| GNRS 715 | Psychosocial Issues of Older Adults | 3 |
| GNRS 722 | Research in Nursing and Health | 3 |
| GNRS 730 | Comparative Health Care Systems | 3 |
| GNRS 781 | Doctoral Seminar II: Developing a Grant Proposal | 3 |
| GNRS 782 | Doctoral Seminar III: Writing for Publication | 3 |
| GNRS 783 | Doctoral Seminar IV: Developing Professional Presentations | 3 |
| GNRS 795 | Special Topics | 1-4 |

[1]   Units in parentheses are classroom/clinical units.
[2]   Students may enroll in 2-6 clinical units per semester with faculty approval, with a total of 17 units for the program.
[3]   Students in the FNP track must take GNRS 590D. Students in the AGPCNP track must take GNRS 580.
[4]   Total required DNP clinical hours = 1,000 hours.
[5]   12 units required if enrolled in Nurse Faculty Loan Program (NFLP).
[6]   Electives may be taken in either pathway option where appropriate.

## Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Utilize nursing, bioethical, physical, spiritual, psychosocial, and organizational sciences in the planning, implementation, and evaluation of advanced clinical nursing practice.
2. Provide transformative and collaborative leadership in the organization and management of health care delivery systems for ethnically and culturally diverse populations to improve patient and population outcomes.
3. Critically examine, develop and translate research and other evidence as a basis for developing, implementing, and evaluating advanced clinical nursing practice and health care delivery.
4. Employ current technological and informational advances from health care and other disciplines to promote the highest level of health care delivery.
5. Actively participate in evaluating, formulating and implementing health care policies that address health disparities and health care from a social justice and ethical framework.
6. Integrate faith traditions and Christian values in the development of professional and advanced nursing practice.

# Doctor of Nursing Practice (DNP)

## Program Overview

Based on a strong scientific foundation, evidence-based practice, leadership, and organizational analysis, the Doctor of Nursing Practice (DNP) (https://www.apu.edu/nursing/programs/dnp/) program is designed to prepare nurses at the highest level of practice for the current, complex healthcare environment. An evidence-based clinical approach emphasizes the prevention, assessment, and treatment of complex health issues. The Doctor of Nursing Practice degree is considered the terminal practice degree for nursing and is accredited by the Commission on Collegiate Nursing Education (https://www.aacnnursing.org/CCNE/) and the WASC Senior College and University Commission (WSCUC) (https://www.wscuc.org/).

## Program Details

The Doctor of Nursing Practice program offers doctoral-level studies in a clinically-focused learning environment. The DNP prepares advanced practice nurses to bring the highest level of clinical expertise to patients, nursing students, health care systems, health policy formation, and clinical research. Graduates of the DNP program help contribute to the body of nursing knowledge and the practice of nursing to improve health care globally.

## Program Goals

DNP graduates are well-prepared to translate new knowledge from research into cost-effective and culturally competent clinical practice. They can contribute to the development of health policy in the promotion of health, reducing the burden of disability and maintaining the quality of life.

## Curriculum

The curriculum provides theoretical and empirical knowledge essential for advanced nursing practice, clinical research, health policy formation, and nursing education.

Core courses include: wellness promotion theory, statistical analysis, social ethics, epidemiology and population health, program evaluation, translational research, informatics, spirituality and health, and organizational leadership. The courses prepare students to implement the use of translational research approaches in health care. Coursework in these areas enables students to identify and formulate a translational research project as the culmination of their program.

The program courses address DNP Essentials[1] to:

- Provide students with the theoretical and scientific foundations of the discipline.
- Enable students to use frameworks for understanding sources of knowledge in nursing, modes of inquiry, and models of scholarship.
- Enable students to critique, articulate, test, apply, evaluate, and implement translational research.
- Enable students to articulate the intersections of the profession with the Christian worldview.
- Empower students with the knowledge base to formulate healthcare policies.
- Allow students to critically examine, evaluate, and effectively translate nursing and other scientific knowledge with the goal of bringing positive changes to healthcare practice and general population health. (DNP Essentials I)
- Empower students to, based on scientific findings, utilize organizational and systems leadership competencies to effectively and ethically engage current and future health, safety, and other quality improvement issues to diverse organizational cultures and populations. (DNP Essentials II)
- Enable students to engage in collaborative leadership for the implementation, evaluation, and generation of evidence-based practice to guide improvements in practice and health outcomes. (DNP Essentials III)

- Enable students to demonstrate proficiency in the analysis and utilization of information systems/technology and patient care technology to improve quality in health care delivery. (DNP Essentials IV)
- Empower students to critically analyze health policy proposals/policies and advocate for equitable and ethical policies within health care. (DNP Essentials V)
- Help students effectively lead in the development and implementation of interprofessional collaboration for the improvement of patient and population health outcomes. (DNP Essentials VI)
- Allow students to employ evidence-based prevention through the analysis of epidemiological, bio-statistical, environmental, and other appropriate data related to individual, aggregate, and population health. (DNP Essentials VII)
- Prepare students to practice a specialization within the larger domain of nursing by demonstrating refined assessment skills and base practice on the application of nursing and other sciences as appropriate to their area. (DNP Essentials VIII)

The DNP program aligns with the American Association of Colleges of Nursing (AACN) (http://www.aacnnursing.org/) *Essentials of Doctoral Education for Advanced Nursing Practice*.[1] The APU School of Nursing is in the process of fully integrating the newly revised AACN *Essentials: Core Competencies for Professional Nursing Education*[2] into the curricula.

1	American Association of Colleges of Nursing. (2006). *The Essentials of Doctoral Education for Advanced Nursing Practice*. AACN.
2	American Association of Colleges of Nursing (2021). *The Essentials: Core Competencies for Professional Education*. AACN.

# Requirements

| Code | Title | Units |
|---|---|---|
| **Required Coursework** | | |
| **DNP Core Courses** [1] | | |
| GNRS 716 | Translation of Research to Practice | 3 |
| GNRS 712 | Healthcare Quality Improvement, Program Planning, and Evaluation | 3 |
| GNRS 718 | Organizational Leadership and Strategic Planning | 3 |
| GNRS 780 | Doctoral Seminar I: Elements of a Proposal and IRB Application | 3 |
| **Additional Required Coursework** | | |
| GNRS 703 | Spirituality and Health | 3 |
| GNRS 705 | Social Ethics and Health Policy | 3 |
| GNRS 713 | Advanced Statistical Analysis I | 3 |
| GNRS 717 | Health Technology and Informatics | 3 |
| GNRS 720 | Wellness Promotion and Health Maintenance | 3 |
| GNRS 729 | Population Health and Epidemiology | 3 |
| GNRS 732 | DNP Clinical Residency [2, 3] | 0 |
| GNRS 791 | Doctor of Nursing Practice Intensive I | 1 |
| GNRS 792 | Doctor of Nursing Practice Intensive II | 1 |

| **Nurse Faculty Loan Program (NFLP) [11]** | | **12** |
| GNRS 660 | Theories of Teaching and Instruction [11] | |
| GNRS 661 | Leadership and Role Development in Nursing Education [11] | |
| GNRS 662 | Assessment, Curriculum, Development, and Outcomes [11] | |
| GNRS 663 | Clinical Practicum in Nursing Education [11] | |
| GNRS 664 | Teaching and Learning Strategies for Nursing Education [11] | |

[1] There are four core courses in the DNP course progression. The courses should be taken in the following sequence: GNRS 716 in Semester 1, GNRS 712 and GNRS 718 in Semester 2, and GNRS 780 in Semester 3.

[2] GNRS 732 may be repeated until the student accrues the minimum number of practice hours (1000 total hours) depending on the student study plan.

[3] Clinical fee required.

[4] Includes 3 units of electives. Does not include GNRS 613, which is a program prerequisite for GNRS 713.

[5] Additional doctoral elective options may be approved by petition. Students choosing to take GNRS 633 and GNRS 634 will need a minimum of 4 units.

[6] Must be taken together in the same semester. These alternatives are primarily intended for students in the Oncology Nurse Practitioner Certificate program and may count as the 3-unit elective in the curriculum.

[7] Students in the DNP program may enroll in 3 units of GNRS 795 to fulfill their Elective requirement.

[8] Students interested in the Oncology Nurse Practitioner Certificate may apply some didactic and clinical units from the DNP program requirements. Ask your admissions representative about this option.

[9] Must be taken together in the same semester. These alternatives are primarily intended for students in the Oncology Nurse Practitioner Certificate program, and count as a substitute for GNRS 729.

[10] Must be taken together in the same semester. These alternatives are primarily intended for students in the Oncology Nurse Practitioner Certificate program, and count as a substitute for GNRS 720.

[11] Content required for students receiving assistance from the Nurse Faculty Loan Program. It is advised that GNRS 662 be taken prior to GNRS 663.

## DNP Scholarly Project

The DNP is a practice-focused doctorate that includes integrative practice experiences and an intense practice immersion experience. This is reflected in the clinical residency courses. Each student generates an evidence-based scholarly project as an integral part of their practice experience. There are a number of practice doctorates at the university, so DNP students have opportunities for interprofessional coursework and collaborative projects.

## Residency

The DNP program offers clinical and leadership residency. The clinical and leadership residency course is GNRS 732, in which students concentrate on the development of their clinical and leadership roles in advanced nursing practice. The focus of the clinical portion of the residency hours is within an advanced nursing practice specialty area. The focus of the leadership portion of the residency hours is developing students for leadership roles in healthcare organizations. During the leadership residency, students are expected to progress in the conceptualization, implementation, and evaluation of their DNP scholarly project.

## Residency Practice Hours

The American Association of Colleges of Nursing (AACN) requires a minimum of 1,000 hours of clinical residency in a DNP program, and Azusa Pacific University's School of Nursing requires 1,000 hours of clinical and leadership experience. Students who have completed an Advanced Practice RN (APRN) program, such as Nurse Practitioner (NP), Clinical Nurse Specialist (CNS), Certified Registered Nurse Anesthetist (CRNA), or Certified Nurse Mid-Wife (CNMW) from an accredited institution may transfer up to 500 clinical hours from the APRN program to the DNP program, and must then complete the other 500 clinical hours. Students who have not completed an APRN program are required to complete a total of 1,000 hours of advanced clinical and leadership experience. Non-APRN students who graduate from an accredited institution may also transfer up to 500 direct clinical hours from their master's program (though generally there are fewer clinical hours in other master's programs) to the DNP program and must then complete the other 500 clinical hours. The DNP program requires that students have ongoing clinical work experience.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

## Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Utilize nursing, bioethical, physical, spiritual, psychosocial and organizational sciences in the planning, implementation and evaluation of advanced clinical nursing practice.
2. Provide transformative and collaborative leadership in the organization and management of health care delivery systems for ethnically and culturally diverse populations to improve patient and population outcomes.
3. Critically examine, develop and translate research and other evidence as a basis for developing, implementing, and evaluating advanced clinical nursing practice and health care delivery.
4. Employ current technological and informational advances from health care and other disciplines to promote the highest level of health care delivery.
5. Actively participate in evaluating, formulating and implementing health care policies that address health disparities and health care from a social justice and ethical framework.
6. Integrate faith traditions and Christian values in the development of professional and advanced nursing practice.

# PhD in Nursing

The PhD in Nursing (https://www.apu.edu/nursing/programs/phd-in-nursing/) program is designed for nurses who hold a master's degree in nursing or a related field and wish to pursue a doctoral degree in nursing. Graduates of this program, in roles as academicians, contribute to the body of nursing knowledge to improve the health of society and prepare the next generation of nurses.

## Program Details

Through scholarly exchange and engagement with faculty, students are socialized to discover, examine critically, preserve, and transmit knowledge. The program prepares scholars with knowledge and expertise to assume independent roles in the development, evaluation, and dissemination of nursing knowledge through systematic inquiry.

## Screening of Applicants

Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) and the School of Nursing handle screening of applicants for admission into the nursing PhD program. Screening of applicants' portfolios is conducted by Graduate and Professional Admissions and is evaluated according to the admission criteria. The school reviews completed applications for admission to the doctoral program to discern an applicant's academic qualifications and preparation for advanced graduate study. Upon completion of the screening and review process, the School of Nursing Graduate Recruitment and Admissions Committee forwards a list of qualified/alternate applicants to Graduate and Professional Admissions, which officially notifies applicants of admission decisions.

## DNP to PhD Pathway

The DNP to PhD Pathway enables professionals who have a DNP, or transferable doctoral-level units, to further utilize the DNP program's evidence for improving patient and population outcomes, and expand their research skills to further nursing science and clinical practice, as they earn a PhD. The PhD in Nursing program is a 55-unit-plus-dissertation program. The School of Nursing may accept for transfer up to 15 units of coursework completed in an accredited DNP program, thereby requiring the student to complete 40 units of doctoral coursework in residence, and complete the dissertation, to earn the PhD in Nursing degree.

The proposed plan of study can be completed either on a full-time (6 semesters) or part-time basis. Upon application to the PhD program, a transfer evaluation/gap analysis of the DNP coursework will be conducted by the Nursing Graduate Recruitment and Admission Committee.

## Curriculum

The curriculum is designed to provide students with discipline-specific and interdisciplinary, theoretical, and empirical knowledge that is essential for the conduct of original research, and for the advancement of the profession's knowledge for both practice and education.

The core courses in nursing science, theory construction, research methodology, statistical analysis, ethics, and spirituality are designed to prepare students in the process of scientific inquiry, enabling them to articulate, conceptualize, critique, and test theory, and use methods of scientific inquiry

in researching questions in their substantive area of interest. Coursework in the substantive area of interest enables students to identify and formulate a research focus and to create and conduct original research toward the development of a program of scientific inquiry. The core courses are offered sequentially and are designed to:

- Provide students with the scientific and theoretical foundations of the discipline.
- Enable students to use frameworks for understanding sources of knowledge in nursing, modes of inquiry, and models of scholarship.
- Enable students to critique, articulate, test, use, and develop theories.
- Enable students to articulate how the nursing profession is informed by the Christian faith.
- Empower students with the knowledge base and ethical framework to promote social change.

The overarching rubric of the curriculum is wellness promotion and health maintenance within specific areas of concentration:

- Health of the Family and the Community
- International Health
- Nursing Historical Research

A subspecialization in nursing education is also available.[1]

These areas of concentration and the subspecialization reflect the changing trends in health care and accommodate the diverse research interests of students.

Coursework consists of 46 units with an additional 9 units allocated for dissertation research. The 46 units of required and elective courses include an area of concentration. A total of 46 units are allocated to core courses in nursing science, theory development, research methodologies, and statistical analysis.

Based on the student's area of interest and chosen method of inquiry, a 3-unit core course is required in one of the following research methods:

- Advanced Quantitative Methods
- Advanced Qualitative Research Methods
- Advanced Evaluation Research

A maximum of 9 doctoral-level semester units may be transferred from another regionally accredited university with approval of the program chair.

[1]    The Nursing Education Certificate program (p. 715) comprises 21 units consisting of seven required courses.

## Requirements

| Code | Title | Units |
| --- | --- | --- |
| **Knowledge/Theory** | | |
| GNRS 700 | Philosophy of Science | 3 |
| GNRS 701 | Nursing Knowledge Development | 3 |
| GNRS 702 | Nursing Theory | 3 |
| GNRS 703 | Spirituality and Health | 3 |
| GNRS 705 | Social Ethics and Health Policy | 3 |
| **Statistical Analysis** | | |
| GNRS 713 | Advanced Statistical Analysis I | 3 |
| **Research** | | |
| GNRS 706 | Methods of Inquiry | 3 |
| GNRS 707 | Quantitative Nursing Research Design I | 3 |
| GNRS 708 | Qualitative Nursing Research Design I | 3 |
| GNRS 724 | Quantitative Nursing Research Design II: Survey Methodology | 3 |
| GNRS 725 | Research Practicum | 1 |
| **Method of Inquiry** | | |
| Select one of the following: | | 3 |
| GNRS 709 | Advanced Statistical Analysis II | |
| GNRS 710 | Advanced Qualitative Research Methods | |
| GNRS 711 | Advanced Research Methods in the Humanities | |
| GNRS 712 | Healthcare Quality Improvement, Program Planning, and Evaluation | |
| **Concentration** | | **6** |

| | | |
|---|---|---|
| Select one of the following: | | |
| Health of the Family and Community | | |
| Select two of the following: | | |
| GNRS 720 | Wellness Promotion and Health Maintenance | |
| GNRS 721 | Health Disparities and Vulnerable Populations | |
| GNRS 722 | Research in Nursing and Health | |
| International Health | | |
| GNRS 722 | Research in Nursing and Health | |
| GNRS 730 | Comparative Health Care Systems | |
| Nursing Historical Research | | |
| Select two of the following: | | |
| GNRS 650 | History of Professional Nursing: From Origins to Nursing in Transition | |
| GNRS 651 | History of Professional Nursing: From Colonial Times to Present Day | |
| GNRS 799 | Independent Study (permission required) | |
| **Electives (selected from two areas)** | | **6** |
| **Dissertation Research** | | |
| Select three of the following four: | | 9 |
| GNRS 780 | Doctoral Seminar I: Elements of a Proposal and IRB Application | |
| GNRS 781 | Doctoral Seminar II: Developing a Grant Proposal | |
| GNRS 782 | Doctoral Seminar III: Writing for Publication | |
| GNRS 783 | Doctoral Seminar IV: Developing Professional Presentations | |
| Optional Course | | |
| GNRS 798 | Continuous Doctoral Study | |
| **Total Units** | | **55** |

## Study Progression and Graduation Requirements

Progression in the program requires active enrollment status and maintaining a minimum cumulative 3.0 GPA. Graduation requirements include a minimum cumulative 3.0 GPA and successful completion of the qualifying exam, proposal defense, and dissertation defense. See the Graduate Academic Policies and Procedures (p. 1063) section of this catalog for more information.

## Leaves of Absence

Students in good standing and making satisfactory progress toward their degrees who must interrupt their studies for a compelling reason (e.g., illness, study abroad, family conditions, or crises) may petition for a leave of absence for a stated period of time not to exceed two years. Requests for a leave must be in writing and state both the reasons for the leave and the semester in which the student will reenroll. Leaves of absence must be approved by the director of doctoral studies program in nursing and the dean of the School of Nursing in advance of the semester for which the leave is requested.

The petition for return to enrolled status should be filed one full term before the intended date of reenrollment. If the student went on leave with conditions for reenrollment, these must be fulfilled before re-enrollment may occur. If a student is on leave for two years, the Doctoral Admissions Committee, as well as the student's advisor, the doctoral studies director, and the dean will review her/his reenrollment petition. Depending upon the amount of time elapsed, the student's stage of study in the program, and the student's academic activity during the leave, readmission may be contingent.

## Qualifying Examination

The qualifying examination is taken upon the completion of 12-24 units of doctoral work, including:

| Code | Title | Units |
|---|---|---|
| GNRS 700 | Philosophy of Science | 3 |
| GNRS 701 | Nursing Knowledge Development | 3 |
| GNRS 702 | Nursing Theory | 3 |
| GNRS 706 | Methods of Inquiry | 3 |

(The student must petition for exceptions.) The examination is composed of a paper (25-30 pages) and a review by a committee of faculty. The purpose of the paper is to encourage the synthesis of first-year coursework as it relates to the student's current research interest area. The paper incorporates relevant aspects of the philosophical foundations of applicable scientific theories and nursing knowledge, and addresses the philosophical foundations and linkages among relevant conceptual models, theories, and research designs.

## Dissertation Proposal Defense

Successful completion of the dissertation proposal signifies competence to pursue independent research with the advice and guidance of the dissertation committee. The dissertation proposal defense allows the student to demonstrate familiarity with the state of the science in a particular area, awareness of currently active topics of investigation in the area, theoretical dimensions and design issues related to potential questions, and recognition of potential practical and ethical challenges arising at the intersection of research questions, population, and instruments.

## Dissertation Defense

The dissertation reports the results of original, independent research of substantial but circumscribed scope, undertaken in consultation with the student's dissertation committee. The student presents a prospectus or proposal specifying the question, method, design, data collection instruments or strategy, projected data analysis, plan for access to subjects/participants/data, and projected timeline for data collection, analysis, and dissertation completion.

The dissertation committee serves in an advisory capacity to the student and ensures that the dissertation research and the written dissertation demonstrate the student's competence to conduct independent research in the discipline. Committee members work with the student throughout the process of data collection, analysis, and writing, with primary support provided by the chair/sponsor. When the student has substantially finished the work to the satisfaction of each committee member, the committee meets to hear the student's defense of the overall work and the decisions it entailed, and to discuss the student's plans for publication and post degree program of research.

Students may not participate in commencement or have the degree posted to their transcript until the document has been accepted by the University Libraries (https://www.apu.edu/library/). Any exceptions are by petition only.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Develop, test, and use theoretical knowledge to advance nursing science and improve health outcomes.
2. Pursue systematic intellectual inquiry relevant to the discipline of nursing and health care.
3. Use frameworks for understanding sources of knowledge in nursing, modes of inquiry, and models of scholarship.
4. Develop ethical, social, and health policies for the advancement of nursing education, research, and the health of those whom nursing serves.
5. Articulate the intersection of the Christian tradition with the nursing profession.

# Post-Master's Certificate Programs

The School of Nursing offers certificate programs to prepare nurses for advanced practice, education, and administrative roles. The curriculum for these programs reflects the School of Nursing mission and philosophy, and professional education standards for nursing. The programs are accredited by the Commission on Collegiate Nursing Education (https://www.aacnnursing.org/CCNE/) and the California Board of Registered Nursing (https://www.rn.ca.gov/). The following are offered:

- Adult-Gerontology Clinical Nurse Specialist (CNS) Certificate (p. 750)
- Adult-Gerontology Primary Care Nurse Practitioner (AGPCNP) Certificate (p. 751)
- Family Nurse Practitioner (FNP) Certificate (p. 752)
- Post-Master's Certificate in Healthcare Administration and Leadership (p. 721)
- Nursing Education Certificate (p. 715)
- Oncology Nurse Practitioner Certificate (p. 753)
- Pediatric Clinical Nurse Specialist (CNS) Certificate (p. 754)
- Pediatric Nurse Practitioner–Primary Care (PNP-PC) Certificate (p. 755)
- Psychiatric Mental Health Nurse Practitioner (PMHNP) Certificate (p. 756)

## Prerequisites

1. Master's degree in nursing
2. Completion of a graduate research course
3. Completion of an undergraduate health assessment course

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

# Adult-Gerontology Clinical Nurse Specialist (CNS) Certificate

The Adult-Gerontology Clinical Nurse Specialist (CNS) Certificate (https://www.apu.edu/nursing/programs/adult-cns-certificate/) program is a nondegree course credit option for nurses with a master's degree in nursing.[1] This program provides theory and clinical experiences to prepare nurses to apply to the state of California Board of Registered Nursing for certification and to apply for national certification as an adult clinical nurse specialist (CNS) by examination. **Note: Students must be admitted to the university before registering for this program (see Admission section below).**

[1]   Students may be given transfer credits for previous content completed in a master's degree program.

## Requirements

| Code | Title | Units |
| --- | --- | --- |
| **Advanced Practice Core Courses** [1] | | **12** |
| GNRS 513 | Advanced Nursing Practice Role [2] | 2 |
| GNRS 610 | Advanced Pathophysiology | 3 |
| GNRS 611 | Advanced Pharmacology | 3 |
| GNRS 612 | Advanced Health Assessment and Diagnostic Reasoning [3] | 4 (3/1) |
| **Advanced Practice Specialty Courses** | | **22** |
| GNRS 520 | Theory and Practice of the Clinical Nurse Specialist in Nursing Care of Adult-Gerontology Patients | 6 (2/4) |
| GNRS 521 | Clinical Specialization in the Care of Adult-Gerontology Patients | 6 (2/4) |
| GNRS 543 | Transitions Across the Care Continuum | 6 (2/4) |
| GNRS 548 | Health Promotion Across the Lifespan | 2 |
| GNRS 580 | Gerontology | 2 |
| **Total Units** | | **34** |

[1]   Students may be given transfer credits for previous content completed in a master's degree program.
[2]   This requirement is waived for 1992-96 APU master's graduates, as the content was integrated in the clinical courses.
[3]   Units in parentheses are classroom/clinical units.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Articulate a Christian worldview, demonstrating respect for the dignity and uniqueness of others, valuing diversity, and applying spiritual concepts.
2. Engage in scholarly inquiry and critical thinking, including evaluation and application of evidence-based research.
3. Appraise and apply knowledge to develop, implement, and evaluate interventions that promote health and prevent disease.
4. Demonstrate thoughtful analysis of the legal, political, ethical, and/or financial factors impacting healthcare.
5. Use information systems and technology to communicate, manage knowledge, promote quality, mitigate error and support decision-making.
6. Demonstrate the ability to coordinate and collaborate with other health care team professionals.
7. Engage in clinical reasoning, effective communication, and act as change agents to develop professional identity and practice skill.

# Adult-Gerontology Primary Care Nurse Practitioner (AGPCNP) Certificate

The Adult-Gerontology Primary Care Nurse Practitioner (AGPCNP) Certificate (https://www.apu.edu/nursing/programs/gerontology-nurse-practitioner/) program is designed as a nondegree course credit option for nurses with a master's degree in nursing.[1] This program prepares students to provide primary care to the young adult, adult, and older adult age spectrum across the continuum of care from wellness to illness, in settings including community health centers and clinics, private medical practices, long-term care facilities, and patient homes. Graduates are eligible to apply to the state of California Board of Registered Nursing for certification as a nurse practitioner, and may apply for the national AGPCNP certification examination. **Note: Students must be admitted to the university before registering for this program (see Admission section below).**

[1]    Students may be given credits for previous content completed in a master's degree program. Students who hold current California certification as a nurse practitioner or nurse midwife, and students who hold a master's degree in nursing and/or national certification as a clinical nurse specialist (CNS), may challenge or request a waiver of the coursework required for the Adult-Gerontology Primary Care Nurse Practitioner (AGPCNP) program, as appropriate to the student's current specialty. Petitions for challenge or waiver of courses must be initiated upon admission and approved by the MSN chair. Students must show proof of current nurse practitioner, nurse midwife, or clinical nurse specialist certification.

## Requirements

| Code | Title | Units |
|---|---|---|
| **Advanced Practice Core Courses** | | **10** |
| GNRS 610 | Advanced Pathophysiology | 3 |
| GNRS 611 | Advanced Pharmacology | 3 |
| GNRS 612 | Advanced Health Assessment and Diagnostic Reasoning [1] | 4 (3/1) |
| **AGPCNP Specialty Courses** | | **21 (9/12)** |
| GNRS 600 | Nurse Practitioner Clinical Experience [2] | 12 |
| GNRS 601 | Primary Healthcare I: Adult and Aging | 3 |
| GNRS 602 | Primary Healthcare II: Population-based Health Interventions | 3 |
| GNRS 603 | Primary Healthcare III: Restorative and Palliative Interventions | 3 |
| **Other Specialization Course** | | **2** |
| GNRS 580 | Gerontology | 2 |
| **APRN Intensives** | | **4** |
| GNRS 615 | APRN Intensive I | 1 |
| GNRS 616 | APRN Intensive II | 1 |
| GNRS 617 | APRN Intensive III | 1 |
| GNRS 618 | APRN Intensive IV | 1 |
| **Total Units** | | **37** |

[1]    Units in parentheses are classroom/clinical units.
[2]    Students may enroll in 2-6 clinical units per semester with faculty approval.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

## Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Articulate a Christian worldview, demonstrating respect for the dignity and uniqueness of others, valuing diversity, and applying spiritual concepts.
2. Engage in scholarly inquiry and critical thinking, including evaluation and application of evidence-based research.
3. Appraise and apply knowledge to develop, implement, and evaluate interventions that promote health and prevent disease.
4. Demonstrate thoughtful analysis of the legal, political, ethical, and/or financial factors impacting healthcare.
5. Use information systems and technology to communicate, manage knowledge, promote quality, mitigate error and support decision-making.
6. Demonstrate the ability to coordinate and collaborate with other health care team professionals.
7. Engage in clinical reasoning, effective communication, and act as change agents to develop professional identity and practice skill.

# Family Nurse Practitioner (FNP) Certificate

The Family Nurse Practitioner (FNP) Certificate program (https://www.apu.edu/nursing/programs/fnp-certificate/) is a nondegree course credit option for nurses with a master's degree in nursing.[1] This program prepares students with primary healthcare skills through didactic education and clinical supervision. Nurses are eligible to apply to the California Board of Registered Nursing for certification as a nurse practitioner, and may apply for national FNP certification through examination. **Note: Students must be admitted to the university before registering for this program (see Admission section below).**

[1]    Students may be given transfer credits for previous content completed in a master's degree program. Students who hold current California certification as a nurse practitioner or nurse midwife, and students who hold a master's degree in nursing and/or national certification as a clinical nurse specialist (CNS), may challenge or request waiver of the coursework required for the Family Nurse Practitioner program, as appropriate to the student's current specialty. Petitions for challenge or waiver of courses must be initiated upon admission and approved by the MSN chair. Students must show proof of current nurse practitioner, nurse midwife, or clinical nurse specialist certification.

## Requirements

| Code | Title | Units |
| --- | --- | --- |
| **Advanced Practice Core Courses** | | **10** |
| GNRS 610 | Advanced Pathophysiology | 3 |
| GNRS 611 | Advanced Pharmacology | 3 |
| GNRS 612 | Advanced Health Assessment and Diagnostic Reasoning [1] | 4 (3/1) |

| **Total Units** | | **38** |

[1]    Units in parentheses are classroom/clinical units.
[2]    Students may enroll in 2-6 clinical units per semester with faculty approval.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Articulate a Christian worldview, demonstrating respect for the dignity and uniqueness of others, valuing diversity, and applying spiritual concepts.
2. Engage in scholarly inquiry and critical thinking, including evaluation and application of evidence-based research.
3. Appraise and apply knowledge to develop, implement, and evaluate interventions that promote health and prevent disease.
4. Demonstrate thoughtful analysis of the legal, political, ethical, and/or financial factors impacting healthcare.
5. Use information systems and technology to communicate, manage knowledge, promote quality, mitigate error and support decision-making.
6. Demonstrate the ability to coordinate and collaborate with other health care team professionals.
7. Engage in clinical reasoning, effective communication, and act as change agents to develop professional identity and practice skill.

# Oncology Nurse Practitioner Post-Master's Certificate

The oncology nurse practitioner predoctoral fellowship program (https://www.apu.edu/nursing/programs/oncology-nurse-practitioner/) is designed for licensed nurse practitioners interested in providing high-quality care across the illness span to cancer patients and their families. To maximize survivorship and minimize distress, candidates are prepared to address the unique physiologic and psychosocial needs of cancer patients across the illness span in a program that emphasizes screening, surveillance, diagnosing, staging, and team-building. The curriculum is based on Oncology Nursing Society competencies, and students participate in 540 hours of supervised direct patient care experiences in multiple specialty services at a comprehensive cancer care center. Candidates enrolled in Azusa Pacific's Doctor of Nursing Practice program may apply these hours toward the residency requirement and may petition to apply didactic units toward the specialty courses. Candidates for the certificate meet the eligibility criteria for the Advanced Oncology Certified Nurse Practitioner examination offered by the Oncology Nursing Certification Corporation.

## Prerequisites

- Master's degree in nursing that includes advanced pathophysiology, advanced pharmacology, and advanced health assessment.
- Experience in oncology nursing.
- Current California nurse practitioner license.

## Requirements

| Code | Title | Units |
| --- | --- | --- |
| GNRS 630A | Oncology Nurse Practitioner Fellowship A | 4 |
| GNRS 630B | Oncology Nurse Practitioner Fellowship B | 4 |
| GNRS 630C | Oncology Nurse Practitioner Fellowship C | 4 |
| GNRS 631 | ONP: Cancer Biology and Assessment | 2 |
| GNRS 632 | ONP: Cancer Therapeutics | 2 |
| GNRS 633 | ONP: Symptom and Side Effect Burden | 2 |
| GNRS 634 | ONP: Survivorship and the Psychosocial Impact of Cancer | 2 |
| GNRS 635 | ONP: Team-Based Care and the Role of the Oncology Nurse Practitioner | 2 |
| GNRS 636 | ONP: Clinical Trials in Oncology Nursing | 2 |
| **Total Units** | | **24** |

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Articulate a Christian worldview, demonstrating respect for the dignity and uniqueness of others, valuing diversity, and applying spiritual concepts.
2. Engage in scholarly inquiry and critical thinking, including evaluation and application of evidence-based research.
3. Appraise and apply knowledge to develop, implement, and evaluate interventions that promote health and prevent disease.
4. Demonstrate thoughtful analysis of the legal, political, ethical, and/or financial factors impacting healthcare.
5. Use information systems and technology to communicate, manage knowledge, promote, quality, mitigate error and support decision making.
6. Demonstrate the ability to coordinate and collaborate with other health care team professionals.
7. Engage in clinical reasoning, effective communication, and act as a change agent to develop professional identity and practice skill.

# Pediatric Clinical Nurse Specialist (CNS) Certificate

The Pediatric Clinical Nurse Specialist (CNS) Certificate (https://www.apu.edu/nursing/programs/pediatric-cns-certificate/) program is a nondegree course credit option for nurses with a master's degree in nursing.[1] Pediatric clinical nurse specialists influence best-practice care of pediatric populations across the care continuum through direct care and as consultants and educators. This program provides theory and clinical experiences to prepare nurses to apply to the state of California for certification as a CNS. Graduates may also apply for national certification as a pediatric CNS through examination. **Note: Students must be admitted to the university before registering for this program (see Admission section below).**

## Requirements

| Code | Title | Units |
|---|---|---|
| **Advanced Practice Core Courses** [1] | | **12** |
| GNRS 513 | Advanced Nursing Practice Role [2] | 2 |
| GNRS 610 | Advanced Pathophysiology | 3 |
| GNRS 611 | Advanced Pharmacology | 3 |
| GNRS 612 | Advanced Health Assessment and Diagnostic Reasoning | 4 |
| **Advanced Practice Specialty Courses** | | **20** |
| GNRS 530 | Theory and Practice of the Clinical Nurse Specialist in the Care of the Pediatric Patient [3] | 6 (2/4) |
| GNRS 531 | Clinical Specialization in the Care of the Pediatric Patient | 6 (2/4) |
| GNRS 543 | Transitions Across the Care Continuum | 6 (2/4) |
| GNRS 548 | Health Promotion Across the Lifespan | 2 |
| **Specialized Option Courses** | | **2** |
| Select from the following: | | |
| GNRS 589 | Adolescent Health Care | 2 |
| -or- | | |
| GNRS 510 | Family Theory in Health Care | 2 |
| **Total Units** | | **34** |

[1]    Students may be given transfer credits for previous content completed in a master's degree program.
[2]    This requirement is waived for 1992-96 APU master's graduates, as the content was integrated in the clinical courses.
[3]    Units in parentheses are classroom/clinical units.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

# Pediatric Nurse Practitioner–Primary Care (PNP-PC) Certificate

The Pediatric Nurse Practitioner–Primary Care (PNP-PC) Certificate (https://www.apu.edu/nursing/programs/pediatric-nurse-practitioner/) program is a nondegree course credit option for nurses with a master's degree in nursing.[1] This program prepares students with primary healthcare skills through didactic education and clinical supervision. Nurses who complete this program are eligible to apply to the California Board of Registered Nursing for certification as a nurse practitioner, and may apply for national PNP-PC certification through examination. **Note: Students must be admitted to the university before registering for this program (see Admission section below).**

[1]    Students may be given transfer credits for previous content completed in a master's degree program. Students who hold current California certification as a nurse practitioner or nurse midwife, and students who hold a master's degree in nursing and/or national certification as a clinical nurse specialist (CNS), may challenge or request waiver of the coursework required for the Pediatric Nurse Practitioner program, as appropriate to the student's current specialty. Petitions for challenge or waiver of courses must be initiated upon admission and approved by the MSN chair. Students must show proof of current nurse practitioner, nurse midwife, or clinical nurse specialist certification.

## Requirements

| Code | Title | Units |
| --- | --- | --- |

# School of Business and Management

## Mission

The School of Business and Management (SBM) (https://www.apu.edu/business/) is a Christ-centered community of scholars and professionals pursuing academic excellence to advance the work of God in the world, developing students of character and competence as difference makers in business and society.

## Tenets

The School of Business and Management is committed to the following core principles:

### Academic Excellence

Learning and producing scholarship in a community of excellence by:

1. Viewing students as the first priority.
2. Maintaining a dynamic teaching environment where relevant business and management theories and practical tools are imparted.
3. Engaging in scholarship that advances the thinking in related fields, informs teaching, involves students, and serves communities in practical ways.
4. Investing in campus infrastructure, technology, and alliances to enhance capabilities to learn and produce scholarship.
5. Sustaining a learning environment that fosters critical analysis and creative thinking.

### Students of Character

Learning and producing scholarship in a community of faith by:

1. Modeling and infusing a Christian perspective of truth and life throughout SBM programs.
2. Enlivening the mind and transforming the heart by developing important links between faith, learning, and application.
3. Facilitating nurturing, caring, and mentoring relationships among faculty, staff, students, and alumni.
4. Practicing God-honoring diversity.

### Advance the Work of God in the World

Learning and producing scholarship to impact the world by:

1. Helping students identify their strengths and providing mentoring to ensure those strengths are developed and utilized to benefit business and society.
2. Using experiential, real-world, and service learning to create value for students and the community.

3. Developing programs, alumni, and students that have an impact around the world.
4. Preparing students academically, professionally, and spiritually to engage their field and community in God-honoring ways.
5. Actively advancing the work of God through research, teaching, and community service.
6. Teaching the ethical conduct of business throughout all SBM programs.

# LP and Timothy Leung School of Accounting

Housed within Azusa Pacific's School of Business and Management, the LP and Timothy Leung School of Accounting (https://www.apu.edu/business/accounting/) focuses on developing graduates with the Christian character and competence demanded by the public accounting profession.

## Vision Statement

To be a premier Christian accounting school, recognized as a thought leader on accounting character and competence to reflect the life of Christ and shine the light of Truth.

## Undergraduate and Graduate Business Programs

The School of Business and Management offers numerous and diverse undergraduate majors. The BA degrees requires students to complete the common professional component (the business core) and then select elective courses deemed most appropriate for their career objectives. The BS degrees require students to complete the business core and courses in an area of specialization. Curriculum content in undergraduate programs is aligned with graduate school requirements for those who wish to pursue a Master of Business Administration (MBA) (p. 825), Master of Business Management (MBM) (p. 828), or Master of Professional Accountancy (MAcc) (p. 881).

At the professional level, the school offers programs that feature learning that is immediately applicable in the workplace. The relevant coursework addresses current issues in business and encourages the integration of real-world work experiences and hands-on projects. Students can combine these experiences with internships or international study opportunities to further expand their portfolio and network.

The school's graduate programs are comprehensive and intensive, helping develop exceptional business management professionals with outstanding moral character, strong analytical and innovative decision-making skills, and a worldview that understands and appreciates the global diversity in cultures, markets, and economies. The programs provide advanced professional education and academic studies leading to successful careers in business firms, government agencies, and nonprofit organizations.

## Certificates, Credentials, and Microcredentials

The School of Business and Management offers students the opportunity to earn internationally recognized and marketplace-relevant certificates, credentials, and microcredentials as a complement to their diploma, allowing them to align their achievements with industry-current professional competencies and showcase their skills to current and potential employers.

As the demands of the workplace rapidly shift, employers are seeking career-ready professionals with the skills needed for the quickly changing workplace of today. A recognition of skill or achievement, certificates and credentials link learning to the skills that employers demand and employees need for the 21st-century workplace. By earning market-valued certificates, credentials, and microcredentials, SBM students are able to highlight their proficiencies and qualifications, giving them a competitive edge in their job search and career path.

Additionally, the Leung School of Accounting offers students the opportunity to prepare for specialized credentials, such as the Certified Public Accountant (CPA), the IRS Enrolled Agent (EA), and the Certified Information Systems Auditor (CISA), increasing their value to potential employers.

## Memberships

As a member of the Association to Advance Collegiate Schools of Business (AACSB) (https://www.aacsb.edu/), the School of Business and Management is committed to advancing how business education is taught. SBM leadership and faculty teams strive to shape the next generations of leaders and make a lasting, positive impact on society.

## Accreditation

- All Azusa Pacific University programs are accredited by the WASC Senior College and University Commission (WSCUC). (https://www.wscuc.org/)
- The School of Business and Management (SBM) is accredited by the International Accreditation Council for Business Education (IACBE) (https://iacbe.org/).

# Courses

## ACCT 120, Principles of Accounting I, 3 Units

This course introduces the financial accounting model and application of fundamental accounting principles. The corporate form of business serves as the primary model to demonstrate accounting principles for cash, accounts receivable, inventories, operational assets, liabilities, and stockholders' equity.

## ACCT 121, Principles of Accounting II, 3 Units

This course introduces basic managerial accounting concepts and emphasizes the use of accounting data in decision making. Topics covered include cost accumulation models, cost behavior, break-even analysis, variable costing, budgeting, differential analysis, product pricing, capital expenditure analysis, and financial statement analysis.
**Prerequisite:** ACCT 120

## ACCT 122, Accounting Perspectives, 1 Unit

This course introduces students pursuing an accounting degree to a broad overview of the various career paths available to successful accounting graduates.

## ACCT 320, Intermediate Accounting I, 3 Units

This course offers an intensive study of the accounting theory and principles underlying financial accounting. Emphasis is placed on the theoretical and conceptual framework of the financial reporting process including the role and authority of official accounting pronouncements and the responsibilities of professional accountants. This course begins with a review of the accounting model and covers accounting theory as it relates to revenue recognition, current assets including cash, accounts receivable, inventories, and current liabilities.
**Prerequisite:** ACCT 121

## ACCT 321, Intermediate Accounting II, 3 Units

This course continues the study begun in ACCT 320, covering operational assets, intangible assets, investments, long-term liabilities, leases, income taxes, corporate capital transactions, and statement of cash flows. Emphasis is placed on the theoretical and conceptual framework of the financial reporting process including the role and authority of official accounting pronouncements and the responsibilities of professional accountants.
**Prerequisite:** ACCT 320

## ACCT 325, Cost Accounting, 3 Units

This course explores managerial accounting concepts used in planning and controlling operations, determining cost of production, inventory control and evaluation, budgeting, and long-range planning. Emphasis is placed on cost determination, cost accumulation, cost-volume-profit relationships, standard costs, variances analysis and reporting, and the relationship between controlling costs and controlling operations.
**Prerequisite:** ACCT 321

## ACCT 331, Federal Taxes I, 3 Units

This course offers an intensive study of the theory and principles of federal income tax law as it applies to individuals. Emphasis is on the theoretical framework and philosophy of the federal tax system, as well as practical application and planning. Course material covers basic concepts in the determination of income, classes of deductions, allowable credits, and property transactions. The importance of appropriate tax planning is stressed, and students prepare for the CPA (Certified Public Accountancy) test along with the IRS (Internal Revenue Service) Enrolled Agent (EA) test.
**Prerequisite:** ACCT 121

## ACCT 332, Federal Taxes II, 3 Units

This course offers an intensive study of the theory and principles of federal income tax law as it applies to business entities/corporations, partnerships, estates, and trusts. Emphasis is on the theoretical framework as well as practical application and planning. Course material covers basic concepts of taxation in corporate formation and operation, as well as in partnership and S corporation formation and operation, along with the fundamentals of estate, gift, and trust taxation. The course also covers the tax audit process and professional tax preparer responsibilities, and students prepare for the CPA (Certified Public Accountancy) test along with the IRS (Internal Revenue Service) Enrolled Agent (EA) test.
**Prerequisite:** ACCT 331 for accounting majors, ACCT 121 for accounting minors;
**Corequisite:** ACCT 333

## ACCT 333, Volunteer Income Tax Assistance (VITA), 1 Unit

This course gives students the opportunity to apply their knowledge of tax law and the available tools to successfully assist individuals and families in the community in preparing and filing accurate tax returns under the supervision of the instructor. Students gain hands-on experience working with clients and preparing tax returns according to the Volunteer Income Tax Assistance (VITA) and Tax Counseling for the Elderly (TCE) return preparation process.
**Prerequisite:** ACCT 331

## ACCT 336, Advanced Accounting, 3 Units

This course provides an in-depth study of accounting theory and principles. Topics include business combinations, consolidations, insolvency, foreign currency transactions, segment reporting, partnerships, fund accounting, and accounting for state and local governmental units and other non-business organizations.
**Prerequisite:** ACCT 321

## ACCT 425, Writing 3: Accounting Ethics, 3 Units

Students in this course are introduced to issues of accounting ethics that professionals encounter in practice, moral reasoning to resolve ethical dilemmas, and accountants' professional codes of conduct. Topics include major philosophical schools of thought, biblical perspectives on accountability, ethical reasoning strategies, earnings management, fraud, and corporate governance. Credit is not given for both ACCT 425 and ACCT 525. ACCT 425 does not satisfy the requirements of the Master of Professional Accounting (MAcc) program. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*
**Prerequisite:** Writing 2 and ACCT 321.

## ACCT 426, Auditing Principles I, 3 Units

This course is an overview of auditing concepts, with special attention to auditing standards, professional ethics, the legal ability inherent in the attest function, the study and evaluation of internal control, the nature of evidence, statistical sampling, and the impact of electronic data processing. The basic approach to planning an audit is also addressed, as are the audit objectives and procedures applied to the elements in a financial statement.

## ACCT 427, Auditing Principles II, 3 Units

This course takes the concepts and procedures learned in ACCT 426 and applies them in a comprehensive audit case study. Students prepare audit work papers that demonstrate application of audit theory and objectives for various classes of financial statement accounts. Students are exposed to the planning, control, and review procedures used by many public accounting firms. The use of computerized audit software is covered.
**Prerequisite:** ACCT 426

## ACCT 500, Principles of Accounting I, 3 Units

This course introduces the financial accounting model and application of fundamental accounting principles. The corporate form of business serves as the primary model to demonstrate accounting principles for cash, accounts receivable, inventories, operational assets, liabilities and stockholders' equity.

## ACCT 501, Principles of Accounting II, 3 Units

This course introduces basic managerial accounting concepts and emphasizes the use of accounting data in decision making. Topics covered include cost accumulation models, cost behavior, break-even analysis, variable costing, budgeting, differential analysis, product pricing, capital expenditure analysis, and financial statement analysis.
**Prerequisite:** ACCT 500

## ACCT 502, Financial Accounting, 3 Units

This course introduces the financial accounting model and application of fundamental accounting principles. The corporate form of business serves as the primary model to demonstrate accounting principles for cash, accounts receivable, inventories, operational assets, liabilities and stockholders' equity. Students will interpret company performance by analyzing accounting statements and complete a computer simulation which demonstrates computer applications in accounting.

## ACCT 503, Intermediate Accounting I, 3 Units

This course offers an intensive study of the accounting theory and principles underlying financial accounting. Emphasis is placed on the theoretical and conceptual framework of the financial reporting process including the role and authority of official accounting pronouncements and the responsibilities of professional accountants. This course begins with a review of the accounting model and covers accounting theory as it relates to current assets including cash, accounts receivable, inventories, and current liabilities.

## ACCT 504, Intermediate Accounting II, 3 Units

This course covers operational assets, intangible assets, investments, long-term liabilities, leases, income taxes, corporate capital transactions, and statements of cash flow. Emphasis is on the theoretical and conceptual framework of the financial reporting process, including the role and authority of official accounting pronouncements and the responsibilities of professional accountants.

## ACCT 506, Cost Accounting, 3 Units

This course provides the study of the theory and principles underlying cost and managerial accounting. Emphasis is placed on the following topics: Terminology, Job Order Costing, Activity Based Costing, Cost Volume Profit Analysis, Budgeting, Standard Cost, Non-Routine Decisions, Responsibility Accounting, Process Costing, Quality, Capital Budgeting, and Inventory Management.

## ACCT 507, Auditing Principles, 3 Units

This course takes the concepts and procedures learned in previous accounting courses and applies them in a comprehensive audit case study. Students prepare audit work papers that demonstrate application of audit theory and objectives for various classes of financial statement accounts. Students are exposed to the planning, control, and review procedures used by many public accounting firms.

## ACCT 508, Federal Taxes I, 3 Units

This course offers an intensive study of the theory and principles of federal income tax law as it applies to individuals. Emphasis is placed on the theoretical framework and philosophy of the federal tax system as well as practical application and planning. This course also covers basic concepts in the determination of income, classes of deductions, allowable credits, property transactions, as well as the tax audit process and professional tax preparer responsibilities. The importance of appropriate tax planning is stressed.

## ACCT 509, Federal Taxes II, 3 Units

This course offers an intensive study of the theory and principles of federal income tax law as it applies to business entities - corporations, partnerships, estates, and trusts. Emphasis is on the theoretical framework as well as practical application and planning. This course covers basic concepts of taxation in corporation formation and operation, and partnership and S corporation formation and operation, and fundamentals of estate, gift, and trust taxation.

## ACCT 510, Accounting and Tax Research Methods, 3 Units

In preparation for professional practice, students explore accounting research methods and tax issues utilizing professional online research databases to properly identify and focus research questions, interpret data, develop opinions, and effectively communicate the results.
**Prerequisite:** Acceptance into the Master of Professional Accountancy program

## ACCT 511, Advanced Accounting, 3 Units

This course provides an in-depth study of accounting theory and principles first encountered in Intermediate Accounting. Topics covered include, but are not limited to, partnerships and corporations. Extensive coverage is given to business combinations and consolidations, as well as bankruptcy reporting.

## ACCT 512, Management Accounting, 3 Units

Students investigate how management makes critical strategic and operational decisions using an organization's key financial and managerial accounting information, including Financial Statement, Balance Sheet, Income Statement, and Statement of Cash Flow. Students also discuss how to motivate and align management to act in the firm's best interests.

## ACCT 515, Accounting Information Systems, 3 Units

This course emphasizes the application of accounting information systems. Students gain experience in auditing data within the computer environment and learn the controls necessary to ensure the accuracy and reliability of the accounting system.
**Prerequisite:** Acceptance into the Master of Professional Accountancy program

## ACCT 520, Global Financial Accounting Standards, 3 Units

This course compares global accounting standards of the International Financial Reporting Standards to Generally Accepted Accounting Principles standards in the United States. Topics include statements of operations, financial position, stockholders' equity, and cash flow, as well as research and development, inventories, pensions, stock options, intangibles, leases, and taxes. Students learn through in-depth analysis of contemporary financial reporting requirements promulgated by the national and international accounting standards boards.
**Prerequisite:** Acceptance into the Master of Professional Accountancy program

## ACCT 525, Accounting Ethics, 3 Units

Students explore accounting ethics encountered in practice such as, moral reasoning to resolve ethical dilemmas and accountants' professional codes of conduct. Topics include major philosophical schools of thought, biblical perspective on accountability, ethical reasoning strategies, earnings management, fraud, and corporate governance.
**Prerequisite:** Acceptance into the Master of Professional Accountancy program

## ACCT 530, Advanced Business Law, 3 Units

Focusing on advanced legal issues encountered in financial and commercial business transactions, this course offers an in-depth study of business law, mergers and acquisitions, sales, commercial paper, secured transactions, documents of title, bankruptcy, securities regulations, and the legal liability of accountants.
**Prerequisite:** Acceptance into the Master of Professional Accountancy program

## ACCT 535, Advanced Managerial Accounting, 3 Units

Students investigate the various ways management uses accounting information to make critical strategic and operational decisions such as product pricing, line extensions, and activity-based costing, and to evaluate operating performance including EVA and balanced scorecard. Students discuss methods of distilling key financial and managerial accounting information, as well as motivating and aligning management to act in the firm's best interests. Case based.
**Prerequisite:** Acceptance into the Master of Professional Accountancy program

## ACCT 540, Forensic Accounting and Fraud Investigation, 3 Units

Discussion focuses on the principles and methodology of forensic accounting, including fraud detection and prevention. Students examine consumer, management, employee, and financial statement fraud. Prevention through internal controls and evidence gathering techniques are also addressed.
**Prerequisite:** Acceptance into the Master of Professional Accountancy program

## ACCT 545, Advanced Auditing, 3 Units

This course covers advanced auditing topics and helps students develop an understanding of auditing standards and practice through in-depth analysis of contemporary auditing theory as promulgated by the accounting profession. The course emphasizes pronouncements by the Auditing Standards Board and the Public Company Accounting Oversight Board.
**Prerequisite:** Acceptance into the Master of Professional Accountancy program

## ACCT 550, Accounting for Nonprofit Entities, 3 Units

Students in this course examine how nonprofit organizations measure financial performance and how they differ from for-profit organizations. Students also explore accounting principles and practices for nonprofit organizations including churches, hospitals, and health and welfare organizations. Utilizing case studies, students assess nonprofit and for-profit organizations that receive government assistance in the form of contracts, guaranties, grants, or assistance that may be subject to federal audit requirements. Other topics include ethical examination of accounting decisions, and the general characteristics and operational environment of nonprofit organizations, applying generally accepted standards, principles, and practices.

## ACCT 551, Government Financial Management, 3 Units

This course covers the principles of public financial accounting and follows the Association of Government Accountants (AGA) Certified Government Financial Manager (CGFM) exam structure, which focuses on three modules: governmental environment, governmental accounting; financial reporting and budgeting; and governmental financial management and control. Students taking this course are required to use AGA's CGFM study guide materials (which are purchased by the university) and take all three CGFM exams. Students taking this course must pass all three CGFM exams to obtain an automatic A in the course.

## ACCT 590, Integrative Accounting Review, 3 Units

In this course, students integrate the learning experience by completing modules related directly to CPA exam preparation.
**Prerequisite:** Acceptance into the Master of Professional Accountancy program

## ACCT 591, Accounting Internship, 3 Units

Students in this course engage in a practical application of principles and theory in a real-world business setting through an accounting internship with a CPA firm. Students without prior public accounting internships or work experience are required to take the course.
**Prerequisite:** Acceptance into the Master of Professional Accountancy program

## BUSI 100, Personal Finance, 3 Units

This course covers financial challenges that our society faces, the impact that they have on our society, and personal and social responsibilities related to these issues. In addition, the course offers students power over financial resources, freedom to give generously, insight for better citizenship, and civic engagement opportunities. *Meets the General Education Requirement: Civic Knowledge and Engagement.*

## BUSI 109, Business Mathematics, 3 Units

Students in this course learn the basic concepts and practices of business mathematics, including business algebra, business calculus, and statistics. Topics include differentiation and statistics such as population and sample, descriptive statistics, variation and skewness, exploratory data analysis with visuals, probability, random variable, sampling distribution, central limit theorem, discrete distributions (binomial, Poisson), continuous distributions (normal, t, exponential, chi-square), confidence interval estimation, hypothesis testing, correlation, regression, and the analysis of variance (ANOVA) for business students.
**Prerequisite:** MATH 90 or an appropriate score on the APU mathematics placement assessment.

## BUSI 110, Business and Entrepreneurship, 3 Units

Students in this course learn about the role of business in society and the impact of the social environment on the firm, and become acquainted with the basic functional areas of business, including management, human resources, marketing, finance, and production. Students produce a comprehensive business plan incorporating the functions of business and examining the effect of the business on society. *Meets the General Education Requirement: Civic Knowledge and Engagement.*

## BUSI 111, Business Statistics, 3 Units

Students in this course learn basic statistical concepts and methods of collecting, summarizing, presenting, and interpreting data for the business context. Among the topics covered are differentiation, population, sample, descriptive statistics, variation and skewness, exploratory data analysis with visuals, probability, random variable, sampling distribution, central limit theorem, discrete distributions (binomial, Poisson), continuous distributions (normal, t, exponential, chi-square), confidence interval estimation, hypothesis testing, correlation, regression, and the analysis of variance (ANOVA), to be applied in real-world business situations. *Meets the General Education Requirement: Quantitative Literacy (Math).*
**Prerequisite:** MATH 90 or an appropriate score on the APU mathematics placement assessment.

## BUSI 120, Business Communications, 3 Units

Students in this course explore current communication technologies and strategies in the modern marketplace to create and deliver audience-focused informative and persuasive messages using credible research, impactful visuals, and professional vocal and physical techniques delivered orally. Students are given scenario-based challenges often encountered in organizational settings and business situations, to help them determine the extent of information needed when communicating with key stakeholders, researching and utilizing credible support materials ethically, organizing information logically, and delivering messages through professional presentations using appropriate visual aids, graphics, posture, gesture, eye contact, and vocal expressiveness. *Meets the General Education Requirement: Oral Communication.*

## BUSI 213, Negotiation Strategies and Skills, 3 Units

Students in this course learn the basics of negotiation, then research and explore additional techniques that help them establish alternative criteria to expand and build upon their bargaining style. Each student is assessed on negotiating style, role playing, principled negotiation, and information gathering. Emphasis is on topics related to negotiations in a business context.

## BUSI 240, Introduction to Information Systems and Business Applications, 3 Units

This course offers the fundamentals of business information systems, methods, equipment, processes, computer characteristics, and concepts. Students also examine the ethical use of information, information systems, and business applications. The business applications of Formstack, QuickBooks, and Salesforce are taught with opportunities to earn an Expert Badge in Formstack and Competency Badge in QuickBooks.

## BUSI 244, Data Analytics, Spreadsheets, and Data Visualization, 3 Units

Integrating knowledge gained in BUSI 240, students gain hands-on experience in analyzing, managing, and reporting data in the business world, and use advanced statistical tools to frame business decisions for operations, finance, forecasting, etc. Students learn data applications of Microsoft Excel, Data Studio, and Tableau, and also have the opportunity to earn an Expert Badge in Excel.
**Prerequisite:** BUSI 240

## BUSI 246, Foundations of Business Analytics, 3 Units

Students in this course gain a basic understanding of data analytics to solve business problems. Students learn introductory use of Python, in an integrated environment.
**Prerequisite:** BUSI 111 or instructor's permission

## BUSI 296, Business Law, 3 Units

The course introduces the laws affecting business transactions. Included is an overview of the legal system as it relates to business and in-depth study of contracts, sales and commercial transactions, and secured transactions.

## BUSI 311, Quantitative Analysis for Management, 3 Units

This course comprises an overview of quantitative methods used to make data-driven decisions in business. Management tools include statistical analysis, simulation, and linear programming. The application of quantitative methods in project management, inventory management, time series forecasting, and data visualization is explored. Student evaluation is based on participation, assignment completion, exams, and a group project. This course prepares students to enter a changing business climate that requires knowledge of how to analyze data and create reports that help senior management make informed business decisions.
**Prerequisite:** BUSI 111

## BUSI 314, Big Data Analytics for Business, 3 Units

This course introduces students to the evolving domain of data science and business analytics, helping them understand the processes and tools for analyzing big data and discovering new information to support managerial decision-making. Students solve problems across all areas of business with descriptive, diagnostic, predictive, and prescriptive analytics. Main topics include a robust study of basic statistics, data visualization, exploratory data analysis, linear regression, logistic regression, ridge regression, classification, clustering, decision tree analysis, text analytics, and more. These skills are foundational for anyone interested in a career in big data analytics/data science, and they are beneficial for every manager in today's data-rich economy.
**Prerequisite:** BUSI 111 or instructor's permission

## BUSI 350, Business Internship, 3 Units

This course gives students the opportunity for practical application of principle and theory in an actual business setting through an internship. Students learn to set objectives and measure performance against those objectives in the business setting through a structured reporting process with the instructor. *Meets the General Education Requirement: Integrative and Applied Learning.*
**Prerequisite:** Completion of 60 units and instructor's permission.

## BUSI 370, International Business, 3 Units

This course presents a survey of issues in international business, with a focus on managing in an international environment, understanding the global monetary system, and developing an international perspective on business operations including production, marketing, finance, and human resources. *Meets the General Education Requirement: Intercultural Competence.*
**Prerequisite:** MGMT 210

## BUSI 405, Business Report Writing, 3 Units

Students practice writing clear, well-organized, effective formal and informal reports. Evaluation and preparation of business reports, utilizing business research methods and communication techniques are emphasized. Management of data and the use of graphics also are included.

## BUSI 414, Application of Business Analytics, 3 Units

This course gives students opportunities for practical application of advanced analytics tools and techniques to real-world problems to help business professionals make data-driven decisions. Students learn to manipulate real-world big data sets, develop the most appropriate models, evaluate AI/ML-based models, and create technical reports that describe their findings. Main topics include data wrangling, advanced data exploration methods, advanced data visualization techniques, linear/logistic/polynomial regression models, classification, decision trees, clustering, neural networks, text mining, financial technology, and more. This class is accessible for students who do not have good math/statistics foundations and technical backgrounds; no coding skills or experience required.
**Prerequisite:** BUSI 111 or instructor consent, BUSI 244, BUSI 314

## BUSI 430, Money and Banking, 3 Units

This course includes a study of monetary theories and banking principles, with special reference to contemporary developments in money and banking in the United States, the Federal Reserve System, and financial investment.
**Prerequisite:** ACCT 121, ECON 250, and ECON 251

## BUSI 495, Writing 3: Business Ethics, 3 Units

This course focuses on the integration of Christian faith, ethical issues, and professional concerns that confront business professionals in the workplace. Students explore biblical and moral principles for ethical analysis and reflection, and utilize the case method to research and write managerial responses to current ethical dilemmas in the workplace. This course fulfills the General Education Writing 3 requirement and is recommended for all business majors. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*
**Prerequisite:** Writing 2

## BUSI 496, Senior Seminar: Business Ethics, 3 Units

This course focuses on the integration of Christian faith, ethical issues and professional concerns, which confront business professionals in the workplace with particular concern for leadership and transitions. The course will explore biblical and moral principles as related to real life case studies. In addition, the course offers the student the opportunity to complete in-depth study in a business related area to further prepare them as effective participants and leaders in the workplace. *Meets the General Education Requirement: Integrative and Applied Learning.*
**Prerequisite:** Senior standing and upper-division writing intensive course, majority of God's Word and the Christian Response

## BUSI 497, Readings, 1-4 Units

This is a program of study concentrating on assigned readings, discussions, and writing arranged between, and designed by, a student of upper-division standing and a full-time professor. An independent study fee is assessed for each enrollment in this class.

## BUSI 511, Big Data and Business Analytics, 3 Units

This course helps students understand the tools and processes for analyzing big data and discovering new information to support managerial decision making. Students solve problems across all areas of business with descriptive, diagnostic, predictive, and prescriptive analytics. Main topics include data preprocessing with database/SQL; descriptive analytics; exploratory data analysis and data visualization; diagnostic analytics such as linear regression and logistic regression; predictive analytics; and prescriptive analytics. Students also have an opportunity to earn a badge in business analytics.

## BUSI 513, Introduction to Supply Chain Management and Logistics, 3 Units

This course covers the formulation and implementation of logistics and supply chain strategy for competitive advantage, including analysis of logistics capabilities, enhancement of strategy-supportive capabilities, and integration with strategically chosen supply chain partners.

## BUSI 514, Operations Management, 3 Units

Different business strategies require different processes, and each strategy utilizes unique capabilities to gain competitive advantage. Students in this case-based course use a process view of operations to analyze key dimensions such as capacity planning, cycle time management, role of technology, logistics and supply chain management, and quality management. Students also connect to recent developments such as lean or world-class manufacturing, just-in-time operations, time-based competition, and business reengineering.

## BUSI 515, Artificial Intelligence (AI) and Machine Learning (ML) for Business, 3 Units

This course focuses on practical applications of AI/ML tools and techniques to real-world problems to help business professionals with their data-driven decision making. Students learn how to manipulate real-world big datasets, develop most appropriate prediction models, evaluate AI-/ML-based models, and create technical reports that describe their findings. Main topics include advanced data visualization techniques, linear/logistic/polynomial regression models, classification, decision trees, clustering, association rules, neural networks, text mining, financial technology, and more. Students also have an opportunity to earn a badge in business intelligence.

## BUSI 516, Organizational Behavior, 3 Units

This course provides students with the social science tools needed to solve organizational problems and influence the actions of individuals, groups, and organizations. It prepares managers to organize and motivate the human capital of the firm, manage social networks and alliances, and execute strategic change through knowledge of competitive decision making, reward system design, team building, strategic negotiation, political dynamics, corporate culture, and strategic organizational design. Case based.

## BUSI 517, Quality Management, 3 Units

This course introduces fundamental concepts and methods of quality management and productivity improvement, and students examine the role of managers in designing and implementing programs to improve the quality of products and services. Emphasis is on understanding the forces that make quality and productivity critical organizational issues. Student ability to implement quality-management tools, techniques, and processes is demonstrated.

## BUSI 519, Research Design and Program Evaluation for Nonprofits, 3 Units

This practical methods course focuses on the available literature and research studies in the public and nonprofit sectors. In addition, it prepares students in such areas as setting research objectives, respondent selection/sample size, questionnaire development, evaluation, and the merits of conducting research in-house versus using an outside consultant or research firm. The course also covers qualitative research techniques, including depth interviews and focus groups. It includes a unit on copy testing (of brochures, direct mail, print, and video) to evaluate message communication before or after production.

## BUSI 522, Private Enterprise and Public Policy, 3 Units

This course provides an introduction to political economy, the role of government in a mixed economy, business-government relations, the public policy process, regulation of business, corporate political activity, and the creation of businesses to capitalize on opportunities driven by legislative or regulatory action. Case based.

## BUSI 523, Manufacturing Operations, 3 Units

This course provides an understanding of the concepts, methodologies, and applications of production operations management. Focus is on analysis and study of production methods and procedures available to line and staff management in various-sized U.S. and global business operations. Significant attention is given to decision-making processes appropriate for manufacturing or service organizations, including tactical and operational considerations. Coursework stresses the need and reasons for input, involvement, and interaction of operations personnel with all other disciplines and areas of a business organization.

## BUSI 528, Consulting for Organizations, 3 Units

This course provides an overview of the consulting and advisory process as it relates to external and internal consultation in industry. The course focuses on various aspects of the consulting process life cycle such as gaining and retaining clients, developing proposals and engagement letters, defining client needs and diagnosing problems, utilizing effective data collection and analysis methodologies, documenting information gathered, developing solutions, presenting recommendations, and managing project requirements. Several types of consulting services and related issues are addressed. Students gain experience in basic consulting skills by completing a real-life consulting project and presenting their findings orally and in writing.
**Prerequisite:** MGMT 521

## BUSI 530, Capstone Project: Entrepreneurial Emphasis, 3 Units

The project integrates the learning experience with a plan for development and implementation of a new, untried venture. The completed project describes the product or service offered, including necessary financing, proposed staffing, market size and niche, and the timetable associated with each element. Oral defense before a faculty panel completes the experience.

## BUSI 532, Ethical Issues in Nonprofit Management, 3 Units

Following introductory class sessions on moral philosophy and democratic capitalism, students explore a variety of issues/decisions confronting leaders/managers. Case study situations include such areas as stewardship, truth in advertising, social (behavior change) marketing, marketing research (privacy and confidentiality); corporate responsibility, board/staff relations (accountability), individual responsibility (limits of welfare), and global issues (government corruption, labor practices, etc.).

## BUSI 542, Managing Cultural Differences, 3 Units

Students learn how to identify, analyze, and plan for those elements within the cultural, economic, and political environments of international business that require specialized understanding and strategy for successful management or organized enterprise.

## BUSI 543, International Trade and Finance, 3 Units

Students learn about the financial-monetary-economic environment of international business. Topics include the balance of payments, foreign exchange markets and risk, trade finance, direct foreign investment, capital budgeting in the multinational firm, and the international money and capital markets. Emphasis is placed on decision making with regard to international investment and financing.

## BUSI 548, International Business, 3 Units

This course covers the various strategies businesses use in worldwide operations. Students explore the development of business strategies, the motivations for firms to expand operations globally, organizational challenges, and managerial implications. Students also examine political, economic, and social factors that shape the international business environment. The course focuses on competitive responses to these external pressures and identifies strategic models or approaches. Organizational capabilities, structures, and systems are examined to deliver optimal results. The necessary processes to acquire cross-border knowledge for creating joint ventures and alliances are examined. Finally, the future role of Multi-National Enterprises (MNE's) for the global economy is explored. Case and simulation based.

## BUSI 550, Capstone Project: International Emphasis, 3 Units

Students submit a business plan that summarizes the major areas within international business from organization to quantitative methods. Methodology and underlying theories are presented through an exploration of the present international business environment. Oral defense of the completed project before a faculty panel is required.

## BUSI 551, Situation Analysis and Diagnosis, 3 Units

This course introduces the purpose, methods, and skills of situation analysis and diagnosis in carefully selected case studies. Students benefit from a focused approach to interpreting, understanding, and developing skills to discover appropriate conclusions in differing business environments and situations.

## BUSI 552, Comparative Management, 3 Units

The course enables the international business student to understand how management objectives, goals, practices, and business-government interaction are related to the cultural settings in which they take place. The course includes: analysis of international similarities and differences in managerial functions, structure and process, etc., in light of environmental factors; identification of the impact and results of different management practices; and an inquiry into the "universals" of management.
**Corequisite:** BUSI 551

## BUSI 555, Integrated Decision Making in Nonprofits, 3 Units

This course, taken in the student's final semester, develops the students' ability to understand the decision-making process and execute the steps involved in identifying, evaluating, and implementing an effective business strategy for a nonprofit organization. The purpose is achieved as students identify their organization's mission, primary customers, and specific goals by integrating the functional knowledge acquired in previous nonprofit courses (i.e., management, marketing, finance, research, ethics, etc.) and by developing a comprehensive strategic plan for a new organization, an existing organization, or from the perspective of an organization that wants to review its current offerings. As such, the course also examines factors unique to a nonprofit (e.g., involvement of the board and lay members, government funders, communication with various customer groups, and assuring congruence between organizational mission and the strategic plan).

## BUSI 561, Fund Development: Planning, Implementing, and Evaluation, 3 Units

This course examines the principles and methods of fundraising that respond to one's understanding of what donors, funders, and volunteers value, that is, what inspires their giving and how to develop and nurture these relationships. It uses case studies to demonstrate successful/unsuccessful promotional techniques, including advertising campaigns, direct mail, and special events. It also explores such areas as if/when to use consultants and special forms of planned giving. Finally, the course includes units on philanthropy/corporate giving and foundations, as well as a unit on grant writing.

## BUSI 562, Effective Nonprofit Leadership and Management, 3 Units

This course addresses the questions: What are the characteristics of effective leadership and management? How can one organize for success and evaluate/strengthen the work already done? It explores the fundamental challenges to effective leadership including defining and articulating the organization's mission, identifying and understanding the multiple "customers" served, and identifying and prioritizing the critical managerial tasks that must be successfully executed. As such, it examines the roles of the executive director, the board, staff, and volunteers. Finally, this course introduces students to the Drucker Formulation Self-Assessment Tool for Nonprofit Organizations based on management expert Peter F. Drucker's principles of management.

## BUSI 563, Public Accounting: Legal and Financial Issues in Nonprofit Management, 3 Units

This course introduces the legal and financial issues relevant to managing a 501 (c)(3) nonprofit organization. Issues addressed include organizing the entity, qualifying for and maintaining nonprofit status, fundraising, and nonprofit enterprise. Financial areas covered include the principles of fiscal responsibility for nonprofits as well as cost accounting, budgeting, the presentation of financial statements, proposed development, and in-kind resources.

## BUSI 564, Strategic Marketing for Nonprofits, 3 Units

This course provides an introduction to the field of strategic marketing of nonprofit organizations (e.g., educational institutions, churches, the public and social sectors, health services, and the arts). The course texts, outside readings, videos, case studies, and class exercises focus on understanding three areas of effectiveness: 1) what makes an organization effective or not; 2) how individuals can improve their own effectiveness as managers, staff, or volunteers; and 3) how promotional strategies can be used to enhance the organization's effectiveness.

## BUSI 569, Nonprofits in America: History, Philosophy, and Tradition, 3 Units

This introductory course traces the history, philosophy, and societal role of nonprofits in the United States and how the independent sector today compares organizationally to business and government. As such, it examines the roles of government (at the state and federal levels), religion and churches (including constitutional issues), business (corporate philanthropy), and the rights/responsibilities of individuals (e.g., natural law and contemporary public policy).

## BUSI 576, Business Internship, 3 Units

This course gives students an opportunity to apply educational principles, theory, and disciplinary skills to a position with an organization, either for-profit or not-for-profit. Students are responsible for obtaining employment, and must submit the application for appropriate internship approvals. They also learn to set objectives and measure performance against those objectives in a business or related setting through a structured reporting process with the instructor. Projects and assignments are due throughout the term.
**Prerequisite:** Appropriate employment for internship, completion of 30 units of coursework, and instructor's permission.

## BUSI 577, Global Field Study, 3 Units

This course provides the framework for graduate students to register for and complete a global field study in various countries around the world. During the course, students conduct corporate visits to business firms locally and around the globe to discuss how they apply and practice the business management principles, concepts and theories covered in the graduate curriculum.

## BUSI 581, Strategic Leadership, 2 Units

Students learn to set an organization's strategic direction, align corporate organizational structure to implement strategy, and lead individuals. Students explore the power and strategic importance of their own formation and identity as a leader in creating value, mobilizing resources around opportunities, and influencing others through their corporate role. Class discussions serve as a framework for exploring high-performance impact, corporate culture, reputation, leading strategic change, and leadership theories and styles, with particular attention to servant leadership as an extension of a Christian worldview. Students further explore informal and formal authority and the strategic connection between personal leadership and organizational effectiveness.

## BUSI 583, Integrated Decision Making, 3 Units

Students seek to develop the capability to appreciate and carry out the decision-making processes involved in identifying, evaluating, selecting, and implementing strategy in a company. This purpose is achieved by requiring the student to set goals, analyze business problems, develop a framework for making decisions to reach these goals, integrate the functional knowledge acquired in previous courses, and experience, through computer simulation business cases, the processes and functions performed by executive officers in meeting goals, and coping with an uncertain business environment.

## BUSI 590, Capstone Project, 3 Units

This comprehensive capstone, intended for students with extensive workplace experience, gives students an opportunity to integrate their learning through the formulation of a corporate report providing strategic direction to a national, international, or global business. The completed strategic plan describes the general economic process applied to a business selected by the student: seasonal sales cycle, inflation/recession tendencies, and product life cycle. Emphasis is placed on the development of strategies, economic analysis, and flexibility of strategic alternatives within the plan.
**Prerequisite:** MGMT 578

## BUSI 591, Marketing Strategy for Competitive Advantage, 3 Units

This course concentrates on the strategic issues encountered in marketing, in terms of total corporate and business strategy. Emphasis centers on matching internal strengths with outside opportunities, giving attention to weaknesses of the firm and threats from the environment. The goal is attainment of a sustainable competitive advantage.
**Prerequisite:** MGMT 578

## BUSI 592, Financial Strategy for Competitive Advantage, 3 Units

This seminar stresses the enterprise-wide view of the strategic management of financial resources. Lectures and case studies present the tools and perspective necessary to gain a competitive advantage through financial management.
**Prerequisite:** FIN 513 and MGMT 578

## BUSI 593, Manufacturing Strategy for Competitive Advantage, 3 Units

This course concentrates on the strategic issues encountered in the manufacturing processes. Manufacturing is recognized as an important strategic resource which can provide major competitive strengths for a business. Today's manufacturing managers must look to the future to plan, set objectives, initiate strategy, establish policies, and commit resources. The goal is attainment of a sustainable competitive advantage.
**Prerequisite:** MGMT 578

## BUSI 594, Emerging Trends in Information Technology, 3 Units

This course, intended for students without a background in information technology (IT), surveys current topics in IT and their impact on business, management, organizations, and society. Course topics include business intelligence, cybersecurity, business analytics, social networks, data visualization, agile software development, and business process management. Students develop a sufficient understanding of how organizations can utilize technologies, get hands-on skill development using real-world tools and deliverables, and explore management and organizational issues associated with technological change.

## BUSI 595, Capability Design and Management of Strategic Change, 3 Units

Management capabilities and components, strategic diagnosis, and capability design are addressed. The course introduces state-of-the-art, real-time planning systems, including crisis management. Evaluation of organizational dynamics during discontinuous strategic changes is addressed. Strategic diagnosis and capability design are applied to a successful operation of a corporate firm.

## BUSI 596, Special Topics in Business, 1-3 Units

This course presents timely and new topics in business. Different material is covered each time the course is offered. The course may be repeated for credit. Some topics require prerequisites, which vary according to the topic.

## BUSI 597, Field Experience, 2 Units

This program of study exposes students to the inner workings of several different organizations, research and development, and manufacturing facilities. The commonalities and differences students observe stimulates their thinking with regard to what matters and what works. The course consists of an intensive fieldwork experience as well as assigned readings that focus on firsthand experiences of business leaders. Grading is Pass/Fail.

## BUSI 598, Executive Seminar, 1 Unit

This seminar introduces contemporary issues within business, human resources, and/or organizational development, and their impact on organizational effectiveness. Seminars focus on skill development to improve working environments and interactions among employees, leaders, organizations, and communities. May be taken three times with different topics.

## BUSI 599, Readings in Business, 1-3 Units

Students may enroll in an independent study for unit credit to investigate subjects and interests that lie beyond regular course offerings, explore topics in greater depth, and/or initiate individual projects. Such requests must be developed in consultation with a sponsoring faculty member and be approved by the graduate program chair and dean. Unit credit varies depending on the scope of the study plan.

## ECON 200, Survey of Economics, 3 Units

This course covers the concepts and tools of economic analysis for microeconomics and macroeconomics. Students study the basics of interactions between firms and consumers: consumer demands, firm costs, price determination under various market structures, and the role of government in a market economy. Students also study the fundamentals of national income and economic growth, interest rates, unemployment, and government fiscal and monetary policies. *Meets the General Education Requirement: Social Science.*

## ECON 250, Principles of Macroeconomics, 3 Units

This course provides an introduction to concepts and tools of economic analysis for macroeconomics. Students study national income and economic growth, interest rates, unemployment, and government fiscal and monetary policies. *Meets the General Education Requirement: Social Science.*

## ECON 251, Principles of Microeconomics, 3 Units

This course provides an introduction to concepts and tools of economic analysis for microeconomics. Students study the interactions of firms and consumers: consumer demands, firm costs, price determination under various market structures, and the role of government in a market economy.
**Prerequisite:** C- or better in MATH 110 or MATH 151 or MATH 165, or 60 or higher on the ALEKS math placement assessment.

## ECON 350, Intermediate Macroeconomics, 3 Units

This course covers more complex economic models applicable to the study of such topics as economic growth; the effects of monetary policy on business cycles, prices, and interest rates; government spending and debt; and the macroeconomy with trade.
**Prerequisite:** ECON 200

## ECON 351, Intermediate Microeconomics, 3 Units

Material in this course expands on the concepts and tools of economic analysis. Students explore more in-depth models of interactions in society: consumer choice, firm decisions, perfect and imperfect competition. Issues of uncertainty and strategic interaction are addressed, as well as extensions to multiple markets.
**Prerequisite:** ECON 200

## ECON 355, Environmental Economics, 3 Units

Students in this course apply economic perspectives and analytical tools to the study of environmental problems, focusing on the effects of business activities on the environment and the effects of environmental policy on business.
**Prerequisite:** ECON 200

## ECON 356, Labor Economics, 3 Units

This course covers the allocation of labor in a society among its various possible uses. Students consider the role of markets in allocating this labor, issues of market power, and the role of government policy in accomplishing social objectives. Wage determination, job search, and labor productivity are also discussed.
**Prerequisite:** ECON 251

## ECON 357, Economics of the Developing World, 3 Units

This course introduces students to the economic and social issues confronting the majority of people in the world. Students survey the current conditions of people in the developing world and build ways of understanding the complex issues these people face. Using these tools, students examine economic and financial infrastructure, political conditions, levels and trends in poverty and income distribution, job creation and economic growth, health and education, and environmental conditions, which all affect the state of "development" of a people.
**Prerequisite:** ECON 250 and ECON 251

## ECON 359, Urban and Regional Economics, 3 Units

This course combines the disciplines of economics and geography. Economic interactions among individuals, firms, and governmental units are analyzed geographically by focusing on central cities, suburbs, and outlying regions. Within this urban and regional context, this course places particular emphasis on market forces, land use, transportation, crime, housing, and local government. *Meets the General Education Requirement: Civic Knowledge and Engagement.*
**Prerequisite:** ECON 200

## ECON 371, Comparative Economics, 3 Units

Students are offered an integrated treatment of policy, institutions, business, and international trade theory within the different types of economic systems. The values that societies hold are examined as reasons for why different systems are chosen in different countries. The course studies the economics of both market economies and socialist economies, examining their domestic and international policies toward economic interactions.
**Prerequisite:** ECON 250

## ECON 452, Econometrics, 3 Units

This course introduces students to econometric analysis to better understand the economic environment. Cross-sectional regression analysis and time series methods are covered, and serial correlation and heteroskedasticity are addressed. Panel data methods are introduced, as well as such topics as instrumental variables and simultaneous equation estimation.
**Prerequisite:** ECON 350; ECON 351 (may be taken concurrently); BUSI 111

## ECON 453, Microfinance and Microenterprise, 3 Units

Microfinance and microenterprise development are strategies for strengthening the economic opportunities of poorer households to enable families to build assets, provide income, and plan for a better future. This course examines these approaches in depth and evaluates the effectiveness of various projects at accomplishing their stated goals.
**Prerequisite:** ECON 250, ECON 251, and Junior Standing

## ECON 454, Industrial Organization and Regulation, 3 Units

This course investigates the importance of market structure for firm and consumer outcomes beyond the standard perfect competition and monopoly models. Students will learn to incorporate real world attributes into their understanding of market activity through case studies and advanced market models. Topics to be addressed include cartels, entry and exit, oligopoly, price discrimination, and research and development.
**Prerequisite:** ECON 351; ECON 350 (may be taken concurrently)

## ECON 458, Economics and Religion, 3 Units

This course provides students an opportunity to examine the relationship between religion and economic life in terms of individuals' actions and the elements of the economic system. In particular, students examine the relationship between economic behavior/institutions and Islam, Confucianism, and Christianity.
**Prerequisite:** ECON 350, ECON 351 (may be taken concurrently), Junior Standing.

## ECON 495, Special Topics in Economics, 3 Units

This course presents timely and new topics in economics. Different material is covered each time the course is offered. The course may be repeated for credit. Some topics require prerequisites, which vary according to the topic.

## ECON 497, Readings, 1-4 Units

This program of study concentrates on assigned readings, discussions, and writing arranged between and designed by a student of upper-division standing and a full-time faculty member.

## ECON 502, Business Economics, 3 Units

This course provides a survey of the concepts and tools of economic analysis of both microeconomics and macroeconomics. Students study the basics of interactions between firms and consumers: consumer demands, firm costs, production decisions, resources utilization and price determination under various market structures, market entry and exit decisions, and the role of government in the markets of an economy. Students learn the basic mathematical models needed to begin analyzing business decisions. Students also develop basic tools to analyzing the fundamentals of national income and economic growth, interest rates, unemployment, and government fiscal and monetary policies. A number of current national and international issues will be analyzed using these tools.

## ECON 521, Managerial Economics, 3 Units

Students learn to think strategically about the economic environment in which a firm operates. The first half of the course covers the foundations of microeconomics (supply and demand, market price and output, production, cost, and simple competitive market equilibrium). The second half deals with applying microeconomic theory to economic strategy, including more sophisticated pricing and competitive strategies. Case based.

## ECON 575, Global Business Economics, 3 Units

This course covers the concepts of global economics, measurement of economic performance, macroeconomic indicators affecting the global business environment, sources of country-specific economic data and data evaluation, microeconomic analysis of decisions in multinational firms, and economic performance forecasting. It also explores the global economic environment of business, including socioeconomic goals and policies that impact multinational business performance and global business strategies, as well as international economic forces influencing business decisions and the firm. It further explores global business economic cases featuring methodology and research perspectives of economics and the contribution of the economics paradigm to business decisions and processes.
**Prerequisite:** ECON 521

## ENTR 210, Small Business Ventures, 3 Units

Students in this course apply their leadership, problem-solving, and strategy skills to consider how winning entrepreneurs think, act, and perform, then establish goals to practice emulating those actions, attitudes, and strategies. New venture creation is about the process of getting a new venture started, growing the venture, successfully harvesting it, and starting again.
**Prerequisite:** BUSI 110

## ENTR 312, Creativity and Innovation, 3 Units

Students in this course investigate innovation in the corporate setting and the personal creative process, with an emphasis on understanding the role innovation plays in corporate success. Via lectures and personal exercises that build information content and a repertoire of specific techniques, students learn and apply the practical toolkit for sharpening and implementing their innovative and creative skills.

## ENTR 314, Entrepreneurial Management, 3 Units

Students apply their creative and innovative talents while sharpening their analytical abilities. Students will develop a new business idea and craft it into a comprehensive business plan that details the qualitative (e.g. business modeling and milestone planning) and quantitative (financial forecasts and valuation) process of bringing a new venture idea to fruition. The business plan that each team develops is an operating plan for a start-up company or a new venture within a larger corporation.
**Prerequisite:** ENTR 310

## ENTR 315, Social Entrepreneurship, 3 Units

Social entrepreneurship is an emerging and rapidly changing field dedicated to the starting and growing of social mission-driven ventures - organizations that strive to advance social change through innovative solutions. This course exposes students to viable business models in social enterprise, focusing on the ideas, process, steps, and strategies required for creating new social ventures. Through lectures, case studies, and classroom dialogue, students will learn to think strategically and to act opportunistically with balanced social and financial perspective.
**Prerequisite:** BUSI 110

## ENTR 420, Entrepreneurship and Innovation Practicum, 3 Units

This course gives students practical experience through guest speakers and company visits, and through work in an entrepreneurial or innovative organization, with students translating those experiences into academic learning. With close guidance from practicum faculty, students identify and work with a business or a public or nonprofit organization. Working individually or in small teams, students complete a defined project of approximately 100 hours that has practical value and academic rigor. Students provide regular status reports and receive faculty coaching during the practicum.
**Prerequisite:** Junior standing

## ENTR 520, Entrepreneurial Decision Making, 3 Units

This course covers the tactical and strategic decisions that are essential for successfully starting and managing a new business. The course provides the framework for students to learn the application of practical business knowledge and tactics in transforming entrepreneurial vision into winning business strategies and thriving entrepreneurial ventures. Students learn the techniques for successful entrepreneurial decisions, including modeling successful business and strategic plans; effectively targeting, evaluating, and identifying alternate financing sources; competitive pricing, product differentiation, and market targeting as key drivers for sales growth and profitability; and effective competitive and risk assessment, analysis, and management.

## ENTR 524, New Venture Creation, 3 Units

Students review the experiences entrepreneurs encounter in conceiving and launching a business. The course combines personal assessment and involvement exercises with an emphasis on group interactions, personal planning, and contemplating an entrepreneurial career. Team activities, personal planning exercises, new venture simulation, and case studies are utilized. Students analyze factors affecting purchase decisions in the marketplace, apply behavioral and social science concepts to the study of buyer behavior, and study methods that organizations use for personal selling, sales promotion, public relations, the art of negotiating, and other forms of promotion to communicate with customers and prospects.

## ENTR 525, Entrepreneurial Venture Analysis, 3 Units

This course covers case studies and analysis of entrepreneurial ventures and the identification of the different ways management concepts and techniques are applied in developing innovative businesses, standardizing products, designing processes, and operating tools. The course explores the identification of the systems and analytical decision models applied in various entrepreneurial operating functions and the techniques for setting performance standards and designing the activities required to drastically upgrade the yield from resources in order to create new markets and new customers. It evaluates the complex dynamics of entrepreneurial challenges in modern theory and practice through the use of case studies of entrepreneurial ventures.

## FIN 300, Business Finance for Managers, 3 Units

This course introduces concepts and tools of business finance for managers. Students study financial statements and their interpretation, business performance measures, the management of cash and the short-term financial needs of organizations, and how to make good capital budgeting decisions.
**Prerequisite:** ACCT 120

## FIN 320, Principles of Corporate Finance, 3 Units

Students in this course explore the principles and practices of financial management. Sources and methods of raising capital, allocation of funds within the firm, cash flow and financial statement analysis, financial markets, and capital budgeting techniques are addressed. Additional concepts covered include present-value analysis, long-term financial planning, risk and return, and basic derivatives.
**Prerequisite:** ACCT 120

## FIN 330, Financial Analysis, 3 Units

This course equips students with the necessary tools of financial statement analysis for business valuation and strategic considerations. Students explore the ideas of ratio analysis and time value of money in discounted cash flows in order to analyze the financial conditions of a business organization. Course material also covers credit analysis and corporate finance issues such as mergers and acquisitions and debt financing. Case studies are used extensively.
**Prerequisite:** FIN 300 (finance majors only)

## FIN 331, Managerial Finance, 3 Units

This course extends the concepts and methodologies introduced in Principles of Finance to incorporate the practical uses as a manager in an organization. The course places emphasis on managerial decisions using spreadsheet applications. Topics include: financial statement analysis, project analysis, long-term financial planning, risk and return, and basic derivatives.
**Prerequisite:** FIN 320 or Instructor's consent

## FIN 352, Financial Markets and Institutions, 3 Units

This course covers financial markets, instruments, and institutions, with students examining the roles of depository institutions, insurance companies, and others in the process of intermediation. The structure of financial markets, recent developments in financial instruments, interest rate determination, and the regulatory environment are discussed.
**Prerequisite:** ECON 200

## FIN 372, International Trade and Finance, 3 Units

Students study the theory and practice of international trade and international finance, exploring questions of why countries trade, what they trade, and national and global trade policies. Course material also covers foreign exchange markets, exchange rate determination, foreign direct investment, and international capital markets.
**Prerequisite:** ECON 200

## FIN 432, Investment Analysis, 3 Units

This course introduces students to the basic tools of investment analysis and integrates these with the actual operations of investments and portfolio construction. Emphasis is on providing analyses of asset selection with an experience of real market activities.
**Prerequisite:** FIN 300 (finance majors only) and FIN 352 (finance majors only; may be taken concurrently with instructor permission)

## FIN 433, Applied Portfolio Management, 3 Units

Students in this course engage in practical application of financial investment principles and theory through a portfolio management opportunity in a business setting. Students learn to set portfolio objectives and measure performance against specific metrics in the business setting through a structured reporting process with the instructor.
**Prerequisite:** FIN 330 or instructor's consent, BUSI 111 or instructor's consent, and FIN 432 (FIN 432 prerequisite applies to finance majors only)

## FIN 434, Derivatives, 3 Units

This course prepares students with a basic understanding of derivatives of financial assets and commodities (such as futures, options, swaps, etc.). Pricing of these derivatives and their function in hedging and speculation is discussed. Recent innovations of pricing models for instruments such as interest rate derivatives, exotic options, and assessment of market risk based on the market prices of derivatives are also covered.
**Prerequisite:** FIN 432, MATH 130

## FIN 436, Financial Risk Management, 3 Units

The course introduces students to the theory and management tools of risk management and financial innovation, including the use of different combinations of financial assets and derivatives to immunize an organization's market risk. Topics include dynamic hedging using derivatives such as futures and options, and possibly the development of new products (or combinations) to protect a business or portfolio from exposure to financial risk.
**Prerequisite:** FIN 300, FIN 432 or instructor's consent, and FIN 433 (may be taken concurrently, required for finance majors only)

## FIN 439, Seminar in Finance, 3 Units

Students in this course evaluate their learning from finance major courses in preparation for the Securities Industry Essentials exam to become finance professionals. Students explore various types of professional finance career tracks and prepare individual career-development plans. Topics include capital markets, financial instruments and their risks, trading activities, managing customer accounts, prohibited activities, rules and regulations, professional financial jobs, and personal career plans.
**Prerequisite:** FIN 330 (finance majors only) and FIN 432 (finance majors only)

## FIN 502, Business Finance for Managers, 3 Units

This course provides an introduction to concepts and tools of business finance for managers. Students study financial statements and their interpretation, business performance measures, the management of cash and the short term financial needs of the organization, and how to make good capital budgeting decisions. Students will analyze company performance and make recommendations by applying class content to financial issues.

## FIN 513, Corporate Finance, 3 Units

Students in this course examine how financial decisions can affect the value and health of firms. Topics include cash flow and ratio analysis, discounted cash flow analysis, stock and bond valuation, investment criteria and decisions, capital budgeting, capital structure decisions, risk-return analysis, and long-term and short-term financing decisions. In addition, students read and discuss articles related to God's financial principles.

# FIN 526, Capital Formation, 3 Units

Students study the market processes by which resources are allocated, from the capital formation of economic activities of the economy's various sectors to the financial activities in the money and capital markets. Specifically, the course includes the use of flow of funds analysis as applied to capital markets and various financial chronicles as sources for explaining and predicting economic behavior; the theory and reality of the interest rate structure; the nature of various capital markets and their securities; knowledge of corporate debt and equity instruments; federal, state, and local government securities; and mortgages. This course leads to a basic knowledge and understanding of the sources and uses of funds and the role of financial intermediation in the growth and development of economies.
**Prerequisite:** FIN 513

# FIN 536, Entrepreneurial Finance, 3 Units

This course examines the financial decisions of entrepreneurs and venture capital investors based on the stages of a venture development. Topics include financial options for entrepreneurs and investors, preparations for and analysis of a new business' financial statements, and the valuation of the venture.

# FIN 546, Investments, 3 Units

This course provides students with the study of financial instruments. Along with the knowledge of investment principles, students focus on the decision process for evaluating various investment opportunities. In addition, students discuss their stewardship responsibilities to God as individual Christian investors and Christian financial managers in a corporation.
**Prerequisite:** FIN 513

# FIN 567, Advanced Financial Analysis, 3 Units

Students explore the practical applications of financial management based on case studies. Major topics include financial statement analysis, financial forecasting, cost of capital estimation, capital budgeting decisions, capital structure decisions, equity financing, and mergers and acquisitions.
**Prerequisite:** FIN 513 (MBA/Accounting students only), FIN 502 (MSHA students only)

# HROD 250, HR Life Cycle: Hiring to Retiring, 3 Units

In this course, students gain an in-depth and practical perspective of employee staffing, compensation, and benefits spanning from prior to an employee's hire until after they leave the organization. Special attention is given to the six stages of the employee life cycle: attraction, recruitment, onboarding, development, retention, and separation.

# HROD 351, Talent Enhancement: Training, Development, and Engagement, 3 Units

This course gives students hands-on experience with the employee training life cycle as they learn about employee development and engagement. Students develop an employee training program that helps employees learn specific knowledge or skills to improve performance, and also examine the components of employee development-a more expansive strategy that focuses on employee growth and future performance rather than an immediate job role.
**Prerequisite:** HROD 250

# HROD 352, Employee Relations, 3 Units

In this class, students study the legal and social dynamics of HR as a valued partner in employee care. Students examine the handling of grievances, discipline, and labor relations in union and nonunion shops. Concepts related to an organization's strategic effort to maintain a positive relationship with its employees, including the complex interrelations between employers and employees, labor/trade unions, employer organizations, and the state, are reviewed.
**Prerequisite:** HROD 250

# HROD 353, Compensation and Total Rewards, 3 Units

This course offers an in-depth look at a strategically important area of human resources for organizations: establishing employee compensation plans that attract the right talent and retain top performers. Students in this course study multiple factors that organizations consider when designing compensation plans for the workforce. They also examine the differences between financial and nonfinancial means of compensation, how to establish wage levels, how to evaluate jobs to ensure that employees are being compensated appropriately, key economic considerations in establishing compensation plans, and how to design performance incentive programs. Course material includes an overview of relevant laws that govern compensation systems and employee benefit programs, and addresses how to evaluate the strategic effectiveness of compensation plans. This course prepares students for the Total Rewards portion (Unit 4) of the HR Certification Institute's PHR/SPHR professional certification exams.
**Prerequisite:** HROD 250

# HROD 354, Talent Planning and Acquisition, 3 Units

This course offers an in-depth look at an area of human resources that is foundational to the profession: attracting and selecting highly qualified candidates to fill jobs. In this course, students study equal employment opportunity and employment discrimination, workforce planning, job analysis/description/specification, recruitment, and selection tools. They also examine how to conduct workforce planning and recruitment processes, how to design selection processes that are valid and reliable, and how to legally conduct preemployment testing and background investigations. This course prepares students for the Talent Planning and Acquisition portion (Unit 2) of the HR Certification Institute's PHR/SPHR professional certification exams.
**Prerequisite:** HROD 250

## HROD 500, Foundations of Human Resource Development, 3 Units

The course provides an introduction to and overview of the field of human resource development with emphasis upon its historical and philosophical foundations. Theories and concepts relevant to the field are analyzed. Special emphasis is placed on the roles and functions of OD professionals within organizations and understanding the basic competencies of professional practice.

## HROD 501, Organizational Design and the Psychology of Work Behavior, 3 Units

This course examines the fundamental theories and viewpoints on the nature of work, its role in adult life, and the function of employment organizations. Included is discussion of forces impacting individual, group, and system performance and productivity within complex sociotechnical systems. Particular emphasis is placed on examining the role of work in the growth and functioning of humans and in identifying the characteristics of organizations in which both the human needs of the people who compose the organization and the organization as a productive, adaptive entity are satisfied.

## HROD 512, Employee Development, 3 Units

This course introduces theories of human growth and development as a foundation for understanding the developmental challenges facing individuals during their lifespans. Specific implications and applications are made related to how human growth and development is effected by and affects organizational life.

## HROD 520, Career Development Systems, 3 Units

Students study the emerging field of career planning and development related to initial and ongoing professional development. Current literature, relevant theories, and major approaches to career planning and development are examined in accordance with career planning and development approaches in organizations. Students use various self-assessment tools and diagnostic instruments to evaluate data on their own work histories, interests, skills, and values.

## HROD 530, Labor Law and Negotiations for Human Resource Professionals, 3 Units

This course provides a brief introduction to the pervasiveness and importance of labor law and negotiations. All human resources professionals must understand labor law and the rights given to employees pursuant to those laws, regardless of whether the employees are members of a union. Professionals must also be thoroughly versed in collective bargaining and the labor relations process in order to be prepared to work for companies whose employees are either represented by a union or are seeking to join a union. Course material equips students for these tasks, as well as for involvement in negotiating agreements and resolving conflicts, such as collective bargaining agreements, agreements with benefit plan providers, individual employee claims, and the terms of employment for new employees.

## HROD 531, Designing and Managing Compensation and Benefit Systems, 3 Units

This course provides a solid understanding of the art of compensation practice and its role in promoting companies' competitive advantages. Compensation systems in organizations must be linked to organizational objectives and strategies. Scholars and managers agree that the way compensation is allocated among employees sends a message about what management believes is important and the types of activities it encourages. With the responsibility of administering compensation expenditures wisely, HR professionals must balance the interests and costs of employers with the needs and expectations of employees.

## HROD 532, Human Resource Law, 3 Units

Human resources professionals are routinely called upon to navigate a number of legal issues. This course introduces the major laws governing human resource management in the work place beginning with the core skills it takes to safely interview job candidates, counsel employees, and mediate disputes. Students gain a thorough understanding of EEOC and ADA regulations and learn how to comply with the Family and Medical Leave Act. Emphasis is on the laws about unlawful discrimination, recruiting, hiring, promotions, harassment, and reasonable accommodation.

## HROD 550, Instructional Design and Training Methods, 3 Units

This course focuses on methods to assess an organization's training and development needs, and designing and implementing training programs to address those needs. Analysis and application of adult-learning theories in relation to program design are explored. Methods of instructional design and course development are emphasized.

## HROD 575, Leveraging Diverse Community Partnerships, 3 Units

Students gain an in-depth understanding of the recruitment and retention of diverse workforces. This course gives students practical methods for recruiting employees from diverse backgrounds through the development of culturally sensitive marketing and recruiting materials. It also addresses issues regarding the management, retention, and advancement of employees from diverse backgrounds.

## HROD 576, Managing in a Multicultural Context, 3 Units

This course focuses on developing an understanding of diversity and cultural difference. Students examine effective and ineffective management techniques and learn helpful approaches to conflict resolution in multicultural work environments.

## HROD 577, Cultural Explorations in Global Business, 3 Units

Future business leaders engage their own and others' cultures in the context of a global marketplace while understanding how those cultures may impact the bottom line. Students also investigate the complexities of company demands to increase compliance with international business standards.

## HROD 578, Recruiting and Retaining a Diverse Workforce, 3 Units

In leveraging diverse community partnerships, students learn practical methods for developing culturally sensitive marketing campaigns for the purpose of recruiting diverse employees into multiple areas of industry. Also, issues regarding management and retention of employees from diverse backgrounds are examined, including glass ceiling issues.

## HROD 599, Readings in Human and Organizational Development, 1-3 Units

Students may enroll in an independent study for unit credit. In this course, students investigate subjects and interests that lie beyond regular course offerings, explore topics in greater depth, and/or initiate individual projects. It provides an opportunity to identify and develop an area of study of particular concern to the individual learner. Readings are pursued in accordance with a study plan developed in consultation with a sponsoring faculty member and approved by the graduate programs chair and dean. Course requirements typically involve a literature review and submission of a paper. Unit credit varies depending on the scope of the study plan.

## IBUS 374, Topics in International Management and Strategy, 3 Units

Students in this course analyze operational management issues encountered in international and culturally diverse enterprises. Course material may focus on human resource management, production management, cross-cultural issues, or strategic planning and implications for the firm.
**Prerequisite:** BUSI 370

## IBUS 377, Global Field Study, 3 Units

This course provides the framework for international business majors to register for and complete global field studies in various countries around the world. Students conduct visits to business firms locally and globally to discuss how they apply and practice the business management principles, concepts, and theories covered in the undergraduate business curriculum.

## IBUS 479, Import/Export Practicum, 3 Units

In this project-based class, students gain practical knowledge of the business of imports and exports. Students are expected to start a one-semester small business importing a product from abroad and selling it domestically. Key assignments may include a market analysis, sourcing analysis, business plan, importing a sample, and selling the sample. Students have freedom of scope and scale when deciding which product(s) should comprise the project.
**Prerequisite:** BUSI 370 or instructor consent

## LDRS 103, Life Design and Self-Leadership, 3 Units

This course helps students discover their individual calling within the framework of their view of life and work. Students gain a greater understanding of their strengths, values, interests, skills, and personality as they build prototypes of potential careers utilizing a life design process and prepare for life after college with intention and purpose.

## LDRS 201, Foundations of Leadership, 3 Units

This course blazes the trail for understanding the concepts of good leadership and followership, identifying oneself as a leader, discovering one's sense of calling, establishing a commitment and plan for whole-person leadership development, seeing leadership through an interdisciplinary lens, and grounding one's "leadership story" in an awareness of current history and the reality of the Kingdom of God. Through creative experiences, meaningful texts, and powerful assignments, students are prepared for further leadership education.

## LDRS 303, Career and Life Planning, 3 Units

For students entering the professional world, this course aids in understanding career development options, finance management, and coping with stress. Students gain a greater understanding of their strengths, values, interests, skills, and personality as they seek employment and/or apply to graduate school. Relevant guest presenters spend class time sharing important information that benefits students in planning for careers and life.

## LDRS 311, Leadership Values and Virtues, 3 Units

This course views leaders as authentic servants committed to transformation. Students study the leader's motivations, the dreams of followers, conflict resolution, as well as personal, intellectual, and civic virtue. Perspectives for steering clear of bad leadership and toward collaboration with those who share the leader's commitment to the common good are considered. The course focuses on the development of leaders who are responsible, good, humble, and who understand the diverse values of others.
**Prerequisite:** LDRS 201 (may also be taken concurrently) or junior standing or department consent.

## LDRS 311H, Leadership Values & Virtues - Honors, 3 Units

This course views leaders as authentic servants committed to transformation. Students study the leader's motivations, the dreams of followers, conflict resolution, as well as personal, intellectual, and civic virtue. Perspectives for steering clear of bad leadership and toward collaboration with those who share the leader's commitment to the common good are considered. The class focuses on the development of leaders who are responsible, good, humble, and who understand the diverse values of others.
**Prerequisite:** LDRS 201 (may also be taken concurrently), Junior standing, or departmental consent. Must also be a student admitted to the Honors College and be considered a member in "active" status

## LDRS 322, Leadership Strengths and Skills, 3 Units

This course focuses on a strengths-based approach to leadership and leadership development, as well as the skills necessary for good leadership. Opportunities to understand and practice essential skills such as continual learning, powerful communication, problem solving, managing process, goal achievement, conflict resolution, win-win negotiating, and empowering stewardship are woven throughout the course. Training additional leaders is also a key topic. Effective leadership practice through emphasis on strengths development is the goal of this course.
**Prerequisite:** LDRS 201 (may also be taken concurrently) or junior standing or department consent.

## LDRS 333, Leadership Influence and Impact, 3 Units

This course looks at the leader as agent of change on three levels: personal change, influence on individuals and small groups, and impact on cities, organizations, and cultures. Through historical reflection and developing a systemic vision, students are equipped to make a difference in many social settings. By learning to work as mentors, facilitators, and ambassadors, emerging leaders can leave a dynamic legacy.
**Prerequisite:** LDRS 201 (may also be taken concurrently) or junior standing or department consent.

## LDRS 335, Leadership Communication, 3 Units

This course teaches students the theoretical, empirical, and practical aspects of leadership communication by taking a distinct communication approach to leadership studies. Topics covered include leadership and followership communication styles and practices; various leadership theories and perspectives; power and influence; team/group leadership; organizational, crisis, and public leadership; diversity; ethics in leadership; and leadership development.

## LDRS 401, Leadership Studies Capstone, 3 Units

This course deepens students' capacity for leadership based on wisdom, knowledge, and understanding. In addition to concluding the leadership minor by linking leadership practice to leadership theory, students dialogue about leadership issues such as gender, community, temptation, finding one's voice, mission, and the whole-person model. A thoughtful and thorough final project and a high-quality portfolio presentation are crafted to integrate students' learning about leadership and to provide a postgraduation plan for lifelong leadership development.
**Prerequisite:** LDRS 201, LDRS 311, LDRS 322, LDRS 333

## LDRS 495, Special Topics in Leadership, 1-3 Units

This course addresses topics of current interest in leadership studies that are not covered by the core and elective courses. Topics vary from semester to semester. This course may be taken more than once as topics change.

## LDRS 497, Readings, 1-3 Units

This is a program of study concentrating on assigned readings, discussions, and writing arranged between, and designed by, a student of upper-division standing and a professor approved by the Program Chair. The course allows the student to identify a specific leadership theme and investigate it further.

## LDRS 501, Foundations of Leadership Theory, 3 Units

This course provides a conceptual and practical survey of predominant leadership theories providing students with opportunities for critical reflection and application. A focus is given to transformational theories of leadership and application is made to the M.A. in Leadership core competencies.

## LDRS 502, Cornerstones of Christian Leadership, 3 Units

This course utilizes APU's Four Cornerstones to discuss leadership from the Christian tradition. Students look at the example of Jesus, the ultimate servant leader, and how His followers through history have both succeeded and failed in following His example. Through probing into how Christian scholars have written about and understood leadership, as well as seeking to show that the goal of Christian leadership is to serve God and the common good of humanity, students gain a faith-based benchmark for further studies in leadership.

## LDRS 503, Organizational Behavior, 3 Units

This course investigates the effective functioning of individuals and groups within organizational settings. Emphasis is placed on how leaders perceive organizations from strategic design, organizational culture, and political environment perspectives. This course applies theoretical concepts to major organizational challenges such as organizational effectiveness, motivation, conflict, job stress and satisfaction, and decision making. The focus of the course includes organizational communication, as well as the attitudinal and behavioral implications for leaders.

## LDRS 510, Creative and Collaborative Leadership, 3 Units

This course enables students to integrate the concepts of personality, leadership, and creativity; investigate collaborative leadership; identify and apply creativity and preferred leadership styles; and explore the effects leadership styles can have on given organizational communities.

## LDRS 511, Exploration of Leadership Thought, 3 Units

This foundational course provides an overview of the evolution of leadership thought, including a review of the fundamental theories and principles that led to the study of leadership as a discipline, as well as an examination of the story of leadership from a biblical perspective. Students are introduced to a holistic framework for leadership development informed by an understanding of the importance of ethics, values, and spirituality from a Christian worldview.

## LDRS 512, EQ I: Self-Leadership, 3 Units

This course focuses on the self-competence elements of emotional intelligence - leader self-awareness and leader self-management - from psychological, spiritual, emotional, and developmental perspectives. Students enhance their self-leadership through the improvement of self-competence and self-development.

## LDRS 516, Leadership Development and Practice, 3 Units

This course emphasizes the process of leadership development from a transformational perspective. Students consider both their personal growth and the dynamic mechanisms necessary for facilitating the development of others. Emphasis is on the issues and challenges of creating a lifelong learning mindset individually and organizationally, mentoring strategies, team building, developing effective followers, and designing career development systems. This course provides the opportunity for application through a practicum assignment.

## LDRS 520, Understanding Vocation in a Changing World, 3 Units

This course focuses on understanding one's true overarching vocation in life as it connects to the purposes of God in this world to steward the earth and its peoples. One's vocation then influences what one does with his or her life. The concepts of career are continually changing, but work/life planning continues to be important personally and professionally. Students have the opportunity to use various self-assessment tools and diagnostic instruments to evaluate their own working history, interests, skills, values, and career anchors. Students also learn to design career programs for organizational settings.

## LDRS 523, EQ 2: Relational Leadership, 3 Units

This course focuses on the social competence elements of emotional intelligence - leader/follower social awareness and leader/follower relationship management - from psychological, spiritual, emotional, and developmental perspectives. Students enhance their relational leadership acumen through the study of motivation, and social skills for leader/follower relational development.
**Prerequisite:** LDRS 512

## LDRS 524, Principles and Practices of Design Thinking, 3 Units

Students in this course explore the fundamental principles and practices of design thinking, in relation to the workplace and in the context of the person as leader. Concepts such as creativity, empathy, failure, risk, and creative confidence are explored. This course also provides the opportunity to practice design thinking on personal and organizational levels.

## LDRS 532, Leadership Practicum, 3 Units

This course creates a dialogue between previously explored concepts/theories of leadership and the practical experiences of exemplar practitioners. Students are involved in community service and exposed to community leaders for interaction, observation, and analysis. These encounters enable students to assess and activate their leadership journey based on spiritual, mental, educational, and emotional aspects of leadership development.
**Prerequisite:** LDRS 501, LDRS 502, and LDRS 503

## LDRS 533, Systems and Strategic Planning for Leaders, 3 Units

This course focuses on systems thinking from a leadership perspective. By working with stories, scenarios, and strategy, students learn to address complex problems, anticipate consequences, and leverage potential. Attention will be given to the use of narrative for influencing constituent participation. Finally, organizational design is considered as a key concern for leaders in organizations.
**Prerequisite:** LDRS 501, LDRS 502, and LDRS 503

## LDRS 534, Leader as an Agent of Change, 3 Units

This course looks at the leader as an agent of change through three lenses: self examination, change theory, and organizational culture. Each is assessed in light of implications for those involved in the change initiative. Special attention will be given to the transformational change that takes place for leaders and followers when the call for change occurs. Application is made to organizations, informal networks, temporary situations, and other social contexts.

## LDRS 535, Leading Dynamic Change, 3 Units

This course focuses on the practice of leading organizational change, as well as the importance of personal change within the life of the leader. Students engage in activities and projects to enhance understanding of the role of the leader as a change agent within the organization.

## LDRS 536, Disruptors and Conflict, 3 Units

This course prepares students to manage their responses to conflict in order to leverage disruptive issues in leadership with creative confidence. Through the study of personal and organizational conflict management skills, students become equipped to solve complex issues that are disruptive to personal, team, and organizational functioning.

## LDRS 542, Leading Across Cultures, 3 Units

In a pluralistic society, leaders are often tasked with the responsibility of bridging both domestic and international contexts in a convergence of global learning. This seminar will examine the historical, organizational, and interpersonal significance of leading across cultures, with particular emphasis on discerning the underlying values of community behaviors as well as the attitudes, beliefs, values, skills, knowledge, and self-awareness necessary for leaders to effectively serve in diverse contexts. A variety of theoretical, research and applied issues are addressed; in particular, the course aims to explore social location theory as a means of equipping graduates to advance equity and positive change through increased capacity for diversity engagement.

## LDRS 547, Navigating Social Climates, 3 Units

This course equips students as leaders in today's globalized organizations and societies who analyze, through multiple lenses, issues of inequity and injustice that exist locally, nationally, and globally. The course utilizes conceptual and experiential learning in which students encounter and reflect on realities of inequity and injustice in the social and natural worlds, in interpersonal, intergroup, and organizational relationships. Students are also expected to begin to develop habits and skills to promote shalom-oriented organizations and communities.

## LDRS 548, Strategic Foresight, Thinking, and Planning, 3 Units

This course focuses on engaging the full strategy cycle, which includes strategic foresight, thinking, and planning. Through an applied project, students engage in scanning for trends and developing stories and scenarios; develop strategic thinking skills; and engage in a strategic planning process.

## LDRS 559, Curiosity to Inquiry, 3 Units

This pass/fail course underscores curiosity as an innate human capacity and cultivates students' ability to use it toward human-centered inquiry and socially transformative innovations. Students engage in the ideation and inspiration phases of Design Thinking in solving a complex leadership challenge for an organization or a community. Through the process, students are expected to become familiar with traditional as well as innovative data collection techniques and become informed consumers of published research. Successful completion of this course results in a prototype for the leadership experiment, which the student implements in LDRS 560 Leadership Experiment.
**Prerequisite:** LDRS 511, LDRS 512, LDRS 523, LDRS 524, LDRS 535, LDRS 536, LDRS 547, and LDRS 548.

## LDRS 560, Leadership Experiment, 3 Units

As a completion of the M.A. in Leadership program's 4D model of Discover, Design, Develop, and Deliver, this final course helps students continue their leadership experiment started in LDRS 559 and culminates with a TEDx-style presentation. This is a pass/fail course.
**Prerequisite:** LDRS 559, and enrollment in the M.A. in Leadership program.

## LDRS 561, Group and Conflict Issues in Leadership, 3 Units

This course helps the student understand small-group behavior. It uses experience-based methods, case studies, reading material, and simulation. The course examines role behavior, group dynamics, conflict control, leadership, and group development. It also addresses motivation and problem solving as essential elements of organizational behavior.

## LDRS 563, Ethical Decision Making, 3 Units

This course investigates the intersection of ethics and effective decision making. Students will explore ethical implications of the decision making process, with particular emphasis on the ways that ethical decision making applies to individuals, groups, and organizational systems. This course applies theoretical concepts to significant organizational problems requiring effective decision making processes. Attention will be given to systematic rational approaches as well as the role of intuition and group dynamics in the decision making process. The course will utilize lecture, case study analysis, group exercises, review of current literature, classroom discussions, and simulations to create an effective learning environment.

## LDRS 571, Leadership for a Learning Environment, 3 Units

This course looks at the leader's role in designing and implementing effective learning strategies and effective methods for educating adults. Emphasis is given to the creation of programs that focus on learning styles, discussion-oriented teaching, inspiring presentation skills, and results-oriented outcomes. During the course, students are given opportunities to demonstrate competency in the principles and practices of materials development, teaching, training, and skill development.

## LDRS 592, Research Methods and Design, 3 Units

This course provides an introduction to basic concepts, principles, and methods of evaluation and research in the leadership setting, focusing on research traditions, procedures, theories, and methods. Emphasis is placed on identifying methods appropriate for particular research questions and conducting disciplined inquiry regardless of method selected. Particular emphasis will be placed on identifying a research question and conducting a comprehensive review of relevant literature.

## LDRS 593, Applied Research, 3 Units

This course provides an introduction to basic concepts, principles, and methods of evaluation and applied research in leadership settings, focusing on action research methodology. A faculty-student collaborative process, participatory action research allows students to engage in inquiry and action for change in response to organizational or community problems. During the course, students will identify a research question in their personal leadership contexts, review the current research literature, develop a plan to collect initial data, and present their project and findings to the class. At each stage of inquiry, the professor and peer research groups will provide feedback.
**Prerequisite:** LDRS 592 (May be taken concurrently)

## LDRS 595, Capstone Project in Leadership, 3 Units

The capstone course is an opportunity for students to demonstrate that they have achieved the goals for learning established through the M.A. in Leadership program competencies. The course assesses cognitive, affective, and applied learning in a student-centered and student-directed manner which requires the command, analysis, and synthesis of knowledge and skills. The capstone course integrates scholarship and praxis through the development of a literature review and 360-degree assessment and requires application of that learning to professional and personal contexts as evidenced through artifacts demonstrating competence. In culmination of their graduate studies, students will formulate a personal philosophy of leadership and develop a personalized growth plan that synthesizes their academic learning and outlines future professional and intellectual goals.
**Prerequisite:** Students enrolled in the M.A. in Leadership program

## LDRS 597, Current Issues in Leadership, 3 Units

Current topics are chosen for discussion, research, and decision making relevant to the Organizational Leadership emphasis.

## LDRS 598, Special Topics, 3 Units

In this course, a topic of current interest or need is examined in depth. Students analyze and evaluate topics/ issues to reach and express a position, provide training for a particular population, or enhance personal development. If students elect this course more than once during their program, each course must address a different topic.

## LDRS 599, Readings in Leadership Studies, 1-3 Units

The independent study vehicle allows students and their sponsoring faculty members to pursue approved investigations beyond regular course offerings.

## MGMT 120, Business Communications, 3 Units

Students in this course explore communication technologies and strategies used in the modern marketplace to create and deliver audience-focused informative and persuasive messages based on credible research, impactful visuals, and professional vocal and physical techniques. Students are given scenario-based challenges often encountered in organizational settings and business situations, to help them with determining the extent of information needed in communications with key stakeholders, researching and utilizing credible support materials ethically, organizing information logically, and delivering messages through professional presentations using appropriate visual aids, graphics, posture, gesture, eye contact, and vocal expressiveness.

## MGMT 210, Principles of Management, 3 Units

This course covers elements of planning, organizing, leading, and control, with emphasis given to organizing and actuating responsibility and authority, delegation, decentralization, the role of staff, line-staff relationship committees, boards of directors, and organization charting. This course will also explore formal and informal organization, communication, and reaction to change. Students will create and manage a business in an environment similar to today's economy. *Meets the General Education Requirement: Integrative and Applied Learning.*

## MGMT 211, Organizational Leadership, 3 Units

This course covers contemporary theories, principles, and practices of leadership within the context of managing businesses and organizations, introducing leadership topics such as change management, leadership development, and organizational communication. Students also explore the emerging concept of followership and the role it plays in organizational failures and successes. Significant attention is given to students' personal assessment and evaluation of their personality, strengths, leadership styles, and work, in order to establish a leadership and management identity. *Meets the General Education Requirement: Social Science.*

## MGMT 212, Managing Diverse Teams and Groups, 3 Units

This course covers essential theories and concepts for analyzing, understanding, and managing various groups and teams in the workplace. Students examine the components that comprise teams, develop skills in diagnosing opportunities and threats that teams face, and build teamwork expertise. Significant time is spent exploring interpersonal processes, conflict resolution, and the many characteristics that influence the effectiveness of a team. This course also gives students an understanding of team diversity, the differences between individual members that can exist in various areas such as age, nationality, religious background, functional background or task skills, sexual orientation, political preferences, and communication and decision-making styles, among others. *Meets the General Education Requirement: Social Science.*

## MGMT 214, Project Management, 3 Units

This course introduces the basic principles of modern project management (PM), including project initiating, planning, execution, monitoring, and closing, with a focus on the development of PM knowledge areas as defined by the Project Management Body of Knowledge. Students learn how to use Microsoft Project Professional and related software tools for managing and controlling the project life cycle. Course material helps students prepare for the Project Management Professional certification exam. *Meets the General Education Requirement: Integrative and Applied Learning.*

## MGMT 335, Real Estate Management, 3 Units

This course offers an introduction to real estate principles and practices, essential real estate law, practices incidental to ownership, real estate brokerage, and property evaluation.

## MGMT 350, Business Management Internship, 3 Units

This course gives students the opportunity to apply their knowledge of principle and theory, and practice their skills and abilities, in an actual business setting through an internship. Course format is similar to that of an independent study, combining in-class meetings, online lesson plans, and real-life work experience. *Meets the General Education Requirement: Integrative and Applied Learning.*
**Prerequisite:** Completion of 60 units, and instructor consent.

## MGMT 410, Production Management, 3 Units

This course focuses on decision making and allocation control regarding personnel, materials, and machine utilization in a manufacturing environment. Course material addresses handling and control of materials, inventory, purchasing, and quality control, and students also learn about setting standards and developing skills in estimating, forecasting, and scheduling.
**Prerequisite:** MGMT 210

## MGMT 440, Business Process Management, 3 Units

Business processes are the core of organizations, providing service to customers, impacting operations and cost structures, and defining enterprise software requirements. In this course, students explore what business processes are-how they are defined, documented, and managed. The course introduces the role of business architect as the initial developer of an enterprise software solution, and features real-world software tools, since software develops (and demands) a deeper understanding of the complexity and nuances associated with business process management. The course is suitable for all business students, since technology has become such a critical component of business.
**Prerequisite:** BUSI 240

## MGMT 445, Human Resource Management, 3 Units

Students in this course study the human factors in modern business, particularly how they affect and are influenced by labor-management interactions and personnel relations, techniques, and procedures.
**Prerequisite:** MGMT 210

## MGMT 446, Introduction to Organizational Theory and Design, 3 Units

This course introduces students to major perspectives in organizational theory and design and its impact on organizations and management. Course material gives students the fundamental knowledge base for understanding and exploring how organizations function, develop, and modify themselves to reflect the forces and needs of external and internal environments. Students examine organizational theory, which is the sociological study of formal and informal organizational structures such as businesses and bureaucracies and their interrelationship with the environment in which they operate. This course complements the studies of organizational behavior and human resources.
**Prerequisite:** MGMT 210

## MGMT 448, Organizational and Administrative Behavior, 3 Units

Organizational behavior is an interdisciplinary field drawing from psychology, sociology, economics, organization theory, statistics, and other areas. In this course, students gain an understanding of the field and the various research strategies involved as they examine human behavior in organizations, as well as individual, group, and organization-level processes that impact workplace behavior and organizational life. Students are exposed to organizational behavioral science theories and their applications in different management settings and types of organizations, and have an opportunity to engage in experiential and skill-building activities, applying conceptual frameworks in community settings and developing strategies for increasing stakeholder and civic participation. *Meets the General Education Requirement: Civic Knowledge and Engagement.*
**Prerequisite:** MGMT 210

## MGMT 450, Strategic Management, 3 Units

This course focuses on fundamental decisions in the life of a business: What is the business, and what should it be? What are the objectives? How are priorities set? How are strategic, long-range decisions to be handled? To grow or not to grow--and what is the right size for the business? *Meets the General Education Requirement: Integrative and Applied Learning.*
**Prerequisite:** MGMT 210; FIN 300 or FIN 320; MKTG 260; junior standing.

## MGMT 467, Introduction to Organizational Development and Change, 3 Units

This course comprises a broad survey of major topics in organizational development and change, including but not limited to organizational processes, organizational growth, and organizational climates and cultures. Course material covers historical and contemporary theories and methods of introducing change in organizations, leading change, and the ethical issues involved in organizational change. Students examine the complex issues involved in organizational development and change management, along with the strategies and techniques required to effectively lead change in an organization. Students also explore the role of leadership in change and how leaders effect change, and examine a number of organizational issues including the need for change, why organizations change or fail to change, the legal and regulatory issues associated with change, and how change helps organizations become more competitive and profitable.
**Prerequisite:** MGMT 210

## MGMT 501, Managerial Communication, 3 Units

Management, by definition, is achieving results with and through other people. Therefore, all of the technical and analytical skills in the world are useless unless you can communicate- that is, explain, persuade, and collaborate with others either by writing, interacting one-on-one, or presenting to a group. This course is aimed at equipping students with the necessary techniques and skills of research and communication used to inform others, inspire them and enlist their activity and willing cooperation.

## MGMT 502, Developing Management Skills, 3 Units

This course provides an introduction to management skills necessary for the twenty-first century characterized by chaotic, transformational, and rapid-fire change. Scientific evidence demonstrates how management skills are associated with personal and organizational successes. Although management skills are applicable in most areas of your life, this course will focus on work setting management skills to help students improve their own competency in a managerial role.

## MGMT 503, Business Strategy: Theory and Practice, 3 Units

This course provides a review of management as an area of theoretical development as well as a field of practice. It comprises classical management theories and modern approaches to organization and business. Main blocks of the course are functions of management, managerial processes and interaction between organizations and their environment. This course includes elements of organizational behavior. Business cases are used as application of theoretical concepts.

## MGMT 510, Current Issues in Business and Management, 3 Units

This course examines organizational and behavioral problems facing managers. Students develop an awareness of modern concepts, strategies, and techniques that can enhance organizational effectiveness. Among these subjects are organizational design, personal leadership and delegation, communication, conflict management, and interpersonal perception group dynamics.

## MGMT 515, Applied Research and Analysis, 3 Units

Students study research methodology as it relates to needs for research-derived information, with emphasis on the research process in the development of primary and secondary research information, conducting research related to given products or services, and the analysis and evaluation of actual business organizations.

## MGMT 516, High-Performance People Management, 3 Units

This course provides students with the social science tools needed to solve organizational problems and influence the actions of individuals, groups, and organizations. It prepares managers to understand how to best organize and motivate the human capital of the firm, manage social networks and alliances, and execute strategic change.

## MGMT 517, Managing Human Capital, 3 Units

Students study the establishment of human resource objectives and requirements in an organization. Emphasis is on executive decision making in dealing with formal employee-employer relationships. Collective bargaining, organization of employees, negotiation, and administration of collective bargaining agreements are covered.
**Prerequisite:** HROD 500 or GNRS 560

## MGMT 521, Organizational Development and Change, 3 Units

Students investigate the emerging field of organizational development (OD) - major theories, basic concepts, and primary intervention strategies. Emphasis is on diagnosing the relationship between an organization's mission and culture, and facilitating planned system-wide changes to improve organizational effectiveness.

## MGMT 529, Ethical Decision Making, 3 Units

This course raises students' moral recognition level, provides them with the apparatus to make moral decisions in a business context, and considers ethical problems in business according to Christian principles. Emphasis is placed on the role of the leader in organizations.

## MGMT 540, Diversity for Strategic Advantage, 3 Units

This course introduces the major goals, principles, and concepts of multiculturalism with particular emphasis on its impact on organizational effectiveness. It explores the cultural, linguistic, and socioeconomic factors influencing the workplace. This course offers concepts to improve learning and working environments and interaction among employees, businesses, and communities.

## MGMT 541, Global Business Management, 3 Units

This course focuses on the environmental and functional differences between U.S. and international business, including exporting, balance payments, strategic planning, organization of multinational firms, international financial planning and cash management, foreign exchange planning, comparative management philosophies, international marketing strategies, incorporation for international operations and external relations of the multinational corporation.

## MGMT 551, Leadership in Organizations, 3 Units

This course introduces current literature and theories of leadership. Leadership within organizational settings is examined. Leadership dilemmas and issues are analyzed (e.g., ethics, decision making, power and authority, conflict management). Emphasis is placed on identifying and enhancing leadership in organizational settings.

## MGMT 561, Managing Teams and Conflict, 3 Units

This course helps the student understand small-group behavior. It uses experience-based methods, cases, reading material, and simulation, and examines role behavior, group dynamics, conflict control, leadership, and group development. It also addresses motivation and problem solving as essential elements of organizational behavior.

## MGMT 570, Organizational Performance Improvement, 3 Units

This course provides an introduction to fundamental concepts and methods of quality and productivity improvement and examination of the OD professional's role in designing and implementing programs to improve quality of products and services. Particular emphasis is placed on understanding the forces that make quality and productivity critical organizational issues.

## MGMT 577, Global Field Study, 0 Units

This course provides the framework for graduate students to register for and complete a global field study in various countries around the world. During the course, students conduct corporate visits to business firms locally and around the globe to discuss how they apply and practice the business management principles, concepts and theories covered in the graduate curriculum.

## MGMT 578, Strategic Management, 3 Units

Taken in a student's last semester, this course explores how to convert executive vision into definitive plans that can be operationally implemented, and provides opportunity for practice and experimentation in strategy formulation and change management. Students use strategy support systems to transition from a change-resistant operational approach to a future-oriented approach characteristic of strategic thinking. Case- and project-based.

## MGMT 581, Ethical Leadership, 3 Units

This course provides a foundation for two integrative themes: leadership and ethics. Leadership is examined from theoretical and practical perspectives, with an emphasis on servant leadership. An ethical framework for management decision-making is also established and used. Students learn to apply their spiritual gifts, strengths, personality traits, and leadership styles to their leadership contexts.

## MGMT 582, Strategic Management in Not-for-Profit, 3 Units

This course offers a study of the strategic management issues which are unique to government and other not-for-profit organizations. Included are: defining characteristics of different types of not-for-profit organizations; convergence of environmental demands on not-for-profit organizations and business firms; power in not-for-profit organizations; multiple stakeholder and stakeholder power; formulation of legitimacy strategy; and success measurement in not-for-profit organizations.
**Prerequisite:** BUSI 450 or equivalent

## MGMT 583, Global Strategic Management, 3 Units

The course explores the main issues that companies and their managers confront when they 'go global' or 'manage globally'. Students gain both theoretical and practical insight into the management of a global organization to appreciate the opportunities, problems (both worldwide and local), and alternative strategies for globalization or localization.

## MGMT 595, Special Topics in Management, 1-3 Units

This course presents timely and new topics in management. Different material is covered each time the course is offered. The course may be repeated for credit. Some topics require prerequisites, which vary according to the topic.

## MGMT 597, Master's Project in Management, 3 Units

This capstone course involves the implementation and application of management theory. Students participate in a service-learning project for a community-based organization, applying management methodology. Students are expected to complete a master's level research project demonstrating competency in management theory, the individual area of emphasis, as well as faith integration.
**Prerequisite:** MGMT 521; final semester of MAM program

## MKTG 260, Principles of Marketing, 3 Units

Students in this course analyze the movement of goods from producers to consumers, which includes discussion of the channels of distribution, marketing functions, management considerations, and problems in marketing practice. Marketing trends in current economic systems are reviewed.
*Meets the General Education Requirement: Intercultural Competence.*

## MKTG 261, Visual Marketing, 3 Units

This course provides students with a comprehensive overview of the principles and techniques behind visual marketing. Students explore various platforms available to help them effectively reach their target audience through visually engaging methods, and evaluate market trends, use of technology, target audience, and visual communication methods to create a visual marketing strategy. By the end of the course, students are able to identify which approaches are best suited for their projects and how they can use these tools to create compelling visual marketing campaigns.
**Prerequisite:** MKTG 260

## MKTG 262, Consumer Behavior: An Applied Approach, 3 Units

This course involves a comprehensive examination of the nature of markets and the factors influencing market development and change. Students study individual consumer behavior in relation to the buying-selling process, with emphasis on understanding the consumer in order to facilitate the development of an effective marketing strategy. *Meets the General Education Requirement: Civic Knowledge and Engagement.*

## MKTG 350, Marketing Internship, 3 Units

This course integrates marketing principles and theory into a working environment related to marketing. Includes research, setting objectives, general marketing decision making, and reflection. *Meets the General Education Requirement: Integrative and Applied Learning.*
**Prerequisite:** MKTG 260, completion of 60 units, and instructor consent.

## MKTG 361, Advertising and Integrated Marketing Communications, 3 Units

Students in this course explore how organizations promote ideas, products, or services through strategic connections with consumers on a variety of digital channels. Grounded in advertising, public relations, and communication, course material covers marketing campaigns and practices that have shaped our history, and how modern organizations build value by using branding, storytelling, publicity, medium utilization, and data analytics to create authentic messaging for specific target audiences.
**Prerequisite:** MKTG 260

## MKTG 363, Marketing Research, 3 Units

This course is an overview and practical application of contemporary methods for gathering, analyzing, and preparing market research for use in management decision making. Research methodology includes specific topic areas as the research process, primary and secondary data, qualitative and quantitative research methods, statistical analysis, and utilization of technology.
**Prerequisite:** MKTG 260 and MATH 130

## MKTG 364, Sales and Sales Management, 3 Units

In this course, consideration is given to personal sales strategies and practices, including relationship management, negotiation, consultative selling, and key account management. The sales management function, including recruiting and selecting salespeople, motivation and training, compensation plans and quotas, supervising, sales forecasting and budgeting, salesforce evaluation, and the ethics in selling and sales management is covered.
**Prerequisite:** MKTG 260 or instructor consent

## MKTG 368, Retail Management, 3 Units

Students explore the roles and scope of retailing business, characteristics of retailers and consumers, and strategies for managing operations. Course material emphasizes retailing characteristics and activities, multichannel opportunities, retail communication mix, consumer buying behavior, retail market strategy (including location and site strategy), product mix, store layout, merchandising, competition, pricing, and promotion. This course also introduces students to procurement and supply chain logistics, customer relationship management, operations, and employee management. Students in this course have the opportunity to earn a retail management microcredential.
**Prerequisite:** MKTG 260

## MKTG 369, Global Industrial Marketing, 3 Units

Students learn the marketing of business goods by manufacturers to other businesses, government agencies, and social institutions. The course consists of market analysis, sales forecasting, product strategy, effective use of sales force, and industrial promotional planning and implementation. Extensive quantitative techniques are utilized.
**Prerequisite:** MKTG 262, MKTG 363

## MKTG 373, Global Marketing Management, 3 Units

This course is an overview of international marketing and considers the powerful economic, technological, industrial, political, and demographic forces that are converging to build the foundation of a global marketplace in a dynamic and ever-changing world. Students conduct projects involving international marketing.
**Prerequisite:** MKTG 260 and BUSI 370

## MKTG 376, Strategic Brand Management, 3 Units

This course introduces students to the essential concepts of strategic brand management. It provides an in-depth exploration of how brands are created, positioned, and leveraged for maximum market advantage. Through the perspective of customer-based brand equity, students learn about influencer marketing, digital platform brands, social listening, attribution modeling, and marketing to bicultural consumers. Upon completion of this course, students are able to demonstrate a comprehensive understanding of the principles and techniques used in today's competitive marketing environment.
**Prerequisite:** MKTG 260

## MKTG 378, Contagious Marketing, 3 Units

Students in this course gain a comprehensive understanding of the strategic methods that organizations employ to promote their products, services, or ideas in the digital age. Course material covers various channels used for connecting with consumers, such as advertising, public relations, and other communications. Students explore the historical and current practices of contagious marketing campaigns, focusing on how organizations build value through branding, storytelling, publicity, and medium utilization. By the end of the course, students have a deep understanding of the principles and practices of contagious marketing and are equipped with the skills needed to create effective campaigns.
**Prerequisite:** MKTG 260

## MKTG 465, Strategic Marketing Management, 3 Units

This course offers a strategic approach to the management of the marketing function. As the capstone course for marketing majors, students utilize marketing case analysis to examine and evaluate the entire marketing decision-making process. Course content focuses on the strategic analysis of market opportunities and the development of the marketing mix through project coursework.
**Prerequisite:** MKTG 262, MKTG 361

## MKTG 466, Digital and Social Media Marketing, 3 Units

Within an organization's strategic and business objectives, digital marketing leverages traditional marketing, utilizing essential digital marketing tools such as online branding, display advertising, social media marketing, and search engine optimization. Content in this course emphasizes the development of digital marketing strategies and programs for an organization, and students have the opportunity to earn an industry-recognized Hootsuite certificate in social media and social media marketing management.
**Prerequisite:** MKTG 260

## MKTG 502, Marketing Principles, 3 Units

This course focuses on understanding marketing management, formulating and implementing marketing strategies, and provides a systematic framework for marketing planning, analysis and evaluation. The characteristics and management of markets are described in topics that include the marketing environment, components of the marketing mix, market segmentation, positioning and targeting.

## MKTG 515, Marketing Research, 3 Units

This course prepares students to approach marketing research from a management perspective. The role of marketing research process, the human side of marketing research, and organizational and ethical issues are discussed. Students utilize comprehensive cases and analysis, along with a marketing research project.
**Prerequisite:** MKTG 527 and BUSI 511

## MKTG 527, Marketing Strategy, 3 Units

This course offers in-depth management, analysis, and decision-making resources related to marketing strategy, including environmental turbulence, competitive analysis, customer and market analysis, product life cycle analysis, and marketing mix management. Course material is primarily case-based.
**Prerequisite:** ACCT 512 and FIN 513

## MKTG 545, International Marketing, 3 Units

International marketing is the performance of business activities that direct the flow of a company's goods and services to consumers or users in more than one nation. The elements of the marketing mix (product, price, promotion, and place-channels of distribution) first studied in domestic marketing are analyzed in global terms, thus adding the elements of geography, cultural forces, and the structure of distribution to the uncontrollables with which the marketer must contend.

## MKTG 565, Integrated Marketing Communications, 3 Units

In this course, the marketing communication function is introduced and analyzed. Topics include advertising theory, planning and measurement, communication theory, the integrated marketing communication (IMC) mix, promotional strategies, public relations and publicity, consumer education, collateral materials planning, and promotional ethics.

## MKTG 580, Strategic Digital Marketing, 3 Units

This course discusses the differences between E-commerce and E-business in relation to the firm, emphasizing the correlation between business, technology, and society. An advanced marketing course, it builds on the firm's business model, which guides its traditional and dynamic online marketing presence. Emphasis is placed on the importance of the Christian worldview and community citizenship, and on developing a positive long-term relationship with customers and stakeholders, thereby creating a distinct competitive advantage for the firm. Student projects integrate learning activities with business organizations.

## OPSY 501, Introduction to Organizational Psychology, 3 Units

This course is an introduction to the field of industrial/organizational (I/O) psychology, providing an overview of the fundamentals and the various subfields of the discipline. Special consideration is given to topics that integrate the application of psychology to organizational environments. Coursework covers the history of I/O psychology, offers a comparative review of topics within industrial psychology and organizational psychology, and helps students gain a fundamental understanding of employee selection, training, motivation, job satisfaction, communication, group behavior, and stress management. The course also includes a review of the organizational psychology literature as well as ethics guidelines and professional standards governing the practice of organizational psychology.
**Prerequisite:** Acceptance into the MS in Organizational Psychology program

## OPSY 502, Organizational Ethics, 3 Units

Students in this course examine psychological phenomena that help explain why people who want to act ethically in organizations often do not act in accordance with their values. Course material also helps students understand how cognition, affect, and behavior interact, so they can better navigate ethically challenging situations. Ethical issues in organizational contexts are examined in light of biblical values and the American Psychological Association's Ethical Principles of Psychologists and Code of Conduct.
**Prerequisite:** Acceptance into the MS in Organizational Psychology program

## OPSY 503, Group and Organizational Behavior, 3 Units

This course offers a behavioral science approach to organizational life and enables students to investigate the effective functioning of individuals and groups within organizational settings. Emphasis is on the psychology of teams, team dysfunction, group conflict, and organizational culture. This course applies theoretical concepts to challenges such as team dynamics, conflict, decision making, and organizational behavior patterns.
**Prerequisite:** Acceptance into the M.S. in Organizational Psychology program; successful completion of OPSY 501 is recommended.

## OPSY 505, Individual and Team Assessment, 3 Units

Students receive instruction and training in individual assessment techniques for vocational and business applications, including pre- and postemployment assessment for selection, onboarding training, advancement, developmental or remedial coaching, and succession planning. Students are introduced to qualitative and quantitative assessment methods as key tools for leadership assessment; learn the importance of assessment in organizational and leadership dynamics; and gain competency in the use of several key assessment methods and instruments and learn to apply these instruments to leadership development within work team environments. Students are also introduced to job analyses and use measurement tools relevant for assessing occupational interests, abilities, competency modeling, and work-related personality constructs. Students also complete several individual assessments as part of the experiential, outside-of-class portion of the course.

**Prerequisite:** Acceptance into the MS in Organizational Psychology program

## OPSY 510, Organizational Assessment and Interventions, 3 Units

This course introduces interventional strategies that correspond to the primary issues related to organizational life: change management, organizational culture, and leadership and team dynamics. Students gain competency in focusing on these critical areas of assessment and intervention: qualitative method, conducting needs analysis, proposing consultation projects, and employee assistance programs. Students also become familiar with research methodologies related to existing programs and successful programs within companies.

## OPSY 515, Coaching Techniques and Application, 3 Units

Students in this course examine theories and practices within the fields of psychology, organizational behavior, business, and other relevant fields as they relate to the practice of executive coaching. They also explore coaching competencies, professional ethics, and models of executive coaching, and are introduced to a repertoire of basic coaching skills applicable to most executive coaching situations (e.g., self-awareness, empathy, listening, questioning, giving and receiving feedback, confrontation, limit setting, demonstrating leadership, etc.).

## OPSY 520, Consultative Applications of Organizational Psychology, 3 Units

This course covers the applied aspects of organizational psychology, providing an overview of the consulting process as it relates to external and internal consultation in industry. Students are introduced to the theoretical and practical aspects of providing organizational consultation, with special consideration given to topics that integrate the competencies needed for applying psychology to organizational environments. Coursework provides an overview of organizational consulting models and frameworks, and focuses on the fundamental steps in the consulting process that lead to high-impact outcomes. The course also includes a review of the organizational psychology literature, as well as ethics guidelines and professional standards governing the practice of organizational psychology.

## OPSY 534, Organizational Systems: Theories of Change, 3 Units

This course engages the idea of organizational change from a systems perspective and approaches content through analysis of theory, praxis, and story. Practical application is explored in regard to how students can and will be equipped to serve as change agents in internal and external consultant roles. Special attention is given to the specific steps involved in identifying the need for change, engaging internal and external stakeholders in the change process, and implementing desired change initiatives.

## OPSY 542, Organizational Implications of Diversity, 3 Units

This course explores theoretical and practical ideas about diversity in organizations, equipping students to identify and engage individual, societal, and organizational dynamics related to 21st-century workplace diversity and inclusion. Students learn about basic psychological processes - including attitudes toward marginalization, structural inequity, privilege, and prejudice - that affect how members of different social groups perceive and interact with one another in organizational settings. Students also engage critical perspectives on the historical, sociocultural, and psychological factors of organizational diversity, explore the ethical implications of navigating complex organizational cultures, and discuss strategies for fostering and sustaining diversity.

## OPSY 590, Statistics for Research in Organizations, 3 Units

This course introduces students to the basic concepts of statistical ideas and methods, equipping them to carry out common statistical procedures and follow statistical reasoning for research in workplace phenomena. Principles of measurement, data summarization, and univariate and bivariate statistics are examined. Emphasis is on the application of fundamental concepts to real-world situations.

**Prerequisite:** Acceptance into the MS in Organizational Psychology program

## OPSY 592, Research Methodology and Survey Applications, 3 Units

Students in this course learn quantitative research techniques of investigation and apply them to psychological activities in organizations. Students also learn principles of survey design. A final project includes developing and administering a psychometrically valid survey for an organization, with students analyzing the data and providing a report of the results.

**Prerequisite:** OPSY 590

## OPSY 595, Introduction to Thesis in Organizational Psychology, 4 Units

This course gives student researchers a directed study focused on preparing a master's thesis in organizational psychology. Students identify a worthy research topic, write a comprehensive literature review, select an appropriate research method, and shape a compelling research proposal.

**Prerequisite:** OPSY 501, OPSY 502, OPSY 503, OPSY 505, OPSY 510, OPSY 515, OPSY 520, OPSY 534, OPSY 542, OPSY 590, OPSY 592, and permission from the department chair.

## OPSY 596, Thesis in Organizational Psychology: Data Collection and Analysis, 4 Units

This course gives student researchers a directed study focused on completing a master's thesis in organizational psychology. Building on the research proposal completed in OPSY 595, students collect and analyze data and present their findings in the form of a completed master's thesis and oral presentation to the thesis committee.

**Prerequisite:** OPSY 595

## PADM 501, Origin of Public Administration, 3 Units

In this introductory course for preservice and midcareer individuals, students learn the theory and practice of public administration. Course material includes an exploration of ethical dilemmas influencing the daily tasks of public administrators, with an emphasis on the core public administration values of accountability, integrity, and leadership and evidence-based decision making for effective and efficient public policy program implementation. Coursework involves textbooks, lectures, discussions, and case studies of application to professional settings to assist managers with problem solving and promote responsive, faithful service that helps vulnerable and diverse populations in our communities.

## PADM 503, The Policy Process, 3 Units

This course offers an in-depth study of the public policy process (analysis, promulgation of statutory laws and administrative rules) and value-based implementation. Public administrators in public, nonprofit, and private organizations must interact with political leaders, administrative staff, and diverse community groups to ensure the implementation of necessary policy programs and services, and that these are accessible to people in need. Coursework involves textbooks, scholarly materials, lectures, discussions, and case assignments.

## PADM 504, Economic and Urban Development, 3 Units

This course prepares students for public-sector organization management. Students learn about community development programs, municipal budgeting and expenditures, grants administration, joint powers agreements, public-private partnerships, nonprofit organizations, fiscal management policies, and county, state, and municipal government economic development programs.

## PADM 505, Public Sector Research Methods, 3 Units

This course is for preservice and midcareer professionals who use research and data as evidence in public administration to advocate for resources, make effective ethical leadership decisions, and implement and evaluate programs. The importance of research in the policy implementation process and in programs run by public and nonprofit managers is examined.

**Prerequisite:** MGMT 516, PADM 501, PADM 503, and PADM 504.

## PADM 510, U.S. Healthcare System, 3 Units

Students in this course examine the American healthcare system, which supports individuals and families regardless of their ability to pay. Students discuss public health systems and federal, state, county, and municipal government systems management, and explore alternatives and improvements to current health administrations while reflecting on their faith traditions as they apply to advancing healthcare practice. This course also provides an overview into the publicly funded California healthcare system, one of the largest and most diverse systems in the United States. This system comprises only 6 percent of the state's hospitals but provides more than 40 percent of hospital care to the uninsured.

## PADM 512, Healthcare Administration, 3 Units

This course covers the foundations of healthcare administration in the United States, introducing students to the structure and function of the healthcare system. Topics include theory and models of healthcare administration, public policy impacts and scarcity, partnerships and achieving equality in healthcare governance at the national, state, and local levels, community environments, and critical issues in health services. Students explore Christian faith-based alternatives for alleviating healthcare burdens, and conduct a community health system analysis.

**Prerequisite:** Admitted to MPA or M.S. in Healthcare Administration program, Nursing, MBA/MBM Program or permission of MPA director.

## PADM 513, Community Health and the Built Environment, 3 Units

The course provides a foundation for administering health and well-being in state and local communities. Students integrate knowledge-based competencies from multidisciplinary research (CAHME, APHA, public policy studies) and apply best practices to assess and suggest policies that can reduce healthcare problems in vulnerable communities. Topics covered include ideas for building healthy environments, demographics of infectious diseases and essential skills for future healthcare professionals. Students conduct a community healthcare system analysis that integrate case studies, audiovisuals, discussions, team assignments and faith-based alternatives to alleviate healthcare burdens.

**Prerequisite:** Admitted to MPA or MS in Healthcare Administration program, Nursing, MBA/MBM Program or permission of MPA director.

## PADM 600A, Community Engagement, 3 Units

This course and PADM 600B Public Administration Capstone are the final courses in the Master of Public Administration (MPA) program. Students in this course participate in activities in diverse communities, identifying trends and issues facing public leaders and thereby enhancing student practice. In consultation with the MPA program director, students participate in fieldwork experiences, learning to apply faith-based principles, theories, and problem-solving strategies in public, nonprofit, and joint-venture partnerships, which also benefits community partners.

**Prerequisite:** Second-year good standing in the MPA program.

# PADM 600B, Public Administration Capstone, 3 Units

The capstone comes at the conclusion of the MPA program and requires application of new knowledge to solve real-world problems. Students demonstrate mastery of foundational management and policy implementation materials and integrate ethical and moral standards, as well as professional experiences, that are at the core of the MPA program. With guidance from the program director and the course instructor, students work with a community partner or client (fieldwork course PADM 600A) to produce a project paper that represents careful planning, research, and fulfillment of course deliverables. Successful completion of PADM 600A and PADM 600B is required for the MPA degree.
**Prerequisite:** Second-year good standing in the MPA program.

# PRBA 110, Business and Entrepreneurship, 3 Units

This course introduces students to the role of business in society and the impact of the social environment on the firm. It acquaints students with the basic functional areas of business, including management, human resources, marketing, finance, and production. Students produce a comprehensive business plan incorporating the functions of business and examining the effect of the business on society. *Meets the General Education Requirement: Civic Knowledge and Engagement.*

# PRBA 111, Business Statistics, 3 Units

Students in this course learn basic statistical concepts and methods of collecting, summarizing, presenting, and interpreting data for the business context. Among the topics covered are differentiation, population, sample, descriptive statistics, variation and skewness, exploratory data analysis with visuals, probability, random variable, sampling distribution, central limit theorem, discrete distributions (binomial, Poisson), continuous distributions (normal, t, exponential, chi-square), confidence interval estimation, hypothesis testing, correlation, regression, and the analysis of variance (ANOVA), to be applied in real-world business situations. *Meets the General Education Requirement: Quantitative Literacy (Math).*
**Prerequisite:** MATH 90 or an appropriate score on the APU mathematics placement assessment.

# PRBA 120, Principles of Accounting I, 3 Units

This course introduces the financial accounting model and application of fundamental accounting principles. The corporate form of business serves as the primary model to demonstrate accounting principles for cash, accounts receivable, inventories, operational assets, liabilities and stockholders' equity.

# PRBA 121, Principles of Accounting II, 3 Units

This course introduces basic managerial accounting concepts and emphasizes the use of accounting data in decision making. Topics covered include cost accumulation models, cost behavior, break-even analysis, variable costing, budgeting, differential analysis, product pricing, capital expenditure analysis, and financial statement analysis.
**Prerequisite:** PRBA 120

# PRBA 125, Business Communications, 3 Units

Students in this course explore current communication technologies and strategies in the modern marketplace to create and deliver audience-focused informative and persuasive messages using credible research, impactful visuals, and professional vocal and physical techniques delivered orally. Students are given scenario-based challenges often encountered in organizational settings and business situations, to help them determine the extent of information needed when communicating with key stakeholders, researching and utilizing credible support materials ethically, organizing information logically, and delivering messages through professional presentations using appropriate visual aids, graphics, posture, gesture, eye contact, and vocal expressiveness. *Meets the General Education Requirement: Oral Communication.*

# PRBA 200, Survey of Economics, 3 Units

This course covers the concepts and tools of economic analysis for microeconomics and macroeconomics. Students study the basics of interactions between firms and consumers: consumer demands, firm costs, price determination under various market structures, and the role of government in a market economy. Students also study the fundamentals of national income and economic growth, interest rates, unemployment, and government fiscal and monetary policies. *Meets the General Education Requirement: Social Science.*

# PRBA 210, Principles of Management, 3 Units

Elements of planning, organizing, leading, and control are covered. Particular emphasis is given to organizing and actuating responsibility and authority, delegation, decentralization, the role of staff, line-staff relationship committees, board of directors, organization charting, formal and informal organization, communication, and reaction to change.

# PRBA 211, Organizational Leadership, 3 Units

This course covers contemporary theories, principles, and practices of leadership within the context of managing businesses and organizations, introducing leadership topics such as change management, leadership development, and organizational communication. Students also explore the emerging concept of followership and the role it plays in organizational failures and successes. Significant attention is given to students' personal assessment and evaluation of their personality, strengths, leadership styles, and work, in order to establish a leadership and management identity. *Meets the General Education Requirement: Social Science.*

## PRBA 212, Managing Diverse Teams and Groups, 3 Units

This course covers essential theories and concepts for analyzing, understanding, and managing various groups and teams in the workplace. Students examine the components that comprise teams, develop skills in diagnosing opportunities and threats that teams face, and build teamwork expertise. Significant time is spent exploring interpersonal processes, conflict resolution, and the many characteristics that influence the effectiveness of a team. This course also gives students an understanding of team diversity - the differences that can exist between individual members, in various areas such as age, nationality, religious background, functional background or task skills, sexual orientation, political preferences, and communication and decision-making styles, among others. *Meets the General Education Requirement: Social Science.*
**Prerequisite:** PRBA 210

## PRBA 213, Negotiation Strategies and Skills, 3 Units

Students in this course learn the basics of negotiation, then research and explore additional techniques that help them establish alternative criteria to expand and build upon their bargaining style. Each student is assessed on negotiating style, role playing, principled negotiation, and information gathering. Emphasis is on topics related to negotiations in a business context.

## PRBA 240, Introduction to Information Systems and Business Applications, 3 Units

This course covers the fundamentals of business information systems, methods, equipment, processes, computer characteristics, and concepts. Students also examine the ethical use of information, information systems, and business applications, and learn to use business applications Formstack, QuickBooks, and Salesforce, with opportunities to earn an Expert Badge in Formstack and ProAdvisor Badge in QuickBooks.

## PRBA 244, Data Analytics, Spreadsheets, and Data Visualization, 3 Units

Integrating knowledge gained in PRBA 240, students gain hands-on experience in analyzing, managing, and reporting data in the business world, and use advanced statistical tools to frame business decisions for operations, finance, forecasting, etc. Students learn data applications of Microsoft Excel, Data Studio, and Tableau, and also have the opportunity to earn an Expert Badge in Excel.
**Prerequisite:** PRBA 240

## PRBA 250, Principles of Macroeconomics, 3 Units

This course introduces concepts and tools of economic analysis for macroeconomics. Students study national income and economic growth, interest rates, unemployment, and government fiscal and monetary policies. *Meets the General Education Requirement: Social Science.*
**Prerequisite:** C- or better in PRMA 110 or 60 or higher on ALEKS math placement assessment.

## PRBA 251, Principles of Microeconomics, 3 Units

This course provides an introduction to concepts and tools of economic analysis for microeconomics. Students study the interactions of firms and consumers: consumer demands, firm costs, price determination under various market structures, and the role of government in a market economy.
**Prerequisite:** C- or better in PRMA 110

## PRBA 260, Marketing Principles, 3 Units

This course provides an introduction to the theory and practical application of marketing principles by examining concepts related to understanding, reaching, and responding to customers.

## PRBA 296, Business Law, 3 Units

The course introduces the laws affecting business transactions. Included is an overview of the legal system as it relates to business and in-depth study of contracts, sales and commercial transactions, and secured transactions.

## PRBA 300, Business Finance for Managers, 3 Units

This course provides an introduction to concepts and tools of business finance for managers. Students study financial statements and their interpretation, business performance measures, the management of cash and the short term financial needs of the organization, and how to make good capital budgeting decisions.
**Prerequisite:** PRBA 120, BBA Majors only

## PRBA 305, Operations Management, 3 Units

In this course, students learn about operations and productivity, operations strategy in a global environment, project management, forecasting, design of goods and services, quality management, process strategy, location strategies, layout strategies, job design and work management, supply chain management, inventory management, aggregate planning, materials requirements planning, scheduling, lean operations, and maintenance and reliability.

## PRBA 313, Introduction to Supply Chain Management and Logistics, 3 Units

This course covers the formulation and implementation of logistics and supply chain strategy for competitive advantage, including analysis of logistics capabilities, enhancement of strategy-supportive capabilities, and integration with strategically chosen supply chain partners.
**Prerequisite:** PRBA 305

## PRBA 314, Supply Chain Sourcing [Proposed], 3 Units

This course introduces students to supply chain sourcing. Students learn how to build and manage supply chains including leveraging supply chains to ensure a steady flow of inputs and supplies to the organization. Course projects include managing supply chains, building alternatives for resilience, and strategic sourcing and procurement.

## PRBA 315, Business System Analytics, 3 Units

This course introduces fundamental concepts and methods of business analysis (or analytics) and examines the role of managers in qualitative and quantitative analysis designed to foster efficient and effective operations of an organization. Emphasis is on understanding the tools and techniques needed for a successful manager in a global organization in the 21st century.

## PRBA 317, Quality Management, 3 Units

This course introduces fundamental concepts and methods of quality management and productivity improvement, and examines the role of managers in designing and implementing programs to improve quality of products and services. Emphasis is on understanding the forces that make quality and productivity critical organizational issues. Student ability to implement quality-management tools, techniques, and processes is demonstrated.

## PRBA 320, Intermediate Accounting I, 3 Units

This course offers an intensive study of the accounting theory and principles underlying financial accounting. Emphasis is placed on the theoretical and conceptual framework of the financial reporting process, including the role and authority of official accounting pronouncements and the responsibilities of professional accountants. This course begins with a review of the accounting model and covers accounting theory as it relates to revenue recognition, current assets including cash, accounts receivable, inventories, and current liabilities.
**Prerequisite:** PRBA 121

## PRBA 321, Intermediate Accounting II, 3 Units

This course offers an intensive study of the accounting theory and principles underlying financial accounting. Emphasis is placed on the theoretical and conceptual framework of the financial reporting process, including the role and authority of official accounting pronouncements and the responsibilities of professional accountants. This course begins with a review of the accounting model and covers accounting theory as it relates to current assets including cash, accounts receivable, inventories, and current liabilities.
**Prerequisite:** PRBA 320

## PRBA 361, Integrated Marketing Communications, 3 Units

Students explore the variety of strategic approaches organizations use in the digital age to connect with consumers and promote ideas, products, or services. Grounded in advertising and public relations communication, course material covers marketing campaigns and practices that have shaped our history, and how today's organizations build value by using branding, storytelling, publicity, medium utilization, and data analytics to create authentic messaging for specific target audiences. Students in this course will have the opportunity to earn an Integrated Marketing Communication Expertise micro-credential badge.
**Prerequisite:** PRBA 260 or MKTG 260, or approval of department chair

## PRBA 364, Sales and Sales Management, 3 Units

In this course, consideration is given to personal sales strategies and practices, including relationship management, negotiation, consultative selling, and key account management. The sales management function, including recruiting and selecting salespeople, motivation and training, compensation plans and quotas, supervising, sales forecasting and budgeting, salesforce evaluation, and the ethics in selling and sales management is covered.
**Prerequisite:** PRBA 260 or instructor consent

## PRBA 368, Retail Management, 3 Units

Students explore the roles and scope of retailing business, characteristics of retailers and consumers, and strategies for managing operations. Course material emphasizes retailing characteristics and activities, multichannel opportunities, retail communication mix, consumer buying behavior, retail market strategy (including location and site strategy), product mix, store layout, merchandising, competition, pricing, and promotion. This course also introduces students to procurement and supply chain logistics, customer relationship management, operations, and employee management. Students in this course have the opportunity to earn a retail management microcredential.
**Prerequisite:** PRBA 260

## PRBA 370, International Business, 3 Units

This course presents a survey of issues in international business, with focus on managing in an international environment, understanding the global monetary system, and developing an international perspective on business operations including production, marketing, finance, and human resources.
*Meets the General Education Requirement: Intercultural Competence.*
**Prerequisite:** PRBA 210

## PRBA 445, Human Resource Management, 3 Units

Students study the human factors in modern business as they are influenced by and effect labor-management interactions, personnel relations, techniques, and procedures.
**Prerequisite:** Acceptance into the School of Business and Management.

### PRBA 448, Organization and Administrative Behavior, 3 Units

Organizational behavior is an interdisciplinary field drawing from psychology, sociology, economics, organization theory, statistics, and other areas. In this course, students gain an understanding of the field and the various research strategies involved as they examine human behavior in organizations, as well as individual, group, and organization-level processes that impact workplace behavior and organizational life. Students are exposed to organizational behavioral science theories and their applications in different management settings and types of organizations, and have an opportunity to engage in experiential and skill-building activities, apply conceptual frameworks in community settings, and develop strategies for increasing stakeholder and civic participation. *Meets the General Education Requirement: Civic Knowledge and Engagement.*
**Prerequisite:** PRBA 210

### PRBA 450, Strategic Management, 3 Units

This course focuses on fundamental decisions in the life of a business: What is the business, and what should it be? What are the objectives? How are priorities set? How are strategic, long-range decisions to be handled? To grow or not to grow-and what is the right size for the business? *Meets the General Education Requirement: Integrative and Applied Learning.*
**Prerequisite:** PRBA 210, PRBA 300, and Senior Status.

### PRBA 466, Digital Marketing, 3 Units

This course helps students understand the latest concepts in digital marketing to apply to organizations. Upon completion of the course, students earn two certifications from Hootsuite, a global leader in social media management - Social Media Marketing and Fundamentals (Analytics) - and students' names are added to a global database of certified specialists.
**Prerequisite:** PRBA 260

### PRBA 495, Writing 3: Business Ethics, 3 Units

This course focuses on the integration of Christian faith, ethical issues, and professional concerns that confront business professionals in the workplace, with particular regard to leadership and transitions. Students in this course explore biblical and moral principles as related to real-life case studies, and have the opportunity to complete in-depth study in a business-related area to further prepare them as effective participants and leaders in the workplace. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*
**Prerequisite:** PRWR 261 and senior Standing

### PRBA 497, Readings, 1-4 Units

This is a program of study concentrating on assigned readings, discussions, and writing arranged between, and designed, by a student of upper-division standing and a full-time professor. An independent study fee is assessed for each enrollment in this class.

### WEB 571, Web Site Design and Development, 3 Units

This course examines fundamental principles of website design, emphasizing considerations of functionality, information architecture, and usability. The course also introduces the students to prototyping tools used to develop and communicate website designs.

### WEB 572, Emergent Information Technologies, 3 Units

This course involves the study of technological change, especially the effects of technological change on society and commerce and how these changes and effects transpire. The course also entails a study of key technologies that are having, or may have, significant effects on society and commerce.

### WEB 573, Relational Database Technology, 3 Units

This course presents the relational database model and explains a process for relational database design, and covers the fundamentals of relational database creation and maintenance. It also explains the use of an application development environment, such as Allaire's Cold Fusion, to develop Web database applications.

### WEB 575, Internet Business and Strategic Management, 3 Units

This course describes how the Internet has created demand for e-business, and how this new economic and technological shift has transformed the way in which business models are created. Major trends driving e-business are identified. E-business application architecture is reviewed. The importance of creating a customer relationship management (CRM) is emphasized. The significance of strategic management is paramount to a sustainable competitive advantage, where enterprise resource planning is being utilized. In this quickly changing environment, knowledge management becomes important to integrate technologies and solutions for organizations. Clarifying strategic objectives with the process improvement, strategic improvement, and business transformation are considered, along with elements of tactical execution options and e-project management.

# Department of Business and Entrepreneurship

The Department of Business and Entrepreneurship is home to numerous undergraduate and graduate programs featuring expert faculty-mentors who help students become ethical experts capable of navigating the ever-changing business landscape.

## Majors

- Business Analytics (BS) (p. 814)
- Business: Economics (BS) (p. 816)
- Business: Entrepreneurship (BS) (p. 817)
- Business: International Business (BS) (p. 819)
- Business Management (BA) (p. 808)
- Human Resources and Organization Development (BA) (p. 810)

## Minors

- Minor in Business Analytics (p. 832)
- Minor in Business Management (p. 833)
- Minor in Economics (p. 834)
- Minor in Entrepreneurship (p. 835)
- Minor in Foundations of Business (MBA Preparation) (p. 837)
- Minor in Foundations of Management (MBM Preparation) (p. 837)
- Minor in Human Resources (p. 838)
- Minor in International Business (p. 839)

## Master's

- Master of Business Administration (MBA) (p. 825)
- Master of Business Management (MBM) (p. 828)

## Professional

- Bachelor of Business Administration (BBA) (Bachelor's Completion Program) (p. 812)
- Minor in Business Administration (Professional) (p. 831)

## Certificates

- Certificate in Change Strategies for Consulting (p. 821)
- Certificate in Data Analysis and Visualization (p. 821)
- Certificate in Foundations of Human Resources (p. 822)
- Certificate in Government Budgeting (p. 823)
- Certificate in Leadership Development (p. 823)
- Certificate in Project Management (p. 824)
- Certificate in Supply Chain and Logistics (p. 824)

# Courses

## BUSI 100, Personal Finance, 3 Units

This course covers financial challenges that our society faces, the impact that they have on our society, and personal and social responsibilities related to these issues. In addition, the course offers students power over financial resources, freedom to give generously, insight for better citizenship, and civic engagement opportunities. *Meets the General Education Requirement: Civic Knowledge and Engagement.*

## BUSI 109, Business Mathematics, 3 Units

Students in this course learn the basic concepts and practices of business mathematics, including business algebra, business calculus, and statistics. Topics include differentiation and statistics such as population and sample, descriptive statistics, variation and skewness, exploratory data analysis with visuals, probability, random variable, sampling distribution, central limit theorem, discrete distributions (binomial, Poisson), continuous distributions (normal, t, exponential, chi-square), confidence interval estimation, hypothesis testing, correlation, regression, and the analysis of variance (ANOVA) for business students.
**Prerequisite:** MATH 90 or an appropriate score on the APU mathematics placement assessment.

## BUSI 110, Business and Entrepreneurship, 3 Units

Students in this course learn about the role of business in society and the impact of the social environment on the firm, and become acquainted with the basic functional areas of business, including management, human resources, marketing, finance, and production. Students produce a comprehensive business plan incorporating the functions of business and examining the effect of the business on society. *Meets the General Education Requirement: Civic Knowledge and Engagement.*

## BUSI 111, Business Statistics, 3 Units

Students in this course learn basic statistical concepts and methods of collecting, summarizing, presenting, and interpreting data for the business context. Among the topics covered are differentiation, population, sample, descriptive statistics, variation and skewness, exploratory data analysis with visuals, probability, random variable, sampling distribution, central limit theorem, discrete distributions (binomial, Poisson), continuous distributions (normal, t, exponential, chi-square), confidence interval estimation, hypothesis testing, correlation, regression, and the analysis of variance (ANOVA), to be applied in real-world business situations. *Meets the General Education Requirement: Quantitative Literacy (Math).*
**Prerequisite:** MATH 90 or an appropriate score on the APU mathematics placement assessment.

## BUSI 120, Business Communications, 3 Units

Students in this course explore current communication technologies and strategies in the modern marketplace to create and deliver audience-focused informative and persuasive messages using credible research, impactful visuals, and professional vocal and physical techniques delivered orally. Students are given scenario-based challenges often encountered in organizational settings and business situations, to help them determine the extent of information needed when communicating with key stakeholders, researching and utilizing credible support materials ethically, organizing information logically, and delivering messages through professional presentations using appropriate visual aids, graphics, posture, gesture, eye contact, and vocal expressiveness. *Meets the General Education Requirement: Oral Communication.*

## BUSI 213, Negotiation Strategies and Skills, 3 Units

Students in this course learn the basics of negotiation, then research and explore additional techniques that help them establish alternative criteria to expand and build upon their bargaining style. Each student is assessed on negotiating style, role playing, principled negotiation, and information gathering. Emphasis is on topics related to negotiations in a business context.

## BUSI 240, Introduction to Information Systems and Business Applications, 3 Units

This course offers the fundamentals of business information systems, methods, equipment, processes, computer characteristics, and concepts. Students also examine the ethical use of information, information systems, and business applications. The business applications of Formstack, QuickBooks, and Salesforce are taught with opportunities to earn an Expert Badge in Formstack and Competency Badge in QuickBooks.

## BUSI 244, Data Analytics, Spreadsheets, and Data Visualization, 3 Units

Integrating knowledge gained in BUSI 240, students gain hands-on experience in analyzing, managing, and reporting data in the business world, and use advanced statistical tools to frame business decisions for operations, finance, forecasting, etc. Students learn data applications of Microsoft Excel, Data Studio, and Tableau, and also have the opportunity to earn an Expert Badge in Excel.
**Prerequisite:** BUSI 240

## BUSI 246, Foundations of Business Analytics, 3 Units

Students in this course gain a basic understanding of data analytics to solve business problems. Students learn introductory use of Python, in an integrated environment.
**Prerequisite:** BUSI 111 or instructor's permission

## BUSI 296, Business Law, 3 Units

The course introduces the laws affecting business transactions. Included is an overview of the legal system as it relates to business and in-depth study of contracts, sales and commercial transactions, and secured transactions.

## BUSI 311, Quantitative Analysis for Management, 3 Units

This course comprises an overview of quantitative methods used to make data-driven decisions in business. Management tools include statistical analysis, simulation, and linear programming. The application of quantitative methods in project management, inventory management, time series forecasting, and data visualization is explored. Student evaluation is based on participation, assignment completion, exams, and a group project. This course prepares students to enter a changing business climate that requires knowledge of how to analyze data and create reports that help senior management make informed business decisions.
**Prerequisite:** BUSI 111

## BUSI 314, Big Data Analytics for Business, 3 Units

This course introduces students to the evolving domain of data science and business analytics, helping them understand the processes and tools for analyzing big data and discovering new information to support managerial decision-making. Students solve problems across all areas of business with descriptive, diagnostic, predictive, and prescriptive analytics. Main topics include a robust study of basic statistics, data visualization, exploratory data analysis, linear regression, logistic regression, ridge regression, classification, clustering, decision tree analysis, text analytics, and more. These skills are foundational for anyone interested in a career in big data analytics/data science, and they are beneficial for every manager in today's data-rich economy.
**Prerequisite:** BUSI 111 or instructor's permission

## BUSI 350, Business Internship, 3 Units

This course gives students the opportunity for practical application of principle and theory in an actual business setting through an internship. Students learn to set objectives and measure performance against those objectives in the business setting through a structured reporting process with the instructor. *Meets the General Education Requirement: Integrative and Applied Learning.*
**Prerequisite:** Completion of 60 units and instructor's permission.

## BUSI 370, International Business, 3 Units

This course presents a survey of issues in international business, with a focus on managing in an international environment, understanding the global monetary system, and developing an international perspective on business operations including production, marketing, finance, and human resources. *Meets the General Education Requirement: Intercultural Competence.*
**Prerequisite:** MGMT 210

## BUSI 405, Business Report Writing, 3 Units

Students practice writing clear, well-organized, effective formal and informal reports. Evaluation and preparation of business reports, utilizing business research methods and communication techniques are emphasized. Management of data and the use of graphics also are included.

## BUSI 414, Application of Business Analytics, 3 Units

This course gives students opportunities for practical application of advanced analytics tools and techniques to real-world problems to help business professionals make data-driven decisions. Students learn to manipulate real-world big data sets, develop the most appropriate models, evaluate AI/ML-based models, and create technical reports that describe their findings. Main topics include data wrangling, advanced data exploration methods, advanced data visualization techniques, linear/logistic/polynomial regression models, classification, decision trees, clustering, neural networks, text mining, financial technology, and more. This class is accessible for students who do not have good math/statistics foundations and technical backgrounds; no coding skills or experience required.
**Prerequisite:** BUSI 111 or instructor consent, BUSI 244, BUSI 314

## BUSI 430, Money and Banking, 3 Units

This course includes a study of monetary theories and banking principles, with special reference to contemporary developments in money and banking in the United States, the Federal Reserve System, and financial investment.
**Prerequisite:** ACCT 121, ECON 250, and ECON 251

## BUSI 495, Writing 3: Business Ethics, 3 Units

This course focuses on the integration of Christian faith, ethical issues, and professional concerns that confront business professionals in the workplace. Students explore biblical and moral principles for ethical analysis and reflection, and utilize the case method to research and write managerial responses to current ethical dilemmas in the workplace. This course fulfills the General Education Writing 3 requirement and is recommended for all business majors. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*
**Prerequisite:** Writing 2

## BUSI 496, Senior Seminar: Business Ethics, 3 Units

This course focuses on the integration of Christian faith, ethical issues and professional concerns, which confront business professionals in the workplace with particular concern for leadership and transitions. The course will explore biblical and moral principles as related to real life case studies. In addition, the course offers the student the opportunity to complete in-depth study in a business related area to further prepare them as effective participants and leaders in the workplace. *Meets the General Education Requirement: Integrative and Applied Learning.*
**Prerequisite:** Senior standing and upper-division writing intensive course, majority of God's Word and the Christian Response

## BUSI 497, Readings, 1-4 Units

This is a program of study concentrating on assigned readings, discussions, and writing arranged between, and designed by, a student of upper-division standing and a full-time professor. An independent study fee is assessed for each enrollment in this class.

## BUSI 511, Big Data and Business Analytics, 3 Units

This course helps students understand the tools and processes for analyzing big data and discovering new information to support managerial decision making. Students solve problems across all areas of business with descriptive, diagnostic, predictive, and prescriptive analytics. Main topics include data preprocessing with database/SQL; descriptive analytics; exploratory data analysis and data visualization; diagnostic analytics such as linear regression and logistic regression; predictive analytics; and prescriptive analytics. Students also have an opportunity to earn a badge in business analytics.

## BUSI 513, Introduction to Supply Chain Management and Logistics, 3 Units

This course covers the formulation and implementation of logistics and supply chain strategy for competitive advantage, including analysis of logistics capabilities, enhancement of strategy-supportive capabilities, and integration with strategically chosen supply chain partners.

## BUSI 514, Operations Management, 3 Units

Different business strategies require different processes, and each strategy utilizes unique capabilities to gain competitive advantage. Students in this case-based course use a process view of operations to analyze key dimensions such as capacity planning, cycle time management, role of technology, logistics and supply chain management, and quality management. Students also connect to recent developments such as lean or world-class manufacturing, just-in-time operations, time-based competition, and business reengineering.

## BUSI 515, Artificial Intelligence (AI) and Machine Learning (ML) for Business, 3 Units
This course focuses on practical applications of AI/ML tools and techniques to real-world problems to help business professionals with their data-driven decision making. Students learn how to manipulate real-world big datasets, develop most appropriate prediction models, evaluate AI-/ML-based models, and create technical reports that describe their findings. Main topics include advanced data visualization techniques, linear/logistic/polynomial regression models, classification, decision trees, clustering, association rules, neural networks, text mining, financial technology, and more. Students also have an opportunity to earn a badge in business intelligence.

## BUSI 516, Organizational Behavior, 3 Units
This course provides students with the social science tools needed to solve organizational problems and influence the actions of individuals, groups, and organizations. It prepares managers to organize and motivate the human capital of the firm, manage social networks and alliances, and execute strategic change through knowledge of competitive decision making, reward system design, team building, strategic negotiation, political dynamics, corporate culture, and strategic organizational design. Case based.

## BUSI 517, Quality Management, 3 Units
This course introduces fundamental concepts and methods of quality management and productivity improvement, and students examine the role of managers in designing and implementing programs to improve the quality of products and services. Emphasis is on understanding the forces that make quality and productivity critical organizational issues. Student ability to implement quality-management tools, techniques, and processes is demonstrated.

## BUSI 519, Research Design and Program Evaluation for Nonprofits, 3 Units
This practical methods course focuses on the available literature and research studies in the public and nonprofit sectors. In addition, it prepares students in such areas as setting research objectives, respondent selection/sample size, questionnaire development, evaluation, and the merits of conducting research in-house versus using an outside consultant or research firm. The course also covers qualitative research techniques, including depth interviews and focus groups. It includes a unit on copy testing (of brochures, direct mail, print, and video) to evaluate message communication before or after production.

## BUSI 522, Private Enterprise and Public Policy, 3 Units
This course provides an introduction to political economy, the role of government in a mixed economy, business-government relations, the public policy process, regulation of business, corporate political activity, and the creation of businesses to capitalize on opportunities driven by legislative or regulatory action. Case based.

## BUSI 523, Manufacturing Operations, 3 Units
This course provides an understanding of the concepts, methodologies, and applications of production operations management. Focus is on analysis and study of production methods and procedures available to line and staff management in various-sized U.S. and global business operations. Significant attention is given to decision-making processes appropriate for manufacturing or service organizations, including tactical and operational considerations. Coursework stresses the need and reasons for input, involvement, and interaction of operations personnel with all other disciplines and areas of a business organization.

## BUSI 528, Consulting for Organizations, 3 Units
This course provides an overview of the consulting and advisory process as it relates to external and internal consultation in industry. The course focuses on various aspects of the consulting process life cycle such as gaining and retaining clients, developing proposals and engagement letters, defining client needs and diagnosing problems, utilizing effective data collection and analysis methodologies, documenting information gathered, developing solutions, presenting recommendations, and managing project requirements. Several types of consulting services and related issues are addressed. Students gain experience in basic consulting skills by completing a real-life consulting project and presenting their findings orally and in writing.
**Prerequisite:** MGMT 521

## BUSI 530, Capstone Project: Entrepreneurial Emphasis, 3 Units
The project integrates the learning experience with a plan for development and implementation of a new, untried venture. The completed project describes the product or service offered, including necessary financing, proposed staffing, market size and niche, and the timetable associated with each element. Oral defense before a faculty panel completes the experience.

## BUSI 532, Ethical Issues in Nonprofit Management, 3 Units
Following introductory class sessions on moral philosophy and democratic capitalism, students explore a variety of issues/decisions confronting leaders/managers. Case study situations include such areas as stewardship, truth in advertising, social (behavior change) marketing, marketing research (privacy and confidentiality); corporate responsibility, board/staff relations (accountability), individual responsibility (limits of welfare), and global issues (government corruption, labor practices, etc.).

## BUSI 542, Managing Cultural Differences, 3 Units
Students learn how to identify, analyze, and plan for those elements within the cultural, economic, and political environments of international business that require specialized understanding and strategy for successful management or organized enterprise.

## BUSI 543, International Trade and Finance, 3 Units

Students learn about the financial-monetary-economic environment of international business. Topics include the balance of payments, foreign exchange markets and risk, trade finance, direct foreign investment, capital budgeting in the multinational firm, and the international money and capital markets. Emphasis is placed on decision making with regard to international investment and financing.

## BUSI 548, International Business, 3 Units

This course covers the various strategies businesses use in worldwide operations. Students explore the development of business strategies, the motivations for firms to expand operations globally, organizational challenges, and managerial implications. Students also examine political, economic, and social factors that shape the international business environment. The course focuses on competitive responses to these external pressures and identifies strategic models or approaches. Organizational capabilities, structures, and systems are examined to deliver optimal results. The necessary processes to acquire cross-border knowledge for creating joint ventures and alliances are examined. Finally, the future role of Multi-National Enterprises (MNE's) for the global economy is explored. Case and simulation based.

## BUSI 550, Capstone Project: International Emphasis, 3 Units

Students submit a business plan that summarizes the major areas within international business from organization to quantitative methods. Methodology and underlying theories are presented through an exploration of the present international business environment. Oral defense of the completed project before a faculty panel is required.

## BUSI 551, Situation Analysis and Diagnosis, 3 Units

This course introduces the purpose, methods, and skills of situation analysis and diagnosis in carefully selected case studies. Students benefit from a focused approach to interpreting, understanding, and developing skills to discover appropriate conclusions in differing business environments and situations.

## BUSI 552, Comparative Management, 3 Units

The course enables the international business student to understand how management objectives, goals, practices, and business-government interaction are related to the cultural settings in which they take place. The course includes: analysis of international similarities and differences in managerial functions, structure and process, etc., in light of environmental factors; identification of the impact and results of different management practices; and an inquiry into the "universals" of management.
**Corequisite:** BUSI 551

## BUSI 555, Integrated Decision Making in Nonprofits, 3 Units

This course, taken in the student's final semester, develops the students' ability to understand the decision-making process and execute the steps involved in identifying, evaluating, and implementing an effective business strategy for a nonprofit organization. The purpose is achieved as students identify their organization's mission, primary customers, and specific goals by integrating the functional knowledge acquired in previous nonprofit courses (i.e., management, marketing, finance, research, ethics, etc.) and by developing a comprehensive strategic plan for a new organization, an existing organization, or from the perspective of an organization that wants to review its current offerings. As such, the course also examines factors unique to a nonprofit (e.g., involvement of the board and lay members, government funders, communication with various customer groups, and assuring congruence between organizational mission and the strategic plan).

## BUSI 561, Fund Development: Planning, Implementing, and Evaluation, 3 Units

This course examines the principles and methods of fundraising that respond to one's understanding of what donors, funders, and volunteers value, that is, what inspires their giving and how to develop and nurture these relationships. It uses case studies to demonstrate successful/unsuccessful promotional techniques, including advertising campaigns, direct mail, and special events. It also explores such areas as if/when to use consultants and special forms of planned giving. Finally, the course includes units on philanthropy/corporate giving and foundations, as well as a unit on grant writing.

## BUSI 562, Effective Nonprofit Leadership and Management, 3 Units

This course addresses the questions: What are the characteristics of effective leadership and management? How can one organize for success and evaluate/strengthen the work already done? It explores the fundamental challenges to effective leadership including defining and articulating the organization's mission, identifying and understanding the multiple "customers" served, and identifying and prioritizing the critical managerial tasks that must be successfully executed. As such, it examines the roles of the executive director, the board, staff, and volunteers. Finally, this course introduces students to the Drucker Formulation Self-Assessment Tool for Nonprofit Organizations based on management expert Peter F. Drucker's principles of management.

## BUSI 563, Public Accounting: Legal and Financial Issues in Nonprofit Management, 3 Units

This course introduces the legal and financial issues relevant to managing a 501 (c)(3) nonprofit organization. Issues addressed include organizing the entity, qualifying for and maintaining nonprofit status, fundraising, and nonprofit enterprise. Financial areas covered include the principles of fiscal responsibility for nonprofits as well as cost accounting, budgeting, the presentation of financial statements, proposed development, and in-kind resources.

## BUSI 564, Strategic Marketing for Nonprofits, 3 Units

This course provides an introduction to the field of strategic marketing of nonprofit organizations (e.g., educational institutions, churches, the public and social sectors, health services, and the arts). The course texts, outside readings, videos, case studies, and class exercises focus on understanding three areas of effectiveness: 1) what makes an organization effective or not; 2) how individuals can improve their own effectiveness as managers, staff, or volunteers; and 3) how promotional strategies can be used to enhance the organization's effectiveness.

## BUSI 569, Nonprofits in America: History, Philosophy, and Tradition, 3 Units

This introductory course traces the history, philosophy, and societal role of nonprofits in the United States and how the independent sector today compares organizationally to business and government. As such, it examines the roles of government (at the state and federal levels), religion and churches (including constitutional issues), business (corporate philanthropy), and the rights/responsibilities of individuals (e.g., natural law and contemporary public policy).

## BUSI 576, Business Internship, 3 Units

This course gives students an opportunity to apply educational principles, theory, and disciplinary skills to a position with an organization, either for-profit or not-for-profit. Students are responsible for obtaining employment, and must submit the application for appropriate internship approvals. They also learn to set objectives and measure performance against those objectives in a business or related setting through a structured reporting process with the instructor. Projects and assignments are due throughout the term.
**Prerequisite:** Appropriate employment for internship, completion of 30 units of coursework, and instructor's permission.

## BUSI 577, Global Field Study, 3 Units

This course provides the framework for graduate students to register for and complete a global field study in various countries around the world. During the course, students conduct corporate visits to business firms locally and around the globe to discuss how they apply and practice the business management principles, concepts and theories covered in the graduate curriculum.

## BUSI 581, Strategic Leadership, 2 Units

Students learn to set an organization's strategic direction, align corporate organizational structure to implement strategy, and lead individuals. Students explore the power and strategic importance of their own formation and identity as a leader in creating value, mobilizing resources around opportunities, and influencing others through their corporate role. Class discussions serve as a framework for exploring high-performance impact, corporate culture, reputation, leading strategic change, and leadership theories and styles, with particular attention to servant leadership as an extension of a Christian worldview. Students further explore informal and formal authority and the strategic connection between personal leadership and organizational effectiveness.

## BUSI 583, Integrated Decision Making, 3 Units

Students seek to develop the capability to appreciate and carry out the decision-making processes involved in identifying, evaluating, selecting, and implementing strategy in a company. This purpose is achieved by requiring the student to set goals, analyze business problems, develop a framework for making decisions to reach these goals, integrate the functional knowledge acquired in previous courses, and experience, through computer simulation business cases, the processes and functions performed by executive officers in meeting goals, and coping with an uncertain business environment.

## BUSI 590, Capstone Project, 3 Units

This comprehensive capstone, intended for students with extensive workplace experience, gives students an opportunity to integrate their learning through the formulation of a corporate report providing strategic direction to a national, international, or global business. The completed strategic plan describes the general economic process applied to a business selected by the student: seasonal sales cycle, inflation/recession tendencies, and product life cycle. Emphasis is placed on the development of strategies, economic analysis, and flexibility of strategic alternatives within the plan.
**Prerequisite:** MGMT 578

## BUSI 591, Marketing Strategy for Competitive Advantage, 3 Units

This course concentrates on the strategic issues encountered in marketing, in terms of total corporate and business strategy. Emphasis centers on matching internal strengths with outside opportunities, giving attention to weaknesses of the firm and threats from the environment. The goal is attainment of a sustainable competitive advantage.
**Prerequisite:** MGMT 578

## BUSI 592, Financial Strategy for Competitive Advantage, 3 Units

This seminar stresses the enterprise-wide view of the strategic management of financial resources. Lectures and case studies present the tools and perspective necessary to gain a competitive advantage through financial management.
**Prerequisite:** FIN 513 and MGMT 578

## BUSI 593, Manufacturing Strategy for Competitive Advantage, 3 Units

This course concentrates on the strategic issues encountered in the manufacturing processes. Manufacturing is recognized as an important strategic resource which can provide major competitive strengths for a business. Today's manufacturing managers must look to the future to plan, set objectives, initiate strategy, establish policies, and commit resources. The goal is attainment of a sustainable competitive advantage.
**Prerequisite:** MGMT 578

## BUSI 594, Emerging Trends in Information Technology, 3 Units

This course, intended for students without a background in information technology (IT), surveys current topics in IT and their impact on business, management, organizations, and society. Course topics include business intelligence, cybersecurity, business analytics, social networks, data visualization, agile software development, and business process management. Students develop a sufficient understanding of how organizations can utilize technologies, get hands-on skill development using real-world tools and deliverables, and explore management and organizational issues associated with technological change.

## BUSI 595, Capability Design and Management of Strategic Change, 3 Units

Management capabilities and components, strategic diagnosis, and capability design are addressed. The course introduces state-of-the-art, real-time planning systems, including crisis management. Evaluation of organizational dynamics during discontinuous strategic changes is addressed. Strategic diagnosis and capability design are applied to a successful operation of a corporate firm.

## BUSI 596, Special Topics in Business, 1-3 Units

This course presents timely and new topics in business. Different material is covered each time the course is offered. The course may be repeated for credit. Some topics require prerequisites, which vary according to the topic.

## BUSI 597, Field Experience, 2 Units

This program of study exposes students to the inner workings of several different organizations, research and development, and manufacturing facilities. The commonalities and differences students observe stimulates their thinking with regard to what matters and what works. The course consists of an intensive fieldwork experience as well as assigned readings that focus on firsthand experiences of business leaders. Grading is Pass/Fail.

## BUSI 598, Executive Seminar, 1 Unit

This seminar introduces contemporary issues within business, human resources, and/or organizational development, and their impact on organizational effectiveness. Seminars focus on skill development to improve working environments and interactions among employees, leaders, organizations, and communities. May be taken three times with different topics.

## BUSI 599, Readings in Business, 1-3 Units

Students may enroll in an independent study for unit credit to investigate subjects and interests that lie beyond regular course offerings, explore topics in greater depth, and/or initiate individual projects. Such requests must be developed in consultation with a sponsoring faculty member and be approved by the graduate program chair and dean. Unit credit varies depending on the scope of the study plan.

## ECON 200, Survey of Economics, 3 Units

This course covers the concepts and tools of economic analysis for microeconomics and macroeconomics. Students study the basics of interactions between firms and consumers: consumer demands, firm costs, price determination under various market structures, and the role of government in a market economy. Students also study the fundamentals of national income and economic growth, interest rates, unemployment, and government fiscal and monetary policies. *Meets the General Education Requirement: Social Science.*

## ECON 250, Principles of Macroeconomics, 3 Units

This course provides an introduction to concepts and tools of economic analysis for macroeconomics. Students study national income and economic growth, interest rates, unemployment, and government fiscal and monetary policies. *Meets the General Education Requirement: Social Science.*

## ECON 251, Principles of Microeconomics, 3 Units

This course provides an introduction to concepts and tools of economic analysis for microeconomics. Students study the interactions of firms and consumers: consumer demands, firm costs, price determination under various market structures, and the role of government in a market economy.
**Prerequisite:** C- or better in MATH 110 or MATH 151 or MATH 165, or 60 or higher on the ALEKS math placement assessment.

## ECON 350, Intermediate Macroeconomics, 3 Units

This course covers more complex economic models applicable to the study of such topics as economic growth; the effects of monetary policy on business cycles, prices, and interest rates; government spending and debt; and the macroeconomy with trade.
**Prerequisite:** ECON 200

## ECON 351, Intermediate Microeconomics, 3 Units

Material in this course expands on the concepts and tools of economic analysis. Students explore more in-depth models of interactions in society: consumer choice, firm decisions, perfect and imperfect competition. Issues of uncertainty and strategic interaction are addressed, as well as extensions to multiple markets.
**Prerequisite:** ECON 200

## ECON 355, Environmental Economics, 3 Units

Students in this course apply economic perspectives and analytical tools to the study of environmental problems, focusing on the effects of business activities on the environment and the effects of environmental policy on business.
**Prerequisite:** ECON 200

## ECON 356, Labor Economics, 3 Units

This course covers the allocation of labor in a society among its various possible uses. Students consider the role of markets in allocating this labor, issues of market power, and the role of government policy in accomplishing social objectives. Wage determination, job search, and labor productivity are also discussed.
**Prerequisite:** ECON 251

## ECON 357, Economics of the Developing World, 3 Units

This course introduces students to the economic and social issues confronting the majority of people in the world. Students survey the current conditions of people in the developing world and build ways of understanding the complex issues these people face. Using these tools, students examine economic and financial infrastructure, political conditions, levels and trends in poverty and income distribution, job creation and economic growth, health and education, and environmental conditions, which all affect the state of "development" of a people.
**Prerequisite:** ECON 250 and ECON 251

## ECON 359, Urban and Regional Economics, 3 Units

This course combines the disciplines of economics and geography. Economic interactions among individuals, firms, and governmental units are analyzed geographically by focusing on central cities, suburbs, and outlying regions. Within this urban and regional context, this course places particular emphasis on market forces, land use, transportation, crime, housing, and local government. *Meets the General Education Requirement: Civic Knowledge and Engagement.*
**Prerequisite:** ECON 200

## ECON 371, Comparative Economics, 3 Units

Students are offered an integrated treatment of policy, institutions, business, and international trade theory within the different types of economic systems. The values that societies hold are examined as reasons for why different systems are chosen in different countries. The course studies the economics of both market economies and socialist economies, examining their domestic and international policies toward economic interactions.
**Prerequisite:** ECON 250

## ECON 452, Econometrics, 3 Units

This course introduces students to econometric analysis to better understand the economic environment. Cross-sectional regression analysis and time series methods are covered, and serial correlation and heteroskedasticity are addressed. Panel data methods are introduced, as well as such topics as instrumental variables and simultaneous equation estimation.
**Prerequisite:** ECON 350; ECON 351 (may be taken concurrently); BUSI 111

## ECON 453, Microfinance and Microenterprise, 3 Units

Microfinance and microenterprise development are strategies for strengthening the economic opportunities of poorer households to enable families to build assets, provide income, and plan for a better future. This course examines these approaches in depth and evaluates the effectiveness of various projects at accomplishing their stated goals.
**Prerequisite:** ECON 250, ECON 251, and Junior Standing

## ECON 454, Industrial Organization and Regulation, 3 Units

This course investigates the importance of market structure for firm and consumer outcomes beyond the standard perfect competition and monopoly models. Students will learn to incorporate real world attributes into their understanding of market activity through case studies and advanced market models. Topics to be addressed include cartels, entry and exit, oligopoly, price discrimination, and research and development.
**Prerequisite:** ECON 351; ECON 350 (may be taken concurrently)

## ECON 458, Economics and Religion, 3 Units

This course provides students an opportunity to examine the relationship between religion and economic life in terms of individuals' actions and the elements of the economic system. In particular, students examine the relationship between economic behavior/institutions and Islam, Confucianism, and Christianity.
**Prerequisite:** ECON 350, ECON 351 (may be taken concurrently), Junior Standing.

## ECON 495, Special Topics in Economics, 3 Units

This course presents timely and new topics in economics. Different material is covered each time the course is offered. The course may be repeated for credit. Some topics require prerequisites, which vary according to the topic.

## ECON 497, Readings, 1-4 Units

This program of study concentrates on assigned readings, discussions, and writing arranged between and designed by a student of upper-division standing and a full-time faculty member.

## ECON 502, Business Economics, 3 Units

This course provides a survey of the concepts and tools of economic analysis of both microeconomics and macroeconomics. Students study the basics of interactions between firms and consumers: consumer demands, firm costs, production decisions, resources utilization and price determination under various market structures, market entry and exit decisions, and the role of government in the markets of an economy. Students learn the basic mathematical models needed to begin analyzing business decisions. Students also develop basic tools to analyzing the fundamentals of national income and economic growth, interest rates, unemployment, and government fiscal and monetary policies. A number of current national and international issues will be analyzed using these tools.

## ECON 521, Managerial Economics, 3 Units

Students learn to think strategically about the economic environment in which a firm operates. The first half of the course covers the foundations of microeconomics (supply and demand, market price and output, production, cost, and simple competitive market equilibrium). The second half deals with applying microeconomic theory to economic strategy, including more sophisticated pricing and competitive strategies. Case based.

## ECON 575, Global Business Economics, 3 Units

This course covers the concepts of global economics, measurement of economic performance, macroeconomic indicators affecting the global business environment, sources of country-specific economic data and data evaluation, microeconomic analysis of decisions in multinational firms, and economic performance forecasting. It also explores the global economic environment of business, including socioeconomic goals and policies that impact multinational business performance and global business strategies, as well as international economic forces influencing business decisions and the firm. It further explores global business economic cases featuring methodology and research perspectives of economics and the contribution of the economics paradigm to business decisions and processes.
**Prerequisite:** ECON 521

## ENTR 210, Small Business Ventures, 3 Units

Students in this course apply their leadership, problem-solving, and strategy skills to consider how winning entrepreneurs think, act, and perform, then establish goals to practice emulating those actions, attitudes, and strategies. New venture creation is about the process of getting a new venture started, growing the venture, successfully harvesting it, and starting again.
**Prerequisite:** BUSI 110

## ENTR 312, Creativity and Innovation, 3 Units

Students in this course investigate innovation in the corporate setting and the personal creative process, with an emphasis on understanding the role innovation plays in corporate success. Via lectures and personal exercises that build information content and a repertoire of specific techniques, students learn and apply the practical toolkit for sharpening and implementing their innovative and creative skills.

## ENTR 314, Entrepreneurial Management, 3 Units

Students apply their creative and innovative talents while sharpening their analytical abilities. Students will develop a new business idea and craft it into a comprehensive business plan that details the qualitative (e.g. business modeling and milestone planning) and quantitative (financial forecasts and valuation) process of bringing a new venture idea to fruition. The business plan that each team develops is an operating plan for a start-up company or a new venture within a larger corporation.
**Prerequisite:** ENTR 310

## ENTR 315, Social Entrepreneurship, 3 Units

Social entrepreneurship is an emerging and rapidly changing field dedicated to the starting and growing of social mission-driven ventures - organizations that strive to advance social change through innovative solutions. This course exposes students to viable business models in social enterprise, focusing on the ideas, process, steps, and strategies required for creating new social ventures. Through lectures, case studies, and classroom dialogue, students will learn to think strategically and to act opportunistically with balanced social and financial perspective.
**Prerequisite:** BUSI 110

## ENTR 420, Entrepreneurship and Innovation Practicum, 3 Units

This course gives students practical experience through guest speakers and company visits, and through work in an entrepreneurial or innovative organization, with students translating those experiences into academic learning. With close guidance from practicum faculty, students identify and work with a business or a public or nonprofit organization. Working individually or in small teams, students complete a defined project of approximately 100 hours that has practical value and academic rigor. Students provide regular status reports and receive faculty coaching during the practicum.
**Prerequisite:** Junior standing

## ENTR 520, Entrepreneurial Decision Making, 3 Units

This course covers the tactical and strategic decisions that are essential for successfully starting and managing a new business. The course provides the framework for students to learn the application of practical business knowledge and tactics in transforming entrepreneurial vision into winning business strategies and thriving entrepreneurial ventures. Students learn the techniques for successful entrepreneurial decisions, including modeling successful business and strategic plans; effectively targeting, evaluating, and identifying alternate financing sources; competitive pricing, product differentiation, and market targeting as key drivers for sales growth and profitability; and effective competitive and risk assessment, analysis, and management.

## ENTR 524, New Venture Creation, 3 Units

Students review the experiences entrepreneurs encounter in conceiving and launching a business. The course combines personal assessment and involvement exercises with an emphasis on group interactions, personal planning, and contemplating an entrepreneurial career. Team activities, personal planning exercises, new venture simulation, and case studies are utilized. Students analyze factors affecting purchase decisions in the marketplace, apply behavioral and social science concepts to the study of buyer behavior, and study methods that organizations use for personal selling, sales promotion, public relations, the art of negotiating, and other forms of promotion to communicate with customers and prospects.

## ENTR 525, Entrepreneurial Venture Analysis, 3 Units

This course covers case studies and analysis of entrepreneurial ventures and the identification of the different ways management concepts and techniques are applied in developing innovative businesses, standardizing products, designing processes, and operating tools. The course explores the identification of the systems and analytical decision models applied in various entrepreneurial operating functions and the techniques for setting performance standards and designing the activities required to drastically upgrade the yield from resources in order to create new markets and new customers. It evaluates the complex dynamics of entrepreneurial challenges in modern theory and practice through the use of case studies of entrepreneurial ventures.

## HROD 250, HR Life Cycle: Hiring to Retiring, 3 Units

In this course, students gain an in-depth and practical perspective of employee staffing, compensation, and benefits spanning from prior to an employee's hire until after they leave the organization. Special attention is given to the six stages of the employee life cycle: attraction, recruitment, onboarding, development, retention, and separation.

## HROD 351, Talent Enhancement: Training, Development, and Engagement, 3 Units

This course gives students hands-on experience with the employee training life cycle as they learn about employee development and engagement. Students develop an employee training program that helps employees learn specific knowledge or skills to improve performance, and also examine the components of employee development-a more expansive strategy that focuses on employee growth and future performance rather than an immediate job role.
**Prerequisite:** HROD 250

## HROD 352, Employee Relations, 3 Units

In this class, students study the legal and social dynamics of HR as a valued partner in employee care. Students examine the handling of grievances, discipline, and labor relations in union and nonunion shops. Concepts related to an organization's strategic effort to maintain a positive relationship with its employees, including the complex interrelations between employers and employees, labor/trade unions, employer organizations, and the state, are reviewed.
**Prerequisite:** HROD 250

## HROD 353, Compensation and Total Rewards, 3 Units

This course offers an in-depth look at a strategically important area of human resources for organizations: establishing employee compensation plans that attract the right talent and retain top performers. Students in this course study multiple factors that organizations consider when designing compensation plans for the workforce. They also examine the differences between financial and nonfinancial means of compensation, how to establish wage levels, how to evaluate jobs to ensure that employees are being compensated appropriately, key economic considerations in establishing compensation plans, and how to design performance incentive programs. Course material includes an overview of relevant laws that govern compensation systems and employee benefit programs, and addresses how to evaluate the strategic effectiveness of compensation plans. This course prepares students for the Total Rewards portion (Unit 4) of the HR Certification Institute's PHR/SPHR professional certification exams.
**Prerequisite:** HROD 250

## HROD 354, Talent Planning and Acquisition, 3 Units

This course offers an in-depth look at an area of human resources that is foundational to the profession: attracting and selecting highly qualified candidates to fill jobs. In this course, students study equal employment opportunity and employment discrimination, workforce planning, job analysis/description/specification, recruitment, and selection tools. They also examine how to conduct workforce planning and recruitment processes, how to design selection processes that are valid and reliable, and how to legally conduct preemployment testing and background investigations. This course prepares students for the Talent Planning and Acquisition portion (Unit 2) of the HR Certification Institute's PHR/SPHR professional certification exams.
**Prerequisite:** HROD 250

## HROD 500, Foundations of Human Resource Development, 3 Units

The course provides an introduction to and overview of the field of human resource development with emphasis upon its historical and philosophical foundations. Theories and concepts relevant to the field are analyzed. Special emphasis is placed on the roles and functions of OD professionals within organizations and understanding the basic competencies of professional practice.

## HROD 501, Organizational Design and the Psychology of Work Behavior, 3 Units

This course examines the fundamental theories and viewpoints on the nature of work, its role in adult life, and the function of employment organizations. Included is discussion of forces impacting individual, group, and system performance and productivity within complex sociotechnical systems. Particular emphasis is placed on examining the role of work in the growth and functioning of humans and in identifying the characteristics of organizations in which both the human needs of the people who compose the organization and the organization as a productive, adaptive entity are satisfied.

## HROD 512, Employee Development, 3 Units

This course introduces theories of human growth and development as a foundation for understanding the developmental challenges facing individuals during their lifespans. Specific implications and applications are made related to how human growth and development is effected by and affects organizational life.

## HROD 520, Career Development Systems, 3 Units

Students study the emerging field of career planning and development related to initial and ongoing professional development. Current literature, relevant theories, and major approaches to career planning and development are examined in accordance with career planning and development approaches in organizations. Students use various self-assessment tools and diagnostic instruments to evaluate data on their own work histories, interests, skills, and values.

## HROD 530, Labor Law and Negotiations for Human Resource Professionals, 3 Units

This course provides a brief introduction to the pervasiveness and importance of labor law and negotiations. All human resources professionals must understand labor law and the rights given to employees pursuant to those laws, regardless of whether the employees are members of a union. Professionals must also be thoroughly versed in collective bargaining and the labor relations process in order to be prepared to work for companies whose employees are either represented by a union or are seeking to join a union. Course material equips students for these tasks, as well as for involvement in negotiating agreements and resolving conflicts, such as collective bargaining agreements, agreements with benefit plan providers, individual employee claims, and the terms of employment for new employees.

## HROD 531, Designing and Managing Compensation and Benefit Systems, 3 Units

This course provides a solid understanding of the art of compensation practice and its role in promoting companies' competitive advantages. Compensation systems in organizations must be linked to organizational objectives and strategies. Scholars and managers agree that the way compensation is allocated among employees sends a message about what management believes is important and the types of activities it encourages. With the responsibility of administering compensation expenditures wisely, HR professionals must balance the interests and costs of employers with the needs and expectations of employees.

## HROD 532, Human Resource Law, 3 Units

Human resources professionals are routinely called upon to navigate a number of legal issues. This course introduces the major laws governing human resource management in the work place beginning with the core skills it takes to safely interview job candidates, counsel employees, and mediate disputes. Students gain a thorough understanding of EEOC and ADA regulations and learn how to comply with the Family and Medical Leave Act. Emphasis is on the laws about unlawful discrimination, recruiting, hiring, promotions, harassment, and reasonable accommodation.

## HROD 550, Instructional Design and Training Methods, 3 Units

This course focuses on methods to assess an organization's training and development needs, and designing and implementing training programs to address those needs. Analysis and application of adult-learning theories in relation to program design are explored. Methods of instructional design and course development are emphasized.

## HROD 575, Leveraging Diverse Community Partnerships, 3 Units

Students gain an in-depth understanding of the recruitment and retention of diverse workforces. This course gives students practical methods for recruiting employees from diverse backgrounds through the development of culturally sensitive marketing and recruiting materials. It also addresses issues regarding the management, retention, and advancement of employees from diverse backgrounds.

## HROD 576, Managing in a Multicultural Context, 3 Units

This course focuses on developing an understanding of diversity and cultural difference. Students examine effective and ineffective management techniques and learn helpful approaches to conflict resolution in multicultural work environments.

## HROD 577, Cultural Explorations in Global Business, 3 Units

Future business leaders engage their own and others' cultures in the context of a global marketplace while understanding how those cultures may impact the bottom line. Students also investigate the complexities of company demands to increase compliance with international business standards.

## HROD 578, Recruiting and Retaining a Diverse Workforce, 3 Units

In leveraging diverse community partnerships, students learn practical methods for developing culturally sensitive marketing campaigns for the purpose of recruiting diverse employees into multiple areas of industry. Also, issues regarding management and retention of employees from diverse backgrounds are examined, including glass ceiling issues.

## HROD 599, Readings in Human and Organizational Development, 1-3 Units

Students may enroll in an independent study for unit credit. In this course, students investigate subjects and interests that lie beyond regular course offerings, explore topics in greater depth, and/or initiate individual projects. It provides an opportunity to identify and develop an area of study of particular concern to the individual learner. Readings are pursued in accordance with a study plan developed in consultation with a sponsoring faculty member and approved by the graduate programs chair and dean. Course requirements typically involve a literature review and submission of a paper. Unit credit varies depending on the scope of the study plan.

## MGMT 120, Business Communications, 3 Units

Students in this course explore communication technologies and strategies used in the modern marketplace to create and deliver audience-focused informative and persuasive messages based on credible research, impactful visuals, and professional vocal and physical techniques. Students are given scenario-based challenges often encountered in organizational settings and business situations, to help them with determining the extent of information needed in communications with key stakeholders, researching and utilizing credible support materials ethically, organizing information logically, and delivering messages through professional presentations using appropriate visual aids, graphics, posture, gesture, eye contact, and vocal expressiveness.

## MGMT 210, Principles of Management, 3 Units

This course covers elements of planning, organizing, leading, and control, with emphasis given to organizing and actuating responsibility and authority, delegation, decentralization, the role of staff, line-staff relationship committees, boards of directors, and organization charting. This course will also explore formal and informal organization, communication, and reaction to change. Students will create and manage a business in an environment similar to today's economy. *Meets the General Education Requirement: Integrative and Applied Learning.*

## MGMT 211, Organizational Leadership, 3 Units

This course covers contemporary theories, principles, and practices of leadership within the context of managing businesses and organizations, introducing leadership topics such as change management, leadership development, and organizational communication. Students also explore the emerging concept of followership and the role it plays in organizational failures and successes. Significant attention is given to students' personal assessment and evaluation of their personality, strengths, leadership styles, and work, in order to establish a leadership and management identity. *Meets the General Education Requirement: Social Science.*

## MGMT 212, Managing Diverse Teams and Groups, 3 Units

This course covers essential theories and concepts for analyzing, understanding, and managing various groups and teams in the workplace. Students examine the components that comprise teams, develop skills in diagnosing opportunities and threats that teams face, and build teamwork expertise. Significant time is spent exploring interpersonal processes, conflict resolution, and the many characteristics that influence the effectiveness of a team. This course also gives students an understanding of team diversity, the differences between individual members that can exist in various areas such as age, nationality, religious background, functional background or task skills, sexual orientation, political preferences, and communication and decision-making styles, among others. *Meets the General Education Requirement: Social Science.*

## MGMT 214, Project Management, 3 Units

This course introduces the basic principles of modern project management (PM), including project initiating, planning, execution, monitoring, and closing, with a focus on the development of PM knowledge areas as defined by the Project Management Body of Knowledge. Students learn how to use Microsoft Project Professional and related software tools for managing and controlling the project life cycle. Course material helps students prepare for the Project Management Professional certification exam. *Meets the General Education Requirement: Integrative and Applied Learning.*

## MGMT 335, Real Estate Management, 3 Units

This course offers an introduction to real estate principles and practices, essential real estate law, practices incidental to ownership, real estate brokerage, and property evaluation.

## MGMT 350, Business Management Internship, 3 Units

This course gives students the opportunity to apply their knowledge of principle and theory, and practice their skills and abilities, in an actual business setting through an internship. Course format is similar to that of an independent study, combining in-class meetings, online lesson plans, and real-life work experience. *Meets the General Education Requirement: Integrative and Applied Learning.*
**Prerequisite:** Completion of 60 units, and instructor consent.

## MGMT 410, Production Management, 3 Units

This course focuses on decision making and allocation control regarding personnel, materials, and machine utilization in a manufacturing environment. Course material addresses handling and control of materials, inventory, purchasing, and quality control, and students also learn about setting standards and developing skills in estimating, forecasting, and scheduling.
**Prerequisite:** MGMT 210

## MGMT 440, Business Process Management, 3 Units

Business processes are the core of organizations, providing service to customers, impacting operations and cost structures, and defining enterprise software requirements. In this course, students explore what business processes are-how they are defined, documented, and managed. The course introduces the role of business architect as the initial developer of an enterprise software solution, and features real-world software tools, since software develops (and demands) a deeper understanding of the complexity and nuances associated with business process management. The course is suitable for all business students, since technology has become such a critical component of business.
**Prerequisite:** BUSI 240

## MGMT 445, Human Resource Management, 3 Units

Students in this course study the human factors in modern business, particularly how they affect and are influenced by labor-management interactions and personnel relations, techniques, and procedures.
**Prerequisite:** MGMT 210

## MGMT 446, Introduction to Organizational Theory and Design, 3 Units

This course introduces students to major perspectives in organizational theory and design and its impact on organizations and management. Course material gives students the fundamental knowledge base for understanding and exploring how organizations function, develop, and modify themselves to reflect the forces and needs of external and internal environments. Students examine organizational theory, which is the sociological study of formal and informal organizational structures such as businesses and bureaucracies and their interrelationship with the environment in which they operate. This course complements the studies of organizational behavior and human resources.
**Prerequisite:** MGMT 210

## MGMT 448, Organizational and Administrative Behavior, 3 Units

Organizational behavior is an interdisciplinary field drawing from psychology, sociology, economics, organization theory, statistics, and other areas. In this course, students gain an understanding of the field and the various research strategies involved as they examine human behavior in organizations, as well as individual, group, and organization-level processes that impact workplace behavior and organizational life. Students are exposed to organizational behavioral science theories and their applications in different management settings and types of organizations, and have an opportunity to engage in experiential and skill-building activities, applying conceptual frameworks in community settings and developing strategies for increasing stakeholder and civic participation. *Meets the General Education Requirement: Civic Knowledge and Engagement.*
**Prerequisite:** MGMT 210

## MGMT 450, Strategic Management, 3 Units

This course focuses on fundamental decisions in the life of a business: What is the business, and what should it be? What are the objectives? How are priorities set? How are strategic, long-range decisions to be handled? To grow or not to grow--and what is the right size for the business? *Meets the General Education Requirement: Integrative and Applied Learning.*
**Prerequisite:** MGMT 210; FIN 300 or FIN 320; MKTG 260; junior standing.

## MGMT 467, Introduction to Organizational Development and Change, 3 Units

This course comprises a broad survey of major topics in organizational development and change, including but not limited to organizational processes, organizational growth, and organizational climates and cultures. Course material covers historical and contemporary theories and methods of introducing change in organizations, leading change, and the ethical issues involved in organizational change. Students examine the complex issues involved in organizational development and change management, along with the strategies and techniques required to effectively lead change in an organization. Students also explore the role of leadership in change and how leaders effect change, and examine a number of organizational issues including the need for change, why organizations change or fail to change, the legal and regulatory issues associated with change, and how change helps organizations become more competitive and profitable.
**Prerequisite:** MGMT 210

## MGMT 501, Managerial Communication, 3 Units

Management, by definition, is achieving results with and through other people. Therefore, all of the technical and analytical skills in the world are useless unless you can communicate- that is, explain, persuade, and collaborate with others either by writing, interacting one-on-one, or presenting to a group. This course is aimed at equipping students with the necessary techniques and skills of research and communication used to inform others, inspire them and enlist their activity and willing cooperation.

## MGMT 502, Developing Management Skills, 3 Units

This course provides an introduction to management skills necessary for the twenty-first century characterized by chaotic, transformational, and rapid-fire change. Scientific evidence demonstrates how management skills are associated with personal and organizational successes. Although management skills are applicable in most areas of your life, this course will focus on work setting management skills to help students improve their own competency in a managerial role.

## MGMT 503, Business Strategy: Theory and Practice, 3 Units

This course provides a review of management as an area of theoretical development as well as a field of practice. It comprises classical management theories and modern approaches to organization and business. Main blocks of the course are functions of management, managerial processes and interaction between organizations and their environment. This course includes elements of organizational behavior. Business cases are used as application of theoretical concepts.

## MGMT 510, Current Issues in Business and Management, 3 Units

This course examines organizational and behavioral problems facing managers. Students develop an awareness of modern concepts, strategies, and techniques that can enhance organizational effectiveness. Among these subjects are organizational design, personal leadership and delegation, communication, conflict management, and interpersonal perception group dynamics.

## MGMT 515, Applied Research and Analysis, 3 Units

Students study research methodology as it relates to needs for research-derived information, with emphasis on the research process in the development of primary and secondary research information, conducting research related to given products or services, and the analysis and evaluation of actual business organizations.

## MGMT 516, High-Performance People Management, 3 Units

This course provides students with the social science tools needed to solve organizational problems and influence the actions of individuals, groups, and organizations. It prepares managers to understand how to best organize and motivate the human capital of the firm, manage social networks and alliances, and execute strategic change.

## MGMT 517, Managing Human Capital, 3 Units

Students study the establishment of human resource objectives and requirements in an organization. Emphasis is on executive decision making in dealing with formal employee-employer relationships. Collective bargaining, organization of employees, negotiation, and administration of collective bargaining agreements are covered.
**Prerequisite:** HROD 500 or GNRS 560

## MGMT 521, Organizational Development and Change, 3 Units

Students investigate the emerging field of organizational development (OD) - major theories, basic concepts, and primary intervention strategies. Emphasis is on diagnosing the relationship between an organization's mission and culture, and facilitating planned system-wide changes to improve organizational effectiveness.

## MGMT 529, Ethical Decision Making, 3 Units

This course raises students' moral recognition level, provides them with the apparatus to make moral decisions in a business context, and considers ethical problems in business according to Christian principles. Emphasis is placed on the role of the leader in organizations.

## MGMT 540, Diversity for Strategic Advantage, 3 Units

This course introduces the major goals, principles, and concepts of multiculturalism with particular emphasis on its impact on organizational effectiveness. It explores the cultural, linguistic, and socioeconomic factors influencing the workplace. This course offers concepts to improve learning and working environments and interaction among employees, businesses, and communities.

## MGMT 541, Global Business Management, 3 Units

This course focuses on the environmental and functional differences between U.S. and international business, including exporting, balance payments, strategic planning, organization of multinational firms, international financial planning and cash management, foreign exchange planning, comparative management philosophies, international marketing strategies, incorporation for international operations and external relations of the multinational corporation.

## MGMT 551, Leadership in Organizations, 3 Units

This course introduces current literature and theories of leadership. Leadership within organizational settings is examined. Leadership dilemmas and issues are analyzed (e.g., ethics, decision making, power and authority, conflict management). Emphasis is placed on identifying and enhancing leadership in organizational settings.

## MGMT 561, Managing Teams and Conflict, 3 Units

This course helps the student understand small-group behavior. It uses experience-based methods, cases, reading material, and simulation, and examines role behavior, group dynamics, conflict control, leadership, and group development. It also addresses motivation and problem solving as essential elements of organizational behavior.

## MGMT 570, Organizational Performance Improvement, 3 Units

This course provides an introduction to fundamental concepts and methods of quality and productivity improvement and examination of the OD professional's role in designing and implementing programs to improve quality of products and services. Particular emphasis is placed on understanding the forces that make quality and productivity critical organizational issues.

## MGMT 577, Global Field Study, 0 Units

This course provides the framework for graduate students to register for and complete a global field study in various countries around the world. During the course, students conduct corporate visits to business firms locally and around the globe to discuss how they apply and practice the business management principles, concepts and theories covered in the graduate curriculum.

## MGMT 578, Strategic Management, 3 Units

Taken in a student's last semester, this course explores how to convert executive vision into definitive plans that can be operationally implemented, and provides opportunity for practice and experimentation in strategy formulation and change management. Students use strategy support systems to transition from a change-resistant operational approach to a future-oriented approach characteristic of strategic thinking. Case- and project-based.

## MGMT 581, Ethical Leadership, 3 Units

This course provides a foundation for two integrative themes: leadership and ethics. Leadership is examined from theoretical and practical perspectives, with an emphasis on servant leadership. An ethical framework for management decision-making is also established and used. Students learn to apply their spiritual gifts, strengths, personality traits, and leadership styles to their leadership contexts.

## MGMT 582, Strategic Management in Not-for-Profit, 3 Units

This course offers a study of the strategic management issues which are unique to government and other not-for-profit organizations. Included are: defining characteristics of different types of not-for-profit organizations; convergence of environmental demands on not-for-profit organizations and business firms; power in not-for-profit organizations; multiple stakeholder and stakeholder power; formulation of legitimacy strategy; and success measurement in not-for-profit organizations.
**Prerequisite:** BUSI 450 or equivalent

## MGMT 583, Global Strategic Management, 3 Units

The course explores the main issues that companies and their managers confront when they 'go global' or 'manage globally'. Students gain both theoretical and practical insight into the management of a global organization to appreciate the opportunities, problems (both worldwide and local), and alternative strategies for globalization or localization.

## MGMT 595, Special Topics in Management, 1-3 Units

This course presents timely and new topics in management. Different material is covered each time the course is offered. The course may be repeated for credit. Some topics require prerequisites, which vary according to the topic.

## MGMT 597, Master's Project in Management, 3 Units

This capstone course involves the implementation and application of management theory. Students participate in a service-learning project for a community-based organization, applying management methodology. Students are expected to complete a master's level research project demonstrating competency in management theory, the individual area of emphasis, as well as faith integration.
**Prerequisite:** MGMT 521; final semester of MAM program

## PRBA 110, Business and Entrepreneurship, 3 Units

This course introduces students to the role of business in society and the impact of the social environment on the firm. It acquaints students with the basic functional areas of business, including management, human resources, marketing, finance, and production. Students produce a comprehensive business plan incorporating the functions of business and examining the effect of the business on society. *Meets the General Education Requirement: Civic Knowledge and Engagement.*

## PRBA 111, Business Statistics, 3 Units

Students in this course learn basic statistical concepts and methods of collecting, summarizing, presenting, and interpreting data for the business context. Among the topics covered are differentiation, population, sample, descriptive statistics, variation and skewness, exploratory data analysis with visuals, probability, random variable, sampling distribution, central limit theorem, discrete distributions (binomial, Poisson), continuous distributions (normal, t, exponential, chi-square), confidence interval estimation, hypothesis testing, correlation, regression, and the analysis of variance (ANOVA), to be applied in real-world business situations. *Meets the General Education Requirement: Quantitative Literacy (Math).*
**Prerequisite:** MATH 90 or an appropriate score on the APU mathematics placement assessment.

## PRBA 120, Principles of Accounting I, 3 Units

This course introduces the financial accounting model and application of fundamental accounting principles. The corporate form of business serves as the primary model to demonstrate accounting principles for cash, accounts receivable, inventories, operational assets, liabilities and stockholders' equity.

## PRBA 121, Principles of Accounting II, 3 Units

This course introduces basic managerial accounting concepts and emphasizes the use of accounting data in decision making. Topics covered include cost accumulation models, cost behavior, break-even analysis, variable costing, budgeting, differential analysis, product pricing, capital expenditure analysis, and financial statement analysis.
**Prerequisite:** PRBA 120

## PRBA 125, Business Communications, 3 Units

Students in this course explore current communication technologies and strategies in the modern marketplace to create and deliver audience-focused informative and persuasive messages using credible research, impactful visuals, and professional vocal and physical techniques delivered orally. Students are given scenario-based challenges often encountered in organizational settings and business situations, to help them determine the extent of information needed when communicating with key stakeholders, researching and utilizing credible support materials ethically, organizing information logically, and delivering messages through professional presentations using appropriate visual aids, graphics, posture, gesture, eye contact, and vocal expressiveness. *Meets the General Education Requirement: Oral Communication.*

## PRBA 200, Survey of Economics, 3 Units

This course covers the concepts and tools of economic analysis for microeconomics and macroeconomics. Students study the basics of interactions between firms and consumers: consumer demands, firm costs, price determination under various market structures, and the role of government in a market economy. Students also study the fundamentals of national income and economic growth, interest rates, unemployment, and government fiscal and monetary policies. *Meets the General Education Requirement: Social Science.*

## PRBA 210, Principles of Management, 3 Units

Elements of planning, organizing, leading, and control are covered. Particular emphasis is given to organizing and actuating responsibility and authority, delegation, decentralization, the role of staff, line-staff relationship committees, board of directors, organization charting, formal and informal organization, communication, and reaction to change.

## PRBA 211, Organizational Leadership, 3 Units

This course covers contemporary theories, principles, and practices of leadership within the context of managing businesses and organizations, introducing leadership topics such as change management, leadership development, and organizational communication. Students also explore the emerging concept of followership and the role it plays in organizational failures and successes. Significant attention is given to students' personal assessment and evaluation of their personality, strengths, leadership styles, and work, in order to establish a leadership and management identity. *Meets the General Education Requirement: Social Science.*

## PRBA 212, Managing Diverse Teams and Groups, 3 Units

This course covers essential theories and concepts for analyzing, understanding, and managing various groups and teams in the workplace. Students examine the components that comprise teams, develop skills in diagnosing opportunities and threats that teams face, and build teamwork expertise. Significant time is spent exploring interpersonal processes, conflict resolution, and the many characteristics that influence the effectiveness of a team. This course also gives students an understanding of team diversity - the differences that can exist between individual members, in various areas such as age, nationality, religious background, functional background or task skills, sexual orientation, political preferences, and communication and decision-making styles, among others. *Meets the General Education Requirement: Social Science.*
**Prerequisite:** PRBA 210

## PRBA 213, Negotiation Strategies and Skills, 3 Units

Students in this course learn the basics of negotiation, then research and explore additional techniques that help them establish alternative criteria to expand and build upon their bargaining style. Each student is assessed on negotiating style, role playing, principled negotiation, and information gathering. Emphasis is on topics related to negotiations in a business context.

## PRBA 240, Introduction to Information Systems and Business Applications, 3 Units

This course covers the fundamentals of business information systems, methods, equipment, processes, computer characteristics, and concepts. Students also examine the ethical use of information, information systems, and business applications, and learn to use business applications Formstack, QuickBooks, and Salesforce, with opportunities to earn an Expert Badge in Formstack and ProAdvisor Badge in QuickBooks.

## PRBA 244, Data Analytics, Spreadsheets, and Data Visualization, 3 Units

Integrating knowledge gained in PRBA 240, students gain hands-on experience in analyzing, managing, and reporting data in the business world, and use advanced statistical tools to frame business decisions for operations, finance, forecasting, etc. Students learn data applications of Microsoft Excel, Data Studio, and Tableau, and also have the opportunity to earn an Expert Badge in Excel.
**Prerequisite:** PRBA 240

## PRBA 250, Principles of Macroeconomics, 3 Units

This course introduces concepts and tools of economic analysis for macroeconomics. Students study national income and economic growth, interest rates, unemployment, and government fiscal and monetary policies. *Meets the General Education Requirement: Social Science.*
**Prerequisite:** C- or better in PRMA 110 or 60 or higher on ALEKS math placement assessment.

## PRBA 251, Principles of Microeconomics, 3 Units

This course provides an introduction to concepts and tools of economic analysis for microeconomics. Students study the interactions of firms and consumers: consumer demands, firm costs, price determination under various market structures, and the role of government in a market economy.
**Prerequisite:** C- or better in PRMA 110

## PRBA 260, Marketing Principles, 3 Units

This course provides an introduction to the theory and practical application of marketing principles by examining concepts related to understanding, reaching, and responding to customers.

## PRBA 296, Business Law, 3 Units

The course introduces the laws affecting business transactions. Included is an overview of the legal system as it relates to business and in-depth study of contracts, sales and commercial transactions, and secured transactions.

## PRBA 300, Business Finance for Managers, 3 Units

This course provides an introduction to concepts and tools of business finance for managers. Students study financial statements and their interpretation, business performance measures, the management of cash and the short term financial needs of the organization, and how to make good capital budgeting decisions.
**Prerequisite:** PRBA 120, BBA Majors only

## PRBA 305, Operations Management, 3 Units

In this course, students learn about operations and productivity, operations strategy in a global environment, project management, forecasting, design of goods and services, quality management, process strategy, location strategies, layout strategies, job design and work management, supply chain management, inventory management, aggregate planning, materials requirements planning, scheduling, lean operations, and maintenance and reliability.

## PRBA 313, Introduction to Supply Chain Management and Logistics, 3 Units

This course covers the formulation and implementation of logistics and supply chain strategy for competitive advantage, including analysis of logistics capabilities, enhancement of strategy-supportive capabilities, and integration with strategically chosen supply chain partners.
**Prerequisite:** PRBA 305

## PRBA 314, Supply Chain Sourcing [Proposed], 3 Units

This course introduces students to supply chain sourcing. Students learn how to build and manage supply chains including leveraging supply chains to ensure a steady flow of inputs and supplies to the organization. Course projects include managing supply chains, building alternatives for resilience, and strategic sourcing and procurement.

## PRBA 315, Business System Analytics, 3 Units

This course introduces fundamental concepts and methods of business analysis (or analytics) and examines the role of managers in qualitative and quantitative analysis designed to foster efficient and effective operations of an organization. Emphasis is on understanding the tools and techniques needed for a successful manager in a global organization in the 21st century.

## PRBA 317, Quality Management, 3 Units

This course introduces fundamental concepts and methods of quality management and productivity improvement, and examines the role of managers in designing and implementing programs to improve quality of products and services. Emphasis is on understanding the forces that make quality and productivity critical organizational issues. Student ability to implement quality-management tools, techniques, and processes is demonstrated.

## PRBA 320, Intermediate Accounting I, 3 Units

This course offers an intensive study of the accounting theory and principles underlying financial accounting. Emphasis is placed on the theoretical and conceptual framework of the financial reporting process, including the role and authority of official accounting pronouncements and the responsibilities of professional accountants. This course begins with a review of the accounting model and covers accounting theory as it relates to revenue recognition, current assets including cash, accounts receivable, inventories, and current liabilities.
**Prerequisite:** PRBA 121

## PRBA 321, Intermediate Accounting II, 3 Units

This course offers an intensive study of the accounting theory and principles underlying financial accounting. Emphasis is placed on the theoretical and conceptual framework of the financial reporting process, including the role and authority of official accounting pronouncements and the responsibilities of professional accountants. This course begins with a review of the accounting model and covers accounting theory as it relates to current assets including cash, accounts receivable, inventories, and current liabilities.
**Prerequisite:** PRBA 320

## PRBA 361, Integrated Marketing Communications, 3 Units

Students explore the variety of strategic approaches organizations use in the digital age to connect with consumers and promote ideas, products, or services. Grounded in advertising and public relations communication, course material covers marketing campaigns and practices that have shaped our history, and how today's organizations build value by using branding, storytelling, publicity, medium utilization, and data analytics to create authentic messaging for specific target audiences. Students in this course will have the opportunity to earn an Integrated Marketing Communication Expertise micro-credential badge.
**Prerequisite:** PRBA 260 or MKTG 260, or approval of department chair

## PRBA 364, Sales and Sales Management, 3 Units

In this course, consideration is given to personal sales strategies and practices, including relationship management, negotiation, consultative selling, and key account management. The sales management function, including recruiting and selecting salespeople, motivation and training, compensation plans and quotas, supervising, sales forecasting and budgeting, salesforce evaluation, and the ethics in selling and sales management is covered.
**Prerequisite:** PRBA 260 or instructor consent

## PRBA 368, Retail Management, 3 Units

Students explore the roles and scope of retailing business, characteristics of retailers and consumers, and strategies for managing operations. Course material emphasizes retailing characteristics and activities, multichannel opportunities, retail communication mix, consumer buying behavior, retail market strategy (including location and site strategy), product mix, store layout, merchandising, competition, pricing, and promotion. This course also introduces students to procurement and supply chain logistics, customer relationship management, operations, and employee management. Students in this course have the opportunity to earn a retail management microcredential.
**Prerequisite:** PRBA 260

## PRBA 370, International Business, 3 Units

This course presents a survey of issues in international business, with focus on managing in an international environment, understanding the global monetary system, and developing an international perspective on business operations including production, marketing, finance, and human resources.
*Meets the General Education Requirement: Intercultural Competence.*
**Prerequisite:** PRBA 210

## PRBA 445, Human Resource Management, 3 Units

Students study the human factors in modern business as they are influenced by and effect labor-management interactions, personnel relations, techniques, and procedures.
**Prerequisite:** Acceptance into the School of Business and Management.

## PRBA 448, Organization and Administrative Behavior, 3 Units

Organizational behavior is an interdisciplinary field drawing from psychology, sociology, economics, organization theory, statistics, and other areas. In this course, students gain an understanding of the field and the various research strategies involved as they examine human behavior in organizations, as well as individual, group, and organization-level processes that impact workplace behavior and organizational life. Students are exposed to organizational behavioral science theories and their applications in different management settings and types of organizations, and have an opportunity to engage in experiential and skill-building activities, apply conceptual frameworks in community settings, and develop strategies for increasing stakeholder and civic participation. *Meets the General Education Requirement: Civic Knowledge and Engagement.*
**Prerequisite:** PRBA 210

## PRBA 450, Strategic Management, 3 Units

This course focuses on fundamental decisions in the life of a business: What is the business, and what should it be? What are the objectives? How are priorities set? How are strategic, long-range decisions to be handled? To grow or not to grow-and what is the right size for the business? *Meets the General Education Requirement: Integrative and Applied Learning.*
**Prerequisite:** PRBA 210, PRBA 300, and Senior Status.

## PRBA 466, Digital Marketing, 3 Units

This course helps students understand the latest concepts in digital marketing to apply to organizations. Upon completion of the course, students earn two certifications from Hootsuite, a global leader in social media management - Social Media Marketing and Fundamentals (Analytics) - and students' names are added to a global database of certified specialists.
**Prerequisite:** PRBA 260

## PRBA 495, Writing 3: Business Ethics, 3 Units

This course focuses on the integration of Christian faith, ethical issues, and professional concerns that confront business professionals in the workplace, with particular regard to leadership and transitions. Students in this course explore biblical and moral principles as related to real-life case studies, and have the opportunity to complete in-depth study in a business-related area to further prepare them as effective participants and leaders in the workplace. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*
**Prerequisite:** PRWR 261 and senior Standing

## PRBA 497, Readings, 1-4 Units

This is a program of study concentrating on assigned readings, discussions, and writing arranged between, and designed, by a student of upper-division standing and a full-time professor. An independent study fee is assessed for each enrollment in this class.

# BA in Business Management

60 units

Preparation for a business career requires a deep appreciation and sound understanding of the marketplace. Thus, the business management (https://www.apu.edu/business/programs/business-management-major/) major program is designed for those who seek a broad spectrum of business courses or wish to combine several fields, preparing students to pursue work and lead in a vast range of industries. This program develops competence in conceptual, human, and technical skills, and these skills—developed through a well-chosen sequence of electives—make those completing the program well prepared for employment in public and private-sector organizations.

This major equips students with the leadership, management, and analytical skills of planning, decision making, problem solving, communication, and delegation, preparing them to advance their career, achieve their goals, and help shape the future of business. Coursework in general business management and leadership includes a fundamental system of values that serves as the basis for decision making, and the program also emphasizes effectiveness and efficiency. A focus project and other experiences in project/people management give students the knowledge and skills to become leaders in a broad spectrum of industries, including how to ensure employee commitment, engagement, and satisfaction.

## Experiential Learning Opportunities

Students have the option to acquire practical skills and experience in leadership, management, decision making, and teamwork through internships, student clubs, honor societies, and study-away opportunities. For example, in the International Business Global Colloquium, students study various aspects of international business and international differences with students from different countries, schools, and programs for a significant social/international experience.

Students participating in study-away opportunities engage with topics of globalization, trade, culture, and global management and leadership as they travel the world. Typically, study-away trips include visiting global and international organizations and learning from universities and business leaders around the world.

Numerous School of Business and Management student clubs and honor societies also provide opportunities for students to build their résumé as well as their skills in leadership, project management, teamwork, event planning, and marketing.

## Certificates, Credentials, and Microcredentials

Today, employers are looking for new hires with technical skills and leadership abilities such as decision making and teamwork. This program gives students the opportunity to earn industry-valued, internationally recognized certificates, credentials, and microcredentials that can be added to résumés and uploaded to online portfolios, certifying and showcasing their mastery of these skills to potential employers.

## Career Opportunities

Good managers and leaders are in demand with global, international, and national organizations, and our students are prepared upon graduation for first-line management positions such as supervisor and team or shift leader. This program also prepares and equips students for staff specialist or general administration positions. Students may enter into a wide range of industries, including retail and sales, commercial banking, real estate, savings and loan associations, entertainment, supply chain management, logistics, and more. Some graduates begin new ventures, operate small businesses, develop new products, or return to the family business.

## Requirements

The Bachelor of Arts in Business Management comprises 60 units. Students must achieve an average GPA of 2.5 or higher in their major courses (including the Business Core).

1   Meets the General Education Quantitative Literacy requirement.
2   Meets the General Education Intercultural Competence requirement.
3   Meets the General Education Social Sciences requirement.
4   Meets the General Education Civic Knowledge and Engagement requirement.
5   Meets the General Education Integrative and Applied Learning requirement.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate competency in multiple business disciplines.
2. Apply critical thinking to solve business problems.
3. Evaluate business decisions based on a Christian perspective.
4. Communicate ideas through professional channels.
5. Be contributing team members.
6. Identify cultural aspects of business in diverse environments.

# BA in Human Resources and Organizational Development

## NOTE: This program is not admitting new students for the 2024-25 academic year.

57 units

The BA in Human Resources and Organizational Development (https://www.apu.edu/business/programs/human-resources-organizational-development-major/) program provides the conceptual knowledge and practical skills for career placement and job advancement in the expanding field of human resources, including the areas of employee life cycle, training and development, and the growing HR generalist field.

This program equips students with all of the necessary foundational knowledge that a human resources professional must have, including best practices and strategies necessary for today's workplace. Students learn the complexities of managing the benefits and policies of an organization, designing employee development and delivering training, and managing employee relations. This interdisciplinary program prepares students with the organizational theory, ethics, and business management skills to become expert problem solvers in today's HR climate.

## Experiential Learning Opportunities

Students in this program build their résumés and portfolios through applied projects, such as designing a training workshop, writing job descriptions, and creating employee development plans. Students also have the option to acquire practical skills and experience in leadership, project management, decision making, and teamwork through internships, student clubs, and honor societies.

This program also offers students the chance to participate in study-away programs, where they engage with topics of globalization, trade, culture, and global management and leadership as they travel the world. Typically, study-away trips include visiting global and international organizations and learning from universities and business leaders around the world.

## Certificates, Credentials, and Microcredentials

Today, employers are looking for professionals with technical skills and leadership abilities, and students in this major are prepared to earn industry-valued, internationally recognized certificates, credentials, and microcredentials, such as the Professional in Human Resources certification and the Workplace Ethics Badge, validating their ability to motivate and manage talent and distinguishing them in the HR field. These certifications can be added to résumés and uploaded to online portfolios, showcasing these skills to potential employers.

## Career Opportunities

Different areas of the HR field consistently rank high on lists of best careers. Income potential and personal fulfillment are high. Career paths open to human resources majors include HR coordinator/assistant, recruiter/talent acquisition, training and development coordinator, payroll specialist, HR

manager, compensation analyst, benefits manager, labor relations manager, human resources generalist, and HR business partner. Human resources professionals who excel can become top executives.

# Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Examine the full spectrum of human capital management concepts, including talent acquisition and retention, employee motivation, change management, and organizational culture.
2. Apply key HR processes, including talent management, total rewards, performance management, learning and development, employee relations, and HR analytics.
3. Create plans to recruit, hire, train, retain, and motivate a diverse and global workforce.
4. Benchmark salaries and design effective compensation strategies.
5. Develop strategies for reducing corporate risk and liability through effective HR practices.
6. Incorporate diversity and inclusion practice into all aspects of HR management.
7. Evaluate HR practices to ensure compliance with relevant laws and regulations.

8.  Design effective HR and training and development strategies that strengthen organizations.
9.  Incorporate ethical practice into all aspects of HR management.

# Bachelor of Business Administration (BBA) (Bachelor's Completion Program)

57 units

Today's business leaders must be agile and able to adapt to a rapidly changing business world while leading employees by modeling character, integrity, and compassion. Azusa Pacific's Bachelor of Business Administration (BBA) (https://www.apu.edu/business/programs/bba-degree/) bachelor's completion program equips students with the leadership and analytical skills needed to advance their career, achieve their goals, and help shape the future of business.

Designed for working professionals with at least 15 units of transferable college credit, the BBA program allows immediate application of learning in the workplace. Relevant coursework addresses current issues in business and encourages the integration of real-world work experiences and hands-on projects. Students combine these experiences with internships or international study opportunities to further expand their portfolio and network.

Throughout the program, students build on existing experience while gaining a strong foundation in strategic management, finance, marketing, accounting, and more.

## Highlights

- Designed for working professionals, the BBA degree completion program equips students with the leadership and analytical skills needed to lead change in today's business world.
- Relevant coursework and real-world projects guided by faculty with business experience allow students to immediately apply learning at work.
- Focused certificates and credentials provide in-demand skills, know-how, and experience and verify students' skills and abilities to current and future employers.
- Learn from Fulbright Scholars and world-renowned professors with industry experience.
- Flexible course scheduling allows students to advance their academic and professional goals at their own pace.

## Certificates, Credentials, and Microcredentials

Today, employers are looking for new hires with technical skills and leadership abilities such as decision making and teamwork. In the BBA program, students have the opportunity to earn industry-valued, internationally recognized certificates and microcredentials that can be added to résumés and uploaded to online portfolios, showcasing these skills and abilities to current and future employers.

## Requirements

The Bachelor of Business Administration degree completion program requires 120 total units, including General Education units and 57 units of core business courses (BBA students may also add an optional 9-unit concentration).

| Code | Title | Units |
|---|---|---|
| **Core Courses** | | |

[6]    Meets the General Education Writing 3 requirement.

# Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Business Knowledge: Apply business knowledge from multiple business disciplines to plan, design, and execute business strategies.
2. Critical Thinking: Identify and solve business problems using analytical and critical thinking skills.
3. Quantitative Reasoning: Analyze quantitative data to address real-world or discipline-specific business problems.
4. Christian Business Ethics: Use biblically-based ethics to make moral and virtuous ethical and socially responsible business decisions.
5. Written Communication: Convey ideas clearly and effectively through professional written communication.

6. Oral Communication: Communicate in informative or persuasive ways using the appropriate genre, channel, structure, and style.
7. Collaborative Teamwork: Effectively participate in business-focused teams as members and leaders in diverse environments.
8. Global/Multicultural Awareness: Identify and respond to cultural, economic, and political aspects of business in multicultural and global environments, informed by biblically based ethics.
9. Discipline Knowledge: Demonstrate knowledge of business concepts.
10. Discipline Problem Solving: Solve core business problems and effectively analyze and address business situations.

# BS in Business Analytics

66 units

The Bachelor of Science in Business Analytics (https://www.apu.edu/business/programs/business-analytics-major/) is for students interested in developing expertise in data science and data analytics with specialization in the field of business. This program gives students a foundation in business and business management, and they are able to customize their degree by selecting a concentration in accounting, economics, finance, or marketing.

Utilizing methods and systems to extract information or knowledge from large quantities of data that come in various forms, students learn to synthesize broad perspectives, knowledge, skills, and interconnections in business. Coursework gives students the opportunity to use use big data and historical data to develop models that help organizations make data-driven decisions.

This program equips students to solve complex problems and offer practical conclusions based on real business data, as they learn to utilize models, theories, and techniques drawn from the broad areas of mathematics, business and management sciences, and management information systems. Students learn to analyze large quantities of data and discover value-oriented insights, becoming data-driven decision makers in their organizations. Information is applied to a wide range of data-rich business domains such as accounting, economics, finance, marketing, human resource management, and supply chain management.

## Experiential Learning Opportunities

Students in this program acquire practical skills and experience in business analytics, building their portfolios and résumés through applied projects. Coursework includes opportunities for hands-on application with big data manipulation and analysis, system management, and data visualization, including multiple strategies to produce and leverage data-driven decision making.

Students may also participate in internships, student clubs, honor societies, and study-away opportunities. Students participating in study-away programs engage with topics of globalization, trade, culture, and global management and leadership as they travel the world. Typically, study-away trips include visiting global and international organizations and learning from universities and business leaders around the world.

## Certificates, Credentials, and Microcredentials

Today, employers are looking for new hires with technical skills in big data and data analytics. This program gives students the opportunity to earn industry-valued, internationally recognized certificates, credentials, and microcredentials, such as in spreadsheets, data visualization, business analytics, and much more, that can be added to résumés and uploaded to online portfolios, certifying and showcasing their mastery of these skills to potential employers.

## Career Opportunities

BS in Business Analytics students are equipped to pursue professional careers in industry, as demand for data analysts, data scientists, and data engineers in job markets across all industries is high and supply is low. The U.S. Bureau of Labor Statistics sees strong growth in the data science field and predicts that the number of jobs will increase by about 28% through 2026, which is equivalent to approximately 11.5 million new jobs in the field.

The median annual wage for management analysts was $93,000 as of May 2021. And about 41,000 openings for financial analysts are projected each year, on average, over the decade.

[3]   Meets the General Education Intercultural Competence requirement.
[4]   Meets the General Education Social Sciences requirement.
[5]   Meets the General Education Integrative and Applied Learning requirement.

# Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Describe business issues which require business analytics' skills and methods.
2. Transform large quantities of real-life data from a wide range of domains to resolve issues.
3. Apply appropriate analytical methods (descriptive, diagnostic, predictive, and prescriptive analytics) to find solutions to business problems.
4. Explain the results of analytical activities clearly and concisely using oral, written, or electronic media.
5. Describe the ethical and legal issues involved with collecting, storing, and using big data from a Christian perspective.

# BS in Business: Economics

66 units

The business economics major (https://www.apu.edu/business/programs/business-economics-major/) equips students with analytical skills built on a strong general business foundation. This major focuses on business management responsibilities and the improvement in business decision making that comes from a deeper understanding of the economic environment of business, including labor, environmental, and international issues. Students become grounded in economic theory and practical applications.

## Experiential Learning Opportunities

The School of Business and Management offers students numerous experiential learning opportunities, such as student clubs, honor societies, and study away trips. Students participating in study-away opportunities engage with topics of globalization, trade, culture, and global management and leadership as they travel the world. Typically, study-away trips include visiting global and international organizations and learning from universities and business leaders around the world. Faculty-led student clubs and honor societies offer students the opportunity to build skills in leadership, project management, decision making, and teamwork.

## Career Opportunities

Business economics careers may be found throughout the field of business, including financial analysis and forecasting, banking, labor organizations, and international trade. Individuals in possession of strong analytical skills are in high demand.

## Requirements

The Bachelor of Science in Business: Economics comprises 66 units. Students must achieve an average GPA of 2.5 or higher in their major courses (this includes the Business Core).

| Code | Title | Units |
|---|---|---|
| **Business Core Courses** | | |
| ACCT 120 | Principles of Accounting I | 3 |

5. Oral Communication: Express ideas effectively through professional oral presentations.
6. Collaborative Teamwork: Demonstrate the ability to function as an effective business team member.
7. Comprehensive Global Awareness: Identify cultural, economic and political aspects of business in a global environment.
8. Discipline Knowledge: Demonstrate knowledge of economic concepts.
9. Discipline Problem Solving/Strategy: Solve core economic problems, or analyze economic situations and provide strategy for effectiveness.

# BS in Business: Entrepreneurship

63 units

The entrepreneurship major (https://www.apu.edu/business/programs/entrepreneurship-major/) focuses on the creation of social and economic value and is designed to prepare students for the intricacies of planning, launching, and leading a new business. With a focus on creativity and innovation, new venture planning, and marketing, students are equipped with the skills necessary to start and grow a business.

Entrepreneurship students learn how to shape entrepreneurial opportunities and assess market feasibility. The entrepreneurship major includes working in teams, constructing business models, communicating with partners and customers, and assessing feasibility while launching a new venture or initiative.

Today, new business opportunities have encouraged entrepreneurship on a global scale. Coursework equips students to create, organize, and manage a business, including ideation and innovation, negotiation, and business management. Students also learn how to lead people and projects.

## Experiential Learning Opportunities

Entrepreneurship majors apply their knowledge and skills in academic and real-world settings. They also have the option to participate in student clubs and competitions, such as ENACTUS, that provide skill-building opportunities in leadership, teamwork, and decision making. Guided by faculty, teams of students conduct needs assessments in local communities, identify potential solutions, and implement community impact projects.

Surrounding communities benefit from collaboration and fresh innovation, and students gain valuable experience to advance their entrepreneurship résumés. Throughout the years, APU-sponsored teams have a track record of successful placement in ENACTUS competitions.

In addition to ENACTUS, the School of Business and Management offers numerous student clubs, honor societies, and study-away opportunities. Students participating in study-away programs engage with topics of globalization, trade, culture, and global management and leadership as they travel

the world. Typically, study-away trips include visiting global and international organizations and learning from universities and business leaders around the world.

## Certificates, Credentials, and Microcredentials

Today, employers are looking for new hires with technical skills and also leadership abilities such as decision making and teamwork. This program gives students the opportunity to earn industry-valued, internationally recognized certificates, credentials, and microcredentials that can be added to résumés and uploaded to online portfolios, certifying and showcasing their mastery of these skills and abilities to potential employers.

## Career Opportunities

The skills and competencies gained in this program are vital for the success of any business or organization, including early-stage startups, corporations, family businesses, nonprofits, franchises, and other settings. Graduates can start new businesses, buy existing ventures, or go into entrepreneurial positions in profit or not-for-profit ventures. Other career options include intrapreneurship (innovation in large organizations), venture capital, and social entrepreneurship.

## Requirements

The entrepreneurship major comprises 63 units. Students must achieve an average GPA of 2.5 or higher in their major courses (this includes the Business Core).

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Business Knowledge: Apply business knowledge from multiple business disciplines to plan, design, and execute business strategies.
2. Critical Thinking: Identify and solve business problems using analytical and critical thinking skills.
3. Quantitative Reasoning: Analyze quantitative data to address real-world or discipline-specific business problems.
4. Christian Business Ethics: Use biblically based ethics to make moral and virtuous ethical and socially responsible business decisions.
5. Written Communication: Convey ideas clearly and effectively through professional written communication.
6. Oral Communication: Communicate in informative or persuasive ways using the appropriate genre, channel, structure, and style.
7. Collaborative Teamwork: Effectively participate in business-focused teams as members and leaders in diverse environments.
8. Global/Multicultural Awareness: Identify and respond to cultural, economic, and political aspects of business in multicultural and global environments, informed by biblically based ethics.
9. Discipline Knowledge: Demonstrate knowledge of business concepts.
10. Discipline Problem Solving: Solve core business problems and effectively analyze and address business situations.

# BS in Business: International Business

60 units

The international business major (https://www.apu.edu/business/programs/international-business-major/) gives students a strong general business foundation followed by courses preparing them for careers in global business and international commerce. The program incorporates a global collaborative approach to the study of business, international management, strategic positioning, international trade, and politics as it prepares students to work in a dynamic and interdependent global business environment.

Students explore various ethical, cultural, legal, and other differences that exist in international business and consider their individual and leadership responsibilities and actions. International business majors think through the various urgent challenges that face business environments today, including sustainability, climate change, energy and technological shifts, political and economic shifts, and all forms of equity.

Students also acquire practical skills and experience through study-away opportunities, internships, foreign language study, and the opportunity to work with university students around the world in global colloquium case-study projects.

## Experiential Learning Opportunities

The International Business Global Colloquium gives APU students the opportunity to study various aspects of international business and international differences with students from different countries, schools, and programs for a significant social/international experience.

Study-away opportunities expose students to topics of globalization, trade, culture, and global management and leadership as they travel the world. Typically, these trips include visiting global and international organizations and learning from universities and business leaders around the world. Additionally, numerous student clubs and honor societies offer students the chance to build skills in leadership, project management, decision making, and teamwork.

## Certificates, Credentials, and Microcredentials

Today, employers are looking for new hires with technical skills and leadership abilities such as decision making and teamwork. This program gives students the opportunity to earn industry-valued, internationally recognized certificates, credentials, and microcredentials, such as the Intercultural Competence Badge, that can be added to résumés and uploaded to online portfolios, certifying and showcasing their mastery of these skills to potential employers.

## Career Opportunities

International business careers may be found with multinational corporations, foreign companies, banks, international investments, export/import trade, international law, international nonprofit organizations, world missions, and public/foreign service. Some of these exist in expatriate opportunities and some through various other logistics and extensions. Individuals graduate from this program with significant international experience after practicing

management and leadership skills abroad and collaborating with students from all over the world, and find themselves in high demand in today's global marketplace.

## Requirements

The international business major comprises 60 units. Students must achieve an average GPA of 2.5 or higher in their major courses (including the Business Core).

| Code | Title | Units |
|---|---|---|
| **Business Core Courses** | | |
| ACCT 120 | Principles of Accounting I | 3 |

[1]     Meets the General Education Quantitative Literacy requirement.
[2]     Meets the General Education Intercultural Competence requirement.
[3]     Meets the General Education Social Sciences requirement.
[4]     Meets the General Education Integrative and Applied Learning requirement.
[5]     Meets the General Education Civic Knowledge and Engagement requirement.

## Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Competent Business Knowledge: Demonstrate knowledge in multiple business disciplines, including management, finance, marketing, accounting and economics.
2. Critical Thinking: Identify and solve business problems using analytical and critical thinking skills.
3. Christian Business Ethics: Demonstrate the ability to evaluate business decisions based on a Christian perspective.
4. Written Communication: Convey ideas clearly through professional written communication.
5. Oral Communication: Express ideas effectively through professional oral presentations.
6. Collaborative Teamwork: Demonstrate the ability to function as an effective business team member.
7. Comprehensive Global Awareness: Identify cultural, economic and political aspects of business in a global environment.
8. Discipline Knowledge: Demonstrate knowledge of international business concepts.

9. Discipline Problem Solving/Strategy: Solve core international business problems, or analyze international business situations and provide strategy for effectiveness.

# Certificate in Change Strategies for Consulting

12 units

The Certificate in Change Strategies for Consulting is a postbachelor's program that focuses on nontraditional and innovative approaches to leading and managing change within an organization, with a specific lens of developing internal and external consultants to support organizational effectiveness efforts. Topics explored include theories of change within organizational systems, design thinking, strategic planning, organizational assessment, and consulting techniques. This certificate is geared toward individuals who want to create real impact in their organizations or consulting practice, and want to have better tools to strategically manage change.

| Code | Title | Units |
| --- | --- | --- |
| OPSY 534 | Organizational Systems: Theories of Change | 3 |
| LDRS 524 | Principles and Practices of Design Thinking | 3 |
| LDRS 548 | Strategic Foresight, Thinking, and Planning | 3 |
| Choose one of the following: | | 3 |
| OPSY 510 | Organizational Assessment and Interventions | |
| OPSY 520 | Consultative Applications of Organizational Psychology | |
| **Total Units** | | **12** |

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Deliver Innovative solutions to complex leadership and organizational challenges.
2. Construct organization development interventions using experience-based models and simulations.
3. Prepare consulting reports and professional recommendations for organizational initiatives around change, leadership, and strategy.

# Certificate in Data Analysis and Visualization

12 units

Businesses today need informed leaders who can guide decision making by analyzing large amounts of data. The Certificate in Data Analysis and Visualization is for current students who want a specialization and working professionals who want to grow in their field or change career paths.

Certificates help students validate their skills and ability, give them increased marketability and earning power, and verify competence to employers. Certificate programs also provide the knowledge you need to in order to transform your career in less time than many traditional postgraduate and professional degree programs, and do not require any prerequisite work.

The Certificate in Data Analysis and Visualization offers an in-depth study developed by industry experts and balances theory and real-world practice. Coursework focuses on the necessary skills for collecting, formatting, and analyzing an organization's data, and students learn to manage big data and perform business analytics in order to produce useful information to guide an organization's decision making.

## Credentials and Microcredentials

Today, employers are looking for new hires with technical skills in big data and data analytics. Credentials and microcredentials show potential employers that students have the technical skill needed for today's workplace. This certificate program gives students the opportunity to earn credentials and microcredentials certifying their mastery of certain skills or abilities.

Students have the opportunity to earn microcredentials in spreadsheets, data visualization, and business analytics. Industry-valued certificates and credentials provide students the opportunity to showcase their skills and abilities to current and future employers. Credentials and microcredentials can be added to résumés and uploaded to online portfolios.

## Career Opportunities

Job growth for professionals proficient in business analytics is projected to continue rising. This high-stakes field also commands high salaries. Data analysis and visualization is applicable to a wide variety of jobs, so whether you want to launch a new career or advance to the next level of your current path, a certificate program can get you there.

## Requirements

| Code | Title | Units |
| --- | --- | --- |
| PRBA 111 | Business Statistics | 3 |
| PRBA 240 | Introduction to Information Systems and Business Applications | 3 |
| PRBA 244 | Data Analytics, Spreadsheets, and Data Visualization | 3 |
| PRBA 315 | Business System Analytics | 3 |
| **Total Units** | | **12** |

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Utilize relevant data analytics and visualization tools.
2. Interpret data to solve complex problems and make decisions for high-performance organizations.
3. Discuss the importance of ethics in data management, information technology, and statistics, considering a Christian Worldview.

# Certificate in Foundations of Human Resources

12 units

The Certificate in Foundations of Human Resources is a  postbachelor's program that equips students with the foundational knowledge and skills to become solutions-oriented HR professionals. Students will explore assessment and evaluation, needs analysis, human resource laws and compliance, compensation and benefits systems, and employee development. This certificate is geared toward individuals who already have their bachelor's and want additional education for professional learning, career changes, or adding value to their résumé. Current graduate students can also enroll in this program to gain a specialized credential.

## Requirements

| Code | Title | Units |
| --- | --- | --- |
| HROD 500 | Foundations of Human Resource Development | 3 |
| OPSY 505 | Individual and Team Assessment | 3 |
| HROD 532 | Human Resource Law | 3 |
| HROD 531 | Designing and Managing Compensation and Benefit Systems | 3 |
| **Total Units** | | **12** |

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Examine the field of human resource development (HRD).
2. Integrate compliance with current human resource laws and regulations.

3. Assess individuals and teams using interventions for group dynamics, personality, personal and group values, and internal motivations.
4. Recommend quality solutions for real world HR problems.

# Certificate in Government Budgeting

12 units

The Certificate in Government Budgeting is a postbachelor's program that equips working professionals who desire to deepen their expertise in financial management in nonprofit and government organizations. With the help of this program, students can become Certified Government Financial Managers (CGFMs), a respected credential that recognizes the specialized knowledge and experience needed to be an effective government financial manager. Students in this program grow as ethical leaders and financial managers, and have the opportunity to prepare for their CGFM certification, demonstrating competency in governmental accounting, auditing, financial reporting, internal controls, and budgeting at the federal, state, and local levels.

## Requirements

| Code | Title | Units |
|------|-------|-------|
| FIN 502 | Business Finance for Managers | 3 |
| ACCT 550 | Accounting for Nonprofit Entities | 3 |
| ACCT 551 | Government Financial Management | 3 |
| Select one of the following: | | 3 |
| ACCT 525 | Accounting Ethics | |
| MGMT 581 | Ethical Leadership | |
| **Total Units** | | **12** |

## Program Learning Outcomes
## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Apply financial management principles and procedures to nonprofit and government organizations.
2. Use analytic tools to analyze financial information, prepare and manage budgets, and ensure the financial accountability of public organizations.
3. Examine the unique financial challenges and opportunities in public sector financial management.
4. Develop personal ethical principles to guide financial decision-making.

# Certificate in Leadership Development

12 units

The Certificate in Leadership Development focuses on the personal character of the leader and how to develop themself and others. Students engage with approaches to executive coaching and gain insight into the past, present, and future landscape of leadership thought. This program is unique because it looks at leadership through the lens of emotional intelligence, which research shows is a cornerstone leadership trait. Students are equipped with practical tools to lead themselves and others forward. This certificate pairs well with any professional background, providing students with the life and leadership skills necessary to become influential agents of change in all kinds of organizations and personal relationships.

## Requirements

| Code | Title | Units |
|------|-------|-------|
| LDRS 512 | EQ I: Self-Leadership | 3 |
| LDRS 523 | EQ 2: Relational Leadership | 3 |
| MGMT 581 | Ethical Leadership | 3 |
| OPSY 515 | Coaching Techniques and Application | 3 |
| **Total Units** | | **12** |

## Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Explore the practical relationship between personality, motivation, personal values, and leadership development.
2. Identify the skills needed to guide high potential talent toward leadership development and success.
3. Articulate the behaviors and skills of emotional intelligence and its impact on organizational relationships.
4. Gain understanding of the historical roots of the study of leadership and its impact on leadership development into the future.

# Certificate in Project Management

12 units

Certificates are designed for current students who want a specialization, and for working professionals who want to grow in their field or change career paths. Certificates are great résumé builders, provide increased marketability, verify competence to potential employers, and provide practical learning that can be translated directly into workplace application. Certificate programs also provide the knowledge you need in order to transform your career in less time than many traditional postgraduate and professional degree programs, and do not require any prerequisite work.

In the project management certificate program, students learn to effectively manage projects across a range of industries and disciplines. Through a series of courses, students will learn about the key principles and practices of project management, including project planning, scheduling, budgeting, risk management, and quality assurance. Students will also have the opportunity to apply these concepts to real-world projects, gaining hands-on experience and developing critical thinking and problem-solving skills.

## Course Requirements

| Code | Title | Units |
| --- | --- | --- |
| BUSI 240 | Introduction to Information Systems and Business Applications | 3 |
| MGMT 214 | Project Management [1] | 3 |
| MGMT 440 | Business Process Management | 3 |
| MGMT 350 | Business Management Internship [1] | 3 |
| **Total Units** | | **12** |

[1] Meets the General Education Integrative and Applied Learning requirement.

# Certificate in Supply Chain and Logistics

12 units

Certificates validate skills and provide individuals with increased marketability and potential earning power. The Certificate in Supply Chain and Logistics is a professional undergraduate program for current students and working professionals who want to grow in their field or change career paths.

Businesses today need resourceful leaders to manage the procurement and delivery of products in an increasingly complex global economy. Students in this program gain the skills necessary to manage an organization's global supply chain, engaging in an in-depth study developed by industry experts that balances theory and real-world practice. Emphasis is on procurement, logistics and distribution, quality control, and analytical decision making.

Providing the knowledge you need in order to transform your career in less time than many traditional postgraduate and professional degrees, this certificate does not have any prerequisite work required.

## Credentials and Microcredentials

Today, employers are looking for new hires with technical skills in supply chain and logistics. This certificate program gives students the opportunity to earn industry-valued, internationally recognized credentials and microcredentials in project management, Six Sigma, Lean, quality management, logistics, and business analytics that can be added to résumés and uploaded to online portfolios, certifying and showcasing their mastery of these skills and abilities to potential employers.

## Career Opportunities

Job growth for supply chain and logistics professionals is projected to continue rising, so this high-stakes field also commands high salaries—the median annual salary for transportation, storage, and distribution managers in the United States is more than $100,000. Supply chain management

encompasses a wide variety of jobs, so whether you want to launch a new career or advance to the next level of your current path, this program can get you there.

## Requirements

| Code | Title | Units |
|------|-------|-------|
| PRBA 313 | Introduction to Supply Chain Management and Logistics | 3 |
| PRBA 314 | Supply Chain Sourcing [Proposed] | 3 |
| PRBA 315 | Business System Analytics | 3 |
| PRBA 317 | Quality Management | 3 |
| **Total Units** | | **12** |

# Master of Business Administration (MBA)

The Master of Business Administration (MBA) (https://www.apu.edu/business/programs/mba/) program offers working professionals an accessible yet rigorous graduate business program that can be completed in 12-30 months. The program prepares students to lead in the workplace by equipping them with key strategic concepts and the analytical and relational skills to make sound recommendations and decisions. The curriculum is designed to strike a balance between theory and practice, combining scholarship with practical experience and actual corporate case studies of business decision making. Students also select an area of concentration based on specific interests and career aspirations.

The program provides the opportunity for students to develop sound analytical abilities, establish collaborative and team-building skills, and become aware of social responsibility as a factor in decision making. The curriculum also allows students to acquire an understanding of the global business environment and how it is affected by cultural and market diversities. Faculty lectures are combined with case studies and discussions, student presentations, and team projects.

The accelerated and interactive classroom environment includes applied learning activities, use of new technologies in solving business problems, and independent field research and studies. National and international travel opportunities provide students with intensive boardroom field experience, where students get to dialogue with industry executives and government leaders.

## Highlights

- The MBA program equips students with strong moral character and the leadership and analytical skills needed to lead change in today's business world.
- Relevant coursework and real-world projects guided by faculty with business experience allow students to immediately apply learning at work.
- Focused certificates and credentials provide in-demand skills, know-how, and experience, verifying and showcasing students' skills and abilities to current and future employers.
- International and national travel opportunities give students intensive boardroom experience, where students get to dialogue with industry executives and government leaders worldwide.
- Students learn from Fulbright Scholars and world-renowned professors with real-world experience.
- Flexible course scheduling allows students to advance their academic and professional goals at their own pace.

## Certificates, Credentials, and Microcredentials

Today, employers are looking for new hires with technical skills as well as leadership abilities such as decision making and teamwork. In the MBA program, students have the opportunity to earn industry-valued certificates, credentials, and microcredentials that can be added to résumés and uploaded to online portfolios, certifying and showcasing their skills and abilities to potential employers.

## Flexible Course Schedules

To accommodate busy schedules, classes are offered during the evening, online, and at select regional campuses, and students may take advantage of the multiple delivery formats to customize their education experience. Students are admitted to and can start the MBA program in any of the six terms during the academic year.

## Requirements

The MBA program curriculum comprises 42-45 units: 33 units of core courses (including a 3-unit capstone) and 9-12 units of concentration courses. Concentration options include accounting, business analytics, entrepreneurship, finance, government financial management, healthcare management, international business, marketing, organizational science, public administration, and sport management. Students may request approval to take a second concentration.

| PE 556 | Facility and Event Management | |
| PE 572 | Foundations of Sport Management | |
| PE 557A | Field Studies/Internships in Sport Management [4] | |
| PE 557B | Field Studies/Internships in Sport Management [4] | |
| **Total Units** | | **42-45** |

[1]  Any student with a bachelor's degree in accounting or its equivalent may choose the accounting concentration, which consists of 12 units of regularly offered Master of Professional Accountancy (MAcc) courses.

[2]  Students who choose a concentration in international business are required to take BUSI 577 Global Field Study. BUSI 577 may be repeated twice and substituted for the other two required concentration courses with approval.

[3]  This concentration is designed for students who for personal and/or career reasons need to create an individualized concentration. The final course of the concentration is a capstone project or global field study; the other three courses are typically chosen from existing concentration courses offered by the School of Business and Management, but students with unique needs may propose concentrations that include up to 9 units of graduate study offered by other schools or colleges within Azusa Pacific University. All concentrations must be approved in advance by the SBM Graduate Business Admissions Committee. Concentration courses must also be approved by the other college(s)/school(s) in which the courses will be taken.

[4]  PE 557A and PE 557B must be completed consecutively after all other sport management coursework is completed.

# Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

View the **MBA-specific admission requirements (https://www.apu.edu/business/programs/mba/#admission)**.

# Program Changes

If a student wishes to change programs, the School of Business and Management requires students to file a Change of Program form and comply with all program admission requirements.

# Course Attendance and Schedule

The collaborative learning process that characterizes the MBA program requires that students are prepared to contribute value to class discussions and to the broader learning community based on their experiences. As such, class attendance is an important aspect of commitment to the MBA program, and absences from class are not appropriate except in cases of emergency.

Students should make note of the start and end of the term as they determine their schedules. Because program coursework is offered in accelerated seven-week sessions, students generally cannot miss more than one class without retaking the course. Students should notify instructors of planned absences as soon as possible and make arrangements with other students to get notes and assignments. Also, since every instructor considers participation in grading, absences and tardiness may significantly affect final grades.

# Academic Honors

## Outstanding Graduate

At each commissioning ceremony, graduate faculty may honor a single graduate with the distinction of Outstanding Graduate. The award is primarily based on academic achievement and is secondarily given to the outstanding candidate who contributed most to the APU MBA learning community.

# Commissioning Ceremony

Preceding each commencement, the School of Business and Management holds a commissioning ceremony for graduating students and their families. This event includes an achievement awards ceremony, words to live by, student remarks, and a time of prayer and commissioning for each graduate.

# Graduation

In order to graduate, students must complete the required courses with an overall grade-point average (GPA) of at least 3.0 within five years of matriculation. This includes completing every required course with a *C*- or above. All courses taken within the SBM and applied toward the MBA degree must be taken for a letter grade, except for courses offered only on a pass/fail (*P/F*) basis.

## Field Study Fees

Mandatory and elected international field study, global field study, and field experience trips incur appropriate required fees. Students who switch programs, withdraw, or are otherwise unable to participate in international field study, global field study, or field experience trips that are either required or elected for their program may be responsible for fees up to the full cost of the trip. View the most up-to-date fees. (https://www.apu.edu/graduateprofessional/sfs/costs/)

## Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate proficiency in multiple business disciplines.
2. Construct critical thinking processes to solve business problems.
3. Defend business decisions based on a Christian perspective.
4. Display strategic thinking through professional communication channels.
5. Be impactful team members.
6. Analyze cultural aspects of business in diverse environments.

# Master of Business Management (MBM)

The Master of Business Management (MBM) program (https://www.apu.edu/business/programs/masters-in-management/) offers working professionals an accessible yet rigorous graduate business program that can be completed in 12-30 months. Coursework builds a foundation for successful executive leadership, development of a collaborative work ethic, expansion of management vision with global perspectives, ethical decision-making skills, and the ongoing quest for innovative value creation.

Program coursework provides students with the functional knowledge and strategic tools necessary for successful business management and leadership, as well as the scholastic and professional applications framework to acquire state-of-the-art global leadership and management perspectives. Focus is placed on creating value within organizations, and making continuous positive contributions in a rapidly changing, highly diversified, and increasingly integrated business environment.

The 39-unit MBM program develops exceptional business management professionals with outstanding moral character and strong analytical and innovative decision-making skills. The ethical leadership development vision that forms the core of the program is reflected in coursework designs, which combine classroom learning with hands-on experience. Real-life case studies provide students with résumé experience and allow students to build impressive portfolios. Previous real-life cases have included companies such as Pepsi, Target, and Kaiser Permanente, along with numerous nonprofits and startups. International and national travel opportunities give students intensive boardroom field experience, where students get to dialogue with industry executives and government leaders.

## Highlights

- The MBM program equips students with strong moral character and the management and leadership skills needed to lead change in today's business world.
- Relevant coursework and real-world projects guided by faculty with business experience allow students to immediately augment their résumé and apply learning at work.
- Focused certificates and credentials provide in-demand skills, know-how, and experience, verifying students' skills and abilities to current and future employers.
- Students learn from Fulbright Scholars and world-renowned professors with real-world organizational experience.
- International and national travel opportunities give students intensive boardroom experience, where students get to dialogue with industry executives and government leaders worldwide.
- Flexible course scheduling allows students to advance their academic and professional goals at their own pace.

## Certificates, Credentials, and Microcredentials

Today, employers are looking for employees who can lead people and projects. The job market demands individuals with strong analytical and project management skills, as well as leadership abilities such as decision making and teamwork. In the MBM program, students have the opportunity to earn industry-valued, internationally recognized certificates, credentials, and microcredentials that can be added to résumés and uploaded to online portfolios, certifying and showcasing their mastery of these skills and abilities to potential employers.

# Flexible Course Schedules

To accommodate busy schedules, classes are offered during the evening, afternoon, online, and at select regional campuses. Afternoon classes give students the opportunity to participate in real-life business strategy case studies with profit, nonprofit, and governmental organizations, and students may take advantage of the multiple delivery formats to customize their education experience. **Students are admitted to and can start the MBM program in any of the eight terms during the academic year.**

# Requirements

To graduate, students must complete the required 39 units with a grade-point average of at least 3.0 within five years of matriculation. This includes completing all required courses with a *C-* or above. All courses taken within the SBM and used for a student's MBM candidacy must be taken for a letter grade, except courses offered only on a pass-fail basis.

| **Total Units** | | **39** |

[1]    BUSI 577 may be repeated twice and substituted for the other two required concentration courses with approval.

[2]    The organizational science concentration is designed for students who, for personal and/or career reasons, need to create an individualized concentration. The three courses are typically chosen from existing concentration courses offered by the School of Business and Management, but students with unique needs may propose concentrations that include up to 9 units of graduate study offered by other schools or colleges within Azusa Pacific University. All concentrations must be approved in advance by the Graduate Business Admissions Committee. Concentration courses from other colleges/schools must also be approved by those colleges/schools.

# Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

View the **MBM-specific admission requirements (https://www.apu.edu/business/programs/masters-in-management/#admission)**.

# Program Changes

If a student wishes to change programs, the School of Business and Management requires students to file a Change of Program form and comply with all program admission requirements.

# Course Attendance and Schedule

The collaborative learning process that characterizes the MBM program requires that students be prepared to contribute value to class discussions and to the broader learning community based on their experiences. As such, class attendance is an important aspect of commitment to the MBM program. Absences from class are not appropriate except in cases of emergency.

Students should make note of the start and end of the term as they determine their schedules. Because the program coursework is offered in accelerated eight-week sessions, students generally cannot miss more than one class without retaking the course. Students should notify instructors of planned absences as soon as possible and make arrangements with other students to get notes/assignments. Also, since every instructor considers participation in grading, absences and tardiness may significantly affect final grades.

# Academic Honors

## Outstanding Graduate

At each commissioning, the graduate faculty may honor a single graduate with the distinction of Outstanding Graduate. The award is primarily based on academic achievement, but when a secondary factor is needed to make a selection, the committee determines which of the outstanding candidates contributed most to the learning community.

## Sigma Iota Epsilon National Honorary and Professional Management Fraternity

The MBM program holds a prestigious membership in the Sigma Iota Epsilon (SIE) National Honorary and Professional Management Fraternity. Membership in SIE highlights the academic standards of the program and the qualifications of the faculty. Approval from the national chapter also affirms the contribution and value of scholastic achievement in APU's management programs.

APU's MBM fraternity, designated Sigma Iota Epsilon, Theta Kappa Chapter, extends individual membership to students who demonstrate high academic standing in the field of management. The vision of the Theta Kappa Chapter is to connect SIE's mission with APU's Four Cornerstones,

creating a synergy that helps develop holistic and dynamic professionals in the business world. APU's programs aim at bridging the gap between theory and practice and helping prepare students to enter the management field and advance as leaders.

## Commissioning Ceremony

Preceding each commencement, APU holds a commissioning ceremony for graduating students and their families. This event includes an awards ceremony, words to live by, student remarks, and a time of prayer and commissioning for each graduate.

## Field Study Fees

Mandatory and elected international field study and field experience trips that are available on a program-by-program basis incur appropriate required fees. Students who switch programs, withdraw, or are otherwise unable to participate in international field study or field experience trips that are either required or elected for their program may be responsible for fees up to the full cost of the trip. View the most up-to-date list of fees (https://www.apu.edu/graduateprofessional/sfs/costs/).

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate proficiency in multiple business disciplines.
2. Construct critical thinking processes to solve business problems.
3. Defend business decisions based on a Christian perspective.
4. Display strategic thinking through professional communication channels.
5. Be impactful team members.
6. Analyze cultural aspects of business in diverse environments.

# Minor in Business Administration (Professional)

21 units

Today's business leaders must be agile and able to adapt to a rapidly changing business world while leading employees by modeling character, integrity, and compassion. Relevant coursework addresses current issues in business and encourages the integration of real-world work experiences and hands-on projects. Students may combine these experiences with internships or international study opportunities to further expand their portfolio and network.

## Benefits of Adding a Minor

A minor can help students complement their bachelor's degree and stand out to future employers, helping them expand their employment opportunities as they study an additional area of interest. The versatility of the business administration minor complements any major, giving students the opportunity to demonstrate management expertise in any field and possibly providing an edge in their job search, while also adding knowledge that can be used throughout an individual's career.

## Certificates, Credentials, and Microcredentials

Throughout the program, students build on existing experience while gaining a strong foundation in business management and leadership. Students in this program also have the opportunity to earn internationally recognized certificates, credentials, and microcredential badges that can be added to résumés and uploaded to online portfolios, certifying and showcasing their mastery of certain skills or abilities to potential employers.

## Requirements

| Code | Title | Units |
|---|---|---|
| PRBA 120 | Principles of Accounting I | 3 |
| PRBA 210 | Principles of Management | 3 |
| PRBA 260 | Marketing Principles | 3 |
| PRBA 370 | International Business [1] | 3 |

| PRBA 445 | Human Resource Management | 3 |
| **Total Units** | | **21** |

[1]   Meets the General Education Intercultural Competence requirement.
[2]   Meets the General Education Civic Knowledge and Engagement requirement.

## Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Critical Thinking: Identify and solve business problems using analytical and critical thinking skills.
2. Quantitative Reasoning: Analyze quantitative data to address real-world or discipline-specific business problems.
3. Information Technology: Apply current information technologies to business issues.
4. Christian Business Ethics: Use biblically-based ethics to make moral and virtuous ethical and socially responsible business decisions.
5. Written Communication: Convey ideas clearly and effectively through professional written communication.
6. Oral Communication: Communicate in informative or persuasive ways using the appropriate genre, channel, structure, and style.
7. Global/Multicultural Awareness: Informed by biblically-based ethics, students will identify and respond to cultural, economic, and political aspects of business in multicultural and global environments.

# Minor in Business Analytics

21 units

The business analytics minor is for students interested in developing expertise in data science and data analytics with a specialization in the field of business. Students learn to analyze large quantities of data and discover value-oriented insights, becoming data-driven decision-makers in their organizations. Information is applied to a wide range of data-rich business domains such as accounting, economics, finance, marketing, human resource management, and supply chain management.

## Benefits of Adding a Minor

A minor can help students complement their bachelor's degree and stand out to future employers, expanding their employment opportunities as they study an additional area of interest. Complementary minors provide students the opportunity to demonstrate added expertise in their field and specialize in an area that may provide an edge in their job search, and also add knowledge that can be used throughout an individual's career.

| Code | Title | Units |
|---|---|---|
| **Business Analytics Core** | | |
| BUSI 111 | Business Statistics [1] | 3 |
| BUSI 246 | Foundations of Business Analytics | 3 |
| BUSI 314 | Big Data Analytics for Business | 3 |
| BUSI 414 | Application of Business Analytics | 3 |
| Select three of the following: | | 9 |
| ACCT 120 | Principles of Accounting I | |
| ACCT 121 | Principles of Accounting II | |

| S | Offered in Spring only |
| F/S | Offered in both Fall and Spring terms |
| EF | Offered in Fall in even years |
| ES | Offered in Spring in even years |
| OF | Offered in Fall in odd years |
| OS | Offered in Spring in odd years |

## Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Describe business issues which require business analytics' skills and methods.
2. Transform large quantities of real-life data from a wide range of domains to resolve issues.
3. Apply appropriate analytical methods (descriptive, diagnostic, predictive, and prescriptive analytics) to find solutions to business problems.
4. Explain the results of analytical activities clearly and concisely using oral, written, or electronic media.
5. Describe the ethical and legal issues involved with collecting, storing, and using big data from a Christian perspective.

# Minor in Business Management

21 units

The business management minor program is designed for those who seek a broad spectrum of business courses necessary to lead and manage organizations. This program develops competence in conceptual, human, and technical skills, and these skills make students completing the program well prepared for employment in public and private-sector organizations.

Students in this program learn the management and leadership skills of planning, decision making, problem solving, communication, and delegation. Coursework in general business management and leadership includes a fundamental system of values that serves as the basis for decision making. This minor also emphasizes project and people management.

## Benefits of Adding a Minor

A minor can help students complement their bachelor's degree and stand out to future employers, expanding their employment opportunities while they study an additional area of interest. The versatility of the management minor complements any major, giving students the opportunity to demonstrate management expertise in any field and possibly providing an edge in their job search, as well as adding knowledge that can be used throughout an individual's career.

## Certificates, Credentials, and Microcredentials

Today, employers are looking for new hires with technical skills and leadership abilities such as decision making and teamwork. Students in this program have the opportunity to earn industry-valued certificates, credentials, and microcredential badges that can be added to résumés and uploaded to online portfolios, certifying and showcasing certain skills and abilities to potential employers.

## Experiential Learning Opportunities

Study-away opportunities expose students to topics of globalization, trade, culture, and global management and leadership as they travel the world. Typically, these trips include visiting global and international organizations and learning from universities and business leaders around the world. Additionally, numerous School of Business and Management clubs offer students the chance to build skills in leadership, management, decision making, and teamwork.

## Career Opportunities

At APU, students may choose from among a broad range of management course offerings. Business management minors are able to pursue work in a vast range of industries.

## Requirements

No more than three courses in a student's major may count toward the business management minor.

| Code | Title | Units |
| --- | --- | --- |
| BUSI 110 | Business and Entrepreneurship [1] | 3 |
| MGMT 210 | Principles of Management [2] | 3 |

[1]    Meets the General Education Civic Knowledge and Engagement requirement.
[2]    Meets the General Education Integrative and Applied Learning requirement.
[3]    Meets the General Education Intercultural Competence requirement.
[4]    Meets the General Education Social Sciences requirement.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Competent Business Knowledge: Students will be able to demonstrate knowledge in multiple business disciplines, including management, finance, marketing, accounting and economics.
2. Critical Thinking: Students will be able to identify and solve business problems using analytical and critical thinking skills.
3. Christian Business Ethics: Students will be able to demonstrate the ability to evaluate business decisions based on a Christian perspective.
4. Written Communication: Students will be able to convey ideas clearly through professional written communication.
5. Oral Communication: Students will be able to express ideas effectively through professional oral presentations.
6. Collaborative Teamwork: Students will be able to demonstrate the ability to function as an effective business team member.
7. Comprehensive Global Awareness: Students will be able to identify cultural, economic and political aspects of business in a global environment.
8. Discipline Knowledge: Students will be able to demonstrate knowledge of management concepts.
9. Discipline Problem Solving/Strategy: Students will be able to a) solve core management problems or b) analyze management situations and provide strategy for effectiveness.

# Minor in Economics

21 units

The economics minor focuses on a deep understanding of the economic environment of business, including labor, environmental, and international issues. Students become grounded in economic theory and practical applications.

## The Benefits of Adding a Minor

A minor can help students complement their bachelor's degree and stand out to future employers, helping them expand their employment opportunities as they study an additional area of interest. Complementary minors provide students the opportunity to demonstrate added expertise in their field and specialize in an area that may provide an edge in their job search, and also add knowledge that can be used throughout an individual's career.

## Requirements

The economics minor allows no more than three courses in the student's major to count toward this minor.

| Code | Title | Units |
| --- | --- | --- |
| ECON 200 | Survey of Economics [1] | 3 |
| ECON 350 | Intermediate Macroeconomics [2] | 3 |
| ECON 351 | Intermediate Microeconomics [3] | 3 |
| Select four of the following: | | 12 |
| ECON 355 | Environmental Economics | |
| ECON 356 | Labor Economics | |
| ECON 359 | Urban and Regional Economics [4] | |
| ECON 452 | Econometrics | |
| ECON 495 | Special Topics in Economics | |
| ECON 497 | Readings | |
| FIN 352 | Financial Markets and Institutions | |
| FIN 372 | International Trade and Finance | |
| **Total Units** | | **21** |

[1]  Meets the General Education Social Sciences requirement.
[2]  Offered Fall semester.
[3]  Offered Spring semester.
[4]  Meets the General Education Civic Knowledge and Engagement requirement.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Competent Business Knowledge: Demonstrate knowledge in multiple business disciplines, including management, finance, marketing, accounting and economics.
2. Critical Thinking: Identify and solve business problems using analytical and critical thinking skills.
3. Christian Business Ethics: Demonstrate the ability to evaluate business decisions based on a Christian perspective.
4. Written Communication: Convey ideas clearly through professional written communication.
5. Oral Communication: Express ideas effectively through professional oral presentations.
6. Collaborative Teamwork: Demonstrate the ability to function as an effective business team member.
7. Comprehensive Global Awareness: Identify cultural, economic and political aspects of business in a global environment.
8. Discipline Knowledge: Demonstrate knowledge of economics concepts.
9. Discipline Problem Solving/Strategy: Solve core economics problems, or analyze economics situations and provide strategy for effectiveness.

# Minor in Entrepreneurship

21 units

The entrepreneurship minor prepares students for the intricacies of planning, launching, and leading a new business, with a focus on creativity and innovation, managing and growing a new business, and social media. Coursework covers working in teams, constructing business models, communicating with partners and customers, assessing feasibility while launching a new venture or initiative, and creating a social media campaign.

## Benefits of Adding a Minor

A minor can help students complement their bachelor's degree and stand out to future employers, helping them expand their employment opportunities as they study an additional area of interest. Complementary minors provide students the opportunity to demonstrate added expertise in their field and specialize in an area that may provide an edge in their job search, and also add knowledge that can be used throughout an individual's career.

## Experiential Learning Opportunities

Entrepreneurship minors apply their knowledge and skills in academic and real-world settings. Guided by faculty, teams of students conduct needs assessments in local communities, identify potential solutions, and implement community impact projects. The communities benefit from collaboration and fresh innovation, and students gain valuable experience to advance their entrepreneurial résumés.

Students also have the option to participate in student clubs and competitions, such as ENACTUS, that provide skill-building opportunities in leadership, teamwork, and decision making. APU-sponsored teams have a track record of successful placement in ENACTUS competitions.

## Credentials and Microcredentials

Today, employers are looking for new hires with technical skills and leadership abilities such as decision making and teamwork. Entrepreneurship minors have the opportunity to earn industry-valued credentials and microcredential badges that can be added to résumés and uploaded to online portfolios, certifying and showcasing these skills and abilities to potential employers.

## Requirements

No more than three courses in a student's major may count toward this minor.

| Code | Title | Units |
|---|---|---|
| BUSI 110 | Business and Entrepreneurship [1] | 3 |
| BUSI 213 | Negotiation Strategies and Skills | 3 |
| ENTR 312 | Creativity and Innovation | 3 |

5. Discipline Problem Solving/Strategy: Students will be able a) solve core entrepreneurship problems or b) analyze entrepreneurship situations and provide strategy for effectiveness.

# Minor in Foundations of Business (MBA Preparation)

21 units

The foundations of business (MBA prep) minor (https://www.apu.edu/business/programs/foundations-business-minor/) is for nonbusiness students who are interested in pursuing a Master of Business Administration (MBA) degree after completing their bachelor's program.

Azusa Pacific University's School of Business and Management offers a customizable, Christ-centered MBA degree program that prepares ethical leaders capable of adapting to the changing business landscape. This program teaches the key concepts and skills, both analytical and relational, to be successful managers and leaders in business and society. This minor prepares students to enter into APU's MBA program or any other accredited MBA program after the completion of a bachelor's degree in a discipline outside of business.

No more than three courses in a student's major may count toward the foundations of business (MBA prep) minor.

| Code | Title | Units |
|---|---|---|

[3]   Meets the General Education Social Sciences requirement.
[4]   Meets the General Education Intercultural Competence requirement.
[5]   Meets the General Education Quantitative Literacy requirement.

## Program Learning Outcomes
### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate competency in multiple business disciplines.
2. Apply critical thinking to solve business problems.
3. Evaluate business decisions based on a Christian perspective.
4. Communicate ideas through professional channels.
5. Demonstrate awareness of community impact.

# Minor in Foundations of Management (MBM Preparation)

21 Units

The Foundations of Management (MBM Prep) minor (https://www.apu.edu/business/programs/foundations-management-minor/) is for nonbusiness students who are interested in pursuing a Master of Business Management degree (MBM) after completing their bachelor's program.

Azusa Pacific University's School of Business and Management offers a customizable, Christ-centered MBM that prepares ethical leaders capable of adapting to the changing business landscape. This master's in management program prepares students to become managers and leaders who can effectively motivate employees to exceed market expectations, improve competency levels and job performance, guide their organizations to invest in their workforce, and recruit, hire, and train the right individuals. Program graduates become experts in positively steering organizational change and creating a culture of teamwork.

Students who successfully complete this program shall be able to:

1. Demonstrate competency in multiple business disciplines.
2. Apply critical thinking to solve business problems.
3. Evaluate business decisions based on a Christian perspective.
4. Communicate ideas through professional channels.
5. Demonstrate awareness of community impact.

# Minor in Human Resources

21 units

The human resources minor provides students with a comprehensive understanding of the fundamental principles and practices of managing human capital within an organization. This program equips students with the knowledge and skills needed to effectively recruit, develop, and retain employees, and to navigate the complex legal and ethical considerations associated with employment.

Students will learn about a variety of topics, including compensation and benefits, employee relations, training and development, talent acquisition, diversity and inclusion, and strategic planning. Students will also explore the various challenges facing HR professionals in today's rapidly changing

business landscape, such as the impact of technology on the workforce, the evolving nature of work and employment, and the importance of fostering a positive organizational culture.

## Benefits of Adding a Minor

A minor can help students complement their bachelor's degree and stand out to future employers, helping them expand their employment opportunities as they study an additional area of interest. Complementary minors provide students the opportunity to demonstrate added expertise in their field and specialize in an area that may provide an edge in their job search, and also add knowledge that can be used throughout an individual's career.

## Certificates, Credentials and Microcredentials

Today, employers are looking for new hires with technical knowledge and leadership abilities such as decision making and teamwork. Students in this program have the opportunity to earn industry-valued certificates, credentials, and microcredential badges that can be added to résumés and uploaded to online portfolios, certifying and showcasing certain skills and abilities to potential employers.

| HROD 352 | Employee Relations | 3 |
| **Total Units** | | **21** |

[1] Meets the General Education Social Sciences requirement.

# Minor in International Business

24 units

The international business minor prepares students for careers in global business and international commerce. The program incorporates a global collaborative approach to the study of business, international management, strategic positioning, international trade, macroeconomics, and politics as it prepares students to work in a dynamic and interdependent global business environment.

Students explore various ethical, cultural, legal, and other differences that exist in international business and consider their individual and leadership responsibilities and actions. International business majors think through the various urgent challenges that face business environments today, including sustainability, climate change, energy and technological shifts, political shifts, and all forms of equity.

Students also acquire practical skills and experience through study-away opportunities, internships, and the opportunity to work with university students around the world in global colloquium case-study projects.

## Benefits of Adding a Minor

A minor can help students complement their bachelor's degree and stand out to future employers, expanding their employment opportunities while they study an additional area of interest. Complementary minors give students the opportunity to demonstrate added expertise in any field and possibly provide an edge in their job search, and add knowledge that can be used throughout an individual's career.

## Experiential Learning Opportunities

The International Business Global Colloquium gives APU students the opportunity to study various aspects of international business and international differences with students from different countries, schools, and programs for a significant social/international experience.

Study-away opportunities expose students to topics of globalization, trade, culture, and global management and leadership as they travel the world. Typically, these trips include visiting global and international organizations and learning from universities and business leaders around the world. Additionally, numerous student clubs offer the chance to build skills in leadership, management, decision making, and teamwork.

## Certificates, Credentials, and Microcredentials

Today, employers are looking for new hires with technical skills and leadership abilities such as decision making and teamwork. Students in this program have the opportunity to earn industry-valued certificates, credentials, and microcredential badges that can be added to résumés and uploaded to online portfolios, certifying and showcasing certain skills and abilities to potential employers.

## Career Opportunities

International business careers may be found with multinational corporations, foreign companies, banks, international investments, export/import trade, international law, international nonprofit organizations, world missions, and public/foreign service. Some of these exist in expatriate opportunities and some through various other logistics and extensions. Individuals graduate from this program with significant international experience, as well as proficiency in a foreign language, and are in high demand in today's job market.

## Requirements

No more than three courses in a student's major may count toward the international business minor.

| Code | Title | Units |
| --- | --- | --- |
| BUSI 213 | Negotiation Strategies and Skills | 3 |
| BUSI 370 | International Business [1] | 3 |

| **Total Units** | | **24** |

[1]	Meets the General Education Intercultural Competence requirement.
[2]	Meets the General Education Integrative and Applied Learning requirement.
[3]	Meets the General Education Social Sciences requirement.

## Program Learning Outcomes
## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Competent Business Knowledge: Students will be able to demonstrate knowledge in multiple business disciplines, including management, finance, marketing, accounting and economics.
2. Critical Thinking: Students will be able to identify and solve business problems using analytical and critical thinking skills.
3. Christian Business Ethics: Students will be able to demonstrate the ability to evaluate business decisions based on a Christian perspective.
4. Written Communication: Students will be able to convey ideas clearly through professional written communication.
5. Oral Communication: Students will be able to express ideas effectively through professional oral presentations.
6. Collaborative Teamwork: Students will be able to demonstrate the ability to function as an effective business team member.
7. Comprehensive Global Awareness: Students will be able to identify cultural, economic and political aspects of business in a global environment.
8. Discipline Knowledge: Students will be able to demonstrate knowledge of international business concepts.
9. Discipline Problem Solving/Strategy: Students will be able to a) solve core international business problems or b) analyze international business situations and provide strategy for effectiveness.

# Department of Digital and Strategic Marketing

The Department of Digital and Strategic Marketing offers several undergraduate and graduate programs led by industry veterans who equip students to become ethical experts who shape the business world for the cause of Christ.

## Courses

### MKTG 260, Principles of Marketing, 3 Units

Students in this course analyze the movement of goods from producers to consumers, which includes discussion of the channels of distribution, marketing functions, management considerations, and problems in marketing practice. Marketing trends in current economic systems are reviewed. *Meets the General Education Requirement: Intercultural Competence.*

### MKTG 261, Visual Marketing, 3 Units

This course provides students with a comprehensive overview of the principles and techniques behind visual marketing. Students explore various platforms available to help them effectively reach their target audience through visually engaging methods, and evaluate market trends, use of technology, target audience, and visual communication methods to create a visual marketing strategy. By the end of the course, students are able to identify which approaches are best suited for their projects and how they can use these tools to create compelling visual marketing campaigns. **Prerequisite:** MKTG 260

### MKTG 262, Consumer Behavior: An Applied Approach, 3 Units

This course involves a comprehensive examination of the nature of markets and the factors influencing market development and change. Students study individual consumer behavior in relation to the buying-selling process, with emphasis on understanding the consumer in order to facilitate the development of an effective marketing strategy. *Meets the General Education Requirement: Civic Knowledge and Engagement.*

### MKTG 350, Marketing Internship, 3 Units

This course integrates marketing principles and theory into a working environment related to marketing. Includes research, setting objectives, general marketing decision making, and reflection. *Meets the General Education Requirement: Integrative and Applied Learning.* **Prerequisite:** MKTG 260, completion of 60 units, and instructor consent.

### MKTG 361, Advertising and Integrated Marketing Communications, 3 Units

Students in this course explore how organizations promote ideas, products, or services through strategic connections with consumers on a variety of digital channels. Grounded in advertising, public relations, and communication, course material covers marketing campaigns and practices that have shaped our history, and how modern organizations build value by using branding, storytelling, publicity, medium utilization, and data analytics to create authentic messaging for specific target audiences. **Prerequisite:** MKTG 260

### MKTG 363, Marketing Research, 3 Units

This course is an overview and practical application of contemporary methods for gathering, analyzing, and preparing market research for use in management decision making. Research methodology includes specific topic areas as the research process, primary and secondary data, qualitative and quantitative research methods, statistical analysis, and utilization of technology. **Prerequisite:** MKTG 260 and MATH 130

## MKTG 364, Sales and Sales Management, 3 Units

In this course, consideration is given to personal sales strategies and practices, including relationship management, negotiation, consultative selling, and key account management. The sales management function, including recruiting and selecting salespeople, motivation and training, compensation plans and quotas, supervising, sales forecasting and budgeting, salesforce evaluation, and the ethics in selling and sales management is covered.
**Prerequisite:** MKTG 260 or instructor consent

## MKTG 368, Retail Management, 3 Units

Students explore the roles and scope of retailing business, characteristics of retailers and consumers, and strategies for managing operations. Course material emphasizes retailing characteristics and activities, multichannel opportunities, retail communication mix, consumer buying behavior, retail market strategy (including location and site strategy), product mix, store layout, merchandising, competition, pricing, and promotion. This course also introduces students to procurement and supply chain logistics, customer relationship management, operations, and employee management. Students in this course have the opportunity to earn a retail management microcredential.
**Prerequisite:** MKTG 260

## MKTG 369, Global Industrial Marketing, 3 Units

Students learn the marketing of business goods by manufacturers to other businesses, government agencies, and social institutions. The course consists of market analysis, sales forecasting, product strategy, effective use of sales force, and industrial promotional planning and implementation. Extensive quantitative techniques are utilized.
**Prerequisite:** MKTG 262, MKTG 363

## MKTG 373, Global Marketing Management, 3 Units

This course is an overview of international marketing and considers the powerful economic, technological, industrial, political, and demographic forces that are converging to build the foundation of a global marketplace in a dynamic and ever-changing world. Students conduct projects involving international marketing.
**Prerequisite:** MKTG 260 and BUSI 370

## MKTG 376, Strategic Brand Management, 3 Units

This course introduces students to the essential concepts of strategic brand management. It provides an in-depth exploration of how brands are created, positioned, and leveraged for maximum market advantage. Through the perspective of customer-based brand equity, students learn about influencer marketing, digital platform brands, social listening, attribution modeling, and marketing to bicultural consumers. Upon completion of this course, students are able to demonstrate a comprehensive understanding of the principles and techniques used in today's competitive marketing environment.
**Prerequisite:** MKTG 260

## MKTG 378, Contagious Marketing, 3 Units

Students in this course gain a comprehensive understanding of the strategic methods that organizations employ to promote their products, services, or ideas in the digital age. Course material covers various channels used for connecting with consumers, such as advertising, public relations, and other communications. Students explore the historical and current practices of contagious marketing campaigns, focusing on how organizations build value through branding, storytelling, publicity, and medium utilization. By the end of the course, students have a deep understanding of the principles and practices of contagious marketing and are equipped with the skills needed to create effective campaigns.
**Prerequisite:** MKTG 260

## MKTG 465, Strategic Marketing Management, 3 Units

This course offers a strategic approach to the management of the marketing function. As the capstone course for marketing majors, students utilize marketing case analysis to examine and evaluate the entire marketing decision-making process. Course content focuses on the strategic analysis of market opportunities and the development of the marketing mix through project coursework.
**Prerequisite:** MKTG 262, MKTG 361

## MKTG 466, Digital and Social Media Marketing, 3 Units

Within an organization's strategic and business objectives, digital marketing leverages traditional marketing, utilizing essential digital marketing tools such as online branding, display advertising, social media marketing, and search engine optimization. Content in this course emphasizes the development of digital marketing strategies and programs for an organization, and students have the opportunity to earn an industry-recognized Hootsuite certificate in social media and social media marketing management.
**Prerequisite:** MKTG 260

## MKTG 502, Marketing Principles, 3 Units

This course focuses on understanding marketing management, formulating and implementing marketing strategies, and provides a systematic framework for marketing planning, analysis and evaluation. The characteristics and management of markets are described in topics that include the marketing environment, components of the marketing mix, market segmentation, positioning and targeting.

## MKTG 515, Marketing Research, 3 Units

This course prepares students to approach marketing research from a management perspective. The role of marketing research process, the human side of marketing research, and organizational and ethical issues are discussed. Students utilize comprehensive cases and analysis, along with a marketing research project.
**Prerequisite:** MKTG 527 and BUSI 511

## MKTG 527, Marketing Strategy, 3 Units

This course offers in-depth management, analysis, and decision-making resources related to marketing strategy, including environmental turbulence, competitive analysis, customer and market analysis, product life cycle analysis, and marketing mix management. Course material is primarily case-based.
**Prerequisite:** ACCT 512 and FIN 513

## MKTG 545, International Marketing, 3 Units

International marketing is the performance of business activities that direct the flow of a company's goods and services to consumers or users in more than one nation. The elements of the marketing mix (product, price, promotion, and place-channels of distribution) first studied in domestic marketing are analyzed in global terms, thus adding the elements of geography, cultural forces, and the structure of distribution to the uncontrollables with which the marketer must contend.

## MKTG 565, Integrated Marketing Communications, 3 Units

In this course, the marketing communication function is introduced and analyzed. Topics include advertising theory, planning and measurement, communication theory, the integrated marketing communication (IMC) mix, promotional strategies, public relations and publicity, consumer education, collateral materials planning, and promotional ethics.

## MKTG 580, Strategic Digital Marketing, 3 Units

This course discusses the differences between E-commerce and E-business in relation to the firm, emphasizing the correlation between business, technology, and society. An advanced marketing course, it builds on the firm's business model, which guides its traditional and dynamic online marketing presence. Emphasis is placed on the importance of the Christian worldview and community citizenship, and on developing a positive long-term relationship with customers and stakeholders, thereby creating a distinct competitive advantage for the firm. Student projects integrate learning activities with business organizations.

## PUBR 215, Public Relations and Social Media, 3 Units

Students in this course explore the application of public relations strategies and techniques to social media platforms, examining the different ways organizations can communicate with their publics through new technologies. Students learn through a hands-on approach to case studies and social media campaigns, and through a detailed study of social media platforms, social media trends, and communication theories applied to this new form of communication. A crucial element of the course is the design, development, and implementation of a social media consultancy project for a nonprofit.

## PUBR 250, Introduction to Public Relations, 3 Units

Applies communication principles and theories to the field of public relations. Emphasis is placed on developing successful approaches to establishing and maintaining mutual understanding between organizations and their publics through successful two-way communication.

## PUBR 325, Public Relations Agency, 3 Units

This course equips students with a realistic approach to daily life as a public relations practitioner. Because this course is structured as a workshop replicating the structure and organization of a public relations agency, students experience a working environment that prepares them for the professional world as they produce public relations materials for a variety of clients. A key component of the course is the development of a portfolio of work samples.
**Prerequisite:** PUBR 250

## PUBR 330, Writing 3: Public Relations Writing for Campaigns, 3 Units

This course helps students develop skills in writing and creative strategy in the public relations profession, with special attention given to news and persuasive writing in print, broadcast, digital, and social media platforms; key message construction; and writing for internal and external audiences. Course content also addresses standards, ethical issues, and critical thinking as part of the public relations writing process. Each student produces an individual portfolio of writing samples of public relations products, such as news releases, op-eds, media kits, interviews, scripted interviews, fact sheets, and online materials. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*
**Prerequisite:** PUBR 250 and Writing 2

## PUBR 340, Digital Storytelling, 3 Units

This course defines and develops the concept and process of storytelling in the context of digital media. Students explore the idea of storytelling from its inception to its delivery, identifying the components of a story, comparing different strategies used in the field, and developing their own digital storytelling. Students must connect and contrast different strategies utilized by public relations professionals when creating digital storytelling.
**Prerequisite:** PUBR 250

## PUBR 350, Reputation Management, 3 Units

Students in this course explore the concept of reputation and the strategies necessary for developing, maintaining, and improving the reputation of organizations, and building and maintaining positive relationships with publics. Through a variety of case studies and best practices, students identify the different areas of reputation management, including proactive issues and crisis management, and effective approaches to handling crises, capitalizing on performance. As a practical outcome of the course, students design and develop a full-scale reputation management plan for an organization.
**Prerequisite:** PUBR 250

## PUBR 400, Public Relations Management and Ethics, 3 Units

This course is the culmination of the public relations program, covering the advanced application of strategic public relations creative and management functions in organizations through the design, creation, development, and implementation of public relations campaigns for a variety of purposes (e.g., internal communication, media relations, crisis communication, social media, diversity, social corporate responsibility). A key component of the course is planning and implementing a public relations campaign for a local organization. Students also examine specific public relations contexts and analyze case studies that exemplify how organizations successfully apply communication to take advantage of public relations opportunities and solve public relations problems. Students also explore the ethical dimensions of the professional practice of public relations.
**Prerequisite:** PUBR 330

## PUBR 420, Public Relations, Non-profits and Social Causes, 3 Units

Course instruction covers wide-ranging study and application for working and flourishing in communications for the non-profit sector. Learning skills need to prepare for this unique field include language nuance, effective story-telling, strategic networking, as well as an understanding of the similarities and differences existing between communication approaches used in the for-profit, government, and non-profit sectors. This course will also cover the particularities of faith-based non-profits.

## PUBR 430, Innovation and Creativity, 3 Units

Students in this course study the creative process, learning the tools and resources for understanding the role of creativity and innovation in the field of strategic communication. Course material also covers the tools and techniques for fostering creative thinking in our everyday life and in the corporate environment. Special attention is paid to identifying how innovation and creativity are expanding the potential of strategic communication campaigns, and a vital component of the course is the final project, in which students identify a problem, develop strategies to solve it, and produce an innovative solution.
**Prerequisite:** PUBR 250

## PUBR 440, Public Relations and Entertainment, 3 Units

We live in one of the world's largest media markets. This course will explore the entertainment industry and the public relations strategies and practices in the field. Students will learn about the structure of the entertainment industry, distribution channels, media relations and so forth. This course offers a very practical, hands-on workshop where an active professional offers students a series of case studies and challenges to be worked, discussed and solved in the classroom. Students will be exposed to the real life scenarios and will create a number of pieces for their professional portfolio.
**Prerequisite:** Junior or Senior Standing

## PUBR 450, Public Relations International Experience, 3 Units

This course aims to explore the nature of international communication in a practical manner. This course will study the practice of social media, paying special attention to the creative process and industry trends. The course will be structured in two distinct parts, pre and post traveling. Before traveling, students will study the history, culture and socioeconomic context in order to be prepared for the places to be visited. Once abroad, we will meet with different communication agencies, social media startups and public relations professionals who will share their expertise on the topic. The practical outcome of the course will be the production of a video diary of the trip, where students will share their thoughts, reflections and lessons learned using one of the concepts previously discussed as the guideline for the visual narrative.
**Prerequisite:** Junior or Senior Standing

## PUBR 495, Special Topics in Public Relations: Crisis Communication, 3 Units

This course studies the nature and origin of crisis and how organizations respond to them. Exploring in depth the connections between organizations, media and publics, this course reviews the industry's best practice and the theoretical framework for crisis management. Relying heavily on recent and relevant case studies, students will discover the diverse strategies and techniques and tools used by organizations when faced with crisis situations. As a practical outcome of the course, students will design and develop a full-scale crisis communication plan for an organization.
**Prerequisite:** Junior or Senior Standing

## PUBR 496, Public Relations Capstone, 3 Units

This is a senior-level, "capstone" course structured in two distinct parts. The first half of the course discusses and explores the ethical issues that public relations practitioners will deal in their everyday life. Using the Public Relations Society of America's Code of Ethics, students will explore the ethical dimensions of the practice of public relations, and its intersection with a Christian worldview. The second half of the course covers more applied topics of professional readiness for students. As seniors prepare to enter the professional practice, this course will cover professional related topics such as vocation, resume preparation, industry knowledge, and portfolio preparation.
**Prerequisite:** Junior or Senior Standing

# BA in Digital Marketing and Design

63 units

The BA in Digital Marketing and Design (https://www.apu.edu/business/programs/digital-marketing-design-major/) program is for students interested in learning how to apply their creativity in the digital market space. With a focus on digital marketing strategy and social media marketing, this program gives students an innovative and relevant skill set for branding, influencer marketing, and brand journalism.

Students in this program are equipped to create a digital marketing strategic plan and manage digital marketing tools and channels, including the implementation of specific targeted marketing campaigns that promote business services, products, and corporate brand journalism. Students learn how to apply strategically aligned marketing communications to prosumers in order to leverage an organization's brand for the expansion of customer acquisition, conversion, and value growth potential, ultimately increasing sales and brand recognition.

Students in this program have the opportunity to earn industry-valued, internationally recognized certificates and microcredentials, either during the core courses or upon completion of the program, that certify their mastery of digital communication management and marketing analytics skills or abilities. These certificates in social media marketing and business analytics come from an independent third-party firm that specializes in social media and platform management, and can be added to résumés and uploaded to online portfolios, showcasing these skills to potential employers.

Coursework engages students in creating a comprehensive strategic digital marketing plan, including developing appropriate marketing strategies and objectives and conducting a marketing audit to ensure successful implementation. Digital marketing tools are integrated and developed—including email marketing campaigns, website design analysis, SEO, content marketing strategies, social media marketing, and building online community life cycles— that are appropriate and applicable to an organization's vision and mission. Complementary topics in advertising, promotion, graphics, web design, and SEO, and student participation in internship experiences, help build the student skill set and résumé for immediate employment in several marketing-related and design industries.

Today's employers are seeking educated marketers who can create and manage corporate brands and communications designed to foster a consistent organizational image and promote customer loyalty. Students in this program are equipped with the necessary practical skills to become professional marketers for various types of businesses, nonprofits, and church-led organizations.

## Experiential Learning Opportunities

In teams, students complete a social media campaign and a marketing plan for a real organization. Students can build their résumés through internships and have the option to participate in numerous student clubs and honor societies that provide confidence and skill-building opportunities in leadership, team building, social media, event planning, promotion, and marketing supervisory or management positions.

Students have the option to acquire practical skills and experience in leadership, management, decision making, and teamwork through internships, student clubs, honor societies, and study-away opportunities. Students participating in study-away opportunities engage with topics of globalization, trade, culture, and global management and leadership as they travel the world. Typically, study-away trips include visiting global and international organizations and learning from universities and business leaders around the world.

## Career Opportunities

Professionals who can leverage the power of digital marketing are in high demand. Career paths open to marketing majors include marketing coordinator/specialist, marketing project manager, social media specialist/manager, account coordinator/executive manager, product/brand manager, digital marketing specialist/manager, social media marketing manager, creative assistant, web content writer/manager, sales representative/manager, marketing manager, advertising and promotion manager, media planner/buyer, retail marketer, marketing analytics specialist, and marketing communications coordinator. Income potential and personal fulfillment are high. Marketing professionals who excel can become top executives.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Examine the full spectrum of digital marketing concepts and practices, including advertising, promotion, and design concepts.
2. Apply key marketing processes, including digital marketing concepts, and graphic design.
3. Create digital marketing plans that appeal to a diverse and global population.
4. Benchmark digital marketing campaigns against best practices.
5. Develop design strategies for digital marketing campaigns.
6. Evaluate digital marketing practices to ensure compliance with relevant laws and regulations.
7. Incorporate ethical practice into all aspects of digital marketing management.

# BA in Digital Media and Communication (Bachelor's Completion Program)

36 units

The professional bachelor's completion program in digital media and communication (https://www.apu.edu/comm/programs/digital-media-bachelors-completion/) prepares graduates for the fastest-growing job sector in Southern California: digital media. Students prepare for positions with PR agencies, online news sites, nonprofits, or social media management, polishing their skills in courses designed to help them publish in online magazines, websites, or client communications. Courses refine interpersonal communication, writing, and digital storytelling skills across many media.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Create digital content to clearly express ideas in oral, written and visual forms across multiple media.

2. Express fluency in personal presentations incorporating multi-media: images, video, audio and charts in group settings.

3. Skillfully integrate text, audio, video, graphics in a communication or story across platforms such as YouTube, Instagram, Twitter, Snapchat, Facebook or other web platforms.

4. Demonstrate written fluency and narrative development in creative mastery of storytelling skill sets across mediums: digital and print publications, video, audio and social media.

5. Articulate legal, ethical biblical principles impacting digital media professionals and the fields and industries they serve.

6. Explain the relationship between the forms of media in a digital media ecosystem and the implications of content analytics.

7. Ethically apply interpersonal and negotiation skills to arrive at solutions and resolutions in small work group settings.

# BA in Public Relations

51 units

The public relations major (https://www.apu.edu/comm/programs/public-relations-major/) is an innovative program that offers in-depth study of the field and emphasizes hands-on experience. Students create their own professional portfolio, gain experience working in APU's student-run agency, join the local chapter of the Public Relations Student Society of America, develop global public relations skills through international study-away trips, and become specialists in nonprofit, entertainment, or sports PR.

# Career Opportunities

To prepare for career opportunities, students are required to complete a 3-unit communication internship prior to graduation. In addition, students can enroll in PUBR 325 Public Relations Agency and study away in the summer through PUBR 450 Public Relations International Experience. Public relations graduates often work as:

- Public relations managers
- Communication directors
- Creative directors
- Spokespersons
- Event planners
- Marketing analysts
- Media relations specialists
- Nonprofit communication professionals
- Media relations specialists
- Copy writers
- Bloggers
- Graphic designers
- Producers

# Requirements

To graduate, public relations majors must maintain a cumulative grade-point average of 2.0 or higher in their major coursework.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Identify major theories and development of the field of public relations.
2. Understand how public relations techniques create relationships between organizations and their different publics.
3. Apply Christian ethical principles to the practice of public relations.
4. Select public relations strategies and techniques to solve communication problems.
5. Utilize quantitative and qualitative tools to produce research in the field of public relations.
6. Create professional public relations campaigns.
7. Build a personal portfolio of public relations artifacts.

# BS in Business: Marketing

63 units

The marketing major (https://www.apu.edu/business/programs/marketing-major/) equips students with solid functional skills in business and strong marketing skills that emphasize a dynamic synergy built upon traditional marketing components with innovative digital and social media marketing. These skills can be used to obtain an internship and secure many types of marketing-related opportunities in industry, positioning them to be influencers in the digital market space.

Students in this program are equipped to create and manage all aspects of an organization, encompassing a hybrid blending of traditional and digital marketing. A comprehensive view of strategic planning for an organization to the implementation of the expanded marketing mix and campaigns to promote business services, products, and brands is demonstrated from student engagement. Corporate brand identity, customer acquisition, conversion, and retention are fulfilled through integrated marketing communications and targeted campaigns. Students may earn certificates demonstrating their proficiency in social media marketing and analytics.

Coursework engages students in learning about consumer behavior, integrated marketing communications, digital marketing, and web design, and offers choices of additional marketing courses that are appealing (sales and sales management, retailing, global marketing management, marketing research). The capstone course, Strategic Marketing Management, is a hands-on course in which students analyze case studies and determine the best course for sustainable strategic competitive advantage. Hands-on projects and community outreach are emphasized throughout the program.

Today's employers are seeking educated marketers who can create and manage corporate brands and communications designed to foster a consistent organizational image and promote customer loyalty. Students are equipped with the necessary practical skills to become professional marketers for various types of businesses, nonprofits, and church-led organizations.

## Experiential Learning Opportunities

In teams, students complete a social media campaign and a marketing plan for a real organization. Students build their résumés through internships and have the option to participate in numerous student clubs that provide opportunities for marketing supervisory or management positions as well as confidence and skill-building opportunities in leadership, team building, project management, decision making, social media, event planning, and promotion.

Students may also participate in various study-away opportunities. Students participating in study-away opportunities engage with topics of globalization, trade, culture, and global management and leadership as they travel the world. Typically, study-away trips include visiting global and international organizations and learning from universities and business leaders around the world.

## Certificates, Credentials, and Microcredentials

The marketing major allows students to earn industry-valued, internationally recognized certificates in social media management and analytics, as well as microcredentials in social media, social media marketing management, and sales management, all of which can be added to résumés and uploaded to online portfolios, certifying and showcasing their mastery of these skills to potential employers.

# Career Opportunities

Career paths open to marketing majors include marketing coordinator/specialist, marketing project manager, account coordinator/executive manager, product/brand manager, digital marketing specialist/manager, social media marketing manager, creative assistant, web content writer/manager, sales representative/manager, marketing researcher/analyst, marketing manager, advertising and promotion manager, media planner/buyer, retail marketer, marketing analytics specialist, and marketing communications coordinator. Income potential and personal fulfillment are high. Marketing professionals who excel can become top executives.

# Requirements

The marketing major comprises 63 units. Students must achieve an average GPA of 2.5 or higher in their major courses (this includes the Business Core).

| Code | Title | Units |
| --- | --- | --- |
| **Business Core Courses** | | |
| ACCT 120 | Principles of Accounting I | 3 |
| ACCT 121 | Principles of Accounting II | 3 |

| BUSI 244 | Data Analytics, Spreadsheets, and Data Visualization | 3 |
| BUSI 296 | Business Law | 3 |
| BUSI 370 | International Business [1] | 3 |
| FIN 300 | Business Finance for Managers | 3 |
| ECON 200 | Survey of Economics [2] | 3 |
| BUSI 111 | Business Statistics [3] | 3 |
| MGMT 210 | Principles of Management [4] | 3 |
| MGMT 211 | Organizational Leadership [2] | 3 |
| MGMT 448 | Organizational and Administrative Behavior [5] | 3 |
| MGMT 450 | Strategic Management [4] | 3 |
| MKTG 260 | Principles of Marketing [1] | 3 |
| **Marketing Courses** | | |
| MKTG 262 | Consumer Behavior: An Applied Approach [S, 5] | 3 |
| MKTG 361 | Advertising and Integrated Marketing Communications [S] | 3 |
| MKTG 465 | Strategic Marketing Management [S] | 3 |
| MKTG 466 | Digital and Social Media Marketing [F] | 3 |
| Select two of the following: | | 6 |
| ENTR 312 | Creativity and Innovation [F] | |
| MKTG 363 | Marketing Research [F] | |
| MKTG 364 | Sales and Sales Management [S] | |
| MKTG 368 | Retail Management [F] | |
| MKTG 373 | Global Marketing Management [6] | |
| Select one of the following: | | 3 |
| MKTG 350 | Marketing Internship [4] | |
| MGMT 350 | Business Management Internship [4] | |
| BUSI 350 | Business Internship [4] | |
| **Total Units** | | **63** |

[1] Meets the General Education Intercultural Competence requirement.
[2] Meets the General Education Social Sciences requirement.
[3] Meets the General Education Quantitative Literacy requirement.
[4] Meets the General Education Integrative and Applied Learning requirement.
[5] Meets the General Education Civic Knowledge and Engagement requirement.
[6] Offered via Study Away.

| F | Offered in Fall only |
| --- | --- |
| S | Offered in Spring only |
| F/S | Offered in both Fall and Spring terms |

| EF | Offered in Fall in even years |
|---|---|
| ES | Offered in Spring in even years |
| OF | Offered in Fall in odd years |
| OS | Offered in Spring in odd years |

## Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate competency in multiple business disciplines.
2. Apply critical thinking to solve business problems.
3. Evaluate business decisions based on a Christian perspective.
4. Communicate ideas through professional channels.
5. Be contributing team members.
6. Identify cultural aspects of business in diverse environments.

# Certificate in Digital Marketing and Social Media

12 units

Certificates are designed for current students who want a specialization, and for working professionals who want to grow in their field or change career paths. Certificates are great résumé builders, provide increased marketability, verify competence to potential employers, and provide practical learning that can be translated directly into workplace application. Certificate programs also provide the knowledge you need to in order to transform your career in less time than many traditional postgraduate and professional degree programs, and do not require any prerequisite work.

The Certificate in Digital Marketing and Social Media provides a foundation of marketing principles and consumer behavior with emphasis on digital and social media marketing. Coursework helps students develop the skills necessary to create and manage digital advertising and social media campaigns and measure their results. Students also learn to create and build a social media presence through brand identity and engaging content communication.

## Credentials and Microcredentials

Today, employers are looking for new hires with technical skills in digital marketing and social media. This certificate program gives students the opportunity to earn industry-valued, internationally recognized credentials and microcredentials such as HootSuite, Google Digital Garage, and Sales Force that can be added to résumés and uploaded to online portfolios, certifying and showcasing their mastery of these skills and abilities to potential employers.

## Career Opportunities

Job growth for digital marketing and social media professionals is projected to continue rising, so this high-stakes field also commands high salaries. This certificate prepares students for a wide variety of these jobs, so whether you want to launch a new career or advance to the next level of your current path, this program can get you there.

## Requirements

| Code | Title | Units |
|---|---|---|
| MKTG 260 | Principles of Marketing [1] | 3 |
| or PRBA 260 | Marketing Principles | |
| MKTG 262 | Consumer Behavior: An Applied Approach [2] | 3 |
| MKTG 361 | Advertising and Integrated Marketing Communications | 3 |
| MKTG 466 | Digital and Social Media Marketing | 3 |
| **Total Units** | | **12** |

[1] Meets the General Education requirement for Intercultural Competence.

[2] Meets the General Education requirement for Civic Knowledge & Engagement.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Leverage the latest digital tools and technologies to target consumer audiences and create brand loyalty while promoting products and services to consumers.

# MA in Strategic Communication

Learn more about the MA in Strategic Communication program. (https://www.apu.edu/comm/programs/strategic-communication-masters/)

## Requirements

| Code | Title | Units |
|---|---|---|
| **Core Courses** | | |
| COMM 500 | Strategic Communication Theory and Practice | 3 |
| COMM 502 | Writing and Media Content Development | 3 |
| COMM 503 | Research Methods | 3 |
| COMM 504 | Digital Analytics and Consumer Insights | 3 |
| COMM 505 | Ethics in Strategic Communication | 3 |
| COMM 506 | Reputation Management | 3 |
| COMM 590 | Professional Project I | 3 |
| COMM 596 | Professional Project II | 3 |
| **Electives** | | **6** |
| Choose two of the following: | | |
| COMM 507 | Case Studies in Strategic Communication | |
| COMM 513 | Strategic Branding | |
| COMM 520 | Global Strategic Communication | |
| COMM 595 | Special Topics in Strategic Communication | |
| **Total Units** | | **30** |

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate mastery of the knowledge, skills, and research appropriate to strategic communication professionals.
2. Create professional-quality strategic communication materials that meet the needs of a wide variety of diverse communities.
3. Examine business and organizational fundamentals related to the strategic communication field as well as various for-profit and nonprofit settings.
4. Produce high-quality multimedia content that demonstrates clarity of writing, mastery of transmedia platforms, and design expertise for a variety of audiences.
5. Incorporate faith-based decision making, professional ethical standards, and legal foundations in the pursuit of Truth, equity, and fairness in the strategic communication space.

# Minor in Marketing

24 units

The marketing minor is for students who want to complement a major from a different field, as it adds the skills and abilities needed to be knowledgeable about marketing effectiveness in multiple areas. This program equips students with solid skills in marketing, which they can utilize to obtain an internship or secure a marketing-related position. Coursework in digital and social media marketing enables students to be influencers in the social media marketing environment.

## Experiential Learning Opportunities

Skills are developed by hands-on class projects such as creating social media campaigns and creating a comprehensive digital marketing plan for an organization. Students can build their résumés through participation in student clubs that provide confidence and skill-building opportunities in leadership, team building, social media, event planning, and marketing supervisory or management positions.

## Certificates, Credentials, and Microcredentials

Today, employers are looking for new hires with technical skills and leadership abilities such as decision making and teamwork. Students in this program have the opportunity to earn industry-valued certificates, credentials, and microcredential badges in social media management, sales management, and marketing analytics that can be added to résumés and uploaded to online portfolios, certifying and showcasing these skills and abilities to potential employers.

## Benefits of Adding a Minor

A minor can help students complement their bachelor's degree and stand out to future employers, expanding their employment opportunities while they study an additional area of interest. Complementary minors give students the opportunity to demonstrate added expertise in any field and possibly provide an edge in their job search, and add knowledge that can be used throughout an individual's career.

## Requirements

No more than three courses in the student's major may count toward this minor.

| Code | Title | Units |
| --- | --- | --- |
| BUSI 110 | Business and Entrepreneurship [1] | 3 |
| MKTG 260 | Principles of Marketing [2] | 3 |
| MKTG 262 | Consumer Behavior: An Applied Approach [1] | 3 |
| MKTG 361 | Advertising and Integrated Marketing Communications | 3 |

| PUBR 496 | Public Relations Capstone | |
| **Total Units** | | **24** |

[1]    Meets the General Education Writing 3 requirement.
[2]    Meets the General Education Integrative and Applied Learning requirement.

## Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Identify major theories and development of the field of public relations.
2. Understand how public relations techniques create relationships between organizations and their different publics.
3. Apply Christian ethical principles to the practice of public relations.
4. Select public relations strategies and techniques to solve communication problems.
5. Utilize quantitative and qualitative tools to produce research in the field of public relations.

6. Create professional public relations campaigns.
7. Build a personal portfolio of public relations artifacts.

# Department of Organizational Leadership and Communication

## Mission

The Department of Organizational Leadership and Communication offers interdisciplinary leadership programs to help you further your skills and prepare to help people and organizations flourish. At the core of each program is a focus on Christ-like principles to prepare students to lead with integrity.

## GPA Requirement

Any student participating in Department of Organizational Leadership and Communication cocurricular activities, forensics, or media production must maintain a 2.5 cumulative grade-point average.

## Programs

### Majors

- Communication Management (BA) (p. 864)

### Minors

- Communication Management (p. 866)
- Leadership (p. 867)

### Master's

- Master of Arts in Leadership (p. 865)
- Master of Science in Organizational Psychology (p. 869)

## Courses

### COMM 111, Public Communication, 3 Units

This course offers practical instruction in how to speak effectively and introduces the basic principles underlying effective communication. Topics range from the study of theoretical models of interpersonal and public communication to the fundamental skills of research, organization, and delivery of informative and persuasive discourse. *Meets the General Education Requirement: Oral Communication.*

### COMM 116, Intercollegiate Forensics, 1-3 Units

Students participate in directed activity in debate and/or individual events, including platform speaking, limited preparation events, and the oral interpretation of literature. Participation in intercollegiate speech competition is required. May be repeated for up to 6 units, but only three count toward the major.

### COMM 200, Introduction to Mass Communication, 3 Units

This course provides a study of the forms, content, environments, and strategies of the mass media (e.g., newspaper, magazine, radio, television, film, etc.). Emphasis is given to an historical and critical understanding of media structures and functions.

### COMM 201, Introduction to Communication Studies, 3 Units

This introductory course exposes students to the main areas of scholarship and research within the field of communication. Students are introduced to the fundamental issues and concerns involved in the study of rhetorical and communication theory and given an orientation necessary for future study. Emphasis is placed on approaches to communications employed within the field, current developments in scholarship, and the development of proper research techniques.

### COMM 211, Professional Communication, 3 Units

Improves students' professional communication skills and develops an understanding of vocational calling necessary to establish a professional identity. The course provides the structural skills necessary to deliver effective professional presentations using innovative technologies in a variety of contexts.
**Prerequisite:** COMM 111

## COMM 225, Communication and Relationships, 3 Units

This course offers an analysis of interpersonal interactions in personal and professional life, from initial and developing relational sequences to the maintenance and dissolution of relationships. Topics such as attraction, intimacy, trust, and interpersonal influence are discussed, as well as current developments in interpersonal communication theory, research, and consulting.

## COMM 230, Small Group Communication, 3 Units

This course gives students a theoretical and applied group participation and leadership. Students examine the antecedents, processes, and outcomes of group communication, including group development, leadership emergence, norms and roles, performance, cohesion, conflict, and decision making.

## COMM 260, Intercultural Communication, 3 Units

Students in this course explore the dynamic processes involved in establishing a relationship between culturally diverse individuals. Respecting divergent cultural patterns is promoted, but not at the expense of salient spiritual, moral, and ethical issues involved in intercultural communication. *Meets the General Education Requirement: Intercultural Competence.*

## COMM 300, Research Methods in Communication, 3 Units

This course introduces students to the research process. Students learn how research is planned and designed; explore quantitative and qualitative methods, as well as processes of data collection and analysis; and gain experience in conducting original research.
**Prerequisite:** COMM 201

## COMM 302, Rhetorical Theory, 3 Units

Provides a survey of historical and contemporary rhetorical theories beginning with the Greek classical period. Emphasis is on forms of critical and theoretical analysis of human discourse in modern society.
**Prerequisite:** COMM 201

## COMM 305, Writing 3: Writing for Communication, 3 Units

This course prepares students to participate in the discourse community of communication studies. It transitions students from classroom writing tasks, genres, and audiences to those that will be expected of them once they enter an academic field or profession. This includes researching in the Information Age, synthesizing information from sources, upholding communications industries' standards, and building identities as communication specialists. Portfolio-based assignments focus on writing for advanced study, strategic communication, media, businesses, online platforms, and professional contexts. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*
**Prerequisite:** Writing 2

## COMM 315, Intercollegiate Forensics, 1-3 Units

Students participate in directed activity in debate and/or individual events, including platform speaking, limited prep events, and the oral interpretation of literature. Participation in intercollegiate speech competition is required. May be repeated for up to 6 units, but only 3 count toward the major.

## COMM 335, Leadership Communication, 3 Units

This course teaches students the theoretical, empirical, and practical aspects of leadership communication by taking a distinct communication approach to leadership studies. Topics covered include leadership and followership communication styles and practices; various leadership theories and perspectives; power and influence; team/group leadership; organizational, crisis, and public leadership; diversity; ethics in leadership; and leadership development.
**Prerequisite:** Junior or senior standing

## COMM 340, Argumentation and Advocacy, 3 Units

Students in this course analyze argumentation techniques used in formal and informal settings. Course material focuses on understanding and defining argument, and discovering argument in the personal community, the social community, and nontraditional places.
**Prerequisite:** COMM 203

## COMM 341, Media Criticism and Theory, 3 Units

Students in this course examine the origins and development of film criticism and theory through a close analysis of selected writings. Specialized critical approaches such as genre, auteur, feminist, and Marxist are framed by a cultural studies approach, giving an understanding of film as an expression of art and popular culture.

## COMM 345, Nonverbal Communication, 3 Units

This course introduces students to nonverbal communication as a vital factor in human communication by examining the research, practice, and principles underlying nonverbal behavior. The course focuses on several components of nonverbal communication, including touch, proximity, vocal quality, eye contact, facial expression, personal appearance, gesturing, and gender and culture differences in nonverbal behavior. Application of the theories of nonverbal communication is made to workplace, social, and family settings.

## COMM 350, Rhetoric and Political Influence, 3 Units

This course provides a survey of the principles and practices of speech communication to examine political dynamics of rhetorical power. Students pursue a deeper understanding of the rich history and context of the unique communication phenomenon that is political rhetoric, as well as its areas of influence in cultural settings.
**Prerequisite:** COMM 201

## COMM 360, Studies in Popular Culture, 3 Units

This course carefully examines popular cultural forms, institutions, rituals, artifacts, icons, communication practices, thought patterns, worldviews, value systems, and ideologies possibly created thereby. Topics range from the private and public experiences of popular culture in movies, television, and recordings to fast food, automobiles, and blue jeans, along with their relationship to wider cultural contexts and Christian faith.

## COMM 420, Conflict Management, 3 Units

This course examines the process of communication to create, manage, and resolve conflict situations, and analyzes conflict on intrapersonal, interpersonal, group, and organizational levels.
**Prerequisite:** Junior or Senior Standing

## COMM 430, Organizational Communication, 3 Units

Examines the nature and process of communication in and constitutive of modern organizations. Explores the pragmatic implications of organizational communication theories as they relate to understanding, shaping, and participating in organizations.
**Prerequisite:** COMM 300 and Junior or Senior standing

## COMM 435, Family Communication, 3 Units

Offers an in-depth analysis of various family units and family functioning. Topics include family theories (i.e., systems theory, relational dialectics, and communication privacy management), specific family relationship types (i.e., sibling relationships, blended families, adoption, and parent-child relationships), and communication patterns in families, with emphasis on current development in family communication theory and research.
**Prerequisite:** Jr/Sr Standing

## COMM 440, Persuasion and Attitude Change, 3 Units

Examines the basic theories and techniques of influence, providing the student with a critical awareness of the nature, function, and scope of persuasion. The class covers such concepts as attitudes, credibility, resistance to persuasion, ethics, logic and argumentation, and propaganda.
**Prerequisite:** Junior or Senior Standing

## COMM 490, Communication Internship, 1-3 Units

This course gives students direct experience as they apply the principles and skills of communication theory while performing specific tasks, which may include career training and group leadership. Participants arrange their own internships, under the direct supervision of the instructor. *Meets the General Education Requirement: Integrative and Applied Learning.*
**Prerequisite:** Junior or senior standing and instructor consent

## COMM 491, Classroom Practicum, 1-3 Units

This course gives students practical experience in classroom teaching and tutoring. Students assist in classroom duties as well as complete assignments related to the development of a communication perspective. Three units must be taken for the communication major; an additional 3 units may be taken for credit toward graduation.

## COMM 495, Special Topics, 3 Units

This course allows occasional offerings of diverse topics in communication studies not covered by regular department courses. Performance areas, emerging skills needs, contemporary issues, and trends in the field of communication studies, or special interests of faculty and students, may be targeted under this category. Performance areas such as forensics, as well as subject areas such as leadership communication, urban communication, and health communication, are some topics that may be taught in this course. Course may be repeated, but only 3 units count toward major elective credit. Additional units may be taken for credit toward graduation.
**Prerequisite:** Junior or Senior Standing

## COMM 496, Communication Capstone: Ethics and Communication, 3 Units

This course helps students understand a biblical worldview of communication and the ethical dilemmas facing communicators in a variety of situations. Through the examination of a biblical metanarrative and various communication theories, students come to understand the powerful ways in which communication defines, creates, maintains, and/or changes social reality, and the ethical implications involved in each of these communication functions.
**Prerequisite:** COMM 300

## COMM 497, Readings, 1-4 Units

Consists of a program of study concentrating on assigned readings, discussions, and writing arranged between and designed by a student of upper-division standing and a full-time professor. An independent study fee is assessed for each enrollment in this class.

## COMM 498, Directed Research, 1-3 Units

This course provides instruction in research design and technique, and gives students experience in the research process. The 1-unit expectation encompasses no fewer than 30 hours of work with accompanying reading, log writing, and seminar presentation within the department or in a university research symposium. No more than 1 unit may be used to fulfill the preparatory readings requirement. An independent study fee is assessed for each enrollment in this class.

## COMM 499, Thesis/Project, 1-4 Units

This is a senior-level, "capstone" type of independent study/research experience involving the student in a unique project with a sophisticated level of research, synthesis, analysis, and communication. The 1-unit expectation encompasses no fewer than 30 hours of work with accompanying readings, log, instructor discussions, and writing of summary analysis and conclusions. The thesis or project may result in formal thesis, published article, electronic media, annotated recital, or artistic creation of a material form. No more than 1 unit may be used to fulfill preparatory readings requirement. An independent study fee is assessed for each enrollment in this class.
**Prerequisite:** Upper-division writing intensive course or instructor consent; and Junior or Senior standing

## COMM 500, Strategic Communication Theory and Practice, 3 Units

This course examines the history, theory, research, trends, tools, and practices of strategic communication, with special attention given to the use and influence of social and digital media. Students analyze realistic case studies as the applied understanding of how they design and execute strategic communication plans, and explore the role of strategic communication in business, government, not-for-profit organizations, and agencies.
**Prerequisite:** Acceptance into the Master of Arts in Strategic Communication program.

## COMM 502, Writing and Media Content Development, 3 Units

This course examines the foundational and essential tools of writing across multimedia platforms, emphasizing effective content development and precision in writing strategically. The course encompasses principles and applications for branding, advertising, integrated marketing communication, public relations, and crisis communication, and the technologies for producing and disseminating effective content and engaging key publics. Students are required to master writing strategy, design fundamentals, typology, research, terminology, production techniques, pitching, digital platform development, and portfolio construction for actual clients and/or community partners.
**Prerequisite:** Acceptance into the Master of Arts in Strategic Communication program.

## COMM 503, Research Methods, 3 Units

This course examines how professionals utilize research and data. Students gather, review, analyze, explain, and apply the methods and practices of popular and academic research in order to learn how to effectively achieve organizational goals and build relationships with publics.

## COMM 504, Digital Analytics and Consumer Insights, 3 Units

This course focuses on the understanding and use of social and digital media data analytics. Students take a hands-on approach in utilizing various digital analytic methodologies to address key questions in strategic communication related to such topics as return on investment, audience measurement, and brand management.

## COMM 505, Ethics in Strategic Communication, 3 Units

This course helps students better understand the presuppositional thinking and faith-based foundations that guide their motivations and actions related to legal and ethical principles in the profession of strategic communication. Students also explore the role of corporate social responsibility and diversity in various types of organizations in a growing global marketplace.

## COMM 506, Reputation Management, 3 Units

Issue management in strategic communication involves scanning the public environment, policy advocacy, media relations, local and global mobilization, coalition management, and organizational reputation maintenance. Students in this course analyze case studies and interact with multiple interpretations, thus gaining the practical skills needed to shape and guide public opinion and advance organizational mission.

## COMM 507, Case Studies in Strategic Communication, 3 Units

Students in this course analyze case studies as the applied understanding of how they design and execute strategic communication plans. Students design and produce a case study focusing on a communication aspect of their organization or another actual for-profit or not-for-profit client.

## COMM 513, Strategic Branding, 3 Units

This course will guide students in the understanding of brand value through the discovery of how to build and manage a brand. Areas covered in the course include: defining brand, brand equity and the strategic brand management process; the role of the consumer in brand building; identifying brand elements; the relationship between product strategy, pricing strategy, and channel strategy; the function of integrated marketing communication in brand building and expansion; branding strategy in the digital era; brand measurement (e.g. big data and marketing analytics); and the future of branding.

## COMM 520, Global Strategic Communication, 3 Units

Students in this course explore the role of strategic communication within the global marketplace. Special emphasis is placed on effective communication within the contexts of cultural, economic, and regulatory distinctions.

## COMM 590, Professional Project I, 3 Units

Students work autonomously to demonstrate mastery of core strategic communication concepts through the planning and implementation of primary and secondary research resulting in the written and oral presentation of a strategic communication research report. This course builds the foundation for the development of a data-driven, comprehensive campaign for a real-world client in COMM 596.
**Prerequisite:** Successful completion of six core courses and two electives.

## COMM 595, Special Topics in Strategic Communication, 3 Units

In this course, a topic of current interest to students is examined in depth. Students analyze and evaluate topics/issues to reach and express a position, enhance personal development and/or to develop a particular project. If students elect this course more than once during their program, each such course must address a different topic.

## COMM 596, Professional Project II, 3 Units

Students work autonomously to demonstrate mastery of core strategic communication concepts through the development of a data-driven, comprehensive strategic communication campaign for a corporate, nonprofit, or government organization. This course builds upon the research conducted in COMM 590 with the creation of campaign strategy, messaging, and evaluation. The final product contributes to the student's portfolio for current or potential employers.
**Prerequisite:** Successful completion of COMM 590.

## COMM 599, Readings in Communication, 1-3 Units

This course is an independent study vehicle through which students and their sponsoring faculty members may pursue approved investigations beyond those provided within regular course offerings.

## LDRS 103, Life Design and Self-Leadership, 3 Units

This course helps students discover their individual calling within the framework of their view of life and work. Students gain a greater understanding of their strengths, values, interests, skills, and personality as they build prototypes of potential careers utilizing a life design process and prepare for life after college with intention and purpose.

## LDRS 201, Foundations of Leadership, 3 Units

This course blazes the trail for understanding the concepts of good leadership and followership, identifying oneself as a leader, discovering one's sense of calling, establishing a commitment and plan for whole-person leadership development, seeing leadership through an interdisciplinary lens, and grounding one's "leadership story" in an awareness of current history and the reality of the Kingdom of God. Through creative experiences, meaningful texts, and powerful assignments, students are prepared for further leadership education.

## LDRS 303, Career and Life Planning, 3 Units

For students entering the professional world, this course aids in understanding career development options, finance management, and coping with stress. Students gain a greater understanding of their strengths, values, interests, skills, and personality as they seek employment and/or apply to graduate school. Relevant guest presenters spend class time sharing important information that benefits students in planning for careers and life.

## LDRS 311, Leadership Values and Virtues, 3 Units

This course views leaders as authentic servants committed to transformation. Students study the leader's motivations, the dreams of followers, conflict resolution, as well as personal, intellectual, and civic virtue. Perspectives for steering clear of bad leadership and toward collaboration with those who share the leader's commitment to the common good are considered. The course focuses on the development of leaders who are responsible, good, humble, and who understand the diverse values of others.
**Prerequisite:** LDRS 201 (may also be taken concurrently) or junior standing or department consent.

## LDRS 311H, Leadership Values & Virtues - Honors, 3 Units

This course views leaders as authentic servants committed to transformation. Students study the leader's motivations, the dreams of followers, conflict resolution, as well as personal, intellectual, and civic virtue. Perspectives for steering clear of bad leadership and toward collaboration with those who share the leader's commitment to the common good are considered. The class focuses on the development of leaders who are responsible, good, humble, and who understand the diverse values of others.
**Prerequisite:** LDRS 201 (may also be taken concurrently), Junior standing, or departmental consent. Must also be a student admitted to the Honors College and be considered a member in "active" status

## LDRS 322, Leadership Strengths and Skills, 3 Units

This course focuses on a strengths-based approach to leadership and leadership development, as well as the skills necessary for good leadership. Opportunities to understand and practice essential skills such as continual learning, powerful communication, problem solving, managing process, goal achievement, conflict resolution, win-win negotiating, and empowering stewardship are woven throughout the course. Training additional leaders is also a key topic. Effective leadership practice through emphasis on strengths development is the goal of this course.
**Prerequisite:** LDRS 201 (may also be taken concurrently) or junior standing or department consent.

## LDRS 333, Leadership Influence and Impact, 3 Units

This course looks at the leader as agent of change on three levels: personal change, influence on individuals and small groups, and impact on cities, organizations, and cultures. Through historical reflection and developing a systemic vision, students are equipped to make a difference in many social settings. By learning to work as mentors, facilitators, and ambassadors, emerging leaders can leave a dynamic legacy.
**Prerequisite:** LDRS 201 (may also be taken concurrently) or junior standing or department consent.

## LDRS 335, Leadership Communication, 3 Units

This course teaches students the theoretical, empirical, and practical aspects of leadership communication by taking a distinct communication approach to leadership studies. Topics covered include leadership and followership communication styles and practices; various leadership theories and perspectives; power and influence; team/group leadership; organizational, crisis, and public leadership; diversity; ethics in leadership; and leadership development.

## LDRS 401, Leadership Studies Capstone, 3 Units

This course deepens students' capacity for leadership based on wisdom, knowledge, and understanding. In addition to concluding the leadership minor by linking leadership practice to leadership theory, students dialogue about leadership issues such as gender, community, temptation, finding one's voice, mission, and the whole-person model. A thoughtful and thorough final project and a high-quality portfolio presentation are crafted to integrate students' learning about leadership and to provide a postgraduation plan for lifelong leadership development.
**Prerequisite:** LDRS 201, LDRS 311, LDRS 322, LDRS 333

## LDRS 495, Special Topics in Leadership, 1-3 Units

This course addresses topics of current interest in leadership studies that are not covered by the core and elective courses. Topics vary from semester to semester. This course may be taken more than once as topics change.

## LDRS 497, Readings, 1-3 Units

This is a program of study concentrating on assigned readings, discussions, and writing arranged between, and designed by, a student of upper-division standing and a professor approved by the Program Chair. The course allows the student to identify a specific leadership theme and investigate it further.

## LDRS 501, Foundations of Leadership Theory, 3 Units

This course provides a conceptual and practical survey of predominant leadership theories providing students with opportunities for critical reflection and application. A focus is given to transformational theories of leadership and application is made to the M.A. in Leadership core competencies.

## LDRS 502, Cornerstones of Christian Leadership, 3 Units

This course utilizes APU's Four Cornerstones to discuss leadership from the Christian tradition. Students look at the example of Jesus, the ultimate servant leader, and how His followers through history have both succeeded and failed in following His example. Through probing into how Christian scholars have written about and understood leadership, as well as seeking to show that the goal of Christian leadership is to serve God and the common good of humanity, students gain a faith-based benchmark for further studies in leadership.

## LDRS 503, Organizational Behavior, 3 Units

This course investigates the effective functioning of individuals and groups within organizational settings. Emphasis is placed on how leaders perceive organizations from strategic design, organizational culture, and political environment perspectives. This course applies theoretical concepts to major organizational challenges such as organizational effectiveness, motivation, conflict, job stress and satisfaction, and decision making. The focus of the course includes organizational communication, as well as the attitudinal and behavioral implications for leaders.

## LDRS 510, Creative and Collaborative Leadership, 3 Units

This course enables students to integrate the concepts of personality, leadership, and creativity; investigate collaborative leadership; identify and apply creativity and preferred leadership styles; and explore the effects leadership styles can have on given organizational communities.

## LDRS 511, Exploration of Leadership Thought, 3 Units

This foundational course provides an overview of the evolution of leadership thought, including a review of the fundamental theories and principles that led to the study of leadership as a discipline, as well as an examination of the story of leadership from a biblical perspective. Students are introduced to a holistic framework for leadership development informed by an understanding of the importance of ethics, values, and spirituality from a Christian worldview.

## LDRS 512, EQ I: Self-Leadership, 3 Units

This course focuses on the self-competence elements of emotional intelligence - leader self-awareness and leader self-management - from psychological, spiritual, emotional, and developmental perspectives. Students enhance their self-leadership through the improvement of self-competence and self-development.

## LDRS 516, Leadership Development and Practice, 3 Units

This course emphasizes the process of leadership development from a transformational perspective. Students consider both their personal growth and the dynamic mechanisms necessary for facilitating the development of others. Emphasis is on the issues and challenges of creating a lifelong learning mindset individually and organizationally, mentoring strategies, team building, developing effective followers, and designing career development systems. This course provides the opportunity for application through a practicum assignment.

## LDRS 520, Understanding Vocation in a Changing World, 3 Units

This course focuses on understanding one's true overarching vocation in life as it connects to the purposes of God in this world to steward the earth and its peoples. One's vocation then influences what one does with his or her life. The concepts of career are continually changing, but work/life planning continues to be important personally and professionally. Students have the opportunity to use various self-assessment tools and diagnostic instruments to evaluate their own working history, interests, skills, values, and career anchors. Students also learn to design career programs for organizational settings.

## LDRS 523, EQ 2: Relational Leadership, 3 Units

This course focuses on the social competence elements of emotional intelligence - leader/follower social awareness and leader/follower relationship management - from psychological, spiritual, emotional, and developmental perspectives. Students enhance their relational leadership acumen through the study of motivation, and social skills for leader/follower relational development.
**Prerequisite:** LDRS 512

## LDRS 524, Principles and Practices of Design Thinking, 3 Units

Students in this course explore the fundamental principles and practices of design thinking, in relation to the workplace and in the context of the person as leader. Concepts such as creativity, empathy, failure, risk, and creative confidence are explored. This course also provides the opportunity to practice design thinking on personal and organizational levels.

## LDRS 532, Leadership Practicum, 3 Units

This course creates a dialogue between previously explored concepts/theories of leadership and the practical experiences of exemplar practitioners. Students are involved in community service and exposed to community leaders for interaction, observation, and analysis. These encounters enable students to assess and activate their leadership journey based on spiritual, mental, educational, and emotional aspects of leadership development.
**Prerequisite:** LDRS 501, LDRS 502, and LDRS 503

## LDRS 533, Systems and Strategic Planning for Leaders, 3 Units

This course focuses on systems thinking from a leadership perspective. By working with stories, scenarios, and strategy, students learn to address complex problems, anticipate consequences, and leverage potential. Attention will be given to the use of narrative for influencing constituent participation. Finally, organizational design is considered as a key concern for leaders in organizations.
**Prerequisite:** LDRS 501, LDRS 502, and LDRS 503

## LDRS 534, Leader as an Agent of Change, 3 Units

This course looks at the leader as an agent of change through three lenses: self examination, change theory, and organizational culture. Each is assessed in light of implications for those involved in the change initiative. Special attention will be given to the transformational change that takes place for leaders and followers when the call for change occurs. Application is made to organizations, informal networks, temporary situations, and other social contexts.

## LDRS 535, Leading Dynamic Change, 3 Units

This course focuses on the practice of leading organizational change, as well as the importance of personal change within the life of the leader. Students engage in activities and projects to enhance understanding of the role of the leader as a change agent within the organization.

## LDRS 536, Disruptors and Conflict, 3 Units

This course prepares students to manage their responses to conflict in order to leverage disruptive issues in leadership with creative confidence. Through the study of personal and organizational conflict management skills, students become equipped to solve complex issues that are disruptive to personal, team, and organizational functioning.

## LDRS 542, Leading Across Cultures, 3 Units

In a pluralistic society, leaders are often tasked with the responsibility of bridging both domestic and international contexts in a convergence of global learning. This seminar will examine the historical, organizational, and interpersonal significance of leading across cultures, with particular emphasis on discerning the underlying values of community behaviors as well as the attitudes, beliefs, values, skills, knowledge, and self-awareness necessary for leaders to effectively serve in diverse contexts. A variety of theoretical, research and applied issues are addressed; in particular, the course aims to explore social location theory as a means of equipping graduates to advance equity and positive change through increased capacity for diversity engagement.

## LDRS 547, Navigating Social Climates, 3 Units

This course equips students as leaders in today's globalized organizations and societies who analyze, through multiple lenses, issues of inequity and injustice that exist locally, nationally, and globally. The course utilizes conceptual and experiential learning in which students encounter and reflect on realities of inequity and injustice in the social and natural worlds, in interpersonal, intergroup, and organizational relationships. Students are also expected to begin to develop habits and skills to promote shalom-oriented organizations and communities.

## LDRS 548, Strategic Foresight, Thinking, and Planning, 3 Units

This course focuses on engaging the full strategy cycle, which includes strategic foresight, thinking, and planning. Through an applied project, students engage in scanning for trends and developing stories and scenarios; develop strategic thinking skills; and engage in a strategic planning process.

## LDRS 559, Curiosity to Inquiry, 3 Units

This pass/fail course underscores curiosity as an innate human capacity and cultivates students' ability to use it toward human-centered inquiry and socially transformative innovations. Students engage in the ideation and inspiration phases of Design Thinking in solving a complex leadership challenge for an organization or a community. Through the process, students are expected to become familiar with traditional as well as innovative data collection techniques and become informed consumers of published research. Successful completion of this course results in a prototype for the leadership experiment, which the student implements in LDRS 560 Leadership Experiment.
**Prerequisite:** LDRS 511, LDRS 512, LDRS 523, LDRS 524, LDRS 535, LDRS 536, LDRS 547, and LDRS 548.

## LDRS 560, Leadership Experiment, 3 Units

As a completion of the M.A. in Leadership program's 4D model of Discover, Design, Develop, and Deliver, this final course helps students continue their leadership experiment started in LDRS 559 and culminates with a TEDx-style presentation. This is a pass/fail course.
**Prerequisite:** LDRS 559, and enrollment in the M.A. in Leadership program.

## LDRS 561, Group and Conflict Issues in Leadership, 3 Units

This course helps the student understand small-group behavior. It uses experience-based methods, case studies, reading material, and simulation. The course examines role behavior, group dynamics, conflict control, leadership, and group development. It also addresses motivation and problem solving as essential elements of organizational behavior.

## LDRS 563, Ethical Decision Making, 3 Units

This course investigates the intersection of ethics and effective decision making. Students will explore ethical implications of the decision making process, with particular emphasis on the ways that ethical decision making applies to individuals, groups, and organizational systems. This course applies theoretical concepts to significant organizational problems requiring effective decision making processes. Attention will be given to systematic rational approaches as well as the role of intuition and group dynamics in the decision making process. The course will utilize lecture, case study analysis, group exercises, review of current literature, classroom discussions, and simulations to create an effective learning environment.

## LDRS 571, Leadership for a Learning Environment, 3 Units

This course looks at the leader's role in designing and implementing effective learning strategies and effective methods for educating adults. Emphasis is given to the creation of programs that focus on learning styles, discussion-oriented teaching, inspiring presentation skills, and results-oriented outcomes. During the course, students are given opportunities to demonstrate competency in the principles and practices of materials development, teaching, training, and skill development.

## LDRS 592, Research Methods and Design, 3 Units

This course provides an introduction to basic concepts, principles, and methods of evaluation and research in the leadership setting, focusing on research traditions, procedures, theories, and methods. Emphasis is placed on identifying methods appropriate for particular research questions and conducting disciplined inquiry regardless of method selected. Particular emphasis will be placed on identifying a research question and conducting a comprehensive review of relevant literature.

## LDRS 593, Applied Research, 3 Units

This course provides an introduction to basic concepts, principles, and methods of evaluation and applied research in leadership settings, focusing on action research methodology. A faculty-student collaborative process, participatory action research allows students to engage in inquiry and action for change in response to organizational or community problems. During the course, students will identify a research question in their personal leadership contexts, review the current research literature, develop a plan to collect initial data, and present their project and findings to the class. At each stage of inquiry, the professor and peer research groups will provide feedback.
**Prerequisite:** LDRS 592 (May be taken concurrently)

## LDRS 595, Capstone Project in Leadership, 3 Units

The capstone course is an opportunity for students to demonstrate that they have achieved the goals for learning established through the M.A. in Leadership program competencies. The course assesses cognitive, affective, and applied learning in a student-centered and student-directed manner which requires the command, analysis, and synthesis of knowledge and skills. The capstone course integrates scholarship and praxis through the development of a literature review and 360-degree assessment and requires application of that learning to professional and personal contexts as evidenced through artifacts demonstrating competence. In culmination of their graduate studies, students will formulate a personal philosophy of leadership and develop a personalized growth plan that synthesizes their academic learning and outlines future professional and intellectual goals.
**Prerequisite:** Students enrolled in the M.A. in Leadership program

## LDRS 597, Current Issues in Leadership, 3 Units

Current topics are chosen for discussion, research, and decision making relevant to the Organizational Leadership emphasis.

## LDRS 598, Special Topics, 3 Units

In this course, a topic of current interest or need is examined in depth. Students analyze and evaluate topics/ issues to reach and express a position, provide training for a particular population, or enhance personal development. If students elect this course more than once during their program, each course must address a different topic.

## LDRS 599, Readings in Leadership Studies, 1-3 Units

The independent study vehicle allows students and their sponsoring faculty members to pursue approved investigations beyond regular course offerings.

# OPSY 501, Introduction to Organizational Psychology, 3 Units

This course is an introduction to the field of industrial/organizational (I/O) psychology, providing an overview of the fundamentals and the various subfields of the discipline. Special consideration is given to topics that integrate the application of psychology to organizational environments. Coursework covers the history of I/O psychology, offers a comparative review of topics within industrial psychology and organizational psychology, and helps students gain a fundamental understanding of employee selection, training, motivation, job satisfaction, communication, group behavior, and stress management. The course also includes a review of the organizational psychology literature as well as ethics guidelines and professional standards governing the practice of organizational psychology.
**Prerequisite:** Acceptance into the MS in Organizational Psychology program

# OPSY 502, Organizational Ethics, 3 Units

Students in this course examine psychological phenomena that help explain why people who want to act ethically in organizations often do not act in accordance with their values. Course material also helps students understand how cognition, affect, and behavior interact, so they can better navigate ethically challenging situations. Ethical issues in organizational contexts are examined in light of biblical values and the American Psychological Association's Ethical Principles of Psychologists and Code of Conduct.
**Prerequisite:** Acceptance into the MS in Organizational Psychology program

# OPSY 503, Group and Organizational Behavior, 3 Units

This course offers a behavioral science approach to organizational life and enables students to investigate the effective functioning of individuals and groups within organizational settings. Emphasis is on the psychology of teams, team dysfunction, group conflict, and organizational culture. This course applies theoretical concepts to challenges such as team dynamics, conflict, decision making, and organizational behavior patterns.
**Prerequisite:** Acceptance into the M.S. in Organizational Psychology program; successful completion of OPSY 501 is recommended.

# OPSY 505, Individual and Team Assessment, 3 Units

Students receive instruction and training in individual assessment techniques for vocational and business applications, including pre- and postemployment assessment for selection, onboarding training, advancement, developmental or remedial coaching, and succession planning. Students are introduced to qualitative and quantitative assessment methods as key tools for leadership assessment; learn the importance of assessment in organizational and leadership dynamics; and gain competency in the use of several key assessment methods and instruments and learn to apply these instruments to leadership development within work team environments. Students are also introduced to job analyses and use measurement tools relevant for assessing occupational interests, abilities, competency modeling, and work-related personality constructs. Students also complete several individual assessments as part of the experiential, outside-of-class portion of the course.
**Prerequisite:** Acceptance into the MS in Organizational Psychology program

# OPSY 510, Organizational Assessment and Interventions, 3 Units

This course introduces interventional strategies that correspond to the primary issues related to organizational life: change management, organizational culture, and leadership and team dynamics. Students gain competency in focusing on these critical areas of assessment and intervention: qualitative method, conducting needs analysis, proposing consultation projects, and employee assistance programs. Students also become familiar with research methodologies related to existing programs and successful programs within companies.

# OPSY 515, Coaching Techniques and Application, 3 Units

Students in this course examine theories and practices within the fields of psychology, organizational behavior, business, and other relevant fields as they relate to the practice of executive coaching. They also explore coaching competencies, professional ethics, and models of executive coaching, and are introduced to a repertoire of basic coaching skills applicable to most executive coaching situations (e.g., self-awareness, empathy, listening, questioning, giving and receiving feedback, confrontation, limit setting, demonstrating leadership, etc.).

# OPSY 520, Consultative Applications of Organizational Psychology, 3 Units

This course covers the applied aspects of organizational psychology, providing an overview of the consulting process as it relates to external and internal consultation in industry. Students are introduced to the theoretical and practical aspects of providing organizational consultation, with special consideration given to topics that integrate the competencies needed for applying psychology to organizational environments. Coursework provides an overview of organizational consulting models and frameworks, and focuses on the fundamental steps in the consulting process that lead to high-impact outcomes. The course also includes a review of the organizational psychology literature, as well as ethics guidelines and professional standards governing the practice of organizational psychology.

# OPSY 534, Organizational Systems: Theories of Change, 3 Units

This course engages the idea of organizational change from a systems perspective and approaches content through analysis of theory, praxis, and story. Practical application is explored in regard to how students can and will be equipped to serve as change agents in internal and external consultant roles. Special attention is given to the specific steps involved in identifying the need for change, engaging internal and external stakeholders in the change process, and implementing desired change initiatives.

## OPSY 542, Organizational Implications of Diversity, 3 Units

This course explores theoretical and practical ideas about diversity in organizations, equipping students to identify and engage individual, societal, and organizational dynamics related to 21st-century workplace diversity and inclusion. Students learn about basic psychological processes - including attitudes toward marginalization, structural inequity, privilege, and prejudice - that affect how members of different social groups perceive and interact with one another in organizational settings. Students also engage critical perspectives on the historical, sociocultural, and psychological factors of organizational diversity, explore the ethical implications of navigating complex organizational cultures, and discuss strategies for fostering and sustaining diversity.

## OPSY 590, Statistics for Research in Organizations, 3 Units

This course introduces students to the basic concepts of statistical ideas and methods, equipping them to carry out common statistical procedures and follow statistical reasoning for research in workplace phenomena. Principles of measurement, data summarization, and univariate and bivariate statistics are examined. Emphasis is on the application of fundamental concepts to real-world situations.
**Prerequisite:** Acceptance into the MS in Organizational Psychology program

## OPSY 592, Research Methodology and Survey Applications, 3 Units

Students in this course learn quantitative research techniques of investigation and apply them to psychological activities in organizations. Students also learn principles of survey design. A final project includes developing and administering a psychometrically valid survey for an organization, with students analyzing the data and providing a report of the results.
**Prerequisite:** OPSY 590

## OPSY 595, Introduction to Thesis in Organizational Psychology, 4 Units

This course gives student researchers a directed study focused on preparing a master's thesis in organizational psychology. Students identify a worthy research topic, write a comprehensive literature review, select an appropriate research method, and shape a compelling research proposal.
**Prerequisite:** OPSY 501, OPSY 502, OPSY 503, OPSY 505, OPSY 510, OPSY 515, OPSY 520, OPSY 534, OPSY 542, OPSY 590, OPSY 592, and permission from the department chair.

## OPSY 596, Thesis in Organizational Psychology: Data Collection and Analysis, 4 Units

This course gives student researchers a directed study focused on completing a master's thesis in organizational psychology. Building on the research proposal completed in OPSY 595, students collect and analyze data and present their findings in the form of a completed master's thesis and oral presentation to the thesis committee.
**Prerequisite:** OPSY 595

# BA in Communication Management

48 units

The communication management major (https://www.apu.edu/comm/programs/communication-major/) is an interdisciplinary, "next-level" degree program that trains students for promotion, management, and leadership. This degree program equips graduates with many skills needed for promotion and leadership in a variety of fields, such as business, health care, government, hospitality, and more. Communication management graduates are equipped in foundational theory and with expertise in conflict management, small-group decision-making and facilitation, understanding organizational cultures and functioning, relational communication, persuasion and social influence, intercultural communication, and much more.

## Career Opportunities

To prepare for career opportunities, students are required to complete a 3-unit communication internship prior to graduation. Communication management graduates often work as:

- Managers and organizational leaders
- Communication training and development specialists
- Strategic communication (including social media) specialists
- Human resource officers
- Corporate or personal event planners
- Customer relations managers
- Sales representatives
- Higher education administrators
- Student development professionals
- Ministry leaders in churches or nonprofits
- Marriage and family counselors
- Entrepreneurs

## Requirements

To graduate, communication management majors must maintain a cumulative grade-point average of 2.0 or higher in their major coursework.

| Code | Title | Units |

[1]  Meets the General Education Oral Communication requirement.
[2]  Meets the General Education Intercultural Competence requirement.
[3]  Meets the General Education Writing 3 requirement.
[4]  Meets the General Education Integrative and Applied Learning requirement.

## Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Explain how communication creates, sustains, manages, and changes persons, groups, organizations, and society, and use that knowledge in an ethical manner.
2. Articulate how the Christian faith and one's worldview can inform the study, evaluation, and practice of communication.
3. Identify one's own communication tendencies, strengths, and weaknesses.
4. Express ideas clearly and accurately through oral and written communication using various media in academic and practitioner contexts.
5. Utilize quantitative and qualitative research tools to explore communication worlds.
6. Apply communication theories and ethics to various communicative situations.
7. Identify a vocational direction where one's communication skills can be utilized to make a positive difference.

# MA in Leadership

The Master of Arts in Leadership (https://www.apu.edu/business/programs/masters-in-leadership/) (available face to face and online) is an interdisciplinary degree that equips leaders with skills and tools that can be applied across a variety of vocations and fields. With a focus on character,

creativity, curiosity, and innovation grounded in a framework of Christian values, you will explore what being a leader means to you, and how you can hone your skills to help others thrive.

 Throughout the program, you will:

1. Discover various dimensions of leadership character as it pertains to the individual, team, and enterprise.
2. Design strategic leadership initiatives through curiosity, inquiry, and experimentation.
3. Develop relevant skills and tools needed to lead a changing leadership landscape with creativity and agility.
4. Deliver innovative solutions to complex leadership and organizational challenges.

## Experiential Learning Opportunities

Experiential learning opportunities are integrated throughout the program, allowing students to immediately apply knowledge. Applied and experiential learning equips students with a deeper understanding of design thinking. Students use LEGO® SERIOUS PLAY® to understand organizational change structures and gain firsthand experience working with companies.

## Requirements

Students pursuing the MA in Leadership must complete 30 units of coursework, as well as present their final design project during a Designer Symposium (a TEDx-style night of presentations). Up to 6 units of appropriate coursework may be transferred into the program by petition.

| Code | Title | Units |

5. Utilize quantitative and qualitative research tools to explore communication worlds.
6. Apply communication theories and ethics to various communicative situations.
7. Identify a vocational direction where one's communication skills can be utilized to make a positive difference.

# Minor in Leadership

18 units

The undergraduate leadership minor capitalizes upon the university's intention to develop disciples and scholars who seek to advance the work of God in the world. This minor does so by encouraging students to pursue excellence in their chosen major while also seeking proficiency as strengths-driven leaders. Students are encouraged toward lifelong development (as people and as leaders) and have the opportunity to create, articulate, and practice their own philosophy of Christian leadership.

Courses are thoughtful, challenging, and relationally focused while providing opportunities for reflection, conversation, and research. Students in the minor learn about whole-person development, leadership and virtue, the role of personal strengths and skills in good leadership, and how to lead as agents of change. Disciplined self-leadership, combined with the knowledge of how to facilitate effective collaboration, make leadership minor graduates an asset to any context in which they may serve.

## Mission Statement

The leadership minor seeks to educate and inspire students to integrate their faith into their calling and, as people of integrity, live purposefully for the glory of God.

## Benefits of Adding a Minor

A minor can help students complement their bachelor's degree and stand out to future employers, expanding their employment opportunities while they study an additional area of interest. The versatility of the leadership minor complements any major, giving students the opportunity to demonstrate management expertise in any field and possibly providing an edge in their job search, as well as adding knowledge that can be used throughout an individual's career.

## Requirements

The minor in leadership comprises 18 units of leadership coursework.

*Note: Seniors may take one course in the MA in Leadership program. If a student is accepted into the MA in Leadership, the course will count toward that degree as well.*

| OS | Offered in Spring in odd years |

## Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Understand and be able to express their personal leadership style.
2. Differentiate between Christian and non-Christian approaches to leadership.
3. Define followership and be able to enact it.
4. Facilitate effective collaboration.

5. Express their calling.
6. Delineate good leadership practices in their selected major.

# MS in Organizational Psychology

The Master of Science in Organizational Psychology (https://www.apu.edu/business/programs/masters-in-organizational-psychology/) degree program prepares students to become effective organizational consultants (either internal or external to an organization). At the intersection of business and psychology, our blended learning experiences combine theoretical grounding and practical application. Students in this program demonstrate the ability to solve complex organizational challenges through assessment, data-driven decision making, and other organizational effectiveness tools. Innovative curriculum produces scholar-practitioners who are competent and confident working in organizations to create a people strategy that aligns with the business strategy.

The expanding field of organizational psychology, sometimes referred to as industrial-organizational psychology, or the study of people's attitudes, feelings, and behaviors in the workplace, calls for individuals prepared to help organizations and businesses flourish. You can complete the MS in Organizational Psychology program in a little over a year, quickly elevating your earning potential and distinguishing yourself as a qualified and confident practitioner-scholar in one of the most exciting and fastest-growing fields in America.

## Highlights

Through the program, you'll learn to:

- Diagnose organizational health
- Develop and implement change initiatives
- Conduct job analysis and craft job descriptions
- Increase employee morale and expand retention strategies
- Advance performance management programs
- Generate and direct effective succession plans
- Hire, train, and develop talent
- Advise, coach, and build successful teams

## Certificates, Credentials, and Microcredentials

Today, employers are looking for new hires with technical skills and also leadership abilities such as innovative decision making and executive coaching. MS in Organizational Psychology students have the opportunity to earn industry-valued, internationally recognized certificates, credentials, and microcredentials that can be added to résumés and uploaded to online portfolios, certifying and showcasing these skills and abilities to potential employers.

## Career Opportunities

The demand is high and continues to rise for those who possess a master's degree in organizational psychology. Current research trends project two available jobs for every individual applying to work in this lucrative field centered on understanding and improving the workplace environment. People with an organizational psychology degree pursue careers in a variety of fields including academic/educational settings, business, churches, health care, government, and nonprofits. The following list highlights a few specific job titles: talent acquisition coordinator/manager; organizational development director; head of people and culture; organizational consultant; executive/leadership coach; diversity, equity, and inclusion (DEI) leader; human resources manager or director; human resources generalist; training and workplace learning manager; people analyst; and social science researcher.

## Requirements

The Master of Science in Organizational Psychology (https://www.apu.edu/business/programs/masters-in-organizational-psychology/) program includes 13 courses (41 units), all of which are required for the degree. There are no electives.

| Code | Title | Units |
| --- | --- | --- |
| OPSY 501 | Introduction to Organizational Psychology | 3 |
| OPSY 502 | Organizational Ethics | 3 |
| OPSY 505 | Individual and Team Assessment | 3 |
| OPSY 510 | Organizational Assessment and Interventions | 3 |
| OPSY 515 | Coaching Techniques and Application | 3 |
| OPSY 520 | Consultative Applications of Organizational Psychology | 3 |
| OPSY 534 | Organizational Systems: Theories of Change | 3 |

| OPSY 542 | Organizational Implications of Diversity | 3 |
|---|---|---|
| OPSY 590 | Statistics for Research in Organizations | 3 |
| OPSY 595 | Introduction to Thesis in Organizational Psychology | 4 |
| OPSY 596 | Thesis in Organizational Psychology: Data Collection and Analysis | 4 |
| MGMT 516 | High-Performance People Management | 3 |
| **Choose one of the following:** | | **3** |
| OPSY 592 | Research Methodology and Survey Applications | |
| MGMT 515 | Applied Research and Analysis | |
| **Total Units** | | **41** |

# Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

# Course Attendance and Schedule

The collaborative learning process that characterizes the organizational psychology program requires that students be prepared to contribute value to class discussions and to the broader learning community based on their experiences. As such, class attendance is an important aspect of commitment to the program, and absences from class are not appropriate except in cases of emergency. Students should notify instructors of planned absences as soon as possible and make arrangements with other students to get notes and assignments.

# Commissioning Ceremony

Preceding each commencement, the School of Business and Management holds a commissioning ceremony for graduating students and their families. This event includes an achievement awards ceremony, words to live by, student remarks, and a time of prayer and commissioning for each graduate.

# Outstanding Thesis Award

At each commissioning ceremony, graduate faculty may honor a single graduate with the distinction of Outstanding Thesis Award. The award is primarily based on the quality of research study conducted during the thesis process, the written paper, the oral defense presentation, and the original contribution the study makes to the field of organizational psychology. The study's contribution to furthering the Kingdom of God is also considered.

# Graduation

In order to graduate, students must complete the required courses with an overall grade-point average (GPA) of at least 3.0. Students may participate in the graduation ceremony once all coursework is complete and the thesis has been defended and approved.

All organizational psychology students are required to complete the library publication of their final thesis paper. This process commences following the student's oral defense and must be completed within 6 months. A student's official degree will not be posted, nor will a diploma be mailed, until the publication process is complete.

# Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Explain the theoretical constructs of organizations in relation to the attitudes, feelings, and behaviors of those who work in the organization.
2. Utilize research and diagnostic tools to develop the competencies needed as an organizational consultant.
3. Construct organization development interventions using experience-based models and simulations.
4. Approach individual and organizational wellness through a holistic perspective framed through a Christian worldview.

# LP and Timothy Leung School of Accounting

Housed within Azusa Pacific's School of Business and Management (https://www.apu.edu/business/), the LP and Timothy Leung School of Accounting (https://www.apu.edu/business/accounting/) focuses on developing graduates with the Christian character and competence demanded by the public accounting profession.

## Vision Statement

To be a premier Christian accounting school, recognized as a thought leader on accounting character and competence to reflect the life of Christ and shine the light of Truth.

## LP and Timothy Leung Scholarships

With gratitude to the Leung Endowment, students may qualify for scholarships. Additionally, students have the option to enroll in a fifth year to earn a Master of Professional Accountancy (MAcc) degree.

## Specialized Credentials and Applied Learning

Students have the opportunity to earn specialized credentials, such as the IRS Enrolled Agent (EA) and the Certified Information Systems Auditor (CISA), increasing their value to potential employers. Additionally, students may join the Accounting Honors Society and participate in the Volunteer Income Tax Assistance (VITA) program, which equips students with hands-on experience as they provide income tax assistance to low-income taxpayers in the surrounding communities. Comprehensive curriculum coupled with experiential learning techniques has led to CPA exam pass rates in the top 20% of California universities.

In addition to VITA and the Accounting Honors Society, the school offers numerous student clubs and study-away opportunities. Students participating in study-away opportunities engage with topics of globalization, trade, culture, and global management and leadership as they travel the world. Typically, study-away trips include visiting global and international organizations and learning from universities and business leaders around the world. Additionally, numerous student clubs offer students the opportunity to build skills in leadership, management, decision making, and teamwork.

## Internships and Job Placement

Accounting majors are invited to participate in the annual Meet the Firms night, hosted by the Accounting Honors Society and boasting outstanding successes. Typically, 60 accounting professionals representing 20 public accounting firms—all of the Big Four (EY, PwC, KPMG, and Deloitte), several major national (CLA, BDO) and specialty (CapinCrouse, Ron Blue) firms, and many regional and local firms (KSJG)—meet with APU students to discuss internship and job opportunities.

Accounting majors obtain paid internships with public accounting firms and in professional accounting. Job placement for accounting students also remains strong, with most CPA-track students placed prior to graduation. On the undergraduate side, our graduates are typically placed with every major accounting firm in the US, from Big Four to national and regional firms.

## Graduate Programs Offer Flexible Course Schedules

To accommodate busy schedules, graduate classes are offered during the evening, afternoon, and online. Classes give students the opportunity to participate in real-life projects and case studies with profit, nonprofit, and governmental organizations. Students may take advantage of the multiple delivery formats to customize their education experience. **Students are admitted to and can start the Master of Professional Accountancy (MAcc) program in any of the eight terms during the academic year.**

## Programs

### Majors

- Accounting (BS) (p. 877)
- Finance (BS) (p. 879)

### Minors

- Accounting (p. 882)
- Finance (p. 883)

## Master's

- Master of Professional Accountancy (MAcc) (p. 881)

## Courses

### ACCT 120, Principles of Accounting I, 3 Units

This course introduces the financial accounting model and application of fundamental accounting principles. The corporate form of business serves as the primary model to demonstrate accounting principles for cash, accounts receivable, inventories, operational assets, liabilities, and stockholders' equity.

### ACCT 121, Principles of Accounting II, 3 Units

This course introduces basic managerial accounting concepts and emphasizes the use of accounting data in decision making. Topics covered include cost accumulation models, cost behavior, break-even analysis, variable costing, budgeting, differential analysis, product pricing, capital expenditure analysis, and financial statement analysis.
**Prerequisite:** ACCT 120

### ACCT 122, Accounting Perspectives, 1 Unit

This course introduces students pursuing an accounting degree to a broad overview of the various career paths available to successful accounting graduates.

### ACCT 320, Intermediate Accounting I, 3 Units

This course offers an intensive study of the accounting theory and principles underlying financial accounting. Emphasis is placed on the theoretical and conceptual framework of the financial reporting process including the role and authority of official accounting pronouncements and the responsibilities of professional accountants. This course begins with a review of the accounting model and covers accounting theory as it relates to revenue recognition, current assets including cash, accounts receivable, inventories, and current liabilities.
**Prerequisite:** ACCT 121

### ACCT 321, Intermediate Accounting II, 3 Units

This course continues the study begun in ACCT 320, covering operational assets, intangible assets, investments, long-term liabilities, leases, income taxes, corporate capital transactions, and statement of cash flows. Emphasis is placed on the theoretical and conceptual framework of the financial reporting process including the role and authority of official accounting pronouncements and the responsibilities of professional accountants.
**Prerequisite:** ACCT 320

### ACCT 325, Cost Accounting, 3 Units

This course explores managerial accounting concepts used in planning and controlling operations, determining cost of production, inventory control and evaluation, budgeting, and long-range planning. Emphasis is placed on cost determination, cost accumulation, cost-volume-profit relationships, standard costs, variances analysis and reporting, and the relationship between controlling costs and controlling operations.
**Prerequisite:** ACCT 321

### ACCT 331, Federal Taxes I, 3 Units

This course offers an intensive study of the theory and principles of federal income tax law as it applies to individuals. Emphasis is on the theoretical framework and philosophy of the federal tax system, as well as practical application and planning. Course material covers basic concepts in the determination of income, classes of deductions, allowable credits, and property transactions. The importance of appropriate tax planning is stressed, and students prepare for the CPA (Certified Public Accountancy) test along with the IRS (Internal Revenue Service) Enrolled Agent (EA) test.
**Prerequisite:** ACCT 121

### ACCT 332, Federal Taxes II, 3 Units

This course offers an intensive study of the theory and principles of federal income tax law as it applies to business entities/corporations, partnerships, estates, and trusts. Emphasis is on the theoretical framework as well as practical application and planning. Course material covers basic concepts of taxation in corporate formation and operation, as well as in partnership and S corporation formation and operation, along with the fundamentals of estate, gift, and trust taxation. The course also covers the tax audit process and professional tax preparer responsibilities, and students prepare for the CPA (Certified Public Accountancy) test along with the IRS (Internal Revenue Service) Enrolled Agent (EA) test.
**Prerequisite:** ACCT 331 for accounting majors, ACCT 121 for accounting minors;
**Corequisite:** ACCT 333

### ACCT 333, Volunteer Income Tax Assistance (VITA), 1 Unit

This course gives students the opportunity to apply their knowledge of tax law and the available tools to successfully assist individuals and families in the community in preparing and filing accurate tax returns under the supervision of the instructor. Students gain hands-on experience working with clients and preparing tax returns according to the Volunteer Income Tax Assistance (VITA) and Tax Counseling for the Elderly (TCE) return preparation process.
**Prerequisite:** ACCT 331

## ACCT 336, Advanced Accounting, 3 Units

This course provides an in-depth study of accounting theory and principles. Topics include business combinations, consolidations, insolvency, foreign currency transactions, segment reporting, partnerships, fund accounting, and accounting for state and local governmental units and other non-business organizations.
**Prerequisite:** ACCT 321

## ACCT 425, Writing 3: Accounting Ethics, 3 Units

Students in this course are introduced to issues of accounting ethics that professionals encounter in practice, moral reasoning to resolve ethical dilemmas, and accountants' professional codes of conduct. Topics include major philosophical schools of thought, biblical perspectives on accountability, ethical reasoning strategies, earnings management, fraud, and corporate governance. Credit is not given for both ACCT 425 and ACCT 525. ACCT 425 does not satisfy the requirements of the Master of Professional Accounting (MAcc) program. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*
**Prerequisite:** Writing 2 and ACCT 321.

## ACCT 426, Auditing Principles I, 3 Units

This course is an overview of auditing concepts, with special attention to auditing standards, professional ethics, the legal ability inherent in the attest function, the study and evaluation of internal control, the nature of evidence, statistical sampling, and the impact of electronic data processing. The basic approach to planning an audit is also addressed, as are the audit objectives and procedures applied to the elements in a financial statement.

## ACCT 427, Auditing Principles II, 3 Units

This course takes the concepts and procedures learned in ACCT 426 and applies them in a comprehensive audit case study. Students prepare audit work papers that demonstrate application of audit theory and objectives for various classes of financial statement accounts. Students are exposed to the planning, control, and review procedures used by many public accounting firms. The use of computerized audit software is covered.
**Prerequisite:** ACCT 426

## ACCT 500, Principles of Accounting I, 3 Units

This course introduces the financial accounting model and application of fundamental accounting principles. The corporate form of business serves as the primary model to demonstrate accounting principles for cash, accounts receivable, inventories, operational assets, liabilities and stockholders' equity.

## ACCT 501, Principles of Accounting II, 3 Units

This course introduces basic managerial accounting concepts and emphasizes the use of accounting data in decision making. Topics covered include cost accumulation models, cost behavior, break-even analysis, variable costing, budgeting, differential analysis, product pricing, capital expenditure analysis, and financial statement analysis.
**Prerequisite:** ACCT 500

## ACCT 502, Financial Accounting, 3 Units

This course introduces the financial accounting model and application of fundamental accounting principles. The corporate form of business serves as the primary model to demonstrate accounting principles for cash, accounts receivable, inventories, operational assets, liabilities and stockholders' equity. Students will interpret company performance by analyzing accounting statements and complete a computer simulation which demonstrates computer applications in accounting.

## ACCT 503, Intermediate Accounting I, 3 Units

This course offers an intensive study of the accounting theory and principles underlying financial accounting. Emphasis is placed on the theoretical and conceptual framework of the financial reporting process including the role and authority of official accounting pronouncements and the responsibilities of professional accountants. This course begins with a review of the accounting model and covers accounting theory as it relates to current assets including cash, accounts receivable, inventories, and current liabilities.

## ACCT 504, Intermediate Accounting II, 3 Units

This course covers operational assets, intangible assets, investments, long-term liabilities, leases, income taxes, corporate capital transactions, and statements of cash flow. Emphasis is on the theoretical and conceptual framework of the financial reporting process, including the role and authority of official accounting pronouncements and the responsibilities of professional accountants.

## ACCT 506, Cost Accounting, 3 Units

This course provides the study of the theory and principles underlying cost and managerial accounting. Emphasis is placed on the following topics: Terminology, Job Order Costing, Activity Based Costing, Cost Volume Profit Analysis, Budgeting, Standard Cost, Non-Routine Decisions, Responsibility Accounting, Process Costing, Quality, Capital Budgeting, and Inventory Management.

## ACCT 507, Auditing Principles, 3 Units

This course takes the concepts and procedures learned in previous accounting courses and applies them in a comprehensive audit case study. Students prepare audit work papers that demonstrate application of audit theory and objectives for various classes of financial statement accounts. Students are exposed to the planning, control, and review procedures used by many public accounting firms.

## ACCT 508, Federal Taxes I, 3 Units

This course offers an intensive study of the theory and principles of federal income tax law as it applies to individuals. Emphasis is placed on the theoretical framework and philosophy of the federal tax system as well as practical application and planning. This course also covers basic concepts in the determination of income, classes of deductions, allowable credits, property transactions, as well as the tax audit process and professional tax preparer responsibilities. The importance of appropriate tax planning is stressed.

## ACCT 509, Federal Taxes II, 3 Units

This course offers an intensive study of the theory and principles of federal income tax law as it applies to business entities - corporations, partnerships, estates, and trusts. Emphasis is on the theoretical framework as well as practical application and planning. This course covers basic concepts of taxation in corporation formation and operation, and partnership and S corporation formation and operation, and fundamentals of estate, gift, and trust taxation.

## ACCT 510, Accounting and Tax Research Methods, 3 Units

In preparation for professional practice, students explore accounting research methods and tax issues utilizing professional online research databases to properly identify and focus research questions, interpret data, develop opinions, and effectively communicate the results.
**Prerequisite:** Acceptance into the Master of Professional Accountancy program

## ACCT 511, Advanced Accounting, 3 Units

This course provides an in-depth study of accounting theory and principles first encountered in Intermediate Accounting. Topics covered include, but are not limited to, partnerships and corporations. Extensive coverage is given to business combinations and consolidations, as well as bankruptcy reporting.

## ACCT 512, Management Accounting, 3 Units

Students investigate how management makes critical strategic and operational decisions using an organization's key financial and managerial accounting information, including Financial Statement, Balance Sheet, Income Statement, and Statement of Cash Flow. Students also discuss how to motivate and align management to act in the firm's best interests.

## ACCT 515, Accounting Information Systems, 3 Units

This course emphasizes the application of accounting information systems. Students gain experience in auditing data within the computer environment and learn the controls necessary to ensure the accuracy and reliability of the accounting system.
**Prerequisite:** Acceptance into the Master of Professional Accountancy program

## ACCT 520, Global Financial Accounting Standards, 3 Units

This course compares global accounting standards of the International Financial Reporting Standards to Generally Accepted Accounting Principles standards in the United States. Topics include statements of operations, financial position, stockholders' equity, and cash flow, as well as research and development, inventories, pensions, stock options, intangibles, leases, and taxes. Students learn through in-depth analysis of contemporary financial reporting requirements promulgated by the national and international accounting standards boards.
**Prerequisite:** Acceptance into the Master of Professional Accountancy program

## ACCT 525, Accounting Ethics, 3 Units

Students explore accounting ethics encountered in practice such as, moral reasoning to resolve ethical dilemmas and accountants' professional codes of conduct. Topics include major philosophical schools of thought, biblical perspective on accountability, ethical reasoning strategies, earnings management, fraud, and corporate governance.
**Prerequisite:** Acceptance into the Master of Professional Accountancy program

## ACCT 530, Advanced Business Law, 3 Units

Focusing on advanced legal issues encountered in financial and commercial business transactions, this course offers an in-depth study of business law, mergers and acquisitions, sales, commercial paper, secured transactions, documents of title, bankruptcy, securities regulations, and the legal liability of accountants.
**Prerequisite:** Acceptance into the Master of Professional Accountancy program

## ACCT 535, Advanced Managerial Accounting, 3 Units

Students investigate the various ways management uses accounting information to make critical strategic and operational decisions such as product pricing, line extensions, and activity-based costing, and to evaluate operating performance including EVA and balanced scorecard. Students discuss methods of distilling key financial and managerial accounting information, as well as motivating and aligning management to act in the firm's best interests. Case based.
**Prerequisite:** Acceptance into the Master of Professional Accountancy program

## ACCT 540, Forensic Accounting and Fraud Investigation, 3 Units

Discussion focuses on the principles and methodology of forensic accounting, including fraud detection and prevention. Students examine consumer, management, employee, and financial statement fraud. Prevention through internal controls and evidence gathering techniques are also addressed.
**Prerequisite:** Acceptance into the Master of Professional Accountancy program

## ACCT 545, Advanced Auditing, 3 Units

This course covers advanced auditing topics and helps students develop an understanding of auditing standards and practice through in-depth analysis of contemporary auditing theory as promulgated by the accounting profession. The course emphasizes pronouncements by the Auditing Standards Board and the Public Company Accounting Oversight Board.
**Prerequisite:** Acceptance into the Master of Professional Accountancy program

## ACCT 550, Accounting for Nonprofit Entities, 3 Units

Students in this course examine how nonprofit organizations measure financial performance and how they differ from for-profit organizations. Students also explore accounting principles and practices for nonprofit organizations including churches, hospitals, and health and welfare organizations. Utilizing case studies, students assess nonprofit and for-profit organizations that receive government assistance in the form of contracts, guaranties, grants, or assistance that may be subject to federal audit requirements. Other topics include ethical examination of accounting decisions, and the general characteristics and operational environment of nonprofit organizations, applying generally accepted standards, principles, and practices.

## ACCT 551, Government Financial Management, 3 Units

This course covers the principles of public financial accounting and follows the Association of Government Accountants (AGA) Certified Government Financial Manager (CGFM) exam structure, which focuses on three modules: governmental environment, governmental accounting; financial reporting and budgeting; and governmental financial management and control. Students taking this course are required to use AGA's CGFM study guide materials (which are purchased by the university) and take all three CGFM exams. Students taking this course must pass all three CGFM exams to obtain an automatic A in the course.

## ACCT 590, Integrative Accounting Review, 3 Units

In this course, students integrate the learning experience by completing modules related directly to CPA exam preparation.
**Prerequisite:** Acceptance into the Master of Professional Accountancy program

## ACCT 591, Accounting Internship, 3 Units

Students in this course engage in a practical application of principles and theory in a real-world business setting through an accounting internship with a CPA firm. Students without prior public accounting internships or work experience are required to take the course.
**Prerequisite:** Acceptance into the Master of Professional Accountancy program

## FIN 300, Business Finance for Managers, 3 Units

This course introduces concepts and tools of business finance for managers. Students study financial statements and their interpretation, business performance measures, the management of cash and the short-term financial needs of organizations, and how to make good capital budgeting decisions.
**Prerequisite:** ACCT 120

## FIN 320, Principles of Corporate Finance, 3 Units

Students in this course explore the principles and practices of financial management. Sources and methods of raising capital, allocation of funds within the firm, cash flow and financial statement analysis, financial markets, and capital budgeting techniques are addressed. Additional concepts covered include present-value analysis, long-term financial planning, risk and return, and basic derivatives.
**Prerequisite:** ACCT 120

## FIN 330, Financial Analysis, 3 Units

This course equips students with the necessary tools of financial statement analysis for business valuation and strategic considerations. Students explore the ideas of ratio analysis and time value of money in discounted cash flows in order to analyze the financial conditions of a business organization. Course material also covers credit analysis and corporate finance issues such as mergers and acquisitions and debt financing. Case studies are used extensively.
**Prerequisite:** FIN 300 (finance majors only)

## FIN 331, Managerial Finance, 3 Units

This course extends the concepts and methodologies introduced in Principles of Finance to incorporate the practical uses as a manager in an organization. The course places emphasis on managerial decisions using spreadsheet applications. Topics include: financial statement analysis, project analysis, long-term financial planning, risk and return, and basic derivatives.
**Prerequisite:** FIN 320 or Instructor's consent

## FIN 352, Financial Markets and Institutions, 3 Units

This course covers financial markets, instruments, and institutions, with students examining the roles of depository institutions, insurance companies, and others in the process of intermediation. The structure of financial markets, recent developments in financial instruments, interest rate determination, and the regulatory environment are discussed.
**Prerequisite:** ECON 200

## FIN 372, International Trade and Finance, 3 Units

Students study the theory and practice of international trade and international finance, exploring questions of why countries trade, what they trade, and national and global trade policies. Course material also covers foreign exchange markets, exchange rate determination, foreign direct investment, and international capital markets.
**Prerequisite:** ECON 200

## FIN 432, Investment Analysis, 3 Units

This course introduces students to the basic tools of investment analysis and integrates these with the actual operations of investments and portfolio construction. Emphasis is on providing analyses of asset selection with an experience of real market activities.
**Prerequisite:** FIN 300 (finance majors only) and FIN 352 (finance majors only; may be taken concurrently with instructor permission)

## FIN 433, Applied Portfolio Management, 3 Units

Students in this course engage in practical application of financial investment principles and theory through a portfolio management opportunity in a business setting. Students learn to set portfolio objectives and measure performance against specific metrics in the business setting through a structured reporting process with the instructor.
**Prerequisite:** FIN 330 or instructor's consent, BUSI 111 or instructor's consent, and FIN 432 (FIN 432 prerequisite applies to finance majors only)

## FIN 434, Derivatives, 3 Units

This course prepares students with a basic understanding of derivatives of financial assets and commodities (such as futures, options, swaps, etc.). Pricing of these derivatives and their function in hedging and speculation is discussed. Recent innovations of pricing models for instruments such as interest rate derivatives, exotic options, and assessment of market risk based on the market prices of derivatives are also covered.
**Prerequisite:** FIN 432, MATH 130

## FIN 436, Financial Risk Management, 3 Units

The course introduces students to the theory and management tools of risk management and financial innovation, including the use of different combinations of financial assets and derivatives to immunize an organization's market risk. Topics include dynamic hedging using derivatives such as futures and options, and possibly the development of new products (or combinations) to protect a business or portfolio from exposure to financial risk.
**Prerequisite:** FIN 300, FIN 432 or instructor's consent, and FIN 433 (may be taken concurrently, required for finance majors only)

## FIN 439, Seminar in Finance, 3 Units

Students in this course evaluate their learning from finance major courses in preparation for the Securities Industry Essentials exam to become finance professionals. Students explore various types of professional finance career tracks and prepare individual career-development plans. Topics include capital markets, financial instruments and their risks, trading activities, managing customer accounts, prohibited activities, rules and regulations, professional financial jobs, and personal career plans.
**Prerequisite:** FIN 330 (finance majors only) and FIN 432 (finance majors only)

## FIN 502, Business Finance for Managers, 3 Units

This course provides an introduction to concepts and tools of business finance for managers. Students study financial statements and their interpretation, business performance measures, the management of cash and the short term financial needs of the organization, and how to make good capital budgeting decisions. Students will analyze company performance and make recommendations by applying class content to financial issues.

## FIN 513, Corporate Finance, 3 Units

Students in this course examine how financial decisions can affect the value and health of firms. Topics include cash flow and ratio analysis, discounted cash flow analysis, stock and bond valuation, investment criteria and decisions, capital budgeting, capital structure decisions, risk-return analysis, and long-term and short-term financing decisions. In addition, students read and discuss articles related to God's financial principles.

## FIN 526, Capital Formation, 3 Units

Students study the market processes by which resources are allocated, from the capital formation of economic activities of the economy's various sectors to the financial activities in the money and capital markets. Specifically, the course includes the use of flow of funds analysis as applied to capital markets and various financial chronicles as sources for explaining and predicting economic behavior; the theory and reality of the interest rate structure; the nature of various capital markets and their securities; knowledge of corporate debt and equity instruments; federal, state, and local government securities; and mortgages. This course leads to a basic knowledge and understanding of the sources and uses of funds and the role of financial intermediation in the growth and development of economies.
**Prerequisite:** FIN 513

## FIN 536, Entrepreneurial Finance, 3 Units

This course examines the financial decisions of entrepreneurs and venture capital investors based on the stages of a venture development. Topics include financial options for entrepreneurs and investors, preparations for and analysis of a new business' financial statements, and the valuation of the venture.

## FIN 546, Investments, 3 Units

This course provides students with the study of financial instruments. Along with the knowledge of investment principles, students focus on the decision process for evaluating various investment opportunities. In addition, students discuss their stewardship responsibilities to God as individual Christian investors and Christian financial managers in a corporation.
**Prerequisite:** FIN 513

## FIN 567, Advanced Financial Analysis, 3 Units

Students explore the practical applications of financial management based on case studies. Major topics include financial statement analysis, financial forecasting, cost of capital estimation, capital budgeting decisions, capital structure decisions, equity financing, and mergers and acquisitions.
**Prerequisite:** FIN 513 (MBA/Accounting students only), FIN 502 (MSHA students only)

# BS in Business: Accounting

70 units

The accounting major (https://www.apu.edu/business/programs/accounting-major/) surveys the principles, theories, and concepts of the accounting profession while providing an intense review of the economic, quantitative, and managerial aspects of business. Its practical component leads to work assignments in international, national, and local certified public accountant (CPA) firms in students' junior and senior years. The combination of classroom theory and real-world experience also prepares candidates for the CPA examination administered by the various state boards of accountancy in the United States.

## Highlights

- CPA exam pass rates in the top 20% of California universities.
- Scholarships allow students to earn a Christian accounting education at a state school price.
- Specialized credentials, such as Enrolled Agent and Certified Internal Systems Analyst, are now available.
- Graduates are placed with every major accounting firm in the U.S., from Big Four to national and regional firms.
- Students are able to earn a Master of Professional Accountancy (MAcc) in one additional year.
- 100% of our MAcc students have paid professional internships.
- 100% job placement rate of our MAcc students in CPA firms by graduation.

## LP and Timothy Leung Scholarships

With gratitude to the Leung Endowment, students may qualify for scholarships over four years. Additionally, students have the option to participate in a fifth-year Master of Professional Accountancy.

## Specialized Credentials

Students have the opportunity to earn specialized credentials, such as the IRS Enrolled Agent (EA) and the Certified Information Systems Auditor (CISA), increasing their value to potential employers. Additionally, students have the options of joining the Accounting Honors Society and participating in the Volunteer Income Tax Assistance (VITA) program at APU. The VITA project equips students with hands-on experience as they provide income tax assistance to low-income taxpayers in the surrounding communities.

## Experiential and Applied Learning

In addition to VITA, the school offers numerous student clubs, honor societies, and study-away opportunities. Students participating in study-away opportunities engage with topics of globalization, trade, culture, and global management and leadership as they travel the world. Typically, study-away trips include visiting global and international organizations and learning from universities and business leaders around the world. Student clubs provide the opportunity for students to build skills in leadership, management, decision making, and teamwork.

## Internships and Job Placement

Accounting majors are invited to participate in the annual Meet the Firms night. This event, hosted by the Accounting Honor Society, boasts outstanding successes. Typically, 60 accounting professionals representing 20 public accounting firms meet with APU students, along with students visiting from other universities. All of the Big Four (EY, PwC, KPMG, and Deloitte), several major national firms (CLA, BDO) and specialty firms (CapinCrouse, Ron Blue), and many regional and local firms (KSJG) attend Meet the Firms.

Accounting majors obtain paid internships with public accounting firms or in professional accounting. Job placement for accounting students also remains strong, with most CPA-track students placed prior to graduation.

## Career Opportunities

Opportunities available to graduates include professional careers in accounting services, auditing, management advising services, and accounting departments in private firms and government bodies such as law enforcement agencies.

## Requirements

The accounting major comprises 70 units. Students must achieve an average GPA of 2.5 or higher in their major courses (this includes the Business Core).

| Code | Title | Units |
| --- | --- | --- |
| **Business Core Courses** | | |
| ACCT 120 | Principles of Accounting I | 3 |
| ACCT 121 | Principles of Accounting II | 3 |
| BUSI 111 | Business Statistics [1] | 3 |
| BUSI 240 | Introduction to Information Systems and Business Applications | 3 |
| BUSI 244 | Data Analytics, Spreadsheets, and Data Visualization | 3 |
| BUSI 296 | Business Law | 3 |
| BUSI 370 | International Business [2] | 3 |
| BUSI 495 | Writing 3: Business Ethics [3] | 3 |
| ECON 200 | Survey of Economics [4] | 3 |
| FIN 300 | Business Finance for Managers | 3 |
| MGMT 210 | Principles of Management [5] | 3 |
| MGMT 448 | Organizational and Administrative Behavior [6] | 3 |
| MGMT 450 | Strategic Management [5] | 3 |
| MKTG 260 | Principles of Marketing [2] | 3 |
| **Accounting Courses** | | |
| ACCT 320 | Intermediate Accounting I [F] | 3 |
| ACCT 321 | Intermediate Accounting II [S] | 3 |
| ACCT 325 | Cost Accounting [S] | 3 |
| ACCT 331 | Federal Taxes I [F] | 3 |
| ACCT 332 | Federal Taxes II [S] | 3 |
| ACCT 333 | Volunteer Income Tax Assistance (VITA) | 1 |
| ACCT 336 | Advanced Accounting [F] | 3 |
| ACCT 426 | Auditing Principles I [F] | 3 |
| ACCT 427 | Auditing Principles II [S] | 3 |
| ACCT 525 | Accounting Ethics | 3 |
| **Total Units** | | **70** |

[1]    Meets the General Education Quantitative Literacy requirement.
[2]    Meets the General Education Intercultural Competence requirement.
[3]    Meets General Education Writing 3 requirement.
[4]    Meets the General Education Social Sciences requirement.
[5]    Meets the General Education Integrative and Applied Learning requirement.
[6]    Meets the General Education Civic Knowledge and Engagement requirement.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate competency in multiple business disciplines.
2. Apply critical thinking to solve business problems.
3. Evaluate business decisions based on a Christian perspective.
4. Communicate ideas through professional channels.
5. Be contributing team members.
6. Identify cultural aspects of business in diverse environments.

# BS in Business: Finance

66 units

The finance major (https://www.apu.edu/business/programs/finance-major/) is designed for students interested in the stewardship of the financial resources of individuals, corporations, or financial institutions. As future managers, students learn the principles and applications of financial analysis, management, and strategy, and gain experience in portfolio construction; applications of derivatives in financial management, asset management, and international financial management; and case studies in corporate finance.

This program equips students with the theoretical understanding and practical skills necessary to evaluate and direct decisions regarding the allocation of financial resources among a variety of competing opportunities, with the goal of maximizing the value of the resources managed.

## Experiential Learning Opportunities

As a business club hosted by Azusa Pacific University's School of Business and Management and led by a faculty advisor and a board of finance professionals, the Student Investment Fund (SIF) involves the practical application of classroom knowledge. Students practice hands-on investment strategies and are engaged to manage a portion of the university endowment through fundamental valuation.

Students joining SIF have the opportunity to compete in the CFA Institute Research Challenge, a competition between university-sponsored teams that research a designated publicly traded company, prepare a written report on that company, and present their findings. SIF and the CFA competition provide students with hands-on training and mentoring in financial analysis.

## Credentials and Microcredentials

In this program, students have the opportunity to earn microcredential badges certifying their mastery of certain skills or abilities and showcasing them to future employers. Microcredentials can be added to résumés and uploaded to online portfolios.

In addition, the Seminar in Finance course (FIN 439) provides students the opportunity to earn the Securities Industry Essentials (SIE) Certification, one of the FINRA qualification exams.

## Career Opportunities

This program prepares students for employment in a variety of fields, such as corporate financial management, investment analysis and planning, financial institution management, and risk management. According to the *Occupational Outlook Handbook*, such occupations are expected to experience strong rates of growth. Moreover, these occupations generally offer attractive starting salaries and working conditions.

*To complete the finance major in four years, students are encouraged to complete FIN 300 by the end of their sophomore year.*

## Requirements

The finance major comprises 66 units. Students must achieve an average GPA of 2.5 or higher in their major courses (this includes the Business Core).

| Code | Title | Units |

# Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Competent Business Knowledge: Demonstrate knowledge in multiple business disciplines, including management, finance, marketing, accounting and economics.
2. Critical Thinking: Identify and solve business problems using analytical and critical thinking skills.
3. Christian Business Ethics: Demonstrate the ability to evaluate business decisions based on a Christian perspective.
4. Written Communication: Convey ideas clearly through professional written communication.
5. Oral Communication: Express ideas effectively through professional oral presentations.
6. Collaborative Teamwork: Demonstrate the ability to function as an effective business team member.
7. Comprehensive Global Awareness: Identify cultural, economic and political aspects of business in a global environment.
8. Discipline Knowledge: Demonstrate knowledge of finance concepts.
9. Discipline Problem Solving/Strategy: Solve core finance problems, or analyze finance situations and provide strategy for effectiveness.

# Master of Professional Accountancy (MAcc)

**For more information: (626) 812-3085**

The Master of Professional Accountancy (MAcc) (https://www.apu.edu/business/programs/macc/) program prepares students for careers as certified public accountants (CPAs). The program's curriculum combines coursework and an internship with a public accounting firm to prepare students to pass the CPA exam and meet the 150-semester-credit-hour rule required for certification by 49 of 50 states. The program focuses on developing students' character and competence consistent with the LP and Timothy Leung School of Accounting's vision (p. 871).

Ideal candidates will have recently completed an undergraduate degree in accounting, or in a related field with a concentration in accounting, with plans to enter the public accounting profession.

## Highlights

- CPA exam pass rates in the top 20% of California universities.
- Students are able to earn the MAcc in as little as one year.
- Scholarships allow students to receive a Christian accounting education at a state-school price.
- Specialized credentials, such as Enrolled Agent and Certified Internal Systems Analyst, are now available.
- Graduates are placed with every major accounting firm in the U.S., from the Big Four to national and regional firms.
- 100% of our MAcc students have paid professional internships.
- 100% job placement rate of our domestic MAcc students in CPA firms by graduation.

## Specialized Credentials and Applied Learning

Students have the opportunity to earn specialized credentials, such as the IRS Enrolled Agent and the Certified Information Systems Auditor credentials, increasing their value to potential employers. Additionally, students have the option of joining the Accounting Honors Society and participating in the Volunteer Income Tax Assistance (VITA) program, which gives students hands-on experience providing income tax assistance to low-income taxpayers in the surrounding communities. A comprehensive curriculum coupled with experiential learning techniques has led to CPA exam pass rates in the top 20% of California universities.

## Internships and Job Placement

Accounting students are invited to participate in the annual Meet the Firms night. This event, hosted by the Accounting Honor Society, boasts outstanding successes. Typically, 60 accounting professionals representing 20 public accounting firms meet with APU students, along with students visiting from other universities. All of the Big Four (EY, PwC, KPMG, and Deloitte), several major national firms (CLA, BDO) and specialty firms (CapinCrouse, Ron Blue), and many regional and local firms (KSJG) attend Meet the Firms.

Accounting majors obtain paid internships with public accounting firms or in professional accounting. Job placement for accounting students also remains strong, with most CPA-track students placed prior to graduation.

## LP and Timothy Leung Scholarships

With gratitude to the Leung Endowment, students may qualify for scholarships awarded on the basis of academic or other achievements.

## Application Deadline

Applications are accepted year-round, but to ensure full consideration for scholarships and internships, completed applications should be received at least six weeks prior to the start of the term.

View the **MAcc-specific admission requirements (https://www.apu.edu/business/programs/macc/)**.

## Requirements

| Code | Title | Units |
|---|---|---|
| **Core Courses** | | |
| ACCT 510 | Accounting and Tax Research Methods | 3 |
| ACCT 515 | Accounting Information Systems | 3 |
| ACCT 525 | Accounting Ethics | 3 |
| ACCT 535 | Advanced Managerial Accounting | 3 |
| ACCT 540 | Forensic Accounting and Fraud Investigation | 3 |

| ACCT 590 | Integrative Accounting Review [1] | 3 |
|---|---|---|
| ACCT 591 | Accounting Internship [2] | 3 |
| **Electives (choose 3 courses):** | | **9** |
| ACCT 520 | Global Financial Accounting Standards | |
| ACCT 530 | Advanced Business Law | |
| ACCT 545 | Advanced Auditing | |
| ACCT 550 | Accounting for Nonprofit Entities | |
| ACCT 551 | Government Financial Management | |
| BUSI 511 | Big Data and Business Analytics | |
| BUSI 514 | Operations Management | |
| FIN 513 | Corporate Finance | |
| FIN 567 | Advanced Financial Analysis | |
| MGMT 516 | High-Performance People Management | |
| MGMT 517 | Managing Human Capital | |
| MGMT 541 | Global Business Management | |
| MGMT 561 | Managing Teams and Conflict | |
| **Total Units** | | **30** |

[1]    If a student has passed the CPA exam in full or in part, an elective should be chosen to replace ACCT 590.

[2]    If a student has already successfully completed an approved internship, an elective should be chosen to replace ACCT 591.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate proficiency in professional accounting subject areas.
2. Construct critical thinking processes to solve accounting problems.
3. Defend accounting decisions based on a Christian perspective.
4. Display strategic thinking through professional communication channels.
5. Be impactful team members.
6. Analyze cultural aspects of accounting in diverse environments.

# Minor in Accounting

24 units

The accounting minor surveys the principles, theories, and concepts of the accounting profession. Its practical component leads to work assignments in international, national, and local certified public accountant (CPA) firms in students' junior and senior years. The combination of classroom theory and real-world experience also prepares candidates for the CPA examination administered by the various state boards of accountancy in the United States.

## Benefits of Adding a Minor

A minor can help students complement their bachelor's degree and stand out to future employers, helping them expand their employment opportunities as they study an additional area of interest. Complementary minors provide students the opportunity to demonstrate added expertise in their field and specialize in an area that may provide an edge in their job search, and also add knowledge that can be used throughout an individual's career.

## Requirements

No more than three courses in a student's major may count toward this minor.

| Code | Title | Units |
| --- | --- | --- |
| ACCT 120 | Principles of Accounting I | 3 |
| ACCT 121 | Principles of Accounting II | 3 |
| BUSI 110 | Business and Entrepreneurship [1,2] | 3 |
| ACCT 320 | Intermediate Accounting I [F] | 3 |
| ACCT 321 | Intermediate Accounting II [S] | 3 |
| ACCT 325 | Cost Accounting [S] | 3 |
| or ACCT 426 | Auditing Principles I | |
| ACCT 331 | Federal Taxes I [F] | 3 |
| or ACCT 332 | Federal Taxes II | |
| ACCT 336 | Advanced Accounting [F] | 3 |
| **Total Units** | | **24** |

[1]    BUSI 110 waived for all School of Business and Management majors except for B.A. in Economics majors. BUSI 110 should be taken in the freshman or sophomore year, if possible.

[2]    Meets the General Education Civic Knowledge and Engagement requirement.

| | |
| --- | --- |
| F | Offered in Fall only |
| S | Offered in Spring only |
| F/S | Offered in both Fall and Spring terms |
| EF | Offered in Fall in even years |
| ES | Offered in Spring in even years |
| OF | Offered in Fall in odd years |
| OS | Offered in Spring in odd years |

## Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate mastery of key accounting content areas, such as financial reporting, business and economic concepts, auditing, and regulation.
2. Identify and solve accounting or business problems using analytical and critical thinking skills.
3. Compose responses to business decisions that demonstrate a Christian worldview.
4. Express themselves clearly and effectively through professional written and oral communications.
5. Demonstrate the ability to function as an effective business team member.

# Minor in Finance

24 units

The finance minor is for students interested in the stewardship of the financial resources of individuals, corporations, or financial institutions. As future managers, students learn the principles and applications of financial analysis, management, and strategy, and gain experience in portfolio construction and management. This program equips students with the theoretical understanding and practical skills necessary to evaluate and direct decisions regarding the allocation of financial resources among a variety of competing opportunities, with the goal of maximizing the value of the resources managed.

## Benefits of Adding a Minor

A minor can help students complement their bachelor's degree and stand out to future employers, helping them expand their employment opportunities as they study an additional area of interest. Complementary minors provide students the opportunity to demonstrate added expertise in their field and specialize in an area that may provide an edge in their job search, and also add knowledge that can be used throughout an individual's career.

## Experiential Learning Opportunities

As a business club hosted by Azusa Pacific's School of Business and Management and led by a faculty advisor and a board of finance professionals, SIF involves the practical application of classroom knowledge. Students practice hands-on investment strategies and are engaged to manage a portion of the university endowment through fundamental valuation.

Students joining the SIF have the opportunity to compete in the CFA Institute Research Challenge, which is a competition between university-sponsored teams that research a designated publicly traded company, prepare a written report on that company, then present their findings. SIF and the CFA competition give students hands-on training and mentoring in financial analysis.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate knowledge in multiple business disciplines, including management, finance, marketing, accounting and economics.
2. Identify and solve business problems using analytical and critical thinking skills.
3. Demonstrate the ability to evaluate business decisions based on a Christian perspective.
4. Discipline Knowledge: Students will be able to demonstrate knowledge of financial concepts.
5. Discipline Problem Solving/Strategy: Solve core financial problems, or analyze financial situations and provide strategy for effectiveness.

# Honors College

Today's top-performing students are tomorrow's leaders. The Honors College (https://www.apu.edu/honors/) *telos*—its aim, purpose, end—is to liberally educate the next generation of high-achieving, academically motivated Christian leaders, helping them develop the moral and intellectual virtue, the right habits of the heart and of the mind, to become global leaders.

The Honors College is for students who:

- Enjoy spirited conversation and debate
- Want to think deeply about important issues
- Desire to love God with their mind as well as their heart and soul
- Seek to grow in faith, virtue, and leadership
- Love to read and write
- Aspire to stir the hearts and minds of their generation

The Honors College is an opportunity to:

- Engage life's big questions in discussion-based, intellectually stimulating colloquies
- Read classics about leadership, virtue, and faith
- Grow academically in a close-knit community of engaged, intellectual peers
- Learn without exams, textbooks, or busywork
- Complete two majors in four years
- Enjoy writing-intensive courses with writing support groups
- Benefit from "high-impact educational practices"
- Experience an Oxford-style tutorial
- Apply to study away in Oxford
- Reserve classes with priority registration
- Receive a $1,000-per-year Honors scholarship

## Mission

The Honors College offers an innovative, enriching, and challenging Christian liberal education, emphasizing good leadership, moral and intellectual virtue, and the Christian tradition, to high-achieving, academically motivated undergraduate students.

## Application to the Honors College

Students may apply to the Honors College as incoming first-year students, transfer students, or as second-year APU students.

In addition to completing the application form for admission to the university, a candidate must submit written responses to an essay prompt and three letters of recommendation. Applicants are considered on the basis of academic performance, demonstrated leadership ability, and exemplary character.

Admission to the Honors College is selective. Among those accepted and enrolled in the Honors College, the mean high school weighted GPA is 4.2 with an SAT score of 1320, ACT score of 29, or CLT score of 86.

Recipients of a Trustees' (https://www.apu.edu/trusteesscholarship/), President's (https://www.apu.edu/undergraduate-enrollment-services/finances/aid/academic/), Multi-Ethnic Leadership (MEL) (https://www.apu.edu/scrd/scholarship/multiethnic/), or Haggard International (https://www.apu.edu/scrd/scholarship/) scholarship are encouraged to apply for admission. Transfer and second-year APU students may apply for admission and will be considered if space is available.

## Program Overview

### Curriculum

The Honors College curriculum starts with the premise that good leadership requires the cultivation of moral and intellectual virtue—the habits of the heart and mind that enable one to determine what ought to be done and how best to do it. Such habits define one's character. The content of a leader's character is shaped, in part, by his or her answers to life's most important questions: Who are we? Where did we come from? Why are we here? Where are we headed? Who is God, and what is our relationship with Him? What are our responsibilities to others? What is good? What is true? What is beautiful?

The classic works read in the Honors College curriculum perceptively address such questions. Their authors are cartographers, unveiling the lay of the land, providing ways to think and talk about life's big questions.

The small, discussion-based, intellectually stimulating seminars are reading and writing intensive. The courses do not require secondary textbooks or traditional examinations. The selected texts nurture a deep understanding of the Christian faith, foster moral and intellectual virtue, and grapple with life's most important questions. Wrestling with the ideas and arguments in those texts cultivates cognitive, expressive, and civic capacities (critical inquiry, analytical reasoning, problem solving, close reading, textual interpretation, attentive listening, effective language usage as a speaker and writer, and participating in and leading small groups/teams).

In this vein, the Honors College intends to produce scholarly disciples, equipped and worthy to assume positions of leadership, having grown in wisdom, virtue, faith, and eloquence.

There are 9-10 courses in the Honors curriculum (48 units). Completion of all 9-10 courses leads to an honors humanities major. The honors humanities major is not a stand-alone major; Honors Scholars are required to complete an additional major in another field of study.

The honors humanities major satisfies all requirements in the university's General Education program (p. 911). Students pursuing the honors humanities major are generally exempt from all assessment or placement exams associated with General Education. The honors humanities minor satisfies only a portion of the university's General Education requirements (p. 919).

The Honors College offers four ways of participating in the curriculum:

- Pathway One: Honors Humanities Minor (p. 889)
- Pathway Two: Honors Humanities Major (p. 888)
- Pathway Three: Honors Humanities Major for Advanced Degrees (p. 888)
- Pathway Four: National Merit Scholars and Trustees' Scholarship Recipients (p. 888)

## Study Away Opportunities

Study away is a uniquely enriching experience. To encourage Honors students to pursue study away, the Honors College has adopted the following practices:

- Honors students are encouraged to consider the Oxford Semester as a recommended study away option. In that program, it is possible to arrange to read texts similar to those in the Honors curriculum.
- Honors students who study away may substitute courses completed during a semester studying away for up to 6 units of Honors course requirements. The following requirements may be substituted only with the dean's approval: HON 101, HON 340, HON 440, HON 450, and HON 460.
- Honors Humanities majors may utilize the study away course substitution above for up to two semesters, and Honors Humanities minors may substitute study away courses for one required Honors course (6 units).

## Career Opportunities

The honors humanities major and minor are not designed as preparation for a specific career, but rather as preparation for life. Nonetheless, the ability to combine the major/minor with a second major while graduating in four years creates many career opportunities. The program provides a competitive edge for those seeking a great graduate school and produces top candidates for employers who seek deep thinkers and articulate communicators with strong moral character. It also cultivates key skills useful in every field of endeavor: critical thinking, teamwork, oral communication, and written communication.

## Programs

### Major

- Honors Humanities (BA) (p. 888)

### Minor

- Honors Humanities (p. 889)

## Courses

### HON 101, Leadership, 6 Units

A study of classic texts on leadership, including the Old Testament, that tackle key leadership questions- Who is a good leader? What does a good leader do? Is leadership an art or a science? How does one prepare for leadership? What ought to be the aim of good leaders? What is practical wisdom, and how does one obtain it? Are leaders constrained by any boundaries or obligations? Is virtue essential to good leadership? Is vice ever necessary? How should one lead in a situation that is less than the best? What can we learn from exemplary leaders? Taught by a faculty tutor in an integrative, interdisciplinary fashion.
**Prerequisite:** To enroll in the course, must be a student admitted to the Honors Program and be considered a member in "active" status.

### HON 240, Core I, 6 Units

A study of select classic works, including the New Testament, that have shaped our spiritual and intellectual heritage and continue to influence us today. We join the authors in grappling with life's most important questions: Who are we? Where did we come from? Why are we here? Where are we headed? Who is God and what is our relationship with him? What are our responsibilities to others? What is good? What is true? What is beautiful? Taught by a faculty tutor in an integrative, interdisciplinary fashion.
**Prerequisite:** HON 101 or dean consent

## HON 260, Core II, 6 Units

The second in a four course study of select classic works by thinkers who have shaped our spiritual and intellectual heritage and who continue to influence us today. We join them in grappling with life's most important questions: Who are we? Where did we come from? Why are we here? Where are we headed? Who is God and what is our relationship with him? What are our responsibilities to others? What is good? What is true? What is beautiful? Taught by a faculty tutor in an integrative, interdisciplinary fashion.
**Prerequisite:** HON 240 or dean consent

## HON 280, Core III, 6 Units

The third in a four course study of select classic works by thinkers who have shaped our spiritual and intellectual heritage and continue to influence us today. We join the authors in grappling with life's most important questions: Who are we? Where did we come from? Why are we here? Where are we headed? Who is God and what is our relationship with him? What are our responsibilities to others? What is good? What is true? What is beautiful? Taught by a faculty tutor in an integrative, interdisciplinary fashion.
**Prerequisite:** HON 260 or dean consent

## HON 300, Core IV, 6 Units

The fourth in a four course study of select classic works by thinkers who have shaped our spiritual and intellectual heritage and continue to influence us today. We join the authors in grappling with life's most important questions: Who are we? Where did we come from? Why are we here? Where are we headed? Who is God and what is our relationship with him? What are our responsibilities to others? What is good? What is true? What is beautiful? Taught by a faculty tutor in an integrative, interdisciplinary fashion.
**Prerequisite:** HON 280 or dean consent

## HON 340, Nature, 6 Units

A philosophical and historical review of the rise of modern natural and social science, the kinds of questions science answers, how it answers them, and the limits and potential of scientific inquiry. The course highlights major revolutions in the fields of biology, chemistry, physics, astronomy, psychology, and sociology as well as ensuing debates about the relationship between religion and science.
**Prerequisite:** HON 101 and HON 240 or dean consent

## HON 360, Democracy, 3 Units

A study of the principles and practices of self-government in America. Taught by a faculty tutor in an integrative, interdisciplinary fashion.
**Prerequisite:** HON 101 and HON 240 or dean consent

## HON 380, Wisdom, 3 Units

A study of Old Testament wisdom literature and its teachings about moral character as well as a comparative investigation of the Apocrypha and Confucian, Daoist, Buddhist, Egyptian, Babylonian, and Greek wisdom texts. Taught by a faculty tutor in an integrative, interdisciplinary fashion.
**Prerequisite:** HON 101 and HON 240 or dean consent

## HON 440, Oxbridge Tutorial I, 3 Units

This tutorial is the first half of a year-long course devoted to exploring a single seminal text or the collected work of a single author. Students engage in self-directed research, learning on their own and thinking for themselves. Tutorial sessions are an opportunity for students to show the benefits of their independent work, especially their ability to read, comprehend, and interpret seminal texts and then analyze, appraise, and critique the ideas and arguments therein. In their papers and in conversations, students also demonstrate their ability to share their learning orally and in writing. This course may be repeated with dean's permission.
**Prerequisite:** HON 300 or dean's approval

## HON 450, Oxbridge Tutorial, 6 Units

This tutorial is an entire semester devoted to exploring a single seminal text or the collected work of a single author. Students engage in a self-directed research, learning on their own and thinking for themselves. Tutorial sessions are an opportunity for students to show the benefits of their independent work, especially their ability to read, comprehend, and interpret seminal texts and then analyze, appraise, and critique the ideas and arguments therein. In their papers and in conversations, students also demonstrate their ability to share their learning orally and in writing. This course may be repeated with dean's permission.
**Prerequisite:** HON 300 or dean's approval

## HON 460, Oxbridge Tutorial II, 3 Units

This tutorial is the second half of a year-long course devoted to exploring a single seminal text or the collected work of a single author. Students engage in self-directed research, learning on their own and thinking for themselves. Tutorial sessions are an opportunity for students to show the benefits of their independent work, especially their ability to read, comprehend, and interpret seminal texts and then analyze, appraise, and critique the ideas and arguments therein. In their papers and in conversations, students also demonstrate their ability to share their learning orally and in writing. This course may be repeated with dean's permission.
**Prerequisite:** HON 440 or dean's approval

## HON 497, Readings, 1-6 Units

Consists of a program of study concentrating on assigned readings, discussions, and writing arranged between, and designed by, a student of upper-division standing and a full-time professor. An independent study fee is assessed for each enrollment in this class.

## HON 499, Honors Thesis, 3 Units

This course provides honors students an opportunity to design, research, and write an honors thesis. The Senior Honors Thesis is the culmination of the Honors College experience, emphasizing critical thinking, writing and independent, creative work. Since thesis constitutes three to six semester hours of the baccalaureate degree program, it should reflect a significant time commitment, be of high quality and demonstrate personal intellectual growth. The thesis topic may relate to the student's major, or be selected from a topic within the humanities. The standards of scholarship of the selected discipline apply, and the written portion of the thesis should conform to the style and format of the discipline. The thesis course provides experience in writing a longer research paper, and prepares you for further work at the graduate and professional level.

**Prerequisite:** Honors College, Junior or Senior standing

# BA in Honors Humanities

## Pathway Two: Honors Humanities Major (https://www.apu.edu/honors/programs/humanities-major/)

This pathway is for students accepted into the Honors College as incoming freshmen and who wish to complete two majors: honors humanities and another major within any college or school on campus.

- Requires 48 units.
- Allows for completion of two academic majors while still graduating in four years.
- Results in an honors humanities major that complements majors in all other fields of study.
- Provides a university-approved equivalency of the entire General Education program.
- Leads to "Honors Scholar" designation.
- Includes an Honors College scholarship for all four years, early class registration privileges, and the opportunity to live in the freshman Honors living-learning community.
- Grants participation in the college's signature Oxbridge tutorial.

## Pathway Three: Honors Humanities Major for Advanced Degrees

This pathway is for students accepted into the Honors College as incoming freshmen who wish to complete two majors (honors humanities and another major within any college or school on campus) and who intend to pursue an advanced degree in a prestigious graduate or professional school.

- Requires 59 units.
- Entails an Honors Thesis (Honors College or discipline-based).
- Expects mastery of a foreign language at the intermediate level.
- Allows for completion of two academic majors while still graduating in four years.
- Results in an honors humanities major that complements majors in all other fields of study.
- Provides a university-approved equivalency of the entire General Education program.
- Leads to "Honors Scholar" designation.
- Includes an Honors College scholarship for all four years, early class registration privileges, and the opportunity to live in the freshmen Honors living-learning community.
- Grants participation in the college's signature Oxbridge tutorial.

## Pathway Four: National Merit Scholars and Trustees' Scholarship Recipients

This is a unique pathway by invitation only for National Merit Scholars and Trustees' Scholarship recipients that allows them to design an individualized second major.

- Requires 120 units.
- Results in an honors humanities major that complements majors in all other fields of study.
- Permits a wholly individualized second major (with approval of the Honors College dean and the respective department chairs).
- Provides a university-approved equivalency of the entire General Education program.
- Entails an Honors Thesis (Honors College or discipline-based).
- Expects mastery of a foreign language at the intermediate level.
- Leads to "Distinguished Honors Scholar" designation.
- Includes an Honors College scholarship for all four years, early class registration privileges, and the opportunity to live in the freshmen Honors living-learning community.
- Grants participation in the college's signature Oxbridge tutorial.

## Requirements

| Code | Title | Units |
|---|---|---|
| HON 101 | Leadership | 6 |
| HON 240 | Core I | 6 |
| HON 260 | Core II | 6 |
| HON 280 | Core III | 6 |
| HON 300 | Core IV | 6 |
| HON 340 | Nature | 6 |
| HON 360 | Democracy | 3 |
| HON 380 | Wisdom | 3 |
| Select one of the following options: | | 6 |
| HON 450 | Oxbridge Tutorial | |
| or | | |
| HON 440 & HON 460 | Oxbridge Tutorial I and Oxbridge Tutorial II | |
| **Total Units** | | **48** |

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Critically analyze primary classic texts and the ideas and arguments therein that contribute to or challenge the Christian faith.
2. Appraise important and influential Christian and non-Christian efforts to address central human questions.
3. Compare and contrast the contributions of various authors from different eras and cultures to our understanding of good leadership and moral/intellectual virtue.
4. Write lucid, concise, cogent, and in-depth analyses of texts, ideas, and arguments.
5. Present clear, well-organized, engaging, persuasive, and substantive oral contributions in group settings.
6. Contribute competently and constructively in small-group/team settings.

# Minor in Honors Humanities

30 units

## Pathway One: Honors Humanities Minor

The Honors humanities minor comprises 30 units of Honors courses and can be completed in five semesters. The minor fulfills 12 requirements (p. 932) in the university's required General Education program; students select which requirements are fulfilled from among the following: First-Year Seminar, Writing 1, Writing 2, Writing 3, Oral Communication, Humanities: History, Humanities: Fine Arts, Humanities: Literature, Philosophy, Intercultural Competence, Civic Knowledge and Engagement, Theology, Integrative and Applied Learning, Christian Ministry, Luke/Acts, or Exodus/Deuteronomy. All remaining General Education requirements (p. 919) must be completed in addition to the minor.

This is an ideal pathway for students who join the Honors College as sophomores and for transfer students.

- Requires 30 units of Honors courses, including Leadership, Core I, Core II, Core III, and Core IV.
- Allows completion in five semesters.
- Results in an Honors humanities minor.
- Leads to "Honors Scholar" designation.
- Includes an Honors College scholarship for five semesters, early class registration privileges, and the freshman Honors living-learning community.
- Transfer students admitted into the Honors College having already completed 60 or more units may complete the Honors humanities minor with 24 units, taking four of the required five classes.

## Requirements

| Code | Title | Units |
| --- | --- | --- |
| HON 101 | Leadership | 6 |
| HON 240 | Core I | 6 |
| HON 260 | Core II | 6 |
| HON 280 | Core III | 6 |
| HON 300 | Core IV | 6 |
| **Total Units** | | **30** |

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Critically analyze primary classic texts and the ideas and arguments therein that contribute to or challenge the Christian faith.
2. Appraise important and influential Christian and non-Christian efforts to address central human questions.
3. Compare and contrast the contributions of various authors from different eras and cultures to our understanding of good leadership and moral/intellectual virtue.
4. Write lucid, concise, cogent, and in-depth analyses of texts, ideas, and arguments.
5. Present clear, well-organized, engaging, persuasive, and substantive oral contributions in group settings.
6. Contribute competently and constructively in small-group/team settings.

# Office of the Provost

The Office of the Provost guides the strategic academic vision of the university and oversees all academic matters, including hiring faculty, working with faculty to develop new programs and initiatives, and setting academic policy.

The Office of the Provost has administrative oversight of the Center for Vocational Ministry (https://www.apu.edu/vocational-ministry/), along with an academic program, the BA in Interdisciplinary Studies (p. 910).

## Programs

The following program is administered by the Office of the Provost:

- BA in Interdisciplinary Studies (p. 910)

# Azusa Pacific Seminary

## Accreditation

- All Azusa Pacific University programs are accredited by the WASC Senior College and University Commission (WSCUC). (https://www.wscuc.org/)
- Azusa Pacific Seminary is accredited by the The Association of Theological Schools (ATS) (https://www.ats.edu/).

**Learn more about Azusa Pacific Seminary. (https://www.apu.edu/seminary/)**

## Mission Statement

Azusa Pacific Seminary, in keeping with its commitment to the centrality of Jesus Christ and the authority of Scripture, prepares men and women for effective, practical ministry in the Church throughout the world by promoting the spiritual, personal, and vocational development of students and by extending theological knowledge through academic inquiry, research, and writing for the glory of God.

## Spiritual Life

The faculty of Azusa Pacific Seminary believe that the growth of the student's spiritual life is foundational to effective ministry. Accordingly, the development of spiritual life is integral to every course. In addition, there are opportunities for the seminary community to pray together and share experiences in Jesus Christ. Students and faculty are encouraged to attend university chapels as well as special services and lectures.

## Experiential Learning

Azusa Pacific Seminary utilizes an experiential learning model. The Master of Divinity (MDiv), Master of Arts in Pastoral Studies (MAPS), and the Doctor of Ministry (DMin) programs intentionally integrate biblical, theological, and ministerial studies with ministerial practice. Mentored ministry courses form a central component in the MDiv and MAPS programs and facilitate the integration of academic learning and experience in ministry. Students are required to devote at least eight hours per week to some form of supervised ministry for the duration of their master's degree program.

## Online Courses

Azusa Pacific Seminary offers several courses online. Maximum enrollment in each online course is 20 students; enrollment is granted on a first-come, first-served basis.

## Korean Program

The Korean Program offers courses in Korean (directly or translated) for the various graduate degree programs in Azusa Pacific Seminary at the Azusa Campus and the Orange County Regional Campus. This program seeks to make an impact for Christ by equipping Korean pastors and lay leaders to serve as ministers, missionaries, and leaders in the Korean community throughout the world. Blending Korean culture with the principles of God's Word, the program provides academic excellence coupled with practical ministry training. Daniel Newman, PhD, is the director of the Korean Doctor of Ministry program; Linda Pyun, PhD, is the director of the Korean master's degree programs. For more information, call (626) 857-2200.

## Programa Hispano

Azusa Pacific Seminary is committed to equipping leaders for the Hispanic church of the 21st century. With that focus in view, the seminary provides Hispanic students a graduate theological education in a linguistic and cultural dynamic that enhances the richness of the Hispanic worldview in the context of mainstream American culture.

The Master of Arts in Pastoral Studies (48 units) and the Master of Divinity (74 units) programs are offered in a bicultural setting. Classes are taught in Spanish or, on rare occasion, in English with a translator. Hispanic students who understand both languages gain an expanded worldview that will advance their witness in church leadership. Enrique Zone, EdD, associate dean, is director of Programa Hispano (https://www.apu.edu/seminary/programa-hispano/). For more information, call (626) 815-5448.

## El Centro Teológico Hispano (CTH)

Dedicated to fostering the field of Hispanic church studies, El Centro Teológico Hispano (https://www.apu.edu/seminary/resources/centrohispano/) at Azusa Pacific Seminary offers unique courses, guest speakers, and relationship-building opportunities. It also provides a place for pastors and students to meet and discuss current issues, gain diverse training, and tap into multicultural resources that enable Hispanics to adequately minister within their particular contexts. For more information about El Centro Teológico Hispano, contact Enrique Zone, EdD, associate dean, at (626) 387-5851 or ezone@apu.edu.

### El Centro Teológico Hispano (CTH) Advisory Members

Agustin Barajas, MDiv, Senior Pastor, Eagle Rock Victory Outreach Church; Overseer, Liberia Victory Outreach Church

Aureliano Flores, Pastor Emeritus, Church of the Redeemer, Assembly of God

Eddie Ruano, Senior Pastor, Azusa Foursquare Church

Edgar Mohorko, MA, CEO, Social Outreach Service; President, National Police Clergy Council; Youth Outreach/Gang Intervention Consultant; Senior Pastor, Messiah Foursquare Church

Eduardo Font, PhD, President, Alberto Motessi Escuela de Evangelismo

Gladys Trejo, MDiv, Assistant Pastor, Comunidad Cristiana, Iglesia del Nazareno

Heliberto Cayetano, MDiv, Director, Hispanic Ministry Church of the Sacred Heart

Hugo Melvin Aldana Jr., Senior Pastor, Lynwood Grace Church; Hispanic Coordinator, Anaheim District Church of the Nazarene

Rodelo Wilson, DMin, President, Asociación Teológica Hispana

## Friends Center

The Friends Center (https://www.apu.edu/friendscenter/) is the seminary education and ministry training program of Evangelical Friends Church Southwest at Azusa Pacific Seminary. The Friends Center's mission is to make an eternal impact for Christ by equipping men and women to serve internationally as ministers, missionaries, and leaders. The program highlights the Evangelical Friends' theological tradition with its emphasis on the primacy of Scripture as the revelation of God's Word. The center provides an excellent academic environment for students seeking a scholarly

foundation for ministry. The Friends Center also provides leadership development to Friends churches by overseeing a Certificate of Leadership Ministry through the Friends churches. For more information, call Kent Walkemeyer, DMin, director, at kwalkemeyer@apu.edu.

## Library and Information Resources

The James L. Stamps Theological Library (https://www.apu.edu/library/stamps/), located in the Duke Academic Complex, houses the university library collections in the areas of biblical studies, theology, philosophy, church history, and ethics. The collection numbers approximately 60,000 volumes and is complemented by collections in the Marshburn Memorial Library and Darling Library, also at the Azusa campus.

The Stamps Library maintains special collections for denominations with historic ties to the university, including the Church of God – Anderson, Free Methodist, Friends, and Salvation Army.

The Stamps Library places a high priority on making available the latest information technology, including more than 100 licensed databases and a variety of CD-ROM databases in the areas of biblical studies and languages, theology, and church history. Access to many of the resources is available through the Internet. Current journal holdings exceed 13,500 titles.

Consortial arrangements allow students to access the rich theological collections of the seminaries in the Southern California Theological Library Association (SCATLA) (https://www.atla.com/learning-engagement/rg/scatla/), collections of libraries throughout the Inland Empire (IEALC), and through the Link+ system, which connects the APU libraries with libraries throughout the state of California. Additionally, a contractual arrangement exists with the Claremont School of Theology Library.

The theological librarian serves on the faculties of the APU libraries and Azusa Pacific Seminary, serves as the subject specialist, and oversees collection development for the theological disciplines. Training in the use of the resources is available to classes and by appointment.

## Advanced Standing

- MDiv students may petition for up to 18 units of Advanced Standing from upper-division undergraduate work in religion.
- The number of core courses in any department that may be replaced by Advanced Standing is limited to two.
- MAPS students may petition for up to 12 units of Advanced Standing from upper-division undergraduate work in religion.
- Prior to formal admission, the Request for Advanced Standing Petition form should be completed.
- All Advanced Standing examinations are administered in a proctored setting.
- Students must pass examinations for advanced standing within 12 months of their admission date. If the student passes the exam(s), he/she will not be required to pay full tuition for those units.
- A student may repeat Advanced Standing examinations one time without further charge.
- Courses in which a grade of *B-* or lower was earned may not be used for Advanced Standing.
- Students admitted under the exceptional category may not petition for Advanced Standing units.
- Undergraduate work must be from a regionally accredited college or university.

## Transfer Units

A student may petition to transfer in up to 48 units for the MDiv, less any Advanced Standing units (e.g., 30 units transfer and 18 units Advanced Standing or any other combination totaling 48 units), and up to 32 units for the MAPS, less any Advanced Standing units, from other regionally or ATS-accredited graduate degree programs. Units transferred are limited to one half of an earned master's degree. A minimum of 26 units for the MDiv and 16 units for the MAPS must be completed at Azusa Pacific Seminary.

## Advancement to Candidacy

In order for students to progress beyond the initial courses of the master's degree program, they must be granted candidacy. Candidacy is granted by faculty approval upon the satisfactory completion of 16 units of coursework with a minimum 2.7 grade-point average and evaluation of each student's personal growth and commitment to the mission and goals of Azusa Pacific Seminary.

## Programs

### Master's

- Master of Divinity (MDiv) (p. 907)
- Master of Divinity (MDiv): Biblical Studies (p. 908)
- Master of Arts in Pastoral Studies (MAPS) (p. 903)

### Doctoral

- Doctor of Ministry (DMin) (p. 901)

# Courses

## GBBL 500, Elements of Greek Exegesis, 4 Units

Students who are readers of the English Bible are introduced to the syntax of New Testament Greek for a better understanding of the translation process, the principles of exegesis, and the exegetical reference tools available for interpreting the New Testament. This class will support and reinforce practices learned in GBBL 511. Either this course or GBBL 510 New Testament Greek is a prerequisite to New Testament courses (GBBL 512 Gospels Witness to Christ, GINS 542 Gospels and Christology, and GBBL 532 Paul the Pastor and Theologian).

## GBBL 501, Torah and Prophets: Exodus-2 Kings, 4 Units

This course follows GBBL 511 and continues the study of the Old Testament as Christian Scripture by examining Exodus through 2 Kings with a focus on the women and men who formed and preserved Israel. The prophets and prophetic books that relate to this period will also be read and interpreted.
**Prerequisite:** GBBL 511

## GBBL 510, New Testament Greek I, 4 Units

This course introduces the basic vocabulary, morphology, and syntax of New Testament Greek for the purpose of learning to read and interpret the New Testament as a foundation for theological study and pastoral practice.

## GBBL 511, Biblical Interpretation: Exploring Genesis, 4 Units

Students in this course are introduced to the Old Testament and the inductive method of interpretation through an exploration of the book of Genesis, practicing close readings of the text and paying attention to genre and historical and literary contexts. Course material also helps seminarians participate in the dialogue between science and Scripture, including theological discussions about the origins of the physical universe and humankind.

## GBBL 512, The Gospels' Witness to Christ, 4 Units

This course examines the life and teaching of Jesus portrayed in the Gospels, exploring the historical, literary, and theological features of their witness through the inductive method of Bible study, enhanced by the methods of contemporary Gospel criticism.
**Prerequisite:** GBBL 511

## GBBL 520, New Testament Greek II, 4 Units

This course continues the study of the basic vocabulary, morphology, and syntax of New Testament Greek begun in GBBL 510 New Testament Greek I.
**Prerequisite:** GBBL 510

## GBBL 522, The Gospel of Mark, 4 Units

Students study the Gospel of Mark with attention to developing skill in the methods of Gospel criticism and engaging the Gospel's implicit theology and teaching about the Christian life.
**Prerequisite:** GBBL 511

## GBBL 530, Hebrew I, 4 Units

This course introduces the basic vocabulary, morphology, and syntax of biblical Hebrew for the purpose of learning to read basic Hebrew narrative and gaining the tools for interpreting the Old Testament as a foundation for biblical study. It provides pastors and teachers with tools for greater insight into the biblical message of the Old Testament.

## GBBL 532, Paul the Pastor and Theologian, 4 Units

Through the examination of the Apostle Paul's letters, students in this course study his pastoral work in the establishment and care of churches and his formative contribution to the theology of the Church.
**Prerequisite:** GBBL 511

## GBBL 540, Hebrew II, 4 Units

This course serves as a continuation of the introduction to the basic vocabulary, morphology, and syntax of biblical Hebrew begun in Hebrew I.

## GBBL 541, Exegetical Study of the Greek or Hebrew Text, 4 Units

Students are introduced to the basic principles and practice of Greek or Hebrew exegesis, through a detailed study of selected passages in the Greek text of the New Testament or the Hebrew Scriptures. Attention is given to methodological and bibliographical resources.

## GBBL 551, Geographical and Historical Setting of the Bible, 4 Units

This comprehensive course of study emphasizes the geography, history, and archaeology of Israel in biblical times, as well as introducing the post-biblical history of the land, the Holocaust, and the complex social issues facing the modern nation of Israel. The course includes a 10-day travel tour of the lands of the Bible.

## GBBL 552, Epistle to the Romans, 4 Units

Students study Paul's letter to the Romans, with attention to developing skill in the methods of biblical exegesis and engaging the theological and ethical implications of Paul's thought.
**Prerequisite:** GBBL 511

## GBBL 561, Psalms as Resource for Ministry, 4 Units

The psalms of ancient Israel provide models of appropriate human response to the breadth of life as lived before God. In a strange but hopeful way, these human songs also become the source of the Divine Word of guidance, salvation, and grace. The course investigates the historical and literary character of the Hebrew psalms as well as ways these compositions can be effectively and appropriately incorporated into a life of ministry.
**Prerequisite:** GBBL 511

## GBBL 562, Biblical Foundations of Worship, 4 Units

This course is a study of the worship of the believing communities of the Bible and early Christianity within the context of the ancient Near East and the Greco-Roman world, with special attention to its historical expressions and theological foundations.
**Prerequisite:** GBBL 511

## GBBL 570, Directed Research, 1-4 Units

This is a course of independent research directed by the instructor.

## GBBL 571, Readings in the Hebrew Text of the Pentateuch, 1-4 Units

Selections from the Pentateuch are chosen according to the students' needs and interest. Attention is devoted to improving the ability to read the Hebrew text and knowledge of advanced Hebrew grammar. The course focuses on the documentary hypothesis and traditional-historical criticism.

## GBBL 572, Readings in the Greek Text of the Gospels, 1-4 Units

Selected passages from the Greek text of the Gospels are examined, and special attention is given to the tools of source, form, redaction, and narrative criticism.

## GBBL 581, Readings in the Hebrew Text of the Prophets, 1-4 Units

Selections from the Hebrew Bible are chosen according to the students' needs and interests. Attention is devoted to improving the ability to read the Hebrew composed in poetry. The role of the prophets in the life of Israel is investigated in terms of their preparation of the people for the coming of God's Kingdom in Christ.

## GBBL 582, Readings in the Greek Text of the Epistles, 1-4 Units

Selected passages from the Greek text of the Epistles are examined and special attention is given to rhetorical criticism.

## GBBL 590, Thesis, 4 Units

This is a course of independent study in which the student prepares a thesis supervised by the instructor.

## GBBL 591, Isaiah, 4 Units

This course comprises a study of the canonical book Isaiah. The life and ministry of Isaiah of Jerusalem are investigated. Then the other sections of Isaiah are studied. The concepts of Isaiah 40-55 receive special emphasis, particularly the view of God, God's Word, the messages of salvation, and the role of the servant. Some attention is given to the major themes of Isaiah 56-66. The role of this canonical book in preparation for the coming of God's Kingdom in Christ receives special attention. His message of hope laid the foundation for the early Christians to understand God's work in Jesus. Thus, of all the books of the Old Testament, Isaiah is the most crucial for understanding the work of God in Christ.
**Prerequisite:** GBBL 511

## GBBL 599, Readings in Biblical Studies, 1-4 Units

This is a course of independent study supervised by the instructor.

## GBBL 611, Old Testament Seminar, 4 Units

Topics with current and/or continuing significance for Old Testament studies, critical methods, and advanced research techniques are emphasized.
**Prerequisite:** GBBL 511

## GBBL 612, New Testament Seminar, 4 Units

Topics that have current and/or continuing significance for the study of the New Testament are explored with emphasis on the methods of advanced research.
**Prerequisite:** GBBL 511

## GBBL 621, Jeremiah, 4 Units

The student undertakes a thorough investigation into the message of Jeremiah. This great prophet worked during the years of great turmoil leading up to the exile. A study of his life, confessions, and struggles leads the student into a thorough acquaintance with the events of the Middle East of the 6th century B.C. Also, the material in Jeremiah provides the student with the opportunity to discover the inner life of a prophet who faced tremendous opposition.
**Prerequisite:** GBBL 511

## GBBL 622, The Church of the First Century, 4 Units

Students undertake an investigation of the emergence of the Christian Church in the first century A.D. through an examination of the Acts of the Apostles, using the tools of literary, historical, sociological, and theological analysis.
**Prerequisite:** GBBL 511

## GBBL 631, Early Judaism: The Writings and the Dead Sea Scrolls, 4 Units

This course examines the Dead Sea Scrolls, the biblical books, and extra-biblical resources produced by the Jews of the Persian, Greek, and Roman periods. These sources demonstrate the processes involved in establishing post-exilic Jewish communities, authoritative texts, synagogue and home rituals, social practices, and interpretive discourses, which form a foundation for the early Jesus movement, the New Testament, Christianity, rabbinic Judaism, and the Judaisms of today.
**Prerequisite:** GBBL 511

## GBBL 632, The New Testament World, 4 Units

This course gives students an encounter with Jewish and Greco-Roman primary texts from the Hellenistic Age in order to gain an understanding of the history, religion, and culture that formed the milieu of the New Testament.

## GBBL 641, Theological Themes of the Old Testament, 4 Units

This course investigates contemporary approaches to Old Testament theology. These methods are studied and critiqued. Specific theological themes are pursued, including God's self-revelation, God's holiness, justice, wisdom, love, the view of humans, sin and atonement, praise, and lament. Very important is a consideration of the relationship of both testaments for practicing biblical theology.
**Prerequisite:** GBBL 511

## GBBL 651, Scripture and Canon: The Formation of the Bible, 4 Units

This course traces how the Jewish and Christian Scriptures were produced, preserved, transmitted, authorized, and canonized in living communities of faith. It explores how inspiration and revelation-as well as social structures, historical events, and politics-feature in the development and persistence of a sacred canon.

## GBBL 652, Geographical and Historical Setting of the Hellenistic World, 4 Units

This course explores geography, history, culture, and archaeology of the Hellenistic world as the setting in which the New Testament was written, and includes a tour of sites in the Aegean region of Greece and Turkey.

## GBBL 661, Women in the Bible and Church History, 4 Units

This course is an inductive survey of women's roles in the Bible and biblical discourse regarding women. It also survey's women's contributions to church history and theology. This in-depth examination of women in biblical and interpretive traditions, church history, and theology informs students' understanding of the vocations of women serving God today.

## GDMN 704, Research and Design, 4 Units

Students are introduced to the practical application of the doctor of ministry coursework as it relates to their needs and ministerial context. Special attention is given to developing a lifelong appreciation of active discovery. Focus is on tools for study and research, developing a design proposal for the D.Min. project, and the methods of research and writing.

## GDMN 710, Christian Spirituality, 4 Units

The spiritual dynamics involved in the transformation of the human personality are studied in the course. Topics covered include biblical, theological, historical, psychological, and sociological understanding of the human condition and how holy habits are formed. Special attention is given to how spiritual formation applies to situations of ministry.

## GDMN 720, Theology for Spiritual Formation, 4 Units

Students explore the ways in which the disciplines of theology, the humanities, and the behavioral sciences can be integrated and applied to the task of ministry. Spiritual formation of individuals and communities into the way of Christ, the imitatio Christi, is the focus of the integration process; practical application is made to congregational life.

## GDMN 730, Church Renewal, 4 Units

Students consider the dynamics of spiritual renewal through an investigation of renewal movements among the people of God from the pre-exilic prophets in ancient Israel to contemporary movements in the Christian church in the 20th century. The analysis draws on the perspectives of theology, psychology, and sociology, with a focus on the ways in which these movements enhance or inhibit character formation. Attention is given to the application of the dynamics of renewal to contemporary situations.

## GDMN 740, Spiritual Leadership, 4 Units

Students uncover the dynamics of leadership in the context of Christian community, using models developed from the humanities and behavioral sciences as well as the theological disciplines to determine the ethnic and cultural variables in leadership practice. Special emphasis is given to the effect of different leadership styles on growth toward Christ-likeness, and application is made to practical pastoral settings.

## GDMN 750, Civic Spirituality, 4 Units

Students uncover the dynamics of spiritual formation within the context of urban life and ministry, integrating issues of social justice and personal piety. Particular attention is given to the African-American, Asian-American, Asian, Hispanic-American, and Hispanic experience, and practical application is made to the ministerial context of the individual student.

## GDMN 752, Christian Spiritual Formation I, 3 Units

The dynamics of a life in the Kingdom of God are investigated in this first of a four-course sequence on authentic discipleship to Jesus Christ. This is built around the following three themes: 1) spiritual formation into Christ-likeness as God's intention for humans - that it is possible and suited to human nature; 2) living in the Kingdom of Heaven here and now; and 3) application of these understandings from Christ to the realities of the human self and actual existence in our circumstances.

## GDMN 754, Christian Spiritual Formation II, 3 Units

Living in the divine conversation and character is investigated in the second of a four-course sequence on authentic discipleship to Jesus Christ. This is built around the following three themes: 1) learning how to hear God; 2) Christian spiritual disciplines - concept and history; and 3) salvation is a life, with special emphasis given to the "Fruit of the Spirit" as the foundation and framework of eternal living.
**Prerequisite:** GDMN 752

## GDMN 756, Christian Spiritual Formation III, 3 Units

The great traditions of Christian faith through Scripture, literature, and praxis are investigated in the third of a four-course sequence on authentic discipleship to Jesus Christ. The course is built around the following three themes: 1) gaining an experiential understanding of the six great traditions of Christian faith; 2) coming to a deeper appreciation of the importance of classical devotional literature; and 3) learning to better experience God in Scripture while developing a deeper appreciation for the Bible's presentation of 15 ways of 'being with' God.
**Prerequisite:** GDMN 754

## GDMN 758, Christian Spiritual Formation IV, 3 Units

Living as an apprentice to Jesus is investigated in the fourth of a four-course sequence on authentic discipleship to Jesus Christ. This is built around the following three themes: 1) being with God in prayer; 2) discipleship as apprenticeship; and 3) spiritual formation in all life's roles.
**Prerequisite:** GDMN 756

## GDMN 760, Christian Spirituality and Modern Technology, 4 Units

Students study the theory and practice of modern technology in the context of Christian ministry, including practical experience with the various aspects of the information superhighway (e.g., computers and peripherals, software, network services, and email). Attention is given to ways in which the technological society enhances or inhibits spiritual formation in individuals and communities.

## GDMN 762, Spiritual Practices in the Church, 4 Units

This course covers the biblical, theological, and historical foundation for the classical disciplines of the spiritual life as a means of grace through which the human person exercises relative independent will to bring body, mind, and spirit into a cooperative relationship with God. Special attention is given to prayer as the foundational discipline of engagement, the via positive, and its practice in the prayer life of the individual and in the life of the congregation.

## GDMN 764, History and Theology of Worship, 4 Units

This course documents the history and theology of worship with particular attention given to worship as a means for the cure of souls. The rationale and practice of both liturgical and free church worship is considered along with attention to various musical forms. Attention is also given to the application of the insights of this study to the ministerial context of the individual student.

## GDMN 768, Urban Immersion, 4 Units

Students analyze the impact of urban changes upon the work of church planting and congregational life through an exposure to urban culture using the university's network of relationships to churches, institutions, and agencies throughout the greater Los Angeles area.

## GDMN 772, Contemplative Spirituality, 4 Units

This course explores the scriptural and historical background of contemplative spirituality in order to experience its dimensions and practices today. Special attention is focused on how one's relationship with God, character formation, and mission enrich not only the personal life of the individual but also the Church and its mission.

## GDMN 782, Scripture: Its Spirituality and Proclamation, 4 Units

The Christian Scriptures exist as a great variety of manuscript and printed texts. They express a spectrum of content in many different genres, and they have evoked an enormous range of thoughtful responses. Viewed from the perspective of God's community, all of these aspects are manifestations of the work of God's Spirit. In this course students will seek to better understand the spiritual phenomena collectively known as Christian Scripture. Students will explore the relevance of the spiritual dimensions of Scripture to Christian ministry.

## GDMN 790, Ministry Project, 4 Units

Students work with their D.Min. project committee in developing a doctoral-level report based on critical reflection concerning a specific problem or issue in the practice of ministry.

## GDMN 792, Ministry Project Continuation, 2 Units

Students who do not complete their DMin project during the semester they are enrolled in GDMN 790 Ministry Project must enroll for subsequent semesters in this course.
**Prerequisite:** GDMN 790

## GDMN 797, Seminar in Ministry, 4 Units

The course covers topics of pressing concern in Christian ministry, including spiritual formation, pastoral leadership, Church renewal, and practical theology.

## GDMN 799, Readings in Doctoral Ministry, 1-4 Units

This is a course of Independent Study supervised by the instructor.

## GINS 507, The Bible and Preaching, 4 Units

This course applies the practice of Biblical interpretation to sermon preparation and delivery. As an integrative course, students are supervised in the study of Scripture and the development of effective preaching skills.
**Prerequisite:** GBBL 511

## GINS 526, Ethics and Worship, 4 Units

The liturgical foundations for Christian ethics are covered in this course. The course explores how Christian practices like congregational gathering, prayer, the Lord's Supper, Sabbath, baptism, funerals, marriage, celibacy, fasting, reading of scripture, preaching, and confession form us into a people who can respond to issues such as social justice, poverty, sexuality, violence, and racism.

## GINS 542, The Gospels and Christology, 4 Units

This course examines the development of the Gospel traditions and Christological traditions in the early Church, and their significance to Christian beliefs, values, and practices.
**Prerequisite:** GBBL 511

## GINS 599, Readings in Integrative Studies, 1-4 Units

This is a course of Independent Study supervised by the instructor.

## GURS 589, Urban Immersion L.A., 1 Unit

Urban Immersion is an experiential and reflective field education encounter that explores a theological perspective amidst the urban realities of Los Angeles. Participants examine the relationship and exchange between social life and faith in urban spaces, and special attention is given to the Kingdom impact on urban migration, marginalization, and adaptation. Students meet at the Los Angeles Regional Site and visit designated locations in the city for their immersion experiences.

## GMIN 501, Foundations of Youth Ministry, 4 Units

Students are exposed to selected theologies that provide the underpinnings of various youth ministries. The course includes discussion regarding current adolescent culture and issues and contemporary youth ministry issues. Each student is required to integrate the course content into the various projects assigned, demonstrating a thorough understanding of the course content.

## GMIN 502, Discipleship and Evangelism of Youth, 4 Units

This course promotes a biblical theology of discipleship and evangelism and its practical application toward youth ministry. Extensive focus is given to being and making disciples and evangelizing others. Students are required to integrate the course content into the various projects assigned, which shows a depth of understanding of principles taught in the course.

## GMIN 503, Multicultural Youth Ministry, 4 Units

This course is a study of contemporary social problems theory with special emphasis on cross-cultural perspectives as found in the urban/multicultural youth environment. Complex issues emerging from multicultural youth perspectives of various ethnicities are explored in the light of contextually relevant church ministry.

## GMIN 504, Pastoral Counseling of Youth, 4 Units

This course introduces students to the pastoral counseling field and assists with the development of specific skills and competencies in the counseling process with adolescents and their families. It also builds biblical and theological foundations for pastoral counseling with adolescents and gives students an opportunity to engage in an actual pastoral counseling experience.

## GMIN 505, Ministry Life and Leadership, 4 Units

This foundational ministry course equips students for congregational leadership in its many forms. Students analyze approaches to leadership through the lenses of Scripture, theology, the Church, and leadership theory, all while attending to how various cultural contexts shape the ways we engage and apply these ideas. Students are also led into spaces for personal formation, which is essential for Christians to lead well.

## GMIN 506, Foundations of Educational Ministries, 4 Units

Students explore the history of Christian education and its influence as a church movement, the philosophy of ministry with emphasis on learning theory, and contemporary trends and their effect on Christian education, formation, and discipleship.

## GMIN 508, Servant Leadership and Church Management, 4 Units

This course addresses the pastor's role and calling as leader, particularly the practice of servant leadership and management of staff and volunteers. Consideration of gifting, style, and personal formation will be given in relation to working with boards, teams, and individuals within a church setting. Topics will include vision and implementation, team-building and communication, all within the context of a volunteer based church.

## GMIN 509, Urban Sociology and Christian Ministry, 4 Units

This course provides an introduction to sociological and cultural theories of urban areas. In order to understand the pressing cultural and social needs of the city, this course prepares ministry students to approach their urban churches within the broader framework of understanding systemic social pathologies, theories of race and class, and urbanism.

## GMIN 510, African American Preaching, 4 Units

Students in this course explore preaching in the African American tradition, with a focus upon biblical interpretation, content development, sermon design, oral presentation, and delivery technique, as well as biblical proclamation as a component of pastoral ministry in the African American Church. Through supervised practice, students discover how they can best engage the listening congregation as preachers of the Word.

## GMIN 516, Christian Formation and Discipleship, 4 Units

This course offers a study of foundational principles and models of Christian Formation and Discipleship, with special emphasis on formation into Christlikeness as a primary emphasis for pastoral leadership and teaching. Consideration will be given to the complex dimensions of personal transformation within a community context. Study of the self, the role of grace, spiritual disciplines and the importance of developing a "rule of life" will be key topics.

## GMIN 519, Current Issues in Urban Ministry, 4 Units

This course examines the critical issues affecting the quality of life for those living in major urban areas. The course focuses on in-depth examination of the contributions of faith communities to social analysis, public theology, and transformation of community in relation to issues such as homelessness, violence, family dissolution, and gentrification.

## GMIN 526, Curriculum and Instruction, 4 Units

Students gain knowledge of recent trends in curricular materials, principles, and methods; the use of the Bible; activities; and objectives of programming in Christian education.

## GMIN 528, Contemporary Issues in Ministry, 4 Units

The church and its ministry are studied. The course emphasizes contemporary changes in the church, directions in which the church and ministry are moving, staff relationships, contemporary methods of service, extra-church ministries, and the implications of modern culture on the development of the church's ministry strategy.

## GMIN 529, City in Theological Perspective, 4 Units

Students examine theological perceptions of the city, with an emphasis on ministry in and to the polis.
**Prerequisite:** MINC 346, MINC 487

## GMIN 548, Pastoral Counseling and Church Health, 4 Units

The course addresses the pastor's presence, identity, and counseling role and is structured from the perspectives of Christian theology and the behavioral sciences. Consideration is given to such topics as: an integrated view of the care of the soul, family of origin formation, addiction and recovery, family systems theory as applied to the life and health of the local church. The course provides insights, information, and practical applications for effective pastoral health and ministry in today's complex ministry settings.

## GMIN 559, Urban Cross-Cultural Ministry, 4 Units

Students learn about particular ethnic groups, with a focus on ministry to each group, the church in changing neighborhoods, and the development of multi-congregational churches.

## GMIN 567, Community Retreat, 1 Unit

This course is designed to launch students into their seminary experience through building community with other students and faculty, participating in formational activities, and reflecting on vocation.

## GMIN 568, Mentored Ministry: Chaplaincy, 3 Units

This course grants credit to students who complete 400 hours of a Clinical Pastoral Education chaplaincy internship.

## GMIN 569, Mentored Ministry, 1 Unit

Mentored ministry is a central piece of the learning experience at Azusa Pacific Seminary, giving students the opportunity to develop as reflective practitioners through experience in a ministry context combined with reflection on how that experience connects with academic studies and personal spiritual formation. Mentored ministry consists of two components: a supervised ministry experience (at least 8 hours per week throughout the course of the term), and regular meetings with a Mentored Ministry Reflection Group, a learning community in which students reflect with each other on ministry situations, join in prayer and other spiritual disciplines, and provide mutual support as they seek to grow together as servants of Christ.

## GMIN 570, Directed Research, 1-4 Units

This is a course of independent research directed by the instructor.

## GMIN 571, Internship, 3 Units

This course includes a diverse format of classroom experience, field experience and small groups. It further develops a student's ability to blend Christian theology and ministry by utilizing a method of reflecting theologically on the practice of the Christian faith and facilitating the ability to clearly state and defend one's own theology for Christian ministry. Students are required to serve eight hours per week in hands-on field experience.

## GMIN 577, Music in the Worshiping Church, 4 Units

This course is a study of congregational song from biblical times to present day, emphasizing the use of corporate song in Christian worship. The course includes a study of the Psalter, hymnody and hymn writers, and a survey of contemporary worship styles including blended, Gen-X, Taize, and multicultural worship.

## GMIN 578, Worship Leadership, 4 Units

This course equips the student to become a servant leader. It is a practical class designed to help worship leaders succeed as family members, team players, event coordinators, budget managers, vision casters, congregational guides, and reproducers of other leaders. Discussions are focused on the complex set of challenges that worship leaders typically face.

## GMIN 579, Church Music Administration, 4 Units

This course examines the calling and role of the worship leader, care of music participants, and various planning tools. Also included is an introduction to the use of technology and the preparation, direction, rehearsal, arranging and incorporation of various ensembles (praise team, choir, rhythm section, church orchestra) encountered in Church ministries.

## GMIN 580, Aesthetics, Arts, and Actions in Corporate Worship, 4 Units

This course helps students develop a philosophy of aesthetics and the arts in corporate worship. An investigation of spirituality in the post-modern world includes suggestions for the inclusion of sacred time, sacred space, drama, dance, sacred action, sign, and symbol in Protestant worship.

## GMIN 588, The Missional Church, 4 Units

This course offers an introduction to the missiological insights required to lead the North American church in the post-modern world. These insights reflect the interdisciplinary interaction of theology, anthropology, and missiological strategy for penetrating the culture of the North American 21st century.

## GMIN 599, Readings in Ministry, 1-4 Units

This is a course of independent study supervised by the instructor.

## GMIN 605, Leadership in Youth Ministry, 4 Units

This course teaches students the roles and responsibilities of Christian leadership in youth ministry. This capstone course includes the meaning of being a Christian leader and organization and administration of youth ministry programs.

## GMIN 608, Integrative Ministry Project, 4 Units

This course serves as a capstone for the MAPS degree. It is designed primarily as a practical ministry project with a specialized focus from the student's concentration. This course integrates praxis with disciplines within the degree: biblical studies, theology, and ministry.

## GMIN 618, M.Div. Capstone, 4 Units

Students complete a major project that demonstrates skills and knowledge they have attained during seminary in relation to biblical studies, theology, and ministry. The course is taken by students in the last year of their program and includes an oral presentation to a faculty panel.

## GMIN 628, Seminar in Ministry, 1-4 Units

The course covers topics that are of pressing concern in ministry, including spirituality, church renewal, and church planting.

## GTHE 503, Church History I, 4 Units

The history of Christianity is surveyed from the first century to the Reformation. Consideration is given to major theologians and their works and significant developments in the history of the church. Specifically the course will make use of primary sources to describe the early church, trace theological developments, doctrines and polity. Focus on the varieties of Christian communities of the Early/Medieval period will include the Desert communities of fathers and mothers of the church, women in Late Antiquity, and the medieval church in Italy.

## GTHE 505, Christian Ethics, 4 Units

The biblical and theological foundations of historical and contemporary interpretations of Christian ethics are covered, with an analysis of the nature of Christian responsibility in the major areas of social concern.

## GTHE 513, Church History II, 4 Units

Major theological movements within the Christian church, from the Reformation to the present, are studied. Consideration is given to major theologians and their works and significant developments in the history of the modern church, including Methodism and the rise of modern science.

## GTHE 523, Seminar in Church History, 4 Units

Students explore selected epochs, movements, or issues in the history of the Church. Topics included are the Reformation, the Wesleyan revival, the Great Awakening, and the Church in the urban context.

## GTHE 529, The City in Theological Perspective, 4 Units

Students examine theological perceptions of the city, with an emphasis on ministry in and to the polis.

## GTHE 534, Interdisciplinary Seminar in Theology, 4 Units

A selected topic in Christian theology, from the perspectives of the Bible, theology, philosophy, sociology, psychology, and communication theory, is studied in a given semester.

## GTHE 535, Theology, Work, and Economics, 4 Units

This course will introduce students to the Biblical and historical aspects of work and economics. It will also train students to understand and to create both personal and church budgets.

## GTHE 544, The Theology of John Wesley, 4 Units

Highlights of Wesley's life are studied with reference to the development of his theology. Special attention is given to the unique emphases of Wesleyan doctrine.

## GTHE 553, Evangelical Friends History: Birth, Growth, and Organization, 4 Units

This course provides a survey of the Friends Church from its origins in the 17th century to the present. The birth, growth, and organization of Quakerism is delineated, along with Quaker distinctives in thought and practice, the role of evangelicalism, reform efforts, church polity, and the ongoing challenges of cultural relativism and relevancy. Special attention is given to the experiences and practices of American Friends in general and of Evangelical Friends in the Southwest in specific.

## GTHE 554, Friends Theology, Worship, and Leadership, 4 Units

Students learn about the distinctive theology, worship, and leadership practices of Friends, as compared and contrasted with other Christian groups. The course meets the needs of those in the "recording" process.

## GTHE 563, American Church History, 4 Units

This course will present an introduction and study of the major themes, persons and movements within the history of the American church from the Puritan church to the present, and will primarily focus upon Protestant Christianity.

## GTHE 564, Contemporary Theology, 4 Units

This course investigates contemporary issues of theology as they emerged within the context of the modern and/or postmodern world. Special emphasis is placed upon the reading of primary texts and upon relating to issues in a way that is responsible to historic Christianity as well as contemporary concerns. Issues include those related to existentialism and such contextualized theologies as liberation, ethnic, and feminist theologies.

## GTHE 570, Directed Research, 1-4 Units

This is a course of independent research directed by the instructor.

## GTHE 573, History of the Church in Latin America, 4 Units

This course traces the history of the Church in Latin America and its diverse relationships with its religious, economic, political, and cultural surroundings from the Conquest (1492) to the 20th Century.

## GTHE 574, Theological Issues in the Hispanic Church, 4 Units

This course examines a variety of theological issues facing the Hispanic church today. It engages the social and cultural contexts in which today's Church serves. It also places these issues in theological context to supply students with practical and applicable strategies for working through these issues in their local communities.

## GTHE 584, Christian Theology, 4 Units

This course identifies basic beliefs about God, creation, humanity, Jesus Christ, the Holy Spirit, salvation, and the Church. Specific doctrines of Christian theology are analyzed from the perspective of historical, contextual, and systematic theology, based upon a biblical foundation.

## GTHE 590, Thesis, 4 Units

This is a course of independent study in which the student prepares a thesis supervised by the instructor.

## GTHE 599, Readings in Church History, Theology, and Ethics, 1-4 Units

This is a course of independent study supervised by the instructor.

## GTHE 615, Church and Society, 4 Units

This course deals with the nature and mission of the church and the problems which the church must face in its relationship with society.

## GTHE 625, Seminar in Christian Ethics, 4 Units

A selected area in the field of Christian ethics is studied in a given semester. Areas of study include the following: political ethics, social justice, war and peace, economic ethics, the ethics of sex, and medical ethics.

# Doctor of Ministry (DMin)

**NOTE: The Doctor of Ministry programs in English and Korean are not admitting new students for the 2024-25 academic year.**

**For more information: (626) 815-5447**

The Doctor of Ministry (DMin) (https://www.apu.edu/seminary/programs/dmin/) is the highest professional degree in the practice of ministry, building on education received through the Master of Divinity and on experience gained in the practice of ministry. Azusa Pacific Seminary's DMin program is available in English, Korean, and Spanish.

## Mission Statement

The Doctor of Ministry program focuses on spiritual formation and ministry leadership. Through studies in theology and ministry, students grow personally and spiritually, develop cutting-edge skills and competence in the practice of ministry, and make scholarly contributions to the field of ministry practice.

## Admission Requirements

Admission decisions in the Doctor of Ministry program are based initially on three primary criteria: prerequisite theological education, practical ministry leadership experience, and demonstrated academic aptitude for advanced studies at the doctoral level.

Program admission requirements include the following:

1. A completed application for graduate admission (available from the Student Services Center (https://www.apu.edu/student-services/) or online (https://www.apu.edu/apply/)).
2. An MDiv from an ATS-accredited school or its educational equivalent, achieved with a grade-point average of at least 3.0 (on a 4.0 scale) and verified by the submission of an official transcript. (MDiv equivalency is defined as 72 graduate semester hours, or comparable graduate credits in other systems, that represent broad-based work in theology, biblical studies, and the arts of ministry and that include a master's degree and significant ministerial leadership. For more information on equivalency, contact Azusa Pacific Seminary (https://www.apu.edu/seminary/).)
3. Transcripts from all institutions leading to, and awarding, the applicant's baccalaureate degree and all postbaccalaureate study.
4. Evidence of active practice in ministry leadership for at least three years after completion of the first theological degree and of current involvement in ministry leadership. This must include a written letter of support for doctoral studies from the applicant's current ministry assignment.
5. A 1,500-word written statement that addresses ministerial and education goals, personal spiritual and leadership journey, and recent theological reading. Contact the office of the Doctor of Ministry program for details on completing this admission requirement.
6. Three letters of reference attesting to the applicant's personal character, academic ability, and ministerial skills. Forms are included with application materials.
7. A current résumé.
8. A personal interview with the program director may be required.

**All materials should be submitted to:**
Student Services Center: Admissions
Azusa Pacific University
PO Box 7000
Azusa, CA 91702-7000 USA

Located at:
568 E. Foothill Blvd.
Azusa, CA 91702
(626) 815-4570
Fax: (626) 815-4545 • (626) 815-4571
gpadmissions@apu.edu
apu.edu/graduateprofessional/apply/ (https://www.apu.edu/graduateprofessional/apply/)

**Send international applications to:**
International Admissions
Azusa Pacific University
PO Box 7000
Azusa, CA 91702-7000 USA

Fax: +1-626-815-3801
ssc@apu.edu

apu.edu/international/enrollment/ (https://www.apu.edu/international/enrollment/)

## Transfer Credit

Because of the specialized nature of the program, transfer credit must be evaluated by the director of the DMin program. A maximum of 6 semester units of doctoral-level work that have been completed within the past eight years may be allowed as transfer credit.

## Full-Time Status

Full-time status in the DMin program is 8 units per term. Students who enroll in at least 4 units are considered to be half time.

## Advancement to Candidacy

Students will be considered for candidacy for the Doctor of Ministry after successful completion of 16 units of coursework (minimum 3.0 GPA in all coursework with no grade less than *B*-), and a qualifying interview with the DMin director or the DMin committee in which the student satisfactorily demonstrates knowledge and integration of theory and practice in spiritual formation and ministry leadership. Final approval for candidacy is granted by the DMin committee.

## Written Project

Students will demonstrate academic and practical learning through completion of a major written project. They will conduct research and develop and write their project in a ministry practice field of interest. Ordinarily the project will be a minimum of 100 pages in length. Complete information on the doctoral project process and standards is available from the office of the DMin director.

## Requirements

| Code | Title | Units |
|---|---|---|
| **Core Courses** | | |
| GDMN 704 | Research and Design | 4 |
| GDMN 710 | Christian Spirituality | 4 |
| GDMN 730 | Church Renewal | 4 |
| GDMN 740 | Spiritual Leadership | 4 |
| GDMN 782 | Scripture: Its Spirituality and Proclamation | 4 |
| **Electives** | | |
| Select three of the following: | | 12 |
| GDMN 750 | Civic Spirituality | |
| GDMN 760 | Christian Spirituality and Modern Technology | |
| GDMN 762 | Spiritual Practices in the Church | |
| GDMN 764 | History and Theology of Worship | |
| GDMN 768 | Urban Immersion | |
| GDMN 772 | Contemplative Spirituality | |
| GDMN 797 | Seminar in Ministry | |
| GDMN 799 | Readings in Doctoral Ministry | |
| **Optional Emphasis** | | |
| GDMN 752 | Christian Spiritual Formation I [1] | |
| GDMN 754 | Christian Spiritual Formation II [1] | |
| GDMN 756 | Christian Spiritual Formation III [1] | |
| GDMN 758 | Christian Spiritual Formation IV [1] | |
| **Project** | | |
| GDMN 790 | Ministry Project [2] | 4 |
| GDMN 792 | Ministry Project Continuation | 2 |
| **Total Units** | | **36** |

[1]   This course is offered at the Apprentice Institute; registration for three credit hours at Azusa Pacific Seminary must be made before starting the course. In order to earn credit, students must be accepted into the APU Doctor of Ministry program before registering for any Apprentice Institute course. Upon satisfactorily completing all course requirements as set forth within the Doctor of Ministry program, student receive 3 units of credit in the spiritual formation emphasis in the Doctor of Ministry degree program.

[2]    Students who do not complete their DMin project during the semester they are enrolled in GDMN 790 must enroll for subsequent semesters in GDMN 792. Units taken for this course will count beyond the standard minimum required to complete the Doctor of Ministry degree.

## Instructional Format

Each course is structured to include several components that incorporate the theoretical, practical, and collegial aspects of the learning experience:

1. ***Preliminary reading.*** Assigned reading must be completed prior to the classroom experience, fulfilling a requirement of 1,800-2,000 pages of reading for a 3-unit course and 2,400-2,500 pages for a 4-unit course. The reading provides the theoretical basis for the analysis of practical situations in ministry.
2. ***Classroom experience (English program).*** Classroom experience is in concentrated sessions during two-week residency periods held in the middle of the spring and summer terms. The residency periods involve significant interaction with a faculty instructor in a peer-learning, seminar format. The faculty instructor serves as a facilitator of discussion in a collegial atmosphere, using his or her academic and practical experience to bring in-depth analysis, critical thinking, integration, and application to the topic.
3. ***Classroom experience (Korean and Spanish programs).*** The Doctor of Ministry Korean and Spanish programs follow APU's academic calendar. Each class meets multiple times during the semester in one-day intensive sessions utilizing lecture and discussion formats. In this way, courses provide opportunity for peer-learning, critical reflection, and application of content over a period of several months.
4. ***Grading.*** Students must achieve a minimum grade of *B-* in order to receive credit for work in a course. If a student receives a grade of *C+* or lower in a course, the course may be repeated, and the new grade, if higher, will replace the former grade in the computation of the grade-point average.
5. ***Course project.*** An extensive postclassroom project provides an opportunity to synthesize the reading and the classroom discussions and apply them to a ministerial situation. The results of this reflection are then submitted in the form of a paper with a minimum length of 5,000 words (20 pages).

## Time Limit

A maximum of 16 units of coursework may be completed during one calendar year, requiring a minimum of two years for completion of all required coursework. The written doctoral project may be completed in the third year. The minimum time required for completing the program is three years, and the maximum time allowed is eight years from the time of enrollment.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

## Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Develop a theology of spirituality by integrating insights from Scripture, theology, and related disciplines in the humanities and behavioral sciences.
2. Evaluate the dynamics of spiritual life in the context of multicultural life and ministry.
3. Synthesize and apply the theories of spiritual formation to personal spiritual growth and the task of ministry through experience-oriented learning strategies, ascertaining how individuals form habits that facilitate spiritual growth.
4. Analyze and critique how the pastor's leadership contributes to spiritual formation in the congregation.
5. Analyze and apply the relationship between personal piety and the promotion of social justice.

# MA in Pastoral Studies (MAPS)

**For more information: (626) 815-5451**

## NOTE: The Master of Arts in Pastoral Studies program in Korean is not admitting new students for the 2024-25 academic year.

## Mission Statement

The Master of Arts in Pastoral Studies (MAPS) (https://www.apu.edu/seminary/programs/masters-in-pastoral-studies/) program prepares women and men for a specialized field of church ministry through a program of study comprising 48 units in biblical, theological, and ministerial studies. An important feature of the program is the intentional integration of academic and experiential components.

## Exceptions to Admission Requirements

A limited number of applicants who do not have baccalaureate degrees but have extensive ministerial experience may be considered for admission. For a description of the standards governing this exception, contact Azusa Pacific Seminary. Students admitted under this exception must obtain a *B* or better in their first 12 units of coursework.

## Program of Studies

The Master of Arts in Pastoral Studies requires 48 units of coursework: 28 units of core courses, 12 units in a selected ministry concentration, 3 units of Mentored Ministry, 1 unit for the Community Retreat, and 4 units of a Capstone Project. Most students either concentrate in church leadership and development or urban studies, or decide to use their 12 units of general electives to develop their own areas of interest.

## Requirements for the MA in Pastoral Studies, Church Leadership and Development Concentration

Today's hurried, fragmented society calls for healthy, effective ministry leaders. This concentration provides students with education in practical ministry, with particular focus on leadership development and spiritual formation, equipping ministers for the broad, multifaceted needs of the contemporary Church. Concentration outcomes build on the Azusa Pacific Seminary core competencies and MAPS program outcomes.

### Concentration Outcomes

- Synthesize the vital role of healthy church management for the empowerment of the laity.
- Develop vocational proficiency and leadership ability.
- Apply ministry principles of Christ-like formation for lifelong ministry effectiveness and personal growth.

## Requirements for the MA in Pastoral Studies, Urban Studies Concentration

The North American Church is becoming increasingly urbanized. To prepare students for ministry in the city, this concentration engages them with urban social structures, trends, and ministry strategies. Issues of contextualization, social analysis, and cross-cultural communication will be addressed.

**NOTE: This concentration is available only for students in the Spanish-language MAPS program.**

### Concentration Outcomes

- Evaluate and apply ministry concepts, theories, and methodologies found in the urban setting.
- Develop cultural awareness and sensitivity for ministry in the urban context.
- Analyze the methods of evangelism and discipleship unique to the city.

| Code | Title | Units |
|---|---|---|
| **Biblical Studies Core** | | **8** |
| GBBL 511 | Biblical Interpretation: Exploring Genesis | |

[1]     Repeat for a total of 3 units

## Additional Degree Requirements

### Supervised Ministry

All students should devote at least eight hours per week, for the duration of the program, to the practice of some form of supervised ministry in an approved church or parachurch field center. In order to graduate, students must maintain at least a 2.7 grade-point average.

### Time Limit

The program must be completed within 10 years from the date of admission. APU coursework completed more than 10 years prior to completion of degree requirements is not acceptable toward the degree.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

## Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Model a holy life through spiritual disciplines reflecting a Wesleyan heritage of faith and love.
2. Interpret Scripture with reverent criticism, theological insight, and constructive imagination, beginning with the inductive method of Bible study, for the edification of the Church.
3. Think theologically through the Wesleyan quadrilateral (Scripture, Church tradition, reason, and experience) in a manner that is faithful to the past and responsive to the present.
4. Develop competence in the pastoral responsibilities of teaching, leadership, and pastoral care.
5. Analyze various cultural constructs and global issues in order to provide transformational leadership for the church.
6. Develop competency in design, application, and evaluation of a specialized ministry.

# Master of Divinity (MDiv)

**For more information: (626) 815-6000, Ext. 5451**

## NOTE: The Master of Divinity programs in English and Korean are not admitting new students for the 2024-25 academic year.

The Master of Divinity (MDiv) program (https://www.apu.edu/seminary/programs/mdiv/) prepares women and men for professional ministry in the Church. Azusa Pacific Seminary faculty bring to the program a unique combination of the highest academic credentials and extensive ministerial experience.

## Mission Statement

The Master of Divinity program prepares men and women for vocational ministry in the Church through a course of study comprising 74 units in theological, biblical, and ministerial studies. An important feature of the program is an intentional integration of academic and experiential components—students must engage in some form of supervised ministry during their degree program. An optional biblical studies emphasis serves students preparing for postgraduate work in biblical studies for careers teaching in colleges, universities, or seminaries through additional coursework in biblical languages and biblical studies.

## Exceptions to Admission Requirements

A limited number of applicants who do not have baccalaureate degrees but have extensive ministerial experience may be considered for admission. For a description of the standards governing this exception, contact the Azusa Pacific Seminary associate dean. Students admitted under this exception must obtain a *B* or better in their first 12 units of coursework.

## Requirements

The Master of Divinity program requires 74 units of coursework comprising 12 units of biblical studies, 12 units of theological studies, 12 units of ministry studies, 12 units in integrative core, 5 units in mentored ministry, 1 unit in intercultural experience, 4 units of a biblical language (which may be waived for students who have completed a year of undergraduate Hebrew or Greek), 12 units of electives, and a 4-unit capstone course.

| Code | Title | Units |
| --- | --- | --- |
| **Biblical Language Requirement** [1] | | **4** |
| GBBL 500 | Elements of Greek Exegesis | |
| **Biblical Studies Core** | | **12** |

1. Model a holy life through spiritual disciplines reflecting a Wesleyan heritage of faith and love.
2. Interpret Scripture with reverent criticism, theological insight, and constructive imagination, beginning with the inductive method of Bible study, for the edification of the Church.
3. Think theologically through the Wesleyan quadrilateral (Scripture, Church tradition, reason, and experience) in a manner that is faithful to the past and responsive to the present.
4. Develop competency in the pastoral responsibilities of preaching, teaching, leadership, and pastoral care.
5. Analyze various cultural constructs and global issues in order to provide transforming leadership for the Church.

# BA in Interdisciplinary Studies

54 units

## Mission

The interdisciplinary studies major (https://www.apu.edu/provost/programs/interdisciplinary-studies-major/) is an individualized academic program that crosses diverse fields of study. This degree allows students whose vocational or intellectual goals do not lead them to an existing degree program the opportunity to explore many different disciplines, gleaning important perspectives, knowledge, and skills while working toward a singular degree. As part of the degree program, students benefit from guidance in exploring and discerning vocational calling for themselves and others. Ultimately, the program allows students to design a major around multiple interests and with a core of vocational exploration and development that helps them identify their vocational calling and prepare for vocations that cross disciplinary boundaries.

## Requirements

| Code | Title | Units |
| --- | --- | --- |
| **Exploring and Discerning Vocation Core** | | |
| LDRS 322 | Leadership Strengths and Skills | 3 |
| MINC 200 | Introduction to Contemporary Christian Ministries | 3 |
| MIN 300 | Writing 3: Culture and Ministry [1, 2] | 3 |
| MIN 417 | The Art of Leadership | 3 |
| MNCE 415 | Practical Theology and Vocational Engagement | 3 |
| VOC 450 | Interdisciplinary Internship [3] | 3 |
| Courses in 2-3 disciplinary areas of at least 12 units each; 15 of the 36 units must be upper-division and 6 units must be at the 400 level. | | 36 |
| **Total Units** | | **54** |

[1]    MIN 300 can be substituted for a Writing 3 course in one of the academic disciplines in a student's pathway.
[2]    Meets the General Education Writing 3 requirement.
[3]    Meets the General Education Integrative and Applied Learning requirement.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Vocational Identity: Demonstrate a growing understanding of how God has uniquely created them in relation to personal gifts and strengths.
2. Virtuous Character: Explain a commitment to and a personal plan for becoming a person of virtuous character.
3. Faithful Engagement: Articulate how God is at work in their chosen field and how they can contribute to that work.
4. Career Development: Outline a personal career plan with clear timelines and action steps.
5. Vocational Coaching: Skillfully utilize resources, competencies, and skills to help others understand and pursue a vocational calling.
6. Creative Integration: Thoughtfully and innovatively integrate interdisciplinary competencies in writing and professional practice.
7. Skilled Execution: Demonstrate a cross-disciplinary approach to critical thinking, problem solving, and various intellectual and practical competencies.

# General Education Program

APU's General Education program comprises five major outcome areas, and all of these requirements must be met by approved courses:

- Intellectual and Practical Skills
- Biblical, Theological, and Philosophical Formation
- Knowledge of Human Cultures and the Physical and Natural World
- Personal and Social Responsibility
- Integrative and Applied Learning

Each student graduating from APU completes a maximum of 62 units of General Education courses (p. 919). The number of units required is determined by whether a student enters as a freshman or as a transfer student, and by the year the student begins coursework at APU. Current students seeking to transfer coursework from other colleges and universities must verify with the Student Services Center (https://www.apu.edu/student-services/) that those courses will be accepted for General Education credit. The policy for transferring credits to meet General Education requirements (https://www.apu.edu/undergraduate-enrollment-services/academic/transfer/) is available on the Student Services Center website.

All courses approved to satisfy General Education requirements are identified in the class schedule and are included on the list of approved General Education courses; this list can be found in this Academic Catalog (p. 919), at the Student Services Center, at the Academic Success Center (https://www.apu.edu/advising/), and through the Office of the Registrar (https://www.apu.edu/student-services/registration/). Additional courses may be approved in the future. Students are encouraged to take their General Education courses throughout all their years at APU.

Even though students work closely with a faculty advisor in determining their General Education requirements, the responsibility for fulfilling these requirements is solely that of the student. For more information, contact the Academic Success Center (traditional undergraduate students) or the Office of the Registrar (professional undergraduate students).

All students are required to access their Web-based Advisement Report (through home.apu.edu (https://home.apu.edu/)) for information regarding their major and General Education requirements and fulfillment of these requirements. Any questions about the application of transfer courses for course requirements should be directed to the Academic Success Center (traditional undergraduate students) or the Office of the Registrar (professional undergraduate students).

**Note: Bachelor of Music majors** are not required to take the Fitness for Life, Oral Communication, Foreign Language, Math, or Humanities: Fine Arts requirements. This statement does NOT apply to Bachelor of Arts music majors.

*Courses listed in two categories cannot satisfy both requirements; students must choose which category the course will fulfill.* UNRS 386 is the lone exception and is permitted because it is a 6-unit course that is a combination of two other, preexisting GE courses that meet two General Education categories.

For additional information regarding the General Education program, visit either General Education for APU Students (https://sites.google.com/a/apu.edu/ge-for-apu-students/), or the General Education website tailored for faculty and staff (https://sites.google.com/a/apu.edu/apu-general-education/).

## Information for Transfer Students

Students transferring in to Azusa Pacific University may have some of their General Education requirements (p. 919) met by courses taken at their previous institution(s). Additionally, the unit requirements for Biblical, Theological, and Philosophical Formation (BTPF) may be adjusted depending on the number of units the student transferred in to APU. See the General Education Information for Transfer Students (p. 1059) section of the catalog for more information about these adjusted requirements.

The evaluation of a traditional undergraduate student's transfer work is conducted by the Student Services Center. All students are encouraged to work with the Student Services Center and their academic advisor to determine their General Education requirements.

The evaluation of a professional undergraduate student's transfer work is conducted by the Office of the Registrar. All students are encouraged to work with the Office of the Registrar and their academic advisor to determine their General Education requirements.

## Courses

### GE 100, First-Year Seminar, 3 Units

First-Year Seminar is designed to introduce students to academic success strategies and foster a sense of belonging at the university through engagement in the curricular and cocurricular life on campus. These small, seminar-style classes form around a broad, interdisciplinary topic or question and are taught by experienced faculty focused on students' critical thinking and communication skills, information literacy, spiritual formation, diversity competency, and wellness. The course helps students clarify their purpose, meaning, and direction, and promotes campus engagement and utilization of campus resources. *Meets the General Education Requirement: First Year Seminar.*
**Corequisite:** MATH 90, MATH 99, or ALEKS 30-100 or satisfaction of GE Quantitative Literacy requirement.

# GE 101, Academic Success Lab, 1 Unit

The Academic Success Lab is designed to support student admitted to the University in the Academic Success Launch Program. Through this course students will gain an increased awareness of on campus resources, create personal and academic goals and will be able to implement success strategies to maintain good academic standing at APU.
**Prerequisite:** Admission into the Academic Success Launch Program

# WRIT 101, Writing Lab, 1 Unit

WRIT 101 is a one-unit course designed to support students currently enrolled in any course at APU where assistance is needed to meet college-level writing expectations. The Lab will provide a space for students to engage with the foundational concepts introduced in APU's writing program, such as developing a writing process, understanding rhetorical situations, and crafting sound arguments. Within a casual, interactive workshop format that is practical and tailored to the unique needs of the group members, students meet four times weekly to further develop their writing skills and their individual writing processes. Students should expect to bring assignments or projects from their class to each Lab meeting.
**Prerequisite:** Students must be enrolled at APU.

# WRIT 110, Writing 1: The Art and Craft of Writing, 3 Units

Writing is a skill that can be practiced and improved. In this course, students learn about writing by approaching it from theoretical, historical, pedagogical, and practical perspectives. Students engage with writing processes, literacies, and genres by reading and writing about research and arguments dealing with all aspects of writing. Students also craft arguments of their own based on their research on the art and craft of writing. *Students must earn a C- or higher in Writing 1 in order to register for Writing 2. *Meets the General Education Requirement: Writing 1: The Art Craft of Writing.*

# WRIT 120, Writing 1 Lab, 1 Unit

For students who have chosen through advising and self-placement to receive the extra support that will encourage success in their Writing 1 course, the Writing 1 Lab provides weekly tutorials on Writing 1 assignments and brief assignments that provide enrichment in reading/writing/rhetoric/grammar in ways that support their work as writers in Writing 1. During weekly one hour sessions, students will work with a writing coach to further develop their writing processes, their handling of language conventions at the sentence and paragraph level, and deepen their reading and writing through peer editing sessions with a writing coach. Work will include tutoring on Writing 1 assignments, including rough drafts for Writing 1, and additional small assignments designed for the lab to link reading, writing, logic, and grammar. Students should expect to work two additional hours outside of the session. 1 unit course.
**Prerequisite:** Co-requisite: WRIT 110

# WRIT 200, Writing 2: Writing for Christian Practice, 3 Units

In this course, students will critically assess the writing styles, questions, and arguments of one or more disciplines in order to better understand what is considered persuasive and effective writing in those fields. Students will respond to and evaluate writing, methodologies, ideas, and arguments and practice rhetorical strategies being employed in their own field. *Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*
**Prerequisite:** GE 100, MIN 108; HON 101 or C- or Better in WRIT 110

# WRIT 201, Writing 2: Philosophy of Math, Logic, and Language, 3 Units

Why is mathematics so effective in describing the physical universe? What happens when ordinary reasoning and languages are translated into more abstract mathematical and logical symbolism? Is anything lost in translation? This course introduces students to these and other questions on the nature of mathematics, logic, and language. Students evaluate the arguments, writing styles, rhetorical strategies, and types of evidence employed by the mathematicians, scientists, and philosophers addressing these questions. By critically thinking about formal logical and mathematical discourse, students become better writers in and about that discourse. *Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*
**Prerequisite:** GE 100, HON 101, or C- or better in WRIT 110; PHIL 310 or MATH 280 or instructor's consent.

# WRIT 202, Writing 2: Philosophical Writing in C. S. Lewis, 3 Units

C. S. Lewis was one of the most influential public Christian intellectuals of the 20th century. One of the reasons for this is that he wrote clearly and persuasively about the perennial questions of philosophy but for the common person. In this course, we will study and practice the art of writing well on philosophical matters for a broad audience. Students will critically assess the writing styles, questions, and arguments of philosophical writing for a general audience and will contrast what it takes to do such writing well with related forms of writing such as philosophical writing for a specialist audience and philosophical writing in fictional form. We will do so by analyzing, emulating, and critiquing the work of C. S. Lewis from the standpoint of philosophy. *Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*
**Prerequisite:** GE 100, HON 101 or C- or Better in WRIT 110

# WRIT 203, Writing 2: Writing in Religion, Cinema, and Popular Culture, 3 Units

In this course, students critically assess the writing styles, questions, and arguments in the discipline of religious studies, with special focus on the study of religion and visual studies in order to better understand what is considered persuasive and effective writing in religious studies. Students respond to and evaluate writing, methodologies, ideas, arguments, and genres, and practice rhetorical strategies employed in the field. *Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*
**Prerequisite:** GE 100, HON 101, or C- or better in WRIT 110.

# WRIT 204, Writing 2: Writing for the Humanities in Spanish, 3 Units

Students in this course critically assess writing styles, questions, and arguments important to the humanities through a study of great works and life's enduring questions. In order to understand better what is considered persuasive and effective writing in the humanities, students respond to and evaluate writing, methodologies, ideas, and arguments, and practice rhetorical strategies employed in the liberal arts. The entire course, including all assignments, is in Spanish. *Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*
**Prerequisite:** GE 100, HON 101 or C- or better in WRIT 110, and SPAN 202

# WRIT 210, Writing 2: Writing in the Humanities, 3 Units

In this course, students will critically assess writing styles, questions, and arguments important to the humanities through a study of great works and life's enduring questions. In order to understand better what is considered persuasive and effective writing in the humanities, students will respond to and evaluate writing, methodologies, ideas, and arguments, and practice rhetorical strategies being employed in the liberal arts. *Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*
**Prerequisite:** GE 100, HON 101 or C- or Better in WRIT 110

# WRIT 220, Writing 2: Film Analysis and Criticism, 3 Units

This course is an introduction to film as a narrative and visual medium, emphasizing the terms, methods, and techniques of film analysis. Students view and discuss films in terms of formal elements - plot structure, character development, themes, genres, and literary sources. Some attention is given to the history of cinema, film criticism and theory, as well as film production from development through distribution. *Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*
**Prerequisite:** GE 100, HON 101 or C- or better in WRIT 110, and department consent.

# WRIT 221, Writing 2: Writing for Visual Thinkers, 3 Units

In this course, students examine writing styles as expressed in the studio arts and design, whether as criticism, analysis, personal expression, persuasion, or artist and designer statements. Students will learn how to translate their visual world into words, and to evaluate visual ideas, both their own and others; as those gifted for visual expression are able. In order to understand how to write persuasively and effectively, students will examine theoretical approaches that are employed as conceptual frameworks in making art and design. *Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*
**Prerequisite:** GE 100, HON 101 or C- or Better in WRIT 110

# WRIT 222, Writing 2: Writing about Music, 3 Units

In this course, students examine methods and tools of research and writing in music. They assess and practice various writing styles, as well as questions and arguments associated with (1) the historical fields of research (e.g., musicology, ethnomusicology, music education, music criticism, music analysis, program notes) and (2) music entrepreneurship (e.g., music business, production, marketing, artist management). Students also become familiar with online and hard copy music resources available in Marshburn Memorial Library. *Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*
**Prerequisite:** GE 100, HON 101 or C- or Better in WRIT 110

# WRIT 240, Writing 2: Scientific Writing, 3 Units

In this course, students critically assess genres of scientific writing, including scientific journal articles, grant proposals, and writing for popular audiences, examining writing styles and forms of argument that are considered persuasive in the sciences. Students also evaluate writing samples, methodologies, ideas, and arguments, and practice writing in scientific genres. *Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*
**Prerequisite:** GE 100, HON 101 or C- or better in WRIT 110; and BIOL 152, BIOL 250, CHEM 152, PHYC 156, or PHYC 166.

# WRIT 241, Writing 2: Physical Activity and Health Promotion, 3 Units

Students in this course have multiple opportunities to share knowledge through written assignments and brief verbal responses. The course activities challenge the student to consider the audience and platform for communication, develop a concise argument, persuade readers, and critically evaluate research articles. Students also enhance their skills in literature searches using library databases, and gain proficiency in citing using APA formatting. *Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*
**Prerequisite:** GE 100; HON 101 or C- or better in WRIT 110; C- or higher in BIOL 230 or BIOL 250; students must be kinesiology majors, other majors may enroll by instructor consent.

# WRIT 242, Writing 2: Entrepreneurial Tech Start-ups, 3 Units

In this course, students critically assess the writing styles, questions, and arguments of business, computer science, and technology in order to better understand what is considered persuasive and effective writing in these fields. Students respond to and evaluate writing, methodologies, ideas, and arguments, and practice rhetorical strategies being employed in their own field while analyzing and contributing to current trends in the field through the creation of relevant business-tech documents. *Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*
**Prerequisite:** GE 100, HON 101 or C- or better in WRIT 110

## WRIT 243, Writing 2: Mathematical Careers and Callings, 3 Units

In this course, students explore a variety of mathematical careers, assess writings from subdisciplines of mathematics, evaluate arguments regarding the purpose or value of mathematics, and explore the value of mathematical work in their individual contexts. Students critically assess the writing styles, questions, and arguments of mathematicians in a variety of careers in order to better understand what is considered persuasive and effective writing in those fields, and also practice rhetorical strategies. Course material includes Christian perspectives on the value of work and culture in general and the value and purpose of mathematical work in particular. *Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*
**Prerequisite:** HON 101 or WRIT 110 with C- or better

## WRIT 260, Writing 2: Psychology Subdisciplines and Career Trajectories, 3 Units

This course provides a foundation for students to think, write, and communicate as psychological scientists. The specific style of writing is based on the American Psychological Association (APA) format, which reflects the precepts of the discipline. The course focuses on the general writing process as well as the particular writing conventions in the social sciences to build critical skills in communication. As students learn to write thoughtfully and persuasively, they also engage in a comprehensive overview of the major subfields in the discipline of psychology and the variety of career trajectories that students may consider in behavioral settings. In the process of career exploration as it relates to central concerns, themes, and professional trajectories, students critically assess the writing style, questions, and arguments from multiple subdisciplines. Students also develop skill in formatting written work utilizing APA style, in order to develop skills in effective writing, researching, and identifying credible sources in the field. *Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*
**Prerequisite:** GE 100, HON 101, or C- or better in WRIT 110.

## WRIT 261, Writing 2: Writing in Business, 3 Units

In this course, students critically assess the writing styles, questions, and arguments found in the organizational environment in order to better understand what is considered persuasive and effective writing in business and management. Students respond to and evaluate writing, methodologies, ideas, and arguments, and practice rhetorical strategies being employed in their own field. *Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*
**Prerequisite:** GE 100, HON 101 or C- or Better in WRIT 110

## WRIT 262, Writing 2: Criminal Justice Research Methods, 3 Units

This course introduces students to research writing in the social and behavioral sciences, including the basic methods of research design, measurement, and data collection in criminology and criminal justice. Students compare research writing to other genres of writing, taking into account audience and rhetorical situation (as learned in Writing 1). Students also learn the techniques used to define research problems, select and appropriately measure variables, state hypotheses, and select experimental methods, culminating in each student completing a research proposal on a topic of their own choosing. *Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*
**Prerequisite:** GE 100, HON 101 or C- or better in WRIT 110; MATH 115 or MATH 130; and CJ 110

## WRIT 263, Writing 2: Writing Ethnography in the Social Sciences, 3 Units

Ethnography is a research methodology used in business, education, health care, and ministry. In this course, students critically assess genres of ethnographic writing in the social sciences, including analytical journals, journal articles, and writing for popular audiences. Students examine writing styles and forms of argument that are considered persuasive in the social sciences. Students evaluate writing samples, methodologies, ideas, and arguments, and practice writing in social scientific genres. *Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*
**Prerequisite:** GE 100, HON 101 or C- or Better in WRIT 110

## PRWR 110, Writing 1: The Art and Craft of Writing, 3 Units

Writing is a skill that can be practiced and improved. In this course, students learn about writing by approaching it from theoretical, historical, pedagogical, and practical perspectives. Students engage with writing processes, literacies, and genres by reading and writing about research and arguments dealing with all aspects of writing. Students also craft arguments of their own based on their research on the art and craft of writing. *Students must earn a C or higher in Writing 1 in order to register for Writing 2. *Meets the General Education Requirement: Writing 1: The Art Craft of Writing.*

## PRWR 112, Writing 1A: Writing and Rhetoric for Professional Students, 2 Units

Writing is a skill that can be practiced and improved. In this course, students learn about writing by approaching it from practical perspectives, engaging with writing processes, literacies, and genres by reading and writing about research and arguments dealing with all aspects of writing. *Meets the General Education Requirement: Writing 1 (PRWR112+PRWR115), Writing 1 (PRWR112+PRWR113).*

## PRWR 113, Writing 1B: Research and Writing for Professional Students, 2 Units

In this course, students build upon the foundation they established in PRWR 112, continuing to develop their writing processes and their writing portfolios by further revising, editing, and proofreading the major assignments from PRWR 112. They also improve their information literacy and research skills and write a comprehensive argument. Students must earn a C or better in PRWR 113 to enroll in Writing 2. *Meets the General Education Requirement: Writing 1 (PRWR112+PRWR113).*
**Prerequisite:** PRWR 112 Writing 1A: Writing and Rhetoric for Professional Students

### PRWR 115, Writing for Prior Learning, 3 Units

Writing is a lifelong skill that can be practiced and improved. In this course, each student writes a Prior Learning Essay, a key requirement for submitting a Prior Learning Assessment Portfolio (PLP). Writing the essay involves learning how to describe past experience, make reflective observations, articulate abstract principles, communicate personal competencies, perform self-guided research, and express one's professional goals. *Meets the General Education Requirement: Writing 1 (PRWR112+PRWR115).*
**Prerequisite:** Writing 1 or PRWR 112

### PRWR 260, Writing 2: Psychology Subdisciplines and Career Trajectories, 3 Units

This course provides a foundation for students to think, write and communicate as a psychological scientist. The specific style of writing is based on the American Psychological Association (APA) format that reflects the precepts within the discipline. The course focuses on the general writing process as well as the particular writing conventions in the social sciences to build critical skills in communication. As students learn to write thoughtfully and persuasively, students also engage in a comprehensive overview of the major subfields in the discipline of psychology and the variety of career trajectories that students may consider in behavioral settings. In the process of career exploration as it relates to central concerns, themes and professional trajectories, students will critically assess the writing style, questions, and arguments from multiple sub-disciplines. Students will also develop skill in formatting written work utilizing the style adopted by the APA in order to develop skills in effective writing, researching and identifying credible sources in the field. *Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*
**Prerequisite:** C- or better in PRWR 110 or PRWR 113

### PRWR 261, Writing 2: Writing in Business, 3 Units

In this course, students critically assess the writing styles, questions, and arguments found in the organizational environment in order to better understand what is considered persuasive and effective writing in business and management. Students respond to and evaluate writing, methodologies, ideas, and arguments, and practice rhetorical strategies being employed in their own field. *Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*
**Prerequisite:** C- or better in PRWR 110 or PRWR 113

### PRWR 262, Writing 2: Criminal Justice Research Methods, 3 Units

This course is designed to introduce students to research writing in the social and behavioral sciences. Students will examine the basic methods of research design, measurement, and data collection in Criminology and Criminal Justice. Students will compare research writing to other genres of writing, taking into account audience and rhetorical situation (as learned in Writing 1). Additionally, this course will focus on teaching students the techniques used to define research problems, select and appropriately measure variables, state hypotheses, and select experimental methods, culminating in each student completing a research proposal (topic of their own choosing). *Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*
**Prerequisite:** C- or better in PRWR 110 or PRWR 113, and PRCJ 110

# General Education Requirements for Professional Undergraduate Students (Regional Locations and Online)

APU's General Education program comprises five major outcome areas, and all of these requirements must be met by approved courses:

- Intellectual and Practical Skills
- Knowledge of Human Cultures and the Physical and Natural World
- Biblical, Theological, and Philosophical Formation
- Personal and Social Responsibility
- Integrative and Applied Learning

All courses approved to satisfy General Education requirements are identified in the class schedule and are included on the list of approved General Education courses; this list can be found below on this page as well as the Office of the Registrar (https://www.apu.edu/student-services/registration/) located in the Student Services Center. Additional courses maybe approved in the future. Students are encouraged to take their General Education courses throughout all their years at APU.

Even though students work closely with their advisor in their academic department, and their Academic Records Specialist in the Office of the Registrar, in determining their General Education requirements, the responsibility for fulfilling all degree requirements is solely that of the student.

All professional undergraduate students are required to view their web-based Academic Requirements Report by selecting the academics menu item and then selecting Academic Requirements at home.apu.edu (https://home.apu.edu/) to ensure they are on track to meet degree requirements. Any questions about the transfer credit report should be directed to an Academic Records Specialist in the Office of the Registrar located in the Student Services Center.

For additional information regarding the General Education program, visit either General Education for APU Students (https://sites.google.com/a/apu.edu/ge-for-apu-students/), or the General Education website tailored for faculty and staff (https://sites.google.com/a/apu.edu/apu-general-education/).

## Requirements

*Courses listed in 2 categories cannot satisfy both requirements; students must choose which category the course will fulfill.* The sole exception is UNRS 386, a 6-unit course that is a combination of two other existing GE courses and that meets the Civic Knowledge and Engagement, and Intercultural Competence, requirements.

## Intellectual and Practical Skills

Inquiry and Analysis, Critical and Creative Thinking, Written and Oral Communication, Personal Wellness, Quantitative Literacy, Information Literacy, and Teamwork and Problem Solving.

| Code | Title | Units |
|---|---|---|
| **Writing 1** | | **4-5** |
| PRWR 112 | Writing 1A: Writing and Rhetoric for Professional Students | |
| PRWR 113 | Writing 1B: Research and Writing for Professional Students | |
| or PRWR 115 | Writing for Prior Learning | |
| **Writing 2** [1] | | **3** |
| PRWR 260 | Writing 2: Psychology Subdisciplines and Career Trajectories | |
| PRWR 261 | Writing 2: Writing in Business | |
| PRWR 262 | Writing 2: Criminal Justice Research Methods | |
| UNRS 306 | Writing 2: Theoretical Frameworks in Nursing | |
| **Writing 3** | | **3-5** |
| PRBA 495 | Writing 3: Business Ethics | |
| PRCJ 362 | Writing 3: Criminal Justice Research Design | |
| PRCJ 496 | Writing 3: Senior Capstone in Criminal Justice | |
| PRCO 310 | Writing 3: Writing for Communication | |
| PRCO 330 | Writing 3: Public Relations Strategies and Techniques | |
| PRPS 496 | Writing 3: Senior Seminar in Psychology and Christian Integration | |
| RNRS 358 | Writing 3: Evidence-Based Practice in Nursing and Healthcare | |
| RNRS 458 | Writing 3: Evidence-Based Practice, Theory, and Clinical Pathways | |
| UNRS 496 | Writing 3: Ethics and Issues in Health Care | |
| **Oral Communication** | | **3** |
| PRBA 125 | Business Communications | |
| PRCO 111 | Public Communication | |
| **Quantitative Literacy** | | **3** |
| PRBA 111 | Business Statistics | |
| PRMA 110 | College Algebra | |
| PRMA 130 | Introduction to Statistics | |
| UNRS 299 | Statistics and Data Management for Nursing and Health Care | |
| **Total Units** | | **16-19** |

[1]    Writing 2 is waived for professional undergraduate applicants transferring in 60+ units before beginning their first APU semester.

## Knowledge of Human Cultures and the Physical and Natural World

| Code | Title | Units |
|---|---|---|
| **History** | | **3** |
| PRHI 120 | World Civilizations to 1648 | |
| PRHI 121 | World Civilizations Since 1648 | |
| PRHI 151 | United States History to 1877 | |
| **Literature** | | **3** |
| PREN 111 | Studies in Literature | |

| | |
|---|---:|
| **Fine Arts** | **3** |
| PRAR 150 | Introduction to Art |
| **Social Science** | **3** |
| PRBA 200 | Survey of Economics |
| PRBA 211 | Organizational Leadership |
| PRBA 212 | Managing Diverse Teams and Groups |
| PRBA 250 | Principles of Macroeconomics |
| PRCJ 110 | Intro to Criminal Justice |
| PRPS 110 | General Psychology |
| PRPS 290 | Human Growth and Development |
| PRPS 345 | Psychology of Child and Adolescent Development |
| **Natural Science with Lab** | **4** |
| PRBI 101 | Biology and Society |
| PRCH 101 | Chemistry and Society |
| PRCH 123 | General, Organic, and Biological Chemistry for the Health Sciences |
| PRPY 112 | Science and Technology for Everyday Applications |
| **Total Units** | **16** |

# Biblical, Theological, and Philosophical Formation [2]

| Code | Title | Units |
|---|---|---:|
| PRBL 230 | Luke/Acts | 3 |
| PRTH 200 | Theology and the Christian Life | 3 |
| RNRS 396 | Professional Practice: Ethics, Issues, and Spirituality in Health Care [3] | 6 |
| Choose from the following: | | |
| PRMI 108 | Christian Life, Faith, and Ministry | 3 |
| PRBL 100 | Introduction to Biblical Literature: Exodus/Deuteronomy | 3 |
| PRPH 100 | Introduction to Philosophy | 3 |
| PRRS 200 | World Religions | 3 |
| **Total Units** | | **6-18** |

[2]    A professional undergraduate applicant's total number of units transferred in before their first APU semester changes the Biblical, Theological, and Philosophical Formation requirements. For more information, visit General Education Information for Professional Transfer Students (p. 1059).

[3]    This course is available only for students in the RN-BSN Nursing program, and fulfills the entire Biblical, Theological, and Philosophical Formation outcome area requirement.

# Personal and Social Responsibility

| Code | Title | Units |
|---|---|---:|
| **Civic Knowledge and Engagement** | | **3** |
| PRBA 110 | Business and Entrepreneurship | |
| PRBA 448 | Organization and Administrative Behavior | |
| PRCJ 200 | Criminal Justice, Civic Engagement, and Social Responsibility | |
| PRPO 150 | American Government | |
| PRPS 420 | Political Psychology | |
| PRPY 112 | Science and Technology for Everyday Applications | |
| UNRS 382 | Community Health Nursing | |
| UNRS 386 | Population and Community Health Nursing [4] | |
| **Intercultural Competence** | | **3** |
| PRBA 370 | International Business | |
| PRPS 400 | Multicultural Psychology | |
| UNRS 384 | Urban/Rural Health Nursing | |

| | | |
|---|---|---|
| UNRS 386 | Population and Community Health Nursing [4] | |
| **Total Units** | | **6** |

[4]   UNRS 386 is a 6-unit course that combines content from UNRS 382 and UNRS 384. When completed, this course meets the GE requirements for Civic Knowledge and Engagement, and Intercultural Competence.

## Integrative and Applied Learning

| Code | Title | Units |
|---|---|---|
| PRBA 450 | Strategic Management | |
| PRCJ 460 | Criminal Justice Internship | |
| PRCJ 494 | Senior Capstone in Criminal Justice | |
| PRCO 499 | Thesis/Project | |
| PRPS 455 | Field Experience | |
| PRPS 475 | Research Experience I | |
| RNRS 448 | Leadership in Health Care Settings | |
| RNRS 482P | Clinical Practicum | |
| UNRS 412 | Clinical Residency Nursing | |
| **Total Units** | | **2-3** |
| **AVERAGE TOTAL UNITS for GENERAL EDUCATION** | | **46-62** |

# Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Analyze the interactions of specific disciplines (e.g., science, mathematics, social science, humanities, history, language, or arts) with human culture.
2. Apply scientific vocabulary, data, methods, and/or principles to explain natural or human phenomena.
3. Critically analyze arguments (e.g., for assumptions, presumptions, alternative viewpoints, and logical consistency) to draw reasoned conclusions.
4. Communicate in writing effectively (e.g., fluent use of thesis, argumentation, support, source materials, organization, language, diction, grammar, syntax, and formatting).
5. Communicate orally effectively (e.g., strong organization, central message, language choice, supporting materials, and delivery techniques such as posture, gesture, eye contact, vocal expressiveness).
6. Demonstrate information literacy competencies by accessing information and evaluating its reliability and value, as well as collaboratively producing and sharing information ethically.
7. Demonstrate quantitative reasoning skills by applying mathematical and/or statistical concepts and techniques to analyze data in order to draw insightful conclusions within a wide variety of personal, professional, and public contexts.
8. Apply disciplinary knowledge in order to evaluate principles and practices of civic engagement and make informed decisions.
9. Engage with people and ideas from their own and other cultures (e.g., by seeking to understanding with curiosity, grace, humility, respect, and compassion).
10. Identify, analyze, and evaluate complex ethical issues within distinct ethical frameworks.
11. Interact with the breadth of Christian thought and practice by integrating at least two of the following: biblical texts, philosophical ideas, and theological traditions.
12. Synthesize and apply learning from multiple contexts including classroom and non-classroom experiences.
13. Utilize appropriate creative techniques or analytical constructs to examine, demonstrate, explain, interpret, or present artistic works in various settings and platforms.
14. Articulate best practices for improved personal wellness.

# Courses

## PRWR 110, Writing 1: The Art and Craft of Writing, 3 Units

Writing is a skill that can be practiced and improved. In this course, students learn about writing by approaching it from theoretical, historical, pedagogical, and practical perspectives. Students engage with writing processes, literacies, and genres by reading and writing about research and arguments dealing with all aspects of writing. Students also craft arguments of their own based on their research on the art and craft of writing. *Students must earn a C or higher in Writing 1 in order to register for Writing 2. *Meets the General Education Requirement: Writing 1: The Art Craft of Writing.*

## PRWR 112, Writing 1A: Writing and Rhetoric for Professional Students, 2 Units

Writing is a skill that can be practiced and improved. In this course, students learn about writing by approaching it from practical perspectives, engaging with writing processes, literacies, and genres by reading and writing about research and arguments dealing with all aspects of writing. *Meets the General Education Requirement: Writing 1 (PRWR112+PRWR115), Writing 1 (PRWR112+PRWR113).*

## PRWR 113, Writing 1B: Research and Writing for Professional Students, 2 Units

In this course, students build upon the foundation they established in PRWR 112, continuing to develop their writing processes and their writing portfolios by further revising, editing, and proofreading the major assignments from PRWR 112. They also improve their information literacy and research skills and write a comprehensive argument. Students must earn a C or better in PRWR 113 to enroll in Writing 2. *Meets the General Education Requirement: Writing 1 (PRWR112+PRWR113).*
**Prerequisite:** PRWR 112 Writing 1A: Writing and Rhetoric for Professional Students

## PRWR 115, Writing for Prior Learning, 3 Units

Writing is a lifelong skill that can be practiced and improved. In this course, each student writes a Prior Learning Essay, a key requirement for submitting a Prior Learning Assessment Portfolio (PLP). Writing the essay involves learning how to describe past experience, make reflective observations, articulate abstract principles, communicate personal competencies, perform self-guided research, and express one's professional goals. *Meets the General Education Requirement: Writing 1 (PRWR112+PRWR115).*
**Prerequisite:** Writing 1 or PRWR 112

## PRWR 260, Writing 2: Psychology Subdisciplines and Career Trajectories, 3 Units

This course provides a foundation for students to think, write and communicate as a psychological scientist. The specific style of writing is based on the American Psychological Association (APA) format that reflects the precepts within the discipline. The course focuses on the general writing process as well as the particular writing conventions in the social sciences to build critical skills in communication. As students learn to write thoughtfully and persuasively, students also engage in a comprehensive overview of the major subfields in the discipline of psychology and the variety of career trajectories that students may consider in behavioral settings. In the process of career exploration as it relates to central concerns, themes and professional trajectories, students will critically assess the writing style, questions, and arguments from multiple sub-disciplines. Students will also develop skill in formatting written work utilizing the style adopted by the APA in order to develop skills in effective writing, researching and identifying credible sources in the field. *Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*
**Prerequisite:** C- or better in PRWR 110 or PRWR 113

## PRWR 261, Writing 2: Writing in Business, 3 Units

In this course, students critically assess the writing styles, questions, and arguments found in the organizational environment in order to better understand what is considered persuasive and effective writing in business and management. Students respond to and evaluate writing, methodologies, ideas, and arguments, and practice rhetorical strategies being employed in their own field. *Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*
**Prerequisite:** C- or better in PRWR 110 or PRWR 113

## PRWR 262, Writing 2: Criminal Justice Research Methods, 3 Units

This course is designed to introduce students to research writing in the social and behavioral sciences. Students will examine the basic methods of research design, measurement, and data collection in Criminology and Criminal Justice. Students will compare research writing to other genres of writing, taking into account audience and rhetorical situation (as learned in Writing 1). Additionally, this course will focus on teaching students the techniques used to define research problems, select and appropriately measure variables, state hypotheses, and select experimental methods, culminating in each student completing a research proposal (topic of their own choosing). *Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*
**Prerequisite:** C- or better in PRWR 110 or PRWR 113, and PRCJ 110

# General Education Requirements for Traditional Undergraduate Students

APU's General Education program comprises five major outcome areas, and all of these requirements must be met by approved courses:

- Intellectual and Practical Skills
- Biblical, Theological, and Philosophical Formation
- Knowledge of Human Cultures and the Physical and Natural World
- Personal and Social Responsibility
- Integrative and Applied Learning

All courses approved to satisfy General Education requirements are identified in the class schedule and are included on the list of approved General Education courses; this list can be found below on this page, as well as at the Student Services Center (https://www.apu.edu/student-services/) and

at the Academic Success Center (https://www.apu.edu/advising/). Additional courses may be approved in the future, or some current courses may be removed in the future. Students are encouraged to take their General Education courses throughout all their years at APU.

Even though students work closely with a faculty advisor in determining their General Education requirements, the responsibility for fulfilling these requirements is solely that of the student. For more information, contact the Academic Success Center.

All students are required to access their Web-based Academic Requirements Report (through home.apu.edu (https://home.apu.edu)) under the Academics section for information regarding their major and General Education requirements and fulfillment of these requirements. Any questions about the application of transfer courses for course requirements should be directed to the Academic Success Center.

For additional information regarding the General Education program, visit either General Education for APU Students (https://sites.google.com/a/apu.edu/ge-for-apu-students/), or the General Education website tailored for faculty and staff (https://sites.google.com/a/apu.edu/apu-general-education/).

**Note: Bachelor of Music majors** are not required to take the Fitness for Life, Oral Communication, Foreign Language, Math, or Humanities: Fine Arts requirements. This statement does NOT apply to Bachelor of Arts music majors.

*Courses listed in 2 categories cannot satisfy both requirements; students must choose which category the course will fulfill.* The sole exception to this rule is UNRS 386, a 6-unit course course that is a combination of two other GE courses that meets the Intercultural Competence and the Civic Knowledge and Engagement categories.

# Intellectual and Practical Skills

Inquiry and Analysis, Critical and Creative Thinking, Written and Oral Communication, Personal Wellness, Quantitative Literacy, Information Literacy, and Teamwork and Problem Solving.

| Code | Title | Units |
|---|---|---|
| GE 100 | First-Year Seminar [1] | 3 |
| WRIT 110 | Writing 1: The Art and Craft of Writing | 3 |
| **Writing 2** | | **3** |

# Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Analyze the interactions of specific disciplines (e.g., science, mathematics, social science, humanities, history, language, or arts) with human culture.
2. Apply scientific vocabulary, data, methods, and/or principles to explain natural or human phenomena.
3. Critically analyze arguments (e.g., for assumptions, presumptions, alternative viewpoints, and logical consistency) to draw reasoned conclusions.
4. Communicate in writing effectively (e.g., fluent use of thesis, argumentation, support, source materials, organization, language, diction, grammar, syntax, and formatting).
5. Communicate orally effectively (e.g., strong organization, central message, language choice, supporting materials, and delivery techniques such as posture, gesture, eye contact, vocal expressiveness).

6. Demonstrate information literacy competencies by accessing information and evaluating its reliability and value, as well as collaboratively producing and sharing information ethically.

7. Demonstrate quantitative reasoning skills by applying mathematical and/or statistical concepts and techniques to analyze data in order to draw insightful conclusions within a wide variety of personal, professional, and public contexts.

8. Apply disciplinary knowledge in order to evaluate principles and practices of civic engagement and make informed decisions.

9. Engage with people and ideas from their own and other cultures (e.g., by seeking to understanding with curiosity, grace, humility, respect, and compassion).

10. Identify, analyze, and evaluate complex ethical issues within distinct ethical frameworks.

11. Interact with the breadth of Christian thought and practice by integrating at least two of the following: biblical texts, philosophical ideas, and theological traditions.

12. Synthesize and apply learning from multiple contexts including classroom and non-classroom experiences.

13. Utilize appropriate creative techniques or analytical constructs to examine, demonstrate, explain, interpret, or present artistic works in various settings and platforms.

14. Articulate best practices for improved personal wellness.

## Courses

### GE 100, First-Year Seminar, 3 Units

First-Year Seminar is designed to introduce students to academic success strategies and foster a sense of belonging at the university through engagement in the curricular and cocurricular life on campus. These small, seminar-style classes form around a broad, interdisciplinary topic or question and are taught by experienced faculty focused on students' critical thinking and communication skills, information literacy, spiritual formation, diversity competency, and wellness. The course helps students clarify their purpose, meaning, and direction, and promotes campus engagement and utilization of campus resources. *Meets the General Education Requirement: First Year Seminar.*
**Corequisite:** MATH 90, MATH 99, or ALEKS 30-100 or satisfaction of GE Quantitative Literacy requirement.

### GE 101, Academic Success Lab, 1 Unit

The Academic Success Lab is designed to support student admitted to the University in the Academic Success Launch Program. Through this course students will gain an increased awareness of on campus resources, create personal and academic goals and will be able to implement success strategies to maintain good academic standing at APU.
**Prerequisite:** Admission into the Academic Success Launch Program

### WRIT 101, Writing Lab, 1 Unit

WRIT 101 is a one-unit course designed to support students currently enrolled in any course at APU where assistance is needed to meet college-level writing expectations. The Lab will provide a space for students to engage with the foundational concepts introduced in APU's writing program, such as developing a writing process, understanding rhetorical situations, and crafting sound arguments. Within a casual, interactive workshop format that is practical and tailored to the unique needs of the group members, students meet four times weekly to further develop their writing skills and their individual writing processes. Students should expect to bring assignments or projects from their class to each Lab meeting.
**Prerequisite:** Students must be enrolled at APU.

### WRIT 110, Writing 1: The Art and Craft of Writing, 3 Units

Writing is a skill that can be practiced and improved. In this course, students learn about writing by approaching it from theoretical, historical, pedagogical, and practical perspectives. Students engage with writing processes, literacies, and genres by reading and writing about research and arguments dealing with all aspects of writing. Students also craft arguments of their own based on their research on the art and craft of writing. *Students must earn a C- or higher in Writing 1 in order to register for Writing 2. *Meets the General Education Requirement: Writing 1: The Art Craft of Writing.*

### WRIT 120, Writing 1 Lab, 1 Unit

For students who have chosen through advising and self-placement to receive the extra support that will encourage success in their Writing 1 course, the Writing 1 Lab provides weekly tutorials on Writing 1 assignments and brief assignments that provide enrichment in reading/writing/rhetoric/grammar in ways that support their work as writers in Writing 1. During weekly one hour sessions, students will work with a writing coach to further develop their writing processes, their handling of language conventions at the sentence and paragraph level, and deepen their reading and writing through peer editing sessions with a writing coach. Work will include tutoring on Writing 1 assignments, including rough drafts for Writing 1, and additional small assignments designed for the lab to link reading, writing, logic, and grammar. Students should expect to work two additional hours outside of the session. 1 unit course.
**Prerequisite:** Co-requisite: WRIT 110

### WRIT 200, Writing 2: Writing for Christian Practice, 3 Units

In this course, students will critically assess the writing styles, questions, and arguments of one or more disciplines in order to better understand what is considered persuasive and effective writing in those fields. Students will respond to and evaluate writing, methodologies, ideas, and arguments and practice rhetorical strategies being employed in their own field. *Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*
**Prerequisite:** GE 100, MIN 108; HON 101 or C- or Better in WRIT 110

## WRIT 201, Writing 2: Philosophy of Math, Logic, and Language, 3 Units

Why is mathematics so effective in describing the physical universe? What happens when ordinary reasoning and languages are translated into more abstract mathematical and logical symbolism? Is anything lost in translation? This course introduces students to these and other questions on the nature of mathematics, logic, and language. Students evaluate the arguments, writing styles, rhetorical strategies, and types of evidence employed by the mathematicians, scientists, and philosophers addressing these questions. By critically thinking about formal logical and mathematical discourse, students become better writers in and about that discourse. *Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*
**Prerequisite:** GE 100, HON 101, or C- or better in WRIT 110; PHIL 310 or MATH 280 or instructor's consent.

## WRIT 202, Writing 2: Philosophical Writing in C. S. Lewis, 3 Units

C. S. Lewis was one of the most influential public Christian intellectuals of the 20th century. One of the reasons for this is that he wrote clearly and persuasively about the perennial questions of philosophy but for the common person. In this course, we will study and practice the art of writing well on philosophical matters for a broad audience. Students will critically assess the writing styles, questions, and arguments of philosophical writing for a general audience and will contrast what it takes to do such writing well with related forms of writing such as philosophical writing for a specialist audience and philosophical writing in fictional form. We will do so by analyzing, emulating, and critiquing the work of C. S. Lewis from the standpoint of philosophy. *Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*
**Prerequisite:** GE 100, HON 101 or C- or Better in WRIT 110

## WRIT 203, Writing 2: Writing in Religion, Cinema, and Popular Culture, 3 Units

In this course, students critically assess the writing styles, questions, and arguments in the discipline of religious studies, with special focus on the study of religion and visual studies in order to better understand what is considered persuasive and effective writing in religious studies. Students respond to and evaluate writing, methodologies, ideas, arguments, and genres, and practice rhetorical strategies employed in the field. *Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*
**Prerequisite:** GE 100, HON 101, or C- or better in WRIT 110.

## WRIT 204, Writing 2: Writing for the Humanities in Spanish, 3 Units

Students in this course critically assess writing styles, questions, and arguments important to the humanities through a study of great works and life's enduring questions. In order to understand better what is considered persuasive and effective writing in the humanities, students respond to and evaluate writing, methodologies, ideas, and arguments, and practice rhetorical strategies employed in the liberal arts. The entire course, including all assignments, is in Spanish. *Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*
**Prerequisite:** GE 100, HON 101 or C- or better in WRIT 110, and SPAN 202

## WRIT 210, Writing 2: Writing in the Humanities, 3 Units

In this course, students will critically assess writing styles, questions, and arguments important to the humanities through a study of great works and life's enduring questions. In order to understand better what is considered persuasive and effective writing in the humanities, students will respond to and evaluate writing, methodologies, ideas, and arguments, and practice rhetorical strategies being employed in the liberal arts. *Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*
**Prerequisite:** GE 100, HON 101 or C- or Better in WRIT 110

## WRIT 220, Writing 2: Film Analysis and Criticism, 3 Units

This course is an introduction to film as a narrative and visual medium, emphasizing the terms, methods, and techniques of film analysis. Students view and discuss films in terms of formal elements - plot structure, character development, themes, genres, and literary sources. Some attention is given to the history of cinema, film criticism and theory, as well as film production from development through distribution. *Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*
**Prerequisite:** GE 100, HON 101 or C- or better in WRIT 110, and department consent.

## WRIT 221, Writing 2: Writing for Visual Thinkers, 3 Units

In this course, students examine writing styles as expressed in the studio arts and design, whether as criticism, analysis, personal expression, persuasion, or artist and designer statements. Students will learn how to translate their visual world into words, and to evaluate visual ideas, both their own and others; as those gifted for visual expression are able. In order to understand how to write persuasively and effectively, students will examine theoretical approaches that are employed as conceptual frameworks in making art and design. *Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*
**Prerequisite:** GE 100, HON 101 or C- or Better in WRIT 110

## WRIT 222, Writing 2: Writing about Music, 3 Units

In this course, students examine methods and tools of research and writing in music. They assess and practice various writing styles, as well as questions and arguments associated with (1) the historical fields of research (e.g., musicology, ethnomusicology, music education, music criticism, music analysis, program notes) and (2) music entrepreneurship (e.g., music business, production, marketing, artist management). Students also become familiar with online and hard copy music resources available in Marshburn Memorial Library. *Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*
**Prerequisite:** GE 100, HON 101 or C- or Better in WRIT 110

## WRIT 240, Writing 2: Scientific Writing, 3 Units

In this course, students critically assess genres of scientific writing, including scientific journal articles, grant proposals, and writing for popular audiences, examining writing styles and forms of argument that are considered persuasive in the sciences. Students also evaluate writing samples, methodologies, ideas, and arguments, and practice writing in scientific genres. *Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*
**Prerequisite:** GE 100, HON 101 or C- or better in WRIT 110; and BIOL 152, BIOL 250, CHEM 152, PHYC 156, or PHYC 166.

## WRIT 241, Writing 2: Physical Activity and Health Promotion, 3 Units

Students in this course have multiple opportunities to share knowledge through written assignments and brief verbal responses. The course activities challenge the student to consider the audience and platform for communication, develop a concise argument, persuade readers, and critically evaluate research articles. Students also enhance their skills in literature searches using library databases, and gain proficiency in citing using APA formatting. *Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*
**Prerequisite:** GE 100; HON 101 or C- or better in WRIT 110; C- or higher in BIOL 230 or BIOL 250; students must be kinesiology majors, other majors may enroll by instructor consent.

## WRIT 242, Writing 2: Entrepreneurial Tech Start-ups, 3 Units

In this course, students critically assess the writing styles, questions, and arguments of business, computer science, and technology in order to better understand what is considered persuasive and effective writing in these fields. Students respond to and evaluate writing, methodologies, ideas, and arguments, and practice rhetorical strategies being employed in their own field while analyzing and contributing to current trends in the field through the creation of relevant business-tech documents. *Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*
**Prerequisite:** GE 100, HON 101 or C- or better in WRIT 110

## WRIT 243, Writing 2: Mathematical Careers and Callings, 3 Units

In this course, students explore a variety of mathematical careers, assess writings from subdisciplines of mathematics, evaluate arguments regarding the purpose or value of mathematics, and explore the value of mathematical work in their individual contexts. Students critically assess the writing styles, questions, and arguments of mathematicians in a variety of careers in order to better understand what is considered persuasive and effective writing in those fields, and also practice rhetorical strategies. Course material includes Christian perspectives on the value of work and culture in general and the value and purpose of mathematical work in particular. *Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*
**Prerequisite:** HON 101 or WRIT 110 with C- or better

## WRIT 260, Writing 2: Psychology Subdisciplines and Career Trajectories, 3 Units

This course provides a foundation for students to think, write, and communicate as psychological scientists. The specific style of writing is based on the American Psychological Association (APA) format, which reflects the precepts of the discipline. The course focuses on the general writing process as well as the particular writing conventions in the social sciences to build critical skills in communication. As students learn to write thoughtfully and persuasively, they also engage in a comprehensive overview of the major subfields in the discipline of psychology and the variety of career trajectories that students may consider in behavioral settings. In the process of career exploration as it relates to central concerns, themes, and professional trajectories, students critically assess the writing style, questions, and arguments from multiple subdisciplines. Students also develop skill in formatting written work utilizing APA style, in order to develop skills in effective writing, researching, and identifying credible sources in the field. *Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*
**Prerequisite:** GE 100, HON 101, or C- or better in WRIT 110.

## WRIT 261, Writing 2: Writing in Business, 3 Units

In this course, students critically assess the writing styles, questions, and arguments found in the organizational environment in order to better understand what is considered persuasive and effective writing in business and management. Students respond to and evaluate writing, methodologies, ideas, and arguments, and practice rhetorical strategies being employed in their own field. *Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*
**Prerequisite:** GE 100, HON 101 or C- or Better in WRIT 110

## WRIT 262, Writing 2: Criminal Justice Research Methods, 3 Units

This course introduces students to research writing in the social and behavioral sciences, including the basic methods of research design, measurement, and data collection in criminology and criminal justice. Students compare research writing to other genres of writing, taking into account audience and rhetorical situation (as learned in Writing 1). Students also learn the techniques used to define research problems, select and appropriately measure variables, state hypotheses, and select experimental methods, culminating in each student completing a research proposal on a topic of their own choosing. *Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*
**Prerequisite:** GE 100, HON 101 or C- or better in WRIT 110; MATH 115 or MATH 130; and CJ 110

## WRIT 263, Writing 2: Writing Ethnography in the Social Sciences, 3 Units

Ethnography is a research methodology used in business, education, health care, and ministry. In this course, students critically assess genres of ethnographic writing in the social sciences, including analytical journals, journal articles, and writing for popular audiences. Students examine writing styles and forms of argument that are considered persuasive in the social sciences. Students evaluate writing samples, methodologies, ideas, and arguments, and practice writing in social scientific genres. *Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*
**Prerequisite:** GE 100, HON 101 or C- or Better in WRIT 110

# Honors Course Equivalency

Students who have completed Honors (p. 884) courses will be granted GE credit according to the following chart:

| Honors Course(s) Completed | GE Requirement(s) Satisfied* |
|---|---|
| HON 101 (Leadership, 6 units) | UBBL 100, Oral Communication, GE 100, and WRIT 110 |
| 6 Units from HON 240, HON 260, HON 280, or HON 300 | Student's Choice of 6 Units from MIN 108 or UBBL 230, Humanities: Literature, Humanities: History, or Philosophy |
| 12 units from HON 240, HON 260, HON 280, or HON 300 | Student's choice of 12 units from MIN 108, UBBL 230, Humanities: Literature, Humanities: History, Humanities: Fine Arts, Philosophy, and Writing 2: Genre, Evidence, and Persuasion |
| 18 units from HON 240, HON 260, HON 280, or HON 300 | Student's choice of 18 units from: MIN 108, UBBL 230, Humanities: Literature, Humanities: History, Humanities: Fine Arts, Philosophy, Civic Knowledge and Engagement, Intercultural Competence, Theology, and Writing 2: Genre, Evidence, and Persuasion |
| 24 units from HON 240, HON 260, HON 280, and HON 300 | Student's choice of 24 units from: MIN 108, UBBL 230, Humanities: Literature, Humanities: History, Humanities: Fine Arts, Philosophy, Theology, Civic Knowledge and Engagement, Intercultural Competence, Integrative and Applied Learning, Writing 2: Genre, Evidence, and Persuasion, and Writing 3: Writing in the Discipline |
| HON 340 (Nature, 6 units) | Humanities: Natural Sciences and Humanities: Social Sciences |
| HON 360 (Democracy, 3 units) | Humanities: History |
| HON 380 (Wisdom, 3 units) | Upper-Division Bible |

**\*Though the completion of certain Honors courses results in GE credit, some courses in the second column may still be required for the student's other (non-Honors humanities) major.**

# Time to Completion

The following represents the average time it takes for a student to complete a degree program, assuming they maintain a full-time study load.

| | |
|---|---|
| Bachelor Degrees (Traditional and Professional) | 4 years |
| Adapted Physical Education Added Authorization | 1 year |
| Adult-Gerontology Clinical Nurse Specialist Certificate | 2 years |
| Adult-Gerontology Primary Care Nurse Practitioner Certificate | 2.3 years |
| Applied Behavior Analysis Specialization | 1 year |
| Artist Certificate in Music Performance | 2 years |
| Change Strategies for Consulting Certificate | 1 year |
| Data Analysis and Visualization Certificate | 1 year |
| Digital Marketing and Social Media Certificate | 1 year |
| Doctor of Education in Educational Leadership | 3 years |
| Doctor of Education in Higher Education Leadership | 3 years |
| Doctor of Ministry | 4 years |
| Doctor of Nursing Practice | 2 years |
| Doctor of Philosophy in Higher Education | 5 years |
| Doctor of Philosophy in Nursing | 4 years |
| Doctor of Philosophy in Rehabilitation and Movement Science | 6 years |
| Doctor of Physical Therapy | 3 years |
| Doctor of Psychology in Clinical Psychology | 5 years |
| Educational Specialist in School Psychology | 3 years |
| Family Nurse Practitioner Certificate | 2 years |
| Foundations of Human Resources Certificate | 1 year |
| Government Budgeting Certificate | 1 year |
| Healthcare Administration and Leadership Certificate | 1 year |
| Leadership Development Certificate | 1 year |

| | |
|---|---|
| Master of Arts in Art Education | 2 years |
| Master of Arts in Clinical Psychology (Psy.D.) | 2 years |
| Master of Arts in Clinical Psychology: Marriage and Family Therapy | 2 years |
| Master of Arts in Education: Educational and Clinical Counseling with an Embedded Pupil Personnel Services in School Counseling Credential | 2.5 years |
| Master of Arts in Education: Educational Counseling with an Embedded Pupil Personnel Services Credential in School Counseling | 2 years |
| Master of Arts in Education: Educational Psychology (Ed.S.) | 2 or 3 years |
| Master of Arts in Education: Learning and Technology | 1.5 years |
| Master of Arts in Education: Special Education | 1.5 years |
| Master of Arts in Education: Teaching | 1.5 years |
| Master of Arts in English | 2 years |
| Master of Arts in Leadership | 1 year |
| Master of Arts in Modern and Contemporary Art History | 2 years |
| Master of Arts in Music Industry | 2 years |
| Master of Arts in Pastoral Studies | 3 years |
| Master of Arts in Physical Education and Adapted Physical Education Added Authorization | 2 years |
| Master of Arts in Physical Education and Single-Subject Teaching Credential | 1.5 years |
| Master of Arts in Screenwriting | 2.2 years |
| Master of Arts in Strategic Communication | 2 years |
| Master of Arts in Teaching English to Speakers of Other Languages (Christ's College) | 1 year |
| Master of Arts in Teaching English to Speakers of Other Languages (Online) | 1.6 years |
| Master of Arts in Teaching English to Speakers of Other Languages (Traditional/Field-based) | 2 years |
| Master of Arts in User Experience Design | 2 years |
| Master of Business Administration | 2.5 years |
| Master of Business Management | 2.5 years |
| Master of Divinity | 4 years |
| Master of Fine Arts in Visual Art | 3.3 years |
| Master of Music Education | 2 years |
| Master of Music in Composition | 2 years |
| Master of Music in Conducting | 2 years |
| Master of Music in Performance | 2 years |
| Master of Professional Accountancy (Executive Option) | 1 year |
| Master of Professional Accountancy (Traditional Option) | 2 years |
| Master of Public Administration | 2 years |
| Master of Public Health | 2 years |
| Master of Science in Applied Statistics and Data Science | 2 years |
| Master of Science in Biotechnology | 1.7 years |
| Master of Science in Child Life | 1.5 years |
| Master of Science in Child Life (Advanced Standing) | 1 year |
| Master of Science in College Counseling and Student Development | 2 years |
| Master of Science in Counseling Psychology with Specialization in Children and Adolescents | 2 years |
| Master of Science in Healthcare Administration | 2.1 years |
| Master of Science in Nursing (Entry-Level Masters) | 1.3 years |
| Master of Science in Nursing: Adult-Gerontology Clinical Nurse Specialist (Traditional or Entry-Level Masters) | 3 or 4 years |
| Master of Science in Nursing: Adult-Gerontology Primary Care Nurse Practitioner (Traditional or Entry-Level Masters) | 3 or 4 years |

| | |
|---|---|
| Master of Science in Nursing: Family Nurse Practitioner (Traditional or Entry-Level Masters) | 3 or 4 years |
| Master of Science in Nursing: Family Nurse Practitioner and School Nurse Services Credential (Traditional or Entry-Level Masters) | 5 years |
| Master of Science in Nursing: Healthcare Administration and Leadership (Traditional or Entry-Level Masters) | 2 or 4 years |
| Master of Science in Nursing: Nursing Education (Traditional or Entry-Level Masters) | 2 or 4 years |
| Master of Science in Nursing: Pediatric Clinical Nurse Specialist (Traditional or Entry-Level Masters) | 3 or 4 years |
| Master of Science in Nursing: Pediatric Nurse Practitioner-Primary Care (Traditional or Entry-Level Masters) | 3 or 4 years |
| Master of Science in Nursing: Pediatric Nurse Practitioner-Primary Care and School Nurse Services Credential (Traditional or Entry-Level Masters) | 5 years |
| Master of Science in Nursing: Psychiatric Mental Health Nurse Practitioner (Traditional or Entry-Level Masters) | 3 or 4 years |
| Master of Science in Nursing: School Nursing and School Nurse Services Credential (Traditional) | 3 years |
| Master of Science in Organizational Psychology | 2 years |
| Master of Science in Physical Education | 2 years |
| Master of Science in Research Psychology and Data Analysis | 1 year |
| Master of Social Work | 4 years |
| Master of Social Work (Advanced Standing) | 0.8 years |
| Master of Social Work (Three Year Part-Time) | 3 years |
| Mild/Moderate Disabilities Specialist Credential | 1 year |
| Moderate/Severe Disabilities Specialist Credential | 1 year |
| Multiple Subject Teaching Credential | 1 year |
| Nursing Education Certificate | 2.3 years |
| Oncology Nurse Practitioner Certificate | 1 year |
| Pediatric Clinical Nurse Specialist Certificate | 2 years |
| Pediatric Nurse Practitioner Primary Care Certificate | 2 years |
| Physical Therapy Postprofessional Clinical Fellowship in Movement and Performance | 1 year |
| Play Therapy Certificate | 2 years |
| Psychiatric Mental Health Nurse Practitioner Certificate | 2.7 years |
| Pupil Personnel Services Credential in School Counseling | 2 years |
| Pupil Personnel Services Credential in School Psychology | 3 years |
| Pupil Personnel Services Credential in School Social Work and Child Welfare and Attendance Services | 1 year |
| School Nurse Services Credential | 2 years |
| Single Subject Teaching Credential | 1 year |
| Strengths-Oriented Higher Education Certificate | 1 year |
| Substance Use Disorders Certificate | 1 year |
| Supply Chain and Logistics Certificate | 1 year |
| Teaching English as a Foreign Language Certificate | 0.5 year |
| Teaching English to Speakers of Other Languages Certificate (Traditional/Online) | 1 year |

# Faculty At Large

The following are faculty members at Azusa Pacific University who are not directly affiliated with a particular college or school within the university:

## Professor

- David Harmeyer (https://www.apu.edu/faculty/dharmeyer/), EdD, University Libraries

## Associate Professors

- Denise Gehring (https://www.apu.edu/library/faculty/drgehring/), MS, MA, University Libraries
- Evelyn Shimazu Yee (https://www.apu.edu/library/faculty/eyee/), MLIS, University Libraries
- Lindsey Sinnott (https://www.apu.edu/library/faculty/lsinnott/), MSLIS, MATS, University Libraries
- Jennifer Blair (https://www.apu.edu/faculty/jblair/), MSLIS, MA, University Libraries

# Faculty Development

Faculty are called to teaching excellence and to scholarship permeated by their Christian faith. Recognizing the need for continual growth and improvement, APU supports and encourages its faculty to develop professionally, and commits to fostering an atmosphere wherein academics are not simply taught, but lived.

Toward this end, in addition to a variety of colloquia, workshops, learning communities, and other resources, the following professional development graduate course is offered through the Office of Faith Integration (https://www.apu.edu/faithintegration/). This course is designed for faculty, but it can be taken for elective credit by graduate students if approved by a program director and the instructor.

## Course Offering

| Code | Title | Units |
|------|-------|-------|
| GRAD 533 | Faculty Writing Program: Faculty Writing Salon | 3 |

# Sunsetted Programs

Use the tabs to view lists of Azusa Pacific University programs in which students may be finishing up coursework but which are no longer accepting new students.

## Undergraduate Programs

| Degree | Sunset Year |
|--------|-------------|
| B.S. in Christian Leadership | 2014 |
| B.A. in Math-Physics | 2015 |
| B.A. in Pre-Engineering (3/2 program) | 2015 |
| B.A. in Athletic Training | 2016 |
| B.A. in Spanish with Single Subject Teaching Credential | 2016 |
| B.S. in Information Security | 2016 |
| B.S. in Information Systems | 2016 |
| B.S. in Management Information or Computer Information Systems | 2016 |
| Minor in French | 2016 |
| Minor in Religion and Culture | 2016 |
| Minor in Religion | 2016 |
| B.A. in Physical Education | 2017 |

| M.A. in Educational Leadership and Preliminary Administrative Services Credential | 2020 |
| Certificate in Clinical Counseling | 2020 |
| Teacher Librarian Services Credential | 2021 |
| M.A. in School Librarianship with an Embedded Teacher Librarian Services Credential | 2021 |
| M.A. in Educational Technology | 2022 |
| M.A. (Theological Studies) | 2022 |
| M.S. in Athletic Training | 2022 |
| Certificate in TESOL (Field-Based) | 2023 |
| M.A. in TESOL (Field-Based) | 2023 |
| Physical Therapy Postprofessional Clinical Fellowship in Movement and Performance | 2023 |
| Master of Public Administration | 2024 |
| M.M. in Performance: Keyboard Collaborative Arts | 2024 |
| M.A. in Music Industry | 2024 |

# Admissions

This section of the Azusa Pacific University Academic Catalog contains information pertinent to admissions considerations. Select from the following to begin:

- Undergraduate (Azusa) (p. 938) (Traditional Undergraduate)
- Professional Undergraduate (p. 952) (Regional Locations, Online)
- Graduate (p. 957)

# Undergraduate (Azusa) Admissions

- Admission Deadlines (p. 938)
- Admission Status (p. 939)
- Admission to Particular Majors (p. 939)
- Admission to the University (p. 939)
- APU Associate Degree for Transfer (ADT) (p. 940)
- Campus Housing (p. 940)
- Confirmation of Admission (p. 940)
- Credit by Examination (p. 941)
  - Credit for Advanced Placement (AP) Exams (p. 942)
  - Credit for International Baccalaureate (IB) Program (p. 944)
- False Information (p. 946)
- Freshman Applicants (p. 946)
- High School Nongraduates (p. 947)
- Homeschooled Students (p. 947)
- International Students (p. 948)
  - International Services (p. 948)
  - International Undergraduate Admission (p. 948)
- Notification of Admission (p. 950)
- Part-Time Applicants (p. 950)
- Proficiency Exams and Placement Assessments (p. 951)
- Readmission and Reenrollment (p. 951)
- Transfer Applicants (p. 951)
- Veterans' Education Benefits (p. 952)

# Admission Deadlines

**FOR THE SPRING SEMESTER** (first-year/freshman and transfer students)

| | |
|---|---|
| Priority Application Deadline | October 15 |
| Final Deadline for All Application Materials | December 1 |
| **FOR THE FALL SEMESTER** | |
| **Early Action**[1] (first-year/freshman applicants) | |
| Application Deadline | November 15 |
| Notification | Rolling Admission |
| Final Notification | April 1 |
| **Regular Decison** (first-year/freshman applicants) | |
| Application Deadline | February 15 |
| Notification | No later than April 1 |
| Final Deadline for All Application Materials | June 1 |
| **Regular Decision** (transfer applicants) | |

| Priority Application Deadline | February 15 |
| Final Deadline | July 1 |

[1] Early Action is not available for transfer students.

# Admission Status

Applicants who are granted admission to the university without restriction are considered to be in regular standing. They are permitted to continue in this classification as long as they maintain a satisfactory grade-point average and continue to meet the general standards established by the university for admission and graduation.

Some applicants may be deficient in one or more of the requirements for admission but, in the estimation of the Admissions Committee, merit the opportunity to prove themselves at APU. Such applicants are admitted into the Academic Success Launch Program and are provided one-on-one support from the Academic Success Center. Applicants admitted into this program meet with their assigned coach within the first month of enrollment and set up an individualized academic success plan, and benefit from personalized one-on-one coaching, workshops, and connections to on-campus resources. Additionally, these applicants must take GE 101 Academic Success Lab (1 unit), which is designed to equip students for success at APU. The number of students admitted to the Academic Success Launch Program each year is limited.

Students are often granted admission with incomplete admissions requirements, particularly if they are enrolled in courses at another institution during their admissions process. In these cases, students are obligated to complete admissions requirements as soon as possible, including submission of all final official transcripts with no in-progress coursework. Failure to satisfactorily complete all requirements in a timely manner may result in withdrawal of the university's acceptance offer, or forfeiture of financial aid and registration privileges.

# Admission to Particular Majors

Admission to Azusa Pacific does not automatically guarantee admission to certain specialized programs within the university. The program admission criteria are set and acceptance is determined by the faculty of these specialized programs. Information regarding application deadlines and admission criteria may be obtained from the office of the academic discipline to which the student wishes to apply, or from the Office of Undergraduate and International Admissions (https://www.apu.edu/uga/).

# Admission to the University

Azusa Pacific University brings to its campus students who are committed to personal, intellectual, and spiritual growth. The university encourages applications from students who will contribute to, as well as benefit from, the university experience. In assessing the applicant's potential for success, academic capabilities, as well as involvement in church, school, and community activities, are reviewed.

Freshman applicants are not required to complete a specific set of courses; however, the following college preparatory courses are strongly recommended: English (four years), mathematics (including first- and second-year algebra and geometry, as well as a third-year course), science (two years, including a laboratory science), foreign language (two years), United States history and government, and strong academic electives (including fine arts courses). Prospective students interested in the nursing programs must take, at the least, biology (one year), chemistry (one year), and algebra (two years) in high school.

The applicant's previous scholastic record is considered an important indicator of potential success at the university. Applicants seeking regular admission to APU are required to achieve a minimum grade-point average of 3.0 in high school or 2.2 in previous academic college work. Grade-point averages are determined by the university (for information on admission with provisional or developmental status, see Admission Status (p. 939)). While each applicant is considered for admission on individual merit, certain criteria are used in the selection process. However, meeting the minimum requirements **does not** guarantee admission to the university. These criteria are delineated in the following sections. In some cases, the Admissions Committee may request a personal interview with the applicant. Azusa Pacific University, in compliance with federal regulations, does not discriminate on the basis of race, color, national origin, sex, age, disability, or status as a veteran.

To apply for admission to Azusa Pacific University, visit our online application portal (https://www.apu.edu/apply/) or request an application from the Office of Undergraduate and International Admissions (https://www.apu.edu/undergraduate-admissions/).

Prospective freshman students may apply for Early Action. The Early Action applicant must be a high school senior and Azusa Pacific University should be one of his/her first-choice colleges.

Candidates not accepted for Early Action may be notified that they will be reconsidered for admission under Regular Decision. This will allow time for the submission of additional materials that might strengthen the overall file or meet major requirements (e.g., fall grades, test-optional admission process, and/or additional SAT/ACT scores).

# APU Associate Degree for Transfer (ADT)

An Associate Degree for Transfer (ADT) is a guaranteed pathway for transfer into APU. After earning an approved Associate of Arts for Transfer (AA-T) or Associate of Science for Transfer (AS-T) degree, students will be guaranteed admission to APU with junior standing.

Additional benefits include:

- Priority admission for students from community colleges with whom we have partner agreements to an APU program or major that is similar to the ADT.

- Eliminating confusion by solidifying major preparation requirements accepted by APU from the community college.

- Guaranteed completion of your bachelor's degree in no more than 68 units if you remain on track with your academic plan.

Applicants who have completed an ADT in a major deemed similar to their intended major at APU will receive priority admissions consideration. An earned ADT must be completed by January 31 for spring admits and September 30 for fall admits.

## Associate Degree for Transfer (ADT) Checklist

In order to receive the benefits for an ADT, the following must apply:

- The applicant must be APU eligible. To find out more about APU eligibility, see Admission Deadlines (p. 938).

- The degree must be deemed "similar" by APU.

- APU must receive verification that you have completed or will complete the ADT by January 31 for spring admits and September 30 for fall admits.

- APU must receive an official final transcript showing that an ADT has been conferred.

- To uphold the guarantee of completing your Bachelor's degree with 68 semester units, you must maintain continuous enrollment in the same academic major. You must successfully complete all the required coursework without the need to repeat courses or supplement instruction with additional courses for minors or areas of emphasis.

Throughout the admissions process, we will verify the degree similarity and whether the degree is on track or completed, and confirm your transcripts upon completion. Additionally, you will be notified of any changes in your admissions consideration.

Should you not meet the ADT requirements, your application will still be considered in the general applicant pool for the major and campus to which you applied.

# Campus Housing

Because the residential experience strongly supports the mission of APU, all traditional undergraduates who do not live locally at home are required to live in campus housing during their freshman and sophomore years. An exemption process exists for students who live with their parents locally, married students, and students who have special circumstances that present an obstacle to campus residency. Incoming freshman students and sophomore transfer students must submit a Request for Campus Housing Assignment form or a Request for Campus Housing Exemption form. The Request for Campus Housing Assignment form is sent to incoming students after their enrollment deposit is paid. The Request for Campus Housing Exemption form can be obtained from your admissions counselor in the Office of Undergraduate and International Admissions (https://www.apu.edu/undergraduate-admissions/). Junior and senior transfer students are strongly encouraged to submit a housing request form to live in campus housing as well.

APU also has a limited graduate housing program. Students who are interested should submit their housing request as early as possible.

While the university is the sole determiner of final housing assignments, specific living area and mutual roommate requests are met whenever possible, though specific requests are less likely to be realized once living areas begin to fill. Campus housing is limited to the Azusa campus. Learn more about campus housing at APU. (https://www.apu.edu/housing/)

# Confirmation of Admission

To confirm they wish to attend APU, students must send a $300 enrollment deposit by **May 1** for the fall semester and **December 1** for the spring semester. This deposit is refundable **only** until the aforementioned dates, with a written request. Azusa Pacific processes deposits received after postal deadlines according to space availability. The deposit is not an additional fee, but is credited to the student's account.

# Credit by Examination

Undergraduate students may receive credit for an APU course by taking an examination in place of the course. Some exams can be taken prior to admission to APU. View information below for each type of exam, equivalent courses, and other conditions that may apply to credit being awarded.

Four examinations are recognized by the university: Advanced Placement (AP) tests (p. 942), College Level Examination Program (CLEP) (p. 1114), International Baccalaureate (IB) program (p. 944), and Departmental Credit Examinations (DCE).

Credit is granted to students who score a 3 or higher on an AP test, meet the cutoff level (individually determined by each APU department or school) in CLEP subject area tests, or earn a 5 or higher on the IB higher-level exams.

There is no maximum number of credits that can be accumulated from AP, CLEP, IB, and/or DCEs. Credit received by examination is tuition-free and applies toward the total requirement for graduation from the university. Administrative fees may be applied.

College credit earned by a student still in high school may be transferred to Azusa Pacific University provided that the course was taken at an accredited college/university. An official college transcript must be sent from the college/university to Azusa Pacific in order for such coursework to be evaluated for transfer of credit. Requirements for transfer applicants apply.

Challenge exams are available only in the School of Nursing according to specific guidelines.

## Departmental Credit Examinations (DCE)

A Departmental Credit Examination is intended to permit a student to establish academic credit in a subject in which the student has gained experience or competence equivalent to an established university course. Departmental Credit Examinations are given only for courses listed in the current catalog and only for courses for which a Departmental Credit Examination can serve as a satisfactory measure of accomplishment.

### Process of Approval for New DCEs

- A faculty member submits a Departmental Credit Examination application to the department chair and dean (applications should include examination proposal and rationale to demonstrate that the exam can serve as a satisfactory measure of accomplishment).
- Dean approves the application and sends it to the provost.
- Provost approves or denies the application.
- Approved applications are submitted to the Undergraduate Registrar to create the corresponding credit in the university academic system to be able to grant students units earned.

### Process of Administration of DCEs

- The faculty advisor and department chair sign the Departmental Credit Examination application.
- The examination is prepared and scheduled by an approved faculty member within the department who communicates the time and place for the student to take the exam.
- An approved faculty member grades the exam and awards a credit (CR) or no credit (NR) grade.
- The faculty member sends the Departmental Credit Examination application, the student's graded examination paper, and any appropriate evaluations of oral performance or projects to the Undergraduate Enrollment Services Center to award the grade and archive the exam and any corresponding materials.
- The Undergraduate Enrollment Services Center posts the credit to the student's academic record and applies exam fees ($125 per exam).

### Information For Students Wanting to Qualify to Take a DCE

- Students may pick up a DCE application from the respective department or the Student Services Center (https://www.apu.edu/undergraduate-enrollment-services/).
- Students must obtain appropriate signatures from the faculty advisor and department chair.
- The examining instructor and the head of the examining department must determine the eligibility of the applicant and sign the application.
- If the application is approved, the examining instructor contacts the student to set up a time and place to take the exam.

### Limitations

- No other enrollment or credit for that course is present on the student's record.
- Credit may not be received for a lower-level or prerequisite course when credit has already been received in a higher-level course within the same field.

# Credit for Advanced Placement (AP) Exams

The Advanced Placement Program, sponsored by the College Board and administered by Educational Testing Service (ETS), offers secondary school students the opportunity to participate in challenging college-level coursework while still in high school. The exams are two or three hours long and cover one or two semesters of college-level work.

Recent changes to the General Education program (p. 911) may affect your Advanced Placement testing. Check with your admissions representative for more information.

| Exam Subject | AP Score | Units | [1]TUG Class Equivalent Awarded | [2]PR Class Equivalent Awarded |
|---|---|---|---|---|
| Art, Studio Art, Drawing | 3, 4, 5 | 3 | Non-General Education Elective (credit for ART 145 with portfolio approval) | Non-General Education Elective |

1   TUG = Traditional Undergraduate Programs
2   PR = Professional Undergraduate Programs
3   Allied health, biochemistry, chemistry, and biological sciences majors should refer to the Department of Biology and Chemistry (p. 33) policies for more information.
4   Students may petition the department to have CHEM 101 be awarded for AP credit in place of CHEM 151.

Note: If a student takes a college course for which he or she has already received AP credit, the student forfeits the AP credit.

# Credit for International Baccalaureate (IB) Program

| Exam Title | [1]Level | Score | Units | [2]TUG Credit Awarded | [3]PR Credit Awarded |

[1]     Legend: SL = Standard Level; HL = Higher Level
[2]     TUG = Traditional Undergraduate Programs
[3]     PR = Professional Undergraduate Programs

**Note:** If a student takes a college course for which he/she has already received IB credit, the student forfeits the IB credit.

# False Information

Students are advised that admission is contingent upon the truthfulness of the information contained in their application files. Discovery of false information subsequent to admission is, at the university's discretion, grounds for immediate dismissal at any point in the student's course of study. Such dismissal shall result in forfeiture of all charges paid and academic credits earned.

The full fraudulent records policy may be obtained from the Office of the Registrar (https://www.apu.edu/student-services/registration/).

# Freshman Applicants

The following information is required prior to evaluation of admissibility:

## Application, Statement of Agreement, and Personal Statement

The undergraduate application (https://www.apu.edu/undergraduate-admissions/apply/), which includes the statement of agreement and the personal statement, should be completed, signed, and submitted.

## Application Fee

A $45 nonrefundable application fee is required and must accompany the application. The check or money order should be made payable to Azusa Pacific University. Online applicants may choose to pay by credit card when submitting their application.

## Preadmission Tests

All freshman applicants are required to submit scores from the American College Testing (ACT) Program or the Scholastic Aptitude Test (SAT I). It is recommended that all high school applicants take the ACT or SAT I by October of their senior year. Applicants may secure detailed information on testing schedules from their high school. The minimum SAT I score is 990, specifically with a 470 math section score. SAT I exams administered before March 2016 will be reviewed using College Board concordance tables to determine equivalent scores. The ACT minimum score is 19, specifically with 19 in Reading, English, and Math. Meeting minimum test score requirements **does not** guarantee admission to Azusa Pacific University. Should applicants feel that the SAT I or the ACT are not representative of their academic potential, see the Test-Optional Admission Process section below.

## Recommendations

Applicants are encouraged to supply contact information for a character recommendation. The recommender must be a person who has observed the applicant's character and/or spiritual development over a reasonable period of time. When possible, APU prefers pastors or youth pastors/leaders. Alternatively, a coach, employer, or adult family friend is also acceptable. Contact information for a recommender who is a relative, friend, peer, or someone who knows the applicant from a purely academic setting will not be accepted.

## Test-Optional Admission Process

Freshman applicants for whom a standardized test score is not the best reflection of their academic ability may choose to participate in the Test-Optional Admission Process if they meet the following criteria:

- Attending a public or private high school
- Are not majoring in nursing, biology, chemistry, allied health, or biochemistry

Through the Test-Optional Admission Process, a student may submit additional materials at the request of the university, in lieu of their standardized test scores, for the purpose of admission. Applicants will be evaluated on the entirety of the application, with special attention given to their high school transcripts and the additional test-optional requirements. Participation in the Test-Optional Admission Process does not guarantee admission to the university. Contact the Office of Undergraduate and International Admissions (https://www.apu.edu/undergraduate-admissions/representatives/) for more information on this process.

## Transcripts

Applicants are responsible for submitting transcripts from the high school from which they graduated and each college or university they attended. An official transcript is one that Azusa Pacific University receives unopened in an envelope sealed by the issuing institution(s) and bears the official seal of that high school, college, or university. Azusa Pacific University reserves the right to request that the transcript be sent directly from the issuing institution(s). High school students applying for admission as freshmen should submit a preliminary transcript showing courses and marks for freshman through junior years, or through the first semester of the senior year if the application is made after the completion of that semester. A final transcript must be sent following graduation. To be considered final, the high school transcript must show grades for each course taken as well as the high school graduation date. The transcript(s) and other documents submitted as part of the application become the property of APU and cannot be returned to the student or forwarded in any form to another college or university.

# High School Nongraduates

Applicants who are not high school graduates may still be considered for admission. Azusa Pacific accepts some students who have acquired equivalency certificates or diplomas through GED tests or the California High School Proficiency Examination. The Office of Undergraduate and International Admissions (https://www.apu.edu/undergraduate-admissions/) evaluates such candidates' individual merits and high school achievement records. Greater emphasis may be given to either the SAT I or ACT results.

A person 25 years of age or older who is not a high school graduate may be admitted with adult status by special action. In both cases, the applicant's test scores and experience are evaluated for evidence of ability to complete college work. All such applicants should follow the application procedure for new students.

# Homeschooled Students

Admission is based on the completed application (see the undergraduate Admission to the University (p. 939) section in this catalog), with stronger emphasis on the student's SAT I or ACT scores. Applicants who are homeschooled and do not have an official high school transcript to submit to the university with the Application for Undergraduate Admission are **not** required to take the General Educational Development (GED) Test or the California High School Proficiency Examination. If the student does not have access to an official transcript or does not subscribe to a transcript service, the

student will be asked to submit a transcript created by the primary instructor. The transcript may be completed by a parent if that individual is the only instructor.

# International Students

- International Services (p. 948)
- International Undergraduate Admission (p. 948)

# International Services

International Services (https://www.apu.edu/international/) assists international students and scholars at APU from the time they arrive on campus for their mandatory orientation and throughout their stay at Azusa Pacific. An international student or scholar at APU is defined as any individual holding a nonimmigrant visa status (most common are F-1 or J-1 student status). Any non-U.S. resident/citizen holding a nonimmigrant visa status is required to apply to APU through the Office of Undergraduate and International Admissions (https://www.apu.edu/undergraduate-admissions/).

Matters relating to immigration, international student orientation, cultural adaptation, and international student programming are coordinated through International Services. It is mandatory for all international students to attend Global Student Orientation (GSO) (https://www.apu.edu/scrd/international-student-engagement/global-student-orientation/), as stated in each student's admissions letter, prior to the start of their program of study.

Throughout the academic year, numerous events, workshops, and opportunities exist for international students and scholars to interact with the U.S. culture, as well as represent their culture to the APU campus. International students are encouraged to enjoy the many student life opportunities on campus specifically for them and for the campus at large. For questions regarding the services available to international students and scholars, contact International Services.

## Requirements for F-1 or J-1 International Students and Scholars

F-1/J-1 nonimmigrant student status carries responsibilities as well as privileges. Failure to comply with the U.S. requirements for these categories is considered a violation of U.S. law, invalidates the F-1 or J-1 status, cancels privileges of the status, and may lead to dismissal from APU and potentially deportation. APU is required by law to make regular reports to the U.S. government concerning F-1 and J-1 status students and scholars. APU has two designated school officials (DSOs) to assist international students and scholars in maintaining their legal status, and they can be reached during office hours in the International Center. While International Services provides many services to assist students in maintaining their legal status, it is ultimately the responsibility of students to maintain legal status.

Note: The following list is **not** an exclusive list of all laws that must be observed.

To maintain legal status, an international student must:

1. **Be a full-time student:** 12 units is considered full time at the undergraduate level. The majority of master's-level students are considered full-time with 9 units a term (or two 8-week sessions), doctoral students with 6 units per term. For exceptions to this policy, students must consult with International Services. The exceptions are also noted in the university catalog.
2. **Work only on campus:** U.S. regulations allow F-1/J-1 students to work on campus for 20 hours a week during the academic year, or full time (20+ hours a week) during vacation periods. J-1 students must receive written verification and permission from International Services prior to working on campus. Any off-campus employment for F-1 students other than Curricular Practical Training (CPT) must be officially authorized by the U.S. government. J-1 students may work off campus with authorization from International Services. To obtain information about working off campus, students must consult with International Services.
3. **Report any change of name or address:** The U.S. government requires notification within 10 days of any name or address change. The location of the physical residence (not a post office box) must be reported to the APU International Services office within 10 days of moving.
4. **Obey all laws of the United States:** For details of other specific immigration laws that may affect F-1 or J-1 status, contact International Services.
5. **Note:** The major stated on the I-20 is only an indication of what the student intends to study. It is not legally binding, and the student will not receive a degree in this major if he or she does not meet all degree requirements. Students may change their major during their time of study, but this change must be reflected on the I-20. Any other significant changes must also be noted on the I-20 (e.g., change in financial scholarships/ sponsorship or change of completion of studies).

# International Undergraduate Admission

Azusa Pacific University is authorized under federal law to enroll nonimmigrant students and issue the U.S. immigration document I-20 or the U.S. State Department DS 2019 in order to obtain an F-1 or J-1 student visa. Students who understand and agree to cooperate with the university's Christian principles and atmosphere are welcome to apply.

# Admission Requirements

## First-Year Undergraduate Students

1. Completed application for admission, Statement of Agreement with Institutional Policy, and Personal Statement
2. $45 application fee
3. Official high school transcripts
4. SAT or ACT scores (optional for international students)
5. English proficiency documentation (See English Proficiency Requirements[1] below)
6. Personal reference (optional, but recommended)
7. A bank statement or other official forms of documentation of financial support must accompany the financial statement and affidavit of financial support[2]
8. Copy of passport
9. Some programs (see School of Nursing (p. 598) and School of the Arts (p. 177)) may require additional items for application

## Transfer Undergraduate Students

1. Completed application for admission, Statement of Agreement with Institutional Policy, and Personal Statement
2. $45 application fee
3. Official college transcripts (transfers with less than 28 units earned at the time of application will need to submit an official high school transcript)
4. English proficiency documentation (See English Proficiency Requirements[1] below)
5. Personal reference
6. A bank statement or other official forms of documentation of financial support must accompany the financial statement and affidavit of financial support[2]
7. Copy of passport

[1]    The acceptable minimum score is subject to change as the university deems necessary. Some programs may have higher requirements.

[2]    For some cases, one year's tuition may be required in advance and placed on the student's account prior to issuance of the immigration document I-20 or DS 2019.

# Grade-Point Average (GPA) Requirements

To be considered for undergraduate admission, the applicant must have a minimum U.S. system 2.75 grade-point average (GPA) in high school or 2.5 in previous college work. If the applicant is transferring from schools where English is the medium of instruction, and with a minimum of 28 transferable non-ESL units, a 2.5 GPA is acceptable. For the School of Business and Management (p. 757), a 2.7 GPA is required.

Some programs require a higher GPA for admission. Check with the appropriate department for more information.

# Admission Deadlines

| Semester | Early Action | Outside U.S. | Inside U.S. |
| --- | --- | --- | --- |
| Fall (September) | Freshman only: November 15 | May 1 | June 1 |
| Spring (January) | N/A | September 15 | October 15 |

# English Proficiency Requirements

A student whose native language is NOT English must demonstrate or gain English proficiency in order to study at Azusa Pacific University. There are a few ways to demonstrate and fulfill the English proficiency requirement:

## 1. Prior Studies in English

Students can demonstrate English proficiency by verifying that their prior studies (secondary or postsecondary school) were conducted in English. Students must verify all of the following:

- Completed at least 48 academic semester units without ESL support/classes.
- Studies in English ended no more than two years before applying to APU.
- The language of instruction was English.

To verify these points, students must provide academic transcripts along with an official letter from the institution where they studied stating that the language of instruction was English.

## 2. English Testing

**International standardized English tests (TOEFL, IELTS, and Duolingo).** Students can demonstrate English proficiency by submitting a TOEFL, IELTS, or Duolingo score report that meets or exceeds the requirements listed below. The university considers the component scores for admissions.

### TOEFL iBT

|  | Listening (Top Score: 30) | Reading (Top Score: 30) | Writing (Top Score: 30) | Speaking (Top Score: 30) |
| --- | --- | --- | --- | --- |
| Conditional[1] | 16 | 16 | 18 | 15 |
| Undergraduate | 20 | 20 | 22 | 18 |

### IELTS

|  | Total (Top Score: 9) |
| --- | --- |
| Conditional[1] | 5.5 |
| Undergraduate | 6.0 |

[1]  Note: Even with a high enough total score, you may be required to take English training courses or TESL 100 depending on subset scores or any other indicators in your applications. (TESL 100 is a university-level course that provides additional support to meet the English proficiency requirement, and this course is counted toward the graduation requirement. In addition, you can take more academic units along with TESL 100.)

| Scores | IELTS: 5.5 | |
| --- | --- | --- |
|  | TOEFL Speaking: 15-17 | Corresponding English Course: TESL 100 |
|  | TOEFL Listening: 16-19 | |
| Scores | IELTS: 5.5 | |
|  | TOEFL Reading: 16-19 | Corresponding English Course: TESL 100 |
|  | TOEFL Writing: 18-21 | |

### Duolingo

| Student Level | Score |
| --- | --- |
| Undergraduate | 115 |
| Graduate | 130 |
| Doctoral | 130 |

# Notification of Admission

Azusa Pacific University follows a procedure of rolling admission, which means that a prospective student may submit a completed application at any time up to December 1 for spring or June 1 for fall (July 1 for transfer applicants). Students applying for Early Action will be notified of their admission status before January 15. Applicants for Regular Decision and those not offered admission through Early Action will receive notification by April 1. Transfer applicants will be notified on a rolling admission process until the incoming class is full. The Office of Undergraduate and International Admissions (https://www.apu.edu/undergraduate-admissions/) maintains regular contact with all applicants regarding the status of their application file (see Undergraduate Admission to the University (p. 939) for more information on Early Action and Regular Decision).

# Part-Time Applicants

Azusa Pacific University welcomes part-time students planning to take up to 6 semester units. To be considered for part-time admission, a student must submit the following items:

- Undergraduate Admission Application (https://www.apu.edu/undergraduate-admissions/apply/), including signed Statement of Agreement
- $45 nonrefundable application fee
- Official transcripts from all schools attended, submitted to the Office of Undergraduate and International Admissions (https://www.apu.edu/admissions/undergraduate/)

*Note: If 30 or more semester units have been completed at an accredited college or university, high school transcripts are not required.*

A student who is admitted to the university part time may continue to take up to 6 units per semester during following semesters without having to reapply.

# Proficiency Exams and Placement Assessments

The Academic Success Center (ASC) (https://www.apu.edu/academic-success/) coordinates required placement assessment in the areas of math, writing, and foreign language for incoming students (freshmen and transfers). Testing is available in the ASC by appointment only, and remotely for out-of-area students.

For more information, visit the catalog's Placement Assessment (p. 1112) section.

# Readmission and Reenrollment

Students planning to return to Azusa Pacific University after an absence must complete the following requirements. In the event that a student leaves Azusa Pacific University for any reason (other than a leave of absence; see Withdrawal from the University (p. 1033)) for one or more semesters, that student must complete the Undergraduate Application for Reenrollment. All applications for reenrollment must be approved by the Student Services Center (https://www.apu.edu/undergraduate-enrollment-services/) and the dean of students before reenrollment will be considered, unless an approved leave of absence was previously granted.

Any student reenrolling in Azusa Pacific University after an absence of more than three semesters (excluding summer sessions) will be subject to new catalog requirements unless reenrolling to finish work specified by an Undergraduate Graduation Application (https://formstack.apu.edu/workflows/tug_graduation_application/?sso=62a3d4207bb23) previously filed (in these cases, the policies described under Graduation Requirements and Commencement (p. 1026) in this catalog apply). In addition, all applicants' previously completed work will be reviewed by their major department to determine which, if any, major courses and supporting nonmajor courses must be repeated or added to complete the major. The reviewing department may take into consideration any relevant work experience for major requirement equivalence, but such work experience may not count for unit credit.

# Transfer Applicants

Azusa Pacific University welcomes applications from transfer students. There is no minimum unit requirement that transfer students must complete before applying to the university. The same items are required as for freshman applicants (p. 946), with the following exceptions:

1. If 30 or more semester units have been completed at an accredited college or university, high school transcripts are not required.
2. A minimum grade-point average of 2.2 (academic GPA) for all college work completed is required for admissions consideration.
3. Transfer students who have been dismissed from previous colleges must complete two additional semesters prior to applying; take a minimum of 12 core units each semester; receive no *D*s, *F*s, or withdrawals; and maintain a minimum 2.0 grade-point average.

In addition, transfer students must submit official transcripts from any and all colleges and universities attended, whether or not credit was given. An official transcript is one that Azusa Pacific University receives unopened in an envelope sealed by the issuing institution(s) and that bears the official seal of that high school, college, or university. Azusa Pacific University reserves the right to request that the transcript be sent directly from the issuing institution(s). Transfer applicants who have completed more than 15 core transferable semester units, or equivalent college credit, in the same semester may not be required to submit ACT or SAT I test scores. Transfer students with fewer than 30 transferable semester units before enrolling at APU will be at freshman standing until at least 30 units are completed.

The university can give credit for no more than 70 units of junior or two-year-college work, and there is a maximum of 90 units that may be accepted from a four-year institution.

The Student Services Center (https://www.apu.edu/undergraduate-enrollment-services/) will evaluate previous college work to determine its relationship to the requirements of Azusa Pacific University. A summary of credits and transcript evaluation will be sent to the student showing those courses that have been accepted on transfer and those courses that still need to be taken to fulfill the university's General Education requirements. Only courses in which a grade of *C-* or above has been earned can be considered for transfer of credit.

Azusa Pacific University accepts the completed Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education Breadth (CSU GE) certification as fulfilling the lower-division General Education program requirements, but all APU students are required to complete the requisite number of Biblical, Theological, and Philosophical Formation and upper-division General Education courses. In the cases of the IGETC and CSU GE, the certification must be complete and obtained from the respective community college before the student matriculates to APU. Students who do not receive full certification will be evaluated by standard course-to-course articulation and will follow the APU General Education program (p. 911).

# Veterans' Education Benefits

Azusa Pacific University is an approved degree-granting institution recognized by the U.S. Department of Veterans Affairs. Eligible veterans and their dependents seeking educational training may qualify to use Title 38, Chapters 30, 31, 33, 35, and 1606/1607. Refer to the U.S. Department of Veterans Affairs (https://www.va.gov/) for eligibility criteria.

APU proudly participates in the Yellow Ribbon Program (https://www.apu.edu/militaryeducation/), a provision of the Post-9/11 Veterans Education Assistance Act of 2008. APU awards eligible students up to half the net cost of tuition not covered by the standard cap set yearly by the U.S. Department of Veterans Affairs. In order to receive Yellow Ribbon funds, the student must be 100 percent eligible under Chapter 33 of the GI Bill[®].

**Note:** Active-duty personnel receiving Chapter 33 benefits, and spouses of active-duty personnel receiving Transfer of Entitlement (TOE) benefits, are not eligible for the Yellow Ribbon Program.

*"GI Bill[®]" is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by the VA is available on the* official U.S. government website *(*https://www.benefits.va.gov/gibill/*).*

# Professional Undergraduate Admissions

# Administrative Withdrawal

Nonenrollment for a period of three consecutive terms (e.g., fall, spring, and summer) will result in administrative withdrawal from the university. See the Academic Calendars (https://www.apu.edu/calendar/academic/) for complete term and session information. An administrative withdrawal does not change a student's posted grades or account balance; neither does it generate a refund of any kind. Reapplication and department reacceptance are required to enroll again. Students who are reaccepted will be held to the current catalog requirements, which may entail additional degree requirements. The initial enrollment in the degree program will determine the beginning of the time limit for completing the degree, where the length of the time limit (p. 1054) is determined by the current catalog. In rare instances, extensions may be requested by petition. Granting of such a petition may entail additional degree requirements and/or repeating of courses that have expired.

# Admission to the University

Prospective Azusa Pacific University students are committed to personal, intellectual, and spiritual growth. Applicants must evidence sympathetic appreciation for the standards and spirit of the university and exhibit moral character in harmony with its purpose. The university encourages applications from students who will contribute to, as well as benefit from, the university experience. In assessing the applicant's potential for success, academic capabilities and experience relevant to the program of application and disposition are reviewed.

While the following minimum requirements are considered for university admission, specific program acceptance requirements (https://www.apu.edu/graduateprofessional/apply/#admission-requirements) and application deadlines should be consulted as well by reviewing the appropriate program on the APU website and its corresponding catalog section.

The applicant's scholastic record is considered an important indicator of potential success at the university. Candidates with a GPA of 2.5 or higher may be considered for regular admission. Candidates with a GPA of 2.0-2.49 may be considered for conditional admission. While each applicant is considered for admission on individual merit, various criteria are used in the selection process. Meeting the minimum requirements, however, does not

guarantee admission to the university. These criteria are delineated in this catalog. In some cases, the admissions committee may request a personal interview with the applicant.

# Application and Fee

To be considered for admission to any program, the prospective student must complete an application and submit a nonrefundable $45 application fee as well as all additional application items, including transcripts for completed coursework. Certain programs may require additional references and/or other supporting documents. APU alumni need not request official transcripts for prior coursework taken at APU. The application fee is waived for APU alumni, faculty, staff, and their spouses. Veterans and members of the military also qualify for an application fee waiver.

# APU Associate Degree for Transfer (ADT)

An Associate Degree for Transfer (ADT) is a guaranteed pathway for transfer into APU. After earning an approved Associate of Arts for Transfer (AA-T) or Associate of Science for Transfer (AS-T) degree, students will be guaranteed admission to APU with junior standing.

Additional benefits include:

- Priority admission for students from community colleges with whom we have partner agreements to an APU program or major that is similar to the ADT.
- Eliminating confusion by solidifying major preparation requirements accepted by APU from the community college.
- Guaranteed completion of your bachelor's degree in no more than 68 units if you remain on track with your academic plan.

Applicants who have completed an ADT in a major deemed similar to your intended major at Azusa Pacific University will receive priority admissions consideration. APU must receive verification that you have completed or will complete the ADT by the deadlines listed in the checklist below.

## Associate Degree for Transfer (ADT) Checklist

In order to receive the benefits for an ADT, the following must apply:

- The applicant must be APU eligible. To find out more about APU eligibility, see Professional Undergraduate Admissions (p. 952).
- The degree must be deemed "similar" by APU.
- APU must receive verification that you have completed or will complete the ADT by the following deadlines:
  - September 30 for fall, 8-week Session 1 admits
  - November 30 for fall, 8-week Session 2 admits
  - January 31 for spring, 8-week Session 1 admits
  - March 31 for spring, 8-week Session 2 admits
  - May 31 for summer, 8-week Session 1 admits
  - July 31 for summer, 8-week Session 2 admits
- APU must receive an official final transcript showing that an ADT has been conferred.
- To uphold the guarantee of completing your bachelor's degree with 68 semester units, you must maintain continuous enrollment in the same academic major. You must successfully complete all of the required coursework without the need to repeat courses or supplement instruction with additional courses for minors or areas of emphasis.

Throughout the admissions process, we verify the degree similarity and whether the degree is on track or completed, and confirm your transcripts upon completion. Additionally, you will be notified of any changes in your admissions consideration.

Should you not meet the ADT requirements, your application will still be considered in the general applicant pool for the major and campus to which you applied.

# Change of Program

Admission to professional programs at Azusa Pacific University is program specific. If a student changes plans and wishes to enroll in a program other than that to which he or she was accepted, the student must file a Change of Program Form (https://www.apu.edu/graduateprofessionalcenter/download/) with the Office of Graduate and Professional Admissions (https://www.apu.edu/graduateprofessionalcenter/admissions/). International students have additional requirements to complete (https://www.apu.edu/international/).

A program representative will contact the student if further documentation and materials are required for the change of program. No credit toward the new degree program will be granted before written program acceptance has been secured.

# Conditional Admission Based on English Level

Some applicants have high academic ability but have not yet achieved English proficiency; for these applicants, conditional admission is offered. Those given conditional admission must improve their English proficiency and complete their English requirement prior to beginning their program at APU. Conditional admission is not available for every professional program. Contact an admissions representative at ssc@apu.edu for details.

# Conditional-Incomplete Admission (CIA)

Students are often granted admission with incomplete admissions requirements, particularly if they are enrolled in courses at another institution during their admissions process. In these cases, students are obligated to complete admissions requirements before the last date of the first term enrolled (unless otherwise noted by the academic department). This includes submission of all final official transcripts, with no in-progress coursework. Failure to satisfactorily complete all requirements may result in the withdrawal of the university's acceptance offer, or forfeiture of financial aid and registration privileges.

Note that students are not eligible to receive financial aid until their admissions requirements are submitted in full. Financial aid cannot be awarded retroactively for terms in which a student took courses but was not fully admitted to their specific program.

# Credit by Examination

Credit may be earned by professional students through competency examinations. There are three examinations recognized by the university: Advanced Placement (AP) tests (p. 942), the College Level Examination Program (CLEP) (p. 1114), and the International Baccalaureate (IB) program (p. 944).

Credit is granted to professional students who score a three or higher on an AP test, meet the cut-off level (individually determined by each APU department or school) in CLEP subject area tests, or earn a five or higher on the IB higher-level exams (see the aforementioned links).

There is no maximum number of credits that can be accumulated from these tests. Credit received by examination is tuition-free and applies toward the total requirement for graduation from the university.

College credit earned by a student still in high school may be transferred to Azusa Pacific University, provided that the course was taken at an accredited college. An official college transcript must be sent from the college to Azusa Pacific in order for such coursework to be evaluated for transfer of credit. Requirements for transfer applicants apply.

Challenge exams for professional students are available only in the School of Nursing (p. 598) according to specific guidelines.

No CLEP credit is allowed in a student's final semester.

# English Proficiency Requirements

Students whose native language is not English must demonstrate or gain English proficiency in order to study at Azusa Pacific University. There are several ways to demonstrate and fulfill the English proficiency requirement:

## 1. Prior studies in English

Students can demonstrate English proficiency by verifying that their prior studies (secondary or postsecondary school) were conducted in English. Students must verify all of the following:

- Completed at least 48 academic semester units without ESL support/classes.
- Studies in English ended no more than two years before applying to APU.
- The language of instruction was English.

To verify these points, students must provide academic transcripts along with an official letter from the institution where they studied stating that the language of instruction was English.

## 2. English testing

### International standardized English tests (TOEFL, IELTS, and Duolingo)

Students can demonstrate English proficiency by submitting a TOEFL, IELTS, or Duolingo score report that meets or exceeds the requirements listed below. The university considers the component scores for admissions.

### TOEFL

|  | Listening (Top Score: 30) | Reading (Top Score: 30) | Writing (Top Score: 30) | Speaking (Top Score: 30) |
|---|---|---|---|---|
| Conditional[1] | 16 | 16 | 18 | 15 |
| Undergraduate | 20 | 20 | 22 | 18 |
| Graduate | 22 | 22 | 24 | 22 |
| Doctorate | 25 | 25 | 25 | 25 |

### IELTS

|  | Total (Top Score: 9) |
|---|---|
| Conditional[1] | 5.5 |
| Undergraduate | 6.0 |
| Graduate | 7 |
| Doctorate | 8 |

[1] Note that even with a high enough total score, you may be required to take an English training program or TESL 100 depending on subset scores or other indicators in your applications. TESL 100 is a university-level course that provides additional support to meet the English proficiency requirement, and it counts toward graduation requirements. In addition, you can take more academic units along with TESL 100.

| Scores | IELTS: 5.5 |  |
|---|---|---|
|  | TOEFL Speaking: 15-17 | Corresponding English Course: TESL 100 |
|  | TOEFL Listening: 16-19 |  |
| Scores | IELTS: 5.5 |  |
|  | TOEFL Reading: 16-19 | Corresponding English Course: TESL 100 |
|  | TOEFL Writing: 18-21 |  |

### Duolingo

| Student Level | Score |
|---|---|
| Undergraduate | 115 |
| Graduate | 130 |
| Doctoral | 130 |

# False Information

Students are advised that admission is contingent upon the truthfulness of the information contained in their application files. Discovery of false information subsequent to admission is, at the university's discretion, grounds for immediate dismissal at any point in the student's course of study. Such dismissal shall result in forfeiture of all charges paid and academic credits earned.

The full fraudulent records policy may be obtained from the Office of the Registrar (https://www.apu.edu/graduateprofessionalcenter/registrar/).

# International Admissions

In order to qualify as an international student at APU, the individual needs to be able to obtain an F-1 or J-1 visa or be in F-1 or J-1 legal status. An individual who has another type of valid U.S. visa may also study full or part time at Azusa Pacific University, depending on the visa type. Anyone in the U.S. in B-1/B-2 status, however, is not allowed by law to study full or part time in any educational program.

Azusa Pacific University is authorized under federal law by U.S. Citizenship and Immigration Services (USCIS) and the U.S. Department of State to enroll nonimmigrant alien undergraduate and graduate students as well as intensive English students. APU issues and administers the I-20 and DS 2019 (F-1 and J-1 status documents, respectively). APU is able to issue I-20s for the Azusa campus as well as for the following regional locations: San Diego and Orange County. Not all degree programs are available at the regional locations.

To be considered for admission to an APU professional program as an international applicant, you must meet all the requirements listed in the Admission to the University (p. 952) section of the catalog, as well as a few requirements unique to international applicants:

1. Affidavit of Financial Support and bank statement[1] proving ability to pay for education costs through personal, family, or sponsor resources
2. Certified English proficiency (See English Proficiency Requirements (p. 954))
3. Official transcripts sent from previously attended schools directly to APU. Transcripts must be in original language and English.
4. Copy of passport

[1]    One year's tuition may be required prior to issuing the United States immigration document.

All international applicants are expected to read and comply with the policies listed in this catalog.

Note: Individual departments may have additional requirements; see the applicable program page (http://catalog.apu.edu/program-search/) for specific information.

International applicants must submit all application materials and direct all questions to:

International Admissions
Azusa Pacific University
901 E. Alosta Ave.
PO Box 7000
Azusa, CA 91702-7000
+1-626-812-3016
Fax: +1-626-812-3096
apu.edu/international/enrollment/ (https://www.apu.edu/international/enrollment/)

# Reservation of Rights

Azusa Pacific University does not discriminate in its admission policies, practices, or procedures on the basis of race, color, national origin, sex, age, disability, or status as a veteran.

Azusa Pacific University reserves the right to change any of its policies without prior notice, including, but not limited to, tuition, fees, unit-value per course, course offerings, curricula, grading policies, graduation and program requirements, and admission standards and policies. The university further reserves the right to refuse admission to any applicant and to disqualify, discontinue, or exclude any student at the discretion of the deans, faculty, administration, or Ethical Standards Committee.

To apply for admission to Azusa Pacific University, applicants must submit an application form available online (https://engage.apu.edu/portal/app/).

**Mailing Address:**
Student Services Center: Admissions
Azusa Pacific University
PO Box 7000
Azusa, CA 91702-7000

(626) 812-3016
admissions@apu.edu
apu.edu/graduateprofessional/apply (http://www.apu.edu/graduateprofessional/apply/)

Applicants who plan on attending on a student visa must apply through International Admissions (https://www.apu.edu/international/enrollment/).

# Transcripts

Students must submit official transcripts from any and all colleges and universities attended, whether or not credit was given. An official transcript is one that Azusa Pacific University receives unopened in an envelope sealed by the issuing institution(s) and that bears the official seal of that college or university. Azusa Pacific University reserves the right to request that the transcript be sent directly from the issuing institution(s).

The university can give credit for no more than 70 units of junior or two-year college work, and there is a maximum of 90 units that may be accepted from a four-year institution. No upper-division credit can be allowed for courses taken at a community or two-year college.

Once filed, transcripts are subject to the provisions of applicable federal and state laws and regulations and cannot be returned to the applicant or forwarded to other educational institutions.

International transcripts must be translated into English and certified by an authorized official. International transcripts must be evaluated by an approved agency, which creates an official Transcript Equivalency Report, to verify that the international units are comparable to units from a regionally accredited college or university in the United States. An official copy of this Transcript Equivalency Report is submitted with a student's official transcript for university admission consideration.

The Office of the Registrar (https://www.apu.edu/student-services/registration/) will evaluate previous college work to determine its relationship to the requirements of Azusa Pacific University. A transfer evaluation will be sent to the student showing those courses that have been accepted for transfer and those courses that still need to be taken to fulfill the university's General Education requirements. Only courses in which a grade of *C-* or above has been earned can be considered for transfer of credit.

Azusa Pacific University accepts the completed Intersegmental General Education Transfer Curriculum (IGETC) and the California State University General Education Breadth (CSU GE) certifications as fulfilling the lower-division General Education program requirements. However, all APU students are required to complete the requisite number of Biblical, Theological, and Philosophical Formation and upper-division General Education courses. In the cases of both the IGETC and CSU GE, the certification must be complete and obtained from the respective community college before the student matriculates to APU. Students who do not receive full certification will be evaluated by standard course-to-course articulation and will follow the General Education for transfer students.

For more information, read the General Education Information for Professional Undergraduate Transfer Students (p. 1060) section under the Policies and Procedures section in this catalog.

# Veterans' Education Benefits

Azusa Pacific University is an approved, degree-granting institution recognized by the U.S. Department of Veterans Affairs. Eligible veterans and their dependents seeking educational training may qualify to use Title 38, Chapters 30, 31, 33, 35, and 1606/1607. Refer to the U.S. Department of Veterans Affairs (https://www.va.gov/) for eligibility criteria.

APU proudly participates in the Yellow Ribbon Program (https://www.apu.edu/militaryeducation/), which is a provision of the Post-9/11 Veterans Education Assistance Act of 2008. APU awards eligible students up to half the net cost of tuition not covered by the standard cap set yearly by the U.S. Department of Veterans Affairs. To receive Yellow Ribbon funds, the student must be 100 percent eligible under Chapter 33 of the GI Bill$^{®}$.

**Note:** Active-duty personnel receiving Chapter 33 benefits, and spouses of active-duty personnel receiving Transfer of Entitlement (TOE) benefits, are not eligible for the Yellow Ribbon Program.

*"GI Bill$^{®}$" is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by the VA is available on the* official U.S. government website *(*https://www.benefits.va.gov/gibill/*).*

# Graduate Admissions

- Administrative Withdrawal (p. 957)
- Admission to the University (p. 958)
- Application and Fee (p. 958)
- Change of Program (p. 958)
- Conditional Admission Based on English Level (p. 959)
- Conditional-Incomplete Admission (CIA) (p. 959)
- English Proficiency Requirements (p. 959)
- False Information (p. 960)
- International Admissions (p. 960)
- Program Application Requirements (p. 961)
- Reservation of Rights (p. 961)
- Transcripts (p. 961)
- Veterans' Education Benefits (p. 961)

# Administrative Withdrawal

Nonenrollment for a period of three consecutive terms (e.g., fall, spring, and summer) will result in administrative withdrawal from the university. See the Academic Calendars (https://www.apu.edu/calendar/academic/) for complete term and session information. An administrative withdrawal does not change a student's posted grades or account balance; neither does it generate a refund of any kind. Reapplication and department reacceptance are required to enroll again. Students who are reaccepted will be held to the current catalog requirements, which may entail additional degree requirements. The initial enrollment in the degree program will determine the beginning of the time limit for completing the degree, where the length of the time limit

(p. 1080) is determined by the current catalog. In rare instances, extensions may be requested by petition. Granting of such a petition may entail additional degree requirements and/or repeating of courses that have expired.

# Admission to the University

Prospective Azusa Pacific University students are committed to personal, intellectual, and spiritual growth. Applicants must evidence sympathetic appreciation for the standards and spirit of the university and exhibit moral character in harmony with its purpose. The university encourages applications from students who will contribute to, as well as benefit from, the university experience. In assessing the applicant's potential for success, academic capabilities and experience relevant to the program of application and disposition are reviewed.

While the following minimum requirements are considered for university admission, specific program acceptance requirements (https://www.apu.edu/graduateprofessionalcenter/admissions/requirements/program/graduate/) and application deadlines should be consulted as well by reviewing the appropriate program (p. 961) on the APU website and its corresponding catalog section.

Students admitted to financial-aid non-standard-term programs (PhD in Higher Education, Doctoral-Level Certificate in Strengths-Oriented Higher Education) cannot be simultaneously enrolled in any other APU program, nor can they enroll in classes outside of their program.

To be considered for university graduate admission, the applicant must have a bachelor's degree, master's degree, or doctoral degree from a regionally accredited college or university. Please refer to individual program requirements for specific admission policies and allowances. An earned baccalaureate or master's degree from an ATS- or ABHE-accredited institution will be considered for admission only to Azusa Pacific Seminary. The grade-point average (GPA) from the highest earned degree is used for admission consideration. Applicants with an earned master's degree with a 3.0 or higher cumulative GPA from a regionally accredited college or university may qualify for university graduate admission consideration using that GPA in lieu of their baccalaureate GPA. Specific program admission requirements may be more stringent.

Proof of the baccalaureate degree is also required.

A minimum cumulative 3.0 (on a 4-point scale) GPA is required on the posted baccalaureate degree for regular admission status. Candidates with a GPA of 2.99 or below will be considered for conditional admission status. The conditional admission status requires maintaining a minimum cumulative GPA of 3.0 with no grade lower than a *B-* in the first 12 units. Students who do not meet this requirement will be reviewed for dismissal. Specific program admission requirements may be more stringent.

Applications with baccalaureate grade-point averages below 2.5 are subject to university denial.

Forms and procedures are available from the Student Services Center (https://www.apu.edu/graduateprofessionalcenter/).

## Applicants with a Prior Academic Dismissal

Students seeking admission to a master's program after being dismissed from any APU graduate program, or from a graduate program at another institution of higher education, may do so by submitting a new application. During the application process, prospective students must disclose the date of dismissal and include an explanation of the circumstances of dismissal. Also, official student transcripts from the institution where the dismissal occurred must be included with the application and be forwarded to the department or program making admission decisions. Prospective students must wait a minimum of one semester to apply to a program. For example, if a student is dismissed during the fall term, he/she may apply to a program during the spring term and may be admitted during the summer term. Students who are accepted into a program and who fall under this policy will be admitted on a conditional basis and must remain in good academic standing for the duration of the program.

# Application and Fee

To be considered for admission to any program, the prospective student must complete an application and submit a nonrefundable $45 application fee as well as all additional application items, including transcripts for completed coursework. Certain programs may require additional references and/or other supporting documents. APU alumni need not request official transcripts for prior coursework taken at APU. The application fee is waived for APU alumni, faculty, staff, and their spouses. Veterans and members of the military also qualify for an application fee waiver.

# Change of Program

Admission to graduate programs at Azusa Pacific University is program specific. If a student changes plans and wishes to enroll in a program other than that to which he or she was accepted, the student must file a Change of Program Form (https://www.apu.edu/graduateprofessionalcenter/download/) with the Office of Graduate and Professional Admissions (https://www.apu.edu/graduateprofessionalcenter/admissions/). International students have additional requirements to complete (https://www.apu.edu/international/).

A program representative will contact the student if further documentation and materials are required for the change of program. No credit toward the new degree program will be granted before written program acceptance has been secured.

# Conditional Admission Based on English Level

Some applicants have high academic ability but have not yet achieved English proficiency; for these applicants, conditional admission is offered. Those given conditional admission must improve their English proficiency and complete their English requirement prior to beginning their program at APU. Conditional admission is not available for every graduate program. Contact an admissions representative at ssc@apu.edu for details.

# Conditional-Incomplete Admission (CIA)

The Conditional-Incomplete Admission (CIA) status is most often utilized when, to meet an application deadline, an applicant submits his/her transcripts before the degree is officially posted. In this situation, the applicant must submit all other official application documents, including transcripts in which the final semester of coursework is posted, even if still in progress or awaiting grade/degree posting. Other incomplete documents may be considered by program. Visit the university website for specific program application requirements (https://www.apu.edu/programs/?search=&level=Master%27s +Degree&level=Doctoral+Degree&level=Certificates+and+Credentials) within each school or college.

Students admitted under CIA status must submit all official and final documents/transcripts, including posted degree, before the first day of classes, unless special arrangements have been approved through the admissions office. Failure to provide final official documents in a timely manner will result in administrative withdrawal from classes.

The following must be submitted before consideration for CIA status:

- A completed application for admission
- The $45 nonrefundable application fee
- Transcript(s) of bachelor's degree coursework earned from a regionally accredited institution with the minimum GPA required for university admission

Check with specific programs regarding additional application documents required for the CIA admission status. Some departments and schools may specify which courses a student may take under CIA status, and may allow only prerequisites to be taken. Completion of preadmission courses does not guarantee admission, regardless of course outcomes.

The CIA status may be exercised only once per APU degree earned. Students may not use the CIA status for each Change of Program submitted.

This status is **not** applicable for international students who come to the U.S. on an I-20 or DS 2019, F-1 or J-1 status.

Note that students are not eligible to receive financial aid until their admission status is moved from CIA to regular or conditional status. Financial aid cannot be awarded retroactively for terms in which a student took courses but was not admitted CIA to a specific program. Students must be admitted to the university and the graduate program by the last day of the term in which they first enroll to be eligible to apply for financial aid for that term.

# English Proficiency Requirements

All students graduating from non-English-speaking institutions or from programs not taught in English and applying for graduate admission to Azusa Pacific University—with the exception of APU-approved programs in languages other than English—are required to submit proof of sufficient English proficiency. One proof of proficiency is the successful completion of the international Test of English as a Foreign Language (TOEFL) examination. Other options to prove proficiency follow the TOEFL information below.

The following minimum scores on the internet-based TOEFL (iBT) are required for admission to master's-level and credential programs:

- Listening: 22
- Reading: 22
- Speaking: 22
- Writing: 24

The following minimum scores on the TOEFL (iBT) are required for admission to doctoral programs:

- Listening: 25
- Reading: 25
- Speaking: 25
- Writing: 25

The TOEFL (iBT) must be taken no more than two years before the start of an APU program. Specific graduate departments may require a higher score. See specific program areas for more information.

If the applicant scores below the minimum in one or more of the skill areas, the individual can retake the TOEFL (iBT) test or go through an English training program to raise their proficiency prior to full-time entry into the graduate program.

An International English Language Testing System (IELTS) score can also be used as a verification of English proficiency; for regular admission, a minimum score of 7 is required. Students may also verify their English proficiency through a Duolingo test; for graduate and doctoral programs, the minimum required score is 130.

Applicants studying full time and earning 48 units (not including ESL units) in an English-speaking university immediately prior to applying to APU may be eligible to have the English proficiency exam requirement waived. Verification of English as the language of instruction is required.

If, while in classes, it is determined that the student's ability to communicate and participate in English is below the necessary standard, an instructor may refer him/her to the department chair, who may require him/her to seek assistance from an English training program, which may lead to enrollment in a noncredit program at the student's expense.

# False Information

Students are advised that admission is contingent upon the truthfulness of the information contained in their application files. Discovery of false information subsequent to admission is, at the university's discretion, grounds for immediate dismissal at any point in the student's course of study. Such dismissal shall result in forfeiture of all charges paid and academic credits earned.

The full fraudulent records policy may be obtained from the Office of the Registrar (https://www.apu.edu/graduateprofessionalcenter/registrar/).

# International Admissions

In order to qualify as an international student at APU, the individual needs to be able to obtain an F-1 or J-1 visa or be in F-1 or J-1 legal status. An individual who has another type of valid U.S. visa may also study full or part time at Azusa Pacific University, depending on the visa type. Anyone in the U.S. in B-1/B-2 status, however, is not allowed by law to study full or part time in any educational program.

Azusa Pacific University is authorized under federal law by U.S. Citizenship and Immigration Services (USCIS) and the U.S. Department of State to enroll nonimmigrant alien undergraduate and graduate students as well as intensive English students. APU issues and administers the I-20 and DS 2019 (F-1 and J-1 status documents, respectively). APU is able to issue I-20s for the Azusa campus as well as for the following regional locations: San Diego and Orange County. Not all degree programs are available at the regional locations.

To be considered for admission to an APU graduate program as an international applicant, you must meet all the requirements listed in the Admission to the University (p. 958) section of the catalog, as well as a few requirements unique to international applicants:

1. Affidavit of Financial Support and bank statement[1] proving ability to pay for education costs through personal, family, or sponsor resources
2. Certified English proficiency (See English Proficiency Requirements (p. 959))
3. Official transcripts sent from previously attended schools directly to APU. Transcripts must be in original language and English.
4. Copy of passport

[1]   One year's tuition may be required prior to issuing the United States immigration document.

All international applicants are expected to read and comply with the policies listed in this catalog.

Note: Individual departments may have additional requirements; see the applicable program page (http://catalog.apu.edu/program-search/) for specific information.

International applicants must submit all application materials and direct all questions to:

International Admissions
Azusa Pacific University
901 E. Alosta Ave.
PO Box 7000
Azusa, CA 91702-7000
+1-626-812-3016
Fax: +1-626-812-3096
apu.edu/international/enrollment/ (https://www.apu.edu/international/enrollment/)

# Program Application Requirements

For additional application procedures, program requirements, and forms for the specific program to which you are applying, visit the appropriate program page on the university website (https://www.apu.edu/programs/?search=&level=Master%27s+Degree&level=Doctoral+Degree&level=Certificates+and+Credentials).

# Reservation of Rights

Azusa Pacific University does not discriminate in its admission policies, practices, or procedures on the basis of race, color, national origin, sex, age, disability, or status as a veteran.

Azusa Pacific University reserves the right to change any of its policies without prior notice, including, but not limited to, tuition, fees, unit-value per course, course offerings, curricula, grading policies, graduation and program requirements, and admission standards and policies. The university further reserves the right to refuse admission to any applicant and to disqualify, discontinue, or exclude any student at the discretion of the deans, faculty, administration, or Ethical Standards Committee.

To apply for admission to Azusa Pacific University, applicants must submit an application form available online (https://engage.apu.edu/portal/app/).

**Mailing Address:**
Student Services Center: Admissions
Azusa Pacific University
PO Box 7000
Azusa, CA 91702-7000

(626) 812-3016
admissions@apu.edu
apu.edu/graduateprofessional/apply (https://www.apu.edu/graduateprofessional/apply/)

Applicants who plan on attending on a student visa must apply through International Admissions (https://www.apu.edu/international/enrollment/).

# Transcripts

Official transcripts are required for all degrees, certificates, and credentials earned prior to application to APU. Official transcripts for other college coursework not leading to a degree, certificate, or credential may be required by the department for program acceptance consideration. An official transcript is one that Azusa Pacific University receives unopened in an envelope sealed by the former institution and that bears the official seal of the college or university. APU reserves the right to require transcripts sent directly from the former institution. The baccalaureate degree transcript may be waived, with approval of the academic program, if an applicant has earned a regionally accredited master's or doctoral degree prior to applying to APU.

APU alumni need not request official transcripts for baccalaureate coursework from the undergraduate registrar. When applying for a graduate program, the Office of Graduate and Professional Admissions will obtain a copy for the graduate application file.

International transcripts must be translated into English, certified by an authorized official, and include the posted degree. International transcripts must be evaluated by an approved agency, which creates an official Degree/Transcript Equivalency Report, to verify that the international degree is comparable to a degree from a regionally accredited college or university in the United States. An official copy of this Degree/Transcript Equivalency Report is submitted with a student's official transcript for university admission consideration. Contact the Office of Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for a list of approved agencies.

Once filed, transcripts are subject to the provisions of applicable federal and state laws and regulations and cannot be returned to the applicant or forwarded to other educational institutions.

*For more information about ordering an APU transcript, see the* Release of Transcripts *(*p. 1092*) section in this catalog.*

# Veterans' Education Benefits

Azusa Pacific University is an approved, degree-granting institution recognized by the U.S. Department of Veterans Affairs. Eligible veterans and their dependents seeking educational training may qualify to use Title 38, Chapters 30, 31, 33, 35, and 1606/1607. Refer to the U.S. Department of Veterans Affairs (https://www.va.gov/) for eligibility criteria.

APU proudly participates in the Yellow Ribbon Program (https://www.apu.edu/militaryeducation/), which is a provision of the Post-9/11 Veterans Education Assistance Act of 2008. APU awards eligible students up to half the net cost of tuition not covered by the standard cap set yearly by the U.S. Department of Veterans Affairs. To receive Yellow Ribbon funds, the student must be 100 percent eligible under Chapter 33 of the GI Bill[®].

**Note:** Active-duty personnel receiving Chapter 33 benefits, and spouses of active-duty personnel receiving Transfer of Entitlement (TOE) benefits, are not eligible for the Yellow Ribbon Program.

*"GI Bill[®]" is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by the VA is available on the* official U.S. government website *(*https://www.benefits.va.gov/gibill/*).*

# Financial Information

This section of the Azusa Pacific University Academic Catalog contains information pertinent to Financial considerations, including Financial Aid. Please select from the following to begin.

# General Information

Higher education is one of the most important investments an individual can make. Having a clear understanding of the expense involved is an integral part of making a well-informed choice. The Student Services Center assists students in answering questions related to financial aid and student accounts. Call (626) 815-2020 or email ssc@apu.edu with any questions.

Azusa Pacific University does not discriminate on the basis of race, color, national origin, sex, age, disability, or status as a veteran in any of its policies, practices, or procedures. Appeal procedures exist for anyone who feels that a violation of the above has occurred. Contact Student Affairs (p. 1123) for more information.

The university reserves the right to make any changes in its institutional refund policies, fees, and expenses without notice.

# Payment Terms and Conditions

## Financial Agreement

When a student submits a registration request, they are committing to a legal financial responsibility. Failure to follow university procedure for altering or revoking their registration through the Office of the Registrar may result in the student being held financially liable. Students must obtain written confirmation from the registrar in order for any change to be considered official.

A student may not participate in graduation ceremonies, register for further sessions, or receive any diploma, certificate, or degree verification letter until all financial obligations (excluding NDSL/Perkins Loans) have been satisfied with a zero balance. Any diploma, certificate, or letter of recommendation shall be retained by the university as a security interest until all such obligations are satisfied. Release of any such security interest prior to, or subsequent to, any default by the debtors shall not be considered a binding precedent or modification of this policy.

The university reserves the right to make any changes in costs, installment payment plans, and refund policies without notice. View the full Promise to Pay agreement. (p. 964)

## Paying Tuition and Fees

Students have the option of paying their charges for the semester in full or enrolling in an installment payment plan.

## Due Dates

- For students not enrolled in an installment payment plan, tuition charges are considered due on the first day of class.
- For students not enrolled in an installment payment plan, fees are due on the date they are charged to a student's account.
- For students enrolled in an installment payment plan, tuition charges and fees are due on each installment due date.

## Installment Payment Plans

To help families better afford APU's distinctive education, the university offers payment plans to all students. APU automatically places students in a 4-month payment plan for the fall and spring semesters and a 2-month payment plan for the summer semester. Students who wish to be removed from a payment plan may pay their owing balance in full at any time. Note: Students may be charged a convenience fee for enrollment in a payment plan.

## Installment Amount Due

The installment amount due is calculated by taking the semester charges less any financial aid and dividing by the number of installments for that semester. Fall and spring payment plans have four installments, and summer payment plans have two installments.

## Installment Due Dates

- <u>Fall Semester</u>: August 1, September 1, October 1, November 1
- <u>Spring Semester</u>: January 1, February 1, March 1, April 1
- <u>Summer Semester</u>: May 1, June 1

*If a student enrolls in a payment plan after an installment due date has already passed, the plan will be calculated using the remaining installment due dates. For example, if a student enrolls in a payment plan on August 5, the payment plan will have three installments, since the August 1 installment due date has already passed.*

## Past Due Balances

A tuition or fee charge is considered "past due" once the due date or installment due date for the charge has passed and the full amount of the charge remains unpaid. If any student has a past-due balance, they may be dropped from classes and/or prevented from participating in any enrollment activity until the account is current and no longer past due.

*APU realizes that extenuating circumstances may sometimes impact a student's ability to complete the semester. After a student begins attendance in a term and then stops attending all of his or her classes during the term, depending on the circumstances, it may be classified as a "withdrawal," "leave of absence," or "dismissal" from the university. For the purposes of charges assessed and financial aid eligibility, leaves of absence and dismissals are handled the same as withdrawals from the university.*

# Promise to Pay

I promise to pay all stated enrollment charges and required fees listed online and in printed materials associated with the courses I selected. I understand that I am responsible for checking my monthly statements, calling a Student Account Specialist, and/or checking online at home.apu.edu (https://home.apu.edu/) for confirmation of the correct charges associated with the courses I selected. I agree that monies paid on my behalf do not extinguish my payment obligations in the event those monies do not actually come through or for any reason and at any time are returned to the payee or anyone claiming on behalf of the payee or the payee's creditors. I agree to pay any amounts that do not actually come through or for any reason and at any time are returned.

For value received, I promise to pay to Azusa Pacific University, at 901 East Alosta Ave., Azusa, California 91702-7000, the required charges and fees. Each payment shall be credited first toward penalties and costs, then toward late charges, and then toward the remainder of my student account balance. Payments will be applied to student account charges in the order of when the charges were incurred, beginning with the earliest charges, including charges from prior academic years, and concluding with the most recent charges. If any collection steps are taken to collect any overdue amount, the undersigned promises to pay, in addition to the entire balance of the account including late charges, all reasonable attorneys' fees and expenses and all reasonable charges and cost incident to the collection of any amount not paid when due according to the terms of this Promise to Pay.

I further promise to abide by the university's policies as stated in the catalog (https://catalog.apu.edu/), and in other printed materials, which state that my attendance in class, taking final examinations, release of grades, and participation in a graduation ceremony are contingent upon timely and complete payment in accordance with the terms of this Promise to Pay. Azusa Pacific University has the ability to compel payment through such means as: denying my ability to reenter APU or to receive diploma(s) until all amounts owing are paid. I understand, acknowledge, and agree that, if I am allowed to register for courses for a new academic year, APU has the right to, and will, revoke all of my course registrations if I have not paid off any current or prior academic year's balance four weeks prior to the start of the new academic term, and that if my course registrations are revoked and I am later permitted to enroll after meeting my financial obligations to the university, I may not be able to register for the same courses that were revoked.

The pricing for tuition and fees is set each year on the basis of fixed costs and other projected costs for the year. As a result, the university reserves the right (and retains the discretion), consistent with delivering the educational content of our commitment, to unilaterally implement changes (as it deems necessary) in areas such as course content, instructional methods, class locations, instructors, mode of educational delivery, and level and nature of campus activities without reducing tuition and fees.

For a student enrolled in an institutionally prescribed five-year undergraduate program, Cal Grant A awards and Cal Grant B awards may be renewed for a total of five years of full-time attendance, provided that minimum financial need, as defined in paragraph (3) of subdivision (b) of Section 69432.9, continues to exist. A Cal Grant award is limited to four academic years, except as provided in subdivision (c) of Section 69433.6. A student needs to take 15 units per semester or the equivalent quarter units, or 30 semester units or the equivalent quarter units per academic year, in order to graduate within four years.

# Tuition and Fees

Visit the Student Services Center website (https://www.apu.edu/student-services-center/) to view the current cost of attendance, including tuition and fees, for undergraduate, graduate, and professional students. This information is effective as of fall of the academic year unless otherwise noted. Prices are subject to change without notice.

# Financial Aid Disbursement

Students who have satisfied all of the predisbursement requirements for the financial aid awards that have been accepted will usually receive their financial aid disbursement within one week after the Add/Drop deadline. Award requirements can be viewed in the To Dos list on home.apu.edu (https://home.apu.edu/) and must be completed before aid will be disbursed. For those students receiving awards from outside organizations, any additional requirements will be communicated directly to the student from the awarding agency. Once APU has received confirmation from the awarding agency that the requirements have been met, the financial aid will be disbursed.

## Disbursement Delays

Students should refer to their To Dos (https://home.apu.edu/) list and ensure that all financial-aid-related items have been completed. Below are some common reasons that lead to delays in financial aid disbursement.

### Enrollment

Students are required to maintain a minimum level of enrollment and meet Satisfactory Academic Progress (SAP) (p. 971) in order for many types of financial aid to be disbursed. If you are enrolled less than half-time and have questions about how your level of enrollment may affect your ability to receive a financial aid disbursement, contact the Student Services Center (https://www.apu.edu/student-services/).

### Verification

Every year the Federal Student Aid program (https://studentaid.gov/) randomly selects a predetermined percentage (usually around 30 percent) of all Free Application for Federal Student Aid (FAFSA) applications for a process called verification. Students may also be selected at the discretion of Student Financial Services. Federal regulations require collecting documentation from the student and family, if applicable, to confirm the accuracy of information reported on the FAFSA. This can include tax transcripts, information about family size, and more. In addition to individuals selected for verification, institutions are required to request further documentation when a FAFSA application and/or subsequent paperwork appears to have incomplete, inaccurate, or conflicting information. APU graduate and professional students will not be packaged for federal, state, and/or institutional need-based aid until all required verification paperwork has been submitted. Students can submit documentation via a secure online portal.

### Accepting Aid

APU requires active confirmation from a student (or parent) informing us of how much you intend to borrow on a federal loan (Direct Subsidized, Direct Unsubsidized, or Direct PLUS). This confirmation is required before we can begin processing your loan.

Students who elect to receive federal loans must take action by accepting their loans at home.apu.edu (https://home.apu.edu/). Parents intending to borrow for their dependent student must submit an online Parent PLUS Loan application (https://studentaid.gov/plus-app/parent/landing/). For more information about receiving your federal loans, visit the Student Services Center website.

### Loan Entrance Counseling and the Master Promissory Note

First time Direct Loan borrowers will need to complete Loan Entrance Counseling and the Master Promissory Note. For detailed information and to complete these requirements, students and parents should visit the Federal Student Aid website.

### Missing Signatures

Before your financial aid is processed and ready to disburse, you'll need to provide all required signatures. Students must sign their completed financial aid applications. Students who are determined to be dependent students based on their financial aid application must also have a parent sign their completed financial aid application.

*Students with additional questions about why aid has not disbursed should contact the Student Services Center at* ssc@apu.edu *or (626) 815-2020.*

## Credit Balances

If there is a credit balance on a student account after financial aid has been disbursed, that student may be eligible for a refund. Keep in mind that some types of financial aid, or other credits, can only pay for charges and are unable to be refunded directly to a student.

For those students who receive a refund, they will be sent via printed check or direct deposit. Students wishing to receive their refunds quicker should elect to enroll in direct deposit.

In the event of a deceased student, APU will conduct a full evaluation of the student account and make appropriate adjustments to financial aid and student charges. If a credit balance remains after this point, this balance will be refunded to the student directly.

# Additional Information for Undergraduate Students

# Financial Aid

# Apply for Financial Aid

## Step 1

Complete the FAFSA (https://studentaid.gov/h/apply-for-aid/fafsa/).

- Priority Deadline: March 2
- APU's School Code: 001117

## Step 2

Submit the Cal Grant GPA Verification Form (https://www.csac.ca.gov/post/cal-grant-gpa-verification-form/) (California residents).

- Deadline: March 2
- Note: This is not required if the student received a Cal Grant the previous school year.

## Step 3

Submit To Do List items requested through the My Financial Aid tab (under the Student Services Center tab) at home.apu.edu (https://home.apu.edu).

- When: Recommended by June 30

## Step 4

Look for other scholarships and grants if needed.

- APU Academic Scholarships (http://www.apu.edu/undergraduate-enrollment-services/finances/aid/academic/)
- APU Participatory Scholarships (p. 982)
- Other Resources (http://www.apu.edu/undergraduate-enrollment-services/finances/aid/resources/)

## Step 5

Apply for loans.

- When: After the student receives the financial aid award letter.

## Step 6

Ask questions.

- When: Anytime
- New Students: admissions@apu.edu
- Returning Students: ssc@apu.edu

# Financial Aid Policies

All financial aid is subject to the continued availability of federal, state, institutional, and private funding. Budget limitations may reduce or eliminate any of the awards described without notice.

The following policies are covered:

1. Deadlines (p. 967)
2. Financial Aid Packaging (p. 967)
3. Financial Aid Policy for Study-Away Programs (p. 967)
4. Keeping in Touch (p. 971)
5. Minimum Enrollment (p. 971)
6. Nondiscrimination (p. 971)
7. Release of Records (p. 971)
8. Professional Judgement (p. 971)
9. Satisfactory Academic Progress (SAP) (p. 971)
10. Stacking Financial Aid (p. 973)
11. Verification (p. 974)
12. Verifying Enrollment for Financial Aid Eligibility (p. 974)

## Deadlines

In order to receive financial aid, all required documentation must be received by Azusa Pacific University within a reasonable amount of time to be processed before applicable federal, state, and institutional deadlines.

## Financial Aid Packaging

Azusa Pacific University offers financial aid in the form of grants, scholarships, loans, and employment. In order to serve a large number of students needing financial assistance, the university coordinates various elements of each student's financial aid program. This "packaging" (https://www.apu.edu/admissions/undergraduate/calculator/) approach may include assistance from two or more sources of financial aid. The university's goal is to award all applicants the maximum scholarship, grant, loan, and work study for which they qualify within the restrictions of federal and state guidelines and institutional policies.

## Financial Aid Policy for Study-Away Programs

APU has six category types of study-away programs.

### Financial Aid Policies: Semester Study Away

Approved semester programs (partner programs **and** exchange programs) are thoroughly vetted to ensure high-quality program design, student support, academic connectedness, and safety preparedness. View information on all APU-approved semester programs for undergraduate students. (https://sites.google.com/apu.edu/cgle/programs/semester-programs/?authuser=0)

TYPE 1: Approved Semester Programs

- Programs: Learn more about approved semester programs (https://sites.google.com/apu.edu/cgle/programs/semester-programs/?authuser=0) (LCC Lithuania, LLI Baltimore, LLI Ecuador, LLI Italy, SCIO Oxford, Semester in Spain)

- Charges are applied to student's APU account:

  - Tuition: Program tuition (not APU tuition)

  - Program Cost: Amount from program

- APU Study Away fee: $50

- APU UG services fee: $350

- International Semester Insurance (only for international programs): $100

- Health Insurance (general): Varies by student

- And some programs might have out-of-pocket expenses.

- View current amounts for each charge category (https://sites.google.com/apu.edu/cgle/programs/semester-programs/?authuser=0) through program details, and learn more about costs associated with semester study-away programs (https://www.apu.edu/undergraduate-admissions/cost/tuition/).

- Financial Aid for TYPE 1 Programs

  - Federal Aid: Yes, automatically applied like a regular semester.

  - State Aid: Yes, automatically applied like a regular semester.

  - APU Institutional Aid: No. Since students are going to a non-APU program, APU institutional aid cannot be used. APU institutional aid is manually removed during a semester study-away term and then automatically reinstated for the following semester(s). APU institutional aid includes, but is not limited to, aid such as the Trustees', President's, Provost's, Deans', and Directors' scholarships, the Mary Hill Award, MEL scholarships, the Faculty/Staff Award, Honors College scholarships, and APU Grants.

  - All students must meet with study-away program advising (studyaway@apu.edu), financial aid advising (ssc@apu.edu), and academic advising (advising@apu.edu) before committing to a semester study-away program.

- Payment Due Dates: Same as those of regular APU semester payments. (https://www.apu.edu/undergraduate-admissions/cost/tuition/)

TYPE 2: Approved Semester Exchange Programs

- Programs: Learn more about the approved semester exchange program (https://sites.google.com/apu.edu/cgle/programs/semester-programs/?authuser=0) (Nursing Norway)

- Charges are applied to student's APU account:

  - Tuition: Standard APU block tuition (12-17 units)

  - Program Cost: Amount from program

  - APU Study Away fee: $50

  - APU UG services fee: $350

  - International Semester Insurance (only for international programs): $100

  - Health Insurance (general): Varies by student

  - And some programs might have out-of-pocket expenses.

  - View current amounts for each charge category (https://sites.google.com/apu.edu/cgle/programs/semester-programs/?authuser=0) through program details, and learn more about costs associated with semester study-away programs (https://www.apu.edu/undergraduate-admissions/cost/tuition/).

- Financial Aid for TYPE 2 Programs

  - Federal Aid: Yes, automatically applied like a regular semester.

  - State Aid: Yes, automatically applied like a regular semester.

  - APU Institutional Aid: Yes, automatically applied like a regular semester (with the exceptions of athletics, music, and other aid that requires on-campus participation). Traditional undergraduate students are limited to receiving institutional aid to one off-campus nursing semester program.

  - Note: All students must meet with their nursing advisor, study-away program advising (studyaway@apu.edu), financial aid advising (ssc@apu.edu), and academic advising (advising@apu.edu) before committing to a semester study-away program.

- Payment Due Dates: Payment due dates for this program are the same as those of regular APU semester payments. (https://www.apu.edu/undergraduate-admissions/cost/tuition/)

TYPE 3 Programs

- All other semester programs not sponsored/approved by APU are not eligible for registration through APU, not eligible for financial aid/financial processing, and require a Leave of Absence (p. 1033).

## Financial Aid Policies: GO Term Study-Away Programs

GO Term study-away programs take many forms and include, but are not limited to, learning exchange programs, faculty/student research projects with travel, faculty-led study-away programs, grant-funded academic projects/programs with travel, etc. GO Term programs are for varying lengths of time for graduate, professional, and/or undergraduate students, offered in the fall, spring, and summer in a variety of destinations and courses of study. GO Term programs vary each year. See all current GO Term program materials (https://sites.google.com/apu.edu/cgle/programs/go-terms/?authuser=0) for exact dates, courses offered, and more information.

TYPE 4-A: GO Terms - Graduate (Fall, Spring, Summer)

- Programs: Learn more about graduate GO Term programs. (https://sites.google.com/apu.edu/cgle/programs/go-terms/?authuser=0)

- Charges are applied to student's APU account:

  - Tuition: Regular APU per-unit study tuition rate for the participant's degree program

  - Program Cost: Amount from program

  - APU Study Away fee: $50

  - International Insurance (only for international programs):  $35-$100

  - Some programs might have out-of-pocket expenses; learn more about costs associated with graduate GO Term programs (https://www.apu.edu/undergraduate-admissions/cost/tuition/).

- Financial Aid:

  - Usually no study-away aid is available for graduate/professional students, but standard loans or approved aid can be applied if off-campus travel is permitted with aid.

- Payment Due Dates: All related charges are paid with the same Student Services Center (Graduate and Professional) (https://www.apu.edu/graduateprofessionalcenter/) timeline as the participant's degree program.

TYPE 4-B: GO Terms - Traditional Undergraduate (Fall and Spring)

- Programs: Learn more about traditional undergraduate fall and spring GO Term programs. (https://sites.google.com/apu.edu/cgle/programs/go-terms/?authuser=0)

- Charges are applied to student's APU account:

  - Tuition: Tuition may be combined with the standard APU block tuition (12-17 units)

  - Program Cost: Amount from program

  - APU Study Away fee: $50

  - APU UG services fee: $350

  - International Insurance (only for international programs):  $35-$100

  - Health Insurance (general): Varies by student

  - Some programs might have out-of-pocket expenses; learn more about costs associated with traditional undergraduate fall and spring GO Term programs (https://www.apu.edu/undergraduate-admissions/cost/tuition/).

- Financial Aid:

- Federal Aid: Yes, automatically applied like a regular semester.

- State Aid: Yes, automatically applied like a regular semester.

- APU Institutional Aid: Yes, automatically applied like a regular semester if off-campus travel is permitted with aid.

- Payment Due Dates: Program and insurance fees are paid in the fall and spring semesters, respectively. Tuition and all supporting fees must be paid according to the Student Services Center (Undergraduate) (https://www.apu.edu/undergraduate-enrollment-services/) timeline.

TYPE 4-C: GO Terms - Traditional Undergraduate (Summer)

- Programs: Learn more about traditional undergraduate summer GO Term programs. (https://sites.google.com/apu.edu/cgle/programs/go-terms/?authuser=0)

- Charges are applied to student's APU account:

  - Tuition: APU per-unit study-away summer tuition rate for the student's degree program for the current year.

  - Program Cost: Amount from program

  - APU Study Away fee: $50

  - Some programs might have out-of-pocket expenses; learn more about costs associated with traditional undergraduate summer GO Term programs (https://www.apu.edu/undergraduate-admissions/cost/tuition/).

- Financial Aid:

  - Usually no financial aid is available for traditional undergraduate summer programs. If you have "unused" aid/loans on your account, you might be able to apply it to your program but only if confirmed by your financial aid counselor in the Student Services Center (https://www.apu.edu/undergraduate-enrollment-services/).

- Payment Due Dates: Program and insurance fees must be paid in the spring semester before your program. Tuition and all supporting fees must be paid according to the Student Services Center timeline.

TYPE 5: Traditional Undergraduate Approved Partner Summer Programs

- Programs: Learn more about traditional undergraduate approved partner summer programs (https://sites.google.com/apu.edu/cgle/programs/additional-programs/?authuser=0) (Ecuador, Lithuania, Oxford, Pacific Rim Washington State, Spain, and more)

- Charges are applied to student's APU account:

  - Tuition: Instructional costs of the program. This may be higher or lower than the APU per-unit study-away summer tuition rate for the student's degree program for the current year.

  - Program Cost: Amount from program

  - International Semester Insurance (only for international programs):  $35-$100

  - APU Study Away fee: $50

  - APU UG Summer Services Fee: $100

  - Some programs might have out-of-pocket expenses; learn more about costs associated with traditional undergraduate approved partner summer programs (https://www.apu.edu/undergraduate-admissions/cost/tuition/).

- Financial Aid: Usually no financial aid is available. Program and insurance fees must be paid the semester before the program. Tuition and all supporting fees must be paid according to the Student Services Center timeline.

- Payment Due Dates: Program and insurance fees must be paid in the spring semester before your program. Tuition and all supporting fees must be paid according to the Student Services Center timeline.

TYPE 6: Traditional Undergraduate Nonagreement Summer Programs

- All other traditional undergraduate summer program participation is considered transferred-in units and processed directly between the student and their program.

## Study-Away Refund Policy

Learn more about the refund policy for study-away programs (p. 1138).

## Keeping in Touch

The university will attempt to inform students about deadlines and procedures, but the final responsibility for the timely filing of the FAFSA and related documents is on the students.

Students must notify the Student Services Center regarding changes in financial situation, marriage, loss of a job, change in class load, or change of address. To contact the Student Services Center, a student may call, email, or stop by in person. Students must notify the Office of the Registrar to withdraw from the university.

## Minimum Enrollment

Scholarships, grants, and federal loans are based on a student's enrollment (athletic scholarships are pursuant to NCAA legislation).

For scholarships and grants:

- 12+ units: 100 percent of scholarships and grants
- 9-11 units: 75 percent of scholarships and grants
- 6-8 units: 50 percent of scholarships and grants
- 1-5 units: Not eligible for scholarships and grants*

*Exception: Final semester to graduate—25 percent of institutional scholarships and grants

For federal loans*:

- 6+ units: 100 percent of federal loans
- 1-5 units: Not eligible for federal loans

*Exception: Federal loans will be prorated if a student exclusively attends fall, spring, or summer only for their final semester.

## Nondiscrimination

The Student Services Center does not discriminate on the basis of race, color, national origin, sex, age, disability, or status as a veteran in any of its policies, practices, or procedures.

## Release of Records

It is understood that by applying for financial aid, the student grants the Student Services Center the right to release the student's grades and enrollment records to scholarship, state, federal, and loan agencies as needed.

## Professional Judgment

Students who have completed a FAFSA or California Dream Act application have the option to submit a Family Contribution Appeal or Cost of Attendance Appeal for a professional judgment review. This process assists families who experience changes in family income or have other special circumstances and would like to be evaluated for additional financial aid assistance. Some examples of significant changes are:

- Unemployment or reduction in income
- Dependent care expenses while participating in class
- Any other extenuating circumstances

Before a Family Contribution Appeal can be submitted for review, a financial aid application (FAFSA or CADAA) must be completed. Federal verification is required if selected. All requests submitted will be reviewed, but not all adjustments will be approved or will result in increased aid. Contact the Student Services Center for additional information.

## Satisfactory Academic Progress (SAP)

Students who wish to receive financial aid must be in good academic standing and make satisfactory academic progress towards a degree or certificate program in addition to meeting other eligibility criteria.

### Minimum Requirements

- GPA: Cumulative GPA of at least 2.0
- Units Passed (Pace): Passing grade in at least 67 percent of units enrolled (includes *F*s, *W*s, Incompletes, and repeated courses)

- Total Units Limit (Maximum Time Frame):  Not eligible when a determination has been made that a student cannot complete their degree within 180 units (includes *F*s, *W*s, Incompletes, and repeated courses). Exceptions may apply to students enrolled in additional degrees.
- Evaluated: End of each term (fall, spring, summer)

# Definitions

## Change of Major

If a student changes his or her major, it will **not** "reset" the current qualitative (GPA) or quantitative (pace) measures of SAP. All units attempted and/or passed will be counted when determining whether a student meets the minimum requirements listed above.

## Additional Degree

Students may receive Title IV, state, and most institutional aid for each degree. If the student completes the degree requirements for both degrees during the same term, the student can receive aid from Title IV, state, and most institutional aid until completion. If, on the other hand, the student completes the first degree/major program before completing the other degree/major program, that student is no longer eligible for Title IV grant (Federal Pell Grant, FSEOG, or TEACH Grant) and state aid funds to complete the second degree/major program. That student, however, may still receive Federal Work Study and Federal Direct Loan funds to complete the requirements of the second degree/major program. Students can enroll in up to 225 units. Not eligible when enrolling in the 226th unit (includes *F*s, *W*s, Incompletes, and repeated courses). See the Guidelines for Additional Degrees section on the Major and Minor Policies page (p. 1028).

## Financial Aid SAP Status

Students who fail to maintain SAP will be placed on Financial Aid Warning and may be given up to one term (semester) of financial aid eligibility to correct their SAP deficiencies. If the student does not make up his/her deficiencies in that one term and/or does not maintain SAP for two consecutive terms, he/she will be placed on Financial Aid Suspension and will be ineligible for all financial aid (federal, state, and institutional). Finally, if a student appeals and is approved, he/she will be placed on Financial Aid Probation.

## Appeals

Students may appeal for reinstatement of financial aid if they, a spouse, a dependent child, or a parent have experienced illness that prevented class attendance for an extended period of time; they experienced a death in the immediate family (parents, siblings, spouse, or dependent children); or they have experienced some extraordinary situation that prevented them from meeting the minimum standards. Such a situation must be exceptional and nonrecurring in nature. The appeal for reinstatement must explain the cause of the academic difficulty and how the situation has been resolved.

A SAP Appeal form is available online (https://apu.studentforms.com) and is required in order to be considered for reinstatement of your financial aid. The student must develop an academic plan. The academic plan that is submitted with the appeal should be created by the student and the Academic Success Center (https://www.apu.edu/academic-success/) staff. For Max Time Frame Appeals, the academic plan should be created with an academic records specialist in the Student Services Center. The appeal will be reviewed by an SAP Appeals Committee.

## Grades

The only grades that meet satisfactory academic progress completion standards are grades for which credit is awarded: *A*, *B*, *C*, *D*, *P*, and *CR* (note that some departments and/or schools require a higher minimum GPA in order for coursework to meet their program requirements). Withdrawals and incomplete grades are not passing grades. Challenge exams and audited courses are not considered.

## Regaining Eligibility

Students regain financial aid eligibility when they meet all three measures of progress for SAP. It is possible for a student to be placed on a warning status multiple times in his or her undergraduate academic career.

## Remedial Coursework

A student may take one academic year's worth of remedial courses and receive financial aid. Remedial coursework for students who are admitted into an eligible program and take it within that program will be counted toward all three progress measures for SAP.

## Repeated Courses

If a student repeats a failed or a previously passed class, it will replace the grade to recalculate into the new cumulative GPA. The units will still count toward the completion (pace) rate and maximum time frame. Students who passed a class and choose to repeat for a higher grade may receive financial aid only once for that repeated class. Students may receive financial aid for a failed class that they repeat until they pass (as long as they are meeting all of the other SAP requirements).

## Transfer Credits

Transfer credits that have been officially accepted to complete program requirements will count toward all three progress measures for SAP (GPA, pace, and total units limit).

# Stacking Financial Aid

The Student Services Center strives to award all applicants the maximum grant, scholarship, loan, and work study for which they qualify. Unfortunately, sometimes federal, state, and/or institutional policies may restrict the total amount or type of award a student may receive.

Aid will be stacked in the following order (unless otherwise stated):

1. Federal (Pell Grant, FSEOG Grant, etc.)
2. State (Cal Grant B/Dream Act Access, Cal Grant B/Dream Act, Cal Grant A/Dream Act, Chafee Grant, etc.)
3. Outside aid (depending on what the scholarship/award is explicitly designated to help cover)
4. Institutional aid, in the following order:
   a. APU Yellow Ribbon Matching Award
   b. Tuition Exchange Award
   c. Academic Merit Scholarship (President's, Deans', Trustees', etc.)
   d. Athletics
   e. MOU scholarship
   f. APU Grant; APU Grant–Dream Act
   g. Faculty/Staff Award (new students: Faculty/Staff comes before APU Grant)
   h. Departmental/participatory (new students: departmental/participatory comes before APU Grant)
5. Federal Direct Subsidized Student Loan
6. Federal Work Study
7. Nursing Student Loan (NSL)
8. Federal Direct Unsubsidized Student Loan
9. Federal Direct PLUS Loan (Parent)
10. Federal Direct Unsubsidized Student Loan (add-on)
11. Alternative Loan
12. State Vocational Rehabilitation Grant
13. ROTC
14. Veterans benefits (GI Bill[®], GI Yellow Ribbon portion, and Vocational Rehabilitation and Employment)

   *"GI Bill[®]" is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by the VA is available on the* official U.S. government website *(*https://www.benefits.va.gov/gibill/*).*

The following guidelines help explain why a student's financial aid may be reduced:

## Step 1: Cost of Attendance (COA)

Financial aid cannot stack above cost of attendance (COA). Exceptions: ROTC and VA Educational Benefits.

## Step 2: Cal Grant

When a student receives a Cal Grant, per state guidelines scholarships and grants (all free money) will be reduced to the lesser of the following:

- Scholarships and grants cannot stack above need (need = COA - Expected Family Contribution [EFC]).
- Scholarships and grants specifically required to pay tuition can stack with the Cal Grant up to tuition (Trustees', Tuition Exchange, etc.).

## Step 3: Institutional Aid

APU scholarships and grants (including the Faculty/Staff Award and Tuition Exchange) cannot stack above tuition. Please note: Steps 1 and 2 may reduce the amount below the cost of tuition.

Exceptions:

- Bishop Dixon Scholars (see Step 6 below)
- Honors College Scholarship(s)
- RA Scholarship
- Scholarshipped athletes cannot stack above Grant-in-Aid Amount.
  - Not eligible for an APU Grant (athletes receiving the Athletics Support Grant may still be eligible to receive an APU Grant)

## Step 4: APU Grant

The APU Grant will be reevaluated when new information is received. Circumstances that may decrease a student's APU Grant:

- Changes made to the FAFSA
- Academic Merit Scholarship added or revised
- APU departmental/participatory scholarship added or revised
- Faculty/Staff Award added or revised
- Federal or state grants added or revised (Pell Grant, FSEOG Grant, Cal Grant, etc.)
- Other new information

Not eligible for APU Grant:

- Athletic scholarship recipient
- ROTC recipient
- College of the Arts music scholarship recipient
- College of the Arts theater scholarship recipient
- A student who does not submit a FAFSA or complete verification
- Faculty/staff (employee and/or spouse)

## Step 5: ROTC

### Army ROTC

- Scholarship from ROTC covers tuition and mandatory fees.
- Also receive an ROTC Room and Board Scholarship from APU: $9,000/year ($4,500/semester).
- Not eligible for any additional APU scholarships or grants.
- Not eligible for Cal Grant (full tuition is paid by ROTC)

### Air Force ROTC

- Scholarship from ROTC = $18,000/year ($9,000/semester).
- Also receive an ROTC Room and Board Scholarship from APU: $9,000/year ($4,500/semester).
- Not eligible for any additional APU scholarships or grants (exception: ROTC Assistance Grant)
- May be eligible for Cal Grant (student must have enough tuition charges, after ROTC, to add full Cal Grant).

## Step 6: Bishop Dixon Scholarship Recipients

After federal, state, and APU grant aid is applied, the Bishop Dixon Scholarship will cover remaining tuition, mandatory fees, and room and board (though it may not cover optional charges, such as the Student Health Center, parking citations, etc.). Recipients will also receive $2,000/year ($1,000/semester) to help with books and supplies.

## Verification

Each year, the federal government or Azusa Pacific University chooses some FAFSA applications for a process called "verification." The law requires colleges to obtain information from the family that confirms the accuracy of the information that was reported on the FAFSA (e.g., student and parent tax information, etc.). Beyond those applications selected for verification, the law requires colleges to also request further documentation when a FAFSA application and/or subsequent documentation appears incomplete or inaccurate.

A student is not eligible to receive federal, state, and/or institutional need-based aid until all required documentation has been submitted by the financial aid deadline.

## Verifying Enrollment for Financial Aid Eligibility

In order to be eligible for Title IV aid, each course a student enrolls in must:

1. Be a course enrolled in at Azusa Pacific University.
2. Satisfy a degree requirement for the major(s) the student is actively pursuing during that term (fall, spring, summer). Degree requirements include courses that satisfy graduation, general education, major, minor, or other required coursework, including prerequisites.
3. Meet the repeat requirements as defined by the Department of Education:
   a. If a student received a passing grade (grade higher than *F*) in a course, they are allowed to repeat that course only once to remain eligible for Title IV aid. Students who pass the course initially but fail the second time may not receive Title IV aid for taking the course a third time.

b. If a student received a *W* or *F* grade in a course, they are permitted to repeat the course, but other APU academic policies may limit the number of times a student can repeat a course.

Courses that do not meet the above requirements will not be included in the determination of a student's enrollment status for purposes of paying Title IV aid. Institutional aid will be based on eligible coursework.

# Types of Financial Aid

Award amounts listed are for students first enrolling at Azusa Pacific University in 2024-25. Refer to previous catalogs (https://www.apu.edu/provost/catalog/) for scholarship/grant awarding information for enrollment that began prior to 2024-25.

The following types (or sources) of financial aid are available:

1. Federal (p. 975) (provided by the U.S. government)
2. Institutional (p. 978) (provided by APU)
3. Outside Aid and Alternative Loans (p. 987) (provided by organizations, businesses, etc.)
4. State (p. 990) (provided by the state of California)

## Budget Limitations

Be advised that funding from all of the sources listed is not guaranteed. Budget limitations may reduce or eliminate any of the awards described without notice. Also, on rare occasions the amount of financial aid originally offered may end up reduced or eliminated due to federal, state, and/or institutional policies. See the Stacking Financial Aid (p. 973) policy for more information on possible restrictions.

# Federal Aid

Federal aid is categorized as:

1. Grants (free money)
2. Federal Work-Study (paycheck from a job)
3. Loans (which have to be paid back)
4. Military Benefits (based on qualifying military service)

To apply for federal aid in the form of grants, Federal Work-Study, or loans, students must complete the FAFSA (https://studentaid.gov/h/apply-for-aid/fafsa/).

To be eligible for and to continue receiving federal aid, students must meet the eligibility requirements set forth by the U.S. Department of Education. The information provided below is a general overview of the programs provided. For more information on federal aid programs, the amounts, and their qualifications and restrictions, refer to the Department of Education website (https://studentaid.gov/).

## Grants

### Pell Grant

The Pell Grant is awarded to eligible students who have met a financial need requirement as determined by the FAFSA (https://studentaid.gov/h/apply-for-aid/fafsa/).

### Qualifications

1. Financial need requirement (as determined by the FAFSA).
2. Has not previously received a bachelor's degree.
3. Enrolled at least part time.

### Disbursement

Once the student's financial aid file is complete, the Pell Grant usually disburses into the student's APU account during the first month of the semester (first half of the grant in fall, the second half in spring), or later depending on when documentation is received.

### To Retain Eligibility

The student must have remaining eligibility in the Pell Grant program and maintain Satisfactory Academic Progress (SAP). (p. 971)

# Federal Supplemental Educational Opportunity Grant (FSEOG)

The extremely limited funds for the FSEOG are awarded to the neediest students as determined by the FAFSA (https://studentaid.gov/h/apply-for-aid/fafsa/) based on exceptional need until the funds run out.

## Qualifications

1. Extreme financial need requirement (as determined by the FAFSA).
2. Student has not previously received a bachelor's degree.
3. Eligible for a Pell Grant.
4. Returning Students: Complete new FAFSA application by March 2.

## Yearly Amount

1. Up to $1,500 ($750/semester).

## Disbursement

Once the student's financial aid file is complete, the FSEOG Grant usually disburses into the student's APU account during the first month of the semester (first half of the grant in fall, the second half in spring), or later depending on when documentation is received.

## To Retain Eligibility

The student must complete the FAFSA as soon after the first FAFSA filing date as possible. The student must meet the extreme financial need requirement (and the other qualifications listed above). This grant is awarded based on exceptional need until funds run out. There is no guarantee that the student will continue to receive this award in subsequent years. The student must also maintain Satisfactory Academic Progress (p. 971).

# Federal Work-Study (FWS)

Federal Work-Study enables students to earn part of their financial aid award through employment. Federal regulations allow the university to offer qualified students a certain amount of college work-study earnings.

This money is not gift aid, but is an opportunity for students to work and have part of their salary paid by the federal government.

Any student participating in the FWS program will be paid directly through the on-campus student payroll. Base-rate pay on campus is minimum wage. Individual earnings are not credited to the student's APU account but paid directly to the student. FWS earnings are taxable.

## Qualifications

1. Financial need requirement as determined by the FAFSA (https://studentaid.gov/h/apply-for-aid/fafsa/) and other financial aid received.
2. Hired and satisfactorily working in a FWS eligible position (certain religious-related positions are not eligible). APU reserves the right to alter the amount of FWS offered.
3. The student must also maintain Satisfactory Academic Progress (p. 971).

# Loans

# Federal Direct PLUS Loan for Parents

The Federal Direct Parent PLUS Loan is a low-interest loan borrowed directly from the U.S. government that parents can apply for to help their dependent student pay for college.

## Yearly Amounts

If the parent is approved, they can borrow any amount up to the student's cost of attendance, minus any other aid the student is receiving.

## Appeals and Endorsers

If denied a PLUS Loan, parents may:

1. Appeal the decision by contacting Direct Loans.
2. Apply for the PLUS loan with an endorser (co-signer).
3. The student can then take out an additional Federal Direct Unsubsidized Loan (freshmen and sophomores, $4,000; juniors and seniors, $5,000).

## How to Apply

Students

1. Complete the FAFSA (https://studentaid.gov/h/apply-for-aid/fafsa/).

Parents of a Dependent Student

1. Complete the Direct PLUS Loan Application (https://studentaid.gov/plus-app/parent/landing/).
2. New borrowers must also complete a Direct PLUS Loan Master Promissory Note (MPN) online (https://studentaid.gov/mpn/).

## Disbursement

Once the student's financial aid file is complete, the PLUS Loan usually disburses into the student's APU account during the first month of the semester (first half of the loan in fall, the second half in spring), or later depending on when documentation is received. If the parent borrower was originally denied the PLUS Loan based on adverse credit and was then later approved (or obtained an endorser), the parent must complete PLUS Credit Counseling online. (https://studentaid.gov/app/counselingInstructions.action/?counselingType=plus) The Parent PLUS Loan will not disburse to the student's APU account until the credit counseling is completed.

## To Retain Eligibility

The student must be enrolled at least half time (6 units per semester). The student must also maintain Satisfactory Academic Progress (p. 971).

## Repayment

Repayment of the Federal Direct PLUS Loan for Parents usually begins 60 days after the loan has been fully disbursed (after the second disbursement in early January for most students). In some cases, payment can be delayed by deferment or forbearance. Learn more about repayment of the Federal Direct PLUS Loan for Parents. (https://studentaid.gov/loan-simulator/)

# Federal Direct Loan for Students

The Federal Direct Loan is a low-interest loan borrowed directly from the U.S. government designed to help students pay for college. Depending on eligibility as determined by the FAFSA, the student may be offered a subsidized and/or unsubsidized loan. Subsidized means that the government will pay the interest on the loan while the student is in school. Unsubsidized means that the student is responsible to pay the interest on the loan while in school.

## Yearly Amounts

- Freshmen (0-29 units): $5,500 (up to $3,500 of which may be subsidized)
- Sophomores (30-59 units): $6,500 (up to $4,500 of which may be subsidized)
- Juniors and Seniors (60+ units): $7,500 (up to $5,500 of which may be subsidized)

If the student is independent or the parent is denied a PLUS Loan, the student can take out an additional Unsubsidized Loan (freshmen and sophomores, $4,000; juniors and seniors, $5,000).

## How to Apply (All Students)

1. Complete the FAFSA (https://studentaid.gov/h/apply-for-aid/fafsa/).
2. Accept loan(s) through the Student Services Center tab at home.apu.edu (https://home.apu.edu).

## New Borrowers Must Also:

1. Complete Direct Loan entrance counseling online (https://studentaid.gov/entrance-counseling/).
2. Complete a Direct Loan Master Promissory Note (MPN) online (https://studentaid.gov/mpn/).

## Disbursement

Once the student's financial aid file is complete, and the student has completed the Direct Loan application steps, the loan usually disburses into the student's APU account during the first month of the semester (first half of the loan in fall, the second half in spring), or later depending on when documentation is received.

## To Retain Eligibility

The student must have remaining eligibility in the Direct Loan program. The student must be enrolled at least half time (6 units) per semester. The student must also maintain Satisfactory Academic Progress (p. 971).

## Repayment

Repayment usually begins six months after the student either drops below half time (6 units is half time), withdraws, or graduates from college.

**For Washington State residents seeking information and resources about student loan repayment or seeking to submit a complaint relating to your student loans or student loan servicer, visit the Washington Student Achievement Council website (https://wsac.wa.gov/loan-advocacy/) or contact Student Loan Advocate at loanadvocate@wsac.wa.gov.**

## Military Benefits

### Post-9/11 GI Bill ® and VA Yellow Ribbon

For up-to-date information regarding eligibility requirements, award amounts offered by the government, and specific details, contact the VA (https:// www.va.gov/). You may also contact the Office of Military and Veteran Education Benefits (https://www.apu.edu/militaryeducation/benefits/) at (626) 815-3837 or mveb@apu.edu.

*"GI Bill®" is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by the VA is available at the official U.S. government website at* https://www.benefits.va.gov/gibill *(*https://www.benefits.va.gov/gibill/*)"*

# Institutional Aid

Award amounts listed are for students first enrolling at Azusa Pacific University in 2024-25. Refer to previous catalogs for scholarship/grant awarding information for enrollment that began prior to 2024-25.

Institutional aid categories:

- Academic Scholarships (p. 979)
- Need-Based Awards (p. 980)
- Participatory/Other Awards (p. 982)

## Budget Limitations

Be advised that funding from all of the sources listed is not guaranteed. Budget limitations may reduce or eliminate any of the awards described without notice.

All institutional aid is subject to coordination with federal, state, institutional, and outside aid policies. On occasion, the amount of financial aid originally offered may end up reduced or eliminated due to federal, state, and/or institutional policies. See the Stacking Financial Aid (p. 973) policy for more information on possible restrictions.

## Minimum Enrollment

Award amounts are based on full-time attendance. See the Minimum Enrollment (p. 971) policy for more information.

## Student Responsibility

Azusa Pacific University is pleased to receive scholarship support from many individual donors, as well as from foundations and corporations. These scholarship dollars are then awarded by the university according to directives of the donors (if any). The student, as a scholarship recipient, may be asked to write a letter of appreciation to the donor or organization who provided the scholarship money. The student may also be asked to attend a luncheon with the donor or organization representatives. As stewards of these financial investments into the lives of students, the university wishes to thank donors personally and with integrity. By accepting the scholarship award, the student is also agreeing to express appreciation if asked to do so.

## Underwriting Organizations

Foundations and corporations generously contribute funds that underwrite APU scholarships. These organizations include (but are not limited to):

- American Endowment Foundation
- American Transport System
- America's Christian Credit Union
- Arrow Motors, Inc.
- Bargaehr Family Foundation
- Barnabas Foundation
- Benevity Social Ventures, Inc.
- Bolton & Company
- California Community Foundation
- Corona Aluminum Co.
- EMELCO Foundation
- Family Unity Foundation
- Fuller Foundation
- Gatherer Family Foundation

# Academic Scholarships

Academic scholarships are based on a combination of GPA and test scores at the time of admittance. SAT or ACT writing section scores are not considered. Recipients will be granted the single-highest award for which they qualify and will receive official notification of their award shortly after acceptance to the university.

All academic scholarships are renewable for up to four years. Award amounts listed are for students enrolling for the first time at Azusa Pacific University in fall 2024. Refer to previous academic catalogs (http://www.apu.edu/provost/catalog/) for scholarship/grant awarding information for enrollment that began prior to fall 2024. Award amounts are not increased in subsequent years.

## Trustees' Scholarship

### Deadlines

- Submit a complete APU undergraduate application (https://www.apu.edu/undergraduate-admissions/) by the Early Action deadline of November 15, and
- Submit a complete Trustees' Scholarship Application (http://www.apu.edu/trusteesscholarship/) by November 15.

### Yearly Amount

- Full tuition (awarded to a small group of first-time freshmen who are interviewed and selected by the Trustees' Scholarship Committee)

### How to Apply

- Complete and submit the Trustees' Scholarship Application (http://www.apu.edu/trusteesscholarship/) online.

### To Retain Eligibility

- Must continue to meet SAP requirements (p. 971) at APU (verified after semester).

## President's Scholarship

### Yearly Amount

- $24,000 ($12,000 per semester)

## Provost's Scholarship

### Yearly Amount

- $21,000 ($10,500 per semester)

## Deans' Scholarship

### Yearly Amount

- $20,000 ($10,000 per semester)

## Director's Scholarship

### Yearly Amount

- $18,000 ($9,000 per semester)

## Mary Hill Award

### Yearly Amount

- $14,000 ($7,000 per semester)

## General Scholarship Information

Unless stated otherwise, the following applies to the awards listed above:

### Qualifications

- Freshmen: Students entering APU directly from high school or having completed fewer than 12 units of college work at the point of admission.
- SAT or ACT writing section scores are not considered.
- Academic scholarships cannot be re-earned if lost due to a low GPA, nor can a student qualify for a different academic scholarship while at APU.
- Other than the Trustees' Scholarship, each award is based on a sliding scale to accommodate various combinations of GPAs and test scores.
- Each case is evaluated individually.

### Yearly Amount

- Award amount will be prorated if enrolled less than full time (9-11 units at 75%, 6-8 units at 50%).

### Disbursement

- Once the student's financial aid file is complete, the scholarship is usually disbursed into the student's APU account during the first month of the semester (first half of the scholarship in fall, the second half in spring), or later depending on when documentation is received.

### Renewability

- Up to four years

### To Retain Eligibility

- Must maintain at least a 2.8 cumulative GPA at APU (verified after every spring semester).
- The student must also maintain Satisfactory Academic Progress (p. 971).

# Need-Based Awards

Award amounts listed are for students first enrolling at Azusa Pacific University in 2024-25. Refer to previous catalogs for scholarship/grant awarding information for enrollment that began prior to 2024-25.

- APU Grant (p. 981)
- Bishop Dixon Scholarship (p. 981)

## Budget Limitations

Be advised that funding from all of the sources listed is not guaranteed; budget limitations may reduce or eliminate, without notice, any of the awards described.

All institutional aid is subject to coordination with federal, state, institutional, and outside aid policies. On rare occasions, the amount of financial aid originally offered may end up reduced or eliminated due to federal, state, and/or institutional policies. See the Stacking Financial Aid (p. 973) policy for more information on possible restrictions.

# APU Grant

For students with considerable financial need, Azusa Pacific University invests millions of dollars annually to partner with families working to bridge the gap in affording the one-of-a-kind, transformational education experience offered at APU.

## Qualifications

Based on financial need as determined by the FAFSA, the APU Grant considers the cost of attendance as well as resources available to the student. Eligibility for this award may change if new information is received. The student must be enrolled at least half-time. Students must also complete verification, if applicable. Award amounts will not increase in subsequent years.

## Yearly Amount

The amount varies, depending on financial need and available resources. The amount offered will be prorated if the student attends less than full time (9-11 units at 75%, 6-8 units at 50%). On rare occasions, the amount originally offered may be reduced or eliminated due to federal, state, and/or institutional policies. See the Stacking Financial Aid (p. 973) policy for more information on possible restrictions.

## How to Apply

Complete the FAFSA (https://studentaid.gov/h/apply-for-aid/fafsa/) as soon after the first FAFSA filing date as possible (visit the FAFSA website for deadlines).

## Disbursement

Once the student's financial aid file is complete, this award is usually disbursed into the student's APU account during the first month of the semester (first half of the award in fall, the second half in spring), or later depending on when documentation is received.

## Renewability

Up to four years. Eligibility for this award may change if new information is received.

## To Retain Eligibility

Students must complete the FAFSA (https://studentaid.gov/h/apply-for-aid/fafsa/) annually by the applicable deadline. It is recommended to complete the FAFSA as soon after the first FAFSA filing date as possible (visit the FAFSA website for deadlines).

The student must also maintain Satisfactory Academic Progress (p. 971).

# Bishop Dixon Scholarship

Dependent on continued funding, a few students with considerable financial need who embody APU's Four Cornerstones (https://www.apu.edu/believe/#cornerstones) are selected to receive the Bishop Dixon Scholarship.

## Qualifications

Based on significant financial need as determined by the FAFSA (https://studentaid.gov/h/apply-for-aid/fafsa/), the recipients are chosen by the Bishop Dixon Scholarship committee. Recipients must be enrolled at least half time.

## Yearly Amount

The Bishop Dixon Scholarship will cover the remaining amount of the following charges on the recipient's APU student account not already covered by federal, state, and institutional aid: tuition, room, board, university service fee, health fee, parking fee, music fee, science lab fee, other mandatory fees, and up to $2,000/year ($1,000/semester) toward books and supplies.

Fines, Student Health Center charges, and Computer Store purchases are not covered. Certain restrictions may necessitate the reduction or elimination of federal and/or state grants. See the Stacking Financial Aid (p. 973) policy for more information.

## How to Apply

Complete the FAFSA (https://studentaid.gov/h/apply-for-aid/fafsa/) as soon as possible after the first FAFSA filing date (visit the FAFSA website for deadlines). Eligible recipients will be notified by the Bishop Dixon Scholarship Committee.

## Disbursement

Once the student's financial aid file is complete, this award usually disburses into the student's APU account during the first month of the semester (first half of the award in fall, the second half in spring), or later depending on when documentation is received.

## Renewability

Up to four years. The award may be reevaluated from year to year to determine continuing eligibility based on an assessment of the student's continuing financial need. Eligibility for this award may change if new information is received.

## To Retain Eligibility

The student must maintain Satisfactory Academic Progress (p. 971).

# Participatory/Other Awards

Refer to previous catalogs for scholarship/grant awarding information for enrollment that began during prior academic years.

- Athletic Scholarships (p. 982)
- Celebrate Azusa Citizens Scholarship/Nancy Moore Scholarship (p. 983)
- Forensics Scholarships (p. 984)
- Math, Physics, and Statistics Fellowship (p. 984)
- Multi-Ethnic Leadership Scholarship (p. 985)
- Music Scholarships (p. 985)
- Post-9/11 APU Yellow Ribbon Award (p. 986)
- Stauffer Fellowships (p. 986)
- Theater Scholarships (p. 987)

# Athletic Scholarships

Athletic scholarships are offered to many students who qualify to participate in a university athletic program.

## Yearly Amount

Athletic scholarships vary in amount. On rare occasions, the amount of the athletic scholarship originally offered by the coaching staff may be reduced or eliminated due to federal, state, and/or institutional policies. See the Stacking Financial Aid (p. 973) policy for more information on possible restrictions.

## How to Apply

Online recruitment forms are available for the following programs: baseball, men's basketball, women's basketball, men's soccer, women's soccer, track and field/cross country, volleyball, and acrobatics and tumbling. The coaching staffs for softball, women's swimming and diving, men's and women's tennis, and women's water polo prefer to receive direct emails from all interested students, with pertinent information concerning their athletic history (view the coaching staff email directory (http://athletics.apu.edu/staff.aspx)). Game footage is welcomed when available and requested by the coaching staff. Athletes receiving an athletic scholarship are not eligible for an APU Grant. Athletes receiving the Athletics Support Grant may still be eligible to receive an APU Grant.

## Disbursement

Once the student's financial aid file is complete, the award usually is disbursed into the student's APU account during the first month of the semester (first half of the award in fall, the second half in spring), or later depending on when documentation is received.

## Renewability

Every scholarship is awarded on an annual basis. Renewability is at the coaching staff's discretion. Eligibility for this award may change if new information is received.

## To Retain Eligibility

1. The student must maintain Satisfactory Academic Progress (p. 971).
2. The student must meet the requirements established by the NCAA and the university.

# Celebrate Azusa Citizens Scholarship/ Nancy Moore Scholarship

This scholarship was established to recognize the 15-year partnership that Nancy Moore, associate superintendent for Azusa Unified School District, developed with APU. Moore was instrumental in initiating a variety of youth education and community service programs.

This scholarship distinguishes a student who displays Nancy Moore's dedication to education and community service. Up to nine students will be chosen as recipients each academic year.

## Qualifications

1. The Celebrate Azusa Citizens Scholarship/Nancy Moore Scholarship is for students who currently attend Azusa High School, Gladstone High School, or Sierra High School and plan to enroll at APU, or for graduates of these schools who currently attend Citrus College.
2. Reside in the city of Azusa.
3. Demonstrate a commitment to the Four Cornerstones (https://www.apu.edu/believe/#cornerstones) of Azusa Pacific University: Christ, Scholarship, Community, and Service.
4. Have a minimum high school GPA of 3.0 or a minimum Citrus College GPA of 2.2.
5. Possess a passion for community service within the Azusa community.
6. Have proven leadership skills (e.g., volunteer work in the city of Azusa, or participated in cocurricular activities in high school, and/or athletics, youth group, ASB, parks and recreation, or youth group involvement).
7. Be admitted to Azusa Pacific University. It is strongly recommended that students complete the FAFSA (https://studentaid.gov/h/apply-for-aid/fafsa/) and be admitted for the appropriate year by March 2.

## Yearly Amount

Up to $5,000 ($2,500 per semester). Award amount will be prorated if enrolled less than full-time (9-11 units at 75 percent, 6-8 units at 50 percent). On rare occasions, the amount originally offered may be reduced or eliminated due to federal, state, and/or institutional policies. See the Stacking Financial Aid (p. 973) policy for more information on possible restrictions.

## How to Apply

1. Complete the FAFSA (https://studentaid.gov/h/apply-for-aid/fafsa/) as soon as possible after the first FAFSA filing date.
2. For an application and more information, contact the Office of Undergraduate Admissions (https://www.apu.edu/undergraduate-admissions/).

## Disbursement

Once the student's financial aid file is complete, the award usually disburses into the student's APU account during the first month of the semester (first half of the award in fall, the second half in spring), or later depending on when documentation is received.

## Renewability

Up to four years (depending on your grade level when you first enrolled at APU). Eligibility for this award may change if new information is received.

## To Retain Eligibility

The student must:

1. Maintain Satisfactory Academic Progress (p. 971).
2. Maintain at least a 2.8 cumulative GPA at APU.
3. Enroll in at least 12 units each semester at APU.

4. Participate in at least 30 hours of community engagement within the city of Azusa each academic year.
5. Participate in the Azusa Scholars Program (https://www.centerforstudentaction.org/azusa-scholars/).

# Forensics Scholarships

Forensics scholarships are available to top-performing students participating in APU's nationally recognized forensics program (https://www.apu.edu/comm/communication/). For more information on the forensics program, contact commstudies@apu.edu.

## Yearly Amount

Scholarship amounts vary. On rare occasions, the amount originally offered may be reduced or eliminated due to federal, state, and/or institutional policies. See the Stacking Financial Aid (p. 973) policy for more information on possible restrictions.

## How to Apply

Contact the Department of Communication Studies at commstudies@apu.edu.

## Disbursement

Once the student's financial aid file is complete, the award usually disburses into the student's APU account during the first month of the semester (first half of the award in fall, the second half in spring), or later depending on when documentation is received.

## Renewability

Check with the forensics program director for potential renewability. Eligibility for this award may change if new information is received.

## To Retain Eligibility

1. The student must maintain Satisfactory Academic Progress (p. 971).
2. The student must meet the requirements established by the forensics program.

# Math, Physics, and Statistics Fellowship

All incoming students pursuing a degree in mathematics, applied mathematics, or physics are eligible to apply for the Mathematics, Physics, and Statistics (MPS) Fellowship offered by the Department of Computer Science, Engineering, Mathematics, Physics, and Statistics (https://www.apu.edu/clas/mathphysics/). The goals of the MPS Fellowship program are to help students develop a sense of belonging in the community, to connect their personal faith and values to their vocation in math or physics, to provide professional development opportunities, and to provide financial support.

## Yearly Amount

The MPS Fellowship program consists of two parts. The Ignite Fellowship is open to first-year students and transfer students, and Ignite Fellows receive a scholarship of $1,000 for 1 year. Participants in the Ignite Fellowship are eligible to apply during their first year at APU for the Engage Fellowship. The department selects two Engage Fellows per year, and Engage Fellows receive a scholarship of $2,000 per year for 3 years, or until they graduate from APU. On rare occasions, the amount originally offered may be reduced or eliminated due to federal, state, and/or institutional policies; see the Stacking Financial Aid (p. 973) policy for more information on possible restrictions.

## How to Apply

Apply online. (https://docs.google.com/forms/d/e/1FAIpQLSeDREJ-dO4WDEinI_pbJoA9D6j60o47k4lGLSNCcDAgq1zWPg/viewform/)

## Disbursement

Once the student's financial aid file is complete, the award usually disburses into the student's APU account during the first month of the semester (first half of the award in fall, the second half in spring), or later depending on when documentation is received.

## Renewability

See the Yearly Amount section above.

### To Retain Eligibility

1. The student must maintain Satisfactory Academic Progress (p. 971).
2. The student must meet the requirements outlined in the Math, Physics, and Statistics Fellowship program guidelines (https://docs.google.com/document/d/1Gciv_GmH9obQR8NOpoKpr5BxQk7tD-YwC-teipIyOns/edit/?usp=sharing).

# Multi-Ethnic Leadership Scholarship

Every year, six first-time freshmen are chosen as recipients of the Multi-Ethnic Leadership (MEL) Scholarship (https://www.apu.edu/scrd/scholarship/#multiethnic). The MEL Scholarship is awarded to carefully screened applicants who meet the high school GPA requirement, demonstrate strong leadership abilities in high school, and who will actively pursue and advocate diversity on campus through a leadership position.

## Qualifications

1. First-time freshman, with at least a 3.2 high school GPA
2. Strong leadership ability
3. Desire and willingness to actively pursue and advocate diversity on campus

## Yearly Amount

Scholarship recipients are awarded $11,000 per year ($5,500 per semester). The scholarship will be prorated if enrolled less than full-time (9-11 units at 75%, 6-8 units at 50%). On rare occasions, the amount originally offered may be reduced or eliminated due to federal, state, and/or institutional policies. See the Stacking Financial Aid (p. 973) policy for more information on possible restrictions.

## How to Apply

Contact the Student Center for Reconciliation and Diversity (https://www.apu.edu/scrd/).

## Disbursement

Once the student's financial aid file is complete, the award usually disburses into the student's APU account during the first month of the semester (first half of the award in fall, the second half in spring), or later depending on when documentation is received.

## Renewability

Check with the Student Center for Reconciliation and Diversity for potential renewability. Eligibility for this award may change if new information is received.

## To Retain Eligibility

1. The student must maintain Satisfactory Academic Progress (p. 971).
2. The student must meet the requirements established by the center.

# Music Scholarships

Music scholarships are available to incoming music majors who have auditioned with the Department of Music. Scholarships are awarded based on talent, academic ability, and potential contribution as a music major in the Department of Music.

Music scholarships are renewable at the offered amount until anticipated graduation date upon admission (eight semesters for incoming freshmen). Students who do not meet their anticipated graduation date must petition to renew their award past this deadline.

## Eligibility Requirements

- Student must be a music major (music minors are ineligible).
- Maintain a cumulative GPA of 3.0.
- Participate in the program as directed. This can include participating in ensembles above and beyond those required by the catalog curriculum.
- Maintain full-time enrollment (12 units or more). Students below 12 units may have their scholarships prorated per university policy.

On rare occasions, the amount originally offered may be reduced or eliminated due to federal, state, and/or institutional policies. See the Stacking Financial Aid (p. 973) policy for more information on possible restrictions.

### How to Apply

Learn more about Department of Music scholarships and auditions. (https://www.apu.edu/music/auditions-scholarships/)

# Post-9/11 APU Yellow Ribbon Award

Set up as a matching program between the Department of Veterans Affairs (VA) and universities, the Yellow Ribbon program helps make a college education more affordable for eligible students. It is designed to help cover the cost of tuition and mandatory fees not covered by the GI Bill®, up to the maximum award amount designated by the university.

## Qualifications

Must be certified as eligible per the VA, as well as by APU's VA certifying official. For more information on the GI Bill and the VA Yellow Ribbon program, visit the VA website (https://www.gibill.va.gov).

## Yearly Amount

Up to $14,000 of APU Yellow Ribbon (Institutional Aid). The VA Yellow Ribbon will also match up to $14,000. State policies may also reduce or eliminate state grants (including the Cal Grant).

## How to Apply

1. Submit an eligibility request to the VA.
2. Contact APU's VA certifying official in the Office of Military and Veteran Education Benefits (https://www.apu.edu/militaryeducation/benefits/) and complete the application steps needed.

## Disbursement

Once the student's financial aid file is complete, this award usually disburses into the student's APU account during the first month of the semester (first half of the award in fall, the second half in spring), or later depending on when documentation is received.

## Other Important Information

1. The student must maintain Satisfactory Academic Progress (p. 971).
2. Should a student drop or withdraw from a class, the federal government will not pay the GI Bill toward that course. The student will be responsible for any outstanding balance created by dropping or withdrawing from a course.
3. The student will be responsible for any outstanding charges not covered by the GI Bill, VA Yellow Ribbon, or APU Yellow Ribbon awards.

*GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by the VA is available on the* official U.S. government website *(*https://benefits.va.gov/gibill/*).*

# Stauffer Fellowships

APU awards up to two fellowships to biochemistry or chemistry majors who have successfully completed at least one 300- or 400-level CHEM/BIOC course and have a minimum cumulative GPA of 3.0 or higher.

## Yearly Amount

Fellowship amounts vary. On rare occasions, the amount originally offered may be reduced or eliminated due to federal, state, and/or institutional policies. See the Stacking Financial Aid (p. 973) policy for more information on possible restrictions.

## How to Apply

During each academic year, an application period will be announced by the Department of Biology and Chemistry (p. 33) and eligible students will be contacted by email. For more information, contact Kevin S. Huang, PhD, at (626) 815-2175 or shuang@apu.edu.

## Disbursement

Once the student's financial aid file is complete, the award usually disburses into the student's APU account during the first month of the semester (first half of the award in fall, the second half in spring), or later depending on when documentation is received.

## Renewability

This is a competitive award; applications are reviewed annually by the Department of Biology and Chemistry for potential renewability. Eligibility for this award may change if new information is received.

## To Retain Eligibility

1. The student must maintain Satisfactory Academic Progress (p. 971).
2. The student must meet the requirements established by the Department of Biology and Chemistry.

# Theater Scholarships

Scholarships are available to students majoring in Theater Arts (https://www.apu.edu/vpa/programs/theater-arts-major/#financialaid) or Acting for the Stage and Screen (https://www.apu.edu/vpa/programs/acting-major-bfa/#financialaid). (https://www.apu.edu/vpa/programs/acting-major-bfa/financialaid/)

## Yearly Amount

Scholarship amounts vary. On rare occasions, the amount originally offered may be reduced or eliminated due to federal, state, and/or institutional policies. See the Stacking Financial Aid (p. 973) policy for more information on possible restrictions.

## How to Apply

For information on audition opportunities and scholarship requirements, visit the Theater Arts (https://www.apu.edu/vpa/programs/theater-arts-major/#admission) and Acting for the Stage and Screen (https://www.apu.edu/vpa/programs/acting-major-bfa/#admission) sites.

## Disbursement

Once the student's financial aid file is complete, the award usually disburses into the student's APU account during the first month of the semester (first half of the award in fall, the second half in spring), or later depending on when documentation is received.

## Renewability

Check with the Department of Theater Arts (https://www.apu.edu/vpa/theater/) for potential renewability. Eligibility for this award may change if new information is received.

## To Retain Eligibility

1. The student must maintain Satisfactory Academic Progress (p. 971).
2. The student must meet the requirements established by the Department of Theater Arts.

# Outside Aid and Alternative Loans

## Outside Aid

Students are required to report all resources to the Student Services Center (https://www.apu.edu/undergraduate-enrollment-services/). These resources include, but are not limited to: grants, scholarships, fellowships, stipends, and tuition reimbursement. Failure to report these resources can result in delays in receiving financial aid, cancellation of awards, or the return of funds already received.

Please be advised that funding from all of the sources listed is not guaranteed. Budget limitations may reduce or eliminate any of the awards described without notice. Also, on rare occasions the amount of financial aid originally offered may end up being reduced or eliminated due to federal, state, and/or institutional policies. See the Stacking Financial Aid (p. 973) policy for more information on possible restrictions.

## Ebell of Los Angeles Scholarships

The Ebell of Los Angeles offers scholarships to eligible L.A. County residents. For more information, visit the Ebell website (https://ebellofla.com/ebell-scholarship-continues-to-support-students/).

## TELACU Scholarship

The TELACU Scholarship (https://www.apu.edu/scrd/scholarship/#telacu) is funded by the TELACU Foundation and is matched by Azusa Pacific University. A total amount of $3,000 is offered to selected recipients. The scholarships are offered to first-generation college students who are permanent residents of the county of Los Angeles. Recipients must come from a low-income family, be a full-time undergraduate student, and be a United States citizen or permanent resident. The GPA minimum is 2.5.

Renewing scholars must reapply for this scholarship by March 1, and the deadline for one-year or new applicants is March 31.

## Alternative/Private Loans for Students

APU strongly recommends applying for all federal aid/loans first and foremost. Federal loans typically offer much better interest rates and repayment terms.

Students who wish to apply for alternative/private loans must complete a separate online application, have eligibility remaining in their school budget, and be approved by the lending agency. Alternative/private loans require that all charges on the student's APU account must be paid in full before any refund will be given. Visit the Student Services Center website (https://www.apu.edu/undergraduate-enrollment-services/) for more information about alternative/private loans.

It is the student's responsibility to be in contact with his or her lender to make sure every piece of the application process has been taken care of in a timely manner. Should the alternative/private loan not process in time, the student will be responsible for any owing balance that remains on his or her APU account.

### How to Apply

Students may apply for an alternative/private loan by visiting ELMSelect (https://www.elmselect.com/#/). The lenders and loan options presented in ELMSelect are a comprehensive list of alternative/private loan providers that our students have borrowed from over the past three to five years. We do not recommend, suggest, or endorse any lender(s). The option is solely yours.

### Disbursement

Once the student has completed all of the lender's required application steps, the loan usually disburses into the student's APU account during the first month of the semester (first half of the loan in fall, the second half in spring), or later depending on when documentation is received.

### Repayment

The chosen lender establishes all terms of the loan, including interest rate, repayment, etc.

# Air Force ROTC (Reserve Officer Training Corps) Scholarship

## Yearly Amount

These competitive one- to four-year scholarships valued at up to 100 percent of tuition and fees are available to qualified applicants. Additionally, students may be eligible to receive money to cover the cost of books as well as a monthly, tax-free stipend of up to $500.

## On-Campus Room and Board Scholarship

In addition to the federally funded Air Force ROTC Scholarships, APU offers the ROTC Room and Board Scholarship to all eligible, participating ROTC scholarship recipients. Contact the Student Services Center (https://www.apu.edu/undergraduate-enrollment-services/) for details on the amount of the scholarship. The scholarship is dependent on the student's continued enrollment and participation in the program.

To receive the room portion, the recipient must live on campus. To be eligible for the board portion, the recipient must sign up for a dining plan. Students are encouraged to carefully choose their housing and dining plan options in an effort to keep their costs under the maximum scholarship amount per semester.

## For More Information

To learn more, see the AFROTC page in the Academic Resources (p. 1107) section of this catalog, visit the University of Southern California Department of Aerospace Studies catalog page (https://catalogue.usc.edu/content.php?catoid=12&navoid=4173) or call (213) 740-2670, or visit the Air Force ROTC website (https://www.afrotc.com/).

## Disbursement

The Air Force will send scholarship funds to APU and to the student (if applicable) when it processes its scholarship awards (timing varies). For students eligible to receive the APU ROTC Room and Board Scholarship, once the student's admissions and financial aid files are complete, the award will usually be disbursed into the student's APU account during the first month of the semester (first half of the award in fall, the second half in spring), or later depending on when documentation is received.

## Renewability

Check with an Air Force representative for all applicable requirements. Eligibility for these awards may change if new information is received.

## To Retain Eligibility

1. Students must meet all requirements set forth by the Air Force ROTC program.
2. Students must also maintain Satisfactory Academic Progress (p. 971).

# Army ROTC (Reserve Officer Training Corps) Scholarship

Students may compete for four-year Army ROTC Scholarships in their junior and senior years of high school (Early Action and Regular Decision). Current APU students may also compete for three-and-a-half-, three-, and two-year scholarships to complete their studies.

## Yearly Amount

Each year, the Army awards recipients a scholarship covering full tuition and mandatory fees, as well as funds for books, and a tiered, tax-free monthly stipend.

## On-Campus Room and Board Scholarship

In addition to the federally funded Army ROTC Scholarships, APU offers the ROTC Room and Board Scholarship to all eligible, participating ROTC scholarship recipients. Contact the Student Services Center (https://www.apu.edu/undergraduate-enrollment-services/) for details about the scholarship, which is dependent on the student's continued enrollment and participation in the program.

To receive the room portion, the recipient must live on campus (https://www.apu.edu/housing/). To be eligible for the board portion, the recipient must sign up for a meal plan (http://www.apu.edu/diningservices/#mealplan). Students are encouraged to carefully choose their housing and dining plan options in an effort to keep their costs under the maximum scholarship amount per semester.

## How to Apply

Scholarship applications are available online (https://www.goarmy.com/careers-and-jobs/find-your-path/army-officers/rotc/scholarships/). The online application period begins in the fall; thereafter, applicants can apply directly to the Department of Military Science and Leadership at Claremont McKenna College. For more information, contact Claremont McKenna College:

Claremont McKenna College
Department of Military Science (https://www.cmc.edu/military-science/)
Bauer South 101
500 E. Ninth St.
Claremont, CA 91711
(909) 621-8102

## Disbursement

The Army will send scholarship funds to APU and to the student (if applicable) when it processes its scholarship awards (timing varies). For students eligible to receive the APU ROTC Room and Board Scholarship, once the student's admissions and financial aid files are complete, the award will usually be disbursed into the student's APU account during the first month of the semester (first half of the award in fall, the second half in spring), or later depending on when documentation is received.

## Renewability

Check with an Army representative for all applicable requirements. Eligibility for these awards may change if new information is received.

## To Retain Eligibility

1. Students must meet all requirements set forth by the Army ROTC program.

# TELACU Scholarship

The TELACU Scholarship (https://www.apu.edu/scrd/scholarship/#telacu) is funded by the TELACU Education Foundation and is matched by Azusa Pacific University. A total amount of $3,000 is offered to selected recipients. The scholarships are offered to first-generation college students who are

permanent residents of Los Angeles County. Recipients must come from a low-income family, be a full-time undergraduate student, and be a United States citizen or permanent resident. A minimum 2.5 GPA is required.

Learn more about the scholarship and how to apply (https://telacu.com/telacu-education-foundation/college-success-program/apply/).

# State Aid

Each year, the state of California invests millions of dollars in helping the state's residents achieve their higher education goals. Of the programs offered, the most common are the Cal Grant A, Cal Grant B, Cal Grant Dream Act, and Chafee Grant. These funds are not guaranteed. The state reserves the right to change, reduce, or eliminate any of the programs described below based on state law and budget limitations.

State Aid is available in the following categories:

1. Cal Grant A (p. 990)
2. Cal Grant B (p. 991)
3. Cal Grant Dream Act (p. 993)
4. Chafee Grant for Foster Youth (p. 993)

The following information is a general guideline; learn more on the California Student Aid Commission website (http://www.csac.ca.gov). Be advised that funding from all of the sources listed is not guaranteed. Budget limitations may reduce or eliminate any of the awards described without notice. Also, on rare occasions the amount of financial aid originally offered may end up reduced or eliminated due to federal, state, and/or institutional policies. See the Stacking Financial Aid (p. 973) policy for more information on possible restrictions.

**Important Cal Grant Disclosure:** A Cal Grant award is limited to four academic years, except as provided in subdivision (c) of the California Education Code Section 69433.6. A student needs to take 15 units per semester, or 30 units per academic year, in order to graduate within four years.

## Cal Grant A

### First-Time Recipients

### Qualifications

1. California resident
2. Graduated from a California high school
3. 3.0 high school GPA
4. Family's income and assets are under ceilings established for that year
5. Enrolled at least half time
6. Student is not already receiving other scholarships and/or grants that pay exclusively for the total cost of tuition and fees.

### Yearly Amount

- At APU, the estimated amount for first time recipients is $9,220
- The award amount will be prorated if the student is enrolled less than full time (9-11 units at 75 percent, 6-8 units at 50 percent).

### How to Apply

1. Complete the FAFSA (https://studentaid.gov/h/apply-for-aid/fafsa/) for the appropriate school year by the March 2 deadline prior to fall enrollment.
2. Complete the GPA Verification Form (https://www.csac.ca.gov/post/cal-grant-gpa-verification-form/) for the appropriate school year by the March 2 deadline prior to fall enrollment.

### Disbursement

- Once the student's financial aid file is complete, the Cal Grant A usually disburses into the student's APU account during the first month of the semester (first half of the grant in fall, the second half in spring), or later depending on when documentation is received.

### To Retain Eligibility

1. Must be enrolled at least half time (6 units) per semester[1]
2. Must maintain Satisfactory Academic Progress (p. 971)
3. Must have remaining eligibility per the state
4. Must meet the state's financial eligibility requirements
5. In conjunction with other scholarships/grants received the student must have sufficient financial need per the information reported on the FAFSA (https://studentaid.gov/h/apply-for-aid/fafsa/). "Need" is defined as the cost of attendance minus expected family contribution. Per the state's requirements, some of the other scholarships or grants originally offered to the student may be reduced if there is not sufficient need.

## Renewal Recipients

### Qualifications

1. Must have met the qualifications to receive the grant in a previous school year
2. Must be enrolled at least half time (6 units) per semester[1]
3. Must maintain Satisfactory Academic Progress (p. 971)
4. Must have remaining eligibility per the state
5. Must meet the state's financial eligibility requirements
6. In conjunction with other scholarships/grants received, the student must have sufficient financial need per the information reported on the FAFSA (https://studentaid.gov/h/apply-for-aid/fafsa/). "Need" is defined as the cost of attendance minus expected family contribution. Per the state's requirements, some of the other scholarships or grants originally offered to the student may be reduced if there is not sufficient need.
7. Student is not already receiving other scholarships and/or grants that pay exclusively for the total cost of tuition and fees.

### Yearly Amount

- Full award amount offered is determined by the state.
- Award amount will be prorated if the student is enrolled less than full time (9-11 units at 75 percent, 6-8 units at 50 percent).
- The amount also may be reduced or eliminated if any of the above qualifications are not met.

### How to Apply

- Complete the FAFSA (https://studentaid.gov/h/apply-for-aid/fafsa/) for the appropriate school year prior to fall enrollment.

### Disbursement

- Once the student's financial aid file is complete, the Cal Grant A usually disburses into the student's APU account during the first month of the semester (first half of the grant in fall, the second half in spring), or later depending on when documentation is received.

### To Retain Eligibility

1. Must be enrolled at least half time (6 units) per semester[1]
2. Must maintain Satisfactory Academic Progress (p. 971)
3. Must have remaining eligibility per the state
4. Must meet the state's financial eligibility requirements
5. In conjunction with other scholarships/grants received, the student must have sufficient financial need, per the information reported on the FAFSA (https://studentaid.gov/h/apply-for-aid/fafsa/). "Need" is defined as the cost of attendance minus expected family contribution. Per the state's requirements, some of the other scholarships or grants originally offered to the student may be reduced if there is not sufficient need.

# Cal Grant B

## First-Time Recipients

### Qualifications

1. California resident
2. Graduated from a California high school
3. Student's high school GPA meets the requirement set by the state.
4. Family's income and assets are under ceilings established by CSAC for that school year
5. Enrolled at least half time
6. Student is not already receiving other scholarships and/or grants that pay exclusively for the total cost of tuition and fees.

### Yearly Amount

- Students in their first year of college typically are only offered the Cal Grant B Access award of $1,648
- The award amount will be prorated if the student is enrolled less than full time (9-11 units at 75 percent, 6-8 units at 50 percent).

### How to Apply

1. Complete the FAFSA (https://studentaid.gov/h/apply-for-aid/fafsa/) for the appropriate school year by the March 2 deadline prior to fall enrollment.
2. Complete the GPA Verification Form (https://www.csac.ca.gov/post/cal-grant-gpa-verification-form/) for the appropriate school year by the March 2 deadline prior to fall enrollment.

## Disbursement

- Once the student's financial aid file is complete, the Cal Grant B and/or B Access award usually disburses into the student's APU account during the first month of the semester (first half of the grant in fall, the second half in spring), or later depending on when documentation is received.

## To Retain Eligibility

1. Must be enrolled at least half time (6 units) per semester[1]
2. Must maintain Satisfactory Academic Progress (p. 971)
3. Must have remaining eligibility per the state
4. Must meet the state's financial eligibility requirements
5. In conjunction with other scholarships/grants received the student must have sufficient financial need per the information reported on the FAFSA (https://studentaid.gov/h/apply-for-aid/fafsa/). "Need" is defined as the cost of attendance minus expected family contribution. Per the state's requirements, some of the other scholarships or grants originally offered to the student may be reduced if there is not sufficient need.

# Renewal Recipients

## Qualifications

1. Must have met the qualifications to receive the grant in a previous school year
2. Must be enrolled at least half time (6 units) per semester[1]
3. Must maintain Satisfactory Academic Progress (p. 971)
4. Must have remaining eligibility per the state
5. Must meet the state's financial eligibility requirements
6. In conjunction with other scholarships/grants received, the student must have sufficient financial need per the information reported on the FAFSA (https://studentaid.gov/h/apply-for-aid/fafsa/). "Need" is defined as the cost of attendance minus expected family contribution. Per the state's requirements, some of the other scholarships or grants originally offered to the student may be reduced if there is not sufficient need.
7. Student is not already receiving other scholarships and/or grants that pay exclusively for the total cost of tuition and fees.

## Yearly Amount

- After the initial year, Cal Grant B recipients are generally eligible to receive the full Cal Grant B award, estimated to be $9,220 for renewal recipients, in addition to the Cal Grant B Access award of $1,648.
- Award amounts will be prorated if the student is enrolled less than full time (9-11 units at 75 percent, 6-8 units at 50 percent).

## How to Apply

- Complete the FAFSA for the appropriate school year prior to fall enrollment.

## Disbursement

- Once the student's financial aid file is complete, the Cal Grant B and/or B Access grant usually disburses into the student's APU account during the first month of the semester (first half of the grant in fall, the second half in spring), or later depending on when documentation is received.

## To Retain Eligibility

1. Must be enrolled at least half time (6 units) per semester[1]
2. Must maintain Satisfactory Academic Progress (p. 971)
3. Must have remaining eligibility per the state
4. Must meet the state's financial eligibility requirements
5. In conjunction with other scholarships/grants received, the student must have sufficient financial need, per the information reported on the FAFSA (https://studentaid.gov/h/apply-for-aid/fafsa/). "Need" is defined as Cost of Attendance minus Expected Family Contribution. Per the state's requirements, some of the other scholarships or grants originally offered to the student may be reduced if there is not sufficient need.

# How the Cal Grant B Access Award is Processed at APU

The access award is designated for costs including living expenses, transportation, supplies, and books. Azusa Pacific University policy states that all access grants will be transferred directly to the student's institutional account and applied toward any owing balance. The student has the right to request in writing a direct refund of the access grant and that it be excluded from paying the outstanding balance on the student account. If the written request is received after the access grant has already been applied to the student account, any future access grants will be awarded directly to the student. Note: This may cause an outstanding balance on the student's account. An outstanding balance may prevent students from registering for courses. Students enrolled in fewer than 6 units (1-5 units) are not eligible to receive the Cal Grant B Access award.

## Cal Grant Dream Act

The California Dream Act is a combination of three California state assembly bills: Assembly Bill (AB) 540, AB 130, and AB 131. Collectively, these bills allow undocumented and nonresident documented students who meet certain provisions to be treated the same as resident students. Called the California Dream Act, this allows these students to apply for and receive Cal Grants.

### How to Apply

1. Complete the California Dream Act Application (https://dream.csac.ca.gov/) for the appropriate school year by the March 2 deadline prior to fall enrollment.
2. Complete the GPA Verification Form (https://www.csac.ca.gov/post/cal-grant-gpa-verification-form/) for the appropriate school year by the March 2 deadline prior to fall enrollment.

For information on qualifications, yearly amount, disbursement, and how to retain eligibility, see the Cal Grant A and Cal Grant B information listed above.

## Chafee Grant for Foster Youth

Contact the California Student Aid Commission (CSAC) for more information on the qualifications needed, how to apply, yearly amounts, and disbursement information. For more information, visit CSAC's Chafee Grant page (https://chafee.csac.ca.gov/).

[1]   Seniors with remaining Cal Grant eligibility in their final term of a degree program may be eligible for a portion of remaining Cal Grant funds for the final term needed to complete their degree program, even if they are enrolled less than half time.

# Return of Aid

## Students Making Class Changes

Students may add and/or drop classes until the last day to add or drop; these dates are listed on the Academic Calendar (https://www.apu.edu/calendar/academic/). After the final drop deadline, there will be no refunds given for class withdrawals.

APU realizes that extenuating circumstances may sometimes impact a student's ability to complete the semester. After a student begins attendance in a term and then stops attending all of his or her classes during the term, depending on the circumstances, it may be classified as a "withdrawal," "leave of absence," or "dismissal" from the university. For the purpose of charges assessed and financial aid eligibility listed below, a leave of absence and a dismissal will be handled the same as a withdrawal from the university.

## Official Process: Withdrawal or Leave of Absence

Contact the Student Services Center (https://www.apu.edu/student-services/). Before ceasing attendance during the term, students are advised to consider how much they might be charged, how much financial aid they might receive, and how not completing courses might impact their ability to receive financial aid in future years (see the Satisfactory Academic Progress policy (p. 971)).

## Withdrawing Prior to the 60-Percent Point in the Semester

If a student drops a class on or before the drop deadline, no tuition will be charged for that class. After the drop deadline, if a student withdraws from one or more classes but is still attending other classes, the student will be charged tuition for all of his or her classes (including the withdrawals). However, in the event a student withdraws from **all** of his or her classes **after** the drop deadline, charges and financial aid will be calculated as follows:

### Charges

Tuition: prorated per day
Fees: not refundable
Room: prorated weekly, based on the 16-week term
Board: prorated weekly, based on the 16-week term

### Financial Aid

Financial aid: prorated per day (assuming the student has completed all requirements, the admission file and financial aid file are complete, and all loan application steps have been completed **prior** to the last date of attendance)

On extremely rare occasions, the university will decide to reduce or remove a student's tuition. When this happens, the university also reserves the right to reduce or remove the institutional aid that was awarded.

## Withdrawing On or After the 60-Percent Point in the Semester

The student will be charged in full.

## Financial Aid

The student will receive full financial aid (assuming the student has completed all requirements, the admission file and financial aid file are complete, and all loan application steps have been completed **prior** to the last date of attendance).

On extremely rare occasions, the university will decide to reduce or remove a student's tuition. When this happens, the university also reserves the right to reduce or remove the institutional aid that was awarded.

## The Federal Government's "Return to Title IV" (R2T4) Policy

If a student withdraws from all courses in a traditional 16-week term or doesn't complete all the sessions of a modular (sequential) course schedule, in some cases the student only earns a portion of the financial aid already received. APU is required by federal law to use a prescribed formula to calculate the unearned portion of the financial aid received and return it to the federal government's Title IV programs.

## Traditional 16-Week Semester R2T4 Policy

The percentage of Title IV financial aid earned is determined by dividing the number of days the student completed in the semester, by the total number of days in the term. If the student attended 60% or more of the days in the semester, the student may keep all of the aid originally received. If less than 60%, the Department of Education determines how much Title IV aid the student earned (the percentage multiplied by the total amount of Title IV aid received).

### Example

If there were 109 total days in the semester and the student completed 54 days, the student would earn 49.5% of the Title IV aid received (54/109 = 49.5%). If the student originally received $7,471.00 of federal aid for the semester, per the Department of Education's formula, the student earned $3,698.00 (49.5 percent x $7,471 = $3,698). Next, APU determines the amount of aid that must be returned to the Title IV programs which is the amount of aid originally received less the amount of aid the student gets to keep based on attendance in the semester. In this example, the student originally received $7,471.00 and it was determined that based on their attendance they get to keep 49.5% so the amount APU would return is $7,471.00 - $3,698.00 = $3,773.00.

Please note that when Title IV funds are returned the student is responsible for any owing balance this may cause on the student's APU account.

## Treatment of Unofficial Withdrawals

If a student fails to officially withdraw and receives a combination of all *F*s, *FN*s, *IN*s, and *NC*s as grades for the semester, the U.S. Department of Education considers the student to have unofficially withdrawn from classes. APU is required to investigate and determine when the student actually last attended class, and then perform the required R2T4 calculation. If the date of withdrawal cannot be confirmed, the R2T4 calculation is computed using a 50-percent completion rate. This process is usually completed well after the end of the semester, once grades are submitted.

# Student Employment

The Office of Student Employment (https://www.apu.edu/studentemployment/) is a referral service for APU students. Student employment is a vital part of college life—it is estimated that nearly 60 percent of all Azusa Pacific students work as a means of partially meeting college costs.

Students may apply to work on or off campus. If eligible, they may obtain work through the Federal Work-Study (p. 975) program. No job is guaranteed; students are responsible for securing their own jobs. Job availability is dependent upon a good match between the employer's needs and the student's schedule and qualifications. Blocks of at least two consecutive hours of available time are usually required.

# Additional Information for Graduate and Professional Students

- Financial Aid Policies (p. 995)
- Return of Aid (p. 997)
- Types of Financial Aid (p. 998)

# Financial Aid Policies

Financial aid is available to students who are enrolled in eligible programs. Visit the Student Services Center (https://www.apu.edu/student-services-center/) website (https://www.apu.edu/student-services-center/) for more information about eligibility and how to apply.

- Required Study Load (p. 995)
- Satisfactory Academic Progress (p. 995)
- Verification (p. 995)
- Financial Aid Awarding (p. 995)
- Reporting Sources of Financial Assistance (p. 996)
- Overawards (p. 996)
- Professional Judgment (p. 996)
- Updating Your Financial Situation (p. 997)
- Release of Records (p. 997)
- GO Terms (p. 997)

## Required Study Load

A student must be enrolled at least half time per term to be eligible for most federal financial aid. For enrollment purposes, a term is composed of all academic sessions within a specified timeframe. For example, Fall 16-Week Session, Fall Session 1, and Fall Session 2 together comprise the fall term.

Academic terms are broadly defined by the designations "fall," "spring," and "summer." Sessions of varying numbers of weeks are offered within each term. Enrollment in all sessions within one term forms a student's enrollment status for study load standards, financial aid eligibility, and prior student loan deferment purposes. All units earned through Azusa Pacific University, regardless of the number of weeks in the session in which they are taken, are semester units. See the Academic Calendar (p. 23) for specific term and session information.

## Satisfactory Academic Progress (SAP)

Students who wish to receive federal financial aid and most institutional aid (including the faculty/staff award) must be in good academic standing and make satisfactory academic progress toward a degree or credential program in addition to meeting other eligibility criteria. For more information, see the SAP policy on the Student Services Center website.

## Verification

Every year the Federal Student Aid program randomly selects a predetermined percentage (usually around 30 percent) of all Free Application for Federal Student Aid (FAFSA) applications for a process called verification. Students may also be selected at the discretion of Student Financial Services. Federal regulations require collecting documentation from the student and family, if applicable, to confirm the accuracy of information reported on the FAFSA. This can include tax transcripts, information about family size, and more. In addition to the individuals selected for verification, institutions are required to request further documentation when a FAFSA application and/or subsequent paperwork appears to have incomplete, inaccurate, or conflicting information. Graduate and professional students at APU will not be packaged for federal, state, and/or institutional need-based aid until all required verification paperwork has been submitted. Students can submit documentation via a secure online portal.

## Financial Aid Awarding

Although Azusa Pacific University offers a limited number of academic-program-based scholarships for graduate and professional students, most financial aid is offered through federal and state programs. Students are encouraged to seek outside aid resources as a means to reduce the amount of loan debt necessary to finance their education. View a more thorough listing of the types of financial aid available. (p. 998) The university awards all applicants the maximum grant, scholarship, loan, and work-study funds for which they qualify. In some cases federal, state, and/or institutional guidelines may restrict the total amount or type of award a student may receive. Based on the student's Free Application for Federal Student Aid (FAFSA) information and remaining eligibility, the student may be awarded up to the cost of attendance for his/her enrolled program. Cost of attendance includes tuition, books and supplies, housing and food, transportation, personal expenses, and loan fees. Aid will be awarded in the following order according to the student's eligibility (unless otherwise stated):

### Graduate Student Stacking Policy

1. Pell Grant (teaching-credential-only programs)
2. State grants (For select teaching programs only: Cal Grant A-TCP, Cal Grant B-TCP, B-Access, Chafee Grant, Golden State Teach Grant)
3. TEACH Grant
4. Institutional aid (tuition/fees)

- Faculty/staff award
- Institutional discounts (e.g., alumni discounts)
- Institutional scholarships/assistantships or grants that cover tuition and/or fees
5. Outside aid/company reimbursement that pays only tuition/fees
6. Outside aid to pay non-tuition/fee expenses
7. Institutional aid that covers non-tuition/fee expenses
8. Federal Direct Subsidized Stafford Loan (teaching-credential-only programs)
9. Federal Work-Study
10. Nursing Student Loan (NSL) and Nurse Faculty Loan Program (NFLP)
11. Federal Direct Unsubsidized Stafford Loan
12. Federal Direct PLUS Loans
13. Alternative Loans
14. Veterans benefits (GI Bill®, GI Yellow Ribbon portion, and Vocational Rehabilitation and Employment)

## Professional Student Stacking Policy

1. Pell Grant
2. FSEOG
3. State grants (Cal Grant B/Dream Act Access, Cal Grant B/Dream Act, Cal Grant A/Dream Act, Chafee Grant, etc.)
4. Institutional aid (tuition/fees)
    - Faculty/staff award
    - Institutional discounts (e.g., RN-BSN discounts)
    - Institutional scholarships that cover tuition and/or fees
5. Outside aid/company reimbursement that pays only tuition/fees
6. Outside aid to pay non-tuition/fee expenses
7. Institutional aid that covers non-tuition/fee expenses
8. Federal Direct Subsidized Stafford Loans
9. Federal Work-Study
10. Nursing Student Loan (NSL)
11. Federal Direct Unsubsidized Stafford Loans
12. PLUS Loans (parents)
13. Alternative loans
14. Veterans benefits (GI Bill®, GI Yellow Ribbon portion, and Vocational Rehabilitation and Employment)

# Reporting Sources of Financial Assistance

Students are required to report all sources of financial assistance known or anticipated to be available to them during the period for which they are seeking financial aid to the Student Services Center. Types of financial assistance include, but are not limited to: veterans' benefits, scholarships, grants, fellowships, stipends, employer reimbursement, and any other outside sources of aid. Failure to report financial assistance can result in a miscalculation of financial aid eligibility and potentially the revocation of a portion of, or all, awarded funds. Students must report additional sources of financial assistance that become available after the student's initial disclosure about additional sources of financial assistance. Knowingly withholding or concealing information about additional financial aid resources may constitute fraud, as a student could receive aid to which he or she is not entitled.

# Overawards

An overaward occurs when a student's financial aid package exceeds his or her need. Some of the ways this can occur include: changes in cost of attendance, awards received at other schools, or changes to FAFSA data. The Student Services Center is required to reduce aid packages because of overawards. In many cases, the overaward could have been prevented through the timely reporting of additional sources of financial assistance to the Student Services Center. Timely reporting of all additional financial aid resources will help prevent frustration and inconvenience resulting from aid adjustments required to resolve an overaward. All institutional aid is subject to coordination with federal, state, and other aid sources. All institutional aid is subject to the policies published in the catalog and other online and printed materials provided by the university.

# Professional Judgment

Students who have completed a FAFSA or California Dream Act application (CADAA) have the option to submit a Family Contribution Appeal or Cost of Attendance Appeal for a professional judgment review. This process assists families who experience changes in family income or have other special circumstances and would like to be evaluated for additional financial aid assistance. Some examples of significant changes are:

- Unemployment or reduction in income
- Dependent care expenses while participating in class
- Any other extenuating circumstances

Before a Family Contribution Appeal can be submitted for review, a financial aid application (FAFSA or CADAA) must be completed. Federal verification is required if selected. All requests submitted will be reviewed, but not all adjustments will be approved or will result in increased aid. Contact the Student Services Center for more information.

## Updating Your Financial Situation

Graduate and rofessional students must notify the Student Services Center regarding changes in their financial situation including but not limited to: marriage, loss of employment, withdrawal from school, a change in enrolled units, an anticipated change of program, a change of address, or receipt of outside scholarships or financial assistance. Updates to a student's financial situation can be submitted via post mail, email, or in person to the Student Services Center.

## Release of Records

By applying for financial aid, a student grants that the Student Services Center has the right to release the student's grades and enrollment records to scholarship, state, federal, and loan agencies in accordance with the rules governing the Family Educational Rights and Privacy Act (FERPA).

## GO Terms

GO Terms are academic programs of varying lengths offered in fall, spring, and summer in a variety of destinations and courses of study. APU GO Term programs vary each year. See program materials for exact dates and more information.

- GO Terms: Fall, Spring, Summer

- Charges: Per-unit tuition, program fee, services fee, and health fee(s) (varies for domestic/international)

- Financial Aid: Standard

# Return of Aid

If a student withdraws before the Last Day to Register or Add/Drop Classes deadline they may be eligible for a refund as outlined in the Academic Calendar. After this deadline a student may withdraw under certain circumstances outlined in the Graduate and Professional Withdrawal Guide. Regardless of when a student withdraws from courses, either before or after the Last Day to Register or Add/Drop Classes deadline, their financial aid is subject to adjustment or return according to the policies below.

## Federal Return to Title IV (R2T4) Policy

APU is required by federal regulations to use a prescribed formula to calculate the unearned portion of the financial aid received and return it to the Title IV programs. For more information, see the Graduate and Professional Withdrawal Guide.

## Institutional Aid Return Policy

Dropping a class through the Last Day to Register or Add/Drop Classes results in a full return (100%) of any institutional aid associated with the dropped class. When a student withdraws, institutional financial aid may be adjusted at the discretion of the departments awarding the scholarship funds. If a student believes that extenuating circumstances warrant an exception from published policy, he/she must submit a written appeal to the Student Services Center.

## Military Tuition Assistance Return Policy

The Department of Defense memorandum of understanding requires that the university "have an institutional policy that returns any unearned Tuition Assistance (TA) funds on a proportional basis through at least the 60 percent portion of the period for which the funds were provided. TA funds are earned proportionally during an enrollment period, with unearned funds returned based upon when a student stops attending." In accordance with that requirement, the university TA funds return policy is as follows:

Between the start date of a course and up to the add/drop date of that course (as defined by the academic calendar), the university will refund 100% of TA funds back to the respective military department if a student drops from a course for which TA funds were used to pay tuition. After the add/drop date and prior to the 61 percent point, "earned" TA funds are prorated on a per-day basis. For example, if a student has $100 in TA funds applied to their account for a course and completes 14 days of a 60-day course (23 percent), then the student is considered to have earned $23. The remaining $77 would be returned. The student's withdrawal date is calculated in accordance with the institution's withdrawal date definitions for federal R2T4 purposes. After the 60 percent point in a class, a student is considered to have "earned" all TA funds and no return is made.

*Note: Any return of aid request from one of the branches of the Armed Forces will supersede the institutional return policy. If, according to the university return policy a student earned a portion of TA funds, but the service branch is requesting a full refund of TA funds, the university will return the amount requested by the service branch.*

## Return of Aid for a Deceased Student

In the event of a deceased student, APU will conduct a full evaluation of the student account and make the appropriate adjustments to financial aid in accordance with all federal, state, or institutional aid regulations.

# Types of Financial Aid

- Federal Aid Eligibility Requirements
- Grants
- Federal Work-Study
- Loans
- Institutional and Outside Aid Resources
- Military Benefits

## Federal Aid Eligibility Requirements

To apply for federal aid, a student must meet certain eligibility requirements including, but not limited to, the following:

- Be a U.S. citizen, permanent resident, or an eligible noncitizen
- Have a valid Social Security number (some exceptions apply)
- Be enrolled at least half-time for most federal aid programs
- Maintain satisfactory academic progress

A student must also complete all initial admission requirements for their program and submit the Free Application for Federal Student Aid (FAFSA) for every school year they are enrolled. For more details on eligibility, visit the Federal Student Aid website (https://studentaid.gov/).

## Grants

### Federal Pell Grant

A Federal Pell Grant, unlike a loan, does not have to be repaid. Federal Pell Grants usually are awarded to undergraduate students who have not earned a bachelor's or a professional degree. In some cases, however, a student enrolled in a postbaccalaureate teacher certification program may receive a Federal Pell Grant. Effective on July 1, 2012, students can receive the Federal Pell Grant for no more than 12 semesters or the equivalent. Students will receive notification from the federal government if they are near or have surpassed the limit. For more information, contact the Student Services Center at (626) 815-2020.

### Cal Grant

Cal Grants are awarded by the California Student Aid Commission (CSAC) (https://www.csac.ca.gov/) and are funded by the state of California. There are several types of Cal Grant awards. Students pursuing an undergraduate associate's or bachelor's degree or an occupational training program normally qualify for Cal Grant A or Cal Grant B Competitive Awards. The Cal Grant program utilizes the federal FAFSA form to determine eligibility, requiring students to meet a March 2 submission deadline. Verification of a high school GPA is required as well.

- **Cal Grant A Competitive** awards are for students with a minimum 3.0 GPA who are from low- or middle-income families. These awards help pay tuition and fees at qualifying schools with academic programs that are at least two years in length.
- **Cal Grant B Competitive** awards are for students with a minimum 2.0 GPA who are from disadvantaged and low-income families. These awards can be used for tuition, fees, and access costs at qualifying schools with programs that are at least one year in length. If you get a Cal Grant B Competitive Award, it can be used only for access costs in the freshman year. These costs include living expenses, transportation, supplies, and books. Beginning the second year, you can use your Cal Grant B Competitive Award to help pay tuition and fees at public or private four-year colleges or other qualifying schools.
- **Cal Grant B Access** awards are designated for costs including living expenses, transportation, supplies, and books.

Azusa Pacific University will transfer the eligible access award to the student's account and apply it toward the outstanding balance. Students have the right to request, in writing, a refund of the access award in lieu of transferring it to pay the outstanding balance on a student account. If the award is transferred prior to the written request, the request will be honored for future disbursements.

# Federal Supplemental Educational Opportunity Grant (FSEOG) (Professional Undergraduate Students Only)

Professional undergraduate students may be eligible for FSEOG funds (https://studentaid.gov/understand-aid/types/grants/fseog/), eligibility for which is based upon the availability of funds and financial need at the time a student is awarded. Priority is given to Pell-eligible students. Azusa Pacific University receives a limited amount of FSEOG funds each year from the U.S. Department of Education's Office of Federal Student Aid. FSEOG funds are awarded on a first-come, first-served basis within the term. These funds, known as a campus-based award, work differently from the Federal Pell Grant program, which provides funds to every eligible student.

# Teaching Credential Cal Grants (Graduate Students Only)

Graduate students pursuing a teaching credential are eligible for a Teaching Credential Cal Grant if they received Cal Grant A or Cal Grant B as an undergraduate student and meet the following additional eligibility requirements:

- Submit a FAFSA
- Submit a G-44 form to the CSAC
- Have received at least one payment in the Cal Grant A or B program as an undergraduate
- Have received a bachelor's degree or completed all required coursework for their bachelor's degree
- Be accepted to and enrolled in a teacher preparation program at a California Commission on Teacher Credentialing (CTC)-approved institution within 15 months of the end of the term for which the recipient last received a Cal Grant payment
- Have not received or submitted an application for an initial teaching credential, such as a Preliminary or Clear Credential
- Maintain financial need for a Cal Grant renewal

# Golden State Teacher Grant (Graduate Students Only)

The Golden State Teacher Grant provides up to $20,000 to students enrolled in a professional teacher preparation program who meet certain requirements. For more information, visit the CSAC website (https://www.csac.ca.gov/).

# TEACH Grant (Graduate Students Only)

Azusa Pacific University offers the Teacher Education Assistance for College and Higher Education (TEACH) Grant to qualified students who are enrolled in a program that prepares them for a career in teaching. Learn more about the TEACH Grant (https://studentaid.gov/understand-aid/types/grants/teach/).

# Federal Work-Study

Azusa Pacific University does not automatically package graduate and professional students with federal work-study, as graduate and professional programs are geared toward working professionals. If you are interested in federal work-study, contact the Student Services Center (https://www.apu.edu/student-services-center/).

# Loans

# Federal Direct Loan

The Federal Direct Loan is a low-interest loan to help pay for the cost of a student's education. The loan's interest rate, determined by the Bipartisan Student Loan Certainty Act of 2013, is tied to the financial markets. Interest rates are determined each spring for new loans made for the award year which runs from July 1 to the following June 30. Each loan has a fixed interest rate for the life of the loan. The U.S. Department of Education is the lender. To be eligible for the Federal Direct Loan, a student must be admitted to a degree- or credential-seeking program. The student is required to sign a Master Promissory Note (MPN), complete loan entrance counseling prior to receiving the first disbursement, and loan exit counseling upon completing a program or dropping below half-time attendance.

*Note: APU professional undergraduate students are defined as undergraduate students by the Department of Education, since they are seeking a first-time bachelor's degree. For the purpose of determining federal aid eligibility, APU professional undergraduate students should refer to the criteria for undergraduate students set forth by the Department of Education.*

Three types of the Federal Direct Loan are available based upon a student's aid eligibility as determined by the FAFSA and the U.S. Department of Education:

## • Federal Direct Subsidized Loan

Subsidized loans are need-based and available to undergraduate students and teaching-credential/certificate-seeking graduate students who demonstrate sufficient need to be eligible for the loan. The interest is paid by the government while the student remains enrolled at least half-time and for a six-month grace period following withdrawal or graduation. Subsidized loans were eliminated for master's and doctoral programs as of July 1, 2012.

- **Federal Direct Unsubsidized Loan**

This is a non-need-based loan with interest starting to accrue upon disbursement. The student has the option to postpone payment of interest, which is then capitalized (added to the principal balance).

- **Federal Direct PLUS Loan**

This is a non-need-based loan available to graduate students and parents of dependent undergraduate students based upon credit worthiness, with interest starting to accrue upon disbursement. Borrowers may borrow up to the cost of attendance, minus any other financial aid (grants, scholarships, loans, etc.) Be advised on the following regarding PLUS Loans:

1. Graduate borrowers are advised to apply for the maximum amount of federal Direct Loans before pursuing PLUS Loans.
2. Must be a U.S. citizen or eligible noncitizen and have a valid Social Security number.
3. Must meet basic eligibility requirements of no adverse credit. Graduate students or parents of undergraduate students who cannot meet the requirements may be able to appeal the decision with the U.S. Department of Education or be eligible with a creditworthy endorser/cosigner.
4. Repayment begins within 60 days of the last disbursement. The option to postpone payment is available for graduate students while in school at least half-time.

## Continued Eligibility for All Federal Loans

Students must make satisfactory academic progress to continue receiving loans and financial aid. Refer to the Satisfactory Academic Progress (SAP) policy (p. 995) for more information.

## Interest Rates and Fees

Interest rates for Federal Direct Loans are calculated yearly and are fixed for the life of the loan. Additionally, most federal student loans have loan fees that are a percentage of the total loan amount. The loan fee is deducted proportionately from each loan disbursement you receive. This means the money you receive will be less than the amount you actually borrow. You're responsible for repaying the entire amount you borrowed and not just the amount you received.

Visit the Federal Student Aid website (https://studentaid.gov/) for more information and to view current interest rates and fees.

## Annual Loan Limits

The Department of Education has set limits on the amount of subsidized and unsubsidized loans that you may be eligible to receive each academic year (annual loan limits) and on the total amounts that you may borrow for undergraduate and graduate study (aggregate loan limits). The actual loan amount you are eligible to receive each academic year may be less than the annual loan limit. These limits vary depending on what year you are in school and whether you are a dependent or independent student.

## Professional Students

Dependent students completing a bachelor's degree are eligible, depending on their FAFSA information, to receive:

- Freshmen (0-29 units): $5,500 (up to $3,500 of which may be subsidized)
- Sophomores (30-59 units): $6,500 (up to $4,500 of which may be subsidized)
- Juniors and Seniors (60+ units): $7,500 (up to $5,500 of which may be subsidized)
- Federal Parent PLUS: Up to the cost of attendance minus any federal, state, institutional, and outside aid

Independent students (or dependent students whose parents were denied a Parent PLUS loan) completing a bachelor's degree are eligible, depending on their FAFSA information, to receive:

- Freshmen (0-29 units): $9,500 (up to $3,500 of which may be subsidized)
- Sophomores (30-59 units): $10,500 (up to $4,500 of which may be subsidized)
- Juniors and Seniors (60+ units): $12,500 (up to $5,500 of which may be subsidized)

## Graduate Students

Graduate students in master's, doctoral, or gainful employment programs are eligible, depending on their FAFSA information, to receive:

- Federal Direct Unsubsidized: Up to $20,500 (Doctor of Psychology students may be eligible for an increased annual loan limit)
- Federal Direct Graduate PLUS: Up to the cost of attendance minus any federal, state, institutional, and outside aid
- Independent teaching-credential/certificate-only students are eligible to receive up to $12,500 (up to $5,500 of which may be subsidized)

## Loan Counseling Requirements

The federal government requires all borrowers to complete entrance counseling before they can receive their first direct subsidized loan, or direct unsubsidized loan as an undergraduate, or their first Direct PLUS Loan as a graduate student. Borrowers must also complete exit counseling at any point that they graduate, withdraw, or drop below half-time enrollment status. If you have any questions regarding direct loan counseling, contact the Student Services Center (https://www.apu.edu/student-services-center/).

## Private Student Loans

Private loans—unlike federal student loans, which are administered by the U.S. Department of Education—are issued by a lender, bank, or credit union. Private student loans often have variable interest rates, require a credit check and a cosigner, and do not provide many of the benefits of federal student loans. Federal direct loans generally have more favorable terms and conditions than private loans. We recommend that you utilize all federal direct loan eligibility before turning to private loans. Students who need additional funds beyond the federal direct loan should consider the Direct PLUS Loan (if applicable) before applying for a private loan.

APU's private lender list is without prejudice and is for the sole benefit of students attending the institution. Employees responsible for processing loans adhere to a strict student loan code of conduct. Learn more about private student loans.

*Note: For Washington state residents seeking information and resources about student loan repayment or seeking to submit a complaint relating to your student loans or student loan servicer, visit the* Washington Student Achievement Council website *(*http://www.wsac.wa.gov/loan-advocacy/*) or contact Student Loan Advocate at* loanadvocate@wsac.wa.gov.

### Nursing Student Loan (NSL)

Nursing students may also qualify for the HRSA funded Nursing Student Loan. Contact the School of Nursing for additional details about this opportunity.

## Institutional and Outside Aid Resources

The university offers many institutional and outside aid resources to assist students in financing their education. Refer to the Student Services Center website (https://www.apu.edu/student-services/) for a full list of available options based on the student's specific school and/or program. Keep in mind that:

- All aid is subject to coordination with federal, state, and all other aid sources.
- All aid is subject to the policies in this catalog and any other printed or online materials.
- All aid is subject to availability of federal, state, institutional, and private funding.
- All institutional aid and discounts are subject to change without notice.

# Military Benefits

## Veterans Affairs Benefits

Azusa Pacific University is an approved, degree-granting institution recognized by the Department of Veterans Affairs. Eligible veterans and their dependents seeking educational training may qualify to use Title 38, Chapters 30, 31, 33, 35, and 1606. Refer to the U.S. Department of Veterans Affairs for eligibility criteria.

APU proudly participates in the Yellow Ribbon Program, which is a provision of the Post-9/11 Veterans' Educational Assistance Act of 2008. APU awards eligible students up to half the net cost of tuition not covered by the standard cap set yearly by the Department of Veterans Affairs. The Department of Veteran Affairs will then match APU's contribution to provide full tuition coverage. In order to receive Yellow Ribbon Funds, the student must be 100 percent eligible under Chapter 33 of the GI Bill®.

To learn more about veterans benefits and the process to apply for them, visit the Student Services Center website (https://www.apu.edu/student-services/).

## Active-Duty Military Benefits

Azusa Pacific University is committed to advancing education opportunities for active-duty military members and their spouses. The university is prepared to assist you in utilizing your Military Tuition Assistance and also offers programs that are eligible for MyCAA financial assistance (see below).

### Tuition Assistance

Military Tuition Assistance is a benefit available to eligible active-duty members of the Army, Navy, Marines, Air Force, and Coast Guard. Each service area has its own criteria for eligibility, application process, and restrictions. Learn more about the steps to apply for military tuition assistance.

## MyCAA

The MyCAA program provides financial assistance to eligible military spouses who are pursuing a license, certification, or associate's degree in a portable career field and occupation. It is a component of the Department of Defense's Spouse Education and Career Opportunities (SECO) program.

Follow the steps below to get started:

- Visit the MyCAA program website (https://mycaa.militaryonesource.mil/mycaa/) to apply and receive authorization for the MyCAA scholarship.
- After being approved for MyCAA benefits, follow up with APU's Office of Military and Veteran Education Benefits (https://www.apu.edu/militaryeducation/benefits/) for further steps and invoicing at mveb@apu.edu or (626) 815-3837.

## Principles of Excellence

Azusa Pacific University, including all regional campus locations and Los Angeles Pacific University, fully complies with Executive Order 13607 establishing Principles of Excellence for educational institutions serving service members, veterans, spouses, and other family members. For more information, see our Principles of Excellence webpage. (https://www.apu.edu/militaryeducation/poe/)

# Undergraduate Academic Policies and Procedures

# Academic Grievance Policy for Undergraduate Students

## I. Overview

Azusa Pacific University provides a means by which students may file a grievance for academic and student life issues, excluding violations of the Student Standards of Conduct (https://www.apu.edu/student-handbook/standards/). The process described below should be used after all informal means have been exhausted. In the area of academics, protocol requires that student concerns or grievances about course content and relevancy, grading, teaching style, and the like be taken up first with the professor of the given class. Failure to resolve the matter at that point may require a meeting with the appropriate department chair, or finally the dean of the school or college.

In the event that the above procedures fail to resolve the problem, the student may file a grievance if a justifiable cause exists. Justifiable cause for grievance shall be defined as any act that, in the opinion of the student, adversely affects the student and is perceived as prejudicial or capricious action on the part of any university faculty or staff member or an arbitrary or unfair imposition of sanctions.

To file a grievance, the student must submit the written document listed below in section III.2. to the Office of the Provost designee for academic matters, or the Office of the Dean of Students for nonacademic matters. If the grievance concerns alleged discrimination or harassment, a copy of the grievance shall be submitted also to the director of human resources. A Grievance Committee will be formed by the Office of the Provost designee or the dean of students and proceed according to the guidelines stated below if, as stated above, a justifiable cause exists for the grievance.

The grievance procedure shall act as a vehicle for communication and decision making between students, staff, and faculty, and as a process through which a student-initiated grievance can be resolved internally.

Any student who has a grievance complaint against the university must follow this procedure or will waive any claim against the university. An individual may contact the Bureau for Private Postsecondary Education (https://www.bppe.ca.gov/) for review of a complaint; the bureau may be contacted at P.O. Box 980818, West Sacramento, CA 95798-0818; (888) 370-7589 (phone); and (916) 263-1897 (fax).

## II. Grievance Committee Organization

1. Membership:
   *For academic grievances:*
   Associate provost or other Office of the Provost designee
   Academic dean (not from school or college involved)
   One faculty member
   One upper-division student
   Dean of students or designee

   *For nonacademic grievances:*
   Dean of students or designee
   Two faculty members
   Two students
   Associate provost or other Office of the Provost designee
   For any grievance concerning alleged discrimination or harassment, the director of human resources shall also serve as a member.
2. Chair: For academic grievances, the Office of the Provost designee shall preside. For nonacademic grievances, the associate dean of students will preside.
3. Voting: All members have equal vote and there shall be no alternates or substitutes unless one member must disqualify him/herself due to conflict of interest.
4. Meeting Time: The meeting will be scheduled within seven (7) business days following the filing of a written petition.

## III. Grievance Committee Guidelines and Meeting Format

1. The formal grievance procedure shall be initiated only after other attempts to resolve the matter have been exhausted (i.e., conferring with individual instructor, department chair, or staff member as appropriate). Except for grade appeals, the student has no more than ten (10) business days after meeting with the individual they believe has given them cause for grievance, or fifteen (15) business days after the incident that occasioned the grievance, in which to file his/her written petition. In the case of grade appeals, a written petition must be filed within forty-five (45) business days after the end of the semester in which the grade is received. The formal procedure must be initiated within these time limits. However, the time limit may be extended by the associate dean of students or Office of the Provost designee at their sole discretion upon presentation of good cause.
2. The grievance process is initiated by submission of a written petition to the chair of the Grievance Committee. The grievance document should be a complete set of materials that the student would like the Grievance Committee to review. Additional materials will be accepted later only in extenuating circumstances, at the discretion of the committee chair. The petition must include:
   a. Names of the parties involved
   b. A clear statement of the nature of the grievance
   c. A narrative of the incident including:
      i. What occurred
      ii. When it occurred
      iii. Where it occurred
      iv. Who was present
   d. The evidence on which the grievance is based
   e. Why this constitutes capricious or arbitrary action on behalf of a staff or faculty member
   f. What has been done to resolve the grievance per Part III.1. above.
   g. The desired outcome(s)
   h. Any supporting documentation
3. The chair of the Grievance Committee will submit a copy of the grievance to each person who will serve on the Grievance Committee for this incident, as well as to the faculty or staff member(s) involved and the dean of the school or college involved.
4. A meeting of the Grievance Committee will be scheduled to consider the matter within seven (7) working days of the date on which the petition was filed. The involved student and faculty or community member(s) may testify in person at the committee meetings. The meetings shall be held at times when both parties are available to testify.
5. Meetings of the Grievance Committee shall be attended only by the parties named in the grievance, members of the Grievance Committee, witnesses invited by the Grievance Committee, and the dean of the school or college involved. Witnesses may be present only during the time they are presenting their testimony. No one other than members of the Grievance Committee may be present during deliberations.

6. Either party may seek an advisor, who must be a faculty member or student in that school or college. The function of the advisor shall not include that of advocacy, and the advisor will not have a role in the committee's meetings. The student may not bring legal counsel or have a student represent him/her as counsel. The Grievance Committee may not have legal counsel present.

7. Accurate minutes of the grievance procedure shall be written and kept in a confidential file of the committee's proceedings. Such minutes shall include the committee's findings and decision. No other printed materials or notes may be taken from the meeting. The proceedings may not be recorded.

8. Except for communications with the applicable dean and academic chair after the conclusion of Grievance Committee proceedings, and communications with the faculty member(s) and student(s) involved advising them of the Grievance Committee's final decision, the parties and committee members may not discuss the case outside the meeting.

9. If a committee member is approached prior to a meeting by a student whose case is to be heard, the member should refuse to discuss the issue and should disclose at the time of the meeting that he/she has been approached.

10. Any committee member who has a potential conflict of interest, who holds a bias or preconceived notion as to the facts of the case and has formed an opinion about them, or who may hold ill will toward a particular student must disclose to the chair the nature of such feelings, bias, or potential conflict. He or she may be excused from participation upon request by such member or at the discretion of the chair, and replaced by the chair with a substitute committee member of comparable station to the extent possible under the circumstances. The names of the Grievance Committee members will be reviewed in advance of the committee meeting with the student, who can confirm that he/she is not aware of any bias against him/her on the part of any of the committee members.

11. In cases of conflicting information and/or when additional information is desired, the committee may request testimony from additional witnesses having information pertinent to the grievance.

12. The committee will decide on the matter by vote. Both parties will be notified in writing within one (1) week of the decision. The committee's decision shall be final.

# Academic Integrity

In addition to cultivating in each student the academic skills that are required for a university degree, Azusa Pacific's mission includes imparting to each student the characteristics of academic integrity that are integral to a Christian education. Therefore, a breach of academic integrity is not merely a private matter between the student and an instructor but an act that is fundamentally inconsistent with the purpose and mission of the entire university. It is the policy of the university that academic work should represent the independent thought and activity of the individual student, and work that is borrowed from another source without attribution or used in an unauthorized way in an academic exercise is considered to be academic dishonesty that defrauds the work of others and the education system. Engaging in any academic integrity violation is a serious offense for which a student may be disciplined or dismissed. It is each student's responsibility to review the policy and follow APU's academic integrity standards.

## I. Introduction

The mission of Azusa Pacific University includes cultivating in each student not only the academic skills that are required for a university degree, but also the characteristics of academic integrity that are integral to a sound Christian education. It is, therefore, part of the mission of the university to nurture in each student a sense of moral responsibility consistent with the biblical teachings of honesty and accountability. Furthermore, a breach of academic integrity is viewed not merely as a private matter between the student and a professor, but rather as an act fundamentally inconsistent with the purpose and mission of the entire university.

This Academic Integrity Policy represents a valuable educational tool for guiding faculty, staff, and students in their efforts to create a sense of community and for expressing the values that are at the core of a Christian university. As members of an academic and spiritual community, we work together to answer difficult questions, often collaborating to answer these questions, to solve problems, and to communicate effectively the knowledge we acquire through inquiry. This document calls attention to the responsibilities we have to one another in being faithful in our attempts to represent others' views, and it helps us to understand the responsibilities we have toward one another, students and faculty alike, and toward academic scholarship, as we endeavor to uphold the moral standards of our community.

## II. Academic Integrity Pledge

### A. Knowledge and Education of Responsibilities

A student has the responsibility to become familiar with the Academic Integrity Policy as well as the philosophy behind it. The university is a place where moral integrity is learned and emphasized as a critical component of an academic education. Personal integrity and community responsibility are a core part of university life.

1. As a precondition for admission to the university, students must sign a pledge to the community to uphold the Academic Integrity Policy in all academic affairs at Azusa Pacific University. The pledge is as follows:

"As a student at this Christ-centered university, I will uphold the highest standards of academic integrity. I will not lie, cheat, or steal in my academic endeavors, nor will I accept the actions of those who do. I will conduct myself responsibly and honorably in all my academic activities as an Azusa Pacific University student."

2. Students should familiarize themselves with the directives given by the professor, whether verbally or in writing, in each class concerning what is and is not permitted, especially in matters of group projects, lab reports, and the attribution of research to sources (in-text citing, footnoting, a complete bibliography), including the Internet and its applications.

# III. Academic Integrity Responsibilities: Student

## A. Academic Behavior: Personal

1. All work submitted for credit, including exams, is accepted as a student's own work, unless otherwise understood and approved by the professor.

2. Students may not, without proper citation and approval of the professor, submit work that has been copied, wholly or partially, from another student's paper, notebook, or exam. Nor may students without proper citation submit work which has been copied, wholly or partially, from a book, article, essay, newspaper, the internet or any other written, printed, or media source, whether or not the material in question is copyrighted.

3. Work that paraphrases any written or printed media material without acknowledgment may not be submitted for credit. Ideas from sources such as books, essays, multimedia (like text, images, audio, video, animation), social media, or artificially intelligent (AI) generated materials, may be incorporated in students' work as starting points, governing issues, illustrations, and the like, but in each case the source must be cited.

4. Any and all online materials students used for a paper are also governed by plagiarism rules. Students need to cite all electronic sources as well as printed and other sources.

5. Students may not use, without prior permission, generative artificial intelligence (AI) tools for work submitted for credit; any and all use of such tools must be acknowledged and cited in accordance with item (4) above.

6. Students may not use notes or other forms of assistance on a test, such as videos, illustrations, artificial intelligence (AI) generated materials, and the like, unless explicitly approved by the professor, nor may they provide such aid to other students.

7. Students may not use or submit work that has been generated from any form of a paid-for or free writing service.

8. Students may not submit any work for credit that has been used to fulfill the requirements of another course previously taken or currently in progress at this or any other institution without obtaining permission of the professor in advance.

Students must be aware that violations are not limited to the actions prohibited in the guidelines above. Any kind of dishonesty related to academics is a violation. Other examples of academic dishonesty, apart from giving or receiving unauthorized aid as described by the professor in each course, include but are not limited to:

a) Listing false reasons for taking a make-up examination.

b) Falsifying data.

c) Falsely representing oneself as another student or using another student's identifying information to complete academic work or complete academic assessment tests, attend university events, or gain access to and interact on the internet representing another party.

d) Falsifying grade information or course completion information.

e) Participating in activities that permit another student to engage in an academic integrity violation.

f) Purposefully concealing information about a known violation.

g) Misrepresenting oneself as being cleared to participate in commencement.

## B. Academic Behavior: Collaborative

1. Working on material with other students is of great pedagogical value, and this policy should not be construed as discouraging such work. Unless such consultation is forbidden by a professor, students may work with other students on assignments and present ideas and even written work to their peers for comments and criticism. Each student, however, should be guided by the following:

a) If a professor explicitly permits or forbids certain collaborative work with other students, such work is permissible or forbidden as the professor indicates. A professor's explicit guidelines take precedence in determining whether certain actions are permissible.

b) It is a presupposition that ideas and expressions in a submitted paper or report originate from the writer unless otherwise indicated. Consequently, if ideas or expressions in written work originate from another, whether the person is an author or fellow student, that source should be cited in an endnote or footnote. If an idea arises from the common effort of two or more students in conversation, this fact should be cited.

c) If a student is unclear about whether certain forms of consultation or common work are acceptable or what the standards for citation are, the student is responsible for consulting his or her professor.

## C. Responsible Actions

1. Each student, as an integral member of the academic community, must make the ethical and moral commitment not to act dishonestly and not to tolerate academic dishonesty on the part of other students. If a student witnesses a violation of the Academic Integrity Policy or otherwise has reason to believe that a violation has occurred, the student may either urge that person to report himself or herself to the professor or discuss this allegation with the professor of the course. In situations where a student has knowledge of a violation, he or she is expected to report that violation to a professor, department chair, or dean in a timely manner.

## D. Opportunities to Serve on a Review Committee

1. Students may be able to participate in investigating and determining responsibility in alleged cases by serving on an academic integrity review committee (see Section V.D.2). Any student found responsible for a violation of the Academic Integrity Policy will immediately forfeit his or her eligibility to serve on a review committee.

# IV. Academic Integrity Responsibilities: Faculty

## A. Knowledge and Education of Responsibilities

1. All members of the faculty are required to become aware of the policies and procedures as outlined in the Academic Integrity Policy.

2. Deans and department chairs are responsible for introducing new faculty to the policy. The orientation procedures should be done, when possible, prior to faculty activities in the classroom. The faculty member in charge of a particular course is responsible for educating and establishing guidelines for any teaching assistants in the course.

## B. Academic Behavior: Classroom Expectations

1. Faculty are expected to include a written statement in their course syllabus stating the course expectations for academic behavior, including the consequences of violations of those standards. This statement may be a referral to this policy or may elaborate on additional guidelines and expectations of the faculty.

2. Faculty are expected to explain the conditions under which students are permitted to share their work, for example, outlines that can form the basis of an exam or paper, take-home exams, lab reports, and in-class examinations. Faculty should also offer guidelines when asking students to work in teams or groups, for example, when inviting students to collaborate on problem sets, or to develop computer programs, either inside or outside of class.

3. Faculty are encouraged to distribute a handout with information about what constitutes plagiarism when assigning writing in their courses, keeping in mind the goal of teaching students how to use and document sources appropriately.

4. Faculty are encouraged to make provisions for early submission of drafts of written work so that students can refine their documentation skills before the final due date of the assignment.

5. Faculty are encouraged to take note of the guiding principles articulated in Section V to reinforce these principles and possible sanctions (see Chart A) in their discussions of the Academic Integrity Policy with students, and to explain how academic integrity expectations apply to the work in their class.

## C. Academic Environment

1. Each faculty member will strive to establish an environment which supports the evaluation of students in a fair and reasonable manner. The purpose of this policy is not to test students' ability to perform in a highly competitive and stressful environment, but to help them develop habits of moral character and to understand and practice academic integrity as a student and as a global citizen.

2. Faculty hold the primary responsibility for maintaining the above "fair and reasonable" learning environment. Faculty members will usually be present in classrooms during examinations, fostering an environment which does not create temptations for dishonest action.

## D. Responsible Actions

1. Any person with the responsibility to teach or assist in a course, or to direct or provide leadership of an academic or co-curricular activity, will not tolerate dishonesty.

2. Faculty are expected to provide written guidelines to the students in their course about classroom expectations for academic integrity. Reinforcing academic integrity expectations prior to student completion of key assignments is recommended.

3. Faculty are expected to follow standard procedures to notify the student in cases where they suspect academic dishonesty has occurred and to report the violation and sanctions given (see Section V.B.5).

# V. Procedures for Handling Alleged Violations

## A. Procedure

1. If the faculty suspects an academic violation has occurred, the faculty member should gather information to support or refute their concerns. The faculty may also choose to consult department colleagues, including the program director and/or department chair, to review the evidence, provide additional interpretation of the evidence, and/or check coursework from other current or past courses for evidence of further academic violations.

    a) If it is determined that the infraction appears to only affect one course, the faculty should discuss the situation with the student(s) suspected of violating the policy. If this discussion and the evidence gathered result in the decision that the initial suspicion was unjustified, no additional action will be taken.

    b) If evidence of academic integrity violations across multiple courses is found, the program director/department chair may then choose to meet with the student, either along with or in lieu of the affected faculty member(s), at his/her discretion. If this discussion and the evidence gathered result in the decision that the initial suspicion was unjustified, no additional action will be taken.

2. If there is still a reason to suspect an academic integrity violation, the faculty member shall assign a sanction as appropriate according to the syllabus for that class and the standards of the discipline and the department.

3. The faculty member will record the violation with the Office of the Provost designee. Online reporting forms are available on the Provost website. The Office of the Provost designee will keep a record of the violation and send a letter to the student confirming their violation. Copies of the form and the letter will be sent to the faculty member, the program director/department chair, and a student affairs designee.

4. Alleged violations of an academic nature not directly connected to one class may be referred to the Office of the Provost designee by APU faculty or administrators for subsequent action by a review committee (see Section V.D).

## B. Guiding Principles in Assigning Sanctions

1. If a student is found to have violated the Academic Integrity Policy, the faculty must decide on the sanction (see Chart A). The faculty should take into consideration the syllabus of the course and the severity of the offense. The faculty, when assigning a sanction, may also consider as a mitigating factor the degree to which the student was honest and forthcoming regarding the violation, or any other evidence of sincere contrition. The faculty may take into account sanctions invoked in previous cases of a similar nature and should consult the Office of the Provost designee for this information.

2. Additional sanctions (e.g., academic probation for the major) may be applicable to students in disciplines where such action is specified in student handbooks (e.g., Nursing, Social Work).

3. Discovery of an academic integrity violation provides the faculty member an opportunity to engage in discussions with the student about expectations of appropriate, ethical, professional behavior using a Christian worldview. Sanctions, although given as a disciplinary action, can also be used to ensure the student engages in activities to improve their practices and prevent subsequent recurrences. For example, sanctions may include having the student required to go to the Writing Center for consultation on all future course papers, or having the student rewrite the assignment (even though they will receive no grade for the work). Faculty need to clearly articulate to the student the consequences of any failure to complete the agreed upon sanctions.

4. Based upon the severity and frequency of the violation(s) suspension or dismissal from the university may be the assigned sanction (see Chart A).

    a) Academic integrity suspension is separation from the university for at least one semester. The student is eligible to apply for readmission after dismissal to Azusa Pacific University, but readmission after dismissal is not automatic.

    b) Academic integrity dismissals are permanent separations from the university with no opportunity to apply for admission after dismissal.

5. The University Registrar must be notified by the Office of the Provost designee and dean of an academic integrity suspension or dismissal to place proper holds on student accounts.

    a) The University Registrar shall be copied in all letters to the student regarding suspension or dismissal.

    b) The letters are archived in the student's permanent file.

## C. Student Appeals Procedure

1. If the student feels that the sanction is unwarranted or unjust due to new information, procedural error, or an excessive or unjust penalty, he or she must utilize a process of appeal as described in the academic catalog section: Undergraduate Student Grievance and Appeals Procedure. The appeal procedure begins with the student initiating a meeting with the professor of record, then meeting with the chair of the department in which the infraction occurred, and finally meeting with the dean of the school in which the infraction occurred, if warranted. For all steps in the grievance and appeal process, refer to the academic catalog at catalog.apu.edu.

2. If, after completing step 1 (above), the student continues to feel that the final sanction is unwarranted or unjust due to new information, procedural error, or an excessive or unjust penalty, a formal grievance can only be filed after the process above has taken place and within fifteen (15) business days from the date of the Office of the Provost's letter confirming the violation.

3. A formal written grievance may be submitted to the Office of the Provost designee that includes the following:

a) A statement addressing how the appeal meets one or more of the three following criteria necessary for a formal appeal:

• New information or evidence exists that was not considered in the original appeal.

• An error was made in determination of the academic integrity violation (must have evidence to prove this error).

• Standards different from those established in written course, department, school, college, or university policies, if specific policies exist, were used in assigning the academic integrity violation.

b) A description of the outcome of the informal discussion process as described in Section V.C.1.

c) Any relevant documents the student would like to have reviewed as part of the appeal process.

d) A copy of the course syllabus and assignment descriptions.

## D. Convening a Review Committee

1. Upon receiving a formal written grievance from the student, the Provost designee will appoint a review committee. Each review committee shall include two faculty members, two undergraduate students, and the Office of the Provost designee. The Office of the Provost designee will serve as the review committee chair for all grievance hearings; a faculty member will serve as chair for all hearings related to violations not directly connected to one class. Student appointees must be approved by the Vice President for Student Affairs or his or her designee.

2. The committee chair will schedule a hearing as soon as possible, with at least ten (10) business days' notice. The chair will also notify the student of the names of the review committee members with a request that, if the student has any reason to believe any member is biased, he or she should notify the chair immediately. The chair shall also inform the student(s) under suspicion that he or she can bring to the hearing a member of the university community (faculty, staff, or student) for support. The support person must be approved by the committee chair and will not participate in the proceedings. Legal counsel is not permitted. Family members are not permitted. The student may invite witnesses to be called in during the review proceedings. The student and faculty must disclose which witnesses they will bring and the topics the witnesses will address, as well as what information or documents they may bring, if any.

3. If any member of the review committee has a relationship with someone involved in the case which may compromise his or her objectivity, they should recuse themselves. The Office of the Provost designee will then appoint new members to the committee.

4. Review committees ordinarily do not meet during the final examination period. However, if the student who is suspected of a violation is a graduating student during his or her final semester, the review committee must make every reasonable effort to meet prior to graduation.

5. Except for the required notifications as set forth throughout this policy, all review committee proceedings are to be strictly confidential. Information regarding such proceedings is to be disclosed only on a legitimate need-to-know basis, and as required by law. If the student provides written consent, and if a parent or guardian of the student under suspicion inquires about the suspected violation, the chair of the review committee may describe the general nature of the suspected violation and the procedures defined in this policy. However, the chair should not engage in a detailed discussion of the issue.

6. Before the hearing, committee members should not discuss the allegation or the evidence with the student suspected of the violation. If a student suspected of a violation has questions about the Academic Integrity Policy and the procedures of the hearing, he or she should contact a faculty member who is not involved in the review of the student's case. The consulted faculty member should not discuss the evidence against the student under suspicion nor make any recommendation about how the student should respond to the suspicion of a violation but should only discuss the hearing procedures and principles of the policy.

7. The hearings are administrative and concern internal university affairs; accordingly, the hearings are informal and are not subject to formal rules of civil procedure or evidence. The hearings are not open to the public, nor does the student under suspicion (or any other individual involved) have the right to legal counsel at the hearing.

8. The chair of the review committee should open the hearing by briefly presenting the allegations. Next, the professor of the course and/or any other individual(s)reporting the allegations should present their evidence of the alleged violation. The student suspected of a violation may question the professor or other witnesses concerning the evidence, as may the review committee members. The student may then present his or her own witnesses, including his or her own testimony, and any other evidence. The review committee members may then question the student under suspicion and any of the other invited witnesses. Witnesses called by the student and the committee will testify individually and will not be present during the testimony of other witnesses.

9. At the end of this process, the professor and any other witnesses are excused. At this point, the student has the opportunity to respond further to the charges if he or she desires by making a statement to the committee members. The student is then dismissed, and the review committee members deliberate.

10. After deliberation, the review committee decides, by a majority vote, whether the evidence supports a finding that the student under suspicion more-likely-than-not violated the Academic Integrity Policy or whether the evidence does not support such finding, in which case, the charges are dismissed. In the case of a tie, the committee chair's decision prevails.

11. If it is found that the evidence does not support a finding that a violation has occurred, the chair of the review committee notifies the student and the professor in writing of this decision. This notification should, if possible, be sent within two days of the hearing.

12. If a student is found to have violated the Academic Integrity Policy, the review committee must decide to uphold the sanction as given by the faculty member or assign a different sanction that will supersede the sanction from the faculty member. The committee should take into consideration the syllabus of the course and the faculty's recommendation on the reporting form. In addition, the committee should be guided by the following broad distinction between offenses and sanctions.

## E. Notification Process

1. If the review committee decides a student is responsible for an offense and assigns a sanction, the chair of the review committee notifies the student in writing of the committee's decision and of the sanction within one week of the hearing. A copy of the letter is sent by the Office of the Provost designee, to the dean of students, the department chair of the student's major, and the professor of record. The letter will note that an additional violation of the Academic Integrity Policy will normally result in suspension or dismissal from the university.

2. The professor of the course, upon receipt of the letter from the review committee chair, will execute the sanction that the review committee has determined to be appropriate. The chair then sends all documents relevant to the case to the Office of the Provost designee.

3. If the semester's grade must be submitted before the necessary hearing procedures and appeals are completed, an IP (in progress) grade will be authorized by the Office of the Provost designee.

4. A finding of responsibility for academic dishonesty with regard to a particular course will void any earlier withdrawal from that course. A grade of F in a course assigned due to an academic integrity violation will preclude a subsequent withdrawal from that course. A finding of responsibility for academic dishonesty may be considered in academic probation extensions and appeals.

# VI. Records of Violations and Repeated Violations

## A. Records

1. The Office of the Provost designee will maintain records of all academic integrity violations. These records are used to keep account of repeated student offenses, provide aggregated data of academic integrity issues at the university, and provide data to departments on campus that need information about violations. The Office of the Provost designee will retain such records for seven (7) years after the student's graduation or separation from the university and will reveal their contents to others only with the written approval of the student or if required by law. A copy of the letter documenting a violation will also be kept in the student's Student Affairs file.

2. When the Office of the Provost designee receives a report that an academic integrity policy violation has been established, that office checks the files to determine if the student has a previous violation. If so, the Office of the Provost designee will forward the violation records to the dean of the school of the student's major who may assign a further sanction for the repeated offense. In the case of a student with an undeclared major, the Office of the Provost designee may assign a further sanction. The standard sanction for a repeated offense is suspension or dismissal from the university.

3. It is the responsibility of the Office of the Provost designee, upon recommendation of the dean of the student's major in all cases but undeclared students, to notify the student, the dean of the school/college in which the violation occurred (if this differs from the school/college of the student's major), the dean of students, and the registrar of the suspension or dismissal of a student.

## B. Admission After Dismissal

1. In order to be admitted to the university after dismissal, a suspended student must submit an application which must be approved by the Office of the Provost designee and the dean of the school or college to which the student wishes to be admitted, as well as other university offices, as is otherwise required.

2. In the case of suspension, a student's transcript will read A*cademic Integrity Suspension*; and in the case of dismissal, it will read *Academic Integrity Dismissal.*

# VII. Chart A – Types of Violations and Possible Sanctions Reference

## Defining Minor and Major Violations

### Minor Violation

- A minor violation is recognized by the faculty as a violation of concern, but not of the level of severity to warrant the student's automatic failure of the course.

- See Level I and Level II

### Major Violation

- A major violation is recognized by the faculty as a violation of significant concern, warranting at minimum the student's automatic failure of the course.

- See Level III and Level IV

# Level I

## Description

Level I violations may occur because of inexperience or lack of knowledge of principles of academic integrity on the part of persons committing the violation. These violations address incidents when intent is questionable and are likely to involve a small fraction of the total course work, are not extensive, and/or occur on a minor assignment.

Registering a Level I violation provides the opportunity for the students to receive further education of academic integrity policies and the importance of academic integrity to the academy.

Repeated offenses of this type would be considered a Level II violation

## Examples of Violations

- Working with another student on a laboratory or other homework assignment when such work is prohibited.

- Failing to footnote or give proper acknowledgment in an extremely limited section of an assignment.

- Sharing your work with another student that is then submitted by that student as their own work.

- Seeing a violation and not informing a faculty member.

## Examples of Sanctions

Level I violations should lead to one or more of the sanctions listed below, with the type and number based on the faculty's discretion.

- Reduction or no credit given for the original assignment (not to include a zero for the assignment in question but may entail dropping the grade from an average or allowing the student to re-do and resubmit the assignment with or without an additional requirement that is graded).

- An assigned paper or research project on a relevant topic.

- A make-up assignment at a more difficult level than the original assignment.

- Required attendance in a noncredit workshop or seminar on ethics or related subjects.

- Required consultation with the Writing Center (including proof of attendance).

- Required submission of future papers through plagiarism detection software.

- Required submission of a draft paper and meeting with the instructor.

- Requiring that all future take-home tests are proctored for this student.

# Level II

## Description

Level II violations are breaches of academic integrity that are more serious or that affect a more significant aspect or portion of the coursework compared with Level I violations.

## Examples of Violations

- Repeated offense of Level I violation.

• Quoting directly or paraphrasing, to a moderate extent, without acknowledging the source.

• Submitting the same work, or major portions thereof, to satisfy the requirements of more than one course without permission from the instructor to whom the work is submitted for the second or subsequent time.

• Using data or interpretive material for a laboratory report without acknowledging the sources or the collaborators. All contributors to the acquisition of data and/or to the writing of the report must be acknowledged.

• Failure to acknowledge assistance from others, such as help with research, statistical analysis, computer programming, or field data collection, in a paper, examination, or project report.

• Sharing one's own work with another person when prohibited by the instructor.

• Failing to acknowledge the use of AI and claiming work as your own in the form of text, imagery, graphs, charts, or any resource provided by AI. Examples include but are not limited to: Copying or paraphrasing, plagiarizing, altering text to look as one's own, claims of authority or legitimacy, or fabricating or duplicating sources provided by AI.

## Examples of Sanctions

Level II violations should lead to a failing grade on the assignment. In addition to a failing grade, other sanctions are recommended to provide a learning opportunity for the student.

• Required participation in a noncredit workshop or seminar on ethics or academic integrity.

• A makeup assignment that is more difficult than the original assignment.

• Voiding any credit for the original assignment and requiring the student to complete another equivalent assignment to receive credit and verify knowledge.

• Required consultation with the Writing Center (including proof of attendance).

• Required submission of future papers through plagiarism detection software.

• Required submission of a draft paper and meeting with the instructor.

• Requiring that all future take-home tests are proctored for this student.

# Level III

## Description

Level III violations are those that go beyond Level I or II violations and that affect a major or essential portion of work done to meet course requirements, or involve premeditation, or are preceded by one or more violations at Levels I and/or II.

## Examples of Violations

• Repeating Level II violations (note that three Level II violations equate to one major violation – see above).

• Presenting the work of another as one's own. This includes having another person complete online coursework and presenting it as one's own.

• Copying on examinations.

• Plagiarizing major portions of a written assignment.

• Acting to facilitate copying during an exam.

• Using prohibited materials, e.g., books, notes, or calculators, during an examination.

• Conspiring before an exam to develop methods of exchanging information and implementation thereof.

• Altering examinations for the purposes of regrading.

• Acquiring or distributing an examination from unauthorized sources prior to the examination.

• Submitting purchased materials such as a term paper or other materials.

• Removing or damaging posted or reserved material, or preventing other students from having access to the material.

• Fabricating data by inventing or deliberately altering material. Fabrication includes citing "sources" that are not, in fact, sources.

- Using unethical or improper means of acquiring data.

- Completing academic work for another student to submit as their own.

### Examples of Sanctions

Level III violations should lead to one or more of the following sanctions:

- Failing grade for the course.

- Possible suspension from the university for one semester (see suspension policy in the Undergraduate Catalog).

- Possible dismissal from the university (see dismissal policy in the Undergraduate Catalog).

## Level IV

### Description

IV violations represent the most serious breaches of intellectual honesty.

### Examples of Violations

- Repeating a Level III violation.

- Committing a violation of academic integrity after returning from suspension for a previous violation of academic integrity.

- Committing a violation of academic integrity that breaks the law or resembles criminal activity (such as forging a grade form, stealing an examination from a professor or from a university office, buying a stolen examination, falsifying a transcript to gain access to the university or its resources, or altering the record of work done at the university).

- Having a substitute take an examination or taking an examination for someone else.

- When completing a significant scholarly project (e.g., research, a senior thesis, a capstone project), fabricating evidence, falsifying data, quoting directly or paraphrasing without acknowledging the source, and/or presenting the idea of another as one's own.

- Sabotaging another student's work through actions designed to prevent the student from successfully completing an assignment.

### Examples of Sanctions

Level IV violations should lead to the following sanction:

- Permanent dismissal from the university

# Academic Policy Exceptions

A petition process exists for students who seek an exception to stated academic policies, procedures, and regulations. Students can complete the Academic General Petition (https://www.apu.edu/student-services/registration/#ugforms) available from the Student Services Center (https://www.apu.edu/student-services/registration/), or contact the center and request that one be sent via email. Approval for petitions will be granted only in extreme cases where extenuating circumstances are evident and can be substantiated. Email the completed form with all required items to ssc@apu.edu—it is important for the appeal to include all necessary information, as incomplete petitions will be denied. Students will be notified via email of the final decision.

## Extenuating Circumstances

Extenuating circumstances—those beyond a student's control—could include, but are not limited to, those in the list below. Experiencing and documenting an extenuating circumstance is not an automatic cause for petition approval.

1. Documented death of a close family member or loved one
2. Documented major medical issue (physical or psychological) experienced by the student, living companion, or close family member or loved one

3. Documented domestic violence, sexual assault, and other forms of violence and abuse
4. Documented involuntary call to active military duty
5. Other documented extreme circumstances (case-by-case basis)

The following circumstances are **not** considered extenuating and beyond the student's control:

1. Not knowing the deadline, procedure, or policy
2. Work conflicts or nonemergency family commitments
3. Heavy work schedule or voluntary overtime
4. Not needing or wanting a class
5. Not doing well in a class
6. Not knowing you were enrolled in a class
7. Having too heavy a course load
8. Wanting to improve your GPA
9. Traveling a far distance to the school
10. Incarceration resulting from a guilty verdict

## Documentation

Your inability to provide supportive documentation may result in your appeal being denied. Submit date-specific supportive documentation, but do not submit original documents, as they will not be returned.

Documentation could include, but is not limited to:

1. Medical documentation, which could include a letter from a physician or counselor on letterhead indicating the dates you were under care.
2. Copy of a death certificate or obituary.
3. Accident reports, police records, and/or court records.
4. Statements from each individual instructor for every course change for which you are petitioning. Such statements should include confirmation of attendance, the start and/or end dates of your participation in the course, and any other information applicable to the situation for which you are petitioning. Statements are strongly recommended if you are requesting a course add, drop, or withdraw.
5. A graduation plan outlining how you plan to finish your degree requirements.
6. A statement from your academic advisor or campus authority involved in your situation.
7. Any other documentation that will support the reason for your request.

Petitions submitted without this documentation will likely be denied.

## Submitting Your Appeal

Your appeal must include the following:

1. A completed Academic General Petition form.
2. Attached form, if appropriate, based on the exception you are requesting. For instance, attach a Class Withdrawal form (https://www.apu.edu/student-services/registration/#ugforms) if you are requesting an exception to the deadline to withdraw from a course.
3. A typed personal statement (or use the front of the form).
4. Attached documentation of the extenuating circumstance(s) that led to your request.
5. It is important that your appeal include all necessary information. Unexplained or excessive delay between discovering the necessity of filing this petition and submitting it may be grounds for denial.

# Academic Probation and Dismissal

All students are required to meet Satisfactory Academic Progress (SAP) (p. 971), which is determined by the U.S. Department of Education. These requirements are consistent with Azusa Pacific University's graduation requirements and demonstrate academic progress toward degree completion. The following requirements are evaluated at the end of each semester:

- GPA: Cumulative GPA of at least 2.0
- Units Passed (Pace): Passing grade in at least 67 percent of units enrolled (includes *F*s, *W*s, Incompletes, and repeated courses)

Academic Advising (https://www.apu.edu/academic-success/advising/) in the Academic Success Center (https://www.apu.edu/academic-success/) offers individualized academic planning for students who are not meeting the minimum SAP requirements. All students are evaluated at the end of each term and notified of their standing. A student's academic performance directly impacts financial aid eligibility (see also the financial aid SAP policy

requirements (p. 971) in this catalog). The academic success coaches in Academic Advising partner with the financial aid office to ensure that our efforts are in alignment and equitable for all students.

Dismissal occurs when a student does not meet the individualized academic plan requirements. One dismissal petition is allowed per student while attempting to complete a degree at Azusa Pacific. The petition process will be discussed when meeting with an academic success coach. The Petition Review Committee decides if completion of a degree can be accomplished. The petition committee's decision is separate from financial aid eligibility. If a petition is accepted by this committee, a student may still be ineligible for financial aid, therefore eligible to attend and responsible for full cost of attendance.

# Reapplication After Academic Dismissal

A student who has been dismissed for academic reasons for the first time may petition to return to APU for the following semester through the Academic Success Center (https://www.apu.edu/academic-success/). The petition must state:

1. Intentions to maintain acceptable academic standing
2. Strategies for probable success

If the petition is approved by the committee, the student's probationary status will be monitored regularly thereafter by the Academic Success Center to ensure that the student makes satisfactory progress in remedying grade deficiencies. Failure to maintain the requirements of an academic plan to reach Satisfactory Academic Progress (SAP) at this point will result in disqualification from further study. A second academic dismissal may not be appealed, and the student must proceed through the readmission and reenrollment processes (p. 951) for consideration of further study at APU after showing academic success at another institution for a minimum of two semesters, with full-time enrollment in academic courses in each semester.

A student who has been academically dismissed and does not petition to return for the following semester should apply to reenroll through the Office of Undergraduate Admissions (https://www.apu.edu/admissions/undergraduate/) (or International Services (https://www.apu.edu/international/enrollment/) for international students) for readmission to APU. Reenrollment is not guaranteed, and the student's file will be reviewed by the Admissions Committee. The student must demonstrate academic success at another institution for a minimum of two semesters with full-time enrollment in each semester (one of those semesters may be full-time summer enrollment). The course load should comprise academic core courses.

# Attendance Regulation

Regular class attendance is expected of all students. Classes are conducted in a manner that will encourage academic excellence and the growth of Christian character. The final authority for attendance and any effect that it might have upon grades rests with the individual faculty member, as identified in the course syllabus. This is due to the tremendous variations in course pedagogy and specific requirements in attendance to meet course outcomes. It is the duty of each faculty member to clearly define the grading and attendance policies for each course, including learning activities that may occur outside the scheduled meeting times, in the course syllabus.

Missed class dates because of late addition of a class to one's course schedule may be considered unexcused absences. When class sessions are missed due to late enrollment (see the Academic Calendars (https://www.apu.edu/calendar/academic/) for add/drop dates), the student remains responsible for learning the missed course content and completing missed assignments, thereby meeting the learning objectives.

In general, a student is allowed up to a total of two weeks of excused absences from a course (e.g., for a 3-unit course, this would be 6 class hours). This includes absences due to university-related activities or athletics, and medical and nonmedical reasons. Students should carefully monitor all of their absences (accumulated for any of the reasons stated below) to ensure they do not exceed a total of two weeks of absences and thus make them unable to meet course outcomes in a satisfactory manner.

## Absences: University-Sponsored Activities and Athletics

Field trips and other enrichment activities are an integral part of the education process, and musical groups and athletics teams are often away for scheduled events that are considered excused absences. Exceptions for absences greater than the number in the stated attendance policy above may be authorized through the formal absence notification form. Athletics and/or the sponsoring department will notify the Office of the Provost designee, and subsequently the course faculty.

When it is necessary for a student to miss scheduled classes for university-sponsored student activities, the following process should be followed:

- The sponsoring department/program (e.g., athletic team, performance group, Student Government Association, etc.) must electronically submit the appropriate Formal Notification of Student Absence for University-Sponsored Activities and Athletics form to the dean or athletic director at least two weeks prior to the event. The form includes information regarding the event dates, and the students involved and therefore excused from class attendance on the event dates.

- If the student will miss chapel, the dean/athletic director must provide the Office of Judicial Affairs with the approved student names and ID numbers for the event that will impact chapel attendance.

- If the student will miss class, the dean/athletic director must distribute the approved form without ID numbers to the sponsoring department/program faculty or staff member for distribution to the participating students.

- Participating students must use **both** email and in-person notification to inform their instructors of their approved absence and to discuss their makeup responsibilities and deadlines.

- Students whose absences are authorized by formal notification, as described above, from the appropriate dean or athletic director, must be allowed makeup privileges without penalty (e.g., grade reduction or point deduction on an assignment). Students remain responsible for learning the course content and completing assignments, thereby meeting the learning objectives.

It is the responsibility of student-athletes to attend every class session held when they are not ill, involved with a personal emergency, or traveling with their team. Students must exercise responsibility in choosing their level of participation in light of class attendance requirements and thus avoid jeopardizing classroom learning based on participation.

In any discipline (such as nursing or other science) in which clinical or lab hours are required by a state, federal, or professional body for future licensing or credentialing or to effectively pass the course, APU students must abide by the required licensing hours set forth by that governing body. These hours are shown in each semester's course syllabus, and all students must comply with requirements according to that discipline's guidelines as delineated in various course syllabi. See the Add and Drop Periods policy (p. 1030) if you wish to make any schedule changes.

## Absences: Medical Reasons

Absences due to illness, confirmed by verification from a healthcare provider or from the APU Student Health Center, are considered excused absences. The faculty member will require verification of the student's health status to approve the excused absence.

Students with medical situations that require them to miss a number of class sessions should advise their professors and the dean of student wellness of the situation to seek guidance in meeting course outcomes and accessing other university resources, if applicable. Normally, absences need to extend beyond one week's worth of classes before the dean of student wellness becomes involved, but the dean of student wellness may need to become involved sooner if a crucial date (such as an exam day) will be missed. If the student is too ill, the dean of student wellness will advise the faculty of the absences.

## Absences: Nonmedical Reasons

In certain extreme situations, a student may be forced to miss a number of class sessions for nonmedical reasons, such as family emergency, extreme personal trauma, etc. Students should advise their professors and the dean of student wellness to seek guidance in meeting course outcomes and accessing other university resources, if applicable. Normally, absences need to extend beyond one week's worth of classes before the dean of student wellness becomes involved, but the dean of student wellness may need to become involved sooner if a crucial date (such as an exam day) must be missed. If the student is not available, the dean of student wellness will advise the faculty of the absences.

Mission/ministry/service/performance trips during the semester that require the student to miss class time are discouraged, and such absences will be considered excused only at the discretion of each course professor.

Jury duty: While APU does encourage students to participate in their civic duty as jurors, accepting such service can cause a student to miss excessive class sessions and important material. APU students are encouraged to request postponements until nonenrolled periods (summer, inter-term, etc.). If a postponement is not possible and a student is summoned and not excused, the student's absence(s) will be considered excused at the discretion of the professor. Any exceptions to this policy must be granted through the Office of the Provost designee.

# Certificates of Distinction

Occasionally, academic departments may wish to implement additional academic certificates for their majors (such as a Certificate of Distinction (or Academic Distinction) in ... ). Due to the wide breadth of standards among the disciplines, these certificates may vary in title and expectations, but they all must adhere to the following general guidelines:

1. Include a minimum GPA standard.
2. Provide clearly defined additional or increased-level coursework. For example, students must complete a minimum number of 400-level courses, or courses in a specific concentration, etc.
3. Students must be a major of the department offering the certificate.
4. All criteria, once approved through faculty governance, must be included in the catalog.

Note: Certificates given solely for highest GPA do not need to be approved.

# Classification of Students

A full-time student may be defined as one taking a minimum academic load of 12 units each semester. The university uses the following system for student classification:

| | |
|---|---|
| Freshman | 0-29 units |
| Sophomore | at least 30 units |
| Junior | at least 60 units |
| Senior | at least 90 units |

The university also uses the following system to define academic load:

| | |
|---|---|
| Less than Half Time | Enrolled in 0-5 Units |
| Half Time | Enrolled in 6-8 Units |
| Three-Quarter Time | Enrolled in 9-11 Units |
| Full Time | Enrolled in 12+ Units |

Senior classification does not ensure graduation; all requirements for a degree must be satisfactorily met in order to graduate.

Freshmen and sophomores have lower-division standing, juniors and seniors have upper-division standing.

# Concurrent Enrollment Policy

Students wishing to take courses at another institution while enrolled at APU should obtain prior approval from the Student Services Center (https://www.apu.edu/student-services/) to ensure that the courses are transferable to APU, which has articulation agreements with many colleges in the area. Students can view lists of preapproved courses through Transferology (https://www.transferology.com/school/apu/); all other courses must be approved through a Transfer Credit and Course Substitution Form (https://www.apu.edu/student-services/registration/#ugforms). Without prior approval from the Student Services Center, transfer credits may be denied.

# Correspondence Course Credit

Correspondence education is defined as education provided through one or more courses by an institution under which the institution provides instructional materials by mail or electronic transmission, including examinations on the materials, to students who are separated from the instructor. Interaction between the instructor and the student is limited, lacks regularity and substance, and is primarily initiated by the student. Courses are typically self-paced. Correspondence education is not the same as distance education.

- A maximum of 9 semester units of correspondence credit may be applied toward an Azusa Pacific University degree.
- Students must earn a grade of *C-* or higher in eligible courses and receive prior approval from the Student Services Center (https://www.apu.edu/undergraduate-enrollment-services/).
- If a student wishes to receive correspondence course credit toward the requirements for his/her major, prior written consent from department faculty must be obtained.
- Correspondence courses must be offered by a regionally accredited college or university or be accredited by the Association for Biblical Higher Education (https://www.abhe.org/). No more than 6 units may be transferred to meet General Education core requirements (p. 919) in Biblical, Theological, and Philosophical Formation.
- Senior transfer students may complete only 3 units by correspondence, none of which may apply to the General Education core category of Biblical, Theological, and Philosophical Formation.
- All correspondence courses should be completed one year prior to the student's graduation. For example, if a student plans to graduate May 8, the recommended date for finishing the correspondence course would be May 7 of the previous year. Students should work with their Academic Records Specialist in the Student Services Center to address special circumstances.

# Course Policies

## Course Auditing

A student may apply to the instructor for permission to audit a class. The student must meet university entrance requirements and pay the audit fee, which is one-half the regular course fee. A student may not change from an audit classification to obtain credit after the last date of the add period (see

the Undergraduate Academic Calendar (https://www.apu.edu/calendar/academic/) for the specific date), nor change from credit to audit after the sixth week of instruction. An audited class will not count toward a degree.

## Independent Study

Independent study enables students to enrich their university experience by pursuing learning in a closely supervised program and undertaking individual investigation of subject areas not covered in regular course offerings. An undergraduate, upper-division student (60 or more completed units) who has a minimum cumulative GPA of 2.5 may receive credit for a maximum of 9 independent study units to be applied toward a degree program. No more than 4 units may be applied toward one project, and a maximum of 9 independent study units may be taken during one academic term.

The independent study is recorded as XXX 497, XXX 498, or XXX 499 on the student's permanent academic record. To request an independent study course for any given semester, students should begin planning the study during advising and must submit a completed Course Replacement or Independent Study form (https://www.apu.edu/live_data/files/323/ug_independent_study.pdf) to the Student Services Center (https://www.apu.edu/student-services/) by the last day of the add period (see the Undergraduate Academic Calendar (https://www.apu.edu/calendar/academic/) for the specific date).

The application must include:

- A completed Course Replacement or Independent Study form (https://www.apu.edu/live_data/files/323/ug_independent_study.pdf).
- A proposal written in consultation with the supervising or mentoring instructor.
- Signed approval of the instructor, department chair, and dean of the appropriate school or college.

The student pays an additional fee per unit for independent study courses (see university fee schedule (https://www.apu.edu/undergraduate-admissions/cost/tuition/)).

## Course Replacement

Course replacement is the replacement of a catalog course in terms of units, content, syllabus, outline, and testing by an independent-study version of the course. In general, the course tutorial cannot substitute for a course that is offered on a regular basis, but there may be occasions in which it may be utilized to fulfill a course requirement when a course is canceled or not offered during the semester. The actual course number, instead of an independent study number, is recorded on the student's permanent academic record.

Course replacement units do not count toward the maximum 9 independent study units allowed in a degree program. To request a course replacement for any given semester, the student must submit a completed Course Replacement or Independent Study form (https://www.apu.edu/live_data/files/323/ug_independent_study.pdf) to the Student Services Center (https://www.apu.edu/student-services/) by the last day of the add period (see the Undergraduate Academic Calendar (https://www.apu.edu/calendar/academic/) for the specific date). The student pays an additional fee per unit for replacement courses (see university fee schedule (https://www.apu.edu/undergraduate-admissions/cost/tuition/)).

## Course Counting

Many courses offered at APU are approved to count toward more than one category on the My Requirements page. Listed below are some principles about the way courses may count toward degree requirements. If you are confused about a rule or uncertain about how it applies to your situation, contact your advisor in your academic department, an academic success coach in the Academic Success Center (https://www.apu.edu/academic-success/), or an Academic Records Specialist in the Student Services Center (https://www.apu.edu/student-services/).

1. Courses may count toward no more than one requirement per program (General Education, majors, and minors) unless stated otherwise.
2. There is no limit to the number of courses that may count in multiple programs unless stated otherwise.
3. Courses that may be taken multiple times for credit may count toward the same requirement unless stated otherwise.
4. Concentration requirements are considered a part of the major/minor program and therefore cannot share courses across requirements unless stated otherwise.
5. Academic departments may limit the number of courses that can be shared between their programs and programs from other departments.
6. Policies regarding unique courses and sharing limits for earning a double major or double degree apply.

# Deans' List

Nominations to the Deans' List are made at the conclusion of the fall and spring semesters of each academic year. Students named to the Deans' List shall have satisfied the following conditions:

1. They shall be registered for one of the following degrees:
   a. Bachelor of Arts (BA)
   b. Bachelor of Fine Arts (BFA)
   c. Bachelor of Music (BM)

    d. Bachelor of Science (BS)

    e. Bachelor of Science in Nursing (BSN)

    f. Bachelor of Social Work (BSW)

2. They shall be enrolled full time (at least 12 units) in the qualifying semester.

3. They shall achieve a 3.5 or higher GPA for the qualifying semester.

# Final Examinations and Waiver Examinations

Final examinations are required in all courses. No final examination shall be given to individual students before the regularly scheduled time during finals week unless there is written approval from the instructor, the department chair, and the appropriate academic dean. Waiver exams are available at the discretion of each academic department; these exams do not grant academic units.

# Good Academic Standing

Undergraduate students are considered to be in good academic standing if they maintain a cumulative grade-point average (GPA) of 2.0.

# Grade Appeal Policy

This grade appeal policy establishes a clear, fair process by which undergraduate students can contest a course grade that they believe has been awarded in a manner inconsistent with university policies or that has resulted from calculation errors on the part of the instructor. Recognizing, however, that the evaluation of student performance is based upon the professional judgment of instructors, and notwithstanding the exceptions noted at the end of this policy, appeals will not be considered unless based upon one or more of the following factors:

- An error was made in grade computation.
- Standards different from those established in written department, school, college, or university policies, if specific policies exist, were used in assigning the grade.
- The instructor departed substantially from his or her previously articulated, written standards, without notifying students, in determining the grade.

Only the final course grade may be appealed. The grade assigned by the instructor is assumed to be correct and the student appealing the grade must justify the need for a change of the grade assigned.

## Appeals Procedure

1. Formal grade appeals must be initiated by the student within four months after the date that grades were due for the course(s) in question. For example, if grades were due on December 25, the appeal must be filed by April 25.

2. The first step to resolving differences between an instructor and student concerning a grade must be a discussion between the student and the instructor. If the instructor of record will not be available within the four-month period, the department chair or designee may act in lieu of the instructor of record for the purpose of grade appeals.

3. If the instructor and student cannot resolve the appeal, and the student wishes to pursue the matter further, he or she must present to the chair of the department in which the course is offered a written appeal that includes the following:

    a. A statement addressing how the appeal meets one or more of the three criteria necessary for a formal appeal.

    b. A description of the outcome of the informal discussion process.

    c. Any relevant documents the student would like to have reviewed as part of the appeal process.

    d. A copy of the course syllabus and assignment descriptions.

    e. The department chair may request additional materials from the student. After receiving a copy of the appeal materials from the department chair, the instructor has ten (10) business days to respond in writing to the appeal. The department chair will discuss this response with the instructor and will provide the student with written notification of the outcome of this step within five (5) business days after receiving the instructor's response.

4. If there is no mutually agreed-upon resolution between the student and the instructor, and the student wishes to pursue the matter further, he or she has five (5) business days to submit his or her written appeal to the dean of the department. The dean will review the appeal, provide copies of all appeal materials to the instructor, and discuss the appeal with the chair, instructor, and student. The instructor has five (5) business days to review the written appeal the student has presented to the dean and, if desired, prepare an additional written response. The dean will provide the student with written notification of the result of this step within ten (10) business days after receipt of the appeal from the student.

5. If the fourth step does not lead to a mutually agreeable resolution, and the student wishes to pursue the matter further, then a Grade Appeal Committee shall be formed by the dean within ten (10) business days. This committee shall include 3 faculty members from the college/school:

one selected by the student, one selected by the instructor of record, and one appointed by the dean. A majority shall prevail in the committee. The committee shall elect its own chair. The function of the Grade Appeal Committee shall be to evaluate the appeal in terms of the stated grounds for the appeal. The committee's decision may be to keep the assigned grade or to raise the assigned grade. The committee shall provide a written justification to the dean for its decision, including minority opinions when they exist, no later than fifteen (15) business days after the committee's formation. The dean shall inform the department chair, student, and instructor of the committee's decision and provide all parties with copies of the committee report. This decision by the Grade Appeal Committee is final.

6. In the case of a change of grade, the instructor of record must implement the change of grade decided upon by the committee within ten (10) business days after learning of the committee's decision. If the instructor fails to make the change, the dean shall implement the change of grade as determined by the committee on the student's official transcript through the change-of-grade procedure. This shall be the last step in the deliberation of the formal grade appeal.

7. The dean shall forward a written record of the results of all grade appeals to the appropriate Office of the Provost designee within ten (10) business days.

## Exceptions to the Grade Appeal Policy

The Grade Appeal Policy shall constitute the sole internal administrative remedy for a change in grade, except when the grade being disputed resulted from an alleged academic integrity violation. If a grade dispute arises from an issue that is covered under the university's Academic Integrity Policy (https://www.apu.edu/provost/integrity/), the process for resolution that has been established for appealing academic integrity violations must be followed.

# Grading, Including Incompletes

Grades are based on daily work, classroom projects, and examinations. In all courses, except those designated as credit/no credit or pass/fail, scholarship is ranked as follows: *A*, exceptional; *B*, superior; *C*, average; *D*, poor; *F*, failure; *I*, incomplete; *W*, withdrawal; and *FN*, failure, nonattending. Grade type (A-F versus credit/no credit or pass/fail) cannot change unless an official course change has been approved by the appropriate council prior to the course being offered for a particular semester. Unit values for a course cannot be changed from the published values unless an official course change has been approved by the appropriate council prior to the semester the course is taken. For each unit in which the student is enrolled, points are awarded according to the grade earned as follows:

| Grade A | 4.0 points | Exceptional |
|---|---|---|
| Grade A- | 3.7 points | |
| Grade B+ | 3.3 points | Superior |
| Grade B | 3.0 points | |
| Grade B- | 2.7 points | |
| Grade C+ | 2.3 points | Average |
| Grade C | 2.0 points | |
| Grade C- | 1.7 points | |
| Grade D+ | 1.3 points | Poor |
| Grade D | 1.0 point | |
| Grade D- | 0.7 points | |
| Grade F | 0 points | Failure |
| Grade W | 0 points | Withdrawal |
| Grade IN | 0 points | Incomplete, No Paperwork |
| Grade FN | 0 points | Failure, Nonattending |
| Grade I | 0 points | Incomplete |
| Grade NC | 0 points | No Credit |
| Grade CR | 0 points | Credit |
| Grade P | 0 Points | Pass |
| Grade NG | 0 points | No Grade - Lab |
| Grade AU | 0 points | Audit |
| Grade IP | 0 points | In Progress |
| Grade NR | 0 points | Not Recorded |

The following is a suggested course grading scale:

| Grade A | 93-100% |
|---|---|
| Grade A- | 90-92% |
| Grade B+ | 87-89% |
| Grade B | 83-86% |
| Grade B- | 80-82% |
| Grade C+ | 77-79% |
| Grade C | 73-76% |
| Grade C- | 70-72% |
| Grade D+ | 67-69% |
| Grade D | 63-66% |
| Grade D- | 60-62% |
| Grade F | 0-59.9 |

A grade of *D-* or better is required in undergraduate courses taken at APU to satisfy General Education requirements (p. 911) or to receive a passing grade in major courses unless a higher grade is specified by your major/department. Students who want to transfer a course from another institution to satisfy General Education requirements or major requirements must earn a grade of *C-* or better. General Education courses that satisfy major requirements may require a higher grade than the minimums listed above.

All undergraduate students must earn a minimum cumulative grade-point average (GPA) of 2.0 in all university work attempted. Transfer students must also earn a minimum cumulative GPA of 2.0 in work completed at Azusa Pacific University. Some departments/schools also require a minimum cumulative GPA for major courses.

## Incomplete ( *I*) Grade

The grade *Incomplete (I)* is given only under special circumstances, such as illness or other unforeseeable circumstances that can be verified, providing that the student's work in the course was of passing quality. An *I* grade may be given upon recommendation of the professor with the permission of the appropriate academic chair, and dean. To obtain an *Incomplete*, the student must fill out the online Incomplete Form (https://www.apu.edu/student-services/registration/#ugforms). The filing deadline for the form is the last day of finals. The form will be sent to the instructor, chair, and dean for review and decision. An *Incomplete* may be granted for up to 12 weeks from the date of issue; a petition for an extension beyond the 12 weeks will be subject to review by the faculty member and the appropriate academic dean. To petition for an extension, students must fill out a new Incomplete Form. Failure to submit an Incomplete Form or make up the missing coursework within the allotted period will automatically result in an *F*. An *IN* grade reflects an *Incomplete* with no filed paperwork at the time grades were issued, placing the student in danger of receiving an *F* if the paperwork doesn't get filed.

# Graduate Courses Taken by Undergraduate Students

An undergraduate student may enroll in a graduate course only if all of the following conditions are met:

- The student is a senior with a cumulative GPA of 3.0 or higher.
- The department chair of the student's major approves.
- The appropriate graduate department chair or graduate program director approves.
- There is space available in the course and the student has met all of the prerequisites.
- The request is submitted with the Graduate/Professional Courses Taken by Undergraduate Students form. (https://www.apu.edu/student-services/registration/#ugforms)

Graduate courses taken by undergraduate students may apply toward an APU graduate degree only if the grade received in the course is 3.0 or higher and if the student is accepted into the appropriate graduate program following APU graduate admissions procedures. No more than 9 graduate units earned as an undergraduate student may be counted toward an APU graduate degree. Some departments may allow fewer units to be counted. A student who will be applying to an APU graduate program should obtain information from the appropriate department before taking graduate courses.

The Graduate Courses Taken by Undergraduate Students policy does not apply to the Integrated Bachelor's/Credential Program (p. 546), which allows undergraduate students to complete 32-34 units of 500-level credential courses and apply those units to the 120+ units required for the bachelor's degree. For more information on how courses may be applied toward a graduate degree, refer to the Graduate Courses Taken by Undergraduate Students policy in the Graduate Academic Policies and Procedures (p. 1071) section of the catalog. Students in the Integrated Bachelor's/Credential Program need to apply separately to the appropriate graduate program in the School of Education.

The Graduate Courses Taken by Undergraduate Students policy does not apply to the Doctor of Physical Therapy program (p. 586), which offers an accelerated pathway that allows undergraduate students to complete up to 18 units of 700-level doctoral courses and apply those units to the 120+ units required for the bachelor's degree. For more information on how courses may be applied toward a graduate degree, refer to the Graduate

Courses Taken by Undergraduate Students policy in the Graduate Academic Policies and Procedures section of the catalog. Students in undergraduate programs that have direct pathways into the Doctor of Physical Therapy program still need to apply separately to the APU Doctor of Physical Therapy program.

# Professional Courses Taken by Traditional Undergraduate Students

Traditional undergraduate students may not enroll in a nonresidential/nontraditional undergraduate course (also referred to as a professional course) during the fall and spring terms of the traditional undergraduate academic calendar. Exceptions to this policy may be reviewed, upon submission of the Graduate/Professional Courses Taken by Undergraduate Students (https://www.apu.edu/student-services/registration/#ugforms) form by the student, for exceptional circumstances and where **all** of the following conditions are met:

- The department chair of the professional program offering the course approves.
- The department chair of the student's major approves.
- The request is submitted on the Graduate/Professional Courses Taken by Undergraduate Students form to the Office of the Registrar (https://www.apu.edu/student-services/registration/).

For more information on professional undergraduate programs, consult the individual program pages in this catalog.

Traditional undergraduate degrees will not be posted until grades from all courses are posted. Professional courses are offered on a different term schedule from traditional undergraduate courses, which may result in a delay of the degree posting.

# Graduation Requirements and Commencement

## Minimum Unit and GPA Requirements

For undergraduate students, the minimum unit requirement for the BA, BM, BS, BSN, BFA, and BSW degrees is 120 (some majors require completion of more than the minimum number of units). Units for the following courses do not count toward the 120 units required for graduation:

| Code | Title | Units |
|---|---|---|
| MATH 90 | Foundations of Mathematical Reasoning | 3 |
| MATH 95 | Intermediate Algebra | 3 |

All students must earn a minimum cumulative grade-point average (GPA) of 2.0 in all university work attempted. Transfer students must also earn a minimum cumulative GPA of 2.0 in work completed at Azusa Pacific University. Some departments/schools also require a minimum cumulative GPA for major courses.

## Residence

To earn an Azusa Pacific University undergraduate degree, the following units must be earned at APU:

- At least 30 total semester units
- 16 of the last 24 units counted toward the degree
- At least 15 upper-division units in the major field
- At least 50 percent of the units in the minor field, concentration, or emphasis (if any)

Neither transfer credit (including correspondence courses) nor credit by examination (CLEP, FLATS, OPIc, AP, IB) may be used to fulfill the above residence requirement. However, the units for APU off-campus study programs and university-endorsed off-campus and study away programs may be used to fulfill the university residency requirements.

## Student Service Credit Requirements

All candidates for graduation must have completed 120 service credits (https://www.apu.edu/spiritual-life/requirements/#service) approved by the Center for Student Action; this requirement is prorated for transfer students. Service credits may also be fulfilled through designated academic service-learning courses.

# Selection of Catalog for Determining Degree Requirements

1. Students are held to the General Education requirements (p. 919) of the catalog from the year they enter APU.
2. Students electing to change their major(s) and/or minor(s), concentration(s), or emphasis can request any catalog in effect from the term of initial enrollment until graduation.
3. Students electing to change catalogs should be aware that adopting a new catalog year will require completion of all requirements for all major(s) and minor(s) under the new catalog year.
4. If a new major or minor is created during the time of attendance, a student can elect the new major/minor and choose to keep any other major(s)/minor(s) on the previously selected catalog for those programs.
5. A student has seven years from the term of his/her first registration at APU to complete his/her degree under the catalog in effect at the date of first registration. Students who continue in attendance beyond the seventh year will be required to complete all new General Education, academic departmental, and graduation requirements, as well as adhere to all academic policies of the new catalog.
6. "In attendance" is defined as enrollment in at least 12 units for one semester within a 12-month period. An approved leave of absence shall not be considered an interruption in attendance. If a student is not in attendance for more than two consecutive semesters (fall/spring) and then re-enters the university, the student is subject to the graduation requirements in effect at the time of re-entering.
7. To change their academic catalog year and/or change their major, a student must submit a Major Update (https://formstack.apu.edu/workflows/major_update/) form.

# Graduation Application

Graduation is not automatic upon completion of all coursework. Students who intend to graduate must apply for graduation through home.apu.edu (https://home.apu.edu/) at least six months prior to commencement, a time period that always falls within the semester prior to the graduating semester. Commencement dates and the Graduation Application due dates are listed in the Academic Calendars (https://www.apu.edu/calendar/academic/).

Graduation applications and academic requirements are evaluated by the student's academic records specialist in the Student Services Center (https://www.apu.edu/student-services/) to determine eligibility for participation in graduation. Students must consult with their academic records specialist if they wish to add or change a major, minor, concentration, and/or emphasis after applying for graduation.

Students can expect two clearance notifications:

- The first clearance notification is emailed prior to the add deadline of the semester of the graduation they have applied for.
- The second notification is emailed four to six weeks after the drop deadline of the same semester.

  *It is the student's responsibility to read the clearance notifications and ensure they complete any outstanding requirements listed on the Graduation Clearance Status email. These requirements must be completed by the deadlines as outlined in the Participation in Commencement Policy (see below).*

A degree is granted based on the completion of all requirements. In the event that a student does not complete all requirements for the degree as indicated in the Graduation Clearance Pending letter, he or she must complete those requirements within two years of applying for graduation. If the remaining requirements for the degree are not completed by the deadline, the student will be subject to policies governing reentering students, and a new catalog year will apply.

# Participation in Commencement

Undergraduate commencement (https://www.apu.edu/commencement/) exercises are held at the end of the fall and spring semesters. The university president, by the authority of the trustees and on the recommendation of the faculty, awards the degrees.

- A student may participate in commencement exercises only if all degree work has been completed, or if no more than 3 units or one course will be taken in a term that begins after the commencement ceremony (the latter is called the "walk-short" policy). Eligibility to participate in commencement will be confirmed by the student's academic records specialist at the Student Services Center (https://www.apu.edu/student-services/).
- All correspondence courses and CLEP, FLATS, and other proficiency tests must be completed prior to the start of a student's final semester. Official transcripts must be received by the Undergraduate Enrollment Services Center no later than the drop deadline of the semester in which the student intends to participate in commencement.
- If a student's foreign language requirement is not satisfied through the proficiency assessment, the student may be required to take two consecutive semesters of the same language in order to satisfy the foreign language requirement. If a student must complete multiple semesters (courses) of foreign language, they will not qualify for the 3-unit or 1-course walk-short policy.
- To participate in commencement exercises, all university obligations must be resolved no later than three weeks prior to commencement, including the receipt of transcripts (if applicable), financial clearance (must have a zero account balance), and clearance of service credits by the Office of Service and Discipleship (https://www.apu.edu/spiritual-life/service-discipleship/).
- Students who disregard the Participation in Commencement Policy and participate in a commencement ceremony fraudulently will not be allowed to participate in future commencement ceremonies and could face sanctions including (but not limited to) suspension from the university, as such actions are considered an academic integrity violation and a student conduct violation.

## Honors at Commencement

### Latin Honors

Qualifying students may graduate with the following Latin honors: *summa cum laude, magna cum laude*, or *cum laude*. The minimum GPA requirements for Latin honors are as follows:

- 3.90 – *summa cum laude*
- 3.80 – *magna cum laude*
- 3.70 – *cum laude*

All grades accepted toward graduation at Azusa Pacific University are included in the calculation of these honors, including correspondence and transfer courses. All grades not accepted toward graduation at Azusa Pacific (such as remedial courses) will not be included in the calculation.

## Degree Posting Dates

The university posts bachelor's degrees at the end of each session, regardless of the specific date when all work is completed. All degree requirements must be met prior to the posting date. The posting dates are at the end of the regular fall semester (approximately December 20), the end of the regular spring semester (approximately May 5), and the end of each of the summer sessions (see the academic calendar for specific dates). Completed degrees may be posted on the 1st and the 15th of a month other than those listed above in this section. Once the degree is posted, the degree record is complete and final. It can be rescinded only in the case of substantiated error or fraud. A student may not add coursework to the posted degree in order to improve grade-point average or to add minors, concentrations, emphases, or certificates.

## Security Interest in Student Records

A student may neither graduate nor receive any diploma or certificates until all financial obligations (including student loans wherein collections are administered by the university) have been satisfied in accordance with policies described in the Financial Information (p. 963) section of this catalog. Any diploma or certificates shall be retained by the university as a security interest until all such obligations are satisfied. Release of any such security interest prior to or subsequent to any default by the debtor shall not be considered a binding precedent or modification of this policy.

# Major and Minor Policies

## Choosing a Major

Students must declare their academic major by the first day of their fifth semester of full-time academic work by completing a Major Update form (https://www.apu.edu/student-services/registration/#ugforms), which will be routed to the student's academic department for approval. Students who fail to do this will be prohibited from enrolling in classes or making any class schedule changes. Students may add a new major up to the time at which they apply for graduation. If you wish to add a major after applying for graduation, consult your academic records specialist in the Student Services Center (https://www.apu.edu/student-services/) to verify that the major can be completed by the graduation time you selected.

## Changing a Major

Students requesting a change of major must complete the Major Update form. If required, the Student Services Center will route the form to the new department/program to obtain approval. It is recommended that students meet with representatives of the new department. *Note: Some academic majors require an application; check with the department to determine the application process and any associated deadlines.*

## Choosing or Changing a Minor

Students requesting a declaration or change of minor must complete a Minor Update form (https://www.apu.edu/student-services/registration/#ugforms) and obtain approval from the department/program. Some academic minors require an application process. Students may add new minors up to the time at which they apply for graduation. If you wish to add a minor after applying for graduation, consult your academic records specialist in the Student Services Center to verify that the minor can be simultaneously completed with the major degree program.

## Minor Program Policies

Azusa Pacific University offers a wide range of minors to enrich and support the academic experience of undergraduate students. The purpose of a minor is to recognize a course of study that provides general breadth in a discipline as well as depth in some particular aspect of that discipline. The following conditions apply:

1. Minor programs are available to all students in a traditional undergraduate degree program and must be completed simultaneously with a major degree program.
2. Students may not earn a minor in the same discipline in which they are majoring.
3. A minor requires at least 18 units, 12 of which must be 200-level or higher. Some minors are exempt from this upper-division requirement based on the subject matter of the minor; see individual minor requirements. A minimum of 50 percent of the units in the minor must be taken in residency.

4. Courses for the minor may overlap with requirements for the student's major or another minor, but 28 units of the student's major must be unique from the minor. In the case of a second minor, 9 units of the courses taken to fulfill that minor must be unique to that minor and not overlap with courses taken to fulfill another minor.

5. Departments, at their discretion, may substitute no more than 25 percent of the required units defined in the catalog for a given minor program. 100-level courses cannot be substituted for 200-level or higher course requirements.

6. A minimum cumulative 2.0 GPA must be achieved in all courses required for the minor. The sponsoring academic department may require a higher minimum GPA.

7. Departments are free to be more restrictive than these policies as they deem appropriate. For more information, contact the sponsoring academic department for the particular minor.

## Guidelines for the Double Major

Normally, a student meets graduation requirements for a bachelor's degree in one of the major departments, but it is permissible for a student to be granted a bachelor's degree with a maximum of two majors if the following conditions are met:

1. Students must complete all of the required courses listed in the catalog for both majors.
2. Not more than six upper-division courses may be common to both majors (excluding General Education requirements).
3. Twenty-four units must be unique to the second major, of which at least 18 units must be upper division.

## Guidelines for Additional Degrees

Azusa Pacific University will award a maximum of two bachelor's degrees in any combination, such as one BA and one BS, under the following conditions:

1. Candidates for additional degrees must meet the University Residence policy.
2. A minimum of 150 units is required for the two degrees.
3. Students must complete all of the required courses listed in the catalog for both degrees.
4. Not more than six upper-division courses may be common to both degrees (excluding General Education requirements).
5. Thirty units must be unique to the second degree, of which at least 18 units must be upper division.
6. General Education courses completed for one degree may be applied toward the second degree.

# Progress Toward Degree

To make satisfactory progress toward a degree, an undergraduate student must pass a minimum of 24 units per academic year[1] and earn a minimum cumulative grade-point average of 2.0 in work completed at Azusa Pacific University. Specific majors may require a higher GPA to progress toward a degree. Students should refer to their department's policy.

Units for MATH 90, MATH 95, and MATH 99 do not count toward the 120 units required for graduation, but they are permissible for satisfactory progress toward a degree if taken in the first year of enrollment.

The 24 units mentioned above must fall in the following areas:

- General Education requirements (p. 919)
- Major and/or minor
- Elective units to meet the minimum 120 units needed for graduation

[1]   To reach the minimum 120 units needed for graduation in four years, a minimum of 30 units must be taken per academic year.

# Registering for Classes

Registration is the process of choosing and enrolling in courses each semester. Students must be admitted to the university and participate in academic advising prior to registering for fall and spring semesters. Academic advising is provided by the Academic Success Center (https://www.apu.edu/academic-success/) and each academic department for students enrolled in any of that department's majors, to assist students in the advising and registration process.

## Registration

### Current APU Students

Every fall and spring semester, the university sets a specific time for current students to secure their classes for the following semester. The registration appointment schedule is determined by the number of units the student has **completed** at the time of registration (units the student is enrolled in during the current semester do not count for this purpose). Every summer term, the university sets a specific time for current students to secure their summer classes. Registering for summer terms is first come, first served, and no appointments are scheduled. See the Academic Calendars (https://www.apu.edu/calendar/academic/) for specific dates for registration. Students with financial holds, health holds, or disciplinary holds will not be allowed to register for classes until the holds are resolved by the student and removed by the respective department.

### Incoming Students (Freshmen and Transfers)

Registration for new students is supported by the Office of Undergraduate Admissions, the Office of the Registrar, and the Academic Success Center. For details regarding registration for new students, contact an admissions counselor or the Office of Undergraduate and International Admissions (https://www.apu.edu/admissions/undergraduate/).

## Course Modalities and Instructional Activities

Programs are taught in a variety of formats including:

- In-Person: In-person courses deliver their instruction in classrooms on APU campuses. Students and faculty engage during regularly scheduled times in a designated classroom at their campus location. In-person faculty use Canvas to support student learning.
- Online Asynchronous: Online asynchronous courses deliver their instruction in an entirely online format. Students are not required to attend class at scheduled times; rather, they engage in independent learning activities and assignments using Canvas, in accordance with course instructions. Some online asynchronous courses may offer occasional live videoconference meetings; these courses have specific technology requirements such as access to a computing device and internet connectivity.
- Online Synchronous: Online synchronous courses deliver their instruction in an entirely online format. Using videoconferencing technology (e.g., Zoom), synchronous courses require students to meet online in real time for live instruction, group interactions, and/or other learning activities. Synchronous online courses do not meet on campus; rather, students use their personal technology to access the online classroom from off-site locations. These courses have specific technology requirements such as access to a computing device and internet connectivity.
- Hybrid (Formerly "Blended"): At least one class session is held on campus in a physical classroom. Other class sessions are conducted entirely online with no students attending class on campus for those online sessions. The online class sessions may be synchronous or asynchronous. Students must have the technology and internet access required to participate in the online sessions.
- Hyflex (Formerly "Distance Learning"): Class sessions are held on campus in a physical classroom (originating classroom) that is equipped with specialized videoconferencing equipment. Classroom proceedings are transmitted to other campuses (satellite classrooms) that have specialized videoconferencing equipment, and/or to off-campus students who connect using their personal equipment and internet connections.

Some programs may have clinical placements, fieldwork, or practicum assignments at clinics, schools, hospitals, or other APU-approved organizations that meet specific degree program and/or certification requirements; such placements and assignments may need to be completed within the geographic vicinity of Azusa Pacific University's campus or regional locations. Check with your department of interest regarding these requirements as part of your admission process, especially if there is a possibility you may relocate out of the area before you complete your program.

# Add and Drop Periods

The Add and Drop Periods allow students to make changes to their class schedules. It is strongly recommended that students regularly work with their academic advisor in their major department or the Academic Success Center (https://www.apu.edu/academic-success/), and view their academic requirements at home.apu.edu (https://home.apu.edu/) by selecting the Academics menu item and then selecting Academic Requirements or Stellic, to ensure they are on track to meet degree requirements.

- The Add and Drop Periods begin on the first day of classes for each term (fall, spring, summer). The last days to add and drop for each term are separate dates, and are listed in the Undergraduate Academic Calendar (https://www.apu.edu/calendar/academic/). Be advised that the last day to add will precede the last day to drop by several days.
- Students may change their class schedules without penalty during the Add and Drop Periods, but should check with an academic advisor in their major department or the Academic Success Center to ensure that the changes do not affect progress toward their degree.
- It is the student's responsibility to officially drop a class and therefore the action must be student-initiated. The student must drop a class by the deadline to avoid financial obligation to the university or to avoid receiving an *F*, *FN*, or *W* grade. A student will owe tuition and fees for the class unless it is officially dropped by the Last Day to Drop a Class (see the Academic Calendar (https://www.apu.edu/calendar/academic/) for deadlines).

- Merely not attending a class does not automatically remove the class from a student's record. Students who do not initiate the drop, either through the Enrollment tab at home.apu.edu or through submission of an Enrollment Activity (https://www.apu.edu/student-services/registration/#ugforms)

Form (https://www.apu.edu/student-services/registration/#ugforms), by the drop deadline jeopardize their academic record with the possibility of incurring an *FN* grade in a course and will be expected to meet tuition and fee obligations for the class.

- Students may make changes to their schedules online at home.apu.edu. To add a class that requires instructor permission, students must obtain a permission code from the instructor or academic department. Receiving a permission code does not automatically enroll a student in the class. Students may also elect to use the wait list to enroll in closed classes. Students receive an electronic notification if they have been added to a course through the wait list.
- Each student is responsible for reviewing and verifying the accuracy of their schedule before the end of the Add and Drop Periods. It is strongly recommended that every student keep a personal record of their schedule each semester. Classes missed during the Add and Drop Periods are considered "unexcused absences" and are subject to the class attendance regulation (p. 1019) policy as presented in this catalog, the Student Handbook (https://www.apu.edu/student-handbook/), and the course syllabus.
- A drop will not be permitted after the deadline, except in cases of extenuating circumstances—accident or major medical issues, serious personal or family problems, or military transfer. Valid documentation is required. An Enrollment Activity Form (https://www.apu.edu/student-services/registration/#ugforms) with valid documentation may be submitted to the Office of the Registrar (https://www.apu.edu/student-services/registration/) in the Student Services Center for evaluation. The dates of the extenuating circumstances substantiated by documentation must have occurred during the course's session and will determine the authorized drop action date. Without valid documentation, any drop request received after the deadline published in the Academic Calendar will be processed as a withdrawal. It is the student's responsibility to check with Student Financial Services (https://www.apu.edu/student-services/finances/) to determine how an approved late drop or withdrawal may affect his or her financial aid.

# Instructor Drop Policy

An instructor may drop a student from a course if the student has not attended the course by the second class meeting of the semester and has not informed the instructor of his/her intent to remain in the course. In the case of an online course, the instructor may drop a student if he/she fails to engage in any online course activities before the end of the Drop Period (p. 1030). To drop a student from the course, the instructor emails the Student Services Center (https://www.apu.edu/undergraduate-enrollment-services/).

After the Drop Period, removal of a student from a course is considered a withdrawal. Withdrawals must be initiated by the student and follow the course withdrawal policy (p. 1032) and procedure. At the completion of the term, instructors designate a letter grade of *F* in the course for any student who did not withdraw by the withdrawal date, or a letter grade of *FN* (Failure, Nonattending) for any student who did not attend or stopped attending the course. For each term, the deadline to withdraw from a course is listed in the Academic Calendars (https://www.apu.edu/calendar/academic/).

## Administrative Class Drop

Successful completion of course prerequisites is essential for enrollment in subsequent courses that require those prerequisites. Students who fail to pass a prerequisite course and are registered for the subsequent course should contact their academic advisor. A student-initiated drop of a course may be requested; if a student is advised to drop the course, and does not do so through the Enrollment tab at home.apu.edu (https://home.apu.edu/) or by submitting an Enrollment Activity Form (https://www.apu.edu/student-services/registration/#ugforms), the Office of the Registrar may administratively drop the student from the course at the request of the academic department.

# Late Registration

Students who are unable to register during the regular registration period may register late, but late registrants may be severely limited in course selection because many courses may be full. Also, a late-registration fee may be charged (see the undergraduate Cost and Aid (https://www.apu.edu/undergraduate-admissions/cost/) page on APU's website). The last day to register each semester is announced in the Academic Calendars (https://www.apu.edu/calendar/academic/).

# Repeated Courses

In general, students may repeat courses at Azusa Pacific University, though students may not take an APU course more than three times unless specified in the course description. Students must follow all department major policies regarding repetition of courses, as some majors do not allow a major-specific course to be repeated more than once.

All grades will remain on record, but only the most recent attempt, regardless of the grade, will be calculated into the student's grade-point average, whether the course is taken at APU or elsewhere. The units, however, will be counted for credit only once, which may impact financial aid, athletics eligibility, and graduation requirements.

If a repeated course is taken at another institution, the grade and the units of the repeated course will be transferred (providing the course meets the guidelines for transfer).

# Study Load

The maximum study load for students with fewer than 30 units of completed college study is 17 units per semester. The maximum load for students who have completed 30 or more units of college study is 18 units, providing they have maintained a 3.0 or higher grade-point average (GPA). To enroll in more than the maximum unit load per semester, a student must first complete the Request for Additional Units (https://www.apu.edu/student-services/registration/#ugforms). The outcome of the request is determined by the student's department chair, dean, and the Student Services Center (https://www.apu.edu/student-services/registration/). If the request is approved, the final approval is completed through the center, **but it is the student's responsibility to add the course to their schedule before the end of the add/drop period.**

The deadline to submit the Request for Additional Units can be found in the Academic Calendars (https://www.apu.edu/calendar/academic/). Submissions received after the deadline are not guaranteed to be processed by the end of the add/drop period.

# Transfer Work

Azusa Pacific University may accept transfer credit for equivalent courses from schools accredited by regional agencies recognized by the Council for Higher Education Accreditation (CHEA). To see if you can be awarded credit for transfer work, view lists of preapproved courses through Transferology (https://www.transferology.com/); all other courses must be approved through a Transfer Credit and Course Substitution form (https://www.apu.edu/student-services/registration/#ugforms) submitted online, and receive approval prior to registration for the course(s). In addition, students must complete transfer courses (including correspondence courses) with a grade of *C-* or higher. APU's credit is given on a 4.0 scale for transfer work. Quarter units will be converted into semester units; APU grants two semester units of credit for every three quarter units.

The university can give credit for no more than 70 units of coursework from a two-year institution or community college and 90 units from a four-year institution or a combination of both. Students must complete 16 of their final 24 units at APU.

APU may also accept a maximum of 24 units of non-General Education elective credit from institutions accredited by the following faith-related or national organizations:

- Association for Biblical Higher Education (ABHE)
- Association of Theological Schools (ATS)
- Transnational Association of Christian Colleges and Schools (TRACS)
- Distance Education Accrediting Commission
- Accrediting Council for Independent Colleges and Schools
- Accrediting Commission of Career Schools and Colleges

***These units will apply as elective units, and are not applicable toward General Education, major, or minor requirements unless otherwise approved.***

All courses must be baccalaureate level by the credit-granting institution and intended for transfer. Remedial courses and vocational/technical courses are not accepted. Courses taken through online agencies, services, and institutions will not be accepted to APU unless the host university is regionally accredited. Any coursework completed with a grade below a *C-* will not be considered for transfer credit to APU.

Students who reenroll at APU after leaving and spending two or more consecutive semesters at another academic institution may apply those transferable units toward their General Education requirements. Only units transferred at reenrollment will be considered.

For more information on transfer guidelines, see General Education Information for Transfer Students (p. 1059).

# Waivers

Some departments permit waivers of certain courses. Course waivers are processed by the applicable department. Contact the appropriate department for details on specific waiver procedures. Unlike transfer credit, waivers fulfill course requirements only; no units are awarded. Students with waived courses must choose alternate elective courses to satisfy the unit requirements of their degree program.

# Withdrawal from Courses

Students may officially withdraw from a course at any time after the Drop Period (p. 1030) through the 10th week of the semester; to do so, students must secure a Class Withdrawal Form (https://www.apu.edu/student-services/registration/#ugforms) from the Student Services Center (https://www.apu.edu/student-services/registration/) and obtain a signature from their professor. Students will receive a grade of *W* (withdrawal) in that course and the units will be factored into their total units attempted. The *W* grade is recorded on the transcript and appropriate tuition fees are assessed. A

student who never attends or stops attending a course for which he or she is officially registered without following the accepted procedures will receive an *F* or *FN* (failure, nonattending) grade in that course.

# Withdrawal from the University

A student who, for any reason, finds it necessary to withdraw from the university during the course of the semester must do so through the registrar's office, located in the Student Services Center (https://www.apu.edu/student-services/registration/). The student must complete the Leave of Absence or University Withdrawal form (https://www.apu.edu/student-services/registration/#ugforms). Students who fail to comply with these regulations will receive failing grades on their student record and a dishonorable dismissal (see Return of Aid (p. 993)).

For a student who withdraws from the university, or takes a leave of absence, refunds may be given at any time prior to the awarding of course credit, including the full amount of registration fees, tuition, and any miscellaneous charges. On-campus housing fees are also refundable, with the waived 30-day prior notice requirement. A student's six-meal plan will be prorated to reflect the meals a student has eaten.

## Withdrawal from the University after Disciplinary Action

In matters of disciplinary action resulting in suspension or dismissal from the university, a written statement will be sent from the dean of students informing the student of the action. The dean of students will also notify the Registrar's Office regarding the student's status and authorize the proper withdrawal from courses. Dismissed students will not receive tuition refunds except by administrative action.

## Leave of Absence

Undergraduate students may request to take a leave of absence from enrollment in courses for up to two consecutive semesters. Requests for a leave should be initially made to the registrar's office and require university approval. Forms are available online (https://www.apu.edu/student-services/registration/#ugforms) and must be completed prior to the student's absence from the university. Failure to complete the required form or to register at the end of the approved leave will necessitate reapplication to the university and compliance with any applicable changes in admissions, financial aid, and degree requirements as stated in the Readmission and Reenrollment Policy (p. 951).

Any student considering a leave of absence but who is enrolled in a major that requires an application should seek advising with the major department before filing for a leave of absence. Careful academic planning is required, because a leave may change the number of semesters a student will need to complete degree requirements.

Note that Azusa Pacific University leaves of absence do not meet the definition of a Title IV Approved Leave of Absence as defined under 34 CFR 668.22 (d). As such, a student will not be reported to the National Student Loan Data System as attending the university during their leave of absence.

## Military Leave of Absence

A student may request a Military Leave of Absence (MLOA) by contacting the registrar's office, and the request must be completed prior to the student's absence from the university.

1. A copy of the student's military orders, a letter from his/her commanding officer, or other documentation will be required to support the request for military leave.
2. The student may request any length for the leave, provided it does not begin more than 30 days prior to the assignment date and does not conclude more than 90 days after the end date stated on the assignment papers.
3. The return from the MLOA must coincide with a valid semester start date.
4. Students are eligible for readmission if, during their leave, they performed or will perform voluntary or involuntary active-duty service in the U.S. armed forces, including active duty for training and National Guard or Reserve service under federal authority, for a period of more than 30 consecutive days, and received a discharge other than dishonorable or bad conduct.
5. In general, the cumulative length of absence and all previous absences for military service (service time only) must not exceed five years.

### Leave Duration

By default, all students requesting a Military Leave of Absence are granted the longest possible leave without exceeding 90 days beyond their assignment end date. Military and Veteran Services (https://www.apu.edu/militaryeducation/services/) ensures that the MLOA return date coincides with a valid semester start date, and contacts students on Military Leave of Absence within 30 days after the end of their deployment to confirm or adjust the timing of their return as needed.

### Courses in Progress

Students going on military leave are given a *W* grade for all in-progress courses, or dropped from courses if the last day of attendance is before the drop deadline. Such students are considered in Leave status; when they return from their critical military duty, the student is assigned an enrollment appointment time in their online student center (home.apu.edu (https://home.apu.edu)) for the semester they are returning, and is responsible for enrolling in courses via the online student center. Students on military leave return to their studies without incurring financial penalty.

# Professional Undergraduate Academic Policies and Procedures

# Academic Integrity

In addition to cultivating in each student the academic skills that are required for a university degree, Azusa Pacific's mission includes imparting to each student the characteristics of academic integrity that are integral to a Christian education. Therefore, a breach of academic integrity is not merely a private matter between the student and an instructor but an act that is fundamentally inconsistent with the purpose and mission of the entire university. It is the policy of the university that academic work should represent the independent thought and activity of the individual student, and work that is borrowed from another source without attribution or used in an unauthorized way in an academic exercise is considered to be academic dishonesty that defrauds the work of others and the education system. Engaging in any academic integrity violation is a serious offense for which a student may be disciplined or dismissed. It is each student's responsibility to review the policy and follow APU's academic integrity standards.

## I. Introduction

The mission of Azusa Pacific University includes cultivating in each student not only the academic skills that are required for a university degree, but also the characteristics of academic integrity that are integral to a sound Christian education. It is, therefore, part of the mission of the university to nurture in each student a sense of moral responsibility consistent with the biblical teachings of honesty and accountability. Furthermore, a breach of academic integrity is viewed not merely as a private matter between the student and a professor, but rather as an act fundamentally inconsistent with the purpose and mission of the entire university.

This Academic Integrity Policy represents a valuable educational tool for guiding faculty, staff, and students in their efforts to create a sense of community and for expressing the values that are at the core of a Christian university. As members of an academic and spiritual community, we work together to answer difficult questions, often collaborating to answer these questions, to solve problems, and to communicate effectively the knowledge we acquire through inquiry. This document calls attention to the responsibilities we have to one another in being faithful in our attempts to represent others' views, and it helps us to understand the responsibilities we have toward one another, students and faculty alike, and toward academic scholarship, as we endeavor to uphold the moral standards of our community.

## II. Academic Integrity Pledge

### A. Knowledge and Education of Responsibilities

A student has the responsibility to become familiar with the Academic Integrity Policy as well as the philosophy behind it. The university is a place where moral integrity is learned and emphasized as a critical component of an academic education. Personal integrity and community responsibility are a core part of university life.

1. As a precondition for admission to the university, students must sign a pledge to the community to uphold the Academic Integrity Policy in all academic affairs at Azusa Pacific University. The pledge is as follows:

"As a student at this Christ-centered university, I will uphold the highest standards of academic integrity. I will not lie, cheat, or steal in my academic endeavors, nor will I accept the actions of those who do. I will conduct myself responsibly and honorably in all my academic activities as an Azusa Pacific University student."

2. Students should familiarize themselves with the directives given by the professor, whether verbally or in writing, in each class concerning what is and is not permitted, especially in matters of group projects, lab reports, and the attribution of research to sources (in-text citing, footnoting, a complete bibliography), including the Internet and its applications.

## III. Academic Integrity Responsibilities: Student

### A. Academic Behavior: Personal

1. All work submitted for credit, including exams, is accepted as a student's own work, unless otherwise understood and approved by the professor.

2. Students may not, without proper citation and approval of the professor, submit work that has been copied, wholly or partially, from another student's paper, notebook, or exam. Nor may students without proper citation submit work which has been copied, wholly or partially, from a book, article, essay, newspaper, the internet or any other written, printed, or media source, whether or not the material in question is copyrighted.

3. Work that paraphrases any written or printed media material without acknowledgment may not be submitted for credit. Ideas from sources such as books, essays, multimedia (like text, images, audio, video, animation), social media, or artificially intelligent (AI) generated materials, may be incorporated in students' work as starting points, governing issues, illustrations, and the like, but in each case the source must be cited.

4. Any and all online materials students used for a paper are also governed by plagiarism rules. Students need to cite all electronic sources as well as printed and other sources.

5. Students may not use, without prior permission, generative artificial intelligence (AI) tools for work submitted for credit; any and all use of such tools must be acknowledged and cited in accordance with item (4) above.

6. Students may not use notes or other forms of assistance on a test, such as videos, illustrations, artificial intelligence (AI) generated materials, and the like, unless explicitly approved by the professor, nor may they provide such aid to other students.

7. Students may not use or submit work that has been generated from any form of a paid-for or free writing service.

8. Students may not submit any work for credit that has been used to fulfill the requirements of another course previously taken or currently in progress at this or any other institution without obtaining permission of the professor in advance.

Students must be aware that violations are not limited to the actions prohibited in the guidelines above. Any kind of dishonesty related to academics is a violation. Other examples of academic dishonesty, apart from giving or receiving unauthorized aid as described by the professor in each course, include but are not limited to:

a) Listing false reasons for taking a make-up examination.

b) Falsifying data.

c) Falsely representing oneself as another student or using another student's identifying information to complete academic work or complete academic assessment tests, attend university events, or gain access to and interact on the internet representing another party.

d) Falsifying grade information or course completion information.

e) Participating in activities that permit another student to engage in an academic integrity violation.

f) Purposefully concealing information about a known violation.

g) Misrepresenting oneself as being cleared to participate in commencement.

## B. Academic Behavior: Collaborative

1. Working on material with other students is of great pedagogical value, and this policy should not be construed as discouraging such work. Unless such consultation is forbidden by a professor, students may work with other students on assignments and present ideas and even written work to their peers for comments and criticism. Each student, however, should be guided by the following:

a) If a professor explicitly permits or forbids certain collaborative work with other students, such work is permissible or forbidden as the professor indicates. A professor's explicit guidelines take precedence in determining whether certain actions are permissible.

b) It is a presupposition that ideas and expressions in a submitted paper or report originate from the writer unless otherwise indicated. Consequently, if ideas or expressions in written work originate from another, whether the person is an author or fellow student, that source should be cited in an endnote or footnote. If an idea arises from the common effort of two or more students in conversation, this fact should be cited.

c) If a student is unclear about whether certain forms of consultation or common work are acceptable or what the standards for citation are, the student is responsible for consulting his or her professor.

## C. Responsible Actions

1. Each student, as an integral member of the academic community, must make the ethical and moral commitment not to act dishonestly and not to tolerate academic dishonesty on the part of other students. If a student witnesses a violation of the Academic Integrity Policy or otherwise has reason to believe that a violation has occurred, the student may either urge that person to report himself or herself to the professor or discuss this allegation with the professor of the course. In situations where a student has knowledge of a violation, he or she is expected to report that violation to a professor, department chair, or dean in a timely manner.

## D. Opportunities to Serve on a Review Committee

1. Students may be able to participate in investigating and determining responsibility in alleged cases by serving on an academic integrity review committee (see Section V.D.2). Any student found responsible for a violation of the Academic Integrity Policy will immediately forfeit his or her eligibility to serve on a review committee.

# IV. Academic Integrity Responsibilities: Faculty

## A. Knowledge and Education of Responsibilities

1. All members of the faculty are required to become aware of the policies and procedures as outlined in the Academic Integrity Policy.

2. Deans and department chairs are responsible for introducing new faculty to the policy. The orientation procedures should be done, when possible, prior to faculty activities in the classroom. The faculty member in charge of a particular course is responsible for educating and establishing guidelines for any teaching assistants in the course.

## B. Academic Behavior: Classroom Expectations

1. Faculty are expected to include a written statement in their course syllabus stating the course expectations for academic behavior, including the consequences of violations of those standards. This statement may be a referral to this policy or may elaborate on additional guidelines and expectations of the faculty.

2. Faculty are expected to explain the conditions under which students are permitted to share their work, for example, outlines that can form the basis of an exam or paper, take-home exams, lab reports, and in-class examinations. Faculty should also offer guidelines when asking students to work in teams or groups, for example, when inviting students to collaborate on problem sets, or to develop computer programs, either inside or outside of class.

3. Faculty are encouraged to distribute a handout with information about what constitutes plagiarism when assigning writing in their courses, keeping in mind the goal of teaching students how to use and document sources appropriately.

4. Faculty are encouraged to make provisions for early submission of drafts of written work so that students can refine their documentation skills before the final due date of the assignment.

5. Faculty are encouraged to take note of the guiding principles articulated in Section V to reinforce these principles and possible sanctions (see Chart A) in their discussions of the Academic Integrity Policy with students, and to explain how academic integrity expectations apply to the work in their class.

## C. Academic Environment

1. Each faculty member will strive to establish an environment which supports the evaluation of students in a fair and reasonable manner. The purpose of this policy is not to test students' ability to perform in a highly competitive and stressful environment, but to help them develop habits of moral character and to understand and practice academic integrity as a student and as a global citizen.

2. Faculty hold the primary responsibility for maintaining the above "fair and reasonable" learning environment. Faculty members will usually be present in classrooms during examinations, fostering an environment which does not create temptations for dishonest action.

## D. Responsible Actions

1. Any person with the responsibility to teach or assist in a course, or to direct or provide leadership of an academic or co-curricular activity, will not tolerate dishonesty.

2. Faculty are expected to provide written guidelines to the students in their course about classroom expectations for academic integrity. Reinforcing academic integrity expectations prior to student completion of key assignments is recommended.

3. Faculty are expected to follow standard procedures to notify the student in cases where they suspect academic dishonesty has occurred and to report the violation and sanctions given (see Section V.B.5).

# V. Procedures for Handling Alleged Violations

## A. Procedure

1. If the faculty suspects an academic violation has occurred, the faculty member should gather information to support or refute their concerns. The faculty may also choose to consult department colleagues, including the program director and/or department chair, to review the evidence, provide additional interpretation of the evidence, and/or check coursework from other current or past courses for evidence of further academic violations.

   a) If it is determined that the infraction appears to only affect one course, the faculty should discuss the situation with the student(s) suspected of violating the policy. If this discussion and the evidence gathered result in the decision that the initial suspicion was unjustified, no additional action will be taken.

   b) If evidence of academic integrity violations across multiple courses is found, the program director/department chair may then choose to meet with the student, either along with or in lieu of the affected faculty member(s), at his/her discretion. If this discussion and the evidence gathered result in the decision that the initial suspicion was unjustified, no additional action will be taken.

2. If there is still a reason to suspect an academic integrity violation, the faculty member shall assign a sanction as appropriate according to the syllabus for that class and the standards of the discipline and the department.

3. The faculty member will record the violation with the Office of the Provost designee. Online reporting forms are available on the Provost website. The Office of the Provost designee will keep a record of the violation and send a letter to the student confirming their violation. Copies of the form and the letter will be sent to the faculty member, the program director/department chair, and a student affairs designee.

4. Alleged violations of an academic nature not directly connected to one class may be referred to the Office of the Provost designee by APU faculty or administrators for subsequent action by a review committee (see Section V.D).

## B. Guiding Principles in Assigning Sanctions

1. If a student is found to have violated the Academic Integrity Policy, the faculty must decide on the sanction (see Chart A). The faculty should take into consideration the syllabus of the course and the severity of the offense. The faculty, when assigning a sanction, may also consider as a mitigating factor the degree to which the student was honest and forthcoming regarding the violation, or any other evidence of sincere contrition. The faculty may take into account sanctions invoked in previous cases of a similar nature and should consult the Office of the Provost designee for this information.

2. Additional sanctions (e.g., academic probation for the major) may be applicable to students in disciplines where such action is specified in student handbooks (e.g., Nursing, Social Work).

3. Discovery of an academic integrity violation provides the faculty member an opportunity to engage in discussions with the student about expectations of appropriate, ethical, professional behavior using a Christian worldview. Sanctions, although given as a disciplinary action, can also be used to ensure the student engages in activities to improve their practices and prevent subsequent recurrences. For example, sanctions may include having the student required to go to the Writing Center for consultation on all future course papers, or having the student rewrite the assignment (even though they will receive no grade for the work). Faculty need to clearly articulate to the student the consequences of any failure to complete the agreed upon sanctions.

4. Based upon the severity and frequency of the violation(s) suspension or dismissal from the university may be the assigned sanction (see Chart A).

   a) Academic integrity suspension is separation from the university for at least one semester. The student is eligible to apply for readmission after dismissal to Azusa Pacific University, but readmission after dismissal is not automatic.

   b) Academic integrity dismissals are permanent separations from the university with no opportunity to apply for admission after dismissal.

5. The University Registrar must be notified by the Office of the Provost designee and dean of an academic integrity suspension or dismissal to place proper holds on student accounts.

   a) The University Registrar shall be copied in all letters to the student regarding suspension or dismissal.

   b) The letters are archived in the student's permanent file.

## C. Student Appeals Procedure

1. If the student feels that the sanction is unwarranted or unjust due to new information, procedural error, or an excessive or unjust penalty, he or she must utilize a process of appeal as described in the academic catalog section: Undergraduate Student Grievance and Appeals Procedure. The appeal procedure begins with the student initiating a meeting with the professor of record, then meeting with the chair of the department in which the infraction occurred, and finally meeting with the dean of the school in which the infraction occurred, if warranted. For all steps in the grievance and appeal process, refer to the academic catalog at catalog.apu.edu.

2. If, after completing step 1 (above), the student continues to feel that the final sanction is unwarranted or unjust due to new information, procedural error, or an excessive or unjust penalty, a formal grievance can only be filed after the process above has taken place and within fifteen (15) business days from the date of the Office of the Provost's letter confirming the violation.

3. A formal written grievance may be submitted to the Office of the Provost designee that includes the following:

   a) A statement addressing how the appeal meets one or more of the three following criteria necessary for a formal appeal:

      • New information or evidence exists that was not considered in the original appeal.

      • An error was made in determination of the academic integrity violation (must have evidence to prove this error).

      • Standards different from those established in written course, department, school, college, or university policies, if specific policies exist, were used in assigning the academic integrity violation.

   b) A description of the outcome of the informal discussion process as described in Section V.C.1.

c) Any relevant documents the student would like to have reviewed as part of the appeal process.

d) A copy of the course syllabus and assignment descriptions.

## D. Convening a Review Committee

1. Upon receiving a formal written grievance from the student, the Provost designee will appoint a review committee. Each review committee shall include two faculty members, two undergraduate students, and the Office of the Provost designee. The Office of the Provost designee will serve as the review committee chair for all grievance hearings; a faculty member will serve as chair for all hearings related to violations not directly connected to one class. Student appointees must be approved by the Vice President for Student Affairs or his or her designee.

2. The committee chair will schedule a hearing as soon as possible, with at least ten (10) business days' notice. The chair will also notify the student of the names of the review committee members with a request that, if the student has any reason to believe any member is biased, he or she should notify the chair immediately. The chair shall also inform the student(s) under suspicion that he or she can bring to the hearing a member of the university community (faculty, staff, or student) for support. The support person must be approved by the committee chair and will not participate in the proceedings. Legal counsel is not permitted. Family members are not permitted. The student may invite witnesses to be called in during the review proceedings. The student and faculty must disclose which witnesses they will bring and the topics the witnesses will address, as well as what information or documents they may bring, if any.

3. If any member of the review committee has a relationship with someone involved in the case which may compromise his or her objectivity, they should recuse themselves. The Office of the Provost designee will then appoint new members to the committee.

4. Review committees ordinarily do not meet during the final examination period. However, if the student who is suspected of a violation is a graduating student during his or her final semester, the review committee must make every reasonable effort to meet prior to graduation.

5. Except for the required notifications as set forth throughout this policy, all review committee proceedings are to be strictly confidential. Information regarding such proceedings is to be disclosed only on a legitimate need-to-know basis, and as required by law. If the student provides written consent, and if a parent or guardian of the student under suspicion inquires about the suspected violation, the chair of the review committee may describe the general nature of the suspected violation and the procedures defined in this policy. However, the chair should not engage in a detailed discussion of the issue.

6. Before the hearing, committee members should not discuss the allegation or the evidence with the student suspected of the violation. If a student suspected of a violation has questions about the Academic Integrity Policy and the procedures of the hearing, he or she should contact a faculty member who is not involved in the review of the student's case. The consulted faculty member should not discuss the evidence against the student under suspicion nor make any recommendation about how the student should respond to the suspicion of a violation but should only discuss the hearing procedures and principles of the policy.

7. The hearings are administrative and concern internal university affairs; accordingly, the hearings are informal and are not subject to formal rules of civil procedure or evidence. The hearings are not open to the public, nor does the student under suspicion (or any other individual involved) have the right to legal counsel at the hearing.

8. The chair of the review committee should open the hearing by briefly presenting the allegations. Next, the professor of the course and/or any other individual(s)reporting the allegations should present their evidence of the alleged violation. The student suspected of a violation may question the professor or other witnesses concerning the evidence, as may the review committee members. The student may then present his or her own witnesses, including his or her own testimony, and any other evidence. The review committee members may then question the student under suspicion and any of the other invited witnesses. Witnesses called by the student and the committee will testify individually and will not be present during the testimony of other witnesses.

9. At the end of this process, the professor and any other witnesses are excused. At this point, the student has the opportunity to respond further to the charges if he or she desires by making a statement to the committee members. The student is then dismissed, and the review committee members deliberate.

10. After deliberation, the review committee decides, by a majority vote, whether the evidence supports a finding that the student under suspicion more-likely-than-not violated the Academic Integrity Policy or whether the evidence does not support such finding, in which case, the charges are dismissed. In the case of a tie, the committee chair's decision prevails.

11. If it is found that the evidence does not support a finding that a violation has occurred, the chair of the review committee notifies the student and the professor in writing of this decision. This notification should, if possible, be sent within two days of the hearing.

12. If a student is found to have violated the Academic Integrity Policy, the review committee must decide to uphold the sanction as given by the faculty member or assign a different sanction that will supersede the sanction from the faculty member. The committee should take into consideration the syllabus of the course and the faculty's recommendation on the reporting form. In addition, the committee should be guided by the following broad distinction between offenses and sanctions.

## E. Notification Process

1. If the review committee decides a student is responsible for an offense and assigns a sanction, the chair of the review committee notifies the student in writing of the committee's decision and of the sanction within one week of the hearing. A copy of the letter is sent by the Office of the Provost designee, to the dean of students, the department chair of the student's major, and the professor of record. The letter will note that an additional violation of the Academic Integrity Policy will normally result in suspension or dismissal from the university.

2. The professor of the course, upon receipt of the letter from the review committee chair, will execute the sanction that the review committee has determined to be appropriate. The chair then sends all documents relevant to the case to the Office of the Provost designee.

3. If the semester's grade must be submitted before the necessary hearing procedures and appeals are completed, an IP (in progress) grade will be authorized by the Office of the Provost designee.

4. A finding of responsibility for academic dishonesty with regard to a particular course will void any earlier withdrawal from that course. A grade of F in a course assigned due to an academic integrity violation will preclude a subsequent withdrawal from that course. A finding of responsibility for academic dishonesty may be considered in academic probation extensions and appeals.

# VI. Records of Violations and Repeated Violations

## A. Records

1. The Office of the Provost designee will maintain records of all academic integrity violations. These records are used to keep account of repeated student offenses, provide aggregated data of academic integrity issues at the university, and provide data to departments on campus that need information about violations. The Office of the Provost designee will retain such records for seven (7) years after the student's graduation or separation from the university and will reveal their contents to others only with the written approval of the student or if required by law. A copy of the letter documenting a violation will also be kept in the student's Student Affairs file.

2. When the Office of the Provost designee receives a report that an academic integrity policy violation has been established, that office checks the files to determine if the student has a previous violation. If so, the Office of the Provost designee will forward the violation records to the dean of the school of the student's major who may assign a further sanction for the repeated offense. In the case of a student with an undeclared major, the Office of the Provost designee may assign a further sanction. The standard sanction for a repeated offense is suspension or dismissal from the university.

3. It is the responsibility of the Office of the Provost designee, upon recommendation of the dean of the student's major in all cases but undeclared students, to notify the student, the dean of the school/college in which the violation occurred (if this differs from the school/college of the student's major), the dean of students, and the registrar of the suspension or dismissal of a student.

## B. Admission After Dismissal

1. In order to be admitted to the university after dismissal, a suspended student must submit an application which must be approved by the Office of the Provost designee and the dean of the school or college to which the student wishes to be admitted, as well as other university offices, as is otherwise required.

2. In the case of suspension, a student's transcript will read A*cademic Integrity Suspension*; and in the case of dismissal, it will read *Academic Integrity Dismissal.*

# VII. Chart A – Types of Violations and Possible Sanctions Reference

## Defining Minor and Major Violations

### Minor Violation

• A minor violation is recognized by the faculty as a violation of concern, but not of the level of severity to warrant the student's automatic failure of the course.

• See Level I and Level II

### Major Violation

• A major violation is recognized by the faculty as a violation of significant concern, warranting at minimum the student's automatic failure of the course.

• See Level III and Level IV

# Level I

## Description

Level I violations may occur because of inexperience or lack of knowledge of principles of academic integrity on the part of persons committing the violation. These violations address incidents when intent is questionable and are likely to involve a small fraction of the total course work, are not extensive, and/or occur on a minor assignment.

Registering a Level I violation provides the opportunity for the students to receive further education of academic integrity policies and the importance of academic integrity to the academy.

Repeated offenses of this type would be considered a Level II violation

## Examples of Violations

- Working with another student on a laboratory or other homework assignment when such work is prohibited.

- Failing to footnote or give proper acknowledgment in an extremely limited section of an assignment.

- Sharing your work with another student that is then submitted by that student as their own work.

- Seeing a violation and not informing a faculty member.

## Examples of Sanctions

Level I violations should lead to one or more of the sanctions listed below, with the type and number based on the faculty's discretion.

- Reduction or no credit given for the original assignment (not to include a zero for the assignment in question but may entail dropping the grade from an average or allowing the student to re-do and resubmit the assignment with or without an additional requirement that is graded).

- An assigned paper or research project on a relevant topic.

- A make-up assignment at a more difficult level than the original assignment.

- Required attendance in a noncredit workshop or seminar on ethics or related subjects.

- Required consultation with the Writing Center (including proof of attendance).

- Required submission of future papers through plagiarism detection software.

- Required submission of a draft paper and meeting with the instructor.

- Requiring that all future take-home tests are proctored for this student.

# Level II

## Description

Level II violations are breaches of academic integrity that are more serious or that affect a more significant aspect or portion of the coursework compared with Level I violations.

## Examples of Violations

- Repeated offense of Level I violation.

- Quoting directly or paraphrasing, to a moderate extent, without acknowledging the source.

- Submitting the same work, or major portions thereof, to satisfy the requirements of more than one course without permission from the instructor to whom the work is submitted for the second or subsequent time.

- Using data or interpretive material for a laboratory report without acknowledging the sources or the collaborators. All contributors to the acquisition of data and/or to the writing of the report must be acknowledged.

- Failure to acknowledge assistance from others, such as help with research, statistical analysis, computer programming, or field data collection, in a paper, examination, or project report.

- Sharing one's own work with another person when prohibited by the instructor.

- Failing to acknowledge the use of AI and claiming work as your own in the form of text, imagery, graphs, charts, or any resource provided by AI. Examples include but are not limited to: Copying or paraphrasing, plagiarizing, altering text to look as one's own, claims of authority or legitimacy, or fabricating or duplicating sources provided by AI.

## Examples of Sanctions

Level II violations should lead to a failing grade on the assignment. In addition to a failing grade, other sanctions are recommended to provide a learning opportunity for the student.

- Required participation in a noncredit workshop or seminar on ethics or academic integrity.

- A makeup assignment that is more difficult than the original assignment.

- Voiding any credit for the original assignment and requiring the student to complete another equivalent assignment to receive credit and verify knowledge.

- Required consultation with the Writing Center (including proof of attendance).

- Required submission of future papers through plagiarism detection software.

- Required submission of a draft paper and meeting with the instructor.

- Requiring that all future take-home tests are proctored for this student.

# Level III

## Description

Level III violations are those that go beyond Level I or II violations and that affect a major or essential portion of work done to meet course requirements, or involve premeditation, or are preceded by one or more violations at Levels I and/or II.

## Examples of Violations

- Repeating Level II violations (note that three Level II violations equate to one major violation – see above).

- Presenting the work of another as one's own. This includes having another person complete online coursework and presenting it as one's own.

- Copying on examinations.

- Plagiarizing major portions of a written assignment.

- Acting to facilitate copying during an exam.

- Using prohibited materials, e.g., books, notes, or calculators, during an examination.

- Conspiring before an exam to develop methods of exchanging information and implementation thereof.

- Altering examinations for the purposes of regrading.

- Acquiring or distributing an examination from unauthorized sources prior to the examination.

- Submitting purchased materials such as a term paper or other materials.

- Removing or damaging posted or reserved material, or preventing other students from having access to the material.

- Fabricating data by inventing or deliberately altering material. Fabrication includes citing "sources" that are not, in fact, sources.

- Using unethical or improper means of acquiring data.

- Completing academic work for another student to submit as their own.

## Examples of Sanctions

Level III violations should lead to one or more of the following sanctions:

- Failing grade for the course.

- Possible suspension from the university for one semester (see suspension policy in the Undergraduate Catalog).

- Possible dismissal from the university (see dismissal policy in the Undergraduate Catalog).

### Level IV

#### Description

IV violations represent the most serious breaches of intellectual honesty.

#### Examples of Violations

- Repeating a Level III violation.

- Committing a violation of academic integrity after returning from suspension for a previous violation of academic integrity.

- Committing a violation of academic integrity that breaks the law or resembles criminal activity (such as forging a grade form, stealing an examination from a professor or from a university office, buying a stolen examination, falsifying a transcript to gain access to the university or its resources, or altering the record of work done at the university).

- Having a substitute take an examination or taking an examination for someone else.

- When completing a significant scholarly project (e.g., research, a senior thesis, a capstone project), fabricating evidence, falsifying data, quoting directly or paraphrasing without acknowledging the source, and/or presenting the idea of another as one's own.

- Sabotaging another student's work through actions designed to prevent the student from successfully completing an assignment.

#### Examples of Sanctions

Level IV violations should lead to the following sanction:

- Permanent dismissal from the university

## VIII. References

The policy was originally adapted with permission from the Notre Dame Honor Code (2007).

Cumberland University Academic Integrity Violations and Recommended Sanctions (http://cumberland.m.smartcatalogiq.com/en/2018-2019/University-Policy/Academics/Academic-Affairs/Academic-Integrity-Violations-and-Recommended-Sanctions/) (accessed Spring 2017)

University of South Florida Academic Integrity Violations of Professional and Ethical Standards (https://www.usf.edu/undergrad/students/ethics-integrity.aspx) (accessed Spring 2017)

# Academic Probation and Dismissal

Satisfactory progress toward an undergraduate degree is required. Professional students must maintain a cumulative GPA of 2.0 in classes required for the major. In the event that the GPA drops below the minimum 2.0, students will be placed on academic probation and given one enrollment period to raise their GPA to the satisfactory level. Exceptions to this policy may be noted in program descriptions.

A student may be disqualified from further work at APU if a 2.0 cumulative GPA is not maintained. Dismissal actions are posted on a student's transcript.

# Change of Program

Admission to a professional program at Azusa Pacific University is program specific. If a student changes plans and wants to enroll in a program other than that to which he or she was accepted, the student must submit a Change of Program Form (https://www.apu.edu/graduateprofessionalcenter/download/) with the Office of Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/). International students must contact International Student Compliance (https://www.apu.edu/international/compliance/), located in the Student Services Center.

A program representative will contact the student if further documentation and materials are required for this change of program. No credit toward the new degree program will be granted before written program acceptance has been secured.

Declarations or changes of minors or concentrations require submission of a Professional Minor/Concentration Request Form (https://www.apu.edu/student-services/registration/#gradproforms), rather than a Change of Program Form.

# Classification of Professional Students

A full-time professional student may be defined as one taking a minimum academic load of 12 units each semester. Azusa Pacific University uses the following system, based on total units earned, for student classification:

| Freshman | 0-29 units |
| --- | --- |
| Sophomore | at least 30 units |
| Junior | at least 60 units |
| Senior | at least 90 units |

Senior classification does not ensure graduation; all requirements for a degree must be satisfactorily met in order to graduate.

Freshmen and sophomores have lower-division standing, juniors and seniors have upper-division standing.

# Credit by Examination

Credit may be earned by professional students through competency examinations. There are three examinations recognized by the university: Advanced Placement (AP) tests (p. 942), the College Level Examination Program (CLEP) (p. 1114), and the International Baccalaureate (IB) program (p. 944).

Credit is granted to professional students who score a three or higher on an AP test, meet the cut-off level (individually determined by each APU department or school) in CLEP subject area tests, or earn a five or higher on the IB higher-level exams (see the aforementioned links).

There is no maximum number of credits that can be accumulated from these tests. Credit received by examination is tuition-free and applies toward the total requirement for graduation from the university.

College credit earned by a student still in high school may be transferred to Azusa Pacific University, provided that the course was taken at an accredited college. An official college transcript must be sent from the college to Azusa Pacific in order for such coursework to be evaluated for transfer of credit. Requirements for transfer applicants apply.

Challenge exams for professional students are available only in the School of Nursing (p. 598) according to specific guidelines.

No CLEP credit is allowed in a student's final semester.

# Declaring or Changing a Minor

Professional undergraduate students requesting a declaration or change of minor or concentration must complete a Professional Minor/Concentration Request Form (https://www.apu.edu/student-services/registration/#gradproforms) and obtain approval from the department/program. Students may add minors or concentrations up to the time at which they apply for graduation. If you wish to add a minor or concentration after applying for graduation, consult your academic records specialist in the Office of the Registrar (https://www.apu.edu/student-services/registration/) to verify that the minor can be simultaneously completed with the major degree program.

# English Proficiency in the Classroom

A student's ability to speak English with clear pronunciation is an important part of a university education. It is assumed that the professional student's spoken English will be at a high enough level to communicate and participate completely in classes. If, while in classes, it is determined that the student's ability to communicate orally and write in English is below the necessary standard, an instructor may refer him/her to the department chair, who may require him/her to enroll in a noncredit program at the student's expense. This program will enable the student to raise his/her English communication ability.

# Enrollment

Students will receive academic credit only for courses in which they are officially enrolled. Student-initiated enrollment is mandatory. Students are not permitted to attend courses in which they are not enrolled. Enrollment deadlines are published in the Academic Calendars (https://www.apu.edu/calendar/academic/). Students are expected to enroll online or submit an Enrollment Activity Form (https://www.apu.edu/student-services/registration/#gradproforms) by the returning students' registration due date.

Students seeking to enroll in graduate courses while enrolled as either an undergraduate or professional student should follow the Graduate Courses Taken by Undergraduate Students enrollment policy listed in the catalog's undergraduate (p. 1025) and professional (p. 1046) sections, respectively. Failure to follow these policies, and enrolling in graduate courses through any other method, will result in an administrative withdrawal of graduate courses.

- Adding and Dropping Classes (p. 1045)
- Administrative Withdrawal (p. 952)
- Auditing (p. 1046)
- Course Modalities and Instructional Activities (p. 1046)

# Adding and Dropping Classes

Students may add and drop classes without financial penalty until the Last Day to Register, Add/Drop Classes, or Submit Independent Study Proposals. Professional students may do this online at home.apu.edu (https://home.apu.edu/) or by submitting an Enrollment Activity Form (https://www.apu.edu/student-services/registration/#gradproforms). Students may view their academic requirements on home.apu.edu by selecting the Academics menu item and then selecting Academic Requirements, to ensure they are on track to meet degree requirements.

It is the student's responsibility to officially drop a class and therefore the action must be student-initiated. The student must drop a class by the deadline to avoid financial obligation to the university or to avoid receiving an *F*, *FN*, or *W* grade. A student will owe tuition and fees for the class unless it is officially dropped by the Last Day to Add or Drop a Class (see the Academic Calendars (https://www.apu.edu/calendar/academic/) for deadlines).

Merely not attending a class does not automatically remove the class from a student's record. Students who do not initiate the drop, either through the Enrollment tab at home.apu.edu or through submission of an Enrollment Activity Form, by the drop deadline jeopardize their academic record with the possibility of incurring an *FN* grade in a course and will be expected to meet tuition and fee obligations for the class.

International students must obtain approval from International Student Compliance (https://www.apu.edu/international/compliance/), located in the Student Services Center, to add or drop a class.

Following the deadline to drop a class, a student must withdraw according to policies and procedures as stated in the Withdrawal (p. 1062) section of this catalog.

A drop will not be permitted after the deadline, except in cases of extenuating circumstances due to accident or major medical issues, serious personal or family problems, or military transfer. Valid documentation is required. An Enrollment Activity Form (https://www.apu.edu/student-services/registration/#gradproforms) with valid documentation may be submitted to the Office of the Registrar (https://www.apu.edu/student-services/registration/) in the Student Services Center for evaluation. The dates of the extenuating circumstances substantiated by documentation must have occurred during the course's session and will determine the authorized drop action date. Without valid documentation, any drop request received after the deadline published in the Academic Calendar will be processed as a withdrawal. It is the student's responsibility to check with Student Financial Services (https://apu.edu/graduateprofessionalcenter/sfs/) to determine how an approved late drop or withdrawal may affect his or her financial aid. Also, see the Withdrawal (p. 1062) section of this catalog.

## Administrative Class Drop

Successful completion of course prerequisites is essential for enrollment in subsequent courses that require prerequisites. Students who fail to pass a prerequisite course and are registered for the subsequent course should contact their academic advisor. A student-initiated drop of a course may be requested; if a student is advised to drop the course, and does not do so through the Enrollment tab at home.apu.edu (https://home.apu.edu/) or by submitting an Enrollment Activity Form (https://www.apu.edu/student-services/registration/#gradproforms), the Office of the Registrar may administratively drop the student from the course at the request of the academic department.

# Administrative Withdrawal

Nonenrollment for a period of three consecutive terms (e.g., fall, spring, and summer) will result in administrative withdrawal from the university. See the Academic Calendars (https://www.apu.edu/calendar/academic/) for complete term and session information. An administrative withdrawal does not change a student's posted grades or account balance; neither does it generate a refund of any kind. Reapplication and department reacceptance are required to enroll again. Students who are reaccepted will be held to the current catalog requirements, which may entail additional degree requirements. The initial enrollment in the degree program will determine the beginning of the time limit for completing the degree, where the length of the time limit (p. 1054) is determined by the current catalog. In rare instances, extensions may be requested by petition. Granting of such a petition may entail additional degree requirements and/or repeating of courses that have expired.

# Auditing

A qualified student may apply for permission to audit a course. The student must meet the regular university entrance requirements and pay the audit per-unit tuition rate. Students may not change their audit classification to obtain credit after the Last Day to Add or Drop Classes, or change from credit to audit after the Last Day to Withdraw from Classes. See the Academic Calendars (https://www.apu.edu/calendar/academic/) for dates.

Students must submit an Enrollment Activity Form (https://www.apu.edu/student-services/registration/#forms) to the Office of the Registrar (https://www.apu.edu/student-services/registration/) in order to enroll in a course for audit. The word AUDIT must be clearly written in the middle of the chart section of the Enrollment Activity Form and approval from the department offering the course must be indicated.

# Course Modalities and Instructional Activities

Professional undergraduate programs are taught in a variety of formats, including:

- In-Person: In-person courses deliver their instruction in classrooms on APU campuses. Students and faculty engage during regularly scheduled times in a designated classroom at their campus location. In-person faculty use Canvas to support student learning.
- Online Asynchronous: Online asynchronous courses deliver their instruction in an entirely online format. Students are not required to attend class at scheduled times; rather, they engage in independent learning activities and assignments using Canvas, in accordance with course instructions. Some online asynchronous courses may offer occasional live videoconference meetings; these courses have specific technology requirements such as access to a computing device and internet connectivity.
- Online Synchronous: Online synchronous courses deliver their instruction in an entirely online format. Using videoconferencing technology (e.g., Zoom), synchronous courses require students to meet online in real time for live instruction, group interactions, and/or other learning activities. Synchronous online courses do not meet on campus; rather, students use their personal technology to access the online classroom from off-site locations. These courses have specific technology requirements such as access to a computing device and internet connectivity.
- Hybrid (Formerly "Blended"): At least one class session is held on campus in a physical classroom. Other class sessions are conducted entirely online with no students attending class on campus for those online sessions. The online class sessions may be synchronous or asynchronous. Students must have the technology and internet access required to participate in the online sessions.
- Hyflex (Formerly "Distance Learning"): Class sessions are held on campus in a physical classroom (originating classroom) that is equipped with specialized videoconferencing equipment. Classroom proceedings are transmitted to other campuses (satellite classrooms) that have specialized videoconferencing equipment, and/or to off-campus students who connect using their personal equipment and internet connections.

Some programs may have clinical placements, fieldwork, or practicum assignments at clinics, schools, hospitals, or other APU-approved organizations that meet specific program degree and/or certification requirements. Such placements and assignments may need to be completed within the geographic vicinity of APU's main campus or regional locations. Check with your department of interest regarding these requirements as part of your admission process, especially if there is a possibility you may relocate out of the area before your program is completed.

# Course Tutorial

Course tutorial study deals with the replacement of a catalog course in terms of units, content, syllabus, outline, testing, and grading basis.

In general, a course tutorial cannot substitute for a course that is offered on a regular basis, but it may occasionally be utilized to fulfill a course requirement when a course is canceled because of low enrollment. The actual course number, instead of an independent study number, is recorded on the student's permanent academic record.

Course tutorial units do not count toward the maximum 9 independent study units allowed in a professional degree program.

An Independent Study/Course Tutorial Application (https://www.apu.edu/student-services/registration/#gradproforms) and proposal must be submitted to the Office of the Registrar (https://www.apu.edu/student-services/registration/) by the Last Day to Add or Drop Classes or Submit Independent Study Proposals. These deadlines are published in the Academic Calendars (https://www.apu.edu/calendar/academic/). A course tutorial fee will be assessed in addition to the regular tuition charge.

# Graduate Courses Taken by Undergraduate Students

An Azusa Pacific University professional undergraduate student may enroll in a graduate course only if all of the following conditions are met:

- The student is a senior with a cumulative GPA of 3.0 or higher.
- The department chair of the student's major approves.
- The graduate department chair or graduate program director approves.
- There is space available in the course and the student has met all of the prerequisites.
- Traditional undergraduate student's request is submitted with the form provided by the Student (https://www.apu.edu/undergraduate-enrollment-services/) Services Center (https://www.apu.edu/student-services/). (https://www.apu.edu/undergraduate-enrollment-services/)
- Professional undergraduate student's request is submitted with the form provided by the Office of the Registrar (https://www.apu.edu/student-services/registration/).

Graduate courses taken by an undergraduate student may apply toward an APU graduate degree only if the grade received in the graduate course is 3.0 or higher and if the student is accepted into the appropriate graduate program following APU graduate admissions procedures. No more than 9 graduate units earned as an undergraduate student may be counted toward an APU graduate degree. Some departments may allow fewer units to be counted. A student who will be applying to an APU graduate program should obtain information from the appropriate department before taking graduate courses.

This policy does not apply to APU's Integrated Bachelor's/Credential Program (p. 546), which allows undergraduate students to complete 32-34 units of 500-level credential courses and apply those units to the 120+ units required for the bachelor's degree. Students in the Integrated Bachelor's/Credential Program who seek a master's degree need to apply separately to the appropriate graduate program in the School of Education (https://www.apu.edu/education/).

Individuals who complete the Integrated Bachelor's/Credential Program may use 500-level credential courses earned before the conferral of the bachelor's degree toward an APU Master of Arts in Education degree in Learning and Technology, Special Education, or Teaching. Up to 32 such units may count toward a 44-unit master's degree and up to 34 such units may count toward a 46-unit master's degree, provided that the graduate units were earned beyond the 120 units required for the undergraduate degree. All courses applied to the master's degree must be completed within five years of the first 500-level credential course enrollment that is related to this program.

The Graduate Courses Taken by Undergraduate Students policy does not apply to the Doctor of Physical Therapy program (p. 586), which offers an accelerated pathway that allows undergraduate students to complete up to 18 units of 700-level doctoral courses and apply those units to the 120+ units required for the bachelor's degree. For more information on how courses may be applied toward a graduate degree, refer to the Graduate Courses Taken by Undergraduate Students policy in the Graduate Academic Policies and Procedures section of the catalog. Students in undergraduate programs that have direct pathways into the Doctor of Physical Therapy program still need to apply separately to the APU Doctor of Physical Therapy program.

# Independent Study

Independent studies enable students to enrich their university experience by pursuing learning in a closely supervised program that provides opportunity for individual investigation of subject areas not covered in regular course offerings.

A professional undergraduate student (those with 60 or more transferred units) who has a minimum cumulative GPA of 2.5 may receive credit for a maximum of 9 independent study units to be applied toward a degree program. No more than 4 units may be applied toward one project, and a maximum of 9 independent study units may be taken during one academic term. The independent study is recorded as XXX497, XXX498, or XXX499 on the student's permanent academic record.

An Independent Study/Course Tutorial Application (https://www.apu.edu/student-services/registration/#gradproforms) and proposal must be submitted to the Office of the Registrar (https://www.apu.edu/student-services/registration/) by the Last Day to Add or Drop Classes or Submit Independent Study Proposals. An independent study fee (https://www.apu.edu/graduateprofessional/sfs/costs/) will be assessed in addition to the regular tuition charge.

# Late Enrollment

Students who are unable to enroll before the registration due date may enroll up until the Last Day to Register, as published in the Academic Calendars (https://www.apu.edu/calendar/academic/). Late enrollment may be requested by submitting an Enrollment Activity Form (https://www.apu.edu/student-services/registration/#gradproforms). Professor, dean, and registrar approval for enrollment after the deadline may be granted only in extreme cases where extenuating circumstances are evident and can be substantiated. A nonrefundable late-enrollment fee is charged.

# Repeated Courses

Professional students may repeat courses at Azusa Pacific University up to two times for a total of three times taking any one course. Both grades remain on the academic record, but only the most recent grade is calculated into the student's grade-point average. The units are counted only once.

If a repeated course is taken at another institution, the grade and the units of the repeated course will be transferred (providing the course meets the guidelines for transfer).

Students must follow all department major/program policies regarding repetition of courses, as some majors/programs do not allow a major/program-specific course to be repeated more than once. Work with your program director for specific guidelines.

It is the responsibility of the student to notify the Office of the Registrar (https://www.apu.edu/student-services/registration/) at the time of enrollment when repeating a course. The current tuition rate is charged.

# State Authorization

The transferability of credits earned at Azusa Pacific University is at the discretion of the receiving college, university, or other educational institution. Students considering transferring to any institution should not assume that credits earned in any program of study at Azusa Pacific will be accepted by the receiving institution. Similarly, the ability of a degree, certificate, diploma, or other academic credential earned at Azusa Pacific to satisfy an admission requirement of another institution is at the discretion of the receiving institution. Accreditation also does not guarantee that credentials or credits earned at Azusa Pacific will be accepted by or transferred to another institution. To minimize the risk of having to repeat coursework, students should contact the receiving institution in advance for evaluation and determination of transferability of credits and/or acceptability of degrees, diplomas, or certificates earned.

## Program Availability in Your State

As Azusa Pacific works to meet federal and state authorization requirements in states outside California, APU's home state, we want to bring to your attention that APU's programs are not available in all states.

For more information about state authorizations for online programs and distance learning, visit the provost website (https://www.apu.edu/provost/state-authorizations/). Specific questions about APU's State Authorization of Distance Education can be directed to ssc@apu.edu.

## Disclosure for Students Residing in Washington

The Washington Student Achievement Council (WSAC) has the authority to investigate student complaints against specific schools. WSAC may not be able to investigate every student complaint. Visit the WSAC website (https://www.wsac.wa.gov/student-complaints/) for more information regarding the WSAC complaint process.

# General Enrollment Information

# Attendance Regulation

Class attendance is of paramount importance, and excessive absences will adversely affect a student's final grade. Individual instructors define grading and attendance policies in the course instruction plan for each course. Check with your department for specific requirements.

# Deferment Information

In general, to qualify for loan deferment, a student must be enrolled at least half time (see the Study Load policy (p. 1049) for enrollment definitions). Students should contact their lender with questions regarding the terms of loan deferment eligibility.

Students who depend on loan deferments while they are enrolled in school should enroll for all sessions within the term at the same time, so the deferment will become effective with timeliness and accuracy. Students are considered enrolled as of the first day of class in a session. Updated enrollment statuses for all enrolled and recently withdrawn students are submitted to the National Student Clearinghouse once per month but may take several weeks to be relayed to lenders. If a student needs verification in the interim, they can request that a deferment letter be sent to their lender.

Future enrollment periods may not be considered for deferment. Enrollment verification is applicable only for the current term.

# Final Examinations

Assessment of learning takes place in each course per the course syllabus. If a final examination is required, no final examination shall be given to individual students before the regularly scheduled time unless there is written approval from the instructor, department chair, and school dean.

# Study Load

Academic terms are broadly defined by these designations: fall, spring, and summer (sometimes titled Summer B). Sessions of varying numbers of weeks are offered within each term. The total number of units in which a student enrolls in any number of sessions within one term determines a student's enrollment status for study load standards, financial aid eligibility, and prior student loan deferment purposes. For example, 3 units taken in 8-week session 1 and 6 units taken in 8-week session 2 combine for a total of 9 units for that term.

All units earned through Azusa Pacific University, regardless of the number of weeks in the session in which they are taken, are semester units. See the Academic Calendars (https://www.apu.edu/calendar/academic/) for specific term and session information.

**For professional bachelor's degree completion programs, enrollment status is calculated as follows:**

Fall, Spring, or Summer

- 6-8 units is half-time status
- 9-11 units is three-quarter-time status
- 12 or more units is full-time status

# Good Academic Standing

Professional students are considered to be in good academic standing if they maintain a cumulative grade-point average (GPA) of 2.0.

# Grade Change Process

A professional student who believes his/her grade has been reported incorrectly or wishes to challenge his/her grade should contact the instructor immediately to discuss the discrepancy. If the instructor and student agree on a grade change, the instructor will complete a Grade Change Form. No grade changes can be made to the academic record after the degree has been posted. Work completed or corrected after the close of the grading period without an approved Incomplete Form (https://www.apu.edu/student-services/registration/#gradproforms) does not justify a grade change.

If the student is not satisfied after discussing the grade with the instructor, he/she has the option to submit to the registrar's office an Academic General Petition (https://www.apu.edu/student-services/registration/#gradproforms) form challenging the grade. This form must be returned to the Office of the Registrar (https://www.apu.edu/student-services/registration/).

A change of grade may be given on the recommendation of the professor and permission of the department chair and/or dean. The grade challenge must be received within one year of the last day of the term of enrollment in the course. Questions regarding the grade change process should be directed to the registrar's office.

To appeal a denial of a petition for a grade change, see the Grievance and Appeal Procedures (p. 1054) section of this catalog.

# Grading, Including Incompletes

Grades are based on the daily work of classroom projects and examinations. Scholarship is ranked as follows:

| | |
|---|---|
| A | Exceptional |
| B | Superior |
| C | Average |
| D | Poor |
| F | Failure |
| I | Incomplete |
| W | Withdrawal |

Grade type (*A-F* versus credit/no credit or pass/fail) cannot change unless an official course change has been approved by the appropriate council prior to the course being offered for a particular term. Unit values for a course cannot be changed from the published values unless an official course change has been approved by the appropriate council prior to the term the course is taken.

For each credit, points are awarded according to the grade earned as follows:

| | |
|---|---|
| Grade A | 4.0 points |
| Grade A- | 3.7 points |
| Grade B+ | 3.3 points |
| Grade B | 3.0 points |
| Grade B- | 2.7 points |
| Grade C+ | 2.3 points |
| Grade C | 2.0 points |
| Grade C- | 1.7 points |
| Grade D+ | 1.3 points |
| Grade D | 1.0 point |
| Grade D- | 0.7 point |
| Grade F | 0 points |
| Grade FN | 0 points; Failure, Nonattending |
| Grade W[1] | 0 points, Withdrawal |
| Grade I[1] | Incomplete |
| Grade IN[1] | Incomplete—No Paperwork |
| Grade NC | 0 points, No Credit |
| Grade AU[1] | 0 points, Audit |
| Grade CR[1] | 0 points, Credit |
| Grade P[1] | 0 points, Pass |
| Grade IP[1] | 0 points, In Progress |
| Grade NG[1] | 0 points, No Grade |

[1] Does not affect grade-point average.

## Incomplete ( *I*) Grade

The grade *I* (Incomplete) is to be given only if special circumstances exist. An Incomplete grade may be given upon recommendation of the professor with permission of the dean and/or chair of the respective school and/or department.

To obtain an Incomplete, the student must fill out the Incomplete Form (https://www.apu.edu/student-services/registration/#gradproforms) before the last day of the course. The form will be sent to the instructor, chair, and dean for review and decision. An extension may be granted for up to 12 weeks from the last day of the term. The amount of time and specific coursework required is determined by the faculty member of record, based upon the nature of the student's request and the remaining work that is to be completed for the course.

An Incomplete not made up within the extended time period will be automatically changed to the grade agreed upon in the Instructor and Student Agreement section of the Incomplete Form. Petitions for one additional extension for up to 12 weeks may be requested and are subject to review and decision by the faculty member, program director, department chair, and/or dean of the school. To petition for an extension, students must fill out a new Incomplete Form.

The grade *IN* (Incomplete—No Paperwork) is a temporary grade that may be recorded by an instructor while the Incomplete Form is in process. An *IN* entered by the instructor without the subsequent submission of the proper form will automatically become an *F*. Work corrected or completed after the close of the grading period, without an approved Incomplete Form, does not justify a grade change (see also Grade Change Process (p. 1049)).

A grade of *D-* or better is required in professional undergraduate courses taken at APU to satisfy General Education requirements or to receive a passing grade in major courses unless a higher grade is specified by your major/department. Students who want to transfer a course from another institution to satisfy General Education requirements or major requirements must earn a grade of *C-* or better. General Education courses that satisfy major requirements may require a higher grade than the minimums listed above.

All professional undergraduate students must earn a minimum cumulative grade-point average (GPA) of 2.0 in all university work attempted. Transfer students must also earn a minimum cumulative GPA of 2.0 in work completed at Azusa Pacific University. Some departments/schools also require a minimum cumulative GPA for major courses.

# Graduate and Professional Student Community Expectations

It is the intention of Azusa Pacific that the faith-living-learning environment be as healthy as possible and foster positive qualities of life, promoting sound academic and personal growth experiences. As university staff come alongside students during their time at APU, we strive to respect and care for each individual and their needs, while also considering the community's needs. Our goal is to keep accountability, integrity, and a call to God-honoring excellence at the center, as we encourage students to take responsibility for their actions and choices. All students are expected to abide by the Graduate and Professional Student Community Expectations (https://www.apu.edu/graduateprofessionalcenter/student-engagement/expectations/policy/).

# Graduation Requirements and Commencement

Graduation is not automatic upon completion of all coursework in a degree program. Students who intend to graduate must apply for graduation through home.apu.edu (https://home.apu.edu/) and pay the current graduation fee. Applying for graduation through home.apu.edu is mandatory, regardless of whether the student intends to participate in a commencement ceremony. The graduation application due dates and graduation dates are listed in the Academic Calendars (https://www.apu.edu/calendar/academic/).

A degree is granted based on the completion of all requirements prior to degree posting dates. This includes verification of maintaining the minimum grade-point average for the degree program.

# Additional Degree or Concurrent Program Requirements

Azusa Pacific University will award a maximum of two bachelor's degrees in any combination, such as two BAs or one BA and one BS, under the following conditions:

1. Candidates for additional degrees must meet the university's Residence Requirement (p. 1054) policy.
2. A minimum of 150 units is required for the two degrees.
3. Students must complete all of the required courses listed in the catalog for both degrees.
4. Not more than six upper-division courses may be common to both degrees (excluding General Education requirements).
5. Thirty units must be unique to the second degree, of which at least 18 units must be upper division.
6. General Education courses completed for one degree may be applied toward the second degree.

## Policy for Professional Minor Programs

Azusa Pacific University offers alcohol and drug counseling (p. 414), business administration (p. 831), criminal justice (p. 366), and psychology (p. 416) minors for professional students, each of which can be taken only in conjunction with one of APU's professional bachelor's completion programs (http://catalog.apu.edu/program-search/#filter=filter_3&filter_6). For more information, contact the sponsoring academic department for the particular minor.

# Additional Degree Requirements

In addition to the completion of course requirements, individual departments establish specific degree requirements. These may include core, qualifying, and/or comprehensive examinations, growth plans, portfolios, oral presentations and examinations, written projects, theses, supervised practicums, exit interviews, or other specified department requirements. Check with the department for specific requirements.

# Application for Graduation

Graduation is not automatic upon completion of all coursework in a degree program. Students who intend to graduate must apply for graduation through home.apu.edu (https://home.apu.edu/) at least 120 days prior to degree posting, and pay the current graduation fee. Applying for graduation through home.apu.edu is mandatory, regardless of whether the student intends to participate in a commencement ceremony. The graduation application due dates and graduation dates are listed in the Academic Calendars (https://www.apu.edu/calendar/academic/).

A degree is granted based on the completion of all requirements prior to degree posting dates. This includes verification of maintaining the minimum grade-point average for the degree program.

# Commencement

C (http://www.apu.edu/graduation/)ommencement (https://www.apu.edu/commencement/) exercises are held at the end of the fall and spring semesters. The university president, by the authority of the trustees and on the recommendation of the faculty, awards the degrees.

- A student may participate in commencement exercises only if all degree work has been completed, or if no more than 3 units or one course will be taken in a term that begins after the commencement ceremony (the latter is called the "walk-short" policy). Eligibility to participate in commencement will be confirmed by the student's academic records specialist in the Office of the Registrar (https://www.apu.edu/student-services/registration/) in the Student Services Center.
- Details regarding the ceremonies are emailed approximately 4-6 weeks prior to commencement to the APU email address of all students who applied for graduation through home.apu.ed (https://home.apu.edu)u.
- To participate in commencement exercises, all university obligations must be resolved no later than three weeks prior to commencement, including the receipt of transcripts (if applicable) and financial clearance (must have a zero account balance).
- Students who disregard the Participation in Commencement Policy and participate in a commencement ceremony fraudulently will not be allowed to participate in future commencement ceremonies and could face sanctions including (but not limited to) suspension from the university, as such actions are considered an academic integrity violation and a student conduct violation.

# Course Replacement and Substitution

Changes to degree requirements for a particular student must be approved through the Transfer Credit and Course Substitution (https://www.apu.edu/student-services/registration/#gradproforms) process by the department chair and dean, or program director and dean, and may not exceed 20 percent of the total program units required for the degree. Such changes must be substantiated with academic reasons that become part of the student's academic record.

# Degree Posting

The university posts degrees to students' permanent records five times each year according to a predetermined schedule. All degree requirements, including milestones that vary based on program, must be met prior to the posting date. The posting dates for students are at the end of each 16-week session (fall, spring, and summer) and at the end of the 8-week 1 and 12-week summer sessions. The regular terms and sessions for students, with approximate posting dates shown in parentheses, are:

### Fall 2024

- 16-Week, 8-Week 1, and 8-Week 2 Sessions (December 14)

### Spring 2025

- 16-Week, 8-Week 1, and 8-Week 2 Sessions (May 3)

## Summer 2025

- 8-Week 1 Session (June 28)
- 12-Week Session (July 26)
- 16-Week and 8-Week 2 Sessions (August 23)

For degrees completed on dates other than these, the degree posting will occur on the next scheduled posting date. Completed degrees may be posted on the 1st or 15th of a month other than those listed above in this section.

Transcripts with the posted degree are available approximately four weeks after all grades have been entered and all degree requirements have been met. Degree posting begins on the Monday after the degree date and concludes when all degrees are posted.

Once the degree is posted, the degree record is complete and final. It can be rescinded only in the case of substantiated error or fraud. A student cannot add coursework to or remove coursework from the posted degree to improve grade-point average or to add concentrations or emphases, and cannot request a degree title change.

# Determining Degree Requirements

A professional student remaining in attendance in regular session at Azusa Pacific University may, for the purpose of meeting graduation requirements, elect to meet the requirements in effect at Azusa Pacific University either at the time the student began such attendance or at graduation. Students are responsible to notify the registrar's office if they are electing to graduate under the current academic catalog. Substitutions for discontinued courses may be authorized or required by the program department or appropriate school.

Professional students are held to the General Education requirements of the catalog from the year they enter APU unless they elect to switch catalogs. Professional students electing to switch catalogs should be aware that adopting a new catalog will require completion of all of the new requirements in that catalog, including any possible changes in General Education, academic majors, minors, concentrations and emphases, and appropriate academic policies.

Absence due to an approved educational leave shall not be considered an interruption in attendance if such absence is for the duration of two years or less. Administrative withdrawal is not considered "an approved educational leave" (see also Leaves of Absence (p. 1062)). When a student changes programs, the academic requirements applied will be determined as of the date of declaration or subsequent change.

# Grade-Point Average Requirement

All professional students must earn a minimum cumulative GPA of 2.0 in all university work attempted and/or completed at Azusa Pacific University. Some departments and/or schools also require a minimum cumulative GPA for major-specific courses.

# Honors at Commencement

Qualifying professional bachelor's students (excludes Entry-Level Master's in Nursing students) may graduate with the following Latin honors: *summa cum laude, magna cum laude*, or *cum laude*. The minimum GPA requirements for honors are as follows:

- 3.90 – *summa cum laude*
- 3.80 – *magna cum laude*
- 3.70 – *cum laude*

All grades accepted toward graduation at Azusa Pacific University are included in the calculation of these honors, including those of correspondence and transfer courses. All grades not accepted toward graduation at Azusa Pacific (such as those of remedial courses) are not included in the calculation.

# Minimum Unit Requirement

For professional undergraduate students, the minimum unit requirement for the BA, BS, BBA, and BSN degrees is 120 (some majors require completion of more than the minimum number of units). Units for the following courses do not count toward the 120 units required for graduation:

| Code | Title | Units |
| --- | --- | --- |
| MATH 90 | Foundations of Mathematical Reasoning | 3 |
| MATH 95 | Intermediate Algebra | 3 |

# Normal Progress Toward a Degree and Time Limit for Degree

A professional student has seven years from the date of his or her first registration at Azusa Pacific University to complete his or her degree under the catalog in effect at the date of first registration. Students who continue in attendance beyond the seventh year may elect to meet the graduation requirements of the catalog in effect in the eighth year of attendance or the catalog in effect at the year of graduation.

# Residence Requirement

Residence comprises all courses for academic credit offered by this university regardless of program modality or delivery model. Variances exist for specific programs; refer to program requirements for department policies.

To earn a professional degree, the following units must be earned at APU:

- At least 30 total semester units
- 16 of the last 24 units counted toward the degree
- At least 15 upper-division units in the major field
- At least 50 percent of the units in the concentration or emphasis (if any)

Neither transfer credit (including correspondence courses) nor credit by examination (CLEP, AP, IB) may be used to fulfill the above residence requirement.

# Grievance and Appeal Procedures

Azusa Pacific University provides a means by which professional students may file a grievance or an appeal for academic and student life issues, excluding violations of the Standards of Conduct. Examples include the appeal of an academic dismissal, academic integrity violation, or denial of a petition for a grade change (for challenging a grade after discussing the grade issue with the instructor, see the Grade Change Process (p. 1049)). Learn more about harassment (https://www.apu.edu/generalcounsel/policies/list/) and internet use (p. 1089).

An appeal is a student-initiated response to a faculty, department, or institutionally determined decision. A justifiable cause for grievance shall be defined as any act that, in the opinion of the student, is a response to behavior that is claimed by the student to adversely affect the student and is perceived as capricious, prejudicial, or an arbitrary action on the part of any university employee, or an arbitrary or unfair imposition of sanctions.

If a school's student handbook has a separate grievance procedure, the procedures described in this catalog will take precedence unless otherwise authorized by the Office of the Provost (https://www.apu.edu/provost/).

## Initial Grievance and Appeal Procedures

The grievance process described in Section II below should be used after the following means have been exhausted.

1. In the area of academics, protocol requires that student concerns or appeals be taken up first with the faculty member within 15 business days after the incident occurred. Outside of academic matters, the student should first address his/her concerns with the head of the university department in which the employee that is the subject of the grievance works within 15 business days after the incident.
2. Failure to resolve an academic grievance or appeal after meeting with the faculty member requires an appeal to the appropriate department chair within five business days, and then to the dean of the school or college within five business days of the department chair's decision. The dean may request that the student's complaint be submitted in writing. Failure to resolve a nonacademic grievance or appeal after meeting with the head of the relevant university department requires a meeting with the appropriate university vice president. In the case of student life issues, the point of final appeal before a grievance would be the associate vice president of student life.

## Guidelines for Filing a Grievance

In the event that the above procedures fail to resolve the problem, the student will indicate in writing the nature of the grievance, the evidence upon which it is based, and the redress sought. This letter, along with all supporting documents, should be submitted to the Office of the Provost designee. The supporting documents should include a written response from the dean or relevant university vice president. At that time, a Grievance Committee will be formed and proceed according to the guidelines stated below.

1. Filing a grievance shall be initiated only after other attempts to resolve the matter have been exhausted. The student has no more than 10 working days after meeting with the individual he/she believed to have given him/her cause for grievance (e.g., final meeting with the dean) in which to file

his/her written statement. The time limit may be extended by the Office of the Provost designee at his/her sole discretion upon presentation of good cause.

2. The grievance process is initiated by submission of a written statement to the Office of the Provost designee. The grievance document should be a complete set of materials that the student would like the Grievance Committee to review. Additional materials will be accepted later only in extenuating circumstances, at the discretion of the committee chair. The grievance statement must include:

    a. Names of the parties involved.

    b. A clear statement of the nature of the grievance.

    c. A narrative of the incident including

        i. What occurred

        ii. When it occurred

        iii. Where it occurred

        iv. Who was present

    d. Evidence on which the grievance is based including supporting documents.

    e. Why this constitutes capricious, prejudicial, or arbitrary action on behalf of a staff or faculty member.

    f. What has been done to resolve the grievance per the "Initial Grievance and Appeal Procedures" above.

    g. The desired outcome(s).

    h. Written permission from the student authorizing distribution to members of the Grievance Committee any relevant information from the student's education record.

3. The chair of the Grievance Committee will submit a copy of the grievance to each person who will serve on the Grievance Committee for this incident, as well as to the faculty or staff members involved, the chair of the department involved, and the dean of the school or college involved.

4. A meeting of the Grievance Committee will be scheduled by the chair within 10 working days of the date on which the petition was filed.

5. Meetings of the Grievance Committee shall be attended only by the parties named in the grievance, members of the Grievance Committee, witnesses invited by the Grievance Committee, and the dean of the school or college involved. If a grievance is filed, either party may seek a support person who must be a faculty member or student in that school or college. (The support person is present to offer assistance and encouragement to either party during the committee hearing. The function of the support person shall not include that of advocacy nor shall the support person have a role in the committee's meetings). No one other than members of the Grievance Committee may be present during deliberations, but a staff member may be present when necessary.

6. The student shall not bring legal counsel nor have a student or faculty represent him/her as counsel. Likewise, the Grievance Committee shall not have legal counsel present.

7. If a committee member is approached prior to a meeting by anyone, including the student whose case is to be heard, the member shall refuse to discuss the issue and should disclose, at the time of the meeting, that he/she has been approached.

8. Any committee member who has a potential conflict of interest, or who holds a bias or preconceived notion as to the facts of the case and has formed an opinion about them, or who may hold ill will toward the grieving student or the party alleged to have given cause for the grievance, must disclose to the chair the nature of such feelings, bias, or potential conflict. He or she must be excused from participation upon request by such member, or at the discretion of the chair, and replaced by the chair with a substitute committee member of comparable station to the extent possible under the circumstances. The names of the Grievance Committee members will be reviewed in advance of the committee meeting with the student, who can confirm that he/she is not aware of any bias against him/her on the part of any of the committee members.

## The Grievance Committee

1. Membership:

    a. For academic grievances:

        i. The Office of the Provost designee will serve as chair (nonvoting except in case of tie due to absent members)

        ii. An academic dean (not from school or college involved)

        iii. Two faculty members not from the grieving student's department (or two staff members if the grievance is about staff)

        iv. Two graduate or professional students not from the grieving student's department

        v. For any grievance concerning alleged discrimination or harassment, the director of human resources shall serve on the Grievance Committee.

    b. For nonacademic grievances:

        i. Vice President for Student Life or designee will serve as chair (nonvoting except in case of tie due to absent members)

        ii. Two faculty members not from the grieving student's department (or two staff members if the grievance is about staff)

        iii. Two professional students not from the grieving student's department

        iv. Office of the Provost designee

        v. For any grievance concerning alleged discrimination or harassment, the director of human resources shall serve on the Grievance Committee.

2. Voting:

    a. All members (except the chair, who is nonvoting) have equal vote, and there shall be no alternates or substitutes unless one member must disqualify him/herself due to conflict of interest.
3. Meeting Time:
    a. The meeting will be scheduled within 10 working days following the filing of a written statement. The chair is authorized to extend any time periods provided in the policy if he/she determines that good cause exists (e.g., delay in meeting due to unavailability of an essential party or committee member).

## Committee Process

1. The grievance procedure shall act as a vehicle for communication among the parties, and provide, through prescribed procedures, a process through which a student-initiated grievance can be resolved.
2. The grievance process is initiated by submission of a grievance statement in writing to the Office of the Provost designee or vice president for student life, as appropriate. The committee chair will submit a copy of the grievance to each member of the Grievance Committee prior to the hearing. Thereupon, the committee will be activated and a meeting will be held to consider the matter.
3. The involved student and university employee(s) may be present at the committee meetings, except during deliberation. The meetings shall be held at times when both parties can be present. Either party may seek a support person who must be a university employee or student in that school or college. The function of the support person shall not include that of advocacy nor shall the support person have a role in the committee's meetings.
4. Accurate minutes of the grievance procedure shall be kept in a confidential university file of the committee's proceedings. The hearing may also be audio recorded at the option of the chair of the Grievance Committee.
5. In cases of conflicting information and/or when additional information is desired, the committee may request testimony from additional witnesses having information pertinent to the grievance. The committee may choose to convene more than one time if necessary.
6. No printed materials or notes may be taken from the meeting (other than the official minutes).
7. The parties and committee members may not discuss the case outside the meeting.
8. The committee will decide on the matter by simple majority and confidential vote. Both parties will be notified, in writing, within one week of the decision. The committee's vote is confidential and the decision shall be final.

## Failure to File Grievance

Any student who has a grievance complaint against the university must follow this procedure or will waive any claim against the university. An individual may contact the Bureau for Private Postsecondary Education (https://www.bppe.ca.gov/) for review of a complaint. The bureau may be contacted at P.O. Box 980818 West Sacramento, CA 95798-0818; (888) 370-7589 (phone); and (916) 263-1897 (fax).

# Petition Process

A petition process exists for students who seek an exception to stated academic policies, procedures, and regulations. Academic General Petition (https://www.apu.edu/student-services/registration/#gradproforms) forms are available online. Approval for petitions will be granted only in extreme cases where extenuating circumstances are evident and can be substantiated. It's important for the appeal to include all necessary information, as incomplete petitions will be denied. Students will be notified via email of the final decision. Any exception granted by petition does not establish guaranteed subsequent exceptions or appeals.

## Extenuating Circumstances

Extenuating circumstances—those beyond a student's control—could include, but are not limited to, those in the list below. Experiencing and documenting an extenuating circumstance is not an automatic cause for petition approval.

1. Documented death of a close family member or loved one
2. Documented major medical issue (physical or psychological) experienced by the student, living companion, or close family member or loved one
3. Documented domestic violence, sexual assault, and other forms of violence and abuse
4. Documented involuntary call to active military duty
5. Other documented extreme circumstances (case-by-case basis)

The following circumstances are **not** considered extenuating and beyond the student's control:

1. Not knowing the deadline, procedure, or policy
2. Work conflicts or nonemergency family commitments
3. Heavy work schedule or voluntary overtime
4. Not needing or wanting a class
5. Not doing well in a class
6. Not knowing you were enrolled in a class
7. Having too heavy a course load

8. Wanting to improve your GPA
9. Traveling a far distance to the school
10. Incarceration resulting from a guilty verdict

## Documentation

Your inability to provide supportive documentation may result in your appeal being denied. Submit date-specific supportive documentation, but do not submit original documents, as they will not be returned.

Documentation could include, but is not limited to:

1. Medical documentation, which could include a letter from a physician or counselor on letterhead indicating the dates you were under care.
2. Copy of a death certificate or obituary.
3. Accident reports, police records, and/or court records.
4. Statements from each individual instructor for every course change for which you are petitioning. Such statements should include confirmation of attendance, the start and/or end dates of your participation in the course, and any other information applicable to the situation for which you are petitioning. Statements are strongly recommended if you are requesting a course add, drop, or withdraw.
5. A graduation plan outlining how you plan to finish your degree requirements.
6. A statement from your academic advisor or campus authority involved in your situation.
7. Any other documentation that will support the reason for your request.

Petitions submitted without this documentation will likely be denied.

# Security Interests in Student Records

A student may not graduate or receive any diploma, certificate, grades, or letter of degree verification until all financial obligations (including student loans wherein collections are administered by the university) have been satisfied in accordance with policies described under Additional Information for Graduate and Professional Students (p. 994). Any diplomas, certificates, grades, or letters of degree verification shall be retained by the university as a security interest until all such obligations are satisfied. Release of any such security interest prior to or subsequent to any default by the debtors shall not be considered a binding precedent or modification of this policy.

# Transfer Credit

Azusa Pacific University may accept transfer credit for equivalent courses from schools accredited by regional and national agencies recognized by the Council for Higher Education Accreditation (CHEA) and the United States Department of Education (USDE). To be awarded credit for transfer work, courses must be approved through a Transfer Credit and Course Substitution Form (https://www.apu.edu/student-services/registration/#gradproforms), which students may submit online, but they must receive approval prior to registration for the course(s). In addition, students must complete the transfer course (including correspondence courses) with a grade of *C-* or higher. APU credit is given on a 4.0 scale for transfer work. Quarter units will be converted into semester units.

Students who reenroll at APU after leaving and spending two or more consecutive semesters at another academic institution may apply those transferable units toward their General Education requirements. Only units transferred at reenrollment will be considered.

APU may also accept a maximum of 24 undergraduate units of non-General Education elective credit from institutions accredited by the following list of nationally accredited organizations:

- The Association for Biblical Higher Education
- The Association of Theological Schools
- Transnational Association of Christian Colleges and Schools
- Distance Education Accrediting Commission
- Accrediting Council for Independent Colleges and Schools
- Accrediting Commission of Career Schools and Colleges

***These units may apply only as elective units, and are not applicable toward General Education, major, or minor requirements.***

Courses eligible for transfer include any courses designated as baccalaureate level by the credit granting institution and intended for transfer. Remedial courses and vocational/technical courses are not accepted, except when approved through Prior Learning Assessment. Students must complete transfer work with a grade of *C-* or higher. APU credit is given on a 4.0 scale.

Courses taken through online agencies, services, and institutions will not be accepted to APU unless the host university is regionally accredited.

The university can give credit for no more than 70 units of coursework from a community or junior college and 90 units from a four-year institution. All quarter units will be converted to semester units. APU grants two semester units of credit for every three quarter units.

Coursework transferred from external institutions as part of the Integrative Enrollment Pathway programs is accepted in addition to the transfer unit limit amounts. Transfer units from the Integrative Enrollment Pathway cannot be used for any program or purpose other than the program from which they originated.

For information on transfer guidelines, see:

- Concurrent Enrollment Policy for Professional Students (p. 1058)
- Correspondence Course Credit for Professional Students (p. 1058)
- General Education Information for Professional Transfer Students (p. 1059)
- Military Credit Policy (p. 1062)

## Prior Learning Assessment

Prior Learning Assessment (PLA) is the evaluation of learning that has taken place outside the traditional classroom for the purpose of awarding college credit. PLA is a WASC-approved process to help students articulate college-level learning that may be used to earn units toward elective or general education requirements for their degree. The student may use a variety of pathways to earn PLA units. These include:

1. Kolb-model Experiential Learning Essays
2. Credit for some military experience
3. Submission of professional/technical training documents

The maximum number of units that may be earned with PLA is 30, and units may be applied only toward professional undergraduate degree programs. If credit for an Experiential Learning Essay is not granted after the first review, students may resubmit one additional time. Students are charged a per-unit fee and a one-time evaluation fee that may be found under Student Financial Services (https://www.apu.edu/student-services/finances/) on the APU website. Financial aid is not available for these fees.

**Students should not assume acceptance of transfer work until they receive written notification from the registrar.**

# Concurrent Enrollment Policy

Professional students wishing to take courses at another institution while enrolled at APU should obtain prior approval from the Office of the Registrar (https://www.apu.edu/student-services/registration/). All courses must be approved through the Transfer Credit and Course Substitution Form (https://www.apu.edu/student-services/registration/#gradproforms). Without prior written approval from the registrar's office, transfer credits may be denied.

# Correspondence Course Credit

Correspondence education for professional students is defined as education through one or more courses by an institution that provides instructional materials by mail or electronic transmission, including examinations on the materials, to students who are separated from the instructor. Interaction between the instructor and the student is limited, lacks regularity and substance, and is primarily initiated by the student. Courses are typically self-paced. Correspondence education is not the same as distance education. This policy is not applicable to every degree program; check with specific academic departments.

- A maximum of 9 semester units of correspondence credit may be applied toward an Azusa Pacific University professional degree.
- Students must earn a grade of *C-* or higher in eligible courses and receive prior approval from the Office of the Registrar (https://www.apu.edu/student-services/registration/). Students must also obtain prior written consent from department faculty.
- Correspondence courses must be offered by a regionally accredited or Association for Biblical Higher Education-accredited college or university.
- No more than 6 units may be transferred to meet General Education core requirements (p. 915) in Biblical, Theological, and Philosophical Formation. Students transferring at the senior level may complete only 3 units by correspondence, none of which may apply to the core category of Biblical, Theological, and Philosophical Formation.
- All correspondence courses must be cleared through the normal graduation clearance process. Students should work with their Academic Records Specialist in the Office of the Registrar to address special circumstances.

# General Education Information for Transfer Students

Students transferring to Azusa Pacific University may have some of their General Education requirements met by courses taken at their previous institution(s). Additionally, the unit requirements for Biblical, Theological, and Philosophical Formation (BTPF) may be adjusted, depending on the number of units the student transfers to APU.

## Traditional Undergraduate (Azusa) Students

For traditional undergraduate students, the evaluation of a student's transfer work is conducted by the Student Services Center (https://www.apu.edu/undergraduate-enrollment-services/). All students are encouraged to work with the center and with their academic advisor to determine their General Education requirements. While this chart for traditional undergraduate students (p.       ) serves as a guide for the student, it is the responsibility of the student to ensure that all requirements are met. For the most current information, visit the Academic Success Center (https://www.apu.edu/academic-success/).

The Personal Wellness requirement is waived for traditional undergraduate students who transfer in 60+ units.

## Professional Undergraduate (Regional Locations, Online) Students

For professional undergraduate students, the evaluation of a student's transfer work is conducted by the Office of the Registrar (https://www.apu.edu/student-services/registration/). While this chart for professional undergraduate students (p. 1060) serves as a guide for the student, it is the responsibility of the student to ensure that all requirements are met.

All students who reenroll at APU after leaving APU and spending two or more consecutive semesters at another academic institution may have those transferable units applied toward their General Education Biblical, Theological, and Philosophical Formation (BTPF) requirements. Only units transferred at reenrollment will be considered.

For professional undergraduate students at regional locations or in distance education programs, the Personal Wellness requirement is waived regardless of units.

## Traditional Undergraduate Student BTPF Requirements

| Number of Units Transferred in | Biblical Theological & Philosophical Formation Requirements |
| --- | --- |
| 0-29 | 18 units: |
| | MIN 108 |
| | UBBL 100, UBBL 230 |
| | PHIL 100 or HUM 224 or HUM 324 |
| | 3 units of upper-division UBBL |
| | THEO 200, THEO 301, THEO 352, THEO 354, or HUM 325 |
| 30-59 (includes IGETC and CSU Breadth) | 12 units: |
| | UBBL 230[1] |
| | THEO 200, THEO 301, THEO 352, THEO 354, or HUM 325 |
| | Two of the following: |
| | MIN 108[2] |
| | PHIL 100 or HUM 224 or HUM 324 |
| | 3 units of upper-division UBBL |
| 60-89 (includes IGETC and CSU Breadth) | 9 units: |
| | UBBL 230[1] |
| | THEO 200, THEO 301, THEO 352, THEO 354, or HUM 325 |
| | One of the following: |
| | PHIL 100 or HUM 224 or HUM 324 |
| | MIN 108[2] |
| | 3 units of upper-division UBBL |
| 90+ | 6 units: |
| | UBBL 230[1] |
| | THEO 200, THEO 301, THEO 352, THEO 354, or HUM 325 |

**All requirements must be met by approved General Education courses.**

1    The prerequisite for UBBL 230 is waived for students transferring in 30 or more units. All other prerequisites apply.
2    MIN 108 is waived as a prerequisite for the General Education THEO courses for students transferring 45 or more units. All other prerequisites apply.

## Professional Undergraduate Student BTPF Requirements

| Number of Units Transferred in | Biblical Theological & Philosophical Formation Requirements |
|---|---|
| 15-29 | 18 units: |
| | PRMI 108 |
| | PRBL 100 |
| | PRBL 230 |
| | PRRS 200 |
| | PRPH 100 |
| | PRTH 200 |
| | Upper division Bible or Theology course |
| 30-59 (includes IGETC and CSU Breadth) | 12 units: |
| | PRBL 230 |
| | PRTH 200 |
| | Two of the following: |
| | PRMI 108 |
| | PRBL 100 |
| | PRRS 200 |
| | PRPH 100 |
| 60-89 (includes IGETC and CSU Breadth) | 9 units: |
| | PRBL 230 |
| | PRTH 200 |
| | One of the following: |
| | PRMI 108 |
| | PRBL 100 |
| | PRRS 200 |
| | PRPH 100 |
| 90+ | 6 units: |
| | PRBL 230 |
| | PRTH 200 |

## IGETC and CSU Breadth Transfer Policies

Full IGETC or CSU Breadth Certification waives the philosophy requirement and all Intellectual and Practical Skills, Knowledge of Human Cultures and the Physical and Natural World, and Personal and Social Responsibility General Education requirements except Writing 3. The Integrative and Applied Learning requirement is not waived. The Biblical, Theological, and Philosophical Formation requirements are not completely waived, but they are reduced based on the total number of units transferred before the first APU semester.

For traditional (Azusa) undergraduate students who transfer in 30+ units, GE 100 is waived. This course is not required for students in professional programs (regional locations or online). For traditional (Azusa) undergraduate students who transfer in 60+ units, the Personal Wellness requirement is also waived. Personal Wellness is not required for students in professional programs (regional locations or online).

The following table defines what General Education elements are still required for students who transfer to Azusa Pacific University, based on the number of units transferred in.

| Number of Units Transferred in | General Transfer | IGETC | CSU Breadth |
|---|---|---|---|
| 15-29 | Courses may transfer for General Education credit on an individual basis | N/A | N/A |

| | | | |
|---|---|---|---|
| 30-59 | Courses may transfer for General Education credit on an individual basis | After completed IGETC certification, the following General Education courses are required: | After completed CSU Breadth certification, the following General Education courses are required: |
| | 3 units of Writing 3: Writing in the Disciplines (units incorporated into major) | 3 units of Writing 3: Writing in the Disciplines (units incorporated into major) | 3 units of Writing 3: Writing in the Disciplines (units incorporated into major) |
| | 3 units of Integrative and Applied Learning | 3 units Integrative and Applied Learning | 3 units Integrative and Applied Learning |
| | Biblical, Theological, and Philosophical Formation Requirements reduced to 12 units[1] | Biblical, Theological, and Philosophical Formation Requirements reduced to 12 units[1] | Biblical, Theological, and Philosophical Formation Requirements reduced to 12 units[1] |
| 60+ | Courses may transfer for General Education credit on an individual basis | After completed IGETC certification, the following General Education courses are required: | After completed CSU Breadth certification, the following General Education courses are required: |
| | 3 units of Integrative and Applied Learning | 3 units of Integrative and Applied Learning | 3 units of Integrative and Applied Learning |
| | 3 units of Writing 3: Writing in the Disciplines (units incorporated into major) | 3 units of Writing 3: Writing in the Disciplines (units incorporated into major) | 3 units of Writing 3: Writing in the Disciplines (units incorporated into major) |
| | 9 units of Biblical, Theological, and Philosophical Formation Requirements[1] | 9 units of Biblical, Theological, and Philosophical Formation Requirements[1] | 9 units of Biblical, Theological, and Philosophical Formation Requirements[1] |
| 90+ | Courses may transfer for General Education credit on an individual basis | After completed IGETC certification, the following General Education courses are required: | After completed CSU Breadth certification, the following General Education courses are required: |
| | 3 units of Integrative and Applied Learning | 3 units of Integrative and Applied Learning | 3 units of Integrative and Applied Learning |
| | 3 units of Writing 3: Writing in the Disciplines (units incorporated into major) | 3 units of Writing 3: Writing in the Disciplines (units incorporated into major) | 3 units of Writing 3: Writing in the Disciplines (units incorporated into major) |
| | 6 units of Biblical, Theological, and Philosophical Formation Requirements[1] | 6 units of Biblical, Theological, and Philosophical Formation Requirements[1] | 6 units of Biblical, Theological, and Philosophical Formation Requirements[1] |

[1]  See other page tabs above for Biblical, Theological, and Philosophical Formation requirements for transfer students.

For traditional (Azusa) undergraduate students, IGETC and CSU Breadth certification must be completed by January 31 for spring admits and September 30 for fall admits.

For professional undergraduate students (regional locations or online), IGETC and CSU Breadth certification deadlines are dependent upon the term in which students are admitted:

- September 30 for fall 8-week Session 1 admits
- November 30 for fall 8-week Session 2 admits
- January 31 for spring 8-week Session 1 admits
- March 31 for spring 8-week Session 2 admits
- May 31 for summer 8-week Session 1 admits
- July 31 for summer 8-week Session 2 admits

## ADN Transfer Requirement Policies

Proof of a posted Associate's Degree in Nursing (ADN) from a regionally accredited institution meets the majority of General Education requirements, including most of the Intellectual and Practical Skills, Knowledge of Human Cultures and the Physical and Natural World, and Personal and Social Responsibility requirements. The ADN does **not** meet the Writing 3 requirement, the Integrative and Applied Learning requirement, and the Upper-Division Bible requirement, but RN to BSN students can meet these requirements via program coursework (RNRS 458, RNRS 482P, and RNRS 396, respectively).

# Military Credit Policy

APU evaluates courses completed through the armed services and may grant credit for such courses. Credit is typically based on recommendations from the American Council on Education (ACE) (https://www.acenet.edu/higher-education/Pages/Military-Students-and-Veterans.aspx) and may include General Education credit and non-General Education elective credit.

1. Military credit must be on official transcripts from the American Council on Education.
2. APU professional programs accept:
   - ACE-recommended coursework in the lower-division baccalaureate/associate degree category ("L").
   - ACE-recommended coursework in the upper-division baccalaureate category ("U").
3. General Education credit and non-General Education elective credit will be evaluated on a case-by-case basis.
4. Air Force credit must come on official transcripts from the Community College of the Air Force, the Air Force Institute of Technology, or the United States Air Force Academy.
5. Transfer credit is limited to 90 units.

## Priority Registration for Veterans and Military Service Members

As a student using military education benefits, you are entitled to priority registration each semester. By having access to enrolling in courses early, you have more time to plan and arrange your schedule according to your program and personal needs. Using military-connected education benefits requires consideration of enrollment factors such as course modality, location, and term length in order to receive the maximum benefit due to you. Those classified as active duty, reserve, or veteran and using education benefits administered by the U.S. Department of Veterans Affairs (VA) or the U.S. Department of Justice are designated student groups entitled to this program. ROTC students are also eligible. To be added to the priority registration list, contact one of your VA certifying officials by emailing the Office of Military and Veteran Education Benefits at mveb@apu.edu.

## Why Priority Registration Is Important For Student Veterans

Students who are using military education benefits are bound by multiple factors of enrollment. Depending on the modality, location, and overall nature of a course (e.g., practicum courses), students using these benefits must plan in advance, since their entitlement is limited. Depending on what type of benefit is awarded, extra communication and engagement between the student, MVEB team, and counselors are typically required. There is no such thing as a "typical" military-connected student, as this student population is characterized by a multitude of diverse life experiences. From patterns we've recognized over the years, priority registration and other policies in place that may grant military-connected students more time are incredibly beneficial during their time at APU.

# Waivers

Some departments permit waivers of certain courses. Course waivers are processed by the student's department or school/college. Contact the appropriate department for details on specific waiver procedures. Unlike transfer credit, waivers fulfill course requirements only; no units are awarded. Students with waived courses must choose alternate elective courses to satisfy the unit requirements of their degree program.

# Withdrawal

# Leaves of Absence

Enrolled professional students may apply for university approval for a leave of absence from their program for a minimum of two consecutive terms/semesters and a maximum of two years. Students may return prior to the end of their leave by contacting the Office of the Registrar. (https://www.apu.edu/student-services/registration/)

Leave of Absence forms (https://www.apu.edu/student-services/registration/#gradproforms) must be submitted prior to the student's absence from the university. Requests to extend a leave of absence require submission of a new Leave of Absence form prior to the extension.

The university will not consider a Leave of Absence form submitted after a student absence or accept a backdated submission of the form. Failure to complete the required forms will result in the student having to comply with updated requirements or changes in the current catalog, if applicable. Expired leaves of absence are not renewable. Contact the registrar's office to activate enrollment prior to the return date.

Please note that Azusa Pacific University leaves of absence do not meet the definition of a Title IV Approved Leave of Absence as defined under 34 CFR 668.22 (d). As such, a student will not be reported to the National Student Loan Data System as attending the university during their leave of absence.

## Military Leaves of Absence

In the event of deployment and/or other circumstances related to military service that will disrupt a student's course of study, the student is required to submit the Leave of Absence form (https://www.apu.edu/student-services/registration/#gradproforms) to the Office of the Registrar (https://www.apu.edu/student-services/registration/). Attachment of student's military orders and/or any other supporting documentation connected to leave is required. The form is reviewed by the student's program director or department chair and the dean. The student may request any length for the leave, as long as it does not begin more than 30 days prior to the assignment date, and does not conclude more than 90 days after the end date stated on the assignment papers.

The university will allow more than one military leave of absence if the student is deployed and/or other circumstance related to military service arises. If a subsequent leave of absence is requested that is not related to military service, then the student must comply with the general Leave of Absence policy for professional programs. If the student begins the military leave of absence after the add/drop deadline and has courses in progress, the student will be granted a *W* (Withdrawal) for those courses. Late drops will be considered via written request.

Students with this status need not reapply or pay readmission fees.

# Withdrawal from Courses

Professional students may withdraw from a course without grade penalty at any time during the first two-thirds of the term, starting with the first day of classes.[1]

The last day to withdraw for every term is indicated in the Academic Calendars (https://www.apu.edu/calendar/academic/). Students must submit an Enrollment Activity Form (https://www.apu.edu/student-services/registration/#gradproforms) to the registrar in the Student Services Center (https://www.apu.edu/student-services/registration/). Students will receive a *W* (withdrawal) grade in the course from which they withdraw. Students who never attend or stop attending a course for which they are officially enrolled will receive an *F* in that course if accepted procedures for withdrawal are not followed. Approval for withdrawal after the deadline is granted only in extreme cases where extenuating circumstances are evident and can be substantiated. Any approval of a late withdrawal requires the favorable endorsement and signatures of the professor, department chair, and registrar. No financial adjustments will be made (see Return of Aid (p. 997)).

[1] International students must obtain approval from International Student Compliance (issimmigrationsvcs@apu.edu) to withdraw from courses.

# Withdrawal from the University

A student who, for any reason, finds it necessary to withdraw from the university during the course of any term or session must do so through the registrar's office in the Student Services Center (https://www.apu.edu/student-services/registration/) by filling out the Leave of Absence or University Withdrawal Form (https://www.apu.edu/student-services/registration/#gradproforms). International students must obtain approval from International Student Compliance (https://www.apu.edu/international/compliance/) to withdraw from the university. Failure to comply will mean that failing grades will be entered on the student's record. A letter indicating the student's intention of leaving the university may be submitted as well. If the student intends to return after some time, a Leave of Absence Form should be submitted to extend the time limit (p. 1054) for completing the degree (see Leaves of Absence (p. 1062) and Return of Aid (p. 997)).

Nonenrollment for a period of three consecutive terms (e.g., fall, spring, and summer) will result in administrative withdrawal from the university (see the Academic Calendars (https://www.apu.edu/calendar/academic/) for complete term and session information). An administrative withdrawal does not change a student's posted grades or account balance, nor does it generate a refund of any kind. Reapplication and department reacceptance are required to enroll again. The initial enrollment in the degree program will determine the beginning of the time limit for completing the degree, where the length of the time limit is determined by the current catalog. In rare instances, extensions may be requested by petition. Granting of such a petition may entail additional degree requirements.

# Graduate Academic Policies and Procedures

# Academic Integrity

In addition to cultivating in each student the academic skills that are required for a university degree, Azusa Pacific's mission includes imparting to each student the characteristics of academic integrity that are integral to a Christian education. Therefore, a breach of academic integrity is not merely a private matter between the student and an instructor but an act that is fundamentally inconsistent with the purpose and mission of the entire university. It is the policy of the university that academic work should represent the independent thought and activity of the individual student, and work that is borrowed from another source without attribution or used in an unauthorized way in an academic exercise is considered to be academic dishonesty that defrauds the work of others and the education system. Engaging in any academic integrity violation is a serious offense for which a student may be disciplined or dismissed.  It is each student's responsibility to review the policy and follow APU's academic integrity standards.

# I. Introduction

This Graduate Academic Integrity Policy represents a valuable educational tool for guiding faculty, staff, and students in their efforts to create a sense of community and for expressing the values that are at the core of a Christian university. As members of an academic and spiritual community, we work together to answer difficult questions, often collaborating to answer these questions, to solve problems, and to communicate effectively the knowledge we acquire through inquiry. This document calls attention to the responsibilities we have to one another in being faithful in our attempts to represent others' views, and it helps us to understand the responsibilities we have toward one another, students and faculty alike, and toward academic scholarship, as we endeavor to uphold the moral standards of our community.

# II. Types of Academic Integrity Violations

The following are examples of academic integrity violations. They are not exhaustive, but represent major categories, all of which apply regardless of the modality of course delivery (face-to-face, hybrid, or online).

## A. Plagiarism - Representing the words, ideas, or work of another source as one's own - actively or by omission - in any academic work or exercise.

1. Guidelines:

a) Ensure academic work is appropriately cited and from reputable sources.

b) Follow all distance education policies to ensure that the student who registers in a distance education course or program is the same student who participates in and completes the course or program and receives the academic credit.

c) Any online materials students use for a paper are also governed by plagiarism rules. Students need to cite electronic sources as well as printed and other sources.

d) Students may not use artificial intelligence (AI) generated materials for work submitted for credit without permission.

## B. Collaboration Integrity Violations

In courses, collaborating with another student or external person or entity beyond the extent specifically approved by the instructor is considered a violation. In coursework, research, and/or publications, the failure to acknowledge or misrepresent the collaborative efforts of others is also a violation. Collaboration principles are also violated in cases where students share their work with other students or assist others in violating any academic integrity violations listed here.

1. Guidelines:

a) The accepted level of collaboration, as well as the specific requirements for documenting your collaborative efforts, varies greatly from class to class, even within the same department. If the expectations are not clearly described in the online course materials or in a class handout, ask your instructor. Make sure you know where to draw the line between collaboration and what could be considered a violation.

b) Acknowledge assistance from others, such as help with research, statistical analysis, computer programming, or field data collection, in a paper, examination or project/research report.

c) Adhere to discipline-specific author guidelines and principles (including issues of author order, acknowledgments, etc.) in published works.

d) Assist fellow students only in approved ways. Any assistance that allows others to violate academic integrity (including a failure to report knowledge of a violation to a professor, department chair, or dean in a timely manner) is prohibited.

## C. Cheating - Using or attempting to use unauthorized materials, information, or study aids in any academic exercise.

1. Guidelines:

a) Anything submitted in any course should be the work of the student(s) registered for the course.

b) Students completing any examination should assume that external assistance (e.g., books, notes, calculators, online sources, conversations with others) is prohibited, unless specifically authorized by the instructor.

c) Acquiring, purchasing, distributing or utilizing an examination or papers from an unauthorized source is prohibited.

d) Students may not allow others to conduct research, prepare work, or take examinations for them without advance authorization from the instructor.

e) The same academic work may not be submitted for credit in more than one course without advance authorization from the instructor.

## D. Fabrication - Falsification or invention of any information or citation in an academic exercise (coursework, research, and/or publications) or lying in communications with administration, faculty, or staff.

1. Guidelines:

a) Ensure that all data represented in any paper, whether written for a course or intended for publication, is an accurate reflection of empirical data collected, and that the limitations of the data are acknowledged.

b) Ensure that all sources cited are correctly attributed, and that what is communicated regarding the source material is accurate.

c) Ensure that no sources are cited in any written work which are not utilized in the narrative.

d) Maintain honesty in all communications with faculty, administration, and staff.

## E. Unethical and Unlawful Conduct - Committing a violation of academic integrity that breaks the law or resembles criminal activity.

1. Guidelines:

a) Examples of unethical and unlawful conduct include:

- forging a grade form.

- taking credit for someone else's patent or research.

- stealing an examination from a professor or from a university office.

- buying a stolen examination.

- paying others to write papers, violating copyright laws.

- falsifying a transcript to gain access to the university or its resources or altering the record of work done at the university.

# III. Academic Integrity Responsibilities: Student

## A. Responsible Actions

Each student, as an integral member of the academic community, must make the ethical and moral commitment to not act dishonestly and to not tolerate academic dishonesty on the part of other students. It is the responsibility of each graduate student to be aware of and follow the parameters of this graduate academic integrity policy, as well as any additional details in the academic integrity policy for their program as given in their program's student handbook.

# IV. Academic Integrity Responsibilities: Faculty

## A. Knowledge and Education of Responsibilities

1. All members of the faculty are required to become aware of the policies and procedures as outlined in the Academic Integrity Policy.

2. Deans and department chairs are responsible for introducing new faculty to the policy. The orientation procedures should be done, when possible, prior to faculty activities in the classroom. The faculty member in charge of a particular course is responsible for educating and establishing guidelines for any graduate/teaching assistants in the course.

## B. Academic Behavior: Expectations from Graduate Program Faculty

1. Graduate academic program faculty are expected to make students aware of the academic integrity policy, including any unique application to that specific discipline.

2. Faculty are expected to include a written statement in their course syllabi stating the course expectations for academic behavior, and the consequences of violations of those standards. This statement may be a referral to this policy or may elaborate on additional guidelines and expectations of the faculty.

3. Faculty are expected to explain the conditions under which students are permitted to share their work, for example, outlines that can form the basis of an exam or paper, take-home exams, lab reports, and in-class examinations. Faculty should also offer guidelines when asking students

to work in teams or groups, for example, when inviting students to collaborate on problem sets, or to develop computer programs, either inside or outside of class.

4. Each faculty member will strive to establish an environment which supports the evaluation of students in a fair and reasonable manner. For example, faculty members or assigned proctors will be present in classrooms during examinations.

# V. Procedures for Handling Alleged Violations

## A. Procedure

1. If the faculty suspects an academic violation has occurred, the faculty member should gather information to support or refute their concerns. The faculty may also choose to consult department colleagues, including the program director and/or department chair, to review the evidence, provide additional interpretation of the evidence, and/or check coursework from other current or past courses for evidence of further academic violations.

   a) If it is determined that the infraction appears to only affect one course, the faculty should discuss the situation with the student(s) suspected of violating the policy. If this discussion and the evidence gathered result in the decision that the initial suspicion was unjustified, no additional action will be taken.

   b) If evidence of academic integrity violations across multiple courses is found, the program director may then choose to meet with the student, either along with or in lieu of the affected faculty member(s), at his/her discretion. If this discussion and the evidence gathered result in the decision that the initial suspicion was unjustified, no additional action will be taken.

2. If it is determined an academic integrity violation or violations occurred, the faculty member or program director shall assign a sanction as appropriate according to the syllabus for that class and the standards of the discipline and the department.

3. If the violation is singular, the faculty member will inform the program director, chair and dean of the violation. If multiple violations were found, the program director will inform the chair and dean of the violations.

4. The faculty member, or program director as applicable, will record the violation(s) with the Office of the Provost designee. Online reporting forms are available on the Provost's website at https://www.apu.edu/provost/. The Office of the Provost designee will keep a record of the violation(s) and send a letter to the student confirming their violation(s). Copies of the form and letter will be sent to the faculty member, the program director and the department chair.

5. Academic integrity violations not directly connected to one course (e.g., dissertation courses) may be handled by the program director, department chair, or dean, as appropriate.

## B. Guiding Principles for Assigning Sanctions

1. If a student is found to have violated the Academic Integrity Policy, the faculty must decide on the sanction based on the syllabus.

2. Faculty may impose sanctions on students in a particular course in documented cases of academic dishonesty, ranging from a zero on an assignment or exercise to a grade of F in the course, depending on the seriousness of the violation. The sanction may be specified in the course syllabus, or if the syllabus is not specific, the faculty member may use his or her discretion in assigning a sanction based upon the definition of academic dishonesty stated above.

   a) The faculty may take into consideration the syllabus of the course and the severity of the offense.

   b) The faculty, when assigning a sanction, may also consider as a mitigating factor the degree to which the student was honest and forthcoming regarding the violation, or any other evidence of sincere contrition.

   c) The faculty may take into account sanctions invoked in previous cases of a similar nature, and should consult the program director, department chair, dean or Office of the Provost for this information.

3. Additional sanctions may be applicable to students in disciplines where such action is specified in student program handbooks.

4. Discovery of an academic integrity violation provides the faculty member an opportunity to engage in discussions with the student about expectations of appropriate, ethical, professional behavior using a Christian worldview. Sanctions, although given as a disciplinary action, can also be used to ensure the student engages in activities to improve their practices and prevent subsequent recurrences. For example, sanctions may include having the student required to go to the Writing Center for consultation on all future course papers, or having the student rewrite the assignment (even though they will receive no grade for the work). Faculty need to clearly articulate to the student the consequences of any failure to complete the agreed upon sanctions.

5. Based upon the severity and frequency of the violation(s) suspension or dismissal from the university may be the assigned sanction.

   a) Academic integrity suspensions are a separation from the university for a specified time, with conditions that must be satisfied within that time in order to return as determined by the academic program.

b) Academic integrity dismissals are a separation from the university with no expectation to return While the student is eligible to apply for admission to another program within Azusa Pacific University after dismissal, admission after dismissal is up to the discretion of the academic program and is not automatic. Academic programs may choose not to admit a student with an Academic Integrity Dismissal on their transcripts, even if the dismissal occurred in another academic program.

c) In the case of suspension, a student's transcript will read Academic Integrity Suspension; and in the case of dismissal, it will read Academic Integrity Dismissal.

6. If it is found that academic integrity was violated in a master's level final product (e.g., capstone project or thesis), or a doctoral final product (e.g., capstone project or dissertation), a student's degree may be rescinded. Such a sanction may have additional consequences in terms of credentials or other outside certifications dependent upon that degree.

7. The University Registrar must be notified by the Office of the Provost designee and dean of an academic integrity suspension or dismissal to place proper holds on student accounts.

a) The University Registrar shall be copied in all letters to the student regarding suspension or dismissal.

b) The letters are archived in the student's permanent file.

## C. Student Appeals Procedure

1. If the student feels that the sanction is unwarranted or unjust due to new information, procedural error, or an excessive or unjust penalty, he or she must utilize a process of appeal as described in the academic catalog section: Graduate and Professional Student Grievance and Appeal Procedures. The appeal procedure begins with the student initiating a meeting with the professor of record, then meeting with the chair of the department in which the infraction occurred, and finally meeting with the dean of the school in which the infraction occurred, if warranted. For all steps in the grievance and appeal process, including the time frame for filing a grievance, refer to the academic catalog at catalog.apu.edu.

# VI. Records of Violations and Repeated Violations

## A. Records

1. The dean and the Office of the Provost designee will maintain records of all academic integrity violations. These records are used to keep account of repeated student offenses, provide aggregated data of academic integrity issues at the university, and provide data to departments on campus that need information about violations. The dean and the Office of the Provost designee will retain such records for seven (7) years after the student's graduation or separation from the university and will reveal their contents to others only with the written approval of the student or if required by law. A copy of the letter documenting a violation will also be kept in the student's student life file.

2. When the Office of the Provost designee receives a report that an academic integrity policy violation has been established, that office checks the files to determine if the student has a previous violation. If so, the Office of the Provost designee will forward the violation records to the dean of the school of the student's current program, who may assign a further sanction for the repeated offense. The standard sanction for a repeated offense is suspension or dismissal from the university.

3. It is the responsibility of the Office of the Provost designee to notify the student and the registrar of the suspension or dismissal of a student.

## B. Admission After Dismissal

1. In order to be admitted to the university after dismissal, a dismissed student must submit an application which must be approved by the dean of the school or college to which the student wishes to be admitted as well as other university offices as is otherwise required. Admission after dismissal is not guaranteed.

# VII. References

The policy was originally adapted with permission from the Notre Dame Honor Code (2007).

# Academic Probation and Dismissal

Satisfactory progress toward the graduate certificate, credential, or master's degree program is required. A 3.0 grade-point average (GPA) is considered satisfactory progress.

In the event that the GPA drops below the minimum 3.0, the student will be placed on academic probation and given one enrollment period to raise it to the satisfactory level. Exceptions to this policy may be noted in program descriptions.

Doctoral students must maintain a minimum cumulative GPA of 3.0 in 700-level courses and receive no grade below *B-* in 700-level courses. A cumulative GPA lower than 3.0 or the receipt of a grade lower than *B-* in 700-level courses will result in the student being placed on probation. A doctoral student who is on probation for more than a total of two terms throughout his or her doctoral study may be dismissed from the program.

A student may be disqualified from further graduate work at APU if a 3.0 GPA is not maintained. Dismissal actions are posted on a student's transcript.

School of Education students have additional requirements regarding academic probation and dismissal. Refer to the School of Education Academic Policies (p. 470) catalog page for more details. For questions connected to those policies, contact the School of Education dean's office.

# Change of Program

Admission to a graduate program at Azusa Pacific University is program specific. If a student changes plans and wants to enroll in a program other than that to which he or she was accepted, the student must submit a Change of Program Form (https://www.apu.edu/graduateprofessionalcenter/download/) with the Office of Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/). International students must contact International Student Compliance (https://www.apu.edu/international/compliance/), located in the Student Services Center.

A program representative will contact the student if further documentation and materials are required for this change of program. No credit toward the new degree program will be granted before written program acceptance has been secured.

# English Proficiency in the Classroom

A student's ability to speak English with clear pronunciation is an important part of a university education. It is assumed that the graduate student's spoken English will be at a high enough level to communicate and participate completely in classes. If, while in classes, it is determined that the student's ability to communicate orally and write in English is below the necessary standard, an instructor may refer him/her to the department chair, who may require him/her to enroll in a noncredit program at the student's expense. This program will enable the student to raise his/her English communication ability.

# Enrollment

Students will receive academic credit only for courses in which they are officially enrolled. Student-initiated enrollment is mandatory. Students are not permitted to attend courses in which they are not enrolled. Enrollment deadlines are published in the Academic Calendar (https://www.apu.edu/calendar/academic/). Students are expected to enroll online or submit an Enrollment Activity Form (https://www.apu.edu/student-services/registration/#gradproforms) by the returning students' registration due date.

Students seeking to enroll in graduate courses while enrolled as either an undergraduate or professional student should follow the Graduate Courses Taken by Undergraduate Students enrollment policy listed in the catalog's undergraduate (p. 1025) and professional (p. 1046) sections, respectively. Failure to follow these policies, and enrolling in graduate courses through any other method, will result in an administrative withdrawal of graduate courses.

Students admitted to the PhD in Higher Education program or the Doctoral-Level Certificate in Strengths-Oriented Higher Education program cannot be simultaneously enrolled in any other APU program, nor can they enroll in classes outside of their program.

- Adding and Dropping Classes (p. 1070)
- Administrative Withdrawal (p. 957)
- Auditing (p. 1070)
- Course Modalities and Instructional Activities (p. 1071)
- Course Tutorial (p. 1071)
- Graduate Courses Taken by Undergraduate Students (p. 1071)
- Independent Study (p. 1072)
- Late Enrollment (p. 1072)

# Adding and Dropping Classes

Students may add and drop classes without financial penalty until the Last Day to Register, Add/Drop Classes, or Submit Independent Study Proposals. Graduate students may do this online at home.apu.edu (https://home.apu.edu) or by submitting an Enrollment Activity Form (https://www.apu.edu/student-services/registration/#gradproforms).

It is the student's responsibility to officially drop a class and therefore the action must be student-initiated. The student must drop a class by the deadline to avoid financial obligation to the university or to avoid receiving an *F*, *FN*, or *W* grade. A student will owe tuition and fees for the class unless it is officially dropped by the Last Day to Add or Drop a Class (see the Academic Calendars (https://www.apu.edu/calendar/academic/) for deadlines).

Merely not attending a class does not automatically remove the class from a student's record. Students who do not initiate the drop, either through the Enrollment tab at home.apu.edu or through submission of an Enrollment Activity Form, by the drop deadline jeopardize their academic record with the possibility of incurring an *FN* grade in a course and will be expected to meet tuition and fee obligations for the class.

International students must obtain approval from International Student Compliance (https://www.apu.edu/international/compliance/), located in the Student Services Center, to add or drop a class.

Following the deadline to drop a class, a student must withdraw according to policies and procedures as stated in the Withdrawal (p. 1084) section of this catalog.

A drop will not be permitted after the deadline, except in cases of extenuating circumstances due to accident or major medical issues, serious personal or family problems, or military transfer. Valid documentation is required. An Enrollment Activity Form (https://www.apu.edu/student-services/registration/#gradproforms) with valid documentation may be submitted to the Office of the Registrar (https://www.apu.edu/student-services/registration/) in the Student Services Center for evaluation. The dates of the extenuating circumstances substantiated by documentation must have occurred during the course's session and will determine the authorized drop action date. Without valid documentation, any drop request received after the deadline published in the Academic Calendar will be processed as a withdrawal. It is the student's responsibility to check with Student Financial Services (https://apu.edu/graduateprofessionalcenter/sfs/) to determine how an approved late drop or withdrawal may affect his or her financial aid. Also, see the Withdrawal (p. 1084) section of this catalog.

## Administrative Class Drop

Successful completion of course prerequisites is essential for enrollment in subsequent courses that require prerequisites. Students who fail to pass a prerequisite course and are registered for the subsequent course should contact their academic advisor. A student-initiated drop of a course may be requested; if a student is advised to drop the course, and does not do so through the Enrollment tab at home.apu.edu or by submitting an Enrollment Activity Form (https://www.apu.edu/student-services/registration/#gradproforms), the Office of the Registrar may administratively drop the student from the course at the request of the academic department.

# Administrative Withdrawal

Nonenrollment for a period of three consecutive terms (e.g., fall, spring, and summer) will result in administrative withdrawal from the university. See the Academic Calendars (https://www.apu.edu/calendar/academic/) for complete term and session information. An administrative withdrawal does not change a student's posted grades or account balance; neither does it generate a refund of any kind. Reapplication and department reacceptance are required to enroll again. Students who are reaccepted will be held to the current catalog requirements, which may entail additional degree requirements. The initial enrollment in the degree program will determine the beginning of the time limit for completing the degree, where the length of the time limit (p. 1080) is determined by the current catalog. In rare instances, extensions may be requested by petition. Granting of such a petition may entail additional degree requirements and/or repeating of courses that have expired.

# Auditing

A qualified student may apply for permission to audit a course. The student must meet the regular university entrance requirements and pay the audit per-unit tuition rate. Students may not change their audit classification to obtain credit after the Last Day to Add or Drop Classes, or change from credit to audit after the Last Day to Withdraw from Classes. See the Academic Calendars (https://www.apu.edu/calendar/academic/) for dates.

Students must submit an Enrollment Activity Form (https://www.apu.edu/student-services/registration/#forms) to the Office of the Registrar (https://www.apu.edu/student-services/registration/) in order to enroll in a course for audit. The word AUDIT must be clearly written in the middle of the chart section of the Enrollment Activity Form and approval from the department offering the course must be indicated.

# Course Modalities and Instructional Activities

Graduate programs are taught in a variety of formats, including:

- In-Person: In-person courses deliver their instruction in classrooms on APU campuses. Students and faculty engage during regularly scheduled times in a designated classroom at their campus location. In-person faculty use Canvas to support student learning.
- Online Asynchronous: Online asynchronous courses deliver their instruction in an entirely online format. Students are not required to attend class at scheduled times; rather, they engage in independent learning activities and assignments using Canvas, in accordance with course instructions. Some online asynchronous courses may offer occasional live videoconference meetings; these courses have specific technology requirements such as access to a computing device and internet connectivity.
- Online Synchronous: Online synchronous courses deliver their instruction in an entirely online format. Using videoconferencing technology (e.g., Zoom), synchronous courses require students to meet online in real time for live instruction, group interactions, and/or other learning activities. Synchronous online courses do not meet on campus; rather, students use their personal technology to access the online classroom from off-site locations. These courses have specific technology requirements such as access to a computing device and internet connectivity.
- Hybrid (Formerly "Blended"): At least one class session is held on campus in a physical classroom. Other class sessions are conducted entirely online with no students attending class on campus for those online sessions. The online class sessions may be synchronous or asynchronous. Students must have the technology and internet access required to participate in the online sessions.
- Hyflex (Formerly "Distance Learning"): Class sessions are held on campus in a physical classroom (originating classroom) that is equipped with specialized videoconferencing equipment. Classroom proceedings are transmitted to other campuses (satellite classrooms) that have specialized videoconferencing equipment, and/or to off-campus students who connect using their personal equipment and internet connections.

Some graduate programs may have clinical placements, fieldwork, or practicum assignments at clinics, schools, hospitals, or other APU-approved organizations that meet specific program degree and/or certification requirements. Such placements and assignments may need to be completed within the geographic vicinity of APU's main campus or regional locations. Check with your department of interest regarding these requirements as part of your admission process, especially if there is a possibility you may relocate out of the area before your program is completed.

# Course Tutorial

Course tutorial study deals with the replacement of a catalog course in terms of units, content, syllabus, outline, testing, and grading basis.

In general, a course tutorial cannot substitute for a course that is offered on a regular basis, but it may occasionally be utilized to fulfill a course requirement when a course is canceled because of low enrollment. The actual course number, instead of an independent study number, is recorded on the student's permanent academic record.

Course tutorial units do not count toward the maximum 6 independent study units allowed in a graduate degree program.

An Independent Study/Course Tutorial Application (https://www.apu.edu/student-services/registration/#gradproforms) and proposal must be submitted to the Office of the Registrar (https://www.apu.edu/student-services/registration/) by the Last Day to Add or Drop Classes or Submit Independent Study Proposals. These deadlines are published in the Academic Calendars (https://www.apu.edu/calendar/academic/). A course tutorial fee will be assessed in addition to the regular tuition charge.

# Graduate Courses Taken by Undergraduate Students

An Azusa Pacific University traditional undergraduate or professional undergraduate student may enroll in a graduate course only if all of the following conditions are met:

- The student is a senior with a cumulative GPA of 3.0 or higher.
- The department chair of the student's major approves.
- The graduate department chair or graduate program director approves.
- There is space available in the course and the student has met all of the prerequisites.
- Traditional undergraduate student's request is submitted with the form provided by the Student Services Center (https://www.apu.edu/student-services/).

- Professional undergraduate student's request is submitted with the form provided by the Office of the Registrar (https://www.apu.edu/student-services/registration/).

Graduate courses taken by an undergraduate student may apply toward an APU graduate degree only if the grade received in the graduate course is 3.0 or higher and if the student is accepted into the appropriate graduate program following APU graduate admissions procedures. No more than 9 graduate units earned as an undergraduate student may be counted toward an APU graduate degree. Some departments may allow fewer units to be counted. A student who will be applying to an APU graduate program should obtain information from the appropriate department before taking graduate courses.

This policy does not apply to APU's Integrated Bachelor's/Credential Program (p. 546), which allows undergraduate students to complete 32-34 units of 500-level credential courses and apply those units to the 120+ units required for the bachelor's degree. Students in the Integrated Bachelor's/Credential Program who seek a master's degree need to apply separately to the appropriate graduate program in the School of Education (https://www.apu.edu/education/).

Individuals who complete the Integrated Bachelor's/Credential Program may use 500-level credential courses earned before the conferral of the bachelor's degree toward an APU Master of Arts in Education degree in Learning and Technology, Special Education, or Teaching. Up to 32 such units may count toward a 44-unit master's degree and up to 34 such units may count toward a 46-unit master's degree, provided that the graduate units were earned beyond the 120 units required for the undergraduate degree. All courses applied to the master's degree must be completed within five years of the first 500-level credential course enrollment that is related to this program.

The Graduate Courses Taken by Undergraduate Students policy does not apply to the Doctor of Physical Therapy program (p. 586), which offers an accelerated pathway that allows undergraduate students to complete up to 18 units of 700-level doctoral courses and apply those units to the 120+ units required for the bachelor's degree. For more information on how courses may be applied toward a graduate degree, refer to the Graduate Courses Taken by Undergraduate Students policy in the Graduate Academic Policies and Procedures section of the catalog. Students in undergraduate programs that have direct pathways into the Doctor of Physical Therapy program still need to apply separately to the APU Doctor of Physical Therapy program.

# Independent Study

Independent studies enable students to enrich their university experience by pursuing learning in a closely supervised program that provides opportunity for individual investigation of subject areas not covered in regular course offerings.

Graduate students may receive credit for a maximum of 6 units of independent study to be applied toward their degree program. No more than 4 independent study units may be applied toward one project. A maximum of 4 independent study units may be taken during one academic term. The independent study is recorded as XXX599 or XXX799 on the student's permanent academic record.

An Independent Study/Course Tutorial Application (https://www.apu.edu/student-services/registration/#gradproforms) and proposal must be submitted to the Office of the Registrar (https://www.apu.edu/student-services/registration/) by the Last Day to Add or Drop Classes or Submit Independent Study Proposals. An independent study fee (https://www.apu.edu/graduateprofessional/sfs/costs/) will be assessed in addition to the regular tuition charge.

# Late Enrollment

Students who are unable to enroll before the registration due date may enroll up until the Last Day to Register, as published in the Academic Calendars (https://www.apu.edu/calendar/academic/). Late enrollment may be requested by submitting an Enrollment Activity Form (https://www.apu.edu/student-services/registration/#gradproforms). Professor, dean, and registrar approval for enrollment after the deadline may be granted only in extreme cases where extenuating circumstances are evident and can be substantiated. A nonrefundable late-enrollment fee is charged.

# Repeated Courses

Graduate students may repeat courses at Azusa Pacific University up to two times for a total of three times taking any one course. Both grades remain on the academic record, but only the most recent grade is calculated into the student's grade-point average. The units are counted only once. If a repeated course is taken at another institution, the grade and the units of the repeated course will be transferred (providing the course meets the guidelines for transfer).

Students must follow all department program policies regarding repetition of courses, as some programs do not allow a program-specific course to be repeated more than once. Some graduate programs do allow for multiple repeats of certain courses within the program. Work with your program director for specific guidelines.

It is the responsibility of the student to notify the Office of the Registrar (https://www.apu.edu/student-services/registration/) at the time of enrollment when repeating a course. The current tuition rate is charged.

# State Authorization

The transferability of credits earned at Azusa Pacific University is at the discretion of the receiving college, university, or other educational institution. Students considering transferring to any institution should not assume that credits earned in any program of study at Azusa Pacific will be accepted by the receiving institution. Similarly, the ability of a degree, certificate, diploma, or other academic credential earned at Azusa Pacific to satisfy an admission requirement of another institution is at the discretion of the receiving institution. Accreditation also does not guarantee that credentials or credits earned at Azusa Pacific will be accepted by or transferred to another institution. To minimize the risk of having to repeat coursework, students should contact the receiving institution in advance for evaluation and determination of transferability of credits and/or acceptability of degrees, diplomas, or certificates earned.

## Program Availability in Your State

As Azusa Pacific works to meet federal and state authorization requirements in states outside California, APU's home state, we want to bring to your attention that APU's programs are not available in all states.

For more information about state authorizations for online programs and distance learning, visit the provost website (https://www.apu.edu/provost/accreditation/state-authorizations/). Specific questions about APU's State Authorization of Distance Education can be directed to ssc@apu.edu.

## Disclosure for Students Residing in Washington

The Washington Student Achievement Council (WSAC) has the authority to investigate student complaints against specific schools. WSAC may not be able to investigate every student complaint. Visit the WSAC website (https://www.wsac.wa.gov/student-complaints/) for more information regarding the WSAC complaint process.

# General Enrollment Information

# Attendance Regulation

Class attendance is of paramount importance, and excessive absences will adversely affect a student's final grade. Individual instructors define grading and attendance policies in the course instruction plan for each course. Check with your department for specific requirements.

# Deferment Information

In general, to qualify for loan deferment, a student must be enrolled at least half time (see the Study Load policy (p. 1073) for enrollment definitions). Students should contact their lender with questions regarding the terms of loan deferment eligibility.

Students who depend on loan deferments while they are enrolled in school should enroll for all sessions within the term at the same time, so the deferment will become effective with timeliness and accuracy. Students are considered enrolled as of the first day of class in a session. Updated enrollment statuses for all enrolled and recently withdrawn students are submitted to the National Student Clearinghouse once per month but may take several weeks to be relayed to lenders. If a student needs verification in the interim, they can request that a deferment letter be sent to their lender.

Future enrollment periods may not be considered for deferment. Enrollment verification is applicable only for the current term.

# Final Examinations

Assessment of learning takes place in each course per the course syllabus. If a final examination is required, no final examination shall be given to individual students before the regularly scheduled time unless there is written approval from the instructor, department chair, and school dean.

# Study Load

Academic terms are broadly defined by these designations: fall, spring, and summer (sometimes titled Summer B). Sessions of varying numbers of weeks are offered within each term. The total number of units in which a student enrolls in any number of sessions within one term determines a

student's enrollment status for study load standards, financial aid eligibility, and prior student loan deferment purposes. For example, 3 units taken in 8-week session 1 and 6 units taken in 8-week session 2 combine for a total of 9 units for that term.

All units earned through Azusa Pacific University, regardless of the number of weeks in the session in which they are taken, are semester units. See the Academic Calendars (https://www.apu.edu/calendar/academic/) for specific term and session information.

**For the Master of Arts in Clinical Psychology: Marriage and Family Therapy (MFT) program and Substance Use Disorders certificate, as well as the Master of Science in Applied Statistics and Data Science program, enrollment status is calculated as follows:**

Fall or Spring

- 4 units is half-time status
- 5-6 units is three-quarter-time status
- 7 or more units is full-time status

Summer

- 3-4 units is half-time status
- 5 units is three-quarter-time status
- 6 or more units is full-time status

**For nursing master's degree and credential/certificate programs, the Master of Public Health (MPH) program, and the postbaccalaureate Artist Certificate Program, enrollment status is calculated as follows:**

Fall, Spring, or Summer

- 3-4 units is half-time status
- 5 units is three-quarter-time status
- 6 or more units is full-time status

**For the Master of Social Work (MSW) program and master's degrees within Azusa Pacific Seminary, enrollment status is calculated as follows:**

Fall or Spring

- 4-5 units is half-time status
- 6-7 units is three-quarter-time status
- 8 or more units is full-time status

Summer

- 3-4 units is half-time status
- 5 units is three-quarter-time status
- 6 or more units is full-time status

**For teaching credential/certificate programs, enrollment status is calculated as follows:**

Fall, Spring, or Summer

- 6-8 units is half-time status
- 9-11 units is three-quarter-time status
- 12 or more units is full-time status

**For all other master's degrees and certificate/credential-only programs not mentioned above, enrollment status is calculated as follows:**

Fall or Spring

- 5-6 units is half-time status
- 7-8 units is three-quarter-time status
- 9 or more units is full-time status

Summer

- 3-4 units is half-time status
- 5 units is three-quarter-time status
- 6 or more units is full-time status

**For doctoral and clinical fellowship programs, enrollment status is calculated as follows:**

Fall, Spring, or Summer

- 3-4 units is half-time status
- 5 units is three-quarter-time status
- 6 or more units is full-time status

**With certain restrictions, students at the dissertation level are considered full time if enrolled in any one of the following courses:**

| Code | Title | Units |
| --- | --- | --- |
| EDL 770 | Dissertation Milestone: Proposal B | 2 |
| EDL 771 | Dissertation Milestone: Proposal C | 2 |
| EDL 772 | Dissertation Milestone: Finalizing the Proposal | 2 |
| EDL 773 | Dissertation Milestone: Data Collection | 2 |
| EDL 774 | Dissertation Milestone: Data Analysis | 2 |
| EDL 776 | Dissertation Milestone: Results, Discussion, and Conclusion | 2 |
| EDL 777 | Dissertation | 2 |
| GDMN 790 | Ministry Project | 4 |
| GDMN 792 | Ministry Project Continuation | 2 |
| GNRS 732 | DNP Clinical Residency | 0 |
| GNRS 733A | Residency IA | 1 |
| GNRS 733B | Residency IB | 1 |
| GNRS 733C | Residency IC | 1 |

| RMS 722 | Dissertation III: Data Collection, Results, and Analysis | 3 |
| RMS 723 | Dissertation IV: Discussion and Research Defense | 3 |
| RMS 749 | Dissertation Continuation | 1 |
| RMS 798 | Doctoral Study Continuation | 1 |

# Good Academic Standing

Graduate certificate, credential, and master's degree students are considered to be in good academic standing if they maintain a cumulative GPA of 3.0.

Doctoral students must maintain a minimum cumulative GPA of 3.0 in 700-level courses and receive no grade below *B*- in 700-level courses.

All School of Education students have additional requirements related to good academic standing; refer to the School of Education Academic Policies (p. 470) catalog page for further details. If you have questions about School of Education (https://www.apu.edu/education/) policies, contact the appropriate program or department.

# Grade Change Process

A graduate student who believes his/her grade has been reported incorrectly or wishes to challenge his/her grade should contact the instructor immediately to discuss the discrepancy. If the instructor and student agree on a grade change, the instructor will complete a Grade Change Form. No grade changes can be made to the academic record after the degree has been posted or if the student has been dismissed from the program. Work completed or corrected after the close of the grading period without an approved Incomplete Form (https://www.apu.edu/student-services/registration/#gradproforms) does not justify a grade change.

If the student is not satisfied after discussing the grade with the instructor, he/she has the option to submit to the registrar's office an Academic General Petition (https://www.apu.edu/student-services/registration/#gradproforms) form challenging the grade. This form must be returned to the Office of the Registrar (https://www.apu.edu/student-services/registration/).

A change of grade may be given on recommendation of the professor and permission of the department chair and/or dean. The grade challenge must be received within one year of the last day of the term of enrollment in the course. Questions regarding the grade change process should be directed to the registrar's office.

To appeal a denial of a petition for a grade change, see the Grievance and Appeal Procedures (p. 1081) section of this catalog.

# Grading, Including Incompletes

Grades are based on the daily work of classroom projects and examinations. Scholarship is ranked as follows:

| A | Exceptional |
| B | Good |
| C | Below average |
| D | Unsatisfactory, no credit awarded |
| F | Failure |
| I | Incomplete |
| W | Withdrawal |

A grade of *C+* or below is not acceptable in a 700-level course for doctoral degree credit; the course may be repeated to replace the grade in computing the GPA. Individual doctoral programs may have different requirements. Refer to individual sections within the catalog for specific program information. Some departments and/or schools require a higher minimum grade for coursework to meet program requirements.

Grade type (*A-F* versus credit/no credit or pass/fail) cannot change unless an official course change has been approved by the appropriate council prior to the course being offered for a particular term. Unit values for a course cannot be changed from the published values unless an official course change has been approved by the appropriate council prior to the term the course is taken.

For each credit, points are awarded according to the grade earned as follows:

| Grade A | 4.0 points |
|---|---|
| Grade A- | 3.7 points |
| Grade B+ | 3.3 points |
| Grade B | 3.0 points |
| Grade B- | 2.7 points |
| Grade C+ | 2.3 points |
| Grade C | 2.0 points |
| Grade C- | 1.7 points |
| Grade D+ | 0 points |
| Grade D | 0 points |
| Grade D- | 0 points |
| Grade F | 0 points |
| Grade FN | 0 points; Failure, Nonattending |
| Grade W[1] | 0 points, Withdrawal |
| Grade I[1] | Incomplete |
| Grade IN[1] | Incomplete—No Paperwork |
| Grade NC | 0 points, No Credit |
| Grade AU[1] | 0 points, Audit |
| Grade CR[1] | 0 points, Credit |
| Grade P[1] | 0 points, Pass |
| Grade IP[1] | 0 points, In Progress |
| Grade NG[1] | 0 points, No Grade |

[1] Does not affect grade-point average

## Incomplete ( *I*) Grade

The grade *I* (Incomplete) is to be given only if special circumstances exist. An Incomplete grade may be given upon recommendation of the professor with permission of the dean and/or chair of the respective school and/or department.

To obtain an Incomplete, the student must fill out the online Incomplete Form (https://www.apu.edu/student-services/registration/#gradproforms) before the last day of the course. The form will be sent to the instructor, chair, and dean for review and decision. An extension may be granted for up to 12 weeks from the last day of the term. The amount of time and specific coursework required is determined by the faculty member of record, based upon the nature of the student's request and the remaining work that is to be completed for the course.

An Incomplete not made up within the extended time period will be automatically changed to the grade agreed upon in the Instructor and Student Agreement section of the Incomplete Form. Petitions for one additional extension for up to 12 weeks may be requested and are subject to review and decision by the faculty member, program director, department chair, and/or dean of the school. To petition for an extension, students must fill out a new Incomplete Form.

The grade *IN* (Incomplete—No Paperwork) is a temporary grade that may be recorded by an instructor while the Incomplete Form is in process. An *IN* entered by the instructor without the subsequent submission of the proper form will automatically become an *F*. Work corrected or completed after the close of the grading period, without an approved Incomplete Form, does not justify a grade change (see also Grade Change Process (p. 1076)).

# Graduate and Professional Student Community Expectations

It is the intention of Azusa Pacific that the faith-living-learning environment be as healthy as possible and foster positive qualities of life, promoting sound academic and personal growth experiences. As university staff come alongside students during their time at APU, we strive to respect and care for each individual and their needs, while also considering the community's needs. Our goal is to keep accountability, integrity, and a call to God-honoring excellence at the center, as we encourage students to take responsibility for their actions and choices. All students are expected to abide by

the Graduate and Professional Student Community Expectations (https://www.apu.edu/graduateprofessionalcenter/student-engagement/expectations/policy/).

# Graduation Requirements and Commencement

Graduation is not automatic upon completion of all coursework in a degree program. Students who intend to graduate must apply for graduation through home.apu.edu (https://home.apu.edu/) and pay the current graduation fee. Applying for graduation through home.apu.edu is mandatory, regardless of whether the student intends to participate in a commencement ceremony. The graduation application due dates and graduation dates are listed in the Academic Calendars (https://www.apu.edu/calendar/academic/).

A degree is granted based on the completion of all requirements prior to degree posting dates. This includes verification of maintaining the minimum grade-point average for the degree program.

# Additional Degree Requirements

In addition to the completion of course requirements, individual departments establish specific degree requirements. These may include core, qualifying, and/or comprehensive examinations, growth plans, portfolios, oral presentations and examinations, written projects, theses, supervised practicums, exit interviews, or other specified department requirements. Check with the department for specific requirements.

# Additional Master's Degree or Concurrent Program Requirements

A person who already holds a master's degree from Azusa Pacific University may complete another master's degree by meeting all university and department admissions requirements and fulfilling all graduation requirements for that degree.

An applicant intending to pursue two graduate programs concurrently shall meet with representatives of both programs to plan the joint course of study. Concurrent graduate program students shall meet all university and department admissions requirements and fulfill the graduation requirements of both programs.

The additional master's or concurrent graduate program may not be an additional emphasis in the same degree. This policy does not apply to programs that are substantially different from the first degree program. When a subsequent degree is taken in the same field, two-thirds of the required courses must be different from those of the first degree. The subsequent, same-field master's or concurrent graduate degree is not eligible for transfer credit or additional course substitutions.

Students seeking licensure or professional outcomes may be required to complete all coursework and degree units for an additional degree to qualify for licensure or professional outcomes. Students wishing to pursue licensure and/or professional outcomes should discuss requirements with their program advisor to ensure they complete all coursework and units necessary to meet the minimum qualifications as required by the licensing body.

The student is required to submit an application form for the second program and be admitted to that program.

# Application for Graduation

Graduation is not automatic upon completion of all coursework in a degree program. Students who intend to graduate must apply for graduation through home.apu.edu (https://home.apu.edu) at least 120 days prior to degree posting, and pay the current graduation fee. Applying for graduation through home.apu.edu is mandatory, regardless of whether the student intends to participate in a commencement ceremony. The graduation application due dates and graduation dates are listed in the Academic Calendars (https://www.apu.edu/calendar/academic/).

A degree is granted based on the completion of all requirements prior to degree posting dates. This includes verification of maintaining the minimum grade-point average for the degree program.

# Commencement

Commencement (http://www.apu.edu/commencement/) exercises are held at the end of the fall and spring semesters. The university president, by the authority of the trustees and on the recommendation of the faculty, awards the degrees.

- A student may participate in commencement exercises only if all degree work has been completed. Eligibility to participate in commencement will be confirmed by the student's academic records specialist in the Office of the Registrar (https://www.apu.edu/student-services/registration/) in the Student Services Center.
- Details regarding the ceremonies are emailed approximately 4-6 weeks prior to commencement to the APU email address of every student who applied for graduation through home.apu.edu (https://home.apu.edu/).
- To participate in commencement exercises, all university obligations must be resolved no later than three weeks prior to commencement, including financial clearance (must have a zero account balance).
- Students who disregard the Participation in Commencement Policy and participate in a commencement ceremony fraudulently will not be allowed to participate in future commencement ceremonies and could face sanctions including (but not limited to) suspension from the university, as such actions are considered an academic integrity violation and a student conduct violation.

# Course Replacement and Substitution

Changes to degree requirements for a particular student must be approved through the Transfer Credit and Course Substitution (https://www.apu.edu/student-services/registration/#gradproforms) process by the department chair and dean, or program director and dean, and may not exceed 20 percent of the total program units required for the degree. Such changes must be substantiated with academic reasons that become part of the student's academic record.

# Degree Posting

The university posts graduate degrees to students' permanent records five times each year according to a predetermined schedule. All degree requirements, including milestones dependent on the program, must be met prior to the posting date. The posting dates for graduate students are at the end of each 16-week session (fall, spring, and summer) and at the end of the 8-week 1 and 12-week summer sessions. The regular terms and sessions for graduate students, with approximate posting dates shown in parentheses, are:

## Fall 2024

- 16-Week, 8-Week 1, and 8-Week 2 Sessions (December 14)

## Spring 2025

- 16-Week, 8-Week 1, and 8-Week 2 Sessions (May 3)

## Summer 2025

- 8-Week 1 Session (June 28)
- 12-Week Session (July 26)
- 16-Week and 8-Week 2 Sessions (August 23)

Doctoral degrees will reflect a posting date of the 1st or 15th of a month pending completion of all degree requirements, such as dissertation defense, presentation, submission, publishing approval, conference attendance, internship completion, etc. Furthermore, for those master's students who either choose or are required to complete a thesis, all requirements connected to said thesis and its submission must be completed prior to degree posting.

For degrees completed on dates other than these, the degree posting will occur on the next scheduled posting date. Degrees are posted approximately 6-8 weeks after all degree requirements are met and all grades are entered. Diplomas arrive approximately 8-12 weeks from the date of degree posting for cleared students.

Transcripts with the posted degree are available approximately four weeks after all grades have been entered and all degree requirements have been met. Degree posting begins on the Monday after the degree date and concludes when all degrees are posted.

Once the degree is posted, the degree record is complete and final. It can be rescinded only in the case of substantiated error or fraud. A student cannot add coursework to or remove coursework from the posted degree to improve grade-point average or to add concentrations or emphases, and cannot request a degree title change.

# Determining Degree Requirements

A graduate student remaining in attendance in regular session at Azusa Pacific University may, for the purpose of meeting graduation requirements, elect to meet the requirements in effect at Azusa Pacific University either at the time the student began such attendance or at graduation. Students are responsible to notify the registrar's office if they are electing to graduate under the current academic catalog. Substitutions for discontinued courses may be authorized or required by the program department or appropriate school.

Absence due to an approved educational leave shall not be considered an interruption in attendance if such absence is for the duration of two years or less. Administrative withdrawal is not considered "an approved educational leave" (see also Leaves of Absence (p. 1085)). When a student changes programs, the academic requirements applied will be determined as of the date of declaration or subsequent change.

# Grade-Point Average Requirement

All graduate students must earn a minimum cumulative grade-point average (GPA) of 3.0 in all university work attempted. Some exceptions to this policy apply to students in programs at Azusa Pacific Seminary (https://www.apu.edu/seminary/). Refer to individual sections within the catalog for specific information. Some departments and/or schools also require a minimum cumulative GPA in certain courses.

# Normal Progress Toward a Degree and Time Limit for Degree

In most APU graduate programs, a student has a maximum of eight years to complete a master's or doctoral degree, beginning from the term of initial enrollment in the degree program (an academic year is composed of three terms: fall, spring, and summer). Students in the School of Business and Management, however, have a maximum of five years to complete a graduate degree, and School of Education students have a maximum of five years to complete all program requirements, with the exception of doctoral students, who have six years to complete all program requirements. Students seeking the Master of Divinity have a maximum of 10 years to complete the degree, beginning from the first date of enrollment for coursework in the degree program, as determined by ATS accreditation. Students seeking the Master of Arts in Clinical Psychology: Marriage and Family Therapy (MFT) must complete their degree in a minimum of two years and a maximum of six; an additional year may be granted under special circumstances.

For all students, in rare instances, extensions may be requested by petition. Granting of such a petition may entail additional degree requirements and/or repeating courses that have expired.

# Thesis

The student selecting the thesis option, where available, must meet the following requirements:

1. The student must have maintained an appropriate grade-point average in all graduate courses at the time the thesis option is requested.
2. A thesis proposal must be submitted as evidence of writing ability. The student's effort will be judged by the appropriate academic department.
3. The appropriate academic department must grant approval for the writing of the thesis using the prescribed form.
4. The student must work with an Azusa Pacific University faculty member who has been approved by the department chair and dean to serve as a thesis advisor.
5. Details on the development of a thesis proposal and matters of style and format are available from the director of graduate publications in the University Libraries. The *APU Style and Format Handbook for Dissertation and Thesis Publications* is located on home.apu.edu (https://home.apu.edu) (Employee / General Resources > Academics > Forms and Publication).
6. The final thesis must have the approval of the faculty advisor, department chair, dean of the appropriate school or college, and, with respect to final preparation for preservation in the library, the director of graduate publications.

# Grievance and Appeal Procedures

Azusa Pacific University provides a means by which graduate students may file a grievance or an appeal for academic and student life issues, excluding violations of the Standards of Conduct. Examples include the appeal of an academic dismissal, academic integrity violation, or denial of a petition for a grade change (for challenging a grade after discussing the grade issue with the instructor, see the Grade Change Process (p. 1076)). Learn more about harassment (https://www.apu.edu/generalcounsel/policies/list/) and internet use (p. 1089).

An appeal is a student-initiated response to a faculty, department, or institutionally determined decision. A justifiable cause for grievance shall be defined as any act that, in the opinion of the student, is a response to behavior that is claimed by the student to adversely affect the student and is perceived as capricious, prejudicial, or an arbitrary action on the part of any university employee, or an arbitrary or unfair imposition of sanctions.

If a school's student handbook has a separate grievance procedure, the procedures described in this catalog will take precedence unless otherwise authorized by the Office of the Provost (https://www.apu.edu/provost/).

## Initial Grievance and Appeal Procedures

The grievance process described in Section II below should be used after the following means have been exhausted.

1. In the area of academics, protocol requires that student concerns or appeals be taken up first with the faculty member within 15 business days after the incident occurred. Outside of academic matters, the student should first address his/her concerns with the head of the university department in which the employee that is the subject of the grievance works within 15 business days after the incident.
2. Failure to resolve an academic grievance or appeal after meeting with the faculty member requires an appeal to the appropriate department chair within five business days, and then to the dean of the school or college within five business days of the department chair's decision. The dean may request that the student's complaint be submitted in writing. Failure to resolve a nonacademic grievance or appeal after meeting with the head of the relevant university department requires a meeting with the appropriate university vice president. In the case of student life issues, the point of final appeal before a grievance would be the associate vice president of student life.

## Guidelines for Filing a Grievance

In the event that the above procedures fail to resolve the problem, the student will indicate in writing the nature of the grievance, the evidence upon which it is based, and the redress sought. This letter, along with all supporting documents, should be submitted to the Office of the Provost designee. The supporting documents should include a written response from the dean or relevant university vice president. At that time, a Grievance Committee will be formed and proceed according to the guidelines stated below.

1. Filing a grievance shall be initiated only after other attempts to resolve the matter have been exhausted. The student has no more than 10 working days after meeting with the individual he/she believed to have given him/her cause for grievance (e.g., final meeting with the dean) in which to file his/her written statement. The time limit may be extended by the Office of the Provost designee at his/her sole discretion upon presentation of good cause.
2. The grievance process is initiated by submission of a written statement to the Office of the Provost designee. The grievance document should be a complete set of materials that the student would like the Grievance Committee to review. Additional materials will be accepted later only in extenuating circumstances, at the discretion of the committee chair. The grievance statement must include:
   a. Names of the parties involved.
   b. A clear statement of the nature of the grievance.
   c. A narrative of the incident including
      i. What occurred
      ii. When it occurred
      iii. Where it occurred
      iv. Who was present
   d. Evidence on which the grievance is based including supporting documents.
   e. Why this constitutes capricious, prejudicial, or arbitrary action on behalf of a staff or faculty member.
   f. What has been done to resolve the grievance per the "Initial Grievance and Appeal Procedures" above.
   g. The desired outcome(s).
   h. Written permission from the student authorizing distribution to members of the Grievance Committee any relevant information from the student's education record.
3. The chair of the Grievance Committee will submit a copy of the grievance to each person who will serve on the Grievance Committee for this incident, as well as to the faculty or staff members involved, the chair of the department involved, and the dean of the school or college involved.
4. A meeting of the Grievance Committee will be scheduled by the chair within 10 working days of the date on which the petition was filed.

5. Meetings of the Grievance Committee shall be attended only by the parties named in the grievance, members of the Grievance Committee, witnesses invited by the Grievance Committee, and the dean of the school or college involved. If a grievance is filed, either party may seek a support person who must be a faculty member or student in that school or college. (The support person is present to offer assistance and encouragement to either party during the committee hearing. The function of the support person shall not include that of advocacy nor shall the support person have a role in the committee's meetings). No one other than members of the Grievance Committee may be present during deliberations, but a staff member may be present when necessary.

6. The student shall not bring legal counsel nor have a student or faculty represent him/her as counsel. Likewise, the Grievance Committee shall not have legal counsel present.

7. If a committee member is approached prior to a meeting by anyone, including the student whose case is to be heard, the member shall refuse to discuss the issue and should disclose, at the time of the meeting, that he/she has been approached.

8. Any committee member who has a potential conflict of interest, or who holds a bias or preconceived notion as to the facts of the case and has formed an opinion about them, or who may hold ill will toward the grieving student or the party alleged to have given cause for the grievance, must disclose to the chair the nature of such feelings, bias, or potential conflict. He or she must be excused from participation upon request by such member, or at the discretion of the chair, and replaced by the chair with a substitute committee member of comparable station to the extent possible under the circumstances. The names of the Grievance Committee members will be reviewed in advance of the committee meeting with the student, who can confirm that he/she is not aware of any bias against him/her on the part of any of the committee members.

# The Grievance Committee

1. Membership:
   a. For academic grievances:
      i. The Office of the Provost designee will serve as chair (nonvoting except in case of tie due to absent members)
      ii. An academic dean (not from school or college involved)
      iii. Two faculty members not from the grieving student's department (or two staff members if the grievance is about staff)
      iv. Two graduate students not from the grieving student's department
      v. For any grievance concerning alleged discrimination or harassment, the director of human resources shall serve on the Grievance Committee.
   b. For nonacademic grievances:
      i. Vice President for Student Life or designee will serve as chair (nonvoting except in case of tie due to absent members)
      ii. Two faculty members not from the grieving student's department (or two staff members if the grievance is about staff)
      iii. Two graduate students not from the grieving student's department
      iv. Office of the Provost designee
      v. For any grievance concerning alleged discrimination or harassment, the director of human resources shall serve on the Grievance Committee.

2. Voting:
   a. All members (except the chair, who is nonvoting) have equal vote, and there shall be no alternates or substitutes unless one member must disqualify him/herself due to conflict of interest.

3. Meeting Time:
   a. The meeting will be scheduled within 10 working days following the filing of a written statement. The chair is authorized to extend any time periods provided in the policy if he/she determines that good cause exists (e.g., delay in meeting due to unavailability of an essential party or committee member).

# Committee Process

1. The grievance procedure shall act as a vehicle for communication among the parties, and provide, through prescribed procedures, a process through which a student-initiated grievance can be resolved.

2. The grievance process is initiated by submission of a grievance statement in writing to the Office of the Provost designee or vice president for student life, as appropriate. The committee chair will submit a copy of the grievance to each member of the Grievance Committee prior to the hearing. Thereupon, the committee will be activated and a meeting will be held to consider the matter.

3. The involved student and university employee(s) may be present at the committee meetings, except during deliberation. The meetings shall be held at times when both parties can be present. Either party may seek a support person who must be a university employee or student in that school or college. The function of the support person shall not include that of advocacy nor shall the support person have a role in the committee's meetings.

4. Accurate minutes of the grievance procedure shall be kept in a confidential university file of the committee's proceedings. The hearing may also be audio recorded at the option of the chair of the Grievance Committee.

5. In cases of conflicting information and/or when additional information is desired, the committee may request testimony from additional witnesses having information pertinent to the grievance. The committee may choose to convene more than one time if necessary.

6. No printed materials or notes may be taken from the meeting (other than the official minutes).

7. The parties and committee members may not discuss the case outside the meeting.

8. The committee will decide on the matter by simple majority and confidential vote. Both parties will be notified, in writing, within one week of the decision. The committee's vote is confidential and the decision shall be final.

## Failure to File Grievance

Any student who has a grievance complaint against the university must follow this procedure or will waive any claim against the university. An individual may contact the Bureau for Private Postsecondary Education (https://www.bppe.ca.gov/) for review of a complaint. The bureau may be contacted at P.O. Box 980818 West Sacramento, CA 95798-0818; (888) 370-7589 (phone); and (916) 263-1897 (fax).

# Petition Process

A petition process exists for students who seek an exception to stated academic policies, procedures, and regulations. Academic General Petition (https://www.apu.edu/student-services/registration/#gradproforms) forms are available online. Approval for petitions will be granted only in extreme cases where extenuating circumstances are evident and can be substantiated. It's important for the appeal to include all necessary information, as incomplete petitions will be denied. Students will be notified via email of the final decision. Any exception granted by petition does not establish guaranteed subsequent exceptions or appeals.

## Extenuating Circumstances

Extenuating circumstances—those beyond a student's control—could include, but are not limited to, those in the list below. Experiencing and documenting an extenuating circumstance is not an automatic cause for petition approval.

1. Documented death of a close family member or loved one
2. Documented major medical issue (physical or psychological) experienced by the student, living companion, or close family member or loved one
3. Documented domestic violence, sexual assault, and other forms of violence and abuse
4. Documented involuntary call to active military duty
5. Other documented extreme circumstances (case-by-case basis)

The following circumstances are **not** considered extenuating and beyond the student's control:

1. Not knowing the deadline, procedure, or policy
2. Work conflicts or nonemergency family commitments
3. Heavy work schedule or voluntary overtime
4. Not needing or wanting a class
5. Not doing well in a class
6. Not knowing you were enrolled in a class
7. Having too heavy a course load
8. Wanting to improve your GPA
9. Traveling a far distance to the school
10. Incarceration resulting from a guilty verdict

## Documentation

Your inability to provide supportive documentation may result in your appeal being denied. Submit date-specific supportive documentation, but do not submit original documents, as they will not be returned.

Documentation could include, but is not limited to:

1. Medical documentation, which could include a letter from a physician or counselor on letterhead indicating the dates you were under care.
2. Copy of a death certificate or obituary.
3. Accident reports, police records, and/or court records.
4. Statements from each individual instructor for every course change for which you are petitioning. Such statements should include confirmation of attendance, the start and/or end dates of your participation in the course, and any other information applicable to the situation for which you are petitioning. Statements are strongly recommended if you are requesting a course add, drop, or withdraw.
5. A graduation plan outlining how you plan to finish your degree requirements.

6. A statement from your academic advisor or campus authority involved in your situation.
7. Any other documentation that will support the reason for your request.

Petitions submitted without this documentation will likely be denied.

# Security Interest in Student Records

A student may not graduate or receive any diploma, certificate, grades, or letter of degree verification until all financial obligations (including student loans wherein collections are administered by the university) have been satisfied in accordance with policies described under Additional Information for Graduate and Professional Students (p. 994). Any diplomas, certificates, grades, or letters of degree verification shall be retained by the university as a security interest until all such obligations are satisfied. Release of any such security interest prior to or subsequent to any default by the debtors shall not be considered a binding precedent or modification of this policy.

# Transfer Credit

Appropriate transfer work may be accepted toward a master's degree. Students in doctoral programs should refer to those sections in the catalog for information regarding transfer units. Transfer units may not exceed 20%[1] of the units required for a master's degree. To be transferable, a course must meet the following requirements:

1. The course was completed at a regionally accredited institution.
2. The grade earned was a B or better. (Neither Pass in a pass/fail, Credit in a credit/no-credit course, nor a B- is acceptable for transfer credit. However, up to one-half of the required field education units for a theology degree may be accepted with grades of Pass or Credit.)
3. The course was completed subsequent to the awarding of the bachelor's degree.
4. The course was taken within eight years of the time in which the student begins work in the degree program. (More recent work may be required in some programs.)
5. The course must be applicable to a graduate degree at the institution where it was taken.
6. The course must not be professional development or extension coursework.

Transfer credit may be denied if any of the following is requested:

- Undergraduate coursework requested as transfer credit for an Azusa Pacific University master's degree program.
- Transfer credit or course substitution into a subsequent Azusa Pacific University master's degree.

Students in doctoral programs should refer to those sections in the catalog for information regarding transfer units. Master's degree coursework does not count as transfer credit into an Azusa Pacific University doctoral degree program.

Courses for transfer must be approved by the student's department or school, as well as by the Office of the Registrar (https://www.apu.edu/student-services/registration/), following submission of the APU Transfer Credit and Course Substitution Form (https://www.apu.edu/student-services/registration/#gradproforms).

**Students should not assume acceptance of transfer work until they receive written notification from the registrar.**

[1]     Some exceptions to the 20% limit apply in the School of Nursing (p. 598) and Azusa Pacific Seminary (p. 890); refer to those sections within the catalog for specific department policies.

# Waivers

Some departments permit waivers of certain courses. Course waivers are processed by the student's department or school/college. Contact the appropriate department for details on specific waiver procedures. Unlike transfer credit, waivers fulfill course requirements only; no units are awarded. Students with waived courses must choose alternate elective courses to satisfy the unit requirements of their degree program.

# Withdrawal

- Leaves of Absence (p. 1085)
- Withdrawal from Courses (p. 1085)
- Withdrawal from the University (p. 1085)

# Leaves of Absence

Enrolled graduate students may apply for university approval for a leave of absence from their program for a minimum of two consecutive terms/semesters and a maximum of two years. Students may return prior to the end of their leave by contacting the Office of the Registrar (https://www.apu.edu/student-services/registration/).

Leave of Absence forms (https://www.apu.edu/student-services/registration/#gradproforms) must be submitted prior to the student's absence from the university. Requests to extend a leave of absence require submission of a new Leave of Absence request prior to the extension.

The university will not consider a Leave of Absence form submitted after a student's absence or accept a backdated submission of the form. Failure to complete the required forms will result in the student having to comply with updated requirements or changes in the current catalog, if applicable. Expired leaves of absence are not renewable. Contact the registrar's office to activate enrollment prior to the return date.

Please note that Azusa Pacific University leaves of absence do not meet the definition of a Title IV Approved Leave of Absence as defined under 34 CFR 668.22 (d). As such, a student will not be reported to the National Student Loan Data System as attending the university during their leave of absence.

## Military Leaves of Absence

In the event of deployment and/or other circumstances related to military service that will disrupt a student's course of study, the student is required to submit the Leave of Absence form (https://www.apu.edu/student-services/registration/#gradproforms) to the Office of the Registrar (https://www.apu.edu/student-services/registration/). Attachment of student's military orders and/or any other supporting documentation connected to leave is required. The form is reviewed by the student's program director or department chair and the dean. The student may request any length for the leave, as long as it does not begin more than 30 days prior to the assignment date, and does not conclude more than 90 days after the end date stated on the assignment papers.

The university will allow more than one military leave of absence if the student is deployed and/or other circumstance related to military service arises. If a subsequent leave of absence is requested that is not related to military service, then the student must comply with the general Leave of Absence policy for graduate programs. If the student begins the military leave of absence after the add/drop deadline and has courses in progress, the student will be granted a *W* (Withdrawal) for those courses. Late drops will be considered via written request.

Students with this status need not reapply or pay readmission fees.

# Withdrawal from Courses

Graduate students may withdraw from a course without grade penalty at any time during the first two-thirds of the term, starting with the first day of classes.[1]

The last day to withdraw for every term is indicated in the Academic Calendars (https://www.apu.edu/calendar/academic/). Students must submit an Enrollment Activity Form (https://www.apu.edu/student-services/registration/#gradproforms) to the registrar in the Student Services Center. (https://www.apu.edu/student-services/registration/) Students will receive a *W* (withdrawal) grade in the course from which they withdraw. Students who never attend or stop attending a course for which they are officially enrolled will receive an *F* in that course if accepted procedures for withdrawal are not followed. Approval for withdrawal after the deadline is granted only in extreme cases where extenuating circumstances are evident and can be substantiated. Any approval of a late withdrawal requires the favorable endorsement and signatures of the professor, department chair, and registrar. No financial adjustments will be made (see Return of Aid (p. 997)).

[1]    International students must obtain approval from International Student Compliance (issimmigrationsvcs@apu.edu) to withdraw from courses.

# Withdrawal from the University

A student who, for any reason, finds it necessary to withdraw from the university during the course of any term or session must do so through the registrar's office in the Student Services Center (https://www.apu.edu/student-services/registration/) by filling out the Leave of Absence or University Withdrawal Form (https://www.apu.edu/student-services/registration/#gradproforms). International students must obtain approval from International Student Compliance (https://www.apu.edu/international/compliance/) to withdraw from the university. Failure to comply will mean that failing grades will be entered on the student's record. A letter indicating the student's intention of leaving the university may be submitted as well. If the student intends to return after some time, a Leave of Absence Form should be submitted to extend the time limit (p. 1080) for completing the degree (see Leaves of Absence  (p. 1085)and Return of Aid (p. 997)).

Nonenrollment for a period of three consecutive terms (e.g., fall, spring, and summer) will result in administrative withdrawal from the university (see the Academic Calendars (https://www.apu.edu/calendar/academic/) for complete term and session information). An administrative withdrawal does not change a student's posted grades or account balance, nor does it generate a refund of any kind. Reapplication and department reacceptance are

required to enroll again. The initial enrollment in the degree program will determine the beginning of the time limit for completing the degree, where the length of the time limit is determined by the current catalog. In rare instances, extensions may be requested by petition. Granting of such a petition may entail additional degree requirements.

# University-Wide Policies

- Academic Integrity (https://www.apu.edu/provost/integrity/)
- Statement of Academic Freedom (https://www.apu.edu/provost/policies/)

# Antidiscrimination Policy

Azusa Pacific University, in accordance with applicable federal and state laws and university policies, does not discriminate on the basis of race, color, national origin, sex, age, disability, medical status, or status as a veteran. The university also prohibits sexual harassment. This nondiscrimination policy covers admission, access, operation of university programs and activities, and employment. This policy is in accordance with the following laws, as amended, and their implementing regulations, to the extent and in the circumstances that they are applicable to the university: Titles VI and VII of the Civil Rights Act of 1964; Title IX of the Educational Amendments of 1972; the Americans with Disabilities Act of 1990; and Section 504 of the Rehabilitation Act of 1973.

The vice president for human resources (https://www.apu.edu/humanresources/) is the compliance officer, and inquiries concerning student issues related to discrimination should be made to the vice president for human resources at (626) 815-4526. Refer to APU's Title IX site (https://www.apu.edu/titleix/what-is-titleix/committee/) for a list of our current Title IX officers.

# Credit Hour Policy

A credit hour (https://www.apu.edu/provost/policies/#credithours) represents the amount of work governed by intended and clearly identified student learning outcomes and verified by evidence of student achievement that approximates one hour (or 50-55 minutes) of classroom or direct faculty instruction and a minimum of two hours (for undergraduate) or three hours (for graduate) of out-of-class student work each week for a 16-week term, or the equivalent amount of work over a term of a different length. Classroom or direct faculty instruction and out-of-class student work leading to the award of credit hours may vary for courses that require laboratory work, internships, practica, studio work, online work, research, guided study, study away, and other academic work to achieve the identified student learning outcomes. In addition, student workload may vary based upon program expectations established by national or regional accrediting bodies.

Assignment of credit hours for courses occurs during program/course approval processes and is monitored through faculty, curriculum, and program reviews established by the university.

# Disability Grievance Policy for Students

1. **Policy Against Disability-Related Discrimination**

   In compliance with applicable state and federal laws and regulations, including Section 504 of the Rehabilitation Act of 1973 ("Section 504") and implementing regulations, Azusa Pacific University ("APU" or the "university") does not discriminate on the basis of disability and is committed to providing equal educational opportunities for qualified disabled students. The university prohibits conduct that denigrates or shows hostility or aversion toward an individual based upon his or her disability or perceived disability, including conduct that is verbal, physical, written, graphic, or visual. Such conduct includes but is not limited to objectionable epithets, demeaning depictions or treatment, and threatened or actual abuse or harm related to an individual's disability. This nondiscrimination policy covers all qualified students with respect to admission, access, operation of university programs and activities, and employment. APU will take all reasonable steps necessary to prevent the occurrence and reoccurrence of discrimination on the basis of disability and to correct any discriminatory effects on students and others, if appropriate. No student shall be retaliated against for using this or any other grievance procedure to address any disability-related grievances.

## 2. Administration of this Grievance Procedure; Compliance Officers

Graduate, professional, and undergraduate students have the right to use this grievance procedure to resolve claims that they have been subjected to unlawful harassment or discrimination on the basis of disability, or have been denied access to services or accommodations required by law. Students are encouraged to attempt informal resolution prior to utilizing this Grievance Procedure (see Part 3, below).

If any student has a claim of discrimination based on harassment related to a claimed disability, where the alleged harassment is committed by another APU student or other APU students, the aggrieved student should follow the Harassment Reporting Procedures outlined in section 3.0 of the Student Standards of Conduct. In all other cases, unless otherwise provided herein, this grievance procedure, rather than other general APU grievance procedures (including the Graduate and Professional Student Grievance and Appeal Procedures and the Undergraduate Grievance Policies) shall govern any disability-related grievances. Please use this grievance process if there are also non-disability-related issues, and the grievance officer will consider whether to address all matters together or whether a separate process will be required for the non-disability-related issues. Questions of which grievance procedure to apply will be decided by the Section 504 compliance officer.

For grievances initiated by students, the associate vice president of human resources is the university's Section 504 compliance officer charged with administering this grievance procedure as well as ensuring compliance with applicable laws. The associate vice president of human resources can be reached by telephone at (626) 815-4526.

Accessibility and Disability Resources is the office designated for the evaluation of disability documentation and academic accommodations for APU undergraduate and graduate students. Accessibility and Disability Resources is located at 901 E. Alosta Ave., Azusa, CA 91702 and can be reached by phone at (626) 815-2067 or (626) 815-3873 (TDD), by fax at (626) 815-3859, or by email at disabilityservices@apu.edu.

## 3. Informal Resolution

Prior to initiating the formal complaint procedure set forth below in Part 4, the student must first pursue the following informal procedures. The source of the alleged discrimination dictates the informal procedures that the student must pursue:

a. If the issue concerns a claim of discrimination based on the denial of a requested accommodation by Accessibility and Disability Resources (procedures for requesting an accommodation from Accessibility and Disability Resources are available in the academic catalog and on the Accessibility and Disability Resources webpage (https://www.apu.edu/student-affairs/accessibility/)), the student must promptly make an appointment to meet with the director of accessibility and disability resources. The accessibility and disability resources director will meet with the student, review the matter, and promptly issue a written decision and provide a copy of the written decision to the student. If the accessibility and disability resources director's decision is adverse to the student, the accessibility and disability resources director will inform the student of the student's right to file a formal complaint under this grievance process.

b. If the issue concerns other claims of disability-related discrimination (including, as examples, harassment, lack of accessibility, unequal treatment, or non-accessibility services denials of accommodations), where the claim is against an APU department, faculty, or staff member or a third party, the student must make best efforts to utilize the informal procedures provided in the Initial Grievance and Appeal Procedures section of the Graduate (p. 1081) and Professional (p. 1054) Student Grievance and Appeal Procedures (for graduate and professional students), and in the Undergraduate Grievance Policy (p. 1007) (for undergraduate students). In addition, the student is encouraged to raise the issue with Accessibility and Disability Resources, as the director of accessibility and disability resources is available to serve as a resource for informally resolving disability-related grievances. The student is encouraged also to report any claims of harassment by university employees to APU's Office of Human Resources (https://www.apu.edu/humanresources/) by calling (626) 815-4526.

## 4. Formal Grievance Process

If the informal procedures in Part 3 above do not resolve the issue to the satisfaction of the student, the student may file a formal complaint in the following manner:

a. Complaints must be filed as soon as possible, but in no event later than 10 calendar days after the end of the term in which the claimed discrimination occurred.

b. A complaint must be in writing and include the following:
    i. The student's name, address, email address, and phone number;
    ii. The names of any other persons involved, including, if known, those who committed the alleged discrimination;
    iii. A clear statement of the claimed discrimination based on a disability, including, at a minimum, what occurred, the date(s) it occurred, where it occurred, who was present;
    iv. A description of what efforts have been made to resolve the issue informally;
    v. A statement of the desired outcome; and
    vi. Any other information the student wishes to provide, including statements of any witnesses to the alleged discrimination and any other supporting documentation.

c. The complaint is to be filed by delivering it to the appropriate Section 504 compliance officer, as provided in Part 2 above. If the student alleges that the appropriate Section 504 compliance officer is the party that allegedly committed the claimed discrimination, the student shall file the complaint with the Office of the Provost designee.

d. Upon receipt of the complaint, the Section 504 compliance officer will review the complaint for timeliness and compliance with this grievance procedure, and provide the aggrieved student with written notice acknowledging its receipt.

e. After reviewing the complaint, the Section 504 compliance officer will promptly refer the complaint to an appropriate grievance officer or, in the Section 504 compliance officer's discretion, to a panel of three appropriate grievance officers, who will conduct the initial investigation. An "appropriate" grievance officer is any faculty or staff member who generally is knowledgeable about disability issues and the legal mandates of state and federal disability statutes, and who had no involvement in the discrimination alleged in the complaint at issue. The Section 504 compliance officer promptly will disclose the identity of the chosen grievance officer(s) to the student and the party against whom the complaint is directed. If any party believes any grievance officer is not suited to perform the investigation because of the party's prior interactions with the grievance officer, the party must notify the Section 504 compliance officer in writing within five calendar days of such disclosure.

f. In undertaking the investigation, the grievance officer or grievance panel may interview, consult with, and/or request a written response to the issues raised in the complaint from, any individual believed by the grievance officer or grievance panel to have relevant information, including faculty, staff, and students. Before the grievance officer or grievance panel concludes the investigation and makes a recommendation, the student shall have the opportunity, if he or she desires, to be heard orally and informally to present witnesses and other relevant information to the grievance officer or grievance panel. During any such hearing, any party against whom the complaint is directed shall have the right to be present, and also to present witnesses informally and any other relevant information. The hearing is not intended to mimic official court or other legal proceedings; the grievance officer has the authority to conduct the hearing in any organized and reasonable manner, and may question any party or witness and allow any party to question any other party or witness.

g. The student and the party against whom the complaint is directed each have the right to have a representative present at the hearing. The party shall indicate whether he or she is to be assisted by a representative and, if so, the name of that representative. For purposes of this procedure, an attorney is not an appropriate representative.

h. Upon completion of the investigation, the grievance officer or grievance panel will prepare and transmit to the referring Section 504 compliance officer, the student, and the party against whom the complaint is directed, an initial report and recommendation, which shall contain a summary of the investigation, written findings, any written materials submitted by the student or any other party, and a proposed disposition with proposed remedies (if appropriate). This transmission will be expected within 30 calendar days of the filing of the formal complaint.

i. Within 15 calendar days of receipt of the grievance officer's or grievance panel's initial report and recommendation, the Section 504 compliance officer will issue a final report adopting, rejecting, or adopting with modifications the grievance officer's or grievance panel's initial report and recommendation. No party may submit additional materials to the Section 504 compliance officer unless specifically requested by the Section 504 compliance officer. In issuing the final report, the Section 504 compliance officer shall take reasonable steps to ensure consistency with final reports previously issued under this policy.

j. The final report issued by the Section 504 compliance officer shall be distributed in writing to the student and to the party against whom the complaint is directed, and shall be put into effect promptly. The final report may also be provided, where appropriate, to any university officer whose authority will be needed to carry out the remedies or to determine whether any personnel action is appropriate.

k. The initial report and recommendation and the final report shall be kept confidential by the student and the party against whom the complaint is directed, and may not be disclosed without the written consent of the issuer of the report.

l. The student or any party against whom the grievance or the proposed disposition is directed may appeal. The appeal to the provost (as set forth below) will not suspend the implementation of the final report, except in those circumstances where the provost decides that good cause exists, making the suspension of implementation appropriate.

## 5. Remedies

Possible remedies under this grievance procedure include corrective steps, actions to reverse the effects of discrimination or to end harassment, and measures to provide a reasonable accommodation. A copy of the Section 504 compliance officer's report may, where appropriate, be sent to appropriate university officer(s) to determine whether any personnel action should be pursued.

## 6. Appeal

Within 10 calendar days of the issuance of the final report, the student or the party against whom the complaint is directed may appeal the final report to the provost.

An appeal is taken by filing a written request for review with the Office of the Provost (https://www.apu.edu/provost/), which is located in the Ronald Building at 901 E. Alosta Avenue, Azusa, CA 91702, and can be reached at (626) 812-3087 or provost@apu.edu.

The written request for review must specify the particular basis for the appeal, and must be made on grounds other than general dissatisfaction with the initial decision. The appeal may raise only issues raised in the complaint or alleged errors in the conduct of the grievance procedure itself, and not new issues. The provost's review will be limited to the following considerations:

a. Were the proper facts and criteria brought to bear on the decision? Were improper or extraneous facts or criteria brought to bear that substantially affected the decision to the detriment of the appellant?

b. Were there any procedural irregularities that substantially affected the outcome of the matter to the detriment of the appellant?

c. Given the proper facts, criteria, and procedures, was the decision reasonable?

A copy of the provost's written decision will be expected within 30 calendar days of the filing of the appeal and shall be sent to the student, the party against whom the complaint is directed, the Section 504 compliance officer who issued the final report, and, if appropriate, to the university officer(s) whose authority will be needed to carry out the disposition.

The decision of the provost on the appeal is final. The provost's written decision shall be kept confidential by the student and the party against whom the complaint is directed, and may not be disclosed without the written consent of the provost.

7. ## Deadlines

a. Whenever the application of any of the time deadlines or procedures set forth in this grievance procedure creates a problem due to the nature of the complaint, the urgency of the matter, or the proximity of the upcoming event, the Section 504 compliance officer will, at the request of the student, determine whether an appropriate expedited procedure can be fashioned. Any deadline imposed in this policy may be extended by the Section 504 compliance officer for good cause, which may include breaks in the traditional academic calendar (summers and the year-end holidays).

# Internet Acceptable Use Policy

Azusa Pacific University's domain name (apu.edu (https://www.apu.edu)) and other university computer, network, and electronic mail systems exist for the primary purpose of transmitting and sharing information for the university's purposes. The use of apu.edu (https://www.apu.edu) by any member must be consistent with the mission of Azusa Pacific University and is subject to control by the university.

Computer, network, communications, and internet services exist to promote the purposes of the university. Every attempt to protect privacy will be maintained, but observation of traffic flow and content may be necessary at the university's discretion for security and legal reasons. The end-user who originates traffic will be responsible if the traffic does not conform to this policy.

## User Requirements

1. Respect the privacy of others. For example, users shall not intentionally seek information on, obtain copies of, or modify files belonging to other users.
2. Only use your own account and password; never misrepresent yourself as another user.
3. Respect the legal protection provided by copyright and licenses to programs and data.
4. Respect the integrity of apu.edu (https://www.apu.edu) so as not to interfere with or disrupt network users, services, or equipment. Interference or disruption includes, but is not limited to, distribution of unsolicited advertising, propagation of computer viruses, and use of the network to make unauthorized entry into other computational, communication, or information devices or resources.

## Acceptable Uses

1. Use as a vehicle for scholarly or university-related communications
2. Use in applying for or administering grants or contracts for research or instruction
3. Use in activities of research or direct support for instruction
4. Use must be consistent with university standards as defined in its publications.

## Unacceptable Uses

1. Use of apu.edu (https://www.apu.edu) or any other university computing resources for illegal purposes
2. Use of apu.edu (https://www.apu.edu) or any other university computing resources to transmit or receive threatening, obscene, or harassing materials
3. Sending unsolicited advertising
4. Use for personal for-profit business
5. Use of the network by employees for recreational games during working hours

## Enforcement and Violations

Action may be taken by system management, subject to the guidance and authority of the Internet Policy Committee, to prevent possible unauthorized activity by temporarily deactivating any member. Reasonable efforts will be made to inform the member prior to disconnection and to reestablish the connection as soon as an acceptable understanding has been reached. Any disciplinary action deemed necessary will be handled through the dean of the school or college.

# Notification of Rights Under FERPA

The Family Educational Rights and Privacy Act (FERPA) (https://www.apu.edu/provost/ferpa/) affords students certain rights with respect to their education records. These rights include:

1. **The right to inspect and review the student's education records within 45 days of the day the university receives a request for access.** Students should submit the Request to Inspect and Review Educational Records form (https://www.apu.edu/provost/ferpa/students/), identifying the records they wish to inspect, to the appropriate registrar. The university official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the university official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed. Students may waive their right of access to recommendations and evaluations in the cases of admissions, application for employment, and nomination for awards. The university may not require students to sign a waiver of their right of access to their records, but students should be aware that recommendations and evaluations may not be very helpful or candid without a signed waiver.

2. **The right to request the amendment of the student's education records that the student believes are inaccurate, misleading, or otherwise in violation of the student's privacy rights under FERPA. Students may ask the university to amend a record they believe is inaccurate, misleading, or in violation of the student's privacy rights under FERPA.** They should write the university official responsible for the record, clearly identify the part of the record they want changed, and specify why it should be changed. If the university decides not to amend the record as requested by the student, the university will notify the student in writing of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

3. **The right to provide written consent before the university discloses personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent.** One exception that permits disclosure without consent is disclosure to school officials with legitimate educational interests.

   A **"school official"** is
   a. a person employed by the university in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff);
   b. a person or company with whom the university has contracted as its agent to provide a service instead of using university employees or officials (such as an attorney, auditor, or collection agent);
   c. a person serving on the Board of Trustees;
   d. a student serving on an official commitment, such as a disciplinary or grievance committee, or assisting another school official in performing his/her tasks.

   A school official has a **"legitimate educational interest"** if the official needs to review an education record in order to fulfill his or her professional responsibility whenever he or she is
   a. performing a task that is specified in his or her job description or contract agreement;
   b. performing a task related to a student's education;
   c. performing a task related to the discipline of a student;
   d. providing a service or benefit relating to the student or student's family (such as health care, counseling, job placement, or financial aid); or
   e. disclosing information in response to a judicial order or legally issued subpoena.
   Another exception is that the university discloses education records without consent to officials of another school in which a student seeks enrollment or intends to enroll, upon request of officials of that other school.

4. **The right to file a complaint with the U.S. Department of Education concerning alleged failures by the university to comply with the requirements of FERPA.** The name and address of the office that administers FERPA is:

   **Family Policy Compliance Office**
   **U.S. Department of Education**
   **400 Maryland Avenue, SW**
   **Washington, DC 20202-5920**

This notice is not intended to fully explain students' rights under FERPA. Questions about the student records privacy policy (for undergraduate, professional undergraduate, and graduate students) may be directed to the Student Services Center at (626) 815-2020 or ssc@apu.edu.

# Student Legal Rights

- Student Legal Rights: Right-to-Know Notice (https://www.apu.edu/student-affairs/right-to-know/)

# Student Records Policy

The Family Educational Rights and Privacy Act of 1974, better known as the Buckley Amendment or FERPA, generally provides that: students shall have the right of access to their educational records; and with limited exceptions, educational institutions shall not release educational records to third parties without consent of the student unless specifically permitted by law.

Except in certain narrowly defined circumstances, **"students"** as used in this notice includes former students.

**"Education records"** as used in this notice are records that are directly related to "students" and are maintained by the university. "Education records" do not include peer-graded papers before they are maintained by the university (e.g., collected and recorded by a teacher).

# Directory Information

Azusa Pacific University has designated the following categories as directory information, which may, at the university's discretion, be released to the public without consent of the student: name of student, email address, telephone number (both local and permanent), photographs, dates of registered attendance, enrollment status (e.g., full-time or part-time), school or division of enrollment, major field of study, nature and dates of degrees and awards received, participation in officially recognized activities and sports, and weight and height of members of athletic teams. The university will not, however, disclose or confirm directory information to the public without written consent of the student if a student's social security number or other nondirectory information is used alone or combined with other data elements to identify or help identify the student or the student's records.

It is the general policy of the university not to release directory information regarding its students unless, in the judgment of the appropriate record custodian or other officials with record access, such release either serves a legitimate educational purpose or is not adverse to the interests and privacy of the student. The student, however, may request that certain categories of directory information not be released to the public without his/her written consent. Such requests shall be submitted in accordance with the student records policy of the university.

# Disclosure of Student Records

With certain exceptions provided by law, Azusa Pacific University cannot release information concerning students, other than directory information, from their education records to anyone other than university officials without the written consent of the student. Students and alumni applying for jobs, credit, graduate school, etc., can expedite their applications by providing the university with written permission to release specific records and to which parties the releases should be made.

The student's written consent is not required for the disclosure of grades, disciplinary action, or other information to parents of students who are dependents for federal income tax purposes. Parents requesting information regarding dependent students must demonstrate federal income dependency by submitting their most recent federal income tax return.

In addition, the university may disclose to the parents of a student the student's violation of any federal, state, or local law or any rule adopted by APU governing the possession or use of alcohol or a controlled substance if the student is under age 21.

Further, the university may disclose information from the education records of a student to his or her parents in connection with an emergency if knowledge of the information is necessary to protect the health or safety of the student or other individuals.

If the university determines that there is an articulable and significant threat to the health or safety of the student or other individuals, the university may disclose information from the student's education records to appropriate parties (including parents of the student) whose knowledge of the information is necessary to protect the health and safety of the student or other individuals. The university must keep a record of the threat and the parties to whom the information was disclosed.

Further, the university may disclose information received under a community notification program about a student who is required to register as a sex offender.

# Notification of Rights Under FERPA

The Family Educational Rights and Privacy Act (FERPA) (https://www.apu.edu/provost/ferpa/) affords students certain rights with respect to their education records. These rights include:

1. **The right to inspect and review the student's education records within 45 days of the day the university receives a request for access.** Students should submit the Request to Inspect and Review Educational Records form (https://www.apu.edu/provost/ferpa/students/), identifying the records they wish to inspect, to the appropriate registrar. The university official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the university official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed. Students may waive their right of access to recommendations and evaluations in the cases of admissions, application for employment, and nomination for awards. The university may not require students to sign a waiver of their right of access to their records, but students should be aware that recommendations and evaluations may not be very helpful or candid without a signed waiver.

2. **The right to request the amendment of the student's education records that the student believes are inaccurate, misleading, or otherwise in violation of the student's privacy rights under FERPA. Students may ask the university to amend a record they believe is inaccurate, misleading, or in violation of the student's privacy rights under FERPA.** They should write the university official responsible for the record, clearly identify the part of the record they want changed, and specify why it should be changed. If the university decides not to amend the record as requested by the student, the university will notify the student in writing of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

3. **The right to provide written consent before the university discloses personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent.** One exception that permits disclosure without consent is disclosure to school officials with legitimate educational interests.

   A **"school official"** is
   a. a person employed by the university in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff);
   b. a person or company with whom the university has contracted as its agent to provide a service instead of using university employees or officials (such as an attorney, auditor, or collection agent);
   c. a person serving on the Board of Trustees;
   d. a student serving on an official commitment, such as a disciplinary or grievance committee, or assisting another school official in performing his/her tasks.

   A school official has a **"legitimate educational interest"** if the official needs to review an education record in order to fulfill his or her professional responsibility whenever he or she is
   a. performing a task that is specified in his or her job description or contract agreement;
   b. performing a task related to a student's education;
   c. performing a task related to the discipline of a student;
   d. providing a service or benefit relating to the student or student's family (such as health care, counseling, job placement, or financial aid); or
   e. disclosing information in response to a judicial order or legally issued subpoena.
      Another exception is that the university discloses education records without consent to officials of another school in which a student seeks enrollment or intends to enroll, upon request of officials of that other school.

4. **The right to file a complaint with the U.S. Department of Education concerning alleged failures by the university to comply with the requirements of FERPA.** The name and address of the office that administers FERPA is:

   **Family Policy Compliance Office**
   **U.S. Department of Education**
   **400 Maryland Avenue, SW**
   **Washington, DC 20202-5920**

This notice is not intended to fully explain students' rights under FERPA. Questions about the student records privacy policy (for undergraduate, professional undergraduate, and graduate students) may be directed to the Student Services Center at (626) 815-2020 or ssc@apu.edu.

# Release of Transcripts

Transcripts of Azusa Pacific coursework are available approximately six weeks after the completion of courses. Requests must be made online through the National Student Clearinghouse (https://getmytranscript.com/) and should include the following information:

- Student's name
- Last term/semester attended
- Where the transcript is to be sent
- Number of copies required
- Date of graduation (if applicable)
- Social Security number
- Student ID and student's signature

The fee is $5 per copy and there is a service fee of $2.90 per mailing address. An additional fee of $1 is charged for electronic delivery. Visit the National Student Clearinghouse website and type Azusa Pacific University when prompted to begin to place an order. Requests take approximately 7-10 working days to process. Rush transcripts are available (within two working days) for an additional charge. Fees are located on the transcript fees website (https://www.apu.edu/transcripts/#fees). Contact the Student Services Center (https://www.apu.edu/student-services/) with any questions. Diplomas and/or verifications of degrees will not be released until all of the student's financial obligations to the university are met.

# Right of Access

With a few exceptions provided by law, students at Azusa Pacific University may see any of their educational records upon request. In general, access will be granted upon request to the record custodian; access must be granted no later than 45 days after the request.

Students further have the right, under established procedures, to insert a statement in the file if the student believes that the record is inaccurate, misleading, or otherwise in violation of his or her privacy rights.

Students may waive their right of access to recommendations and evaluations in the cases of admissions, application for employment, and nomination for awards. Azusa Pacific University may not require students to sign a waiver of their right of access to these records, but students should be aware that recommendations and evaluations may not be helpful or candid without a signed waiver.

# Student Success Resources

# Graduate and Professional Student Success Resources

# Academic Resources

Each of these academic student support offices is committed to offering comprehensive academic services, programming, and resources that support the holistic student experience and academic success of all Azusa Pacific graduate and professional students:

- Academic Success Center (https://www.apu.edu/academic-success/)
- Accessibility and Disability Resources (p. 1094)
- Honor Societies (p. 1097)
- Office of Research and Grants (p. 1097)
- Testing and Proctoring Services (p. 1097)
- Tutoring Center (p. 1098)
- Writing Center (p. 1098)

# Accessibility and Disability Resources

The Accessibility and Disability Resources office (https://www.apu.edu/student-affairs/accessibility/) is open year-round and provides a wide range of academic support services for APU students seeking to enhance their learning. It is the designated office for:

- Verification of disability.
- Disability documentation archive.
- Coordination of direct services for APU students with specific disabilities.

The office serves all students, regardless of degree level or campus location. Accommodations are individualized based on the learning needs of each student and upon documented verification of disability, as appropriate. Accommodation examples include, but are not limited to, extended time on exams, exams taken in a least-distracting environment, sign language interpreters, captionists, wheelchair access, and other reasonable accommodations. Accommodations are unreasonable if they would fundamentally alter the nature of academic courses, education programs, or other activities, or would result in undue financial or administrative burden.

In compliance with Section 504 of the Rehabilitation Act of 1973, APU permits service animals on campus. For more information on service animals as a disability accommodation (p. 1096), contact the director of accessibility and disability resources.

## Request for Disability Accommodations

Students with disabilities may request accommodations by following the steps below:

1. Complete a Request for Accommodations Form (https://apu-accommodate.symplicity.com/public_accommodation/) available in the Accessibility and Disability Resources office or online.
2. Provide documentation of the disability (https://www.apu.edu/student-affairs/accessibility/). More information about the documentation requirements may be found online and in the Accessibility and Disability Resources office, including referrals for diagnostic testing.
3. Schedule a meeting to discuss needs with the director or coordinator of accessibility and disability resources, who will review and decide which accommodations, if any, are reasonable and appropriate. Note that students who reside at a distance may have this meeting by phone.

Students who believe that their requests have not been adequately addressed may follow the university's Disability Grievance Policy (https://www.apu.edu/student-affairs/accessibility/#disabilitygrievancepolicy) for students.

For more information about disability accommodations or to obtain guidelines for disability documentation, stop by the Accessibility and Disability Resources office, call (626) 815-2067, or send a note to disabilityservices@apu.edu.

# Personal Care Assistance or Equipment

Students are expected to have the skills to care for themselves when functioning on campus or when occupying campus housing. Personal assistance necessitating an attendant may range from hygiene and seating assistance to medication assistance. Students requesting services from peers, staff, or faculty will be asked to obtain a personal attendant at their own expense. The provision of services by untrained individuals is considered a safety risk to the student with a disability and the individual providing the assistance.

# Mobility Impairment Parking Permits for Students

## Permanent Mobility Impairment

Students with a Disabled Person Parking Placard due to permanent mobility impairment (that is, a "DP" license plate or a placard issued by the California Department of Motor Vehicles) may park in any designated handicapped parking space on campus. In addition, students must register their vehicle with the Department of Campus Safety (https://www.apu.edu/campussafety/) to receive an APU parking permit. Appropriate documentation to verify the mobility impairment may be requested. The placard or license plate must be displayed at all times, and parking in restricted areas, such as red zones, is not permitted.

## Temporary Mobility Impairment

Students who have a temporary mobility impairment (less than one semester), such as a broken leg or short-term illness, that impacts their ability to walk short distances can request a Temporary Parking Permit that allows the student to park in any general space with the exception of restricted areas or spaces reserved for individuals with disabilities. To obtain a Temporary Parking Permit:

- Submit a completed Request for Accommodations Form (https://apu-accommodate.symplicity.com/public_accommodation/) available in the Accessibility and Disability Resources office and online.
- Provide documentation of the injury or illness from a qualified medical professional stating limitations and length of time expected for recovery.
- Meet with the director or coordinator of accessibility and disability resources to review the request.

Student vehicles must be registered with the Department of Campus Safety in order to receive a Temporary Parking Permit.

If a student injury or illness extends beyond one semester, the student should meet with the director or coordinator of accessibility and disability resources again prior to obtaining an extension of the Temporary Parking Permit.

For additional inquiries, contact Accessibility and Disability Resources at (626) 815-2067 or the Department of Campus Safety at (626) 815-5000.

# Study Away Disability Accommodations

Students requiring disability accommodations for study away are encouraged to meet with the director of accessibility and disability resources as soon as possible to determine the resources available in the country of destination. Because the laws of the United States do not always apply in other countries, physical accessibility and other accommodations may not be equal to service provided in the United States. Accessibility and Disability Resources, however, works with students to develop strategies to address their disability needs.

Each student is different, and travel to other countries requires an honest evaluation of what is required to identify and manage individual disability needs and potential issues that could occur while away. A discussion with the student about program fit, course selection, and personal needs is a collaborative effort shared by the Study Away program (http://www.apu.edu/global-engagement/) and Accessibility and Disability Resources. Open communication ensures a positive transition for students.

Procedure for students pursuing disability accommodations away:

1. Meet individually with an advisor in the Study Away program to identify the best program fit in relation to the student's goals and academic needs.
2. After a study away program has been selected, the student should meet with the director of accessibility and disability resources to discuss disability documentation and appropriate accommodations, which are considered on a case-by-case basis.
3. The director of accessibility and disability resources will research the case and communicate with the Study Away program to determine the feasibility of providing accommodations at the anticipated location away.
4. A follow-up meeting at Accessibility and Disability Resources will be held with the student to discuss available accommodations at the location away and a possible plan of action.

# Service Animals

## Notice of Service Animal as a Disability Accommodation Policy

Service animals perform some of the functions and tasks that an individual with a disability cannot perform. Guide dogs are one type of service animal, used by some individuals who are blind. A guide dog is the type of service animal with which many are familiar. There are, however, service animals that assist persons with other kinds of disabilities in their day-to-day activities. Some examples include:

- Alerting persons with hearing impairments to sounds.
- Pulling wheelchairs or carrying and picking up things for persons with mobility impairments.
- Assisting persons with mobility impairments with balance.

A service animal is <u>not</u> a pet.

Pursuant to section 504 of the Rehabilitation Act of 1973 and its implementing regulations, Azusa Pacific University ("university") permits the use of a service animal in accordance with its Service Animal as a Disability Accommodation Policy. Section 504 prohibits discrimination on the basis of a disability under any program or activity of the university receiving federal financial assistance.

The intent of the university is to fully comply with section 504 of the Rehabilitation Act of 1973, and under that law the university permits the use of a service animal by an individual with a disability as further set forth in the policy.

A service animal is a dog that is individually trained to do work or perform tasks for the benefit of the individual with a disability. Other species of animals, whether wild or domestic, trained or untrained, are not service animals. The work or tasks performed by the service animal must be directly related to the individual's disability. The crime deterrent effects of an animal's presence and the provision of emotional support, well-being, comfort, or companionship do not constitute work or tasks for the purposes of this definition.

Questions about this policy may be directed to the director of Accessibility and Disability Resources (https://www.apu.edu/student-affairs/accessibility/), 901 E. Alosta Ave., Azusa, CA 91702, East Campus, at (626) 815-2067 or disabilityservices@apu.edu, and any complaints alleging a violation of the policy or noncompliance with its provisions will be governed by the university's Disability Grievance Policy for Students (p. 1086). Copies are available at the office of the director of Accessibility and Disability Resources, East Campus (near the intersection of East Alosta Avenue and North Citrus Avenue).

## Service Animal as a Disability Accommodation Policy

In compliance with Section 504 of the Rehabilitation Act of 1973 including its implementing regulations, Azusa Pacific University ("university") does not discriminate on the basis of disability and is committed to providing equal educational opportunities for disabled students who qualify. The university permits the use of a service animal in accordance with its Service Animal as a Disability Accommodation Policy, as follows:

### I. Definition

**"Service animal"** means any dog that is individually trained to do work or perform tasks for the benefit of an individual with a disability including a physical, sensory, psychiatric, intellectual, or other mental disability. Other species of animals, whether wild or domestic, trained or untrained, are not service animals for the purposes of this definition. The work or tasks performed by a service animal must be directly related to the individual's disability. Examples of work or tasks include, but are not limited to, assisting individuals who are blind or have low vision with navigation and other tasks, alerting individuals who are deaf or hard of hearing to the presence of people or sounds, providing nonviolent protection or rescue work, pulling a wheelchair, assisting an individual during a seizure, alerting individuals to the presence of allergens, retrieving items such as medicine or the telephone, providing physical support and assistance with balance and stability to individuals with mobility disabilities, and helping persons with psychiatric and neurological disabilities by preventing or interrupting impulsive or destructive behaviors. The crime deterrent effects of an animal's presence and the provision of emotional support, well-being, comfort, or companionship do not constitute work or tasks for the purposes of this definition.

### II. In General

Azusa Pacific University permits the use of a service animal by an individual with a disability. APU requests such an individual complete a Request for Accommodations Form (https://apu-accommodate.symplicity.com/public_accommodation/) and discuss his or her accommodation needs with an advisor in the ADR.

### III. Other Provisions

1. **Removal of Service Animal**. The university may ask an individual to remove a service animal from the premises if:
   a. The animal is out of control and the animal's handler does not take effective action to control it;
   b. The animal is not housebroken; or
   c. The animal poses a direct threat to the health and safety of others (allergies and a fear of animals by others, generally, are not valid reasons for denying a student the right to have a service animal on university premises).  A direct threat to the health and safety of others may be the basis for reasonable time, place, and manner restrictions.

2. **If an Animal is Properly Excluded**. If the university properly excludes a service animal under this policy, it shall give the individual with a disability the opportunity to obtain goods, services, and accommodations without having the service animal on the premises.

3. **Animal Under Handler's Control**. A service animal shall be under the control of its handler. A service animal shall have a harness, leash, or other tether, unless either the handler is unable because of a disability to use a harness, leash, or other tether, or the use of a harness, leash, or other tether would interfere with the service animal's safe, effective performance of work or tasks, in which case the service animal must be otherwise under the handler's control (e.g., voice control, signals, or other effective means).

4. **Care or Supervision**. The university is not responsible for the care or supervision of a service animal.

5. **Inquiries**. The university shall not ask about the nature or extent of a person's disability, but may make two inquiries to determine whether an animal qualifies as a service animal. The university may ask if the animal is required because of a disability and what work or task the animal has been trained to perform. The university shall not require documentation, such as proof that the animal has been certified, trained, or licensed as a service animal. Generally, the university may not make these inquiries about a service animal when it is readily apparent that an animal is trained to do work or perform tasks for an individual with a disability (e.g., the dog is observed guiding an individual who is blind or has low vision, pulling a person's wheelchair, or providing assistance with stability or balance to an individual with an observable mobility disability).

6. **Access to Areas of the University**. An individual with a disability shall be permitted to be accompanied by his or her service animal in all areas of the university where members of the public, program participants, clients, customers, patrons, or invitees, as relevant, are allowed to go.

7. **Surcharges**. The university shall not ask or require an individual with a disability to pay a surcharge, even if people accompanied by pets are required to pay fees, or to comply with other requirements generally not applicable to people without pets. If the university normally charges individuals for the damage they cause, an individual with a disability may be charged for damage caused by his or her service animal.

8. **Questions**. Questions about this policy may be submitted to the director of Accessibility and Disability Resources, 901 E. Alosta Ave., Azusa, CA 91702, at (626) 815-2067 or disabilityservices@apu.edu.

9. **Complaints/Grievance Policy**. Complaints alleging any violation of this policy or noncompliance with its provisions will be governed by the university's Disability Grievance Policy for Students (p. 1086). Copies are available at the office of the Director of Accessibility and Disability Resources.

# Honor Societies

Visit the APU website to learn more about APU Honor Societies (https://www.apu.edu/provost/apuhonorsocieties/).

# Office of Research and Grants

The Office of Research and Grants (https://www.apu.edu/researchandgrants/) (ORG) promotes, supports, and celebrates research and grant opportunities, which contributes to APU's identity as an institution of "high research activity." Research is celebrated through a variety of avenues, including hosting faculty sabbatical and Fulbright presentations, communicating frequent bulletins that highlight scholarly activities, publishing the *Faculty Scholarship Updates* regularly, and disseminating a quarterly *Cornerstone* newsletter featuring recent academic accomplishments and research-related activities by APU students, staff, and faculty. ORG promotes faculty research by hosting faculty writers' retreats each year and assisting faculty with identifying external funding sources, reviewing application drafts, processing grant proposals through APU's routing system, submitting completed grant applications to prospective funding sources, and assisting faculty in administering and managing sponsored grant awards. In addition, ORG promotes ethical practices in research through its oversight of the Institutional Review Board (IRB) (https://www.apu.edu/researchandgrants/ethics/#human-subject-irb) and the Institutional Animal Care and Use Committee (IACUC) (https://www.apu.edu/researchandgrants/ethics/#animal-subjects-iacuc), which review and approve all regulated research at APU involving human (IRB) and animal (IACUC) subjects. Accordingly, APU graduate students often interface with these bodies, especially the IRB, in their pursuit of research activities.

ORG provides graduate student travel awards, which are internal grants to support graduate students in presenting their research at professional conferences. Graduate student travel award applications (https://www.apu.edu/researchandgrants/internal/#graduate-student-travel) are available online, and can also be obtained by contacting the ORG office (https://www.apu.edu/researchandgrants/#contact).

Finally, ORG supports graduate student dissertation and thesis publication through the office of Graduate Student Publications (GSP) (https://www.apu.edu/researchandgrants/#graduate-student-publications) housed in ORG. The GSP office works with graduate programs to ensure appropriate style and formatting of all APU dissertations and theses, and assists students in preparing these documents for publication on the ProQuest portal as required for degree completion.

# Testing and Proctoring Services

The Academic Success Center (ASC) Testing Services office (https://www.apu.edu/academic-success/services/testing/) administers many testing and proctoring services as a support to the APU academic community and general public.

- Math Placement Assessment (p. 1098)

View our full list of services, including placement assessments, testing services, and proctoring services. (https://www.apu.edu/academic-success/services/testing/)

# Math Placement Assessment

Professional students who need to take PRMA 110, PRMA 130, or UNRS 299 and lack the course prerequisites (https://www.apu.edu/student-services/registration/#requirement) are required to use ALEKS in order to demonstrate preparedness to take these courses. ALEKS PPL (https://www.apu.edu/student-services/registration/#aleks) is a state-of-the-art placement system that enables students to take a placement assessment (https://www.apu.edu/student-services/registration/#start) up to five times and provides a personalized Prep and Learning Module (https://www.apu.edu/student-services/registration/#prep) to help students review in between assessments.

The required ALEKS scores are indicated in the table below.

| Course(s) | Prerequisite(s) |
| --- | --- |
| College Algebra (PRMA 110) | ALEKS score of 45-59 (a score of 60 or higher waives PRMA 110) |
| Statistics (PRMA 130) | ALEKS score of 30 or higher |
| Statistics for Nursing (UNRS 299) | ALEKS score of 45 or higher |

# Tutoring Center

Tutoring is available at no additional charge for numerous academic subjects. Specific subject areas change each semester based on student demand and the availability of qualified peer tutors.

The Tutoring Center offers drop-in availability for some subject areas during prescheduled times, and online and in-person appointments for one-on-one sessions as well as small-group tutoring.

Tutoring empowers students to become more confident, effective, and independent learners. To learn more, visit the Tutoring Center website (https://sites.google.com/apu.edu/tutoring/welcome/). You may also schedule a tutoring appointment online (https://sites.google.com/apu.edu/tutoring/appointment-help/how-to-schedule-appointments/) or contact us at tutoringcenter@apu.edu or (626) 815-6120.

# Writing Center

The APU Writing Center offers several forms of writing support that are free and available to all APU students:

- **In-Person Appointments:** Students may meet with writing coaches at any stage of the writing process and receive individualized support to improve their writing projects and their long-term writing skills. Schedule an appointment (https://sites.google.com/apu.edu/tutoring/appointment-help/how-to-schedule-appointments/), or visit the APU Writing Center website (https://www.apu.edu/writingcenter/) to learn more about us and our services.
- **Online Appointments:** During online appointments, students and writing coaches use Zoom and a mutual whiteboard space or shared screen to work together in real time.
- **Drop-In Hours:** The center offers drop-in hours, where students meet with writing coaches individually or in groups. View the current drop-in hours and location. (https://sites.google.com/apu.edu/tutoring/drop-ins/)
- **Workshops:** The center offers in-class workshops by faculty request. Faculty may request classroom workshops by using our Writing Center Service Request Form (https://formstack.apu.edu/forms/writing_center_service_request_form/).
- **Resources:** Our Google site (https://sites.google.com/apu.edu/tutoring/writing-resources/) houses PDF resources on more than 35 writing challenges ranging from brainstorming to documentation.
- **Speaking Center Appointments:** Students may meet with speaking coaches and receive individualized support to improve their speaking projects and presentation assignments.

## Locations

APU's Writing Center is open year-round, excluding holidays and university closures, and has locations in Marshburn Library (East Campus), Segerstrom Science Center (West Campus), and online.

# Student Affairs

## About Student Affairs

### Thrive at APU!

At Azusa Pacific University, our Student Affairs team of Christ-centered educators believes in the holistic development of all students. Our hope is that learning extends beyond the classroom into all areas of students' lives as they strive to become the person God has called them to be. Through a variety of services and programs, we are dedicated to creating environments and experiences that encourage students throughout their journey to develop a commitment to lifelong learning in the areas of Christian spiritual formation, student engagement, and student wellness. Our desire is for each student to develop a deeper understanding of their identity, faith, academic goals, and vocational pursuits, and to become a difference maker who will impact their communities for Christ.

## Our Three Pillars of Student Development

### Spiritual Formation

We believe that the life-changing good news of Jesus Christ is both an eternal promise and an invitation to be part of God's work in the world now. In the classrooms and the residence halls, on the field and in chapel, around the world and across the street, we are engaging all students in the personal and collective process of being formed in the image of Christ for the sake of others.[1] We foster students' spiritual development by providing opportunities to participate in corporate worship, local and global service, Christian formation, and spiritual care.

[1]    Adapted from R. Mullholand, 2016.

### Student Engagement

We believe a student's sense of belonging contributes to their success both inside and outside of the classroom. Each student is a valuable member of our community and their contribution at APU makes a difference. Student Engagement provides a variety of opportunities for students to build meaningful connections with others and contribute to the needs and shared goals of the community.

### Student Wellness

We believe that students who invest in their holistic well-being are more likely to reach their academic and personal potential. We provide Christ-centered wellness services, programs and educational opportunities that empower students and the APU community to thrive physically, emotionally, socially and spiritually.

## Resources

- Campus Life (p. 1099)
- Commuter Life (p. 1100)
- Disability Grievance Policy for Students (p. 1086)
- Graduate and Professional Spiritual Life (p. 1103)
- Graduate and Professional Student Community Expectations (p. 1077)
- Graduate and Professional Student Engagement (p. 1103)

- International Services (p. 1104)
- University Counseling Center (p. 1105)

# Campus Life

The Office of Campus Life (https://www.apu.edu/campus-life/) offers purposeful programming to help students develop a sense of belonging and personal growth throughout their APU experience.

## Office Values

- Intentional Connection: Belonging grounds your pursuit toward who you are becoming
- Self-Development: Unlock and embrace your full potential
- Diverse Opportunities: An invitation to explore and discover your interests

## Mission Statement

Create meaningful experiences.

## Fulfilling Our Mission

Campus Life fulfills its mission through the following:

- Campus Events: (https://www.apu.edu/campus-life/events/) Campus-wide engagement opportunities to foster a sense of community.
- Campus Recreation: (https://www.apu.edu/campus-life/recreation/) Coordinating physical and electronic sports throughout the academic year.
- Clubs and Organizations: (https://www.apu.edu/campus-life/clubs/) Supporting student-managed groups, including performing arts clubs, social clubs, service organizations, academic clubs, honors societies, and club sports. Azusa Pacific University does not allow or recognize national social clubs, fraternities, or sororities.

# Commuter Life

The Office of Commuter Life (https://www.apu.edu/commuter-life/) provides opportunities and services to all commuter students at Azusa Pacific University.

## Mission Statement

The Commuter Life office exists to provide opportunities and services to all commuter students at Azusa Pacific University in order to create a sense of belonging on campus that fosters personal development and academic success through cocurricular and extracurricular engagement.

## Location

The Student Union, also known as the Cougar Dome, houses the Commuter Life office. The Student Union is one of the primary on-campus socialization and information hubs for the student community.

## Fulfilling Our Mission

Commuter Life's student leaders, known as Commuter Life Assistants (CLAs), and professional staff fulfill their mission by offering a variety of services and programs for commuters, including but are not limited to free printing, lockers, and a variety of amenities. The office seeks to provide an environment where students feel equipped to navigate university resources and ultimately find a sense of belonging on campus. The office regularly hosts commuter meals and events to foster community engagement amongst commuter students.

Commuter Life takes a special interest in meeting the needs of the university's commuter student population by also partnering with offices such as Campus Life (https://www.apu.edu/campus-life/). Many of the programs coordinated by the Campus Life staff are geared toward enhancing the quality of the student experience for commuters, and special discounts and benefits are offered to the commuter student population to encourage their involvement and attendance at Campus Life-sponsored events.

# Disability Grievance Policy for Students

1. **Policy Against Disability-Related Discrimination**

   In compliance with applicable state and federal laws and regulations, including Section 504 of the Rehabilitation Act of 1973 ("Section 504") and implementing regulations, Azusa Pacific University ("APU" or the "university") does not discriminate on the basis of disability and is committed to providing equal educational opportunities for qualified disabled students. The university prohibits conduct that denigrates or shows hostility or aversion toward an individual based upon his or her disability or perceived disability, including conduct that is verbal, physical, written, graphic, or visual. Such conduct includes but is not limited to objectionable epithets, demeaning depictions or treatment, and threatened or actual abuse or harm related to an individual's disability. This nondiscrimination policy covers all qualified students with respect to admission, access, operation of university programs and activities, and employment. APU will take all reasonable steps necessary to prevent the occurrence and reoccurrence of discrimination on the basis of disability and to correct any discriminatory effects on students and others, if appropriate. No student shall be retaliated against for using this or any other grievance procedure to address any disability-related grievances.

2. **Administration of this Grievance Procedure; Compliance Officers**

   Graduate, professional, and undergraduate students have the right to use this grievance procedure to resolve claims that they have been subjected to unlawful harassment or discrimination on the basis of disability, or have been denied access to services or accommodations required by law. Students are encouraged to attempt informal resolution prior to utilizing this Grievance Procedure (see Part 3, below).

   If any student has a claim of discrimination based on harassment related to a claimed disability, where the alleged harassment is committed by another APU student or other APU students, the aggrieved student should follow the Harassment Reporting Procedures outlined in section 3.0 of

the Student Standards of Conduct. In all other cases, unless otherwise provided herein, this grievance procedure, rather than other general APU grievance procedures (including the Graduate and Professional Student Grievance and Appeal Procedures and the Undergraduate Grievance Policies) shall govern any disability-related grievances. Please use this grievance process if there are also non-disability-related issues, and the grievance officer will consider whether to address all matters together or whether a separate process will be required for the non-disability-related issues. Questions of which grievance procedure to apply will be decided by the Section 504 compliance officer.

For grievances initiated by students, the associate vice president of human resources is the university's Section 504 compliance officer charged with administering this grievance procedure as well as ensuring compliance with applicable laws. The associate vice president of human resources can be reached by telephone at (626) 815-4526.

Accessibility and Disability Resources is the office designated for the evaluation of disability documentation and academic accommodations for APU undergraduate and graduate students. Accessibility and Disability Resources is located at 901 E. Alosta Ave., Azusa, CA 91702 and can be reached by phone at (626) 815-2067 or (626) 815-3873 (TDD), by fax at (626) 815-3859, or by email at disabilityservices@apu.edu.

3. ## Informal Resolution

Prior to initiating the formal complaint procedure set forth below in Part 4, the student must first pursue the following informal procedures. The source of the alleged discrimination dictates the informal procedures that the student must pursue:

a. If the issue concerns a claim of discrimination based on the denial of a requested accommodation by Accessibility and Disability Resources (procedures for requesting an accommodation from Accessibility and Disability Resources are available in the academic catalog and on the Accessibility and Disability Resources webpage (https://www.apu.edu/student-affairs/accessibility/)), the student must promptly make an appointment to meet with the director of accessibility and disability resources. The accessibility and disability resources director will meet with the student, review the matter, and promptly issue a written decision and provide a copy of the written decision to the student. If the accessibility and disability resources director's decision is adverse to the student, the accessibility and disability resources director will inform the student of the student's right to file a formal complaint under this grievance process.

b. If the issue concerns other claims of disability-related discrimination (including, as examples, harassment, lack of accessibility, unequal treatment, or non-accessibility services denials of accommodations), where the claim is against an APU department, faculty, or staff member or a third party, the student must make best efforts to utilize the informal procedures provided in the Initial Grievance and Appeal Procedures section of the Graduate (p. 1081) and Professional (p. 1054) Student Grievance and Appeal Procedures (for graduate and professional students), and in the Undergraduate Grievance Policy (p. 1007) (for undergraduate students). In addition, the student is encouraged to raise the issue with Accessibility and Disability Resources, as the director of accessibility and disability resources is available to serve as a resource for informally resolving disability-related grievances. The student is encouraged also to report any claims of harassment by university employees to APU's Office of Human Resources (https://www.apu.edu/humanresources/) by calling (626) 815-4526.

4. ## Formal Grievance Process

If the informal procedures in Part 3 above do not resolve the issue to the satisfaction of the student, the student may file a formal complaint in the following manner:

a. Complaints must be filed as soon as possible, but in no event later than 10 calendar days after the end of the term in which the claimed discrimination occurred.

b. A complaint must be in writing and include the following:
   i. The student's name, address, email address, and phone number;
   ii. The names of any other persons involved, including, if known, those who committed the alleged discrimination;
   iii. A clear statement of the claimed discrimination based on a disability, including, at a minimum, what occurred, the date(s) it occurred, where it occurred, who was present;
   iv. A description of what efforts have been made to resolve the issue informally;
   v. A statement of the desired outcome; and
   vi. Any other information the student wishes to provide, including statements of any witnesses to the alleged discrimination and any other supporting documentation.

c. The complaint is to be filed by delivering it to the appropriate Section 504 compliance officer, as provided in Part 2 above. If the student alleges that the appropriate Section 504 compliance officer is the party that allegedly committed the claimed discrimination, the student shall file the complaint with the Office of the Provost designee.

d. Upon receipt of the complaint, the Section 504 compliance officer will review the complaint for timeliness and compliance with this grievance procedure, and provide the aggrieved student with written notice acknowledging its receipt.

e. After reviewing the complaint, the Section 504 compliance officer will promptly refer the complaint to an appropriate grievance officer or, in the Section 504 compliance officer's discretion, to a panel of three appropriate grievance officers, who will conduct the initial investigation. An "appropriate" grievance officer is any faculty or staff member who generally is knowledgeable about disability issues and the legal mandates of state and federal disability statutes, and who had no involvement in the discrimination alleged in the complaint at issue. The Section 504 compliance officer promptly will disclose the identity of the chosen grievance officer(s) to the student and the party against whom the complaint

is directed. If any party believes any grievance officer is not suited to perform the investigation because of the party's prior interactions with the grievance officer, the party must notify the Section 504 compliance officer in writing within five calendar days of such disclosure.

f.  In undertaking the investigation, the grievance officer or grievance panel may interview, consult with, and/or request a written response to the issues raised in the complaint from, any individual believed by the grievance officer or grievance panel to have relevant information, including faculty, staff, and students. Before the grievance officer or grievance panel concludes the investigation and makes a recommendation, the student shall have the opportunity, if he or she desires, to be heard orally and informally to present witnesses and other relevant information to the grievance officer or grievance panel. During any such hearing, any party against whom the complaint is directed shall have the right to be present, and also to present witnesses informally and any other relevant information. The hearing is not intended to mimic official court or other legal proceedings; the grievance officer has the authority to conduct the hearing in any organized and reasonable manner, and may question any party or witness and allow any party to question any other party or witness.

g.  The student and the party against whom the complaint is directed each have the right to have a representative present at the hearing. The party shall indicate whether he or she is to be assisted by a representative and, if so, the name of that representative. For purposes of this procedure, an attorney is not an appropriate representative.

h.  Upon completion of the investigation, the grievance officer or grievance panel will prepare and transmit to the referring Section 504 compliance officer, the student, and the party against whom the complaint is directed, an initial report and recommendation, which shall contain a summary of the investigation, written findings, any written materials submitted by the student or any other party, and a proposed disposition with proposed remedies (if appropriate). This transmission will be expected within 30 calendar days of the filing of the formal complaint.

i.  Within 15 calendar days of receipt of the grievance officer's or grievance panel's initial report and recommendation, the Section 504 compliance officer will issue a final report adopting, rejecting, or adopting with modifications the grievance officer's or grievance panel's initial report and recommendation. No party may submit additional materials to the Section 504 compliance officer unless specifically requested by the Section 504 compliance officer. In issuing the final report, the Section 504 compliance officer shall take reasonable steps to ensure consistency with final reports previously issued under this policy.

j.  The final report issued by the Section 504 compliance officer shall be distributed in writing to the student and to the party against whom the complaint is directed, and shall be put into effect promptly. The final report may also be provided, where appropriate, to any university officer whose authority will be needed to carry out the remedies or to determine whether any personnel action is appropriate.

k.  The initial report and recommendation and the final report shall be kept confidential by the student and the party against whom the complaint is directed, and may not be disclosed without the written consent of the issuer of the report.

l.  The student or any party against whom the grievance or the proposed disposition is directed may appeal. The appeal to the provost (as set forth below) will not suspend the implementation of the final report, except in those circumstances where the provost decides that good cause exists, making the suspension of implementation appropriate.

## 5. Remedies

Possible remedies under this grievance procedure include corrective steps, actions to reverse the effects of discrimination or to end harassment, and measures to provide a reasonable accommodation. A copy of the Section 504 compliance officer's report may, where appropriate, be sent to appropriate university officer(s) to determine whether any personnel action should be pursued.

## 6. Appeal

Within 10 calendar days of the issuance of the final report, the student or the party against whom the complaint is directed may appeal the final report to the provost.

An appeal is taken by filing a written request for review with the Office of the Provost (https://www.apu.edu/provost/), which is located in the Ronald Building at 901 E. Alosta Avenue, Azusa, CA 91702, and can be reached at (626) 812-3087 or provost@apu.edu.

The written request for review must specify the particular basis for the appeal, and must be made on grounds other than general dissatisfaction with the initial decision. The appeal may raise only issues raised in the complaint or alleged errors in the conduct of the grievance procedure itself, and not new issues. The provost's review will be limited to the following considerations:

a.  Were the proper facts and criteria brought to bear on the decision? Were improper or extraneous facts or criteria brought to bear that substantially affected the decision to the detriment of the appellant?

b.  Were there any procedural irregularities that substantially affected the outcome of the matter to the detriment of the appellant?

c.  Given the proper facts, criteria, and procedures, was the decision reasonable?

A copy of the provost's written decision will be expected within 30 calendar days of the filing of the appeal and shall be sent to the student, the party against whom the complaint is directed, the Section 504 compliance officer who issued the final report, and, if appropriate, to the university officer(s) whose authority will be needed to carry out the disposition.

The decision of the provost on the appeal is final. The provost's written decision shall be kept confidential by the student and the party against whom the complaint is directed, and may not be disclosed without the written consent of the provost.

7. **Deadlines**
   a. Whenever the application of any of the time deadlines or procedures set forth in this grievance procedure creates a problem due to the nature of the complaint, the urgency of the matter, or the proximity of the upcoming event, the Section 504 compliance officer will, at the request of the student, determine whether an appropriate expedited procedure can be fashioned. Any deadline imposed in this policy may be extended by the Section 504 compliance officer for good cause, which may include breaks in the traditional academic calendar (summers and the year-end holidays).

# Graduate and Professional Spiritual Life

Azusa Pacific University's graduate, professional undergraduate, and nontraditional undergraduate students are invited to a journey toward growth and wholeness in a way that integrates intellectual and spiritual dimensions in the transformation of the soul.

APU invites graduate, professional undergraduate, and nontraditional undergraduate students to a deeper knowledge of God through Jesus Christ with a commitment to:

1. Make available to every student a personal point of encounter with Jesus Christ and His call to those students.
2. Provide resources that allow students to consider their spiritual journey in an integrated way with their vocational growth.
3. Convey with clarity the Christ-centered nature of the university's approach to education from a Christian perspective, with particular concern for the transformation of the soul.

Graduate, professional undergraduate, and nontraditional undergraduate students can participate through:

- Semimonthly email contact from a pastor
- The Prayer Partners Program (submitting prayer requests)
- Pastoral care

APU brings students to a deeper knowledge of God through Jesus Christ and therefore embraces the diversity of students and faiths in APU's constituency. While maintaining integrity with regard to the university's heritage and calling, campus pastors are equally available to respond to the needs of all students in a grace-filled manner.

# Graduate and Professional Student Community Expectations

It is the intention of Azusa Pacific that the faith-living-learning environment be as healthy as possible and foster positive qualities of life, promoting sound academic and personal growth experiences. As university staff come alongside students during their time at APU, we strive to respect and care for each individual and their needs, while also considering the community's needs. Our goal is to keep accountability, integrity, and a call to God-honoring excellence at the center, as we encourage students to take responsibility for their actions and choices. All students are expected to abide by the Graduate and Professional Student Community Expectations (https://www.apu.edu/graduateprofessionalcenter/student-engagement/expectations/policy/).

# Graduate and Professional Student Engagement

The Office of Student Affairs is committed to enhancing a sense of community and a positive student experience for all graduate and professional students. In addition to facilitating a number of programs for student engagement, the office also identifies and communicates support services and manages the Graduate and Professional Student Community Expectations Policy (p. 1077).

# Health Insurance

## Voluntary Health Insurance

Student health insurance is an optional benefit for domestic graduate and professional students and can be purchased through the Student Services Center (https://www.apu.edu/graduateprofessionalcenter/) during the open enrollment activity period at the current health insurance fee. It must be renewed in the fall and spring terms in order to provide continuous coverage. Graduate students receive services through a PPO physician in their area. Graduate students can also be seen in the Student Health Center for $20 per visit. If students are referred to specialists by the Student Health Center,

the deductible is waived by the insurance. Graduate students must be enrolled at least part time according to their program of admittance during the session for which they want insurance.

Learn more about coverage, usage, and how to sign up for the insurance or health center coverage. (https://www.apu.edu/graduateprofessionalcenter/resources/healthinsurance/) Information regarding health insurance can also be obtained by calling Gallagher Student Health at (800) 406-4517. For more information, contact the Student Services Center at (626) 815-2020.

## Mandatory Health Insurance

All international students holding an immigration document from Azusa Pacific University (I-20 or DS 2019) are required to purchase APU health insurance during their time of study.[1] APU health insurance meets the state department's requirement for health insurance for international students. The insurance must be purchased at the time of registration twice a year with a total of 12 months of coverage. Students are required to pay the Office Visit Fee of $20 per visit if they wish to access care at the Student Health Center. Insurance coverage terminates when a student completes or terminates his/her study.

Upon graduation, if an F-1/J-1 student chooses to apply for and then obtains Optional Practical Training (OPT)/Academic Training, the option to buy health insurance through APU is still available. It is strongly recommended that students continue to purchase APU health insurance.

International students not carrying an Azusa Pacific University immigration document (i.e., R-1 or H-1 status) are not required to purchase APU health insurance but may do so if they meet the credit unit requirement.

[1]  This rule does not apply for those studying in a nonstandard-term graduate program (e.g., intensive graduate programs such as DMin or EdD). These students are required to purchase appropriate coverage prior to arrival in the U.S. If the individual wishes to purchase the APU international health insurance, it is available only in six-month-minimum increments.

# International Services

"Their Potential Is Our Priority"

(626) 812-3055
issimmigrationsvcs@apu.edu

International Services (https://www.apu.edu/international/) provides relevant resources and services to student-scholars from around the world. Services include a mandatory Global Student Orientation (https://www.apu.edu/scrd/international-student-engagement/#global-student-orientation), immigration services, and cross-cultural support services. Numerous activities are provided throughout the year to introduce students to Southern California.

In addition, International Services promotes international understanding through specialized training and international awareness festivities on campus—for example, International Services cosponsors annual events such as Global Expressions, World Night Market, and Welcome events.

## International Campus Fellowships

International students of APU form numerous Christian fellowship groups that meet regularly on campus to promote understanding of the Christian faith and provide opportunities for building friendships. Examples of these intercultural groups and ethnic organizations include Huaren Fellowship, Japanese Outreach, the Black Student Association, and the Middle Eastern Student Association. Learn more about APU's intercultural groups (https://www.apu.edu/scrd/international-student-engagement/#intercultural-groups) and ethnic organizations (https://www.apu.edu/scrd/#ethnicorganizations).

## Financial Aid

At present, limited scholarships are available at the postbaccalaureate level. Some teacher assistantships or graduate internships are available in some departments. For more information, see the specific program area.

## Health Insurance

Any international student studying at APU on an I-20 or DS 2019 (F or J visa status) issued by APU must purchase APU student health insurance (https://www.apu.edu/healthcenter/insurance/), which is paid twice a year and covers the student for 12 months. Student health insurance becomes invalid upon graduation or withdrawal from APU.

## U.S. Immigration

Azusa Pacific University employs three international student advisers to assist students with immigration issues, from the initial issuing of the immigration documents to any immigration concerns or questions during their stay at the university. APU has been authorized to issue the I-20 (F-1 visa status) and the DS 2019 (J-1 visa status) by the Department of Homeland Security and the U.S. Department of State.

APU is not responsible for the decisions made by U.S. Citizenship and Immigration Services (USCIS).

## Legal Requirements for F-1 or J-1 International Students

To maintain legal status, the international student[1] must:

1. **Be full time.** For most master's degree students in a 16-week term, 9 units is considered full time. For the 8-week term, 9 units over two 8-week terms is required. Doctoral degree students must carry a minimum of 6 units of weekly professor contact hours to maintain full-time status. Master's degree students may not take more than one online or independent study class for every 9 units of coursework. For any exceptions to this policy, make an appointment with an ISS immigration adviser for counsel.

2. **Work only on campus.** U.S. regulations allow F-1 and J-1 students to work on campus for 20 hours a week during the academic year or full time during vacation periods. (J-1 status students will need written verification by the Responsible Officer before starting employment on or off campus). Any off-campus employment must be officially authorized by the U.S. government. To obtain information about working off campus, students should make an appointment in the International Center for counsel. J-1 research scholars have different employment regulations; see immigration adviser for details.

3. **Report any change of name or address.** The U.S. government requires notification within 10 days of any name or address change. Students must report the location of their physical residence (not a post office box) to:
   - International Student Compliance at APU (issimmigrationsvcs@apu.edu)
   - The registrar (https://www.apu.edu/student-services/registration/)

4. **Obey all laws of the United States.** For details of other specific immigration laws that could affect F-1 or J-1 status, contact ISS.

The above requirements do not constitute a comprehensive list. Students are also responsible for immigration laws not stated here.

[1]    An international student at APU is defined as any individual not holding a U.S. residency or citizenship. Any non-U.S. resident/citizen is required to apply to APU through the International Center.

**Full-time status for international doctoral students** in either F-1 or J-1 status should be consistent with university policy for full-time students. A minimum of 6 units per semester is considered full time, with the option of each school/program determining more for full-time status. U.S. Citizenship and Immigration Services and the U.S. Department of State require students to remain in full-time status during their entire academic program. There are instances in which an individual is permitted to carry less than a full-time schedule; for information on these instances, contact the ISS.

No more than the equivalent of one class or 3 units per term may be taken online or through distance education if the individual is in the U.S. and enrolled as a full-time F-1 or J-1 student.

If an individual is enrolled in an intensive study program (classes meeting on campus twice a year for sessions of two to three weeks, such as in the DMin or EdD programs), the student must leave the U.S. between terms or may remain and take one additional in-class course during the term separating the two intensives.

# University Counseling Center

The University Counseling Center (UCC) empowers Azusa Pacific University students to realize their personal and academic potential by promoting psychological, social, and spiritual wellness through Christian counseling and outreach services. UCC services include individual, couples, crisis, and group counseling, as well as educational workshops and training. All services provided by the UCC are confidential. For more information, visit the UCC website (https://www.apu.edu/counselingcenter/).

# Traditional Undergraduate Student Success Resources

- Academic Resources (p. 1105)
- Student Affairs (p. 1123)

# Academic Resources

Each of these academic student support offices is committed to offering comprehensive academic services, programming, and resources that support the holistic student experience and academic success of all Azusa Pacific undergraduate students.

- Academic Success Center

- Academic Success Center (https://www.apu.edu/academic-success/)
- Academic Advising (p. 1106)

# Academic Advising

Academic advising at Azusa Pacific University is an intentional, multidimensional, student-centered partnership where students, faculty, and staff collaborate to support holistic student development. This process enables students to identify and work toward educational, career, and personal goals. Successful advising is achieved through well-trained advisors facilitating student growth, accountability, and self-directed learning, enabling students to take ownership of the academic process. This empowers students to utilize institutional resources to optimally plan course progression, evaluate academic performance and strengths, enhance preparation through community engagement, and discover vocational calling while progressing toward a degree.

Traditional undergraduate programs utilize a shared advising model. New students and first- and second-year students are supported through the Academic Success Center (https://www.apu.edu/academic-success/) with advising staff and receive faculty mentorship through their major departments. Professional staff advisors create individualized academic plans to assist students in meeting degree requirements and provide strengths-based advising to empower students with the resources needed to achieve their goals and thrive academically. Focused faculty advising occurs during junior and senior years to ensure successful degree completion and that graduation preparation is well supported. Faculty advisors also provide mentorship around vocation, graduate school, and career pathways, equipping students to be difference makers now and upon graduation.

Academic advising is provided by each academic department for students enrolled in any of that department's majors, and also by the Academic Success Center to assist students in the advising and registration process. The center's Office of Academic Advising (https://www.apu.edu/academic-success/advising/#traditionalundergraduatestudentadvising) provides academic coaching and support that enables students to achieve their scholastic goals and thrive academically. The office's staff support student academic success by using a holistic approach and providing the following:

- Individualized academic advising and success coaching
- Connecting students to on-campus resources and strategies to foster academic success
- Assisting with questions regarding progress toward graduation
- Partnering with faculty to support students who are identified in our Early Alert program (also known as APU CARES (https://www.apu.edu/apucares/))
- Developing strategies to help increase undergraduate student retention, persistence, and graduation rates
- Providing student-athletes and transfer students with support for their unique needs in scheduling and navigating degree progress

# Academic Success Launch Program

The Academic Success Launch Program provides holistic academic support to students whom the Office of Undergraduate and International Admissions (https://www.apu.edu/undergraduate-admissions/) determines are in need of more personalized academic support based on the current Admissions Grid for acceptance. Applicants admitted into the Academic Success Launch Program are provided one-on-one support from the Academic Success Center (https://www.apu.edu/academic-success/) and benefit from personalized one-on-one coaching, workshops, and connections to on-campus resources. Additionally, these students must take GE 101 Academic Success Lab (1 unit), which equips students for success at APU. The number of students admitted to the Academic Success Launch Program each year is limited.

The comprehensive academic services, programming, and resources of the Academic Success Launch Program support students in thinking critically, planning accordingly, and thriving academically as they become graduates and difference makers at APU. Students will have an awareness of on-campus resources, create personal and academic goals, and be able to implement strategies to maintain good academic standing at APU (achieve a minimum cumulative GPA of 2.0 and pass 67% of courses attempted).

## Program Learning Outcomes

### Student Learning Outcomes for GE 101  (Academic Success Lab)

Upon successful completion of the lab, students will be able to:

1. Identify barriers to their academic and personal success
2. Utilize their strengths to overcome these barriers
3. Articulate personal and/or academic goals for the semester
4. Create an action plan in order to achieve their goal(s)
5. Utilize appropriate campus resources for academic success and personal wellness

# Air Force Reserve Officer Training Corps (AFROTC)

Air Force Reserve Officer Training Corps (AFROTC) is offered through an agreement with the University of Southern California (USC). The program is open to most undergraduate students with at least two and a half years of school remaining. Competitive scholarships valued at up to 100 percent of tuition and fees are available to qualified applicants. See the Financial Aid (p. 966) section of this catalog for more information.

Classes are offered on the USC campus on Fridays and include one hour of academics for freshmen and sophomores and three hours of academics for juniors and seniors. Students also participate in two hours of leadership laboratory, physical training, and practical leadership training and development as Air Force officer candidates. Students are required to attend a two-week intensive summer field training at Maxwell Air Force Base in Montgomery, Alabama, between their second and third years in the program.

Classes are also offered at California State University, San Bernardino (CSUSB), which APU students may enroll in using our cross-town agreement. View AFROTC course descriptions (https://bulletin.csusb.edu/coursesaz/as/) or learn more about the AFROTC program (https://csbs.csusb.edu/afrotc/) at CSUSB.

Participation in the General Military Course (freshman/sophomore years) carries no military obligation except for scholarship students. Scholarship recipients and students in their final two years receive a monthly stipend. The service obligation upon graduation is four years of active duty.

Students who successfully complete the program commission as an officer into the United States Air Force upon graduation. Once commissioned, students attend specialized training in the career fields in which they are qualified and selected. Example programs include pilot, combat systems officer, air battle manager, medical, legal, nursing, logistics, intelligence, cyber operations, personnel, and finance. For more information, contact the USC Department of Aerospace Studies at (213) 740-2670 or visit the department website (https://priceschool.usc.edu/rotc-programs/afrotc/).

The following aerospace studies courses are offered through Azusa Pacific University and conducted on the USC campus. Although the courses are tailored to those students interested in pursuing a commission in the Air Force, courses are open to all Azusa Pacific University students and may be considered as electives in some cases.

## AEST 300A Aerospace Studies III: Air Force Management and Leadership (3 units)

This course is a study of leadership, management fundamentals, professional knowledge, Air Force personnel and evaluation systems, leadership ethics, and the communication skills required of an Air Force junior officer. Case studies are used to examine Air Force leadership and management situations as a means of demonstrating and exercising practical application of the concepts being studied. A mandatory Leadership Laboratory

conducted at the University of Southern California complements this course by providing advanced leadership experiences and giving students the opportunity to apply the leadership and management principles of this course. Prerequisites: AEST 100A/B and AEST 200A/B (USC only)

### AEST 300B Aerospace Studies III: Air Force Management and Leadership (3 units)

This course builds upon the topics discussed in AEST 300A. Case studies are again used, and a mandatory Leadership Laboratory complements the course. Prerequisite: AEST 300A

### AEST 400A Aerospace Studies IV: National Security Forces in Contemporary American Society (3 units)

This course examines the need for national security; analyzes the evolution and foundation of American defense policy, strategy, and joint doctrine; investigates the methods for managing conflict; overviews regional security, arms control, and terrorism; and prepares cadets for active duty. Special topics of interest focus on the military as a profession, officership, the military justice system, and current issues affecting the military. Within this structure, continued emphasis is given to the refinement of communication skills essential for military officers. A mandatory Leadership Laboratory complements this course by providing advanced officer training experiences and giving students the opportunity to apply the leadership lessons learned. Prerequisite: AEST 300B

### AEST 400B Aerospace Studies IV: National Security Forces in Contemporary American Society (3 units)

This course builds upon the topics discussed in AEST 400A. Continued emphasis is given to the refinement of communication skills. A mandatory Leadership Laboratory complements the course. Prerequisite: AEST 400A

# Army Reserve Officer Training Corps (ROTC)

The Reserve Officer Training Corps (ROTC) is an on-campus commissioning program open to all students who are U.S. citizens and interested in service as an active-duty Army officer or Reserve officer in the National Guard or U.S. Army Reserve. APU's ROTC program (https://www.apu.edu/rotc/) is an extension of the Claremont McKenna College (CMC) Army ROTC program. Most activities are conducted on campus at APU. Students may compete for full-tuition scholarships, fees for books, and a monthly stipend. See the Financial Aid (p. 966) section of this catalog for more information.

Army ROTC challenges students to develop leadership traits critical to any career but designed for the military environment. Classroom instruction and leadership laboratories give students an active role in learning and reinforcing course concepts. Additional events each semester include training exercises in leadership development, orienteering, rappelling, rifle marksmanship, and small-unit tactics.

Students also may participate in active Army training schools during the summer. The Cadet Professional Development Programs are designed to immerse cadets in various domains while allowing a unique training experience and opportunity that cannot be replicated in a university setting.

The Cultural Understanding and Language Proficiency (CULP) program and Cultural Awareness Training deployments produce a cadet who is culturally astute, and familiar with the methodology to analyze operational environment and cultures, then apply this information to plans and behavior. Culturally astute leaders recognize personal and organizational biases and are aware of the strategic impact of their actions. CULP cadets collaborate with diverse actors in a joint, interorganizational, and multinational setting, including host nation military and civilians, U.S. government agencies, and nongovernmental organizations.

The Cadet Troop Leader Training (CTLT) internship training program provides cadets the opportunity to experience leadership in Army Tables of Organization and Equipment (TO&E) units in a CONUS or OCONUS unit. Cadets serve in lieutenant-level platoon leadership positions in active-duty units. Cadets get opportunities to apply leadership skills, interact with company commanders, other junior offices, skilled senior noncommissioned officers (NCOs), and junior NCOs in an operational environment. CTLT is exclusively designed for MSIII cadets who have graduated from the Advance Camp. CTLT Cadets receive a formal evaluation/OER from their active-duty command at the completion of the course.

The Drill Cadet Leader Training (DCLT) internship program provides cadets the opportunity to serve in platoon leader or executive officer positions in Initial Military Training (IMT) companies and work closely with drill sergeants and cadre. Cadets experience leadership training with IMT companies, and get opportunities to apply leadership skills and interact with company commanders and other junior officers, skilled senior noncommissioned officers, and drill sergeants to improve common task skill proficiency in an Army training environment. DCLT is designed exclusively for MSLIII cadets who have graduated from CST Advanced Course. DCLT cadets receive a formal evaluation/OER from their active-duty chain of command at the completion of the course.

The cadet internship track provides cadets myriad opportunities to seek additional training in specialized areas such as scientific application, engineering, nursing, medicine, intelligence, and cultural awareness. The internship types, locations, and allocations change from year to year. There

are typically 15 internships excluding CTLT and DCLT that range in length from two to four weeks. Priority is typically given to MSLIII cadets. Each internship has uniquely different requirements. Some are paid, some are not paid.

- Airborne Training, a three-week course at Fort Benning, Georgia, teaches military parachuting techniques and awards airborne wings to participants upon completion of their fifth jump.
- Air Assault Training, a two-week course at Fort Campbell, Kentucky, teaches insertion, evacuation, and Pathfinder missions that call for the use of multipurpose transportation and assault helicopters.
- Mountain Warfare is a two-week course taught in Jericho, Vermont. Students learn fundamental light infantry tactics, techniques, and skills necessary for survival in mountainous terrain.
- Northern Warfare is a three-week course held in Fort Greely, Alaska, and is designed to teach skills necessary to survive in arctic/winter environments.

Students meet basic requirements through class attendance in their freshman and sophomore years, or through attendance at a five-week intensive summer leadership training course at Fort Knox, Kentucky. Students with two full years of college remaining after completion of this training course may enroll in the advanced program. Advanced program students attend the Cadet Leadership Course (CLC; formerly the Leader Development and Assessment Course, LDAC) at Fort Knox between their junior and senior years of college. This camp, the capstone event of each student's ROTC career, offers an opportunity to demonstrate leadership skills while working alongside fellow students from across the nation.

Qualified students can enroll in Army ROTC if they have at least two full years of full-time academic coursework remaining. Participation in the basic course (freshman/sophomore years) carries no military obligation, except for scholarship students. The service obligation is four years of active duty or eight years of Reserve duty. Students may apply for a guaranteed Reserve force duty. Graduate students may also participate in ROTC as long as they remain on full-time status and have two years remaining at their graduate institution. Education delays are available to complete advanced schooling, usually medical, dental, or law school.

Students with prior service time, prior ROTC training, or Reserve training may qualify for immediate advanced program placement. Selected students also may participate in a Reserve or National Guard unit while in ROTC, drawing pay from both.

For more information, visit the CMC ROTC website (https://www.cmc.edu/military-science/) or contact the CMC Military Science Department at (909) 621-8102.

The following Military Science and Leadership (MSL) courses are offered through Claremont McKenna College and are open to all Azusa Pacific University students, especially those with an interest in physical and mental challenges, organizational leadership, management, history, and the military as a profession. Many of these courses are held on the APU campus.

# MSL 99 Army Physical Training Program (1 unit)

This course aligns with the Army's current physical fitness training philosophy of cardiorespiratory endurance, muscular strength and endurance, flexibility, and body composition training. It includes a wide variety of events: unit distance runs and ability groups, circuit training, upper- and lower-body strength drills, swimming, and road marching. The course helps instill the fundamentals of conditioning and exposes students to a variety of conditioning drills that can be incorporated into an individual fitness program for life. Additionally, the course teaches team building and *esprit de corps* utilizing standard Army training doctrine. *This course fulfills APU's General Education Fitness for Life requirement.*

# MSL 101 Introduction to the Army (1 unit)

This course focuses on the introduction to the Army and critical thinking. It introduces cadets to the Army and the profession of arms. Students examine the Army profession and what it means to be a professional in the Army. The overall focus is on developing basic knowledge and comprehension of the Army Leadership Requirements model while gaining a complete understanding of the Reserve Officers' Training Corps (ROTC) program, its purpose in the Army, and its advantages for the student. Cadets also learn how resiliency and fitness support their development as an Army leader. Includes a weekly lab facilitated by MSL III cadets and supervised by Cadre.

# MSL 102 Foundations of Agile and Adaptive Leadership (1 unit)

This course introduces cadets to the personal challenges and competencies that are critical for effective leadership. Cadets learn about the personal development of life skills such as critical thinking, time management, goal setting, and communication, and learn the basics of the communications process and the importance of leaders developing the essential skills to effectively communicate in the Army. Cadets begin learning the basics of squad-level tactics, which are reinforced during a weekly lab facilitated by MSL III cadets and supervised by Cadre. *Prerequisite: MSL 101 or permission of instructor.*

# MSL 201 Leadership and Decision Making (2 units)

This course focuses on leadership and decision making. Outcomes are demonstrated through critical and creative thinking and the ability to apply troop leading procedures (TLP) innovative solutions to problems. The Army profession is also taught through leadership forums and a leadership self-assessment. Students are then required to apply their knowledge outside the classroom in a hands-on, performance-oriented environment during a weekly lab facilitated by MSL III cadets and supervised by Cadre. *Prerequisite: MSL 102 or permission of instructor.*

## MSL 202 Army Doctrine and Team Development (2 units)

This course focuses on Army doctrine and team development. Cadets begin the journey to understanding and demonstrating competencies as they relate to Army doctrine; Army values, teamwork, the warrior ethos, and their relationship to the Law of Land Warfare and philosophy of military service are also stressed. The ability to lead and follow is also covered through team-building exercises at the squad level. Students are then required to apply their knowledge outside the classroom in a hands-on, performance-oriented environment during a weekly lab facilitated by MSL III cadets and supervised by Cadre. *Prerequisite: MSL 201 or permission of instructor.*

## MSL 301 Training Management and the Warfighting Functions (4 units)

This course focuses on training management and warfighting functions. It is an academically challenging course in which students study, practice, and apply the fundamentals of training management and how the Army operates through the warfighting functions. At the conclusion of this course, students are capable of planning, preparing, and executing training for a squad conducting small-unit tactics. Includes a weekly lab using peer facilitation overseen by MSL IVs and supervised by ROTC Cadre. *Prerequisite: MSL 202 or permission of instructor.*

## MSL 302 Applied Leadership in Small-Unit Operations (4 units)

This course focuses on applied leadership in small-unit operations. It is an academically challenging course in which students study, practice, and apply the fundamentals of direct level leadership and small-unit tactics at the platoon level. At the conclusion of this course, students are capable of planning, coordinating, navigating, motivating, and leading a platoon in the execution of a mission. Includes a weekly lab using peer facilitation overseen by MSL IVs and supervised by ROTC Cadre. Successful completion of this course prepare students for the Cadet Summer Training Advance Camp, which they attend in the summer at Fort Knox, Kentucky. *Prerequisite: MSL 301 or permission of instructor.*

## MSL 401 The Army Officer (4 units)

This course focuses on the development of the Army officer. It is an academically challenging course in which students develop the knowledge, skills, and abilities to plan, resource, and assess training at the small-unit level. Students also learn about Army programs that support counseling subordinates and evaluating performance, values and ethics, career planning, and legal responsibilities. At the conclusion of this course, students are familiar with how to plan, prepare, execute, and continuously assess the conduct of training at the company or field grade officer level. Includes a weekly lab overseeing MSL III lesson facilitation, supervised by ROTC Cadre. *Prerequisite: MSL 302 or permission of instructor.*

## MSL 402 Company Grade Leadership (4 units)

This is an academically challenging course in which students develop the knowledge, skills, and abilities required of junior officers pertaining to the Army in unified land operations and company grade officer roles and responsibilities. This course includes reading assignments, homework assignments, small-group assignments, briefings, case studies, practical exercises, a midterm exam, and an oral practicum as the final exam. The oral practicum explores students' knowledge of how to prepare for the 20 Army warfighting challenges covered throughout the ROTC advanced course. Successful completion of this course will assist in preparing students for the BOLC B course and is a requirement for commissioning. Includes a weekly lab overseeing MSL III lesson facilitation, supervised by ROTC Cadre. *Prerequisite: MSL 401 or permission of instructor.*

# Exploring Program

The Exploring Program provides support for first- and second-year students who have not committed to a major, creating an environment that supports their search for a vocation and helping them choose a major that aligns with their skills, interests, sense of person, and calling. A common major for entering freshmen is "undeclared"—in other words, many students have not yet selected a major. At Azusa Pacific, these Exploring majors have time during their first four semesters to explore different courses, converse with faculty, and then select a major.

## Program Services

- First-Year Seminar Course
- Academic Success Coaching
- Major and Career Exploration
- Strengths Coaching
- Community Engagement Events

Students must declare their major by their fifth semester of full-time academic work (see Major and Minor Policies (p. 1028)).

# First-Year Seminar

First-Year Seminar (GE 100) is a 3-unit course designed to introduce students to academic success strategies and foster a sense of belonging at the university through engagement in the curricular and cocurricular life on campus. The curriculum is discipline-specific, meaning students from the same

major take the same GE 100 section(s) together and become better acquainted with their major department and resources. The curriculum is composed of six main components: University 101, Strengths, Diversity, Health and Wellness, Academic Advising, and Critical Thinking.

*Required for students transferring 29 or fewer units. Waived for students transferring 30+ units, unless units are from credit by exam.*

## University 101

This unit helps our students become more attuned to an understanding of college values, rigor, and skill sets. First-Year Seminar also partners with Alpha Leaders (or peer leaders). Each class section consists of 2-3 Alpha groups, each of which includes 8-12 students. Alpha groups meet outside of class time each week to continue University 101 conversations, and to support the sense of community and belonging on our campus.

## Strengths

Students take the StrengthsFinder assessment during their first semester, as APU encourages students to focus on their strengths and use them as a guide to academic and vocational choices. We invite Strengths-certified faculty and staff to teach our students how to utilize their unique strengths to advance in their academic and career pursuits.

## Diversity

Students explore why diversity matters as Christians. All GE 100 sections facilitate diversity units during weeks 4-5 of the semester, focusing on biblical and theological perspectives on diversity.

## Health and Wellness

We believe that, in order for students to take care of their grades, studies, relationships, etc., they must first take care of themselves. As students transition to college life in their first semester at APU, First-Year Seminar meets them there with informative lessons on health and wellness topics such as spirituality, relationships, finances, stress, anxiety, sleep, and more.

## Academic Advising

We require all students to seek out academic advising in order to prepare for the following semester, as well as remain on track for the rest of their academic career.

## Critical Thinking

Researching, reading, and writing through a college-level critical lens is of paramount importance for success in academia and careers that follow. The First-Year Seminar curriculum explores a problem-based pedagogy, meaning students study a problem from many perspectives and approaches, then assess the best way to solve the problem based on the evidence and arguments they have collected and evaluated over the semester. This unit reviews discipline-specific topics and research, meaning the "problem" under study is a key topic that is rooted within a student's chosen field of study.

All new students are required to enroll in First-Year Seminar in their first semester, except for those in Honors College, who have their own seminars. The course fulfills General Education requirements and has no prerequisites, and reflects APU's Four Cornerstones (https://www.apu.edu/believe/#cornerstones)—Christ, Scholarship, Community, and Service.

# Honor Societies

Visit the APU website to learn more about APU honor societies (https://www.apu.edu/provost/apuhonorsocieties/).

# Living-Learning Communities (LLC) and Learning Communities (LC)

APU offers Living-Learning Communities (LLCs) and Learning Communities (LCs). In both types of communities, a cohort of students takes two or more courses together in a given academic year, and for LLCs the students are also assigned living arrangements in the same hall or floor of an on-campus dormitory.

Here is the community being offered:

- Humanities Learning Community

# Office of Research and Grants

The Office of Research and Grants (https://www.apu.edu/researchandgrants/) (ORG) promotes, supports, and celebrates research and grant opportunities, which contributes to APU's identity as an institution of "high research activity." While a main focus of ORG is assisting faculty in identifying, acquiring, and managing external grant resources, ORG also supervises the Undergraduate Research Program (https://www.apu.edu/undergraduate-research/), which includes opportunities for undergraduate students engaged in research with faculty to apply for funds to present findings at professional conferences. The Undergraduate Research Program also promotes undergraduate research partnerships with faculty through annual awards provided by the Scholarly Undergraduate Research Experience (SURE) (https://www.apu.edu/undergraduate-research/#sure-award) initiative. In addition, ORG advances ethical practices in research through its oversight of the Institutional Review Board (IRB) (https://www.apu.edu/researchandgrants/ethics/#human-subject-irb) and the Institutional Animal Care and Use Committee (IACUC) (https://www.apu.edu/researchandgrants/ethics/#animal-subjects-iacuc), which review and approve all regulated research at Azusa Pacific University involving human (IRB) and animal (IACUC) subjects.

# Testing Center

The Academic Success Center (ASC) Testing Services office (https://www.apu.edu/academic-success/services/testing/) administers many testing and proctoring services as a support to the APU academic community and general public.

# Placement Assessment

### Freshmen and First-Year Transfers

The Academic Success Center's Testing Services office (https://www.apu.edu/academic-success/services/testing/) offers proctored placement assessments when needed in the areas of math, writing, and foreign language for incoming (freshmen and transfer) students. Testing is available in the Testing Services office by appointment only, and remotely for out-of-area students. Note that all of these assessments are also offered online.

In order for students to register for the correct math, writing, and foreign language courses, a placement assessment in each area must be completed by the last day to drop classes for the first term of enrollment, and students are encouraged to complete their placement assessments as early as possible. Students who do not complete their placement assessments will not be able to register for math, writing, or foreign language courses.

Proficiency test results in math, writing, and foreign language from other academic institutions may be acceptable, provided the test is a nationally normed exam and the institution does not incorporate additional data into the score. Course recommendations based on test results may or may not correspond to APU course requirements. For evaluation, fax a printout of the exam results, along with a contact name and number from that institution's assessment center, to the ASC Testing Services office at (626) 815-3859.

# Foreign Language Placement and Proficiency Assessments

The foreign language placement assessment process assists students in selecting course placement or test options to fulfill their foreign language proficiency requirement at APU. Students are encouraged to take a foreign language self-assessment, WebCAPE, at home to gauge their level of foreign language experience prior to taking a proficiency exam. For students who demonstrate a level of proficiency in a foreign language, there are three test options to consider for fulfillment of the APU foreign language proficiency requirement: CLEP, FLATS, and OPIc. Learn more about the foreign language placement and proficiency assessment processes. (https://www.apu.edu/academic-success/services/testing/foreign/)

# International Student Placement Assessment

International undergraduate students who have been admitted under conditional, probationary, or developmental status may be required to take a placement assessment in math, writing, or foreign language. Because accurate and appropriate course placement is critical for academic success at APU, all incoming undergraduate international students who have been admitted under conditional status because of their English proficiency are required to take an English proficiency exam. For more information about the criteria for taking placement assessments in math, writing, and foreign language, and about taking an English proficiency exam, visit the International Admissions website (https://www.apu.edu/international/enrollment/). International Admissions staff advise all international students on which placement assessments to take and provide information about scheduling their exam(s).

# Math Placement Assessment

APU uses the ALEKS PPL (https://www.apu.edu/academic-success/services/testing/math/#about-aleks) system to determine the best initial math placement for most students. Students who need to use ALEKS (https://www.apu.edu/academic-success/testing/math/#using-aleks) are encouraged to take an initial diagnostic assessment (https://www.apu.edu/academic-success/testing/math/#start-aleks) at home, and then work in their personalized Prep and Learning Module (https://www.apu.edu/academic-success/testing/math/prep-learning-module/) to review. They will then be able to retake the assessment up to four times in order to achieve their best possible score.

## Math Course Prerequisites

Prerequisites for common math courses are as follows:

| Course(s) | Prerequisite(s) |
| --- | --- |
| MATH 90: Foundations of Mathematical Reasoning | ALEKS 15-29 |
| MATH 95: Intermediate Algebra | ALEKS 30-44 or MATH 90 |
| MATH 99: Self-Paced Mathematics Lab | ALEKS 0-29 |
| MATH 115: Mathematics in Society<br>MATH 130: Introduction to Statistics | ALEKS 30-100 or MATH 90 |
| MATH 110: College Algebra<br>UNRS 299: Statistics and Data Management for Nursing and Health Care | ALEKS 45-100 or MATH 95 |
| MATH 149: Fundamentals of Precalculus<br>MATH 150: Precalculus | ALEKS 60-100 or MATH 110 |
| MATH 151: Applied Calculus I | ALEKS 65-100 or B- or better in MATH 110 |
| MATH 165: Calculus I | ALEKS 75-100 or MATH 149 (which may be taken concurrently) or MATH 150 |

## Math Test Score Equivalents

The table below shows how various test scores translate into APU math placement and/or course credit:

| Scores | Results |
| --- | --- |
| <ul><li>SAT Math (640 or higher on NEW version)</li><li>SAT Math (620 or higher on OLD version)</li><li>ACT Math (27 or higher)</li><li>High School Calculus (at least one semester with a grade of B or higher)</li><li>High School Precalculus (at least one semester with a grade of A- or higher)</li></ul> | Treated as if you have passed MATH 110 College Algebra at the level of a B- or higher |
| <ul><li>CLEP College Algebra, Precalculus, or Calculus (50)</li><li>IB Mathematics (5, 6, or 7)</li><li>AP Calculus AB or BC (3, 4, or 5)</li></ul> | Treated as if you have passed MATH 110 College Algebra at the level of a B- or higher; credit granted |
| <ul><li>AP Statistics (3, 4, or 5)</li></ul> | Credit granted for MATH 130 Introduction to Statistics |

| | |
|---|---|
| • ALEKS (65-100) | Treated as if you have passed MATH 110 College Algebra at the level of a B- or higher |
| • ALEKS (60-64) | Treated as if you have passed MATH 110 College Algebra at the level of C or higher (fails to meet the grade minimum of B- required as a prerequisite for CHEM 151 or to apply to any of the majors in the School of Business and Management other than the BA in Business Management) |

# Writing Placement Assessment

The Writing Class Placement Questionnaire (https://docs.google.com/forms/d/e/1FAIpQLSeI052TH4HvFpicnDJuxAwaJvN-PLDIqgnx9WarQz8A8BC0iQ/viewform/?usp=sf_link), a self-directed assessment survey, is used to help incoming students determine the most appropriate first writing course at APU. The Writing Class Placement Questionnaire offers each student the opportunity to respond to important questions about experiences with reading and writing, to share evidence of past performance through the submission of high school GPA and standardized placement scores, and to receive information about the most beneficial initial writing course and support options at APU for him/her. Students who have questions about the course suggestion they receive should speak with an academic success coach in the Academic Success Center (https://www.apu.edu/academic-success/). All incoming students (freshmen and transfer) must complete The Writing Class Placement Questionnaire prior to registering for a writing course at APU. Students can complete the questionnaire at home using a personal computer.

# Proctoring Services

## Examination Proctoring

The Academic Success Center (ASC) Testing Services office (https://www.apu.edu/academic-success/services/testing/) is a test-proctoring center for students enrolled in correspondence, continuing education, or online courses at other institutions. To request an ASC Testing Services-proctored exam:

- Contact the home institution for approval to have ASC Testing Services designated as the proctor center.
- We request that exams be sent 3 days in advance to ASC Testing Services via email at testingcenter@apu.edu.
- Instructors sending exams to ASC Testing Services should include specific exam instructions for ASC Testing Services proctors.
- Call ASC Testing Services at (626) 815-3849 to notify the center of the exam's pending arrival.
- Schedule an appointment to take the exam at ASC Testing Services using our online scheduling system (https://aputesting.youcanbook.me).

On the day of the exam, students must:

- Bring an identification card that includes the student's legal name, birth date, signature, and photo.
- Pay a $30 nonrefundable fee for each proctored exam (also available online).

Failure to appear for a scheduled exam will result in the exam being returned to the institution of origin.

# Testing Services

APU's Testing Services (https://www.apu.edu/academic-success/services/testing/) office administers several programs through which students may receive course credit by examination.

- College Level Examination Program (CLEP) (p. 1114)
- DANTES Subject Standardized Tests (DSST) (p. 1117)
- Foreign Language Achievement Testing Service (FLATS) (p. 1118)

# College Level Examination Program (CLEP)

CLEP is a national program that allows students to obtain course credit by examination. CLEP examinations cover material taught in courses that most students take as requirements in the first two years of college. Most exams are 90 minutes long and primarily composed of multiple-choice questions, though some exams have fill-ins.

Note that examinations in composition and literature have additional 90-minute handwritten-essay sections, except for the College Composition Modular, which provides a 70-minute computerized-essay section. These essays are required for APU students. Handwritten essays are evaluated by faculty from the APU Department of English after a passing score on the multiple-choice section of the CLEP is achieved; these faculty evaluations are final and may not be appealed.

The CLEP program's policy limits test retakes to every 90 days, which allows students to spend additional time preparing for the exam or the option of taking a classroom course. APU students may request tutoring to prepare for the CLEP exam by contacting the Academic Success Center (ASC) Testing Services.

CLEP study guides are available from the CLEP website (https://clep.collegeboard.org/), the Campus Store (https://www.bookstore.apu.edu/), or any local bookstore. Visit the CLEP website for useful tips on assessing and preparing for any of the CLEP exams.

To take a CLEP exam, students must:

- Purchase the CLEP exam through the CLEP website. The cost for the exam is $89 and must be paid on the CLEP website by credit or debit card.
- Schedule an appointment to take the exam at ASC Testing Services using our online scheduling system (https://aputesting.youcanbook.me/).
- Pay the $30 nonrefundable proctoring fee no later than 3 calendar days prior to your appointment.
- The fee for any written CLEP essay exams is $10 per exam, payable on the day of your appointment.

On the day of the exam, students must:

- Provide a paper copy of the CLEP Exam Registration Ticket to the ASC Testing Services proctor. The Exam Registration Ticket is issued by CLEP at the time the exam is purchased.
- Bring one form of government-issued identification that shows the student's legal name, birth date, photo, and signature.

## Military CLEP Candidates

CLEP exams are free for eligible military personnel as noted in the chart below. The nonrefundable proctoring fees listed above are required before a test can be administered. All eligible military candidates MUST present a current military identification card and a second form of government-issued photo ID with signature at the time of the exam.

| Candidate Status | CLEP Fee |
|---|---|
| **Active Duty Military** | No Fee[1] |
| Air Force | |
| Army | |
| Marine Corps | |
| Navy | |
| Coast Guard | |
| National Guard and Reserve Component | |
| **Spouses and Civilian Employees of:** | No Fee[1] |
| Air Force Reserve | |
| Air National Guard | |
| Army National Guard | |
| Army Reserve | |
| Coast Guard | |
| **DOD Acquisition Workforce Personnel** | No Fee[1] |
| Are eligible for the following exams only: | |
| Principles of Macroeconomics | |
| Principles of Microeconomics | |
| Principles of Marketing | |
| **Veterans** | Veterans must pay the CLEP fee in advance and seek reimbursement from the Veterans Benefits Administration using their canceled check or credit card statement as proof of receipt.[2] |

[1]   Tests are funded by DANTES. Questions regarding eligibility for DANTES-funded CLEP exams should be directed to DANTES at (877) 471-9860.
[2]   Veterans are eligible for reimbursement of the CLEP fee under provisions of the Veterans Benefits Improvement Act of 2004.

## Credit for CLEP Scores

| Subject | Score | Units | Course Equivalent |
|---|---|---|---|
| **Business** | | | |
| Financial Accounting | 50 | 4 | ACCT 120 |
| Business Law, Introductory | 50 | 3 | Not acceptable for BUSI 296, Elective, Non-General-Education |

| | | | |
|---|---|---|---|
| Information Systems and Computer Applications | 50 | 3 | BUSI 240 or CS 205 |
| Management, Principles of | 50 | 3 | MGMT 210 |
| Marketing, Principles of | 50 | 3 | MKTG 260 |
| Macroeconomics, Principles of | 50 | 3 | ECON 250 |
| Microeconomics, Principles of | 50 | 3 | ECON 251 |
| **Composition and Literature** | | | |
| American Literature[1] | 50 | 3 | Not acceptable for ENGL 244, ENGL 254, Elective, Non-General-Education |
| Analyzing and Interpreting Literature[1] | 50 | 3 | ENGL 111[1] |
| College Composition | 50 | | No course equivalency at APU |
| English Literature[1] | 50 | 3 | Not acceptable for ENGL 222, ENGL 232, Elective, Non-General-Education |
| College Composition Modular[1] | 50 | | No course equivalency at APU |
| **Modern languages** | | | |
| French Language | 50 | 3 | FREN 101, FREN 102 |
| German Language | 50 | 3 | GERM 101, GERM 102 |
| Spanish Language | 50 | 3 | SPAN 101, SPAN 102 |
| Spanish Language | 63 | 3 | SPAN 201 |
| Spanish Language | 74 | 3 | SPAN 202 |
| **History and Social Sciences** | | | |
| American Government | 50 | 3 | POLI 150 |
| Educational Psychology, Introduction to | 50 | 3 | Elective, Non-General-Education |
| History of U.S. I: Early Colonization to 1877 | 50 | 3 | HIST 151 |
| History of U.S. II: 1865 to the Present | 50 | 3 | HIST 152 |
| Human Growth and Development [2] | 50 | 3 | PSYC 290 [2] |
| Humanities | 50 | 3 | Elective, Non-General-Education |
| Psychology, Introductory | 50 | 3 | PSYC 110 |
| Social Sciences and History | 50 | 3 | APS, Elective credit only, Non-General-Education |
| Sociology, Introductory | 50 | 3 | SOC 120 |
| Western Civilization I: Ancient Near East to 1648 | 50 | 3 | HIST 120 |
| Western Civilization II: 1648 to Present | 50 | 3 | HIST 121 |
| **Science and Mathematics** | | | |
| Calculus | 50 | 5 | MATH 165 |
| College Algebra | 50 | 3 | MATH 110 |
| College Mathematics | 50 | 3 | MATH 90 [3] |
| General Biology | 50 | 8 | BIOL 151, BIOL 152 |
| | 57 | 8 | Required for all students in the Department of Biology and Chemistry majors and minors |
| General Chemistry | 50 | 8 | CHEM 151, CHEM 152 |
| | 52 | 8 | Required for all students in the Department of Biology and Chemistry majors and minors |
| Natural Sciences | 50 | 3 | APS, Elective credit only, Non-General-Education |
| Precalculus | 50 | 3 | MATH 150 |

[1]    Essay is required to receive APU course equivalency. Note that essays are evaluated after a passing score on the multiple-choice section of the CLEP is achieved.

[2]    This test is not acceptable as an equivalent course for students in the liberal studies major seeking the multiple subject (K-12) teaching credential.

[3]    MATH 90 does not meet the General Education Quantitative Literacy requirement and does not count toward total units needed for graduation.

# DANTES Subject Standardized Tests (DSST)

DSST exams are recommended for credit by the American Council on Education (ACE) (https://www.acenet.edu/Pages/default.aspx). APU has an extensive list of subject-level exams (see below) that are offered in diverse disciplines and cover upper- and lower-level baccalaureate credit courses. These exams help students save time and money while accelerating graduation completion. To schedule an appointment to take a DSST exam through the Academic Success Center's Testing Services (https://www.apu.edu/academic-success/services/testing/), use our online scheduling system (https://aputesting.youcanbook.me/).

On the day of the exam, students must:

- Provide one form of government-issued identification that clearly shows the student's legal name, birth date, photo, and signature.
- Pay a $100 fee per exam to DSST. This fee is payable on the day of the exam by credit card only.
- Pay a $30 nonrefundable proctoring fee per exam to APU. This fee is payable online after booking an online appointment.

## APU Credit for DANTES Subject Standardized Tests

| Subject | Score | Units | Course Equivalent |
|---|---|---|---|
| **Applied Technology** | | | |
| Technical Writing | 400 | 3 | Elective, not GE |
| **Business** | | | |
| Business Ethics and Society | 400 | 3 | Elective, not GE |
| Business Mathematics | 400 | 3 | Elective, not GE |
| Human Resource Management | 400 | 3 | Elective, not GE |
| Introduction to Business | 400 | 3 | Elective, not GE |
| Management Information Systems | 400 | 3 | BUSI 240 Introduction to Information Systems and Business Applications |
| Money and Banking | 400 | 3 | Elective, not GE |
| Organizational Behavior | 400 | 3 | Elective, not GE |
| Personal Finance | 400 | 3 | Elective, not GE or Business Major |
| Principles of Finance | 400 | 3 | Elective, not GE |
| Principles of Supervision | 400 | 3 | Elective, not GE |
| **Humanities** | | | |
| Ethics in America | 400 | 3 | Elective, not GE or Philosophy Major |
| Introduction to World Religions | 400 | 3 | Elective, not GE or Philosophy Major |
| **Mathematics** | | | |
| Fundamentals of College Algebra[1] | 400 | ---[1] | MATH 95 Intermediate Algebra[1] |
| Principles of Statistics | 400 | 3 | MATH 130 Introduction to Statistics |
| **Physical Science** | | | |
| Astronomy | 400 | 3 | Elective, not GE |
| Health and Human Development | 400 | 2 | PE 240 Health Education |
| **Social Science** | | | |
| Art of the Western World | 400 | 3 | ART 150 Introduction to Art |
| Civil War and Reconstruction | 400 | 3 | HIST 380 Civil War and Reconstruction |
| Criminal Justice | 400 | 3 | CJ 110: Introduction to Criminal Justice |
| Foundations of Education | 400 | 3 | Elective, not GE |

| Fundamentals of Counseling | 400 | 3 | Elective, not GE |
| General Anthropology | 400 | 3 | GLBL 201 Anthropology for Everyday Life |
| History of the Soviet Union | 400 | 3 | HIST 484 Historical Themes: Soviet Union |
| A History of the Vietnam War | 400 | 3 | HIST 484 Historical Themes: Vietnam War |
| Human/Cultural Geography | 400 | 3 | Elective, not GE |
| Introduction to Law Enforcement | 400 | 3 | CJ 220: Police and Society |
| Lifespan Developmental Psychology | 400 | 3 | PSYC 290 Human Growth and Development |
| Substance Abuse | 400 | 3 | Elective, not GE |

[1]    This test is acceptable as a remedial-level course, applicable as a prerequisite, and it does not count toward total units needed for the bachelor's degree. The units will not appear on the student transcript.

NOTE: Students may **NOT** receive dual credit for DSST exams and courses that are the same subject.

*The DSST program is owned by Prometric, the global leader in testing and assessment, and has been placing students on the fast track to college degrees since 1986. For more information, visit the* DSST website *(*https://www.getcollegecredit.com*).*

# Foreign Language Achievement Testing Service (FLATS)

To meet APU's foreign language proficiency requirement, students have the option of using the Foreign Language Achievement Testing Service (FLATS) at Brigham Young University. Using the FLATS exam to demonstrate foreign language proficiency may be a viable option for students who have mastered a certain level of proficiency in a foreign language. FLATS offers more than 50 languages for students to choose from, and language options can be found on the FLATS website (https://flats.byu.edu/flatsinfo.php).

The exams cover listening, reading, and grammar, are in multiple-choice format, and allow students two and a half hours to complete. Students who pass this assessment through the 102 course level will receive 3 elective units. New and transfer students can go to the Academic Success Center (ASC) Testing Services website (https://www.apu.edu/academic-success/services/testing/foreign/) to learn more about the foreign language proficiency options.

To take a FLATS exam, students must:

- Register on the FLATS website. There is a $50 exam fee payable by credit or debit card only.
- Schedule an appointment (https://aputesting.youcanbook.me/) to take the exam through APU's Testing Center.
- Pay a $30 nonrefundable proctoring fee online after booking an appointment no later than 3 calendar days before your appointment.

On the day of the exam, students must:

- Present one form of government-issued identification, clearly showing the student's legal name, birth date, photo, and signature.

# TRIO Student Support Services and Upward Bound

## TRIO Student Support Services

TRIO Student Support Services (https://www.apu.edu/academic-success/trio/) provides opportunities for academic development to motivate students who demonstrate academic need toward successful completion of postsecondary education. Services are available for first-generation students, those from low-income families, and those with disabilities requiring learning accommodations. Through the following services, the program aims to increase the college retention and graduation rates of its participants:

- Provides individualized academic coaching and priority registration
- Facilitates connections with peer mentors
- Aids in professional development and leadership opportunities

- Offers grant aid to eligible participants
- Exposes students to cultural events and specialized academic programs
- Offers career counseling, career exploration workshops, and assessments
- Provides academic tutoring and supplemental instruction
- Identifies and shares resources to promote financial literacy and minimize student debt

## TRIO Upward Bound

TRIO Upward Bound (https://www.apu.edu/academic-success/upward-bound/) (UB) offers holistic programming to potential first-generation students from Azusa High School with the purpose of motivating and equipping participants with the skills to graduate high school and complete a program of postsecondary education. To achieve its mission, UB offers the following services:

- Academic tutoring services to support participant completion of A-G coursework
- Individual academic coaching centered on conversations regarding course selection, college admission requirements, financial aid options, and personal, educational, and career goals
- Preparation for college entrance exams and state assessments
- Student development workshops relating to financial aid, financial literacy, career exploration, college applications, study skills, time management, and self-advocacy
- Exposure to college campuses and cultural events throughout the year
- Informational meetings for participant guardians on postsecondary education options, college admission requirements, financial aid, and the first-generation experience
- Six-week summer academic enrichment courses in English, math, science, and a foreign language, as well as recreational and personal development activities, to prepare them for the rigors of college

# Tutoring Center

Tutoring is available at no additional charge for numerous academic subjects. Specific subject areas change each semester based on student demand and the availability of qualified peer tutors.

The Tutoring Center schedules online and in-person appointments for one-on-one sessions as well as small-group tutoring. The Tutoring Center also offers drop-in tutoring for specific subjects.

Tutoring empowers students to become more confident, effective, and independent learners. To learn more, visit the Tutoring Center website (https://sites.google.com/apu.edu/tutoring/welcome/). You may also schedule a tutoring appointment online (https://sites.google.com/apu.edu/tutoring/appointment-help/how-to-schedule-appointments/) or contact us at tutoringcenter@apu.edu or (626) 815-6120.

# Writing Center

The APU Writing Center offers several forms of writing support that are free and available to all APU students:

- **In-Person Appointments:** Students may meet with writing coaches at any stage of the writing process and receive individualized support to improve their writing projects and their long-term writing skills. Schedule an appointment (https://sites.google.com/apu.edu/tutoring/appointment-help/how-to-schedule-appointments/), or visit the APU Writing Center website (https://www.apu.edu/writingcenter/) to learn more about us and our services.
- **Online Appointments:** During online appointments, students and writing coaches use Zoom and a mutual whiteboard space or shared screen to work together in real time.
- **Drop-In Hours:** The center offers drop-in hours, where students meet with writing coaches individually or in groups. View the current drop-in hours and location. (https://sites.google.com/apu.edu/tutoring/drop-ins/)
- **Workshops:** The center offers in-class workshops by faculty request. Faculty may request classroom workshops by using our Writing Center Service Request Form (https://formstack.apu.edu/forms/writing_center_service_request_form/).
- **Resources:** Our Google site (https://sites.google.com/apu.edu/tutoring/writing-resources/) houses PDF resources on more than 35 writing challenges ranging from brainstorming to documentation.
- **Speaking Center Appointments:** Students may meet with speaking coaches and receive individualized support to improve their speaking projects and presentation assignments.

## Locations

APU's Writing Center is open year-round, excluding holidays and university closures, and has locations in Marshburn Library (East Campus), Segerstrom Science Center (West Campus), and online.

# Writing Program

APU's Writing Program includes lower- and upper-division courses to help students become more competent and confident writers. The goal of these courses is for students to develop as critical thinkers, researchers, and writers who can creatively address a variety of rhetorical contexts.

The General Education (https://www.apu.edu/provost/generaleducation/) (GE) Writing Program (https://www.apu.edu/writing-program/) guides students through the process of gaining cross-disciplinary writing skills. The program consists of three 3-unit GE courses (Writing 1, 2, and 3), as well as an optional 1-unit Writing 1 Lab. In these courses, students cultivate a lifelong habit of learning to write and writing to learn, develop their individual writing processes, learn about genres and rhetorical situations, and write within a community of peers.

Because Writing 1 is a first-year writing course, students should plan to take WRIT 110 The Art and Craft of Writing during their first semester at APU. Students should plan to take the Writing 2 course that is recommended by their majors as sophomores, followed by the appropriate Writing 3 course as juniors or seniors.

## Writing Pathways

All APU students must take Writing 1 unless they have a qualifying AP score (p. 942) or transfer credit (https://www.apu.edu/undergraduate-admissions/transfer/articulation/). Students enrolled in the Honors College take HON 101 Leadership in place of Writing 1. All APU students must take Writing 2 and Writing 3 unless they have appropriate transfer credit.

## Writing 1

In Writing 1, students are introduced to college-level writing expectations. They write and learn in a community of peers, giving and receiving feedback in small groups. In a designated week during the semester, students conference one-on-one with the professor to receive individualized feedback on the development of their writing. They build rhetorical awareness and personal writing processes that they use throughout their time at APU and beyond.

## Writing 1 Lab

Alongside Writing 1, some students may choose to take the Writing 1 Lab. Writing labs offer a small-group format, supporting students as they move beyond high school writing toward college-level writing expectations. Our faculty assume that students who take the lab in addition to Writing 1 are capable, college-level or nearly college-level writers who will benefit from extra support and feedback, whether that support is focused on thesis development, organization, time management, confidence, grammar instruction, or some other aspect of writing.

## Writing 2

In Writing 2, students assess the writing styles, questions, and arguments of broader fields (e.g., humanities, nursing, or science). It is strongly recommended that students enroll in Writing 2 as sophomores. Some majors require a specific Writing 2 course. It is most beneficial and strongly recommended to enroll in the Writing 2 course that pertains to the student's field of study, but students may enroll in the Writing 2 course of their choice if their major does not require a particular course. Students must earn a grade of *C-* or higher in Writing 1 to enroll in Writing 2. Some Writing 2 courses have other prerequisites in addition to Writing 1.

## Writing 3

In Writing 3, juniors or seniors learn how to craft polished drafts of professional quality in their major and practice the types of writing they might encounter in their future professions. Most majors require a particular course. It is most beneficial and strongly recommended to enroll in the Writing 3 course that pertains to the student's field of study, but students may enroll in the Writing 3 course of their choice if their major does not require a particular course. Many Writing 3 courses have prerequisites in addition to Writing 2.

## Helpful Resources

The Writing Program Lexicon (https://drive.google.com/file/d/14j8T-H4yaeajWL0681W0gAME4RNJowwe/view/) establishes a consistent vocabulary for APU faculty and students, facilitating smooth transitions between courses and encouraging student learning. The Writing Program also coordinates its efforts with the Writing Center (https://www.apu.edu/writingcenter/), which offers one-on-one appointments to help students become better writers.

## Overenrollment Policy

The Writing Program does not permit students to add Writing 1, 2, or 3 courses that are full, because smaller class sizes are essential for thorough faculty feedback and writing support. If you have extenuating circumstances that make it necessary for you to take a Writing 1, 2, or 3 course that is full, contact the Writing Program; the director of the Writing Program and the instructor of the course must approve your request. If your request is approved, the Writing Program will issue you a permission code to register for the section.

## Mission Statement

Azusa Pacific University's Writing Program fosters a culture of writing among students and faculty from all disciplines. Drawing on scholarship in rhetoric and composition, the Writing Program collaborates with faculty to use best practices in writing courses across the curriculum to help students learn to write ethically, clearly, creatively, and effectively as academics, professionals, and Christ-following citizens in diverse communities.

## Courses

### WRIT 101, Writing Lab, 1 Unit

WRIT 101 is a one-unit course designed to support students currently enrolled in any course at APU where assistance is needed to meet college-level writing expectations. The Lab will provide a space for students to engage with the foundational concepts introduced in APU's writing program, such as developing a writing process, understanding rhetorical situations, and crafting sound arguments. Within a casual, interactive workshop format that is practical and tailored to the unique needs of the group members, students meet four times weekly to further develop their writing skills and their individual writing processes. Students should expect to bring assignments or projects from their class to each Lab meeting.
**Prerequisite:** Students must be enrolled at APU.

### WRIT 110, Writing 1: The Art and Craft of Writing, 3 Units

Writing is a skill that can be practiced and improved. In this course, students learn about writing by approaching it from theoretical, historical, pedagogical, and practical perspectives. Students engage with writing processes, literacies, and genres by reading and writing about research and arguments dealing with all aspects of writing. Students also craft arguments of their own based on their research on the art and craft of writing. *Students must earn a C- or higher in Writing 1 in order to register for Writing 2. *Meets the General Education Requirement: Writing 1: The Art Craft of Writing.*

### WRIT 120, Writing 1 Lab, 1 Unit

For students who have chosen through advising and self-placement to receive the extra support that will encourage success in their Writing 1 course, the Writing 1 Lab provides weekly tutorials on Writing 1 assignments and brief assignments that provide enrichment in reading/writing/rhetoric/grammar in ways that support their work as writers in Writing 1. During weekly one hour sessions, students will work with a writing coach to further develop their writing processes, their handling of language conventions at the sentence and paragraph level, and deepen their reading and writing through peer editing sessions with a writing coach. Work will include tutoring on Writing 1 assignments, including rough drafts for Writing 1, and additional small assignments designed for the lab to link reading, writing, logic, and grammar. Students should expect to work two additional hours outside of the session. 1 unit course.
**Prerequisite:** Co-requisite: WRIT 110

### WRIT 200, Writing 2: Writing for Christian Practice, 3 Units

In this course, students will critically assess the writing styles, questions, and arguments of one or more disciplines in order to better understand what is considered persuasive and effective writing in those fields. Students will respond to and evaluate writing, methodologies, ideas, and arguments and practice rhetorical strategies being employed in their own field. *Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*
**Prerequisite:** GE 100, MIN 108; HON 101 or C- or Better in WRIT 110

### WRIT 201, Writing 2: Philosophy of Math, Logic, and Language, 3 Units

Why is mathematics so effective in describing the physical universe? What happens when ordinary reasoning and languages are translated into more abstract mathematical and logical symbolism? Is anything lost in translation? This course introduces students to these and other questions on the nature of mathematics, logic, and language. Students evaluate the arguments, writing styles, rhetorical strategies, and types of evidence employed by the mathematicians, scientists, and philosophers addressing these questions. By critically thinking about formal logical and mathematical discourse, students become better writers in and about that discourse. *Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*
**Prerequisite:** GE 100, HON 101, or C- or better in WRIT 110; PHIL 310 or MATH 280 or instructor's consent.

### WRIT 202, Writing 2: Philosophical Writing in C. S. Lewis, 3 Units

C. S. Lewis was one of the most influential public Christian intellectuals of the 20th century. One of the reasons for this is that he wrote clearly and persuasively about the perennial questions of philosophy but for the common person. In this course, we will study and practice the art of writing well on philosophical matters for a broad audience. Students will critically assess the writing styles, questions, and arguments of philosophical writing for a general audience and will contrast what it takes to do such writing well with related forms of writing such as philosophical writing for a specialist audience and philosophical writing in fictional form. We will do so by analyzing, emulating, and critiquing the work of C. S. Lewis from the standpoint of philosophy. *Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*
**Prerequisite:** GE 100, HON 101 or C- or Better in WRIT 110

## WRIT 203, Writing 2: Writing in Religion, Cinema, and Popular Culture, 3 Units

In this course, students critically assess the writing styles, questions, and arguments in the discipline of religious studies, with special focus on the study of religion and visual studies in order to better understand what is considered persuasive and effective writing in religious studies. Students respond to and evaluate writing, methodologies, ideas, arguments, and genres, and practice rhetorical strategies employed in the field. *Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*
**Prerequisite:** GE 100, HON 101, or C- or better in WRIT 110.

## WRIT 204, Writing 2: Writing for the Humanities in Spanish, 3 Units

Students in this course critically assess writing styles, questions, and arguments important to the humanities through a study of great works and life's enduring questions. In order to understand better what is considered persuasive and effective writing in the humanities, students respond to and evaluate writing, methodologies, ideas, and arguments, and practice rhetorical strategies employed in the liberal arts. The entire course, including all assignments, is in Spanish. *Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*
**Prerequisite:** GE 100, HON 101 or C- or better in WRIT 110, and SPAN 202

## WRIT 210, Writing 2: Writing in the Humanities, 3 Units

In this course, students will critically assess writing styles, questions, and arguments important to the humanities through a study of great works and life's enduring questions. In order to understand better what is considered persuasive and effective writing in the humanities, students will respond to and evaluate writing, methodologies, ideas, and arguments, and practice rhetorical strategies being employed in the liberal arts. *Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*
**Prerequisite:** GE 100, HON 101 or C- or Better in WRIT 110

## WRIT 220, Writing 2: Film Analysis and Criticism, 3 Units

This course is an introduction to film as a narrative and visual medium, emphasizing the terms, methods, and techniques of film analysis. Students view and discuss films in terms of formal elements - plot structure, character development, themes, genres, and literary sources. Some attention is given to the history of cinema, film criticism and theory, as well as film production from development through distribution. *Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*
**Prerequisite:** GE 100, HON 101 or C- or better in WRIT 110, and department consent.

## WRIT 221, Writing 2: Writing for Visual Thinkers, 3 Units

In this course, students examine writing styles as expressed in the studio arts and design, whether as criticism, analysis, personal expression, persuasion, or artist and designer statements. Students will learn how to translate their visual world into words, and to evaluate visual ideas, both their own and others; as those gifted for visual expression are able. In order to understand how to write persuasively and effectively, students will examine theoretical approaches that are employed as conceptual frameworks in making art and design. *Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*
**Prerequisite:** GE 100, HON 101 or C- or Better in WRIT 110

## WRIT 222, Writing 2: Writing about Music, 3 Units

In this course, students examine methods and tools of research and writing in music. They assess and practice various writing styles, as well as questions and arguments associated with (1) the historical fields of research (e.g., musicology, ethnomusicology, music education, music criticism, music analysis, program notes) and (2) music entrepreneurship (e.g., music business, production, marketing, artist management). Students also become familiar with online and hard copy music resources available in Marshburn Memorial Library. *Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*
**Prerequisite:** GE 100, HON 101 or C- or Better in WRIT 110

## WRIT 240, Writing 2: Scientific Writing, 3 Units

In this course, students critically assess genres of scientific writing, including scientific journal articles, grant proposals, and writing for popular audiences, examining writing styles and forms of argument that are considered persuasive in the sciences. Students also evaluate writing samples, methodologies, ideas, and arguments, and practice writing in scientific genres. *Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*
**Prerequisite:** GE 100, HON 101 or C- or better in WRIT 110; and BIOL 152, BIOL 250, CHEM 152, PHYC 156, or PHYC 166.

## WRIT 241, Writing 2: Physical Activity and Health Promotion, 3 Units

Students in this course have multiple opportunities to share knowledge through written assignments and brief verbal responses. The course activities challenge the student to consider the audience and platform for communication, develop a concise argument, persuade readers, and critically evaluate research articles. Students also enhance their skills in literature searches using library databases, and gain proficiency in citing using APA formatting. *Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*
**Prerequisite:** GE 100; HON 101 or C- or better in WRIT 110; C- or higher in BIOL 230 or BIOL 250; students must be kinesiology majors, other majors may enroll by instructor consent.

### WRIT 242, Writing 2: Entrepreneurial Tech Start-ups, 3 Units

In this course, students critically assess the writing styles, questions, and arguments of business, computer science, and technology in order to better understand what is considered persuasive and effective writing in these fields. Students respond to and evaluate writing, methodologies, ideas, and arguments, and practice rhetorical strategies being employed in their own field while analyzing and contributing to current trends in the field through the creation of relevant business-tech documents. *Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*
**Prerequisite:** GE 100, HON 101 or C- or better in WRIT 110

### WRIT 243, Writing 2: Mathematical Careers and Callings, 3 Units

In this course, students explore a variety of mathematical careers, assess writings from subdisciplines of mathematics, evaluate arguments regarding the purpose or value of mathematics, and explore the value of mathematical work in their individual contexts. Students critically assess the writing styles, questions, and arguments of mathematicians in a variety of careers in order to better understand what is considered persuasive and effective writing in those fields, and also practice rhetorical strategies. Course material includes Christian perspectives on the value of work and culture in general and the value and purpose of mathematical work in particular. *Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*
**Prerequisite:** HON 101 or WRIT 110 with C- or better

### WRIT 260, Writing 2: Psychology Subdisciplines and Career Trajectories, 3 Units

This course provides a foundation for students to think, write, and communicate as psychological scientists. The specific style of writing is based on the American Psychological Association (APA) format, which reflects the precepts of the discipline. The course focuses on the general writing process as well as the particular writing conventions in the social sciences to build critical skills in communication. As students learn to write thoughtfully and persuasively, they also engage in a comprehensive overview of the major subfields in the discipline of psychology and the variety of career trajectories that students may consider in behavioral settings. In the process of career exploration as it relates to central concerns, themes, and professional trajectories, students critically assess the writing style, questions, and arguments from multiple subdisciplines. Students also develop skill in formatting written work utilizing APA style, in order to develop skills in effective writing, researching, and identifying credible sources in the field. *Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*
**Prerequisite:** GE 100, HON 101, or C- or better in WRIT 110.

### WRIT 261, Writing 2: Writing in Business, 3 Units

In this course, students critically assess the writing styles, questions, and arguments found in the organizational environment in order to better understand what is considered persuasive and effective writing in business and management. Students respond to and evaluate writing, methodologies, ideas, and arguments, and practice rhetorical strategies being employed in their own field. *Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*
**Prerequisite:** GE 100, HON 101 or C- or Better in WRIT 110

### WRIT 262, Writing 2: Criminal Justice Research Methods, 3 Units

This course introduces students to research writing in the social and behavioral sciences, including the basic methods of research design, measurement, and data collection in criminology and criminal justice. Students compare research writing to other genres of writing, taking into account audience and rhetorical situation (as learned in Writing 1). Students also learn the techniques used to define research problems, select and appropriately measure variables, state hypotheses, and select experimental methods, culminating in each student completing a research proposal on a topic of their own choosing. *Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*
**Prerequisite:** GE 100, HON 101 or C- or better in WRIT 110; MATH 115 or MATH 130; and CJ 110

### WRIT 263, Writing 2: Writing Ethnography in the Social Sciences, 3 Units

Ethnography is a research methodology used in business, education, health care, and ministry. In this course, students critically assess genres of ethnographic writing in the social sciences, including analytical journals, journal articles, and writing for popular audiences. Students examine writing styles and forms of argument that are considered persuasive in the social sciences. Students evaluate writing samples, methodologies, ideas, and arguments, and practice writing in social scientific genres. *Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*
**Prerequisite:** GE 100, HON 101 or C- or Better in WRIT 110

# Student Affairs

## About Student Affairs

### Thrive at APU!

At Azusa Pacific University, our Student Affairs team of Christ-centered educators believes in the holistic development of all students. Our hope is that learning extends beyond the classroom into all areas of students' lives as they strive to become the person God has called them to be. Through a variety of services and programs, we are dedicated to creating environments and experiences that encourage students throughout their journey to develop a commitment to lifelong learning in the areas of Christian spiritual formation, student engagement, and student wellness. Our desire is for each student to develop a deeper understanding of their identity, faith, academic goals, and vocational pursuits, and to become a difference maker who will impact their communities for Christ.

## Our Three Pillars of Student Development

### Spiritual Formation

We believe that the life-changing good news of Jesus Christ is both an eternal promise and an invitation to be part of God's work in the world now. In the classrooms and the residence halls, on the field and in chapel, around the world and across the street, we are engaging all students in the personal and collective process of being formed in the image of Christ for the sake of others.[1] We foster students' spiritual development by providing opportunities to participate in corporate worship, local and global service, Christian formation, and spiritual care.

[1]   Adapted from R. Mullholand, 2016.

### Student Engagement

We believe a student's sense of belonging contributes to their success both inside and outside of the classroom. Each student is a valuable member of our community and their contribution at APU makes a difference. Student Engagement provides a variety of opportunities for students to build meaningful connections with others and contribute to the needs and shared goals of the community.

### Student Wellness

We believe that students who invest in their holistic well-being are more likely to reach their academic and personal potential. We provide Christ-centered wellness services, programs and educational opportunities that empower students and the APU community to thrive physically, emotionally, socially and spiritually.

### Resources

- Accessibility and Disability Resources (p. 1094)
- Campus Life (p. 1127)
- Chapel and Pastoral Care (p. 1128)
- Commuter Life (p. 1128)
- Disability Grievance Policy for Students (p. 1086)

- University Counseling Center (p. 1105)

# Accessibility and Disability Resources

The Accessibility and Disability Resources office (https://www.apu.edu/student-affairs/accessibility/) is open year-round and provides a wide range of academic support services for APU students seeking to enhance their learning. It is the designated office for:

- Verification of disability.
- Disability documentation archive.
- Coordination of direct services for APU students with specific disabilities.

The office serves all students, regardless of degree level or campus location. Accommodations are individualized based on the learning needs of each student and upon documented verification of disability, as appropriate. Accommodation examples include, but are not limited to, extended time on exams, exams taken in a least-distracting environment, sign language interpreters, captionists, wheelchair access, and other reasonable accommodations. Accommodations are unreasonable if they would fundamentally alter the nature of academic courses, education programs, or other activities, or would result in undue financial or administrative burden.

In compliance with Section 504 of the Rehabilitation Act of 1973, APU permits service animals on campus. For more information on service animals as a disability accommodation (p. 1096), contact the director of accessibility and disability resources.

# Request for Disability Accommodations

Students with disabilities may request accommodations by following the steps below:

1. Complete a Request for Accommodations Form (https://apu-accommodate.symplicity.com/public_accommodation/) available in the Accessibility and Disability Resources office or online.
2. Provide documentation of the disability (https://www.apu.edu/student-affairs/accessibility/). More information about the documentation requirements may be found online and in the Accessibility and Disability Resources office, including referrals for diagnostic testing.
3. Schedule a meeting to discuss needs with the director or coordinator of accessibility and disability resources, who will review and decide which accommodations, if any, are reasonable and appropriate. Note that students who reside at a distance may have this meeting by phone.

Students who believe that their requests have not been adequately addressed may follow the university's Disability Grievance Policy (https://www.apu.edu/student-affairs/accessibility/#disabilitygrievancepolicy) for students.

For more information about disability accommodations or to obtain guidelines for disability documentation, stop by the Accessibility and Disability Resources office, call (626) 815-2067, or send a note to disabilityservices@apu.edu.

# Personal Care Assistance or Equipment

Students are expected to have the skills to care for themselves when functioning on campus or when occupying campus housing. Personal assistance necessitating an attendant may range from hygiene and seating assistance to medication assistance. Students requesting services from peers, staff, or faculty will be asked to obtain a personal attendant at their own expense. The provision of services by untrained individuals is considered a safety risk to the student with a disability and the individual providing the assistance.

# Mobility Impairment Parking Permits for Students

## Permanent Mobility Impairment

Students with a Disabled Person Parking Placard due to permanent mobility impairment (that is, a "DP" license plate or a placard issued by the California Department of Motor Vehicles) may park in any designated handicapped parking space on campus. In addition, students must register their vehicle with the Department of Campus Safety (https://www.apu.edu/campussafety/) to receive an APU parking permit. Appropriate documentation to verify the mobility impairment may be requested. The placard or license plate must be displayed at all times, and parking in restricted areas, such as red zones, is not permitted.

## Temporary Mobility Impairment

Students who have a temporary mobility impairment (less than one semester), such as a broken leg or short-term illness, that impacts their ability to walk short distances can request a Temporary Parking Permit that allows the student to park in any general space with the exception of restricted areas or spaces reserved for individuals with disabilities. To obtain a Temporary Parking Permit:

- Submit a completed Request for Accommodations Form (https://apu-accommodate.symplicity.com/public_accommodation/) available in the Accessibility and Disability Resources office and online.
- Provide documentation of the injury or illness from a qualified medical professional stating limitations and length of time expected for recovery.
- Meet with the director or coordinator of accessibility and disability resources to review the request.

Student vehicles must be registered with the Department of Campus Safety in order to receive a Temporary Parking Permit.

If a student injury or illness extends beyond one semester, the student should meet with the director or coordinator of accessibility and disability resources again prior to obtaining an extension of the Temporary Parking Permit.

For additional inquiries, contact Accessibility and Disability Resources at (626) 815-2067 or the Department of Campus Safety at (626) 815-5000.

# Study Away Disability Accommodations

Students requiring disability accommodations for study away are encouraged to meet with the director of accessibility and disability resources as soon as possible to determine the resources available in the country of destination. Because the laws of the United States do not always apply in other countries, physical accessibility and other accommodations may not be equal to service provided in the United States. Accessibility and Disability Resources, however, works with students to develop strategies to address their disability needs.

Each student is different, and travel to other countries requires an honest evaluation of what is required to identify and manage individual disability needs and potential issues that could occur while away. A discussion with the student about program fit, course selection, and personal needs is a collaborative effort shared by the Study Away program (http://www.apu.edu/global-engagement/) and Accessibility and Disability Resources. Open communication ensures a positive transition for students.

Procedure for students pursuing disability accommodations away:

1. Meet individually with an advisor in the Study Away program to identify the best program fit in relation to the student's goals and academic needs.
2. After a study away program has been selected, the student should meet with the director of accessibility and disability resources to discuss disability documentation and appropriate accommodations, which are considered on a case-by-case basis.
3. The director of accessibility and disability resources will research the case and communicate with the Study Away program to determine the feasibility of providing accommodations at the anticipated location away.
4. A follow-up meeting at Accessibility and Disability Resources will be held with the student to discuss available accommodations at the location away and a possible plan of action.

# Service Animals

## Notice of Service Animal as a Disability Accommodation Policy

Service animals perform some of the functions and tasks that an individual with a disability cannot perform. Guide dogs are one type of service animal, used by some individuals who are blind. A guide dog is the type of service animal with which many are familiar. There are, however, service animals that assist persons with other kinds of disabilities in their day-to-day activities. Some examples include:

- Alerting persons with hearing impairments to sounds.
- Pulling wheelchairs or carrying and picking up things for persons with mobility impairments.
- Assisting persons with mobility impairments with balance.

A service animal is not a pet.

Pursuant to section 504 of the Rehabilitation Act of 1973 and its implementing regulations, Azusa Pacific University ("university") permits the use of a service animal in accordance with its Service Animal as a Disability Accommodation Policy. Section 504 prohibits discrimination on the basis of a disability under any program or activity of the university receiving federal financial assistance.

The intent of the university is to fully comply with section 504 of the Rehabilitation Act of 1973, and under that law the university permits the use of a service animal by an individual with a disability as further set forth in the policy.

A service animal is a dog that is individually trained to do work or perform tasks for the benefit of the individual with a disability. Other species of animals, whether wild or domestic, trained or untrained, are not service animals. The work or tasks performed by the service animal must be directly related to the individual's disability. The crime deterrent effects of an animal's presence and the provision of emotional support, well-being, comfort, or companionship do not constitute work or tasks for the purposes of this definition.

Questions about this policy may be directed to the director of Accessibility and Disability Resources (https://www.apu.edu/student-affairs/accessibility/), 901 E. Alosta Ave., Azusa, CA 91702, East Campus, at (626) 815-2067 or disabilityservices@apu.edu, and any complaints alleging a violation of the policy or noncompliance with its provisions will be governed by the university's Disability Grievance Policy for Students (p. 1086). Copies are available at the office of the director of Accessibility and Disability Resources, East Campus (near the intersection of East Alosta Avenue and North Citrus Avenue).

## Service Animal as a Disability Accommodation Policy

In compliance with Section 504 of the Rehabilitation Act of 1973 including its implementing regulations, Azusa Pacific University ("university") does not discriminate on the basis of disability and is committed to providing equal educational opportunities for disabled students who qualify. The university permits the use of a service animal in accordance with its Service Animal as a Disability Accommodation Policy, as follows:

## I. Definition

**"Service animal"** means any dog that is individually trained to do work or perform tasks for the benefit of an individual with a disability including a physical, sensory, psychiatric, intellectual, or other mental disability. Other species of animals, whether wild or domestic, trained or untrained, are not service animals for the purposes of this definition. The work or tasks performed by a service animal must be directly related to the individual's disability. Examples of work or tasks include, but are not limited to, assisting individuals who are blind or have low vision with navigation and other tasks, alerting individuals who are deaf or hard of hearing to the presence of people or sounds, providing nonviolent protection or rescue work, pulling a wheelchair, assisting an individual during a seizure, alerting individuals to the presence of allergens, retrieving items such as medicine or the telephone, providing physical support and assistance with balance and stability to individuals with mobility disabilities, and helping persons with psychiatric and neurological disabilities by preventing or interrupting impulsive or destructive behaviors. The crime deterrent effects of an animal's presence and the provision of emotional support, well-being, comfort, or companionship do not constitute work or tasks for the purposes of this definition.

## II. In General

Azusa Pacific University permits the use of a service animal by an individual with a disability. APU requests such an individual complete a Request for Accommodations Form (https://apu-accommodate.symplicity.com/public_accommodation/) and discuss his or her accommodation needs with an advisor in the ADR.

## III. Other Provisions

1. **Removal of Service Animal**. The university may ask an individual to remove a service animal from the premises if:
   a. The animal is out of control and the animal's handler does not take effective action to control it;
   b. The animal is not housebroken; or
   c. The animal poses a direct threat to the health and safety of others (allergies and a fear of animals by others, generally, are not valid reasons for denying a student the right to have a service animal on university premises). A direct threat to the health and safety of others may be the basis for reasonable time, place, and manner restrictions.

2. **If an Animal is Properly Excluded**. If the university properly excludes a service animal under this policy, it shall give the individual with a disability the opportunity to obtain goods, services, and accommodations without having the service animal on the premises.

3. **Animal Under Handler's Control**. A service animal shall be under the control of its handler. A service animal shall have a harness, leash, or other tether, unless either the handler is unable because of a disability to use a harness, leash, or other tether, or the use of a harness, leash, or other tether would interfere with the service animal's safe, effective performance of work or tasks, in which case the service animal must be otherwise under the handler's control (e.g., voice control, signals, or other effective means).

4. **Care or Supervision**. The university is not responsible for the care or supervision of a service animal.

5. **Inquiries**. The university shall not ask about the nature or extent of a person's disability, but may make two inquiries to determine whether an animal qualifies as a service animal. The university may ask if the animal is required because of a disability and what work or task the animal has been trained to perform. The university shall not require documentation, such as proof that the animal has been certified, trained, or licensed as a service animal. Generally, the university may not make these inquiries about a service animal when it is readily apparent that an animal is trained to do work or perform tasks for an individual with a disability (e.g., the dog is observed guiding an individual who is blind or has low vision, pulling a person's wheelchair, or providing assistance with stability or balance to an individual with an observable mobility disability).

6. **Access to Areas of the University**. An individual with a disability shall be permitted to be accompanied by his or her service animal in all areas of the university where members of the public, program participants, clients, customers, patrons, or invitees, as relevant, are allowed to go.

7. **Surcharges**. The university shall not ask or require an individual with a disability to pay a surcharge, even if people accompanied by pets are required to pay fees, or to comply with other requirements generally not applicable to people without pets. If the university normally charges individuals for the damage they cause, an individual with a disability may be charged for damage caused by his or her service animal.

8. **Questions**. Questions about this policy may be submitted to the director of Accessibility and Disability Resources, 901 E. Alosta Ave., Azusa, CA 91702, at (626) 815-2067 or disabilityservices@apu.edu.

9. **Complaints/Grievance Policy**. Complaints alleging any violation of this policy or noncompliance with its provisions will be governed by the university's Disability Grievance Policy for Students (p. 1086). Copies are available at the office of the Director of Accessibility and Disability Resources.

# Campus Life

The Office of Campus Life (https://www.apu.edu/campus-life/) offers purposeful programming to help students develop a sense of belonging and personal growth throughout their APU experience.

## Office Values

- Intentional Connection: Belonging grounds your pursuit toward who you are becoming
- Self-Development: Unlock and embrace your full potential
- Diverse Opportunities: An invitation to explore and discover your interests

## Mission Statement

Create meaningful experiences.

## Fulfilling Our Mission

Campus Life fulfills its mission through the following:

- Alpha Program: (https://www.apu.edu/campus-life/alpha-program/) Supporting students' sense of belonging in their first year at APU through the Alpha Program orientation groups for first-year and transfer students.
- Campus Events: (https://www.apu.edu/campus-life/events/) Campus-wide engagement opportunities to foster a sense of community.
- Campus Recreation: (https://www.apu.edu/campus-life/recreation/) Coordinating physical and electronic sports throughout the academic year.
- Clubs and Organizations: (https://www.apu.edu/campus-life/clubs/) Supporting student-managed groups, including performing arts clubs, social clubs, service organizations, academic clubs, honors societies, and club sports. Azusa Pacific University does not allow or recognize national social clubs, fraternities, or sororities.

## Welcome Weekend

The Office of Campus Life hosts Welcome Weekend (https://www.apu.edu/welcome-weekend/) at the beginning of each fall and spring semester to welcome new APU students into the community. Welcome Weekend provides an experience that fosters a sense of belonging for new students, families, and guests through intentional programming centered on preparing each student for their time at Azusa Pacific University.

# Chapel and Pastoral Care

Part of the Spiritual Life team, the Office of Chapel and Pastoral Care (https://www.apu.edu/spiritual-life/chapel-pastoral-care/) cultivates spaces for undergraduate students to encounter the life-changing grace of Christ in the large-scale venue of chapel and the small-scale setting of pastoral care and counseling.

## Chapel

The office stewards APU's foundational commitment to incorporate consistent rhythms of community worship in the spiritual development of undergraduate students through the advancement of a biblically grounded, diverse, pastoral, and challenging chapel curriculum that cultivates personal spiritual transformation and invites students to participate in God's work in the world. Because chapel is so important to the undergraduate program, attendance three times per week is required of every full-time undergraduate student, with 10 allowable absences each semester.

## Pastoral Care

The office also contributes to the care and spiritual development of undergraduate students by providing confidential pastoral counseling from APU campus pastors, characterized by theologically informed guidance, counsel, and prayer that equips students to more deeply engage their journey toward maturity in Christ.

Visit the Office of Chapel and Pastoral Care website (https://www.apu.edu/spiritual-life/chapel-pastoral-care/) for more information.

# Commuter Life

The Office of Commuter Life (https://www.apu.edu/commuter-life/) provides opportunities and services to undergraduate commuter students at Azusa Pacific University.

## Mission Statement

The Commuter Life office exists to provide opportunities and services to undergraduate commuter students at Azusa Pacific University in order to create a sense of belonging on campus that fosters personal development and academic success through cocurricular and extracurricular engagement.

## Location

The Student Union, also known as the Cougar Dome, houses the Commuter Life office. The Student Union is one of the primary on-campus socialization and information hubs for the student community.

## Fulfilling Our Mission

Commuter Life's student leaders, known as Commuter Life Assistants (CLAs), and professional staff fulfill their mission by offering a variety of services and programs for commuters, including but not limited to free printing, lockers, and a variety of amenities. The office provides an environment in which students feel equipped to navigate university resources and ultimately find a sense of belonging on campus. The office regularly hosts commuter meals and other events to foster community engagement among commuter students.

Commuter Life also collaborates with other offices across campus to meet the needs of the university's commuter student population. Many campus programs are geared toward enhancing the quality of the commuter student experience, offering special discounts and benefits to encourage commuter student involvement and attendance at campus events.

# Disability Grievance Policy for Students

1. **Policy Against Disability-Related Discrimination**

   In compliance with applicable state and federal laws and regulations, including Section 504 of the Rehabilitation Act of 1973 ("Section 504") and implementing regulations, Azusa Pacific University ("APU" or the "university") does not discriminate on the basis of disability and is committed to providing equal educational opportunities for qualified disabled students. The university prohibits conduct that denigrates or shows hostility or aversion toward an individual based upon his or her disability or perceived disability, including conduct that is verbal, physical, written, graphic, or visual. Such conduct includes but is not limited to objectionable epithets, demeaning depictions or treatment, and threatened or actual abuse or harm related to an individual's disability. This nondiscrimination policy covers all qualified students with respect to admission, access, operation of

university programs and activities, and employment. APU will take all reasonable steps necessary to prevent the occurrence and reoccurrence of discrimination on the basis of disability and to correct any discriminatory effects on students and others, if appropriate. No student shall be retaliated against for using this or any other grievance procedure to address any disability-related grievances.

## 2. Administration of this Grievance Procedure; Compliance Officers

Graduate, professional, and undergraduate students have the right to use this grievance procedure to resolve claims that they have been subjected to unlawful harassment or discrimination on the basis of disability, or have been denied access to services or accommodations required by law. Students are encouraged to attempt informal resolution prior to utilizing this Grievance Procedure (see Part 3, below).

If any student has a claim of discrimination based on harassment related to a claimed disability, where the alleged harassment is committed by another APU student or other APU students, the aggrieved student should follow the Harassment Reporting Procedures outlined in section 3.0 of the Student Standards of Conduct. In all other cases, unless otherwise provided herein, this grievance procedure, rather than other general APU grievance procedures (including the Graduate and Professional Student Grievance and Appeal Procedures and the Undergraduate Grievance Policies) shall govern any disability-related grievances. Please use this grievance process if there are also non-disability-related issues, and the grievance officer will consider whether to address all matters together or whether a separate process will be required for the non-disability-related issues. Questions of which grievance procedure to apply will be decided by the Section 504 compliance officer.

For grievances initiated by students, the associate vice president of human resources is the university's Section 504 compliance officer charged with administering this grievance procedure as well as ensuring compliance with applicable laws. The associate vice president of human resources can be reached by telephone at (626) 815-4526.

Accessibility and Disability Resources is the office designated for the evaluation of disability documentation and academic accommodations for APU undergraduate and graduate students. Accessibility and Disability Resources is located at 901 E. Alosta Ave., Azusa, CA 91702 and can be reached by phone at (626) 815-2067 or (626) 815-3873 (TDD), by fax at (626) 815-3859, or by email at disabilityservices@apu.edu.

## 3. Informal Resolution

Prior to initiating the formal complaint procedure set forth below in Part 4, the student must first pursue the following informal procedures. The source of the alleged discrimination dictates the informal procedures that the student must pursue:

a. If the issue concerns a claim of discrimination based on the denial of a requested accommodation by Accessibility and Disability Resources (procedures for requesting an accommodation from Accessibility and Disability Resources are available in the academic catalog and on the Accessibility and Disability Resources webpage (https://www.apu.edu/student-affairs/accessibility/)), the student must promptly make an appointment to meet with the director of accessibility and disability resources. The accessibility and disability resources director will meet with the student, review the matter, and promptly issue a written decision and provide a copy of the written decision to the student. If the accessibility and disability resources director's decision is adverse to the student, the accessibility and disability resources director will inform the student of the student's right to file a formal complaint under this grievance process.

b. If the issue concerns other claims of disability-related discrimination (including, as examples, harassment, lack of accessibility, unequal treatment, or non-accessibility services denials of accommodations), where the claim is against an APU department, faculty, or staff member or a third party, the student must make best efforts to utilize the informal procedures provided in the Initial Grievance and Appeal Procedures section of the Graduate (p. 1081) and Professional (p. 1054) Student Grievance and Appeal Procedures (for graduate and professional students), and in the Undergraduate Grievance Policy (p. 1007) (for undergraduate students). In addition, the student is encouraged to raise the issue with Accessibility and Disability Resources, as the director of accessibility and disability resources is available to serve as a resource for informally resolving disability-related grievances. The student is encouraged also to report any claims of harassment by university employees to APU's Office of Human Resources (https://www.apu.edu/humanresources/) by calling (626) 815-4526.

## 4. Formal Grievance Process

If the informal procedures in Part 3 above do not resolve the issue to the satisfaction of the student, the student may file a formal complaint in the following manner:

a. Complaints must be filed as soon as possible, but in no event later than 10 calendar days after the end of the term in which the claimed discrimination occurred.

b. A complaint must be in writing and include the following:
   i. The student's name, address, email address, and phone number;
   ii. The names of any other persons involved, including, if known, those who committed the alleged discrimination;
   iii. A clear statement of the claimed discrimination based on a disability, including, at a minimum, what occurred, the date(s) it occurred, where it occurred, who was present;
   iv. A description of what efforts have been made to resolve the issue informally;
   v. A statement of the desired outcome; and

vi.  Any other information the student wishes to provide, including statements of any witnesses to the alleged discrimination and any other supporting documentation.

c. The complaint is to be filed by delivering it to the appropriate Section 504 compliance officer, as provided in Part 2 above. If the student alleges that the appropriate Section 504 compliance officer is the party that allegedly committed the claimed discrimination, the student shall file the complaint with the Office of the Provost designee.

d. Upon receipt of the complaint, the Section 504 compliance officer will review the complaint for timeliness and compliance with this grievance procedure, and provide the aggrieved student with written notice acknowledging its receipt.

e. After reviewing the complaint, the Section 504 compliance officer will promptly refer the complaint to an appropriate grievance officer or, in the Section 504 compliance officer's discretion, to a panel of three appropriate grievance officers, who will conduct the initial investigation. An "appropriate" grievance officer is any faculty or staff member who generally is knowledgeable about disability issues and the legal mandates of state and federal disability statutes, and who had no involvement in the discrimination alleged in the complaint at issue. The Section 504 compliance officer promptly will disclose the identity of the chosen grievance officer(s) to the student and the party against whom the complaint is directed. If any party believes any grievance officer is not suited to perform the investigation because of the party's prior interactions with the grievance officer, the party must notify the Section 504 compliance officer in writing within five calendar days of such disclosure.

f. In undertaking the investigation, the grievance officer or grievance panel may interview, consult with, and/or request a written response to the issues raised in the complaint from, any individual believed by the grievance officer or grievance panel to have relevant information, including faculty, staff, and students. Before the grievance officer or grievance panel concludes the investigation and makes a recommendation, the student shall have the opportunity, if he or she desires, to be heard orally and informally to present witnesses and other relevant information to the grievance officer or grievance panel. During any such hearing, any party against whom the complaint is directed shall have the right to be present, and also to present witnesses informally and any other relevant information. The hearing is not intended to mimic official court or other legal proceedings; the grievance officer has the authority to conduct the hearing in any organized and reasonable manner, and may question any party or witness and allow any party to question any other party or witness.

g. The student and the party against whom the complaint is directed each have the right to have a representative present at the hearing. The party shall indicate whether he or she is to be assisted by a representative and, if so, the name of that representative. For purposes of this procedure, an attorney is not an appropriate representative.

h. Upon completion of the investigation, the grievance officer or grievance panel will prepare and transmit to the referring Section 504 compliance officer, the student, and the party against whom the complaint is directed, an initial report and recommendation, which shall contain a summary of the investigation, written findings, any written materials submitted by the student or any other party, and a proposed disposition with proposed remedies (if appropriate). This transmission will be expected within 30 calendar days of the filing of the formal complaint.

i. Within 15 calendar days of receipt of the grievance officer's or grievance panel's initial report and recommendation, the Section 504 compliance officer will issue a final report adopting, rejecting, or adopting with modifications the grievance officer's or grievance panel's initial report and recommendation. No party may submit additional materials to the Section 504 compliance officer unless specifically requested by the Section 504 compliance officer. In issuing the final report, the Section 504 compliance officer shall take reasonable steps to ensure consistency with final reports previously issued under this policy.

j. The final report issued by the Section 504 compliance officer shall be distributed in writing to the student and to the party against whom the complaint is directed, and shall be put into effect promptly. The final report may also be provided, where appropriate, to any university officer whose authority will be needed to carry out the remedies or to determine whether any personnel action is appropriate.

k. The initial report and recommendation and the final report shall be kept confidential by the student and the party against whom the complaint is directed, and may not be disclosed without the written consent of the issuer of the report.

l. The student or any party against whom the grievance or the proposed disposition is directed may appeal. The appeal to the provost (as set forth below) will not suspend the implementation of the final report, except in those circumstances where the provost decides that good cause exists, making the suspension of implementation appropriate.

5. ## Remedies

Possible remedies under this grievance procedure include corrective steps, actions to reverse the effects of discrimination or to end harassment, and measures to provide a reasonable accommodation. A copy of the Section 504 compliance officer's report may, where appropriate, be sent to appropriate university officer(s) to determine whether any personnel action should be pursued.

6. ## Appeal

Within 10 calendar days of the issuance of the final report, the student or the party against whom the complaint is directed may appeal the final report to the provost.

An appeal is taken by filing a written request for review with the Office of the Provost (https://www.apu.edu/provost/), which is located in the Ronald Building at 901 E. Alosta Avenue, Azusa, CA 91702, and can be reached at (626) 812-3087 or provost@apu.edu.

The written request for review must specify the particular basis for the appeal, and must be made on grounds other than general dissatisfaction with the initial decision. The appeal may raise only issues raised in the complaint or alleged errors in the conduct of the grievance procedure itself, and not new issues. The provost's review will be limited to the following considerations:

a. Were the proper facts and criteria brought to bear on the decision? Were improper or extraneous facts or criteria brought to bear that substantially affected the decision to the detriment of the appellant?

b. Were there any procedural irregularities that substantially affected the outcome of the matter to the detriment of the appellant?

c. Given the proper facts, criteria, and procedures, was the decision reasonable?

A copy of the provost's written decision will be expected within 30 calendar days of the filing of the appeal and shall be sent to the student, the party against whom the complaint is directed, the Section 504 compliance officer who issued the final report, and, if appropriate, to the university officer(s) whose authority will be needed to carry out the disposition.

The decision of the provost on the appeal is final. The provost's written decision shall be kept confidential by the student and the party against whom the complaint is directed, and may not be disclosed without the written consent of the provost.

7. **Deadlines**

a. Whenever the application of any of the time deadlines or procedures set forth in this grievance procedure creates a problem due to the nature of the complaint, the urgency of the matter, or the proximity of the upcoming event, the Section 504 compliance officer will, at the request of the student, determine whether an appropriate expedited procedure can be fashioned. Any deadline imposed in this policy may be extended by the Section 504 compliance officer for good cause, which may include breaks in the traditional academic calendar (summers and the year-end holidays).

# Health Services

## Student Health Center

The Student Health Center (https://www.apu.edu/healthcenter/) supports the university by evaluating, treating, and maintaining and promoting the optimal physical, mental, and spiritual well-being of the APU student body, and by empowering students to make healthy lifestyle choices. The center offers services for preventative medicine as well as treatment of illness and minor emergencies, first aid, wart and mole removal, Pap smears, STD testing, and anxiety, depression, and disease management. Visits to the Student Health Center are by appointment only. Hours vary and are posted on the Student Health Center website as well as at the center.

## Services Offered

Office visits are free to all undergraduate students. Medications, injections, immunizations, procedures, and blood draws are provided by the attending physician, nurse practitioners, physician assistant, and registered nurse for a nominal fee. If students need further treatment or evaluation, there is an excellent referral base to specialists in the community, as well as a hospital in close proximity for emergencies.

## Admission Requirements

There is a prematriculation requirement for admission to the university: All students must have documentation of two MMR vaccines. Students can go to the MyCougar Health (https://www.apu.edu/healthcenter/#mycougar) patient portal to complete and upload the required documents, and can also access MyCougar Health through home.apu.edu (https://home.apu.edu/). Failure to provide proof of immunizations to the Student Health Center results in a hold on all academic courses.

## Health Insurance

For students with 3 or more units, or who live on campus, proof of health insurance is mandated. All students will automatically be enrolled for coverage under an APU policy providing coverage from 8/15/24 through 8/14/25. If students wish to opt out of this coverage, they may do so by completing the hard waiver process. International students are not eligible to waive the insurance. To submit a request for waiver, students must provide proof of comparable insurance online by September 13, 2024. (https://jcbins.com/)

All full-time international students holding an immigration document from Azusa Pacific University (I-20 or DS 2019) are required to purchase APU student health insurance. This insurance meets the U.S. government requirement for health insurance for international students, and must be purchased during registration (twice a year) for a total of 12 months of coverage. If the student withdraws from or leaves APU prematurely, health insurance coverage will be automatically terminated.

For more information regarding the waiver process, call insurance customer service at (800) 406-4517 or visit the APU Student Health Center website (https://www.apu.edu/healthcenter/insurance/).

Athletes participating in intercollegiate sports are covered through a separate policy.

# Intercollegiate Athletics

Intercollegiate athletics is an integral part of student life at Azusa Pacific. The university views athletics, a "lab of life," as an opportunity to develop and display unique physical abilities while glorifying God in teamwork and competition. Intercollegiate athletics also brings together the university in a distinctive manner that serves as a venue to reach into local communities and forge new and lasting relationships.

Most Cougar teams are part of the uniquely diverse and scenic Pacific West (PacWest) Conference, a 14-member association of schools from Hawaii, southern and central California, and the San Francisco Bay Area. Azusa Pacific is an affiliate member for women's water polo in the Golden Coast Conference, and women's swimming and diving in the Pacific Collegiate Swim and Dive Conference. APU's acrobatics and tumbling team competes in the National Collegiate Acrobatics and Tumbling Association.

In the summer of 2014, the university completed a three-year process earning the 18-sport Cougar athletics program (https://athletics.apu.edu) membership in Division II of the National Collegiate Athletic Association (NCAA). In the university's first decade of active Division II membership, Azusa Pacific has won two NCAA national championships (women's outdoor track and field in 2021 and 2023) and hosted NCAA regional playoffs in men's and women's soccer, men's and women's basketball, baseball, softball, and men's and women's tennis. In addition, the Cougars have advanced to basketball's Elite Eight as the West Region champion in men's and women's basketball. Azusa Pacific has won the Pacific West Conference Bob Hogue Commissioner's Cup as the top athletics program in the conference for the past four years. Overall, Azusa Pacific has claimed 49 conference titles since transitioning to NCAA Division II.

Azusa Pacific has also reinvigorated its longstanding rivalry with Biola University with the creation of the Cornerstone Cup, highlighting all competitions between the two storied institutions. Azusa Pacific has won the Cornerstone Cup all six years it has been contested.

Men's intercollegiate competition is offered in the following sports: baseball, basketball, cross country, soccer, tennis, and track and field (indoor and outdoor). Women's intercollegiate competition is available in acrobatics and tumbling, basketball, cross country, soccer, softball, swimming and diving, tennis, track and field (indoor and outdoor), volleyball, and water polo.

Students who participate in Azusa Pacific's intercollegiate athletics program must meet NCAA and conference academic eligibility requirements. Registration with the NCAA Eligibility Center and completion of academic and amateurism requirements also impact a student's eligibility to compete in intercollegiate athletics. Scholarships are awarded for special athletic skills, and financial aid is also awarded on the basis of financial need and/or superior academic achievement. The university is fully committed to the academic success of each student-athlete, to his or her physical welfare, to the principles of fair play, and to compliance with all NCAA rules and regulations.

Prior to joining NCAA Division II, the Cougar athletics program was governed by the National Association of Intercollegiate Athletics (NAIA). Azusa Pacific captured 37 NAIA national championships, the third-most in association history, and won an unprecedented eight consecutive Directors' Cups, which recognized Azusa Pacific as the NAIA's best overall athletics program from 2005-12. Including 14 national championships awarded by other associations, Azusa Pacific teams have claimed a total of 52 national championships.

# International Admissions

Each year, Azusa Pacific University welcomes international students from all over the world, knowing that their contributions enhance our global perspective of life and learning. International Admissions (https://www.apu.edu/international/enrollment/) recruits, admits, and enrolls international students in undergraduate and graduate programs. International Admissions accomplishes this through a global network of partnerships with schools, churches, businesses, APU alumni, and government agencies, and staff members meet with students and their families to offer helpful consultation regarding their professional and educational goals while studying in the U.S. Whether answering questions about the university or helping students choose their first semester's courses, International Admissions enables international students to make successful transitions as freshmen, transfer, or graduate students into APU's academic programs.

# International Services

### "Their Potential Is Our Priority"

(626) 812-3055
issimmigrationsvcs@apu.edu

International Services (https://www.apu.edu/international/) provides immigration resources and services to student-scholars from around the world. Services include a mandatory Global Student Orientation (https://www.apu.edu/scrd/international-student-engagement/global-student-orientation/), and immigration services.

### International Campus Fellowships

International students of APU form numerous Christian fellowship groups that meet regularly on campus to promote understanding of the Christian faith and provide opportunities for building friendships. Examples of these intercultural groups and ethnic organizations include Huaren Fellowship,

Japanese Outreach, the Black Student Association, and the Middle Eastern Student Association. Learn more about APU's intercultural groups (https://www.apu.edu/scrd/international-student-engagement/#intercultural-groups) and ethnic organizations (https://www.apu.edu/scrd/#ethnicorganizations).

# Residence Life

## Life Together at APU

The Office of Residence Life (https://www.apu.edu/housing/) creates spaces and learning opportunities for residential students to experience life together. Our team strives to ensure that students are provided with engaging campus housing options, ongoing logistical assistance, and challenge and support throughout their residential experience at APU.

The Residence Life team holds the following "Life Together" values as core to the residential experience:

- **CARE**: Develop living and learning environments that promote student well-being, and encourage students to be respectful, cooperative, supportive, and inclusive of one another.
- **CHALLENGE**: Create opportunities that encourage students to explore their values and beliefs, leadership abilities, and personal faith development.
- **CONNECTION**: Provide spaces for residential students to build relationships and partnerships with each other while living and learning together in community.

Living in residence at Azusa Pacific University carries with it distinct privileges and responsibilities. Students who reside in campus housing benefit from living in a community with peers, and as a result they take responsibility for caring for one another in a cooperative and communicative fashion. Through enriching experiences and opportunities, students make significant connections and learn to navigate healthy interpersonal relationships.

Residence Life activities address the physical, emotional, social, spiritual, intellectual, and vocational needs of residents while supporting their academic experience at APU. For this reason, new full-time students are expected to live in an APU residence unless they request an exemption. Students who live in the residence halls are required to choose from a variety of dining plans.

## Support on Campus

- Different types of living environments are available for students, including traditional residence halls and self-contained apartments. Several on-campus living communities are accessible to students with disabilities.
- The Residence Halls and the Shire Modulars are managed by a combination of a residence director (RD) and an assistant residence director (ARD). These professionals serve as liaisons between residents and the university community. RDs and ARDs are trained to assist students in making choices that support their success in their college experiences.
- University Village is supported by a combination of an area directors (AD) and graduate resident coordinators (GRCs). Under the supervision of the AD, each GRC is trained to support the residents in their span of care.
- Each subcommunity in residence halls and apartments is supported by a residence advisor (RA), who is a student leader who serves as a peer counselor and resource to their residents. RAs also assist in orienting students to the living areas and the campus, and help plan and promote events and programs that foster a sense of community.
- Campus partners outside of Residence Life include the University Counseling Center (https://www.apu.edu/counselingcenter/), the Student Health Center (https://www.apu.edu/healthcenter/), Campus Safety (https://www.apu.edu/campussafety/), Facilities Management (https://www.apu.edu/facilities/), and APU CARES (https://www.apu.edu/apucares/).

# Service and Discipleship

The Azusa Pacific community believes that the good news of Jesus' love transforms every people, culture, and condition, that all people are created in the image of God, and that every person matters. This simple but critical belief inspires healthy and God-honoring steps to advance the work of God in the world. The Office of Service and Discipleship (https://www.apu.edu/spiritual-life/service-discipleship/) equips and empowers APU students to faithfully pursue God and to participate in God's transformative work in the world through intentional service and discipleship opportunities including, but not limited to, Local Engagement, Global Engagement teams, Discipleship Groups, and G.A.P. Years.

## University Service Requirement

Service, one of Azusa Pacific's Four Cornerstones (https://www.apu.edu/about/cornerstones/#cornerstones), stands at the heart of the university's local and international outreach, short-term service trips, and service-learning endeavors. The university desires to see the service experience connect to a deeper relationship with Christ, develop in students a greater sense of community, and model scholarship put into practice. To this end, the university desires that every student have an intercultural experience during his or her time at APU.

A student's service may correlate with his or her academic coursework or it may be an opportunity to branch out of the classroom experience. There are a variety of ways for students to engage in service outside of the classroom through the Office of Service and Discipleship. Visit our website to learn

more about the Service Requirement (https://www.apu.edu/spiritual-life/requirements/#service) and the programs that fall within the requirement, or visit the Office of Service and Discipleship (https://www.apu.edu/spiritual-life/service-discipleship/) on East Campus.

## Service Opportunities

In addition to the diverse service opportunities offered through Academic Service-Learning (https://www.apu.edu/service-learning/) and Study Away (https://www.apu.edu/global-engagement/), the Office of Service and Discipleship provides opportunities each year for students to serve in Azusa and greater Los Angeles, throughout the United States, and internationally.

## Local Engagement Opportunities

Local service opportunities (https://www.apu.edu/spiritual-life/service-discipleship/#local-engagement) encourage students to invest time and energy with neighbors across the street in Azusa and throughout greater Los Angeles. Focused on collaborative relationships with organizations and churches, these service programs give students the chance to invest in the lives of local families and neighborhoods. This past year, opportunities included retirement center ministries, high school youth outreach, local food banks, sports ministries, community development opportunities, children's ministries, and educational immersion trips engaging the city of Los Angeles.

## Global Engagement Teams

Each year, the Office of Service and Discipleship mobilizes more than 15 student teams to serve in a short-term capacity in more than 30 countries (https://www.apu.edu/spiritual-life/service-discipleship/#global-engagement) around the world, including several teams dedicated to serving within the United States. Depending on the need and partnership with local hosts, the type of ministry during the spring midsemester break and summer months requires all majors and a diversity of strengths and skills among the various teams. Previous partnerships have included a STEM team, youth and community development, evangelistic outreach, children's ministries, economic development, sports ministry, and church partnerships, all designed to advance the work of God in the world.

## G.A.P. Years

At Azusa Pacific, service doesn't end at graduation—it should be a part of every student's lifestyle as she or he goes on to make a difference in the world. G.A.P. Years (Go And Prepare) (https://www.apu.edu/spiritual-life/service-discipleship/#gap-years) supports students passionate about serving among the world's least-reached people groups. This two-year sending program equips volunteer alumni and connects them with service opportunities overseas through Christ-based community development and mission organizations. During the students' two-year service, APU helps pay their student loans.

## Other Opportunities

In addition to the service opportunities through the Office of Service and Discipleship, several other opportunities are available to help students learn and grow, including:

### Azusa Scholars

Qualified students from the city of Azusa who have demonstrated a commitment to faith, education, service, and community are eligible to receive one of two scholarships and participate in a leadership development program for the duration of their tenure at APU. The Azusa Scholars Program (https://www.apu.edu/spiritual-life/service-discipleship/#azusa-scholars) is open to incoming freshmen and transfer students.

### Educational Programming

Educational programming opportunities for students take place throughout the year, centered around the Student Affairs values (e.g., Local and Global Engagement) and partnerships across campus, to raise awareness about local and global issues connected to faith development.

### Discipleship Groups (D-Groups)

This ministry provides the opportunity for groups of 5-10 students to meet for spiritual growth. Each Discipleship Group (D-Group) (https://www.apu.edu/spiritual-life/service-discipleship/#dgroups) incorporates prayer, Bible study, accountability, and fellowship in meetings.

# Student Government Association

Azusa Pacific University's Student Government Association (SGA) (https://apusga.squarespace.com) is a proactive student government comprising student representatives committed to the purpose of upholding the university's Four Cornerstones (https://www.apu.edu/believe/#cornerstones), bridging the gap between students and the administration, and improving the spiritual, academic, and social well-being of the student body through God-centered leadership and service.

SGA is composed of 6 executive board members (president, vice president, controller, speaker of the house, director of communication, and director of internal affairs), 8 senators, 2 strategists, and 5 representatives. Under the direction of the SGA president, the executive board oversees the daily operation of the association and mobilizes the student body to engage with the campus community.

To contact SGA, email sga@apu.edu.

# Undergraduate Community Expectations

It is the intention of Azusa Pacific that the faith-living-learning environment is as healthy as possible and fosters positive qualities of life, promoting sound academic and personal growth experiences. As university staff come alongside students during their time at APU, we strive to respect and care for each individual and their needs, while also considering the community's needs. Our goal is to keep accountability, integrity, and a call to God-honoring excellence at the center, as we encourage students to take responsibility for their actions and choices. All undergraduate students are expected to abide by the undergraduate community expectations listed in the APU Undergraduate Student Handbook (https://www.apu.edu/student-handbook/).

# University Counseling Center

The University Counseling Center (UCC) empowers Azusa Pacific University students to realize their personal and academic potential by promoting psychological, social, and spiritual wellness through Christian counseling and outreach services. UCC services include individual, couples, crisis, and group counseling, as well as educational workshops and training. All services provided by the UCC are confidential. For more information, visit the UCC website (https://www.apu.edu/counselingcenter/).

# University-Wide Student Success Resources

# Center for Career and Community-Engaged Learning

## Vision

Cultivate Christ-centered, transformative experiential learning opportunities that empower the community and enhance professional development for lifelong learning.

## Mission

The Center for Career and Community-Engaged Learning (CCEL) (https://www.apu.edu/ccel/) integrates faith-based, academic experiential learning into the education journey of graduate and undergraduate students. Through our comprehensive student services, including career development, community advancement programs, academic service-learning, and study away, we strive to create a dynamic environment of collaboration. By fostering meaningful partnerships with faculty, staff, alumni, and community stakeholders, we seek to establish mutually beneficial relationships that align with the core values of APU. Our commitment to innovation and inclusivity ensures transformative experiential learning opportunities that empower students and enrich our community.

- Academic Service-Learning
- Career Development
- Community Advancement Programs
- Study Away

## Connect

Contact ccel@apu.edu for more information. The Center for Career and Community-Engaged Learning is located in Building 22 on East Campus.

# Academic Service-Learning

Academic Service-Learning (https://www.apu.edu/service-learning/) is housed within APU's Center for Career and Community-Engaged Learning (CCEL) (https://www.apu.edu/ccel/), which cultivates academically integrated learning experiences for community impact, professional development, and lifelong learning.

Academic service-learning is a teaching and learning method that promotes student learning through active participation in meaningful and planned service experiences in the community that are directly related to the academic content, with a focus on (a) connecting theory to practice, (b) critical reflective thinking, (c) personal and civic responsibility, (d) faith integration, and (e) relationship to students' planned vocation. The three distinctives that characterize service-learning at APU are that it is:

1. Academic: intentional and clear connection to learning outcomes and purposeful critical reflection throughout.
2. Reciprocal: active partnerships between faculty, community partners, and students as mutual beneficiaries and coeducators.
3. Making a Difference: outcomes of the project are evidenced through impact on the community as well as on student learning, civic understanding, goals, and faith development and application.

Service-learning staff work with faculty and community partners to intentionally integrate academic coursework with relevant community service that enhances student, faculty, and community scholarship. Courses designated "Service-Learning Course" in course registration materials meet the criteria for excellence in academic service-learning, and the designation is reflected on official school records and transcripts. Upon faculty verification, traditional undergraduate students who successfully meet a course's service-learning requirements earn university service credits (https://www.apu.edu/spiritual-life/requirements/service/) needed to meet graduation requirements.

## Academic Service-Learning Student Outcomes

### Connecting Theory to Practice

- Demonstrate competence in academic content and theory through practical application
- Gain increased understanding of how academic content relates to "the real world"

### Critical Reflective Thinking

- Articulate connections between academic content and service-learning experiences
- Identify how service-learning affected sense of personal efficacy, personal identity, spiritual development, understanding of diversity, and moral development

### Personal and Civic Responsibility

- Develop personal desire to contribute to local, national, and/or global community
- Evaluate how cultural competence and understanding of diversity are developed through informed and reciprocal interactions with others
- Strengthen democratic values and civic responsibility

### Faith Integration

- Explain the relevance of Christian faith through the application of learning
- Articulate an integrated understanding of faith and learning in action

### Relationship to Planned Vocation

- Prepare for employment by gaining practical experience and networking opportunities
- Demonstrate skills that employers seek (e.g., communication skills, leadership, problem solving, etc.)

## Connect

Contact servicelearning@apu.edu for more information. The Center for Career and Community-Engaged Learning is located in Building 22 on East Campus.

# Career Development

Career Development (https://www.apu.edu/career/) is housed within APU's Center for Career and Community-Engaged Learning (CCEL) (https://www.apu.edu/ccel/), which cultivates academically integrated learning experiences for community impact, professional development, and lifelong learning.

Career Development services and resources are accessible to students in preparation for the next step in their vocational journey. Through APU's career platform, Handshake (https://apu.joinhandshake.com/edu/), students and alumni can book appointments to meet with a career consultant in person or virtually; access career and professional resources; and receive customized internship and job notifications from thousands of companies and organizations around the globe. APU's Career Development programs and resources are designed to assist in specific areas such as résumés, CVs, cover letters, LinkedIn, employer connections, job and internship search, and more.

Students can also visit the APU Career Development Portal (https://sites.google.com/apu.edu/apu-career-center/home/?authuser=0) for additional career exploration and development resources and information.

## Career Readiness Competencies

The National Association of Colleges and Employers (NACE) (https://www.naceweb.org/) has identified eight career readiness competencies, each of which can be demonstrated in a variety of ways. CCEL uses these competencies to inform programming and services to prepare students for success in workplace and career management:

1. Career and Self-Development: Proactively develop oneself and one's career through continual personal and professional learning, awareness of one's strengths and weaknesses, navigation of career opportunities, and networking to build relationships within and without one's organization.

2. Communication: Clearly and effectively exchange information, ideas, facts, and perspectives with people inside and outside of an organization.

3. Critical Thinking: Identify and respond to needs based upon an understanding of situational context and logical analysis of relevant information.

4. Equity and Inclusion: Demonstrate the awareness, attitude, knowledge, and skills required to equitably engage and include people from different local and global cultures. Engage in anti-racist practices that actively challenge the systems, structures, and policies of racism.

5. Leadership: Recognize and capitalize on personal and team strengths to achieve organizational goals.

6. Professionalism: Knowing that work environments differ greatly, understand and demonstrate effective work habits, and act in the interest of the larger community and workplace.

7. Teamwork: Build and maintain collaborative relationships to work effectively toward common goals, while appreciating diverse viewpoints and shared responsibilities.

8. Technology: Understand and leverage technologies ethically to enhance efficiencies, complete tasks, and accomplish goals.

## Connect

Contact career@apu.edu for more information. The Center for Career and Community-Engaged Learning is located in Building 22 on East Campus.

# Community Advancement Programs

Community Advancement Programs (CAP) is housed within APU's Center for Career and Community-Engaged Learning (CCEL) (https://www.apu.edu/ccel/), which cultivates academically integrated learning experiences for community impact, professional development, and lifelong learning.

CAP employs APU students who are eligible for federal work-study (FWS) and places them in community-based positions in order to: (1) meet needs in the local community, and (2) provide students with meaningful employment to gain experience and support educational development and goals.

Positions in the program are off campus at locations such as local nonprofit organizations and schools. Students hired for CAP programs complete APU's HR Student Employment onboarding and follow protocol as an APU student employee, including timekeeping and receiving a paycheck through APU payroll.

Great benefits for students include:

- Engaging in community service while getting paid
- Flexible work schedule (great second job!)
- Developing professional work experience and connections
- FWS earnings are excluded as income on the FAFSA

Students who are eligible for FWS may apply for CAP positions by searching for opportunities on Handshake (https://apu.joinhandshake.com/login/) (select "Jobs," filter "On-site/remote," then enter "CAP" in the search field). Eligible students will see "Federal Work Study" and the award amount that can be earned each semester listed in their APU financial aid package.

## Connect

View the CAP Google site (https://sites.google.com/apu.edu/cap/home/) for details on our current programs or contact cap@apu.edu for more information. The Center for Career and Community-Engaged Learning is located in Building 22 on East Campus.

# Study Away

APU Study Away is housed within the Center for Career and Community-Engaged Learning (CCEL) (https://www.apu.edu/ccel/), which cultivates Christ-centered, transformative experiential learning opportunities that empower the community and enhance professional development for lifelong learning.

APU Study Away programs (https://sites.google.com/apu.edu/cgle/programs/?authuser=0) take many forms and include:

1. Semester Programs (https://sites.google.com/apu.edu/cgle/programs/semester-programs/?authuser=0): LCC Lithuania, LLI Baltimore, LLI Ecuador, LLI Italy, SCIO Oxford, Semester in Spain

2. Nursing Exchange Programs (https://sites.google.com/apu.edu/cgle/programs/semester-programs/?authuser=0): Nursing Norway, Nursing China

3. GO Terms (https://sites.google.com/apu.edu/cgle/programs/?authuser=0): Faculty-led study away programs, faculty/student research projects with travel, grant-funded academic projects/programs with travel, etc. (multiple and changing options each year)

4. And more (https://sites.google.com/apu.edu/cgle/programs/additional-programs/?authuser=0)!

Study-away programs are available for graduate, professional, and undergraduate students and are offered in the fall, spring, and summer in a variety of destinations and courses of study (General Education (p. 919) and degree specific).

An off-campus study experience should be thoughtfully integrated into a student's total academic plan. Study-away program advising is available through CCEL. Email study-away staff at studyaway@apu.edu. All students should consult financial aid advising (ssc@apu.edu) and academic advising (advising@apu.edu) before committing to a study-away program.

For financial information, see our financial aid policies (p. 963) or contact a financial aid counselor in the Student Services Center (https://www.apu.edu/undergraduate-enrollment-services/).

## Global Learning Objectives (GLOs)

APU study-away programs provide students with the opportunity to develop their global competency through APU's Global Learning Objectives (https://www.apu.edu/global-engagement/):

1. **Local and Global Awareness:** Demonstrating a personal knowledge of location(s) engaging (history, geography, groups, faith traditions, languages, resources, etc.) and articulating the interconnections between systems globally (social, economic, political, and environmental).

2. **Communication:** Demonstrating the ability to communicate effectively with the host community (verbal, nonverbal, written, etiquette, etc.).

3. **Vocational Development:** Developing knowledge and/or practical skills that are applicable in an academic discipline and/or career.

4. **Cultural Inquiry:** Taking on a posture of listening and learning, recognizing implicit bias, and developing the ability to see things through the eyes of others.

5. **Self-Limitation:** Humbly setting aside personal habits/preferences and operating physically within the community as if a local member.

6. **Interpersonal Engagement:** Forming self-sustaining relationships with members of the host community across cultural, class, and religious differences through active dialogue and collaboration.

7. **Self-Awareness:** Mindfulness of one's social location—i.e., the connection between multiple categories such as gender, sexual orientation (attraction), race, ethnicity, nationality, level of education, relationship status, socioeconomic status, religion, immigration status, etc.

8. **Emotional Maturity:** Developing a contextually appropriate range of affective qualities: emotional resilience, positivity, confidence, initiative, empathy, flexibility, perseverance, etc.

9. **Spiritual Formation:** Developing personal faith/beliefs and knowledge of Christian and other faith traditions.

10. **Behavior Transformation:** Consciously acting in a just, socially responsible, and concrete way in daily life. For example, actions/choices in relationships, purchasing, diet, media, technology, social involvement, environmental impact, consumption habits, transportation use, vocational choices, etc.

11. **Perspective Transformation:** Evaluating, developing, and expanding one's mindset and worldview.

## Study-Away Policies

1. **Pre-Study Away:** APU Discipline Clearances and Acceptance Process: In order to ensure all program requirements and compliance, study-away programs utilize an application process. As part of that process, CCEL requests a complete discipline clearance (i.e., clearance from academic probation) for each applicant in partnership with the Academic Success Center, Student Affairs, University Counseling Center, and any other relevant office or department (at the discretion of the CCEL). Applicants are not officially accepted into study-away programs without this clearance. APU reserves the right to deny a student based on their discipline history at APU. If a student discipline issue occurs after acceptance or during the program, the student may be withdrawn from the program and will lose any nonrefundable monies or prepayments made on the student's behalf. Applicant status notifications are communicated through APU email. Non-APU program participation requires written and date-stamped acceptance notifications by the program and by APU Study Away to determine if participation is available.

2. **Participation:** Study-away students automatically waive the privilege of studying away if they do not complete all preprogram requirements (requirements vary by program) in a thorough and timely manner. Items include, but are not limited to, all forms, online and/or face-to-face meetings, readings, required submissions, trainings, and thorough knowledge of and response to all program-specific materials. Furthermore, participants must abide by all APU policies and all items noted in their program's Commitment Agreement Form (or equivalent) and communications throughout the duration of their study-away program or risk a range of disciplinary actions, including removal from the program at their own expense.

3. **Academics:** Students are required to enroll in and fulfill all program-specific required coursework and abide by the following policies:

   a. Applicants for study away must be in good academic standing (e.g., not on academic probation, have a positive academic integrity profile, etc.).

   b. Regular course prerequisites for all study-away courses are mandatory for participation in a study-away program.

   c. Students must abide by university add/drop dates; students will receive a withdrawal (*W*) grade for any courses dropped after this period.

   d. Students are responsible for enrolling according to specific study-away registration procedures for the courses and units that accurately reflect their enrollment in their specific program and term. Failure to enroll in the same number of units in the program and one's APU student account may incur additional costs and change financial aid, and could affect degree clearance and/or progress.

   e. Study-away students are not allowed to take APU online courses during their study-away term unless designated by the specific program course listings.

   f. Students must stay within any minimums and maximums set by each program regarding online courses.

   g. Students are required to enroll in and fulfill all program-specific required coursework. Any study-away participant not enrolled in the required courses and/or total units for their study-away program, as stated in the current program materials, by the term registration date will be automatically enrolled into the appropriate section(s) and held responsible for any applicable fees/charges. If needed, it is the responsibility of the student to transfer into a different course section by the add/drop date.

4. **General APU Policies:** Upholding all APU policies is required. All policies are valued, with awareness of the following items being of particular importance when participating in any study-away program:

   a. Regular fulfillment of the residence policy is required to be considered for degree completion.

   b. Regular fulfillment of commencement participation items (e.g., type of registration for final units, etc.) is required for anyone intending to participate in commencement.

5. **Study-Away Refund Policy:** The Center for Career and Community-Engaged Learning strives to be a good steward of university financial resources, including funds allocated and collected for study-away programs. The center makes every effort to support and serve students while upholding university refund policies. The following information applies to refunds for semester and GO Term study-away programs:

   a. Due to the nature of the study-away experience and the importance of planning early, some, most, or all funds may not be refunded if a student withdraws of their own accord from a program before or during the program dates. It is the student's responsibility to consult with the Student Services Center before withdrawing from a program once they have signed a Commitment Agreement Form (or equivalent). In some cases, there may be implications that affect the student's financial aid. It is the responsibility of the participant to communicate in writing the need or desire to officially withdraw from a program. Most programs have a necessary withdrawal form to complete (see the APU Study Away Withdrawal Form (https://sites.google.com/apu.edu/cgle/resources/withdraw-process/?authuser=0)). It is the date of completing all such forms or submitting written notice that will be used as the official withdrawal date.

b. In the event that a student is dismissed from a program due to a violation of policy, academic integrity, or student conduct, no refunds will be given.

c. Should a student participating in any study-away program need to return home for a medical or immediate-family emergency, APU will assist with arrangements for transportation or other appropriate resources in alignment with the current APU insurance coverage the participant is eligible for. The participant is financially responsible for any expenses related to this. For severe medical emergencies, APU provides emergency evacuation insurance. It is the participant's responsibility to purchase elective trip cancellation insurance coverage. APU will make every effort to return recoverable funds.

d. No refund will be made if a student chooses not to participate in any activity provided or paid for by the program.

e. Before the start of a study-away program and before signing a Commitment Agreement Form (or equivalent), full refunds are permissible in the event that APU has not paid any funds on the student's behalf to prepay program expenses, contracts, or activities. If a partial refund is available, an itemization of charges/fees will be provided upon request and processed using approved APU methods.

f. If a student is not accepted to a program, any deposit made will be returned.

g. In the event that APU cancels a study-away program, the student will be refunded program fees depending on availability. Students who purchase their own airfare or make other program-related purchases will **not** be refunded by APU and are encouraged to buy refundable tickets and/or trip cancellation insurance.

6. **Financial Aid:** The use of financial aid with study away programs varies by student and program type. Visit the Financial Aid Policy for Study Away Programs (p. 967) section of this catalog to be thoroughly aware of the details of this important information.

7. **Additional Study-Away Semester Policies: General**

a. Students cannot study away their final semester and are required to have one full semester at the Azusa campus after studying away.

b. Students cannot study away two consecutive semesters (consecutive semesters are considered to be fall/spring and spring/fall). This policy does not apply to GO Term program participation.

c. Students may not participate in the same study-away semester program more than once.

8. **Additional Study-Away Semester Policies: Academics**

a. All undergraduate study-away students must maintain full-time enrollment during a semester study-away program (minimum 12 units).

b. Students are not permitted to take courses unless designated by the specific program course listings. Any semester study-away student enrolled in a course that is not offered by their program will be automatically dropped from the course and notified by CCEL or the Student Services Center (https://www.apu.edu/undergraduate-enrollment-services/). An independent study course may be permitted for some programs. Email studyaway@apu.edu for more information.

c. Post-Study-Away Curriculum: Semester study-away students are to be registered for and complete a 1-unit or equivalent post-study-away course curriculum upon completion of their semester program (GO Term participants are eligible and highly encouraged to enroll). Any study-away student not enrolled in the required post-study-away curriculum as designated by their study-away program by the term registration date will be automatically enrolled in any open class session. If needed, it is the responsibility of the student to switch to a different course section by the add/drop date.

Policy inquiries are available through the Student Services Center (https://www.apu.edu/undergraduate-enrollment-services/).

# Study-Away Program Development Policies

This section applies to any area or employee of APU interested in planning a study-away program.

1. **APU Study-Away Program Definition:** APU academic programs that include travel (domestic or international) and a learning component that is part of an APU degree requirement, including, but not limited to: courses (General Education and degree/program specific), fieldwork/internships/practicums/clinicals, research, and any discipline-specific accreditation requirements, etc. Study-away programs take many forms and include, but are not limited to, learning exchange programs, faculty/student research projects with travel, faculty-led GO Term programs, semester programs, grant-funded academic projects/programs with travel, etc.

2. **Directions:** Programs are coordinated through collaboration with APU department faculty/staff and the CCEL (studyaway@apu.edu). If you are interested in offering any form of study-away program within your degree area, an interest form must be submitted by the annual due date posted online (https://sites.google.com/apu.edu/cgle/faculty-resources/?authuser=0) for all types (one per program, per term), even if other agreements and/or forms are also used, even for terms/programs included in a multiyear contract/grant, and even if plans for the program are still tentative.

3. **Three Program Approvals:**

   a. **Academic Approval:** (Provost through CCEL) Approximately 1-2 programs per APU school/college are being approved per year. We encourage departments to collaborate on interdisciplinary programs when possible and/or think about offering a program rotation every 2-3 years.

   b. **Travel Approval:** (Travel Activities Committee) This approval is submitted by CCEL Study Away for all programs approved through No. 1 above and abides by all current APU travel policies.

   c. **Financial Approval:** (Concur) After approval through No. 1, the CCEL Study Away office will meet with approved programs to determine the information faculty will submit in Concur for this approval, while also abiding by all current APU financial policies.

## Connect

View the Study Away Google site (https://sites.google.com/apu.edu/cgle/home/?authuser=0) for details on our current programs or contact studyaway@apu.edu for more information. The Center for Career and Community-Engaged Learning is located in Building 22 on East Campus.

# Diversity

**Diversity, Equity, and Inclusion at Azusa Pacific University —** *Being. Becoming. Belonging.*

"As a Christ-centered community, Azusa Pacific University approaches diversity from a biblical perspective, affirming that diversity is an expression of God's image, love, and boundless creativity."

—*What We Believe: Our Identity and Values in Community*

APU's Diversity, Equity, and Inclusion (DEI) Division (https://www.apu.edu/diversity/) is committed to partnering with administration, faculty, staff, and students to cultivate a diverse community, an inclusive climate, and an equitable environment that reflects Christ-centered engagement, promotes student and employee thriving, and enables Azusa Pacific University to become the premier Christian university engaging, educating, and equipping diverse learners and leaders. The division strives to promote a university community that honors and respects each individual's uniqueness while celebrating our collective commonalities. In addition to facilitating robust conversations and strategic engagement that leads to the advancement of diversity, equity, and inclusion across the university, the DEI Division also elevates efforts to recruit, hire, and support a diverse community in an effort to create a milieu that reflects the mosaic of God's Kingdom. The divisional distinctives below conceptualize desired outcomes that inform our vision for the diverse demography of faculty, staff, and students at APU.

- *Being.* Celebrating the presence and God-given capacity of each individual while also acknowledging implicit biases that we bring to the community.
- *Becoming.* Developing cultural competency and fluency to effectively engage and advance the work of God in a diverse community and world.
- *Belonging.* Cultivating a university culture and climate that fosters intercultural engagement, authentic community, and belonging.

In particular, the Student Center for Reconciliation and Diversity (https://www.apu.edu/scrd/) primarily serves APU's diverse student population, and the Office of Military and Veteran Services (https://www.apu.edu/militaryeducation/services/) supports the holistic development and success of APU's diverse military-connected students. Visit our website (https://www.apu.edu/diversity/) to learn about additional diversity-related services and programs. To report only **nonemergency** bias-related incidents, use the Bias Incident Reporting (https://www.apu.edu/diversity/bias/) tool.

Thank you for your partnership and collaborative engagement.

**Keith E. Hall, EdD**
Vice President for Student Belonging, Chief Diversity Officer

# Student Center for Reconciliation and Diversity

The Student Center for Reconciliation and Diversity (SCRD) (https://www.apu.edu/scrd/) holds as its primary mission to support the university's larger mission of advancing the Christ-centered distinctives of diversity, equity, and inclusion. SCRD designs and implements a continuum of programs and services that promote student recruitment and retention, student leadership development, and the pursuit of academic success and graduation. SCRD's efforts expand cultural awareness/engagement and identity development for all students, faculty, and staff in order to promote equity and model racial reconciliation, unity, and an appreciation of all cultures.

The SCRD pursues this mission by:

- Investing in the development of student leaders who serve as catalysts for communication and understanding among people of all racial, cultural, and socioeconomic backgrounds;
- Providing supplemental support, services, and resources for ethnically and socioeconomically diverse students; and
- Sponsoring programs and activities that increase awareness of and appreciation for ethnic and cultural diversity and inclusion.

The center also coordinates multiple scholarship programs (https://www.apu.edu/scrd/scholarship/). The Multi-Ethnic Leadership Scholarship (https://www.apu.edu/scrd/scholarship/#multiethnic) program involves education in diversity, leadership, and discipleship with selected students who become leaders of cross-cultural understanding and racial reconciliation on campus and beyond, and the TELACU Scholarship (https://www.apu.edu/scrd/scholarship/#telacu) program is offered in collaboration with The East Los Angeles Community Union (TELACU). The center provides information on internship and learning opportunities offered by outside organizations for ethnic minority student populations, and sponsors various campus events to promote intercultural engagement and community. The SCRD also houses and supports numerous ethnic organizations, which give students an opportunity to engage, learn, and experience cultural engagement and a strong sense of belonging with a nuanced understanding of the unique lived experiences of students of color.

All students are welcome at the SCRD office, located on Cougar Walk across from the coffee shop on East Campus. For more information on center programs, activities, and scholarships, contact us (https://www.apu.edu/scrd/) or sign up to be included on the distribution list by submitting your name and email address to the SCRD. Learn about additional APU diversity-related offices, services, and programs on the Diversity at APU website (https://www.apu.edu/diversity/). You may also use the Bias Incident Reporting (https://www.apu.edu/diversity/bias/) tool to report **nonemergency** bias-related incidents.

# Military Resources

## Office of Military and Veteran Services

The Office of Military and Veteran Services (MVS) (https://www.apu.edu/militaryeducation/services/) is committed to honoring and serving all military-connected students (active duty, veterans, reservists, Coast Guard, National Guard, spouses, and children) through professional development and spiritual health imparted by a caring community. MVS is open to all military-connected students enrolled in undergraduate, graduate, or professional programs at every campus in the Azusa Pacific system. MVS assists with the transition to college life including initial interest in APU, academic support, graduation, and beyond.

The MVS office location and mailing address is:

Adams Hall, Room 134
901 E. Alosta Ave.
Azusa, CA 91702

(626) 815-4603
mvs@apu.edu

## Office of Military and Veteran Education Benefits

The Office of Military and Veteran Education Benefits (MVEB) (https://www.apu.edu/militaryeducation/benefits/) is dedicated to helping students utilize VA education benefits at APU. Although eligibility is determined solely by the U.S. Department of Veterans Affairs, MVEB will assist students in maximizing any education benefits they are eligible for.

Contact a VA Certifying Official with any questions or concerns regarding accessing and/or processing education benefits.

The MVEB office location and mailing address is:

Student Services Center
901 E. Alosta Ave.
Azusa, CA 91702-7000

(626) 815-3837
mveb@apu.edu

## Military Tuition Assistance (TA)

Military Tuition Assistance (TA) (https://www.military.com/education/money-for-school/tuition-assistance-ta-program-overview.html) is a benefit paid to eligible members of the Army, Navy, Marines, Air Force, and Coast Guard. Congress has given each service the ability to pay up to 100% for the tuition expenses of its members.

## Reserve Officer Training Corps (ROTC)

Azusa Pacific's Army ROTC (p. 1108) and Air Force ROTC (p. 1107) programs combine the military strengths of discipline and leadership with the university's faith-based learning community, deepening and enhancing the college experience. Cadets learn leadership skills that prepare them to join the military or civilian workforce and equip them to succeed in the most challenging circumstances. The programs brings together a tight-knit, welcoming group of scholar-leaders who value service and dedication to their country. ROTC cadets at APU regularly hold the top leadership positions in the multischool ROTC battalion that encompasses institutions throughout the Inland Empire.

# University Libraries

Azusa Pacific's University Libraries include the William V. Marshburn Memorial Library (https://www.apu.edu/library/marshburn/) (East Campus), the Hugh and Hazel Darling Library (https://www.apu.edu/library/darling/) (West Campus), the James L. Stamps Theological Library (https://www.apu.edu/library/stamps/) (West Campus), and library collections at two of the six regional locations—Orange County and San Diego—which support the academic programs at their respective locations.

Regular hours for the three main-campus libraries can be found on the hours page (https://www.apu.edu/library/about/hours/). Special library hours also may be set for final exam weeks, vacation breaks, and holidays. For more information about library services and resources, contact the University Libraries (https://libraryanswers.apu.edu/form/?queue_id=213).

## Library Use

Maintained by expert library faculty (https://www.apu.edu/library/faculty/) and staff (https://www.apu.edu/library/about/staff/), the libraries offer patrons (https://www.apu.edu/library/services/patrons/) access to varied collections (https://www.apu.edu/library/collections/), rare archives (https://www.apu.edu/library/specialcollections/), and an extensive catalog (https://apu.on.worldcat.org/advancedsearch/?queryString=&databaseList=638) of print and electronic resources (https://www.apu.edu/library/resources/), bringing the information you need within reach. Online library resources are available through the University Libraries website (https://www.apu.edu/library/). In order to check out library materials, you will need your APU ID card.
