# Home

Though some debate the value of higher education, research continues to demonstrate the long-term economic value of postsecondary education. According to the Economic Policy Institute in Washington, DC, the pay disparity between college graduates and those who did not attend college reached an all-time high in 2013. Although it is important to consider the long-term economic value associated with pursuing higher education, it is even more important to consider the *purpose* of higher education.

At APU, this purpose is associated with cultivating difference makers. To make a difference in an increasingly global society, students need to understand the world around them. Whether students are completing their first year as an undergraduate or their final year of doctoral coursework, I am confident they have achieved much more than mastery of core competencies in their subject of study.

In his book *How Christian Faith Can Sustain the Life of the Mind* (William B. Eerdmans Publishing, 2001), Richard Hughes made a compelling statement about the call to search for truth:

We have no choice but to search for truth. After all, when we view ourselves in relation to God, we understand how abysmally ignorant we really are. And if the Bible points beyond itself to an infinite God, we have no choice but to engage in serious conversation with a variety of conversation partners, for we know that all perspectives may well shed light on God's eternal truth. And if the Bible points beyond itself to an infinite God, we have no choice but to engage in critical thinking, for we must now discriminate between competing worldviews and perspectives as we seek to understand more fully the nature and the glory and the will of our Creator.

As you prepare to become difference makers, this academic catalog covering undergraduate, graduate, and professional programs serves as the guiding document for your education journey at Azusa Pacific. We also invite you to learn more about who we are as a mission-driven institution and what it means to be part of our faith and learning community (https://www.apu.edu/about/faithandlearning/). If you have any questions about the programs listed in this catalog, contact the appropriate department.

**Anita Henck, PhD**
Provost

# Welcome

This catalog is produced for the university by the Office of the Provost (https://www.apu.edu/provost/). It compiles general academic and administrative policies and other information and specific descriptions of the courses of study offered. Publication and effective dates are August 1 through July 31 of the respective academic year represented in this catalog. The current and previous years' catalogs are available on the Azusa Pacific University website. (https://www.apu.edu/provost/catalog/)

Because this publication is prepared in advance of the year it covers, changes in some programs inevitably occur.

Azusa Pacific University reserves the right to amend this catalog and change any of its policies without prior notice, including but not limited to tuition, fees, unit-value per course, course offerings, curricula, grading policies, graduation and program requirements, and admission standards and policies.

Though the semester/term schedule of courses is the final authority in regard to courses offered, updated information may also be found on the APU website. (https://www.apu.edu/calendar/academic/)

A schedule of courses is available prior to registration each semester/term. All courses are offered subject to instructor availability and sufficient enrollment.

This catalog supersedes all previous catalogs. The policies expressed in this catalog and each subsequent catalog will be controlling, regardless of any policies stated in a previous catalog received by the student upon his or her admission. There are, however, exceptions in certain cases regarding course requirements. See the appropriate Graduation Requirements and Commencement section of this catalog (graduate (p. 1078), professional (p. 1051), or undergraduate (p. 1026)).

This catalog and each subsequent catalog is supplemented by the rules and regulations stated in department publications, the Student Handbook, the website, and appropriately posted materials. Conflicts between any of these sources are unintentional, and the policy of wider applicability will control (e.g., university-wide policies control school or department policies).

Students who wish to obtain specific information about the university not contained in the catalog are advised to consult the university's website (https://www.apu.edu).

# About the Catalog

## A Guide to Using the 2024-25 APU Catalog

The university's catalog is a comprehensive source of information to help students throughout their college experience. This guide helps students navigate the catalog by offering a glossary defining, in common language, the various academic terms and acronyms used throughout the catalog.

## University Structure

Classroom faculty at APU hold positions in academic departments, which are organized within either a college, a school, or both.

## Degrees

A degree is an academic rank that the university confers on a student who satisfactorily completes a designated program of study. APU grants the following undergraduate (also called baccalaureate degrees), master's and doctoral degrees:

- Bachelor of Arts (BA)
- Bachelor of Business Administration (BBA)
- Bachelor of Fine Arts (BFA)
- Bachelor of Music (BM)
- Bachelor of Science (BS)
- Bachelor of Science in Nursing (BSN)
- Bachelor of Social Work (BSW)
- Master of Arts (MA)
- Master of Business Administration (MBA)
- Master of Business Management (MBM)
- Master of Divinity (MDiv)
- Master of Fine Arts (MFA)
- Master of Music (MM)
- Master of Public Health (MPH)

- Master of Science (MS)
- Master of Science in Nursing (MSN)
- Master of Social Work (MSW)
- Educational Specialist (EdS)
- Doctor of Divinity (DMin)
- Doctor of Education (EdD)
- Doctor of Nursing Practice (DNP)
- Doctor of Philosophy (PhD)
- Doctor of Physical Therapy (DPT)
- Doctor of Psychology (PsyD)

## Major

A major (p. 1028) is an undergraduate program of study that provides students with the knowledge, skills, and experience necessary to pursue a specific career or advanced study and leads to an undergraduate degree in that subject. Each major is offered in an academic department or program. Undergraduate applicants to APU can select a major at the time they apply for admission.

For more information and advice regarding academic programs, see the Academic Resources (p. 1105) catalog entry.

## Minor

A minor (http://catalog.apu.edu/policies-procedures/undergraduate/declaration-change-majors-minors/) is a supplemental undergraduate program of study, in a field different from a student's major, that provides educational breadth.

## Concentrations, Emphases, and Tracks

These are groups of courses within a degree program designed to provide specialized knowledge.

## Courses

Course descriptions explain the content and scope of each course. The course prefix (an abbreviation that represents the subject or offering department), course number, prerequisites, unit value, and other pertinent information can be accessed by clicking on the hyperlinked course number (e.g., MATH 110), which produces a pop-up window with the full description. Alternatively, view a full list of course options under the school, college, or department level by selecting the "Courses" tab.

## Electives

These are courses that students can choose from within the parameters set by their departments.

## The General Education (GE) Program

The GE program (p. 919) comprises a common set of requirements and provides a common foundation of knowledge for all undergraduate programs. The specific requirements for a particular major degree program are listed under the academic department or program that offers the major.

## Prerequisites

Prerequisites are one or more courses that *must* be completed—or other knowledge, skills, or standards that *must* be demonstrated—*before* a student is permitted to take certain courses. Prerequisites (if any) for a course are listed in the course's description in the catalog.

Some prerequisites have their own prerequisites, forming a string of courses that must be taken in sequence. The catalog course description shows only the last course in the prerequisite string of courses. For example, MATH 460 Topology has a prerequisite of MATH 450 Real Analysis. MATH 450 requires MATH 280 Discrete Mathematics and Proof, which requires MATH 165 Calculus I, which requires MATH 150 Precalculus *or* an appropriate score on the APU math placement assessment *or* MATH 149 Fundamentals of Precalculus (which may be taken concurrently; see next paragraph). It is important that students are aware of these prerequisite strings to ensure timely completion of all requirements.

Statements in the catalog course descriptions may also contain the word "concurrently," which means that two or more courses may be taken in the same term, or "corequisite," which means that the course or courses *must* be taken in the same term (or some prior term) as that of the course being described.

If a student does not meet a prerequisite as outlined in a course's description, but through alternative means can demonstrate to the department offering the course that he or she possesses the necessary knowledge or skills, the department may grant the student permission to enroll in the course with consent of the department chair.

## Cross-Listed Courses

These are courses that are shared by two or more academic departments and have identical titles, descriptions, units, and modes of instruction. They are interchangeable for degree requirements. They cannot be repeated for degree credit under separate prefixes.

## Topic Courses

Topic courses are shown in the catalog with generic titles and are repeatable with different topics. Specific topic titles appear in the Schedule of Classes and on students' transcripts. Example: HIST 368 A Year in Time is repeatable with different topics; in this case, the topic varies each term with a focus on different years (e.g., 1492, 1776, 1865, 1968).

## Credit Hour

A credit hour—the amount of work established by stated student learning outcomes and achievement—is approximately one hour (or 50-55 minutes) of classroom or direct faculty instruction, plus a minimum of two hours (for undergraduate) or three hours (for graduate) of out-of-class work, each week for a 16-week term (or the equivalent amount of work for a term of a different length). Classroom or direct faculty instruction and out-of-class student work leading to the award of credit hours may vary for courses that require laboratory work, internships, practica, studio work, online work, research, guided study, study away, and other academic work to achieve the identified student learning outcomes. In addition, student workload may vary based upon program expectations established by national or regional accrediting bodies.

## Semesters and Semester Units

Azusa Pacific is on the semester (term) system, offering three semesters (terms) per calendar year:

- Fall: September through December
- Spring: January through May
- Summer: May through August

Many graduate and undergraduate programs also employ 2, eight-week sessions in each of these terms.

For undergraduates, 24 units per year is considered full time, though a student must average 15 units per semester (30 per year) to complete the 120 total units required for graduation in a traditional four-year period.

For full-time graduate status, refer to the Study Load (p. 1073) page in this catalog.

Many institutions are organized in quarters with quarter units. To convert APU semester units to quarter units, multiply by 1.5. For example, 6 APU semester units x 1.5 = 9 quarter units.

To convert quarter units to APU semester units, multiply by .667. For example, 9 quarter units x .667 = 6 semester units.

View the most current Academic Calendar (http://www.apu.edu/calendar/academic/) for more information. For answers to questions not answered here, contact the Academic Success Center (https://www.apu.edu/academic-success/).

# Course Numbering and Subject Codes

## Course Numbering System

Courses are generally numbered according to the following structure:

- 010-099: Nondegree credit or precollege courses
- 100-299: Courses primarily for freshman and sophomore students
- 300-399: Courses primarily for advanced undergraduate students, usually with prerequisite coursework
- 400-499: Courses for advanced undergraduates.
- 500-599: Master's and credential-level courses
- 600-699: Master's and doctoral-level courses
- 700-799: Doctoral-level courses

## Course Subject Code System

Courses are identified by a subject abbreviation followed by a course number.

| | |
|---|---|
| ABA | Applied Behavioral Analysis |

# Catalog and Student Handbooks

The catalog is the official guide to programs at Azusa Pacific University and includes information about university-wide policies and procedures, as well as general descriptions of academic programs and degree requirements. In addition, program- and department-specific student handbooks contain policies, procedures, and expectations with more-detailed information about academic clearance. It is the student's responsibility to understand the university's and the program's requirements.

## Other Programs & Related Information

## Average Time to Completion by Degree

# College of Arts, Humanities, Sciences, and Theology

The College of Arts, Humanities, Sciences, and Theology (https://www.apu.edu/clas/) advances the mission of the university by cultivating academic programs of excellence in the arts, humanities, theology, social sciences, and STEM (science, technology, engineering, and math) disciplines; fostering a culture of scholarship among faculty and students; and preparing students for advanced study, civic engagement, vocational success, and a well-lived life.

The college offers a wide range of major and minor undergraduate degree programs, many of the courses in the university's General Education (p. 911) program, numerous discipline-specific student honor societies, and several graduate degree programs.

## The Center for Research in Science

The Center for Research in Science (CRIS) (p. 33) serves internal and external communities by promoting research that encompasses and extends the scope of scientific studies to address the inseparable relationship between science and culture, its role in a classical liberal arts education, and the dialogue between faith and reason.

## The Math and Physics Center

The Department of Computer Science, Engineering, Mathematics, Physics, and Statistics sponsors a drop-in tutoring center for assistance with mathematics, physics, and statistics courses. Housed in Segerstrom Science Center (Room 170), the Math and Physics Center (https://www.apu.edu/clas/mathphysics/opportunities/) provides an out-of-classroom setting where students gather to actively learn and teach math, physics, and statistics. The room is fully equipped with computers, whiteboards, and work spaces. Students are encouraged to regularly work on their homework at the center, knowing that help is nearby should it be needed. Skilled student tutors staff the center for free on-site and online tutoring Monday-Thursday throughout each semester. For more information, contact the Department of Computer Science, Engineering, Mathematics, Physics, and Statistics at (626) 815-6470.

# School of Humanities and Sciences

The School of Humanities and Sciences offers academic programs of excellence in the humanities and STEM (science, technology, engineering, and math) disciplines, promoting scholarship among faculty-mentors and students to prepare disciple-scholars for advanced study, civic engagement, vocational success, and a well-lived life. The school offers an array of major and minor undergraduate degree programs, courses in the university's General Education (p. 911) program, discipline-specific student honor societies, and graduate degree programs.

# Center for Research in Science (CRIS)

The Center for Research in Science (CRIS) (https://www.apu.edu/research-science/) envisions impacting society by equipping students for scientific endeavors, advancing science in the community, and engaging scholars to explore the interface between science and other academic disciplines.

CRIS is committed to scientific excellence and a Christian perspective of truth and life. By fostering scientific collaborations, connections, and creativity, CRIS seeks to advance STEM presence at Azusa Pacific University and in the surrounding community.

One of the center's hallmark activities (open to the community at large) is hosting the popular CRIS Science and Faith events, in which experts from various disciplines present thought-provoking perspectives on important issues of the day. A variety of topics ranging from bioethics and artificial intelligence to environmental stewardship and human flourishing are discussed.

# Department of Biology and Chemistry

The Department of Biology and Chemistry (http://www.apu.edu/clas/biochem/) serves God through the integration of a Christian perspective into the disciplines of biology and chemistry, providing an environment in which students can develop a Christian worldview and learn to integrate their faith into their lives as scientists, and prepare for success in further studies and/or their chosen careers.

The department offers science courses that are consistent with the majors offered, that meet the goals of the General Education program (p. 911), and that serve as support courses for students in other majors. Programs offered include Bachelor of Arts degrees in Allied Health (p. 46), Allied Health with a Business Emphasis (p. 48), and Chemistry (p. 51); Bachelor of Science degrees in Allied Health (p. 53), Allied Health with Integrated Single Subject (Science) Teaching Credential (p. 55), Biological Sciences (p. 61), Chemistry (p. 64), and Biochemistry (p. 58); and a Master of Science in Biotechnology (p. 69).

## Requirements for Allied Health, Biochemistry, Biological Sciences (previously Biology), and Chemistry Majors

While the Department of Biology and Chemistry does not cap enrollment in these majors, students are expected to demonstrate certain levels of achievement (detailed below) to enter and remain in these majors.

### Entrance Requirements

### Freshmen Applicants

To qualify for a major in allied health, biological sciences (previously biology), biochemistry, or chemistry, freshman applicants must submit documentation of the following (or their equivalents) and indicate their choice for one of those majors to the Office of Undergraduate Admissions (https://www.apu.edu/undergraduate-admissions/) before the start of classes. After that date, the requirements in the Matriculated APU Students section (below) must be met.

- High school GPA of 3.0+
- At least three years of high school math (an average of *C-* or higher across all three years) or SAT Math score of 530+ or ACT Math score of 21+*
- At least 2 years of high school science (with a *B* or higher in either biology or chemistry)

*All freshmen students are required to take the ALEKS math placement assessment (or satisfy criteria 1-8 of GE Quantitative Literacy) before the start of classes to determine which math course to enroll in and whether the appropriate math prerequisites have been met for CHEM 151 and BIOL 151.

### Transfer Applicants

To qualify for a major in allied health, biological sciences (previously biology), biochemistry, or chemistry, transfer applicants must submit documentation of the following (or their equivalents) and indicate their choice for one of these majors to the Office of Undergraduate Admissions before the start of classes. After that date, the requirements in the Matriculated APU Students section (below) must be met.

- Community college/university GPA of 2.8+
- Completion of Intermediate Algebra or higher (*C*- or higher)*
- Completion of a one-semester science course (*C*- or higher, biology or chemistry course recommended)**

*Transfer students may be required to take the ALEKS math placement assessment before the start of classes to determine which math course to enroll in and whether the appropriate math prerequisites have been met for CHEM 151 and BIOL 151, as applicable.

**Transfer students who do not meet the transfer applicant requirements may submit their high school transcript to demonstrate satisfaction of the freshman applicant requirements.

## Matriculated APU Students

To qualify for a major in allied health, biological sciences (previously biology), biochemistry, or chemistry, matriculated APU students must submit evidence of all of the following:

- Completion of a BIOC, BIOL, or CHEM course required for the desired major (*C*- or higher)
- Completion of MATH 95, current ALEKS score of 45+, SAT Math score of 530+, or ACT Math score of 21+
- Completion of prospective major advising in the Department of Biology and Chemistry

Milestone Completion

In order to progress through the allied health, biological sciences (previously biology), biochemistry, or chemistry major, two milestones need to be completed. Completion of Milestone 1 allows the student to become a candidate for lower-division courses, and completion of Milestone 2 enables the student to become a candidate for upper-division courses. These milestones are as follows:

## Milestone 1

Allied Health/Biological Sciences (previously Biology): *C*- or higher in BIOL 151 (prerequisite: completion or waiver of MATH 95 or equivalent [for example, by a 45 ALEKS])

Biochemistry/Chemistry: *C*- or higher in CHEM 151 (prerequisite: *B*- or higher in MATH 110 or equivalent [for example, by a 65 ALEKS])

All students who have not satisfied prerequisites to begin Milestone 1 courses should instead take the appropriate prerequisite courses. In some cases, such students may require more than eight semesters to complete the requirements for the major.

## Milestone 2

Allied Health (BS, BA with Business Emphasis)/Biological Sciences (previously Biology): *C*- or higher in BIOL 280 (prerequisites: *C*- in BIOL 240 and CHEM 151)

Allied Health (BA): *C*- or higher in BIOL 251 (prerequisites: *C*- in BIOL 250 and *C*- in CHEM 151 or *B* in one year of high school chemistry)

Biochemistry: *C*- or higher in BIOL 280 (prerequisites: *C*- in BIOC 270 and CHEM 151) **and** CHEM 252 (prerequisite: *C*- in CHEM 251; corequisite: CHEM 262)

Chemistry: *C*- or higher in CHEM 300 (prerequisite: *C*- in CHEM 152)

## Department Policies

The following are policies that apply to all students in courses offered by the department:

- A student must complete all prerequisites for a BIOC, BIOL, or CHEM course with a *C*- or higher before taking the course (except as noted in the course description).
- Students with a total of three unsuccessful attempts (below *C*-) in any combination of BIOC, BIOL, and CHEM courses will be automatically dropped from subsequent enrollment in department courses.
- Any single BIOC, BIOL, or CHEM course may be taken only two times at APU.
- Students may not earn a chemistry minor if they are majoring in biochemistry, nor may they earn a biology minor if they are majoring in allied health or biochemistry.
- Students missing more than three labs in a course receive an automatic *F* in the course.
- Courses with labs in an online or correspondence format are not allowed to transfer as BIOC, BIOL, or CHEM courses.

## Additional Requirements for Allied Health, Biological Sciences (previously Biology), Biochemistry, and Chemistry Majors and Biology or Chemistry Minors

All of the following requirements must be met to continue as an allied health, biological sciences (previously biology), biochemistry, or chemistry major or as a biology or chemistry minor. Failure to maintain these requirements will result in a student being dropped from the major or minor. Reentry to the major or minor is by petition only.

- A minimum cumulative GPA of 2.0 in all biology, chemistry, biochemistry, math, and physics courses required for the major or minor must be maintained.
- A student must complete each course required for the major or minor with a *C-* or higher for the course to meet a degree requirement in the Department of Biology and Chemistry.
- Any single class within the major or minor can be taken only two times at APU; students must change to a major or minor outside the department after two unsuccessful (below *C-*) attempts in a single required course.
- Only two courses total within the major or minor can be repeated; students must change to a major or minor outside the department after unsuccessful (below *C-*) attempts in any three required courses.
- All majors are required to take BIOL 496 to meet their General Education Senior Seminar or Writing 3 requirement.
- While courses required of the major or minor may be taken at other accredited institutions, subject to approval via a transfer inquiry form, lecture and laboratory components must be taken at the same institution in the same semester.
- It is strongly recommended that freshmen in all biological sciences majors (including biochemistry) take General Chemistry I (CHEM 151) and General Biology I (BIOL 151) the first year, and that chemistry majors start with General Chemistry I (CHEM 151) and Calculus I (MATH 165) the first year. Should math placement assessment require algebra of the student, then that course should be taken the first year and a five-year program may be indicated.
- BIOL 151 should be taken by allied health, biochemistry, and biological sciences majors and biology or chemistry minors who receive AP biology credit, as many medical schools and graduate programs will not accept AP biology to meet requirements for admission.
- Students may take a maximum of 3 units total from the following courses for elective credit toward the BS in Allied Health, the BA in Allied Health, the BS in Biological Sciences, or the minor in biology:

| Code | Title | Units |
| --- | --- | --- |
| BIOL 390 | Pre-health Seminar | 1 |
| BIOL 391 | Medical Missions Practicum | 1 |
| BIOL 394 | Directed Research Internship | 1-3 |
| BIOL 395 | Biological Science Internship | 1-3 |
| BIOL 490 | Biology Seminar | 1 |
| BIOL 497 | Readings | 1-3 |

- The following courses may **not** be taken to meet upper-division elective requirements in any major or minor in the department: BIOL 325, BIOL 330, BIOL 400, and BIOL 470.

## Dismissal Policy

The department will audit student compliance with these policies each semester. Failure to maintain these requirements will result in the student being dropped from the major or minor. Reentry to the major or minor is by petition only.

## Science at the Secondary Level

Students planning a career in teaching science at the secondary level should prepare for the CSET examination. Students should major in biological sciences, chemistry, or physics to obtain subject-matter proficiency in one of these areas for the specialization test. In addition, to prepare for the breadth part of the test, students should take:

| Code | Title | Units |
| --- | --- | --- |
| BIOL 151 | General Biology I | 4 |
| BIOL 152 | General Biology II | 4 |
| CHEM 151 | General Chemistry I | 4 |
| CHEM 152 | General Chemistry II | 4 |
| PHYC 125 | Earth Science Concepts and Applications | 3 |
| Select one of the following: | | 8-10 |
| PHYC 155 & PHYC 156 | Physics for Life Sciences I and Physics for Life Sciences II | |

| PHYC 165 & PHYC 166 | Physics for Science and Engineering: Mechanics and Physics for Science and Engineering: Electricity and Magnetism | |
|---|---|---|
| PHYC 145 | Physics Laboratory I | 1 |
| PHYC 146 | Physics Laboratory II | 1 |

## Biology and Chemistry Fellowships

Each year, the Department of Biology and Chemistry offers a limited number of fellowships to selected undergraduates to participate in the Student-to-Scholar (S2S) Program (http://www.apu.edu/clas/biochem/fellowships/) involving laboratory research with a faculty-mentor.

## Programs

### Majors

### Minors

### Master's

## Courses

### BIOC 270, Biomolecular Chemistry, 4 Units

Students in this course undertake a systematic and theoretical study of the biochemical activities of living cells as they are introduced to the structure, properties, and metabolism of proteins, carbohydrates, lipids, and nucleic acids. Emphasis is on the practical application of biochemical techniques in academic, government, and industrial laboratories today. Lecture, 3 hours; lab, 4 hours.
**Prerequisite:** C- or better in BIOL 151 and CHEM 152; C- or better in CHEM 251 (may be taken concurrently)

### BIOC 360, Principles of Biochemistry, 4 Units

Students in this course gain a systematic and theoretical understanding of the biochemical activities of living cells, including an introduction to the structure, properties, and metabolism of proteins, carbohydrates, lipids, and nucleic acids. This course does not meet the requirements of the biochemistry major. Credit will not be given for both BIOC 270 and BIOC 360, nor for both BIOC 360 and BIOC 370. Lecture, 3 hours; lab, 4 hours.
**Prerequisite:** C- or higher in CHEM 252 (may be taken concurrently with department consent)

### BIOC 370, Biomolecular Metabolism, 4 Units

Students in this course gain an in-depth understanding of biomolecule metabolism, with emphasis on the mechanisms of energy transfer and chemical communication in living systems. Laboratory recitations foster the practical application of biochemical techniques and thorough understanding of current literature in the field. Lecture, 3 hours; lab, 4 hours.
**Prerequisite:** C- or better in BIOC 270 and CHEM 252.

### BIOC 390, Physical Biochemistry, 3 Units

Physical biochemistry is the study of the physical properties that govern how proteins, DNA, RNA, and other biological polymers assemble into life. These physical properties provide a description of their interactions, from the atomic level to large macromolecular assemblies. Methods for measuring interactions between biomolecules involving nuclear, electric, magnetic, and centrifugal fields illustrate the interrelatedness of physics and chemistry in our understanding of conventional biology.
**Prerequisite:** C- or better in BIOC 270 and CHEM 252.

## BIOL 90, Laboratory Safety, 0 Units

This course provides an introduction to federal, state, and local regulations, material safety data suggestions, chemical hygiene plan, labels, equipment, spill response, and proper handling and disposal of chemicals as related to an academic laboratory.

## BIOL 101, Biology and Society, 4 Units

This elementary course covers principles of cell structure and function, genetics, development, reproduction, and animal systems biology. Lecture, 3 hours; lab, 3 hours. Not intended for health or natural sciences majors. *Meets the General Education Requirement: Natural Science.*
Special Fee Applies

## BIOL 109, Introduction to Biological Sciences, 3 Units

Designed for high school students participating in the APU/Azusa USD Summer GATE Program, this course provides an introduction and overview of biology concentrating on cell biology, genetics, kingdoms, and ecology. The emphasis is on basic science principles, their application to real-world situations, and developing the basic skills needed in college.
**Prerequisite:** High School biology course

## BIOL 115, Anatomy and Physiology, 4 Units

Lecture, 3 hours; Lab, 3 hours: This is an introductory course in the principles of anatomy and physiology as they relate to the structure and function of the living human body. It is designed for physical education majors. Does not count toward biology major credit.
Special Fee Applies
**Prerequisite:** BIOL 101 or BIOL 151. (Nursing Majors: High School Biology and minimum SAT/ACT scores)

## BIOL 151, General Biology I, 4 Units

This foundational course for science majors is the first in a two-semester sequence covering principles of cell structure and function, genetics, development, reproduction, and animal systems biology. Lab emphasis is on the investigative approach and experimental techniques of biology. Lecture, 3 hours; lab, 4 hours. *Meets the General Education Requirement: Natural Science.*
**Prerequisite:** Completion or waiver of MATH 95 (for example, by a 45 ALEKS score). For allied health, biochemistry, biological sciences, chemistry, kinesiology, psychology, computer science, and physics majors only; all other majors by department consent.

## BIOL 152, General Biology II, 4 Units

Lecture, 3 hours; Lab, 4 hours: This second-semester course deals with behavior, evolution, plant and animal diversity of life, plant biology, and introduction to ecology. There is a laboratory emphasis on plant and animal biology.
Special Fee Applies
**Prerequisite:** C- in BIOL 151

## BIOL 200, Human Anatomy for Nursing, 4 Units

Students in this intensive course study human anatomy using the systemic approach, with lab exercises utilizing human cadaver prosections. Lecture, 3 hours; discussion, 1 hour; lab, 4 hours.
**Prerequisite:** Preadmitted nursing major status and a B in one year of high school biology or C- in BIOL 151.

## BIOL 210, Human Physiology for Nursing, 4 Units

Students in this course study how human organ systems function and maintain homeostasis. Laboratory exercises include biomedical instrumentation. Lecture, 3 hours; lab, 4 hours.
Special Fee Applies
**Prerequisite:** C- in BIOL 200 and C- in CHEM 123 (may be taken concurrently) or a B in one year of high school chemistry; for nursing majors only - all other majors by department consent.

## BIOL 220, General Microbiology, 4 Units

This course is for students majoring (or planning to major) in nursing or allied health (BA). The focus is on fundamental microbiological principles and laboratory techniques, with an emphasis on disease-causing microorganisms, new and old methods of disease treatment and prevention, and host immune responses. Lecture, 3 hours; lab, 4 hours.
Special Fee Applies
**Prerequisite:** C- in BIOL 151 or BIOL 230, and C- in CHEM 151 (may be taken concurrently) or CHEM 123. Nursing majors: C- in CHEM 123. Department consent required for non-nursing majors.

## BIOL 226, Intro to Neurobiology, 4 Units

Students in this course explore how scientists study the biological basis of human behavior, focusing on the specific aspects of neuroscience that are directly related to various behavioral and cognitive functions. This course takes a case-study and research-based approach, relying on textbook but also group discussion of current behavioral neuroscience research and techniques. Students develop the skills to interpret, critically analyze, and apply relevant research and theories in the field of behavioral neuroscience and its biological basis in psychopharmacology. Lecture, 3 hours; lab, 4 hours.
Special Fee Applies
**Prerequisite:** C- in BIOL 151

## BIOL 230, Human Anatomy and Physiology I, 4 Units

This is the first semester of a two-semester course that examines the anatomy and physiology of the human body from an integrated perspective. Topics include basic biological and chemical concepts, tissue types, integumentary, musculoskeletal and nervous systems, and special senses. The laboratory component includes model-based anatomical studies and the examination of physiological processes via the scientific method.
Special Fee Applies
**Prerequisite:** Kinesiology students only

## BIOL 231, Human Anatomy and Physiology II, 4 Units

This is a continuation of the Human Anatomy and Physiology I course. Topics include metabolism and the autonomic nervous, endocrine, cardiovascular, lymphatic, respiratory, urinary and reproductive systems. The laboratory component includes model-based anatomical studies and the examination of physiological processes via the scientific method. *Meets the General Education Requirement: Natural Science.*
Special Fee Applies
**Prerequisite:** C- or higher in BIOL 230. Kinesiology students only.

## BIOL 240, Biology of Microorganisms, 4 Units

This course covers the fundamental principles and techniques of microbiology, with emphasis on the role of microorganisms in disease, immunity, and food production. Lecture, 3 hours; lab, 4 hours.
Special Fee Applies
**Prerequisite:** C- in BIOL 151; and C- in BIOL 152, C- in BIOL 230, or C- in BIOL 250, as well as C- in CHEM 151 (may be taken concurrently). Department consent required for all majors outside of the Department of Biology and Chemistry.

## BIOL 250, Human Anatomy, 4 Units

This intensive course in human anatomy uses the systemic approach, with lab exercises utilizing human cadaver prosections. Lecture, 3 hours; discussion, 1 hour; lab, 4 hours.
Special Fee Applies
**Prerequisite:** C- in BIOL 151; for allied health and kinesiology (health professions concentration) majors only-all other majors by department consent.

## BIOL 251, Human Physiology, 4 Units

Students in this course study how human organ systems function and maintain homeostasis. Laboratory exercises include biomedical instrumentation. Lecture, 3 hours; lab, 4 hours.
Special Fee Applies
**Prerequisite:** C- in BIOL 151 and C- in BIOL 250; and C- in CHEM 151 or C- in CHEM 123; for allied health and kinesiology (health professions concentration) majors only-all other majors by department consent

## BIOL 280, Cell Biology, 4 Units

This course covers a theoretical approach to cellular and molecular biology, including ultrastructure, cytology, metabolism, and molecular genetics. Laboratory emphasis is given to electron microscopy, centrifugation, and DNA and protein electrophoresis. Lecture, 3 hours; lab, 4 hours; discussion/ quiz, 1 hour.
Special Fee Applies
**Prerequisite:** Allied health and biological sciences majors: C- in BIOL 240 and C- in CHEM 151; biochemistry majors: C- in BIOC 270.

## BIOL 300, Genetics, 4 Units

This course covers the principles of heredity, including Mendelism, cytogenetics, population theory, human medical genetics and gene regulation, classical laboratory experimentation, and modern molecular biology techniques. Lecture, 3 hours; Lab, 4 hours. *Meets the General Education Requirement: Integrative and Applied Learning.*
Special Fee Applies
**Prerequisite:** C- in BIOL 280

## BIOL 311, Teaching and Learning in STEM, 2 Units

Students in this course learn about the fundamentals of effective STEM teaching, including common challenges for STEM learners, active engagement strategies, assessment techniques, supporting diverse learners, designing assignments, and planning courses and lessons.
**Prerequisite:** BIOL 151, CHEM 151, CS 120, MATH 165, PHYC 155, PHYC 165, or equivalent

## BIOL 312, STEM Education Research Seminar, 1 Unit

Students identify challenges for effective STEM education that they observe during their experiences as STEM students and in STEM teaching support roles. Using readings drawn from the STEM education research literature, students identify and evaluate solutions to these challenges.
**Prerequisite:** BIOL 151, CHEM 151, CS 120, MATH 165, PHYC 155, PHYC 165, or instructor permission

## BIOL 313, STEM Teaching Practicum, 1 Unit

This course is intended for students serving in teaching support roles for STEM courses, including Learning Assistants, Teaching Assistants, and tutors. Students observe and reflect on effective STEM teaching practices and assist learners in engaging with and understanding course content.
**Prerequisite:** BIOL 151, CHEM 151, CS 120, MATH 165, PHYC 155, PHYC 165, or instructor permission

# BIOL 320, Ecology, 4 Units

This course provides an understanding of the relationship of plants and animals to their environment, with particular consideration given to distribution, communities, and population analysis. Lecture, 3 hours; Lab, 4 hours. *Meets the General Education Requirement: Civic Knowledge and Engagement.*
Special Fee Applies
**Prerequisite:** C- in BIOL 152 and BIOL 280; Upper-division status.

# BIOL 325, Humans and the Environment, 4 Units

Through lecture and lab experience students study the historical, biblical, and scientific aspects of the environment with particular emphasis on the impact of humans on God's world. Students explore a variety of environmental aspects related to economics, global studies, and missiology in individual studies/papers. Does not count toward biology major credit. *Meets the General Education Requirement: Natural Science.*

# BIOL 325H, Humans and the Environment - Honors, 4 Units

Through lecture and lab experience students study the historical, biblical, and scientific aspects of the environment with particular emphasis on the impact of humans on God's world. Students explore a variety of environmental aspects related to economics, global studies, and missiology in individual studies/papers. Does not apply for biology major credit. *Meets the General Education Requirement: Natural Science.*
**Prerequisite:** To enroll in the course, must be a student admitted to the Honors Program and be considered a member in "active" status.

# BIOL 326, Neurobiology, 4 Units

Students in this course undertake a detailed study of the structure and function of animal nervous systems. Special emphasis is given to the anatomy and neurophysiology of reflexes, motor pathways, senses, and neurological diagnosis. This course is designed for students oriented toward the health sciences. Lecture, 3 hours; lab, 4 hours. *Meets the General Education Requirement: Integrative and Applied Learning.*
Special Fee Applies
**Prerequisite:** C- or better in BIOL 280

# BIOL 330, Gender Differences, 3 Units

Lecture/Discussion, 3 hours: This course examines in detail differences in gender. Realizing gender differences are related to one's chronological age, these differences are studied from the biological, psychological, sociological, and theological perspectives and understood that each perspective influences the others. Does not count toward biology major credit.

# BIOL 336, Vertebrate Biology, 4 Units

Lecture, 3 hours; Lab, 4 hours: This course provides a comprehensive survey of the natural history, anatomy, and systematics of vertebrate animals - fish, amphibians, reptiles, birds, and mammals. Laboratory will include training in dissection skills and experience with a human cadaver.
Special Fee Applies
**Prerequisite:** C- in BIOL 152

# BIOL 340, Invertebrate Biology, 4 Units

Lecture, 3 hours; Lab, 4 hours: The classification, natural history, and functional morphology of invertebrate phyla are studied.
**Prerequisite:** C- in BIOL 152

# BIOL 342, Medical Microbiology, 3 Units

This lecture course emphasizes the importance of microbiology to medicine and applied areas of science. The spectrum of infectious agents, host response, current diagnostic methodologies, and recent advances/problems in diagnosis and treatment are covered.
**Prerequisite:** C- in BIOL 240 and BIOL 280

# BIOL 346, Regional Human Anatomy, 4 Units

This is a dissection-based course in human anatomy, utilizing cadavers and a regional approach to studying the human body. Upon completion, students are able to identify major skeletal, muscular, nervous, and vascular structures; organs; and the relationships of these structures to each other in each body area. Students also learn about the flow of blood from the heart through vascular structures to organs and limbs, as well as the structure and significance of the cervical, brachial, and lumbosacral plexuses, and are able to explain the actions of muscles based on origin and insertions. Students gain skills in dissection, collaborating with colleagues to perform dissections and present findings to the class. Finally, students gain an appreciation of the intricacy and detail of the human body, the importance of precision and accuracy in experimental work, and the value of collaborative learning. Lecture, 3 hours; discussion, 1 hour; lab, 4 hours.
Special Fee Applies
**Prerequisite:** C- in BIOL 151 and BIOL 280; allied health (B.A.) majors: C- in BIOL 151 and BIOL 251.

# BIOL 350, Mammalian Physiology, 4 Units

Lecture, 3 hours; Discussion, 1 hour; Lab, 3 hours: This course offers an analysis of physiological mechanisms in animals with emphasis on the function at the organ systems level. This course is appropriate for those preparing for medical school and related graduate study. Introductory experiences applying physiological principles to clinical medicine are covered.
Special Fee Applies
**Prerequisite:** C- in BIOL 280

## BIOL 365, Plant Biology, 4 Units

Lecture, 3 hours; Lab, 4 hours: This course introduces botanical research topics, including plant classification, genetics, structure and function, growth and development, and evolution and ecology. It integrates themes and processes of the California State Science framework.
**Prerequisite:** C- in BIOL 280

## BIOL 370, Prosection, 1 Unit

Students are introduced to the human body through gross dissection and demonstration of selected portions of a human cadaver. This course requires 30 hours of laboratory.

## BIOL 390, Pre-health Seminar, 1 Unit

This course provides a background to the Biblical, historical and philosophical aspects of healthcare as well as an understanding of the reasons to pursue a career in the field. The course also covers the key principles required for success in applying for and matriculation into graduate programs in healthcare fields such as writing effective personal statements and interviewing well.
**Prerequisite:** Junior standing

## BIOL 391, Medical Missions Practicum, 1 Unit

Lecture/Discussion, 1 hour: This course offers a practicum experience for students preparing for a career in the medical/health-related sciences. Didactic medical-clinical instruction in first aid, assessment, and medical history is emphasized. Students gain practical field experience as Team Luke members with Mexico Outreach.
**Prerequisite:** BIOL 101, BIOL 151, or BIOL 250

## BIOL 394, Directed Research Internship, 1-3 Units

This course provides instruction in research design and technique, and gives students experience in the research process. The 1-unit expectation encompasses no fewer than 30 hours of work with accompanying reading, log writing, and seminar presentation within the department or in a university research symposium. May be repeated, subject to department policies.
**Prerequisite:** Department permission

## BIOL 395, Biological Science Internship, 1-3 Units

This course gives students an opportunity to apply classroom knowledge in real-world settings through paid or volunteer science-related internships with local businesses or organizations. Students gain a realistic view of their career goals, explore possible career choices, and gain valuable experience under the guidance of their job supervisor and academic supervisor. Internship committee approval is required for this course; applications must be submitted a minimum of three weeks prior to the start of the semester. Internship site requirements may vary; email biologyandchemistry@apu.edu for details.
**Prerequisite:** 3.0 GPA, dept consent, and a C- or higher in the following: allied health BA: BIOL 251; allied health BA business emphasis, allied health BS, and biological sciences majors: BIOL 280; biochemistry majors: BIOC 270 and CHEM 252; chemistry majors: CHEM 300

## BIOL 396, Topics in Biology and Christian Thought, 1 Unit

This course covers the basic ideas behind the Creation/evolution and Creation care discussions. Students are exposed to, and are asked to critically evaluate, the scientific, philosophical, and theological foundations of these two debates.
**Prerequisite:** C- or higher in BIOL 151 and CHEM 152; UBBL 100 or UBBL 230; and junior standing. For biology minors only: C- or higher in BIOL 151, BIOL 240, and CHEM 151; UBBL 100 or UBBL 230; and junior standing.

## BIOL 400, Science and Children, 4 Units

This course is for liberal studies majors interested in obtaining a multiple subject teaching credential, helping them develop knowledge and skills in science content, including how to teach science concepts and processes emphasized in the Next Generation Science Standards and California State Framework - Science K-8. Lecture, 3 hours; lab, 3 hours. Does not count toward biology major credit. This is a core liberal studies course, and the 38 units of core liberal studies coursework must be completed with a grade of C or higher and an overall GPA of 3.0 or higher.
Special Fee Applies
**Prerequisite:** Junior or senior standing; completion of EDLS 200 or EDLS 202; and a C or better in two of the following courses: BIOL 101, PHYC 115, PHYC 125.

## BIOL 410, Molecular Biology, 4 Units

This course covers the traditional molecular biology curriculum, which includes transcription, translation, and gene expression in prokaryotes and eukaryotes. Lecture includes theory on key molecular techniques. Laboratory exercises emphasize current techniques in molecular biology such as molecular cloning, blotting, PCR, and assays of gene expression. Lecture, 3 hours; lab, 4 hours.
**Prerequisite:** C- or better in BIOL 280

## BIOL 420, Cancer Biology, 3 Units

This course covers a broad range of topics in cancer biology, including cancer statistics, cell cycle, oncogenes, tumor suppressor genes, DNA tumor viruses, stem cells, metastasis, etiology, and treatments.
**Prerequisite:** C- or higher in BIOL 280

# BIOL 425, Immunology, 3 Units

This course introduces students to the molecular and cellular basis, and the main mechanisms of, the mammalian immune system, including innate and acquired immunity. Emphasis is on reading and understanding scientific papers; applying course material to solve immunological problems; viewing the immune system as an interconnected, interdependent system; and studying mechanisms of immune dysfunction, microbial evasion of the immune system, and transplantation. Students also consider theological and ethical implications of our understanding of the immune system, research practices, and applications of immunity.
**Prerequisite:** C- or higher in BIOL 280; junior or senior standing

# BIOL 430, Global Change Biology, 3 Units

This course is an introduction to the emerging field of global change biology, with emphasis on the impacts of global change factors on humans, organisms, and ecosystems, with particular reference to past and present climate change, biodiversity loss, and environmental pollution. Avenues for adaptation and mitigation are also explored and discussed.
**Prerequisite:** C- or higher in BIOL 280, or instructor consent.

# BIOL 435, Stewardship Ecology, 3 Units

The history of humankind's view of nature and the resulting treatment of nature that arise from such views are examined. The biblical approach known as stewardship ecology is developed and supported as a foundation for the student's approach to this field.
**Prerequisite:** C- in BIOL 320

# BIOL 440, Developmental Biology, 3 Units

This is a study of the origin, morphology, and chemical control of developing germ layers, tissues, and systems of the body.
**Prerequisite:** BIOL 280 (C- or higher)

# BIOL 450, Histology, 4 Units

Lecture, 3 hours; Lab, 4 hours: This course teaches the structure and function of animal tissues. Emphasis is on preparation and recognition techniques of cell and tissue structure.
**Prerequisite:** C- in BIOL 280

# BIOL 454, Electron Microscopy for Biological Sciences, 2 Units

This lecture course deals with theory and principles of various microscopy methods, with emphasis given to electron optics, specimen preparation, and operation of transmission and scanning electron microscopes and ultrastructure analysis.
**Prerequisite:** PHYC 155, PHYC 156 or instructor consent

# BIOL 455, Laboratory in Electron Microscopy, 2 Units

This companion course to BIOL 454 covers biological and medical specimen preparation techniques and basic photographic protocol. Current laboratory instrumentation, dealing with both scanning and transmission electron microscopy, is emphasized.
**Prerequisite:** BIOL 280 or BIOL 454 (may be taken concurrently)

# BIOL 465, Practicum and Topics in Allied Health, 4 Units

This course deals with diagnosis strategies, prevention, and rehabilitation programs integral to the field of allied health. An emphasis on research literature facilitates students' development of knowledge, aptitudes, and skills within the allied health field. The clinical laboratory component emphasizes current instrumentation and practice. Lecture/discussion, 3 hours; lab, 4 hours. *Meets the General Education Requirement: Integrative and Applied Learning.*
Special Fee Applies
**Prerequisite:** C- or higher in the following: BIOL 280 or KIN 490; BIOL 250 or BIOL 336 or BIOL 230; BIOL 251 or BIOL 350 or BIOL 231 (may be taken concurrently). For allied health (B.A.) majors, the only prerequisite is a C- or higher in BIOL 251.

# BIOL 470, Science for the MCAT, 1 Unit

This course builds on lower-division courses in general and organic chemistry, biology, and physics to prepare students for the basic science content contained in the Medical College Admission Test (MCAT). Additional topics in genetics, biochemistry, physiology, and physics are presented, and integrated with practical mathematical skills in an interactive problem-solving setting. Fall semester includes practice items in biology and general and organic chemistry, and a practice test in biological sciences. May be repeated for 2 units of credit, and may not be taken to meet upper-division elective requirements in any major in the Department of Biology and Chemistry.
**Prerequisite:** Only for upper-division students admitted to the premedical track; department consent required.

# BIOL 490, Biology Seminar, 1 Unit

This course consists of review and discussion of current periodical literature. Written and verbal presentations are required.
**Prerequisite:** Junior or Senior Standing

# BIOL 494, Advanced Topics in Biology, 4 Units

This course presents advanced coverage of topics in physiology or other biological sciences. The course may be repeated for credit when different topics are offered. Lecture plus laboratory.
**Prerequisite:** C- or higher in BIOL 280; Jr or Sr Standing

## BIOL 495, Advanced Topics in Biology, 3 Units

This course presents advanced coverage of topics in physiology or other biological sciences. The course may be repeated for credit when different topics are offered. Lecture only.
**Prerequisite:** C- or higher in BIOL 280; Jr or Sr Standing

## BIOL 496, Writing 3: Ethics and the Sciences, 3 Units

This course covers the basics of worldviews, science, and ethics while delving deeper into the details of various ethical perspectives and their implications for science. Specific areas of science are explored from a Christian ethics viewpoint through lectures, writing instruction, a thesis, and oral presentations. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*
**Prerequisite:** Writing 2 and a C- or higher in one of the following: BIOL 280, CHEM 252, CHEM 240, or BIOL 465 (Allied Health B.A. only). Department consent required.

## BIOL 497, Readings, 1-3 Units

This is a program of study concentrating on assigned readings, discussions, and writing arranged between and designed by, a university student of upper-division standing and a full-time professor. An independent study fee is assessed for each enrollment in this class. May be repeated subject to department policies.

## BIOL 498, Directed Research, 1-3 Units

This course provides instruction in research design and technique, and gives students experience in the research process. The 1-unit expectation encompasses no fewer than 30 hours of work with accompanying reading, log writing, and seminar presentation within the department or in a university research symposium. No more than 1 unit may be used to fulfill preparatory readings requirement. May be repeated subject to department policies.
**Prerequisite:** Junior or senior standing and department permission.

## BIOT 500, Biotechnology Internship, 3 Units

The biotechnology internship is a mandatory component of the Masters of Science in Biotechnology program, and is reserved for students enrolled in that program. The internship requirement is 320 hours, and generally takes 10-12 weeks to complete. Internships may be paid or unpaid, and are carried out at the business sites of biomedical product companies. Internship projects are presented at a biotechnology internship symposium in the fall semester after completion of the internship.
**Prerequisite:** BIOT 511, BIOT 512, and BIOT 515;
**Corequisites:** BIOT 516 and BIOT 600A

## BIOT 510, Commercialization of Technology, 3 Units

This course serves as an introduction to issues related to new product development, formulating strategies, acquiring resources, setting up and managing operations, and creating technology-focused businesses, with an emphasis on ethics in the high-tech workforce environment. Assignments and project emphasize learning how to manage and commercialize technology.
**Prerequisite:** Must be admitted into the M.S. in Biotechnology program;
**Corequisites:** BIOT 513 and BIOT 514

## BIOT 511, Molecular Biology, Pharmacology, and Toxicology of Biopharmaceutics, 3 Units

This course is an overview of molecular biology, pharmacology, and toxicology concepts as applied to the development of biopharmaceutical products and biomedical devices. Students work collaboratively toward a final project to propose a new pharmaceutical product and/or biomedical device.
**Prerequisite:** BIOT 510, BIOT 513, and BIOT 514;
**Corequisites:** BIOT 512 and BIOT 515

## BIOT 512, Bioinformatics, 3 Units

This course introduces the strategies, approaches, and computer applications used in drug discovery, database design, and data mining. Case studies illustrate specific applications of the methods for measuring, visualizing, representing, inferring, clustering, classifying, and modeling biotechnological data. Class format involves didactic instruction and hands-on experience with various bioinformatics tools and databases.
**Prerequisite:** BIOT 510, BIOT 513, and BIOT 514;
**Corequisites:** BIOT 511 and BIOT 515

## BIOT 513, Regulatory Affairs for the Biotechnology Industry, 3 Units

This course is a detailed examination of the terminology, timelines, and practices followed by regulatory affairs professionals employed in the biotechnology industry. Case studies from the industry are examined to supplement certain topics and to illustrate interpretation of regulations.
**Prerequisite:** Must be admitted into the M.S. in Biotechnology program;
**Corequisites:** BIOT 510 and BIOT 514

## BIOT 514, Probability and Statistics for the Biotechnology Industry, 3 Units

Students in this course examine the statistical methods and computer applications used in drug manufacturing processes. Topics covered include data presentation, probability, hypothesis testing, univariate and multivariate analysis, linear regression, and confidence interval estimation.
**Prerequisite:** Must be admitted into the M.S. in Biotechnology program;
**Corequisites:** BIOT 510 and BIOT 513

## BIOT 515, Project Management for the Biotechnology Industry, 3 Units

This course is designed to prepare students in business, engineering, and technology for the task of managing projects, such as information technology projects, business process improvement projects, and product development projects.
**Prerequisite:** BIOT 510, BIOT 513, and BIOT 514;
**Corequisites:** BIOT 511 and BIOT 512

## BIOT 516, Ethics for Biomedical Products Industries, 3 Units

Biotechnology exists at a critical intersection of science and ethics, and the power and potential of biotechnology demands caution to ensure ethical progress. Students in this course examine the ethical roles and responsibilities of key participants in the biomedical development process, including industry, government, and healthcare authorities. Students examine ethical issues related to biomedical product advancement and use, and specific areas of science are also explored from a Christian ethics viewpoint through lectures, student oral presentations, team debate, and final written projects.
**Prerequisite:** BIOT 511, BIOT 512, and BIOT 515;
**Corequisites:** BIOT 500 and BIOT 600A

## BIOT 517, Clinical Trials, 3 Units

This course examines governmental laws, practices, and regulations associated with human clinical trials, and includes development and evaluation of a series of in-class assignments with class discussion and a capstone project for small student groups culminating with in-class presentations.
**Prerequisite:** BIOT 500, BIOT 516, and BIOT 600A;
**Corequisite:** BIOT 600B

## BIOT 530, Environmental Toxicology and Bioremediation, 3 Units

Students in this course survey pollutants released from various natural as well as anthropogenic sources and their toxicological effects on environments, humans, animals, and plants. Students also examine, evaluate, and present various bioremediation approaches for pollutant neutralization. Lecture and colloquium.
**Prerequisite:** Admission to the Master of Science in Biotechnology program, or instructor permission.

## BIOT 600A, Master's Degree Project I, 3 Units

This course comprises the first part of the capstone master's degree project (MDP) for the M.S. in Biotechnology program, and is to be taken in the fall semester of students' second year. In this course, students identify and begin work on their MDP, for which they must complete a minimum of 480 hours of in-person work at a project site approved by the program director-120 hours in BIOT 600A, and the balance of the hours in the 9-unit BIOT 600B in the spring semester of their second year.
**Prerequisite:** BIOT 511, BIOT 512, and BIOT 515, and good second-year standing in the M.S. in Biotechnology program;
**Corequisites:** BIOT 500 and BIOT 516

## BIOT 600B, Master's Degree Project II, 9 Units

This course comprises the second part of the capstone master's degree project (MDP) for the M.S. in Biotechnology program, and is to be taken in the spring semester of students' second year. In this course, students must complete the remaining 360 hours of in-person work at a project site approved by the program director, and must also give an oral presentation (defense) and a written report of the project to fulfill the degree requirement.
**Prerequisite:** BIOT 500, BIOT 516, and BIOT 600A, and good standing in the M.S. in Biotechnology program;
**Corequisite:** BIOT 517

## CHEM 90, Laboratory Safety, 0 Units

Students are introduced to federal, state, and local regulations, material safety data suggestions, chemical hygiene plans, labels, equipment, spill response, proper handling, and disposal of chemicals as related to an academic laboratory.

## CHEM 101, Chemistry and Society, 4 Units

This elementary course surveys contemporary and relevant topics in our society, and explores the basic laws and concepts of modern chemistry behind these topics. Lecture, 3 hours; Lab, 3 hours. *Meets the General Education Requirement: Natural Science. Not intended for health or natural science majors.*
Special Fee Applies

## CHEM 105, Citizen Chemistry, 4 Units

Lecture, 3 hours; Lab, 3 hours: This course is designed for nonscience majors and presents chemistry in its broad cultural, social, and economic context. The lectures and laboratories cover experiences that are of concern to students' everyday lives.

## CHEM 123, General, Organic, and Biological Chemistry for the Health Sciences, 4 Units

This course comprises an overview of general, organic, and biological chemistry topics, with an emphasis on health science applications. Topics include radioactivity, intermolecular forces, solution behavior, acids and bases, nomenclature, physical characteristics of organic compounds, and selected reactions, with focus on the simple organic functional groups and carbonyl chemistry. Biochemistry topics cover chemical reactions and physiological significance of cellular macromolecules including proteins, enzymes, and nucleic acids, as well as metabolism. Lecture, 3 hours; lab, 3 hours. *Meets the General Education Requirement: Natural Science.*
**Prerequisite:** Completion or waiver of MATH 95 (for example, by a 45 ALEKS score) and pre-admitted nursing status or department consent.

## CHEM 151, General Chemistry I, 4 Units

This foundational course for science majors is the first in a two-semester sequence covering the basic laws and concepts of modern chemistry. Topics include atomic structure, chemical bonding, thermochemistry, stoichiometry, chemical reactions, solution chemistry, nuclear chemistry, and the behavior of gases. Lecture, 3 hours; lab, 3 hours. *Meets the General Education Requirement: Natural Science.*
Special Fee Applies
**Prerequisite:** B- or higher in MATH 110 or equivalent (for example, an ALEKS score of 65). For allied health, biochemistry, biological sciences, chemistry, kinesiology, physics, engineering, and computer science majors only; all other majors by department consent.

## CHEM 152, General Chemistry II, 4 Units

This is a foundational course for science majors and the second part of a two-semester sequence covering the basic laws and concepts of modern chemistry. Topics covered include solution chemistry, chemical kinetics, equilibrium, acid-base theory, thermodynamics, and electrochemistry. Lecture, 3 hours; lab, 4 hours.
Special Fee Applies
**Prerequisite:** C- in CHEM 151

## CHEM 240, Introduction to Organic and Biochemistry, 4 Units

Lecture, 3 hours; Lab, 3 hours: Students are introduced to the names, properties, and reactions of organic functional groups with applications to biochemical monomers and macromolecules.
Special Fee Applies
**Prerequisite:** C- in CHEM 152

## CHEM 251, Organic Chemistry: Theory I, 3 Units

This general course covers bonding theory, structure analysis, isomers, nomenclature, physical properties, functional groups, fundamental reaction mechanisms, stereochemistry, spectroscopy, and synthesis of hydrocarbons.
**Prerequisite:** C or better in CHEM 152;
**Corequisite:** CHEM 261

## CHEM 252, Organic Chemistry: Theory II, 3 Units

This general course covers spectroscopy, physical properties, reaction mechanisms, thermodynamics, kinetics, aromaticity, and fundamental reaction mechanisms of hydrocarbons, carbonyl compounds, and biological macromolecules.
**Prerequisite:** C- in CHEM 251;
**Corequisite:** CHEM 262

## CHEM 261, Organic Chemistry - Lab, 1 Unit

Techniques of determining chemical and physical properties and synthesis of organic compounds are the focus of laboratory study. Must be taken concurrently with CHEM 251.
Special Fee Applies
**Corequisite:** CHEM 251

## CHEM 262, Organic Chemistry - Lab, 1 Unit

Students in this lab focus on techniques for determining chemical and physical properties and synthesis of organic compounds.
**Prerequisite:** C- in CHEM 261.
**Corequisite:** CHEM 252

## CHEM 300, Quantitative Chemical Analysis - Theory, 2 Units

The theoretical basis of gravimetric and volumetric analyses are covered in this course. Topics include multiequilibria, acid-base equilibria, and redox reactions as applied to quantitative analysis.
**Prerequisite:** C- in CHEM 152

## CHEM 310, Quantitative Chemical Analysis - Laboratory, 2 Units

This is a laboratory course in the analysis of materials by the methods studied in CHEM 300.
**Corequisite:** CHEM 300

## CHEM 311, Teaching and Learning in STEM, 2 Units

Students in this course learn about the fundamentals of effective STEM teaching, including common challenges for STEM learners, active engagement strategies, assessment techniques, supporting diverse learners, designing assignments, and planning courses and lessons.
**Prerequisite:** BIOL 151, CHEM 151, CS 120, MATH 165, PHYC 155, PHYC 165, or equivalent

## CHEM 312, STEM Education Research Seminar, 1 Unit

Students identify challenges for effective STEM education that they observe during their experiences as STEM students and in STEM teaching support roles. Using readings drawn from the STEM education research literature, students identify and evaluate solutions to these challenges.
**Prerequisite:** BIOL 151, CHEM 151, CS 120, MATH 165, PHYC 155, PHYC 165, or instructor permission

## CHEM 313, STEM Teaching Practicum, 1 Unit

This course is intended for students serving in teaching support roles for STEM courses, including Learning Assistants, Teaching Assistants, and tutors. Students observe and reflect on effective STEM teaching practices and assist learners in engaging with and understanding course content.
**Prerequisite:** BIOL 151, CHEM 151, CS 120, MATH 165, PHYC 155, PHYC 165, or instructor permission

## CHEM 320, Instrumental Analysis: Theory, 3 Units

This course covers the theory and operation of modern analytical equipment, including electrochemical methods; UV-visible, infrared, and flame emission spectrophotometry; chromatographic methods; and others. *Meets the General Education Requirement: Integ Applied Learning (CHEM 320 + CHEM 330).*
**Prerequisite:** C- or better in CHEM 300, C- or better in CHEM 310

## CHEM 330, Instrumental Analysis - Lab, 1 Unit

In this laboratory course, students analyze materials by the methods studied in CHEM 320. *Meets the General Education Requirement: Integ Applied Learning (CHEM 320 + CHEM 330).*
**Prerequisite:** CHEM 320

## CHEM 394, Directed Research Internship, 1-3 Units

This course provides instruction in research design and technique, and gives students experience in the research process. The 1-unit expectation encompasses no fewer than 30 hours of work with accompanying reading, log writing, and seminar presentation within the department or in a university research symposium. May be repeated, subject to department policies.
**Prerequisite:** Department permission

## CHEM 395, Chemical Science Internship, 1-3 Units

This course gives students an opportunity to apply classroom knowledge in real-world settings through paid or volunteer science-related internships with local businesses or organizations. Students gain a realistic view of their career goals, explore possible career choices, and gain valuable experience under the guidance of their job supervisor and academic supervisor. Internship Committee approval is required for this course; applications must be submitted a minimum of three weeks prior to the start of the semester. Internship site requirements may vary; email biologyandchemistry@apu.edu for details.
**Prerequisite:** 3.0 GPA, dept consent, and a C- or higher in the following: allied health (BA) majors: BIOL 251; allied health (BA business emphasis and BS) and biological sciences majors: BIOL 280; biochemistry majors: BIOC 270 and CHEM 252; chemistry majors: CHEM 300

## CHEM 401, Physical Chemistry I, 3 Units

This is an advanced course covering the theoretical basis of thermodynamics, including the laws of thermodynamics and their applications. Topics include energy, enthalpy, entropy, gas laws, kinetic model of gases, phases, chemical potential, and the kinetics of chemical reactions.
**Prerequisite:** C in CHEM 152 and C- in MATH 165

## CHEM 402, Physical Chemistry II, 3 Units

This is an advanced course covering the Schrodinger equation and its applications to the particle in a box, the rigid rotor, and the harmonic oscillator. Once a firm foundation has been established in the underlying theories of quantum mechanics, they are applied to atomic and molecular structure, vibrational and electronic spectroscopy, and computational chemistry.
**Prerequisite:** C- or higher in CHEM 401 and C- or higher in MATH 268; recommended: PHYC 156 or PHYC 166.

## CHEM 411, Physical Chemistry I Lab, 1 Unit

This is an upper-level laboratory over one semester on thermodynamics and kinetics and their applications. Laboratories include experiments, theoretical calculations, and mathematical methods recitations on the topics of partial molar volume, calorimetry, phase diagrams, electrochemistry, kinetics, colligative properties, molecular dynamics, and partial derivatives.
Special Fee Applies
**Corequisite:** CHEM 401

## CHEM 412, Physical Chemistry II Lab, 1 Unit

This is an upper-level laboratory over one semester on quantum mechanics and its applications. Laboratories include experiments, theoretical calculations, and mathematical methods recitations on the topics of linear algebra, multivariable calculus, symmetry, probability, Planck temperature distribution, photoelectric effect, quantum dots, spectroscopy, particle in a box, and molecular orbitals.
Special Fee Applies
**Corequisite:** CHEM 402

## CHEM 451, Advanced Organic Chemistry, 4 Units

This course covers advanced physical organic chemistry, modern organic synthesis strategies, reaction mechanisms, and bonding theories.
**Prerequisite:** CHEM 252

### CHEM 461, Inorganic Chemistry, 3 Units

This course lays a foundation in the subjects of atomic structure, bonding theory, symmetry theory, and acid-base chemistry, which is then used to explore advanced topics involving crystalline compounds, coordination compounds, and organometallic compounds. Topics include bonding, spectroscopy, and kinetics.
**Prerequisite:** C- in CHEM 252

### CHEM 490, Chemistry Seminar, 1 Unit

The seminar consists of reviews, reports, and discussions on current scientific literature.
**Prerequisite:** Senior Standing

### CHEM 495, Advanced Topics in Chemistry, 3-4 Units

This course presents advance coverage of topics in chemistry. Course credit is 4 units when a laboratory component is included. The course may be repeated for credit when different topics are offered.
**Prerequisite:** Junior Standing

### CHEM 497, Readings, 1-4 Units

This is a program of study concentrating on assigned readings, discussions, and writing arranged between and designed by a university student of upper-division standing and a full-time professor. An independent study fee is assessed for each enrollment in this class. May be repeated subject to department policies.

### CHEM 498, Directed Research, 1-3 Units

This course provides instruction in research design and technique, and gives students experience in the research process. The 1-unit expectation encompasses no fewer than 30 hours of work with accompanying reading, log writing, and seminar presentation within the department or in a university research symposium. No more than 1 unit may be used to fulfill preparatory readings requirement. May be repeated subject to department policies.
**Prerequisite:** Junior or senior standing and department permission.

### PRBI 101, Biology and Society, 4 Units

This introductory course covers principles of cell structure and function, genetics, development, reproduction, and animal systems biology. Lecture, 3 hours; lab, 3 hours. Not intended for health or natural sciences majors. *Meets the General Education Requirement: Natural Science.*
Special Fee Applies

### PRCH 101, Chemistry and Society, 4 Units

This elementary course surveys contemporary and relevant topics in our society, and explores the basic laws and concepts of modern chemistry behind these topics. Lecture, 3 hours; Lab, 3 hours. *Meets the General Education Requirement: Natural Science. Not intended for health or natural science majors.*
Special Fee Applies

### PRCH 123, General, Organic, and Biological Chemistry for the Health Sciences, 4 Units

This course comprises an overview of general, organic, and biological chemistry topics, with an emphasis on health science applications. Topics include radioactivity, intermolecular forces, solution behavior, acids and bases, nomenclature, physical characteristics of organic compounds, and selected reactions, with focus on the simple organic functional groups and carbonyl chemistry. Biochemistry topics cover chemical reactions and physiological significance of cellular macromolecules including proteins, enzymes, and nucleic acids, as well as metabolism. Lecture, 3 hours; lab, 3 hours. *Meets the General Education Requirement: Natural Science.*
**Prerequisite:** Completion or waiver of MATH 95 (for example, by a 45 ALEKS score) and pre-admitted nursing status or department consent.

# BA in Allied Health

Allied health encompasses professions that provide technical, therapeutic, and support services within the healthcare field. The Bachelor of Arts in Allied Health program (https://www.apu.edu/clas/programs/allied-health-major/) comprises a rigorous curriculum that combines foundational biological, chemical, and physical knowledge with a variety of applied topics including psychology, statistics, and electives tailored to the student's career goals. This program also provides an environment where undergraduate students can develop a Christian worldview and learn to integrate their faith into their future careers as allied health professionals.

The BA in Allied Health program is excellent preparation for a variety of allied health professions and meets most of the prerequisites for careers or graduate work in cytotechnology, entry-level master's in nursing, nutrition and dietetics, occupational therapy, orthotics and prosthetics, physical therapy, physical therapy assistance, and radiation technology. Students interested in these careers may also consider APU's Pre-Physical Therapy/Occupational Therapy Track (p. 175).

*Note: Entry requirements differ among graduate schools and jobs. Students are responsible for researching the requirements of graduate programs and professions in which they are interested.*

# Traditional Allied Health

## Traditional BA in Allied Health

66 units

All of the following requirements must be met to continue as an allied health, biological sciences, biochemistry, or chemistry major. A student's failure to maintain these requirements will result in him or her being dropped from the major. Reentry to the major is by petition only.

- Must maintain a minimum cumulative GPA of 2.0 in all biology, chemistry, biochemistry, math, and physics courses required for the major.
- Must complete each course required for the major with a *C-* or higher for the course to meet a degree requirement in the Department of Biology and Chemistry.
- Any single course within the major can be taken only two times at APU; students must change to a major outside the department after two unsuccessful (below *C-*) attempts in a single required course.
- Only two courses total within the major can be repeated; students must change to a major outside the department after unsuccessful (below *C-*) attempts in any three required courses.

| Code | Title | Units |
|---|---|---|
| **Biology** | | |
| BIOL 151 | General Biology I [1] | 4 |

[1]   Meets the General Education Natural Sciences requirement.
[2]   BIOL 220 is recommended for students interested in nursing careers. BIOL 226 is recommended for students interested in physical therapy careers.
[3]   BIOL 152 meets this requirement if taken at APU.
[4]   Meets the General Education Integrative and Applied Learning requirement.
[5]   Meets the General Education Writing 3 requirement.
[6]   This course may be waived with an appropriate Advanced Placement test score.
[7]   Meets the General Education Quantitative Literacy requirement.
[8]   MATH 130 does not meet the math prerequisite for BIOL 151 or CHEM 151. MATH 95, an ALEKS score of 45, or equivalent is the math prerequisite for BIOL 151; MATH 110 (with a *B-*), an ALEKS score of 65, or equivalent is the math prerequisite for CHEM 151.
[9]   Meets the General Education Social Sciences requirement.
[10]  Recommended for students interested in nursing careers.
[11]  CHEM 251, CHEM 261, CHEM 252, CHEM 262, and BIOC 360 taken together meet the requirements of BA elective CHEM 240 and an additional BA elective from either elective group.
[12]  Recommended for students interested in physical therapy careers.
[13]  Up to 3 units combined of BIOL 311, BIOL 312, BIOL 313, BIOL 390, BIOL 394, or BIOL 395 may count toward major elective units.
[14]  Meets the General Education Intercultural Competence requirement.

# Allied Health: Business Emphasis

## BA in Allied Health: Business Emphasis

Allied health encompasses professions that provide technical, therapeutic, and support services within the healthcare field. The Bachelor of Arts in Allied Health with Business Emphasis program (https://www.apu.edu/clas/programs/allied-health-major/#business-emphasis) comprises a rigorous curriculum that combines foundational biological, chemical, and physical knowledge with core business courses including accounting, marketing, and microeconomics. This program also provides an environment where undergraduate students can develop a Christian worldview and learn to integrate their faith into their future careers as allied health business professionals.

The BA in Allied Health with Business Emphasis program is excellent preparation for a variety of careers in industry, government, and health care that require a background in science and business, including but not limited to such fields as healthcare administration, pharmaceutical and biotechnology sales and service, and public health. Students in this major are required to collaborate with science and/or business faculty in a research project, or participate in an off-campus internship in a business setting.

*Note: Entry requirements differ among graduate schools and jobs. Students are responsible for researching the requirements of graduate programs and professions in which they are interested.*

All of the following requirements must be met to continue as an allied health, biological sciences, biochemistry, or chemistry major. A student's failure to maintain these requirements will result in him or her being dropped from the major. Reentry to the major is by petition only.

- Must maintain a minimum cumulative GPA of 2.0 in all biology, chemistry, biochemistry, math, and physics courses required for the major.
- Must complete each course required for the major with a *C-* or higher for the course to meet a degree requirement in the Department of Biology and Chemistry.
- Any single course within the major can be taken only two times at APU; students must change to a major outside the department after two unsuccessful (below *C-*) attempts in a single required course.
- Only two courses total within the major can be repeated; students must change to a major outside the department after unsuccessful (below *C-*) attempts in any three required courses.

| Code | Title | Units |
|---|---|---|
| **Required Core Courses** | | |
| **Biology** | | |

| BIOL 151 | General Biology I [1] | 4 |
|---|---|---|
| BIOL 152 | General Biology II | 4 |
| BIOL 240 | Biology of Microorganisms | 4 |
| BIOL 280 | Cell Biology | 4 |
| BIOL 496 | Writing 3: Ethics and the Sciences [2] | 3 |
| **Chemistry** | | |
| CHEM 151 | General Chemistry I [1, 3] | 4 |
| CHEM 152 | General Chemistry II [3] | 4 |
| CHEM 240 | Introduction to Organic and Biochemistry | 4 |
| **Math** | | |
| MATH 130 | Introduction to Statistics [4] | 3 |
| **Physics** | | |
| PHYC 155 | Physics for Life Sciences I | 3 |
| PHYC 145 | Physics Laboratory I | 1 |
| PHYC 156 | Physics for Life Sciences II | 3 |
| PHYC 146 | Physics Laboratory II | 1 |
| **Business** | | |
| ACCT 120 | Principles of Accounting I | 3 |
| ECON 200 | Survey of Economics [5] | 3 |
| MGMT 210 | Principles of Management [6] | 3 |
| MKTG 260 | Principles of Marketing [7] | 3 |
| FIN 300 | Business Finance for Managers | 3 |
| **Required Internship Course** | | **3** |
| BUSI 350 | Business Internship [7] | |
| or BIOL 395 | Biological Science Internship | |
| **Upper-Division Electives** | | **6** |
| BIOC 360 | Principles of Biochemistry [8] | |
| BIOC 270 | Biomolecular Chemistry [8] | |
| BIOC 370 | Biomolecular Metabolism [8] | |
| BIOL 300 | Genetics [6] | |
| BIOL 320 | Ecology [9] | |
| BIOL 326 | Neurobiology [6] | |
| BIOL 336 | Vertebrate Biology | |
| BIOL 342 | Medical Microbiology | |
| BIOL 346 | Regional Human Anatomy | |
| BIOL 350 | Mammalian Physiology | |
| BIOL 365 | Plant Biology | |
| BIOL 410 | Molecular Biology | |
| BIOL 435 | Stewardship Ecology | |
| BIOL 440 | Developmental Biology | |
| BIOL 465 | Practicum and Topics in Allied Health [6] | |
| BIOL 495 | Advanced Topics in Biology | |
| **Total Units** | | **66** |

[1]    Meets the General Education Natural Sciences requirement.
[2]    Meets the General Education Writing 3 requirement.
[3]    This course may be waived with an appropriate Advanced Placement test score.
[4]    Meets the General Education Quantitative Literacy requirement.
[5]    Meets the General Education Social Sciences requirement.
[6]    Meets the General Education Integrative and Applied Learning requirement.
[7]    Meets the General Education Intercultural Competence requirement. (This applies to BUSI 350, not BIOL 395.)
[8]    Students should take BIOC 360 if taking only one semester of biochemistry. For a two-semester sequence, BIOC 270 and BIOC 370 should be taken. Credit will not be given for both BIOC 360 and BIOC 270, nor for both BIOC 360 and BIOC 370.

[9]     Meets the General Education Civic Knowledge and Engagement requirement.

# Physical Therapy Accelerated Pathway

## BA in Allied Health/Doctor of Physical Therapy Accelerated Pathway

The Bachelor of Arts in Allied Health/Doctor of Physical Therapy (DPT) Accelerated Pathway provides an opportunity for students pursuing a career in physical therapy to meet the requirements for entry into APU's DPT program after 3.5 years of undergraduate coursework. Students accepted into the DPT program begin DPT coursework in the spring semester of their fourth year, taking up to 18 units of required DPT courses that also count toward the BA in Allied Health and APU undergraduate graduation requirements. Upon completion of the spring-semester DPT courses, students are awarded the BA in Allied Health degree and continue in the DPT program.

*Participating in this accelerated pathway does not guarantee admission to APU's DPT program. Students must meet the* APU DPT program's admission requirements *(p. 586) prior to beginning DPT coursework in the spring semester of the fourth year of the accelerated pathway.*

## Requirements

Students must meet all of the following requirements to continue as an undergraduate student in the BA in Allied Health program, continue in the BA in Allied Health/DPT Accelerated Pathway, and earn a BA in Allied Health degree. A student's failure to maintain any of these requirements will result in the student being removed from the accelerated pathway.

- The minimum unit requirement to earn an undergraduate degree at Azusa Pacific University and the BA in Allied Health degree is 120 units.

- While in the accelerated pathway, students must earn a minimum cumulative grade-point average (GPA) of 3.0 in all university coursework attempted, including all required BA in Allied Health courses. For more information about APU's undergraduate graduation requirements, visit the Graduation Requirements and Commencement page in the catalog (p. 1026).

- The accelerated pathway curriculum is designed with a specific course sequence. To progress through the curriculum, courses must be taken in the assigned sequence based on course prerequisites.

- For students to progress through the accelerated pathway, they must earn a grade of *B-* or higher in each required course in the pathway.

- Up to one course required for the accelerated pathway major may be repeated for a grade of *B-* or higher. Students who do not earn a *B-* or higher in the course after one repeated attempt will be removed from the accelerated pathway.

- Students removed from the accelerated pathway, including the DPT courses during spring semester, may continue in the BA in Allied Health major to finish out all APU and BA in Allied Health undergraduate degree requirements (or students can choose another major).

See the course requirements for the BA in Allied Health/DPT accelerated pathway below. For more information about the BA in Allied Health program, visit the program website (https://www.apu.edu/clas/programs/allied-health-major/).

In addition to meeting the coursework and graduation requirements of the BA in Allied Health program, all undergraduate students are required to meet Azusa Pacific University's General Education requirements. Students should visit the General Education section of this catalog (p. 911) to become familiar with those requirements.

[1]    Meets the General Education Natural Sciences requirement.
[2]    BIOL 152 meets this requirement if taken at APU.
[3]    Meets the General Education Integrative and Applied Learning requirement.
[4]    Meets the General Education Writing 3 requirement.
[5]    Meets the General Education Natural Sciences requirement and may be waived with an appropriate Advanced Placement test score.
[6]    This course may be waived with an appropriate Advanced Placement test score.
[7]    Meets the General Education Quantitative Literacy requirement.
[8]    MATH 130 does not meet the math prerequisite for BIOL 151 or CHEM 151. MATH 95, an ALEKS score of 45, or equivalent is the math prerequisite for BIOL 151; MATH 110 (with a *B-*), an ALEKS score of 65, or equivalent is the math prerequisite for CHEM 151.
[9]    Meets the General Education Social Sciences requirement.

## Program Learning Outcomes
## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate a broad knowledge base in their chosen field.
2. Effectively communicate scientific ideas and research orally.
3. Effectively communicate scientific ideas and research in writing.
4. Demonstrate proficiency in problem solving and applying the scientific method to scientific questions.
5. Demonstrate laboratory skills and techniques.
6. Express a Christian worldview that integrates faith with their vocation.

# BA in Chemistry

52-54 units

Chemistry is the study of the properties and reactivity of all matter. An understanding of chemistry is fundamental to a variety of fields including but not limited to biology, astronomy, earth science, physics, environmental science, medicine, and pharmacology.

The Bachelor of Arts in Chemistry program (https://www.apu.edu/clas/programs/chemistry-major/) provides a strong foundation in general chemistry, organic chemistry, analytical chemistry, and physical chemistry. Additional course requirements provide a foundation in related fields (biology, physics, and mathematics) and opportunity to study other areas within chemistry in greater depth. This major is intended to be paired with a minor such as business management, computer information systems, computer science, mathematics, physics, or political science.

The BA in Chemistry program provides excellent preparation for entry-level positions as a researcher or laboratory technician, in governmental or industrial technical support, in management, or in teaching at the secondary level. Students in this major are strongly encouraged to collaborate with science faculty in a research project or participate in an off-campus internship in industry.

*Note: Entry requirements differ among graduate schools and jobs. Students are responsible to research the requirements of graduate programs and professions in which they are interested.*

# Requirements

All of the following requirements must be met to continue as an allied health, biological sciences, biochemistry, or chemistry major. Failure to maintain these requirements will result in a student being dropped from the major. Reentry to the major is by petition only.

- Maintain a minimum cumulative GPA of 2.0 in all biochemistry, biology, chemistry, math, and physics courses required for the major.
- Must complete each course required for the major with a *C-* or higher for the course to meet a degree requirement in the Department of Biology and Chemistry.
- Any single course within the major can be taken only two times at APU; students must change to a major outside the department after two unsuccessful (below *C-*) attempts in a single required course.
- Only two courses total within the major can be repeated; students must change to a major outside the department after unsuccessful (below *C-*) attempts in any three required courses.

| Code | Title | Units |

| **Total Units** | | **52-54** |

1    Meets the General Education Natural Sciences requirement.
2    Meets the General Education Writing 3 requirement.
3    CHEM 151, PHYC 145, PHYC 155, and PHYC 165 meet the General Education Natural Sciences requirement and may be waived with an appropriate Advanced Placement test score.
4    This course may be waived with an appropriate Advanced Placement test score.
5    Up to 3 units combined of CHEM 311, CHEM 312, CHEM 313, CHEM 394, and CHEM 395 may count toward major elective units.
6    CHEM 320 and CHEM 330 meet the General Education Integrative and Applied Learning requirement.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate a broad knowledge base in the field of chemistry.
2. Effectively communicate scientific ideas and research orally.
3. Effectively communicate scientific ideas and research in writing.
4. Demonstrate proficiency in problem solving and applying the scientific method to scientific questions.
5. Demonstrate laboratory skills and techniques.
6. Demonstrate knowledge of relevant laboratory instrumentation.
7. Express a Christian worldview that integrates faith with their chemistry vocation.

# BS in Allied Health

64 units

Allied health encompasses professions that provide technical, therapeutic, and support services within the healthcare field. The Bachelor of Science in Allied Health program (https://www.apu.edu/clas/programs/allied-health-major/) comprises a rigorous curriculum that combines foundational biological, chemical, and physical knowledge with a variety of applied topics including psychology, statistics, and electives tailored to the student's postgraduate goals. This program also provides an environment where undergraduate students can develop a Christian worldview and learn to integrate their faith into their future careers as allied health professionals.

The BS in Allied Health program is excellent preparation for a variety of allied health professions and meets most of the prerequisites for careers or graduate work in chiropractic care, clinical laboratory science, and physician assistance.

*Note: Entry requirements differ among graduate schools and jobs. Students are responsible for researching the requirements of graduate programs and professions in which they are interested.*

## Requirements

All of the following requirements must be met to continue as an allied health, biological sciences, biochemistry, or chemistry major. A student's failure to maintain these requirements will result in him or her being dropped from the major. Reentry to the major is by petition only.

- Must maintain a minimum cumulative GPA of 2.0 in all biology, chemistry, biochemistry, math, and physics courses required for the major.
- Must complete each course required for the major with a *C-* or higher for the course to meet a degree requirement in the Department of Biology and Chemistry.
- Any single course within the major can be taken only two times at APU; students must change to a major outside the department after two unsuccessful (below *C-*) attempts in a single required course.
- Only two courses total within the major can be repeated; students must change to a major outside the department after unsuccessful (below *C-*) attempts in any three required courses.

| BIOL 490 | Biology Seminar [11] | |
| BIOL 495 | Advanced Topics in Biology | |
| BIOL 497 | Readings [11] | |
| or an additional 4-unit course from the previous electives list above | | |
| **Total Units** | | **64** |

[1]   Meets the General Education Natural Sciences requirement.
[2]   Meets the General Education Integrative and Applied Learning requirement.
[3]   BIOL 152 meets this requirement if taken at APU.
[4]   Meets the General Education Writing 3 requirement.
[5]   This course may be waived with an appropriate Advanced Placement test score.
[6]   CHEM 251, CHEM 261, CHEM 252, CHEM 262, and BIOC 360 taken together meet the requirements for CHEM 240 and a 4-unit BIOL upper-division lab course.
[7]   Meets the General Education Quantitative Literacy requirement.
[8]   Meets the General Education Social Sciences requirement.
[9]   Students should take BIOC 360 if taking only one semester of biochemistry. For a two-semester sequence, BIOC 270 and BIOC 370 should be taken. Credit will not be given for both BIOC 360 and BIOC 270, nor for both BIOC 360 and BIOC 370. BIOC 360 is an elective option only for students who have completed CHEM 252 and CHEM 262.
[10]  Meets the General Education Civic Knowledge and Engagement requirement.
[11]  Students may take a maximum of 3 units total from BIOL 311, BIOL 312, BIOL 313, BIOL 390, BIOL 391, BIOL 394, BIOL 395, BIOL 490, or BIOL 497 for elective credit.

## Program Learning Outcomes
## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate a broad knowledge base in their chosen field.
2. Effectively communicate scientific ideas and research orally.
3. Effectively communicate scientific ideas and research in writing.
4. Demonstrate proficiency in problem solving and applying the scientific method to scientific questions.
5. Demonstrate laboratory skills and techniques.
6. Express a Christian worldview that integrates faith with their vocation.

# BS in Allied Health with Integrated Single Subject (Science) Teaching Credential

96 units

This program is offered collaboratively by the Department of Biology and Chemistry in the College of Liberal Arts and Sciences and the Division of Teacher Education (p. 503) in the School of Education. Students earn a bachelor of science degree in allied health and a teaching credential in a total of four years. Full program details and requirements are available on the Integrated Bachelor's/Credential Program (p. 546) page of this catalog.

## BS in Allied Health Requirements

All of the following requirements must be met to continue as an allied health, biological sciences, biochemistry, or chemistry major. A student's failure to maintain these requirements will result in him or her being dropped from the major. Reentry to the major is by petition only.

- Must maintain a minimum cumulative GPA of 2.0 in all biology, chemistry, biochemistry, math, and physics courses required for the major.
- Must complete each course required for the major with a *C-* or higher for the course to meet a degree requirement in the Department of Biology and Chemistry.
- Any single course within the major can be taken only two times at APU; students must change to a major outside the department after two unsuccessful (below *C-*) attempts in a single required course.
- Only two courses total within the major can be repeated; students must change to a major outside the department after unsuccessful (below *C-*) attempts in any three required courses.

| **Total Units** | | **64** |

[1]    Meets the General Education Natural Sciences requirement.
[2]    Meets the General Education Integrative and Applied Learning requirement.
[3]    BIOL 152 meets this requirement if taken at APU.
[4]    Meets the General Education Writing 3 requirement.
[5]    This course may be waived with an appropriate Advanced Placement test score.
[6]    CHEM 251, CHEM 261, CHEM 252, CHEM 262, and BIOC 360 taken together meet the requirements for CHEM 240 and a 4-unit BIOL upper-division lab course.
[7]    Meets the General Education Quantitative Literacy requirement.
[8]    Meets the General Education Social Sciences requirement.
[9]    Students should take BIOC 360 if taking only one semester of biochemistry. For a two-semester sequence, BIOC 270 and BIOC 370 should be taken. Credit will not be given for both BIOC 360 and BIOC 270, nor for both BIOC 360 and BIOC 370. BIOC 360 is an elective option only for students who have completed CHEM 252 and CHEM 262.
[10]    Meets the General Education Civic Knowledge and Engagement requirement.
[11]    Students may take a maximum of 3 units total from BIOL 311, BIOL 312, BIOL 313, BIOL 390, BIOL 391, BIOL 394, BIOL 395, BIOL 490, or BIOL 497 for elective credit.

## Integrated Single Subject (Science) Teaching Credential Requirements

| Code | Title | Units |
| --- | --- | --- |
| **Foundation Courses** | | |
| TESP 501 | Art of Teaching I: Foundations of Teaching [1] | 3 |
| TESP 502 | Science of Teaching I: How Students Learn [1] | 3 |
| TESP 503 | The Soul of Teaching: Tapestry of American Education | 3 |
| TESP 504 | Schools and Educational Systems | 3 |
| **Specialization Courses** | | |
| TEP 511 | Art of Teaching II: Pedagogy and Instructional Design | 3 |
| TEP 512 | Science of Teaching II: Effective Assessment Strategies for All Learners | 3 |
| TEP 531 | Methods of Teaching Reading and Writing (7-12) | 3 |
| TEP 532 | Secondary Pedagogy I: Teaching in Secondary Schools (7-12) | 2 |
| TEP 533 | The Differentiated Classroom: Maximizing Capacity of Each Learner (7-12) | 3 |
| TEP 534 | Secondary Pedagogy II: Content-Specific Strategies, Teaching, and Assessment (7-12) | 2 |
| TEP 561 | Clinical Practice I: Single Subject Credential | 2 |
| TEP 562 | Clinical Practice II: Single Subject Credential | 2 |
| **Total Units** | | **32** |

[1]    Must be completed prior to beginning clinical practice.

The following courses meet the undergraduate General Education requirements within the Integrated Bachelor's/Credential Program:

- TESP 502 meets the General Education Social Sciences requirement.
- TESP 503 meets the General Education Intercultural Competence requirement.
- TESP 504 meets the General Education Civic Knowledge and Engagement requirement.
- TEP 551 and TEP 552 combined, and TEP 561 and TEP 562 combined, meet the General Education Integrative and Applied Learning requirement.

# Program Learning Outcomes

## BS in Allied Health

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate a broad knowledge base in their chosen field.
2. Effectively communicate scientific ideas and research orally.
3. Effectively communicate scientific ideas and research in writing.
4. Demonstrate proficiency in problem solving and applying the scientific method to scientific questions.

5. Demonstrate laboratory skills and techniques.
6. Express a Christian worldview that integrates faith with their vocation.

## Integrated Single Subject (Science) Teaching Credential

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Engage and support all students in learning.
2. Create and maintain effective environments for student learning.
3. Understand and organize subject matter for student learning.
4. Plan instruction and design learning experiences for all students.
5. Assess student learning.
6. Develop as a professional educator.

# BS in Biochemistry

70-75 units

Biochemistry is an interdisciplinary field of study that includes topics within chemistry and biology, with a focus on understanding chemical processes in living systems.

The Bachelor of Science in Biochemistry (https://www.apu.edu/clas/programs/biochemistry-major/) provides a rigorous curriculum and strong foundation in core chemistry and biology courses, with the option of the Pre-Health Professions Emphasis or the Research Emphasis. Additional course requirements provide a foundation in related fields (physics and mathematics), as well as breadth to the study of biochemistry.

The Pre-Health Professions Emphasis involves additional focus on genetics and physiology, with options to study anatomy, neurobiology, and advanced chemistry topics. This emphasis provides excellent preparation for graduate and professional studies in a variety of health fields, including but not limited to medicine, dentistry, optometry, chiropractic medicine, veterinary science, and pharmacy.

The Research Emphasis involves additional focus on physical chemistry and molecular biology, with options to study other advanced chemistry and biology topics. This emphasis provides excellent preparation for entry-level positions as a researcher or laboratory technician, and for graduate studies in fields such as, but not limited to, biochemistry, molecular biology, pharmacology, biotechnology, food science, forensic science, and environmental science. Students who attend graduate school and obtain a master's or doctoral degree may find employment at a university or in the private or government sectors.

Students in the BS in Biochemistry major are strongly encouraged to collaborate with science faculty in a research project or participate in an off-campus internship.

## BS in Biochemistry Requirements

All of the following requirements must be met to continue as an allied health, biological sciences, biochemistry, or chemistry major. A student's failure to maintain these requirements will result in him or her being dropped from the major. Reentry to the major is by petition only.

- Must maintain a minimum cumulative GPA of 2.0 in all biology, chemistry, biochemistry, math, and physics courses required for the major.
- Must complete each course required for the major with a *C-* or higher for the course to meet a degree requirement in the Department of Biology and Chemistry.
- Any single course within the major can be taken only two times at APU; students must change to a major outside the department after two unsuccessful (below *C-*) attempts in a single required course.
- Only two courses total within the major can be repeated; students must change to a major outside the department after unsuccessful (below *C-*) attempts in any three required courses.

| Code | Title | Units |

| **Total Units** | | **70-75** |

| Code | Title | Units |
|---|---|---|
| **Upper-Division Electives for the Biochemistry Major** | | |
| Research Emphasis: Select 10+ elective units from below (must include at least one 4-unit course and at least one CHEM course): | | |
| BIOL 300 | Genetics [5] | |
| CHEM 320 & CHEM 330 | Instrumental Analysis: Theory and Instrumental Analysis - Lab (Theory/Lab) [5] | |
| CHEM 402 & CHEM 412 | Physical Chemistry II and Physical Chemistry II Lab | |
| CHEM 411 | Physical Chemistry I Lab | |
| CHEM 451 | Advanced Organic Chemistry | |
| CHEM 461 | Inorganic Chemistry | |
| CHEM 495 | Advanced Topics in Chemistry | |
| Select no more than one of the following: | | |
| BIOL 326 | Neurobiology [5] | |
| BIOL 346 | Regional Human Anatomy | |
| BIOL 350 | Mammalian Physiology | |
| BIOL 420 | Cancer Biology | |
| BIOL 425 | Immunology | |
| Up to 3 units combined of BIOL 311, BIOL 312, BIOL 313, BIOL 394, BIOL 395, CHEM 311, CHEM 312, CHEM 313, CHEM 394, or CHEM 395 may count toward major elective units: | | |
| BIOL/CHEM 311 | Teaching and Learning in STEM | |

| BIOL/CHEM 312 | STEM Education Research Seminar |
| BIOL/CHEM 313 | STEM Teaching Practicum |
| BIOL 394 | Directed Research Internship |
| BIOL 395 | Biological Science Internship |
| CHEM 394 | Directed Research Internship |
| CHEM 395 | Chemical Science Internship |
| Pre-Health Professions Emphasis: Select 7+ elective units from below (must include at least one 4-unit course): | |
| BIOC 390 | Physical Biochemistry |
| or CHEM 401 | Physical Chemistry I |
| CHEM 320 & CHEM 330 | Instrumental Analysis: Theory and Instrumental Analysis - Lab [5] |
| CHEM 402 | Physical Chemistry II |
| CHEM 411 | Physical Chemistry I Lab |
| CHEM 451 | Advanced Organic Chemistry |
| CHEM 461 | Inorganic Chemistry |
| CHEM 495 | Advanced Topics in Chemistry |
| Only one of the following courses may count toward major elective units: | |
| BIOL 326 | Neurobiology [5] |
| BIOL 336 | Vertebrate Biology |
| BIOL 346 | Regional Human Anatomy |
| BIOL 410 | Molecular Biology |
| BIOL 420 | Cancer Biology |
| BIOL 425 | Immunology |
| Up to 3 units combined of either BIOL 311, BIOL 312, BIOL 313, BIOL 394, BIOL 395, CHEM 311, CHEM 312, CHEM 313, CHEM 394, or CHEM 395 may count toward major elective units: | |
| BIOL/CHEM 311 | Teaching and Learning in STEM |
| BIOL/CHEM 312 | STEM Education Research Seminar |
| BIOL/CHEM 313 | STEM Teaching Practicum |
| BIOL 394 | Directed Research Internship |
| BIOL 395 | Biological Science Internship |
| CHEM 394 | Directed Research Internship |
| CHEM 395 | Chemical Science Internship |

[1]    Meets the General Education Natural Sciences requirement.
[2]    Meets the General Education Writing 3 requirement.
[3]    CHEM 151, PHYC 145, PHYC 155, and PHYC 165 meet the General Education Natural Sciences requirement and may be waived with an appropriate Advanced Placement test score.
[4]    This course may be waived with an appropriate Advanced Placement test score.
[5]    Meets the General Education Integrative and Applied Learning requirement.
[6]    BIOL 152 meets this requirement if taken at APU.

# Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate a broad knowledge base in their chosen field.
2. Effectively communicate scientific ideas and research orally.
3. Effectively communicate scientific ideas and research in writing.
4. Demonstrate proficiency in problem solving and applying the scientific method to scientific questions.
5. Demonstrate laboratory skills and techniques.
6. Demonstrate knowledge of relevant laboratory instrumentation.
7. Express a Christian worldview that integrates faith with their vocation.

# BS in Biological Sciences

71-75 units

Biology is the study of life and living organisms, and is important to a variety of disciplines including medicine, pharmacology, ecology, botany, cytology, immunology, biochemistry, and biotechnology.

The Bachelor of Science in Biological Sciences (https://www.apu.edu/clas/programs/biological-sciences-major/) focuses on utilizing scientific knowledge to better understand living organisms and the wonders of God's world, providing a rigorous curriculum and strong foundation in core biology courses such as general biology, microbiology, and cell biology. Additional course requirements provide a foundation in related fields (chemistry, physics, and mathematics), and provide breadth to the study of biology. Students then use upper-division courses to specialize in ecological, biological systems, or cellular and molecular concentrations.

The BS in Biological Sciences degree provides excellent preparation for careers such as biomedical/pharmaceutical sales; elementary or secondary science teachers; technicians in conservation, agriculture, or food or health sciences; and university or hospital research. The program is also excellent preparation for graduate and professional degrees in medicine, dentistry, optometry, veterinary science, pharmacology, biotechnology, biomedical research, or university teaching positions. Students interested in a professional medical career may also consider APU's premedical/predental track (p. 175), and students desiring to matriculate into a physical therapy or physician assistant program should explore the BS in Allied Health (p. 53).

Students in the BS in Biological Sciences program are strongly encouraged to collaborate with science faculty in a research project or participate in an off-campus internship.

*Note: Entry requirements differ among graduate schools and jobs. Students are responsible for researching the requirements of graduate programs and professions in which they are interested.*

## Au Sable Institute of Environmental Studies

The Au Sable Institute (https://ausable.org/) serves evangelical Christian colleges by offering environmental studies in a natural environment at multiple sites in the United States and other countries. Azusa Pacific University students may attend the institute as part of APU's involvement with the Council for Christian Colleges & Universities (CCCU) (https://www.cccu.org) and receive credit for courses taken there with prior approval. Contact the Department of Biology and Chemistry for more information.

## Requirements

- Must maintain a minimum cumulative GPA of 2.0 in all biology, chemistry, biochemistry, math, and physics courses required for the major.
- Must complete each course required for the major with a *C-* or higher for the course to meet a degree requirement in the Department of Biology and Chemistry.
- Any single course within the major can be taken only two times at APU; students must change to a major outside the department after two unsuccessful (below *C-*) attempts in a single required course.
- Only two courses total within the major can be repeated; students must change to a major outside the department after unsuccessful (below *C-*) attempts in any three required courses.

| Code | Title | Units |
|---|---|---|
| **Biology** | | |
| BIOL 151 | General Biology I [1] | 4 |
| BIOL 152 | General Biology II | 4 |

| PHYC 155 & PHYC 156 | Physics for Life Sciences I and Physics for Life Sciences II [5] | |
| PHYC 165 & PHYC 166 | Physics for Science and Engineering: Mechanics and Physics for Science and Engineering: Electricity and Magnetism [5] | |
| **Additional Upper-Division Courses (See Below)** | | **17-19** |
| **Total Units** | | **71-75** |

[1]   Meets the General Education Natural Sciences requirement.
[2]   Meets the General Education Integrative and Applied Learning requirement.
[3]   BIOL 152 meets this requirement if taken at APU.
[4]   Meets the General Education Writing 3 requirement.
[5]   CHEM 151, PHYC 145, PHYC 155, and PHYC 165 meet the General Education Natural Sciences requirement and may be waived with an appropriate Advanced Placement test score.
[6]   May be waived with an appropriate Advanced Placement test score.

Select 17-18 additional units of upper-division courses (at least three 4-unit courses must be included) from the following course list OR select one of the following concentrations to complete upper-division course units.

| Code | Title | Units |
| --- | --- | --- |
| BIOC 360 | Principles of Biochemistry [1] | |
| or BIOC 270 | Biomolecular Chemistry | |
| BIOC 370 | Biomolecular Metabolism [1] | |
| BIOL 311 | Teaching and Learning in STEM [2] | |
| BIOL 312 | STEM Education Research Seminar [2] | |
| BIOL 313 | STEM Teaching Practicum [2] | |
| BIOL 320 | Ecology [3] | |
| BIOL 326 | Neurobiology [4] | |
| BIOL 342 | Medical Microbiology | |
| BIOL 346 | Regional Human Anatomy | |
| BIOL 350 | Mammalian Physiology | |
| BIOL 365 | Plant Biology | |
| BIOL 390 | Pre-health Seminar [2] | |
| BIOL 394 | Directed Research Internship [2] | |
| BIOL 395 | Biological Science Internship [2] | |
| BIOL 410 | Molecular Biology | |
| BIOL 420 | Cancer Biology | |
| BIOL 425 | Immunology | |
| BIOL 430 | Global Change Biology | |
| BIOL 435 | Stewardship Ecology | |
| BIOL 440 | Developmental Biology | |
| BIOL 490 | Biology Seminar [2] | |
| BIOL 494 | Advanced Topics in Biology | |
| BIOL 495 | Advanced Topics in Biology | |

[1]   Students should take BIOC 360 if taking only one semester of biochemistry. For a two-semester sequence, BIOC 270 and BIOC 370 should be taken. Credit will not be given for both BIOC 360 and BIOC 270, nor for both BIOC 360 and BIOC 370.
[2]   Students may take a maximum of 3 units total from these courses for elective credit.
[3]   Meets the General Education Civic Knowledge and Engagement requirement.
[4]   Meets the General Education Integrative and Applied Learning requirement.

## Ecological Concentration (Additional Upper-Division Courses)

Select 17-18 additional units of 300- or 400-level courses, as follows:

| Code | Title | Units |
|---|---|---|
| BIOL 320 | Ecology [1] | 4 |
| PHIL 366 | Environmental Ethics | 3 |
| BIOL 430 | Global Change Biology | 3 |
| Units from field-study program [2] | | 4 |
| **Select 3-4 additional units from the following:** | | **3-4** |
| Additional units from field-study program [3] | | |
| BIOL 311 | Teaching and Learning in STEM [4] | |
| BIOL 312 | STEM Education Research Seminar [4] | |
| BIOL 313 | STEM Teaching Practicum [4] | |
| BIOL 350 | Mammalian Physiology | |
| BIOL 365 | Plant Biology | |
| BIOL 394 | Directed Research Internship [4] | |
| BIOL 395 | Biological Science Internship [4] | |
| BIOL 435 | Stewardship Ecology | |
| **Total Units** | | **17-18** |

[1]   Meets the General Education Civic Knowledge and Engagement requirement.
[2]   Four units from an approved, off-campus field-study program such as the Au Sable Institute. An approved internship experience could be petitioned for these units as needed.
[3]   Up to 4 additional units from an approved, off-campus field-study program.
[4]   Students may take a maximum of 3 units total from these courses for elective credit.

## Biological Systems Concentration (Additional Upper-Division Courses)

Select 18-19 additional units of 300- or 400-level BIOC and BIOL courses, as follows:

| Code | Title | Units |
|---|---|---|
| BIOL 326 | Neurobiology [1] | 4 |
| BIOL 346 | Regional Human Anatomy | 4 |
| BIOL 350 | Mammalian Physiology | 4 |
| **Select 6-7 additional units from the following: [2]** | | **6-7** |
| BIOC 360 | Principles of Biochemistry [3] | |
| BIOL 311 | Teaching and Learning in STEM [4] | |
| BIOL 312 | STEM Education Research Seminar [4] | |
| BIOL 313 | STEM Teaching Practicum [4] | |
| BIOL 342 | Medical Microbiology | |
| BIOL 390 | Pre-health Seminar [4] | |
| BIOL 394 | Directed Research Internship [4] | |
| BIOL 395 | Biological Science Internship [4] | |
| BIOL 420 | Cancer Biology | |
| BIOL 425 | Immunology | |
| BIOL 440 | Developmental Biology | |
| BIOL 490 | Biology Seminar [4] | |
| BIOL 494 | Advanced Topics in Biology | |
| BIOL 495 | Advanced Topics in Biology | |
| **Total Units** | | **18-19** |

[1]   Meets the General Education Integrative and Applied Learning requirement.
[2]   If a student takes a 4-unit course, an additional 3 units of upper-division elective must be taken.
[3]   Students interested in premed should take this course as one of their elective courses.

[4]     Students may take a maximum of 3 units total from these courses for elective credit.

## Cellular and Molecular Concentration (Additional Upper-Division Courses)

Select 18 additional units of 300- or 400-level BIOC and BIOL courses, as follows:

| Code | Title | Units |
| --- | --- | --- |
| BIOL 410 | Molecular Biology | 4 |
| Select one of the following: | | 4 |
| BIOC 270 | Biomolecular Chemistry [1] | |
| BIOC 360 | Principles of Biochemistry [1] | |
| **Select 10 additional units from the following (must include at least one additional 4-unit course):** | | **10** |
| BIOC 370 | Biomolecular Metabolism [1] | |
| BIOL 311 | Teaching and Learning in STEM [2] | |
| BIOL 312 | STEM Education Research Seminar [2] | |
| BIOL 313 | STEM Teaching Practicum [2] | |
| BIOL 326 | Neurobiology [3] | |
| BIOL 350 | Mammalian Physiology | |
| BIOL 390 | Pre-health Seminar [2] | |
| BIOL 394 | Directed Research Internship [2] | |
| BIOL 395 | Biological Science Internship [2] | |
| BIOL 420 | Cancer Biology | |
| BIOL 425 | Immunology | |
| BIOL 440 | Developmental Biology | |
| BIOL 490 | Biology Seminar [2] | |
| BIOL 494 | Advanced Topics in Biology | |
| BIOL 495 | Advanced Topics in Biology | |
| **Total Units** | | **18** |

[1]     Students should take BIOC 360 if taking only one semester of biochemistry. For a two-semester sequence, BIOC 270 and BIOC 370 should be taken. Credit will not be given for both BIOC 360 and BIOC 270, nor for both BIOC 360 and BIOC 370.

[2]     Students may take a maximum of 3 units total from these courses for elective credit.

[3]     Meets the General Education Integrative and Applied Learning requirement.

# Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate a broad knowledge base in the field of biology.
2. Effectively communicate scientific ideas and research orally.
3. Effectively communicate scientific ideas and research in writing.
4. Demonstrate proficiency in problem solving and applying the scientific method to scientific questions.
5. Demonstrate laboratory skills and techniques.
6. Demonstrate knowledge of relevant laboratory instrumentation.
7. Express a Christian worldview that integrates faith with their biology vocation.

# BS in Chemistry

69-71 units

Chemistry is the study of the properties and reactivity of all matter. An understanding of chemistry is fundamental to a variety of fields including but not limited to biology, astronomy, earth science, physics, environmental science, medicine, and pharmacology.

The Bachelor of Science in Chemistry program (https://www.apu.edu/clas/programs/chemistry-major/) provides a rigorous curriculum and strong foundation in the five major subfields of chemistry—analytical, organic, inorganic, physical, and biochemistry—as well as in related fields such as biology, physics, and mathematics, providing breadth to their study of chemistry.

This program provides excellent preparation for entry-level positions as a researcher or laboratory technician, in governmental or industrial technical support, in management, or in teaching at the secondary level. It is also excellent preparation for graduate studies in fields such as but not limited to chemistry, biochemistry, environmental studies, forensic science, pharmacology, and biotechnology. Students who attend graduate school and obtain a master's or doctoral degree may find employment at a university or in the private or government sectors.

BS in Chemistry students are strongly encouraged to collaborate with science faculty in a research project or participate in an off-campus internship in industry.

Note: Entry requirements differ among graduate schools and jobs. Students are responsible for researching the requirements of graduate programs and professions in which they are interested.

## Requirements

All of the following requirements must be met to continue as an allied health, biological sciences, biochemistry, or chemistry major. A student's failure to maintain these requirements will result in him or her being dropped from the major. Reentry to the major is by petition only.

- Must maintain a minimum cumulative GPA of 2.0 in all biology, chemistry, biochemistry, math, and physics courses required for the major.
- Must complete each course required for the major with a *C-* or higher for the course to meet a degree requirement in the Department of Biology and Chemistry.
- Any single course within the major can be taken only two times at APU; students must change to a major outside the department after two unsuccessful (below *C-*) attempts in a single required course.
- Only two courses total within the major can be repeated; students must change to a major outside the department after unsuccessful (below *C-*) attempts in any three required courses.

| PHYC 146 | Physics Laboratory II | 1 |
| Select one of the following course pairs: | | 6-8 |
| PHYC 155<br>& PHYC 156 | Physics for Life Sciences I<br>and Physics for Life Sciences II [3] | |
| PHYC 165<br>& PHYC 166 | Physics for Science and Engineering: Mechanics<br>and Physics for Science and Engineering: Electricity and Magnetism [3] | |
| **Total Units** | | **69-71** |

[1]    Meets the General Education Natural Sciences requirement.

[2]    Meets the General Education Writing 3 requirement.

[3]    CHEM 151, PHYC 145, PHYC 155, and PHYC 165 meet the General Education Natural Sciences requirement and may be waived with an appropriate Advanced Placement test score.

[4]    This course may be waived with an appropriate Advanced Placement test score.

[5]    CHEM 320 and CHEM 330 meet the General Education Integrative and Applied Learning requirement.

[6]    Up to 3 units combined of CHEM 311, CHEM 312, CHEM 313, CHEM 394, and CHEM 395 can be counted toward major elective units.

## Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate a broad knowledge base in the field of chemistry.
2. Effectively communicate scientific ideas and research orally.
3. Effectively communicate scientific ideas and research in writing.
4. Demonstrate proficiency in problem solving and applying the scientific method to scientific questions.
5. Demonstrate laboratory skills and techniques.
6. Demonstrate knowledge of relevant laboratory instrumentation.
7. Express a Christian worldview that integrates faith with their chemistry vocation.

# Minor in Biology

26 units

## Requirements

- The minimum prerequisites for the biology minor are a *C*- in BIOL 151 and a *B*- in MATH 110 or equivalent (for example, an ALEKS score of 65). Students may not earn a biology minor if they are majoring in allied health or biochemistry.
- Students must complete all prerequisites for a BIOC, BIOL, or CHEM course with a *C*- or better before taking the course (except as noted in the course description).
- Students must maintain a minimum cumulative GPA of 2.0 in all biology, chemistry, biochemistry, math, and physics courses required for the minor.
- Students must complete each course required for the minor with a *C*- or higher for the course to meet a degree requirement in the Department of Biology and Chemistry.
- Any single course within the minor can be taken only two times at APU; students will be dismissed from the minor after two unsuccessful (below *C*-) attempts in a single required course.
- Only two courses total within the minor can be repeated; students will be dismissed from the minor after unsuccessful (below *C*-) attempts in any three required courses.

| Code | Title | Units |
|---|---|---|
| **Lower-Division Requirements** | | **20** |
| BIOL 151 | General Biology I [1] | |
| BIOL 152 | General Biology II | |
| CHEM 151 | General Chemistry I [1,2] | |
| BIOL 240 | Biology of Microorganisms | |
| BIOL 280 | Cell Biology | |
| BIOL 396 | Topics in Biology and Christian Thought [3] | |
| **Upper-Division Electives** | | **6** |
| Choose 6 units of electives from the following; these may not include units used to fulfill requirements of the student's major. | | |
| BIOL 300 | Genetics [4] | |
| BIOL 311 | Teaching and Learning in STEM [5] | |
| BIOL 312 | STEM Education Research Seminar [5] | |
| BIOL 313 | STEM Teaching Practicum [5] | |
| BIOL 320 | Ecology [6] | |
| BIOL 326 | Neurobiology [4] | |
| BIOL 336 | Vertebrate Biology | |
| BIOL 342 | Medical Microbiology | |
| BIOL 350 | Mammalian Physiology | |
| BIOL 365 | Plant Biology | |
| BIOL 394 | Directed Research Internship [5] | |
| BIOL 395 | Biological Science Internship [5] | |
| BIOL 410 | Molecular Biology | |
| BIOL 435 | Stewardship Ecology | |
| BIOL 440 | Developmental Biology | |
| BIOL 495 | Advanced Topics in Biology | |
| BIOL 497 | Readings | |
| **Total Units** | | **26** |

[1]     Meets the General Education Natural Sciences requirement.
[2]     This course may be waived with an appropriate Advanced Placement test score.
[3]     BIOL 152 (http://catalog.apu.edu/search/?P=BIOL%20152) meets this requirement if taken at APU.
[4]     Meets the General Education Integrative and Applied Learning requirement.
[5]     Up to 3 units combined of either BIOL 311, BIOL 312, BIOL 313, BIOL 394, or BIOL 395 may count toward minor elective units.
[6]     Meets the General Education Civic Knowledge and Engagement requirement.

## Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate a broad knowledge base in the field of biology.
2. Effectively communicate scientific ideas and research orally.
3. Effectively communicate scientific ideas and research in writing.
4. Demonstrate proficiency in problem solving and applying the scientific method to scientific questions.
5. Demonstrate laboratory skills and techniques.
6. Demonstrate knowledge of relevant laboratory instrumentation.
7. Express a Christian worldview that integrates faith with their biology vocation.

# Minor in Chemistry

23 units

# Requirements

- The minimum prerequisites for the chemistry minor are a *C*- in CHEM 151 and a *B*- in MATH 110 or equivalent (e.g., a score of 65 on ALEKS).
- Students must complete all prerequisites for a BIOC, BIOL, or CHEM course with a *C*- or better before taking the course (except as noted in the course description).
- Students must maintain a minimum cumulative GPA of 2.0 in all biology, chemistry, biochemistry, math, and physics courses required for the minor.
- Students must complete each course required for the minor with a *C*- or higher for the course to meet a degree requirement in the Department of Biology and Chemistry.
- Any single course within the minor can be taken only two times at APU; students will be dismissed from the minor after two unsuccessful (below *C*-) attempts in a single required course.
- Only two courses total within the minor can be repeated; students will be dismissed from the minor after unsuccessful (below *C*-) attempts in any three required courses.

| Code | Title | Units |
|---|---|---|
| **Lower-Division Chemistry Requirements** | | |
| CHEM 151 & CHEM 152 | General Chemistry I and General Chemistry II [1,2] | 8 |
| CHEM 251 & CHEM 252 | Organic Chemistry: Theory I and Organic Chemistry: Theory II | 6 |
| CHEM 261 & CHEM 262 | Organic Chemistry - Lab and Organic Chemistry - Lab | 2 |
| **Upper-Division Chemistry Electives** | | **7** |
| Choose 7 elective units from the following; these may not include units used to fulfill requirements of the student's major. | | |
| BIOC 360 | Principles of Biochemistry | |
| or BIOC 270 | Biomolecular Chemistry | |
| or BIOC 370 | Biomolecular Metabolism | |
| BIOC 390 | Physical Biochemistry | |
| CHEM 300 & CHEM 310 | Quantitative Chemical Analysis - Theory and Quantitative Chemical Analysis - Laboratory | |
| CHEM 320 & CHEM 330 | Instrumental Analysis: Theory and Instrumental Analysis - Lab [3] | |
| CHEM 311 | Teaching and Learning in STEM [4] | |
| CHEM 312 | STEM Education Research Seminar [4] | |
| CHEM 313 | STEM Teaching Practicum [4] | |
| CHEM 394 | Directed Research Internship [4,5] | |
| CHEM 395 | Chemical Science Internship [4,6] | |
| CHEM 401 | Physical Chemistry I | |
| CHEM 402 | Physical Chemistry II | |
| CHEM 411 | Physical Chemistry I Lab | |
| CHEM 412 | Physical Chemistry II Lab | |
| CHEM 451 | Advanced Organic Chemistry | |
| CHEM 461 | Inorganic Chemistry | |
| CHEM 495 | Advanced Topics in Chemistry | |
| **Total Units** | | **23** |

[1]    CHEM 151 meets the General Education Natural Sciences requirement.
[2]    May be waived with the appropriate Advanced Placement test scores.
[3]    CHEM 320 meets the General Education Integrative and Applied Learning requirement.
[4]    Up to 3 units combined of CHEM 311, CHEM 312, CHEM 313, CHEM 394, and CHEM 395 may count toward minor elective units.
[5]    All research done within CHEM 394 must be done primarily with a member of the chemistry faculty.
[6]    CHEM 395 must be approved by the course instructor for credit toward the chemistry minor.

# MS in Biotechnology

Azusa Pacific's Master of Science in Biotechnology (https://www.apu.edu/clas/programs/masters-in-biotechnology/) prepares graduates for success in this rapidly growing field, providing training in key areas, including molecular and cellular biology, mathematical modeling, mining of biological databases, regulatory affairs, clinical trials, project management, and biomedical products manufacturing.

This 39-unit program merges interdisciplinary studies with practical application, giving you the opportunity to collaborate with industry professionals (https://www.apu.edu/articles/the-benefit-of-hands-on-experience-in-biotechnology-graduate-programs/).

APU's biotech degree program, an applied science master's degree, is designed for individuals (preprofessionals and industry professionals) with bachelor's degrees in molecular or cellular biology, biochemistry, applied mathematics, statistics, engineering, or computer science and an interest in working for companies immersed in these fields.

## Requirements

| Code | Title | Units |
|---|---|---|
| **Course Requirements** | | |
| BIOT 500 | Biotechnology Internship | 3 |
| BIOT 510 | Commercialization of Technology | 3 |
| BIOT 511 | Molecular Biology, Pharmacology, and Toxicology of Biopharmaceutics | 3 |
| BIOT 512 | Bioinformatics | 3 |
| BIOT 513 | Regulatory Affairs for the Biotechnology Industry | 3 |
| BIOT 514 | Probability and Statistics for the Biotechnology Industry | 3 |
| BIOT 515 | Project Management for the Biotechnology Industry | 3 |
| BIOT 516 | Ethics for Biomedical Products Industries | 3 |
| BIOT 517 | Clinical Trials | 3 |
| **Project** | | |
| BIOT 600A | Master's Degree Project I [1] | 3 |
| BIOT 600B | Master's Degree Project II | 9 |
| **Total Units** | | **39** |

[1]   BIOT 600A is taken for 3 units in the fall semester of the student's second year, and BIOT 600B for 9 units in the spring semester of the second year.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

## Program Learning Outcomes
## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate a broad knowledge in the field of biopharmaceutics product development.
2. Appropriately discriminate and implement technical knowledge in professional settings.
3. Demonstrate the ability to coordinate and collaborate with multidisciplinary team professionals.
4. Effectively communicate key concepts in pharmaceutics development orally.
5. Effectively communicate key concepts in pharmaceutics development in writing.
6. Implement specialized skills in field based practice.
7. Evaluate normative biopharmaceutics business ethical challenges through a Christian worldview.

# Department of Computer Science, Engineering, Mathematics, Physics, and Statistics

## Mission Statement

The Department of Computer Science, Engineering, Mathematics, Physics, and Statistics (http://www.apu.edu/clas/mathphysics/) at Azusa Pacific University is a community of students and scholars dedicated to seeking truth. We foster academic and research excellence and equip undergraduate and graduate students with practical skills in data analysis, quantitative and computational thinking, and problem solving. We prepare students to use their technical skills to do good, serve others, and glorify God.

## Math, Physics, and Statistics Fellowships

Each year, the Department of Computer Science, Engineering, Mathematics, Physics, and Statistics awards fellowships (https://www.apu.edu/clas/mathphysics/opportunities/fellowships/) to a select number of incoming and returning students. For more information, contact the department at (626) 815-6470 or mathphysics@apu.edu.

## Department Resources

The department operates two computer science laboratories on the Azusa campus: the advanced technologies/multimedia laboratory and the computer science main laboratory. Lab technicians are available during lab hours for tutoring, free of charge to all students enrolled in computer science courses. There is also a new engineering lab.

Although the university provides extensive computer lab facilities for student use, each student in the computer science and engineering majors is required to purchase a personal computer, as students with their own computers have a definite advantage in using and applying engineering and computer science instruction.

## Programs

## Majors

- Applied Mathematics (BS) (p. 93)
- Computer Information Systems (BS) (p. 96)
- Computer Science (BS) (p. 98)
- Engineering (BS) (p. 100)
- Mathematics (BA) (p. 88)
- Mathematics (BA) with Integrated Single Subject (Math) Teaching Credential  (p. 90)
- Mathematics (BS) (p. 103)
- Physics (BS) (p. 105)

## Minors

- Computer Information Systems (p. 107)
- Computer Science (p. 108)
- Data Science (p. 109)
- Mathematics (p. 110)
- Physics (p. 111)
- Statistics (p. 112)

## Master's

- Master of Science in Applied Statistics and Data Science (p. 112)

## Math Placement

## Mathematics Placement

APU uses the ALEKS PPL (https://www.apu.edu/academic-success/services/testing/math/#about-aleks) system to determine the best initial math placement for most students who need to take a math course (whether to satisfy the General Education Quantitative Literacy requirement or a major or

minor requirement). Students who need to use ALEKS (https://www.apu.edu/academic-success/testing/math/#using-aleks) are encouraged to take an initial diagnostic assessment (https://www.apu.edu/academic-success/testing/math/#start-aleks) at home and then to work in their personalized Prep and Learning Module (https://www.apu.edu/academic-success/testing/math/prep-learning-module/) to review. They will then be able to take the assessment again (up to four times total) in order to achieve their best possible score.

## Math Course Prerequisites

Prerequisites for common math courses are as follows:

| Course(s) | Prerequisite(s) |
| --- | --- |
| MATH 90: Foundations of Mathematical Reasoning | ALEKS 15-29 |
| MATH 95: Intermediate Algebra | ALEKS 30-44 or MATH 90 |
| MATH 99: Self-Paced Mathematics Lab | ALEKS 0-29 |
| MATH 115: Mathematics in Society<br>MATH 130: Introduction to Statistics | ALEKS 30-100 or MATH 90 |
| MATH 110: College Algebra<br>UNRS 299: Statistics and Data Management for Nursing and Health Care | ALEKS 45-100 or MATH 95 |
| MATH 149: Fundamentals of Precalculus<br>MATH 150: Precalculus | ALEKS 60-100 or MATH 110 |
| MATH 151: Applied Calculus I | ALEKS 65-100 or B- or better in MATH 110 |
| MATH 165: Calculus I | ALEKS 75-100 or MATH 149 (which may be taken concurrently) or MATH 150 |

## Math Test Score Equivalents

The table below shows how various test scores translate into APU math placement and/or course credit:

| Scores | Results |
| --- | --- |
| • SAT Math (640 or higher on NEW version)<br>• SAT Math (620 or higher on OLD version)<br>• ACT Math (27 or higher)<br>• High School Calculus (at least one semester with a grade of B or higher)<br>• High School Precalculus (at least one semester with a grade of A- or higher) | Treated as if you have passed MATH 110 College Algebra at the level of B- or higher |
| • CLEP College Algebra, Precalculus, or Calculus (50)<br>• IB Mathematics (5, 6, or 7)<br>• AP Calculus AB or BC (3, 4, or 5) | Treated as if you have passed MATH 110 College Algebra at the level of B- or higher; credit granted |
| • AP Statistics (3, 4, or 5) | Credit granted for MATH 130 Introduction to Statistics |
| • ALEKS (65-100) | Treated as if you have passed MATH 110 College Algebra at the level of a B- or higher |
| • ALEKS (60-64) | Treated as if you have passed MATH 110 College Algebra at the level of C or higher (fails to meet the grade minimum of B- required as a prerequisite for CHEM 151 or to apply to any of the majors in the School of Business and Management other than the BA in Business Management) |

# Courses

## CS 100, Introduction to Programming, 3 Units

Students in this course are introduced to basic programming concepts using a suitable and modern programming language, with a strong emphasis on problem solving through programming fundamentals such as variables, expressions, data types, branching, loops, functions, lists, dictionaries, and file input/output. Although the course may use an object-oriented language, object-oriented principles are not covered, as the course is intended to provide non-computer-science majors the tools needed to be successful in carrying out common programming tasks in their fields, such as basic scripting, data analysis, and automation. In-class exercises and several programming projects are included.
**Corequisite:** MATH 110

## CS 110, STEM as Vocation, 3 Units

This course explores two topics. The first topic is methods to apply STEM skills to solve real world challenges that have positive social impact. During your college education you will learn technical skills that can be applied for positive impact on the lives of those around you (near and globally) and to further God's Kingdom here on Earth. The second topic in this course is the exploration of intercultural skills. This is important since you will be required to work with individuals of diverse ethnic backgrounds and you may have to work across cultures. In addition, we live in a multi-ethnic society so developing these types of capabilities is a valuable life skill. *Meets the General Education Requirement: Intercultural Competence.*

## CS 115, Impact of Social Media, 3 Units

Social Media has dramatically transformed human interaction in recent decades. The development of platforms such as TikTok, Instagram, Twitter, Facebook, LinkedIn, etc. has impacted humanity on a deeply personal level, facilitated social movement, and even fueled revolutions. Misinformation and counterintelligence have mushroomed. Mental health and self-esteem have degraded. Monitoring, control, and censorship of Social Media have become methods in which various entities have sought to gain information and influence. The platforms have continuously developed services designed to enlarge their user base, enhance engagement, and ultimately monetize information. This course provides a deep investigation of the impacts of Social Media on society. *Meets the General Education Requirement: Social Science.*

## CS 120, Introduction to Computer Science I, 4 Units

This course introduces students to object-oriented programming, with an emphasis on problem solving, design and analysis of algorithms, and programming principles. Course material also covers principles of object-oriented and structured programming, problem analysis, and documentation. Attendance at a weekly computer lab is required. Students complete a number of programming projects, and learn how to effectively communicate technical matters orally. *Meets the General Education Requirement: Oral Communication (CS 120+CS 290+CS 480), GE:Oral Communication (ENGR 120+ENGR 240+ENGR 480).*

## CS 125, Introduction to Computer Science II, 4 Units

This course is a continuation of object-oriented programming and other topics from ENGR 120/CS 120, and provides an introduction to arrays, inheritance, file I/O, and GUIs. Problem analysis, program design, development and implementation, and related topics are covered. Lab is required. Students complete a number of programming projects. Lecture, 3 hours; lab, 3 hours.
**Prerequisite:** CS 120/ENGR 120

## CS 150, Operating Systems, 3 Units

This course provides an introduction to the basic functions of modern operating systems, including multitasking, process synchronization, deadlocks, memory management, virtual memory, file systems, protection, and security. The course also includes a comparative analysis of several popular operating systems.
**Prerequisite:** CS 120/ENGR 120

## CS 160, Discrete Structures, 3 Units

Students in this course explore the mathematical elements of computer science, including propositional logic, predicate logic, sets, functions and relations, combinatorics, mathematical induction, recursion, algorithms, matrices, graphs, trees, and Boolean logic. Attention is given to the direct applications to computer science.
**Prerequisite:** MATH 110 or MATH 130

## CS 205, Microcomputer Software Tools, 3 Units

This PC-based course covers the basics of MS Windows and the use of applications software as problem-solving tools. In-depth coverage of popular word processing, database, and spreadsheet packages is included.

## CS 230, Systems Programming and Operating Systems, 3 Units

This course provides an in-depth study of systems programming using the C language and Linux operating system. Applications include programming projects in threads, signals, memory, and critical sections. It also provides an introduction to the basic functions of modern operating systems. These include multitasking, process synchronization, deadlocks, memory management, virtual memory, file systems, protection, and security.
**Prerequisite:** CS 125/ENGR 125

## CS 240, Assembly Language Programming, 3 Units

This programming class includes the architecture and organization of microcomputer systems, fundamentals of assemblers, assembly language programming, and advanced topics on the Intel 80X86 family of microprocessors. Students write several programs which are assembled and run on Intel 80X86-based microcomputers. Students become proficient at keyboard, screen, and disk I/O as well as character manipulation and screen graphics.
**Prerequisite:** CS 125/ENGR 125

## CS 242, Digital Logic Systems, 4 Units

This course covers Boolean algebra, Karnaugh maps, logic gates, combinational circuit design, sequential circuits analysis and design, Register, and counter and memory system analysis and design, as well as laboratory experiments with TTL logic gates, flip-flops, and counters. Students also learn how to effectively communicate technical matters orally. *Meets the General Education Requirement: GE:Oral Communication (ENGR 120+ENGR 240+ENGR 480).*
**Prerequisite:** CS 125/ENGR 125

## CS 260, Algorithms and Data Structures, 3 Units

This course provides a study of algorithms and their related data structures, including linear lists, linked lists, trees, graphs, sorting techniques, and dynamic storage allocation. Applications are implemented using an appropriate computer language.
**Prerequisite:** CS 125/ENGR 125

## CS 290, Database Management Systems, 3 Units

This course covers database concepts; relational and nonrelational database systems; database environment, theory, and applications; and design, development, and implementation of database systems. Students develop a practical database project utilizing a popular database development system, and generate user interfaces and reports. Students also learn how to make persuasive technical arguments concerning common database tradeoffs that must be considered when choosing a database in a real-world project, and are instructed on how to effectively communicate technical matters orally.
*Meets the General Education Requirement: Oral Communication (CS 120+CS 290+CS 480).*
**Prerequisite:** CS 125/ENGR 125

## CS 315, Fundamentals of Network Administration, 3 Units

This course provides an introduction to the three key network management issues: cost analysis, security, and administration. Case studies and laboratory exercises supplement the lecture material.
**Prerequisite:** CS 125/ENGR 125

## CS 325, Telecommunications and Interfacing, 3 Units

The principles, protocols, methods, and standards of telecommunications, voice and data communication concepts, networking fundamentals, system configuration, and state-of-the-art practical technology are covered in this course, which includes some hands-on training.
**Prerequisite:** CS 125/ENGR 125

## CS 360, Computer Architecture and Organization, 3 Units

This course covers the architecture and organization of computer systems, including hardware/software design considerations, implementation, interrelationships, and performance. Fundamentals of assemblers and assembly language programming using the MIPS instruction set are included, as is the use of combinational and sequential logic in the components of CPUs, buses, and interfaces. Details include input/output, memory hierarchies, pipelining, ALU operations, and CPU control. Processors include CISC and RISC, as well as multiprocessor systems. Students also take part in several programming and modeling projects that model key computer architecture components.
**Prerequisite:** CS 260/ENGR 260 or ENGR 240

## CS 363, Web Programming, 3 Units

This course is a study of website development, emphasizing web-based programming using open-source software including Apache Server, PHP, Linux, XHTML, CSS, JavaScript and DHTML, MySQL, and others. The concepts, principles, procedures, methods, tools, and techniques used in the development and management of internet websites are covered, including the design, construction, implementation, testing, and maintenance of complex websites using cutting-edge tools. Sites are developed on the Linux platform. Each student makes assigned presentations, develops small internet projects, serves on a development team, and implements part of one major term project.
**Prerequisite:** CS 125/ENGR 125

## CS 370, Compiler Construction, 3 Units

This course covers some fundamental knowledge of languages and automata as well as algorithms and implementation of compiler construction. Regular languages, context-free languages, and context-sensitive languages are covered. Finite-state automata, push-down automata, and multistack push-down automata are covered. Lexical analyzer and parser techniques are covered in depth, as well as symbol table generation and optimization.
**Prerequisite:** CS 260/ENGR 260

## CS 430, Artificial Intelligence, 3 Units

Principles of artificial intelligence, study, design, and application of computer systems that model human intelligence are the focus of this course. Some of the specific topics included in this course are search (informed, uninformed, adversarial, etc.), constraint satisfaction problems (CSPs), knowledge representation, probabilistic modeling, and machine learning. Significant programming projects are assigned to enhance student's abilities to apply course algorithms and knowledge.
**Prerequisite:** CS 260/ENGR 260

## CS 432, Machine Learning, 3 Units

This course covers introductory machine learning topics, including supervised and unsupervised learning, linear and logistic regression, neural networks, support vector machines, recommender systems, and more. Coursework includes instruction and programming assignments in algorithmic implementations and high-level library usage. Students also apply machine learning techniques to a unique research project.
**Prerequisite:** CS 260/ENGR 260

## CS 435, Advanced Database Application Programming, 3 Units

PL/SQL, Oracle's programming language for stored procedures, delivers a world of possibilities for your database programs. PL/SQL supplements the standard relational database language, SQL, with a wide range of procedural features, including loops, IF-THEN statements, procedures, functions, packages, and database triggers-all closely integrated with the Oracle database server. The Oracle PL/SQL language is a flexible procedural extension to SQL and increases productivity, performance, scalability, portability, and security. In this course, students gain the practical knowledge to write PL/SQL programs, and learn to build stored procedures, design and execute modular applications, and increase the efficiency of data movement.
**Prerequisite:** CS 290

## CS 440, Mobile App Development, 3 Units

This course serves as an introduction to mobile app development, with students building several cross-platform apps using cutting-edge technologies that target the Android and iOS operating systems. Topics include authentication, component creation and layout, state management, HTTP/API requests, push notifications, navigation, datastore (or database) connection, and server-side programming using cloud-based server/serverless infrastructure.
**Prerequisite:** CS 125

## CS 452, Internet of Things, 3 Units

This course covers the fundamental aspects of the Internet of Things (IoT), including devices, protocols, security, and product development. Through hands-on labs and projects, students develop the ability to build IoT devices and systems, and a final project showcases their ability to plan, design, and execute their own IoT devices and systems. Students become proficient in embedded programming, cross-compilation, web servers and clients, basic digital electronics, communications protocols, and special programming techniques.
**Prerequisite:** ENGR 125/CS 125, and CS 230 or ENGR 240.

## CS 455, Numerical Analysis, 3 Units

This course covers numerical and approximation methods, including solutions of functions in single and multi-variables, interpolation, numerical differentiation and integration, and numerical methods for differential equations. Applications are programmed using an appropriate language.
**Prerequisite:** MATH 295 and CS 120

## CS 460, Software Project, 3 Units

Each student in this course completes an independent project in the development of a nontrivial software system for an application of the student's choice.
**Prerequisite:** CS 260/ENGR 260 and CS 290; or instructor permission

## CS 465, Team Software Project, 1-3 Units

The team of students in this course completes the development of a nontrivial software system for an application of their choosing.
**Prerequisite:** CS 125/ENGR 125 or instructor consent.

## CS 470, Software Engineering, 3 Units

This course includes a study of the concepts, principles, techniques, methods, procedures, and documents of software engineering. Emphasis is on systematic approaches to software engineering and the software life cycle. Each student participates in a major team project. *Meets the General Education Requirement: Integrative and Applied Learning.*
**Prerequisite:** CS 260/ENGR 260, CS 290, and at least 32 computer science units.

## CS 480, Senior Capstone Project, 3 Units

The primary goal for students in this course is to implement a major team-based software product based on their own software documentation and planning from the previous semester. As a secondary goal, students study and practice software engineering concepts, principles, and methodologies relevant to the implementation phase of software engineering. Students also learn how to prepare and present a technical demo aimed at "selling" their product. *Meets the General Education Requirement: Oral Communication (CS 120+CS 290+CS 480).*
**Prerequisite:** CS 470

## CS 484, Cyber Security, 3 Units

In this course, students systematically study the fundamental principles of computer system security, including authentication, access control, capability, security policies, sandbox, software vulnerabilities, and web security, with most of these principles studied within the scope of concrete systems such as Linux and Windows. The course emphasizes "learning by doing," requiring students to conduct a series of lab exercises through which students enhance their understanding of the principles and learn to apply them to solve real-world problems.
**Prerequisite:** CS 230, CS 260/ENGR 260

## CS 491, Computer Science Internship, 1-3 Units

This course gives students practical experience in computer science and computer information systems as they complete a computer science internship in a nonacademic facility, preferably off campus but under the joint supervision of a computer science faculty member and an outside mentor. A total of 3 units is required to satisfy the General Education Integrative and Applied Learning requirement. *Meets the General Education Requirement: Integrative and Applied Learning.*
**Prerequisite:** Sophomore standing in computer science major and department approval.

## CS 495, Topics in Computer Science, 3 Units

This course presents timely and new topics in computer science, with different material covered each time the course is offered. Most topics require prerequisites, which vary according to the topic. The course may be repeated for credit.
**Prerequisite:** Department consent (note course description).

## CS 496, Writing 3: Ethics in Computing and Engineering, 3 Units

This course equips students with the skills to write in several genres that are relevant to Computing and Engineering, such as resumes, cover letters, professional memos, and research proposals. Students complete reading assignments on the topics of writing and ethics as applied to Computing and Engineering, then weekly writing assignments based upon the reading. The course culminates in a portfolio of the writing completed throughout the semester. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*
**Prerequisite:** Writing 2 (or equivalent)

## CS 497, Readings, 1-4 Units

This course consists of assigned readings, discussions, and writing arranged between and designed by student and professor. An independent study fee is assessed for each enrollment in this course.
**Prerequisite:** Junior or senior standing and department permission.

## CS 498, Directed Research, 1-4 Units

Students in this course learn about research design and technique and gain experience in the research process. The 1-unit expectation encompasses no fewer than 30 hours of work with accompanying reading, log, writing, and seminar presentation within the department or in a university research symposium. No more than 1 unit may be used to fulfill preparatory readings requirement. An independent study fee is assessed for each enrollment in this course.
**Prerequisite:** Junior or senior standing and department permission.

## CS 499, Thesis/Project, 1-4 Units

In this senior-level "capstone" type of independent study/research experience, students participate in a unique project with a sophisticated level of research, synthesis, analysis, and communication. The 1-unit expectation encompasses no fewer than 30 hours of work with accompanying readings, log, instructor discussions, and writing of summary analysis and conclusions. The project may result in a formal thesis, published article, electronic media, annotated recital, or artistic creation of a material form. No more than 1 unit may be used to fulfill preparatory readings requirement. An independent study fee is assessed for each enrollment in this course.
**Prerequisite:** Junior or senior standing and department permission.

## CS 532, Machine Learning, 3 Units

This course covers machine learning topics including supervised and unsupervised learning, linear and logistic regression, neural networks, support vector machines, recommender systems, and more. Coursework includes instruction and programming assignments in algorithmic implementations and high-level library usage. Students also apply machine learning techniques to a unique research project.
**Prerequisite:** Instructor permission required

## ENGR 101, Introduction to Engineering and Computing, 3 Units

Students in this course get an overview of engineering and computing as creative and responsive professions, and learn about the qualifications of engineers and computer scientists and the ways in which they study, think, work, create, design, and communicate. Course material also covers the impact of engineering and computing solutions in global, economic, and societal contexts; case studies of effective civic, governmental, and social engagement; and engineering and computing ethics. *Meets the General Education Requirement: Civic Knowledge and Engagement.*

## ENGR 110, STEM as Vocation, 3 Units

This course explores two topics. The first topic is methods to apply STEM skills to solve real world challenges that have positive social impact. During your college education you will learn technical skills that can be applied for positive impact on the lives of those around you (near and globally) and to further God's Kingdom here on Earth. The second topic in this course is the exploration of intercultural skills. This is important since you will be required to work with individuals of diverse ethnic backgrounds and you may have to work across cultures. In addition, we live in a multi-ethnic society so developing these types of capabilities is a valuable life skill. *Meets the General Education Requirement: Intercultural Competence.*

## ENGR 120, Introduction to Computer Science I, 4 Units

This course introduces students to object-oriented programming, with an emphasis on problem solving, design and analysis of algorithms, and programming principles. Course material also covers principles of object-oriented and structured programming, problem analysis, and documentation. Attendance at a weekly computer lab is required. Students complete a number of programming projects, and learn how to effectively communicate technical matters orally. *Meets the General Education Requirement: Oral Communication (CS 120+CS 290+CS 480), GE:Oral Communication (ENGR 120+ENGR 240+ENGR 480).*
**Prerequisite:** MATH 110 (may be taken concurrently) or proven competence in college algebra.

## ENGR 125, Introduction to Computer Science II, 4 Units

This course is a continuation of object-oriented programming and other topics from ENGR 120/CS 120, and provides an introduction to arrays, inheritance, file I/O, and GUIs. Problem analysis, program design, development and implementation, and related topics are covered. Lab is required. Students complete a number of programming projects. Lecture, 3 hours; lab, 3 hours.
**Prerequisite:** ENGR 120/CS 120

## ENGR 150, Introduction to Mechanics, 3 Units

This course gives students an understanding of forces, moments, and the states and conditions of equilibrium of rigid bodies. It also provides useful and practical insights into internal forces and friction. Further, this course deals with the motion of bodies under the action of forces with two parts: 1) kinematics, the study of motion without reference to the forces that cause motion; and 2) kinetics, which relates the action of forces on bodies to their resulting motions.
**Prerequisite:** MATH 165, PHYC 165

## ENGR 160, Discrete Structures, 3 Units

Students in this course explore the mathematical elements of computer science, including propositional logic, predicate logic, sets, functions and relations, combinatorics, mathematical induction, recursion, algorithms, matrices, graphs, trees, and Boolean logic. Attention is given to the direct applications to computer science.
**Prerequisite:** MATH 150

## ENGR 210, Engineering Thermodynamics, 3 Units

Students in this course learn classical thermodynamics and its engineering applications. Topics include energy and its transfer, properties of pure substances, the first and second laws of thermodynamics, control volume, irreversibility and availability, gas power cycles, vapor and combined power cycles, and refrigeration.
**Prerequisite:** PHYC 165, MATH 165

## ENGR 215, Electrical Circuits and Systems, 4 Units

This course covers resistive circuits with dependent and independent sources, node and loop analyses, reactive elements and circuits, steady state solution for RLC circuits with sinusoidal inputs, resistive and reactive power, three-phase systems, motors and generators, time domain analysis of circuits, transient responses, Laplace transforms, and Fourier series. Laboratory exercises include steady state and transient circuits design and measurements.
**Prerequisite:** MATH 166

## ENGR 240, Digital Logic Systems, 4 Units

This course covers Boolean algebra, Karnaugh maps, logic gates, combinational circuit design, sequential circuits analysis and design, Register, and counter and memory system analysis and design, as well as laboratory experiments with TTL logic gates, flip-flops, and counters. Students also learn how to effectively communicate technical matters orally. *Meets the General Education Requirement: GE:Oral Communication (ENGR 120+ENGR 240+ENGR 480).*
**Prerequisite:** CS 125/ENGR 125

## ENGR 245, Electronics, 4 Units

This course covers amplifier basics; multistage, feedback, and operational amplifiers; wave-shaping and waveform generation; digital electronics; bipolar and CMOS logic; and switching circuits. Laboratory exercises include significant design experience.
**Prerequisite:** ENGR 215

## ENGR 260, Algorithms and Data Structures, 3 Units

This course provides a study of algorithms and their related data structures, including linear lists, linked lists, trees, graphs, sorting techniques, and dynamic storage allocation. Applications are implemented using an appropriate computer language.
**Prerequisite:** ENGR 125/CS 125

## ENGR 271, Advanced Math for Engineers, 4 Units

This course is an introduction to topics in advanced mathematics necessary in most engineering fields. Beginning with key concepts in vector calculus and matrix algebra, the course also covers orthogonal functions, Fourier series, boundary-value problems in several coordinate systems, and the integral transform method. Additional topics may include partial differential equations and complex analysis.
**Prerequisite:** MATH 270

## ENGR 281, Statics, 3 Units

Statics is the branch of physical science that deals with the rest state of bodies under the action of forces. It also includes resultants of force systems and equilibrium on rigid bodies using vector algebra, friction, centroids and centers of gravity, and moments of inertia of areas and masses.
**Prerequisite:** PHYC 165

## ENGR 282, Dynamics, 3 Units

Dynamics is the branch of mechanics that deals with the motion of bodies under the action of forces. Dynamics has two distinct parts: kinematics, the study of motion without reference to the forces that cause motion; and kinetics, which relates the action of forces on bodies to the resulting motions of bodies.

**Prerequisite:** PHYC 165; ENGR 281 or ENGR 150; or instructor consent

## ENGR 310, Discrete Systems Modeling and Simulation, 3 Units

Discrete systems consist of processes in which discrete events occur at asynchronous times. In discrete systems, events in any component of the system may affect future events in other system components. Models of discrete systems account for the occurrences of events and the conditions necessary for events to occur. This course deals with construction of models for discrete systems, theory for the behavior of the discrete system and its components, and use of simulation software to examine the behavior of discrete systems. Topics include modeling techniques, introduction to queueing theory, random number generation, discrete event simulation, Monte Carlo simulation, simulated data analysis, and simulation variance reduction techniques.

**Prerequisite:** MATH 361 and CS 120/ENGR 120

## ENGR 325, Control Systems, 3 Units

This course introduces systems and their modeling and control, exploring open- and closed-loop control, feedback, transfer functions, signal flow graphs, stability, and root locus methods. Frequency response methods and Nyquist and Bode diagrams are used for system representation. PID compensators, state-space representation, and digital implementation of control systems are also studied.

**Prerequisite:** ENGR 215 and MATH 270.

## ENGR 335, Embedded Systems, 4 Units

Embedded systems are found in most computing systems outside of traditional desktop/laptop/server computers, such as in cars, household appliances, handheld electronics, video game consoles, and wearable technologies. This course provides an introduction to programming embedded systems, covering fundamental topics such as timing diagrams, basic coding operations and datatypes (e.g., binary, hexadecimal, bitwise/shift operators, etc.), state machines (synchronous and concurrent), I/O, and peripheral connections. Laboratory experience includes microprocessor-based design projects with real hardware and electronic components.

**Prerequisite:** ENGR 240 and CS 125/ENGR 125

## ENGR 340, Digital Signal Processing, 3 Units

Students in this course learn about discrete-time and sampled-data signals and systems, and their representations using z-transforms, as well as digital filters, FIR and IIR filters, stability, and round-off errors. They design different types of digital filters such as Butterworth, Chebychev, and others. The basics of discrete Fourier transforms and the fast Fourier transform (FFT) algorithm are introduced.

**Prerequisite:** CS 120 and MATH 165

## ENGR 345, Systems Engineering Principles, 3 Units

This course explores the foundations of systems engineering processes and practices, including basic systems engineering processes and the roles of systems engineering professionals in a global business environment, as well as a discussion of current systems issues. It also covers the principles of mechanical drawing and computer-aided design (CAD) for systems engineering applications.

**Prerequisite:** ENGR 215 or ENGR 240

## ENGR 350, Computer Networks, 3 Units

This course introduces the basics of computer networks, including the seven-layer ISO model for networks, with layers 2, 3, and 4 studied in detail. Medium access control protocols and TCP/IP are presented, as well as wireless LAN standards. An introduction to emerging wireless networks is also included.

**Prerequisite:** ENGR 215, MATH 361

## ENGR 355, Communications Systems, 3 Units

This course provides an introduction to the principles of communication systems, including signal representation in time and frequency domains, Fourier series and transforms, analog amplitude, frequency and phase modulation systems, noise effects, applications to radio transmission, digital modulation (ASK, FSK, and PSK [binary and M-ary variants]), noise effects and error probabilities, error detection and correction, block and convolutional codes, and elements of information theory, modulation, and coding applications in wireless, satellite, and optical transmission systems.

**Prerequisite:** CS 120 and MATH 165

## ENGR 360, Computer Architecture and Organization, 3 Units

This course covers the architecture and organization of computer systems, including hardware/software design considerations, implementation, interrelationships, and performance. Fundamentals of assemblers and assembly language programming using the MIPS instruction set are included, as is the use of combinational and sequential logic in the components of CPUs, buses, and interfaces. Details include input/output, memory hierarchies, pipelining, ALU operations, and CPU control. Processors include CISC and RISC, as well as multiprocessor systems. Students also take part in several programming and modeling projects that model key computer architecture components.

**Prerequisite:** CS 260/ENGR 260 or ENGR 240

## ENGR 370, Cyber Physical Systems Security [Proposed], 3 Units

In this course, students systematically study the fundamental principles of computer system security, including authentication, access control, capability, security policies, sandbox, software vulnerabilities, and web security, with most of these principles studied within the scope of concrete systems such as Linux and Windows. The course emphasizes "learning by doing," requiring students to conduct a series of lab exercises through which students enhance their understanding of the principles and learn to apply them to solve real-world problems.
**Prerequisite:** CS 260/ENGR 260

## ENGR 380, Systems Design, 3 Units

Students in this course examine the techniques for developing, analyzing, and portraying design and life cycle systems requirements. They also apply the principles of system design to real-world systems, and learn the use of tools and techniques including quality function deployment and enhanced block flow diagrams.
**Prerequisite:** ENGR 345

## ENGR 384, Mechanics of Materials, 3 Units

This course covers plane stress and strain, principal stresses and strains, Mohr's Circle, properties of materials, stress-strain diagrams, generalized Hooke's Law for isotopic materials, design loads, working stresses, factors of safety, statically indeterminate axially loaded members, torsional shearing stresses and displacements, combined axial and torsional loads, flexural and transverse shear stresses, shear and moment diagrams, and beams of two materials.
**Prerequisite:** PHYC 165; ENGR 281 or ENGR 150

## ENGR 390, Green Power Systems, 3 Units

It is being widely widely recognized that the generation of electric power must be performed in a way that is ecologically responsible. This course provides students with the knowledge to design electric power systems that use energy from natural sources such as sunlight, wind, rain, tides, plants, algae, and geothermal heat. The design approach is from the system level down to the components.
**Prerequisite:** ENGR 345

## ENGR 410, Engineering Management and Economics, 3 Units

Students in this course examine strategies for management during all phases of the lifecycle of an engineering project, including initial planning, implementation, assessment, and termination. Management strategies include resource allocation, budgeting, performance monitoring, and optimizing cost and time. Economic principles including time value of money and cash flows are applied to management topics. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*
**Prerequisite:** ENGR 380

## ENGR 420, Decision and Risk Analysis, 3 Units

This course addresses the various types of real-life assessment that must be conducted in order for a large-scale engineering project to be successful, including reliability, probability of risk, decision analysis, and cost-benefit analysis. The decision-making process that accompanies these assessments must be conducted in the presence of significant uncertainty, so course material reviews basic principles of probability theory and statistics. Finally, because large-scale engineering projects involve significant budgets, engineers must be conversant in the language of money, public policy, and economics, so the course concludes with a vital section on cost-benefit analysis.
**Prerequisite:** ENGR 345

## ENGR 452, Internet of Things, 3 Units

This course covers the fundamental aspects of the Internet of Things (IoT), including devices, protocols, security, and product development. Through hands-on labs and projects, students develop the ability to build IoT devices and systems, and a final project showcases their ability to plan, design, and execute their own IoT devices and systems. Students become proficient in embedded programming, cross-compilation, web servers and clients, basic digital electronics, communications protocols, and special programming techniques.
**Prerequisite:** ENGR 125/CS 125, and CS 230 or ENGR 240.

## ENGR 470, Senior Design Project I, 2 Units

In this first part of a two-semester engineering design project experience, students are encouraged to engage in group-based projects and industrial sponsorship, and must complete a fully documented design solution by the end of the course. Use of oral and written professional communication skills is emphasized.
**Prerequisite:** CS 125/ENGR 125, ENGR 150, ENGR 240, ENGR 245, and PHYC 166.

## ENGR 480, Senior Design Project II, 2 Units

This course involves the implementation of the design developed in ENGR 470, including prototyping and testing. Students are also instructed on how to prepare and present a technical demo aimed at "selling" their product. *Meets the General Education Requirement: GE:Oral Communication (ENGR 120+ENGR 240+ENGR 480).*
**Prerequisite:** ENGR 470

# ENGR 491, Engineering Internship, 1-3 Units

Students in this course gain practical experience in engineering as they complete a semester-long engineering project under the joint supervision of an engineering faculty member and an outside mentor. Through actual and practical working experience in an internship, students synthesize the statement of the problem and the solutions they face in the working environment, based on the application of learning from multiple courses from various fields. These include, but are not limited to, courses in engineering (mechanics, electronics, digital logic), computing (programming, database), writing (writing 1 and 2), oral communications, ethics, etc. A total of 3 units is required to satisfy the General Education: Integrative and Applied Learning requirement. *Meets the General Education Requirement: Integrative and Applied Learning.*
**Prerequisite:** Sophomore standing in the engineering major, and department consent.

# ENGR 495, Topics in Engineering, 1-3 Units

This course presents timely and new topics in engineering. Different material is covered each time the course is offered. The course may be repeated for credit. Most topics require prerequisites, which vary according to the topic.
**Prerequisite:** Department consent

# ENGR 496, Writing 3: Engineering Management, Economics, and Ethics, 3 Units

This course covers engineering program management, economics, and ethics fundamentals; topics include program planning, control strategies, risk assessment, work breakdown structures, and costing options, including their economic and ethical implications. Assignments include instruction in professional writing for the field of engineering as students read about technical writing and complete multiple writing exercises on the topics of engineering management, economics, and ethics. Interaction with other students in the process of writing, revising, editing, and proofreading is an integral part of the course. Over the course of the semester, each student builds a portfolio through the various writing assignments. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*
**Prerequisite:** Senior standing in the engineering major and a C- or better in Writing 2.

# MATH 90, Foundations of Mathematical Reasoning, 3 Units

This course prepares students for MATH 95 Intermediate Algebra, MATH 115 Mathematics in Society, or MATH 130 Introduction to Statistics. Topics include proportional reasoning; financial decision making; chance, risk, and probability; and algebraic modeling. Students practice reading, analyzing, and writing about quantitative texts; using spreadsheets to make efficient calculations; and solving algebraic equations to make predictions and decisions. This course does not meet the General Education Quantitative Literacy requirement and does not count toward total units needed for graduation.
**Prerequisite:** An appropriate score on the APU mathematics placement assessment.

# MATH 95, Intermediate Algebra, 3 Units

This course prepares students for the General Education Quantitative Literacy courses. Topics include linear graphs, mathematical models, systems of equations in two and three variables, multiplying and factoring polynomial functions, rational and radical expressions and functions, complex numbers, quadratic equations, and mathematical modeling with quadratic functions. This course does not meet the General Education Quantitative Literacy requirement and does not count toward total units needed for graduation.
**Prerequisite:** MATH 90 or an appropriate score on the APU mathematics placement assessment

# MATH 99, Self-paced Mathematics Lab, 1 Unit

This course is an alternative to MATH 90 for students who prefer an individualized developmental math experience. An adaptive online learning system enables students to skip topics they have already mastered and work at their own pace on the topics they need to learn, with support from a faculty member. The goal is to help students test out of MATH 90 in order to accelerate their path toward a General Education Quantitative Literacy course. This course does not meet the General Education Quantitative Literacy requirement and does not count toward total units needed for graduation.
**Prerequisite:** ALEKS math placement score of 0-29 (or no ALEKS score).

# MATH 110, College Algebra, 3 Units

This course offers a study of basic college algebra, including various elementary functions (linear, polynomial, rational, radical, exponential, and logarithmic), their properties and graphs, and equations and systems of equations. Emphasis is on using algebraic concepts to model and analyze real-world phenomena. *Meets the General Education Requirement: Quantitative Literacy (Math).*
**Prerequisite:** MATH 95 or an appropriate score on the APU mathematics placement assessment.

# MATH 115, Mathematics in Society, 3 Units

This course helps students make sense of quantitative information commonly encountered in everyday life in society. Students use mathematical methods and spreadsheets to analyze data from real newspaper articles in order to deepen their understanding of societal issues and personal financial management. Mathematical topics include estimation, unit conversions, percentages, indices, weighted averages, statistical summaries, linear and exponential models, and probabilities. These tools are used to analyze issues such as carbon footprints, crime rates, currency conversions, taxes, minimum wages, inflation, grade-point averages, salary distributions, electricity bills, climate change predictions, interest and depreciation, gambling, insurance, screening for diseases, and DNA evidence. *Meets the General Education Requirement: Quantitative Literacy (Math).*
**Prerequisite:** MATH 90 or an appropriate score on the APU mathematics placement assessment.

## MATH 130, Introduction to Statistics, 3 Units

This course is an introduction to the basic concepts and practices of statistics, including frequency distributions; graphs; central tendency; variation; probability; binomial, normal, t, and chi-square distributions; confidence intervals; hypothesis testing; correlation; regression; and ANOVA. *Meets the General Education Requirement: Quantitative Literacy (Math).*
**Prerequisite:** MATH 90 or an appropriate score on the APU mathematics placement assessment.

## MATH 149, Fundamentals of Precalculus, 1 Unit

This course is a condensed alternative to MATH 150 designed for biology, biochemistry, and chemistry majors. Topics include circle trigonometry and sinusoidal functions, right-triangle trigonometry, and trigonometric equations and identities, as well as a brief review of exponential and logarithmic equations.
**Prerequisite:** MATH 110 or an appropriate score on the APU mathematics placement assessment. Only students with a declared major or interest in biology, biochemistry, or chemistry are permitted to register for this class.

## MATH 150, Precalculus, 3 Units

This course prepares students for the calculus sequence. Topics include number systems, analytic geometry, elementary function theory (including logarithmic and trigonometric functions), and basic proof techniques.
**Prerequisite:** MATH 110 or an appropriate score on the APU mathematics placement assessment

## MATH 151, Applied Calculus I, 3 Units

This course is an introduction to the calculus of a single variable, with a focus on applications. Topics include elementary functions (linear, exponential, logarithmic, power, and periodic), differentiation, and optimization.
**Prerequisite:** B- or better in MATH 110, or an appropriate score on the APU mathematics placement assessment.

## MATH 165, Calculus I, 3 Units

Students in this course learn the theory and applications of the derivative, a mathematical tool used to calculate instantaneous rates of change. Topics include limits, continuity, interpretation and computation of derivatives, shapes of graphs, optimization, related rates, and parametric equations.
**Prerequisite:** MATH 150 or an appropriate score on the APU mathematics placement assessment or MATH 149 (May be taken concurrently)

## MATH 166, Calculus II, 3 Units

Students in this course learn the theory and applications of the integral, a mathematical tool used to calculate the net change in a quantity over time. Topics include the definite integral, antiderivatives, the Fundamental Theorem of Calculus, integration techniques and applications, area and volume, arc length and surface area, and polar coordinates. The course concludes with a brief introduction to differential equations.
**Prerequisite:** C- or better in MATH 165

## MATH 167, Sequences and Series, 1 Unit

This course introduces the powerful method of representing a function as a "polynomial of infinite degree." Topics include sequences and series, tests for convergence, power series, intervals of convergence, Taylor series, and applications.
**Prerequisite:** MATH 166 (May be taken concurrently)

## MATH 199, Calculus Fundamentals for Statistics, 1 Unit

This course introduces fundamental topics in calculus required for understanding statistical theory and methods, including the interpretation of derivatives and integrals, rules for single-variable differentiation and integration, applications to optimization, moments and areas, and basic multivariable differentiation and integration.
**Prerequisite:** Acceptance into M.S. in Applied Statistics and Analytics program.

## MATH 201, Mathematics Concepts for Elementary Teachers, 3 Units

The course provides the foundations of modern mathematics needed by the elementary school teacher. It is not a methods course, but a prerequisite to the Multiple-Subject Teaching Credential Program. This course does not count toward a mathematics major or minor.
**Prerequisite:** MATH 110 or equivalent

## MATH 250, Data Analysis, 3 Units

This course features hands-on experience using statistical tools to answer real-world questions. Emphasis is on analysis of actual data using statistical software. Statistical topics include numerical/graphical summaries, measures of association, and statistical techniques including chi-square tests, t-tests, ANOVA, and regression. Focus is on interpretation, not calculation.
**Prerequisite:** MATH 130 or MATH 361

## MATH 268, Multivariable Calculus, 3 Units

Students in this course learn about the calculus of functions of several variables. Topics include surfaces and contour diagrams, vectors, partial and directional derivatives, optimization and Lagrange multipliers, and multiple integration in rectangular, polar, cylindrical, and spherical coordinate systems.
**Prerequisite:** C- or better in MATH 166

## MATH 269, Vector Calculus, 2 Units

Students in this course learn about the calculus of vector fields, leading to several higher-dimensional versions of the Fundamental Theorem of Calculus. Topics include parametrized curves; vector fields and flow; line integrals, gradients, and path-independence; Green's Theorem; divergence, flux integrals, and the Divergence Theorem; curl and Stokes' Theorem; and parametrized surfaces and change of coordinates.
**Prerequisite:** C- or better in MATH 268

## MATH 270, Ordinary Differential Equations, 4 Units

This course is an introduction to ordinary differential equations and their applications. Topics include first- and second-order equations, Laplace transform, systems of differential equations, phase plane analysis, and introduction to numerical methods.
**Prerequisite:** MATH 268, or B- or better in MATH 166.

## MATH 280, Discrete Mathematics and Proof, 3 Units

This course is a rigorous introduction to discrete mathematics with an emphasis on problem solving and proof writing, preparing students to construct valid mathematical arguments in upper-division courses. Topics include mathematical logic and set theory; direct and indirect proof; proofs with conjunctions, disjunctions, and quantifiers; relations; equivalence relations and partitions; functions and invertibility; and mathematical induction. Lecture, 3 hours; Discussion, 1 hour.
**Prerequisite:** MATH 165

## MATH 290, Linear Algebra, 3 Units

An introduction to matrix algebra, vector spaces, and linear transformations. Topics include systems of linear equations, subspaces, linear independence, bases and dimension, abstract vector spaces, orthogonality, least-squares methods, inner product spaces, determinants, eigenvalues, and diagonalization.
**Prerequisite:** MATH 268 or MATH 280

## MATH 295, Applied Linear Algebra, 3 Units

This course is an introduction to the analysis of numerical computations in linear algebra, including solutions of linear systems, QR decomposition, computation of eigenvalues and eigenvectors, and singular value decomposition.
**Prerequisite:** MATH 166

## MATH 299, Linear Algebra Fundamentals for Statistics, 1 Unit

This course introduces fundamental topics in linear algebra required for statistical courses, including linear and generalized linear models, vectors and matrices, basic matrix operations, methods to solve linear systems, LU/QR decomposition, singular value decomposition, and computation of eigenvalues and eigenvectors.
**Prerequisite:** Acceptance into M.S. in Applied Statistics and Analytics program.

## MATH 301, Mathematics for Secondary Teachers, 3 Units

A survey of the foundations of mathematics essential to the secondary school teacher. This course integrates secondary mathematics concepts with problem-solving strategies and technology. Students expand on their understanding of core math concepts, evaluate lesson plans used in secondary school mathematics, discuss and reflect on effective mathematics pedagogy, analyze readings in the field, engage in collegial interactions with the instructor and fellow students, and develop a repertoire of classroom-tested lessons that can be used in a high school classroom.

## MATH 311, Teaching and Learning in STEM, 2 Units

Students in this course learn about the fundamentals of effective STEM teaching, including common challenges for STEM learners, active engagement strategies, assessment techniques, supporting diverse learners, designing assignments, and planning courses and lessons.
**Prerequisite:** BIOL 151, CHEM 151, CS 120, MATH 165, PHYC 155, PHYC 165, or equivalent

## MATH 312, STEM Education Research Seminar, 1 Unit

Students identify challenges for effective STEM education that they observe during their experiences as STEM students and in STEM teaching support roles. Using readings drawn from the STEM education research literature, students identify and evaluate solutions to these challenges.
**Prerequisite:** BIOL 151, CHEM 151, CS 120, MATH 165, PHYC 155, PHYC 165, or instructor permission

## MATH 313, STEM Teaching Practicum, 1 Unit

This course is intended for students serving in teaching support roles for STEM courses, including Learning Assistants, Teaching Assistants, and tutors. Students observe and reflect on effective STEM teaching practices and assist learners in engaging with and understanding course content.
**Prerequisite:** BIOL 151, CHEM 151, CS 120, MATH 165, PHYC 155, PHYC 165, or instructor permission

## MATH 340, Geometry, 3 Units

This course is a study of Euclidean and hyperbolic geometries and their transformations and models. Students learn to write proofs within an axiomatic system and to form conjectures using interactive geometry software.
**Prerequisite:** MATH 166

## MATH 350, Statistical Models, 3 Units

A study of investigative statistics emphasizing the process of data collection and data analysis relevant for science, social science, and mathematics students. The course incorporates case studies from current events and interdisciplinary research, taking a problem-based approach to learn how to determine which statistical techniques are appropriate. Topics include nonparametric tests, designing an experiment, multiple regression models, and Bayesian data analysis. Ethics in data analysis and reporting will be considered from a Christian perspective. Additionally, the course includes learning to program using a statistical software package.
**Prerequisite:** MATH 250

## MATH 361, Introduction to Modeling with Probability, 3 Units

This course is an introduction to probability models used in statistics and data analysis. Topics include basic axioms of probability, random variables, probability distributions, expected values, and probability distribution theory.
**Prerequisite:** MATH 166

## MATH 362, Mathematical Statistics, 3 Units

This course is an introduction to descriptive and inferential statistics used in data analysis. Topics include random sampling, parameter estimation, hypothesis testing and goodness of fit, summarizing data, and comparing samples.
**Prerequisite:** MATH 361 or STAT 501

## MATH 370, Partial Differential Equations, 3 Units

This course is an introduction to Fourier analysis and analytical techniques for solving partial differential equations, with application to physical phenomena.
**Prerequisite:** MATH 270

## MATH 375, Dynamical Systems, 3 Units

An introduction to phase plane analysis of first order differential equations and to bifurcations in continuous and discrete systems, with application to various branches of science.
**Prerequisite:** MATH 270

## MATH 390, Number Theory, 3 Units

A study of elementary number theory, with an overview of the history of mathematics. Number theory topics include primes, divisibility, factorization, Diophantine problems, residue systems, theorems of Fermat and Euler, and continued fractions.
**Prerequisite:** MATH 280

## MATH 400, Abstract Algebra, 3 Units

An introduction to groups and rings. Group theory topics include subgroups, cyclic groups, permutation groups, cosets and normal subgroups, factor groups, and homomorphisms. Ring theory topics include subrings and ideals, integral domains and fields, factor rings, and homomorphisms.
**Prerequisite:** MATH 280 with a C- or better

## MATH 450, Real Analysis, 3 Units

This course is an advanced study of the real number system. Topics include completeness, convergence of sequences and series, topology of the real line, continuity, the Intermediate Value Theorem, differentiation, and the Mean Value Theorem.
**Prerequisite:** MATH 167 and a C- or better in MATH 280

## MATH 451, Data Visualization, 3 Units

This course introduces students to the field of data visualization. Students learn basic visualization design and evaluation principles, and how to acquire, parse, and analyze data sets using various data visualization software tools. Data types covered include multivariate, temporal, text-based, geospatial, and network/graph-based.
**Prerequisite:** MATH 130 or MATH 361

## MATH 455, Numerical Analysis, 3 Units

This course covers numerical and approximation methods, including solutions of functions in single and multi-variables, interpolation, numerical differentiation and integration, and numerical methods for differential equations. Applications are programmed using an appropriate language.
**Prerequisite:** MATH 295 and CS 120

## MATH 460, Topology, 3 Units

An introduction to topological spaces and their applications. Topics include bases, interior closure, subspace, product, and quotient topologies, continuity and homeomorphisms, metric spaces, connectedness, and compactness, with application to genetics, geography, robotics, and error-correcting codes. Additional topics chosen from homotopy theory, knot theory, and compact surfaces.
**Prerequisite:** MATH 450

## MATH 470, Complex Analysis, 3 Units

This course is an introduction to the calculus of functions of one complex variable. Topics include elementary functions, limits, differentiability, series, contour integrals, Cauchy's theorem, conformal mapping, and selected applications.
**Prerequisite:** MATH 167 and MATH 268

## MATH 480, Writing 3: Mathematical Reading, Writing, and Presentation, 3 Units

In this seminar course, students critically analyze journal articles in the field, receive writing instruction, write research and argumentative papers, and prepare effective mathematical presentations. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*
**Prerequisite:** Junior or senior standing, Writing 2.

## MATH 492, Ethics in Data Analytics, 2 Units

The availability and use of data has led to tremendous opportunities. Businesses mine data to gain a competitive advantage, and healthcare organizations use it to help improve medical decision making. The use of data, however, has led to potential abuses. This course explores ethical issues in big data analytics, including issues surrounding collection, use, and reporting of data, and considers them from a Christian worldview.

## MATH 495, Advanced Topics in Mathematics, 1-3 Units

This course engages students in focused study of an advanced topic which is not covered in the regular curriculum. The topic varies from semester to semester based on student interest. Possible topics include differential geometry, combinatorics, mathematical modeling, advanced linear algebra, game theory, cryptology, etc. This course may be taken more than once as the topic changes.
**Prerequisite:** Prerequisite(s) will vary depending upon the topic.

## MATH 496, Mathematics Senior Seminar, 3 Units

In this culminating mathematics seminar, students wrestle with an outward-focused question - "How can I apply what I have learned in order to make a difference in the world?" - as well as an inward-focused question - "How can I develop the strength of character that will sustain me in living a life of mission?" Through research and reflection, students develop personal vision for how they will deploy their mathematical skills to do God's work in the world. At the same time, students engage with readings, seminar discussions, and spiritual practices that support the long-term growth of character and virtue. *Meets the General Education Requirement: Integrative and Applied Learning.*
**Prerequisite:** MATH 250, MATH 480 (waived for Honors College students), and senior standing.

## MATH 497, Readings, 1-4 Units

This is a program of study concentrating on assigned readings, discussions, and writing arranged between and designed by a student of upper-division standing and a full-time professor. An independent study fee is assessed for each enrollment in this class.

## MATH 498, Directed Research, 1-4 Units

This course provides instruction in research design and technique, and gives students experience in the research process. The 1-unit expectation encompasses no fewer than 30 hours of work with accompanying reading, log, writing, and seminar presentation within the department or in a university research symposium. No more than 1 unit may be used to fulfill preparatory readings requirement. An independent study fee is assessed for each enrollment in this class.
**Prerequisite:** Junior or Senior Standing

## MATH 499, Thesis/Project, 1-4 Units

This is a senior-level "capstone" type of independent study/research experience, involving the student in a unique project with a sophisticated level of research, synthesis, analysis, and communication. The 1-unit expectation encompasses no fewer than 30 hours of work with accompanying readings, log, instructor discussions, and writing of summary analysis and conclusions. The thesis or project may result in formal thesis, published article, or electronic media. No more than 1 unit may be used to fulfill preparatory readings requirement. An independent study fee is assessed for each enrollment in this class.
**Prerequisite:** Upper-division writing intensive course or instructor consent; and junior or senior standing

## PRMA 90, Foundations of Mathematical Reasoning, 3 Units

This course prepares students for Intermediate Algebra, Mathematics in Society, or Introduction to Statistics. Topics include proportional reasoning; experimental design; graphical, tabular, and numerical presentations of data; chance, risk, and probability; and algebraic modeling. Students practice displaying, summarizing, and analyzing data; computing and interpreting probabilities; and solving algebraic equations to make predictions and decisions. This course does not meet the General Education Quantitative Literacy requirement and does not count toward total units needed for graduation.

## PRMA 110, College Algebra, 3 Units

This course offers a study of basic college algebra, including various elementary functions (linear, polynomial, rational, radical, exponential, and logarithmic), their properties and graphs, and equations and systems of equations. Emphasis is on using algebraic concepts to model and analyze real-world phenomena. *Meets the General Education Requirement: Quantitative Literacy (Math).*
**Prerequisite:** MATH 95 or an appropriate score on the APU mathematics placement assessment.

## PRMA 130, Introduction to Statistics, 3 Units

This course is an introduction to the basic concepts and practices of statistics, including frequency distributions; graphs; central tendency; variation; probability; binomial, normal, t, and chi-square distributions; confidence intervals; hypothesis testing; correlation; regression; and ANOVA. *Meets the General Education Requirement: Quantitative Literacy (Math).*
**Prerequisite:** MATH 90 or an appropriate score on the APU mathematics placement assessment.

## PHYC 112, Science and Technology for Everyday Applications, 4 Units

This course is a nonmathematical introduction to everyday science and technologies that have drastically changed the world and impacted modern life. Despite their apparent complexity, these technologies can be understood from basic physical principles. Students in this course also examine topics of current interest such as climate change, environmental stewardship, and scientific methods. This course does not carry credit toward a science major or minor. *Meets the General Education Requirement: Natural Science, Civic Knowledge and Engagement.*
Special Fee Applies

## PHYC 115, Physical Science for Teachers, 3 Units

This course focuses on three fundamental concepts of physics: conservation of energy, Newton's laws, and waves. Students will engage in practices of science such as performing experiments, collecting and analyzing data, developing models, and writing and evaluating explanations. Students will also examine the nature of science and learning. Course content is aligned with content, practices, and cross-cutting concepts of the Next Generation Science Standards. This course is intended for Liberal Studies majors and does not meet the APU General Education requirement in Natural Science.

## PHYC 125, Earth Science Concepts and Applications, 3 Units

This course surveys Earth both inside and out. Topics investigated include Earth's solid surface and interior, the oceans, and Earth's atmosphere and weather patterns. Emphasis is placed on dynamic processes, including human activity that affects the nature of Earth's surface. Students also explore Earth's place in the solar system, the Sun, the stars, and exotic bodies beyond the solar system. Does not meet the APU General Education requirement in Nature.

## PHYC 145, Physics Laboratory I, 1 Unit

This lab course is a companion to PHYC 155 or PHYC 165. Students in this lab course are introduced to scientific thinking skills including designing experiments, analyzing data, comparing measurements, and testing theoretical models. Experimenters answer research questions using data they obtain. Experimental topics are drawn from mechanics. Completion of this course and PHYC 155 or PHYC 165 *meets the General Education Natural Sciences requirement.*
**Corequisite:** PHYC 155 or PHYC 165

## PHYC 146, Physics Laboratory II, 1 Unit

This lab course is a companion to PHYC 156 or PHYC 166. Students in this course are introduced to scientific thinking skills including designing experiments, analyzing data, comparing measurements, and testing theoretical models. Experimenters answer research questions using data they obtain. Experimental topics are drawn from electricity, magnetism, thermodynamics, and waves.
**Prerequisite:** PHYC 145. Concurrent enrollment in PHYC 156 or PHYC 166 is recommended.

## PHYC 147, Physics Laboratory III, 1 Unit

In this lab course, students develop scientific thinking skills by comprehensively developing an experiment on introductory physics topics, including proposing a research question, designing experiments, analyzing data, comparing measurements, and testing theoretical models. Experimenters answer research questions using data they obtain.
Special Fee Applies
**Prerequisite:** PHYC 146

## PHYC 155, Physics for Life Sciences I, 3 Units

Students in this noncalculus physics course study translational and rotational mechanics and begin to explore thermodynamics. *Meets the General Education Requirement: Natural Science.*
**Prerequisite:** MATH 110 or equivalent score on APU mathematics placement assessment; high school geometry and trigonometry highly recommended.

## PHYC 156, Physics for Life Sciences II, 3 Units

Students in this noncalculus physics course explore the topics of waves, sound, light, electricity and magnetism, quantum theory, and structure of matter.
**Prerequisite:** PHYC 155

## PHYC 165, Physics for Science and Engineering: Mechanics, 4 Units

Students in this course explore various areas of physics using basic differential and integral calculus. Topics include kinematics, Newton's laws, conservation of energy, conservation of momentum, and rotation. *Meets the General Education Requirement: Natural Science.*
**Corequisite:** MATH 165 or equivalent calculus background; high school physics or university-level conceptual physics strongly recommended.

## PHYC 166, Physics for Science and Engineering: Electricity and Magnetism, 4 Units

Students are introduced to the various areas of physics using basic differential and integral calculus. Topics include electricity, circuits, magnetism, and modern physics.
**Prerequisite:** PHYC 165 and MATH 166 (may be taken concurrently)

## PHYC 167, Physics for Science and Engineering: Relativity, 1 Unit

Students are introduced to the various areas of physics using basic differential and integral calculus. This course focuses on Einstein's theory of special relativity, including frames of reference, spacetime diagrams, Lorentz transformations, and mass-energy equivalence.
**Prerequisite:** MATH 110, MATH 150, or MATH 165

## PHYC 168, Physics for Science and Engineering: Waves and Thermodynamics, 3 Units

Students are introduced to the various areas of physics using basic differential and integral calculus. Topics covered include oscillations, waves, and thermodynamics.
**Prerequisite:** PHYC 155 or PHYC 165

## PHYC 300, Physics Research Seminar, 1 Unit

This course surveys the major fields of modern physics research in a seminar format, with special attention to how physicists identify research questions and plan for research. The course culminates in a research proposal for the student's thesis. *Meets the General Education Requirement: Integ Applied Learning (PHYC 300 + PHYC499).*
**Prerequisite:** PHYC 168

## PHYC 311, Teaching and Learning in STEM, 2 Units

Students in this course learn about the fundamentals of effective STEM teaching, including common challenges for STEM learners, active engagement strategies, assessment techniques, supporting diverse learners, designing assignments, and planning courses and lessons.
**Prerequisite:** BIOL 151, CHEM 151, CS 120, MATH 165, PHYC 155, PHYC 165, or equivalent

## PHYC 312, STEM Education Research Seminar, 1 Unit

Students identify challenges for effective STEM education that they observe during their experiences as STEM students and in STEM teaching support roles. Using readings drawn from the STEM education research literature, students identify and evaluate solutions to these challenges.
**Prerequisite:** BIOL 151, CHEM 151, CS 120, MATH 165, PHYC 155, PHYC 165, or instructor permission

## PHYC 313, STEM Teaching Practicum, 1 Unit

This course is intended for students serving in teaching support roles for STEM courses, including Learning Assistants, Teaching Assistants, and tutors. Students observe and reflect on effective STEM teaching practices and assist learners in engaging with and understanding course content.
**Prerequisite:** BIOL 151, CHEM 151, CS 120, MATH 165, PHYC 155, PHYC 165, or instructor permission

## PHYC 361, Electricity and Magnetism, 3 Units

Students in this course study the fundamental concepts of electricity and magnetism, electrostatic fields in a vacuum and dielectric materials, solutions of the Laplace and Poisson equations, and electromagnetic waves.
**Prerequisite:** PHYC 166, MATH 268, and MATH 269

## PHYC 370, Waves and Optics, 3 Units

Students in this course study mechanical and electromagnetic waves and explore topics such as geometric optics, wave propagation, interference, diffraction, polarization, coherence, and holography, as well as topics from nonlinear optics.
**Prerequisite:** PHYC 168, MATH 268, and MATH 270 (may be taken concurrently).

## PHYC 380, Classical Mechanics, 4 Units

Students in this course apply mathematical methods commonly used in physics modeling and analysis to the study of particles experiencing linear and quadratic drag, momentum, energy, driven oscillations, central force motion, rigid-body rotation, and Lagrangian dynamics. The mathematical methods used include infinite series, complex numbers, linear algebra, curvilinear coordinates, vector calculus, Fourier analysis, partial differential equations, variational calculus, and numerical methods.
**Prerequisite:** PHYC 165, MATH 167, MATH 268, and MATH 270

## PHYC 401, Thermodynamics, 3 Units

Students in this course learn the theoretical basis of classical thermodynamics and statistical mechanics including the zeroth, first, second, and third laws. These laws are applied to equilibrium systems such as ideal gases, heat engines, chemical reactions, and phase transitions.
**Prerequisite:** PHYC 168 and MATH 268 (may be taken concurrently)

## PHYC 431, Computational Methods for Physics, 3 Units

Students in this course develop numerical modeling skills to solve representative problems in mechanics, quantum mechanics, thermal physics, and electromagnetism. The problems solved include multibody dynamics under gravity, Laplace's equation, the wave equation, the Ising model, the time-independent Schrodinger equation, and molecular dynamics.
**Prerequisite:** CS 120, MATH 268, MATH 270

## PHYC 440, Quantum Mechanics, 3 Units

Students are introduced to the time-dependent and time-independent Schrodinger equations. The Schrodinger equation is solved for examples including potential wells and barriers, harmonic oscillators, and hydrogen atoms. These examples illustrate the concepts of quantization of energy and angular momentum, tunneling, wave properties of particles, and the uncertainty principle.
**Prerequisite:** MATH 270 and PHYC 370, or instructor consent

## PHYC 470, Writing 3: Advanced Laboratory, 3 Units

This course prepares students for writing scientific journal articles and presenting scientific results to a technical audience. This course also acquaints students with advanced laboratory and analysis techniques. Activities include instruction and practice in scientific writing and presenting scientific information orally. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*
Special Fee Applies
**Prerequisite:** PHYC 168, Writing 2, and junior or senior standing or instructor's consent.

## PHYC 497, Readings, 1-4 Units

This is a program of study concentrating on assigned readings, discussions, and writing arranged between and designed by a student of upper-division standing and a full-time professor. An independent study fee is assessed for each enrollment in this class.

## PHYC 498, Directed Research, 1-4 Units

This course provides instruction in research design and technique, and gives students experience in the research process. The 1-unit expectation encompasses no fewer than 30 hours of work with accompanying reading, log, writing, and seminar presentation within the department or in a university research symposium. No more than 1 unit may be used to fulfill preparatory readings requirement. An independent study fee is assessed for each enrollment in this class.
**Prerequisite:** Junior or Senior Standing

## PHYC 499, Physics Thesis, 1-4 Units

Students engage in original research projects in collaboration with a faculty member. Projects may be experimental, theoretical, or computational in nature, and projects expand upon learning from previous courses in the major and apply that learning to make a novel contribution to the field. Successful completion of the course results in completion of a journal-style article and/or professional-level poster presentation. *Meets the General Education Requirement: Integ Applied Learning (PHYC 300 + PHYC499).*
**Prerequisite:** PHYC 300

## PRPY 112, Science and Technology for Everyday Applications, 4 Units

This course is a nonmathematical introduction to everyday science and technologies that have drastically changed the world and impacted modern life. Despite their apparent complexity, these technologies can be understood from basic physical principles. Students in this course also examine topics of current interest such as climate change, environmental stewardship, and scientific methods. This course does not carry credit toward a science major or minor. *Meets the General Education Requirement: Natural Science, Civic Knowledge and Engagement.*
Special Fee Applies

## PRPY 125, Earth Science Concepts and Applications, 3 Units

This course surveys Earth both inside and out. Topics investigated include Earth's solid surface and interior, the oceans, and Earth's atmosphere and weather patterns. Emphasis is placed on dynamic processes, including human activity that affects the nature of Earth's surface. Students also explore Earth's place in the solar system, the Sun, the stars, and exotic bodies beyond the solar system. Does not meet the APU General Education requirement in Nature.

## STAT 501, Introduction to Modeling with Probability, 3 Units

This course is an introduction to probability models used in statistics and data analysis. Topics include basic axioms of probability, random variables, probability distributions, expected values, and probability distribution theory.
**Prerequisite:** Calculus (multivariable preferred) and linear algebra; students who are lacking in one area or the other may satisfy the prerequisite by passing MATH 199 and/or MATH 299.

## STAT 502, Mathematical Statistics, 3 Units

This course offers an introduction to descriptive and inferential statistics used in data analysis. Topics include random sampling, parameter estimation, hypothesis testing and goodness of fit, summarizing data, and comparing samples.
**Prerequisite:** STAT 501

## STAT 511, Applied Regression Analysis, 3 Units

This course is an introduction to simple and multiple linear regression models. Topics include parameter estimation, diagnostics, model selection, prediction, and models with categorical predictors.
**Prerequisite:** STAT 501;
**Corequisite:** STAT 502

## STAT 512, Analysis of Variance and Design of Experiments, 3 Units

This course offers an introduction to designing and analyzing data using experiments. Basic experimental designs are covered, including block, factorial, and fractional factorial. Analysis of Variance (ANOVA) models and their assumptions, estimation, and interpretation are introduced. Statistical software is used for all analysis.
**Prerequisite:** STAT 501;
**Corequisites:** STAT 502, STAT 511

## STAT 521, Statistical Computing and Programming, 3 Units

Students in this course gain basic familiarity with SAS and R programming for data management and analysis. The course takes place in a computer lab, enabling students to implement the lecture material as it is presented. Assignments require using SAS and R to perform data management techniques, generate descriptive statistics and graphical representations of data, and apply statistical methods available in software.
**Prerequisite:** MATH 361 or equivalent

## STAT 541, Epidemiology Research Methods, 3 Units

The purpose of this course is to equip students with the basic concepts and principles of epidemiology, a discipline that identifies the determinants of disease in human populations and assesses the magnitude of public health problems and the success of interventions designed to control them. Students learn about various epidemiologic study designs and their strengths and limitations, the basic mathematical tools needed in epidemiology, the collection of epidemiologic data, and the criteria of causality. Also, the course addresses the biases that may invalidate epidemiologic studies, and considers ethical concerns in epidemiology from a Christian faith perspective.

## STAT 542, Applied Logistic Regression and Survival Analysis, 3 Units

This course offers an introduction to methods for analyzing binary outcome and time-to-event data, with the primary focus on how to analyze such data using methods available in standard statistical software packages. Topics include logistic regression estimation, interpretation, and assessment. For time-to-event data, summary statistics for censored data, nonparametric methods (specifically Kaplan-Meier), and semiparametric regression methods centered on the Cox model are introduced.
**Prerequisite:** STAT 511 and STAT 521 or equivalent

## STAT 543, Advanced Modeling for Data Science, 3 Units

This course introduces advanced modeling approaches in data science, focused on classical and modern approaches to analyzing continuous and discrete longitudinal data. Topics include exploratory analysis of correlated data, data visualization, generalized linear models, random effects models, Generalized Estimating Equations (GEE), analysis of discrete longitudinal data, and statistical analysis with missing data. Emphasis is on estimation using statistical software and model interpretation.
**Prerequisite:** STAT 511 and STAT 521 or equivalent

## STAT 551, Data Visualization, 3 Units

This course introduces students to the field of data visualization. Students learn basic visualization design and evaluation principles, and also how to acquire, parse, and analyze data sets using various data visualization software tools. Data types included in the course include multivariate, temporal, text-based, geospatial, and network/graph-based.
**Prerequisite:** B- or better in MATH 295 and MATH 361, or admission to graduate school.

## STAT 552, Time Series Analysis and Forecasting, 3 Units

In this course, students develop a working knowledge of time series analysis and forecasting methods, with a focus on applications. Topics include descriptive analysis, probability models for time series, fitting and forecasting for time series models, bootstrapping, models for nonstationary series, and an introduction to spectral analysis.
**Prerequisite:** STAT 502 and STAT 521

## STAT 553, Data Mining, 3 Units

Data mining focuses on algorithms and computational paradigms that allow computers to find patterns and regularities in data in order to perform prediction or find structure and relationships to help improve decision making. This course covers basic methodology, major software tools, and applications in data mining. Students learn conceptual underpinnings of methods in data mining while focusing more on usage of existing software packages than developing the algorithms. In particular, the course covers the methodology, motivation, assumptions, strengths, and weaknesses of the most widely applicable methods in the field.
**Prerequisite:** STAT 511 or STAT 521 or STAT 551 or PSYC 518

## STAT 571, Applied Multivariate Analysis, 3 Units

This course introduces a variety of standard statistical methods used to analyze multivariate data, emphasizing the implementation and interpretations of the methods. Topics covered include matrix computation of summary statistics, graphical techniques, the geometry of sample data, the multivariate normal distribution, principal components analysis, factor analysis, classification and discrimination, and cluster analysis.
**Prerequisite:** STAT 511 and STAT 521

## STAT 572, Applied Bayesian Analysis, 3 Units

This course provides a practical introduction to Bayesian data analysis. Students are exposed to a variety of Bayesian models, including the Bayesian linear model and Bayesian hierarchical modeling as a strategy for modeling complex processes and as a means of assimilating a variety of sources of data. Models are fit for various types of data using modern simulation techniques in statistical software. The focus of the course is modeling, assessing model appropriateness, and interpretation.
**Prerequisite:** STAT 511 and STAT 521

### STAT 573, Applied Nonparametric Statistics, 3 Units

This course provides an overview of nonparametric statistics, helping students learn the difference between parametric and nonparametric statistics and when each is appropriate. This course includes the basic theory and computing tools to perform traditional rank-based nonparametric tests, and advanced topics include nonparametric density estimation, nonparametric regression, and the bootstrap.
**Prerequisite:** STAT 511 and STAT 521

### STAT 574, Discrete Data Analysis, 3 Units

This course covers basic methods for analysis of discrete data, including methods for analyzing and describing discrete data in contingency tables, and statistical models for discrete outcomes that are binary, counts, nominal, and ordinal. Emphasis is on using statistical software to fit models to data, assessing the appropriateness, and interpreting the results in context.
**Prerequisite:** STAT 511 and STAT 521

### STAT 575, Applied Survey Sampling, 3 Units

This course covers sampling design and analysis methods useful for research and management in many fields. Students learn about the basic methods of sampling and estimation and then explore selected designs and recent developments. Topics include simple random sampling with associated estimation and confidence interval methods, selecting sample sizes, estimating proportions, unequal probability sampling, ratio and regression estimation, stratified sampling, cluster, systematic sampling, multistage designs, and double sampling.
**Prerequisite:** STAT 502 and STAT 521

### STAT 592, Ethics in Data Analytics, 2 Units

The availability and use of data has led to tremendous opportunities. Businesses mine data to gain a competitive advantage, and healthcare organizations use it to help improve medical decision making. The use of data, however, has led to potential abuses. This course explores ethical issues in big data analytics, including issues surrounding collection, use, and reporting of data, and considers them from a Christian worldview.

### STAT 595, Special Topics in Applied Statistics, 3 Units

This course presents coverage of topics in applied statistics.
**Prerequisite:** Based upon the topic offered.

### STAT 596, Practicum, 0-1 Units

In this course - the practicum course of the Master of Science in Applied Statistics and Analytics program - students collaborate with professionals in academic or industry organizations to develop professional experience.
**Prerequisite:** Instructor permission required

### STAT 597, Statistical Consulting Practicum, 4 Units

Students in this course investigate the role of the statistician as consultant and collaborator. Topics include problem solving and communication skills (oral and written), structuring working engagements with nonstatisticians and collaborators, and skills specific to statistical consulting. Case studies or ongoing projects are used to provide hands-on consulting experience. Students identify, and produce their proposal for, their culminating project during this course.
**Prerequisite:** STAT 511 and STAT 521

### STAT 598, Culminating Project, 4 Units

This is the capstone course of the Master of Science in Applied Statistics and Analytics program. It is open to second-year students in good standing. Students provide an oral presentation and a written report of the project.
**Prerequisite:** STAT 597

### STAT 599, Independent Study, 1-3 Units

# BA in Mathematics

58-60 units

The BA in Mathematics (https://www.apu.edu/clas/programs/math-major/) at Azusa Pacific University provides students with a strong foundation in the mathematics of continuous change (calculus and analysis), of pattern and symmetry (linear and abstract algebra), of space (geometry and topology), of chance (probability), and of data (statistics). The major focuses on depth of conceptual understanding, rigorous mathematical proof, and problem-solving strategies. While this major does treat applications of mathematics and includes courses in physics and computer science, the emphasis is on theory. Students who prefer a focus on applications are encouraged to choose the applied mathematics major.

A student who majors in mathematics has the option of obtaining a Bachelor of Arts (BA) or a Bachelor of Science (BS) degree. Both degrees have the same mathematics requirements, but the BS degree requires a minor in physics (p. 111), chemistry (p. 67), or computer science (p. 108) (see these subject areas for requirements and course descriptions).

# Career Opportunities

The BA in Mathematics prepares students to be quantitative experts in a variety of fields: secondary or university teaching, mathematical research (for business, government, or the academy), cryptography, finance and economics, statistics and data analysis, or operations research and management consulting. Mathematics is also an excellent major for quantitatively minded students who want to go into business (see the finance minor (p. 883)), medicine (see the premedical program (p. 175)) or law (see the prelaw minor (p. 142)). Math majors have some of the highest rates of acceptance to graduate schools in all three of these fields.

APU mathematics graduates have advanced to prestigious graduate schools, have accepted choice offers to teach at secondary schools, have been selected for Teach for America and Math for America, and have moved into attractive industry positions.

Students preparing for a career in actuarial science, industrial mathematics, mathematical physics, or computer science are encouraged to consider the applied mathematics major.

There is a strong demand for mathematics teachers. Students desiring a junior or senior high school teaching credential should note the requirements of the single-subject waiver program for mathematics. Completion of the Secondary Math Education Track (see below) waives the CSET exam for entrance into a credentialing program.

# Requirements

| Code | Title | Units |
|---|---|---|
| **Required Courses** | | |
| MATH 165 | Calculus I | 3 |
| MATH 166 | Calculus II | 3 |
| MATH 167 | Sequences and Series [F] | 1 |
| MATH 250 | Data Analysis [F] | 3 |
| MATH 268 | Multivariable Calculus | 3 |
| MATH 270 | Ordinary Differential Equations [S] | 4 |
| MATH 280 | Discrete Mathematics and Proof [F] | 3 |
| MATH 290 | Linear Algebra [S] | 3 |
| MATH 400 | Abstract Algebra [ES] | 3 |
| MATH 450 | Real Analysis [EF] | 3 |
| MATH 480 | Writing 3: Mathematical Reading, Writing, and Presentation [1, F] | 3 |
| MATH 496 | Mathematics Senior Seminar [2, S] | 3 |
| CS 120 | Introduction to Computer Science I [3] | 4 |
| PHYC 165 & PHYC 145 | Physics for Science and Engineering: Mechanics and Physics Laboratory I [4,F] | 5 |
| **Total Units** | | **44** |

In addition to the required courses above, complete one of the tracks below.

| Code | Title | Units |
|---|---|---|
| **General Mathematics Track** | | |
| Complete at least 14 units from the courses below. You must complete MATH 361 and at least one of MATH 460 and MATH 470. You cannot count both PHYC 166 and CS 125. | | 14 |
| MATH 269 | Vector Calculus [OF] | |
| MATH 340 | Geometry [S] | |
| MATH 361 | Introduction to Modeling with Probability | |
| MATH 390 | Number Theory [OF] | |
| MATH 460 | Topology [OS] | |
| MATH 470 | Complex Analysis [ES] | |
| MATH 495 | Advanced Topics in Mathematics | |
| CS 125 | Introduction to Computer Science II | |
| PHYC 166 & PHYC 146 | Physics for Science and Engineering: Electricity and Magnetism and Physics Laboratory II [S] | |
| **Total Units** | | **14** |

| Code | Title | Units |
|------|-------|-------|
| **Secondary Math Education Track** | | |
| Complete all 16 units below. This track meets the requirements of the CTC-approved Single Subject Waiver program. | | |
| MATH 130 | Introduction to Statistics [5] | 3 |
| MATH 301 | Mathematics for Secondary Teachers [OF] | 3 |
| MATH 340 | Geometry [S] | 3 |
| MATH 390 | Number Theory [OF] | 3 |
| EDLS 202 | Introduction to Teaching as a Profession (7-12) [6] | 4 |
| **Total Units** | | **16** |

[1]   Meets the General Education Writing 3 requirement.
[2]   Meets the General Education Integrative and Applied Learning requirement.
[3]   Meets the General Education Oral Communication requirement if taken with CS 290 and CS 480, or ENGR 240 and ENGR 480.
[4]   Meets the General Education Natural Sciences requirement. Students must complete both PHYC 165 and PHYC 145 to fulfill the GE Natural Sciences requirement.
[5]   Meets the General Education Quantitative Literacy requirement.
[6]   Meets the General Education Civic Knowledge and Engagement requirement.

| | |
|---|---|
| F | Offered in Fall only |
| S | Offered in Spring only |
| F/S | Offered in both Fall and Spring terms |
| EF | Offered in Fall in even years |
| ES | Offered in Spring in even years |
| OF | Offered in Fall in odd years |
| OS | Offered in Spring in odd years |

## Program Learning Outcomes
### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Master fundamental mathematical methods and problem solving strategies.
2. Employ logical reasoning and standard proof techniques to construct rigorous mathematical arguments.
3. Communicate mathematical ideas in speech and writing, combining precise language and notation with insightful explanation.
4. Use mathematical models to analyze cross-disciplinary problems.
5. Employ appropriate technology and computational techniques.
6. Articulate how Christian perspectives and the study of mathematics and its applications mutually inform and enhance each other.

# BA in Mathematics with Integrated Single Subject (Math) Teaching Credential

90-92 units

This degree program is offered collaboratively by the Department of Mathematics, Physics, and Statistics in the College of Liberal Arts and Sciences and the Division of Teacher Education in the School of Education. Students earn a bachelor of arts degree in mathematics and a single-subject teaching credential in a total of four years. Full program details and requirements are available on the Integrated Bachelor's/Credential Program (p. 546) page of this catalog.

## Major Requirements

| Code | Title | Units |
|------|-------|-------|
| **Required Courses** | | |
| MATH 165 | Calculus I | 3 |
| MATH 166 | Calculus II | 3 |
| MATH 167 | Sequences and Series [F] | 1 |

| | | |
|---|---|---|
| MATH 250 | Data Analysis [F] | 3 |
| MATH 268 | Multivariable Calculus | 3 |
| MATH 270 | Ordinary Differential Equations [S] | 4 |
| MATH 280 | Discrete Mathematics and Proof [F] | 3 |
| MATH 290 | Linear Algebra [S] | 3 |
| MATH 400 | Abstract Algebra [ES] | 3 |
| MATH 450 | Real Analysis [EF] | 3 |
| MATH 480 | Writing 3: Mathematical Reading, Writing, and Presentation [1, F] | 3 |
| MATH 496 | Mathematics Senior Seminar [2, S] | 3 |
| CS 120 | Introduction to Computer Science I [3] | 4 |
| PHYC 165 & PHYC 145 | Physics for Science and Engineering: Mechanics and Physics Laboratory I [4,F] | 5 |
| **Total Units** | | **44** |

In addition to the required courses above, complete one of the tracks below.

| Code | Title | Units |
|---|---|---|
| **General Mathematics Track** | | |
| Complete at least 14 units from the courses below. You must complete MATH 361 and at least one of MATH 460 and MATH 470. You cannot count both PHYC 166 and CS 125. | | 14 |
| MATH 269 | Vector Calculus [OF] | |
| MATH 340 | Geometry [S] | |
| MATH 361 | Introduction to Modeling with Probability | |
| MATH 390 | Number Theory [OF] | |
| MATH 460 | Topology [OS] | |
| MATH 470 | Complex Analysis [ES] | |
| MATH 495 | Advanced Topics in Mathematics | |
| CS 125 | Introduction to Computer Science II | |
| PHYC 166 & PHYC 146 | Physics for Science and Engineering: Electricity and Magnetism and Physics Laboratory II [S] | |
| **Total Units** | | **14** |

| Code | Title | Units |
|---|---|---|
| **Secondary Math Education Track** | | |
| Complete all 16 units below. This track meets the requirements of the CTC-approved Single Subject Waiver program. | | |
| MATH 130 | Introduction to Statistics [5] | 3 |
| MATH 301 | Mathematics for Secondary Teachers [OF] | 3 |
| MATH 340 | Geometry [S] | 3 |
| MATH 390 | Number Theory [OF] | 3 |
| EDLS 202 | Introduction to Teaching as a Profession (7-12) [6] | 4 |
| **Total Units** | | **16** |

[1] Meets the General Education Writing 3 requirement.
[2] Meets the General Education Integrative and Applied Learning requirement.
[3] Meets the General Education Oral Communication requirement if taken with CS 290 and CS 480, or ENGR 240 and ENGR 480.
[4] Meets the General Education Natural Sciences requirement. Students must complete both PHYC 165 and PHYC 145 to fulfill the GE Natural Sciences requirement.
[5] Meets the General Education Quantitative Literacy requirement.
[6] Meets the General Education Civic Knowledge and Engagement requirement.

| | |
|---|---|
| F | Offered in Fall only |
| S | Offered in Spring only |
| F/S | Offered in both Fall and Spring terms |
| EF | Offered in Fall in even years |
| ES | Offered in Spring in even years |

| | |
|---|---|
| OF | Offered in Fall in odd years |
| OS | Offered in Spring in odd years |

## Single Subject (Math) Teaching Credential Requirements

| Code | Title | Units |
|---|---|---|
| **Foundation Courses** | | |
| TESP 501 | Art of Teaching I: Foundations of Teaching [1] | 3 |
| TESP 502 | Science of Teaching I: How Students Learn [1] | 3 |
| TESP 503 | The Soul of Teaching: Tapestry of American Education | 3 |
| TESP 504 | Schools and Educational Systems | 3 |
| **Specialization Courses** | | |
| TEP 511 | Art of Teaching II: Pedagogy and Instructional Design | 3 |
| TEP 512 | Science of Teaching II: Effective Assessment Strategies for All Learners | 3 |
| TEP 531 | Methods of Teaching Reading and Writing (7-12) | 3 |
| TEP 532 | Secondary Pedagogy I: Teaching in Secondary Schools (7-12) | 2 |
| TEP 533 | The Differentiated Classroom: Maximizing Capacity of Each Learner (7-12) | 3 |
| TEP 534 | Secondary Pedagogy II: Content-Specific Strategies, Teaching, and Assessment (7-12) | 2 |
| TEP 561 | Clinical Practice I: Single Subject Credential | 2 |
| TEP 562 | Clinical Practice II: Single Subject Credential | 2 |
| **Total Units** | | **32** |

[1]     Must be completed prior to beginning clinical practice.

The following courses meet the undergraduate General Education requirements within the Integrated Bachelor's/Credential Program:

- TESP 502 meets the General Education Social Sciences requirement.
- TESP 503 meets the General Education Intercultural Competence requirement.
- TESP 504 meets the General Education Civic Knowledge and Engagement requirement.
- TEP 551 and TEP 552 combined, and TEP 561 and TEP 562 combined, meet the General Education Integrative and Applied Learning requirement.

## Program Learning Outcomes

## BA in Mathematics

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Master fundamental mathematical methods and problem solving strategies.
2. Employ logical reasoning and standard proof techniques to construct rigorous mathematical arguments.
3. Communicate mathematical ideas in speech and writing, combining precise language and notation with insightful explanation.
4. Use mathematical models to analyze cross-disciplinary problems.
5. Employ appropriate technology and computational techniques.
6. Articulate how Christian perspectives and the study of mathematics and its applications mutually inform and enhance each other.

## Integrated Single Subject (Math) Teaching Credential

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Engage and support all students in learning.
2. Create and maintain effective environments for student learning.
3. Understand and organize subject matter for student learning.
4. Plan instruction and design learning experiences for all students.
5. Assess student learning.
6. Develop as a professional educator.

# BS in Applied Mathematics

59-63 units

Students in the applied mathematics major (https://www.apu.edu/clas/programs/applied-math-major/) learn to solve problems from a variety of disciplines by developing mathematical models, applying computational algorithms, and analyzing results. The applied mathematics major allows students to choose either the standard track or one of four concentrations:

- Actuarial Science Concentration
- Computer Science Concentration
- Physics Concentration
- Statistics and Data Science Concentration

Students majoring in applied mathematics are encouraged to consider a minor in statistics. For qualified students, an advising pathway is available to pursue a BS in Applied Mathematics with computer science concentration and an MS in Applied Statistics and Data Science in a total of 5 years. Ask your academic advisor for details.

## Career Opportunities

This major prepares students to be quantitative experts in a variety of fields: actuarial science, computer science, physics, university teaching, mathematical research (for business, government, or the academy), cryptography, finance and economics, statistics and data analysis, or operations research and management consulting. APU mathematics graduates have advanced to prestigious graduate schools and have moved into attractive industry positions.

Students preparing to teach mathematics at the secondary level or to pursue graduate studies in pure mathematics are encouraged to consider the mathematics major instead of the applied mathematics major.

## Requirements

| Code | Title | Units |
|---|---|---|
| MATH 165 | Calculus I | 3 |
| MATH 166 | Calculus II | 3 |
| MATH 167 | Sequences and Series [F] | 1 |
| MATH 250 | Data Analysis [F] | 3 |
| MATH 268 | Multivariable Calculus | 3 |
| MATH 270 | Ordinary Differential Equations [S] | 4 |
| MATH 295 | Applied Linear Algebra [F] | 3 |
| MATH 361 | Introduction to Modeling with Probability | 3 |
| MATH 455 | Numerical Analysis [ES] | 3 |
| MATH 480 | Writing 3: Mathematical Reading, Writing, and Presentation [1, F] | 3 |
| MATH 496 | Mathematics Senior Seminar [2, S] | 3 |
| CS 120 | Introduction to Computer Science I [3] | 4 |
| **Choose the standard track or one of the concentrations below** | | **23-27** |
| **Total Units** | | **59-63** |

### Standard Applied Mathematics Track

| Code | Title | Units |
|---|---|---|
| **Standard Applied Mathematics Track Requirements** | | |
| MATH 269 | Vector Calculus [OF] | 2 |
| MATH 370 | Partial Differential Equations [OS] | 3 |
| MATH 375 | Dynamical Systems [OF] | 3 |
| MATH 470 | Complex Analysis [ES] | 3 |
| CS 125 | Introduction to Computer Science II | 4 |
| PHYC 165 | Physics for Science and Engineering: Mechanics [4, F] | 4 |
| PHYC 145 | Physics Laboratory I | 1 |
| Select at least 3 units from the following: | | 3-5 |
| MATH 362 | Mathematical Statistics [EF] | |

| MATH 495 | Advanced Topics in Mathematics | |
| PHYC 166 & PHYC 146 | Physics for Science and Engineering: Electricity and Magnetism and Physics Laboratory II [S] | |
| PHYC 431 | Computational Methods for Physics [EF] | |
| **Total Units** | | **23-25** |

## Actuarial Science Concentration

| Code | Title | Units |
| --- | --- | --- |
| **Actuarial Science Concentration Requirements** | | |
| MATH 362 | Mathematical Statistics [EF] | 3 |
| ACCT 120 | Principles of Accounting I | 3 |
| ACCT 121 | Principles of Accounting II | 3 |
| ECON 200 | Survey of Economics [5] | 3 |
| FIN 300 | Business Finance for Managers | 3 |
| FIN 330 | Financial Analysis [F] | 3 |
| FIN 432 | Investment Analysis [S] | 3 |
| FIN 436 | Financial Risk Management [F] | 3 |
| **Total Units** | | **24** |

## Computer Science Concentration

| Code | Title | Units |
| --- | --- | --- |
| **Computer Science Concentration Requirements** | | |
| MATH 269 | Vector Calculus [OF] | 2 |
| CS 125 | Introduction to Computer Science II | 4 |
| CS 160 | Discrete Structures | 3 |
| CS 260 | Algorithms and Data Structures | 3 |
| PHYC 165 & PHYC 145 | Physics for Science and Engineering: Mechanics and Physics Laboratory I [4, F] | 5 |
| Select 6 units from the following: | | 6 |
| MATH 495 | Advanced Topics in Mathematics | |
| CS 290 | Database Management Systems [6] | |
| CS 360 | Computer Architecture and Organization | |
| CS 430 | Artificial Intelligence | |
| CS 432 | Machine Learning | |
| CS 435 | Advanced Database Application Programming | |
| **Total Units** | | **23** |

## Physics Concentration

| Code | Title | Units |
| --- | --- | --- |
| **Physics Concentration Requirements** | | |
| MATH 269 | Vector Calculus [OF] | 2 |
| MATH 370 | Partial Differential Equations [OS] | 3 |
| PHYC 165 | Physics for Science and Engineering: Mechanics [4, F] | 4 |
| PHYC 166 | Physics for Science and Engineering: Electricity and Magnetism [S] | 4 |
| PHYC 167 | Physics for Science and Engineering: Relativity | 1 |
| PHYC 168 | Physics for Science and Engineering: Waves and Thermodynamics | 3 |
| PHYC 145 | Physics Laboratory I | 1 |
| PHYC 146 | Physics Laboratory II | 1 |
| PHYC 147 | Physics Laboratory III | 1 |
| PHYC 380 | Classical Mechanics [OF] | 4 |
| Select 3 units from the following: | | 3 |
| MATH 375 | Dynamical Systems [OF] | |

| Code | Title | Units |
|---|---|---|
| MATH 470 | Complex Analysis | |
| MATH 495 | Advanced Topics in Mathematics | |
| PHYC 361 | Electricity and Magnetism [ES] | |
| PHYC 401 | Thermodynamics [ES] | |
| PHYC 431 | Computational Methods for Physics [EF] | |
| **Total Units** | | **27** |

## Statistics and Data Science Concentration

| Code | Title | Units |
|---|---|---|
| **Statistics and Data Science Concentration Requirements** | | |
| MATH 350 | Statistical Models [ES] | 3 |
| MATH 362 | Mathematical Statistics | 3 |
| MATH 492 | Ethics in Data Analytics [S] | 2 |
| CS 125 | Introduction to Computer Science II | 4 |
| Select one of: | | 3 |
| MATH 280 | Discrete Mathematics and Proof [F] | |
| CS 160 | Discrete Structures | |
| Select 9 units from the following: | | 9 |
| CS 260 | Algorithms and Data Structures | |
| CS 432 | Machine Learning | |
| ECON 452 | Econometrics [EF] | |
| ENGR 310 | Discrete Systems Modeling and Simulation | |
| MATH 450 | Real Analysis [EF] | |
| MATH 451 | Data Visualization [F] | |
| MATH 495 | Advanced Topics in Mathematics | |
| STAT 511 | Applied Regression Analysis [S] | |
| STAT 512 | Analysis of Variance and Design of Experiments | |
| STAT 553 | Data Mining [S] | |
| **Total Units** | | **24** |

[1]    Meets the General Education Writing 3 requirement.
[2]    Meets the General Education Integrative and Applied Learning requirement.
[3]    Meets the General Education Oral Communication requirement if taken with CS 290 and CS 480, or ENGR 240 and ENGR 480.
[4]    Meets the General Education Natural Sciences requirement. Students must complete both PHYC 165 and PHYC 145 to fulfill the GE Natural Sciences requirement.
[5]    Meets the General Education Social Sciences requirement.
[6]    Meets the General Education Oral Communication requirement if taken with CS 120 and CS 480.

| | |
|---|---|
| F | Offered in Fall only |
| S | Offered in Spring only |
| F/S | Offered in both Fall and Spring terms |
| EF | Offered in Fall in even years |
| ES | Offered in Spring in even years |
| OF | Offered in Fall in odd years |
| OS | Offered in Spring in odd years |

## Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Master fundamental mathematical methods and problem solving strategies.
2. Communicate mathematical ideas in speech and writing, combining precise language and notation with insightful explanation.
3. Use mathematical models to analyze cross-disciplinary problems.

4. Employ appropriate technology and computational techniques.
5. Articulate how Christian perspectives and the study of mathematics and its applications mutually inform and enhance each other.

# BS in Computer Information Systems

50 units

The BS in Computer Information Systems (CIS) (https://www.apu.edu/clas/programs/computer-information-systems-major/) program provides an integrated educational and practical foundation for students planning a career in the analysis, design, and implementation of information systems. Students are prepared for careers as systems analysts, application software developers, and information technology specialists. Students who have a strong interest in technology and its application, but are not primarily interested in the scientific and mathematical aspects of computer science, should find this program a good fit.

Computer information systems (CIS) is the study of the application of computer technology in organizations. It is founded on two major reference disciplines: computer science and information environment. CIS undergraduates must complete information environment coursework; CIS involves **no** coursework in engineering or scientific computing, and only introduction to statistics is required. APU's CIS program emphasizes the application of computer technology to information systems.

Knowledge of network administration, telecommunication, operating systems, and database applications is emphasized in this major.

## Career Opportunities

The Bachelor of Science in Computer Information Systems prepares students for advanced studies in fields such as computer information systems, computer engineering, computer security, and telecommunications.

The CIS program offers internship opportunities to prepare students for careers following graduation. Students gain hands-on experience at several local and national businesses and organizations, and these organizations regularly request APU students for internships and employment. Employment opportunities in the areas of system networking, database management, telecommunication, and web programming are in abundance.

## Requirements

Academic advising is required each semester; consult with the department for each semester's offerings, since they are not necessarily the same every semester.

Computer information systems students are required to have a laptop for classroom work.

| Code | Title | Units |
|---|---|---|
| **Computer Information Systems Core Courses** [1,2] | | |
| CS/ENGR 120 | Introduction to Computer Science I [3] | 4 |
| CS/ENGR 125 | Introduction to Computer Science II | 4 |
| CS/ENGR 160 | Discrete Structures | 3 |
| CS 230 | Systems Programming and Operating Systems | 3 |
| CS/ENGR 260 | Algorithms and Data Structures | 3 |
| CS 290 | Database Management Systems [3] | 3 |
| CS 315 | Fundamentals of Network Administration | 3 |
| CS 325 | Telecommunications and Interfacing | 3 |
| Select at least one of the following (if both are selected, one will count as an elective) | | 3 |
| CS 363 | Web Programming | |
| CS 440 | Mobile App Development | |
| Select one elective course (see list below) | | 3 |
| **Computer Information Systems Environment Courses** | | |
| CS 115 | Impact of Social Media [1] | 3 |
| ENGR 101 | Introduction to Engineering and Computing [2] | 3 |
| ENGR 110 | STEM as Vocation [4] | 3 |
| WRIT 242 | Writing 2: Entrepreneurial Tech Start-ups [5] | 3 |
| CS 491 | Computer Science Internship [6] | 3 |
| **Quantitative Analysis Course** | | |

| | | |
|---|---|---|
| MATH 130 | Introduction to Statistics [7] | 3 |
| **Total Units** | | **50** |

## Computer Information Systems Elective Courses

| Code | Title | Units |
|---|---|---|
| CS 242/ENGR 240 | Digital Logic Systems | 4 |
| CS 360 | Computer Architecture and Organization | 3 |
| CS 363 | Web Programming | 3 |
| CS 370 | Compiler Construction | 3 |
| CS 430 | Artificial Intelligence | 3 |
| CS 432 | Machine Learning | 3 |
| CS 435 | Advanced Database Application Programming | 3 |
| CS 440 | Mobile App Development | 3 |
| CS/ENGR 452 | Internet of Things | 3 |
| CS 460 | Software Project | 3 |
| CS 465 | Team Software Project | 1-3 |
| CS 484 | Cyber Security | 3 |
| CS 495 | Topics in Computer Science | 3 |
| CS 496 | Writing 3: Ethics in Computing and Engineering [8] | 3 |
| CS 497 | Readings | 1-4 |
| CS 498 | Directed Research | 1-4 |
| CS 499 | Thesis/Project | 1-4 |
| ENGR 215 | Electrical Circuits and Systems | 4 |
| ENGR 335 | Embedded Systems | 4 |
| ENGR 340 | Digital Signal Processing | 3 |
| ENGR 350 | Computer Networks | 3 |

[1]  The General Education Social Sciences course recommended by the Department of Engineering and Computer Science is CS 115.
[2]  The General Education Civic Knowledge and Engagement course recommended by the Department of Engineering and Computer Science is ENGR 101.
[3]  Meets 1 unit of the General Education Oral Communication requirement (taking CS 120, CS 290, and CS 480—or CS 120, ENGR 240, and ENGR 480—satisfies the General Education Oral Communication requirement).
[4]  Meets the General Education Intercultural Competence requirement.
[5]  Meets the General Education Writing 2 requirement.
[6]  Meets the General Education Integrative and Applied Learning requirement.
[7]  Meets the General Education Quantitative Literacy requirement.
[8]  Meets the General Education Writing 3 requirement.

Students should enroll in CS 120 in their first semester of attendance in the department. It is also imperative that students determine which math course they qualify for and enroll in that course during their first semester, continuing with all math courses until they have completed math requirements for the CIS program. If students do not know which math course they qualify for, they should contact the Academic Success Center (https://www.apu.edu/academic-success/services/testing/math/) at (626) 815-3849 to make an appointment for placement testing.

**Contact the Student Services Center (https://www.apu.edu/student-services/) and/or the Academic Success Center for all General Education advising.**

# Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Analyze a complex computing problem and apply principles of computing and other relevant disciplines to identify solutions.
2. Design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program's discipline.
3. Communicate effectively in a variety of professional contexts.
4. Recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles.

5. Function effectively as a member or leader of a team engaged in activities appropriate to the program's discipline.
6. Apply computer science theory and software development fundamentals to produce computing-based solutions.
7. Demonstrate scientific knowledge of computation comprising computer architecture, algorithm analysis, programming principles, and software design.

# BS in Computer Science

79-81 units

Computer science, like engineering disciplines, is an "applied science" that deals with how things ought to be. This is different from mathematics and other natural sciences that are concerned with how things are. Computer science is concerned with design and synthesis more than analysis and deduction (as with physics, chemistry, mathematics, and biology).

The BS in Computer Science (https://www.apu.edu/clas/programs/computer-science-major/) equips students to:

- Understand the computational process and the design of software systems.
- Analyze and design data structures and algorithms.
- Understand programming concepts in order to acquire computer language proficiency independently.
- Program computers with knowledge of at least two programming languages.
- Understand and apply software development principles.

With dedicated faculty, small classes, excellent computer labs, and up-to-date software, computer science at Azusa Pacific University is challenging, professional, intellectually stimulating, and directly applicable to current problems in society and industry.

The computer science major covers the following topics:

1. Artificial Intelligence
2. Machine Learning
3. Cybersecurity
4. Social Media
5. Mobile Apps
6. All functional levels of computing, from applications to microcode
7. Programming theory and practice (in multiple languages)
8. Software engineering: principles, procedures, techniques, and applications

Upper-level electives are available in advanced topics such as artificial intelligence and machine learning, software engineering, Internet of Things (IoT), and computer security. Students who plan to pursue an advanced degree in computer science should review their program of studies with their advisor as early as possible.

## Career Opportunities

The BS in Computer Science prepares graduates for advanced studies and careers in fields such as computer science, computer engineering, software engineering, telecommunications, and systems analysis.

The computer science program requires an internship. Students gain hands-on experience at several local and national businesses and organizations that continue to turn to APU to seek our students for internships and employment. Employment opportunities include careers as systems programmers, software engineers, scientific programmers, high school computer science and mathematics teachers, and other computing fields. Missionary and other Christian organizations need computer science graduates for their increasingly complex applications, such as Bible translation work, as well as administrative, financial, fundraising, and technical support activities. Job opportunities are available globally.

## Requirements

Academic advising is required each semester; consult with the department for each semester's offerings, since they are not necessarily the same every semester.

BS in Computer Science students are required to have a laptop for classroom work.

| Code | Title | Units |
|---|---|---|
| **Computer Science Core Courses** [1] | | |
| CS 115 | Impact of Social Media [2] | 3 |

| ENGR 340 | Digital Signal Processing | 3 |
| ENGR 350 | Computer Networks | 3 |

[1]  The Writing 3 course recommended by the Department of Engineering and Computer Science is CS 496.

[2]  Meets the General Education Social Sciences requirement.

[3]  Meets 1 unit of the General Education Oral Communication requirement (taking CS 120, CS 290, and CS 480—or CS 120, ENGR 240, and ENGR 480—satisfies the General Education Oral Communication requirement).

[4]  Meets the General Education Integrative and Applied Learning requirement.

[5]  Meets the General Education Civic Knowledge and Engagement Requirement.

[6]  Meets the General Education Intercultural Competence requirement.

[7]  Meets the General Education Writing 2 requirement.

[8]  Meets the General Education Natural Sciences requirement.

Students must start with CS 120 Introduction to Computer Science I during their first semester at Azusa Pacific University. Math is also extremely important for students within our major. It is imperative that students determine which math course they qualify for and enroll in that course their first semester, continuing with all math courses until they have completed math requirements for the computer science major. If the student does not know which math course they qualify for, they should contact the Academic Success Center (https://www.apu.edu/academic-success/services/testing/math/) at (626) 815-3849 to make an appointment for placement testing.

**See the Student Services Center (https://www.apu.edu/student-services/) and/or the Academic Success Center for all General Education advising.**

# Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Analyze a complex computing problem and apply principles of computing and other relevant disciplines to identify solutions.
2. Design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program's discipline.
3. Communicate effectively in a variety of professional contexts.
4. Recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles.
5. Function effectively as a member or leader of a team engaged in activities appropriate to the program's discipline.
6. Apply computer science theory and software development fundamentals to produce computing-based solutions.
7. Apply scientific knowledge of computation comprising computer architecture, algorithm analysis, programming principles, and software design.

# BS in Engineering

85 units

Azusa Pacific's BS in Engineering (https://www.apu.edu/clas/programs/engineering-major/) equips students with an excellent foundation in principles that prepare them for careers in a variety of engineering fields, including aerospace, agriculture, automotive, business, computer science, defense, energy, and health care. The engineering curriculum includes courses in mechanics, electrical circuits, electronics, digital systems, and control systems, and all courses are strongly anchored on foundational coursework in mathematics and physics including calculus, differential equations, and probability theory. Four concentration areas are available: mechanical engineering, electrical engineering, systems engineering, and computer engineering.

A two-semester design project in the senior year challenges students to work in teams and design, build, and test a major engineering product as the culmination of all coursework completed. These projects usually involve external sponsors and mentors. An engineering internship that provides hands-on experience also is part of the curriculum requirements.

Job opportunities for engineering graduates are plentiful in Southern California, nationwide, and globally—a multitude of aerospace, entertainment, construction, and electronics companies need mechanical, electrical, systems, and computer engineers.

## Requirements

Academic advising is required each semester; consult with the department for each semester's offerings, since courses are not necessarily offered every semester.

Engineering students are required to have a laptop for classroom work. In addition to General Education requirements, a minimum of 51 computer science/engineering units, and 30 mathematics and physics units (for a total of 81 units), are required for the Bachelor of Science in Engineering.

| Code | Title | Units |
| --- | --- | --- |
| **Engineering Major Requirements** [1, 2, 3, 4] | | |
| ENGR 101 | Introduction to Engineering and Computing [1] | 3 |
| ENGR 110 | STEM as Vocation [2] | 3 |
| CS 115 | Impact of Social Media [5] | 3 |
| CS/ENGR 120 | Introduction to Computer Science I [6] | 4 |
| CS/ENGR 125 | Introduction to Computer Science II | 4 |
| ENGR 215 | Electrical Circuits and Systems | 4 |
| ENGR 240 | Digital Logic Systems [6] | 4 |
| ENGR 245 | Electronics | 4 |
| ENGR 325 | Control Systems | 3 |
| ENGR 470 | Senior Design Project I | 2 |
| ENGR 480 | Senior Design Project II [6] | 2 |
| ENGR 491 | Engineering Internship (3 units needed for graduation) [7] | 3 |
| WRIT 242 | Writing 2: Entrepreneurial Tech Start-ups [3] | 3 |
| Choose one of the following: | | 3 |
| ENGR 150 | Introduction to Mechanics | |
| ENGR 281 | Statics | |
| **Math and Physics Requirements** | | |
| MATH 165 | Calculus I | 3 |
| MATH 166 | Calculus II | 3 |
| CS/ENGR 160 | Discrete Structures | 3 |
| MATH 268 | Multivariable Calculus | 3 |
| MATH 270 | Ordinary Differential Equations | 4 |
| ENGR 271 | Advanced Math for Engineers | 4 |
| MATH 361 | Introduction to Modeling with Probability | 3 |
| PHYC 165 & PHYC 145 | Physics for Science and Engineering: Mechanics and Physics Laboratory I [8] | 5 |
| **Concentration/Electives** [9] | | **12** |
| Choose one of the following concentrations, or general engineering (no concentration) below: | | |
| **Mechanical Engineering** | | |
| ENGR 384 | Mechanics of Materials | |
| PHYC 168 & PHYC 146 | Physics for Science and Engineering: Waves and Thermodynamics and Physics Laboratory II | |
| Choose one of the following: | | |
| ENGR 210 | Engineering Thermodynamics | |
| ENGR 282 | Dynamics | |
| Choose two additional electives | | |
| **Electrical Engineering** | | |
| ENGR 340 | Digital Signal Processing | |
| ENGR 355 | Communications Systems | |
| PHYC 166 & PHYC 146 | Physics for Science and Engineering: Electricity and Magnetism and Physics Laboratory II | |
| Choose two additional electives | | |

**Computer Engineering**

| | |
|---|---|
| ENGR 260 | Algorithms and Data Structures |
| ENGR 360 | Computer Architecture and Organization |
| Choose one of the following: | |
| PHYC 166<br>& PHYC 146 | Physics for Science and Engineering: Electricity and Magnetism<br>and Physics Laboratory II |
| PHYC 168<br>& PHYC 146 | Physics for Science and Engineering: Waves and Thermodynamics<br>and Physics Laboratory II |
| Choose two additional electives | |
| **Systems Engineering** | |
| ENGR 345 | Systems Engineering Principles |
| Choose one of the following: | |
| ENGR 340 | Digital Signal Processing |
| ENGR 420 | Decision and Risk Analysis |
| Choose one of the following: | |
| PHYC 166<br>& PHYC 146 | Physics for Science and Engineering: Electricity and Magnetism<br>and Physics Laboratory II |
| PHYC 168<br>& PHYC 146 | Physics for Science and Engineering: Waves and Thermodynamics<br>and Physics Laboratory II |
| Choose two additional electives | |
| **General Engineering (no concentration)** | |
| Choose one of the following: | |
| PHYC 166<br>& PHYC 146 | Physics for Science and Engineering: Electricity and Magnetism<br>and Physics Laboratory II |
| PHYC 168<br>& PHYC 146 | Physics for Science and Engineering: Waves and Thermodynamics<br>and Physics Laboratory II |
| Choose four additional electives | |
| **Engineering Electives** | |
| ENGR 210 | Engineering Thermodynamics |
| ENGR 260 | Algorithms and Data Structures |
| ENGR 282 | Dynamics |
| ENGR 310 | Discrete Systems Modeling and Simulation |
| ENGR 335 | Embedded Systems |
| ENGR 340 | Digital Signal Processing |
| ENGR 350 | Computer Networks |
| ENGR 345 | Systems Engineering Principles |
| ENGR 355 | Communications Systems |
| ENGR/CS 360 | Computer Architecture and Organization |
| ENGR 380 | Systems Design |
| ENGR 384 | Mechanics of Materials |
| ENGR 390 | Green Power Systems |
| ENGR 420 | Decision and Risk Analysis |
| ENGR 495 | Topics in Engineering |
| CS 363 | Web Programming |
| CS 430 | Artificial Intelligence |
| CS 432 | Machine Learning |
| CS 440 | Mobile App Development |
| CS/ENGR 452 | Internet of Things |
| CS 484 | Cyber Security |
| CS 495 | Topics in Computer Science |
| CS 496 | Writing 3: Ethics in Computing and Engineering [4] |

**Total Units**                                                                                         **85**

[1]    The General Education Civic Knowledge and Engagement course recommended by the Department of Engineering and Computer Science is ENGR 101.

[2]    The General Education Intercultural Competence course recommended by the Department of Engineering and Computer Science is ENGR 110.

[3]    The General Education Writing 2 course recommended by the Department of Engineering and Computer Science is WRIT 242.

[4]    The General Education Writing 3 course recommended by the Department of Engineering and Computer Science is CS 496.

[5]    Meets the General Education Social Sciences requirement.

[6]    Meets 1 unit of the General Education Oral Communication requirement (taking CS 120 or ENGR 120, CS 290, and CS 480; OR CS 120 or ENGR 120, ENGR 240, and ENGR 480 satisfies the General Education Oral Communication requirement).

[7]    Meets the General Education Integrative and Applied Learning requirement.

[8]    Meets the General Education Natural Sciences requirement.

[10]   To receive credit for a concentration, students must take 12 units from a single concentration. Students may choose any 4 electives to meet the 12-unit major requirement, but they will not earn a concentration.

## Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. Apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. Communicate effectively with a range of audiences.
4. Recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. Function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. Develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
7. Acquire and apply new knowledge as needed, using appropriate learning strategies.
8. Use relevant software systems and tools pertinent to modern engineering practice.

# BS in Mathematics

58-60 units

The BS in Mathematics (https://www.apu.edu/clas/programs/math-major/) at Azusa Pacific University provides students with a strong foundation in the mathematics of continuous change (calculus and analysis), of pattern and symmetry (linear and abstract algebra), of space (geometry and topology), of chance (probability), and of data (statistics). The major focuses on depth of conceptual understanding, rigorous mathematical proof, and problem-solving strategies. While this major does treat applications of mathematics and includes courses in physics and computer science, the emphasis is on theory. Students who prefer a focus on applications are encouraged to choose the applied mathematics major.

A student who majors in mathematics has the option of obtaining a Bachelor of Arts (BA) or a Bachelor of Science (BS) degree. Both degrees have the same mathematics requirements, but the BS degree requires a minor in physics (p. 111), chemistry (p. 67), or computer science (p. 108) (see these subject areas for requirements and course descriptions).

## Career Opportunities

The BS in Mathematics degree program prepares graduates to be quantitative experts in a variety of fields: secondary or university teaching, mathematical research (for business, government, or the academy), cryptography, finance and economics, statistics and data analysis, or operations research and management consulting. Mathematics is also an excellent major for quantitatively minded students who want to go into business (see the finance minor (p. 883)), medicine (see the premedical program (p. 175)) or law (see the prelaw minor (p. 142)). Math majors have some of the highest rates of acceptance to graduate schools in all three of these fields.

APU mathematics graduates have advanced to prestigious graduate schools, have accepted choice offers to teach at various secondary schools, have been selected for Teach for America and Math for America, and have moved into attractive industry positions.

Students preparing for a career in actuarial science, industrial mathematics, mathematical physics, or computer science are encouraged to consider the applied mathematics major.

There is a strong demand for mathematics teachers. Students desiring a junior or senior high school teaching credential should note the requirements of the single-subject waiver program for mathematics. Completion of the Secondary Math Education Track (see below) waives the CSET exam requirement for entrance into a credentialing program.

# Requirements

| Code | Title | Units |
|------|-------|-------|
| **Required Courses** | | |
| MATH 165 | Calculus I | 3 |
| MATH 166 | Calculus II | 3 |
| MATH 167 | Sequences and Series [F] | 1 |
| MATH 250 | Data Analysis [F] | 3 |
| MATH 268 | Multivariable Calculus | 3 |
| MATH 270 | Ordinary Differential Equations [S] | 4 |
| MATH 280 | Discrete Mathematics and Proof [F] | 3 |
| MATH 290 | Linear Algebra [S] | 3 |
| MATH 400 | Abstract Algebra [ES] | 3 |
| MATH 450 | Real Analysis [EF] | 3 |
| MATH 480 | Writing 3: Mathematical Reading, Writing, and Presentation [F, 1] | 3 |
| MATH 496 | Mathematics Senior Seminar [S, 2] | 3 |
| CS 120 | Introduction to Computer Science I [3] | 4 |
| PHYC 165 & PHYC 145 | Physics for Science and Engineering: Mechanics and Physics Laboratory I [4,F] | 5 |
| **Total Units** | | **44** |

In addition to the required courses above, complete one of the tracks below. You must also complete a minor in physics, chemistry, computer science, or statistics.

| Code | Title | Units |
|------|-------|-------|
| **General Mathematics Track** | | |
| Complete at least 14 units from the courses below. You must complete MATH 361 and at least one of MATH 460 and MATH 470. You cannot count both PHYC 166 and CS 125. | | 14 |
| MATH 269 | Vector Calculus [OF] | |
| MATH 340 | Geometry [S] | |
| MATH 361 | Introduction to Modeling with Probability | |
| MATH 390 | Number Theory [OF] | |
| MATH 460 | Topology [OS] | |
| MATH 470 | Complex Analysis [ES] | |
| MATH 495 | Advanced Topics in Mathematics | |
| CS 125 | Introduction to Computer Science II | |
| PHYC 166 & PHYC 146 | Physics for Science and Engineering: Electricity and Magnetism and Physics Laboratory II [S] | |
| **Total Units** | | **14** |

| Code | Title | Units |
|------|-------|-------|
| **Secondary Math Education Track** | | |
| Complete all 16 units below. This track meets the requirements of the CTC-approved Single Subject Waiver program. | | |
| MATH 130 | Introduction to Statistics [5] | 3 |
| MATH 301 | Mathematics for Secondary Teachers [OF] | 3 |
| MATH 340 | Geometry [S] | 3 |
| MATH 390 | Number Theory [OF] | 3 |
| EDLS 202 | Introduction to Teaching as a Profession (7-12) [6] | 4 |
| **Total Units** | | **16** |

[1] Meets the General Education Writing 3 requirement.
[2] Meets the General Education Integrative and Applied Learning requirement.

| | |
|---|---|
| [3] | Meets the General Education Oral Communication requirement if taken with CS 290 and CS 480, or ENGR 240 and ENGR 480. |
| [4] | Meets the General Education Natural Sciences requirement. Students must complete both PHYC 165 and PHYC 145 to fulfill the GE Natural Sciences requirement. |
| [5] | Meets the General Education Quantitative Literacy requirement. |
| [6] | Meets the General Education Civic Knowledge and Engagement requirement. |

| | |
|---|---|
| F | Offered in Fall only |
| S | Offered in Spring only |
| F/S | Offered in both Fall and Spring terms |
| EF | Offered in Fall in even years |
| ES | Offered in Spring in even years |
| OF | Offered in Fall in odd years |
| OS | Offered in Spring in odd years |

## Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Master fundamental mathematical methods and problem solving strategies.
2. Employ logical reasoning and standard proof techniques to construct rigorous mathematical arguments.
3. Communicate mathematical ideas in speech and writing, combining precise language and notation with insightful explanation.
4. Use mathematical models to analyze cross-disciplinary problems.
5. Employ appropriate technology and computational techniques.
6. Articulate how Christian perspectives and the study of mathematics and its applications mutually inform and enhance each other.

# BS in Physics

61-68 units

Physics is the foundation for most science and engineering disciplines. The study of physics focuses on broad topics such as matter, energy, gravitation, electricity and magnetism, atomic and nuclear structures, the theory of relativity, and quantum mechanics. By understanding the behavior of matter and energy at a fundamental level, physicists are equipped to further our knowledge of the universe through research and to apply knowledge to new technologies and engineering.

## Career Opportunities

The BS in Physics (https://www.apu.edu/clas/programs/physics-major/) equips graduates to teach physics, work in industrial or government engineering or research, or pursue graduate studies in physics or in a variety of related disciplines. Some specific career options include work in materials science, space exploration, aerospace, technical instrumentation, fundamental research, and the computer industry. A physics major is also an excellent foundation for further studies in a wide range of interdisciplinary fields such as medical physics, engineering, meteorology, hydrology, geophysics, or economics.

## Requirements

| Code | Title | Units |
|---|---|---|
| **Physics Core (Required)** | | |
| PHYC 145 | Physics Laboratory I [1] | 1 |
| PHYC 146 | Physics Laboratory II | 1 |
| PHYC 147 | Physics Laboratory III | 1 |
| PHYC 165 | Physics for Science and Engineering: Mechanics [1] | 4 |
| PHYC 166 | Physics for Science and Engineering: Electricity and Magnetism | 4 |
| PHYC 167 | Physics for Science and Engineering: Relativity | 1 |
| PHYC 168 | Physics for Science and Engineering: Waves and Thermodynamics | 3 |
| PHYC 470 | Writing 3: Advanced Laboratory [2, OS] | 3 |
| CHEM 151 | General Chemistry I [1] | 4 |
| MATH 165 | Calculus I | 3 |

| MATH 166 | Calculus II | 3 |
|---|---|---|
| MATH 268 | Multivariable Calculus | 3 |
| MATH 270 | Ordinary Differential Equations [S] | 4 |
| **Total Units** | | **35** |

In addition to the required courses above, complete one of the tracks below:

## General Physics Track

| Code | Title | Units |
|---|---|---|
| **Required Courses** | | |
| PHYC 300 | Physics Research Seminar [3,S] | 1 |
| PHYC 361 | Electricity and Magnetism [ES] | 3 |
| PHYC 370 | Waves and Optics [EF] | 3 |
| PHYC 380 | Classical Mechanics [OF] | 4 |
| PHYC 401 | Thermodynamics [ES] | 3 |
| PHYC 431 | Computational Methods for Physics [EF] | 3 |
| PHYC 440 | Quantum Mechanics [OS] | 3 |
| PHYC 499 | Physics Thesis [3,F] | 2 |
| MATH 167 | Sequences and Series [F] | 1 |
| MATH 269 | Vector Calculus [OF] | 2 |
| CS 120 | Introduction to Computer Science I | 4 |
| Choose one of the following: | | 4 |
| BIOL 151 | General Biology I [1] | |
| CHEM 152 | General Chemistry II | |
| ENGR 215 | Electrical Circuits and Systems | |
| **Physics Core** | | **35** |
| **Total Units** | | **68** |

## Physics Secondary Education Track

| Code | Title | Units |
|---|---|---|
| **Required Courses** | | |
| BIOL 151 | General Biology I [1] | 4 |
| PHYC 125 | Earth Science Concepts and Applications | 3 |
| PHYC 311 | Teaching and Learning in STEM [4] | 2 |
| PHYC 312 | STEM Education Research Seminar [4,5] | 2 |
| PHYC 313 | STEM Teaching Practicum [4,6] | 3 |
| **Upper-division Electives** | | **12-13** |
| Choose four of the following: | | |
| PHYC 361 | Electricity and Magnetism [ES] | |
| PHYC 370 | Waves and Optics [EF] | |
| PHYC 380 | Classical Mechanics [OF] | |
| PHYC 401 | Thermodynamics [ES] | |
| PHYC 431 | Computational Methods for Physics [EF] | |
| PHYC 440 | Quantum Mechanics [OS] | |
| **Physics Core** | | **35** |
| **Total Units** | | **61-62** |

[1]    Meets the General Education Natural Sciences requirement.
[2]    Meets the General Education Writing 3 requirement.
[3]    1 unit of PHYC 300 and 2 units of PHYC 499 meet the General Education Integrative and Applied Learning requirement.
[4]    These courses are cross-listed as follows: MATH 311/PHYC 311; MATH 312/PHYC 312; and MATH 313/PHYC 313.
[5]    1-unit course taken twice.

[6] 1-unit course taken three times.

| | |
|---|---|
| F | Offered in Fall only |
| S | Offered in Spring only |
| F/S | Offered in both Fall and Spring terms |
| EF | Offered in Fall in even years |
| ES | Offered in Spring in even years |
| OF | Offered in Fall in odd years |
| OS | Offered in Spring in odd years |

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Use mathematical methods to solve quantitative physics problems.
2. Use qualitative reasoning to explain physics phenomena.
3. Draw conclusions from experimental data with measurement uncertainty.
4. Use laboratory apparatus to conduct experiments and collect data.
5. Analyze features of physical models (e.g., by approximation methods, computational methods, etc.).
6. Reconcile scientific and biblical worldviews.

# Minor in Computer Information Systems

23-25 units

A computer information systems minor meets the needs of business-minded students specializing in information technology at the professional level. It provides graduates with a variety of technological skills needed by organizations and businesses today. The program comprises a fundamental understanding of the use, knowledge, function, installation, and maintenance of computers. Topics include database systems, computer information systems, web programming, accounting, and principles of management.

## Requirements

Consult with the department for each semester's course offerings, since they are not necessarily the same every semester.

Computer information systems students are required to have a laptop for classroom work.

| Code | Title | Units |
|---|---|---|
| **CIS Core Courses** [1] | | |
| CS/ENGR 120 | Introduction to Computer Science I [2] | 4 |
| CS 125 | Introduction to Computer Science II | 4 |
| CS 315 | Fundamentals of Network Administration | 3 |
| CS 325 | Telecommunications and Interfacing | 3 |
| Select one of the following: | | 3 |
|   CS 115 | Impact of Social Media [3] | |
|   WRIT 242 | Writing 2: Entrepreneurial Tech Start-ups [4] | |
| Select two of any CS or ENGR course numbered 200 or above. | | 6-8 |
| **Total Units** | | **23-25** |

[1] Students earning the computer science major are not eligible to earn the CIS minor.
[2] Meets 1 unit of the General Education Oral Communication requirement (taking CS 120, CS 290, and CS 480—or CS 120, ENGR 240, and ENGR 480—satisfies the General Education Oral Communication requirement).
[3] Meets the General Education Social Science requirement.
[4] Meets the General Education Writing 2 requirement.

## Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Analyze a complex computing problem and apply principles of computing and other relevant disciplines to identify solutions.
2. Design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program's discipline.
3. Apply computer science theory and software development fundamentals to produce computing-based solutions.

# Minor in Computer Science

23 units

A minor in computer science equips mathematically minded students specializing in computer programming. The minor comprises a fundamental understanding of the use, knowledge, function, installation, programming, and maintenance of computers, and provides graduates with a variety of technological skills needed in today's workplace. There are a number of benefits to adding a minor in computer science to related fields such as mathematics. Students should consult their department advisor or an advisor in computer science to determine how adding a computer science minor might further their educational or professional goals.

## Requirements

Consult with the department for each semester's course offerings, since they are not necessarily the same every semester.

Computer Science students are required to have a laptop for classroom work.

| Code | Title | Units |
|---|---|---|
| CS/ENGR 120 | Introduction to Computer Science I [1] | 4 |
| CS/ENGR 125 | Introduction to Computer Science II | 4 |
| CS/ENGR 160 | Discrete Structures [2] | 3 |
| CS/ENGR 260 | Algorithms and Data Structures | 3 |
| MATH 165 | Calculus I | 3 |
| Computer Science Minor Electives | | 6 |
| Select two of the following: | | |
| CS 230 | Systems Programming and Operating Systems | |
| CS 290 | Database Management Systems [1] | |
| CS 315 | Fundamentals of Network Administration | |
| CS 325 | Telecommunications and Interfacing | |
| CS 360 | Computer Architecture and Organization | |
| CS 363 | Web Programming | |
| CS 430 | Artificial Intelligence | |
| CS 440 | Mobile App Development | |
| CS/ENGR 452 | Internet of Things | |
| CS 495 | Topics in Computer Science | |
| **Total Units** | | **23** |

[1]  Meets 1 unit of the General Education Oral Communication requirement (taking CS 120, CS 290, and CS 480—or CS 120, ENGR 240, and ENGR 480—satisfies the General Education Oral Communication requirement).

[2]  MATH 280 may be substituted for CS 160.

## Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Analyze a complex computing problem and to apply principles of computing and other relevant disciplines to identify solutions.
2. Design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program's discipline.
3. Apply computer science theory and software development fundamentals to produce computing-based solutions.

# Minor in Data Science

21-23 units

The minor in data science comprises a core introductory sequence in statistics, computer science, data ethics, and data visualization, plus three elective courses to be chosen from other data-centric and computational courses across departments.

| Code | Title | Units |
| --- | --- | --- |
| **Core Requirements** | | |
| MATH 130 | Introduction to Statistics [1] | 3 |
| or MATH 361 | Introduction to Modeling with Probability | |
| CS 120 | Introduction to Computer Science I [2] | 4 |
| MATH 492 | Ethics in Data Analytics | 2 |
| Select one of the following: | | 3 |
| MATH 451 | Data Visualization | |
| BUSI 244 | Data Analytics, Spreadsheets, and Data Visualization | |
| Select three of the following: [3] | | 9-11 |
| MATH 250 | Data Analysis | |
| MATH 350 | Statistical Models | |
| CS 260 | Algorithms and Data Structures | |
| CS 430 | Artificial Intelligence | |
| CS 432 | Machine Learning | |
| BUSI 246 | Foundations of Business Analytics | |
| BUSI 314 | Big Data Analytics for Business | |
| PSYC 511 | Experimental Research Methods | |
| PSYC 512 | Non-Experimental Research Methods | |
| PSYC 518 & 518L | Analysis of Variance and Analysis of Variance Lab | |
| PSYC 519 & 519L | Regression and Regression Lab | |
| **Total Units** | | **21-23** |

[1] MATH 130 meets the General Education Quantitative Literacy requirement.
[2] Meets a portion of the General Education Oral Communication requirement. Does not fulfill the requirement in total unless taken with CS 290 and CS 480, or ENGR 240 and ENGR 480.
[3] At least one course must be outside the student's home department, and at least one course must be 300-level or higher.

## Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Utilize fundamentals of statistical analysis to glean insight from data.
2. Utilize fundamentals of computer programming to manage and analyze data.
3. Communicate data effectively via visualizations and reproducible reports.
4. Engage critically with issues of data ethics from a Christian worldview.

# Minor in Mathematics

19 units

Students interested in the mathematics minor may also wish to consider the statistics minor (p. 112)—students are permitted to earn both.

## Requirements

| Code | Title | Units |
|---|---|---|
| **Requirements** [1] | | |
| MATH 165 | Calculus I | 3 |
| MATH 166 | Calculus II | 3 |
| MATH 167 | Sequences and Series [F] | 1 |
| **Electives** | | **12** |
| Select at least 12 units from below; at least two courses must be at the 200 level. | | |
| MATH 268 | Multivariable Calculus | |
| MATH 270 | Ordinary Differential Equations [S] | |
| MATH 280 | Discrete Mathematics and Proof [F] | |
| MATH 290 | Linear Algebra [2, S] | |
| MATH 295 | Applied Linear Algebra [2, F] | |
| MATH 340 | Geometry [S] | |
| MATH 361 | Introduction to Modeling with Probability | |
| MATH 370 | Partial Differential Equations [OS] | |
| MATH 375 | Dynamical Systems [OF] | |
| MATH 390 | Number Theory [OF] | |
| MATH 400 | Abstract Algebra [ES] | |
| MATH 450 | Real Analysis [EF] | |
| MATH 455 | Numerical Analysis [ES] | |
| MATH 460 | Topology [OS] | |
| MATH 470 | Complex Analysis [ES] | |
| MATH 495 | Advanced Topics in Mathematics | |
| **Total Units** | | **19** |

[1]    Students earning the mathematics major or applied mathematics major are not eligible to earn the mathematics minor.
[2]    It is not permitted to count MATH 290 **and** MATH 295 toward the mathematics minor.

| | |
|---|---|
| F | Offered in Fall only |
| S | Offered in Spring only |
| F/S | Offered in both Fall and Spring terms |
| EF | Offered in Fall in even years |
| ES | Offered in Spring in even years |
| OF | Offered in Fall in odd years |
| OS | Offered in Spring in odd years |

## Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Master fundamental mathematical methods and problem solving strategies.
2. Employ logical reasoning and standard proof techniques to construct rigorous mathematical arguments.
3. Communicate mathematical ideas in speech and writing, combining precise language and notation with insightful explanation.
4. Use mathematical models to analyze cross-disciplinary problems.

5. Employ appropriate technology and computational techniques.
6. Articulate how Christian perspectives and the study of mathematics and its applications mutually inform and enhance each other.

# Minor in Physics

24 units

The physics minor is ideal for students majoring in mathematics, engineering, computer science, chemistry, or biology.

## Requirements

| Code | Title | Units |
|------|-------|-------|
| **Core Courses** | | |
| PHYC 145 | Physics Laboratory I [1] | 1 |
| PHYC 146 | Physics Laboratory II | 1 |
| PHYC 147 | Physics Laboratory III | 1 |
| PHYC 165 | Physics for Science and Engineering: Mechanics [1] | 4 |
| PHYC 166 | Physics for Science and Engineering: Electricity and Magnetism | 4 |
| PHYC 167 | Physics for Science and Engineering: Relativity | 1 |
| PHYC 168 | Physics for Science and Engineering: Waves and Thermodynamics | 3 |
| MATH 268 | Multivariable Calculus | 3 |
| Select three of the following: | | 6 |
| PHYC 361 | Electricity and Magnetism [ES] | |
| PHYC 370 | Waves and Optics [EF] | |
| PHYC 380 | Classical Mechanics [OF] | |
| PHYC 401 | Thermodynamics [ES] | |
| PHYC 431 | Computational Methods for Physics [EF] | |
| PHYC 440 | Quantum Mechanics [OS] | |
| **Total Units** | | **24** |

[1]  Meets the General Education Natural Sciences requirement.

| F | Offered in Fall only |
|---|---|
| S | Offered in Spring only |
| F/S | Offered in both Fall and Spring terms |
| EF | Offered in Fall in even years |
| ES | Offered in Spring in even years |
| OF | Offered in Fall in odd years |
| OS | Offered in Spring in odd years |

## Program Learning Outcomes
## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Use mathematical methods of solve quantitative physics probems
2. Use qualitative reasoning to explain physics phenomena
3. Draw conclusions from experimental data with measurement uncertainty
4. Use laboratory apparatus to conduct experiments and collect data
5. Analyze features of physical models (e.g. by approximation methods, computational methods, etc.)
6. Reconcile scientific and biblical worldviews

# Minor in Statistics

21 units

Students with any major or minor are eligible to earn the statistics minor. In particular, a student is permitted to earn the statistics minor and the mathematics minor.

## Requirements

| Code | Title | Units |
|---|---|---|
| MATH 165 | Calculus I | 3 |
| MATH 166 | Calculus II | 3 |
| MATH 250 | Data Analysis [F] | 3 |
| MATH 350 | Statistical Models [ES] | 3 |
| MATH 361 | Introduction to Modeling with Probability | 3 |
| MATH 362 | Mathematical Statistics [EF] | 3 |
| Choose one of the following: | | 3 |
| MATH 290 | Linear Algebra [S] | |
| MATH 295 | Applied Linear Algebra [F] | |
| **Total Units** | | **21** |

| | |
|---|---|
| F | Offered in Fall only |
| S | Offered in Spring only |
| F/S | Offered in both Fall and Spring terms |
| EF | Offered in Fall in even years |
| ES | Offered in Spring in even years |
| OF | Offered in Fall in odd years |
| OS | Offered in Spring in odd years |

## Program Learning Outcomes
### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Master fundamental mathematical methods and problem solving strategies.
2. Communicate mathematical ideas in speech and writing, combining precise language and notation with insightful explanation.
3. Use mathematical models to analyze cross-disciplinary problems.
4. Employ appropriate technology and computational techniques.

# MS in Applied Statistics and Data Science

The MS in Applied Statistics and Data Science (https://www.apu.edu/clas/programs/applied-statistics-masters/) program provides professional preparation for careers involving the use of data analysis to inform decisions. The program includes required courses providing a foundation in statistical methods and theory, and electives that allow students to emphasize biostatistics or business analytics and explore a variety of statistical models and techniques for analyzing data. Expertise in the use of statistical software packages is developed. In keeping with the mission of Azusa Pacific University, this program encourages an active conversation about the role of a Christian perspective in the field of applied statistics, particularly in terms of ethical issues prevalent in data science.

## Requirements

| Code | Title | Units |
|---|---|---|
| **Core Courses** | | |
| STAT 501 | Introduction to Modeling with Probability | 3 |
| STAT 511 | Applied Regression Analysis | 3 |
| STAT 521 | Statistical Computing and Programming | 3 |
| STAT 542 | Applied Logistic Regression and Survival Analysis | 3 |

| | | |
|---|---|---|
| STAT 592 | Ethics in Data Analytics | 2 |
| **Culminating Experience** | | |
| STAT 596 | Practicum | 1 |
| STAT 597 | Statistical Consulting Practicum | 4 |
| STAT 598 | Culminating Project | 4 |
| **Elective Courses** | | **9** |
| MATH 199 | Calculus Fundamentals for Statistics [1] | |
| MATH 299 | Linear Algebra Fundamentals for Statistics [1] | |
| STAT 502 | Mathematical Statistics | |
| STAT 512 | Analysis of Variance and Design of Experiments | |
| STAT 541 | Epidemiology Research Methods | |
| STAT 543 | Advanced Modeling for Data Science | |

| STAT 574 | Discrete Data Analysis | |
| STAT 575 | Applied Survey Sampling | |
| STAT 595 | Special Topics in Applied Statistics | |
| CS 532 | Machine Learning | |
| **Total Units** | | **32** |

[1] Does not count toward elective credit; required if not taken previously.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Master fundamental probability models and the statistical theory and methodology required to draw appropriate inferences from data.
2. Demonstrate the ability to analyze data by appropriately fitting, assessing, and interpreting a variety of statistical models in real-world interdisciplinary problems.
3. Employ appropriate statistical software for the management and analysis of data.
4. Communicate the results of statistical analyses effectively both orally and in writing to a broad audience.
5. Critically assess the appropriateness and validity of the statistical applications and methodology involved in published studies.
6. Effectively function in an interdisciplinary collaborative environment using the skills of a professional statistician to support decision making.
7. Articulate ethical issues in data analysis and how Christian perspectives relate to the profession of statistics.

# Department of English

## Mission

The Department of English (https://www.apu.edu/clas/english/) introduces students to significant works of the literary imagination, guides their development in language and composition, and encourages them to read attentively, reflect deeply, write cogently, and express themselves creatively, all to glorify God and serve others.

## Programs

The department offers an English major, English minor, and creative writing minor, as well as an English Education concentration within the major for students interested in becoming English teachers. For more information about this program, contact the department at (626) 812-3079.

## Career Opportunities

Teaching is still a strong interest of many English and language majors, but equally valid are career goals in ministry, law, business, medicine, and government services. Communication areas such as advertising, technical writing, editing, publishing, and library science, or any field that requires clarity of written expression and the ability to analyze and organize effective responses, are also appealing career opportunities. English majors are encouraged to double major or at least minor in a complementary field such as business, religion, psychology, or communication, so that their language skills can be applied to a different professional field.

## Programs

### Majors

### Minors

## Courses

### ENGL 111, Studies in Literature, 3 Units

This course is topically driven according to the most engaging themes, ideas, or bodies of literature, helping students develop skills in literary analysis, genre recognition, and creative expression. Students learn to read, think about, and enjoy great literary works of the past and present. *Meets the General Education Requirement: Humanities: Literature.*

### ENGL 212, Literary Critical Strategies, 3 Units

This course introduces majors to specialties within the discipline of English, as well as to literary theory and criticism, including but not limited to major approaches and theories such as Feminist Literary Theory, New Historicism, Marxist Literary Theory, Christian or Theological Approaches, and Postcolonial Theory. Special emphasis will be given to practice in close reading and the application of traditional and electronic research skills in the humanities.

### ENGL 215, Introduction to Creative Writing, 3 Units

This course introduces students to poetry, fiction, nonfiction, and script writing, and what it takes to write successfully today in each of these genres. Wide reading introduces students to what is being done in each genre and facilitates writing in them. By the end of the semester, students complete a portfolio of several drafts of their work in each creative writing genre.
**Prerequisite:** C or above in WRIT 110

### ENGL 222, English Literature to 1789, 3 Units

A chronological study of English literature from the beginning through the Neoclassical period is provided in this course. *Meets the General Education Requirement: Humanities: Literature.*

### ENGL 224, World Literature to the Renaissance, 3 Units

In this course, students review world literature in order to broaden students' literary horizons and expand their understanding of the forms, content, and cultural contexts in which literature is written. Students discover new literatures to further explore and enjoy, and this new enjoyment sheds light on their own literary traditions. *Meets the General Education Requirement: Humanities: Literature.*
**Prerequisite:** WRIT 110

### ENGL 232, English Literature Since 1789, 3 Units

English Literature Since 1789 is a 3-unit, lower-division General Education English course that provides a chronological survey of Romantic, Victorian, and Modern literature in multiple genres (poetry, fiction, drama, non-fiction), seeking to place each work in its historical and cultural context. Priority will be given to questions about the literary imagination and human culture. How does literature inspire, nourish, and sustain our search for truth, goodness, and beauty, and what difference does it make to read such literature from a thoughtful Christian perspective? This course is recommended especially for students who intend to study abroad at Oxford University. *Meets the General Education Requirement: Humanities: Literature.*

## ENGL 234, World Literature Since the Renaissance, 3 Units

The goal of this class is to familiarize students with some major authors of literature outside of England and America, between 1500 and the present. The term World Literature is not meant to imply that there is a unitary literature of the world, but that literature is a product of all languages and cultures and therefore is worldwide phenomenon. *Meets the General Education Requirement: Humanities: Literature.*
**Prerequisite:** WRIT 110

## ENGL 244, American Literature to 1865, 3 Units

This course is a survey of American literature from its beginnings to 1865. Students examine major writers and literary movements in America through the Civil War. Topics may include colonialism, Puritanism, religious dissent, captivity narratives, slavery, abolitionism, deism, national identity, race, gender, realism, romance, self-reliance, transcendentalism, and so on. The course also examines the role of religion in American literature and literary history, as well as minority literature that has vastly expanded the literary canon. *Meets the General Education Requirement: Humanities: Literature.*
**Prerequisite:** WRIT 110

## ENGL 254, American Literature Since 1865, 3 Units

This course will be a survey of American literature from the Civil War period to the present. Topics to be discussed include the Civil War; slavery and emancipation; literary movements including realism, regionalism, naturalism, modernism, and postmodernism; race and ethnicity; immigration and assimilation; gender and sexuality; the Great Migration; lynching; consumerism and suburbanization; globalization and transnationalism; and so on. Students will read and analyze American literature in historical context, asking whether and to what extent literary texts perform cultural work in the real world. We will also consider the role that religion has played in American literature and literary history, examining such issues as belief and unbelief, religion and secularism, pluralism and tolerance. Finally, we will study various American ethnic literatures that have vastly expanded the literary canon. *Meets the General Education Requirement: Humanities: Literature.*

## ENGL 301, Creative Writing: Fiction, 3 Units

In a writing workshop, students read, analyze, and write prose fiction, concentrating on plot, character, setting, and theme in the short story.

## ENGL 302, Creative Writing: Poetry, 3 Units

Students survey trends in the prior century's English language poetry in support of their own writing of both an analytical paper and a poetry portfolio that includes traditional and free forms.

## ENGL 303, Creative Writing: Drama and Film, 3 Units

This course examines the art and craft of writing for the stage, film, or television. Students learn to analyze and evaluate their audience, their writing tasks, and their communication goals, and then match these exterior concerns of craft to their interior quest to say something meaningful to themselves and others.

## ENGL 304, Creative Writing: Creative Nonfiction, 3 Units

This course examines the art and technique of creative nonfiction. Students analyze fictional techniques such as plot and characterization, and learn to use them in writing about subjects of their own choosing. Some focus is given to the art of memoir as a literary genre.

## ENGL 311, Film and Literature, 3 Units

This course examines similarities and differences between film and literature, with an emphasis on film as a narrative and visual medium. Using the terms, methods, and techniques of film analysis, students will analyze and write about film and literature in terms of plot structure, character development, themes, genres, and so on. Some attention is given to theories of adaptation as well as film criticism and theory.
**Prerequisite:** WRIT 110 or enrollment in the Honors College

## ENGL 360, Technical and Professional Writing, 3 Units

This course acquaints students with the writing conventions of the professional and technical communities. It helps students understand writing as an essential analytical and communication tool in the professional world and gives them experience in writing proposals, incorporating graphics, and writing for clients to solve problems encountered in that world.
**Prerequisite:** WRIT 110

## ENGL 361, Freelance Magazine Article Writing, 3 Units

This course provides training in writing and marketing various types of nonfiction articles in professional magazines. Students gain experience in writing such articles as book reviews, personal experience articles, personal profiles, how-to articles, devotional articles, and human interest features.

## ENGL 364, American Ethnic Literature, 3 Units

This course will study American ethnic literature. Students will read works by American writers from various ethnic groups in the United States (e.g. African American, Asian American, Jewish, Chicano, and Euro-American writers who address issues of race and ethnicity). Major topics include the American Dream, literary canon formation, gender, equality, race, ethnicity, immigration, multiculturalism, assimilation/acculturation, and religion, This course is intended to give you practice in close reading and literary interpretation and to emphasize the value of literature and the reading experience. English 364 aims to expand your ability to interact with American ethnic literature through analysis, interpretation, and criticism. *Meets the General Education Requirement: Intercultural Competence.*
**Prerequisite:** WRIT 110

## ENGL 374, African American Literature, 3 Units

This course examines African American literature from its beginnings in oral tradition to the present. Selected readings vary. Topics to be addressed may include race, class, ethnicity, gender, language, slavery, equality, freedom, folklore, miscegenation, passing, pluralism, religion, segregation, syncretism, canon formation, and more.

## ENGL 377, Shakespeare, 3 Units

Students in this course undertake a representative study of Shakespeare's sonnets, dramas, comedies, histories, tragedies, and romances.
**Prerequisite:** WRIT 110

## ENGL 384, Women Writers, 3 Units

This course will enable students to read and analyze literary works by women, which have often been excluded by anthology editors and marginalized in survey courses. Students will also gain a broader understanding of the political, social, and cultural factors surrounding these writers and texts. Topics will vary, but might include Women Poets, Women Novelists, 19th Century British Women Writers, 20th Century American Women Writers, Medieval Women Writers, Women Writing Science Fiction.
**Prerequisite:** WRIT 110

## ENGL 386, Contemporary Global Writers, 3 Units

Students will read short fiction, creative nonfiction, and novels by contemporary global writers of the 21st century. Students will examine assumptions about ethnic and national identities, immigration, cosmopolitanism, global citizenship, and literary cultures around the world. This class will consider the role and reputation of the United States and of Christianity abroad. Student will look at the literary techniques and use of point of view to create an insider's perspective into a culture.
**Prerequisite:** WRIT 110 or enrollment in the Honors College

## ENGL 387, Contemporary Writers, 3 Units

This course introduces students to current trends in literature. Students will read short stories and novels by contemporary writers, paying special attention to the craft, structure, and literary techniques of their work. Students will develop strategies of literary analysis and may respond to these works with literary experimentation of their own at different points in the semester. In this course, we will also examine the role of Christianity in contemporary literature.
**Prerequisite:** WRIT 110 or Honors standing

## ENGL 402, Principles of Language, 3 Units

This course provides an introductory survey of the nature and use of language: basic speech sounds, syllable structure, word formation, grammar systems, language acquisition and variation, historical aspects of language change, and their relevance to language teachers.

## ENGL 403, History and Structure of English, 3 Units

Students in this course study the basic sound and grammar systems of language, as well as technical and social aspects of usage and historical language change, gaining an overview of the nature and uses of language in general and English in particular. The range of topics covered satisfies California Department of Education requirements as part of a program approved for English and/or liberal studies majors who plan to teach in California public schools. The course also meets California Common Core Standards. Traditional and modern analyses of grammar are covered, providing a grounding in the traditional eight parts of speech and the modern 12 lexical categories and their subcategories; a study of phrase, clause, and sentence types; and an overview of transformational and other modern perspectives on grammar and grammar teaching.
**Prerequisite:** WRIT 110

## ENGL 404, Approaches to Grammar, 3 Units

Traditional and modern analyses of grammar are covered, providing a grounding in the traditional eight parts of speech and a grounding in the modern 12 lexical categories and their subcategories; a study of phrase, clause, and sentence types; and an overview of transformational and other modern perspectives on grammar and grammar teaching.
**Prerequisite:** ENGL 402

## ENGL 405, American English Language History, 3 Units

A study of the origins and development of the English language within the Indo-European language family, and the growth of American English as a unique and dynamic variety among the several major offshoots of British English is the focus of this course.
**Prerequisite:** ENGL 404

## ENGL 406, Writing 3: Advanced Composition, 3 Units

This course is especially for students contemplating teaching at the elementary or secondary level, and of interest to students wanting to learn more about their own writing processes and writing instruction. It includes direct instruction and practice in writing in various forms, examining various composition theories and practices, and observing and practicing the teaching of composition, all based on the idea that writing is best learned through writing and learning how to teach it. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*
**Prerequisite:** Writing 2

## ENGL 410, American Novel, 3 Units

Students engage in extensive reading and analysis of selected romances and novels from 1800 to the present. This course traces the development of the genre in its American form and content.

## ENGL 425, Advanced Creative Writing, 3 Units

In a workshop setting, students read, write, analyze, and critique advanced work in one of the following areas: poetry, fiction, nonfiction, or playwriting/screenwriting.
**Prerequisite:** One of the following: ENGL 301, ENGL 302, ENGL 303, ENGL 304

## ENGL 434, Children's Literature, 3 Units

Literature, classical as well as contemporary, interesting to children through adolescence and of value to all who work with children either professionally or as parents, is covered in this course.

## ENGL 436, Adolescent Literature, 3 Units

This course is a study of literature for adolescent readers, traditionally those in the teen years. It aims to acquaint the students with both popular and enduring works and provides close critical reading of both. Criticisms of adolescent literature, as well as classroom applications for the works, are included in the class. The course is an upper-division elective in English, and of particular use to students planning to teach.
**Prerequisite:** WRIT 110; ENGL 111 or ENGL 212

## ENGL 466, British Novel, 3 Units

Students explore the origins and development of British fiction, reading representative novels from the 18th century to the present.

## ENGL 480, Contemporary Literary Criticism, 3 Units

This course explores theories about literature and critical approaches to literature. The testing of theories and the working out of the critical approaches occur through studying excerpts from selected works of literature. This course may be interesting not only to English majors, but also to students of philosophy, theology, and history, for what one learns about critical approaches to a literary text can be applied to all texts.

## ENGL 486, Topics in Film Analysis, 3 Units

This course examines the terms, methods, and techniques of film analysis in the context of a special topic that varies each semester depending on the instructor (e.g., Film Noir, Images of Women in Film, Shakespeare on Film, The Western). Emphasis is on formal analysis of film language, with consideration of other critical approaches to film.

## ENGL 487, Literary Movements, 3 Units

Students in this course study the literary texts, historical contexts, and critical debates of a significant literary period or movement. Course content may include exploration of corresponding cultural phenomena such as visual and performing arts, music, and film. Possible periods include Romantic, Postmodern, Classical, and Medieval. Selection varies depending on student interest and faculty availability. Repeatable once towards the literature concentration.

## ENGL 488, Significant Authors, 3 Units

Students in this course undertake intensive study of one, two, or three major authors. Possible authors include Chaucer, Dickinson, Austen and Woolf, C.S. Lewis, Tolstoy and Dostoevsky, and Mark Twain, among others. Selection varies depending on student interest and faculty availability. Repeatable once toward the literature concentration.

## ENGL 489, Literary Topics, 3 Units

Students in this course study literary topics and genres in English, American, and world literature. Possible topics include images of women in literature, religious autobiography, science fiction, and literature of the American West, among others. Selection varies depending on student interest and faculty availability. Repeatable once toward the Literature Concentration.

## ENGL 490, Writing Internship, 3 Units

This course allows for practical application of the writing skills learned in the classroom. Internships are arranged individually for students and supervised directly by the instructor. Experiences may include working for publishers, magazines, public relations firms, or other organizations in which writing is emphasized. Enrollment is contingent upon department approval. *Meets the General Education Requirement: Integrative and Applied Learning.*
**Prerequisite:** Instructor Consent

## ENGL 491, Teaching Assistantship, 1-3 Units

The English Teaching Assistantship is a 1-3-unit, upper-division English course that provides upperclassmen with an opportunity for hands-on learning about how to plan and execute a college-level literature and/or writing course. Enrollees will be mentored one-on-one by a full-time English professor in two or more of the following tasks: Research and development of syllabi and/or lecture materials, planning and leading whole-class or small group discussion, creating and managing Student Learning Outcomes through relevant assessments, applying and/or utilizing rubrics, course-related record-keeping, and offering scaffolding to struggling students.
**Prerequisite:** at least 6 units of ENGL at the 200 level or above

## ENGL 496, English and the Professions, 3 Units

This course is designed to help students integrate their Christian faith and values with their private and public lives as professionals in careers established for the English major, such as teaching, ministry, law, business, medicine, government service, and library science. Assigned readings, class discussions, and required essays allow students to practice skills acquired in the major and articulate faith integration. *Meets the General Education Requirement: Integrative and Applied Learning.*
**Prerequisite:** Writing 2

## ENGL 497, Readings, 1-4 Units

Consists of a program of study concentrating on assigned readings, discussions, and writing arranged between and designed by a student of upper-division standing and a full-time professor. An independent study fee is assessed for each enrollment in this class.

## ENGL 498, Directed Research, 1-4 Units

This course provides instruction in research design and technique, and gives students experience in the research process. The 1-unit expectation encompasses no fewer than 30 hours of work with accompanying reading, log, writing, and seminar presentation within the department or in a university research symposium. No more than 1 unit may be used to fulfill preparatory readings requirement. An independent study fee is assessed for each enrollment in this class.

**Prerequisite:** Junior or Senior Standing

## ENGL 499, Thesis/Project, 1-4 Units

This is a senior-level "capstone" type of independent study/research experience, involving the student in a unique project with a sophisticated level of research, synthesis, analysis, and communication. The 1-unit expectation encompasses no fewer than 30 hours of work with accompanying readings, log, instructor discussions, and writing of summary analysis and conclusions. The thesis or project may result in formal thesis, published article, or electronic media. No more than 1 unit may be used to fulfill preparatory readings requirement. An independent study fee is assessed for each enrollment in this class.

**Prerequisite:** Upper-division writing intensive course or instructor consent; and junior or senior standing

## ENGL 500, The Christian Imagination, 3 Units

Students in this course explore the history of Christian aesthetics, especially as it applies to the reading and writing of literature. They engage with thinkers representing a broad range of historical periods, geographic locations, and faith traditions, seeking to understand various ways that Christians have understood the role of the arts in the Church and culture. After surveying this variety of approaches, students begin refining their own convictions about the relationship between literature and faith and begin articulating their own sense of vocation as writers, readers, scholars, critics, and teachers. Students respond to the extensive reading in this course with a scholarly paper.

## ENGL 510, Literature and the Bible, 3 Units

Students in this course develop critical strategies for using the Bible as a tool for literary study, learning various ways the Bible has been read as literature, as well as the special challenges of reading the Bible as a sacred text. They gain expertise in bringing the Bible into conversation with secular literature and culture in ways that open rather than shut down dialogue. They also examine Biblical imagery, symbols, archetypes, and other storytelling devices in literary and other texts, making applications to genres pertinent to their concentration - for example, poetry and the Bible, parables in film and literature, or critical analysis of Biblical archetypes in the work of a particular author or group of authors.

## ENGL 520, Literature and Theology, 3 Units

Students in this course read, discuss, and critically analyze literary texts that deal directly or implicitly with religious themes. The main goal is to integrate the study of literary texts with insights gleaned from Christian theology and the Bible; to that end, students familiarize themselves with one or several theological themes within the Christian tradition and develop this theme (or cluster of themes) through analysis of one or several literary texts. The culminating project is a publishable (or conference-worthy) critical paper that examines one or several literary texts from a theologically informed Christian perspective. Theological themes vary according to the interests of students and faculty; previous topics included secularism and the sacred, the problem of evil, materialism vs. supernaturalism, sacramental imagination, social justice, poverty, the sacred land, Christ figures, prodigal sons and daughters, and illness, suffering, and death.

## ENGL 530, British Literature Seminar, 3 Units

This course studies various special topics in British literature and culture, including but not limited to authors, genres, movements, periods, and methodologies in British literary studies. Students study a range of authors and texts, as well as relevant secondary sources.

## ENGL 540, American Literature Seminar, 3 Units

Students in this course explore various special topics in American literature and culture, including but not limited to authors, genres, movements, periods, and methodologies in American literary studies. Students study a range of authors and texts, as well as relevant secondary sources.

## ENGL 550, World Literature Seminar, 3 Units

This course covers various special topics in world literature and culture, including but not limited to authors, genres, movements, periods, and methodologies in comparative literature and literary studies. Students study a range of authors and texts, as well as relevant secondary sources.

## ENGL 560, Creative Writing Seminar, 3 Units

This creative writing workshop enables students to create original texts in a creative genre (poetry, fiction, creative nonfiction, playwriting, screenwriting, or hybrid genres) by studying existing texts in that genre, exploring writing craft, and working through revision techniques.

## ENGL 568, Writing for Religious Audiences, 3 Units

Millions of readers across the world enjoy works written specifically for a Christian audience. Daily devotional magazine The Upper Room, for example, has a worldwide readership of 2 million, and Charles Stanley's In Touch magazine has a readership of 1 million. Students in this course learn to write for this large Christian audience and how to market their work to editors and agents, with a focus on the types of articles that are particularly open to freelance writers, such as book reviews, personal experience articles, and personal profiles. They also learn and practice the process of writing a book proposal and sample chapters for a nonfiction book targeted to the Christian market. Students also participate in an off-campus professional writers conference, where they pitch their article or book ideas to editors and agents.

## ENGL 570, Graduate Research Methods in English, 3 Units

This course helps students make the intellectual and emotional transition from undergraduate to graduate work, empowering them with the key skills needed for graduate work and preparing them for roles and/or further study beyond the MA. The course introduces students to graduate-level standards for conducting and presenting research in English and its related disciplines, and enlarges and deepens students' repertoire of skills in effectively using available research tools, including library databases, WorldCat, Link+, and more. Students build on the skills acquired as undergraduates in finding, critically evaluating, analyzing, and synthesizing primary and secondary sources in order to contribute to the existing scholarly discourse, learning to recognize how and where their individual interests and worldview intersect with, challenge, and speak to the larger academic community. Students also learn to formulate, deepen, and pursue graduate-level questions of scholarly interest over a sustained period of time. This course prepares students for their other graduate-level courses in the MA program and equips them to function as independent scholars outside the umbrella of a professor's guidance. Students who intend to pursue doctoral work, the legal field, or other careers involving research are strongly encouraged to take this course. Students who have been away from study for more than a year are also strongly encouraged to take this course.

## ENGL 580, Critical Theory Seminar, 3 Units

This course introduces students to critical theory in the context of a specific theme, theoretical movement, or literary topic. Students examine and practice models of critique and cultural analysis, considering how literature and language develop in particular social and material conditions. Topics include major theoretical movements in critical theory, such as poststructuralism, reader-response, queer theory, hermeneutics, and postcolonial studies, as well as emerging theoretical approaches, such as affect studies, critical race studies, ecocriticism, historical phenomenology, new formalism, and transnational studies. Course assignments equip students with the knowledge and skills required in order to do interdisciplinary work in literary studies.

## ENGL 590, Writing Center Pedagogy and Practice, 3 Units

In this course, students explore the pedagogical theory behind writing centers and, at a basic level, composition courses. Students also learn to apply the theory in their own interactions with students, whether at APU's Writing Center while enrolled in the master's program or in their future careers. In addition, students gain a better understanding of the complexities of writing processes, what successful writing processes look like, process and postprocess theory, and how to improve their own processes.

## ENGL 591, Literature Pedagogy for Adult Audiences, 3 Units

In this course, students will deepen their work of developing the literary mind as they apply their knowledge of literature to processes of planning, implementing, assessing, and reflecting on lessons, materials (including media), and curricula for adolescent and adult learners. To accomplish these competencies, students will read, discuss, and critically analyze texts and media that deal directly or implicitly with the study of literature, learning theory (e.g., envisionment, transactional theory of the literary work, formalism), and the Common Core State Standards. They will practice research-based teaching pedagogy that addresses the needs of diverse learners (e.g., generational, cultural, linguistic, learning styles, learning needs) at the secondary or college level. Observation of, and interviews with, expert teachers, coupled with curricular (lesson and syllabus) planning, teaching, research, discussion, application, and assessment will provide students with a practical foundation for teaching from a theologically-informed Christian perspective.

## ENGL 592, Introduction to Composition Studies, 3 Units

Students in this course explore the rich, diverse field of composition studies, with a focus on learning about pedagogy that encourages effective writing. Some reading in theory is recommended, to deepen awareness of how unexamined theory can lead to ineffective classroom practices. Topics include teaching process; understanding discourse models; using assessment for effective learning; studying composition historiographies; understanding how social, expressivist, and cognitive approaches to writing and language are important to pedagogies; understanding postprocess theories of rhetoric; and learning new and various ways to assess writing.

## ENGL 598, Thesis/Portfolio, 3 Units

Completion of a faculty-approved capstone project is a degree requirement for the MA in English. Students have three options to fulfill this requirement: 1) a literary critical thesis, 2) a creative writing portfolio, or 3) a curriculum portfolio. For detailed instructions, see the MA in English Handbook available in the Department of English. The capstone project allows students the liberty to critically explore areas that are of interest to them. The goal is for students to use the skills and knowledge that they have developed in the program to create a scholarly project that can be used to advance their career in the field of literary studies. Ultimately, the capstone project should serve as culminating evidence that student scholars have thought deeply about the discipline and the ways that faith informs, shapes, and enables the creation, appreciation, and interpretation of literature.
**Prerequisite:** Instructor permission required

## ENGL 599, Independent Study, 1-3 Units

In this course students pursue a program of individual study with a supervising faculty member on a subject or interest not covered in regular course offerings, which is developed in consultation with the faculty member and approved by the department chair.

## PREN 111, Studies in Literature, 3 Units

Topics in Literature (3 units): Topically driven according to the most engaging themes, ideas or bodies of literature, this course develops students' skills in literary analysis, genre recognition and creative expression. Its purpose is to help students think critically and read expansively. Meets GE requirements for Humanities: Literature. *Meets the General Education Requirement: Humanities: Literature.*

# BA in English

45-64 units

Students can choose to pursue a traditional BA in English, or a BA in English with an English Education concentration (see tables below). Learn more about APU's English major (https://www.apu.edu/clas/programs/english-major/).

## Requirements

### Traditional English Major

| Code | Title | Units |
| --- | --- | --- |
| **Literary Critical Strategies Requirement** | | |
| ENGL 212 | Literary Critical Strategies [F/S] | 3 |
| **Literary History Requirement** | | |
| Select three of the following: | | 9 |
| ENGL 222 | English Literature to 1789 [1, F] | |
| ENGL 232 | English Literature Since 1789 [1, S] | |
| ENGL 244 | American Literature to 1865 [1, F] | |
| ENGL 254 | American Literature Since 1865 [1, S] | |
| ENGL 410 | American Novel [EF] | |
| ENGL 466 | British Novel [OF] | |
| **Global, Ethnic, and Identity Literatures** | | |
| Select two of the following: | | 6 |
| ENGL 224 | World Literature to the Renaissance [1, F] | |
| ENGL 234 | World Literature Since the Renaissance [1, S] | |
| ENGL 364 | American Ethnic Literature [2, OF] | |
| ENGL 374 | African American Literature [EF] | |
| ENGL 384 | Women Writers [EF] | |
| ENGL 386 | Contemporary Global Writers [ES] | |
| **Writing Requirement** | | |
| Select one of the following: | | 3 |
| ENGL 215 | Introduction to Creative Writing | |
| ENGL 301 | Creative Writing: Fiction [S] | |
| ENGL 302 | Creative Writing: Poetry [S] | |
| ENGL 303 | Creative Writing: Drama and Film [S] | |
| ENGL 304 | Creative Writing: Creative Nonfiction [F] | |
| ENGL 360 | Technical and Professional Writing [OF] | |
| ENGL 361 | Freelance Magazine Article Writing [ES] | |
| **Composition and Linguistics Requirement** | | |
| Select one of the following: | | 3 |
| ENGL 402 | Principles of Language [F/S] | |
| ENGL 404 | Approaches to Grammar [F] | |
| ENGL 406 | Writing 3: Advanced Composition [3, F/S] | |
| **Intensive Seminar Requirement** | | |
| Select one of the following: | | 3 |
| ENGL 480 | Contemporary Literary Criticism [S] | |
| ENGL 487 | Literary Movements [S] | |
| ENGL 488 | Significant Authors [F] | |
| ENGL 489 | Literary Topics [F] | |

**Integrative and Applied Learning**

| | | |
|---|---|---|
| Select one of the following: | | 3 |
| ENGL 490 | Writing Internship [4, F/S] | |
| ENGL 496 | English and the Professions [4, F/S] | |
| **English Electives** | | **15** |
| Select an additional 15 units of ENGL courses numbered 300 and above. English majors must maintain a cumulative grade-point average of 2.0 or higher in all courses credited toward their major. | | |
| **Total Units** | | **45** |

[1]     Meets the General Education Humanities: Literature requirement.
[2]     Meets the General Education Intercultural Competence requirement.
[3]     Meets the General Education Writing 3 requirement.
[4]     Meets the General Education Integrative and Applied Learning requirement.

## English Major: English Education Concentration

All English education concentration students must complete the lower-division and upper-division core requirements below, as well as all requirements for the concentration. They also must maintain a cumulative grade-point average of 2.0 or higher in all courses credited toward their major. For admission to the APU teaching credential program (p. 532), English education concentration students must maintain a grade-point average of at least 3.0. *NOTE: Appropriate substitutions or transfer credits for the English Education concentration must be approved by the department chair. This is a California Commission on Teaching Credentialing (CTC)-approved program that waives the English CSET exam.*

| Code | Title | Units |
|---|---|---|
| **Lower-Division Core Courses** | | |
| ENGL 212 | Literary Critical Strategies [F/S] | 3 |
| ENGL 222 | English Literature to 1789 [1, F] | 3 |
| ENGL 232 | English Literature Since 1789 [1, S] | 3 |
| ENGL 254 | American Literature Since 1865 [1, S] | 3 |
| ENGL 224 | World Literature to the Renaissance [1, F] | 3 |
| ENGL 234 | World Literature Since the Renaissance [1, S] | 3 |
| ENGL 244 | American Literature to 1865 [1, F] | 3 |
| **Upper-Division Core Courses** | | |
| ENGL 402 | Principles of Language [F/S] | 3 |
| Select one of the following: | | 3 |
| ENGL 301 | Creative Writing: Fiction [S] | |
| ENGL 302 | Creative Writing: Poetry [S] | |
| ENGL 303 | Creative Writing: Drama and Film [S] | |
| ENGL 304 | Creative Writing: Creative Nonfiction [F] | |
| Select one of the following: | | 3 |
| ENGL 487 | Literary Movements [S] | |
| ENGL 488 | Significant Authors [F] | |
| ENGL 489 | Literary Topics [F] | |
| **English Education Courses** | | |
| ENGL 377 | Shakespeare [F] | 3 |
| ENGL 404 | Approaches to Grammar [F] | 3 |
| ENGL 406 | Writing 3: Advanced Composition [2, F/S] | 3 |
| Select one of the following: | | 3 |
| ENGL 364 | American Ethnic Literature [3, OF] | |
| ENGL 374 | African American Literature [EF] | |
| ENGL 384 | Women Writers [EF] | |
| ENGL 386 | Contemporary Global Writers [ES] | |
| ENGL 434 | Children's Literature [F/S] | |
| Select one of the following: | | 3 |
| ENGL 361 | Freelance Magazine Article Writing [ES] | |
| JOUR 210 | Foundations of Media Reporting and Writing | |

| | | |
|---|---|---|
| Select one of the following: | | 3 |
| THTR 110 | Introduction to Acting [4] | |
| THTR 115 | Introduction to Theater [4] | |
| THTR 355 | Theater Education, K-12 | |
| **Additional Requirements** | | |
| PSYC 290 | Human Growth and Development [5] | 3 |
| POLI 150 | American Government [6, 7] | 3 |
| or HIST 151 | United States History to 1877 | |
| In addition, students must complete field experience by taking: | | |
| EDLS 405 | Diversity in the Classroom [3] | 3 |
| EDLS 200 | Introduction to Teaching as a Profession K-12 [6] | 4 |
| or EDLS 202 | Introduction to Teaching as a Profession (7-12) | |
| EDLS 495 | Foundations of Education Capstone [8] | 3 |
| **Total Units** | | **64** |

[1]    Meets the General Education Humanities: Literature requirement.
[2]    Meets the General Education Writing 3 requirement.
[3]    Meets the General Education Intercultural Competence requirement.
[4]    Meets the General Education Humanities: Fine Arts requirement.
[5]    Meets the General Education Social Sciences requirement.
[6]    POLI 150, EDLS 200, and EDLS 202 meet the General Education Civic Knowledge and Engagement requirement.
[7]    HIST 151 meets the General Education Humanities: History requirement.
[8]    Meets the General Education Integrative and Applied Learning requirement.

| | |
|---|---|
| F | Offered in Fall only |
| S | Offered in Spring only |
| F/S | Offered in both Fall and Spring terms |
| EF | Offered in Fall in even years |
| ES | Offered in Spring in even years |
| OF | Offered in Fall in odd years |
| OS | Offered in Spring in odd years |

## Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Writing: Write with effective and appropriate focus, development, and voice.
2. Literary Knowledge: Demonstrate critical thinking in a way that proposes and persuasively develops an argument about one or more literary texts.
3. Theory: Thoughtfully incorporate literary, rhetorical, linguistic and/or pedagogical theory in their writing.
4. Faith Integration: Articulate Christian perspectives on faith and life.

# Minor in Creative Writing

18 units

## Requirements

The creative writing minor is a stand-alone program that allows students to develop their writing for publication in multiple genres.

| Code | Title | Units |
|---|---|---|
| Select six of the following: | | 18 |
| ENGL 215 | Introduction to Creative Writing | |
| ENGL 301 | Creative Writing: Fiction | |
| ENGL 302 | Creative Writing: Poetry | |
| ENGL 303 | Creative Writing: Drama and Film | |

| | | |
|---|---|---|
| ENGL 304 | Creative Writing: Creative Nonfiction | |
| ENGL 361 | Freelance Magazine Article Writing | |
| ENGL 425 | Advanced Creative Writing | |
| **Total Units** | | **18** |

## Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Write with effective and appropriate focus, development, and voice.
2. Demonstrate critical thinking in a way that proposes and persuasively develops an argument about one or more literary texts.
3. Thoughtfully incorporate literary, rhetorical, linguistic and/or pedagogical theory in their writing.
4. Articulate Christian perspectives on faith and life.

# Minor in English

18 units

The English minor allows students to experience three foundational courses in the discipline, and the opportunity to customize a package of upper-division electives in literature, creative writing, or professional writing to suit their needs and interests. English minors must maintain a cumulative grade-point average of 2.0 or higher in all courses credited toward the minor.

# Department of History and Political Science

## Mission Statement

The Department of History and Political Science (https://www.apu.edu/clas/historypolisci/) at Azusa Pacific University:

1. Offers undergraduate degree programs in political science, history, and social science, and a single subject waiver for a teaching credential in social science.
2. Provides General Education courses in history and political science consistent with the outcomes of a liberal arts education.
3. Prepares students for graduate study, law school, and success in their chosen careers.

## Department Overview

This department offers several majors and minors, and is home to chapters of the national political science honor society, Pi Sigma Alpha; the national history honor society, Phi Alpha Theta; and the international legal community honor society, Phi Delta Phi. Many courses in the department emphasize the reading of classic texts or the study of primary sources. All courses offered in the department are within the School of Humanities and Sciences in the College of Arts, Humanities, Sciences, and Theology, and are designed to contribute to a Christian liberal arts education.

The department's programs strive to:

- Develop intellectual curiosity.
- Equip students with the abilities to write and speak well, think critically, and judge wisely.
- Enable students to distinguish justice from injustice.
- Teach students the legitimate purposes and necessary limits of political power.

- Provide students historical perspective for making judgments in the present.
- Instruct students in human possibilities and limits.
- Prepare students for careers calling for clear, cogent reasoning.
- Familiarize students with other cultures and times.
- Make available to students the knowledge that is needed by citizens and political leaders.
- Prepare students to teach various social science disciplines.

Students who want to earn up to 9 units in their major through the American Studies Program (https://www.cccuglobaled.org/american-studies-program-2023-24/) in Washington, DC, may do so by arrangement with the Department of History and Political Science.

# Courses

## HIST 120, World Civilizations to 1648, 3 Units

This survey course deals with the customs, cultures, religions, and forms of government of peoples from ancient times to 1648. *Meets the General Education Requirement: Humanities: History.*

## HIST 121, World Civilizations Since 1648, 3 Units

This survey course deals with the customs, cultures, religions, and forms of government of peoples from 1648 to the present. *Meets the General Education Requirement: Humanities: History.*

## HIST 151, United States History to 1877, 3 Units

This course surveys the political and cultural history of the United States up to 1877. Areas of study include concepts of government and analysis of political institutions. This course meets the state requirement in U.S. history and government. *Meets the General Education Requirement: Humanities: History.*

## HIST 152, United States History Since 1877, 3 Units

This course surveys the political and cultural history of the United States from 1877 to the present. Areas of study include concepts of government and analysis of political institutions. This course meets the state requirement in U.S. history and government. *Meets the General Education Requirement: Humanities: History.*

## HIST 200, The Varieties of History, 3 Units

This course introduces students to various approaches to the study and philosophy of the discipline of history, from the ancient to the contemporary and from different cultural perspectives. Particular attention is paid to Christian approaches to the study and meaning of the human story.
**Prerequisite:** Recommended: Any 100-level history course.

## HIST 201, World Civilizations and Geography to 1648, 3 Units

This survey course incorporates human geography as a crucial means to understand the narrative of histories, religions, migrations, and forms of government of people and civilizations from the ancient times to 1648. In doing so, this course aims to study the distribution, processes, and effects of the human population on our planet during this time period.
**Prerequisite:** Liberal Studies Majors Only

## HIST 202, United States History to 1930, 3 Units

Students in this course survey the political and cultural history of the United States from its colonial origins to 1930. Subject matter includes concepts of government and analysis of political institutions. Specifically, course material covers early exploration, the colonial era, and the War of Independence; the development of the U.S. Constitution and the early republic; the Civil War and Reconstruction; and the rise of industrial America. This course meets California requirements in U.S. history and government.
**Prerequisite:** Liberal studies majors only.

## HIST 210, World Geography, 3 Units

This course is a study of cultural, historical, and political geography. It includes study of the ways people interact with their natural environments, the ways different cultures interact with one another, the global patterns of human migration and settlement, and the distinctive natural, linguistic, cultural, and political features of different regions of the world.

## HIST 235, Cultural History/Travel Study, 3 Units

This interdisciplinary course combines visits of major cultural and historical sites with academic study of the geography, history, art, literature, politics, and religion of the respective country, region, or continent. The course is taught by one or more faculty and developed around a history core from which each student may choose to develop an intensive focus upon art and architecture, history, literature, politics, or Church history. May be repeated for credit as topics/locations vary. *Meets the General Education Requirement: Intercultural Competence.*

## HIST 238, History of California, 3 Units

Students in this course learn about the exploration, colonization, and development of Hispanic California; the coming of the Americans; and the political, economic, and cultural development of California since its acquisition by the United States.

## HIST 300, Writing 3: Historical Research and Writing, 3 Units

Students in this course study historical methodology, focusing on the skills necessary for historical research and writing, and gain foundational knowledge of historiography. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*
**Prerequisite:** Writing 2

## HIST 311, Ancient Greece, 3 Units

This course is designed to introduce students to the laws, religions, art and architecture, philosophy, and governmental forms of Ancient Greece. Covers Myceanean Greece, Classical Sparta and Athens, Persian and Peloponnesian Wars, the Rise of Macedon, Alexander and the Hellenistic world, and the Greek experience under Roman rule.

## HIST 312, Ancient Rome, 3 Units

This course is designed to introduce students to the laws, religions, art and architecture, philosophy, and governmental forms of Ancient Rome. Covers Republican and Imperial Rome, the Pax Romana, 3rd Century Crisis, and the Christianization and Fall of Rome.

## HIST 320, Modern Africa, 3 Units

This course explores the political, social, cultural, and religious history of Africa from the trans-Atlantic slave trade to the present.
**Prerequisite:** HIST 120 or HIST 121 recommended

## HIST 325, Topics in French History, 3 Units

This variable-topics course examines a select topic or theme of French history, and the relationship of France to the world. The course may be repeated for credit, as the topic varies. Taking a 100-level history course or FREN 101 prior to this course is recommended.
**Prerequisite:** 100-Level History course or FREN 101 recommended

## HIST 334, History of American Foreign Affairs, 3 Units

This course is a study of American foreign affairs and international relations from 1776 to the present.

## HIST 335, Cultural History/Travel Study, 3 Units

This cultural history course combines visits of major cultural and historical sites with academic study of the geography, history, art, literature, politics, and religion of the country, region, or continent. The interdisciplinary course is taught by a team of two to four faculty and developed around a history core, from which each student may choose to develop an intensive focus upon art and architecture, history, literature, politics, or church history.

## HIST 338, History of California, 3 Units

Students learn about the exploration, colonization, and development of Hispanic California; the coming of the Americans; and the political, economic, and cultural development of California since its acquisition by the United States.

## HIST 342, The American West, 3 Units

This course offers coverage of the exploration and development of the West, mining and stock-raising frontiers, railroads, and agriculture, and the effects of the frontier on American institutions.

## HIST 346, History of American Immigration, 3 Units

This course examines immigration and ethnicity in America from the Colonial period to the present. Themes include ethnic formation, assimilation, nativism, and the relationship of ethnicity to American national identity. *Meets the General Education Requirement: Intercultural Competence.*

## HIST 350, Medieval Europe, 3 Units

This course is a study of Europe from the fall of the Roman Empire to the Renaissance.

## HIST 352, Renaissance and Reformation, 3 Units

This course is a study of Europe from the 15th century to 1648. It covers intellectual, social, and political changes, and religious revolt and wars.

## HIST 357, Enlightenment Europe, 3 Units

This course studies European history from 1648-1789. The course focuses on the intellectual and cultural movement known as the Enlightenment and its effects on politics, diplomacy, economics, society, and religion.

## HIST 358, Europe 1789-1914, 3 Units

This course studies European political, intellectual, social, diplomatic, and religious history from the French Revolution to the start of World War I.

## HIST 359, Europe 1914-1992, 3 Units

This course studies European political, intellectual, social, diplomatic, and religious history from World War I to the fall of the Soviet Union.

## HIST 360, History of the Middle East I: Early and Medieval Islam, 3 Units

This course covers the historical foundations of the premodern Middle East beginning with the pre-Islamic Near East and Arabia and continuing with Muhammad and the origins of the Islamic tradition; the establishment of regional Islamic rule, ideology, and institutions; and the medieval dynasties up to and including the Ottomans. The course primarily focuses on general political narrative, but also considers social and cultural dynamics of the early and medieval Islamic world.

## HIST 361, History of the Middle East II: Modern Middle East, 3 Units

This course covers the historical foundations of the early modern and modern Middle East, beginning with later Ottoman history (18th century) and continuing through to the present day. It covers a variety of countries/communities within the region, including Egypt, Iraq, Iran, Turkey, Syria, Lebanon, and Israel/Palestine, and it also includes a variety of topics within this chronological and geographical expanse, such as nationalisms, ideologies, social movements, and cultural identity.

## HIST 365, History of the Israeli-Palestinian Conflict, 3 Units

This course covers the historical dynamics of the Israeli-Palestinian conflict from the beginnings of early Zionist thought and settlement in the late 19th century to the present day.

## HIST 368, A Year in Time, 3 Units

Taking a global approach, this course examines the political, intellectual, cultural, social, diplomatic, and religious developments of one specific year in history. Particular emphasis is placed on the use of primary resources in historical research and writing. The course may be repeated for credit with a change of topic or year studied

## HIST 374, Colonial Era, 3 Units

This course is a study of the English colonies in America during 1609-1776. Themes include institutions, life, and customs, intercolonial relations, imperial control; and the movement for independence.

## HIST 376, The Revolution and the Republic, 3 Units

This course examines major topics in the history of the United States between the American Revolution and the early antebellum period, paying special attention to the impact of political development on religion, culture, and economic systems, and gender, ethnic, and racial interactions.

## HIST 380, Civil War and Reconstruction, 3 Units

This course is a study of the causes of sectional conflict, the Civil War, and political, social, and economic reconstruction (1850-77).

## HIST 382, Emergence of Modern America, 3 Units

This course is a study of the period 1878-1918, including political and intellectual change, the advent of big business, urbanization, reform, and the coming of World War I.

## HIST 386, Modern America, 3 Units

This course is a study of the intellectual, political, economic, and social history of America from 1918 to the present.

## HIST 389, Modern American Intellectual History, 3 Units

This course introduces students to some of the most important ideas, thinkers, and intellectual debates that have shaped life in the United States from the late nineteenth century through the present. Through a study of movements including pragmatism, progressivism, liberalism, and conservatism, the course examines the role of science, philosophy, and religion in providing intellectual foundations for liberal democracy. It also examines the relationship between modernity and postmodernity, and traces the growth of the American university system as a primary institutional site for intellectual life

## HIST 392, Colonial Latin America, 3 Units

Utilizing primary and secondary sources, music, film, and literature, this course examines the history of Colonial America (c. 1460s-1820s), with particular emphasis on the role of Christianity in the development, success, and failure of the Spanish imperial project in the New World.
**Prerequisite:** HIST 120

## HIST 393, Ritual and Re-enactment in Modern Latin America, 3 Units

Utilizing primary and secondary sources, music, film, and literature, this course examines the history of modern Latin America (c. 1820s-present), from its colonial legacy to its nation-building period, revolutions and coups to modern manifestations, with special emphasis on its relationship to the United States and developments in local Christianity.
**Prerequisite:** HIST 121

## HIST 401, Humanities Seminar, 6 Units

Subject matter for this course varies. The pre-announced topic is addressed from an interdisciplinary perspective and includes some of the following: history, literature, sociology, art, religion, biblical studies, and language. Each time this course is offered it is further defined with a subtitle.

## HIST 402, Historical Research Skills, 6 Units

Subject matter for this course varies. The course emphasizes one of the following: historical research skills, archaeological methods, or language study. The course includes access to primary archival resources, field experiences, and/or trips to historical sites. Each time this course is offered it is further defined with a subtitle.

## HIST 403, Church History Seminar, 6 Units

Subject matter for this course varies. The course includes an intensive study of a specific era in church history. Each time this course is offered it is further defined with a subtitle.

## HIST 404, Archaeology Field Experience, 6 Units

This field experience is only offered at the Wadi Natrun archaeological dig in Egypt. It includes hands-on field experience.

## HIST 420, Topics in Cinema and History, 3 Units

This course explores the relationship between film and history regarding a specific historical era, studying films made at that era and about that era. Students are expected to attend weekly film screenings in addition to scheduled classes. This course may be repeated once for credit as the topic varies.
**Prerequisite:** WRIT 110

## HIST 484, Historical Themes, 3 Units

Subject matter for this course varies and may include topics in non-Western, European, and United States history. This course may be repeated for credit.

## HIST 496, Senior Seminar in Faith and History, 3 Units

This seminar focuses on what it means to integrate the Christian faith with the study of history. Students explore a variety of Christian historiographies and write a substantial work of original historical scholarship. *Meets the General Education Requirement: Integrative and Applied Learning.*
**Prerequisite:** Senior standing, and completion of HIST 300.

## HIST 497, Readings, 1-4 Units

This course consists of a program of study concentrating on assigned readings, discussions, and writing arranged between and designed by a student of upper-division standing and a full-time professor. An independent study fee is assessed for each enrollment in this class.

## HIST 498, Directed Research, 1-4 Units

This course provides instruction in research design and technique, and gives students experience in the research process. The 1-unit expectation encompasses no fewer than 30 hours of work with accompanying reading, log, writing, and seminar presentation within the department or in a university research symposium. No more than 1 unit may be used to fulfill preparatory readings requirement. An independent study fee is assessed for each enrollment in this class.
**Prerequisite:** Junior or Senior Standing

## HIST 499, Thesis/Project, 1-4 Units

This is a senior-level capstone type of independent study/research experience, involving the student in a unique project with a sophisticated level of research, synthesis, analysis, and communication. The 1-unit expectation encompasses no fewer than 30 hours of work with accompanying readings, log, instructor discussions, and writing of summary analysis and conclusions. The thesis or project may result in a formal thesis, published article, electronic media, or artistic creation of a material form. No more than 1 unit may be used to fulfill the preparatory readings requirement. An independent study fee is assessed for each enrollment in this course.
**Prerequisite:** HIST 300 or instructor consent, and senior standing.

## HIST 499H, Thesis/Project - Honors, 3 Units

This is a senior-level "capstone" type of independent study/research experience, involving the student in a unique project with a sophisticated level of research, synthesis, analysis and communication. The one-unit expectation encompasses no fewer than 30 hours of work with accompanying readings, log, instructor discussions, and writing of summary analysis and conclusions. The thesis or project may result in formal thesis, published article, electronic media, or artistic creation of a material form. No more than one unit may be used to fulfill preparatory readings requirement. An independent study fee is assessed for each enrollment in this class.
**Prerequisite:** Junior or Senior standing and upper-division writing intensive course completed. Must also be a student admitted to the Honors Collegeand be considered a member in "active" status.

## POLI 150, American Government, 3 Units

This course is a study of the institutions and processes of American government on the local, state, and national levels. This course meets the state requirement for U.S. history and government. *Meets the General Education Requirement: Civic Knowledge and Engagement.*

## POLI 160, Introduction to Politics, 3 Units

This course introduces the beginning political science student to the fundamental themes and enduring problems of political life.

## POLI 180, Intro to International Relations, 3 Units

This course introduces students to the academic study of international relations, beginning with classical discussions about the interaction of peoples, continuing to focus on modern nations and their trade, diplomacy, foreign aid and conflicts. Students will consider the challenges faced within particular world regions beyond the West, with units on Latin America, Africa, Asia, Middle East, and their particular regional opportunities. Also covered are particular problems of international relations of our time - nuclear/chemical/biological weapons, terrorism, and cyber conflict, as well as international opportunities including strategies to achieve greater economic development, trade, and communication.

## POLI 210, Current Events, 3 Units

Students explore selected current domestic and foreign policy issues.

## POLI 220, State and Local Government, 3 Units

This course offers a comparison of the organizations, processes, and functions of local government in the United States, including counties, cities, and special districts.

## POLI 250, Introduction to Criminal Law, 3 Units

This course introduces students to the concepts of criminal law, including history and development, constitutional limitations on crimes and punishment, principles of criminal liability, criminal defenses, inchoate crimes, and elements of crimes against persons, property, and habitation.

## POLI 260, Introduction to Legal Transactions, 3 Units

This course provides an overview of personal and business legal transactions, introducing students to the importance of the law, concepts of business formation and transactions, corporations, contracts, intellectual property, cyberlaw, employment law, bankruptcy, and estate planning.

## POLI 271, Political Topics, 3 Units

Subject matter for this course varies and may include topics in political theory, American government, and international affairs. Possible topics include: nuclear arms, religion and politics, and presidential elections. POLI 271 and POLI 471 may not be taken concurrently, and additional work is required in POLI 471. This course may be repeated for credit as the topic varies. Up to eight units may be earned for participation in seminars offered by the American Studies Program.

## POLI 300, Writing 3: Research and Writing, 3 Units

This writing-intensive course emphasizes the research and writing skills common to the disciplines of history and political science. It is strongly recommended that students take this course before taking any other 300- or 400-level history or political science courses. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*
**Prerequisite:** Writing 2

## POLI 310, Political Geography, 3 Units

This course considers the impact of geography on political life broadly understood, including population and migration, governments and political institutions, national boundaries and border conflicts, economic development, trade and cultural relations between nations and peoples, and the development and future of the nation.

## POLI 320, Comparative Politics, 3 Units

This course offers a comparative study of major political systems. The communist, socialist, and democratic systems are compared as they have been applied in various states.

## POLI 325, Seminar in International Relations, 3 Units

This course facilitates focused inquiry into one or more pre-announced subjects relating to current international relations. Possible topics include nuclear weapons, cybersecurity, or humanitarian relief assistance. This course may be repeated for credit as the topic varies.
**Prerequisite:** POLI 180 or instructor's consent

## POLI 350, Constitutional Law: Fundamental Freedoms, 3 Units

This course analyzes U.S. Supreme Court decisions related to constitutional civil rights and liberties found in the Bill of Rights and 14th Amendment, including freedoms of speech, press, religion, assembly; the right to bear arms; due process and equal protection; and political rights related to representation, voting, and naturalization.
**Prerequisite:** POLI 150 or instructor consent

## POLI 351, Constitutional Law: Criminal Justice, 3 Units

The course analyzes U.S. Supreme Court decisions related to the constitutional protections offered to criminal defendants found in the Bill of Rights and 14th Amendment, including the right to be free from unreasonable searches and seizures, the privilege against self-incrimination, the right to counsel, the right to a jury trial, the protection against excessive bail and cruel and unusual punishment, and other due process guarantees.
**Prerequisite:** POLI 150 or instructor consent

## POLI 352, Constitutional Law: National Powers, 3 Units

This course is an inquiry into the Supreme Court's interpretation of the Constitution concerning the powers of the states, the president, Congress, and the courts.
**Prerequisite:** POLI 150 or instructor consent

## POLI 353, Seminar on Legal Studies, 3 Units

This course is a study of forms of law school writing, the profession of the law, and the philosophy of law as it has developed from ancient to contemporary times. The course is primarily for students intending to pursue a career in law and should ideally be taken by students in their junior year.
**Prerequisite:** POLI 350 or POLI 351 or POLI 352 or instructor consent

## POLI 360, Classical Political Thought, 3 Units

This course is a study of ancient Greek political thought with some reference to Roman and medieval political thought. The course focuses on ideas of justice, nature, and human nature.

## POLI 363, Modern Political Thought, 3 Units

This course is a study of major political thinkers from the 16th century to the present.

## POLI 376, The American Founding, 3 Units

This is a study of the central ideas of American constitutional democracy as they are illuminated in selected writings of the American founders and in modern contemporary scholarship on the American founding.
**Prerequisite:** POLI 150 and POLI 160 or instructor consent

## POLI 380, Terrorism and Counterterrorism, 3 Units

This course considers the sources, history, and motivations behind terrorism, the tools and tactics employed by terrorists, and terrorist organizations' political objectives, with emphasis on recent and current terrorism. Students also consider the phenomenon of state terrorism, the theory and practice of counterterrorism, and the variety of Christian responses to terrorism.
**Prerequisite:** POLI 150 or POLI 160

## POLI 381, Theories of International Relations, 3 Units

This course is a detailed examination of the major classical, modern, and postmodern theoretical schools of thought that inform the study of International Relations. Readings include original classic treatises and monograph length statements of theory, alongside recent publications.
**Prerequisite:** POLI 180 or Instructor consent

## POLI 382, Diplomacy and Foreign Policy, 3 Units

This course provides a comprehensive examination of theoretical approaches to the analysis of foreign policy, as well as an examination of the conduct of U.S. diplomacy abroad. Case studies are used to illustrate analytical models, and active learning through team-based simulation emphasizes the practical aspects of negotiation and statecraft.
**Prerequisite:** POLI 180 or instructor's consent

## POLI 383, National Security, 3 Units

This course addresses the definition and pursuit of national security by means of a thorough-going review of essential offices and institutions, assessing the relevant policymaking process, exploring principles of strategic theory, and defining symmetric and asymmetric security threats.
**Prerequisite:** POLI 180 or instructor's consent

## POLI 385, Politics of Developing Countries, 3 Units

This course considers the governmental structures and political orientation of developing countries and the essential theories devised respecting their political past, present, and future.
**Prerequisite:** Junior or Senior Standing

## POLI 390, History and Politics of the Non-Western World, 3 Units

This course offers an overview of historical and political patterns in one pre-announced selected area of the non-Western developing world. This course may be repeated for credit as the topic varies.

## POLI 399, Political Science Practicum, 1-8 Units

This practicum gives credit for field work in an area of government or law chosen by the student. The CCCU American Studies Program (see APU's Center for Global Learning and Engagement) offers internship opportunities in Washington, DC, or students may find opportunities on their own. Local opportunities include federal, state, and local government agencies and legislative offices, political campaigns, and law offices. Up to 8 units may be earned. Only 6 units are counted toward the political science major (3 required units; 3 units as elective credit), and 3 units toward the political science minor. All other units count as elective credit.
**Prerequisite:** Instructor permission required

## POLI 400, Seminar on American Politics, 3 Units

This course facilitates inquiry into one pre-announced aspect of American politics, such as political parties, voting behavior, or interest groups. This course may be repeated for credit as the topic varies.
**Prerequisite:** POLI 150 or instructor consent

## POLI 405, The American Presidency, 3 Units

This course presents an overview of the American presidency, including the historical development of the presidency, contributions of individual presidents to the executive office, presidential authority and politics in the modern era, the presidential election process, and the role of the executive branch.
**Prerequisite:** POLI 150 or instructor consent

## POLI 410, Congress, 3 Units

This course provides an overview of the functioning of Congress as an institution. Topics include the historical evolution of Congress, changes in internal rules and procedures that guide congressional action, the role of Congress within the federal system, and external influences on the legislative process.
**Prerequisite:** POLI 150 or instructor consent

## POLI 415, The Federal Judiciary, 3 Units

This course provides an overview of the federal judicial system, with particular attention given to the power and function of the U.S. Supreme Court, methods of constitutional interpretation, judicial selection, and the role of the judiciary in the constitutional system of government.
**Prerequisite:** POLI 150 or instructor consent

## POLI 420, Women in Politics, 3 Units

This course examines women's participation in public office at the local, regional, national, and international levels and explores potential differences between men and women in the areas of campaigning and political leadership, policy preferences, and governing styles.
**Prerequisite:** POLI 150

## POLI 421, Regional Studies, 3 Units

This course is a comparative political analysis of a specific global region (e.g., Middle East, Eastern Europe, East Asia, Central America, etc.), with empirical emphases on the region's political history, forms of government, security problems, and cultural dynamics. As regions covered will vary, the course may be repeated for credit.
**Prerequisite:** POLI 180 or instructor's consent

## POLI 422, International Organizations, 3 Units

This course examines the variety of modern international organizations, and their respective missions and operations. Organizations with legal, security, economic, health, civil-society, and judicial portfolios are considered.
**Prerequisite:** POLI 180 or instructor's consent

## POLI 450, Principles and Practice of Research Design, 3 Units

This course presents a fundamental overview of the principles and practice of political science research design. Topics include introduction to scientific inquiry, research design construction, ethical principles, modes of observation, types of data analysis, and reading and writing social research.
**Prerequisite:** POLI 300 or upper division writing intensive course

## POLI 471, Political Topics, 3 Units

Subject matter for this course varies and may include topics in political theory, American government, and international affairs. Possible topics include: foundations of liberty, nuclear arms, religion and politics, and presidential elections. This course may be repeated for credit, as the topic varies.

## POLI 496, Senior Seminar: Religion and Politics, 3 Units

This seminar focuses on the ethical, political, and historical implications of ideas in their historical context and in contemporary society. Students consider significant ideas and concepts, their integration and interaction with other disciplines and the Christian faith, and consider application of those ideas to current political, social or moral problems. *Meets the General Education Requirement: Integrative and Applied Learning.*
**Prerequisite:** Senior standing, completion of Writing 3 (HIST 300 or POLI 300).

## POLI 497, Readings, 1-4 Units

This is a program of study concentrating on assigned readings, discussions, and writing arranged between and designed by a student of upper-division standing and a full-time professor. An independent study fee is assessed for each enrollment in this class.

## POLI 498, Directed Research, 1-4 Units

This course provides instruction in research design and technique, and gives students experience in the research process. The 1-unit expectation encompasses no fewer than 30 hours of work with accompanying reading, log, writing, and seminar presentation within the department or in a university research symposium. No more than 1 unit may be used to fulfill preparatory readings requirement. An independent study fee is assessed for each enrollment in this class.
**Prerequisite:** Junior or Senior Standing

## POLI 499, Thesis/Project, 1-4 Units

This is a senior-level "capstone" type of independent study/research experience, involving the student in a unique project with a sophisticated level of research, synthesis, analysis, and communication. The 1-unit expectation encompasses no fewer than 30 hours of work with accompanying readings, log, instructor discussions, and writing of summary analysis and conclusions. The thesis or project may result in formal thesis, published article, electronic media, or artistic creation of a material form. No more than 1 unit may be used to fulfill preparatory readings requirement. An independent study fee is assessed for each enrollment in this class.
**Prerequisite:** Upper-division writing intensive course or instructor consent; and junior or senior standing

## PRHI 120, World Civilizations to 1648, 3 Units

This survey course deals with the customs, cultures, religions, and forms of government of peoples from ancient times to 1648. *Meets the General Education Requirement: Humanities: History.*

## PRHI 121, World Civilizations Since 1648, 3 Units

This survey course deals with the customs, cultures, religions, and forms of government of peoples from 1648 to the present. *Meets the General Education Requirement: Humanities: History.*

## PRHI 151, United States History to 1877, 3 Units

This course surveys the political and cultural history of the United States up to 1865. Areas of study include concepts of government and analysis of political institutions. This course meets the state requirement in U.S. history and government. *Meets the General Education Requirement: Humanities: History.*

## PRPO 150, American Government, 3 Units

This course is a study of the institutions and processes of American government on the local, state, and national levels. This course meets the state requirement for U.S. history and government. *Meets the General Education Requirement: Civic Knowledge and Engagement.*

## PRPO 250, Introduction to Criminal Law, 3 Units

This course introduces students to the concepts of criminal law, including history and development, constitutional limitations on crimes and punishment, principles of criminal liability, criminal defenses, inchoate crimes, and elements of crimes against persons, property, and habitation.

## PRPO 350, Constitutional Law: Fundamental Freedoms, 3 Units

This course analyzes U.S. Supreme Court decisions related to constitutional civil rights and liberties found in the Bill of Rights and 14th Amendment, including freedoms of speech, press, religion, assembly; the right to bear arms; due process and equal protection; and political rights related to representation, voting, and naturalization.
**Prerequisite:** PRPO 150 or instructor's consent

## PRPO 380, Studies of Terrorism, 3 Units

This course considers the sources, history, and motivations behind terrorism, the tools and tactics employed by terrorists, and terrorist organizations' political objectives, with emphasis on recent and current terrorism. Students also consider the phenomenon of state terrorism, the theory and practice of counterterrorism, and the variety of Christian responses to terrorism.
**Prerequisite:** PRPO 150 or POLI 160

# BA in History

42 units

History is the study of the human record of the human past. As an academic discipline, history is comprehensive insofar as it records and explains the development, causes, and effects over time of all other disciplines. Thoughtful study of the past provides a necessary perspective for making judgments in the present. It instructs the student in human possibilities and limits. Course offerings include studies in American, European, and world history, as well as focused studies of various historical themes and different regions.

## Career Opportunities

The history major (https://www.apu.edu/clas/programs/history-major/) prepares students for careers calling for clear and logical reasoning, the ability to analyze complex relations between cause and effect, well-developed writing skills, and familiarity with other cultures and times. The most common vocational pursuits include teaching, law, government service, and careers as archivists, researchers, librarians, museum curators, and consultants.

## Requirements

The Department of History and Political Science maintains the following requirements for each of the majors it offers:

1. Students must complete all prerequisites for any HIST or POLI course with a *C-* or better before taking the course (except as noted in the course description).
2. Students must maintain a minimum cumulative GPA of 2.0 in all political science and history courses required for the major.

3.  Students must complete each HIST or POLI course with a *C-* or higher for the course to meet a degree requirement in the Department of History and Political Science.

| Code | Title | Units |
|------|-------|-------|
| **Core Courses** | | |
| HIST 120 | World Civilizations to 1648 [1,2] | 3 |
| HIST 121 | World Civilizations Since 1648 [1] | 3 |
| HIST 151 | United States History to 1877 [1] | 3 |
| HIST 152 | United States History Since 1877 [1] | 3 |
| HIST 200 | The Varieties of History | 3 |
| HIST 300 | Writing 3: Historical Research and Writing [3] | 3 |
| HIST 496 | Senior Seminar in Faith and History [4] | 3 |
| **Subject Courses** | | |
| Select courses totaling 6 units from each of the following subfields: | | |
| History of America [5] | | 6 |
| HIST 334 | History of American Foreign Affairs | |
| HIST 342 | The American West | |
| HIST 346 | History of American Immigration [6] | |
| HIST 374 | Colonial Era | |

| HIST 350 | Medieval Europe | |
| HIST 352 | Renaissance and Reformation | |
| HIST 357 | Enlightenment Europe | |
| HIST 358 | Europe 1789-1914 | |
| HIST 359 | Europe 1914-1992 | |
| **Elective Courses [7]** | | |
| Select one 3-unit HIST elective from any of the above subfields or from the following: | | 3 |
| HIST 210 | World Geography | |
| HIST 238 | History of California | |
| or HIST 338 | History of California | |
| HIST 368 | A Year in Time | |
| HIST 401 | Humanities Seminar | |
| HIST 420 | Topics in Cinema and History | |
| HIST 484 | Historical Themes | |
| HIST 497 | Readings | |
| HIST 498 | Directed Research | |

| | | |
|---|---|---|
| HIST 499 | Thesis/Project | |
| **Total Units** | | **42** |

[1]   Meets the General Education Humanities: History requirement.
[2]   Completion of the honors humanities major or minor satisfies the HIST 120 requirement.
[3]   Meets the General Education Writing 3 requirement.
[4]   Meets the General Education Integrative and Applied Learning requirement.
[5]   Depending on the variable topic, the following courses may also count for this area: HIST 368, HIST 401, HIST 420, HIST 484.
[6]   Meets the General Education Intercultural Competence requirement.
[7]   Completion of the honors humanities major or minor satisfies the elective course requirement.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate a knowledge of the major events, ideas, and trends in American history.
2. Describe and analyze the major events, ideas, and developments of world history.
3. Analyze primary and secondary sources and develop a historical argument based on them.
4. Articulate how a Christian worldview informs the study of history.

# BA in Political Science

45 units

Political science is concerned with the knowledge that is needed by citizens and government officials. This knowledge is required to make and recognize good laws, distinguish justice from injustice, and understand the legitimate purposes and necessary limits of political power. The political science major (https://www.apu.edu/clas/programs/political-science-major/) prepares students to take an informed, intelligent, and leading role in the affairs of their community, country, and world. In addition to classroom, research, and seminar experiences, students are encouraged to become directly involved in politics through internship experiences on the local, state, or national level.

## Career Opportunities

The political science major studies politics as part of a traditional liberal arts education. This discipline helps develop intellectual curiosity and the abilities to write and speak well, think critically, judge wisely, and exercise leadership. These skills help prepare students for a future in a variety of careers. The most common vocations pursued by political science majors include law, foreign affairs, journalism, public relations, and criminal justice. Careers in government, politics, and public service agencies are popular. Opportunities for teaching, research, consulting, and graduate study are also available.

## Requirements

The Department of History and Political Science maintains the following requirements for each of the majors it offers:

1. Students must complete all prerequisites for any HIST or POLI course with a *C-* or better before taking the course (except as noted in the course description).
2. Students must maintain a minimum cumulative GPA of 2.0 in all political science and history courses required for the major.
3. Students must complete each HIST or POLI course with a *C-* or higher for the course to meet a degree requirement in the Department of History and Political Science.

[1]    Meets the General Education Civic Knowledge and Engagement requirement.

## Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. American Government: Explain the principles, purposes, and main features of American government.
2. International Politics: Explain the main features of international politics.
3. Political Philosophy: Analyze the writing of major thinkers in the history of political philosophy.
4. Christian Foundation: Articulate a Christian understanding of politics and government.
5. Professional Writing: Demonstrate ability to write and cite sources to professional standards within the discipline.

# BA in Social Science

55 units

The social science major (https://www.apu.edu/clas/programs/social-science-major/) primarily prepares students to teach history, political science, geography, economics, sociology, and psychology at the high school or junior high school level. This major provides future teachers with an integrated study of these social sciences, which helps develop analytical skills, comparative perspectives, critical judgement, and a knowledge base about the world around them. Additionally, the major introduces students to teaching methodologies. The social science major is a subject-matter program in social science approved by the California Commission on Teacher Credentialing (https://www.ctc.ca.gov/), allowing students to bypass the CSET exams that would otherwise be required by the state of California.

## Career Opportunities

The primary career choice for social science majors is teaching at the secondary level. Other options include careers in history, education, government service, journalism, publishing, advertising, library science, law, and politics. Opportunities for research, consulting, and graduate study are also available to social science majors.

## Requirements

The Department of History and Political Science maintains the following requirements for each of the majors it offers:

1. Students must complete all prerequisites for any HIST or POLI course with a *C*- or better before taking the course (except as noted in the course description).
2. Students must maintain a minimum cumulative GPA of 2.0 in all political science and history courses required for the major.
3. Students must complete each HIST or POLI course with a *C*- or higher for the course to meet a degree requirement in the Department of History and Political Science.

| Code | Title | Units |
|------|-------|-------|
| ECON 200 | Survey of Economics [1] | 3 |
| EDLS 405 | Diversity in the Classroom [2] | 3 |
| HIST 120 | World Civilizations to 1648 [3] | 3 |
| HIST 121 | World Civilizations Since 1648 [3] | 3 |
| HIST 151 | United States History to 1877 [3] | 3 |
| HIST 152 | United States History Since 1877 [3] | 3 |
| HIST 200 | The Varieties of History | 3 |
| HIST 210 | World Geography | 3 |
| HIST 338 | History of California | 3 |
| POLI 150 | American Government [4] | 3 |
| RELG 200 | World Religions [2] | 3 |
| HIST 300 | Writing 3: Historical Research and Writing [5] | 3 |

| | | |
|---|---|---|
| HIST 496 | Senior Seminar in Faith and History [6] | 3 |
| One Upper-division History Course (HIST 3XX or 4XX) | | 3 |
| One Upper-division Political Science Course (POLI 3XX or 4XX) | | 3 |
| Select one of the following: | | 3 |
| PSYC 110 | General Psychology [1] | |
| SOC 120 | Introduction to Sociology [1] | |
| Select one of the following: | | 4 |
| EDLS 200 | Introduction to Teaching as a Profession K-12 [4] | |
| EDLS 202 | Introduction to Teaching as a Profession (7-12) [4] | |
| Select one of the following: | | 3 |
| HIST 320 | Modern Africa | |
| HIST 360 | History of the Middle East I: Early and Medieval Islam | |
| HIST 393 | Ritual and Re-enactment in Modern Latin America | |
| **Total Units** | | **55** |

[1]  **Meets the General Education Social Sciences requirement.**
[2]  **Meets the General Education Intercultural Competence requirement.**
[3]  **Meets the General Education Humanities: History requirement.**
[4]  **Meets the General Education Civic Knowledge and Engagement requirement.**
[5]  **Meets the General Education Writing 3 requirement.**
[6]  Meets the General Education Integrative and Applied Learning requirement.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate a knowledge of the major events, ideas and trends in American history.
2. Describe and analyze the major events, ideas, and developments of world history.
3. Explain the principles, purposes, and main features of American government.
4. Articulate how a Christian worldview informs the study of history.

# Minor in History

18 units

## Requirements

The Department of History and Political Science maintains the following requirements for each of the minors it offers:

1. Students must complete all prerequisites for any HIST or POLI course with a *C*- or better before taking the course (except as noted in the course description).
2. Students must maintain a minimum cumulative GPA of 2.0 in all political science and history courses required for the minor.
3. Students must complete each HIST or POLI course with a *C*- or higher for the course to meet a degree requirement in the Department of History and Political Science.

[1]    Meets the General Education Humanities: History requirement.
[2]    Completion of the honors humanities major or minor satisfies the HIST 120 requirement.
[3]    For liberal studies majors only.
[4]    Meets the General Education Intercultural Competence requirement.

## Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate a knowledge of the major events, ideas, and trends in American history.
2. Describe and analyze the major events, ideas, and developments of world history.
3. Analyze primary and secondary sources and develop a historical argument based on them.
4. Articulate how a Christian worldview informs the study of history.

# Minor in Humanities

18 units

The interdisciplinary humanities minor offers students opportunities to develop the arts of deep reading, thinking, and conversing about humanity's greatest questions while living in an age of social media that often discourages these practices.

A hallmark of the humanities minor is its flexibility—students have the option to fulfill anywhere from one to seven of their General Education requirements through the program's courses, designated by the HUM prefix (also known as the Great Works Option for General Education). Beyond that, students can choose how to complete the minor. This program allows students to show their ability to integrate disciplines in thinking from multiple angles about essential human questions.

Humanities courses have roots in the liberal arts. The liberal arts provide the foundation for a comprehensive liberal education, which prepares students not for a specific profession but for life itself, for the moral, intellectual, social, civic, and spiritual maturity and growth that accompany a life well lived. A successful liberal arts education prepares students for the proper ordering of all spheres of life and for a lifetime of learning. The liberal arts are preparation for the lofty and rigorous discipline of understanding in its fullness "the truth [that] shall make you free" (John 8:32).

Great works of history, literature, art, philosophy, and theology offer the most enriching content of the liberal arts; they are living teachers speaking to each generation with rare wisdom. Through study of such works, students of the humanities integrate the liberal arts with one another, with education as a whole, and with Christian higher education in particular.

The first task of the liberal arts is to secure the liberation of the mind from those many fetters that can bind it, notably ignorance, prejudice, and the influence of the passions. In and through this essential freedom—the freedom of the mind—humanity manifests itself. The integrative principle of the liberal arts is the idea of *humanitas*.

# Requirements

The Humanities minor consists of 18 units, including four core courses and two electives:

| Code | Title | Units |
|---|---|---|
| **Required Courses** | | |
| HUM 221 | Core Texts in History [1] | 3 |
| HUM 222 | Core Texts in Literature [2] | 3 |
| HUM 223 | Core Texts in Aesthetics [3] | 3 |
| HUM 224 | Core Texts in Philosophy [4] | 3 |
| **Elective Courses** | | **6** |
| Select two of the following: | | |
| HUM 201 | Intercultural Knowledge and Competence [5] | |
| HUM 202 | Civic Knowledge and Engagement [6] | |
| HUM 321 | Core Texts in History [1] | |
| HUM 322 | Core Texts in Literature [2] | |
| HUM 323 | Core Texts in Aesthetics [3] | |
| HUM 324 | Core Texts in Philosophy [4] | |
| HUM 325 | Core Texts in Christianity [7] | |
| ART 354 | History of Ancient Art and Architecture [3] | |
| ART 356 | Writing 3: History of Modern Art and Architecture [8] | |
| ART 361 | History of Early Christian and Medieval Art and Architecture [3] | |
| ART 362 | History of Renaissance to Rococo Art and Architecture [3] | |
| ENGL 377 | Shakespeare | |
| ENGL 410 | American Novel | |
| ENGL 466 | British Novel | |
| HIST 389 | Modern American Intellectual History | |
| HIST 401 | Humanities Seminar | |
| MUS 351 | Ancient, Renaissance, and World Music Literature | |
| MUS 352 | Writing 3: Baroque, Classical, and Early Romantic Music Literature [8] | |
| MUS 455 | Late Romantic and 20th-Century Music Literature [1] | |
| PHIL 315 | History of Ancient Philosophy | |
| PHIL 316 | Medieval Philosophy | |
| PHIL 320 | History of Early Modern Philosophy | |
| PHIL 340 | Writing 3: Concepts of Human Nature [8] | |
| POLI 360 | Classical Political Thought | |

| | |
|---|---|
| POLI 363 | Modern Political Thought |
| POLI 376 | The American Founding |
| SOC 298 | Basic Sociological Theory |
| SPAN 332 | Literary Masters [2] |
| SPAN 431 | Spanish Language Poetry and Short Story |
| UBBL 310 | The Rise of the King: I and II Samuel [9] |
| UBBL 340 | Romans and Galatians [9] |
| UBBL 341 | Thessalonian and Corinthian Epistles [9] |

**Total Units**      **18**

[1]    Meets the General Education Humanities: History requirement.
[2]    Meets the General Education Humanities: Literature requirement.
[3]    Meets the General Education Humanities: Fine Arts requirement.
[4]    Meets the General Education Philosophy requirement.
[5]    Meets the General Education Intercultural Competence requirement.
[6]    Meets the General Education Civic Knowledge and Engagement requirement.
[7]    Meets the General Education Theology requirement.
[8]    Meets the General Education Writing 3 requirement.
[9]    Meets the General Education Upper-Division Bible requirement.

## Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Familiarity with Great Works: Demonstrate familiarity with great works from at least three General Education categories from multiple disciplinary perspectives.
2. Reading, Studying, and Responding: Demonstrate skill and flexibility in reading, studying, and responding to great works.
3. Liberal Education: Articulate the value of a great works approach to a liberal arts education.
4. Christian Perspective: Articulate a Christian perspective of truth and life.

## Courses

### HUM 201, Intercultural Knowledge and Competence, 3 Units

This course employs an interdisciplinary approach to expanding students' intercultural knowledge and experience in three stages. First, through a study of core texts in the humanities, it studies a chronologically arranged variety of cultural perspectives on the meaning and value of the natural world. Second, it punctuates this study with affective experience in a new cultural setting (typically by visiting with a representative from local Native American or Armenian communities). Third, it requires students to reflect upon and analyze their own culturally structured attitudes toward the concept of nature. *Meets the General Education Requirement: Intercultural Competence.*

### HUM 202, Civic Knowledge and Engagement, 3 Units

This course employs an interdisciplinary approach to expanding students' civic knowledge and their awareness of possibilities for civic engagement in two stages. First, through a study of core texts, it examines how human beings should live in relationship to their built and natural environments. Second, this course requires students to reflect upon and analyze their own civic responsibilities toward the built or natural environment through a final research project that analyzes how civic engagement has produced policy changes on a specific issue from the 1960s to the present. *Meets the General Education Requirement: Civic Knowledge and Engagement.*

### HUM 221, Core Texts in History, 3 Units

This course offers a study of selected classic works that shaped and represented different civilizations in a specified historical era, taught by a faculty tutor in an integrative, interdisciplinary fashion. HUM 221 and HUM 321 may not be taken concurrently, and additional work is required in HUM 321. This course may be repeated once for credit as the topic varies. *Meets the General Education Requirement: Humanities: History.*

### HUM 222, Core Texts in Literature, 3 Units

This course offers a study of selected literary texts from a variety of cultures and genres in a specified historical era, taught by a faculty tutor in an integrative, interdisciplinary fashion. HUM 222 and HUM 322 may not be taken concurrently, and additional work is required in HUM 322. This course may be repeated once for credit as the topic varies. *Meets the General Education Requirement: Humanities: Literature.*

### HUM 223, Core Texts in Aesthetics, 3 Units

A study of the creative process and of selected aesthetic masterpieces in a variety of cultures and genres from a specified historical era. Taught by a faculty tutor in an integrative, interdisciplinary fashion. HUM 223 and HUM 323 may not be taken concurrently, and additional work is required in HUM 323. This course may be repeated once for credit as the topic varies. *Meets the General Education Requirement: Humanities: Fine Arts.*

### HUM 224, Core Texts in Philosophy, 3 Units

This course offers a study of selected philosophical works illustrating intellectual perspectives of a specified historical era, taught by a faculty tutor in an integrative, interdisciplinary fashion. HUM 224 and HUM 324 may not be taken concurrently, and additional work is required in HUM 324. This course may be repeated once for credit as the topic varies. *Meets the General Education Requirement: Philosophy.*

### HUM 321, Core Texts in History, 3 Units

This course offers a study of selected classic works that shaped and represented different civilizations in a specified historical era, taught by a faculty tutor in an integrative, interdisciplinary fashion. HUM 221 and HUM 321 may not be taken concurrently, and additional work is required in HUM 321. This course may be repeated once for credit as the topic varies. *Meets the General Education Requirement: Humanities: History.*

### HUM 322, Core Texts in Literature, 3 Units

This course offers a study of selected literary texts from a variety of cultures and genres taught by a faculty tutor in an integrative, interdisciplinary fashion. HUM 222 and HUM 322 may not be taken concurrently, and additional work is required in HUM 322. This course may be repeated once for credit as the topic varies. *Meets the General Education Requirement: Humanities: Literature.*

### HUM 323, Core Texts in Aesthetics, 3 Units

This course offers a study of the creative process and selected aesthetic masterpieces in a variety of cultures and genres from a specified historical era, taught by a faculty tutor in an integrative, interdisciplinary fashion. HUM 223 and HUM 323 may not be taken concurrently, and additional work is required in HUM 323. This course may be repeated once for credit as the topic varies. *Meets the General Education Requirement: Humanities: Fine Arts.*

### HUM 324, Core Texts in Philosophy, 3 Units

This course offers a study of selected philosophical works illustrating intellectual perspectives of a specified historical era, taught by a faculty tutor in an integrative, interdisciplinary fashion. HUM 224 and HUM 324 may not be taken concurrently, and additional work is required in HUM 324. This course may be repeated once for credit, as the topic varies. *Meets the General Education Requirement: Philosophy.*

### HUM 325, Core Texts in Christianity, 3 Units

This course offers a study of selected classics on Christian life and doctrine from a specified historical era, taught by a faculty instructor in an integrative, interdisciplinary fashion. May be repeated once for credit as the topic varies. *Meets the General Education Requirement: Theology.*

# Minor in Political Science

21 units

## Requirements

Select seven courses (21 units total), of which no more than 6 units may be in common with the student's major.

The Department of History and Political Science maintains the following requirements for each of the minors it offers:

1. Students must complete all prerequisites for any HIST or POLI course with a *C-* or better before taking the course (except as noted in the course description).
2. Students must maintain a minimum cumulative GPA of 2.0 in all political science and history courses required for the minor.
3. Students must complete each HIST or POLI course with a *C-* or higher for the course to meet a degree requirement in the Department of History and Political Science.

| Code | Title | Units |
| --- | --- | --- |
| **Core Courses** | | |
| POLI 150 | American Government [1] | 3 |
| POLI 160 | Introduction to Politics | 3 |
| Select one of the following: | | 3 |
| POLI 180 | Intro to International Relations | |
| POLI 220 | State and Local Government | |
| POLI 250 | Introduction to Criminal Law | |
| POLI 260 | Introduction to Legal Transactions | |
| **Elective Courses** | | |

| Select a minimum of four of the following: | | 12 |
|---|---|---|
| HIST 334 | History of American Foreign Affairs | |
| POLI 310 | Political Geography | |
| POLI 320 | Comparative Politics | |
| POLI 325 | Seminar in International Relations | |
| POLI 350 | Constitutional Law: Fundamental Freedoms | |
| POLI 351 | Constitutional Law: Criminal Justice | |
| POLI 352 | Constitutional Law: National Powers | |
| POLI 353 | Seminar on Legal Studies | |
| POLI 360 | Classical Political Thought | |
| POLI 363 | Modern Political Thought | |
| POLI 376 | The American Founding | |
| POLI 380 | Terrorism and Counterterrorism | |
| POLI 381 | Theories of International Relations | |
| POLI 382 | Diplomacy and Foreign Policy | |
| POLI 383 | National Security | |
| POLI 385 | Politics of Developing Countries | |
| POLI 390 | History and Politics of the Non-Western World | |
| POLI 399 | Political Science Practicum | |
| POLI 400 | Seminar on American Politics | |
| POLI 405 | The American Presidency | |
| POLI 410 | Congress | |
| POLI 415 | The Federal Judiciary | |
| POLI 420 | Women in Politics | |
| POLI 421 | Regional Studies | |
| POLI 422 | International Organizations | |
| POLI 450 | Principles and Practice of Research Design | |
| POLI 471 | Political Topics | |
| POLI 497 | Readings | |
| POLI 498 | Directed Research | |
| POLI 499 | Thesis/Project | |
| **Total Units** | | **21** |

[1]     Meets the General Education Civic Knowledge and Engagement requirement.

## Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. American Government: Explain the principles, purposes, and main features of American government.
2. International Politics: Explain the main features of international politics.
3. Political Philosophy: Analyze the writing of major thinkers in the history of political philosophy.
4. Christian Foundation: Articulate a Christian understanding of politics and government.
5. Professional Writing: Demonstrate ability to write and cite sources to professional standards within the discipline.

# Minor in Prelaw

21 units

## Requirements

No more than 6 units from the minor may be in common with the student's major. To graduate as department majors or minors, students must maintain at least a 2.0 grade-point average in program courses.

The Department of History and Political Science maintains the following requirements for each of the minors it offers:

1. Students must complete all prerequisites for any HIST or POLI course with a *C-* or better before taking the course (except as noted in the course description).
2. Students must maintain a minimum cumulative GPA of 2.0 in all political science and history courses required for the minor.
3. Students must complete each HIST or POLI course with a *C-* or higher for the course to meet a degree requirement in the Department of History and Political Science.

| Code | Title | Units |

| **Core Courses** | | |
| POLI 150 | American Government [1] | 3 |
| POLI 415 | The Federal Judiciary | 3 |
| **Electives** | | |
| A total of five courses are required. | | 15 |
| Select at least three of the following: | | |
| POLI 250 | Introduction to Criminal Law | |
| POLI 260 | Introduction to Legal Transactions | |
| POLI 350 | Constitutional Law: Fundamental Freedoms | |
| POLI 351 | Constitutional Law: Criminal Justice | |
| POLI 352 | Constitutional Law: National Powers | |
| POLI 353 | Seminar on Legal Studies | |
| Select at least one of the following: | | |
| POLI 360 | Classical Political Thought | |
| POLI 363 | Modern Political Thought | |
| POLI 376 | The American Founding | |
| **Total Units** | | **21** |

[1]    **Meets the General Education Civic Knowledge and Engagement requirement.**

# Department of Sociology, TESOL, and Modern Languages

The Department of Sociology, TESOL, and Modern Languages (https://www.apu.edu/clas/sociology-languages/) offers undergraduate majors (sociology and Spanish) and minors (environmental studies, ethnic studies, sociology, Spanish, and Teaching English to Speakers of Other Languages (TESOL)). At the graduate level, it offers the MA in TESOL, Certificate in TESOL, and Certificate in Teaching English as a Foreign Language (TEFL), each offered in person and online.

For program descriptions, click the Programs tab above and select the appropriate major, minor, MA, or certificate.

## Accreditation

- Azusa Pacific University is accredited by the WASC Senior College and University Commission (WSCUC) (https://www.wscuc.org/).

## Master's

Master of Arts in Teaching English to Speakers of Other Languages (TESOL)

## Certificates

Teaching English to Speakers of Other Languages (TESOL)

## Courses

### ETHN 150, Introduction to Ethnic Studies, 3 Units

This class examines the complexities of ethnic and racial diversity in the United States, exploring the historical and cultural aspects of how ethnic minority groups have been affected by social inequality in America. The course provides an overview of concepts and terms essential to studies and discussions within the discipline of ethnic studies. Covered terms include: race, racism, racialization and racialism, ethnicity and ethnic identity, ethnonationalism or ethnic nationalism, panethnicity, ethnocentrism, prejudice, discrimination, segregation, marginalization, diversity, pluralism, multiculturalism, affirmative action, enculturation, acculturation, assimilation, and self-determination. This survey course provides an overview of the discipline of ethnic studies as a whole. Topics of study include: the social construction of race and ethnicity, notions of identity and citizenship, and analysis of African Americans, Asian Americans, Chicanos and Latinos, Native Americans, and Pacific Islanders. The effect of culture on spiritual experience and identity are also examined. *Meets the General Education Requirement: Intercultural Competence.*

### ETHN 355, The Asian American Experience, 3 Units

This course introduces students to the history and experiences of Asian Americans. Using the analytical lens of sociological inquiry, students examine immigration patterns, sociopolitical and economic challenges, and issues Asian Americans face due to racism and/or ignorance. Students also explore the contributions of Asian cultures to the fabric of American life. *Meets the General Education Requirement: Intercultural Competence.*

### ETHN 356, The African American Experience, 3 Units

This course introduces students to the experience of African Americans in the United States, including an examination of African American contributions to the nation's development, as well as an exploration of the dimensions of their identity. Students are challenged to critically analyze and interpret history and culture. *Meets the General Education Requirement: Intercultural Competence.*

### ETHN 357, The Chicano(a)/Latino(a) Experience, 3 Units

This course introduces students to the history and experiences of Chicano(a)/Latino(a) Americans, examining their immigration patterns, sociopolitical and economic influences, heritage and traditions, contributions to American culture, and race relations. *Meets the General Education Requirement: Intercultural Competence.*

### ETHN 358, Native American/Indigenous Experience, 3 Units

This course introduces students to the history and experiences of Native Americans. Students examine the socio-historical context of settler colonialism, cultural contributions of Native Americans, and issues encountered by Native Americans due to racism and/or ignorance. Historically, Native Americans have experienced obstacles that have led to their displacement and removal, especially as it relates to their ties to the land, a distortion and erasure of their influence on this country, and struggles to achieve political and legal respect as a sovereign nation within the U.S. Although it is nearly impossible to learn about each of the several hundred Native nations present in the Americas, this course utilizes a topical approach that explores the multifaceted issues related to indigenous peoples in general. *Meets the General Education Requirement: Intercultural Competence.*

## ETHN 476, Transforming Leadership: Ethnic Studies and Latinx Christian Practice, 3 Units

This interdisciplinary course prepares students for engagement with multicultural communities in the U.S. Students explore the writings and lives of important Latinx theoreticians and practitioners, and experience hands-on engagement with the everyday challenges of Latinx communities, in the process becoming self-aware leaders who thrive in contexts of cultural and religious pluralism. Priority is given to the exploration of leadership practices that shape learning environments where participants are transformed into a relational, interpretive, and improvisational community that attends to the creative agency of God and neighbor in the local area.

## GLBL 101, Self-Directed Language Learning I, 4 Units

This is the first of a two-course sequence designed as an individually tailored, self-directed course for developing elementary competence in the language and culture of a foreign speech community, typically within study abroad contexts. Two semesters of the same language are required to meet the General Education requirement.

## GLBL 102, Self-Directed Language Learning II, 4 Units

A continuation of GLBL 101, this is an individually tailored, self-directed course for developing low-intermediate competence in the language and culture of a foreign speech community. Two semesters of the same language are required to meet the General Education requirement.
**Prerequisite:** GLBL 101

## GLBL 120, Contemporary Global Issues, 3 Units

Focusing on cities in the Majority World, this course introduces key concepts in global studies. Global issues are surveyed and analyzed, such as urbanization, income inequality, environment degradation, conflict and migration; and cultural, economic, and political causes are discussed. Drawing on research in sociology, global urbanism, and sustainable development, students consider contributing factors and assess prospects for constructive global engagement. *Meets the General Education Requirement: Civic Knowledge and Engagement.*

## GLBL 201, Anthropology for Everyday Life, 3 Units

This course equips students with a practical methodology for exploring the social and cultural reality of group members within local communities: the development of cross-cultural relationships combined with reflection on anthropological concepts and experiences. Students prepare to enter relationships of mutual learning with peoples throughout the world. *Meets the General Education Requirement: Intercultural Competence.*

## GLBL 260, Intercultural Communication, 3 Units

Students in this course explore the dynamic processes involved in establishing a relationship between culturally diverse individuals. Respecting divergent cultural patterns is promoted, but not at the expense of salient spiritual, moral, and ethical issues involved in intercultural communication. *Meets the General Education Requirement: Intercultural Competence.*

## GLBL 300, Self-Directed Language Learning, 3 Units

The course provides an individually tailored, community-based program for developing proficiency in a foreign language. Emphasis is placed on intensive listening and speaking practice to facilitate full participation in family, study, research, and service activities in a foreign culture. This option is offered only for language courses not taught on campus or for participants of the Global Learning Term Program.

## GLBL 305, Peoples and Places, 3 Units

This seminar prepares students for their Global Learning Term or other study abroad experiences through focused area study via a combination of library searches, directed reading, and learning contract development.

## GLBL 315, Urban Society, 3 Units

This course connects students with the people, problems, and prospects of greater Los Angeles. It provides the foundation for understanding urban values and beliefs in historical context, exposure to urban systems, the application of global perspectives, and the collaborative exploration of solutions. Course is available only through the L.A. Term. *Meets the General Education Requirement: Civic Knowledge and Engagement.*

## GLBL 318, Immigration and Integration, 3 Units

An introduction to immigration in the United States, its recent history, theories, and legal aspects, with attention to the integration of immigrant communities into the socio-economic fabric of Los Angeles and beyond. The course addresses the present state of the national immigration debate and encourages students to apply and integrate their faith perspectives on the issues. *Meets the General Education Requirement: Intercultural Competence.*
**Prerequisite:** GLBL 315

## GLBL 320, Global Engagement in the 21st Century, 3 Units

This course studies contemporary global issues and draws extensively from social documentaries (DVDs), biblical texts, students' intercultural experiences, and contemporary models of community-based engagement.
**Prerequisite:** Participation in Los Angeles Term or instructor consent

## GLBL 325, Family Organization, 3 Units

Students immerse themselves in the daily life of host families and communities in crosscultural settings where they explore unfamiliar assumptions and norms of behavior as the basis for composing a family ethnography. Course is only available through the Global Learning Term.
**Prerequisite:** GLBL 305

## GLBL 330, Community Transformation, 6 Units

This course offers a formal and experiential study of the transformation of urban, multicultural communities with the goal of developing a service ethic through a semester-long internship. It involves directed reading, reflective papers, a service practicum, and group discussions- aimed at both the transformation of the student community and the wider Los Angeles community. Course is available only through the L.A. Term Program.

## GLBL 335, Global Internship, 6 Units

The Global Internship is an extended, structured service experience within a cross-cultural setting addressing community-identified needs. Students work under expert supervision for a minimum of 150 hours, integrating disciplinary study with direct interaction and personal reflection and writing. The course aims to improve students' global knowledge and intercultural competence, while guiding them in making a modest contribution to community improvement. Course is only available through the Global Learning Term (GLT) program.
**Prerequisite:** GLBL 305

## GLBL 340, Community Life, 3 Units

This field seminar helps students learn how to experience another culture. Students explore several topics (e.g., art, schooling, group relations, music, folklore, politics, etc.) of a chosen country, city, or people through observation and discovery, local event participation, informant interviews, problem solving, and journal keeping. Course is only available through the Global Learning Term.

## GLBL 345, Urban Religious Movements, 3 Units

This course contains a survey of religious movements in Los Angeles, including Islam, Hinduism, Buddhism, Orthodox Christianity, Judaism, and New Age. Emphasis is placed on the vernacular character of their faith, embodied and expressed in the beliefs, attitudes, practices, and rituals of their specific social and cultural situations. Learning activities include participant-observation at religious services, informant interviewing, directed reading, and group discussion. Course is available only through the L.A. Term.

## GLBL 350, Writing 3: Global Study Project, 3 Units

Students carry out a self-designed study/research project within an intercultural setting on topics of public concern. The course provides conceptual and practical tools for designing the inquiry under the combined direction of an academic advisor and an on-site guide. Course is only available through the Global Learning Term (GLT) program. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*
**Prerequisite:** Writing 2 and GLBL305

## GLBL 355, Principles and Practice of Community Engagement, 3 Units

This course introduces students to foundations and principles of community development. With in-class learning from real-world case materials, principles are explored and applied in practice during a three-to-four-week service-learning field project/internship with a local nongovernmental organization (NGO) or development organization that addresses community need(s). This course is offered only in international programs. *Meets the General Education Requirement: Civic Knowledge and Engagement.*

## GLBL 365, Women and Globalization, 3 Units

This course critically examines the relationship between women and globalization. Globalization is analyzed from an historical perspective focusing on its antecedents in capitalism and modernity. While drawing from the fields of economics, history, and political science, this class examines the intersection of women and globalization primarily from an anthropological and global perspective. Topics to be read, discussed, and analyzed include capitalism, globalization, development, transnational migration, labor, media, the environment, and religion.

## GLBL 399, Global Seminar, 3 Units

This is a short-term, collaboratively led study and service seminar focused on a vital global issue in an international setting. The course enlightens learners' disciplinary perspectives, develops their intercultural competence, and strengthens their commitment to serve "the least, the last, and the lost" throughout their lives. It includes three on-campus class sessions prior to a 10-day field seminar.

## GLBL 420, Sustainable Societies, 3 Units

Sustainable Societies is a seminar-style upper-division and applied course focused on creating communities that are socially equitable, economically expansive, culturally adaptive, and ecologically sustainable. Practical themes in the "sustainability conversation" are linked to cross-cultural field experiences and post-college vocational planning. *Meets the General Education Requirement: Integrative and Applied Learning.*
**Prerequisite:** Junior standing

## GLBL 425, Integration and Formation Seminar, 1 Unit

Integration and Formation takes students through the process of integrating their study away experiences with their spiritual, ethical, and vocational development. It provides study away returnees with the opportunity to analyze their experiences with others while understanding the process of negotiating changing cultural norms to become ethical and responsible global learners. May be taken for 0 units by petition only.
**Prerequisite:** Completed Study Away Program or Instructor consent. Instructor or department consent must be obtained to drop course.

## GLBL 465, Globalization and Development, 3 Units

This course presents a brief historical perspective on globalization, focusing on the transitions from premercantilism to industrialization to the world today. Economic, political, and social perspectives on the structural changes associated with globalization today are discussed, along with the major challenges and opportunities concerning globalization as it relates to the poor. *Meets the General Education Requirement: Social Science.*
**Prerequisite:** GLBL 201

## GLBL 495, Special Topics, 3 Units

This course addresses topics of current interest in Global Studies not covered in-depth by the core and elective Global Studies courses. Possible topics include: women and global human rights, urbanization and global poverty, global health issues, humanitarian aid and relief, global ethics, and specific areas within larger topics of global systems, issues, and inequity. Course may be repeated as the topic varies up to 9 units, or three times.
**Prerequisite:** GLBL 301

## GLBL 496, Global Studies Senior Seminar, 3 Units

Major global issues and trends are examined so as to frame possible Christian social interventions in response to some of the moral and ethical challenges of today. Students prepare and present a formal project report.
**Prerequisite:** Senior standing, GLBL 201, or Instructor's consent, completion of the majority of God's Word requirement, and upper-division writing intensive course.

## GLBL 497, Readings, 1-4 Units

Consists of a program of study concentrating on assigned readings, discussions, and writing arranged between and designed by a student of upper-division standing and a full-time professor. An independent study fee is assessed for each enrollment in this class. May be repeated for credit.

## GLBL 498, Directed Research, 1-4 Units

This course provides instruction in research design and technique, and gives students experience in the research process. The 1-unit expectation encompasses no fewer than 30 hours of work with accompanying reading, log, writing, and seminar presentation within the department or in a university research symposium. No more than 1 unit may be used to fulfill preparatory readings requirement. An independent study fee is assessed for each enrollment in this class. May be repeated for credit.
**Prerequisite:** Junior or Senior Standing

## GLBL 499, Thesis/Project, 1-4 Units

This is a senior-level "capstone" type of independent study/research experience, involving the student in a unique project with a sophisticated level of research, synthesis, analysis, and communication. The 1-unit expectation encompasses no less than 30 hours of work with accompanying readings, log, instructor discussions, and writing of summary analysis and conclusions. The thesis or project may result in formal thesis, published article, electronic media, or artistic creation of a material form. No more than 1 unit may be used to fulfill preparatory readings requirement. An independent study fee is assessed for each enrollment in this class. May be repeated for credit.
**Prerequisite:** Upper-division writing intensive course or instructor consent; and junior or senior standing

## MODL 101, Modern Language I, 3 Units

This is the first of a two-course sequence emphasizing practical communication skills for beginners in a language that is not normally offered by the department. It is designed to develop basic listening, speaking, reading, and writing skills, and introduces cultural aspects. Classes meet three hours weekly, and utilize a lecture format. *Meets the General Education Requirement: Foreign Language.*

## MODL 102, Modern Language II, 3 Units

This is the second of a two-course sequence emphasizing practical communication skills for beginners in a language that is not normally offered by the department. It is designed to develop basic listening, speaking, reading, and writing skills, and introduces cultural aspects. Classes meet three hours weekly, and utilize a lecture format. *Meets the General Education Requirement: Foreign Language.*
**Prerequisite:** MODL 101 of the same language, or appropriate score on language placement exam.

## MODL 250, Self-Directed Language Study, 1-3 Units

This is the first semester of a self-directed language study course which requires dedicated individual effort on the part of the students, because the course progresses at an accelerated pace. Students meet with the professor prior to signing up for the course in order to determine goals, method of study, required personal discipline, responsibilities, and schedule of periodic meetings with the professor. Thus, prior acceptance by the professor is required.
**Prerequisite:** Completed general studies language requirement and Junior/Senior standing or instructor consent

## MODL 251, Self-Directed Language Study II, 1-3 Units

This is the second semester of a self-directed language study course which requires dedicated individual effort on the part of the students as the course progresses at an accelerated pace. Students meet with the professor prior to signing up for the course in order to determine goals, method of study, required personal discipline, responsibilities, and schedule of periodic meetings with the professor. Thus, prior acceptance by the professor is required.
**Prerequisite:** MODL 250 (in the same language), and junior/senior standing or instructor consent

## MODL 495, Special Topics in Modern Languages, 3 Units

This course presents topics not covered by regular department courses. Course may be repeated as topics change for up to 6 units toward graduation.

## PRSO 358, Human Diversity, 3 Units

Students examine diversity in a pluralistic society, with a focus on groups that have been assigned subordinate positions because of race, religion, country of origin, disability, age, language, or gender. The nature of prejudice and issues related to discrimination and oppression are explored. *Meets the General Education Requirement: Intercultural Competence.*

## SOC 120, Introduction to Sociology, 3 Units

This course focuses on the origins and development of sociology as a response to pressing social problems. It emphasizes mastery of sociological terminology. The key learning outcome will be the acquisition of a Sociological Perspective and the ability to analyze social life in a sociological manner. *Meets the General Education Requirement: Social Science.*

## SOC 120H, Introduction to Sociology - Honors, 3 Units

This course focuses on the origins and development of sociology as a response to pressing social problems. It emphasizes mastery of sociological terminology. *Meets the General Education Requirement: Social Science.*
**Prerequisite:** To enroll in the course, must be a student admitted to the Honors Program and be considered a member in "active" status.

## SOC 225, Contemporary Social Problems, 3 Units

The complex social problems faced by people in a changing technological society are studied. Institutions, attempts to find solutions, and exploration of alternatives are emphasized.

## SOC 230, Comparative Family Systems, 3 Units

This course compares traditional family patterns with the new options available to men and women, both as individuals and partners. It focuses on the changing roles of men and women inside and outside of marriage, the challenge of the two-career family, and the search for the family's place as an integral part of society.

## SOC 235, Race and Ethnicity, 3 Units

The sociological understanding of race and ethnicity is necessarily complex as it relates to experiences, structures, institutions, policies, and history. This course examines how race relates to, and overlaps with, other human experiences, structures, institutions, policies, and social history, and takes a theoretical and discursive approach to race and ethnicity, which helps students develop multiple analytical frameworks for thinking about race and ethnicity, as well as an anti-racist approach. On the one hand, the sociological study of race and ethnicity is a critical examination of how humans have used categories as a way to maintain, justify, and sustain systems of oppression; on the other hand, the sociological perspective yields hope in developing an anti-racist mindset that resists and actively works against all forms of domination. *Meets the General Education Requirement: Intercultural Competence.*

## SOC 298, Basic Sociological Theory, 3 Units

The function of theory and the contributions to modern sociological thought by the principal sociologists of the 19th and 20th centuries are considered. The application of theory to contemporary social concerns is investigated.
**Prerequisite:** SOC 120

## SOC 358, Human Diversity, 3 Units

Students examine diversity in a pluralistic society, with a focus on groups that have been assigned subordinate positions because of race, religion, country of origin, disability, age, language, or gender. The nature of prejudice and issues related to discrimination and oppression are explored. *Meets the General Education Requirement: Intercultural Competence.*

## SOC 359, Immigrant L.A., 3 Units

This course focuses on the social dimensions of immigration into Southern California. "Likeness" and "otherness" are examined in relation to race/ethnicity, transnationality, global inequality, and citizenship. Macrosocial and economic forces, along with governmental policies are analyzed and critiqued. In-depth stories of immigrants and various site visits contribute to students' experiential learning on the subject.

## SOC 360, Sociology of Religion, 3 Units

This course offers an objective analysis of the interrelations between religious phenomena and social institutions, structures, and behavior. There is special emphasis on the distinction between church and sect, religious and social stratification, secularization, science and religion, and religious movements.

## SOC 361, Education and Society, 3 Units

This course introduces the Sociology of Education, examining the relationship between schooling and the larger society. Taking a comparative and historical perspective on education as a social institution, the course examines major issues in the field, concentrating on the role of education in cultural transmission, socialization, and performance- as well as the use of education in legitimating social inequality and transmitting morals and values. The course also explores the structure of educational systems as institutional bureaucracies and organizations. Students apply their learning in a scholarly sociological analysis of a current educational policy or practice.
**Prerequisite:** SOC 120

## SOC 404, Community, 3 Units

Students examine the various ways people organize themselves into communities and develop means of governance. This course explores the impact of the community on people, the ways power is used and misused, social conflict, social change, and the need for social involvement. A wide variety of communities are examined: rural, urban, village, metropolis, Utopian communities, communes, planned cities, and new towns. Cultural and national differences in the development of communities are assessed.
**Prerequisite:** SOC 120

## SOC 405, The Sociology of Gender, 3 Units

This course in an investigation of gender and sex roles, primarily in American culture and society. The course explores the ways in which society shapes notions of what it means to be a "woman" and a "man" by examining the theories and research on how people define themselves and interact with others in a variety of contexts (e.g., family, personal relationships, work, health, religion, etc.). It also examines the sociological implications of cultural definitions of femininity and masculinity as seen through various racial, historical, economic, and sexualized perspectives
**Prerequisite:** SOC 120 or SOC 358, and Junior or Senior Standing.

## SOC 410, Field Internships, 4 Units

This course offers students the opportunity to gain supervised work experience through internships with professional organizations working to address contemporary social problems. Students are introduced to and placed in internship organizations that have been approved by the course professor, with placements varying from international to local organizations. Various approaches to researching social problems and developing research projects involving solutions to those problems are introduced and explored. Students conduct their own fieldwork in coordination with the course professor and internship supervisor. *Meets the General Education Requirement: Integrative and Applied Learning.*
**Prerequisite:** SOC 120 and junior standing.

## SOC 425, Social Movements, 3 Units

Students undertake several analytical tasks in this course such as understanding how and why social movements emerge, what strategies are used to maintain the movement, how collective identity develops, and what makes a social movement successful. Students look to contemporary social movements to respond to these queries.
**Prerequisite:** SOC 120

## SOC 455, Crime and Delinquency, 3 Units

This course explores the dimensions and nature of both traditional crime and criminality and the newly recognized forms of crime which exist within contemporary society. The criminal's relationship to the courts, police, and other penal agencies is the focus of attention.
**Prerequisite:** SOC 120

## SOC 464, Social Stratification, 3 Units

Theories and research in social stratification are the focus of this course. Topics covered include role, status, structure of differential rankings in society, criteria for ranking, functions and dysfunction, correlates of class positions, social change, and social mobility.

## SOC 468, Contemporary Social Theory, 3 Units

This course looks at major theoretical orientations in contemporary sociological thought, explores the ways these ideas have changed in relation to the structural transformations, and examines connections between the underlying assumptions of key theorists and their conclusions about the nature of social life.
**Prerequisite:** SOC 120, SOC 298

## SOC 471, Writing 3: Qualitative Social Research Methods, 3 Units

This course in basic social scientific research focuses on qualitative methods. Students gain experience with participant observation, intensive interviewing, and other field methods. Qualitative research design, data collection, data analysis, and research report writing are covered. As a Writing 3 course, students are assigned structured assignments with multiple drafts that will lead to a final piece of professional writing in the field of sociology. Writing is assessed throughout the course by the instructor and through peer review. The final product is presented as one would present it at a professional conference. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*
**Prerequisite:** SOC 298 and Writing 2

## SOC 472, Writing 3: Quantitative Social Research Methods, 3 Units

This basic course in social scientific research focuses on quantitative methods, with students gaining experience in survey research, content analysis, and other statistical methods. Course material also covers quantitative research design, data collection, data analysis, and research report writing. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*
**Prerequisite:** Writing 2, MATH 130 (C- or better).

## SOC 495, Special Topics, 3 Units

This course addresses topics of current interest in sociology not covered by the core and elective sociology courses. Possible topics include the sociology of sports, media, or fashion, and specific areas within such larger topics as gender, race, class, and religion. Course may be repeated for credit, as the topic varies.

## SOC 496, Senior Seminar: Faith and Social Issues, 3 Units

Students investigate the impact of modernity on family life, work, religion, politics, and the arts, and consider questions such as: How can people create and preserve a morally coherent life in a society that is pluralistic, secular, and privatized? What difference does Christian faith make in the way people understand the world, and in determining how people ought to live? *Meets the General Education Requirement: Integrative and Applied Learning.*
**Prerequisite:** Junior Standing

# SOC 497, Readings, 1-4 Units

This course consists of a program of study concentrating on assigned readings, discussions, and writing arranged between and designed by a student of upper-division standing and a full-time professor. An independent study fee is assessed for each enrollment in this class. May be repeated for credit.
**Prerequisite:** SOC 120

# SPAN 101, Elementary Spanish I, 3 Units

This is the first of a two-course sequence emphasizing practical Spanish communication for beginners. Students develop basic listening, speaking, reading, and writing skills, and explore different cultures of the Spanish-speaking world. Classes meet three hours weekly and utilize a lecture format. *Meets the General Education Requirement: Foreign Language.*

# SPAN 102, Elementary Spanish II, 3 Units

This is the second of a two-course sequence emphasizing practical Spanish communication for beginners. Students develop basic listening, speaking, reading, and writing skills, and explore different cultures of the Spanish-speaking world. *Meets the General Education Requirement: Foreign Language.*
**Prerequisite:** SPAN 101, or appropriate score on language placement exam.

# SPAN 103, Elementary Spanish I for Healthcare Professionals, 3 Units

This is the first of a two-course sequence emphasizing practical Spanish communication for beginners, helping students develop basic listening, speaking, reading, and writing skills. Course material emphasizes key vocabulary for the healthcare fields and practical communication skills that students can immediately use on the job, and also introduces different cultures of the Spanish-speaking world. Classes meet for three hours weekly, and utilize a lecture format. *Meets the General Education Requirement: Foreign Language.*

# SPAN 104, Elementary Spanish II for Healthcare Professionals, 3 Units

This is the second of a two-course sequence emphasizing practical Spanish communication for beginners, helping students develop basic listening, speaking, reading, and writing skills. Course material emphasizes key vocabulary for the healthcare fields and practical communication skills that students can immediately use on the job, and also introduces different cultures of the Spanish-speaking world. Classes meet for three hours weekly, and utilize a lecture format. *Meets the General Education Requirement: Foreign Language.*
**Prerequisite:** SPAN 103 or equivalent

# SPAN 201, Intermediate Spanish I, 3 Units

This two-course sequence is a continuation of SPAN 101/ SPAN 102, and consists of a thorough review of grammar, expansion of students' vocabulary, conversation practice, and a variety of guided writing experiences. Related cultural media and literary excerpts are integrated into the course.
**Prerequisite:** SPAN 101, SPAN 102, or an appropriate Spanish CLEP Exam score, an appropriate Spanish Placement score, or department approval

# SPAN 202, Intermediate Spanish II, 3 Units

This course is a continuation of SPAN 201.
**Prerequisite:** SPAN 201, or an appropriate Spanish CLEP Exam score, an appropriate Spanish Placement score, or department approval

# SPAN 250, Intermediate Conversation and Writing Abroad, 3 Units

This course provides intensive conversation with supportive written language practice in a select site abroad. Discussion of assigned social, cultural, or literary topics at an intermediate level is required. The course is arranged in tour-fashion during summer session.
**Prerequisite:** SPAN 201 and SPAN 202

# SPAN 301, Spanish Conversation and Community, 3 Units

This course optimizes students' conversational abilities in Spanish, reinforcing grammatical structures and emphasizing communication skills that are concurrently put into practice through service-learning experiences. *Meets the General Education Requirement: Intercultural Competence.*
**Prerequisite:** SPAN 202

# SPAN 305, Spanish for Heritage Speakers, 3 Units

This course is for native/heritage speakers of Spanish. It gives them opportunities to use their conversational skills in the community and to reinforce their reading and writing skills. It advances awareness and understanding of their cultural heritage.
**Prerequisite:** SPAN 202. SPAN 301 recommended.

# SPAN 310, Advanced Language-Study Practicum, 3 Units

This course features individualized field study in a Spanish-speaking milieu under the combined direction of a faculty advisor and an on-field supervisor. It provides students with a one-term immersion into Spanish language and culture with opportunities for participating in special research and/or service projects, family home stays, and/or field seminars.
**Prerequisite:** SPAN 201 and SPAN 202

# SPAN 311, Civilization of Spain, 3 Units

The course covers Spanish history from early development through the modern era. The country's art, literature, religion, and architecture are discussed simultaneously with related historical events. Class is conducted in Spanish.
**Prerequisite:** SPAN 201, SPAN 202, and WRIT 204, or department consent. SPAN 301 recommended.

## SPAN 312, Latin American Civilization, 3 Units

This course surveys the history and aspects of the literature, art, and institutions of Latin America from pre-Columbian time to the modern age. Class is conducted in Spanish.
**Prerequisite:** SPAN 201, SPAN 202, and WRIT 204, or department consent. SPAN 301 recommended.

## SPAN 330, History and Civilization of the Spanish-speaking World, 4 Units

This course introduces students to the history and civilization of Spain and Latin America. Class is conducted in Spanish.
**Prerequisite:** WRIT 204. Recommended: SPAN 301

## SPAN 332, Literary Masters, 4 Units

This course equips students with a detailed understanding of select outstanding Spanish and Latin American literary works and the great authors who wrote them. *Meets the General Education Requirement: Humanities: Literature.*
**Prerequisite:** SPAN 202

## SPAN 415, Politics and Society in Latin America, 3 Units

Students in this course study political and social themes from across contemporary Latin America, equipping students to become active global citizens. Specific topics vary. *Meets the General Education Requirement: Civic Knowledge and Engagement.*
**Prerequisite:** SPAN 202. SPAN 330 recommended

## SPAN 420, Public Speaking in Spanish, 3 Units

Students in this course study oral communication in Spanish, learning how to speak with professionalism in the language, as well as how to research, outline, and deliver speeches and presentations. *Meets the General Education Requirement: Oral Communication.*
**Prerequisite:** SPAN 202. SPAN 301 recommended.

## SPAN 421, Survey of Spanish Literature, 3 Units

The development of literature from El Cid and the recently discovered jarchas through the 20th century is reviewed. This is a survey course which acquaints students with the major periods of Spanish literature and the outstanding writers of Spain. The class is conducted in Spanish.
**Prerequisite:** SPAN 201, SPAN 202, and WRIT 204, or department consent. SPAN 301 recommended.

## SPAN 422, Survey of Latin American Literature, 3 Units

This course begins with pre-Columbian literature in Latin America and continues through the present day. It is intended as a survey of prominent authors and their works. The class is conducted in Spanish.
**Prerequisite:** SPAN 201, SPAN 202, and WRIT 204, or department consent. SPAN 301 recommended.

## SPAN 431, Spanish Language Poetry and Short Story, 3 Units

An introduction to exemplary poetry and short stories of Spanish and/or Spanish American authors is provided. Several works are explored in-depth during the course. Actual title may vary from term to term.
**Prerequisite:** SPAN 201, SPAN 202, and WRIT 204, or department consent. SPAN 301 recommended.

## SPAN 440, Spanish Applied Linguistics, 3 Units

A study of the basic components of language (sounds, word structures, grammatical patterns, and meaning constructions), error analysis, and contrastive analysis in Spanish is offered. The course includes a review of Spanish dialectical differences, their origins, and social implications.
**Prerequisite:** SPAN 201, SPAN 202, and WRIT 204, or department consent. SPAN 301 recommended.

## SPAN 450, Spanish Language Pedagogy, 3 Units

Analysis and discussion of second-language acquisition theory, and the various instructional strategies, technologies, materials, and assessment techniques in Spanish teaching and learning are covered.
**Prerequisite:** SPAN 201, SPAN 202, and WRIT 204, or department consent. SPAN 301 recommended.

## SPAN 460, Writing 3: Survey of the Literature of the Spanish-Speaking World, 4 Units

This course offers an overview of the progressive evolution of the Hispanic literary tradition, introducing the major authors and movements up to the 20th century. It builds on the skills developed in Writing 1 and Writing 2, teaching students how to write professional-quality scholarly articles in the field of Hispanic literary history. Class is conducted in Spanish. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*
**Prerequisite:** WRIT 204. SPAN 330 and SPAN 332 recommended.

## SPAN 480, Spanish Capstone Seminar, 3 Units

This course gives students the opportunity to reflect upon, reinterpret, and organize the linguistic, cultural, and literary information they have pursued throughout previous semesters. In concert with the professor, a complete overview of each student's language experience within the program helps define the direction of their individualized study for the semester. Such study culminates in a personally designed Capstone Seminar project. *Meets the General Education Requirement: Integrative and Applied Learning.*
**Prerequisite:** SPAN 460 or department approval.

## SPAN 494, Internship, 3 Units

For students planning to teach Spanish, this course provides an opportunity for directed experiences in applying foreign language skills to specific tasks. The tasks are arranged individually and supervised directly by the instructor. Tasks are geared to the individual goals of the student. Enrollment is contingent upon department approval and requires the independent study petition process through One Stop I Undergraduate Enrollment Services Center.
**Prerequisite:** SPAN 201 and SPAN 202

## SPAN 495, Special Topics in Spanish, 3 Units

This course allows offerings of diverse topics in Hispanic studies that are not covered by other required department courses. Special interests of faculty and students may be targeted under this category. Culture, politics, and translation are examples of special topics. May be repeated for credit.
**Prerequisite:** SPAN 421 or SPAN 422

## SPAN 497, Readings, 1-4 Units

This is a program of study concentrating on assigned readings, discussions, and writing arranged between and designed by a student of upper-division standing and a full-time professor. An independent study fee is assessed for each enrollment in this class.

## TESL 100, Academic English for Multilingual Undergraduates, 4 Units

Academic English for Multilingual Undergraduates prepares multilingual undergraduate students for three primary academic language tasks of undergraduate study - academic writing, presentations, and seminar speaking. The course focuses on both written and spoken academic English. To the extent possible, assignments will be tied to the students' undergraduate coursework. This course is taken prior to WRIT 110.

## TESL 101, English for Academic Purposes I, 3 Units

This is an intermediate high to advanced level academic English language course designed for students who speak English as an additional language. The course emphasizes listening and speaking skills that are utilized in academic settings such as giving academic presentations and improving listening strategies. Students will also learn about American academic cultural norms and APU resources that can foster academic success. This course can be taken concurrently with TESL 102: English for Academic Purposes II. *Meets the General Education Requirement: Foreign Language.*

## TESL 102, English for Academic Purposes II, 3 Units

This is an academic English language course designed for students who speak English as an additional language. The course emphasizes reading and writing skills that are utilized in academic settings such as writing academic essays, citing sources, genre analysis, and applying reading strategies in academic settings. Navigating cultural and educational systems is also a focus of the course. This course can be taken concurrently with TESL 101. *Meets the General Education Requirement: Foreign Language.*

## TESL 345, Second-language Pedagogy I, 3 Units

An introduction to the field of teaching English to speakers of other languages, this course deals with learner needs; approaches and methods of teaching; techniques for teaching speaking, listening, and integrated skills; lesson planning; the use of technology in language teaching and learning; and classroom management.

## TESL 405, Second-Language Acquisition, 3 Units

Students examine the process of acquiring a language, focusing on second-language acquisition. Questions explored include: What is the nature of language proficiency? What regular patterns characterize the process of language acquisition? What strategies do successful language learners employ? How do linguistic, affective, cognitive, and social factors affect second-language development? What is the role of language teaching in facilitating the process of second-language acquisition?

## TESL 415, Teaching English Grammar, 3 Units

This course focuses on cultivating grammatical competence in ESL/EFL students. It incorporates an overview of English grammatical structures, from word level to discourse level, in the context of how these structures are acquired by ESL/EFL students, and with particular attention to assessing structures in student writing. Class members explore effective means of presenting and practicing these structures within a communicative framework.

## TESL 456, Teaching Practicum, 3 Units

Student teachers engage in practice teaching and are observed by mentor teachers. Through short debriefing sessions, they are guided into a discovery of their teaching behaviors and alternative ways of achieving desired results.

## TESL 500, English for Internationals, 3 Units

The course prepares international students for the interpersonal and academic language tasks of graduate study. Topics include developing effective listening techniques, giving persuasive oral presentations, reading authentic materials, and writing academic prose. Offered only in on-campus program.

## TESL 501, Language Learning through Technology, 3 Units

Students explore how the use of technology can enhance language learning and use online tools to design language learning lessons. Students prepare a presentation on online learning suitable for a conference presentation. Offered only in online program.

## TESL 503, Language and Culture Learning, 3 Units

Students engage in exploring, learning, and acquiring a language and culture through a series of guided tasks and activities such as in-field experience in independent language learning and cultural investigation. Offered only in field-based program.

## TESL 505, Second-language Acquisition, 3 Units

This course examines the process of acquiring a language, focusing on second-language acquisition. Questions to be explored include: What is the nature of language proficiency? What regular patterns characterize the process of language acquisition? What strategies do successful language learners employ? How do linguistic, affective, cognitive and social factors affect second-language development? What is the role of language teaching in facilitating the process of second-language acquisition?

## TESL 505A, Second-language Acquisition: Part I, 1 Unit

This course examines the process of acquiring a language, focusing on second-language acquisition. Questions to be explored include: What is the nature of language proficiency? What regular patterns characterize the process of language acquisition? What strategies do successful language learners employ? How do linguistic, affective, cognitive, and social factors affect second-language development? What is the role of language teaching in facilitating the process of second-language acquisition? In the field-based program, courses are offered as three 1-unit courses to be taken in sequence. TESL 505A, B, C combined is interchangeable with/equivalent to TESL 505.

## TESL 505B, Second-language Acquisition: Part II, 1 Unit

This course examines the process of acquiring a language, focusing on second-language acquisition. Questions to be explored include: What is the nature of language proficiency? What regular patterns characterize the process of language acquisition? What strategies do successful language learners employ? How do linguistic, affective, cognitive, and social factors affect second-language development? What is the role of language teaching in facilitating the process of second-language acquisition? In the field-based program, courses are offered as three 1-unit courses to be taken in sequence. TESL 505A, B, C combined is interchangeable with/equivalent to TESL 505.
**Prerequisite:** TESL 505A

## TESL 505C, Second-language Acquisition: Part III, 1 Unit

This course examines the process of acquiring a language, focusing on second-language acquisition. Questions to be explored include: What is the nature of language proficiency? What regular patterns characterize the process of language acquisition? What strategies do successful language learners employ? How do linguistic, affective, cognitive, and social factors affect second-language development? What is the role of language teaching in facilitating the process of second-language acquisition? In the field-based program, courses are offered as three 1-unit courses to be taken in sequence. TESL 505A, B, C combined is interchangeable with/equivalent to TESL 505.
**Prerequisite:** TESL 505A, TESL 505B

## TESL 509, Special Topics in TESOL, 1-3 Units

A subject of current interest in TESOL is examined in depth. Students analyze controversial issues and develop a reflective position. Course requirements may include attendance at the annual TESOL convention. Students may repeat the course up to a maximum of 6 units. Each course must address a different topic.

## TESL 515, Teaching English Grammar, 3 Units

This course focuses on cultivating grammatical competence in ESL/EFL students. It incorporates an overview of English grammatical structures, from word level to discourse level, in the context of how these structures are acquired by ESL/EFL students and with particular attention to assessing structures in student writing. Class members explore effective means of presenting and practicing these structures within a communicative framework.

## TESL 515A, Teaching English Grammar: Part I, 1 Unit

This course focuses on cultivating grammatical competence in ESL/EFL students. It incorporates an overview of English grammatical structures, from word level to discourse level, in the context of how these structures are acquired by ESL/EFL students and with particular attention to assessing structures in student writing. Class members explore effective means of presenting and practicing these structures within a communicative framework. The field-based program offers three 1-unit courses to be taken in sequence. TESL 515A, B, C combined is interchangeable with/equivalent to TESL 515.

## TESL 515B, Teaching English Grammar: Part II, 1 Unit

This course focuses on cultivating grammatical competence in ESL/EFL students. It incorporates an overview of English grammatical structures, from word level to discourse level, in the context of how these structures are acquired by ESL/EFL students and with particular attention to assessing structures in student writing. Class members explore effective means of presenting and practicing these structures within a communicative framework. The field-based program offers three 1-unit courses to be taken in sequence. TESL 515A, B, C combined is interchangeable with/equivalent to TESL 515.
**Prerequisite:** TESL 515A

## TESL 515C, Teaching English Grammar: Part III, 1 Unit

This course focuses on cultivating grammatical competence in ESL/EFL students. It incorporates an overview of English grammatical structures, from word level to discourse level, in the context of how these structures are acquired by ESL/EFL students and with particular attention to assessing structures in student writing. Class members explore effective means of presenting and practicing these structures within a communicative framework. The field-based program offers three 1-unit courses to be taken in sequence. TESL 515A, B, C combined is interchangeable with/equivalent to TESL 515.
**Prerequisite:** TESL 515A, TESL 515B

## TESL 525, Teaching English Pronunciation, 3 Units

The phonology of English is addressed with a view towards pedagogy. Students examine the articulation of English sounds, as well as the rules that govern their use in native-like speech, and explore ways of applying this knowledge to the teaching of pronunciation.

## TESL 525A, Teaching English Pronunciation: Part I Phonetic Description, 1 Unit

The phonology of English is addressed with a view toward pedagogy. Students examine the articulation of English sounds, as well as the rules that govern their use in native-like speech, and explore ways of applying this knowledge to the teaching of pronunciation. TESL 525A, B, C combined is interchangeable with/equivalent to TESL 525.

## TESL 525B, Teaching English Pronunciation: Part II Teaching Materials, 1 Unit

The phonology of English is addressed with a view toward pedagogy. Students examine the articulation of English sounds, as well as the rules that govern their use in native-like speech, and explore ways of applying this knowledge to the teaching of pronunciation. TESL 525A, B, C combined is interchangeable with/equivalent to TESL 525.

**Prerequisite:** TESL 525A

## TESL 525C, Teaching English Pronunciation: Part III Needs Assessment, 1 Unit

The phonology of English is addressed with a view toward pedagogy. Students examine the articulation of English sounds, as well as the rules that govern their use in native-like speech, and explore ways of applying this knowledge to the teaching of pronunciation. TESL 525A, B, C combined is interchangeable with/equivalent to TESL 525.

**Prerequisite:** TESL 525A, TESL 525B

## TESL 530, Intercultural Communication and Language Teaching, 3 Units

This course explores the complex process of intercultural communication and how this affects teaching English as a second or foreign language. Students explore the process of learning another culture and learning their own culture through films, course readings, discussions, and an ethnographic experience. They explore the process of teaching culture by developing and presenting an ESL/EFL unit applying the guidelines for culture teaching presented in class texts, lectures, and discussions.

## TESL 530A, Intercultural Communication and Language Teaching: Preparing an Ethnographic Inquiry, 1 Unit

This course explores the complex process of intercultural communication and how this affects teaching English as a second or foreign language. Students explore the process of learning another culture and learning their own culture through films, course readings, discussions, and an ethnographic experience. They explore the process of teaching culture by developing and presenting an ESL/EFL unit applying the guidelines for culture teaching presented in class texts, lectures, and discussions. In the Field-based program, courses are offered as three one-unit courses to be taken in sequence (either Summer 2, FI, FII or Spring I, II, and Summer 1), each section (A,B,C) is one unit each. TESL 530A, B, C combined is interchangeable with/equivalent to TESL 530.

## TESL 530B, Intercultural Communication and Language Teaching: Implementing an Ethnographic Inquiry, 1 Unit

This course explores the complex process of intercultural communication and how this affects teaching English as a second or foreign language. Students explore the process of learning another culture and learning their own culture through films, course readings, discussions, and an ethnographic experience. They explore the process of teaching culture by developing and presenting an ESL/EFL unit applying the guidelines for culture teaching presented in class texts, lectures, and discussions. In the Field-based program, courses are offered as three one-unit courses to be taken in sequence (either Summer 2, FI, FII or Spring I, II, and Summer 1), each section (A,B,C) is one unit each. TESL 530A, B, C combined is interchangeable with/equivalent to TESL 530.

**Prerequisite:** TESL 530A

## TESL 530C, Intercultural Communication and Language Teaching: Writing up and Reporting an Ethnographic Inquiry, 1 Unit

This course explores the complex process of intercultural communication and how this affects teaching English as a second or foreign language. Students explore the process of learning another culture and learning their own culture through films, course readings, discussions, and an ethnographic experience. They explore the process of teaching culture by developing and presenting an ESL/EFL unit applying the guidelines for culture teaching presented in class texts, lectures, and discussions. In the Field-based program, courses are offered as three one-unit courses to be taken in sequence (either Summer 2, FI, FII or Spring I, II, and Summer 1), each section (A,B,C) is one unit each. TESL 530A, B, C combined is interchangeable with/equivalent to TESL 530.

**Prerequisite:** TESL 530A, TESL 530B

## TESL 535, Sociolinguistics and Language Teaching, 3 Units

This introduction to sociolinguistics explores multiple expressions of English. These include national, regional, social, and gender varieties, as well as styles, registers, pidgins, and creoles. Also studied are language change, the mutual effect of culture and language, and the influence of cultural patterns on speech acts within the larger perspective of governmental language planning as impacted by the historical legacy of the English language. Students develop more complex understandings of how language and language teaching is influenced by societal, political, cultural, psychological, and interpersonal issues and consider the implications of this enhanced understanding on their classroom pedagogy and their views on language planning and policy.

## TESL 535A, Sociolinguistics and Language Teaching: Part I, 1 Unit

This introduction to sociolinguistics explores multiple expressions of English. These include national, regional, social, and gender varieties, as well as styles, registers, pidgins, and creoles. Also studied are language change, the mutual effect of culture and language, and the influence of cultural patterns on speech acts within the larger perspective of governmental language planning as impacted by the historical legacy of the English language. Students develop more complex understandings of how language and language teaching is influenced by societal, political, cultural, psychological, and interpersonal issues and consider the implications of this enhanced understanding on their classroom pedagogy and their views on language planning and policy. TESL 535A, B, C combined is interchangeable with/equivalent to TESL 535.

## TESL 535B, Sociolinguistics and Language Teaching: Part II, 1 Unit

This introduction to sociolinguistics explores multiple expressions of English. These include national, regional, social, and gender varieties, as well as styles, registers, pidgins, and creoles. Also studied are language change, the mutual effect of culture and language, and the influence of cultural patterns on speech acts within the larger perspective of governmental language planning as impacted by the historical legacy of the English language. Students develop more complex understandings of how language and language teaching is influenced by societal, political, cultural, psychological, and interpersonal issues and consider the implications of this enhanced understanding on their classroom pedagogy and their views on language planning and policy. TESL 535A, B, C combined is interchangeable with/equivalent to TESL 535.
**Prerequisite:** TESL 535A

## TESL 535C, Sociolinguistics and Language Teaching: Part III, 1 Unit

This introduction to sociolinguistics explores multiple expressions of English. These include national, regional, social, and gender varieties, as well as styles, registers, pidgins, and creoles. Also studied are language change, the mutual effect of culture and language, and the influence of cultural patterns on speech acts within the larger perspective of governmental language planning as impacted by the historical legacy of the English language. Students develop more complex understandings of how language and language teaching is influenced by societal, political, cultural, psychological, and interpersonal issues and consider the implications of this enhanced understanding on their classroom pedagogy and their views on language planning and policy. TESL 535A, B, C combined is interchangeable with/equivalent to TESL 535.
**Prerequisite:** TESL 535A, TESL 535B

## TESL 537, Critical Perspectives on Christianity and English Language Teaching, 3 Units

This course engages students in a critical examination of Christianity and English language teaching, investigating the ethical and professional dilemmas that arise when faith and spirituality enter, or are barred from, the language classroom. Students research, discuss, and present on diverse, opposing perspectives.

## TESL 537A, Critical Perspectives on Christianity and English Language Teaching: Part I, 1 Unit

This course engages students in a critical examination of Christianity and English language teaching, investigating the ethical and professional dilemmas that arise when faith and spirituality enter, or are barred from, the language classroom. Students research, discuss, and present on diverse, opposing perspectives. TESL 537A, B, C combined is interchangeable with/equivalent to TESL 537.

## TESL 537B, Critical Perspectives on Christianity and English Language Teaching: Part II, 1 Unit

This course engages students in a critical examination of Christianity and English language teaching, investigating the ethical and professional dilemmas that arise when faith and spirituality enter, or are barred from, the language classroom. Students research, discuss, and present on diverse, opposing perspectives. TESL 537A, B, C combined is interchangeable with/equivalent to TESL 537.
**Prerequisite:** TESL 537A

## TESL 537C, Critical Perspectives on Christianity and English Language Teaching: Part III, 1 Unit

This course engages students in a critical examination of Christianity and English language teaching, investigating the ethical and professional dilemmas that arise when faith and spirituality enter, or are barred from, the language classroom. Students research, discuss, and present on diverse, opposing perspectives. TESL 537A, B, C combined is interchangeable with/equivalent to TESL 537.
**Prerequisite:** TESL 537A, TESL 537B

## TESL 545, Second-language Pedagogy I, 3 Units

An introduction to the field of teaching English to speakers of other languages, this course deals with learner needs; approaches and methods of teaching; techniques for teaching speaking, listening, and integrated skills; lesson planning; the use of technology in language teaching and learning; and classroom management.

## TESL 545A, Second-language Pedagogy I: Part I, 1 Unit

An introduction to the field of teaching English to speakers of other languages, this course deals with learner needs; approaches and methods of teaching; techniques for teaching speaking, listening, and integrated skills; lesson planning; the use of technology in language teaching and learning; and classroom management. TESL 545A, B, C combined is interchangeable with/equivalent to TESL 545.

## TESL 545B, Second-language Pedagogy I: Part II, 1 Unit

An introduction to the field of teaching English to speakers of other languages, this course deals with learner needs; approaches and methods of teaching; techniques for teaching speaking, listening, and integrated skills; lesson planning; the use of technology in language teaching and learning; and classroom management. TESL 545A, B, C combined is interchangeable with/equivalent to TESL 545.
**Prerequisite:** TESL 545A

## TESL 545C, Second-language Pedagogy I: Part III, 1 Unit

An introduction to the field of teaching English to speakers of other languages, this course deals with learner needs; approaches and methods of teaching; techniques for teaching speaking, listening, and integrated skills; lesson planning; the use of technology in language teaching and learning; and classroom management. TESL 545A, B, C combined is interchangeable with/equivalent to TESL 545.
**Prerequisite:** TESL 545A, TESL 545B

## TESL 548, Teaching EFL with Children, 3 Units

This course covers theoretical and practical aspects of language and literacy development opportunities for children learning English as a foreign language (EFL). Teachers in this course study concerns, approaches, and model programs in teaching English to children in non-English speaking contexts where there may be (a) distinctive demands on the use of required curriculum materials, (b) limitations in facilities, resources, and teaching time; and (c) strong expectations on students to pass standardized examinations.

## TESL 550, Second-language Pedagogy II, 3 Units

This course focuses on the theoretical foundations, relevant research, and classroom applications of the teaching of reading and writing to those who are considered advanced students of English as a second or foreign language.

## TESL 550A, Second-language Pedagogy II: Part I, 1 Unit

This course focuses on the theoretical foundations, relevant research, and classroom applications of the teaching of reading and writing to those who are considered advanced students of English as a second or foreign language. TESL 550A, B, C combined is interchangeable with/equivalent to TESL 550.

## TESL 550B, Second-language Pedagogy II: Part II, 1 Unit

This course focuses on the theoretical foundations, relevant research, and classroom applications of the teaching of reading and writing to those who are considered advanced students of English as a second or foreign language. TESL 550A, B, C combined is interchangeable with/equivalent to TESL 550.
**Prerequisite:** TESL 550A

## TESL 550C, Second-language Pedagogy II: Part III, 1 Unit

This course focuses on the theoretical foundations, relevant research, and classroom applications of the teaching of reading and writing to those who are considered advanced students of English as a second or foreign language. TESL 550A, B, C combined is interchangeable with/equivalent to TESL 550.
**Prerequisite:** TESL 550A, TESL 550B

## TESL 557, Reflective Teaching, 3 Units

Students complete classroom observation tasks designed to help them consider various dimensions of teaching and engage in practice teaching under the guidance of a mentor teacher. While observing, teaching, and reflecting, students use several strategies to explore their teaching, discovering alternative ways of achieving desired results.

## TESL 557A, Reflective Teaching: Part I, 1 Unit

Students complete classroom observation tasks designed to help them consider various dimensions of teaching and engage in practice teaching under the guidance of a mentor teacher. While observing, teaching, and reflecting, students use several strategies to explore their teaching, discovering alternative ways of achieving desired results. TESL 557A, B, C combined is interchangeable with/equivalent to TESL 557.

## TESL 557B, Reflective Teaching: Part II, 1 Unit

Students complete classroom observation tasks designed to help them consider various dimensions of teaching and engage in practice teaching under the guidance of a mentor teacher. While observing, teaching, and reflecting, students use several strategies to explore their teaching, discovering alternative ways of achieving desired results. TESL 557A, B, C combined is interchangeable with/equivalent to TESL 557.
**Prerequisite:** TESL 557A

## TESL 557C, Reflective Teaching: Part III, 1 Unit

Students complete classroom observation tasks designed to help them consider various dimensions of teaching and engage in practice teaching under the guidance of a mentor teacher. While observing, teaching, and reflecting, students use several strategies to explore their teaching, discovering alternative ways of achieving desired results. TESL 557A, B, C combined is interchangeable with/equivalent to TESL 557.
**Prerequisite:** TESL 557A, TESL 557B

## TESL 560, Language Program Design, 3 Units

Based upon their articulated beliefs about language learning and teaching and the anticipated needs of their target ESL/EFL population, students develop a language program by formulating goals and objectives; evaluating, selecting, and developing materials; organizing the content and syllabus; and creating an assessment plan.

## TESL 560A, Language Program Design: Part I, 1 Unit

Based upon their articulated beliefs about language learning and teaching and the anticipated needs of their target ESL/EFL population, students develop a language program by formulating goals and objectives; evaluating, selecting, and developing materials; organizing the content and syllabus; and creating an assessment plan. TESL 560A, B, C combined is interchangeable with/equivalent to TESL 560.

## TESL 560B, Language Program Design: Part II, 1 Unit

Based upon their articulated beliefs about language learning and teaching and the anticipated needs of their target ESL/EFL population, students develop a language program by formulating goals and objectives; evaluating, selecting, and developing materials; organizing the content and syllabus; and creating an assessment plan. TESL 560A, B, C combined is interchangeable with/equivalent to TESL 560.
**Prerequisite:** TESL 560A

## TESL 560C, Language Program Design: Part III, 1 Unit

Based upon their articulated beliefs about language learning and teaching and the anticipated needs of their target ESL/EFL population, students develop a language program by formulating goals and objectives; evaluating, selecting, and developing materials; organizing the content and syllabus; and creating an assessment plan. TESL 560A, B, C combined is interchangeable with/equivalent to TESL 560.
**Prerequisite:** TESL 560A, TESL 560B

## TESL 570, Second-language Assessment, 3 Units

Participants in this course examine the purposes, design, and administration of language proficiency and achievement tests used in ESL/EFL programs. Class members evaluate a standardized language test, construct a multiskill achievement test, and explore alternative means of classroom assessment.

## TESL 570A, Second-language Assessment: Part I, 1 Unit

Participants in this course examine the purposes, design, and administration of language proficiency and achievement tests used in ESL/EFL programs. Class members evaluate a standardized language test, construct a multiskill achievement test, and explore alternative means of classroom assessment. TESL 570A, B, C combined is interchangeable with/equivalent to TESL 570.

## TESL 570B, Second-language Assessment: Part II, 1 Unit

Participants in this course examine the purposes, design, and administration of language proficiency and achievement tests used in ESL/EFL programs. Class members evaluate a standardized language test, construct a multiskill achievement test, and explore alternative means of classroom assessment. TESL 570A, B, C combined is interchangeable with/equivalent to TESL 570.
**Prerequisite:** TESL 570A

## TESL 570C, Second-language Assessment: Part III, 1 Unit

Participants in this course examine the purposes, design, and administration of language proficiency and achievement tests used in ESL/EFL programs. Class members evaluate a standardized language test, construct a multiskill achievement test, and explore alternative means of classroom assessment. TESL 570A, B, C combined is interchangeable with/equivalent to TESL 570.
**Prerequisite:** TESL 570A, TESL 570B

## TESL 580, TESOL Portfolio, 3 Units

This course supports students in completing their TESOL program portfolio, which contains evidence of the competencies upon which the program is built.

## TESL 589, Research Methods in TESOL, 3 Units

This course prepares teachers to conduct their own research in the area of second-language learning/teaching, and helps them become intelligent users of such research. Class members survey research methods applicable to second-language research, review studies exemplifying each approach, and walk through the process of developing a research proposal: selecting a topic, developing a working bibliography and literature review, and constructing a research design.

## TESL 590, Thesis Preparation, 3 Units

Students engage in intensive study, research, and writing on a particular topic or problem in TESOL under the direction of a department faculty member. They are guided in reviewing the literature and in carrying out a previously approved research design. Enrollment is by petition only and must be approved by the department chair.
**Prerequisite:** TESL 589

### TESL 595A, Action Research Project, 2 Units

This advanced course designed for in-service teachers, focuses on the planning, implementation, and evaluation of a self-designed action research project. Teachers select an area of teaching to investigate, design a research plan, collect data, observe behavior, reflect on the results, and write a research report. Teachers present their projects to peers and their professor in TESL 595B Action Research Project. Offered only in field-based program.

### TESL 595B, Action Research Project, 1 Unit

This course is a sequel to TESL 595A, enabling in-service teachers to present, discuss, and defend the results of their action research project with their peers and professor. (This course is offered in the field-based program only.)
**Prerequisite:** TESL 595A

### TESL 597A, Action Research: Part I, 1 Unit

This set of courses (597A,B,C) is designed for in-service teachers and focuses on the planning, implementation, and presentation of a self-designed action research project. In 597A, teachers select a classroom-based issue or problem and design a research plan to investigate it and implement their plan, by collecting and analyzing data. In 597B teachers complete their research and present the findings to a group of their peers. In 597C teachers write up and submit a written report. In the Field-based program, courses are offered as three one-unit courses to be taken in sequence; however, TESL 597B and 597C can be taken concurrently. TESL 595A and B combined is interchangeable with/equivalent to TESL 597A,B,C.

### TESL 597B, Action Research: Part II, 1 Unit

This set of courses (597A,B,C) is designed for in-service teachers and focuses on the planning, implementation, and presentation of a self-designed action research project. In 597A, teachers select a classroom-based issue or problem and design a research plan to investigate it and implement their plan, by collecting and analyzing data. In 597B teachers complete their research and present the findings to a group of their peers. In 597C teachers write up and submit a written report. In the Field-based program, courses are offered as three one-unit courses to be taken in sequence; however, TESL 597B and 597C can be taken concurrently. TESL 595A and B combined is interchangeable with/equivalent to TESL 597A,B,C.
**Prerequisite:** TESL 597A

### TESL 597C, Action Research: Part III, 1 Unit

This set of courses (597A,B,C) is designed for in-service teachers and focuses on the planning, implementation, and presentation of a self-designed action research project. In 597A, teachers select a classroom-based issue or problem and design a research plan to investigate it and implement their plan, by collecting and analyzing data. In 597B teachers complete their research and present the findings to a group of their peers. In 597C teachers write up and submit a written report. In the Field-based program, courses are offered as three one-unit courses to be taken in sequence; however, TESL 597B and 597C can be taken concurrently. TESL 595A and B combined is interchangeable with/equivalent to TESL 597A,B,C.
**Prerequisite:** TESL 597A, TESL 597B (May be taken concurrently)

### TESL 599, Readings in TESOL, 1-3 Units

This course involves an independent study of subjects and interests beyond regular course offerings. Students explore particular topics or issues in accordance with an individualized study plan developed with a sponsoring faculty member and approved by the department chair.

# BA in Sociology

42 units

Sociology is the study of social life and the social causes and consequences of human behavior. The subject matter of sociology ranges from the intimate family to the hostile mob, from crime to religion, and from the divisions of race and social class to the shared beliefs of a common culture. In fact, few fields have such a broad scope and relevance.

Both academic sociology and Christian faith offer perspectives on human behavior and social life—partner perspectives in a dialogue meant to express a more complete and unified picture of the truth about social reality and human experience. Biblical insights and values clarify understanding of sociology, and sociology in turn teaches more about Christian faith.

"Christian sociology" provides an intellectual and spiritual foundation for personal development and service. Self-understanding comes from discovering connections with other people. It is through interaction in families, schools, churches, and communities that individuals develop as persons, and it is this mutual dependence that forms the basis for moral life. The heart for service, an important outcome of dependence on God and relationships with others, is practically manifested and modeled as God's love through the actions of those who serve.

## Mission

In keeping with the principles of liberal arts education, the mission of the sociology major (https://www.apu.edu/clas/programs/sociology-major/) is to lead students in exploring the relationships between individuals, groups, social institutions, and culture, to facilitate the development of skills necessary for the study and critical analysis of these relationships from the perspective of Christian faith, and to develop a community of scholars who have a solid grasp of social theory and research, and who are prepared to systematically confront social problems and enact change at all levels of society.

# Career Opportunities

As a strong liberal arts major, sociology provides several options for students who complete their BA degree:

- A BA in Sociology is excellent preparation for graduate work in sociology to become a professor, researcher, or applied sociologist.
- The undergraduate degree provides a strong liberal arts preparation for entry-level positions throughout the education, business, social service, and government arenas. Employers look for people with the skills that an undergraduate education in sociology provides.
- Sociology offers valuable preparation for careers in ministry, teaching, journalism, politics, public relations, business, criminal justice, or public administration—fields that involve investigative skills and working with diverse groups.
- Many students choose sociology because they see it as a broad liberal arts base for professions such as law, education, medicine, social work, and counseling. Sociology provides a rich fund of knowledge that directly pertains to each of these fields.

# Requirements

A total of 42 units is required for the major. A minimum grade-point average of 2.0 is required in these courses.

| Code | Title | Units |
|------|-------|-------|
| **Required Core Courses** | | |
| MATH 130 | Introduction to Statistics [1] | 3 |
| SOC 120 | Introduction to Sociology [2] | 3 |
| SOC 298 | Basic Sociological Theory [F] | 3 |
| Select one of the following: | | 3 |
| SOC 471 | Writing 3: Qualitative Social Research Methods [3, F] | |
| SOC 472 | Writing 3: Quantitative Social Research Methods [3, S] | |
| **Elective Courses** | | **30** |
| Select 30 units from the following: | | |
| ETHN 150 | Introduction to Ethnic Studies [4] | |
| PSYC 320 | Social Psychology | |
| SOC 230 | Comparative Family Systems | |
| SOC 235 | Race and Ethnicity [4] | |
| SOC 358 | Human Diversity [4] | |
| SOC 359 | Immigrant L.A. | |
| SOC 360 | Sociology of Religion [OS] | |
| SOC 361 | Education and Society [F] | |
| SOC 404 | Community [S] | |
| SOC 405 | The Sociology of Gender | |
| SOC 410 | Field Internships [5] | |
| SOC 425 | Social Movements [ES] | |
| SOC 464 | Social Stratification [F] | |
| SOC 468 | Contemporary Social Theory [OS] | |
| SOC 495 | Special Topics | |
| SOC 496 | Senior Seminar: Faith and Social Issues [5] | |
| SOC 497 | Readings | |
| Up to 6 of the 30 elective units may be selected from the following: | | |
| ETHN 355 | The Asian American Experience [4] | |
| ETHN 356 | The African American Experience [4] | |
| ETHN 357 | The Chicano(a)/Latino(a) Experience [4] | |
| ETHN 358 | Native American/Indigenous Experience [4] | |
| SOC 225 | Contemporary Social Problems | |
| SOCW 251 | Social Welfare Policy and Service | |
| SOCW 350 | Aging: Implications for Policy and Practice | |
| SOCW 351 | Child Welfare | |
| SOCW 410 | Family Violence | |
| **Total Units** | | **42** |

| | |
|---|---|
| 1 | Meets the General Education Quantitative Literacy requirement. |
| 2 | Meets the General Education Social Sciences requirement. |
| 3 | Meets the General Education Writing 3 requirement. |
| 4 | Meets the General Education Intercultural Competence requirement. |
| 5 | Meets the General Education Integrative and Applied Learning requirement. |

| | |
|---|---|
| F | Offered in Fall only |
| S | Offered in Spring only |
| F/S | Offered in both Fall and Spring terms |
| EF | Offered in Fall in even years |
| ES | Offered in Spring in even years |
| OF | Offered in Fall in odd years |
| OS | Offered in Spring in odd years |

## Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Understand and evaluate social research, and also to develop well-designed research projects.
2. Recognize the influence of race, class, and gender on human behavior and social conditions.
3. Articulate the role of social institutions—family, religion, government—in shaping social life and identity.
4. Utilize the comparative and historical perspective to evaluate the effects of the social context on cultural beliefs, values, attitudes and practices.
5. Gain a sociological perspective on human behavior and the social order—including social structures and institutional practices—that empowers them to act in response to the Scriptural mandate to work for peace and justice.
6. Describe their sociological education and the development of a sociological imagination in relation to Christian faith and life.

# BA in Spanish

39 units

Spanish is one of the most widely spoken languages in the world, and Los Angeles is one of the world's largest Spanish-speaking cities. There is a growing need for people with linguistic and cultural skills to work in increasingly globalized communities. Indeed, a recent study stated that bilingual speakers earn 10-15 percent more than those who speak only English. The Spanish program is designed to fill this need. It works well as a double-major, with low unit requirements and high compatibility with many career paths. It equips business professionals, healthcare professionals, community workers, journalists—anyone interested in other cultures—to thrive in the diversity of our planet.

The Spanish major (https://www.apu.edu/clas/programs/spanish-major/) at Azusa Pacific University offers opportunities to serve in local Spanish-speaking communities through internships and hands-on coursework, or to study away through various international programs (p. 1138). All courses offered in the department are offered within the College of Liberal Arts and Sciences and are designed to contribute to a Christian liberal arts education.

## Mission Statement

The Spanish program guides student development in Spanish conversation, develops reading and compositional skills, introduces major Spanish-language literary works, heightens cultural sensitivity, and encourages creative and reflective thinking with respect to the history and civilization of Hispanic countries, all to better serve God through service to others.

## Off-campus Study

As part of the Spanish language learning experience, Spanish majors and minors are strongly encouraged to study away for one term. Students may choose to participate in study away programs offered by the Department of Sociology, TESOL, and Modern Languages (https://www.apu.edu/clas/sociology-languages/) or other available programs. In all cases, students must consult with a department advisor for their classes prior to enrollment and departure. Credit earned through these programs applies to the degree.

## Career Opportunities

In addition to teaching, countless public contact fields may require some proficiency in Spanish. Disaster specialists, translators/interpreters, import/export managers, diplomats, customs inspectors, immigration inspectors, social/medical services, speech pathologists, law enforcement, international finance and banking, international student advisors, pastors/ministers, and the rapidly expanding world of international business—these fields and

many others increasingly seek candidates who possess Spanish language ability and cultural sensitivity as valuable career skills. For students who have studied foreign languages in high school and desire to advance, a Spanish major or minor enables them to acquire the language and culture skills appropriate to a variety of public service and business applications.

## Requirements

The actual number of units for the Spanish major may be reduced. See note 1 below. We strongly encourage Spanish majors to complete one study term abroad.  Students in the Spanish major must maintain a minimum cumulative GPA of 2.0 in all university coursework.

| Code | Title | Units |
|------|-------|-------|
| **Core Courses** | | **30** |
| SPAN 101 | Elementary Spanish I [1, 2] | |
| SPAN 102 | Elementary Spanish II [1, 2] | |
| SPAN 201 | Intermediate Spanish I [F] | |
| SPAN 202 | Intermediate Spanish II [S] | |
| SPAN 460 | Writing 3: Survey of the Literature of the Spanish-Speaking World [3, S] | |
| WRIT 204 | Writing 2: Writing for the Humanities in Spanish [4, S] | |
| **Conversational Skills** | | **3** |
| Select one from the following: | | |
| SPAN 250 | Intermediate Conversation and Writing Abroad (abroad in a Spanish-speaking country) | |
| SPAN 301 | Spanish Conversation and Community [5, F] | |
| SPAN 305 | Spanish for Heritage Speakers [F] | |
| SPAN 310 | Advanced Language-Study Practicum (abroad in a Spanish-speaking country) | |
| **Electives** | | **6** |
| Select two from the following list. A course taken to meet the above courses may not also count for elective credit. | | |
| ETHN 357 | The Chicano(a)/Latino(a) Experience [6] | |
| ETHN 476 | Transforming Leadership: Ethnic Studies and Latinx Christian Practice | |
| HIST 235 | Cultural History/Travel Study (If taken with a pre-approved study away program) [6] | |
| PSYC 490 | Latinx Psychology | |
| SPAN 310 | Advanced Language-Study Practicum (abroad in a Spanish-speaking country) | |
| SPAN 330 | History and Civilization of the Spanish-speaking World | |
| SPAN 332 | Literary Masters [7, F] | |
| SPAN 415 | Politics and Society in Latin America [8, OS] | |
| SPAN 420 | Public Speaking in Spanish [9, OF] | |
| SPAN 440 | Spanish Applied Linguistics [EF] | |
| SPAN 450 | Spanish Language Pedagogy | |
| SPAN 494 | Internship | |
| SPAN 495 | Special Topics in Spanish (may be repeated for credit) [ES] | |
| SPAN 497 | Readings | |
| UBBL 235 | Luke/Acts through a Latinx Lens [10] | |
| **Total Units** | | **39** |

1   See General Education Requirements page (p. 911). Students who are native speakers of Spanish or have 3-4 years of high school Spanish should take the Spanish placement or CLEP (p. 1114) exam, then consult with an advisor before entering intermediate or upper-division work. A CLEP score of 50 waives SPAN 101  and SPAN 102. A CLEP score of 63 also waives SPAN 201. A CLEP score of 74 also waives SPAN 202.

2   Meets the General Education Foreign Language requirement.

3   Meets the General Education Writing 3 requirement.

4   Meets the General Education Writing 2 requirement.

5   Meets the General Education Intercultural Competence requirement.

6   Meets the General Education Intercultural Competence requirement.

7   Meets the General Education Humanities: Literature requirement.

8   Meets the General Education Civic Knowledge and Engagement requirement.

9   Meets the General Education Oral Communication requirement.

10   Meets the General Education Luke/Acts requirement.

| | |
|---|---|
| F | Offered in Fall only |
| S | Offered in Spring only |
| F/S | Offered in both Fall and Spring terms |
| EF | Offered in Fall in even years |
| ES | Offered in Spring in even years |
| OF | Offered in Fall in odd years |
| OS | Offered in Spring in odd years |

## Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate strong abilities in language skills (reading, writing), attaining at least the ACTFL Advanced-Low level.
2. Demonstrate strong abilities in language skills (speaking, listening), attaining at least the ACTFL Advanced-Low level.
3. Knowledge: Distinguish and describe the countries of the Spanish-speaking world, and describe their history and cultural achievements.
4. Literature: Critically analyze literary texts and construct thoughtful, textually-supported interpretations.
5. Intercultural Competence: Interact with people of Spanish-speaking communities with understanding and cultural sensitivity.

# Certificate in Ethnic Studies (Generalist)

The Ethnic Studies Generalist Certificate is a 12-unit program for traditional undergraduate students who want to increase their cultural awareness while complementing their major field of study.

| Code | Title | Units |
|---|---|---|
| **Core Course** | | **3** |
| ETHN 150 | Introduction to Ethnic Studies [1] | |
| **Module 1** | | **6** |
| Select two of the following: | | |
| ETHN 356 | The African American Experience [1] | |
| ETHN 355 | The Asian American Experience [1] | |
| ETHN 357 | The Chicano(a)/Latino(a) Experience [1] | |
| ETHN 358 | Native American/Indigenous Experience [1] | |
| **Module 2** | | **3** |
| Select one of the following: | | |
| UBBL 235 | Luke/Acts through a Latinx Lens [2] | |
| ETHN 476 | Transforming Leadership: Ethnic Studies and Latinx Christian Practice | |
| PSYC 490 | Latinx Psychology | |
| HED 550 | Asian Americans in Higher Education | |
| SOCW 450 | Asian American Communities: Mental Health and Wellness | |
| PSYC 407 | Psychology of Asian Americans | |
| SOCW 445 | The Intersectionality of Identity: Being Black and Female | |
| CJ 375 | The Politics of Crime and Punishment | |
| **Total Units** | | **12** |

[1]     Meets the General Education Intercultural Competence requirement.
[2]     Meets the General Education Luke/Acts requirement.

## Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Articulate an awareness of the historical and modern experiences of, and interconnection between, ethnic groups.
2. Differentiate terminology that specifically relates to respective U.S. ethnic groups.
3. Critically engage the intersectional elements of the Africana, Asian American, Latinx cultural identity formation, including ethnic identity and issues of race.
4. Discuss a broadened understanding of how Christian faith shapes respective U.S. ethnic experiences.

# Certificate in Ethnic Studies: Africana Studies

The Ethnic Studies: Africana Studies Certificate is a 12-unit program for traditional undergraduate students who want to increase their cultural awareness while complementing their major field of study.

| Code | Title | Units |
|---|---|---|
| ETHN 356 | The African American Experience (Core Course) [1] | 3 |
| SOCW 445 | The Intersectionality of Identity: Being Black and Female | 3 |
| CJ 375 | The Politics of Crime and Punishment | 3 |
| UBBL 240 | Luke/Acts through an Africana Lens [2] | 3 |
| or UBBL 230 | Luke/Acts | |
| **Total Units** | | **12** |

[1]  Meets the General Education Intercultural Competence requirement.
[2]  Meets the General Education Biblical, Theological, and Philosophical Formation requirement.

## Program Learning Outcomes
## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Articulate an awareness of the historical and modern experiences of, and interconnection between, people of Africana descent.
2. Differentiate terminology that specifically relates to respective people of Africana descent.
3. Critically engage the intersectional elements of the Africana cultural identity formation, including ethnic identity and issues of race.
4. Discuss a broadened understanding of how Christian faith shapes the respective experiences of members within the Africana community.

# Certificate in Ethnic Studies: Asian American Studies

The Ethnic Studies: Asian American Studies Certificate is a 12-unit program for traditional undergraduate students who want to increase their cultural awareness while complementing their major field of study.

| Code | Title | Units |
|---|---|---|
| ETHN 355 | The Asian American Experience [1] | 3 |
| PSYC 407 | Psychology of Asian Americans | 3 |
| HED 550 | Asian Americans in Higher Education | 3 |
| SOCW 450 | Asian American Communities: Mental Health and Wellness | 3 |
| **Total Units** | | **12** |

[1]  Meets the General Education Intercultural Competence requirement.

## Program Learning Outcomes
## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Articulate an awareness of the historical and modern experiences of, and interconnection between, people of Asian American descent.
2. Differentiate terminology that specifically relates to respective people of Asian American descent.
3. Critically engage the intersectional elements of the Asian American cultural identity formation, including ethnic identity and issues of race.
4. Discuss a broadened understanding of how Christian faith shapes the respective experiences of members within the Asian American community.

# Certificate in Ethnic Studies: Latinx Studies

The Ethnic Studies: Latinx Studies Certificate is a 12-unit program for traditional undergraduate students who want to increase their cultural awareness while complementing their major field of study.

| Code | Title | Units |
|---|---|---|
| ETHN 357 | The Chicano(a)/Latino(a) Experience [1] | 3 |
| ETHN 476 | Transforming Leadership: Ethnic Studies and Latinx Christian Practice | 3 |
| UBBL 235 | Luke/Acts through a Latinx Lens [2] | 3 |
| PSYC 490 | Latinx Psychology | 3 |
| **Total Units** | | **12** |

[1]    Meets the General Education Intercultural Competence requirement.

## Program Learning Outcomes
## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Articulate an awareness of the historical and modern experiences of, and interconnection between, people of Latinx descent.
2. Differentiate terminology that specifically relates to respective people of Latinx descent.
3. Critically engage the intersectional elements of the Latinx cultural identity formation, including ethnic identity and issues of race.
4. Discuss a broadened understanding of how Christian faith shapes the respective experiences of members within the Latinx community.

# Certificate in TEFL

6 units

The Certificate in Teaching English as a Foreign Language (TEFL) program (https://www.apu.edu/clas/programs/tefl-certification/) equips students who desire advanced training in order to start their career in teaching English without pursuing the full Master of Arts in Teaching English to Speakers of Other Languages (TESOL) degree. This graduate-level certification provides students with the basic qualifications needed to teach in a multicultural setting, and is earned by completing two courses in the MA in TESOL program, which can be applied toward the master's degree if further graduate work is desired. Coursework can be completed on campus or online.

## Requirements

| Code | Title | Units |
|---|---|---|
| TESL 545 | Second-language Pedagogy I | 3 |
| TESL 557 | Reflective Teaching | 3 |
| **Total Units** | | **6** |

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

# Certificate in TESOL (On Campus and Online)

18 units

The on-campus and online certificate program in Teaching English to Speakers of Other Languages (TESOL) (https://www.apu.edu/clas/programs/tesol-certification/) prepares postbaccalaureate students who desire specialized skills in TESOL but do not wish to pursue the full graduate degree (Master of Arts in TESOL). The six-course certificate offers broad exposure to the field of TESOL, focusing on teaching speaking, listening, reading, writing, and grammar skills, along with an overview of language learning and intercultural communication. Certificate holders are qualified for volunteer and entry-level English language teaching positions domestically and globally. Ideal for supplementing and enhancing traditional ministry within multicultural or cross-cultural environments or for those working with language learners who want to expand their knowledge base, the TESOL certificate program incorporates coursework that will apply toward the MA in TESOL for those who subsequently choose to pursue the master's degree.

## Requirements

| Code | Title | Units |
|---|---|---|
| **Required Courses** | | |
| TESL 505 | Second-language Acquisition | 3 |
| TESL 515 | Teaching English Grammar | 3 |
| TESL 545 | Second-language Pedagogy I | 3 |
| TESL 550 | Second-language Pedagogy II | 3 |
| TESL 557 | Reflective Teaching | 3 |
| Select one of the following: | | 3 |
| TESL 530 | Intercultural Communication and Language Teaching | |
| TESL 535 | Sociolinguistics and Language Teaching | |
| **Total Units** | | **18** |

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

# MA in Teaching English to Speakers of Other Languages (TESOL) (On Campus)

**For more information: (626) 815-3844**

The Master of Arts in Teaching English to Speakers of Other Languages (TESOL) (https://www.apu.edu/clas/programs/tesol-masters/) offers prospective and experienced teachers of English as a second or foreign language a 33-unit master's degree program comprising courses in language acquisition theory, English grammar and pronunciation, intercultural communication, sociolinguistics, language teaching methods, observation and practice in classroom teaching, language assessment, and program design.

## Mission Statement for TESOL Programs

The TESOL programs at Azusa Pacific University prepare present and future educators, international and domestic, with the competencies and perspectives needed to teach English in a manner marked by professional excellence, intercultural sensitivity, integrity, and compassion. To this end, the department offers an 18-unit undergraduate TESOL minor, an 18-unit graduate certificate in TESOL, a 6-unit graduate certificate in Teaching English as a Foreign Language (TEFL), and a 33-unit master's degree in TESOL—all taught by experienced Christian faculty who are motivated to serve God and their students, and who engage students in practical training grounded in theory and research.

## Requirements

| Code | Title | Units |
|---|---|---|
| **Required Courses** | | |
| TESL 505 | Second-language Acquisition | 3 |
| TESL 515 | Teaching English Grammar | 3 |
| TESL 525 | Teaching English Pronunciation | 3 |
| TESL 545 | Second-language Pedagogy I [1] | 3 |
| TESL 550 | Second-language Pedagogy II | 3 |
| TESL 557 | Reflective Teaching [1] | 3 |
| TESL 560 | Language Program Design | 3 |
| TESL 570 | Second-language Assessment | 3 |
| Select at least one of the following (if both selected, one counts as an elective): | | 3 |
| TESL 530 | Intercultural Communication and Language Teaching | |
| TESL 535 | Sociolinguistics and Language Teaching | |
| Select one of the following: | | 3 |
| TESL 580 | TESOL Portfolio | |
| TESL 589 | Research Methods in TESOL [2] | |
| **Elective Courses** | | |
| Select one of the following: | | 3 |
| TESL 501 | Language Learning through Technology | |
| TESL 509 | Special Topics in TESOL | |
| TESL 537 | Critical Perspectives on Christianity and English Language Teaching | |
| TESL 548 | Teaching EFL with Children | |
| TESL 590 | Thesis Preparation [3] | |
| TESL 599 | Readings in TESOL | |
| **Total Units** | | **33** |

[1]    Required for the TEFL certificate.
[2]    TESL 589 is required if the thesis option is chosen; if the portfolio option is chosen, TESL 589 can be taken as an elective.
[3]    TESL 590 may be repeated for credit.

## Thesis or Portfolio

To complete the program, students choose either to create a professional portfolio or write a thesis. Students who choose the portfolio must enroll in TESL 580 and develop a portfolio that demonstrates competence in each of the TESOL program learning outcomes. Students who elect to write a thesis must enroll in TESL 589 or a comparable course in research methods. Most students who elect to write a thesis will also enroll in TESL 590 as their elective. After completing the thesis, students must provide an oral defense.

## Program Corequisites

1. **Language Proficiency**
   a. For the master's degree, prior to graduation, native speakers of English must verify completion within the last 10 years of a minimum of 6 semester units of college-level foreign language with at least a 3.0 grade-point average on a 4.0 scale, or its equivalent. Options to satisfy the foreign language requirement include formal coursework and community language learning. Students may also establish proficiency via an exam.
   b. All students graduating from non-English-speaking institutions must satisfy APU's English Proficiency Requirements (p. 959). In addition, the following scores on the internet-based TOEFL, or equivalent proof of proficiency, are required for admission to the online or field-based TESOL programs.
      i. Reading: 25
      ii. Speaking: 25
      iii. Writing: 25
      iv. Listening: 25
2. **Professional Development**
   Prior to completion of the master's degree, students are required to provide evidence of attendance at a national, state, or regional conference related to language teaching.

## Time Requirements

Students may begin TESOL studies in summer, fall, or spring.

The program is offered in an 8-week session format: Fall 1, Fall 2, Spring 1, Spring 2, Summer 1, and Summer 2. A Summer 2 elective is offered online. Full-time students typically enroll in two courses per 8-week session and can complete the entire program of 11 courses (33 units) in approximately six sessions (as little as 16 months). Part-time students taking one course each term can complete the program in about three years. Students may move between full-time and part-time study as needed. The time limit for completing all degree requirements, including coursework and corequisites, is eight years.

## Cross-Program Enrollment

Students in the TESOL master's degree programs may take up to four courses in a different format—on campus or online. The program director's approval is required prior to enrollment.

## Accreditation

- Azusa Pacific University is accredited by the WASC Senior College and University Commission (WSCUC) (https://www.wscuc.org/).

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Analyze their own and other cultural and/or language systems and how this affects the teaching of English.
2. Articulate a coherent understanding of the process of language acquisition and the effect on language acquisition of individual and contextual variables.
3. Interact with Christian views of language learners, language teaching, and the nature of language.
4. Describe the grammatical and phonological structures of English and analyze learners' production to create appropriate/related learning activities.
5. Evaluate and use technology in teaching English.
6. Apply, through anticipated or actual teaching, the principles of classroom language pedagogy to teach oral and written English.
7. Apply the techniques and principles of second language assessment, and to interpret the results of such assessments in determining language proficiency and student progress.
8. Evaluate language teaching materials and design a course of language instruction based upon an articulated working philosophy of language learning and teaching.
9. Identify and discuss ethical issues entailed in English language teaching.
10. Articulate how one's worldview/faith, identity, and teaching philosophy impact one's pedagogy and professional activities.
11. Participate in the professional TESOL community, including the abilities to give and receive collegial feedback, participate in professional conferences, and apply insights gained to future or current teaching contexts.
12. Reflect upon and apply the experience of learning a foreign language to one's teaching of English.

# MA in Teaching English to Speakers of Other Languages (TESOL) (Online)

**For more information: (626) 815-3844**

The Master of Arts in Teaching English to Speakers of Other Languages (TESOL) (https://www.apu.edu/clas/programs/tesol-masters/) offers prospective and experienced teachers of English as a second or foreign language a 33-unit degree program comprising courses in language acquisition theory, English grammar and pronunciation, intercultural communication, sociolinguistics, language teaching methods, observation and practice in classroom teaching, language assessment, and program design.

In the online TESOL program, full-time students can complete coursework in one and a half years via online delivery from anywhere in the world. Students complete courses sequentially in a cohort model, which connects participants to a learning community with a rich diversity of experiences.

## Mission Statement for TESOL Programs

The TESOL programs at Azusa Pacific University prepare present and future educators, international and domestic, with the competencies and perspectives needed to teach English in a manner marked by professional excellence, intercultural sensitivity, integrity, and compassion. To this end, the department offers an 18-unit undergraduate TESOL minor, an 18-unit graduate certificate in TESOL, a 6-unit graduate certificate in Teaching English as a Foreign Language (TEFL), and a 33-unit master's degree in TESOL—all taught by experienced Christian faculty who are motivated to serve God and their students, and who engage students in practical training grounded in theory and research.

## Requirements

| Code | Title | Units |
|---|---|---|
| TESL 501 | Language Learning through Technology [1] | 3 |
| or TESL 537 | Critical Perspectives on Christianity and English Language Teaching | |
| TESL 505 | Second-language Acquisition | 3 |
| TESL 515 | Teaching English Grammar | 3 |
| TESL 525 | Teaching English Pronunciation | 3 |
| TESL 530 | Intercultural Communication and Language Teaching [2] | 3 |
| or TESL 535 | Sociolinguistics and Language Teaching | |
| TESL 545 | Second-language Pedagogy I [3] | 3 |
| TESL 550 | Second-language Pedagogy II | 3 |
| TESL 557 | Reflective Teaching [3] | 3 |
| TESL 560 | Language Program Design | 3 |
| TESL 570 | Second-language Assessment | 3 |
| TESL 580 | TESOL Portfolio | 3 |
| **Total Units** | | **33** |

[1]  Students may select between TESL 501 and TESL 537 to fulfill the elective requirement for the program.
[2]  TESL 535 is not offered online; students opting for TESL 535 must take this course on campus.
[3]  Required for the TEFL certificate.

## TESOL Portfolio

To complete the program, students create a professional TESOL portfolio that demonstrates competence in each of the TESOL program learning outcomes. The required course TESL 580 guides students in the process of developing their portfolios.

## Program Corequisites

1. **Language Proficiency**
   a. For the master's degree, prior to graduation, native speakers of English must verify completion within the last 10 years of a minimum of 6 semester units of college-level foreign language with at least a 3.0 grade-point average on a 4.0 scale, or its equivalent. Options to satisfy the foreign language requirement include formal coursework and community language learning. Students may also demonstrate proficiency via an exam.
   b. All students graduating from non-English-speaking institutions must satisfy APU's English Proficiency Requirements (p. 959). In addition, the following scores on the internet-based TOEFL (IBT), or equivalent proof of proficiency, are required for admission to the online TESOL program.
      i. Reading: 25
      ii. Speaking: 25
      iii. Writing: 25
      iv. Listening: 25
2. **Professional Development**
   Prior to completion of the master's degree, students are required to provide evidence of attendance at a national, regional, or state conference related to language teaching.

## Time Requirements

Students may begin TESOL studies in summer, fall, or spring.

The program is offered in a five-session format: Fall 1, Fall 2, Spring 1, Spring 2, and Summer 2. Full-time students typically enroll in two courses per 8-week session and can complete the entire program of 11 courses (33 units) in approximately six sessions (one and a half years). Part-time students taking one course each term can complete the program in about three years. Students may move between full-time and part-time study as needed. The time limit for completing all degree requirements, including coursework and corequisites, is eight years.

## Other Requirements

Students must have a computer and reliable online access. Prior to graduation, students must complete an online portfolio that displays selected student work and provides evidence that the student has met and reflected upon the TESOL program learning outcomes. Students start their portfolios in a course dedicated to creating a portfolio and then submit them for review at the end of their coursework. In addition to the portfolio, students must also complete foreign language and conference corequisites in order to be eligible for graduation.

## Cross-Program Enrollment

Students in the TESOL master's degree programs may take up to four courses in a different format—on campus or online. The program director's approval is required prior to enrollment.

## Accreditation

- Azusa Pacific University is accredited by the WASC Senior College and University Commission (WSCUC) (https://www.wscuc.org/).

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Analyze their own and other cultural and/or language systems and how this affects the teaching of English.
2. Articulate a coherent understanding of the process of language acquisition and the effect on language acquisition of individual and contextual variables.
3. Interact with Christian views of language learners, language teaching, and the nature of language.
4. Describe the grammatical and phonological structures of English and analyze learners' production to create appropriate/related learning activities.
5. Evaluate and use technology in teaching English.
6. Apply, through anticipated or actual teaching, the principles of classroom language pedagogy to teach oral and written English.
7. Apply the techniques and principles of second language assessment, and to interpret the results of such assessments in determining language proficiency and student progress.
8. Evaluate language teaching materials and design a course of language instruction based upon an articulated working philosophy of language learning and teaching.
9. Identify and discuss ethical issues entailed in English language teaching.
10. Articulate how one's worldview/faith, identity, and teaching philosophy impact one's pedagogy and professional activities.
11. Participate in the professional TESOL community, including the abilities to give and receive collegial feedback, participate in professional conferences, and apply insights gained to future or current teaching contexts.
12. Reflect upon and apply the experience of learning a foreign language to one's teaching of English.

# MA in TESOL Program (Christ's College Cooperative)

The APU/Christ's College Cooperative Master of Arts in TESOL program offers college graduates in Taiwan the opportunity to earn a 33-unit Master of Arts in TESOL. The cooperative program requires at least two years, one at Christ's College and one at APU, and leads one to academic accomplishments equal to those attained by graduates of the on-campus program (p. 165). Students must be accepted by Christ's College and Azusa Pacific University before enrolling in any program coursework at APU. During the first year of the cooperative program, students take four TESOL courses (12 units) identical in number, title, and content to four courses offered on the APU campus. During the second year, students take an additional

7 courses (21 units) on the APU campus. Beyond coursework, students must also complete the same additional program requirements as in the on-campus program.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

# Minor in Environmental Studies

18-19 units

The environmental studies minor offers a learning environment that equips a rising generation with the intellectual tools and learning experiences needed to understand and address the causes and consequences of the unprecedented environmental challenges facing them. The program summons students to a profound interior conversion—an "'ecological conversion,' whereby the effects of their encounter with Jesus Christ become evident in their relationship with the world around them" (Pope Francis, Laudato si'). This includes a systematic examination of how human beings affect the environment and how the environment affects human institutions and relationships. The new perspectives, affections, and personal habits fostered through the program ground the task of repairing the damage done to marine and terrestrial ecosystems and producing sustainable systems of food, fuel, and shelter. This minor program supports the emerging need to equip students in the area of sustainability, and also supports the United Nations Sustainable Development Goals related to environmental sciences.

## Distinctive Features

- *Interdisciplinary:* Synthesis of the natural sciences, social sciences, and humanities, including the arts and expressive culture (e.g., music, literature, film). The minor is taken simultaneously with an undergraduate major.
- *Experiential Learning and Internship:* Field trips; field studies; community, regional, or global internships with community organizations (e.g., public schools) or national environmental organizations (e.g., the Nature Conservancy, the National Audubon Society, the Environmental Defense Fund, SoCal A Rocha, Eden Reforestation Projects); or engagement in political and cultural activism through a broad range of environmentally focused organizations in the Los Angeles area.

## Vocational Paths

This minor helps prepare students for earth-keeping careers in education (sustainability studies), sustainability management (public, private), community advocacy (nonprofit), environmental planning and policy development, environmental law, wildlife and game management, the alternative energy sector, forestry, and agriculture.

## Requirements

The minor comprises 18-19 units, at least 12 of which must be upper-division coursework.

| Code | Title | Units |
|---|---|---|
| **Foundational/Introductory** | | **2** |
| GLBL 497 | Readings | |
| **Science** | | **4** |
| BIOL 152 | General Biology II | |
| BIOL 320 | Ecology [1] | |
| BIOL 325 | Humans and the Environment [2] | |
| CHEM 101 | Chemistry and Society [2] | |
| PHYC 112 | Science and Technology for Everyday Applications [2] | |
| **Social Science** | | **3** |
| GLBL 120 | Contemporary Global Issues [1] | |
| GLBL 420 | Sustainable Societies [3] | |
| **Humanities** | | **3** |
| HUM 202 | Civic Knowledge and Engagement [1] | |
| PHIL 366 | Environmental Ethics | |
| WRIT 210 | Writing 2: Writing in the Humanities [4] | |
| **Economics** | | **3-4** |

| Code | Title | Units |
|------|-------|-------|
| ECON 355<br>& ECON 497 | Environmental Economics<br>and Readings [5] | |
| **Capstone or Policy** | | **3** |
| Choose one of the following: | | |
| GLBL 499 | Thesis/Project [6] | |
| VOC 499 | Interdisciplinary Capstone | |
| **Total Units** | | **18-19** |

| [1] | Meets the General Education Civic Knowledge and Engagement requirement. |
|-----|--------|
| [2] | Meets the General Education Natural Sciences requirement. |
| [3] | Meets the General Education Integrative and Applied Learning requirement. |
| [4] | WRIT 210 is a topics course; the topic Nature and Environmental Writing is the only topic that fulfills this requirement. This course also meets the General Education Writing 2 requirement. |
| [5] | ECON 355 has a prerequisite of ECON 251—students who have satisfied ECON 251 do not need to take ECON 497; students who have not taken ECON 251 may take ECON 497 for 1 unit to meet the prerequisite. |
| [6] | Course must be taken one time for 3 units. |

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Describe the fundamental science (drawn from natural sciences and social sciences) that informs our understanding of current environmental challenges (e.g., anthropogenic climate change, biodiversity loss, land degradation, etc.) and policy alternatives.
2. Demonstrate an experiential understanding of the real-world contexts and ethical principles (drawn from philosophy, theology, and literature) that frame the human relationship and response to the natural world.
3. Effectively weigh scientific evidence, moral/ethical argument, and political and economic feasibility in evaluating environmental policies and institutions.
4. Integrate and apply perspectives from across the natural sciences, social sciences, and humanities to an analysis of complex urban environmental problems.
5. Explain the moral and ethical significance of environmental crises through concrete lifestyle changes that accord with the biblical vision of a healed creation.

# Minor in Ethnic Studies

18 units

The ethnic studies minor (https://www.apu.edu/clas/programs/ethnic-studies/) enhances students' understanding of the experiences of U.S. immigrant populations and communities of color, along with their sensitivity to issues of race, ethnicity, and social class. The program also enables students to analyze contemporary social problems that affect these populations and evaluate public policy related to the areas of immigration, education, criminal justice, health care, and economic development. The primary curricular focus is on the experiences of Asian Americans, African Americans, Chicano/Latino, and Native American peoples within the United States. Because of the program's interdisciplinary character, students learn to appreciate how scholars in different fields (e.g., history, art, literature, communication, anthropology, education, political science, psychology, and sociology) approach the study and expression of race and ethnicity.

## Requirements

| Code | Title | Units |
|------|-------|-------|
| **Core Course** | | |
| ETHN 150 | Introduction to Ethnic Studies [1] | 3 |
| **Contemporary Experience Courses** | | |
| Select three of the following: | | 9 |
| ETHN 355 | The Asian American Experience [1] | |
| ETHN 356 | The African American Experience [1] | |
| ETHN 357 | The Chicano(a)/Latino(a) Experience [1] | |
| ETHN 358 | Native American/Indigenous Experience [1] | |
| **Elective Requirements** | | |

| | | |
|---|---|---|
| Select two of the following: | | 6 |
| **Culture and the Arts** | | |
| ART 403 | Multicultural Art [2] | |
| COMM 495 | Special Topics | |
| ENGL 364 | American Ethnic Literature [1] | |
| ENGL 489 | Literary Topics | |
| GLBL 201 | Anthropology for Everyday Life [1] | |
| MUS 301 | Music of Africa | |
| MUS 302 | Soul Music [1] | |
| **Social Relationships/Public Policy** | | |
| COMM 260 | Intercultural Communication [1] | |
| EDLS 405 | Diversity in the Classroom [1] | |
| GLBL 260 | Intercultural Communication [1] | |
| HIST 346 | History of American Immigration [1] | |
| PSYC 400 | Multicultural Psychology [1] | |
| SOC 235 | Race and Ethnicity [1] | |
| SOC 358 | Human Diversity [1] | |
| SOC 359 | Immigrant L.A. | |
| SOC 464 | Social Stratification | |
| THEO 480 | Theology from the Margins [1] | |
| **Total Units** | | **18** |

[1]     Meets the General Education Intercultural Competence requirement.
[2]     Meets the General Education Humanities: Fine Arts requirement.

## Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Articulate an awareness of the historical experiences of U.S. ethnic groups and their contributions to the broader U.S. society.
2. Differentiate terminology that specifically relates to respective U.S. ethnic groups.
3. Critically engage the elements of American cultural identity formation including ethnic identity and issues of race.
4. Discuss a broadened understanding of how Christian faith shapes respective U.S. ethnic experiences.

# Minor in Sociology

## Requirements

18 units

| Code | Title | Units |
|---|---|---|
| **Core Courses** | | |
| SOC 120 | Introduction to Sociology [1] | 3 |
| SOC 298 | Basic Sociological Theory [F] | 3 |
| **Elective Courses** | | |
| Select 12 units from the following: | | 12 |
| ETHN 150 | Introduction to Ethnic Studies [2] | |
| GLBL 201 | Anthropology for Everyday Life [2] | |
| MATH 130 | Introduction to Statistics [3] | |
| PSYC 320 | Social Psychology | |
| SOC 225 | Contemporary Social Problems | |
| SOC 230 | Comparative Family Systems | |
| SOC 235 | Race and Ethnicity [2] | |

| | | |
|---|---|---|
| SOC 358 | Human Diversity [2] | |
| SOC 359 | Immigrant L.A. [OS] | |
| SOC 360 | Sociology of Religion [OS] | |
| SOC 361 | Education and Society [F] | |
| SOC 404 | Community [S] | |
| SOC 405 | The Sociology of Gender | |
| SOC 410 | Field Internships [4] | |
| SOC 425 | Social Movements [ES] | |
| SOC 455 | Crime and Delinquency | |
| SOC 464 | Social Stratification [F] | |
| SOC 468 | Contemporary Social Theory [OS] | |
| SOC 471 | Writing 3: Qualitative Social Research Methods [5, F] | |
| SOC 472 | Writing 3: Quantitative Social Research Methods [5, S] | |
| SOC 495 | Special Topics | |
| SOC 496 | Senior Seminar: Faith and Social Issues [OF, 4] | |
| SOC 497 | Readings | |
| **Total Units** | | **18** |

[1]    Meets the General Education Social Sciences requirement.
[2]    Meets the General Education Intercultural Competence requirement.
[3]    Meets the General Education Quantitative Literacy requirement.
[4]    Meets the General Education Integrative and Applied Learning requirement.
[5]    Meets the General Education Writing 3 requirement.

| | |
|---|---|
| F | Offered in Fall only |
| S | Offered in Spring only |
| F/S | Offered in both Fall and Spring terms |
| EF | Offered in Fall in even years |
| ES | Offered in Spring in even years |
| OF | Offered in Fall in odd years |
| OS | Offered in Spring in odd years |

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Recognize the influence of race, class, and gender on human behavior and social conditions.
2. Utilize the comparative and historical perspective to evaluate the effects of the social context on cultural beliefs, values, attitudes and practices.
3. Gain a sociological perspective on human behavior and the social order—including social structures and institutional practices—that empowers them to act in response to the Scriptural mandate to work for peace and justice.

# Minor in Spanish

24 units

## Requirements

Students in the Spanish minor are required to take 24 units of coursework. The actual number of units may be reduced. See note 2 below. Students in the Spanish minor must maintain a minimum cumulative GPA of 2.0 in all university coursework.

| Code | Title | Units |
|---|---|---|
| **Core Courses** | | **15** |
| SPAN 101 | Elementary Spanish I [1, 2] | |
| SPAN 102 | Elementary Spanish II [1, 2] | |
| SPAN 201 | Intermediate Spanish I [F] | |

| | | |
|---|---|---|
| SPAN 202 | Intermediate Spanish II [S] | |
| WRIT 204 | Writing 2: Writing for the Humanities in Spanish [3, S] | |
| **Conversational Skills** | | **3** |
| Select one of the following: | | |
| SPAN 250 | Intermediate Conversation and Writing Abroad | |
| SPAN 301 | Spanish Conversation and Community [4, F] | |
| SPAN 305 | Spanish for Heritage Speakers [F] | |
| SPAN 310 | Advanced Language-Study Practicum | |
| **Electives** | | **6** |
| Select two from the following list. A course taken to meet the above Subject Courses may not count for elective credit. | | |
| HIST 235 | Cultural History/Travel Study (If taken in Costa Rica or Ecuador Program) [4] | |
| ETHN 357 | The Chicano(a)/Latino(a) Experience [4] | |
| ETHN 476 | Transforming Leadership: Ethnic Studies and Latinx Christian Practice | |
| PSYC 490 | Latinx Psychology | |
| SPAN 310 | Advanced Language-Study Practicum | |
| SPAN 330 | History and Civilization of the Spanish-speaking World [F] | |
| SPAN 332 | Literary Masters [5, F] | |
| SPAN 415 | Politics and Society in Latin America [6, OS] | |
| SPAN 420 | Public Speaking in Spanish [7, OF] | |
| SPAN 440 | Spanish Applied Linguistics [EF] | |
| SPAN 460 | Writing 3: Survey of the Literature of the Spanish-Speaking World [8, S] | |
| UBBL 235 | Luke/Acts through a Latinx Lens [9] | |
| **Total Units** | | **24** |

[1] Meets the General Education Foreign Language requirement.

[2] See General Education Requirements page (p. 911). Students who are native speakers of Spanish or have 3-4 years of high school Spanish should take the Spanish placement or CLEP (p. 1114) exam, then consult with an advisor before entering intermediate or upper-division work. A CLEP score of 50 waives SPAN 101 and SPAN 102. A CLEP score of 63 also waives SPAN 201. A CLEP score of 74 also waives SPAN 202.

[3] Meets the General Education Writing 2 requirement.

[4] Meets the General Education Intercultural Competence requirement.

[5] Meets the General Education Humanities: Literature requirement.

[6] Meets the General Education Civic Knowledge and Engagement requirement.

[7] Meets the General Education Oral Communication requirement.

[8] Meets the General Education Writing 3 requirement.

[9] Meets the General Education Luke/Acts requirement.

| | |
|---|---|
| F | Offered in Fall only |
| S | Offered in Spring only |
| F/S | Offered in both Fall and Spring terms |
| EF | Offered in Fall in even years |
| ES | Offered in Spring in even years |
| OF | Offered in Fall in odd years |
| OS | Offered in Spring in odd years |

# Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate strong abilities in language skills (reading, writing), attaining at least the ACTFL Advanced-Low level.
2. Demonstrate strong abilities in language skills (speaking, listening), attaining at least the ACTFL Advanced-Low level.
3. Knowledge: Distinguish and describe the countries of the Spanish-speaking world, and describe their history and cultural achievements.
4. Literature: Critically analyze literary texts and construct thoughtful, textually-supported interpretations.
5. Intercultural Competence: Interact with people of Spanish-speaking communities with understanding and cultural sensitivity.

# Minor in TESOL

18 units

The undergraduate minor in TESOL is especially suited to students majoring in English (p. 120), Spanish (p. 160), or liberal studies (p. 518) (education), yet is open to all students. Students who choose the option to take graduate-level courses TESL 545 and TESL 557 will have completed the requirements for the graduate TEFL Certificate (p. 164).

The TESOL minor:

- Prepares students to teach English as a second language in public adult schools, private language schools, and developing countries.
- Prepares students for service in the U.S. among refugees, immigrants, and international students, and also for mission opportunities abroad.
- Prepares students to pursue graduate studies in TESOL or applied linguistics. TESOL minors who pursue graduate studies in TESOL at APU will already have completed at least one of the required courses for the MA in TESOL (p. 165).
- Enhances students' prospects for employment or acceptance to a graduate program, including their chances of obtaining a teaching assistantship at a university. In particular, students with this minor are prepared for the California Designated Subject (ESL) Adult Education Teaching Credential.
- Facilitates the development of public speaking and general classroom management skills.

## Requirements

- Students must achieve at least a 2.0 grade-point average in the six courses.
- Students intending to obtain a Designated Subject Adult Education Teaching Credential should also enroll in POLI 150 American Government.

| Code | Title | Units |
|---|---|---|
| ENGL 402 | Principles of Language | 3 |
| ENGL 404 | Approaches to Grammar | 3 |
| ENGL 406 | Writing 3: Advanced Composition [1] | 3 |
| TESL 505 | Second-language Acquisition [2] | 3 |
| Select one of the following: | | 3 |
| TESL 345 | Second-language Pedagogy I | |
| TESL 545 | Second-language Pedagogy I [2] | |
| Select one of the following: | | 3 |
| TESL 456 | Teaching Practicum | |
| TESL 557 | Reflective Teaching [2] | |
| **Total Units** | | **18** |

[1]    Meets the General Education Writing 3 requirement.
[2]    Senior standing required, and approval must be obtained from the department chair of the student's major, in order to take graduate-level courses.

## Program Learning Outcomes
## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Articulate a coherent understanding of the process of language acquisition and the effect on language acquisition of both individual and contextual variables.
2. Describe the linguistic structures and development of English.
3. Apply, through anticipated or actual teaching, the principles of classroom language pedagogy to teach both oral and written English.
4. Evaluate language teaching materials and use them in lesson planning.

# Preprofessional Programs

## Premedical/Predental

While any major is compatible with medicine, an emphasis on science courses is mandatory for completion of the academic prerequisites of medical and dental schools. Azusa Pacific's Department of Biology and Chemistry (https://www.apu.edu/clas/biochem/) offers excellent curricula for such programs.

Students enjoy strong academic advising on preparatory coursework, and a great deal of personal contact with professors within the classroom and advising environments.

Students enter the premedical/predental track (https://www.apu.edu/clas/programs/premedical/) by application, usually not earlier than the second semester of the sophomore year. Admission to the program is based on an evaluation of academic success and realistic plans for a health career. Students who successfully complete this track have a high success rate for acceptance into medical and dental schools. The program equips students to integrate scientific, cultural, and religious views, and develops the skills and objectivity necessary for the advancement of scientific knowledge.

To assist in attaining this goal, APU provides an advisor and a premedical/predental advisory committee to assist students in course selection, monitor academic progress, provide information on medical and dental school admission policies, conduct mock interviews, and, in general, aid students in focusing their preparation for medical or dental school.

In addition, career seminars and a Medical College Admissions Test (MCAT) review course (BIOL 470) led by the university premedical advisor are offered. A high MCAT score and a high grade-point average are necessary in applying to a medical school.

In addition to the General Education requirement, the following is typical of the academic prerequisites required by most medical and dental schools:

| Code | Title | Units |
| --- | --- | --- |
| **Chemistry** | | |
| CHEM 151 & CHEM 152 | General Chemistry I and General Chemistry II [1] | 8 |
| CHEM 251 & CHEM 252 | Organic Chemistry: Theory I and Organic Chemistry: Theory II | 6 |
| CHEM 261 & CHEM 262 | Organic Chemistry - Lab and Organic Chemistry - Lab | 2 |
| **Biology** | | |
| BIOL 151 & BIOL 152 | General Biology I and General Biology II [1] | 8 |
| **Mathematics** | | |
| MATH 165 & MATH 166 | Calculus I and Calculus II | 6 |
| **Physics** | | |
| Select one of the following: | | 8-10 |
| PHYC 155 & PHYC 156 | Physics for Life Sciences I and Physics for Life Sciences II [1] | |
| PHYC 165 & PHYC 166 | Physics for Science and Engineering: Mechanics and Physics for Science and Engineering: Electricity and Magnetism [1] | |
| PHYC 145 | Physics Laboratory I | 1 |
| PHYC 146 | Physics Laboratory II | 1 |

[1]   CHEM 151, BIOL 151, PHYC 155, and PHYC 165 meet the General Education Natural Sciences requirement.

The following courses also provide excellent preparation for medical school:

| Code | Title | Units |
| --- | --- | --- |
| BIOC 360 | Principles of Biochemistry | 4 |
| BIOC 270 & BIOC 370 | Biomolecular Chemistry and Biomolecular Metabolism | 8 |
| BIOL 240 | Biology of Microorganisms | 4 |
| BIOL 280 | Cell Biology | 4 |
| BIOL 300 | Genetics | 4 |
| BIOL 336 | Vertebrate Biology | 4 |
| BIOL 346 | Regional Human Anatomy | 4 |
| BIOL 350 | Mammalian Physiology | 4 |
| CHEM 300 & CHEM 310 | Quantitative Chemical Analysis - Theory and Quantitative Chemical Analysis - Laboratory | 4 |

| | | |
|---|---|---|
| PSYC 110 | General Psychology [1] | 3 |
| SOC 120 | Introduction to Sociology [1] | 3 |

[1]    Meets the General Education Social Sciences requirement.

## Pre-PT/OT

Physical and occupational therapy programs require the completion of prerequisite science courses. Azusa Pacific's Department of Biology and Chemistry (https://www.apu.edu/clas/biochem/) offers excellent curricula and faculty mentoring to complete these mandatory requirements. Students benefit from strong academic advising on preparatory coursework from a committee that includes a doctor of physical therapy as the committee chair.

Students enter the pre-PT/OT track (https://www.apu.edu/clas/programs/pre-physical-occupational-therapy/) by application while completing BIOL 251 Human Physiology. Admission to the program is based on an evaluation of academic success and realistic plans for a health career. Students in this track can anticipate a high success rate for admission to physical or occupational therapy schools as they become familiar with the physical/occupational therapy school admission process (PTCAS/OTCAS) through personalized, step-by-step advising and a mock interview with the pre-PT/OT committee. In addition, students have the opportunity to receive a committee letter in support of their physical or occupational therapy school application.

In addition to the General Education requirement, the following is typical of the academic prerequisites required by most physical and occupational therapy programs:

| Code | Title | Units |
|---|---|---|
| BIOL 151 | General Biology I [1] | |
| BIOL 250 | Human Anatomy | |
| BIOL 251 | Human Physiology | |
| BIOL Elective | | |
| CHEM 151 | General Chemistry I [1] | |
| CHEM 152 | General Chemistry II | |
| PHYC 145 | Physics Laboratory I | |
| PHYC 146 | Physics Laboratory II | |
| PHYC 155 | Physics for Life Sciences I [1] | |
| PHYC 156 | Physics for Life Sciences II | |
| Exercise Physiology | | |
| Psychology | | |
| Sociology | | |
| Statistics | | |

The BA in Allied Health (p. 46) is designed to fulfill the PT/OT graduate program requirements without any need for additional coursework.

## Prelaw

Azusa Pacific University's Department of History and Political Science offers a prelaw minor (p. 142) for students interested in law school. The 21-unit minor includes courses in political science, criminal law, constitutional law, and political philosophy. The department's prelaw advisor assists prelaw students in selecting appropriate courses and in the process of identifying and applying to law schools.

# School of the Arts

Azusa Pacific's School of the Arts (https://www.apu.edu/arts/), encompassing the Department of Art (p. 178), Department of Cinematic Arts (p. 197), Department of Design (p. 221), Department of Music (p. 230), and Department of Theater Arts (p. 296), furthers artistic collaboration and integration and expands the impact of the arts on campus, in local communities, and around the world. Within the college, art, cinema, design, music, and theater students work in an environment that supports excellence and artistic integrity firmly grounded in the Christian faith. Among the full-time faculty are numerous industry professionals who bring decades of experience to the classroom.

All programs housed in the School of the Arts provide students with practical techniques, knowledge, analytical skills, preparation for professional success, and a solid integration of faith and scholarship that allow them to practice their craft and positively impact the world.

# Department of Art

## Mission

The mission of the Azusa Pacific University Department of Art (https://www.apu.edu/vpa/art/) is to prepare art students for a lifetime of artistic expression and to cultivate individual creativity through the study of history, technique, presentation, and social engagement as reflectors of the creative and transformative nature of God, the ultimate Creator.

Faculty hold the belief that art is a socially responsible calling that empowers students to act as transformers in the world. In human history, artists have been the vessels and vehicles for spiritual, social, political, and psychological definition and change. Therefore, art is presented as a professional occupation and an essential part of a liberal arts education. APU students train to continue in that artistic tradition.

## Department Policies

The following policies apply to all art major and BFA students:

- Students must successfully complete a portfolio Review of Artistic Competencies (RAC) before progressing to upper-division courses. The review dates are announced every term and are available in the Department of Art.
- Students must submit a portfolio application to be admitted into the BFA program. The application due dates are announced every term and are available in the Department of Art.
- BFA majors must install a capstone exhibition and create a final portfolio at the conclusion of their coursework to prove proficiency in their selected emphasis or concentration.

## Accreditation

- Azusa Pacific University is accredited by the WASC Senior College and University Commission (WSCUC) (https://www.wscuc.org/).
- The Department of Art programs are accredited by the National Association of Schools of Art and Design (NASAD) (https://nasad.arts-accredit.org/).

## Programs

### Majors

- Art (BA) (p. 187)

- Art (BFA) (p. 190)

### Minors

- Art (p. 196)
- Art History (p. 197)

### Master's

- Master of Fine Arts in Visual Art  (p. 195)
- Master of Arts in Modern and Contemporary Art History (p. 193)
- Master of Arts in Art Education (p. 192)

## Courses

### ART 105, Ceramics I, 3 Units

In this introductory-level studio course, students learn about clay, glazes, firing, and studio procedures through the production of hand-built and wheel-formed projects. There is an emphasis on basic functional forms and their historical precedents. Meets six hours weekly. *Meets the General Education Requirement: Humanities: Fine Arts.*
Special Fee Applies

### ART 111, Printmaking: Serigraph, 3 Units

This studio course introduces students to the fine art of printmaking with an emphasis on serigraph (silk-screen) techniques. Attention is given to the origins and development of serigraph in the 20th century. Meets six hours weekly.
Special Fee Applies

## ART 125, New Genre Art Forms I, 3 Units
Students in this studio course explore art techniques of the contemporary age emphasizing three major art forms: performance, video, and installation. Course material introduces students to these three mediums and enables students to explore alternative processes in the art-making experience. Meets six hours weekly.
Special Fee Applies

## ART 130, Two-Dimensional Design, 3 Units
This studio course provides a variety of two-dimensional problem-solving experiences in composition. Students are required to apply Elements of Art and Principles of Design to original artworks, using materials and techniques related to their artistic goals. Oral and written art criticism are employed. Meets six hours weekly.
Special Fee Applies

## ART 135, Three-Dimensional Design, 3 Units
Basic spatial compositions are created to investigate concepts of form, light, texture, and motion, using a variety of materials such as cardboard, plaster, wood, plastic, and metal. Problems involving sculptural and environmental design concepts are studied. Meets six hours weekly.
Special Fee Applies

## ART 145, Drawing I, 3 Units
In this introductory-level studio course, students learn basic concepts and techniques including composition, gesture, contour, value marking, perspective, and observational rendering. Multiple media are explored in various styles and formats to develop skills and appreciation of the drawing media. Students are required to furnish art materials and tools. Meets six hours weekly. *Meets the General Education Requirement: Humanities: Fine Arts.*
Special Fee Applies

## ART 146, Painting I, 3 Units
Basic concepts and techniques of painting with multiple media and various styles and formats are considered to develop skills and appreciation of the painting media. Students are required to furnish art materials and tools. Meets six hours weekly.
Special Fee Applies

## ART 150, Introduction to Art, 3 Units
This combination lecture/studio course introduces students to fine art history and processes. Students develop a deeper understanding of the history, forms, and styles of architecture, painting, printmaking, and sculpture. The studio experiences expand students' personal awareness of art and themselves. *Meets the General Education Requirement: Humanities: Fine Arts.*
Special Fee Applies

## ART 152, History of the Museum, 3 Units
This lecture course surveys the history and development of museums and their changing role in society across the globe from the ancient world to the 21st century.
Special Fee Applies

## ART 160, Photography I, 3 Units
This studio course is an introduction to contemporary art photography using black-and-white film, darkroom, and digital photography processes, with students exploring technical, formal, and conceptual aspects of photography. Meets six hours weekly. Students must own or have access to a 35mm film camera. *Meets the General Education Requirement: Humanities: Fine Arts.*
Special Fee Applies

## ART 170, Sculpture I, 3 Units
A beginning-level studio course in sculpture, this class is hands-on, utilizing wood, plaster, and clay. Historical and formal aspects are an integral part of the course. Meets six hours weekly.
Special Fee Applies

## ART 180, Practical Exhibition Design, 3 Units
This studio course is an introduction to the practical application of exhibition design. Students work in a dedicated gallery to learn the art of installing and lighting artwork. Meets six hours weekly.
Special Fee Applies

## ART 206, Ceramics II, 3 Units
Students undertake intermediate projects in ceramics designed to increase basic skills and confidence on the potter's wheel. Meets six hours weekly.
Special Fee Applies
**Prerequisite:** ART 105

## ART 210, Printmaking: Relief, 3 Units

This studio course provides an introduction to the fine art of printmaking with an emphasis on relief techniques. Attention is given to the origins and development of printmaking in many cultures. Meets six hours weekly.
Special Fee Applies

## ART 230, Figurative Lab, 3 Units

This studio course focuses on rendering the human figure from live models in multiple media. The figure is explored as a universal form and unique personality. Students are required to furnish art materials and tools. Meets six hours weekly.
Special Fee Applies

## ART 240, Drawing and Painting II, 3 Units

Students develop and apply a personal approach to drawing and painting in various media using a variety of techniques. Emphasis is on independent exploration to prepare students for careers in studio art. Meets six hours weekly.
Special Fee Applies
**Prerequisite:** ART 145 and ART 146

## ART 260, Photography II, 3 Units

This intermediate-level studio course is the study in contemporary art photography. Emphasis placed on color theory, contemporary issues, and the technical skills of artificial lighting and professional digital printing workflow. Meets six hours weekly. Note: Students must own or have access to a digital SLR camera.
Special Fee Applies
**Prerequisite:** ART 160

## ART 270, Sculpture II, 3 Units

This intermediate-level course emphasizes aesthetics and appropriate technologies for executing ideas. Students are involved with formulating a conceptual and technical basis for ongoing work. Meets six hours weekly.
Special Fee Applies
**Prerequisite:** ART 170

## ART 280, Exhibition Design Theory, 3 Units

This lecture course surveys theories, trends, and the history of exhibition design. Students learn about the role and expectations of exhibition designers and makers.
Special Fee Applies

## ART 295, Exhibition Design Methods, 3 Units

This studio course provides the design tools needed for the printed and graphic needs of an exhibition. Emphasis is given to the promotion of exhibitions, accompanying catalogs, and didactics. Meets six hours weekly.
Special Fee Applies
**Prerequisite:** ART 280

## ART 305, Ceramics III, 3 Units

Students create advanced projects in ceramics. Meets six hours weekly.
Special Fee Applies
**Prerequisite:** ART 206

## ART 306, Ceramics IV, 3 Units

Students create advanced projects in ceramics. Meets six hours weekly.
Special Fee Applies
**Prerequisite:** ART 305

## ART 310, Fundamental Art Experiences, 3 Units

This introductory art education course explores the value of art production, art integration with other subjects, and art development in children. *Meets the General Education Requirement: Humanities: Fine Arts.*
Special Fee Applies

## ART 312, Secondary Art: Methods, Materials, and Curriculum, 3 Units

Students study secondary curriculum and practices to learn effective and positive ways of providing a quality art program. Such issues as current trends, practices, aesthetic valuing, and classroom management are explored. Field trips may be required. Meets six hours weekly.
Special Fee Applies
**Prerequisite:** Review of artistic competencies.

## ART 315, Printmaking II, 3 Units

This intermediate-level studio course provides further study in the fine art of printmaking with an emphasis on intaglio techniques. The course includes the study of traditional as well as alternative processes. Meets six hours weekly.
Special Fee Applies
**Prerequisite:** ART 210 or ART 211 or instructor consent

## ART 341, Painting III, 3 Units

In this comprehensive studio course, students create advanced painting projects within the context of a major theme. Development of each student's personal style is encouraged.
Special Fee Applies
**Prerequisite:** ART 240 and review of artistic competencies, or instructor consent.

## ART 345, Mixed Media, 3 Units

This advanced-level studio course investigates the physical and aesthetic possiblities and limitations of contemporary mixed media materials. Projects encourage an inventive and experimental approach to a wide range of materials and techniques, followed by specialization in one or more specific mixed-media techniques. May be repeated for six units total. Meets six hours weekly.

## ART 350, Illustration, 3 Units

This course explores wet and dry media techniques and high-end rendering in the multiple uses of illustration. The class duplicates client/artist interactions to prepare students for the environment in the commercial arts field. Students are required to furnish art materials and tools. Meets six hours weekly.
**Prerequisite:** ART 145 and Review of Artistic Competencies

## ART 354, History of Ancient Art and Architecture, 3 Units

This lecture course surveys art forms, including painting, sculpture, and architecture, created during the period ranging from prehistory to the beginning of the Christian era. Students are introduced to the art of the Middle East, Africa, Asia, Europe, the Americas, and Oceania. *Meets the General Education Requirement: Humanities: Fine Arts.*

## ART 356, Writing 3: History of Modern Art and Architecture, 3 Units

This course covers the history of painting, sculpture, architecture, and other art forms from the late 1700s to the late 1900s, and students are introduced to the various styles and movements that determine the development of modern art. The aim of the course is to lead students to an understanding of how modern art has developed into its current state as influenced by its sociocultural, religious, and political contexts. Learning to write in-depth analyses of art is an integral part of this course. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*
**Prerequisite:** Writing 2

## ART 357, History of Contemporary Art and Architecture, 3 Units

This lecture course includes the study of the history of painting, sculpture, and architecture created from 1945 to the present, and explores the transition in art from Modernism to Postmodernism and beyond. Field trips to local galleries and museums allow students to experience current contemporary art in Southern California. *Meets the General Education Requirement: Humanities: Fine Arts.*

## ART 359, Women In Art, 3 Units

This lecture and activity course addresses women's contributions in visual art from the Middle Ages through the present. Representations of women from ancient art through the present are analyzed. Collaborative installation projects modeled after contemporary female artists are undertaken to further understand the processes utilized by female artists.

## ART 360, Photography III, 3 Units

This advanced-level studio course is a study in contemporary art photography. Emphasis is placed on advanced film technologies and digital processes. The course also explores historical, cultural and critical aspects of photography. Meets six hours weekly.
Special Fee Applies
**Prerequisite:** ART 260, and RAC (Review of Artistic Competencies) portfolio review, or instructor consent

## ART 361, History of Early Christian and Medieval Art and Architecture, 3 Units

This lecture/seminar course introduces students to developments in art from around the world in the period ranging from early Christian art to the Age of Cathedrals (1st to 14th centuries). The course explores the connection between artistic expression and the changing sociocultural, religious, and political systems of the Christian world and the cultures that came into contact with it. *Meets the General Education Requirement: Humanities: Fine Arts.*

## ART 362, History of Renaissance to Rococo Art and Architecture, 3 Units

This lecture/seminar course introduces students to developments in art from around the world in the period ranging from the Early Renaissance through the Mannerist, Baroque, and Rococo periods (15th-18th centuries). Students in this course explore the connection between art expression and the changing sociocultural, religious, and political systems of the expanding world of the Renaissance to the Revolution age. *Meets the General Education Requirement: Humanities: Fine Arts.*

## ART 365, Printmaking III, 3 Units

This advanced-level studio course provides further study in the fine art of printmaking with an emphasis on alternative techniques. The course includes the study of monotype and collagraph processes. Meets six hours weekly.
Special Fee Applies
**Prerequisite:** ART 210 or ART 111, and ART 315

## ART 370, Sculpture III, 3 Units

This is a three-dimensional studio course utilizing wood, plaster, metals, and clay. Historical aspects are an integral part of the course. Meets six hours weekly.
Special Fee Applies
**Prerequisite:** ART 270

## ART 380, Advanced Exhibition Design, 3 Units

This advanced-level studio course gives students the opportunity to plan and install an exhibition. Students facilitate all aspects of executing an exhibition for a visiting artist (or visiting artists). Meets six hours weekly.
Special Fee Applies
**Prerequisite:** ART 295

## ART 403, Multicultural Art, 3 Units

This course introduces students to non-European craft techniques and traditions, and emphasizes building community through group projects, feasts, and celebrations. Meets six hours weekly. *Meets the General Education Requirement: Humanities: Fine Arts.*
Special Fee Applies

## ART 406, Ceramic Studio Processes, 1-3 Units

This course for the advanced student potter tailors experiences to meet the individual student's goal as a professional studio potter or ceramics instructor. It may be repeated for 6 units total.
Special Fee Applies

## ART 413, Multicultural Art Processes, 3 Units

This advanced-level studio course tailors experiences to meet the individual student's goals as a professional craftsperson. One or two specific non-European craft techniques chosen by the student create the structure for the semester's work. Integration of craft techniques into personal forms of visual communication is emphasized. Meets six hours weekly.
Special Fee Applies
**Prerequisite:** ART 403

## ART 418, Printmaking IV, 3 Units

This advanced studio course concentrates on individual development, mastery of materials and processes, and the production of professional-quality printmaking.
Special Fee Applies
**Prerequisite:** ART 365

## ART 431, Gallery Design, 3 Units

This upper-division studio course is an in-depth study of professional gallery design and preparation for the senior exhibit. It should be taken as a junior or first-semester senior. Meets six hours weekly.
Special Fee Applies

## ART 445, Drawing and Painting Processes, 1-3 Units

This studio course for the advanced general studio art major tailors experiences to meet the individual student's goal as a professional artist. It may be repeated for 6 units total.
Special Fee Applies
**Prerequisite:** Review of artistic competencies.

## ART 450, Portfolio, 3 Units

This is a required laboratory class for all senior art and graphic design majors and should be taken in the final semester of study. Instruction includes portfolio preparation, artist statements, gallery and client relations, graduate school options, business networking, and the role of the Christian artist in today's culture. Meets six hours weekly. *Meets the General Education Requirement: Integrative and Applied Learning.*
Special Fee Applies
**Prerequisite:** Review of artistic competencies.

## ART 452, Exhibition Capstone, 1 Unit

This senior-level capstone course gives students the opportunity to create individual exhibitions centered around their own artwork.
Special Fee Applies
**Prerequisite:** ART 431, Writing 3, and senior standing or instructor's consent.

## ART 460, Photography IV, 3 Units
This advanced-level studio course is a further study in contemporary art photography. Emphasis is placed on developing significant personal imagery and critical analysis. Meets six hours weekly.
Special Fee Applies
**Prerequisite:** ART 360 and RAC (Review of Artistic Competencies) or instructor consent

## ART 465, Advanced Photography Studio, 1-3 Units
Under the mentorship of the professor, each student is guided toward exhibition-ready photographic work. Students must own or have access to a 35mm film camera and provide their own supplies. Course may be repeated for a total of 6 units.
Special Fee Applies
**Prerequisite:** ART 460

## ART 466, Commercial Photography, 3 Units
This advanced-level studio course concentrates on commercial photography. Emphasis is placed on location photography, lighting and equipment, studio and portrait photography, design, digital production, workflow, and post-production, client relations, and marketing. The course tailors experiences to meet student's goal as a professional photographer. Meets 6 hours weekly.
**Prerequisite:** ART 160 and ART 260

## ART 470, Sculpture IV, 3 Units
This senior-level studio course concentrates on independent creativity, individual development, mastery of materials and processes, and the production of professional quality sculpture. Meets six hours weekly.
Special Fee Applies
**Prerequisite:** ART 370 and Review of Artistic Competencies

## ART 471, Sculptural Processes, 1-3 Units
This studio course for the advanced general studio art major with an emphasis in sculpture tailors experiences to meet the individual student's goals as a professional sculptor. It may be repeated for 6 units total. Meets six hours weekly.
Special Fee Applies

## ART 475, Art Internship, 1-4 Units
Graphic design and art majors participate in either volunteer or paid internship positions that are directly linked to their area of concentration, gaining on-site and professional experience.
**Prerequisite:** BFA Visual Art, Art, or Graphic Design major or minor

## ART 495, Special Topics in Art, 3 Units
This advanced level studio/research or lecture course allows for occasional offerings of diverse topics in art not covered by regular department courses. Special interests of faculty and students may be targeted under this category. Selection varies depending on student interest and faculty availability. It may be repeated for six units total, as topic varies.
Special Fee Applies

## ART 496, Senior Seminar: Art Ethics, 3 Units
This course examines ethical issues in the contemporary art world from a Christian perspective. Included is the examination of ethical dilemmas faced by artists in today's postmodern culture.
**Prerequisite:** Senior Standing

## ART 497, Readings, 1-4 Units
Consists of a program of study concentrating on assigned readings, discussions, and writing arranged between, and designed by, a student of upper-division standing and a full-time professor. An independent study fee is assessed for each enrollment in this class.

## ART 498, Directed Research, 1-4 Units
This course provides instruction in research design and techniques, and gives students experience in the research process. The one-unit expectation encompasses no fewer than 30 hours work with accompanying reading, log, writing, and seminar presentation within the department or in a university research symposium. No more than one unit may be used to fulfill preparatory readings requirement. An independent study fee is assessed for each enrollment in this class.
**Prerequisite:** Junior or Senior Standing

## ART 501, Integration: Theory and Practice I, 2 Units
This seminar course stimulates students' thinking regarding the relationship between the life of art making and the personal development of faith issues.

## ART 502, Integration: Theory and Practice II, 2 Units
In this second-semester course, students write a comprehensive artist's statement reflecting both artistic issues and faith concerns. It forms the basis for future renditions, wall statements, and concept statements for proposed projects.

## ART 503, Foundations of Art Education, 3 Units

This course explores the historical and philosophical foundations of art education. Students also examine concepts regarding how artistic learning occurs in children in K-12 settings, including special populations, and investigate how these concepts shape current art education practice related to the movement from STEM to STEAM.

## ART 504, Contemporary Issues in Art Education, 3 Units

This course explores contemporary issues in multifaceted areas of art education, including (but not limited to) the rationale for art education (advocacy), community connections and multiculturalism, special populations, creativity, and visual culture. Through weekly reading assignments, discussions, and individual projects, students examine scholarly writings, creative practices, and contemporary issues as they shape art education.

## ART 505, Teaching the Visual Arts I: K-12, 3 Units

This course provides an introduction to basic visual art education pedagogy, including classroom management, lesson planning and teaching, standards-based instruction, teaching strategies for students with diverse identities and needs, and the application of technology to support teaching and learning. Students who do not have a teaching background or credential consider strategies, models, and processes for meeting the needs of a broad range of K-12 students of all cultural or ethnic identities.

## ART 506, Teaching the Visual Arts II: Higher Education, 3 Units

This course provides an introduction to visual art education pedagogy for higher education, including course planning and design, studio and lecture-based instruction, and the application of technology to support teaching and learning. Students who do not have a teaching background or credential consider strategies, models, and processes for meeting the needs of a broad range of visual art learners of all cultural or ethnic identities.

## ART 510, Introduction to Graduate Studies/Critical Issues in Art I, 2 Units

This in-depth seminar course examines contemporary issues in the visual arts, their relation to the Christian faith, and how they ultimately relate to the student's own work. Topics vary according to the faculty.

## ART 511, Curriculum and Planning in Art Education, 3 Units

This course covers theory and application for the development of art curricula in K-12 classrooms. Based on contemporary theory and methods of application, emphasis is on strategic classroom planning and assessment.

## ART 512, Artistic Growth and Human Development, 3 Units

Students in this course examine major theories of human development, discussing and critiquing them in terms of application to art education practice. Course material provides relevant connections between artistic growth theories and research as applied to contemporary issues of human development.

## ART 513, Studio Art Exploration and Application I, 3 Units

Students in this course engage in studio residency experiences that enable them to expand their drawing and two-dimensional design skills and their visual communication skills as they explore a variety of design processes and techniques, as well as compositional and aesthetic concepts.

## ART 520, Critical Issues in Art II, 2 Units

This in-depth seminar course examines contemporary issues in the visual arts, their relation to the Christian faith, and how they ultimately relate to the student's own work. Topics vary according to the faculty.

## ART 525, Professional Practice, 3 Units

This seminar course discusses the intricacies and responsibilities of the professional artist as students prepare their portfolios.

## ART 530, Graduate Studio: Special Topics I, 2 Units

This course centers on art concerns and critiques stemming from each student's work. Focus varies based on the professor's specialties.

## ART 540, Graduate Studio: Special Topics II, 2 Units

This course centers on art concerns and critiques stemming from each student's work. Focus varies based on the professor's specialties.

## ART 545, Directed Experience, 3 Units

Students in this course have an opportunity for field experience as a teaching assistant for a faculty member in the Department of Art or as an intern in an arts organization. Each student arranges for a position related to their course of study, then works with a faculty supervisor to complete reflective assignments that complement their experience in the professional environment. Enrollment is contingent upon department approval.

## ART 550, History of 19th-Century Art, Criticism, and Theory, 3 Units

This course aims to provide an in-depth study of the art of 19th-century Europe and America, and an introduction to a variety of methods by which art is customarily understood.

## ART 553, Art History and Museum Education: 19th-century Europe and America, 3 Units

This course offers an in-depth study of the art of 19th-century Europe and America, and an introduction to a variety of customary methods for understanding art. Course material also covers all aspects of the educational role of museums for art educators and their constituents through the lens of art history.

## ART 555, History of 20th-Century Art, Criticism, and Theory, 3 Units
This course aims to provide an in-depth study of the art of 20th-century Europe, America, and beyond.

## ART 560, Reading and Translating French, 3 Units
This optional elective course develops proficiency in reading French at an intermediate level, reviewing basic grammar concepts and stylistic elements.

## ART 565, Methodologies of Art History, 3 Units
This course provides an advanced examination of art history in the form of a survey of methods used by practitioners since the 16th century.

## ART 570, Theories and Practices of Abstraction, 3 Units
Students in this course engage in an in-depth study of abstract painting and sculpture of Europe and America from the 1880s to roughly 1970, and explore the relationship between the academy and the deconstruction of the figure.

## ART 575, Writing About Art, 3 Units
This course addresses a range of strategies for interpreting and building experiences and meanings that address both the individual and shared experience of makers and viewers of visual art.

## ART 576, History of Modern and Contemporary Sculpture, 3 Units
This course examines the origins and development of modern and contemporary sculpture from the 19th century to the present. An important theme running through the course is the changing definition of sculpture itself within its social and political contexts. Students also explore various new artistic practices, including video, performance, installation, and earth art, and investigate their relationship to sculptural tradition and innovation.

## ART 577, Visual Culture, 3 Units
This course asks how all of our visual languages from high art to popular culture should be organized and addressed as art historians.

## ART 580, Critique, 1 Unit
This critique course is to be taken the first term in residence and consists of in-depth processing of the artist's work. Both student and faculty evaluation are the primary content of the class.

## ART 581, Critique, 1 Unit
This second critique course consists of in-depth processing of the artist's work created up to this point in the program. Student and faculty evaluation are the primary content of the course.
**Prerequisite:** ART 580 and ART 590

## ART 582, Critique, 1 Unit
This third critique course consists of in-depth processing of the artist's work created up to this point in the program. Both student and faculty evaluation are the primary content of the class.
**Prerequisite:** ART 581 and ART 591

## ART 583, Critique, 1 Unit
This fourth critique course consists of in-depth processing of the artist's work created up to this point in the program. Both student and faculty evaluation are the primary content of the class.
**Prerequisite:** ART 582 and ART 592

## ART 584, Critique, 1 Unit
This fifth critique course consists of in-depth processing of the artist's work created up to this point in the program. Both student and faculty evaluation are the primary content of the class.
**Prerequisite:** ART 583 and ART 593

## ART 585, Critique, 1 Unit
This sixth critique course consists of in-depth processing of the artist's work created up to this point in the program. Both student and faculty evaluation are the primary content of the class.
**Prerequisite:** ART 584 and ART 594

## ART 590, Independent Studio, 5 Units
This independent studio course is required following the first term in residence. A faculty-mentor is selected to supervise the development of student work.
**Prerequisite:** ART 580

## ART 591, Independent Studio, 4 Units
This is the second required independent studio course. A faculty-mentor is selected each semester to supervise the development of student work.
**Corequisite:** ART 581

## ART 592, Independent Studio, 5 Units

This is the third required independent studio course. A faculty-mentor is selected each semester to supervise the development of student work.
**Prerequisite:** ART 582 and ART 591

## ART 593, Independent Studio, 4 Units

This is the fourth independent studio course. A faculty-mentor is selected each semester to supervise the development of student work.
**Prerequisite:** ART 592;
**Corequisite:** ART 583

## ART 594, Independent Studio, 5 Units

This is the fifth independent studio course. A faculty-mentor is selected each semester to supervise the development of student work.
**Prerequisite:** ART 584 and ART 593

## ART 595, Independent Studio, 4 Units

This is the final required independent studio course. A faculty-mentor is selected each semester to supervise the development of student work.
**Prerequisite:** ART 594;
**Corequisite:** ART 585

## ART 600, Regional Modernism, 3 Units

Students in this course examine select issues in the history of art created in the modern era, with a focus on a particular region. Topics vary depending on instructor.

## ART 601, Integration: Theory and Practice III, 2 Units

This thesis course encourages and trains students to write about art and faith through the development of critical writing skills essential to drafting successful grant applications, and foundational to the larger literary demands of an artist's career.

## ART 602, Integration: Theory and Practice IV, 3 Units

This culminating seminar course allows students to articulate the philosophical basis for their life's work as artists with a spiritual understanding and how they plan to interact with the contemporary art world.

## ART 603, Methods in Art Education Research, 3 Units

Students in this course explore research methods rooted in theories and current practices of the visual arts. Students examine current research trends, focusing on qualitative and quantitative art education scholarly research, and learn how to recognize research methods and explore new themes within the context of creation of their own ideas toward a final capstone project.

## ART 605, Modernism and the Museum, 3 Units

The birth and growth of the modern museum has emerged as a significant institution for the art historian and artist. This course will consider the objects, buildings, and landscapes and explores how their contexts of display influence our understanding of history, education, and the object.

## ART 610, Critical Issues in Art III, 2 Units

This in-depth seminar course examines contemporary issues in the visual arts, their relation to the Christian faith, and how they ultimately relate to the student's own work. Topics vary according to the faculty.

## ART 613, Studio Art Exploration and Application II, 3 Units

Students in this course engage in studio residency experiences that enable them to expand their photography and digital media skills, and develop mastery in concept, composition, and execution of technique, as they investigate various forms of expression and techniques that use the principles and elements of design.

## ART 615, Modernism and Religion, 3 Units

Catholic and Protestant views of art have a long history with the appreciation, facilitation, and creation of art. This course examines the radical and dramatic relationship between religion and modern art from the Industrial Revolution to the mid-20th century.

## ART 618, Master's Capstone I, 3 Units

Students complete a capstone writing project, converting an existing graduate research paper or project into a polished example of scholarship. Each student must revise the paper/project for content and style, and the final product must be of the quality one might see in a scholarly journal or at a professional conference.
**Prerequisite:** Successful completion of 4 required courses and 4 elective courses.

## ART 620, Critical Issues in Art IV, 3 Units

This in-depth seminar course examines contemporary issues in the visual arts, their relation to the Christian faith, and how they ultimately relate to the student's own work. Topics vary according to the faculty.

## ART 621, Art Education Master's Capstone I, 3 Units

Students in this course research and write a capstone proposal and literature review related to the field of art education.
**Prerequisite:** ART 603

### ART 622, Art Education Master's Capstone II, 3 Units

Students in this course complete the art education research projects that started in ART 621.
**Prerequisite:** ART 621

### ART 625, Master's Capstone II, 3 Units

Students in this course produce a capstone portfolio demonstrating the breadth and depth of their master's experience and articulating the value of the degree to potential employers or admissions committee members.
**Prerequisite:** ART 618

### ART 630, Graduate Studio III, 3 Units

This course centers on art concerns and critiques stemming from each student's work. Focus varies based on the professor's specialties.

### ART 640, Graduate Studio IV, 3 Units

This course centers on art concerns and critiques stemming from each student's work. Focus varies based on the professor's specialties.

### ART 690, Creative Work Project, 2 Units

Students use this course for the creation or completion of the culminating body of art, while engaging in regular critique with their graduate committee.

### ART 695, Exhibition Preparation, 3 Units

Under the direction of the graduate art faculty, students plan, publicize, and install their graduate exhibition. The course focuses on exhibition design, execution, and documentation.

### ART 697, Special Topics, 1-3 Units

This advanced level studio/research or lecture course allows for occasional offerings of diverse topics in art not covered by regular department courses. Special interests of faculty and students may be targeted under this category. Selection varies depending on student interest and faculty availability.

### ART 699, Independent Study/Readings in Art, 1-3 Units

This course involves an independent study of subjects and interests beyond regular course offerings. Students explore particular topics or issues in accordance with an individualized study plan developed with a sponsoring faculty member and approved by the department chair.

### PRAR 150, Introduction to Art, 3 Units

This combination lecture/studio course introduces students to fine art history and processes. Students develop a deeper understanding of the history, forms, and styles of architecture, painting, printmaking, and sculpture. The studio experiences expand students' personal awareness of art and themselves. *Meets the General Education Requirement: Humanities: Fine Arts.*
Special Fee Applies

# BA in Art

45 units

The art major (https://www.apu.edu/vpa/programs/art-major/) provides a solid foundation for those who wish to continue in the creative field.

To qualify for a solo senior exhibition, students must enroll in ART 431 by the end of their junior year and present a qualifying exhibition proposal.

## Requirements

- Students must successfully complete a portfolio Review of Artistic Competencies (RAC) before progressing to upper-division courses. The review dates are announced every term and are available in the Department of Art. Special fee applies.

- Students must maintain at least a 2.0 grade-point average in major courses to graduate.

# Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate competencies with traditional and nontraditional materials, tools, and techniques.
2. Practice aesthetic engagement and critical judgment through writing and speaking.

3. Identify art historical time periods and place artworks within their art historical time periods.
4. Articulate how Christian faith impacts artistic creation both historically and in contemporary art.

# BFA in Art

75 units

Students must apply for the art major (BFA) (https://www.apu.edu/vpa/programs/art-major-bfa/) after they have completed 18 units of core courses (or equivalent portfolio content). The application form with specific portfolio expectations may be obtained in the Department of Art (https://www.apu.edu/vpa/art/); applications are due in late September for the spring semester and in early March for the fall semester. Contact the department for deadlines and additional information at art@apu.edu or (626) 815-2064.

## Requirements

- Students must successfully complete a portfolio Review of Artistic Competencies (RAC) before progressing to upper-division courses. The review dates are announced every term and are available in the Department of Art.

All students must maintain at least a 2.0 grade-point average in major courses to graduate.

| Code | Title | Units |

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate competencies with traditional and nontraditional materials, tools, and techniques.
2. Demonstrate an understanding of aesthetic engagement, artistic perception, and critical judgment through writing and speaking.
3. Demonstrate an understanding of the history of art and architecture from ancient to contemporary.
4. Develop an understanding of the Christian worldview in relation to the arts.

# MA in Art Education

The MA in Art Education (https://www.apu.edu/vpa/programs/masters-in-art-education/) supports a new generation of art teachers who value the unique processes and knowledge that come with a robust studio practice and the subsequent integration of those skills into the classroom. Aspiring and seasoned art educators hone their commitment to the studio and classroom and strengthen their research and contribution to the field of art education.

## Requirements

| Code | Title | Units |
|---|---|---|
| ART 503 | Foundations of Art Education | 3 |
| ART 504 | Contemporary Issues in Art Education | 3 |
| ART 511 | Curriculum and Planning in Art Education | 3 |
| ART 512 | Artistic Growth and Human Development | 3 |
| ART 513 | Studio Art Exploration and Application I | 3 |
| ART 553 | Art History and Museum Education: 19th-century Europe and America | 3 |
| ART 603 | Methods in Art Education Research | 3 |
| ART 613 | Studio Art Exploration and Application II | 3 |
| ART 621 | Art Education Master's Capstone I | 3 |
| ART 622 | Art Education Master's Capstone II | 3 |
| **Total Units** | | **30** |

## MA in Art Education Preparatory Courses

The Department of Art offers foundational courses that assist students without previous teaching experience or a teaching credential and/or students who do not meet the entrance requirements for full admission. Courses in K-12 and higher education art teacher training give students the necessary prerequisite knowledge and skills needed to study the field of art education at the graduate level. If any of these prerequisite courses are required, a determination will be based on a review of each student's unique combination of undergraduate coursework at Azusa Pacific University (or another accredited institution of higher learning) and any relevant work experience.

| Code | Title | Units |
| --- | --- | --- |
| ART 505 | Teaching the Visual Arts I: K-12 | 3 |
| ART 506 | Teaching the Visual Arts II: Higher Education | 3 |

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Develop advanced research skill and use of data that enhance the work of an art educator.
2. Display an understanding of skills related to art instruction and curriculum development.
3. Articulate how faith and ethics impacts art instruction.
4. Integrate historical and cultural artistic influences in art education.
5. Engage in aesthetic inquiry and understand creative practice (and the practice of other artists/educators) through the process of looking, reading, making, and finally through writing about these practices.

# MA in Modern and Contemporary Art History

The MA in Modern and Contemporary Art History (https://www.apu.edu/vpa/programs/art-history-masters/) is an innovative, fully online program that focuses exclusively on modern and contemporary art. Rooted in solid historical training and current critical methods, the program develops students' skills in visual analysis, close reading of texts, and the cultivation of independent and original research. Upon completion of the program, students are equipped with skills that are vital to further academic study as well as to the pursuit of a variety of careers in the arts.

## Program Highlights

- Courses offered in a convenient online format
- Part-time or full-time study allowed
- Courses delivered in accelerated 8-week terms that start several times per year
- Multiple entry points that enable students to select the best time to start their graduate education
- Experienced faculty who are professionally active scholars committed to student success

## Foreign Language Requirement

Before completing the MA program, students must demonstrate knowledge of a modern foreign language (note: American Sign Language does not fulfill this requirement). Students may fulfill the requirement by:

- Passing ART 560 Reading and Translating French (offered online by APU). Note that ART 560 does not count as coursework toward the degree.
- Passing a CLEP language exam (https://clep.collegeboard.org/?navId=gf-clep&navId=gf-clep) with a score of 50 or better. The CLEP exam may be taken at one of more than 1,800 designated test centers worldwide. Available language exams include French Language: Levels 1 and 2; German Language: Levels 1 and 2; and Spanish Language: Levels 1 and 2.

- Presenting evidence of completion of a semesterlong course in a foreign language from an accredited college or university with a grade of *B* or better. The course may be at the undergraduate level, but it must cover oral and written aspects of the language. Contact the director of the MA program for more information on how to submit the documentation necessary to fulfill the foreign language requirement in this manner.
- Native speakers of a language other than English *may* be considered for exemption from the language requirement, along with students who have completed study in a foreign language at a foreign university. Contact the director of the MA program for more information.

## Requirements

| Code | Title | Units |
|---|---|---|
| **Core Courses** | | **12** |
| ART 550 | History of 19th-Century Art, Criticism, and Theory | 3 |
| ART 555 | History of 20th-Century Art, Criticism, and Theory | 3 |
| ART 565 | Methodologies of Art History | 3 |
| ART 575 | Writing About Art | 3 |
| **Electives** | | **18** |
| Choose 18 units from the following courses: | | |
| ART 545 | Directed Experience | |
| ART 570 | Theories and Practices of Abstraction | |
| ART 576 | History of Modern and Contemporary Sculpture | |
| ART 577 | Visual Culture | |

| **Master's Capstone** | | **6** |
| ART 618 | Master's Capstone I | 3 |
| ART 625 | Master's Capstone II | 3 |
| **Total Units** | | **36** |

[1]  This course is available to meet the foreign language requirement; it does not count toward the required 36 units for the degree.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

## Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Students obtain advanced knowledge of specialized areas of art history and gain proficiency in interpreting images/objects in ways that consider the historical contexts in which they were produced and received.
2. Students are versed in the historiography and methodologies of art history and are able to apply the fundamental methods of the discipline in their academic work.
3. Students are able to assess and critique complex scholarly arguments and to critically evaluate the strength of the visual and textual evidence presented.
4. Students develop advanced skill in art historical research and are able to locate and enlist research resources in both print and digital form and assess the strengths and weaknesses of various types of resources.
5. Students acquire the writing and communication skills necessary for the accurate investigation and dissemination of art historical research.

6. Students demonstrate reading proficiency in a foreign language.

7. Students graduating with an M.A. in Art History are prepared for entry into a Ph.D. program or the job market.

# MFA in Visual Art

The MFA in Visual Art program (https://www.apu.edu/vpa/programs/mfa-in-visual-art/) is a terminal degree that seeks to cultivate the entire person, motivating students to achieve their highest possible level of development and articulation through their art. Along with intensive faculty-student mentoring relationships, students study art theory and practice, historical and contemporary precedents, social context and interaction, audience, and professional presentation.

## Program Format

APU's MFA program accommodates the working artist/educator by requiring students to be on campus for two residencies each year, with students participating in the same cohort for the duration of the program, learning and growing together. Additionally, during these on-site times, students partner with MFA professors, visiting artists, and speakers who serve as artist-mentors, pushing and encouraging students to explore and develop beyond their current aesthetic and stylistic positions.

Individual studio time comprises an essential aspect of the program and offers the opportunity to retreat and augment on-campus interaction (e.g., classroom instruction, guest lectures, peer reviews, mentor direction, and critiques) and emerge with a cohesive and thoughtful perspective on art and faith. Through the consistency that studio time provides, students cultivate the discipline that lays the groundwork for excellence and inspiration. Ultimately, students graduate as artists who naturally integrate their art-making with the major facets of their lives.

## Requirements

| Code | Title | Units |
| --- | --- | --- |
| ART 501 | Integration: Theory and Practice I | 2 |
| ART 510 | Introduction to Graduate Studies/Critical Issues in Art I | 2 |
| ART 530 | Graduate Studio: Special Topics I | 2 |
| ART 580 | Critique | 1 |
| ART 590 | Independent Studio | 5 |
| ART 581 | Critique | 1 |
| ART 591 | Independent Studio | 4 |
| ART 502 | Integration: Theory and Practice II | 2 |
| ART 520 | Critical Issues in Art II | 2 |
| ART 540 | Graduate Studio: Special Topics II | 2 |
| ART 582 | Critique | 1 |
| ART 592 | Independent Studio | 5 |
| ART 583 | Critique | 1 |
| ART 593 | Independent Studio | 4 |
| ART 584 | Critique | 1 |
| ART 601 | Integration: Theory and Practice III | 2 |
| ART 610 | Critical Issues in Art III | 2 |
| ART 690 | Creative Work Project | 2 |
| ART 594 | Independent Studio | 5 |
| ART 585 | Critique | 1 |
| ART 595 | Independent Studio | 4 |
| ART 602 | Integration: Theory and Practice IV | 3 |
| ART 620 | Critical Issues in Art IV | 3 |
| ART 695 | Exhibition Preparation | 3 |
| **Total Units** | | **60** |

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

## Additional Requirements

Students must complete at least 19 semester units in residence at Azusa Pacific University. Courses are scheduled so that the maximum length of the program is three years and four summers. Classes, critiques, and workshops are held throughout three weeks in July and one weekend in January—these residencies are required, with no exceptions. A maximum of eight years is allowed for completion of the degree.

A 3.0 grade-point average (GPA) is considered satisfactory progress in the MFA program. In the event that the student's GPA drops below the minimum 3.0, the student is placed on academic probation and given one enrollment period to raise it to the satisfactory level.

## Program Learning Outcomes
### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Engage in and contribute toward problems/questions of relevance within the contemporary art world.
2. Develop advanced research skills and products.
3. Display an understanding of worldviews and religious issues in relation to the visual arts.
4. Understand the professional art world, academic context, and personal aspirations.
5. Prepare to engage in professional exhibitions, conferences, presentations, and publications (function as a working artist).
6. Pursue serving as an arts educator in an academic context.

# Minor in Art

18 units

Students must maintain at least a 2.0 grade-point average in program courses to graduate.

| Code | Title | Units |
|---|---|---|
| **Core Courses** | | |
| ART 130 | Two-Dimensional Design | 3 |
| ART 145 | Drawing I [1] | 3 |
| ART 146 | Painting I | 3 |
| Select one of the following: | | 3 |
| ART 354 | History of Ancient Art and Architecture [1] | |
| ART 356 | Writing 3: History of Modern Art and Architecture [2] | |
| ART 357 | History of Contemporary Art and Architecture [1] | |
| ART 359 | Women In Art | |
| ART 361 | History of Early Christian and Medieval Art and Architecture [1] | |
| ART 362 | History of Renaissance to Rococo Art and Architecture [1] | |
| DSGN 258 | History of Graphic Design and Illustration | |
| **Art Electives** | | |
| Select two of the following: | | 6 |
| ART 105 | Ceramics I [1] | |
| ART 111 | Printmaking: Serigraph | |
| ART 125 | New Genre Art Forms I | |
| ART 135 | Three-Dimensional Design | |
| ART 160 | Photography I [1] | |
| ART 170 | Sculpture I | |
| ART 210 | Printmaking: Relief | |
| **Total Units** | | **18** |

[1]    Meets the General Education Humanities: Fine Arts requirement.
[2]    Meets the General Education Writing 3 requirement.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate competencies with traditional and nontraditional materials, tools, and techniques.
2. Identify art historical time periods and place artworks within their art historical time periods.
3. Articulate how Christian faith impacts artistic creation both historically and in contemporary art.

# Minor in Art History

18 units

The art history minor prepares students to develop a broad understanding of the meaning and purposes of visual communication, while promoting critical engagement and the attainment of knowledge of historically significant ideas and objects.

## Requirements

Students must maintain at least a 2.0 grade-point average in program courses to graduate. The program requires that students complete 18 units from the following list of art history courses:

| Code | Title | Units |
|------|-------|-------|
| ART 354 | History of Ancient Art and Architecture [1] | 3 |
| ART 356 | Writing 3: History of Modern Art and Architecture [2] | 3 |
| ART 357 | History of Contemporary Art and Architecture [1] | 3 |
| ART 359 | Women In Art | 3 |
| ART 361 | History of Early Christian and Medieval Art and Architecture [1] | 3 |
| ART 362 | History of Renaissance to Rococo Art and Architecture [1] | 3 |
| ART 475 | Art Internship | 1-4 |
| ART 497 | Readings | 1-4 |
| ART 498 | Directed Research | 1-4 |
| DSGN 258 | History of Graphic Design and Illustration | 3 |
| **Total Units** | | **18** |

[1] Meets the General Education Humanities: Fine Arts requirement.
[2] Meets the General Education Writing 3 requirement.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Recognize and categorize art works seen in class and not previously encountered.
2. Identify art historical time periods and the function and meaning of the art within these time periods.
3. Relate stylistic and technical artistic aspects of objects and monuments to the social, cultural, and intellectual contexts of the periods.
4. Make comparisons across art historical time periods, styles, and worldviews.
5. Articulate how faith impacts artistic creation.

# Department of Cinematic Arts

## Mission Statement

The Department of Cinematic Arts (https://www.apu.edu/vpa/cinematicarts/) fosters a learning community dedicated to the creative and scholarly principles of visual storytelling. Integrating mastery of craft with spiritual growth and the development of meaningful collaboration, the department encourages transformational art from a culturally engaged Christian worldview.

# Department Overview

The Department of Cinematic Arts offers a Bachelor of Fine Arts in Cinematic Arts Production; a Bachelor of Arts in Cinematic Arts with three concentrations: Entertainment Executive, Production and Post, and Screen Studies; a Bachelor of Arts in Screenwriting; a Bachelor of Arts in Animation and Visual Effects; and a Bachelor of Arts in Games and Interactive Media. In addition, students from other majors can earn one of two minors: Screenwriting or Screen Studies. The following table can help you decide which of the department's majors is best for you:

|  | Unit Requirements | Areas of Study | Which Major is my best fit |
|---|---|---|---|
| BFA in Cinematic Arts Production | 73-74 Units | Cinematography, Directing, Editing, Producing, Production Design, and Sound Design | This major is for students interested in cinematic storytelling and the creative art, personnel, and technical processes involved in creating worlds and the characters and situations that populate them. This immersive four-year program requires a supplemental application as an incoming student or permission from production professors during freshman year. |
| BA in Cinematic Arts | 46-49 Units | Entertainment Executive, Production and Post, and Screen Studies | This major offers three concentrations. Entertainment Executive focuses on creative, logistical, and business (finance/marketing) producing. Production and Post develops basic production skills with a greater emphasis on postproduction. Screen Studies is dedicated to better understanding screen art through a close examination of history, theory, analysis, and criticism. The unit requirement for each concentration is suitable for those wishing to double major or for transfer students. |
| BA in Screenwriting | 46 Units | Feature Film, Television, and Short-form Screenwriting (includes Episodic Drama, Situation Comedy, and Sketch Comedy for the Writer/Performer) | This major is for students whose creative passion is focused on writing for film and/or television. The reasonable unit requirement allows students to double major or minor in another field of interest. |
| BA in Animation and Visual Effects | 63 Units | 2D and 3D Character Animation, Storyboarding, Character Design, Layout, Visual Development, CG Modeling, Rigging, Visual Effects Animation, and Compositing | This major is for students who like to draw cartoon characters, monsters, fantasy creatures, or animals with attitude; or who desire to create fantastic stories or characters for feature animation or television, or visual effects for major motion pictures. This major is a four-year program requiring a supplemental application. |
| BA in Games and Interactive Media | 54-56 Units | 2D, 3D, and Tabletop Game Design; Game Theory, Mechanics, Development, and Documentation; 2D and 3D Game Art Design; UV Texturing and Mapping; 3D Modeling and Rigging; 2D and 3D Animation; Game VFX; Game UX/UI Design | This major is for students who want to know how to design and develop games. The unit requirement allows students to complement their degree with a minor, such as computer science, art, screenwriting, or creative writing. This major is a four-year program requiring a supplemental application. |

Cinematic arts faculty are working professionals who have collectively accumulated hundreds of industry credits and who are passionate about mentoring students as they hone their craft. Azusa Pacific University's proximity to Hollywood allows students to benefit from collaborative opportunities and learn from visiting professionals.

Department facilities include an edit lab equipped with 21 work stations, a 70-seat screening room outfitted with DTS-HD 7.1 digital surround sound, a 1,500-square-foot sound stage that includes a green screen and Foley stage, and a 1,450-square-foot equipment distribution center stocked with professional production equipment. The department is an Avid Learning Partner and teaches Avid postproduction workflows exclusively.

# Cinematic Arts Program Learning Outcomes

Department faculty train and mentor students in production, writing, criticism, animation, and entertainment management, combining artistic excellence with scholarship. Students learn how to do the following:

## Story

Apply principles of cinematic storytelling to creative and analytical works.

## Technical Practice

Demonstrate proficiency in the aesthetic, practical, and technical aspects of production, writing, criticism, animation, or entertainment management.

## Knowledge/Analysis

Articulate, critique, and apply the historical, social, and theoretical contexts of the cinematic arts.

## Professional Development

Implement the protocol, vocabulary, and work ethic necessary for professional careers.

## Collaboration

Serve and participate as a member of a creative team in leadership and/or supporting roles to meet project goals.

## Spiritual/Faith

Integrate an understanding of Christian faith through critical, creative, and collaborative endeavors.

# Department Policies

The following three degree programs require second applications beyond the general APU application: BFA in Cinematic Arts Production, BA in Animation and Visual Effects, and BA in Games and Interactive Media.

Those interested in the BFA in Cinematic Arts Production can apply as incoming freshmen or during their freshman year, contingent upon the recommendation of their CINE 260 instructor(s). Acceptance to the degree program during one's freshman year will in no way hinder the successful four-year completion of this degree. All BFA majors must earn no less than a *C* in every major course. Courses in these majors can be retaken once, but upon any course needing to be repeated, the student will be required to appear before the chair and/or faculty to make an appeal to remain in the major and, upon receiving permission, will be required to receive academic counseling and undergo a periodic review of his/her progress. If more than one course needs to be retaken, the student may be dropped from the BFA program and be required to reapply for admission into that major, if desired.

The BA in Animation and Visual Effects and the BA in Games and Interactive Media are four-year majors. Applicants to either of these majors must apply as incoming freshmen or with the understanding that they are committing to a four-year program. Each program is based on a cohort model in which coursework is completed in a progressive, sequential pattern. Students in these degree programs must earn no less than a *C* in each of their major courses. Falling below this threshold at any time may necessitate the student appearing before their respective program director and receiving academic counseling. If the final grade for any major-required course falls below a *C*, the student may be dropped from the major. If this is the case, a student may appeal to retake a course and reapply to the major. Upon receiving permission to retake a course and reapply to this, the student acknowledges that by doing so, they may fall a full year behind in the goal of completing their major requirements.

BA in Cinematic Arts majors must retain an overall *C* average (2.0 grade-point average) to graduate. Counseling is advised any time a student's GPA falls below this threshold.

BFA in Cinematic Arts Production majors have at least one significant hands-on production course each year. In CINE 462/CINE 494 projects, students are guaranteed a singular or shared (no more than two students sharing) department head role (producer, director, first assistant director, cinematographer, editor, sound designer, production designer, etc.), though no student is guaranteed to be placed in his or her desired role. Some roles (producers/directors) are assigned via a pitching process conducted before a faculty selection panel. Other roles are assigned by mutual agreement between student producers and faculty or are designated by faculty, who reserve the right to assign or deny production roles based on a student's demonstrated performance on previous productions, skills-related coursework, or exceptional circumstances. Likewise, faculty reserve the right to assign or deny screen credit based upon a student's demonstrated performance in their assigned roles. Students whose scripts or story ideas are selected for Production Development/Capstone Production Development consideration will be required to enroll in a development course the semester

prior to production (either CINE 316 Production Development or CINE 416 Capstone Production Development). In some cases, faculty may opt to replace/assign a writer to a script designated for production. Unless otherwise approved, only those students who have successfully completed CINE 319 Directing for the Camera will be considered for directing an upper-division project. Consideration will also be based on past production-related coursework as well as production professor recommendations.

While BFA majors have priority on department head roles on upper-division productions, BA in Cinematic Arts majors can apply for department head roles (or shared department head roles) or may be appointed to these roles by the professor of record as long as they have taken the courses that qualify them for the role, or by departmental permission in exceptional cases. Common roles for students in the Production and Post concentration are editor or sound designer; common roles for students in the Entertainment Executive concentration are producer (budgets), producer (marketing/distribution), or first assistant director.

All students enrolled in a set/production-based cinema course must read and agree to adhere to the guidelines articulated in the APU Cinematic Arts Production Bible (in the case of non-cinematic-arts students enrolled in a GE cinematic arts production course, such as CINE 160, each must adhere to guidelines articulated by their professor and/or referred to in their course syllabus.) Prior to production, each student's project must be vetted and approved by the department's safety and risk management coordinator. Each student must also sign the required safety, legal, insurance, permitting, permissions, and equipment release agreements; failure to sign one or more of these documents in no way releases a student from their obligation to adhere to the policies contained within them. Failure to follow the guidelines and policies contained within these documents, as well as those outlined in the Production Bible, may result in consequences such as late fees or damaged-equipment fees, receiving an *Incomplete (I)* or grade deduction until the equipment issue is resolved, the denial of equipment privileges, receiving a project grade reduction, academic disciplinary action, and/or withdrawal from the major.

Students enrolling in specific skills level or production courses—including, but not limited to, CINE 216, CINE 323, CINE 338, CINE 415, CINE 462, and CINE 494—may be required to contribute to the semester's film budget or the course's supplemental materials fee. Such contributions will not exceed $250 per student per semester for film budgets, or $150 for supplemental materials fees.

While students may own the intellectual property rights (copyright) of material they author, APU retains all ownership and distribution rights to films produced with APU equipment and/or within any APU course and/or under departmental authorization. APU also retains the right to use the produced screenplay for continued educational and/or promotional purposes (course examples, assignments, festival entry, etc.). Students wishing to post, share, or distribute films produced at or through APU must receive prior departmental permission in writing to do so.

When films, projects, assignments, exercises, or games produced by the Department of Cinematic Arts are intended for public presentation, such as Premiere Night, a festival, or a competitive entry, we hold each respectively to the standard of the Motion Picture Association of America's PG-13 rating, the Entertainment Software Rating Board "T" (Teen) rating, and in conjunction with the conscientious majority view of the Department of Cinematic Arts faculty. We feel this is reasonable and responsible for a Christian academic institution committed to exploring the challenges of flourishing in a fallen world, as well as the joys and sorrows of the human condition without celebrating evil. It also makes our student work accessible to a broad audience.

Films produced at the 400 level (live action and animation) are not guaranteed to screen at Premiere Night. All upper-division films intended for public exhibition must be submitted to, and approved by, a faculty screening committee. To be considered for public exhibition, each film must adhere to the ratings standards outlined in the preceding paragraph, as well as the department's technical, aesthetic, and legal requirements stated in the APU Cinematic Arts Production Bible. No film approved for Premiere Night will be permitted to be exhibited, posted, or shared prior to that event.

# Programs

## Majors

- Animation and Visual Effects (BA) (p. 210)
- Cinematic Arts (BA) (p. 214)
- Cinematic Arts Production (BFA) (p. 218)
- Games and Interactive Media (BA)
- Screenwriting (BA) (p. 217)

## Minors

- Screen Studies (p. 220)
- Screenwriting (p. 220)

# Courses

## ANIM 103, 3D Art I, 3 Units

This course introduces students to the basic principles and applied techniques of 3D computer-generated imaging. Included are basic modeling techniques, UVW mapping, 3D texturing techniques, lighting, and rendering.

## ANIM 111, Digital Methods, 2 Units

This course offers a foundational overview of digital tools used for entertainment design. Subjects include concept ideation and sketching, raster and vector graphics, basic 3D techniques, animation and motion graphics processes, and the principles of design.

## ANIM 117, Color and Design, 3 Units

Students in this course explore theory and practice of the fundamentals of strong visual design through color, shape, form, and line, with an emphasis on learning the importance of design in cinematic composition.
**Prerequisite:** BA in Animation and Visual Effects majors only

## ANIM 190, Introduction to Animation Principles and Techniques, 3 Units

This course introduces students to the basic principles and applied techniques of character animation. Students learn how to make characters and objects seemingly come to life through frame-by-frame manipulation, exploring the fundamentals of movement, gesture, timing, and weight.
**Prerequisite:** BA in Animation and Visual Effects majors only

## ANIM 192, Animation Preproduction, 3 Units

This course introduces students to the animation filmmaking preproduction process through their creation of a preproduction package for an animated film of the student's own conception.
**Prerequisite:** C or better in ANIM 190; BA in Animation and Visual Effects majors only.

## ANIM 200, Animation Production I, 3 Units

Building on the foundational animation preproduction experience, this course introduces students to the animation filmmaking process. Students create an entertaining, character-driven, animated short film with a soundtrack.
**Prerequisite:** ANIM 192; BA in Animation and Visual Effects majors only.

## ANIM 202, Storyboarding for Animation I, 3 Units

This 2-D drawing course introduces students to storytelling methods using sequential drawings for animation. Staging, camera movement, framing, and cutting theory are discussed, and assignments help students learn screen design and storytelling basics. Course material also covers different types of storyboards-TV, feature, commercial, and VFX, all used to communicate story, performance, and cinematic design.
**Prerequisite:** C or better in ANIM 117, ANIM 190, and ART 230; B.A. in Animation and Visual Effects majors only.

## ANIM 204, Layout Fundamentals, 3 Units

This course offers an in-depth study of the compositional elements that make up strong background design for animation. Through 2D drawing assignments, students learn to utilize camera angles, cinematic storytelling, and techniques in drawing and design to create story locations.
**Prerequisite:** B.A. in Animation and Visual Effects majors only.

## ANIM 205, 3D Art II, 3 Units

This course introduces students to the basic principles and applied techniques of 3D computer animation. Subjects include keyframe animation techniques and animating a 3D character rig.
**Prerequisite:** ANIM 103

## ANIM 207, Action Analysis for Animation, 2 Units

Animation is all about understanding how something moves in real life before it can be caricatured. In this course, students learn the mechanics behind human and animal locomotion through close analysis of the form in motion. Live models and film clips are used for reference.
**Prerequisite:** C or better in ANIM 117, ANIM 190, and ART 230; B.A. in Animation and Visual Effects majors only.

## ANIM 212, Character Design I, 3 Units

This course introduces the fundamentals of designing characters for animated television series, features, or corporate mascots. Drawing skills required.
**Prerequisite:** B.A. in Animation and Visual Effects majors only.

## ANIM 305, Visual Development, 3 Units

Students in this 2D drawing and painting course explore the visual possibilities of an animated feature, TV series, and/or video game through 2D digital design. World building and character design are utilized to bring a project's story to life.
**Prerequisite:** ANIM 111

## ANIM 307, CG Character Animation II, 3 Units

Students in this intermediate-level animation course gain a deeper understanding of CG animation as they create performance-driven character animation. Premade creature and character models are used to explore movement and acting with dialogue on a scene-by-scene basis.
**Prerequisite:** ANIM 205, ANIM 207, and 28 completed ANIM units.

## ANIM 309, Digital Concept Painting, 3 Units

Digital concept art is the first phase of storytelling in animation, film, and gaming. In this 2D drawing and painting course, students learn digital painting techniques and fundamentals in regard to concept art creation utilizing industry-standard painting applications.
**Prerequisite:** ANIM 111, ANIM 204, and ANIM 212.

### ANIM 345, Advanced Story Concepts, 3 Units

Students in this course learn the process of conceptualizing and developing stories for original animated feature films, series, and shorts, as well as video games. In addition to understanding the foundations of visual story-building art, students learn the basics of writing story treatments and developing pitch-ready concept packages, as well as the skills to successfully pitch their ideas.
**Prerequisite:** ANIM 202

### ANIM 358, Rigging for Animation, 3 Units

The important bridge between CG modeling and animation is creating the "rig," or bone structure, to move the model. This course introduces CG rigging techniques and fundamentals in Maya software, and students make basic rigs for objects, creatures, and human forms, with an emphasis on how things articulate.
**Prerequisite:** ANIM 205, ANIM 207, and 28 completed ANIM units.

### ANIM 390, 3D Character Modeling, 3 Units

Students in this course learn to use 3D modeling and sculptural software in order to leverage the design skills gained in previous courses to create high-quality character models.
**Prerequisite:** ANIM 103

### ANIM 392, Character Animation II, 3 Units

Students in this intermediate course develop lifelike characters through frame-by-frame manipulation, particularly human and animal locomotion, with special consideration given to weight, timing, and performance. Deeper emphasis is placed on dialogue scenes used to create stronger personalities with emotional substance and appeal.
**Prerequisite:** ANIM 190, ANIM 192, and 28 completed ANIM units.

### ANIM 395, Animation Film Workshop, 3 Units

Working in teams, students in this open-lab course complete animated short films with sound known as third-year films.
**Prerequisite:** ANIM 190 and ANIM 200

### ANIM 402, Storyboarding for Animation II, 3 Units

Students in this 2-D drawing course advance in storytelling methods and character development through an in-depth exploration and application of staging, camera movement, framing, cutting theory, and pacing. Formats of storyboarding include TV and feature animation.
**Prerequisite:** ANIM 202 and ANIM 204

### ANIM 404, CG Layout and Previsualization, 3 Units

This course covers CG layout and previsualization using industry-grade software and creation engines. Students learn and apply key principles and techniques, including camera mechanics, staging, lighting, and pacing. By the end of the course, students have a range of visual vocabulary and technical skills from which to draw while communicating their ideas visually and problem solving in a production environment.
**Prerequisite:** ANIM 202 and ANIM 204

### ANIM 445, Portfolio Review and Career Preparation, 1 Unit

Students in this course focus on creating a professional art portfolio, understanding the importance and application of networking skills, and developing the means to best showcase their work to prospective employers. Students learn online portfolio building skills, how to navigate and employ the social networking space, how to receive and apply peer and professional criticism, how to secure an internship, successful job interviewing skills, and best practices in how to succeed as a working professional.
**Prerequisite:** Must be a BA in Animation and Visual Effects or BA in Games and Interactive Media major with fourth-year standing.

### ANIM 493, Capstone Project in Animation, 3 Units

This course provides an opportunity for students to participate in and/or create a culminating work that integrates learning from previous courses in the major. All projects should be tied to the student's major (or concentration area) and must be approved by their program director or faculty advisor.
**Prerequisite:** Instructor Consent

### ANIM 495, Special Topics in Animation and Visual Effects, 1-3 Units

This course presents topics not covered by regular department courses. Trends in animation, visual effects or special interests of faculty and students may be targeted under this category.
**Prerequisite:** Instructor Consent

### ANIM 497, Readings, 1-3 Units

This course consists of a program of study concentrating on assigned readings, discussions, and writing arranged between and designed by a student of upper-division standing and a full-time professor.
**Prerequisite:** Instructor Consent

## ANIM 498, Directed Research, 1-3 Units

This course provides instruction in research design and technique, and gives students experience in the research process. The 1-unit expectation encompasses no fewer than 45 hours of work with accompanying reading, log, writing, and seminar presentation within the department or in a university research symposium. An independent study fee is assessed for each enrollment in this class.
**Prerequisite:** Instructor Consent

## ANIM 499, Thesis/Project, 1-3 Units

This course is an opportunity for undergraduate students to explore an idea, contribute to research, examine industry trends/methods, or develop a project under the guidance of a faculty member in the animation area.
**Prerequisite:** Instructor Consent

## CINE 101, Christianity and the Creative Process, 3 Units

This course is a study of theater, film, and broadcasting vis-a-vis Christianity and the arts. Issues of ethics and social justice in the context of cultural studies are considered. Emphasis is placed on spiritual, artistic, and community development. *Meets the General Education Requirement: Humanities: Fine Arts.*

## CINE 119, Introduction to Directing, 3 Units

Course emphasizes dramatic form and mechanics of story, including the use of editorial, cinematographic, sound and design crafts, to communicate a coherent vision among producers, cast, and crew. Students apply their growing mastery of these subjects in a collaborative environment and explore how the Christian faith informs both story and the processes of practical application.
**Corequisite:** CINE 260

## CINE 160, Introduction to Digital Filmmaking, 3 Units

This course introduces students to the vocation and processes of filmmaking from story conception, creation and development through pre-production, principal photography, post-production, and exhibition. By the end of this course, students will not only have learned the fundamental skills and principles employed by filmmaking professionals - writers, directors, producers, creative artists and technicians - but also how to evaluate their own films in light of the current cultural context. Students must provide their own smartphones equipped with video recording and editing capabilities. *Meets the General Education Requirement: Humanities: Fine Arts.*

## CINE 174, Introduction to Storytelling, 3 Units

This course offers students a deep dive into the notion of "story" and how it manifests in a variety of formats. Subjects include narratology, comparative mythology, and the monomyth, as well as the practical techniques of writing for all aspects of the entertainment industry. Utilizing instruction and assignments provided through a series of specific, discipline-oriented lectures, students are exposed to a wide array of integrative approaches to world-building, developing fictional characters, and writing well-formed story structures. The goal of this course is to provide an understanding of how stories and characters are developed within different industries and prepare students to write and tell their own personal stories within their creative work.

## CINE 186, Action Analysis [Proposed], 2 Units

Students will learn the mechanics behind human and animal locomotion through close analysis of the form in motion.

## CINE 200, History of Art and Music for Cinematic Arts, 3 Units

This lecture course introduces cinematic arts students to major works of Western art and music from the prehistoric era to the mid-20th century, to give them visual and musical literacy skills for their work in the cinematic arts.

## CINE 216, Performance and Production, 1-3 Units

This course provides credit for students working with instructors as they study, prepare, and perform theater, film, or television productions. Course may be repeated for up to 6 units toward graduation.

## CINE 260, Cinema-TV Production I, 4 Units

This course equips students with the creative competencies and technical skills for writing, producing, directing, and picture- and sound-editing narrative short films. Coursework focuses on developing compelling stories and communicating them through dynamic visuals, effective performances, and imaginative sound design.
**Corequisite:** CINE 119

## CINE 275, History of Television and Digital Media, 3 Units

An in-depth look at the history and operations of electronic media, including television, cable and the streaming services of the Internet. The technological basis of each medium will be explored as well as the aesthetic opportunities and limitations. Programming and business structures of advertising, pay-per-view, and public broadcasting will be examined. 1st & 14th Amendment considerations-issues surrounding the freedom of expression/press as well as responsibilities-will form topics for debate/discussion. In the light of "narrative theology" both televisual stories and scriptural stories will be examined, not so much for "the rules they give" but rather for what they reveal about the human condition and the possibilities of redemption. *Meets the General Education Requirement: Humanities: Fine Arts.*

## CINE 280, Writing the Short Screenplay, 3 Units

Students will integrate their knowledge of story and character to develop scripts appropriate for short films. This course stresses the importance of rewriting and meeting deadlines for the screenwriting process. Screenplays written during the class will be considered for production by advanced cinematic arts courses.

## CINE 285, History of Film, 3 Units

The changes and developments in film are examined for their relationship to corresponding social and aesthetic contexts. Readings and discussions examine the interdependent relationships between social movements, technological advances, aesthetic trends and business practices. *Meets the General Education Requirement: Humanities: Fine Arts.*

## CINE 295, Film and Television Business, 3 Units

This class introduces students to the structure and business of the television and motion picture industries. Topics include broadcast, cable and local television, commercial production, advertising, programming, marketing, and ratings. Students learn how movies are made from the business of screenwriting through marketing and DVD release.

## CINE 316, Production Development, 3 Units

This collaborative workshop leads writers through the script development process. Students work with the instructor to develop a preapproved script concept (focusing on structure, character, and theme) and write two complete drafts of a short film script.
**Prerequisite:** CINE 280 and department approval.

## CINE 317, Cinematic Design, 3 Units

This course bridges the gap between theory and application of the visual components that make meaning in a visual story. Instruction is achieved through a combination of lecture, demonstration, and multiple student assignments applying course material to practice.
**Prerequisite:** CINE 260 and BFA Production Majors only

## CINE 319, Directing for the Camera, 3 Units

This course gives aspiring cinematic artists a working knowledge of the skills and technique needed to direct actors and create transformational art. It introduces many aspects of this discipline. Students will be evaluated on their ability, expertise, and commitment to implement new techniques.
**Prerequisite:** CINE 119, CINE 260, and for BFA Production majors only

## CINE 320, Cinematography, 3 Units

This comprehensive course covers the fundamentals of lighting, exposure, use of film and motion picture cameras, general use of equipment, safety procedures, and methodology for working on location and in the studio. This course is required for students who desire to fill a cinematography position on an advanced project.
**Prerequisite:** CINE 260 and BFA Production Majors only

## CINE 321, Film and Television Editing, 3 Units

Students learn skills and techniques of cinematic storytelling via the editing and postproduction processes. This course emphasizes proficiency using a nonlinear editing system, the history of significant achievement in editing, and the editor's unique role in the cinematic process. Required for any student who desires to fill an editing position on an advanced production.
**Prerequisite:** CINE 260; Cinematic Arts Production or Cinematic Arts: Production and Post majors only.

## CINE 322, Sound Design, 3 Units

This course focuses on practical and aesthetic considerations relating to recording, editing, and mixing sound for cinematic productions, and is required for students who desire to fill a sound position on an advanced production.
**Prerequisite:** CINE 260; Cinematic Arts Production or Cinematic Arts: Production and Post majors only.

## CINE 323, Production Design, 3 Units

Students will learn about the various disciplines involved in becoming a production designer for cinematic arts, Emphasis will be placed on understanding past designers within their historical contexts and postulating forthcoming trends, as well as developing a working knowledge of manual tactile design. Visual expression faculties must be well developed to succeed in this course.
**Prerequisite:** CINE 260

## CINE 335, Cinema-TV Production II, 5 Units

This intermediate-level course in cinema-TV production emphasizes product and process. Students learn the distinct roles of writing, producing, directing, cinematography, editing, and sound through a story-centered, collaborative, and iterative process.
Special Fee Applies
CINE 260, CINE 280, Cinematic Arts Production or Cinematic Arts: Production and Post majors only; corequisite: CINE 361

## CINE 338, Documentary and Entrepreneurial Production, 3 Units

Students in this course explore the content and production methods used in nondramatic productions - for example, short documentaries that feature people or nonprofit organizations. Product advertising or other kinds of entrepreneurial filmmaking are also examined. These productions are studied in terms of style and production techniques; style of production considers things such as compression of information and layering of graphics and images, and that knowledge is used in crafting an original advertising spot or other production. These techniques are then practiced in new projects featuring student-selected content or subjects.

Special Fee Applies

**Prerequisite:** CINE 260 and one of CINE 319, CINE 320, CINE 321, CINE 322, CINE 323.

## CINE 341, Media Criticism and Theory, 3 Units

Students in this course examine the origins and development of film criticism and theory through a close analysis of selected writings. Specialized critical approaches such as genre, auteur, feminist, and Marxist are framed by a cultural studies approach, giving an understanding of film as an expression of art and popular culture.

**Prerequisite:** WRIT 220

## CINE 351, Film and Social Issues, 3 Units

This course explores the relationship between ethnic, racial, and gender groups that historically have been under-represented, misrepresented, or marginalized in mainstream commercial cinema. Considerable emphasis is placed upon the cinematic treatment of important historical and current events, multicultural phenomena, and sociopsychological issues and movements. *Meets the General Education Requirement: Intercultural Competence.*

## CINE 360, Studies in Popular Culture, 3 Units

This course carefully examines popular cultural forms, institutions, rituals, artifacts, icons, communication practices, thought patterns, worldviews, value systems, and ideologies possibly created thereby. Topics range from the private and public experiences of popular culture in movies, television, and recordings to fast food, automobiles, and blue jeans, along with their relationship to wider cultural contexts and Christian faith.

## CINE 361, Production Management, 3 Units

Focusing on the business and management areas of media production, this course includes modules on business plans, budgets, investors, revenue streams, project procurement, equipment/facilities management, freelance hiring, personnel contracts, and talent/crew management. The creative and ethical components of producing will be examined under the light of industry demands and the church's historic concern with economic justice.

**Prerequisite:** CINE 260

## CINE 362, Entertainment Development, 3 Units

This course teaches the methods creative producers use to find, develop, pitch, package, and manage cinematic arts products. Coursework emphasizes pitching, script coverage, and other responsibilities of a producer during the acquisition process. These skills are essential for producers but highly recommended for students aspiring to create content.

**Prerequisite:** CINE 295

## CINE 363, Entertainment Financing, 3 Units

This course focuses on funding, risk assessment, distribution methods, and recoupment for cinematic arts products. The methodology focuses primarily upon case studies in the contemporary arts and entertainment industry. The course is essential for students pursuing producing and highly recommended for those interested in entertainment business.

**Prerequisite:** CINE 295 and CINE 361

## CINE 364, Entertainment Marketing, 3 Units

This course enables students to create a marketing plan for cinematic arts products and covers marketing issues and techniques from development through distribution. This course is essential for students interested in executive and producing-related careers and highly recommended for those interested in entertainment business.

**Prerequisite:** CINE 295

## CINE 375, Writing 3: Screenwriting, 3 Units

This course emphasizes the analysis and writing of film screenplays and television scripts. It serves as a workshop for story planning and scripting in the genres of drama and comedy, and for learning creative, redemptive approaches to marketable and effective media formats and presentations. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*

**Prerequisite:** Writing 2 and department consent.

## CINE 385, Intermediate Screenwriting, 3 Units

This course focuses on screenwriting fundamentals: structure, scene development, character, theme, dialogue, and conflict. Using case studies from film and television, students learn to analyze screenplays and teleplays rather than focusing on the integrated experience of the script, directing, editing, and performance elements.

**Prerequisite:** ENGL 303 or CINE 375

## CINE 387, Writing 3: Nonfiction Writing for Visual Media, 3 Units

This course offers exploration of the essentials of good writing for successful nonfiction programs in visual media such as documentary film, documentary television, media ministry, promotional media, and more. Students learn how to research and write proposals, outlines, treatments, and scripts. Study of scripts and screenings of model nonfiction programs enrich the course and serve as practical examples. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*
**Prerequisite:** Writing 2

## CINE 388, Sketch Comedy for the Writer/Performer, 3 Units

This course covers the writing, performance, and production of original sketch comedy. Building upon basic improvisation and creative skills, students will sharpen their writing and performance techniques to create truthful and original characters and sketches. Topics include constructing a scene, maximizing comedic potential, integrating popular culture and societal conversation, and experimenting with new media platforms. Students will collaborate to produce a show performed before a live audience at semester's end.
**Prerequisite:** THTR 374 or CINE 375

## CINE 391, Visual Effects and Compositing, 3 Units

This course covers visual effects and compositing with an emphasis on general concepts that might apply to film, animation, and games. Techniques include enhancing shots with CG elements, compositing from multiple sources, and combining CG/miniatures footage with live-action footage. Also covered are preplanning plates, green screen setups, motion tracking, and adding transparent shadows.

## CINE 415, Advanced Television Production, 4 Units

This course offers advanced instruction in the techniques of television production for multicamera studio and on-location environments. Students learn the skills necessary for preproduction, principal photography, and post-production, as well as the importance of operating under studio deadlines. This workshop class requires significant production time in addition to class time. This course requires a lab fee of at least $30/unit.
**Prerequisite:** CINE 335 and Instructor consent

## CINE 416, Capstone Production Development, 3 Units

This collaborative workshop course leads above-the-line personnel and department heads through the process of preproduction. Students undertake activities including market/audience analysis, script development, and fundraising, and integrate applied preproduction tasks such as budgeting, scheduling, production planning, casting, scouting, and permitting.
**Prerequisite:** CINE 361 and instructor permission

## CINE 420, Topics in Cinema and History, 3 Units

This course explores the relationship between film and history regarding a specific historical era, studying films made at that era and about that era. Students are expected to attend weekly film screenings in addition to scheduled classes. This course may be repeated once for credit as the topic varies.
**Prerequisite:** WRIT 110

## CINE 422, Advanced Post-Production, 3 Units

This course concentrates on advanced post-production techniques including sound mixing (integration of sound effects, Foley, music, and backgrounds) and finalizing picture (color grading, codecs, etc.). Projects are often tied to other advanced production or capstone films.
**Prerequisite:** CINE 321

## CINE 444, Advanced Film Theory, 3 Units

This course provides a deeper look at the medium of motion pictures from the point of view of film theorists ranging from semiotics (film as language), realism, expressionism, auteur theory, cinema as art, montage, film as narrative, literature and adaptations to the screen, documentary and propaganda approaches, genre conventions, psychology, sociology, mythology, and ideology. Discussion of the film audience and the role of the Christian critic is included. Foreign films are a special focus of study, together with unusual examples of cinematic expression, story films, drama as social comment, and the musical.

## CINE 451, World Cinema, 3 Units

In our world of new media, multiple technological content exhibition platforms, and the global village, the place of cinema has never been more varied and exciting. The World Cinema course will explore the history, aesthetics, and business of motion pictures outside of the Hollywood and British hegemony. National cinemas to be considered include those of Mexico, India, Russia, China, Latin America, Asia, Africa, and non-English-speaking Europe. Through film screenings, readings, lectures, and engaged discussion, students will gain a diverse, intercultural perspective, enriching their own appreciation of the world of cinema, and broadening their personal perspectives beyond that of the United States. *Meets the General Education Requirement: Intercultural Competence.*
**Prerequisite:** WRIT 110

## CINE 462, Advanced Cinema Production, 5 Units

Students in this course work collaboratively as a crew to complete a festival-ready film for screening and distribution. Students serve in specific roles such as producers, directors, cinematographers, editors, and sound designers. The course emphasizes visual storytelling through an iterative production and critique process.
Special Fee Applies
**Prerequisite:** CINE 335

## CINE 475, Civic Engagement Through Media, 3 Units

This service-learning course applies the student's knowledge of media in service to the surrounding community either locally or internationally. Students lend their expertise and energy in partnering with non-profit organizations to create media or provide training in storytelling and technical skills. *Meets the General Education Requirement: Civic Knowledge and Engagement.*
**Prerequisite:** CINE 260

## CINE 481, Contemporary Auteurs, 3 Units

This is a seminar course examining a variety of theories and critical approaches, focusing on two-three contemporary contemporary cinema auteurs. This course includes in-depth study of directors such as Scorsese, J. Coen & E. Coen, Kubrick, Schrader, and Eastwood, their connections to film history, theoretical constructs and critical stances, as well as common and divergent themes in their films and what they say about the human condition.

## CINE 483, Genre Studies, 3 Units

Students will examine a specific genre in cinematic arts, such as the American film musical, fantasy, romantic comedy, or science fiction. Students will consider the genre with respect to significant changes in the culture as a whole and in relation to other media, such as literature and theater. Numerous related topics will be covered that involve attention to aesthetic, cultural, and political dimensions of film and television, as well as the complex dynamics of societal trends. Consideration will be given to the social and cultural implications of media artifacts in their historical contexts.

## CINE 485, Advanced Screenwriting, 3 Units

This screenwriting seminar addresses artistry, excellence, professionalism, and spirituality. Through intense study and assigned readings and films, students learn how to hone the craft of cinematic storytelling and organically integrate faith within their writing to create screenplays with an unusual quality and depth.
**Prerequisite:** ENGL 303 or CINE 375

## CINE 486, Topics in Film Analysis, 3 Units

This course examines the terms, methods, and techniques of film analysis in the context of a special topic that varies each semester depending on the instructor (e.g., Film Noir, Images of Women in Film, Shakespeare on Film, The Western). Emphasis is on formal analysis of film language, with consideration of other critical approaches to film.

## CINE 487, Television Writing: Episodic Drama, 3 Units

This course recreates the environment of working on an hour-long television drama. Students gain practical experience in the collaborative process of writing episodic dramas and are prepared for future employment as writers, producers, or directors on a dramatic television series. As part of the course, students complete a 60-page dramatic teleplay.
**Prerequisite:** CINE 375 or instructor consent

## CINE 488, Television Writing: Situation Comedy, 3 Units

This course allows students to experience the process of writing a television sitcom. From the creation of a viable series concept to rewriting a script to meet the needs of the actual production, students work as part of a writing staff rather than as individuals and discover how their specific writing skills contribute to the project's overall success.
**Prerequisite:** CINE 375 or instructor consent

## CINE 490, Internship and Career Preparation for Cinematic Arts, 1-3 Units

This course gives students an opportunity to integrate their cinematic arts coursework with off-campus experiential learning activities in the entertainment industry. In addition to an on-site internship, students participate in course assignments, reflection, and group discussions in order to develop a career plan, hone interviewing and networking skills, and produce personal marketing materials. The course may be repeated for up to 6 units toward graduation.
**Prerequisite:** CINE 295

## CINE 491, Classroom Practicum, 1-3 Units

This course gives students practical experience in classroom teaching and tutoring. Students assist in classroom duties as well as complete assignments related to the development of a communication perspective. Three units must be taken for the communication major; an additional 3 units may be taken for credit toward graduation.

## CINE 493, Capstone Project in Cinematic Arts, 3 Units

This course provides an opportunity for students to participate in and/or create a culminating work that integrates learning from previous courses in the major. All projects should be tied to the student's major (or concentration area) and must be approved by their program director or faculty advisor. Such culminating work may include, but is not limited to: creation of a screenplay or teleplay, participation in an animation project, development of an entertainment business plan, or the revision/expansion of an essay suitable for submission to a scholarly journal or academic conference. With faculty approval, Entertainment Executive and Production and Post students may petition for one of the following courses to fulfill this requirement: CINE 338, CINE 415, CINE 462, or CINE 494. *Meets the General Education Requirement: Integrative and Applied Learning.*
**Prerequisite:** Instructor permission

## CINE 494, Production Capstone, 3 Units

This course provides opportunity for groups of students to create a culminating television, documentary, or narrative fiction project that integrates the learning from previous production courses in the major and serves as a portfolio for the students involved. With approval, the project may be a creative reel or individual portfolio. All projects must be approved according to department guidelines. Course may be repeated for up to 6 units toward graduation. *Meets the General Education Requirement: Integrative and Applied Learning.*
**Prerequisite:** CINE 415, or CINE 338, or CINE 462 or Instructor's consent.

## CINE 495, Special Topics, 3 Units

This course presents topics not covered by regular department courses. Trends in the entertainment industry or special interests of faculty and students may be targeted under this category. Examples have included the American film musical, science fiction film, sound design, post colonial theater, and world theater. Course may be repeated for up to 6 units toward graduation.

## CINE 496, Ethics in Cinematic Arts, 3 Units

This seminar in media ethics helps students understand ethical dilemmas encountered by practitioners of film, television, and digital media in a variety of situations. Through the study of mass communication theories and criticism, students learn the powerful ways that entertainment media define, create, maintain, and/or change cultural realities and understand the ethical implications therein.

## CINE 498, Directed Research, 1-3 Units

This course provides instruction in research design and technique, and gives students experience in the research process. The 1-unit expectation encompasses no fewer than 30 hours of work with accompanying reading, log, writing, and seminar presentation within the department or in a university research symposium. No more than 1 unit may be used to fulfill preparatory readings requirement. An independent study fee is assessed for each enrollment in this class.
**Prerequisite:** Junior or Senior Standing

## CINE 499, Thesis/Project, 1-3 Units

This course is an opportunity for undergraduate students to explore an idea, contribute to research, examine industry trends/methods, or develop a project under the guidance of a faculty member in the cinematic arts area.
**Prerequisite:** Instructor permission

## GAME 101, Game Development Process, 2 Units

This course offers an introductory survey of the video game industry and several game production processes. Included are game design tools and techniques, game development terminology, game industry roles, idea brainstorming, game prototyping, pitching, and more.

## GAME 115, Game Development I, 3 Units

Material in this introductory course covers game design workflow, fundamental game design, and development techniques so students can complete playable digital game levels. Students learn how to design and plan game flows, maps, and basic interactivity. Game development best practices and scripting are also introduced.
**Prerequisite:** GAME 101

## GAME 130, Game Design and Theory, 3 Units

Students in this course gain a practical foundation in game design with a focus on concept development, design decomposition, and prototyping. Using game design theory, analysis, physical prototyping, playtesting, and iteration, students learn how to translate game ideas, themes, and metaphors into gameplay and player experiences. Students are further exposed to the basics of effective game idea communication.
**Prerequisite:** GAME 101

## GAME 210, Game Narrative, 3 Units

This course gives students an understanding of classic dramaturgy-characterization, motivation, story patterns, structures, styles, genres, etc. Students investigate these storytelling techniques to create emotionally rich characters and worlds through the use of branching narratives, objectives, and rewards.
**Prerequisite:** GAME 101

## GAME 215, Game Level and Environmental Design, 3 Units

Students in this course investigate the development of compelling environments from the ground up, conceptually and practically. Course material covers architecture, perspective, drawing, visual storytelling, art direction, textures, creating atmosphere, nature, game cinematography, and lighting.

## GAME 221, Game UX and UI Design, 2 Units

This course introduces students to the aesthetics, terminology, and common trends of user experience and user interface design for games, including accessibility and user-centered design. Topics include 2D and 3D spaces, user/camera perspectives, wayfinding, and menu systems.
**Prerequisite:** BA in Games and Interactive Media majors only

## GAME 225, Game Development II, 3 Units

This course builds on the core principles of GAME 115 Game Development I and delves into the many systems and mechanics that make up the practice of applied game design, including game AI and basic visual effects.
**Prerequisite:** GAME 115

## GAME 310, Game Prototype Studio, 3 Units

This intensive studio-based course builds up students' repertoire of fast-prototyping skills and provides them with invaluable experience starting and finishing the development of games. The course consists almost entirely of the creation of playable prototype games, and each prototype is confined within a certain genre or conceptual theme, or within unique technical constraints.
**Prerequisite:** GAME 230

## GAME 325, Game Development III, 3 Units

This course builds on the core principles of GAME 225 Game Development II and focuses on interactive virtual reality experiences.
**Prerequisite:** GAME 225

## GAME 335, Programming for Interactive Media, 3 Units

This course provides concentrated praxis in computer programming with an emphasis on games and interactive media. Included are the basic mechanics of code, object-oriented programming, interfacing external scripts with game engines, debugging, and more.
**Prerequisite:** GAME 115

## GAME 394, Game Studio Apprenticeship, 3 Units

This course positions students to view and assist those enrolled in GAME 494 Game Studio Capstone. This includes brainstorming a future capstone game project and pitching the idea to a selection committee (composed of faculty from across the campus, as well as industry veterans) that chooses the games that will advance.
**Prerequisite:** GAME 230

## GAME 396, Game Production, 2 Units

Students in this course dive deep into producing games and interactive media. Topics include how to organize and support the creative, technical, and business aspects of game development, how to define project requirements, assembling a team, preproduction methodologies, game design documentation, current team and project management strategies, and more.
**Prerequisite:** GAME 394

## GAME 475, Civic Engagement Through Games, 3 Units

This service-learning course gives students the opportunity to apply their knowledge of games and interactive media in service to local or international communities. Students lend their expertise and energy in partnering with nonprofit organizations to create games and interactive media or provide training in storytelling and technical skills. *Meets the General Education Requirement: Civic Knowledge and Engagement.*
**Prerequisite:** Instructor consent required

## GAME 494, Game Studio Capstone I, 3 Units

This is the first of a series of courses that give students an opportunity to create a culminating work that integrates learning from previous courses in the major. Students bring together their individual talents as designers, programmers, artists, writers, composers, producers, etc., in cross-disciplinary teams (music, animation, communications, business, and various other programs as needed), and the deliverables created during the fall semester are the foundation for polished materials in the spring semester. All projects must be approved by the department, and each project must encompass at least 100 hours of work. *Meets the General Education Requirement: Integrative and Applied Learning.*
**Prerequisite:** GAME 394

## GAME 496, Game Studio Capstone II, 3 Units

This is the second and last in a series of courses that give students an opportunity to create a culminating work that integrates learning from previous courses in the major. Students bring together their individual talents as designers, programmers, artists, writers, composers, producers, etc., in cross-disciplinary teams (music, animation, communications, business, and various other programs as needed), and the deliverables created during the fall semester are the foundation for polished materials in the spring semester. All projects must be approved by the department, and each project must encompass at least 100 hours of work. *Meets the General Education Requirement: Integrative and Applied Learning.*
**Prerequisite:** GAME 494

## SCW 501, Cinematic Arts and Culture, 3 Units

A study of film and television's roles as culture shapers. Students will consider issues of faith, ethics, and social justice and their relationship to cinematic arts. Particular emphasis will be placed on spiritual, artistic, and community development.

### SCW 519, Directing for Screenwriters, 3 Units

An in-depth workshop/lecture demonstration on pre-production, production, and post-production processes and the aesthetics of film and video. The course will emphasize dramatic form and mechanics of story, including use of design, cinematographic, sound, and editorial crafts to communicate a coherent vision among producers, crew, and cast. Students will apply knowledge of these subjects in a collaborative working environment.

### SCW 520, Script Analysis for Screenplays and Teleplays, 3 Units

Students in this course analyze feature films and television series from the screenwriter's point of view via an in-depth study of each story's dramaturgical elements. This study deepens the understanding of these principles and techniques for each student's own creative work.

### SCW 575, Screenwriting: Story and Character, 3 Units

This course focuses on dramaturgical principles needed to write for film and television. Building on Aristotelian three-act structure, students learn to create dimensional characters and craft narratives suitable for visual storytelling. Particular emphasis is placed on theme, genre, scene, and sequence construction.

### SCW 595, Entertainment Production, 3 Units

Students in this seminar course gain a working knowledge base in the key phases of entertainment production: development, financing, production management, and marketing.

### SCW 611, Adaptation for Film and Television, 3 Units

Students in this course explore using source material-such as true stories, myths, fairy tales, and classic literature-to create screenplay and teleplay adaptations. Through screenings, readings, lectures, and exercises, students examine the process and efficacy of taking stories that originated in one medium and making them suitable for film or television.

### SCW 615, Web Series Development and Production, 3 Units

In this workshop course, students study and practice the essential elements and conventions for developing, writing, and producing an original web series. Topics include concept, structure, character, and target audience, as well as marketing and distribution of the web series. Students create a three-episode web series and shoot, edit, and screen the pilot episode.

### SCW 685, Writing the Feature Screenplay, 3 Units

This seminar course focuses on the integration of dramaturgical principles of story and character development as students write an original, feature-length screenplay. They also examine classic films from the canon of American cinema to gain an enhanced understanding of narrative and learn to implement constructive criticism from peers and the course instructor.

### SCW 687, Writing the Drama Pilot, 3 Units

This course focuses on the creation of an original, dramatic television series. Each student will create a series bible that defines the concept, major characters, and brief descriptions for season one episodes. During the semester, the instructor will lead a virtual writers room as student peers provide feedback as each writes a pilot episode. In addition, the course will explore current trends in broadcast, cable, and streaming television services.

### SCW 688, Writing the Comedy Pilot, 3 Units

This course focuses on the creation of an original, comedic television series, with each student creating a series bible defining the concept, major characters, and brief descriptions for season-one episodes. During the semester, the instructor leads a virtual writers room with student peers providing feedback as each writes a pilot episode. The course also explores current trends in broadcast, cable/satellite, and streaming television services.

### SCW 699, Screenplay/Teleplay Portfolio Workshop, 3 Units

This course prepares second-year students to submit a portfolio of screenplays and/or teleplays to agents, managers, or producers for representation and/or employment opportunities. The course instructor matches each student with a professional screenwriter who helps ensure that work in the portfolio is commercially viable. In addition, students explore marketing strategies-such as blogs, social media, and building a brand-and their usefulness in starting a career in the entertainment industry.
**Prerequisite:** SCW 685, SCW 687 or SCW 688, and instructor permission.

# BA in Animation and Visual Effects

75 units

Learn more about the animation and visual effects major.  (https://www.apu.edu/vpa/programs/animation-visual-effects-major/)

## Requirements

| Code | Title | Units |
| --- | --- | --- |
| **Animation and Visual Effects** | | |
| CINE 174 | Introduction to Storytelling | 3 |
| ART 230 | Figurative Lab | 3 |
| ANIM 111 | Digital Methods | 2 |

| | | |
|---|---|---|
| ANIM 190 | Introduction to Animation Principles and Techniques | 3 |
| ANIM 192 | Animation Preproduction | 3 |
| ANIM 103 | 3D Art I | 3 |
| CINE 317 | Cinematic Design | 3 |
| ANIM 200 | Animation Production I | 3 |
| ANIM 202 | Storyboarding for Animation I | 3 |
| ANIM 212 | Character Design I | 3 |
| WRIT 220 | Writing 2: Film Analysis and Criticism [1] | 3 |
| CINE 375 | Writing 3: Screenwriting [2] | 3 |
| ANIM 392 | Character Animation II | 3 |
| ANIM 395 | Animation Film Workshop | 3 |
| ANIM 445 | Portfolio Review and Career Preparation | 1 |
| CINE 451 | World Cinema [3] | 3 |
| CINE 475 | Civic Engagement Through Media [4] | 3 |
| ANIM 493 | Capstone Project in Animation (course is taken twice) | 6 |
| Select one of the following: | | 3 |
| CINE 275 | History of Television and Digital Media [5] | |
| CINE 285 | History of Film [5] | |
| Select one of the following: | | 3 |
| ANIM 204 | Layout Fundamentals | |
| ANIM 205 | 3D Art II | |
| Select five of the following (not taken above): | | 15 |
| ANIM 204 | Layout Fundamentals | |
| ANIM 205 | 3D Art II | |
| ANIM 305 | Visual Development | |
| ANIM 390 | 3D Character Modeling | |
| ANIM 402 | Storyboarding for Animation II | |
| ANIM 404 | CG Layout and Previsualization | |
| CINE 320 | Cinematography | |
| CINE 322 | Sound Design | |
| CINE 391 | Visual Effects and Compositing | |
| CINE 416 | Capstone Production Development | |
| CINE 490 | Internship and Career Preparation for Cinematic Arts | |
| CINE 495 | Special Topics | |
| GAME 115 | Game Development I | |
| GAME 210 | Game Narrative | |
| GAME 215 | Game Level and Environmental Design | |
| **Total Units** | | **75** |

[1]    Meets the General Education Writing 2 requirement.
[2]    Meets the General Education Writing 3 requirement.
[3]    Meets the General Education Intercultural Competence requirement.
[4]    Meets the General Education Civic Knowledge and Engagement requirement.
[5]    Meets the General Education Humanities: Fine Arts requirement.

## Suggested Study Plan: Years 1 and 2

| Course | Title | Units |
|---|---|---|
| **Year I** | | |
| **Fall** | | |

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Story – Describe an understanding of the integral structures of cinematic storytelling and implement these in criticism, scripts and productions.
2. Technical Practice – Demonstrate proficiency in the aesthetic, practical, and technical aspects of writing, production, or criticism.
3. Knowledge/Analysis – Articulate, critique, and apply the historic, social, and theoretical contexts of the cinematic arts.
4. Professional Development – Implement the protocol, vocabulary, and work ethic necessary for professional careers.
5. Collaboration – Serve as a member of a creative team in leadership and servanthood roles to meet project goals.
6. Spiritual/Faith – Integrate an understanding of Christian faith through critical, creative, and collaborative endeavors.

# BA in Cinematic Arts

46-49 units

The cinematic arts major (https://www.apu.edu/vpa/programs/cinematic-arts-major/) (BA) (https://www.apu.edu/vpa/programs/cinematic-arts-major/) offers three concentrations:

**Entertainment Executive:** This concentration is geared toward those more interested in the business suite rather than the film set. It appeals to those who have an orientation to detail (budgeting, scheduling, and permitting), while at the same time engaging the creative producing processes (packaging stars with stories, collecting capital to produce programming, and following up with domestic and international marketing plans).

**Production and Post:** This concentration focuses on developing basic skills in film production (writing, directing, and producing), with a greater emphasis on mastery of postproduction (editing and sound). It is designed for students unable to meet the 75-unit/8-semester Bachelor of Fine Arts in Cinematic Arts Production program demands but who are still interested in preparing for a wide range of production careers in the entertainment industry.

**Screen Studies:** Through in-depth study of film history, theory, and criticism, this concentration explores the function and meaning of cinematic media within its context as a vibrant industry, an agent of cultural change, and a powerful means of reflecting our Creator's image. Equips students interested in careers as scholars, media programmers, archivists, reviewers, festival organizers, and curators.

## Requirements

All cinematic arts majors must complete the core requirements as well as the requirements for one of the concentrations.

| Code | Title | Units |
|---|---|---|
| **Core Courses** | | |
| CINE 119 | Introduction to Directing | 3 |
| CINE 200 | History of Art and Music for Cinematic Arts | 3 |
| CINE 260 | Cinema-TV Production I | 4 |
| CINE 295 | Film and Television Business | 3 |
| CINE 361 | Production Management | 3 |
| WRIT 220 | Writing 2: Film Analysis and Criticism [1] | 3 |
| Select one of the following: | | 3 |
| CINE 275 | History of Television and Digital Media [2] | |
| CINE 285 | History of Film [2] | |
| Select one of the following: | | 3 |
| CINE 375 | Writing 3: Screenwriting [3] | |
| CINE 387 | Writing 3: Nonfiction Writing for Visual Media [3] | |
| Select one of the following: | | 3 |
| CINE 341 | Media Criticism and Theory (required in the screen studies concentration; screen studies students must choose a different option here) | |
| CINE 360 | Studies in Popular Culture | |
| CINE 420 | Topics in Cinema and History | |
| CINE 481 | Contemporary Auteurs | |
| CINE 483 | Genre Studies | |
| CINE 486 | Topics in Film Analysis | |

| CINE 496 | Ethics in Cinematic Arts | |
|---|---|---|
| **Recommended Course** | | |
| CINE 490 | Internship and Career Preparation for Cinematic Arts [4] | |
| **Concentration** | | |
| Select one concentration area below | | 18-21 |
| **Total Units** | | **46-49** |

[1]  Meets the General Education Writing 2 requirement.
[2]  Meets the General Education Humanities: Fine Arts requirement.
[3]  Meets the General Education Writing 3 requirement.
[4]  May be repeated up to a maximum of 6 units.

## Production and Post Concentration

| Code | Title | Units |
|---|---|---|
| CINE 280 | Writing the Short Screenplay | 3 |
| CINE 321 | Film and Television Editing | 3 |
| CINE 322 | Sound Design | 3 |
| CINE 335 | Cinema-TV Production II | 5 |
| CINE 493 | Capstone Project in Cinematic Arts [1] | 3 |
| Select one of the following: | | 3 |
| CINE 391 | Visual Effects and Compositing | |
| CINE 422 | Advanced Post-Production | |
| **Total Units** | | **20** |

[1]  Meets the General Education Integrative and Applied Learning requirement.

## Entertainment Executive Concentration

| Code | Title | Units |
|---|---|---|
| CINE 280 | Writing the Short Screenplay | 3 |
| CINE 362 | Entertainment Development | 3 |
| CINE 363 | Entertainment Financing | 3 |
| CINE 364 | Entertainment Marketing | 3 |
| CINE 493 | Capstone Project in Cinematic Arts [1] | 3 |
| Select one of the following: | | 3 |
| CINE 216 | Performance and Production (Production Crew) | |
| CINE 316 | Production Development | |
| CINE 416 | Capstone Production Development | |
| **Total Units** | | **18** |

[1]  Meets the General Education Integrative and Applied Learning requirement.

## Screen Studies Concentration

| Code | Title | Units |
|---|---|---|
| CINE 341 | Media Criticism and Theory (required for concentration; cannot count for core) | 3 |
| CINE 351 | Film and Social Issues [1] | 3 |
| CINE 451 | World Cinema [1] | 3 |
| CINE 493 | Capstone Project in Cinematic Arts [2] | 3 |
| Select three of the following not selected to fulfill requirements above: | | 9 |
| CINE 360 | Studies in Popular Culture | |
| CINE 420 | Topics in Cinema and History | |
| CINE 444 | Advanced Film Theory | |
| CINE 481 | Contemporary Auteurs | |

| | | |
|---|---|---|
| CINE 483 | Genre Studies | |
| CINE 486 | Topics in Film Analysis | |
| CINE 495 | Special Topics (Film and TV Studies) | |
| CINE 496 | Ethics in Cinematic Arts | |
| **Total Units** | | **21** |

[1] Meets the General Education Intercultural Competence requirement.
[2] Meets the General Education Integrative and Applied Learning requirement.

## Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Story: Describe an understanding of the integral structures of cinematic storytelling and implement these in criticism, scripts, and productions.
2. Technical Practice: Demonstrate proficiency in the aesthetic, practical, and technical aspects of production, writing, criticism, animation, or entertainment management.
3. Knowledge/Analysis: Articulate, critique, and apply the historic, social, and theoretical contexts of the cinematic arts.
4. Professional Development: Implement the protocol, vocabulary, and work ethic necessary for professional careers.
5. Collaboration: Serve and participate as a member of a creative team in leadership and/or supporting roles to meet project goals.
6. Spiritual/Faith: Integrate an understanding of Christian faith through critical, creative, and collaborative endeavors.

# BA in Games and Interactive Media

## Make a Difference as a Video Game Designer

69 units

Bring your creative ideas to life as you prepare for an innovative career in the games and interactive media industries. This immersive degree program (https://www.apu.edu/vpa/programs/games-major/) is a confluence of story and play; we believe that truth may be found in both.

Learn to build games of all types, benefitting from a well-rounded curriculum that integrates the iterative process of storytelling, game mechanics, art, sound, and more. Study under supportive faculty-mentors who work in the industry, and alongside a collaborative community of students engaged in art and design. Capitalize on the department's connections with video game companies such as Blizzard, EA, and Square Enix, and APU's proximity to the multimedia industry hub of Los Angeles.

At APU, we are not simply game makers, we are game changers!

## Requirements

| Code | Title | Units |
|---|---|---|
| CINE 174 | Introduction to Storytelling | 3 |
| ANIM 103 | 3D Art I | 3 |
| ANIM 111 | Digital Methods | 2 |
| GAME 101 | Game Development Process | 2 |
| GAME 115 | Game Development I | 3 |
| CINE 275 | History of Television and Digital Media [1] | 3 |
| GAME 130 | Game Design and Theory | 3 |
| CINE 322 | Sound Design | 3 |
| GAME 215 | Game Level and Environmental Design | 3 |
| ANIM 205 | 3D Art II | 3 |
| GAME 221 | Game UX and UI Design | 2 |
| GAME 225 | Game Development II | 3 |
| CINE 341 | Media Criticism and Theory | 3 |
| GAME 310 | Game Prototype Studio | 3 |
| GAME 394 | Game Studio Apprenticeship | 3 |
| CINE 451 | World Cinema [2] | 3 |

| CINE 475 | Civic Engagement Through Media [3] | 3 |

| **Total Units** | | **69** |

[1]   Meets the General Education Humanities: Fine Arts requirement.
[2]   Meets the General Education Intercultural Competence requirement.
[3]   Meets the General Education Civic Knowledge and Engagement requirement.
[4]   Meets the General Education Integrative and Applied Learning requirement.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. demonstrate broad understanding of game design and development, focusing on game theory and mechanics, level and environmental design, immersion, game user experience.
2. apply critical principles and skills pertinent to games and interactive media duties in their employment and professional practice.
3. apply universally respectful and globally centric practices pertinent to games and interactive media duties in international and domestic contexts.
4. demonstrate understanding of contemporary research questions, results, and areas of application relating to the design and development of computer games.

# BA in Screenwriting

46 units

Students with a passion for storytelling embrace the screenwriting major (https://www.apu.edu/vpa/programs/screenwriting-major/), which equips them to write for mainstream Hollywood films and television series. After learning the basics of production, students dive into an intensive sequence of courses taught by produced writers, active professionals, and scholars practicing the best of historic and contemporary narrative dramatic structure. The program culminates in writing original screenplays or pilots that are often pitched to be produced as student films by APU's nationally recognized, award-winning production teams.

## Requirements

| Code | Title | Units |
|---|---|---|
| CINE 101 | Christianity and the Creative Process [1] | 3 |
| CINE 119 | Introduction to Directing | 3 |
| CINE 174 | Introduction to Storytelling | 3 |
| CINE 260 | Cinema-TV Production I | 4 |
| CINE 280 | Writing the Short Screenplay | 3 |

| Select one of the following: | | 3 |
| CINE 275 | History of Television and Digital Media [1] | |
| CINE 285 | History of Film [1] | |
| Select two of the following: | | 6 |
| CINE 388 | Sketch Comedy for the Writer/Performer | |
| CINE 487 | Television Writing: Episodic Drama | |
| CINE 488 | Television Writing: Situation Comedy | |
| Select one of the following: | | 3 |
| CINE 420 | Topics in Cinema and History | |
| CINE 481 | Contemporary Auteurs | |
| CINE 483 | Genre Studies | |
| CINE 486 | Topics in Film Analysis | |
| **Total Units** | | **46** |

[1]    Meets the General Education Humanities: Fine Arts requirement.
[2]    **Meets the General Education Writing 3 requirement.**
[3]    **Meets the General Education Integrative and Applied Learning requirement.**

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Story: Describe an understanding of the integral structures of cinematic storytelling and implement these in criticism, scripts, and productions.
2. Technical Practice: Demonstrate proficiency in the aesthetic, practical, and technical aspects of production, writing, criticism, animation, or entertainment management.
3. Knowledge/Analysis: Articulate, critique, and apply the historic, social, and theoretical contexts of the cinematic arts.
4. Professional Development: Implement the protocol, vocabulary, and work ethic necessary for professional careers.
5. Collaboration: Serve and participate as a member of a creative team in leadership and/or supporting roles to meet project goals.
6. Spiritual/Faith: Integrate an understanding of Christian faith through critical, creative, and collaborative endeavors.

# BFA in Cinematic Arts Production

73-74 units

The Bachelor of Fine Arts (BFA) in Cinematic Arts Production major (https://www.apu.edu/vpa/programs/cinematic-arts-production-major-bfa/) is a robust program covering all aspects of film production that prepares graduates for employment in a highly competitive but richly compelling industry. As freshmen, BFA students begin the process of crafting engaging and entertaining stories. In addition to the coveted directing role, students are immersed in writing, production management, cinematography, editing, and sound design, as well as designing and building sets and props. As students progress through this program, they engage in increasingly complex productions and learn to collaborate in several specialty areas. At the junior and senior levels, students assume department head roles on larger-budget films that annually screen at spring semester's end to full houses in our Hollywood Premiere Night.

## Requirements

| Code | Title | Units |

| CINE 387 | Writing 3: Nonfiction Writing for Visual Media [8] | |
| Select one of the following: | | 3 |
| CINE 360 | Studies in Popular Culture | |
| CINE 420 | Topics in Cinema and History | |
| CINE 481 | Contemporary Auteurs | |
| CINE 483 | Genre Studies | |
| CINE 486 | Topics in Film Analysis | |
| Select three of the following: | | 9 |
| CINE 316 | Production Development | |
| CINE 319 | Directing for the Camera | |
| CINE 320 | Cinematography | |
| CINE 321 | Film and Television Editing | |
| CINE 322 | Sound Design | |
| CINE 323 | Production Design | |
| CINE 338 | Documentary and Entrepreneurial Production | |
| CINE 362 | Entertainment Development | |
| CINE 363 | Entertainment Financing | |
| CINE 364 | Entertainment Marketing | |
| CINE 391 | Visual Effects and Compositing | |
| CINE 422 | Advanced Post-Production | |
| CINE 495 | Special Topics (Production) | |
| Select one of the following: | | 4-5 |
| CINE 415 | Advanced Television Production | |
| CINE 462 | Advanced Cinema Production | |
| **Total Units** | | **73-74** |

[1]   Meets the General Education Civic Knowledge and Engagement requirement.
[2]   May be repeated up to a maximum of 6 units, but only 3 units count toward the major.
[3]   Meets the General Education Integrative and Applied Learning requirement.
[4]   Meets the General Education Writing 2 requirement.
[5]   Meets the General Education Theology requirement.
[6]   Meets the General Education Humanities: Fine Arts requirement.
[7]   Meets the General Education Intercultural Competence requirement.

[8]　Meets the General Education Writing 3 requirement.

## Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Story: Describe an understanding of the integral structures of cinematic storytelling and implement these in criticism, scripts, and productions.
2. Technical Practice: Demonstrate proficiency in the aesthetic, practical, and technical aspects of production, writing, criticism, animation, or entertainment management.
3. Knowledge/Analysis: Articulate, critique, and apply the historic, social, and theoretical contexts of the cinematic arts.
4. Professional Development: Implement the protocol, vocabulary, and work ethic necessary for professional careers.
5. Collaboration: Serve and participate as a member of a creative team in leadership and/or supporting roles to meet project goals.
6. Spiritual/Faith: Integrate an understanding of Christian faith through critical, creative, and collaborative endeavors.

# Minor in Screen Studies

## Requirements

18 units

| Code | Title | Units |
|------|-------|-------|
| WRIT 220 | Writing 2: Film Analysis and Criticism [1] | 3 |
| CINE 275 | History of Television and Digital Media [2] | 3 |
| CINE 285 | History of Film [2] | 3 |
| CINE 341 | Media Criticism and Theory | 3 |
| Select two of the following: | | 6 |
| CINE 351 | Film and Social Issues [3] | |
| CINE 360 | Studies in Popular Culture | |
| CINE 420 | Topics in Cinema and History | |
| CINE 444 | Advanced Film Theory | |
| CINE 481 | Contemporary Auteurs | |
| CINE 483 | Genre Studies | |
| CINE 486 | Topics in Film Analysis | |
| **Total Units** | | **18** |

[1]　Meets the General Education Writing 2 requirement.
[2]　Meets the General Education Humanities: Fine Arts requirement.
[3]　Meets the General Education Intercultural Competence requirement.

## Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Students will be able to explain the significance of film and television history to contemporary screen culture.
2. Students will be able to write analyses of films concentrating on style, structure, and narrative.

# Minor in Screenwriting

18 units

## Requirements

| Code | Title | Units |
| --- | --- | --- |
| CINE 174 | Introduction to Storytelling | 3 |
| CINE 280 | Writing the Short Screenplay | 3 |

| CINE 388 | Sketch Comedy for the Writer/Performer | |
| CINE 487 | Television Writing: Episodic Drama | |
| CINE 488 | Television Writing: Situation Comedy | |
| **Total Units** | | **18** |

[1] Meets the General Education Writing 3 requirement.
[2] Meets the General Education Humanities: Fine Arts requirement.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Story: Describe an understanding of the integral structures of cinematic storytelling and implement these in criticism, scripts, and productions.
2. Technical Practice: Demonstrate proficiency in the aesthetic, practical, and technical aspects of production, writing, criticism, animation, or entertainment management.
3. Knowledge/Analysis: Articulate, critique, and apply the historic, social, and theoretical contexts of the cinematic arts.
4. Professional Development: Implement the protocol, vocabulary, and work ethic necessary for professional careers.
5. Collaboration: Serve and participate as a member of a creative team in leadership and/or supporting roles to meet project goals.
6. Spiritual/Faith: Integrate an understanding of Christian faith through critical, creative, and collaborative endeavors.

# Department of Design

## Explore the Horizons of Your Creativity with APU's Design Studies Major or the MA in User Experience Design

The Department of Design offers degree programs featuring top-level instruction that infuses faith, imagination, and design praxis, preparing new generations of designers to make a difference in the design industry.

The design studies major prepares students for the creative professions of the present and future. The process of design incorporates skills required for the 21st century. Design is everywhere—from the Nike logo and stop signs to the menu you read at In-N-Out Burger. The influence of design includes how you decide what to wear in the morning and when you choose to use a particular toothpaste. Design is about making connections where others do not see them; it involves asking "What if?" questions that motivate creativity and encompasses the resources to solve everyday problems. If you enjoy the challenge of learning, thinking strategically, and expanding ideas using visual communication, APU's Bachelor of Arts in Design Studies could be for you.

The core values of beauty, story, and meaningfulness, guided by an inclusive pedagogy, help students identify the complexity of contemporary visual communication problems and apply interdisciplinary collaboration as part of human-centered design solutions. This focus emphasizes critical thinking skills, the importance of design research, the application of technology, and fine-tuning the design message through iterative feedback. Students at APU identify their social and ethical responsibilities as designers, from the Christian-based focus of a *God First* education. Coursework emphasizes learning design foundations that integrate artistry with technology; identifying and exercising the creative voice; and building collaborative relationships with practicing designers and alumni.

All design studies majors and minors are required to have a laptop computer with access to the Adobe Creative Cloud.

At the graduate level, the department offers a Master of Arts in User Experience Design, which prepares current and aspiring UI/UX professionals to tailor and shape human-centered interactive tools to be intuitive, useful, and pleasing. The program approaches human-centered design from an

artistic perspective in which students learn to manage and lead creative and collaborative projects that communicate effectively through design across a range of art, technology, commercial, and cultural domains.

## Programs

### Major

Design Studies (BA) (p. 225)

### Minor

Design Studies (p. 229)

### Master's

Master of Arts in User Experience Design (p. 228)

## Courses

### DSGN 115, Using Digital Media in a Visual World, 3 Units

This course introduces students to common software/media used to create digital, visual communications. Emphasis includes the application of software to improve communications in a culture that is increasingly visual. The course is for design studies majors and minors as well as for students who are not but nonetheless desire to learn to use digital media more effectively. Students are required to have access to professional-level software. *Meets the General Education Requirement: Humanities: Fine Arts.*

### DSGN 120, Introduction to Computer Graphics, 3 Units

This course introduces the computer as a medium used for graphic design and art. Design principles are explored in creating and organizing visual communication and other media. Students are introduced to software programs that are included in the Adobe Creative Suite. Meets six hours weekly. Special Fee Applies

### DSGN 121, Design Fundamentals I, 4 Units

Students in this course learn the principles and elements of design (line, shape, color, composition, typography) as they learn about and begin using vector-drawing tools. Students also learn drawing for ideation (quick sketching techniques using various media) and craftsmanship skills used by designers. Special Fee Applies
**Prerequisite:** DSGN 115 or instructor permission

### DSGN 122, Design Fundamentals II, 4 Units

Students in this course learn page-layout and typography skills, with an emphasis on understanding the fundamental aspects of the use of type in design work. Students also learn drawing for ideation (quick sketching techniques using various media) and craftsmanship skills used by designers. Special Fee Applies
**Prerequisite:** DSGN 115 or instructor permission

### DSGN 123, Design Fundamentals III, 4 Units

This course introduces aspects of pixel-based, bitmapped, or digital image-making and design. Students apply principles of design using Photoshop, Lightroom, or other relevant software. Original digital photography is applied to design projects. Ideation skills are enhanced, appropriate craftsmanship skills are developed, and time-based media is introduced. This course is necessary for completing the Design Portfolio Review requirement.
**Prerequisite:** DSGN 115 or instructor permission

### DSGN 222, Introduction to Digital Interface, 2 Units

This course introduces the fundamentals of working with digital interfaces using current software. This course is necessary for completing the Design Portfolio Review requirement.
**Prerequisite:** DSGN 115

### DSGN 258, History of Graphic Design and Illustration, 3 Units

Students in this course study the evolution of printed words and symbols across time and through various cultures. From the printing press to the computer, art and design reflect and influence society. This lecture course examines chronologically the development of visual communication.

### DSGN 281, Elements and Principles of Typography, 3 Units

This studio course focuses on the appropriate use of type, image, and layout, building upon the fundamentals of designing with type. Course material emphasizes the development of skills needed for integrating type and image, and students work on becoming visual storytellers and applying metaphor.
**Prerequisite:** DSGN 115 or DSGN 120

## DSGN 282, Digital Design I, 3 Units

This course introduces students to current web and mobile design concepts and technologies, with a focus on responsive layout techniques. Students plan and design web and/or mobile applications using an online platform that adjusts itself for a wide range of devices, while intentionally considering the communication objective.
**Prerequisite:** DSGN 115 or DSGN 222 or instructor consent.

## DSGN 380, Writing 3: Visual Storytelling and Design Identity, 3 Units

Good design, like good storytelling, brings ideas to life. In this course, students apply the idea of "design as storytelling" and write about their identity, first as imago Dei ("image of God") created individuals, and second as designers who contribute to the cultural world of visual communication. Course material covers ideas that speak to aspects of identity within the profession of design that also parallel principles from Christian faith. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*
**Prerequisite:** Writing 2 course

## DSGN 383, Illustrating with Type, 3 Units

Students in this intermediate-level studio course explore and develop concepts used in solving graphic design and visual communication problems. Projects provide opportunities for creatively integrating traditional media and contemporary design processes and techniques. Emphasis is on design research and applying it to current software resources and design issues.
**Prerequisite:** DSGN 281 or instructor permission

## DSGN 384, Digital Design II, 3 Units

This intermediate-level studio course equips students with a broad set of skills needed for user interface (UI) and user experience design (UXD). Students develop skills in ideation, needs assessment, rapid prototyping, and evaluation of interfaces. Course material includes research approaches, wire-framing, data-driven design, emotional design, analytics, and basic coding.
**Prerequisite:** DSGN 282 or instructor permission.

## DSGN 430, Applied Design, 3 Units

This upper-division elective course requires that students apply "design thinking:" research, ideation, visual story-telling, and creative production to design products to raise awareness of local or national social, political, and/or civic concerns. Under supervision from the professor, students identify an issue of personal interest that will activate their curiosity, cultivate creativity, and design products that visually communicate an awareness of social and civic issues. *Meets the General Education Requirement: Civic Knowledge and Engagement.*
**Prerequisite:** DSGN 115 or instructor consent.

## DSGN 446, Graphic Design Processes, 1-3 Units

This course for the advanced graphic design major tailors experiences to meet the individual student's goal as a graphic designer, and may be repeated for 6 units total.
Special Fee Applies

## DSGN 450, Design Portfolio, 3 Units

This course provides opportunities for design studies students to prepare a professional portfolio and develop skills and resources that will be beneficial to pursuing a creative profession. Instruction includes portfolio, website and resume design, interview preparation, writing designer goals, client relations, graduate school options, business networking, and the role of the Christian designer in today's culture. *Meets the General Education Requirement: Integrative and Applied Learning.*

## DSGN 475, Design Internship, 1-4 Units

In keeping with the belief that learn-by-doing experiences afford the greatest opportunities for growth and development, the design studies program recommends internship experiences in a variety of possibilities: experiential and interactive design, branding and identity design, entertainment design, time-based media, and concept development. Internships are individually tailored to meet the needs of the student.
**Prerequisite:** Design studies major or minor

## DSGN 481, Design Branding, 3 Units

This capstone design studies studio course engages students beyond the classroom by providing networking, mentorship, resources, and professional experience working to rebrand visual identity systems. Students work in teams to develop solutions for systems-level design problems as a way to build their portfolio and gain practical insight working in partnership alongside actual clients.
**Prerequisite:** DSGN 383 or instructor permission

## DSGN 495, Special Topics in Design, 3 Units

This advanced level studio/research or lecture course allows for occasional offerings of diverse topics in art not covered by regular department courses. Special interests of faculty and students may be targeted under this category. Selection varies depending on student interest and faculty availability. May be repeated for credit as topic varies.

## DSGN 503, Research and Design Process Methods, 3 Units

This is a foundation course in user experience design (UXD), covering the fundamental theories, techniques, practices, workflows, and tools associated with the practice. Students learn how to apply these concepts through a semester-long project. Key concepts include user research, contextual design, design thinking, ideation, iterative design, prototyping, and design documentation.

## DSGN 504, Digital Experience Design, 3 Units
This seminar course examines how different UX designers function and thrive in various fields and organizations, especially within our increasingly digital society. Topics include UX in social media and marketing, product and service development, entertainment media, and digital innovation.

## DSGN 506, Web Design Principles [Proposed], 3 Units
Equipped with a historical understanding of the Web's evolution and key industry-standard design guidelines to ensure strong online presentation, students will have a foundational knowledge of website creation, and will apply it to the planning, design and development of your own Web page over the course of the semester. Students will create, code and post basic HTML and CSS files to the Internet. Critical thinking will be encouraged through class interactions, projects, and online postings.

## DSGN 507, Digital Imagery in Web Design [Proposed], 3 Units
This course familiarizes students with the development and impact of imagery in interactive media. Students will learn how visual 'language' is the basis for developing contextual symbolic meanings that are shared throughout a culture. Semiotics, information design and persuasive communication will be explored in this course. Students will develop communicative images using their knowledge gained through lectures, discussion, projects, collaboration and Adobe Photoshop training.

## DSGN 514, UX Research A/B Testing, 3 Units
This course focuses on research methods, data analysis, and synthesis in A/B testing for user experience research and design. Students explore a strategic process of how to create their own tests and platforms for gathering information and data on users with digital and accessible tools. By the end of the course, students understand how to plan, create, and launch online research.

## DSGN 515, Innovation Design, 3 Units
Students learn a unique process of design through idea conception, experimentation, and prototyping in order to experience the process of innovation. Students also learn how to translate experiential learning into something that can be performed in the digital world, and are encouraged to seek multi-disciplinary methods and inspirations when innovating new digital products and experiences.

## DSGN 516, Interactive Narrative/Story, 3 Units
Students in this course examine the application of storytelling within the context of user experience design (UXD). Students investigate the creation and analysis of narratives to provide clarity and distinctiveness, capture attention, inspire to action, create a meaningful journey, and forge a lasting, emotional impact with end users.

## DSGN 517, Digital Media Layout and Design [Proposed], 3 Units
This course introduces students to the skills and concepts that will help create documents for both print and interactivity. Using Adobe InDesign, students will apply their understanding of color, type, layout, and design to create a portfolio project. While InDesign permits several possible workflows, this course will focus on those that most readily translate into digital design.

## DSGN 518, Web Interactivity and Engagement [Proposed], 3 Units
The purpose of this course is to provide students with an understanding of the most practical tool of a web manager, the content management system (CMS). Using WordPress, students will gain an understanding of CMSs and how they are valuable tools for saving time and handling large amounts of data. Students will also learn more about server scripting using PHP and database integration with MySQL.

## DSGN 521, Research Methods and Collaboration in Digital Communications [Proposed], 3 Units
This course is designed to make students think strategically about how, why and with whom they interact via digital media. By the end of the course, students should have fundamental understanding of research tools that will help them plan for and evaluate the effectiveness of online communication methods, including a multitude of social media and web tools. Students will understand search engine optimization (SEO) and the consequences - costs and benefits - of local and global messaging and interactivity.

## DSGN 599, Independent Study, 1-3 Units
This course is an opportunity for graduate students to explore an idea, contribute to research, examine industry trends/methods, or develop a project under the guidance of a faculty member in the graduate design area.

## DSGN 606, Database Management and Scripting, 3 Units
This is an introductory course on the concepts of computer programming using Python programming language. Students learn to theorize the steps required to perform a task and create loops and functions. By the end of the course, students have a basic understanding of computer programming, basic knowledge of Python programming language, and the ability to share their scripts and collaborate with others.

## DSGN 607, Design Business and Entrepreneurship, 3 Units
Students in this course examine the fields of study related to the design business and explore the basic tenets of entrepreneurship as related to creating and running a design business.

### DSGN 608, Mobile Web Technology [Proposed], 3 Units

Mobile Web Technology concentrates on the importance of responsive design and how it has changed the way websites are designed to adapt to mobile devices. The class will include the use of JavaScript and jQuery as well as designing with advanced CSS and HTML5. The course will also include the creation of a mobile app.

### DSGN 609, Advanced Web Design: Corporate and Brand Identity on the Web [Proposed], 3 Units

This course synthesizes two different but complementary tools of communication: graphic design and assembly. Students will learn the fundamental design principles and techniques for effective visual communication. These principles and techniques are applied, through projects, to achieve a communication objective across different platforms. Students can expect a practical, hands-on experience. A key tool for creating your digital work in this course is Adobe Illustrator. Illustrator is an effective tool for creating original artwork, and for designing logos, banners, icons and navigational elements for online and print. The artwork can then easily be exported to the Web or imported into other programs.

### DSGN 612, Strategic Communication: Ethical Issues and Web Design [Proposed], 3 Units

This course introduces students to the discipline of strategic communications and the ethical and social issues that can arise from its practice. Students are given a background in important concepts in strategic communication, including branding, target audiences, technologies of strategic communication, the history and evolution of strategic communication, and other topics. With this knowledge, students utilize ethical thought and Christian principles to apply these to real-world strategic communications contexts.

### DSGN 613, Web Design Internship [Proposed], 3 Units

This course will provide students with the opportunity to complete projects related to the students' career goals under the supervision of an experienced practitioner in the field. By the end of the internship, students will have first-hand knowledge of trends in the field, the skills necessary to be employable after graduation, and the importance of networking. Each student will set goals from the beginning of the course with a supervising professor about what the student needs to accomplish during the internship, and the student will self-reflect about the progress made at the end of the term. The internship must be approved by the program director.

### DSGN 614, Web Design Independent Study [Proposed], 3 Units

This course is an option for students already employed in the web design field or in an area of the country where an internship is not available. Students will meet with the program director to outline goals, projects, and outcomes for the independent study. The goals is for the students to gain knowledge of trends in the field, skills necessary for employment, and the importance of networking. Course enrollment must be approved by the program director.

### DSGN 616, UXD Internship, 1-3 Units

This course provides an opportunity for direct experiences in applying the principles and skills of user experience design while performing specific tasks in the professional setting through an internship. Under faculty supervision, students individually arrange their work in positions related to user experience design. Students may also work with a faculty supervisor to develop learning objectives and complete reflective assignments that complement their experiences in the work environment. Other exercises and training may include career and group leadership meetings.
**Prerequisite:** Department approval

### DSGN 618, Master's Capstone I, 3 Units

Students in this course research and write a capstone proposal and case study review related to the field of user experience design.
**Prerequisite:** Successful completion of the required courses in the user experience design (UXD) program.

### DSGN 619, Web Design Project and Portfolio [Proposed], 3 Units

The course is designed to incorporate acquired design and communication skills into a real-world website, a communications pitch to a client, and a portfolio the student can use to find employment. The capstone project will incorporate skills such as branding, layouts, strategic communication, research methods, coding and web design. Students will develop a comprehensive communication campaign based on research and client needs. The completed campaign will be presented at the end of the course, and a professional portfolio of the students work will be critiqued and assembled for use. Students must have completed 24 units of DSGN graduate web design courses prior to enrolling in this course.

### DSGN 625, Master's Capstone II, 3 Units

Students in this course apply previous research in user experience design to the creation and pitching of a product prototype.
**Prerequisite:** DSGN 618

# BA in Design Studies

50 units

## Requirements

- Students must successfully complete the Design Portfolio Review (DPR) before progressing to the DSGN 450 Portfolio course. The review dates are announced every term and are available in the Department of Design.

- Students are advised to complete DSGN 121, DSGN 122, DSGN 123, and DSGN 222 before completing the DPR requirement.
- All students must maintain at least a 2.0 grade-point average in major courses to graduate.
- All majors and minors in the Department of Design are required to have a laptop computer with access to the Adobe Creative Cloud.

Learn more about the design studies major. (https://www.apu.edu/vpa/programs/design-studies-major/)

| Code | Title | Units |
|---|---|---|
| **Design Foundations** | | |
| DSGN 121 | Design Fundamentals I | 4 |
| DSGN 122 | Design Fundamentals II | 4 |
| DSGN 123 | Design Fundamentals III | 4 |
| DSGN 222 | Introduction to Digital Interface | 2 |
| DSGN 281 | Elements and Principles of Typography | 3 |
| DSGN 282 | Digital Design I | 3 |
| DSGN 380 | Writing 3: Visual Storytelling and Design Identity [1] | 3 |
| DSGN 383 | Illustrating with Type | 3 |
| DSGN 384 | Digital Design II | 3 |
| DSGN 450 | Design Portfolio [2] | 3 |
| DSGN 481 | Design Branding | 3 |
| **Art/Design History** | | |
| DSGN 258 | History of Graphic Design and Illustration | 3 |
| Choose one of the following (any of the courses not chosen for this requirement may be taken and counted toward the elective requirement): | | 3 |
| ART 354 | History of Ancient Art and Architecture [3] | |
| ART 361 | History of Early Christian and Medieval Art and Architecture [3] | |
| ART 362 | History of Renaissance to Rococo Art and Architecture [3] | |
| ART 357 | History of Contemporary Art and Architecture [3] | |
| **Electives (see table below)** | | **9** |
| **Total Units** | | **50** |

[1]    Meets the General Education Writing 3 requirement.
[2]    Meets the General Education Integrative and Applied Learning requirement.
[3]    Meets the General Education Humanities: Fine Arts requirement.

# Electives

Choose 9 units from the following:

| Code | Title | Units |
|---|---|---|
| **Design Courses** | | |
| DSGN 430 | Applied Design [1] | |
| DSGN 446 | Graphic Design Processes | |
| DSGN 475 | Design Internship | |
| DSGN 495 | Special Topics in Design | |
| **Art Courses** | | |
| ART 111 | Printmaking: Serigraph | |
| ART 130 | Two-Dimensional Design | |
| ART 135 | Three-Dimensional Design | |
| ART 145 | Drawing I [2] | |
| ART 146 | Painting I | |
| ART 160 | Photography I [2] | |
| ART 210 | Printmaking: Relief | |
| ART 230 | Figurative Lab | |
| ART 240 | Drawing and Painting II | |
| ART 260 | Photography II | |
| ART 350 | Illustration | |

| | | |
|---|---|---|
| ART 354 | History of Ancient Art and Architecture [2] | |
| ART 356 | Writing 3: History of Modern Art and Architecture [3] | |
| ART 357 | History of Contemporary Art and Architecture [2] | |
| ART 359 | Women In Art | |
| ART 360 | Photography III | |
| ART 361 | History of Early Christian and Medieval Art and Architecture [2] | |
| ART 362 | History of Renaissance to Rococo Art and Architecture [2] | |
| ART 460 | Photography IV | |
| ART 465 | Advanced Photography Studio | |
| or ART 466 | Commercial Photography | |

[1]  Meets the General Education Civic Knowledge and Engagement requirement.
[2]  Meets the General Education Humanities: Fine Arts requirement.
[3]  Meets the General Education Writing 3 requirement.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. General Knowledge and Essential Skills: Design work that demonstrates fluency with visual vocabulary, principles, composition, and excellence in craft and technical skills, developed with familiarity with professional standards, contemporary issues, and technological developments in design.

2. Inquiry, Research, and Critical Thinking: Construct innovative design solutions that result in measurable outcomes, through research, conceptualization, and synthesis of information, and using narrative devices and visual metaphor.

3. Visual and Written Articulation: Communicate effectively through written and oral presentations that demonstrate proficiency in the aesthetic, practical, and technical aspects of ideation, production, and criticism of design solutions.

4. Cultural Literacy and Sensitivity: Articulate, critique, and apply the historic, social, and theoretical contexts of visual communication by demonstrating knowledge and sensitivity towards diverse audiences and points of view.

5. Faith Integration: Demonstrate a sense of responsibility and ethical awareness as they evaluate design and developments in the field of design in light of a Christian worldview.

# MA in User Experience Design

Learn more about the Master of Arts in User Experience Design program. (https://www.apu.edu/vpa/programs/ux-design-degree/)

## Requirements

| Code | Title | Units |
|---|---|---|
| **User Experience Design Courses** | | **24** |
| DSGN 503 | Research and Design Process Methods | 3 |
| DSGN 504 | Digital Experience Design | 3 |
| DSGN 514 | UX Research A/B Testing | 3 |
| DSGN 515 | Innovation Design | 3 |
| DSGN 516 | Interactive Narrative/Story | 3 |
| DSGN 616 | UXD Internship [1] | 3 |
| DSGN 618 | Master's Capstone I | 3 |
| DSGN 625 | Master's Capstone II | 3 |
| **Other Art and Design Courses** | | **6** |
| DSGN 606 | Database Management and Scripting | 3 |
| DSGN 607 | Design Business and Entrepreneurship | 3 |
| **Total Units** | | **30** |

[1] Students who do not need an internship may choose to not take DSGN 616 and instead take an approved DSGN 599 Independent Study course, by instructor consent.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Develop reflective practices that are consistent with key principles of design process methods and theoretical frameworks of User Experience Design.
2. Apply design principles and guidelines over mobile and digital platforms of user interaction.
3. Demonstrate adaptive communication skills with project management stakeholders.
4. Practice individual and collaborative skills in design problem-solving.
5. Describe key business and management principles related to UXD practice.
6. Articulate design thinking ideas, design practice constructs, and design studies research in written form.

# Minor in Design Studies

# Department of Music

## Mission and Overview

The Department of Music (https://www.apu.edu/music/) uses God's gift of music to develop musicians of character and competence in an environment of excellence, balance, and integrity. Merging classical and contemporary musical training within a Christian academic setting, APU's music programs prepare individuals for advanced studies and for success in their chosen careers.

To uphold the excellence of APU's academic offerings, programs undergo periodic review. Information listed is subject to change.

## Program Learning Outcomes

Students who complete a Department of Music program are able to do the following:

PLO 1: Command of Skills: Demonstrate a command of skills required for comprehensive musicianship, including sight singing/ear training, functional keyboard, music technology, and analysis.

PLO 2: Contextual Understanding: Demonstrate an understanding of music in historical, cultural, and stylistic contexts.

PLO 3: Creative or Interpretive Utilization: Demonstrate creative or interpretive utilization of skills and contextual understanding.

PLO 4: Career-Oriented Application: Demonstrate career-oriented application of skills.

PLO 5: Music and Faith: Demonstrate appropriate understanding of the intersection of music and faith.

### Majors

### Minors

### Certificate

# Courses

## MUS 1B1, Applied Brass, 1-4 Units

This course offers applied instruction in brass instruments; open to music majors and nonmusic majors.
Special Fee Applies

## MUS 1B2, Applied Brass, 1-4 Units

This course offers applied instruction in brass instruments; open to music majors and nonmusic majors.
Special Fee Applies

## MUS 1C1, Applied Composition Class, 1-4 Units

This course offers beginning experiences in composition, basic elements of texture, analytical listening, writing melody, simple harmony, and notational conventions.
Special Fee Applies
**Prerequisite:** MUS 121 and MUS 296 (may be taken concurrently)

## MUS 1D1, Applied Percussion, 1-4 Units

This course offers applied instruction in percussion instruments; open to music majors and nonmusic majors.
Special Fee Applies

## MUS 1D2, Applied Percussion, 1-4 Units

This course offers applied instruction in percussion instruments; open to music majors and nonmusic majors.
Special Fee Applies

## MUS 1S1, Applied Strings, 1-4 Units

This course offers applied instruction in string instruments; open to music majors and nonmusic majors.
Special Fee Applies

## MUS 1S2, Applied Strings, 1-4 Units

This course offers applied instruction in string instruments; open to music majors and nonmusic majors.
Special Fee Applies

## MUS 1W1, Applied Woodwinds, 1-4 Units

This course offers applied instruction in woodwind instruments; open to music majors and nonmusic majors.
Special Fee Applies

## MUS 1W2, Applied Woodwinds, 1-4 Units

This course offers applied instruction in woodwind instruments; open to music majors and nonmusic majors.
Special Fee Applies

## MUS 2B1, Applied Brass, 1-4 Units

This course is a continuation of MUS 1B1. Applied instruction in brass instruments; open to music majors and nonmusic majors.
Special Fee Applies

## MUS 2B2, Applied Brass, 1-4 Units

This course is a continuation of MUS 1B2. Applied instruction in brass instruments; open to music majors and nonmusic majors.
Special Fee Applies

## MUS 2D1, Applied Percussion, 1-4 Units

This course is a continuation of MUS 1D1. Applied instruction in percussion instruments; open to music majors and nonmusic majors.
Special Fee Applies

## MUS 2D2, Applied Percussion, 1-4 Units

This course is a continuation of MUS 1D2. Applied instruction in percussion instruments; open to music majors and nonmusic majors.
Special Fee Applies

## MUS 2S1, Applied Strings, 1-4 Units

This course is a continuation of MUS 1S1. Applied instruction in string instruments; open to music majors and nonmusic majors.
Special Fee Applies

## MUS 2S2, Applied Strings, 1-4 Units

This course is a continuation of MUS 1S2. Applied instruction in string instruments; open to music majors and nonmusic majors.
Special Fee Applies

## MUS 2W1, Applied Woodwinds, 1-4 Units

This course is a continuation of MUS 1W1. Applied instruction in woodwind instruments; open to music majors and nonmusic majors.
Special Fee Applies

## MUS 2W2, Applied Woodwinds, 1-4 Units

This course is a continuation of MUS 1W2. Applied instruction in woodwind instruments; open to music majors and nonmusic majors.
Special Fee Applies

## MUS 3B1, Applied Brass, 1-4 Units

This course is a continuation of MUS 2B1. Applied instruction in brass instruments; open to music majors and nonmusic majors.
Special Fee Applies

## MUS 3B2, Applied Brass, 1-4 Units

This course is a continuation of MUS 2B2. Applied instruction in brass instruments; open to music majors and nonmusic majors.
Special Fee Applies

## MUS 3D1, Applied Percussion, 1-4 Units

This course is a continuation of MUS 2D1. Applied instruction in percussion instruments; open to music majors and nonmusic majors.
Special Fee Applies

## MUS 3D2, Applied Percussion, 1-4 Units

This course is a continuation of MUS 2D2. Applied instruction in percussion instruments; open to music majors and nonmusic majors.
Special Fee Applies

## MUS 3S1, Applied Strings, 1-4 Units

This course is a continuation of MUS 2S1. Applied instruction in string instruments; open to music majors and nonmusic majors.
Special Fee Applies

## MUS 3S2, Applied Strings, 1-4 Units

This course is a continuation of MUS 2S2. Applied instruction in string instruments; open to music majors and nonmusic majors.
Special Fee Applies

## MUS 3W1, Applied Woodwinds, 1-4 Units

This course is a continuation of MUS 2W1. Applied instruction in woodwind instruments; open to music majors and nonmusic majors.
Special Fee Applies

## MUS 3W2, Applied Woodwinds, 1-4 Units

This course is a continuation of MUS 2W2. Applied instruction in woodwind instruments; open to music majors and nonmusic majors.
Special Fee Applies

## MUS 4B1, Applied Brass, 1-4 Units

This course is a continuation of MUS 3B1. Applied instruction in brass instruments; open to music majors and nonmusic majors.
Special Fee Applies

## MUS 4B2, Applied Brass, 1-4 Units

This course is a continuation of MUS 3B2. Applied instruction in brass instruments; open to music majors and nonmusic majors.
Special Fee Applies

## MUS 4D1, Applied Percussion, 1-4 Units

This course is a continuation of MUS 3D1. Applied instruction in percussion instruments; open to music majors and nonmusic majors.
Special Fee Applies

## MUS 4D2, Applied Percussion, 1-4 Units

This course is a continuation of MUS 3D2. Applied instruction in percussion instruments; open to music majors and nonmusic majors.
Special Fee Applies

## MUS 4S1, Applied Strings, 1-4 Units

This course is a continuation of MUS 3S1. Applied instruction in string instruments; open to music majors and nonmusic majors.
Special Fee Applies

## MUS 4S2, Applied Strings, 1-4 Units

This course is a continuation of MUS 3S2. Applied instruction in string instruments; open to music majors and nonmusic majors.
Special Fee Applies

## MUS 4W1, Applied Woodwinds, 1-4 Units

This course is a continuation of MUS 3W1. Applied instruction in woodwind instruments; open to music majors and nonmusic majors.
Special Fee Applies

## MUS 4W2, Applied Woodwinds, 1-4 Units

This course is a continuation of MUS 3W2. Applied instruction in woodwind instruments; open to music majors and nonmusic majors.
Special Fee Applies

## MUS 99, Beginning Musicianship, 1 Unit

This course offers beginning experiences in music reading and dictation, stressing pitch centering-matching, pitch memory, and recognition with an introduction to simple solfege. This course does not count toward total units needed for graduation.

## MUS 100, Preparatory Organ, 1-3 Units

This course is for the student who requires additional study to reach the college level of performance. This course does not meet the curriculum requirements for the music major or minor.

## MUS 101, Beginning Voice Class, 1 Unit

Students learn the basic principles of effective singing and performing in a group setting. By actively participating in warm-up exercises, carefully observing other performers, and taking advantage of solo opportunities, students learn how to sing with greater freedom, power, and resonance. A study of vocal literature is also included.

## MUS 102, Intermediate Voice Class, 1 Unit

This is a continuation of MUS 101. This course may be repeated for credit.
**Prerequisite:** MUS 101

## MUS 103, Beginning Piano Class, 1 Unit

This course offers an introductory study of the piano keyboard, including keyboard harmony, piano technique, transposition, sight-reading, improvisation, and ensemble playing.

## MUS 104, Elementary Piano Class, 1 Unit

This course continues the study of the piano keyboard, including keyboard harmony, piano technique, transposition, sight-reading, improvisation, and ensemble playing.
**Prerequisite:** MUS 103 or by audition

## MUS 105, Intermediate Piano Class, 1 Unit

Students receive a functional study of the piano keyboard, including keyboard harmony, piano technique, transposition, sight-reading, improvisation, and ensemble playing.
**Prerequisite:** MUS 104 or by audition

## MUS 106, Advanced - Intermediate Piano Class, 1 Unit

This is a continued study of the piano keyboard, including keyboard harmony, piano technique, transposition, sight-reading, improvisation, and ensemble playing.
**Prerequisite:** MUS 105 or by audition

## MUS 107, Advanced - Intermediate Piano Class, 1 Unit

This is a continued study of the piano keyboard, including keyboard harmony, piano technique, transposition, sight-reading, improvisation, and ensemble playing.
**Prerequisite:** MUS 106 or by audition

## MUS 108, Advanced Piano Class, 1 Unit

This is a continued study of the piano keyboard, including keyboard harmony, piano technique, transposition, sight-reading, improvisation, and ensemble playing.
**Prerequisite:** MUS 107 or by audition

## MUS 110, Elementary Guitar Methods, 1 Unit

This course is designed to teach the fundamentals of guitar in order to equip students to use the guitar in a classroom situation to teach music. Students must supply their own instruments.

## MUS 111, Applied Voice, 1-4 Units

This course provides study in correct posture, breathing, and vocal technique.
Special Fee Applies

## MUS 112, Applied Voice, 1-4 Units

This is a continuation of MUS 111.
Special Fee Applies
**Prerequisite:** MUS 111

## MUS 113, Applied Piano, 1-4 Units

Major and minor scales and corresponding arpeggios in four octaves at moderate tempo are studied. Exercises such as Hanon's, Bach Inventions, earlier sonatas by Viennese classicists, Chopin Preludes, and comparable works from Romantic and 20th century composers are included. Entrance is gained by audition only.
Special Fee Applies

## MUS 114, Applied Piano, 1-4 Units

This is a continuation of MUS 113. In addition to weekly private lessons, students attend a group master class each week.
Special Fee Applies
**Prerequisite:** MUS 113

## MUS 115, Applied Organ, 1-4 Units

This course provides technical studies of Gleason; simple compositions of the Renaissance and Baroque periods; Bach, easier preludes and fugues; and chorales from the Orgelbuchlein.
Special Fee Applies
**Prerequisite:** Instructor Consent

## MUS 116, Applied Organ, 1-4 Units

This is a continuation of MUS 115.
Special Fee Applies
**Prerequisite:** MUS 115

## MUS 118, Semi-Private Voice, 1 Unit

This course provides vocal instruction in a small-group setting (maximum of four students per class). Emphasis is on basic vocal technique, vocal exercises, vocal health, and song literature of various styles (classical, Christian contemporary, Broadway, popular, etc.). Literature studies is chosen at the instructor's discretion, but with the students' specific needs in mind. Solo performance is required within the class setting. This class is designed primarily for the non-music major, particularly APU choral singers, but may be used by nonvocal emphasis music majors to fulfill core requirement in voice class or applied voice.
Special Fee Applies

## MUS 119, Semi-Private Voice, 1 Unit

This is a continuation of MUS 118.
Special Fee Applies

## MUS 120, Music Fundamentals, 3 Units

This is an introductory course in the materials of basic music theory, involving music reading, writing, and relating notation to the musical keyboard. Topics include the musical staff, bass and treble clefs, time signatures, key signatures, intervals, scales, rhythm, chords, and musical listening. This course prepares students for MUS 121. *Meets the General Education Requirement: Humanities: Fine Arts.*

## MUS 121, Music Theory I, 3 Units

Students in this course study scales, modes, melody, phrase, cadence, intervals, simple two-part counterpoint, primary and secondary chords, and inversions. The course also covers ear training, simple keyboard harmony, and four-part writing. Concurrent enrollment in MUS 133 Practical Musicianship I or higher is expected, and concurrent enrollment in MUS 296 Introduction to Music Technology is highly recommended. *Meets the General Education Requirement: Humanities: Fine Arts.*
**Prerequisite:** MUS 120 with a grade of C or better, or a score of at least 80% on the music theory placement pretest.

## MUS 122, Music Theory II, 3 Units

This course is a continuation of MUS 121. Concurrent enrollment in MUS 134 Practical Musicianship II is recommended.
**Prerequisite:** Grade of C or better in MUS 121 (C- does not qualify) or instructor consent.

## MUS 130, Jubilant Song Ladies' Choir, 1 Unit

Entrance is gained by audition only. Students perform sacred classics, hymn arrangements, spirituals, and contemporary Christian music. A minimum GPA of 2.0 is required.

## MUS 131, Jubilant Song Ladies' Choir, 1 Unit

This is a continuation of MUS 130.

## MUS 133, Practical Musicianship I, 1 Unit

This course focuses on sight singing and dictation of primarily diatonic music using a variety of instructional techniques, including solfege, the Kodaly method, computer-based approaches, and self-dictation.
**Prerequisite:** MUS 121, 122, 221, or 222 (any of which may be taken concurrently).

## MUS 134, Practical Musicianship II, 1 Unit

This course is a continuation of MUS 133, covering fully diatonic materials.
**Prerequisite:** Grade of C or better in MUS 133 (C- does not qualify) or instructor consent.

## MUS 140, University Choir, 1 Unit

Students perform sacred classics, hymn arrangements, spirituals, and contemporary Christian music. A minimum GPA of 2.0 is required. Entrance is gained by audition only.
Special Fee Applies

## MUS 141, University Choir, 1 Unit

This is a continuation of MUS 140.
Special Fee Applies

## MUS 142, Symphonic Band, 0-1 Units

As part of APU's Symphonic Band, students gain instrumental experience through rehearsal and public performance. The ensemble is open to qualified students by audition. A minimum GPA of 2.0 is required.

## MUS 143, Symphonic Band, 0-1 Units

This is a continuation of MUS 142.

## MUS 144, Bel Canto Women's Choir, 0-1 Units

Students in this course minister to the local church and broader community, performing sacred classics, hymn arrangements, spirituals, and contemporary Christian music. Students in the course develop choral musicianship and a deepening aesthetic enjoyment through diverse choral expressions of the Christian faith. A minimum GPA of 2.0 is required. Entrance gained by audition only.
Special Fee Applies

## MUS 145, Bel Canto Women's Choir, 0-1 Units

Students in this course minister to the local church and broader community, performing sacred classics, hymn arrangements, spirituals, and contemporary Christian music. Students in the course develop choral musicianship and a deepening aesthetic enjoyment through diverse choral expressions of the Christian faith. A minimum GPA of 2.0 is required. Entrance gained by audition only. This course is a continuation of MUS 144.
Special Fee Applies

## MUS 146, Gospel Choir, 0-1 Units

Members perform music for the historical African American sacred and contemporary repertoire, including spirituals, Gospel, church songs, community choir songs, contemporary Gospel, and original compositions and arrangements. Membership is open to students, faculty, staff, and community members. Entrance is gained by audition only. For APU students, a minimum GPA of 2.0 is required.
Special Fee Applies

## MUS 147, Gospel Choir, 0-1 Units

This is a continuation of MUS 146. Membership is open to students, faculty, staff, and community members. Entrance is gained by audition only. For APU students, a minimum GPA of 2.0 is required.
Special Fee Applies

## MUS 151, Chamber Ensemble - Strings, 0-1 Units

Formed and rehearsed under faculty guidance, the ensemble performs at various times throughout the semester. This elective course provides small group experience for the music student. A minimum GPA of 2.0 is required.

## MUS 152, Chamber Ensemble - Strings, 1 Unit

This is a continuation of MUS 151.

## MUS 153, Chamber Ensemble: Brass, 0-1 Units

This course focuses on refining performance practice and high-level musicianship in chamber music, preparing students to engage various musical landscapes at the professional level. A minimum GPA of 2.0 is required.

## MUS 154, Chamber Ensemble: Brass, 1 Unit

This course focuses on refining performance practice and high-level musicianship in chamber music, preparing students to engage various musical landscapes at the professional level. A minimum GPA of 2.0 is required. This course is a continuation of MUS 153.

## MUS 155, Chamber Ensemble: Woodwind, 1 Unit

This course focuses on refining performance practice and high-level musicianship in chamber music, preparing students to engage various musical landscapes at the professional level. A minimum GPA of 2.0 is required.

## MUS 156, Chamber Ensemble: Woodwind, 1 Unit

This course focuses on refining performance practice and high-level musicianship in chamber music, preparing students to engage various musical landscapes at the professional level. A minimum GPA of 2.0 is required. This course is a continuation of MUS 155.

## MUS 157, Chamber Ensemble - Percussion, 0-1 Units

Formed and rehearsed under faculty guidance, the ensemble performs at various times throughout the semester. This elective course provides small-group experience for the music student. A minimum GPA of 2.0 is required.

## MUS 158, Chamber Ensemble - Percussion, 1 Unit

This is a continuation of MUS 157.

## MUS 160, Worship Leadership Formation, 3 Units

This course introduces students to the field of music and worship within various ministry contexts. By surveying the historical practice of and philosophical foundations for music ministry, students are encouraged to explore the relationship between their individual strengths, abilities, and passions and this field of ministry. Students are introduced to vocational options in music and worship ministry and presented with a holistic picture of the musician as minister.

## MUS 170, Oratorio Choir, 0-1 Units

This choir is composed of all music majors and minors. A public performance of major choral works is given each semester.

## MUS 172, Recorder Lab, 1 Unit

Music of the Renaissance and Baroque periods is performed on ancient instruments, including recorders, krumm horns, gambas, sackbuts, and natural trumpets.

## MUS 173, Men's Chorale, 0-1 Units

Students perform sacred classics, hymn arrangements, spirituals, and contemporary Christian music. A minimum GPA of 2.0 is required. Entrance is gained by audition only.
Special Fee Applies

## MUS 174, Men's Chorale, 1 Unit

This is a continuation of MUS 173.
Special Fee Applies

## MUS 180, Handbell Choir, 1 Unit

Handbells provide an opportunity for students to expand and refine their musical skills. Through traditional and contemporary music, students are exposed to an array of different styles of music. Performances are scheduled throughout the year. The ensemble is open to qualified students by audition. A minimum GPA of 2.0 is required.
Special Fee Applies

## MUS 181, Handbell Choir, 1 Unit

This is a continuation of MUS 180.
Special Fee Applies

## MUS 182, Jazz and Commercial Ensemble, 0-1 Units

This is an "augmented" big band ensemble and intended to prepare performers for a wide range of performance situations, including live and recording venues. Reading and musical interpretation are stressed. This group is recorded by the Audio Recording class(es), and students learn professional attitudes and techniques toward performance in all situations. Except for unusual situations, concurrent enrollment in other ensembles and/or private lessons may be required. May be repeated for credit, though only two upper-division units may count toward the commercial music concentration. A minimum GPA of 2.0 is required.

## MUS 183, Jazz and Commercial Ensemble, 0-1 Units

This is a continuation of MUS 182.

## MUS 187, Wind Ensemble, 1 Unit

Students in this course encounter the most challenging music for collegiate musicians by the foremost composers of the genre, preparing them to engage various musical landscapes at the professional level. Open to qualified students by audition or instructor's consent. A minimum GPA of 2.0 is required.
Special Fee Applies

## MUS 188, Wind Ensemble, 1 Unit

Students in this course encounter the most challenging music for collegiate musicians by the foremost composers of the genre, preparing them to engage various musical landscapes at the professional level. Open to qualified students by audition or instructor's consent. A minimum GPA of 2.0 is required. This course is a continuation of MUS 187.
Special Fee Applies

## MUS 191, Jazz Improvisation Workshop, 1 Unit

This class is normally taken by students who have completed MUS 122 Music Theory II, though the instructor may make exceptions. Small combo-based approaches to jazz improvisation, jazz chords and scales, blues, various styles, etc., are covered. Students are grouped by experience level in combos. This class is intended to prepare performers for a wide range of performance situations, including live and recording venues, particularly casuals and small session work. This group is recorded by the Audio Recording class(es), and students learn professional attitudes and techniques toward performance in all situations. Except for unusual situations, concurrent enrollment in other ensembles and/or private lessons may be required. May be repeated for credit.
**Prerequisite:** MUS 122

## MUS 192, Jazz Improvisation Workshop, 1 Unit

This is a continuation of MUS 191.

## MUS 195, Studio Orchestra, 0-1 Units

The APU Studio Orchestra prepares students to successfully engage in the multifaceted studio and live-performance environments of working professional musicians. This ensemble equips students with the broad palette of skills required of today's professional instrumental performers. Entrance is gained by audition only. May be repeated for credit.

## MUS 201, Introduction to World Music, 3 Units

This course is an introduction to classical, popular, and folk music traditions from around the world, with case studies drawn from Africa, Asia, Eastern Europe, India, Indonesia, Latin America, the Middle East, and native North America. Course discussions focus on the interactions between music and belief systems, contexts, aesthetics, and history, and examine the social organization of music, the components of musical repertoire, and the impact of material culture. Basic theories and methodologies of ethnomusicology are utilized. The course includes lectures, reading, extensive listening, and a group fieldwork project, and is appropriate for majors and nonmajors. *Meets the General Education Requirement: Intercultural Competence.*

## MUS 202, Singing The Faith, 3 Units

This course provides a broad overview of the history of Christian congregational singing and various forms, styles, and expressions included in their development. Emphasis is placed on early Christian worship, chant, hymnody, global hymnody, contemporary worship music, and foundational elements of congregational musical practice.

## MUS 203, Languages of Worship, 2 Units

This research seminar focuses on the use of sacred action and art forms used in worship, such as music, visual arts, literature, drama, film, architecture, and dance. Students study the creation of sacred space, time, language, movement, symbol, and their theological, historical, and practical applications.

## MUS 204, Music of Latin America, 3 Units

This ethnomusicology course teaches students how to listen to, think about, identify, and write about Latin music traditions of the Caribbean and North, Central, and South America. Students interested in world missions, world geography, anthropology, global studies, sociology, history, ethnic diversity, and geopolitics may find this course useful.

## MUS 205, Music of Asia, 3 Units

This ethnomusicology course teaches students how to listen to, think about, identify, and write about the classical, popular, and folk music traditions of Asia. Students interested in world missions, world geography, anthropology, global studies, sociology, history, ethnic diversity, and geopolitics may find this course useful.

## MUS 206, Introduction to Music Education, 2 Units

Designed for the prospective public school music specialist, the course consists of a study of the objectives, scope, and content of the public school's entire music program. Specific attention is given to music development through choral and instrumental ensembles and specialized music classes for K-12.

## MUS 210, Performance Forum, 0 Units

This course allows students to participate with major performing artists in conversational dialogue, and symposiums with area professionals on topics and disciplines that students are actively involved in. In addition, the Performance Forum gives students the opportunity to gain performance experience on stage in front of the music faculty and fellow students.

## MUS 211, Applied Voice, 1-4 Units

This course provides advanced study in correct vocal technique using various vocalise like Vaccai, Marchesi, Siefer, Concone and others.
Special Fee Applies
**Prerequisite:** MUS 111 and MUS 112

## MUS 212, Applied Voice, 1-4 Units

This is a continuation of MUS 211.
Special Fee Applies
**Prerequisite:** MUS 111 and MUS 112

## MUS 213, Applied Piano, 1-4 Units

Scales and arpeggios at rapid tempo are studied. Exercises such as Czerny's, Bach Sinfonias, intermediate sonatas by Viennese classicists, Chopin Nocturnes, and comparable works from 19th and 20th century composers are stressed. The course offers preparation for upper-division qualifying examination. In addition to weekly private lessons, students attend a group master class each week.
Special Fee Applies
**Prerequisite:** MUS 114

## MUS 214, Applied Piano, 1-4 Units

This is a continuation of MUS 213. In addition to weekly private lessons, students attend a group master class each week.
Special Fee Applies
**Prerequisite:** MUS 213

## MUS 215, Applied Organ, 1-4 Units

This course offers continued technical studies, Bach chorale, preludes and fugues, compositions of romantic and contemporary periods, and hymn playing for congregational singing.
Special Fee Applies
**Prerequisite:** MUS 115 and MUS 116

## MUS 216, Applied Organ, 1-4 Units

This is a continuation of MUS 215.
Special Fee Applies
**Prerequisite:** MUS 215

## MUS 217, Practical Musicianship III, 1 Unit

This course is a continuation of MUS 134, using mixed diatonic and chromatic materials and more complex rhythms.
**Prerequisite:** Grade of C or better in MUS 134 (C- does not qualify) or instructor consent.

## MUS 218, Semi-Private Voice, 1 Unit

This is a continuation of MUS 119.
Special Fee Applies

## MUS 219, Semi-Private Voice, 1 Unit

This is a continuation of MUS 218.
Special Fee Applies

## MUS 220, Practical Musicianship IV, 1 Unit

This course is a continuation of MUS 217, using more chromatic materials and more complex rhythms.
**Prerequisite:** Grade of C or better in MUS 217 (C- does not qualify) or instructor consent.

## MUS 221, Music Theory III, 3 Units

This course explores Renaissance and Baroque compositional techniques, modulation, chromatic harmony, classical formal structures, and exercises in analysis. Concurrent enrollment in MUS 217 Practical Musicianship III is recommended.
**Prerequisite:** Grade of C or better in MUS 122 (C- does not qualify) or instructor consent.

## MUS 222, Music Theory IV, 3 Units

This course explores chromatic nonharmonic tones; chromatically altered chords; harmonic texture; 9th, 11th, and 13th chords; modal harmony; and exercises in analysis. Concurrent enrollment in MUS 220 Practical Musicianship IV is recommended.
**Prerequisite:** Grade of C or better (C- does not qualify) in MUS 221 or instructor consent.

## MUS 223, Web-Based Tools, 2 Units

This course gives students practical experience in using Web-based technologies for tasks related to the commercial music industry. Students learn to use Internet tools for remote collaboration, gain experience in Web-based project management, and use Web design tools for creating online portfolios.
**Prerequisite:** C or higher in MUS 296

## MUS 224, Diction for Singers I, 1 Unit

Students study the principles for the International Phonetic Alphabet and apply the principles for the correct pronunciation of Italian and Latin. This class cannot be repeated for credit.
**Prerequisite:** Sophomore Standing

## MUS 225, Madrigal Singers, 1 Unit

Students have the opportunity to participate in an ensemble that performs acapella chamber music from various time periods beginning with the Renaissance. Entrance is gained by audition only.

## MUS 227, Diction for Singers II, 1 Unit

This is a continuation of MUS 224. Students employ the International Phonetic Alphabet and apply the principles for the correct pronunciation of German, French, English, and Spanish.
**Prerequisite:** MUS 224

## MUS 230, Jubilant Song Ladies' Choir, 1 Unit

Students perform sacred classics, hymn arrangements, spirituals, and contemporary Christian music. A minimum GPA of 2.0 is required. Entrance is gained by audition only.

## MUS 231, Jubilant Song Ladies' Choir, 1 Unit

This is a continuation of MUS 230.

## MUS 232, Guitar Techniques, 1 Unit

This course is designed to prepare music education students to teach guitar in public schools. The course will cover basic guitar techniques as well as problems related to the guitar. Pedagogy, general maintenance, and guitar repair will also be discussed. This course is required for a music education emphasis at Azusa Pacific University.
**Prerequisite:** MUS 121, MUS 122, or instructor consent

## MUS 233, Improvisation for Music Education, 1 Unit

This course is designed to provide music education students with a study of methods and materials for teaching improvisation in K-12 schools including general music, bands, choirs, orchestras, pop groups, and world music ensembles. Students engage in improvisation exercises using their principal instrument or voice.
**Prerequisite:** MUS 122, MUS 134

## MUS 242, University Choir, 0-1 Units

Students perform sacred classics, hymn arrangements, spirituals, and contemporary Christian music. Special free applies. A minimum GPA of 2.0 is required. Entrance is gained by audition only.

## MUS 243, University Choir, 0-1 Units

This is a continuation of MUS 242.
Special Fee Applies

## MUS 244, Symphonic Band, 0-1 Units

As part of APU's Symphonic Band, students gain instrumental experience through rehearsal and public performance. The ensemble is open to qualified students by audition. A minimum GPA of 2.0 is required.

## MUS 245, Symphonic Band, 1 Unit

This is a continuation of MUS 244.

## MUS 246, Bel Canto Women's Choir, 0-1 Units

Students in this course minister to the local church and broader community, performing sacred classics, hymn arrangements, spirituals, and contemporary Christian music. Students develop choral musicianship and a deepening aesthetic enjoyment through diverse choral expressions of the Christian faith. A minimum GPA of 2.0 is required. Entrance gained by audition only.
Special Fee Applies

## MUS 247, Bel Canto Women's Choir, 0-1 Units

Students in this course minister to the local church and broader community, performing sacred classics, hymn arrangements, spirituals, and contemporary Christian music. Students develop choral musicianship and a deepening aesthetic enjoyment through diverse choral expressions of the Christian faith. A minimum GPA of 2.0 is required. Entrance gained by audition only. This course is a continuation of MUS 246.
Special Fee Applies

## MUS 248, Gospel Choir, 0-1 Units

This is a continuation of MUS 147. Membership is open to students, faculty, staff, and community members. Entrance is gained by audition only. For APU students, a minimum GPA of 2.0 is required.
Special Fee Applies

## MUS 249, Gospel Choir, 1 Unit

This is a continuation of MUS 248. Membership is open to students, faculty, staff, and community members. Entrance is gained by audition only. For APU students, a minimum GPA of 2.0 is required.
Special Fee Applies

## MUS 250, Music and Civilization, 3 Units

This course is designed for nonmusic majors and promotes intelligent listening to music of all historical periods. Composers and their music are studied in relation to historical developments of their times. Students are also introduced to elements of music including orchestral instruments. *Meets the General Education Requirement: Humanities: Fine Arts.*

## MUS 250H, Music and Civilization - Honors, 3 Units

This course is designed for nonmusic majors and promotes intelligent listening to music of all historical periods. Composers and their music are studied in relation to historical developments of their times. Students are also introduced to elements of music including orchestral instruments. *Meets the General Education Requirement: Humanities: Fine Arts.*

**Prerequisite:** To enroll in the course, must be a student admitted to the Honors Program and be considered a member in "active" status.

## MUS 251, Chamber Ensemble: Strings, 0-1 Units

Students in this course focus on refining performance practice and high-level musicianship in chamber music, preparing them to engage various musical landscapes at the professional level. A minimum GPA of 2.0 is required.

## MUS 252, Chamber Ensemble: Strings, 1 Unit

Students in this course focus on refining performance practice and high-level musicianship in chamber music, preparing them to engage various musical landscapes at the professional level. A minimum GPA of 2.0 is required. This course is a continuation of MUS 251.

## MUS 253, Chamber Ensemble: Brass, 1 Unit

This course focuses on refining performance practice and high-level musicianship in chamber music, preparing students to engage various musical landscapes at the professional level. A minimum GPA of 2.0 is required.

## MUS 254, Chamber Ensemble: Brass, 1 Unit

This course focuses on refining performance practice and high-level musicianship in chamber music, preparing students to engage various musical landscapes at the professional level. A minimum GPA of 2.0 is required. This course is a continuation of MUS 253.

## MUS 255, Chamber Ensemble: Woodwind, 1 Unit

This course focuses on refining performance practice and high-level musicianship in chamber music, preparing students to engage various musical landscapes at the professional level. A minimum GPA of 2.0 is required.

## MUS 256, Chamber Ensemble: Woodwind, 1 Unit

This course focuses on refining performance practice and high-level musicianship in chamber music, preparing students to engage various musical landscapes at the professional level. A minimum GPA of 2.0 is required. This course is a continuation of MUS 255.

## MUS 257, Chamber Ensemble - Percussion, 1 Unit

This is a continuation of MUS 158.

## MUS 258, Chamber Ensemble - Percussion, 1 Unit

This is a continuation of MUS 257.

## MUS 270, Guitar Ensemble, 1 Unit

This course emphasizes performance of guitar music in quartets, trios, duos, and larger ensembles, with students performing music along with other instruments as well as vocalists. Music from the Renaissance to the present day is explored in any number of styles from contemporary to classical, including original student-written arrangements. The course develops musicianship, focusing on experience in performance practice, engaging in the wide canon of literature, and deepening aesthetic enjoyment through vast expressions of the Christian faith. Students must know how to read music and apply it directly to the guitar fingerboard, and this course fulfills the ensemble requirement for music majors whose primary instrument is guitar.

## MUS 271, Symphony Orchestra, 0-1 Units

The Symphony Orchestra gives musicians practical ensemble experience through rehearsal and public performance. The scope of the literature used is determined by the technical proficiency of the class. The class is also open to the public by audition. A minimum GPA of 2.0 is required. Entrance is gained by audition only. May be repeated for credit.

## MUS 272, Symphony Orchestra, 0-1 Units

This is a continuation of MUS 271. Entrance is gained by audition only. May be repeated for credit.

## MUS 275, Men's Chorale, 0-1 Units

Students perform sacred classics, hymn arrangements, spirituals, and contemporary Christian music. A minimum GPA of 2.0 is required. Entrance is gained by audition only.
Special Fee Applies

## MUS 276, Men's Chorale, 0-1 Units

This is a continuation of MUS 275.
Special Fee Applies

## MUS 281, Chamber Singers, 0-1 Units

Students performance of a variety of choral works from all periods of music literature, from early chant through vocal jazz mediums. A minimum GPA of 2.0 is required. Entrance by audition only.
Special Fee Applies

## MUS 282, Handbell Choir, 1 Unit

Handbells provide an opportunity for students to expand and refine their musical skills. Through traditional and contemporary music, students are exposed to an array of different styles of music. Performances are scheduled throughout the year. A minimum GPA of 2.0 is required.
Special Fee Applies

## MUS 283, Handbell Choir, 1 Unit

This is a continuation of MUS 282.
Special Fee Applies

## MUS 285, Music Theater: Minor Roles and Chorus, 1 Unit

Admission to this class is determined by the director. Students study, prepare, and publicly perform entire Broadway musicals or selected portions and receive coaching in the dramatic and musical aspects of performance.

## MUS 289, Wind Ensemble, 0-1 Units

Students in this course encounter the most challenging music for collegiate musicians by the foremost composers of the genre, preparing them to engage various musical landscapes at the professional level. Open to qualified students by audition or instructor's consent. A minimum GPA of 2.0 is required.
Special Fee Applies

## MUS 290, Wind Ensemble, 0-1 Units

This is a continuation of MUS 289.
Special Fee Applies

## MUS 296, Introduction to Music Technology, 2 Units

In this course, students will study the basic concepts pertaining to audio recording, MIDI programming, and music notation software. Students will apply this knowledge by completing a series of musical projects.
**Prerequisite:** MUS 121 (May be taken concurrently)

## MUS 297, Marching Band, 1 Unit

The Marching Band performs pregame and half-time shows at all five home football games. Additionally, the band may perform at other events representing the university such as the Azusa Golden Days Parade and high school marching band performances. The marching band offers an opportunity for music education majors to take leadership positions and have hands-on experience preparing them for future jobs as band directors. The band meets on Mondays from 7-10 p.m. and Saturdays from 9 a.m.-12 p.m. Football games occur on Saturday evenings beginning at 6 p.m. The ensemble is open to qualified students by audition. May be repeated for credit. Required minimum GPA is a 2.0.
Special Fee Applies

## MUS 301, Music of Africa, 3 Units

This is a survey of sub-Saharan traditional and contemporary music cultures of Africa. It examines the musical and extra musical forces that shape, maintain, and perpetuate Africa's musical and cultural expression. Discussion on the general characteristics, concepts, and ethnomusicological approach to the organization of musical sound and its meaning are emphasized. This class provides an overview of the musical sounds that are prevalent in each geographic region. Students develop ethnomusicological listening skills and the ability to identify aspects of the unity and diversity within the music cultures of traditional and contemporary Africa. This course is appropriate for majors and nonmajors.

## MUS 302, Soul Music, 3 Units

This course traces the history and development of African American popular music from the early 17th century to the 21st century with a focus on the concept of soul as an essential aspect of American popular culture, encouraging intercultural competence by providing students with a foundation of knowledge and aural analytical skill through which they can identify, understand, and appreciate the contributions of soul music to the aesthetic values of contemporary music culture - sacred (Gospel) and secular (rhythm and blues). This course is appropriate for majors and non-majors. *Meets the General Education Requirement: Intercultural Competence.*

## MUS 311, Applied Voice, 1-4 Units

Students study phrasing, style, and interpretation of vocal literature from the classic through romantic periods, including the song literature of the Church. Selected arias from oratorio and opera are examined.
Special Fee Applies
**Prerequisite:** MUS 212

## MUS 312, Applied Voice, 1-4 Units

This is a continuation of MUS 311.
Special Fee Applies
**Prerequisite:** MUS 212

## MUS 313, Applied Piano, 1-4 Units

Students study scales in thirds, sixths, and tenths, contrary motion, and the corresponding arpeggios. Exercises such as Cortot's, Bach's Well-tempered Clavier, easier Etudes of Chopin, romantic Beethoven Sonatas, and other works of comparable difficulty are explored. The course prepares piano performance majors for their junior recitals.
Special Fee Applies
**Prerequisite:** Upper-division qualifying examination or by audition

## MUS 314, Applied Piano, 1-4 Units

This is a continuation of MUS 313. The course prepares piano performance majors for their junior recitals. In addition to weekly private lessons, students attend a group master class each week.
Special Fee Applies
**Prerequisite:** Upper-division qualifying examination or by audition

## MUS 315, Applied Organ, 1-4 Units

This course offers a study of works of all periods and preparation for the student's junior recital.
Special Fee Applies

## MUS 316, Applied Organ, 1-4 Units

This is a continuation of MUS 315.
Special Fee Applies

## MUS 318, Semi-Private Voice, 1 Unit

This is a continuation of MUS 219.
Special Fee Applies

## MUS 319, Semi-Private Voice, 1 Unit

This is a continuation of MUS 318.
Special Fee Applies

## MUS 320, Keyboard Improvisation, 2 Units

Students study the practical applications of music theory to keyboard playing, including playing from chord charts and "by ear," improvisation of solos and accompaniments, and making appropriate changes to published piano parts. Melody harmonization in various styles are examined, as well as elements of jazz, pop, and Gospel keyboard styles. Primary emphasis is placed on voicing chords idiomatically, rhythmic "feels," and melodic styles.

## MUS 321, Counterpoint, 3 Units

Strict counterpoint in two, three, and four parts in all species is studied; an introduction to free counterpoint is also provided.
**Prerequisite:** MUS 221 and MUS 222

## MUS 322, Score Preparation and Printing, 2 Units

Students study music copying and manuscript preparation using pen and triangle; printing parts and scores using Logic Audio and Finale.
Special Fee Applies
**Prerequisite:** MUS 121, MUS 122, MUS 296

## MUS 323, Arranging and Rehearsal Technique, 3 Units

Students study elements of common commercial styles, acoustic versus synthesizer arranging, score/part preparation, vocal arranging techniques, and arranging for rhythm section. This course is an extension of concepts from MUS 221/222, including reharmonization, texture, countermelody, and voicing. In addition to smaller assignments, student complete 3 large projects, for which the student directs rehearsals in collaboration with Commercial Styles classes, which perform the arrangements.
Special Fee Applies
**Prerequisite:** MUS 222 and MUS 296, or instructor consent

## MUS 324, Songwriting, 2 Units

The course teaches the process of songwriting, including lyrical concept, musical style, structure, and an introduction to demo production.
**Prerequisite:** C grade in one of the following: MUS 121, MUS 122, MUS 221, or MUS 222. MUS 296

## MUS 325, Madrigal Singers, 1 Unit

This is a continuation of MUS 225.

## MUS 326, Live Sound Reinforcement, 2 Units

The course is part of the B.M. in Commercial Music emphasis core. Basic signal flow, microphones, mixing consoles, processors, speakers, mixing techniques, problem solving, and team applications are covered. Students complete a live sound reinforcement project where they are responsible for a musical concert/event.
**Prerequisite:** MUS 327 or instructor consent

## MUS 327, Audio I, 2 Units

Basic acoustics review, mixers, microphones, digital audio, monitoring systems, studio acoustics, mixing concepts, outboard effects, with applications to audio recording and live sound reinforcement.
Special Fee Applies
**Prerequisite:** MUS 296 or instructor consent

## MUS 328, Audio II, 3 Units

This course covers digital audio systems, recording, mixing and editing, mastering, etc. Students complete a multitrack recording using a computer-based audio recording system.
Special Fee Applies
**Prerequisite:** MUS 327 or instructor consent

## MUS 329, Keyboard Improvisation, 2 Units

The practical applications of music theory to keyboard playing, including playing from chord charts and "by ear," improvisation of solos and accompaniments, and making appropriate changes to published piano parts are covered in detail. Melodic harmonization in various styles; elements of jazz, pop, and gospel keyboard; voicing chords idiomatically; and rhythmic "feels" are explored.

## MUS 330, Elementary Music Methods, 3 Units

This course introduces students to methods and materials for planning and implementing general music experiences for all ages, with concentration on Pre-K through sixth grade children. Students will explore various teaching methods through singing, playing, movement, composition, and listening experiences, instructional techniques including Orff, Kodaly, Dalcroze, as well as learning strategies.
**Prerequisite:** MUS 206

## MUS 331, String Instrument Techniques, 1 Unit

The curriculum offers elementary instruction in the stringed instruments. Careful consideration is given to tone production, bowing, technique, study materials, care of instruments, and teaching procedures. Open to junior and senior music education majors only.

## MUS 332, Woodwind Instrument Techniques, 1 Unit

This course provides elementary instruction in the woodwind instruments. Careful consideration is given to tone production, technique, care of instruments, study materials, and teaching procedures. Open to junior and senior music education majors only.

## MUS 333, Brass Instrument Techniques, 1 Unit

Students receive elementary instruction in the brass instruments. Careful consideration is given to tone production, technique, care of instruments, study materials, and teaching procedures. Open to junior and senior music education majors only.

## MUS 334, Percussion Instrument Techniques, 1 Unit

This course provides elementary instruction in the percussion instruments. Careful consideration is given to technique, care of instruments, study materials, and teaching procedures. Open to junior and senior music education majors only.

## MUS 335, Jubilant Song Ladies' Choir, 1 Unit

Students perform sacred classics, hymn arrangements, spirituals, and contemporary Christian music. A minimum GPA of 2.0 is required. Entrance is gained by audition only.

## MUS 336, Jubilant Song Ladies' Choir, 1 Unit

This is a continuation of MUS 335.

## MUS 337, Music Business I, 2 Units

This course is part of the commercial music emphasis core. Students study careers in commercial music, journals of the business, and networking and career development, and receive an overview of the production process for music and post production, and introduction to: A&R, touring, contracting, copyright law, licenses, royalties, mechanicals, publishing and distribution, performing rights organizations, contracts, legal issues, etc. Recommended for first-semester sophomores.

## MUS 338, Music Business II, 2 Units

Selected advanced topics in the music business, including copyright law, licenses, royalties, mechanicals, publishing and distribution, performing rights organizations, contracts, legal issues, etc., are covered.
**Prerequisite:** MUS 337

## MUS 339, Hymnology, 2 Units

The great Christian hymns and hymn tunes are studied in their historical settings. Analysis and interpretation of hymns are offered. Standard hymnals are evaluated.

## MUS 340, University Choir & Orchestra, 1 Unit

Students perform sacred classics, hymn arrangements, spirituals, and contemporary Christian music. A minimum GPA of 2.0 is required. Entrance is gained by audition only.
Special Fee Applies

## MUS 341, University Choir & Orchestra, 1 Unit

This is a continuation of MUS 340.
Special Fee Applies

## MUS 342, Symphonic Band, 0-1 Units

As part of APU's Symphonic Band, students gain instrumental experience through rehearsal and public performance. The ensemble is open to qualified students by audition. A minimum GPA of 2.0 is required.

## MUS 343, Symphonic Band, 0-1 Units

This is a continuation of MUS 342.

## MUS 344, Bel Canto Women's Choir, 1 Unit

Students in this course minister to the local church and broader community, performing sacred classics, hymn arrangements, spirituals, and contemporary Christian music. Students develop choral musicianship and a deepening aesthetic enjoyment through diverse choral expressions of the Christian faith. A minimum GPA of 2.0 is required. Entrance gained by audition only.
Special Fee Applies

## MUS 345, Bel Canto Women's Choir, 1 Unit

This ensemble ministers to the local church and broader community, performing sacred classics, hymn arrangements, spirituals, and contemporary Christian music. Students develop choral musicianship and a deepening aesthetic enjoyment through diverse choral expressions of the Christian faith. A minimum GPA of 2.0 is required. Entrance is gained by audition only.
Special Fee Applies

## MUS 346, Gospel Choir, 0-1 Units

This is a continuation of MUS 248. Membership is open to students, faculty, staff, and community members. Entrance is gained by audition only. For APU students, a minimum GPA of 2.0 is required.
Special Fee Applies

## MUS 347, Gospel Choir, 1 Unit

This is a continuation of MUS 346. Membership is open to students, faculty, staff, and community members. Entrance is gained by audition only. For APU students, a minimum GPA of 2.0 is required.
Special Fee Applies

## MUS 348, Song Literature Survey, 2 Units

This class surveys solo vocal music from the German, French, Italian, Russian, British, American, Spanish, and South American art song repertoire spanning from the Renaissance through the 21st-century (not including opera arias). Class sessions consist of listening and discussing appropriate repertoire, student presentations, and performance. Emphasis is placed on both musical and poetic interpretation. Each student performs a minimum of our times during the semester from this literature.

## MUS 349, Intermediate Logic Pro, 3 Units

This course features instruction in plug-in synthesizers, custom instrument creation, keyswitching methods, looping techniques, basic automated mixing, audio editing techniques, audio plug-ins environment window and real-time MIDI processing.
Special Fee Applies
**Prerequisite:** MUS 296

## MUS 350, History and Literature of Commercial Music, 3 Units

This course provides a study of commercial music since 1900, with particular emphasis on music in recording for conventional distribution, music for broadcast, music for film, TV and video, etc. Jazz, rock, country-western, hip hop, film music, Christian, and gospel music receive particular attention. Important songwriters, performers, and producers are studied, along with the impact of technology and mass distribution on musical style and the public taste. Students are exposed to the broad array of contemporary musical styles that are "commercial."
**Prerequisite:** A grade of "C" or better in both MUS 327 and MUS 337

## MUS 351, Ancient, Renaissance, and World Music Literature, 3 Units

This course provides a historical and stylistic study of the repertoire of serious Western music from ancient Greece through the Renaissance, plus other music of people and cultures from around the world. The course includes lectures, reading, listening, reports, and analysis.

### MUS 352, Writing 3: Baroque, Classical, and Early Romantic Music Literature, 3 Units

This course traces the development of music in Western and non-Western traditions through various ideas and procedures within specific geographical and cultural time-frames. Students will examine the implications, in a Christian framework, of the various developments and procedures used in music of classical and folk traditions of Western and non-Western cultures to facilitate the development of a mature and educated philosophy of music. The course also includes instruction in writing about music and music history. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*

**Prerequisite:** Writing 2

### MUS 352H, Baroque, Classical, and Early Romantic Music Literature - Honors, 3 Units

Course content provides a continuation of MUS 351 with emphasis upon the baroque, classical, and early romantic periods. Meets the upper-division writing intensive course requirement. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*

**Prerequisite:** To enroll in the course, must be a student admitted to the Honors Program and be considered a member in "active" status.

### MUS 353, Concert Music, 1 Unit

Students are guided through listening by attending concerts.

### MUS 354, Church Music and Worship, 2 Units

This course acquaints students with current worship practices and trends and provides an analysis of current issues facing church musicians and worship leaders. The curriculum and reading for the course aids students in the critical evaluation of today's worship issues and challenges.

**Prerequisite:** Junior Standing and completion of MUS 202 and MUS 203

### MUS 355, Chamber Ensemble - Strings, 1 Unit

This is a continuation of MUS 252.

### MUS 356, Chamber Ensemble - Strings, 1 Unit

This is a continuation of MUS 355.

### MUS 357, Chamber Ensemble - Brass, 1 Unit

This is a continuation of MUS 254.

### MUS 358, Chamber Ensemble - Brass, 1 Unit

This is a continuation of MUS 357.

### MUS 359, Chamber Ensemble - Woodwind, 1 Unit

This is a continuation of MUS 256.

### MUS 360, Chamber Ensemble - Woodwind, 1 Unit

This is a continuation of MUS 359.

### MUS 361, Introduction to Conducting, 2 Units

Students receive instruction and drills in basic conducting skills, principles of interpretation, and rehearsal techniques for both choral and instrumental music.

**Prerequisite:** MUS 221 and MUS 222

### MUS 362, Choral Conducting, 2 Units

Students receive instruction in principles and techniques of conducting choral groups. Attention is given to interpretation, literature, and rehearsal skills. This is a practical course designed to give each student continuing training and experience in choral conducting.

**Prerequisite:** MUS 361

### MUS 363, Instrumental Conducting, 2 Units

The principles, techniques, and methods of conducting orchestral and band groups using standard instrumental literature are covered.

**Prerequisite:** MUS 361

### MUS 364, Critical Audio Listening Skills, 2 Units

This course covers recording environment terminology, sonic characteristics of microphones, processed audio signals, instruments and sections of instruments. Analysis and study of audio recordings, recording consoles, and variety of acoustic environments is also discussed.

**Prerequisite:** MUS 296 and MUS 327

### MUS 365, Chamber Ensemble - Percussion, 1 Unit

This is a continuation of MUS 258.

### MUS 366, Chamber Ensemble - Percussion, 1 Unit

This is a continuation of MUS 365.

## MUS 367, Technology for Worship, 3 Units

This course provides students with an understanding of technologies used for worship arts ministry, including digital and analog audio, lighting, video systems, presentation software, and assorted web-based tools for the worship leader. Philosophical and practical issues in the use of worship arts technology are discussed.

## MUS 371, Symphony Orchestra, 0-1 Units

The Symphony Orchestra gives musicians practical ensemble experience through rehearsal and public performance. The scope of the literature used is determined by the technical proficiency of the class. The class is open to the public by audition. A minimum GPA of 2.0 is required. Entrance is gained by audition only. May be repeated for credit.

## MUS 372, Symphony Orchestra, 0-1 Units

This is a continuation of MUS 371. May be repeated for credit. Entrance is gained by audition only.

## MUS 373, Men's Chorale, 0-1 Units

Students perform sacred classics, hymn arrangements, spirituals, and contemporary Christian music. A minimum GPA of 2.0 is required. Entrance is gained by audition only.
Special Fee Applies

## MUS 374, Men's Chorale, 1 Unit

This is a continuation of MUS 373.
Special Fee Applies

## MUS 375, Worship Arts Leadership, 3 Units

This course examines organizational structures for worship arts ministries in the Church and parachurch organizations. Attention is given to processes and structures that effectively organize musicians and artists for worship arts ministry and give space for God's work through His people. Topics include pastoral leadership, artistic team development, information management, facilities, budgets, scheduling, and ministry resources.
**Prerequisite:** MUS 160

## MUS 376, Worship Design, 3 Units

This course provides the student with a beginning framework for planning and designing a service of worship. Both artistic and practical issues are considered as various worship traditions (liturgical, Taize, free church, emergent, traditional, blended, etc.) and related musical styles are examined. Students have an opportunity to lead worship services they have planned and designed and gain experience with the practical components of worship (basic sound reinforcement, acoustics, rehearsal techniques, worship leading, etc.).
**Prerequisite:** MUS 202, MUS 203

## MUS 377, Worship Studio I, 1 Unit

This course is an in-depth study of the performance skills and abilities in music direction necessary for worship leadership. Students develop fluency in performance practices, rehearsal techniques, platform leadership skills, and the roles of instrumental and vocal music directors in the context of small ensembles. Gospel style and interpretation are stressed, and performance opportunities are given throughout the semester.

## MUS 378, Worship Studio II, 1 Unit

This course is a continuation of Worship Studio I, offering an in-depth study of the performance skills and abilities in musical direction necessary for worship leadership. Students develop fluency in performance practices, rehearsal techniques, platform leadership skills, and the roles of instrumental and vocal music directors in the context of small ensembles. Performance practices and interpretation of folk and ethnic styles are the primary focus. Performance opportunities are given throughout the semester.

## MUS 379, Guitar Fingerboard Harmony, 2 Units

This is a course in direct application of principles of diatonic and chromatic harmony as they are relevant to the guitar fingerboard. Students must have a thorough knowledge of reading music and a basic understanding of fundamentals of harmony and how chords are constructed.
**Prerequisite:** MUS 121, MUS 122, or instructor consent

## MUS 380, Chamber Singers, 0-1 Units

Performance of a variety of choral works from all periods of music literature, from early chant through vocal jazz mediums. A minimum GPA of 2.0 is required. Entrance by audition only.
Special Fee Applies

## MUS 381, Handbell Choir, 1 Unit

Handbells provide an opportunity for students to expand and refine their musical skills. Through traditional and contemporary music, students are exposed to an array of different styles of music. Performances are scheduled throughout the year. A minimum GPA of 2.0 is required.
Special Fee Applies

## MUS 382, Jazz and Commercial Ensemble, 0-1 Units

This is an "augmented" big band ensemble and intended to prepare performers for a wide range of performance situations, including live and recording venues. Reading and musical interpretation are stressed. This group is recorded by the Audio Recording class(es), and students learn professional attitudes and techniques toward performance in all situations. Except for unusual situations, concurrent enrollment in other ensembles, and/or private lessons may be required. May be repeated for credit, though only two upper-division units may count toward the Commercial Music emphasis. A minimum GPA of 2.0 is required.

## MUS 383, Jazz and Commercial Ensemble, 0-1 Units

This is a continuation of MUS 382.

## MUS 384, Handbell Choir, 1 Unit

This is a continuation of MUS 381.
Special Fee Applies

## MUS 387, Wind Ensemble, 1 Unit

As part of APU's Wind Ensemble, students gain instrumental experience through rehearsal and public performance, including a yearly tour. The ensemble is open to qualified students by audition or instructor's consent. A minimum GPA of 2.0 is required.
Special Fee Applies

## MUS 388, Wind Ensemble, 1 Unit

This is a continuation of MUS 387.
Special Fee Applies

## MUS 389, Commercial Styles I, 1 Unit

This class is an in-depth study of jazz vocal styles which prepares performers for a wide range of jazz performance situations including live and recording venues. Jazz style and interpretation are stressed and performance opportunities are given throughout the semester.
**Prerequisite:** C grade or better in one of the following: MUS 121, MUS 122, MUS 221, MUS 222; AND C grade or better in one of the following MUS 133, MUS 134, MUS 217, MUS 220

## MUS 390, Commercial Styles II, 1 Unit

A continuation of Commercial Styles I, this course offers an in-depth study of Broadway and pop music vocal styles intended to prepare performers for a wide range of commercial performance situations, including live and recording venues. Broadway and pop music style and interpretation are stressed and performance opportunities will be given throughout the semester.
**Prerequisite:** C grade or better in one of the following: MUS 121, MUS 122, MUS 221, MUS 222; AND C grade or better in one of the following MUS 133, MUS 134, MUS 217, MUS 220

## MUS 391, Jazz Improvisation Workshop, 1 Unit

This course covers small combo-based approaches to jazz improvisation, jazz chords and scales, blues, various styles, etc., with students grouped in combos by experience level. Student-performers prepare for a wide range of performance situations, including live and recording venues, particularly casuals and small session work. This group is recorded by the Audio Recording class(es), and students learn professional attitudes and techniques toward performance in all situations. Except for in unusual circumstances, concurrent enrollment in other ensembles and/or private lessons may be required. May be repeated for credit, though only 2 upper-division units may count toward the commercial music concentration.

## MUS 392, Jazz Improvisation Workshop, 1 Unit

This is a continuation of MUS 391.

## MUS 393, Junior Recital, 0 Units

Preparation and presentation of the junior recital program (approximately 30 minutes of music) as a requirement of the Bachelor of Music in Performance. This course must be taken during the semester in which the junior recital is presented. Topics include program preparation and research, recital protocol, advanced performance preparation, working with a collaborative performer/accompanist (when applicable). This course is taught by the student's major applied instructor.
**Prerequisite:** Performance majors to have completed 8 units of major applied area; permission of the applied instructor. Student must be concurrently enrolled in Applied Music in the term that the Junior Recital is presented.

## MUS 394, Critical Listening Skills For Audio Recording Professionals, 2 Units

Students study recording environment terminology and sonic manipulation including; sonic characteristics of microphones, processed audio signals, individual musical instruments and sections of instruments. Study and analysis of representative audio recordings, recording consoles, and a variety of acoustic environments is included.
**Prerequisite:** C or better in both MUS 220 and MUS 326

## MUS 395, History of Film Music, 3 Units

This course is divided into two large sections. The first develops a vocabulary of terms and methods for analyzing and interpreting film soundtracks, paying particular attention to music's role in the soundtrack and the overall relationship between soundtrack and image track. The second part focuses on the history of film sound, with particular attention given to soundtrack technology and how it has affected the aesthetic choices of filmmakers. Students explore the thesis that each major technological advance alters the structural relationships among the three relatively autonomous components of the soundtrack-dialogue, music, and effects. *Meets the General Education Requirement: Humanities: Fine Arts.*

## MUS 396, Advanced Music Technology, 2 Units

Advanced sequencing techniques, orchestral simulation, advanced editing and automated mixing, synthesizer program editing, and system exclusive and program editor/librarian software are covered. The course provides an introduction to MIDI/digital audio hybrid systems and synchronization using LTC, VITC, MIDI clock, and MIDI Timecode. Students complete a large project using these techniques.
Special Fee Applies
**Prerequisite:** MUS 296 and MUS 327

## MUS 397, Instrumental Collaboration for Pianists, 2 Units

Students learn to collaborate with instrumentalists in a master class setting. Each major historical period is surveyed, and pianists work with instrumentalists from every family of instruments. Most of the repertoire is sonatas written by prominent composers. Students perform six times during the semester.

## MUS 398, Vocal Collaboration for Pianists, 2 Units

Students learn to collaborate with vocalists in a master class setting. Pianists perform Italian, Fench, German, and American art songs and arias. Emphasis is placed on both musical and poetic interpretation. Students perform six times during the semester.

## MUS 399, Keyboard Ensemble, 2 Units

This course offers guided experience in performance of keyboard literature for more than one performer. The class is open to students majoring in piano performance, organ performance, and to other qualified students upon audition and with permission of the instructor. Each student performs six times during the semester.

## MUS 401, Worship Studio III, 1 Unit

This course serves as a continuation of Worship Studio I and II, offering an in-depth study of the performance skills and abilities in musical direction necessary for worship leadership. Students develop fluency in performance practices, rehearsal techniques, platform leadership skills, and the roles of instrumental and vocal music directors in the context of small ensembles. Jazz interpretation and style are the primary focus. Performance opportunities are given throughout the semester.

## MUS 402, Worship Studio IV, 1 Unit

This course serves as a continuation of Worship Studio I, II, and III, offering in-depth study of the performance skills and abilities in musical direction necessary for worship leadership. Students develop fluency in performance practices, rehearsal techniques, platform leadership skills, and the roles of instrumental and vocal music directors in the context of small ensembles. Performance practice and interpretation of pop and rock styles are the primary focus. Performance opportunities are given throughout the semester.

## MUS 404, Instrumental Music Methods, 3 Units

This course is designed to provide music education students with a study of methods and materials for teaching instrumental music in K-12 schools, including concert bands, marching bands, orchestra, jazz and pop groups, and world music ensembles. Students engage in 15 hours of observation as well as practice teaching.
**Prerequisite:** MUS 206

## MUS 405, Choral Music Methods, 3 Units

Designed for the prospective school music specialist, the course will consist of a study of choral methods used in school music programs. Special attention will be given to developing musicality and musicianship through choral ensembles and specialized music classes, including all periods and genres of music.
**Prerequisite:** MUS 206

## MUS 407, Commercial Styles III, 1 Unit

A continuation of Commercial Styles I and II, this course offers an in-depth study of country western, folk and contemporary Christian music vocal styles intended to prepare performers for a wide range of commercial performance situations, including live and recording venues. Country, folk and contemporary Christian music performance style and interpretation are stressed and performance opportunities will be given throughout the semester.
**Prerequisite:** C grade or better in one of the following: MUS 121, MUS 122, MUS 221, MUS 222; AND C grade or better in one of the following MUS 133, MUS 134, MUS 217, MUS 220

## MUS 408, Commercial Styles IV, 1 Unit

A continuation of Commercial Styles I, II and III, this course offers an in-depth study of rock and rhythm & blues (R&B) vocal styles intended to prepare performers for a wide range of commercial performance situations, including live and recording venues. Rock and R&B musical performance style and interpretation are stressed and performance opportunities are given throughout the semester.

**Prerequisite:** C grade or better in one of the following: MUS 121, MUS 122, MUS 221, MUS 222; AND C grade or better in one of the following MUS 133, MUS 134, MUS 217, MUS 220

## MUS 409, Jubilant Song Ladies' Choir, 1 Unit

Students perform sacred classics, hymn arrangements, spirituals, and contemporary Christian music. A minimum GPA of 2.0 is required. Entrance is gained by audition only.

## MUS 410, Jubilant Song Ladies' Choir, 1 Unit

This is a continuation of MUS 409.

## MUS 411, Applied Voice, 1-4 Units

This course offers continued studies in phrasing and interpretation. Emphasis is placed on repertoire, both sacred and secular, and platform presentation.
Special Fee Applies
**Prerequisite:** MUS 311 and MUS 312

## MUS 412, Applied Voice, 1-4 Units

This course offers continued studies in phrasing and interpretation. Emphasis is placed on repertoire, both sacred and secular, and platform presentation. Appearances in recitals comprising literature from the above mentioned may be required at the discretion of the instructor. This may be in addition to the senior recital for the voice major.
Special Fee Applies
**Prerequisite:** MUS 411

## MUS 413, Applied Piano, 1-4 Units

Virtuoso studies such as Chopin's or Liszt's are examined, and advanced compositions by Bach, Beethoven, Romantic, and 20th-century composers are explored. A study of selected concerti is offered. This course prepares piano performance majors for their senior recitals.
Special Fee Applies
**Prerequisite:** MUS 314

## MUS 414, Applied Piano, 1-4 Units

This is a continuation of MUS 413. The course prepares piano performance majors for their senior recitals. In addition to weekly private lessons, students attend a group master class each week. Prerequisite: upper-division qualifying examination or by audition
Special Fee Applies
**Prerequisite:** Upper-division qualifying examination or by audition

## MUS 415, Applied Organ, 1-4 Units

This course offers advanced study of major works of all periods and intense preparation for the student's senior recital.
Special Fee Applies

## MUS 416, Applied Organ, 1-4 Units

This is a continuation of MUS 415.
Special Fee Applies

## MUS 417, Organ Literature I, 2 Units

This course is a survey of the historical development of the literature for the organ from the Middle Ages through the classical period. Organ builders from these centuries are also discussed. Class sessions consist of listening and discussing repertoire from these periods and sight reading some of the representative literature.

## MUS 418, Semi-Private Voice, 1 Unit

This is a continuation of MUS 319.
Special Fee Applies

## MUS 419, Semi-Private Voice, 1 Unit

This is a continuation of MUS 418.
Special Fee Applies

## MUS 420, Organ Literature II, 2 Units

This course is a survey of the historical development of the literature for the organ from the Romantic period through the 20th-century as well as contemporary works. Discussions include the study of major organ builders during this time.
**Prerequisite:** 2 units of Applied Organ

## MUS 421, Choral Arranging, 2 Units

Students learn the techniques of arranging and adapting song materials for choral ensembles of various sizes and compositions.
**Prerequisite:** MUS 222

## MUS 422, 20th Century Compositional Techniques, 3 Units

The stylistic techniques of major composers are reviewed. A major thrust of the class is the presentation of students' compositions.
**Prerequisite:** MUS 222

## MUS 423, Orchestration I, 3 Units

This course provides an introduction to orchestral and symphonic wind ensemble instruments. Scoring exercises for full ensembles and smaller combinations are emphasized.
**Prerequisite:** MUS 221; MUS 222 (may be taken concurrently) or instructor consent

## MUS 424, Projects in Music Theory, 2 Units

Personalized arranging, composition, and analytical projects are assigned according to the interest and capabilities of the student.
**Prerequisite:** MUS 221 and MUS 222

## MUS 425, Collegium, 1 Unit

The course emphasizes rehearsal and performance of chamber music, especially pre-19th century music. The course is open to students with instructor's permission only.

## MUS 426, Collegium, 1 Unit

This is a continuation of MUS 425.

## MUS 427, Form and Analysis, 3 Units

The forms of music from the 18th century to the present are covered. An analysis of both large and small forms is included.
**Prerequisite:** MUS 222

## MUS 428, Arranging II, 2 Units

Arranging for larger ensembles, more musical styles, arranging for live ensembles versus arranging for recording, advanced harmonic techniques, and textures and melodic procedures is covered. Students complete several small assignments in various styles, and one large project which is recorded by the Audio Recording class(es) or the Production Techniques class.
Special Fee Applies
**Prerequisite:** MUS 323 and MUS 423

## MUS 429, Piano Literature I, 2 Units

This course surveys the broad scope of piano literature from the invention of the piano to the early Romantic period. Class sessions consist of listening to and discussing appropriate repertoire and sight-reading of various pieces of the literature. Students are required to read the primary literature (or exerpts) as well as to listen, sight-read, analyze, and recognize, and prepare additional topics from books of secondary literature.

## MUS 430, Piano Literature II, 2 Units

This course surveys the broad scope of piano literature from the early Romantic period to the present day. Class sessions consist of listening to and discussing appropriate repertoire and sight-reading of various pieces of the literature.
**Prerequisite:** MUS 429

## MUS 432, Music in the Elementary Schools, 3 Units

Designed for the prospective elementary school teacher, the course consists of the objectives, scope, and content of the elementary school music program as described in the Visual and Performing Arts Framework for California Public School. Active participation in the skills of music and movement are required in order to understand the components and concepts in these performing arts. The course includes supervised practice teaching and opportunities for observation of teaching professionals.

## MUS 433, Music Methods for the Elementary and Secondary Schools, 3 Units

This course offers a sequential presentation of methods and materials available for the prospective music teacher of the spectrum of K-12. Widely accepted approaches and philosophies are discussed, including Dalcroze, Kodaly, Orff-Schuwerk, Yamaha, and Susuki. Students engage in guided observation and practice teaching.

## MUS 434, Piano Pedagogy, 2 Units

Students study various piano teaching methods and materials. The course includes supervised practice teaching and opportunities for observation of the professor.
**Prerequisite:** MUS 313 or instructor consent

## MUS 435, University Choir, 0-1 Units

Students perform sacred classics, hymn arrangements, spirituals, and contemporary Christian music. A minimum GPA of 2.0 is required. Entrance is gained by audition only.
Special Fee Applies

### MUS 436, University Choir, 0-1 Units

This is a continuation of MUS 435.
Special Fee Applies

### MUS 437, Bel Canto Women's Choir, 1 Unit

Students in this course minister to the local church and broader community, performing sacred classics, hymn arrangements, spirituals, and contemporary Christian music. Students develop choral musicianship and a deepening aesthetic enjoyment through diverse choral expressions of the Christian faith. A minimum GPA of 2.0 is required. Entrance gained by audition only.
Special Fee Applies

### MUS 438, Bel Canto Women's Choir, 1 Unit

Students in this course minister to the local church and broader community, performing sacred classics, hymn arrangements, spirituals, and contemporary Christian music. Students develop choral musicianship and a deepening aesthetic enjoyment through diverse choral expressions of the Christian faith. A minimum GPA of 2.0 is required. Entrance gained by audition only. This course is a continuation of MUS 437.
Special Fee Applies

### MUS 440, Instrumental Pedagogy, 2 Units

Students study the methods and materials used in teaching brass, woodwind, string, or percussion instruments. The area of emphasis is determined by the student's specialization.

### MUS 441, Music in Worship, 3 Units

Students survey the history and practice of the use of music in worship services. Emphasis is given to the development of both liturgical and nonliturgical forms of worship. Students are involved in learning effective worship planning as they study the role of the minister, director of music, and organist.

### MUS 442, Church Music Administration, 2 Units

Students explore the process of developing the music program of the local church and the relationship of the minister of music to the congregation, music committee, and pastor. A graded choir program, equipment, and general organization are examined.

### MUS 443, Vocal Pedagogy, 2 Units

This course covers the study of teaching methods and practices in voice, detailed study of the vocal instrument, and sessions working one-on-one with a beginning voice student.

### MUS 444, Seminar in Church Music, 2 Units

This course is a research seminar dealing with contemporary problems in church music. An in-depth investigation of specific church music programs and supervised student assignments involving leadership in the music program of local churches is offered.

### MUS 445, Service Playing, 2 Units

This course shows the church musician how to handle the keyboard instruments in various church situations, including weddings, funerals, communions, and aspects of traditional services.

### MUS 446, Issues in Church Music, 2 Units

This course provides an analysis of current issues in church music and acquaints students with contemporary worship practices. The curriculum aids students in the evaluation of today's issues from an historical perspective.

### MUS 447, Music and Worship Internship I, 2 Units

Students who desire experience in a church music program should take this practicum. Under close faculty supervision, students are assigned specific leadership responsibilities in local churches' music programs.
**Prerequisite:** MUS 375; MUS 376 (may be taken concurrently)

### MUS 449, Symphonic Band, 1 Unit

As part of APU's Symphonic Band, students gain instrumental experience through rehearsal and public performance. The ensemble is open to qualified students by audition. A minimum GPA of 2.0 is required.

### MUS 450, Symphonic Band, 1 Unit

This is a continuation of MUS 449.

### MUS 451, Repertoire for the Instrumental Music Classroom, 2 Units

This course equips students with a comprehensive knowledge of repertoire to be used as curriculum in the secondary instrumental music classroom through the context of band, orchestra, jazz band, and string orchestra.
**Prerequisite:** MUS 222 and MUS 361

### MUS 452, Instrumental Music Literature, 2 Units

This course offers a survey of string, woodwind, brass, guitar, or percussion literature considered from its historical, formal, stylistic, and aesthetic aspects. It also includes study of the history and development of the instruments. The course content varies according to the applied performance area of the student.

## MUS 453, American Music, 3 Units

Students study the development of American music from early psalmody to contemporary expressions. Music on the frontier, in urban culture, American education, and the Church is explored. A survey of the music of prominent American composers from William Billings to John Cage is included. The course is open to nonmusic majors with the instructor's consent.

## MUS 454, Music and Worship Internship II/Capstone, 2 Units

Under close faculty supervision, students are assigned specific leadership responsibilities in local churches' music programs. This course concludes with a "capstone project," coordinated between student and faculty. The project will include a sophisticated level of research, collaboration, creativity, and synthesis of learning acquired through previous coursework in the major. With approval, the project may serve as portfolio material. This course is a continuation of MUS 447.
**Prerequisite:** MUS 447

## MUS 455, Late Romantic and 20th-Century Music Literature, 3 Units

This course provides a study of Western music of the late Romantic and 20th century periods in historical context of broader developments in culture. American music and implications of recent developments, including computer and experimental music, are also included. *Meets the General Education Requirement: Humanities: History.*
**Prerequisite:** MUS 121

## MUS 456, Choral Literature, 2 Units

Students survey choral compositions from the Renaissance to the present. The course emphasizes the representative works from each of the major historical periods.

## MUS 457, Chamber Ensemble - Strings, 1 Unit

This is a continuation of MUS 356.

## MUS 458, Chamber Ensemble - Strings, 1 Unit

This is a continuation of MUS 457.

## MUS 459, Chamber Ensemble: Brass, 1 Unit

Premier chamber ensembles focus on refining performance practice and high-level musicianship in chamber music, and this course prepares students to engage various musical landscapes at the professional level. A minimum GPA of 2.0 is required.

## MUS 460, Chamber Ensemble - Brass, 1 Unit

This is a continuation of MUS 459.

## MUS 462, Seminar in Conducting, 2 Units

Students study special problems in conducting, conduct choral and instrumental ensembles, observe rehearsals and performances under a master conductor, and research the historical aspects of conducting.
**Prerequisite:** MUS 361 and MUS 362

## MUS 464, Chamber Ensemble - Woodwind, 1 Unit

This is a continuation of MUS 360.

## MUS 465, Chamber Ensemble - Woodwind, 1 Unit

This is a continuation of MUS 464.

## MUS 466, Audio and Acoustics, 3 Units

This survey course is geared toward students who seek knowledge with basic concepts of acoustical conditions, electronics, sound systems, and recording techniques.

## MUS 467, Advanced Pro Tools, 2 Units

This course is a continuation of MUS 471. Additional topics covered include mixing and mastering principles.
**Prerequisite:** MUS 328 or instructor consent

## MUS 469, Chamber Ensemble - Percussion, 1 Unit

This is a continuation of MUS 366.

## MUS 470, Chamber Ensemble - Percussion, 1 Unit

This is a continuation of MUS 469.

## MUS 471, Intermediate Pro Tools, 3 Units

This course explores methods for automation, audio editing, basic effects plugins, cue mix, synchronization, recording, and monitoring.
**Prerequisite:** MUS 327 or instructor consent

## MUS 472, Audio For Post Production, 2 Units

This course focuses on practical and aesthetic considerations relating to audio post-production. Topics covered include voice-over, ADR, dialogue and music editing, noise reduction, effects, mixing and lay-back.
Special Fee Applies
**Prerequisite:** MUS 467 (may be taken concurrently) or instructor consent

## MUS 473, Composing for Film and Television, 3 Units

An introduction to scoring and producing music for films and television, this course covers synchronization, software, compositional approaches; overview of history of film composition; synthetic, "live", and "mixed" approaches. "spotting" a film; and collaborating with a director. Students will score several short scenes and at least one short student film or other film.
**Prerequisite:** MUS 323, MUS 468, MUS 423

## MUS 474, Music Career Development, 2 Units

This course provides an in-depth study of music career planning, networking, promotion, advertising, and marketing, with special emphasis on using the internet. Social media, iTunes, internet collaboration and YouTube are covered. Career paths and combinations are explored. An important component of the course is appearance by diverse guest lecturers.
**Prerequisite:** MUS 223

## MUS 475, Men's Chorale, 1 Unit

Students perform sacred classics, hymn arrangements, spirituals, and contemporary Christian music. A minimum GPA of 2.0 is required. Entrance is gained by audition only.
Special Fee Applies

## MUS 476, Men's Chorale, 1 Unit

This is a continuation of MUS 475.
Special Fee Applies

## MUS 478, Gospel Choir, 1 Unit

This is a continuation of MUS 346. Membership is open to students, faculty, staff, and community members. Entrance is gained by audition only. For APU students, a minimum GPA of 2.0 is required.
Special Fee Applies

## MUS 479, Gospel Choir, 1 Unit

This is a continuation of MUS 478. Membership is open to students, faculty, staff, and community members. Entrance is gained by audition only. For APU students, a minimum GPA of 2.0 is required.
Special Fee Applies

## MUS 481, Orchestration II, 3 Units

This course offers advanced study in orchestration, stressing the full orchestra and wind ensemble and includes scoring and demo creation using Logic Pro.
**Prerequisite:** MUS 349 and MUS 423

## MUS 483, Handbell Choir, 1 Unit

Handbells provide an opportunity for students to expand and refine their musical skills. Through traditional and contemporary music, students are exposed to an array of different styles of music. Performances are scheduled throughout the year. A minimum GPA of 2.0 is required.
Special Fee Applies

## MUS 484, Preparing the Total Performer, 1 Unit

This class provides students with the principles necessary to achieve complete freedom to communicate before audiences. This is accomplished through class participation, performance, and group interaction. Students study essential principles and learn to master the skills necessary to present themselves in any situation. The course includes study of the release of body tension through the Alexander technique, the affect of body movement on an audience, and methods to overcoming fear and anxiety. Students learn to communicate the subtext of a piece/presentation through expressive use of the voice, body, and instrument. A student enrolling in this class should have some skill and experience in the performing or dramatic arts.

## MUS 486, Opera Workshop: Lead Roles and Minor Roles, 0-1 Units

Students study, prepare, and perform entire operas or selected portions and receive coaching in the dramatic and musical aspects of performance. Admission to this class is determined by the director.

## MUS 487, Handbell Choir, 1 Unit

This is a continuation of MUS 483.
Special Fee Applies

## MUS 489, Wind Ensemble, 0-1 Units

As part of APU's Wind Ensemble, students gain instrumental experience through rehearsal and public performance, including a yearly tour. The ensemble is open to qualified students by audition or instructor's consent. A minimum GPA of 2.0 is required.
Special Fee Applies

## MUS 490, Wind Ensemble, 0-1 Units

This ensemble engages the most challenging music for collegiate musicians by the foremost composers of the genre, preparing students to engage various musical landscapes at the professional level. The ensemble is open to qualified students by audition or instructor's consent. A minimum GPA of 2.0 is required.
Special Fee Applies

## MUS 491, Senior Recital, 0 Units

This course includes preparation for and presentation of the senior recital (approximately 60 minutes of music) as a requirement of the Bachelor of Music. This course must be taken during the semester in which the senior recital is presented. Topics include program preparation and research, stage presence, recital protocol, advanced performance preparation, working with a collaborative accompanist (when appropriate). This course is taught by the student's applied instructor. *Meets the General Education Requirement: Integrative and Applied Learning.*
**Prerequisite:** Music majors who have completed 12 units of major applied area; permission of instructor. Student must be concurrently enrolled in Applied Music in the term that the Senior Recital is presented.

## MUS 492, Senior Project in Commercial Music, 0 Units

This is a capstone course in the Commercial Music Program. Students complete a major project apropos to their track, and equivalent in effort to a senior recital. The project will reflect the student's ability to synthesize and integrate knowledge and skills gained and developed in the course of their Commercial Music studies. Each project will be planned and executed with the assistance and oversight of a faculty advisor. *Meets the General Education Requirement: Integrative and Applied Learning.*
**Prerequisite:** Senior standing and instructor consent

## MUS 494, Commercial Music Internship, 2 Units

This course offers monitored and evaluated professional work experience for the commercial music major. Under regular and periodic faculty supervision, students are placed in a music business environment related to their area of career interest. Placement is limited to situations available from or approved by the supervising instructor. (Note: Credit for prior experience is not available to fulfill the requirements of this course.)
**Prerequisite:** MUS 337 and 1 course of BUSI 110, MUS 338, MUS 328, or MUS 428 and instructor consent

## MUS 495, Production Techniques, 2 Units

The intent of this class is to work in production teams to produce a musical recording project. Each team includes students oriented towards arranging, engineering, music business, and performance. They take on a large project, divide the production tasks, and learn to work as a production team. Topics include session and arrangement planning, budgeting, contracting, preproduction techniques, recording of acoustic and electronic instruments, work process and synchronization, final mix, and mastering. Students are given a budget and use realistic figures for studio time, musicians, tape costs, etc. This is meant to be a shared project, with each student contributing particular skills and orientation to the final product, which can be used as a demonstration of the student's abilities and capacity for working in a production team. As a final step, each student evaluates others on the same production team.
Special Fee Applies
**Prerequisite:** MUS 327 & MUS 428; or MUS 323 & MUS 328; or BUSI 110 & MUS 338; or 10 units applied study and 1 unit each Jazz Ensemble and Improvisation

## MUS 496, Senior Seminar: Ethics in Music, 3 Units

This senior seminar serves musicians planning to work in the private and/or public sectors, including future full-time church musicians, school music educators, private teachers, performers, and freelance musicians. The course focuses on the integration of Christian faith, ethical issues and professional concerns that confront musicians in the work environment.
**Prerequisite:** Senior standing, completion of Writing 3

## MUS 497, Readings, 1-4 Units

This is a program of study concentrating on assigned readings, discussions, and writing arranged between and designed by a student of upper-division standing and a full-time professor. An independent study fee is assessed for each enrollment in this class.

## MUS 498, Directed Research, 1-4 Units

This course provides instruction in research design and technique, and gives students experience in the research process. The 1-unit expectation encompasses no fewer than 30 hours of work with accompanying reading, log, writing, and seminar presentation within the department or in a university research symposium. No more than 1 unit may be used to fulfill preparatory readings requirement. An independent study fee is assessed for each enrollment in this class.
**Prerequisite:** Junior or Senior Standing

# MUS 499, Thesis/Project, 1-4 Units

This is a senior-level "capstone" type of independent study/research experience, involving the student in a unique project with a sophisticated level of creative output or research, synthesis, analysis, and communication. The 1-unit expectation encompasses no fewer than 30 hours of work with accompanying readings, log, instructor discussions, and writing. The thesis or project may result in formal thesis, published article, electronic media, or annotated recital. No more than 1 unit may be used to fulfill preparatory readings requirement. An independent study fee is assessed for each enrollment in this class.
**Prerequisite:** Upper-division writing intensive course or instructor consent; and junior or senior standing

# GMUS 500, Introduction to Graduate Research Methods, 3 Units

In this course, students assess and evaluate various research methods and fields of research in music, achieving mastery of the resources available in academic libraries and online databases. Students employ research tools to develop academic research projects, including abstracts, annotated bibliographies, research papers, and grant proposals. Emphasis and subjects of relevance apply to composers, performers, musicologists, educators, conductors, and researchers. Students interpret the major historical themes, events, and personalities in current academic research.

# GMUS 501A, Seminar in Musicology: The Renaissance, 3 Units

This course traces the development of music in Western and non-Western traditions through various ideas and procedures within specific geographical and cultural time frames. Students examine the implications, in a Christian framework, of the various developments and procedures used in music of classical and folk traditions of Western cultures from the 14th century to the early 16th century.
**Prerequisite:** GMUS 500

# GMUS 501B, Seminar in Musicology: The Baroque, 3 Units

This course traces the development of music in Western and non-Western traditions through various ideas and procedures within specific geographical and cultural time frames. Students examine the implications, in a Christian framework, of the various developments and procedures used in music of classical and folk traditions of Western cultures from the early 16th century to the mid-18th century.
**Prerequisite:** GMUS 500

# GMUS 502A, Seminar in Musicology: The Nineteenth Century, 3 Units

This course traces the development of music in Western traditions through various ideas and procedures within specific geographical and cultural time frames. Students examine the implications, in a Christian framework, of the various developments and procedures used in music of classical and folk traditions of Western cultures from the beginning to the end of the 19th century.
**Prerequisite:** GMUS 500

# GMUS 502B, Seminar in Musicology: The Twentieth Century, 3 Units

This course traces the development of music in Western and non-Western traditions through various ideas and procedures within specific geographical and cultural time frames. Students examine the implications, in a Christian framework, of the various developments and procedures used in music of classical and folk traditions of Western cultures from the beginning to the end of the 20th century.
**Prerequisite:** GMUS 500

# GMUS 503, Advanced Analysis of Form and Style, 3 Units

The forms and structures of music, both choral and instrumental, from Bach to the present are studied. Particular attention is given to the effect of form on interpretation.
**Prerequisite:** MUS 427 or equivalent

# GMUS 504, Advanced Orchestration, 3 Units

This course offers discussion, study, and analysis of orchestrational techniques, as well as scoring for varied instrumental groupings. It concentrates on using scoring knowledge as a conductor and on practical writing techniques.
**Prerequisite:** MUS 423 or equivalent

# GMUS 505, Advanced Choral Arranging, 3 Units

This course is designed to enhance skills in arranging music for performance, with emphasis on choral arranging.
**Prerequisite:** MUS 421 or equivalent

# GMUS 506, Special Topics in Musicology, 3 Units

This course addresses special topics from any period of musicology as decided by the instructor and department.
**Prerequisite:** GMUS 500

# GMUS 507A, Seminar A: Music Education, 1 Unit

This course is part of a 4-unit cycle of 1-unit seminars that address specific topics in music education. Students engage creatively with philosophical and rationalist approaches to modern music education, and master research in the field. Topics are outlined by the professor and department as the program progresses.
**Prerequisite:** GMUS 500

## GMUS 507B, Seminar B: Music Education, 1 Unit

This course is part of a 4-unit cycle of 1-unit seminars that address specific topics in music education. Students engage creatively with philosophical and rationalist approaches to modern music education, and master research in the field. Topics are outlined by the professor and department as the program progresses.
**Prerequisite:** GMUS 500

## GMUS 507C, Seminar C: Music Education, 1 Unit

This course is part of a 4-unit cycle of 1-unit seminars that address specific topics in music education. Students engage creatively with philosophical and rationalist approaches to modern music education, and master research in the field. Topics are outlined by the professor and department as the program progresses.
**Prerequisite:** GMUS 500

## GMUS 507D, Seminar D: Music Education, 1 Unit

This course is part of a 4-unit cycle of 1-unit seminars that address specific topics in music education. Students engage creatively with philosophical and rationalist approaches to modern music education, and master research in the field. Topics are outlined by the professor and department as the program progresses.
**Prerequisite:** GMUS 500

## GMUS 508A, Seminar A: Keyboard Collaborative Arts, 1 Unit

In this course, students collaborate with vocalists in a master class setting. Together they prepare and perform art songs and arias in Italian, French, German, and English. After completing the class, students are able to articulate distinct performance practices for each style. Students verbally present a precis for each song they perform, communicating the poetic content for each work in their own words. In addition, they write a word-for-word translation in the score for each piece. Students are encouraged to critique the performance of their colleagues after each performance. They also interpret the musical language of history's greatest composers.

## GMUS 508B, Seminar B: KCA Instrumental Collaboration, 1 Unit

In this course, students collaborate with vocalists in a master class setting. Together they prepare and perform art songs and arias in Italian, French, German, and English. After completing the class, students are able to articulate distinct performance practices for each style. Students verbally present a precis for each song they perform, communicating the poetic content for each work in their own words. In addition, they write a word-for-word translation in the score for each piece. Students are encouraged to critique the performance of their colleagues after each performance. They also interpret the musical language of history's greatest composers.

## GMUS 508C, Seminar C: KCA Issues in Keyboard Collaboration, 1 Unit

Students collaborate with keyboardists in a master class setting. Together they prepare and perform works from different periods and styles, including French, Italian, Spanish, and German. After completing the class, students are able to articulate distinct performance practices for each style. Students verbally present a precis for each work they perform, communicating the content for each work in their own words. Class participants are encouraged to critique the performance of their colleagues after each performance.

## GMUS 508D, Seminar D: KCA Professional Preparation, 1 Unit

In this seminary, students collaborate with keyboardists in a master class setting. Together they prepare and perform works from different periods and styles, including French, Italian, Spanish, and German. After completing the class, students are able to articulate distinct performance practices for each style. Students learn to prepare professional recitals, chamber works, and vocal and choral works. Class participants are encouraged to critique the performance of their colleagues after each performance.

## GMUS 509A, Conducting I (Choral), 3 Units

Students develop advanced choral conducting and rehearsal techniques. Music from various historical periods and styles are studied and conducted.

## GMUS 510, Conducting II (Instrumental), 3 Units

Students develop advanced instrumental conducting and rehearsal techniques. Emphasis is placed on wind ensemble and orchestral conducting literature.

## GMUS 511, Applied Conducting, 1-3 Units

Each student in this course studies privately with an instructor in preparation for their conducting recital. Ensemble and repertory selections are determined during this course.

## GMUS 513, Philosophical and Psychological Foundations of Music Education, 2 Units

The course addresses philosophical understanding of the foundations of music education coupled with practical application of the principles of the psychology of music in the classroom.

## GMUS 514, Issues in Music Classroom Pedagogy, 2 Units

Students discuss contemporary issues that apply to music classroom teachers. The course is taught in a seminar format.

## GMUS 515, Instrumental Pedagogy, 2 Units

Students survey method books and repertories appropriate for elementary, middle school, and high school settings, and study beginning and intermediate instrumental development in schools, communities, and churches.

## GMUS 516, Social and Historical Foundations of Music Education, 2 Units

This course focuses on musical traditions in America, the development of music teaching, and gaining an understanding of the changing context of American society.

## GMUS 518A, Seminar A: Choral Conducting, 1 Unit

In this course, students study with an instructor and graduate colleagues in a weekly seminar setting, exploring cornerstone literature and fundamental repertoire of the choral art, encompassing Medieval Chant and historic musical compositions spanning the Renaissance, Baroque, and Classical periods within the Western European tradition.

## GMUS 518B, Seminar B: Choral Conducting Literature, 1 Unit

In this seminar, students explore cornerstone literature and fundamental repertoire of the choral art, and "historic informed performance" practices spanning the Romantic period through the 20th and early 21st centuries within the Western European tradition and contemporary choral landscape.

## GMUS 518C, Seminar C: Choral Performance Practice and Rehearsal Techniques, 1 Unit

In this seminar, students explore cornerstone literature and fundamental repertoire of the choral art, and "historic informed performance" practices. Deeper consideration is given to the effect performance practice has on rehearsal and production of concerts, as well as the affected literature.

## GMUS 518D, Seminar D: Professional and Current Issues in Choral Conducting, 1 Unit

In this seminar, students explore cornerstone issues and professional considerations of the choral profession. The focus is on professional conferences and organizations that connect students with professional conductors and colleagues, as well as on controversial issues regarding the choral art in current practice.

## GMUS 519A, Seminar A: Instrumental Conducting, 1 Unit

In this course, students develop advanced instrumental conducting and rehearsal techniques over a series of four seminars. Emphasis is placed on wind ensemble and orchestral conducting literature, performance practice, and historical context.

## GMUS 519B, Seminar B: Instrumental Conducting Literature, 1 Unit

Students develop advanced instrumental conducting and rehearsal techniques over a series of 4 seminars. In this seminar, emphasis is placed on wind ensemble and orchestral conducting literature from the Romantic period through the 21st century.

## GMUS 519C, Seminar C: Instrumental Performance Practice and Rehearsal Techniques, 1 Unit

Students develop advanced instrumental conducting and rehearsal techniques over a series of 4 seminars. In this seminar, students explore cornerstone literature and fundamental repertoire of the instrumental conducting art, and "historic informed performance" practices. Deeper consideration is given to the effect performance practice has on rehearsal and production of concerts as well as the affected literature.

## GMUS 519D, Seminar D: Professional and Current Issues in Instrumental Conducting, 1 Unit

Students develop advanced instrumental conducting and rehearsal techniques over a series of 4 seminars. In this seminar, students explore cornerstone issues and professional considerations of the instrumental profession. Focus is given to professional conferences and organizations that connect students with professional conductors and colleagues, as well as to controversial issues regarding the instrumental conducting art in current practice.

## GMUS 520, Applied Instruction I, 1-3 Units

Individual instruction in an instrument or composition is given in this course. Additional fee is required.
**Prerequisite:** Admission to the graduate program or instructor's permission

## GMUS 524, Keyboard Literature, 2 Units

Students survey keyboard musical literature from all historical periods. Solo and small ensemble literature are emphasized.

## GMUS 525, Chamber Ensemble, 2 Units

This course provides opportunity to rehearse and perform with other musicians in both homogeneous and diverse musical groupings. Literature appropriate to the various groupings is explored.

## GMUS 526, Fingerboard Harmony, 2 Units

This course directly applies the principles of diatonic and chromatic harmony to the guitar fingerboard. Students learn to harmonize melodies on the guitar fingerboard by creating arrangements of various styles. The course also makes realizations of ancient tablature so that the student can make arrangements that adapt to the modern guitar.
**Prerequisite:** Bachelor of Music in guitar performance or Bachelor of Arts with an emphasis in music

## GMUS 527, Guitar Ensemble, 1 Unit

This course develops skills in sight reading and part playing in ensembles of varying sizes from duets to guitar orchestras. Graduate students have the opportunity to assist undergraduates as well as challenge themselves with the more difficult parts of the ensembles relating to upper registers and more technically demanding parts.

## GMUS 528, Organ Literature, 2 Units

A survey of music written for the pipe organ from pre-Renaissance times through the present will be studied. Various organ builders during the centuries will be discussed and how they influenced composition written during their time. Many works will be heard and examined.

## GMUS 529, Literature and Resources for Music Education, 2 Units

This course traces and analyzes appropriate literature for classroom teaching of musical ensembles, as well as resources for music educators.

## GMUS 530, Applied Voice, 1-3 Units

Individual instruction in voice is given in this course. Additional fee is required.
**Prerequisite:** Admission to the graduate program in vocal performance or instructor's permission

## GMUS 534, Vocal Literature A, 2 Units

Students explore a rich and diverse literature: the German Lied or art song. Each student selects a significant Lied composer as well as a Liederzyklus (song cycle) to research and study in planning for a performance. Class meetings consist of interactive learning that includes student research and presentation as a part of the discussion each class. Student presentations are drawn from the course's assigned readings, and all students engage in conversation during classroom presentations. An outline is distributed to help in preparing the presentations. The professor chooses the content of presentations, and this work is assigned at the professor's discretion.

## GMUS 535, Vocal Literature B, 2 Units

Students in this course explore a rich and diverse literature of the art song in American, British, French, Italian, and Russian settings. Each student selects a significant composer as well as a national school or style to research and study in planning for a performance. Class meetings consist of interactive learning that includes student research and presentation as a part of the discussion each class. Student presentations are drawn from the course-assigned readings, and all students engage in conversation during classroom presentations. An outline is distributed, to be used to prepare the presentations. The professor chooses the content of presentations, and work is assigned at their discretion.

## GMUS 536, Seminar in Professional Preparation, 1 Unit

Through study, discussion, practice, and examination, students gain a deeper understanding of the physiology and psychology of the singing voice in professional performance situations. Students study the art of auditioning and its benefits, and read a significant amount of material and comment on that foundational knowledge. In-class discussion, reading responses, and two extensive take-home examinations afford opportunities to exhibit mastery of the material, and students deliver one in-class presentation in addition to giving a public audition.

## GMUS 537, Operatic History and Performance Practice, 3 Units

This course addresses the history of opera from its inception in 1600 to its current practice. The course includes a survey of operatic styles, types, and developments, and educates students about performance practices of the relevant time periods. Students attend and analyze opera performances as part of their coursework, and engage in critical thinking and writing regarding the topic of operatic history.

## GMUS 540, Advanced Vocal Pedagogy, 2 Units

Through study, discussion, practice, and examination, students gain a deeper understanding of the physiology and psychology of the singing voice in solo and choral settings. Students study the anatomy of the larynx, as well as the physiology of breathing, respiration, vowel formants, timbre, registers, and vocal health. Students also read a significant amount of material and comment on that foundational knowledge. In-class discussion, reading responses, and two extensive take-home examinations afford opportunities to exhibit mastery of the material, and students deliver one in-class presentation in addition to teaching a public practice voice lesson.
**Prerequisite:** GMUS 500

## GMUS 541A, Professional Vocal Coaching, 1 Unit

Through study, discussion, practice, and examination, students in this course gain a deeper understanding of the professional use of vocal coaching and how to respond in professional situations with a professional voice coach. Students study the art of vocal coaching and its benefits, and read a significant amount of material and comment on that foundational knowledge. In-class discussion, reading responses, and two extensive take-home examinations afford opportunities to exhibit mastery of the material, and students deliver one in-class presentation in addition to receiving a professional-style vocal coaching.

## GMUS 541B, Advanced Vocal Coaching, 1 Unit

Through study, discussion, practice, and examination, students gain a deeper understanding of the physiology and psychology of the singing voice in vocal coaching situations. Students study the art of vocal coaching and its benefits, and read a significant amount of material and comment on that foundational knowledge. In-class discussion, reading responses, and two extensive take-home examinations afford opportunities to exhibit mastery of the material, and students deliver one in-class presentation in addition to taking a public practice voice coaching.

## GMUS 544, Music Technology Seminar, 3 Units

To broaden students' preparation in using Logic Pro, Finale, and Pro Tools, students learn music software that is new to them. Proficient students deepen their skills and/or learn another software system.

**Prerequisite:** MUS 296 or equivalent, MUS 327 or equivalent, and MUS 423; not required but highly recommended: MUS 322 or equivalent

## GMUS 550, Vocal Collaboration for Pianists, 2 Units

Students learn to collaborate with vocalists in a master class setting. Pianists perform Italian, French, German, and American art songs and arias. Emphasis is placed on both musical and poetic interpretation.

## GMUS 551, Instrumental Collaboration for Pianists, 2 Units

Students learn to collaborate with instrumentalists in a master class setting. Each major historical period is surveyed, and pianists work with instrumentalists from every family of instruments. The repertoire is predominately instrumental sonatas.

## GMUS 561, History of Congregational Song, 2 Units

This course is a study of congregational song from biblical times to present day, emphasizing the use of corporate song in Christian worship. The course includes a study of the lives of the men and women who wrote hymns, the times in which they lived, and the effect this had on their work. Some attention is given to the music to which these texts have been set.

## GMUS 562, Survey of Contemporary Worship Styles, 2 Units

This course investigates the philosophy, practice, and history of diverse worship styles and traditions being used today in the United States as well as around the world. Styles and expressions such as liturgical, traditional, contemporary, blended, Gen X, Taize, and global expressions are discussed and researched to identify their strengths and weaknesses in helping today's church voice its song of worship unto God.

## GMUS 563, Introduction to Technology and Worship, 2 Units

This course is an introduction to the historical, theological, philosophical, and practical uses of technology. Powerpoint, MIDI, sound systems, video projection, and multimedia of all kinds are examined in order to understand the appropriate role of technology in assisting the Church's worship unto God.

## GMUS 565, Aesthetics of Worship, 2 Units

This course focuses on the unique role of aesthetics in worship with particular emphasis on music and the visual symbols of faith and ritual. It includes the study of iconography, imagination, movement, and the dramatic integration of the arts in corporate worship.

## GMUS 567, Arranging: Choral and Instrumental, 2 Units

This course teaches advanced skills in arranging for choral and instrumental ensembles for use in worship services. Arranging for several musical levels is included, from less experienced to advanced levels.

## GMUS 588, Ensemble, 0-1 Units

This course provides opportunity for students to enhance performance skills in a larger ensemble. The specific ensemble in which students participate is determined by their emphasis.

**Prerequisite:** The 0-unit option can be taken only with the permission of the associate dean of graduate studies.

## GMUS 590, Directed Research, 1-3 Units

This course offers individualized assistance in researching thesis materials. A completed prospectus is necessary for advancement to GMUS 591, where the thesis is completed. This course may be repeated for credit until the prospectus is completed to the satisfaction of the advising professor. Two units of this course are required for graduation, but the course may be repeated for credit if necessary.

## GMUS 591, Thesis, 2 Units

This course involves creation and approval of a final written thesis, which is the culmination of a student's area of research. This course may be taken only once.

**Prerequisite:** Successful completion of GMUS 590 Directed Research and permission of the graduate program director to proceed to this final stage of the thesis process.

## GMUS 595, Special Topics in Music, 1-4 Units

This advanced level studio, research or lecture course allows for occasional offerings of diverse topics in music not covered by regular department courses. Special interests of faculty and students may be targeted under this category. Selection varies depending on student interest and faculty availability. It may be repeated for 8 units total, as topic varies.

## GMUS 599, Readings in Music, 1-4 Units

## CMUS 500, Foundations of Music Entrepreneurship, 3 Units

This course examines the fundamentals of a startup as it pertains to the music industry. Topics include record label business structures, strategic improvisation and innovation, your fans as your customers, the power of collaboration (DIY vs. DIT?), building a production and promotion team, contracts, taxes, intellectual property law, and leadership styles.

## CMUS 501, Commercial Music Strategic Marketing, 3 Units

This course covers music marketing, strategic marketing management, and an examination of the relationship between marketing, innovation, and entrepreneurship. The curriculum also reviews tools and methods used for understanding entertainment market environments, marketing implications of new models of distribution, and delivery to customers.

## CMUS 502, Entrepreneurship and Media-Based Streams in Commercial Music, 3 Units

This course analyzes rapid changes in technology, demographics, and music distribution as they challenge musicians and music business organizations to become more entrepreneurial in their planning and practice. This course examines basic principles of entrepreneurship as well as several entrepreneurial models in commercial music streams, with an emphasis on new income streams from the internet and through social networking (content ID and monetization).

## CMUS 503, Commercial Music Structure and Global Industry Issues, 3 Units

This seminar course examines how different organizations are structured to exploit and manage entertainment assets, internationally as well as domestically. Topics include management of copyrights, master recordings and artists, and issues regarding problems in international music distribution and protection of intellectual property.

## CMUS 504, Finance and Accounting for Music Entrepreneurs, 3 Units

This course draws on many areas, including economics, finance, and accounting concepts, encompassing the details of knowing how to discern different types of royalty statements (national and international) and exploring various kinds of music funding (traditional and nontraditional) such as venture capital and crowdfunding.

## CMUS 505, Music and Media, 3 Units

This course is a survey of the creative, business, and technological media systems and entities within the music industry, including entertainment unions, agents, attorneys, concert production, audio engineers, producers, record companies, online distribution, music in film and television, radio promotions and advertising, album and artist registration, IMDb, NARAS, LARAS, CMA, and GMA.

## CMUS 600, Comprehensive Artistic Management, 3 Units

This course is an introduction to creative and business management as it pertains to artists in the sound recording industry. Subjects include execution and evaluation of various management strategies, branding, public relations, and various media types.

## CMUS 601, Public Policy and Strategic Planning in the Music Industry, 3 Units

This seminar course covers government policies that directly affect the music industry, and also focuses on the strategic planning process of decision making, and allocation of resources to fortify a plan of action. It features an application of principles and techniques that make up the music entertainment sector of the U.S. economy, and uses the business-related tenets of law and economics to generate a modern, consistent, and formal framework for strategic decision making.

## CMUS 602, Music Publishing, 3 Units

This course covers performance rights organizations (ASCAP, BMI, SESAC), publishing deals, mechanical licensing, synchronization licensing, music reports, SoundExchange, and Christian Copyright Licensing International (CCLI).

## CMUS 603, Ethics and Faith in Music Industry Management, 3 Units

This course examines the role of faith and ethics within the music industry, exploring Christian beliefs and values that influence business practices. Emphasis is placed on the growth of faith-based entertainment, as well as the historical context of spirituality within the music industry.

## CMUS 604, Music Entrepreneurship Project, 2 Units

Students utilize this capstone project to highlight the knowledge gained from the program. In conjunction with the professor/instructor, each student chooses an area of research and presentation from their particular career specialty, such as publishing, music marketing, touring, artist management, or album/single release coordination.
**Prerequisite:** Completion of 24 units of CMUS courses

## PRMU 201, Introduction to World Music, 3 Units

This course is an introduction to classical, popular, and folk music traditions from around the world, with case studies drawn from Africa, Asia, Eastern Europe, India, Indonesia, Latin America, the Middle East, and native North America. Course discussions focus on the interactions between music and belief systems, contexts, aesthetics, and history, and examine the social organization of music, the components of musical repertoire, and the impact of material culture. Basic theories and methodologies of ethnomusicology are utilized. The course includes lectures, reading, extensive listening, and a group fieldwork project, and is appropriate for majors and nonmajors. *Meets the General Education Requirement: Intercultural Competence.*

## PRMU 337, Music Business I, 2 Units

This course is part of the commercial music emphasis core. Students study careers in commercial music, journals of the business, and networking and career development, and receive an overview of the production process for music and post production, and introduction to: A&R, touring, contracting, copyright law, licenses, royalties, mechanicals, publishing and distribution, performing rights organizations, contracts, legal issues, etc. Recommended for first-semester sophomores.

# Artist Certificate

The Artist's Certificate in Music Performance is designed for aspiring professional musicians who demonstrate outstanding performance ability and seek to advance their performance career. The certificate complements a traditional degree, may prepare the student for additional formal study, and gives the performer the mentor, performance, and industry connections for a career in performing arts.

- Entrance is based on performance ability via an audition and application.

- Artist Certificate students may hold an undergraduate degree, but exceptions can be made for outstanding performers who hold at least a high school diploma.

- In accord with national accreditation standards, the curriculum is based on three primary areas: applied study, ensemble/chamber music participation, and public performances.

| Code | Title | Units |
|---|---|---|
| **All courses are taken 4 times** | | |
| GMAC 570 | Artist Certificate Applied Lesson | 2 |
| GMAC 571 | Artist Certificate Chamber Music | 2 |
| GMAC 572 | Artist Certificate Large Ensemble | 1 |
| GMAC 573 | Artist Certificate Seminar | 1 |
| **Total Units** | | **24** |

Recital Requirements: Artist Certificate students are required to present two solo or collaborative arts recitals with the repertoire approved by the applied instructor and director of the artist certificate program.

## Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate achievement of professional competence in their chosen instrument or voice, including significant technical mastery, capability to produce work and solve professional problems independently, and to establish a coherent set of artistic/intellectual goals which are evident in their work.
2. Demonstrate solo or collaborative arts competence by developing a body of work for evaluation in their specific repertory.
3. Communicate with professionals and laypersons musical ideas, concepts, and requirements related to the practice of their major instrument through musical and oral means.
4. Collaborate as a leader and in areas of musical interpretation and performance.
5. Articulate the ethical responsibility of a professional musician and the relationship between one's faith and one's art.

# BM in Commercial Music

89 units

To prepare students personally and professionally for careers in the music industry, the Department of Commercial Music focuses on integrating skills in the areas of music business, composition and arranging, live and studio performance, audio recording, and production. The combination of internship opportunities, a growing network of working APU alumni, and a faculty of experienced professionals offers students access to strategic links within the Los Angeles music industry.

The Bachelor of Music in Commercial Music (https://www.apu.edu/music/programs/commercial-music-major/) program seeks to produce broadly prepared musicians with the skills required for a variety of careers in commercial music, and who are able to teach themselves skills and practices in an ever-changing commercial music industry.

Students pursuing this program select from one of five tracks: Audio Recording, Composing/Arranging, Instrumental Performance, Music Business, or Vocal Performance.

# Requirements

## General Education Requirements for the Bachelor of Music in Commercial Music

| Code | Title | Units |
| --- | --- | --- |
| GE 100 | First-Year Seminar | 3 |
| WRIT 110 | Writing 1: The Art and Craft of Writing | 3 |
| Writing 2 | | 3 |
| Humanities: Literature | | 3 |
| Social Science | | 3 |
| Natural Science | | 4 |
| **Biblical, Theological, and Philosophical Formation** | | |
| MIN 108 | Christian Life, Faith, and Ministry | 3 |
| UBBL 100 | Introduction to Biblical Literature: Exodus/Deuteronomy | 3 |
| UBBL 230 | Luke/Acts | 3 |
| PHIL 100 | Introduction to Philosophy | 3 |
| or HUM 224 | Core Texts in Philosophy | |
| or HUM 324 | Core Texts in Philosophy | |
| Upper-Division Bible Elective | | 3 |
| Theology | | 3 |
| **Personal and Social Responsibility** | | |
| Intercultural Competence | | 3 |
| **Total Units** | | **40** |

## Commercial Music Tracks

Students must select one of the tracks listed below; they may select more than one track but should be aware that doing so will almost certainly require more than 8 semesters to complete. There is a minimum grade requirement for certain courses in each track. See the appropriate footnote.

## Audio Recording Track

| Code | Title | Units |
| --- | --- | --- |
| **Piano Proficiency** | | **4** |
| **Music Theory** | | **12** |
| MUS 121 | Music Theory I (F/S, Fr, So) [1] | |
| MUS 122 | Music Theory II (F/S, Fr, So) | |
| MUS 221 | Music Theory III (F/S, So, Jr) | |
| MUS 222 | Music Theory IV (F/S, So, Jr) | |
| **Practical Musicianship** | | **4** |
| MUS 133 | Practical Musicianship I (F/S, Fr, So) | |
| MUS 134 | Practical Musicianship II (F/S, Fr, So) | |
| MUS 217 | Practical Musicianship III (F/S, So, Jr) | |
| MUS 220 | Practical Musicianship IV (F/S, So, Jr) | |
| **Music History** | | **9** |
| MUS 352 | Writing 3: Baroque, Classical, and Early Romantic Music Literature (F/S, Jr) [2] | |
| MUS 350 | History and Literature of Commercial Music (F, Jr) | |
| MUS 455 | Late Romantic and 20th-Century Music Literature (F/S, Sr) [3] | |
| **Applied Music** | | **16** |
| **Ensemble Requirement** [4] | | **8** |
| **Other Requirements** | | |
| MUS 296 | Introduction to Music Technology (F/S, Fr) | 2 |
| MUS 441 | Music in Worship (F/S, Jr, Sr) | 3 |
| MUS 210 | Performance Forum (F/S, 8 semesters) | 0 |
| **Commercial Music Courses** [5] | | |
| MUS 107 | Advanced - Intermediate Piano Class | 1 |
| MUS 223 | Web-Based Tools (S, Jr) | 2 |

| MUS 323 | Arranging and Rehearsal Technique | 3 |
|---------|-----------------------------------|---|
| MUS 327 | Audio I | 2 |
| MUS 328 | Audio II | 3 |
| MUS 337 | Music Business I | 2 |
| MUS 349 | Intermediate Logic Pro | 3 |
| MUS 467 | Advanced Pro Tools | 2 |
| MUS 472 | Audio For Post Production | 2 |
| MUS 474 | Music Career Development (F, Sr) | 2 |
| MUS 494 | Commercial Music Internship | 2 |
| MUS 491 | Senior Recital (Students may take either MUS 491 or 492, F/S, Sr) [6] | 0 |
| or MUS 492 | Senior Project in Commercial Music | |
| MUS 495 | Production Techniques | 2 |
| MUS 394 | Critical Listening Skills For Audio Recording Professionals | 2 |
| Commercial Music Elective [7] | | 3 |
| **Total Units** | | **89** |

[1]  Meets the General Education Humanities: Fine Arts requirement.
[2]  Meets the General Education Writing 3 requirement.
[3]  Meets the General Education Humanities: History requirement.
[4]  See details on the APU website (http://www.apu.edu/cma/music/ensembles/).
[5]  A grade of *C* or better is required for all commercial music courses or the course must be repeated.
[6]  Meets the General Education Integrative and Applied Learning requirement.
[7]  Commercial music electives include all courses listed in the tracks not selected by the student as their primary track. Also included are MUS 321, MUS 422, MUS 320, MUS 423, and 3 units of additional applied lessons. Students may petition to have other upper-division music courses count as commercial music electives.

## Composing/Arranging Track

| Code | Title | Units |
|------|-------|-------|
| **Piano Proficiency** | | **4** |
| **Music Theory** | | **12** |
| MUS 121 | Music Theory I (F/S, Fr, So) [1] | |
| MUS 122 | Music Theory II (F/S, Fr, So) | |
| MUS 221 | Music Theory III (F/S, So, Jr) | |
| MUS 222 | Music Theory IV (F/S, So, Jr) | |
| **Practical Musicianship** | | **4** |
| MUS 133 | Practical Musicianship I (F/S, Fr, So) | |
| MUS 134 | Practical Musicianship II (F/S, Fr, So) | |
| MUS 217 | Practical Musicianship III (F/S, So, Jr) | |
| MUS 220 | Practical Musicianship IV (F/S, So, Jr) | |
| **Music History** | | **9** |
| MUS 352 | Writing 3: Baroque, Classical, and Early Romantic Music Literature (F/S, Jr) [2] | |
| MUS 350 | History and Literature of Commercial Music (F, Jr) | |
| or MUS 351 | Ancient, Renaissance, and World Music Literature | |
| MUS 455 | Late Romantic and 20th-Century Music Literature (F/S, Sr) [3] | |
| **Applied Music** | | **18** |
| (8 units in applied performance and 10 units of applied composition) | | |
| **Ensemble Requirement [4]** | | **8** |
| **Other Requirements** | | |
| MUS 296 | Introduction to Music Technology (F/S, Fr) | 2 |
| MUS 441 | Music in Worship (F/S, Jr, Sr) | 3 |
| MUS 210 | Performance Forum (F/S, 8 semesters) | 0 |
| **Commercial Music Courses [5]** | | |
| MUS 107 | Advanced - Intermediate Piano Class | 1 |

| MUS 223 | Web-Based Tools (S, Jr) | 2 |
|---------|------------------------|---|
| MUS 322 | Score Preparation and Printing | 2 |
| MUS 323 | Arranging and Rehearsal Technique | 3 |
| MUS 327 | Audio I | 2 |
| MUS 337 | Music Business I | 2 |
| MUS 349 | Intermediate Logic Pro | 3 |
| MUS 423 | Orchestration I | 3 |
| MUS 428 | Arranging II | 2 |
| MUS 473 | Composing for Film and Television | 3 |
| MUS 474 | Music Career Development (F, Sr) | 2 |
| MUS 491 | Senior Recital (Students may take either MUS 491 or 492, F/S, Sr) [6] | 0 |
| or MUS 492 | Senior Project in Commercial Music | |
| MUS 494 | Commercial Music Internship | 2 |
| MUS 495 | Production Techniques | 2 |
| **Total Units** | | **89** |

[1]   Meets the General Education Humanities: Fine Arts requirement.
[2]   Meets the General Education Writing 3 requirement.
[3]   Meets the General Education Humanities: History requirement.
[4]   See details on the APU website (http://www.apu.edu/cma/music/ensembles/).
[5]   A grade of *C* or better is required for all commercial music courses or the course must be repeated.
[6]   Meets the General Education Integrative and Applied Learning requirement.

## Instrumental Performance Track

| Code | Title | Units |
|------|-------|-------|
| **Piano Proficiency** | | **4** |
| **Music Theory** | | **12** |
| MUS 121 | Music Theory I (F/S, Fr, So) [1] | |
| MUS 122 | Music Theory II (F/S, Fr, So) | |
| MUS 221 | Music Theory III (F/S, So, Jr) | |
| MUS 222 | Music Theory IV (F/S, So, Jr) | |
| **Practical Musicianship** | | **4** |
| MUS 133 | Practical Musicianship I (F/S, Fr, So) | |
| MUS 134 | Practical Musicianship II (F/S, Fr, So) | |
| MUS 217 | Practical Musicianship III (F/S, So, Jr) | |
| MUS 220 | Practical Musicianship IV (F/S, So, Jr) | |
| **Music History** | | **9** |
| MUS 352 | Writing 3: Baroque, Classical, and Early Romantic Music Literature (F/S, Jr) [2] | |
| MUS 350 | History and Literature of Commercial Music (F, Jr) | |
| MUS 455 | Late Romantic and 20th-Century Music Literature (F/S, Sr) [3] | |
| **Applied Music** | | **16** |
| **Ensemble Requirement** [4] | | **8** |
| **Other Requirements** | | |
| MUS 296 | Introduction to Music Technology (F/S, Fr) | 2 |
| MUS 361 | Introduction to Conducting (F, Jr) | 2 |
| MUS 441 | Music in Worship (F/S, Jr, Sr) | 3 |
| MUS 210 | Performance Forum (F/S, 8 semesters) | 0 |
| **Commercial Music Courses** [5] | | |
| MUS 107 | Advanced - Intermediate Piano Class | 1 |
| MUS 223 | Web-Based Tools (S, Jr) | 2 |
| MUS 323 | Arranging and Rehearsal Technique | 3 |
| MUS 324 | Songwriting | 2 |
| MUS 327 | Audio I | 2 |

| Code | Title | Units |
|------|-------|-------|
| MUS 337 | Music Business I | 2 |
| MUS 423 | Orchestration I | 3 |
| MUS 474 | Music Career Development (F, Sr) | 2 |
| MUS 491 | Senior Recital (F/S, Sr) [6] | 0 |
| MUS 494 | Commercial Music Internship | 2 |
| MUS 495 | Production Techniques | 2 |
| Commercial Music Elective [7] | | 2 |
| Additional Ensemble Requirement (select from the following four options) | | 6 |
| MUS 382 & MUS 383 | Jazz and Commercial Ensemble and Jazz and Commercial Ensemble | |
| MUS 389 & MUS 390 | Commercial Styles I and Commercial Styles II | |
| MUS 391 & MUS 392 | Jazz Improvisation Workshop and Jazz Improvisation Workshop | |
| MUS 407 & MUS 408 | Commercial Styles III and Commercial Styles IV | |
| **Total Units** | | **89** |

[1]  Meets the General Education Humanities: Fine Arts requirement.
[2]  Meets the General Education Writing 3 requirement.
[3]  Meets the General Education Humanities: History requirement.
[4]  See details on the APU website (http://www.apu.edu/cma/music/ensembles/).
[5]  A grade of *C* or better is required for all commercial music courses or the course must be repeated.
[6]  Meets the General Education Integrative and Applied Learning requirement.
[7]  Commercial music electives include all courses listed in the tracks not selected by the student as their primary track. Also included are MUS 321 and MUS 422.

## Music Business Track

| Code | Title | Units |
|------|-------|-------|
| **Piano Proficiency** | | **4** |
| **Music Theory** | | **12** |
| MUS 121 | Music Theory I (F/S, Fr, So) [1] | |
| MUS 122 | Music Theory II (F/S, Fr, So) | |
| MUS 221 | Music Theory III (F/S, So, Jr) | |
| MUS 222 | Music Theory IV (F/S, So, Jr) | |
| **Practical Musicianship** | | **4** |
| MUS 133 | Practical Musicianship I (F/S, Fr, So) | |
| MUS 134 | Practical Musicianship II (F/S, Fr, So) | |
| MUS 217 | Practical Musicianship III (F/S, So, Jr) | |
| MUS 220 | Practical Musicianship IV (F/S, So, Jr) | |
| **Music History** | | **9** |
| MUS 352 | Writing 3: Baroque, Classical, and Early Romantic Music Literature (F/S, Jr) [2] | |
| MUS 350 | History and Literature of Commercial Music (F, Jr) | |
| MUS 455 | Late Romantic and 20th-Century Music Literature (F/S, Sr) [3] | |

[1]  Meets the General Education Humanities: Fine Arts requirement.
[2]  Meets the General Education Writing 3 requirement.
[3]  Meets the General Education Humanities: History requirement.
[4]  See details on the APU website (http://www.apu.edu/cma/music/ensembles/).
[5]  A grade of *C* or better is required for all commercial music courses or the course must be repeated.
[6]  Meets the General Education Integrative and Applied Learning requirement.
[7]  Commercial music electives include all courses listed in the tracks not selected by the student as their primary track. Also included are MUS 321, MUS 422, MUS 320, MUS 423, and 3 units of additional applied lessons. Students may petition to have other upper-division music courses count as commercial music electives.

## Course Requirements Legend

| Course Requirement Availability: | Recommended Year: |
|---|---|
| F = Offered every fall | Fr = Freshman |
| S = Offered every spring | So = Sophomore |
| E = Even year | Jr = Junior |
| O = Odd year | Sr = Senior |

## Music Theory Proficiency

The Music Theory Placement Examination is given to incoming students who are not transferring credit for Music Theory I from another college or university. This examination measures the student's background in music theory and ensures placement at the appropriate level. The examination may be taken online. Students who are not ready for Music Theory I take MUS 120, and upon successful completion of MUS 120, begin the music theory sequence in the next semester. Music theory is taken in sequential order (I, II, III, IV). Before advancing to the next level, a grade of *C* or better is required. If a *C* or better is not achieved at any level, the course must be repeated.

## Practical Musicianship

Practical musicianship is taken in sequential order (I, II, III, IV). Before advancing to the next level, a grade of *C* or better is required. If a *C* or better is not achieved at any level, the course must be repeated.

## Introduction to Music Technology

A grade of *C* or better is required in MUS 296 Introduction to Music Technology, or the course must be repeated.

## Piano Proficiency

Commercial music students are required to take the five-semester piano proficiency sequence, MUS 103-107, at the beginning of their commercial music program. A grade of *C* or better is required at each level or the course must be repeated. Students may, by audition, be allowed to waive one or more of these courses because of previous piano experience.

## Grade-Point Average and Minimum Grade Requirements

Music students must maintain a 2.5 GPA for all upper-division music courses (those classified as 300 and 400 level). Students with a cumulative GPA lower than 2.0 or who are on probation are not eligible to participate in a performing group other than Masterworks Chorale. A grade of *C* or better is required in all courses listed under the subheading Commercial Music Courses, or the course must be repeated. See appropriate footnote.

## Performance Forum

MUS 210 meets every Monday at 4:20 p.m. and features a variety of presentations including student recitals, guest artists, and lecturers. Music students must be continuously enrolled in Performance Forum for eight semesters. This class is graded pass/fail based on attendance. Students who do not pass the course will be required to take MUS 353 Concert Music to make up the deficiency. Transfer students must enroll in MUS 210 and an approved ensemble every semester in attendance, up to eight semesters.

## Recital Performance

Each performance major must present a solo performance annually in a student recital. This requirement can be met through either a Performance Forum student recital, junior recital, or senior recital. Non-performance majors must present a solo performance annually in either a studio recital, typically scheduled by the applied music instructor, or Performance Forum student recital. In the case of a student who is taking instruction in more than one applied area, recital performance is required only in the primary applied area.

Senior recitals are required of all performance majors during their senior year. Bachelor of Music students pursuing either the Instrumental Performance track or Vocal Performance track must present a junior *and* a senior recital and register for MUS 491 when preparing their senior recital.

Students giving junior or senior recitals should follow the guidelines in the Azusa Pacific University Department of Music Recital Confirmation Packet (available through the Department of Music office).

## Applied Music

1. Students must take at least 16 units in their primary applied area.
2. Students must take 2 units of applied lessons the semester of their senior recital.
3. Jury examinations are required each semester for all students taking applied lessons. Presentation of a junior or senior recital fulfills this requirement.
4. All students, in conjunction with the instructor, are responsible for securing an accompanist for juries by the indicated deadlines. There are three ways to secure an accompanist:
   a. Faculty may request an accompanist with the Accompanist Request Form available in the Department of Music office by the indicated deadlines.
   b. Faculty may request a specific accompanist by submitting an Accompanist Request Form available in the Department of Music office by the indicated deadlines.
   c. If no Accompanist Request Form is submitted, or is requested after the published deadlines, faculty members are responsible to secure an accompanist for their students.
5. Applied lessons:
   a. Grades for applied lessons are issued based on a minimum of 12 lessons per semester. The grade will be lowered if the student attends fewer than the minimum of 12 lessons. Additionally, if the student does not meet the annual mandatory solo performance requirement, an *F* will be assigned for the spring semester applied grade.
   b. The area director will assign an instructor.
   c. When the student is ill and notifies the teacher in advance, a makeup lesson will be rescheduled if possible. Students should consult their Applied Music course syllabus to determine what constitutes sufficient advanced notice. "No-show" students do not receive makeup lessons.

## Ensemble Requirement

In each of eight semesters as music majors, students must participate in an appropriate performance ensemble. The information for the appropriate ensemble for each degree and concentration is clearly articulated in the Undergraduate Music Student Handbook and further communicated through the music student advisement process. Membership in multiple ensembles in a given semester counts as only one semester toward the ensemble requirement. Transfer students must participate in a performance ensemble each semester until they graduate or accumulate eight semesters.

# Program Learning Outcomes

# Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Command of Skills: Demonstrate a command of skills required for comprehensive musicianship, including sight singing/ear training, functional keyboard, music technology, and analysis.
2. Contextual Understanding: Demonstrate understanding of music in historical, cultural, and stylistic context.
3. Creative or Interpretive Utilization: Demonstrate creative or interpretive utilization of skills and contextual understanding.

4. Career-Oriented Application: Demonstrate career-oriented application of skills.
5. Music and Faith: Demonstrate appropriate understanding of the intersection of music and faith.

# BM in Composition

88 units

The composition major (https://www.apu.edu/music/programs/composition-major/) is designed for students planning for graduate study in composition or work as a professional composer, helping them discover a distinctive voice and develop a portfolio of compositions. In addition to composition, courses in theory, music history, literature, conducting, and technology give the student thorough preparation in comprehensive musicianship.

Admission to the program is by audition and submission of previous compositions. Students with minimal compositional experience may be admitted at the discretion of the composition faculty, provided they show promise and strong general musicianship in other ways.

Applied composition students must submit their work to a jury at the end of each semester. Admission to upper-division status in the program is contingent upon:

- Successful completion of the first two years of composition study as determined, in part, by the jury following the sophomore year, at which point significant compositional progress and output must be shown.
- A grade-point average of at least 2.5 in the combination of courses in Music Theory, Practical Musicianship, Piano (class or applied), Introduction to Music Technology, and Applied Composition.
- Adequate progress in acquiring specific keyboard skills suitable for composers.
- Each student is required to have a composition performed in performance forum, studio recital, master class, reading session, or ensemble performance at least once per year. It is the student's responsibility to recruit performers and schedule adequate rehearsal to produce an acceptable performance. The composition and performance context must be approved in advance by the composition instructor. The student and instructor should begin planning this early in each school year.

## General Education Requirements for the Bachelor of Music in Composition

| Code | Title | Units |
|---|---|---|
| GE 100 | First-Year Seminar | 3 |
| WRIT 110 | Writing 1: The Art and Craft of Writing | 3 |

| MUS 427 | Form and Analysis (F, Jr, Sr) | |
| **Total Units** | | **34** |

[1]    Meets the General Education Integrative and Applied Learning requirement.

| Course Requirement Availability: | Recommended Year: |
|---|---|
| F = Offered every fall | Fr = Freshman |
| S = Offered every spring | So = Sophomore |
| E = Even year | Jr = Junior |
| O = Odd year | Sr = Senior |

## Music Theory Proficiency

The Music Theory Placement Examination is given to incoming students who are not transferring credit for Music Theory I from another college or university. This examination measures the student's background in music theory and ensures placement at the appropriate level. The examination may be taken online. Students who are not ready for Music Theory I take MUS 120, and upon successful completion of MUS 120 , begin the music theory sequence in the next semester. Music theory is taken in sequential order (I, II, III, IV). Before advancing to the next level, a grade of *C* or better is required. If a *C* or better is not achieved at any level, the course must be repeated.

## Practical Musicianship

Practical musicianship is taken in sequential order (I, II, III, IV). Before advancing to the next level, a grade of *C* or better is required. If a *C* or better is not achieved at any level, the course must be repeated.

## Piano Proficiency

Each student must register for a piano class or Applied Piano until the Piano Proficiency Examination is passed. Examination fact sheets are available in the School of Music office. Students will not be cleared to graduate until they have passed the proficiency examination; students in the Bachelor of Music in Composition program have an extended Piano Proficiency Examination that is usually met at the conclusion of MUS 108.

## Grade-Point Average

Music students must maintain a 2.5 GPA for all upper-division music classes (those classified as 300 and 400 level). Students with a cumulative GPA lower than 2.0 or who are on probation are not eligible to participate in a performing group other than Masterworks Chorale.

## Performance Forum

MUS 210 meets every Monday at 4:20 p.m. and features a variety of presentations including student recitals, guest artists, and lecturers. Music students must be continuously enrolled in Performance Forum for eight semesters. This course is graded pass/fail based on attendance. Students who do not pass the course will be required to take MUS 353 Concert Music to make up the deficiency. Transfer students must enroll in MUS 210 and an approved ensemble every semester in attendance, up to eight semesters. Composition master classes that occur during Performance Forum are required for Bachelor of Music in Composition students, and suggested for all students taking applied composition lessons.

## Recital Performance

Composition students must present a solo performance annually in either a studio recital (arranged by the applied teacher) or performance forum student recital. In the case of a student who is taking instruction in more than one applied area, recital performance is required only in the primary applied area.

Composition students giving senior recitals should follow the guidelines in the Azusa Pacific University School of Music Recital Confirmation Packet available through the School of Music office.

## Applied Music

1. Students are required to take at least 16 units in one applied area.
2. Students must take at least 1 unit of applied lessons each semester, even if the minimum number of units for their emphasis has been met. Students must take 2 units of applied lessons the semester of their senior recital.
3. Jury examinations are required each semester for all students taking private lessons. Presentation of a junior or senior recital fulfills this requirement.
4. All students, in conjunction with the instructor, are responsible for selecting an accompanist for juries by the indicated deadlines. There are three ways to select an accompanist:
   a. Faculty may request an accompanist with the Accompanist Request Form available in the School of Music office by the indicated deadlines.
   b. Faculty may request a specific accompanist by submitting an Accompanist Request Form available in the School of Music office by the indicated deadlines.
   c. If no Accompanist Request Form is submitted, or is requested after the published deadlines, faculty members are responsible to make arrangements for their students.
5. Private lessons:
   a. Grades for private lessons are issued based on a minimum of 12 lessons per semester. The grade will be lowered if the student attends fewer than the minimum of 12 lessons. Additionally, if the student does not meet the mandatory annual solo performance requirement, an *F* will be assigned for the spring semester applied grade.
   b. The area director will assign an instructor.
   c. When the student is ill and notifies the teacher in advance, a makeup lesson will be rescheduled if possible. "No-show" students do not receive makeup lessons.

## Upper-Division Concentration

Bachelor of Music in Composition students must earn a grade of *C* or higher in all of their upper-division concentration classes. Otherwise, the course(s) must be repeated.

## Ensemble Requirement

In each of eight semesters as music majors, students must participate in an appropriate performance ensemble. The information for the appropriate ensemble for each degree and concentration is clearly articulated in the Undergraduate Music Student Handbook and further communicated through the music student advisement process. Membership in multiple ensembles in a given semester counts as only one semester toward the ensemble requirement. Transfer students must participate in a performance ensemble each semester until they graduate or accumulate eight semesters.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Command of Skills: Demonstrate a command of skills required for comprehensive musicianship, including sight singing/ear training, functional keyboard, music technology, and analysis.
2. Contextual Understanding: Demonstrate understanding of music in historical, cultural, and stylistic context.
3. Creative or Interpretive Utilization: Demonstrate creative or interpretive utilization of skills and contextual understanding.
4. Career-Oriented Application: Demonstrate career-oriented application of skills.
5. Music and Faith: Demonstrate appropriate understanding of the intersection of music and faith.

# BM in Music and Worship

92 units

The music and worship major (https://www.apu.edu/music/programs/music-worship-major/) provides students with specialized training in the field of worship studies, and consists of preparation in music, worship, and theology. Graduates are given philosophical and practical tools needed to work effectively as vocational leaders in the field, while also being prepared for more specialized graduate studies. In addition to the music major core, coursework addresses worship arts leadership, technology, theology, culture, congregational song, worship design, and the practical tools needed for ensemble leadership and development. In addition, students choose from a variety of concentrations, including Vocal Performance, Instrumental Performance, Composing/Songwriting, Music Production, Global Worship and Culture, Biblical Studies, Christian Ministries, and Fine Arts.

Graduates with a degree in music and worship assume positions as pastoral musicians, worship leaders, artistic directors, technical artists; in Christian schools as teachers and administrators; and in artistic ministry positions for various parachurch organizations.

Those interested in this degree should contact the School of Music as soon as possible to obtain an advisor and begin academic planning, then contact the Student Services Center (https://www.apu.edu/undergraduate-enrollment-services/) to declare music and worship as their major. Those who decide to major in music and worship should enroll in MUS 160 to begin their course of study.

## General Education Requirements for the Bachelor of Music in Music and Worship

| Code | Title | Units |

| MUS 378 | Worship Studio II | 1 |
| MUS 401 | Worship Studio III | 1 |
| MUS 402 | Worship Studio IV | 1 |
| **Total Units** | | **80** |

[1]   Meets the General Education Humanities: Fine Arts requirement.

2   Meets the General Education Writing 3 requirement.
3   Meets the General Education Humanities: History requirement.
4   See details on the APU website (http://www.apu.edu/music/ensembles/). Taking 4 semesters of musical ensembles meets the General Education Civic Knowledge and Engagement requirement.
5   Meets the General Education Integrative and Applied Learning requirement.

## Music and Worship Concentrations

Students must select one of the following concentrations.

### Biblical Studies Concentration

| Code | Title | Units |
|------|-------|-------|
| Choose 12 units in UBBL 3XX-UBBL 4XX courses in addition to General Education requirements | | 12 |
| **Total Units** | | **12** |

### Christian Ministries Concentration

| Code | Title | Units |
|------|-------|-------|
| WRIT 200 | Writing 2: Writing for Christian Practice [1] | 3 |
| MINC 318 | Theology and Practice of Ministry | 3 |
| Select two of the following: | | 6 |
| MIN 300 | Writing 3: Culture and Ministry [2] | |
| MINC 467 | Spiritual Transformation | |
| MINC 487 | Exegeting the City | |
| MIN 301 | Adolescent Development in Family Ministry | |
| MINY 403 | Adolescent Issues and Intervention | |
| MIN 496 | Senior Seminar: Church and Society [3] | |
| THEO 496 | Senior Seminar: Theology and Social Issues [3] | |
| **Total Units** | | **12** |

1   Meets the General Education Writing 2 requirement.
2   Meets the General Education Writing 3 requirement.
3   Meets the General Education Integrative and Applied requirement.

### Fine Arts Concentration

| Code | Title | Units |
|------|-------|-------|
| Select four of the following: | | 12 |
| ART 105 | Ceramics I [1] | |
| ART 130 | Two-Dimensional Design | |
| ART 145 | Drawing I [1] | |
| ART 146 | Painting I | |
| ART 150 | Introduction to Art [1] | |
| ART 160 | Photography I [1] | |
| ART 210 | Printmaking: Relief | |
| ART 260 | Photography II | |
| DSGN 281 | Elements and Principles of Typography | |
| ART 356 | Writing 3: History of Modern Art and Architecture [2] | |
| ART 361 | History of Early Christian and Medieval Art and Architecture [1] | |
| ART 362 | History of Renaissance to Rococo Art and Architecture [1] | |
| DSGN 383 | Illustrating with Type | |
| CINE 101 | Christianity and the Creative Process [1] | |
| CINE 160 | Introduction to Digital Filmmaking [1] | |
| CINE 174 | Introduction to Storytelling | |
| CINE 280 | Writing the Short Screenplay | |

| | | |
|---|---|---|
| DSGN 120 | Introduction to Computer Graphics | |
| THTR 110 | Introduction to Acting [1] | |
| THTR 115 | Introduction to Theater [1] | |
| THTR 221 | Theatrical Sets and Properties | |
| THTR 224 | Introduction to Stage Management | |
| **Total Units** | | **12** |

[1]    Meets the General Education Humanities: Fine Arts requirement.

[2]    Meets the General Education Writing 3 requirement.

## Music Production Concentration

| Code | Title | Units |
|---|---|---|
| MUS 223 | Web-Based Tools | 2 |
| MUS 327 | Audio I | 2 |
| MUS 328 | Audio II | 3 |
| MUS 349 | Intermediate Logic Pro | 3 |
| Electives [1] | | 2 |
| MUS 322 | Score Preparation and Printing | |
| MUS 377 | Worship Studio I | |
| MUS 378 | Worship Studio II | |
| MUS 401 | Worship Studio III | |
| MUS 402 | Worship Studio IV | |
| MUS 337 | Music Business I | |
| MUS 467 | Advanced Pro Tools | |
| MUS 474 | Music Career Development | |
| MUS 495 | Production Techniques | |
| **Total Units** | | **12** |

[1]    Music and worship electives include all courses listed in the tracks not selected by the student as their primary track. Also included are MUS 321, MUS 422, MUS 320, MUS 423, MUS 427, and additional applied lessons. Students may petition to have other upper-division music courses count as Music and Worship electives.

## Composing/Songwriting Concentration

| Code | Title | Units |
|---|---|---|
| MUS 324 | Songwriting | 2 |
| MUS 337 | Music Business I | 2 |
| MUS 474 | Music Career Development | 2 |
| MUS 1C1 | Applied Composition Class | 2 |
| Select two of the following: | | 2 |
| MUS 377 | Worship Studio I | |
| MUS 378 | Worship Studio II | |
| MUS 401 | Worship Studio III | |
| MUS 402 | Worship Studio IV | |
| Electives [1] | | 2 |
| MUS 322 | Score Preparation and Printing | |
| MUS 338 | Music Business II | |
| MUS 389 | Commercial Styles I | |
| MUS 390 | Commercial Styles II | |
| MUS 407 | Commercial Styles III | |
| MUS 408 | Commercial Styles IV | |

| | | |
|---|---|---|
| Additional Applied Composition Units | | |
| **Total Units** | | **12** |

[1]  Music and worship electives include all courses listed in the tracks not selected by the student as their primary track. Also included are MUS 320, MUS 321, MUS 422, MUS 423, MUS 427, and additional applied lessons. Students may petition to have other upper-division music courses count as Music and Worship electives.

## Vocal Performance Concentration

| Code | Title | Units |
|---|---|---|
| Applied Music | | 4 |
| MUS 362 | Choral Conducting | 2 |
| Select two of the following: | | 2 |
| MUS 377 | Worship Studio I | |
| MUS 378 | Worship Studio II | |
| MUS 401 | Worship Studio III | |
| MUS 402 | Worship Studio IV | |
| Additional Ensembles [1] | | 4 |
| **Total Units** | | **12** |

[1]  Students may include up to four semesters of MUS 151 Chamber Ensemble (Chapel Band). In addition, students may choose from any ensemble within the School of Music, including: MUS 389, MUS 390, MUS 391, MUS 392, MUS 407, and MUS 408.

## Instrumental Performance Concentration

| Code | Title | Units |
|---|---|---|
| Applied Music | | 4 |
| MUS 363 | Instrumental Conducting | 2 |
| Select two of the following: | | 2 |
| MUS 377 | Worship Studio I | |
| MUS 378 | Worship Studio II | |
| MUS 401 | Worship Studio III | |
| MUS 402 | Worship Studio IV | |
| Additional Ensembles [1] | | 4 |
| **Total Units** | | **12** |

[1]  Students may include up to four semesters of MUS 151 Chamber Ensemble (Chapel Band). In addition, students may choose from any ensemble within the School of Music, including:  MUS 389, MUS 390, MUS 391, MUS 392, MUS 407, and MUS 408.

## Global Worship and Culture Concentration

| Code | Title | Units |
|---|---|---|
| GLBL 201 | Anthropology for Everyday Life [1] | 3 |
| MUS 201 | Introduction to World Music [1] | 3 |
| MUS 302 | Soul Music [1] | 3 |
| Select one of the following | | 3 |
| MUS 204 | Music of Latin America | |
| MUS 205 | Music of Asia | |
| MUS 301 | Music of Africa | |
| **Total Units** | | **12** |

[1]  Meets the General Education Intercultural Competence requirement.

## Course Requirements Legend

| Course Requirement Availability: | Recommended Year: |
|---|---|
| F = Offered every fall | Fr = Freshman |
| S = Offered every spring | So = Sophomore |
| E = Even Year | Jr = Junior |
| O = Odd Year | Sr = Senior |

## Music Theory Proficiency

The Music Theory Placement Examination is given to incoming students who are not transferring credit for Music Theory I from another college or university. This examination measures the student's background in music theory and ensures placement at the appropriate level. The examination is normally taken online. Students who are not ready for Music Theory I take MUS 120, and upon successful completion of MUS 120, begin the music theory sequence in the next semester. Music theory is taken in sequential order (I, II, III, IV). Before advancing to the next level, a grade of *C* or better is required. If a *C* or better is not achieved at any level, the course must be repeated.

## Practical Musicianship

Practical musicianship is taken in sequential order (I, II, III, IV). Before advancing to the next level, a grade of *C* or better is required. If a *C* or better is not achieved at any level, the course must be repeated.

## Piano Proficiency

Each student must register for a piano class or Applied Piano until the Piano Proficiency Examination is passed. Examination fact sheets are available in the School of Music office. Students will not be cleared to graduate until they have passed the proficiency examination, which is usually met at the conclusion of MUS 106.

## Grade-Point Average

Music students must maintain a 2.5 GPA for all upper-division music classes (those classified as 300- and 400-level). Students with a cumulative GPA lower than 2.0 or who are on probation are not eligible to participate in a performing group other than Masterworks Chorale.

## Performance Forum

MUS 210 meets every Monday at 4:20 p.m. and features a variety of presentations including student recitals, guest artists, and lecturers. Music students must be continuously enrolled in Performance Forum for eight semesters. This class is graded pass/fail based on attendance. Students who do not pass the course will be required to take MUS 353 Concert Music to make up the deficiency. Transfer students must enroll in MUS 210 and an approved ensemble every semester in attendance, up to eight semesters.

## Recital Performance

Music and worship majors must present a solo performance annually in either a studio recital, performance forum student recital, or senior recital. In the case of a student who is taking instruction in more than one applied area, recital performance is required only in the primary applied area.

All students must take applied jury each semester. Students giving senior recitals should follow the guidelines in the Azusa Pacific University School of Music Recital Confirmation Packet (available through the School of Music office).

## Applied Music

1. Students must take at least 16 units of applied music study.
2. Students must take at least 1 unit of applied lessons each semester, even if the minimum number of units for their emphasis has been met. Students must take 2 units of applied lessons the semester of their senior recital (capstone project).
3. Jury examinations are required each semester for all students taking private lessons. Presentation of a junior or senior recital fulfills this requirement.
4. All students, in conjunction with the instructor, are responsible for selecting an accompanist for juries by the indicated deadlines. There are three ways to select an accompanist:
   a. Faculty may request an accompanist with the Accompanist Request Form available in the School of Music office by the indicated deadlines.
   b. Faculty may request a specific accompanist by submitting an Accompanist Request Form available in the School of Music office by the indicated deadlines.
   c. If no Accompanist Request Form is submitted, or is requested after the published deadlines, faculty members are responsible to make arrangements for their students.
5. Private lessons:
   a. Grades for private lessons are issued based on a minimum of 12 lessons per semester. The grade will be lowered if the student attends fewer than the minimum of 12 lessons. Additionally, if the student does not meet the mandatory annual solo performance requirement, an *F* will be assigned for the spring semester applied grade.
   b. The area director will assign an instructor.

c. When the student is ill and notifies the teacher in advance, a makeup lesson will be rescheduled if possible. "No-show" students do not receive makeup lessons.

## Upper-Division Concentration

Music and worship students must earn a grade of *C* or higher in all of their upper-division concentration classes. Otherwise, the course(s) must be repeated.

## Ensemble Requirement

In each of eight semesters as music majors, students must participate in an appropriate performance ensemble. The information for the appropriate ensemble for each degree and concentration is clearly articulated in the Undergraduate Music Student Handbook and further communicated through the music student advisement process. Membership in multiple ensembles in a given semester counts as only one semester toward the ensemble requirement. Transfer students must participate in a performance ensemble each semester until they graduate or accumulate eight semesters.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate a command of skills required for comprehensive musicianship, including sight singing/ear training, functional keyboard, music technology, and analysis.
2. Demonstrate understanding of music in historical, cultural and stylistic context.
3. Demonstrate creative or interpretive utilization of skills and contextual understanding.
4. Demonstrate career-oriented application of skills.
5. Demonstrate appropriate understanding of the intersection of music and faith.

# BM in Music Education (Pre-Teacher Certification)

89 units

The music education (pre-teacher certification) major (https://www.apu.edu/music/programs/music-education-major/) provides future vocal, instrumental, and general music teachers the necessary skills, knowledge, and appropriate methodologies for success at all levels of music education within California. The California Commission on Teacher Credentialing for public schools endorses this specialization. Certification for teaching music in California public schools requires additional coursework in the School of Education (see the Division of Teacher Education (p. 503) section in the catalog for specific requirements), including clinical practice under supervision of a master teacher from the School of Music.

All music education students are required to pass a sophomore music education proficiency examination, which includes a solo performance on their main applied instrument or voice, an interview, and a review of their performance in the aural skills class, including individual critiques from the instructors of that class. If students do not pass this proficiency exam, they are not permitted to continue as a music education major. All music education students must join the student chapter of the National Association for Music Education (NAfME) (https://nafme.org/).

## General Education Requirements for the Bachelor of Music in Music Education

| MUS 233 | Improvisation for Music Education | |
| **Total Units** | | **89** |

[1]    Meets the General Education Humanities: Fine Arts requirement.
[2]    Meets the General Education Writing 3 requirement.
[3]    Meets the General Education Humanities: History requirement.
[4]    Meets the General Education Integrative and Applied Learning requirement.

## Instrumental Emphasis

| Code | Title | Units |
|---|---|---|
| Students must take a total of 9 units of ensemble. For the instrumental emphasis, students should enroll in 8 units in any combination or order from the following: Symphonic Band, Wind Ensemble, and Symphony Orchestra. In addition, 1 unit must be completed in University Choir, Oratorio Choir, or Chamber Singers. | | 8 |
| Symphonic Band | | |
| MUS 142 | Symphonic Band (F/S) | |
| MUS 143 | Symphonic Band (F/S) | |
| MUS 244 | Symphonic Band (F/S) | |
| MUS 245 | Symphonic Band (F/S) | |
| MUS 342 | Symphonic Band (F/S) | |
| MUS 343 | Symphonic Band (F/S) | |
| MUS 449 | Symphonic Band (F/S) | |
| MUS 450 | Symphonic Band (F/S) | |
| Wind Ensemble | | |
| MUS 187 | Wind Ensemble (F/S) | |
| MUS 188 | Wind Ensemble (F/S) | |
| MUS 289 | Wind Ensemble (F/S) | |
| MUS 290 | Wind Ensemble (F/S) | |
| MUS 387 | Wind Ensemble (F/S) | |
| MUS 388 | Wind Ensemble (F/S) | |
| MUS 489 | Wind Ensemble (F/S) | |
| MUS 490 | Wind Ensemble (F/S) | |
| Symphony Orchestra | | |
| MUS 271 | Symphony Orchestra (F/S) | |
| MUS 272 | Symphony Orchestra (F/S) | |
| MUS 371 | Symphony Orchestra (F/S) | |
| MUS 372 | Symphony Orchestra (F/S) | |
| Students must also complete one from the following: | | 1 |
| MUS 140 | University Choir | |

| MUS 141 | University Choir |
| MUS 242 | University Choir |
| MUS 243 | University Choir |
| MUS 340 | University Choir & Orchestra |
| MUS 341 | University Choir & Orchestra |
| MUS 435 | University Choir |
| MUS 436 | University Choir |
| MUS 170 | Oratorio Choir (F/S, One semester) |
| MUS 281 | Chamber Singers |
| MUS 380 | Chamber Singers |
| **Total Units** | **9** |

## Choral Emphasis

| Code | Title | Units |
| --- | --- | --- |
| Students must take a total of 9 units of ensemble. For the choral emphasis, students should enroll in 8 units in any combination or order from the following: | | 8 |
| MUS 140 | University Choir | |
| MUS 141 | University Choir | |
| MUS 242 | University Choir | |
| MUS 243 | University Choir | |
| MUS 340 | University Choir & Orchestra | |
| MUS 341 | University Choir & Orchestra | |
| MUS 435 | University Choir | |
| MUS 436 | University Choir | |
| MUS 170 | Oratorio Choir | |
| MUS 281 | Chamber Singers | |
| MUS 380 | Chamber Singers | |
| Students must also take: | | |
| One semester of instrumental experience from Jazz Band, Jazz Improvisation Workshop, Symphonic Band, Wind Ensemble, or Symphony Orchestra. If a singer is unable to participate in an instrumental ensemble, they may choose to do 1 additional unit of applied lessons on an instrument of their choice. | | 1 |
| **Total Units** | | **9** |

**For admission to the APU credential program, students must complete one additional course from the following:**

| Code | Title | Units |
| --- | --- | --- |
| Select one of the following: | | 3 |
| MUS 201 | Introduction to World Music (F/S, So, Jr, Sr) [1] | |
| MUS 204 | Music of Latin America | |
| MUS 205 | Music of Asia | |
| MUS 301 | Music of Africa | |

[1]  Meets the General Education Intercultural Competence requirement.

| F | Offered in Fall only |
| S | Offered in Spring only |
| F/S | Offered in both Fall and Spring terms |
| EF | Offered in Fall in even years |
| ES | Offered in Spring in even years |
| OF | Offered in Fall in odd years |
| OS | Offered in Spring in odd years |

| Course Requirement Availability: | Recommended Year: |
|---|---|
| F = Offered every fall | Fr = Freshman |
| S = Offered every spring | So = Sophomore |
| E = Even Year | Jr = Junior |
| O = Odd Year | Sr = Senior |

## Music Theory Proficiency

The Music Theory Placement Examination is given online to incoming students who are not transferring credit for Music Theory I from another college or university. This examination measures the student's background in music theory and ensures placement at the appropriate level. Students who are not ready for Music Theory I take MUS 120, and upon successful completion of MUS 120, begin the music theory sequence in the next semester. Music theory is taken in sequential order (I, II, III, IV). Before advancing to the next level, a grade of C or better is required. If a C or better is not achieved at any level, the course must be repeated.

## Practical Musicianship

Practical musicianship is taken in sequential order (I, II, III, IV). Before advancing to the next level, a grade of C or better is required. If a C or better is not achieved at any level, the course must be repeated.

## Piano Proficiency

Each student must register for a piano class or Applied Piano until the Piano Proficiency Examination is passed. Examination fact sheets are available in the School of Music office. Students will not be cleared to graduate until they have passed the proficiency examination, which is usually met at the conclusion of MUS 106.

## Grade-Point Average

Music students must maintain a 2.5 GPA for all upper-division music classes (those classified as 300 and 400 level). Students with a cumulative GPA lower than 2.0 or who are on probation are not eligible to participate in a performing group other than Masterworks Chorale.

## Music Education Concentration Grade Requirement

Students must earn a grade of C or higher in all of their music education concentration courses. Otherwise, the course(s) must be repeated.

## Performance Forum

MUS 210 meets every Monday at 4:20 p.m. and features a variety of presentations including student recitals, guest artists, and lecturers. Music students must be continuously enrolled in Performance Forum for eight semesters. This class is graded pass/fail based on attendance. Students who do not pass the course will be required to take MUS 353 Concert Music to make up the deficiency. Transfer students must enroll in MUS 210 and an approved ensemble every semester in attendance, up to eight semesters.

## Recital Performance

Music education majors must present a solo performance annually in either a studio recital or performance forum student recital as well as a senior recital. In the case of a student who is taking instruction in more than one applied area, recital performance is required only in the primary applied area.

All students must take applied jury each semester, unless presenting either a junior or senior recital in that semester.

Music education majors must register for MUS 491 in the semester in which the senior recital will be given. Students giving recitals should follow the guidelines in the Azusa Pacific University School of Music Recital Confirmation Packet (available through the School of Music office).

## Applied Music

1. Students must take at least 16 units in one applied area.
2. Students must take at least 1 unit of applied lessons each semester, even if the minimum number of units for their emphasis has been met.
3. All students, in conjunction with the instructor, are responsible for selecting an accompanist for juries by the indicated deadlines. There are three ways to select an accompanist:
   a. Faculty may request an accompanist with the Accompanist Request Form available in the School of Music office by the indicated deadlines.
   b. Faculty may request a specific accompanist by submitting an Accompanist Request Form available in the School of Music office by the indicated deadlines.
   c. If no Accompanist Request Form is submitted, or is requested after the published deadlines, faculty members are responsible to make arrangements for their students.
4. Private lessons:

a. Grades for private lessons are issued based on a minimum of 12 lessons per semester. The grade will be lowered if the student attends fewer than the minimum of 12 lessons. Additionally, if the student does not meet the mandatory annual solo performance requirement, an *F* will be assigned for the spring semester applied grade.
b. The area director will assign an instructor.
c. When the student is ill and notifies the teacher in advance, a makeup lesson will be rescheduled if possible. "No-show" students do not receive makeup lessons.

## Voice Class

All music education majors without voice as their major performance area must take one semester of Voice Class or Private Voice.

## Ensemble Requirement

In each of eight semesters as music majors, students must participate in an appropriate performance ensemble. The information for the appropriate ensemble for each degree and concentration is clearly articulated in the Undergraduate Music Student Handbook and further communicated through the music student advisement process. Membership in multiple ensembles in a given semester counts as only one semester toward the ensemble requirement. Transfer students must participate in a performance ensemble each semester until they graduate or accumulate eight semesters.

## Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Command of Skills: Demonstrate a command of skills required for comprehensive musicianship, including sight singing/ear training, functional keyboard, music technology, and analysis.
2. Contextual Understanding: Demonstrate understanding of music in historical, cultural, and stylistic context.
3. Creative or Interpretive Utilization: Demonstrate creative or interpretive utilization of skills and contextual understanding.
4. Career-Oriented Application: Demonstrate career-oriented application of skills.
5. Music and Faith: Demonstrate appropriate understanding of the intersection of music and faith.

# BM in Performance

85 units

The performance major (BM) (https://www.apu.edu/music/programs/music-performance-major/) prepares musicians for careers in performance and pedagogy (private teaching), or to pursue advanced degrees in performance. The four-year curriculum spans voice, piano, organ, guitar, and all instruments found in the standard orchestra. In addition to music performance, courses in theory, music history, literature, and conducting give the student a thorough preparation in comprehensive musicianship. Students with applied music emphasis must pass an examination at the end of their lower-division applied studies to qualify for placement in upper-division applied music.

## General Education Requirements for the Bachelor of Music in Performance

## Music Theory Proficiency

The Music Theory Placement Examination is given to incoming students who are not transferring credit for Music Theory I from another college or university. This examination measures the student's background in music theory and ensures placement at the appropriate level. The examination may be taken online. Students who are not ready for Music Theory I take MUS 120, and upon successful completion of MUS 120, begin the music theory sequence in the next semester. Music theory is taken in sequential order (I, II, III, IV). Before advancing to the next level, a grade of *C* or better is required. If a *C* or better is not achieved at any level, the course must be repeated.

## Practical Musicianship

Practical musicianship is taken in sequential order (I, II, III, IV). Before advancing to the next level, a grade of *C* or better is required. If a *C* or better is not achieved at any level, the course must be repeated.

## Piano Proficiency

Each student must register for a piano class or Applied Piano until the Piano Proficiency Examination is passed. Examination fact sheets are available in the School of Music office. Students will not be cleared to graduate until they have passed the proficiency examination, which is usually met at the conclusion of MUS 106.

## Grade-Point Average

Music students must maintain a 2.5 GPA for all upper-division music classes (those classified as 300- and 400-level). Students with a cumulative GPA lower than 2.0 or who are on probation are not eligible to participate in a performing group other than Masterworks Chorale.

## Performance Forum

MUS 210 meets every Monday at 4:20 p.m. and features a variety of presentations including student recitals, guest artists, and lecturers. Music students must be continuously enrolled in Performance Forum for eight semesters. This class is graded pass/fail based on attendance. Students who do not pass the course will be required to take MUS 353 Concert Music to make up the deficiency. Transfer students must enroll in MUS 210 and an approved ensemble every semester in attendance, up to eight semesters.

## Recital Performance

Each performance major must present a solo performance annually in a student recital. This requirement can be met through performance forum student recitals, a junior recital, or a senior recital. Any other performances proposed to meet this requirement must be requested through the petition process and submitted to the associate dean of undergraduate studies of the School of Music.

Non-performance majors must present a solo performance annually in either a studio recital or performance forum student recital. In the case of a student who is taking instruction in more than one applied area, recital performance is required only in the primary applied area.

All students must take applied jury each semester. Music majors with a concentration in applied music present a recital during their junior year[1] (shorter program) and an additional recital in their senior year[2] (full-length program). Only Bachelor of Music in Performance students must register for MUS 491. Students giving recitals should follow the guidelines in the Azusa Pacific University School of Music Recital Confirmation Packet (available through the School of Music office).

[1]   Traditionally, those students in the Bachelor of Arts in Music program may prepare a junior recital at the discretion of the applied professor involved. Students in the Bachelor of Music in Performance program are required to present a junior recital.

[2]   Senior recitals are required of all performance majors during their senior year. Seniors in the Bachelor of Arts in Music with an applied music concentration must present a senior recital but are not required to register for MUS 491. Bachelor of Music in Performance students must present a senior recital and register for MUS 491.

## Applied Music

1. Each student is required to take at least 16 units in one applied area.

2. Students must take at least 1 unit of applied lessons each semester, even if the minimum number of units for their emphasis has been met. Students must take 2 units of applied lessons the semester of their senior recital.

3. Jury examinations are required each semester for all students taking private lessons. Presentation of a junior or senior recital fulfills this requirement.

4. All students, in conjunction with the instructor, are responsible for selecting an accompanist for juries by the indicated deadlines. There are three ways to select an accompanist:
   a. Faculty may request an accompanist with the Accompanist Request Form available in the School of Music office by the indicated deadlines.
   b. Faculty may request a specific accompanist by submitting an Accompanist Request Form available in the School of Music office by the indicated deadlines.
   c. If no Accompanist Request Form is submitted, or is requested after the published deadlines, faculty members are responsible to make arrangements for their students.

5. Private lessons:
   a. Grades for private lessons are issued based on a minimum of 12 lessons per semester. The grade will be lowered if the student attends fewer than the minimum of 12 lessons. Additionally, if the student does not meet the mandatory annual solo performance requirement, an *F* will be assigned for the spring semester applied grade.
   b. The area director will assign an instructor.
   c. When the student is ill and notifies the teacher in advance, a makeup lesson will be rescheduled if possible. "No-show" students do not receive makeup lessons.

## Upper-Division Concentration

Each student in the music program is required to select an upper-division concentration in at least one of the following areas: for the BA in Music —performance or music theory; for the Bachelor of Music—commercial music, composition, music education, music and worship, or performance. Students must earn a grade of *C* or higher in all of their upper-division concentration courses; otherwise, the course(s) must be repeated.

## Ensemble Requirement

In each of eight semesters as music majors, students must participate in an appropriate performance ensemble. The information for the appropriate ensemble for each degree and concentration is clearly articulated in the Undergraduate Music Student Handbook and further communicated through the music student advisement process. Membership in multiple ensembles in a given semester counts as only one semester toward the ensemble requirement. Transfer students must participate in a performance ensemble each semester until they graduate or accumulate eight semesters.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Command of Skills: Demonstrate a command of skills required for comprehensive musicianship, including sight singing/ear training, functional keyboard, music technology, and analysis.
2. Contextual Understanding: Demonstrate understanding of music in historical, cultural, and stylistic context.
3. Creative or Interpretive Utilization: Demonstrate creative or interpretive utilization of skills and contextual understanding.
4. Career-Oriented Application: Demonstrate career-oriented application of skills.
5. Music and Faith: Demonstrate appropriate understanding of the intersection of music and faith.

# Master of Music Education

## NOTE: This program is not admitting new students for the 2024-25 academic year.

The Master of Music Education (https://www.apu.edu/music/programs/masters-in-music-education/) broadens the scope and increases the expertise of current teaching professionals and those training as school music specialists. Students may select the choral emphasis or the instrumental emphasis.

## Requirements

| Code | Title | Units |
|------|-------|-------|
| Comprehensive Master's-Level Exit Exam (0 Units) [1] | | |
| **Core Courses** | | **12** |
| GMUS 500 | Introduction to Graduate Research Methods | |
| GMUS 503 | Advanced Analysis of Form and Style | |
| Students enroll in GMUS 501A or B, depending upon diagnostic entrance exam results. | | |
| GMUS 501A | Seminar in Musicology: The Renaissance | |
| GMUS 501B | Seminar in Musicology: The Baroque | |
| Students enroll in GMUS 502A or B, depending upon diagnostic exam results. | | |
| GMUS 502A | Seminar in Musicology: The Nineteenth Century | |
| GMUS 502B | Seminar in Musicology: The Twentieth Century | |
| **Major Area** | | **18** |
| GMUS 507A | Seminar A: Music Education | |
| GMUS 507B | Seminar B: Music Education | |
| GMUS 507C | Seminar C: Music Education | |
| GMUS 507D | Seminar D: Music Education | |
| GMUS 513 | Philosophical and Psychological Foundations of Music Education | |
| GMUS 516 | Social and Historical Foundations of Music Education | |
| GMUS 529 | Literature and Resources for Music Education | |
| GMUS 590 | Directed Research [2] | |
| GMUS 591 | Thesis | |
| GMUS 588 | Ensemble | |
| Students enroll in GMUS 509A for the Choral Emphasis, and GMUS 510 for the Instrumental Emphasis. | | |

| | | |
|---|---|---|
| GMUS 509A | Conducting I (Choral) | |
| GMUS 510 | Conducting II (Instrumental) | |
| **Electives** [3] | | **4** |
| **Total Units** | | **34** |

[1] This exam must be taken and passed by all master's degree candidates in the last semester of their degree coursework in order to graduate with the Master of Music Education from Azusa Pacific University.

[2] Two units are required, but additional units may be taken each semester until completion of degree, and completion of research to the satisfaction of the advising professor.

[3] Four elective units are required for this degree. It is suggested that the student enroll in 2 units of any graduate-level music course and 2 units of applied lessons. Applied lessons used in this requirement generate an additional fee.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

# Minor in Music

25-28 units

Prospective music minors must meet all placement and proficiency examinations as required for the major. The theory pre-test includes key and meter signatures, major and minor scales, rhythms, note recognition, and intervals. Those who are deficient in theory are required to take MUS 120 before proceeding with first-year theory. Students with a keyboard deficiency must enroll in piano class or take private lessons until the piano proficiency exam is passed. The piano proficiency examination is modified for the minor. Placement auditions are held for all performance areas.

## Requirements

Music minors must maintain at least a 2.5 grade-point average in all upper-division music courses.

| Code | Title | Units |
|---|---|---|
| **Core Courses** | | |
| MUS 121 | Music Theory I (F/S, Fr, So) [1] | 3 |
| MUS 122 | Music Theory II | 3 |
| MUS 133 | Practical Musicianship I (F/S, Fr, So) | 1 |
| MUS 134 | Practical Musicianship II | 1 |
| MUS 210 | Performance Forum (4 semesters required) | 0 |
| MUS 441 | Music in Worship (F/S) | 3 |
| MUS 103 | Beginning Piano Class (F/S all) | 1 |
| MUS 104 | Elementary Piano Class (F/S all) | 1 |
| MUS 105 | Intermediate Piano Class (F/S all) | 1 |
| MUS 106 | Advanced - Intermediate Piano Class (F/S all) | 1 |
| Applied Music | (Instrumental or Voice) (F/S all) | 4 |
| Music Ensemble | Four semesters required [2] | |
| Select one of the following: | | 4 |
| MUS 250 | Music and Civilization (F/S) [1] | |
| MUS 351 | Ancient, Renaissance, and World Music Literature (F) | |
| MUS 352 | Writing 3: Baroque, Classical, and Early Romantic Music Literature (F/S) [3] | |
| MUS 455 | Late Romantic and 20th-Century Music Literature (S) [4] | |
| Select one of the following: | | 2 |
| Applied Music (Instrumental or Voice) (In addition to core requirement) | | |
| Music Ensemble (In addition to core requirement) | | |

| | | |
|---|---|---|
| MUS 296 | Introduction to Music Technology | |
| **Total Units** | | **25-28** |

[1]     Meets the General Education Humanities: Fine Arts requirement.
[2]     Taking four semesters of musical ensembles meets the General Education Civic Knowledge and Engagement requirement.
[3]     Meets the General Education Writing 3 requirement.
[4]     Meets the General Education Humanities: History requirement.

## Course Requirements Legend

| Course Requirement Availability: | Recommended Year: |
|---|---|
| F = Offered every fall | Fr = Freshman |
| S = Offered every spring | So = Sophomore |
| E = Even year | Jr = Junior |
| O = Odd year | Sr = Senior |

# Minor in Worship Leadership

23 units

The minor in worship leadership serves as a secondary academic program available to undergraduate students wishing to pursue the development of skills and abilities in worship leadership. The program provides studies in the history and theology of corporate worship, technological awareness, and practical tools for worship design and ensemble leadership. In addition, foundational studies in music theory, ear training, sight singing, and applied study are included, and the program fosters the musical awareness and leadership skills needed for competency in the field. Students are required to participate in a designated number of School of Music ensembles.

## Requirements

| Code | Title | Units |
|---|---|---|
| **Introductory Course** | | |
| MUS 160 | Worship Leadership Formation | 3 |
| **Foundational Music Proficiencies** | | |
| MUS 120 | Music Fundamentals [1] | 3 |
| MUS 121 | Music Theory I [1] | 3 |
| MUS 133 | Practical Musicianship I | 1 |
| Ensemble Requirement (2 Semesters) | | |
| MUS 210 | Performance Forum (4 Semesters) | 0 |
| Applied Study (1 Unit x 2 Semesters) | | 2 |
| **Foundational Courses in Worship Leadership** | | |
| MUS 202 | Singing The Faith | 3 |
| MUS 375 | Worship Arts Leadership | 3 |
| MUS 376 | Worship Design | 3 |
| Choose two of the following: | | 2 |
| MUS 377 | Worship Studio I | |
| MUS 378 | Worship Studio II | |
| MUS 401 | Worship Studio III | |
| MUS 402 | Worship Studio IV | |
| **Total Units** | | **23** |

[1]     Meets the General Education Humanities: Fine Arts requirement.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate a command of skills required for comprehensive musicianship, including sight singing/ear training, functional keyboard, music technology, and analysis.
2. Demonstrate understanding of music in historical, cultural and stylistic context.
3. Demonstrate career-oriented application of skills.
4. Demonstrate appropriate understanding of the intersection of music and faith.

# MM in Composition

The Master of Music in Composition (https://www.apu.edu/music/programs/masters-in-composition/) prepares musicians for professional careers in the specialized and competitive field of composition and arranging.

## Requirements

| Code | Title | Units |
|------|-------|-------|
| Comprehensive Master's-Level Exit Exam (0 Units) [1] | | |
| **Core Courses** | | |
| GMUS 500 | Introduction to Graduate Research Methods | 3 |
| Students enroll in GMUS 501A or B, and GMUS 502 A or B, depending upon diagnostic entrance exam results. | | |
| GMUS 501A | Seminar in Musicology: The Renaissance | 3 |
| or GMUS 501B | Seminar in Musicology: The Baroque | |
| GMUS 502A | Seminar in Musicology: The Nineteenth Century | 3 |
| or GMUS 502B | Seminar in Musicology: The Twentieth Century | |
| GMUS 503 | Advanced Analysis of Form and Style | 3 |
| **Additional Courses** | | |
| GMUS 504 | Advanced Orchestration | 3 |
| GMUS 505 | Advanced Choral Arranging | 3 |
| GMUS 520 | Applied Instruction I (2 units each semester, 8 total units) | 2 |
| GMUS 544 | Music Technology Seminar | 3 |
| Electives or Piano [2] | | 4 |
| Composition Recital | | N/C |
| **Total Units** | | **33** |

[1] This exam must be taken and passed by all master's degree candidates in the last semester of their degree coursework in order to graduate with the Master of Music in Composition from Azusa Pacific University.

[2] Students with adequate skills as determined by the diagnostic entrance exam may take electives other than piano. Elective courses may be selected from any of Azusa Pacific University's graduate programs with the approval of the associate chair of graduate studies. Courses must be numbered 500 or higher.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

# MM in Conducting

The Master of Music in Conducting (https://www.apu.edu/music/programs/masters-in-conducting/) prepares musicians for professional careers in the specialized and competitive field of conducting.

## Requirements

| Code | Title | Units |
|------|-------|-------|
| Comprehensive Master's-Level Exit Exam (0 Units) [1] | | |
| **Core Courses** | | **12** |
| GMUS 500 | Introduction to Graduate Research Methods | |

| | | |
|---|---|---|

| GMUS 519A | Seminar A: Instrumental Conducting | |
| GMUS 519B | Seminar B: Instrumental Conducting Literature | |
| GMUS 519C | Seminar C: Instrumental Performance Practice and Rehearsal Techniques | |
| GMUS 519D | Seminar D: Professional and Current Issues in Instrumental Conducting | |
| GMUS 511 | Applied Conducting [2] | |
| **Choral Emphasis [3]** | | |
| GMUS 505 | Advanced Choral Arranging | |
| GMUS 510 | Conducting II (Instrumental) | |
| GMUS 518A | Seminar A: Choral Conducting | |
| GMUS 518B | Seminar B: Choral Conducting Literature | |
| GMUS 518C | Seminar C: Choral Performance Practice and Rehearsal Techniques | |
| GMUS 518D | Seminar D: Professional and Current Issues in Choral Conducting | |
| GMUS 540 | Advanced Vocal Pedagogy | |
| GMUS 511 | Applied Conducting [3] | |
| **Ensemble [4]** | | **2** |
| GMUS 588 | Ensemble | |
| **Graduate Recital** | | **N/C** |
| **Electives [5]** | | **2** |
| **Total Units** | | **36** |

[1]   Exam must be taken and passed by all master's degree candidates in the last term of their degree coursework in order to graduate with the Master of Music from Azusa Pacific University.

[2]   Candidates in the Instrumental Emphasis enroll in a total of 10 units of applied conducting lessons, of which 8 units are taken with their primary professor, depending on their primary interest area (wind or orchestral), and the remaining 2 units are in the alternative area (wind for orchestral interest, and orchestral for wind interest). Candidates taking applied instrumental conducting lessons are required to attend a weekly instrumental conducting lab/master class.

[3]   Candidates in the Choral Emphasis enroll in 8 units of applied conducting lessons with their primary professor, and are required to attend a weekly instrumental conducting lab/master class. Entering candidates must have an earned bachelor's degree in music with one semester of undergraduate conducting, two semesters of undergraduate diction (including German, Italian, French, Latin, and English), at least two semesters of undergraduate applied voice lessons, and a history of participation in collegiate choral ensembles during the graduate degree. Deficiency in conducting study, voice, and diction hours may be resolved with appropriate enrollment during M.M. degree progress, but these undergraduate hours will not count toward the graduate degree.

[4]   Candidates are to be in an appropriate instrumental or choral ensemble, as assigned by the supervising conductor or program director, for two terms of full-time residence. Candidates must enroll in 2 units of an instrumental ensemble to fulfill this requirement for instrumental conducting, or 2 units of a choral ensemble for choral conducting.

[5]   Two elective units are required for this degree. These units may be chosen from any graduate-level music course. Applied lessons used in this requirement will generate an additional fee.

# Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

# MM in Performance

The Master of Music in Performance (https://www.apu.edu/music/programs/masters-in-music-performance/) allows emphasis in several areas, including instrumental performance, piano and organ performance, vocal performance, and keyboard collaborative arts.

## Requirements

| Code | Title | Units |

[3]  Elective courses may be selected from any of Azusa Pacific University's graduate programs with the approval of the associate chair of graduate studies. Courses must be numbered 500 or higher.

[4]  1 unit of elective credit for guitar, 3 units for all others.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

# Department of Theater Arts

## Mission Statement

Through a program of rigorous training, the Department of Theater Arts (https://www.apu.edu/vpa/theater/) prepares outstanding, innovative, and influential artists in an ever-growing and multifaceted performing arts profession.

# Department Overview

The Department of Theater Arts offers undergraduate programs that equip students for professional careers in theater, film, and television. The department also produces five theater productions annually, as well as a web series. Additionally, several off-campus performance opportunities exist: the Azusa Renaissance Project, which works with local schools; a study-away opportunity at the Edinburgh Fringe Festival in Scotland; and the BFA Senior Industry Showcase, which premiers the web series and introduces the graduating class to agents and casting directors in Los Angeles. The department hosts many events each year, including Spotlight panels of industry professionals; one-act opportunities for student directors, actors, and playwrights; and professional on-camera experience and participation in the Kennedy Center American College Theater Festival.

APU faculty and alumni are working professionals in film and television and have performed on Broadway, with national touring companies, and in regional theaters.

# Programs

## Majors

- Acting for the Stage and Screen (BFA) (p. 303)
- Theater Arts (BA) (p. 302)

## Minor

- Theater Arts (p. 305)

# Courses

## THTR 101, Christianity and the Creative Process, 3 Units

This course is a study of theater, film, and broadcasting vis-a-vis Christianity and the arts. Issues of ethics and social justice in the context of cultural studies are considered. Emphasis is placed on spiritual, artistic, and community development. *Meets the General Education Requirement: Humanities: Fine Arts.*

## THTR 110, Introduction to Acting, 3 Units

This course introduces basic acting skills. Students learn how to break down a scene, choose an approach for playing a role, and express realistic emotion appropriate to a scene. Students also develop the ability to offer and receive constructive criticism. For non-theater majors only. *Meets the General Education Requirement: Humanities: Fine Arts.*

## THTR 113, Acting Fundamentals, 3 Units

This introductory workshop covers acting techniques and styles, emphasizing voice, movement, improvisation, and interpretation. Monologues and scenes from plays are presented in class. This class is for theater majors only.
**Prerequisite:** Theater Majors only

## THTR 115, Introduction to Theater, 3 Units

This course exposes students to all aspects of producing theatre, classic plays for reading and analysis, and the cognitive process of critiquing live theatre. *Meets the General Education Requirement: Humanities: Fine Arts.*

## THTR 121, Fitness for Life: Dance for the Theater, 2 Units

This course teaches the skill of movement and dance as it relates to actors, including proficiency in various styles of dance that are most common in musical theater; learning dance terminology necessary for a working actor; gaining flexibility and dexterity to enhance stage performance; understanding what is required at a professional theater audition; and moral issues pertaining to presenting theater dance to an audience. It also teaches "fitness for life" concepts through various dance and aerobic conditioning exercises. May be repeated for credit. *Meets the General Education Requirement: Fitness for Life/Varsity Sport.*

## THTR 171, Acting Fundamentals for the Stage, 3 Units

Students explore the nature of acting; develop and embrace fundamental concepts of imagination, ease, honesty, sense memory and concentration; and learn to break down a script for its events and to particularize these events in a series of expressive actions.
**Prerequisite:** BFA Acting for Stage & Screen majors only

## THTR 173, Improvisation and Acting Fundamentals for the Text, 3 Units

This course builds upon fundamental acting techniques by introducing the skills of improvisation and script analysis. While developing students' ability to react to situations and trust their instincts, the course also focuses on how to analyze a script and develop characters in order to enhance storytelling.
**Prerequisite:** THTR 171

## THTR 200, Beginning Voice for the Actor, 3 Units

Students in this course focus on improving vocal expressiveness, specifically in the areas of resonance, articulation, breath control, relaxation, and physical alignment. Learning in these areas is applied to various texts (existing and created) to explore how the clarity of meaning and the emotional content of the written word and movement expression are informed by the fully engaged voice and body. *Meets the General Education Requirement: Oral Communication (THTR 200 + THTR 250).*
**Prerequisite:** BFA in Acting for the Stage and Screen majors only

## THTR 201, Beginning Movement for the Actor, 2 Units

This course attends to physical basics such as posture, core strength, and range of motion. It teaches the student to individuate internal energies of the body, to use these energies to move the body, and to begin to synthesize physical listening skills for ensemble acting. Skills taught may include Alexander, Pilates, and Feldenkrais.
**Prerequisite:** BFA Acting for Stage & Screen majors only

## THTR 210, Fundamentals of Stagecraft, 3 Units

This course covers the fundamental principles of technical theater, emphasizing safety and technique while exposing students to the various areas of theatrical production, and the organizational structure of such, in the backstage environment. Students develop a vocabulary for technical discourse and engage in regular practice of the creation of technical theater elements in support of the APU main stage production season. Students establish a professional approach for further technical theater study and participation in production roles at APU, and also begin developing their portfolios for seeking work outside of APU and after graduation.

## THTR 215, Script Analysis, 3 Units

This course is dedicated to bridging the gap between audience and artists through the act of analysis, equipping students with a better understanding of the methodologies of play reading while cultivating a new appreciation for the power and importance of the dramatic arts.

## THTR 216, Performance Cast, 1 Unit

This course provides credit for student-actors working with instructors on productions. Course may be repeated for up to 12 units toward graduation.

## THTR 217, Technical Theater Practicum, 1 Unit

This course gives students an opportunity to participate in a live theater production as a cocurricular educational component. Each student is assigned a position as part of the technical support crew, and receives credit for their practical participation and completion of a production assignment. Assignment areas may include set construction, stage (running) crew, props, lighting, sound, costumes, or stage management. Each student is required to schedule an interview with the professor of technical theater and the technical director to determine a production assignment, with each student completing a contract outlining assignment dates/times and specific evaluation criteria. Students are responsible for crew attendance, as scheduled. All technical crew positions are assigned at the discretion of theater faculty and staff.

## THTR 218, Production Crew, 1-3 Units

Students in this course participate in a live theatre production. As a cocurricular educational component, students are assigned positions as part of the technical support crew and receive credit for their practical participation in and completion of a production assignment. Areas of crew assignments may include set construction, stage (running) crew, props, makeup, lighting, sound, costumes, stage management, or an individual production project. Each student schedules an interview with the director of design and the technical director to determine a production assignment, and completes a contract outlining assignment dates/times and specific evaluation criteria. All projects must receive technical faculty approval. Students are responsible for crew attendance, as scheduled. All technical crew positions are assigned at the discretion of theater faculty and staff.

## THTR 221, Theatrical Sets and Properties, 3 Units

Lecture, 3 Hours: This technical theater course covers the theory and practice of theatrical sets and stage properties. Students explore historical styles, methods, and dramatic analysis for scenic design, as well as techniques in stage properties, furniture design, construction, and set dressing for a variety of theatrical spaces.

## THTR 222, Theatrical Lighting and Sound, 3 Units

Lecture, 2 Hours; Lab, 3 Hours: This technical theater course covers the theory and practice of theatrical lighting and sound design. Students explore artistic lighting design for a variety of theatrical experiences, as well as basic equipment operation for the processing and mixing of live and recorded sound.

## THTR 223, Theatrical Makeup, 3 Units

Lecture, 3 Hours: This course focuses on developing and applying makeup designs for theatrical characters, with particular attention to facial structure, use of highlight and shadow, color theory, and application techniques. Students emerge with a completed reference binder that serves as a design source for future use.

## THTR 224, Introduction to Stage Management, 3 Units

This technical theater course covers the theory and practice of stage management. Students explore the relationship between artistry and execution of theater as a fine arts discipline, and acquire the basic skills and industry-standard vocabulary needed to begin working in the field. Lecture, 2 hours; lab, 3 hours.

## THTR 225, History of Theater to the Nineteenth Century, 3 Units

This course is an introduction to theater history from the beginnings of theatrical practice to the nineteenth century. Students encounter readings in the philosophy and practice of theater, as well as plays written during the historical scope of the period. Focus on the social and cultural context of a given historical period, alongside the particular study of plays, playwrights, and theatrical movements, encourages a broader perspective on theater history. *Meets the General Education Requirement: Intercultural Competence.*

## THTR 226, History of Theater: 19th Century to the Present, 3 Units

This course is an introduction to theater history from the 19th century to the present, with students encountering readings in the philosophy and practice of theater, as well as plays written during the historical scope of the period. Focus on the social and cultural context of a given historical period, alongside the particular study of plays, playwrights, and theatrical movements, encourages a broader perspective on theater history.

## THTR 233, Improvisation, 3 Units

This course trains students in the basic skills of stage and screen improvisation, originating material, finding relationships and story within teams, and enhancing acting skills by training in spontaneity, physical and vocal acuity, stage presence, and truthfulness.

## THTR 250, Intermediate Voice for the Actor, 3 Units

Students in this course continue the work begun in THTR 200 Beginning Voice for the Actor and deepen their ability to speak text and communicate orally with power, conviction, and connection to the audience. Particular attention is given to developing breath support and enhancing facility with the spoken word. Students study rhetorical devices used in theatrical and poetic literature and how to utilize these devices when bringing voice to a wide variety of texts and extemporaneous speaking. *Meets the General Education Requirement: Oral Communication (THTR 200 + THTR 250).*
**Prerequisite:** THTR 200

## THTR 251, Intermediate Movement for the Actor, 2 Units

The course provides training in stage combat. Skills include fencing, rapier and dagger, broadsword, and numerous conventions of physical, unarmed stage combat.
**Prerequisite:** THTR 201

## THTR 260, Advanced Voice for the Actor, 3 Units

This course is a continuation of the voice curriculum, including the study of the International Phonetic Alphabet, iambic pentameter, and dialect/accent work.
**Prerequisite:** THTR 250

## THTR 271, Intermediate Acting for the Stage, 3 Units

This course builds on foundational skills from THTR 113 Acting Fundamentals by focusing on preparing text-based scenes and monologues. Course material incorporates warm-up, scene work, written critiques, journaling, and performance to encourage an understanding of the acting process from all angles.
**Prerequisite:** THTR 171

## THTR 273, Acting Shakespeare, 3 Units

This course introduces actors to core techniques for mapping the text of Shakespeare, interpreting the language, scanning the meter, locating the operative action and images in the verse and prose, and examining the punctuation and overall structure of the text to discover relevant acting choices. While the course requires a great deal of individual preparation, it functions primarily to reinforce skills while an actor is working on his or her feet. *Meets the General Education Requirement: Humanities: Fine Arts.*
**Prerequisite:** THTR 271

## THTR 274, Introduction to Storytelling, 3 Units

This course offers students a deep dive into the notion of "story" and how it manifests in a variety of formats. Subjects include narratology, comparative mythology, and the monomyth, as well as the practical techniques of writing for all aspects of the entertainment industry. Utilizing instruction and assignments provided through a series of specific, discipline-oriented lectures, students are exposed to a wide array of integrative approaches to world-building, developing fictional characters, and writing well-formed story structures. The goal of this course is to provide an understanding of how stories and characters are developed within different industries and prepare students to write and tell their own personal stories within their creative work.

## THTR 301, Advanced Movement for the Actor, 2 Units

This course provides training in historical movement, including selected dances, manners, and action of the 16th through the 20th centuries, focusing on the embodiment of the style of those periods. Absurd Theatre and world styles of movement are explored, and Viewpoints and Suzuki techniques are taught and practiced.
**Prerequisite:** THTR 251; BFA in Acting majors only

## THTR 355, Theater Education, K-12, 3 Units

The emphasis is on basic elements of K-12 play production beginning with choosing age-appropriate material, auditions, crews, budgeting, directing, and understanding the role of the drama educator. Textbook reading, journal reviews, observations, classroom presentations, classroom participation, and creation of dramatic education plans are the primary elements of this course.

## THTR 360, Studies in Popular Culture, 3 Units

This course carefully examines popular cultural forms, institutions, rituals, artifacts, icons, communication practices, thought patterns, worldviews, value systems, and ideologies possibly created thereby. Topics range from the private and public experiences of popular culture in movies, television, and recordings to fast food, automobiles, and blue jeans, along with their relationship to wider cultural contexts and Christian faith.

## THTR 361, Acting Fundamentals for the Screen, 3 Units

This course explores the nature of acting for film and television. Students learn fundamental concepts of acting for the camera in order to become comfortable in front of it. Particular emphasis is placed on the different camera angles used by filmmakers and how actors should appropriately adjust for each type.
**Prerequisite:** THTR 171, THTR 273

## THTR 365, Theater for Social Change, 3 Units

This is a service-learning course intended to enlighten, encourage, and entertain the citizens of Azusa through imaginative, well-executed, redemptive theater involving a variety of themes, styles, and venues. Performances range from the heavily traditional to the avant-garde and may include interactive theater, children's theater, street theater, readers' theater, educational theater, nouveau Commedia Del arte, and realism. *Meets the General Education Requirement: Civic Knowledge and Engagement.*

## THTR 371, Intermediate On-Camera Scene Study, 3 Units

This on-camera scene study course emphasizes the relationship between actors, the camera, and the director. Topics include camera blocking and camera angles, and the course culminates in shooting scenes to be viewed by an invited audience.
**Prerequisite:** THTR 361

## THTR 374, Writing 3: Playwriting, 3 Units

This course is an introduction to the workshop method of writing and revising plays for live performance. Students learn the fundamentals of dramatic structure, characters, theme, and dialogue, and in addition to completing numerous writing exercises, students conceive, develop, and write an original one-act play. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*

## THTR 388, Sketch Comedy for the Writer/Performer, 3 Units

This course covers the writing, performance, and production of original sketch comedy. Building upon basic improvisation and creative skills, students will sharpen their writing and performance techniques to create truthful and original characters and sketches. Topics include constructing a scene, maximizing comedic potential, integrating popular culture and societal conversation, and experimenting with new media platforms. Students will collaborate to produce a show performed before a live audience at semester's end.
**Prerequisite:** THTR 374 or CINE 375

## THTR 400, Advanced Voice and Movement Integration, 3 Units

This course synthesizes the work of previous voice and movement courses into an advanced, integrated technique of vocal and physical expression, deepening actors' ability to interpret diverse texts from contemporary plays, films, and scripted stories with voice and body.
**Prerequisite:** THTR 260 and THTR 301

## THTR 423, Directing, 3 Units

This course teaches students the practical application of directing the actor. The student is introduced to the various levels of involvement with the play as he or she selects the script, auditions the actors, stages the script, and promotes the production.

## THTR 424, Advanced Directing, 3 Units

This course follows on from our Introduction to Directing class and trains students in directing for the stage through a combination of hands-on creative work and the study of craft. The course seeks to follow APU's mission statement particularly in its call to develop a Christian perspective of truth and life through reading, observation and practice of a variety of directing techniques. The end product of this course will be the public performance of one-act plays directed by students from this course in a One-Act Festival offered as part of APU Theater's Season.
**Prerequisite:** THTR 423

## THTR 435, Acting Styles and Techniques, 3 Units

This course intends a comprehensive study of manifold schools of acting, from classical and Renaissance training and technique through that of the Russian theorists and modern dramatists. Special attention is paid to the philosophical and social context framing of each school as well as the particular vocalization, movement, and staging demands of each style.
**Prerequisite:** THTR 233

## THTR 440, Musical Theater Workshop, 3 Units

A comprehensive approach to the professional auditioning process designed to teach through written and oral critique of solo and duet performances is examined. Students build a personal repertoire of songs for auditioning. Course may be repeated for up to 6 units toward graduation.

## THTR 455, Theater and the Church, 3 Units

This course prepares students for vocational and volunteer ministry in the dramatic arts. Topics include: the biblical basis for drama in the Church, practical uses for church drama, how to put together and maintain a team, sketch writing, and directing amateurs. The course provides a survey of all forms of church drama including sermons, sermon illustrations, announcements, pageants, outreach events, dinner theatre, mystery theatre, mime, and missions.

## THTR 460, Dramatic Theory and Criticism, 3 Units

This course examines theories and analyses of dramatic genres, from ancient to modern times. A specific emphasis is placed on the historical-critical method, as students learn how drama reflects the social context in which it was created.
**Prerequisite:** THTR 225, THTR 226

## THTR 471, Advanced Acting for the Camera, 3 Units

This course is a continued intensive approach to acting for film and television, preparing students for the real-world demands of auditioning, current styles, and professional protocol used in the entertainment industry and on set. Students perform in several scenes shot on digital video and assemble a demo reel of their work.
**Prerequisite:** THTR 371

## THTR 472, Business of Acting/Hollywood Showcase, 3 Units

This course prepares graduating seniors for professional acting protocol and teaches them current auditioning styles and material. Topics include resumes, cold readings, audition copy, working with agents and casting directors, and how to produce a show. Students will produce, rehearse, and perform a showcase for agents and casting directors in Hollywood. *Meets the General Education Requirement: Integrative and Applied Learning.*
**Prerequisite:** THTR 471, Senior status, BFA in Acting majors only

## THTR 490, Internship, 1-3 Units

This course provides an opportunity for field experiences in the cinematic or theater arts. Internships are approved and supervised directly by the instructor in conjunction with a workplace supervisor. Some scheduled course meetings are also required. Course may be repeated for up to 6 units toward graduation.

## THTR 491, Classroom Practicum, 1-3 Units

This course gives students practical experience in classroom teaching and tutoring. Students assist in classroom duties as well as complete assignments related to the development of a communication perspective. Three units must be taken for the communication major; an additional 3 units may be taken for credit toward graduation.

## THTR 495, Special Topics, 3 Units

This course presents topics not covered by regular department courses. Trends in the entertainment industry or special interests of faculty and students may be targeted under this category. Examples have included the American film musical, science fiction film, sound design, post colonial theater, and world theater. Course may be repeated for up to 6 units toward graduation.

## THTR 496, Writing 3: Ethics in Theater, Film, and Television, 3 Units

This seminar will help students understand the ethical dilemmas faced by practitioners of theater, film, and television in a variety of situations. Students will study the powerful ways in which the entertainment media define, create, maintain and/or change cultural realities and understand the ethical implications therein. This study will culminate in a heavily researched thesis designed to influence a professional audience. Writing instruction will be provided in the development and completion of this project. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*
**Prerequisite:** Writing 2

## THTR 498, Directed Research, 1-3 Units

This course provides instruction in research design and technique, and gives students experience in the research process. The 1-unit expectation encompasses no fewer than 30 hours of work with accompanying reading, log, writing, and seminar presentation within the department or in a university research symposium. No more than 1 unit may be used to fulfill preparatory readings requirement. An independent study fee is assessed for each enrollment in this class.
**Prerequisite:** Junior or Senior Standing

## THTR 499, Capstone Project in Theater Arts, 3 Units

This course gives each student the opportunity to create a culminating work that integrates learning from previous major courses and production experience as a project/crew leader in the major. This project is an in-depth study of a particular area of theater production or research study, including but not limited to stage management, playwriting, directing, designing, performance, critical research/dramaturgy, or an internship position. Project components are based on the student's topic and reflect an understanding of that production area. The project must encompass at least 100 hours of work, and department faculty overseeing the course must approve all projects. *Meets the General Education Requirement: Integrative and Applied Learning.*
**Prerequisite:** Junior or senior standing

# BA in Theater Arts

45 units

The Bachelor of Arts in Theater Arts program (https://www.apu.edu/vpa/programs/theater-arts-major/) uniquely equips students to pursue creative entrepreneurial careers in a broad range of theater arts areas including stage management, playwriting, and directing. Students can pursue elective courses in theater education, technical design, and new media. Opportunities for working side by side with industry professionals and participating in prestigious internships prepare students to thrive in theater arts careers. Students' course and production work gives them experience and materials for creating a professional résumé and portfolio. Their final year culminates in an industry showcase where they share their work with professional directors, writers, designers, projectionists, editors, and stage managers.

[1]     Meets the General Education Humanities: Fine Arts requirement.
[2]     Meets the General Education Intercultural Competence requirement.
[3]     Meets the General Education Writing 3 requirement.
[4]     Meets the General Education Integrative and Applied Learning requirement.
[5]     Meets the General Education Civic Knowledge and Engagement requirement.

## Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Artistry: Able to integrate the technique and skills needed to become an interdisciplinary theater artist.
2. Professional Development: Apply professional production techniques.
3. Knowledge: Able to evaluate the historical development of theater as an art form.
4. Analysis: Apply analytical approaches to drama.
5. Spiritual/Faith: Able to identify the contribution and impact of Christian faith and practice in the theatrical arts.

# BFA in Acting for the Stage and Screen

69-77 units

APU's Bachelor of Fine Arts in Acting for the Stage and Screen program (https://www.apu.edu/vpa/programs/acting-major-bfa/), located just 26 miles from Los Angeles, the entertainment capital of the world, is an innovative acting degree program providing real-world connections, professional on-camera credits, and an industry showcase of film and live performances for seniors. It is also one of the first programs in the country to train actors for equal excellence in on-camera and stage acting.

In addition to core courses, students must choose either the 6-unit theater elective option or the 14-unit musical theater emphasis. Auditions are required for admittance to the BFA program, as well as for admittance to the musical theater emphasis. All BFA students take core acting, voice, and movement courses together, but then students in the theater elective option take a selection of electives, while those in the musical theater emphasis take core musical and dance performance classes and voice lessons.

## Program Policies

- If students are involved in other campus clubs, athletics, choirs, etc., they must understand that BFA expectations for courses and production responsibilities take priority over other commitments.
- Students must attend all scheduled rehearsals and tech days for productions in which they are cast or are crewing.
- Students must receive written approval from the College of the Arts to participate in the Industry Showcase if they become part-time students during their senior year.
- The BFA in Acting for the Stage and Screen is a sequential four-year cohort. Courses must be taken in sequence and progress cannot be expedited to allow for early graduation.
- Freshmen and sophomore BFA students must attend warm-ups (see the APU Student Handbook (https://www.apu.edu/student-handbook/)), and all BFA students must follow the standards listed in the Student Handbook or risk being put on probation, as per handbook policy.

## Requirements

The BFA in Acting for the Stage and Screen is a four-year cohort degree program. All acting, voice, and movement courses have prerequisites, and students must take courses with their cohort in sequence.

Students must earn a 2.0 in each of their major courses and meet policies outlined in the Department of Theater Arts handbook. Failure to do so can result in probation.

| Code | Title | Units |

| **Total Units** | | **6** |

[1]   Meets the General Education Humanities: Fine Arts requirement.
[2]   Meets the General Education Integrative and Applied Learning requirement.
[3]   Taking THTR 200 and THTR 250 meets the General Education Oral Communication requirement.
[4]   All BFA students are required to take a minimum of 6 units of THTR 216. Students who are cast in a production must be enrolled in THTR 216.
[5]   Meets the General Education Intercultural Competence requirement.
[6]   Students are required to take 1 unit of THTR 217 in the fall AND spring semesters of their freshman year in the program.
[7]   Students are required to take 1 unit of THTR 218 in EITHER the fall or spring semester of their sophomore year of the program.
[8]   Students must audition for admittance into the Musical Theater Emphasis.
[9]   All Musical Theater Emphasis students must take 2 units of THTR 216 Performance Cast: Cabaret and 1 unit of THTR 216 Performance Cast: Dance to fulfill the 3 units of THTR 216 Performance Cast in the emphasis.
[10]   Students must take the Music Theory Diagnostic before starting the program. If they do not pass, they will take MUS 120 before MUS 111.
[11]   In order to satisfy the 120-unit requirement to graduate, students who take the Theater Elective Option may be required to take additional undergraduate units.
[12]   Meets the General Education Civic Knowledge and Engagement requirement.
[13]   Meets the General Education Writing 3 requirement.

## Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Artistry: Integrate the techniques and skills needed to become a professional actor.
2. Professional Development: Construct professional materials and audition pieces to compete in the business of acting.
3. Knowledge: Defend the role that acting as an art form plays historically and in contemporary culture.
4. Analysis: Develop analytical approaches to on-camera and theatrical performance.
5. Faith Integration: Identify the contribution and impact of Christian faith and practice in performance.

[3]   Meets the General Education Civic Knowledge and Engagement requirement.
[4]   **Meets the General Education Writing 3 requirement.**

## Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Integrate technique and skills needed to become an interdisciplinary theater artist.
2. Apply professional production techniques.
3. Evaluate the historical development of theater as an art.
4. Apply analytical approaches to drama.
5. Identify the contribution and impact of Christian faith and practice in the theatrical arts.

# School of Theology

The School of Theology (https://www.apu.edu/theology/) offers courses of study that encourage the search for truth about God, human existence in relationship to God, and the world as God's creation. Students are guided in this search through an analysis of the Christian Scriptures, historical and contemporary statements of Christian belief, human experience of God and the world, and rational reflections on the nature of reality by great thinkers past and present. The goal of this study is to prepare men and women for service to God, as either lay or professional ministers in His Kingdom. Academic study is therefore balanced with a concern for individual involvement in practical ministry.

Each major course of study builds on the General Education program's Biblical, Theological, and Philosophical Formation requirement. Transfer students take the number of units required by the registrar. Courses are selected from the list of core courses for General Education in consultation with an advisor. All students in the School of Theology must maintain a minimum 2.5 cumulative grade-point average in all courses for their major.

In general, correspondence courses are not accepted as fulfillment of religion or philosophy requirements. A student may, however, petition to have 3 correspondence units count toward his/her major or minor upon department approval. The course(s) must match existing courses, and the student may be asked to pass an exam. Double majors require 24 units that are distinctive to one major, and 18 units must be upper division.

## General Education

### Biblical, Theological, and Philosophical Formation

### Required Courses for All Majors in the School of Theology

| Code | Title | Units |
| --- | --- | --- |
| MIN 108 | Christian Life, Faith, and Ministry | 3 |

| **Total Units** | | **18** |

[1]    For the General Education Theology requirement, the School of Theology recommends either THEO 200, THEO 301, THEO 352, or THEO 354. HUM 325 also fulfills the requirement.

[2]    THEO 200 is required of all Christian ministries and youth and family ministries majors.

| Major | Sr. Seminar Requirement |
| --- | --- |
| Biblical Studies | UBBL 496, THEO 496, or MIN 496 |
| Theology | THEO 496 |
| Philosophy | PHIL 496 or THEO 496 |
| Christian Ministries/Youth and Family Ministries: Church and Pastoral Ministries Practices concentration | MIN 496, THEO 496, or UBBL 496 |
| Christian Ministries/Youth and Family Ministries: Intercultural Christian Ministries concentration | MIN 496, THEO 496, or UBBL 496 |
| Christian Ministries/Youth and Family Ministries: Ministry in Urban and Social Service Contexts concentration | MIN 496, THEO 496, or UBBL 496 |

Students transferring into the university may waive some of the General Education Biblical, Theological, and Philosophical Formation requirements for the major as follows: sophomore standing, 3 units; junior standing, 9 units; and senior standing, 12 units. The specific courses waived are selected in consultation with a department faculty advisor.

# Programs
## Majors

- Biblical Studies (BA) (p. 322)
- Christian Ministries (BA) (p. 324)
- Philosophy (BA) (p. 326)
- Theology (BA) (p. 327)
- Youth and Family Ministries (BA) (p. 329)

## Minors

- Ancient Languages (p. 332)
- Biblical Studies (p. 333)
- Christian Ministries (p. 334)
- Cultural Engagement (p. 335)
- Philosophical Apologetics (p. 336)
- Philosophy (p. 337)
- Practical and Professional Ethics (p. 337)
- Religious Studies (p. 338)
- Theology (p. 339)
- Youth and Family Ministries (p. 339)

## Certificates of Distinction

- Biblical Studies (p. 331)
- Philosophy (p. 331)
- Theology (p. 331)

## Courses

### ALNG 456, Ancient Languages, 1-4 Units

This course is offered according to the needs of the student. It provides opportunity to learn basic grammar and vocabulary in Arabic, Akkadian, Aramaic, Coptic, Latin, Ugaritic, or other ancient languages relevant to the study of biblical history and literature. May be repeated for advanced language study or learning an additional language.
**Prerequisite:** GRKB 201 and/or HEBB 201 or instructor consent

### GRKB 200, Elementary Greek I, 3 Units

The elements of New Testament Greek, with emphasis on the mastery of the basic forms, syntax, and vocabulary, are covered in this two-part beginning course. Classes meet three hours weekly. Two semesters of the same language are required to meet the General Education requirement. *Meets the General Education Requirement: Foreign Language.*

### GRKB 201, Elementary Greek II, 3 Units

The elements of New Testament Greek, with emphasis on the mastery of the basic forms, syntax, and vocabulary, are covered in this two-part beginning course. Classes meet three hours weekly. Two semesters of the same language are required to meet the General Education requirement. *Meets the General Education Requirement: Foreign Language.*
**Prerequisite:** GRKB 200 or instructor consent

### GRKB 300, Intermediate Greek I, 3 Units

This course consists of continued study of the forms, syntax, and vocabulary of New Testament Greek with an introduction to exegesis of the Greek New Testament.
**Prerequisite:** GRKB 201

### GRKB 301, Intermediate Greek II, 3 Units

Students undertake reading and exegesis of various passages in the New Testament.
**Prerequisite:** GRKB 300

### GRKB 454, Greek Readings, 1-4 Units

This course requires directed reading in the Greek New Testament. It is offered according to the needs of the student. It can be repeated for credit, thus providing fifth and sixth semesters of Greek.
**Prerequisite:** GRKB 301, or completion of two years of biblical Greek at another institution or instructor consent

## GRKC 200, Elementary Classical Greek I, 4 Units
Lecture 3 Hours; Discussion 1 Hour: Elementary Classical Greek is for students with little or no background in Classical Greek. The elements of classical Greek, with emphasis on the mastery of the basic forms, syntax, and vocabulary, are covered in this two-part beginning course. Two semesters of the same language are required to meet the General Education requirement. No previous knowledge of Classical Greek is assumed. *Meets the General Education Requirement: Foreign Language.*

## GRKC 201, Elementary Classical Greek II, 4 Units
Lecture 3 Hours; Discussion 1 Hour: This is the second semester of a two semester, introductory course in Classical Greek language as well as classical Greek culture. The course is designed for students with little or no background in Classical Greek. The elements of Classical Greek, with emphasis upon the mastery of the basic forms, syntax, and vocabulary are covered in this two-part beginning course. Two semesters of the same language are required to meet the General Education requirement. *Meets the General Education Requirement: Foreign Language.*
**Prerequisite:** GRKC 200

## HEBB 200, Elementary Hebrew I, 3 Units
The basic grammar and syntax of Hebrew are taught. The course aims to provide a reading knowledge of biblical Hebrew prose and an acquaintance with basic conversational, modern Hebrew. Classes meet three hours weekly. Two semesters of the same language are required to meet the General Education requirement. *Meets the General Education Requirement: Foreign Language.*

## HEBB 201, Elementary Hebrew II, 3 Units
The basic grammar and syntax of Hebrew are taught. Using selected readings from the Hebrew Bible, the course provides a reading knowledge of biblical Hebrew prose and an acquaintance with basic conversational, modern Hebrew. Classes meet three hours weekly. Two semesters of the same language are required to meet the General Education requirement. *Meets the General Education Requirement: Foreign Language.*
**Prerequisite:** HEBB 200 or instructor consent

## HEBB 300, Intermediate Hebrew I, 3 Units
This course consists of continued study of the morphology, syntax, and vocabulary of biblical Hebrew with opportunities for reading and exegesis of various genres of the Hebrew Bible. This course counts toward a minor in Ancient Languages.
**Prerequisite:** HEBB 201

## HEBB 301, Intermediate Hebrew II, 3 Units
This course consists of reading and exegesis of the Hebrew Bible with a particular emphasis on Hebrew in relation to other Semitic languages. Readings of nonbiblical Hebrew and Aramaic material expose students to the development of Hebrew throughout history. This course counts toward a minor in Ancient Languages.
**Prerequisite:** HEBB 300

## HEBB 455, Hebrew Readings, 3 Units
This course consists of directed reading in the Hebrew Bible and is offered according to the needs of the student. It can be repeated for credit, thus providing fifth and sixth semesters of Hebrew. This course counts toward a minor in Ancient Languages.
**Prerequisite:** HEBB 301 or completion of two years of biblical Hebrew at another institution or instructor consent

## LTN 200, Elementary Latin I, 4 Units
Lecture 3 Hours; Discussion 1 Hour: Elementary Latin is for students with little or no background in Classical Latin. The elements of classical Latin, with emphasis on the mastery of the basic forms, syntax, and vocabulary are covered in this two-part beginning course. Two semesters of the same language are required to meet the General Education requirement. No previous knowledge of Latin is assumed. *Meets the General Education Requirement: Foreign Language.*

## LTN 201, Elementary Latin II, 4 Units
Lecture 3 Hours; Discussion 1 Hour: As the sequel of Elementary Latin I, Elementary Latin II is accessible to students who have taken Elementary Latin I. The elements of classical Latin, with emphasis upon the mastery of the basic verb systems (the five declensions and four conjugations), forms, syntax, vocabulary, and techniques in reading and translating simple Latin prose are covered in this two-part beginning course. Two semesters of the same language are required to meet the General Education requirement. *Meets the General Education Requirement: Foreign Language.*
**Prerequisite:** LTN 200

## MIN 108, Christian Life, Faith, and Ministry, 3 Units
The theological, educational, and social bases for ministry and service are examined. An analysis of the church's responsibility and methods for carrying out the ministry mandate of Jesus is emphasized. *Meets the General Education Requirement: Christian Life, Faith, Ministry.*

## MIN 206, Introduction to Practical Theology, 3 Units
This course introduces students to practical theology methods for integrating Christian faith with the attitudes and activities of contemporary society. Students examine contemporary practices in various aspects of life and learn how to develop uniquely Christian positions and actions using various approaches associated with practical theology. Special emphasis is given to training students in processes that equip them to discern Christian responses and initiatives in the midst of a rapidly changing global environment.

## MIN 300, Writing 3: Culture and Ministry, 3 Units

This course helps students understand the interplay between cultural awareness and effective ministry. Cultural forces are constantly shifting so emphasis is placed on ethnographic principles and practices as valuable to a minister in order to effectively engage people in various contexts. It will also invest considerable time inside and outside the classroom into enhancing students' written communication as an invaluable tool for expressing their ideas clearly and in a convincing fashion in contemporary cultural contexts. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*
**Prerequisite:** MINC 200 or MINY 203, Writing 2 requirement, Junior Standing & GPA 2.5

## MIN 301, Adolescent Development in Family Ministry, 3 Units

This course equips students to integrate practical theology and adolescent developmental theory to empower church communities in cultivating ministry to adolescents and their families toward lifelong flourishing and faith commitment. Emphasis is placed on gaining an understanding of current research in adolescent developmental psychology while considering its implications in contemporary family ministry models.
**Prerequisite:** MINC 200 or MINY 203; WRIT 200 or MIN 206; and completed General Education Humanities: Social Sciences requirement, junior or senior standing, or department consent.

## MIN 336, Family Development and Ministry, 3 Units

This course equips students to design and apply practical theology methods and programs that empower the family. Specific focus is placed upon the family in its cultural setting, and the development needs of various family members at particular stages of life.
**Prerequisite:** WRIT 200 or MIN 206 and PSYC 290 or completed Humanities: Social Science General Education requirement.

## MIN 350, Mentoring and Small Groups, 3 Units

The theology and practice of mentoring and small group involvement is studied in the context of relational discipleship and spiritual formation. Topics for study include leadership, group formation, group dynamics, small group models and purpose, program development, the range of mentoring possibilities, communication models, and models for spiritual transformation.
**Prerequisite:** MINC 200 or MINY 203 and WRIT 200 or MIN 206

## MIN 401, Christian Ministry Internship I, 3 Units

This course develops a student's ability to blend Christian theology and Christian practice by integrating classroom learning, hands-on practice, spiritual formation, mentoring, and critical reflection on the practice of the Christian faith. Course work covers: biblical and theological foundations of Christian practice, the context in which the Christian faith is to be practiced, and the dynamic relationship between the two. Students are required to serve an average minimum of 6 hours per week in hands-on field experience. Students must also participate in small groups for reflection, mentoring, and spiritual formation.
**Prerequisite:** WRIT 200 or MIN 206, MIN 300, THEO 200, two General Education UBBL courses, and GPA 2.5.

## MIN 402, Christian Ministry Internship II, 3 Units

This course is a continuation of the first semester and has a similar format in terms of classroom experience, field experience, and small groups. It further develops a student's ability to blend Christian theology and ministry by utilizing a method of reflecting theologically on the practice of Christian faith and facilitating the ability to clearly state and defend one's own theology for Christian ministry. Students are required to serve an average minimum of 8 hours per week in hands-on field experience.
**Prerequisite:** MIN 401

## MIN 417, The Art of Leadership, 3 Units

This course teaches students to critically integrate Christian theology with best leadership practices in church ministry and non-profit ministry environments. The course equips students to create actions and practices that have a positive, transformative Christian impact in the lives of those we serve and those who serve with us. Students will learn to develop these actions and practices in their internships.
**Prerequisite:** GPA 2.5, WRIT 200 or MIN 206, THEO 200, two General Education UBBL courses.
**Corequisite:** MIN 401

## MIN 495, Topics in Ministry, 3 Units

This course engages in a focused and intensive study of particular topics of direct relevance and urgency in the practice of Christian ministry and youth ministry. Topics vary from semester to semester, and this course may be taken more than once as topics change.

## MIN 496, Senior Seminar: Church and Society, 3 Units

Students use practical theology methods learned in class to create an integrated Christian response to a contemporary social issue. It considers the ethical, spiritual, and community causes and impacts of social issues and teaches students to develop informed Christian responses to them. This course is taught in a seminar format that includes major papers developed over the course of the semester, leading class discussions, and a presentation. *Meets the General Education Requirement: Integrative and Applied Learning.*
**Prerequisite:** Senior standing, Writing 3, and completion of the majority of the units required from the Biblical, Theological, and Philosophical Formation category in General Education.

## MINC 105, Introduction to Global Vision, 1 Unit

Students are exposed to opportunities for Christian service abroad while gaining an overview of the present progress of the Great Commission. Does not count toward the Christian ministries major.

## MINC 110, Introduction to Intercultural Christian Ministries, 3 Units

Students are exposed to intercultural Christian service opportunities while gaining an overview of the present progress of the Great Commission. Requires participation in spring or summer short-term mission experience through the Institute of Outreach Ministries or an APU sponsoring office with final grade 'In Progress' until deadline for service requirement reflection is reached. This course serves as a prerequisite for the Intercultural Christian ministries concentration. Students must complete all course requirements by the first day of the fall semester.

## MINC 200, Introduction to Contemporary Christian Ministries, 3 Units

This course exposes students to various ministry contexts and vocations while they begin to form a philosophy and theology of ministry. Emphasis is on the theological, philosophical, and practical viability of current ministry models while identifying unique emphases relevant to particular contexts. Students engage in an assessment of their own gifts, personality traits, and ministry calling in light of exposure to ministry options.
**Prerequisite:** MIN 108 (may be taken concurrently)

## MINC 253, Evangelism and Discipleship, 3 Units

Students in this course develop a biblically informed approach to evangelism and discipleship as a central purpose of the Church. Students explore this purpose in light of Jesus' mission statement, "Go and make disciples of all nations" (Matt. 28:19). This course carefully examines the necessary building blocks for producing an evangelistic, disciple-making Church community, with a significant focus on understanding the process of individual and corporate spiritual formation.
**Prerequisite:** 2.5 GPA, MINC 200 or MINY 203, and WRIT 200 or MIN 206.

## MINC 318, Theology and Practice of Ministry, 3 Units

The life and work of the Christian pastor is studied with attention to the broad range of duties, rituals, and responsibilities for which the contemporary Christian pastor is expected to have competency. Topics for study include administration of sacraments, church finance, staff administration, worship, church boards, pastoral visitation, and evangelism.
**Prerequisite:** MINC 200 or MINY 203 and WRIT 200 or MIN 206

## MINC 326, Effective Teaching in Christian Education, 3 Units

Students study the principles and procedures involved in effective classroom teaching: philosophies of teaching, methods, the teaching-learning process, motivation, guidance, integration, and evaluation.
**Prerequisite:** MINC 200 or MINY 203 and WRIT 200 or MIN 206

## MINC 330, Intercultural Ministries, 3 Units

The course provides an understanding of the challenges and opportunities associated with intercultural ministry in and beyond the local church. Biblical, eschatological, missiological, socio-cultural and practical issues are explored with the goal of providing conceptual tools for analyzing, adapting, and creating practical ways to respectfully reach, embrace and engage those from diverse cultural contexts as members of the body of Christ. *Meets the General Education Requirement: Intercultural Competence.*
**Prerequisite:** MINC 200 or MINY 203 and WRIT 200 or MIN 206

## MINC 346, Ministry to the City, 4 Units

This course provides the student with a broad introduction to the unique challenges and opportunities for Christian ministry in an urban context with special attention to some of the most effective methods and tools for doing urban ministry. Students are encouraged to reflect on their own lifestyles and future ministry choices in light of the needs of the city and the response of the gospel in meeting human need. Exposure to city life and church-based organizations working for the shalom of the city provide a dynamic context for the various learning activities in this course.
**Prerequisite:** MINC 200 or MINY 203 and WRIT 200 or MIN 206

## MINC 370, Introduction to Pastoral Care and Counseling, 3 Units

Pastoral counseling as a specialized ministry within the field of pastoral care will be explored didactically and practically in the preparation of persons who plan to do pastoral counseling and pastoral psychology. This course will engage in interdisciplinary examination of the physiological, cultural, theological, and biblical understanding of care and counseling. A survey of counseling theory from an integrative perspective, with attention to particular ministry issues will be incorporated into a practical format in a community setting.
**Prerequisite:** MINC 200 or MINY 203, WRIT 200 or MIN 206, and completed Humanities: Social Science General Education requirement.

## MINC 405, Christian Mission in the 21st Century, 3 Units

This course is an introduction to the biblical, historical, and theological foundations of missions in a contemporary world setting, both globally and locally. The call, context, and preparation for missionary service are examined.
**Prerequisite:** MINC 200 or MINY 203 and WRIT 200 or MIN 206 (not required for non-youth ministry/Christian ministries majors).

## MINC 406, History and Philosophy of Christian Education, 3 Units

The history of educational theory, with emphasis on objective and philosophical problems and biblical bases, is covered in this course.
**Prerequisite:** WRIT 200 or MIN 206

## MINC 408, Principles of Preaching, 3 Units

This course offers a study of classical homiletics and a variety of sermonic methodologies. Sound hermeneutical principles in exegesis of Scripture and the worship setting of the sermon with emphasis on the delivery of effective expository sermons in the contemporary world are covered.
**Prerequisite:** WRIT 200 or MIN 206, MINC 200 or MINY 203, UBBL 3xx/4xx.

## MINC 416, Communicating the Gospel, 3 Units

This course assists the student in following Jesus' model of a people "filled with grace and truth" (John 1:14). Special attention is given to writing, speaking, teaching, interpersonal communication, body language, problem solving, and other critical tasks necessary to being a Christian and carrying out the Great Commission.
**Prerequisite:** WRIT 200 or MIN 206, MINC 200 or MINY 203, UBBL 3xx/4xx.

## MINC 420, Suffering: Theological and Practical Perspectives on Disabilities, 3 Units

This course examines theological perspectives to understand the role of suffering in the human experience. Focusing on persons with disabilities, students explore their personal values, gain understanding of bio-psycho-social-spiritual components of disability, access available resources, and develop strategies to help churches/agencies develop inclusive programs.
**Prerequisite:** 3 units of UBBL and Junior standing

## MINC 430, Race, Reconciliation, and Ministry, 3 Units

This course prepares students to engage people in ministry in a contemporary culture that is increasingly multiethnic. To equip students to be more culturally intelligent, course material guides them in an exploration of the historical and contemporary relationships between race, theology, and ecclesiology in Western culture, with the intent of developing a commitment to reconciliation grounded in their theological convictions. *Meets the General Education Requirement: Intercultural Competence.*
**Prerequisite:** WRIT 3

## MINC 446, Children's Educational Ministries, 3 Units

Childhood development, the needs of children in contemporary society, and biblical and theological perspectives on children are examined, with an emphasis on discerning the church's role in nurturing spiritual formation in the faith community.
**Prerequisite:** MINC 200 or MINY 203, WRIT 200 or MIN 206, and PSYC 290; completed Humanities: Social Science General Education requirement.

## MINC 456, Ministry Organization and Administration, 3 Units

This course examines the process of ordering the ministry of the church or parachurch community for the greatest effectiveness. This order is to be understood theologically as a means of creating the most ideal context possible for the Holy Spirit to minister to and through people. All aspects of strategic planning, church organization, and administration are addressed.
**Prerequisite:** MINC 200 or MINY 203 and WRIT 200 or MIN 206

## MINC 466, Adult Development and Spiritual Formation, 3 Units

The course examines the process and contexts by which adults mature engaging biblical and theological foundations for adult development and spiritual formation that takes adult characteristics, needs, life-cycle, and learning patterns into consideration.
**Prerequisite:** WRIT 200 or MIN 206, MIN 300 and MIN 301 or department consent

## MINC 467, Spiritual Transformation, 3 Units

The course examines the process and contexts by which persons mature, engaging biblical and theological foundations for spiritual transformation that takes developmental characteristics, needs, life cycles, and learning patterns into consideration. The course emphasizes community and individuals.
**Prerequisite:** MIN 300, MIN 301, or department consent

## MINC 486, Urban Ministry Practicum, 6 Units

The practicum is intended to provide students with a broad understanding of urban life and ministry. The practicum develops a student's ability to interface theory and practice, theology and ministry, by integrating classroom learning, hands-on practice, spiritual formation, mentoring, and critical reflection on the practice of the Christian faith in an urban setting. During the practicum, the student is required to live, work, worship, and study in the city.
**Prerequisite:** WRIT 200 or MIN 206, MINC 346 or MINC 487.

## MINC 487, Exegeting the City, 3 Units

This course explores the development of a "hermeneutic" for understanding the built environment as a means to engage the city and enhance ministry opportunities. Discussion centers on physical, sensory indicators of community needs and resources. The goal is to more adequately contextualize Christian urban ministry. Topics include community mapping, needs assessment, resource identification, measurement of change, and strategic ministry development. Course work is taught at a graduate level, but undergraduates are welcome.
**Prerequisite:** MINC 200 or MINY 203 and WRIT 200 or MIN 206

## MINC 497, Readings, 1-4 Units

This is a program of study concentrating on assigned readings, discussions, and writing arranged between, and designed by, a student of upper-division standing and a full-time professor. May be repeated for credit. An independent study fee is assessed for each enrollment in this class.
**Prerequisite:** WRIT 200 or MIN 206

## MINC 498, Directed Research, 1-4 Units

This course provides instruction in research design and technique, and gives students experience in the research process. The one-unit expectation encompasses no less than 30 hours of work with accompanying reading, log, writing, and seminar presentation within the department or in a university research symposium. No more than one unit may be used to fulfill preparatory readings requirement. An independent study fee is assessed for each enrollment in this class. May be repeated for credit.
**Prerequisite:** Junior or Senior Standing

## MNCE 310, Practical Theology and Contemporary Issues, 3 Units

Students in this course learn to apply specific methodologies associated with the discipline of practical theology to reflect on and respond in appropriate ways to a contemporary issue, informed by significant theological reflection and cross-disciplinary insight. The specific topic addressed varies each semester based on issues arising in contemporary culture that require careful theological reflection.
**Prerequisite:** WRIT 200 or MIN 206, THEO 200, PHIL 301, and junior standing or department consent

## MNCE 415, Practical Theology and Vocational Engagement, 3 Units

This capstone course for the cultural engagement minor enhances a student's ability to identify and skillfully utilize principles characteristic of the discipline of practical theology to develop a theologically informed perspective regarding issues related to their chosen major or perceived vocational aspirations. Students engage in a cross-disciplinary research project in order to demonstrate their ability to relate methodologies and perspectives associated with practical theology to a specific issue or experience they will encounter in the context of their professional lives.
**Prerequisite:** VOC 200, MNCE 310, and senior standing.

## MINY 172, Foundations of Youth Outreach and Discipleship I, 1 Unit

This course provides an introduction to YoungLife, as well as a theological and practical foundation for students interested in Young Life leadership. Students investigate the theology of the incarnation and evangelism, and begin to develop a personal theology of ministry. Site visits to local schools and YoungLife clubs, coupled with relevant readings, will expand students' understanding of the complexities of current adolescent culture.

## MINY 174, Foundations of Youth Outreach and Discipleship II, 2 Units

Building upon MINY 172, this course further equips YoungLife leaders by challenging students to engage various theological topics, promoting their own understanding and spiritual formation. Students will develop the ability to articulate their own faith, as well as the theological foundations informing it. Following the YoungLife format, students will construct and deliver several club talks. Practical issues such as time management, logistics, legal issues, and dealing with difficult adolescent/family issues will be addressed.
**Prerequisite:** MINY 172

## MINY 203, Introduction to Contemporary Youth and Family Ministries, 3 Units

This course exposes students to conceptualizations of local church youth and family ministries in a variety of forms, in an effort to engage students in the process of beginning the formation of their own philosophy and theology of youth and family ministries. Emphasis is on the theological, philosophical, and practical viability of current ministry models, while identifying unique strategies relevant to particular contexts. Students take part in an assessment of their own gifts, personality traits, and ministry calling in light of exposure to ministry options.
**Prerequisite:** MIN 108 (may be taken concurrently)

## MINY 226, Studying and Teaching the Bible, 3 Units

This course helps students develop skills in biblical exegesis and teaching biblical principles to youth. Emphasis is placed upon evaluating students' ability to teach the Bible in settings both inside and outside the classroom.
**Prerequisite:** MIN 108, UBBL 100 or UBBL 230, or department consent

## MINY 305, Integration of Faith and Sports, 3 Units

This course examines biblical, theological, philosophical, and psychological foundations of sports ministry. The course includes a brief history and philosophy of sports ministry, including successful and unsuccessful models, beginning with New Testament models for using sports in ministry to the present formation of the Association of Church Sports and Recreation Ministries. Theological foundations include a theology of competition, victory, character formation, and sportsmanship.

## MINY 320, Organization and Administration of a Sports Ministry, 3 Units

This course provides students with the practical and theoretical resources to be an effective leader of sports ministry programs in church and parachurch settings. Students are provided with academic experiences both inside and outside the classroom to be proficient in program development and implementation, budgeting, goal setting, ministry evaluation, and staffing.
**Prerequisite:** MIN 108

## MINY 400, Christian Values and Human Sexuality, 3 Units

This course involves an interdisciplinary examination of physiological, sociocultural, psychological, and theological bases of human behavior with attention devoted to student's development of a personal perspective toward sexuality that integrates Christian values and moral integrity. Students learn to assess and understand an adolescent's sexual develoment, problems, and issues that relate to sexological and moral development.
**Prerequisite:** MINC 200 or MINY 203, MIN 301, or department consent.

## MINY 403, Adolescent Issues and Intervention, 3 Units

This course introduces the student to the basic skills and practice of counseling adolescents. The course serves as counseling "first-aid", meaning that students learn basic helping skills but do not qualify as professional counselors. Students are exposed to counseling issues and problems that grow out of the development process, disorders that begin with/are unique to adolescence, and intervention, prevention, and referral strategies. Students also examine a philosophy of counseling from a practical theology and biblical perspective.
**Prerequisite:** MIN 301

## MINY 451, Sports Ministry Field Experience, 3 Units

This course integrates theories and praxis learned in course study with hands-on leadership experiences while under the supervision of an APU professor and ministry professionals. Students serve in a sports ministry setting (either church or mission agency) at least 72 hours during the semester while also participating in a small group to facilitate reflection, mentoring, and growth. For the Sports Concentration, this course must be taken before senior year.
**Prerequisite:** MINY 305 or MINY 320; Completed Humanities: Social Science General Education requirement.

## MINY 478, Senior Preparation in Sports Ministry, 1 Unit

This course connects seniors pursuing a sports ministry concentration with the world of the professional sports minister.
**Prerequisite:** MINY 305 or MINY 320

## PHIL 100, Introduction to Philosophy, 3 Units

This course helps students understand the world better by studying significant interpretations of self, the world, and God-the major concerns of philosophy that have been offered by thinkers past and present. *Meets the General Education Requirement: Philosophy.*

## PHIL 100H, Introduction to Philosophy - Honors, 3 Units

This course helps students understand the world better by studying significant interpretations of self, the world, and God that have been offered by thinkers, past and present - the major concerns of philosophy. *Meets the General Education Requirement: Philosophy.*
**Prerequisite:** To enroll in the course, must be a student admitted to the Honors Program and be considered a member in "active" status.

## PHIL 210, Introduction to Critical Thinking, 3 Units

Students study principles of deductive and non-deductive logic. Principles are used to evaluate arguments in a variety of contexts, including the popular media and the professional practices of philosophy, theology, science or law. Students are also expected to assess and improve the logical rigor and clarity of their own reasoning.

## PHIL 252, Classical Chinese Ethics, 3 Units

This course provides an introduction to (1) key texts written by a variety of classical Chinese philosophers-e.g., Konzi (Confucius), Mozi, Mengzi (Mencius), Laozi (Lao Tzu), Zhuangzi, and Xunxi-and (2) to their fundamental ethical teachings-e.g., the nature of the dao, the nature of being human, the role of ritual in the moral life, whether virtue requires partiality to one's family and one's culture, and so forth. More importantly, it teaches students to analyze, to evaluate, and to apply the insights of these texts and teachings to their own lives. Through academic study and thoughtful cultural engagement, it offers a life-enriching, cross-cultural encounter with the classical systems of Chinese ethics that shaped eastern Asian cultures and continue to influence eastern Asian immigrant communities around the world. NOTE: This is a lower-division companion course to PHIL 452. *Meets the General Education Requirement: Intercultural Competence.*

## PHIL 301, Practical Ethics, 3 Units

In this course, students both (1) learn the fundamental theories and principles that influence contemporary ethical discourse, and (2) develop the ability to apply these theories and principles to contemporary moral problems. *Meets the General Education Requirement: Civic Knowledge and Engagement.*

## PHIL 303, Reasons for Faith: Exploring the Rationality of the Existence of God and Christianity, 3 Units

This course equips students to understand and communicate the rich intellectual foundations of a Judeo-Christian worldview. First, students learn various approaches to apologetics, the strengths and weaknesses of those approaches, and a survey of the epistemology of religious belief more broadly. Second, they apply these apologetic approaches with an aim to showcase the rich intellectual foundation for (a) the existence of a perfect Being and (b) the revelation of God through Christ. Third, students study common atheological arguments, ranging from the problem of evil to the problem of hell. Through the course, students learn how to (i) package ideas in clear, organized form, (ii) effectively relate their ideas to their audience, and (iii) think critically and analytically about big, enduring questions relevant to all human beings.
**Prerequisite:** PHIL 100 or HUM 224 or PHIL 305

## PHIL 305, Critical Thinking and Civil Discourse, 3 Units

This course prepares students for effective civic engagement, politically and professionally, teaching them how to apply essential principles of critical thinking in a way that fosters intellectual virtues. These skills and virtues are applied in a variety of contexts including public policy, popular media, and professional practices such as philosophy, theology, science, business, and law. Consequently, the course helps prepare students to successfully complete graduate school placement exams (e.g., GRE, LSAT, MCAT, GMAT). PHIL 100 is not required as a prerequisite, but is strongly encouraged. *Meets the General Education Requirement: Civic Knowledge and Engagement.*

## PHIL 310, Formal Logic, 3 Units

This course defines logic as the skill of assessing arguments. The course assists students to recognize arguments in both academic and nonacademic forms, increasing confidence in their ability to form a structure of techniques and values to be used as a basis for critiquing others' arguments and creating their own.

## PHIL 315, History of Ancient Philosophy, 3 Units

Students explore the development of philosophy from its early beginnings in Greece to the early thought of Augustine. Special attention is given to the Socratic, Platonic, and Aristotelian contributions to the field.
**Prerequisite:** PHIL 100 or HUM 224

## PHIL 316, Medieval Philosophy, 3 Units

This course helps students understand the importance of the medieval era and its contributions to the historical development of philosophy. Thinkers considered in this class include the late Augustine, Averroes, Avicenna, Maimonides, Anselm, Bonaventure, Aquinas, Duns Scotus, and Ockham. Topics considered include the relationship of theology to philosophy, the divine attributes, ontology, and ethics.

## PHIL 320, History of Early Modern Philosophy, 3 Units

This course covers the development of philosophy from the Renaissance through the 18th century.
**Prerequisite:** PHIL 100 or HUM 224

## PHIL 325, History of 19th and 20th Century Philosophy, 3 Units

This course offers a study of the significant philosophical movements and figures from late modernity to the turn of the 21st century.
**Prerequisite:** PHIL 100 or HUM 224

## PHIL 330, Ethics, 3 Units

The basic principles of ethical conduct are examined as applied to personal and social problems. The chief theories of the "good life" are investigated, with special attention given to the principles underlying a consistent ethical outlook on life.
**Prerequisite:** PHIL 100 or HUM 224

## PHIL 340, Writing 3: Concepts of Human Nature, 3 Units

This course explores the significant questions concerning human nature. Special emphasis is placed on philosophical, theological, psychological, and sociological theories of the uniqueness of human activity. Extended attention and instruction will be given to various genres of philosophical writing.
*Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*
**Prerequisite:** Writing 2; PHIL 100 or HUM 224

## PHIL 360, Social and Political Debates, 3 Units

The aim of this course is to prepare students to use ethical principles to argue for justice in the formation of public policies. With this end in mind, students both (1) examine the fundamental principles of social and political philosophy and (2) deliberate about how to employ these principles in contemporary social and political debates. Finally, they put their deliberations into practice by competing in the California Regional Ethics Bowl

## PHIL 362, Business, Virtue, and the Good Life, 3 Units

This course provides students with a moral framework for being wise and just business professionals. Students begin by learning the most prominent ethical theories and principles. They then develop the ability to analyze, to evaluate, and to apply these theories and principles in a way that helps them to lead good and virtuous lives-lives that properly balance often competing moral obligations to one's business associates, to one's fellow citizens, and to one's friends and family members.
**Prerequisite:** Recommended: PHIL 301 or PHIL 330

## PHIL 364, Bioethics, 3 Units

In this course, students both (1) learn the most prominent theories and principles used in contemporary bioethics, and (2) develop the ability to analyze, to evaluate, and to apply these theories and principles in the context of contemporary medical practice.
**Prerequisite:** PHIL 100 or HUM 224; Recommended: PHIL 300 or PHIL 330

## PHIL 366, Environmental Ethics, 3 Units

In this course, students will investigate, craft a proposal for, and practice living according to an environmental philosophy as a way of life based on a virtue approach. Additionally, students will research the arguments for and against various environmentally ethical dilemmas in the modern world, aiming to analyze and respond to these arguments and drawing reasonable and actionable conclusions.
**Prerequisite:** PHIL 100 or HUM 224; Recommended: PHIL 300 or PHIL 330

## PHIL 410, Philosophy of Religion, 3 Units

Religious experience is studied from the standpoint of philosophy. An examination is made of the contributions of philosophy to religion and religion to philosophy.
**Prerequisite:** PHIL 100 or HUM 224

## PHIL 415, Philosophical Theology, 3 Units

The purpose of this course is to analyze rational arguments concerning the divine nature. In it, students apply the laws of logic and principles of sound reasoning to empirical evidence (including claims about the direct experience of God) and introspective intuition concerning the concept of God, enabling us to understand the logical limits of that concept.
**Prerequisite:** PHIL 100 or HUM 224

## PHIL 430, Philosophy of Science, 3 Units

The course explores the nature of scientific method and knowledge and the character of scientific explanations. Ways in which ethics and religion interrelate with the sciences are also covered.
**Prerequisite:** One Lab Science and PHIL 100

## PHIL 440, Epistemology, 3 Units

This course exposes advancing philosophy students to the major problems in the theory of knowledge. While some historical background is covered, the principle focus is on the contours of the contemporary debates about such issues as skepticism, epistemic justification, foundationalism, coherentism, internalism, and externalism. Some application is made specifically to the epistemology of religious belief.
**Prerequisite:** PHIL 100 or HUM 224

## PHIL 445, Metaphysics, 3 Units

This course is an introduction to metaphysics that gives the student a broad perspective into contemporary issues of interest concerning what exists and its nature. This involves classroom discussion of readings from the introductory text and primary source material.
**Prerequisite:** PHIL 100 or HUM 224

## PHIL 450, Special Topics in Ethics, 3 Units

In this course, students utilize their foundational knowledge of ethical theories and principles to analyze contemporary debates concerning recent work in meta-ethics, normative ethics, moral epistemology, or moral psychology.
**Prerequisite:** PHIL 100 and PHIL 330 or instructor consent

## PHIL 451, Race, Sex and Science, 3 Units

This course examines concepts of race and sex in relation to the history of modern western science. Students analyze readings in feminist philosophy, critical race theory and postcolonial studies, which argue that the sciences often presume and perpetuate Eurocentric, androcentric bias. Through this analysis, students cultivate the virtues of epistemic justice and intellectual humility required for intercultural competence and a Christlike character.
*Meets the General Education Requirement: Intercultural Competence.*
**Prerequisite:** 3xx PHIL or 3xx BIOL course or instructor consent

## PHIL 452, Classical Chinese Ethics, 3 Units

This course provides an introduction both (1) to key texts written by a variety of classical Chinese philosophers - e.g., Konzi (Confucius), Mozi, Mengzi (Mencius), Laozi (Lao Tzu), Zhuangzi, and Xunxi - and (2) to their fundamental ethical teachings - e.g., the nature of the dao, the nature of being human, the role of ritual in the moral life, whether virtue requires partiality to one's family and one's culture, and so forth. More importantly, it teaches students to analyze, to evaluate, and to apply the insights of these texts and teachings to their own lives. Through both academic study and thoughtful cultural engagement, it offers a life-enriching, cross-cultural encounter with the classical systems of Chinese ethics that shaped eastern Asian cultures and continue to influence eastern Asian immigrant communities around the world. *Meets the General Education Requirement: Intercultural Competence.*
**Prerequisite:** PHIL 301 or PHIL 330

## PHIL 495, Seminar in Philosophy, 3 Units

Students are assisted in relating philosophical insights to current moral, political, religious, and social issues. Each seminar offers an area of emphasis for study, such as values or the future. It may be taken more than once as topics change.
**Prerequisite:** PHIL 100 or HUM 224

## PHIL 496, Senior Seminar, 3 Units

In this course, students apply their knowledge of the Bible, Christian tradition, and philosophy to contemporary social challenges that confront a Christian worldview. They use this knowledge to analyze, evaluate, and respond to such challenges wisely and insightfully. *Meets the General Education Requirement: Integrative and Applied Learning.*
**Prerequisite:** Senior standing, completion of the majority of the units required for Biblical, Theological and Philosophical Formation, and Writing 3.

## PHIL 496H, Senior Seminar - Honors, 3 Units

## PHIL 497, Readings, 1-4 Units

This is a program of study concentrating on assigned readings, discussions, and writing arranged between and designed by a student of upper-division standing and a full-time professor. May be repeated for credit. An independent study fee is assessed for each enrollment in this class.

## PHIL 497H, Readings - Honors, 1-4 Units

This is a program of study concentrating on assigned readings, discussions, and writing arranged between, and designed by, a student of upper-division standing and a full-time professor. May be repeated for credit. An independent study fee is assessed for each enrollment in this class.
**Prerequisite:** To enroll in the course, must be a student admitted to the Honors Program and be considered a member in "active" status.

## PHIL 498, Directed Research, 1-4 Units

This course provides instruction in research design and technique, and gives students experience in the research process. The 1-unit expectation encompasses no less than 30 hours of work with accompanying reading, log, writing, and seminar presentation within the department or in a university research symposium. No more than 1 unit may be used to fulfill preparatory readings requirement. An independent study fee is assessed for each enrollment in this class.
**Prerequisite:** Junior or Senior Standing

## PRBL 100, Introduction to Biblical Literature: Exodus/Deuteronomy, 3 Units

This course introduces Old Testament biblical literature, hermeneutics, and literary critical methodologies with a primary focus on the books of Exodus and Deuteronomy. Students learn to observe the overall structure of these books, their historical settings, and modern approaches to their literary analysis. Students learn to interpret individual texts within each book. Students study how Deuteronomy uses the material of Exodus to communicate God's Word to a new generation. *Meets the General Education Requirement: Exodus/Deuteronomy.*

## PRBL 230, Luke/Acts, 3 Units

This course introduces New Testament biblical literature, hermeneutics, and literary critical methodologies with a primary focus on the Gospel of Luke and Acts of the Apostles. Special attention is given to the text with regard to their political, cultural, religious, and geographical setting; the literary structures and genres employed; and how those texts are relevant for faithful Christian living. *Meets the General Education Requirement: Luke/Acts.*

## PRMI 108, Christian Life, Faith, and Ministry, 3 Units

The theological, educational, and social bases for ministry and service are examined. An analysis of the church's responsibility and methods for carrying out the ministry mandate of Jesus is emphasized. *Meets the General Education Requirement: Christian Life, Faith, Ministry.*

## PRPH 100, Introduction to Philosophy, 3 Units

This course helps students understand the world better by studying significant interpretations of self, the world, and God- the major concerns of philosophy that have been offered by thinkers, past and present. *Meets the General Education Requirement: Philosophy.*

## PRRS 200, World Religions, 3 Units

This course offers a study of global religious traditions in their cultural and historical contexts. Students critically examine various definitions and methodologies of global religious studies from the perspectives of confessing Christians. Traditions examined include Hinduism, Primal Religions, Buddhism, Confucianism, Taoism, Islam, Judaism, and Christianity. *Meets the General Education Requirement: World Religions.*

## PRTH 200, Theology and the Christian Life, 3 Units

This course provides an introduction to the beliefs of the Christian Church and their implications for Christian living. *Meets the General Education Requirement: Theology.*

## PRTH 354, Church History from the Eve of the Reformation to the Present, 3 Units

This course provides a study of the major developments in the history of Christianity from the eve of the Reformation to the present. Emphasis is placed on the development of the Christian Church in the West and recent developments in the two-thirds world. *Meets the General Education Requirement: Theology.*

## RELG 200, World Religions, 3 Units

This course covers global religious traditions in their cultural and historical contexts. Students critically examine various definitions and methodologies of global religious traditions from the perspectives of confessing Christians. Traditions examined include Hinduism, primal religions, Buddhism, Confucianism, Taoism, Islam, Judaism, and Christianity. *Meets the General Education Requirement: Intercultural Competence.*

## RELG 350, Judaism: A Story of Hope, 3 Units

This course introduces the texts, traditions, and practices of Judaism as they have developed over the centuries. Students are exposed to the literature of classical Judaism, including the Hebrew Bible, the Mishnah, the Midrash, and the Talmud. These texts are read in conjunction with a study of the historical, sociological, and phenomenological environments in which they developed and which mediated them from one generation to the next. Course material includes a study of how Judaism has responded to the changes wrought by modernity and the creation of the state of Israel. *Meets the General Education Requirement: Intercultural Competence.*

## RELG 351, Islam: The Way of Submission, 3 Units

This course introduces the texts, traditions, and practices of Islam as they have developed over the centuries. Course material focuses on rituals, ethics, and practices of Islam, along with discussion of Islam's holiest text, the Qur'an, and also includes study of the historical, sociological, and phenomenological environments in which these elements developed and which mediated them from one generation to the next. Students also explore how the various forms of Islam have responded to the changes wrought by the modern world. *Meets the General Education Requirement: Intercultural Competence.*

## RELG 352, Hinduism: Karma, Dharma, and Yoga, 3 Units

Students in this course explore the major indigenous religions of South Asia-with particular emphasis on shared concepts such as karma, the practices of yoga, and the attainment of dharma-in order to equip Christians for global Christian praxis and interreligious theological and philosophical dialogue. Course material traces the evolution of Indian religion from its roots in the Vedas and the Upanishads through the development of Jainism, Hinduism, and Sikhism, and concludes with an examination of "inclusivist" and "exclusivist" approaches to religious pluralism in contemporary Indian thought. *Meets the General Education Requirement: Intercultural Competence.*

## RELG 353, East Asian Religions and Mindfulness, 3 Units

Students in this course examine East Asian (or Taoist) religions including Mayahana or Ch'an Buddhism, Confucianism, and Taoism-with minor emphasis on Chinese folk religions and Shinto in their Chinese, Korean, and Japanese contexts, and on Vietnamese perspectives-in order to equip Christians for global Christian praxis and interreligious theological and philosophical dialogue. *Meets the General Education Requirement: Intercultural Competence.*

## RELG 395, Special Topics in Religious Studies, 3 Units

Students in this course explore selected topics, themes, or historical developments that are significant for the field of religious studies. Repeatable for credit. *Meets the General Education Requirement: Intercultural Competence.*

## THEO 200, Theology and the Christian Life, 3 Units

This course provides an introduction to the beliefs of the Christian Church and their implications for Christian living. *Meets the General Education Requirement: Theology.*
**Prerequisite:** PHIL 100, HUM 224, or HUM 324 (may be taken concurrently); or department consent.

## THEO 301, Faith and the Arts, 3 Units

This course introduces students to foundational doctrines of the Christian Church through the interaction of biblical texts and various art forms. Students practice the integration of Christian faith with the visual and performing arts, with the resulting creation of praxial theological research that culminates in written and artistic artifacts. *Meets the General Education Requirement: Theology.*
**Prerequisite:** 3 units of biblical studies, MIN 108, or department consent (MIN 108 is waived as a prerequisite for students transferring 60 or more units; all other prerequisites apply).

## THEO 303H, Theology and the Christian Life - Honors, 3 Units

The course provides an introduction to the doctrines of the Christian church, focusing on the Christian life and its relationship to theology. The course approaches theology from an inductive method in the Wesleyan tradition, helping the student learn to think theologically from the Scriptures, orthodox ecumenical tradition, experience, and reason. *Meets the General Education Requirement: Theology.*
**Prerequisite:** 3 units of UBBL, MIN 108, PHIL 210 or PHIL 100 or HUM 224 or HUM 324, or instructor consent. Must also be a student admitted to the Honors Collegeand be considered a member in "active" status.

## THEO 352, Church History: Apostolic Era to the Eve of the Reformation, 3 Units

This course provides a study of the major developments in the history of Christianity from the early Church to the eve of the Reformation. Emphasis is placed on the growth of Christian doctrine. *Meets the General Education Requirement: Theology.*
**Prerequisite:** 3 UBBL units, MIN 108, or department consent.

## THEO 352H, Church History: Apostolic Era to the Eve of the Reformation - Honors, 3 Units

This course provides a study of the major developments in the history of Christianity from the early Church to the eve of the Reformation. Emphasis is placed on the growth of Christian doctrine. *Meets the General Education Requirement: Theology.*
**Prerequisite:** 3 units of UBBL, MIN 108, or department consent. Must also have "active" status in the Honors College. MIN 108 is waived as a prerequisite for students transferring in 60 or more units. All other prerequisites apply.

## THEO 354, Church History from the Eve of the Reformation to the Present, 3 Units

This course provides a study of the major developments in the history of Christianity from the eve of the Reformation to the present. Emphasis is placed on the development of the Christian Church in the West and recent developments in the two-thirds world. *Meets the General Education Requirement: Theology.*
**Prerequisite:** 3 UBBL units, MIN 108, or department consent.

## THEO 354H, Church History from the Eve of the Reformation to the Present - Honors, 3 Units

This course provides a study of the major developments in the history of Christianity from the eve of the Reformation to the present. Emphasis is placed on the development of the Christian Church in the West and recent developments in the two-thirds world. *Meets the General Education Requirement: Theology.*
**Prerequisite:** 3 units of UBBL, MIN 108, or department consent. Must also have "active" status in the Honors College. MIN 108 is waived as a prerequisite for students transferring in 60 or more units. All other prerequisites apply.

## THEO 363, Contemporary Christian Theology, 3 Units

Contemporary Christian theologies are explored in the context of important changes in modern thought in the post-Enlightenment era, emphasizing issues of concern in today's Western, post-Christian culture.
**Prerequisite:** THEO 200

## THEO 410, Systematic Theology I, 3 Units

This is the first in a two-course sequence introducing theological thinking in relation to the great teachings of the Church, and inquiring into the meaning and implications of the doctrines of holiness, revelation, the Trinity, creation, the person and work of Jesus Christ, the person and work of the Holy Spirit, the Church, the sacraments, and eschatology. These courses focus on the witness of Scripture, the historic testimony of the Church, classical and contemporary modes of thought, and the meaning of theological thinking for the life of the student and the Church.
**Prerequisite:** THEO 200

## THEO 411, Systematic Theology II, 3 Units

The second in a two-course sequence introducing theological thinking in relation to the great teachings of the church, and inquiring into the meaning and implications of the doctrines of holiness, revelation, the Trinity, creation, the person and work of Jesus Christ, the person and work of the Holy Spirit, the Church, the sacraments, and eschatology. These courses focus on the witness of Scripture, the historic testimony of the Church, classical and contemporary modes of thought, and the meaning of theological thinking for the life of the student and the Church.
**Prerequisite:** THEO 200 and THEO 410

## THEO 420, Christian Apologetics, 3 Units

Apologetics is the reasoned and faithful response by the Christian church to problems and criticisms of the faith. This course surveys several of the major problems and criticisms of the Christian church: its history, life, and faith. It also reviews the intellectual and faithful responses that Christian scholars have provided to them.
**Prerequisite:** Junior or Senior Standing, UBBL 100, UBBL 230, PHIL 220

## THEO 423, Seminar in Church History, 3 Units

Students explore selected epochs, movements, or issues in the history of the Church.
**Prerequisite:** MIN 108, THEO 352 or THEO 354, or department consent (repeatable for credit)

## THEO 424, Writing 3: The Formation of Early Christianity, 3 Units

Students in this course examine the theological, social, historical, intellectual, cultural, political, and popular influences upon the development of early Christianity through the establishment of the imperial Christian Church in the late 4th century, resulting in the successful completion of a critical analytical research paper using primary and secondary sources. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*
**Prerequisite:** Writing 2, MIN 108, THEO 352 or THEO 354, or department consent.

## THEO 425, Writing 3: American Christianity, 3 Units

In this Church history seminar, students examine the social, historical, intellectual, cultural, political, and popular influences upon the theological development of American Christianity from colonial Puritanism of the 17th century through various revivals, the Civil War, and the Jesus movements of the 20th century, resulting in the successful completion of a critical analytical research paper using primary and secondary sources. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*
**Prerequisite:** Writing 2, MIN 108, THEO 352 or THEO 354, or department consent.

## THEO 427, Writing 3: The History of Christian Spirituality, 3 Units

In this church history seminar, students explore the church's views of healing, miracles, and other gifts of the Holy Spirit from the birth of the church in Acts 2, through the early church fathers, medieval mystics, Protestant reformers, and 19th c. holiness movements to the present-day Pentecostal and Charismatic movements through the successful completion of a critical analytical research paper using primary and secondary sources. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*
**Prerequisite:** Writing 2, MIN 108, THEO 352 or THEO 354, or department consent.

## THEO 428, Global Christianity, 3 Units

In this church history seminar, students examine the historical, cultural, political, and religious influences upon the formation of global configurations of Christianity, including the impact of indigenous religions and worldviews and Western imperialism. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines, Intercultural Competence.*
**Prerequisite:** THEO 352 or THEO 354, or department consent

## THEO 440, The Theology of John Wesley, 3 Units

Students explore aspects of John Wesley, including his thought regarding personal and social ethics. The course emphasizes Wesley's theology of holiness, especially as it is articulated in his understanding of God's sovereign love, the self-giving life of Christ, the work of the Holy Spirit, the Christian life as a radical love for God and other humans, responsibility toward the poor and disenfranchised, and other issues.
**Prerequisite:** THEO 200

## THEO 442, Theologians and Theological Movements, 3 Units

This course examines major Christian theologians and theological movements of importance and interest to students of systematic theology. The course has a seminar format.
**Prerequisite:** THEO 200

## THEO 444, Doctrinal Theology, 3 Units

This course examines in depth one of the major loci in Christian theology. Consideration will be given to its biblical and historical foundations and contemporary expression. This course has a seminar format.
**Prerequisite:** THEO 200

## THEO 445, Theological Ethics, 3 Units

This course is an inquiry into the relationship between God's work in the world and the task of human beings to live well in light of a Trinitarian understanding of faith.
**Prerequisite:** THEO 200

## THEO 454, Christian Traditions, 3 Units

Students are introduced to the three major branches of the Christian Church: Roman Catholicism, Eastern Orthodoxy, and Protestantism. The course investigates the history, theology, polity, and worship practices of each tradition.
**Prerequisite:** THEO 352 or THEO 354, or department consent

## THEO 480, Theology from the Margins, 3 Units

In this course, students (1) examine systems of power that have developed around the concepts of race, gender and class; (2) the marginalizing effects of these systems upon particular peoples; (3) and the constructive theologies of liberation and resistance that have emerged in response. *Meets the General Education Requirement: Intercultural Competence.*
**Prerequisite:** Completion of the GE Theology category

## THEO 495, Topics in Systematic Theology, 3 Units

Current topics of importance and interest to students of systematic theology are studied. The course has a seminar format. It may be taken more than once as topics change.
**Prerequisite:** THEO 200 or THEO 363, or department consent

## THEO 496, Senior Seminar: Theology and Social Issues, 3 Units

This course is designed for those who wish to further their understanding of an important issue facing Christians today. The course consists of a seminar format, including a major paper and oral presentation. Students combine Christian theology, biblical studies, and ethics to examine various ways in which the Christian faith can be lived out today. *Meets the General Education Requirement: Integrative and Applied Learning.*
**Prerequisite:** Senior standing, completion of the majority of the units required for Biblical, Theological, and Philosophical Formation, and Writing 3.

## THEO 497, Readings, 1-4 Units

This is a program of study concentrating on assigned readings, discussions, and writing arranged between, and designed by, a student of upper-division standing and a full-time professor. This course may be repeated for credit. An independent study fee is assessed for each enrollment in this class.

## THEO 498, Directed Research, 1-4 Units

This course provides instruction in research design and technique, and gives students experience in the research process. The 1-unit expectation encompasses no fewer than 30 hours of work with accompanying reading, log, writing, and seminar presentation within the department or in a university research symposium. No more than 1 unit may be used to fulfill preparatory readings requirement. An independent study fee is assessed for each enrollment in this class.
**Prerequisite:** Junior or Senior Standing

## UBBL 100, Introduction to Biblical Literature: Exodus/Deuteronomy, 3 Units

This course introduces Old Testament biblical literature, hermeneutics, and literary critical methodologies with a primary focus on the books of Exodus and Deuteronomy. Students learn to observe the overall structure of these books, their historical settings, and modern approaches to their literary analysis. Students learn to interpret individual texts within each book. Students study how Deuteronomy uses the material of Exodus to communicate God's Word to a new generation. *Meets the General Education Requirement: Exodus/Deuteronomy.*
**Prerequisite:** MIN 108 (may be taken concurrently)

## UBBL 230, Luke/Acts, 3 Units

This course introduces New Testament biblical literature, hermeneutics, and literary critical methodologies with a primary focus on the Gospel of Luke and the Acts of the Apostles. Special attention is given to the texts with regard to their political, cultural, religious, and geographical settings; the literary structures and genres employed; and how these texts are relevant for faithful Christian living. *Meets the General Education Requirement: Luke/Acts.*
**Prerequisite:** UBBL 100 or department consent

## UBBL 235, Luke/Acts through a Latinx Lens, 3 Units

This course introduces New Testament biblical literature, hermeneutics, and literary critical methodologies, with a primary focus on the Gospel of Luke and the Acts of the Apostles, and the primary interpretive lens being that of the Latinx communities in the U.S. Special attention is given to the meaning of the texts with regard to ancient and contemporary political, cultural, religious, and geographical settings; the literary structures and genres employed; and how these texts are relevant for faithful Christian living within a Latinx context. There is also an academic service-learning component. *Meets the General Education Requirement: Luke/Acts.*
**Prerequisite:** UBBL 100 or department consent

## UBBL 310, The Rise of the King: I and II Samuel, 3 Units

Students study I and II Samuel, giving special attention to the text with regard to its purpose, theological message, politics, culture, religions, geographical setting, and literary genre. This course may also include brief surveys of Joshua and Judges as they relate to the rise of the monarchy in Israel. *Meets the General Education Requirement: Upper Division Bible.*
**Prerequisite:** UBBL 100 and UBBL 230 or HON 240, or instructor consent.

## UBBL 311, Old Testament Prophets, 3 Units

This course offers a critical and exegetical study of several selected minor prophets and at least one major prophet (Isaiah, Jeremiah, or Ezekiel). Special consideration is given to their ministry and message in light of the social, political, and religious conditions of their times, as well as the continuing relevance of the prophetic message for our day. *Meets the General Education Requirement: Upper Division Bible.*
**Prerequisite:** UBBL 100; UBBL 230 or HON 240; or instructor consent.

## UBBL 317, Ruth and Esther, 3 Units

This course offers an informed and exegetical study of the books of Ruth and Esther with special consideration to their geographical, political, cultural, religious, and literary dimensions. Additionally, attention is given to the various ways in which Ruth and Esther have been used as resources for contemporary communities of faith. *Meets the General Education Requirement: Upper Division Bible.*
**Prerequisite:** UBBL 100; UBBL 230 or HON 240

## UBBL 320, Psalms and Wisdom, 3 Units

Students undertake an advanced study of poetry and wisdom literature in the Hebrew Bible. Attention is given to the development of the literature as well as an investigation of each book's composition. *Meets the General Education Requirement: Upper Division Bible.*
**Prerequisite:** UBBL 100; UBBL 230 or HON 240; or instructor consent.

## UBBL 330, Life and Teachings of Jesus, 3 Units

The life, ministry, and teachings of Jesus Christ are the focus of this course. Special attention is given to the content of the Synoptic Gospels as well as the social, political, and religious conditions of the time. *Meets the General Education Requirement: Upper Division Bible.*
**Prerequisite:** UBBL 100; UBBL 230 or HON 240; or instructor consent.

## UBBL 331, The Gospel and Letters of John, 3 Units

This course focuses on literary and theological themes in the Gospel and three letters written by the Apostle John. Students gain understanding of why the Gospel and letters of John are important for them. *Meets the General Education Requirement: Upper Division Bible.*
**Prerequisite:** UBBL 230 or HON 240

## UBBL 340, Romans and Galatians, 3 Units

This course provides an analytical, exegetical, and expositional study of the biblical texts of Romans and Galatians. Special attention is given to the nature of Paul's ministry, the theological, social, and practical issues he addressed, and how these texts are relevant for faithful Christian living. *Meets the General Education Requirement: Upper Division Bible.*
**Prerequisite:** UBBL 100; UBBL 230 or HON 240; or instructor consent.

## UBBL 341, Thessalonian and Corinthian Epistles, 3 Units

Paul's letters to the churches at Thessalonica and Corinth are studied, with attention given to the nature of Paul's ministry and the doctrinal and practical issues he addresses. *Meets the General Education Requirement: Upper Division Bible.*
**Prerequisite:** UBBL 100; UBBL 230 or HON 240; or instructor consent.

## UBBL 350, Biblical Lands and Cultures, 3 Units

This comprehensive course of study emphasizes the geography, history, and archaeology of Israel and its neighbors in biblical and postbiblical times. Students will also be introduced to the complex social, political, and religious issues facing the Middle East today. The course will be taught as a semester class on the Azusa campus or in conjunction with a tour of the Bible lands. *Meets the General Education Requirement: Upper Division Bible, Intercultural Competence.*

## UBBL 351, Near Eastern Archaeology, 3 Units

The history and material culture of the Levant are surveyed from prehistoric times through the Iron Age, with particular emphasis on the contributions of ancient Israel to the development of culture. Attention is also given to the nature, goals, and methods of scholarly inquiry and interpretation.
**Prerequisite:** UBBL 100 and UBBL 230 or instructor consent.

## UBBL 352, Archaeological Field Excavation, 3 Units

An introduction to the theory and practice of archaeological excavation as carried out in Israel and other parts of the Middle East. The student will be trained in the methods of survey, field excavation, recording, and pottery analysis. The student will also learn how to intelligently assess and explain the results of Near Eastern Archaeology as it relates to the Bible.
**Prerequisite:** Completion of a 300-level General Education Bible requirement or department consent

## UBBL 442, Prison and Pastoral Epistles, 3 Units

This course is a study of Pauline theology as revealed in these two groups of letters. Special attention is given to Pauline Christology and ecclesiology and their practical relevance for the contemporary Church.
**Prerequisite:** One 300-level New Testament Course: UBBL 330, UBBL 340, UBBL 341, UBBL 343, or department consent

## UBBL 450, Old Testament World, 3 Units

This course examines the history, religion, and culture of ancient Israel within the broader context of the Ancient Near East from the beginnings of civilization through Alexander the Great. Special attention is given to the political, cultural, and religious systems of Egypt, Mesopotamia, Anatolia, and the Eastern Mediterranean world, and their contributions to present-day culture.
**Prerequisite:** Completion of a 300-level Old Testament course, or department approval.

## UBBL 451, New Testament World, 3 Units

The social, political, religious, philosophical, ideological, and literary environment of the Greco-Roman world is studied as the cultural context of Second Temple Judaism, early Christianity, and their literature.
**Prerequisite:** UBBL 230 and one UBBL 300 level course

## UBBL 472, Biblical Apocalyptic, 3 Units

Students learn about the rise and development of the apocalyptic literature found in the collections of the Old Testament, Pseudepigrapha, Apocrypha, and New Testament. Special attention is given to Daniel, Matthew 24-25, 1 and 2 Thessalonians, and Revelation and how those texts are relevant for faithful Christian living.
**Prerequisite:** One 300-level New Testament Course: UBBL 330, UBBL 340, UBBL 341, UBBL 343, or department consent

## UBBL 476, Writing 3: Women in the Biblical Tradition, 3 Units

This course enables students to participate in the discourse community of their major by assessing the rhetorical situations they will encounter when they enter their academic field or profession. Students also create documents in at least two genres, implementing the techniques they have developed in Writing 1 & 2. The writing component will complement an introduction to the students to how women are depicted in biblical tradition. It includes careful reading of narratives about women in the Bible, both Old and New Testaments, as well as the reception of and expansion on those narratives in early Church tradition. Furthermore, the student explores the way contemporary readers/hearers encounter these texts in light of their own cultural location and faith perspectives. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*
**Prerequisite:** Completion of GE Writing 2 requirements and 100-, 200-, and 300-level General Education UBBL requirements.

## UBBL 481, History of Biblical Interpretation, 3 Units

This is an upper-division humanities course that introduces the student to the rich history of the interpretation of biblical writings. The focus rests on the ways in which the various faith communities, Jewish as well as Christian, received the writings, rendered them comprehensible and relevant to contemporary concerns, and passed them on to subsequent generations. The chronological range covered by this course begins during the biblical period itself and extends to the present day.
**Prerequisite:** Completion of a 300-level UBBL course.

## UBBL 482, Global Biblical Interpretation, 3 Units

This course examines how Christians in the non-Western world have received the Bible and have made it meaningful to their own cultural concerns. Students examine alternate approaches to the science and art of biblical interpretation, approaching non-Western interpretation of the Bible from theoretical, sociological, literary-critical, theological, and practical perspectives. *Meets the General Education Requirement: Intercultural Competence.*
**Prerequisite:** UBBL 100, UBBL 230, and one 300-level UBBL course or department consent.

## UBBL 483, Postcolonial Biblical Interpretation, 3 Units

This course examines the modern history of biblical interpretation, giving special attention to the development of postcolonial biblical criticism, an innovative approach to reading sacred texts that draws from the life experiences of those who have suffered from colonial and imperial oppression. Students examine the various themes of postcolonial theory in order to assess its strengths and consider its blind spots. Students also learn to apply its various principles to the exegesis of biblical texts.
**Prerequisite:** Completion of a 300-level UBBL course.

## UBBL 493, Biblical Studies Capstone Course: Old Testament Theology, 3 Units

This course provides opportunities to develop skills for engaging basic issues concerning theology in the Old Testament as Christian Scripture. Subjects include the relationship between God and the world, knowledge of God, the sovereignty of God, the holiness of God, the justice and mercy of God, and the people of God. Writing assignments are built on exegetical skills cultivated in other UBBL coursework and provide a platform for mastering principled research methods, textual and hermeneutical analysis, and critical evaluation of ancient and modern theological discourse. To meet the biblical studies capstone requirement for majors, this course or UBBL 494 may be taken.
**Prerequisite:** Senior standing, at least one 300-level Old Testament course, Writing 3, or department consent.

## UBBL 494, Biblical Studies Capstone Course: New Testament Theology, 3 Units

Students in this course explore major New Testament themes and how they relate theologically. The course offers a comparative study of New Testament writers (Matthew, Mark, Luke, John, Paul, the author of Hebrews, and others), with focus upon what they disclose about God, Jesus Christ, the Holy Spirit, the Church, sin, salvation, the coming Kingdom, and other subjects. As a capstone course, attention is given to methodology, biblical literacy, informed thinking, and faith integration. To meet the biblical studies capstone requirement for majors, either this course or UBBL 493 may be taken.
**Prerequisite:** Senior standing, at least one 300-level New Testament course, Writing 3, or department consent.

## UBBL 495, Special Topics in Biblical Studies, 3 Units

This course explores topics in Biblical Studies not covered in-depth by regular department offerings.
**Prerequisite:** One upper-division UBBL course

## UBBL 496, Senior Seminar: Biblical Theology and Ethics, 3 Units

This senior seminar examines an important theological and ethical issue facing Christians today. This course explains selected methods and content from the fields of biblical theology and biblical ethics and prepares students to articulate various ways in which the Christian faith can be lived out in the contemporary world. The seminar format includes an oral presentation and a thesis. *Meets the General Education Requirement: Integrative and Applied Learning.*
**Prerequisite:** Senior standing; Completion of a 100, 200, and 300 level UBBL General Education course; One General Education Theology course; and Writing 3.

## UBBL 497, Readings, 1-4 Units

This is a program of study concentrating on assigned readings, discussions, and writing arranged between, and designed by, a student of upper-division standing and an approved professor. This course may be repeated for credit. An independent study fee is assessed for each enrollment in this class.

## UBBL 498, Directed Research, 1-4 Units

This course provides instruction in research design and technique, and gives students experience in the research process. The 1-unit expectation encompasses no less than 30 hours of work with accompanying reading, log, writing, and seminar presentation within the department or in a university research symposium. No more than 1 unit may be used to fulfill preparatory readings requirement. An independent study fee is assessed for each enrollment in this class.
**Prerequisite:** Junior or Senior Standing

# BA in Biblical Studies

39 units

The biblical studies major (https://www.apu.edu/theology/programs/biblical-studies-major/) combines a broad background in philosophy, Christian theology, and ministry with a solid foundation in the Bible. Graduates are furnished with a biblical basis for Christian ministry and evangelism and are prepared for graduate study in the Bible and Christian theology.

## Career Opportunities

This major provides students with tools for continued education at a seminary or university. Graduates have also assumed positions in churches and Christian organizations where knowledge and understanding of the Scriptures are essential.

## Requirements

Core requirements for the biblical studies major may double-count with course requirements for the biblical hermeneutics and/or biblical archaeology concentration. A minimum 2.5 cumulative GPA is required in all courses for the major.

### THEO/UBBL Double Major Guidelines

Should a student choose to double major in theology and biblical studies, he/she must take 3 additional upper-division courses in **a single discipline** of either THEO or UBBL (THEO 4XX or UBBL 3XX/4XX) to meet the guidelines for double majors (p. 1028).

**NOTE: Only one correspondence course may be counted toward the major or minor and only with permission from the department.**

| Code | Title | Units |
|---|---|---|
| **Required Courses** | | |
| UBBL 230 | Luke/Acts [1,2] | 3 |
| or UBBL 235 | Luke/Acts through a Latinx Lens | |
| UBBL 476 | Writing 3: Women in the Biblical Tradition [3] | 3 |

| UBBL 494 | Biblical Studies Capstone Course: New Testament Theology (If not taken above) |
| UBBL 497 | Readings |
| UBBL 498 | Directed Research |

Students may substitute one of the ancient languages or biblical studies electives above with one of the following religious studies courses:

| RELG 350 | Judaism: A Story of Hope [5] |
| RELG 351 | Islam: The Way of Submission [5] |
| RELG 352 | Hinduism: Karma, Dharma, and Yoga [5] |
| RELG 353 | East Asian Religions and Mindfulness [5] |

| **Total Units** | **39** |

[1]     Either course meets the General Education Luke/Acts requirement.
[2]     Meets the General Education Biblical, Theological, and Philosophical Formation requirement.
[3]     Meets the General Education Writing 3 requirement.
[4]     Meets the General Education Integrative and Applied Learning requirement.
[5]     Meets the General Education Intercultural Competence requirement.
[6]     Meets the General Education Intercultural Competence **or** Upper-Division Bible requirement.
[7]     Meets the General Education Theology requirement.
[8]     Meets the General Education Philosophy requirement.
[9]     Meets the General Education Upper-Division Bible requirement.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Explain current methodological approaches used to study the Christian Scriptures.
2. Explain how history and culture influence the interpretation of the Christian Scriptures.
3. Write an acceptable Biblical Studies research paper or prepare an equivalent project.
4. Articulate how scripture, tradition, experience, and reason shape our Christian worldview.
5. Articulate biblically responsible perspectives on gender, race, and ethnic and cultural diversity.

# BA in Christian Ministries

45 units

The Christian ministries major (https://www.apu.edu/theology/programs/christian-ministries-major/) provides the student with a broad perspective in the field of religion, and academic preparation involving theory and professional training. Graduates are prepared for more-specialized graduate study and given the conceptual and technical resources for effective service in Christian ministry. Courses are available in practical theology, pastoral work, Christian education, missions, and urban ministry.

## Career Opportunities

Graduates with a Christian ministries major assume positions in local churches as pastors, directors of Christian education, and youth pastors; in Christian schools as teachers and administrators; and in parachurch or nonprofit organizations as leaders and staff members, in the United States and other countries.

## Requirements

Successful completion of the major requires a 2.5 cumulative GPA in all courses required for the major.

| Code | Title | Units |
|------|-------|-------|
| **Specific General Education Requirements for Christian Ministries Majors** | | |
| MIN 108 | Christian Life, Faith, and Ministry | |
| PHIL 100 | Introduction to Philosophy | |

| MINY 403 | Adolescent Issues and Intervention | |
| **Total Units** | | **45** |

   This is in addition to the General Education Upper-Division Bible requirement; students must choose from one of the other upper-division courses offered by the department.

   Meets the General Education Civic Knowledge and Engagement requirement.

   Meets the General Education Theology requirement.

   Meets the General Education Integrative and Applied Learning requirement.

   WRIT 200 meets the General Education Writing 2 requirement.

   Meets the General Education Writing 3 requirement.

   MIN 401 and MIN 417 require concurrent enrollment.

   Meets the General Education Intercultural Competence requirement.

## Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate proficiency in communication.
2. Apply practical theology methodologies in ministry contexts.
3. Develop a healthy awareness of one's self, gifts, and/or callings.
4. Exhibit increased capacities to cultivate inclusive communities.
5. Demonstrate competence related to skills required for Christian leadership.
6. Articulate how their maturing theology informs their Christian practice.

# BA in Philosophy

33 units

## Mission

The Department of Philosophy (https://www.apu.edu/theology/philosophy/) equips and mentors students to become intellectual leaders in important debates about compelling philosophical issues that shape contemporary culture.

## Goals

The philosophy major (https://www.apu.edu/theology/programs/philosophy-major/) achieves this mission by developing a community of scholars who are:

- **Intellectually Skilled**: Excellent in critical reading, analytic reasoning, and persuasive argumentative writing.
- **Historically Informed**: Cognizant of the classical philosophical theories and principles that have shaped contemporary debates about God, human nature, and the Good Life.
- **Pragmatically Oriented**: Able to use this combination of intellectual skills and theoretical knowledge to influence contemporary cultural practices concerning religion, science, ethics, civil service, public policy, and the arts.

## Distinctive Features

APU's philosophy major embodies four distinctive characteristics of the university's Wesleyan Christian heritage:

- **Classical Christian Orientation:** We draw upon the greatest aspects of the classical Christian philosophical traditions—Orthodox, Roman Catholic, and Protestant.
- **Sanctity of Mind:** We believe that all people are called to love God with their minds by cultivating intellectual virtues so they can better understand God, human nature, and all of God's Creation.
- **Sanctity of Heart:** We believe that all people are called to love God with their hearts by cultivating moral virtues so they can be better lovers of God and of their neighbors and better stewards of God's Creation.
- **Community-Oriented Service:** We believe that all people are called to manifest their love of God and neighbor by putting these intellectual and moral virtues into practice, serving their ecclesial and civil communities.

## Career Opportunities

The major in philosophy prepares students for excellence in a variety of careers, such as:

- Professor
- Lawyer
- Bioethicist
- Public Policy Analyst
- Corporate Compliance Manager
- Pastor/Theologian
- K-12 Teacher

## Requirements

The philosophy major is completed by taking PHIL 100 or HUM 224 and at least 30 units of upper-division work in philosophy from the list below. Each course is 3 units. Courses below cannot be counted for any other major in the Division of Religion and Philosophy. A minimum 2.5 cumulative GPA is required in all major courses.

| Code | Title | Units |
| --- | --- | --- |
| **Required Courses** | | |
| PHIL 100 | Introduction to Philosophy [1,2] | 3 |
| PHIL 310 | Formal Logic | 3 |
| PHIL 315 | History of Ancient Philosophy [2] | 3 |
| PHIL 320 | History of Early Modern Philosophy [2] | 3 |
| PHIL 330 | Ethics | 3 |
| PHIL 340 | Writing 3: Concepts of Human Nature [3] | 3 |
| Select one of the following: | | 3 |
| PHIL 440 | Epistemology | |
| PHIL 445 | Metaphysics | |
| **Electives** | | |
| Select 12 units consisting of any upper-division PHIL courses not being used to satisfy the Required Courses above. At least 6 of these units must be at the 400 level. [4] | | 12 |
| **Total Units** | | **33** |

[1] Meets the General Education Philosophy requirement.
[2] HUM 224 may be taken in exchange for PHIL 100. HUM 324 may be taken in exchange for PHIL 315 or PHIL 320.
[3] Meets the General Education Writing 3 requirement.
[4] PHIL 301 and PHIL 303 do not count for this elective requirement.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Formulate philosophical questions with precision and clarity.
2. Articulate the structure of a philosopher's position or philosophical text and assess its strengths and weaknesses.
3. Identify and critique key figures and themes in the history of philosophy and the perspectives of those marginalized by this history.
4. Critically analyze societal problems and proposed resolutions from a Christian perspective.
5. Demonstrate continual intellectual growth through personal research and scholarship.
6. Manifest skills enabling them to be strong candidates for a graduate program in philosophy.

# BA in Theology

36 units

The theology that guides Department of Theology programs is a reasoned response to God's self-disclosure in Jesus Christ. This theology is a careful articulation of the mystery, grace, and hope of that story, which takes place among the people of Jesus—the Church. The theology major serves students who wish to give themselves to this particular way of truth and life. It aids in preparing students for graduate work in related disciplines and for Christian service in the Church and the world.

The theology major (https://www.apu.edu/theology/programs/theology-major/) equips and encourages undergraduate students to become effective and faithful theologians, well-prepared for further theological education as well as for service to the Church, by developing in them suitable analytical, reflective, and expressive skills and bringing them into fruitful engagement with a broad range of theological resources as they learn to apply Christian theology to contemporary issues.

## Program Goals

1. Through the General Education courses, the theology program seeks to prepare all undergraduate students to demonstrate an understanding of the essential components of theological reflection and an ability to give thoughtful consideration to current and historical issues in light of the Church's Scriptures and traditions. Graduates should be able to articulate a Christian worldview of truth and life and apply biblically based ethical reasoning skills to problems.
2. The theology program cultivates collegial scholarship for faithful engagement with students, the Church, and the academy.
3. The theology program continues to develop and refine mechanisms that bring theology majors into fruitful firsthand engagement with contemporary theological work as it is carried out in the academy. This may develop through projects of their own or through collaborative efforts with faculty. Graduates should demonstrate a practice of continual intellectual growth through personal scholarship and development.
4. The theology program continues to develop and refine methods of teaching and mentoring that further students' theological contributions to the Church and society. Graduates should practice a respect for the worth of all persons with appreciation of individual and cultural differences, demonstrating truth telling and grace in their relationships, and should be able to articulate the importance of extending genuine community to all peoples locally, regionally, nationally, and globally.
5. The theology program encourages and cultivates students' growth in the ability to think critically about the historical, doctrinal, biblical, and practical aspects of the Christian faith, including appreciating, understanding, and valuing the Church. Students grow into a greater awareness of the personal and social relevance and spiritual richness that informed, disciplined theological reflection can bring to their Christian existence and their own impact upon the world in which they live.

## Career Opportunities

The theology major is offered as an avenue of sustained and thoughtful devotion to the God of the Gospel. At the same time, it provides students with the discipline and practices that are requisite for graduate study or other service in the Church and the world. APU theology alumni have pursued graduate studies at Duke Divinity School, Fuller Theological Seminary, Oxford Centre for Mission Studies, Princeton Theological Seminary, Vanderbilt Divinity School, Yale Divinity School, and other institutions in fields such as education, sociology, law, theology, Church history, biblical studies, philosophy, and international relations. Alumni have also served as pastors, chaplains, teachers, social workers, community organizers, nonprofit program administrators, and relief workers, and in parachurch ministries.

## Requirements

THEO/UBBL Double Major Guidelines: Should a student choose to double major in theology and biblical studies, he/she must take 3 additional upper-division courses in **a single discipline of** either THEO or UBBL (THEO 4XX or UBBL 3XX/4XX) to meet the guidelines for double majors (p. 1028).

A minimum 2.5 cumulative GPA is required in all major courses. The theology major may be earned by completing all of the following courses:

| Code | Title | Units |
|---|---|---|
| **Major Course Requirements** | | |
| WRIT 200 | Writing 2: Writing for Christian Practice [1] | 3 |
| or WRIT 202 | Writing 2: Philosophical Writing in C. S. Lewis | |
| THEO 200 | Theology and the Christian Life [2] | 3 |
| THEO 352 | Church History: Apostolic Era to the Eve of the Reformation [2] | 3 |
| THEO 354 | Church History from the Eve of the Reformation to the Present [2] | 3 |
| THEO 363 | Contemporary Christian Theology | 3 |
| THEO 4XX | 400-level Theology Course [3] | 3 |
| THEO 4XX | 400-level Theology Course [3] | 3 |
| THEO 4XX | 400-level Theology Course [3] | 3 |
| THEO 496 | Senior Seminar: Theology and Social Issues [4] | 3 |
| UBBL 3/4XX | Biblical Studies Elective | 3 |
| MINC or MINY 3/4XX | Christian Ministries Elective | 3 |
| Select one of the following: | | 3 |
| PHIL 315 | History of Ancient Philosophy | |
| PHIL 316 | Medieval Philosophy | |
| PHIL 320 | History of Early Modern Philosophy | |

| | | |
|---|---|---|
| PHIL 325 | History of 19th and 20th Century Philosophy | |
| **Total Units** | | **36** |

1    Meets the General Education Writing 2 requirement.
2    Meets the General Education Theology requirement.
3    Students who wish to earn a Church history concentration may do so by substituting three of the upper-division theology courses above with three Church history seminar courses listed below as needed. Students who wish to earn a systematic theology concentration may do so by substituting three of the upper-division theology courses above with three systematic theology courses listed below, and taking an additional Church history seminar course. See tables below for additional details.
4    Meets the General Education Integrative and Applied Learning requirement.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Explain the relationships between context and Christian theological traditions.
2. Examine important societal issues in light of Christian theological traditions.
3. Properly represent the theological ideas of people with diverse perspectives.
4. Evaluate their own implicit theological beliefs in light of Christian theological traditions.
5. Develop their own commitments in conversation with Christian theological traditions.

# BA in Youth and Family Ministries

45 units

The youth and family ministries major (https://www.apu.edu/theology/programs/youth-and-family-ministries-major/) trains, equips, and educates students to effectively reach and minister to adolescents in an increasingly diverse global context. This major is built upon the premise that effective youth work requires the youth worker to be a student of God's Word, culture, and adolescence. Upon completion of this Bachelor of Arts in Youth and Family Ministries, students are equipped to step into youth and family ministry contexts and/or graduate programs.

## Requirements

Successful completion of the major requires a 2.5 cumulative GPA in all courses required for the major.

| Code | Title | Units |
|---|---|---|
| **Specific General Education Requirements for Youth and Family Ministries Majors** | | |
| MIN 108 | Christian Life, Faith, and Ministry | |
| PHIL 100 | Introduction to Philosophy | |
| THEO 200 | Theology and the Christian Life | |

[1]    This is in addition to the General Education upper-division Bible requirement; students must choose one of the other upper-division courses offered by the department.

[2]    Meets the General Education Civic Knowledge and Engagement requirement.

[3]    Meets the General Education Theology requirement.

[4]    Meets the General Education Integrative and Applied Learning requirement.

[5]    WRIT 200 meets the General Education Writing 2 requirement.

[6]    Meets the General Education Writing 3 requirement.

[7]    MIN 401 and MIN 417 require concurrent enrollment.

[8]    Meets the General Education Intercultural Competence requirement.

# Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate proficiency in communication.
2. Apply practical theology methodologies in ministry contexts.
3. Develop a healthy awareness of one's self, gifts, and/or callings.
4. Exhibit increased capacities to cultivate inclusive communities.
5. Demonstrate competence related to skills required for Christian leadership.
6. Articulate how their maturing theology informs their Christian practice.

# Certificate of Distinction in Biblical Studies

## Requirements

24-25 units

Students who maintain a GPA of at least 3.5 in their major can earn a Certificate of Distinction in Biblical Studies by completing 24-25 units of upper-division work in biblical studies and biblical languages.

| Code | Title | Units |
| --- | --- | --- |
| Upper-division Ancient Languages course | | 3-4 |
| UBBL 476 | Writing 3: Women in the Biblical Tradition [1] | 3 |
| UBBL 493 | Biblical Studies Capstone Course: Old Testament Theology | 3 |
| or UBBL 494 | Biblical Studies Capstone Course: New Testament Theology | |
| Choose any five UBBL 4XX courses | | 15 |
| **Total Units** | | **24-25** |

[1]  Meets the General Education Writing 3 requirement.

# Certificate of Distinction in Philosophy

33 units

The Certificate of Distinction in Philosophy recognizes that a student has achieved a superior mastery of courses that provide a strong basis for graduate study in philosophy and demonstrate the student's ability to think critically within a specialized area of philosophy.

## Requirements

To receive the Certificate of Distinction in Philosophy, students must complete 33 units from the list below with a grade-point average of 3.5 or better.

| Code | Title | Units |
| --- | --- | --- |
| Requirements: | | |
| PHIL 100 | Introduction to Philosophy [1,2] | 3 |
| PHIL 310 | Formal Logic | 3 |
| PHIL 315 | History of Ancient Philosophy [2] | 3 |
| PHIL 320 | History of Early Modern Philosophy [2] | 3 |
| PHIL 330 | Ethics | 3 |
| PHIL 340 | Writing 3: Concepts of Human Nature [3] | 3 |
| Select one of the following: | | 3 |
| PHIL 440 | Epistemology | |
| PHIL 445 | Metaphysics | |
| Select 12 units of any upper-division PHIL courses not being used to satisfy the requirements above. At least 6 of these units must be at the 400 level. [4] | | 12 |
| **Total Units** | | **33** |

[1]  Meets the General Education Philosophy requirement.
[2]  HUM 224 may be taken in exchange for PHIL 100; HUM 324 may be taken in exchange for PHIL 315 or PHIL 320.
[3]  Meets the General Education Writing 3 requirement.
[4]  PHIL 301 and PHIL 303 do not count for this elective requirement. PHIL 360 covers various topics and may be repeated for a total of 6 units within the 12 units of electives. PHIL 451 and PHIL 452 meet the General Education Intercultural Competence requirement.

# Certificate of Distinction in Theology

24 units

The Certificate of Distinction in Theology acknowledges the achievement of theology majors who exhibit a mastery of theology coursework in preparation for graduate study by maintaining a GPA of 3.5 or better in 24 units of upper-division work in theology, Church history, or the history of philosophy from the following list:

## Requirements

| Code | Title | Units |
| --- | --- | --- |
| **Required Senior Seminar** | | |
| THEO 496 | Senior Seminar: Theology and Social Issues [1] | 3 |
| **Additional Units** | | |
| Complete 12 additional units of 400-level coursework in theology or Church history or 300-level coursework in history of philosophy. | | 12 |
| **Required Emphasis** | | |
| Complete 9 units (not used above) from one of three emphases: | | 9 |
| **Church History Emphasis** | | |
| Select three of the following: | | |
| THEO 423 | Seminar in Church History | |
| THEO 424 | Writing 3: The Formation of Early Christianity [2] | |
| THEO 425 | Writing 3: American Christianity [2] | |
| THEO 427 | Writing 3: The History of Christian Spirituality [2] | |
| THEO 428 | Global Christianity [3] | |
| THEO 454 | Christian Traditions | |
| **Systematic Theology Emphasis** | | |
| Select three of the following: | | |
| THEO 440 | The Theology of John Wesley | |
| THEO 442 | Theologians and Theological Movements | |
| THEO 444 | Doctrinal Theology | |
| THEO 445 | Theological Ethics | |
| THEO 480 | Theology from the Margins [4] | |
| THEO 495 | Topics in Systematic Theology | |
| THEO 497 | Readings | |
| **History of Philosophy Emphasis** | | |
| Select three of the following: | | |
| PHIL 315 | History of Ancient Philosophy | |
| PHIL 316 | Medieval Philosophy | |
| PHIL 320 | History of Early Modern Philosophy | |
| PHIL 325 | History of 19th and 20th Century Philosophy | |
| **Total Units** | | **24** |

[1]  Meets the General Education Integrative and Applied Learning requirement.
[2]  Meets the General Education Writing 3 requirement.
[3]  Meets the General Education Writing 3 or Intercultural Competence requirement.
[4]  Meets the General Education Intercultural Competence requirement

# Minor in Ancient Languages

## Requirements

18 units

The ancient languages minor consists of 6 units of elementary language instruction plus any combination of 12 additional units in Greek (Koine or classical), Hebrew, Latin, or other ancient languages. Students may earn a minor in ancient languages with a concentration in either Greek or Hebrew, provided at least 12 units are in the same respective language.

| Code | Title | Units |
|---|---|---|
| Select 6 units from the following: | | 6 |
| GRKC 200 | Elementary Classical Greek I | |
| GRKC 201 | Elementary Classical Greek II | |
| GRKB 200 | Elementary Greek I | |
| GRKB 201 | Elementary Greek II | |
| HEBB 200 | Elementary Hebrew I | |
| HEBB 201 | Elementary Hebrew II | |
| LTN 200 | Elementary Latin I | |
| LTN 201 | Elementary Latin II | |
| Select 12 units from the following: | | 12 |
| GRKB 300 | Intermediate Greek I | |
| GRKB 301 | Intermediate Greek II | |
| GRKB 454 | Greek Readings [1] | |
| HEBB 300 | Intermediate Hebrew I | |
| HEBB 301 | Intermediate Hebrew II | |
| HEBB 455 | Hebrew Readings [1] | |
| ALNG 456 | Ancient Languages | |
| **Total Units** | | **18** |

[1]    Course may be repeated to earn enough units for a concentration in either Greek or Hebrew.

# Minor in Biblical Studies

## Requirements

18 units

The minor consists of UBBL 230 or UBBL 235, 12 upper-division units in biblical studies (includes the 300-level UBBL General Education requirement), and either UBBL 100 or any additional upper-division biblical studies course. Students may also include upper-division Greek or Hebrew.

| Code | Title | Units |
|---|---|---|
| UBBL 230 | Luke/Acts [1,2] | 3 |
| or UBBL 235 | Luke/Acts through a Latinx Lens | |
| UBBL 100 | Introduction to Biblical Literature: Exodus/Deuteronomy (or any additional upper-division Bible course) [2] | 3 |
| Select 12 units from the following: | | 12 |
| UBBL 310 | The Rise of the King: I and II Samuel [3] | |
| UBBL 311 | Old Testament Prophets [3] | |
| UBBL 317 | Ruth and Esther [3] | |
| UBBL 320 | Psalms and Wisdom [3] | |
| UBBL 330 | Life and Teachings of Jesus [3] | |
| UBBL 340 | Romans and Galatians [3] | |
| UBBL 341 | Thessalonian and Corinthian Epistles [3] | |
| UBBL 350 | Biblical Lands and Cultures [4] | |
| UBBL 351 | Near Eastern Archaeology | |
| UBBL 352 | Archaeological Field Excavation [5] | |
| UBBL 442 | Prison and Pastoral Epistles | |
| UBBL 450 | Old Testament World | |
| UBBL 451 | New Testament World | |
| UBBL 472 | Biblical Apocalyptic | |
| UBBL 476 | Writing 3: Women in the Biblical Tradition [6] | |
| UBBL 481 | History of Biblical Interpretation | |
| UBBL 482 | Global Biblical Interpretation [7] | |

| | |
|---|---|
| UBBL 483 | Postcolonial Biblical Interpretation |
| UBBL 493 | Biblical Studies Capstone Course: Old Testament Theology |
| UBBL 494 | Biblical Studies Capstone Course: New Testament Theology |
| UBBL 496 | Senior Seminar: Biblical Theology and Ethics [8] |
| UBBL 497 | Readings |
| UBBL 498 | Directed Research |
| GRKB 300 | Intermediate Greek I |
| GRKB 301 | Intermediate Greek II |
| GRKB 454 | Greek Readings |
| HEBB 300 | Intermediate Hebrew I |
| HEBB 301 | Intermediate Hebrew II |
| HEBB 455 | Hebrew Readings |
| **Total Units** | **18** |

[1]   Either course meets the General Education Luke/Acts requirement.
[2]   Meets the General Education Biblical, Theological, and Philosophical Formation requirement.
[3]   Meets the General Education Upper-Division Bible requirement.
[4]   Meets the General Education Upper-Division Bible or Intercultural Competence requirement.
[5]   Does not meet the General Education Upper-Division Bible requirement.
[6]   Meets the General Education Writing 3 requirement.
[7]   Meets the General Education Intercultural Competence requirement.
[8]   Meets the General Education Integrative and Applied Learning requirement.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Explain current methodological approaches used to study the Christian Scriptures
2. Explain how history and culture influence the interpretation of the Christian Scriptures
3. Write an acceptable Biblical Studies research paper or prepare an equivalent project
4. Articulate how scripture, tradition, experience, and reason shape our Christian worldview
5. Articulate biblically responsible perspectives on gender, race, and ethnic and cultural diversity

# Minor in Christian Ministries

18 units

## Requirements

Successful completion of the minor requires a 2.5 cumulative GPA in all courses required for the minor.

| Code | Title | Units |
|---|---|---|
| MINC 200 | Introduction to Contemporary Christian Ministries | 3 |
| WRIT 200 | Writing 2: Writing for Christian Practice [1] | 3 |
| or MIN 206 | Introduction to Practical Theology | |
| MINC 318 | Theology and Practice of Ministry | 3 |
| Select three of the following: | | 9 |
| MIN 300 | Writing 3: Culture and Ministry [2] | |
| MIN 301 | Adolescent Development in Family Ministry | |
| MIN 336 | Family Development and Ministry | |
| MIN 350 | Mentoring and Small Groups | |
| MIN 495 | Topics in Ministry | |
| MINC 253 | Evangelism and Discipleship | |
| MINC 326 | Effective Teaching in Christian Education | |

| | | |
|---|---|---|
| MINC 330 | Intercultural Ministries [3] | |
| MINC 346 | Ministry to the City | |
| MINC 370 | Introduction to Pastoral Care and Counseling | |
| MINC 408 | Principles of Preaching | |
| MINC 416 | Communicating the Gospel | |
| MINC/SOCW 420 | Suffering: Theological and Practical Perspectives on Disabilities | |
| MINC 430 | Race, Reconciliation, and Ministry [3] | |
| MINC 446 | Children's Educational Ministries | |
| MINC 456 | Ministry Organization and Administration | |
| MINC 467 | Spiritual Transformation | |
| MINC 487 | Exegeting the City | |
| MINY 226 | Studying and Teaching the Bible | |
| RELG 200 | World Religions [3] | |
| **Total Units** | | **18** |

[1]   WRIT 200 meets the General Education Writing 2 requirement.
[2]   Meets the General Education Writing 3 requirement.
[3]   Meets the General Education Intercultural Competence requirement.

## Program Learning Outcomes
## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate proficiency in communication.
2. Apply practical theology methodologies in ministry contexts
3. Develop a healthy awareness of one's self, gifts, and/or callings.
4. Exhibit increasing capacities to cultivate inclusive communities.
5. Demonstrate competence related to skills required for Christian leadership.
6. Articulate how their maturing theology informs their Christian practice.

# Minor in Cultural Engagement

18 units

## Requirements

| Code | Title | Units |
|---|---|---|
| MIN 108 | Christian Life, Faith, and Ministry [1] | 3 |
| WRIT 200 | Writing 2: Writing for Christian Practice [2] | 3 |
| or MIN 206 | Introduction to Practical Theology | |
| THEO 200 | Theology and the Christian Life [3] | 3 |
| PHIL 301 | Practical Ethics [4] | 3 |
| or PHIL 330 | Ethics | |
| MNCE 310 | Practical Theology and Contemporary Issues | 3 |
| MNCE 415 | Practical Theology and Vocational Engagement | 3 |
| **Total Units** | | **18** |

[1]   Meets the General Education Biblical, Theological, and Philosophical Formation requirement.
[2]   WRIT 200 meets the General Education Writing 2 requirement.
[3]   Meets the General Education Theology requirement.
[4]   PHIL 301 meets the General Education Civic Knowledge and Engagement requirement.

## Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Intentionally apply practical theology methods in critically interacting with ideas, events, and issues prevalent in contemporary society.
2. Elaborate on specific and imaginative ways in which their faith can inform their personal and vocational lives.
3. Engage contemporary issues through interdisciplinary and theological frameworks.
4. Exhibit proficiency in written and oral communication.

# Minor in Philosophical Apologetics

18 units

## Requirements

| Code | Title | Units |
| --- | --- | --- |
| **Prerequisite** | | **3** |
| Select one of the following: | | |
| PHIL 100 | Introduction to Philosophy [1] | |
| HUM 224 | Core Texts in Philosophy [1] | |
| PHIL 305 | Critical Thinking and Civil Discourse [2] | |
| **I. Foundations** | | **3** |
| PHIL 303 | Reasons for Faith: Exploring the Rationality of the Existence of God and Christianity | |
| **II. Historical Background** | | **3** |
| Select one of the following: | | |
| HUM 324 | Core Texts in Philosophy [1] | |

| THEO 410 | Systematic Theology I | |
| or any course in III or IV not already used for credit toward the minor | | |
| **Total Units** | | **18** |

[1]   Meets the General Education Philosophy requirement.
[2]   Meets the General Education Civic Knowledge and Engagement requirement.

[3]     Meets the General Education Writing 3 requirement.
[4]     Meets the General Education Writing 2 requirement.
[5]     Meets the General Education Intercultural Competence requirement.

# Minor in Philosophy

18 units

The philosophy minor consists of 18 units (15 upper-division units of approved philosophy courses from the list below, plus 3 units of PHIL 100 or HUM 224).

## Requirements

A cumulative 2.5 GPA is required in all courses applied to the minor.

| Code | Title | Units |
| --- | --- | --- |
| PHIL 100 | Introduction to Philosophy [1] | 3 |
| or HUM 224 | Core Texts in Philosophy | |
| In addition to 3 units of PHIL 100 or HUM 224, choose 15 units from 300- or 400-level PHIL courses or the following: | | 15 |
| POLI 360 | Classical Political Thought | |
| POLI 363 | Modern Political Thought | |
| HUM 324 | Core Texts in Philosophy [1] | |
| **Total Units** | | **18** |

[1]     Meets the General Education Philosophy requirement.

# Minor in Practical and Professional Ethics

18 units

## Requirements

| Code | Title | Units |
| --- | --- | --- |
| **Prerequisite** | | **3** |
| PHIL 100 | Introduction to Philosophy [1] | |
| or HUM 224 | Core Texts in Philosophy | |
| **I. Ethical Reasoning** | | **3** |
| Select one of the following: | | |
| PHIL 301 | Practical Ethics [2] | |
| PHIL 330 | Ethics | |
| **II. Social and Political Thought** | | **3** |
| Select one of the following: | | |
| HUM 324 | Core Texts in Philosophy [1] | |
| POLI 360 | Classical Political Thought | |
| POLI 363 | Modern Political Thought | |
| HIST 389 | Modern American Intellectual History | |
| **III. Special Topics** | | **3** |
| Select one of the following: | | |
| PHIL 362 | Business, Virtue, and the Good Life | |
| PHIL 364 | Bioethics | |
| PHIL 366 | Environmental Ethics | |
| PHIL 450 | Special Topics in Ethics | |
| THEO 445 | Theological Ethics | |
| **IV. Elective** | | **3** |

Select one of the following (or any course in II or III above that is not already being used for credit toward the minor):

| | | |
|---|---|---|
| PHIL 360 | Social and Political Debates | |
| PHIL 451 | Race, Sex and Science [3] | |
| PHIL 452 | Classical Chinese Ethics [3] | |
| **V. Integration and Application** | | **3** |
| Select one of the following: | | |
| PHIL 495 | Seminar in Philosophy | |
| PHIL 496 | Senior Seminar [4] | |
| BIOL 496 | Writing 3: Ethics and the Sciences [5] | |
| BUSI 496 | Senior Seminar: Business Ethics [4] | |
| THEO 496 | Senior Seminar: Theology and Social Issues [4] | |
| UNRS 496 | Writing 3: Ethics and Issues in Health Care [5] | |
| **Total Units** | | **18** |

[1]   Meets the General Education Philosophy requirement.
[2]   Meets the General Education Civic Knowledge and Engagement requirement.
[3]   Meets the General Education Intercultural Competence requirement.
[4]   Meets the General Education Integrative and Applied Learning requirement.
[5]   Meets the General Education Writing 3 requirement.

# Minor in Religious Studies

18 units

We are participants in a global community. From our next-door neighbors to our coworkers, our community partners to our global interactions, we are becoming involved with people from all over the world as never before. Religious studies minors leave APU with a greater ability to engage the world from a place of sincere Christian faith, awareness, and praxis.

## Mission Statement

The religious studies minor offers courses in global religious studies, employing a dialogical perspective that invites conversation between Christians and people from non-Christian religious traditions. This program prepares undergraduate students for responsible understanding of, and engagement with, people of a variety of global religious traditions in order to be faithful, well-informed, and culturally sensitive participants in intercultural and interreligious dialogue.

Students must achieve a 2.5 cumulative GPA for all courses required for this minor.

| Code | Title | Units |
|---|---|---|
| RELG 200 | World Religions [1] | 3 |
| Select 15 units from the following: | | 15 |
| RELG 350 | Judaism: A Story of Hope [1] | |
| RELG 351 | Islam: The Way of Submission [1] | |
| RELG 352 | Hinduism: Karma, Dharma, and Yoga [1] | |
| RELG 353 | East Asian Religions and Mindfulness [1] | |
| RELG 395 | Special Topics in Religious Studies [1] | |
| UBBL 3XX | Any 300-level UBBL course | |
| UBBL 4XX | Any 400-level UBBL course | |
| THEO 3XX | Any 300-level THEO course | |
| THEO 4XX | Any 400-level THEO course | |
| MIN/MINC/MINY 3XX | Any 300-level MIN, MINC, or MINY course | |
| MIN/MINC/MINY 4XX | Any 400-level MIN, MINC, or MINY course | |
| PHIL 410 | Philosophy of Religion | |
| PSYC 440 | Psychology of Religion | |
| SOC 360 | Sociology of Religion | |

Traditional prerequisites must be met for each course. Students may take a maximum of 6 units from each upper-division subject area (RELG, THEO, UBBL, MIN/MINC/MINY).

| | |
|---|---|
| **Total Units** | **18** |

[1]    Meets the General Education Intercultural Competence requirement.

# Minor in Theology

18 units

The theology minor consists of THEO 200 and 9 upper-division THEO units (any 3XX or 4XX THEO courses offered by the department qualify), 3 units of UBBL, and 3 units of PHIL 100, HUM 224, or HUM 324. The UBBL, PHIL 100, and THEO 200 requirements may be used to meet the theology minor requirement and a General Education requirement.

## Requirements

Theology minors must earn a minimum cumulative GPA of 2.5 in the courses being applied toward the minor.

| Code | Title | Units |
|---|---|---|
| Any upper-division (3XX or 4XX) UBBL course [1] | | 3 |
| PHIL 100 | Introduction to Philosophy [2] | 3 |
| or HUM 224 | Core Texts in Philosophy | |
| or HUM 324 | Core Texts in Philosophy | |
| THEO 200 and 3 upper-division (3XX or 4XX) THEO courses of choice [3] | | 12 |
| **Total Units** | | **18** |

[1]    The following courses will also fulfill the General Education Upper-Division Bible requirement: UBBL 310, UBBL 311, UBBL 317, UBBL 320, UBBL 330, UBBL 331, UBBL 340, UBBL 341, UBBL 350

[2]    All options meet the General Education Philosophy requirement.

[3]    THEO 200 meets the General Education Theology requirement.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Explain the relationships between context and Christian theological traditions.
2. Examine important societal issues in light of Christian theological traditions.
3. Properly represent the theological ideas of people with diverse perspectives.
4. Evaluate their own implicit theological beliefs in light of Christian theological traditions.
5. Develop their own commitments in conversation with Christian theological traditions.

# Minor in Youth and Family Ministries

## Requirements

18 units

Successful completion of the minor requires a 2.5 cumulative GPA in all courses required for the minor.

| Code | Title | Units |
|---|---|---|
| MINY 203 | Introduction to Contemporary Youth and Family Ministries | 3 |
| WRIT 200 | Writing 2: Writing for Christian Practice [1] | 3 |
| or MIN 206 | Introduction to Practical Theology | |
| MIN 301 | Adolescent Development in Family Ministry | 3 |
| MINY 400 | Christian Values and Human Sexuality | 3 |
| Select two of the following: | | 6 |

| | |
|---|---|
| MINC 253 | Evangelism and Discipleship |
| MIN 300 | Writing 3: Culture and Ministry [2] |
| MIN 350 | Mentoring and Small Groups |
| MIN 495 | Topics in Ministry |
| MINC 330 | Intercultural Ministries [3] |
| MINC 370 | Introduction to Pastoral Care and Counseling |
| MINC 405 | Christian Mission in the 21st Century |
| MINC 416 | Communicating the Gospel |
| MINC 420 | Suffering: Theological and Practical Perspectives on Disabilities |
| MINC 430 | Race, Reconciliation, and Ministry [3] |
| MINC 467 | Spiritual Transformation |
| MINC 487 | Exegeting the City |
| MINY 226 | Studying and Teaching the Bible |
| MINY 403 | Adolescent Issues and Intervention |

**Total Units** **18**

[1]   Meets the General Education Writing 2 requirement.
[2]   Meets the General Education Writing 3 requirement.
[3]   Meets the General Education Intercultural Competence requirement.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate proficiency in communication.
2. Apply practical theology methodologies in ministry contexts.
3. Develop a healthy awareness of one's self, gifts, and/or callings.
4. Exhibit increasing capacities to cultivate inclusive communities.
5. Demonstrate competence related to skills required for Christian leadership.
6. Articulate how their maturing theology informs their Christian practice.

# College of Education and Behavioral Sciences

The College of Education and Behavioral Sciences is composed of the following schools:

- School of Education (p. 469)
- School of Behavioral Sciences (p. 340)

# School of Behavioral Sciences

The School of Behavioral Sciences comprises a wide range of programs across numerous departments:

- Department of Clinical Psychology (p. 341): Doctor of Psychology (PsyD) in Clinical Psychology
- Department of Criminal Justice (p. 358): Criminal Justice Major, Bachelor of Arts in Criminal Justice (Bachelor's Completion), Criminal Justice Minor (Professional)
- Department of Higher Education (p. 367): Master of Science in College Counseling and Student Development, Doctor of Philosophy (PhD) in Higher Education, Doctor of Education (EdD) in Higher Education Leadership, and the Doctoral-Level Certificate in Strengths-Oriented Higher Education
- Department of Marriage and Family Therapy (p. 382): Master of Arts in Clinical Psychology: Marriage and Family Therapy (MFT), and the Substance Use Disorders Certificate
- Department of Psychology (p. 390): Psychology Majors (BA and BS), Psychology Minor, Alcohol and Drug Counseling Minor, Master of Science in Research Psychology and Data Analysis, Master of Science in Child Life (including Advanced Standing option), Master of Science in Counseling

Psychology with Specialization in Children and Adolescents, Play Therapy Certificate, Bachelor of Arts in Psychology (Bachelor's Completion), and Professional Minors in Psychology and Alcohol and Drug Counseling

- Department of Social Work (p. 421): Social Work Major (BSW), Certificate of Distinction in Undergraduate Social Work Research, Master of Social Work (MSW), and the Pupil Personnel Services Credential in School Social Work and Child Welfare and Attendance Services

All programs within the school carry a distinctly Christian perspective that challenges students intellectually and spiritually while remaining flexible and student-oriented. Creative scheduling allows professionals engaged in evolving careers to enroll in graduate courses taught by highly qualified faculty and held on APU's Azusa campus and at regional locations throughout Southern California.

## Accreditation

All Azusa Pacific programs are accredited by the WASC Senior College and University Commission (https://www.wscuc.org/), and professional programs in the School of Behavioral and Applied Sciences have earned the following specialized accreditations:

- The PsyD program is accredited by the Office of Program Consultation and Accreditation of the American Psychological Association (APA) (https://accreditation.apa.org/)[1]. APA accreditation recognizes that the program meets the standards for quality programs in psychology as stated in the APA's *Guidelines and Principles for Accreditation of Programs in Professional Psychology.*
- The BSW and MSW programs are accredited by the Council on Social Work Education (CSWE) (https://www.cswe.org/).
- The Pupil Personnel Service Credential in School Social Work and Child Welfare and Attendance Services is accredited by the California Commission on Teacher Credentialing (CTC) (https://www.ctc.ca.gov/).

## Courses

### PPSY 700C, Psychopathology, 3 Units

This course reviews the role and categories of psychopathology utilized in the assessment and treatment of individual, marriage and family dysfunction. Students develop their diagnostic and analytical skills through a mastery of the concepts in the Diagnostic and Statistical Manual of Mental Disorders 4th Edition Text Revision (DSM-IV-TR). This course is taken during the first year of the doctoral program and is foundational to the curriculum. As such, subsequent coursework builds upon the knowledge, concepts, and skills introduced in this course.

### PPSY 700D, Introduction to Clinical Practice: Basic Skills, 3 Units

This course provides students with an introduction to the skill and the art of psychotherapy. The course incorporates didactic instruction, experiential learning, readings, and reflection in order to meet this course objective. This course is taken during the first year of the doctoral program and is foundational to the curriculum. As such, subsequent coursework builds upon the knowledge, concepts, and skills introduced in this course.

## PPSY 700E, Advanced Developmental Psychology I: Infancy through Adolescence, 2 Units

This course is part of a two-course sequence that helps students learn to utilize a life-span perspective in their work as clinical psychologists. This course reviews important developmental issues and milestones from infancy through adolescence, paying particular attention to context, culture, and environmental issues. Students are encouraged to consider how development occurs within a specific social context and learn how social stress, poverty, low education attainment, abuse and neglect, and inadequate housing impact development. Biological, social, and psychological aspects of development are included; models of psychological development are presented; and the processes of change and adaptation are examined, including clinical issues such as grief and loss. Clinical application of the material is highlighted through case examples, group discussion, and hands-on application during class activities. This course is taken during the first year of the Psy.D. program and is foundational to the curriculum; as such, subsequent coursework builds upon the knowledge, concepts, and skills introduced in this course.

## PPSY 700F, Diversity I: Multiculturally Responsive Attitudes and Knowledge, 3 Units

This course provides an introduction and overview to Multicultural Responsiveness within the context of the psychotherapeutic relationship and through the development of the counselor/therapist. Self-awareness of one's own cultural values and biases, awareness of the patient's worldview, and the application of culturally appropriate intervention strategies are all emphasized. This course will address the cultural dimensions of race/ethnicity, socioeconomic status, gender, sexual orientation, age, mental/physical disabilities, and religion/spirituality. The course will combine didactic and experiential elements of instruction in order to promote student growth and professional development regarding cultural diversity and the practice of psychotherapy.

## PPSY 700H, Assessment I, 3 Units

This course gives students a broad understanding of the psychometric principles related to psychological assessment. This course is the first in a sequence of assessment courses that are continued in the doctoral program, and, therefore, has specific emphases necessary to provide a foundation for a psychologist's knowledge base in assessment. Special emphasis is placed on understanding the science of psychological assessment, including an introduction to descriptive statistics, reliability, validity, and item analysis. Structuring a basic assessment battery, conducting clinical interviews and the use of psychological tests in diverse contexts is also addressed. This course is taken during the first year of the doctoral program and is foundational to the curriculum. As such, subsequent coursework builds upon the knowledge, concepts, and skills introduced in this course.

## PPSY 700I, Systems II: Family Therapy, 3 Units

This course consists of an overview of current theories and methods of family intervention. The systems approach is emphasized, though psychodynamic and communication concepts in the interpersonal field are also included. The major theorists in each system are identified and their techniques demonstrated.
**Prerequisite:** PPSY 711

## PPSY 700J, Introduction to Clinical Skills: Advanced Skills, 3 Units

This course provides an introduction to the clinical world of the psychologist. A review of basic clinical skills is provided, with an emphasis on developing and refining the skills related to the relationship between clinician and client-respect, warmth, genuineness, empathy, concreteness, potency, self-disclosure, confrontation, and immediacy. Work in small groups gives students an opportunity to role play and receive feedback concerning their skills. This course is taken during the first year of the doctoral program and is foundational to the curriculum; as such, subsequent coursework builds upon the knowledge, concepts, and skills introduced in this course.
**Prerequisite:** PPSY 700D

## PPSY 701, Introduction to Clinical Practicum and Professional Practice, 2 Units

This course provides a further introduction to the field of clinical psychology. Students practice basic skills in assessment, interviewing, and sensitivity to diversity, with a special focus on case conceptualization. Activities include role playing and videotaping of clinical practice. Additional exploration of ethical issues in the practice of clinical psychology is also included.

## PPSY 701A, Clinical Practicum and Professional Practice, 2 Units

This course is a companion course to PPSY 701, Introduction to Clinical Practicum, to assist students during their first year of practicum and beyond. The foundational skills of the relationship competence are further expanded and developed. During the second semester of the course, students expand on learning from the first semester, now taking what they have learned and applying it to clinical case work. An expansion of basic skills is the focus, including: rapport-building; case conceptualization; making preliminary and informed diagnoses; use of therapeutic interventions; how to use clinical supervision; and how to attend to legal and ethical issues in the therapy room. Students learn how to apply theoretical orientation models to clinical work and develop the skills of treatment planning and theoretical case conceptualization. A continued emphasis on diversity and ethics underlies the core curriculum. This course focuses heavily on experimental learning, with active engagement with core material. This may include role plays, guided class discussions, growth in knowledge of the self, videotaping and review of videotapes of clients, and other classroom and homework activities designed to enhance student learning.
**Prerequisite:** PPSY 701

## PPSY 702, Legal and Ethical Competence for Psychologists, 3 Units

This course introduces students to the American Psychological Association's Ethical Principles of Psychologists and Code of Conduct and laws relevant to the practice of psychology. Students must pass a competency examination on legal and ethical issues, practice basic clinical skills, and have their clinical work reviewed.

## PPSY 703, Psychological Theories: Psychoanalytic/Psychodynamic, 2 Units

Using primary and secondary sources, this survey course provides an overview of the history of psychoanalytic thought from Freud to the present. Prominent theorists and movements within psychoanalytic history will be featured, with an emphasis on central concepts such as: key theoretical concepts, theory of development, philosophy/structure of mind, theory of psychopathology, theory of treatment/change. Empirical support for the efficacy of psychodynamic psychotherapy will be presented. Key movements in the consideration of religion and spirituality within psychoanalysis will also be discussed.

## PPSY 705, Psychological Theories: Group, 2 Units

This course provides an introduction to the theory and practice of group psychotherapy. Students explore several prominent group therapy models and develop some clinical competency in group therapy.

## PPSY 706, Psychological Theories: Postmodern, 2 Units

This course provides an overview of postmodern theories that are prominent in the field of clinical psychology. Course material covers the theoretical and research underpinnings of specific models, along with their relationship to language, human interaction, and social constructivism; the various schools of thought associated with the discipline since its inception; and the influence and impact of each of these schools on the practice of psychology. Models covered include narrative therapy, solution-focused therapy, feminist therapy, and multicultural therapy, and students explore the subject matter through lectures, readings, discussions, and videos.

## PPSY 707, Clinical Interventions: Psychodynamic, 2 Units

Students in this course learn an empirically supported model of time-limited psychodynamic psychotherapy. This course includes conceptual/theoretical underpinnings as well as clinical application, and ideally, students are already in a clinical setting where this modality may be utilized. Consultation on cases is provided to students in this course.

## PPSY 708, Clinical Interventions: Cognitive Behavioral Therapy, 2 Units

This course provides an overview of interventions related to cognitive behavioral therapy (CBT). Students learn conceptual foundations and interventions of CBT theory in order to modify thought patterns, affective states, and behaviors as related to specific disorders and clinical populations. Students also develop a basic understanding of the efficacy of CBT as a psychotherapeutic treatment modality. Interventions are taught through in-class written assignments, by engaging in role-plays, and by observing sessions.

## PPSY 709, Clinical Interventions: Group, 2 Units

This course provides an introduction to the practice of group psychotherapy. Students explore several prominent group therapy models and begin to develop clinical competency in group therapy.
**Prerequisite:** PPSY 705

## PPSY 710, Clinical Interventions: Postmodern, 2 Units

In this course, students learn conceptual, perceptual, and executive skills of postmodern interventions, including solution-focused brief therapy. Students develop a better understanding of how postmodern interventions enhance the treatment of clients.

## PPSY 711, Psychology and Systems Theory, 3 Units

This course provides an introduction to the discipline of Family Psychology and the theoretical orientation of the Psy.D. curriculum. An in-depth analysis of the tenets of systems theory and their application to psychotherapy is provided. Philosophical, theological, and psychological ramifications of systems theory are considered. Students are challenged to adopt an ecological systems epistemology and think critically regarding the integration of psychological theories within a systemic framework.

## PPSY 714, Assessment III: Cognitive Assessment, 4 Units

This course covers the assessment of intelligence in children, adolescents, and adults and the assessment of children for developmental, learning, and emotional disorders. The course emphasizes the Wechsler intelligence scales. Critical analysis of cultural considerations in test interpretation is considered. The development and composition of comprehensive assessment batteries are addressed. This course includes a mandatory lab for practice in the administration, scoring, and interpretation of assessment devices.

## PPSY 714A, Cognitive Assessment Lab, 1 Unit

This course covers the administration and scoring of intelligence assessment measures for children, adolescents, and adults. The course emphasizes the Wechsler intelligence scales.

## PPSY 716, Family Psychology, 3 Units

This course examines family development, the assessment of family functioning, the intersection of psychopathology and family dynamics, and family psychotherapy. Students learn to administer and interpret family assessment measures. The role of culture, ethnicity, and religious influences in families is discussed. Students develop systemic treatment plans that recognize the value of the appropriate inclusion of individual, dyadic, and family therapy sessions.

## PPSY 718, History and Systems of Psychology, 3 Units

This course provides an overview of the history of the discipline of psychology. Topics covered include the theoretical and research underpinnings of the discipline; the various schools of thought associated with the discipline since its inception; and the influence and impact of each of these schools upon the practice of psychology. Students explore the subject matter through lecture, readings, discussion, and videos.

## PPSY 719, Social Psychology, 2 Units

The course provides an overview of the theoretical and applied knowledge of social psychology, which consists of how individuals affect their environment, and how the environment affects individual behavior and social interactions. The focus is on theory and empirical research which supports theory. In addition, classic action-oriented social psychology is examined in the application of social psychological theory to real-life situations.

## PPSY 720, Clinical and Professional Consultation, 1 Unit

This course offers additional support to Psy.D. students' clinical placement and supervision experiences as they receive clinical training at practicum sites. The primary purpose of this course is to provide an opportunity for students to discuss their clinical caseload in order to further develop their case conceptualization and presentation skills. Furthermore, the class provides an opportunity for faculty to encourage professional development and provide department oversight of students' clinical placement experience. This course is required every semester students are at a practicum site, and successful completion of the practicum is required to receive credit for this course.
**Corequisite:** Clinical training at a practicum site

## PPSY 722, Research Design I, 3 Units

This course provides an introduction to research design and its application to psychology. Emphasis is given to developing knowledge and skills in research design, and in assessing the technical adequacy of research conducted by others. Various types of clinical dissertations are presented and discussed to assist students in developing their clinical dissertation proposal.

## PPSY 723, Research Design II, 3 Units

This course focuses on statistical methodologies and their applications in the analysis of both empirical and qualitative data. Lectures emphasize statistical concepts and their application to clinical research. Computer applications of statistical software packages are emphasized in an experiential laboratory component. This course provides the foundational skills necessary for students to finalize their clinical dissertation proposal and to conduct the research to complete their clinical dissertation.

## PPSY 724, Systems IV: Couples Theory and Therapy, 3 Units

This course reviews the current literature on dyadic relationships and psychotherapeutic approaches to couples. A minimum of three contemporary theoretical orientations and their clinical applications are studied in depth. Demonstration, simulation, case presentations, and clinical experience are used to reinforce the models presented. Students receive training in the administration and interpretation of assessment devices for the clinical evaluation of couples. Variations across cultures and interaction with wider systems are considered.

## PPSY 730, Cognition, 2 Units

This course studies current information on cognition and cognitive processes. The relationship of contemporary understandings of cognition to the practice of psychotherapy is considered.

## PPSY 730A, Cognitive and Affective Bases of Behavior, 3 Units

This course provides foundational knowledge of cognitive and affective bases of behavior. Topics such as affect, mood, emotion, learning, memory, thought processes, and decision-making are covered. The relationship of contemporary understandings of affect and cognition to the practice of psychotherapy is also considered.

## PPSY 731, Dissertation Development, 1 Unit

This course provides advanced instruction in the development of the Psy.D. dissertation. Students participate in the section of the course that addresses the category they have chosen for their dissertation (e.g., qualitative research, quantitative research, program consultation, critical literature analysis, theoretical development, or clinical application).

## PPSY 732, Child and Adolescent Psychology, 3 Units

This course is designed to give students a broad understanding of clinical child and adolescent psychology. This course will mainly emphasize diagnosis and treatment of common childhood and adolescent psychiatric disorders. This course will utilize a developmental psychopathology model; therefore, both protective factors and risk factors for children and adolescent mental health will be covered. The course will highlight empirically validated treatments in work with children and adolescents; however, general treatment approaches will also be discussed.

## PPSY 734, Gerontology, 2 Units

This course focuses on the specific developmental issues, psychopathology, and therapeutic interventions relevant to the aging. Special attention is given to ecosystemic factors, such as extended family dynamics and community services, as they relate to treatment. Differences across cultures are considered.

## PPSY 735, Adolescent Psychology, 2 Units

This course covers current perspectives on adolescent development, psychopathology, and psychotherapy. Traditional and recent models of adolescent development are reviewed. DSM-IV criteria for disorders that relate especially to adolescents are reviewed and therapeutic interventions studied. Special attention is given to models that recognize systemic factors in the etiology and treatment of adolescent issues. Students learn to administer and interpret at least one assessment device for adolescents (e.g., MMPI-A, MACI).

## PPSY 739, Psychobiology, 3 Units

This course introduces the biological and neurological bases of human behavior. The role of the central nervous system and organic bases of psychological development and psychopathology are examined. The effects of trauma, head injury, and the neurological aspects of DSM-IV disorders are discussed.

## PPSY 740, Consultation in Clinical Psychology, 2 Units

This course provides instruction and training in the provision of professional clinical consultation. Students are introduced to the theoretical and practical aspects of providing consultation.

## PPSY 742, Diversity II: Historical and Current Causes of Systemic Differences and Oppression, 3 Units

This course examines the historical legacy, events, and circumstances that have led to structural and systemic policies that have advantaged certain populations and people groups over others in the United States. As the second in a sequence of four diversity courses, the focus of this course is upon equipping students to understand the impact of historical events on their clients' lives and learning how to consider the historical context in psychotherapy.
**Prerequisite:** PPSY 700F

## PPSY 743, Diversity III: Responsiveness in Clinical Practice, 3 Units

This course builds on previous PPSY diversity courses, emphasizing application of diversity concepts. It provides a review of and expansion upon key concepts and essential elements, as well as an introduction to some other aspects of multicultural counseling/therapy competency (MCT). The course also provides an on-campus forum for the review and integration of multicultural competence concepts in clinical practice at a practicum site chosen as part of each student's individual training plan. Course material focuses on MCT competency in the delivery of psychological services to diverse populations, as students must pass an integrative MCT competency evaluation to complete this course, and are evaluated on the development in increased MCT skill in the practice of psychology through a final integrative paper.

## PPSY 744, Supervision in Clinical Psychology, 2 Units

This course provides instruction and training in the provision of professional clinical supervision. Students are introduced to the theoretical and practical aspects of providing supervision. In addition to lectures and readings focused on the process of supervision, students are supervised as they provide supervision to master's-level trainees.

## PPSY 745, Dissertation I, 1 Unit

Students enroll for dissertation credit while they work with their committees on their clinical dissertation. Specific goals, objectives, and tasks must be completed to demonstrate satisfactory progress toward completion of the dissertation. Documents demonstrating completion of the assignments must be submitted to the Department of Graduate Psychology in order to receive credit for the course.

## PPSY 746, Dissertation II, 1 Unit

Students enroll for dissertation credit while they work with their committees on their Clinical Dissertation. Specific goals, objectives, and tasks must be completed to demonstrate satisfactory progress toward completion of the dissertation. Documents demonstrating completion of the assignments must be submitted to the Department of Graduate Psychology in order to receive credit for the course.

## PPSY 747, Dissertation III, 1 Unit

Students enroll for dissertation credit while they work with their committees on their Clinical Dissertation. Specific goals, objectives, and tasks must be completed to demonstrate satisfactory progress toward completion of the dissertation. Documents demonstrating completion of the assignments must be submitted to the Department of Graduate Psychology in order to receive credit for the course.

## PPSY 748, Dissertation IV, 1 Unit

Students enroll for dissertation credit while they work with their committees on their clinical dissertation. Specific goals, objectives, and tasks must be completed to demonstrate satisfactory progress toward completion of the dissertation. Documents demonstrating completion of the assignments must be submitted to the Department of Graduate Psychology in order to receive credit for the course.

## PPSY 749, Diversity IV: Global Psychology, 3 Units

This course focuses on the role of the psychologist in international contexts. Specifically, this course addresses awareness, knowledge, skills, and attitudes in working with religiously diverse populations. Furthermore, this course addresses the role of the psychologist working internationally. To this end, this course provides an overview of Global Psychology, International Psychology, global mental health, and other related movements. Critical analysis of current practices in psychological research and clinical intervention is discussed, and students identify how they will apply course content to their future professional roles.

## PPSY 752, Predoctoral Internship, 0 Units

This is a one-year professional internship at an external site approved by the director of clinical training of internship. Students register for this course during the fall, spring, and summer semesters while on internship.
**Prerequisite:** Completion of all Psy.D. curriculum and practicum requirements; pass the Clinical Competency Exam; and approval to apply for internship by director. Students who opt to take a two-year half-time internship must register for this course both years.

## PPSY 755, Dissertation V, 1 Unit

Students enroll for dissertation credit while they work with their committees on their clinical dissertation. Specific goals, objectives, and tasks must be completed to demonstrate satisfactory progress toward completion of the dissertation. Documents demonstrating completion of the assignments must be submitted to the Department of Graduate Psychology in order to receive credit for the course.

## PPSY 756, Dissertation VI, 1 Unit

Students enroll for dissertation credit while they work with their committees on their clinical dissertation. Specific goals, objectives, and tasks must be completed to demonstrate satisfactory progress toward completion of the dissertation. Documents demonstrating completion of the assignments must be submitted to the Department of Graduate Psychology in order to receive credit for the course.

## PPSY 757, Psychopharmacology, 2 Units

This course introduces the use of psychotropic medications as an adjunctive therapy to psychotherapy. Current information on the use of medications in the treatment of psychological disorders is provided. Consideration is given to the special needs of certain populations (e.g., the elderly or substance abuse patients) when psychotropic medications are prescribed. Students develop skills in case management when referral to physicians or neuropsychologists is part of therapeutic practice.

## PPSY 763, Psychodynamic Systems of Psychotherapy I, 2 Units

This seminar-style course is the first in a three-course sequence on psychodynamic systems of psychotherapy, which provides instruction and training in psychodynamic approaches to personality, psychopathology, and psychotherapy. This first course includes a review of major theorists and theories from Freud (classical analysis) to Kohut (self-psychology), focusing particularly on the British Middle School's (Fairbairn, Guntrip, and Winnicott) distinctive contributions to this spectrum of theories and therapies. Particular attention is given to the evolution from drive to relationship as primary motivation for human development and from individual to interpersonal intrapsychic systems frameworks. Implications for the understanding of religious experience from the perspective of these psychodynamic frameworks is also explored.

## PPSY 764, Psychodynamic Systems of Psychotherapy II, 2 Units

This seminar-style course is the second part of a three-course sequence, following the review of the British Middle School's unique contributions to theory and technique, and elaborates upon the distinction between one-person, two-person, and contextual psychotherapies. This course provides advanced instruction and training in contemporary psychodynamic approaches to personality and psychotherapy and highlights the systemic theory that undergirds their development. An in-depth exploration of relational psychoanalysis that diverges from traditional psychoanalytic assumptions by considering contextual daily interactions and broader social and cultural dynamics, is presented. Extensive clinical material is used to illustrate how relational thinking explores the interface between mother-infant research, dynamic systems theory, trauma research, family therapy, and social learning theory, all of which are powerfully contextual in nature. In addition, implications for understanding spirituality from within this tradition are considered.
**Prerequisite:** PPSY 763

## PPSY 765, Psychodynamic Systems of Psychotherapy III, 2 Units

This seminar-style course is the third in a three-course sequence on psychodynamic systems of psychotherapy, which provides instruction and training in psychodynamic approaches to personality, psychopathology, and psychotherapy. This third course focuses on synthesis and consolidation of understanding regarding the spectrum of psychodynamic theories and therapies with particular attention to demonstrated clinical competency, and pays particular attention to how psychodynamic theory interfaces with social issues, life transitions, faith, and film and literature.
**Prerequisite:** PPSY 764

## PPSY 766, Consultation II: Systemic and Organizational Context, 2 Units

This course explores the critical dimensions of organizational life from the vantage point of systemic, structural, and cultural perspectives. Students examine organizing principles for leadership and management, cultural artifacts of organizational life, and key contextual variables that might prove significant for consultancy engagement. This course provides a framework for students to gain insights into organizational life and the importance of key factors as a backdrop for consultancy engagements that involve organizational redesign, management principles, and cultural contexts.
**Prerequisite:** PPSY 740

## PPSY 767, Consultation III: Leadership and Organizational Assessment, 2 Units

This course introduces students to qualitative and quantitative assessment methods as key tools for leadership and organizational assessment. Students gain competency in the use of several key assessment methods and instruments, learn the importance of assessment in organizational and leadership dynamics, and learn to apply these instruments to leadership and organizational development.
**Prerequisite:** PPSY 740, PPSY 766

## PPSY 768, Consultation IV: Interventional Strategies, 2 Units

This course provides instruction and training in interventional strategies central to consultation assignments within organizational settings. Students are introduced to interventional strategies that correspond to the primary issues related to organizational life: change management, organizational culture, and leadership and team dynamics. Students gain competency in focusing on these critical areas of consultancy engagement and intervention.
**Prerequisite:** PPSY 740, PPSY 766, PPSY 767

## PPSY 770, Introduction to Forensic Psychology, 2 Units

This course provides the clinical psychology student an introduction to forensic psychology theory, methods, and assessment. This is the first and foundational course in a series of four elective courses in the family forensic psychology elective concentration. This course provides students with the opportunity to learn the foundational theory in law and psychology that serves as prerequisite knowledge to explore deeper study in forensic assessment and family forensic psychology. Specifically, this course covers the introduction to the psychological and legal aspects of criminal, civil, and family forensic psychology.

## PPSY 771, Forensic Assessment, 2 Units

This course provides substantive coverage of forensic mental health assessment, presenting the psychological and legal conceptual framework for applying forensic instruments and forensically relevant instruments to answer questions presented by a civil, family, or criminal court. Foundational issues such as forensic ethics, multicultural considerations, basic forensic assessment methodology, and assessment of response styles and dissimulation are covered. In addition, relevant legal concepts and landmark cases that substantially shape the delivery of forensic mental health assessment are addressed. Students learn the basics of conducting the following evaluation types: 1) competency to stand trial; 2) mental status at the time of the offense and criminal responsibility; 3) violence risk management; 4) sex offender risk assessment; 5) death penalty mitigation; and 6) personal injury.

## PPSY 772, Family Forensic Psychology I, 2 Units

This course provides a substantive overview of juvenile forensic and child custody evaluations. Students have the opportunity to learn legal cases and principles that apply to the work of forensic psychologists in juvenile and family courts, as well as assessment methodology and instruments that are employed when conducting juvenile forensic and child custody evaluations. Types of the evaluations covered include juvenile risk assessment, juvenile psychopathy, juvenile transfer waiver, juvenile competency, child custody, and fitness for parenting.
**Prerequisite:** PPSY 771

## PPSY 773, Family Forensic Psychology II, 2 Units

This course covers specialized issues within family forensic psychology including conducting evaluations that are useful for making legal dispositions within the family court system. Students learn the fundamental elements of conducting the following assessments: visitation risk, child trauma, child sexual abuse allegations, domestic violence risk, battered spouse, decisional/testamentary capacity and substituted judgement, psychological autopsies, and reproductive capacity. In addition, students are exposed to divorce mediation and more advanced expert testimony strategies. At the end of the four-course sequence, students have the opportunity to participate in a mock court hearing where they present their findings and undergo cross-examination by an attorney.
**Prerequisite:** PPSY 772

## PPSY 774, Assessment II: Personality, 3 Units

This course provides a review of the fundamentals of psychological assessment: the administration, scoring, and interpretation of self-report instruments for the clinical assessment of personality and professional report writing. Primary instruments studied will include the Minnesota Multiphasic Personality Inventory-2 (MMPI-2), MMPI-2-RF, Millon Clinical Multiaxial Inventory IV, Personality Assessment Inventory (PAI), NEO-Personality Inventory-3 (NEO-PI-3), Sixteen Personality Factor Questionnaire (16PF) and Beck Inventories.
**Prerequisite:** PPSY 700H

## PPSY 775, Assessment IV: Integrated Report Writing, 3 Units

This course focuses on the art and science of psychological assessment and report writing. Consistent with the assessment competence of the APA, this course is intended as a capstone or final, culminating course occurring at the conclusion of the assessment sequence. It provides students with the tools to refine report-writing skills, with a focus on conducting clinical interviewing, test selection, and third-party collaborative interviews, and learning to write integrated, clear, useful psychological reports.
**Prerequisite:** PPSY 700H, PPSY 774, PPSY 714

## PPSY 779, Advanced Developmental Psychology II: Early Adulthood through Late Adulthood, 2 Units

This course is part of a two course sequence that aims to help students learn to utilize a lifespan perspective in their work as clinical psychologists. This course reviews important developmental issues and milestones from early adulthood through late adulthood, paying particular attention to context, culture, and environmental issues. Students are encouraged to consider how development occurs within a specific social context and learn how social stress, poverty, low-education attainment, abuse and neglect, and inadequate housing impact development. Biological, social, psychological aspects of development are included in this course. Models of psychological development are presented, and the processes of change and adaptation are examined, including clinical issues such as grief and loss. The clinical application of the material is highlighted through case examples, group discussion, and hands-on application during class activities. This course is taken during the first year of the doctoral program and is foundational to the curriculum. As such, subsequent coursework builds upon the knowledge, concepts, and skills introduced in this course.

## PPSY 781, Interpersonal Theory and Psychotherapy, 2 Units

This course provides advanced instruction and training in interpersonal approaches to personality and psychotherapy. This seminar-style course includes a review of Harry Stack Sullivan's distinctive contributions to personality theory, the primary interpersonal models of personality, and several contemporary clinical applications of this theory.

## PPSY 786, Global Psychology, 2 Units

This course provides a systematic overview of existing approaches to working globally. Theory, research, and intervention are highlighted, and the history of globalization, current trends, and common problems and issues are examined. Students are encouraged to develop their clinical skills in applying psychology to significant global concerns in diverse countries and cultures and practically apply their knowledge during an intensive, three-week practicum in Kenya, East Africa.

## PPSY 787, Dissertation Continuation, 0 Units

This course is for students who have have completed Dissertation I-VI and have not yet defended their dissertation. Students are expected to meet regularly with their dissertation chair; to complete specific goals, objectives, and tasks; and to demonstrate satisfactory progress toward completion of their dissertation. Students (including those who have not yet completed their dissertation after proceeding to internship and/or completing internship) enroll in this course until the dissertation is successfully defended and the final document is submitted for the required APA editing process and APU's publications approval.
**Prerequisite:** PPSY745, PPSY 746, PPSY 747, PPSY 748, PPSY 755, PPSY 756

## PPSY 788, Integrated Health Psychology, 2 Units

In this course students are introduced to the field of integrated health psychology, learn the role and duties of a health psychologist, and develop an understanding of the collaboration that can occur will allied health professionals in order to help patients achieve better outcomes.

## PPSY 789, Integration I: Traditioning and Contextualizing the Self, 3 Units

This course presents theological anthropology as an interpretive lens for the meaning of the human story and the ways in which particular religious and/or spiritual traditions influence our understanding of human experience. Central to this course is an understanding of each student's framework of meaning - how we understand the source of pain, suffering, and illness, and the nature and process of change. Students explore how their own cultural, philosophical, theological, and/or spiritual tradition(s), implicit or explicit, inform and/or influence their understanding of human nature, development, illness, health, and change. This self-exploration and awareness of, reflection on, and interaction with theological and spiritual traditions forms a foundation for understanding the self in context - embodied and embedded culturally, ethnically, religiously - and provides a source of personal and professional identity.

## PPSY 790, Integration II: Christian Spiritual Formation and Psychotherapy, 3 Units

This course provides a historical overview of Christian spirituality. As background for discussion of Christian spiritual formation, a holistic philosophical/theological model of people is presented, along with an overview of spiritual disciplines as methods utilized to actively engage the Christian formation process. Examples of psychotherapy models that integrate Christian theology and spirituality with existing psychology theoretical and clinical models are presented and discussed. Opportunities for synthesis, application, and creative development of ideas are part of the course content and process.

## PPSY 791, Integration III: World Religions/Spirituality and Psychotherapy, 3 Units

This course focuses on the role of the psychologist engaging with religious diversity in the US and globally. With professional ethics and the psychology of religion as foundation, students will explore the application of psychological theory and methodology to the conceptualization, diagnosis, care, and treatment of individuals, couples, and families from various religious traditions. Students will gain key competencies related to awareness, knowledge, and skills and will explore their own attitudes in working with religiously diverse populations.

## PPSY 792, Integration IV: Vocation and Social Action as a Psychologist, 3 Units

As the final course in the integration sequence, this course explores the role of the psychologist as an agent of change in society. Central to this consideration is clinical practice as vocation and the inherently sacred nature of work. Drawing on students' own framework of meaning - cultural, philosophical, theological, and/or spiritual foundation and tradition(s), topics discussed in this course will include justice, mercy, compassion, and grace. Biblical ethics of hospitality, community, and respectful discourse about differences will be applied to the range of ways that psychologists may engage with society, including advocating for change in social and political policy, mental health advocacy, involvement in action for racial justice, and participation in dialogue about psychological illness and health in religious and nonreligious communities.

## PPSY 798, Special Topics, 1-6 Units

Elective courses are offered each semester according to the interests of students and faculty. Students are required to take elective courses during their program; some may choose to take additional courses of interest beyond the unit requirement of the program.

## PPSY 799, Readings in Psychology, 1-4 Units

# PsyD in Clinical Psychology

APU's Doctor of Psychology (PsyD) in Clinical Psychology (https://www.apu.edu/bas/programs/psyd/) is a professional doctorate that identifies as a practitioner-scholar program. The curriculum provides the courses and training necessary to meet the educational requirements in the state of California for licensure as a psychologist.

# Program Aim

The PsyD program at Azusa Pacific University has developed a unifying aim to guide the mission of the program: Cultivate culturally competent practitioner-scholars who are equipped to serve a wide range of clients with a special emphasis in systems thinking, diversity, and the integration of faith/spirituality and practice.

# Profession-wide Competencies in Health Service Psychology [1]

In alignment with accreditation standards from the American Psychological Association, APU's PsyD program and curriculum focus on profession-wide competencies in health service psychology. See Program Learning Outcomes (p. 357) for more details.

[1]Adapted from APA (Am. Psychol. Assoc.). 2015. *Standards of Accreditation for Health Service Psychology*. Washington, DC: APA

# APU PsyD Program's Special Emphases

In addition to the profession-wide competencies (Program Learning Outcomes), the PsyD program at APU has three areas of special emphasis:

1. Systems Approach (Family Psychology)
2. Diversity and Justice
3. Integration of Faith/Spirituality and Practice

# Systems Approach (Family Psychology)

Based on systems theory, the discipline of family psychology recognizes the dynamic interaction between persons and environments without detracting from an awareness of individual, intrapsychic issues. The PsyD program's emphasis in family psychology incorporates numerous elements from several disciplines within psychology (e.g., clinical psychology, developmental psychology, personality theory, environmental psychology, neuropsychology, psychobiology, and social psychology). All the disciplines are related by the theoretical understanding of the dynamic, reciprocal relationship between these factors as they impact human behavior. This theoretical foundation undergirds the program courses at APU. In courses that have traditionally had an individual focus, systemic aspects relevant to the content area are incorporated. The PsyD program strives to equip students to think systemically and apply systemic analysis to clinical situations.

# Diversity and Justice

The PsyD program has a strong commitment to individual and cultural diversity and is committed to creating an inclusive and positive environment for diverse students and faculty, and the development of competency in serving diverse populations. Diversity competence is interwoven throughout every course; additionally, there are specific courses that focus on developing diversity competency. The program is also committed to addressing disparity and encouraging social action and advocacy. In addition to coursework, the PsyD program supports student-run diversity committees that are focused on addressing diversity issues in the program through forums, guest speakers, and trainings.

# Integration of Faith/Spirituality and Practice (Interdisciplinary Integration)

Azusa Pacific University has a strong Christian heritage and commitment to integrating evangelical Christian thought into university programs. The PsyD expresses this heritage and commitment through an emphasis on the integration of psychology with theological anthropology, ethics, and spiritual formation. Students explore how their own cultural, philosophical, theological, and/or spiritual foundations and tradition(s), implicit or explicit, inform and/or influence their understanding of human nature, development, illness, health, and change. This self-exploration and awareness of, reflection on, and interaction with theological and spiritual traditions forms a foundation for understanding the self in context—embodied and embedded culturally, ethnically, religiously—and provides a source of personal and professional identity.

The PsyD program also has a strong commitment to open enrollment. As such, individuals from any religious or nonreligious tradition may be admitted to the PsyD program. However, it is important for prospective students to recognize that coursework and training are structured using Christian values and principles. Students are asked to learn and thoughtfully interact with the content of courses, as well as to reflect on their own beliefs and values as they relate to preparation for professional practice. In addition to providing students with an interdisciplinary framework from which to understand psychological theory and practice, the emphasis also facilitates and enhances the development of competency with respect to addressing religious and spiritual diversity in clinical practice.

# Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

# Application Deadline

**Priority Deadline: December 1.** Students who apply prior to this date will be given priority consideration for admission.

**General Deadline: January 15.** Students who apply prior to this date will be given consideration for admission after the priority applications are reviewed.

## Interview Process, Acceptance, and Deposit

Upon invitation, PsyD applicants complete an interview with the PsyD faculty. The purpose of the interview is to determine the applicant's potential for success in the PsyD program. Applicants who are accepted into the PsyD program are notified after the interview process. Upon notification of admission, applicants must confirm intent to attend in writing to the department by April 15. A $500 deposit is also required by April 15. Please note that the deposit is nonrefundable, but 100% of the deposit is applied toward tuition.

# Scholarships

## Scholarship for Integrated Psychology (Psychoanalytic Psychotherapy and Christian Theology)

The Department of Clinical Psychology has been awarded scholarship money from an external foundation for students interested in the integration of psychoanalytic psychotherapy and Christian theology. First-year students who have been nominated by a faculty member are invited to apply. The grant funds up to three APU PsyD students per year who meet program criteria, which include goals for clinical practice and research that integrate psychoanalytic psychotherapy and Christian theology and spirituality. In addition to maintaining a 3.7 GPA, scholarship students participate in a monthly mentoring group and complete a sequence of courses focused on integrating religion and spirituality into clinical practice, as well as a sequence of courses to develop clinical competencies in psychoanalytic psychotherapy. Through the scholarship program, students develop vocational and professional goals that apply the knowledge, skills, and abilities they have learned through the scholarship program to their chosen area of research and professional practice.

For more information, contact Theresa Clement Tisdale, PhD, PsyD, Scholarship for Integrated Psychology program coordinator, at tctisdale@apu.edu or (626) 815-6000, Ext. 5205.

## Project Expand Program and Stipend

The Department of Clinical Psychology has been awarded a three-year, $1.4M award from the Health Resources and Services Administration (HRSA) focused on further equipping psychology doctoral students with high-quality interdisciplinary, integrated behavioral health training and practicum experiences specific to addressing co-occurring disorders (CODs—a mental health condition and a substance use disorder) in community care settings, including school wellness centers, in high-need and high-demand areas for clinical psychology services. The goal of the grant, named Project Expand, is to provide up to 10 students each academic year with one-year training and practicum opportunities in settings that serve adults with CODs and adolescent youth at risk for the development of CODs. Interested students who are in the second year or above within the PsyD program can apply. Awarded students receive a $25,000 stipend for successful participation in the program.

For more information, contact Rachel Castaneda, PhD, MPH, and PI, at rcastaneda@apu.edu or Samuel Girguis, PsyD and co-PI, at sgirguis@apu.edu.

## PsyD Doctoral Assistantships (TRAs)

Funds are allocated to provide teaching-research assistantships (TRAs) for each academic cohort. Recipients of the assistantships receive $9,000 tuition remission per year for the first four years of the program for a scholarship total of $36,000. TRAs provide 8 hours of service per week in the Department of Clinical Psychology during September through June of the academic year. The department chair (or designee) determines the roles and responsibilities of the TRAs. Students may apply for the assistantship during the first semester of the first year of their PsyD program. Preference is given to applicants who evidence strong academic credentials (high GPA and GRE scores, in particular), financial need, cultural knowledge and language skills that facilitate the provision of psychological services in an underserved community, and commitment to provide psychological services in an underserved community following graduation. Applications for the assistantships and criteria for evaluation of applications are available in the Department of Clinical Psychology.

TRAs will be reviewed annually and must meet minimum standards to continue the assistantship. This review is intended to guarantee that persons awarded an assistantship will continue to evidence the qualities that led to their original selection. Minimum standards for continuation include maintaining good standing throughout all aspects of the program, including maintenance of a 3.5 GPA; sufficient progress on dissertation; positive evaluations from clinical training sites; willingness to receive constructive criticism regarding performance of tasks; demonstrated remediation of performance deficits that have been formally identified to the student by the PsyD program, department chair, and/or the designated supervisor; and continued ability to be available on a schedule that meets the needs of the department.

Any student who has been awarded an assistantship and who has received tuition remission is responsible to repay the amount equal to the tuition remission if the student withdraws from the PsyD program prior to graduation. Such students may work with Student Financial Services to arrange a repayment plan for the loan balance.

# Computer and Email Access Required

Students are required to own or have ready access to a computer during their tenure in the PsyD program, and required to maintain and utilize a student email address. Students are also responsible for the information sent to them by the program or department via email, and for responding to email in a consistent and timely manner.

# Academic Advising

In addition to the advisement by the program director and the directors of clinical training, each student selects a dissertation committee chair during their first year in the program who also serves as the student's academic advisor throughout the program.

# Progress Review and Annual Evaluation

Department faculty review the progress of all students in the PsyD program each semester in order to encourage professional development and successful completion of the program. Since personal characteristics are important to competency in clinical psychology, students are evaluated regularly on categories determined to be professional standards in the field of clinical psychology. The evaluation form, noting the dimensions for evaluation, is provided to students upon entrance to the program (or earlier by request). Student behavior that does not reflect the professional standards in the field of clinical psychology will be documented on the evaluations form and the student will receive a written notice. Furthermore, the student will be required to meet with their faculty advisor, the program director, and/or the Clinical Training Committee to determine a personal development plan. Students who fail to improve according to their development plan may be dismissed from the program. Students who receive more than one written notice during a semester may be dismissed from the program. Students who receive more than three written notices while in the program may be dismissed from the program.

An annual student progress evaluation is conducted in July, following the summer term. All aspects of student progress in the program are reviewed and a letter is sent to students informing them of the results of the review, noting strengths or completion of particular requirements and areas for improvement or remediation needed in order to remain current in the program.

The program evaluates multiple domains of student training beyond that of academic success. Other areas of evaluation that are expected competencies of health service psychologists include intrapersonal, interpersonal, and professional development and functioning. In addition to policies outlined in the catalog, other sources of program policy include the clinical training manual, the program manual, and the dissertation manual.

# Student Grievance and Due Process Procedures

Students' rights to due process are clearly outlined in the Academic Policies and Procedures (p. 1081) section of this catalog. Additional information may be found in the program manual and the clinical training manual.

# Five- and Six-Year Academic Plans and Time to Degree Completion

## Five-Year Program

Participation in the full-time plan requires attending classes during the day or evening at least two days per week, plus occasional Saturday courses (usually four Saturdays in a year). An additional 15-20 hours per week minimum for practicum is required throughout the program.

## Six-Year Program

Starting in the third year of the program, participation in a reduced-load-per-semester, six-year plan requires attending classes during the day or evening at least two days per week plus occasional Saturday courses (usually four Saturdays in a year). An additional 15-20 hours per week minimum for practicum is required in the first three years of the program or more, depending upon student progress.

## Time to Degree Completion

PsyD students are permitted 8 years from the date of initial enrollment to complete all requirements. Extensions beyond the 8-year limit may be granted for students experiencing unusual circumstances, at the discretion of the department with approval from the dean of the School of Behavioral and Applied Sciences.

# Other Degree Requirements for the PsyD program

## Clinical Training

Clinical training is central to the practitioner-scholar (PsyD) model for educating clinical psychologists. Azusa Pacific's program is committed to assisting students in developing the essential knowledge base, attitudes, and therapeutic skills necessary to function as clinical psychologists. In their clinical placements (practicum sites), students gain experience in a variety of clinical settings including outpatient, inpatient/residential, child/adolescent, older adult, brief/managed care, and settings utilizing psychological assessment. Supervision is provided by the field placement sites while APU faculty concurrently provide students with clinical and professional consultation. Students entering the program with existing clinical training or licensure must still complete the program's clinical training sequence. Clinical training involves three years of practicum and a full-time, yearlong predoctoral internship (a limited number of two-year, half-time internships are available in some settings).

Practicum training is taken along with coursework as a means of enriching the academic experience, and is designed to provide the student with exposure to assessment and clinical treatment. A minimum of 1,500 practicum hours are required. Some students may elect to obtain an additional year of practicum experience in their fifth year and complete their internship during a sixth year. Concurrent with their supervised external practicum, students are required to participate in a 1-unit clinical consultation course (PPSY 720) that provides input from faculty on the student's clinical and professional development. Students are also required to document their practicum hours using the program Time2Track (https://time2track.com/).

The predoctoral internship is required at the end of the program when coursework and the 1,500 hours (three years) of practicum experience are complete. Internship provides the student with a more in-depth training experience. A minimum of 1,500 hours are required for internship training, though some sites may require 2,000 hours. It is highly recommended that the internship be APA/APPIC-approved, but alternative internships are provided by CAPIC. All placements must be an APA-, APPIC-, or CAPIC-approved site; this is a state law for California licensure. Permission to not seek an APA/APPIC internship must be requested from the director of clinical training and/or the Clinical Training Committee.

For those students who are licensed or registered in mental health professions other than psychology, the Department of Clinical Psychology requires that all practicum training in the PsyD program be entirely separate from any practice under such existing license or registration. For purposes of clinical training in health service psychology, all students are to be identified exclusively as psychology trainees, psychology students, or psychology interns. Practicum students are not allowed to make known in any manner any other status they may hold in other mental health professions. Practicum hours from training in psychology may not be "double counted" toward training required for other mental health professions. If a student conducts a clinical practice or performs mental health services under an existing nonpsychology mental health license while he or she is a student in the PsyD program, the Department of Clinical Psychology officially recommends that these students consider the impact of their education and training in psychology on such practice and that they seek supervision for any services that may be deemed to be part of the profession of psychology.

To facilitate the identification of students with the profession of psychology, all students are required to join the American Psychological Association as student members upon acceptance into the program. APA membership provides many benefits, including subscriptions to the *Monitor on Psychology* and *American Psychologist*. Students are also required to maintain liability insurance while in the program.

## Clinical Training Manual

Every fall semester, a clinical training manual is released to students, who are responsible for understanding its contents and being aware of any changes required by the department.

## Quality Assurance in Clinical Placements

The directors of clinical training of internship and practicum (DCTs) and the Clinical Training Committee have an ongoing responsibility to ensure that the program's clinical training standards meet all state licensing and APA requirements. All clinical training is intended to be consistent with the requirements stated in the *California Board of Psychology Laws and Regulations*. Modifications in state law shall be reflected in program changes to ensure training consistent with the current practice of psychology. Additionally, the clinical training required by the PsyD program is consistent with APA ethical and professional standards and training guidelines.

## Evaluation of Clinical Training

The clinical training goals and objectives are integrated into the clinical practicum sequence and coordinated with the clinical courses in the program. Outcomes in the clinical sequence are measured throughout the program and include regular presentations of audio- or videotaped work of students, classroom demonstrations and role plays, assessment reports presented in class, supervisor evaluations, Clinical Competency Exam, internship acceptance and completion, and licensure acquisition.

### Formative Evaluation

Formative evaluation consists of feedback given to students by their clinical supervisors, the directors of clinical training and program director, and the faculty. Although primarily verbal and situational, this kind of evaluation is of great importance due to its immediacy to clinical interventions and the issues arising during the students' clinical placements.

### Summative Evaluation

Summative evaluation occurs at the end of each semester of clinical placement. Students are evaluated by their field site supervisor as well as by all faculty members. The site supervisor evaluation is discussed with students prior to its being sent to the DCT and becoming part of the students' clinical files. Students receiving inadequate evaluations are placed on probation, counseled by their faculty advisor, and, should their clinical performance fail to meet expected standards, dismissed from the program. The Clinical Training Committee (CTC) may require students to complete remediation assignments to meet competency standards. As noted above, students are evaluated at the end of each semester for the achievement of competency in key clinical areas. This helps prepare the student for the Clinical Competency Exam, a cumulative evaluation of readiness for the predoctoral internship.

Students also evaluate their site experience and site supervisor at the end of each semester. These evaluations are submitted to the DCT and are used to ensure the quality of placement sites and on-campus supervision groups.

## Clinical Competency Examination

As a final evaluation measure, each student must pass a Clinical Competency Exam (CCE) after completing required coursework and clinical training.

For the CCE, a student submits a sample of their clinical work (case presentation, psychological assessment, and a videotape of a psychotherapy session), along with their clinical portfolio (including supervisor evaluation, verification of practicum hours, list of assessments performed, curriculum vita, and conference presentations or published works), to a two-member faculty committee. In addition, the student must respond to case vignettes illustrating various clinical issues. The purpose of this exam is to ensure that the student has developed the clinical competencies and requisite skills to begin an internship. Therefore, successful completion of the exam is required before applying to internship.

## Research Competence and Dissertation

The PsyD program requires the successful proposing, conducting, and defending of a dissertation. Further details are provided in the PsyD Dissertation Handbook.

Students are required to take the following courses as part of the dissertation process: PPSY 722 Research Design I; PPSY 723 Research Design II; PPSY 731 Dissertation Development, and six 1-unit dissertation courses (PPSY 745, PPSY 746, PPSY 747, PPSY 748, PPSY 755, PPSY 756). If, upon completion of these dissertation courses, a student has not yet defended their dissertation, they must enroll in PPSY 787 Dissertation Continuation every semester until they successfully defend their dissertation and submit it to the APU Libraries for binding and publication. Please note that even though PPSY 787 Dissertation Continuation is 0 units, the student will be charged 1 unit per semester until the dissertation process is complete.

Students are required to consult the APU Doctoral Programs Handbook for Style and Format Requirements for the year of their dissertation defense to determine specific deadlines for May graduation.

## Minimum Levels of Acceptable Achievement (MLAs)

In order to successfully complete the PsyD program, the following minimum levels of acceptable achievement are required:

- Obtaining a grade of *B-* or better (or a grade of *Credit*) in all coursework (see academic probation policy for process if a grade below a *B-* (or a grade of *No Credit)* is obtained in any class)
- Completing a minimum of three years of clinical practicum (see clinical training manual for details) and obtaining an overall score of 3 or better on summative supervision evaluations (see clinical training manual for process if the overall score on summative evaluations is below a 3)
- Successfully passing Parts I-IV of the Clinical Competency Exam (CCE)
- Successfully proposing a dissertation (see dissertation manual for process if the dissertation is not successfully proposed)
- Successfully defending a dissertation and submitting it for binding and/or publication through APU Libraries (see dissertation manual for process if the dissertation is not successfully defended)
- Completing a minimum of 1,500 hours of a predoctoral internship (see clinical training manual for further details)

## Personal Psychotherapy Required

All PsyD students must complete 30 hours of psychotherapy with a licensed psychologist of their choice. Additional individual psychotherapy may be recommended or required by the program as part of the degree requirements if deemed necessary by department faculty.

## Degree Posting

The doctoral degree is posted after the student has met all program requirements, including verification of the following:

- Completion of all required coursework (prior to commencing internship)
- Passing of Clinical Competency Exam
- Successful dissertation defense
- Submission of dissertation for binding
- Verification of completion of personal psychotherapy hours (see above)
- Verification of completion of the predoctoral internship

Note: Doctoral degree posting dates conform to those published in the catalog. (p. 1079)

## Academic Psychology Licensure

The APU PsyD program fulfills the graduate education requirements in the state of California for licensure as a psychologist. Students seeking licensure in California may obtain information regarding requirements by contacting:

California Board of Psychology
1625 N. Market Blvd., Ste. N-215
Sacramento, CA 95834
(916) 574-7720
bopmail@dca.ca.gov
psychology.ca.gov (https://www.psychology.ca.gov/)

Students seeking licensure in another state should contact the appropriate examining board in that state.

# Program Requirements

## Curriculum

The PsyD curriculum is designed to meet the requirements of the APA for health service psychology. Courses stress the importance of critical thinking in the discipline of psychology, and the curriculum provides a breadth of knowledge regarding scientific psychology. Since this is a professional degree, clinical education and application of scientific knowledge to clinical domains are stressed throughout the curriculum, as well as in the clinical practicum experience. Cultural and individual diversity perspectives are woven into courses across the curriculum. In addition, all of the courses incorporate a systemic perspective on psychology. The coursework also includes interdisciplinary courses that integrate ethics, theology, and psychology—issues relevant to Christian faith—where appropriate.

The PsyD curriculum is composed of 125 units of required courses plus 8 units of elective courses for a total of 133 units. PsyD students may apply for a Master of Arts in Clinical Psychology en route to the PsyD, after completing 57 units in the PsyD and attendance at a child abuse workshop. Note: The Master of Arts in Clinical Psychology is a nonlicensable degree.

Certain courses or mandatory seminars may be scheduled for Saturdays. Attendance at these courses or seminars is required to fulfill degree requirements.

| PPSY 786 | Global Psychology | |
| PPSY 798 | Special Topics | |

[1]     PPSY 787 is required if a student has not successfully defended their dissertation by the beginning of their fourth year in the program (and after having enrolled in Dissertation I-VI during their first three years in the program). Continuous enrollment is required from that point until the student has successfully defended their dissertation.

[2]     All students must take 8 units of electives. Students may choose to take electives grouped in the listed concentrations; students need to complete only 4 units within a concentration to complete it, but may choose to take more if desired.

See below for more information regarding the five-year academic plan versus the six-year academic plan.

## Academic Probation and Disqualification

Students must maintain a minimum cumulative GPA of 3.0 throughout the period of their enrollment. Students will be placed on academic probation if a cumulative 3.0 GPA is not maintained, or when they receive a *NC* (No Credit) or a grade below a *B-* in their coursework. Students may be disqualified from further graduate work if a cumulative 3.0 GPA is not maintained or if they obtain a total of two grades below a *B-* or *NC* (No Credit) in their coursework.

## Electives

Students are required to take 8 units of elective courses. Students may take miscellaneous electives in psychotherapy, assessment, or other courses related to clinical psychology; or they may complete one of the elective concentrations described below.

### Psychodynamic Systems of Psychotherapy Concentration

The psychodynamic systems of psychotherapy elective concentration provides an opportunity for students to learn a comprehensive model of personality, psychopathology, and psychotherapy that reflects the systemic epistemology of the doctoral program. This course sequence provides a historical overview of major psychodynamic systems of theory and therapy (from origins to the present). Each course focuses on key theorists, theoretical constructs, conceptualization and treatment planning, supporting research, and clinical demonstration and application. Students seeking a Certificate of Completion in the Psychodynamic Systems of Psychotherapy elective concentration must complete three semesters of PPSY 720 Clinical and Professional Consultation, with Theresa Clement Tisdale, PhD, PsyD, as the instructor, alongside a yearlong clinical practicum placement (in which students are permitted to provide psychodynamic psychotherapy to clients) and the following two-course sequence of electives:

| Code | Title | Units |
|------|-------|-------|
| PPSY 763 | Psychodynamic Systems of Psychotherapy I | 2 |
| PPSY 764 | Psychodynamic Systems of Psychotherapy II | 2 |

For more information, contact Tisdale at tctisdale@apu.edu.

## Forensic Psychology Concentration

The forensic psychology elective concentration provides an opportunity for students to pursue more focused training in the specialty area of forensic psychology. This concentration prepares PsyD students for competitive forensic psychology internships and postdoctoral training experiences. While completion of the certificate program does not guarantee placement in supervised training sites, it enhances the student's educational foundation in preparation for advanced training in forensic psychology. Students seeking the Certificate of Completion in Forensic Psychology must complete a forensic psychology practicum, participate in forensic psychology research, and complete the following two-course sequence of electives:

| Code | Title | Units |
|------|-------|-------|
| PPSY 771 | Forensic Assessment | 2 |
| PPSY 773 | Family Forensic Psychology II | 2 |

For more information, contact Tonneka Caddell, PsyD, at tcaddell@apu.edu.

# Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. In the profession-wide competency of Research, students will: •Demonstrate the substantially independent ability to formulate research or other scholarly activities (e.g., critical literature reviews, dissertation, efficacy studies, clinical case studies, theoretical papers, program evaluation projects, program development projects) that are of sufficient quality and rigor to have the potential to contribute to the scientific, psychological, or professional knowledge base. •Conduct research or other scholarly activities. •Critically evaluate and disseminate research or other scholarly activity via professional publication and presentation at the local (including the host institution), regional, or national level.

2. In the profession-wide competency of Ethical and Legal Standards, students will: •Be knowledgeable of and act in accordance with each of the following: 1. the current version of the APA Ethical Principles of Psychologists and Code of Conduct; 2. Relevant laws, regulations, rules, and policies governing health service psychology at the organizational, local, state, regional, and federal levels; and 3. Relevant professional standards and guidelines. •Recognize ethical dilemmas as they arise, and apply ethical decision-making processes in order to resolve the dilemmas. •Conduct self in an ethical manner in all professional activities.

3. In the profession-wide competency of Individual and Cultural Diversity*, students will: •An understanding of how their own personal/cultural history, attitudes, and biases may affect how they understand and interact with people different from themselves. •Knowledge of the current theoretical and empirical knowledge base as it relates to addressing diversity in all professional activities including research, training, supervision/consultation, and service. •The ability to integrate awareness and knowledge of individual and cultural differences in the conduct of professional roles (e.g., research, services, and other professional activities). This includes the ability apply a framework for working effectively with areas of individual and cultural diversity not previously encountered over the course of their careers. Also included is the ability to work effectively with individuals whose group membership, demographic characteristics, or worldviews create conflict with their own. •Demonstrate the requisite knowledge base, ability to articulate an approach to working effectively with diverse individuals and groups, and apply this approach effectively in their professional work. *In addition to being a profession-wide competency, Diversity/Justice is a Special Emphasis in the APU PsyD program.

4. In the profession-wide competency of Professional Values and Attitudes, students will: •Behave in ways that reflect the values and attitudes of psychology, including integrity, deportment, professional identity, accountability, lifelong learning, and concern for the welfare of others. •Engage in self-reflection regarding one's personal and professional functioning; engage in activities to maintain and improve performance, well-being, and professional effectiveness. •Actively seek and demonstrate openness and responsiveness to feedback and supervision. •Respond professionally in increasingly complex situations with a greater degree of independence as they progress across levels of training.

5. In the profession-wide competency of Communication and Interpersonal Skills, students will: •Develop and maintain effective relationships with a wide range of individuals, including colleagues, communities, organizations, supervisors, supervisees, and those receiving professional services. •Produce and comprehend oral, nonverbal, and written communications that are informative and well-integrated; demonstrate a thorough grasp of professional language and concepts. •Demonstrate effective interpersonal skills and the ability to manage difficult communication well.

6. In the profession-wide competency of Assessment, students will: •Select and apply assessment methods that draw from the best available empirical literature and that reflect the science of measurement and psychometrics; collect relevant data using multiple sources and methods appropriate to the identified goals and questions of the assessment as well as relevant diversity characteristics of the service recipient. •Interpret assessment results, following current research and professional standards and guidelines, to inform case conceptualization, classification, and recommendations, while guarding against decision-making biases, distinguishing the aspects of assessment that are subjective from those that are objective. •Communicate orally and in written documents the findings and implications of the assessment in an accurate and effective manner sensitive to a range of audiences.

7. In the profession-wide competency of Intervention, students will: •Establish and maintain effective relationships with the recipients of psychological services. •Develop evidence-based intervention plans specific to the service delivery goals. •Implement interventions informed by the current scientific literature, assessment findings, diversity characteristics, and contextual variables. •Demonstrate the ability to apply the relevant research literature to clinical decision making. •Modify and adapt evidence-based approaches effectively when a clear evidence-base is lacking. •Evaluate intervention effectiveness, and adapt intervention goals and methods consistent with ongoing evaluation.

8. In the profession-wide competency of Supervision, students will: •Demonstrate knowledge of supervision models and practices.

9. In the profession-wide competency of Consultation and Interprofessional/Interdisciplinary Skills, students will: •Demonstrate knowledge and respect for the roles and perspectives of other professions. •Demonstrates knowledge of consultation models and practices.

10. Students will demonstrate the ability to apply systems thinking to professional work (APU PsyD Special Emphasis in Systems / Family Psychology).

11. Students will demonstrate the knowledge, skills, and attitudes necessary to integrate faith and spirituality into clinical practice (APU PsyD Special Emphasis in Integration of Faith/Spirituality into Clinical Practice).

# Department of Criminal Justice

## Mission Statement

The Department of Criminal Justice (https://www.apu.edu/bas/criminaljustice/) prepares students to apply knowledge of criminal justice and critical analysis of social problems to promote the equitable application of the law for all people and become ethical Christian leaders in public and private organizations that intend to make communities safer. The department provides an academically rigorous focus within a liberal arts education, developing criminal justice professionals who embody Christian social justice perspectives.

## About the Department

Criminal justice is an interdisciplinary social science involving the study of crime and societal responses to it. The department seeks to foster an environment of inquiry, innovation, and lifelong learning in which students learn to recognize, critically examine, and solve social problems related to crime and criminal behavior. By examining the policies and systems designed to control criminality, students learn the sociopolitical context of crime and explore the historical and contemporary theories of violent and antisocial behavior. In addition to learning academic theories and analyzing criminal justice practices, students develop practical skills such as writing for criminal justice audiences, locating relevant laws and regulations, and understanding courtroom procedures.

The department provides foundational courses for understanding contemporary criminological theory and criminal justice practice with scholarly appraisal of law enforcement, the courts, and corrections. The department also offers elective courses that encourage the reflection, critical thinking, and ethical decision making essential to becoming responsible practitioners and leaders in the criminal justice field.

## Career Opportunities

Graduates of the criminal justice program are prepared to enter a broad range of career paths and/or graduate study in the criminal justice field, including criminology/criminal justice, forensic psychology, forensic science, and law.

## Programs
### Major

- Criminal Justice (BA) (p. 364)

### Professional Programs

- Criminal Justice, BA (Bachelor's Completion) (p. 365)
- Criminal Justice Minor (p. 366)

## Courses
### CJ 110, Introduction to Criminal Justice, 3 Units
This course will provide an overview of the field of criminology/criminal justice as an academic discipline. The academic discipline of criminal justice involves the scientific study of theoretical perspectives on crime and justice. In this course students will consider the respective roles of law, rehabilitation, public health, morality, and justice in the study of why crime occurs, how society responds to crime, and the scientific methods criminologists use to measure the extent of crime. The people who commit crime, the crimes they commit, and society's response to those actions cannot be fully understood outside the context of the larger criminal justice system, how it operates, the differential treatment of certain racial/ethnic groups, and the systems necessity in society. These issues are discussed throughout this course. *Meets the General Education Requirement: Social Science.*

## CJ 200, Criminal Justice, Civic Engagement and Social Responsibility, 3 Units

This course provides an experiential introduction to the criminal justice system. Issues of ethics, justice, and poor relations between criminal justice professionals and community members, are issues every 21st century criminal justice professional must be prepared to address. In this course students are introduced to types of civic engagement in a democracy as it relates to the criminal justice system. Students will organize community forums to address issues in policing, the courts, and the reintegration of offenders into the community. *Meets the General Education Requirement: Civic Knowledge and Engagement.*

## CJ 220, Police and Society, 3 Units

This course provides an introduction to the history of policing and examination of major trends in contemporary law enforcement. By comparing community policing, problem-oriented policing, evidence-based policing and many others, students will identify the legal framework of policing and administration of police work. This course also includes an in-depth examination of police behavior, police discretion, and societal attitudes towards law enforcement.
**Prerequisite:** CJ 110

## CJ 240, Introduction to Corrections: Jails and Prisons, 3 Units

Prisons are total institutions that exert control over inmates' daily lives. This course provides an in-depth introduction to the historical evolution and current state of incarceration and detention in the United States. By focusing on the theories and ideologies informing punitive practices, the goals of deterrence, rehabilitation, and incapacitation will be explored. Students will take a critical look at life in prison by exploring how incarceration affects the inmate and the potential consequences for society. Special emphasis is given to current controversies in jail and prison policy, such as overcrowding and violence.
**Prerequisite:** CJ 110

## CJ 250, Juvenile Justice, 3 Units

This course is designed to familiarize students with the juvenile justice system. This course will educate students on: types of delinquency, causes of delinquency (why a minor would engage in delinquent behavior), gang culture, social problems contributing to delinquency, law enforcement agencies that address delinquency, court proceedings and courts orders. Interventions that can be utilized with children who engage in delinquency and prevention programs that reduce the risk factors contributing to delinquency will also be discussed.
**Prerequisite:** CJ 110

## CJ 251, Criminal Law, 3 Units

A study of the principles and doctrines embodied in the criminal law. Topics such as substantive crimes, justification, complicity and liability, causation, and inchoate crimes will be explored and emphasized.
**Prerequisite:** CJ 110

## CJ 255, The Criminalization of Youth, 3 Units

This course explores the criminalization of youth and its effects in today's society. The criminalization of youth refers to the myriad ways in which youth in the U.S. are ignored, mistreated, or otherwise excluded and incarcerated by society long before they are sentenced to time behind bars. The study of the criminalization of youth seeks to investigate U.S. systems and structures that treat young people like criminals, police their bodies, and hold young people accountable for larger systemic and institutional failures. The course begins with an investigation of the overpolicing of young people, especially young people of color, in communities and schools. Then, by examining these issues, students search for possible alternatives to the criminalization of youth.
**Prerequisite:** CJ 250

## CJ 280, American Court System, 3 Units

This course provides an analysis of the structure, process, and personnel involved in the American Court system. By examining both state and federal courts, students will be exposed to the relationship between the judiciary and other criminal justice functions. Special emphasis is given to current court reform programs and the role of technology in the court room.
**Prerequisite:** CJ 110

## CJ 310, Criminological Theories, 3 Units

Students in this course identify different perspectives on crime causation and critically assess why people commit crimes. Course material includes the ideas, worldviews, and theories common to criminal justice professions regarding criminal motivation, what is considered a criminal act, how those acts should be handled, and the role of professionals in the criminal justice system.
**Prerequisite:** CJ 220, CJ 240, and CJ 280

## CJ 340, Victimology, 3 Units

This course provides advanced study and critical appraisal of the theories and recent research on victims of crime. This analysis focuses on the physical, emotional, and financial harm people suffer because of criminal activities, and the role of the victim in the criminal justice system. By exploring the relationships between the offender, the victim, and the criminal justice system, students gain a greater understanding of the frequently forgotten victims of crime. Course material also covers the programs and policies that have resulted from society's increasing concern about the rights of victims.
**Prerequisite:** CJ 220, CJ 240, CJ 280, WRIT 262

## CJ 350, Race, Ethnicity and Crime, 3 Units

Race, and companion factors such as race, ethnicity, social economic class (SES), gender and age are critical factors in the administration of criminal justice in the US. This course critically examines race, ethnicity and SES within the U.S. criminal justice system. The course will provide an overview of the history and background of the experiences of different racial and ethnic groups with different facets of the criminal justice system (policing, juvenile justice, sentencing, courts, etc.). This course will also introduce students to theories about the treatment of the poor compared to the non-poor in criminal offending; and will examine theoretical issues of race and justice. Empirical understandings of the intersectional relationship between race, class and gender and the criminal justice system will also be discussed.
**Prerequisite:** CJ 310

## CJ 351, Criminal Procedure, 3 Units

This course offers a study of specific criminal procedural concepts, such as the right to counsel, exclusionary rule, search warrants, permissible warrantless searches, stop and frisk, entrapment, wiretapping, confessions, lineups, jury selection, voir dire, negotiated pleas, and postconviction relief.
**Prerequisite:** CJ 110

## CJ 355, Gender and Crime, 3 Units

Students in this course explore the intersection between gender (with special focus on women) and crime, addressing such topics as gender differences in offending, theoretical explanations for female offending, the social construction of offending, women as victims of crime and violence, the sexualization and criminalization of women's bodies, women's experiences with prison and the criminal justice system, and women working in criminal justice fields.
**Prerequisite:** CJ 110 and junior or senior standing.

## CJ 362, Writing 3: Criminal Justice Research Design, 3 Units

The course focuses on the nature, purpose, and value of doing and communicating research in the field of criminal justice. Material builds on students' understanding of research methods (as learned in WRIT 262) and focuses on teaching students basic concepts and tools for designing a research project, collecting and analyzing data, and writing for an academic and professional audience. Students develop and conduct a methodologically sound empirical research project and craft a well-written scholarly research paper that communicates their research and findings. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*
**Prerequisite:** WRIT 262 and a minimum of 90 units.

## CJ 375, The Politics of Crime and Punishment, 3 Units

What types of political decisions lead to some communities being more policed than others? What is the relationship between descriptive representation in state and local government institutions and criminal justice outcomes? How does contact with the criminal justice system affect individuals' future political participation? Students in this course explore the relationship between politics and crime and punishment, reviewing literature focused on political behavior and political institutions to better understand the phenomena we hear about in the news, from sentencing algorithms and felony (dis)enfranchisement to stop-and-frisk and police use of force. Students examine why debates in this area are so often focused on urban environments, and what it is about cities that makes us associate them with crime. This course does not-nor could in one semester-provide a comprehensive review of any of the literature it covers, but it does provide students with the necessary foundation to engage in current debates and identifies where to look for more information.

## CJ 395, Sex Crimes, 3 Units

This course focuses on sex crimes, sex offenders, the criminal justice system response, and policy, and begins with an overview of the types of sex crimes that occur, and their prevalence. Criminological theories and theories specific to sex offending are identified. Three broad types of sex crimes are assessed: (1) rape, (2) child sexual abuse, and (3) child pornography. An emphasis is placed on typologies, which emphasize the heterogeneity that exists among sex offenders. Attention is also given to specialized groups of sex offenders: (1) juvenile sex offenders, (2) female sex offenders, and (3) those who sexually abuse in the context of an institution (school, church, daycare, etc.). Recent trends in investigation strategies, assessment tools, treatment approaches, and legal responses are reviewed and discussed. Students have the opportunity to explore problems with current trends and discuss related issues. Emphasis is placed on critical research disputing commonly held myths regarding this population of offenders.
**Prerequisite:** CJ 110

## CJ 450, Forensic Psychology for Criminal Justice Professionals, 3 Units

This course provides an in-depth introduction to the science of psychology applied to the criminal justice system. Students explore the psychological principles related to eyewitness testimony, lineups, police interrogations, jury decision making, competence, insanity, and future dangerousness. Special emphasis is given to current research findings in forensic psychology.
**Prerequisite:** CJ 110

# CJ 460, Criminal Justice Internship, 3 Units

The purpose of the internship program is to provide advanced student majors with practical experience working in the field of criminology and criminal justice. Classroom time focuses on processing your learning in the field, addressing any questions, challenges or concerns regarding the experience, and facilitating thinking about professional and graduate work in related fields. As such, classroom time is spent in a small group facilitated discussion format. Students in this course will apply their learning experience practically within a criminal justice professional setting. Class assignments will assist students in looking at different professional experiences from the lens of multiple criminal justice professionals (e.g. law enforcement officers, prosecutors/defense attorneys, probation officers, etc.). Additionally, this allows students to make contact with professionals who might later serve as references or points of contact, and it also allows students to gain actual experience which can be included on a resume or job application. *Meets the General Education Requirement: Integrative and Applied Learning.*
**Prerequisite:** Criminal Justice Majors Junior or Senior status.

# CJ 494, Senior Capstone in Criminal Justice, 3 Units

This course gives students experience working in the field of criminology and criminal justice. Classroom time focuses on processing students' field learning; addressing questions, challenges, or concerns regarding their experiences; and facilitating thinking about professional and graduate work in related fields. Class assignments help students view professional experiences through the lenses of multiple criminal justice professionals (e.g., law enforcement officers, prosecutors/defense attorneys, probation officers, etc.). Students also network with criminal justice professionals, and participate in seminar-style lectures about how to succeed in criminal justice organizations and beyond. *Meets the General Education Requirement: Integrative and Applied Learning.*
**Prerequisite:** CJ 310, CJ 340, CJ 350, and a minimum of 90 units.

# CJ 495, Special Topics in Criminal Justice, 3 Units

This course addresses topics of current interest in criminal justice not covered by the core and elective courses. Topics vary from semester to semester and may reflect new issues in the criminal justice system, theories, or faculty research interests in the field. This course may be taken more than once as topics change.
**Prerequisite:** CJ 110

# CJ 496, Writing 3: Senior Capstone in Criminal Justice, 3 Units

This course provides students an opportunity to combine their learning experience from multiple courses in criminal justice into a research project that demonstrates their learning. This course will focus on writing instruction for students entering criminal justice professions. Students will expound on a contemporary issue in criminal justice and present their findings to professionals in the criminal justice field. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*
**Prerequisite:** WRIT 262 (Writing 2) and a minimum of 90 units

# PRCJ 110, Intro to Criminal Justice, 3 Units

This course provides an overview of the field of criminology/criminal justice as an academic discipline involving the scientific study of theoretical perspectives on crime and justice. Students consider the respective roles of law, rehabilitation, public health, morality, and justice in the study of why crime occurs, how society responds to crime, and the scientific methods criminologists use to measure the extent of crime. The people who commit crime, the crimes they commit, and society's response to those actions cannot be fully understood outside the context of the larger criminal justice system, how it operates, the differential treatment of certain racial/ethnic groups, and the system's necessity in society, and these issues are discussed throughout this course. *Meets the General Education Requirement: Social Science.*

# PRCJ 200, Criminal Justice, Civic Engagement, and Social Responsibility, 3 Units

This course provides an experiential introduction to the criminal justice system, preparing students to address important 21st-century issues of ethics, justice, and poor relations between criminal justice professionals and community members. Students are introduced to types of civic engagement in a democracy as it relates to the criminal justice system, and organize community forums to address issues in policing, the courts, and the reintegration of offenders into the community. *Meets the General Education Requirement: Civic Knowledge and Engagement.*

# PRCJ 220, Police and Society, 3 Units

This course introduces students to the history of policing and examines major trends in contemporary law enforcement. By comparing community policing, problem-oriented policing, evidence-based policing, and other types, students identify the legal framework of policing and administration of police work. This course also includes an in-depth examination of police behavior, police discretion, and societal attitudes toward law enforcement.

# PRCJ 240, Introduction to Corrections: Jails and Prisons, 3 Units

Prisons are total institutions that exert control over inmates' daily lives, and this course provides an in-depth introduction to the historical evolution and current state of incarceration and detention in the United States. By focusing on the theories and ideologies informing punitive practices, the goals of deterrence, rehabilitation, and incapacitation are explored. Students take a critical look at life in prison, exploring how incarceration affects inmates and the potential consequences for society. Special emphasis is given to current controversies in jail and prison policy, such as overcrowding and violence.

# PRCJ 250, Juvenile Justice, 3 Units

This course familiarizes students with the juvenile justice system, including types of delinquency, causes of delinquency (why a minor would engage in delinquent behavior), gang culture, social problems contributing to delinquency, law enforcement agencies that address delinquency, court proceedings, and court orders. Course material also addresses interventions that can be utilized with children who engage in delinquency, and prevention programs that reduce the risk factors contributing to delinquency.

## PRCJ 251, Criminal Law, 3 Units

This course introduces students to the concepts of criminal law, including history and development, constitutional limitations on crimes and punishment, principles of criminal liability, criminal defenses, inchoate crimes, and elements of crimes against persons, property, and habitation.

## PRCJ 255, The Criminalization of Youth, 3 Units

This course explores the criminalization of youth and its effects in today's society. The criminalization of youth refers to the myriad ways in which youth in the U.S. are ignored, mistreated, or otherwise excluded and incarcerated by society long before they are sentenced to time behind bars. The study of the criminalization of youth seeks to investigate U.S. systems and structures that treat young people like criminals, police their bodies, and hold young people accountable for larger systemic and institutional failures. The course begins with an investigation of the overpolicing of young people, especially young people of color, in communities and schools. Then, by examining these issues, students search for possible alternatives to the criminalization of youth.
**Prerequisite:** PRCJ 250

## PRCJ 280, The American Court System, 3 Units

Students in this course analyze the structure, process, and personnel involved in the American court system. By examining state and federal courts, students discover the relationship between the judiciary and other criminal justice functions. Special emphasis is given to current court reform programs and the role of technology in the courtroom.

## PRCJ 310, Criminological Theories, 3 Units

Students in this course identify different perspectives on crime causation and critically assess why people commit crimes. Course material includes the ideas, worldviews, and theories common to criminal justice professions regarding criminal motivation, what is considered a criminal act, how those acts should be handled, and the role of professionals in the criminal justice system.

## PRCJ 340, Victimology, 3 Units

This course provides advanced study and critical appraisal of the theories and recent research on victims of crime. This analysis focuses on the physical, emotional, and financial harm people suffer because of criminal activities, and the role of the victim in the criminal justice system. By exploring the relationships between the offender, the victim, and the criminal justice system, students gain a greater understanding of the frequently forgotten victims of crime. Course material also covers the programs and policies that have resulted from society's increasing concern about the rights of victims.

## PRCJ 350, Race, Ethnicity, and Crime, 3 Units

Race, ethnicity, socioeconomic class, gender, and age are critical factors in the administration of criminal justice in the United States. Students in this course critically examine race, ethnicity, and socioeconomic class within the U.S. criminal justice system as they explore the experiences of different racial and ethnic groups with different facets of the criminal justice system (e.g., policing, juvenile justice, sentencing, courts, etc.). Course material also introduces theories about the treatment of the poor compared to that of the nonpoor in criminal offending, and students examine theoretical issues of race and justice. Empirical understandings of the relationship between race, class, and gender and the criminal justice system are also discussed.
**Prerequisite:** PRCJ 220, PRCJ 240, PRCJ 280

## PRCJ 351, Criminal Procedure, 3 Units

Students in this course study specific criminal procedural concepts, such as the right to counsel, exclusionary rule, search warrants, permissible warrantless searches, stop and frisk, entrapment, wiretapping, confessions, lineups, jury selection, voir dire, negotiated pleas, and postconviction relief.
**Prerequisite:** PRCJ 110 or instructor consent.

## PRCJ 355, Gender and Crime, 3 Units

Students in this course explore the intersection between gender (with special focus on women) and crime. Topics include gender differences in offending, theoretical explanations for female offending, the social construction of offending, women as victims of crime and violence, the sexualization and criminalization of women's bodies, women's experiences with prison and the criminal justice system, and women working in criminal justice fields.

## PRCJ 362, Writing 3: Criminal Justice Research Design, 3 Units

The course focuses on the nature, purpose, and value of doing and communicating research in the field of criminal justice. Material builds on students' understanding of research methods (as learned in PRWR 262) and focuses on teaching students basic concepts and tools for designing a research project, collecting and analyzing data, and writing for an academic and professional audience. Students develop and conduct a methodologically sound empirical research project and craft a well-written scholarly research paper that communicates their research and findings. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*
**Prerequisite:** PRWR 262

## PRCJ 395, Sex Crimes, 3 Units

This course focuses on sex crimes, sex offenders, the criminal justice system response, and policy, and begins with an overview of the types of sex crimes that occur and their prevalence. Criminological theories and theories specific to sex offending are identified. Three broad types of sex crimes are assessed: (1) rape, (2) child sexual abuse, and (3) child pornography. An emphasis is placed on typologies, which emphasize the heterogeneity that exists among sex offenders. Attention is also given to specialized groups of sex offenders: (1) juvenile sex offenders, (2) female sex offenders, and (3) those who sexually abuse in the context of an institution (school, church, daycare, etc.). Recent trends in investigation strategies, assessment tools, treatment approaches, and legal responses are reviewed and discussed. Students have the opportunity to explore problems with current trends and discuss related issues. Emphasis is placed on critical research disputing commonly held myths regarding this population of offenders.

## PRCJ 450, Forensic Psychology for Criminal Justice Professionals, 3 Units

This course provides an in-depth introduction to the science of psychology applied to the criminal justice system. Students explore the psychological principles related to eyewitness testimony, lineups, police interrogations, jury decision making, competence, insanity, and future dangerousness. Special emphasis is given to current research findings in forensic psychology.

## PRCJ 460, Criminal Justice Internship, 3 Units

The internship program allows students to apply their learning and gain work experience within a professional criminal justice setting. Assignments help students view professional experiences through the lenses of multiple criminal justice professionals (e.g., law enforcement officers, prosecutors, defense attorneys, probation officers, etc.), and allow students to network with professionals and gain experience for inclusion on resumes and job applications. Classroom time is spent in small groups with facilitated discussions, and focuses on processing learning in the field; addressing questions, challenges, or concerns regarding the experience; and encouraging thinking about professional and graduate work in related fields. *Meets the General Education Requirement: Integrative and Applied Learning.*

## PRCJ 494, Senior Capstone in Criminal Justice, 3 Units

This course gives students experience working in the field of criminology and criminal justice. Classroom time focuses on processing students' field learning; addressing questions, challenges, or concerns regarding their experience; and facilitating thinking about professional and graduate work in related fields. Class assignments help students view professional experiences through the lenses of multiple criminal justice professionals (e.g., law enforcement officers, prosecutors/defense attorneys, probation officers, etc.). Students also network with criminal justice professionals, and participate in seminar-style lectures about how to succeed in criminal justice organizations and beyond. *Meets the General Education Requirement: Integrative and Applied Learning.*
**Prerequisite:** PRWR 262

## PRCJ 495, Special Topics in Criminal Justice, 3 Units

This course addresses topics of current interest in criminal justice not covered by core and elective courses. Topics vary by semester and may reflect new issues in the criminal justice system, theories, or faculty research interests in the field. This course may be taken more than once, as topics change.

## PRCJ 496, Writing 3: Senior Capstone in Criminal Justice, 3 Units

This course provides students an opportunity to combine their learning experience from multiple courses in criminal justice into a research project that demonstrates their learning. This course will focus on writing instruction for students entering criminal justice professions. Students will expound on a contemporary issue in criminal justice and present their findings to professionals in the criminal justice field. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*
**Prerequisite:** PRWR 262 (Writing 2) and a minimum of 90 units

## POLI 250, Introduction to Criminal Law, 3 Units

This course introduces students to the concepts of criminal law, including history and development, constitutional limitations on crimes and punishment, principles of criminal liability, criminal defenses, inchoate crimes, and elements of crimes against persons, property, and habitation.

## POLI 350, Constitutional Law: Fundamental Freedoms, 3 Units

This course analyzes U.S. Supreme Court decisions related to constitutional civil rights and liberties found in the Bill of Rights and 14th Amendment, including freedoms of speech, press, religion, assembly; the right to bear arms; due process and equal protection; and political rights related to representation, voting, and naturalization.
**Prerequisite:** POLI 150 or instructor consent

## POLI 351, Constitutional Law: Criminal Justice, 3 Units

The course analyzes U.S. Supreme Court decisions related to the constitutional protections offered to criminal defendants found in the Bill of Rights and 14th Amendment, including the right to be free from unreasonable searches and seizures, the privilege against self-incrimination, the right to counsel, the right to a jury trial, the protection against excessive bail and cruel and unusual punishment, and other due process guarantees.
**Prerequisite:** POLI 150 or instructor consent

## POLI 380, Terrorism and Counterterrorism, 3 Units

This course considers the sources, history, and motivations behind terrorism, the tools and tactics employed by terrorists, and terrorist organizations' political objectives, with emphasis on recent and current terrorism. Students also consider the phenomenon of state terrorism, the theory and practice of counterterrorism, and the variety of Christian responses to terrorism.
**Prerequisite:** POLI 150 or POLI 160

## SOCW 410, Family Violence, 3 Units

Family violence is an in-depth study from a system's perspective of violence that occurs in families. This course provides an overview of child abuse, spousal abuse, abuse between intimate partners, and elder abuse. The course explores the theory and research as to the causes of abuse, including individual and family factors, elder abuse, gender issues, community and societal influences, and cultural factors. This course explores the policy and programs developed to deal with these crises. Finally, methods of assessment and intervention are investigated as applicable to both professional and personal situations.
**Prerequisite:** Junior or Senior standing or instructor consent

# BA in Criminal Justice

51 units

A minimum 2.0 grade-point average is required in all major courses, and students must pass all required courses with a *C* or higher. Students must earn at least 50% of major course credits at Azusa Pacific University to graduate with a degree in criminal justice. No more than 50% of required criminal justice courses can be lower-division.

No more than 10 percent of the criminal justice major (https://www.apu.edu/bas/programs/criminal-justice-major/) credits may be completed through knowledge-based examinations (e.g., CLEP). All credit earned through examination will be clearly documented on the student's official transcript by specific course designations and numbers, including the source of the credit. Awarding blanket credit for criminal justice courses in a "block" is not allowed (e.g., "12 hours criminal justice credit").

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate comprehension of traditional and contemporary criminology theories.
2. Critique how major components of the criminal justice system respond to crime, criminals, and victims from theoretical and practical perspectives.
3. Employ data and methods of social science research to respond to contemporary criminal justice issues.
4. Illustrate ways in which race and ethnicity are linked to differential justice within criminal justice systems.
5. Students will be able to apply relevant Christian principles to the delivery of justice within the Criminal Justice system.

# BA in Criminal Justice (Bachelor's Completion Program)

51 units

Azusa Pacific's bachelor's completion program in criminal justice (https://www.apu.edu/bas/programs/criminal-justice-bachelors-completion/) is designed for transfer students who have at least 15 units and are interested in completing a Bachelor of Arts in Criminal Justice at the Inland Empire Regional Campus (https://www.apu.edu/inland/) or online. Students gain hands-on field experience as they learn about the criminal justice system, preparing them to make a difference in the lives of others.

Azusa Pacific's bachelor's completion programs allow students who began a program of study at another higher education institution to finish their degree at APU. In order to graduate, students must complete the required program units and General Education (p. 915) units, for a minimum total of 120 units.

No more than 10 percent of the criminal justice major credits may be completed through knowledge-based examinations (e.g., CLEP). All credit earned through examination must be clearly documented on the student's official transcript by specific course designations and numbers, including the source of the credit. Awarding blanket credit for criminal justice courses in a "block" is not allowed (e.g., "12 hours criminal justice credit").

| **Total Units** | **21** |

1   Only 3 lower-division units may be used to satisfy elective requirements.
2   Meets the General Education Civic Knowledge and Engagement requirement.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Explain how major components of the criminal justice system (police, courts, and corrections), respond to crime, criminals, and victims.
2. Demonstrate comprehension of traditional and contemporary criminal justice theories.

# Department of Higher Education

## Mission Statement

The Department of Higher Education (https://www.apu.edu/bas/highered/) focuses on preparing the next generation of leaders, scholars, faculty, and student development professionals who will shape colleges and universities across the globe. Together, we strive to be a community of scholars and disciples who make a difference in the world.

## Contact

- Learn more about our programs on our website (https://www.apu.edu/bas/highered/programs/).
- Email: doctoralhighered@apu.edu
- Phone: (626) 815-5349

## Accreditation

- All APU programs in higher education are accredited by the WASC Senior College and University Commission (WSCUC) (https://www.wscuc.org).

## Programs

- Master of Science in College Counseling and Student Development (p. 377)
- Doctoral Programs in Higher Education (p. 373)
    - Doctor of Philosophy (PhD) in Higher Education (p. 380)
    - Doctor of Education (EdD) in Higher Education Leadership (p. 375)
- Doctoral-Level Certificate in Strengths-Oriented Higher Education (p. 374)

## Courses

### CCSD 543, Legal and Ethical Issues in College Student Affairs, 3 Units

This course provides an examination of the major legal and ethical issues confronting contemporary student affairs professionals. Emphasis is placed on federal regulations and mandates, constitutional issues, tort liability, contractual relationships, distinctions between public and private sector institutions of higher education, and ethical standards of the student affairs profession.

### CCSD 551, Introduction to College Student Affairs, 3 Units

An introduction to and overview of the field of college student affairs is offered with emphasis upon its historical and philosophical foundation, its basic documents, and its primary objectives within American colleges and universities. Students survey and analyze the typical programs and services which the college student affairs field delivers within American colleges and universities.

### CCSD 552, The Process Of Adult Development, 3 Units

Students study and critique selected human development theories relevant to the process of being and becoming an adult. An overview of models for translating theory to practice and assessment techniques to be applied to individuals, groups, and the environment is provided.

## CCSD 553, Administration in College Student Affairs, 3 Units
Strategies, techniques, and issues related to the organization and administration of college student affairs' functions and divisions are stressed. Organizational structure, staff selection, training, supervision, budgeting, planning, policy development, and leadership as well as program implementation and evaluation are addressed.

## CCSD 562, Qualitative Research with Today's Diverse College Students, 3 Units
Students are provided with a review and analysis of the ecology of college students in contemporary American higher education. Student characteristics, subcultures, values, beliefs, lifestyles, and other critical variables are examined in relation to qualitative assessment methods and policy/program implications.

## CCSD 563, Counseling: The Helping Relationship, 3 Units
This course includes an introduction to and overview of various theoretical approaches to the helping relationship and an examination of helping techniques with culturally diverse populations as applied through advising, crisis intervention, and consultation roles. Behavior development and change as an interpersonal process is addressed. Practice in role-playing situations involving various helping and human relations skills is included.

## CCSD 567, The Role of Diversity in Student Affairs Practice, 3 Units
This course introduces the attitudes, beliefs, values, skills, knowledge, and self-awareness necessary for student affairs professionals to serve diverse student populations.

## CCSD 568, Inclusive Diversity Practices in Student Affairs, 3 Units
This course helps students develop professional skills and practices in designing culturally sensitive and appropriate interventions for any campus setting in the context of higher education. Students taking this course should already have a solid awareness and knowledge of the theoretical bases and content of social justice, privilege, and marginalized groups within higher education. Learning is targeted at experiential activities that provide opportunities to practice multicultural skills. Based on Pope and Reynolds (1997), multicultural skills allow for effective and meaningful interactions with people who differ culturally. Skill is based on awareness and knowledge to bring about appropriate, effective change in multicultural situations. Students receive feedback as they develop these skills, with specific attention paid to: 1) frameworks of social justice and ally ship, including social justice as a Christian tradition; 2) involvement with the unique experiences of marginalized social groups of college students; and 3) examining critical dimensions of the design and delivery of multicultural education programs. The pedagogy employed in this course draws heavily on critical self-reflection to explore how students' multicultural skills shape interventions related to inclusive diversity practices on a college campus.
**Prerequisite:** CCSD 567

## CCSD 571, Student Learning in the Cocurriculum, 3 Units
Students are exposed to a dual study of theory and research pertaining to student learning as it occurs outside the classroom in the higher education setting. The course focuses on strengths for creating seamless learning experiences that extend beyond those offered in the formal curriculum, partnering with faculty members, and creating conditions that effectively engage students in educationally purposeful activities.

## CCSD 573, Career Counseling and Development, 3 Units
This course provides a comprehensive review of career theory, as well as resources and techniques utilized in assisting individuals to make informed educational and career choices. An exploration of changing concepts of work and careers and their implications for career counseling are emphasized. A focus on the relationship of career to other issues of counseling and development is addressed.

## CCSD 575, Quantitative Analysis in College Student Affairs, 3 Units
Students explore the basic elements of descriptive and inferential statistics, and use a statistical software package to develop computer skills necessary for quantitative analysis. The application of data analysis to student affairs practice is emphasized. It is strongly recommended that students complete this course prior to enrolling in CCSD 592 Program Evaluation in College Student Affairs.

## CCSD 581, Foundations of Higher Education, 3 Units
Students explore and analyze the various purposes served by American colleges and universities and the principal policy questions currently confronting these institutions. Classic works and events that have influenced professional thought, public opinion, and policy related to higher education are addressed.

## CCSD 583, Counseling Issues and Practice, 3 Units
Conflict, crisis, and dysfunctional behavior on the college campus are examined. Specific attention is given to the key issues relevant to student populations, including prejudice, substance abuse, suicide, and eating disorders. An opportunity for the development of skills applicable to college student affairs roles is provided through laboratory experience/practice.

## CCSD 592, Program Evaluation in College Student Affairs, 3 Units
This course provides an introduction to basic concepts, principles, and methods of evaluation and research in the social sciences. Problem identification, research/program design, instrument development, data collection techniques, fundamental statistical tests, cost/benefit analyses, and interpretation of findings are addressed. Critical analysis of relevant literature is emphasized.

## CCSD 595, Capstone Project in College Student Affairs, 3 Units
This course supports students in completing their professional portfolio which contains evidence of the 12 competencies upon which the program is built.

## CCSD 595A, Capstone Project in College Student Affairs, 2 Units

This course supports students in completing their professional portfolio which contains evidence of the 12 competencies upon which the program is built.

## CCSD 595B, Capstone Project in CSA, 1 Unit

This course supports students in completing their professional portfolio which contains evidence of the 12 competencies upon which the program is built.

## CCSD 598, Special Topics, 3 Units

This course examines in depth a topic of current interest or need. Students analyze and evaluate topics/issues to reach and express a position, provide training for a particular population, or enhance personal development. If students elect this course more than once during their program, each course must address a different topic.

## CCSD 599, Readings in College Student Affairs, 3 Units

This course is an independent study vehicle through which students and their sponsoring faculty members may pursue approved investigations beyond those provided within regular course offerings.

## HED 550, Asian Americans in Higher Education, 3 Units

Students in this course explore the history and experiences of Asian Americans, particularly the factors that influenced immigration patterns to the U.S., cultural contributions of Asian Americans, and issues encountered by Asian Americans due to racism and/or ignorance. Sociopolitical and economic factors that influence the experiences of Asian Americans are also examined. Asian American groups come to the U.S. from cultures rich in tradition and have struggled against many obstacles to contribute much to the fabric of American life. Unfortunately, these contributions and struggles, as well as the obstacles, are too often forgotten, ignored, or unheard. This course tells that story through the systematic analytical lens of sociological inquiry.

## HED 701, Strengths-Oriented Leadership, 4 Units

This course is a critical analysis of leadership theory and practice with an emphasis on how awareness and application of a strengths philosophy can increase leadership effectiveness. Using group discussions, research papers, and individual reflection, students develop and evaluate theoretical principles of leadership development and develop a personal approach to creating institutional change.

## HED 702, The Nature of Inquiry, 4 Units

This course introduces beginning doctoral students to the methods, theoretical perspectives, and epistemologies associated with various approaches to the research process. Students examine the nature of doctoral study, begin their own scholarly inquiry and synthesis process in higher education leadership, and identify potential areas for future research.

## HED 703, Critical Issues in Higher Education, 4 Units

This foundational course will introduce students to an array of critical issues facing U.S. higher education. Areas of focus will include the formative influences that led to the diversification of American higher education as well as current and emerging issues and trends related to the purposes, governance, funding, and delivery of postsecondary education. These topics will be explored through a lens of ethics and social justice and framed around the potentially-competing priorities of affordability, accessibility/equity, and academic quality.

## HED 704, Ethical Issues in Higher Education, 2 Units

Ethics is the study of what should be and what ought to be, rather than what is. In this course, ethical dilemmas encountered by students in their leadership roles are explored using case study research methodologies, and evaluated in terms of value claims, propositions, and beliefs of contemporary philosophical and theological perspectives. Personal ethics are studied in terms of integrity in pursuing one's own sense of destiny and calling in the leadership roles assumed.

## HED 705, Student Access, Equity, and Success in College, 4 Units

This course examines the impact of the college student experience, beginning with the college choice process and culminating with graduation and lifetime impact. Student development theories, theories and models of student change in college, student retention theories, and strategies for defining and measuring student success and institutional effectiveness are emphasized. Policies, programs, and best practices that enhance student learning, success, and persistence are explored.

## HED 710, Research Design and Statistics, 4 Units

This course integrates statistical procedures with quantitative research methodologies in a practical setting that emphasizes conducting the research and statistical analyses within the context of higher education. Students learn to write a proposal for an Institutional Review Board, analyze and critique published research, and design, implement, analyze, and report results from a quantitative research study. Use of SPSS statistical software is also emphasized.

## HED 711, Qualitative Research Methods, 4 Units

Students are introduced to the perspectives, purposes, designs, analysis, interpretation, and reporting of qualitative research in the field of education. Ethnography, case study, grounded theory, action research, and qualitative evaluation studies are among the designs examined. The data collection methods of observation, interviewing, and document analysis and the skills of data management, analysis, and interpretation are studied and practiced.

## HED 721, Diversity and Social Justice in Higher Education, 4 Units

This course examines the social ecology of higher educational institutions through a lens of justice and equity. Focus is on research as it informs policy and practice within post-secondary institutions, and how higher education is shaped by sociopolitical forces, cultural norms, and voices from its margins.

## HED 722, Global Policy Analysis in Higher Education, 4 Units

This course offers a unique opportunity to examine postsecondary policies at the institutional, local, state, national, regional, and international level with a special focus on social justice. Global policy students will examine core policy principles, the culture of higher education, and critical theory. The course includes a site visit to an international location for an opportunity to deeply reflect on issues of policy and justice from a Christian perspective. The examination of policies will include those that lead to justice-oriented change as well as policies that result in greater inequality.

## HED 724, Teaching, Learning, and Assessment in Higher Education, 4 Units

This course will explore the higher education teaching-learning experience and the role of assessment at the individual, course, program, and university levels. Emphasis will be placed on curriculum design, identification of student learning outcomes, effective teaching methodologies, course development and delivery, outcomes assessment, and developing a learning ethos within the university.

## HED 725, Administration in Higher Education, 4 Units

Offered each July and required of all Ed.D. and Ph.D. students in the Organizational Leadership concentration. This course serves as one of the foundational courses in the higher education leadership doctoral program. Focused on educating emerging leaders in the field, the course gives students an appreciation for the challenges of approaching institutional decision making from the various perspectives represented on the president's cabinet. Various organizational models are also presented as frameworks for understanding the complex organizational cultures typically found in college and university settings.

## HED 730, Advanced Quantitative Methods, 4 Units

This course is for Ph.D. students who plan to write a quantitative dissertation. The course content introduces more advanced quantitative methods and statistical concepts, such as multivariate analysis of variance and covariance, factorial analysis of variance, structural equation modeling, exploratory and confirmatory factor analysis, discriminant analysis, and logistic regression. Experimental and quasi-experimental research designs are emphasized, along with computer applications with SPSS and AMOS software.

## HED 731, Advanced Qualitative Research, 4 Units

This course is required of Ph.D. students who plan to write a qualitative dissertation. In this advanced seminar on qualitative research, the focus is on data collection and analysis approaches representing the major qualitative methodologies. Each qualitative methodology leads to particular ways of gathering, analyzing, and presenting data, which will be explored through primary source readings. The course culminates in a comparative methodologies paper or pilot research project.

## HED 732, Leading Change in Higher Education, 4 Units

This course examines leadership, organizational development, and change theories, with particular application to the contemporary public and private higher educational environment and to university governance. Emphasis is on the leadership role as change agent within organizations. Theoretical as well as practical perspectives relative to the nature of leadership are incorporated. The concepts of communication, motivation, delegation, creativity, conflict, and change are incorporated throughout the course. Students have the opportunity to diagnose organizational needs, identify challenges, and produce effective solutions for interpersonal, structural, and organizational problems experienced within the higher education environment.

## HED 760, Research Seminar, 1-2 Units

This research seminar exposes doctoral candidates to the creation, implementation, and dissemination of a focused research agenda based on the area of specializations of the core faculty. The seminar focuses on reading and evaluating educational research, collecting and analyzing qualitative or quantitative data, and engaging in collaborative research. This course is required of all Ph.D. students beginning their second year of the program and requires attendance at team meetings each semester. Students take 1-2 units per semester for a total of 4-6 units.

## HED 761, Strengths-Oriented Research and Programming, 2 Units

This course provides students with the opportunity to design, implement, and assess strengths-oriented programs for college students. A culminating project is the hallmark of the course, with an emphasis on either the design of a strengths-oriented program or the assessment of the effectiveness of strengths-oriented interventions.

## HED 791, Dissertation Proposal I, 1 Unit

Students identify a research topic and develop a dissertation proposal(the first three chapters of the dissertation). Steps include identifying a significant problem in higher education, conducting a literature search, writing a literature review, selecting a research methodology, and selecting appropriate qualitative and statistical tools.

## HED 792, Dissertation Proposal II, 1 Unit

Students continue writing their dissertation proposal (the first three chapters of the dissertation). The focus in this course is on selecting a research methodology and selecting appropriate qualitative and statistical tools. Ph.D. students must pass all comprehensive exams before defending their proposal.

## HED 794, Dissertation Research I, 2-3 Units

This course is offered each term and is required of all students in the dissertation phase. Students work with their dissertation committee in conducting a doctoral-level research project, enrolling for 2-3 units of credit in this course their first semester of dissertation research, then enrolling in HED 795 Dissertation Research II continuously in subsequent semesters until the dissertation is complete.

## HED 795, Dissertation Research II, 2-3 Units

In this course, offered each term and required of all students in the dissertation phase, students work with their dissertation committee in conducting a doctoral-level research project in higher education. After enrolling in HED 794 for one semester, students enroll for 2-3 units of dissertation credit in this course and must re-enroll each semester from the time their proposal is approved until the dissertation is completed.

## HED 796, Dissertation Proposal Seminar, 3 Units

Students in this course identify a research topic and develop a dissertation proposal. Steps include articulating a significant problem in higher education that can be researched, conducting a literature search and writing a literature review, selecting a research methodology to appropriately implement, and completing the first three chapters of the dissertation. The course is graded CR/NC based on the student submitting written material to their dissertation chair, and is repeated until the dissertation proposal is successfully defended. Students must pass all comprehensive exams prior to defending their dissertation proposal.

## HED 797, Dissertation Research, 3 Units

This course is offered each term and is required of all students who have successfully defended their dissertation proposal. Students work with their dissertation committee in conducting a doctoral-level research project in higher education. Students enroll for 3 units of dissertation credit each semester until they defend their final dissertation.

## HED 798, Special Topics, 1-4 Units

Offered upon faculty request. In this course, a subject of current interest is examined in depth. Students analyze and evaluate controversial issues to reach and express a reflective position. Students may repeat the course for credit up to a maximum of 6 units. Each course must address a different topic.

## HED 799, Readings in Higher Education, 1-4 Units

Offered as Independent Study with approval of department chair. Students enroll in this course to pursue independent study investigating subjects and interests that lie beyond regular course offerings. The student explores topics in greater depth than in other courses and/or initiates an individual project. Readings are pursued in accordance with a study plan, which is developed in consultation with a sponsoring faculty member and approved by the department chair.

## HEDL 709, The Philosophy of Action Research, 4 Units

This course offers students an opportunity to begin exploring all aspects of doctoral study. Students learn about various approaches to research, with an emphasis on action research, while also exploring their roles as change agents and examining how their actions as leaders influence people, systems, and themselves. They are given the opportunity to enhance their skills in locating and evaluating the literature of the field, explore scholarly writing, and identify possible dissertation topics.

## HEDL 715, Qualitative Methods in Action Research, 3 Units

Students in this course analyze models of action research while developing specific strategies for using the action research model in their professional practice. Assessment strategies focus on qualitative approaches.

## HEDL 716, Survey Methods and Quantitative Analysis, 3 Units

In this course, students are introduced to the principles of good survey design and the quantitative procedures that are most useful in analyzing survey research data. Students explore the application of survey methods and quantitative analysis to their work as action researchers and change agents within higher education settings.

## HEDL 720, Campus Ecology and Creating Spaces for Thriving, 3 Units

This course examines how higher education institutions can create actual and virtual spaces that more effectively promote student thriving, sustainability, and community. Innovative architectural designs are identified and evaluated, and students have the opportunity to design, or redesign, a "thriving space" for a college campus.

## HEDL 723, Higher Education Law and Policy, 3 Units

Students in this course examine the historical, contextual, and theoretical aspects of higher education law and policy as they affect students, faculty members, administrators, and organizational systems. Course material also involves the analysis of contemporary legal and policy issues confronting public and private higher education in the United States.

## HEDL 729, The Spirituality of Leadership, 3 Units

This course examines the spiritual dimensions of leadership by exploring vocation, calling, and thriving. Students examine how the Christian faith informs leadership development and practice, but also investigate the spirituality of leadership across other traditions and perspectives.

## HEDL 733, The Changing Worlds of Higher Education, 4 Units

Students will explore the rapidly changing nature of higher education in the United States and around the world. The problems facing higher education, in all its forms, will be examined as will emerging innovative models and structures. Participation in an international travel experience is a requirement of this course.

## HEDL 740, Critical Issues in Higher Education, 3 Units

This foundational course introduces students to an array of critical issues facing U.S. higher education. Areas of focus include the formative influences that led to the diversification of American higher education, as well as current and emerging issues and trends related to the purposes, governance, funding, and delivery of postsecondary education. These topics are explored through a lens of ethics and social justice and framed around the potentially competing priorities of affordability, accessibility/equity, and academic quality.

## HEDL 741, Strengths-Oriented Leadership, 3 Units

This course is a critical analysis of leadership theory and practice, with an emphasis on how awareness and application of a strengths philosophy can increase leadership effectiveness. Using group discussions, research papers, and individual reflection, students develop and evaluate theoretical principles of leadership development and develop a personal approach to creating institutional change.

## HEDL 742, Student Access, Equity, and Success in College, 3 Units

This course examines the impact of the college student experience, beginning with the college choice process and culminating with graduation and lifetime impact. Student development theories, theories and models of student change in college, student retention theories, and strategies for defining and measuring student success and institutional effectiveness are emphasized. Policies, programs, and best practices that enhance student learning, success, and persistence are explored.

## HEDL 743, Diversity and Social Justice in Higher Education, 3 Units

This course examines the social ecology of higher educational institutions through a lens of justice and equity. Focus is on research as it informs policy and practice within postsecondary institutions, and how higher education is shaped by sociopolitical forces, cultural norms, and voices from its margins.

## HEDL 744, Administration in Higher Education, 4 Units

This course gives students an appreciation for the challenges of approaching institutional decision making from the various perspectives represented on the president's cabinet. Various organizational models are also presented as frameworks for understanding the complex organizational cultures typically found in college and university settings.

## HEDL 745, Leading Change in Higher Education, 3 Units

This course covers leadership, organizational development, and change theories, with particular application to the contemporary public and private higher educational environment and to university governance. Emphasis is on the leadership role as change agent within organizations. Theoretical as well as practical perspectives relative to the nature of leadership are incorporated, and the concepts of communication, motivation, delegation, creativity, conflict, and change are incorporated throughout the course. Students have the opportunity to diagnose organizational needs, identify challenges, and produce effective solutions for interpersonal, structural, and organizational problems experienced within the higher education environment.
**Prerequisite:** HEDL 785

## HEDL 748, Guided Inquiry Project I, 1 Unit

In this introductory course, students explore a potential topic for their action research dissertation, focusing on conceptualizing an area of concern and developing a problem statement around that area of concern.

## HEDL 749, Guided Inquiry Project II, 1 Unit

In this course, Ed.D. students continue to work on steps toward the dissertation begun in HEDL 748, identifying the innovation they intend to introduce, and outlining the research design that will be used to gather evidence regarding the impact of the innovation.
**Prerequisite:** HEDL 748

## HEDL 785, Dissertation Proposal, 1 Unit

Students complete the first three chapters of the action research dissertation. Successful completion of these three chapters is a prerequisite for continuing coursework in the final two semesters of the program.

## HEDL 787, Dissertation Seminar, 2 Units

In this course, students complete work on chapter 4 of their dissertation by gathering and analyzing data and presenting the findings from their research. Students also complete chapter 5.
**Prerequisite:** HEDL 785

## HEDL 789, Dissertation Research, 3-4 Units

In this course, students successfully defend their research with their dissertation committee.

## HEDL 799, Readings in Higher Education Leadership, 1-4 Units

Offered as Independent Study with approval of department chair. Students enroll in this course to pursue independent study investigating subjects and interests that lie beyond regular course offerings. The student explores topics in greater depth than in other courses and/or initiates an individual project. Readings are pursued in accordance with a study plan, which is developed in consultation with a sponsoring faculty member and approved by the department chair.

# Doctoral Programs in Higher Education

**For more information: (626) 815-5349**

APU's doctoral programs in higher education produce ethical scholars and leaders who have a positive impact on student learning and social justice in higher education. The department offers the Doctor of Philosophy (PhD) in Higher Education and the Doctor of Education (EdD) in Higher Education Leadership. The PhD emphasizes research and leadership skills that make a difference in the field of higher education; the EdD emphasizes leadership development that makes a difference at the institutional level.

The doctoral programs require that the student already holds a master's degree in a field related to higher education. Because the programs are geared for higher education professionals, all students are expected to be employed in a college or university setting and to have at least five years of experience in higher education or a closely related field. Both doctoral programs employ a cohort model in which students are in residency in Azusa part time; the PhD program meets for two weeks each January and July, with students completing course assignments independently, and the EdD program meets for one week in June and one weekend (Friday/Saturday) each month except for May and August, with students completing course assignments independently. Campus intensive sessions continue to be required each term during the dissertation phase, as well.

## Mission Statement

The mission of the doctoral programs in higher education is to produce ethical scholars and leaders who have a positive impact on student learning and social justice in higher education.

## Core Values of the Doctoral Programs in Higher Education

The doctoral programs in higher education are driven by these core values:

- A Christian worldview that enables students to become "big-picture thinkers" who are people of character and integrity
- An appreciative perspective of learning and leadership that nurtures talent and encourages students to become the persons they were created to be
- A commitment to rigorous research that makes a difference in real-world settings
- A passion for social justice and a commitment to inclusion and equity that emerges from our faith
- A passion for learning and student thriving
- A commitment to mentoring doctoral students academically, personally, and spiritually

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

Students admitted to the PhD in Higher Education or the Doctoral-Level Certificate in Strengths-Oriented Higher Education programs cannot be simultaneously enrolled in any other APU program, nor can they enroll in classes outside of their program.

### Application Deadlines

For the PhD program, completed applications with all supporting documentation received by January 31 will receive priority consideration for July admission and be eligible for scholarships. The final application deadline is May 1.

For the EdD program, completed applications with all supporting documentation received by January 31 will receive priority consideration for May admission. The final application deadline is April 1.

*Note: Applications for both programs are reviewed on a rolling basis and are accepted until the new cohort has been finalized.*

### Interview

Upon invitation, doctoral applicants complete an interview with at least one member of the doctoral faculty. The purpose of the interview is to discuss career and education goals, evaluate the match of the program to the student, and ascertain, at least initially, the applicant's potential for success in the doctoral program.

### Admission Decisions

Applicants must meet department and university criteria for admission; admission to the university is the first step in the process, but it does not guarantee admission to the doctoral program.

The department reserves the right to offer provisional admission to students who fail to meet all the specified admission criteria. In such cases, program faculty specify the additional requirements necessary for full admission and the time limit for completing them. Failure to meet these requirements will result in dismissal from the program.

Upon notification of admission, applicants to either doctoral program have 30 days to confirm via email their intent to begin their doctoral studies at APU. A nonrefundable deposit of $500 is due by April 15 to secure a place in the cohort.

## Advisement

Upon admission, each student is assigned a faculty advisor. Academic advising is viewed as a collaborative relationship between the student and the faculty advisor, and the purpose of the collaboration is to enable the student to achieve maximum benefits from his or her doctoral experience. The advisor's role is to work with the student to develop a plan for timely and successful completion of the doctorate. The student should plan to meet with the advisor regularly. Once the student selects a dissertation chair, that person assumes the role of faculty advisor.

## Transferring Units from Another Doctoral Program

Students in the EdD program may transfer up to 12 units from another regionally accredited doctoral program. Students in the PhD program may transfer up to 18 units of doctoral work from another regionally accredited university. Official transcripts and course descriptions must be submitted. The department chair will determine the courses that successfully transfer.

## International Travel Requirement in Second Year

In both programs, one week of international travel is included in the required coursework during the spring term of the second year, often in late May or early June. The costs of the trip are included in tuition, except for airfare to the selected location and some meals while in country.

## Computer Requirement

Students must bring a laptop computer or tablet to campus for all coursework. The SPSS statistical software package is required of students in their research courses throughout the PhD program. The Campus Store makes arrangements to enable students to purchase computers and software at economical rates on convenient terms. Often, the required purchase of the laptop and software can be budgeted into student loans. For more information, contact the Student Financial Services (https://www.apu.edu/student-services/finances/) at (626) 815-2020.

## Residence Requirement

Students must meet a residence requirement by completing a minimum of 39 units in the EdD program or 42 units in the PhD program through APU.

## Statistical Competency

Students admitted to the PhD program are expected to have completed a master's-level course in statistics and/or research design prior to admission. Students without this level of preparation are expected to design a plan to adequately prepare for doctoral-level statistics. Students are given a take-home diagnostic exam to complete during the first year of the program, so that they are adequately prepared for the research courses that begin in the second year.

## Research Assistantships and Financial Aid

Federal Stafford loans and personal bank loans are available to all eligible graduate students through the Student Financial Services (https://www.apu.edu/student-services/finances/). Students are advised to contact the office early in the admissions process at (626) 815-2020 or ssc@apu.edu.

In addition, the department offers a limited number of research scholarships to entering PhD students by application: the Social Justice, Leadership, and Student Success scholarships. These research scholarships are offered on a competitive basis for $3,500 per year for three years of coursework for those students whose research interests and dissertation plans align with one of these priorities. Dissertation fellowships of $2,000, as well as research and teaching assistantships of varying amounts, are available to continuing students by faculty invitation. In addition, students who are employed by institutions with any level of membership in the Council for Christian Colleges & Universities receive a 10% tuition discount. Students who enter either doctoral program with another student from their same home institution that same year receive a 10% tuition discount, as well. Information will be mailed to all admitted students about the availability of scholarships and the application process for each.

# Doctoral-Level Certificate in Strengths-Oriented Higher Education

The PhD in Higher Education program offers a 10-unit Doctoral-Level Certificate in Strengths-Oriented Higher Education (https://www.apu.edu/bas/programs/strengths-certificate/). Designed for educators and leaders who wish to deepen their knowledge and application of a strengths development model to their work in higher education, the certificate consists of three courses.

## Requirements

| Code | Title | Units |
|---|---|---|
| **Opening Course** | | |
| HED 701 | Strengths-Oriented Leadership | 4 |
| **Choose from the following:** | | |
| HED 705 | Student Access, Equity, and Success in College | 4 |
| - OR - | | |
| HED 724 | Teaching, Learning, and Assessment in Higher Education | 4 |
| **Concluding Course** | | |
| HED 761 | Strengths-Oriented Research and Programming | 2 |
| **Total Units** | | **10** |

This program is offered on the Azusa campus, comprising two weeks in January and two weeks in July, and program participants join existing cohorts of doctoral students in their classes. The doctoral credits from the certificate may be transferred to any other university. Participants must have a master's degree or higher with a GPA of at least 3.0 at the graduate level to be eligible for admission to this program and must complete all certificate courses with a *B*- or above.

If you have questions about this program, email doctoralhighered@apu.edu.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

# EdD in Higher Education Leadership

## NOTE: This program is not admitting new students for the 2024-25 academic year.

**For more information: (626) 815-5584**

The Doctor of Education in Higher Education Leadership (https://www.apu.edu/bas/programs/higher-education-leadership/) is a 51-unit degree program, inclusive of dissertation. It develops professional educators and leaders who are able to apply their knowledge in order to improve educational practice primarily at the institutional level. The dissertation for the EdD is a culminating research project utilizing a three-year cycle model of action research beginning in the first year.

## Schedule

Students begin each academic year with a one-week intensive at APU in June, and also attend classes on campus one weekend (9 a.m.-5 p.m. Friday and Saturday) a month, with the exception of May and August. Students take two courses a term, and three terms per academic year, for a total of six courses (17 units) per academic year. In between campus visits, students work online to complete course assignments and communicate with faculty and fellow students. Students travel internationally during May of their second year. The coursework for that session will be the focus of the trip. All in-country costs of the trip are included in the program tuition, but students are responsible for their international airfare.

## Dissertation Courses

The dissertation process is embedded in the EdD program, as students take Guided Inquiry Project I in their first year and Guided Inquiry Project II in their second year. Each course in the program supports the development of the dissertation proposal and the final dissertation study. The dissertation proposal course begins in the third year. If students do not successfully defend their dissertation proposal in HEDL 785, they must continue to enroll in HEDL 785 each term until the proposal is successfully defended. Once students successfully defend their dissertation proposal, they enroll in HEDL 787 for one semester (3 units) and then in HEDL 789 (3 units) for each semester thereafter until the dissertation has been successfully defended. Enrollment in these courses entitles a student access to faculty and university resources, including library databases and the services of the doctoral research librarian. Continuous enrollment in dissertation courses is required until the dissertation is successfully defended. Students are considered enrolled full time from the proposal (HEDL 785) through the completion of the dissertation (HEDL 789). Students are expected to continue to come to campus each term during the dissertation phase. Credit for dissertation courses is given for completion of the stated course objectives as outlined in the syllabus. Students who do not meet the designated course outcomes will not receive credit for the course and will be required to retake the course.

## Requirements

The program requires 51 units beyond the master's degree, inclusive of dissertation; most courses are 3-4 units, with some 1-unit courses. Read the complete course descriptions for more information.

| | | Units |
|---|---|---|
| **Year I** | | |
| **Summer** | | **Units** |
| HEDL 709 | The Philosophy of Action Research | 4 |
| HEDL 748 | Guided Inquiry Project I | 1 |
| | **Units** | **5** |
| **Fall** | | |
| HEDL 740 | Critical Issues in Higher Education | 3 |
| HEDL 720 | Campus Ecology and Creating Spaces for Thriving | 3 |
| | **Units** | **6** |
| **Spring** | | |
| HEDL 741 | Strengths-Oriented Leadership | 3 |
| HEDL 729 | The Spirituality of Leadership | 3 |
| | **Units** | **6** |
| **Year II** | | |
| **Summer** | | |
| HEDL 733 | The Changing Worlds of Higher Education | 4 |
| HEDL 749 | Guided Inquiry Project II | 1 |
| | **Units** | **5** |
| **Fall** | | |
| HEDL 742 | Student Access, Equity, and Success in College | 3 |
| HEDL 716 | Survey Methods and Quantitative Analysis | 3 |
| | **Units** | **6** |
| **Spring** | | |
| HEDL 743 | Diversity and Social Justice in Higher Education | 3 |
| HEDL 715 | Qualitative Methods in Action Research | 3 |
| | **Units** | **6** |
| **Year III** | | |
| **Summer** | | |
| HEDL 744 | Administration in Higher Education | 4 |
| HEDL 785 | Dissertation Proposal | 1 |
| | **Units** | **5** |
| **Fall** | | |
| HEDL 723 | Higher Education Law and Policy | 3 |
| HEDL 745 | Leading Change in Higher Education | 3 |
| | **Units** | **6** |
| **Spring** | | |
| HEDL 787 | Dissertation Seminar | 2 |
| HEDL 789 | Dissertation Research [1] | 3-4 |
| | **Units** | **6** |
| | **Total Units** | **51** |

| Code | Title | Units |
|---|---|---|
| **Optional Course** | | |
| HEDL 799 | Readings in Higher Education Leadership [2] | 1-4 |

[1]　Students enroll for 4 units of HEDL 789 during the last semester of their third year. If they still have not completed their dissertation by the time the semester ends, they reenroll for 3 units each term until the dissertation process is completed.

[2]    HEDL 799 may be taken by students needing additional units to complete the program (e.g., transfer students).

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

## Program Learning Outcomes
### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Conduct and disseminate action research that promotes leadership development and makes a difference to campus practice.
2. Lead effectively, collaboratively, compassionately, and with vision.
3. Competently effect change at the campus level through creative interventions and program design.
4. Articulate and evaluate a strengths-based approach to leadership practice.
5. Articulate and evaluate a Christian perspective on effective leadership in higher education.
6. Lead effectively with diverse populations and appropriately confront personal and institutional injustice in higher education settings.
7. Demonstrate a commitment to and ability to foster student development within individuals and institutions.

# MS in College Counseling and Student Development

**For more information: (626) 815-5485, ccsdprogram@apu.edu**

The Master of Science in College Counseling and Student Development program (https://www.apu.edu/bas/programs/student-development-masters/) prepares student affairs professionals who work effectively with college students at a diversity of institutions. The program encourages students to integrate their academic learning with their life experience in order to grow personally and professionally. The curriculum is based on developing competence in 10 areas through academic coursework, internship experience, and research opportunities.

## Mission Statement

The graduate program in college counseling and student development at Azusa Pacific University prepares individuals to become student affairs educators whose special interest is college students and the environments that affect their development as whole persons and scholar-students.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

## Application Deadlines

Completed applications with all supporting documentation received by January 15 will receive priority consideration for fall admission. These applicants also will be given priority for on-campus graduate assistantship interviews.

## Admissions Interview

Upon invitation, applicants complete an interview with at least one member of the faculty. The purpose of the interview is to discuss career and education goals, evaluate the match of the program to the student, and ascertain, at least initially, the applicant's potential for success in the program.

## Program Delivery

The program is a two-year, on-campus program for students attending full time. Classes are held weekly utilizing the university's 8-week session schedule (https://www.apu.edu/calendar/academic/). Students pursuing this option who are employed three-quarters time or more are encouraged to complete their program over three years instead of two.

## Career Opportunities

Program graduates pursue career opportunities in residential life, career development, campus ministries, admissions, counseling, academic support services, student activities, student financial services, service-learning, and many other co-curricular campus programs.

## Student Outcomes

Because the specific roles of student affairs practitioners vary greatly across functions and institution types, this program seeks to prepare student affairs educators who have a generalist perspective of the profession and possess the basic competencies necessary to be successful in a wide range of circumstances. Specifically, upon completion of the program, students should be able to demonstrate competence in these areas:

- Moral, Spiritual, and Ethical Foundations
- Values, Philosophy, and History
- Assessment, Evaluation, and Research
- Law, Policy, and Governance
- Organizational and Human Resources
- Leadership
- Social Justice and Inclusion
- Student Learning and Development
- Technology
- Advising and Supporting

## Prerequisites

In order to be admitted into the program, students should provide evidence of the following:

1. A baccalaureate degree from a regionally accredited institution
2. Baccalaureate or master's grade-point average of at least 3.0 on a 4.0 scale
3. Two references: one faculty and one student affairs professional preferred
4. International students who have graduated from a college or university where English was not the principal language must meet requirements listed in the English Proficiency Requirements (p. 959) section

## Requirements

The program comprises 45 semester units of coursework. Of this total, at least 36 must be taken at APU; up to 9 semester units of appropriate graduate work may be transferred into the program with department approval.

The coursework is divided into three major components: foundational studies, professional studies, and integration. Foundational studies are those that explore the historical, philosophical, and theoretical bases of higher education and student affairs as well as assist students in the assessment of their personal leadership skills. Professional studies are those that assist students in developing competencies in program design and evaluation, administration, counseling, and research. The integration of the theoretical and practical is provided through supervised experiences and the capstone project.

| Code | Title | Units |
|---|---|---|
| **Foundational Studies** | | |
| CCSD 551 | Introduction to College Student Affairs | 3 |
| CCSD 567 | The Role of Diversity in Student Affairs Practice | 3 |
| CCSD 568 | Inclusive Diversity Practices in Student Affairs | 3 |
| CCSD 575 | Quantitative Analysis in College Student Affairs | 3 |
| CCSD 581 | Foundations of Higher Education | 3 |
| **Professional Studies** | | |
| CCSD 543 | Legal and Ethical Issues in College Student Affairs | 3 |
| CCSD 552 | The Process Of Adult Development | 3 |
| CCSD 553 | Administration in College Student Affairs | 3 |
| CCSD 562 | Qualitative Research with Today's Diverse College Students | 3 |
| CCSD 563 | Counseling: The Helping Relationship | 3 |
| CCSD 571 | Student Learning in the Cocurriculum | 3 |
| CCSD 573 | Career Counseling and Development | 3 |
| CCSD 583 | Counseling Issues and Practice | 3 |

| CCSD 592 | Program Evaluation in College Student Affairs | 3 |
|---|---|---|
| CCSD 595 | Capstone Project in College Student Affairs | 3 |
| **Integration and Supervised Practice** | | |
| Capstone Project and Colloquium | | |
| 750 hours of supervised field placement in at least two practice areas | | |
| **Total Units** | | **45** |

## Fieldwork

All students are required to complete a minimum of 750 hours of supervised fieldwork in student affairs practice in a college or university. This fieldwork must be completed in at least two distinct areas, with at least 150 hours of supervised fieldwork in each. Graduate assistantships (see next section) can be used toward fieldwork hours.

## Graduate Assistantships

Azusa Pacific University provides a number of graduate assistantships for students enrolled in the program. A student who receives a graduate assistantship (GA) is required to enroll full time in the program each term. Students who drop to part-time status in the middle of the academic year will have GA eligibility evaluated on a case-by-case basis. Graduate assistants are expected to work 600 hours over the course of the academic year, for which they are compensated with a stipend.

## Capstone Project

During the final semester, students are required to complete a professional portfolio that contains evidence of competence in 10 aspects of student affairs practice. The presentation of the portfolio should be before a committee of at least one faculty member and two student affairs professionals who will evaluate and reflect with the student regarding the effectiveness of the project. Successful completion of this project is required for graduation.

## Scholarships

Students are also eligible for consideration for a program-funded scholarship. Program-funded aid is awarded based on financial need and/or merit.

# Program Learning Outcomes

# Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Obtain the knowledge, skills, and dispositions to develop and maintain integrity in one's life and work; this includes thoughtful development, critique, and adherence to a holistic and comprehensive standard of ethics and commitment to one's own wellness and growth. (For our program at APU, the emphasis is both a personal and professional "compass" of honesty, truth-telling and servant-oriented approach to one's work with an ability to articulate a Christian worldview that reflects the values, ethics and principal teachings of the Christian faith.)
2. Obtain the knowledge, skills, and dispositions that connect the history, philosophy, and values of the student affairs profession to one's current professional practice. (This competency area embodies the foundations of the profession from which current and future research, scholarship, and practice will change and grow.)
3. Design, conduct, critique, and use various AER methodologies and the results obtained from them, to utilize AER processes and their results to inform practice, and to shape the political and ethical climate surrounding AER processes and uses in higher education.
4. Learn the policy development processes used in various contexts, apply legal constructs, compliance/policy issues, and understand governance structures and their impact on one's professional practice.
5. Manage institutional human capital, financial, and physical resources. (This competency area recognizes that student affairs professionals bring personal strengths and grow as managers through challenging themselves to build new skills in the selection, supervision, motivation, and formal evaluation of staff; resolution of conflict; management of the politics of organizational discourse; and the effective application of strategies and techniques associated with financial resources, facilities management, fundraising, technology, crisis management, risk management and sustainable resources.)
6. Embody the knowledge, skills, and dispositions required of a leader, with or without positional authority; understand that leadership involves both the individual role of a leader and the leadership process of individuals working together to envision, plan, and affect change in organizations and respond to broad-based constituencies and issues. (This can include working with students, student affairs colleagues, faculty, and community members.)
7. Create learning environments that foster equitable participation of all groups while seeking to address and acknowledge issues of oppression, privilege, and power. (Social Justtice and inclusion is defined as both a process and a goal. Student affairs educators must have a sense of their own agency and social responsibility that includes others, their community, and the larger global context. This involves seeking to meet the needs of all groups, equitably distributing resources, raising social consciousness, and repairing past and current harms on campus communities.)
8. Apply the concepts and principles of student development and learning theory. This includes the ability to apply theory to improve and inform student affairs and teaching practice.

9. Use digital tools, resources, and technologies for the advancement of student learning, development, and success, as well as the improved performance of student affairs professionals. (Included within this area are knowledge, skills, and dispositions that lead to the generation of digital literacy and digital citizenship within communities of students, student affairs professionals, faculty members, and colleges and universities as a whole.)

10. Provide advising and support to individuals and groups through direction, feedback, critique, referral, and guidance. (Through developing advising and supporting strategies that take into account self-knowledge and the needs of others, student affairs professionals play critical roles in advancing the holistic wellness of ourselves, our students, and our colleagues.)

# PhD in Higher Education

## NOTE: This program is not admitting new students for the 2024-25 academic year.

**For more information: (626) 815-5349**

The Doctor of Philosophy in Higher Education (https://www.apu.edu/bas/programs/higher-education-phd/) is a research degree program consisting of 62 units of coursework, inclusive of dissertation. It primarily develops scholars who are able to conduct original research and interpret and communicate the results of that research through their writing, teaching, and leadership. The dissertation for the PhD involves original research that extends the theoretical knowledge base of higher education policy and practice.

## Schedule

Students are admitted to the program once a year, with coursework beginning in July of the admission year. The program requires students to complete their coursework on the Azusa campus during two-week visits in early January and again in July each year for four years, or until the dissertation is completed. In addition, all students are assigned to a research team when beginning the second year of the program. Students are expected to attend meetings required of their research team, which may be held in conjunction with a designated conference. In spring of the second year of the program, all students are expected to travel internationally as part of the required course HED 722 Global Policy Analysis in Higher Education. All in-country travel costs are included in tuition; students are responsible for purchasing their own round-trip international airfare.

## Requirements

The PhD is a sequenced program of courses with 4 units of electives. Students with a master's degree in higher education or college student affairs may waive 2 units of electives. Because this program is designed in a cohort model, students take courses together in January and July in a specified sequence.

| Code | Title | Units |
| --- | --- | --- |
| **Required Courses** | | |
| HED 701 | Strengths-Oriented Leadership | 4 |
| HED 702 | The Nature of Inquiry | 4 |
| HED 703 | Critical Issues in Higher Education | 4 |
| HED 705 | Student Access, Equity, and Success in College | 4 |
| HED 710 | Research Design and Statistics | 4 |
| HED 711 | Qualitative Research Methods | 4 |
| HED 721 | Diversity and Social Justice in Higher Education | 4 |
| HED 722 | Global Policy Analysis in Higher Education | 4 |
| HED 724 | Teaching, Learning, and Assessment in Higher Education | 4 |
| HED 725 | Administration in Higher Education | 4 |
| HED 730 | Advanced Quantitative Methods | 4 |
| or HED 731 | Advanced Qualitative Research | |
| HED 732 | Leading Change in Higher Education | 4 |
| HED 760 | Research Seminar (taken 4 times over 4 terms for a total of 4 units) | 1 |
| HED 796 | Dissertation Proposal Seminar | 3 |
| HED 797 | Dissertation Research | 3 |
| **Elective Courses** | | |
| Select four units from the following: | | 4 |
| HED 704 | Ethical Issues in Higher Education | |
| HED 761 | Strengths-Oriented Research and Programming | |
| HED 798 | Special Topics | |

| HED 799 | Readings in Higher Education | |
|---|---|---|
| **Total Units** | | **62** |

# Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

# Program of Study

The program requires 62 units beyond the master's degree, inclusive of dissertation. Some elective courses are offered in conjunction with travel to professional conferences. The required research seminars (HED 760) each term meet between sessions, often in conjunction with professional conferences. Read the complete course descriptions for more information.

# Dissertation Courses

The dissertation proposal process begins after completion of the third year, as students take HED 796 (3 units) while they write the first three chapters of their dissertation. If students do not successfully defend their dissertation proposal during the term they first enroll in HED 796, they must retake that course until the proposal is passed. Once students successfully defend their dissertation proposal, they enroll in HED 797 (3 units) each semester until the dissertation has been successfully defended. Enrollment in these courses gives students access to faculty and university resources, including library databases and the services of the doctoral research librarian. Students are considered enrolled full time from the proposal (HED 796) through the completion of the dissertation (HED 797). Students are expected to come to campus for one week each term during the dissertation phase. Credit for dissertation courses is given for completion of the stated course objectives as outlined in the syllabus. Students who do not meet the designated course outcomes will not receive credit for the course and will be required to retake the course.

| Code | Title | Units |
|---|---|---|
| HED 796 | Dissertation Proposal Seminar | 3 |
| HED 797 | Dissertation Research | 3 |

## Independent Study

Students may petition to take an independent study course (HED 799) to substitute for an elective course.

# Comprehensive Examinations

All students enrolled in the program must pass all of their comprehensive examinations before defending their dissertation proposal and advancing to candidacy. The purpose of the comprehensive exam process is to ensure that all students graduating from APU with a PhD in Higher Education are able to articulate a thorough grasp of the critical issues and theories impacting the professional field. Accordingly, there are three key areas of the program's learning outcomes that are assessed via this process:

1. Social justice and diversity
2. Leadership and change
3. Student success

## Students demonstrate each competency as follows:

- **Social justice and diversity:** Students produce a "TED Talk" type of video per instructions.
- **Leadership and change:** Students create an electronic leadership portfolio per instructions.
- **Student success:** Students produce a creative design project per instructions.

Projects submitted for demonstration of the above competencies are due either April 15 or October 15 each year. Complete instructions are provided to students upon arrival to campus. Students have two opportunities to earn a passing score on a particular competency; failure of the second opportunity results in potential dismissal from the program.

# Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Conduct and disseminate original research that extends the theoretical knowledge base of higher education policy and practice and answers meaningful questions.

2. Competently engage the critical issues and help shape the conversations that affect the future direction of higher education at the national and international levels.
3. Lead effectively, collaboratively, and with vision.
4. Articulate and evaluate an appreciative approach to teaching, learning, and leadership development.
5. Foster thriving in the students they serve, through effective pedagogy and institutional practices that are learning-centered.
6. Cultivate a critical self-awareness of faith, spirituality, and belief systems through engaging diverse ways of knowing in Christian dominant environments.
7. Effectively address personal, institutional, and systemic injustices through competent policy analysis, formulation, and revision, as well as individual actions.

# Department of Marriage and Family Therapy

The Department of Marriage and Family Therapy (https://www.apu.edu/bas/marriage-family-therapy/) offers the Master of Arts in Clinical Psychology with an emphasis in Marriage and Family Therapy (MFT) (p. 386) program, which is intended for individuals who seek to develop a solid foundation in the theoretical and applied practice of professional counseling with individuals, couples, and families. Also included in the program are interdisciplinary studies in theology, ethics, and psychotherapy. For those planning to practice at the master's level, this program meets the current education requirements for California licensure as a marriage and family therapist.

The Department of Marriage and Family Therapy also offers a Substance Use Disorders Certificate (p. 385) that is designed for students and alumni of the clinical psychology program but which is open to anyone interested in gaining competency in the substance use disorders field.

## Programs

### Master's

- Master of Arts in Clinical Psychology: Marriage and Family Therapy (MFT) (p. 386)

### Certificate

- Substance Use Disorders (p. 385)

## Courses

### PPSY 510, Psychotherapy and Cultural Diversity, 3 Units

An awareness of divergent cultural values, assumptions, and family dynamics is essential to the contemporary practice of psychotherapy. Students are encouraged to begin the process of garnering multicultural competency by examining their own attitudes and biases, increasing their knowledge of diverse populations, and developing skills related to service provision. Through experiential exercises and assignments, this course examines the conceptual and theoretical foundations of cross-cultural psychotherapy and encourages students to evaluate their readiness to engage in a process of developing competency in this arena. An introduction to the distinctives of several cultural groups is provided.

### PPSY 511, Addictions, Assessment, and Interventions, 3 Units

This course introduces students to the field of addictions and compulsive behaviors, including substance abuse and substance abuse treatment. Emphasis is on assessment and intervention skills and processes, and evidence-based research relevant to treatment. Coursework also covers the nature and scope of addictions, DSM-5 criteria for disorders, and unique issues relative to faith, special populations such as children/adolescents and persons with disabilities, and other issues of diversity. If this course is used as a prerequisite course for the optional Substance Use Disorder concentration, students must achieve a grade of B- or higher.

### PPSY 512, Legal, Ethical, and Moral Issues in Therapy, 3 Units

This course introduces and develops student competency in the legal, ethical, and moral issues related to the practice of marriage and family therapy in California. Consideration is given to the student practitioner's values, behaviors, and culture in relationship to becoming a licensed marriage and family therapist. Professional legal and ethical codes, as well as moral decisions, are studied and applied in clinical scenarios. Areas of focus include, but are not limited to, the requirements of mandated reporting, suicide assessment and interventions, and the limits of confidentiality. Additionally, students review statutory, regulatory, and decisional laws related to the MFT's scope of practice, including privilege, family law, and the treatment of minors.

## PPSY 513, Substance Use Disorders II: History, Support, and Promising Practices, 3 Units

This course reviews the history of addiction and drugs in society from prohibition to the 21st century, including America's war on drugs. Students study mutual support groups such as 12-step programs, Rational Recovery, and Celebrate Recovery. Also included is the study of psychopharmacology (illicit drugs, abuse of prescription drugs, and medication-assisted treatment). New and emerging trends and promising practices are considered.
**Prerequisite:** PPSY 511

## PPSY 514, Substance Use Disorders III: Co-Occurring Disorders, Co-Morbidity, and Integrated Treatment, 3 Units

This course introduces co-occurring disorders, co-morbidity, and integrated treatment including mental health treatment, substance abuse, and primary health. Students learn the distinction between mental health disorders and substance-induced disorders and how to differentiate between the two. Behavioral addictions such as gambling, nicotine, and gaming, and the physiological impact of such disorders, are studied.
**Prerequisite:** PPSY 511 and PPSY 513

## PPSY 515, SUD IV: Families and Other Special Populations; Confidentiality and Evidence Based Practices, 3 Units

This course focuses on substance abuse in the family system from adolescents to the elderly. Special populations are examined, such as high-risk groups, perspectives of women, and chronic pain. Special attention is paid to culturally and linguistically appropriate services. The ethical considerations of dual relationships and confidentiality are addressed. Evidence-based practices (motivational interviewing) and core concepts of relapse prevention techniques are major focuses.
**Prerequisite:** PPSY 511, PPSY 513 and PPSY 514

## PPSY 516, Legal and Ethical Issues in Substance Use Disorders, 1 Unit

This course is designed to enhance the substance use disorders concentration and certificate, giving students further education and an opportunity to review, discuss, and apply the legal and ethical issues specific to the field of substance use disorders.
**Corequisite:** PPSY 513

## PPSY 517, Motivational Interviewing with the SUD Population, 1 Unit

This course is designed to enhance the Substance Use Disorders concentration and certificate, equipping students with theories and techniques of motivational interviewing as it applies to the assessment and treatment of substance use disorders.
**Corequisite:** PPSY 514

## PPSY 525, Crisis and Trauma in Community Mental Health, 3 Units

This course prepares students in the understanding and treatment of child abuse, domestic violence, and trauma. Content includes detection, assessment, and intervention strategies. Awareness of resiliency factors and their application to client recovery is addressed. Target populations include survivors, perpetrators, and those experiencing co-morbid disorders. Attention is paid to understanding the issues of diversity and its impact on client welfare, including elder abuse, same-gender abuse, and ethnic differences. This course also presents the challenges of accessing resources in community mental health. Guest speakers/consumers are invited. This course meets the domestic violence and child abuse requirements for MFT and LCSW licensure in California. This course also includes training (6+ hours) in suicide assessment and intervention.

## PPSY 533, Christian Spiritual Formation and Psychotherapy, 3 Units

This course will provide an historical overview of Christian Spirituality, which is understood as ways of expressing devotion to God. As background for discussion of Christian Spiritual Formation, a holistic philosophical/theological model of persons will be presented along with an overview of spiritual disciplines as methods utilized to actively engage the Christian formation process. Examples of psychotherapy models that integrate Christian theology, spirituality with existing psychology theoretical and clinical models will be presented and discussed. Opportunities for synthesis, application, and creative development of ideas are all part of the course content and process.

## PPSY 551, Theories of Psychotherapy, 3 Units

This course develops an understanding of the major theoretical orientations used by current practitioners, focusing on systemic approaches. Established schools of thought, the recovery model, evidence-based and promising practices and their immediate descendants are presented through lectures, videotapes, reflection, application via clinical case presentations, and experiential learning. The course also highlights cultural and spiritual diversity as it applies to the therapeutic process and awareness of the self, interpersonal issues, and spiritual values as they impact the use of theoretical frameworks.

## PPSY 552, Human Sexuality and Sex Therapy, 3 Units

This course reviews human sexuality as a basis for sex therapy. Students examine and evaluate biological, psychological, social, and moral perspectives of the theories of sexual development and functioning, including issues of heterosexuality, homosexuality, gender identity, and transgender. In addition, students survey literature on sexual dysfunction, develop diagnostic skills for assessing the nature and extent of sexual dysfunction, and learn treatment strategies utilized in the various systems of marriage and sex therapy.

## PPSY 555, Career Development Theories and Techniques, 3 Units

This course provides a comprehensive review of career development theory, as well as resources and techniques utilized in assisting individuals to make informed educational and career choices. An exploration of changing concepts of work and careers and their implications for career counseling is emphasized. A focus on the relationship of career to other issues in counseling is addressed.

## PPSY 557, Couples Therapy, 3 Units

This course provides instruction on current theories and methods of couples/marriage therapy. Students gain basic knowledge in the application, assessment, and interventions of several theoretical models and are introduced to psychological instruments used in couples therapy. Emphasis is placed on how couples therapy attends to diversity issues such as domestic violence, ethnicity, spirituality, and cultural considerations within the clinical setting. Legal and ethical issues pertaining to couples therapy are integrated into treatment considerations.

## PPSY 558, Advanced Developmental Psychology, 3 Units

The purpose of this course is to help students learn to utilize a lifespan perspective in their work as marriage and family therapists. The course focuses on the important developmental issues and milestones for each stage of the lifespan, paying particular attention to the aspects of context, culture, and environmental issues. Students are encouraged to consider how development occurs within a specific social context and learn how social stress, poverty, low educational attainment, abuse and neglect, and inadequate housing impact development. Biological, social, and psychological aspects of aging and long-term care are included in this course. Models of psychological development are presented and the processes of change and adaptation are examined, including clinical issues such as grief and loss. The clinical application of the material is highlighted through case examples, group discussion, and hands-on application during class activities.
**Prerequisite:** Human Development or equivalent

## PPSY 561, Child and Adolescent Therapy, 3 Units

This course equips students with an understanding of the broad range of childhood and adolescent problems and disorders. A variety of psychotherapeutic modalities is presented, giving students an opportunity to develop knowledge of basic child and adolescent therapy skills, assessments, and treatment strategies. The impact of developmental aspects, family dynamics, social environments, and multicultural issues is addressed. In addition, legal and ethical issues, including child abuse reporting, suicide assessment and intervention, and the role of hospitalization, are considered.

## PPSY 563, Psychopathology, 3 Units

This course reviews the role and categories of psychopathology utilized in the assessment and treatment of individual, marriage, and family dysfunction. Students develop diagnostic skills through a master of the concepts in the Diagnostic and Statistical Manual of Mental Disorders (DSM 5), and review available community resources for those with severe mental disorders.

## PPSY 571, Family Therapy, 3 Units

This course is an overview of current theories and methods of family therapy interventions. There is an emphasis on how family therapy integrates diversity issues (e.g., ethnicity, socioeconomic status, spirituality, blended families) during the clinical hour. The major theories, their founding clinicians, and some of their contemporaries are reviewed. Clinical application of the material is emphasized in coursework.

## PPSY 572, Research Methodology, 3 Units

This course surveys the major social science research methods, preparing students to read, understand, and evaluate psychological research. This course provides students with the basic knowledge and experience of conducting psychological experiments and how and when to use statistical procedures. Students build skills in how to apply clinical outcome research to clinical treatment planning and interventions. Sensitivity to issues of diversity in psychological research is stressed.

## PPSY 577, Psychological Assessment, 3 Units

This course provides students with a broad understanding of the clinical use of psychological tests, including objective personality tests, intelligence tests, and projective testing techniques. Emphasis is on developing skills in administering tests, interpreting test findings, and applying test findings through report writing. Current research regarding psychological testing is also reviewed.

## PPSY 580, Introduction to Clinical Practice: Basic Skills, 3 Units

This course introduces the student to basic skills in attending behavior, clinical interviewing, and clinical intervention. It is designed to stimulate self-awareness as related to the therapeutic relationship, as well as the integration of spirituality and the interpersonal process. Coursework includes reading, observation, role-play, and student audio/videotaped clinical practice. A grade of B or better must be achieved in order to advance to PPSY 581.

## PPSY 581, Introduction to Clinical Practice: Advanced Skills, 3 Units

This course is designed to further develop the psychotherapeutic skills of students prior to their entry into a clinical placement. Students focus on developing proficiency in the core interviewing qualities, deriving goals for a clinical session, and in making contracts with clients for change. Additionally, students are encouraged to begin developing a theoretical and conceptual understanding of cases, and trained to work with diverse populations. Students are also encouraged to address issues regarding the integration of their faith with the practice of psychotherapy. These goals are addressed through experiential learning, lecture, readings, discussion, and reflection.
**Prerequisite:** PPSY 580

## PPSY 582, Group Skills, 3 Units

This course introduces students to the theories and techniques utilized in group counseling. The course includes information about principles of group dynamics, group process, and developmental stages. Students explore the therapeutic factors of group work and group leadership style. Content also includes current research and literature, methods, and evaluation of effectiveness. Ethical, legal, and professional issues as well as special needs such as multiculturalism, life-span development concerns, and the therapist's personal leadership style are addressed.
**Prerequisite:** PPSY 580 and PPSY 581

## PPSY 585, Psychobiology and Psychopharmacology, 3 Units

This course introduces the biological and neurological bases of human behavior and use of psychotropic medications as an adjunctive therapy to psychotherapy. Current information on the use of medications in the treatment of psychological disorders is provided. Consideration is given to the special needs of certain populations (e.g., the elderly, substance abuse patients) when psychotropic medications are prescribed. Students develop skills in case management when referral to medical doctors or neuropsychologists is part of therapeutic practice.

## PPSY 592, Introduction to Clinical Placement, 1 Unit

This course is designed to support and equip students with entry-level practice management skills for clinical placement within community mental health and private practice settings. Students develop knowledge and gain practice in identifying diagnoses, presenting problems, documentation, and treatment planning. This course also provides program oversight of students' clinical placement experiences.
**Prerequisite:** PPSY 580 and PPSY 581

## PPSY 593, Clinical Consultation, 1 Unit

This course is designed as an adjunct to the advanced-level students' clinical placement and supervision experiences. The primary purpose of this course is to provide an opportunity for students to discuss their clinical caseload, and to provide program oversight of clinical placement experience.
**Prerequisite:** PPSY 597, PPSY 598, and current placement in a clinical site

## PPSY 595, Special Topics, 1-6 Units

Special topics courses offer graduate-level content that is typically scheduled in an intensive format. These courses include a range of specialized topics that are of interest to mental health professionals. The unit values of these courses range from 1-6 unit credits, depending upon the specific contact hours and workload involved in the course.

## PPSY 597, Clinical Placement I, 3 Units

This course provides oversight of students' clinical placement and supervision experiences, focusing on enhancing students' clinical skills and knowledge of the interpersonal process of psychotherapy. Special attention is given to case management issues, documentation, community-based resources, integration of faith, health promotion, legal and ethical issues, and treatment planning. Treatment planning, utilizing many theoretical approaches including the recovery model, includes instruction and practice in determining the presenting problem, diagnosis, prognosis, client goals, and clinical interventions. Clinical skills and the processes of psychotherapy and supervision are addressed through experiential learning, readings, discussion, reflection, and assignments. This course also provides students with a forum for discussing their clinical caseloads (individuals, children, couples, families, and groups) and their interactions with placement supervisors. Students must be serving at an approved training site to be enrolled in this course.

## PPSY 598, Clinical Placement II, 3 Units

This course is an adjunct to students' clinical placement, building on PPSY 597 to provide oversight and consultation for students' clinical placements and the further development of clinical skills. Emphasis is on management of crisis issues, legal/ethical practice, diagnosis, prognosis, multicultural treatment, treatment planning, application of theory to actual clients, integration of faith, and case management services. Clinical work is discussed from a public mental health and private practice perspective. Students must be serving at an APU-approved training site to be enrolled in this course.
**Prerequisite:** PPSY 597

## PPSY 599, Readings in Psychology, 1-4 Units

## PPSY 786, Global Psychology, 2 Units

This course provides a systematic overview of existing approaches to working globally. Theory, research, and intervention are highlighted, and the history of globalization, current trends, and common problems and issues are examined. Students are encouraged to develop their clinical skills in applying psychology to significant global concerns in diverse countries and cultures and practically apply their knowledge during an intensive, three-week practicum in Kenya, East Africa.

# Certificate in Substance Use Disorders

The Substance Use Disorders Certificate (https://www.apu.edu/bas/programs/substance-use-disorders-certificate/) is designed for students already enrolled in the MFT program, and for program alumni wishing to return and enhance their knowledge base. The certificate comprises 11 additional units taken over the course of a year (students who have not already taken PPSY 511 as part of the MFT program must also complete that course as part of their certificate, bringing their program unit count to 14), allowing students time to work in the field while gaining expertise. This program expands on the skills and knowledge needed to improve the health and wellness of individuals struggling with substance use, giving students access to a competency that historically has been afforded only to those working in the substance use disorder field.

## Requirements

| Code | Title | Units |
| --- | --- | --- |
| PPSY 511 | Addictions, Assessment, and Interventions | 3 |
| PPSY 513 | Substance Use Disorders II: History, Support, and Promising Practices | 3 |
| PPSY 514 | Substance Use Disorders III: Co-Occurring Disorders, Co-Morbidity, and Integrated Treatment | 3 |
| PPSY 515 | SUD IV: Families and Other Special Populations; Confidentiality and Evidence Based Practices | 3 |
| PPSY 516 | Legal and Ethical Issues in Substance Use Disorders | 1 |
| PPSY 517 | Motivational Interviewing with the SUD Population | 1 |
| **Total Units** | | **14** |

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

# MA in Clinical Psychology: Marriage and Family Therapy (MFT)

## Mission Statement

The MFT program (https://www.apu.edu/mft/) is dedicated to the education and training of competent, self-aware, and culturally sensitive family therapists. Using a foundation in Christian faith, a systemic family psychology approach, and an integration of theories of psychotherapy, students explore personal, ethical, and social values as they prepare to serve the needs of their communities.

## Licensed Professional Clinical Counselor (LPCC) Option

The MFT program offers one additional course that provides for students interested in dual licensure as an LPCC and an MFT. Coursework meets California education requirements for both licenses.

## Gottman Couples Therapy Level 1 Certificate

The Couples Therapy course includes the completion of Gottman Level 1 training, which equips students with new insight into couples' struggles using research-based assessments and effective interventions based on the Gottman Sound Relationship House Theory. Students receive a certificate of completion and are then eligible to take the Level 2 training.

## Substance Use Disorders Certificate

Upon completion of the MFT program, students may choose to take 11 additional units that fulfill the requirements for a certificate in substance use disorders. This certificate allows students to establish a competency that historically has been afforded only to those working in the substance use disorders field. As primary care physicians, mental health providers, and substance use treatment providers coalesce into whole-person care, you will be a part of cutting-edge treatment.

## Program Goals

### Diversity

Students will recognize the importance of diversity and its impact on clinical practice. Students will be equipped with awareness of beliefs and customs of diverse cultural groups and how to implement this knowledge when treating clients and interacting with agency personnel.

### Identity Formation

Students will articulate their personal narrative inclusive of values, beliefs, behaviors, and traditions of faith that inform their worldview.

### Ethical Practice

Students will understand the ethical guidelines and legal requirements within the field of marriage and family therapy. Students gain knowledge of when to use resources and seek consultation if faced with ethical or legal dilemmas in the context of therapy.

## Competency

Students will be trained to become practitioners in marriage and family therapy with professional competencies in relationship, intervention, diversity, integration of faith and practice, and systemic family psychology.

# Admission

Admitted students typically begin in the fall semester. To be considered for fall enrollment, the deadline for submission of a completed application is March 1. Students who apply earlier will be given priority consideration for admission.

Applicants may also apply to begin in the spring semester. The deadline for submission of a completed application for spring enrollment is October 1. Applicants for the spring semester will be considered based on space available at the Azusa campus and the Orange County, San Diego, and Inland Empire regional campuses.

Admission to the program does not guarantee that students will obtain a license or credential in marriage and family therapy or as an LPCC. Licensure and credentialing requirements are set by agencies that are not controlled by or affiliated with Azusa Pacific University and requirements can change at any time. For example, licensure or credentialing requirements can include evidence of the right to work in the United States (e.g., Social Security number or taxpayer identification number) or successfully passing a criminal background check. Students are responsible for determining whether they can meet licensure or credentialing requirements. Azusa Pacific will not refund tuition, fees, or any associated costs to students who determine, subsequent to admission, that they cannot meet licensure or credentialing requirements.

# Application Requirements

- To be admitted into the program, students must hold a bachelor's degree from a regionally accredited university or college (or an equivalent degree from a college or university in another country) with a minimum 3.0 grade-point average on a 4.0 scale. At the discretion of the university, a higher professional degree such as an MD or DC may be accepted as a substitute for the bachelor's degree.
- Students who enter the program with a bachelor's degree in a major other than psychology will be required to take Abnormal Psychology with a grade of *B* or better before beginning the program. Prerequisites may be waived on an individual basis.
- International applicants whose first language is not English must submit an iBT (internet-based TOEFL) score of 90 minimum; the minimum subsets are: Reading 22, Speaking 22, Listening 22, and Writing 24. Students may also submit results of the Test of Written English (TWE) and the Test of Spoken English (TSE). Because written and verbal English language skills are crucial to the education, training, and practice of psychology, further testing for spoken and written English will be required for all international students upon entrance to the program or as deemed necessary at any point in the program. If applicants do not meet the minimum requirement, they must first go through an English training program to raise their proficiency. Students may be mandated to do this if they are not meeting the language and writing standards for the program.

# Personal and Group Psychotherapy

During the course of the program, students must complete 40 hours of individual psychotherapy. Students have the option of completing 20 sessions (40 hours) of group therapy in lieu of 20 of the 40 required individual psychotherapy hours.

# Clinical Placement

Students develop therapeutic skills through required hours of direct clinical experience. Clinical placements may range from 12-30 months depending upon course track sequences.

While students are responsible for securing a placement site, assistance is provided by the director of clinical training, site directors, and in the Introduction to Clinical Practice courses. In addition, students receive support from and opportunities to discuss clinical issues and problems with supervisors and faculty in clinical placement and supervision courses.

For students seeking licensure, the clinical placement sequence meets MFT and LPCC requirements in California. To ensure the highest quality in clinical placements, the director of clinical training maintains contact with offsite supervisors and evaluates the student's experience. Any violations of professional ethics codes may be grounds for dismissal from the degree program.

Students are required to obtain 300 hours of direct client experience for the MFT license, and 300 hours of direct client experience for the LPCC license. To meet graduation and licensure requirements, the student must receive one hour of individual or two hours of group supervision for every five hours of direct client experience. These hours count toward the 3,000 hours required for MFT licensure in California. Hours for the LPCC license begin postgraduation.

# Comprehensive Examination

As a final evaluative component of the MFT program, each student must pass the Comprehensive Examination, which includes two elements:

1. A law and ethics exam
2. A clinical exam

Failure to pass the Comprehensive Examination may prevent graduation from the program.

# Program Locations

The Department of Marriage and Family Therapy offers its master's degree program on APU's Azusa campus as well as at the Orange County, San Diego, and Inland Empire regional campuses. More information may be obtained by contacting the program director, the local site administrator, or a program representative.

**Azusa Campus**
Azusa Pacific University
PO Box 7000
Azusa, CA 91702-7000
(626) 815-6000, Ext. 5523

**Orange County Regional Campus**

hcatling@apu.edu
375 W. Hospitality Lane
San Bernardino, CA 92408
(909) 888-9977

# Course Requirements

The degree must be completed in a minimum of two years and a maximum of six. Any extensions beyond six years must be requested as an exception to APU policy and must be submitted in writing on an Academic General Petition. A three-year course of study is recommended for most working students. The program is composed of 63 units of coursework. A maximum of 12 units of selected coursework, which meet the following criteria, may be transferred:

- Taken within the past eight years and completed with a grade of *B* or better
- Obtained at a regionally accredited institution
- Received from a graduate program in clinical psychology, counseling psychology, or marriage and family therapy
- Acceptable for California MFT licensing requirements
- Approval by the program director

Students in the program must maintain a 3.0 GPA with no course grade lower than a *C*-. Course resulting in grades lower than a *C*- will be retaken. In order to graduate, students may not have more than two instances of a *C+/-* on their transcript. If a student receives a third *C+/-*, the student will be required to retake one of the courses and receive a *B*- or better.

A student who receives two NO CREDIT grades in a CREDIT/NO CREDIT course (e.g., PPSY 593) will be referred to the Clinical Training Committee (CTC), which will meet to review the student's situation and issue a recommendation. The CTC recommendation may include: 1) academic and/or clinical probation, 2) postponing clinical placement, 3) a recommended leave of absence, or 4) dismissal from the program.

| Code | Title | Units |

| **Optional Electives** | | **0-5** |
| PPSY 555 | Career Development Theories and Techniques | 3 |
| PPSY 786 | Global Psychology [4] | 2 |
| **Total Units** | | **63-90** |

[1] Students who elect to take the optional concentration in substance use disorders must complete the master's degree prior to enrolling in the concentration coursework. Additionally, PPSY 511 must have been completed with a grade of *B-* or better, and students must have completed their practicum at an APU-affiliated substance use disorder clinical placement site. Upon completion of the concentration, students receive a Substance Use Disorders Certificate.

[2] Students who have not completed their hours of experience must enroll in this course until their hours are completed. This course may be taken up to three times. Students who have already completed their hours of experience are not required to take this course.

[3] This course must be taken twice during a student's course of study, with different special topics.

[4] To participate in this course, students must apply and be accepted to it. Due to international requirements, other policies may be applicable.

# Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

# Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Diversity: The program will produce graduates who can apply their knowledge of family therapy in a culturally appropriate manner to a wide range of demographic groups.
2. Identity Formation: The program will produce graduates who demonstrate an awareness of their personal narrative and how it impacts their contribution to the field of marriage and family therapy.
3. Ethical practice: The program will produce graduates who will become clinicians who are ethically grounded, demonstrate integrity, and operate within the laws of the profession.
4. Competency: The program will prepare graduates to effectively utilize a variety of theoretical approaches to marriage and family therapy.

# Department of Psychology

The Department of Psychology (https://www.apu.edu/bas/psychology/) at Azusa Pacific University assists students in developing the skills necessary for the observation, understanding, and analysis of human behavior. In their study of psychology, students are trained to employ systematic methods of inquiry to explain normal and abnormal behavior, examining a number of factors including neural, cognitive, developmental, cultural, interpersonal, and individual differences. Students also engage in the development of their strengths and skills in personal, intellectual, and spiritual areas.

Each faculty member is a committed Christian with an interest in the individual student. As a department, the faculty are committed to preparing students for a wide range of postbaccalaureate work in psychology or related disciplines, and helping students reflect upon the relationship of psychology to the Christian faith. Programs and activities associated with psychology are planned by the faculty, the Psychology Club, and the Psi Chi honor society to create a spirit of community. These activities include graduate school forums in which students interact with Christian psychology professionals, as well as informal gatherings where psychology majors receive information to help them successfully navigate their program requirements, meet other students, and understand career opportunities.

The design of the undergraduate curriculum reflects the extensive breadth of psychology and provides internship experience in applied field or research settings. There are two undergraduate degrees offered: the Bachelor of Arts (BA) (p. 405) and the Bachelor of Science (BS) in Psychology (p. 411). While the degrees overlap in their core courses, the focuses in terms of elective courses are different—the BA program focuses on the applied areas of understanding the human condition, and the BS program focuses on the scientific methods used to study behavior, emphasizing research skills.

The department also offers undergraduates a psychology minor (p. 415) and an alcohol and drug counseling minor (p. 414).

At the graduate and professional level, the department comprises an energetic community of scholars equipping students to understand the field of psychology through academically rigorous coursework, hands-on laboratory research, internships with community agencies, and individual research projects. The department offers a Master of Science in Research Psychology and Data Analysis (p. 418), a Master of Science in Counseling Psychology with Specialization in Children and Adolescents (p. 417), a Play Therapy Certificate (p. 413), a bachelor's completion program in psychology (p. 408) for transfer students who have at least 30 units of college credit, and professional minors in psychology (p. 416) and alcohol and drug counseling. (p. 414)

## Mission Statement

The Department of Psychology at APU is a community of Christian scholars who, with their diverse backgrounds and expertise in understanding human behavior in society, are committed to enhancing the development of our students through intellectual challenge, experiential learning, personal growth, and spiritual discovery so that each student develops his or her potential and is prepared for where God is leading them to serve.

## Career Opportunities

Study in psychology provides a foundational background for a broad variety of careers in which the understanding of human behavior and social processes is useful. Graduates with a bachelor's degree in psychology have a foundational background for entry-level jobs in mental health or community service agencies, business, and human resources. For advanced positions requiring testing, counseling, or consulting, a master's degree is generally the minimum requirement, while psychologists with doctoral degrees qualify for more advanced counseling, research, and teaching positions. Psychology majors with advanced degrees may pursue careers in developmental, family, health, educational, sports, industrial/organizational, ministry, and experimental psychology, as well as neuropsychology. They may also pursue licensure as clinical, counseling, or school psychologists, or marriage and family therapists. Other areas in which students seek careers include social work, marketing, law, physical therapy, and medicine. In a recent alumni survey, 85% completed postgraduate study, with two-thirds of those in a discipline-related position, and half of the alumni surveyed achieved national licensure or certification in the field. All students planning to major in psychology are urged to make an appointment at the department office (Wynn 109 (https://www.apu.edu/map/114695/)) and to continue visiting the department for help with progressing in the major and beyond.

## Programs

### Majors

- Psychology (BA) (p. 405)
- Psychology (BS) (p. 411)

## Minors

## Professional Programs

## Master's

## Certificate

## Courses

### PSYC 110, General Psychology, 3 Units

Students in this general survey course explore the field of psychology, including human development, social psychology, learning, perception, cognition, motivation, personality, psychological testing, and nervous system functioning. *Meets the General Education Requirement: Social Science.*

### PSYC 110H, General Psychology - Honors, 3 Units

This general survey course explores the field of psychology. It includes human development, social psychology, learning, perception, cognition, motivation, personality, psychological testing, and nervous system functioning. *Meets the General Education Requirement: Social Science.*
**Prerequisite:** To enroll in the course, must be a student admitted to the Honors Program and be considered a member in "active" status.

### PSYC 250, Data Analysis in Psychology, 3 Units

This course introduces students to statistical analyses that are common in psychological research. Students learn to identify the appropriate analysis, how to run the statistical analysis in SPSS, and how to interpret SPSS output. Students are also introduced to writing results in American Psychological Association (APA) style.
**Prerequisite:** MATH 130

### PSYC 280, Introduction to Certified Alcohol Drug Counselor Credentialing, 3 Units

Students in this course examine the effects of alcoholism and drug dependency, specifically as they relate to cultural/lifestyle considerations, human behavior, and family dynamics. Course material also considers the substance use system of care, including its programs, policies, and procedures for the treatment and recovery of individuals suffering from substance use disorders. This is the first course in a series designed to meet the educational requirements for California Consortium of Addiction Programs and Professionals (CCAPP) credentialing.

### PSYC 290, Human Growth and Development, 3 Units

This study of human development across the life span emphasizes a multidisciplinary perspective, including such areas as psychology and sociology, processes as social interaction, and the tools for applying developmental psychology to life situations. *Meets the General Education Requirement: Social Science.*

### PSYC 290H, Human Growth and Development - Honors, 3 Units

This study of human development across the life span emphasizes a multidisciplinary perspective, including such areas as psychology, sociology, processes as social interaction, and the tools for applying developmental psychology to life situations. *Meets the General Education Requirement: Social Science.*
**Prerequisite:** To enroll in the course, must be a student admitted to the Honors Program and be considered a member in "active" status.

### PSYC 292, Introduction to Brain and Behavior, 3 Units

This course covers the foundation for the physiological basis of human behavior. Topics include the structure and function of different brain regions, how neurons communicate, sensory and motor function, and complex brain functions such as speech and cognition. This course also serves as an introduction to the neurobiology of various psychological and neurological diseases.
**Prerequisite:** PSYC 110

## PSYC 299, Applied Statistics, 3 Units

This is an elementary course in basic statistical concepts. Students are introduced to the understanding and use of necessary computational procedures to attain basic skills in the following: frequency distributions, graphs, central tendency, variability, normal curve, probabilities, correlation, hypothesis testing, and chi square. Understanding and use of the above statistics are stressed over mathematical development. Students enrolled in this course may be required to share information regarding their personal life, family, or relationships.
**Prerequisite:** MATH 110 or equivalent

## PSYC 301, Global-Local Cultural Psychology Integration I, 1 Unit

This course prepares students for their semester of study away, introducing them to the cultural, multicultural, social, and ecosystemic contexts of the local study-away culture, including the history, major cultural values, and cultural, sociopolitical, and interpersonal dynamics that inform and situate their study away. Students develop an understanding of the cultural bases for psychological processes of individuals they are likely to engage with during their time abroad, and also develop awareness, self-knowledge, and self-assessment of their skills for engaging in intercultural and multicultural contexts. Students are prepared to advance their cultural self-knowledge and knowledge of diverse others in the formation of cultural competence.
**Prerequisite:** Enrollment in the South Africa Semester and a psychology major.

## PSYC 302, Global-Local Cultural Psychology Integration II, 2 Units

This course facilitates student re-entry from a semester abroad. Students critically analyze their international study experience, synthesizing their gained awareness, knowledge of self and other, and skills in engaging with diverse others during their semester abroad. This course facilitates students translating their advanced knowledge and skills from the cross-cultural context into knowledge and skills that are effective for use in navigating their domestic multicultural context, facilitating their identity formation into ethical and responsible local citizens and emerging professionals.
**Prerequisite:** Students will have returned from study abroad South Africa the previous semester and are psychology majors

## PSYC 305, Educational Psychology, 3 Units

Educational psychology is a broad field of study focusing on the various factors that influence learning and human knowledge. This course provides an overview of the principles and theories used throughout other psychological fields, but in the context of educational psychology. Specifically, this course covers development, culture, motivation, learning, cognition, and learner differences.

## PSYC 320, Social Psychology, 3 Units

How are individuals' thoughts, feelings, and behaviors influenced by other people? In this course, students are encouraged to become careful observers of social influences on human behavior by learning the theories and methods employed by social psychologists in order to apply these perspectives in everyday social interactions.

## PSYC 330, Sports Psychology, 3 Units

Students in this survey course explore the role of psychology as it relates to the enhancement of athletic performance. Course material covers areas related to sports and physical activity, such as motivation, self-confidence, goal setting, burnout, anxiety, healthy attitudes toward sports participation, and other sports-related activity. Emphasis is on critically reviewing sports psychology literature and research in an attempt to separate effective and ineffective psychology-related approaches to sport activity.

## PSYC 340, History of Psychology, 3 Units

The historical growth of psychological science is surveyed here. This course focuses on major theorists and their ideas in relation to the historical context as well as current psychological issues.

## PSYC 345, Psychology of Child and Adolescent Development, 3 Units

This course is an advanced examination of emotional, cognitive, physical, and social development from infancy through adolescence. The process of human development as a complex interaction of biological and sociocultural factors is reviewed. Contemporary research topics focusing on genetics, fertility, attachment, communication, and cognitive and moral aspects of development are examined. *Meets the General Education Requirement: Social Science.*

## PSYC 355, Psychology of Adult Development, 3 Units

This course is an advanced examination of the emotional, cognitive, physical, and social development of individuals from young adulthood through the end of life. The process of adult development as an interplay of biological, psychological, cognitive, and psychosocial aspects is examined. Emphasis is on normal patterns in personal and emotional development in adulthood, as well as on contemporary research in areas of health, gender, marriage and relationships, family and parenting, ethnic/ecological systems, work, ethics, and morality.

## PSYC 360, Abnormal Psychology, 3 Units

The major focus of this course is mental illness and abnormal behavior, in light of modern theory and knowledge. Current trends and modern methods of diagnosis, understanding, treatment, and prevention are discussed.

## PSYC 362, Research Methods in Psychology, 3 Units

Students engage in a comprehensive overview of quantitative and qualitative research methods used in psychological research, and gain an understanding of the ethical considerations and other challenges involved in good research design. Students also complete a research project and learn to write utilizing the style adopted by the American Psychological Association.
**Prerequisite:** PSYC 250 and WRIT 260

## PSYC 370, Industrial/Organizational Psychology, 3 Units

Students survey basic behavioral science research and thinking as they contribute to industrial and organizational psychology, including worker attitudes and theories of motivation, organizational structure and communication, theories of leadership and decision making, conflict resolution, and methods of personnel selection and appraisal.

## PSYC 375, Psychology of Conflict Management and Mediation, 3 Units

Students in this course develop a psychological understanding of the dynamics of human conflict, the differences between constructive and destructive conflict, and the different ways in which conflict can be managed, resolved, and transformed. Students also learn basic skills in the management and resolution of conflict.

## PSYC 380, Psychology of Personality, 3 Units

Students in this course become familiar with the various basic elements of personality and their integration, exploring concepts regarding the basic components of personality and the processes that undergird an individual's growth and behavior. Course material also covers current and traditional theories of personality.

## PSYC 380H, Psychology of Personality - Honors, 3 Units

This course acquaints students with the various basic elements of personality and their integration. Students explore concepts regarding the basic components of personality and the processes that undergird an individual's growth and behavior. The course also reviews current and traditional theories of personality.
**Prerequisite:** PSYC 110 and PSYC 290 or SOCW 310 + SOCW 311. Must also be a student admitted to the Honors College and be considered a member in "active" status.

## PSYC 383, Psychology of Suicide, 3 Units

This course gives students an overview of suicidal behavior, including terminology, statistics, theories, and interventions, that addresses this sensitive topic from a biopsychosocial-spiritual perspective. Students also have opportunities to learn fundamental skills in suicide assessment, safety planning, and interventions to reduce suicide.

## PSYC 385, Health Psychology, 3 Units

This is a survey course exploring the role of psychology as it relates to human physiology and the health field. Topics include basic neurology, stress management, nutrition, addictive substances, immunological disorders, and other relevant psychophysiological areas.

## PSYC 386, Community Psychology, 3 Units

This course introduces students to the field of community psychology, which is concerned with the scientific study of social structures and their influence on individuals, groups, and organizations. The main focus is on the development and application of community-based psychological theory and research toward understanding, designing, implementing, and evaluating social change and empowerment. The roles of research and social action at multiple levels of analysis to facilitate social change are examined.

## PSYC 390, Cognition, 3 Units

This course offers an overview of cognitive psychology. Students discuss theories and research concerning sensation, perception, memory, and other higher-order mental processes including imagery, language, creativity, concept formation, and decision-making.

## PSYC 400, Multicultural Psychology, 3 Units

This course introduces students to cultural and multicultural psychology sub disciplines in psychology. Students develop knowledge of the history, major tenets, theories, research findings and behavioral practices in multicultural psychology. Students also gain understanding of the cultural bases for psychological processes. Students develop awareness, knowledge and skills for engaging in intercultural and multicultural contexts. Students are also asked to advance their cultural self-knowledge as well as knowledge of diverse others in order to develop multicultural competence in working with individuals from diverse backgrounds. *Meets the General Education Requirement: Intercultural Competence.*

## PSYC 400H, Cultural Psychology- Honors, 3 Units

This course presents major psychological theories and practices from a multicultural perspective, emphasizing shared components across cultures. A historical overview of different minority groups in the United States and how these people groups have adjusted and adapted to new cultures is presented. Students explore major psychological theories and practices from a multicultural perspective, with an emphasis on the cultural sources of diversity in thinking, emotion, motivation, self, development, and psychopathology. This course is designed to help individuals begin to understand the need for issues of being culturally competent in working with individuals from diverse backgrounds. *Meets the General Education Requirement: Intercultural Competence.*
**Prerequisite:** PSYC 110. Must be an Honors Program student or non-honors student with a GPA > 3.4

## PSYC 405, Psychology of Learning, 3 Units

This course examines several major theories and research in the psychology of learning, as well as how learning theories have developed historically and how learning principles apply to psychological problems.

## PSYC 407, Psychology of Asian Americans, 3 Units

This course addresses psychosocial issues of the Asian American and Pacific Islander communities. Course material is based on theories and the empirical study of human behavior, and topics include development, relationships, and relevant historical antecedents.

## PSYC 410, Psychology of Exceptional Children, 3 Units

Students in this course examine and analyze the problems faced by the exceptional child. Course material covers physical and emotional adjustment, speech and language disorders, and other physical and mental disorders.

## PSYC 415, Group Process, 3 Units

Students in this course survey the basic behavioral science research and thinking as applied to human interaction in groups. This includes such topics as group formation, phases, structure, types and uses of groups, group communication, group conflict resolution, and methods of group leadership. Course includes the observation and evaluation of group interaction.

## PSYC 420, Political Psychology, 3 Units

This course addresses political phenomena from a psychological perspective, and students are encouraged to develop civic knowledge, apply psychological theory within political contexts, and identify determinants of political behavior. Course content includes political attitudes and identity, leadership and group influence, voting behavior, nationalism, social movements, terrorism, and international conflict/resolution. *Meets the General Education Requirement: Civic Knowledge and Engagement.*

## PSYC 430, Intervention Strategies with Children, 3 Units

This course introduces a broad range of assessment and intervention strategies designed to meet the developmental, psychomotor, language, behavioral, and education needs of children. Issues of normative and non-normative child and family functioning in child assessment and intervention planning are considered. Observational techniques, standardized tests, informal assessment measures, developmental assessments, and alternatives to current testing practices are discussed and reviewed from the viewpoints of the multiple disciplines impacting child assessment and intervention. The broad range of modalities utilized in intervention with children is given strong emphasis, with observation and student practice required at an intervention site.

## PSYC 432, Psychosocial Interventions in Pediatric Health Care, 3 Units

This is a core course in the child life specialist curriculum, covering a wide range of recreational and psychosocial interventions for children who are hospitalized, chronically ill, or have disabilities. Students learn various intervention techniques using developmental play, music, art, dance, and other forms of recreation, and gain understanding of the role of the child life specialist as a member of an interdisciplinary medical team.

## PSYC 440, Psychology of Religion, 3 Units

This course investigates the common ground between psychology and religion. Values, mature religion, the nature of humanity, and religious experience are all areas of study for this purpose.

## PSYC 445, Psychology of the Family, 3 Units

This course provides an overview of the field of family psychology. The three primary areas of study are: family systems theory, the family lifecycle, and several theoretical frameworks for the study of families. Students are given the opportunity to apply these concepts to their own family of origin.

## PSYC 450, Counseling Theory, 3 Units

This course is an introduction to counseling and psychotherapy, with students exploring the underlying assumptions and practices of traditional and contemporary counseling theories. Students also explore common ethical concerns that emerge in counseling relationships.

## PSYC 451, Interventions in Counseling, 3 Units

This course introduces counseling methods and practices; legal and ethical codes of conduct for counseling professionals; community prevention, education, and early intervention methods; interviewing; screening; and interventions in counseling. Students practice basic counseling assessment and intervention methods, including crisis management and safety practices. This course meets criteria for Domain IV of the CCAPP certification requirements.

## PSYC 453, Bilingualism, Biculturalism, and Cognition, 3 Units

This course provides students with an overview of issues in bilingualism and biculturalism from a cognitive perspective. Theories and research concerning knowledge representation, bilingual cognition (language acquisition, production, comprehension, and variations in executive functions), and bicultural cognition (cognitive consequences of culture-specific knowledge) are discussed. Students enrolled in this course may be required to share information regarding their personal life, family, or relationships.

## PSYC 454, Counseling in the Christian Community, 3 Units

Students in this course explore the practice of counseling in Christian and ministry settings, engaging in an interdisciplinary examination of the psychological, cultural, theological, and biblical understandings of mental health care and counseling. Course material also incorporates a survey of counseling theory and practices from an integrative perspective, with attention given to ministry and Christian culture and tradition-based issues.

## PSYC 455, Field Experience, 3 Units

This course is for students who have completed most of the psychology or sociology major requirements. Each student participates in one or more endeavors that offer an opportunity to apply former training in a professional setting while acquiring new knowledge, and students may be required to share information regarding their personal life, family, or relationships. This course can be repeated to a total of 6 units counted toward the major, 9 units toward the degree. *Meets the General Education Requirement: Integrative and Applied Learning.*

## PSYC 462, Research Methods II, 3 Units

The course is designed to further develop students' understanding of research design and the research process in the behavioral sciences. Students investigate at an advanced level the validity threats inherent in the research process and explore a variety of advanced research designs. Students have the opportunity to utilize various designs in their own research endeavors and learn to use SPSS for the analysis of their own research endeavors and data.

## PSYC 463, Drugs, Behavior, and Society, 3 Units

This course provides an overview of drug use historically and in contemporary society from community and biopsychosocial perspectives. Students engage in an in-depth study of various psychoactive drugs of abuse, considering the physiological, psychosocial, health, legal, and political aspects of drugs. Course material covers drug-taking risk behaviors and issues related to dependence among high-risk populations. Strategies for drug abuse prevention/education and intervention approaches are also examined.

## PSYC 464, Substance Use Assessment and Interventions, 3 Units

Students in this course gain an in-depth understanding of empirically driven and theoretically grounded assessments and interventions for substance use issues, focusing on how to engage in effective screening and assessment protocols for substance use problem identification and service planning. Students participate in practical application of evidence-based interventions, including the use of case studies and a variety of practice exercises. Course material integrates foundational assessment and intervention models for addressing co-occurring mental health needs, family system issues, and patient-centeredness, including spirituality.

## PSYC 466, Case Management in Mental Health and Substance Use Disorders, 3 Units

This course offers an overview of the theory, structure, and practice of case management. Students gain an understanding of the professional practice of case management, including scope and responsibilities, multidisciplinary and ecological systems engagement, cultural and diversity factors, and ethical and legal issues. Students develop skills in effective communication, clinical documentation, case management facilitation, managing interpersonal and individual dynamics, case management interviewing, intervention planning, and implementation of services.

## PSYC 470, Cognitive Neuroscience, 3 Units

Cognitive neuroscience is the study of the relationship between cognitive processes and the brain. Students first learn about the major research methods in this field, such as lesion studies, brain imaging, and animal models, then learn how these methods have been used to inform our understanding of the neural correlates of memory, decision making, perception, and social cognition.

## PSYC 472, Neurological and Behavioral Disorders, 3 Units

This course examines the neurobiology of various psychological and neurological diseases. Neurological disorders covered include developmental, tumors, seizures, strokes, traumatic brain injury, neurodegenerative, and infectious disease. Behavioral disorders include schizophrenia, major affective disorders, anxiety disorders, autism, attention-deficit hyperactivity disorder, stress disorders, sleeping and eating disorders. The neurobiology of drug abuse will be analyzed based on common features of addiction, pathways affected by commonly abused drugs and heredity factors.

## PSYC 475, Research Experience, 3 Units

Students in this course improve their research skills and integrate their knowledge, skills, and interests by conducting a comprehensive research project. Successful completion of the course results in an APA-style paper or submission of a paper or poster presentation to a professional organization or in a professional setting. Concurrent enrollment in another research practicum course is permitted, and 12 units of research experience in PRPS 475 can be counted toward the bachelor's degree requirements. *Meets the General Education Requirement: Integrative and Applied Learning.*

## PSYC 480, Psychological Testing and Measurement, 3 Units

Students gain a thorough background in objective tests and measurements. A brief survey is offered in intelligence, personality, organization, and industrial psychological measures. Terminology is developed, dangers and advantages of psychological instruments are discussed, and each student is required to administer and interpret a number of instruments. Special materials fee applies. Course is offered to juniors, seniors, and graduate students only.

## PSYC 485, Stress and Coping, 3 Units

This course provides an overview of stress and coping theory as it has developed in the research literature in the last century. The interrelationships between stress and mental illness, medical diseases, and industrial-organizational factors are discussed. Students develop a basic understanding of stress as it relates to trauma and posttraumatic symptomology. Students gain an understanding of basic stress management and coping techniques and their clinical applications.

## PSYC 490, Latinx Psychology, 3 Units

This course offers an overview of psychology research and theoretical underpinnings of Latinxs in the U.S. cultural context. Students explore the following major themes as they relate to psychological functioning, health, and well-being: the historical presence of Latinxs (including colonialism and historical trauma), the complicated nature of racial identity and ethnic identity, and the roles of immigration and acculturation, racism and discrimination, spirituality and faith, and social justice and advocacy in different contexts (e.g., healthcare, education, and justice systems). Course learning is structured around (a) community building within the classroom, (b) testimonios (or personal narratives) that highlight racial and ethnic identity development, intersectionality, and critical awareness, and (c) conscientizacao (critical conscientization-action) by engaging in volunteer or research projects taking place in the local community (e.g., healthcare settings, churches, schools).
**Prerequisite:** PSYC 110

## PSYC 494, Professional Studies in Child Life, 3 Units

This course helps students gain a broad understanding of the field of child life and equips them with the knowledge of the history and trends of the child life profession, as required by the Association of Child Life Professionals. Course content includes: 1) Scope of practice in child life, 2) child life documents, 3) impact of illness/injury and health care on patients and families, 4) family-centered care, 5) therapeutic play, and 6) preparation. Additional topics include, but are not limited to, clinical assessment, child life theoretical foundations, development and hospital stressors, and introduction to exceptional and medically challenged children.

## PSYC 495, Special Topics in Psychology, 3 Units

This course engages students in focused study of particular topics of direct relevance or urgency in the field of psychology which are not already discussed in the curriculum. Topics vary from semester to semester and may reflect new practices, theories, or faculty research interests in the field. This course may be taken more than once as topics change.

## PSYC 496, Writing 3: Senior Seminar in Psychology and Christian Integration, 3 Units

Students in this course discuss and critically evaluate the core ideas in the integration of psychology and the Christian faith, exploring the 4-5 established approaches for how to integrate what is known from psychological science and what is known from biblical hermeneutics and theology. Upon completion of the course, students are able to define and communicate an awareness of the issues and various approaches for integration, as well as identify and communicate the application of the integration of psychology and the Christian faith in their own lives and practice of psychology. This writing-intensive course develops students' ability to think critically and construct complex arguments related to psychology and Christianity. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*
**Prerequisite:** Senior standing and WRIT 260.

## PSYC 496H, Senior Seminar: Psychology and Christian Integration - Honors, 3 Units

This class discusses and critically evaluates the core ideas in the integration of psychology and the Christian faith by teaching the four to five established approaches for how to integrate what is known from psychological science and what is known from Biblical hermeneutics and theology. Upon completion of the course, students are able to define and communicate an awareness of the issues and various approaches for integration. Students are also able to identify and communicate the application of the integration of psychology and the Christian faith in their own lives and practice of psychology.
**Prerequisite:** Senior standing, PSYC 110, completion of the UDWI req (PSYC 362), and completion of the units required for God's Word and the Christian Response. Must be a student admitted to the Honors Collegeand be considered a member in "active" status

## PSYC 497, Readings, 1-4 Units

This is a program of study concentrating on assigned readings, discussions, and writing arranged between, and designed, by a student of upper-division standing and a full-time professor. An independent study fee is assessed for each enrollment in this class.

## PSYC 498, Directed Research, 1-4 Units

This course provides instruction in research design and technique and gives students experience in the research process. The 1-unit expectation encompasses no fewer than 30 hours of work with accompanying reading, log, writing, and seminar presentation within the department or in a university research symposium. No more than 1 unit may be used to fulfill preparatory readings requirement. An independent-study fee is assessed for each enrollment in this class.

## PSYC 498H, Directed Research- Honors, 1-4 Units

This course provides instruction in research design and technique, and gives students experience in the research process. The one-unit expectation encompasses no fewer than 30 hours of work with accompanying reading, log, writing, and seminar presentation within the department or in a university research symposium. No more than one unit may be used to fulfill preparatory readings requirement. An independent study fee is assessed for each enrollment in this class.
**Prerequisite:** Honors College, PSYC 110, and Junior or Senior standing

## PSYC 499, Thesis/Project, 1-4 Units

This is a senior-level "capstone" type of independent study/research experience, involving the student in a unique project with a sophisticated level of research, synthesis, analysis, and communication. The 1-unit expectation encompasses no fewer than 30 hours of work with accompanying readings, log, instructor discussions, and writing of summary analysis and conclusions. The thesis or project may result in formal thesis, published article, electronic media, or artistic creation of a material form. No more than 1 unit may be used to fulfill preparatory readings requirement. An independent study fee is assessed for each enrollment in this class.

## PSYC 501, Theory, Research and Practice in Psychology, 3 Units

This course provides an intensive review of major historical and contemporary theories, research and practice approaches in the field of psychology. Emphasis is on examining the key questions, proposed models, methods, findings, ideological controversies, and issues within the field of psychology. The course covers the various grand and emergent theories to foster dialogue that evaluates the science across psychological sub-disciplines, spanning: general principles of human development, neurological bases of behavior, cognitive functioning, systemic socio-cultural factors, and individual health differences. Students engage in theoretical analyses of current trends in basic and applied theory, research, and practices of psychology across various sub-disciplines, as well as how individuals function with consideration of a Christian worldview.
**Prerequisite:** Must be first year student in the Master of Science in Research Psychology and Data Analysis program or instructor approval.

## PSYC 511, Experimental Research Methods, 3 Units

This course will build on your knowledge of the information learned in your undergraduate research methods course with an emphasis on experimental methodology. This course will cover a variety of topics including the basics of conducting experimental designs, ethical guidelines for conducting experimental psychological research, validity issues associated with different experimental research designs, and various methods of both collecting and analyzing data, including psychometric issues associated with different psychological measures. This will be accomplished by combining traditional lectures with application of principles through application and demonstration.

## PSYC 512, Non-Experimental Research Methods, 3 Units

This course provides an in-depth study of how to plan, conduct, and analyze studies that use non-experimental research designs, including correlational, survey, and qualitative methods. This course encourages students to identify core areas of descriptive psychological research and begin building a strong research concept about those areas-especially in regard to the application of non-experimental observational research designs.

## PSYC 517, Program Evaluation, 3 Units

This course provides students with foundational knowledge and skills in the basic methods of evaluation research. Course topics include common methods of evaluation, including systematic needs assessments, formative research, program performance, and outcome effectiveness, using mixed-methods research approaches. Students also engage in discussions about ethical considerations and other challenges involved in good evaluation design and methods. Through class lectures, reading, and interactive skill-building applications, students apply course material in group and individual assignments.
**Prerequisite:** PSYC 511, PSYC 512

## PSYC 518, Analysis of Variance, 3 Units

Analysis of variance (ANOVA) is a common statistical technique used by research psychologists to analyze differences in their data. This course focuses on introductory and advanced ANOVA methods and ANOVA's relation to psychological research; advanced ANOVA methods covered in this course include repeated measure, mixed design, ANCOVA, and MANOVA. Students learn to implement these methods, analyze findings, and report the findings for APA-style journal publications. Use of multiple popular statistical software programs is emphasized.
**Prerequisite:** MATH 110 or equivalent;
**Corequisite:** PSYC 518L

## PSYC 518L, Analysis of Variance Lab, 1 Unit

In this course, the lab component to PSYC 518, students apply the statistical analysis knowledge from PSYC 518 to computational procedures using popular social science statistical software. Additionally, this course can be used to fulfill requirements for the JMP/SAS certification.
**Corequisite:** PSYC 518

## PSYC 519, Regression, 3 Units

This advanced statistics course covers introductory and advanced regression analyses utilized throughout psychological research. Some of the topics covered are correlation, multiple regression, hierarchical regression, mediation/moderation, and logistic regression. Students learn to identify the appropriate regression analysis for different types of research questions, practice interpreting the results of the analyses in popular statistical software, and learn how to clearly report regression findings for APA-style journal publications. Use of multiple popular statistical software programs is emphasized.
**Prerequisite:** B- or better in PSYC 518;
**Corequisite:** PSYC 519L

## PSYC 519L, Regression Lab, 1 Unit

This is the lab component to PSYC 519. In this lab course, students apply the statistical analysis knowledge from PSYC 519 to computational procedures using popular social science statistical software. Additionally, this course can be used to fulfill requirements for the JMP/SAS certification.
**Corequisite:** PSYC 519

## PSYC 520, Psychometrics: Assessment and Measurement, 3 Units

Students in this course learn to apply classical and modern psychometric theories to develop and validate psychological tests and scales for data collection. Some of the topics included are instrument construction, reliability, validity, factor analysis, and item response theory. Students gain hands-on experience in developing a psychological instrument and analyzing the psychometric properties of previously created scales. Use of multiple popular statistical software programs is emphasized.
**Prerequisite:** B- or better in PSYC 518;
**Corequisite:** PSYC 520L

## PSYC 520L, Psychometrics: Assessment and Measurement Lab, 1 Unit

This is the lab component to PSYC 520. In this lab course, students apply the statistical analysis knowledge from PSYC 520 to computational procedures using popular social science statistical software. Additionally, this course can be used to fulfill requirements for the JMP/SAS certification.
**Corequisite:** PSYC 520

## PSYC 521, Faith Integration and Research Seminar, 3 Units

This course explores the nature of integrating psychology and religion/faith. It considers the functions and skills, as well as the theoretical modes of thought necessary for understanding the relationship between psychological research and religion. Focus is placed on the skills of research, constructive dialogue and writing. The course is intended to provide students with resources for developing their own approach to integration while also helping students clarify their own faith, morals and values that intersect with psychological research.

## PSYC 522, Seminar in Ethical, Professional, and Diversity Issues, 3 Units

This course introduces students to research and professional issues in psychology, with an emphasis on ethics and diversity. Students will learn to recognize the importance of ethical behavior in all aspects of science as well as how sociocultural factors and personal biases may shape the practice of psychology. Emphasis is given to the integration of the student's spiritual and sociocultural philosophy with professional ethics. Historical and contemporary issues in basic and applied psychological research and interventions are reviewed.

## PSYC 523, Interventions for Trauma and Crisis, 3 Units

This course helps students understand the neurobiological, cognitive, and emotional dynamics that underlie trauma-related mental health disorders. Students identify and apply effective interventions for the treatment of children and adolescents impacted by trauma, grief, and/or crisis, as well as the common co-occurring behavioral concerns. This course prepares students to effectively select appropriate evidence-based counseling interventions with diverse children and youth. The contextual dynamics of crises and trauma, family, social environments, and multicultural issues are addressed.
**Prerequisite:** PSYC 527, PSYC 532, and PSYC 558

## PSYC 524, Counseling Adolescents, 3 Units

This course helps students understand the broad range of adolescent problems and disorders. A variety of psychotherapeutic modalities is presented, providing students an opportunity to develop basic adolescent-therapy skills and effective treatment strategies. The impact of development, family dynamics, social environments, and multicultural issues is addressed, and legal and ethical issues unique to adolescent populations are considered.
**Prerequisite:** PSYC 527, PSYC 532, and PSYC 558

## PSYC 525, Principles and Practice of Assessment and Evaluation, 3 Units

Students in this course gain a broad understanding of the clinical use of psychological tests, assessment, and evaluation in the treatment of emotional, behavioral, and mental health concerns within the context of human diversity and social contexts and systems. Emphasis is on understanding the reliability, validity, and utility of psychological testing, developing skills in administering and interpreting appropriate assessment measures, and utilizing findings in treatment planning and report writing. Particular attention is given to the assessment of children and youth and to diversity issues, and the course meets BBS requirements for spousal or partner abuse assessment, detection, and intervention strategies; same-gender-abuse dynamics; and suicide risk assessment and intervention.
**Prerequisite:** PSYC 527

## PSYC 526, Multicultural Counseling, 3 Units

Students in this course learn multicultural counseling theories and techniques as they explore the counselor's role in developing cultural self-awareness, identity development, and promoting cultural social justice. Individual and community strategies for working with and advocating for diverse populations, and eliminating biases and intentional and unintentional oppression and discrimination, are discussed. Students develop an understanding of the effects of socioeconomic status on treatment and available resources, as well as cultural competency and sensitivity, and are introduced to the racial, cultural, linguistic, and ethnic backgrounds of people living in California.

## PSYC 527, Diagnosis and Treatment Planning, 3 Units

This course helps students understand the role and categories of psychopathology utilized in the assessment and treatment of individuals broadly and with an emphasis on children and adolescents. Students develop their diagnostic and analytical skills through a mastery of the concepts in the Diagnostic and Statistical Manual of Mental Disorders. Special consideration is given to co-occurring and comorbid disorders that are common in substance users and among children and youth. This course also introduces the basics of treatment planning, including diagnostic conceptualization, ecosystemic assessment, and the formulation of treatment goals and intervention strategies. Diversity issues in diagnosis and treatment planning are also considered.

## PSYC 528, Treatment of Substance Use Disorders in Youth and Families, 3 Units

This course prepares students to engage in counseling practices related to substance abuse recovery, addiction, and co-occurring disorders. Students learn the major approaches to identification, evaluation, treatment, and prevention of substance abuse and addiction, the legal and medical aspects of substance abuse, what populations are at risk, and the role of case management, including the involvement of support people and support systems and the utilization of community resources. Issues of substance use are considered within diverse communities and family dynamics.
**Prerequisite:** PSYC 527, PSYC 532, and PSYC 558

## PSYC 529, Group Counseling, 3 Units

This course helps students understand group counseling theories and techniques, including principles of group dynamics, group process components, group developmental stage theories, therapeutic factors of group work, group leadership styles and approaches, pertinent research and literature, group counseling methods, and evaluation of effectiveness. Students consider group counseling children and youth from a variety of clinical, cultural, community/milieu, and developmental contexts. Identifying, planning, and implementing best practices in group counseling is addressed.
**Prerequisite:** PSYC 527, PSYC 532, and PSYC 558

## PSYC 530, Evidence-Based Practices in the Treatment of Children and Youth, 3 Units

This course helps students understand the importance of utilizing evidence-based interventions and techniques that are consistent with current professional research and practice with children and adolescents. Evidence-based practice in psychology is the integration of the best available research with clinical expertise in the context of patient characteristics, culture, and preferences. This course prepares students to effectively select appropriate evidence-based counseling interventions with diverse children and youth, as a variety of psychotherapeutic intervention strategies are presented. The contextual dynamics of development, family, social environments, and multicultural issues are addressed.
**Prerequisite:** PSYC 532 and PSYC 558

## PSYC 531, Ethics and Professional Issues, 3 Units

This course helps students understand professional, ethical, and legal issues in counseling and psychotherapy from ACA and APA professional lenses. Students are introduced to California laws and regulations governing the practice of counseling and licensing as a professional clinical counselor. Students learn to navigate common ethical and legal situations that arise in counseling generally, as well as those that emerge when counseling children and youth specifically. Clinical case management, professionalism, and professional self-care are also considered.
**Prerequisite:** PSYC 527, PSYC 532, and PSYC 558

## PSYC 532, Theories of Counseling and Therapy, 3 Units

This course helps students understand the broad range of counseling and psychotherapeutic theories and techniques that are consistent with current professional research and practice. Students learn to effectively engage counseling processes in a multicultural society, select appropriate counseling interventions, develop a personal model of counseling, effectively respond to crises, and promote human wellness and the prevention of emotional and behavioral disorders. A variety of psychotherapeutic modalities is presented. The contextual dynamics of development, family, social environments, and multicultural issues are addressed.

## PSYC 533, Externalizing and Dysregulation Disorders, 3 Units

This course helps students understand the neurodevelopmental basis of behavioral dysregulation, deficits of executive functioning, common comorbid disorders with neurodevelopmental issues, mental health disorders characterized by externalizing behavior, and disorders with primary behavioral symptoms. Students learn to identify and apply effective and appropriate evidence-based counseling interventions for the treatment of diverse children and adolescents with behavioral disorders. Various psychotherapeutic intervention strategies are presented, and the contextual dynamics of development, family, social environments, and multicultural issues are addressed.
**Prerequisite:** PSYC 527, PSYC 532, and PSYC 558

## PSYC 534, Family Systems Theory and Counseling, 3 Units

This course is an overview of current theories and methods of family therapy interventions, with an emphasis on how family therapy integrates diversity issues (e.g., ethnicity, socioeconomic status, spirituality, blended families) during the clinical hour. Coursework explores the major theories, their founding clinicians, and some of their contemporaries, and emphasizes clinical application of material through working with families with children and youth.
**Prerequisite:** PSYC 532 and PSYC 558

## PSYC 535, Therapies for Attachment and Internalizing Disorders, 3 Units

This course helps students understand the developmental relational, social, and emotional dynamics that underlie internalizing mental health disorders. Students identify and apply effective interventions for the treatment of children and adolescents with anxiety, depressive, and attachment disorders, as well as the common co-occurring behavioral concerns. This course prepares students to effectively select appropriate evidence-based counseling interventions with diverse children and youth. Various psychotherapeutic intervention strategies are presented. The contextual dynamics of development, family, social environments, and multicultural issues are addressed.
**Prerequisite:** PSYC 527, PSYC 532, and PSYC 558

## PSYC 536, Play Therapy: History, Theories, and Interventions, 3 Units

Students in this course learn the principles and practices of play therapy, and are prepared to effectively engage in developmentally and clinically appropriate play-based counseling with children, select appropriate interventions, develop a personal model of play therapy, and effectively respond to a variety of clinical concerns utilizing play-based assessment and treatments.
**Prerequisite:** PSYC 532 and PSYC 558

## PSYC 537, Family Therapy II: Advanced Training, 3 Units

This course features intensive training in evidence-based and best-practice models of couples therapy. Students receive certification in Gottman Method Couples Therapy Level 1 (12 hours) and Level 2 (18 hours), as well as certification in Dr. Sue Johnson's Emotionally Focused Therapy: Attachment-Based Interventions for Couples in Crisis (17 hours). Students participate in the trainings online between class sessions, and engage in active processing and application of the material during course meetings.

## PSYC 538, Jungian Therapy and Sandplay, 3 Units

Students in this course examine and analyze Jungian therapy and the use of sandplay, which is a nonverbal therapeutic process for children and families. Students will explore applications to a variety of populations and therapeutic contexts.
**Prerequisite:** PSYC 536

## PSYC 539, Play and Play Therapy Across the Lifespan, 3 Units

This course is taught through experiential and lecture methods to provide knowledge and skill competencies to facilitate play therapy as a therapeutic intervention for children and families. Students learn principles and applications of play therapy with children, adolescents, adults, and the aging population, and become familiar with theories of play therapy microskills used at each stage of life.
**Prerequisite:** PSYC 536

## PSYC 540, Gestalt Play Therapy and Interventions, 3 Units

This course is taught through experiential and lecture methods to provide knowledge and skill competencies to facilitate play therapy as a therapeutic intervention for children and families. Course material gives students the philosophical basis for play therapy, including a review of the history of Gestalt play therapy, how to develop a relationship with a child through a Gestalt theoretical framework, and an introduction to various theoretical applications and play therapy best practices.

## PSYC 541, Play Therapy with Special Populations, 3 Units

Students learn theoretical and applied play therapy skills for the assessment and treatment of clients with mental health issues associated with trauma and complex trauma, medical illness and comorbid diagnoses, developmental considerations (such as autism spectrum), psychosis, and other types of psychopathology.
**Prerequisite:** PSYC 536

## PSYC 542, Practicum I, 3 Units

This course gives counseling psychology graduate students an initial clinical counseling experience, requiring them to verify 140 hours of face-to-face clinical experience counseling individuals, families, or groups under the supervision of on-campus faculty and BBS-qualified site supervisors. This course provides oversight and consultation for students' clinical placement, and further development of clinical skills, focusing on management of crisis issues, legal/ethical practice, diagnosis, prognosis, multicultural treatment, treatment planning, application of theory to actual clients, integration, and case management services. Clinical work is discussed from public mental health and private practice perspectives. Students must be serving at an APU-approved training site to be enrolled in this course.
**Prerequisite:** Program director permission

## PSYC 543, Practicum II, 3 Units

As the final evaluative component of the M.S. in Counseling Psychology program, this course includes a capstone clinical project in which students formally present a clinical case including the following elements: case assessment and conceptualization, treatment plan and process, evidence-based support for treatment strategy, and outcomes and prognosis based on identified factors related to risk and resilience as specified by the literature base. This course also requires students to verify 140 hours of face-to-face clinical experience counseling individuals, families, or groups under the supervision of on-campus faculty and Board of Behavioral Sciences-qualified site supervisors, who also offer students consultation and the further development of clinical skills. Course emphases include management of crisis issues, legal/ethical practice, diagnosis, prognosis, multicultural treatment, treatment planning, application of theory to actual clients, integration, and case management services. Clinical work is discussed from public mental health and private practice perspectives.
**Prerequisite:** PSYC 542

## PSYC 544, Practicum Extension, 2 Units

This course gives counseling psychology graduate students a clinical counseling experience. Students in this course must verify completion of 280 hours of face-to-face supervised clinical experience counseling individuals, families, or groups under the supervision of on-campus faculty and site supervisors who are qualified as Board of Behavioral Sciences (BBS) supervisors. This course provides oversight and consultation for student clinical placement and the further development of clinical skills, focusing on management of crisis issues, legal/ethical practice, diagnosis, prognosis, multicultural treatment, treatment planning, application of theory to actual clients, integration, and case management services. Clinical work is discussed from public mental health and private practice perspectives. Students must be serving at an APU-approved training site to be enrolled in this course.

## PSYC 545, Play Therapy with Bereaved Children and Families, 3 Units

Students learn principles and applications of play therapy with children and families, and take skills learned in the course and apply them in the field during a weeklong grief and loss camp for the community. Students assess camp participants at intake, use therapeutic interventions to provide space for children to express their grief and loss, and apply therapeutic skills throughout the camp. Hours gained in the field are directly applied to practicum experience.
**Prerequisite:** PSYC 536

## PSYC 551, Research Methods in Counseling, 3 Units

Students in this course survey the major social science research and statistical methods used in conducting research, needs assessments, and program evaluation. Course material equips students to read, understand, and evaluate psychological research, and prepares them to use research to inform evidence-based practice and understand the importance of research in advancing the profession of counseling.

## PSYC 555, Career Development, 3 Units

This course helps students understand the role of the professional counselor in facilitating career planning and development of youth and emerging adults. Students explore occupational and career education trends and career counseling theories and practices that promote equity and diversity. This course prepares students to facilitate individual education and career planning and implementation of plans. Students explore the relationship between general well-being, mental health, and education and career trajectories. Career counseling needs of special populations (e.g., mid- and late-life career changes, persons with disabilities) and at-risk populations are addressed.
**Prerequisite:** PSYC 527, PSYC 532, and PSYC 558

## PSYC 558, Advanced Developmental Psychology, 3 Units

This course helps students understand human growth and development across the lifespan, including normal and abnormal behavior, developmental crises, disability, psychopathology, and situational and environmental factors that affect normal and abnormal behavior. Students consider the impact of socioeconomic status and other contextual issues affecting social position and development, and explore the assessment and treatment of clinical concerns related to human sexuality and domestic violence across the lifespan and among diverse populations. Students also complete their Board of Behavioral Sciences-required study of aging and long-term care in this course.

## PSYC 578, Research Practicum, 1-3 Units

This course gives students the opportunity to apply their research and statistical skills in a professional research setting at a practicum site. These skills include, but are not limited to, data cleaning, data analysis, research preparation, and report writing.
**Prerequisite:** PSYC 518 and PSYC 518L

## PSYC 585, Psychopharmacology and Psychobiology, 3 Units

This course introduces students to the biological and neurological bases of human behavior, and to psychotropic medications as an adjunct to psychotherapy. Current information on the use of medications in the treatment of psychological disorders is provided, and consideration is given to the special needs of certain populations (e.g., the elderly and substance abuse patients) when prescribing psychotropic medications. Students develop skills in case management by gaining an understanding of psychotropic medication indications, dosage scheduling, effects, and side effects as part of the therapeutic practice.

## PSYC 588, Research Internship, 3 Units

Students in this course obtain an internship in which they apply knowledge acquired during their master's program, helping them develop their skills in the field of research and/or data analytics. All internship sites must be preapproved and satisfy the learning outcomes of this course.
**Prerequisite:** 6 units of PSYC 578

## PSYC 595, Special Topics, 3 Units

This course engages students in focused study of particular topics of direct relevance or urgency in the field of psychology which are not already discussed in the curriculum. Topics vary from semester to semester and may reflect new practices, theories, or faculty research interests in the field. This course may be taken more than once as topics change.

## PSYC 597, Introduction to Grant and Professional Writing, 3 Units

This seminar course helps students develop and implement the theoretical foundation and methodological procedures needed to complete a Master of Science thesis in the Department of Psychology by the end of the academic year. This course guides students through the planning and execution of a master's thesis, including topic selection/refinement, thesis planning, training in the responsible conduct in research and human subjects regulatory protocols, grant funding for student research, thesis-driven data collection, data analysis, and writeup/dissemination in an organized, coherent form. The course also helps students develop their theses into scholarly presentations and manuscripts suitable for publication. A thesis is completed when the student has successfully defended it to a two-person committee comprising the thesis faculty advisor and one full-time faculty second reader.

## PSYC 598, Thesis Seminar, 1-3 Units

The main objective of this seminar course is to help students develop and implement the theoretical foundation and methodological procedures needed to complete a master's thesis in the Department of Psychology by the end of the academic year.

## PSYC 599, Independent Study: Psychology Research, 1-6 Units

This course provides instruction in research and gives students experience in research processes related to their area of study. An independent study fee is assessed for each enrollment in this class.

## PRPS 110, General Psychology, 3 Units

Students in this general survey course explore the field of psychology, including human development, social psychology, learning, perception, cognition, motivation, personality, psychological testing, and nervous system functioning. *Meets the General Education Requirement: Social Science.*

## PRPS 250, Data Analysis in Psychology, 3 Units

This course introduces students to statistical analyses that are common in psychological research. Students learn to identify the appropriate analysis, how to run the statistical analysis in SPSS, and how to interpret SPSS output. Students are also introduced to writing results in American Psychological Association (APA) style.
**Prerequisite:** PRMA 130

## PRPS 280, Introduction to Certified Alcohol Drug Counselor Credentialing, 3 Units

Students in this course examine the effects of alcoholism and drug dependency, specifically as they relate to cultural/lifestyle considerations, human behavior, and family dynamics. Course material also considers the substance use system of care, including its programs, policies, and procedures for the treatment and recovery of individuals suffering from substance use disorders. This is the first course in a series designed to meet the educational requirements for California Consortium of Addiction Programs and Professionals (CCAPP) credentialing.

## PRPS 290, Human Growth and Development, 3 Units

This study of human development across the life span emphasizes a multidisciplinary perspective, including such areas as psychology and sociology, processes as social interaction, and the tools for applying developmental psychology to life situations. *Meets the General Education Requirement: Social Science.*

## PRPS 292, Introduction to Brain and Behavior, 3 Units

The purpose for this course is to provide a foundation of the physiological basis of human behavior. Topics include the structure and function of different brain regions, how neurons communicate, sensory and motor function, and complex brain functions such as speech and cognition. This course serves as an introduction to the neurobiology of various psychological and neurological diseases.

## PRPS 305, Educational Psychology, 3 Units

Educational psychology is a broad field of study focusing on the various factors that influence learning and human knowledge. This course provides an overview of the principles and theories used throughout other psychological fields, but in the context of educational psychology. Specifically, this course covers development, culture, motivation, learning, cognition, and learner differences.

## PRPS 320, Social Psychology, 3 Units

How are individuals' thoughts, feelings, and behaviors influenced by other people? In this course, students are encouraged to become careful observers of social influences on human behavior by learning the theories and methods employed by social psychologists in order to apply these perspectives in everyday social interactions.

## PRPS 330, Sports Psychology, 3 Units

Students in this survey course explore the role of psychology as it relates to the enhancement of athletic performance. Course material covers areas related to sports and physical activity, such as motivation, self-confidence, goal setting, burnout, anxiety, healthy attitudes toward sports participation, and other sports-related activity. Emphasis is on critically reviewing sports psychology literature and research in an attempt to separate effective and ineffective psychology-related approaches to sport activity.

## PRPS 340, History of Psychology, 3 Units

The historical growth of psychological science is surveyed here. This course focuses on major theorists and their ideas in relation to the historical context as well as current psychological issues.

## PRPS 345, Psychology of Child and Adolescent Development, 3 Units

This course is an advanced examination of emotional, cognitive, physical, and social development from infancy through adolescence. The process of human development as a complex interaction of biological and sociocultural factors is reviewed. Contemporary research topics focusing on genetics, fertility, attachment, communication, and cognitive and moral aspects of development are examined. *Meets the General Education Requirement: Social Science.*

## PRPS 355, Psychology of Adult Development, 3 Units

This course is an advanced examination of the emotional, cognitive, physical, and social development of individuals from young adulthood through the end of life. The process of adult development as an interplay of biological, psychological, cognitive, and psychosocial aspects is examined. Emphasis is on normal patterns in personal and emotional development in adulthood, as well as on contemporary research in areas of health, gender, marriage and relationships, family and parenting, ethnic/ecological systems, work, ethics, and morality.

## PRPS 360, Abnormal Psychology, 3 Units

The major focus of this course is mental illness and abnormal behavior in light of modern theory and knowledge. Current trends and modern methods of diagnosis, understanding, treatment, and prevention are discussed.

## PRPS 362, Research Methods in Psychology, 3 Units

Students engage in a comprehensive overview of quantitative and qualitative research methods used in psychological research, and gain an understanding of the ethical considerations and other challenges involved in good research design. Students also complete a research project and learn to write utilizing the style adopted by the American Psychological Association.
**Prerequisite:** PRPS 250 and PRWR 260

## PRPS 370, Industrial/Organizational Psychology, 3 Units

Students survey the basic behavioral science research and thinking as they contribute to industrial and organizational psychology, including worker attitudes and theories of motivation, organizational structure and communication, theories of leadership and decision making, conflict resolution, and methods of personnel selection and appraisal.

## PRPS 375, Psychology of Conflict Management and Mediation, 3 Units
Students in this course develop a psychological understanding of the dynamics of human conflict, the differences between constructive and destructive conflict, and the different ways in which conflict can be managed, resolved, and transformed. Students also learn basic skills in the management and resolution of conflict.

## PRPS 380, Psychology of Personality, 3 Units
Students in this course become familiar with the various basic elements of personality and their integration, exploring concepts regarding the basic components of personality and the processes that undergird an individual's growth and behavior. Course material also covers current and traditional theories of personality.

## PRPS 383, Psychology of Suicide, 3 Units
This course gives students an overview of suicidal behavior, including terminology, statistics, theories, and interventions, that addresses this sensitive topic from a biopsychosocial-spiritual perspective. Students also have opportunities to learn fundamental skills in suicide assessment, safety planning, and interventions to reduce suicide.

## PRPS 385, Health Psychology, 3 Units
This is a survey course exploring the role of psychology as it relates to human physiology and the health field. Topics include basic neurology, stress management, nutrition, addictive substances, immunological disorders, and other relevant psychophysiological areas.

## PRPS 386, Community Psychology, 3 Units
This course introduces students to the field of community psychology, which is concerned with the scientific study of social structures and their influence on individuals, groups, and organizations. The main focus is on the development and application of community-based psychological theory and research toward understanding, designing, implementing, and evaluating social change and empowerment. The roles of research and social action at multiple levels of analysis to facilitate social change are examined.

## PRPS 390, Cognition, 3 Units
This course offers an overview of cognitive psychology. Students discuss theories and research concerning sensation, perception, memory, and other higher-order mental processes including imagery, language, creativity, concept formation, and decision making.

## PRPS 400, Multicultural Psychology, 3 Units
This course introduces students to cultural and multicultural psychology sub disciplines in psychology. Students develop knowledge of the history, major tenets, theories, research findings and behavioral practices in multicultural psychology. Students also gain understanding of the cultural bases for psychological processes. Students develop awareness, knowledge and skills for engaging in intercultural and multicultural contexts. Students are also asked to advance their cultural self-knowledge as well as knowledge of diverse others in order to develop multicultural competence in working with individuals from diverse backgrounds. *Meets the General Education Requirement: Intercultural Competence.*

## PRPS 405, Psychology of Learning, 3 Units
This course examines several major theories and research in the psychology of learning, as well as how learning theories have developed historically and how learning principles apply to psychological problems.

## PRPS 410, Psychology of Exceptional Children, 3 Units
Students in this course examine and analyze the problems faced by the exceptional child. Course material covers physical and emotional adjustment, speech and language disorders, and other physical and mental disorders.

## PRPS 415, Group Process, 3 Units
Students in this course survey the basic behavioral science research and thinking as applied to human interaction in groups. This includes such topics as group formation, phases, structure, types and uses of groups, group communication, group conflict resolution, and methods of group leadership. Course includes the observation and evaluation of group interaction.

## PRPS 420, Political Psychology, 3 Units
This course addresses political phenomena from a psychological perspective, and students are encouraged to develop civic knowledge, apply psychological theory within political contexts, and identify determinants of political behavior. Course content includes political attitudes and identity, leadership and group influence, voting behavior, nationalism, social movements, terrorism, and international conflict/resolution. *Meets the General Education Requirement: Civic Knowledge and Engagement.*

## PRPS 430, Intervention Strategies with Children, 3 Units
This course introduces a broad range of assessment and intervention strategies designed to meet the developmental, psychomotor, language, behavioral, and education needs of children. Issues of normative and non-normative child and family functioning in child assessment and intervention planning are considered. Observational techniques, standardized tests, informal assessment measures, developmental assessments, and alternatives to current testing practices are discussed and reviewed from the viewpoints of the multiple disciplines impacting child assessment and intervention. The broad range of modalities utilized in intervention with children is given strong emphasis, with observation and student practice required at an intervention site.

## PRPS 432, Psychosocial Interventions in Pediatric Health Care, 3 Units

This is a core course in the child life specialist curriculum, covering a wide range of recreational and psychosocial interventions for children who are hospitalized, chronically ill, or have disabilities. Students learn various intervention techniques using developmental play, music, art, dance, and other forms of recreation, and gain understanding of the role of the child life specialist as a member of an interdisciplinary medical team.

## PRPS 440, Psychology of Religion, 3 Units

This course investigates the common ground between psychology and religion. Values, mature religion, the nature of humanity, and religious experience are all areas of study for this purpose.

## PRPS 445, Psychology of the Family, 3 Units

This course provides an overview of the field of family psychology. The three primary areas of study are: family systems theory, the family lifecycle, and several theoretical frameworks for the study of families. Students are given the opportunity to apply these concepts to their own family of origin.

## PRPS 450, Counseling Theory, 3 Units

This course is an introduction to counseling and psychotherapy, with students exploring the underlying assumptions and practices of traditional and contemporary counseling theories. Students also explore common ethical concerns that emerge in counseling relationships.

## PRPS 451, Interventions in Counseling, 3 Units

This course introduces counseling methods and practices; legal and ethical codes of conduct for counseling professionals; community prevention, education, and early intervention methods; interviewing; screening; and interventions in counseling. Students practice basic counseling assessment and intervention methods, including crisis management and safety practices. This course meets criteria for Domain IV of the CCAPP certification requirements.

## PRPS 453, Bilingualism, Biculturalism, and Cognition, 3 Units

This course provides students with an overview of issues in bilingualism and biculturalism from a cognitive perspective. Theories and research concerning knowledge representation, bilingual cognition (language acquisition, production, comprehension, and variations in executive functions), and bicultural cognition (cognitive consequences of culture-specific knowledge) are discussed. Students enrolled in this course may be required to share information regarding their personal life, family, or relationships.

## PRPS 455, Field Experience, 3 Units

This course is for students who have completed most of the psychology or sociology major requirements. Each student participates in one or more endeavors that offer an opportunity to apply prior training to a professional setting while acquiring new knowledge. This course can be repeated for a total of 6 units counted toward the major and 9 units toward the degree. *Meets the General Education Requirement: Integrative and Applied Learning.*

## PRPS 463, Drugs, Behavior, and Society, 3 Units

This course provides an overview of drug use historically and in contemporary society from community and biopsychosocial perspectives. Students engage in an in-depth study of various psychoactive drugs of abuse, including physiological, psychosocial, health, legal, and political aspects of drugs. Course material covers drug-taking risk behaviors and issues related to dependence among high-risk populations. Strategies for drug abuse prevention/education and intervention approaches are also examined.

## PRPS 464, Substance Use Assessment and Interventions, 3 Units

Students in this course gain an in-depth understanding of empirically driven and theoretically grounded assessments and interventions for substance use issues, focusing on how to engage in effective screening and assessment protocols for substance use problem identification and service planning. Students participate in practical application of evidence-based interventions, including the use of case studies and a variety of practice exercises. Course material integrates foundational assessment and intervention models for addressing co-occurring mental health needs, family system issues, and patient-centeredness, including spirituality.

## PRPS 466, Case Management in Mental Health and Substance Use Disorders, 3 Units

This course offers an overview of the theory, structure, and practice of case management. Students gain an understanding of the professional practice of case management, including scope and responsibilities, multidisciplinary and ecological systems engagement, cultural and diversity factors, and ethical and legal issues. Students develop skills in effective communication, clinical documentation, case management facilitation, managing interpersonal and individual dynamics, case management interviewing, intervention planning, and implementation of services.

## PRPS 470, Cognitive Neuroscience, 3 Units

Cognitive neuroscience is the study of the relationship between cognitive processes and the brain. Students first learn about the major research methods in this field, such as lesion studies, brain imaging, and animal models, then learn how these methods have been used to inform our understanding of the neural correlates of memory, decision making, perception, and social cognition.

## PRPS 472, Neurological and Behavioral Disorders, 3 Units

This course examines the neurobiology of various psychological and neurological diseases. Neurological disorders covered include developmental, tumors, seizures, strokes, traumatic brain injury, neurodegenerative, and infectious disease. Behavioral disorders include schizophrenia, major affective disorders, anxiety disorders, autism, attention-deficit hyperactivity disorder, stress disorders, sleeping and eating disorders. The neurobiology of drug abuse will be analyzed based on common features of addiction, pathways affected by commonly abused drugs and heredity factors.

### PRPS 475, Research Experience I, 1-3 Units

Students in this course improve their research skills and integrate their knowledge, skills, and interests by conducting a comprehensive research project. Successful completion of the course results in an APA-style paper or submission of a paper or poster presentation to a professional organization or in a professional setting. Concurrent enrollment in another research practicum course is permitted, and 12 units of research experience in PRPS 475 can be counted toward the bachelor's degree requirements. *Meets the General Education Requirement: Integrative and Applied Learning.*

### PRPS 480, Psychological Testing and Measurement, 3 Units

Students gain a thorough background in objective tests and measurements. A brief survey is offered in intelligence, personality, organization, and industrial psychological measures. Terminology is developed, dangers and advantages of psychological instruments are discussed, and each student is required to administer and interpret a number of instruments. Special materials fee applies. Course is offered to juniors, seniors, and graduate students only.

### PRPS 485, Stress and Coping, 3 Units

This course provides an overview of stress and coping theory as it has developed in the research literature in the last century. The interrelationships between stress and mental illness, medical diseases, and industrial-organizational factors are discussed. Students develop a basic understanding of stress as it relates to trauma and posttraumatic symptomology. Students gain an understanding of basic stress management and coping techniques and their clinical applications.

### PRPS 494, Professional Studies in Child Life, 3 Units

This course helps students gain a broad understanding of the field of child life and equips them with the knowledge of the history and trends of the child life profession, as required by the Association of Child Life Professionals. Course content includes: 1) Scope of practice in child life, 2) child life documents, 3) impact of illness/injury and health care on patients and families, 4) family-centered care, 5) therapeutic play, and 6) preparation. Additional topics include, but are not limited to, clinical assessment, child life theoretical foundations, development and hospital stressors, and introduction to exceptional and medically challenged children.

### PRPS 495, Special Topics in Psychology, 3 Units

This course engages students in focused study of particular topics of direct relevance or urgency in the field of psychology which are not already discussed in the curriculum. Topics vary from semester to semester and may reflect new practices, theories, or faculty research interests in the field. This course may be taken more than once as topics change.

### PRPS 496, Writing 3: Senior Seminar in Psychology and Christian Integration, 3 Units

Students in this course discuss and critically evaluate the core ideas in the integration of psychology and the Christian faith, exploring the 4-5 established approaches for how to integrate what is known from psychological science and what is known from biblical hermeneutics and theology. Upon completion of the course, students are able to define and communicate an awareness of the issues and various approaches for integration, as well as identify and communicate the application of the integration of psychology and the Christian faith in their own lives and practice of psychology. This writing-intensive course develops students' ability to think critically and construct complex arguments related to psychology and Christianity. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*
**Prerequisite:** Junior standing and PRWR 260

### PRPS 497, Readings, 1-4 Units

This is a program of study concentrating on assigned readings, discussions, and writing arranged between, and designed, by a student of upper-division standing and a full-time professor. An independent study fee is assessed for each enrollment in this class.

### PRPS 498, Directed Research, 1-4 Units

This course provides instruction in research design and technique, and gives students experience in the research process. The 1-unit expectation encompasses no fewer than 30 hours of work with accompanying reading, log, writing, and seminar presentation within the department or in a university research symposium. No more than 1 unit may be used to fulfill preparatory readings requirement. An independent study fee is assessed for each enrollment in this class.

### PRPS 499, Thesis/Project, 1-4 Units

This is a senior-level "capstone" type of independent study/research experience, involving the student in a unique project with a sophisticated level of research, synthesis, analysis, and communication. The 1-unit expectation encompasses no fewer than 30 hours of work with accompanying readings, log, instructor discussions, and writing of summary analysis and conclusions. The thesis or project may result in formal thesis, published article, electronic media, or artistic creation of a material form. No more than 1 unit may be used to fulfill preparatory readings requirement. An independent study fee is assessed for each enrollment in this class.

# BA in Psychology

48 units

The BA in Psychology (https://www.apu.edu/bas/programs/psychology-majors/) program helps students learn about human behavior through the development of critical thinking skills, and gives them experience in methods of research and conducting scientific inquiries. Students who complete

the program are well equipped to pursue graduate education and/or careers in clinical/counseling areas of psychology and child life, and in a variety of applied psychology and allied areas (e.g., organizational psychology, educational psychology, and social work).

## Requirements

The Bachelor of Arts in Psychology is ideal for students interested in clinical/counseling or other applied areas of psychology. The core requirements (Domain 1) give students grounding in the discipline and an understanding of the basics of human behavior. The career-focus electives (Domain 2) provide students with clear applications of psychology, clustered by common themes and areas of employment. And the applied-learning electives (Domain 3) provide students with internship and/or research experience.

| Code | Title | Units |
| --- | --- | --- |
| **Prerequisite Courses** | | |
| MATH 130 | Introduction to Statistics [1] | |
| Choose one of the following: | | |
| BIOL 101 | Biology and Society (recommended) [2] | |
| BIOL 151 | General Biology I [2] | |
| **Domain 1: Core Courses** | | **27** |
| PSYC 110 | General Psychology [3,4] | |
| PSYC 250 | Data Analysis in Psychology | |

| PSYC 511 | Experimental Research Methods [9] | |
| PSYC 512 | Non-Experimental Research Methods [9] | |
| PSYC 518 | Analysis of Variance [9] | |
| Neurocognition Cluster | | |
| PSYC 292 | Introduction to Brain and Behavior | |
| PSYC 390 | Cognition | |
| PSYC 405 | Psychology of Learning | |
| PSYC 453 | Bilingualism, Biculturalism, and Cognition | |
| PSYC 470 | Cognitive Neuroscience | |
| PSYC 472 | Neurological and Behavioral Disorders | |
| Restoring Wholeness Cluster | | |
| PSYC 330 | Sports Psychology | |
| PSYC 385 | Health Psychology | |
| PSYC 440 | Psychology of Religion | |
| PSYC 463 | Drugs, Behavior, and Society [11] | |
| PSYC 485 | Stress and Coping | |
| **Domain 3: Applied Learning** | | **3** |
| PSYC 455 | Field Experience [10, 11, 12] | |
| **Total Units** | | **48** |

---

[1]  **Meets the General Education Quantitative Literacy requirement.**
[2]  **Meets the General Education Natural Sciences requirement.**
[3]  An AP Psychology score of 3, 4, or 5 will be accepted for PSYC 110.

4    **Meets the General Education Social Sciences requirement.**
5    **Meets the General Education Writing 2 requirement.**
6    **Meets the General Education Writing 3 requirement.**
7    Meets the General Education Intercultural Competence requirement.
8    Meets the General Education Civic Knowledge and Engagement requirement.
9    Requires senior standing and departmental permission.
10   Meets the General Education Integrative and Applied Learning requirement.
11   Can be double-counted toward the alcohol and drug counseling minor.
12   Students may petition to take PSYC 475 instead of PSYC 455.

## Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. DISCIPLINARY KNOWLEDGE- Students demonstrate a working knowledge of psychology's content domains, key theories, concepts, principles, themes, and applications of psychology in society.
2. CRITICAL THINKING, SCIENTIFIC INQUIRY AND EFFECTIVE COMMUNICATION- Students demonstrate effective expression of critical thought and scientific inquiry in their engagement with (a) psychology literature, (b) conduct of psychological research, and (c) written, (d) oral, and interpersonal communication.
3. VALUES AND ETHICS- Students (a) demonstrate knowledge of the APA ethical (a.1) and multicultural ethical (a.2) standards for the practice of psychology and are able to utilize those standards in decision making and actions in scientific inquiry (a.3), sociocultural (a.4), and interpersonal contexts (a.5). Students (b) articulate and behaviorally express values that build and enhance interpersonal relationships and community engagement at local, multicultural, and cross cultural levels.
4. APPLICATION TO VOCATION- Students demonstrate the ability to utilize and apply psychological knowledge and professional skills to: (a) develop vocational post-baccalaureate goals, (b) work collaboratively with diverse others, (c) serve others needs, (d) self-regulate and manage projects successfully, and (e) solve increasingly complex problems.
5. FAITH INTEGRATION- Students demonstrate skill in the integration of Christian faith and theology with the science of psychology as it relates to the nature and content of: humanity (F1), knowledge (F2), values and ethics (F3), and vocational and spiritual formation (F4).

# BA in Psychology (Bachelor's Completion Program)

48 units

Azusa Pacific's bachelor's completion program in psychology (https://www.apu.edu/bas/programs/psychology-bachelors-completion/) is designed for transfer students who have at least 30 units and are interested in completing a Bachelor of Arts in Psychology at the High Desert, Inland Empire, Monrovia, Murrieta, Orange County, or San Diego regional location, or online. Students gain hands-on field experience as they learn about human behavior and how to analyze and solve problems in various settings, preparing them to make a difference in the lives of others.

Azusa Pacific's bachelor's completion programs allow students who began a program of study at another higher education institution to finish their degree at APU. In order to graduate, students must complete the required program units and General Education (p. 911) units, for a total of 120 units.

## Requirements

The Bachelor of Arts in Psychology degree completion program is ideal for students interested in clinical/counseling or other applied areas of psychology. The core requirements (Domain 1) give students grounding in the discipline and an understanding of the basics of human behavior. The career-focus electives (Domain 2) provide students with clear applications of psychology, clustered by common themes and areas of employment. And the applied integrative learning electives (Domain 3) offer internships and/or research experience.

| Code | Title | Units |

[6] Meets the General Education Writing 3 requirement.
[7] Meets the General Education Intercultural Competence requirement.
[8] Meets the General Education Civic Knowledge and Engagement requirement.
[9] Requires senior standing and departmental permission.
[10] Distance-learning course.
[11] Meets the General Education Integrative and Applied Learning requirement.
[12] Can be double-counted toward the alcohol and drug counseling minor.

# Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. DISCIPLINARY KNOWLEDGE- Demonstrate a working knowledge of psychology's content domains, key theories, concepts, principles, themes, and applications of psychology in society.

2. CRITICAL THINKING, SCIENTIFIC INQUIRY AND EFFECTIVE COMMUNICATION- Demonstrate effective expression of critical thought and scientific inquiry in their engagement with (a) psychology literature, (b) conduct of psychological research, and (c) written, (d) oral, and interpersonal communication.

3. VALUES AND ETHICS- (a) demonstrate knowledge of the APA ethical (a.1) and multicultural ethical (a.2) standards for the practice of psychology and are able to utilize those standards in decision making and actions in scientific inquiry (a.3), sociocultural (a.4), and interpersonal contexts (a.5). Students (b) articulate and behaviorally express values that build and enhance interpersonal relationships and community engagement at local, multicultural, and cross cultural levels.

4. APPLICATION TO VOCATION- Demonstrate the ability to utilize and apply psychological knowledge and professional skills to: (a) develop vocational post-baccalaureate goals, (b) work collaboratively with diverse others, (c) serve others needs, (d) self-regulate and manage projects successfully, and (e) solve increasingly complex problems.

5. FAITH INTEGRATION- Demonstrate skill in the integration of Christian faith and theology with the science of psychology as it relates to the nature and content of: humanity (F1), knowledge (F2), values and ethics (F3), and vocational and spiritual formation (F4).

# BS in Psychology

48 units

The BS in Psychology (https://www.apu.edu/bas/programs/psychology-majors/) program helps students understand psychological science and the various statistical and research methodologies used to study human thought and behavior, equipping them with strong foundational knowledge in areas of applied psychological science, as well as a strong skill set in research. Students who complete the program are well equipped to pursue graduate education and/or careers in psychology and allied health fields (e.g., physician's assistant, physical therapy, occupational therapy, speech therapy, nutrition), as well as a variety of research-related careers.

## Requirements

The Bachelor of Science in Psychology is ideal for students interested in psychological research and related careers. The core requirements (Domain 1) give students grounding in the discipline and an understanding of the basics of human behavior. The career-focus electives (Domain 2) provide students with applications of psychology, clustered by common themes and areas of employment. And the applied-learning electives (Domain 3) provide students with internship and/or research experience.

[1]   Meets the General Education Quantitative Literacy requirement.

[2]   Meets the General Education Natural Sciences requirement.

[3]   An AP Psychology score of 3, 4, or 5 will be accepted for PSYC 110.

[4]   Meets the General Education Social Sciences requirement.

[5]   Meets the General Education Writing 2 requirement.

[6]   Meets the General Education Writing 3 requirement.

[7]   Meets the General Education Intercultural Competence requirement.

[8]   Meets the General Education Civic Knowledge and Engagement requirement.

[9]   Requires senior standing and departmental permission.

[10]   Meets the General Education Integrative and Applied Learning requirement.

[11]   Students may petition to take PSYC 455 instead of PSYC 475.

# Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. DISCIPLINARY KNOWLEDGE- Demonstrate a working knowledge of psychology's content domains, key theories, concepts, principles, themes, and applications of psychology in society.
2. CRITICAL THINKING, SCIENTIFIC INQUIRY AND EFFECTIVE COMMUNICATION- Demonstrate effective expression of critical thought and scientific inquiry in their engagement with (a) psychology literature, (b) conduct of psychological research, and (c) written, (d) oral, and interpersonal communication.
3. VALUES AND ETHICS- Students (a) demonstrate knowledge of the APA ethical (a.1) and multicultural ethical (a.2) standards for the practice of psychology and are able to utilize those standards in decision making and actions in scientific inquiry (a.3), sociocultural (a.4), and interpersonal contexts (a.5). Students (b) articulate and behaviorally express values that build and enhance interpersonal relationships and community engagement at local, multicultural, and cross cultural levels.
4. APPLICATION TO VOCATION- Demonstrate the ability to utilize and apply psychological knowledge and professional skills to: (a) develop vocational post-baccalaureate goals, (b) work collaboratively with diverse others, (c) serve others needs, (d) self-regulate and manage projects successfully, and (e) solve increasingly complex problems.
5. FAITH INTEGRATION- Demonstrate skill in the integration of Christian faith and theology with the science of psychology as it relates to the nature and content of: humanity (F1), knowledge (F2), values and ethics (F3), and vocational and spiritual formation (F4).

# Certificate in Play Therapy

9 units

To earn this certificate, you must complete 9 semester units (minimum of 150 hours of coursework) over a two-year period to meet the Association for Play Therapy (https://www.a4pt.org/)'s instructional-hours requirement toward becoming a Registered Play Therapist (RPT) or Registered Play Therapist Supervisor (RPT-S).

To be eligible for registration as an RPT, students must complete the certificate program and be enrolled in, or have completed, a graduate clinical degree program that enables graduates to be eligible for licensure.

Students who complete the coursework without an appropriate graduate clinical degree can still obtain the certificate from APU, but will not be eligible for registration as an RPT with the Association for Play Therapy.

| Code | Title | Units |
|---|---|---|
| **Choose three of the following:** | | **9** |
| PSYC 536 | Play Therapy: History, Theories, and Interventions | |
| PSYC 538 | Jungian Therapy and Sandplay | |

| PSYC 539 | Play and Play Therapy Across the Lifespan |
| PSYC 540 | Gestalt Play Therapy and Interventions |
| PSYC 541 | Play Therapy with Special Populations |
| PSYC 545 | Play Therapy with Bereaved Children and Families |
| **Total Units** | **9** |

# Minor in Alcohol and Drug Counseling

24 units

The minor in alcohol and drug counseling prepares students to pursue alcohol and drug counselor credentialing with the California Consortium of Addiction Programs and Professionals (CCAPP). Students who finish this minor complete the educational requirements for certified alcohol and drug counselors, and have the foundational knowledge, understanding, and skills needed to join this ever-expanding field that allows for bachelor-level entry. *Note: There are other requirements, however, to qualify for the alcohol and drug counseling credential, as outlined and determined by CCAPP.*

For students interested in completing the Bachelor of Arts (BA) in Psychology (p. 405) or the Bachelor of Science (BS) in Psychology (p. 411), 6 units of the minor can be used to meet the requirements of the BA or BS; 15 units of the minor, including 3 units of PSYC 455, must be completed at Azusa Pacific University.

## Requirements

| Code | Title | Units |
| --- | --- | --- |
| PSYC 280 | Introduction to Certified Alcohol Drug Counselor Credentialing | 3 |
| PSYC 451 | Interventions in Counseling [1] | 3 |
| or PSYC 531 | Ethics and Professional Issues | |
| PSYC 455 | Field Experience (130 of 255 hours required) [2,3] | 3 |
| PSYC 463 | Drugs, Behavior, and Society [4] | 3 |
| PSYC 464 | Substance Use Assessment and Interventions | 3 |
| PSYC 466 | Case Management in Mental Health and Substance Use Disorders | 3 |
| PSYC 485 | Stress and Coping | 3 |
| PSYC 455 | Field Experience (130 of 255 hours required) [1,2,3] | 3 |
| or PSYC 542 | Practicum I | |
| **Total Units** | | **24** |

[1]   Graduate courses (500-level and above) require senior standing and departmental permission.
[2]   Three units of PSYC 455 can be used to meet requirements of the minor and the BA or BS in Psychology.
[3]   PSYC 455 meets the General Education Integrative and Applied Learning requirement.
[4]   Meets requirements of the minor and the BA or BS in Psychology.

## Program Learning Outcomes
### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Develop entry level mastery of knowledge of substance use, misuse, and effective treatment for substance use problems.
2. Demonstrate entry level skills in engagement and facilitation of substance use recovery strategies.
3. Apply knowledge and skill related to Alcohol and Drug counseling in field experiences.
4. Demonstrate the ability to integrate faith into a comprehensive conceptualization of substance use problems.

# Minor in Alcohol and Drug Counseling (Professional)

24 units

Substance use treatment is an ever-expanding career field, and the professional minor in alcohol and drug counseling gives individuals the foundational knowledge, understanding, and skills needed to enter the field as a bachelor-level staff member. This program prepares students to pursue alcohol and drug counselor credentialing with the California Consortium of Addiction Programs and Professionals (CCAPP), as students who complete this minor satisfy the educational requirements for certified alcohol and drug counselors—although, to qualify for the alcohol and drug counseling credential, additional efforts are required, as outlined and determined by CCAPP.

Note: 6 units of the alcohol and drug counseling professional minor can be used to meet requirements of the psychology bachelor's completion (BA) program. Specifically, PRPS 455 and PRPS 485 can be used to meet the requirements for both the psychology bachelor's completion (BA) program and the professional minor. 15 units of this minor, including 3 units of PRPS 455, must be completed at Azusa Pacific University.

## Requirements

| Code | Title | Units |
|------|-------|-------|
| PRPS 280 | Introduction to Certified Alcohol Drug Counselor Credentialing | 3 |
| PRPS 451 | Interventions in Counseling | 3 |
| PRPS 455 | Field Experience [1,2,3] | 6 |
| PRPS 463 | Drugs, Behavior, and Society | 3 |
| PRPS 464 | Substance Use Assessment and Interventions | 3 |
| PRPS 466 | Case Management in Mental Health and Substance Use Disorders | 3 |
| PRPS 485 | Stress and Coping [4] | 3 |
| **Total Units** | | **24** |

[1] This course is taken twice for a total of 6 units.
[2] Meets the General Education Integrative and Applied Learning requirement.
[3] Three units of this course can count toward the professional minor and the psychology bachelor's completion (BA) program (p. 408).
[4] This course can count toward the professional minor and the psychology bachelor's completion program.

## Program Learning Outcomes
### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Develop entry level mastery of knowledge of substance use, misuse, and effective treatment for substance use problems.
2. Demonstrate entry level skills in engagement and facilitation of substance use recovery strategies.
3. Apply knowledge and skill related to Alcohol and Drug counseling in field experiences.
4. Demonstrate the ability to integrate faith into a comprehensive conceptualization of substance use problems.

# Minor in Psychology

18 units

The psychology minor introduces students to the study of human thought and behavior. Specifically, students minoring in psychology are exposed to disciplinary knowledge, critical thinking skills, scientific inquiry, and applications of psychology. This minor is ideal for students from a wide variety of education and career paths who wish to bolster their understanding of, and interactions with, people.

## Requirements

| Code | Title | Units |
|------|-------|-------|
| PSYC 110 | General Psychology [1] | 3 |
| PSYC 290 | Human Growth and Development [1] | 3 |
| Select 12 units from any psychology courses; WRIT 260 is included as a psychology course. [2] | | 12 |
| **Total Units** | | **18** |

[1] **Meets the General Education Social Sciences requirement.**
[2] WRIT 260, PSYC 345, PSYC 400, PSYC 420, PSYC 455, PSYC 475, and PSYC 496 meet additional General Education requirements.

## Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. PLO 1- DISCIPLINARY KNOWLEDGE- Students demonstrate a working knowledge of psychology's content domains, key theories, concepts, principles, themes, and applications of psychology in society
2. PLO 2- CRTICIAL THINKING, SCIENTIFIC INQUIRY AND EFFECTIVE COMMUNICATION- Students demonstrate effective expression of critical thought and scientific inquiry in their engagement with (a) psychology literature, (b) conduct of psychological research, and (c) written, (d) oral, and interpersonal communication
3. PLO 3- VALUES AND ETHICS- Students (a) demonstrate knowledge of the APA ethical (a.1) and multicultural ethical (a.2) standards for the practice of psychology and are able to utilize those standards in decision making and actions in scientific inquiry (a.3), sociocultural (a.4), and interpersonal contexts (a.5). Students (b) articulate and behaviorally express values that build and enhance interpersonal relationships and community engagement at local, multicultural, and cross cultural levels.
4. PLO 4- APPLICATION TO VOCATION- Students demonstrate the ability to utilize and apply psychological knowledge and professional skills to: (a) develop vocational post-baccalaureate goals, (b) work collaboratively with diverse others, (c) serve others needs, (d) self-regulate and manage projects successfully, and (e) solve increasingly complex problems.
5. PLO 5- FAITH INTEGRATION- Students demonstrate skill in the integration of Christian faith and theology with the science of psychology as it relates to the nature and content of: humanity (F1), knowledge (F2), values and ethics (F3), and vocational and spiritual formation (F4).

# Minor in Psychology (Professional)

| PSYC 533 | Externalizing and Dysregulation Disorders | 3 |
| PSYC 536 | Play Therapy: History, Theories, and Interventions | 3 |
| PSYC 534 | Family Systems Theory and Counseling | 3 |
| PSYC 524 | Counseling Adolescents | 3 |
| PSYC 542 | Practicum I | 3 |
| PSYC 543 | Practicum II | 3 |
| **Optional Elective** | | |
| PSYC 537 | Family Therapy II: Advanced Training | |
| PSYC 544 | Practicum Extension | |
| **Optional Play Therapy Certificate** | | |
| PSYC 538 | Jungian Therapy and Sandplay | |
| PSYC 539 | Play and Play Therapy Across the Lifespan | |
| PSYC 540 | Gestalt Play Therapy and Interventions | |
| PSYC 541 | Play Therapy with Special Populations | |
| PSYC 545 | Play Therapy with Bereaved Children and Families | |
| **Total Units** | | **60** |

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate entry-level competence in the core domains of practice identified by the Board of Behavioral Sciences for licensure as an LPCC.
2. Demonstrate core competence in child/youth development, assessment, diagnosis, treatment, psychoeducation, and prevention interventions.
3. Analyze and synthesize disciplinary research and professional literature.
4. Demonstrate professional-level skills in written and oral communication.
5. Demonstrate skills in the integration of Christian faith with professional conceptualization and service delivery in counseling.

# MS in Research Psychology and Data Analysis

## NOTE: This program is not admitting new students for the 2024-25 academic year.

The Master of Science in Research Psychology and Data Analysis (https://www.apu.edu/bas/programs/research-psychology-data-analysis/) provides research and statistical experience needed to be competitive for doctoral programs and pursue, or advance within, careers related to psychological

research. The program consists of a rigorous 36-unit curriculum that can be completed in one academic year, 18 months, or 2 academic years. Students in this program acquire skills in research methods and statistical analyses commonly used within psychological research, and complete a master's thesis. Courses feature lectures, seminars, and hands-on research labs that incorporate various popular statistical software used within psychology. All courses are offered in a distance learning format that consists of face-to-face and remote students. Face-to-face students attend courses at the Azusa campus, and remote students join the face-to-face course using video conferencing technology. Throughout the program, a faculty advisor works closely with individual students to provide guidance on completing the thesis or practicum/internship, applying to doctoral programs, and pursuing a career in research. In addition, students have the opportunity to participate in professional events, including academic conferences.

## Coursework Schedule

**Fall (10-13 units):** Experimental Research Methods (3), Analysis of Variance (3), Analysis of Variance Lab (1), Theory, Research, and Practice in Psychology (3), Research Practicum (3)

**Spring (16 units):** Thesis Seminar (3) or Research Practicum (3), Non-Experimental Research Methods (3), Regression (3), Regression Lab (1), Introduction to Grant and Professional Writing (3), Program Evaluation (3)

**Summer I (7 units):** Thesis Seminar (3) or Research Internship (3), Psychometrics: Assessment and Measurement (3), Psychometrics: Assessment and Measurement Lab (1),

**Summer II (3 units):** Thesis Seminar (3)

## Requirements

| Code | Title | Units |
|---|---|---|
| **Core Courses** | | |
| PSYC 501 | Theory, Research and Practice in Psychology | 3 |
| PSYC 511 | Experimental Research Methods | 3 |
| PSYC 512 | Non-Experimental Research Methods | 3 |
| PSYC 518 | Analysis of Variance | 3 |
| PSYC 518L | Analysis of Variance Lab | 1 |
| PSYC 519 | Regression | 3 |
| PSYC 519L | Regression Lab | 1 |
| PSYC 520 | Psychometrics: Assessment and Measurement | 3 |
| PSYC 520L | Psychometrics: Assessment and Measurement Lab | 1 |
| PSYC 517 | Program Evaluation | 3 |
| PSYC 597 | Introduction to Grant and Professional Writing | 3 |
| **Students must choose one of the following:** | | **9** |
| **Thesis Track** | | |
| PSYC 598 | Thesis Seminar [1] | |
| **Internship Track** | | |
| PSYC 578 | Research Practicum [2] | |
| PSYC 588 | Research Internship | |
| **Total Units** | | **36** |

[1]    Students on the thesis track are required to take 9 units of PSYC 598, but may take up to 12 units in order to complete their thesis.

[2]    Students on the internship track are required to take 6 units of PSYC 578.

# Optional Concentrations[1]

## Data Analytics

This concentration equips students with statistical and data visualization techniques. It consists of courses that develop students' skill in statistical programming, including R and SAS, data visualization using Tableau, and data mining. Such training prepares students to pursue careers in business and/or data analytics.

## Industrial/Organizational Psychology

Organizational psychology, often called industrial/organizational psychology, considers the attitudes, feelings, and behaviors of people in the workplace. At the intersection of business and psychology, courses in this concentration help you discover your ability to diagnose organizational health; develop and implement change initiatives; administer and create job satisfaction surveys; increase employee morale and expand retention strategies; advance performance management programs; hire, train, and develop talent; and advise, coach, and build successful teams.

## Counseling Psychology

This concentration is for students who are interested in getting a PhD in clinical/counseling psychology and would like to take graduate courses that would expose them to this area of psychology. Students wishing to complete this concentration need to complete three courses from the MS in Counseling Psychology program (p. 417) as outlined in program requirements.

## Public Health

This concentration equips students with conceptual and applied knowledge of the public health field. Students learn important areas of public health, including how health and diseases are influenced by social, economic, and political risk factors; ethical considerations and healthcare policies; epidemiological procedures; and issues in environmental health.

[1]    The cost per unit for the concentration is based on the cost of the concentration courses, and may be different from per-unit cost for the MS in Research Psychology and Data Analysis.

# Graduation

In order to graduate, students must complete the required courses with an overall grade-point average (GPA) of at least 3.0 within five years of matriculation. This includes completing every required course with a *B-* or above. Students must also complete a master's thesis according to the guidelines outlined by the program and university, or a practicum and internship as outlined by the program.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Explain the knowledge and skills used in assessment/measurement, research design, and statistical methods in psychology.
2. Apply various theories of psychology used in assessment/measurement, research design, and statistical methods in psychology.
3. Examine the integration of psychological research with a Christian worldview.
4. Articulate the APA codes, standards, and ethics of psychological research and practice in various applied settings.
5. Demonstrate graduate level APA formatting skills for writing and presentations.

# Department of Social Work

Social workers help people manage and overcome some of life's most difficult challenges, such as poverty, addiction, discrimination, physical and mental illness, and abuse. They provide individual, family, and group intervention; facilitate crisis prevention and intervention; advocate and participate in political action; provide management and leadership in social welfare and nonprofit agencies; and collaborate with communities to develop necessary social and economic resources. Social workers are especially committed to advancing social justice and increasing opportunities for vulnerable populations.

**Learn more about the Department of Social Work. (https://www.apu.edu/bas/socialwork/)**

## Programs

### Major

- Bachelor of Social Work (BSW) (p. 432)

### Master's

- Master of Social Work (MSW) (p. 444)

### Credential

- Pupil Personnel Services Credential in School Social Work and Child Welfare and Attendance Services (p. 466)

### Certificate

- Certificate of Distinction in Undergraduate Social Work Research (p. 468)

## Courses

### SOCW 250, Introduction to Social Work, 3 Units

This course introduces students to the social work profession, social welfare system, and policies in the United States. The course examines the requirements for social work practice, articulates the identity of the profession, and discovers the various settings of social work practice. *Meets the General Education Requirement: Civic Knowledge and Engagement.*

### SOCW 251, Social Welfare Policy and Service, 3 Units

This course examines social welfare policies and programs developed to meet human needs in American society. The course explores diversity of political, cultural, historical, economic, and ideological influences on social welfare policy. The course explores how critical thinking advances social and economic justice and delivery of effective social work services.

## SOCW 275, Social Justice Foundations for Human Rights, 3 Units

The Social Justice Foundations in Human Rights course will examine assumptions and biases in regards to race, age, social class, religion, gender, sexual orientation and ability. This course will evaluate causes of community concern in the areas of civil rights, immigration, poverty, human trafficking, disabilities and war. It will review issues of oppression and discrimination. This course will have students gain insight and self-awareness in their interactions with individuals of from different cultural backgrounds. Students will practice developing action plans to promote social justice in targeted groups. *Meets the General Education Requirement: Intercultural Competence.*
**Prerequisite:** Sophomore Standing

## SOCW 310, Human Behavior and the Social Environment I, 3 Units

This course is a study from a multi-theoretical perspective of the interaction of cultural, biological, psychological, social, spiritual, and environmental reciprocal interactions. This course focuses on human development from birth through adolescence. The knowledge of human behavior and the social environment will be applied utilizing bio-psycho-social-spiritual frameworks to guide the process of assessment, intervention, and evaluation.
**Prerequisite:** Sophomore standing, recommended SOC 120 and PSYC 110

## SOCW 311, Human Behavior and the Social Environment II, 3 Units

This course is a study from a multi-dimensional perspective of the interaction of cultural, biological, psychological, social, spiritual, and environmental influences that promote or deter the development of individuals from young adulthood through old age and death. This course builds upon the material presented in HBSE I, and further explores theoretical models for understanding and assessing macro systems.
**Prerequisite:** SOCW 310 and Sophomore standing

## SOCW 332, Social Work Practice with Individuals and Families, 3 Units

This is the first of a two-semester, three-course practice sequence wherein the student will identify professional generalist social work practice behaviors. The course will develop the student's ability to think critically and apply social work ethical principles to guide practice. The course uses evidence-based practice methods in practice which engage, assess, intervenes, and evaluates individuals and families.
Special Fee Applies
**Prerequisite:** Application and acceptance into the Social Work Major

## SOCW 333, Social Work Practice with Communities and Organizations, 3 Units

Social Work Practice with Communities and Organizations is another course in the generalist social work practice sequence. The Course will focus on macro social work practice, community organizing, and development. The course will provide students with the knowledge and skills needed for ever-changing contexts and the social service delivery systems used to respond to such contexts.
**Prerequisite:** SOCW 250, SOCW 332

## SOCW 335, Community Transformation, 6 Units

This course offers a formal and experiential study of the transformation of urban, multicultural communities with the goal of developing a service ethic through a semester-long internship. Involves directed reading, reflective papers, a service practicum, and group discussions-- aimed at both the transformation of the student community and the wider L.A. community. Course is available only through the L.A. Term Program.

## SOCW 350, Aging: Implications for Policy and Practice, 3 Units

This course offers an introduction to social work practice with older adults with attention given to current research, policies, and problems faced by the elderly, and the impact of the older adult population on society. Resources, programs, and services which focus on the well-being for the older adult population will be introduced.
**Prerequisite:** SOCW 251 or instructor consent

## SOCW 351, Child Welfare, 3 Units

Students explore programs and policies that have been developed to meet the well-being of children and families. The issues affecting these programs and policies are studied to determine how policy impacts the delivery of child welfare programs.
**Prerequisite:** SOCW 250, SOCW 251 or instructor consent

## SOCW 360, Social Work Practice with Groups, 3 Units

Social Work Practice with Groups is another course in the generalist social work practice sequence. This course introduces students to utilize group theories and leadership skills in social work practice. Students will demonstrate mezzo practice knowledge and skills by identifying, analyzing, and implementing evidence-based interventions designed to achieve client goals.
**Prerequisite:** SOCW 250, SOCW 332

## SOCW 380, Understanding International Social Problems and Services through Study Abroad, 3 Units

Through classroom instruction, time spent in an international setting, and debriefing sessions, students in this course learn about social problems and social welfare systems of service delivery outside of the United States. Emphasis is on a global perspective of social work practice, enriching cultural experiences, and a comparison of domestic and international methods of addressing human needs through social policies and programs.
**Prerequisite:** SOCW 333 and SOCW 360; or instructor approval.

## SOCW 400, Fundraising, Grant Writing, and Fiscal Decision Making, 3 Units

This course prepares students for potential fundraising, grant writing, program design and evaluation, and fiscal decision-making responsibilities in human services organizations. Students assess local agencies and analyze funding resources, strategies, skills, and decision-making processes. Assignments focus on grant writing, developing fundraising strategies, and applying knowledge of ethical management and fiscal practices.
**Prerequisite:** SOCW 333

## SOCW 410, Family Violence, 3 Units

Family violence is an in-depth study from a system's perspective of violence that occurs in families. This course provides an overview of child abuse, spousal abuse, abuse between intimate partners, and elder abuse. The course explores the theory and research as to the causes of abuse, including individual and family factors, elder abuse, gender issues, community and societal influences, and cultural factors. This course explores the policy and programs developed to deal with these crises. Finally, methods of assessment and intervention are investigated as applicable to both professional and personal situations.
**Prerequisite:** Junior or Senior standing or instructor consent

## SOCW 411, Intimate Relationship Violence: Assessment and Intervention, 3 Units

This course is an in-depth study of intimate relationship violence, exploring the theory and research as to the causes of violence, gender and sexuality issues, community and societal influences, and cultural factors. Methods of assessment are investigated, as are policies and programs developed to intervene within micro and macro contexts. Course, with additional fee, meets California domestic violence counselor certification.
**Prerequisite:** Junior or senior standing or instructor's consent.

## SOCW 415, Substance Use Disorders: Assessment and Intervention, 3 Units

This course provides an overview of substance use disorders from a bio-psycho-social-cultural-spiritual perspective. Unique issues relative to children/adolescents, women, people with disabilities, LGBT individuals, the elderly, and minorities are explored. The course focuses on a review of various types of substance use disorders; theory on the etiology and process of substance use disorders and their treatment; information on assessment, referral, and treatment resources; and exploration of the historical and current responses to substance use disorders in the community as well as in the Church.
**Prerequisite:** Junior or senior standing or instructor's consent

## SOCW 420, Suffering: Theological and Practical Perspectives on Disabilities, 3 Units

This course examines theological perspectives to understand the role of suffering in the human experience. Focusing on persons with disabilities, students explore their personal values, gain understanding of bio-psycho-social-spiritual components of disability, access available resources, and develop strategies to help churches/agencies develop inclusive programs.
**Prerequisite:** 3 units of UBBL and Junior standing

## SOCW 425, Introduction to International Development, 3 Units

This course provides students with an opportunity to consider the theories and "on the ground" issues concerning international development. In addition, because non-governmental organizations are the primary organisms through which international development is conducted, students will familiarize themselves with the strengths and limitations these organisms bring to the development process.
**Prerequisite:** Junior or Senior Standing

## SOCW 430, Introduction to Nonprofit Management, 3 Units

Students go out into the world and work for nonprofit organizations. The goals of the course are to enrich student perspective regarding nonprofits, to give them opportunity to apply their knowledge to the analysis of nonprofit managerial situations and to provide them with an understanding of the opportunities and power of nonprofit management.
**Prerequisite:** Junior or Senior Standing

## SOCW 440, Social Work and Law, 3 Units

Students in this course gain an increased understanding of the United States legal system and learn how to apply this understanding within social work practice. Students engage with case law as it pertains to the field of social work and social services. Students also have opportunities for critical analysis, and for refining of advocacy and problem-solving skills.
**Prerequisite:** Junior or senior standing or instructor approval.

## SOCW 445, The Intersectionality of Identity: Being Black and Female, 3 Units

This course will examine the lived experience of women from the African diaspora of various locations, eras, as well as theories and social movements of black women activism. The course will examine how black women have shaped and influenced civil rights, black power, immigration policy and feminism-womanism. This course will review perspectives and theories from notable scholars including Kimberle Crenshaw to Rev. Suzan Johnson Cook, Sylvia Wynter to bell hooks, Shirley Chisolm to Laverne Cox, and Ella Baker to Tarana Burke. This course will examine how these and other women from the African diaspora challenged inequality and injustices in race, gender, class and other identities as well as the impact and contributions to the faith community. Through exploration and critical analysis of media and events, leadership and advocacy, students will examine the social, cultural and political influences of women from the African diaspora, particularly challenging stereotypes and the hegemonic narrative of black women.
**Prerequisite:** Junior or Senior standing or Instructor approval

## SOCW 450, Asian American Communities: Mental Health and Wellness, 3 Units

Students in this course undertake an interdisciplinary exploration of mental health issues among Asian Americans, examining the cultural, social, and historical factors that contribute to mental health disparities in this population, as well as the unique challenges and opportunities for improving mental health outcomes. Students develop an understanding of the diversity of experiences within the Asian American community and the importance of culturally sensitive and responsive mental health interventions.
**Prerequisite:** SOCW 310 and sophomore standing

## SOCW 466, Field Internship I, 4 Units

This social work practicum provides a setting for the development of practice skills and an opportunity for the integration of knowledge, skills, and values in social work. Students complete a minimum of 400 hours in an approved agency.
**Prerequisite:** SOCW 310, SOCW 311, SOCW 333 or SOCW 335, SOCW 360,
**Corequisite:** SOCW 467

## SOCW 467, Senior Practicum Seminar I, 3 Units

This seminar course integrates the generalist practice knowledge and skills of a social work professional. Students learn how to identify and conduct themselves as professional social workers in their respective internship contexts. Evidence-based practice skills are developed to help students engage in research-informed practice and learn how practice shapes research. This course comprises the first semester of a two-semester course sequence.
*Meets the General Education Requirement: Integrative and Applied Learning.*
**Prerequisite:** SOCW 310 (C or above), SOCW 311 (C or above), SOCW 333 or SOCW 335, SOCW 360.

## SOCW 468, Field Internship II, 4 Units

This social work practicum provides a setting for the development of practice skills and an opportunity for the integration of knowledge, skills, and values in social work. Students complete a minimum of 400 hours in an approved agency.
**Prerequisite:** SOCW 466, SOCW 467
**Corequisite:** SOCW 469

## SOCW 469, Senior Practicum Seminar II, 3 Units

This final Social Work Seminar will focus on integration of learning and practice in preparation for beginning generalist social work practice for students currently in field placement. Students will identify, critique, and apply evidence based practice models in field practice. Emphasis will be placed on practice skills of engagement, assessment, intervention and evaluation according to the NASW Code of Ethics.
**Prerequisite:** SOCW 310 (C grade or above), SOCW 311 (C grade or above), SOCW 333 or SOCW 335, SOCW 360, SOCW 466

## SOCW 478, Social Work Research Methods, 3 Units

This course prepares students for evidence-informed practice and research by introducing a range of social science research methods, skills in research evaluation and critique, and development of a social science research proposal informed by their field internship practice experience.
**Prerequisite:** MATH 130.
**Corequisite:** SOCW 466, SOCW 467

## SOCW 479, Writing 3: Social Work Research Project, 3 Units

In this course, students prepare for evidence-informed practice and research by conducting an empirical study based on the research proposal completed in the Social Work Research Methods course (SOCW 478). Students learn to apply critical thinking to inform and communicate professional judgment through the process of data collection, data analysis, and writing a research report. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*
**Prerequisite:** MATH 130, SOCW 478, and Writing 2 or Honors course equivalency;
**Corequisites:** SOCW 468 and SOCW 469

## SOCW 495, Special Topics, 1-6 Units

Special topics courses offer undergraduate-level content that will augment the set social work curriculum. These courses include a wide range of specialized topics relevant to professional social workers. The unit value of these courses range from one to six unit credits, depending upon the specific contact hours and course workload.
**Prerequisite:** Junior or Senior Standing; Acceptance into the Social Work program.

## SOCW 497, Readings in Social Work, 1-4 Units

This is a program of study concentrating on assigned readings, discussion, and writing arranged between, and designed by, a student of upper-division standing and a full-time professor. An independent study fee is assessed for each enrollment in this class.

## SOCW 499, Thesis/Project, 1-6 Units

This course is an opportunity for undergraduate students to explore an idea, contribute to research, examine industry trends/methods, or develop a project under the guidance of a faculty member.
**Prerequisite:** Instructor permission.

## SOCW 510, Social Work Foundations in Law and Ethics, 1 Unit

This course covers foundational law and ethics in social work practice, including mandated reporting, telehealth policies, self-care, and technology use. Content incorporates critical thinking, ethical decision making, and professionalism as reflected in the Council on Social Work Education (CSWE) Educational Policy and Accreditation Standards (EPAS) competencies.
**Prerequisite:** Admission to MSW program

## SOCW 511, Introduction to the Social Work Profession, 2 Units

Content focuses on the history, identity, values, ethics, scope of practice, and knowledge base of the social work profession. Students explore ways their own backgrounds and beliefs are likely to influence professional activities, and examine the specific relationship of faith perspectives to social welfare policy and practice. Attention is given to developing professional writing and critical thinking skills.
**Prerequisite:** Admission to MSW program

## SOCW 512, Social Welfare Policy and Policy Practice, 3 Units

The course provides an introduction to American social welfare policies, offers a historical overview of political influences on social work practice, and presents different models for political advocacy. Content focuses on political and client advocacy with attention to the relevance of professional ethical standards and faith perspectives to policy practice.
**Prerequisite:** Admission to MSW program

## SOCW 513, Micro-Theory and Human Development, 3 Units

Students in this course focus on theories that inform micro-level social work practice with individuals and families using a biopsychosocial and spiritual framework. Human development across the life course is addressed with psychosocial theory's life stages to assist with the contextualization and integration of theories to meet the needs of diverse populations in practice.
**Prerequisite:** Admission to MSW program

## SOCW 514, Practice I - Interviewing and Assessment, 3 Units

This course begins a two-course sequence that provides the foundation for social work practice with individuals and families. Content includes legal and ethical practice, stages of the helping process, interviewing and assessment skills with adults, children, and families, clinical assessment and diagnosis using the DSM, and strategies for critically analyzing and sharing assessment information.
**Prerequisite:** Admission to MSW program

## SOCW 515, Field Seminar I, 1 Unit

Field seminars meet in conjunction with field coursework and provide students opportunities to discuss practice situations, professional development issues, the relationship of field to classroom learning, and skills necessary for effective practice. Generalist foundation year field seminars (I and II) focus on beginning generalist social work practice skills, understanding agency and community context, and professional ethics.
**Prerequisite:** Admission to the Social Work program;
**Corequisite:** SOCW 516

## SOCW 516, Field I, 3 Units

The purpose of field internship is to provide a professional setting for students to practice generalist foundation social work skills and to provide an opportunity for the integration of knowledge, skills, values, and ethical faith integration in practice. Students complete a minimum of 480 hours by the end of semester I and semester II at an approved and designated social welfare agency.
**Prerequisite:** Admission to the Social Work program;
**Corequisite:** SOCW 515

## SOCW 517, Generalist Practicum I, 3 Units

This first-semester practicum course includes supervised generalist internship experience in an agency setting and integrative in-class seminars. Students gain experience in applying and integrating foundational generalist social work practice skills, values, and professional ethics with diverse individuals, families, groups, communities, and organizations, and apply a foundational antiracist and antioppressive social work practice framework. In-class seminars support the practicum internship experience with presentations and discussions on practice situations, professional development, ethical faith integration, and skills necessary for beginning-level social work practice. Students complete a minimum of 480 practicum hours by the end of their generalist practicum year at an approved and designated agency.
**Prerequisite:** Admission to MSW program

## SOCW 518, Generalist Practicum II, 3 Units

This second-semester course is a continuation of the supervised generalist internship sequence in an agency setting and integrative in-class seminars. Students gain experience in the application and integration of generalist foundational social work practice skills, values, ethical decision-making, and professional ethics with diverse individuals, families, groups, communities, and organizations. Students apply a foundational antiracist and antioppressive social work practice framework. In-class seminars support the practicum internship experience with presentations and discussions on practice situations, professional development, ethical faith integration, and skills necessary for effective social work practice. Students complete a minimum of 480 practicum hours by the end of their generalist practicum year at an approved and designated agency.
**Prerequisite:** SOCW 514 and SOCW 516

## SOCW 522, Diversity and Social Justice, 3 Units

Content will focus on diverse populations in American society and ways historical and contemporary patterns of oppression and discrimination may influence social work practice. Specific attention is given to self-awareness and to professional commitments to marginalized groups and processes of advocacy, coalition-building, and other ways of developing effective alliances to promote social justice.
**Prerequisite:** Admission to MSW program

## SOCW 523, Macro-Theory and Communities/Organizations, 3 Units

Students in this course focus on macro-level theories and social work practice with organizations and communities. Models of practice that include comprehensive assessment, integrating an understanding of various forms and mechanisms of discrimination and oppression and their relevance to macro-level interventions, are examined. Social work with organizations and communities embraces efforts to protect human and civil rights for the advancement of social and economic justice.
**Prerequisite:** SOCW 513

## SOCW 524, Practice II - Intervention and Evaluation, 3 Units

This course ends a two-course sequence that provides the foundation for social work practice with individuals and families. Content includes goal-setting and contracting, planning and implementing change strategies, utilizing evidence-based practice research, interdisciplinary collaboration, advocacy, resource development, and practice evaluation.
**Prerequisite:** SOCW 514

## SOCW 525, Field Seminar II, 1 Unit

Field seminars meet in conjunction with field coursework and provide students opportunities to discuss practice situations, professional development issues, the relationship of field to classroom learning, and skills necessary for effective practice. Generalist foundation year field seminars (I and II) focus on beginning generalist social work practice skills, knowledge and use of self, and professional ethics.
**Prerequisite:** SOCW 514, SOCW 515, and SOCW 516;
**Corequisite:** SOCW 526

## SOCW 526, Field II, 3 Units

The purpose of field internship is to provide a professional setting for students to practice generalist foundation practice skills and to provide an opportunity for the integration of knowledge, skills, values, and ethical faith integration in practice. Students complete a minimum of 480 hours by the end of semester I and semester II at an approved and designated social welfare agency.
**Prerequisite:** Admission to MSW program, SOCW 515, and SOCW 516;
**Corequisite:** SOCW 525

## SOCW 527, Research for Evidence-Informed Practice, 2 Units

The content of this course prepares students to critically evaluate social work research and evidence-informed social work practice, along with the ethical use of research methods to improve clinical practice. Concepts include problem identification, hypothesis formulation, measurement, sampling, qualitative and quantitative research designs, data collection methods, data analysis, and outcomes evaluation. Students explore how science, scholarship, and the politics of knowledge development can facilitate the mission of social work.
**Prerequisite:** Statistics course

## SOCW 528, Research for Data Driven Change, 2 Units

This course will introduce critical evaluation of social work research and its ethical application towards data-driven decision-making within community practice settings. Concepts include: problem identification, hypothesis formulation, measurement, sampling, research design, data collection methods, data analysis, and program evaluation. Students will explore how science, scholarship, and the politics of knowledge development can facilitate the mission of social work.
**Prerequisite:** Statistics course

## SOCW 529, Human Rights and Sustainable Development Policy, 2 Units

Content will focus on the relevance of human rights and sustainable development policy to macro-level social work practice in the U.S. and abroad. Topics will include advancement of human rights for social, economic and environmental justice and sustainable development strategies for poverty alleviation, universal education, public health, sanitation and housing, food security, access to clean water, population control and climate change. Analysis of existing global social policies will apply existing political, ideological, religious, cultural, age, and gender frameworks to explain current conditions and future trends. Secular and Christian perspectives will be explored.
**Prerequisite:** SOCW 522 and SOCW 523

## SOCW 530, Organizing for Community Change, 3 Units

This course expands foundation year macro-level practice content to enhance theoretical understanding and develop skills in the promotion of community, organizational, and policy change to enhance social well-being and advance social justice. Special attention is focused on collaborative efforts, coalition building and participatory methods to facilitate sustainable change. Additional topics include assessment of social service delivery systems, advocacy, and professional ethics in macro practice. The importance of engaging diverse communities, recognition of underrepresented and underserved populations, and utilizing cultural humility in practice are emphasized.
**Prerequisite:** SOCW 523

## SOCW 531, Human Rights and Sustainable Development, 2 Units

Content will focus on the relevance of human rights and sustainable development to macro-level social work practice in the U.S. and abroad. Topics will include advancement of human rights and economic justice, poverty alleviation, politics, religion, culture, age, gender, and public health conditions on human rights and development-related activities. Secular and Christian perspectives will be explored.
**Prerequisite:** SOCW 522 and SOCW 523

## SOCW 532, Advanced Community Practice, 3 Units

This course expands foundation year macro-level practice content to include community entrance, engagement, participatory action research, and collaborative strategies to advance policies and programs supporting community interests and desired resources. Additional topics include empowerment, development of cultural competence, identification of oppressive cultural structures, globalization, and professional ethics. Engaging diverse communities and cultural humility are emphasized.
**Prerequisite:** SOCW 523

## SOCW 533, Social Work Leadership and Management, 3 Units

This course provides an overview of effective leadership and management practices within the social service sector. Topics include legal and ethical issues in administration, such as managing organizational change; employee and stakeholder diversity; organizational culture; conflict resolution; group behavior; employee hiring, training, and development; employee morale; and budgeting. Emphasis is on professional written and verbal communication.
**Prerequisite:** SOCW 523

## SOCW 534, Field Seminar III, 1 Unit

Field Seminar III focuses on presentation and discussion of student experiences in specialization field internships. Specific emphasis is placed on demonstration and evaluation of advanced practice skills, interventions, supervision use, cultural responsiveness, professional ethics, and faith integration issues addressed in coursework.
**Prerequisite:** SOCW 514, SOCW 515, SOCW 516, SOCW 524, SOCW 525, SOCW 526;
**Corequisite:** SOCW 527 and SOCW 539 (clinical specialization) or SOCW 528 and SOCW 535 (community leadership and program administration specialization)

## SOCW 535, Field III - Community Leadership and Program Administration, 3 Units

The purpose of field internship is to provide a setting for students to develop advanced community practice skills and an opportunity for the ethical integration of knowledge, skills, values, and faith in social work. Students complete a minimum of 480 hours (600 hours for Advanced Standing students) by the end of semester I and semester II at an approved and designated agency.
**Prerequisite:** SOCW 514, SOCW 515, SOCW 516, SOCW 524, SOCW 525, SOCW 526;
**Corequisites:** SOCW 528, SOCW 534

## SOCW 536, Adult Behavioral Health and Diagnosis, 3 Units

This course begins a two-semester advanced clinical practice sequence focusing on adult behavioral health. Content includes advanced application of the Diagnostic and Statistical Manual for Mental Disorders (DSM-5); symptoms, diagnoses, and treatment strategies associated with psychiatric conditions; brain functioning and chemistry; psychotropic medications; and managed care expectations. Cultural and faith perspectives are integrated throughout the course using clinical best practices.
**Prerequisite:** SOCW 514 and SOCW 524

## SOCW 537, Child and Adolescent Behavioral Health and Diagnosis, 3 Units

This course focuses on behavioral health issues experienced by children and adolescents, and discussion of the effects of trauma on social and emotional development. Diagnostic issues affecting children and related treatment interventions are explored in the contexts of child welfare, school-based behavioral health, and healthcare settings. Research-informed approaches are taught, to improve functioning and well-being of children and adolescents. Laws impacting work with minors and families, as well as ethical issues for social work practitioners, are presented. Course content meets California education requirements in the area of child abuse assessment for LCSW licensure.
**Prerequisite:** SOCW 513, SOCW 514, and SOCW 524

## SOCW 538, Clinical Practice with Groups, 3 Units

This course presents different theoretical approaches and treatment strategies associated with clinical social work practice with groups. Topics include group development stages, professional ethics in practice with groups, leadership principles, diversity issues, and evaluation methods.
**Prerequisite:** SOCW 513

## SOCW 539, Field III-Clinical Practice, 3 Units

The purpose of field internship in the clinical specialization year is to provide a setting for students to develop advanced practice skills and an opportunity for the integration of knowledge, skills, and social work values as applied to clinical practice across the life span continuum. Students complete a minimum of 480 hours (or 600 hours for Advanced Standing students) by the end of fall and spring semesters at an approved and designated agency.
**Prerequisite:** SOCW 514, SOCW 515, SOCW 516, SOCW 524, SOCW 525, SOCW 526;
**Corequisites:** SOCW 527, SOCW 534

## SOCW 540, Educational Policy, 3 Units

This course introduces policies and legislation that impact delivery of school social work services in the United States education system. Landmark local, state, and federal policies are presented for analysis and application to the public school setting, critical for gaining an understanding of the challenges for school social work practice. Historical and current perspectives including racism, equality, and access to public education are discussed.
**Prerequisite:** Completion of generalist foundation curriculum; admission to the PPS program (required for students seeking the PPSC).

## SOCW 541, Capstone Leadership Project, 3 Units

This course prepares students for professional leadership roles in social work settings and supports completion of their capstone leadership projects. Content integrates development of leadership skills, self reflection, professional use of self, interprofessional practice, use of research to inform practice, and knowledge of program context to implement sustainable change in organizations. Professional ethics and decision making, which influence the leadership role in social work, are examined.
**Prerequisite:** All generalist foundation courses and completion of first semester of specialization courses.
**Corequisites:** SOCW 544; and SOCW 545 or SOCW 548

## SOCW 542, International Social Work Policy and Practice, 2 Units

Content will focus on international social work practice at multiple systems levels. Topics will include comparison of United States' and international social welfare policy, differing theoretical and religious perspectives, neo-liberal economic development policies, globalization, and issues immigrants and other marginalized groups. Practice content will address poverty alleviation, conflict and post-conflict reconstruction, displacement and forced migration concerns.
**Prerequisite:** SOCW 522, SOCW 523, SOCW 531, SOCW 532

## SOCW 543, Program and Grants Management, 3 Units

Systematic program planning with a focus on outcomes is a critical component in operating effective human service programs. Students will become familiar with program design and program evaluation methodologies, and the tools most commonly used to assess human service programs. This course also prepares students for fundraising and grant writing in human service organizations. Students assess agencies and stakeholders and analyze funding resources, performance measures, strategies, skills and decision-making processes. At the completion of this course, students will be prepared to design and implement programs and conduct outcome evaluations to ensure program efficiency and effectiveness for clients, staff and external funding sources.
**Prerequisite:** SOCW 513, SOCW 523

## SOCW 544, Field Seminar IV, 1 Unit

Field Seminar IV focuses on presentation and discussion of students experiences in specialization year field internships and preparation for masters-level social work employment and licensure. Specific emphasis is placed on critical thinking and communication of professional judgments, integration of theory, assessment, intervention, and evaluation, as well as professional development issues.
**Prerequisite:** SOCW 514, SOCW 515, SOCW 516, SOCW 524, SOCW 525, SOCW 526, SOCW 534, SOCW 535 or SOCW 539;
**Corequisite:** SOCW 541; and SOCW 545 or SOCW 548

## SOCW 545, Field IV - Community Leadership and Program Administration, 3 Units

Field internship provides a setting for students to utilize advanced community practice skills and an opportunity for the ethical integration of knowledge, skills, values, and faith in social work. Students complete a minimum of 480 hours (600 hours for Advanced Standing students) by the end of semester I and semester II at an approved and designated agency.
**Prerequisite:** SOCW 514, SOCW 515, SOCW 516, SOCW 524, SOCW 525, SOCW 526, SOCW 534, and SOCW 535;
**Corequisite:** SOCW 541, SOCW 544

## SOCW 546, Family Therapy in Context, 3 Units

This course focuses on family practice contexts and theories of child welfare and family therapy. Content includes social worker roles and scope of practice in child welfare practice, and current approaches to assisting families in the child welfare system. Also included is the demonstration and practice of family therapy, application of theory, and assessment and intervention on diverse family systems. Course material also addresses legal and ethical problem solving related to contemporary professional ethics and statutes and regulations related to family law.
**Prerequisite:** SOCW 513, SOCW 523

## SOCW 547, Health and Behavioral Health Policy, 2 Units

This course explores American social welfare policies relevant to health and behavioral health care. Course content includes the historical and social contexts of health and behavioral health care, and the roles of the public and private sectors in shaping contemporary trends and issues, particularly among vulnerable communities. Topics include healthcare reform, integrated care, access/treatment disparities, advocacy and policy reform, and the recovery model.
**Prerequisite:** SOCW 512

## SOCW 547A, Applied Clinical and Advanced Policy Practice, 3 Units

Students in this course explore the convergence of clinical social work theoretical/practice models, professional/ethical considerations, and health/behavioral health policy practice. Content involves case-based learning, critical thinking, and ethical decision-making, and integrates a trauma-informed, relational social work perspective with a focus on addressing antiracism and health/behavioral health disparities in vulnerable communities.
**Prerequisite:** SOCW 512, SOCW 513, SOCW 514, and SOCW 524

## SOCW 548, Field IV - Clinical Practice, 3 Units

Field internship in the clinical specialization year provides a setting for students to develop advanced practice skills, and an opportunity for the integration of knowledge, skills, and social work values as applied to clinical practice across the life span. Students complete a minimum of 480 hours (or 600 hours for Advanced Standing students) by the end of fall and spring semesters at an approved, designated agency.
**Prerequisite:** SOCW 514, SOCW 515, SOCW 516, SOCW 524, SOCW 525, SOCW 526, SOCW 534, and SOCW 539;
**Corequisites:** SOCW 541 and SOCW 544

## SOCW 549, Advanced Practicum I: Clinical Practice, 3 Units

This course includes supervised internships in an agency setting and integrative in-class seminars specific to the clinical specialization. Students develop advanced clinical practice skills across the life span continuum from an antiracist and antioppressive perspective, with access to a broad range of complex practice opportunities. Emphasis is on critical thinking and communication of professional judgments; integration of theory; advanced clinical engagement, assessment, intervention, and evaluation; supervision use; cultural responsiveness; professional ethics; and ethical faith integration applied in practicum work with individuals, families, and groups. The seminars focus on presentations and discussions of student internship experiences, along with integration of classroom theory and practice. Students complete a minimum of 480 practicum hours (600 hours for Advanced Standing students) by the end of their specialization year at an approved and designated agency.
**Prerequisite:** SOCW 514, SOCW 517, SOCW 524, and SOCW 518;
**Corequisite:** SOCW 574

## SOCW 550, Advanced Standing: Intermediate Praxis, 3 Units

Advanced Standing courses bridge the BSW and MSW programs. Students in this course focus on micro- and macro-level theories and the relevance of different worldviews, using case examples drawn from professional social work. Models of practice with diverse communities and social welfare organizations are examined. Students have opportunities for further development of self-awareness regarding the ways beliefs and values, such as faith, may affect practice and professional identity.
**Prerequisite:** Admission to Advanced Standing MSW program;
**Corequisite:** SOCW 551

## SOCW 551, Advanced Standing: Social Work Ethics and Practice, 3 Units

This advanced-standing course provides overviews of the legal and ethical practice standards in social work, and addresses the skills required for effective engagement, assessment, intervention, and evaluation with individuals, families and groups. Assignments focus on social work practice skill development, application of documentation standards, use of evidence-informed practice methods, and integration of legal and ethical issues impacting practice.
**Prerequisite:** Completion of BSW degree; statistics course with a grade of C or higher.

## SOCW 552, Program Planning and Evaluation, 3 Units

Systematic program planning with a focus on outcomes is a critical component in operating effective human service programs. Over the course of this semester, you will become familiar with program design and program evaluation methodologies, and the tools most commonly used to assess human service programs. Additional topics will include identification and use of performance measures, the roles of evaluators and stakeholders, the influence of the political environment, technology applications, and applicable ethics related to program design and evaluation. At the completion of this course you will be prepared to design and implement programs and conduct outcome evaluations to ensure program efficiency and effectiveness for clients, staff and external funding sources.
**Prerequisite:** Completion of generalist foundation coursework

## SOCW 553, Field V Clinical: School Social Work, 3 Units

The PPSC school social work field internship provides a setting for students to develop advanced clinical practice skills in preparation for practice in school settings, and an opportunity for the ethical integration of knowledge, skills, values, and faith in social work. Students accrue field hours at an approved and designated school site in the fall and spring semesters of their specialization year; a total of 600 hours (450 in school social work and 150 in child welfare and attendance) is required by the end of the spring semester. This is the first of a two-semester course sequence with SOCW 555.
**Prerequisite:** MSW Students: SOCW 514, SOCW 515, SOCW 516, SOCW 524, SOCW 525, & SOCW 526. Post-MSW Students: MSW from a CSWE-accredited program, and acceptance into the APU PPSC program.
**Corequisites:** MSW students: SOCW 527, SOCW 554

## SOCW 554, Field Seminar V Clinical: School Social Work, 1 Unit

This seminar course focuses on discussion of student experiences in the PPSC school social work field internships. Emphasis is on demonstration and evaluation of advanced practice skills, interventions, supervision use, cultural responsiveness, professional ethics, and faith integration issues addressed in the PPSC field experience. This is the first of a two-semester course sequence with SOCW 556.
**Prerequisite:** MSW Students: SOCW 514, SOCW 515, SOCW 516, SOCW 524, SOCW 525, & SOCW 526. Post-MSW Students: MSW from a CSWE-accredited program, and acceptance into the APU PPSC program.
**Corequisites:** MSW students: SOCW 527, SOCW 553

## SOCW 555, Field VI Clinical: School Social Work, 3 Units

The PPSC school social work field internship provides a setting for students to develop advanced clinical practice skills in preparation for practice in school settings, and an opportunity for the ethical integration of knowledge, skills, values, and faith in social work. Students accrue field hours at an approved and designated school site in the fall and spring semesters of their specialization year; a total of 600 hours (450 in school social work and 150 in child welfare and attendance) is required by the end of the spring semester. This is the second of a two-semester course sequence with SOCW 553.
**Prerequisite:** MSW students: SOCW 514, SOCW 515, SOCW 516, SOCW 524, SOCW 525, SOCW 526, SOCW 553, and SOCW 554; Post-MSW students: MSW degree from a CSWE-accredited program, and acceptance into the APU PPSC program.
**Corequisite:** SOCW 556

## SOCW 556, Field Seminar VI Clinical: School Social Work, 1 Unit

This seminar course focuses on discussion of student experiences in the PPSC school social work field internship. Emphasis is on demonstration and evaluation of advanced practice skills, interventions, supervision and consultation, cultural responsiveness, professional ethics, and faith integration issues that occur in the field internship experience. This is the second of a two-semester course sequence with SOCW 554.
**Prerequisite:** MSW students: SOCW 514, SOCW 515, SOCW 516, SOCW 524, SOCW 525, SOCW 526, SOCW 553, SOCW 554. For Post-MSW students: MSW degree from a CSWE-accredited program, and acceptance into APU PPSC program.
**Corequisite:** For all students: SOCW 541, SOCW 555

## SOCW 557, Advanced Practicum II: Clinical Practice, 3 Units

This final practicum course continues the supervised internship experience in an agency setting and integrative in-class seminars specific to the clinical specialization. Students develop advanced clinical practice skills across the life span continuum from an antiracist and antioppressive perspective, with access to a broad range of complex practice opportunities. Emphasis is on critical thinking and communication of professional judgments; integration of theory; advanced clinical assessment, intervention, and evaluation; supervision use; cultural responsiveness; professional ethics; and ethical faith integration applied in practicum work with individuals, families, and groups. Seminars focus on presentations and discussions of student internship experiences and master's-level social work employment and licensure preparation. Students complete a minimum of 480 practicum hours (600 hours for Advanced Standing students) by the end of their specialization year at an approved and designated agency.
**Prerequisite:** SOCW 514, SOCW 517, SOCW 524, SOCW 518, and SOCW 549;
**Corequisite:** SOCW 541

## SOCW 558, Advanced Practicum I: Community Leadership and Program Administration, 3 Units

This course includes supervised internships in an agency setting and integrative in-class seminars specific to the community leadership and program administration (macro)specialization. Students develop advanced organizational, community, and policy practice skills from an antiracist and antioppressive perspective as it applies to macro leadership roles, community advocacy, and policy and legislation. Seminars focus on presentations and discussions of student internship experiences, and integration of micro and macro practice skills within the context of the social environment. Emphasis is on critical thinking and communication of professional judgments; integration of theory; assessment, intervention, and evaluation; ethical faith integration; and professional development opportunities in practicum work with groups, communities, and/or organizations. Students complete a minimum of 480 practicum hours (600 hours for Advanced Standing students) by the end of their specialization year at an approved and designated agency.
**Prerequisite:** SOCW 514, SOCW 517, and SOCW 518;
**Corequisite:** SOCW 574

## SOCW 559, Advanced Practicum II: Community Leadership and Program Administration, 3 Units

This final practicum course continues the supervised internship experience in an agency setting and integrative in-class seminars specific to the community leadership and program administration (macro)specialization. Students develop advanced organizational, community, and policy practice skills from an antiracist and antioppressive perspective as it applies to macro leadership roles, community advocacy, and policy and legislation. Seminars focus on presentations and discussions of student internship experiences and master's-level social work employment and licensure preparation. Emphasis is on critical thinking and communication of professional judgments; integration of theory; assessment, intervention, and evaluation; ethical faith integration; and professional development opportunities in practicum work with groups, communities, and/or organizations. Students complete a minimum of 480 practicum hours (600 hours for Advanced Standing students) by the end of their specialization year at an approved and designated agency.
**Prerequisite:** SOCW 514, SOCW 517, SOCW 524, SOCW 518, and SOCW 558;
**Corequisite:** SOCW 541

## SOCW 560, Social Work Practice in Healthcare Settings, 3 Units

This elective course offers an introduction to social work practice in healthcare settings, with a focus on the specific knowledge and skills essential for effective intervention. Students critically analyze the U.S. healthcare system as compared to international models, and apply clinical skills and relevant laws to interdisciplinary practice while understanding the context of the political, societal, and economic influences that impact service delivery and available resources. The course also articulates how a Christian worldview relates to ethical social work practice within the field of health care.

## SOCW 561, Treatment of Substance Use Disorders, 3 Units

This course describes substance use disorders from a biopsychosocial-cultural-spiritual perspective, emphasizing assessment and intervention skills, processes, and evidence-informed research relevant to treatment using the recovery model. Diversity issues involving policy and practice are explored. Course content meets California Board of Behavioral Sciences prelicensure requirement in the area of alcohol and other substance abuse assessment.

## SOCW 562, Urban Social Welfare, 3 Units

Course integrates on-site experiential learning with classroom education focused on urban issues of homelessness, gang involvement, and immigration. Students engage in weekly on-site learning activities in high-need areas of Los Angeles and Orange County. Content includes theological and sociological perspectives on urban issues as well as urban social work practice. Elective

## SOCW 563, School Social Work, 3 Units

This course uses an ecological perspective in teaching the practice of social work in schools. Topics include the historical, theoretical, legal, research, policy, and practice issues relevant to the delivery of school social work services; the roles and tasks performed by social workers in public schools; school social work practice models; and the professional code of ethics. The purpose of this course is to develop the knowledge, skills, and abilities necessary for successful and competent practice with students, families, schools, and communities.
**Prerequisite:** Completion of generalist foundation curriculum; admission to the PPS program (required for students seeking the PPSC).

## SOCW 564, Social Work and the Bible: Christian Perspectives on Service and Professional Practice, 3 Units

This course focuses on theological and social work perspectives on the relevance of the Bible to professional practice activities. Content addresses diverse Christian perspectives on social welfare policies and faith integration in different practice environments. Distinctions between professional social work, Christian counseling, and missionary activity are explored. Elective

## SOCW 565, Clinical Spanish Practice, 3 Units

This course prepares students to utilize clinical practice skills in the Spanish language, including assessment, engagement, intervention, and evaluation of services with individuals, groups, and communities. Content covers diversity issues such as cultural competence and understanding of the Latino/a culture and its intragroup differences, and equipping students to confront biases, myths, and stereotypes in the client-practitioner therapeutic relationship. Course is conducted primarily in Spanish.
**Prerequisite:** SOCW 514 and SOCW 524

## SOCW 566, Social Work, Health, and Aging, 3 Units

This course explores concepts, social policies, resources, and interventions related to social work practice with the older adult population. Content integrates themes of diversity, ageism, empowerment, and faith, as well as community-based and cross-cultural competence. Content includes a focus on biopsychosocial assessment, with emphasis on functional and cognitive status, integrated healthcare practice, interdisciplinary practice, and end-of-life care. This course meets California Board of Behavioral Sciences requirements for clinical social work licensure.

## SOCW 567, Couples Therapy, 3 Units

This course is an overview of current theories, methods, and psychological instruments used in couples therapy interventions. Content includes detection, assessment, and intervention strategies for spousal or partner abuse, meeting California requirements for training in the area of domestic and family violence for MFT and LCSW licensure. Students apply course material to role-play scenarios during class time. Attention is given to issues of ethnic diversity, blended families, and faith integration.
**Prerequisite:** Completion of generalist foundation coursework or admission into the Advanced Standing program.

## SOCW 568, Military Social Work, 3 Units

This course helps students understand the unique and complex needs of active-duty service members, veterans, and family members of military personnel, presenting knowledge and skills essential to effective clinical social work practice with these populations. Topics include military culture, ethical issues, diversity, faith integration, trauma, assessment, family issues, reintegration, domestic violence, substance use, homelessness, suicide, building resiliency, and evidence-informed interventions for use in interprofessional settings.

## SOCW 569, Human Sexuality and Sex Therapy, 3 Units

This course reviews human sexuality as a basis for sex therapy and clinical social work involving sexuality issues. Students examine and evaluate biological, psychological, social, moral, and faith perspectives on sexual development and functioning. In addition, students survey literature on sexual dysfunction, and learn treatment strategies utilized in various social work contexts and systems of marital and sex therapy. This course meets California Board of Behavioral Sciences requirements for clinical social work licensure.

## SOCW 570, International Social Work Policy and Practice, 3 Units

Content focuses on international social work practice at multiple systems levels. Topics include comparison of U.S. and international social welfare policies; different theoretical, economic, cultural, ideological, and religious perspectives; neoliberal economic development policies; issues involving immigrants and other marginalized groups; and the impact of globalization and climate change on rapid urbanization and population growth. Practice content addresses poverty alleviation, conflict and postconflict reconstruction, and displacement and forced migration concerns.
**Prerequisite:** SOCW 522 and SOCW 523

## SOCW 572, Advanced Practicum I: School Social Work, 3 Units

This course includes supervised internships in school settings and integrative in-class seminars specific to the clinical specialization with the PPSC (school social work) pathway. Students develop advanced clinical practice skills, in preparation for practice in school settings, from an antiracist and antioppressive perspective. Emphasis is on critical thinking and communication of professional judgments; integration of theory; advanced clinical engagement, assessment, intervention, and evaluation; supervision use; cultural responsiveness; professional ethics; and ethical faith integration applied in the PPSC practicum experience. Seminars focus on presentations and discussions of student internship experiences, along with integration of classroom theory and practice. Students complete a minimum of 600 practicum hours (450 in school social work and 150 in child welfare and attendance) by the end of their specialization year at approved and designated school sites.
**Prerequisite:** Current MSW PPSC Students: SOCW 514, SOCW 517, SOCW 524, and SOCW 518;
**Corequisite:** SOCW 527

## SOCW 573, Advanced Practicum II: School Social Work, 3 Units

This final practicum course continues the supervised internship experience in school settings and integrative in-class seminars specific to the clinical specialization. Students develop advanced clinical practice skills, in preparation for practice in school settings, from an antiracist and antioppressive perspective. Emphasis is on critical thinking and communication of professional judgments; integration of theory; advanced clinical engagement, assessment, intervention, and evaluation; supervision use; cultural responsiveness; professional ethics; and ethical faith integration applied in the PPSC practicum experience. Seminars focus on presentations and discussions of student internship experiences, and master's-level social work employment and licensure preparation. Students complete a minimum of 600 practicum hours (450 in school social work and 150 in child welfare and attendance) by the end of their specialization year at approved and designated school sites.
MSW Students: Prerequisites: SOCW 514, SOCW 517, SOCW 524, SOCW 518, and SOCW 572; corequisite: SOCW 541 Post-MSW PPSC Students: Prerequisites: MSW degree from a CSWE-accredited program, acceptance into APU's PPSC program

## SOCW 574, Applied Research for Evidence-Informed Practice, 3 Units

This course prepares students to critically evaluate social work research and evidence-informed practice, and its ethical application to data-driven decision-making within community practice settings. Concepts covered include problem identification, hypothesis formulation, measurement, sampling, research design, data collection methods, data analysis, and program evaluation. Students explore how science, scholarship, and the politics of knowledge development can facilitate the mission of social work.
**Prerequisite:** Statistics course

## SOCW 595, Special Topics, 1-6 Units

Special topics courses offer graduate-level content that is typically scheduled in an intensive format. These courses include a wide range of specialized topics relevant to professional social workers. The unit values of these courses range from 1-6 depending upon the specific contact hours and coursework load. Note: Elective offerings vary year to year.

## SOCW 599, Readings in Social Work, 1-3 Units

Students enroll in this course to pursue independent study of professional interests/activities. Students explore topics in greater depth than in regular course offerings and/or initiate individual projects. Readings and assignments are based on learning contracts developed in consultation with a sponsoring faculty member and approved by the MSW program director. Additional fees required.

## PRSW 410, Family Violence, 3 Units

Family violence is an in-depth study from a system's perspective of violence that occurs in families. This course provides an overview of child abuse, spousal abuse, abuse between intimate partners, and elder abuse. The course explores the theory and research as to the causes of abuse, including individual and family factors, elder abuse, gender issues, community and societal influences, and cultural factors. This course explores the policy and programs developed to deal with these crises. Finally, methods of assessment and intervention are investigated as applicable to both professional and personal situations.
**Prerequisite:** Junior or Senior Standing or Instructor's consent

# Bachelor of Social Work

69 units

## Mission Statement

The Bachelor of Social Work (https://www.apu.edu/bas/programs/bsw/) program at Azusa Pacific University seeks to develop competent generalist social work practitioners who can apply knowledge based on scientific inquiry, professional values, and skills of social work, integrating a Christian perspective, to enhance the well-being of diverse individuals, families, groups, organizations, and communities in the context of their environment towards advancing social justice both locally and globally.

## Program Values

The BSW program is grounded in the profession's history and commitment to racial, social, economic, and environmental justice; respect for diversity; and the university's commitment to advancing God's work in the world by being of service, advancing human rights, validating the importance of human relationships, demonstrating integrity, and promoting the dignity and worth of all people. The program is committed to excellence in its teaching

and scholarship based on scientific inquiry, to the integration of Christian faith in learning and practice, and to the facilitation of community within the department, with students, and within the greater social environment.

## BSW Program Goals

1. Equip students with generalist knowledge, values, and skills toward employment in social work practice with diverse individuals, families, groups, organizations, and communities within a global context.

2. Enhance application of knowledge through a learning environment that builds on a liberal arts foundation and promotes critical thinking, scientific inquiry, and preparation for social change through the advancement of racial, social, economic, and environmental justice.

3. Foster professional development and identity through applied learning experiences.

4. Prepare social workers who engage in ethical practice, including an understanding of ethical integration of a Christian worldview.

5. Provide a curriculum that affirms lifelong learning and is preparatory to graduate-level education, including the pursuit of an advanced-standing graduate social work degree.

6. Engage in ongoing scholarship responsive to social work goals and needs.

In their courses, BSW students learn the knowledge, values, and skills to help them engage, assess, provide intervention, and evaluate their direct practice with individuals, groups, families, organizations, and communities. Additionally, students are encouraged to think critically, become aware of their affective reactions, exercise good judgment, and use self-reflection as part of their professional development. During their senior year, students complete a supervised 400$^+$-hour internship at a community-based agency where they apply the knowledge and skills learned in the classroom to professional environments and client groups to gain experience.

## Career Opportunities

Social workers provide services to individuals, families, groups, organizations, and communities. Social workers can apply their training and experience in a variety of practice areas, including:

| | |
|---|---|
| Adoption and Foster Care | Hospice and Palliative Care |
| Advocacy Consulting and Planning | Housing Assistance |
| Charter/Alternative School Programs | In-home Services |
| Child Abuse and Neglect | International Social Work |
| Child Welfare Services | Law/Courts/Community |
| Criminal Justice | Medical Social Work |
| Crisis Intervention | Mental Health Counseling |
| Community Mental Health | Military Social Work |
| Community Planning and Advocacy | Parent Education |
| Delinquent/At-risk Youth | Police Work |
| Developmental Disabilities | Political Planning and Lobbying |
| Disaster Relief | Prisons and Probation |
| Eating Disorders | Public Health |
| Employee Assistance Programs | Rural/Tribal Social Work |
| Genetics/Transplant | School Social Work |
| Gerontology/Older Adult Services | Skilled Nursing Social Work |
| Homeless Individual/Families Assistance | Substance Use |

## Accreditation

The undergraduate program in the Department of Social Work has been nationally accredited since 1982 by the Council on Social Work Education (https://www.cswe.org/).

## Advising and Admission

### Academic Advising Policy

Any student interested in social work is encouraged to contact the BSW program for more information about the major—contact us at bsw@apu.edu or (626) 857-2410. Students who wish to major in social work should declare "Social Work Interest" as their intended major as soon as possible through the Student Services Center (https://www.apu.edu/student-services/registration/#ugforms) in order to begin academic and professional planning. Upon declaring "Social Work Interest" as a major, students are assigned an academic success coach by the Academic Success Center (https://www.apu.edu/

academic-success/). Students meet with their assigned coach to create an initial multiyear academic plan. Once admitted to the social work major, a BSW faculty-mentor advisor is assigned by the BSW program for academic and professional advising. Students are strongly encouraged to meet with their academic success coach (as "Social Work Interest") or BSW faculty-mentor advisor (as "Social Work Major") prior to registration each semester.

*Note: Students must apply to the major (see Admission to the Program section below). Upon full admission to the program, student status is changed from "Social Work Interest" to "Social Work" by the* Student Services Center *(*https://www.apu.edu/student-services/*). Transfer students may be required to apply to the BSW program immediately upon university acceptance. See the Admission to the Program section below for additional direction.*

## Academic Advising Procedure

1. Contact the BSW program to schedule an appointment, if necessary, to discuss social work as a choice of major.

2. Declare "Social Work Interest" as a major through the Student Services Center (https://www.apu.edu/student-services/registration/#ugforms).

3. Contact the BSW office to receive your advisor assignment and the BSW Student Handbook (https://www.apu.edu/files/bswstudenthb1112.pdf).

4. Read the BSW Student Handbook in its entirety.

5. Meet with assigned success coach to develop a multiyear academic plan and confirm choice of major.

6. Respond to the email invitation to schedule an appointment with the assigned advisor that will be sent to the student's APU email address (during university advising period).

7. Schedule an appointment with your academic success coach ("Social Work Interest" students) and/or BSW faculty-mentor advisor ("Social Work Major" students) for academic advising prior to registration each semester.

8. Meet with your academic success coach ("Social Work Interest" students) and/or BSW faculty-mentor advisor ("Social Work Major" students) for academic advising prior to registration each semester.

*Note: Advisors assist in planning, but students are responsible for coming prepared for advising and being knowledgeable regarding university requirements.*

## Professional Advising Policy

As outlined above, once a student is admitted to the social work major, a BSW faculty mentor-advisor is assigned by the BSW program for academic and professional advising. While the BSW faculty mentor-advisor is the primary contact person within the program, students are encouraged to utilize all BSW faculty office hours as needed for professional development. Students are invited to regularly meet with their BSW faculty mentor-advisor for professional development discussions aimed at graduate school and/or employment preparation. The BSW faculty mentor-advisor can also clarify specific content and expectations of the required social work courses, including general information about and preparation for practicum. Students are assigned to faculty mentor-advisors upon acceptance to the major by the BSW admissions committee. Students can meet with their BSW faculty mentor-advisor by appointment during department advisement periods or through use of faculty office hours.

Additional professional advising occurs through department, program, and alumni association events as well as during the SOCW 467 Senior Practicum Seminar I and SOCW 469 Senior Practicum Seminar II courses.

## Professional Advising Procedure

Students may obtain professional advising by:

1. Being accepted as a social work major by the BSW admissions committee.

2. Being assigned a BSW faculty-mentor by the BSW program coordinator.

3. Responding to the email invitation to schedule an appointment with your assigned BSW faculty mentor-advisor that will be sent to your APU email address (during university advising period) OR schedule an appointment with your BSW faculty mentor-advisor during their posted office hours.

4. Meeting with your BSW faculty mentor-advisor for professional advising.

## Admission to the Program

Students are considered "Social Work Interest" by the registrar until formally accepted into the program. Prior to formal acceptance into the program, students should begin advising within the BSW program and can begin taking entry-level social work courses and the General Education courses that apply to social work, as outlined in the university catalog.

The BSW program reviews applications in the fall and spring semesters for currently enrolled students. Application deadlines are March 7 (fall admission) and November 7 (spring admission). Late applications may be considered on a case-by-case basis depending on the number of accepted students.

Transfer social work applicants planning to enter APU at the junior level (45 or more units) must submit the BSW Application for Admission (https://formstack.apu.edu/forms/bsw_program_application/) in order to be considered for full acceptance into the social work program. Submit your application to the BSW program at the same time you submit your university application. Students transferring in prior to their junior year (less than 45 units) begin the major as "Social Work Interest," and submit applications prior to their junior year after starting at the university. Transfer students should seek academic advising through the Academic Success Center (https://www.apu.edu/academic-success/) and within the BSW program as soon as possible to begin planning coursework. Transfer social work applicants planning to enter APU at the junior level (45 or more units) must submit the BSW Application for Admission in order to be considered for full acceptance into the social work program. Submit your application to the BSW program at the same time you submit your university application. Students transferring in prior to their junior year (less than 45 units) begin the major as "Social Work Interest," and submit applications prior to their junior year after starting at the university. Transfer students should seek academic advising through the Academic Success Center and within the BSW program as soon as possible to begin planning coursework.

Students may be admitted fully, or on provisional status, or denied admission. If a student is admitted on provisional status, a plan for attaining full admission is provided by the BSW admissions committee. If this plan is not met in full, the student is not allowed to continue in the program and will receive notice that provisional status was not met. If denied admission, the student may initiate an appeal procedure, as outlined in the BSW Student Handbook.

## University-Admitted APU Students

Students admitted to the university and interested in pursuing the social work major should submit their BSW Application for Admission directly to the BSW program. Applications are reviewed by the Social Work Advising and Admissions Committee, composed of social work faculty, and are considered based on academic and personal readiness for the program.

## Admission Requirements

1. A 2.5 overall GPA
2. Completion of or enrollment in SOCW 250 Introduction to Social Work (full acceptance requires completion of this course with a *C* or better).
3. Acknowledgment of the ability to adhere to the National Association of Social Workers Code of Ethics (https://www.socialworkers.org/About/Ethics/Code-of-Ethics/).
4. Acknowledgment of the ability to meet BSW Technical Standards and maintain professional behavior consistent with the Student Code of Conduct, both of which are outlined in the BSW Student Handbook (https://www.apu.edu/files/bswstudenthb1112.pdf).
5. Submission of a personal statement providing responses to the following:
    a. What influenced your choice of social work as a profession? Include when and how you became interested in the field of social work.
    b. What personal, volunteer, and/or employment experiences have you had, and/or what characteristics do you possess, that will contribute to your work as a professional in the field of social work?
    c. Social workers practice with diverse people groups in diverse settings. What groups and/or settings may challenge you because of either your personal values, attitudes, and/or experiences? How will you handle this?
    d. Social work often involves assisting individuals, families, groups, and communities in problem-solving. Give a brief description of a problem you have encountered in an employment or volunteer situation and how you resolved it. If you have neither employment nor volunteer experience, you may discuss a personal challenge that you faced.
    e. The profession of social work has identified Grand Challenges (https://grandchallengesforsocialwork.org/) that reflect the purpose and mission of the social work field. Referencing the challenges, select one or more of them that align with your personal and professional interests. Utilizing the challenge(s) selected, respond to the following:
        - Discuss how your professional goals align with the efforts of the challenge(s) selected. Why is the challenge selected important and how does it connect to your interest in the social work profession?
        - Discuss the significance of the challenge(s) selected based on your personal faith beliefs or values. For example, why should people who identify as Christians be concerned with the challenge selected?

## Procedure

1. Completion of or enrollment in SOCW 250 Introduction to Social Work (full acceptance requires completion of the course with a *C* or better)
    a. Note: transfer students with more than 45 units can apply prior to completing SOCW 250 Introduction to Social Work.
2. Complete all sections of the application, including complete responses to the personal statement questions.
3. Submit an unofficial APU transcript, or transcript of coursework completed elsewhere if a transfer.
4. Submit completed application to the BSW program for review by March 7 (fall admission) or November 7 (spring admission). Late applications and transfer students are evaluated on a case-by-case basis and as space allows.
5. Submit additional materials and/or interview with the BSW program director at the request of the admissions committee.
6. Students are notified by email within three weeks of the BSW admissions committee's decision.

## Evaluation Criteria for Personal Statements

Admission decisions for the BSW program are based upon a review of academic performance, completion of SOCW 250 as a prerequisite with a *C* or better (can be enrolled in the course for provisional admission), relevant work or volunteer experience, quality of written personal statement, and relevant experience as indicated in the résumé submission. If needed, a student may be asked to complete a formal interview with the BSW program

director and/or submit letters of reference that can support the student's readiness for a career in social work. The admissions committee may seek additional information from the social work faculty, the applicant, or other formal sources. The committee will focus on academic achievement as well as criteria that demonstrate a commitment to social work values, beginning understanding of the social work profession, professional attitude and behavior, emotional maturity, and ability to clearly express oneself orally and in writing.

Following review by the committee, the applicant will be notified in writing via email of the committee's decision. Committee options include full admission, provisional admission with terms outlined, or denial of admission.

## Admissions Appeals Process

Any student who is dissatisfied with a decision for admission may request an in-person review with the admissions committee, in which they can supply further verbal and written evidence in regard to the committee's actions. The committee will provide a written response to the student within one week of the hearing. If the student is still in disagreement, he/she may appeal to the dean of the School of Behavioral and Applied Sciences.

# Requirements

Coursework for the social work major provides foundational social work knowledge that spans the micro-mezzo-macro practice continuum and covers subject content including practice skills, human rights and social justice, community transformation and leadership, child welfare, and aging.

A total of 69 units is required for the major, and a minimum 2.5 grade-point average (GPA) is required in all major courses, including specified General Education courses. Students must pass all required courses with a *C* or higher, and must maintain a 2.5 GPA to remain in the major.

| Code | Title | Units |
| --- | --- | --- |
| **Specified General Education Requirements** | | **9** |
| PSYC 110 | General Psychology [1] | |
| SOC 120 | Introduction to Sociology [1] | |
| SOCW 275 | Social Justice Foundations for Human Rights [2] | |

| PHIL 330 | Ethics | |
| **Total Units** | | **69** |

[1] Meets the General Education Social Sciences requirement.
[2] Meets the General Education Intercultural Competence requirement.
[3] Students interested in meeting the social work major's biology requirement at another university must ensure that the course has been articulated by the biology department or obtain prior approval from their advisor to ensure that the course they plan to take covers the required content necessary to satisfy the social work curriculum.
[4] Meets the General Education Natural Sciences requirement.
[5] Meets the General Education Quantitative Literacy requirement.
[6] Meets the General Education Civic Knowledge and Engagement requirement.
[7] Only social work majors may register for these courses.
[8] Meets the General Education Integrative and Applied Learning requirement.
[9] Meets the General Education Writing 3 requirement.
[10] Two electives (6 units) are required for completion of the social work major; one must be taken from courses offered within the department, and the second may be taken from either group of approved courses.

## Suggested Plan of Study

A minimum of 120 units is needed to graduate. This includes units toward General Education, major, and/or minor requirements.

| Course | Title | Units |
|---|---|---|
| **Year I** | | |
| **Fall** | | |
| GE 100 | First-Year Seminar (required first term) | 3 |
| MIN 108 | Christian Life, Faith, and Ministry | 3 |
| WRIT 110 | Writing 1: The Art and Craft of Writing | 3 |
| PSYC 110 | General Psychology | 3 |
| SOCW 250 | Introduction to Social Work | 3 |
| MATH 99 or MATH 90 | Self-paced Mathematics Lab Or ALEKS Score of 30+ or Foundations of Mathematical Reasoning | 1-3 |
| | **Units** | **16-18** |

**Spring**

| | | |
|---|---|---|
| UBBL 100 | Introduction to Biblical Literature: Exodus/Deuteronomy | 3 |
| Writing 2 | | 3 |
| BIOL 101 | Biology and Society | 4 |
| SOC 120 | Introduction to Sociology | 3 |
| SOCW 251 | Social Welfare Policy and Service | 3 |
| | **Units** | **16** |

**Year II**

**Fall**

| | | |
|---|---|---|
| UBBL 230 | Luke/Acts | 3 |
| Ancient and Modern Languages I [1] | | 3 |
| Fine Arts | | 3 |
| SOCW 275 | Social Justice Foundations for Human Rights | 3 |
| SOCW 310 | Human Behavior and the Social Environment I | 3 |
| | **Units** | **15** |

**Spring**

| | | |
|---|---|---|
| Theology | | 3 |
| Ancient and Modern Languages II [1] | | 3 |
| Oral Communication | | 3 |
| Philosophy | | 3 |
| SOCW 311 | Human Behavior and the Social Environment II | 3 |
| | **Units** | **15** |

**Year III**

**Fall**

| | | |
|---|---|---|
| Upper Division Bible | | 3 |
| Literature | | 3 |
| MATH 130 | Introduction to Statistics | 3 |
| SOCW 332 | Social Work Practice with Individuals and Families | 3 |
| SOCW 351 | Child Welfare | 3 |
| | **Units** | **15** |

**Spring**

| | | |
|---|---|---|
| History | | 3 |
| Personal Wellness | | 1 |
| SOCW 333 | Social Work Practice with Communities and Organizations | 3 |
| SOCW 350 | Aging: Implications for Policy and Practice | 3 |
| SOCW 360 | Social Work Practice with Groups | 3 |
| Minor or Elective Units | | 3 |
| | **Units** | **16** |

**Year IV**

**Fall**

| | | |
|---|---|---|
| SOCW 466 | Field Internship I | 4 |
| SOCW 467 | Senior Practicum Seminar I | 3 |
| SOCW 478 | Social Work Research Methods | 3 |
| Social Work Elective (1 of 2) | | 3 |
| Minor or Elective Units | | 3 |
| | **Units** | **16** |

**Spring**

| | | |
|---|---|---|
| SOCW 468 | Field Internship II | 4 |
| SOCW 469 | Senior Practicum Seminar II | 3 |
| SOCW 479 | Writing 3: Social Work Research Project | 3 |

| | |
|---|---|
| Social Work Elective (2 of 2) | 3 |
| **Units** | **13** |
| **Total Units** | **122-124** |

[1]    Ancient and Modern Languages is a proficiency requirement that may be met by an OPIc, SAT, AP, CLEP, or FLATS test score, or completion of an APU language course numbered 102 or higher.

# Practicum Internships

Practicum education is a required component of the BSW curriculum. The practicum application and placement process occurs during the term prior to the onset of internships. Students complete a 400⁺-hour internship with a focus on applying and integrating generalist professional social work knowledge, values, skills, and affective-cognitive processes in a supervised community agency setting. Students are concurrently enrolled in practicum seminar during internship terms. **Course credit is not given for life experiences or for previous or current work experience**. Students are required to obtain their own malpractice insurance prior to entering their internship. Information regarding insurance is available through the BSW program. Students are responsible for ensuring they have reliable transportation to and from internship agencies.

Practicum education faculty select internship sites using strict criteria consistent with accreditation standards set forth by the Council on Social Work Education, including the congruence of internship agency mission and goals with those of professional social work ethics and standards. Agencies must also provide student supervision consistent with accreditation requirements.

Additional information regarding practicum education can be found in the Practicum Education Manual (https://drive.google.com/file/d/14BNvBzLFbtjhU7Blh_hHVN1ybZiRqRwy/view/?usp=sharing).

# Transfer of Credits

## Policy Regarding Transfer of Credits

Students applying to APU who would like to transfer course credit from another institution should review the Transfer Application Requirements (https://www.apu.edu/undergraduate-admissions/transfer/requirements/) and check with their assigned admissions representative (https://www.apu.edu/undergraduate-admissions/counselors/) in the Office of Undergraduate Admissions. Students may also want to review the APU General Education Guidelines (https://www.apu.edu/undergraduate-admissions/transfer/ge-plans/) and Course-to-Course Articulation Agreements (https://www.apu.edu/undergraduate-admissions/transfer/articulation/) to get an idea of how coursework will transfer to APU.

Students transferring from CSWE-accredited undergraduate social work programs may submit to their admissions representative a list of social work courses, including practice courses and practicum education, completed within the last five years for evaluation for transfer of credits. This request will be further submitted to the BSW program director by the Student Services Center (https://www.apu.edu/undergraduate-enrollment-services/) for social work course credit review. Each course will be evaluated by the department on a case-by-case basis for compatibility with program requirements and competencies. This process includes a comparison of syllabi from transfer institutions to ensure course content equivalency to APU required courses. General Education requirements for the major will be assessed by the Student Services Center. Students who leave the BSW program must reapply for admission to the BSW program if the absence is two years or more. Course credit is not given for life experiences or for previous or current work experience.

Students interested in meeting the social work biology requirement at another university are strongly encouraged to obtain prior approval from their advisor to ensure that the course they plan on taking covers the required content necessary to satisfy the social work requirement. Students may also consult with the Student Services Center regarding the transferability of biology courses.

**Course credit is not given for life experiences or for previous or current work experience.**

## Procedure Regarding Transfer of Credits (General Education Requirements)

The following procedure is used to review transfer of credits:

1. Students create an account on Transferology (https://www.transferology.com/).

2. Select "Will My Courses Transfer?" to search for the equivalent course at APU.

3. If the course is listed on Transferology, send an official transcript to the Student Services Center.

4. If the course is not listed on Transferology, you can also check our Articulation Agreements (https://www.apu.edu/undergraduate-enrollment-services/academic/transfer/community-college/). If you find the course in an Articulation Agreement, send an official transcript to the Student Services Center.

5. If the course is not listed in either of the above options, complete a Transfer Inquiry (https://formstack.apu.edu/workflows/transfer_credit_course_sub/) to request articulation. For major course requirements, you will need to submit a course syllabus. For General Education requirements, you will need to submit an official course description.

6. If your Transfer Inquiry is approved, send an official transcript to the Student Services Center.

## Procedure Regarding Transfer of Credits (Social Work Requirements)

The following procedure is used to review transfer of credits:

1. Students complete a Transfer Inquiry (https://formstack.apu.edu/workflows/transfer_credit_course_sub/) to request articulation and submit a course syllabus to the Student Services Center.

2. The Student Services Center routes the inquiry to the BSW program director for review.

3. The BSW program director reviews the inquiry for consistency with program standards and CSWE requirements. Courses for consideration must be transferred from a CSWE-accredited program.

4. Determination from the BSW program director is provided to the Student Services Center.

5. The Student Services Center notifies the student of the credit decision.

## Social Work Student Conduct Code

In addition to maintaining academic standards, students must demonstrate professional expectations and adherence to the Department of Social Work conduct code. Violation of the code may result in probation or termination from the program.

Professionalism and integrity are basic characteristics required of students in the program. As such, in addition to APU student standards of behavior, the Department of Social Work has standards for professional ethical behavior required of social work students as outlined below. Violations of this code trigger an investigation and possible sanctions. Although it is not possible to provide an exhaustive list of all types of violations that may result in probation or termination from the program, the following are some examples:

1. Plagiarism or other academic integrity violation (see APU's academic integrity policy (https://www.apu.edu/provost/integrity/))

2. Misrepresenting or misstating events surrounding an incident involving professional conduct

3. Poor or improper professional conduct during internship, classroom, or service-learning assignments

4. Being under the influence of alcohol and/or other controlled substances during classes and/or internship

5. Unprofessional involvement with a client or supervisor while engaged in internship activities

6. Breach of professional confidentiality

7. Derogatory comments and behavior toward a client, agency employee, classmate, faculty, or staff member

8. Discrimination or harassment directed toward a client, agency employee, classmate, faculty, or staff member on the basis of class, race, age, disability, national origin, gender, religion, and/or sexual orientation

9. Violation of the National Association of Social Workers (NASW) Code of Ethics (https://www.socialworkers.org/About/Ethics/Code-of-Ethics/Code-of-Ethics-English/) (a copy is held in the program office)

10. Insubordination

11. Excessive and/or unexcused absences

12. Falsifying practicum/classroom attendance hours

13. Unprofessional use of social media sites

14. Inappropriate professional attitude/disposition

Additionally, students are provided professional development feedback through the use of Professionalism Rubrics scored in each BSW course. These rubrics encompass faculty feedback relevant to in-class and service-learning observation. Rubrics are used to give guidance to students relevant to demeanor, use of reflection, appropriate use of technology, use of supervision/consultation, critical thinking, and collegiality. Students who present

concerns in these areas may be referred to the BSW program director for remediation. The BSW Student Handbook (https://www.apu.edu/files/bswstudenthb1112.pdf) can be referred to for the full description of the conduct code and appeals process.

# Student Participation and Feedback

## Student Participation and Feedback Policy

The BSW program invites and welcomes student participation and feedback as we work together to deliver a high-quality program that prepares generalist social work practitioners. Students are invited to participate in Club Social Work, to participate in or organize other interest groups, and to participate in student government.

Students are highly encouraged to talk with faculty if there are questions or concerns regarding classes. Practicum faculty are available to discuss issues related to internships. The BSW program coordinator and/or the BSW program director are available to discuss such issues as medical leave, leave of absence, academic planning, and study away/independent study options. If students feel that issues have not been resolved through these channels, they are encouraged to make an appointment to speak with the department chair.

It is the student's responsibility to provide accurate feedback on strengths and challenges in the program through various feedback mechanisms, including but not limited to communication with the Club Social Work faculty liaison student officer, course evaluations, exit surveys, and alumni surveys. Student feedback is critical to helping the BSW program undergo ongoing evaluation and curricular improvements. A full description of student rights and responsibilities can be found in the academic catalogs listed on the Office of the Provost website (https://www.apu.edu/provost/catalog/), including processes for filing a grievance, and academic integrity and grade-change policies.

## Student Participation and Feedback Procedure

Students may participate in BSW program development and provide feedback by:

1. Participating in Club Social Work

   a. Club Social Work solicits membership through social work class announcements and student email invitation during the spring semester each academic year. As needed, membership solicitation may also occur in the fall semester. Students are encouraged to email clubsocialwork@apu.edu with additional questions. While membership as a CSW officer is encouraged, CSW weekly meetings are open to all BSW students. BSW students are encouraged to share feedback with CSW as a mechanism for student participation in BSW program development.

   b. CSW student members, primarily the designated CSW faculty liaison student officer, attend BSW program meetings monthly to share student updates and feedback.

2. Organizing other interest groups and/or participation in student government

   a. BSW students are encouraged to engage with the APU Office of Campus Life (https://www.apu.edu/campus-life/) to create APU clubs and organizations (https://www.apu.edu/campus-life/clubs/) in response to student or campus needs. Serving as an officer in the APU Student Government Association (https://apusga.squarespace.com/) is also encouraged. These auxiliary clubs and organizations serve as additional touch points for CSW officers to gain insight on student feedback during regularly scheduled university club and organization meetings sponsored by the Office of Campus Life.

3. Meeting with BSW faculty/staff and/or the department chair

   a. All faculty/staff contact information can be found on the BSW website (https://www.apu.edu/bas/programs/bsw/), and students are welcome to schedule meetings during office hours to provide feedback.

4. Providing feedback after each course using the anonymous IDEA evaluation provided by the university at the close of each semester.

5. Providing feedback on the anonymous BSW program exit survey provided to BSW seniors by the program annually in the spring semester.

6. Providing feedback in the alumni survey sent via email to BSW alumni two years postgraduation by the Department of Social Work.

# Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate ethical and professional behavior.
2. Engage in diversity and differences in practice.
3. Advance human rights and social, economic and environmental justice.

4.  Engage in practice-informed research and research-informed practice.
5.  Engage in policy practice.
6.  Engage with individuals, families, groups, organizations, and communities.
7.  Assess individuals, families, groups, organizations, and communities.
8.  Intervene with individuals, families, groups, organizations, and communities.
9.  Evaluate practice with individuals, families, groups, organizations, and communities.
10. Critically analyze how Christian beliefs and values can be ethically integrated in professional social work practice.

# Program Competencies/Learning Outcomes

Students will demonstrate these competencies (CSWE, 2015):

## Competency 1: Demonstrate Ethical and Professional Behavior

Social workers understand the value base of the profession and its ethical standards, as well as relevant laws and regulations that may impact practice at the micro, mezzo, and macro levels. Social workers understand frameworks of ethical decision-making and how to apply principles of critical thinking to those frameworks in practice, research, and policy arenas. Social workers recognize personal values and the distinction between personal and professional values. They also understand how their personal experiences and affective reactions influence their professional judgment and behavior. Social workers understand the profession's history, its mission, and the roles and responsibilities f the profession. Social works also understand the role of other professions when engaged in interprofessional teams. Social workers recognize the importance of lifelong learning and are committed to continually updating their skills to ensure they are relevant and effective. Social workers also understand emerging forms of technology and the ethical use of technology in social work practice. Social workers:

- make ethical decisions by applying the standards of the NASW Code of Ethics, relevant laws and regulation, models for ethical decision-making, ethical conduct of research, and additional codes of ethics as appropriate to context;
- use reflection and self-regulation to manage personal values and maintain professionalism in practice situations;
- demonstrates professional demeanor in behavior; appearance; and oral, written, and electronic communication;
- use technology ethically and appropriately to facilitate practice outcomes; and
- use supervision and consultation to guide professional judgment and behavior.

## Competency 2: Engage Diversity and Difference in Practice

Social workers understand how diversity and difference characterize and shape the human experience and are critical to the formation of identity. The dimensions of diversity are understood as the intersectionality of multiple factors including but not limited to age, class, color, culture, disability and ability, ethnicity, gender, gender identity and expression, immigration status, marital status, political ideology, race, religion/spirituality, sex, sexual orientation, and tribal sovereign status. Social workers understand that, as a consequence of difference, a person's life experiences may include oppression, poverty, marginalization, and alienation as well as privilege, power, and acclaim. Social workers also understand the forms and mechanisms of oppression and discrimination and recognize the extent to which a cultures' structures and values, including, social, economic, political, and culture exclusions, may recognize the extent to which a culture's structures and values, including social, economic, political, and cultural exclusions, may oppress, marginalize, alienate or create privilege and power. Social workers:

- apply and communicate an understanding of the importance of diversity and difference in shaping the experiences in practice at the micro, mezzo, and macro levels;
- present themselves as learners and engage clients and constituencies as experts of their own experiences; and
- apply self-awareness and self-regulation to manage the influence of personal biases and values in working with diverse clients and constituencies.

## Competency 3: Advance Human Rights and Social, Economic, and Environmental Justice

Social workers understand that every person regardless of position in society has fundamental rights such as freedom, safety, privacy, and an adequate standard of living, health care, and education. Social workers understand the global interconnections of oppression and human rights violations and are knowledgeable about theories of human need and social justice and strategies to promote social and economic justice and human rights. Social workers understand strategies designed to eliminate oppressive, environmental, economic, social and cultural human rights are protected. Social workers:

- apply their understanding of social, economic, and environmental justice to advocate for human rights at the individual and system levels; and
- engage in practices that advance social, economic, and environmental justice.

## Competency 4: Engage in Practice-Informed Research and Research-Informed Practice

Social workers understand quantitative and qualitative research methods and their respective roles in advancing a science of social work and in evaluating their practice. Social workers know the principles of logic, scientific inquiry, and culturally informed and ethical approaches to building knowledge. Social workers understand that evidence that informs practice derives from multidisciplinary sources and multiple ways of knowing. They also understand the process for translating research:

- use practice experience and theory to inform scientific inquiry and research;
- apply critical thinking to engage in analysis of quantitative and qualitative research methods and research findings; and
- use and translate research evidence to inform and improve practice, policy, and service delivery.

## Competency 5: Engage in Policy Practice

Social workers understand that human rights and social justice, as well as social welfare and services, are mediated by policy and its implementation at the federal, state, and local levels. Social workers understand the history and current structure of social policies and services, the role of policy in service delivery, and the role of practice in policy development. Social workers understand their role in policy development and implementation within their practice in practice settings at micro, mezzo, and macro levels and they actively engage in policy practice to effect change within those settings. Social workers recognize and understand the historical, social, cultural, economic, organizational, environmental, and global influences that affect social policy. They are also knowledgeable about policy formulation, analysis, implementation, and evaluation. Social workers:

- identify social policy at the local, state, and federal level that impacts well-being, service delivery, and access to social services;
- assess how social welfare and economic policies impact the delivery of and access to social services; and
- apply critical thinking to analyze, formulate, and advocate for policies that advance human rights and social, economic, and environmental justice.

## Competency 6: Engage with Individuals, Families, Groups, Organizations, and Communities

Social workers understand that engagement is an ongoing component of the dynamic and interactive process of social work practice with, and on behalf of, diverse individuals, families, groups, organizations, and communities. Social workers value the importance of human relationships. Social workers understand theories of human behavior and the social environment, and critically evaluate and apply this knowledge to facilities engagement with clients and constituencies, including individuals, families, groups, organizations, and communities. Social workers understand strategies to engage diverse clients and constituencies to advance practice effectiveness. Social workers understand how their personal experiences and affective reactions may impact their ability to effectively engage with diverse clients and constituencies. Social workers value principles of relationship-building and inter-professional collaboration to facilitate engagement with clients, constituencies and other professional as appropriate. Social workers:

- apply knowledge to human behavior and the social environment, person-in-environment, and other multidisciplinary theoretical frameworks to engage with clients and constituencies; and
- use empathy, reflection, and interpersonal skills to effectively engage diverse clients and constituencies.

## Competency 7: Assess Individuals, Families, Groups, Organizations, and Communities

Social workers understand that assessment is an ongoing component of the dynamic and interactive process of social work practice with and on behalf of, diverse individuals, families, groups, organizations, and communities. Social workers understand theories of human behavior and the social environment, and critically evaluate and apply this knowledge in the assessment of diverse clients and constituencies, including families, groups, organizations, and communities. Social workers understand theories of human behavior and the social environment, and critically evaluate and apply this knowledge in the assessment of diverse clients and constituencies, including individuals, families, groups, organizations, and communities. Social workers understand methods of assessment with diverse clients and constituencies to advance practice effectiveness. Social workers recognize the implications of the larger practice context in the assessment process and value the importance of inter-professional collaboration in this process. Social workers understand how their personal experiences and affective reactions may affect their assessment and decision making. Social workers:

- collect and organize data, and apply critical thinking to interpret information from clients and constituencies;
- apply knowledge of human behavior and the social environment, person-in-environment, and other multidisciplinary theoretical frameworks in the analysis of assessment data from clients and constituencies;
- develop mutually agreed-on intervention goals and objectives based on the critical assessment of strengths, needs, and challenges within clients and constituencies; and
- select appropriate intervention strategies based on the assessment, research knowledge, and values and preferences of clients and constituencies.

## Competency 8: Intervene with Individuals, Families, Groups, Organizations, and Communities

Social workers understand that intervention is an ongoing component of the dynamic and interactive process of social work practice with, and behalf of, diverse individuals, families, groups, organizations, and communities. Social workers are knowledgeable about evidence-informed interventions to achieve the goals of clients and constituencies, including individuals, families, groups, organizations, and communities. Social workers understand theories of human behavior and the social environment, and critically evaluate and apply this knowledge to effectively intervene with clients and constituencies. Social workers understand methods of identifying, analyzing, and implementing evidence-informed interventions to achieve client and constituency goals. Social workers value the importance of interprofessional and interorganizational collaboration. Social workers:

- critically choose and implement interventions to achieve practice goals and enhance capacities of clients and constituencies;
- apply knowledge of human behavior and the social environment, person-in-environment, and other multidisciplinary theoretical frameworks in the interventions with clients and constituencies;
- use interprofessional collaboration as appropriate to achieve beneficial practice outcomes; and
- facilitate effective transitions and endings that advance mutually agreed-on goals.

## Competency 9: Evaluate Practice with Individuals, Families, Groups, Organizations, and Communities

Social workers understand that evaluation is an ongoing component of the dynamic and interactive process of social work practice with, and on behalf of, diverse individuals, families, groups, organizations and communities. Social workers recognize the importance of evaluating processes and outcomes to advance practice, policy, and service delivery effectiveness. Social workers understand theories of human behavior and the social environment, and critically evaluate and apply this knowledge in evaluating outcomes. Social workers understand qualitative and quantitative methods for evaluating outcomes and practice effectiveness. Social workers:

- select and use appropriate method for evaluation of outcomes;
- apply knowledge of human behavior and the social environment, person-in-environment, and other multidisciplinary theoretical frameworks in the evaluations of outcomes;
- critically analyze, monitor, and evaluate intervention and program processes and outcomes; and
- apply evaluation findings to improve practice effectiveness at the micro, mezzo, and macro levels.

## Competency 10: Critically Analyze How Christian Beliefs and Values Can be Ethically Integrated in Professional Social Work Practice

Social workers understand the role of spirituality and faith as part of a holistic approach to social practice and in understanding human behavior and the social environment. Social workers apply ethical principles in the integration of faith in practice, mindful of their own beliefs and impact on the helping relationship. Social workers recognize that faith communities are part of the cultural context of individuals, families, and communities, and provide protective as well as risk factors in the process of change. In this context, social workers articulate how Christian beliefs and values can be ethically integrated in professional social work practice. They:

- demonstrate self-awareness of their own worldview, as it relates to a Christian worldview;
- articulate how a Christian worldview is integrated into social work practice; and
- critically analyze how Christian, spiritual, or religious traditions assist or hinder the helping process.

# Master of Social Work

## MSW Program Mission and Goals

The following mission statement guides APU's Master of Social Work (MSW) program (https://www.apu.edu/bas/programs/msw/):

*The Master of Social Work (MSW) program develops competent advanced social work practitioners and leaders who can integrate knowledge based on scientific inquiry, values, and skills of social work to advance human well-being, promote social and environmental justice, and advocate for equity for diverse individuals, families, groups, organizations, and communities, in the context of their environment both locally and globally, informed by our Christian faith tradition.*

*We value:*

- *The Social Work Code of Ethics*
- *Diversity and inclusive excellence*
- *Service*
- *Innovative teaching and scholarship*
- *Integration of faith and learning*
- *Social work leadership development*
- *Strengthening communities in local, national, and global contexts*

The following outcome goals are derived from the mission statement and purposes of social work education congruent with accreditation standards:

1. Graduates will exhibit competence in generalist and advanced social work practice with diverse individuals, families, groups, organizations, and communities, including appropriate uses of supervision, consultation, and discernment, to seek necessary organizational change.

2. Graduates will demonstrate knowledge, built on a liberal arts foundation, of the history of the social work profession and empirically supported theoretical frameworks that provide understanding of individual development and behavior across the life span and interactions among and between individuals and families, groups, organizations, and communities.

3. Graduates will demonstrate critical thinking skills, skills related to the effective integration of research in practice, and adequate preparation for leadership, advanced study, and lifelong learning.

4. Graduates will demonstrate knowledge and skills to partner with communities to advocate for the development of policies and programs that seek to advance human rights and well-being; promote social, racial, economic, and environmental justice; empower clients; and respect diversity.

5. Graduates will practice according to the values and ethics of the profession and understand the ethical integration of Christian faith in practice, including nondiscrimination in the areas of age, class, culture, color, disability, ethnicity, family structure, gender, marital status, national origin, race, religion, sex, and sexual orientation.

6. Faculty will engage in ongoing scholarship reflecting the goals and needs of professional social work practice.

# Accreditation

- All Azusa Pacific University programs are accredited by the WASC Senior College and University Commission (WSCUC). (https://www.wscuc.org/)
- The MSW program is accredited by the Council on Social Work Education (CSWE) (https://www.cswe.org/).
- The MSW program's Pupil Personnel Services Credential in School Social Work and Child Welfare and Attendance is accredited by the California Commission on Teacher Credentialing (CTC) (https://www.ctc.ca.gov/credentials/req-services/).

# Specializations

The Master of Social Work (MSW) program offers two specializations:

## Clinical Practice with Individuals and Families

This specialization prepares students for clinically oriented practice with individuals, children, and families in contexts such as mental health clinics, veterans' services, managed care facilities, shelters, group homes, child welfare agencies, hospice, schools, correctional institutions, and other settings where personal helping relationships are developed. Specific emphasis is placed on advanced clinical practice skills with children, adolescents, adults, families, and older adults; group therapy skills; and policies specific to health and mental health concerns.

## Community Leadership and Program Administration

This specialization prepares students to provide leadership in nonprofit agencies, government programs, and policy and advocacy organizations in a variety of local and global contexts. Drawing on the significant cultural diversity characterizing the Los Angeles area, and the expertise of faculty, the curriculum prepares students to be proactive leaders and to collaborate with communities to improve upon the complex local, national, and global social problems they encounter. Curriculum content in this specialization includes social work leadership and management, program and grant management, organizing for community change, and social policy, with additional coursework to enhance clinical skillsets as well as research for evidence-informed practice.

# Program Options

The **full-time** program (two years, 60 units) includes classes two days per week and supervised practicum internships requiring approximately 16-20 hours per week in both years of the program. All students take the same first-year generalist foundation courses. Specialization courses are taken in the second year of the program (Azusa campus).

The **part-time** program (three years, 60 units) at the Azusa and Inland Empire campuses includes classes one weekday per week beginning at 4:20 p.m. (two classes per term, scheduled back-to-back) and a Saturday intensive course (five Saturdays per semester) in years one and three of the program. In addition to fall and spring semesters, summer-evening and Saturday courses are also required. All students take the same generalist foundation courses in the first half of the program. Specialization courses are taken in the second half of the program. Supervised practicum internships requiring approximately 16-20 hours per week occur in the second and third years; placements are available in San Bernardino, Riverside, Los Angeles, Orange, and Ventura counties.

The **full-time Advanced Standing** program (36 units) allows graduates of CSWE-accredited BSW programs to earn their MSW degree in 10 months. Students complete two 3-unit Advanced Standing bridge courses during an 8-week summer session (July-August, three evenings a week) prior to the start of their specialization curriculum, in which they join existing full-time MSW students for the remaining two terms (30 units) of the MSW program. Supervised Advanced Standing practicum internships require 20 hours per week for fall and spring terms (Azusa campus).

The **part-time Advanced Standing** program allows graduates of CSWE-accredited BSW programs to earn their MSW degree over the course of two years. Students complete two 3-unit Advanced Standing bridge courses during an 8-week summer session (July-August, three evenings a week) prior to the start of their specialization curriculum, in which they join existing part-time MSW students for the remaining two years (30 units) of the part-time MSW program. Supervised Advanced Standing practicum internships require 20 hours per week for fall and spring of the second year of the program (Azusa campus).

The two bridge courses for Advanced Standing are:

| Code | Title | Units |
| --- | --- | --- |
| SOCW 550 | Advanced Standing: Intermediate Praxis | 3 |
| SOCW 551 | Advanced Standing: Social Work Ethics and Practice | 3 |

# Practicum Internships

Practicum education is a required component of the MSW curriculum. The practicum application and placement process occurs during the term prior to the onset of internships. Over the course of the program, students complete two yearlong internships totaling 960 hours, with a focus on applying and integrating professional social work knowledge, values, and skills in a supervised community agency setting. Internships occur Monday-Friday during business hours. Successful completion of the internship/seminar curriculum, with a credit grade (80% or higher for the final grade), is required for practicum credit and to proceed to the next practicum course sequence. Students are concurrently enrolled in practicum seminar during internship terms. Full-time students complete internships during both years of the program, and Azusa and Inland Empire part-time students complete internships during the second and third years of the program. Students in the two- and three-year options earn a total of 12 semester units for practicum education coursework. Advanced Standing students complete a total of 6 practicum education units over two terms totaling 600 hours. **Course credit is not given for life experiences or for previous or current work experience**. Students are required to obtain their own individual liability insurance policy prior to entering their practicum internship. Information regarding insurance is available through the MSW program. Students are responsible for ensuring they have reliable transportation to and from internship agencies.

Practicum education faculty select internship sites using strict criteria consistent with accreditation standards set forth by the Council on Social Work Education, including the congruence of practicum agency mission and goals with those of professional social work ethics and standards. Agencies must also provide student supervision consistent with accreditation requirements.

# Policy Regarding Transfer of MSW Credits

The MSW program takes responsibility for ensuring that transferred courses are congruent with the curriculum policy statement of CSWE and meet program objectives. Students seeking admission to the program after enrollment at another CSWE-accredited MSW program may submit a list of MSW generalist foundation-level courses completed within the last five years for evaluation for transfer of credits. A maximum of 12 units may be transferred. No credit is given for prior field internship hours. A petition for transfer credit must fulfill the conditions listed below:

1. The work must have been completed while the student was enrolled in good standing as a graduate student. *A letter from the MSW program director is required verifying that the student was in good standing.*

2. The work must have been done within five years prior to starting the MSW program at Azusa Pacific University.

3. The school from which the credits are transferred must be accredited by a regional accreditation agency and by the Council on Social Work Education.

4. No transfer grade is lower than a *B*.

5. None of the transfer coursework consists of extension or workshop courses.

6. *Petition for transfer of credit occurs after acceptance into the MSW program and prior to the start of the first semester. All required documentation must be sent to the MSW graduate program director prior to August 1.*

*Course credit is not given for life experiences or for previous or current work experience.*

# Procedure Regarding Transfer of MSW Credits

1. Contact the MSW director of admissions and student services before starting the program to request transcript review.

2. Each course will be evaluated by the program on a case-by-case basis for compatibility with program requirements.

3. This process includes a comparison of syllabi from transfer institutions to ensure course content equivalency to APU required courses.

4. Student will be notified via email of transferable credits before course enrollment.

5. The director of admissions and student services will discuss program requirements met through the credits, and provide academic advising for course planning.

# Policy and Procedure Regarding Transfer of Elective Credits

The MSW program requires two elective courses (total of 6 units). Students transferring from another graduate program may petition to have up to 6 units evaluated for possible elective credit. The course(s) must be relevant to the MSW program and preferably have been taken within five years prior to admission. Syllabi will be reviewed on a case-by-case basis to assure that prior content is not outdated. Petitions must be submitted to the MSW program for evaluation. Due to the importance of MSW program compliance with CSWE accreditation standards, students may be asked to provide course syllabi in order to assess the relevance and timeliness of course material.

## Procedure

1. Submit a request to evaluate relevant coursework, along with a copy of syllabi, to the MSW program, preferably completed within five years **prior** to admission, to the director of admissions and student services.

2. Syllabi will be reviewed by the graduate program director for compatibility.

3. The student will be notified of the outcome via email, by the MSW program.

4. The director of admissions and student services will discuss program requirements met through the credits, and provide academic advising for course planning.

## Social Work Student Conduct Code

In addition to maintaining academic standards, students must demonstrate professional standards and adherence to the Department of Social Work conduct code. Violation of the code may result in probation or termination from the program. Refer to the MSW Student Handbook (https://www.apu.edu/bas/programs/msw/#students) for the full description of the conduct code and appeals process.

## Academic Performance Expectations

GPA Requirements and Academic Probation

Continuation in the MSW Program requires a demonstration of academic ability. Students must maintain a 3.0 grade point average in all coursework and must pass all classes with a B- or higher.

Students who do not meet the GPA requirements and/or do not pass one or more classes with a B- or higher are placed on academic probation. Failure to meet 3.0 GPA requirement after repeating specified classes will result in graduation delay and/or academic dismissal.

Procedure for Addressing Academic Probation

- Meet with program director to discuss current academic standing in the program

- Discuss expectations for good academic standing, (http://catalog.apu.edu/policies-procedures/graduate/good-academic-standing/) as outlined in the APU Academic Catalog (http://catalog.apu.edu/policies-procedures/graduate/good-academic-standing/)

- Student is placed on academic probation for one semester in which student's grade point average must be 3.0 and all course grades are a minimum B-

- Student participates in the development of a performance improvement plan

- Student will meet with program director during probationary semester to discuss progress toward meeting performance improvement plan

- Student restores good academic standing when minimum academic requirements are met

- Failure to meet improvement plan may result in academic dismissal

- Students can appeal a decision by using the university grievance process outlined in the graduate catalog

## Course Requirements

| Code | Title | Units |
| --- | --- | --- |
| **Generalist Foundation Coursework** | | |
| SOCW 510 | Social Work Foundations in Law and Ethics | 1 |
| SOCW 511 | Introduction to the Social Work Profession | 2 |
| SOCW 512 | Social Welfare Policy and Policy Practice | 3 |
| SOCW 513 | Micro-Theory and Human Development | 3 |
| SOCW 514 | Practice I - Interviewing and Assessment | 3 |
| SOCW 517 | Generalist Practicum I | 3 |
| SOCW 518 | Generalist Practicum II | 3 |
| SOCW 522 | Diversity and Social Justice | 3 |
| SOCW 523 | Macro-Theory and Communities/Organizations | 3 |
| SOCW 524 | Practice II - Intervention and Evaluation | 3 |
| SOCW 538 | Clinical Practice with Groups | 3 |
| **Coursework by Specialization** | | **30** |

**Clinical Practice with Individuals and Families**

| | |
|---|---|
| SOCW 547A | Applied Clinical and Advanced Policy Practice |
| SOCW 549 | Advanced Practicum I: Clinical Practice |
| SOCW 557 | Advanced Practicum II: Clinical Practice |
| SOCW 574 | Applied Research for Evidence-Informed Practice |
| SOCW 536 | Adult Behavioral Health and Diagnosis |
| SOCW 537 | Child and Adolescent Behavioral Health and Diagnosis |
| SOCW 541 | Capstone Leadership Project |
| SOCW 546 | Family Therapy in Context |
| XXX | Elective (3 units) |
| XXX | Elective (3 units) |
| **Optional Pupil Personnel Services Credential (PPSC) [2]** | |
| SOCW 540 | Educational Policy |
| SOCW 563 | School Social Work |
| SOCW 572 | Advanced Practicum I: School Social Work |
| SOCW 573 | Advanced Practicum II: School Social Work |
| **Community Leadership and Program Administration** | |
| SOCW 530 | Organizing for Community Change |
| SOCW 533 | Social Work Leadership and Management |
| SOCW 541 | Capstone Leadership Project |
| SOCW 543 | Program and Grants Management |
| SOCW 558 | Advanced Practicum I: Community Leadership and Program Administration |
| SOCW 559 | Advanced Practicum II: Community Leadership and Program Administration |
| SOCW 574 | Applied Research for Evidence-Informed Practice |
| XXX | Elective (3 units) |
| XXX | Elective (3 units) |
| XXX | Elective (3 units) |

**Total Units** **60-66**

[1] Students may test out of SOCW 574 but still need to complete the required unit total for the program. Contact the Department of Social Work (https://www.apu.edu/contact/directory/?id=163) for more details.

[2] Students from either specialization can take any of the 3-unit credential courses as part of the two-elective graduation requirement—or *in addition to* that requirement—so they could end up with 63 or even 66 units. The courses meet both elective and PPSC requirements. But even if a community specialization student takes all credential courses, they DO NOT earn the credential, because only clinical specialization students can receive the credential.

Students from the clinical specialization seeking to complete credential requirements must complete PPSC field and field seminar courses SOCW 572 and SOCW 573 as part of the 6-unit field education graduation requirement. The courses are taken in place of clinical field and field seminar courses SOCW 549 and SOCW 557.

# Requirements for Advanced Standing Program

| Code | Title | Units |
|---|---|---|
| **Bridge Courses** | | |
| SOCW 550 | Advanced Standing: Intermediate Praxis | 3 |
| SOCW 551 | Advanced Standing: Social Work Ethics and Practice | 3 |
| **Specialization Coursework** | | |
| Select one of the following | | 30 |
| **Clinical Practice with Individuals and Families** | | |
| SOCW 534 | Field Seminar III (1) | |
| SOCW 536 | Adult Behavioral Health and Diagnosis (3) | |
| SOCW 537 | Child and Adolescent Behavioral Health and Diagnosis (3) | |
| SOCW 539 | Field III-Clinical Practice (3) | |
| SOCW 527 | Research for Evidence-Informed Practice (2) [1] | |
| SOCW 541 | Capstone Leadership Project (3) | |

| | |
|---|---|
| SOCW 544 | Field Seminar IV (1) |
| SOCW 546 | Family Therapy in Context (3) |
| SOCW 547 | Health and Behavioral Health Policy (2) |
| SOCW 548 | Field IV - Clinical Practice (3) |
| XXX Electives 3 units | |
| XXX Electives 3 units | |
| **Optional Pupil Personnel Services Credential (PPSC) [2]** | |
| SOCW 540 | Educational Policy |
| SOCW 553 | Field V Clinical: School Social Work (PPSC students enroll in SOCW 553 in place of SOCW 539) |
| SOCW 554 | Field Seminar V Clinical: School Social Work (PPSC students enroll in SOCW 554 in place of SOCW 534) |
| SOCW 555 | Field VI Clinical: School Social Work (PPSC students enroll in SOCW 555 in place of SOCW 548) |
| SOCW 556 | Field Seminar VI Clinical: School Social Work (PPSC students enroll in SOCW 556 in place of SOCW 544) |
| SOCW 563 | School Social Work |
| **Community Leadership and Program Administration** | |
| SOCW 533 | Social Work Leadership and Management (3) |
| SOCW 552 | Program Planning and Evaluation (3) |
| SOCW 528 | Research for Data Driven Change (2) [1] |
| SOCW 529 | Human Rights and Sustainable Development Policy (2) |
| SOCW 530 | Organizing for Community Change (3) |
| SOCW 534 | Field Seminar III (1) |
| SOCW 535 | Field III - Community Leadership and Program Administration (3) |
| SOCW 541 | Capstone Leadership Project (3) |
| SOCW 544 | Field Seminar IV (1) |
| SOCW 545 | Field IV - Community Leadership and Program Administration (3) |
| XXX Electives 3 units | |
| XXX Electives 3 units | |
| **Total Units** | **36 - 42** |

[1] Students may test out of SOCW 527 and SOCW 528 but still need to complete the required unit total for the program. See department for more details.

[2] Students from either specialization can take one or both credential courses as part of the two-elective graduation requirement—or *in addition to* that requirement—so they could end up with 39 or even 42 units. But even if a community specialization student takes both courses, they DO NOT earn the credential, because only clinical specialization students can receive the credential.

# Electives

The following is a list of approved electives for the MSW program:

| Code | Title | Units |
|---|---|---|
| **These electives may be taken for either specialization:** | | |
| SOCW 540 | Educational Policy | 3 |
| SOCW 543 | Program and Grants Management | 3 |
| SOCW 560 | Social Work Practice in Healthcare Settings | 3 |
| SOCW 561 | Treatment of Substance Use Disorders | 3 |
| SOCW 563 | School Social Work | 3 |
| SOCW 565 | Clinical Spanish Practice | 3 |
| SOCW 566 | Social Work, Health, and Aging | 3 |
| SOCW 567 | Couples Therapy | 3 |
| SOCW 568 | Military Social Work | 3 |
| SOCW 569 | Human Sexuality and Sex Therapy | 3 |
| SOCW 595 | Special Topics | 1-6 |
| **Clinical specialization students may take any of these required community courses as electives:** | | |
| SOCW 530 | Organizing for Community Change | 3 |

| SOCW 533 | Social Work Leadership and Management | 3 |
|---|---|---|
| SOCW 543 | Program and Grants Management | 3 |
| **Community specialization students may take any of these required clinical courses as electives:** | | |
| SOCW 536 | Adult Behavioral Health and Diagnosis | 3 |
| SOCW 537 | Child and Adolescent Behavioral Health and Diagnosis | 3 |
| SOCW 546 | Family Therapy in Context | 3 |
| SOCW 547 | Health and Behavioral Health Policy | 2 |

## Professional Expectations

The university catalog outlines professional expectations of students. Social work students have further expectations for professional behavior as outlined by the NASW Code of Ethics and as outlined in the social work conduct code, which can be found in the MSW Student Handbook (https://www.apu.edu/bas/programs/msw/#students).

## Coursework Approved for Prelicensure Requirements

Additional coursework approved by the Board of Behavioral Sciences (https://www.bbs.ca.gov/) for meeting prelicensure requirements, as follows, is embedded in the generalist foundation MSW curriculum. Refer also to the MSW Student Handbook, Appendix 1, BBS Coursework Map.

- Human Sexuality (10 hours)
- Alcohol and Other Chemical Substance Dependency (15 hours)
- Child Abuse Assessment (7 hours)*
- Spousal or Partner Abuse (15 hours)
- Aging and Long-Term Care (10 hours)
- California Law/Professional Ethics (18 hours)
- Suicide Assessment and Intervention (6 hours)
- Provision of Mental Health Services via Telehealth (3 hours)

*The Child Abuse Assessment requirement (7 hours) must be met within five years of applying for licensure.

Advanced Standing students may complete prelicensure requirements in MSW elective courses, as listed below, or may satisfy requirements through qualifying undergraduate coursework.

- SOCW 537 Child and Adolescent Behavioral Health and Diagnosis (Child Abuse Assessment Requirement)
- SOCW 561 Treatment of Substance Use Disorders (Alcoholism/Chemical Dependency Requirement)
- SOCW 566 Social Work, Health, and Aging (Aging and Long-Term Care Requirement)
- SOCW 567 Couples Therapy (Spousal or Partner Abuse Requirement)
- SOCW 569 Human Sexuality and Sex Therapy (Human Sexuality Requirement)

The California Law/Professional Ethics requirement (18 hours) is met in SOCW 551 Advanced Standing: Social Work Ethics and Practice.

The prelicensure requirements can also be taken postgraduation through the National Association of Social Workers (NASW) (https://courses.socialworkweb.com/) or other approved continuing education providers.

Students are responsible for meeting prelicensure requirements and should save relevant course syllabi as proof of hours and content completed. See the BBS website for full information on licensure requirements (https://www.bbs.ca.gov/applicants/lcsw.html), and see the MSW Student Handbook for more information.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

## Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate ethical and professional behavior.
2. Advance human rights and social, economic, and environmental justice.
3. Engage anti-racism, diversity, equity, and inclusion (ADEI) in practice.
4. Engage in practice-informed research and research-informed practice.
5. Engage in policy practice.
6. Engage with individuals, families, groups, organizations, and communities.
7. Assess individuals, families, groups, organizations, and communities.
8. Intervene with individuals, families, groups, organizations, and communities.
9. Evaluate practice with individuals, families, groups, organizations, and communities.
10. Demonstrate ethical integration of faith and spirituality in social work practice.

# Program Competencies/Program Learning Outcomes

## Generalist Foundation Competencies EPAS 2022

### Competency 1: Demonstrate Ethical and Professional Behavior

Social workers understand the value base of the profession and its ethical standards, as well as relevant policies, laws, and regulations that may affect practice with individuals, families, groups, organizations, and communities. Social workers understand that ethics are informed by principles of human rights and apply them toward realizing social, racial, economic, and environmental justice in their practice. Social workers understand frameworks of ethical decision making and apply principles of critical thinking to those frameworks in practice, research, and policy arenas. Social workers recognize and manage personal values and the distinction between personal and professional values. Social workers understand how their evolving worldview, personal experiences, and affective reactions influence their professional judgment and behavior. Social workers take measures to care for themselves professionally and personally, understanding that self-care is paramount for competent and ethical social work practice. Social workers use rights-based, antiracist, and antioppressive lenses to understand and critique the profession's history, mission, roles, and responsibilities and recognize historical and current contexts of oppression in shaping institutions and social work. Social workers understand the role of other professionals when engaged in interprofessional practice. Social workers recognize the importance of lifelong learning and are committed to continually updating their skills to ensure relevant and effective practice. Social workers understand digital technology and the ethical use of technology in social work practice. Social workers:

- Make ethical decisions by applying the standards of the National Association of Social Workers (NASW) (http://www.naswdc.org/) Code of Ethics, relevant laws and regulations, models for ethical decision making, ethical conduct of research, and additional codes of ethics within the profession as appropriate to context
- Demonstrate professional behavior; appearance; and oral, written, and electronic communication
- Use technology ethically and appropriately to facilitate practice outcomes
- Use supervision and consultation to guide professional judgment and behavior

### Competency 2: Advance Human Rights and Social, Racial, Economic, and Environmental Justice

Social workers understand that every person, regardless of position in society, has fundamental human rights. Social workers are knowledgeable about the global intersecting and ongoing injustices throughout history that result in oppression and racism, including social work's role and response. Social workers critically evaluate the distribution of power and privilege in society in order to promote social, racial, economic, and environmental justice by reducing inequities and ensuring dignity and respect for all. Social workers advocate for and engage in strategies to eliminate oppressive structural barriers to ensure that social resources, rights, and responsibilities are distributed equitably and that civil, political, economic, social, and cultural human rights are protected. Social workers:

- Advocate for human rights at the individual, family, group, organizational, and community system levels
- Engage in practices that advance human rights to promote social, racial, economic, and environmental justice

### Competency 3: Engage Antiracism, Diversity, Equity, and Inclusion (ADEI) in Practice

Social workers understand how racism and oppression shape human experiences and how these two constructs influence practice at the individual, family, group, organizational, and community levels and in policy and research. Social workers understand the pervasive impact of White supremacy and privilege and use their knowledge, awareness, and skills to engage in antiracist practice. Social workers understand how diversity and intersectionality shape human experiences and identity development and affect equity and inclusion. The dimensions of diversity are understood as the intersectionality of factors including but not limited to age, caste, class, color, culture, disability and ability, ethnicity, gender, gender identity and expression, generational status, immigration status, legal status, marital status, political ideology, race, nationality, religion and spirituality, sex, sexual orientation, and tribal sovereign status. Social workers understand that this intersectionality means that a person's life experiences may include oppression, poverty, marginalization, and alienation as well as privilege and power. Social workers understand the societal and historical roots of social and racial injustices and the forms and mechanisms of oppression and discrimination. Social workers understand cultural humility and recognize the extent to which a culture's structures and values, including social, economic, political, racial, technological, and cultural exclusions, may create privilege and power resulting in systemic oppression. Social workers:

- Demonstrate antiracist and antioppressive social work practice at the individual, family, group, organizational, community, research, and policy levels

- Demonstrate cultural humility by applying critical reflection, self-awareness, and self-regulation to manage the influence of bias, power, privilege, and values in working with clients and constituencies, acknowledging them as experts of their own lived experiences

## Competency 4: Engage in Practice-Informed Research and Research-Informed Practice

Social workers use ethical, culturally informed, antiracist, and antioppressive approaches in conducting research and building knowledge. Social workers use research to inform their practice decision making and articulate how their practice experience informs research and evaluation decisions. Social workers critically evaluate and critique current, empirically sound research to inform decisions pertaining to practice, policy, and programs. Social workers understand the inherent bias in research and evaluate design, analysis, and interpretation using an antiracist and antioppressive perspective. Social workers know how to access, critique, and synthesize the current literature to develop appropriate research questions and hypotheses. Social workers demonstrate knowledge and skills regarding qualitative and quantitative research methods and analysis, and interpret data derived from these methods. Social workers demonstrate knowledge about methods to assess reliability and validity in social work research. Social workers can articulate and share research findings in ways that are usable to a variety of clients and constituencies. Social workers understand the value of evidence derived from interprofessional and diverse research methods, approaches, and sources. Social workers:

- Apply research findings to inform and improve practice, policy, and programs

- Identify ethical, culturally informed, antiracist, and antioppressive strategies that address inherent biases for use in quantitative and qualitative research methods to advance the purposes of social work

## Competency 5: Engage in Policy Practice

Social workers identify social policy at the local, state, federal, and global levels that affects well-being, human rights and justice, service delivery, and access to social services. Social workers recognize the historical, social, racial, cultural, economic, organizational, environmental, and global influences that affect social policy. Social workers understand and critique the history and current structures of social policies and services and the role of policy in service delivery through rights-based, antioppressive, and antiracist lenses. Social workers influence policy formulation, analysis, implementation, and evaluation within their practice settings with individuals, families, groups, organizations, and communities. Social workers actively engage in and advocate for antiracist and antioppressive policy practice to effect change in those settings. Social workers:

- Use social justice, antiracist, and antioppressive lenses to assess how social welfare policies affect the delivery of and access to social services
- Apply critical thinking to analyze, formulate, and advocate for policies that advance human rights and social, racial, economic, and environmental justice

## Competency 6: Engage with Individuals, Families, Groups, Organizations, and Communities

Social workers understand that engagement is an ongoing component of the dynamic and interactive process of social work practice with and on behalf of individuals, families, groups, organizations, and communities. Social workers value the importance of human relationships. Social workers understand theories of human behavior and person-in-environment and critically evaluate and apply this knowledge to facilitate engagement with clients and constituencies, including individuals, families, groups, organizations, and communities. Social workers are self-reflective and understand how bias, power, and privilege, as well as their personal values and personal experiences, may affect their ability to engage effectively with diverse clients and constituencies. Social workers use the principles of interprofessional collaboration to facilitate engagement with clients, constituencies, and other professionals as appropriate. Social workers:

- Apply knowledge of human behavior and person-in-environment, as well as interprofessional conceptual frameworks, to engage with clients and constituencies
- Use empathy, reflection, and interpersonal skills to engage in culturally responsive practice with clients and constituencies

## Competency 7: Assess Individuals, Families, Groups, Organizations, and Communities

Social workers understand that assessment is an ongoing component of the dynamic and interactive process of social work practice. Social workers understand theories of human behavior and person-in-environment, as well as interprofessional conceptual frameworks, and they critically evaluate and apply this knowledge in culturally responsive assessment with clients and constituencies, including individuals, families, groups, organizations, and communities. Assessment involves a collaborative process of defining presenting challenges and identifying strengths with individuals, families, groups, organizations, and communities to develop a mutually agreed-upon plan. Social workers recognize the implications of the larger practice context in the assessment process and use interprofessional collaboration in this process. Social workers are self-reflective and understand how bias, power, privilege, and their personal values and experiences may affect their assessment and decision making. Social workers:

- Apply theories of human behavior and person-in-environment, as well as other culturally responsive and interprofessional conceptual frameworks, when assessing clients and constituencies
- Demonstrate respect for client self-determination during the assessment process by collaborating with clients and constituencies in developing a mutually agreed-upon plan

## Competency 8: Intervene with Individuals, Families, Groups, Organizations, and Communities

Social workers understand that intervention is an ongoing component of the dynamic and interactive process of social work practice. Social workers understand theories of human behavior, person-in-environment, and other interprofessional conceptual frameworks, and they critically evaluate and apply this knowledge in selecting culturally responsive interventions with clients and constituencies, including individuals, families, groups, organizations, and communities. Social workers understand methods of identifying, analyzing, and implementing evidence-informed interventions and participate in interprofessional collaboration to achieve client and constituency goals. Social workers facilitate effective transitions and endings. Social workers:

- Engage with clients and constituencies to critically choose and implement culturally responsive, evidence-informed interventions to achieve client and constituency goals

- Incorporate culturally responsive methods to negotiate, mediate, and advocate with and on behalf of clients and constituencies

## Competency 9: Evaluate Practice with Individuals, Families, Groups, Organizations, and Communities

Social workers understand that evaluation is an ongoing component of the dynamic and interactive process of social work practice with and on behalf of diverse individuals, families, groups, organizations, and communities. Social workers evaluate processes and outcomes to increase practice, policy, and service delivery effectiveness. Social workers apply antiracist and antioppressive perspectives in evaluating outcomes. Social workers understand theories of human behavior and person-in-environment, as well as interprofessional conceptual frameworks, and critically evaluate and apply this knowledge in evaluating outcomes. Social workers use qualitative and quantitative methods for evaluating outcomes and practice effectiveness. Social workers:

- Select and use culturally responsive methods for evaluation of outcomes

- Critically analyze outcomes and apply evaluation findings to improve practice effectiveness with individuals, families, groups, organizations, and communities

## Competency 10: Demonstrate Ethical Integration of Faith and Spirituality in Social Work Practice

Social workers understand the role of spirituality and faith as part of a holistic approach to social work practice and in understanding human behavior and the social environment. Social workers apply ethical principles in the integration of faith in practice, mindful of their own beliefs and their impact on the helping relationship. Social workers recognize that faith communities are part of the cultural context of individuals, families, and communities, and provide protective as well as risk factors in the process of change. In this context, social workers articulate how Christian beliefs and values can be ethically integrated in professional social work practice. Social workers:

- Demonstrate an understanding of a Christian worldview related to social work practice
- Critically analyze how Christian, spiritual, or religious traditions assist or hinder the helping process
- Demonstrate understanding of ethical integration of faith and spirituality in social work practice
- Understand the contributions and capacity of faith-based organizations and churches as resources in the delivery of social services

# Clinical Practice with Individuals and Families Competencies EPAS 2022

## Competency 1: Demonstrate Ethical and Professional Behavior

Social workers have a deep understanding of and commitment to the value base of the profession, and can conceptualize and apply ethical standards and relevant laws and regulations to complex cases involving diverse populations and emerging technologies using rights-based, antiracist, and antioppressive lenses. Social workers demonstrate advanced critical thinking skills to examine and incorporate use of best-practice frameworks for decision making, including use of supervision. Social workers integrate the value base of the profession by reflecting on one's own biases and values while considering interconnected ethical implications of assessment, diagnosis, treatment planning, and intervention. Social workers demonstrate affective regulation in working with clients while using professional judgment and behaviors, and engage in reflective and reflexive practices. Social workers demonstrate the ability to work in interprofessional teams, engaging in activities within the role and scope of practice of diverse social work settings. Social workers are aware of the importance of lifelong learning and self-care, and demonstrate the ability to adapt to, learn about, and apply emerging forms of practice. Social workers:

- Consistently apply and advance National Association of Social Workers (NASW) (http://www.naswdc.org/) principles and code of ethics in ambiguous and complex practice situations applying an antiracist and antioppressive perspective
- Apply legal and ethical standards in clinical practice, including in risk assessment and telehealth
- Recognize and manage personal values, worldview, and affective reactions, and their influence on professional judgment and behavior, utilizing supervision and consultation to guide professional decision making

## Competency 2: Advance Human Rights and Social, Racial, Economic, and Environmental Justice

Social workers protect and advance fundamental human rights to end all forms of racism and oppression. Social workers are knowledgeable of best practices and engage in advocacy to reduce and eradicate oppressive structural injustices within health, mental health, education, and other community systems so that all individuals, particularly those who are vulnerable and oppressed, can lead healthy and thriving lives. Social workers:

- Collaborate with and advocate for vulnerable and disempowered individuals, families, and groups so that services and resources are equitably accessed

- Critically evaluate how social, racial, economic, and environmental injustice perpetuate health and behavioral health disparities and inequitable access to care

- Use knowledge of the effects of racism, oppression, discrimination, and historical trauma on clients and client systems to guide treatment planning and intervention

## Competency 3: Engage Antiracism, Diversity, Equity, and Inclusion (ADEI) in Practice

Social workers understand how racism and oppression characterize and shape the human experience as it applies to clinical practice with individuals, families, and groups. Social workers understand the diversity and intersectionality of factors that may affect clinical social work practice, including the impact of White supremacy and privilege. Social workers are able to recognize and address barriers to accessing services by engaging in antiracist and inclusive clinical practice, and by identifying structures and values that oppress and/or enhance privilege or power. Social workers are able to demonstrate advanced insight into personal biases and values and their influence on work with diverse clients, extending consistent dignity and respect to others. Social workers understand how cultural concepts of distress shape assessment, diagnosis, and treatment. Social workers:

- Identify and engage in antiracist and antioppressive practice to reduce and eliminate systemic forms of oppression

- Demonstrate cultural humility, and an understanding of how cultural concepts of distress and identity, as well as intersectionality, shape assessment, diagnosis, and treatment

## Competency 4: Engage in Practice-Informed Research and Research-Informed Practice

Social workers apply ethical, culturally informed, antiracist, and antioppressive approaches in the evaluation and implementation of evidence-informed practice. They know how to consume and critically evaluate diverse research methods, approaches, and sources from within social work and other disciplines, using an antiracist/antioppressive lens recognizing inherent bias within research. Social workers innovate new and effective intervention models while identifying gaps in the research literature, particularly around disenfranchised, oppressed, and marginalized populations. Social workers use best practices in research to design, analyze, and conduct their own research using diverse research methods. Social workers:

- Critically evaluate research literature and apply findings to inform, improve, and innovate practice and service delivery, using an antiracist/antioppressive lens

- Utilize research methods to evaluate practice outcomes

- Articulate research findings to advance practice, social justice, and service delivery

## Competency 5: Engage in Policy Practice

Social workers understand the dynamic and political nature of clinical practice and apply interventions within an antiracist diversity, equity, and inclusion framework. Using a trauma-informed approach, social workers understand how a client's experience is directly impacted by local, state, and/or federal policies, identifying structural barriers that impact client well-being. Social workers actively engage in policy practice through advocacy and by implementing strategies that help to effect change at micro, mezzo, and macro levels of practice. Social workers:

- Identify how organizational and governmental policies impact the clinical practice environment and the client's ability to access services

- Work alongside and on behalf of clients to influence service delivery through advocacy and legislative change, acknowledging structural racism where and when it occurs

- Use evidence-informed practice to advocate for advancement of clinical practices that are inclusive, and acknowledge past trauma perpetuated by systemic and historical racism, working to eliminate such bias in practice

## Competency 6: Engage with Individuals, Families, Groups, Organizations, and Communities

Social workers understand engagement as an integral component of clinical social work practice. Social workers understand the importance of relationship as instrumental in the facilitation of the helping process. Social workers are self-reflective in their practice and understand their power and privilege as it impacts the engagement process. Social workers utilize interpersonal skills, knowledge of human behavior, and multiple theoretical frameworks to facilitate engagement with individuals, families, groups, organizations, and communities. Social workers:

- Demonstrate ability to attend to the interpersonal dynamics and contextual factors that strengthen and potentially threaten the therapeutic alliance

- Engage in a reflexive process that identifies power and privilege as impacting the establishment of treatment goals and expected outcomes

- Develop, manage, and maintain therapeutic relationships with clients within the person-in-environment and strengths perspective

## Competency 7: Assess Individuals, Families, Groups, Organizations, and Communities

Social workers competently engage in detailed client assessment, recognizing that assessment is an ongoing dynamic process that can occur via telehealth or in person. Social workers are self-reflective in their practice and understand their power and privilege as it impacts the assessment process. Social workers engage in differential diagnosis, utilizing the DSM in a critical and responsible manner. Social workers utilize the various aspects of a comprehensive assessment to accurately assess their clients, including crisis situations, using a trauma-informed lens. Social workers understand methods of assessment with diverse clients and constituencies to advance practice effectiveness. Social workers are knowledgeable about interprofessional collaboration, utilization of collateral contacts, and appropriate referral to supplemental services for their clients as needed. Social workers recognize how agency setting (in person or telehealth), clinical bias, and cultural differences affect assessment and diagnosis. Social workers:

- Perform detailed client assessment and utilize critical thinking to arrive at accurate diagnoses and treatment plans with an antioppressive and antiracist lens

- Select appropriate intervention strategies and treatment modalities based on accurate cultural formulation and assessment of their client's presenting problems

- Critically apply diagnostic classification systems in a process of continuous assessment with a trauma-informed lens

- Demonstrate ability to identify and assess crises, and the appropriate use of crisis intervention and prevention strategies as needed

## Competency 8: Intervene with Individuals, Families, Groups, Organizations, and Communities

Social workers demonstrate advanced skills in assessment and diagnosis in order to determine appropriate application of human behavior and practice theories that inform intervention within diverse client contexts. Social workers link interventions to problems, applying best-practice interventions in person or through telehealth delivery throughout the dynamic and interactive process of social work practice with diverse client populations. Social workers apply critical thinking, apply trauma-based theories, and demonstrate ability to respond to, assess, and intervene with crises and trauma at the individual, family, and community levels. Social workers engage in interprofessional and collaborative teams and within systems impacting mental health in order to advocate for, inform, and achieve client or community goals. Social workers:

- Critically select and apply best practices, evidence-based interventions, and appropriate clinical techniques for a range of presenting concerns identified in the assessment of individuals and families in diverse situations

- Demonstrate understanding of theories informing assessment of and interventions with families in diverse situations

- Demonstrate ability to intervene in crises, and the appropriate use of crisis intervention and prevention strategies as needed with use of best practices for in-person or telehealth delivery

- Collaborate effectively with other professionals to coordinate treatment interventions and appropriate advocacy

## Competency 9: Evaluate Practice with Individuals, Families, Groups, Organizations, and Communities

Social workers competently engage in an ongoing evaluation process of the dynamic and interactive process of social work practice, recognizing the diversity that exists in serving individuals, families, groups, organizations, and communities. Understanding the integral relationship between processes and outcomes, social workers apply multidimensional methods of evaluation to advance practice, policy, and service delivery effectiveness, using qualitative and quantitative outcome measures. In doing so, social workers incorporate a thorough understanding of human behavior and the social environment in evaluating the effectiveness of applied interventions. Social workers:

- Engage in ongoing multidimensional evaluation of the process and/or outcomes to develop best-practice interventions for a range of bio-psycho-social-spiritual conditions

- Utilize outcomes data to critically evaluate effectiveness of applied interventions through an antioppressive and antiracist lens

## Competency 10: Demonstrate Ethical Integration of Faith and Spirituality in Social Work Practice

Social workers deeply understand the role of spirituality and faith as part of a holistic approach to social work practice, particularly in understanding human behavior and the social environment. Social workers competently engage in assessing and diagnosing multifaceted needs by applying a bio-psycho-social-spiritual framework. Guided by ethics and cultural humility, social workers respect differences and professional boundaries while incorporating spirituality and faith in their clinical work with individuals, families, groups, and communities. They critically evaluate the role that Christian beliefs and values play in the helping process. Social workers:

- Use critical thinking skills to apply Christian beliefs and values, as appropriate, to client needs, in an ethical manner

- Apply bio-psycho-social-spiritual assessment skills to practice contexts

- Integrate clients' religious, spiritual, and faith traditions, and/or faith communities, as indicated, to enhance recovery

# Community Leadership and Program Administration Competencies EPAS 2022

## Competency 1: Demonstrate Ethical and Professional Behavior

Social workers have a deep understanding and commitment to the value base of the profession, particularly the commitment to advance social justice. Social workers understand the person-in-environment perspective, and possess advanced understanding of how to apply ethical standards and relevant laws and regulations to micro, mezzo, and macro practice situations. Social workers apply critical thinking and ethical frameworks to complex decision making in community practice, including the research and policy arenas. Social workers demonstrate advanced awareness of personal biases and influences and maintain professional judgment when practicing with diverse organizations and communities. Macro social workers understand the roles and responsibilities of managers in social welfare organizations, community organizers in neighborhoods, and policy advocates at local, state, and national levels. Social workers also understand emerging forms of technology, including social media, data information systems, and analytics software, and take great ethical consideration in the application of such technology. Social workers:

- Demonstrate advanced insight in personal reflection and self-regulation to manage personal values and maintain professionalism in practice situations

- Demonstrate ability to effectively communicate orally and in writing when assuming a leadership role and when collaborating with other professionals

- Use supervision and consultation to guide professional judgment and behavior

- Apply ethical decision-making skills to address complex and ambiguous practice situations

- Utilize technology ethically and appropriately when conducting research, tracking quality of service delivery, and facilitating program outcomes

## Competency 2: Advance Human Rights and Social, Racial, Economic, and Environmental Justice

Social workers understand that every person, regardless of position in society, has fundamental human rights. Social workers are knowledgeable about the global intersecting and ongoing injustices throughout history that result in oppression and racism, including social work's role and response. Social workers demonstrate advanced awareness of the need for evaluating systems and structures while advocating for an equitable distribution of power and privilege that promotes social, racial, economic, and environmental justice. Social workers:

- Integrate human rights principles to understand the distribution of power and privilege in society in order to promote social, racial, economic, and environmental justice

- Apply theoretical, political, and/or economic frameworks to analyze the role of systems and structures in civil, political, economic, social, and cultural human rights

- Engage in research-informed strategies to eliminate oppressive structural barriers and promote social resources, rights, and responsibilities equitably

## Competency 3: Engage in Antiracism, Diversity, Equity, and Inclusion (ADEI) in Practice

Social workers understand how racism and oppression characterize and shape the human experience as it applies to practice at the organizational, community, and policy levels. Social workers are committed to the promotion of antiracist practices in the organizational, community, and policy arenas, recognizing the roles that oppression, privilege, and discrimination have in determining equitable access and allocation of societal resources. Social workers are knowledgeable about challenging and rectifying organizational and structural forms of oppression. Social workers:

- Apply cultural humility in work with groups, organizations, and/or communities, reflecting an advanced understanding of how personal experiences contribute to bias, power, privilege, and values

- Ensure that programs and policies recognize the dimensions of diversity and intersectionality that have shaped the experiences of oppressed, underserved, and underrepresented populations

- Collaborate with and advocate for vulnerable and disempowered communities to dismantle oppressive systems

## Competency 4: Engage in Practice-Informed Research and Research-Informed Practice

Social workers recognize how ethical, culturally informed, antiracist, and antioppressive approaches in conducting research and building knowledge guide their associated research methodologies, help to inform how evidence is developed, and help to inform data-driven programmatic and policy development and implementation. Social workers understand the conceptual and operational links between program and policy design and its impact on the clients and constituencies they are designed to serve. Social workers:

- Use and translate research evidence to inform and improve practice, policy, and service delivery

- Create scientifically rigorous inquiries to create, plan, and evaluate programs and policies

- Articulate the tensions between practice wisdom and research evidence when making practice decisions

## Competency 5: Engage in Policy Practice

Social workers identify how historical, political, social, economic, and/or cultural factors shape policy environments and then subsequently use this knowledge to advance human rights and social justice. Social workers critically analyze varied dimensions of power and their impacts on all levels of the policy-making process, including research, analysis, advocacy, implementation, and evaluation. Social workers mobilize communities that have been impacted by inequality and oppression by engaging in community organizing, coalition building, and advocacy. Social workers participate in electoral politics at the local, state, and national levels to achieve policy goals reflecting social work values. Social workers:

- Analyze how policies at local, state, and national levels impact individuals and communities to advance social, racial, and economic justice

- Implement social policies through an antiracist and antioppressive lens in groups, organizations, and/or communities to design high-quality and efficient social delivery systems and programs

- Influence the policy process by mobilizing communities through organizing and advocacy to ensure equitable access to resources

## Competency 6: Engage with Individuals, Families, Groups, Organizations, and Communities

Social workers understand that engagement is a critical component of social work practice and specialize in connecting with groups, organizations, and communities utilizing theoretical practice models for engaging in the change process. Social workers reflect on how issues of bias, power, and privilege impact relationships, organizations, and relevant systems. Social workers are committed to engagement with diverse clients and constituencies to enhance assessment and improve effectiveness of interventions. Social workers:

- Use principles of interprofessional collaboration to engage constituents in the change process

- Pursue reciprocal relationships to develop desired outcomes and expectations

- Collaborate effectively with constituents to facilitate sustainable change

## Competency 7: Assess Individuals, Families, Groups, Organizations, and Communities

Social workers understand assessment is contextual and is an ongoing component of effective social work practice among groups, organizations, and communities. Social workers collaboratively collect information through identified stakeholders within relevant systems. Social workers are committed to culturally responsive assessment among diverse clients and constituencies to enhance the effectiveness of interventions. Social workers apply relevant theoretical and evidence-informed practice models in assessment of groups, organizations, and communities. Social workers:

- Research, collect, analyze, and interpret system policy, and community and organizational data, to inform assessment and intervention strategies

- Select and modify appropriate intervention strategies based on evidence and continuous assessment

- Mutually develop agreed-upon goals and measurable objectives

- Initiate strategies and/or actions to achieve goals and objectives within the context of the organization, community, and/or policy arenas

## Competency 8: Intervene with Individuals, Families, Groups, Organizations, and Communities

Social workers understand that intervention is an ongoing component of the dynamic and interactive process within groups, organizations, and communities. Social workers are knowledgeable of and apply culturally responsive, evidence-informed interventions grounded in participatory methods. Social workers understand the importance of acknowledging systems and power structures to best promote change and recognize the value of place-based initiative. Social workers:

- Develop intervention goals and design and implement plans of action in collaboration with individuals, groups, organizations, and communities

- Plan for the use of models, methods, and strategies that are appropriate to the local, regional, national, and international contexts

- Identify power structures and use consensus building to enhance service implementation

## Competency 9: Evaluate Practice with Individuals, Families, Groups, Organizations, and Communities

Social workers understand that evaluation is an ongoing component of ensuring effective practice with groups, organizations, and communities. Social workers recognize stakeholders in the development of equitable evaluation methods and ensure that a broad range of qualitative and quantitative measures are utilized. Social workers understand data collection, analysis, interpretation, and application related to program and policy evaluation. Social workers are committed to the dissemination of outcomes of intervention strategies to enhance evidence-informed practice. Social workers:

- Establish and/or ensure that measurable evaluation criteria and methods are being utilized within change efforts

- Collect, analyze, and interpret system, policy, community, and/or organizational data relevant to intervention evaluation

- Utilize evaluation data, in collaboration with constituents, to select and modify appropriate intervention strategies for enhanced client delivery systems

## Competency 10: Articulate How Christian Beliefs and Values Can be Ethically Integrated in Professional Social Work Practice

Social workers understand how Christian beliefs and values can be ethically integrated into professional social work practice. Social workers are knowledgeable about the capacity of faith-based organizations and churches as resources in the delivery of social services. Social workers understand the ethical integration of personal faith and core values as social workers. Social workers recognize the contributions of the global Christian community in promoting social justice. Social workers:

- Critically evaluate the strengths and challenges of faith-based organizations and churches in the delivery of client services

- Demonstrate understanding of the ethical integration of personal faith and core values when working with organizations and communities and in policy arenas

- Identify ways in which social justice is enhanced and supported by the global Christian community

# Courses

## SOCW 510, Social Work Foundations in Law and Ethics, 1 Unit

This course covers foundational law and ethics in social work practice, including mandated reporting, telehealth policies, self-care, and technology use. Content incorporates critical thinking, ethical decision making, and professionalism as reflected in the Council on Social Work Education (CSWE) Educational Policy and Accreditation Standards (EPAS) competencies.
**Prerequisite:** Admission to MSW program

## SOCW 511, Introduction to the Social Work Profession, 2 Units

Content focuses on the history, identity, values, ethics, scope of practice, and knowledge base of the social work profession. Students explore ways their own backgrounds and beliefs are likely to influence professional activities, and examine the specific relationship of faith perspectives to social welfare policy and practice. Attention is given to developing professional writing and critical thinking skills.
**Prerequisite:** Admission to MSW program

## SOCW 512, Social Welfare Policy and Policy Practice, 3 Units

The course provides an introduction to American social welfare policies, offers a historical overview of political influences on social work practice, and presents different models for political advocacy. Content focuses on political and client advocacy with attention to the relevance of professional ethical standards and faith perspectives to policy practice.
**Prerequisite:** Admission to MSW program

## SOCW 513, Micro-Theory and Human Development, 3 Units

Students in this course focus on theories that inform micro-level social work practice with individuals and families using a biopsychosocial and spiritual framework. Human development across the life course is addressed with psychosocial theory's life stages to assist with the contextualization and integration of theories to meet the needs of diverse populations in practice.
**Prerequisite:** Admission to MSW program

## SOCW 514, Practice I - Interviewing and Assessment, 3 Units

This course begins a two-course sequence that provides the foundation for social work practice with individuals and families. Content includes legal and ethical practice, stages of the helping process, interviewing and assessment skills with adults, children, and families, clinical assessment and diagnosis using the DSM, and strategies for critically analyzing and sharing assessment information.
**Prerequisite:** Admission to MSW program

## SOCW 515, Field Seminar I, 1 Unit

Field seminars meet in conjunction with field coursework and provide students opportunities to discuss practice situations, professional development issues, the relationship of field to classroom learning, and skills necessary for effective practice. Generalist foundation year field seminars (I and II) focus on beginning generalist social work practice skills, understanding agency and community context, and professional ethics.
**Prerequisite:** Admission to the Social Work program;
**Corequisite:** SOCW 516

## SOCW 516, Field I, 3 Units

The purpose of field internship is to provide a professional setting for students to practice generalist foundation social work skills and to provide an opportunity for the integration of knowledge, skills, values, and ethical faith integration in practice. Students complete a minimum of 480 hours by the end of semester I and semester II at an approved and designated social welfare agency.
**Prerequisite:** Admission to the Social Work program;
**Corequisite:** SOCW 515

## SOCW 517, Generalist Practicum I, 3 Units

This first-semester practicum course includes supervised generalist internship experience in an agency setting and integrative in-class seminars. Students gain experience in applying and integrating foundational generalist social work practice skills, values, and professional ethics with diverse individuals, families, groups, communities, and organizations, and apply a foundational antiracist and antioppressive social work practice framework. In-class seminars support the practicum internship experience with presentations and discussions on practice situations, professional development, ethical faith integration, and skills necessary for beginning-level social work practice. Students complete a minimum of 480 practicum hours by the end of their generalist practicum year at an approved and designated agency.
**Prerequisite:** Admission to MSW program

## SOCW 518, Generalist Practicum II, 3 Units

This second-semester course is a continuation of the supervised generalist internship sequence in an agency setting and integrative in-class seminars. Students gain experience in the application and integration of generalist foundational social work practice skills, values, ethical decision-making, and professional ethics with diverse individuals, families, groups, communities, and organizations. Students apply a foundational antiracist and antioppressive social work practice framework. In-class seminars support the practicum internship experience with presentations and discussions on practice situations, professional development, ethical faith integration, and skills necessary for effective social work practice. Students complete a minimum of 480 practicum hours by the end of their generalist practicum year at an approved and designated agency.
**Prerequisite:** SOCW 514 and SOCW 516

## SOCW 522, Diversity and Social Justice, 3 Units

Content will focus on diverse populations in American society and ways historical and contemporary patterns of oppression and discrimination may influence social work practice. Specific attention is given to self-awareness and to professional commitments to marginalized groups and processes of advocacy, coalition-building, and other ways of developing effective alliances to promote social justice.
**Prerequisite:** Admission to MSW program

## SOCW 523, Macro-Theory and Communities/Organizations, 3 Units

Students in this course focus on macro-level theories and social work practice with organizations and communities. Models of practice that include comprehensive assessment, integrating an understanding of various forms and mechanisms of discrimination and oppression and their relevance to macro-level interventions, are examined. Social work with organizations and communities embraces efforts to protect human and civil rights for the advancement of social and economic justice.
**Prerequisite:** SOCW 513

## SOCW 524, Practice II - Intervention and Evaluation, 3 Units

This course ends a two-course sequence that provides the foundation for social work practice with individuals and families. Content includes goal-setting and contracting, planning and implementing change strategies, utilizing evidence-based practice research, interdisciplinary collaboration, advocacy, resource development, and practice evaluation.
**Prerequisite:** SOCW 514

## SOCW 525, Field Seminar II, 1 Unit

Field seminars meet in conjunction with field coursework and provide students opportunities to discuss practice situations, professional development issues, the relationship of field to classroom learning, and skills necessary for effective practice. Generalist foundation year field seminars (I and II) focus on beginning generalist social work practice skills, knowledge and use of self, and professional ethics.
**Prerequisite:** SOCW 514, SOCW 515, and SOCW 516;
**Corequisite:** SOCW 526

## SOCW 526, Field II, 3 Units

The purpose of field internship is to provide a professional setting for students to practice generalist foundation practice skills and to provide an opportunity for the integration of knowledge, skills, values, and ethical faith integration in practice. Students complete a minimum of 480 hours by the end of semester I and semester II at an approved and designated social welfare agency.
**Prerequisite:** Admission to MSW program, SOCW 515, and SOCW 516;
**Corequisite:** SOCW 525

## SOCW 527, Research for Evidence-Informed Practice, 2 Units

The content of this course prepares students to critically evaluate social work research and evidence-informed social work practice, along with the ethical use of research methods to improve clinical practice. Concepts include problem identification, hypothesis formulation, measurement, sampling, qualitative and quantitative research designs, data collection methods, data analysis, and outcomes evaluation. Students explore how science, scholarship, and the politics of knowledge development can facilitate the mission of social work.
**Prerequisite:** Statistics course

## SOCW 528, Research for Data Driven Change, 2 Units

This course will introduce critical evaluation of social work research and its ethical application towards data-driven decision-making within community practice settings. Concepts include: problem identification, hypothesis formulation, measurement, sampling, research design, data collection methods, data analysis, and program evaluation. Students will explore how science, scholarship, and the politics of knowledge development can facilitate the mission of social work.
**Prerequisite:** Statistics course

## SOCW 529, Human Rights and Sustainable Development Policy, 2 Units

Content will focus on the relevance of human rights and sustainable development policy to macro-level social work practice in the U.S. and abroad. Topics will include advancement of human rights for social, economic and environmental justice and sustainable development strategies for poverty alleviation, universal education, public health, sanitation and housing, food security, access to clean water, population control and climate change. Analysis of existing global social policies will apply existing political, ideological, religious, cultural, age, and gender frameworks to explain current conditions and future trends. Secular and Christian perspectives will be explored.
**Prerequisite:** SOCW 522 and SOCW 523

## SOCW 530, Organizing for Community Change, 3 Units

This course expands foundation year macro-level practice content to enhance theoretical understanding and develop skills in the promotion of community, organizational, and policy change to enhance social well-being and advance social justice. Special attention is focused on collaborative efforts, coalition building and participatory methods to facilitate sustainable change. Additional topics include assessment of social service delivery systems, advocacy, and professional ethics in macro practice. The importance of engaging diverse communities, recognition of underrepresented and underserved populations, and utilizing cultural humility in practice are emphasized.
**Prerequisite:** SOCW 523

## SOCW 531, Human Rights and Sustainable Development, 2 Units

Content will focus on the relevance of human rights and sustainable development to macro-level social work practice in the U.S. and abroad. Topics will include advancement of human rights and economic justice, poverty alleviation, politics, religion, culture, age, gender, and public health conditions on human rights and development-related activities. Secular and Christian perspectives will be explored.
**Prerequisite:** SOCW 522 and SOCW 523

## SOCW 532, Advanced Community Practice, 3 Units

This course expands foundation year macro-level practice content to include community entrance, engagement, participatory action research, and collaborative strategies to advance policies and programs supporting community interests and desired resources. Additional topics include empowerment, development of cultural competence, identification of oppressive cultural structures, globalization, and professional ethics. Engaging diverse communities and cultural humility are emphasized.
**Prerequisite:** SOCW 523

## SOCW 533, Social Work Leadership and Management, 3 Units

This course provides an overview of effective leadership and management practices within the social service sector. Topics include legal and ethical issues in administration, such as managing organizational change; employee and stakeholder diversity; organizational culture; conflict resolution; group behavior; employee hiring, training, and development; employee morale; and budgeting. Emphasis is on professional written and verbal communication.
**Prerequisite:** SOCW 523

## SOCW 534, Field Seminar III, 1 Unit

Field Seminar III focuses on presentation and discussion of student experiences in specialization field internships. Specific emphasis is placed on demonstration and evaluation of advanced practice skills, interventions, supervision use, cultural responsiveness, professional ethics, and faith integration issues addressed in coursework.
**Prerequisite:** SOCW 514, SOCW 515, SOCW 516, SOCW 524, SOCW 525, SOCW 526;
**Corequisite:** SOCW 527 and SOCW 539 (clinical specialization) or SOCW 528 and SOCW 535 (community leadership and program administration specialization)

## SOCW 535, Field III - Community Leadership and Program Administration, 3 Units

The purpose of field internship is to provide a setting for students to develop advanced community practice skills and an opportunity for the ethical integration of knowledge, skills, values, and faith in social work. Students complete a minimum of 480 hours (600 hours for Advanced Standing students) by the end of semester I and semester II at an approved and designated agency.
**Prerequisite:** SOCW 514, SOCW 515, SOCW 516, SOCW 524, SOCW 525, SOCW 526;
**Corequisites:** SOCW 528, SOCW 534

## SOCW 536, Adult Behavioral Health and Diagnosis, 3 Units

This course begins a two-semester advanced clinical practice sequence focusing on adult behavioral health. Content includes advanced application of the Diagnostic and Statistical Manual for Mental Disorders (DSM-5); symptoms, diagnoses, and treatment strategies associated with psychiatric conditions; brain functioning and chemistry; psychotropic medications; and managed care expectations. Cultural and faith perspectives are integrated throughout the course using clinical best practices.
**Prerequisite:** SOCW 514 and SOCW 524

## SOCW 537, Child and Adolescent Behavioral Health and Diagnosis, 3 Units

This course focuses on behavioral health issues experienced by children and adolescents, and discussion of the effects of trauma on social and emotional development. Diagnostic issues affecting children and related treatment interventions are explored in the contexts of child welfare, school-based behavioral health, and healthcare settings. Research-informed approaches are taught, to improve functioning and well-being of children and adolescents. Laws impacting work with minors and families, as well as ethical issues for social work practitioners, are presented. Course content meets California education requirements in the area of child abuse assessment for LCSW licensure.
**Prerequisite:** SOCW 513, SOCW 514, and SOCW 524

## SOCW 538, Clinical Practice with Groups, 3 Units

This course presents different theoretical approaches and treatment strategies associated with clinical social work practice with groups. Topics include group development stages, professional ethics in practice with groups, leadership principles, diversity issues, and evaluation methods.
**Prerequisite:** SOCW 513

## SOCW 539, Field III-Clinical Practice, 3 Units

The purpose of field internship in the clinical specialization year is to provide a setting for students to develop advanced practice skills and an opportunity for the integration of knowledge, skills, and social work values as applied to clinical practice across the life span continuum. Students complete a minimum of 480 hours (or 600 hours for Advanced Standing students) by the end of fall and spring semesters at an approved and designated agency.
**Prerequisite:** SOCW 514, SOCW 515, SOCW 516, SOCW 524, SOCW 525, SOCW 526;
**Corequisites:** SOCW 527, SOCW 534

## SOCW 540, Educational Policy, 3 Units

This course introduces policies and legislation that impact delivery of school social work services in the United States education system. Landmark local, state, and federal policies are presented for analysis and application to the public school setting, critical for gaining an understanding of the challenges for school social work practice. Historical and current perspectives including racism, equality, and access to public education are discussed.
**Prerequisite:** Completion of generalist foundation curriculum; admission to the PPS program (required for students seeking the PPSC).

## SOCW 541, Capstone Leadership Project, 3 Units

This course prepares students for professional leadership roles in social work settings and supports completion of their capstone leadership projects. Content integrates development of leadership skills, self reflection, professional use of self, interprofessional practice, use of research to inform practice, and knowledge of program context to implement sustainable change in organizations. Professional ethics and decision making, which influence the leadership role in social work, are examined.
**Prerequisite:** All generalist foundation courses and completion of first semester of specialization courses.
**Corequisites:** SOCW 544; and SOCW 545 or SOCW 548

## SOCW 542, International Social Work Policy and Practice, 2 Units

Content will focus on international social work practice at multiple systems levels. Topics will include comparison of United States' and international social welfare policy, differing theoretical and religious perspectives, neo-liberal economic development policies, globalization, and issues immigrants and other marginalized groups. Practice content will address poverty alleviation, conflict and post-conflict reconstruction, displacement and forced migration concerns.
**Prerequisite:** SOCW 522, SOCW 523, SOCW 531, SOCW 532

## SOCW 543, Program and Grants Management, 3 Units

Systematic program planning with a focus on outcomes is a critical component in operating effective human service programs. Students will become familiar with program design and program evaluation methodologies, and the tools most commonly used to assess human service programs. This course also prepares students for fundraising and grant writing in human service organizations. Students assess agencies and stakeholders and analyze funding resources, performance measures, strategies, skills and decision-making processes. At the completion of this course, students will be prepared to design and implement programs and conduct outcome evaluations to ensure program efficiency and effectiveness for clients, staff and external funding sources.
**Prerequisite:** SOCW 513, SOCW 523

## SOCW 544, Field Seminar IV, 1 Unit

Field Seminar IV focuses on presentation and discussion of students experiences in specialization year field internships and preparation for masters-level social work employment and licensure. Specific emphasis is placed on critical thinking and communication of professional judgments, integration of theory, assessment, intervention, and evaluation, as well as professional development issues.
**Prerequisite:** SOCW 514, SOCW 515, SOCW 516, SOCW 524, SOCW 525, SOCW 526, SOCW 534, SOCW 535 or SOCW 539;
**Corequisite:** SOCW 541; and SOCW 545 or SOCW 548

## SOCW 545, Field IV - Community Leadership and Program Administration, 3 Units

Field internship provides a setting for students to utilize advanced community practice skills and an opportunity for the ethical integration of knowledge, skills, values, and faith in social work. Students complete a minimum of 480 hours (600 hours for Advanced Standing students) by the end of semester I and semester II at an approved and designated agency.
**Prerequisite:** SOCW 514, SOCW 515, SOCW 516, SOCW 524, SOCW 525, SOCW 526, SOCW 534, and SOCW 535;
**Corequisite:** SOCW 541, SOCW 544

## SOCW 546, Family Therapy in Context, 3 Units

This course focuses on family practice contexts and theories of child welfare and family therapy. Content includes social worker roles and scope of practice in child welfare practice, and current approaches to assisting families in the child welfare system. Also included is the demonstration and practice of family therapy, application of theory, and assessment and intervention on diverse family systems. Course material also addresses legal and ethical problem solving related to contemporary professional ethics and statutes and regulations related to family law.
**Prerequisite:** SOCW 513, SOCW 523

## SOCW 547, Health and Behavioral Health Policy, 2 Units

This course explores American social welfare policies relevant to health and behavioral health care. Course content includes the historical and social contexts of health and behavioral health care, and the roles of the public and private sectors in shaping contemporary trends and issues, particularly among vulnerable communities. Topics include healthcare reform, integrated care, access/treatment disparities, advocacy and policy reform, and the recovery model.
**Prerequisite:** SOCW 512

## SOCW 547A, Applied Clinical and Advanced Policy Practice, 3 Units

Students in this course explore the convergence of clinical social work theoretical/practice models, professional/ethical considerations, and health/behavioral health policy practice. Content involves case-based learning, critical thinking, and ethical decision-making, and integrates a trauma-informed, relational social work perspective with a focus on addressing antiracism and health/behavioral health disparities in vulnerable communities.
**Prerequisite:** SOCW 512, SOCW 513, SOCW 514, and SOCW 524

## SOCW 548, Field IV - Clinical Practice, 3 Units

Field internship in the clinical specialization year provides a setting for students to develop advanced practice skills, and an opportunity for the integration of knowledge, skills, and social work values as applied to clinical practice across the life span. Students complete a minimum of 480 hours (or 600 hours for Advanced Standing students) by the end of fall and spring semesters at an approved, designated agency.
**Prerequisite:** SOCW 514, SOCW 515, SOCW 516, SOCW 524, SOCW 525, SOCW 526, SOCW 534, and SOCW 539;
**Corequisites:** SOCW 541 and SOCW 544

## SOCW 549, Advanced Practicum I: Clinical Practice, 3 Units

This course includes supervised internships in an agency setting and integrative in-class seminars specific to the clinical specialization. Students develop advanced clinical practice skills across the life span continuum from an antiracist and antioppressive perspective, with access to a broad range of complex practice opportunities. Emphasis is on critical thinking and communication of professional judgments; integration of theory; advanced clinical engagement, assessment, intervention, and evaluation; supervision use; cultural responsiveness; professional ethics; and ethical faith integration applied in practicum work with individuals, families, and groups. The seminars focus on presentations and discussions of student internship experiences, along with integration of classroom theory and practice. Students complete a minimum of 480 practicum hours (600 hours for Advanced Standing students) by the end of their specialization year at an approved and designated agency.
**Prerequisite:** SOCW 514, SOCW 517, SOCW 524, and SOCW 518;
**Corequisite:** SOCW 574

## SOCW 550, Advanced Standing: Intermediate Praxis, 3 Units

Advanced Standing courses bridge the BSW and MSW programs. Students in this course focus on micro- and macro-level theories and the relevance of different worldviews, using case examples drawn from professional social work. Models of practice with diverse communities and social welfare organizations are examined. Students have opportunities for further development of self-awareness regarding the ways beliefs and values, such as faith, may affect practice and professional identity.
**Prerequisite:** Admission to Advanced Standing MSW program;
**Corequisite:** SOCW 551

## SOCW 551, Advanced Standing: Social Work Ethics and Practice, 3 Units

This advanced-standing course provides overviews of the legal and ethical practice standards in social work, and addresses the skills required for effective engagement, assessment, intervention, and evaluation with individuals, families and groups. Assignments focus on social work practice skill development, application of documentation standards, use of evidence-informed practice methods, and integration of legal and ethical issues impacting practice.
**Prerequisite:** Completion of BSW degree; statistics course with a grade of C or higher.

## SOCW 552, Program Planning and Evaluation, 3 Units

Systematic program planning with a focus on outcomes is a critical component in operating effective human service programs. Over the course of this semester, you will become familiar with program design and program evaluation methodologies, and the tools most commonly used to assess human service programs. Additional topics will include identification and use of performance measures, the roles of evaluators and stakeholders, the influence of the political environment, technology applications, and applicable ethics related to program design and evaluation. At the completion of this course you will be prepared to design and implement programs and conduct outcome evaluations to ensure program efficiency and effectiveness for clients, staff and external funding sources.
**Prerequisite:** Completion of generalist foundation coursework

## SOCW 553, Field V Clinical: School Social Work, 3 Units

The PPSC school social work field internship provides a setting for students to develop advanced clinical practice skills in preparation for practice in school settings, and an opportunity for the ethical integration of knowledge, skills, values, and faith in social work. Students accrue field hours at an approved and designated school site in the fall and spring semesters of their specialization year; a total of 600 hours (450 in school social work and 150 in child welfare and attendance) is required by the end of the spring semester. This is the first of a two-semester course sequence with SOCW 555.
**Prerequisite:** MSW Students: SOCW 514, SOCW 515, SOCW 516, SOCW 524, SOCW 525, & SOCW 526. Post-MSW Students: MSW from a CSWE-accredited program, and acceptance into the APU PPSC program.
**Corequisites:** MSW students: SOCW 527, SOCW 554

## SOCW 554, Field Seminar V Clinical: School Social Work, 1 Unit

This seminar course focuses on discussion of student experiences in the PPSC school social work field internships. Emphasis is on demonstration and evaluation of advanced practice skills, interventions, supervision use, cultural responsiveness, professional ethics, and faith integration issues addressed in the PPSC field experience. This is the first of a two-semester course sequence with SOCW 556.
**Prerequisite:** MSW Students: SOCW 514, SOCW 515, SOCW 516, SOCW 524, SOCW 525, & SOCW 526. Post-MSW Students: MSW from a CSWE-accredited program, and acceptance into the APU PPSC program.
**Corequisites:** MSW students: SOCW 527, SOCW 553

## SOCW 555, Field VI Clinical: School Social Work, 3 Units

The PPSC school social work field internship provides a setting for students to develop advanced clinical practice skills in preparation for practice in school settings, and an opportunity for the ethical integration of knowledge, skills, values, and faith in social work. Students accrue field hours at an approved and designated school site in the fall and spring semesters of their specialization year; a total of 600 hours (450 in school social work and 150 in child welfare and attendance) is required by the end of the spring semester. This is the second of a two-semester course sequence with SOCW 553.
**Prerequisite:** MSW students: SOCW 514, SOCW 515, SOCW 516, SOCW 524, SOCW 525, SOCW 526, SOCW 553, and SOCW 554; Post-MSW students: MSW degree from a CSWE-accredited program, and acceptance into the APU PPSC program.
**Corequisite:** SOCW 556

## SOCW 556, Field Seminar VI Clinical: School Social Work, 1 Unit

This seminar course focuses on discussion of student experiences in the PPSC school social work field internship. Emphasis is on demonstration and evaluation of advanced practice skills, interventions, supervision and consultation, cultural responsiveness, professional ethics, and faith integration issues that occur in the field internship experience. This is the second of a two-semester course sequence with SOCW 554.
**Prerequisite:** MSW students: SOCW 514, SOCW 515, SOCW 516, SOCW 524, SOCW 525, SOCW 526, SOCW 553, SOCW 554. For Post-MSW students: MSW degree from a CSWE-accredited program, and acceptance into APU PPSC program.
**Corequisite:** For all students: SOCW 541, SOCW 555

## SOCW 557, Advanced Practicum II: Clinical Practice, 3 Units

This final practicum course continues the supervised internship experience in an agency setting and integrative in-class seminars specific to the clinical specialization. Students develop advanced clinical practice skills across the life span continuum from an antiracist and antioppressive perspective, with access to a broad range of complex practice opportunities. Emphasis is on critical thinking and communication of professional judgments; integration of theory; advanced clinical assessment, intervention, and evaluation; supervision use; cultural responsiveness; professional ethics; and ethical faith integration applied in practicum work with individuals, families, and groups. Seminars focus on presentations and discussions of student internship experiences and master's-level social work employment and licensure preparation. Students complete a minimum of 480 practicum hours (600 hours for Advanced Standing students) by the end of their specialization year at an approved and designated agency.
**Prerequisite:** SOCW 514, SOCW 517, SOCW 524, SOCW 518, and SOCW 549;
**Corequisite:** SOCW 541

## SOCW 558, Advanced Practicum I: Community Leadership and Program Administration, 3 Units

This course includes supervised internships in an agency setting and integrative in-class seminars specific to the community leadership and program administration (macro)specialization. Students develop advanced organizational, community, and policy practice skills from an antiracist and antioppressive perspective as it applies to macro leadership roles, community advocacy, and policy and legislation. Seminars focus on presentations and discussions of student internship experiences, and integration of micro and macro practice skills within the context of the social environment. Emphasis is on critical thinking and communication of professional judgments; integration of theory; assessment, intervention, and evaluation; ethical faith integration; and professional development opportunities in practicum work with groups, communities, and/or organizations. Students complete a minimum of 480 practicum hours (600 hours for Advanced Standing students) by the end of their specialization year at an approved and designated agency.
**Prerequisite:** SOCW 514, SOCW 517, and SOCW 518;
**Corequisite:** SOCW 574

## SOCW 559, Advanced Practicum II: Community Leadership and Program Administration, 3 Units

This final practicum course continues the supervised internship experience in an agency setting and integrative in-class seminars specific to the community leadership and program administration (macro)specialization. Students develop advanced organizational, community, and policy practice skills from an antiracist and antioppressive perspective as it applies to macro leadership roles, community advocacy, and policy and legislation. Seminars focus on presentations and discussions of student internship experiences and master's-level social work employment and licensure preparation. Emphasis is on critical thinking and communication of professional judgments; integration of theory; assessment, intervention, and evaluation; ethical faith integration; and professional development opportunities in practicum work with groups, communities, and/or organizations. Students complete a minimum of 480 practicum hours (600 hours for Advanced Standing students) by the end of their specialization year at an approved and designated agency.
**Prerequisite:** SOCW 514, SOCW 517, SOCW 524, SOCW 518, and SOCW 558;
**Corequisite:** SOCW 541

## SOCW 560, Social Work Practice in Healthcare Settings, 3 Units

This elective course offers an introduction to social work practice in healthcare settings, with a focus on the specific knowledge and skills essential for effective intervention. Students critically analyze the U.S. healthcare system as compared to international models, and apply clinical skills and relevant laws to interdisciplinary practice while understanding the context of the political, societal, and economic influences that impact service delivery and available resources. The course also articulates how a Christian worldview relates to ethical social work practice within the field of health care.

## SOCW 561, Treatment of Substance Use Disorders, 3 Units

This course describes substance use disorders from a biopsychosocial-cultural-spiritual perspective, emphasizing assessment and intervention skills, processes, and evidence-informed research relevant to treatment using the recovery model. Diversity issues involving policy and practice are explored. Course content meets California Board of Behavioral Sciences prelicensure requirement in the area of alcohol and other substance abuse assessment.

## SOCW 562, Urban Social Welfare, 3 Units

Course integrates on-site experiential learning with classroom education focused on urban issues of homelessness, gang involvement, and immigration. Students engage in weekly on-site learning activities in high-need areas of Los Angeles and Orange County. Content includes theological and sociological perspectives on urban issues as well as urban social work practice. Elective

## SOCW 563, School Social Work, 3 Units

This course uses an ecological perspective in teaching the practice of social work in schools. Topics include the historical, theoretical, legal, research, policy, and practice issues relevant to the delivery of school social work services; the roles and tasks performed by social workers in public schools; school social work practice models; and the professional code of ethics. The purpose of this course is to develop the knowledge, skills, and abilities necessary for successful and competent practice with students, families, schools, and communities.
**Prerequisite:** Completion of generalist foundation curriculum; admission to the PPS program (required for students seeking the PPSC).

## SOCW 564, Social Work and the Bible: Christian Perspectives on Service and Professional Practice, 3 Units

This course focuses on theological and social work perspectives on the relevance of the Bible to professional practice activities. Content addresses diverse Christian perspectives on social welfare policies and faith integration in different practice environments. Distinctions between professional social work, Christian counseling, and missionary activity are explored. Elective

## SOCW 565, Clinical Spanish Practice, 3 Units

This course prepares students to utilize clinical practice skills in the Spanish language, including assessment, engagement, intervention, and evaluation of services with individuals, groups, and communities. Content covers diversity issues such as cultural competence and understanding of the Latino/a culture and its intragroup differences, and equipping students to confront biases, myths, and stereotypes in the client-practitioner therapeutic relationship. Course is conducted primarily in Spanish.
**Prerequisite:** SOCW 514 and SOCW 524

## SOCW 566, Social Work, Health, and Aging, 3 Units

This course explores concepts, social policies, resources, and interventions related to social work practice with the older adult population. Content integrates themes of diversity, ageism, empowerment, and faith, as well as community-based and cross-cultural competence. Content includes a focus on biopsychosocial assessment, with emphasis on functional and cognitive status, integrated healthcare practice, interdisciplinary practice, and end-of-life care. This course meets California Board of Behavioral Sciences requirements for clinical social work licensure.

## SOCW 567, Couples Therapy, 3 Units

This course is an overview of current theories, methods, and psychological instruments used in couples therapy interventions. Content includes detection, assessment, and intervention strategies for spousal or partner abuse, meeting California requirements for training in the area of domestic and family violence for MFT and LCSW licensure. Students apply course material to role-play scenarios during class time. Attention is given to issues of ethnic diversity, blended families, and faith integration.
**Prerequisite:** Completion of generalist foundation coursework or admission into the Advanced Standing program.

## SOCW 568, Military Social Work, 3 Units

This course helps students understand the unique and complex needs of active-duty service members, veterans, and family members of military personnel, presenting knowledge and skills essential to effective clinical social work practice with these populations. Topics include military culture, ethical issues, diversity, faith integration, trauma, assessment, family issues, reintegration, domestic violence, substance use, homelessness, suicide, building resiliency, and evidence-informed interventions for use in interprofessional settings.

## SOCW 569, Human Sexuality and Sex Therapy, 3 Units

This course reviews human sexuality as a basis for sex therapy and clinical social work involving sexuality issues. Students examine and evaluate biological, psychological, social, moral, and faith perspectives on sexual development and functioning. In addition, students survey literature on sexual dysfunction, and learn treatment strategies utilized in various social work contexts and systems of marital and sex therapy. This course meets California Board of Behavioral Sciences requirements for clinical social work licensure.

## SOCW 570, International Social Work Policy and Practice, 3 Units

Content focuses on international social work practice at multiple systems levels. Topics include comparison of U.S. and international social welfare policies; different theoretical, economic, cultural, ideological, and religious perspectives; neoliberal economic development policies; issues involving immigrants and other marginalized groups; and the impact of globalization and climate change on rapid urbanization and population growth. Practice content addresses poverty alleviation, conflict and postconflict reconstruction, and displacement and forced migration concerns.
**Prerequisite:** SOCW 522 and SOCW 523

## SOCW 572, Advanced Practicum I: School Social Work, 3 Units

This course includes supervised internships in school settings and integrative in-class seminars specific to the clinical specialization with the PPSC (school social work) pathway. Students develop advanced clinical practice skills, in preparation for practice in school settings, from an antiracist and antioppressive perspective. Emphasis is on critical thinking and communication of professional judgments; integration of theory; advanced clinical engagement, assessment, intervention, and evaluation; supervision use; cultural responsiveness; professional ethics; and ethical faith integration applied in the PPSC practicum experience. Seminars focus on presentations and discussions of student internship experiences, along with integration of classroom theory and practice. Students complete a minimum of 600 practicum hours (450 in school social work and 150 in child welfare and attendance) by the end of their specialization year at approved and designated school sites.
**Prerequisite:** Current MSW PPSC Students: SOCW 514, SOCW 517, SOCW 524, and SOCW 518;
**Corequisite:** SOCW 527

## SOCW 573, Advanced Practicum II: School Social Work, 3 Units

This final practicum course continues the supervised internship experience in school settings and integrative in-class seminars specific to the clinical specialization. Students develop advanced clinical practice skills, in preparation for practice in school settings, from an antiracist and antioppressive perspective. Emphasis is on critical thinking and communication of professional judgments; integration of theory; advanced clinical engagement, assessment, intervention, and evaluation; supervision use; cultural responsiveness; professional ethics; and ethical faith integration applied in the PPSC practicum experience. Seminars focus on presentations and discussions of student internship experiences, and master's-level social work employment and licensure preparation. Students complete a minimum of 600 practicum hours (450 in school social work and 150 in child welfare and attendance) by the end of their specialization year at approved and designated school sites.
MSW Students: Prerequisites: SOCW 514, SOCW 517, SOCW 524, SOCW 518, and SOCW 572; corequisite: SOCW 541 Post-MSW PPSC Students: Prerequisites: MSW degree from a CSWE-accredited program, acceptance into APU's PPSC program

## SOCW 574, Applied Research for Evidence-Informed Practice, 3 Units

This course prepares students to critically evaluate social work research and evidence-informed practice, and its ethical application to data-driven decision-making within community practice settings. Concepts covered include problem identification, hypothesis formulation, measurement, sampling, research design, data collection methods, data analysis, and program evaluation. Students explore how science, scholarship, and the politics of knowledge development can facilitate the mission of social work.
**Prerequisite:** Statistics course

## SOCW 595, Special Topics, 1-6 Units

Special topics courses offer graduate-level content that is typically scheduled in an intensive format. These courses include a wide range of specialized topics relevant to professional social workers. The unit values of these courses range from 1-6 depending upon the specific contact hours and coursework load. Note: Elective offerings vary year to year.

## SOCW 599, Readings in Social Work, 1-3 Units

Students enroll in this course to pursue independent study of professional interests/activities. Students explore topics in greater depth than in regular course offerings and/or initiate individual projects. Readings and assignments are based on learning contracts developed in consultation with a sponsoring faculty member and approved by the MSW program director. Additional fees required.

# Pupil Personnel Services Credential in School Social Work and Child Welfare and Attendance Services

Help meet the need for professional social workers equipped to serve children and adolescents in schools. Azusa Pacific's Pupil Personnel Services Credential (PPSC) in School Social Work and Child Welfare and Attendance Services program (https://www.apu.edu/bas/programs/pps-credential/) will advance your skills with a practice specialization that provides a competitive edge for employment in social work services within P-12 school settings.

Designed as a complement to the MSW degree program (https://www.apu.edu/bas/programs/msw/), this credential combines a solid theoretical base and evidence-informed practice models related to school social work and child welfare and attendance. Through relevant coursework and fieldwork opportunities, you will learn how to support children, parents, and school personnel while shaping a responsive environment to help children succeed academically and thrive emotionally.

- MSW Students: This credential option is available for APU MSW students pursuing the clinical practice specialization.
- MSW Degree Holders: Individuals who already hold an MSW degree and have appropriate experience may also qualify for the credential program.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

To apply for the PPSC program, you must be enrolled in or planning to enroll in APU's Master of Social Work program, or have already completed an MSW degree.

### Current MSW Student Admission Requirements

The PPSC program is open to all students enrolled in the 60-unit APU MSW program who have successfully completed foundation-level curriculum, are enrolled in the Clinical Practice with Individuals and Families specialization, and complete the PPSC program requirements as outlined below:

- Attend PPSC orientation prior to applying to a specialization field internship
- Complete the PPSC application (https://www.apu.edu/graduateprofessionalcenter/apply/)
- Provide a personal statement as outlined in the PPSC General Program Requirements (https://www.apu.edu/bas/programs/pps-credential/#admission).
- Obtain a Certificate of Clearance through the California Commission on Teacher Credentialing (CTC) website (https://www.ctc.ca.gov/credentials/submit-online/)
- Provide evidence of meeting basic skills requirements (as outlined by the CTC)

For more information, refer to the PPSC Auxiliary Student Handbook (https://www.apu.edu/bas/programs/pps-credential/#admission) and the PPSC General Program Requirements (https://www.apu.edu/bas/programs/pps-credential/#admission).

To learn more about registering, contact Olivia Sevilla, assistant professor and PPSC coordinator, at oesevilla@apu.edu or (626) 815-6000, Ext. 2769.

### Post-MSW Admission Requirements

Applicants to the post-MSW PPSC program who want to enroll for the summer and/or need to fulfill the field internship requirement must submit materials by March 1. Applicants who want to enroll in fall and/or have completed the field internship requirement must submit materials by June 1. Full admission requires that the MSW degree be posted by June 30.

Post-MSW PPSC applicants who have not completed PPSC fieldwork must meet the following admissions requirements:

- Hold an MSW degree from a CSWE-accredited program, with advanced coursework focused on clinical or direct practice; or have two years of post-MSW practice experience with children, youth, and families
- Provide verification of completion of a course with child/adolescent behavioral health and diagnosis content, or evidence of 2 years of work experience with children and families
- Complete the PPSC application (https://www.apu.edu/graduateprofessionalcenter/apply/)
- Provide official transcripts, along with syllabi and course descriptions as needed, to provide proof of prerequisite coursework completed
- Obtain a Certificate of Clearance through the California Commission on Teacher Credentialing (CTC) website (https://www.ctc.ca.gov/credentials/submit-online/)
- Provide evidence of meeting the Basic Skills Requirement (as outlined by the CTC) (https://www.ctc.ca.gov/credentials/leaflets/basic-skills-requirement-(cl-667/)

**Note:** The Certificate of Clearance and Basic Skills Requirement are program requirements, but not conditions for admission.

**Note:** Applicants needing 600 PPSC fieldwork hours will need to complete 8 units of fieldwork along with 6 units of coursework. Applicants who have already completed the required fieldwork can request to have hours verified for the credential, and be approved to complete only the 6 units of coursework.

## Post-MSW PPSC Applicants Who Have Completed Field Requirements

Applicants who have already completed the required PPSC fieldwork hours can request to waive field placement. If a field placement waiver is granted, applicants will need to complete only 6 units of coursework.

**Note:** It is preferred that the required 600 PPSC hours be collected in the specialization year of the MSW program. Hours collected in the generalist, foundation year of the MSW program will be considered for the post-MSW PPSC program if the student has evidence of a specialization placement focused on working with children and families, and has completed a course with child/adolescent behavioral health and diagnosis content.

Candidates must also meet the following PPSC field placement requirements:

- Of the 600 hours completed, 450 must be in school social work (SSW) activities, and 150 hours must be in child welfare and attendance (CWA) activities; these hours are approved by an approved supervisor[1]
- Hours include activities in any two grade levels (PK-K, Elementary, Middle, High School) and with diverse populations
- Certificate of Clearance must remain active through the entire credentialing process

Meeting the Basic Skills Requirement is not a condition of admission, but it must be completed *before* credential recommendation can be made.

[1]    PPSC supervisor must have an MSW (and have had it for at least 2 years), have an active Certificate of Clearance, and have an active PPSC credential in SSW and CWA.

## Course Requirements

| Code | Title | Units |
| --- | --- | --- |
| SOCW 540 | Educational Policy | 3 |
| SOCW 563 | School Social Work | 3 |
| **Practicum Internship** [1] | | |
| SOCW 572 | Advanced Practicum I: School Social Work | 3 |
| SOCW 573 | Advanced Practicum II: School Social Work | 3 |
| **Total Units** | | **12** |

[1]    Candidates can apply to have prior fieldwork hours verified by the program.

## Equipping School Social Work Leaders

Coming from a Christian-based perspective, the PPS credential faculty are committed to preparing a workforce that can advocate for and meet needs within the community and school system. During the credential program, you will:

- Learn to conduct biopsychosocial assessments, intervene in crises, identify community resources and linkages, and participate in interprofessional collaboration and consultation.

- Study alongside faculty who are active practitioners of school social work.
- For those completing the credential with the MSW, participate in fieldwork opportunities in diverse school settings to put learning into practice.
- Benefit from potential opportunities to disseminate research at local, regional, or national conferences with faculty.

This credential option builds on the MSW program's mission to develop competent advanced social work practitioners who integrate the knowledge, values, and skills of social work to advance social justice and provide services to assist individuals, families, groups, organizations, and communities within the school setting.

## Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. SSWPE 1: Ethical and Professional Behavior
2. SSWPE 2: Engage Diversity and Difference in Practice
3. SSWPE 3: Promote Social Justice and Equity
4. SSWPE 4: Engage in Practice-informed Research and Research-informed Practice
5. SSWPE 5: Engage in Policy Practice
6. SSWPE 6: Engage with Students, Families, Groups, Organizations, and Communities
7. SSWPE 7: Assess Students, Families, Groups, Organizations, and Communities
8. SSWPE 8: Intervene Collaboratively with: Students, Families, Groups, Teachers, School Staff, Organizations, and the Community
9. SSWPE 9: Evaluate Interventions with Students, Families, Groups, Teachers, School Staff, Organizations, and the Community
10. SSWPE 10: Growth and Development

# Certificate of Distinction in Undergraduate Social Work Research

The Certificate of Distinction in Undergraduate Social Work Research is available to seniors participating in the advanced research section of SOCW 478 and SOCW 479 of the BSW program.

## Requirements and Expectations

- Students must have a minimum cumulative GPA of 3.3 and have received a *B* or higher in statistics (MATH 130) or equivalent course in order to participate in the advanced research section. Students who have received less than a *B* in statistics but meet the GPA requirement may petition to be in the advanced research section. Petitions will be reviewed on a case-by-case basis.
- Students must have completed and received a *C* or higher in all other required BSW courses leading to their senior year.
- Students must complete an application that includes a brief essay noting why they wish to participate in the advanced research section.
- Students must receive a recommendation from one other BSW faculty member who can speak to the student's writing ability and professional readiness to participate in the advanced research section.
- Students must develop an original research project tied to their field internship in accordance with the course requirements.
- Students must complete the appropriate Institutional Review Board (IRB) application and receive approval for their projects from APU's IRB office (https://www.apu.edu/researchandgrants/ethics/#human-subject-irb).
- Students must submit an abstract for presentation at an appropriate campus-wide research event.
- Students must submit an abstract for the student research poster competition at the national undergraduate social work conference (The Association of Baccalaureate Social Work Program Directors (BPD) conference) held every March. Students who are selected, through a review process, to present their research at the BPD conference must attend the conference and participate in the research poster competition. Students apply for travel grants from APU's Undergraduate Research Program (https://www.apu.edu/undergraduate-research/) to support travel and conference-related expenses.
- Students are invited to submit abstracts to participate in the annual, highly competitive Posters on the Hill interdisciplinary student conference in Washington, DC, sponsored by the Council on Undergraduate Research.
- Students coauthor with the instructor to submit an article based on their research to a peer-reviewed academic journal in social work for publication consideration by the end of the spring semester. Students are expected to remain in touch with the course instructor postgraduation to work on any revisions requested by the journal(s) in order to be accepted for publication.

| Code | Title | Units |
|------|-------|-------|
| SOCW 478 | Social Work Research Methods | 3 |
| SOCW 479 | Writing 3: Social Work Research Project [1] | 3 |
| **Total Units** | | **6** |

[1] Meets the General Education Writing 3 requirement.

# Support Services

## The Community Counseling Center

The Community Counseling Center (https://www.apu.edu/ccc/), a Christian-based counseling center, provides high-quality counseling and consulting services at a low cost to the community. Families use the center's resources to resolve life-transition dilemmas and find harmony between their values and actions. The center also enables students in APU's clinical psychology programs to develop the necessary skills to become effective therapists and/or psychologists. For more information, call (626) 815-5421.

# School of Education

The School of Education (https://www.apu.edu/education/) at Azusa Pacific University equips teachers, counselors, school psychologists, and administrators for excellence and leadership in educational settings. The school provides an EdD program in Educational Leadership, EdS degrees in School Psychology, master's programs, teaching credentials, and specialist credentials in special education, school counseling, and school psychology. The school also offers an undergraduate major and minor in liberal studies.

For a full listing of programs and affiliated faculty, visit the appropriate department or division pages: Educational Leadership (p. 472), School Counseling and School Psychology (p. 478), and Teacher Education (p. 503). (http://catalog.apu.edu/academics/school-education/teacher-education/)

## Mission Statement

Based upon Christian values and principles, the APU School of Education prepares educators to be creative, collaborative, critical thinkers and scholars for diverse educational settings.

## Learner Goals

The School of Education seeks to prepare:

1. Ethical professionals who understand and articulate the integration of a Christian worldview in their communities of practice.
2. Responsive educators who practice reflective, creative, critical thinking in their engagement with diverse communities of learners.
3. Informed scholarly professionals who are dedicated to collaboration, professional growth, and lifelong learning.

## Affiliated Programs

APU offers a number of California Commission on Teacher Credentialing (CTC)-approved subject-matter programs for candidates completing their bachelor's degrees. The following programs can be used to meet the subject matter authorization requirement for a preliminary teaching credential:

- English Approved Subject-Matter Program (p. 120)
- Mathematics Approved Subject-Matter Program (p. 88)
- Music Approved Subject-Matter Program (p. 278)
- Social Science Approved Subject-Matter Program (p. 136)

In collaboration with the College of Liberal Arts and Sciences, the School of Education offers the Integrated Bachelor's/Credential Program (p. 546) to undergraduate students seeking to earn a preliminary teaching credential in hard-to-staff areas (e.g., science, math, special education) during their undergraduate degree program.

## Graduate Physical Education Programs

APU offers programs in graduate physical education. The Master of Arts in Physical Education and Single Subject Teaching Credential (p. 575), Master of Arts in Physical Education with an Added Authorization in Adapted Physical Education (p. 577), and the Adapted Physical Education Added Authorization (p. 570) programs are approved by the California Commission on Teacher Credentialing (CTC). For more information, visit the School of Health Sciences (p. 558) section of this catalog.

## School Nurse Services Credential

APU offers a program in school nursing services. The School Nurse Services Credential (SNSC) is approved by the California Commission on Teacher Credentialing (CTC). For more information, visit the School of Nursing (p. 598) section of this catalog.

## School Social Work and Child Welfare and Attendance Services PPS Credential

APU offers a Pupil Personnel Services credential program in school social work and child welfare and attendance services, which is approved by the California Commission on Teacher Credentialing (CTC). For more information, visit the Department of Social Work (p. 421) section of this catalog.

## Credit Hour

The School of Education follows the university credit hour policy, except when clinical experience expectations from our professional accrediting bodies have expectations for more clock hours. Clinical experience expectations are guided by our professional accrediting bodies.

Department of School Counseling and School Psychology

- School Counseling – The California Commission on Teacher Credentialing (CTC) requires a minimum of eight hundred clock hours of supervised fieldwork/internship. This equates to eight units of fieldwork/internship within the program.
- School Psychology – The CTC requires a minimum of four hundred and fifty clock hours of practicum experience. This equates to three units of practicum within the program. Additionally, the CTC requires a minimum of twelve hundred clock hours of supervised fieldwork/internship. This equates to ten units of fieldwork/internship within the program.
- Applied Behavioral Analysis Specialization – The Behavior Analyst Certification Board (BACB) requires a minimum of 1,500 clinical hours for individuals applying for Certification before 1/1/2022 and 2,000 clinical hours for individuals apply for Certification 1/1/2022 and after. The ABA program includes two fieldwork courses that have assignments that must be completed in the field under the supervision of a Board Certified Behavior Analyst (BCBA) or School Psychologist. The time necessary to complete the assignments equates to approximately two hundred hours of fieldwork clock hours. These fieldwork courses support students toward meeting their clinical requirements for the BACB, and these courses equate to two units of fieldwork within the program.

Division of Teacher Education

- Preliminary Teaching Credential Programs – The CTC requires six hundred clock hours of clinical experiences. A minimum of sixty hours of early field experiences are embedded in foundations courses, while a minimum one hundred and forty hours of early clinical practice and four hundred hours of culminating clinical practice is completed at student teaching or internship. This equates to four units of clinical practice within the program.

# Academic Policies

The following academic policies apply to credential and graduate programs.

## Normal Progress Toward a Degree or Credential and Time Limit for Degree or Credential

School of Education students have a maximum of five years to complete all program requirements for the degree and/or credential, with the exception of doctoral students, who have six years to complete all program requirements. In rare instances, extensions may be requested by petition. Granting of such a petition may entail additional degree requirements, credential requirements, and/or repeating courses that have expired.

## Good Academic Standing

To maintain good academic standing, School of Education students are expected to make satisfactory progress toward completion of their program. There are three criteria to the Good Academic Standing policy, in keeping with university academic quality standards and eligibility requirements for federal financial aid:

1. **Minimum GPA Requirement:** Students must maintain a minimum cumulative grade-point average (GPA) of 3.0 in their program of study.
2. **Time to Degree Completion:** School of Education students have a maximum of five years to complete all program requirements, with the exception of doctoral students, who have six years to complete all program requirements.
3. **Successful Completion of Credit (*CR*)/No Credit (*NC*) Courses:** School of Education students must earn a grade of *CR* for Credit/No Credit courses in which they enroll.

## Academic Probation and Dismissal

Students who do not meet the definition of good academic standing outlined above are subject to academic probation and will be given one enrollment period to demonstrate satisfactory progress toward good academic standing. Certain designated courses within the School of Education (e.g., fieldwork,

supervised teaching, dissertation courses, etc.) are graded on a Credit (*CR*)/No Credit (*NC*) basis. A grade of *NC* is interpreted as a failing grade, which can have implications for a student's continued satisfactory progress and academic standing.

## Minimum Requirements for Certificate, Credential, Master's, and Combined Master's Degree and Credential Students

Students in master's and/or credential coursework must maintain a minimum cumulative GPA of 3.0. Courses with a grade lower than *B-* (including *NC* grades) are not applied to master's or educational specialist (Ed.S.) degree requirements or to credential/certificate requirements and must be repeated. Students who earn an *NC* grade are required to meet with their program director or chair to identify knowledge, skills, and/or dispositions that may need strengthening and to develop a performance improvement plan. Students who earn an *NC* grade will be placed on probation and given one enrollment period to demonstrate satisfactory progress according to the terms of the improvement plan. Students who do not meet the standards for satisfactory progress after a period of probation may be dismissed from the program.

Students are expected to successfully complete their culminating clinical practice, fieldwork, and internship courses at first attempt. On rare occasions, students with unsuccessful first attempts will be eligible to petition to the appropriate academic department to repeat the course. A successful petition is required for a student to repeat. A culminating clinical practice, fieldwork, or internship course can be repeated only once.

Students who earn an *NC* grade in a culminating clinical practice, fieldwork, or internship experience as a result of a lapse in professional responsibility, integrity, or ethical conduct may not be eligible to petition to repeat the course for which they received the nonpassing grade.

## Minimum Requirements for Doctoral Students

A doctoral student must maintain a minimum cumulative GPA of 3.0. Courses with a grade lower than *B-* (including *NC* grades) are not applied toward doctoral degree requirements and must be repeated.

In order to ensure satisfactory academic progress, a doctoral student who receives an *NC* grade or grade lower than *B-* in 700-level courses, or whose grade-point average falls below 3.2, is required to meet with his/her advisor to identify academic skills that may need strengthening and to develop a performance improvement plan.

Doctoral students with a cumulative GPA lower than 3.0, or those who have earned two or more *NC* grades, will be placed on probation and given one enrollment period to demonstrate satisfactory progress according to the terms of the performance improvement plan. Students who do not demonstrate satisfactory progress according to the terms of the performance improvement plan after a period of probation may be dismissed from the program.

# Accreditation

Azusa Pacific University (APU) is accredited by the WASC Senior College and University Commission (WSCUC) (https://www.wscuc.org).

Additionally, APU has a number of professional accreditations and approvals related to its educator preparation programs:

- All programs that result in an educator credential are accredited by the California Commission on Teacher Credentialing (CTC) (https://www.ctc.ca.gov/) and the Council for the Accreditation of Educator Preparation (CAEP) (https://caepnet.org/). The following programs include an educator credential and are accredited by CTC and CAEP:
    a. Master of Arts in Education: Educational Counseling with an Embedded Pupil Personnel Services Credential in School Counseling (p. 499)
    b. Master of Arts in Education: Educational and Clinical Counseling with an Embedded Pupil Personnel Services Credential in School Counseling (p. 497)
    c. PPS: School Counseling Credential (p. 501)
    d. Educational Specialist (EdS) in School Psychology with Embedded Master of Arts in Education: Educational Psychology and Pupil Personnel Services Credential in School Psychology (p. 486)
    e. Educational Specialist (EdS) in School Psychology: Clinical and Educationally Related Mental Health Counseling with Embedded Master of Arts in Education: Educational Psychology and Pupil Personnel Services Credential in School Psychology (p. 494)
    f. Educational Specialist (EdS) in School Psychology: Applied Behavior Analysis with Embedded Master of Arts in Education: Educational Psychology and Pupil Personnel Services Credential in School Psychology (p. 490)
    g. PPS: School Psychology Credential (p. 503)
    h. Master of Arts in Education: Learning and Technology and Multiple Subject Teaching Credential (p. 524)
    i. Master of Arts in Education: Learning and Technology and Single Subject Teaching Credential (p. 525)
    j. Master of Arts in Education: Teaching and Multiple Subject Teaching Credential (p. 527)
    k. Master of Arts in Education: Teaching and Single Subject Teaching Credential (p. 528)
    l. Multiple Subject Teaching Credential (p. 531)
    m. Single Subject Teaching Credential (p. 532)
    n. Master of Arts in Education: Learning and Technology and Mild to Moderate Support Needs Education Specialist Credential (p. 540)
    o. Master of Arts in Education: Learning and Technology and Extensive Support Needs Education Specialist Credential (p. 539)

- The Educational Specialist (EdS) in School Psychology programs are approved by the National Association of School Psychologists (NASP) (https://www.nasponline.org/).

# Department of Educational Leadership

The Department of Educational Leadership (https://www.apu.edu/education/leadership/) offers an EdD in Educational Leadership that prepares scholar-practitioners with the knowledge and skills to make a transformative impact on schools and districts and in the lives of students in them.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

## Program

## Doctoral

- Doctor of Education (EdD) in Educational Leadership (p. 475)

## Courses

### EDL 702, Proseminar in Educational Leadership, 1 Unit

As a required course for all incoming doctoral students in the Educational Leadership program, the proseminar has three primary goals: 1) to orient students to the intellectual life of doctoral study; 2) to provide opportunities for students to become familiar with steps and procedures required for successful completion of the doctoral program, including a plan and timeline for accomplishing major academic and professional milestones; and 3) to introduce students to the technology, tools, and academic resources needed for doctoral study, including use of the Azusa Pacific University library catalog and databases. The proseminar provides an early opportunity for students to prepare for the rigors of doctoral work and to become familiar with the culture and expectations of the Educational Leadership program. All proseminar activities are designed to help students develop connections with each other and with the faculty to create a community of learners and scholars.

### EDL 710, Developing the Leader Within, 2 Units

Leadership impact and influence - positive or negative - are greatly related to the skills, values, and principles of the leader. This course will focus on the mental, ethical, psychological, spiritual, and emotional aspects of leadership, both in the context of the literature, as well as through use of various assessments. These will include guided self-reflection and a 360-degree assessment by those within the leader's span of influence. Patterns of leadership failure will also be explored.

### EDL 712, Leading Change in Education: Theory to Practice, 3 Units

This course examines leadership, organizational development, and change theories, with particular application to contemporary public K-12 environments - classroom, school, district, state, and national arenas. The emphasis is on the role of leader as change agent within systems and/or organizations, as well as on the impact of change on individuals and communities. Theoretical as well as practical perspectives relative to the nature of leadership are balanced in the context of discussion of the implications for practice. Leadership in the context of organizational culture, communication, motivation, integrity, and change is incorporated throughout the course.

### EDL 713, Diversity and Equity in Education, 3 Units

Students examine diversity and equity issues impacting P-12 students, schools, and communities. Relevant theoretical perspectives are explored to help students deepen their knowledge, skills, and dispositions in order to perpetuate or to change cross cultural patterns in schools. The course raises issues related to justice, excellence, and other topics that call for reflection and the student's ability to intervene as needed.

## EDL 716, Educational Policy: Analysis, Praxis, and Reform, 3 Units

The purpose of this course is to prepare students to critically analyze, formulate, and implement educational policies and practices that advance the achievement of P-12 students. Theory and praxis aligned to federal, state, local, and district policies will be examined. The impact of historical and current legislative trends, (such as school funding policies, accountability, and certification processes), will be appraised, interpreted, and critiqued. Implications for various student populations will be considered.

## EDL 718, Group Dynamics and Conflict, 2 Units

This course is focused on group dynamics and conflict that arise in all work groups. The roles of all individuals within the group, with focus on leadership styles, healthy group conflict, resolving conflict, and techniques for improving group decision making are explored, and ethical and legal issues related to group interventions are discussed.

## EDL 719, Special Topics in Educational Leadership, 3 Units

This course will serve as a "contemporary issues" course for the EdD in Educational Leadership, providing an opportunity to focus in depth on issue(s) in the ever-changing field of public K-12 education, incorporating a fieldwork component to enhance integrated learning, drawing from themes of earlier classes in the program. It will take one of two forms: 1) traditional classroom-based course, with a lead faculty and special speakers who provide "real-time" expertise to the particular specialty topic; 2) travel course to look at K-12 educational issues at a state, national, or international level.

## EDL 722, Strategic Planning for Educational Systems, 3 Units

This course focuses on the theory and practice of strategic planning in education systems, introducing various approaches to designing and conducting strategic planning processes, including specific techniques for conducting environmental scans, SWOT analyses, strategic issue identification, and strategy formulation. This course includes an embedded fieldwork component.
**Prerequisite:** EDL 716

## EDL 723, Legal Issues and Crisis Management in Schools, 3 Units

This course is designed to prepare students to function as school leaders in the areas of legal issues and crisis management. During this course, students will be introduced to a number of critical legal issues in schools, including suspension and expulsion, manifestation determination, student records, school safety, and privacy, including internet privacy. Students will also explore issues related to school crisis, including crisis planning, crisis teams, crisis response, and district-level and school-level issues. Each student will critique several districts' crisis plans, and will develop a crisis plan. This course includes an embedded fieldwork component.

## EDL 724, Ethical Leadership in Education, 3 Units

Students examine ethical dilemmas of leadership within contemporary educational institutions and the context of the communities they serve. The role and function of integrity, justice, fairness, and courage in leadership are examined within public and nonpublic school settings. Ethical dilemmas encountered by students in their leadership roles are explored using case study research methodologies, and evaluated in terms of value claims, propositions, and beliefs of contemporary philosophies and a Christian perspective of truth and life. Personal ethics are studied in terms of integrity in pursuing one's own sense of destiny and "calling" in the leadership roles assumed.

## EDL 760, Dissertation Milestone: Proposal A - Nature of Inquiry and Chapter 1, 2 Units

This course offers students an opportunity to begin exploring key aspects of the research process: question formulation, literature search and review, research design, data collection and analysis, drawing conclusions, and identifying implications. Students are given the opportunity to enhance their skills in locating and evaluating the literature of the field, exploring scholarly writing and identifying possible dissertation topics. Upon successful completion of the course, students have an initial draft of the introduction (Chapter 1) of the proposal.

## EDL 761, Introduction to Educational Research, 2 Units

This course introduces quantitative and qualitative research designs. Students examine the role of theory and research, and their applications to practice in education. Statistical concepts, such as hypothesis testing, and basic descriptive and inferential statistics, are presented in relation to quantitative research designs. Students experience hands-on computer applications with SPSS software. Qualitative approaches to research are also explored, through reading and evaluating empirical research.

## EDL 762, Quantitative Inquiry in Education, 3 Units

This course introduces students to quantitative inquiry methods and applications of statistical procedures to practical educational research problems. Emphasis is placed on inferential and univariate statistics and various multivariate analysis techniques such as multiple regression, factorial ANOVA, multivariate ANOVA, and repeated measures. Students develop an understanding of the relationship between statistics and research design and learn to choose and apply the most appropriate statistical procedures in correlational and experimental studies.
**Prerequisite:** EDL 761

## EDL 767, Qualitative Inquiry in Education, 3 Units

This course introduces the perspectives, purposes, designs, analysis, interpretation, and reporting of qualitative research in the field of education through reading and discussion of exemplifying articles. Ethnography, phenomenology, narrative inquiry, case study, grounded theory, and qualitative evaluation studies are among the designs examined. The data collection methods of observation, interviewing, and document analysis are studied and practiced.
**Prerequisite:** EDL 761

## EDL 768, Methods of Data Collection and Analysis, 2 Units

The course addresses methods of data collection and analysis procedures for quantitative and qualitative research. Probability and non-probability samplings and purposive sampling, instrument designs will be discussed. Data analysis methods will be practiced.
**Prerequisite:** EDL 762, EDL 767

## EDL 769, Program Evaluation in Education: Assessment for Decision Making, 3 Units

This course introduces the skills and knowledge of the field of program evaluation, and their application to educational programs. In addition to understanding and identifying the issues and problems that threaten validity and reliability in program evaluations, students learn to be thoughtful consumers of evaluations and produce their own evaluation design. While theory guides the discussion of issues, emphasis is placed on application to good practice. Students produce a brief literature review, design and execute a program evaluation, and report the decision(s) based on the findings. This course includes an embedded fieldwork component.
**Prerequisite:** EDL 762, EDL 767

## EDL 770, Dissertation Milestone: Proposal B, 2 Units

Students in this course continue to formulate research concepts while conferring with their dissertation chairs to develop the initial chapters of their proposals.
**Prerequisite:** EDL 761

## EDL 771, Dissertation Milestone: Proposal C, 2 Units

This course facilitates the completion of the literature review for students' dissertation topics, building on academic writing skills and higher-level critical thinking skills required for educational research, including analysis, synthesis, and evaluation of existing scholarly literature. Upon successful completion of this course, students have an initial draft of the dissertation literature review (Chapter Two).
**Prerequisite:** EDL 770

## EDL 772, Dissertation Milestone: Finalizing the Proposal, 2 Units

This course serves as a checkpoint assessment of student readiness to complete the dissertation. Emphasis is on finalizing a well-designed dissertation proposal draft that establishes the conceptual and methodological basis for their research, with clear alignment between the research questions, scholarly literature, and methodology. A draft of the IRB application is also developed within this course.
**Prerequisite:** EDL 771

## EDL 773, Dissertation Milestone: Data Collection, 2 Units

Students in this course collect research data via tests, self-report measures, questionnaires, interviews, observations, documents, and/or audio-visual materials. Emphasis is on enhancing the quality and credibility of qualitative data, and building the validity and reliability of quantitative data. Upon successful completion, students will have collected the data that they proposed. This course can be repeated in the following semester if data collection is not completed.
**Prerequisite:** EDL 772

## EDL 774, Dissertation Milestone: Data Analysis, 2 Units

Students in this course engage in data analysis processes for their dissertation. Students work with their dissertation committee and meaningfully analyze the qualitative and quantitative data collected. Upon completion, students will have prepared and analyzed their collected data using appropriate measures and techniques.
**Prerequisite:** EDL 773

## EDL 776, Dissertation Milestone: Results, Discussion, and Conclusion, 2 Units

The purpose of this course is to guide students in providing an in-depth interpretation, analysis, and synthesis of the dissertation results. During this course students will work with their committee members to explore their dissertation findings in light of the study's research questions, literature review, and conceptual framework. Emphasis will be placed on providing students an opportunity to reflect thoroughly on the study's findings and the practical and theoretical implications. Upon completion, students will have developed their Findings (Chapter 4), Discussion of Findings and Conclusion (Chapter 5) toward completion of the dissertation.
**Prerequisite:** EDL 774

## EDL 777, Dissertation, 2 Units

After completing all other program coursework requirements, Ed.D. students work with their dissertation committee in conducting a doctoral-level research project in educational leadership. Students enroll for two units of dissertation credit and must reenroll each semester until the dissertation is completed and successfully defended, APA edits are completed, and the dissertation is submitted for library review and publication.
**Prerequisite:** EDL 776

## EDL 795, Special Topics for the Educational Leadership Dissertation, 1-3 Units

In this course, a topic of current interest to students in their dissertation is examined in depth. Students collect, analyze and evaluate data to reach and express a position, enhance personal or professional development and/or to develop a particular project.

# EdD in Educational Leadership

**For more information: (626) 815-5374**

Azusa Pacific University's EdD in Educational Leadership (https://www.apu.edu/education/programs/doctor-in-educational-leadership/) is a practitioner-based program that places emphasis on applied research that results in direct, positive change in K-12 settings. The program prepares scholar-practitioners who are equipped with the knowledge and skills to make a transformative impact on schools and districts and the lives of students in them.

## Mission Statement

The EdD in Educational Leadership program at APU, a Christ-centered university, enables culturally aware K-12 leaders to implement research-based practices as change agents.

## Program Requirements

Students must complete 55 units of coursework, and successfully complete the written dissertation, oral defense, and required corrections as well as a public dissertation presentation.

## Coursework Requirements

| Code | Title | Units |
| --- | --- | --- |
| **Required Courses** | | |
| **Orientation** | | |
| EDL 702 | Proseminar in Educational Leadership | 1 |
| **Leadership Content** | | |
| EDL 710 | Developing the Leader Within | 2 |
| EDL 712 | Leading Change in Education: Theory to Practice | 3 |
| EDL 713 | Diversity and Equity in Education | 3 |
| EDL 716 | Educational Policy: Analysis, Praxis, and Reform | 3 |
| EDL 718 | Group Dynamics and Conflict | 2 |
| EDL 719 | Special Topics in Educational Leadership | 3 |
| EDL 722 | Strategic Planning for Educational Systems | 3 |
| EDL 723 | Legal Issues and Crisis Management in Schools | 3 |
| EDL 724 | Ethical Leadership in Education | 3 |
| **Research Methodology and Design** | | |
| EDL 761 | Introduction to Educational Research | 2 |
| EDL 762 | Quantitative Inquiry in Education | 3 |
| EDL 767 | Qualitative Inquiry in Education | 3 |
| EDL 768 | Methods of Data Collection and Analysis | 2 |
| EDL 769 | Program Evaluation in Education: Assessment for Decision Making | 3 |
| **Dissertation Milestones** | | |
| EDL 760 | Dissertation Milestone: Proposal A - Nature of Inquiry and Chapter 1 | 2 |
| EDL 770 | Dissertation Milestone: Proposal B | 2 |
| EDL 771 | Dissertation Milestone: Proposal C | 2 |
| EDL 772 | Dissertation Milestone: Finalizing the Proposal | 2 |
| EDL 773 | Dissertation Milestone: Data Collection | 2 |
| EDL 774 | Dissertation Milestone: Data Analysis | 2 |
| EDL 776 | Dissertation Milestone: Results, Discussion, and Conclusion | 2 |
| EDL 777 | Dissertation | 2 |
| **Total Units** | | **55** |

## Grading and Grade-Point Average (GPA)

Throughout higher education, and particularly at the doctoral level, commitment to learning should outweigh the pursuit of grades. Nonetheless, grading and grade point average continue to play a crucial role in students' studies. For doctoral students, the grade of *B-* is considered minimally acceptable. Courses graded lower than *B-* are not applied toward doctoral degree requirements and must be repeated.

A doctoral student must maintain a minimum cumulative GPA of 3.0 in 700-level courses and receive no grade lower than *B-* in 700-level courses. Courses graded lower than *B-* are not applied toward doctoral degree requirements and must be repeated. A cumulative GPA lower than 3.0 or the receipt of a grade lower than *B-* in 700-level courses will result in the student being placed on probation. A doctoral student who is on probation for more than a total of two terms throughout his or her doctoral study may be dismissed from the program. Probation and dismissal actions are posted on a student's transcript.

A doctoral student whose grade point average falls in the range of 3.0-3.2 is required to meet with his/her advisor to identify academic skills that may need strengthening and to take appropriate action.

# Other Degree Requirements

## Advancement to Candidacy

Following approval of the dissertation proposal by the dissertation committee, doctoral students are advanced to candidacy status.

## Dissertation

Doctoral students are required to complete a dissertation, the standards and procedures for which are defined by program faculty in keeping with the APU Style and Format Handbook for Dissertation and Thesis Publications. To be approved for a dissertation defense date, students must be enrolled in EDL 777 and have the approval of their dissertation committee. Continuous enrollment in EDL 777 is required until the dissertation is successfully defended and submitted to an APU external reader.

After candidates successfully defend their dissertation in a meeting with their faculty committee, they must complete required corrections and submit the approved changes to an APU external reader. The final step of the dissertation requirement is to participate in a scheduled public presentation of the research to the department.

Doctoral students who have completed all program requirements; successfully defended, published, and presented their dissertation; and fulfilled all obligations of the university will have their doctoral degree posted and will be entitled to use the term "doctor."

## Continuous Progress

In order to receive credit for EDL 772, EDL 773, EDL 774, EDL 776, and EDL 777, doctoral candidates must maintain active student status and make continuous progress toward completion of the dissertation. Continuous progress of doctoral candidates is assessed each term on all of the following expectations:

- maintaining regular contact with the dissertation chair;
- conducting research and/or submitting high-quality drafts in a timely manner, consistent with the timeline established with the dissertation committee.

Candidates who require additional time to complete the dissertation after other coursework is complete must maintain continuous enrollment in EDL 777. Those who receive *NC* for EDL 777 will need to submit a report on their progress in candidacy and will enter into a probationary period for one term. Candidates who fail to maintain progress after a probationary period may be recommended for termination from the program.

## Leaves of Absence

Students in good standing and making satisfactory progress toward their degrees who must interrupt their studies for a compelling reason (e.g., illness, study away, family conditions, or crises) may petition for a leave of absence for a stated period of time not to exceed two years. Requests for a leave must be in writing and state the reasons for the leave and the term in which the student will reenroll. Leaves of absence must be approved by the chair of the Department of Educational Leadership and the dean of the School of Education in advance of the term for which the leave is requested.

Students who fail to return to enrolled status at the end of an approved period of leave, or after three consecutive terms of nonenrollment (e.g., fall, spring, and summer semesters), will be considered no longer in pursuit of an advanced degree and must reapply for admission. If readmitted at a later date, students must meet any new program requirements.

## Degree Completion Time

Doctoral students are permitted six years from the date of initial enrollment to complete all requirements for the EdD degree. Extensions beyond the six-year limit may be granted at the discretion of the department chair and the dean of the School of Education. Students needing an extension due to unusual circumstances must make their request in writing, stating the reason(s) for the extension, a timetable for completion of requirements, and the expected date of degree completion.

# Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

## Application Deadlines

Completed applications with all supporting documentation must be received by one of the following deadlines:

- Priority deadline: May 1 (apply by this date to receive full consideration for scholarships)
- Regular deadline: June 1

## Interview

Upon invitation, doctoral applicants interview with at least two members of the doctoral faculty. The purpose of the interview is to meet the applicant, discuss education and career goals, evaluate the match of the program to the applicant, and determine the applicant's potential for success in the program.

## Admission Decisions

Program applicants must meet department and university criteria for admission. The department reserves the right to offer conditional admission to students who do not meet all the admission criteria. In such cases, the requirements necessary for full admission and the time limit for completing them will be stated in writing. Failure to meet these requirements may result in dismissal from the program.

## Computer Requirement

Students must own or have ready access to a computer during their tenure in the program. Microsoft Office and the SPSS statistical software package are required of students in their research courses throughout the program. APU's Information Technology may offer the required software free of charge (https://support.apu.edu/hc/en-us/articles/221901528-Downloads-Free-University-Software/) to active students. The Campus Store (https://bookstore.apu.edu) also makes arrangements to enable students to purchase computers and software at economical rates on convenient terms. Often, the required purchase of the laptop and software can be budgeted into student loans. For more information, contact the Student Financial Services office (https://www.apu.edu/student-services/finances/) at (626) 815-2020.

## Study Load

The three-year, dissertation-embedded EdD program is a full-time commitment requiring continuous full-time enrollment. To maintain the appropriate course sequence, doctoral students must enroll in all courses designated for each academic term. Requests to enroll for fewer units than designated are approved only in specific circumstances. Any leave of absence will be in a one-year increment and will require stopping out until the following year, when the next course sequence is offered.

## Residence Requirement

Doctoral students must meet a residency requirement by completing a minimum of 41 units toward the doctoral degree at APU.

## Transfer Units

Doctoral students may transfer up to 10 units of coursework with a grade of *B* or higher from another regionally accredited doctoral program. Official transcripts and syllabi must be submitted to the program director, who will determine the courses that successfully transfer.

## Schedule

The program requires a full-time, year-round commitment (fall, spring, and summer). All courses are offered in a hybrid format, with in-person class sessions held six Saturdays per 16-week term in both fall and spring, and four Saturdays during the 8-week summer term. Additional instruction is provided online. Check with the program office to determine meeting dates and times.

## Advisement

During the first semester of the doctoral program, students enroll in a 1-unit proseminar course that serves as an orientation and initial advising into the program. The proseminar has three primary goals: 1) to orient students to the intellectual life of doctoral study; 2) to provide opportunities for students to become familiar with steps and procedures required for successful completion of the doctoral program, including a plan and timeline for accomplishing major academic and professional milestones; and 3) to introduce students to the technology, tools, and academic resources needed for doctoral study, including use of the Azusa Pacific University library catalog and databases. All proseminar activities are designed to help students develop connections with each other and with the faculty to create a community of learners and scholars.

Upon successful completion of the first semester, and once a student begins dissertation work, the dissertation chair serves as the primary academic advisor for the remainder of the student's time in the program.

## Financial Aid

Federal Stafford loans and personal bank loans are available to all eligible graduate students through the student financial services office in the Student Services Center (https://www.apu.edu/student-services/). Students are advised to contact that office early in the admissions process. The School of Education offers multiple scholarships (https://www.apu.edu/education/scholarships/), including the following opportunities exclusively for doctoral students:

### Lillian B. Wehmeyer Scholarship Endowment

This scholarship is in memory of the late Lillian B. Wehmeyer, PhD, former faculty in the School of Education doctoral program, who lived with a passion for assisting doctoral students in successful research. The Lillian B. Wehmeyer Scholarship (https://www.apu.edu/graduateprofessionalcenter/sfs/financialaid/types/scholarships/education/#lillianbwehmeyerscholarship) assists doctoral program students in the School of Education who demonstrate satisfactory academic progress, commitment to service, and financial need.

### EdD Program Scholarship

Azusa Pacific University offers competitive scholarship support to newly admitted doctoral students who demonstrate outstanding leadership qualities or leadership potential in K-12 education and who are committed to serving under-resourced schools and districts. Priority is given to current practitioners who are leading their schools and districts toward improved performance. Admitted applicants are considered for these awards based on an overall assessment of their admission application. No separate application required. This scholarship is renewable and may be received for a total of three years. Continuous enrollment, good academic standing (minimum 3.5 GPA), and employment in K-12 education are required for annual award renewal.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Values-Driven Leaders: Embody leadership traits and practices in line with Christian values; Exemplify a commitment to social justice and equity; and maintain a cycle of deep reflection and self-development.
2. Strategic Facilitators of Change: Lead impactful change across all levels of educational systems; Apply sound practices of organizational management and system development; Read and assess organizational culture; Develop masterful facilitation skills; Engage in coaching and developing others.
3. Dynamic Communicators: Craft messages that are adapted to intended purposes and audiences; Exhibit high executive skills; Demonstrate facility with a variety of communicative tools and modalities.
4. Creative, Adaptive, and Intuitive Thinkers: Demonstrate political awareness and emotional intelligence; Utilize introspection, critical thinking, and an ethical lens in problem solving; Exhibit curiosity, humility, and resilience.
5. Scholarly Practitioners: Utilize evidence-based practices; Design and complete significant research; Apply theory and empirical data to decision-making in appropriate, contextualized ways.

# Department of School Counseling and School Psychology

The Department of School Counseling and School Psychology (https://www.apu.edu/education/counselingpsych/) offers adult learners academic and practical preparation for careers in school counseling and school psychology. The department provides coursework and supervises fieldwork leading to the Master of Arts in Education: Educational Counseling; the Master of Arts in Education: Educational and Clinical Counseling; the Educational Specialist in School Psychology with Embedded Master of Arts in Education: Educational Psychology; the Educational Specialist in School Psychology: Clinical and Educationally Related Mental Health Counseling with Embedded Master of Arts in Education: Educational Psychology; and the Educational Specialist in School Psychology: Applied Behavior Analysis with Embedded Master of Arts in Education: Educational Psychology. In addition, the department offers a credential-only program for those who hold a master's degree and PPS Credential in School Counseling and wish to seek an additional PPS Credential in School Psychology, or vice versa.

## Student Dispositional Expectations

All candidates in the Department of School Counseling and School Psychology will be evaluated on their professional attitudes, values, and beliefs demonstrated through both verbal and nonverbal behaviors as educators interact with students, families, colleagues, and communities. These positive behaviors support student learning and development. All candidates will be evaluated by faculty with regard to student dispositions throughout their program; any candidate who does not meet minimal expectations with regard to student dispositions will be required to meet with the department chair or the chair's designee to develop an improvement plan. Students who fail to meet the remedial dispositional requirements will be evaluated for fitness to practice in the profession.

## Programs

## School Counseling

- Master of Arts in Education: Educational Counseling with Embedded Pupil Personnel Services Credential in School Counseling (p. 499)
- Master of Arts in Education: Educational and Clinical Counseling with Embedded Pupil Personnel Services Credential in School Counseling (p. 497)
- PPS: School Counseling Credential (p. 501)

## School Psychology

- Educational Specialist in School Psychology with Embedded Master of Arts in Education: Educational Psychology and Pupil Personnel Services Credential in School Psychology (p. 486)
- Educational Specialist in School Psychology: Clinical and Educationally Related Mental Health Counseling with Embedded Master of Arts in Education: Educational Psychology and Pupil Personnel Services Credential in School Psychology (p. 494)
- Educational Specialist in School Psychology: Applied Behavior Analysis with Embedded Master of Arts in Education: Educational Psychology and Pupil Personnel Services Credential in School Psychology (p. 490)
- PPS: School Psychology Credential (p. 503)

## Courses

### ABA 500, ABA Fieldwork I, 1 Unit

This course is a companion to the first four courses in the seven-course sequence that fulfills the coursework requirement to become a Board Certified Behavior Analyst (BCBA). This course includes 200 hours of supervised fieldwork. Students must find a mentor willing to supervise their fieldwork hours. While a BCBA mentor is preferred, for the purpose of this class students may also be supervised by a behavior intervention case manager (BICM), behavior specialist, or a school psychologist with at least five years of experience of designing behavior intervention plans (BIPs) and/or behavior support plans (BSPs) and completing functional behavioral assessments (FBAs).
**Prerequisite:** ABA 503

### ABA 503, Theory and Philosophy of Behavior Analysis, 3 Units

This is the third of seven courses that fulfill the coursework requirement to become a Board Certified Behavior Analyst (BCBA). This course focuses on the philosophical underpinnings of behaviorism and examines the theoretical foundations of the science of behavior analysis. Students examine the theoretical assumptions associated with behavior analysis as a philosophy of science and relate them to current applications.
**Prerequisite:** ABA 505

### ABA 504, Single-Case Designs: Measurement and Experimental Evaluation of Behavior, 3 Units

This is the second of seven courses that fulfill the coursework requirement to become a Board Certified Behavior Analyst (BCBA). Students are introduced to single-subject design and learn how to collect, display, analyze, and interpret data using continuous and discontinuous measures.
**Prerequisite:** ABA 503 (may be taken concurrently)

### ABA 505, Foundations In Applied Behavior Analysis, 3 Units

This is the first of seven courses that fulfill the coursework requirement to become a Board Certified Behavior Analyst (BCBA). This course focuses on concepts and principles from the field of applied behavior analysis. Topics include characteristics of ABA, basic principles of behavior, positive and negative reinforcement, positive and negative punishment, extinction, schedules of reinforcement, functions of behavior, motivating operations, stimulus control, and verbal behavior.

### ABA 510, ABA Fieldwork II, 1 Unit

This is a companion to the last three courses in the seven-course sequence that fulfills the coursework requirement to become a Board Certified Behavior Analyst (BCBA), and includes 200 hours of supervised fieldwork. Students must find a mentor willing to supervise their fieldwork hours; while a BCBA mentor is preferred, for the purpose of this course students may also be supervised by a behavior intervention case manager (BICM), behavior specialist, or a school psychologist with at least five years of experience designing behavior intervention plans (BIPs) and/or behavior support plans (BSPs) and completing functional behavioral assessments (FBAs).
**Prerequisite:** ABA 500

### ABA 514, Functional Behavior Assessment in Applied Settings, 3 Units

This is the fifth of seven courses that fulfill the coursework requirement to become a Board Certified Behavior Analyst (BCBA). This course focuses on the functional behavior assessment process, which includes descriptive assessment (review of records, interview, observation, interpretation), functional analysis, and developing intervention plans.
**Prerequisite:** ABA 503, ABA 504, ABA 505, ABA 515

## ABA 515, Behavior Intervention, 3 Units

This is the fourth of seven courses that fulfill the coursework requirement to become a Board Certified Behavior Analyst (BCBA). This course focuses on the identification, selection, and implementation of the procedures, systems, and considerations of behavior change methods from the perspective of applied behavior analysis.
**Prerequisite:** ABA 503, ABA 504, and ABA 505 (ABA 503 may be taken concurrently)

## ABA 524, Ethics in Applied Behavior Analysis, 3 Units

This is the last of seven courses that fulfill the coursework requirement to become a Board Certified Behavior Analyst (BCBA). This course focuses on ethical considerations inherent to the field of applied behavior analysis and covers the professional and ethical compliance code for behavior analysts.

## ABA 534, Organizational Behavior Management, 3 Units

This is the sixth of seven courses that fulfill the coursework requirement to become a Board Certified Behavior Analyst (BCBA). This course focuses on using data-informed procedures for personnel management and supervision. Students gain knowledge and expertise in approaches to staff training, client outcomes, and personnel management that utilize organizational behavior management (OBM) techniques grounded in applied behavior analysis.
**Prerequisite:** ABA 503, ABA 504, ABA 505, ABA 515, ABA 514 (ABA 514 may be taken concurrently)

## EDCO 528, Community, Family, and School Collaboration, 3 Units

Students build awareness of comprehensive models for forming partnerships or collaborations between schools/districts and community stakeholders to strengthen school improvement and reform efforts. The course investigates the importance of parent and community involvement in children's education from birth through high school, including an overview of exemplary parent involvement programs; resources for family involvement activities and programs; knowledge of existing and possible partnerships between schools/districts and public/private community representatives including mental health, government, advocacy and law enforcement agencies; and knowledge of district/school programs that support student achievement through academics and mental health to support school/community collaborations.

## EDCO 533, Counseling Theories and Techniques, 3 Units

Students in this course examine the varied counseling theories and techniques needed by school counselors and mental health counselors in a variety of counseling roles and functions. The focus is on exploring counseling theories to assist in selection of appropriate counseling interventions, studying the models of counseling consistent with current professional research and practice, and the development of a personal model of counseling. Each student must demonstrate knowledge of how school and mental health counseling programs and services promote client development, learning, and achievement in diverse populations within the context of professional ethics. Concepts, attitudes, and values of the counselor that most influence the counseling relationship and outcome are explored. A holistic, ecosystemic model for viewing counseling issues, the community, and the understanding of family processes is studied, with a focus on acquiring knowledge and practicing skills related to individual and group counseling within a multicultural context.

## EDCO 534, Assessment, Measurements, and Testing of Individuals, 3 Units

Students in this course learn to understand and interpret measurement techniques and state and national assessments that are used in public schools at all grade levels. Course content includes the role of measurement and assessment in pupil personnel services, test validity and reliability, portfolios, assessment procedures, special education testing, interpreting test data, and elementary statistics. Emphasis is on helping school counselors and other educators use measurement and assessment data to promote positive programs and outcomes for students.

## EDCO 535, Professionalism, Ethics, and Law, 3 Units

This course provides an ethical and legal background for use by school counselors and school psychologists as they assume their duties in the public school system. Candidates gain familiarity with state and federal provisions and school district policies pertaining to rights and responsibilities related to schooling, as well as professional ethics. The implications and legal applications of due process and the legal requirements that determine and protect pupil rights are emphasized.

## EDCO 545, Positive Behavior Supports and Classroom Intervention, 3 Units

This course focuses on multi-tiered systems of support in the areas of behavior and social emotional skills. Students learn about positive behavioral interventions and supports at the various levels, including the assessment of behavior and the development and implementation of behavior intervention plans. Consultation and collaboration within the educational environment is emphasized.

## EDCO 549, Career Development Theories and Techniques, 3 Units

This course orients students to occupational and career education trends, theories, and practices that ensure that all pupils receive equitable guidance that transcends cultural and gender stereotypes and is reflective of national standards. This includes computer-based technology, data management systems, and data-based research that supports career development services. Course material prepares students for postsecondary planning, enabling them to help pupils meet college entrance criteria, navigate admissions procedures, and gain access to financial aid information.

## EDCO 550, Crisis/Trauma Response and Interventions, 3 Units

Culturally appropriate crisis theory and counseling related techniques and methods for developing and maintaining a peaceable school environment, and for the prevention, intervention and postvention of such factors in school such as crisis, trauma, violence, gang activity, bullying, conflict, depression, suicide, alcohol and substance abuse, and sexual harassment will be examined within an ecosystemic context. A multidisciplinary response to crises, emergencies, or disasters will be explored while examining the cognitive, affective, behavioral, and neurological effects associated with trauma, brief, intermediate and long-term approaches, assessment strategies for individuals in crisis.

## EDCO 555, Group Counseling Skills, 3 Units

This course provides a combination of history, theory, techniques and applications pertaining to the group counseling processes. Training requirements include the practice and demonstration of group techniques. Students observe, participate, and conduct a personal growth group composed of class members and observed by an experienced group supervisor.

## EDCO 557, Human Growth, Development, and Learning, 3 Units

Taking an ecosystemic perspective, this course exposes the student to the transactions between biological, psychosocial, cultural, and environmental factors affecting human growth, development, and learning from conception through adolescence. The focus is on the student's achievement of the integrated, holistic, and multicultural understanding, and emphasizes the application of theory to real life situations and problems.

## EDCO 560, School Counseling Fieldwork I, 4 Units

This course provides students with firsthand, supervised school counseling experience. Each student is involved in on-site experiences that include application of theory to counseling and consultation, and practice counseling with individuals, groups, families, children, adolescents, and special education populations. Students must complete 400 fieldwork hours to earn credit.
**Prerequisite:** EDCO 533, EDCO 535, EDCO 550, EDCO 557, EDCO 575

## EDCO 561, School Counseling Fieldwork II, 4 Units

Students in this course gain supervised school counseling experience. Each student is involved in on-site experiences that include applying theory to counseling and consultation, and practice counseling with individuals, groups, families, children, adolescents, and special education populations. Students must complete 400 fieldwork hours to earn credit.
**Prerequisite:** EDCO 533, EDCO 535, EDCO 550, EDCO 557, EDCO 560, and EDCO 575

## EDCO 564, School Counseling Fieldwork I, 3 Units

This course provides each student with firsthand, supervised pupil personnel experience. Each student is involved in on-site experiences that include application of theory to counseling and consultation practice with individuals, groups, families, children, adolescents, and exceptional and nonexceptional pupils.
**Prerequisite:** EDCO 528, EDCO 533, EDCO 535, EDCO 545, EDCO 550, EDCO 555, EDCO 575, EDCO 592

## EDCO 568, School Counseling Fieldwork II, 3 Units

This course provides each student with firsthand, supervised pupil personnel experience. Each student is involved in on-site experiences that include application of theory to counseling and consultation practice with individuals, groups, families, children, adolescents, and exceptional and nonexceptional pupils.
**Prerequisite:** EDCO 528, EDCO 533, EDCO 535, EDCO 545, EDCO 550, EDCO 555, EDCO 575, EDCO 592

## EDCO 571, Introduction to Clinical Practice: Basic Skills, 3 Units

This course introduces the student to basic skills in attending behavior, clinical interviewing and clinical intervention. It is designed to stimulate self-awareness as related to the therapeutic relationship, as well as the integration of spirituality and the interpersonal process. Coursework includes reading, observation, role-play and student audio/videotaped clinical practice explores differential diagnosis, the use of current diagnostic tools, such as the DSM 5, and the treatment modalities and placement criteria within the continuum of care.
**Prerequisite:** EDCO 575

## EDCO 572, Psychobiology and Psychopharmacology, 3 Units

This course presents the fundamentals of psychopharmacology, including the biochemical foundation of human behavior, the use of psychotropic medication in the treatment of specific mental disorders, and effective case management. It features an introduction to basic neurobiology, the historical underpinnings of field, the effects of psychotropic medication, specific drug classes and their use in relation to DSM-5, diagnoses, and special consideration for specific populations (e.g., individuals with a history a substance abuse, children). Students learn how to monitor their clients' use of psychotropic medication, when to make a referral for psychiatric evaluation, and how to work successfully with other mental health professionals in the delivery of ethical, effective counseling services.

## EDCO 573, Addictions, Assessment, and Interventions, 3 Units

This course provides an introduction to the field of addictions and compulsive behaviors, including substance abuse and substance abuse treatment. The course emphasizes assessment and intervention skills, processes, evidence-based research relevant to treatment and available resources. The nature and scope of addictions are defined, DSM-5 criteria for disorders are reviewed, and unique issues relative to faith, children/adolescents, persons with disabilities and other issues of diversity are considered.

## EDCO 574, Introduction to Clinical Practice: Advanced Skills, 3 Units

This course is designed to further develop the psychotherapeutic tools of students prior to their entry into a clinical placement. Students focus on developing proficiency in the core interviewing qualities, deriving goals for a clinical session, and in making contracts with clients for change. Coursework includes reading, observation, role-play, and student videotaped clinical practice. Coursework also explores differential diagnosis, the use of current diagnostic tools, application of the DSM 5, and the treatment modalities and placement criteria within the continuum of care. Additionally, students are encouraged to begin developing a theoretical and conceptual understanding of cases, and training to work with diverse populations. Students are also encouraged to address issues regarding the integration of their faith with the practice of psychotherapy. These goals are addressed through experiential learning, lecture, readings, discussion, and reflection.
**Prerequisite:** EDCO 571

## EDCO 575, Clinical Practica, 3 Units

This course is designed to provide candidates with an in-the-field counseling experience that provides development of counseling skills and application of theoretical concepts in an educational clinical setting to enhance self-confidence as practicing professional counselors; and includes providing educational, personal, or career counseling, as well as shadowing an experienced educational counselor. This course requires candidates verify 100 practicum hours under supervision from faculty and site supervisors. Special topics of discussion will also include Human Sexuality, Aging and long-term care, child abuse assessment & reporting, spousal or partner abuse.
**Prerequisite:** EDCO 533

## EDCO 579, Sociocultural Competence, 3 Units

School counselors require an awareness of, and sensitivity to, the social and cultural diversity of the various ethnic groups represented in the districts and communities in which they serve. Everyday issues from levels of family-school involvement to communication to body language can take on new meaning when cultural origins are considered. This course helps students develop a multicultural perspective as they develop awareness of their own cultures, the nuances of other cultures, and counseling considerations and perspectives when working with individuals from diverse social and cultural backgrounds.

## EDCO 580, School Counseling Internship I, 4 Units

This course provides students with firsthand, supervised school counseling experience. Each student is involved in on-site experiences that include application of theory to counseling and consultation, and practice counseling with individuals, groups, families, children, adolescents, and special education populations. Students must complete 400 internship hours to earn credit.
**Prerequisite:** EDCO 533, EDCO 535, EDCO 550, EDCO 557, EDCO 575

## EDCO 581, School Counseling Internship II, 4 Units

Students in this course gain supervised school counseling experience. Each student is involved in on-site experiences that include applying theory to counseling and consultation, and practice counseling with individuals, groups, families, children, adolescents, and special education populations. Students must complete 400 internship hours to earn credit.
**Prerequisite:** EDCO 533, EDCO 535, EDCO 550, EDCO 557, EDCO 575, and EDCO 580

## EDCO 587, School Counseling Professionalism, 3 Units

This course is an orientation to the concepts and procedures that define and encompass pupil personnel management systems, including the ethics that guide the coordination and supervision of comprehensive counseling and guidance in multicultural school settings. Standards of professionalism that support successful leadership are incorporated into the instruction.

## EDCO 592, Foundations in Research, 3 Units

Students learn to assess, evaluate and apply information resources in preparing a literature review pertinent to a controversial topic in education. They employ database search strategies to identify empirical articles pertinent to the assigned topic. They learn to succinctly summarize articles and discern trends in the professional literature.

## EDCO 593, Historical Development of School Counseling and School Psychology, 3 Units

This course provides an historical overview of the professions of school psychology and counseling, and their philosophical and practical contributions to the field of education.

## EDCO 594, School Counseling Internship 1, 3 Units

(300 hours) Students enrolled in this fieldwork course are under a paid internship with their school district. In this course students will receive exposure to individual differences, involvement with testing and case studies, participation in parent conferences and IEP/E and P meetings, and provision of counseling and/or consultation as appropriate to students, staff, and parents.

## EDCO 595, School Counseling Internship 2, 3 Units

(300 hours) Students enrolled in this fieldwork course are under a paid internship with their school district. This course provides each student with firsthand, supervised pupil personnel experience. Each student is involved in on-site experiences that include application of theory to counseling and consultation practice with individuals, groups, families, children, adolescents, and exceptional and nonexceptional pupils.

## EDCO 599, Readings in Educational Counseling, 1-3 Units

Consists of a program of study concentrating on assigned readings, discussions, field experiences, and/or writing arranged between, and designed by, a student and a full-time professor. An independent study fee is assessed for each enrollment in this class.

## EDPY 528, Community, Family, and School Collaboration, 3 Units

Students build awareness of comprehensive models for forming partnerships or collaborations between schools/districts and community stakeholders to strengthen school improvement and reform efforts. The course investigates the importance of parent and community involvement in children's education from birth through high school, including an overview of exemplary parent involvement programs; resources for family involvement activities and programs; knowledge of existing and possible partnerships between schools/districts and public/private community representatives including mental health, government, advocacy and law enforcement agencies; and knowledge of district/school programs that support student achievement through academics and mental health to support school/community collaborations.

## EDPY 533, Counseling Theories and Techniques, 3 Units

Students in this course examine the varied counseling theories and techniques needed by school counselors and mental health counselors in a variety of counseling roles and functions. The focus is on exploring counseling theories to assist in selection of appropriate counseling interventions, studying the models of counseling consistent with current professional research and practice, and the development of a personal model of counseling. Each student must demonstrate knowledge of how school and mental health counseling programs and services promote client development, learning, and achievement in diverse populations within the context of professional ethics. Concepts, attitudes, and values of the counselor that most influence the counseling relationship and outcome are explored. A holistic, ecosystemic model for viewing counseling issues, the community, and the understanding of family processes is studied, with a focus on acquiring knowledge and practicing skills related to individual and group counseling within a multicultural context.

## EDPY 535, Professionalism, Ethics, and Law, 3 Units

This course provides an ethical and legal background for use by school counselors and school psychologists as they assume their duties in the public school system. Candidates gain familiarity with state and federal provisions and school district policies pertaining to rights and responsibilities related to schooling, as well as professional ethics. The implications and legal applications of due process and the legal requirements that determine and protect pupil rights are emphasized.

## EDPY 545, Positive Behavior Supports and Classroom Intervention, 3 Units

This course focuses on multi-tiered systems of support in the areas of behavior and social emotional skills. Students learn about positive behavioral interventions and supports at the various levels, including the assessment of behavior and the development and implementation of behavior intervention plans. Consultation and collaboration within the educational environment is emphasized.

## EDPY 549, Career Development Theories and Techniques, 3 Units

This course orients students to occupational and career education trends, theories, and practices that ensure that all pupils receive equitable guidance that transcends cultural and gender stereotypes and is reflective of national standards. This includes computer-based technology, data management systems, and data-based research that supports career development services. Course material prepares students for postsecondary planning, enabling them to help pupils meet college entrance criteria, navigate admissions procedures, and gain access to financial aid information.

## EDPY 550, Crisis/Trauma Response and Interventions, 3 Units

Culturally appropriate crisis theory and counseling related techniques and methods for developing and maintaining a peaceable school environment, and for the prevention, intervention and postvention of such factors in school such as crisis, trauma, violence, gang activity, bullying, conflict, depression, suicide, alcohol and substance abuse, and sexual harassment will be examined within an ecosystemic context. A multidisciplinary response to crises, emergencies, or disasters will be explored while examining the cognitive, affective, behavioral, and neurological effects associated with trauma, brief, intermediate and long-term approaches, assessment strategies for individuals in crisis.

## EDPY 555, Group Counseling Skills, 3 Units

This course provides a combination of history, theory, techniques and applications pertaining to the group counseling processes. Training requirements include the practice and demonstration of group techniques. Students observe, participate, and conduct a personal growth group composed of class members and observed by an experienced group supervisor.

## EDPY 556, Academic Assessment and Intervention, 2 Units

This course examines the foundations of curriculum-based measurement, evidence-based interventions, progress monitoring, and response to intervention. Students learn problem-solving skills in the identification and prevention of skill deficits, development of goals based on assessment data, progress monitoring, and determining the responsiveness to intervention.

## EDPY 557, Human Growth, Development, and Learning, 3 Units

Taking an ecosystemic perspective, this course exposes the student to the transactions between biological, psychosocial, cultural, and environmental factors affecting human growth, development, and learning from conception through adolescence. The focus is on the student's achievement of the integrated, holistic, and multicultural understanding, and emphasizes the application of theory to real life situations and problems.

## EDPY 571, Introduction to Clinical Practice: Basic Skills, 3 Units

This course introduces the student to basic skills in attending behavior, clinical interviewing and clinical intervention. It is designed to stimulate self-awareness as related to the therapeutic relationship, as well as the integration of spirituality and the interpersonal process. Coursework includes reading, observation, role-play and student audio/videotaped clinical practice explores differential diagnosis, the use of current diagnostic tools, such as the DSM 5, and the treatment modalities and placement criteria within the continuum of care.
**Prerequisite:** EDCO 575 or EDPY 575

## EDPY 572, Psychobiology and Psychopharmacology, 3 Units

This course presents the fundamentals of psychopharmacology, including the biochemical foundation of human behavior, the use of psychotropic medication in the treatment of specific mental disorders, and effective case management. It features an introduction to basic neurobiology, the historical underpinnings of field, the effects of psychotropic medication, specific drug classes and their use in relation to DSM-5, diagnoses, and special consideration for specific populations (e.g., individuals with a history a substance abuse, children). Students learn how to monitor their clients' use of psychotropic medication, when to make a referral for psychiatric evaluation, and how to work successfully with other mental health professionals in the delivery of ethical, effective counseling services.

## EDPY 573, Addictions, Assessment, and Interventions, 3 Units

This course provides an introduction to the field of addictions and compulsive behaviors, including substance abuse and substance abuse treatment. The course emphasizes assessment and intervention skills, processes, evidence-based research relevant to treatment and available resources. The nature and scope of addictions are defined, DSM-5 criteria for disorders are reviewed, and unique issues relative to faith, children/adolescents, persons with disabilities and other issues of diversity are considered.

## EDPY 574, Introduction to Clinical Practice: Advanced Skills, 3 Units

This course is designed to further develop the psychotherapeutic tools of students prior to their entry into a clinical placement. Students focus on developing proficiency in the core interviewing qualities, deriving goals for a clinical session, and in making contracts with clients for change. Coursework includes reading, observation, role-play, and student videotaped clinical practice. Coursework also explores differential diagnosis, the use of current diagnostic tools, application of the DSM 5, and the treatment modalities and placement criteria within the continuum of care. Additionally, students are encouraged to begin developing a theoretical and conceptual understanding of cases, and training to work with diverse populations. Students are also encouraged to address issues regarding the integration of their faith with the practice of psychotherapy. These goals are addressed through experiential learning, lecture, readings, discussion, and reflection.
**Prerequisite:** EDCO 571 or EDPY 571

## EDPY 575, Clinical Practica, 3 Units

This course is designed to provide candidates with an in-the-field counseling experience that provides development of counseling skills and application of theoretical concepts in an educational clinical setting to enhance self-confidence as practicing professional counselors; and includes providing educational, personal, or career counseling, as well as shadowing an experienced educational counselor. This course requires candidates verify 100 practicum hours under supervision from faculty and site supervisors. Special topics of discussion will also include Human Sexuality, Aging and long-term care, child abuse assessment & reporting, spousal or partner abuse.
**Prerequisite:** EDCO 533 or EDPY 533

## EDPY 592, Foundations in Research, 3 Units

Students learn to assess, evaluate and apply information resources in preparing a literature review pertinent to a controversial topic in education. They employ database search strategies to identify empirical articles pertinent to the assigned topic. They learn to succinctly summarize articles and discern trends in the professional literature.

## EDPY 593, Historical Development of School Counseling and School Psychology, 3 Units

This course provides an historical overview of the professions of school psychology and counseling, and their philosophical and practical contributions to the field of education.

## EDPY 599, Readings in Educational Psychology, 1-3 Units

Consists of a program of study concentrating on assigned readings, discussions, field experiences, and/or writing arranged between, and designed by, a student and a full-time professor. An independent study fee is assessed for each enrollment in this class.

## EDPY 624, Disabilities in Children, 2 Units

School psychologists are required to have an understanding of the spectrum of individual differences among potential students, particularly individuals with exceptional needs. This course introduces students to individuals defined by cultural differences, socioeconomic disadvantages, sexual biases, and developmental psychopathology, in order to achieve sensitivity to the needs and feelings of persons with differing experiences. Students are introduced to the legal requirements of educating learners in the least-restrictive environments, and consider current issues and future trends in special education.

## EDPY 633, Multicultural and Bilingual Assessment and Intervention, 3 Units

This course equips school psychologists with a multidimensional perspective of cultures, bilingualism, assessment, remediation, and interventions in the education system. Course material focuses on assessment models, psychoeducational assessment practices, and test bias. In addition, the social, psychological, ecological, linguistic, and cultural aspects of multicultural and bilingual students and families are explored. Upon successful completion of this course, students are able to demonstrate knowledge of multicultural and social factors, the ability to conduct a multicultural assessment, and the ability to translate assessment results into interventions appropriate for multicultural and linguistic minority students.

## EDPY 635A, Role and Function of a School Psychologist: Positive Behavior Supports, 1 Unit

This is a supervised practicum in data-driven behavioral consultation/collaboration and socialization/life skills. This course emphasizes Functional Behavior Assessments and Behavior Intervention Plans. Students meet with a university instructor for seminar discussion and group supervision each semester. A minimum of 150 hours is applied toward the total 450 required practicum hours.
**Corequisites:** EDPY 624 and EDPY 681

## EDPY 635B, Role and Function of a School Psychologist: Individual/Group Counseling, 1 Unit

This course offers a supervised practicum in the development of life skills, mental health, and home/school/community collaboration. Students gain supervised skills in individual/group counseling and meet with a university instructor for seminar discussion and group supervision each semester. A minimum of 150 hours is applied toward the total 450 required practicum hours.
**Corequisites:** EDPY 637 and EDPY 682

## EDPY 635C, Role and Function of a School Psychologist: Assessment, 1 Unit

This is a supervised practicum in data-based intervention development and collaboration. Students gain supervised experience in administration, scoring, and interpretation of cognitive/processing/social-emotional assessments. Students also conduct Curriculum-Based Assessments within a Response to Intervention (RTI) model. Students meet with a university instructor for seminar discussion and group supervision each semester. A minimum of 150 hours is applied toward the total 450 required practicum hours.
**Corequisites:** EDPY 633 and EDPY 683

## EDPY 636, Research and Evaluation in School Psychology, 3 Units

Students gain advanced skills in understanding statistical techniques and applying them to the analysis of educational research data related to school psychology. Strategies for conducting effective evaluations are considered as students plan an evaluation using appropriate statistical analysis as related to educational psychological research. Students gain additional experience in the use of computers for statistical analysis.

## EDPY 637, Child Psychopathology Assessment and Treatment, 3 Units

Students in this course learn a systematic approach to the description and assessment of, and planning for, children with learning and behavior problems. Emphasis is on emotional disturbances, including internalizing disorders and externalizing disorders, ADHD, and autism. Course material also includes the development of appropriate interventions from assessment data, use of technology, and the use of assessments for accountability.

## EDPY 655, School Psychology Internship I, 5 Units

Students in this course get on-site experience as school psychologists for special and regular education students, acquiring professional skills and knowledge. Such experience includes working with IDEA regulations and procedures, assessing and counseling exceptional students, consulting with teachers, parents, and community agencies, and supervising counseling services. Students also become skilled in conducting student assessment, writing reports, consulting with staff and parents, designing prevention, intervention, and postvention strategies, and completing progress evaluations. 600 hours.

## EDPY 656, School Psychology Internship II, 5 Units

With continued on-site supervision, field experience students become increasingly independent in planning, implementing, and reporting psychoeducational assessments of pupils. Students continue to gain experience collaborating with multidisciplinary colleagues as they participate in, and even initiate, the planning of prevention, intervention, and evaluation activities related to the responsibilities of a school psychologist. 600 hours.

## EDPY 681, Psychoeducational Assessment I, 3 Units

This is the first in a series of three courses equipping students for effective assessment of preschool children, school-age children, and adults. Students explore the multifaceted and culturally defined nature of human intelligence, research and theory regarding the development and measurement of human intellectual ability, and the construction, uses, and limitations of assessment tools and methods. Students complete this series of courses equipped with a wide range of techniques in the assessment of intelligence, processing abilities, adaptive behavior, social-emotional functioning, and achievement. Students gain experience in developing interventions and recommendations based on assessment data, and in communicating the results of assessments to diverse audiences.

### EDPY 682, Psychoeducational Assessment II, 3 Units

This is the second in a series of three courses equipping students for effective assessment of preschool children, school-age children, and adults. Students explore the multifaceted and culturally defined nature of human intelligence, research and theory regarding the development and measurement of human intellectual ability, and the construction, uses, and limitations of assessment tools and methods. Students complete this series of courses equipped with a wide range of techniques in the assessment of intelligence, processing abilities, adaptive behavior, social-emotional functioning, and achievement. Students gain experience in developing interventions and recommendations based on assessment data, and in communicating the results of assessments to diverse audiences.

### EDPY 683, Psychoeducational Assessment III, 3 Units

This is the third in a series of three courses equipping students for effective assessment of preschool children, school-age children, and adults. Students explore the multifaceted and culturally defined nature of human intelligence, research and theory regarding the development and measurement of human intellectual ability, and the construction, uses, and limitations of assessment tools and methods. Students complete this series of courses equipped with a wide range of techniques in the assessment of intelligence, processing abilities, adaptive behavior, social-emotional functioning, and achievement. Students gain experience in developing interventions and recommendations based on assessment data, and in communicating the results of assessments to diverse audiences.

### EDPY 690, Advanced Individual Research, 3 Units

In this course, the professor and students work closely to advance research into a form appropriate for presentation at a national conference or publication in a peer-reviewed journal. Examples of activities in this course include development of literature reviews, data collection, statistical analysis, manuscript editing and revising, presenting research at conferences, and submission for publication in scholarly journals.

### EDPY 695, School Psychology Fieldwork I, 5 Units

Students in this course get on-site experience as school psychologists for special and regular education students, acquiring professional skills and knowledge. Such experience includes working with IDEA regulations and procedures, assessing and counseling exceptional students, consulting with teachers, parents, and community agencies, and supervising counseling services. Students also become skilled in conducting student assessment, writing reports, consulting with staff and parents, designing prevention, intervention, and postvention strategies, and completing progress evaluations. 600 hours.

### EDPY 696, School Psychology Fieldwork II, 5 Units

With continued on-site supervision, field experience students become increasingly independent in planning, implementing, and reporting psychoeducational assessments of pupils. Students continue to gain experience collaborating with multidisciplinary colleagues as they participate in, and even initiate, the planning of prevention, intervention, and evaluation activities related to the responsibilities of a school psychologist. 600 hours.

### EDPY 697, Readings in School Psychology, 1 Unit

This course assists the student in research of current literature in the field of school psychology. Literature is one of the vehicles that bridges the gap between theory and practice. Thus, this intensive course in current professional literature allows the student to remain on the cutting edge of the profession.
**Prerequisite:** Completion of program requirements and approval of program director

# Educational Specialist (EdS) in School Psychology with Embedded MA in Education: Educational Psychology and Pupil Personnel Services Credential in School Psychology

**For more information: (626) 815-5026**

Azusa Pacific University's Educational Specialist (EdS) in School Psychology with embedded Master of Arts in Education (MAEd): Educational Psychology and Pupil Personnel Services Credential in School Psychology (https://www.apu.edu/education/programs/school-psychology-specialist-degree/) program equips school psychology candidates with distinctive and marketable skills and competencies. The school psychology program is approved with conditions by the National Association of School Psychologists (NASP) (https://www.nasponline.org/) and accredited by the National Council for Accreditation of Teacher Education (NCATE)—which is transitioning to the Council for the Accreditation of Educator Preparation (CAEP) (https://caepnet.org/)—and the California Commission on Teacher Credentialing (CTC) (https://www.ctc.ca.gov/). The two degrees are completed in three years and comprise 66 graduate semester units, 450 hours of practicum, and 1,200 hours of fieldwork/internship. Upon successful completion of this program, candidates can apply to become Nationally Certified School Psychologists (NCSPs).

# Program Structure

## Years 1 and 2 (MAEd)

Candidates complete a total of 55 units and 450 hours of practicum during the first two years of the program. Upon completion of all coursework, practicum hours, and the Graduate Research Project (GRP), the candidate is granted the Master of Arts in Education: Educational Psychology and may participate in commencement.

## Year 3 (Post-master's Year, EdS)

During the Spring II session of the second year and the post-master's year, candidates complete an additional 11 units of special focus coursework, including 10 units of fieldwork/internship (1,200 hours). Candidates applying for an internship credential may submit their application once a paid internship at a public school in the field of school psychology has been secured. Prior to starting fieldwork/internship, students are required to provide an updated TB clearance.

Upon successful completion of post-master's coursework and fieldwork/internship, and passing of the PRAXIS II (School Psychology) exam, the candidate is granted the Educational Specialist (EdS) degree and may file for the PPS Credential in School Psychology. Once these requirements are fulfilled, the student may apply to become a Nationally Certified School Psychologist (NCSP) through the National Association of School Psychologists (NASP); students are advised to review specific NCSP requirements online (https://www.nasponline.org/standards-and-certification/national-certification/ncsp-eligibility/).

## Additional Admission Requirements for School Psychology Applicants

1. After all admission materials have been submitted to the Office of Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/admissions/), the school psychology program reviews the file and notifies the applicant to schedule an admission interview with the department. The prospective candidate should come prepared to be interviewed by program faculty. The purpose of the interview is to meet the candidate, discuss career goals, evaluate match of the program to the student, and make an initial assessment of the applicant's potential for success as a school psychologist.
2. All candidates who are admitted to the program are required to submit a copy of their California Certificate of Clearance (COC) or another form of clearance, such as a valid and current credential for teaching or counseling and/or nursing. The law requires Azusa Pacific University to keep these records on file while candidates are in attendance at APU.
3. Candidates must verify successful completion of the California Basic Skills Requirement (https://www.ctc.ca.gov/credentials/leaflets/basic-skills-requirement-(cl-667/) via one of the options approved by the California Commission on Teacher Credentialing (CTC) (https://www.ctc.ca.gov/) prior to admission.

# Course Requirements

## Scope and Sequence

Students take courses in the following sequence (students are required to seek academic advisement prior to initial registration):

| Code | Title | Units |
|---|---|---|
| **Year 1** | | |
| **Coursework for Master of Arts in Education: Educational Psychology** | | |
| **Term 1** | | |
| EDPY 533 | Counseling Theories and Techniques [1] | 3 |
| EDPY 557 | Human Growth, Development, and Learning [1] | 3 |
| EDPY 624 | Disabilities in Children [1] | 2 |
| EDPY 535 | Professionalism, Ethics, and Law | 3 |
| **Term 2** | | |
| EDPY 545 | Positive Behavior Supports and Classroom Intervention [1] | 3 |
| EDPY 572 | Psychobiology and Psychopharmacology | 3 |
| EDPY 556 | Academic Assessment and Intervention [1] | 2 |
| EDPY 592 | Foundations in Research [1] | 3 |
| **Term 3** | | |
| EDPY 593 | Historical Development of School Counseling and School Psychology | 3 |
| EDPY 528 | Community, Family, and School Collaboration [1] | 3 |
| Students will have located a practicum site. | | |
| **Year 2** | | |
| **Term 1** | | |
| EDPY 681 | Psychoeducational Assessment I [1] | 3 |

| Code | Title | Units |
|---|---|---|
| EDPY 690 | Advanced Individual Research [1] | 3 |
| EDPY 682 | Psychoeducational Assessment II [1] | 3 |
| EDPY 636 | Research and Evaluation in School Psychology [1] | 3 |
| EDPY 635A | Role and Function of a School Psychologist: Positive Behavior Supports [1] | 1 |
| **Term 2** | | |
| EDPY 683 | Psychoeducational Assessment III [1] | 3 |
| EDPY 637 | Child Psychopathology Assessment and Treatment [1] | 3 |
| EDPY 550 | Crisis/Trauma Response and Interventions [1,2] | 3 |
| EDPY 633 | Multicultural and Bilingual Assessment and Intervention [2] | 3 |
| EDPY 635B | Role and Function of a School Psychologist: Individual/Group Counseling [1] | 1 |
| **Term 3** | | |
| EDPY 635C | Role and Function of a School Psychologist: Assessment [1] | 1 |
| **Total Units** | | **55** |

[1]    Prerequisites must be completed prior to internship/fieldwork.
[2]    Part of the EdS degree.

Students will complete the following in order to earn the Master of Arts in Education: Educational Psychology (MAEd):

- Designated MAEd coursework (55 units)
- Graduate Research Project
- 450 hours of practicum

*Students may participate in commencement.*

| Code | Title | Units |
|---|---|---|
| **Year 3** | | |
| **Coursework for Educational Specialist Degree** | | |
| **Term 1** | | |
| EDPY 697 | Readings in School Psychology | 1 |
| Select one of the following: | | 5 |
|    EDPY 655 | School Psychology Internship I (600 hours) | |
|    EDPY 695 | School Psychology Fieldwork I | |
| **Term 2** | | |
| Select one of the following: | | 5 |
|    EDPY 656 | School Psychology Internship II | |
|    EDPY 696 | School Psychology Fieldwork II (600 hours) | |
| **Total Units** | | **11** |

Students will complete the following in order to earn the Educational Specialist (EdS) with an embedded Pupil Personnel Services Credential in School Psychology:

- Designated EdS coursework (11 units)
- 1,200 hours of fieldwork/internship (primary and secondary settings)
- Passing the PRAXIS II School Psychology #5403 with a 155 or higher

## Additional Requirements

1. Students must pass the PRAXIS II School Psychology #5403 exam with a score of 155 or higher to demonstrate their competence in school psychology prior to completion of the program.
2. Students prepare a Graduate Research Project (GRP), which includes a formal research paper or program evaluation and must be approved by APU's Institutional Review Board (IRB). The GRP content should be related to a topic that the student chooses to study in depth and has relevance to the field of school psychology. The research portion of the project is completed through the following courses: EDPY 592, EDPY 690, and EDPY 636. In addition to the GRP, students are required to present their research findings and paper to a faculty and peer panel.
3. Students complete a performance-based portfolio during practicum and internship/fieldwork that will be evaluated by program faculty and field experience mentors for evidence of skills competency.

## Advisory Notes

- Students intending to pursue two Master of Arts in Education degrees should review the university requirements for additional master's degrees as stated in the Academic Policies and Procedures (p. 1078) section of the catalog.
- Students cannot pursue the Master of Arts in Education: Educational Counseling (https://www.apu.edu/education/programs/masters-in-school-counseling/) as a second master's degree after completing the requirements for the Master of Arts in Education: Educational Psychology and Educational Specialist in School Psychology.
- The practicum experience at APU consists of 450 hours (required by the California Commission on Teacher Credentialing). A minimum of 300 hours must be completed in a pre-K-12 public school setting. Up to 150 hours may be completed through on-campus agencies (e.g., child study centers, psychology clinics) or community-based agencies (e.g., private schools, community-based mental health clinics). These hours are to be completed prior to beginning fieldwork/internship. The required hours are to be completed under the direct supervision of a credentialed school psychologist with no fewer than three years of experience.
- At some regional campuses, students may need to delay enrollment until there is a sufficient number of beginning students to provide the appropriate adult learning opportunities. Applicants can obtain detailed information about dates for beginning coursework by requesting an advisement appointment at the Azusa campus or any of the regional campuses.
- Students in an educational counseling or educational psychology program may request to waive a course (see Waivers (p. 1084)), provided that the student can document completion of an equivalent course at another institution in the five-year period prior to requesting the waiver. Department approval of the request is required. If the course accepted for waiver also meets all of the university standards for transfer credit (see Transfer Credit (p. 1084)), it may be transferred to meet requirements (up to 20 percent of the total program units may be transferred to meet requirements). If the course accepted for waiver does not meet the university standards for transfer credit (i.e., not applicable to a master's degree at the university where it was taken, not taken from a regionally accredited institution, etc.), then the student must choose alternative elective courses to satisfy the unit requirements of the degree program.
- A student has a maximum of five years to complete all coursework, including waivers and transfer of units, beginning the first date of enrollment for coursework in the degree program.
- Students approaching program completion must obtain a credential application from the Office of Credentials (https://www.apu.edu/education/resources/credentials/) in the School of Education. Students must complete all credential requirements to apply for the credential.
- Students approaching graduation must obtain and complete a Graduation Application (https://www.apu.edu/student-services/registration/#gradproforms) from the Office of the Registrar (https://www.apu.edu/student-services/registration/) in accordance with published university deadlines. The registrar and department will collaborate to determine whether the student has met all requirements.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

## Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate competency in data-based decision making and accountability.
2. Demonstrate competency in consultation and collaboration.
3. Demonstrate competency in interventions and instructional support to develop academic skills.
4. Demonstrate competency in behavior interventions and mental health services to develop social and life skills.
5. Demonstrate competency in direct and indirect services – school wide practices to promote learning.
6. Demonstrate competency in school-wide practices to promote behavioral and mental health.
7. Demonstrate competency in family-school collaboration.
8. Demonstrate competency in human diversity.
9. Demonstrate competency in research and program evaluation.
10. Demonstrate competency in legal, ethical, and professional practice disposition.

# Educational Specialist (EdS) in School Psychology: Applied Behavior Analysis with Embedded MA in Education: Educational Psychology and Pupil Personnel Services Credential in School Psychology

**For more information: (626) 815-5026**

Azusa Pacific University's Educational Specialist (EdS) in School Psychology: Applied Behavior Analysis with embedded Master of Arts in Education (MAEd): Educational Psychology and Pupil Personnel Services Credential in School Psychology (https://www.apu.edu/education/programs/school-psychology-specialist-degree/#pathways) program equips school psychology candidates with distinctive and marketable skills and competencies. Candidates acquire knowledge needed to provide intensive behavioral treatment and intervention services for students diagnosed with autism and related disabilities.

This program is a Verified Course Sequence (VCS) approved by the Behavior Analyst Certification Board (BACB) (http://www.bacb.com/) and meets the educational requirements for eligibility as a Board Certified Behavior Analyst (BCBA). Additional requirements to achieve certification (https://www.bacb.com/bcba/) include successful completion of supervised clinical experience, as well as the certification exam administered by the BACB.

The school psychology program is approved with conditions by the National Association of School Psychologists (NASP) (https://www.nasponline.org/) and accredited by the National Council for Accreditation of Teacher Education (NCATE)—which is transitioning to the Council for the Accreditation of Educator Preparation (CAEP) (http://www.caepnet.org/)—and the California Commission on Teacher Credentialing (CTC) (https://www.ctc.ca.gov/). The two degrees are completed in three years and comprise 89 graduate semester units, 450 hours of practicum, and 1,200 hours of fieldwork/internship. Upon successful completion of this program, candidates can apply to become Nationally Certified School Psychologists (NCSPs).

## Program Structure

### Years 1 and 2 (MAEd)

Candidates complete at least 55 units and 450 hours of practicum during the first two years of the program. Upon completion of all coursework, practicum hours, and the Graduate Research Project (GRP), the candidate is granted the Master of Arts in Education: Educational Psychology and may participate in commencement.

### Year 3 (Post-Master's Year, EdS)

During the Spring II session of the second year and the post-master's year, candidates complete at least an additional 11 units of special focus coursework (including 10 units (1,200 hours) of fieldwork/internship) and 23 units of applied behavior analysis specialization coursework. Candidates applying for an internship credential may submit their application once a paid internship at a public school in the field of school psychology has been secured. Prior to starting fieldwork/internship, students are required to provide an updated TB clearance.

Upon successful completion of post-master's coursework and fieldwork/internship, and passing of the PRAXIS II (School Psychology) exam, the candidate is granted the Educational Specialist (EdS) degree and may file for the PPS Credential in School Psychology. Once these requirements are fulfilled, the student may apply to become a Nationally Certified School Psychologist (NCSP) through the National Association of School Psychologists (NASP); students are advised to review specific NCSP requirements online (https://www.nasponline.org/standards-and-certification/national-certification/ncsp-eligibility/).

Candidates should collaborate with the program director about where the applied behavior analysis specialization courses should be completed within the three-year sequence.

## Additional Admission Requirements for School Psychology Applicants

1. After all admission materials have been submitted to the Office of Graduate and Professional Admissions (http://www.apu.edu/graduateprofessional/apply/), the school psychology program reviews the file and notifies the applicant to schedule an admission interview with the department. The prospective candidate should come prepared to be interviewed by program faculty. The purpose of the interview is to meet the candidate, discuss career goals, evaluate match of the program to the student, and make an initial assessment of the applicant's potential for success as a school psychologist.

2. All candidates who are admitted to the program are required to submit a copy of their California Certificate of Clearance (COC) or another form of clearance, such as a valid and current credential for teaching or counseling and/or nursing. The law requires Azusa Pacific University to keep these records on file while candidates are in attendance at APU.

3. Candidates must verify successful completion of the California Basic Skills Requirement (https://www.ctc.ca.gov/credentials/leaflets/basic-skills-requirement-(cl-667/) via one of the options approved by the California Commission on Teacher Credentialing (CTC) (https://www.ctc.ca.gov/) prior to admission.

# Course Requirements

## Scope and Sequence

Students take courses in the following sequence (students are required to seek academic advisement prior to initial registration):

| Code | Title | Units |
|---|---|---|
| **Year 1** | | |
| **Coursework for Master of Arts in Education: Educational Psychology** | | |
| **Semester 1** | | |
| EDPY 533 | Counseling Theories and Techniques [1] | 3 |
| EDPY 557 | Human Growth, Development, and Learning [1] | 3 |
| EDPY 624 | Disabilities in Children [1] | 2 |
| EDPY 535 | Professionalism, Ethics, and Law [1] | 3 |
| **Semester 2** | | |
| EDPY 545 | Positive Behavior Supports and Classroom Intervention [1] | 3 |
| EDPY 572 | Psychobiology and Psychopharmacology | 3 |
| EDPY 556 | Academic Assessment and Intervention [1] | 2 |
| EDPY 592 | Foundations in Research [1] | 3 |
| **Semester 3** | | |
| EDPY 593 | Historical Development of School Counseling and School Psychology [1] | 3 |
| EDPY 528 | Community, Family, and School Collaboration [1] | 3 |
| Students will have located a practicum site. | | |
| **Year 2** | | |
| **Semester 1** | | |
| EDPY 681 | Psychoeducational Assessment I [1] | 3 |
| EDPY 690 | Advanced Individual Research [1] | 3 |
| EDPY 682 | Psychoeducational Assessment II [1] | 3 |
| EDPY 636 | Research and Evaluation in School Psychology [1] | 3 |
| EDPY 635A | Role and Function of a School Psychologist: Positive Behavior Supports [1] | 1 |
| **Semester 2** | | |
| EDPY 683 | Psychoeducational Assessment III [1] | 3 |
| EDPY 637 | Child Psychopathology Assessment and Treatment [1] | 3 |
| EDPY 550 | Crisis/Trauma Response and Interventions [1,2] | 3 |
| EDPY 633 | Multicultural and Bilingual Assessment and Intervention [2] | 3 |
| EDPY 635B | Role and Function of a School Psychologist: Individual/Group Counseling [1] | 1 |
| **Semester 3** | | |
| EDPY 635C | Role and Function of a School Psychologist: Assessment [1] | 1 |
| **Total Units** | | **55** |

[1]    Prerequisites must be completed prior to internship/fieldwork.

[2]    Part of the EdS degree.

Students will complete the following in order to earn the Master of Arts in Education: Educational Psychology (MAEd):

- Designated MAEd coursework (55 units)
- Graduate Research Project
- 450 hours of practicum

*Students may participate in commencement.*

| Code | Title | Units |
|---|---|---|
| **Year 3** | | |
| **Coursework for Educational Specialist Degree** | | |
| **Semester 4** | | |
| EDPY 697 | Readings in School Psychology | 1 |
| Select one of the following: | | 5 |
| EDPY 655 | School Psychology Internship I (600 hours) | |
| EDPY 695 | School Psychology Fieldwork I | |
| **Semester 5** | | |
| Select one of the following: | | 5 |
| EDPY 656 | School Psychology Internship II | |
| EDPY 696 | School Psychology Fieldwork II (600 hours) | |
| **Total Units** | | **11** |

Students will complete the following in order to earn the Educational Specialist (EdS) with an embedded Pupil Personnel Services Credential in School Psychology:

- Designated EdS coursework (11 units)
- 1,200 hours of fieldwork/internship (primary and secondary settings)
- Passing the PRAXIS II School Psychology #5403 with a 155 or higher

| Code | Title | Units |
|---|---|---|
| **Applied Behavior Analysis** | | |
| ABA 505 | Foundations In Applied Behavior Analysis | 3 |
| ABA 504 | Single-Case Designs: Measurement and Experimental Evaluation of Behavior | 3 |
| ABA 503 | Theory and Philosophy of Behavior Analysis | 3 |
| ABA 515 | Behavior Intervention | 3 |
| ABA 500 | ABA Fieldwork I | 1 |
| ABA 514 | Functional Behavior Assessment in Applied Settings | 3 |
| ABA 534 | Organizational Behavior Management | 3 |
| ABA 524 | Ethics in Applied Behavior Analysis | 3 |
| ABA 510 | ABA Fieldwork II | 1 |
| **Total Units** | | **23** |

## Additional Requirements

1. Students must pass the PRAXIS II School Psychology #5403 exam with a score of 155 or higher to demonstrate their competence in school psychology prior to completion of the program.

2. Students prepare a Graduate Research Project (GRP), which includes a formal research paper or program evaluation and must be approved by APU's Institutional Review Board (IRB). The GRP content should be related to a topic that the student chooses to study in depth and has relevance to the field of school psychology. The research portion of the project is completed through the following courses: EDPY 592, EDPY 690, and EDPY 636. In addition to the GRP, students are required to present their research findings and paper to a faculty and peer panel.

3. Students complete a performance-based portfolio during practicum and internship/fieldwork that is evaluated by program faculty and field experience mentors for evidence of skills competency.

## Advisory Notes

- Students intending to pursue two Master of Arts in Education degrees should review the university requirements for additional master's degrees as stated in the Academic Policies and Procedures (p. 1078) section of the catalog.
- Students cannot pursue the Master of Arts in Education: Educational Counseling (https://www.apu.edu/education/programs/masters-in-school-counseling/) as a second master's degree after completing the requirements for the Master of Arts in Education: Educational Psychology and Educational Specialist in School Psychology.
- The practicum experience at APU consists of 450 hours (required by the California Commission on Teacher Credentialing). A minimum of 300 hours must be completed in a pre-K-12 public school setting. Up to 150 hours may be completed through on-campus agencies (e.g., child study centers, psychology clinics) or community-based agencies (e.g., private schools, community-based mental health clinics). These hours are to be completed

prior to beginning fieldwork/internship. The required hours are to be completed under the direct supervision of a credentialed school psychologist with no fewer than three years of experience.

- At some regional campuses, students may need to delay enrollment until there is a sufficient number of beginning students to provide the appropriate adult learning opportunities. Applicants can obtain detailed information about dates for beginning coursework by requesting an advisement appointment at the Azusa campus or any of the regional campuses.
- Students in an educational counseling or educational psychology program may request to waive a course (see Waivers (p. 1084)), provided that the student can document completion of an equivalent course at another institution in the five-year period prior to requesting the waiver. Department approval of the request is required. If the course accepted for waiver also meets all of the university standards for transfer credit (see Transfer Credit (p. 1084)), it may be transferred to meet requirements (up to 20 percent of the total program units may be transferred to meet requirements). If the course accepted for waiver does not meet the university standards for transfer credit (i.e., not applicable to a master's degree at the university where it was taken, not taken from a regionally accredited institution, etc.), then the student must choose alternative elective courses to satisfy the unit requirements of the degree program.
- A student has a maximum of five years to complete all coursework, including waivers and transfer of units, beginning the first date of enrollment for coursework in the degree program.
- Students approaching program completion must obtain a credential application from the Office of Credentials (https://www.apu.edu/education/resources/credentials/) in the School of Education. Students must complete all credential requirements to apply for the credential.
- Students approaching graduation must obtain and complete a Graduation Application (http://www.apu.edu/student-services/registration/#gradproforms) from the Office of the Registrar (https://www.apu.edu/student-services/registration/) in accordance with published university deadlines. The registrar and department will collaborate to determine whether the student has met all requirements.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

## Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate competency in data-based decision making and accountability.
2. Demonstrate competency in consultation and collaboration.
3. Demonstrate competency in interventions and instructional support to develop academic skills.
4. Demonstrate competency in behavior interventions and mental health services to develop social and life skills.
5. Demonstrate competency in direct and indirect services – school wide practices to promote learning.
6. Demonstrate competency in school-wide practices to promote behavioral and mental health.
7. Demonstrate competency in family-school collaboration.
8. Demonstrate competency in human diversity.
9. Demonstrate competency in research and program evaluation.
10. Demonstrate competency in legal, ethical, and professional practice and disposition.
11. Demonstrate an understanding of basic concepts and principles from the field of Applied Behavior Analysis (ABA).
12. Learn single-subject design and how to collect, display, analyze, and interpret data using continuous and discontinuous measures.
13. Implement procedures and systems related to behavior change from the perspective of applied behavior analysis (ABA).
14. Conduct personnel supervision that is behavior analytic in nature.
15. Apply the industry's ethical guidelines to their practice in the field of applied behavior analysis (ABA).
16. Conduct functional behavior assessment. This includes descriptive assessment (review of records, interview, observation, interpretation), functional analysis, and developing intervention plans.
17. Apply coursework in a fieldwork setting, supervised by a qualified professional.

# Educational Specialist (EdS) in School Psychology: Clinical and Educationally Related Mental Health Counseling with Embedded MA in Education: Educational Psychology and Pupil Personnel Services Credential in School Psychology

**For more information: (626) 815-5026**

Azusa Pacific University's Educational Specialist (EdS) in School Psychology: Clinical and Educationally Related Mental Health Counseling with embedded Master of Arts in Education (MAEd): Educational Psychology and Pupil Personnel Services Credential in School Psychology (https://www.apu.edu/education/programs/school-psychology-specialist-degree/#pathways) program equips school psychology candidates with distinctive and marketable skills and competencies. Candidates gain advanced skills to effectively meet the needs of students with emotional and behavioral challenges, and are equipped to provide educationally related mental health services or designated instructional services. Through supervised field experiences and classroom curriculum, candidates gain exposure to group and individual clinical counseling, addictions or substance abuse counseling and intervention, psychobiology/psychopharmacology, DSM-V diagnosis, and case conceptualization and treatment for school-based mental health services.

The school psychology program is approved with conditions by the National Association of School Psychologists (NASP) (https://www.nasponline.org/) and accredited by the National Council for Accreditation of Teacher Education (NCATE)—which is transitioning to the Council for the Accreditation of Educator Preparation (CAEP) (https://caepnet.org/)—and the California Commission on Teacher Credentialing (CTC) (https://www.ctc.ca.gov/). The two degrees are completed in three years and comprise 84 graduate semester units, 450 hours of practicum, and 1,200 hours of fieldwork/internship. Upon successful completion of this program, candidates can apply to become Nationally Certified School Psychologists (NCSPs).

## Program Structure

### Years 1 and 2

Candidates complete at least 61 units and 450 hours of practicum during the first two years of the program. Candidates also complete the Graduate Research Project (GRP).

### Year 3 (MAEd and EdS)

Candidates complete at least an additional 23 units of special focus coursework, including 1,200 hours of fieldwork/internship and coursework for the clinical and educationally related mental health counseling specialization. Candidates applying for an internship credential may submit their application once a paid internship at a public school in the field of school psychology has been secured. Prior to starting fieldwork/internship, students are required to provide an updated TB clearance.

Upon successful completion of post-master's coursework and fieldwork/internship, and passing of the PRAXIS II (School Psychology) exam, the candidate is granted the Educational Specialist (EdS) degree and may file for the PPS Credential in School Psychology. Once these requirements are fulfilled, the student may apply to become a Nationally Certified School Psychologist (NCSP) through the National Association of School Psychologists (NASP); students are advised to review specific NCSP requirements online (https://www.nasponline.org/standards-and-certification/national-certification/ncsp-eligibility/).

Candidates should collaborate with the program director about where the clinical and educationally related mental health counseling specialization courses should be completed within the three-year sequence.

## Additional Admission Requirements for School Psychology Applicants

1. After all admission materials have been submitted to the Office of Graduate and Professional Admissions (http://www.apu.edu/graduateprofessional/apply/), the school psychology program reviews the file and notifies the applicant to schedule an admission interview with the department. The prospective candidate should come prepared to be interviewed by program faculty. The purpose of the interview is to meet the candidate, discuss career goals, evaluate match of the program to the student, and make an initial assessment of the applicant's potential for success as a school psychologist.

2. All candidates who are admitted to the program are required to submit a copy of their California Certificate of Clearance (COC) or another form of clearance, such as a valid and current credential for teaching or counseling and/or nursing. The law requires Azusa Pacific University to keep these records on file while candidates are in attendance at APU.
3. Candidates must verify successful completion of the California Basic Skills Requirement (https://www.ctc.ca.gov/credentials/leaflets/basic-skills-requirement-(cl-667/) via one of the options approved by the California Commission on Teacher Credentialing (CTC) (https://www.ctc.ca.gov/) prior to admission.

## Course Requirements

Students take courses in the following sequence (students are required to seek academic advisement prior to initial registration).

### Scope and Sequence

Students take courses in the following sequence (students are required to seek academic advising prior to initial registration):

| Code | Title | Units |
| --- | --- | --- |
| **Year 1** | | |
| **Semester 1** | | |
| EDPY 533 | Counseling Theories and Techniques [1] | 3 |
| EDPY 557 | Human Growth, Development, and Learning [1] | 3 |
| EDPY 624 | Disabilities in Children [1] | 2 |
| EDPY 535 | Professionalism, Ethics, and Law [1] | 3 |
| **Semester 2** | | |
| EDPY 545 | Positive Behavior Supports and Classroom Intervention [1] | 3 |
| EDPY 549 | Career Development Theories and Techniques | 3 |
| EDPY 572 | Psychobiology and Psychopharmacology | 3 |
| EDPY 556 | Academic Assessment and Intervention [1] | 2 |
| EDPY 592 | Foundations in Research [1] | 3 |
| **Semester 3** | | |
| EDPY 593 | Historical Development of School Counseling and School Psychology [1] | 3 |
| EDPY 528 | Community, Family, and School Collaboration [1] | 3 |
| Students must have located a practicum site for approval by the department. | | |
| **Year 2** | | |
| **Semester 1** | | |
| EDPY 681 | Psychoeducational Assessment I [1] | 3 |
| EDPY 690 | Advanced Individual Research [1] | 3 |
| EDPY 682 | Psychoeducational Assessment II [1] | 3 |
| EDPY 636 | Research and Evaluation in School Psychology [1] | 3 |
| EDPY 635A | Role and Function of a School Psychologist: Positive Behavior Supports [1] | 1 |
| **Semester 2** | | |
| EDPY 683 | Psychoeducational Assessment III [1] | 3 |
| EDPY 637 | Child Psychopathology Assessment and Treatment [1] | 3 |
| EDPY 550 | Crisis/Trauma Response and Interventions [1] | 3 |
| EDPY 633 | Multicultural and Bilingual Assessment and Intervention | 3 |
| EDPY 635B | Role and Function of a School Psychologist: Individual/Group Counseling [1] | 1 |
| EDPY 575 | Clinical Practica | 3 |
| **Semester 3** | | |
| EDPY 635C | Role and Function of a School Psychologist: Assessment [1] | 1 |
| **Year 3** | | |
| **Semester 1** | | |
| EDPY 555 | Group Counseling Skills | 3 |
| EDPY 573 | Addictions, Assessment, and Interventions | 3 |
| EDPY 697 | Readings in School Psychology | 1 |
| Select one of the following: | | 5 |
| EDPY 655 | School Psychology Internship I | |

| EDPY 695 | School Psychology Fieldwork I | |
|---|---|---|
| **Semester 2** | | |
| EDPY 571 | Introduction to Clinical Practice: Basic Skills | 3 |
| EDPY 574 | Introduction to Clinical Practice: Advanced Skills | 3 |
| Select one of the following: | | 5 |
| EDPY 656 | School Psychology Internship II | |
| EDPY 696 | School Psychology Fieldwork II | |
| **Total Units** | | **84** |

[1]    Prerequisites must be completed prior to internship/fieldwork.

Students complete the following in order to earn the Master of Arts in Education: Educational Psychology (MAEd) and Educational Specialist (EdS) with an embedded Pupil Personnel Services Credential in School Psychology:

- Designated MAEd and EdS coursework (84 units)
- 550 hours of practicum
- 1,200 hours of fieldwork/internship (primary and secondary settings)
- Graduate research project
- Passing the PRAXIS II School Psychology #5403 with a 155 or higher

## Additional Requirements

1. Students must pass the PRAXIS II School Psychology #5403 exam with a score of 155 or higher to demonstrate their competence in school psychology prior to completion of the program.
2. Students prepare a Graduate Research Project (GRP), which includes a formal research paper or program evaluation and must be approved by APU's Institutional Review Board (IRB). The GRP content should be related to a topic that the student chooses to study in depth and has relevance to the field of school psychology. The research portion of the project is completed through the following courses: EDPY 592, EDPY 690, and EDPY 636. In addition to the GRP, students are required to present their research findings and paper to a faculty and peer panel.
3. Students complete a performance-based portfolio during practicum and internship/fieldwork that will be evaluated by program faculty and field experience mentors for evidence of skills competency.

## Advisory Notes

- Students intending to pursue two Master of Arts in Education degrees should review the university requirements for additional master's degrees as stated in the Academic Policies and Procedures section of the catalog.
- Students cannot pursue the Master of Arts in Education: Educational Counseling as a second master's degree after completing the requirements for the Master of Arts in Education: Educational Psychology and Educational Specialist in School Psychology.
- The practicum experience at APU consists of 450 hours (required by the California Commission on Teacher Credentialing). A minimum of 300 hours must be completed in a pre-K-12 public school setting. Up to 150 hours may be completed through on-campus agencies (e.g., child study centers, psychology clinics) or community-based agencies (e.g., private schools, community-based mental health clinics). These hours are to be completed prior to beginning fieldwork/internship. The required hours are to be completed under the direct supervision of a credentialed school psychologist with no fewer than three years of experience.
- At some regional campuses, students may need to delay enrollment until there is a sufficient number of beginning students to provide the appropriate adult learning opportunities. Applicants can obtain detailed information about dates for beginning coursework by requesting an advisement appointment at the Azusa campus or any of the regional campuses.
- Students in an educational counseling or educational psychology program may request to waive a course (see Waivers), provided that the student can document completion of an equivalent course at another institution in the five-year period prior to requesting the waiver. Department approval of the request is required. If the course accepted for waiver also meets all of the university standards for transfer credit (see Transfer Credit), it may be transferred to meet requirements (up to 20 percent of the total program units may be transferred to meet requirements). If the course accepted for waiver does not meet the university standards for transfer credit (i.e., not applicable to a master's degree at the university where it was taken, not taken from a regionally accredited institution, etc.), then the student must choose alternative elective courses to satisfy the unit requirements of the degree program.
- A student has a maximum of five years to complete all coursework, including waivers and transfer of units, beginning the first date of enrollment for coursework in the degree program.
- Students approaching program completion must obtain a credential application from the Office of Credentials (https://www.apu.edu/education/resources/credentials/) in the School of Education. Students must complete all credential requirements to apply for the credential.

- Students approaching graduation must obtain and complete a Graduation Application from the Office of the Registrar (https://www.apu.edu/student-services/registration/) in accordance with published university deadlines. The registrar and department will collaborate to determine whether the student has met all requirements.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate competency in data-based decision making and accountability.
2. Demonstrate competency in consultation and collaboration.
3. Demonstrate competency in interventions and instructional support to develop academic skills.
4. Demonstrate competency in behavior interventions and mental health services to develop social and life skills.
5. Demonstrate competency in direct and indirect services and school practices to promote learning.
6. Demonstrate competency in school-wide practices to promote behavioral and mental health.
7. Demonstrate competency in family-school collaboration.
8. Demonstrate competency in human diversity.
9. Demonstrate competency in research and program evaluation.
10. Demonstrate competency in legal, ethical, and professional practice disposition.

# MA in Education: Educational and Clinical Counseling with an Embedded Pupil Personnel Services Credential in School Counseling

**For more information: (626) 815-5026**

The Master of Arts in Education: Educational and Clinical Counseling (https://www.apu.edu/education/programs/masters-in-school-clinical-counseling/) degree is a 62-unit program that encompasses the 50-unit MAEd in Educational Counseling degree (p. 499) plus the 12 additional units of coursework required by the California Board of Behavioral Sciences (https://bbs.ca.gov/applicants/lpcc.html) for Licensed Professional Clinical Counselor (LPCC) eligibility. The program prepares candidates to obtain a Pupil Personnel Services Credential necessary to work in K-12 school settings, provides a clinical emphasis, and satisfies the coursework requirements set forth for California licensure as an LPCC. Contact the department (https://www.apu.edu/education/counselingpsych/) for specific information pertaining to the benefits of this degree option.

A requirement of the program is the completion of fieldwork or an internship, both of which provide candidates with hands-on experience in school counseling. Students must complete the 8 prerequisite courses prior to enrolling in fieldwork or internship. An internship credential is appropriate for students who have secured a paid internship position and a contract to serve as a school counselor at a California public school. Students applying for an internship credential may submit their application for it upon successful completion of the fieldwork prerequisite courses and prior to the start of the internship experience.

## Course Sequence

Obtain academic advising prior to initial registration.

| Code | Title | Units |
|------|-------|-------|
| **Term 1** | | |
| EDCO 533 | Counseling Theories and Techniques [1, 2] | 3 |

| EDCO 535 | Professionalism, Ethics, and Law [1] | 3 |
|---|---|---|
| EDCO 550 | Crisis/Trauma Response and Interventions [1] | 3 |
| EDCO 557 | Human Growth, Development, and Learning [1] | 3 |
| **Term 2** | | |
| EDCO 545 | Positive Behavior Supports and Classroom Intervention [1] | 3 |
| EDCO 555 | Group Counseling Skills [1] | 3 |
| EDCO 575 | Clinical Practica [1] | 3 |
| EDCO 592 | Foundations in Research [1] | 3 |
| **Term 3** | | |
| EDCO 528 | Community, Family, and School Collaboration | 3 |
| EDCO 593 | Historical Development of School Counseling and School Psychology | 3 |
| **Term 4** | | |
| EDCO 549 | Career Development Theories and Techniques | 3 |
| EDCO 587 | School Counseling Professionalism | 3 |
| Select one of the following: | | 4 |
| EDCO 560 | School Counseling Fieldwork I | |
| EDCO 580 | School Counseling Internship I | |
| **Term 5** | | |
| EDCO 534 | Assessment, Measurements, and Testing of Individuals | 3 |
| EDCO 579 | Sociocultural Competence | 3 |
| Select one of the following: | | 4 |
| EDCO 561 | School Counseling Fieldwork II | |
| EDCO 581 | School Counseling Internship II | |
| **Term 6** | | |
| EDCO 571 | Introduction to Clinical Practice: Basic Skills | 3 |
| EDCO 572 | Psychobiology and Psychopharmacology | 3 |
| EDCO 573 | Addictions, Assessment, and Interventions | 3 |
| EDCO 574 | Introduction to Clinical Practice: Advanced Skills | 3 |
| **Total Units** | | **62** |

[1]    Prerequisites for fieldwork/internship.
[2]    Students who begin their studies in the spring semester must follow the advisement sheet provided by the department, which is slightly different in sequence.

## Additional Requirements

1. Candidates must earn a passing score of 150 or greater on the Praxis II School Counselor Test (code 5422) to demonstrate their competence in school counseling prior to completion of the program.
2. All candidates admitted to the Master of Arts in Education: Educational and Clinical Counseling program are required to submit a copy of their California Certificate of Clearance (COC) or another form of clearance, such as a valid and current credential for teaching, counseling, school psychology, and/or nursing. The law requires Azusa Pacific University to keep these records on file while candidates are in attendance at APU.
3. Candidates must verify successful completion of the California Basic Skills Requirement (https://www.ctc.ca.gov/credentials/leaflets/basic-skills-requirement-(cl-667/) via one of the options approved by the California Commission on Teacher Credentialing (CTC) (https://www.ctc.ca.gov/), prior to admission.

## Advisory Notes

- Educational psychology (p. 486) can be pursued as an educational specialist (EdS) degree with a second master's degree embedded after completing the requirements for the Master of Arts in Education: Educational and Clinical Counseling. Because these programs are unique, candidates must be admitted to each program separately. Candidates intending to pursue two Master of Arts in Education degrees should review the university requirements for additional master's degrees as stated in the Academic Policies and Procedures (p. 1078) section of the catalog.
- The practicum experience included in the educational and clinical counseling program is required by the California Commission on Teacher Credentialing and consists of 100 hours completed in a K-12 setting or approved clinical setting. These hours will be verified in the EDCO 575 course, which must be taken prior to fieldwork or internship. This course provides candidates the educational and clinical experience in applied psychotherapeutic techniques, assessment, diagnosis, prognosis, treatment, issues of development, adjustment, and maladjustment, health and wellness promotion, and other recognized counseling interventions.

- At some regional campuses, candidates may need to delay enrollment until there are a sufficient number of beginning candidates to provide the appropriate adult learning opportunities. Applicants can obtain detailed information about dates for beginning coursework by requesting an advisement appointment at the Azusa campus or any of the regional campuses.
- Candidates must receive a grade of *B-* or higher in each course (a grade of *CR* in fieldwork/internship) and maintain a 3.0 grade-point average (GPA) throughout the program.
- Candidates approaching program completion must obtain a credential application from the Office of Credentials (https://www.apu.edu/education/resources/credentials/). The graduate degree must be conferred before receiving the credential recommendation.
- Candidates approaching graduation must obtain and complete a Graduation Application (https://www.apu.edu/student-services/registration/#gradproforms) from the Office of the Registrar (https://www.apu.edu/student-services/registration/) in accordance with published university deadlines. The registrar and department will collaborate to determine whether the student has met all requirements.
- A candidate has a maximum of five years to complete all coursework and assessments, including waivers and transfer of units, beginning the first date of enrollment for coursework in the degree program.
- Upon completion of the educational and clinical counseling program, graduates should contact the Board of Behavioral Sciences (https://bbs.ca.gov/applicants/lpcc.html) for additional requirements for LPCC Licensure.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate competency in foundations of School Counseling Professional Standards.
2. Demonstrate competency in professionalism, ethics, and legal mandates.
3. Demonstrate competency in student academic development.
4. Demonstrate competency in student college and career development.
5. Demonstrate competency in social/emotional development.
6. Demonstrate competency in educational foundations: growth and development, learning theory, academic achievement.
7. Demonstrate competency in leadership and advocacy in social justice, equity, and access.
8. Demonstrate competency in program development.
9. Demonstrate competency in research, program evaluation, and technology.

# MA in Education: Educational Counseling with an Embedded Pupil Personnel Services Credential in School Counseling

**For more information: (626) 815-5026**

APU's Master of Arts in Education: Educational Counseling (https://www.apu.edu/education/programs/masters-in-school-counseling/) offers candidates an efficient path to a school counseling career by embedding within the program all requirements for the Pupil Personnel Services Credential in School Counseling.

A requirement in completing the program is the completion of fieldwork or an internship, both of which provide candidates with hands-on experience in school counseling. An internship credential is appropriate for students who have secured a paid internship position and a contract to serve as a school counselor at a California public school. Students applying for an internship credential may submit their application for it upon successful completion of 8 prerequisite courses and prior to the start of the fieldwork/internship experience.

## Course Sequence

Obtain academic advising prior to initial registration.

## Program Learning Outcomes
### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate competency in foundations of School Counseling Professional Standards.
2. Demonstrate competency in professionalism, ethics, and legal mandates.
3. Demonstrate competency in student academic development.
4. Demonstrate competency in student college and career development.
5. Demonstrate competency in social/emotional development.
6. Demonstrate competency in educational foundations: growth and development, learning theory, academic achievement.
7. Demonstrate competency in leadership and advocacy in social justice, equity, and access.
8. Demonstrate competency in program development.
9. Demonstrate competency in research, program evaluation, and technology.

# Pupil Personnel Services: School Counseling Credential

**For more information: (626) 815-5026**

**Prerequisite:** Educational Specialist in School Psychology with Embedded Master of Arts in Education: Educational Psychology and Pupil Personnel Services Credential in School Psychology (p. 486)

A required transcript evaluation of students' current PPS school psychology courses will determine which courses will count toward the PPS: School Counseling Credential.

Requirements are the same as for Azusa Pacific University's Master of Arts in Education: Educational Counseling with Embedded Pupil Personnel Services Credential in School Counseling program (p. 499), which are as follows:

| Code | Title | Units |
| --- | --- | --- |
| **Term 1** | | |
| EDCO 533 | Counseling Theories and Techniques [1] | 3 |
| EDCO 535 | Professionalism, Ethics, and Law [1] | 3 |
| EDCO 550 | Crisis/Trauma Response and Interventions [1] | 3 |
| EDCO 557 | Human Growth, Development, and Learning [1] | 3 |
| **Term 2** | | |
| EDCO 545 | Positive Behavior Supports and Classroom Intervention [1] | 3 |
| EDCO 555 | Group Counseling Skills [1] | 3 |
| EDCO 575 | Clinical Practica [1] | 3 |

| EDCO 592 | Foundations in Research [1] | 3 |
|---|---|---|
| **Term 3** | | |
| EDCO 528 | Community, Family, and School Collaboration | 3 |
| EDCO 593 | Historical Development of School Counseling and School Psychology | 3 |
| **Term 4** | | |
| EDCO 549 | Career Development Theories and Techniques | 3 |
| EDCO 587 | School Counseling Professionalism | 3 |
| Select one of the following: | | 4 |
| EDCO 560 | School Counseling Fieldwork I | |
| EDCO 580 | School Counseling Internship I | |
| **Term 5** | | |
| EDCO 534 | Assessment, Measurements, and Testing of Individuals | 3 |
| EDCO 579 | Sociocultural Competence | 3 |
| Select one of the following: | | 4 |
| EDCO 561 | School Counseling Fieldwork II | |
| EDCO 581 | School Counseling Internship II | |
| **Total Units** | | **50** |

[1]    Prerequisites for fieldwork/internship

## Additional Requirements

1. Candidates must earn a passing score of 150 or greater on the Praxis II School Counselor Test (code 5422) exam to demonstrate their competence in school counseling prior to completion of the program.
2. All candidates admitted to the Pupil Personnel Services: School Counseling Credential program are required to submit a copy of their California Certificate of Clearance or another form of clearance, such as a valid and current credential for teaching, counseling, school psychology, and/or nursing. The law requires Azusa Pacific University to keep these records on file while candidates are in attendance at APU.
3. Candidates must verify successful completion of the California Basic Skills Requirement (https://www.ctc.ca.gov/credentials/leaflets/basic-skills-requirement-(cl-667/) via one of the options approved by the California Commission on Teacher Credentialing (CTC) (https://www.ctc.ca.gov/), prior to admission.

## Advisory Notes

- The practicum experience included in the educational counseling program is required by the California Commission on Teacher Credentialing and consists of 100 hours completed in a K-12 setting or approved clinical setting. These hours will be verified in the EDCO 575 course, which must be taken prior to fieldwork or internship. This course provides candidates the educational and clinical experience in applied psychotherapeutic techniques, assessment, diagnosis, prognosis, treatment, issues of development, adjustment and maladjustment, health and wellness promotion, and other recognized counseling interventions.
- At some regional campuses, candidates may need to delay enrollment until there is a sufficient number of beginning candidates to provide the appropriate adult learning opportunities. Applicants can obtain detailed information about dates for beginning coursework by requesting an advisement appointment at the Azusa campus or any of the regional campuses.
- Candidates must maintain a minimum cumulative grade-point average (GPA) of 3.0 in their program of study, and receive a grade of *B-* or higher in each course (a grade of *CR* in fieldwork/internship).
- Candidates approaching program completion must obtain a credential application from the Office of Credentials (https://www.apu.edu/education/resources/credentials/). An appropriate counseling-related graduate degree from a regionally accredited college or university must be conferred before receiving the credential recommendation.
- Candidates have a maximum of five years to complete all coursework and assessments, including waivers and transfer of units, beginning the first date of enrollment for coursework in the credential program.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

# Pupil Personnel Services: School Psychology Credential

**For more information: (626) 815-5026**

**Prerequisite:** Master of Arts in Education: Educational Counseling with Embedded Pupil Personnel Services Credential in School Counseling (p. 499)

A required transcript evaluation of students' courses will determine which courses will count toward the PPS: School Psychology Credential.

Requirements are the same as for Azusa Pacific University's Educational Specialist in School Psychology with Embedded Master of Arts in Education: Educational Psychology and Pupil Personnel Services Credential in School Psychology (p. 486) program, with the exception that no graduate research project is required.

Students must pass the PRAXIS II School Psychology #5403 Exam with a score of 155 or greater. Credential-only candidates **may be eligible** to become a Nationally Certified School Psychologist (NCSP); candidates are advised to contact the National Association of School Psychologists (NASP) certification board (https://www.nasponline.org/CERTIFICATION/) to determine if their degrees meet NCSP requirements.

A student has a maximum of five years to complete all coursework and assessments, beginning the first date of enrollment for coursework in the credential program.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (p. 938)). **Program-specific application requirements are available online (https://www.apu.edu/graduateprofessional/apply/).**

International students should contact Graduate and Professional Admissions (https://www.apu.edu/graduateprofessional/apply/) for application procedures.

# Division of Teacher Education

The Division of Teacher Education (https://www.apu.edu/education/teacher/) prepares candidates to become public school teachers who demonstrate the content, pedagogical, and professional knowledge, skills, and dispositions necessary to help all TK-12 students grow and learn. In keeping with a commitment to enhance teacher candidates' understanding of the continuum of TK-12 education, all programs emphasize a growing knowledge across the breadth of the program from theory to practice. Master's degree programs with credentials embedded and credential-only programs provide the training and experience needed to qualify for California's Multiple Subject and Single Subject Teaching Credentials, as well as Mild to Moderate Support Needs and Extensive Support Needs Education Specialist Credentials.

The Division of Teacher Education offers numerous undergraduate and graduate programs. Additionally, the School of Health Sciences offers the Master of Arts in Physical Education and Single Subject Teaching Credential (p. 575). (http://catalog.apu.edu/academics/school-behavioral-applied-sciences/kinesiology/physical-education-single-subject-teaching-credential-ma/)

Learn more about the division below:

- Mission Statement (p. 503)
- Professional Standards for Credential Candidates (p. 503)
- Intern Credential Option and Eligibility Requirements (p. 504)

## Mission Statement

The Division of Teacher Education produces teachers who are ethical, responsive, and informed practitioners who are faithful stewards of their time, talents, and resources. They model servanthood as a means to clarify and practice their faith and knowledge.

## Professional Standards for Credential Candidates

APU credential candidates are highly desired because of the School of Education's strong reputation for preparing highly qualified teachers who have been held to high professional standards. The Division of Teacher Education assesses candidates from admission through credential recommendation in credential standards and dispositions, including the following:

- All credential candidates are expected to maintain a high level of professional and ethical behavior throughout the program. Failure to do so may result in expulsion from the program.
- All credential standards and requirements for Multiple Subject and Single Subject Teaching Credentials, as well as the Mild to Moderate Support Needs and Extensive Support Needs Education Specialist Credentials, are subject to California Commission on Teacher Credentialing (CTC)

(https://www.ctc.ca.gov/), Council for the Accreditation of Educator Preparation (CAEP) (https://caepnet.org), and federal policy changes, as well as graduate education policies. These standards, requirements, and policies supersede catalog descriptions of prior programs and requirements.

- The division reserves the right to change the admission process and requirements as needed, withhold credential recommendation due to a candidate's failure to meet and/or maintain APU professional and ethical behavior standards and dispositions, and/or expel a candidate at any time in the program due to a candidate's failure to meet and/or maintain APU professional and ethical standards and dispositions.
- Please refer to published general application requirements for credential programs.

## Intern Credential Option and Eligibility Requirements

The Multiple Subject and Single Subject Credential programs, and the Education Specialist programs, offer an Intern Credential option specifically designed for the candidate who is teaching full time in an appropriate setting in a California public TK-12 school. Candidates planning to complete their clinical experience via an Intern Credential should communicate with a credential analyst in the Office of Credentials (http://www.apu.edu/education/resources/credentials/) prior to beginning the eligibility process. To become eligible for an Intern Credential, a candidate must meet the following requirements:

1. Hold a baccalaureate or higher degree from a regionally accredited institution of higher education.
2. Gain admittance to a School of Education preliminary teaching credential program and be a candidate in good standing.
3. Successfully complete (grade of *B-* or higher in each course) at least 6 units of coursework in the School of Education preliminary teaching credential program. Candidates who already hold a California Multiple Subject, Single Subject, or Education Specialist Teaching Credential may check with the Office of Credentials for possible exemption from this requirement.
4. Verify successful completion of the California Basic Skills Requirement (https://www.ctc.ca.gov/credentials/leaflets/basic-skills-requirement-(cl-667)/) via one of the options approved by the California Commission on Teacher Credentialing (CTC).
5. Verify successful completion of U.S. Constitution requirement (course or exam).
6. Verify successful completion of the California Subject Matter Requirement (https://www.ctc.ca.gov/educator-prep/subject-matter-requirements/) via one of the options approved by the California Commission on Teacher Credentialing (CTC).
7. Verify successful completion of the School of Education's approved intern pre-service.
   - Multiple Subject Preservice: TESP 501 Art of Teaching I: Foundations of Teaching, TESP 502 Science of Teaching I: How Students Learn, TEP 511 Art of Teaching II: Pedagogy and Instructional Design, and TEP 521 Methods of Teaching Reading and Writing (K-8)
   - Single Subject Preservice: TESP 501 Art of Teaching I: Foundations of Teaching, TESP 502 Science of Teaching I: How Students Learn, TEP 511 Art of Teaching II: Pedagogy and Instructional Design, and TEP 531 Methods of Teaching Reading and Writing (7-12)
   - Education Specialist Preservice: TESP 501 Art of Teaching I: Foundations of Teaching, TESP 502 Science of Teaching I: How Students Learn, SPED 517 Art of Teaching II: Pedagogy and Instructional Design for Education Specialists, and SPED 525 Methods of Teaching Reading and Writing

   Candidates may also meet intern preservice requirements via completion of Alternative Certification Training (ACT) through the Kern County Superintendent of Schools. Candidates are required to work with their credential analyst for completion of preservice requirements through ACT or documented evidence of completing another CTC-approved preservice certification program. Note: For coursework or a CTC-approved preservice certification program to be considered toward meeting intern preservice requirements, the coursework or program must be completed within five years prior to recommendation for the Intern Credential.

8. Verify successful completion of 30 hours of early fieldwork experience via one of the following options:
   - APU fieldwork that is embedded in courses. Courses must be completed within five years prior to recommendation for the Intern Credential.
   - Current California Multiple Subject, Single Subject, or Education Specialist Teaching Credential.
   - Life Ryan Credentials, out-of-state credentials, and previous teaching experience will be evaluated on a case-by-case basis.
9. Demonstrate competence in reading instruction via completion of the School of Education Methods of Teaching Reading and Writing course relevant to the candidate's preliminary credential program.
10. Gain employment under a full-time public school contract at a school site located within 50 road-miles of Azusa or an APU regional campus offering School of Education preliminary teacher credential programs.
11. Verify employment as evidenced by a letter from school or district administration on school or district letterhead fully describing the teaching assignment.
12. Submit the credential application and Intern Credential Application Request through the Office of Credentials.

Completion of the above requirements does not guarantee recommendation for an Intern Credential; such recommendation is contingent upon the availability of university coaches/mentors. The School of Education must also have a valid Memorandum of Understanding (MOU) in place with the employing Local Education Agency (LEA) extending the offer of employment. Additionally, the intern coordinator and program director for the relevant preliminary teacher credential program will review the candidate's file to determine if the candidate demonstrates appropriate academic progress and dispositions for recommendation for an Intern Credential.

Note: The School of Education at Azusa Pacific University is not approved to offer the Bilingual Crosscultural Language and Academic Development Certificate (BCLAD). At this time, the intern programs are not designed to support individuals employed in bilingual classrooms. We are unable to recommend a candidate for an Intern credential if their intern placement is in a bilingual classroom.

Once a candidate has been recommended for an Intern Credential, he/she must comply with the following requirements to maintain eligibility for the Intern Credential:

- Be continuously employed in a teaching assignment that requires the Intern Credential
- Be an APU School of Education candidate in good standing
- Be making satisfactory progress toward program completion for the duration of the Intern Credential
- Follow his/her signed advising plan
- Enroll in a candidate support and supervision course (SPED 500 or TEP 590) or clinical practice course each fall and spring 8-week session he/she holds an Intern Credential

**Note:** Once a candidate has progressed to the start of the second 8 weeks of clinical practice, the candidate has passed the point where he/she can be recommended for an Intern Credential. Upon completion of 16 weeks of clinical practice, a candidate with an Intern Credential has two 8-week sessions in which to complete the preliminary credential requirements and application and move to the preliminary credential. This includes passing the CalTPA (for all candidates) and passing the RICA or other state required literacy assessment (for those candidates working toward a preliminary Multiple Subject or Education Specialist credential). **Failure to either maintain eligibility for the Intern Credential or to complete the preliminary credential requirements and application within the one semester immediately following completion of clinical practice will result in withdrawal of the Intern Credential, which could impact the candidate's employment. If an Intern Credential is withdrawn as a result of a lapse in professional responsibility, integrity, or ethical conduct, the intern may be dismissed from the program, and the intern must meet with the division chair to discuss remediation and next steps.**

## Programs

## Elementary and Secondary Education

- BA in Liberal Studies/Undergraduate Education K-8 Program (p. 518)
- Liberal Studies Minor (p. 530)
- Elementary and Secondary Education: Master's Degree Programs in Learning and Technology with Preliminary Teaching Credential
  - Master of Arts in Education: Learning and Technology and Multiple Subject Teaching Credential (p. 524)
  - Master of Arts in Education: Learning and Technology and Single Subject Teaching Credential (p. 525)
- Elementary and Secondary Education: Master's Degree Programs in Teaching with Preliminary Teaching Credential
  - Master of Arts in Education: Teaching and Multiple Subject Teaching Credential (p. 527)
  - Master of Arts in Education: Teaching and Single Subject Teaching Credential (p. 528)
- Elementary and Secondary Education: Credential-Only Programs
  - Multiple Subject Teaching Credential (p. 531)
  - Single Subject Teaching Credential (p. 532)

## Special Education

- Special Education: Master's Degree Programs in Learning and Technology with Education Specialist Preliminary Credential
  - Master of Arts in Education: Learning and Technology and Mild to Moderate Support Needs Education Specialist Credential (p. 540)
  - Master of Arts in Education: Learning and Technology and Extensive Support Needs Education Specialist Credential (p. 539)
- Special Education: Master's Degree Programs in Special Education with Education Specialist Preliminary Credential
  - Master of Arts in Education: Special Education and Mild to Moderate Support Needs Education Specialist Credential (p. 543)
  - Master of Arts in Education: Special Education and Extensive Support Needs Education Specialist Credential (p. 542)
- Special Education: Credential-Only Programs
  - Mild to Moderate Support Needs Education Specialist Credential (p. 545)
  - Extensive Support Needs Education Specialist Credential (p. 537)

## Integrated Bachelor's/Credential Program

- Bachelor of Science in Allied Health with Integrated Single Subject (Science) Teaching Credential (p. 55)
- Bachelor of Arts in Liberal Studies with Integrated Mild to Moderate Support Needs Education Specialist Credential (p. 549)
- Bachelor of Arts in Liberal Studies with Integrated Extensive Support Needs Education Specialist Credential (p. 549)
- Bachelor of Arts in Mathematics with Integrated Single Subject (Math) Teaching Credential (p. 90)

# Courses

## EDLS 200, Introduction to Teaching as a Profession K-12, 4 Units

This course provides an overview of civic knowledge and engagement through the teaching profession, focusing on the art of teaching at the K-12 level. Topics include California Standards for the Teaching Profession, California Content Standards and Curriculum Frameworks, school organization, curriculum and pedagogical practices, classroom management, and assessment. The academic service learning portion of the course requires 30 hours in a K-12 school and 15 hours in teacher related experiences. *Meets the General Education Requirement: Civic Knowledge and Engagement.*
**Prerequisite:** Sophomore standing

## EDLS 202, Introduction to Teaching as a Profession (7-12), 4 Units

This course provides an overview to the teaching profession, focusing on the art of teaching at the 7-12 level. Issues addressed surround the Common Core standards, the California State Standards for the Teaching Profession, and the California Content Standards, including school organization, curriculum and pedagogical practices, classroom management, and assessment. The service-learning lab requires 45 hours in a 7-12 school. *Meets the General Education Requirement: Civic Knowledge and Engagement.*
**Prerequisite:** Sophomore Standing

## EDLS 303, Introduction to Special Populations, 3 Units

Students explore the historical, social, cultural, and legal mandates that have influenced the treatment of, and educational programs for, individuals with mild to moderate or extensive support needs. Students explore eligibility criteria for special education under the Individuals with Disabilities Education Act (IDEA) and Child Find, as well as prereferral interventions, legal mandates for developing an Individualized Education Program (IEP), determining a Least Restrictive Environment (LRE), and offering a Free and Appropriate Public Education (FAPE) for individuals with special needs. Students consider how a Christian worldview, based on the principles of Imago Dei, guides their work with individuals with special needs to foster an environment where all students are treated with respect, dignity, and intrinsic value. Course includes embedded academic service-learning requirement for a total of 12 hours.
**Prerequisite:** Sophomore standing

## EDLS 304, Introduction to Teaching Special Populations, 3 Units

Students explore educational and program considerations for individuals with special needs, including instructional considerations and strategies across the core content areas, as well as functional academics, for individuals with mild to moderate and extensive support needs. Attention is given to evidenced-based practices, culturally responsive teaching, and differentiation for individuals with special needs. Students reflect on the Christian worldview in relation to student diversity and developing a climate of inclusion, community, and belonging within classrooms. Course includes embedded academic service-learning requirement for a total of 12 hours.
**Prerequisite:** Sophomore standing

## EDLS 405, Diversity in the Classroom, 3 Units

This course focuses on the examination of the interaction of students' cultural backgrounds with ethics, racial, religious, and gender issues; the education setting; and wider social forces that affect traditional success and failure for K-12 students who are linguistically and culturally diverse. Intercultural knowledge and competence are developed, along with an understanding of the important role teachers play in nurturing a spirit of multiculturalism in schools. Students engage with diverse communities and real-world challenges through academic service-learning hours in K-12 education settings. *Meets the General Education Requirement: Intercultural Competence.*
**Prerequisite:** Junior standing

## EDLS 495, Foundations of Education Capstone, 3 Units

Liberal studies students in this course integrate the concepts and skills that they've learned throughout their major coursework and find support as they prepare to transition to graduate teacher-preparation programs or education-related careers. Students reflect on their growth as educators and synthesize knowledge and experiences from their major coursework. They also develop a personal philosophy of education, and generate cross-disciplinary projects that demonstrate their skills in curriculum development and pedagogy. *Meets the General Education Requirement: Integrative and Applied Learning.*
**Prerequisite:** EDLS 200 or EDLS 202, EDLS 405, EDLS 496, and senior standing

## EDLS 496, Writing 3: Education and Professional Ethics, 3 Units

This course prepares students to engage with current issues critical to the education profession, with a focus on educational ethics. Students examine the Christian worldview to facilitate their development of a reflective response, supported by current education research, to a contemporary ethical dilemma relevant to the education profession. The course also includes instruction in writing about education and professional ethics. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*
**Prerequisite:** Junior standing, Writing 2

## EDLS 497, Readings, 1-4 Units

This is a program of study concentrating on assigned readings, discussions, and writing arranged between, and designed by, a student of upper-division standing and a full-time professor. An independent study fee is assessed for each enrollment in this class.

## EDUC 536, Family, Community, and School Connections, 3 Units

This course focuses on community dynamics, community building, and parental involvement as essential components in education. Successful school reform models of parental involvement are examined, along with their connection to higher student achievement. Master's degree candidates discuss and define their role in building strong partnerships with all families, especially those in underserved communities. They utilize asset-based community-building strategies in educational practice as they explore their school communities and conduct capacity inventories. Candidates develop an ethnography representing their deepening understanding of who their students are, how the families and communities in which they are embedded help shape them, and how they can utilize this knowledge to enhance holistic development of students through their practice.
**Prerequisite:** EDUC 560

## EDUC 537, Curriculum Development, Revision, and Evaluation Process, 3 Units

This course applies a systems approach to curriculum design through examining the phases of the process, including analysis, design, development, and evaluation. Master's degree candidates are introduced to keys of effective curriculum design, including setting goals and developing clear and measurable objectives; determining related learning activities and resources to promote learning and accomplish objectives; designing and/or selecting appropriate forms of assessment (formative and summative) to chart student progress; and using multiple forms of feedback for assessing instructional effectiveness, to inform future modifications and revisions. Students learn the purpose of and approach to each phase of the instructional design process and create products for each phase in completing a curriculum design project.
**Prerequisite:** EDUC 560

## EDUC 538, Current Issues in Education, 3 Units

In this course, master's degree candidates investigate, analyze, discuss, and propose solutions for the most significant problems, concerns, and challenges in education today. The course includes four areas of concentration: curriculum, with a focus on instructional design; teaching practice; school organization; and the politics of education. Candidates study current research relevant to course topics, analyze varying perspectives, and evaluate them in terms of teaching and learning effectiveness as well as the quality of life in the school community. Through compilation and synthesis of empirical work on a specific topic area, candidates craft a literature review to demonstrate expertise in current trends and future directions of research.
**Prerequisite:** EDUC 560

## EDUC 546, Digital Communications, 3 Units

This course engages students in collaborative, investigative, and reflective learning opportunities through the exploration of relevant digital communication tools. Attention is given to current modes of communication that utilize a digital platform, and effective strategies for implementation within teaching/learning environments.
**Prerequisite:** EDUC 560

## EDUC 547, Special Topics in Educational Technology, 3 Units

Students in this course explore the current technologies, trends, and a variety of special topics in educational technology. Course material covers practical and theoretical aspects, effectiveness, and problems related to the implementation of the topic into relevant teaching/learning environments. Different topics are offered at different times, so the course may be repeated for credit.
**Prerequisite:** EDUC 560

## EDUC 548, Emerging Trends in Technology, 3 Units

This course covers the historical development of educational technology and the social issues influencing its growth and implementation. Attention is also given to a synthesis of research related to the field, professional organizations serving the discipline, and emerging innovative uses of educational technology.
**Prerequisite:** EDUC 560

## EDUC 556, Historical and Philosophical Perspectives of Disability Studies, 3 Units

This course explores and analyzes the historically key definitions of disability in light of the major theories, methodological approaches, and proposed public policy uses that have shaped them. It also considers how civil rights, human rights, self-determination, social policy, and participative action research have influenced disability studies. A diverse set of current and historical research articles on disability studies is analyzed to model the ways in which different research topics have been addressed and introduce how current research can stimulate future studies. Emphasis is given to the formulation of important research questions and the development of testable hypotheses based on previous theory, literature, and experience, as master's candidates begin to develop initial sections of their capstone research project.
**Prerequisite:** EDUC 560

## EDUC 557, Current Trends in Curriculum and Disability Studies, 3 Units

This course equips candidates with practical and theoretical understanding of curriculum in schooling, with an emphasis on the role performed by the special education teacher or differentiation expert. Course material covers the various approaches to curriculum construction and organization in schools by examining the principles of curriculum improvement, change, and evaluation. Focus is on the theories, research, and best practices related to planning and developing curriculum and its implementation in schools and classrooms in order to address the needs of students in diverse communities.
**Prerequisite:** EDUC 560

## EDUC 558, Research and Collaboration for Special Education, 3 Units

This course provides educational specialists the communication and problem-solving skills to successfully collaborate with families, other educators, related service providers, and individuals with exceptionalities within the K-12 education environment. Additionally, this advanced course enables master's degree candidates in special education to build upon earlier courses and examine educational research within the special education framework, with an emphasis on data collection for action research.
**Prerequisite:** EDUC 560

## EDUC 560, Action Research in Education, 1 Unit

This course introduces students to basic qualitative and quantitative research methods, designs, and reporting strategies. Master's degree candidates are enabled to develop an understanding of the research process by introducing the basic principles of research and academic writing. Through activities integrating theory with practice, candidates learn how to identify problems to study, develop research questions, specify data collection methods and design their action research projects which are continued in a subsequent course.

## EDUC 569, Capstone Seminar, 2 Units

Culminating the MA emphasis courses, the capstone seminar helps students build on the coursework representing their repertoire of academic preparation from the credential and master's programs. Master's candidates complete their action research projects, and create an ePorfolio for compiling assignments that profile their professional identities (personal philosophy, identity and dispositions narrative), their scholarly work (ethnography, curriculum assessment, literature review), and their practical applications (lesson and unit plans, classroom management) in the classroom. In this way, students refine and contribute further to a body of work representing their accomplishments and professional identity. Finally, through this course, candidates enhance their understanding and experience of a community's connection to the school environment.
**Prerequisite:** EDUC 536, EDUC 537, and EDUC 538; or EDUC 546, EDUC 547, and EDUC 548; or EDUC 556, EDUC 557, and EDUC 558

## SPED 500, Candidate Support and Supervision, 1-3 Units

Teacher candidates explore current educational practices and a variety of special topics in the field of education, and course material covers practical and theoretical aspects relevant to the teaching/learning environment. Interns may be required to take this course during their program in an effort to meet program requirements while receiving mandated supervision and support. This course may be repeated four (4) times for credit for a total of 4-12 units.

## SPED 525, Methods of Teaching Reading and Writing, 3 Units

This course prepares teacher candidates to implement a comprehensive literacy program of systematic instruction in reading, writing, listening, speaking, and language aligned with the California Common Core State Standards for English Language Arts and the English Language Arts/English Language Development Framework. Through application of research-based instructional practices, candidates learn specific ways to address the diverse needs of all students.

## SPED 526, Specialized Academic Instruction: Reading, Writing, and Math, 3 Units

This course introduces candidates to multifaceted and multitiered methodologies and strategies necessary for teaching and engaging diverse students with disabilities in mathematics and language arts. Candidates become proficient in making explicit connections between ongoing assessment, student characteristics and strengths, instruction, and curriculum. They learn to analyze data to plan effective and differentiated instruction and interventions, and also how to collaboratively design effective IEP goals while considering the role of technology in those goals.

## SPED 527, Teaching Students with Extensive Support Needs, 3 Units

This course provides teacher candidates with a systems perspective for understanding and supporting individuals with extensive support needs and their families who come from culturally and linguistically diverse backgrounds. Using a person-centered planning approach, candidates examine effective collaborative strategies for team building, Individual Education Program (IEP) development, joint problem solving, and transition planning. Course material covers evidence-based strategies, adaptations, modifications, and technologies that provide access to Common Core standards, functional academics, and life skills. Various models are reviewed, including co-teaching, inclusion, community-based instruction, and vocational training.

## SPED 528, Assessment and IEP Development: Mild to Extensive Support Needs, 3 Units

Teacher candidates in this course examine current assessment mandates for students with mild to extensive support needs, studying test development and learning to evaluate assessment tools based on current research-based policies and mandates. Candidates also learn to administer and interpret norm-criterion reference assessment instruments as well as informal surveys or assessment instruments, and gain an understanding of the influence of cultural and linguistic factors in the development of Individual Education Program (IEP) goals and Individual Transition Plans (ITPs).
**Corequisite:** SPED 550 or SPED 551 or SPED 570 or SPED 571

## SPED 529, Positive Behavior Supports for Students with Exceptional Needs, 3 Units

This course equips teacher candidates with the skills and legal framework essential to the development of positive behavior supports and self-management outcomes for students with disabilities. Candidates examine foundations of behavior disorders, appropriate communication, and behavioral support strategies that align with best practices. The foundations of functional analysis of behavior that leads to the development of positive behavior intervention plans are examined. Models of collaborative practices that lead to positive relationships and critical partnerships with students, families, educators, and agencies are investigated through skill development and self-analysis.
**Corequisite:** SPED 552 or SPED 553 or SPED 572 or SPED 573

## SPED 550, Clinical Practice I: Mild to Moderate Support Needs, 2 Units

Students with mild to moderate support needs require specialized support to address unique learning needs resulting from a range of specific learning disabilities, intellectual disabilities, autism, other health impairments, emotional disturbance, multiple disabilities, traumatic brain injury, orthopedic impairment, or other identified disabilities for which placement in a classroom for students with mild to moderate support needs is deemed appropriate. Teacher candidates, as part of their clinical practice, get on-site experience providing the support described in students' Individualized Education Programs (IEPs). These experiences include, but are not limited to, creating an appropriate physical classroom environment for students with mild/moderate disabilities, conducting formal and informal assessments in order to determine students' current levels of performance, planning for students' grade and instructional levels, and capturing data to support progress on annual goals and short-term objectives that are aligned with California Content Standards. Candidates also monitor students' progress toward instructional goals and state-adopted standards, and, if necessary, identify behaviors impeding learning, and remediate by implementing positive behavior supports. Candidates complete a semester of full-time, supervised student teaching in appropriate public school classrooms, with assignments in classroom grade levels K-12. Each placement provides teaching experiences with English learners and ethnically diverse students. *Meets the General Education Requirement: Integrative and Applied Learning.*
**Corequisite:** SPED 528

## SPED 553, Clinical Practice II: Mild to Moderate Support Needs, 2 Units

Students with mild to moderate support needs require specialized support to address unique learning needs resulting from a range of specific learning disabilities, intellectual disabilities, autism, other health impairments, emotional disturbance, multiple disabilities, traumatic brain injury, orthopedic impairment, or other identified disabilities for which placement in a classroom for students with mild to moderate support needs was deemed appropriate. During their clinical practice experience, teacher candidates are provided with on-site experiences that provide the support described in the students' Individualized Education Programs (IEPs). These experiences include, but are not limited to, creating an appropriate classroom physical environment for students with mild to moderate support needs, conducting formal and informal assessments in order to determine the students' current levels of performance, planning for their grade and instructional level, and capturing data to support progress on annual goals and short-term objectives aligned with California Content Standards. Candidates also monitor students' progress toward instructional goals and state-adopted standards and, if necessary, identify behaviors impeding learning, and remediate by implementing positive behavior supports. Candidates complete a semester of full-time, supervised student teaching in appropriate public school classrooms, with assignments in classroom grade levels K-12. Each placement provides teaching experiences with English learners and ethnically diverse students.
**Prerequisite:** SPED 550;
**Corequisite:** SPED 529

## SPED 570, Clinical Practice I: Extensive Support Needs, 2 Units

Students with extensive support needs require specialized support to address unique learning needs resulting from a range of intellectual, behavioral, emotional, communication, sensory, autism spectrum disorder, and/or motor impairments. Teacher candidates, as part of their clinical practice, get on-site experience providing the support described in the students' Individualized Education Programs (IEPs). These experiences include, but are not limited to, creating an appropriate classroom physical environment for students with extensive support needs, conducting formal and informal assessments in order to determine students' current levels of performance, planning instructional-level annual goals and short-term objectives that are aligned with California Content Standards, monitoring students' progress toward instructional goals and short-term objectives, and identifying behaviors impeding learning and then remediating by implementing positive behavior supports. Candidates complete a semester of full-time, supervised student teaching in appropriate public school classrooms, with assignments in classroom grade levels K-12. Each placement provides teaching experiences with English learners and ethnically diverse students.
**Corequisite:** SPED 528

## SPED 573, Clinical Practice II: Extensive Support Needs, 2 Units

Students with extensive support needs require specialized support to address unique learning needs resulting from a range of intellectual, behavioral, emotional, communication, sensory, autism spectrum disorder, and/or motor impairments. Teacher candidates, as part of their clinical practice, get on-site experience providing the support described in the students' Individualized Education Programs (IEPs). These experiences include, but are not limited to, creating an appropriate classroom physical environment for students with extensive support needs, conducting formal and informal assessments in order to determine students' current levels of performance, planning instructional-level annual goals and short-term objectives aligned with California Content Standards, monitoring students' progress toward instructional goals and short-term objectives, and identifying behaviors impeding learning and then remediating by implementing positive behavior supports. Candidates complete a semester of full-time, supervised student teaching in appropriate public school classrooms, with assignments in classroom grade levels K-12. Each placement provides teaching experiences with English learners and ethnically diverse students.
**Prerequisite:** SPED 570;
**Corequisite:** SPED 529

## SPED 599, Readings in Special Education, 1-3 Units

Consists of a program of study concentrating on assigned readings, discussions, field experiences, and/or writing arranged between, and designed by, a student and a full-time professor. An independent study fee is assessed for each enrollment in this class.

## TEP 511, Art of Teaching II: Pedagogy and Instructional Design, 3 Units

This course explores pedagogy as the combination of teachers' professional knowledge, skills, and abilities, which are directed to create effective learning opportunities and outcomes for all students in a range of contexts. Building on broad themes from TESP 501 The Art of Teaching I, teacher candidates explore pedagogical methods and specific models for meeting individual student needs, utilizing universal and individualized strategies. Attention is given to culturally responsive teaching practices for learners with diverse cultural and ethnic identities, as well as differentiation practices for students with various learning needs. Candidates further analyze the relationship between curriculum, pedagogy, and assessment, and examine and reflect on the Christian worldview in relation to student diversity and developing a climate of equity and collaboration within classrooms. This course includes 15 hours of required field experience in a k-12 school.
**Prerequisite:** TESP 501

## TEP 512, Science of Teaching II: Effective Assessment Strategies for All Learners, 3 Units

Students in this course explore strategies for designing standards and data-driven curricular plans and units to serve diverse (e.g., culturally, linguistically, and/or ability-diverse) student populations. Teacher candidates engage in the administration and analysis of formative, summative, and diagnostic assessment to inform the ongoing development of differentiated instruction that serves the unique academic needs of students from diverse, intersecting backgrounds and identities. In view of the academic achievement gap that exists in California k-12 schools, candidates utilize assessment results, alongside state frameworks and current standards specific to their specialization, in development of further curriculum/planning, instruction, and assessment cycles that demonstrate the use of instructional strategies, materials, technologies, and other resources to make content connected, contextualized, and accessible to all students. Candidates consider how a Christian worldview catalyzes their commitment to engage fully in the work of creating classrooms that meet the needs of all their students. This course includes 15 hours of required field experience in a k-12 school.
**Prerequisite:** TESP 502

## TEP 521, Methods of Teaching Reading and Writing (K-8), 3 Units

This course prepares teacher candidates to implement a comprehensive literacy program of systematic instruction in reading, writing, listening, speaking, and language aligned with the California Common Core State Standards for English Language Arts and the English Language Arts/English Language Development Framework. Through application of research-based instructional practices, candidates learn specific ways to address the diverse needs of all students.

## TEP 522, Methods of Teaching Mathematics (K-8), 3 Units

This course introduces teacher candidates to the California Common Core State Standards for Mathematics and the Standards for Mathematical Practice. In addition to relevant theory, the course focuses on pedagogical methods and strategies for teaching math to all students in K-8 classrooms. This course prepares teacher candidates to develop curriculum designed to ensure the success of diverse student populations. Moreover, issues addressed in the course include, but are not limited to technology integration; differentiated instruction and culturally appropriate pedagogical practices; and subject-specific strategies for teaching and assessing.

## TEP 523, Methods of Teaching Science (K-8), 2 Units

This course introduces credential candidates to state-adopted K-8 Next Generation Science Standards and the 2016 Science Framework for California Public Schools: Kindergarten Through Grade Twelve, as well as science concepts and principles, scientific investigation, experimentation, and student assessment. Emphasis is on balanced instruction between Disciplinary Core Ideas, Crosscutting Concepts, and Scientific and Engineering Practices as described in the Next Generation Science Standards. This course also focuses on facilitating K-8 students' ability to independently read and comprehend instructional materials and graphic/media representations, integrate mathematical concepts and practices in scientific investigations, develop academic language, engage in disciplinary discourse practices, and understand the connections between science, society, technology, and the environment. The teaching of physical education and health education in grades K-8 is also covered.
**Corequisite:** TEP 551

## TEP 524, Methods of Integrating the Humanities (K-8), 2 Units

This course, intended for students in clinical practice (student teaching or intern placements), introduces methods of connecting moral and civic education with the social sciences and the arts through thematic teaching, in ways that comply with state frameworks and academic content standards, specifically focusing on the California Common Core State Standards. Course material utilizes a wide range of high-quality children's literature and performing and visual arts strategies. Emphasis is on a meaning-centered, diverse humanities curriculum designed to promote critical thinking skills and meet the needs of all students, including those with special needs and those from culturally and linguistically diverse backgrounds.
**Corequisite:** TEP 552

## TEP 531, Methods of Teaching Reading and Writing (7-12), 3 Units

This course includes intensive instruction in reading and language arts methods grounded in methodically sound research, to be incorporated in all subject areas. The study of secondary reading and language arts methods includes effective strategies and methods for guiding and developing the content-based reading and writing abilities of all students, including students with varied reading levels and language backgrounds. Teacher candidates examine well-designed systematic instructional programs, and the implementation of California Common Core State Standards (CCSS) for reading and writing in an integrated fashion with the standards for their subject area.

## TEP 532, Secondary Pedagogy I: Teaching in Secondary Schools (7-12), 2 Units

This course is designed for individuals who are teaching in middle or high school subject areas, such as math, ELA, social studies, science, art, physical education, music, etc. Teacher candidates in this course explore the teacher's and the students' roles in middle and high school classrooms. This course focuses on the history, development, and reform measures of middle and high schools to create positive environments that foster inquiry and promote a meaningful learning setting, including trends addressing cultural diversity. Aspects of middle and high school covered in this course include student-centered learning; critical teaching skills for making lessons relevant to students (including culturally relevant practices); cognitive and behavioral development as it affects curriculum design; lesson planning; differentiated instruction; use of technology; assessment; and intentional, reflective teaching practices. All assignments are completed in the subject area for which the individual is seeking the Single Subject Teaching Credential.
**Corequisite:** TEP 561

## TEP 533, The Differentiated Classroom: Maximizing Capacity of Each Learner (7-12), 3 Units

This course explores the philosophical and practical aspects of differentiation as defined by the entirety of classroom practice by the interdependence of the key aspects of curriculum, instruction, assessment, the learner, and the learning environment. Teacher candidates engage in activities that support the development of a teaching philosophy and practice that cultivates the K-12 learner as an active participant with a shared understanding of an investment in a differentiated classroom. Teacher candidates develop competence in analyzing and applying knowledge of K-12 students' achievement, instructional needs, social-emotional needs, cultural and language factors, and other relevant data necessary to improve teaching and learning for all students. Candidates also begin the development of an Individualized Learning Plan to gain competence as a reflective practitioner and further develop the professional knowledge, skills, and dispositions necessary to meet the expectations for beginning teachers as outlined in the California Teaching Performance Expectations.

## TEP 534, Secondary Pedagogy II: Content-Specific Strategies, Teaching, and Assessment (7-12), 2 Units

This course engages candidates who are in clinical practice (student teaching or intern placements) in discussion of common challenges faced by teacher candidates in secondary classrooms, and also focuses on content-specific pedagogical strategies by subject matter. Issues addressed in the course include, but are not limited to, teacher beliefs and their effect on student performance; classroom management; effective curriculum and lesson development; culturally appropriate pedagogical practices; the "plan, teach, assess, reflect, and apply" cycle; content-specific strategies for teaching and assessing; and preparation for the workforce. Individual concerns and issues raised during student teaching or the internship are addressed.
**Prerequisite:** TEP 532;
**Corequisite:** TEP 562

## TEP 551, Clinical Practice I: Multiple Subject Credential, 2 Units

Clinical practice gives teacher candidates a culminating preparatory experience toward which the teacher candidate's entire teacher education program has been planned. The purpose is to develop and verify beginning-level teaching competency in candidates by the end of the clinical practice semester, according to standards set by the California Commission on Teacher Credentialing (CTC) and the Council for the Accreditation of Educator Preparation (CAEP). Clinical practice provides a full-time, experience-based program in which teacher candidates (contracted and noncontracted) have opportunities to participate as classroom teachers in schools while supervised by a university mentor. Focus is given to many areas of background learning and to coordinating those areas into a meaningful set of experiences. These experiences include, but are not limited to, designing and implementing instruction for their multiple subject grade level and learners, promoting and supporting rigorous and appropriate content in their lessons, creating a positive environment for students with diverse needs, and reflecting in order to monitor student learning and adjust instruction. Clinical practice also provides teaching experiences with English learners and ethnically diverse students. *Meets the General Education Requirement: Integ Applied Learning (TEP 551 + TEP 552).*
**Corequisite:** TEP 523

## TEP 552, Clinical Practice II: Multiple Subject Credential, 2 Units

Clinical practice gives teacher candidates a culminating preparatory experience toward which the teacher candidate's entire teacher education program has been planned. The purpose is to develop and verify beginning-level teaching competency in candidates by the end of the clinical practice semester, according to standards set by the California Commission on Teacher Credentialing (CTC) and the Council for the Accreditation of Educator Preparation (CAEP). Clinical practice provides a full-time, experience-based program in which teacher candidates (contracted and noncontracted) have opportunities to participate as classroom teachers in schools while supervised by a university mentor. Focus is given to many areas of background learning and to coordinating those areas into a meaningful set of experiences. These experiences include, but are not limited to, designing and implementing instruction for their multiple subject grade level and learners, promoting and supporting rigorous and appropriate content in their lessons, creating a positive environment for students with diverse needs, and reflecting in order to monitor student learning and adjust instruction. Clinical practice also provides teaching experiences with English learners and ethnically diverse students. *Meets the General Education Requirement: Integ Applied Learning (TEP 551 + TEP 552).*
**Prerequisite:** TEP 551;
**Corequisite:** TEP 524

## TEP 561, Clinical Practice I: Single Subject Credential, 2 Units

Clinical practice gives teacher candidates a culminating preparatory experience toward which the teacher candidate's entire teacher education program has been planned. The purpose is to develop and verify beginning-level teaching competency in candidates by the end of the clinical practice semester, according to standards set by the California Commission on Teacher Credentialing (CTC) and the Council for the Accreditation of Educator Preparation (CAEP). Clinical practice provides a full-time, experience-based program in which teacher candidates (contracted and noncontracted) have opportunities to participate as classroom teachers in schools while supervised by a university mentor. Focus is given to many areas of background learning and to coordinating those areas into a meaningful set of experiences. These experiences include, but are not limited to, designing and implementing instruction for their single subject content area and learners, promoting and supporting rigorous and appropriate content in their lessons, creating a positive environment for students with diverse needs, and reflecting in order to monitor student learning and adjust instruction. Clinical practice also provides teaching experiences with English learners and ethnically diverse students. *Meets the General Education Requirement: Integ Applied Learning (TEP 561 + TEP 562).*
**Corequisite:** TEP 532

## TEP 562, Clinical Practice II: Single Subject Credential, 2 Units

Clinical practice gives teacher candidates a culminating preparatory experience toward which the teacher candidate's entire teacher education program has been planned. The purpose is to develop and verify beginning-level teaching competency in candidates by the end of the clinical practice semester, according to standards set by the California Commission on Teacher Credentialing (CTC) and the Council for the Accreditation of Educator Preparation (CAEP). Clinical practice provides a full-time, experience-based program in which teacher candidates (contracted and noncontracted) have opportunities to participate as classroom teachers in schools while supervised by a university mentor. Focus is given to many areas of background learning and to coordinating those areas into a meaningful set of experiences. These experiences include, but are not limited to, designing and implementing instruction for their single subject content area and learners, promoting and supporting rigorous and appropriate content in their lessons, creating a positive environment for students with diverse needs, and reflecting in order to monitor student learning and adjust instruction. Clinical practice also provides teaching experiences with English learners and ethnically diverse students. *Meets the General Education Requirement: Integ Applied Learning (TEP 561 + TEP 562).*
**Prerequisite:** TEP 561;
**Corequisite:** TEP 534

## TEP 590, Candidate Support and Supervision, 1-3 Units

Teacher candidates explore current educational practices and a variety of special topics in the field of education, and course material covers practical and theoretical aspects relevant to the teaching/learning environment. Interns may be required to take this course during their program in an effort to meet program requirements while receiving mandated supervision and support. This course may be repeated four (4) times for credit for a total of 4-12 units.

## TEP 599, Readings in Teacher Education, 1-3 Units

Consists of a program of study concentrating on assigned readings, discussions, field experiences, and/or writing arranged between, and designed by, a student and a full-time professor. An independent study fee is assessed for each enrollment in this class.

## TESP 501, Art of Teaching I: Foundations of Teaching, 3 Units

This course provides an introduction to basic pedagogy, including classroom management, lesson planning and teaching, standards-based instruction, teaching strategies for students with diverse identities and needs, and the application of technology to support teaching and learning. Teacher candidates consider strategies, models, and processes for meeting the needs of a broad range of K-12 students, including special needs students, gifted students, English language learners, speakers of nondominant varieties of English, and students of all cultural or ethnic identities. This course is designed for direct application of classroom learning by candidates in a collaborative context that implements inclusion. Candidates examine Christian character and develop an understanding of grace in the Christian worldview as applied in classroom contexts, in consideration of meeting the needs of students and building community within the classroom. This course includes 15 hours of required field experience in a K-12 school.

## TESP 502, Science of Teaching I: How Students Learn, 3 Units

This course comprises a basic overview of human growth and development for all students in the K-12 environment. Teacher candidates identify how research on the neuroscience of learning, theories of learning, and student motivation affect current understanding of student development through the K-12 education experience. They then creatively and collaboratively investigate how this knowledge can enable them to meet the needs of all students, including underserved populations, English language learners, and individuals with diverse learning needs (from gifted learners to individuals with mild to severe disabilities). Candidates also examine their own cultural beliefs, attitudes toward diversity, and related assumptions, identifying how these might affect student learning and achievement in their classrooms. Candidates demonstrate applied knowledge of communication styles and strategies for fostering positive cross-cultural interactions among students who are diverse in terms of culture, language, and ability. Finally, candidates reflect on the need to support the development of all students from a Christian worldview. This course includes 15 hours of required field experience in a K-12 school. *Meets the General Education Requirement: Social Science.*

## TESP 503, The Soul of Teaching: Tapestry of American Education, 3 Units

This course introduces teacher candidates to the history of American education and a sampling of modern philosophies of education, examined through the lens of a Christian worldview. Specific consideration is given to the ways in which historical trends have contributed to today's education system, including how social and philosophical movements, as well as policy changes, have shaped the growth and inclusiveness of education in the U.S. Candidates reflect on the continued need for education equity for all students in U.S. schools, and explore inclusive practices for diverse populations, professional dispositions, teacher resiliency, and their role in perpetuating social justice in education. They engage culturally appropriate response strategies that enhance learning opportunities in a cross-cultural context, and identify how a Christian worldview enables and directs a commitment to principles of equity and justice in their practice. *Meets the General Education Requirement: Intercultural Competence.*

## TESP 504, Schools and Educational Systems, 3 Units

This course explores the legal, ethical, and organizational systems (federal, state, district, and school) within which teachers conduct their work. Teacher candidates engage in an examination of school and community cultures and their impact on learning, by focusing on the ways teachers communicate and collaborate with external and internal stakeholders to provide equitable access to all students. Additionally, contractual responsibilities and professional expectations are addressed. Candidates also consider the ways in which educators, from a Christian worldview, can advocate to transform social problems impacting school culture. *Meets the General Education Requirement: Civic Knowledge and Engagement.*

# Elementary and Secondary Education

The Elementary and Secondary Education area of the Division of Teacher Education offers a Bachelor of Arts in Liberal Studies to prepare undergraduate students seeking careers as elementary school teachers with the breadth of content knowledge needed to teach in an elementary setting. The area also offers master's degree and credential programs for candidates seeking a California Preliminary Teaching Credential authorizing them to teach in a public elementary, middle, or high school setting. APU's Multiple Subject Teaching Credential programs prepare teachers for positions at the elementary level, providing a breadth of knowledge over the TK-8 continuum for self-contained classrooms. The Single Subject Teaching Credential programs prepare teachers for positions at the middle and high school levels (6-12), with focus in their specific subject area. The area assesses all candidates at admission, throughout their program, and up to the recommendation of credentials. Assessments are used to evaluate and inform candidate learning and include the following assessment areas: California Commission on Teacher Credentialing (CTC) (https://www.ctc.ca.gov/) teacher performance expectations, APU program learning outcomes, and teacher candidate dispositions.

## Programs

### Major

- Bachelor of Arts in Liberal Studies/Undergraduate Education K-8 Program (p. 518)

### Minor

- Minor in Liberal Studies (p. 530)

### Master's

- Master of Arts in Education: Learning and Technology and Multiple Subject Teaching Credential (p. 524)
- Master of Arts in Education: Learning and Technology and Single Subject Teaching Credential (p. 525)
- Master of Arts in Education: Teaching and Multiple Subject Teaching Credential (p. 527)
- Master of Arts in Education: Teaching and Single Subject Teaching Credential (p. 528)

### Credentials

- Multiple Subject Teaching Credential (p. 531)
- Single Subject Teaching Credential (p. 532)

## Courses

### EDLS 200, Introduction to Teaching as a Profession K-12, 4 Units

This course provides an overview of civic knowledge and engagement through the teaching profession, focusing on the art of teaching at the K-12 level. Topics include California Standards for the Teaching Profession, California Content Standards and Curriculum Frameworks, school organization, curriculum and pedagogical practices, classroom management, and assessment. The academic service learning portion of the course requires 30 hours in a K-12 school and 15 hours in teacher related experiences. *Meets the General Education Requirement: Civic Knowledge and Engagement.*
**Prerequisite:** Sophomore standing

## EDLS 202, Introduction to Teaching as a Profession (7-12), 4 Units

This course provides an overview to the teaching profession, focusing on the art of teaching at the 7-12 level. Issues addressed surround the Common Core standards, the California State Standards for the Teaching Profession, and the California Content Standards, including school organization, curriculum and pedagogical practices, classroom management, and assessment. The service-learning lab requires 45 hours in a 7-12 school. *Meets the General Education Requirement: Civic Knowledge and Engagement.*
**Prerequisite:** Sophomore Standing

## EDLS 303, Introduction to Special Populations, 3 Units

Students explore the historical, social, cultural, and legal mandates that have influenced the treatment of, and educational programs for, individuals with mild to moderate or extensive support needs. Students explore eligibility criteria for special education under the Individuals with Disabilities Education Act (IDEA) and Child Find, as well as prereferral interventions, legal mandates for developing an Individualized Education Program (IEP), determining a Least Restrictive Environment (LRE), and offering a Free and Appropriate Public Education (FAPE) for individuals with special needs. Students consider how a Christian worldview, based on the principles of Imago Dei, guides their work with individuals with special needs to foster an environment where all students are treated with respect, dignity, and intrinsic value. Course includes embedded academic service-learning requirement for a total of 12 hours.
**Prerequisite:** Sophomore standing

## EDLS 304, Introduction to Teaching Special Populations, 3 Units

Students explore educational and program considerations for individuals with special needs, including instructional considerations and strategies across the core content areas, as well as functional academics, for individuals with mild to moderate and extensive support needs. Attention is given to evidenced-based practices, culturally responsive teaching, and differentiation for individuals with special needs. Students reflect on the Christian worldview in relation to student diversity and developing a climate of inclusion, community, and belonging within classrooms. Course includes embedded academic service-learning requirement for a total of 12 hours.
**Prerequisite:** Sophomore standing

## EDLS 405, Diversity in the Classroom, 3 Units

This course focuses on the examination of the interaction of students' cultural backgrounds with ethics, racial, religious, and gender issues; the education setting; and wider social forces that affect traditional success and failure for K-12 students who are linguistically and culturally diverse. Intercultural knowledge and competence are developed, along with an understanding of the important role teachers play in nurturing a spirit of multiculturalism in schools. Students engage with diverse communities and real-world challenges through academic service-learning hours in K-12 education settings. *Meets the General Education Requirement: Intercultural Competence.*
**Prerequisite:** Junior standing

## EDLS 495, Foundations of Education Capstone, 3 Units

Liberal studies students in this course integrate the concepts and skills that they've learned throughout their major coursework and find support as they prepare to transition to graduate teacher-preparation programs or education-related careers. Students reflect on their growth as educators and synthesize knowledge and experiences from their major coursework. They also develop a personal philosophy of education, and generate cross-disciplinary projects that demonstrate their skills in curriculum development and pedagogy. *Meets the General Education Requirement: Integrative and Applied Learning.*
**Prerequisite:** EDLS 200 or EDLS 202, EDLS 405, EDLS 496, and senior standing

## EDLS 496, Writing 3: Education and Professional Ethics, 3 Units

This course prepares students to engage with current issues critical to the education profession, with a focus on educational ethics. Students examine the Christian worldview to facilitate their development of a reflective response, supported by current education research, to a contemporary ethical dilemma relevant to the education profession. The course also includes instruction in writing about education and professional ethics. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*
**Prerequisite:** Junior standing, Writing 2

## EDLS 497, Readings, 1-4 Units

This is a program of study concentrating on assigned readings, discussions, and writing arranged between, and designed by, a student of upper-division standing and a full-time professor. An independent study fee is assessed for each enrollment in this class.

## EDUC 536, Family, Community, and School Connections, 3 Units

This course focuses on community dynamics, community building, and parental involvement as essential components in education. Successful school reform models of parental involvement are examined, along with their connection to higher student achievement. Master's degree candidates discuss and define their role in building strong partnerships with all families, especially those in underserved communities. They utilize asset-based community-building strategies in educational practice as they explore their school communities and conduct capacity inventories. Candidates develop an ethnography representing their deepening understanding of who their students are, how the families and communities in which they are embedded help shape them, and how they can utilize this knowledge to enhance holistic development of students through their practice.
**Prerequisite:** EDUC 560

## EDUC 537, Curriculum Development, Revision, and Evaluation Process, 3 Units

This course applies a systems approach to curriculum design through examining the phases of the process, including analysis, design, development, and evaluation. Master's degree candidates are introduced to keys of effective curriculum design, including setting goals and developing clear and measurable objectives; determining related learning activities and resources to promote learning and accomplish objectives; designing and/or selecting appropriate forms of assessment (formative and summative) to chart student progress; and using multiple forms of feedback for assessing instructional effectiveness, to inform future modifications and revisions. Students learn the purpose of and approach to each phase of the instructional design process and create products for each phase in completing a curriculum design project.
**Prerequisite:** EDUC 560
