

Declaring or Changing a Minor

Professional undergraduate students requesting a declaration or change of minor or concentration must complete a Professional Minor/Concentration Request Form (<https://www.apu.edu/student-services/registration/#gradproforms>) and obtain approval from the department/program. Students may add minors or concentrations up to the time at which they apply for graduation. If you wish to add a minor or concentration after applying for graduation, consult your academic records specialist in the Office of the Registrar (<https://www.apu.edu/student-services/registration/>) to verify that the minor can be simultaneously completed with the major degree program.
