

# Math Placement Assessment

---

Professional students who need to take PRMA 110, PRMA 130, or UNRS 299 and lack the course prerequisites (<https://www.apu.edu/student-services/registration/#requirement>) are required to use ALEKS in order to demonstrate preparedness to take these courses. ALEKS PPL (<https://www.apu.edu/student-services/registration/#aleks>) is a state-of-the-art placement system that enables students to take a placement assessment (<https://www.apu.edu/student-services/registration/#start>) up to five times and provides a personalized Prep and Learning Module (<https://www.apu.edu/student-services/registration/#prep>) to help students review in between assessments.

The required ALEKS scores are indicated in the table below.

| Course(s)                         | Prerequisite(s)  |
|-----------------------------------|--|
| College Algebra (PRMA 110)        | ALEKS score of 45-59 (a score of 60 or higher waives PRMA 110) |
| Statistics (PRMA 130)             | ALEKS score of 30 or higher                                    |
| Statistics for Nursing (UNRS 299) | ALEKS score of 45 or higher                                    |
